Chapter 1411: Unusual Changes at the Forbidden Land

Chu Long said, "I know what you are worried about, but we will only hunt the beasts on level one. As long as we don't encounter those level three beasts, there shouldn't be much danger at all."

After a pause, he smiled and said, "And with your strength, even those level three beasts won't be able to hurt you, right?"

After hearing those words, Su Yu pretended to be more reassured. He looked at Ling Wu and asked, "Is Lord Ling Wu okay with this as well?"

Ling Wu displayed an impartial appearance. "I am only responsible for deciding whether the content of the test is fair and reasonable. Without external assistance, it can be said that it is very fair and reasonable if you and Chu Bawang enter the level one zone together. There is nothing for me to disagree with."

Su Yu smiled secretly and thought, 'Was it really fair?'

Unsurprisingly, the Chu clan must have made preparations in the ruins, which would greatly benefit Chu Bawang.

This Ling Wu pretending to be oblivious about it meant that he was bought over by the Chu clan to help them.

"Since Ling Wu has no objections, then neither do I," Su Yu said.

Chu Long's smile spread across his face, "You came a long way. Do you need to take a break before we start the contest to hunt down the beasts?"

"No need for that, let's start it now."

Chu Long said with a smile, "Okay, let's go."

He solemnly took out a black jade token from the space ring.

The material of the token was very special; it exuded traces of the wizard ancestors' auras.

With the ancient auras enveloping over it, the token should have existed for ages now.

Despite its old age, it remained resolute. One could easily see how peculiar it was.

There was a faint red dot on the token moving slowly. Chu Long looked at the red light and then looked towards a certain direction in the sky. "It's over there. The Asura forbidden land is in that direction..."

His brow furrowed slightly and murmured, "That's strange... Why is the Asura forbidden land outside of that vicinity? Did something happen inside?"

As the guardian of the forbidden land, Chu Long instinctively felt that something might have occurred in the forbidden land but didn't know what it was. It was enough to catch his attention, along with that of the Moonview Sect leader's attention.

If that was the case, the contest must be reconsidered.

He was mindful of the Sky Splitting Yin Yang style, so he hesitated.

The Ling Wu glanced at the token and said, "Is something wrong? It would be better to postpone the contest if we need to."

Although he did not understand what the red dot meant, he could clearly notice the subtle change in Chu Long's expression.

If something was amiss in the Asura forbidden land, that would be a potentially major issue.

After hearing this, Chu Long felt a little bit choked. How could he give up the contest now?

He made countless preparations within the Asura forbidden land to ensure that Chu Bawang would definitely win.

If he gave up now, there was no other way to ensure Chu Bawang's victory.

"That's not a problem." Chu Long quickly concealed the expression on his face as he forced himself to calm down. He called for four wizard phoenixes, one for each of the four people present.

The Ling Wu wanted to stop it, but the space ring on his finger was getting heavy. With little hesitation, he gave up the dissuasion. He thought to himself, 'We wouldn't be so unfortunate, right?'

The four of them quickly rode on the wizard phoenixes and set off across the sky.

Half a day later, they reached the edge of a dark sky.

Witnessing the scene in front of him, Su Yu's expression changed slightly.

If he remembered correctly from half a month ago, the journey from the Fan Capital to the Asura Forbidden Land took about seven or eight days.

Now that it had moved, it only took them half a day to reach from the Fan Capital!

This unusual series of events made Su Yu feel uneasy.

It seemed that the Asura's forbidden land was consciously moving towards the Fan Capital.

What was going on in the Asura forbidden land?

Chu Long's expression remained blank. He took out the jade token, which released a burst of light enveloping the four of them.

It was strange to see that the wizard phoenixes, which were originally terrified, gradually quiet down after being enveloped by the light. They seemed to be no longer afraid of the Asura Forbidden Land and carried the four of them quickly. Eventually, they arrived directly at the Asura Forbidden Land.

At their destination, one could look up to easily see a spinning dark vortex.

In the vortex, red lightning flashed continuously. The sight was awe-inspiring.

"This is the entrance. That red lightning only threatens live spirits below level five, so you should be able to enter safely." Chu Long said and took out two identical greyish-black stones at the same time.

“This is the induction stone that you must wear on your body. The image of you killing the beasts will be recorded in it, then we will use it match the head of the beasts you have obtained and the images to check if you killed the. This is to keep the contest fair. ”

Su Yu listened with a cold smile.

This was prepared specifically to prevent Su Yu from killing his baby son after entering Asura’s forbidden land, right?

“Anything else I should know?” Su Yu said.

Chu Long smiled, “There is nothing else, but I do hope you all understand that this is just a contest. The contest is important, but do not disrupt the harmony.”

Chu Bawang said, “I know.”

“What about you?” Chu Long wanted to wait for Su Yu’s response, but Su Yu did not seem to want to respond so he had to personally ask him.

Su Yu glanced at the father and son and said lightly, “Well, it depends on how I’m feeling!”

When he finished, he pointed his toes and flew upward to be swept into the vortex.

With greatly clouded eyes, Chu Long he warned sternly, “Remember, if you encounter Su Yu inside, don’t try to fight him. You shouldn’t give him an excuse to attack!”

“I know,” Chu Bawang said bitterly. He wouldn’t dare to seek out Su Yu and cause trouble.

Listening to Su Yu’s tone just now, it was clear that he did not plan to have a proper contest.

If he encountered Su Yu, he would escape immediately. Why would he try to fight him?

“Also, look for the elders from the clan once you enter the palace. They should have already captured the level three beasts for you in advance, but you still need to kill them first. With this, you’ll basically get an easy victory.”

Chu Bawang’s eyes flashed and smiled coldly, “Hehe, with the heads of five level-three beasts, I can score as high as forty-five points to guarantee my victory. Unless Su Yu manages to kill all the ferocious beasts at the level one zone, there’s no way he’ll turn the tables in his favor.”

“Father, await my good news!”

Watching his son enter full of hope, Chu Long whispered, “Even if you don’t win, you will never lose.”

A tinge of fierceness and viciousness flashed across his pupils.

Swoosh!

After some violent spinning, Su Yu landed on a dark and damp ground of a gloomy and ghastly land.

Su Yu shook his body and grabbed the two red remnants of the lightning with his fists, exterminating them in his palms.

“The red lightning is pretty strong. Anyone who is level five and below will either be seriously injured or die if they touch it” Su Yu said, “If I get the chance, I should bring some back and let the live spirits of Jiuzhou use it.”

After a few murmurs, a slight air-breaking sound suddenly arose.

Su Yu did not have much time to think about it. With a flick of his robe sleeves, a gust of wind wrapped around his body.

Whoosh!

He watched as a lump of black liquid hit the cyclone only to be swept away, splashing onto the mud.

As a result, the mud reacted violently as if cold water was being poured into boiling oil. With a sudden explosion, it splattered everywhere and left behind a deep pit.

Su Yu looked intently and saw an ordinary frog lying under a tree behind him.

It had a bluish-green body with dark red eyes. It was not even from the level-one mortal fairy realm.

Even so, the liquid that it sprayed contained horrifying lethal toxins.

Su Yu was surprised. “At only such a level, this thing’s poison can kill level six deities?”

Although he was surprised, Su Yu attacked it mercilessly by sending a beam of divine power to mince the frog.

As the frog died, Su Yu suddenly found a small black hole the size of a fist under the tree where the frog was located.

Inside, many pairs of dark red eyes stared at Su Yu with murderous intent.

“There is a nest?” Su Yu said, planning to get rid of it.

Suddenly, there was another one in the mud under his feet. As it coldly stared at him with dark red bloody eyes, it spewed a black liquid from its mouth.

Su Yu smashed it with a wave of his hand. After thinking about it, his eyes turned white and glanced deep into the ground as his scalp immediately felt numb!

This swampy area was full of dense frog nests underneath the muddy ground. There were countless of them densely packed together, inducing anxiety into those who witnessed it.

Su Yu immediately ascended into the sky. He got away from the ground and headed towards a huge mountain in the distance.

What he did not know was that the huge swamp threshed shortly after his departure. From underneath the mud emerged a massive frog the size of a hill!

Its eyes were not only dark red but also contained spiritual intelligence. It looked incredibly fierce.

What was even more amazing was that it was fluent in human language. “Oh, isn’t this interesting. I deeply sympathize with those that broke in from the outside world at this point.”

After that, the huge body turned into a slender middle-aged man with blue skin and black lips as a long red tongue stretched out from his mouth. Glancing in Su Yu's direction, he let out a pitiful sneer.

Su Yu seemed to sense something and suddenly looked back.

In the end, he could only catch a flash of green.

"Huh? What was that just now?" Su Yu usually believed what he saw was real. Since he saw the green light, it meant that there must be some live spirits there just now.

He became stern as he thought to himself, 'With such a fast speed, am I afraid that it is a level three ferocious beast?'

With such a thought, he could not help but be extra careful.

He originally planned to set foot on the mountain, but he eventually gave up, choosing to bypass the mountain and avoid it.

Standing from a distance, Su Yu used his Heavenly Eyes to observe the mountains from afar.

With his Heavenly Eyes, everything on the mountain seemed clear.

There were several peculiar looking trees. They were straight and dark, with no branches or leaves. They just stood vertically.

Furthermore, Su Yu was horrified to see that there were five bloody heads on top of the mountain!

They were the heads of the people from the wizard tribe!

Their heads were inserted onto five sharp wooden stakes at the top of the mountain. Their faces remained in the same state of fright they felt right before their death.

"How come the people from the wizard tribe are here?" Su Yu was shocked. "Are they people who came here to explore, or are they...people from the Chu clan?"

What astounded Su Yu further was that, based on whatever remained of their auras, they were strong warriors that were at least at level three realm!!

Their prowess was in sharp contrast with their bloody heads.

Su Yu was shocked deep down. "What exactly did they encounter?"

Even though Su Yu's strength was relatively great, it was far from being able to compete with five level-three strong men!

What's more, all five of them were killed in the same way!

Suddenly, his Heavenly Eyes seemed to find something. His eyes narrowed sharply, magnifying the image at the top of the mountain.

He saw that at the center of the five heads, the soil underneath crept as if something was underground.

Chapter 1412: Eight-Clawed Octopus

All of a sudden, a dark claw struck from beneath the ground!

The claw gently waved around, and soon a crack was formed in space.

Immediately afterward, the creature sat up from the earth. It was a bloody red humanoid figure covered in black scales. It appeared rather odd for a living being.

A pair of dark red blood eyes then followed, revealing the creature's brutality.

It raised its head and coldly stared into the sky. There was a crack in the corner of its mouth; it was grinning hard.

Brush!

The next moment, its blood-red figure disappeared and instantly appeared in an endless cloud.

Those dark claws were aimed at the Heavenly Eyes, seeking to rip it apart.

Slash!

The Heavenly Eyes were divided into two!

Su Yu's eyes tingled with pain. He closed them quickly and immediately teleported away from the place in fear. He manages to catch his breath with the fragments of the Strength of Rules.

He moved swiftly, but the blood-red figure immediately crossed over approximately 50 to 60 million mountains and rivers to Su Yu's location.

It sniffed its nose in the air but did not detect Su Yu's breath. Its dark red blood eyes looked doubtful.

Su Yu, who was more than hundreds of millions of mountains and rivers away, could just barely open his stinging eyes and managed to hide within a dried and deserted mountain.

"What kind of creature is that?" Su Yu was secretly shocked.

With a simple breeze, it broke the Heavenly Eyes!

Even the Master of the Temple would find such powers extremely difficult to achieve!

First, it was the cyan afterimage that followed. Then the blood-red monster, of which then were the five Level Three Wizard Tribe strongmen.

Su Yu's hunch that something bad was going to happen was getting stronger!

"I shouldn't stay here any longer than I need to. As soon as I defeat the Level Four Ferocious Beasts, I must leave this place quickly." Years of instinctive intuition told Su Yu that the Asura Forbidden Lands was truly dangerous.

Although he did not know what the place was normally like, the Asura Forbidden Lands were currently unsuitable for anyone to stay in for long.

A deep cough rang out.

At that moment, Su Yu suddenly heard the familiar sound of fighting and bickering.

His heart skipped a beat. Su Yu then lurked in a corner and stood in the distance to look into the situation.

The scene in front of him shocked him.

A huge eight-clawed octopus the size of one million feet was fighting a young white figure in a lake.

Su Yu knew who that white figure was!

“Wang Qingchen?” Su Yu almost thought that he had made a mistake; how was it possible to run into him in the Asura Forbidden Lands?

At that moment, he was entangled and could not escape the octopus’ grip.

Most of his wizard tools were damaged. A sturdy-looking giant boat crossing the lake was crushed by the eight-clawed Octopus as well.

Wang Qingchen’s clothes were torn. He had an embarrassing expression as his wizard power was dissipating. His face was pale with barely a tint of color. It seemed that he wouldn’t survive for long.

In contrast, the eight-clawed octopus’ back was against the lake as it channeled the power of the water and struck him with endless streams of power.

This tactic made Wang Qingchen unable to attack or retreat. All he could do was stay put and face the attacks head-on.

It seemed that they have been fighting for some time.

“A Level Three Ferocious Beast?” Su Yu’s eyes lighted up. The breath of this eight-clawed octopus was just slightly weaker than the green and blood-red creatures from before.

If he could launch a surprise attack, perhaps this would be his first prey!

Su Yu had always acted decisively, and several possibilities quickly emerged in his mind.

He thought about it for a while. Su Yu gathered his breath and figure, hid them, and quietly jumped off the rocky edge of the mountain. He then walked slowly towards the eight-clawed Octopus.

The eight-clawed Octopus was so distracted by playing with Wang Qingchen, it never even realizing it, that a person other than Wang Qingchen was approaching.

Slurp!

Wang Qingchen was as dry as a dried out oil lamp. Struggling hard to fight back, he channeled the few remaining wizard powers in his body as he said, “Split Metamorphosis Technique!”

He was now full of wizard power. His body shifted into hundreds of phantoms that fled in different directions.

This was his last fight for survival!

However, the eight-clawed octopus showed an anthropomorphic sneer. It lifted its eight giant claws lifted all at once, sweeping in all directions!

Puff! Puff!

As the claws swept through the phantoms, they all burst away in a flash.

Just one of the figures was swept up. He was not destroyed, but smashed through instead!

The eight-clawed octopus sneered and withdrew the other seven tentacles fiercely.

Wang Qingchen flew upside down. He was close to being entirely drained. It seemed that all eight tentacles would come crashing down on him, smashing hard on him like a mountain collapsing. As the tentacles covered the sky, he closed his eyes in despair with a wry smile. "Perhaps this is my fate."

He originally wanted to sharpen himself up in the Asura Forbidden Land, but because of an earthquake that occurred in the Asura Forbidden Land half a month ago, he discovered that it was a hundred times more dangerous than before!

All the Ferocious Beasts seem to have been reborn and mutated!

Any randomly encountered small beast had deadly toxins that could easily kill someone.

In the past, he could easily deal with any Level Four Ferocious Beast he encountered.

Alas, now, the Ferocious Beasts were so extraordinary that he had to use at least 80% of his strength before killing it.

Several consecutive similar experiences gave Wang Qingchen the feeling that he was in serious danger.

After thinking about it, he decided to temporarily suspend his practice and return to his family to report on the situation in Asura Forbidden Lands.

Just as he was passing by this lake, he, unfortunately, got entangled by the eight-clawed Octopus hiding in the lake.

He couldn't win. He wanted to retreat but was nevertheless still entangled with it.

The two sides fought for half a day, pushing Wang Qingchen to his limit.

Now, he was unable to bear it any further. He would die here.

With a bitter smile in his heart, Wang Qingchen closed his eyes in despair.

However, an extremely fierce fighting spirit suddenly came out of nowhere like a volcanic eruption.

Its murderous intent seemed to come from a time and space before the ages of eternity. It seemed eternally unbreakable.

"This is..." Wang Qingchen suddenly opened his eyes and couldn't believe what he was experiencing. He secretly said to himself, "Might this be an illusion before death? How can Su Yu possibly be here?"

With just one familiar sound, Wang Qingchen finally woke up to his senses.

"Heaven-trampling Three Steps!"

Boom!

A loud noise came thundering by. Su Yu suddenly launched an extremely violent attack towards the octopus.

The eight-clawed octopus was caught off guard, unprepared to be struck by the Heaven-trampling Three Steps.

Its huge body collapsed, with half of it crushed by the foot.

There were eight huge tentacles on its body. The attack broke four of them and even burst his head open!

This attack can be described as a successful one-hit-wonder.

However, the eight-clawed Octopus survived the attack!

Its broken body was so full of vitality that it began regenerating by just slightly wriggling around.

Its head recovered first, leaving only the body to continue healing as time passed.

Wang Qingchen was shocked and reminded of something. "Brother Su, be careful! This beast's body is almost immortal, and any injuries it suffered can be instantly restored!"

With such a massive blow, Su Yu had finally managed to sever a few tentacles. However, the tentacles either regenerated or healed up once again.

Su Yu appeared and was surprised.

Though it was seriously injured by his sneak attack, the dark red eyes of the eight-clawed octopus looked different. The color of playfulness disappeared and the color of anger emerged.

It suddenly turned its huge head and stared at Su Yu. It then vigorously waved eight huge claws, pressing them through the sky with an overwhelming force of terror.

Su Yu's eyes tightened their focus. As his robes swept open, nine golden suns quickly rose into the sky to fight against eight huge tentacles.

Slash! Slash!

The tentacles met the golden sun and were all severed immediately.

What was strange about it was that the tentacle quickly regenerated at an alarming rate.

Su Yu controlled the Nine Suns Cosmos Sword Formation and aimed to cut them off even quicker.

With each cut, he managed to sever several tentacles.

Alas, the opponent's regeneration speed was staggering!

If things went on like this, he would surely end up entangled with those tentacles like Wang Qingchen. That would be a waste of all his expanded powers.

He turned his gaze as the nine suns burst into shock, shaking the eight tentacles away from him.

However, Su Yu did not withdraw and retreat. To Wang Qingchen's surprise, he attacked instead!

The eight-clawed Octopus was also surprised, but there was a smile in its eyes. Did he want to die?

It opened its mouth and sprayed out a black mist from its huge mouth, hindering Su Yu's line of sight.

Taking this opportunity, it withdrew its eight tentacles and once again directed them at Su Yu.

However, Su Yu suddenly hid all traces of himself and disappeared.

The eight-clawed octopus threw its tentacles into space. Its dark blood red eyes narrowed as it started to look around for Su Yu.

Whoosh!

After falling into the water, Wang Qingchen was suddenly pulled by something invisible and flew away from the lake.

The eyes of the eight-clawed octopus seemed to have anticipated this as if it was saying, "I knew you were going to save him."

A prepared tentacle patted in the direction that they fled in with the force of a thousand mountains. It was so powerful that it gathered all the power of the eight-clawed Octopus at its tip.

Under the pressures of the powerful force, Su Yu also resurfaced.

Instead of showing fluster and panic across his face, he had on a personified smile.

The eight-clawed octopus was extremely intelligent. It guessed something was amiss from Su Yu's expression. Then, its dark red blood eyes hurriedly swept down into a dark mist below itself.

Through the black mist, he discovered that the lake around it had somehow turned colorful!

The colorful lake quickly spread across the entire lake, rendering all the water droplets a colorful reflection.

The lake water was now boiling with activity. Countless beasts in the water were poisoned, floating to the surface with their white belly facing upwards.

The huge body of the eight-clawed octopus submerged underwater quickly dissolved as well!

Although it could be regenerated quickly, the speed of regeneration was far behind the dissolution speed!

"You dropped poison into the water!" The eight-clawed octopus was angered. It finally knew why Su Yu attacked as he did; he was aiming to just poison the water around itself.

It waved eight tentacles and hurriedly climbed out of the water.

Wang Qingchen was overjoyed. "This eight-clawed octopus fights with water and can absorb the power of the water at any time to regenerate. Brother Su forced him out of the water. If you break his advantage, it will be much easier to kill!"

"Hahaha... such vulgar creatures! How easy do you think it is to kill me? I have notified the other four generals, and they will come over soon!" The eight-clawed octopus mouth spat out insults as it laughed aloud. "Even if I leave the water, I can still hold out until they arrive!"

They? Su Yu immediately thought of the blue light and blood-red creatures.

Wang Qingchen's face changed drastically. "There are four other mutant creatures like you?"

“Hum? Variation? We merely regained our original strength! Prepare to die, ants! As soon as they come, you will die without a burial place in sight!” the eight-clawed Octopus viciously said.

Wang Qingchen’s heart tightened, his eyes staring hard.

With a bland expression, Su Yu said, “Is that so? You’ll likely be the one to die without a burial place instead.”

“What do you mean?” the eight-clawed Octopus asked suspiciously.

Su Yu raised his hand and withdrew the golden flames forbidden wood swords. Then, he said lightly, “Do you think I only poisoned the lake?”

The golden light on golden flames forbidden wood dissipated, and a trace of the remaining colorful colors was striking for all to see!

Chapter 1413: The Remains are Missing

“What?” The eight-clawed octopus was taken aback, its dark red eyes expressing a mortified look.

It watched as its skin was gradually penetrated by a ray of colorful colors, decaying its body from inside.

It turned out that as early as when Wang Qingchen reminded Su Yu that the eight-clawed octopus could be infinitely regenerated, Su Yu devised this plan and secretly smeared the Seven Poisons Demonic Toad’s venom onto the Nine Suns Cosmos Sword Formation.

Although the opponent’s body quickly regenerated, the venom was also quickly absorbed within the wound when the Nine Suns Cosmos Sword Formation cut through the tentacles of the eight-clawed octopus.

Perhaps the poison on one or two swords was not enough.

If so, then what about nine swords?

To prevent the eight-clawed Octopus from realizing this ahead of time, Su Yu attracted its attention in other ways until finally poisoning it.

Sizzle!

The body of the eight-clawed octopus decayed rapidly, melting into a black odorous liquid.

Because of the pain it experienced, the eight-clawed octopus roared again and again, “This general will not be forced by such a foul creature ...”

As the words left its mouth, a sword made of light suddenly wrapped around its huge neck.

As its massive head fell off its body, Su Yu caught it with a space ring.

At the same time, Su Yu cast the Milky Way Star Sand and purified the venom of the Seven Poisons Demonic Toad venom from its huge body. This then separated the body of the eight-clawed Octopus into pieces.

Its body stopped decaying immediately. Then, Su Yu's palm lighted up and he immediately strikes it, shattering its huge body.

Bloody water rose into the sky and covered it. Su Yu gathered all the traces of his blood with a single vessel with nothing left to spare.

Compared to the blood of those at Level Six beasts, the blood of a level three beast was pure energy of several orders of magnitude with a different color.

Its blood was no longer golden but now had a touch of grayish-white color.

Su Yu remembered receiving a drop of pure white blood from the body of the Book God. Now that he thought about it, the blood became whiter as one cultivated further.

He collected the blood as if nothing had happened, but Wang Qingchen stood by his side in astonishment.

He was almost dragged to death by the eight-clawed Octopus alive, but Su Yu managed to cleanly kill it in seconds.

Wang Qingchen felt bitter over the gap in their powers.

He originally wanted to come to Asura to privately cultivate himself, leave after completing it, and compete with Su Yu one-on-one.

He never expected that he would need to be saved by Su Yu during his training.

"Brother Wang, it is not suitable to stay here for a long time. This animal said that it had four other companions who are on their way as we speak," Su Yu said.

Wang Qingchen only then regained his senses and became rather awkward. "Alright, I will do as Brother Su says and hurry away. I know of a safe place where we can temporarily avoid trouble."

Half a day later, they hid deep within a hillside. The entrance was at the river at the foot of the mountain. If Wang Qingchen had not accidentally fallen into the river before then, it would've been hard to find such a hidden hillside.

There are traces of life deep within the mountains, but it had been a long time since anyone lived there.

"This place is a part of my wizard tribe. It was probably created out of the first of two expeditions into the Asura Forbidden Lands as the hiding place of the two capitals." Wang Qingchen pointed to the blurred engraved text on the wall as he added, "These wizard crafts are all known only between the four of them."

Su Yu looked around and found that he was familiar with the Heaven Trampling Style.

According to the records, the four of them entered the Asura Forbidden Lands for exploration but accidentally encountered a Triple Morphosis Worm.

The Lord of the Saint Temple at the time died, along with the Master of the Temple at the time.

Was this the place they used to hide?

Su Yu glanced briefly at the wizard craft before casually averting his gaze.

Wang Qingchen's eyes suddenly gleamed with light. "Brother Su seems to have no interest in the wizard craft of my wizard tribe. Any normal person would know that this is the inherited wizard craft left by the four supreme individuals. Who wouldn't get excited about it?"

Su Yu looked around and said, "Brother Wang does not have to test my intentions. My trip is not to snatch or steal anything from Brother Wang. Instead, I am fulfilling my promise with Chu Bawang by participating in a competition of hunting and killing ferocious beasts. However, it looks like we are here at the wrong time. The first barriers from the dangers of the Asura Forbidden Lands are far greater than usual."

Slightly relieved, Wang Qingchen said, "I do not want to hide from Brother Su, but I came to the Asura Forbidden Lands to sharpen my knowledge of life and death. I have a plan to achieve it, so I don't plan on guarding against Brother Su."

Su Yu remained silent and didn't care where he was going.

His attitude gave Wang Qingchen the feeling that he was being a bit insincere and unauthentic with him.

If Su Yu was a comrade who sought wealth, why would he have saved him just now?

"That ruin was the place where the Lord of the Saint Temple fell. At that time, the other three supremes left in a hurry without into account the remains of the Lord of the Saint Temple," Wang Qingchen said, "At the time, it was said that the Lord of the Saint Temple was carrying a vital seal that possessed great power. Even the Moonview Sect leader had to pay attention to that seal."

"However, the situation was critical at that time. There wasn't enough time to recover the seal."

Su Yu was surprised. "A seal that even the Sect Leader pay special attention to? If it's so important, why wouldn't the Saint Temple send someone out to find it?"

Wang Qingchen shook his head. "The three supreme figures left no specific instructions about it. They only mentioned where the Lord of the Saint Temple encountered the Triple Morphosis Worm and fell."

"Then did you find that seal?" Su Yu asked.

Wang Qingchen seemed to be smiling as he responded, "I found the ruins, but the seal is missing."

What? Su Yu got up and looked around with a surprised expression. "Do you mean that this is the ruins?"

Wang Qingchen said. "I didn't believe it at first, but seeing this stone was enough to convince me."

He took a large piece of crystal stone from a space ring, with the wizard tribe's characters on it.

The content of the text was left by the ancestors of the Wang clan who recorded exactly what they encountered here.

This stone monument was regarded as the tombstone of the Lord of the Saint Temple, which they had set up in a hurry.

Su Yu took the crystal stone and stared at it, gleaning. "If this is the burial place of the Lord of the Saint Temple, then what about his body?"

Wang Qingchen said, "I found it strange, as well. At that time, the Lord of the Saint Temple was strong. Thus, it only makes sense that his remains wouldn't rot so quickly."

They looked at each other and saw the surprise in the other's eyes.

So where was the body of the Lord of the Saint Temple?

Suddenly, Su Yu looked at the crystal stone in his palm and suddenly brightened up. He thought for a while and said, "Can you give me this stone?"

Wang Qingchen was stunned for a while before he said, "This monumental stone is worthless. If Brother Su likes it, he can take it as my way of repaying Brother Su's attempt at saving my life."

"Then I won't refuse it..." Su Yu said. With that, Su Yu suddenly struck through the cold air and immediately made a silent gesture.

Wang Qingchen's heart beat fast, and he looked up at the sky feeling uneasy.

The breath of something thrilling came forth, right at the top of this mountain!

On top of the mountain flickered two figures, one green and one red.

The green figure was that of a middle-aged individual whilst the red figure was rather fuzzy, much like a demon monster.

"To be able to kill Number Five in such a short time and quickly escape our pursuit, he is by no means a master. Brother Blood Demon, could it be that the wizard tribe leader has noticed us and appeared in person?"

Blood Demon was the grisly blood-red creature with dark red blood eyes that hid in the shadows observing the rest. He said hoarsely, "No. If it were him, he wouldn't find Number Five or us. He will search for our master instead."

The green figure thought and nodded, "Brother Blood Demon is right. It must be those fools of the wizard tribe. They changed the prohibition without authorization and gave the master a chance to escape the trap. As long as we have enough time, our Asura world will return and take over!"

Chapter 1414: The Source of the Abnormality

"But if it's not the Matriarch who killed Number Five, then who did it? According to the memories we got from Soul Search, there are less than five or six people with such strength in the Wizard Tribe," The green figure said.

The Blood Demon's nostrils snorted coldly, his dark red eyes flashing fiercely. "It must be the two highly skilled individuals from the Wizard Tribe planning to compete within the Asura Forbidden Lands! By killing Level Three creatures, they can get nine points for it!"

Hearing this, the Green figure sneered, "They take our Asura Realm as a source of prey. Hmm. Since ancient times, it was always the Asura Realm that hunts other creatures. These two do not know what the hell they're doing!"

“Huh! No matter why they hunted down Number Five. Now that the master is out, no further accidents are allowed! All creatures in the Asura Forbidden Lands are starting their search for these imbeciles. We must rid these weeds at the roots!” The Blood Demon said.

His hoarse voice passed through in all directions, and the Ferocious Beasts nearby immediately moved out in search of Su Yu and the others.

Brush!

In two breaths, the Blood Demon and the green figure swept far away, paying no attention to the unremarkable mountains at their feet.

In the belly of the mountain, Wang Qingchen was horrified. “What are those two creatures? Especially one of them. He is particularly evil!” he said, his voice slightly trembling

Su Yu briefed him on what he saw and heard. Hearing this, Wang Qingchen had a solemn expression as he said, “I am afraid that I am forced to retreat. The Ferocious Beasts here had an abnormal change and are now at a level higher than me.”

“Abnormal change?” Su Yu raised his brows and recalled that when he entered the Asura Forbidden Lands, he saw the sky filled with creatures resembling dragons. He could not help but suddenly realized that the Asura Forbidden Lands had truly changed.

Wang Qingchen said, “Half a month ago, I felt that the prohibition in the forbidden land had changed. Immediately afterward, an extremely evil wave radiated from somewhere deep in the sky. Wherever that wave swept, all creatures underwent an abnormal change.”

“Their eyes gradually turned red and their temperaments became tyrannical. They also suddenly developed supernatural instincts such as a sudden increase in physical strength, a heightened stealth ability and the ability to morph, etc...”

Su Yu remembered the group of small frogs he met with highly toxic poison that did not match their cultivation base. If nothing else, they should have received those toxins from abnormal change.

“Brother Su, we must not delay any further. We must leave this place immediately, or it will get more dangerous and unpredictable.” Wang Qingchen’s anxiety grew.

Su Yu narrowed his eyes and said, “Sorry, but I don’t plan to leave for the time being. The outcome of this contest is crucial for me. If Brother Wang wants to leave, then please do so as soon as possible.”

Thinking for a while, Wang Qingchen sighed and replied, “Well, then let me help Brother Su to kill as many beasts as possible and win the competition.”

He continued, “The rules state that although outsiders are not allowed to assist in killing beasts, it will not be a problem for me to help Brother Su by pointing out where the beasts are. I was in Asura Forbidden Lands for more than half a month, so I know most of the terrain as well as the nests of many beasts.”

Hearing this, Su Yu's eyes brightened. Wang Qingchen serving as a guide could allow him to complete his task more efficiently.

"Thank you!" Su Yu said.

Wang Qingchen smiled bitterly. "I did this in hopes that I can stay safe and get through this disaster with Brother Su's blessing."

Besides the abnormal change in the Ferocious Beasts, there were also two extremely horrible unknown beasts wandering around. Additionally, he had lost all his wizard tools and his wizard power was dwindling. Why would he walk alone through the forbidden lands?

Following Su Yu was his safest option.

"Brother Wang is too humble. We are helping each other, so how can we talk about me offering you a blessing?" Su Yu smiled lightly.

Wang Qingchen laughed, "Brother Su is self-effacing! I know a few beasts are living in groups, but there is one that is most suitable for Brother Su to challenge."

"Where?"

"The source of the abnormal change, the intersection of Level One and Level Two Realm." Wang Qingchen said.

Su Yu gleamed and said, "There ..."

Wang Qingchen said, "After the occurrence of the abnormal changes, I went to investigate and found ten beasts in the Level Four realm staying together. Given Brother Su's strength, it would be easy for you to eliminate all of them. In that case, Brother Su You get sixty or seventy points. Indeed, that would make it difficult to beat you."

Hearing this, Su Yu got excited and replied, "Okay, let's take a look."

Two days later, they went straight to the source of the abnormal change.

On the way, Su Yu noticed the eyes of the Ferocious Beast several times. They did not look truly mutated, but they did seem to be acting as surveillance.

A bad feeling came to him and he whispered to himself, "This will have to be a quick and decisive battle."

"Brother Su, up ahead." Wang Qingchen pointed away at a vortex on the horizon.

This vortex was the same as the Asura Forbidden Vortex seen by the outside world.

The difference was that it was no longer a painful and itchy red thunder. Instead, it was now replaced with a terrible scorching flame.

The terrible flames would incinerate anyone into ashes. This wasn't only true for Su Yu, but perhaps for the Leader of Moonview Sect as well.

"That's the Level Two Realm seal of the Asura Forbidden Lands. It is said that there are thirty terrible Level Three creatures sealed inside," Wang Qingchen said with a

calm look across his face. "Fortunately, they've been sealed away so they could not go out to harm the Lost Nation."

Su Yu thought to himself, 'The Level Two Realm seal most definitely sealed more than thirty beasts!'

That amount was inestimable, but they most likely could easily destroy the entire Lost Nation.

"Under that vortex, there was originally a group of Duckbill Beasts ranked at Level Four. The mutation first affected them, so they had mastered the special ability of stealth. In other words, it would not be as easy as before to eliminate them." Wang Qingchen said.

Su Yu's eyes looked into the distance. Sure enough, he spotted a group of duck-shaped beasts appearing and disappearing in the silver lake under the vortex.

"Sure enough, mastery of stealth," Su Yu whispered, "Brother Wang, wait here for a while. I will go in and come back here as soon as possible."

After he finished speaking, Su Yu concealed his figure and breath, then quickly disappeared in front of Wang Qingchen.

At the next moment, a breeze floated by the lake. The reeds fluttered gently, and an invisible figure quietly approached the lake.

Immediately, a stream of colorful liquid was silently poured into the silver lake.

Eighteen Level Four Duckbill Beasts continued their foraging in the silver lake, unaware of what was going to happen.

Suddenly, one of the Duckbill Beast screamed violently. Its feet soaked in the lake water were rotting!

Under the severe pain, the Duckbill Beast flapped its huge wings and hurriedly flew into the void.

Because its body was rotting, the dripping blood immediately exposed its position even when he was invisible.

The rest of the Duckbill Beasts followed and flew into the sky in quick succession, albeit with their lower bodies decaying.

Su Yu saw this and with that, nine golden lights swirled and formed in his palm. He was preparing the Nine Suns Cosmos Sword Formation and intended to gun them down as they were unprepared.

However, a gray aura of power now flashed over and killed one of the Duckbill Beasts.

Its death immediately alerted the other Duckbill Beasts, and they spread out one after another.

They quickly coordinated with each other. Fourteen of them fled, while four remained behind as sentry. Their dark red eyes coldly darted around, ready to block off any attacks on their companions at any time.

Su Yu's eyes turned cold. He looked at the place where the dark gray power appeared, but he could only make out a figure covered in a transparent cloak sneaking behind a huge rock.

Chapter 1415: Blood-Red Light Curtain

Overjoyed by the fact that he successfully performed a sneak attack on a Duckbill Beast, he immediately unleashed wizard power to hunt down the other Duckbill Beasts.

Just as Su Yu expected, the four Duckbill Beasts immediately found themselves under a sneak attack and immediately rushed in to shield their companions.

Slash!

Four Duckbill Beasts were beheaded, but the rest of them had already fled and scattered by then. It was impossible to kill them again.

This person's actions could be said to have completely destroyed Su Yu's overall plan on eliminating the entire group.

"Heh. I may not have found the few Level Three Ferocious Beasts that the old guy left me, but the harvest of so many four-fold Ferocious Beasts is also worth it. Su Yu may not have so lucky in finding so many."

Su Yu sneered to himself. Who else would have used such a cheap tactic in a fight? It had to be Chu Bawang!

Just when Su Yu was about to show up and surprise Chu Bawang, he suddenly felt a chill crawl down his spine before he immediately hid his exposed breath and figure again.

"Hmph! Sure enough, there is a big fish here!" The hoarse voice of the Blood Demon rang through the Silver Lake with no barriers.

Beside him, a Green figure followed his shadow.

Taken aback by this, Chu Bawang looked up and stared at him. "Two Level Three Ferocious Beasts?"

He licked his lips and thought with a sneer, 'What a shame for them to have met me. I couldn't find you, but you decided to send yourselves to me instead!'

Chu Bawang had the right to despise ordinary Level Three creatures, but it was a pity that the ones standing before him were not ordinary creatures!

"Bound Dragon Curse!" Chu Bawang suddenly struck. A powerful inherited wizard craft emerged and went straight to the Blood Demon and Green Figure.

The Blood Demon held his arms with both hands, his calm expression seemingly unchanged.

The Green figure beside had a slight look of scorn. "Had I not regained the power of Asura, I might still be afraid of your wizard powers. But now..."

He waved his Green fist in the air, and the wizard power that rippled by seemed to have met its match and quickly subsided. It then finally disappeared without leaving behind a trace.

"Ah! How is it possible?" Chu Bawang was taken aback. He looked to his side and tried to escape immediately.

Just as he was about to escape, a huge duckbill beast suddenly emerged from the water. Much like eating a small fish, it swallowed Chu Bawang into its mouth in one bite.

A large Duckbill Beast surfaced as this happened, standing ten times larger than a regular Level Four Duckbill Beast.

Its dark red blood eyes appear colder than those of regular beasts. It was covered with hardened steel-like feathers.

It held Chu Bawang firmly in its mouth. Although Chu Bawang could exert his wizard power on it, the attacks did not affect the Duckbill Beast.

The Green figure withdrew his fist and chuckled, “Kudos to Number Four! Wizard power does not affect you! On the foundation of Asura’s power, only our Blood Demon boss possesses the same amount of power as you.”

The Duckbill Beast threw Chu Bawang onto the ground. His body was covered in a thick layer of viscous mucus, trapping him and rendering him unable to move.

Duckbill Beast’s dark red blood eyes looked around, but it scanned past the two of them. It then said in a low tone, “You’ve got the wrong one. This kind of thing is impossible to have killed Number Five.”

“Isn’t he the one?” The Green figure was startled.

With a terrible look on his face, the Blood Demon shook his head. “It’s not him! He doesn’t have the breath of Number Five’s blood on him.”

“It can’t be. We launched the creatures throughout Asura Forbidden Lands to seek out the people who killed Number Five and managed to find suspicious-looking people heading straight to the Level Two Realm entrance. In that case, it makes sense for us to set up an ambush here. Why did he not come?” The Green figure exclaimed loudly.

The Blood Demon and Duckbill Beast glanced around. The air was slowly filled with a tyrannical murderous intent.

Blood Demon sneered coldly. “Who told you that he didn’t come?”

The Duckbill Beast also said, “He’s here! He’s still nearby, by the poison in the Silver Lake!!”
Brush!

Just then, a gray figure flashed above the lake, bringing about a series of whirlwinds.

It was a creature with the head of an eagle and the body of a human.

Its mouth held a person. Who else could it be but Wang Qingchen?

Wang Qingchen’s abdomen was torn apart by giant claws; he had been severely injured.

Su Yu was stunned. With Wang Qingchen’s combat power, it was a huge surprise that he could be injured like that in a short amount of time!

Gauging the situation, it seemed that Wang Qingchen hadn’t put up much resistance!

This giant eagle...

The giant eagle dropped Wang Qingchen onto the ground and said, "Are you looking for him?"

After hearing these words, the Green figure and the Duckbill Beast stepped forward to examine. "Kudos to Brother Number two. The prey is caught by his prey behind him!"

The four mutated beasts came around and looked at Wang Qingchen.

The Blood Demon's eyes flickered. "Well, yes. He has the breath of the blood of Brother Number Five within him, so it should be him."

Duckbill Beast also echoed, "This person is quite cunning. If Number Two hadn't kept watch, I am afraid he would have managed to escape."

The Green figure said, "The murderer has already been caught. How shall we deal with them?"

Everyone looked at the Blood Demon, the eldest of them all.

The Blood Demon looked up at the vortex of the sky and said, "The seal needs to be lifted immediately. The cultivation of these two people is ranked high amongst the Wizard Tribe, so the power of their bloodline should help speed up the process of removing the seal. It is best to use them as a sacrifice."

With that, the Blood Demon grabbed the two and flew deep into the vortex with the other three Ferocious Beasts.

The group disappeared in the blink of an eye.

After a long time, Su Yu still did not move or expose his breath.

Half a day had passed and he was as still as a rock. He did not move one bit.

However, not far from where Su Yu was standing, the Duckbill Beast had stealthily appeared before him just now!

It glanced around doubtfully. "Did I sense it wrongly? It seemed clear to me that there have been momentary breath fluctuations in this neighborhood."

"You're overthinking it!" In the vortex, a giant eagle swooped down. Its sharp eyes seemed to be able to catch all subtle movements.

At the same time, the Blood Demon and Green figure also flew out from the vortex.

The Green figure said, "It seems that there is no one else. We thought about it too much."

"In that case, then let's go." Blood Demon said. Along with the three other Ferocious Beasts, they successfully got into the whirlpool this time.

Soon after, the breeze was blowing, but Su Yu remained unmoved.

After several hours passed, there was a sigh in the air. "It seems like nobody is here. Let's go."

An hour passed.

Only then did Su Yu appeared. His eyes were sharp as he said, "A group of very cunning beasts!"

They pretended to leave twice in a row but were secretly preparing for an ambush, enticing those in hiding to reveal themselves.

Fortunately, Su Yu was patient enough to avoid falling for their trick.

Looking at the vortex above him, Su Yu hesitated for a while but ultimately decided to follow ahead.

He promised that he would keep Wang Qingchen safe. Now that he was in trouble, Su Yu couldn't stand idly by and do nothing.

Unlike the whirlpool of the Level One Realm, there was another universe in the vortex.

In this vortex was actually space. Within it was a huge maze that was constantly moved by waves.

There was a Blood-Red Light Curtain above the maze, which seemed to block the top of the skydome.

One could faintly make out all the dark dragon shadows reflected on the blood-red light curtain as they quickly flew by.

Su Yu's pupil shrank slightly. The Blood-Red Light Curtain was the seal of the Level Two Realm!

Chapter 1416: Seize the Core

Su Yu had no clue what the maze below had in store for him.

Heavy fog covered the maze, and the road ahead appeared to be complicated. The weirdest thing about it was that the blood-colored light curtain made it impossible to fly around the space. He could only try to find his way around through the maze as any ordinary person would.

Su Yu tried to use his Transparent Eyes, but his sight was again restricted by the blood-red light curtain above him. He was unable to see through the labyrinth and find his way out to the other side.

After contemplating for a while, Su Yu's thoughts had shifted. Suddenly, Evil God appeared in front of him.

"Well, well, well. Looks like you got yourself into some serious trouble again, kid. This seal is enormous! Correct me if I'm wrong, but isn't it the doing of a super strong person of at least Level Two that can seal up the entire sky??" Evil God glanced at the seal, and he knew immediately that this was no ordinary seal.

Su Yu replied, "Don't speak of such nonsense. My friend was taken away, so I need you to find his breath and lead me out of this maze."

Evil God raised his head, placing his hands on his hips as he proudly said, "Boy, I never wanted to say this. While you are rather strong on your own, however, you still rely on me, the Evil God, at the most crucial moments! To find your way out of this maze... Haha! I don't mean to brag, but even the nine Emperors are no match for my skills!"

Su Yu said lightly, "I don't think any emperor would be more capable of sniffing things out than you could with your dog nose."

“Hey! Try insulting the dog again! What’s wrong with the dog? My dog is glorious!”
The black dog grinned.

Su Yu said, “The only way you could ever be glorious is if you find my friend.”

With that, Su Yu took out a jade tombstone and said, “There is the breath left by my friend on it. Smell it.”

Unexpectedly, the black dog saw the tombstone and his fur stood right up. Frightened, it hurriedly backed up repeatedly. “How are you carrying this thing with you? Do you know what this is?”

Su Yu nodded. “I am aware that it’s something very dangerous!”

“You know that it is dangerous, but you still carry it with you? Do you want to die?”
The black dog said.

Su Yu flashed with a glow. “I have great use for this thing.”

The black dog stared straight ahead and said, “There are many people in the world who are not afraid of death, and I now consider you to be one of them. I wouldn’t even dare to carry out all of your tricks!”

“Okay, that’s enough. I already smelled this thing, so take it back now.”

Su Yu solemnly put away the jade tombstone and murmured, “If it were possible, I would not use this thing in the first place.”

The black dog’s nose was so sensitive that he quickly discovered Wang Qingchen’s breath. In the labyrinth, he moved forward as if he was familiar with the way to get there. He avoided dead ends, skipped past one trap after another, and soon caught up with Wang Qingchen’s breath.

Soon, Su Yu’s ears intermittently sounded.

“This labyrinth is a pain... Without the five old guys leading the way, we still would have never made it to the end of the labyrinth and release our master even after hundreds of years.”

“It is all thanks to them for coming. We can follow them to the control center of the Level Two Realm seal and gradually unlock it. Once we do so, we can release our master.”

“Now with these two as supplements, I believe the owner can break a part of the prohibition from within so that it will be even faster for him to break out.”

Su Yu moved ahead cautiously, while the black dog had also sensed the danger ahead. He masked his breath and silently followed them.

Half a day later, they finally came to the center of the maze after navigating a complicated and difficult portion of it.

They found themselves in a square room.

Complex wizard crafts were lying on the ground. With just one glance, anyone could see that there were at least a thousand of them!

Each shone with endless light. Some emitted dark grey light, while some were blood red.

The blood-red light occupied the majority of the space and continued to spread outwards.

The Blood Demon, Giant Eagle, Frog, and the Duckbill Beast stood in the center of the square. In the middle was a suspended crystal ball the size of a fist.

The Blood Demon was carrying a dried-up corpse in his hands. It was Chu Bawang!

He had been stripped of all his flesh and blood, leaving only bones and skin sacs on him.

To think that the famous most skilled warrior of the Wizard Tribe would ever end up like this!

His flesh and blood dripped onto the crystal ball, causing it to spin a little whilst making a snorting noise. Then, it emitted a burst of red light.

The blood-red color wizard craft on the ground immediately increased, while the dark-gray wizard craft suddenly decreased.

The four creatures appeared to be overjoyed, unable to contain their excitement.

“80% of the seal has already been lifted!” The Green figure said in surprise, “The blood of this wizard has a special effect on lifting the seal. He and the other five wizards should all be from families guarding our Asura Forbidden Lands, the Chu Clan!”

Even the Blood Demon, who usually remained apathetic, seemed to look happy. He said, “Heh, it’s more than that! This person should be an important inheritor of the Chu Clan. His blood power is much stronger than the five old things, and the seal unlocked by 30% just from his blood! There is still 20%, and the master can break out from inside within five days.”

Duckbill Beast nodded and said, “As long as we protect the crystal ball, that is. This thing is the core that controls the formation. Without it, the seal cannot be completely broken.”

“Indeed. From now on, we shall not bother with anything going on in the outside world. We will guard the crystal ball and wait for the master to get out!” Blood Demon said.

The four were very excited. It seemed that the long-cherished wish that they had been waiting for many years was about to be fulfilled.

Suddenly, the giant eagle said, “One more sacrifice from the Wizard Tribe should be enough.”

Looking forward to seeing the result, the other three Ferocious Beasts replied, “Heh. If this person is more powerful than the one just now, will he also be a member of the Chu Clan? If so, maybe the seal can be unlocked by today!”

The eagle stared at him coldly. His claws sucked in Wang Qingchen, pulling him onto the ground towards him.

At the same time, he sharpened his claws in preparation to crush Wang Qingchen.

However, at this moment, the giant eagle appeared to have sensed something. His expression changed drastically, Instead of attacking Wang Qingchen as he planned, his claws had now switched gears to block something in front of him.

Clash!

A tremendous fighting spirit rose on the ground, striking the giant eagle and the other three Ferocious Beasts that were there.

The fierce fighting spirit was highly awe-inspiring, forcing them to heavily defend themselves from it.

Screech!

When the fighting spirit dissipated, the giant eagle grasped at the spot where Wang Qingchen was meant to be killed only to touch something extremely hard. Not only did it fail to tear the sneak attacker as it was imagined, but the claws grabbed a few bits of light from a fire.

He opened his eyes wide, and a silver-haired back quickly disappeared from their sight.

“This is bad! The kid who was going to be sacrificed was rescued!” The Green figure shouted.

What?! The Blood Demon suddenly turned his head. It wasn’t Wang Qingchen he was looking at... it was the crystal ball!

Just as expected the worst possible outcome, the crystal ball disappeared!

Not only did their enemy rescue their human sacrifice, but they also stole the crystal ball right from under their noses!

The four Ferocious Beasts momentarily stiffened up as their expressions changed drastically.

“Quickly, go after him! We can’t let him take the crystal ball out of Asura Forbidden Lands, or it will be forever impossible for us to unlock the master’s seal! If that happens, we will never be able to leave the Asura Forbidden Lands!”

Unfortunately, Su Yu was prepared and exited the maze quickly using the original path he took.

The special terrain did not allow flying here, so they could not catch up with Su Yu.

Sneer!

However, the sky suddenly darkened.

Su Yu looked up and his heart jumped!

A huge monster was projected on the huge red light curtain in the sky!

Densely pointed horns rested on its huge head. It could’ve resembled either a dragon, a demon, or a ghost.

A pair of extremely dark red giant eyes glowed like a lantern, stared at Su Yu coldly.

Ka-cha!

At that moment, the head of the mysterious monster slammed into the light curtain, causing it to shake drastically. Then, a crack suddenly appeared!

It was as if it would now break the seal and drill out from the other end!

Chapter 1417: Escape from the Asura Forbidden Lands

However, the remaining grey wizard powers in the middle of the labyrinth now shot out chains of gray and black. They flew towards the blood-colored light curtain and wrapped themselves around it.

The blood-colored light curtain immediately stopped trembling, and the cracks on it quickly smoothened out.

No matter how hard the mysterious monster hit his head on it, the curtain remained unshakeable.

After a few more tries, the mysterious monster gave up his fearless attack. Still isolated within the seal, he said in a majestic voice, "Human creature, put down the crystal ball. If you do, I can grant you benefits that you could never grasp in your eternal life."

Su Yu asked, "How great are these benefits?"

"These benefits are unimaginably useful. The Lost Nation that you work for would never give you these," the mysterious monster said indifferently, speaking with a sense of contempt for the world.

What a bold claim!

Upon noticing that Su Yu didn't respond, he said with indifference, "Why, you don't believe me?"

Su Yu smiled faintly. "To be sealed here by ancestors of the Wizard Tribe... you must be incredibly strong. While I do believe you can really give me unimaginable benefits, I don't believe I'll get them all while I'm still alive."

Once he finished speaking, Su Yu glanced behind him while seemingly smiling. "I think you've been stalling for long enough. Goodbye!"

Four Ferocious Beasts were fast approaching!

Brush!

Su Yu immediately left and disappeared into the labyrinth. When the four Ferocious Beasts arrived, they couldn't find any trace of Su Yu being there.

From within the blood-red light curtain, the dark red blood of the mysterious monster flashed and he screamed, "Human, you will regret this!"

His furious voice echoed throughout the maze, shaking the blood-red light curtain like never before.

The remaining gray wizard power on the ground radiated light again, sealing the blood-red light curtain firmly.

Su Yu left the maze and flew straight for the vortex. Without a word, Su Yu grabbed the comatose and severely injured Wang Qingchen in one hand, while he used the other hand to cast a quick spell. "Yin Yang Wings of Supreme Pole!"

Suddenly, the yin and yang of the world were disordered, and the world was turned upside down.

When Su Yu appeared again, he had teleported hundreds of millions of miles away and crossed more than half of the world within the Level One Realm.

Su Yu decided that he might as well place Wang Qingchen into the space ring before immediately concealing his figure and breath. This was to make sure that he would not be detected and therefore captured.

With that, he headed with ease towards the vortex's entrance.

Along the way, Su Yu tried to avoid the monster-infested places of the Asura Forbidden Lands, so as not to be discovered by them and expose his whereabouts.

Because of this, Su Yu's was moving forward at an extremely slow speed.

Ten days later, he finally lurked near the entrance of the whirlpool.

He saw the red lightning flashing at the entrance of the vortex from afar. He could use it to leave the Asura Forbidden Lands.

After experiencing the cunning behavior of the four Ferocious Beasts himself, Su Yu would not be fooled.

Su Yu's eyes flashed slightly as he maneuvered tactics with one hand. A figure of himself appeared beside him; it was one of the tactics of the Divine Skills.

This doppelganger was generally similar to his true physical body. There were no notable differences in its breath as well.

Su Yu controlled it to quietly circle into a forest. Like a sharp arrow from the forest, it suddenly flew towards the vortex in an attempt to escape from the Asura Forbidden Lands.

Kacha!

However, just as it rushed out of the woods, the sky suddenly flashed with an afterimage.

The afterimage was extremely fast, just like a bolt of black lightning. It instantly appeared in front of the doppelganger!

However, the doppelganger quickly reacted to it. When the lightning appeared, it immediately turned around and ran back into the woods.

The lightning-like black figure appeared. It was the giant eagle!

Three other figures also appeared one after another from the darkness.

The green figure sneered, "Hmm! Amazing calculations, Blood Demon! You speculated that this child would come back here. We did not wait here in vain."

Blood Demon said, "You entered the Asura Forbidden Lands and now you want to escape again. Is that even possible? Hmph! Seize him!"

Blood Demon, Giant Eagle, Frog, and Duckbill Beast chased the doppelganger into the woods.

Hearing the violent movements in the woods, Su Yu thought they must've been engaged in a heated exchange.

At last, Su Yu came to the vortex without making a sound and jumped into it with a confident smile.

But alas! A fiery red net had now appeared in the vortex!

The giant net sensed that a creature jumped into it and immediately activated in response. It suddenly leaped out of the vortex, covering Su Yu while he was caught off guard!

“I’ve been tricked!” As Su Yu’s expression changed drastically, he frantically channeled his powers in an attempt to tear the giant net apart.

Nine Suns Cosmos Sword Formation!

The indestructible Golden Flames Forbidden Wood sword cut into the golden giant net with a low howl, creating a series of sparks. Sadly, it only managed to leave shallow marks on the net.

It would take some time to cut completely through it!

However, it was obvious that Su Yu didn’t have time to waste!

Whish! Whoosh! Whish! Whoosh!

Four figures arrived and surrounded Su Yu as if they had been waiting for a long time.

The green figure couldn’t help but burst out into laughter. “Hahaha! You’ve finally been fooled! The Blood Demon brother’s guess was right. This person is very cunning and will never personally take risks. We knew that he would use something as a decoy to test the exit and lead us astray!”

They had anticipated Su Yu’s plan.

Su Yu was trapped in the giant net, and the God’s Power in his body wasn’t flowing smoothly. There wasn’t much he could do to resist. He gritted his teeth and said, “You are too cunning!”

Blood Demon sneered. “No one said anything about fraud! Besides, we give you what you gave us! You used trickery to steal our crystal ball, and now the same thing’s happening to you!”

“Kill him, find him immediately!”

“Got it!” With beaming eyes, the Green figure licked his lips as a palm of Asura power was brewing. He slapped his palm on Su Yu’s forehead and exclaimed, “I’ll search your soul first, then talk later!”

Boom!

The green figure stiffened when the palm blew Su Yu into pieces. Without a trace of his flesh or blood, it remained an empty shell.

Blood Demon, Giant Eagle, and Duckbill Beast simultaneously froze.

The Blood Demon flashed around as his expression suddenly turned cold. He shouted, “No! We’re the ones who have been deceived!”

With that, the dreadful claws of the Blood Demon were suddenly caught on the entrance to the vortex without any warning.

There was nothing in the sky, but whatever had caught Blood Demon’s claws made him cry out with a piercing sound.

A figure emerged out of nowhere.

That silver-haired handsome face... If he wasn't the outsider who snatched their crystal ball, who else could it be?

With a faint smile, Su Yu now faced away from the whirlpool. "Everyone from the Asura Forbidden Lands, this is goodbye."

With that, he jumped backward with both feet, causing his entire body to fall into the whirlpool!

"No!" Blood Demon roared. He then transformed into a line of blood and moved forward in the hopes of preventing Su Yu from leaving.

Su Yu looked as calm as he usually was. A black scale on his chest spun out to act as a shield in front of him.

Blood Demon's claws could shred anything in the void, but rubbing them against the scale only generated a series of sparks. It failed to hurt Su Yu at all.

Su Yu's figure completely disappeared into the vortex. He was gone.

Blood Demon was furious. "The core of the seal control cannot be lost. We must get it back!"

Giant Eagle sneered, "All thanks to the few idiots of the Wizard Tribe for changing the banned seal without permission. They left some loopholes with the Level One Realm, so we have the opportunity to leave from there and reach the outside world in a short time. "

COMMENT

Brush!

From his back, he pulled out a bloody spine, which contained an astonishing Power of Asura. It was similar to the power of the mysterious monster on the other side of the Blood-red Curtain seal.

Brush!

The three other Ferocious Beasts also pulled out their spines whilst bearing the pain.

Four spines brimming with the Power of Asura were intertwined together!

After a round of rotation, Su Yu returned to the outside world.

The smell of the long-lost clear air calmed Su Yu's heart a little. He felt more at ease.

However, a gloomy voice of anxiety and disappointment immediately landed in his ears. "How did you manage to come out first?"

He opened his eyes and saw Chu Long and Ling Wu, who had been waiting outside the Asura Forbidden Lands for about half a month.

Chu Long's eyes flickered as he said with a deep voice, "What about Chu Bawang?"

"Do I need to answer you?" Su Yu said.

Chu Long was already accustomed to Su Yu's attitude. He hummed but didn't say much. Instead, he stared closely at the whirlpool, deeply hoping for Chu Bawang's return.

From beside him, Ling Wu came forward and said, "How many monsters did you hunt down?"

Su Yu said, "One."

After hearing this, Chu Long chuckled to himself. A huge weight had been completely lifted off of his heart.

Within fifteen days, Su Yu only managed to gun down one Ferocious Beast.

With slight contempt, Ling Wu secretly said, "You do not live up to your name. You should not have only gunned down one Ferocious Beast. Thus, there is no doubt that the Chu Clan has won the game."

Out of a sense of duty, he still said, "Take out the head of the Ferocious Beast and the jade pendant I gave you. Let me take a look."

Su Yu fulfilled his request and took out the Jade Pendant along with a huge octopus head.

As soon as the object was taken out, it immediately exhaled an extremely fierce breath containing the residual Power of Asura within. It seemed to be resistant to the effects of Wizard Power.

Startled, both Chu Long and Ling Wu looked at him with horror.

"A Level Three Ferocious Beast?" Ling Wu took in a breath of cool air as he felt his hair stand upright.

To think that he was capable of killing a Level Three Ferocious Beast on his own!

Because the Ferocious Beasts in the Asura Forbidden Lands had been fighting each other for several years, they were far stronger than most of the Level Three Wizards within the Wizard Tribe.

Su Yu was able to eliminate one of them, which meant that if Su Yu could easily eliminate any Level Three Wizard if he wanted to.

Ling Wu kept his distance from Su Yu, secretly remaining vigilant.

Chu Long was also taken aback, given that this octopus was one of the three Ferocious Beasts that roamed the Level One Realm. Their presence here meant that the master of the five clans he sent in did not succeed in catching this eight-clawed octopus.

"Was there some sort of accident?" Chu Long wondered. He then remembered that the five of them acted as they had been told. The five of them should have traveled together. If they encountered any dangers within the Level One Realm, they should have been able to deal with it as a group. With that in mind, he felt more at ease.

Ling Wu said in a serious tone, "For one Level Three Ferocious Beast, you scored ten points! Next, we shall wait for Chu Bawang to return."

He thought to himself, "Even though Su Yu surprisingly beheaded a Level three Ferocious Beast, this will still end as we planned."

However, Su Yu now pouted and said, "There's no need for you to wait for Chu Bawang's return. He's never coming back!"

Chu Long suddenly turned his head and stared at Su Yu. He said, "What do you mean by that?"

Chapter 1418: Non Participation

With a shrug, Su Yu replied, "I meant what I said. He's never coming back."

This could've meant one of two things; he was either trapped there or dead.

In such dangerous places like the Asura Forbidden Lands, it is much more likely to be the latter if he didn't return!

"What are you talking about?" The color on Master Chu's face changed. "If you dare to lie, I'll make you stand upright and walk sideways!"

Su Yu looked at Ling Wu as he said "Master Ling Wu, he threatened the contestants. As the supervising messenger sent by the leader, isn't this something you should be concerned about?"

After hearing his name, Ling Wu felt the need to come forward. He patiently said, "Su Yu, the Chu Clan Master cares about his child, so he has the right to speak as such. You should be considerate of that as well."

With a faint smile, Su Yu blankly said, "Well, I can understand how someone would feel after losing a son. However, Chu Bawang has only his skin and bones left. I doubt any Ferocious Beast will ever send his body back. What does that mean for this competition? Will it continue until that happens?"

Ling Wu said, "Today is the end of the contest. If he doesn't come back, he will be considered to be defeated. In that case, you would be the winner by default."

Su Yu looped his hands on his chest and said, "Yes. If it is only for half a day, then I can handle it."

"How dare you spout out such lies! Bawang has... In short, he has a trump card. Anyone might die, but he could never meet the same fate!" Chu Long's pupils flickered violently, and one could make out the few remains of his hope and expectations.

Su Yu said, "What does he have? Since five elders of the Chu clan can protect him, he can never die?"

What? Chu Long's face changed drastically. Finally stricken with panic, he said in surprise, "What did you see?"

"Not much, just those five heads. Assuming nothing else went wrong, it should be the card that you, the Chu clan, must have created for this competition," Su Yu said.

"Bullshit. How could they have been killed?" Chu Long said in shock.

Su Yu spread his hand out and replied, "I didn't expect you to believe me. If that's the case, then go ahead and wait here patiently for another half of a day."

Half a day had passed. With every minute, the period of half a month that they agreed on was coming to an end.

Chu Long stared at the whirlpool with both eyes, his eyes gradually drying up and turning blood-red. Despite this, he still refused to give up hope.

However, his heart sank deeper and deeper as time passed.

Even if five elders working together were not enough to kill the Ferocious beasts, they should've at least been able to escort Chu Bawang back.

However, there had been no movement until now. That could only mean that something that wasn't part of the plan had happened.

Ling Wu remained silent, but inside he was secretly surprised. The five powerful Level Three elders of the Chu Clan had fallen, along with their heir, Chu Bawang!

What happened in there? How could the five elders not come back alive?

Finally, the time was up.

Although Ling Wu has a partiality to help the Chu clan, the rules had already been established. He didn't dare to change it without permission.

With a sigh, Ling Wu said, "This is unfortunate, Chu Clan Master. Because Chu Bawang failed to return as scheduled, he is considered to have failed the competition. The winner of this competition is Su Yu!"

"Hold on!" Chu Long turned around. Under the armor, it exposed a pair of eyes that reflected gloomy light.

"I suspect that he killed my son, Chu Bawang! Lord Ling Wu, please use the Jade Pendant to learn the truth!" Chu Long spoke in an icy cool tone. He exuded a sharp breath, seemingly eager to kill Su Yu at any moment.

Ling Wu immediately said. "Of course! The Chu Clan Master's request is permitted by the rules of the competition. This will be no problem at all!"

He did not care about whether or not he would damage Su Yu's reputation. He immediately agreed out of fear of offending the Chu Clan Master if he didn't.

Ling Wu took out the jade pendant and immediately activated it. The jade pendant projected a flowing scene depicting exactly what Su Yu did after entering Asura Forbidden Land.

The images of the Green figure and Blood Demon made their expressions change drastically.

Even if they were images, they could still feel the horror coming from the two creatures. They were by no means ordinary Level Three Ferocious Beasts!

What made their faces change further was that there were five heads on the top of the mountain.

Chu Long was horrified. With one glance, he recognized them as the heads of the elders of the five tribes he had sent in prior. He ordered them to capture a few Level Three Ferocious beasts, then head to the banks of the Silver Lake to meet with Chu Bawang.

Unfortunately, they all wound up dead.

Their eyes widened, with horror deep in their hearts.

After that, Su Yu met Wang Qingchen and beheaded the eight-clawed octopus.

Ling Wu nodded. The fact Su Yu beheaded the eight-clawed octopus was no longer his concern. All of his attention was now on learning how Chu Bawang died.

Finally, Chu Bawang appeared beside a silver lake. Instead of waiting for the elders of the five tribes, he had walked into a trap.

He did not succeed in picking up an easy kill from Su Yu. Instead, he became Su Yu's surrogate and was caught in the whirlpool.

Finally, the scene of Chu Bawang's death was clear.

Su Yu had nothing to do with this!

Chu Long's face was pale. While his heart was mourning for his loss, he had no choice but to accept what happened to Chu Bawang.

Upon eventually recovering from his grief, he felt an inexplicable hatred toward Su Yu.

If it had not been for Su Yu, would they have needed to go to Asura Forbidden Lands for the competition? Will this decision then eventually lead to Chu Bawang's death?

As the picture continued to flow, Su Yu lightly said, "Do you have anything to say, Lord Ling Wu?"

Lingwu wanted to help the Chu clan to disqualify Su Yu from victory, but everything that Su Yu's had done was impeccable. With no other option, he said, "The winner of this competition is Su Yu."

"Wait a minute!" Chu Long clapped his palms together. In the distance, a flying object that had been hidden for half a month suddenly appeared out of nowhere.

Jumping out from inside the object were three old clan elders of the Chu Clan!

Everyone's breath was at least that of Level Three!

Ling Wu was taken aback. He didn't know that a group of strong men of the Chu clan was hidden nearby!

"Lord Chu, what are you doing?" Ling Wu's eyes flickered and asked.

Consumed by deep hatred, Chu Long stared at Su Yu. "Su Yu killed our son. This is no longer a question of competition, but a problem of our personal grudge. I want his blood as payment for harming my son!"

"Lord Ling Wu, this matter has nothing to do with you. Please step back and don't interfere!"

After hearing this, Ling Wu was overjoyed. He did as told and did not participate.

Su Yu said, "Lord Ling Wu, the Chu Clan cannot accept that they have lost and decide to kill an innocent person. Do you truly want to act as if you have not seen it?"

Ling Wu could not wait to get himself away from trouble. He would not dare speak up for Su Yu. With a fair and selfless look, he said. "I am merely a messenger. Therefore, I only have the right to supervise. The competition is over, and I made a fair ruling. The rest is about your own personal grievances. I have nothing to do with this."

Upon hearing this, Su Yu sneered. "You are so smart that it exhausted you!"

Ling Wu sneered as he thought, 'I would be muddle-headed if I helped you!'

“Su Yu, you pay for my son’s life!” Chu Long knew that Su Yu could not be blamed for Chu Bawang’s death. Even so, the most important thing at the moment was not his grudge; it was the bargaining chips!

If he did not kill Su Yu, the Chu Clan would have no choice but to cough up all the resources that he asked for.

This was a price that the Chu Clan could not afford to pay.

Therefore, he selected three men from the clan who were willing to die to give Su Yu a fatal blow at the last minute. It didn’t even matter if the three of them were repelled by the Thunder Seal.

“What a joke. What does your son’s death have to do with me?” Su Yu said.

Chu Long shouted, “Had it not been for the contest between you and Chu Bawang, would he have fallen?”

Su Yu smiled and laughed with scorn. “Maybe the Chu Clan Master forgot, but your precious son forced me to agree to his challenge! You may have also forgotten that to ensure that the winning ticket is in your hands, you chose the Asura Forbidden Lands as the location of the contest! I don’t understand when I ever killed your son!”

“It’s better to blame yourself than to blame me.” Su Yu had a look of pity across his face. “A wretched person blames misfortune on others instead of self-reflecting on his own mistake.”

Now provoked by Su Yu’s words, Chu Long shouted, “Don’t you dare act all high and mighty! Give me back my son’s life!”

Along with Chu Long himself, the strongest men of the Chu clan attacked Su Yu together.

However, at this moment, they changed their target and instead, set their attack target on ... Ling Wu!

Standing in a corner with his arms folded, Ling Wu was caught off guard and shouted, “What are you doing?”

He quickly resisted.

Despite having done the mental calculations to do this, he failed to utilize them in reality. One could imagine the eventual outcome of four to one.

As Ling Wu was smashed through the flesh by the four, his soul hurriedly escaped from his body.

However, he was grabbed by the Chu Clan Master.

Now exasperated, Ling Wu’s soul shouted, “Chu Clan Master, do you want to rebel? I am the messenger sent by the leader!”

The Chu Clan Master sneered. “You idiot! You die here and push the blame to Su Yu, or the Ferocious Beasts will escape. Do you think that the leader can even blame me?”

“Rest in peace!” The Chu Clan Master gripped his five fingers.

Frightened, Ling Wu frantically asked Su Yu for help. “Brother Su, please help me get rid of this traitor.”

With his arms in both hands, Su Yu watched him as coldly as he had before. He said lightly, “This is a personal grudge between you and him. Since I have nothing to do with this, it would be inconvenient for me to intervene!”

Ling Wu was told the exact same thing he said to Su Yu.

Su Yu ignored the fact that Ling Wu favored the Chu Clan.

Su Yu couldn’t care less as he stood idly by.

Su Yu wouldn’t have cared at all if he was killed.

As Su Yu said, he was fooled by his own cleverness!

The images in the jade pendant recorded several earth-shattering secrets. One example of such a secret was that the Chu clan changed the prohibition without authorization, which resulted in the change of the Asura Forbidden Lands.

Would the Chu Clan ever allow this information to spread?

Ling Wu’s fate had already been sealed!

Unfortunately, he held on to his identity. He believed that the Chu Clan wouldn’t dare to treat him otherwise, and even planned to stand by and watch!

What a stupid and selfish person. Su Yu could not think of a reason to save him.

Poof!

Chu Long’s five-finger gripped Ling Wu’s soul, completely extinguishing it.

His cold eyes expressed content. “After getting rid of the idlers, I, the Chu Clan Master, can calmly deal with you!”

The three old men behind him headed for Su Yu, taking one step at a time.

However, the vortex above their heads now suddenly rolled. The red thunder from within kept roaring as if it was trying to block something out.

Everyone at the scene was taken aback.

Chu Long was surprised. “How strange. Is it that the arrangement of the five clan elders caused several Ferocious beasts of the Asura Forbidden Lands to be released?”

As he thought about it, he couldn’t help but chuckle. “This is God’s will to help me! The terrible Ferocious Beasts of the Asura Forbidden Lands have appeared. They’ve forcibly killed Ling Wu, and will kill Su Yu as well! Hahaha!”

Looking at the vortex with solemn eyes, Su Yu said in a deep voice, “Aren’t you afraid of the fact that you have no control over the incoming beasts?”

Chapter 1419: Battle with the Blood Demon

Chu Long smiled coldly. “You’ve got to be kidding me. Don’t you even know who I am? If the family patriarch who guards the Asura Forbidden Lands cannot even suppress a few Ferocious Beasts, how could he hold this position for countless years?”

Su Yu shaking his head as if he was looking at the dead. He said, “You may not understand the significance of the five people you dispatched in the Asura Forbidden Lands to perform some tasks! This is your own mistake!”

Brush!

Like a phantom, Su Yu immediately left the scene.

Chu Long’s eyes were cold. “Kill him!”

The three strongmen immediately headed towards Su Yu!

However, a bolt of black lightning had just flashed through the vortex and in front of the three old strongmen.

Aaaah!

Three consecutive screams rang out.

When Chu Long looked back to see what had happened, his pupils shrank!

A creature that was half man and half eagle stood before him, with one strongman in each claw. He pierced through their heads with his claws and pressed them hard to the ground.

The third strongman was caught in his mouth. As he pierced through the strongman’s chest with his teeth, he greedily sucked the essence of his flesh and blood off his body.

Within the time it took for someone to take a breath, the three old strongmen of the Chu Clan were annihilated!

Chu Long took a breath. How could a Level Three Ferocious beast be so strong? Its speed alone was already comparable to the supreme existence of a Level Two Realm being!

The whirlpool roared once more, bringing three figures along with it.

The blood-scarred shadow amongst the three was even more terrifying than the giant eagle!

Chu Long felt his feet go cold. The images he saw in the jade pendant were enough for him to know how dangerous the Blood Demon was, but he was more terrifying in person!

Having witnessed the three strongmen’s demise, Chu Long hurriedly sacrificed a black phoenix shaped token. The token was an item that controlled the Asura Forbidden Lands, inherited from the hands of his ancestors!

Without saying a word, he bit the tip of his tongue and spouted a large mouthful of grayish-white blood, allowing it to fall onto the phoenix shaped token.

The phoenix shaped token immediately exuded a mysterious light, and the vortex above suddenly began rotating faster.

The Blood Demon and the others suddenly felt trapped. They could not help but be swept up into the whirlpool.

Seeing this calmed Chu Long's just a bit. Although the escaped Ferocious Beast was terrible, the situation could fortunately still be controlled.

However, what happened next made Chu Long stiffen up again.

Four Ferocious Beasts each took out a bloody spine in quick succession and held them tightly in their hands.

The spine radiated a strong force of Asura that could resist the swallowing force of the vortex.

The figures of the four Ferocious Beasts re-stabilized, with murderous intent in their eyes.

The Green figure chuckled and said, "Brother Blood Demon, it seems that we are in luck. As soon as we came out, we met the family patriarch who guarded the Asura Forbidden Lands. The token in his hand is the key to control the seal at the Level One Realm!"

Duckbill Beast said, "It's much more than that! As the head of the family clan, the power of his bloodline is the strongest. Perhaps his blood is enough to remove the remaining 20% of the seal surrounding master!"

With sharp eyes, the giant eagle stared deeply at the phoenix shaped token in Chu Long's hand. "Well, with that token, we will be able to leave the Level One Realm for as long as we want. We can even open it up and lead the Asura Great Army to take over various territories!"

After listening to their discussion, Chu Long was horrified. He finally realized how stupid he was to send the elders of the five tribes to change the Level Two Realm seal without permission!

The Blood Demon grinned. "You three deal with the patriarch of the family clan. I will handle the kid by myself."

The whole time he was present, the Blood Demon never took the initiative to attack despite being the strongest of the four Ferocious Beasts.

The great eagle chuckled a little. "I haven't seen Big Brother personally go for a kill in so long."

The Green figure and the Duckbill Beast showed their excitement. "It's true that I haven't seen my brother do so in a long time, either!"

They all watched as the Blood Demon slowly walked towards Su Yu, his anger surging throughout his body.

Su Yu condensed the light in his eyes. Compared to the eight-clawed octopus, the Blood Demon was on a completely different level.

In terms of his breath alone, not even ten eight-clawed octopuses were enough to compete with the Blood Demon!

Whoosh!

Without thinking, Su Yu immediately chose to escape.

Blood Demon grinned as if he was looking at the prey that he would chase. His body shook, revealing a pair of wide blood-red wings on his back.

With a quick spin, he turned into a bolt of bloody lightning and headed towards Su Yu. He was at least thirty percent faster than the giant eagle!

Envy and jealousy showed in the Giant Eagle's eyes as he said, "That's my elder brother!"

He immediately sharp eagle eyes turned to stare at Chu Long. He said, "Number Three and Number Four, let's go together. Show him no mercy!"

A desperate battle soon broke out!

While Su Yu was still flying, both of his eyes tightened as he felt the power from behind him. As he subconsciously made a seal with his hands, and he was held in a powerful conception.

Suddenly, the sense of war seemed to come from an ancient time and space, appearing with a bang.

The Blood Demon was only slightly surprised. He still remembered this style.

"Huh! Had I not been prepared, this style may still threaten me. But now ..." The Blood Demon held the bloody spine and waved it in the air.

Crack!

A long crack instantly appeared across space.

The trembling power of Asura crushed his fighting will!

The remaining force penetrated through and went straight for Su Yu.

Su Yu immediately activated the scales of the World Annihilation Dragon, blocking the remaining power.

Boom!

There was a huge bang. Although the scale of the World Annihilation Dragon could counter the power of Asura, it could not entirely dissipate the force that had remained.

Su Yu flipped upside down as a burst of sweetness engulfed his mouth. His muscles and bones seemed to be crushed, and no spot in his body was not in pain.

"You're still alive? Those scales on your chest seem unusual." The Blood Demon said indifferently. Almost at the moment when his voice fell, he waved the spine in his hand again without warning.

This time it was a full-on blow. Even if the scale of the World Annihilation Dragon could block it, the aftershocks would be enough to kill Su Yu!

At this critical moment, Su Yu's body began shining as four thousand gods Divine Power Imaginary Shadows stood tall behind him.

The endless divine light merged into one, forming a terrifying beam of light. They forced their way upwards, fighting head-on with the power of Asura.

Two extreme forces collided and intersected in the air, producing a devastating force as a result.

Further down on the battlefield, the expressions of the three Ferocious Beasts had drastically changed!

The giant eagle held a head that had died a wronged death in one claw and a black Phoenix token in the other. Staring into the distance, the Giant Eagle was horrified. "He seems to be a match for our brother Blood Demon!"

The pupils of the Green figure and the Duckbill Beast also shrank. "Four thousand Divine Power? Do such strange things truly exist?"

The Duckbill Beast's eyes narrowed. "I have heard of many gods who became that way by controlling their divine power. Their divine power is different, and even the final position that they sit on is different from ordinary gods. Even so, why would someone like that possibly appear here?"

Giant Eagle said, "Let's go forth and help first. We can talk about it later!"

Bang!

Just then, two bursts of explosive force broke out.

A white light visible to the naked eye radiated all around. Horrified, the giant eagle and others who were about to rush forward immediately retreated in succession.

The Green figure moved a little slower and was swept away by the white light. In an instant, he turned into a cloud of grey ash!

"Number Four!" The giant eagle and Duckbill Beast roared, but they could only watch the body of the Green figure turned into powder and disappeared.

They had to retreat to more than a million miles away before they managed to reach a safe area.

When the white light subsided, the scene before them shocked them.

There was no so-called land left behind. All of it was razed to the ground. There was only magma buried deep underground that spouted out, turning the millions of miles of mountains and rivers into a sea of fire.

The previous atmosphere was also swept away. What remained destroyed all the living beings and air; it left behind a vacuum!

Even the sky was swept away. In its place was a crack that covered over countless miles of land!

At the sight of such a shocking scene, the Giant Eagle and Duckbill Beast swallowed hard.

"This kind of Heaven Defying Talent is terrible!" Duckbill Beast shocked.

Giant Eagle said with a cautious voice, "I don't know how Big Brother Blood Demon is doing."

They waited for a moment to make sure that the white light wouldn't rise again. Then, the giant eagle flew carefully to the center of the battlefield.

He saw a lava lake in the center and a bloody figure holding a bloody spine in his right hand. He was kneeling on the ground with one knee, his left hand tightly covering his chest.

The giant eagle quickly flew over and said, "Big Brother ..."

When looking at the Blood Demon's injury, the eagle's expression changed drastically.

His physical chest was completely wiped out, devoid of all internal organs.

His head was also hollowed out, leaving behind only an empty skull.

Throughout his entire body, only his hands and feet were intact.

His breath was also on the verge of collapsing!

A glimmer of strange light flashed through the giant eagle's. As he was preparing to think, the Blood Demon suddenly raised his empty head and said coldly, "What are you thinking about? Hurry up and heal me!"

The giant eagle was taken aback and immediately took out his spine. He released the force of Asura within it and started to treat the Blood Demon's injury.

After a while, the Blood Demon's abdomen and most of his head were restored.

The Duckbill Beast came at this time, looked at the Blood Demon's injury, and took a breath of cool air. "This is the first time I've ever seen Big brother so badly injured!"

Blood Demon coldly said, "Four thousand Divine Power. This is the Nature Defying Talent that only the Path Leader is qualified to have. I'm not surprised that his powers are on par with mine."

"Brother, what about Su Yu? Is he dead?" The Duckbill Beast glanced around but did not find any trace of Su Yu.

Blood Demon said, "He has left."

The giant eagle and the Duckbill Beast looked at each other and saw the terrifying look in the other's eyes.

So, did this mean that the human race was superior to them?

Blood Demon gave off a burst of cold laughter. "His injury is more severe than mine!"

The two were slightly relieved upon hearing those words, but a hint of disappointment still flashed in the Giant Eagle's eyes.

"Both of you heal me together and fight to restore up to 30% of my strength. Then, I will search for this person with you!" Blood Demon roared, "Even if we don't have the crystal ball in question, I still intend to chase him down. If we do not eradicate him, sooner or later it will put my Asura world in serious danger!"

The Giant Eagle and the Duckbill Beast did not object and nodded their heads in agreement.

Brush!

Somewhere in the black wood forest amongst a group of ancient woods, a blood-covered silver-haired handsome young man with silver hair fell from a high altitude. After hitting a huge tree, he then fell to the ground.

He had broken bones, bloody flesh, and green power constantly flowing out of his chest to repair his body.

However, if that was all that he had, this green energy of his life force could heal him up quickly.

At times, one could make out the layers of Asura powers appearing and disappearing in his body. They were constantly wandering and destroying the body they had just been restored.

Therefore, this injury wouldn't show much progress in healing for a while.

Even so, the enemy would not give him enough time to completely recover.

Lying under the tree, Su Yu couldn't move his limbs and waited for his body to recover.

After two hours, Su Yu suddenly opened his eyes. His eyes looked around. He was barely capable of lifting his left hand but still managed to put on the space ring, ready to use something if the need arises.

Something powerful was approaching!

Until the man showed up, Su Yu was then surprised before frowning. "Were you always following me?"

Chapter 1420: Can't Tell Friend From Foe

"Well yes, I said that I would repay the debt to show my gratitude," The person standing before him said with indifference.

Su Yu lowered his finger and sighed a little. "Now is the worst possible time for that!"

The woman standing before him was Wuxin, the Wuxin Helm Leader who wanted to repay his kindness with her life.

Su Yu was in a precarious situation. For Wuxin to be here, her words of 'sacrificing for Su Yu' might come true.

"You don't have to worry too much about me. I have already begun preparing since you entered the Asura Forbidden Lands half a month ago, just in case," Wuxin said. "If I save you, the debt between us will be written off entirely, and I can leave the Lost Nation with my mind at peace.."

She intended to leave because she was too ashamed to face the Mistress of Saint Lady Temple after all.

At this point, it will be impossible for Su Yu to drive her away. He said, "Thank you for the trouble!"

Wuxin nodded calmly. She helped Su Yu up and left the place quickly.

Soon enough, a stone cave hidden in the deep forest appeared before them.

"This cave was opened up by the Wizard Tribe as a temporary base during the war between the God Realm and the Wizard Tribe. This cave goes directly underground and extends in all directions. Once we enter the cave, it would take quite some time for our enemies to track us down," Wuxin explained. As she spoke, she gently swept the dust in front of the cave house away and let Su Yu in.

"Wait, hold on," Su Yu said with difficulty. He gathered the little amount of divine power he had left, erased the footprints outside the cave, and got rid of their aura.

Lastly, he deliberately shook down a layer of dust from above to cover up the traces of the cave.

After looking at what he did, Wuxin couldn't help but gasp with admiration. "Such amazing attention to detail. When it comes to handling things in the face of danger, I am not as skilled as you, even though I am an old antique who lived through countless years of life."

The inside of the cave was like a completely different world. It went deep into the ground with intricate and complex underground passages. Along the way, Su Yu found at least tens of thousands of passages of different sizes. He had no clue where they led.

The Blood Demons would likely have to pay a big price if they wanted to catch up with them.

After they chose an unassuming passageway, Su Yu and Wuxin entered to recuperate in an abandoned stone chamber.

"I have some good healing elixir here with me," Wuxin said.

Su Yu shook his head. "The Power of Asura that invaded my body is the crux of the matter, these injuries are secondary to that. What I need now is time."

"How much time do you need?"

"Just one day will suffice."

Wuxin's gaze was steady and calm. "I will protect you so you may recuperate in peace."

Su Yu nodded. He activated Milky Way Star Sand and focused on extracting the Power of Asura out of his body.

Half a day later, the Power of Asura in Su Yu's body had weakened significantly, and his injured body had finally started mending itself.

However, he would still need another half a day to return to his peak state.

"Rumble!"

However, movements could now be heard from outside of the passageway. It seemed like a live spirit had passed by the house and accidentally bumped into the metal objects that were scattered all over the ground.

Wuxin's gaze turned fierce suddenly. She stood up immediately, walked to the front of the house, and leaned against the door. She held her breath and focused on listening to the movements outside.

Suddenly, Su Yu tensed up as well. With his injuries not fully healed, he would be an easy target for the three ferocious beasts if he was forced to fight.

Suddenly, Wuxin managed to open the door. She struck forward abruptly with astonishing sorcery energy in her hand.

The live spirit outside of the house never expected someone to be in an underground passageway that was abandoned long ago!

With one blow, Wuxin killed him before he could even let out a scream!

Su Yu walked over to take a look only to be surprised by who Wuxin had killed.

The live spirit that came was not any of the three ferocious beasts, but a soldier from the God Realm!

“An enemy from the God Realm?” Wuxin was just as surprised as Su Yu. “Why would they come to this underground passageway?”

Su Yu thought for a moment then said in a deep voice, “I am afraid we need to leave this place immediately. It’s not safe here, either!”

Wuxin also knew how dangerous it was for someone from the God Realm to be here. She slightly nodded and said, “You’re right, we cannot stay here for much longer. Let’s leave through another passageway. It’ll lead us to the outside of Fan Capital so we will be able to get to safety as soon as possible.”

No matter how brash and insolent the three ferocious beasts were, they wouldn’t dare to brazenly break into the Fan Capital.

The several masters and many magical treasures guarding the Fan Capital would’ve been enough for them to have just a one-way trip.

“I have recovered about thirty percent of my combat power, so there shouldn’t be many problems as long as we do not encounter the three ferocious beasts,” Su Yu said.

After discussing their plan to leave, they immediately made their move.

Shortly after they left, another soldier from the God Realm rushed over quietly. He squatted down to examine the injuries on the deceased soldier. With a stern gaze, he took out a jade pendant immediately and said softly, “Someone from the Wizard Tribe broke into the underground passageway. Please inform the commander immediately to seal off all major exits and prevent anyone from the Wizard Tribe from divulging any information from here!”

Two hours later, they reached the end of the passageway.

The dazzling sun outside made it difficult for them to open the eyes.

Wuxin supported Su Yu by his arm. She was about to make a move before she realized that she could not pull him away, as if his feet were planted firmly on the ground.

She turned around to see that Su Yu looked wary of something. His eyes turned pale white, and there seemed to be a mysterious feeling of him being able to see everything.

“There are enemies out there planning an ambush. The God Realm’s soldiers have set up an ambush here!” Su Yu’s eyes shone with a shrewd gleam.

He did not think that once they found out that he is a wanted man by the Four Great Empires, the God Realm’s soldiers would be cordial and polite to him.

That’s not to mention that someone from the Wizard Tribe was right by his side.

Su Yu looked away with a solemn look on his face. “Let’s look for another exit. Two Level-Three deities are guarding this one. If I am in my peak condition, we can still barge our way through together, but it is too dangerous now.”

Wuxin said, “There are other passageways...”

Before she could finish speaking, both Wuxin and Su Yu began trembling at the same time.

A wave of brutal and tyrannical energy rushed towards them as if it was trapping them there firmly.

Another wave followed immediately after the first, and not long after that, a third one occurred as well.

They have located Su Yu's position and were speeding over.

"They are here! They managed to find me after all," Su Yu was not surprised at all. As there were still remnants of the Power of Asura in him, it was only a matter of time for the guards to find him.

At least they were delayed by half a day.

Su Yu turned towards the exit and gritted his teeth, "We can only take a risk and barge through! Charge!"

Without regard to whether they lived or died, Wuxin stood in front of Su Yu. Without turning her head, she said, "I will take care of the two Level-Three deities outside. You just escape alone."

Her tone was calm and casual as if what she was saying was a normal thing to talk about.

If she took care of them, she would have to stay there forever.

As he walked around Wuxin and stood in front of her, Su Yu said, "If that's how I escape, then I don't think I could ever accept it. All I'm asking for is to have no qualms in this life."

When the space ring on his finger flashed, a jade tombstone fell into his hands.

As he stroked the tombstone, Su Yu said grudgingly, "If my guess is correct, whether we get out of trouble today or not is entirely up to this tombstone."

Wuxin felt that something was off and looked at the tombstone with a puzzled expression. She did not sense anything special about the tombstone; it felt just like any other normal jade material.

"What is this?" Wuxin said in surprise.

Su Yu calmly said, "A weapon of mass destruction that can't tell friend from foe!"
