

## Nine-Dragon 1441

### Chapter 1441: Reverse Intentions Destroyed

According to legend, the most difficult mantle to inherit was that of the Heaven-fighting Divine Warrior.

The power of the bloodline alone was not enough to inherit the Heaven-fighting Three Strokes. One must also have a strong heart of fighting intentions.

To be reborn from a desperate situation, to erupt from a sense of hopelessness, a sense of nirvana boiling from the blood within.

Therefore, the descendants of the Heaven-fighting Divine Warrior were almost all dead, because they all died in Nirvana time and time again. The number of people in the clan was getting lesser and lesser after each generation. Today, there was barely any left.

That was the state of the Heaven-fighting Three Strokes that day.

Nitian Guyun never imagined that Su Yu had not only practiced but also succeeded in cultivating this legendary style!

So many of the descendants of the Heaven-fighting Divine Warrior never reached that level, but Su Yu had done it!

In his eyes, his killing intentions were surging. This child must not remain, otherwise, he would become serious trouble in the future!

“Die!” Nitian Guyun screamed as Reverse Intentions exploded out of him. His severed right leg was regrown immediately and was replaced with an even more powerful Reverse Intention.

Boom!

The Divine Weapon that Su Yu had transformed into was immediately broken.

However, there was no chance for Nitian Guyun to be complacent when bursts of debris immediately converged, rebuilding the Divine Weapon.

The Divine Weapon was full of fight and merciless cold.

An unstoppable fighting intention would not only not weaken it, but also strengthen it!

Nitian Guyun struck again, crushing the Divine Weapon a second time.

However, the fragments, once again, congregated in an instant, and were recast into a Divine Weapon!

The stronger the attack the stronger his fighting intentions!

A wave of Reverse Intention rose in the heart of Nitian Guyun. There was nothing in the world that could turn against him. He simply refused to believe that he was unable to kill off a mere ant!

Bang!

Bang!

Time and time again, Su Yu was stamped on by the boundless giant foot and turned into endless fragments.

However, he was recast again and again. His fighting intentions grew with every step, becoming sharper and colder each time.

Until after nine hundred and ninety-nine times when Nitian Guyun finally panicked.

Su Yu couldn't die and couldn't be worn down, just like in the rumored "Legendary Style". The fighting intention was infinite until the enemy was destroyed!

At that moment, Su Yu, a marvelous Divine Weapon, exuded a terrifying presence.

With just one strike, he could destroy half of Nitian Guyun's body!

That majestic fighting intention, that immortal rebirth, finally made Nitian Guyun want to retreat into his heart.

He couldn't help but retreat!

He was unable to kill Su Yu, but more importantly, if he did not retreat, this part of his soul would be destroyed in this dream!

Then, his physical body on the outside world would sleep forever!

This time he couldn't kill Su Yu, and rather had made him take on the Legendary Style, something no one had done before!

"Su Yu! How about you and I call it a draw?" Nitian Guyun said. Instantly, a severe pain came from his chest and Nitian Guyun couldn't help but clench his teeth as if he was suffering from the pain of his heart being torn apart.

Even more strange was that his own Reverse Intention giant quickly shrunk, becoming a virtual shadow of 5,000 feet.

As a Heaven-Defying Divine Warrior, from ancient times till now, no one could beat him. This was the reason why he was so strong and powerful.

Now, however, he chose to stop, which meant that he had violated his own will, so his Reverse Intention was weakened by more than half!

However, Su Yu's dark red eyes were full of fire. His fighting intention was like a lit spark, burning fiercely.

His reply to Nitian Guyun's plea was a sharp blade.

Turning into a long whip, he suddenly leaped forward.

Splash!

The remaining bloody-red light curtain was directly shattered by this terrible blow and nothing of it remained!

Nitian Guyun screamed as half of his body was shattered. The part of the body with Saint Lady sealed inside was also shattered.

Nitian Guyun was furious and cried, “Boy, do you really want to fight against me till the end? Don’t forget, it is only a matter of time before my soldiers crush the resistance outside and destroy the Wizard Tribe. My true self outside is ten thousand times more powerful than in this dream!”

The words had just left his mouth when, from being merely five thousand feet tall, only three thousand feet was left.

He flinched, and his Reverse Intention was weakened again.

Su Yu’s reply was a strike aimed at destroying him.

Nitian Guyun’s eyes filled with monstrous resentment and he exclaimed, “Junior, you forced me to retreat and ruined my Reverse Intentions. I swear, I will utterly destroy you!”

Ah!

Suddenly, a strike from Su Yu’s meteor hammer shattered his three thousand feet giant into pieces.

He was being bombed!

In a moment of exasperation, he shouted, “Quit the dreamland!”

A mysterious wave swept through, and before this part of the soul was destroyed, he escaped back to his physical self.

His Reverse Intention Giant shrank from a thousand feet to a hundred feet, and from a hundred feet shrank to ten feet, and finally became an ordinary size.

The Heaven-Defying Divine Warrior’s Reverse Intentions were utterly destroyed!

The Nitian family was only powerful because of its unparalleled Reverse Intention.

However, everything in the world had advantages and disadvantages.

The Reverse Intentions made them the strongest, but also restrained them. Once it was unleashed, it could not retreat.

Withdrawing is a way of rebelling against the will of the Reverse Intention as if cutting off the roots of the way of the will. No matter how old you were, the Reverse Intentions would be destroyed once you retreat.

Therefore, it was not used lightly. Once unleashed, a close shave with death was inevitable.

In the dream, the soul body of the Heaven-Defying Divine Warrior could only attack by using Reverse Intentions. Now that he chose to retreat, his own Reverse Intentions, cultivated through thousands of years of hard work, had been reduced to dust.

In reality, though he was still alive, he no longer had strong Reverse Intentions in him. He had lost more than 30 percent of his own powers!

Poof!

Above the skies of Fan Capital, in a behemoth, secret room protected by countless guards, sitting cross-legged, Nitian Guyun suddenly opened his eyes and spat out a mouthful of milky white blood.

His eyes were fierce, angry, and mad as if he was experiencing deliberate treason that was exposed on the eve of the coup.

All around him, the Reverse Intention was declining at an alarming rate, and even the blood he spat out was gradually turning gray.

After hearing movements in the secret room, the two guards outside immediately rushed in shouting, "My lord! Are you hurt?"

They subconsciously saw a few drops of blood on the ground, and the color was quickly dimming.

They saw that it was a sign that the power of the bloodline was fading!

Moreover, the Reverse Intention in Nitian Guyun's declining body was extremely clear.

The two were startled and began to stammer, "My lord, this is ..."

Chilled, the two realized something and suddenly felt very cold.

"My Reverse Intention has broken!" Nitian Guyun sighed softly, and his voice was gentle and there was no sign of blame within it.

However, their two hearts were cold and sweaty and they were shaking all over. They kept bowing their heads to beg for mercy, "Please, my Lord, we beg for mercy! We, we did not see anything, please lord, we beg for mercy!"

"This is all my fault. It will affect you and I am very sorry. You can go. I will take good care of your family." Nitian Guyun said lightly.

The guards shivered. They knew that they had learned a big secret of Nitian Guyun and were about to be silenced. What else could they do at this moment but wait to be killed?

Without saying anything, they jumped and fled.

However, before they managed to escape the doors of the secret room, they were crushed by two palms, and body and soul were wiped out in an instant.

Five fingers condensed into a flame and the two bodies were burned to ashes, leaving no trace behind.

Nitian Guyun waved his sleeves, wiped away the Reverse Intentions in the sky, and returned to his seat indifferently. "Come in!"

Whoosh!

The guards burst in and seeing the ashes on the ground, had a huge shock to their hearts.

"The two guards on my left and right intended to rebel. They were discovered by me in time and exterminated on the spot. Now, you will immediately arrest the relatives and friends of these two and anyone who looks like they are trouble."

A bodyguard leader replied, "Yes sir! Dare I ask the lord, how should I deal with them?"

"Well, I do need soldiers, but just in case, kill them on the spot!" Nitian Guyun said.

"In addition, pay attention to whether there are items like Jade Pendants on their bodies that could transmit what has happened. No one must go through those

transmissions and they must be passed to me. Any violators will be dealt with as traitors. They will be destroyed! Kill off all their families!"

"Yes, my lord!" They were all terrified and immediately led the troops to search for violators.

Next, the entire barracks was filled with a sense of panic.

However, it was handled very secretly, and the commotion quickly subsided.

Soon, a handful of jade communication pendants were in the hands of Nitian Guyun. One of them was in his palm, and his face was cold. "Huh! They really did spread the news, but I was ready."

It turned out that the two of them knew that they would die in a critical moment, and they passed the news on secretly.

It's a pity that it was so quickly discovered by Nitian Guyun.

He didn't want to let the outside world know that his Reverse Intentions were broken and his strength had massively decreased.

"Call the imperial guards," he barked.

Soon after, a group of imperial guards approached. This was a group of trusted soldiers of the Heaven-Defying Divine Warrior that were responsible for outer defense.

The soldiers who guarded him just now, were household guards, confidants who were more trusted than the imperial guard.

"Greetings to the lord!" The imperial guards bowed.

Nitian Guyun coldly said, "I found out that the household guards were traitors. Wait for my order for them to be arrested!"

What? The imperial guards thought they had heard it wrong. The household guards were the absolute closest confidants of the Heaven-Defying Divine Warrior!

"Yes! I will obey your order!" The imperial guard leader replied.

"Slow down!" The eyes of Nitian Guyun burst into a fierce color as he said, "Once this matter is dealt with, they do not need to return, is that clear?"

"What!" The soldiers secretly sucked in cool air. Was he implying for them to secretly execute all the household guards?

However, they did not dare to ask and immediately obeyed the order.

When they had left, Nitian Guyun sighed, "Don't blame me for being cruel. It is just that you all know too much."

He could not guarantee whether the guards performing the mission also knew. The only way to be sure was to kill them.

What he didn't know was that outside his secret room, a dark shadow flashed silently, watching everything in his eyes.

Sheng Capital.

Wang Clan hall.

The black threads on the foreheads of Cai Lin, Zeng Lin, Su Yu, and Saint Lady, gradually faded away, and the pink mist receded, making everyone present highly delighted.

Su Yu had successfully rescued them.

However, the weird thing was that they had not woken up.

They were worried for a long time, but finally, Cai Lin and Zeng Lin woke up.

The people in the hall immediately gathered around and were pleasantly surprised. “We feared you were dead, but you finally woke up!” they all said.

The Lord of the Holy Saint Temple was the most excited. Looking at Zeng Lin, it was as if he was looking at a treasure. He was very excited.

Conversely, the Mistress of the Greatest Saint Lady frowned deeply and asked Cai Lin, “What about Su Yu? What about Saint Lady? Didn’t they save you? Why haven’t they woken up yet?”

Cai Lin looked at the Mistress of the Greatest Saint Lady. A strange color flashed in her eyes, but she quickly disguised her face, showing a sad expression instead. “The three of us were trapped in a dream by the enemy and soon forget ourselves, said Cai Lin. It was Su Yu that entered the dreamland and rescued us! However, we met Nitian Guyun on the way back!”

What? Everyone couldn’t help but take in a breath of cool air.

Chapter 1442: The Red Dust Eyes

“Nitian Guyun?” The Temple Mistress and Lord, the Wang Clan Master, and Ling Wu, were stunned and their faces suddenly became stern.

How did they meet him?

Nitian Guyun was an invincible nightmare for the Wizard Tribe.

Such a strong character affected them personally.

“Then, how did you escape? What about Su Yu and Saint Lady?” The Mistress of the Greatest Saint Lady was very anxious.

On hearing these words, Zeng Lin was shocked and asked, “Saint Lady? It is impossible for her to come back, but is Su Yu still fighting Nitian Guyun?”

These were casual words but it seemed like thunder had exploded in everyone’s ears.

Everyone was stunned, as they stared dumbly at Zeng Lin and stammered, “Who did you say was fighting against who?”

The Temple Mistress and Lord, the Wang Clan Master and Ling Wu were dumbfounded, thinking that they had heard it wrong.

Zeng Lin repeated what he had said, “It was the battle between Su Yu and Nitian Guyun that helped to open the gap that allowed us to escape from dreamland! However, why didn’t Su Yu return? Is he still fighting him?”

Hearing this, they couldn't help but be horrified!

The one that was fighting Nitian Guyun head-on was Su Yu. To think that he could actually match him in a fight!

"What is the result?" Ling Wu said in surprise.

"The last I saw it, it was Su Yu who broke through in desperation and displayed extraordinary Fighting Intentions. Then, the seal was pierced and I escaped. What transpired after that, I am not sure."

The Mistress of the Greatest Saint Lady immediately asked, "What about Saint Lady?"

Hearing this, Zeng Lin said in a deep voice, "She was caught by Nitian Guyun. He threatened to break through here, take away Saint Lady's physical body, and put her into his harem."

The Mistress of the Greatest Saint Lady shivered. Her old face was full of anger and killing intent. There was also a sense of helplessness.

The joy on everyone's face quickly turned to worry.

Su Yu had failed to escape, and most likely had been captured by Nitian Guyun.

As they looked at the two bodies that were sound asleep, there was a sense of deep regret in everyone's eyes.

One was the pure and flawless Saint Lady, and the other was a talented genius who amazed the world.

They would be asleep forever.

However, at that moment, there was a hint of movement in their bodies, and Saint Lady's finger gave a gentle flick as if struggling to wake up.

Dark dreamland!

With the escape of Nitian Guyun, the dark red in Su Yu's eyes gradually receded and returned to normal.

Looking at his own broken soul body, Su Yu took a breath. Although his injuries were serious, his soul was not broken. He merely needed to take a rest.

Also, this time around, he had been forced into a desperate situation. The 'Legendary Style' had puzzled him for a long time but he had finally broken through the bottleneck and reached the state of Lower Realm.

The fighting intention that had never existed before, was immortal, and Su Yu finally understood what it meant. He knew that it was magic.

The more intense the fighting, the more the enemy was unable to stop it.

Any enemy would have a headache when faced with such a terrible fighting intention.

"Well..."

As Su Yu looked back, he saw Saint Lady.

The half of Nitian Guyun that had sealed her in had been destroyed by Su Yu. Nitian Guyun had no time to recover and lost her in the process.

Saint Lady was caught in a coma, which was caused by the seal.

In her soul, one could make out traces of the soul of the Heaven-Defying Divine Warrior.

If she fell into a coma, she could never leave the dark dream world.

"I have to get rid of those souls before anything else," Su Yu said. After he thought for a while, a crack suddenly appeared across his brow. "Soul Devourer!"

Heaven Son's Insight fifth-level mastery skill, Soul Devourer!

Two strands of her soul were immediately sucked out of Saint Lady and sucked into Su Yu's soul.

After these impurities were removed, they were transformed into pure soul power as they merged into Su Yu's soul.

Suddenly, Su Yu felt like his body had swelled up as if he had been boosted by these two waves of soul power.

"Ha! No wonder Nitian Guyun is who he is. With only two strands of soul power, they are more powerful than the souls of the vast majority of gods at Level Three Realm," Su Yu exclaimed. After devouring two strands of souls, Su Yu's soul power soared to the Level Three Realm!

"This is an unexpected gain. The soul power at Level Three Realm will allow me to do many things," Su Yu said.

At that moment, Saint Lady woke up and looked at Su Yu. Her eyes were confused for a while. "Am I in a dream again?" she exclaimed.

She unconsciously extended a pair of powder-white arms, hooked Su Yu's neck and exhaled saying, "Even if it is a dream, why do I still think of you? Bad guy, I have fallen completely in..."

Listening to these heart-sweltering words, Su Yu couldn't help but glance at this beautiful face. He felt weak in the knees.

Nevertheless, he calmly grabbed her hands, put her down gently, and said. "Let's go back."

His words awakened the half-dazed Saint Lady. Her eyes were now wide open. As she looked at the face that was now very near hers, thinking of the private words she had just said, her white and flawless face turned red. She stiffened up, unable to move.

"I'm going first, you follow on later, don't stay here for too long. The person who secretly manipulated the dreams probably didn't give up." Su Yu also did not want to be further caught in this embarrassing situation. With a thought, he disappeared, and he left the dark dream world.

Saint Lady lay on the ground for a long time, and her face was filled with a wry smile as she said to herself, "How can I face him in the future?"

In the red dust dream, she had married him and had children with him. But after what had just happened, she felt that she was too ashamed to meet him again.

She even thought of staying in Dreamland and never leave.

At this moment, to her horror, there was a crisp and sweet voice of a woman in the dark dreamland, "Want to get him? I can help you!"

Brush!

A woman in a red skirt stepped on a speck of red cloud dust and appeared in the dark dreamland.

As soon as she appeared, the whole dream world shivered as if in fear.

The woman's skin was fair, her eyebrows were as far away as mountain ranges, and her facial features were exquisite.

At first glance, the picturesque woman gave off an unreal, dreamy sense of beauty.

Saint Lady was shocked. She was not a fool, and for her to appear in this dreamland at random, she was more likely than not, that highly skilled person called Kunlun.

She moved her mind and left the dream immediately.

However, the woman in the red skirt stretched out two slim jade fingers, and as Saint Lady was about to leave the dream, gently drew her back in.

Such a horrible action of hers made Saint Lady alert and she said, "Who are you?"

The woman in the red skirt smiled casually. Her smile was especially pleasing and beautiful. "I want to help you get him," she said.

Saint Lady was unmoved and asked coldly, "Who are you?"

The woman in the red skirt hid her mouth and chuckled. It was both elegant and reminiscent of a different era. It was a beauty that was difficult to define. She raised her eyebrows slightly and smiled gently, saying, "Who am I? I don't even know myself. But there was someone who broke into the Red Dust forbidden grounds and he called me, Red Dust Girl. "

What? The hands and feet of Saint Lady turned cold when she heard this. She couldn't help but breathe out cold air.

Asura's most frightening presence in the Forbidden Land was Red Dust Girl!

In the Forbidden Land in those times, creatures of the Wang Clan were mysteriously traumatized. Something could readily enter the minds of the Wang Clan who swallowed the Red Dust Dreams and manipulated them through dreams.

Knowing that this person did those things, Saint Lady's face turned pale.

"Don't be afraid, if I wanted to hurt you, even that Nitian Guyun from earlier would have died here, not to mention you," Red Dust Girl said casually. Then, she stared deeply at Saint Lady, "I just want to help you."

Saint Lady was not fooled by this and calmly said, "Help me? Why?"

“Because I think that lovers should eventually be together.” The Red Dust Girl hurriedly used her jade fingers to lightly brush a red cloud flowing around her. “The red dust is so charming, yet every year, the water flowed under the bridge alone. Even if there is no wind, no rain, no one will look.”

Saint Lady sensed loneliness and despair in those words and she couldn't help but think of her and Su Yu if they were separated from each other.

It was clear that when Su Yu looked at her, she felt that Su Yu's eyes were filled up like a distant sky. The sky was so empty, and yet it didn't seem to have space for her.

Her heart skipped a beat and Saint Lady expressed sympathy, saying, “There is countless red dust in the Asura Forbidden Lands. Why are you lonely?”

“That is their red dust. I, from the beginning until the end, am a mere passer-by,” Red Dust Girl said quietly as if she found it hard to hide her emotions.

She looked at Saint Lady and said, “You look like me in those days. The falling flowers came with feelings, but the water flows mercilessly. There were many years of loneliness.”

Saint Lady had by now, calmed down a lot and said, “How can you help me? Can you only appear in dreams?”

“I have my own way, I just need you to promise me on one condition.”

Saint Lady asked, “What condition?”

“Wear this phoenix crown.” Red Dust Girl pointed her finger. Then, a golden yellow, beautiful phoenix crown, exquisite and outstanding in form appeared, exuding a beautiful aura.

Saint Lady was stupified by what she saw, but she nevertheless kept up her vigilance and said, “You want to help me and even give me something. Is this even a good thing?”

“This thing is not dangerous to your life, if you agree, I will fulfill your wishes, but if you don't agree ... With his character, I can't see any future for the two of you.”

The last sentence undoubtedly moved Saint Lady's heart.

She was not in Su Yu's eyes at all and there would be no future between them.

After a long moment of contemplation, she chose to nod her head. “I will say this in advance, if ... if I don't end up with what I wished for, I won't wear the phoenix crown.”

“Ok!” The Red Dust Girl smiled, and the smile was beautiful.

Saint Lady suddenly fell into a trance, and when she opened her eyes again, she returned to the real world.

The Mistress of the Greatest Saint Lady Temple, Ling Wu, and the Wang Clan Master, amongst many others, showed caring concern for her.

Except for one person.

Su Yu.

“Mistress, I’m fine.” Saint Lady was a little lost. She looked around but saw no trace of Su Yu.

The Mistress of the Greatest Saint Lady Temple said, “Don’t worry, Su Yu has already come back before you, he is in the secret room resting and treating his soul.”

Hearing that he was injured, Saint Lady could not help but secretly blame herself. “You! Always full of ridiculous thoughts! Brother Su’s soul suffered so many injuries, but here you are blaming him for not being around!”

However, as soon as she thought of Su Yu’s departure, the Red Dust Girl suddenly appeared. She wondered if that was merely another dream, or did the Red Dust Girl really appear in front of her?

Should she tell Brother Su and the Mistress about this?

After careful consideration, Saint Lady discarded the idea. If it was a dream, it would be no big deal. If it was true, it didn’t seem like it would cause any harm.

Su Yu spent a full day and night recuperating in the secret room. With the help of the Heavenly Fire Spirit Pool, his soul quickly recovered.

He opened his eyes slowly. Excitement, anticipation, and nervousness appeared in those eyes, something rarely seen.

He seemed to have returned to that time when he was in Shenyue Island when he first entered the Mortal Sanctuary.

That time was for Xian’er, this time it was for Xia Jingyu!

Chapter 1443: Jingyu’s whereabouts

“Red Dust Eyes,” Su Yu murmured. After some careful thought, he suspected that there were remnants of the Power of Red Dust remaining in his body.

Su Yu tampered with the elixir so it was suitable to drink.

The Power of Red Dust was very weak and could only be used once.

Su Yu adjusted his state of mind and transferred the Power of Red Dust into his eyes.

His eyes gradually turned pink, resembling two pink round beads.

With his pink eyes, Su Yu could indeed see things that ordinary eyes could not see. The faint red lines were very intricate and linked everyone together.

Some red lines represented affection, some represented friendship, some represented love, and some represented hatred.

In short, all beings were connected by these seemingly obscure red lines.

“Are these the Red Dust lines?” Su Yu said softly. He held his breath, concentrated, and looked down upon himself.

He saw several densely packed lines that stretched out in all directions, connecting himself to locations beyond the horizon.

Su Yu saw the red line between him and Xia Jingyu at a glance.

There was a line!

That proved that Xia Jingyu was still alive.

The stone that had been weighing on his heart for a long time was finally lifted.

She was still alive in this world, which was the greatest relief to him.

Su Yu looked in the direction of the red line. This was where Xia Jingyu was located and where he needed to go.

When he confirmed the direction of the red line, he became perplexed.

“Star River Divine Realm... She has always been in the Star River Divine Realm,” he murmured to himself. Su Yu was at a loss, puzzled and uneasy. “If she is in the Star River Divine Realm, why did she not show up? Is she trapped somewhere, or does she not want to see me?”

“Who could possibly have guessed that she has always been in the Star River Divine Realm?”

At that moment, a slight vibration came from the other end of the red line!

Such a strange phenomenon made Su Yu feel uneasy as he stared at the red line.

But the red line was vibrating more and more rapidly as if the other end wanted to tell him something.

Su Yu’s chest seemed to be tightening. Was Xia Jingyu in some kind of trouble?

Suddenly, Su Yu’s mind flashed, and he recorded the rhythm and frequency of the red line in his head.

Eventually, the red line became calm and returned to normal.

Su Yu stared at the rhythm and frequency on the ground. They were like musical scores, with various ups and downs.

Su Yu glanced back and forth in excitement, and finally erased most of it, leaving only seven notes. All the remaining tunes were repeated with the same notes.

Four musical notes... A special text flashed across Su Yu’s mind, the Divine Tune Tribe!

People of this tribe only transmitted messages with musical notes which then became their language. Hence, the language had a beautiful melody.

Su Yu converted the seven musical notes into the Divine Tune Tribe’s language and it said, “Brother Su, I’m waiting for you.”

Su Yu was at the same time both in ecstasy and full of concern.

Fortunately, Xia Jingyu was not unwilling to see him after all.

However, she was trapped somewhere and needed Su Yu to go and see her in person.

All these years of searching had finally yielded results.

Xia Jingyu was trapped somewhere in the Star River God Realm and had been waiting for him all along.

But, where could she be? Where did the red line extend to?

Before Su Yu had seen everything he could see, the Power of Red Dust dispersed, and the Red Dust Eyes dissipated to nothingness.

Su Yu was anxious. Where was she trapped? Was she in some kind of danger?

No matter what, he had to return to the Star River God Realm as soon as possible.

“The issue of the wizard tribe must be resolved. I need to master the Sky Splitting Yin Yang style, heal the injuries of Yongye Chuxue, get the Great Desolation Smelter, and then refine it to use it against the World Annihilation Plate. Then I can return to the Star River Divine realm!” Su Yu’s eyes looked more determined than ever, and his resolve hardened.

He left the secret room, and there was a maid waiting outside. When she saw him coming out, she immediately notified the masters of the Two Temples, the Wang Clan Master, and Ling Wu.

Su Yu was the only one who had heard the news about Fan Capital. They were anxious as they waited for Su Yu to appear.

However, before waiting for them to speak, Su Yu asked Ling Wu, “May I ask when the Moonview Sect leader will come out of his seclusion?”

Only by defeating the Moonview Sect leader could Su Yu learn the Sky Splitting Yin Yang style.

Ling Wu froze for a while, and said, “He is not out of his seclusion yet. However, the leader is already preparing to swap pointers with you.”

Hearing that, Su Yu’s heart felt a little better. He wanted the fight as soon as possible!

“I will now talk about the situation at Fan Capital,” Su Yu announced.

The Wang Clan Master was the most concerned because Fan Capital was the closest to the Saint Capital, and both had comparable strengths.

The more detrimental the situation at Fan Capital, the greater the danger that Saint Capital would encounter.

“How many soldiers does the Fan Capital still have?” the Wang Clan Master asked.

Su Yu shook his head. “You should first ask if Fan Capital is still there.”

What? None of those who were present could believe their ears.

The Wang Clan Master suddenly got up and said in disbelief, “Are you sure that Fan Capital has fallen?”

Su Yu nodded, “Yes, I entered the dream of Chu Wen, the second heir of the Chu Clan in Fan Capital and learned of the situation there. Ninety percent of the wizards were slaughtered, and the remaining ten percent were enslaved to help them build something.”

There were only sounds of people gasping in the crowd, and nothing else.

“So, Fan Capital was not only destroyed but also, the live spirits within were all slaughtered?” said a despondent voice from the crowd.

To be honest, if it wasn’t from the mouth of Su Yu, they would have believed it.

The Wang Clan Master was trembling. His old face appeared deeply shocked as he said, “This is not possible. The Chu Clan has a weapon inherited from the wizard ancestors, the Demon Subduing Drum. Even Nitian Guyun would have difficulty defending himself from it. Furthermore, they also had the power of the jade pendant from the wizard ancestors. Combined, they had enough explosive destructive power to repel Nitian Guyun and his army! ”

“Moreover, over the years, Fan Capital searched for various resources and arranged as many as 36,000 tactical spells outside the city. If they were activated, no one would be able to break in!”

“How could they be defeated in such a short period of time? This is unbelievable,” the Wang Clan Master said in disbelief.

But, in Su Yu’s eyes, everything made sense!

“The Chu Clan is led by the blind elder and the old one-armed elder. They seemed to be united on the surface, but deep down, they were not. The fact that the city is in ruins must have been down to those two arguing back and forth unnecessarily!” Su Yu said, regretting that he hadn’t dealt with them before he left, erasing the two of them altogether.

“Nitian Hanxing is extremely unpredictable in the way he uses the army. That was demonstrated by the way they invaded Fan Capital with such lightning speed without anybody knowing about it.”

Hearing the first reason, everyone’s expression was heavy. They believed that he was about eighty or ninety percent right. They knew deep down in their hearts what the Chu Clan was like. They were a bunch of people who would stop at nothing to get more money.

They could all picture the scene of them fighting amongst themselves for power before the battle even started.

As for the second reason, they were not convinced.

The Wang Clan Master shook his head and said, “No matter how adept Nitian Hanxing is at using the army, it would be impossible for them to come unnoticed. They could not have bypassed the 36,000 spells and appeared directly in the city.”

Su Yu didn’t agree. “It wouldn’t have been that difficult to bypass the spells and go directly into the city. I could have done it myself!”

Everyone was shocked, especially the Wang Clan Master, who found it even more unbelievable. “That is impossible. Not even Space Transportation could have been used to transport so many troops in. Not to mention the fact that the spells outside would have prevented that from happening.”

Su Yu shook his head. “Who said that Space Transportation was needed?”

The Wang Clan Master pondered that for a moment. “Those 36,000 spells could intercept the heavens above and the ground below. It would be impossible to bypass them.”

“Of course it would be impossible to enter from above, but underground?” Su Yu said.

The Wang Clan Master was puzzled. “Su Yu, I must ask you to elucidate. Sheng Capital’s defenses are far inferior to those of Fan Capital. If they can bypass the defense of Fan Capital, I’m afraid we are all in danger here.”

“It’s very simple! I don’t know if you remember, but during the first war between the God Realm and the Wizard Tribe, the people of the Wizard Tribe built a large number of secret bases underground to avoid the enemy troops that had invaded the Black Forest.”

After hearing his words, everyone tried to remember.

Most people looked completely lost. Even the old beings like Ling Wu, who have been with the leader for a long time, were completely unaware of it.

Those events happened too long ago, and they had nothing to do with the current situation. Furthermore, there were only a few records of that time period in the history books, and few would have noticed.

Only the masters of the two temples and the Wang Clan Master, who inherited the information of the wizard tribe from their ancestors, knew such details from their history. Their expressions gradually became more serious, and traces of cold sweat appeared on their foreheads.

“Those underground bases have long been abandoned, but they haven’t been filled in! At least the underground passages near Fan Capital still exist!” Su Yu continued, “I guess one of these underground passages is connected to the inside of Fan Capital?”

After hearing his explanation, everyone suddenly understood.

So that was what had happened!

The Wizard Tribe had long forgotten about the old underground secret passages. They were the key to the enemy’s victory over Fan Capital!

“I admire Brother Su’s wisdom from the bottom of my heart,” Wang Qingchen said sincerely.

The rest of the people were also impressed by Su Yu. All his words and actions were so remarkable that his peers felt ashamed of themselves.

However, Su Yu said with a serious look on his face, “Now is not the time to praise me. As I’ve said before, Nitian Hanxing utilizes his army very effectively!”

“While you all are just learning about the situation at the Fan Capital, he has already occupied and slaughtered the place!”

“Now that you have learned that the Fan Capital was taken, why not take a guess where is he headed now and what is he going to do?”

Everyone was startled by his words.

The Wang Clan Master’s face changed drastically. He shouted, “Somebody! Get the clan’s ancient scrolls and check the records of underground passages!”

Soon, boxes of dusty scrolls were brought out.

The people examined the blueprints of the ancient underground passages, and it turned out that one of the passages was directly connected to the inside of Sheng Capital.

It led to the old site of the Wang Clan’s mansion, which was not very far from them now!

That abandoned passage had long been forgotten and had not been filled in!

Thinking about the situation now, everyone felt a chill down their spines, and the soles of their feet turned cold.

With Nitian Hanxing’s exceptional command of his army, it was highly likely that they had already arrived outside the city.

They felt as if a terrifying beast was looking at them from underground, and would rush out and attack them at any time.

The Wang Clan Master felt a chill sink into his heart. He shouted angrily, “Somebody! Start the defense preparations, send teams of men, and seal off the abandoned tunnel immediately!”

He was really scared, and his heart was thumping wildly. Up until now, his demeanor had been calm, but now he was anxious and panicking over preparations to repel a formidable enemy.

“Slow down!” Su Yu stopped them.

At that moment, no one questioned Su Yu’s words. Even the two clan elders who were anxiously issuing orders immediately stood still and waited to see what Su Yu had to say.

Chapter 1444: Who Surprises Who

Everyone, including the Wang Clan Master, stared at Su Yu.

It was as if Su Yu was in charge and not the Wang Clan Master.

Su Yu understood what they wanted to know and said calmly, “The defenses can be activated, but the underground passage does not need to be filled!”

The Wang Clan Master was taken aback, “Doesn’t that leave us with endless hidden dangers?”

Su Yu smiled, “If we had not known about the abandoned tunnels, it would have been our fatal weakness, but now that we know about it, it will be our greatest weapon against the enemy!”

Some smart people realized what Su Yu meant and could not help but looked shocked.

“What a big appetite! You actually intend to...”

“This man looks like he has a peaceful demeanor, but his ambition is great and we should not speculate! Be careful with your words and do not be offensive.”

“While we were thinking about defending the city, he was already planning to attack the enemy!”

Su Yu said, “We might as well use his own tactics against him! Nitian Hanxing likes to win with his formidable army. We might as well use his favorite tactics to teach him a lesson he will never forget!”

Everyone was impressed, after some hesitation, even Wang Clan Master agreed with Su Yu’s plan.

The abandoned underground passage, which was tens of thousands of feet underground, was still suppressed by spells.

If the underground passage suddenly collapsed, even if there were level two strong men within, they would be buried forever.

If Nitian Hanxing attacked through the underground passage, they would definitely be able to destroy him!

“Alright! Send someone to set up explosion charms in the underground passage!” Wang Clan Master’s eyes were brimming with excitement.

“Slow down!” Su Yu stopped them again.

Wang Clan Master did not dare to contradict and said, “Please give us pointers, Su Yu.”

He used the word ‘pointers’, which showed that he was already thoroughly convinced by Su Yu’s capabilities.

Su Yu looked around at the people and said, “It is not that I don’t trust you, but how did Nitian Hanxing know about the underground passages? I have been to those passages and they are intricate and extend indefinitely. Even if a billion-strong army entered it, they would be like lost sheep, and quickly lose their sense of direction. Instead, they found the passage to Fan Capital in a short period of time. Do you sense something is amiss? ”

There was a spy!

Everyone was shaken to their cores. They were shocked by the fall of Fan Capital, but they had not carefully examined what had gone wrong.

Now when they thought about it carefully, if there was no spy to plan the directions for them, how could the army attack so efficiently?

“There is a traitor in the Fan Capital, and there might be traitors among us as well!” Su Yu said this reasonably. Even if some people were uncomfortable with that claim, they felt that it made sense as well.

Wang Clan Master looked around at everyone and said, “What Su Yu said is not unreasonable. It is not that I, the Wang clan master, do not believe you, but this is a very grave situation. If the news of our ambush against Nitian Hanxing is leaked, all our efforts will go to waste!”

He took out something from his sleeve. It was a black bronze man that was emitting strange waves.

Everyone realized suddenly that their communication tools were not working.

Someone tried to secretly send a voice message that said, “This is a prop to block out sending messages...”

Unexpectedly, the sound of that quiet voice message was magnified ten times and reverberated in everyone’s ears. The person who said those words was scared, his expression changed greatly, and said, ” I am not the spy, I am just curious... ”

Wang Clan Master squinted his eyes, and unleashed some magic that bound the person in the air, saying, “In this moment of crisis, anyone who is suspicious will not leave this place for even half a step.”

“Everyone, please stay in the house. Before the ambush is completed, you must not leave without permission. Otherwise, you will be regarded as a traitor, and everyone will band together against you. How about that?”

In response, the two Temple Lord and Mistress, as well as Ling Wu agreed on the spot.

The rest dared not resist and naturally obeyed the order.

Wang Clan Master said, “My friend, I want to ask you one thing.”

Su Yu immediately said, “Yes, I will help you ambush Nitian Hanxing.”

Wang Clan Master was taken aback. Su Yu knew his thoughts before he even spoke, and his mind was resolute. The Wang clan master was greatly relieved to give the task to such a person.

It was not that Su Yu wanted to take credit, but he wanted to settle the matter with the wizard tribe as soon as possible and return to the Star River Divine Realm.

The strange thing was that there were no objections. Instead, the majority agreed.

Other than the Wang clan master who would personally carry out this matter, no one else present would be capable of taking on the role.

Could it be the two Temple Lord and Mistress or Ling Wu? Who knew if they had been bought over or not?

Only the Wang clan master himself, who always had the clan’s best interests in mind, would never collude with a foreign enemy to invade Sheng Capital.

Su Yu was an exception.

What he had done had earned their trust.

If Su Yu was under suspicion, then no one was worthy of trust.

“I need an army that will obey my orders absolutely.”

Wang clan master said, “No problem! Qingchen, you will lead the military, and perform the mission with Su Yu. If anyone refuses to obey orders, kill without hesitation!”

Wang Qingchen stood up, “Understood, and I accept the order!”

The two of them left the hall, and Wang clan master stroked his beard and said, "I, as the master of the clan, will stay here with you all. We will supervise each other until the ambush is complete!"

Everyone nodded slowly. Only one person had a menacing expression on his face.

Wang Qingchen selected ten thousand soldiers and went with Su Yu to the former site of the Wang clan's mansion. After some excavation work, it turned out that there was indeed a long-abandoned underground cave. It was extremely deep and they were unsure where it led to.

Wang Qingchen smiled, "It's really interesting to follow Brother Su to ambush the army of God Realm. Just thinking about it made me feel very excited. The army of the Heaven defying empire is considered invincible in the God Realm."

Su Yu stared at the abandoned underground passage and said, "Let's get to work."

Wang Qingchen waved his hand, and the soldiers behind him immediately took out the explosive charges from the warehouse and distributed them in the abandoned passage.

Then, they just had to wait for Nitian Hanxing's army to arrive, and let them have a taste of their welcome gift.

However, Su Yu said, "Well, then detonate them and fill the tunnel to prevent any future complications."

What? The soldiers froze, so did Wang Qingchen.

"Brother Su, wait, didn't you say you want to ambush the army of Nitian Hanxing through this method? What's the use of detonating now?" Wang Qingchen could not understand.

Su Yu said lightly, "It is taboo for military strategists to use the same tactics, especially when I appeared in the underground passage and personally broke through them. The plan was not a secret anymore. If Nitian Hanxing used the same plan, then I would have overestimated him. "

"The surprise attack against Nitian Hanxing will no longer be in the underground passage, but through another way," Su Yu said.

Upon hearing this, Wang Qingchen felt that it made sense.

From the way Nitian Hanxing used his soldiers, it was often surprising and unexpected.

If the same strategy was used twice, then it was indeed not his style.

"But Brother Su, why did you say those words in the temple?" Wang Qingchen said. "If my father is overseeing the operation, the information will not be leaked."

Su Yu shook his head, "Don't be too superstitious about the tools of the wizard tribe. There are many unimaginable magical powers within the divine paths, and the tools of the wizard tribe may not be able to counter all of them! It would be better if there are no traitors among us. If there are traitors, they will be paralyzed after hearing the news from our end. This allows us to buy some time and take action. By saying those words back at the temple, only good will come out of it. "

Wang Qingchen was not completely convinced. The tools of the wizard tribe were taken out by his father and were refined using the methods passed down by the wizard tribe's ancestor with no exceptions made.

"Come with me, let's make another arrangement and give Nitian Hanxing a big surprise."

In the Black Forest, somewhere in the woods...

Groups of black and gloomy troops were quietly and stealthily moving through the forest, without disturbing the nearby live spirits.

The soldiers' faces were full of fortitude, and their actions were decisive and orderly, showing that they were well-trained.

In the army, there was a young man dressed in a glamorous outfit and had a dark complexion. He was moving neither too fast nor too slow and had an intimidating demeanor. He gave off the impression that he was above everything in this world.

He was Nitian Hanxing.

At that moment, a bird clad in flames flew through the void and appeared directly in front of Nitian Hanxing.

"Protect!" The guard shouted.

Nitian Hanxing reprimanded, "What's the panic? This is a secret communication technique dedicated to the royal family."

Crushing the flying bird in one fell swoop, messages burst out from it and landed in the ears of Nitian Hanxing.

After receiving the messages, Nitian Hanxing looked towards the sky and smiled, "Su Yu? I really can't underestimate you. You actually managed to deduce the reason why Fan Capital had fallen and predicted that I am now carrying out a surprise attack on Sheng Capital!"

"It's a pity that I do not intend to use the same strategy twice. I am afraid that your plan to ambush me will all turn to nothing!" Nitian Hanxing sneered. "You think that the underground passage is the only way to break into Sheng Capital? What a mistake! "

"Hahaha, after all, I am one step ahead of you. Su Yu, you shall witness how I destroy the Sheng Capital and capture you alive!" Nitian Hanxing looked up and laughed.

After the army left, two heads surfaced at the peak of some dark mountain.

These two people were scared away when they were stationed in the Black Forest to kill Su Yu.

They were General White Face and Guo Cheng.

Between them, four Supreme Destroyer Cannons had been snatched away from General White Face by Su Yu.

After these two men's troops defected, they ended up in the vast Lost Nation. It was probably because they were headed in the same direction and therefore they met each other by chance.

Because they were in the same boat, the two joined forces together.

Now they had an army of thousands and also possessed four Supreme Destroyer Cannons.

The two of them went out to gather news and unexpectedly discovered that the army of Nitian Hanxing was sneaking through the black forest straight in the direction of Sheng Capital.

"Pssh... It's the commander-in-chief!" The General White Face's face suddenly turned pale, as he still had a lingering fear of the brutal commander.

Guo Cheng could not help but swallow his saliva hard, speaking resentfully, "Why are you still calling him the commander? Do you think you can ever go back to him?"

General White Face said, "That would be a mistake! Ever since I defected, I knew I couldn't go back. With his character, I would suffer a miserable end."

"That's the way!" Guo Cheng said in a hateful tone. "We are afraid to return home because of Nitian Hanxing. We can only hide in the deep mountains or the old forests of the Lost Nation. We have to battle fearsome beasts and people from the wizard tribe, causing our numbers to gradually reduce. Sooner or later, we will become exhausted and die in the Lost Nation. "

They had planned to start a new chapter in life in the Lost Nation, but soon discovered the cruelty of reality.

The Black Forest was extremely dangerous, far more than the God Realm.

For example, earlier, they had encountered two, level- three, beasts and they lost more than three hundred soldiers immediately.

If they continued on in this manner, they would all die sooner or later.

General White Face shifted his gaze and said, "Why don't we seek refuge in Sheng Capital of the wizard tribe? The kid named Su Yu got himself quite a reputation while mixing with the wizard tribe. There's no reason we can't do it as well, right?"

Guo Cheng's eyes lit up and pondered, "It is definitely feasible, but Su Yu was taken in by them because he was jointly wanted by the four great empires. If we seek refuge with them, will they trust us?"

General White-faced smiled sneakily, "How is that difficult? What if we inform the Wizard Tribe about the intelligence we gathered about the invasion of Nitian Hanxing's army?"

After hearing his suggestions, Guo Cheng lit up and his face beamed with joy.

His intuition told him that this method would work!

After thinking for a while, Guo Cheng said, "That is not enough. If we can, we should capture some important people and hand them over to the Wizard Tribe together, so the chances of winning their trust will be even higher."

General White Face said, "Oh? Important people... There are not many important people around Nitian Hanxing."

Guo Cheng smiled unfathomably, "Hehe, that you do not know. Recently, Nitian Hanxing married a woman, and she is an absolute beauty. Now she is on her way to the military camp. I am the one that was arranging the route to escort her in. Provided nothing goes wrong, they should be at Cangtuo Mountain. If we intercept them now, the timing will be just right! "

General White Face was not surprised by the news. It was no secret that Nitian Hanxing was lustful.

It was not the first time that his brides were escorted into the military camp. Every once in a while, there would be brides sent in from the God Realm.

However, recently, he heard that this bride was different. Not only was her appearance mesmerizing, but her identity was also special.

"Okay! Let's just do it, Guo Cheng exclaimed. We will capture his bride and present her to the Wizard Tribe." General White Face immediately agreed, and the two turned back and went straight towards Cangtuo Mountain.

#### Chapter 1445: Equal Treatment

Outside Sheng Capital City...

Wang Qingchen and Su Yu stood side by side, and behind them stood eight generals. They were the commanders of the soldiers guarding each side of the city.

In spite of their age and experience, they respectfully obeyed the command of the silver-haired youth.

"Brother Su, how will Nitian Hanxing attack Sheng Capital?" Wang Qingchen couldn't help but wonder.

The underground passage had collapsed, and countless spells had been arranged outside the city for years now.

Su Yu stood up straight amongst the clouds, and looking in all four directions, said, "His strategy is not so difficult to guess, but the method is rather crazy, and ordinary people would not even think of it."

Wang Qingchen understood as he swept a glance at the many soldiers behind him, and stopped asking more questions.

"Generals, act only according to my instructions. This time, we will teach Nitian Hanxing a lesson."

The preparations lasted for a full three days and nights. Su Yu visited the sites from time to time to supervise.

"Reporting to Commander Su! We have caught one of the enemies from the God's Realm," a commander announced as he carefully watched for Su Yu's reaction.

Recently, they had captured some scouts from the God Realm but they were all were killed by their leader on the spot.

This person needed to report this to Su Yu, he knew something was odd. Su Yu said, "Go on."

"He claimed to surrender to us, and he offered something to show his loyalty. His only wish was for our Wizard Tribe to accept him," the commander said.

Rebel? Su Yu was not surprised. Nitian Hanxing was especially ruthless in the way he handled things. If a general of his made a mistake, he would likely be killed.

If some of the generals had made a mistake and wanted to avoid death, it was normal to have defections.

"You can also handle this matter yourself," Su Yu said.

"However, the other party wants to see the supreme commander, which is Commander Su," the commander said.

Su Yu was surprised and said, "See me? Does he want to give me something special to gain my trust? Okay then, take him to the barracks."

Soon, Guo Cheng was escorted to the central tent where Commander Su was sitting.

"In order to prevent you from doing anything to our commander-in-chief, stay outside the tent, and speak," the commander said as he personally watched over him.

Looking through the tent, Guo Cheng saw a figure sitting cross-legged inside and thought, "So this is the most senior commander of the Wizard Tribe in Sheng Capital. Is he the Wang Clan Master? If I can gain his trust, not only will I make it big but also find a safe place to live. This should not be too much of a problem."

Once satisfied with his own analysis, Guo Cheng dropped to his knees and said, "I am Guo Cheng, the former general under Nitian Guyun, paying respects to the commander-in-chief of the Wizard Tribe."

Guo Cheng? Su Yu in the tent had already seen who this person was and he was not that surprised.

COMMENT

In the past, he had made a plan to escape from their siege. General Guo Cheng should have escaped then. It was such a coincidence that he had decided to come to Sheng Capital and throw his loyalty there.

Feeling a tad cheeky, Su Yu used magical power to change his voice slightly and said, "So, do you mean that you are betraying Nitian Hanxing?"

Guo Cheng knew that the critical moment had come, and he responded carefully in an awe-inspiring tone, "Reporting to the commander, we feel indignant against the cruelty of Nitian Guyun, so we abandon that place."

"Oh? How can I know that you are not a spy sent by the Nitian Hanxing?"

Guo Cheng resisted the excitement he felt and presented a jade-like item that had a small cavern world in it. "You will understand when you see this thing."

The soldiers took the jade pendant and placed it in Su Yu's palm.

His soul swept into the small cavern world and Su Yu couldn't help but be surprised. "Is it her?" he said.

In the small cavern world, a woman in a red robe decorated with phoenix motifs and a beautiful phoenix crown on her head was imprisoned. She looked exceptionally beautiful and was dressed like a bride!

Even more coincidental was that Su Yu just happened to know that the bride was no one other than Xue Xiaoman, the governor of the Xue Nation in the Northern Territory.

He was a little surprised. Su Yu put away the jade pendant quietly and said, "Who is she?"

Guo Cheng said proudly, "Reporting to the commander-in-chief, she is the bride of the marriage between the Northern Territory's Xue Nation and the Heaven-defying Empire, Xue Xiaoman! She is the governor of the Xue Nation of the Northern Territory! She has a special status as she is a woman who is valued by the Nitian Hanxing. To truly understand the man, I believe she will be one of the best spies we can use."

What is Nitian Hanxing like as a person? Lecherous as hell, even his own mother he refused to let go. He could certainly be called the reincarnation of the devil.

Given his character, he would never hand over his women to outsiders.

"I believe in your sincerity." Su Yu seemed to smile a little.

The unsuspecting Guo Cheng was overjoyed, "I do have one more request that I hope that the commander-in-chief will consider! My brothers and another general are also willing to submit to the Sheng Capital and serve you well."

Su Yu stood up and smiled with the tent as a barrier and said, "You are sincere enough to want to be loyal to me and I will most definitely treat you as a distinguished guest. However, what kind of treatment do you want?"

Guo Cheng felt in his heart that he was secure. The other party in the tent was the commander-in-chief. Once he gave the order, it would not be rescinded.

The next step was to talk about the terms.

After thinking about it, Guo Cheng did not dare to ask for too much, but he was not willing to go too low either. His eyes turned a little as he said, "I have heard that Su Yu from my God's realm is treated well in the Wizard Tribe. We dare not expect too much and simply ask to be treated as well as he is."

Hearing these words, the two commanders outside the tent rolled their eyes. "What a fine fellow!" one of them said. "You really dare to ask? There can only be one commander in Sheng Capital. How can it be possible to divide the power in half!"

"How dare you," the other commander yelled and hurriedly pinned him down.

Guo Cheng was shocked and said anxiously, "Wait! If my request is too much, I can lower it. We can be treated slightly worse than Su Yu, it does not matter!"

The two commanders laughed out loud. A bit lower than the commander-in-chief? Isn't that the deputy commander-in-chief? He was still riding on their necks.

Seeing that the two commanders were angry, Guo Cheng stubbornly said, "I am after all a God of the Level Three Realm. Isn't even a common god's treatment possible for me?"

The two commanders didn't care anymore. Fearing that Su Yu would be further annoyed, they hurriedly pinned him down.

"Slow down," Su Yu said as he walked out with a smile. "General Guo Cheng, how have you been?"

Guo Cheng was stunned, "Since when did that voice change? And, it sounded eerily familiar!"

He took a closer look and Guo Cheng's eyes almost fell out of their sockets. Startled, he exclaimed, "Su Yu!"

"How dare you to call the commander by his name!" one of the commanders said as he kicked him hard.

Guo Cheng fell to the ground and was nevertheless, still shocked. "You? Are you their commander?"

Something that could not be believed had actually appeared before his eyes.

Su Yu waved the sleeve of his robe, and a gentle force lifted him up. He said with a smile, "So, I am afraid that if I granted you treatment the same as mine, there would not be enough to go around to split between three people."

After hearing these words, Guo Cheng was shocked and immediately thought about it as his face rapidly turned pale.

They had treated Su Yu badly in those days. If he wanted to settle old scores it could be bad for them. Thinking of this, Guo Cheng wanted to cry, albeit without tears.

He had literally had walked himself into the tiger's den!

"Su Yu, I accept my fate. To die in your hands would be better than to live in the hands of Nitian Hanxing," Guo Cheng said. He sat on the ground, motionless, as he completely dismissed the idea of resistance from his mind.

#### Chapter 1446: Impending Battle

Su Yu chuckled unexpectedly, "General Guo, please get up. You haven't caused me any substantial damage. There is currently no reason to put you to death! On the contrary, I do need people. If you can help me, there will be benefits that you can't possibly imagine."

Guo Cheng could hardly believe his ears. He looked at Su Yu in a daze for a long time. He had spent a long time under the command of Nitian Hanxing. He was used to it. The slightest mistake was the end of his life and his destiny.

He had got in Su Yu's way in the past but now it appears he was forgiven.

"You ... really mean it?"

"Not fake at all!"

Guo Cheng's eyes became brighter and he quickly knelt in a subservient manner, smashing his head on the ground in the process. "Su ... Commander Su is magnanimous. Guo Cheng will never forget this blessing," the general said with as much sincerity as he could muster.

"Let all the rest of the defecting troops come together. Thinking about it, we are all people who have gone through the same thing," Su Yu said.

Guo Cheng was moved. Yes, he could not return to God's Realm but they were truly people who had gone through the same thing.

He clenched his fists and immediately left taking Commander White Face and a group of soldiers with him.

Commander White Face had been worried, but fortunately, Su Yu had treated them warmly and had no intention of bringing them harm.

A banquet was held and wine and rice were served. Guo Cheng and Commander White Face looked at each other and said in unison, "Whatever Commander Su wants to use us for, let him speak his mind and we will make sure it is done!"

"It's not necessary to go out of your way. You all came to me to seek peace and stability. Is there any reason why I would let you face danger again?" Su Yu smiled mysteriously.

The two were relieved. Their biggest fear was that Su Yu said one thing and meant another. Secretly, they expected he would send them to the frontline as cannon fodder.

"However, although it is not necessary to go out of the way for me, it is still necessary to suffer some hardship," Su Yu said leisurely.

The hearts of the two that had just been lifted suddenly fell and they felt cold inside.

Sure enough, the request came.

Guo Cheng's face was bitter with worry as he said, "Please tell me, Commander Su."

"Oh, Brother Wang, it's all up to you." Su Yu looked at Wang Qingchen and smiled.

Wang Qingchen patted his chest and said, "Ha ha ha, other things, I may not be able to do, but this thing, hehe ..."

Billions of miles away near Sheng Capital, the dark God's Realm soldiers stood quietly by in the black wood forest.

Nitian Hanxing was on a boulder, sitting cross-legged, holding a beautiful young girl in his arms as he kneaded her smooth and white skin.

Brush!

Three silhouettes with an earthy atmosphere came forward and knelt on one knee. "Reporting to the commander-in-chief, we have made the preparations and await the commander's order," one of them announced.

Nitian Hanxing grabbed the girl's tender chest one more time before he reluctantly let go.

He looked at the three people, changed his attitude, and spoke with authority, "Have you been discovered by Su Yu?"

"Reporting back to the commander, Su Yu is busy making arrangements in the passages that lead to the city, and he had no time to take care of us. We can be sure of this. He did not discover us."

Only then did Nitian Hanxing smiled a little. "Okay! Well done! Once we conquer Sheng Capital, I will let you three pick any of the beauties in the city you want!"

The three people expressed gratitude, but in their hearts, they smiled bitterly.

Really beautiful women? Would they even dare to touch one of them?

After Fan Capital was defeated, Nitian Hanxing took his pick of the captured young ladies. It was only after he picked the ones he wanted that the rest had a choice.

If anyone chose a beautiful female prisoner and had intercourse with her, it would most certainly ruffle up Nitian Hanxing. There had been three commanders, as well as more than a dozen commanders of Level Four Realm, who couldn't control their sexual urges and were executed as a result.

No one dared to speak of this matter.

Whoosh!

Suddenly, three blood-stricken God's Realm soldiers flew in from the horizon. They had clearly been ambushed and looked extremely pathetic.

"Great supreme commander, our news is not good!" After the three of them landed, they knelt down on the ground, trembling with fear.

Nianxing Hanxing glanced at the three men's clothing. "Which bride are you transporting?"

"It is ... It is the Mistress of the Xue Nation in the Northern Territory, Xue Xiaoman."

Eh? Nitian Hanxing glared at them. "Tell me what happened!"

The three of them shivered and said, "We were ambushed by God's Realm rebels deep in the Mountains. The escort team was defeated and the bride, the bride was taken by them!"

Boom!

He suddenly stood up and a layer of pressure fluctuations visible to the naked eye swept across the space.

The six people at the scene were affected by the pressurized fluctuations and spurted blood on the spot.

The previous three soldiers with earthy attributes were also interrogated.

“Who did it?” Nitian Hanxing’s voice was cold, and his face was angry.

“It was done by the rebels, Guo Cheng and Commander White Face!”

Nitian Hanxing now looked like he wanted to kill someone. “It’s the two who deserted us! Where were they going?” he shouted.

“They were going to Sheng Capital!”

The eyes of the Nitian Hanxing were now even colder. “Sheng Capital? Huh! They take my woman as a token reward! When did this happen?”

“Four days ago!”

Hearing this, Nitian Hanxing staring at them coldly and barked, “Why are you telling this to me now?”

“We were chased and became separated. We were lost in the black wood forest for a few days, therefore...”

Nitian Hanxing’s eyes glowed with ferocity. “The people under me, Nitian Hanxing, are no useless creatures. Such a small thing like escorting my bride, you can’t even do that! You all are worse than useless!”

The three of them were terrified and hurriedly begged for mercy, “Please commander-in-chief, please forgive us! We, we are willing to make up for our mistake!”

“No need! Death is the only way to pay for your guilt!” Nitian Hanxing attacked and in an instant, the three of them were no more.

The three soldiers with earthly attributes were shocked. He had killed them without truly understanding their predicament.

The three soldiers who escorted the bride were close confidants of Nitian Hanxing. They had escorted brides many times. Even if there was no credit for the current work they did, they nevertheless worked hard for him.

Yet Nitian Hanxing killed them without so much as a blink of the eye.

The three of them felt a chill down their spines and were extremely uneasy. They knew that this could be their fate one day!

“Send out my order, prepare to attack Sheng Capital!”

With this order, tens of millions of troops under him immediately rose up with strong killing intent. The entire army, as directed by him, acted neatly and in unison, accelerating its progress to Sheng Capital.

On the walls of Sheng Capital City, Su Yu stood gazing into the distance.

At this time, Wang Qingchen hurriedly delivered a broken wizard tool and said, “A scout is dead!”

Kap!

Kap!

After a while, two other scouts suddenly died, one after another.

Wang Qingchen frowned, his face gradually turning grave. "It is an enemy attack! They are heading here in straight line formation and their speed is extremely fast!"

Each scout, though tens of thousands of miles apart from each other, perished at almost the same time. This was enough to show that they were attacked at the same time.

The front line of the enemy army stretched for tens of thousands of miles. How d\*mned large was this army?

Wang Qingchen's heart trembled and any calm that was previously on his face was gone. It was his first time facing such a large army.

He noticed that this was the same for the eight commanders. Any calm that they had before the war was long gone.

The enemy offensive was beyond their expectations and shocked them all.

However, when he looked at Su Yu, he was ashamed and forced himself to calm down.

Su Yu was calm and composed. His eyes showed no fear as if he had already experienced countless similar wars.

"If we act according to the plan, we can keep Sheng Capital safe and sound," Su Yu said lightly. There was a strange power in his voice, which made the soldiers involuntarily settle down and be calm.

"Nitian Hanxing, are you and I finally going to have a battle?" Su Yu reflected.

They had collided many times, but none of it had been a real battle.

Now, there was finally going to be a conclusion.

Chapter 1447: Far-reaching Strategies

Buzz! Buzz!

A wizard tool on Su Yu's palm began flickering all of a sudden, it was an urgent warning issued by a scout from a hundred thousand miles away.

Creak!

Then, the Life Token in Wang Qingchen's hand emitted a soft creaking noise.

The scout who delivered the emergency message was now dead.

Buzz! Buzz!

The scout fifty-thousand miles away sent a warning, and died shortly after.

And then, a message from thirty-thousand miles away!

Twenty-thousand miles away!

Ten-thousand miles away!

The sound of rapidly thumping heartbeats in the commander's chests could be heard.

The threat of the charging enemy was truly terrifying.

They were near!

Five thousand miles away!

They could already sense the vigorous, intense tremors coming from underground, making the entire city tremble in fear.

The sealing formation outside the city began operating immediately, stabilizing the shivering walls of the city.

Three thousand miles away!

The endless, dull rumbling of thunder boomed in their ears, accompanied by the increasingly vigorous trembling of the ground. Like a catastrophe that was about to befall, landing blow after blow in the depth of their souls.

Even when the formation was fully activated, it could not hold off the rumbling that made the heavens and the earth shudder.

A thousand miles away!

They could already see the turbulent surge of black waves filling the horizon where the earth met the sky.

Like boundless giant waves, they crashed down head-on.

Under the never-ending stretch of black waves, the grand city of Sheng Capital seemed as insignificant and vulnerable as a tiny rowboat in a stormy sea.

The marching force that seemed like it was going to topple the mountains and overturn the sea, made the eight commanders flare-up in panic and apprehension all over again.

“How could...how could they possibly have so many soldiers?”

“Oh no! A major disaster is right on our doorstep, even when the Wizard Ancestor fought the God Realm in the past, there haven’t been this many soldiers. There is no way we can hold them off by solely depending on our formation!”

Panic grew like wild grass in the hearts of the people.

On the walls of the city, some of the commanders, whose faces had turned pallid with fright, couldn’t help but abandon their posts.

But as they retreated, a golden ray was flung in their direction, chopping their heads right off their shoulders.

“Those who are having cold feet, die!”

“Those who sway the morale of the army, die!”

Su Yu’s eyes were glinting with an icy light, as he bellowed in a cold harsh voice, “The enemy is marching towards us like tempestuous ocean waves, do you think your lives will be spared by running away?”

The gruesome scene, and his ice-cold words, made those who were having cold feet, shiver.

He was right, this wasn't a battle between the tribes, in which one could surrender by admitting defeat.

This was a war between the wizards and the God Realm. There was no surrender, only killing or being killed, guarding the city or being slaughtered, till there was not a single soul left.

Fan Capital was the best example.

Having been provoked by Su Yu's words, the generals on the city walls gritted their teeth and suppressed the dread and trepidation within them, straining to take control of themselves.

Five hundred miles away!

The sky and the land were immersed in an ocean of darkness, engulfed by the giant black waves.

The sight looked like the end of the world, rousing a deep sense of despair in the hearts of all.

Boom! Boom! Rumble!

Shocking bolts of thunder streaked across the heavens, making Sheng Capital tremble on the verge of collapse.

Everyone in the city scurried into their houses in horror, holding on to and embracing each other, praying hard for the disaster to spare them.

Perhaps, their prayers had been heard, only a miracle could save them.

The black waves that had completely blotted the sky pounced onto the city of Sheng Capital.

However, just before they came into contact, the waves parted in two, circumventing the city.

As the rumbling of the destructive thunder howled past their ears, the black deluge gradually subsided, and the rumbling sound became increasingly distant.

Everyone was stunned. Were the enemy gone?

Where was the great war that they had been promised?

Only the commanders on the city walls understood what had just happened.

The eight commanders had turned completely pale, their hearts still timidly pounding in fear, as though they had just made it out of the jaws of death.

"Great commander, was that...was that the deluge of beasts?" one of the commanders couldn't believe what he had seen.

Su Yu replied coldly, "Didn't you see it clearly from such a near distance?"

It really was the deluge of beasts!

Wang Qingchen shuddered, "It was the deluge of beasts created by Nitian Hanxing!"

He was right, the pitch-dark gargantuan waves weren't the great armies that they had imagined, but countless kinds of ferocious beasts!

The Black Forest occupied more than half of the Lost Nation, and what it had in abundance were ferocious beasts!

They had somehow repelled the deluge of beasts, sending them sprinting and scampering from the Black Forest.

These beasts could slaughter individual creatures in a fraction of a second, but in the face of the entire Sheng Capital, they had to take a detour.

“Why did he do that?” Wang Qingchen queried. “If the deluge of beasts could destroy an entire capital, for the past billion years, we wouldn’t still exist.”

For the destruction of the two capitals, the deluge of beasts was of no help!

With gleams of profound wisdom shining in his bright eyes, Su Yu replied casually, “Does it need more thought? It was, of course, Nitian Hanxing’s same old trick, merely a tactic to divert our attention!”

“I suspect, while we were drawn to the deluge of beasts, he has sabotaged us from the rear in some way, hasn’t he?”

“What?” Wang Qingchen turned around abruptly, looking at the other side of Sheng Capital.

They were on the east side, directly facing Fan Capital.

If the enemy attacked, theoretically speaking, they would come from the east.

But the west... They had never bothered reinforcing the defense of the west.

At the West Gate!

The giant gates were guarded by the sturdy warriors of the Wizard Tribe, led by three white-haired elders.

Whoever intended to destroy the gates had to do so over their dead bodies.

At that moment, the deluge of beasts came surging in.

The boundless momentum was as dreadful as doomsday, shrouding the air above the West Gate in a sea of blackness, instilling fear and panic within everyone who experienced it.

Right at that moment!

One of the elders’ eyes turned stern and harsh all of a sudden, the undulating sorcery energy on the surface of his body faded, replaced by an erupting surge of divine energy. It was an extremely pure Level Three divine energy!

With a deafening growl, he attacked.

The two elders couldn’t guard against it in time. They were immediately crushed by him, severely wounded and struggling at the brink of death.

“Old Qiu, why did you... If you’re not Old Qiu, then who are you?” Much to their stupefaction, the Old Qiu whom they had spent most of their time with, turned out to be a warrior from the God Realm.

The sorcery energy surging all over him was released by the unique skintight garments that he wore.

“Old Qiu? Haha!” The warrior from the God Realm put his hands behind his back and grinned coldly, “I have sent him to Hell long ago!”

As he spoke, his appearance transformed. It turned out to a special kind of disguise that he wore.

He had killed Old Qiu and lived his life for him among the wizards.

More fascinatingly, if Su Yu were here, he would definitely have recognized this man!

“Impossible! Sheng Capital never provides shelter for strangers from the God Realm, how did you infiltrate secretly, killing Old Qiu and substituting him?”

The man from God Realm taunted with disdain, “Why would I need to do that secretly? My comrades and I were brought here by you!”

The two elders were startled, and then their eyes were full of disbelief.

Flabbergasted, they questioned, “Were you the spy from the batch captured last time, who hid in the city, scouting everywhere for information?”

It was because a lock-down was imposed on Sheng Capital.

“But aren’t you supposed to be imprisoned? How could you possibly get out?”

The man from God Realm sneered, “I had a secret helper, of course!”

As he spoke, his face turned cold all of a sudden. Like a flash of lightning, he struck at the two of them brutally, slaughtering the two of them who were already wounded.

“My brothers, arise! Now is the time to show your greatness!” The man from God Realm screamed.

On the city walls of the West Gate, intense scuffles broke out, many were caught unawares as they whimpered and cried out in agony.

More than thirty robust men from the God Realm tore off their guises as wizards, revealing their true identities.

With a speed as swift as a sudden clap of thunder, they killed the guards and rapidly took control of the city gates.

The man from the God Realm ordered, “Open the gates and welcome the great general into the city!”

He raised his feet in an attempt to stomp on the pivot of the formation and destroy it.

But right at that moment, the man suddenly shuddered, as if he was being watched by something horrific.

He quickly turned around. It was a hundred-feet-tall Superior-Extermination Cannon fully charged with energy, which was being propelled from a hidden corner, aiming directly at the man.

Behind the Superior-Extermination Cannon, stood men on each side. They were Guo Cheng and General Bai.

Guo Cheng said, half-smiling, “Hehe, Su Yu really does foretell things like a god. He knew that Nitian Hanxing was going to use a diversion tactic and that the West Gate was his main objective!”

General Bai clasped his hands together and laughed, overwhelmed with admiration. “The most fascinating part is, he knew that there was a problem with the spies that had been captured, hence he ordered us to wait here. He knew that they would be here for sure.”

Upon hearing their conversation, the man from God Realm was stunned and blurted, “How could he have known that?”

General Bai said, “Because he thought that you gave away information too easily and that you revealed the fact that Fan Capital was under the siege of the God Realm’s army without any resistance. That was your biggest weakness.”

#### COMMENT

The man from God Realm was utterly surprised. “Who is your Commander?” he asked.

Guo Cheng chortled, “You must have heard of the mighty name Su Yu, haven’t you?”

“What? It’s him, the Western Alliance Master?” The man turned pale from terror. But he was resentful at the same time, a deep-seated, profound hatred raging in his eyes.

Guo Cheng and General Bai exchanged a glance. The Western Alliance Master?

This man would serve great value, he must be captured alive and handed to Su Yu!

“Brothers, bring out the weapons!” the two generals yelled. From a cranny, three other Superior-Extermination Cannons were pushed forth, the jet-black, humongous muzzles casting over the people.

Four Superior-Extermination Cannons, they were enough to destroy them four times over.

And it happened just as expected, all of them surrendered.

The small-scale rebellion was settled without drawing any attention.

But if Su Yu hadn’t guessed the enemy’s plans, the small rebellion could have turned into a major calamity that could have annihilated Sheng Capital.

The formation would have been destroyed, and the gates of the city would have been forced open. The Sheng Capital would have ended up exactly as Fan Capital did!

While they were trying to conquer Fan Capital, they had arranged people of the God Realm to infiltrate the city. It wasn’t a makeshift plan.

It was conspicuous how far-reaching their strategies were, and how subtle and witty their tactics had been.

Beyond the West gates, in the Black Forest, the endless black deluge of beasts parted once more, bypassing the mass of black-armored soldiers, and scurried away.

The great army of warriors clad in black armor made up tens of millions in number, all of them dauntless, stern and resolute. They were the true blade of the Nitian Empire!

Just as expected, they were lying in ambush in the west, awaiting signals from the inside to march into the city.

However, even when the arranged time was reached, no signal was sent.

Nitian Hanxing smiled in a teasing way and said to himself, “Has it been exposed? Su Yu, I have to admit you’re quite clever, to have found out about this alternate plan. You’re qualified to fight me on the battlefield!”

“However, the best part of the drama has just begun to unfold, I have saved my true surprise for you for later!”

Su Yu led the soldiers to the West Gate.

Guo Cheng and General Bai immediately presented him with the captives, their cheeks glistening with pride.

“Sir! We have captured these prisoners who will soon be in the dungeon, just as you arranged!”

Looking at them, the eight commanders recognized them immediately, especially Zheng Laodao who had captured them personally. Shocked, he asked, “Weren’t they imprisoned in the dungeon? Who released them?”

But he shut his mouth immediately, because their commander, Su Yu, didn’t seem to be his usual self.

He stared at the captives with the God Realm in their eyes, smiling queerly. “This is a small world, huh? So small that even beyond the Star River, we still cross paths with each other!”

#### Chapter 1448: Admiral White Bone

The other person fixed his deadly stare on Su Yu, his eyes emitting hatred and turbulent demonic energy surged all around him. Hatefully, he said, “It really is you, Su Yu!”

“I never thought the spy caught in the city a fortnight ago would turn out to be you, Admiral White Bone!” Su Yu said.

He was one of the Ten Great Admirals of the Demonic Dimension, who once attacked Su Yu alongside the Demonic God of Six Paths, the Book Deity, and Cailin.

In the end, Su Yu had shoved him into the vortex of the Spiritual Pool, from where he fell into the forsaken ancient God Realm.

He had never imagined meeting him here.

Admiral White Bone said, “You’re still as bothersome as you have always been, you saw through us so easily!”

Back when he first heard about the capture of these spies, and how they quickly confessed about Fan Capital being under siege, Su Yu had become suspicious.

Would the God Realm send spies with such a low tolerance under interrogation? Even if they had no choice, they would have implanted a setup in their heads. Once they were captured, they would be killed immediately.

When he thought about it, it seemed as though they had got themselves caught on purpose.

Besides, Su Yu had been vigilant about Nitian Hanxing's like of unexpected military artifices, hence he had laid an ambush beforehand.

And just as expected, their capture was a big problem!

"However, don't even think of obtaining a single piece of information from me!"

Admiral White Bone shuddered as if he was smashing something hidden deep within him into pieces.

The surface of his body rapidly turned pitch-black, and then from pitch-black, it turned dark purple. Clearly, he had been poisoned.

"Su Yu!" Admiral White Bone grinned cunningly. "You landed all of us in such great misery. Just wait, someone is coming to take your life!"

When he finished, white froth trickled out of the corner of his mouth, and his eyes flipped backward. In a fraction of a second, he was dead.

The rest of the captives also died from poisoning, one after another. The abruptness of the incident was not something they could have imagined.

In the blink of an eye, dead bodies were lying all over the floor.

Su Yu began to think. Who was the person whom Admiral White Bone mentioned was coming to take his life? Nitian Guyun? The Four Great Empires from the God Realm?

Zheng Laodao examined the bodies, and his face soon turned somber and gloomy. "We were careless! They hid the poison in their organs, hence it went unnoticed when we captured them," he said gloomily.

"D\*amn it, we never got them to name the spy who released them from the dungeon!"

Although they were dead, the danger still remained.

As they thought about the perils that could have happened to them, the commanders still felt trepidation lingering in them. If it wasn't for Su Yu's judicious foresight, the city would have been conquered by the army from the God Realm by now.

Wang Qingchen couldn't help but burst into laughter, "Brother Su, you predict things like a god. No matter how well that Nitian Hanxing deploys his army, it is all a piece of cake to you, Brother Su."

The commanders felt it deeply, they were anticipating that Nitian Hanxing would call off his attack, now that his plan had been thwarted.

Su Yu stepped over the dead bodies without emotion and stood on top of the city walls.

He stared into the eerily silent Black Forest, and said, "Nitian Hanxing has been planning this for a long time, there is no way he had only one strategy. This, is only the beginning, do not let down your guards..."

His words trailed off. From the Black Forest ahead of them, a jet-black beam of light fled out.

Within the beam of light were hundreds of thousands of talismans that were flickering unsteadily, all of them charged with a unique power that could curb formations.

Boom!

The beam of light bombarded the formation and they began to tremble all at once, releasing frantic sounds of whimpering.

“What...what is that thing?” Zheng Laodao and the commanders turned pale with fright. A single blow from it had sent the hundreds of formations shaking, never had they heard of such a creepy and bizarre force.

A rumble broke out in the forest, large patches of trees and woods collapsed, and the ground cracked open. A gargantuan pangolin, glinting with a metallic sheen, slowly crawled out.

The surface of the pangolin’s body was carved with innumerable high-grade formations that were revolving relentlessly.

The black barrel of a cannon, which was ten feet in width, peered out from the mouth of the pangolin. It was filled with pitch-dark energy, in preparation for the second attack.

“Ancient civil weapon!” Su Yu’s brows loosened up a little. The metallic pangolin was a non-living entity, wholly dependent on the unique crystals within it to provide energy.

Zheng Laodao was solemn for a long while, the look on his face extremely somber.

“I remember now, this thing appeared during the great war between the Wizard Ancestor and the God Realm. It is a top-grade civil weapon that especially attacks formations, the Formation Destruction Beast.”

“Back then, the idols of many impregnable tribes were destroyed easily by the Formation Destruction Beast.”

“Even the defense of our Sheng Capital was nearly penetrated by the Formation Destruction Beast.”

His soft mumbling made all the people present at the scene turn pale with dread, their faces turning solemn.

Su Yu was right. Nitian Hanxing had come prepared, he had way more than just one plan of conquest up his sleeve.

“However, for many years, the formation of Sheng Capital was continuously being reinforced. It is no longer as tenuous as it used to be. A single Formation Destruction Beast can do us no harm.”

But before he could finish his words, another round of vigorous commotion broke out in the Black Forest. Another patch of trees collapsed, and another Formation Destruction Beast crawled out of the ground.

“The second one!”

Boom! Rumble!

Another patch of black woods collapsed!

The third one!

Boom! Boom!

In quick succession, trees of the western Black Forest collapsed, and one after another, Formation Destruction Beasts crawled out from beneath the ground.

There were more than ten of them!

Clang!

The long knife in Zheng Laodao's hand fell onto the ground, the sound echoing eerily within the silent walls of the city.

A single beast could shake the city walls, so a dozen of them could...

The great army from the God Realm did not give them any time to contemplate. Once the dozen of Formation Destruction Beasts emerged, massive surges of formation-destroying power were unleashed all at once.

BBBooommm! Rumble!

Several dozen jet-black beams of light bombarded them.

The formation was no longer just vibrating, they were...beginning to crumble!

The three formations in the outermost layer were bombarded into smithereens!

At the same time, the enemy launched the second surge of attack!

Boom!

Three other protective formations were shattered!

If this went on, in less than half an hour, all the formations would be annihilated!

Su Yu said, "Activate the backup formations."

The three commanders immediately made their way to the pivot of the formations, instilling them with vast amounts of powerful sorcery energy.

The three crumbled formations rapidly recovered upon receiving the replenishment of energy.

Only then did the people on the city walls ease up a little.

"Take turns, continue charging with sorcery energy," Su Yu ordered.

Zheng Laodao and two others got down to work in shifts, replenishing the pivot with sorcery energy to facilitate the rapid recovery of the formations.

Only then were the formations maintained and prevented from destruction.

However, it would be disadvantageous to Su Yu's party in the long run. Repairing the formations required a massive amount of sorcery energy, which was only achievable by the sorcery energy of Level Three wizards.

But their Level Three wizards made up the main strength of their army if all of them were deployed to repair the formations... It was apparently a conspiracy.

“General Guo, General Bai!” Su Yu yelled.

The two of them took his hint readily. Carrying four Superior-Extermination Cannons, they leaped into the arena.

Along with Su Yu’s four cannons, there were eight Superior-Extermination Cannons in total.

“Brothers, come with me!” The two Generals led eight soldiers and jumped from the city walls. They made their way through the formations and activated the Superior-Extermination Cannons at the base of the city.

The eight Superior-Extermination Cannons which contained immense power were launched all at once.

However, they weren’t launched at the Formation Destruction Beasts, but...in another direction!

The eight savage, devastating gushes of power were projected into the Black Forest from afar, at a corner that no one would notice.

Nonetheless, when the first gush of power landed in that direction, a light yellow protective shield emerged, fending off the blow!

The people on the city walls were delighted. It implied that the direction in which the cannon was fired was most probably not the location of the ordinary men, but of the commanders!

The protective light shield could fend off the first blow, but what about the second, the third...all the way till the eighth blow?

Boom!

With a dull explosion, the yellow light shield was bombarded into smithereens.

A string of shocked, furious growls erupted from within, and more than ten extraordinarily powerful auras of deities flickered into view.

Upon a closer look, they turned out to be thirteen Level Three Deities with powerful auras.

They huddled firmly around an arrogant-looking youth with a dark complexion and soared into the sky.

“Nitian Hanxing!” All eight commanders recognized him immediately. The arrogant-looking youth was none other than the commander who led the Great Army from the God Realm this time around, Nitian Hanxing!

Without any inflection, Su Yu gave his order indifferently, “Go on, don’t stop.”

How could Guo Cheng and General Bai dare to stop? They continued ordering the soldiers to activate the Superior-Extermination Cannons.

Boom! Boom! Boom!

Eight more destructive blows bombarded right at Nitian Hanxing.

“Great commander, retreat!” The thirteen commanders turned grave.

They couldn’t figure out how their location had been discovered with such high accuracy.

As they spoke, three commanders flew out to shield off the blow from the Superior-Extermination Cannons by joining forces.

But how could they be capable of fighting off the massive power of the Superior-Extermination Cannons?

In no time, they were reduced to ashes by the Superior-Extermination Cannons.

Seizing the opportunity, Nitian Hanxing, and the ten remaining commanders, fled from the blast area of the Superior-Extermination Cannons.

With iciness in his eyes, Nitian Hanxing stared into the depths of the sky. There was a faintly discernible eye staring down at life on the land as if seeing right through every being.

Even though they fled, the attacks from the Superior-Extermination Cannons did not cease. Under Su Yu’s precise aim, the cannons kept projecting blows at the important personnel of the great army.

Before long, four or five-level three commanders sustained devastating blows and perished.

The number of ordinary soldiers who had been sacrificed was innumerable.

No matter how subtly they concealed themselves, they couldn’t escape the destructive blows from the eight weapons, resulting in an incalculable number of casualties.

It seemed like the Great Army of the God Realm had no choice but to retreat!

But right at that moment, Su Yu gave his order, “Retreat right now!”

Being deeply engrossed in killing, Guo Cheng and General Bai were slightly surprised. But for fear of Su Yu’s power, they retreated with the soldiers and the eight Superior-Extermination Cannons despite their reluctance.

But the moment they left, a few dozen brutal forces were launched from the depths of the Black Forest.

They were also Superior-Extermination Cannons!

Another patch of woods was razed to the ground, revealing the row of Superior-Extermination Cannons that had been hidden. There were 30 of them altogether!

The pitch-dark muzzles were aimed at the spots where Guo Cheng, General Bai, and the others were standing only moments ago.

The two of them exchanged a glance and shuddered as chills cascaded down their spines.

Fortunately, they had retreated in time, otherwise...along with the cannons, they would have been slaughtered right there!

Nitian Hanxing frowned. Coldly, he remarked, “Su does have some skills right there, he has forced me to unveil my weapons for conquering the city!”

The thirty Superior-Extermination Cannons were originally reserved to be activated the moment the formations were torn down, to kill all the leading men on the city walls, making them rudderless.

This tactic was efficient when used on Fan Capital.

But Su Yu was aided by the accurate observation of Heaven's Eye, forcing Nitian Hanxing to reveal their presence.

"Execute the third plan!" Nitian Hanxing yelled, "Attack the city head-on!"

Clang!

In the Black Forest, the tidy, powerful sound of metal rubbing against metal reverberated through the air.

That was the sound of millions of soldiers clad in black armor getting up from their prone positions on the ground upon receiving the command, all geared up for war!

Whiffs of murderous, brutal scent erupted from the Black Forest.

Countless shadows were moving among the woods of the Black Forest, surging forcefully and rapidly like the currents of a giant river!

Su Yu's eyes turned somber. "The most difficult part has arrived!"

Chapter 1449: The Final Battle

Boom! Boom!

The Formation Destruction Beasts and the thirty Superior-Extermination Cannons were launched all at once, the absolute destructive power bombarded the defensive formations, shattering ten layers in the blink of an eye!

"Gather all the firepower in one spot, fire at once!" Nitian Hanxing commanded from afar.

All of a sudden, the bombardment rained down from all across the sky at the torn opening, shattering ten more layers!

In the fraction of a second, twenty of the hundred layers of formations were shattered into smithereens

"Congregate all Level Three Wizards in the city, and take turns to repair the formations!" Su Yu ordered.

The commanders took the task upon themselves first, repairing the broken formations with sorcery energy.

Ten layers of the formations were quickly recovered!

But right at that moment, the black, wave-like army surged out from the Black Forest and swarmed in through the torn crevice of the formations.

They were carrying weapons that would impede repairing the formations.

Seizing the opportunity, the enemy bombarded once again, making ten more layers of formations crumble in an instant!

The enemy army swarmed in, while the successive forces continued to sabotage the formations with the equipment they carried.

The enemy advanced one step at a time, no matter how the forces in the city strained to repair the formations, it was to no avail.

It was just like Su Yu had said, the hardest part had arrived.

“Soldiers in the northwest, prepare to strike!” As Su Yu’s command was heard, Zheng Laodao, among the eight commanders, gripped the long knife in his hand.

Leading a million of their soldiers, they arrived at the base of the city walls. With the sabotaged formations serving as a barrier between them, they confronted the turbulent black army.

Ten breaths later...

With an intense buzzing, the formation seals on this spot were torn open, forming an enormous crevice.

The feral, predatory great army from the God Realm besieged the city like a vicious deluge of beasts, attacking the walls of the city with the divine weapons in their hands.

With the aid of the Superior-Extermination Cannons, a large breach was opened up in the city walls that had been bombarded!

But what awaited them, was the great army of the Wizard Tribe that was fully prepared!

The army of wizards was seething a dim grey surge of sorcery energy, which collided with the black wave.

The two armies became entangled in a fight at close quarters, both sides almost equally matched.

To prevent harming their own soldiers, the enemy Superior-Extermination Cannons and Formation Destruction Beasts had stopped attacking. Instead, they were aimed at another region.

Soon, another batch of formations was torn open, and boundless swarms of black soldiers poured into the city.

“Soldiers in the northeast, prepare to strike!” Su Yu bellowed.

Another swarm of soldiers a million in number swarmed into the narrow crevice to fight off the invading army.

“Soldiers in the southwest, soldiers in the southeast, soldiers in the north, gear up!” Su Yu delivered his command in an orderly manner. In the face of the imminent perils, he did not panic at all.

Right here, right now, the only one who could not get confused was Su Yu!

As one crevice after another was opened up in the walls, the soldiers in the city surged forward to attack the intruding army.

Both party’s eyes were bloodshot from the slaughter, especially the wizards, who were staking their lives and blood to protect their city, with every last breath that they had.

Even if they were to die, they had to inflict a certain amount of injury upon the enemy and to buy some time for their brothers behind them.

Because if the great army from the God Realm was defeated, all they would lose, was just another victory.

But if they were defeated, they would be losing billions of people of their own blood.

The fight went on for three days and three nights, with the number of casualties on both parties escalating to nearly a hundred thousand.

The endless corpses were stacked up all over the place, some reaching a height of more than a hundred feet!

The soldiers that came later stood on the bodies and remains of their own people as they fought the enemy.

Streams of blood flowed from place to place. Under the vaporization by the heat of the dazzling sun, layers of blood-red mist were seen shrouding the grand Sheng Capital.

From afar, it looked just like a city of blood, both uncanny yet enthralling at the same time.

Frustrated with their lack of progress, the soldiers of the God Realm had diverted their forces to the east, south, and north, charging from all four sides at once.

Despite the intense retaliation and adequate preparations of the wizards of Sheng Capital, the Great Army of the god realm had been plotting for this day for a long time, the soldiers on their side were as many as tens of millions!

Once the soldiers perished, new batches of soldiers went in to replace them immediately, keeping the fight going.

However, the military power of the Wizard Tribe was limited, adding up to less than 30 percent of the opposing army.

After a long fight, the fatal weakness of the Wizard Tribe, which was the shortage of manpower, was gradually revealed.

Eight of the crevices of the walls had been invaded by the God Realm's army, their soldiers barging into the city.

Once they discovered what was happening, the people of Sheng Capital became apprehensive and frenzied, scampering in all directions.

Nitian Hanxing mocked, "The initiative has fallen under my control, Su Yu, even if you're a reincarnation of the God of War, don't even dream of turning this around!"

The invading force felt that victory was at hand.

The great army of the God Realm pressed on with absolute momentum, while the soldiers of the Wizard Tribe were gradually losing ground.

Half of the crevices had been conquered by the enemy, more than five million soldiers from the God Realm swarmed into the city!

At least half of their military power had invaded the city.

What did that imply?

It implied that the outcome was assured!

Nitian Hanxing rubbed his hands together and laughed, “Attack from all sides!”

Boom! Boom! Rumble!

But right at that moment, the land began to rumble and tremble. From beneath the soil of the city, a golden yellow idol emerged out of nowhere.

The idol was a hundred million feet in height, soaring high into the clouds, absolutely breathtaking and magnificent.

It had the appearance of the Wizard Ancestor of the Wizard tribe.

Surges of pure sorcery energy emitted waves of undulation that made the hearts of the people shudder.

As he looked at the object, Nitian Hanxing’s eyes turned solemn and he blurted, “The guardian divine artifact of the Wang Clan of Sheng Capital, the Sky-reaching Ancestral Idol. Isn’t that extinct already?”

The Chu Clan of Fan Capital possessed a legacy of the Wizard Ancestor, so of course, the Wang Clan did too.

However, the Wang Clan’s legacy of the Wizard Ancestor had been lost a long time ago.

At least that was what Nitian Hanxing had heard.

Once the Sky-reaching Ancestral Idol emerged, a beam of dense golden light was emitted, shrouding the entire Sheng Capital.

From afar, it looked like an overturned humongous bowl, firmly shielding the Sheng Capital.

The soldiers of the God Realm who were swarming into the crevices were caught unawares, pulverized by the befalling golden brilliance.

The soldiers who hadn’t entered attempted to bombard it, only to find that the defensive strength of the golden light was formidable!

Whereas the soldiers who had barged in found that they were now trapped in the city, losing contact with the outside world.

Nitian Hanxing scowled, “Fire the Formation Destruction Beasts and the Superior-Extermination Cannons at once!”

However, when the power that easily devastated the ten layers of formations struck the golden screen of light, all it created was a surge of ripples!

Nitian Hanxing got up abruptly, the confidence on his face finally faltering. “Conquer the city...”

But right at that moment, ear-piercing, boundless howls, and whimpers of misery sounded from within the city.

Through the golden light screen, it was clearly visible that the enemy soldiers were fuming with puffs of smoke under the illumination of the golden brilliance as if they were about to burst into flames.

It turned out that the divine energies in them had been ignited!

The Sky-reaching Ancestral Idol was the ultimate ace of the Wizard Tribe, it was originally used to restrain the creatures of the Red Dust Forbidden Lands.

If the Red Dust Forbidden Lands was breached someday, this idol would be the ultimate killing weapon that would annihilate the creatures of the Red Dust Forbidden Lands.

The soldiers of the God Realm were now on fire. They couldn't save themselves, as they frantically searched for spots where the golden brilliance couldn't reach them.

On the other hand, the soldiers of the Wizard Tribe were totally unaffected. Dividing their forces, they began hunting down the soldiers of the God Realm that were scurrying in all directions within the city.

The wizard residents in the city joined the fight, chasing after the soldiers that had infiltrated the city, pummeling them as if they were drowning dogs.

Three more days and nights had passed.

The power of the Sky-reaching Ancestral Idol was thoroughly consumed, by the time the golden screen of light disappeared, less than a hundred thousand soldiers of the God Realm managed to escape alive.

The rest were all buried within the city!

Five million soldiers, more than half of the elite troops of the God Realm's Great Army had perished during the battle.

Such a tremendous number of casualties certainly wasn't foreseen by Nitian Hanxing in his third plan!

Nitian Hanxing's eyes emitted endless iciness and he said, "All personnel in charge of delivering information about Sheng Capital are hereby sentenced to death, not a single one of them should be left alive!"

Before long, the sounds feeble protests mixed with the stale air as it wafted through the camp,

The great army fell into a dead silence. The unprecedented blow had given them a major sense of defeat and dejection, having been unassailable all along.

Since they first invaded the Lost Nation, where their casualties had not exceeded a hundred thousand.

However, at Sheng Capital alone, the number of casualties had skyrocketed to five million!

The stark, vivid contrast had given a fatal, violent blow to their triumphant, glorious sense of victory.

Nitian Hanxing stared down at his army with coldness in his eyes. "Unfortunate soldiers will suffer defeat for certain! They are no longer fit for use!"

He lifted his gaze, and his eyes fell upon the figure of the silver-haired youth standing bolt upright on the walls of the city.

His eyes were ablaze with murderous intent. "He killed off half of my army, he is the man who hinders my Path of Defiance indeed!"

"Deliver my order, activate...the ultimate plan!" Nitian Hanxing inhaled a deep breath, violence, and brutality roiling in the depths of his pupils. "I never wanted to take things to this stage, Su Yu, you'll be buried alongside all the creatures of Sheng Capital!"

Dead bodies were sprawled all over the city, and the city was soaked in torrents of blood.

Although the enemy from the God Realm had been slain, the casualties suffered by the wizards could not be ignored.

At a rough glance, injured, crippled soldiers were all over the place.

Wang Qingchen was covered entirely in blood, the wizard knife in his hand was curled up at the edges, no longer fit for purpose.

He was covered all over in wounds and looked anguished and disheveled.

But he was in high spirits, his face beaming with exuberance as he licked his lips. "With thirty thousand soldiers, we slew five million of the enemy. It is a result that I never dared imagine."

"It was all thanks to Brother Su's command, that we got to succeed in drawing the enemy into their own trap!"

It turned out to be Su Yu's plan all along.

The staunch, tenacious resistance that they put up, and the vulnerability when the city was broken, were all intentional schemes that were part of his plan.

It was all done to draw the great army of the God Realm into the city, to annihilate them using the grand weapon of the Wang Clan, the Sky-reaching Ancestral Idol.

If it wasn't for that, with Nitian Hanxing's slyness, he wouldn't have been deceived.

Su Yu shook his head and said, "I did not kill a single enemy, I deserve no credit, you should be thanking the wizards who have been sacrificed."

Wang Qingchen said, "Rest assured, Brother Su, the Wang Clan will compensate the families of the injured and dead soldiers, they did not die in vain. They have contributed immensely to victory in this war."

However, after a long moment of silence, Su Yu drew in a cautious breath. "Their sacrifices were real, but victory...it is still too early to rejoice. Nitian Hanxing has yet to display his ultimate tactic!"

The moment he finished, Su Yu's surroundings fell completely silent.

The commanders around him, as well as Wang Qingchen, stood motionless on their spots like stiff wooden pillars.

As he glanced around at the badly damaged walls of the city that were on the verge of collapsing, Wang Qingchen swallowed the lump in his throat with great difficulty.

“So much destruction...that still wasn’t their ultimate weapon?”

Su Yu shook his head gently, “No, it wasn’t.”

Everyone held their breath. What would be Nitian Hanxing’s ultimate tactic? How intense and terrifying would it be?

With a turn of his wrist, Su Yu summoned the Sacred Kylin in front of him.

“How have your preparations been going?” Su Yu asked.

The Sacred Kylin chuckled. “I have finished them in good time, the creatures of Jiuzhou are all grateful to you. Although it has been strenuous, the people still did their best to help you.”

“Rest assured, we have completed the task totally according to your plan.”

Su Yu had lavished resources on Jiuzhou, and made Jiuzhou bludgeon and flourish in a way it never had, embarking on an unprecedented era of grand prosperity and abundance. Numerous deities were born, and the number of Prospective Deities had risen to nearly a hundred.

Their respect and admiration for Su Yu were abundant.

Su Yu nodded gently and said, “All right, do help me thank them.”

The Sacred Kylin said, “Sure, if you need anything, just look to us Jiuzhou people!”

As he spoke, he returned to the Jiuzhou Cavern World.

Wang Qingchen’s eyes were glistening with anticipation and he asked, “Brother Su, tell us what you have prepared?”

Su Yu’s eyes grew cold. “A weapon to thoroughly defeat Nitian Hanxing...”

Chapter 1450: Superb Crevice

Wang Qingchen couldn’t suppress his curiosity any longer, and said, “Brother Su, the war is at its final stage now, is it time to reveal the answer to the riddle? What kind of unimaginable tactics would Nitian Hanxing deploy?”

Now that things had progressed to this stage, it didn’t matter if the plans were no longer secret.

“If I were him, there is only one way that is the quickest, simplest, and most unexpected, and that is...” Su Yu uttered slowly.

While his words still echoed in the air, the walls beneath his feet began shaking vigorously, before rapidly collapsing.

The generals on the walls recoiled in dread and shock, floating in the desolate sky, their eyes filled with stupefaction.

They sensed an unimaginable, explosive mass of energy was on the verge of erupting from under the ground of Sheng Capital.

All the insects, ants and rats scurried helter-skelter, fleeing from the city in a frenzy.

Despite being small and vulnerable, they had a stronger feeling of their impending fate than even the wizards had.

The ferocious beasts reared in the city began to shriek and howl frantically in unison, trying to break free from the chains and shackles of their owners, in order to escape Sheng Capital.

Some of the wizards, who practiced the wizardry of foresight, observed the peculiar behavior of those creatures and sensed the imminent advent of an unimaginably awful catastrophe.

They were scampering through the city in panic and terror, warning the residents to leave Sheng Capital as soon as they could.

At dusk, on the edge of the sky far away from Sheng Capital, numerous rainbows were appearing all over the sky, flickering in and out of existence.

They shimmered brightly at times, and then diminished, illuminating Sheng Capital in a colorful, resplendent halo.

From afar, it was breathtakingly enchanting, but at the same time ominous.

Wang Qingchen's pupils suddenly constricted as he wondered, "What is going on? What is causing the atmosphere to change so drastically, with bizarre rainbows appearing everywhere?"

Zheng Laodao stared at the ground with solemn eyes. As carefree and reckless as he always had been, fat drops of cold sweat were breaking out all over his old, weathered face, "What is underneath the city?"

The catastrophic, devastating explosive energy made those who felt it go cold and numb in horror.

If it wasn't for Su Yu's absolute and formidable reassurance, those without staunch resolution would have fled the battlefield and run for their lives already.

Su Yu had a profound, distant look in his eyes as if he was seeing everything that was happening under the ground. He said, "It is an abandoned underground passageway."

Wang Qingchen and the eight commanders voiced their doubt, "Haven't you already destroyed the abandoned passageway connecting the city underground, and blocked it completely?"

Shaking his head, Su Yu pointed in the distance. "I'm talking about the numerous underground passageways that surround Sheng Capital!"

"In the past, you wizards built interconnecting, complex underground passageways in the vicinity of Sheng Capital, with the city being the center, stretching for billions of miles from the perimeter."

"Underground, where your naked eye can't see, there is a cobweb-like network of passageways!" Su Yu stood high in the sky, his eyes bleakly white as he observed what others couldn't see.

Wang Qingchen said, "We know about that, but so what?"

"So what?" Su Yu questioned in return, broodingly, "If all the underground passageways get destroyed at once, what do you think will happen?"

“All the passageways?”

Wang Qingchen was startled. For an instant, he couldn't comprehend what “all” meant.

When his mind conjured up the scene of the complete devastation of the dense, interwoven cobweb-like passageways, he couldn't help but shudder, and he drew in a long, cold breath. “He...he is going to create a Supreme Space Crevice!”

Looking down from above, the Sheng Capital seemed like a tiny quarry embedded in the gargantuan cobweb.

If the cobweb crumbled...billions of square miles would be wiped out all at once!

The destructive force generated from it would be enough to create a Supreme Space Crevice that covered an area of a billion square miles.

In the face of such a collapse, Sheng Capital would be no more than a speck of dust that was about to be devoured.

Zheng Laodao shivered violently, even his voice began to tremble uncontrollably, “How did, how did they do it? Is it, is it even possible to destroy so many passageways at once?”

Su Yu nodded and said, “It is impossible! Even if Nitian Hanxing attempts it in person, it is certainly impossible!”

Before they could heave a sigh of relief, Su Yu said, “However, if it's a super civil weapon that no one has ever seen, anything is possible!”

As they began to feel the increasingly intense destructive energy coming from the ground, they had to believe Su Yu's words without question.

Nitian Hanxing had resorted to an unknown, unheard-of civil weapon!

At that moment, the colorful rainbows at the edge of the sky completely vanished!

They were replaced by dull, lusterless masses of blackness.

It was a blackness that devoured everything. Like a black hole, it engulfed every single life and soul and inanimate object in its surroundings, reducing them to ashes and dust!

The pitch-black region only took up the space of a rainbow at first, hanging in the desolate heavens like a black-colored crescent moon.

But now, it began to expand endlessly and rapidly, gradually revealing its hideous appearance... a crevice that seemed like a humongous mouth engulfing the sky!

Space crevices in the eight directions that were speedily expanding, interwove in the sky, quickly tearing it into black fragments.

With the Sheng Capital at the center, all corners of the world had turned into space crevices.

Furthermore, the seams endlessly expanded towards Sheng Capital from all eight directions.

From afar, it was as if eight long pitch-black knives that had traversed a billion miles of mountains and rivers, were swung at Sheng Capital, all at once.

At a glance, they had been completely besieged by the space crevices.

There was no possible ascent into the heavens, nor descent into the ground. Death seemed to be inevitable.

The creatures in the city all had despair in their eyes.

Wang Qingchen and the eight commanders, who beheld the unprecedented, spectacle of mass destruction, were overwhelmed by terror.

While Nitian Hanxing, who had retreated a billion miles away, stood beyond the space crevices with his five million soldiers, beholding the scene from afar.

Behind them, an enormous flying weapon, with an ancient, exaggerated appearance, slowly faded from sight, as it flew towards Saint Capital.

A remnant of destructive force followed the trajectory by which it left, effusing along the way.

Nitian Hanxing looked into the distance, Sheng Capital was no longer in sight. He was giving off a domineering, matchless air of defiance. "This is the consequence of not succumbing to me! All life must be destroyed!"

"Su Yu! Farewell!" Nitian Hanxing shook his head. "It is a pity that you couldn't waver my path of defiance. You are fated to be a stepping stone and not a stumbling block!"

"Let's go!" Nitian Hanxing flicked his cloak, raising a boundless wave of turbulence. With uncompromising momentum, he led the five million soldiers and marched towards the final destination, Saint Capital!

As for Sheng Capital, it had been reduced to ashes amidst the devastation.

However, right as they began to move off, a boundless surge of blood-red light erupted from the depths of the ground behind them.

It soared into the sky from the depths of the ground, shrouding Nitian Hanxing and his five million soldiers.

They were caught unawares, given no time to guard against it.

Nitian Hanxing squinted his eyes. "What? That red light...Is it the power of space?"

A shrewd gleam flickered in his eyes. Nitian Hanxing made up his mind then and there. "Retreat from this domain, do not stay behind!"

However, the red light from under the ground shot out wherever they passed.

Nitian Hanxing finally noticed something out of place. He brutally stomped on the ground with his feet, and a space crevice suddenly emerged out of nowhere.

A talisman was squeezed out from the depths of the earth.

The talisman contained a tiny drop of divine blood.

"Father's divine blood?" Nitian Hanxing was taken aback. "It was refined from the Superior-Extermination Cannons!"

He stomped on the ground once again, and another talisman appeared.

“The World Annihilation Emperor’s divine blood?” Nitian Hanxing was stupefied. “The last time this divine blood occurred was at the imperial city of the Yongye Empire, and the holder of it is...Su Yu!”

Nitian Hanxing’s pupils constricted violently as intense insecurities were rising within him, like a quarry that had stumbled into a trap.

The sense of danger was intense!

“Retreat! We have been tricked!” Nitian Hanxig’s heart pounded wildly in his chest, intuition told him that an unprecedented crisis was imminent.
