

## **My Master 2121**

Chapter 2121:

She was determined to protect the Demon Bull.

So the question arises, what exactly is the identity of the Demon Bull?

She absolutely refused to believe that the Demon Bull belonged to the Fox clan!

Just as she was getting a headache, suddenly, figures came flying from a distance. Among these figures were experts from the Demon Clan, Beast Clan, Evil Clan, and Prison Clan. There were also some experts who had not appeared in the Miasma Valley before.

"Venerable Lin Feng..."

Among them, one looked almost like a person from the Human Clan, but with a king character on the forehead, and an exceptionally burly build. A towering Tiger Demon stepped forward, asking in a deep voice, "Where is the Demon Bull?"

Venerable Lin Feng glanced at the other, expressing astonishment, "Venerable Feng Pao, I didn't expect you to come to Miasma Valley as well. As for the Demon Bull you mentioned, I don't know where he is."

"How could you not know?" On the side, a snake beast asked loudly, "Back when the ruins hadn't opened yet, everyone saw you joining forces with the Demon Bull."

Venerable Lin Feng sneered, "So what if we joined forces? Back then, all the cultivators of our Demon Clan knew they wanted me to assassinate the Demon Bull! Besides, the Demon Bull is not from our Demon Clan, he's one of you Beast Clan members. If you truly need to ask, you should ask someone from your Beast Clan."

"But he has killed more from the Beast Clan than he has from the Demon Clan!"

"So what? What do you mean? Do you mean the Demon Bull was planted in your Beast Clan by us as an insider?"

Venerable Feng Pao saw that both sides were about to argue and had no choice but to interrupt their quarrel, turning to Venerable Lin Feng, "Lin Feng, you know, we've also lost several experts from the Demon Clan. We need to understand what's happening. So, tell us about the Demon Bull."

Venerable Lin Feng's attitude toward Venerable Feng Pao was noticeably better. Venerable Feng Pao was one of the top experts of the Immortality Regainment Realm, not just among those who use poison, but among all of them. He was famous even within the Demon Clan.

Moreover, Venerable Feng Pao came from the Tiger tribe, one of the nine Royal Families; she still had to mingle in the Demon Clan, so it's only natural to treat Venerable Feng Pao well.

"Actually, I really don't know much about the Demon Bull. All I know is that he called himself Zi Tie; he told me the name, so I don't even know if it's true.

Back then, I intended to kill him. At that time, the Demon Bull was planning to kill a Human Clan member, and I happened to show up, so the Demon Bull didn't take action.

Then, after I took action, I unexpectedly found the Demon Bull was much stronger than I imagined. His physical body was terrifying, and even my poison needles didn't work much on him.

Moreover, not long after I took action, the ruins appeared. Subsequently, the Demon Bull proposed that we join forces.

He said his physical body was powerful, his defense even stronger. I was good at attacking, and both of us were fast, so we should collaborate.

I needed a partner, so I agreed. After that, we encountered a ruin. I obtained a treasure and got delayed a bit.

After that, I don't know what happened."

Since Ju E wanted to protect the Demon Bull, naturally she couldn't reveal his identity; she couldn't let it be known that the Demon Bull knew Ju E.

As for the fabricated story she told, it didn't matter.

After all, the only Human Clan member who saw them back then had escaped. No cultivator knew whether she acted, so even if she said she did, what did it matter?

Around, the experts from various clans frowned upon hearing this, getting nothing substantial from Venerable Lin Feng.

Broken Chaos City!

In the City Lord's mansion, a man in a black robe, with a steadfast expression, looked astonished at the news he just received. With a heavy expression, he gazed not far to the side, at a woman in an orange long dress. With a grave look, he said, "There are just too many maniacs among the Alien Race, to think he wiped out so many experts."

"Isn't that a good thing?" The woman in the orange long dress immediately laughed, "Those who died were experts of the Alien Races; none are from our Human Clan. We haven't suffered any losses; on the contrary, with so many alien experts dead, we in the Human Clan can likely deploy more poison experts to Miasma Valley.

If I didn't know it was a Beast Clan Demon Bull who did all this, I might have suspected it was us from the Human Clan."

"We still need to be more careful; those alien races are so crazy. We, the Human Clan, need to be even more careful in the Outer Battlefield. Besides, hasn't a new batch arrived?"

"We've been in the Outer Battlefield for over a hundred years and understand it better now. Those newly entering the Outer Battlefield should adapt more quickly, yet I find they've suffered more losses than the first batch."

The stern man spoke, frowning slightly and lowering his voice, "Primarily because the first batch, when entering the Outer Battlefield, focused on survival. The recent arrivals, hearing about the wealth others amassed, focused on gaining treasures. They've become less cautious."

The woman in the orange dress sobered her expression upon hearing this and analyzed, "Another reason is that we've sent teams a hundred years apart. Many are no longer in the city, making it hard to find enough veterans to guide the newcomers. Those that do return either recover from injuries or leave the Outer Battlefield."

Chapter 2122:

There are some people who have indeed stayed for a hundred years, but during these hundred years, they haven't visited our human's great city, and we have no trace of their activities.

No one knows if they were really fighting outside, or if they found a place on the Outer Heaven Battlefield and hid for a hundred years cultivating."

"We must change the conditions for leaving the Outer Heaven Battlefield."

Cao Zhen flew all the way to Broken Chaos City.

Normally, cultivators wouldn't choose to fly, but the problem is he is alone, and his cultivation has reached a height of over five thousand zhang. So, even if he flies, what of it? There are few experts who can truly threaten him, and what's more, he's fast.

"Finally back to Broken Chaos City."

Cao Zhen flew back all the way, and when he saw the city gate before him, a look of emotion appeared on his face. He had been here for a hundred years, and this was only the second time he had returned to Broken Chaos City.

As he walked to the city gate, he found that there were far fewer people in the city than when he first came. It seemed it was because of the large recruitment of people entering the Outer Heaven Battlefield back then.

As he approached the entrance, the guards on either side stopped him.

"Fellow Daoist, please show your Jade Talisman."

Jade Talisman...

Cao Zhen then remembered that when he initially entered the city, someone had given him a jade pendant, which could display his location and even call for aid from the human clan.

However, for more than a hundred years, he had been in the Miasma Valley, where the humans were far too few, and he had never seen anyone asking for aid.

He quickly took out his jade pendant and handed it to them, but instead of taking it, the two men watched as a light shot from a Copper Mirror hanging above the city gate, landing on another mirror, which then displayed a white light.

The two guards, upon seeing this white light, immediately looked at him with changed expressions, filled with disdain: "Please wait here for a moment."

Cao Zhen was stunned: "What? Not letting me enter the city?"

He hadn't done anything to deserve this treatment, especially when he had just seen others walk into the city.

"You'll know soon enough," one guard replied, not addressing Cao Zhen further.

A moment later, a figure flew out from the city and came to stand before Cao Zhen.

Seeing the approaching figure, Cao Zhen was surprised. This person looked thin and was wearing a gaudy robe, like someone performing in an opera. Yet, the aura they emanated was much stronger than his.

True Immortal Realm!

This was the True Immortal Realm protecting the city!

Cao Zhen couldn't figure out why, just returning to a city, a True Immortal Realm would appear.

At the gate, the guards respectfully addressed the newcomer: "True Lord Chun Yi."

Chun Yi?

Looking at the person's colorful clothes, Cao Zhen couldn't help but think perhaps they should be called "True Lord Five Colors" instead of True Lord Chun Yi.

True Lord Chun Yi looked at the cultivator before him, his eyes slightly squinting, wearing a smile that made one think of a sly grin, and asked, "What's your name?"

"Cao Zhen," he answered truthfully, as there was no need to hide his name outside the city's human territory.

True Lord Chun Yi showed a hint of surprise. Generally, after cultivators reach the Immortality Regainment Realm, they have honorific titles. It's rare for someone still using their real name.

Though curious, he didn't ask further, instead sporting a strange smile, "You've been in the Outer Heaven Battlefield for a hundred years, haven't you? But there's no record on your jade pendant.

You must have found somewhere to cultivate for a hundred years and now that time's up, you're ready to leave the Outer Heaven Battlefield.

That's not acceptable. You were sent to the Outer Heaven Battlefield to kill the alien races, not for cultivation.

So, you're not allowed to leave. You need to do something before you're allowed to leave the Outer Heaven Battlefield."

"No record?" Cao Zhen couldn't understand. He had slain so many alien races in the Miasma Valley, yet they said there was no record. "Is it possible that there's a problem with your jade pendant? I've been slaughtering alien races all along. Or perhaps, when your jade pendant gets too far away, like deep into the Outer Heaven Battlefield, it loses effectiveness?"

True Lord Chun Yi's face still bore that strange smile, like a teacher caught a cheating student, looking at Cao Zhen, "There's no need to pretend. We've recently discovered several people doing the same, not fighting at the Outer Heaven Battlefield but finding places to cultivate. They also realized that the range of our jade pendants is limited. Beyond a certain distance, within the bounds of other city jurisdictions, the jade pendant becomes ineffective, and they claim they went far away to cultivate.

But, in the end, they all confessed. Do you know why? Because if you go elsewhere, our Broken Chaos City jade pendant may malfunction, but what you were doing, we can verify with your jade pendant by taking it to the nearest large human city.

If you claim to have slaughtered alien races in a distant place, we can use your jade pendant for verification. But as stated, if we find out that you're deceiving us...

Chapter 2123:

"That would incur punishment, and the punishment is ten thousand years on the Outer Heaven Battlefield. Now, can you tell me what you've been doing in these hundred years? Have you been cultivating all the time?"

In fact, such matters didn't originally require him to appear in person, but the City Lord had just changed the regulations. Those in the Immortality Regainment Realm could originally leave, but now they were not allowed to, which would certainly cause dissatisfaction. If someone in the Immortality Regainment Realm were to address these matters, it might not be enough to hold the other party in check. Therefore, he, being in the True Immortal Realm, had to reluctantly step in.

However, it probably wouldn't be for long; after some time, once everyone understood the regulations, he wouldn't need to show up anymore."

"The places I've been active, I've been to so many places, how would I know which exact city it was." Cao Zhen thought with a bitter smile, he had been to Miasma Valley, and killed so many of the Alien Race.

If he were to mention it, and they checked and found out, what then?

He had been to the Ten Thousand Poison Valley, and stayed there for a hundred years, yet no one had seen him there. So, the question arose, what had he been doing inside?

Would anyone suspect that the disappearance of the Demon Bull was coincidental with his appearance?

So, to be safe, it was better not to expose that he'd been to the Ten Thousand Poison Valley.

He did have some Alien heads, which could prove he'd killed some of the Alien Race.

But the problem was, those were all from Aliens who cultivated poisonous energy. If he presented one or two heads, it was fine, but taking out more would surely make them think of Miasma Valley.

"So you're saying, I haven't fought, haven't killed any Aliens, so I can't return to the Human Clan's Great Thousand World, right? Fine, wasn't it said that killing five Aliens of the same cultivation realm would allow me to return?"

"I'll go kill some Aliens now."

With that, Cao Zhen turned around and flew into the distance.

He had to return to the Hundred Peaks Sect to plant a branch of the Life Ancient Tree; otherwise, he would have just gone directly to Flying Flow River without needing to return to the Hundred Peaks Sect.

Immortal Lord Chun Yi watched as the figure suddenly turned and flew away, and was momentarily stunned. Previously, he had caught many people who, after arriving at the Outer Heaven Battlefield,

found a place to hide and cultivate. Once caught, they all obediently completed the tasks assigned to them.

This was the first time he'd encountered someone who, upon being caught, immediately flew off to kill Aliens.

He could sense that Cao Zhen was in the Late Immortality Regainment Realm. Killing some Aliens in the Early and Mid Immortality Regainment Realm wouldn't be too difficult for him, but wasn't Cao Zhen afraid of encountering Alien experts in the Immortality Regainment Realm, such as those in the Peak and Late Immortality Regainment Realms?

Besides, if he dared to do this now, why not before? If they just went for a fight then, it would have been fine. Now that he found he couldn't return to the Human Clan's Great Thousand World, he decided to go kill some Aliens.

Their previous regulation was that killing five Aliens of the same cultivation realm, or staying for a hundred years, would allow someone to return to the Human Clan's Great Thousand World.

So theoretically, this guy just needed to kill a few Aliens, to prove he had fought, and he could leave the Outer Heaven Battlefield.

But where in the world would there be such a good deal?

Cultivating for a hundred years, then going to kill for a few months, or perhaps, with good luck, encountering a few Aliens in a few days, killing them and then returning to the Human Clan's Great Thousand World. If all of them had this idea, what would the Human Clan be doing by entering the Outer Heaven Battlefield? What would they be fighting for!

"Just wait, unless he kills five Aliens also in the Late Immortality Regainment Realm, otherwise, he won't be allowed to leave like this. I want every Human Clan person entering the Outer Heaven Battlefield to know, entering the Outer Heaven Battlefield is for them to fight, fight for survival, not just to cultivate!"

True Lord Chun Yi quickly turned back towards the city.

Cao Zhen flew towards the outskirts, this time, in order to quickly find some Aliens to kill, he didn't even walk on the ground but deliberately flew in conspicuous places.

Meanwhile, he kept his eyes on the Jade Pendant in his hand, waiting for a call for help. If anyone called for help, it meant they encountered Aliens.

But somehow, the more you wanted something, the less it seemed to come. He didn't see any Aliens along the way; moreover, no one seemed to call for help either.

He had no choice but to fly forward again.

Until the fifth day, his Jade Pendant finally showed a change.

"Is someone asking for help?" Cao Zhen looked at the change on the Jade Pendant and flew swiftly in the direction it pointed. While flying, he noticed that the humans calling for help were still moving, though not very quickly, seemingly avoiding their pursuers.

After a while, those calling for help finally stopped moving, as if they found a place to hide.

In a dense forest, two men and one woman, three Human Cultivators, hid in a secluded cave. They all concealed their auras, not daring to speak or even send sound transmissions, as transmitting required the use of Immortal Qi, which could reveal their presence to the enemy.

Now, all they could hope for was that the enemy, fearing to attract other Aliens, would not dare to rampage and destroy the area, only searching for them slowly, meanwhile hoping their Human Clan experts would arrive swiftly.

"Finally they stopped moving, this way, I can find them easier."

Cao Zhen used the three-colored divine wings at full speed, flying all the way to the mouth of the cave indicated by the Jade Pendant. After confirming it was the place, he shouted into the entrance, "I am a Human Clan Cultivator, I received your call for help and have arrived, you can come out now."

Chapter 2124:

This was the first time he had gone to rescue his fellow clansmen since entering the Outer Heaven Battlefield.

In the cave, the three people who heard that someone from the Human Clan had arrived immediately showed a look of relief, and they emerged from their hiding places. They then saw the figure at the cave entrance, radiating the same late Immortality Regainment Realm aura as them.

"Only one person?" Among the three, a handsome man looked at the lone figure across from him and was slightly stunned, asking, "Dao Companion, where are the others?"

"Others? What others? It's just me here." Cao Zhen spoke calmly. To rescue three people, three ordinary late Immortality Regainment Realm individuals, why would anyone else be needed? Besides, if others came, wouldn't they just be competing with him for the credit?

This place wasn't far from a major city of the Human Clan and could be considered a remote part of the Outer Heaven Battlefield, where top experts seldom appeared.

Back when he was just at the mid Immortality Regainment Realm, he had been able to traverse the Miasma Valley. Now that he was in the late Immortality Regainment Realm, he could dominate in such remote places.

"One person!" The three were alarmed at his words and their expressions changed drastically.

"The opponent has someone at the peak of the Immortality Regainment Realm, and you came alone to rescue us. Isn't that sending yourself to your death?"

"You'll get us killed! With just you alone, how will you rescue us?"

"Quick, run!"

In their fright, the three turned to leave, but in the next moment, four figures descended from the void.

They were four from the Evil Clan.

The leader of the Evil Clan spoke with a triumphant smile, "Sure enough, I knew you Humans rescue each other. We couldn't find you, but your own people could.

In fact, when this Human appeared, we noticed him. We just didn't act because we were waiting for him to find you. And indeed, his foolishness led us straight to you.

At first, if you had given up the treasure, we might have spared you. But now, all of you must die!"

As the leading Evil Clan member spoke, a 4,500-zhang high Immortal Mountain suddenly appeared behind him. Meanwhile, the other three Evil Clan members also unleashed their Immortal Mountains, all of them being late Immortality Regainment Realm beings. Each of the Evil Clan's Immortal Mountains reached 3,000 zhang in height, with the tallest one being 3,500 zhang.

Cao Zhen glanced at these Evil Clan members and shook his head. Is this it?

A mere peak Immortality Regainment Realm Immortal Mountain of 4,000 zhang, isn't that embarrassing? Those peak Immortality Regainment Realm ones he had seen before all had Immortal Mountains over 6,000 zhang. Now encountering someone with only a 4,000 zhang Immortal Mountain was indeed a bit disappointing.

Beside him, the three Humans looked at the four Evil Clan members who had surrounded them and had no time to complain anymore.

Two male cultivators quickly stepped forward, blocking the front and shouted, "We'll hold them off. Junior sister, you run now; one is better than none."

"I won't. Senior brothers, we came together, we'll leave together." The female cultivator refused to flee and instead released her own Immortal Mountain. However, her Immortal Mountain was much smaller than the Evil Clan's, only 2,500 zhang high, while her two senior brothers had Immortal Mountains of 2,800 zhang and just barely 3,000 zhang, respectively.

"Run? None of you will escape today." The lead Evil Clan member snorted coldly, but in the next moment, his expression dramatically changed. Opposite him, a towering Immortal Mountain suddenly appeared. This Immortal Mountain was unimaginably massive, like a vast mountain range. He even had the illusion that the opponent's Immortal Mountain was larger than all four of theirs combined, including the three other Humans' combined!

Moreover, the opponent's Immortal Mountain was incredibly tall, reaching a terrifying height of 5,000 zhang!

This was merely a late Immortality Regainment Realm, yet that Immortal Mountain was 1,000 zhang taller than his, a peak Immortality Regainment Realm!

This...

This was the most elite, unparalleled prodigy among the Humans!

In the back, the three Humans were also stunned. A 5,000 zhang Immortal Mountain! Was this truly just late Immortality Regainment Realm?

They also knew and had met many of their clan's talented individuals and prodigies, but they had never seen anyone with a 5,000-zhang Immortal Mountain at the late Immortality Regainment Realm!

They hadn't even heard of such a thing!

In their clan, there was a saying used to assess absolute prodigies.

Early Immortality Regainment Realm, Immortal Mountain reaches 1,500 zhang.

Mid Immortality Regainment Realm, Immortal Mountain reaches 3,000 zhang.

When in late Immortality Regainment Realm, Immortal Mountain increases by another 1,500 zhang to reach 4,500 zhang, that was an unparalleled prodigy, the peak existence in all Great Teachings.

At 4,500 zhang in late Immortality Regainment Realm, one could be considered a future pillar of a Great Teaching, even being cultivated as a future Sect Hierarch candidate.

The person before them, his Immortal Mountain exceeded that height by another 500 zhang, the Human Clan unexpectedly had such a top-tier Heavenly Pride!

Also in late Immortality Regainment Realm, look at this person compared to them; the female cultivator realized her Immortal Mountain was only half the height of his.

Without waiting for the four Evil Clan members to react, purple thunder had already appeared in Cao Zhen's hand. During the past hundred years, Xiang Ziyu had spent some time cultivating the Five-thunder Righteous Method, so his Five-thunder Righteous Method had improved.

However, later on, Xiang Ziyu, that kid, stopped cultivating the normal Five-thunder Righteous Method and started researching the Yin Yang Five-thunder Righteous Method, wanting to combine Yin Yang Qi with the Five-thunder Righteous Method.

Anyway, his Five-thunder Righteous Method had won quite a bit.

As purple thunder gathered, the space seemed to transform into a world of thunder, and the surrounding air became turbulent.

In the next moment, thunderbolts crashed down from the void, striking towards the four Evil Clan members!

The entire sky turned into a purple world at this moment.

Chapter 2125:

The Five-thunder Righteous Method can be divided into countless parts according to the caster's will.

Cao Zhen felt that the strength of the four Evil Clan members opposite him was not remarkable, and he directly divided the Five-thunder Righteous Method into four bolts, each striking one Evil Clan member.

After breaking apart, the power of the Five-thunder Righteous Method is equally distributed, and its descent speed is reduced, but the striking speed of the thunder does not decrease significantly.

Even when the thunder is scattered, its speed remains astonishing.

The four Evil Clan members barely released their protective spells before the thunder struck heavily.

In an instant, four loud sounds erupted almost simultaneously.

Amid sounds that seemed to tear the sky and shatter the earth, three Late Immortality Regainment Realm Evil Clan members were struck by thunder, fell straight from mid-air, and crashed to the ground, raising a cloud of dust.

Behind Cao Zhen, three Human Clan members watched the scene with terror-stricken faces, their minds nearly ceasing to think!

Just one strike, just one strike had severely injured them all!

This thunder, it's an Earth Level spell!

It is unquestionably an Earth Level spell. Otherwise, such thunder could never be so powerful as to severely injure three Advanced Earth Immortal Realm experts instantly.

Even the Peak Earthly Immortal Realm member of the Evil Clan, although not smashed into the ground, had his protective spell instantly dissipated, his body scorched black with purple electric currents roaming across his body like electric snakes, each leap making his body shudder involuntarily, sending crimson blood seeping from the corner of his mouth.

In the next moment, a figure flashed before his eyes.

In that instant, he felt hundreds of figures flashing before him, each delivering a sword strike.

The opponent's speed was incredibly fast; one moment they were afar, and the next they were right in front of him. He had no time even to react before the sharp sword sliced across his head, beheading him instantly!

Too weak.

Cao Zhen now felt, this so-called Peak Immortality Regainment Realm was nothing like it.

After annihilating him, Cao Zhen casually released three more bolts of thunder, the purple thunderstorm descended, annihilating the other three Late Immortality Regainment Realm Evil Clan members.

Beside him, the three people were utterly stunned.

Is this truly the presence of the Late Immortality Regainment Realm?

Even being in the Late Immortality Regainment Realm, they were chased and forced into hiding by these four Evil Clan members, while the current Late Immortality Regainment Realm presence slayed the opponents as easily as killing chickens.

In just a brief moment, these four Evil Clan members were exterminated.

They finally understood why the other party dared to come and rescue them alone.

Cao Zhen collected the four Evil Clan corpses, turned, and flew towards Broken Chaos City, without even giving the other three a chance to ask.

"This person... is probably the peerless Heavenly Pride of some Great Teaching, bred as the Sect Hierarchy!"

"What a pity, we don't even know his name."

"This is quite normal though, for us our lives were saved, but for him, it was merely a trivial matter."

Cao Zhen did not know what was going on; when he tried to find the alien race, he found none. After he killed an alien race, he did not intend to find any more, yet on his way back, two Beast Clan members happened to come to him.

After casually annihilating these two Late Immortality Regainment Realm Beast Clan members, he quickly returned to Broken Chaos City.

This time, the ones guarding the gates were the same two he saw previously.

Cao Zhen saw the two, didn't waste words, and directly threw out six corpses, saying, "You said I've been cultivating all this time?"

I remember you said before, that killing five alien races allows one to leave Outer Heaven Battlefield, right? Now, I have killed five alien races of the same cultivation realm as mine, including a Peak Immortality Regainment Realm alien race, so now I can enter the city and leave the Outer Heaven Battlefield, right?"

Several cultivators leaving the city looked at the six corpses on the ground, couldn't help but glance over.

"Six corpses?"

"Five Late Immortality Regainment Realm, one Peak Immortality Regainment Realm?"

"Who is this? One person killed so many?"

All the newcomers turned to the city elders leading them out.

And all those elders shook their heads.

"Don't recognize him; we have never seen such a figure!"

"Not only have I never seen, but I've never even heard; our Broken Chaos City having anyone capable of annihilating Peak Immortality Regainment Realm experts? Although they are also Peak Immortality Regainment Realm, this person seems to be only Late Immortality Regainment Realm."

"He must have killed weaker ones within the Peak Immortality Regainment Realm, and these alien races should have been killed separately. Of course, this is strong enough."

"Alright, let's not watch; let's head outside."

They muttered while walking towards the exit.

At the city gate, the two guards looked at the man who had left only a short time before and returned again, completely stunned, "How much time has it been, yet he has already killed so many alien races."

According to the rules, he can indeed leave the Outer Heaven Battlefield, but the issue is, earlier Immortal Lord Chun Yi specially mentioned, they dare not let him go casually.

"This Dao Companion... you know, Immortal Lord Chun Yi appeared before, so we need to report to Immortal Lord Chun Yi first."

Chapter 2126:

One of the guards spoke and quickly left.

Fortunately, not long after, he returned with Immortal Lord Chun Yi.

Immortal Lord Chun Yi did not expect this person to return to Broken Chaos City so quickly. Looking at the corpses below, he only needed a sweep of his divine thought to detect that it was indeed one Peak Immortality Regainment Realm and five Late Immortality Regainment Realm corpses.

Did this guy really kill them all in such a short time?

If he truly had this strength, why had he been hiding outside for cultivation without any records for this period of time?

As he was wondering, the voice of the other person came through.

"According to the regulations, killing five aliens of the same cultivation realm allows one to leave the Outer Heaven Battlefield. Now that I have killed five Late Immortality Regainment Realm aliens and even added a Peak Immortality Regainment Realm alien to the tally, I can leave, right?"

Immortal Lord Chun Yi shook his head lightly and said, "Logically, yes, but we are currently amending the regulations for leaving the Outer Heaven Battlefield. Moreover, the new rules will be announced today."

"Announced today, but they aren't announced yet." Cao Zhen said, and as Immortal Lord Chun Yi was about to continue speaking, he interrupted with a wave of his hand and said, "Go ahead, what is the new rule on how many aliens must be killed to leave? Ten? Twenty?"

Immortal Lord Chun Yi, looking at the person who seemed ready to leave and slay aliens at any moment, shook his head again and said, "It's not about how many aliens are killed. In the future, the rules will change to require staying for a hundred years before one can leave.

Moreover, during those hundred years, there must be evident traces, and it's impossible to just sneak away, hide, and cultivate for a hundred years and then leave.

In fact, the reason for amending this rule also relates to a previous individual."

When Immortal Lord Chun Yi spoke of this, a hint of helplessness surfaced on his face as he said, "Previously, in Broken Chaos City, there was a guy who went everywhere looking for people to sell alien heads.

Those who wanted to leave the Outer Heaven Battlefield could buy alien heads from him directly.

So, even if you carry alien heads, we cannot determine that you killed them."

Cao Zhen was speechless in an instant. Someone was doing such a business, where did that person get those alien heads?

As he was pondering, a passerby overheard and immediately spoke up, "Is Immortal Lord referring to Warrior All-defeater? That guy even tried selling me alien heads back then."

Cao Zhen: ...

Warrior All-defeater!

So it's that brat; instead of having him scout the Outer Heaven Battlefield's maps, he went into business!

No wonder the brat didn't want to go back; he got so involved in the business that he forgot his purpose!

As for those alien heads, there's no need to think about it; they must have been robbed by Warrior All-defeater. He's fast enough to rush in during battles and steal the bodies, and no one can catch up with him.

Over the hundred years, he also monitored what the disciples were doing through China Cloud, and he had seen Warrior All-defeater.

However, every time he watched that brat, he was either fleeing or fleeing again, and eventually, he stopped observing him; he never expected the brat would get involved in such a business.

Immortal Lord Chun Yi nodded slightly and said, "Indeed, it's Warrior All-defeater from Hundred Peaks Sect. If not for the City Lord noticing him and considering his contributions in mapping the Outer Heaven Battlefield extensively for the Human Clan, he would have been imprisoned for ten thousand years.

The reason we have these rules is to encourage everyone to train in the Outer Heaven Battlefield and compete with aliens. But thanks to him, anyone can just buy a Beast Clan head and forget about training.

So, even if you bring alien corpses, we still can't verify that they were killed by you; they might as well have been bought from someone else."

"I bought corpses? Do I need to!" Cao Zhen's heart suddenly stirred, and he spoke up, "Right, I have a witness. I killed these Evil Clan members while rescuing our Human Clan companions; they can testify that I killed them, not that I bought them."

He was also speechless, never expected that in the past life he needed to prove his own identity, and now, he doesn't need to prove his identity but he has to prove the aliens were killed by him!

"Oh? You rescued someone? Then what are the names of the people you rescued, I can check, and if it's proven that you rescued them and killed the aliens, I can decide to let you leave the Outer Heaven Battlefield directly."

"I... I don't know their names. Can't you check yourself? They were the ones who used their jade pendants to call for help at the time." Cao Zhen regretted deeply, he wanted to leave promptly and didn't ask for the names. Moreover, those three people weren't in uniform sect attire, so he couldn't tell which Great Teaching they were from.

"Every day, countless people call for help using jade pendants, how are we supposed to check! You don't know their names, how can you prove you rescued them?"

"Then look at the wounds on these corpses." Cao Zhen pointed to the corpses on the ground and said, "Let me cast a spell to prove they were killed by me, isn't that possible? You're a True Immortal, you should be able to tell what spell killed them."

"No need." Immortal Lord Chun Yi looked at the ready-to-cast Cao Zhen and lightly waved his hand. The confidence on the other side made him believe the aliens were indeed killed by him.

Chapter 2127:

"Even if you killed it, it wouldn't be good to just let you leave. After all, you've been missing for too long." Immortal Lord Chun Yi pondered for a moment and said, "Just right, the city currently lacks people to lead newcomers. You've been on the Outer Heaven Battlefield for a hundred years, proving your strength and experience. Here's the deal, you lead the newcomer team ten times, and I'll let you go."

"Ten times? Impossible!" Cao Zhen refused without thinking. What a joke, leading newcomers at least takes a month, and there might be waiting periods in between. Leading ten times would take at least a year.

In a year's time, the branches of his Life Ancient Tree would have withered.

Cao Zhen firmly extended one finger and said, "Once, I can lead newcomers at most once. Otherwise, I'd rather leave, stay outside, and rescue whoever needs rescuing.

Didn't you say before that I could prove myself, having rescued people and killed Strange Beasts, and then you'll let me leave?

At most, I'll rescue people again, and this time I'll remember their names and origins."

Beside him, the guards at the city gate and passing cultivators all turned their shocked faces towards him.

After all, that was an Immortal Lord, a presence of the True Immortal Realm.

This guy from the Immortality Regainment Realm was actually speaking so forcefully to an Immortal Lord!

Immortal Lord Chun Yi was taken aback for a moment, then lightly nodded and said, "Alright, then you shall lead a team once."

With that, he directly took out a token and three sheets of paper, throwing them to Cao Zhen, "This is the captain's token for Squad Four. Go to the city and find Squad Four, then set off tomorrow.

Do what you must. When you entered the Outer Heaven Battlefield back then, those veterans led you. You lead them the same way.

In a month's time, take them around as much as possible to help them quickly adapt to the Outer Heaven Battlefield.

Those three lists, if something arises, you will be notified.

Moreover, a piece of advice: when you see someone in the True Immortal Realm, it's best to show some respect. Not every True Immortal Realm is as easygoing as I am."

With that, he turned and flew towards the city. If it weren't for the current chaos in the world and the rules set by the Golden Immortals, he would have given this man a lesson.

He is, after all, a presence of the True Immortal Realm, and that guy spoke to him so forcefully!

Cao Zhen?

He had to see what kind of person this Cao Zhen was!

Soon, he returned to look through the records. Anyone who entered the Outer Heaven Battlefield through Broken Chaos City was documented. He had been too busy to check Cao Zhen's records before.

Now, after searching, he quickly found Cao Zhen's information.

"Cao Zhen, Eastern Province, Sect Hierarchy of Hundred Peaks Sect in Eastern Wasteland? A Sect Hierarchy, at just the Late Immortality Regainment Realm? Does the Hundred Peaks Sect not have anyone in the True Immortal Realm?"

With just a glance, his eyes showed a hint of surprise. He quickly took out another batch of documents and searched through them. It wasn't long before he found what he wanted to see.

"Hundred Peaks Sect has two in the True Immortal Realm, one is the newly ascended Immortal Lord Yao Feng, and the other is... Immortal Lord Xi Mu of the Seven Immortal Palaces!

Both are in the True Immortal Realm. Even if one is a Supreme Elder, the other should be the Sect Hierarchy. Why let someone in the Late Immortality Regainment Realm be the Sect Hierarchy?"

He knew of the Hundred Peaks Sect because the City Lord once mentioned that the Wansui Invincible comes from their sect. Beyond that, he knew nothing about the Hundred Peaks Sect, and now, his curiosity piqued, he continued reading.

"A reincarnated Great Ability? No wonder he became the Sect Hierarchy, no wonder he shows no awe towards someone in my True Immortal Realm."

True Lord Chun Yi nodded slightly. They in Central Continent had reincarnated Great Abilities, as did those in remote areas.

But the six Alien Races had no reincarnated Great Abilities.

Their major advantage over the six Alien Races was possessing reincarnated Great Abilities.

Indeed, it's hard to say how much these reincarnated Great Abilities can accomplish.

Cao Zhen found it quite a fate that he was connected with Squad Four. A hundred years ago, when he came to Broken Chaos City, he joined Squad Four. Now, he was joining it again. The difference is, a hundred years ago, others led him; now, he's leading others.

The position of Squad Four hadn't changed. He quickly entered Squad Four's courtyard.

At first glance, fourteen people had gathered in the courtyard.

Four stood on one side, ten gathered on the other, clearly forming two distinct groups.

The four were explaining something at the moment.

"On the Outer Heaven Battlefield, it is indeed very harsh. This is a war of races! In our Human Clan world, when you went out exploring, you might have addressed others as Dao Companions, and sometimes cooperated if no treasures were at stake, avoiding fights.

The most that might happen is conflict between a Grand Righteous Sect and a Demonic Sect, but not necessarily to the death.

But here, when you see an Alien Race, there's no consideration, you fight! Of course, if the power gap is too great, there's no need to throw your life away, you can still run, provided you can escape."

"Venerable Wu Wei, don't scare these newcomers." Among the four, a slightly plump middle-aged man said to the ten, "He's right, but it's not a constant life-and-death struggle here either.

Chapter 2128: (Part 4)

After all, the Outer Heaven Battlefield is too vast. Most of the time, we're just on the road. Of course, when traveling, you need to be careful not to fly in the sky, as it's easy to attract enemies that way, and don't easily expose your Immortal Mountain, since it's so high, enemies can easily notice it.

Actually, just staying near Broken Chaos City is relatively safe. But recently, there might be new rules requiring us not to linger around Broken Chaos City, urging us to explore more of the Outer Heaven Battlefield to contend for resources."

Among the ten people opposite, a rather playful-looking woman heard and immediately asked curiously, "I've always heard about contending for resources, contending for resources. How much is there really for us to compete for? Plus, it's been over a hundred years now. I fear most areas' resources have been scoured off; we might need to go deeper to compete for resources?"

"Of course..." The cultivator who just spoke was about to explain when he heard footsteps and looked towards the doorway. Around him, the others also turned to look.

Cao Zhen sensed everyone's gaze, waved the token in his hand at the crowd, and said, "I am the captain of the fourth squad, and tomorrow, I'll be leading you out."

"Captain? We're finally departing?"

The ten newcomers heard this, and each one showed complex expressions—some excited, some worried, and others expressionless.

The four experienced individuals, however, showed signs of surprise. The cultivator who had just spoken seemed bewildered and said, "So fast? I thought we would have to wait ten more days or half a month."

Cao Zhen recalled how Immortal Lord Chun Yi at the city gate insisted that he lead the team, even asking him to lead ten teams. Looking at the current situation, he curiously asked, "What, are there very few people leading teams now?"

"What, don't you know?" The four sensed this, and their faces turned oddly strange. Generally, those who lead teams have been at the Outer Heaven Battlefield for a long time, have sealed experience, and possess considerable combat strength.

But this guy doesn't even know this—how can he claim to be experienced?

Among the ten newcomers, many showed signs of disappointment. This captain seems to know less than they do; at least they all know it's difficult to find team leaders here in the Outer Heaven Battlefield. How could their captain be so ignorant? This seems rather unreliable.

A slightly chubby cultivator, seeing the other not responding, continued saying, "Have you been away from Broken Chaos City for a long time? Initially, it was relatively easy to find someone to lead a team in Broken Chaos City because there was a rule that experienced individuals had to lead newcomers once.

As time progressed, those experienced individuals are no longer in the city. Those who remain are mostly injured and cannot lead newcomers.

Many of those who occasionally return have already led newcomers once and are not suitable to lead them again.

So, you see, we've been waiting here for three days, just to have you as our leader.

Besides this, previously it was ten experienced individuals leading ten newcomers; now, due to the shortage, it's become five experienced individuals leading ten newcomers.

If this continues, I estimate it will become three experienced individuals leading ten newcomers."

Cao Zhen finally understood why Immortal Lord Chun Yi was adamant about him becoming a leader. They were so short on people that they couldn't pass up the chance to grab someone willing to lead. How could Immortal Lord Chun Yi let him go?

Speaking of which, Immortal Lord Chun Yi was also doing it for the Human Clan,

The slightly chubby cultivator, continuing, took the initiative to say, "I am Venerable Huang Tu, a mid Immortality Regainment Realm loose cultivator. How should I address you, Dao Companion?"

Cao Zhen slightly nodded and introduced himself, "Hundred Peaks Sect, Cao Zhen, Late Immortality Regainment Realm."

"Cao Zhen?"

Everyone was stunned upon hearing his name. After entering the Immortality Regainment Realm, everyone generally has a venerable title. How come this guy still uses his name? It can't be that Cao Zhen is his venerable title—there's no such title.

Although they didn't know why he didn't have a venerable title, they couldn't really ask.

Moreover, this guy was merely in the Late Immortality Regainment Realm, not at the peak.

It seems they're indeed short on people. Previously, many team leaders were in the peak Immortality Regainment Realm.

Now, it looks like they can't wait for a peak Immortality Regainment Realm to appear, and they directly let someone in the late realm lead. Of the three teams that departed earlier, only one was led by someone at the peak.

Beside them, the other three experienced individuals also introduced themselves one by one.

"Venerable Wu Wei, loose cultivator, Late Immortality Regainment Realm."

"Overbearing Peak Sect, Venerable Ba Feng, Mid Immortality Regainment Realm."

"Thousand Silk Sect, Venerable Bai Chan, Late Immortality Regainment Realm."

Cao Zhen internally sighed; indeed, things had changed. Initially, the team leaders could still be seen as disciples from the great teachings, but now, these four individuals weren't from any great teaching.

He looked at Venerable Huang Tu and said, "I just heard you explaining something. You don't have to mind me; please continue."

"No need." Venerable Huang Tu chuckled gently, waving his hand slightly, and said, "This is something for the captain to say. It's inappropriate for me to speak."

"It's okay." Cao Zhen also waved his hand and said, "I'm not very clear about these things; please continue."

A newcomer to the Immortality Regainment Realm opposite heard this and became increasingly despairing. This captain knows nothing at all—was he randomly assigned because there was truly no one else?

Chapter 2129: Turbulence in the Void

The four elders exchanged peculiar glances at the guy who claimed to be Cao Zhen. The man knew nothing, so why make him the captain?

Perhaps it was because his strength surpassed the others.

At the very least, he must be stronger than Venerable Wu Wei and Venerable Bai Chan; otherwise, the captainship would have gone to one of the venerables or Venerable Bai Chan, not this Cao Zhen.

Venerable Huang Tu opened his mouth, continuing the previous topic, and began introducing the ten newcomers across from him: "You were just asking about resources, right? Indeed, the resources deep within are abundant, far beyond your imagination. Otherwise, our Human Clan wouldn't have sent us to compete for them, and those six alien races wouldn't be constantly fighting here!

However, as for exactly how many resources there are deep in the Outer Heaven Battlefield, I don't know, because I haven't ventured into the core of the battlefield myself.

Of course, it doesn't mean that resources and treasures can only be seized by entering the depths. Even on the periphery, resources might be found somewhere, just undiscovered by others.

Perhaps those resources are unattainable for others, but for someone destined, like you, it can be directly activated. Besides, another reason resources can be seized on the periphery is that some of the battlefield's resources are mobile, able to fly and wander on their own.

Some areas may have been explored already, but it's unpredictable when some treasure might pass by.

Indeed, the Outer Heaven Battlefield is rich in various energies, which are among the most precious of resources.

If we don't seize these resources, they will fall into the hands of the alien races, strengthening other clans while we would grow weaker. Hence, the order to seize resources."

As he spoke, he turned to Cao Zhen and said, "Captain, I'll leave the rest to you. I have been mostly active in Broken Chaos City and am not familiar enough with the outside battlefield."

"My understanding of the outside battlefield is about the same as yours. Besides, the experiences I've had on the Outer Heaven Battlefield aren't useful to you, nor are they suitable for you."

What could he possibly teach? He had transformed into an alien race and was all about fighting and killing. If these men were to emulate him, they'd all likely perish on the Outer Heaven Battlefield.

"I see."

The people around remained silent, yet the ten newcomers started to secretly discuss amongst themselves through sound transmissions.

"Why do I feel like this Cao Zhen seems unreliable?"

"You don't just feel it; he is indeed unreliable. Didn't you notice that he said nothing and left everything for others to say?"

"Exactly. I even suspect his understanding of the Outer Heaven Battlefield is as superficial as ours. Besides, he's only Late Immortality Regainment Realm, whereas my senior brother and I arrived on the same day. He got lucky and already set off, led by someone who is at Peak Immortality Regainment Realm."

"What can we do? We can only consider ourselves unlucky."

Cao Zhen paid no heed to these people and directly returned to his temporary chamber, where he closed his eyes to rest.

The night passed without words, and the next morning, everyone set out to begin their journey. Alongside them, three additional groups also departed.

Though Cao Zhen was the captain, Venerable Huang Tu appeared more like the actual team leader, selecting advance targets and pointing out important places on the map to the group.

Before they knew it, seven days had passed. The ten newcomers gradually relaxed after their initial tension.

"This area is called Chaos Turbulent Mountain. Sometimes, terrifying Chaos of Void inexplicably emerges here."

Venerable Huang Tu pointed at the terrain ahead, full of interwoven cracks that seemed to be repeatedly slashed by a Giant Axe, and introduced it to the ten newcomers behind, "No one knows when Chaos of Void might appear here. Therefore, when people pass through this area, they do so quickly, and no clan lingers here for long."

His words immediately made the relaxed group tense once more.

"There's no need to be like this." Venerable Huang Tu shrugged off any aloofness. He smiled and reassured everyone with a wave, "In truth, I've only heard about it. I've been here for a hundred years, always near Broken Chaos City, and never encountered Chaos of Void in that time."

Throughout this century, Chaos of Void has never shown up. In fact, encountering Chaos of Void can be beneficial; it's said that treasures appear after it does."

Just as Venerable Huang Tu's words fell, almost as a response, the void behind them began to tremor, with visible cracks emerging.

Within the time it took for a single breath, the sound of shattering, like something breaking apart, continuously echoed.

"The void is breaking! Chaos of Void, run!"

Venerable Huang Tu quickly reacted. He never imagined that right after saying that he'd never seen Chaos of Void, it would suddenly appear.

Everybody began to flee towards the distance. At this moment, they no longer cared about being exposed, all taking to the skies, flying as fast as they could. Behind them, after the constant void detonations, masses of Chaos of Void shot out.

Even more terrifyingly, the void behind them continued to explode.

The group sprinted forward with all their speed, and soon, silhouettes began to appear on their sides.

Chapter 2130: Six

Prison clan!

This is a Prison clan, obviously at the Chaos Turbulent Mountain, fleeing rapidly from another part of the mountain after encountering the Chaos of Void.

The Prison clan members obviously saw the Human clan people, but at this moment, they didn't bother to attack them and instead sped towards the front to escape.

That was Chaos of Void, even a True Immortal could possibly fall into it; in such a time, escaping the Chaos Turbulent Mountain's range was the priority.

Fortunately, the Void's fracture wasn't fast; everyone fled while staying ahead of the turbulence.

The range of Chaos Turbulent Mountain wasn't particularly large, and after about the time it takes for one incense stick to burn, everyone had escaped its boundaries.

Outside the Chaos Turbulent Mountain, ten Prison clan members had already released their Immortal Mountains, staring ferociously at the approaching humans.

"Fifteen humans. Only five of them are in the Late Immortality Regainment Realm, the remaining seven are in the Mid Immortality Regainment Realm, and there are even three in the Early Immortality Regainment Realm! How weak!"

Among the ten Prison clan members, the leader had a ferocious appearance, dark skin, and was clad in black armor; he sneered cruelly, saying, "After the Chaos of Void, treasures are bound to appear.

These humans and we are the closest to it; kill them, and the treasures in the Chaos of Void will be ours! Attack, leave no one alive!"

Although there were fifteen humans, they were really too weak, not a single one was at the Peak Immortality Regainment Realm, with even some at Early Immortality Regainment Realm; how could they resist?

Venerable Huang Tu watched the Prison clan across from them, his expression undergoing a drastic change.

"Not good, they want to annihilate us!"

Behind him, the faces of the humans turned incredibly grim, for behind them was the chaos of void, and entering it meant certain death.

Yet in front of them were ten Prison clan members!

Even among them were two at the Peak Immortality Regainment Realm, their Immortal Mountains all exceeding four thousand feet, with one reaching four thousand six hundred feet!

Furthermore, the remaining eight Prison clan members were all in the Late Immortality Regainment Realm, with Immortal Mountains reaching three thousand feet!

The disparity in strength was overwhelmingly against them!

What misfortune, they had just arrived at the Outer Heaven Battlefield and encountered such danger!

Unable to retreat, the path ahead blocked, were they all destined to die here today?

As terror struck them, the Prison clan attacks came crashing down.

Each of the ten Prison clan members swung their arms like long blades in front of them!

In an instant, with each swing, a black blade materialized in front of each Prison clan member, shooting out and slicing a sinister arc, giving the illusion of the Chaos of Void being hurled at them, swiftly descending upon everyone.

Suddenly, a figure dashed out from among them.

Cao Zhen appeared at the forefront, surrounded by ascending black and white protective light.

Record of Deities and Demons!

He positioned himself where the attacks of the Prison clan overlapped the most, standing here to withstand five clan assaults. As for the rest, if those behind couldn't handle even that, they might as well consider suicide!

In his hand, purple thunder had already gathered.

Five-thunder Righteous Method!

In an instant, terrifying thunder resounded through the void, two thick bolts of purple thunder crashing down from the sky.

Among the Prison clan, two from the Peak Immortality Regainment Realm just sensed that terrifying power, as if threatening to destroy the entire world.

The next moment, the thunder had already struck them.

The speed of the thunder was too fast, they didn't even have time to react!

In an instant, they felt an indescribably terrifying power, questioning whether it indeed belonged to the True Immortal Realm, crashing onto them.

This force was so strong that it filled their flesh in an instant, rushing into their bodies!

The violent Power of Thunderbolt shattered their internal meridians and organs rapidly!

Both Prison clan members were uncontrollably smashed to the ground below, creating two bottomless craters, causing the land to tremble wildly.

Cao Zhen's first attack targeted the strongest two on the opposite side, both of whom, although at the Peak Immortality Regainment Realm, did not have Immortal Mountains as high as his own, which stood towering.

Moreover, he was casting Earth Level spells, the Five-thunder Righteous Method!

Even simultaneously attacking the two was enough to critically injure them!

"What is this!"

"How is this possible!"

The surrounding Prison clan members watched in horror as their two strongest fighters were instantly critically injured, eyes wide with shock.

Those two were Peak Immortality Regainment Realm beings!

In this human's hands, they were devastated instantly!

Who truly was the Peak Immortality Regainment Realm, and who was actually the Late Immortality Regainment Realm!

Moreover, the human's physical body!

In the void, their attacks had fallen on the black-haired, black-eyed human simultaneously, but the black and white light around him had blocked three of the attacks; the remaining two were greatly diminished, striking him as though hitting a hard Immortal Mine, producing two crisp sounds and disappearing without leaving any marks on him!

Who is this person?

A Mid Immortality Regainment Realm capable of such terror!

An Immortal Mountain five thousand feet high! How could such a mountain still be so large?

This human had instantly devastated Peak Immortality Regainment Realm experts, not to mention the rest!

Run!

The thought barely emerged in the minds of the Prison clan members when once again, thunderbolts descended from the void. This time, instead of two, eight lightning bolts fell, striking the remaining eight Prison clan members!
