

My Master 911

Chapter 911:

In no time, the group had finished dividing up the spoils at this location.

Afterward, Cao Zhen, along with Ling Xi and Qiao Jingyao, left the Sun and Moon Sect and headed toward the Hundred Peaks Sect.

Qiao Jingyao truly had nowhere else to go, and quickly agreed after being invited by Cao Zhen. Although the lair of the Fourth Prince had been destroyed, she knew the Fourth Prince was not dead and did not know where he had fled to, and the Red Refinery Demonic Sect and Sun and Moon Demon Sect were still around.

To eliminate the people of these two great Demon Sects, relying solely on her own aimless search was simply impossible.

As Cao Zhen was reincarnated with great ability, he was more likely to find the lair of the remnants of the former dynasty, and he believed that if anyone could find the lairs of the two great Demon Sects, it would definitely be Cao Zhen.

Moreover, after spending a month with Cao Zhen, she found that he truly differed from many other cultivators; like her, Cao Zhen identified more with ordinary people. Therefore, she recognized him as well and agreed to go to the Hundred Peaks Sect.

Of course, her visit to the Hundred Peaks Sect was not to join it, but just to be a guest temporarily. Once the Sun and Moon Demon Sect and the Red Refinery Demonic Sect were eradicated, she intended to reopen her own sect.

One month later, Cao Zhen finally returned to the Hundred Peaks Sect and met his two new disciples, Duo Duo and Zhu Peng.

However, he didn't have much time to tend to the two of them just yet.

The pills that Yi Sheng had been refining were in their final stages, and he needed to pay more attention to them. Additionally, he was preparing to start transforming Four Treasures Peak.

He could sense that after cultivating the Prosperous Age Skills, his connection with Four Treasures Peak had grown even closer. The stronger Four Treasures Peak became, the stronger he would be, and the faster he would progress in his cultivation technique.

So, how could Four Treasures Peak become stronger?

If the disciples of Four Treasures Peak were stronger, naturally the peak would become stronger, leading to a more prosperous age.

But the prosperity of a place should be defined by more than just having strong disciples; it should also be about the peak itself.

The disciples within the Hundred Peaks Sect noticed that their Sect Leader had finally begun to build up their mountain, with buildings being erected one after another.

Patches of Spirit Field were designated, and at the foot of the mountain, a gateway finally appeared, complete with a series of steps.

Cao Zhen also noticed that as Four Treasures Peak's constructions reached higher, his Prosperous Age Skills indeed became stronger, although the increase was not very noticeable.

"So... enhancing with these ordinary items has limited effect. Many of these enhancements are even due to the Spirit Fields I've transplanted," he thought.

In the days that followed, Cao Zhen began to focus on improving the soil of the Spirit Fields. Unbeknownst to him, his "Agriculture" among the Six Arts was being enhanced.

"[Agriculture] level has improved, breaking through the barrier; administrator level has risen by one level, connecting with one random user and one designated user," the voice of China Cloud echoed in Cao Zhen's mind. Without giving him too much time to think, the voice of China Cloud continued.

"Random user, Gong Zhizhang, connection complete."

Cao Zhen was momentarily stunned. Who was Gong Zhizhang? He really hadn't heard this name before. He quickly connected to China Cloud and, sure enough, a document appeared in front of him. Upon opening the document, information flowed into his sight.

User: Gong Zhizhang

Gender: Male

Cultivation Base: Mortal

"Mortal..." Cao Zhen was speechless. The randomness of this connection was extreme; how many mortals had it linked him to? Couldn't it link him to someone more impressive?

He continued reading. Identity: Disciple of Confucius, one of the Seventy-two Sages.

Expert in: Teaching, nurturing, beast taming.

Beast Taming Level: Ninety-nine.

Bird Language: MAX.

"Bird language?" Cao Zhen paused, then realized that this meant the actual language of birds.

"Skilled in beast taming, this is perfect. The 'Beast' among my Six Arts is the one I'm least proficient in, and now I can fill that gap," he thought.

After glancing over Gong Zhizhang's profile, Cao Zhen stopped paying attention. Now, he needed to consider who the designated user should be.

He now had two more disciples, so the designated user must be chosen from one of them.

He was quite curious about both of his disciples.

Ever since acquiring the alchemy technique from Zhang Daoling, he had never failed in alchemy, but the pills he refined for Zhu Peng, which should have endowed him with intelligence and made him normal, had all failed.

He really wanted to connect with Zhu Peng afterwards to see what was special about him.

As for Duo Duo, he was equally curious.

Why was Duo Duo's Age of Prosperity Qi even stronger than Zhu Peng's?

After weighing his options, he chose to connect with Duo Duo in the end.

Suddenly, information appeared before his eyes.

User: Duo Duo

Gender: Female

"Duo Duo is really her name, last name Duo, first name Duo..." Cao Zhen noticed Duo Duo's name at first glance. He had always thought Duo Duo was a nickname or a hastily made-up name, but now it appeared to be her real name.

Identity: Sixth disciple of Four Treasures Peak, Hundred Peaks Sect.

Aptitude: Heavenly Sword Saint Body!

Cultivation Base: Foundation Establishment Realm, Grand Completion of Immortal Bridge.

"Hmm?"

A look of surprise once again crossed Cao Zhen's face. Duo Duo was of the Ancient Immortal Body, practically unable to cultivate without pills. How could Duo Duo, who had been in the Hundred Peaks Sect for only a short time, have possibly reached the Grand Completion of Immortal Bridge!

Moreover, no one knew that Duo Duo had reached the Grand Completion of Immortal Bridge, not even his disciples or himself. They all believed that Duo Duo was merely a disciple with two platforms.

Yet who could have imagined that Duo Duo had already achieved the Grand Completion of Immortal Bridge.

Chapter 912:

How had she, with an Ancient Immortal Body, cultivated and broken through? If she had some special method, he wouldn't need to keep going to the trouble of concocting various pills for his own disciples.

However, the breakthroughs of the Ancient Immortal Body were probably beyond anyone in this world, otherwise, the Ancient Immortal Body wouldn't have been so unappreciated in this world during this period.

Therefore, this girl must have had some incredible fortune. Perhaps she came from a major family of demons, and then was piled upon with resources, leading her to the Grand Completion of Immortal Bridge.

But in that case, shouldn't Duo Duo be at home, cultivating with her family?

The resources needed to force an Ancient Immortal Body to break through to the Grand Completion of Immortal Bridge must have been immense. Duo Duo's family must be incredibly wealthy to expend so much to help her.

But if that was the case, why would she come to the Hundred Peaks Sect? Also, does the Guardian Immortal Imperial Dynasty have any expert with the surname Duo? He hadn't even heard of this surname before.

With curiosity stirring in his heart, Cao Zhen continued reading, and suddenly his eyes narrowed again.

Specialty: Extinguish Aura and Trace: Level 10, capable of hiding one's aura, making oneself appear like a mortal.

"So, it's the Divine Skills of Extinguish Aura and Trace that prevented everyone from realizing this girl had entered our Hundred Peaks Sect already as a cultivator.

Such a magical Divine Skill, all my disciples are already at the Ten Different Phenomena of Golden Core Perfect Completion, Little Bei even at the Wind Fire Tribulation, yet none could see through this Divine Skill."

But why would she want to join the Hundred Peaks Sect?

While feeling puzzled, Cao Zhen continued reading and was surprised to find that this girl's memory contained a vast amount of sword techniques, sword spells, sword intent, and understanding of swords.

"These sword techniques are all so powerful. Just what is this girl's background?" Cao Zhen discovered many sword techniques in Duo Duo's memory. It's just that perhaps she is not powerful enough yet to execute many of the techniques she knows how to cultivate.

However, once her cultivation is sufficient, she will naturally be able to execute these sword techniques.

"This girl had already reached the Grand Completion of Immortal Bridge before she joined our Hundred Peaks Sect. Why did she join the Hundred Peaks Sect? What is her purpose? She couldn't be a remnant of the former dynasty, could she? It probably isn't, if she were a remnant of the former dynasty, it would have shown up on her file.

Besides, she contributes her strength in the Prosperous Age Picture Record at Four Treasures Peak. If she was a remnant of the former dynasty, she wouldn't be contributing to the prosperity of Four Treasures Peak but undermining it instead."

After a long thought, Cao Zhen decided to not confront Duo Duo for the time being; he would act as if nothing had happened.

In the following days, Cao Zhen finally had some leisure time. The entire dynasty stabilized as the Four Princes fled, and numerous experts of the former dynasty were killed. Even the Grand Preceptor's four disciples began to reclaim lost territories.

Meanwhile, the pill Cao Zhen had concocted that would let him break through to the Ten Different Phenomena of Golden Core Perfect Completion was finally successful.

At that moment, torrents of violent power filled the entire cave mansion.

Cao Zhen swallowed the pill. Before this, he had already taken such a pill, and he had prepared for it well in advance.

As the violent power within him surged, the seventh elixir he had condensed behind him gradually turned golden yellow.

The next moment, streams of Musical Rhythm qi appeared in his hands, and a black mist gathered around him.

In the beginning, the Eclipse Demon in the ruins had learned the Divine Skills of Ten Sounds Sky Demon from the Ten Sounds Demon Lord, but the Eclipse Demon had only learned the Ten Sounds of Destruction, while he had learned all the ten demonic sounds.

Now, he intended to infuse these demonic sounds into the golden core he had just condensed, using his Divine Skills.

Soon, the third kind, the fourth...

Cao Zhen infused various Divine Skills into the Golden Core.

Ten types of demonic sounds had perfectly merged into one Golden Core; it could not have been more fitting.

Others who wish to utilize ten types of demonic sounds need specific techniques, and even ten people to perform the sounds simultaneously, but he could do it alone by releasing the Divine Skills within the Golden Core.

Once the Golden Core was completely condensed, instantly, pleasing musical notes began to flow within his cave mansion. The sounds of pipa, erhu, bianzhong, xiao, flute music, se, qin, xun, sheng, and drums blended together without any sense of chaos.

And though the sound was pleasing to the ear, it also carried an eerie resonance akin to a demonic chant.

As the seventh inner core transformed into a Golden Core, his eighth and ninth inner cores also turned into Golden Cores one after the other as he infused them with ten types of Divine Skills.

Following that, he once again ingested a Pill.

Instantly, a wild force surged into his body, rushing outward; his tenth inner core gradually turned golden. Just as before, he began to consolidate Divine Skills, but in the next moment, a fierce repulsive force emerged from the heavens and earth.

This repulsive force was laden with an undeniable majesty.

He was all too familiar with this presence; it was the same power that had appeared during the Tribulation Array in the ruins.

"Is this... the power of the Heavenly Dao? Is the Heavenly Dao rejecting my Divine Skills?"

Cao Zhen gathered a Divine Skill, intending to infuse it into the tenth inner core, which was gradually turning golden, but as soon as the power touched the inner core, the force of the Divine Skill instantly dissipated.

Outside the cave mansion, in the void, layers of tribulation clouds converged swiftly, completely obscuring the sky above Four Treasures Peak in the blink of an eye.

Though it was daytime, Four Treasures Peak had turned pitch-black, while the areas outside the peak remained unaffected in broad daylight.

"Tribulation clouds?"

"What's happening? The tribulation clouds are coming from Four Treasures Peak."

"Is someone from Four Treasures Peak about to break through into the Wind Fire Tribulation?"

"No, this doesn't feel like the aura of the Wind Fire Tribulation."

"How can there be tribulation clouds if it's not the Wind Fire Tribulation?"

"Could it be the Sect Leader?"

"Has the Sect Leader concocted some heaven-defying Pill again?"

Suddenly, numerous Golden Core Stage masters within the Hundred Peaks Sect began flying toward Four Treasures Peak.

Meanwhile, outside Cao Zhen's cave mansion, Ling Xi, Yan Yourong, Xiang Ziyu, Bei Yan, and others had gathered together.

Ling Xi looked at the tribulation clouds in the sky and quickly instructed Yi Sheng, "Junior Sister, take your junior sister and junior brother away first."

Duo Duo and Zhu Peng's cultivation bases were too low. Clearly, their master had unknowingly done something to trigger the tribulation clouds. Once the Heavenly Tribulation descended, even a slight brush with it might instantly turn Duo Duo and Zhu Peng into dust. It was imperative to send them away first.

Chapter 913:

Atop Four Treasures Peak, Yi Sheng and Qiao Jingyao both had nine Abnormal Phenomenon Golden Pills materialize behind them as they each clutched Duo Duo and little Zhu Peng, flying down the mountain.

Now, their cultivation bases had both reached the pinnacle of nine Abnormal Phenomena Golden Pills, with the shadow of the tenth Golden Pill faintly visible.

It wouldn't be long before they both would become beings of Perfect Completion of the Ten Different Phenomena Golden Pills.

Previously, there truly had been no one on Four Treasures Peak who could practice with Yi Sheng.

Her senior brothers and sisters were too strong, capable of giving her guidance, but the disparity was such that sparring with them could not compare to having an evenly matched opponent.

As for her junior brothers and sisters, they were far too weak.

After Qiao Jingyao arrived at Four Treasures Peak, she finally found an opponent who was her equal. Both of them possessed nine Abnormal Phenomenon Golden Pills and top-tier Immortal Bodies.

Together, they would either cultivate or spar with each other daily and even slept together.

Having just set down Duo Duo and Zhu Peng, Golden Core experts from the Hundred Peaks Sect had already begun to land around them.

Within the Cave Mansion, Cao Zhen was tirelessly attempting to insert divine powers into the last inner core, but no matter how hard he tried, he felt an irresistible force preventing his divine powers from entering the inner core and barring it from turning into a Golden Core.

Heavenly Dao!

It was the Heavenly Dao preventing all this!

Cao Zhen looked up outside the Cave Mansion, sensing the tribulation clouds already gathering in the void.

"Heavenly Tribulation? Zhang Daoling's theories of Immortal Cultivation never mentioned that forming ten Golden Pills this way would invite a Heavenly Tribulation.

Why is there a Heavenly Tribulation now?"

Cao Zhen's brow furrowed deeply, as if the Heavenly Dao refuses the existence of such power at this time because...

Suddenly, it dawned on him.

This era was the Minor Era of Inversion of Heaven and Earth, where the Heavenly Dao did not permit any power that surpassed the Golden Core Stage. The Heavenly Dao considered that after he fused the ten different Golden Pills and completed the Pill Fusion, his power would surpass that of the Golden Core Stage. That was why the Heavenly Dao forbade the formation of the tenth Golden Pill, hence the advent of the Heavenly Tribulation.

Heavenly Tribulation...

Cao Zhen couldn't help but recall the Tribulation Array that had appeared in the ruins.

Although he could feel that the tribulation clouds in the void were different from the Tribulation Array, the power emanating from the clouds was clearly much stronger than the Wind Fire Tribulation, and by no small measure.

If he were to forcibly undergo the Tribulation, he would undoubtedly be pulverized by the Heavenly Tribulation.

"So, during the Reversal Mini Epoch Period, I cannot achieve Perfect Completion of the Ten Different Phenomenon Golden Pills?" Cao Zhen sighed, ceasing his attempts to forcibly form the tenth Golden Pill. Nonetheless, the power of the Pill he had ingested continued to surge throughout his body.

"Since I cannot pass through the Tribulation, I might as well use this power to readjust the six Abnormal Phenomenon Golden Pills I had condensed before."

When he condensed the six Abnormal Phenomenon Golden Pills previously, Xiang Ziyu had not yet cultivated many Divine Skills. The arrangements of Divine Powers within each Golden Pill were not perfect by current standards, so it was an opportune time to use the remaining power to adjust the mix of Divine Skills.

Cao Zhen harnessed the residual power of the Pill within him to extract various Divine Skills from the Golden Pills and re-condensed them into new combinations.

Initially, his first Golden Pill included a Flame Divine Skill because it lacked Thunderbolt Proficiency. Now, he had withdrawn the Flame Divine Power and even replaced it with a concentrated Thunderbolt Proficiency.

After all, he had connected with the Golden Light Sage who excelled in Thunderbolt Proficiency.

As the alteration of Divine Skills was completed, the first Golden Pill became even more resplendent, its emanating power far stronger than before.

The second, the third...

One by one, the Golden Pills were re-condensed to completion.

And his body's residual Pill power gradually diminished.

With the depletion of the Pill's power and as he stopped forming the tenth Golden Pill, the tribulation clouds that had been gathering above Four Treasures Peak also slowly faded away.

"The tribulation clouds have disappeared?"

"Why have the tribulation clouds suddenly vanished?"

"What's going on here?"

Everyone gathered around Four Treasures Peak was stunned for a moment.

Soon after, Cao Zhen flew out of the Cave Mansion, addressing the gathered crowd, "Everyone, disperse. I was merely practicing some special techniques."

With a casually found excuse, Cao Zhen sent the crowd away.

The crowd might have accepted his casual excuse, but their excitement could not be contained.

"As expected of the Sect Leader, casually cultivating and still able to summon a Heavenly Tribulation!"

"Only the Sect Leader could bring about a Heavenly Tribulation so effortlessly!"

"Although Star Lord Hao Yue is also a reincarnated being of Great Ability, she surely does not have as many miraculous powers as our Sect Leader!"

After the people left, Cao Zhen did not return to the Cave Mansion but headed towards the inner reaches of the Hundred Peaks Sect. Although he had not broken through to Perfect Completion of the Ten Different Phenomena Golden Pills, he could feel that he was ready to add to the Prosperous Age Picture Record.

The subject of his drawing would now be the Hundred Peaks Sect.

Cao Zhen walked through the Hundred Peaks Sect, a journey that lasted ten days and nights. During that time, he traversed every part of the Hundred Peaks Sect.

Ten days later, Cao Zhen returned to Four Treasures Peak, taking out his Prosperous Age Brush to depict anew within the Prosperous Age Picture Record.

Chapter 914:

Originally, there was only one peak, the Four Treasures Peak, and the Yellow River appeared sparse on the Prosperous Age Picture Record; then, other peaks began to emerge.

Spirit Mountain, Gathering Immortals Platform, Dragon Capturing Immortal Palace, Flying Immortal Peak, Five Elements Peak...

One by one, the peaks within the Hundred Peaks Sect appeared on the Prosperous Age Picture Record.

As Cao Zhen's final stroke fell, having completed the painting of the entire Hundred Peaks Sect, he felt a myriad of powers surging from all around the Sect, converging like the dazzling stars in the night sky above the Prosperous Age Picture Record.

In an instant, his entire aura surged tremendously, as waves of Qi burst forth around him, forming fierce currents within his cave mansion.

Above the void over the Four Treasures Peak, clusters of tribulation clouds gathered once again.

Soon, the people within the Hundred Peaks Sect noticed the changes in the skies above Four Treasures Peak.

"What's going on?"

"Is the Sect Leader cultivating something again?"

"The Sect Leader truly lives up to his title, casually cultivating and yet able to summon Heavenly Tribulation!"

Although ten days had passed, this time, the crowd did not gather towards Four Treasures Peak.

Within his cave mansion, Cao Zhen felt the tribulation clouds gathering in the void and instantly dispersed the accumulating forces.

Inside him, the continuously rising aura abruptly halted, and following that, the layers of tribulation clouds above the void also vanished into nothingness.

Elsewhere in the Hundred Peaks Sect, as they watched the dispersing clouds, everyone indeed showed expressions as if to say, "Just as expected."

"I told you, as long as the Sect Leader wishes, these tribulation clouds will disappear anytime."

"What do you think the Sect Leader is cultivating? Is it some Secret Technique or a Divine Skill that's capable of summoning tribulation clouds?"

"Maybe the Sect Leader prepared some kind of pill?"

"It can't be a pill, right? If it were, then the Heavenly Tribulation might truly descend, and moreover, those pills require a long time to concoct. I haven't seen the Sect Leader constantly engaged in Alchemy."

Inside the Hundred Peaks Sect, the crowd was abuzz with speculation, but no matter what, they increasingly recognized their Sect Leader's strength, and their confidence in the Hundred Peaks Sect only grew.

On Four Treasures Peak, atop the vast stone platform.

Over this period, Cao Zhen had made some modifications to Four Treasures Peak, but the massive stone platform was still preserved as a spot for the many disciples of the peak to exchange pointers or for elder brothers and sisters to instruct their juniors.

Unlike the previously bare platform, there now was a Formation placed upon it, making the platform even more stable.

Atop the platform, Little Bei Yan looked at the tribulation clouds appearing and disappearing in the void and suddenly speculated aloud to his seniors, "Do you think, every time the Master does this – summons the tribulation clouds and then makes them disappear, isn't he just playing with the Heavenly Dao? What if the Heavenly Dao gets angry, and the next time Master summons the tribulation clouds, the Heavenly Tribulation actually descends directly?"

No one around him responded.

Within his cave mansion, Cao Zhen was inwardly ecstatic.

"This is the Prosperous Age Picture Record. Initially, I only painted the Four Treasures Peak, which only had my seven disciples, so the prime power of Four Treasures Peak was limited. But now, having painted the Hundred Peaks Sect, its scope has expanded immensely, and the power I can now draw upon has also increased tremendously.

The appearance of the tribulation clouds signifies that if I continue to gather power, it will surpass the limit of the Golden Core Stage. Today, I am merely at the Nine Abnormal Phenomenon Golden Core stage, yet I've already surpassed the Golden Core Stage's limit!

The Prosperous Age Picture Record has greatly amplified the power. Moreover, I have only painted the Hundred Peaks Sect; if my cultivation were higher, and if I were to paint the entire Guardian Immortal Imperial Dynasty, or even the entirety of the Eastern Wasteland that it resides in, imagine how terrifying that power would be."

Cao Zhen muttered to himself, yet he then shook his head.

"It shouldn't be so casual, just wanting to draw anything I wish. I can paint the Four Treasures Peak because I am the Peak Master of Four Treasures Peak. I was able to paint the Hundred Peaks Sect because I am currently in charge of the Hundred Peaks Sect temporarily.

But the Guardian Immortal Dynasty... I suppose I could also include it, since I am the State Preceptor of the Guardian Immortal Dynasty, but other places, I probably won't be able to include.

The previous three owners of the Prosperous Age Picture Record were all emperors of a dynasty, which is why they could include their nations in it.

But as for me, I'm not cut out to be an emperor. Moreover, being an emperor is too exhausting; one would spend all day dealing with governmental affairs. Besides, if I became the emperor, the Grand Preceptor, once he awakens, would probably contest with me.

I need to think of another way to allow me to include more places on the Prosperous Age Picture Record."

Shaking his head, Cao Zhen thought it was still premature to ponder these matters. What he needed to do now was to first strengthen the Hundred Peaks Sect.

"Prosperous Age, the current Hundred Peaks Sect is one of my eras of prosperity, so the more prosperous the Hundred Peaks Sect becomes, the stronger my Prosperous Age Skills and Prosperous Age Picture Record will be.

The simplest way to strengthen the Hundred Peaks Sect would be to concoct pills, pushing the disciples of the Hundred Peaks Sect to enhance their capabilities again. However, the resources of the Hundred Peaks Sect are ultimately limited, and I can't open the Hidden Treasure Immortal Palace again to concoct pills for all disciples.

After all, the last time I opened the Hidden Treasure Immortal Palace, a lot of resources were already consumed. If I cannot directly increase the disciples' cultivation levels, then I must find another way. I

still have many Divine Skills; I can definitely contribute these as the Divine Skills of the Hundred Peaks Sect.

For example, the Five-thunder Righteous Method; if every disciple of the Hundred Peaks Sect could master it, when anyone comes to attack the Hundred Peaks Sect, just let thunder fill the sky... and also, the Dragon and Tiger Golden Body... However, the only issue to consider is, if someone leaks the Divine Skills, say remnants of the previous dynasty are among us and they report how to cultivate these skills to their masters, wouldn't that be arming the enemy?"

Chapter 915:

Unless we could ensure that every disciple within the Hundred Peaks Sect is wholeheartedly loyal, without any traitors among them.

But there are so many disciples in the Hundred Peaks Sect... No, I have the Prosperous Age Picture Record, if this Prosperous Age Picture Record..."

Cao Zhen took out the Prosperous Age Picture Record again and began to study the points of light on it.

"A total of twenty thousand nine hundred and ten points of light, the strongest of these points are from my disciples, who... seem a bit different, why even Duo Duo and Zhu Peng's points are much brighter than many disciples', and their strength can't possibly surpass so many disciples."

He had just asked Nie Jie, and the number of people in the Hundred Peaks Sect was indeed twenty thousand nine hundred and ten.

Even though there were only seven people in Four Treasures Peak after recruiting two more disciples, similar to Chao Zi Zai's Seven Star Peak, which he often visited, the number of disciples on these peaks was also very few. As peaks ranked lower, it was difficult for them to recruit disciples, and it was not possible for these peaks to have too many disciples.

But the case with other peaks was different.

Many peaks had over a hundred disciples, especially those ranked in the top twenty; most had a large number of disciples, even surpassing five hundred people in many peaks.

Cao Zhen studied the Prosperous Age Picture Record and soon noticed something peculiar, and speculated momentarily.

"It could be because they belong to Four Treasures Peak, and Four Treasures Peak was the first part of the prosperous era I drew; therefore, their light is exceptionally bright, or perhaps, because they are my disciples, they are closer to me than other disciples, so they contribute more Era Prosperity Power."

After observing it, Cao Zhen looked elsewhere.

"The strongest among the Era Prosperity Power outside my disciples from Four Treasures Peak should belong to Li Ke, closely followed by Liè Yàn's then Nie Jie's, and this one... this doesn't seem to be Wu Xiang's aura."

Cao Zhen looked at the light next to Nie Jie's, and soon, a vague silhouette emerged in his mind.

"Qiao Jingyao? Is it her? She's not from our Hundred Peaks Sect, yet she also contributed Era Prosperity Power. Could it be that as long as someone inside Hundred Peaks Sect, and also recognizes the sect, can contribute Era Prosperity Power? There must be another condition, that is, the other party currently has no allegiance.

Qiao Jingyao's Immortal Sect has been destroyed, and she hasn't established her own sect, so, she feels a sense of belonging in the Hundred Peaks Sect."

Cao Zhen continued to study the Prosperous Age Picture Record, focusing on the points of light emitting, and soon he found another peculiarity.

Most of the lights were continuously flashing, but among them, two lights, while also continuously shining, fluctuated drastically in color, now bright, now dim.

Aside from these two lights, another light was flickering one moment, gone the next.

"What could this be?"

Cao Zhen looked at those two highly fluctuating lights.

He discovered that whenever he started focusing on a light point, their appearance would automatically arise in his mind, and this time, with his gaze, two silhouettes suddenly appeared in his mind.

"These two people, that one from Azure Pheasant Peak, I don't recall, but the other, Du Yunfei, I do recall. He is a Golden Core Stage disciple.

He is at the Golden Core Stage, but when the light dims, it's even less bright than many disciples who haven't yet condensed a Golden Core.

The fluctuating light signifies these two people recognize the Hundred Peaks Sect, but at times, they no longer do. Could it be that these two are spies planted inside the Hundred Peaks Sect by others?

What about the other person?"

Cao Zhen then shifted his gaze to the light that appeared and vanished intermittently.

If the first two are highly suspect, then this last one can be definitely determined that there is a problem.

"This Prosperous Age Picture Record could actually directly determine if there are traitors within the sect. These three people need to be watched closely."

Cao Zhen noted the appearances of the three individuals. He did not capture them directly, but instead, he ordered that their actions be closely monitored.

"Now that we know who the traitors are, it will be easy to handle them. By watching these three, we might even uncover the details of other forces.

Since we already know who the traitors are, we don't have to worry about them spreading Divine Skills."

Having thought things through, Cao Zhen promptly gathered the leaders, including Vice Sect Master Nie Jie, Grand Elder Li Ke, and the Peak Masters of the major peaks, to share his plan.

"Everyone... I've called you all here because I have a plan," Cao Zhen told the crowd, "Now, although we've temporarily eradicated a stronghold of the Qi Tian Dynasty, that surely wasn't all of Qi Tian Dynasty's remaining forces, not to mention their leader, the Fourth Prince, has also escaped. We do not know how many princes are left in the remnants of the Qi Tian Dynasty.

Moreover, we are still in the Reversal Mini Epoch Period, and the entire world remains in chaos. If our Hundred Peaks Sect wants to safely get through the Reversal Mini Epoch, we need to continue strengthening our power.

Therefore, I've decided to release some Divine Skills as a part of the Hundred Peaks Sect's legacy, which any disciple of our sect can cultivate."

Chapter 916:

"What?"

The surrounding Peak Masters, upon hearing this, were greatly surprised.

The Sect Leader was actually planning to offer Divine Skills. Everyone knew that the Sect Leader was a reincarnated Great Ability and certainly possessed many Divine Skills, among which many were extremely powerful.

Yet those were the Sect Leader's own. To a cultivator, Divine Skills are extremely important, as they are part of the inheritance.

Now, the Sect Leader was actually planning to contribute some of his own Divine Skills.

The Sect Leader was truly selfless.

After the excitement and exclamations, someone suddenly thought of a key question and asked loudly, "Sect Leader, may I know which Divine Skills you plan to offer?"

"At the very beginning, I plan to offer ten Divine Skills. As for which ones, I have not decided yet, but two of them are certain, one being the 'Dragon and Tiger Golden Body,' which is a top-tier Divine Skill.

Another top-tier Divine Skill, which the others would've seen more often is named 'Five-thunder Righteous Method!'"

"Five-thunder Righteous Method!"

The crowd around instantly gasped. As a reincarnated Great Ability, the Sect Leader surely mastered many Divine Skills, but they had never imagined he would contribute 'Five-thunder Righteous Method.'"

They had also seen the 'Dragon and Tiger Golden Body,' but this Divine Skill was mostly used in conjunction with Cao Zhen's other Divine Skills, so their understanding of it was limited.

However, the other Divine Skill, the 'Five-thunder Righteous Method,' was very familiar to them. It was the Divine Skill Cao Zhen had used when he first rose to power in battles with adversaries.

Later, when Cao Zhen's disciples caused a big stir in the Hidden Dragon Immortal Palace, they also used the 'Five-thunder Righteous Method.'

Even later, at the Great Assembly of Immortals, Cao Zhen and his disciples used the 'Five-thunder Righteous Method' multiple times. They knew how powerful it was and understood that it was undoubtedly a top-tier Divine Skill. Now, the Sect Leader was planning to offer it."

This could entirely be used as an inheritance Divine Skill for One Peak or even an entire Sect.

"The Sect Leader is wise!"

"Thank you for your selflessness, Sect Leader!"

One after another, the Peak Masters of the Hundred Peaks Sect, especially those ranked lower, began to express their gratitude. They all had significant gaps compared to the major Peaks within the Sect, most noticeably in their understanding of Divine Skills.

Now, Sect Leader Cao was planning to teach these Divine Skills to everyone, and this gap would be directly bridged.

Several were excited, but a Peak Master slowly voiced his concerns, "Sect Leader, this is not advisable. What if there are traitors within our Hundred Peaks Sect? What if they teach your Divine Skills to others, especially the remnants of the Praying Heaven Dynasty? How would that be handled?"

No sooner had these words fallen than many around started voicing their agreement.

Cao Zhen, however, gently shook his head and said, "Regarding the matter of traitors, I will handle it myself. There's no need for you to worry at this moment. Thus, I will continue to teach these Divine Skills to everyone."

"No."

In the crowd, there were very few who would contradict Cao Zhen. Nie Jie, who had always been diligently managing various trivial matters for the Hundred Peaks Sect on behalf of Cao Zhen, heard your words but immediately spoke out in disagreement, "Sect Leader, even so, you shouldn't directly teach the cultivation techniques to everyone.

If everyone in our Hundred Peaks Sect could cultivate your Divine Skills, then many disciples might take them for granted, thinking they are easily accessible."

"That's right, the Vice Sect Leader is correct, Sect Leader. You can't let all disciples cultivate your Divine Skills at will."

"Sect Leader, in all major Immortal Sects, there are restrictions on cultivating those higher-level Divine Skills. The reason these Sects have such rules is to make their disciples cherish the Divine Skills and strive continuously for them."

Cao Zhen listened to everyone's voices and nodded slightly. What everyone said did make sense; Divine Skills that could be obtained without any effort would truly not be cherished by the disciples.

Moreover, they wouldn't possibly engage in intense internal competition just for one Divine Skill.

On the contrary, if he gave them a few Divine Skills, allowing them to see them, they would inevitably become competitive and strive hard for the Divine Skills.

As for how to manage it...

"I know what should be done. My friends, wait a few days, and I will tell you how exactly to cultivate my Divine Skills and what the specific restrictions will be."

Wouldn't it be good to just set up a points system?

As a transmigrator, if he couldn't even manage a points system, he might as well smash his head against tofu and die. Moreover, he had the adept business-savvy and mathematically inclined disciple Yi Sheng to help him."

Two days later, within the Hundred Peaks Sect, a piece of news rapidly spread, and shortly after, sheets of paper filled with dense text appeared everywhere within the Sect.

The disciples of the Hundred Peaks Sect quickly noticed these sheets and curiously approached to read them.

"Is this a notice regarding battle achievements?"

"The Sect Leader mentioned above that he wants to enhance our Hundred Peaks Sect's strength so he has decided to contribute his ten Divine Skills for us to cultivate!"

"Below here are the Divine Skills contributed by the Sect Leader, including the 'Five-thunder Righteous Method!'"

"It's really the 'Five-thunder Righteous Method,' a Divine Skill unique to the Hundred Peaks Sect. The Sect Leader has really contributed it!"

Chapter 917:

"Sect Leader, truly selfless!"

"Quick, see what conditions are required to cultivate the Five-thunder Righteous Method."

"Let me see, to cultivate the Five-thunder Righteous Method one must enter the Hidden Dragon Immortal Palace, because the Five-thunder Righteous Method is kept there. It's not just the Five-thunder Righteous Method, the Dragon and Tiger Golden Body also requires entry into the Hidden Dragon Immortal Palace to be cultivated."

"Entering the Hidden Dragon Immortal Palace I can understand, but what does this 'points' mean afterwards? Cultivating the Five-thunder Righteous Method requires a thousand points? The Dragon and Tiger Golden Body also needs a thousand points?"

In the crowd, Situ Fengzhan looked at the chart in front of him full of surprise, turned his head towards Senior Brother Zi Xuan beside him after a brief glance, then continued reading the text on the chart.

"As for the methods to acquire points, there are many, such as encountering unplanned battles within our Hundred Peaks Sect. In the midst of battle, disciples who fight for the Sect can receive varying points based on their contribution.

Besides that, if you go out for experience and encounter someone from the Demon Sect and kill them, you can also gain points. Moreover, completing some missions within the Sect, like tracking down any traces of the Great Lai Dynasty or the three Immortal Sects and reporting back to the Sect.

Discovering any one of those Sects directly rewards two thousand points!"

Since their last failed attack on the Hundred Peaks Sect, Cao Zhen and the Hundred Peaks Sect had recuperated for a while, fully recovered, and immediately sent their disciples to the Great Lai Dynasty to seek revenge on those three Immortal Sects.

But who knew that when his disciples reached the Great Lai Dynasty, they found that all three Immortal Sects within it, whether it was Star Moon Mansion or Void Breaking Sect, or even the East Sea Mirage, had all disappeared.

Yes, disappeared.

They took their disciples, all their resources, and left their Immortal Sects behind.

Normally, moving an Immortal Sect is quite troublesome; after all, each Sect has its own Great Formations to deal with first in order to relocate.

Moreover, this was during the Minor Era of Inversion of Heaven and Earth.

During this period, the Earth Immortals of the major Sects were in deep slumber within their life graves. So, if your entire Sect relocates, do you just leave them behind?

Ignoring them means that once the enemy arrives and sees these life graves, they would naturally take action and kill each one of the still slumbering Earth Immortals.

Thus, to relocate, one must dig up the life graves of each senior expert within the Sect.

Digging up life graves is a huge disrespect, and it's not that simple either.

One wrong move can severely injure the seniors within their life graves.

But the three Immortal Sects of the Great Lai Dynasty had no choice; if they didn't leave, the Hundred Peaks Sect would undoubtedly seek revenge, and all of them would die; they had to leave.

Cao Zhen sent people to search later, but the world was far too vast, and he truly did not know where those three Immortal Sects were hiding.

Therefore, to implement a Points System, for missions, his first major task was to find those three Immortal Sects.

Situ Fengzhan continued reading: "In addition to these, there are various other missions. Furthermore, if you acquire some Divine Weapons or Divine Skills that are of no use to yourself, you can offer them up to the Sect, and let the Sect evaluate the value of these Divine Skills and Weapons, and then award a certain amount of points."

Cao Zhen was most satisfied with this aspect of the Points System he had created. Normally, without the Points System, the Sect would need to offer tangible benefits, actual benefits to exchange with the disciples for some Divine Skills or Weapons.

The Hundred Peaks Sect, although large and affluent, had many disciples, and it would also cost a lot to distribute materials and resources among them.

But now, with this Points System, the Sect didn't need to offer up anything tangible.

In the end.

Situ Fengzhan's gaze fell on the last section of the Sect's chart and he read, "Another method to gain Sect points is by establishing the Dragon and Tiger Rankings within the Hundred Peaks Sect.

Among them, the Dragon and Tiger Rankings are divided into four major lists: the Golden Core List, the Inner Core List, the Immortal Bridge List, and the Path Platform List.

Disciples within the Sect can spar freely and rank on these lists.

Each list is tallied twice a year; each tally, for the Path Platform List, the top ten are awarded establishment, with the first place gaining ten points, the second place nine points, and so on.

For the Immortal Bridge List, it ranks the top twenty, with the first place gaining twenty points, the second place nineteen points...

For the Inner Core List, it ranks the top hundred, with the first place gaining five hundred points, the second place four hundred ninety-nine points...

For the Golden Core List, it ranks the top hundred, with the first place able to gain previous points, the second place nine hundred ninety-nine points...

Situ Fengzhan, realizing this, suddenly turned back to look at Senior Brother Zi Xuan and said, "Senior Brother Zi Xuan, the points awarded by the Inner Core List and Golden Core List especially are too many. A year, tallied twice, if someone gets first place both times, they could directly learn the Five-thunder Righteous Method and the Dragon and Tiger Golden Body!

Moreover, it's specifically noted that disciples from Four Treasures Peak can participate in all the lists, but their final results will not be included in the rankings.

In other words, for example, if Sister Ling Xi from Four Treasures Peak takes the first place in the Golden Core List, her score wouldn't be included, and we would directly consider the person in second place.

Chapter 918:

It made sense, after all, Ling Xi was from Four Treasures Peak, and all these divine skills were provided by the Sect Leader. Sister Ling Xi didn't need to acquire divine skills through the points ranking; she could learn them directly from the Sect Leader.

The brothers and sisters from Four Treasures Peak were essentially not participating in the competition, and furthermore, Elder Brother Lie Yan wasn't competing either. With this, our opportunity had arrived."

Lie Yan did wake up after the Lieyan Nirvana, and Cao Zhen also administered punishment.

He sentenced Lie Yan to sweep Spirit Mountain for ten years. During these ten years, unless the Hundred Peaks Sect faced an attack or another major event, Lie Yan was not allowed to leave Spirit Mountain. Additionally, he was forbidden from leaving the Hundred Peaks Sect for a hundred years."

Lie Yan, being unable to leave Spirit Mountain for ten years, naturally couldn't participate in the ranking competition.

"There is an opportunity now, but aiming to get first place, or even the top twenty, is easier said than done..." Zi Xuan sighed deeply, his gaze shifting with the list, where even beyond the text there was a segment of special, different introductions.

"Any disciple found guilty of fraud, collusion, or other means of manipulating the ranking on the list will be stripped of their right to compete in the ranking for at least ten years, and up to a hundred years.

Additionally, within the Hundred Peaks Sect and the Dragon-Tiger Immortal Palace of the city, disciple Yi Sheng from Four Treasures Peak is appointed as the first Elder of the Dragon-Tiger Immortal Palace, responsible for the tallying of points on the Dragon-Tiger Ranking, as well as the distribution of other points."

Beyond that, the list contained many more detailed rules about the Dragon-Tiger Ranking. For example, a person must accept at least ten challenges within six months to remain on the list.

Of course, if you are too strong and no one challenges you within six months, you can also stay on the list, but you must open up at least twenty days when anyone can challenge you within those six months.

What's more, if you fail to challenge someone three times in a row, you are not allowed to challenge anyone else within the following ten days. This rule is in place to prevent excessively stubborn disciples from challenging others incessantly, causing them to be preoccupied with responding to challenges and unable to cultivate.

The reason Cao Zhen specified these points rules was, in fact, to strengthen the Hundred Peaks Sect. However, he hadn't anticipated that the same day he announced the existence of the points ranking, two disciples from Hundred Peaks Sect came forth to confess on their own.

These two, whose Era Prosperity Power fluctuated between bright and dim, admitted their identities.

Like Lie Yan, they had been part of the Qi Tian Dynasty since childhood and were already affiliated with the dynasty before they were sent to the Hundred Peaks Sect.

But after arriving at the Hundred Peaks Sect, they were truly moved by the people around them and developed deep feelings for the sect.

The earlier incident involving Lie Yan had greatly affected both of them.

Now, seeing the Sect Leader of Hundred Peaks Sect selflessly offer even the Five-thunder Righteous Method, they looked at themselves, and ultimately, they stepped forward to admit their identities.

Cao Zhen noticed that as they fully confessed their identities, the Era Prosperity Power representing them in the Prosperous Age Picture Record settled down, no longer fluctuating intensely but maintaining a constant strength.

Considering both had come forward voluntarily, and they hadn't done anything to betray the Hundred Peaks Sect, Cao Zhen meted out punishment similar to Lie Yan's.

They were to reflect on themselves while sweeping Spirit Mountain for one year, and were banned from leaving the Hundred Peaks Sect for the next ten years starting today.

Their punishment was only a tenth of Lie Yan's.

After all, Lie Yan had once leaked information about the Hundred Peaks Sect to the Fourth Prince, while these two hadn't disclosed any information—that was enough.

After the two of them confessed, another disciple Cao Zhen had noticed before, with dim and nearly imperceptible Era Prosperity Power, hadn't come forth to confess.

Cao Zhen didn't take direct action but instead ordered someone to always follow this person and observe their profound suffering.

The fluctuating Era Prosperity Power of the two earlier was sometimes dim and sometimes bright, but they always had it, indicating they always held Hundred Peaks Sect in their hearts.

However, the other person's Era Prosperity Power often disappeared completely, clearly indicating their allegiance was more to their own power than to Hundred Peaks Sect.

For the moment, it was still unknown which force this person belonged to.

Cao Zhen didn't expose them but chose to embark on another lecture tour.

In his notifications, he also made it clear that various sub-rankings would be established on the Dragon-Tiger Ranking, such as Alchemy Ranking, Sword Dao Ranking, Painting Way Ranking, etc. Each ranking would be tallied every six months, and the top ten from each would receive a certain amount of points.

Before entering the ruins, Cao Zhen did alchemy while teaching the disciples of Hundred Peaks Sect, and it was quite effective—many disciples had moments of Enlightenment.

Now, he once again began to teach, and with so many disciples in Hundred Peaks Sect listening to his lectures, who knew which disciple might have an Enlightenment, which would be tremendously beneficial for their cultivation.

Cao Zhen lectured continuously for a month before ending the teaching tour.

He didn't wait for the turncoat disciple to come forward and confess, but instead, another person came to him.

Little Duo Duo took the initiative to find him.

Speaking of which, since his return to Four Treasures Peak, he hadn't paid much attention to Little Duo Duo and Little Zhu Peng, leaving most of the teaching to Ling Xi and others.

Now that he had been teaching for a month without giving them much guidance, Little Duo Duo finally couldn't hold back any longer and came to him.

"Master, my cultivation progress has slowed down lately. I wonder if you could help me?" Little Duo Duo walked alone into Cao Zhen's Cave Mansion.

Cao Zhen looked up at Little Duo Duo, who had noticeably grown taller during her more than half a year at Hundred Peaks Sect, and suddenly spoke with a smile, "Little Duo Duo, your progress hasn't only just slowed down. You've been at the Grand Completion of Immortal Bridge for a while now, but since you came to Four Treasures Peak, your cultivation base has remained the same."

In an instant, Little Duo Duo froze completely. She, she had been seen through.

Chapter 919:

After arriving at the Hundred Peaks Sect, Duo Duo learned many things she had previously been unaware of, and even from her senior sisters and brothers, she came to know how they became stronger.

They were all called into the master's room at night and then took the pills prepared by the master, resulting in their breakthroughs.

She had thought that the master would also prepare pills for her and Zhu Peng to help them break through, but as she waited, the master started lecturing all the disciples of the Hundred Peaks Sect, still not seeking her out.

Unable to bear it any longer, she found the master, but his first words utterly stunned her.

The master had actually seen through her, knowing she was a being of Grand Completion of the Immortal Bridge.

She had cultivated the Extinguish Aura and Trace technique, and even ordinary Earth Immortals couldn't see through her, let alone someone in the Golden Core Stage.

How could the master possibly see through her?

A reincarnated Great Ability? She had encountered reincarnated Great Abilities before, and even they couldn't discern her true cultivation base during the Golden Core Stage.

Duo Duo was completely dumbfounded.

After a long pause, she finally voiced the doubt in her heart, "Master, how did you see through that your disciple has reached Grand Completion of the Ten Phenomenal Immortal Bridges?"

Cao Zhen had been pretending to be a reincarnated Great Ability for some time now, his acting had become extremely plentiful. His face revealed an unfathomable expression as he slowly started to speak, "Your cultivation technique is indeed quite good. However, you haven't perfected it yet. You might be able to deceive others, but you can't deceive me."

As he spoke, he paused for a moment and then looked at Duo Duo, "You have the Ancient Immortal Body, and reaching the Grand Completion of the Ten Phenomenal Immortal Bridges requires a substantial amount of resources. Your family is quite remarkable.

I'll get to the point, which dynasty and family do you come from?"

At Four Treasures Peak, Duo Duo could contribute the power of an era's prosperity, which meant that she likely didn't come from another Immortal Sect. Therefore, she must have come from a certain family, and it had to be a significant one.

For others to help an Ancient Immortal Body reach the Grand Completion of the Ten Phenomenal Immortal Bridges, the required materials would be far from ordinary. Most families couldn't afford it.

Upon hearing this, Duo Duo fell silent for a while, looking at Cao Zhen with hesitation. After a long pause, she finally started to speak slowly, "Master, I do not come from the Guardian Immortal Imperial Dynasty, nor from any nearby dynasty. To be more precise, I am not from the Eastern Wasteland."

Eastern Wasteland...

Cao Zhen hadn't heard this term in a long time, but he was aware that the territory including the Guardian Immortal Imperial Dynasty, the Great Chu Dynasty, the Great Jin Dynasty, the Great Lai Dynasty, and even the South Ocean was referred to as the Eastern Wasteland.

And Cao Zhen had never heard of anything outside of the Eastern Wasteland, nor had he seen anyone from beyond enter it.

It seemed as though the entire Eastern Wasteland was isolated from the rest of the world.

Now, his disciple was telling him that she was not from the Eastern Wasteland.

As she spoke, Duo Duo stretched out a hand, pointing to herself as she introduced, "I come from the Central Continent. As for my family, it no longer exists, and now I am the only one left."

As Duo Duo reached this point, a hint of sadness inevitably appeared on her face. Ever since she arrived at the Hundred Peaks Sect, she was always brimming with smiles, seeming like a lively and optimistic child; but who would have imagined that her family was gone.

Duo Duo continued, looking towards her master, "In fact, it was due to a major disaster that befell my family, that I was escorted by our family's guards as we fled eastward. Only after a fierce battle that cost them their lives, was I able to enter the Eastern Wasteland."

"Hmm? What about those who were pursuing you? Do they know you have entered the Eastern Wasteland? Is it possible they also followed you here, entering our Guardian Immortal Imperial Dynasty?" Cao Zhen truly hadn't expected Little Duo Duo to have such a protagonist-like background.

Hearing Cao Zhen's question, a look of surprise appeared on Little Duo Duo's face, and then, as if realizing something, she nodded in understanding, "That's right, master. As a reincarnated Great Ability, you may not be familiar with our epoch.

Those who were pursuing me cannot enter the Eastern Wasteland.

Because, under normal circumstances, people from outside the Eastern Wasteland cannot enter it. Only during the once every ten thousand years when the tide of the Endless Immortal Sea rises, can they enter the Eastern Wasteland. Moreover, only those below the Immortality Regainment Realm can enter; those above cannot.

And when I entered the Eastern Wasteland, the Minor Era of Inversion of Heaven and Earth was about to begin. After entering the Eastern Wasteland, those in the Earth Immortal Realm would inevitably fall into a deep slumber.

At most, only those in the Golden Core Stage could rush in. But since I came directly to the Guardian Immortal Dynasty and have been hiding, even if they did follow me here, it's unlikely they would discover my presence."

Listening to Little Duo Duo's explanation, Cao Zhen finally understood why they so rarely saw people from outside the Eastern Wasteland. It turned out that it was only every ten thousand years that people from other places could enter the Eastern Wasteland.

From this perspective, the Eastern Wasteland seemed more like a prison.

And there was something else...

Cao Zhen suddenly thought of the Qi Tian Dynasty. The people from the Qi Tian Dynasty sent their members into this dynasty every ten thousand years. Could it be possible that the Qi Tian Dynasty actually came from the Central Continent?

As Cao Zhen came to this realization, he asked, "So, Duo Duo, have you ever heard of the name 'Praying Heaven' back in the Central Continent?"

Chapter 920:

"No, Duo Duo doesn't know about that so-called Heaven Prayer Sect." Duo Duo shook her head as she looked at Cao Zhen and explained, "The Central Continent is too vast. The number of sects Duo Duo has heard of is limited."

Cao Zhen nodded slightly, now he had almost figured out Little Duo Duo's thoughts.

Originally, when Little Duo Duo had fled and entered the Eastern Wasteland, she arrived at the Guardian Immortal Imperial Dynasty. After that, things became simple.

Inside the Guardian Immortal Imperial Dynasty, she must have heard of him, and upon hearing, learned that several of his disciples also had Ancient Immortal Bodies, each one terrifyingly strong, so naturally, Little Duo Duo also wanted to join the Hundred Peaks Sect.

As a result, after she joined the Hundred Peaks Sect and came to Four Treasures Peak to become a disciple, he had not been involved with them at all, so Little Duo Duo couldn't bear it and directly sought him out.

"Duo Duo, I know what's on your mind. You and Zhu Peng are both my disciples, I naturally won't neglect you, just when it's time to help you, I need to prepare pills.

You should also know, refining pills is not something that can be accomplished just because you want it to be; it requires time."

Cao Zhen casually said this, then continued to ask, "You mentioned that every ten thousand years, people from the Central Continent can enter our Eastern Wasteland, but what about us from the Eastern Wasteland? How can we leave the Eastern Wasteland and enter the Central Continent?"

"Master, after we leave the Eastern Wasteland, what we enter is not the State of Guizhou, but rather the Eastern Province. There is a sea between our Eastern Wasteland and the Eastern Province, filled with numerous dangers.

Similarly, if we want to enter the Eastern Province, we also need to wait for every ten thousand years, for that particular era."

When Cao Zhen heard Duo Duo's words, he suddenly remembered the Qi Tian Dynasty. When did people from the Qi Tian Dynasty enter the Eastern Wasteland?

Or is it that the Fourth Prince and the Third Prince were originally from the Eastern Wasteland and not from the Eastern Province?

Duo Duo, noticing the look on her master's face, seemed to know what he was thinking, and quickly said, "Master, this time it's different. Once every million years, our Eastern Wasteland, including the

Eastern Barbarians, South Wasteland, and other remote regions separated from the Central Five Provinces, after a hundred years, the ocean between us and the Central Five Provinces will change.

I don't really know what the changes will be, but these places will connect with the Central Five Provinces. And now, there isn't much time left until the million years are up. Probably around fifty years or so."

Cao Zhen was greatly startled and asked in a low voice, "Connected together? Does that mean we'll be bordering the Central Five Provinces? What is the situation in the Central Five Provinces like? How do the Central Five Provinces perceive these regions of ours?"

"The Central Five Provinces don't have much of a reaction to us; at least the larger sects don't. They look down on us, but the smaller sects might take an interest. They are small sects in the Central Five Provinces, but if they come here, they become powerful sects."

"So, it's very likely they will come to plunder us?"

Little Duo Duo nodded, "That should be the case. After all, the Central Five Provinces are much more chaotic than the Guardian Immortal Imperial Dynasty. There is no unified dynasty in the Central Five Provinces.

Moreover, within the Central Five Provinces, there are righteous Immortal Sects like our Hundred Peaks Sect, as well as Demonic Cultivators and even many Great Demons."

Cao Zhen immediately felt a surge of pressure.

In about another fifty years, they of the Eastern Wasteland would be connected to the Central Five Provinces.

At that time, although it would be the Reversal Mini Epoch Period and the Hundred Peaks Sect wouldn't fear those sects that might harbor ill will towards it because of people like him, what about after fifty more years?

After all the Earth Immortal Realm and even higher realm cultivators awaken, how would the Hundred Peaks Sect defend against those sects that might target them?

"Duo Duo, do you know the strength of those smaller sects? Do they have Earth Immortal Realm? Do they have Immortality Regainment Realm?"

"There should be those in the Immortality Regainment Realm," Duo Duo thought but couldn't be completely sure, and said helplessly, "Master, although I am from the Central Continent, I am still a child, my knowledge is limited. However, I haven't heard of Immortality Regainment Realm experts in the Guardian Immortal Dynasty, but in the Central Five Provinces, they are not rare."

"Alright, I understand," Cao Zhen nodded slightly, yet his heart grew heavier.

A day later, his mood became even heavier.

Ever since he had eradicated the stronghold of the Fourth Prince and returned to the Hundred Peaks Sect, he hadn't stopped monitoring the Eclipse Demon. But during this period, the Eclipse Demon hadn't made any significant moves.

However, a day later, he discovered that the Eclipse Demon had reached the South Ocean, and moreover, the Eclipse Demon had directly sought out various Immortal Sects of the South Ocean.

His purpose was singular, to persuade the major Immortal Sects of the South Ocean to attack the Guardian Immortal Imperial Dynasty together.

His reason for persuading the major Immortal Sects was straightforward—if they did not seize the opportunity to attack the Guardian Immortal Imperial Dynasty now, once the Grand Preceptor awakened, he would definitely take action against those forces that had been hostile to the Guardian Immortal Imperial Dynasty during the Minor Era of Inversion of Heaven and Earth.

Therefore, the Immortal Sects of the surrounding Dynasties, if they did not wish to continue being oppressed by the Grand Preceptor in the future or live forever in his shadow, must unite to wipe out the Guardian Immortal Imperial Dynasty in one fell swoop.

The Immortal Sects of the major Dynasties also knew that they must destroy the Guardian Immortal Imperial Dynasty and dig up the Grand Preceptor's living grave and obliterate him directly.
