

## **Myth Beyond 451**

### **Chapter 451 - Flame Of Vengeance (1)**

"Ah'Kai!? Answer me, Ah'Kai!" Yun Lintian shouted hysterically, but no matter how he tried, there was no response from the other side.

Yun Lintian's heart immediately turned cold as his hand trembled uncontrollably. The silence from Xiao Kai was a horrible truth that pierced his soul... Xiao Kai had gone. He was no longer in this world....

Xia Yao was no different from Yun Lintian. She stared blankly at Yun Lintian with tearful eyes. She couldn't believe Xiao Kai was gone.

At this moment, Reaper's voice resounded with faint laughter. "Hehe. How is it? The feeling of losing someone close to you is not bad, right? Believe me, there is more to come. Please prepare to receive it well. Hahaha!"

Hearing this, Yun Lintian's eyes turned bloodshot. He clenched the gun in his hand tightly and prepared to move.

Xia Yao quickly grabbed his arm and said. "Don't be impulsive."

Yun Lintian gritted his teeth as he said. "I will make them pay!"

"I know." Xia Yao said. "Before that, we have to contact Ah'Hao and Ah'Feng first."

Yun Lintian took a few deep breaths to suppress the flame of fury in his heart. He forcefully nodded and tried to contact Lei Hao and Tu Feng.

"Boss." A moment later, Lei Hao and Tu Feng's voices rang out. The sadness in their voices was evident. They had also listened to the conversation between Yun Lintian and Xiao Kai earlier.

"Where are you now?" Yun Lintian asked.

"We have followed behind you. Right now, we are standing in the sewer before the hole leading down to the lab." Lei Hao answered.

Yun Lintian thought for a moment and said. "Do you want to avenge Ah'Kai?"

"Definitely!" Lei Hao and Tu Feng replied in unison.

"Then get down here. I'll wait for you outside the lab." Yun Lintian said and beckoned Xia Yao to retreat toward the lab.

In the control room, a sinister smile emerged on Reaper's face. He looked at Lei Hao and Tu Feng climbing down from the sewer and said. "Close the room and release Zero one."

On the side, Donkey hurriedly said. "You can't do this, Mister Reaper. Zero one hasn't yet...."

"Shut up!" Reaper spat coldly, causing Donkey to shut his mouth tight.

It wasn't because Donkey cared about Zero one's wellbeing, but rather he didn't want to damage his proud product further. One had to know he had spent a lot of time and effort to successfully complete Zero one. How could he be willing to see it get destroyed simply like that?

When Yun Lintian and Xia Yao arrived before the lab, the iron door suddenly shut tightly, separating them and Lei Hao's group.

Yun Lintian looked through the glass and discovered Zero one had slowly walked into the room.

Lei Hao and Tu Feng landed safely on the floor and saw Yun Lintian knocking on the glass. They heaved a sigh of relief to see their boss safe and sound.

Just as they were about to walk toward Yun Lintian, they saw the latter shouting and pointing at something behind them.

Lei Hao was the first to react. He quickly rolled on the ground, turned around, and opened fire at the figure behind him.

Bang! Bang! Bang!

Zero one cleverly avoided all the bullets with his insane speed and rushed toward Lei Hao. However, before he could reach the target, a giant wall suddenly appeared between him and Lei Hao. This massive wall was no other than Tu Feng.

"Hah!" Tu Feng let out a battle cry and sent a heavy punch at Zero one. His punch's speed was so swift and precise that Zero could not dodge it timely.

Bang!

Zero one was instantly sent away, but he managed to stabilize himself on the ground. He turned his attention to Tu Feng and scanned the latter from head to toe. Compared to Yun Lintian, this Tu Feng seemed to be faster and stronger despite having a large build.

Tu Feng stood tall in front of Lei Hao and made a taunting gesture to Zero one. "Come."

Lei Hao was relieved and quickly raised his gun, shooting at Zero one. This time, he seemed to adapt to Zero one's speed and predicted the latter's movement accurately. Although the shots didn't hit Zero one's vital point, they could shave off some of his flesh.

Seeing Zero one was suppressed by Lei Hao's bullets formation, Tu Feng seized this chance to move forward and directly confronted Zero one with a set of punches and kicks.

Zero one had just gotten out of Lei Hao's rain of bullets. When he faced Tu Feng's series of attacks, he couldn't even put up any resistance and became a punching bag.

One after another, Tu Feng's heavy punches and kicks had broken Zero one's ribs, causing several wounds all over his body. A moment later, Zero was kicked into the ground with a bang and could not get up again.

Lei Hao didn't let this opportunity go. He swiftly shot Zero one on the head, ending his life immediately.

On the outside of the room, Yun Lintian and Xia Yao weren't surprised about this. In terms of close combat, no one could be Tu Feng's opponent. With Zero one's weak body control, it would be a miracle if he could win against Tu Feng.

Lei Hao walked to Zero one's body and said. "Thankfully, his body control is not good." He could easily see a flaw in Zero one's movement during the fight.

"I told you, he is not ready yet!" Donkey's enrage voice reverberated throughout the control room. He glared at Reaper and said. "You better tell the headquarter truthfully about this. Don't think that you can make me a scapegoat."

Facing Donkey's cursing, Reaper did not say anything. He glanced at the operator and nodded his head.

The operator immediately tapped something on the control panel before him, and a timer appeared on the screen. It was set as one minute and started to count down.

At this moment, Lei Hao and Tu Feng were looking around the room, trying to find a way out. Suddenly, they heard an electronic sound. "A self-destruct function has been activated. You have one minute to leave this place.. Please leave the room immediately."

Chapter 452 - Flame Of Vengeance (2)

The expressions of Yun Lintian, Xiao Yao, Lei Hao, and Tu Feng changed drastically upon hearing this.

"Step back!" Yun Lintian told Xia Yao and aimed his gun at a control panel on the iron door.

Bang!

The control panel was immediately broken, but the iron door didn't have any reaction at all. It was still tightly shut.

Yun Lintian was so desperate. He continued to shoot at the broken control panel until Xia Yao stopped him.

"Despair? Hehe." Reaper's voice resounded.

Hearing this, Yun Lintian stared at the amplifier on the ceiling coldly. He couldn't wait to rush to Reaper and butchered him right away.

Bang!

Xia Yao destroyed the amplifier and said. "We still have time."

Her words were like a soothing wind, making Yun Lintian regain his composure. He turned to look at Lei Hao and Tu Feng with a thoughtful expression. His brain spun rapidly, trying to find a way to break this situation.

Lei Hao was so exhausted, panting heavily as he looked at the unscratched glass in front of him. No matter how he and Tu Feng tried to break it, it was useless in the end.

The entrance they used to come in had also been blocked, leaving no way for him and Tu Feng to leave this place... Was he going to die like this?

The timer continued to count down. Every tick indicated how much time Lei Hao and Tu Feng left in this world.

Lei Hao drew closer to the glass and looked at Yun Lintian. "Boss, it seems we are not going to make it this time. You should bring Sister Rain out of here."

Yun Lintian read Lei Hao's lips and immediately punched the glass while yelling. "Idiot! How can we leave you two behind?" As he spoke, his gaze desperately darted around the place, searching for a hidden mechanism. "There must be something."

Seeing this, Lei Hao felt warm in his heart. He raised his hand to stop Tu Feng, who was madly smashing the glass and said. "Ah'Feng, do you regret it?"

Tu Feng paused his movement and tilted his head to look at Lei Hao in confusion. "Regret? What is that?"

Lei Hao stared at Tu Feng for a moment and let out a sigh. "Forget it."

Sweats gradually flew down along Yun Lintian's cheeks when he saw there were twenty seconds left. "There must be something. There must be something." He muttered like a crazy man, but he was totally helpless to do anything in this situation.

In the control room, Reaper looked at this scene with great satisfaction. He didn't expect his simple trap could force Yun Lintian into this situation. Thanks to the informer who sent a piece of news about Yun Lintian's operation to him. Otherwise, he wouldn't be able to catch Yun Lintian's team so easily like this.

Click!

Just as everyone was in despair, the timer suddenly stopped, and the iron door had abruptly opened.

Yun Lintian, Xia Yao, Lei Hao, and Tu Feng glanced at each other in confusion before Yun Lintian hurriedly urged them to get out of the room.

Seeing this scene, Reaper frowned and asked the operator coldly. "What's going on?"

The operator was drenched in a cold sweat as he replied. "Sir... There's a virus invading our system. We are not unable to control it."

"Virus?" Xiao Kai's figure appeared in Reaper's mind. He couldn't believe Xiao Kai managed to do this before his death.

"What a good Skyeyes!" Reaper took a deep breath and asked. "Can you take it back?"

The operator was frantically tapping on the keyboard while replying. "Two minutes, Sir. Give me two minutes."

Reaper nodded his head. "Very well. Notify the third team to take action."

The operator accepted the task readily and contacted his people.

"It should be Ah'Kai who did this." Lei Hao said tremblingly with red eyes after walking out of the lab.

Yun Lintian closed his eyes and clenched his fists painfully. Until now, he still couldn't believe Xiao Kai had already left him.

Xia Yao touched Yun Lintian's arm and said softly. "Don't let Ah'Kai's effort down. We have to move now."

Yun Lintian opened his eyes and nodded his head forcefully. "Let's get that bastard."

Everyone glanced at each other and immediately set off toward the control room. With Yun Lintian on the front and Tu Feng on the back, everyone swiftly drew closer to the control room within two minutes.

However, before they could reach the destination, more than twenty people appeared at the end of the corridor with fully equipped arms.

The battle instantly erupted. Both sides fiercely exchanged bullets, and it was Yun Lintian's group that came out on top in the end. Of course, they didn't win the battle without any injury. Tu Feng was hit on the waist while the bullet pierced through Lei Hao's left shoulder. As for Yun Lintian and Xiao Yao, they did not suffer any significant injury except for some minor wounds.

Reaper stood calmly in the control room as though he had expected this result a long time ago. He knew how terrifying the Cloud Shadow team was more than anyone. How could a mere twenty odds of well-trained soldiers stop them?

What Reaper needed was time. As long as he regained the factory system's control, he would eventually win this.

"How is it?" Reaper glanced at the busied operator before him.

The operator was sweating profusely as he replied. "I-I can't break it. This virus is too complicated. I have never seen anything like this before."

Reaper's face turned icy. "Useless!"

On the side, Donkey was anxious more than anybody in this place. He was an ordinary human without fighting skills, and now, he had already lost his precious creation, Zero one. How could he be at ease waiting for Yun Lintian's group to come?

"M-mister Reaper. Can you help me leave this place?" Donkey asked pleadingly. The previous uncompromising attitude had now long gone.

Reaper glanced at Donkey and sneered. "I can't even help myself now. Do you think I can help you leave this place safely?"

Donkey turned pale instantly. He always thought Reaper had a trump card in his hand. It turned out he was a paper tiger?

Chapter 453 - Flame Of Vengeance (3)

Reaper's eyes flashed with cold light as he said. "Don't worry. As long as that person comes, we will have a chance to survive."

Donkey stared at Reaper in confusion... That person? Who was that?

\*\*\*

At a private airport outside the city, Lynn stepped out of her private jet and got into a prepared car.

As soon as the car set off, Lynn's secretary quickly reported. "Master, I just received the news. Dragon Soul team arrived in the city two hours ago."

Lynn leaned against the seat and asked with a frown between her brows. "Dragon Soul team? Who's the leader?"

The secretary replied. "It said to be Zhu Ding. The heir of the Beijing's Zhu family." She hesitated briefly and continued. "He's Yang Ningchang's suitor. He seems to have a conflict with Mister Yun over this matter."

"Zhu Ding? That bastard is here?" Lynn's expression changed drastically. The dots in her head had automatically connected together. Without a doubt, this Zhu Ding must leak Yun Lintian's whereabouts to the Hell Church!

Thinking of this, Lynn quickly shouted at the driver. "Hurry up! Notify every team to rush to the Hell Church's hideout now!"

The driver did not dare to be neglected and quickly stepped on the pedal while contacting other teams.

"Zhu Ding! I hope that nothing happens to him. Otherwise, I will make your life worse than death even if I have to sacrifice everything!" Lynn's body was shrouded with boundless killing intent as she spoke.

\*\*\*

Somewhere nearby the factory, a man clad in a military suit looking at Xiao Kai's lifeless body through a binocular. A satisfied grin was hung on his lips as he said. "Heh, I didn't expect the so-called Skyeeyes to die easily like this. I've obviously overestimated him."

This person was no other than Zhu Ding, the deputy leader of the Dragon Soul team. He came here to deal with the Hell Church and took over Project Eve. Of course, this mission wasn't the only mission he came for. He had another hidden agenda to kill Yun Lintian and everyone around him.

Behind him was a middle-aged soldier with a rifle in his hand. Currently, there was a body lying beneath his feet. If Xiao Kai was still alive, he would recognize this person right away. It was no other than the sniper that tried to kill him.

The middle-aged soldier looked in Xiao Kai's direction with a complicated feeling. He had discovered the sniper a long time ago, but he didn't take him down because of Zhu Ding's order. If the sniper was taken down early, Xiao Kai wouldn't be caught off-guard by that little kid. It could be said Xiao Kai's death was also his responsibility.

As a member of the Dragon Soul team, he was familiar with the Cloud Shadow team. Skyeeyes, Xiao Kai, was the most talented hacker and sniper he had ever seen so far. Not to mention he was a fellow countryman. Killing him was unacceptable... Sadly, he didn't have the gut to oppose Zhu Ding in the end.

At this moment, a young soldier in the group suddenly received a call. He hurriedly strode forward and handed an encrypted satellite phone to Zhu Ding.

When Zhu Ding picked up, Reaper's voice immediately rang out from the other side. "Leader Zhu, you better come in now if you still want Project Eve."

Zhu Ding frowned slightly and responded. "I have already taken their cover out, yet you can't deal with them? It seems I've overestimated you, Reaper."

Reaper did not get angry. Instead, he replied with a chuckle. "It can't be helped. I don't have much time to prepare for his arrival... There's no point in talking about this. You better move now. Otherwise... Hehe. I believe your superior would love to see something in my hand."

Zhu Ding's face turned cold immediately. "Are you threatening me?"

Reaper replied in a relaxed tone. "You can understand like that."

Zhu Ding took a deep breath and said. "Stall their time for a while. I'll move now."

Following that, he hung up and threw the phone on the ground furiously. His eyes were flashed with killing intent. "Dare to threaten me? Let's see how I deal with you later."

Before coming here, Zhu Ding had secretly contacted the Hell Church and proposed a deal to help them get rid of Yun Lintian's group in exchange for Project Eve's technology. Not only could he get rid of his love rival, Yun Lintian, but he also earned merit by taking Project Eve back. No matter how one looked at it, this deal was a win for him.

Was Reaper stupid enough to believe in Zhu Ding's words? Of course not. He had long seen the grudge between Zhu Ding and Yun Lintian, and he only took advantage of this.

Zhu Ding turned to the young soldier and said. "We will enter the factory in two minutes."

"Yes, Sir!" The young soldier saluted and went off.

Zhu Ding looked at the factory for a while and beckoned the middle-aged soldier to come forward. He whispered something to the latter's ears, and the latter's eyes were immediately widened open in shock.

"Can you do it? Tell me if you can't. I don't mind removing you from the team later when we go back." Zhu Ding said. He patted the middle-aged soldier's shoulder and said in a low voice. "Your daughter is about to enter a primary school, right? Don't let her down, understand?"

The middle-aged soldier visibly trembled. His complexion was pale as a white sheet. He opened his mouth several times before forcefully saying. "I understand."

A smile bloomed on Zhu Ding's face upon hearing this. "Very good! Don't worry. If you complete the task well, I will personally arrange the top primary school for your daughter."

The middle-aged soldier took a deep breath and nodded his head firmly. The hesitation in his eyes was gradually disappearing and replaced with a firm determination.

Zhu Ding curled his lips and turned to look at the factory. "Yun Lintian ah, Yun Lintian.. Don't blame me for being ruthless. Who let Ningchang look at you?"

Chapter 454 - Flame Of Vengeance (4)

Reaper put the phone away and glanced at Donkey, who was sweating nervously. "If you want to leave, then leave now."

Donkey hesitated for a moment. He didn't know which choice was better. Staying here and waiting for Reaper's helper to come or leaving this place by himself. Judging by Reaper's conversation earlier, he believed the helper should be someone from the opposite camp. It was difficult to believe they would truly help him.

Donkey gritted his teeth and hurriedly left the room under Reaper's contempt gaze. He hastily ran along the corridor, heading toward his own lab to get his research data.

At this moment, Yun Lintian's group gradually arrived at the intersection. Going in the right direction would lead them to the control room, while the left path was toward the central lab.

After checking there was no enemy around here, Yun Lintian turned around and said. "Ah'Hao and Yaoyao, you two go to the lab. Ah'Feng and I will find Reaper."

Lei Hao and Tu Feng had no objection to this arrangement. However, Xia Yao interjected. "No. I'll go with you."

Yun Lintian hesitated briefly and let out a soft sigh. "Alright. Let's go."

Lei Hao and Tu Feng glanced at each other and quickly headed to the central lab.

Yun Lintian stared at Xia Yao for a while and said nothing in the end. He wanted her to leave this place, but it seemed impossible now.

The two of them cautiously moved along the corridor. Whenever the enemy showed up, they would take turns to take them down effortlessly. Reaper's men could not hinder them at all.

Yun Lintian and Xia Yao walked for a few minutes until they arrived at a corner ten meters away from the control room.

Before Yun Lintian could take a look at the path ahead of him, a rounded object suddenly slid along the floor and arrived before him.

Yun Lintian's complexion abruptly changed. In that instant, he turned around, hugging Xia Yao, and retreated with all his might.

Boom!

The rounded object was immediately exploded, turning everything within ten meters of it into pieces.

The explosion swept Yun Lintian and Xia Yao away, sending them landed heavily on the floor.

Yun Lintian quickly looked at Xia Yao and asked concernedly. "Are you alright?"

Xia Yao replied with a smile. "I'm fine." She only suffered from a scratched wound and nothing more.

Yun Lintian heaved a sigh of relief and pulled Xia Yao up, preparing to move forward once again.

Suddenly, Reaper's voice rang out from a distance. "Long time no see, Cloud and Rain." His figure slowly emerged behind the smoke as he spoke.

Yun Lintian stared at the familiar figure coldly, unbothered to make a response. The gun in his hand quickly moved, and the bullet immediately rushed to Reaper at full speed.

It was as though Reaper had predicted this beforehand. He instinctively avoided it before Yun Lintian could pull the trigger.

Bang! Bang!

Xia Yao seized this chance when Reaper dodged Yun Lintian's attack to shoot at him. This time, there was no way for Reaper to avoid it.

Just as the bullets were about to hit Reaper, a blue translucent shield suddenly appeared before him and blocked all the shots effortlessly.

Seeing this scene, Yun Lintian and Xia Yao frowned at the same time... What the hell was that?

Reaper landed on the floor and glanced at the blue shield in front of him before looking at Yun Lintian and Xia Yao with a smile. "Surprised? This is our new technology. We called it Nano Shield. An ordinary bullet could never penetrate it."

"Really?" Yun Lintian responded by consecutively firing at Reaper. However, the blue shield could still block all the bullets with no problem. This made Yun Lintian frown deeper. Looked like dealing with the Hell Church would be more difficult in the future if they were all equipped with this thing.

"No need to waste your bullet. As I said, an ordinary bullet could never penetrate it." Reaper appeared extremely relaxed with his hands behind his back.

On the side, Xia Yao's eyes flashed with a cold glint. She changed into a new magazine and shot at Reaper. The new bullet she used was called an explosive bullet. It had the ability to explode upon touching the target. She didn't believe it couldn't destroy the Nano Shield.

Boom!

A mini explosion occurred on the blue shield, creating a small crack. Seeing this, Reaper started to frown, and he quickly raised his gun, immediately firing at Yun Lintian and Xia Yao.

"Cover me!" Yun Lintian shouted while avoiding the incoming bullets. He leaped forward and rushed to Reaper with Xia Yao's covering him.

As he was running, Yun Lintian skillfully changed into a new magazine containing explosive bullets before shooting at Reaper non-stop.

Reaper was having a hard time blocking the bullet while trying to make a counterattack. The crack on his Nano Shield began to spread out, becoming a big spiderweb-like crack. Undoubtedly, it would break if the situation continues like this.

Reaper couldn't help cursing those scientists that developed this Nano Shield. Didn't they say it would never break? And where was the self-recover ability?

That was right. The Nano Shield that Reaper was currently using was only a prototype product. It still had many flaws that needed to fix it. Since Reaper was the first person who used it on the actual battlefield, this unexpected event was inevitable.

Reaper did not dare to stay here further as he saw Yun Lintian draw closer to him. Although it was slightly embarrassing to retreat like this after appearing so proudly, he had no choice but to escape in this situation.

Yun Lintian could see Reaper's intention at a glance. He instantly accelerated his speed and charged at Reaper before he could take aim at him.

Bang!

Yun Lintian fiercely struck the Nano Shield with his shoulder, forcing Reaper to fall backward slightly.. He swiftly took this chance to draw closer to Reaper and sent a kick toward the latter's arm.

Chapter 455 - Flame Of Vengeance (5)

When it came to close combat, Reaper wasn't ordinary either. He reacted timely by bringing the almost broken Nano Shield forward and successfully blocked Yun Lintian's powerful kick.

At the same time, Reaper fired at Xia Yao in the distance, trying to interrupt her consecutive attack before retreating along with the impact from Yun Lintian's kick.

However, Yun Lintian seemed to turn into a god of speed at this moment. He didn't want to let Reaper, the culprit that took Xiao Kai's life, slip away. His entire body turned into a shadowy figure and arrived before Reaper in a flash.

Reaper's face changed drastically. He didn't understand how Yun Lintian did it. Was he really a human?

Without thinking further, Reaper threw the broken Nano Shield at Yun Lintian and used this chance to distance himself from him.

Yun Lintian slapped the Nano Shield away and caught up with Reaper, who took a combat knife out.

Reaper's eyes flashed with killing intent as he skillfully slashed at Yun Lintian's shoulder.

Puff!

The knife easily sunk into Yun Lintian's shoulder, leaving a deep wound on it. However, this didn't make Reaper happy in the slightest. His eyes were widened open in shock because he could see an unshakable determination in Yun Lintian's eyes. Yun Lintian had wholly disregarded his own life in order to catch him.

Reaper hurriedly pulled the knife back and was about to stab Yun Lintian. He suddenly found out he could not move his arm as it was tightly held by Yun Lintian.

"This is for Ah'Kai!" Yun Lintian yelled angrily and ruthlessly punched Reaper's face.

He didn't let Reaper slip out of his grasp by pulling him back and punching at his face again.

Bang!

Reaper's nose was immediately deformed. Blood spurted out from his nostrils, making him look so miserable.

Yun Lintian did not stop at that. He continued to punch at Reaper's face with no intention of stopping. No matter how Reaper tried to block it, it was useless in the end.

"Argh!" Reaper screamed painfully. His mind was in a mess, trying to get out of this predicament, but Yun Lintian didn't give him a chance at all.

Yun Lintian's eyes were bloodshot. Every punch of his seemed to fill with incomparable hatred. The more he thought of Xiao Kai, the fiercer his fist became. He didn't even notice that there was a golden glow on the silver necklace around his neck at this moment.

Xia Yao stood silently, watching Yun Lintian venting his anger and grief. She understood his feeling more than anyone else. Yun Lintian might look like he was strong on the outside, but in fact, he carried a lot of burdens in his heart.

As someone who grew up in a single-parent family, Yun Lintian had always lacked a family's love. Even though the relationship between him and his father was good, it could not fill the gap of a motherly love that he longed for. He could only silently bury it inside.

Later, when he started the Cloud Shadow team, Yun Lintian began to have a sense of a family's love. He believed this was his true family. He would always take everything by himself, blocking the rain and wind for everyone on the team. It could be seen how much he cared for them. And now Xiao Kai was no longer here. It wasn't difficult to guess how much pain he felt in his heart.

Reaper gradually became weaker as time passed. He struggled hard to get rid of Yun Lintian, but all of his efforts were in vain.

Yun Lintian panted heavily. He looked extremely exhausted, but his fist didn't seem to stop at any time soon.

Xia Yao couldn't bear to see Yun Lintian in this frenzied state further. She stepped forward and held his arm as she said softly. "It's okay now."

Yun Lintian's arm shook slightly and did not move further. He stared at the deformed Reaper's face and said coldly. "I won't allow you to die. Do you hear me?"

"Cough!... Haha..." Reaper coughed up fresh blood and gave a mocking smile at Yun Lintian. "I have underestimated you again... But it's fine... Hehe... Why don't you contact your little brothers now?"

Yun Lintian's complexion changed drastically. He believed Reaper wasn't trying to mess with his mind at this moment.

Without thinking further, Yun Lintian quickly contacted Lei Hao and Tu Feng. "Ah'Hao, Ah'Feng. Do you hear me?" Sadly, there was no response coming from the other side.

Yun Lintian grabbed Reaper's neck and yelled. "What did you do to them?"

Reaper didn't seem to feel pain at all. On the contrary, he was enjoyed seeing Yun Lintian angry. "Do you know what your weakness is aside from caring for your people too much?"

"F\*ck you!" Yun Lintian ruthlessly punched Reaper.

Reaper coughed a few times before continuing with a mocking smile. "Cough!... It's your confidence. You are too confident in your ability... I admit that you do have the ability to go against the sky. But it also allows people to turn this point against you."

"What the f\*ck you want to say!?" Yun Lintian roared madly.

"Haha... Because you are too confident, you don't bother to care about the enemy. You never know how many enemies you have." Reaper said.

Xia Yao seemed to think of something and hurriedly said. "You mean there are others here aside from you?"

Reaper glanced at Xia Yao and said. "What do you think?"

Xia Yao took a deep breath and said to Yun Lintian. "Let's go. We need to find them now."

Yun Lintian immediately sobered up. He glared at Reaper and said coldly. "It's too cheap for you to die too fast." Following that, Yun Lintian grabbed Reaper's knife and stabbed it deep into the latter's thighs and chest.

Reaper's blood immediately gushed out like a fountain, splashing all over Yun Lintian's clothes. His breath began to weaken, and his vision started to blur.

"Enjoy your last moment." Yun Lintian threw Reaper away and turned around, rushing toward Lei Hao and Tu Feng's direction.

As Yun Lintian moved away, Xia Yao glanced at the dying Reaper and swiftly threw a knife to cut his throat, ending his life. She didn't want to leave any potential danger behind.

After confirming Reaper was truly dead, Xia Yao turned around and hurriedly followed Yun Lintian....

Chapter 456 - Flame Of Vengeance (6)

Bang! Bang! Bang!

Amidst intense gunfire, Lei Hao was leaning against the wall while peeking at the corridor path behind him and made a few shots from time to time.

Before this, he and Tu Feng were headed toward the central lab, but they didn't expect an unidentified force to jump out of nowhere and greet them with bullets. These people were far stronger and more disciplined than the Hell Church's men. It could be seen they weren't simply an ordinary mercenary group.

"Who the hell are these people?" Lei Hao cursed angrily while reloading.

Tu Feng, who was leaning against the wall opposite Lei Hao, quickly made a shot and drew himself back before saying. "They are certainly soldiers. Should be a country's special force."

"Special force? Why are they helping the Hell Church?" Lei Hao frowned slightly. He quickly contacted Yun Lintian but found out the connection had been interrupted.

"Damn it!" Lei Hao was frustrated. Especially when he thought of Xiao Kai. If he was still alive, breaking this situation shouldn't be a problem.

Just as Lei Hao was thinking about how to contact Yun Lintian. He suddenly saw three grenades sliding along the floor and arriving between Tu Feng and him.

"Watch out!" Lei Hao shouted and flexibly leaped away from the grenades. Meanwhile, Tu Feng was also the same.

Boom!

The corridor shook violently, sending numerous debris flying in all directions.

Lei Hao groaned in pain and quickly stood up, aiming his gun at the intersection. He believed the enemy would follow suit after using the grenades.

It was as his expectation a few figures fully equipped with professional battle suits emerged from the smoke, pointing the aiming lasers around.

Lei Hao reacted in almost an instant. He pulled the trigger before the enemy could see him.

Bang! Bang! Bang!

Rain of bullets swarmed toward the group of ten men, directly hitting on their bodies, completely breaking their formation.

On the other side, Tu Feng wasn't slow either. He raised the machine gun in his hand and fired at the enemy without reservation.

This wave of attack from Lei Hao and Tu Feng instantly reaped four opponents' lives and forced the remaining people to retreat.

Just like Yun Lintian and Xia Yao, the tacit understanding between Lei Hao and Tu Feng had reached an unprecedented high. They didn't let this chance go and swiftly pursued the enemy. A while later, they managed to finish them off while having some injuries in return.

Lei Hao looked at the wound on his arm with a frown expression and simply wrapped it with a bandage. On the side, Tu Feng squatted down and took the mask of the lifeless body in front of him off.

"He's Chinese." Tu Feng said with a surprise.

Lei Hao took a glance at the body and then took all the masks of the remaining bodies off. Surprisingly, these people were all Chinese.

"Dragon Soul team?" After scrutinizing these bodies for a while, Lei Hao suddenly discovered a dragon tattoo on the back of their necks. He clearly remembered this tattoo belonged to the Dragon Soul team... Why did they appear here and attack us?

Lei Hao and Tu Feng exchanged a glance, and they could see a solemnness in each other eyes. This matter was more severe than they had imagined. Perhaps this Dragon Soul team was also involved in Xiao Kai's death.

"We should find Boss first." Lei Hao made a decision. He didn't dare to move forward anymore.

"Ah'Hao. Ah'Feng! Thankfully, you two are safe." Yun Lintian was relieved as soon as he saw Lei Hao and Tu Feng were safe and sound.

"Boss!" Lei Hao and Tu Feng greeted in unison.

It was at this moment that Yun Lintian noticed the bodies on the ground. A frown appeared on his face as he asked. "Dragon Soul team? Why did you kill them?"

Lei Hao shrugged. "They started first."

"Is it a misunderstanding?" Yun Lintian looked at Lei Hao weirdly. Although the Cloud Shadow team was a mercenary group with no faction, they would always avoid their fellow countrymen all the time. If possible, they wouldn't get into a conflict with them. Yun Lintian believed they should have no intention of attacking his team. That was why he asked this naive question.

Tu Feng spoke first. "It's impossible to be a misunderstanding, Boss. I believe they know our identity."

Lei Hao added in an agreed manner. "Yes, Boss. I could see they were obviously waiting for us here. It's like they are monitoring our movement."

Xia Yao, who was silent from the beginning, suddenly said. "It depends on their leader. There's one person who hates us."

Yun Lintian, Lei Hao, and Tu Feng looked at Xia Yao in puzzlement.

Xia Yao glanced at Yun Lintian and said. "Zhu Ding, the deputy leader of the Dragon Soul team. The sole heir of the Beijing's Zhu family."

Yun Lintian suddenly remembered something. He asked uncertainly. "You are telling me that...."

Xia Yao snorted coldly. "Hmph! Of course, it's all about that woman surnamed Yang. Everyone knows that she's Zhu Ding's target."

Yun Lintian had an incredulous expression. "Just because of this? I have nothing to do with her at all."

Xia Yao pursed her lips. "Didn't you often read a novel? This Zhu Ding is like those stupid young masters in the novels."

Yun Lintian's face gradually turned cold. He had never bothered with this Zhu Ding before, yet this person actually did this.

Lei Hao hesitated for a moment and said. "Boss, I don't know if I should say this... But I believe they have something to do with Ah'Kai's death."

Yun Lintian beckoned with his chin, telling Lei Hao to go on.

Lei Hao thought for a moment and said. "We all know Ah'Kai's ability. I always doubt whether he really makes a mistake. First, the Hell Church seems to know our movement all the time. I don't believe

Reaper could prepare this multi-layered trap within a short time. After all, he just arrived here this morning."

"Secondly, even if Reaper had arranged someone to deal with Ah'Kai, I don't believe he would get killed this easily.. There must be an unknown factor we aren't aware of... and that factor might be this Dragon Soul team."

Chapter 457 - Flame Of Vengeance (7)

Yun Lintian slowly nodded his head. "You're right. It's always disturbing me for all this time on how did Ah'Kai fell." A killing intent flashed across Yun Lintian's eyes as he muttered. "Zhu Ding..."

Yun Lintian took a deep breath, trying to suppress the flame of fury in his heart, and beckoned everyone. "Let's move."

Everyone glanced at each other and headed toward the central lab after taking some weapons from the deceased enemies.

\*\*\*

In the central lab, Donkey was controlled by a few men. He looked at these people in front of him nervously. Judging from their conversations, these people should be China's special force. No doubt about it, their target was the Hell Church.

Donkey looked at a tall man, who seemed to be a leader, and said. "This gentleman, I already give you everything. Can you let me go?"

The tall man, Liu Jian, glanced at Donkey and said coldly. "Shut up!"

Donkey was frightened and hurriedly shut his mouth up, not daring to look at them again. However, no one noticed that he secretly took a glance at huge tube glasses with human-shaped creatures. A cold glint appeared in his eyes before lowering his head and remaining silent.

Liu Jian touched his ear and said. "Leader, we have obtained the goods now. What shall we do next?"

A short moment later, Zhu Ding's voice rang out from the other side. "Send it to me and prepare for the upcoming battle. They are on the way to your position."

Liu Jian narrowed his eyes slightly as he replied. "Roger that." He then turned to look at two men beside him, and they quickly left the room with a security bag in their hands.

"Everyone, get into your positions." Liu Jian said and moved backward, hiding behind a long counter.

Donkey looked at the scene thoughtfully. He seemed to understand everything now. The helpers that Reaper said were no other than these people... Why did they prepare for a battle? Could it be Yun Lintian's group was coming here soon? If that was the case, wouldn't it mean Reaper was already dead?

The more he thought, the more desperate Donkey became. He started to struggle, trying to get rid of the rope on his wrists. "Hurry up! Untie me. I am willing to go with you. You need me with Project Eve, don't you?"

Liu Jian frowned slightly and contacted Zhu Ding. "Leader, this fatty scientist is surrendering to us. What is your instruction?"

"Him? It's okay. Just use him as bait." Zhu Ding replied casually.

"Understood." Liu Jian responded and walked toward Donkey.

He pointed the gun at the latter and said coldly. "You better behave well."

Donkey hurriedly nodded his head. "Don't worry, I'm a good boy."

Liu Jian's mouth twitched slightly and beckoned a man beside him to untie Donkey. Afterward, he dragged Donkey to his side, hiding behind the previous counter.

"Thank you. Thank you." Donkey kept expressing his gratitude while glancing at a control panel a few steps away from him.

"Shut up!" Liu Jian frowned and hit Donkey with his gun.

Donkey painfully covered his head, appearing extremely fearful. He tried his best to suppress the anger in his heart... Just you wait!

At this moment, Yun Lintian's group had cautiously arrived before the central lab's entrance.

Yun Lintian made a hand gesture to Xia Yao, and the latter nodded her head before slipping to the door's control panel.

Yun Lintian gave the nod to Lei Hao and Tu Feng. They checked their guns briefly before sending a ready signal.

Yun Lintian then turned to look at Xia Yao. The latter took a deep breath and pressed the open button.

As soon as the iron door opened, Tu Feng and Lei Hao threw a smoke grenade and flashbang into the room. With a bang, Yun Lintian and others swiftly slipped into the room while shooting at the waiting opponents. The room was immediately turned into an intense gunfire battlefield.

Yun Lintian managed to hit two and rolled onto the ground, hiding behind a cover nearby. Meanwhile, Lei Hao and Tu Feng had also gotten rid of five opponents and found a place to hide, reloading the magazines.

Liu Jian didn't expect the situation became like this. He heard about the Cloud Shadow team's reputation before and thought it was too exaggerated. Unfortunately, everything was true, as the rumors said. These people's abilities seemed to surpass a human's realm.

Liu Jian glanced at the back door behind the control panel and beckoned his men. "Use the grenade." Because the room wasn't big, Liu Jian didn't dare place a bomb or use an explosive grenade before. Now, he had no choice but to take a risk.

Two men nearby him quickly threw the grenades toward Yun Lintian's group and leaned down on the floor.

Lei Hao was the first one who noticed this. He shouted and jumped away while throwing a grenade at the enemy's position.

Boom!

The whole room shook violently, filling the entire space with black smoke. At this moment, Donkey seized this chance while everyone was affected by the explosion to rush toward the control panel and hurriedly pressed a few buttons.

Immediately, the remaining tube glasses around the room slowly opened. The creatures within them seemed to come back to life. They opened their eyes and looked around expressionlessly.

These creatures were unfinished products that Donkey created. He didn't care whether they could do the job properly. All he needed right now was to escape from this place.

Seeing this, Donkey quickly shouted. "Kill all of them!" Following that, he pulled a hard disk out of the control panel and rushed toward the back door, leaving the room safely.

Coming back to his sense, Liu Jian cursed angrily and hurriedly followed Donkey. However, as he was about to reach the door, a bullet suddenly pierced precisely on his knee, causing him to fall down.

In the distance, Xia Yao lowered her gun and shuttered through the room toward Liu Jian with Yun Lintian and Lei Hao covering her. In a short breath, she had already arrived beside Liu Jian and stomped on the latter's hand that was searching for the gun.

"Don't move!" Xia Yao said coldly while pointing the gun at Liu Jian's temple.

## Chapter 458 - Flame Of Vengeance (8)

"Where's Zhu Ding?" Xia Yao pressed her gun on Liu Jian's temple further, ready to pull the trigger at any time.

Liu Jian grunted in pain and said confusedly. "You... you are Chinese? We are the Dragon Soul team. We thought you guys were the Hell Church's spawns. This is a misunderstanding."

"Misunderstanding?" Xia Yao curled her lips.

Roar!

Just as Xia Yao was about to say something further, the room suddenly filled with strange and savage cries, causing everyone to stop their movement and turn to look at the peculiar human-shaped creatures.

These creatures were either standing in a weird posture or clawing like animals. Some of them even had long, sharp claws, and some had thick furs similar to gorilla's furs. Their faces were distorted, revealing their brutal natures to the extreme.

The one resembled a leopard, locked its gaze onto a nearby Dragon Soul team member. It pounced on him and fiercely bit his neck, causing blood to gush out like a fountain.

"Argh!" The unfortunate man cried miserably as he struggled to get rid of the leopard-like creature.

His scream immediately woke everyone up. They quickly pointed their weapons at these scary creatures and began to attack them without reservation.

Yun Lintian looked at the scene solemnly. He glanced at Xia Yao in the distance and then sent an eye signal to her, telling her to leave this place.

Xia Yao hesitated briefly before dragging Liu Jian out of the room through the back door.

Seeing this, Yun Lintian turned to Lei Hao and Tu Feng. "Ah'Hao, find that scientist guy. Leave this place to Ah'Feng and me."

Lei Hao nodded his head and swiftly charged out of the room with the help of Yun Lintian and Tu Feng.

"Ah'Feng, I'll leave the left side to you." Yun Lintian motioned with his chin and got into action.

"Mhm!" Tu Feng responded and began to shoot at the enemies.

Because the animal-like creatures mainly targeted the Dragon Soul team, Yun Lintian and Tu Feng had a great time killing them without any risk. The two of them didn't particularly aim at any side. They attacked whoever came into their sights.

Gradually, the chaotic situation was under Yun Lintian's control. There were only two Dragon Soul team members and four creatures left.

"Help!" One of the Dragon Soul team's members shouted at Yun Lintian while frantically shooting at a gorilla-like creature that slowly approached him. This gorilla was unusually tough. The bullets could not penetrate its sturdy body at all.

"Roar!" The gorilla roared angrily. It grabbed the man's leg and smashed him on the floor back and forth until all his bones broke apart and died tragically.

Yun Lintian frowned slightly when he saw this scene. This gorilla was indeed difficult to deal with. He glanced at Tu Feng, who was shooting at other targets and then turned back to the gorilla. He raised the machine gun in his hand and aimed at the gorilla's eyes.

Bang! Bang! Bang!

The shots precisely landed on the target and immediately burst the gorilla's eyes. However, this wave of attack wasn't enough to end its life as it furiously swung its arms around, trying to find Yun Lintian.

Debris flew in all directions as the gorilla madly smashed everything around it. Yun Lintian had to pull Tu Feng to avoid them while trying to make a counterattack.

"Boss, leave it to me." Tu Feng said firmly. Without waiting for Yun Lintian to reply, he threw the gun away and instantly rushed to the gorilla.

Bang!

Tu Feng cleverly avoided the gorilla's random attacks and fiercely kicked on its knee, making it lose its balance and sway backward. He seized this chance to launch another kick on the gorilla's knee once again. This time, the gorilla was utterly lost its balance and fell onto the floor with a bang.

Tu Feng swiftly jumped onto the gorilla's body while pulling a combat knife from his waist and ruthlessly stabbed it into the gorilla's eye.

"Roar!" The gorilla screamed painfully as the knife went deep into its brain. It madly punched Tu Feng, but the latter skillfully blocked them quickly.

Yun Lintian saw the opportunity to rush forward and shot at the gorilla's head until it died.

"Phew..." Tu Feng let out a long breath and pulled the knife out.

Yun Lintian patted Tu Feng's shoulder and said. "Good job."

Tu Feng grinned and said nothing.

Yun Lintian glanced around the room and saw the remaining Dragon Soul team's member struggling to get up in the distance.

The man looked at Yun Lintian and Tu Feng in horror and tried his best to reach out for a gun on his waist, but he was stopped by Yun Lintian first.

Yun Lintian grabbed the man's neck and said coldly. "Where is your leader?"

The man gritted his teeth and stubbornly shut his mouth tight, unwilling to say anything.

Yun Lintian glanced at the remaining creature that resembled a wolf and grinned wickedly. "Don't want to talk? Fine."

The man inadvertently glanced at the wolf-like creature, and his face turned pale instantly. He knew what Yun Lintian was going to do next and hurriedly screamed. "I say! I say! Please let me go!"

Yun Lintian clicked his tongue. "A coward like you can actually enter the team. Why is the Dragon Soul team's standard is so low?"

The man didn't say anything and lowered his head in shame. He was actually a newly recruited member, and this mission was his first mission since he entered the team. Who would have thought it was so dangerous like this?

Yun Lintian chuckled disdainfully and asked. "Now, tell me. Where is Zhu Ding?" He tightened his grip further and whispered coldly. "You better not lie to me. Otherwise... Hehe."

Although the man was suffocating, he didn't dare to delay further and hurriedly said. "He didn't enter the factory."

"Oh?" Yun Lintian's brows raised slightly.. How could this Zhu Ding become the deputy team leader with this kind of cowardice action? Corruption as always it seemed.

Chapter 459 - Flame Of Vengeance (9)

"How many people are in your team?" Yun Lintian asked further.

The man replied honestly. "Including team leader, there are forty-one people on the team."

Yun Lintian glanced around the room and saw eighteen bodies were lying on the floor. Including the man in front of him, Liu Jian, and ten people that Lei Hao and Tu Feng had taken down previously, at least thirty people had entered the factory.

Yun Lintian turned to look at the man and asked. "What's your other mission aside from Project Eve?"

The man swallowed nervously as he replied timidly. "I-it's you and your team."

Yun Lintian's face turned icy. "You should know that my team never has a conflict with the country. Why did they want to kill us?" Until now, Yun Lintian remained skeptical about Zhu Ding's personal grudge. He simply didn't believe the Zhu family would have this much power to the point they could influence the special unit like the Dragon Soul team.

The man shook hurriedly shook his head. "I don't know. I only heard that it's because you and your team have violated the country's interest."

Yun Lintian suddenly laughed. "Violated the country's interest? Haha. What a ridiculous reason." Now, he was certain it was Zhu Ding's personal grudge. This guy probably deceived the higher-ups and let them believe his Cloud Shadow team was a threat to the country... What a good Zhu Ding! I wasn't looking for trouble, yet you trouble me.

The man shivered in fright as he saw a terrifyingly gloomy light in Yun Lintian's eyes. His instinct screamed loudly. The person in front of him was extremely dangerous — countless times terrible than the Dragon Soul team leader he had met before.

"What's your name?" Yun Lintian asked.

"Ma... Ma Bochao." The man, Ma Bochao, answered in a trembling voice.

"Where are you from?" Yun Lintian asked further. His voice was plain, without any emotion.

"Zhejiang. I'm from Zhejiang." Ma Bochao replied.

"I see." Yun Lintian nodded his head slightly. "Don't worry. I'll send your name tag back to your hometown later."

Ma Bochao was petrified. Before he could scream, Yun Lintian had already pulled the trigger, ending his life on the spot.

Of course, Yun Lintian didn't intend to do as he said. He had no sympathy for the enemy.

He glanced at Tu Feng, who had just finished the wolf-like creature off, and said. "Let's go!"

Tu Feng nodded his head, and the two quickly followed in Xia Yao's direction.

Roar—

Just as both of them were about to leave the central lab, countless deafening roars suddenly resounded from all directions, causing them to startle for a moment.

"How many of them are there?" Tu Feng subconsciously asked. These screams were, without a doubt coming from the similar creatures he fought earlier.

Yun Lintian's brows sank slightly. "Go!"

Without further ado, the two of them rushed out of the lab and saw Xia Yao was fighting with a few wolf-like creatures. As for Liu Jian, he unfortunately became these creatures' food already.

Yun Lintian quickly charged forward and made a few shots at the pack of wolves before arriving beside Xia Yao.

"Where is Ah'Hao?" He asked.

Xia Yao reloaded her gun while answering. "I let him chase after that scientist."

Yun Lintian's complexion turned grimed slightly. He felt that he shouldn't let Lei Hao go in the first place. He didn't expect there were a lot of these experimental creatures aside from the central lab.

"Hurry up. Ah'Hao is in danger." Yun Lintian said and hurriedly killed the wolves, along with Xia Yao and Tu Feng.

It took them four minutes to kill all the fifteen wolves. They didn't waste their time further and followed Lei Hao's direction afterward.

Along the way, more and more strange creatures appeared in the corridor, and a few corpses could be seen on the floor. Evidently, Lei Hao had passed through here.

"There's an elevator ahead." Xia Yao suddenly said as soon as she saw a freight elevator at the end of the corridor.

"Go in!" Yun Lintian cleared the way for Xia Yao and Tu Feng before quickly rushing into the elevator.

As the elevator's door closed, Yun Lintian heaved a sigh of relief and leaned against the wall. He had spent a lot of strength in the previous battle with Reaper and was now somewhat exhausted.

Xia Yao looked at him and said softly. "You can take a rest first. We will take care of it."

Tu Feng didn't say anything, but the meaning in his eyes expressed everything.

Yun Lintian shook his head slightly. "I can still fight." He paused for a moment and added. "I don't know why I feel exhausted like this."

It was at this moment Yun Lintian discovered he felt unusually drained. Normally, he could fight like this all day all night with no problem. This was too abnormal.

Xia Yao recalled the scene where Yun Lintian fought with Reaper. She suddenly found Yun Lintian's movement was too strange. His speed was unusually high. Even faster than Lei Hao, who had been regarded as the fastest man in the group.

Bang!

As the two of them were in deep thoughts, the elevator suddenly shook and stopped on the spot. Yun Lintian, Xia Yao, and Tu Feng glanced at each other and turned to look at the ceiling confusedly.

Bang!

The elevator shook violently once again. This time, they could clearly see something was smashing the elevator's roof. Judging by its powerful force, there was no way it could be human.

Bang!

At this moment, a hole suddenly appeared in the ceiling, revealing a terrifyingly giant hand that resembled a gorilla's hands. Compared to the previous gorilla that Yun Lintian and Tu Feng had seen, this one was at least twice larger.

Yun Lintian quickly reacted and shouted at Tu Feng while shooting consecutively at the unknown creature on the roof. "Ah! Feng, break the door!"

Tu Feng reacted in almost an instant.. He stepped forward and launched a powerful kick at the elevator's door.

Chapter 460 - Flame Of Vengeance (10)

"Roar!" The unknown creature roared furiously and continued to smash the elevator.

Yun Lintian was desperately shooting at it and kept glancing at Tu Feng. Seeing that Tu Feng could not break the elevator's door, Yun Lintian turned to Xia Yao and said. "Hold it for a while, Yaoyao."

"Go!" Xia Yao motioned with her chin and tried her best to restrain the unknown creature with her gun.

Yun Lintian turned around and shouted. "Ah'Feng, together!"

Tu Feng took a step back and gave the nod to Yun Lintian. In the next moment, the two of them promptly sent powerful kicks on the elevator's door and immediately blasted it away.

A long corridor appeared before Yun Lintian. He urged everyone to leave the elevator while switching roles with Xia Yao.

The moment the three of them retreated from the elevator, the unknown creature suddenly slammed into the elevator. The slings that supported the elevator were instantly torn apart, leaving the elevator to fall down.

Watching this scene, Yun Lintian and others heaved a sigh of relief. Their fate would have ended here if they were slower for a few seconds.

"What the hell is that thing?" Tu Feng said with a pounding heart. He even thought he had transmigrated to a sci-fi movie or something.

Bang!

Just as Yun Lintian was about to say something, the familiar gorilla-like hand emerged from the elevator's path and grabbed onto the ceiling. Its face resembled a ferocious gorilla, slowly appearing in everyone's sight, causing them to involuntarily hold their breaths.

Its crimson eyes darted around the floor and landed on Yun Lintian's group. The corner of its mouth widened into a savage grin, making Yun Lintian's scalp numb.

"Roar!" The gorilla produced a deafening roar and tried to enter the floor.

"Go!" Yun Lintian shouted and threw a smoke grenade and explosive grenade toward the gorilla before running away with Xia Yao and Tu Feng.

Boom!

The explosion blasted out in front of the gorilla, but it didn't seem to be affected by it. The gorilla was furious. It managed to squeeze itself into the floor and chased after Yun Lintian's group.

While running, Yun Lintian kept glancing back from time to time. When he saw the three-meter-high gorilla rush out of the smoke screen unharmed, his face changed drastically, and he swiftly raised his gun to shoot at it.

"I was here with Brother Hao before." Tu Feng said as he looked in the direction. This place was the second floor where he and Lei Hao came to rescue the children.

"Lead the way." Xia Yao said while helping Yun Lintian delay the gorilla.

Tu Feng looked around for a moment and found a familiar direction to go in. He quickly turned left at an intersection.

The three of them immediately arrived in a spacious area that seemed to be a cafeteria. At this moment, they saw a figure standing there, pointing a gun at them.

"Ah'Hao?" Yun Lintian immediately recognized this person right away.

"Boss?" Lei Hao lowered his gun and heaved a sigh of relief. His gun was actually no bullet in it as he wasted all of them on those strange creatures along the way.

Yun Lintian glanced at a fat body beneath Lei Hao's foot and recognized it was no other than Donkey. Without a doubt, he had already lost his breath.

"Did you?" Yun Lintian asked.

Lei Hao showed a hard disk in his hand and said. "Got it. The one that bastard Zhu Ding obtained is fake. This fatty confessed everything to me earlier."

Roar—

A deafening roar suddenly resounded, reminding Yun Lintian that the sound owner was coming closer now.

Lei Hao's expression changed, and he wanted to ask what was going on. However, Yun Lintian didn't let him say anything as he quickly pulled him away, rushing toward the end of the corridor under Tu Feng's lead.

The gorilla arrived at the cafeteria and saw Donkey's corpse. It approached the body, staring at it for a while before taking a bite at it as though it could remember this person was the one who tortured it and made it become like this.

Soon, the cafeteria immediately filled with terrifying crunching sounds.

Yun Lintian's group quickly arrived at the end of the corridor. There was nothing here, but Tu Feng remembered the ceiling could connect to the sewer above.

"Step back!" Yun Lintian said and took a timing bomb that he got from the Dragon Soul team out before pasting it at the ceiling. With a bang, a large hole immediately appeared in the roof, revealing a sewer path behind it.

Tu Feng didn't hesitate to down in one knee and beckoned Xia Yao to come. "Go, Sister Rain."

Xia Yao nodded her head and used Tu Feng's thigh as a platform to jump onto the ceiling. She quickly grabbed the edge of the broken roof and climbed up into the sewer safely. Following that, she rolled a military rope down, letting Lei Hao and Yun Lintian climb up.

"Come, Ah'Feng." Yun Lintian leaned on the sewer floor and beckoned Tu Feng to come up.

"Roar!" Just as Tu Feng was about to climb up, the gorilla suddenly appeared in the corridor with an angry cry. When it saw Tu Feng was about to escape, it hastily rushed toward him at full speed.

"Damn it!" Yun Lintian's face was ashen. "Come up, Ah'Feng. I will hold it."

Bang! Bang! Bang! Click!

Yun Lintian pulled the trigger consecutively until he was out of the bullet. However, the gorilla's speed did not reduce in the slightest. On the contrary, it seemed to be faster than before.

Tu Feng saw the situation was not good. At this rate, he could never climb up in time. He turned to look at Yun Lintian with determination. "Boss, take Sister Rain and Brother Hao away first. Leave this big guy to me."

Without waiting for Yun Lintian to reply, Tu Feng released the rope and turned toward the incoming gorilla with a firm stance.
