

My Master 2151

Chapter 2151

“Yes!”

One by one, the Beast Clan members agreed, deciding to reach the Flying Flow River first.

Even though they had to follow Venerable Fei Xiong’s command, there wasn’t no chance that they could kill Cao Zhen before him and seize Cao Zhen’s treasure.

At the same time, in a pitch-black large city, a powerful Prison clan member looked at the array of Immortality Regainment Realm experts below and said, “That Cao Zhen, despite being in the Late Immortality Regainment Realm, managed to defeat two Peak Immortality Regainment Realm experts on the Immortal Mountain over six thousand feet tall.”

If he enters the Peak Immortality Regainment Realm, I’m afraid there’s no expert within the Immortality Regainment Realm who could defeat him!

At that time, attempting to assassinate him might become impossible, and when he advances to the True Immortal Realm and grows stronger, he will undoubtedly be a major threat to us. Such a Heavenly Pride cannot be allowed to thrive. This time, no matter what, Cao Zhen must be killed!”

Both the Evil Clan and Demon Clan were also sending out experts at this time.

“Do not let Cao Zhen survive!”

“Order issued. All Evil Clan experts in the Flying Flow River and its vicinity, their sole task is now to find and kill Cao Zhen!”

“Also, notify Venerable Kun Fa not to search for that item anymore and head straight to Flying Flow River!”

“Mobilize our Demon Clan experts to head to Flying Flow River!”

Under various orders, experts from four clans set out from different places, converging toward the Flying Flow River.

Even the Insect Clan learned of this, and a large group of Soldier Bugs headed to Flying Flow River.

It seems the only ones inactive are the Sky Clan.

Speaking of which, the Sky Clan rarely participates in inter-clan conflicts.

While other clans dispatch experts to target and kill talented members of other clans, the Sky Clan never participates in such activities; their aim in entering the Outer Heaven Battlefield seems to be treasure hunting.

Of course, the Sky Clan’s numbers are few, and other clans rarely see them.

After Cao Zhen transformed to resemble Qin Yuan, he didn’t conceal his form and continued flying upstream along the Flying Flow River.

Three days later, when he reconnected with Ten Thousand Enemies, Ten Thousand Enemies finally revealed the traitor’s identity!

Actions by the three True Immortal Lords from Broken Chaos City were swift, and upon investigation, they discovered that Venerable Huang Tu was already dead. Venerable Huang Tu was the only one among the senior members leading Cao Zhen’s team that had died.

Strangely enough, although Venerable Huang Tu died, no one could determine how he died or who from any race had killed him.

Because of Venerable Huang Tu's death, the three True Immortal Lords of Broken Chaos City investigated Venerable Huang Tu closely, and quickly, everyone realized the problem: they confirmed that the traitor was Venerable Huang Tu.

"That said, Venerable Huang Tu stayed near Broken Chaos City most of the time under the pretense of limited cultivation base and fear of death, claiming to train newcomers here, but he was actually observing experts leaving Broken Chaos City, ultimately betraying the entire Human Clan.

Unfortunately, with Venerable Huang Tu dead, it's impossible now to trace his murderer's hand."

Cao Zhen sighed, even suspecting Venerable Huang Tu was killed by the mastermind behind it.

He continued flying upstream and noted that as he ascended, the river's water grew swifter, and the river itself widened.

But it was fruitless; he still hadn't seen the Wan Run Sacred Water.

How exactly does one obtain the Wan Run Sacred Water? Surely he wouldn't have to jump into the river for it?

After Cao Zhen took a few steps, the void carried over a chilling wind sound.

His gaze changed, quickly turning to see two Demon Clan members, a duck and a goose. These Demon Clan members appeared human except for their wings. They instantly landed in front of Cao Zhen, their bodies exuding a fierce aura, though they didn't unleash the Immortal Mountain, surrounding Cao Zhen with hostility.

Peak Immortality Regainment Realm!

The Goose Demon looked down on the weak Bee Tribe member, speaking with the tone of superiority, "From the Poison Bee clan of the Beast Clan? Hey, have you seen the human Cao Zhen?"

Cao Zhen was momentarily dumbfounded; was this another search for him? Was there really that many from the Alien Race looking for him now?

But the key question was, what should he say?

He didn't know if the Alien Race had widely issued a bounty for him! If he claimed not to have seen him, and the Alien Race hadn't extensively publicized the bounty, it would pose problems.

Yet if the Alien Race had indeed widely publicized the bounty and he claimed ignorance of Cao Zhen, they'd surely be suspicious!

So...

"I haven't seen him. You're not the first to ask me that." Cao Zhen said this while retreating, his appearance resembling the Bee Tribe from the Beast Clan, confident his opponents would deem him a Beast Clan member, owing the animosity between Beast Clan and Demon Clan.

A Beast Clan member backing away from two Demon Clan members was entirely expected.

"Why are you retreating?" The Goose Demon's pale face twisted grotesquely, advancing a hundred paces with a fierce voice, "Do you possess any Wan Run Sacred Water? If you do, hand it over, and I might spare your life."

The Flying Flow River's most renowned, valuable treasure is the Wan Run Sacred Water.

Wan Run Sacred Water, you think you're the only one who desires it? I want the Wan Run Sacred Water too.

"I... I don't have any Wan Run Sacred Water, and I've been searching for Wan Run Sacred Water myself..." Cao Zhen feigned weakness, simultaneously scanning his surroundings.

Chapter 2152:

"No? No, then go die!" The Goose Demon's eyes suddenly shot out a chilling killing intent, and behind him, an Immortal Mountain measuring five thousand eight hundred zhang suddenly emerged, while a demon breath gathered upon his body forming a white feathered robe, his wings vibrating rapidly, followed by the abrupt shooting of white feathers.

These white feathers seemed like a shower of sharp arrows, rapidly firing towards Cao Zhen.

Almost as soon as the white feathers shot forth, Cao Zhen was already flapping the wings transformed from the tricolored divine wings, rapidly fleeing into the distance!

The white feathers nearly brushed against his body as they fell.

Despite appearing as light as goose down, once they landed on the ground, they immediately pierced the earth creating a bottomless round hole.

In just a breath's time, the originally lush, flat terrain had become pitted and riddled with holes.

"Fled?" The Goose Demon looked at the Bee Beast fleeing into the distance at astonishing speed, an expression of surprise on his face, "This Bee Beast's speed is indeed quite fast!"

"This is normal, some Bee Tribe members are indeed known for their speed, besides, he wouldn't dare enter here alone without some means of self-defense. Let him flee, our urgent task now is finding Cao Zhen, let's continue searching." The Duck Demon didn't think much of it.

Cao Zhen flew for half a stick of incense before stopping, feeling a bit displeased internally, an immortal mountain less than six thousand zhang dares to hunt him down?

That Goose Demon really isn't afraid to die, if it's not for encountering him in Qin Yuan's form, but with his true form, he'd have already wiped him out.

But with Qin Yuan's appearance, it's not feasible, who knows if there are other alien races nearby, if he eliminates the opponent and other alien races appear, or if those two Demons somehow

instantaneously transmit information back saying he can transform into a Bee Beast, wouldn't that expose him?

Therefore, he could only flee for now.

"However, those two Demons reminded me, I don't know where there's Wanrun Sacred Water, but surely those aliens who've been here a long time know where it is?"

Even if they don't know, it's possible they possess Wanrun Sacred Water. They can rob Wanrun Sacred Water, so why can't I do the same?"

Cao Zhen made a decision and continued flying into the distance, simultaneously searching for cultivators from the various clans.

Although the Flying Flow River region is vast, compared to Poison Miasma Gorge, the environment is like heaven and earth, more cultivators clearly entered here than the Poison Miasma Gorge.

After flying for another half a stick of incense, he discovered a Prison Clan cultivator!

Only him?

Cao Zhen felt pleased, immediately descended.

The Prison Clan cultivator walked cautiously through dense grass, suddenly, a sound of breaking in the air emanated around him, instantly alerting his gaze.

Soon, in his view appeared a Bee Beast from the Beast Clan, although it hadn't released an Immortal Mountain, the aura emitted from it signified a presence at the Peak Immortality Regainment Realm.

Cao Zhen contemplated, not only disguising appearance but also best to disguise his Immortal Mountain and aura.

Firstly he shouldn't release an Immortal Mountain exceeding five thousand zhang, instead emitting forty-eight hundred zhang, meanwhile pretending to be at the Peak Immortality Regainment Realm.

After all, an Immortal Mountain reaching forty-eight hundred zhang in the Late Immortality Regainment Realm is a supreme talent among clans, and such an existence is known among all clans.

A sudden appearance of such a beast clan would puzzle, and investigate internally.

Besides, gathered here are experts from various clans, though their primary aim is killing Cao Zhen, who knows if those Evil Clan, Prison Clan, or Demon Clan experts might wipe out a forty-eight hundred zhang Immortal Mountain Late Immortality Regainment Beast Clan on sight.

But disguising as Peak Immortality Regainment Realm poses no problem.

An Immortal Mountain at forty-eight hundred zhang in Peak Immortality Regainment is the most ordinary Peak Immortality Regainment being.

He looked at the Prison Clan in front and emulated the two Demons previously encountered, asking, "Have you seen the Human Clan's Cao Zhen?"

"Human Clan's Cao Zhen?" Prison Clan immediately shook his head upon hearing, revealing an unnatural expression, as this question had already been asked by two Evil Clan.

He was only Late Immortality Regainment, and not even considered strong among the Late Immortality Regainment, he originally came with same clan experts.

But earlier, they encountered two Evil Clan experts, those two asked if they've seen Human Clan's Cao Zhen with an extremely arrogant demeanor.

Among them were also two Peak Immortality Regainment, and upon seeing the arrogant attitude of Evil Clan naturally displeased.

Naturally, they didn't comply with those two Evil Clan, who soon released their Immortal Mountain, two soaring six thousand zhang mountains.

These were top masters among Peak Immortality Regainment facing such masters despite larger numbers could only flee.

The four of them chose four directions to escape, those two Evil Clan chose to kill their Peak Immortality Regainment counterparts allowing his escape.

Thus he ended up alone.

Chapter 2153:

Now, he had only just escaped, and unexpectedly encountered another member of the Beast Clan, who similarly asked him the same question about the Human Clan's Cao Zhen.

"No, I haven't seen Cao Zhen." Thinking about his fellow tribesmen's previous encounters, he responded with unusual deference.

"Oh." Cao Zhen nodded slightly and asked, "Then, do you know where the Sacred Water of Wanrun can be found?"

"I don't know. Everyone knows the Flying Flow River might have the Sacred Water of Wanrun, but no one has figured out the pattern of its appearance. We only know that there's a better chance of finding it by following the river." The Prison clan member spoke while retreating, sensing a chilling murderous intent.

Suddenly, in the next moment, a four thousand and eight hundred zhang Immortal Mountain abruptly appeared behind the Bee Demon in front of him!

The opponent was about to attack!

Though the Bee Demon in front seemed much weaker than the two Evil Clan members he'd encountered before, he still wasn't a match for the opponent. He turned to fly away, but as soon as he turned around, a harsh wind swooshed past behind him, and then he suddenly felt a numbness in his

back. An indescribable pain instantly spread throughout his body, causing all his veins to tremble involuntarily.

Poison!

In the next moment, a terrifying power surged straight into his body.

With a thundering muffled sound, his body exploded.

Qin Yuan was most adept at using poison. Though he hadn't particularly focused on cultivating Poisonous Energy, his body's poison increased while refining an invulnerable body against myriad poisons.

This Poisonous Energy was unbearable even for the Alien Race in Miasma Valley, who dealt with poison daily, let alone this Prison clan member.

Cao Zhen quickly collected the opponent's Qiankun Bag and flew rapidly towards the distance.

Though this Prison clan member seemed innocent, he was still from the Prison clan. Today, if he were spared, tomorrow he might kill a Human clan member.

So, when given the chance to kill a Prison clan member, he wouldn't hesitate.

After flying a distance and confirming that there wouldn't be any enemies following him upon hearing the commotion, he took out the opponent's Qiankun Bag to inspect it.

To be honest, anyone whose cultivation base reached the Immortality Regainment Realm should have a Heaven and Earth Ring. Yet this Prison clan member still used a Qiankun Bag, indicating he was rather poor...

Upon inspection, Cao Zhen's eyes suddenly widened when he discovered two transparent jade bottles inside the Qiankun Bag, each containing two drops of water lying quietly.

These two drops of water were not merging, resembling solid entities. Even through the jade bottles, he could sense the terrifying vitality contained within!

"Sacred Water of Wanrun!"

Cao Zhen's face immediately lit up with joy. Even a seemingly weak Prison clan member had the Sacred Water of Wanrun, suggesting that the Sacred Water of Wanrun was more abundant than he had thought.

If this continued, soon, he would gather enough Sacred Water of Wanrun to leave this place.

With a joyous expression, Cao Zhen continued searching along the Flying Flow River.

But gradually, a month passed. During this month, he encountered several Alien Race members. Yet after making a move, he didn't acquire even a drop of Sacred Water of Wanrun.

He also found that as he ventured deeper, the Alien Race members he met became stronger, and the chances of encountering lonesome Alien Race members, whom he could act against, diminished.

He finally realized his previous thoughts had been too optimistic.

In the blink of an eye, thirty years had passed.

Thirty years might not be long for expert cultivators in the Immortality Regainment Realm, yet during this time, all his disciples had advanced to the late Immortality Regainment Realm.

Moreover, the major Alien Race experts searching this area began leaving the Flying Flow River.

To them, thirty years might not be lengthy, but spending this time searching for a single human, only to find nothing, had become unbearable.

All were experts within the Immortality Regainment Realm of their respective clans and needed both cultivation and exploration.

Though treasures might appear at the Flying Flow River, they were limited and likely unsuitable for all.

Moreover, with so many experts congregated, any treasure appearing would lead to fierce competition.

In other places, given their strength, few could rival them for such treasures. But here, all contenders were similarly powerful.

Within thirty years, several major battles had erupted due to treasure conflicts. Besides that, each clan had internal contradictions, sometimes leading to direct conflicts, even over minor frictions.

In thirty years, unable to find Cao Zhen or kill the human prodigy, they lost many of their own experts due to mutual conflicts.

They had come to deal with the Human Clan, yet while the Human Clan remained unscathed, they suffered the losses instead.

"I'm not waiting here any longer. Whoever wants to keep looking, go ahead!"

"I'm done searching too! The Flying Flow River may be vast, but with so many experts searching together, if Cao Zhen really were here, he would have been found long ago. Since we haven't found him yet, it's clear he's no longer here!"

Chapter 2154:

"They've left! Staying here any longer is meaningless!"

Venerable Fei Xiong, Venerable Hei Ya... one by one, top experts in the Immortality Regainment Realm from the four major clans left Flying Flow River, flying towards the distance.

Cao Zhen quickly noticed the change at Flying Flow River.

"So, they couldn't find anyone and decided to leave?"

A look of regret flashed across Cao Zhen's face. Over the years, he had singlehandedly managed to hold off so many experts from various clans, allowing the humans to boldly explore many regions they previously hadn't touched.

After all, with so many experts gathered here, the clans' control over other areas naturally weakened.

Among them, many human experts found their own opportunities.

Though thirty years isn't particularly long, in these thirty years, his disciples changed a lot too.

Ziyu, Ling Xi, Yan Yourong, and other disciples reached the late Immortality Regainment Realm one after another.

Even his second youngest disciple, Tang Xiaorui, after he granted her the shock of thunder energy, advanced rapidly, and now she too entered the Immortality Regainment Realm.

Of course, she started too late and still had a considerable gap compared to her senior brothers and sisters.

Now, the disciples of the Four Treasures Peak have also widened in disparity from each other.

Most of his disciples have broken through to the late Immortality Regainment Realm, with Ruo Yun having already broken through to the peak Immortality Regainment Realm a while ago.

But Wuan Enemy and Linghu Gudu are still stuck at the mid Immortality Regainment Realm, although they are not far from breaking into the late Immortality Regainment Realm. No matter how you put it, they've been left behind.

As his disciples broke through, his Immortal Mountain rose by another five hundred zhang, making it now 5,500 zhang in height.

Actually, his Immortal Mountain wouldn't have increased so much just from his disciples breaking through.

The main reason is that he's connected with others too.

The Dragon Chant Sect, where Bi Yue belongs, has provided her with ample resources; Bi Yue is already at the peak Immortality Regainment Realm. Besides, Li Ke has also contributed a bit to his "easy wins."

More impactful for his rise was the Star Lord Hao Yue and the Demonic Lord Qing Shi, both were powerful beings in their past lives. They both broke through to the peak Immortality Regainment Realm, and their combat power is unparalleled, especially that of the Demonic Lord Qing Shi.

He previously saw many experts from alien races, witnessing even a flying bear, with an Immortal Mountain reaching 7,100 zhang!

However, the Immortal Mountain of the Demonic Lord Qing Shi soared up to 7,700 zhang!

That was the highest existence he'd seen in the Immortality Regainment Realm. Being powerful beings, Ruo Yun and Star Lord Hao Yue's Immortal Mountains were shorter.

Ruo Yun, continuously cultivating and breaking through, now has an Immortal Mountain just reaching 7,000 zhang.

While Star Lord Hao Yue's Immortal Mountain is a hundred zhang taller than Ruo Yun's, it still pales in comparison to the Demonic Lord Qing Shi's.

Currently, he even suspects that the strongest entity in the human clan in the Immortality Regainment Realm is the Demonic Lord Qing Shi.

Fortunately, after entering the Outer Heaven Battlefield, the Demonic Lord Qing Shi has been exterminating alien races and not slaughtering humans.

It's unfortunate that in these thirty years, he only gathered thirty drops of Wan Run Holy Water. Out of these, twenty-nine drops were seized by him; perhaps his luck was just too bad, having only one drop not taken by force.

Or perhaps he is lucky, for that one Wan Run Holy Water drop was something he stumbled upon.

He finally understood why people say you never know how Wan Run Holy Water will appear. One day, as he went about his usual day, a drop of water shot out from the river and landed right in front of him!

"In thirty years, I got thirty drops of Wan Run Holy Water. At this rate, will I have to stay here for a hundred years to gather enough?"

Cao Zhen sighed, continuing his search.

With some experts leaving, many alien races were also influenced and soon left as well. Within a year, most alien experts had gradually departed from the area of the Flying Flow River.

Unbeknownst to him, another three years passed.

"Now there aren't many experts left at Flying Flow River. I wonder, when they find out I've returned to Flying Flow River and that my strength has grown, how will they react?"

Three years is enough time for them to travel far, isn't it? Once they find out I'm here, the experts backing them will surely send them again to kill me.

They just left, and soon they'll have to come back. Their expressions will be quite something when that happens."

Cao Zhen chuckled to himself and, finding a hidden spot, resumed his original appearance before flying off into the distance.

Previously, he encountered two demon clan experts. Using Qin Yuan's identity wasn't easy to kill them; after all, Qin Yuan's identity couldn't use swordsmanship or the Five-thunder Righteous Method, and many spells were forbidden.

So dealing with them was troublesome, but using his own identity as Cao Zhen, it was easy enough to annihilate those two demon clan members.

He flew onward, but soon, two familiar auras approached from afar.

In a collapsed forest, Venerable Kuang Shi put the Heaven and Earth Ring of the other into his own Heaven and Earth Ring and said to Venerable Hu Sen: "Hu Sen, your proposal was indeed spot on.

Here, due to the sudden influx of alien experts, many of the original experts chose to leave.

Now, since many clan experts couldn't find Cao Zhen, they all left. So, there's a vacancy period here; the experts are fewer than ever. Now, us two are undoubtedly the top strength here, free to do as we please."

As he spoke, he shook his head, saying: "But it's strange, that Cao Zhen seems to have vanished into thin air, completely untraceable.

Even if he left Flying Flow River and returned to the human cities, there should be some news, or if he left the Outer Heaven Battlefield, some news should have circulated.

But now, there isn't a single piece of news about him. I even suspect if some clan's expert killed Cao Zhen and kept silent; after all, he carries so many treasures. If word got out about who obtained Cao Zhen's treasures, every expert would rally..."

As Venerable Kuang Shi spoke, his voice abruptly stopped, his gaze fixing on a figure who had vanished for thirty years.

Chapter 2155:

Venerable Wild Lion and Venerable Hu Sen recognized the approaching figure, and their eyes widened almost instinctively. This... isn't this Cao Zhen?

He is still in the Flying Flow River, he hasn't left here?

With so many masters surrounding Cao Zhen, including experts skilled in tracking and investigation, they even returned to their clan after failing to find Cao Zhen and brought back specialized treasure for tracking, but still failed to locate him.

Evidently, Cao Zhen had already left the Flying Flow River. Otherwise, in these thirty years, they would have found not just Cao Zhen, but even if he were a little bug the size of a palm!

Thus, countless masters decided not to waste time here anymore, and left the range of the Flying Flow River. Just as they departed, Cao Zhen appeared within the river's range, clearly having stayed there the whole time, observing everyone's movements, and showed himself when the masters left.

The problem is, how did Cao Zhen evade everyone's pursuit!

Seeing these two familiar figures, Cao Zhen displayed a peculiar smile and taunted, "Oh, what a coincidence that we meet again. Would you say this is a kind of destiny? Too bad neither of you is an Ape Beast, otherwise the bond would be even stronger!

Though, I must say, your recovery is quick. Injured as you were, you've bounced back within thirty years."

He just intended to chase those two demonic beasts but ran into these two fellas, and not far away, there lay the corpses of two beasts; evidently, these two had killed them before he did.

This works too, slaying them while we're at it, taking their gains together.

Behind Cao Zhen, an Immortal Mountain towering five thousand five hundred zhang emerged, with surging immortal energy flowing atop as if a sea of clouds moving across the horizon.

"Five thousand five hundred zhang of Immortal Mountain!"

"His Immortal Mountain has grown again; five hundred zhang in thirty years! What kind of organism is this!"

Hu Sen and the Ore Venerable gazed at the now far taller Immortal Mountain compared to last time, suddenly terrified; what kind of monster is this!

This chap is merely at the late Immortality Regainment Realm, not the Peak!

Previously, condensing his Immortal Mountain to five thousand zhang was terrifying enough, but to breach again, is there no limit for him!

Never heard anyone's Immortal Mountain reaching five thousand five hundred zhang in late Immortality Regainment Realm, not a single one even in various clans' historical records!

Back when Cao Zhen's mountain was just five thousand zhang, the two of them combined still weren't his match, not to mention now he's stronger!

"Run!"

"Run!"

Hu Sen and Wild Lion instantly made their decision, swiftly turning and retreating rapidly into the distance.

"You two at the Peak Immortality Regainment Realm run without fighting against me at Late Immortality Regainment Realm, have you no spirit!" Cao Zhen taunted, and suddenly flapped his tricolored divine wings behind him, with meteors appearing beneath his feet, in the next moment, he stepped upon the stars, darting towards the closer Wild Lion Venerable.

Just within the span of a breath, he appeared before Wild Lion Venerable, Purple Dawn Sword manifested in hand, and he lunged fiercely at Wild Lion Venerable.

The purple Longsword swept across the sky, the space akin to fragile paper was easily torn as a long slit came into view.

Despite the sword not having landed, the terrifying sword aura made Wild Lion Venerable feel as though his body was already being shredded by this Longsword!

Gazing at the sharp blade, Wild Lion Venerable's mind couldn't help but recall the scene when he first met Cao Zhen, where his weapon was sliced in half by Cao Zhen's Longsword.

Even though his weapon has since been repaired, he dared not use it to block Cao Zhen's Sharp Sword.

As for risking mutual injury against Cao Zhen?

He had witnessed how terrifying Cao Zhen's physical strength is!

Hu Sen's strength far exceeds his, yet Cao Zhen endured an attack from Hu Sen without severe damage, not to mention himself. Moreover, Cao Zhen has broken through again, stronger than before!

So, there was no better option but to continue fleeing.

Wild Lion Venerable roared towards heaven, and before him suddenly materialized a giant male lion's shadow, the shadow opened its bloody mouth, biting down at Cao Zhen!

Yet in the next moment, Cao Zhen's Longsword pierced through, penetrating the giant shadow directly, straight towards Wild Lion Venerable's throat!

His speed was too fast, Wild Lion Venerable exhausted all efforts to sidestep but was still a fraction slow, the sharp Longsword penetrated effortlessly into Wild Lion Venerable's body.

Immediately, like a flood breaking a dam, a mighty force surged in, recklessly rampaging, shattering every tendon in his body within moments!

With the success of one strike, Cao Zhen exerted his arm once more, fiercely pulling across.

Suddenly, a powerful sense of obstruction met, Wild Lion Venerable's inner essence instinctively gathered to resist, yet before the sharp surface of the Purple Dawn Sword, it barely posed any resistance.

"*Squelch...*"

A sound of flesh tearing echoed, Wild Lion Venerable's throat was abruptly slit open, the giant lion's head flew away propelled by immense inertia.

Chapter 2156: (Part 2)

Mad Lion Venerable is dead!

Hu Sen Venerable was fleeing into the distance while watching the battle between Cao Zhen and Mad Lion Venerable. Seeing Mad Lion Venerable's head flying off, he was scared so much that it felt like his guts were about to burst!

Mad Lion Venerable was only slightly weaker than him, yet in front of Cao Zhen, he was instantly slain!

Nowadays, after Cao Zhen's Immortal Mountain had risen to a height of five hundred zhang, he had become so terrifying!

If it were him, wouldn't he also be swiftly killed by Cao Zhen!

Terrified, he didn't dare look back even once. Instead, he looked up to the sky and let out a heaven-shaking howl so loud it seemed to echo for a thousand miles, and in the midst of howling, he spat out a mouthful of crimson blood.

Secret Technique!

He had witnessed how terrifyingly fast Cao Zhen was; if he didn't use the Secret Technique now, he would definitely be caught by Cao Zhen!

As the mouthful of blood flew out and splattered over his own body, his whole body was dyed red, as if he had just emerged from a blood pool. And suddenly, his flight speed surged, almost doubling as he hurriedly fled into the distance.

This Cao Zhen was truly terrifying. Even Mad Lion Venerable, a top existence at the Peak Immortality Regainment Realm with his Immortal Mountain reaching six thousand zhang, was so easily exterminated!

He and Mad Lion Venerable were existences at the almost flawless Immortality Regainment Realm. In terms of speed, power, defense, and attack ability, they had no obvious weaknesses, making them difficult to annihilate.

But compared to Cao Zhen, they seemed to be weak in every way.

Cao Zhen seemed to be their nemesis.

No, it should be said, Cao Zhen seemed specifically designed to overpower their Beast Clan.

It was widely known that their Beast Clan wasn't adept at using spells; they preferred to rely on their powerful physiques to fight. But while their bodies were strong, Cao Zhen's was even stronger, especially with an Earth Level Treasure in hand. Their own weapons wouldn't even dare to touch Cao Zhen's Sharp Sword.

How to fight under such circumstances?

If the Alien Races like the Demon Clan or Prison Clan met Cao Zhen, they could rely on spells to maneuver, but them? They could only run!

Cao Zhen was definitely a major threat to their Beast Clan!

Cao Zhen watched as Hu Sen Venerable, using the Secret Technique, fled swiftly, and lightly shook his head. Hu Sen Venerable had already used the Secret Technique; he couldn't catch up even with his speed.

Moreover, though most of the experts chasing him had left, a few remained here. If he pursued Hu Sen Venerable and encountered those experts again, it would be troublesome.

"Let Hu Sen Venerable spread the news; it's a good thing to appear again at Flying Flow River."

Cao Zhen quickly picked up Mad Lion Venerable's Heaven and Earth Ring, flew a distance away, and then opened the Heaven and Earth Ring to inspect its contents.

"Holy Water of Wan Run, this guy is quite wealthy to have thirty-two drops of it, more than I have. No surprise, his power was strong enough, and he was the first to ambush me anyway. I think he's been in Flying Flow River for many years; it's normal for him to have more Holy Water of Wan Run.

He had so much Holy Water of Wan Run; Hu Sen Venerable must have quite a lot too. If I can find Hu Sen Venerable again, perhaps I can collect up to ninety-nine drops of Holy Water of Wan Run.

Too bad all of his companions are dead; Hu Sen Venerable will likely find a place to hide or temporarily leave Flying Flow River!"

Hu Sen Venerable flew rapidly, his sight eventually revealing two figures—a Leopard Demon and a Wolf Demon!

Without hesitation, he descended right in front of these two Demon Clan members.

"Hm? Hu Sen, you dare to land in front of us by yourself. Aren't you afraid we might attack? And where's Mad Lion? Aren't you always together?" The Leopard Demon looked at Hu Sen Venerable with confusion; even when Hu Sen Venerable and Mad Lion Venerable were together before, Hu Sen wouldn't approach them.

After all, their Demon Clan and the Beast Clan were mortal enemies, and he was slightly stronger than Hu Sen Venerable.

But now, Hu Sen actually dared to come straight to them, and he looked weakened, leaving the Leopard Demon puzzled.

"Mad Lion... Mad Lion is dead..." Hu Sen Venerable spoke, unable to hold back as he spewed another mouthful of crimson blood. The Secret Technique he used could directly double his speed and its effect lasted a long time, but the backlash was severe.

"Cao Zhen! I saw Cao Zhen!" Hu Sen Venerable didn't wait for a response; before he cleared the blood from his mouth corners, his voice, filled with blood scent, sounded again.

"What? Cao Zhen!"

"Impossible!"

The two Demon Clans stared at Hu Sen Venerable in disbelief, shouting, "We've looked for him here for thirty years. You see, we've had so many experts searching for him here.

After so much time, if he was still at Flying Flow River, we would have found him. We've flipped through the entire Flying Flow River and haven't seen him. How could he still be here?"

Chapter 2157:

"Are you sure it was Cao Zhen you saw?"

"How could I possibly be mistaken!" Hu Sen Venerable said irritably, "Would I deceive you about such a matter? It was Cao Zhen who killed Frenzied Lion Venerable, and Cao Zhen has become even stronger; his Immortal Mountain has reached a height of 5,500 zhang!

In the history of our Beast Tribe, never has anyone reached an Immortal Mountain height of 5,500 zhang in the late Immortality Regainment Realm!

I know you don't believe it, nor do I want to believe it, but the fact remains. Frenzied Lion Venerable was instantly annihilated by Cao Zhen.

Had I not used a Secret Technique to escape, I'm afraid I would have been unable to get away.

Do you think I sought you out after seeing you to deliver this message? You should quickly relay this information to your Demon Clan."

He also knew that, under normal circumstances, these Demon Clan experts upon seeing him suffer backlash, would likely attempt to kill him.

However, despite escaping, he was uncertain if Cao Zhen was pursuing him. If indeed Cao Zhen was relentlessly chasing, in his heavily injured state, he could no longer fly for long, and sooner or later, Cao Zhen would catch up.

In that case, he would surely die.

For now, being with these Demon Clan members might even make him safer.

Furthermore, he was there to deliver a message, and Cao Zhen remained at Flying Flow River, becoming even more terrifying, boundless with more horror!

At times like these, every tribe must stand united.

A 5,000 zhang Immortal Mountain and a 5,500 zhang Immortal Mountain are entirely different concepts.

Especially since this extra 500 zhang of Immortal Mountain was condensed over thirty years while under their pursuit, which made it even more terrifying.

He believed that upon receiving the message, the Demon Clan individuals would first relay it to their clan rather than killing him.

The Wolf Monster was full of shock, saying, "What did you say? An Immortal Mountain of 5,500 zhang? Are you sure you didn't see wrong, are you sure you didn't fabricate this?"

Even he couldn't accept this news for the moment.

"Do you think I can't distinguish how tall an Immortal Mountain is? Moreover, do you think I'd dare spread falsehoods about such a matter? If investigated later that I fabricated this, do you think I'd have any chance of survival?"

Anyway, I've informed you of the message; whether or not you notify your Demon clan elite is your problem. Now, I must transmit this message to my Beast Clan."

As Hu Sen Venerable spoke, he took out a Talisman and directly ignited it.

The two Demon Clan members exchanged glances and eventually took out a Talisman themselves, starting to relay Hu Sen Venerable's information to their clan.

Although they remained skeptical about everything Hu Sen Venerable told them, just as he had said, he would certainly not dare to fabricate such matters.

Because once such news spreads, it will surely cause tremors among their tribal elites, resulting in more Immortality Regainment Realm experts coming here.

These experts can't be dispatched casually; many issues will be involved.

If Hu Sen Venerable dared to fabricate, not only other tribes, but even his Beast Tribe would not spare him; it would impact not only him, but his entire family.

Thus, they believed Hu Sen Venerable was not lying, and this matter, now that they know, must be relayed to their tribe immediately.

As for killing Hu Sen Venerable...

In other scenarios, killing Hu Sen Venerable might not be an issue, but now, Hu Sen Venerable kindly brings them information, and they believe he must relay the news back to his tribe upon seeing them.

If they kill Hu Sen Venerable, the Beast Tribe will surely cause trouble when it spreads: 'We kindly sent you information, and you actually killed our expert.'

Once it spreads, the Prison Clan and Evil Clan might even take the opportunity to stir up trouble.

Even the Demon Clan might not protect them, since even though they engage in ongoing warfare in killing a certain tribe's Heavenly Pride, they always present a united front.

If they kill Hu Sen Venerable, once it spreads, who would still convey messages to their Demon Clan in the future, and would anyone still want to unite to slay a tribe's Heavenly Pride?

So even though Hu Sen Venerable is currently suffering backlash, they dare not act rashly, rather they must remain with Hu Sen Venerable.

Otherwise, if Hu Sen Venerable is killed by another expert, who knows if they will be blamed?

As they each relayed the message back, Cao Zhen once again spotted an expert of the Alien Race, a Prison clan member only in the late Immortality Regainment Realm.

"Just the late Immortality Regainment Realm, letting him escape seems somewhat unreasonable, never mind, let's see if other clans can see my lightning strike."

Cao Zhen waved his hand, and in the Void, a purple lightning bolt suddenly descended, directly blasting the late Immortality Regainment Realm Prison Clan member.

The momentum of the Five-thunder Righteous Method was incredibly vast, making it easier for other experts to notice the Spell.

And among Earth Level spells, at Flying Flow River, it seems he is the only one who can utilize it.

In the ensuing time, he didn't assume Qin Yuan's guise but appeared frequently along Flying Flow River in his true form.

Soon, the news of his reappearance at Flying Flow River spread among all the tribes.

In the massive building made out of piled stones within the Beast Tribe, Immortal Lord Xue Xi looked unusually solemnly at the gathered Beasts, saying, "Cao Zhen has resurfaced, and within a mere thirty years, he has grown more powerful. He has pushed his Immortal Mountain to a height of 5,500 zhang. If given another thirty years, who knows, might his Immortal Mountain not once again break through, reaching 5,600 zhang, 5,700 zhang?"

Chapter 2158: The Hunt for Cao Zhen (Part 4)

Cao Zhen must die! I have already informed an elder from the Ape Clan of this, and I think Honored Ape Devotee will soon head to Flying Flow River!"

All around, the beast clan members heard this, but their expressions revealed no surprise.

Honored Ape Devotee is the most powerful in the Immortality Regainment Realm in the Outer Heaven Battlefield for the beast clan.

Moreover, Honored Ape Devotee is extremely proud, even Immortal Lord Xue Xi's face cannot sway him. And Immortal Lord Xue Xi doesn't dare to do anything to Honored Ape Devotee.

After all, Honored Ape Devotee is a top Heavenly Pride of the Ape Clan and is considered the future of the Ape Clan.

Just like before, Immortal Lord Xue Xi might dare attack and kill any Immortality Regainment Realm, but when it comes to Honored Ape Devotee, let's see if Immortal Lord Xue Xi dares to attack him!

The Ape Clan is one of the nine royal families!

Therefore, Immortal Lord Xue Xi cannot command Honored Ape Devotee to do anything and can only inform an elder of the Ape Clan of the current situation, letting the Ape Clan take action so that Honored Ape Devotee might move.

As for why not the clan leader of the Ape Clan?

The Ape Clan is one of the nine royal families; even as a True Immortal, Immortal Lord Xue Xi doesn't have the qualifications to directly seek out the clan leader of the Ape Clan.

And in matters such as these, he believes the elder of the Ape Clan will definitely go to their clan leader.

After all, this Cao Zhen is truly terrifying.

Only at the late Immortality Regainment Realm, his Immortal Mountain reaches a height of five thousand and five hundred zhang, and the Immortal Mountain is incredibly formidable.

Even the peak Immortality Regainment Realm, whose Immortal Mountain reached six thousand zhang, was instantly annihilated; what would happen if this Cao Zhen reached the peak of the Immortality Regainment Realm?

There would be no doubt that he would become the world's strongest in the Immortality Regainment Realm.

They must consider, under the leadership of Cao Zhen, how much pressure the human tribe can exert on others in the Immortality Regainment Realm battlefield!

And this is only the Immortality Regainment Realm; what about the True Immortal Realm?

Someone with such talent, once entering the Immortality Regainment Realm, wouldn't be ordinary.

And beyond?

This Cao Zhen, is there any possibility he could become a Golden Immortal? Would he add another top-tier warrior to the human tribe?

"Additionally, I have already informed Venerable Fei Xiong to return to Flying Flow River and continue searching for Cao Zhen. Since Cao Zhen appeared in Flying Flow River, it means he has some treasure there, and he won't leave until he obtains it, so we still have the chance to annihilate him!

And you all, head to Flying Flow River as well. Since you didn't find him last time, this time we'll send even more experts!"

Not only the beast tribe, other major tribes are also sending their Immortality Regainment Realm experts back to Flying Flow River, and they're sending even more experts, some even notifying their tribe's top levels, dispatching experts directly from the Great Thousand World.

"That Cao Zhen is too terrifying; he can still break through; we must not let him live!"

"This man must die!"

"This time, we'll double the number of experts sent out; I refuse to believe we can't find him!"

"Bring the treasures for investigation; he might hide for thirty years due to his mastery of the Art of Transformation, but no matter how he changes, he can't escape the top-tier treasures. Our tribe's experts are already on their way with treasures from the Great Thousand World!"

Just as all tribes are dispatching their experts.

In the Outer Heaven Battlefield, in the Immortality Regainment Realm battlefield, stands a high fortress built on the clouds.

The cities in the Immortality Regainment Realm battlefield are all fortified with walls, but this high fortress has no walls at all; they simply don't need them, as walls generally have formations for defense.

However, no tribe would ever consider attacking them, so they really don't need walls, nor have they set up any formations.

Even in the city, they only symbolically have one True Immortal Realm.

Keeping one in the True Immortal Realm is just for convenient management of this city.

Even if they don't dispatch a True Immortal Realm, no tribe dares to attack their city because it's a city of the Sky Clan!

The interior of the city is lush with vegetation, flowers, and trees, layers of clouds drift below the city, making it look like an Immortal realm from afar.

At the top of the tallest tower in the center of the city, an elder wearing a white long robe appears scholarly, emitting an elegant and wise aura, with the distinguishing feature of two antennae on his forehead.

He looks back at the two Sky Tribe members behind him and says gravely, "At the late Immortality Regainment Realm, his Immortal Mountain has reached five thousand five hundred zhang in height.

Even in our Demon Clan's history, there are only a very few with such achievements.

Which means, this Cao Zhen could potentially compare with the top three Heavenly Prides in Sky Clan history.

Among these three, one met an unexpected end, while the other two both ended up becoming our Sky Clan's clan leaders, reaching the Golden Immortal Realm!

Therefore, if Cao Zhen continues to grow and does not meet an untimely end, there's more than an 80% chance he'll become a Golden Immortal expert!

Our Sky Clan absolutely cannot allow such a person to appear, so this time, our Sky Clan will also take action to annihilate Cao Zhen."

As the Sky Clan moves, the Insect Clan cannot remain inactive!

Swarms of soldier bugs appear in Flying Flow River, and unlike their usual behavior of leaving areas barren, they take no resources this time, focusing solely on flying through Flying Flow River to find the whereabouts of Cao Zhen.

Chapter 2159:

The various tribes also knew that the Insect Clan wanted to kill Cao Zhen, so they didn't take action against these soldier bugs.

This time, besides the Human Clan, the other six major alien races sent their skilled warriors one after another to exterminate Cao Zhen.

With such a large operation, how could the Human Clan not be aware, yet they had no way to intervene.

Rescue Cao Zhen?

Now, six major clans together want to kill Cao Zhen; if they really go to his rescue, it would be one clan's strength against six major clans. The Human Clan doesn't have that strength.

And such a significant matter was immediately reported to the Human Clan's higher-ups, informing a few Golden Immortal Realm existences.

"At the late stage of the Immortality Regainment Realm, he reached an Immortal Mountain of fifty-five hundred feet!"

"Possesses an Earth Level Top Grade treasure, and also Earth Level spells!"

"The Sect Hierarchy of a Great Teaching, also a reincarnation of a Daluo Golden Immortal!"

In the Outer Heaven Battlefield, atop an incredibly tall mountain even exceeding ten thousand feet, two Human Clan experts exchanged glances with deep admiration.

Sword Lord Three Talents sighed and said, "We weren't careful enough at the time. If we had gathered his information earlier, we would know our Human Clan had a reincarnation of a Daluo Golden Immortal.

We wouldn't have let him fall into such danger."

Beside him, a beautiful woman in an emerald green robe, exuding elegance with every movement, gently shook her head and said, "Even if we knew of his existence, he would definitely enter the Outer Heaven Battlefield.

And when he enters the Outer Heaven Battlefield, he will undoubtedly strive with full effort; it's impossible for him to always hide his strength. Therefore, such things are unavoidable.

Moreover, both you and I are in the Golden Immortal Realm, so we are more aware of the methods of a Daluo Golden Immortal. Since he dares to appear again, he must have means to ensure his survival.

Additionally, I even suspect he did it intentionally this time. He's deliberately attracting the various skilled warriors of the Immortality Regainment Realm from the Outer Heaven Battlefield to hunt him.

In doing so, the dominion of each race over other places will decrease, and our Human Clan members of the Immortality Regainment Realm will have a more relaxed environment to familiarize themselves with the Outer Heaven Battlefield and seek opportunities.

After all, from the data we've obtained, when he was just a Peak Master of the Hundred Peaks Sect—no, it should be called the Hundred Peaks Sect at that time—he was already helping them.

Even at the expense of his interests, after becoming a State Preceptor of the Guardian Immortal Imperial Dynasty, he turned to assist the whole Guardian Immortal Imperial Dynasty and even the entire Eastern Wasteland.

Furthermore, as long as someone seeks his help, whether it's from the Extreme Formation Sect or later the Sacred Poison Sect, he would always provide guidance.

From this perspective, his character is somewhat similar to yours. If it were you, I'm afraid you would make the same choice as him."

Sword Lord Three Talents lightly shook his head, saying, "I'm not that strong at the Mid Immortality Regainment Realm. However, your assessment might be correct. So, what about us? Do nothing at all? Or, we could provide some... forget it."

As Sword Lord Three Talents spoke, he shook his head, "Direct resource provision might affect the path he's currently on.

As for guiding him, he is a reincarnation of a Daluo Golden Immortal; we, who are merely in the Golden Immortal Realm, have no qualification to guide him. Forget it, we had better not affect his development."

"No." The female cultivator shook her head when she heard this, her eyes revealing a cold gleam, "We still have work to do. The reason he was exposed is actually due to traitors within our Human Clan betraying him. So, what we need to do is eradicate the traitors within our Human Clan.

I know you have given orders to eliminate traitors, but it's still not enough. The Immortal Lord Yi Jian you appointed was not decisive enough; I already ordered, and met someone before named Immortal Lord Zong Zhen.

This person's ideas are quite interesting. I have already notified him to help handle this matter."

"A person you deem interesting must be trustworthy. In that case, I'll notify Yi Jian."

Just as he finished speaking, a violent fluctuation suddenly came from the distant void. Sword Lord Three Talents' expression changed, and he hurriedly said, "We'll talk another day. I must leave now."

With those words, his figure disappeared instantly.

After Cao Zhen discovered that more experts from various clans were entering the Flying Flow River, he decisively took on the appearance of Qin Yuan, then found a place to hide and observe the movements of these experts.

Unintentionally, when he opened the Heaven and Earth Ring, a talisman inside it started to burn.

This was a clan letter that Ju E had left him when they parted, which allowed them to communicate. These clan letters were like letters but transmitted much faster than regular mail.

Usually, he kept this clan letter inside the Heaven and Earth Ring.

Soon, a piece of text appeared before him.

"Run quickly; now various tribes are dispatching top warriors to Flying Flow River to hunt you. Even our Demon Clan has dispatched Venerable Yun Xie from our Demon Clan's Great Thousand World to leave and enter Flying Flow River to kill you.

Venerable Yun Xie is a master from the Eagle Clan, one of the nine Royal Families of our Demon Clan.

His Immortal Mountain reaches seven thousand five hundred feet! He excels in speed and wind-type spells. I know you can disguise, but even after disguising, there are many treasures that can reveal you. I had a treasure back then that discovered your true identity, and others can have treasures that discover your true identity too.

Chapter 2160: Escaping the Battlefield Beyond the Return to Immortal Realm

"So, run quickly, escape from the Outer Heaven Battlefield of the Immortality Regainment Realm and don't come back."

Cao Zhen looked at the message from Ju E and chuckled lightly. This little fox, does this count as a demon traitor? Directly revealing the information about the strongest experts sent by the Demon Clan to him.

However, discovering him?

They probably really can't find him, just like back when Ju E found him using the treasure, for thirty years, experts from various clans carried similar treasures searching for him. But in the end? Didn't they still fail to find him?

If he transformed into the Fox clan, perhaps they could truly discover him.

But he became Qin Yuan, perhaps because he once connected with Qin Yuan and cultivated Qin Yuan's cultivation technique, and also due to cultivating the body impervious to all things, they couldn't find him using the same treasure.

So, even if many more experts come, what of it? They at most affect him, making it not so easy to kill other clan's experts and seize the Wanrun Holy Water.

As long as he doesn't voluntarily expose himself, they won't find him.

"Don't worry, I won't die."

Cao Zhen pondered for a moment and simply replied to Ju E, then began to roam around, searching for suitable alien clans to act against.

With his Immortal Mountain breaking through to five thousand five hundred zhang in height, he can now, posing as Qin Yuan, wield even more powerful Immortal Mountains.

To avoid drawing the attention of the various clans' experts, he releases an Immortal Mountain of five thousand four hundred zhang in height.

Although many Peak Immortality Regainment Realm Immortal Mountains reach five thousand five hundred zhang, just in case, what if those alien clans can't find him, then suspect he changed his appearance and start slaughtering all experts from different clans with Immortal Mountains of five thousand five hundred zhang?

It's easier to coalesce an Immortal Mountain that's one hundred zhang less.

He also dares not release the full Immortal Mountain, and needs to alter its appearance.

More troubling is, he dares not unleash many spells, and certainly not use the Purple Dawn Sword, resulting in a significant reduction in his combat power, now his greatest skill is using poison.

Previously, he could still find relatively weaker alien clans and rob them.

But now, these alien clans have already fled once before, and now many alien clans' experts have entered the Flying Flow River, making those originally active in the Flying Flow River see the situation and massively depart the area again.

He finds fewer and fewer alien clans to target and annihilate.

"What a pity, really a pity, I should have revealed myself later, at least killed more alien clans and seized more Wanrun Holy Water before appearing. Now, wanting to target weaker ones is difficult, those left here are all groups."

Over thirty years he snatched thirty drops of Wanrun Holy Water, but this time, after another thirty years, he only seized fifteen, his efficiency halved.

Even more troubling, experts searched for thirty years before, unable to find him, decided he left and departed to seek him elsewhere.

Yet now, thirty years have passed, these alien clans still search here, showing no sign of departing.

He truly feels helpless.

"Things can't go on like this, who knows when I'll gather enough Wanrun Holy Water.

Fine, better lead these guys away first."

Cao Zhen had an idea, and began flying out of the Flying Flow River, which is special, with only one entrance, one must exit from that area, other parts are blocked and cannot be flown over.

Over thirty years, the entrance gathered experts from the Beast, Demon, Prison, and Evil clans.

Perhaps those alien clans active in the Flying Flow River noticed that after thirty years, the army searching for Cao Zhen hasn't left, consequently choosing to depart the area as well. He discovered many alien experts leaving the Flying Flow River on his way, even needing to line up at the entrance.

Except for Beast clan experts, the other three clans each hold a Copper Mirror, checking every departing alien clan, whether from the Beast or Demon clans or Prison and Evil clans, or even Soldier Bugs from the Insect clan.

The reason for the queue is the large group of Soldier Bugs from the Insect clan ahead of him.

Perhaps the mother bugs advised these Soldier Bugs not to dispute with other clans, these Soldier Bugs surprisingly obediently accepted inspection.

Slowly, finally, it was his turn.

The Void naturally manifested an image of a bee through three Copper Mirrors.

The three clans nodded slightly, gesturing outward, "Go ahead."

Cao Zhen smoothly exited the Flying Flow River, spreading his wings and flying to a distant place, intending to reappear somewhere to draw these alien clans away, then return to Flying Flow River to continue gathering Wanrun Holy Water.

Now he must choose where to go, ideally somewhere far, making these alien clans run to and fro multiple times.

Though he's spent over 160 years in the Outer Heaven Battlefield, he's unfamiliar with the area outside Miasma Valley and Flying Flow River, but someone else is familiar.

Cao Zhen quickly used China Cloud to find his disciple, Ten Thousand Men, asking for any recommended locations.

Ten Thousand Men, he's been in the Outer Heaven Battlefield continuously and roaming around.

After hearing his master's request, Ten Thousand Men pondered briefly, then responded, "Master, the disciple suggests you go to Stiffwood Island, an island surrounded by the sea on all sides, connected to the outside by one small road. The sea holds countless dangers, the only way in is this small road.

I'm currently on Stiffwood Island. Oh, Master, I've seen that Tiger Sen Venerable who first noticed your return to the Flying Flow River, he's here too."
