

My Master 2171

Chapter 2171:

Xi Mu Immortal Lord gazed at the towering Immortal Mountain, and her heart was filled with nothing but shock. Such an immense Immortal Mountain—she didn't need to peruse any ancient texts to confirm that throughout the entire human cultivation history, no one's Immortal Mountain had ever reached such heights!

Is this the terrifying power of a Daluo Golden Immortal reincarnation?

Or perhaps Sect Leader Cao is among the elite even within the ranks of the Daluo Golden Immortals?

This is truly frightening!

Uncontrollably, she thought of the Grand Preceptor of the Guardian Immortal Imperial Dynasty; she has always known Cao Zhen's formidable prowess, but she believed that the Grand Preceptor, as a fellow Heavenly Pride, exhibited even more astonishing combat power and celestial talent.

After all, the Grand Preceptor had just broken through to the True Immortal Realm and managed to condense Three Different Phenomena Fairy Palaces!

Yet now, the awe brought by Cao Zhen in the Immortality Regainment Realm was no less than the Grand Preceptor's condensation of Three Different Phenomena Fairy Palaces.

Moreover, although no one has ever done such a thing, she still considered the nine thousand two hundred zhang Immortal Mountain to be even more terrifying, for Cao Zhen had just broken through into the Peak Immortality Regainment Realm, and his Immortal Mountain could continue to breakthrough and grow!

As for the final height that Cao Zhen's Immortal Mountain could reach, she could no longer imagine.

The entire Hundred Peaks Sect, all disciples were already cheering.

"This is our Sect Leader!"

"Peak Immortality Regainment Realm, more than nine thousand zhang Immortal Mountain—probably within the entire Immortality Regainment Realm, there's not a single person who can compare to Master!"

"Not just within the Human Clan, even across all clans, Master in the Immortality Regainment Realm is undoubtedly an unbeatable existence!"

"Cultivation, continue cultivating, with such a Sect Leader, what reason do we have to not strive harder in cultivation!"

At Four Treasures Peak, Cao Zhen retracted the Immortal Mountain, not expecting that after creating the Life Clan, his Immortal Mountain would increase so dramatically.

"Actually, improvement in the Immortality Regainment Realm is primarily an enhancement of comprehension, while I cultivate the Prosperous Age Skills, the changes of the Prosperous Age are also a form of comprehension. That alien race was so eager to kill me because they feared I wouldn't have the chance to enter the Peak Immortality Regainment Realm. Yet little did they expect that I have now entered the Peak Immortality Regainment Realm.

However, I currently don't have time to concern myself with them."

Cao Zhen swiftly left his Cave Mansion and summoned Shen Pingyi to his presence.

He had often heard his disciples say that Shen Pingyi always showed no expression, which was beyond merely suppressing emotion; according to Bei Yan, Shen Pingyi was like a paralytic.

But now, after seeing Cao Zhen, Shen Pingyi's face involuntarily revealed a shock; he had already started Immortal Cultivation, and although he was in the Immortal Bridge Period, from listening to his senior brothers and sisters conversing, he already knew how future cultivation realms were and was even more aware of the circumstances within the Immortality Regainment Realm. He knew well how terrifying it was for an Immortal Mountain to reach a height of nine thousand two hundred zhang!

"Pingyi, I have been busy with other matters and have not taught you; I am not familiar with your situation. Which musical instruments are you skilled in, or rather, which instruments interest you more?"

Shen Pingyi quickly restored his calm and replied, "In response to Master, this disciple has an equal interest in all musical instruments."

"All equally?" Cao Zhen glanced at his disciple with some surprise, then pondered for a moment and said, "How about this, I'll perform all the instruments for you to see."

Although Shen Pingyi usually appears very composed, never showing emotion, deep down, he is equally proud. Even though Master had not taught him, the Hundred Peaks Sect also has a Melody Peak; although he was only in the Immortal Bridge Period, when discussing musical enlightenment with those from the Melody Peak, none could surpass him.

But now, upon witnessing Master's performance, he truly understood the Talisman.

Because facing his Master, he declared his equal preference for all musical instruments, yet he believed himself proficient in them all.

But upon seeing his Master perform, he realized he was unworthy of the term 'proficient'! Master, this is true proficiency!

Furthermore, Master was not only proficient in instruments; his understanding of musical composition reached a terrifying level.

The compositions performed by Master were ones he had never even heard of, and the styles were highly varied—some styles he had never even experienced.

In the days that followed, Cao Zhen began teaching Shen Pingyi with all his might.

Initially, he taught Shen Pingyi some ancient styles, but gradually, he discovered Shen Pingyi's extraordinary talent in music, and unknowingly, he even played some contemporary popular music, jazz, and modern classical music for Shen Pingyi to hear.

He even went so far as to encourage Shen Pingyi to explore new musical instruments.

Before he knew it, three years had passed, during which Shen Pingyi finally confirmed his path of Qian Ji and began to condense his inner core.

On the Outer Heaven Battlefield, all clans were feeling deeply troubled.

"That Cao Zhen vanished!"

"Perhaps, he couldn't persist any longer, and believing himself unable to evade our clan's pursuit, has returned to the human clan's Great Thousand World and won't enter the Outer Heaven Battlefield anymore?"

"If he remains in the human clan's Great Thousand World, waiting until breaking into the Peak Immortality Regainment Realm before returning to the Outer Heaven Battlefield, that would indeed be troublesome."

Chapter 2172:

"I'm afraid that's really the case."

"We absolutely cannot let him ascend to the Peak Immortality Regainment Realm. If that happens, our Outer Heaven Battlefield will have significant trouble, and to kill him then, we may have to wait until he enters the True Immortal Realm, into the True Immortal Battlefield."

But given how long he's been hunted, I'm afraid that once he does enter the True Immortal Realm, he won't easily step onto the True Immortal battlefield!"

"Unless we find a way, to force him into the Immortality Regainment Battlefield."

“What method could possibly make him enter the Immortality Regainment Battlefield?”

“Yes, there doesn’t seem to be a good method, unless a Peerless Relic appears in the Outer Heaven Battlefield!”

“A relic! How can it just appear at will!”

Just as all races were at a loss, somewhere in the Immortality Regainment Realm’s Outer Heaven Battlefield, a colossal relic emerged, its shadow enveloping the entire battlefield.

“This is... a Peerless Relic!”

“A relic has really appeared!”

“Wonder what’s so special about this relic!”

For a while, all races rushed towards the relic.

Shortly, the news spread throughout the Outer Heaven Battlefield.

“A Mystic Heritage has appeared!”

“The Mystic Clan, an incredibly ancient race, their existence predates even the Sky Clan, older than any race today!”

“The Mystic Clan was the strongest during their era, the sole dominant race of their time; their dominion was stronger than today’s Sky Clan!”

“Among the current races, all except the Human Clan have received inheritances from the Mystic Clan. Even in the Demon Clan, the Crane Clan grew quickly after receiving their inheritance, eventually becoming one of the nine Royal Families of the Demon Clan!”

“A Mystic Heritage is undeniably the most elite relic!”

Upon hearing the news, various races started to move, and even the long-absent Sky Clan dispatched masters to the relic, while the Human Clan began sending numerous masters.

“With the appearance of a Mystic Heritage, I don’t believe Cao Zhen can resist!”

“The humans have dispatched masters, what should we do?”

“Let’s not attack the Human Clan’s masters for now; let them enter the relic. Even the Sky Clan would send masters for a Mystic Heritage, Cao Zhen won’t miss out; he will blend among the Human masters. When the relic closes, we will search for Cao Zhen inside and then obliterate him!”

“Right, if we attack the Human Clan’s masters first, Cao Zhen might be scared and not enter the relic.”

“Inside the relic, each race can obtain treasures by their skill, but for Cao Zhen, we must unite to eliminate him first!”

Quickly, each race formed a tacit agreement.

“A Mystic Heritage?” Though Cao Zhen was in the Hundred Peaks Sect, he heard the news from the Outer Heaven Battlefield, and his disciples, Xiang Ziyu and Ruo Yun, along with Ling Xi, all head towards the relic.

“Looks like I must go.” Cao Zhen left a score to Shen Pingyi and quickly left the Hundred Peaks Sect, returning to the Outer Heaven Battlefield.

Upon his arrival in the battlefield, the races received news. Cao Zhen had finally returned to the battlefield and was heading towards the Mystic Heritage, having left Broken Chaos City.

Yet soon, the races lost track of Cao Zhen. After leaving the city, he vanished quickly.

“Vanished? Trying to mislead us? With the relic’s appearance, his return to the battlefield is surely for the relic.”

“Let’s all enter the relic; no matter his tricks, once inside, inspecting the Heaven and Earth Ring will expose him!”

“Remain calm, act as usual, and only after everyone enters the relic shall we make our move!”

After leaving Broken Chaos City, Cao Zhen transformed into Qin Yuan and flew towards the relic.

Such a relic draws all races, and it takes time to activate. By then, masters will gather outside. Arriving as Cao Zhen would incite their attack; he’s strong but can’t fend off the united races alone. He could escape, but what about the rest of the Humans?

Should the races turn on them once he’s fled, what then? So becoming Qin Yuan is the best option.

The Mystic Heritage isn’t close to the Broken Chaos City; it took two years for Cao Zhen to approach it.

Still some distance from the relic, he could already see alien race masters gathering.

Previously in their Human Great Thousand World, relic openings were similar, with races assembling outside. But here, it’s different.

Here, masters from various races congregate, each wanting to enter the relic, avoiding combat beforehand, but with so many races, conflicts are inevitable.

Approaching the relic, he saw traces of battle all along the way, some even witnessing aliens in contention.

“Boom...”

Suddenly, the sound of spells bursting came from nearby. Cao Zhen looked in that direction and saw a group of over ten Beast Clan members were fighting with more than ten Prison Clan members.

Both sides were evenly matched, neither gaining the upper hand for now.

Amid the battle, a Bee Beast, black-feathered, with wings spanning more than a yard, spotted another Bee Tribe member of their Beast Clan flying nearby, and loudly called, “Quickly, come help! Annihilate these Prison Clan!”

Are they seeking my help?

Cao Zhen considered; transformed into Qin Yuan, he appeared as a Beast Clan member. If heading straight to the relic alone, the aliens would be suspicious.

But joining these Beast Clan members seemed much more reasonable.

Moreover, not helping might raise suspicions among other Beast Clan members?

Cao Zhen immediately decided to fly towards the battling sides, releasing his Peak Immortality Regainment Realm power; a five-thousand-four-hundred yard Immortal Mountain emerged behind him, his mouth opened wide, spewing a black cloud of Poisonous Energy.

Among the Bee Tribe, many cultivate Poisonous Energy. Him releasing it wouldn't arouse suspicion, nor would the Peak Immortality Regainment Realm's Immortal Mountain!

Chapter 2173:

Cao Zhen discovered that the number of Beasts was indeed many. He had just stepped in to help, and three more Beasts flew over not far away. The Bee Beast that invited him to help earlier spoke again,

inviting the other two Beasts: "Come quickly to help, let's kill these Prison clan members together and divide their treasures equally!"

As soon as his voice fell, the three Beasts quickly sprang into action.

Both sides originally had similar strength, but with Cao Zhen and the other three Beasts joining the fray, the balance of power immediately shifted.

"Damn it, besides relying on sheer numbers, what other skills do you Beasts have!"

A member of the Prison clan saw four more experts on the opposing side, and dared not continue fighting. He fiercely swung the long fork in his hand forward. Suddenly, a raging wind howled, and under this sweep, the surrounding space shattered inch by inch, filled with a momentum as if to perish together with the opponent.

Facing this Prison clan member was a massive Bull Beast, nearly three zhang tall, retreating swiftly. Obviously, this Prison clan member was desperate, but they now held the advantage, so there was no need for him to sustain injuries just to further harm this Prison clan member.

As the Bull Beast retreated, the Prison clan member abruptly turned around, fleeing outside while shouting loudly, "Retreat first, let's gather our clan's experts and come back to deal with them."

This Prison clan member was clearly the leader, and with his shout, every Prison clan member around attacked the opposite Beasts crazily, while taking the opportunity to retreat to the distance.

But the Beasts had indeed increased by four experts; even if these Prison clan members wanted to escape, it was impossible for all of them to get away. In the end, three Prison clan members remained here, while the rest of the Prison clan members did not care about their companions and fled without looking back.

Each of the Beasts then directly took out the Heaven and Earth Rings from these three Prison clan members and began to loot the treasures inside.

"Penniless! These Prison clan members are poorer than the last!"

"Only these things, let's split them equally then."

Initially, the Bee Beast who called out to Cao Zhen to step in landed in front of Cao Zhen and pushed forward a large piece of Immortal Mine, saying, "This is your share because we killed these Prison clan members together, so we split the treasures equally."

Cao Zhen lightly nodded and then stored the treasure into his own Heaven and Earth Ring.

The opposite Bee Beast did not leave; he waited for Cao Zhen to secure the Immortal Mine before speaking, "So, we're quite fair, right? I see you are alone; why not join our team?"

He knew that their strength was not enough to compete for the largest treasures and inheritances after entering the ruins, but they could contend for other treasures.

Moreover, the stronger they were, the greater their chance of seizing treasures, so upon seeing a lone Beast, he extended the invitation.

Of course, he wouldn't randomly invite just anyone. For example, those with strength far superior, like experts whose Immortal Mountain exceeds six thousand zhang, they wouldn't invite, as they likely wouldn't think highly of their strength.

And those too weak, such as those in Early or Mid Immortality Regainment Realm, they wouldn't invite either.

The best choice would be those existing at the Peak Immortality Regainment Realm, yet not the absolute strongest, as these would be the most suitable to invite. The Bee Beast before their eyes suddenly helped, is a very good choice, his Immortal Mountain measuring over five thousand zhang, being quite remarkable among them.

Cao Zhen did not immediately agree but looked towards the other three Beasts who had just helped.

At the moment, a Bull Beast was also inviting the other three Beasts: "We are all from the Bull Clan; how about joining us, you three?"

Upon hearing this, the three Bull Beasts did not hesitate and directly nodded in agreement: "No problem, as long as we split the treasures we obtain equally, we are in."

"Naturally, equal division, that's certain," the Bull Beast smiled satisfactorily and then looked in Cao Zhen's direction.

Cao Zhen noticed the three Bull Beasts all agreed and subsequently nodded, "Alright, I agree to join."

Beside him, the Bee Beast immediately laughed, "In this way, we've strengthened our power by a notch. By the way, I am Venerable Jiao Zen, may I ask what you are called?"

He belonged to the Bee Tribe, but his veneration title did not contain the word "Bee," which was quite normal in Beast Clan and Demon Clan. Like the Bee Tribe, who knows how many experts in the Immortality Regainment Realm there are, and all claim themselves as Venerable. When time comes, there will be all sorts of Bees, and sometimes they really can't think of new veneration titles, then there are only two ways.

For instance, if there is already a Venerable Ba Feng, and you also want to use this title, then go directly to the individual and let them change their title. Normally, the individual won't change. Then just fight them, and if you win, you can make them change their title.

If you encounter those you can't beat or have too strong a background, you dare not seize their title, then you can only pick another one. Can't think of a title with "Bee"? Then come up with a different one.

As many Bees possess poisonous stingers, there are quite a few in the Bee Tribe whose titles contain the word "needle."

Cao Zhen casually replied, "Capture Space Venerated One." He couldn't randomly claim a Bee Venerable title; who knows if it might clash.

Venerable Jiao Zen, flying forward, curiously asked, "Oh, Capture Space Venerated One, which line do you belong to?" He could still tell that the opponent didn't look like a typical Bee Tribe member.

Chapter 2174:

Cao Zhen deliberately showed a complex expression on his face and said, "I don't belong to any lineage, nor do I wish to be part of any."

Venerable Jiao Zen instantly understood and lightly sighed, saying, "As long as we are strong enough, we don't need to depend on any lineage." In their Beast Clan, and even including the Demon Clan, some of them, due to their parents not being from the same lineage, or even the same clan, the children born would appear abnormal.

For various reasons, some were oppressed from childhood, some were not valued, and in the end, they didn't enter any lineage.

Evidently, this Capture Space Venerated One was in such a situation.

Thus, they flew towards the distance.

Slowly, they finally reached the outer side of the relic. At this point, masters from various clans had already gathered around the relic.

Outside, the relic looked much like most others, with a path leading inside.

Though the team Cao Zhen was in might be considered decent in strength, compared to those elite teams, they fell far short. Wisely, they didn't crowd near the entrance but chose an entrance where the Beast Clan was gathered, standing at the periphery.

Looking around, Cao Zhen found that the number of Beasts was indeed large.

In reality, among all clans, the Insect Clan definitely had the largest numbers, but generally, they seldom ventured to relics.

Because they could only send Soldier Bugs, which were really poor at directly contending for treasures. After all, many relics prevent external communication, meaning they couldn't contact the Mother Bug upon entering.

Moreover, most relics' treasures require discernment, so sheer numbers aren't always effective.

In short, the Insect Clan hardly sends Soldier Bugs into relics.

And even if they did, Soldier Bugs couldn't compete for relic treasures, they might resort to seizing them directly.

Therefore, upon sighting Soldier Bugs, most clans opt to eliminate them first, and eventually, the Insect Clan reduced their relic expeditions.

Besides the Insect Clan, the Beast Clan is the most numerous, followed then by the Demon Clan.

Scanning around, Cao Zhen soon spotted some gathered Soldier Bugs.

This relic must truly be significant, even the Insect Clan, which rarely dispatches Soldier Bugs, has done so.

He also saw a crowd of Human Clan figures.

Given the importance of this relic, the Human Clan certainly wouldn't give up.

He wondered how Ling Xi, Xiang Ziyu, and others were faring.

An idea flashed in Cao Zhen's mind, accessing China Cloud Observatory. Soon, Ling Xi and the others appeared in his view.

Ling Xi, Yan Yourong, Duo Duo, Xiang Ziyu, Ruo Yun, and Wan Ren Di, all of his disciples from the Immortal Realm Battlefield, were gathered together.

Being a more recent clan, the Humans often face more targeting, so they had all gathered together, unlike other clans where you can find connections like Prison Clan with Demon Clan, or Demon Clan with Beast Clan...

Suddenly, a commotion arose nearby, prompting Cao Zhen to quickly disconnect from China Cloud and look around.

In the void, silhouettes rapidly approached. There were about fifty of them, each exuding an aura of superiority, flying above the heads of Beasts, Demons, Evil Clan... from all clans. The clans, upon seeing them, voluntarily moved aside.

"Sky Clan!"

"Sky Clan rarely makes appearances, yet today they've sent so many experts!"

"This is a Mystic Clan relic. Rumor has it, the Sky Clan's rise is related to the Mystic Clan, possibly having received its profound heritage."

"Speak less, or the Sky Clan might overhear you!"

Cao Zhen observed the flying Sky Clan, his expression unchanged. Indeed, he had interacted with all clans, except the Sky Clan.

The relic hadn't opened yet, and the clan experts simply waited there.

Meanwhile, the experts began secretly exchanging messages.

"Everyone, entering the relic, certainly, we all desire more treasures, but let's not forget about that Cao Zhen.

Cao Zhen must already have entered the relic. Judging from his previous behavior, he fears being captured by us, hence fled back to the Human Clan's Great Thousand World.

This time, weren't it for the appearance of the Mystic Clan relic, likely, he wouldn't have entered the Outer Heaven Battlefield. But after this Mystic Clan relic concludes, he will surely leave unless similar relics appear.

Relics do appear on the Outer Heaven Battlefield occasionally, but the chances of a Mystic Clan relic, such as a Peerless Relic, appearing is slim. Moreover, once appearing, none know its location, possible at Earth Immortal Realm Battlefield or True Immortal Realm Battlefield.

Thus, this relic is our best, perhaps last opportunity to eliminate Cao Zhen."

"Cao Zhen must die; we agreed earlier on a broad-scale inspection of Heaven and Earth Rings. As long as he's inside, we must find him!"

"Indeed, it's essential to persist. Though, not now, otherwise, Cao Zhen would sense danger. He flees swiftly, and if possessing a Secret Technique, once determined in escape, capturing them immediately would be improbable.

Chapter 2175:

So, the best way is to enter the relics and search them; once inside the relics, there's no escape."

"Alright, we'll proceed as planned. When the time comes, each race will be responsible for checking the Heaven and Earth Rings of the disciples from their own race.

The experts from each group will enter first. Once inside, don't leave immediately. Instead, have the rest of the entering races stay far away, then check the Heaven and Earth Rings. Anyone attempting to escape, kill them immediately!"

"But what about the human race? What should we do about them?"

"Humans? We'll exterminate those humans when the time comes!"

"That's right. If among our tribesmen, there's no Cao Zhen, then Cao Zhen must be among them. When the time comes, we'll slaughter them all."

"Speaking of which, there are quite a lot of Heavenly Pride among these humans, and they should be exterminated more thoroughly."

"Indeed, your Demon Clan always claims to have many Heavenly Pride, but I found that, in the same cultivation realm, humans have more Heavenly Pride than your Demon Clan."

"Humans truly cannot be underestimated. I even feel, apart from the Sky Clan, none of our races are stronger than humans! Killing more of their geniuses is good."

Cao Zhen had previously encountered many Peerless Relics, but the one before him existed for the longest time. He had already spent enough time traveling earlier. After arriving at the relic, he waited another two months before it slightly started to shake.

After three consecutive days of shaking, the relic officially opened.

Instantly, experts from various races entered the relic. Cao Zhen was always among the first batch to enter every relic in the past, this was the first time waiting behind.

Finally, as the Beast Clan ahead entered the relic, he followed the troops, entering the relic together.

When he entered the relic, he felt the surrounding air rapidly fluctuating; the next moment, a sensation of weightlessness hit him. When he appeared again, he was surprised to find himself on a small island. This island was small enough to encompass everything at a glance.

The island was square-shaped, with a length of only about three miles.

Beside him... there were numerous figures, not those Beasts, but various races, including the Beast Clan, Demon Clan, Prison Clan, Evil Clan, and even Soldier Bugs. Cao Zhen looked around, and his eyes widened!

Bi Yue!

Including him, there were only ten cultivators on the island; among them, only one human, and that human was Bi Yue.

Such luck was truly incredible.

He hadn't seen Bi Yue for a long time, but unfortunately, he currently appeared as Qin Yuan, with many Alien Races around him. Unless he could instantly eliminate these Alien Races and ensure no others nearby, his identity as Qin Yuan might be exposed.

Although he was currently invincible within the Immortality Regainment Realm, he couldn't stay there forever. When he reaches the True Immortal Realm in the future, who knows when he might need to use Qin Yuan's identity again.

Furthermore, no matter how strong he is, one person can't withstand countless enemies' attacks. Sometimes he might need to use Qin Yuan's identity, so it's best not to expose his identity if possible.

Surrounding him, the Alien Races noticed the change in environment, each expressing surprise.

"What is this place?"

"Yeah, where are the other experts?"

"Why are we here after entering the relics? I was clearly with my tribesmen."

"I was also with my tribesmen..."

"This relic is too bizarre!"

Facing this bizarre situation, the Alien Races did not attack each other and instead took out their tribal tablets to study.

"I can't contact my tribesmen at all!"

"Me neither, can't contact outside."

"This island..."

"Soldier Bug, can you contact the Mother Bug?"

A Prison Clan turned back to a creature about the size of a pigeon, covered in pitch-black armor, with two sharp-pointed Soldier Bugs on its forehead.

The Soldier Bug did not respond to the Prison Clan, nor did it attack other races around.

"You're asking an Insect race? He's just a small insect, what can he know?" An Evil Clan sneered and walked to the edge of the island, trying to fly outward. The next moment, he seemed to crash into an invisible wall, his body retreating and crashing to the ground.

"Are we trapped here?"

Each race looked around with a grim expression, quickly checking the island's surroundings, searching for something like a Formation Eye that might allow them to leave the island, but they found nothing.

Various cultivators from the races distanced themselves, full of caution, observing each other.

Suddenly, a voice sounded in Cao Zhen's mind.

"I am Venerable Yue Hai; only the two of us Beast Clan are here." A Beast Clan that appeared over four zhang long, with thick black fat covering its body, resembling a sea lion but with human-like limbs,

approached Cao Zhen, transmitting, "There's nothing here, but we can't be trapped here forever. I suspect the way to leave might be to eliminate the other Alien Races."

Chapter 2176:

Perhaps, after some cultivators die here, we might be able to leave. More might die, or fewer, but the condition for leaving should be the death of cultivators.

We two must team up."

Cao Zhen slightly nodded, glanced at Immortal Bi Yue beside him, and asked, "Then what? Do we take the initiative or wait for other races to make a move?"

"We don't need to act for now. There's only one Insect Clan member and one Human Clan member here; the rest of the clans have two each. The unlucky ones will surely be the Insect and Human Clans. After they perish, if we still can't leave, there will naturally be another outbreak of fighting, and we can then consider joining forces with the Prison Clan or Evil Clan. After all, those Demon Clan guys will not team up with us."

"Oh?" Upon hearing, Cao Zhen looked around and indeed, the Evil Clan, Prison Clan, and even Demon Clan were all staring in the direction of Immortal Bi Yue.

If this group of guys were fighting amongst themselves, he indeed had no need to intervene. However, they were prepared to kill Bi Yue, and not only her, but other humans as well, he would definitely intervene.

Here, unable to contact the outside world, he would just annihilate all the alien races here.

Bi Yue watched as one by one, the alien races looked at her with strange intentions, her face grew increasingly grim. Here, she was the only one from the Human Clan, and now, these alien races were all eyeing her.

Clearly, these alien races are ready to act against her.

No matter how talented she was, she couldn't possibly withstand the attack from those nine alien races alone.

She knew that humans in the Outer Heaven Battlefield were often targeted, so ever since she arrived there, she always kept a low profile and avoided particularly dangerous places.

But this time, the Mystic Clan's relic appeared, along with a large number of Human Clan experts came forward, prompting her to come to the relic.

Who knew that upon entering the relic, she got separated from all the Human Clan members and teleported to such a location.

Now, she must face an onslaught from numerous alien races!

Bi Yue's heart sank; is today the day she dies here? If she dies, what will happen to the Dragon Chant Sect? What about those dragons?

And what about Cao Zhen?

What would his reaction be upon knowing she died?

She didn't have any descendants either.

In that instant, Bi Yue thought about many things. Looking at the alien races ready to act, behind her, the Immortal Mountain materialized, rapidly ascending to a height of 4,500 feet!

The aura belonging to the Late Immortality Regainment Realm spread throughout.

Even if she couldn't win, she'd never sit and wait for death; even if she died, she'd take two down with her.

Her gaze locked onto the pair of Beast Clan members present; the Human Clan had conflicts with several major alien races, with the most frequent being the Beast Clan, since they were more numerous than the Demon Clan, Evil Clan, and Prison Clan.

Cao Zhen felt the gaze from Bi Yue, and lamented silently in his heart, was she planning to target me? Oh, she really knows how to pick.

All around, the alien races watched the suddenly aura-laden human with faces showing surprise.

"Late Immortality Regainment Realm, possessing a 4,500 feet Immortal Mountain."

"Another Heavenly Pride character!"

"Are human Heavenly Prides so numerous now? It seems like you can casually encounter such a pride!"

Nearby, Venerable Yue Hai suddenly spoke, "Everyone, why don't we kill this human Heavenly Pride first, and then decide victory amongst ourselves?"

Clearly, this human was prepared to act against their Beast Clan, and although he was also Late Immortality Regainment Realm, his strength wasn't equal to this human.

At that time, if this human attacked, members from other clans would certainly watch by the sidelines; even though the Beast Clan had two members and managed to defeat this human, they would be heavily injured, which would spell doom for them next. Therefore, the best strategy was first to kill this human together.

But after his words fell, no other alien races responded to him.

Are you kidding? They weren't foolish; they realized this human was trying to take two Beast Clan members down with him, so naturally, they wouldn't speak now. What if at this moment they agreed, leading the human to switch his target to them?

Seeing none of the alien races respond, Venerable Yue Hai felt deep resentment, then suddenly said, "Everyone, we still don't know each other's cultivation base. Why don't we release our Immortal Mountain and reveal our combat power first?"

Given the current situation, everyone likely thinks the same. So, if in the end only one cultivator can survive, it will surely be the one with the highest cultivation base."

However, no one wants to die, right? So, why don't we each reveal our cultivation base first and then decide how to act?"

As soon as his words fell, several cultivators around nodded one after another; what the Beast Clan member said made sense. If they fought prematurely only to discover a hidden incredibly powerful existence among them...

At that time, even if they allied together, they might not be able to face the opponent.

Better to let everyone reveal their strength then plan ahead, discuss how to act properly later.

On the Demon Clan side, a man looking like a human but with deer antlers on his head suddenly turned pale. If everyone revealed their power, he was likely the strongest; he was Peak Immortality Regainment Realm, just felt among them only he was Peak Immortality Regainment Realm. Quickly, he concealed his strength, suppressing his aura to Late Immortality Regainment Realm.

Chapter 2177:

However, once he releases the Immortal Mountain and unleashes his combat power, if he continues to suppress some of his power, he will immediately be discovered. At that time, I'm afraid the alien race's target won't be that human, but the strongest, him.

After all, if the killing continues normally, the one who survives in the end is bound to be the strongest, him, leaving no chance for the other cultivators.

Only by eliminating him first do the others have a chance to survive.

"Yes, everyone unleash your combat power!"

"Release your combat power first. You from the Demon Clan, why aren't you unleashing your Immortal Mountain? Are you hiding a secret?"

The eyes of each race fell upon a member of the Demon Clan, who had horns on his head.

"I..." The Demon Venerable's gaze shifted as he pointed in Cao Zhen's direction and said, "It's not just me who hasn't released the Immortal Mountain; hasn't this Beast Clan member also not released his Immortal Mountain?"

Next to Cao Zhen, aside from the Soldier Bug that could be ignored, the Prison clan and Evil Clan had all released their Immortal Mountains.

Now, only he and the horned Demon Clan member hadn't released their Immortal Mountains.

"Release the Immortal Mountain?" Cao Zhen suddenly laughed, "Very well, but you all better not blink."

"What do you mean?"

The group of aliens paused for a moment, and in the next moment, before they could react, a towering Immortal Mountain shot up into the void, and in the blink of an eye, this Immortal Mountain exceeded a height of nine thousand feet.

In an instant, the entire group of aliens was stunned, staring in disbelief at the Immortal Mountain in the void.

"What is this?"

"An Immortal Mountain over nine thousand feet high, how is that possible!"

"Impossible, even among the Sky Clan, there's no such existence that can release an Immortal Mountain over nine thousand feet high!"

Bi Yue was also stunned. How can such a terrifying existence exist in the world? Even as reincarnated great abilities, Star Lord Hao Yue and Ruo Yun, when they reached the Peak Immortality Regainment Realm, their Immortal Mountains never reached such terrifying heights!

This Beast Clan member, how could he be so terrifying? It's unheard of for there to be such an existence in the Beast Clan. He... No, his Immortal Mountain, why does it look so familiar? That knife-blade-like peak, Talisman Peak, and Dragon Peak...

The surrounding aliens also noticed the extraordinary nature of this Immortal Mountain.

"This Immortal Mountain is so magnificent and vast!"

"How can there be such an Immortal Mountain in the world!"

"Such an Immortal Mountain seems like only one person possesses it."

"Wait, wasn't that person only in the late Immortality Regainment Realm? Has he broken through? Even if he has, it wouldn't..."

Amidst their shocked and disbelieving gazes, Cao Zhen's body rapidly transformed, and in an instant, he reverted to human form.

"A human, really a human!"

"Cao Zhen, it must be Cao Zhen!"

"Impossible, when Cao Zhen left before, his Immortal Mountain was only five thousand five hundred feet high. Even if he broke through to the Peak Immortality Regainment Realm, even if the Peak Immortality Regainment Realm is the highest growth phase for an Immortal Mountain, there's no way he could increase its height by nearly four thousand feet in such a short time!"

"Cao Zhen, it's actually Cao Zhen, no wonder so many experts from our clans couldn't find him during the chase, it turns out he could change his form."

"Not good, thunder, thunder is descending!"

The moment Cao Zhen appeared, he raised his hand. Subsequently, in the void, eight thunderous roars resounded, and in the next moment, eight purple thunders descended from the sky, striking the eight Prison clan members on the island.

Now that his Immortal Mountain is over nine thousand feet high, he cast the Five-thunder Righteous Method, an Earth Level spell.

Even though he split the thunder into eight parts, the speed at which the thunder fell was equally astonishing. The group of aliens didn't even have a chance to react before the thunder crashed down.

In an instant, eight huge booming sounds were heard, almost simultaneously. The combined sound was so loud that it felt as though the island was instantly destroyed.

Along with the booming sounds, the air was filled with the scent of scorched flesh.

On the ground, eight corpses now lay.

In just a moment, all eight aliens were annihilated.

"It's you, it's really you!" Bi Yue looked at the figure standing in front of her, and in the next moment, she rushed into Cao Zhen's embrace.

With a warm and soft figure in his arms, Cao Zhen was about to speak when his expression changed.

The ground below suddenly began to move.

Bi Yue also felt the movement and quickly left Cao Zhen's arms, turning her gaze towards the center of the island.

In the middle of the island, clods of earth were thrown aside as a pair of giant claws emerged. These claws were milky white and somewhat translucent.

Two giant hands broke through the surface, immediately pressing down on the ground, and then, with a strong push, an enormous figure emerged from the Earth.

The island was about three miles long, and the massive figure appeared to be nearly a hundred feet in size, covered all over with numerous claws.

The initial pair of claws that emerged from the ground were the largest, with the rest varying in size. Overall, it didn't resemble any Beast Clan or Strange Beast, but more like a sea cucumber with countless hands, and yet its head was serpent-like.

Cao Zhen looked at the monster in front of him, feeling it resembled a Blood demon from the Boundless Bloody Hell, the only difference being that this monster wasn't crimson.

Chapter 2178:

After the monster appeared, those eyes, much larger than Cao Zhen's entire body, immediately looked over. For a moment, an aura of chaos, evil, eeriness, gloom, and cruelty instantly spread forth.

The monster did not manifest an Immortal Mountain from behind, but as it opened its mouth, a horrifying force began to sweep across the entire island.

The next moment, a gigantic thunderbolt descended from the void.

Five-thunder Righteous Method!

As the thunderbolt fell, this island instantly transformed into the Thunderbolt Path, as if every corner of the island was filled with the raging Power of Thunderbolt.

Accompanied by a deafening roar, the monster's body exploded, followed by a stream of blue liquid flowing from its remains, leaving no signs of life.

"Just dead like that." Bi Yue was bewildered; the monster had just crawled out from the ground with an immensely powerful aura, yet ended up dying so easily.

It...

One can't say it was too weak, but rather that Cao Zhen was simply too strong; the Immortal Mountain was over nine thousand feet tall, and so majestic.

She knew that Cao Zhen had already shown enough terrifying strength before. At the Late Immortality Regainment Realm, the Immortal Mountain had reached a height of over fifty-five hundred feet. If it weren't for this, it would not have attracted the pursuit from various races!

However, the current height of Cao Zhen's Immortal Mountain was even more astonishing!

Cao Zhen has only just entered the Peak Immortality Regainment Realm; he is capable of further breakthroughs. In the end, could Cao Zhen's Immortal Mountain reach ten thousand feet in height?

Bi Yue gazed affectionately at Cao Zhen. When they first met, she simply found him interesting and thought his musical rhythm skills were high. Back then, she even just wanted to borrow some of his musical talent. But as she spent more time with Cao Zhen, she was surprised to discover that Cao Zhen was a genius just like her, both at the Golden Core Period Limit.

However, later, Cao Zhen's physical body also reached the Golden Core Period Limit, and without having Ten Different Phenomena of Golden Elixir Great Perfection, he completed the dual limits of physical body and mana.

Then, as they entered the Earth Immortal Realm, Cao Zhen gradually widened the gap between them.

Now, Cao Zhen has left her far behind, just like the alien races earlier; if she were to face them alone, she would surely be the one to die!

But as for Cao Zhen, he casually waved his hand, and all eight aliens perished!

The impression given is that this isn't someone at the Cultivation Realm fighting; it's more like a True Immortal casually slaughtering those in the Immortality Regainment Realm.

"Quick, you go and collect their Heaven and Earth Rings; I'll check out this monster." Cao Zhen gently patted Bi Yue's arm, then flew over to the monster, whereupon his inspection revealed nothing special.

After considering, he simply took out a Qiankun Bag, placing the monster inside separately, then threw it into the Heaven and Earth Ring.

Just after he secured the monster, the entire island started surging.

Cao Zhen was startled and hurriedly flew out, grabbing Bi Yue's arm. Soon, the island stopped shaking, and at the edge of it appeared a light screen resembling a gate.

"So, can we leave here and enter the next island?"

Cao Zhen nodded slightly: "It seems so. However, I'm also curious about what happens if we don't go in. Let's wait here for a while; I want to check on my disciples."

His disciples, many, have entered this relic. At present, apart from Ruo Yun, none of his disciples possess the top-tier combat strength in the Immortality Regainment Realm.

Here, everyone should have fallen onto such islands.

And Bi Yue was targeted by various races on the island; maybe his disciples would be targeted too, especially Wan Rendu, who is skilled in Escape Technique, in fleeing. But how could he flee on such a small island?

In his worry, Cao Zhen quickly connected with Wan Rendu via China Cloud.

The next moment, his eyes widened fiercely; on a small island identical to where he was, Wan Rendi and Ruo Yun stood by the newly appeared light screen gate, while down below lay a slew of corpses.

Seeing this, he breathed a sigh of relief, "Wan Rendi, you got lucky. You and Ruo Yun are on the same island."

In this situation, among Wan Rendi's senior brothers and sisters, perhaps only Ruo Yun has the strength to protect him!

"Ah, Master, you know about the situation here?" Wan Rendi suddenly hearing his master's voice, a flash of joy appeared on his face, "Master, are you on this island too?"

Although his senior sister was strong enough, he still wanted to find thicker thighs to rely on.

Cao Zhen nodded slightly: "That's right, I am on the island too. Moreover, I am in the same situation as you, having exterminated everyone on the island and then the monster, resulting in this light screen resembling a gate appearing."

"Master, there's no need to kill everyone to make the light screen appear. Before, they wanted to kill me and senior sister, then senior sister naturally took action. After she took action, the ground immediately began moving, and then the monster appeared.

Seeing the monster, all races naturally wanted to kill it, so they all took action.

The monster, while strong, wasn't particularly formidable. Regardless, everyone attacked together, and the monster soon died. Then the light screen appeared.

Afterward, some aliens wanted to rush out through the light screen, but senior sister blocked the gate and slaughtered them all!"

Chapter 2179: Island Shuffle

After Cao Zhen understood Ruo Yun's situation and combined it with his own encounters, he roughly comprehended the circumstances of the island before him.

"So, we were all randomly assigned to various islands, with as many races of cultivators as possible on each island. Once on the island, the moment someone makes a move, it awakens the monster buried deep below the island."

Actually, on their side, the monster's awakening was also due to fighting, it's just that his assault on those cultivators was too effortless, and in just an instant, those cultivators perished.

"So next, it's about how we leave."

Gazing at the light curtain ahead that resembled a door, Cao Zhen said, "We leave through this door, enter the next one, and might either appear in a new region or end up on another small island, once again forming groups of ten cultivators on a single island."

The assemblage of cultivators is chosen based on the order of entering the door. So, both of you should step up to the front of that door, and we walk through together."

After speaking, the time for Cao Zhen to connect with Wàn Rén Dì had arrived.

But he quickly reconnected with Ruo Yun. He took Bi Yue by the hand and moved to the door's location, seeing Ruo Yun also at the door, he said, "Now, listen to me, go!"

As soon as the words fell, he yanked Bi Yue swiftly through the door ahead.

The next moment, the feeling of weightlessness struck again, but merely in the span of a breath, he felt his feet touch the ground.

Raising his eyes, it was indeed as he had anticipated, he had arrived on a new island.

This island was somewhat larger than the previous one, and on the island, there were no tall mountains or covers; even from the ground, one could see the island's entire layout at a glance.

Besides him and Bi Yue, there were also several silhouettes on the island. At a glance, he instantly spotted Ruo Yun and Wàn Rén Dì.

"Master..."

"It's truly Master!"

Ruo Yun and Wàn Rén Dì swiftly approached their master, with Wàn Rén Dì's heart brimming with a sense of security; on such an island, if it were not for his initial luck in meeting Ruo Yun, he could have been in real danger.

But even with Ruo Yun, he couldn't be sure of safety!

However, being with Master was different.

Bi Yue looked at Cao Zhen with eyes full of admiration and said with a face full of fondness, "You actually guessed correctly! How did you figure it out?"

"It's simple; isn't it just like ranking matches? Oh, you don't understand rankings. Never mind, I'll slowly explain it to you later." When he saw that light curtain, it reminded him of ranking systems, like high-level matches in peak tournaments, where although one can't form teams, limited matchmaking can easily pair people together, otherwise, how would those actors plan it out? It's the same principle.

Around them, other aliens quickly scanned the surroundings. Soon, three Beast Clans gathered together, besides, there was one Demon Clan, one Prison Clan, and one Evil Clan. After exchanging glances, the three formed a huddle.

Following that, whether it was these Demons or Beasts, their gazes simultaneously landed on the four human figures in the middle, with some confusion mixed in their eyes.

"Humans? Four humans appeared on one island?"

"Since when there are so many humans in the Outer Heaven Battlefield?"

Suddenly a Prison Clan suggested, "Everyone, should we first deal with these four humans? Then we can eliminate the monster on this island?"

Beside him, an Evil Clan member nodded immediately, "That would be best, to prevent them from causing trouble when we fight the monster."

Across the way, several Beast Clan members also nodded in agreement, "Actually, once the monster is killed, we can leave this island and enter the next one. After killing them, one side will have three experts left. We don't need to clash hard anymore."

After all, there are many of them in the Beast Clan. When entering the next island, they can easily meet other Beast Clan members. Killing these four humans is fitting.

Perhaps next time they might meet three Beast Clan members again, then they could continue to wipe out the remaining races, leaving anyone they meet from the Beast Clan alive, exterminating other encountered races, repeating this cycle until all ten cultivators on an island become Beast Clan.

Wàn Rén Dì listened to the surrounding discussions and instantly hid behind his master and Ruo Yun; he wasn't skilled in combat and could only rely on his master and Ruo Yun for this kind of issue, as for his little martial mother...

Even if his little martial mother was stronger than himself, she wasn't much stronger and might even be half a burden.

"Kill us?" Cao Zhen heard the words of the various aliens, and a cold smile appeared on his face. The next moment, the Immortal Mountain behind him, towering as high as nine thousand two hundred feet, suddenly appeared.

The Immortal Mountain stood towering as if it could reach beyond the heavens, majestic and grand, resembling a connected mountain range that suddenly emerged, forming a powerful sense of oppression.

Bi Yue was seeing Cao Zhen's Immortal Mountain for the second time, but even so, staring at the towering Immortal Mountain before her, her heart was still filled with awe.

Chapter 2180:

The six aliens around were momentarily stunned—what was this?

"Nine... more than nine thousand zhang high Immortal Mountain..."

"Heaven, how can there be such a tall Immortal Mountain? Who is this human!"

"This Immortal Mountain is so vast, among humans... no, it should be said, among all races in the Immortality Regainment Realm, only the human Cao Zhen possesses such a large Immortal Mountain. But isn't Cao Zhen at Mid Immortality Regainment Realm, with an Immortal Mountain of five thousand five hundred zhang? What is going on here!"

"Not good, he's taking action, it's thunder, he really is Cao Zhen!"

Amid the fearful gaze of the six aliens, bolts of thunder had already fallen.

The fact that they managed to reach the second island from the first proves their strength isn't weak; after all, not everyone can have such luck like Wanren Di, whose strength isn't high but can enter the island and encounter a real powerhouse.

Even these aliens fell one by one under the bombardment of the Five-thunder Righteous Method, turned into fragments.

"This... they just died like that!" Wanren Di watched each alien falling, then turned his head in amazement to look at his master. He naturally knew his master was strong, years ago he helped his master find Venerable Hu Sen, witnessed his master annihilate Venerable Hu Sen. Yet, although his master was strong that time, he wasn't at this despair-inducing level!

"Master, weren't you at Late Immortality Regainment Realm before? How did you suddenly reach Peak Immortality Regainment Realm?" Wanren Di was filled with confusion.

Cao Zhen glanced toward the center of the island, his face calm, saying, "It's just a breakthrough from Late Immortality Regainment Realm to Peak Immortality Regainment Realm, nothing to marvel at. If one wants to breakthrough, isn't it possible at any time?"

But you should work hard quickly; otherwise, if you're overtaken by your little junior sister, that would be embarrassing. Currently, your little junior sister's cultivation realm is not far from yours."

Beside him, around Ruo Yun's body, six additional arms were just emerging, hadn't even had the chance to act, and the enemies were already all dead.

He looked at the blood flowing downwards on the ground, eyes full of astonishment!

More than nine thousand zhang high Immortal Mountain!

She originally thought that once she reached Peak Immortality Regainment Realm, she would be strong enough, but compared to her master, what was she?

Master indeed lives up to being the reincarnation of a Daluo Golden Immortal, being able to elevate the Immortal Mountain to such terrifying levels. Even herself, after living two lives, has never seen such a tall Immortal Mountain in either life, let alone an Immortal Mountain reaching up to nine thousand zhang, she had only ever seen one reaching eight thousand zhang!

How did Master achieve such a level with his Immortal Mountain!

If Master surpassed by just a few hundred zhang, that's one thing; the problem is he surpassed way too much, directly elevating the Immortal Mountain to more than nine thousand zhang!

Moreover, Master just broke through to Peak Immortality Regainment Realm, later his Immortal Mountain can still improve, what height could his Immortal Mountain ultimately reach?

In the center of the island, the ground below had already bulged, soil shot up skyward, while tentacles emerged, clearly showing a monster from the island was about to appear.

Yet, at this moment, everyone hardly cared about the monster but was looking at Cao Zhen, especially Wanren Di, who exclaimed in shock, "Master, your Immortal Mountain is so tall and so huge, we still possess Earth Level spells, you have Earth Level top-grade treasures.

Looking at it this way, doesn't it mean, Master, you're invincible in the Immortality Regainment Realm. Later, can I walk sideways in the Immortality Regainment Realm battlefield?"

"It's not just the Immortality Regainment Realm." Ruo Yun sighed, "I even think Master could contend against beings of the True Immortal Realm, though previously never heard of any Immortality Regainment Realm being able to contend against True Immortal Realm.

But before, there was no Immortal Mountain in the Immortality Regainment Realm that could be as lofty and immense as Master's."

Cao Zhen looked at Wanren Di, seemingly overly proud as if he himself was invincible in the True Immortal Realm, extended his hand to knock on Wanren Di's head, educating him, "I'm strong, but my strength doesn't mean you're strong, others wanting to kill you can still easily do so. Although you excel in escape techniques, you still need to cultivate other spells, especially our Eight Nine Mysterious Art and Five-thunder Righteous Method.

Your little junior sister is genuinely going to surpass you; when the time comes, you can't even beat your little junior sister, won't you feel ashamed."

"Isn't that destined to happen sooner or later? My little junior sister has the Immortal Thunder Body; our Four Treasures Peak's strongest spell is the Five-thunder Righteous Method, losing to her isn't shameful." Wanren Di instinctively spoke his mind, then noticing the odd expression on his Master's face, hurriedly changed the subject, "Master, that thing is out, the monster is out, Master quickly slay it."

Cao Zhen looked at the monster emerging from underground, which was slender like a snake, yet its head was round like a ball, with a long antenna, its entire body covered in tentacles.

Cao Zhen increasingly felt these monsters resembled the blood creatures from the Boundless Bloody Hell.
