

My Master 67

Chapter 67: Even Jesus Can't Save You, I Said_1

'Administrator level too low, cultivation base too low, access failure, loss of one designated access quota will...'

Upon hearing China Cloud's response, Cao Zhen immediately became unsettled. Could there actually be a failure to connect? And a failed connection meant a lost opportunity?

"The administrator still has one designated access opportunity."

Upon hearing this, Cao Zhen quickly discarded his original idea. He had planned to try to connect to entities like the Primordial Heaven Sovereign, but now it seemed that doing so would likely waste the quota. He just didn't know how powerful the nominee could actually be.

"Please designate..."

Hearing China Cloud's urging, Cao Zhen was also afraid that China Cloud might say something about a timeout, which would render the two designated spots completely useless.

Should he choose a disciple or someone else? Cao Zhen analyzed quickly and decided to pick someone from the upper echelons of the Hundred Peaks Sect, maybe...the Sect Leader?

Then, Cao Zhen realized he didn't even know the real name of the Sect Leader. The memories left by the original owner of this body were too few. If only he knew the name of the Grand Preceptor of the Guardian Immortal Imperial Dynasty! If he knew about him, maybe the tributes to the Guardian Immortal Imperial Dynasty would be easier.

'Please designate...'

Cao Zhen, prompted once more, had no more time to think and quickly selected Gu Chengyu, who had been helping him out these past few days.

'Connection successful...'

Gu Chengyu

Cao Zhen thought for a moment and realized that Gu Chengyu had fully mastered the Dragon-Elephant Stele, and then he forcefully cultivated the River-Mountain Stele, only just managing to do so. As for the Three Lifespans Stele, he had only just begun and hadn't truly cultivated it to the pinnacle of Great Perfection.

'Subsequent user access complete, connecting to Xuan Zang, connecting to the Yellow River.'

Seeing the second user, Cao Zhen was baffled. The Yellow River? What was that? Was there actually someone with that name? He decided to see what this user named the Yellow River was capable of.

Divine Skills: Sea Changes into Mulberry Fields

"What in the world is this?" Cao Zhen, puzzled, opened the divine skill Sea Changes into Mulberry Fields, curious to see it and learn how to cultivate it, but found that the Yellow River's divine skill was not like the other skills he had seen before, which had cultivation methods.

This Sea Changes into Mulberry Fields was merely a video. It began from the formation of Earth, showing scenes starting with the Himalaya Mountain Range. Time passed bit by bit, and the Himalaya

Mountain Range changed gradually, though very slowly. And then... the source of the Yellow River began to appear in the Himalaya Mountain Range... The Yellow River slowly extended its course... Cao Zhen increased the playback speed, but even at many times the speed, it was not something he could finish watching in a short while, and he didn't learn anything from just watching.

"I don't get it, I give up... I'll just take a look at Xuan Zang instead." Cao Zhen eagerly opened Xuan Zang's file, secretly hoping that Sun Wukong's master would at least be a buddha, and this time he might learn many Buddhist divine skills.

Buddhist Law: Theravada Buddhist Law MAX Level, Mahayana Buddhist Law MAX Level.

"A mortal? The master Xuan Zang from the Tang Dynasty? Isn't it Tang Sanzang?" Cao Zhen was speechless as he looked at the data on the panel, thinking that the two randomly accessed were indeed too random.

"Would you like to download user skills?"

Cao Zhen subconsciously clicked yes and then saw an additional Buddhist Law section in his panel, which read Theravada Buddhist Law MAX Level, Mahayana Buddhist Law MAX Level. At the same time, a new entry appeared in the Divine Skills column: [Erect Stele] Dragon-Elephant Stele Level 80, Three-Era Stele Level 40, River-Mountain Stele Level 10.

Dragon-Elephant Stele Level 80? Cao Zhen was stunned for a moment before he realized. Gu Chengyu's Erect Stele had advanced because of him, which meant that the Dragon-Elephant Stele had a natural connection with him, and only now had he successfully downloaded it.

But Dragon-Elephant Stele Level Eighty? He doubted this thing could unleash its full power. Cao Zhen estimated that even if he reached Core Formation Stage with all his phenomena at Great Perfection, it would still be difficult to use even Level Forty, and trying to use a higher level was likely to drain his cultivation base in an instant.

"Senior, I'm not leaving, it's just that the master of Four Treasures Peak hasn't come out of his meditation yet. Once he completes it, I will come back..."

Situ Fengzhan, being dragged by Gu Chengyu, hastily made an excuse.

With Situ Fengzhan's words, Gu Chengyu indeed found it hard to keep holding on without letting go, and he subconsciously relaxed his grip.

Felling the control relax, Situ Fengzhan hurriedly tried to break free with force.

At that moment, Cao Zhen opened his eyes, slowly stood up, and walked toward Situ Fengzhan, saying, "I have finished my meditation, you don't need to go back and forth with the trouble. Let's begin..."

Begin? Begin what? How to fight with this level of cultivation?

Situ Fengzhan knew that he was now no match and immediately shook his head, saying seriously, "Peak Master Cao, you've just made significant progress in your cultivation. Forcibly ending meditation now is very bad for stabilizing your cultivation. As we're from the same sect, naturally I cannot spoil your chance to stabilize your realm. As for the sparring, we can delay it to another day..."

"You speak beautiful words, but they are useless," Cao Zhen said, as ten phenomena of different forms, the Immortal Bridge, and Core Formation all rose into the sky. The power of the dragon and tiger surged around his body. He raised his hand to manifest the Dragon-Elephant Stele, a huge stele engraved with a giant elephant and a golden dragon, in the sky and then smashed it down, declaring, "Today, I've resolved to beat you! Even Jesus couldn't save you now! That's my word!"

The Dragon-Elephant Stele? Situ Fengzhan's pupils shrank to the size of needle tips—Gu Chengyu's unique skill! Rated by the master of Hidden Dragon Observatory as a Best Quality among incomplete Divine Skills!

Before Situ Fengzhan could ponder who Jesus was or how Cao Zhen learned the Dragon-Elephant Stele so quickly, he started to curse as nineteen lines of energy in each direction appeared around him, forming a Go game board.

In the blink of an eye, Situ Fengzhan stood at the center of the board, with ten Tao Bases behind him and nine Immortal Bridges, nine Core Formations simultaneously appeared, each crossing at three hundred sixty-one conjunction points converging at the Heaven Origin Place. A black and a white chess piece fused into one, transforming into a sharp golden light that struck at the Dragon-Elephant Stele.

"Heaven Origin Strike?" Gu Chengyu exclaimed in surprise as he recognized the technique Situ Fengzhan used, a Divine Skill ranked in the top ten by Hidden Dragon Observatory. Situ Fengzhan had actually mastered it, and even reached the stage 'I am the chess player amidst the set-up'!

The Heaven Origin Strike tore through the sky, leaving a visible rift in the air, and then it violently collided with the Dragon-Elephant Stele.

Crack...

Instead of the expected boom of clashing forces, the Heaven Origin Strike hit the Dragon-Elephant Stele and dispersed without a trace, much like an egg shattering against a stone.

Situ Fengzhan only felt as if a huge iron hammer had smashed into his chest, as if a mountain was pressing down on him. He vomited a mouthful of blood and looked up to see the towering Dragon-Elephant Stele coming down. He couldn't dodge in time.

Boom! The massive Dragon-Elephant Stele created a deep crater in the ground, and the dust in the air obscured the situation in the pit.

Gu Chengyu flicked his sleeve to clear the dust, revealing Situ Fengzhan's mangled body in the bottom of the pit, his bones sticking out from his skin due to multiple fractures, his eyes filled with a powerless and fearful gaze.

Situ Fengzhan knew he couldn't have won, but he didn't expect to lose so miserably, unable to withstand even one strike from his opponent, who clearly hadn't used his full strength.

Cao Zhen approached the edge of the crater, peered inside, and said softly, "Is that all?"

Hearing the mocking 'is that all,' Situ Fengzhan spat out another mouthful of blood and instantly passed out.

"Thank you, Peak Master, for showing mercy and leaving some bloodline for the Hundred Peaks Sect."

Although Gu Chengyu didn't like Situ Fengzhan, he was relieved to see he wasn't dead. After saluting Cao Zhen with a fist, he took out a bottle of sweet dew from his sleeve and sprinkled it on Situ Fengzhan. The broken bones started to rapidly heal, and the torn flesh began to regenerate.

In the blink of an eye, Situ Fengzhan's external injuries had almost completely healed, but the power of the Dragon-Elephant Stele that entered his body was going to take some more time to expel completely.

Cao Zhen didn't bother with the unconscious Situ Fengzhan and headed straight for the medicine wall, intending to take advantage of the Five-Element Pill Ground of Hidden Dragon Observatory before they changed the rules and fleece them some more.

"Congratulations to Peak Master Cao for the significant increase in your cultivation," Lv Chaoqiong from Hidden Dragon Observatory quickly greeted him with a salute, uttering words of congratulations, but internally he marveled at having never seen anyone cultivate alchemy like Cao Zhen nor anyone without an Immortal Body experiencing such a rapid rise in their cultivation base.

"You are too kind, Observatory Leader. Do you have any pills you wish to concoct? If I can make them, I will certainly help," Cao Zhen replied, saluting back, while continuing to move toward the medicine wall without stopping.
