

My Master 2071

Chapter 2071

Cao Zhen was puzzled, he wasn't particularly familiar with Ju E, yet Ju E didn't treat him as an outsider. She directly began her cultivation after asking him to guard, without any fear of him launching a sneak attack on her.

Who knows how long Ju E's cultivation would take?

He decided to sit to the side and begin cultivating as well.

His other spells could be won effortlessly, but the spells of Qin Yuan and Zi Tie, those two Great Demons, required him to cultivate himself.

As for Xiang Ziyu and Ruo Yun, they also paused, waiting for their master to relay new information.

Meanwhile, Venerable Gui Jian and others started returning to the city; their time outside was about done.

The people of the Eastern Wasteland entered the Outer Heaven Battlefield together, and disciples from the various Great Teachings and Sects accompanying the teams went outside to explore.

Generally, these teams with newcomers wouldn't venture deep into the Outer Heaven Battlefield, instead, they would operate near the human-controlled cities.

Yet even so, some teams faced attacks, and deaths could occur.

In a mountain range, a twenty-member Human Clan team watched as several Prison clan members suddenly appeared and ambushed them, quickly fleeing into the distance.

Though they started running immediately, there were too many of the Prison clan, about forty, and their average strength surpassed them.

In just a moment, several Human Clan experts were downed.

“Quick, run, don’t worry about us. If one of you can live, that’s enough...” a disciple from the Eastern Wilderness Sect shouted loudly to a distant woman, who cast a deep glance backward and suddenly turned to flee into the distance!

But behind her, two Prison clan members gave close chase.

In just an instant, the two had reached her side.

Looking around, she saw there was no one to call for help.

In the next moment, a misty layer seemed to form in her eyes, within it were myriad charms.

The two Prison clan members met eyes with her, seeing in her the most beautiful female of their kind, their gazes turning immediately lecherous.

Yet instead of attacking them, she turned and flew quickly toward the distance.

In no time, she had disappeared.

After flying a distance, sensing no one following, she stopped, found a cave to hide in.

She could leave now, but she remained behind, knowing the people of the Eastern Wilderness Sect died here. She couldn’t save them, but at least she should collect their bodies.

“My cultivation base is still too weak. If my cultivation base were stronger, even at the risk of exposing myself, I would save him.”

She muttered to herself, her face full of self-blame, remembering how she left Soul Breaking Demonic Sect, changed her name, and joined the Eastern Wilderness Sect.

Originally, she just wanted a Great Teaching, to gradually enhance her cultivation, even imagining she could one day become the Sect Hierarchy of the Eastern Wilderness Sect.

But over time, as her stay at Eastern Wilderness Sect lengthened, she found herself unknowingly treating it as home.

While at the Soul Breaking Demonic Sect, especially after the elders of her lineage slept, she had to stay alert, wary of others every day.

Among the disciples of the Soul Breaking Demonic Sect, mutual schemes abounded, and if benefits were involved, betrayal was certain.

But in Eastern Wilderness Sect, she truly felt the warmth of home; her peers helped one another, everyone's aim was the same, to make Eastern Wilderness Sect better.

She had developed feelings for the Eastern Wilderness Sect.

Eventually, she even realized that becoming the Sect Hierarchy of the Eastern Wilderness Sect and treating it as her root did not conflict.

Because the Eastern Wilderness Sect was a Great Teaching formed by various combined sects, even including a sect like Thousand Caves Door, which had countless lineages.

The rules of the Eastern Wilderness Sect dictated that regardless of who one was in the sect, be they Zen cultivators, Taoist cultivators, scholar cultivators, or those practicing calligraphy or the Painting Way, as long as they were strong enough, they could become the Sect Hierarchy.

So later, when her cultivation base had increased, growing her own lineage, even becoming the Sect Hierarchy, didn't conflict with considering Eastern Wilderness Sect as her root.

Because Eastern Wilderness Sect was all-encompassing.

Thus, she gradually considered herself part of the Eastern Wilderness Sect, and this time when they were choosing people to enter the Outer Heaven Battlefield, she volunteered.

“Dong dong dong...”

Suddenly, footsteps resounded outside the cave.

The face of the Mesmerizing Demon abruptly showed a trace of vigilance; someone was coming! She had fled so far, yet they still followed?

No, it wasn't the Prison clan, it was a person.

Soon, a beautiful woman appeared in her sight.

“Venerable Qing Shi, it's you.”

Even though the Mesmerizing Demon saw a human, she didn't completely relax inside; this woman, like her, was a newcomer to the Outer Heaven Battlefield, joining the same team.

This woman had seemed cold before, rarely communicating with others.

She hadn't had much of an impression of her, just knowing this woman was at the Mid Immortality Regainment Realm.

Chapter 2072: Sacrifice of the Enchantress Soul Demon

Just as they were scattering to escape, she did not notice this woman.

Under different circumstances, if she met this woman, she might not be so wary. After all, everyone belongs to the Human Clan, and now the Human Clan is facing the six major Alien Races. All humans should unite and not fight like before.

But the current situation is different. She had fled so far and found a concealed cave to hide in, yet the other party managed to track her down.

How did this woman find her?

She absolutely did not believe this was a coincidence.

Demonic Lord Qing Shi looked at the woman before him, who exuded an innate allure with every move, revealing a satisfied smile on his face. He took slow steps towards her, admiringly saying, "Truly deserving of the Innate Allure Bone, this kind of charm isn't something that can be cultivated later."

The Mesmerizing Demon's expression changed dramatically upon hearing the words Innate Allure Bone. Her Demonic Qi surged, and she looked at the other party with a wary expression, coldly asking, "Who are you!"

"Me? Don't you know my name? But, you should address me as Demonic Lord Qing Shi and not lightly as Venerable because I am also a reincarnated Great Ability." Demonic Lord Qing Shi said, pausing slightly, looking at the Mesmerizing Demon as though watching his junior, "Or, you should call me Ancestral Elder, Mesmerizing Demon."

The Mesmerizing Demon's face changed again, sensing that the other party knew her identity. More shockingly, the other party knew about her lineage, even suggesting he was her Ancestral Elder.

Could it be that the other party is a former Ancestral Elder who never actually died, and then reincarnated?

If that's truly the case, then she is in danger!

The reason she was able to break through so quickly into the Immortality Regainment Realm was that an elder from her lineage sacrificed herself.

Their lineage has a special Cultivation Technique that allows for self-sacrifice, accelerating the breakthroughs of those who practice the same technique!

Her elder said that because the Soul Breaking Demonic Sect no longer existed and they were barely surviving, coupled with her good talent, she self-sacrificed.

However, the Demonic Lord Qing Shi in front of her would absolutely not do the same.

They can sacrifice themselves, and they can also forcibly sacrifice others!

"You seem to understand something." Demonic Lord Qing Shi, with a faint smile, said, "Although my cultivation speed after reincarnation is quite good, it still isn't enough. The world today is too chaotic, and I need more power.

So, it's time for you to make some contributions.

Rest assured, once I recover my past life's power, I will restore the glory of our lineage. Don't wear that expression; you should smile, you know? Isn't it your wish for our lineage to shine again?

Your self-sacrifice is the greatest contribution you can make, because it's through me that our lineage can truly flourish. So, you should be happy."

As the words fell, black lights flew out from around Demonic Lord Qing Shi, instantly entering the Mesmerizing Demon's body.

In just an instant, the Mesmerizing Demon's gaze turned vacant.

Meanwhile, the black lights did not fully sever; their other ends remained connected to Demonic Lord Qing Shi, with streams of black energy flowing into him through these lights.

In no time, Demonic Lord Qing Shi's aura began to rapidly climb, while opposite him, the originally dazzling Mesmerizing Demon quickly lost her radiance, her face becoming dull and lackluster.

Slowly, the Mesmerizing Demon's body continued to wither away.

Three days later, the Mesmerizing Demon's aura, even her physical body and bones, had been completely extracted by Demonic Lord Qing Shi, leaving only a thin layer of skin.

And Demonic Lord Qing Shi, though her appearance remained unchanged, gave off a more irresistibly enchanting presence, seeming almost a different person from the one there three days before, while her aura had significantly increased.

Now, she had entered the Late Immortality Regainment Realm, seemingly on the verge of reaching the Peak Immortality Regainment Realm.

"This is the power of the Innate Allure Bone, truly a nostalgic strength."

Demonic Lord Qing Shi looked at the Mesmerizing Demon's corpse below, gently shook her head and sighed, "Initially, you could have lived a bit longer, but your elders were too impatient, forcibly enhancing your cultivation base.

They sacrificed themselves, and though their power entered your body, much of it was lost. When I optimize you, further loss is inevitable, both times together... the loss is substantial.

So I can only sacrifice you now.

Don't worry, very soon, your masters, senior teachers, and grandmasters will come to you."

Demonic Lord Qing Shi, sensing the changes in her power, wore a satisfied smile, turned, left the cave, and flew towards the distance.

Cao Zhen remained in the cave, cultivated slightly, then suddenly sensed a change in his aura.

"What's going on? It seems someone I'm connected to has experienced a significant enhancement?"

Cao Zhen, curious, checked the users he was connected to, quickly showing astonishment on his face.

User: Demonic Lord Qing Shi.

Gender: Female

Cultivation Base: Late Immortality Regainment Realm (5100 zhang of the Immortal Mountain)

This...

This transformation is too rapid!

Chapter 2073:

Back when he arrived, in the team from their Eastern Wasteland, he also saw Demonic Lord Qing Shi, but he didn't go looking for Demonic Lord Qing Shi, nor even glanced more than once, because Demonic Lord Qing Shi came to the Outer Heaven Battlefield, he must be here to fight the alien races.

At this moment, he didn't want to delve into past grievances.

He had also specially checked Demonic Lord Qing Shi's records; at that time, Demonic Lord Qing Shi was only at the Mid Immortality Regainment Realm, and the Immortal Mountain was about three thousand five hundred feet.

It's only been a few days, and in the blink of an eye, Demonic Lord Qing Shi has actually broken through!

Even if at that time, Demonic Lord Qing Shi was on the verge of breaking through from the Mid to Late Immortality Regainment Realm, one could understand breaking through, but how to explain that Immortal Mountain!

If Demonic Lord Qing Shi had just broken through, her Immortal Mountain couldn't have increased so much at once, it should be growing slowly!

Now, Demonic Lord Qing Shi is probably about to enter the Peak Immortality Regainment Realm.

What made her leap so much suddenly?

And then he thought of the little fox, Ju E's cultivation base shouldn't have been so high either, but now Ju E is also starting to impact the Late Immortality Regainment Realm.

So, it's not only oneself with means to rapidly break through. Those reincarnated great abilities, or maybe some great families, they all have some special means to let themselves, or the geniuses among their descendants, grow rapidly.

Cao Zhen continued looking downward.

Identity: Loose Cultivator, Reincarnated Great Ability!

Previously, Demonic Lord Qing Shi's identity showed as Wanxiao Sect, Temporary Sect Hierarchy of the Eastern Province Branch, Reincarnated Great Ability.

But, when chaos engulfed the world, and the great teachings from the Central Continent headed to the Four Continents of East, West, South, North, Demonic Lord Qing Shi's identity became a Loose Cultivator. It seems she did something extremely outrageous when she became the Temporary Sect Hierarchy, so she escaped from Wanxiao Sect.

It's quite remarkable for her, Wanxiao Sect is a great teaching specializing in intelligence gathering, yet after discovering issues with Demonic Lord Qing Shi, they surprisingly didn't capture her.

Or maybe, the current chaotic world saved Demonic Lord Qing Shi.

Is it because the chaos gives Wanxiao Sect no time to deal with Demonic Lord Qing Shi?

Cao Zhen didn't know the exact reason; he continued looking downward.

Recreational Aptitude: Sky Seducing Body, Innate Allure Bone!

Innate Allure Bone!

Demonic Lord Qing Shi didn't have Innate Allure Bone before. Moreover, this is Innate Allure Bone, how did Demonic Lord Qing Shi suddenly attain it?

Even if she gained Allure Bone, it should be acquired rather than innate.

But China Cloud can't be wrong, Demonic Lord Qing Shi truly transformed into Innate Allure Bone.

So, this is the reason why Demonic Lord Qing Shi suddenly became so much more! For Demonic Lord Qing Shi, having Innate Allure Bone is more important than her Immortal Mountain increasing by over a thousand feet.

After all, having read Demonic Lord Qing Shi's dossiers before, many of the spells she knew required Innate Allure Bone for cultivation.

Now, Demonic Lord Qing Shi can cultivate all those spells.

There's even a cultivation technique requiring Innate Allure Bone to practice!

Not sure, with Demonic Lord Qing Shi improving so much, how much can I improve myself.

Cao Zhen felt a stir in his heart, attempting to operate his Immortal Mountain, immediately his Immortal Mountain rose abruptly, instantly exceeding the cave's ceiling, continuing to extend upward.

The Immortal Mountain is a virtual existence, naturally, it didn't pierce through the cave ceiling by exceeding it.

Subsequently, his one thousand eight hundred feet Immortal Mountain rapidly ascended, in just a moment, the Immortal Mountain reached a height of two thousand feet.

Two thousand feet Immortal Mountain!

Cao Zhen was astonished; this time, just because of Demonic Lord Qing Shi's improvement, his Immortal Mountain increased by two hundred feet, Demonic Lord Qing Shi's growth was really significant!

After reaching two thousand feet, he felt his Immortal Mountain seems to have encountered some bottleneck, like an invisible wall pressing on his Immortal Mountain, not letting it ascend by itself.

"So... this is the limit of the Early Immortality Regainment Realm? The Immortal Mountain of the Early Immortality Regainment Realm can't exceed two thousand feet?"

Cao Zhen felt as if he still had power, as if he could still increase the height of the Immortal Mountain, but due to this invisible wall, he couldn't continue raising the Immortal Mountain height.

Can't increase the height, but what about the width?

Seems it can't be increased either, but where does this power go? Unless he continues to break through, what's the real difference between the Early and Mid Immortality Regainment Realm, is it just the height of the Immortal Mountain?

At that instant, something occurred to Cao Zhen, his Immortal Mountain vanished abruptly as he entered a mysterious realm.

Almost as soon as he entered that state, not far from him, Ju E suddenly opened her eyes, the nine tails behind her all pointing towards the sky, behind her, an Immortal Mountain suddenly appeared, rapidly ascending.

The original three thousand three hundred feet high Immortal Mountain instantly rose to three thousand nine hundred feet, then the ascent started to slow down, but gradually, the Immortal Mountain still climbed to a height of four thousand feet!

Late Immortality Regainment Realm!

She finally broke through!

Even at the same Late Immortality Regainment Realm, some people's Immortal Mountain just barely reach two thousand feet, while hers is already double that!

And this is right after her breakthrough; if given more time, when she aims to enter the Peak Immortality Regainment Realm, her Immortal Mountain would undeniably be higher.

Chapter 2074: Compensation

If it were the past, when she reached the late Immortality Regainment Realm, and the Immortal Mountain rose to a height of four thousand zhang, she would definitely be excited for a long time. But after seeing Cao Zhen and witnessing how Cao Zhen, at the early Immortality Regainment Realm, achieved an Immortal Mountain height of one thousand eight hundred zhang, she once again realized the gap between herself and Cao Zhen.

She is not invincible in the world. There are people with better talent than her, who are stronger than her in the same Cultivation Realm, such as the Cao Zhen in front of her.

In fact, she has grown all the way through praise. She had never encountered someone who could truly suppress her in the same Cultivation Realm.

Until she met Cao Zhen, was taken hostage by him, and then witnessed his strength in the Immortal Path Domain, she often thought of Cao Zhen during her cultivation.

She would wonder what Cultivation Realm Cao Zhen is in now, when she would be able to defeat him, and whether she could surpass him.

Unknowingly, Cao Zhen had even become a knot in her heart, perhaps if more time passed, Cao Zhen would become her inner demon.

Until, this time, she met Cao Zhen again.

Then she suddenly understood why she wanted to compete with Cao Zhen!

This Cao Zhen is a reincarnated Great Ability, and a perverted one at that.

Look at what Cao Zhen has done. In the Earth Immortal Realm, at the same extreme of the Immortal Path Domain, he could easily kill another with the same limitation and then tell others that the Immortal Path Domain has no limits.

And now, he's in the early Immortality Regainment Realm, yet he directly killed a peak Immortality Regainment Realm being, one of the strongest among them!

This kind of freak, although Cao Zhen is a person, she feels that the things he's done are not human!

Cao Zhen, obviously, is a figure who can suppress an entire era... no, should be said to suppress the entire era.

Why am I even comparing myself with him?

Once this thought cleared up, she naturally broke through.

And then Cao Zhen...

Ju E looked at the cultivating Cao Zhen, lightly teasing, "I asked you to guard me, but instead, you started cultivating yourself. Who is guarding whom!"

Her teasing had just fallen when Cao Zhen suddenly opened his eyes, looking unhappy, “Isn’t it I who is guarding you? Look how many days you’ve been cultivating; I’ve just started!”

Ju E looked at the speaking Cao Zhen, her face immediately showing a trace of self-blame. Had she interrupted Cao Zhen’s cultivation? Just now, it was clear that Cao Zhen was preparing for a breakthrough.

Because of me, did Cao Zhen not break through?

I...

She was blaming herself when suddenly, behind Cao Zhen, an Immortal Mountain abruptly appeared, reaching a height of two thousand zhang in an instant.

Although the peak was blocked, as a late Immortality Regainment Realm being, she could naturally sense the height of Cao Zhen’s Immortal Mountain.

So, did Cao Zhen really make his Immortal Mountain two thousand zhang high while in the early Immortality Regainment Realm?

Indeed, a freak is truly a freak.

What might take others until the late Immortality Regainment Realm to achieve, Cao Zhen did in the early Immortality Regainment Realm.

This shows how wise it was not to compare herself with Cao Zhen. Otherwise, in the end, Cao Zhen would surely become her inner demon.

What’s that saying?

One’s greatest wisdom is self-awareness, and though she isn’t human, it still applies.

Suddenly, Cao Zhen's aura began to strengthen, a mist emanating around him, slowly flowing, while overhead, the Immortal Mountain started ascending wildly.

Ju E had never seen anyone's Immortal Mountain rise so fast. In the blink of an eye, Cao Zhen's Immortal Mountain reached a height of three thousand zhang then gradually slowed, finally stopping at three thousand two hundred zhang.

After discovering his Immortal Mountain could no longer ascend, Cao Zhen retracted it. After all, such a towering height would easily attract attention; what if it invited enemies?

Speaking of which, I'm not sure how this breakthrough happened this time. Was it thanks to brute force, or did I gain some insight?

After all, it was because I felt that invisible wall and the unexhibitable power that I broke through; this should be viewed as the forceful breakthrough. But in the end, I seemed to have gained some insight.

Seeing Cao Zhen break through, Ju E finally breathed a sigh of relief, quickly congratulating, "Congratulations on breaking through to the mid Immortality Regainment Realm."

"Thank you. Why speak to me out of the blue? If you hadn't interrupted, I might have directly broken through to the late Immortality Regainment Realm. Now, how do you plan to compensate me!" Cao Zhen deliberately feigned an angry expression when looking at Ju E; her earlier words had no real impact on his progress. He'd just reached the mid Immortality Regainment Realm, then stopped.

But still, there were things needed to be said. As the princess of the Fox Monster Clan, Ju E surely had wealth; how could he not take advantage of that with his Immortal Slayer Flying Knife?

Hearing this, Ju E fell silent for a moment, then quietly muttered, "I... I'll give myself to you..."

Cao Zhen was dumbfounded, no, I just wanted some resources as compensation, and here you are, trying to latch onto me!

I already have enough trouble with Li Ke and Bi Yue; adding a little fox would be just too much!

Chapter 2075: Part 5

Besides, we aren't that familiar with each other!

Even if I were to agree, would your parents agree? Would your family agree? Would your Demon Clan agree? Would the other major clans agree!

"Ahem..." Cao Zhen quickly coughed a few times and said, "Stop joking, I was just saying it casually. Let's not talk about pledging ourselves. One human, one demon..."

Upon hearing this, Ju E immediately lifted her head and spoke louder, "Our Demon Clan is different from the Beast Clan. In fact, we're more like the Human Clan, not the Beast Clan. My tail can be hidden... Besides, I heard many humans like this."

"Stop, don't say any more... We don't even know where we are right now, we can't think about these things, we're still in danger. Speaking of which, just now, our Immortal Mountains revealed themselves one after another, they might attract attention, let's move someplace else first."

Can't let this little fox keep talking, what if he really gets into trouble?

What's this about not having a tail, or some liking tails, what kind of talk is that!

Cao Zhen wasn't making things up; revealing such significant Immortal Mountains could indeed easily attract attention.

Soon, they left the cave, ready to change locations, but as soon as they walked out of the cave, they discovered a scorpion, about the size of an ordinary donkey or horse, sneaking towards the cave.

Suddenly a human and a demon flew out of the cave, which startled him, and he immediately turned to run outside, having just seen the rising Immortal Mountains from inside the cave and their heights.

Although the opponent's Immortal Mountains weren't as tall as his, the problem was they were one human and one demon, while he was alone. If they fought, he certainly wouldn't be a match for them.

Of course, he could only escape!

Just as he turned around, his gaze suddenly changed. In his vision, a giant white centipede about a zhang long appeared.

Venomous Burrowing Centipede!

His face immediately showed a hint of joy. Although the Venomous Burrowing Centipede and he both belonged to the Beast Clan, there was no one else here, so what if he killed the Venomous Burrowing Centipede?

The Venomous Burrowing Centipede was a great supplement for him; in fact, there was nothing better than the Venomous Burrowing Centipede as nourishment.

As for whether he could kill the Venomous Burrowing Centipede?

They're Brown Venom Scorpions, natural enemies of the Venomous Burrowing Centipede.

Because, although the toxin of the Venomous Burrowing Centipede is highly venomous, far more so than that of Brown Venom Scorpions.

There are many poisonous Insect Clans, Beast Clans or Demon Clans resistant to the Brown Venom Scorpions' poison but can't withstand the Venomous Burrowing Centipede.

But for some reason, the Venomous Burrowing Centipede's poison is ineffective against the Brown Venom Scorpion Clan.

Similarly, the Brown Venom Scorpions' poison is ineffective against the Venomous Burrowing Centipede.

However, the Venomous Burrowing Centipede relies on its poison. Without it, they're completely incapacitated.

And the Brown Venom Scorpion Clan still has their giant pincers!

In the same Cultivation Base, no Venomous Burrowing Centipede has ever killed a Brown Venom Scorpion, never!

And he has already reached the Peak Immortality Regainment Realm, and here, there are no True Immortal Realm beings, so here, no matter what Venomous Burrowing Centipede he encounters, he can win!

The Venomous Burrowing Centipede also knows that the Brown Venom Scorpion Clan loves exterminating them and then consuming them, so they always avoid Brown Venom Scorpions or stay with other Beast Clans, making the Brown Venom Scorpions hesitant to act.

Today, for some reason, such a Venomous Burrowing Centipede appeared in front of him, what more was there to say!

He immediately brandished his giant pincers, as sharp as blades, and forcefully snipped forward.

Instantly, there was a crisp sound in the air, the sound of his giant pincers clashing with each other, and in front of him, the Venomous Burrowing Centipede disappeared.

Vanished?

The next moment, he suddenly realized that there was no Venomous Burrowing Centipede at all; he had fallen for an Illusion Technique!

The Fox Monster Clan is most skilled in various Charm Techniques and Illusion Techniques!

And among the human and demon who just flew out, there was a Fox Monster!

In a panic, just as he wanted to flee, a muffled thunder sounded in the void. Following that, a purple thunderbolt descended from the sky, as if it had flown from the Ninth Heaven, bringing with it a power as though it wished to destroy the entire earth.

Wherever the thunderbolt passed, the void instantly shattered, revealing a pitch-black crack, within which the Chaos of Void was clearly visible.

Contained within that thunderbolt was a terrifying power he could feel.

This power...

Earth Level Spell, it was undoubtedly an Earth Level Spell!

Shocked, he tried to dodge, but it was already too late. As he saw the lightning, it had already fallen. He didn't even have a chance to defend before the purple thunderbolt struck his head heavily, sounding like a mountain erupting, a great rumble like the earth being devastated.

The hard carapace on his head cracked open under the strike, with waves of wild Power of Thunderbolt leaping continuously over him, like a serpentine electric snake, incessantly slithering, with each jump causing his body to shudder involuntarily.

Chapter 2076: The Deadly Valley of Miasma and Poison

Within his body, each of his organs showed clear signs of cracking at this moment, with his vital energy and blood churning intensely.

This power, is this the power that a Mid Immortality Regainment Realm should possess?

Even if his opponent was using an Earth Level spell, it shouldn't be this terrifying!

Even as someone at the Peak Earthly Immortal Realm, he could not unleash such a terrifying strike!

His gaze involuntarily fell on his opponent's Immortal Mountain. Reaching mid Immortality Regainment Realm with an Immortal Mountain over three thousand zhang was indeed rare, but let's not talk about an Immortal Mountain of three thousand two hundred zhang, he had even seen a peerless Heavenly Pride at the Immortality Regainment Realm with an Immortal Mountain of three thousand four hundred zhang, and that was a genius from the Sky Clan!

But even that Heavenly Pride from the Sky Clan couldn't release such a terrifying strike!

It's because of the range of his opponent's Immortal Mountain, as it was simply too vast, granting him far more power compared to others of the same cultivation realm with the same mountain height!

Just as he was struck with fear, suddenly, his gaze turned blank again as Ju E's attack fell once more, plunging him back into an Illusory Realm. As he awoke again, another thunderbolt fell from the void, its might no weaker than the last. This bolt struck precisely where he was just injured, causing his head to burst open explosively, brain matter scattering, and he could no longer endure, spewing a large mouthful of bright red blood!

His eyes, once filled with an evil glint, dimmed down.

Just two thunders, and he was already gravely injured.

Cao Zhen noticed that cooperating with Ju E was really quite convenient. He wondered if Xiang Ziyu had realized the strength of the Five-thunder Righteous Method, as he started cultivating it, which in turn elevated Cao Zhen's own level of the Five-thunder Righteous Method.

Combined with his Immortal Mountain, executing the Five-thunder Righteous Method now was even stronger than Ruo Yun's previous execution of the Gold Thunder Orthodox Method!

And with Ju E's Illusion Technique, the scorpion not only didn't dodge, it didn't even gather protective Qi facing his Five-thunder Righteous Method, fully enduring his two strikes.

Even though the current Five-thunder Righteous Method couldn't unleash the power of a Heavenly Rank Spell, it was still an Earth Level spell.

That scorpion being able to endure two blasts of the Five-thunder Righteous Method without dying was already quite remarkable.

However, even if he wasn't dead, he was almost there.

Cao Zhen, seeing the scorpion showing signs of being on its last legs, moved and flew directly to the scorpion's front.

Behind, Ju E watched the terrifying thunders falling successively from the void, her heart equally filled with shock. She had seen Cao Zhen in the Earth Immortal Realm battling the mother insects at the limits of the Immortal Path Domain, aware of how terrifying Cao Zhen's Immortal Mountain was.

But now, watching Cao Zhen in action again, she still felt the shock.

Cao Zhen's Immortal Mountain was simply enormous, so large that she felt even if it was a thousand zhang shorter than others, the power contained wasn't necessarily less!

And the Thunderbolt Technique released by Cao Zhen, she had seen before, remembering clearly, it was a Mysterious Rank spell, how had it now become an Earth Level spell when Cao Zhen executed it?

Could it be, because back then Cao Zhen's cultivation realm wasn't sufficient, he could only cultivate the spell to a Mysterious Rank level? Was this the spell's true power?

However, she vaguely felt that Cao Zhen's spell had become somewhat different from before.

Cao Zhen had already leaped in front of the fallen Poison Scorpion, lowered his head, and whispered, "If you don't want to suffer endlessly, answer my questions honestly now."

The Poison Scorpion was truly at its wit's end, encountering such two Heavenly Prides. Although it was at the Peak Immortality Regainment Realm, facing this human and monster, it didn't have any strength to fight back!

Even though its Immortal Mountain was higher, it even felt the illusion that neither of the two alone could match it!

Facing the other's questions, it didn't hesitate, nodding vigorously.

"Very good." Cao Zhen saw the Poison Scorpion nodding, took a small step forward, and asked, "First, tell me, where is this place!"

"Where is this?" The Poison Scorpion was stunned. Did the human and monster not know where this was? How did they get here?

Moreover...

Looking at the pair, he couldn't help but find them strange.

Whether it was the member of the Demon Clan or the Human Clan, they were the top Heavenly Prides of their clans.

How did they come together?

And why were they here!

At this place, it was full of toxic creatures, Insect Clan, Beast Clan, and Demon Clan members, hardly any human figures, and Demon Clan members...

Fox Monsters weren't adept at using poison, why would they be here?

But regardless of why they're here, after answering their questions, they would definitely kill them.

Although severely injured and not as powerful as the pair, it had its own advantage: poison!

As long as it poisoned the pair, it could use the opportunity to threaten them, waiting for its companions to rescue it.

Its clan had many experts here.

With this thought, it quickly answered, "This is Miasma Valley."

Cao Zhen, it was his first time at the Outer Heaven Battlefield, and he hadn't heard Venerable Gui Jian mention Miasma Valley, so he turned his head to look towards Ju E.

Behind, Ju E's face changed dramatically the moment Cao Zhen turned his head, exclaiming, "Watch out!" She couldn't understand why Cao Zhen, with his rich battle experience, made such a mistake, exposing himself to the scorpion.

Seeing the human turning, a sinister look flashed across the originally dull eyes of the Poison Scorpion. This foolish human truly gave it a chance!

With its current injuries, it couldn't heavily wound the human, but it could definitely poison him!

Its tail, almost as long as its body, suddenly extended, the tail tip resembling a barbed hook, the blood-red poison needle thrusting out, casting a chilling gleam under the sun!

In the next moment, the venomous tail struck like lightning, piercing into Cao Zhen's back, injecting a massive amount of poison rapidly!

Chapter 2077:

Cao Zhen knew the danger of exposing his back to the opponent, but the other party was already severely injured, so what else could they do?

At most, they would use poison.

Use poison?

He really wasn't afraid of poison.

Although his physique immune to all poisons hadn't fully formed, he was immune to many toxins. It's like asking if a venomous snake can be poisoned by its own venom.

The answer is definitely no!

For some other toxins, even if he isn't immune, he has some resistance. Actually, exposing his back to the opponent was a way to test his resistance to these toxins.

The result...

He did feel the spread of the toxin; it felt a bit tingly, with the punctured spot slightly itchy, and then nothing else happened.

Cao Zhen turned to look at the Poison Scorpion, but before he could speak, the Poison Scorpion laughed proudly, "Human, you have already been poisoned by my scorpion venom. Only I have the antidote. Don't think about killing me to get it. The antidote is inside me and requires a special method to transfer to you.

If you want to live, wait for me to recover, and I will detoxify you naturally."

He thought this human wouldn't dare to fight to the death, thinking such a genius with a bright future would cherish his life!

"Poisoned? Why don't I feel poisoned?" Cao Zhen said with a smile, looking at the Poison Scorpion, and asked, "Do I look poisoned to you?"

Hearing this, the Poison Scorpion was taken aback and looked at the human's face. His eyes immediately showed a hint of surprise. Why was there no change in this human's complexion?

His toxin acts fast, and in such a short time, it should have spread throughout the body. At this point, the human's face should be blackened, yet she showed no change.

Cao Zhen laughed, "Your toxin is too weak. Besides, given your dishonesty, I find no reason to let you live."

As he finished speaking, a purple light appeared in his hand, and the next moment, thunder struck down, shattering the Poison Scorpion's head!

"Did you just kill him like that?" Ju E looked at Cao Zhen, who killed the Poison Scorpion, with a worried expression, "Your body."

"What's wrong with my body? His toxin can't threaten me." Cao Zhen said assuredly, looking at Ju E and admitting he wasn't poisoned. He had already heard that this place was the Miasma Valley—all the surrounding areas were poisonous just from the name.

For a long time to come, they would stay here. Eventually, even if he didn't say anything, the little fox would discover his body's resistance to poisons.

As for the little fox knowing his secret, there was no choice. He couldn't kill her; she had already told her people they were together. If she died, her family wouldn't let him off.

Even if he claimed the little fox was killed by someone else, her family likely wouldn't believe him and would retaliate against the Human Clan and the Bai Feng Sect.

Moreover, he had no aid here, and the little fox was in the Late Immortality Regainment Realm, one of the stronger types, so he needed her help.

"You're not poisoned?" The little fox scrutinized Cao Zhen and found no signs of poisoning, feeling relieved but puzzled, "Strange, the Poison Scorpion seemed so confident, yet how come you weren't poisoned?"

"Knowing too much won't benefit you. All I can say is, when it comes to poisons, I'm the master of masters." Cao Zhen said as he quickly collected the Poison Scorpion's body to prevent others from deducing their spells and strength, and also because the poison could be useful or sold—this was a Peak Immortality Regainment Realm Poison Scorpion.

Truth be told, among the six alien races, the Beast Clan and Insect Clan don't use treasures much. However, unlike ordinary Soldier Bugs with no value, the Beast Clan's bodies are quite valuable and can fetch a good price.

"Our battle just now was quite conspicuous. Let's hide somewhere else first." Cao Zhen said to Ju E while moving away, "I just entered the Outer Heaven Battlefield. You've been here longer, right? Do you know what the Miasma Valley is?"

Upon hearing Cao Zhen's question, Ju E smiled proudly, "Finally, something even a reincarnated Great Ability doesn't know? Well, even as a reincarnation, this is the first time the Outer Heaven Battlefield has appeared before your Human Clan.

You want to know what the Miasma Valley is? Beg me for it." Ju E's eyes squinted slyly, much like a little woman playfully teasing her boyfriend.

Chapter 2078:

Cao Zhen was stunned: "Wait, are you kidding? At a time like this, you're still playing around with me? Do I have to beg? Are you looking for a beating?"

Cao Zhen casually grabbed one of the little fox's tails and gave it a light smack. The little fox shivered slightly, a strange expression flitting across his face, but instantly became obedient, whispering, "Though I know about Miasma Valley, this is also my first time here.

Miasma Valley, as the name suggests, is filled with miasma all year round, surrounded by all kinds of poisonous plants. Here, experts in various poison skills gather.

Of course, it's mainly experts from the Beast Clan, Insect Clan, and our Demon Clan. The Sky Clan is few in number anyway, and they rarely cultivate poison skills.

As for the Prison Clan and Evil Clan, although they have some trained in poison skills, compared to our three clans, they are few."

Ju E paused slightly and then continued: "We encountered a Poison Scorpion. Miasma Valley is indeed their favorite place to explore, so what he said should be true.

Miasma Valley is far from our Illusion City and even further from where we disappeared before. It would take them five or six years to get here.

Plus, the Outer Heaven Battlefield is filled with dangers, and they might face attacks on their way, which would delay them even more. Moreover, Miasma Valley is vast, and it would take us about a year to get out of here ourselves."

"So, hoping for them might take a decade or so," Cao Zhen once again realized the enormity of the Outer Heaven Battlefield.

The distances here are not measured in miles but in years. For villagers from the Immortality Regainment Realm, who measure distances in years, it's imaginable how vast this place is.

"We can't rely on them. Let's get out ourselves. Come, let's find a place to hide, then notify them."

Cao Zhen felt there was no need for his disciples to find him. He was now in the Mid Immortality Regainment Realm, and even the strongest among his disciples, Ruo Yun, wouldn't be a match for him without the Prosperous Age Picture Record or the Immortal Slayer Flying Knife. Let them do what they want!

They were better off going wherever they pleased.

The two of them soon found a cave. Cao Zhen didn't pay any attention to Ju E who was fiddling with a clan chart, but instead connected with his disciple Wan Ren Di through China Cloud. Whether he contacted Wan Ren Di or Ruo Yun didn't matter, as long as he avoided Xiang Ziyu. Who knows what absurd things that guy would say next?

"Wan Ren Di, I'm now in Miasma Valley, far from you. It would take you about ten years to reach here, so there's no need for you to find me.

You three can return to the city or continue exploring outside. In short, go wherever you want.

Tell your senior brother, never mind, let him do whatever he likes to do."

And Ju E's clan chart also appeared in the hands of her clan members.

Cao Zhen didn't send his disciples to find him, and Ju E's clan members also had to return to Illusion City!

Among these clan members around her, there must be a traitor. What she had to do now was have all these clan members return to Illusion Demon City, leave the Outer Heaven Battlefield, and let the clan find the traitor among them.

As for her, naturally, the family would arrange for other masters to come find her and then protect her departure.

After informing others, Cao Zhen and Ju E began to explore the area.

They couldn't stay in the cave forever.

Moreover, as Ju E said, Miasma Valley was filled with poisonous plants, and those poisonous insects and beasts were also drawn by the poisonous plants.

He wanted to cultivate an invulnerable body and needed a substantial amount of poisonous plants. It would be worthwhile to see if they could find enough here.

Neither of them was at the Peak Immortality Regainment Realm, but in the Outer Heaven Battlefield, they were among the stronger ones in the Mid Immortality Regainment Realm.

"Wait a moment..." Ju E looked outside, thought for a moment, retracted two tails from her nine tails until she had seven, and then said to Cao Zhen, "Nine tails are too conspicuous; seven tails are more low-key."

She could choose to show as many tails as she wanted. Of course, she could show just one tail, but that would be too obvious.

She felt that seven or six tails were the most appropriate, and finally decided to show only seven tails.

Then she looked at Cao Zhen, whispering, "You should disguise yourself too. After all, a human and a demon walking together is quite odd. And here, no one should possess the kind of treasure that can see through your disguise."

She remembered clearly that the first time she met Cao Zhen, he was disguised as a member of the Fox Clan.

"Changing my tail? I can't do that. The most I can do is change my ears." Cao Zhen shuddered at the thought of having more tails behind him.

"Just the ears? But the Ear Fox Clan in our fox clan is one of the weakest, with less than five members reaching the Immortality Regainment Realm in their history. Currently, the strongest in the Ear Fox Clan is only at the Earth Immortal Realm."

Chapter 2079:

"If you disguise as someone from the Ear Fox Clan, the other...no, the other races will immediately think there's something wrong when they see you."

Cao Zhen candidly said, "Then I won't disguise myself." After all, he would definitely not make a tail for himself.

"Alright then, Ear Fox Clan it is." Ju E had no choice but to agree.

In the entire human Immortal Cultivation community, there weren't many who practiced cultivating poisonous energy. However, among the six major alien races, especially the Insect Clan and Beast Clan, there were quite a few.

They came to the Outer Heaven Battlefield, all heading straight to Miasma Valley. It could be said that almost all those cultivating the Poison Path in the entire Immortality Regainment Realm's Outer Heaven Battlefield were gathered here.

Cao Zhen and Ju E hadn't walked far before they saw from a distance two upright beings, resembling humans but with four slender arms at their backs, and spider-web-like patterns on their faces — demon clan members.

Poison Wolf Spider Demons!

Before, he fought against the six major alien races in the Central Continent. Except for not seeing the Sky Clan, he had seen all the others, including the Poison Wolf Spider Clan!

The demon clan and beast clan are really easy to distinguish. No need to sense the other's aura; just their appearance was enough. Those resembling humans were the demon clan.

However...

Cao Zhen glanced at Ju E beside him. Even though she was also from the demon clan, there was quite a difference in looks. As for the other's strength, though they didn't release their Immortal Mountain, he could feel that the other was a presence of the late Immortality Regainment Realm.

He also changed his own aura to that of a late Immortality Regainment Realm.

After all, for a fox demon from the Ear Fox Clan to have such a terrifying Immortal Mountain at the mid Immortality Regainment Realm was just too abnormal.

The two Poison Wolf Spiders noticed these two fox demons at almost the same time, and suddenly, a clear expression of surprise appeared on the faces of the two Poison Wolf Spiders.

"Fox demons? How strange, the Fox Monster Clan isn't known for using poison. Why would they come to Miasma Valley?"

"Indeed, I've never seen anyone from the Fox Monster Clan come to Miasma Valley. Even if they needed certain poisons, they could exchange with other herbs; there's no need to take the risk to come here, where it's unfriendly to them."

Within Miasma Valley, those poisonous plants and trees might appear lifeless, but they could suddenly release poisonous gas at certain times. Those toxic gases could kill even those skilled in the Poison Path, let alone the Fox Monster Clan, who didn't understand poison at all.

Moreover, there's a lot of miasma here. If you're not a master of the Poison Path, you shouldn't come here.

And this pair...

That male fox demon is actually from the Ear Fox Clan.

In the demon clan, the Fox Monster Clan is a major clan. Of course, their Spider Demon Clan is also a major clan, but the Fox Monster Clan has long been one of the nine royal families. Although the Spider Demon Clan isn't the weakest, they are far from comparable to the nine royal families.

They might not be very familiar with some smaller demon clans, since the demon clans have numerous internal family branches, but they know very well what it means to belong to the demon clan that is one of the nine royal families.

For the Fox Monster Clan, the more tails they have, the stronger they are. The reason the Fox Monster Clan is powerful is because of the Nine-tailed Fox Clan.

Though people collectively refer to the Fox Demon as one of the nine royal families, all demon clans are aware that they are actually talking about the Nine-tailed Fox Clan within the Fox Monster Clan.

And the Ear Fox Clan is the weakest within the Fox Monster Clan, with not even a tail to their name.

Seeing someone from the Fox Monster Clan here was already strange enough, but encountering an Ear Fox was even more bizarre.

An Ear Fox of the Immortality Regainment Realm?

Is there still an existence of the Immortality Regainment Realm within the Ear Fox Clan nowadays?

The two Poison Wolf Spider Demons exchanged a glance, and the slightly more amiable-looking male spider demon asked, "Fox Clan, why did you come here?"

They were all part of the demon clan. Without sufficient profit, they typically wouldn't attack their kind on the Outer Heaven Battlefield.

Ju E hadn't expected to first encounter members of the demon clan. She wasn't sure what reason to fabricate, finding herself at a loss for words.

Instead, Cao Zhen spoke up, "We need a ghost mushroom ginseng over a millennium old. Such an herb is really rare. We don't have enough money to trade for it, and even if we did, we couldn't get it, so we had to come here to try our luck."

He wasn't sure if there was ghost mushroom ginseng here, but it was not unlikely.

"I see, ghost mushroom ginseng is indeed rare, even regarded as one of the three essential poisonous herbs for cultivating the Poison Path," the other Spider Demon nodded slightly and said. "Ghost mushroom ginseng likes places full of poisonous energy. It's indeed possible to find it here, but the two of you..."

He hesitated for a moment, but couldn't help advising, "This place is too dangerous for you two. It'd be best to return. Ghost mushroom ginseng isn't that easy to find."

He could sense the aura from these demon clan members; both were of the late Immortality Regainment Realm, which was quite strong, but this place was filled with all kinds of miasma and noxious gases.

They were not suited for this place.

As for them being fox demons who couldn't find ghost mushroom ginseng, it was understandable.

Though on the opposing side was a seven-tailed fox demon, which in the Fox Monster Clan signifies a position of high status.

However, the seven-tailed fox demon clan isn't just one family. Perhaps this seven-tailed fox demon doesn't come from a particularly powerful family, so they don't have the resources to trade for ghost mushroom ginseng, which is normal.

Chapter 2080: Black and White Eagle-Clawed Serpents

Cao Zhen looked at the two Spider Demons with some surprise. They were actually so kind to let their two selves leave voluntarily.

He glanced at Ju E and transmitted a message asking, "Does the Fox Monster Clan have a good relationship with the Spider Demons?"

Ju E knew why Cao Zhen was asking this. While walking into the distance, she replied via transmission, "There's no real connection between our two clans. You could just say these two Demon Clans are relatively kind to their own kind."

Cao Zhen nodded slightly, and in the next moment, his advancing steps abruptly halted.

In front of him, behind a not-so-high small hill, the silhouettes of four long snakes, two black and two white, appeared in his sight.

Their heads were all triangular, clearly indicating they were venomous. Among them, the two white snakes were about five zhang long and bore silvery spots on their bodies, which reflected starlight under the sun.

The other two black long snakes reached over eight zhang in length. They had no spots, but bore brown stripes all over their bodies.

Moreover, they all had eagle-like claws on their abdomens.

"Black and White Eagle Claw Snakes!"

The expressions of the two Spider Demons instantly became solemn.

Their Demon Clan and the Insect Clan were archenemies because the Insect Clan always sought to surpass them and become the strongest race. The Insect Clan's constant provocations made them deadly enemies, even though they did not initially have much enmity towards the Insect Clan.

Besides the Insect Clan, their other archenemy was the Beast Clan.

The Demon Clan and the Beast Clan were inherently at odds with each other.

In truth, both the Demon Clan and the Beast Clan shared a common ancestor. Over time, however, they split into the Demon Clan and the Beast Clan, with the two diverging further and further.

The Demon Clan believed the Beast Clan to be simple-minded and felt they should heed the Demons. If they were to do so, they would surely become the strongest among the races!

The Beast Clan, on the other hand, considered the Demon Clan traitors for abandoning their ancestors to become what they are today.

Generally, the two clans could not stand each other, and any meeting would lead to a fight to the death.

Now, meeting in such a place, and the fact that the adversaries appeared only after spotting them, showed that these enemies were confident they could annihilate them.

All four of them here were at the Late Immortality Regainment Realm, whereas the four Black and White Eagle Claw Snakes...

...included one at the Peak Immortality Regainment Realm!

The enemy has one at the Peak Immortality Regainment Realm, and three more at the Late Immortality Regainment Realm.

Although all four on their side were at the Late Immortality Regainment Realm, and the two brothers were considered quite strong among those at the Late Immortality Regainment Realm,

the problem was that the enemy had a Peak Immortality Regainment Realm individual, and among their side was an Ear Fox Clan member.

The talent of the Ear Fox Clan allowed them to reach the Late Immortality Regainment Realm, which was already surprising. Their Immortal Mountain was perhaps only about fifteen hundred to sixteen hundred zhang high, nowhere close to two thousand zhang, and not much different from those at the Mid Immortality Regainment Realm.

With such a comparison, there was a significant power imbalance.

Should they flee?

The problem was that the Black and White Eagle Claw Snakes excelled in using venom and were also known for their speed. Moreover, the enemy included a Peak Immortality Regainment Realm individual, making escape seemingly impossible.

Unless...

"Split up and run! The four of us should flee in four different directions!" one of the Spider Demons suddenly shouted. Since the enemy had only one Peak Immortality Regainment Realm individual, with the rest being Late Immortality Regainment Realm, splitting up meant the enemy had to chase in

different directions. Only one would face the Peak Immortality Regainment Realm Black and White Eagle Claw Snake. The remaining three, or two excluding the Ear Fox Clan member, had a chance to escape.

As he spoke, behind the four Black and White Eagle Claw Snakes, another Immortal Mountain appeared.

Among them, one Immortal Mountain, towering at four thousand five hundred zhang, was most striking.

The other three Black and White Eagle Claw Snakes' Immortal Mountains included one at three thousand five hundred zhang, while the other two were at three thousand two hundred zhang.

Ju E glanced at the four Beast Clan members in front, a chilling killing intent flashing in her eyes. Escape?

The Demon Clan members seeing Beast Clan members, how could they flee!

Furthermore, if anyone is to flee, it should be these Beast Clan members!

"Kill them!"

Ju E coldly commanded, her voice brimming with undeniable authority. Her eyes flickered with a demonic black light, which suddenly shot out, instantly penetrating the Peak Immortality Regainment Realm Black and White Eagle Claw Snake's body.

At once, the Black and White Eagle Claw Snake, which had intended to attack, hesitated.

For just a moment, a muffled thunderous sound echoed through the void, followed by a purple lightning bolt descending from the sky!

Listening to the voice of the Seven-Tailed Fox Demon coming from ahead, the two Spider Demons were very puzzled. Wasn't it said that the Demon Clan was very intelligent? Why was this Seven-Tailed Fox Demon determined to fight even after realizing there was a Peak Immortality Regainment Realm opponent and still insisted on killing them?

That was a Peak Immortality Regainment Realm, and you...

The next moment, they gazed at the Immortal Mountain rising behind the Seven-Tailed Fox Demon, completely stunned.

This was... a four thousand zhang Immortal Mountain!

A four thousand zhang Immortal Mountain!

Are you sure this is a Late Immortality Regainment Realm individual, and not a Peak Immortality Regainment Realm one?

They, too, were considered experts at the Late Immortality Regainment Realm, yet there was still quite a distance to a four thousand zhang Immortal Mountain.

Before they could finish their amazement, on the side, another Immortal Mountain rose, shorter than the Seven-Tailed Fox Demon's, reaching three thousand two hundred zhang in height.
