Chapter 1471 Leaving The Forbidden Area (Fourth Watch)

Back then, he had killed the god of calligraphy and obtained all of the god of Calligraphy's memories. During these two years, he had digested them day and night, and as expected, he had obtained a portion of the comprehension of the heavenly book.

With this portion of comprehension, Su Yu's attainments in the heavenly book could be said to have advanced by leaps and bounds.

At least the first ten pages of the Dragon Pool Treasure Scroll did not have any obstacles for Su Yu to read.

Moreover, because he had understood so many heavenly book characters, he discovered that his senses had become sharper towards the Great Dao that existed in the dark.

The law chains that were once hard to detect now could be confirmed with a serious sense.

After that, through the first ten pages of learning, he could easily summon the illusory image of the law chains.

Although it was not powerful, it would definitely give people a fright if it fell into the eyes of others.

Su Yu cupped his fists and bowed. "Thank you for taking care of me during these five years, senior. This junior is preparing to leave the forbidden land of Ten Thousand Devils."

The smile on the creator Dragon's face suddenly stopped, and a trace of dejection flashed across his face. He sighed and said, "Those who should leave must leave eventually! It's also good for you to go out and temper yourself. It's difficult for you to become a great person by staying behind closed doors. It's impossible for you to be Yongye Qimo's opponent."

"Thank you for your understanding," Su Yu said.

After a pause, the creator dragon waved his claw, and the Dragon World was destroyed. Three embarrassed figures fell out of it.

They were eternal night Wu Heng and the others, who had learned the three great skills of the creator Dragon.

"The three of you have already mastered the three great skills of my body. What you lack is real-world tempering," the creator Dragon said. "You can go out with Su Yu."

After that, the creator Dragon sent the three of them out of the hole and said, "When you leave, tell me again. I can temporarily hold off the Sky Saint warship for you."

After two years of cultivation, Eternal Night Wuheng's entire body was filled with a sharp aura. The faint dragon power on his body gave off a strange pressure.

Su Yu said, "Congratulations, Brother Wuheng, your divine technique has greatly improved. There should be very few stage three gods who are your match. If you cooperate with the creator Dragon's

first divine technique, I believe that even a stage two god would have the strength to fight you, right?”

Eternal Night Wuheng’s eyes were filled with unprecedented confidence. He did not say anything else and said, “Brother Su, do you remember our agreement?”

“Yes, I do. I want to spar with you.” Su Yu asked, “Now?”

“No, not now. We need to break through the blockade of the sacred sky ship. We need to conserve our energy.”

“Are you willing to go on an adventure with me?” Su Yu asked

“Of course!” Eternal night said with certainty, “Before I met you, I was just a famous genius in the Eternal Night Dynasty. My cultivation level was only at the fifth sky. But after I followed you into the lost country, I had the good fortune that I have today!”

The first snow of the eternal night said calmly, “I have the same intention. In this vast world, my royal brother and I have too little experience, so we sealed ourselves. Why don’t we follow Big Brother Su and explore the world?”

Bi wanqing smiled gently, “I don’t need to say anymore.”

Other than following Su Yu, although the world was big, she had nowhere else to go.

“Thank you for your trust,” Su Yu said. “However, we also need to be prepared. Defiant Gu Yun has been lying in ambush for five years, so it’s impossible that he didn’t set up anything.”

The three of them agreed with him. They had long heard that defiant Gu Yun was good at using soldiers. His son, defiant cold star, was trained by him.

The other party had five years. It was impossible for him to be completely defenseless.

The group immediately discussed countermeasures and deduced the possible situation.

“What? You’re leaving without me?” A hint of resentment floated over. It was Saintess Luo xueyi.

Her snow-white clothes fluttered gently in the wind. She was like a pure and Holy White Lotus, incomparably holy.

After not seeing her for two years, the Shura power in her body had become even denser. She had already reached a certain threshold.

Looking at her, everyone could sense traces of danger.

Presumably, in these two years, her cultivation of the Supreme Shaman Clan’s secret technique had advanced another step.

“Why did you follow us?” Eternal Night First Snow’s brows furrowed. “We’re heading to the god domain. I’m afraid it’s not very convenient to bring a shaman like you along.”

Luo xueyi raised her nose and snorted. "When has it ever been convenient for you to come to the Shaman Clan's territory? In the end, didn't you just come and go as you wish?"

The two women were at loggerheads with each other the moment they met. Their tempers were not small.

Su Yu quickly extinguished the fire. "The two of you don't have to argue. xueyi, will the full moon cult master allow you to go out?"

"Of course!" The full moon cult master walked out from the darkness, a faint smile hung on her face. "Xueyi has obtained the inheritance of my cult master's lineage. I believe that she will be of great help to you. Moreover, by following you, she will also be able to experience a certain amount of tempering. It will be extremely beneficial for her to take over the cult master's position."

Su Yu thought for a moment and said, "Alright, since the cult master trusts me, I will try my best to protect her."

Hearing this, Luo Xue Yi threw a provocative glance at eternal night first snow.

Eternal Night First Snow's good mood was instantly ruined. It was not easy for her to continue traveling with Su Yu, but who would have thought that Luo Xue Yi would be inserted halfway!

"HMPH! What saintess, she is clearly a Vixen!" Eternal night first snow muttered in a low voice, feeling indignant.

Su Yu smiled bitterly and changed the topic. "Come and discuss. Break out of the encirclement in half a month and leave the Forbidden Land of Ten Thousand Devils."

While they were discussing, the nine regions world was also in full swing as they started the second relocation.

The first relocation was from the nine regions continent to the world of the Wu Tower.

This time, it was from the world of the Wu Tower to the wider world of the Doomsday Plate.

The world in the Wu tower had become a wasteland.

The mountains and rivers that were filled with spiritual veins were all moved to the imitation of the Doomsday disc that was ten times wider.

All the living beings were moved in without moving and began to live in the New World.

When everything was ready, Su Yu, eternal night, and Wuheng came to the space in front of the hole and cupped their fists. "Senior, we'll take our leave."

The bleak voice of the creator Dragon came from the space in the hole. "Take care!"

After that, the Forbidden Land of Ten Thousand Devils let out a rumbling sound.

After five years of silence, the Forbidden Land of ten thousand devils, which was filled with countless holes, finally began to move.

Layers of thick dust were shaken off the ground, and a tunnel appeared in the hole at the bottom.

Su Yu and the others walked out one by one.

The long-lost scenery of the outside world seemed to make them somewhat complacent, and they actually ignored the sky holy ship that was lurking outside.

“Let’s Go!”The leader, Su Yu, said expressionlessly. The people behind him did not say a word. They followed Su Yu and rushed into the sky. They were about to take a step forward and leave this place.

However, at this moment, a forbidden cannon filled with destructive power was activated without any warning and attacked them.

Su Yu and the others’expressions changed slightly, and they immediately dodged.

Rumble --

The earth cracked open, and a sky saint battleship that was hidden deep underground slowly rose from the ground.

Hundreds of forbidden cannons were filled with energy and aimed at Su Yu and the others.

Su Yu said, “Let’s split up and meet at the agreed location!”

The group was already prepared and fled in five different directions.

The Sky Holy Ship changed its direction and only targeted Su Yu. It turned into a streak of blood-red light and disappeared into the sky, chasing after him.

Not long after they left, a gap silently opened at the other end of the Forbidden Land of ten thousand devils.

Su Yu, Eternal Night Wuheng, and the others walked out silently.

Without a doubt, it was just a shadow created by Su Yu to distract the sacred sky ship.

Standing in front of the forbidden land, Su Yu and the others cupped their fists and bowed before flying into the sky.

However, before they left, a hundred light beams from the forbidden cannons pierced through the sky. They were prepared to kill them.

In the sky, the sky holy ship that was supposed to be lured away turned from transparent to real.

This ship actually had the ability to turn invisible!

Inside the Holy Ship, Gu Yun sneered, “I’ve used the trick of luring the tiger away from the mountain more than 10,000 times. How Can You Fool Me?”

Bang, Bang, Bang --

Hundreds of light beams came at the same time. The space in the forbidden ground of ten thousand devils seemed to have been prepared for this. They suddenly scattered and formed an arc-shaped city wall around Su Yu and the others.

The hundreds of light pillars were all withstood and did not harm Su Yu and the others at all.

The Voice of the creator Dragon rang out in the forbidden ground of ten thousand devils, "Let's go. I'll hold them off."

As soon as he finished speaking, countless space holes flew into the sky and surrounded the sky holy ship.

These space holes contained the power of space and forcefully sealed off one side of the space, hindering the speed of the sky holy ship.

Defiant Gu Yun stared at Su Yu and the others who were escaping and sneered, "No one can save you! Prepare the law cannon!"

A crack appeared at the bottom of the sky sacred ship and a huge cannon descended from it.

The cannon bore the terrifying power of Law!

The images of the law chains appeared and disappeared, giving people an extremely strong mental impact.

"Fire!" The law cannon locked onto Su Yu, and a boundless law power that could destroy everything suddenly shot out.

The three holes in the space in front of the law cannon were directly hit out of the scales, and they were forcefully sent flying.

The boundless power of the light pillar pierced through the void, and with an unstoppable force, it directly shattered Su Yu's position.

Even space was shattered in that area, and even time was gone.

All the existences of laws in that area were destroyed by that one shot.

Under that situation, Su Yu would not have any chance of surviving!

When the ripples subsided, Su Yu's existence was indeed completely wiped out!

In the forbidden ground of ten thousand devils, many shamans were stunned.

Su Yu... died just like that?

The God of War, Su Yu, who had charged through so many dangers, died just like that?

In the Sky Holy Ship, defiant lone cloud shook his head. "No matter how strong he is, he is still a living being. One shot is enough to destroy him."

However, defiant cold star's cold voice sounded behind him. "Father, you are too careless. It is impossible for him to die so easily!"

Touching his chest, heaven-defying cold star said, "My rebellious intent is still being suppressed. This is enough to prove that he hasn't disappeared from the human world!"

Eh? Heaven-defying cold star narrowed his eyes and poured the forbidden cannon again, blasting towards eternal night without permanence, eternal night first snow, and the others.

The result shocked heaven-defying cold star!

This time, the forbidden cannon was unexpectedly not stopped by the creation dragon.

A hundred light pillars directly destroyed them.

Unlike the law cannon, their deaths were very clear under the anti-obliteration cannon.

After they died, there was not a single drop of blood or flesh on their bodies. They were all turned into pieces.

Defiant Gu Yun cried out, "Phantom? How is that possible? They haven't come out yet?"

Defiant cold star's expression was gloomy, "No! I think they have long fled!"

"The first batch that came out were not phantoms at all, but their real bodies?" Heaven-defying cold star was, after all, a soldier, so he quickly came back to his senses.

"Warriors, attack the Heart First!" Heaven-defying cold star said, "They know that father is suspicious, so they played along. They made father think that the Phantoms created by the first batch that escaped were actually their real bodies!"

"The second batch attracted father's attention. In addition, the creator Dragon tried its best to protect them, which made father believe in his own judgment

"When Father found out the truth, the real them had already fled!"

Hearing the analysis, heaven-defying Gu Yun's face turned ugly.

He had been fooled!

The other party had completely seen through his thoughts and escaped from under his eyes!

"Outrageous!" Defiant Gu Yun was furious and looked coldly in Su Yu's direction. "Chase!"

The Sky holy ship turned around and chased after Su Yu.

With the speed of the sky holy ship, if Su Yu had not hidden, he should have been able to catch up.

But with Su Yu's intelligence, would he just stand there and wait to be caught?

The result shocked the father and son again.

Su Yu was really waiting for them!

Chapter 1472 Cold Star's Patricide (5th Watch)

After chasing for an hour, Su Yu stood on a mountain peak with his hands behind his back. He looked like he had been waiting for a long time!

Beside him were Eternal Night Wuheng and eternal night first snow, Luo xueyi, and Bi Wanqing who had escaped in all directions.

Bi Wanqing's eyes shone with purple light as she smiled sweetly. "Everything is as you have expected, sir. Everything is under control."

Eternal Night Wuheng licked his lips excitedly, full of fighting spirit, "Hehe, it's really exciting. After completing the divine technique, the first thing we have to deal with is the emperor level of the dynasty. In the past, we wouldn't even dare to think about it."

Eternal night first snow and Luo xueyi looked at Su Yu's side profile at the same time, their eyes shining with a strange light.

That's right, when they were discussing how to avoid the Sky Saint Warship's pursuit.

Su Yu's proposal was to kill the heaven defying cold star father and son and seize the Sky Saint warship!

It was an unexpectedly crazy plan. They thought about it for half a month before they convinced themselves to accept it.

In the end, although the plan was crazy, the direction of the plan was exactly the same as what Su Yu had predicted.

Heaven defying Gu Yun was very suspicious. He must have thought that they were bait and would not chase after them relentlessly.

The real bait could induce heaven-defying Gu Yun to fire the most threatening law cannon.

If this item was destroyed, the biggest threat to the Sky Saint warship would be the 100 anti-annihilation cannons.

However, Su Yu was also prepared to deal with the anti-annihilation cannons!

Heaven-defying Gu Yun and his son had been using their troops for a long time. When they saw Su Yu's long-awaited stance, they knew that there was a trap. They immediately stopped moving forward and faced each other from thousands of miles away.

Heaven-defying Gu Yun's eyes flashed as he shouted, "Forbidden destruction cannon, cover fire!"

Boom! Boom! Boom

With an order, the sky was filled with forbidden destruction cannon light beams.

Each beam could destroy a third sky god. The five of them had no chance of resisting.

However, almost at this moment, the atmosphere above the sky sacred ship suddenly contracted violently as if it was under some kind of intense pressure.

Then, the sky above them turned black, and a piece of snow-white object covering ten trillion square meters covered the sky.

It was ten times larger than the sky holy ship!

At the bottom of the round object, hundreds of huge black cannon holes were raised, and they aimed at the most important central control area of the Sky Holy Ship.

“Oh no! There’s an ambush!” Defiant Gu Yun didn’t even have time to look at what it was, and he immediately controlled the sky holy ship to escape from the hundreds of cannon holes.

Defiant cold star’s expression also changed continuously. “Where did he get this thing? It’s even bigger than the sky sacred ship?”

Bang --

How could the sky sacred ship escape so easily? Hundreds of destructive light pillars poured down like rain, aiming directly at the control area of the sky sacred ship, which was also where the father and son were.

Endless loud bangs accompanied by the destructive power, the central control area of the sky sacred ship was directly shattered.

The destructive power slanted down and enveloped the father and son.

Even they, who were strong, did not dare to face the destructive power head-on. They decisively gave up on the sky sacred ship and escaped by the edge of the destructive power.

Bang --

With a loud sound, the sky sacred ship was heavily sunk and fell to the ground.

The father and son were still in shock as they stared at the snow-white disc above their heads.

It was only at this moment that defiant Gu Yun finally realized that this object was somewhat familiar. He recalled it for quite a while, only then did he gasp. “This is... the world annihilation disc of the first emperor... No, it’s a replica! It’s a replica from back then! !”

Back then, the four great empires had joined forces to forge a replica of the World Annihilation Disc, attempting to explore the end of the endless source.

This object had caused a sensation for several generations. Although he was still a minor character back then, how could he forget this object?

It was rumored that the item had been swallowed by the nine-headed god of the endless source. How could he possibly retrieve it?

But no matter what, Su Yu and the others had also suffered the full force attack of the sky sacred warship. Even if they didn’t die, they would still be injured.

However, the result once again caused the father and son duo’s pupils to constrict!

They could be seen bathing in a yin-yang taiji fish pattern that alternated between black and white light.

The light beams shot out by the forbidden cannons were absorbed by the white half of the pattern and spat out from the black pattern.

One after another, the destructive power was successfully transferred away and did not hurt them at all.

Defiant Gu Yun's expression changed drastically and he exclaimed in shock, "The innate yin-yang style! !"

This was the must-have item for him to enter the lost country on a large scale! !

To be able to withstand the attack of the sky holy ship, it showed how right he was to be obsessed with this item.

Defiant Gu Yun nodded deeply. "Good! Good! Su Yu, since you have the guts to ambush me, you should have predicted what kind of ending you would have, right?"

Su Yu said plainly, "Of course I did. That would be me stepping on your corpse to end the feud between us!"

"Hahahaha, I admire your boldness, but I also like to personally get rid of people like you!" Defiant Gu Yun smiled lightly.

He was clearly still talking, but his figure suddenly blurred.

Eternal Night Impermanence's expression changed slightly. "Not good! That's an illusion, he's already made his move!"

Almost at this moment, defiant Gu Yun's extremely cold voice sounded in his ears. "It's Too Late!"

"Seven reversal fist!" A fist filled with the intent to exterminate all living things casually struck toward Su Yu's back.

It was this fist that Su Yu couldn't resist when he was in the ice fire emperor's remains.

However, today was different from the past.

Su Yu didn't even turn his head back. It was as if he had noticed it long ago. Six blood-red eyes silently appeared behind him.

A half-transparent jet-black pillar of light shot out from each eye and directly pierced toward his back.

"Six Heavenly Laws!"

Pu --

The six jet-black beams of light silently pierced through the incoming fist, and the rebellious intent in the fist immediately dissipated.

The beam of light did not lose its momentum, and when it struck defiant Gu Yun's body, it sent him flying tens of thousands of feet away. Eight black wounds appeared all over his body, and he was spewing blood non-stop.

Defiant Gu Yun's expression changed drastically, and he became extremely solemn. "Kunlun's six paths of heavenly connection? In just five years, you actually cultivated successfully? Who exactly are you?"

Finally, even heaven-defying Gu Yun realized that something was wrong with Su Yu.

Su Yu said indifferently, "It doesn't matter who I am. What matters is that I will definitely make you stay here today!"

The six paths of heavenly connection in his body was an injury that even the full moon sect master could not heal in a short period of time!

Just as the battle started, heaven-defying Gu Yun was injured by thirty percent first!

“You seem to have forgotten about me!” An indifferent voice suddenly attacked.

It was the heaven-defying cold star. The moment his father launched his attack, he had also chosen the most suitable opportunity.

“Seven reversal fist!”

It was the same seven reversal fist. The Fist of the heaven-defying cold star was filled with an even more absolute rebellious intent. It was overbearing, brutal, and murderous. It was extremely close to the extreme of all negativity.

Eternal Night Wuheng’s eyebrows suddenly jumped. “Second sky of the god Realm!”

A great wave of shock rose in his heart. He originally thought that after coming out of seclusion this time, he would be able to defeat heaven-defying cold star and wipe away his previous humiliation.

Who would have thought that his opponent had actually broken through to the second sky god Realm!

His eyes were filled with deep unwillingness as he shouted, “Let me do it!”

“Flying Dragon in the sky!” Eternal Night Impermanence’s entire body flashed with a dragon shadow. It seemed to have transformed into a 300-meter-long dragon. It carried a terrifying power that came from the primeval era as it ruthlessly smashed forward.

However, his strength alone was far from enough to contend against the seven reversal fist.

Eternal night first snow blinked her beautiful eyes, and her beautiful figure flickered as she flew out. “Dragon Emperor Heavenly Voice!”

A giant Dragon Shadow with a crown on its head appeared behind her, speaking in the language of the Dragon Clan.

Numerous law chains descended from the sky, twining straight toward the heaven-defying cold star.

However, it was still not enough!

Bi Wanqing’s expression was calm. She stretched out a slender finger and said softly, “A dream is like a thousand years.”

Dragon Shadows flew out from her fingertip and quickly entered the incoming seven inversed fists, transferring the boundless reverse intent to another dimension.

Saintess Luo Xueyi was unwilling to be left behind. She formed a seal with her hands and said in obscure words, “Soul extinguishing lifeless curse!”

A shocking wave of wizard power turned into ripples that quickly spread out.

The four of them worked together. Three of them used the unprecedented creation dragon divine ability, and one of them used the supreme wizard technique personally taught by the sect master of the full moon sect.

Even the proud and aloof face of the heaven-defying cold star changed slightly at this moment.

He changed his attack and hurriedly retreated.

Fortunately, the seven inversed fists canceled out most of their attacks, and only a small portion landed on his body and injured him.

Wiping the blood from the corner of his mouth, the cold light in the eyes of the heaven-defying cold star became even more intense. "Good! Good! A group of ants from the past have also obtained a good fortune! But you want to fight against me like this? It's still too early!"

Whew

Heaven-defying cold star into a black lightning, with a terrible will to fight into the four people.

Four people also as if facing a formidable enemy, and this once Asgard's number one genius fights a great battle.

Su Yu's side, heaven-defying lone cloud retreat.

Losing the way of the inverse, he was about to break through the shackles of a level, fell to the strength of the ordinary second sky.

Now that he was heavily injured, he could not use even 50% of his strength.

This was a setback, but Su Yu's limitless battle intent had actually forced him into a sorry state!

Clang --

The divine weapon that Su Yu had transformed into crushed everything with incomparable battle intent and bombarded the body of defiant Gu Yun.

Just like the situation in the dream, defiant Gu Yun's body was blasted apart by this attack that was at its peak, and divine blood splattered everywhere.

Su Yu's battle intent was not extinguished. Instead, it grew stronger and stronger until it reached an even higher peak. It transformed into a giant sword that was as big as the sky. It carried a battle intent that could destroy the heavens and earth as it slashed down from the sky.

This slash was enough to destroy this former emperor in body and soul!

However, at the critical moment, defiant cold star shook away the four of them and rushed out like Black Lightning to save defiant Gu Yun.

Eternal night impermanence roared, "You want to leave?"

"Space teleportation, open!" Heaven-defying cold star shouted without turning his head.

The sky sacred warship that had fallen to the ground immediately shot out a space ripple, teleporting the father and son away.

This was clearly a method that they had long prepared to escape. However, the father and son did not expect that it would be used at this moment.

Somewhere in the divine territory, ten trillion square meters away from the lost country, the heaven-defying cold star father and son fell out of it.

They had successfully escaped a calamity!

With the support of his son, heaven-defying lone cloud staggered on the stone pillar. He panted heavily to heal his wounds. Dark clouds covered his face. "In just five years, he has become so strong! And those three ants, they have also changed so much! !"

"And the imitation world annihilation disc, where did they get it?"

Such a huge failure made defiant Gu Yun's heart full of shame.

As he was speaking, he realized that his son was staring straight at him. He could not help but ask, "Does cold star have anything to say?"

Defiant cold star nodded and said indifferently, "We alone are no longer their match."

Defiant Gu Yun agreed. "Indeed, with the combined efforts of the five of them, I'm afraid that any second sky expert might not be able to do anything to them, so..."

His words were taken over by defiant cold star. "So, I think that we father and son should become one."

All of a sudden, defiant Gu Yun's heart skipped a beat. Before he could react, a pitch-black palm silently pierced through his chest from behind!

Defiant Gu Yun turned around in disbelief. What he saw was an ice-cold, ferocious and merciless face. "You..."

Heaven-defying cold star said indifferently, "Don't blame me. If you want to blame someone, blame father. You've already lost your dao of defiance and become a useless person!"

After a battle, how could heaven-defying cold star not see that his father had lost his dao of defiance?

"Father taught me to get rid of all useless trash. All the trash in my hands have died over the years. I think father should not be an exception," heaven-defying cold star said coldly and mercilessly. He pulled out his palm, he grabbed back an incredibly solid silver-white divine essence and all of the heaven-defying Emperor's bloodline in his body.

In front of defiant Gu Yun, defiant cold star raised his head and swallowed it.

Looking at his father, whose aura was gradually weakening, defiant cold star said, "Father, rest in peace. You have become one with me. I will take revenge for you!"

His aura surged wildly at that moment.

The already majestic rebellious intent surged toward another extreme!

Chapter 1473 Demon Defying Body (First Watch)

If it was between ordinary gods, the method of depriving each other of divine essence and bloodline wouldn't work at all.

However, the bloodline of the heaven-defying emperor could be digested with the help of the heaven-defying will.

Under the heaven-defying will, Gu Yun's divine essence was forcefully merged into the body of the heaven-defying cold star, causing its divine essence to grow explosively.

He had just broken through to the second sky of God realm, but at this moment, his divine essence had surpassed his father's peak, reaching the limit of the second sky of God realm.

If not for the fact that the divine essence had grown too quickly and was very unstable, he might have even reached the first sky of God realm.

And in defiant Gu Yun's body, the bloodline inherited from the Emperor had also fused into defiant cold star's body, causing his rebellious intent to become even more extreme.

He had once been overbearing and had exterminated those who refused to submit, but now, he was on the verge of going crazy and was the sole ruler of the world.

After a few breaths, the explosive growth gradually stabilized. Defiant cold star clenched his fists, his expression was twisted. "I've finally waited for this day! The throne of heaven-defying kingdom is mine! The Divine Realm is mine! The entire lost kingdom is mine! Everything in the world belongs to me, heaven-defying cold star!"

Cough cough --

Heaven-defying cold star coughed heavily. His once sharp eyes were slowly covered by a layer of dim light of death.

He looked at heaven-defying cold star, who was already indistinct. Unexpectedly, after experiencing the initial disbelief, he actually had a relieved expression, he even felt a little gratified. "Good! As expected of the son that I, heaven-defying cold star, taught. You are my pride. Even if I die, I will rest in peace."

The succession between the successive generations of heaven-defying kings was filled with blood and cruelty.

Even in his generation, he still had not escaped.

On this day, he was already prepared.

Heaven-defying cold star stared at him indifferently, as if he was a stranger. "If you have any last words, you can say them. On account that you are my father."

Heaven-defying cold star looked up at the sky and laughed lightly, as calm as before. "Killing Su Yu is my father's final wish! If he doesn't die, he will definitely be the one to be buried by my heaven-defying bloodline!"

"Are you done?" Heaven-defying cold star asked.

Heaven-defying cold star slowly closed his eyes and quietly welcomed the reincarnation-like death of the heaven-defying monarch.

“If you are done, then as a son, I will tell you some last words,”heaven-defying cold star said coldly. “First, I don’t need to be taught. Everything I get is up to me. Who Are You? You only gave birth to me. Do you think you have the right to teach me?”

“Second, Su Yu is a great threat to me. I will definitely do my best to eradicate him. You Don’t need to teach me this!”

At this moment, his rebellious intent was so strong that he could no longer tolerate any existence that was above him, even if it was his biological father.

Heaven-defying cold star’s body trembled as he closed his eyes. He barely opened his eyes. His blurry eyes seemed to see something from heaven-defying cold star., he murmured, “Too much reverse intent has gathered and reached the limit of his endurance. is he about to become a devil-defying body?”

There was an obscure record in his memory.

In the past, heaven-defying Emperor’s reverse intent had exceeded his endurance and entered a state of madness. It devoured heaven and earth, and countless galaxy overlords died because of it. He relied on the eight emperors to work together to suppress it in the eternal mystic ice for ten thousand years.

Only then did he gradually wake up and successfully control the massive rebellious intent.

From then on, his strength soared and surpassed the seven emperors, becoming the second strongest after the world destruction emperor.

The current appearance of the heaven-defying cold star was somewhat similar to the heaven-defying emperor’s situation in the past.

If he couldn’t withstand the massive rebellious intent, the heaven-defying emperor would either slowly wake up from the eternal mystic ice and return to his life form. From then on, his divine abilities would be unrivalled.

Or, his soul would be destroyed by the rebellious intent and he would transform into a devil. From then on, he would be controlled by the Devil and become a god, becoming a rebellious devil.

If that was the case, the nature of the heaven-defying cold star would be dead, leaving behind only an existence known as the rebellious devil.

“Hehe...”heaven-defying Gu Yun smiled, his smile was indescribably sinister. “Good son, go and absorb the rebellious intent. Regardless of whether you become a devil or not, this world will suffer a disaster.”

If defiant Gu Yun could control the rebellious intent, his strength would greatly increase and he would be able to unify the world. Under his rule, how could the living beings have a good life?

If they failed and became the rebellious devil, that would be even more terrifying.

The strength of the rebellious devil could not be described with words. At the very least, the eight sovereigns were unmatched when they joined forces. Furthermore, they were bloodthirsty. At that time, the lost country would encounter a calamity.

No matter what the outcome was, after his death, the lost country would not have a good ending.

After saying that, he smiled with a twisted smile and closed his eyes.

The emperor of the dynasty had died in the desolate ruins.

Defiant cold star looked at his corpse indifferently, then turned around and disappeared without looking back.

At the place of battle.

The battle had ended, and the shocking aura that remained was still there. He felt uneasy as he approached this place.

Eternal night impermanence gritted his teeth, his heart heavy. Heaven-defying cold star has actually broken through to the second sky. Now that he has escaped death, who knows what realm he will reach next time

Regarding the heaven-defying lineage, the other scattered bullet empire in the divine realm all held a fearful attitude.

There was no other reason. The heaven-defying lineage was too strange. Every time they came back from a dead end, they could unleash even greater potential.

Eternal night first snow also felt extremely regretful. Seeing that her royal brother was able to kill his enemy, she wanted to avenge her past humiliation.

Who would have thought that heaven-defying cold star's fate would not end.

Bi wanqing comforted them, "Both of you don't need to be discouraged. Although heaven-defying cold star has great fortune, we also have endless potential to tap into. The Creation Dragon's three great divine abilities, if we learn just a tiny bit of it, we can join forces to fight against a second sky god. If we cultivate to the transcendent state, heaven-defying cold star might not be our match."

Eternal Night Wuheng's eyes gradually calmed down. He cupped his fists and said firmly, "Thank you, Miss Bi. Wuheng understands."

Eternal Night Chuxue smiled faintly. She was also thinking of using this to comfort her royal brother.

Her royal brother's thoughts were clear. She couldn't help but be concerned about Su Yu, but in the end, she discovered that Su Yu had disappeared.

En, Luo Xueyi had disappeared along with him!

She looked down and saw two figures standing side by side on the falling sky holy ship.

"Vixen!" Eternal night first snow squinted her eyes. "If I'm not careful, I'll be taken advantage of!"

She immediately teleported to Su Yu's side, standing opposite to Luo xueyi.

Eternal night everlasting shook his head with a bitter smile. “Let’s take a look too. Sky Saint warship. I really didn’t expect the heaven-defying emperor to duplicate this thing.”

Su Yu carefully sized up the sky saint warship. He evaluated it in terms of material, speed, function, and other aspects, he could not help but sigh. “Under normal circumstances, the era is constantly developing. The Civilization of the new era will definitely surpass the past. However, our current civilization, in the ancient god domain era, can only be considered as a barbaric tribe.”

On this point., eternal night was deeply moved. “This is the normal rule, but what our God Domain has suffered is a heavy blow from the destruction of our civilization. Countless civilizations have been annihilated, leaving behind scattered bits and pieces for our descendants. Naturally, it is difficult for us to catch up with the past civilizations.”

“I really don’t know why the vile daughter, the demon dragon, destroyed our divine realm’s civilization.”

In truth, this question was also Su Yu’s question.

The Vile daughter and the demon Dragon definitely wouldn’t spend their energy to destroy the ancient divine realm for no reason.

What was the reason for them to do this?

Was it the nine dragons divine cauldron?

In the divine realm, other than the nine emperors, only the divine cauldron inherited by ancient god Nine Dragons was worthy of attention.

The group inspected the sky sacred ship.

The central control room had been destroyed, but the rest of the ship was in good condition. In particular, the key personnel controlling the various parts of the sky sacred ship hadn’t suffered any heavy casualties.

Eternal Night Impermanence had a smile on his face. “Should we thank heaven-defying cold star for sending US such a heavy gift before we leave?”

As long as the central control room was repaired, they would be able to obtain an incomparably sharp weapon out of thin air.

This weapon alone was comparable to the power of half an empire.

If Su Yu were to reorganize his own forces, such as the snow-white Doomsday disk, those 50 Stage 3 god domain generals, and the shaman clan that he was on good terms with, they would definitely be able to dominate the god domain.

“How is it? Are the members of the sky sacred ship willing to submit to us?” Su Yu asked Eternal Night Impermanence.

Eternal night impermanence patted his chest. “How difficult can such a small matter be? Under our persuasion, they all abandoned the dark side and decided to follow us from now on.”

Su Yu nodded. This could not be better.

A sky sacred warship and a doomsday disk of the same level.

With two peerless sharp weapons in hand, the odds of winning this return to the Galaxy God's domain were extremely high.

"Oh, right. We found a large number of weapons in the warehouse of the Holy Ship. According to our understanding, they should all be lost civilization weapons."

Su Yu's eyes gleamed as he immediately went to take a look.

In the end, he discovered that half of the warehouse of the holy ship was filled with various types of civilization weapons.

There were array-breaking beasts and extermination cannons that Su Yu had seen before. There were also seven or eight large, unknown civilization weapons that looked like robots.

Staring at those bronze-colored robots, Su Yu felt that they were extremely familiar.

If he remembered correctly, Wang Yunxuan of the eastern alliance had once refined similar puppets.

However, they were only at the early stage of the quasi-god level. They were far from being comparable to this batch of giant puppets that gave off the aura of a stage four God.

What Su Yu was particularly concerned about was that there was another puppet that had yet to be completed.

It was ten times the size of an ordinary human-shaped puppet, and it was ten million feet tall.

All sorts of energy stones were embedded in its body, and the energy it was filled with was extremely boundless. Su Yu and the others looked at the puppet with slight trepidation.

Eternal Night First Snow's eyes narrowed. "What a powerful puppet. If it is completed, the power it will unleash will not only be at the Third Heaven, right?"

"Not just at the third heaven? It can even reach the second heaven!" Eternal night impermanence grabbed a person in charge of forging the puppet, the person in charge was somewhat proud. "It's a pity that we didn't have time to complete it, nor did we find a suitable pilot. Otherwise, heaven-defying Gu Yun and his son might not have returned in defeat."

Eternal Night Impermanence gave him a fierce kick. "From what you say, you are very unwilling?"

A trace of killing intent flashed, causing the person in charge to tremble and immediately shut his mouth.

If he was not satisfied, he would have been disposed of long ago.

Su Yu looked at the giant puppet and said, "Hurry up and finish it. In addition, I will dispatch a group of skilled craftsmen. All of them will be led by you personally. You must teach them forging techniques and methods."

With the biggest master personally speaking, could he say no?

Three days later, with a rumbling sound, the dark red sacred sky ship turned into a streak of red light and cut through the sky of the lost country at a speed second only to the Taiji Yin-yang wings.

Chapter 1474 Snow Country's Monarch (2nd Watch)

One day later, heaven-defying empire's border, Yongzhen City.

Five years ago, heaven-defying empire gathered tens of millions of troops and set up camp here. How Majestic was that?

Now, tens of millions of troops had buried the lost country, and heaven-defying empire had returned in defeat. The entire country was shocked.

The once glorious Yongzhen City was also in a state of decline.

In an inn, two or three idle guests had nothing to do and were drinking and chatting.

"This time, heaven-defying empire suffered a crushing defeat. Their monarch fell, and their army of ten million soldiers never returned. Their situation is only slightly better than Eternal Night Empire, which is on the verge of destruction."

"Who says it isn't? Our monarch's divine abilities are unrivalled. It's really unexpected that he died in vain in the lost country."

"Tell me, how did the shamans in the lost country suddenly become so powerful? In the past, our empire suppressed them, but this time, their sacrifice is so tragic that we can't bear to look at it."

In the Treasure Chest of the inn, the five of them listened attentively.

When they learned that defiant Gu Yun had fallen, the five of them were all surprised.

Eternal night Wuheng said thoughtfully, "Brother Su, the injuries you caused to defiant Gu Yun that day, was it necessary for him to die and die?"?

Su Yu shook his head, "He didn't die because of me!"

Chu Xue frowned, "That's strange. With Defiant Frost star protecting him and retreating, who else could kill him? The rulers of the other dynasties are too busy to take care of themselves. How would they have the time to ambush the father and Son?"

Suddenly.., eternal night impermanence frowned deeply. "I once heard father say that the throne of the heaven-defying lineage has always been much bloodier than the other royal sacred gates. There are often cases of patricide and seizing the throne. If there are no other reasons, it should be because of the heaven-defying frost star!"

Surprisingly, no one retorted. If one were to talk about such a heinous act, the most likely person to do it would be the heaven-defying frost star.

Su Yu's eyes were indifferent, not surprised at all.

He was a person who was imbued with the rebellious intent. He knew very well that the heaven-defying cold star would definitely undergo a transformation if he survived the calamity.

It was just that he did not know how far he had transformed this time!

“The whereabouts of the heaven-defying cold star is unknown. It’s unnecessary for us to worry. Why don’t we increase our strength? We will face him again sooner or later,” Su Yu said.

The few of them nodded and did not say anything else.

“If there’s nothing else, we can set off for the endless source.” Su Yu could not suppress his emotions.

Eternal night first snow hesitated slightly and said hesitantly, “Can we return to the Eternal Night Dynasty? I want to know how father is.”

Although eternal night everlasting did not say anything, ever since he returned to the god domain, the traces of worry on his face could not be concealed.

After all, he was their biological father. He had raised them to adulthood and treated them well. Hence, their feelings for each other were still there.

This place was slightly far from the empire. The detailed information was very rare. Only those who went to the Empire would know.

Su Yu said, “Sure, let’s go now.”

The brother and sister were filled with gratitude. They bowed and said, “Thank you, brother Su, for helping us!”

Not long after, at the border of the Eternal Night Empire, the snow country of the northern region, which used to belong to the empire, had already separated. It was now part of the heaven-defying Empire’s territory.

The city at the border was abandoned, and there were wandering commoners everywhere.

There were also those who were fleeing for their lives and fleeing into the ruins.

As they passed by this city, everyone was filled with emotions. The once glorious and prosperous eternal night dynasty had fallen just like that.

The world was unpredictable, and the fate of the dynasty was just like these lonely commoners. It was impossible to predict.

Ah --

Within the abandoned city, screams and sounds of fleeing filled the air, mixed with the sound of horse hooves and the sound of laughter.

From high up in the sky, the crowd could clearly see the situation in the city.

It was a group of translucent soldiers who suddenly ambushed the city, wantonly robbing the city, abducting women, and capturing young strong men.

As for the elderly and children, those who dared to resist were all killed.

The people in front of them sensed that something was wrong and fled out of the city.

But how could they escape the pursuit of the soldiers? They fell like wheat and fell in pools of blood.

Su Yu and the others had cultivated for many years and were used to seeing life and death in battles. Such a scene could not touch them at all.

“The chaotic world is like grass.” Su Yu sighed lightly and waved his sleeve across the air, bringing up a tornado that accurately swept up the translucent soldiers in the city high up in the air.

The civilians in the city were at a loss, and they all fled out of the city.

Eternal Night Wuheng said in surprise, “The suffering people in the world are like billions of grains of sand in the Ganges. How can you save them all by yourself?”

He did not expect that Su Yu, with such a high level of cultivation, would have mercy in his heart and save the irrelevant civilians.

In the eyes of their gods, the ordinary civilians were no different from grass.

Su Yu said, “If I can’t Save the people of the world, can I ignore the suffering of the people in front of me and just stand by and watch? Don’t treat the small with kindness and do your best. Only then will you have a clear conscience.”

The group of people heard what he said and seemed to understand.

Su Yu summoned a group of soldiers and stared at their clothes and skin color. “If I remember correctly, you should be the soldiers of the northern snow country, right? Why, you did not mutiny for long and already did this to your former compatriots?”

The faces of the soldiers who were dragged over paled. With the other party’s methods, how could they not know that they had met an expert? They immediately begged for mercy.

Su Yu asked, “Where is your commander?”

“The commander is besieging the imperial city. We don’t have enough rations and troops, so he ordered us to raid the rear.”

Besieging the Imperial City? Su Yu’s eyes flashed. “Who is your commander?”

“It is the monarch of the northern snow country himself. He is personally the commander, taking advantage of the situation to attack the imperial city.”

Hearing this, Su Yu smiled, his expression was filled with undisguised disdain.

Eternal night first snow laughed even more angrily, “Shameless! !”

Back then, they could not plot against her, and now they were taking advantage of the chaos to besiege the imperial city!

“Lead the way!” Eternal Night First Snow’s pretty face turned cold.

Under the lead of the soldiers, they headed straight for the North region snow country’s camp.

Ten days later, the Imperial City.

The once glorious imperial city had been taken over.

The Southern Alliance Army, the Tai Qing army, and the ice and Fire Army all set up camp in the city.

Apart from that, there were also forces like the North region snow country that took advantage of the chaos to kill, Rob, and plunder resources.

Inside the northern snow country's tent, the king of the northern snow country, who had a crown on his head, was beaming with joy as he met with the leaders of the various small forces.

They gathered together and discussed enthusiastically on how to attack the city the next day.

“We are indebted to all of you for thinking highly of us. We have formed the Alliance of Justice to crusade against the Eternal Night Imperial Family. If we succeed, all of you will be heroes who have saved lives in the midst of fire and water,” the king of the northern snow country said passionately.

The leader of a sect with a stage three cultivation base cupped his fists and said, “We don't deserve to be called heroes. We are all people who have been harmed by the Eternal Night Empire. It would be best if we could save all living beings at the same time.”

Everyone agreed with him.

A group of rabble whose goal was to rob people of their homes had labeled themselves as righteous.

The number of people who had died at their hands was unknown, but at this moment, they were boasting shamelessly that they were the teachers of justice.

While the wine was still thick, the monarch of the northern snow country raised his wine cup and raised it to an unremarkable force at the end of the hall. “Come, everyone, welcome our new member today, leader Wen Xin.”

Wen Xin was a middle-aged woman. The passage of time had left an indelible vicissitude on her jade-like face.

She gave a faint smile. Her smile was relaxed, as if she had seen through the mortal world.

Many of the leaders of the hall looked at this person with fear in their eyes.

This woman named Wen Xin was a faction that had been particularly active in the divine realm recently. She wandered around the ruins of the imperial dynasty.

Among the factions, other than Wen Xin, who was at the third sky realm, there were also quite a few fourth sky subordinates who fought for her.

Her faction was one of the few factions that the people did not hate. They did not engage in burning, killing, or plundering. They mainly dealt with the rare materials in the lost kingdom, and their business was quite good.

Hence, they gathered a large number of experts.

In the nearby regions, Wen Xin was extremely famous.

The king of the northern snow country had invited her many times. This time, he finally invited her over to participate in tomorrow's siege plan.

Facing everyone raising their glasses, Wen Xin calmly replied.

The king of the northern snow country said, "With Wen Xin joining, I believe that we will be able to cooperate with the armies of the three empires to successfully enter the city. When that time comes, Wen Xin will definitely benefit."

Wen Xin put down her wine cup and said solemnly, "I am not here for the wealth in the city. Instead, three of my subordinates are trapped in the city. If the inner city is destroyed, they will definitely suffer an undeserved calamity."

HM? Everyone frowned.

The northern snow country did not expect that she was willing to let go for another reason.

"I will help you break through the inner city. However, the battle from now on has nothing to do with me." Wen Xin said calmly.

As soon as he said this, someone immediately felt displeased, "Leader Wen Xin, since you don't want to join us, if the news were to leak out, wouldn't we be ambushed by the soldiers in the city?"

"Indeed, it's not that we don't trust you, but that you have received news that you shouldn't know."

After Wen Xin listened quietly, he raised his crystal eyes and glanced at them, "So What?"

"It's very simple. Either you join us, or... before the siege ends, leader Wen Xin can only stay here temporarily. In addition, you must hand over your communication magic tool," said a leader whose position was second only to the monarch of the northern snow country.

His name was Liu XI, and he was once the largest underground organization in the vicinity. He ran assassination, robbery, theft, and other shady businesses. He had many experts under him, and among them, there were many outlaws who were willing to risk their lives for him.

He was famous for his viciousness, and he was very intimidating to all living beings.

When the dynasty was at its peak, under the suppression, they hid in the shadows.

Now that he had appeared openly, he had become the second-ranked person in the so-called Justice Alliance.

Wen Xin smiled. "What if I don't choose either? How are you guys going to 'mistreat' me?"

Liu Xi smiled. The rise of Wen Xin's faction had more or less clashed with him.

At least ten people had been executed for robbing Wen Xin's transportation team.

Liu XI had long remembered this debt.

Now that they were on the same side, Liu Xi was already unhappy. It was laughable that Wen Xin's attitude was so unreasonable that he could not help but feel murderous, he slowly stood up and said,

“Hehe, leader Wen Xin has always been confident in himself. I would like to try and see if I can make leader Wen Xin ‘suffer’!”

Wen Xin said calmly, “Sure!”

Liu Xi sneered and suddenly attacked Wen Xin.

His figure instantly changed thousands of times, flashing like bolts of lightning, making people unable to distinguish between real and fake.

The most valuable thing was that regardless of whether it was his real body or his illusory figure, the divine ability he used was real.

This was equivalent to having the combat power of over a hundred people!

All the gods present were fearful. It was not for no reason that Liu Xi could control a dark faction.

Chapter 1475 The Commander-In-Chief’s Decision (Third Watch)

Only with such strength could they subdue those outlaws!

Seeing that thousands of attacks were aimed at Wen Xin’s head, everyone broke out in a cold sweat.

However, Wen Xin remained unmoved. He could only form a hand seal with a single hand as he spat out extremely cryptic words.

Following that, an invisible fluctuation floated out and transformed into a radiation shape that swept out in all directions.

Ah --

In an instant, hundreds of thousands of phantoms let out shrill screams at the same time.

Most of the Phantoms disappeared in an instant. Only a figure with blood flowing out of his seven orifices covered his head and roared furiously, “This, this is witchcraft! ! You are a member of the Shaman Tribe!”

No one would have thought that the famous leader Wen Xin was actually a member of the Shaman Tribe!

Wen Xin’s gaze turned cold. The afterimage was still on the seat, but he had already flown 100 feet away from him. He formed a seal with one hand and a soul exterminating curse immediately shot out.

The northern snow country’s king’s expression darkened. He slammed the table and arrived in a flash.

“Seal the world in ice!”He shouted, and the temperature in the surroundings suddenly reached zero.

The speed of the ripples of the radiation slowed greatly, and they gradually weakened.

However, Wen Xin cast another curse, “Sacrificial curse!”

This curse did not have any offensive power. However, when the ripples of the soul extinguishing curse came into contact with it, the soul extinguishing curse that was about to weaken and die suddenly soared!

Not only did it immediately return to its peak condition, it even broke through the shackles of the ice peak world with twice the force!

The eyelids of the northern snow country's king twitched wildly. How could he still dare to help Liu Xi withstand it?

With a 'snow substitute', he narrowly escaped with his life.

The substitute turned into black dust, while Liu Xi was directly hit!

The dignified leader of the darkness organization, a figure that caused people's expressions to change, actually died on the spot, turning into black powder.

The entire hall was silent. They were all shocked by leader Wen Xin's ruthless lightning method.

Even the king of the northern snow country felt fear rise in his heart. He knew that it was impossible for him to be a match for her!

After getting rid of Liu Xi, Wen Xin looked around expressionlessly. "Is there anyone else who thinks that I can be 'wronged'?"

Everyone who was stared at by his gaze avoided eye contact. Especially the leaders of the few forces who were clamoring happily just now. Cold Sweat broke out on their backs.

"D * mn, this witch is so fierce!"

"She's too F * cking powerful. She shouldn't be an ordinary person in the Shaman Tribe, right?"

Everyone communicated through voice transmissions, feeling extremely shocked.

They looked around and asked, "Since there's no one here, then everything will go on as usual. Tomorrow, I'll help you attack the city, but I won't care whether you live or die. Do you have any objections?"

Everyone cursed silently. Who Dared to have any objections? The one with the biggest objection had already turned into ashes on the ground!

The expression of the northern snow country's king changed several times. From a calm expression, it turned into a warm smile, "Leader Wen Xin's strength surpasses others. We admire you greatly. Our Justice Alliance is very willing to work together with leader Wen Xin."

As he said that, he raised his cup from afar, "Happy working together."

The others also raised their cups. Most of them had happy expressions.

It was as if they were not the ones who had the violent conflict just now.

Just as they were enjoying themselves, a disharmonious voice fell from the nine heavens. It was like thunder bombarding everyone's ears.

"A motley crew!"

The voice was like thunder, shaking the Qi and blood in their bodies.

Shua --

Amidst everyone's shock, a man and a woman appeared like ghosts.

As the remaining yin and yang qi dispersed, their true appearances were revealed.

Everyone was stunned at first, then shocked, then stunned again. Finally, they cried out in shock, "The wanted criminal of the four great empires, Su Yu! ! The Princess of the Eternal Night Empire, the first snow of the Eternal Night! !"

The appearance of the two of them was like two balls of delicious fresh meat that had fallen into the den of a pack of hungry wolves.

As a wanted criminal, there was no need to elaborate on the value of the resources awarded to Su Yu. No living being could resist this temptation.

And as the Princess of the Eternal Night Dynasty, the first snow of the Eternal Night Dynasty was in their hands at this moment. It was equivalent to a powerful bargaining chip!

The appearance of the two of them caused their shock to turn into ecstasy!

The king of the northern snow country was the most shocked. As the mortal enemy who had exterminated almost all the descendants of the royal family of the northern snow country, the northern snow country even dreamed of killing Su Yu ten thousand times.

However, he would never have dreamed that Su Yu, who had disappeared without a trace, would appear in front of him!

After being stunned for a short while, the king of the northern snow country suddenly stood up and exploded with killing intent. His eyes were slightly blood red as he roared, "All of you get lost! I want to kill him with my own hands! !"

Shua --

His body was like a bolt of lightning as he tore through the void and charged towards Su Yu with an indomitable momentum. The hatred that was engraved in his bones was awe-inspiring to anyone.

However, a beautiful figure took a light step forward. Her pair of ice-cold snow-like eyes were filled with coldness.

At the same time, the other party stretched out a seemingly slender palm and casually struck the other party's afterimage.

Peng --

The northern snow country's monarch left as fast as lightning, and returned as fast as lightning.

The difference was that he left standing, and returned lying down.

His body directly smashed through a large portion of the buildings and buried him in the dust.

Everyone sucked in a breath of cold air. He was able to heavily injure the king of the northern snow country with a single palm?

Plop --

The king of the northern snow country crawled out from the ruins. Staring at his master with his snow-white eyes, his pupils constricted. "You... you broke the seal and recovered to the third sky realm? No, you're even stronger than before!"

Back then in the drunken immortal forest of the northern snow country, eternal night first snow risked his life to break the seal and fought against him with the third sky realm.

At that time, he could still fight for a few rounds.

But now, he was sent flying by a palm strike!

Eternal Night First Snow's face was cold and emotionless, "HMPH, back then you bullied me and sealed me, almost putting me in a place where I would never recover. Did you ever think that I would come back?"

That day, she was almost tarnished by her son, Xue Qingchen, as well as the other beasts of the royal family of the Snowy Kingdom of the northern region. It was all thanks to Su Yu that she was able to survive.

Thinking back to that day, the killing intent of the first snow of eternal night grew even more intense!

The northern snow country's king was filled with fear as he shouted, "Everyone, this woman is the princess of the Eternal Night Dynasty. If we can capture him, the royal family will definitely be wary of him. The great opportunity is right in front of us. Everyone, don't miss it!"

However, everyone looked at each other, unmoved.

What a joke. Did they think that they were blind from the power of that palm just now? The other party had clearly not used his full strength yet. A normal palm was enough to injure the monarch of the Snowy Kingdom of the northern region.

If he was angered, he wouldn't even know how he died.

However, there were also people who had the mentality of a gambler.

"Everything depends on the person and the heavens. The opportunity is right in front of us and we haven't even tried. Even if the heavens wanted to help us, it would be difficult." A bearded third sky god and a black-clothed woman walked out. The two of them attacked at the same time.

The moment they attacked, the three leaders, who were also hoping for a fluke, also chose to attack. She faced the attacks of five people of the same level at the same time.

Su Yu moved his feet, preparing to share a few of them.

"Big Brother Su, I'll do it myself!" Eternal night first snow said, "I'm following you to go through hardships, not to be a flower that needs to be protected."

Hearing this, Su Yu pondered for a moment before withdrawing his footsteps. He crossed his arms and stood there, quietly watching.

Eternal night first snow blinked her eyes and formed a seal with her hands. The dragon blood in her body began to boil.

Looking from afar, the surface of her body seemed to be burning with a layer of blood-colored flames.

Under the contrast of the flames, a Dragon Emperor with a crown on his head appeared behind her. He spoke in an obscure dragon language.

“Dragon Emperor’s heavenly voice,” eternal night first snow said indifferently.

The Dragon Emperor Phantom behind her entered the void. Immediately, the phantom images of law chains descended from the sky and trapped the five people.

Next, Eternal Night First Snow clenched his five fingers, and the law chains suddenly tightened.

The five stage three gods were instantly strangled to death, and not a single thread of their souls was left behind.

A full five stage three gods were easily killed just like that!

What made them even more shocked was that the form of the chains was extremely similar to the rumored law chains! !

The northern snow kingdom’s King’s expression finally changed drastically, and his heart pounded wildly. This was eternal night first Snow’s true strength, killing five enemies in one breath! !

He sucked in a breath of cold air. When he met Eternal Night’s first Snow’s gaze, he felt as if his soul had left his body.

In a flash, he hid behind Wen Xin. He cupped his fists and pleaded, “I implore leader Wen Xin to make a move. As a member of the Justice Alliance, I hope that we can help each other. After this, I will definitely reward you greatly.”

Wen Xin looked at the other party with his hands behind his back and said indifferently, “Which one do you want me to deal with? That Man or that woman?”

The king of the northern snow country stared deeply at eternal night first snow. “That woman! All I need is for leader Wen Xin to hold him back for a moment and allow me to kill that man. There’s no need for you to fight to the death with her.”

“Kill Him?” Wen Xin revealed a teasing smile that was hard to detect.

The king of the northern snow country nodded heavily. “That’s right!”

Among the people present, the only one who could compete with eternal night first snow was Wen Xin!

“Alright.” Wen Xin said as he walked towards eternal night snow.

Seeing this scene, the king of the northern snow country calmed down. He stared at Su Yu with hatred and said ferociously, “Since you are seeking death, don’t blame me for using your head to pay tribute to my children who died in vain!”

However, the next moment, the king of the northern snow country was stunned.

Wen Xin walked towards eternal night snow with his hands behind his back. However, he did not make a move. Instead, he brushed past her.

The strange thing was that the first snow of the eternal night did not make a move either. Instead, the corners of her lips were filled with ridicule as she looked at the king of the northern snow country with pity.

Wen Xin walked past the first snow of the eternal night and arrived in front of Su Yu. She placed her hands down. However, she did not make a move. Instead, she bowed and said, "Greetings, Commander."

Su Yu had a smile on his face. "I never thought that I would meet you again, Wu Xin."

The so-called Wen Xin was none other than the branch leader of the saintly Virgin Palace, Wu Xin.

That day when they parted outside of the fan capital, she went to the god domain alone to take a look.

She never thought that there would be a day when they would meet again.

Although she was in the god domain, her heart still remembered the witch clan. She used the convenience of the caravan to inquire about the situation of the witch clan.

How could she not know that Su Yu became the commander of the witch clan in the Shengjing Capital?

Wuxin helplessly smiled. "Could it be that I have not fulfilled my obligation to register, so I arranged for us to meet here in the Dark?"

'somewhere'? Su Yu felt a trace of fate in a trance.

Yes, he should have headed straight for the endless source.

It was the Yong Ye siblings that made Su Yu change her mind.

Could it be that her promise to sacrifice her life for Su Yu still lingered between them?

A bad premonition arose in his heart.

After a pause, heartless glanced at the northern snow country's king whose expression was stiff. He said with a faint smile, "Commander-in-chief, someone ordered me to kill your maid. Commander-in-chief, please decide."

Chapter 1476 The Strange Ring

The hall was deathly silent.

Wen Xin was also one of Su Yu's Men? One Eternal Night's first snow was already strong enough, and another Wen Xin?

Some of the people who saw that the situation was bad had already sneaked away.

However, they had just sneaked out of the hall when they were forced to return.

"Hehe, have you asked Big Brother Su if you want to leave?" Holy Maiden Luo xueyi cast a witchcraft spell to stop the person who had escaped and brought him back directly.

Wen Xin was delighted. "The SAINTESS has also come out?"

Saintess? Everyone in the hall turned pale. The Saintess of the witch clan had also come!

Da Da --

Two more footsteps sounded. Eternal Night Wuheng and Bi Wanqing walked in.

The undisguised dragon's might shocked them to the core.

"There... There are still two more?" The leaders of the various forces gulped.

Based on their instincts, the two of them were not weaker than the former.

Plop --

The king of the northern snow country knelt down on one knee and said, "Your subject pays his respects to Prince Wuheng, Princess Yongye."

With four such powerful experts, there was no need for them to consider escaping.

Yongye Wuheng's eyes shone with a cold light. "This prince does not dare to accept a subject like you. When you are in trouble, not only do you betray us, you even killed your way into the imperial capital, burning, killing, and plundering!"

The king of the northern snow country quibbled, "I implore the prince and princess to understand that this subject was forced by the heaven-defying empire, and not out of sincerity."

"Hehe, what a Force!" Eternal night first snow laughed in anger. "That day, you schemed against me, trying to use my blood to write down the history of your northern snow country. Was it also forced by the heaven-defying empire?"

Staring at him, Eternal Night First Snow's killing intent grew even stronger. He asked Su Yu, "Does he still have any value?"

Su Yu glanced at the king of the northern snow country indifferently and said, "Kill him to prevent future trouble."

This person was sinister and ruthless. He could bend and stretch. Letting him go now would only lead to more people being killed.

In fact, one day in the future, he might even be a threat to him.

Su Yu's words determined the future of the northern snow country.

The king of the northern snow country turned pale with fright. His figure hurriedly retreated as he stared at Su Yu and shouted with hatred, "Do you really want to kill him? Aren't you afraid of retribution after all the members of the royal family of the northern snow country have died in your hands?"

Su Yu's expression was indifferent as he said, "If you say that I killed the innocent and suffered the backlash from the Great Dao of Heaven and earth, I accept my fate. But if I kill you all, who are you all? How can you say that I will have retribution? I will be a new person in my next life."

The eyes of eternal night first snow flashed with a cold light. Without a doubt, she ended the life of the king of the northern snow country.

A huge head with fresh blood splattered everywhere.

Before he died, he did not have the slightest bit of regret. All he had was endless hatred. "You won't have a good ending!"

Regarding this, Su Yu's heart did not waver at all.

The enemies who died in his hands could not be explained. There were countless people who complained about him.

If there was really a curse, he would have long died without a burial place.

"Commander, what should we do with the rest?" Wen Xin asked.

Su Yu looked at them. At this moment, their expressions were filled with fear and helplessness. However, not long ago, they were the executioners who caused a disaster and endless slaughter.

Su Yu did not feel any sympathy in his heart. He said indifferently, "Search the souls of those who committed evil and kill them on the spot. The rest can be spared from death."

Under the combined efforts of the four of them, the people in the hall could not resist at all. They underwent a baptism of blood.

Out of the thirteen people, only two had escaped because they had just joined and were like Wen Xin. They did not have the time to commit evil yet.

The rest were all executed without exception.

"Wu Xin, how's the situation in the city?" Su Yu asked after they had finished dealing with the situation.

Wu Xin cast a regretful gaze at the Yongye siblings and sighed, "The building is about to collapse. Tomorrow is the day when the two dynasties and the Southern Alliance Army will attack. The imperial city will not be able to hold on."

Yongye wuheng said, "Father is unrivaled. Moreover, for many years, the dynasty has been secretly forging civilized weapons under the control of Shangguan Feiyu. It's impossible for them to break through the imperial city so easily."

"This is the reason why they launched a general attack," wuxin said.

"What does this mean?" Yongye chuxue frowned.

Wuxin said deeply, "Half a month ago, there was a rumor that the important members of the dynasty disappeared without a trace overnight! I think this is why they dared to launch a general attack."

There was no one in the city. Wasn't it the best time to launch a general attack?

"What? Father is missing?" Eternal night first snow exclaimed, "How is that possible? There are three king-level experts like Taiqing Yunluan, icefire

cangxing, and fish emperor guarding the city. It must be very difficult for father to take away the important members of the dynasty, right?”

Wu Xin said, “That’s also why it is so unbelievable. It is indeed unbelievable that the important members of the dynasty disappeared without their eyes and ears, unless there is an unimaginable expert. But since there is such an expert, it is easy for him to solve the dilemma of the dynasty. Why did he only save the people and not the country?”

His words were a warning to Su Yu and the others.

There was indeed such an expert!

Eternal night seeking the devil!

The Dragon Pearl that had tricked the creator dragon was likely to be a terrifying existence in the first sky!

He was indeed capable of taking away the important members of the city without anyone noticing. Moreover, since he could not stop refining the dragon pearl at the critical moment, it was not convenient for him to save the country.

The four of them looked at each other and were secretly shocked.

It was him! !

They had been restrained by the creator Dragon and were taught the divine abilities of the dragon race. It was precisely because they hoped that they could resist eternal night seeking devil and take back the Dragon Pearl

The current them was far from the time to clash head-on with eternal night seeking devil.

“Forget it. Since father is safe and sound, we have nothing to worry about. Let’s leave quickly.”Eternal night first snow put down the huge rock in her heart.

Heartless thought for a moment and said, “Why don’t I leave with you guys as well? I can help you a little.”

Su Yu immediately rejected without thinking. “No! This trip is dangerous. We absolutely can not bring you along.”

Her promise had touched fate. It was very likely to come true. How could she let her go into danger?

“Alright, then I’ll stay in the dynasty and pay attention to the information of the god domain for you guys,”heartless said. Then, she took out a ring from her sleeve, he handed it to Su Yu. “This is an ancestral ancient civilization weapon that I accidentally obtained from a warrior after doing business in the God realm for many years. Its specific use is unknown, but it does have defensive power. It might be of some use to you.”

Su Yu looked at this object. It was an extremely old and cracked object.

The ring was engraved with densely-packed characters. Su Yu could read the characters of various races, but he couldn't recognize it!

"Oh? This kind of ancient civilization weapon is rare." The Yong Ye siblings sized it up. "At least in the history books of the Yong Ye lineage, there are no records of such a civilization weapon."

Su Yu said, "An ancestral item? It's hard to trace its origin."

After receiving the item, Su Yu cupped his fists. "Thank you."

The group of people bade him farewell and immediately set off for the endless source.

Passing by the ninety-nine tribes in the south, the desolate land of the past became even more desolate due to the chaos of war and horses. There were no people within ten thousand miles, and white bones were everywhere.

"The recent situation is all because of the mermaid tribe. I really don't know what that Fish Emperor is. He can actually stir up the winds and clouds of the divine realm with one hand and destroy an empire that has been stable for tens of millions of years." Eternal night first snow frowned deeply.

Su Yu looked into the distance at an abandoned sky sacred ship that was inserted into the ground. His eyes shone.

He was one of the few people who knew the origin of the fish emperor!

He was a tomb guardian spirit that had occupied the body of the fish emperor!

He came from... The Crack in the Mystic Crystal Mountain Range!

At this moment, within the crack, the demonic dragon suddenly widened its blood-red eyes and emitted a bone-chilling blood-red light. It said in a low voice, "I can sense the aura of that law fragment! He's Here!"

First Watch, three o'clock in the afternoon the next day

Chapter 1477 Going Against The Current (First Watch)

From within the stone door, the voice of a woman drifted over, "En, I can sense the familiar aura of an old friend from his body."

Within the Mystic Crystal Mountain Range, silence quickly descended.

It was so quiet that it seemed like a sign of a storm.

Su Yu, who seemed to have sensed something, took a deep look at the mystic crystal mountain range.

The evil daughter that destroyed the nine Dragons Valley's divine realm, the world destroying dragon, what was their goal?

The Nine Emperors sacrificed themselves and used the supreme nine emperors tablet to seal them for hundreds of millions of years. Now, there were only five years left before they could break the seal.

At that time, who would stop them?

Su Yu could ignore the lives of the people, but how long could he hide?

When the evil daughter was born, all life would perish. It was difficult for Su Yu to be alone.

Moreover, he had snatched the world annihilating dragon's law fragment. In the end, he would have to clash with the other party. It was unavoidable.

Taking a deep breath, Su Yu gazed in that direction and led everyone into the endless source.

He had left the ancient divine realm behind, so he would return!

Just like before, the endless source was desolate and deathly silent. Other than the occasional guardian spirit, there were no other living beings.

Stepping into the endless source, they could feel an inexplicable fear and pressure.

It was as if there was a huge creature staring at them coldly.

Heaven defying wuheng frowned and said, "Back then, the four dynasties joined hands to search for the endless source, but they failed and all of them even died here. Brother Su, it's best for us to be careful. At the very least, we have to look for someone who is familiar with this area of water. Otherwise, it would be very bad for us to enter this dangerous area by mistake."

Back then, the four dynasties had gathered countless experts, yet they still ended up like this, what more them?

"Don't worry, there's someone who is familiar with the waters here. She is the most suitable person to lead the way for us." The nine jade spirit pearl on Su Yu's arm flashed slightly, and a woman with long golden hair appeared from within.

The lower half of her body was a fish, while the upper half of her body was a moving human form.

A peerlessly beautiful face that could topple kingdoms and cities was like a precious jade in the darkness, refracting a gentle light that made people unable to shift their gazes away.

Coupled with a head of smooth golden long hair, it added a bit of unusual beauty to it.

Eternal Night Infinity was dumbstruck as he watched, his eyes unable to hide his astonishment.

Even eternal night first snow, who was also extraordinarily beautiful, and Luo xueyi couldn't help but feel a deep pressure.

They also couldn't deny that she was a beautiful woman that could stand shoulder-to-shoulder with them.

The two women couldn't help but feel a trace of enmity. Poor Mermaid Princess, before she could even recover from the sudden spatial shift, she was already targeted by two stage three gods.

A cold shiver ran down Lu Zhu's spine. Her heart was stifled, and she didn't say a single word.

She was the Princess of the mermaid tribe, who had escaped with Su Yu in the past.

Seeing Su Yu, Lu Zhu felt as if she had been saved. She quickly hid behind Su Yu and stuck close to him. She was very afraid of the two women with unkind gazes.

However, her unconscious actions attracted even more hostile gazes from them.

Su Yu smiled and calmly blocked their auras, saying, "Green Pearl, they are my friends."

Su Yu also introduced them, "This is the princess of the mermaid tribe. During the coup, she escaped with me. She is also my friend."

Only then did Luo Xueyi and eternal night's first snow put away their unfriendly expressions.

Green Pearl took a deep breath and carefully stepped forward to greet them, "Greetings seniors, greetings young master."

She was secretly shocked. After such a long time, Su Yu had already made friends with several experts whose cultivation could not be seen through.

Back when Su Yu came to this place, he had to hide in the mystic crystal mountain range even when a god was chasing after him.

Su Yu said, "Green Pearl, I've decided to return to the galaxy divine territory. I want to find the endless source of origin that entered back then. I hope that you can help us lead the way."

Hearing this, Green Pearl's expression changed drastically. "No! That place is too dangerous. We absolutely can not go deep into it. Once we are discovered by the nine-headed beast, we won't even be able to escape."

Su Yu said, "We have already mentally prepared ourselves. If we really encounter it, we can only fight to the death. But back then, didn't you reach the depths of the endless source unscathed? I think you should have a safe path to take, right?"

Green pearl said with difficulty, "Back then, I also took a great risk. According to the path that the clan had summarized for many years, I was lucky enough to rush over. That path can only be said to be relatively safer. It can't be said to be absolutely safe."

Eternal night first snow said coldly, "Tell me, what exactly is the danger?"

Green Pearl was somewhat afraid of her. She said pitifully, "Of course it's the nine-headed exotic beast. It roams this area of water all year round. Once any living creature that enters this area is discovered, there is absolutely no way for them to survive."

Everyone in the Eternal Night Dynasty knew about the rumors regarding the nine-headed beast. It was also a household name in the god domain.

This was the only restricted area in the god domain. Even the emperor of the dynasty did not dare to easily enter this area.

"However, it does not rove around all the time. According to our clan's statistics for many years, it will enter a deep sleep three days a month. This is the safest time. The day we met was the day it entered a deep sleep," the Green Pearl said a crucial piece of information.

Hearing this, everyone's eyes lit up.

"Then, how many days until it falls into a deep sleep this month?"

The green bead calculated and said, "There are seven to eight days left. At that time, it will be safest for us to head to the endless source. The prerequisite is that it is not awakened by external forces."

Is that so? Although Su Yu was eager to return to the galaxy, he knew that haste makes waste.

"Alright, then wait patiently for seven to eight days!" Said Su Yu.

What they did not know was that during these few days of waiting, a female figure was walking through the endless source of ruins with a leisurely expression, the corners of her mouth held a teasing and relaxed expression. "Is this the end of the lost kingdom? I wonder if we can escape from this place and escape from the Lost Kingdom."

Eight days later, according to the Green Pearl's calculations, it should be the time when the nine-headed God stopped swimming and fell into a deep sleep.

Su Yu and the others immediately set off.

Under the guidance of the Green Pearl, they chose a relatively safe path. They passed through a large stretch of water, and finally, two days later, they successfully arrived at the place where they had met Su Yu.

The water here was muddy, and there were dark shadows everywhere, giving off a sinister feeling.

Feeling the immense pressure, everyone's breathing quickened.

"What's That?" The eyes of the first snow of the eternal night were bright. Suddenly, they saw a vague black shadow in the rapid current deep in front of them.

Everyone fixed their eyes on it and secretly sucked in a breath of cold air.

They saw a pitch-black giant lying in the rapid current.

Its entire body was incomparably huge, comparable to a sky holy ship!

Its entire body was covered with metal-colored scales, and it looked like a monster that had been artificially forged.

However, the destructive power that occasionally emanated from its body, as well as the aura that caused one's soul to tremble, all told them that it was an incomparably huge creature!

In terms of size, it was not inferior to the sea of bitterness giant!

What made Su Yu's heart palpitate was that its aura was even more suffocating than the sea of bitterness giant's.

"Nine-headed alien God!" That terrifying existence from the rumors flashed through everyone's minds at the same time.

The forbidden creature that had destroyed the Alliance Army of the Four Great Dynasties and forced the four great dynasties to fall and perish overnight!

Fortunately, just as Green Pearl had said, the nine different gods had fallen into a deep sleep.

Otherwise, with the other party's powerful perception, they wouldn't have been able to sense it if they hadn't been so close.

Su Yu sent a voice transmission, "In the depths of the rapids, going against the current is where I want to go. Follow me."

He took the lead as a soldier. He suppressed his aura and carefully arrived at the place where the current was turbulent.

As he got closer to the nine deities, he became more and more aware of how terrifying it was. As he passed by its enormous body, everyone was like insignificant ants.

With a turn, the other party was able to crush them all to the ground.

However, the strange thing was that when Su Yu passed by the nine deities, the space between his brows squirmed restlessly.

It was the eye of Taotie!

For some reason, it seemed to have sensed something, and it squirmed instinctively in its deep sleep.

"Strange, the eye of Taotie actually sensed the nine-headed God?" Su Yu thought to himself. He stared deeply at the nine-headed God's form for a few moments, then led the group carefully through it.

Looking Up, one could see an incomparably long pillar of water descending from the sky.

The higher one went, the stronger the water became.

Su Yu remembered how powerful the water was when it fell back then.

Even though he had improved greatly, he still felt extremely fearful when facing the water.

"Let's Go!" Su Yu silently went against the current.

The water pillar fell on his body like a heavy mountain. His entire body was in extreme pain.

Su Yu gritted his teeth and took the lead to withstand the water, slowly moving upwards.

At first, Su Yu could still walk a few thousand feet in one step.

But as time went on, the water pillar became more and more terrifying, slowly shrinking from a thousand feet to a hundred feet, from a hundred feet to half a foot.

Until now, it was as if he was walking normally, and it was difficult to walk.

"Big Brother Su, let us take turns. If this continues, you won't be able to withstand it first." Eternal night first snow followed closely behind Su Yu, and suddenly a drop of warm liquid fell on the tip of his nose.

He thought that it was water splashing onto his body, but when he realized that the temperature of the liquid was just right, he realized that something was wrong. When he looked up, he saw that Su Yu's arms were already bleeding profusely. It dripped down along his arms continuously and dyed a pool of water red.

Su Yu gritted his teeth. "This small injury is nothing. When we can't take another step forward, it will be the time to use the imitation doomsday disk."

He had already deduced this countless times in his mind.

To cross the reverse flow, it was not possible to rely solely on brute force.

Otherwise, this nine-headed God would be able to use its own strength to charge into the Galaxy God realm. Why would it lay dormant here?

The reason was that it could not cross the reverse flow either.

The only way was to use a powerful force to instantly send the reverse flow back. During the gap created, they would immediately rush out.

Slowly, the water pillar became stronger and stronger. They were almost washed down several times.

If they went any higher, they would not be able to take another step forward.

Eternal night was extremely shocked. "Not just us, even the emperor of the dynasty will be washed down!"

Eternal night, first snow, and the others were finally under the pressure of the water pillar. They gritted their teeth and held on.

Walking to this place was the limit of the five of them!

Looking at the dark tunnel under their feet, as well as the nine blurry, black-headed alien gods, Su Yu gritted his teeth and took out a palm-sized, snow-white disc from his sleeve.

This was to prevent the world-termination disc from shrinking at will, just like the cave abode world.

Su Yu poured divine power into it, and the world-termination disc rapidly expanded, becoming a hundred million feet in size, almost taking up the entire area of the tunnel.

Chapter 1478 Mistress Red Dust's Appearance (2nd Update)

Splash --

An endless stream of water poured down on the snow-white perfection. Under the immense pressure, the replica of the doomsday board trembled and let out a rumbling sound.

They could not stay for long, or the more water accumulated on it, the stronger the pressure on the Doomsday Board would be.

In the end, it was very likely that they would not be able to break through the accumulated water!

"World Destruction Cannon, activate!" Su Yu ordered.

The people in the world destruction cannon who had long been prepared immediately went about their duties and mobilized the world destruction cannon.

Weng Weng Weng --

Streams of majestic power gathered in the world destruction cannon, brewing a terrifying power.

Eternal night, first snow, and the others had looks of anticipation in their eyes. They had long been curious about the Galaxy God realm that Su Yu had described.

Just what kind of God's domain was that?

“Ten breaths!”

“Nine breaths!”

“Eight breaths!”

..

The World Annihilation Disk's interior entered a countdown. Ten breaths would be enough to gather the power of this destructive attack into the red ball in the middle, and it would erupt from the red ball.

At that time, the power it would produce could not be described with words. Even at the weakest level, it would definitely not be inferior to the sky sacred ship's law cannons.

“One Breath!”

Weng Weng --

After the energy was gathered, hundreds of world destruction cannons started to vibrate.

They were going to shoot and break the reverse current!

However, at the last moment, Su Yu gave an order indifferently, “Target, lower left 30 degrees!”

Wait! Eternal night, first snow, and the others had stiff expressions. weren't they going to break the reverse current?

What was the purpose of the lower left 30 degrees?

They were all in a state of great confusion and confusion. Only Bi Wanqing immediately pinched her fingers. At the same time, her purple eyes shone with a bright light. Immediately after, her pretty face changed drastically. “How could it be? I actually saw... a redwood woman?”

HM? The other three immediately looked in that direction.

They saw that the originally empty area actually had a faint image of a dreamy redwood woman.

The endless stream of water bombarded her body, but it was easily pushed aside, not suppressing her in the slightest.

At this moment, a woman who was hiding at the side appeared! !

Not to mention them, any emperor of the dynasty would probably break out in cold sweat.

She had been hidden nearby without a sound, yet she was completely unaware of it!

This was especially so in such a dangerous and unpredictable place, which made it even more bizarre!

However, what was even more strange was that when they saw the woman's face, they were all shocked.

The Saintess was the most shocked. Her beautiful eyes widened as she said in disbelief, "Sister... Sister Cai Lin? Aren't you in the forbidden ground of Ten Thousand Devils? Why are you here?"

The others were also in a state of endless confusion and shock.

When Su Yu left, he only took the four of them. Cai Lin... she actually waited here in advance?

Moreover, at this moment, Cai Lin's entire body was indescribably strange.

Compared to his usual silence, the faint smile on the corner of Cai Lin's mouth was completely different from his original appearance!

Cai Lin smiled, his smile indifferent as if he was Chen. "I'm also a member of the Star River Divine Territory. Is there a problem if I want to go back?"

The Holy Maiden was speechless. For a moment, she did not know where to begin.

The others were also shocked by this strange scene and were somewhat at a loss.

Only Su Yu's eyes were filled with fear. "It's fine if Cai Lin goes back, but it's really hard for me to feel at ease if you go back with us!"

HMM? ! Everyone's pupils constricted.

If she was not Cai Lin, then who was she?

Cai Lin said sweetly, "Su Yu, could it be that you're still jealous of me for helping the Devil World in the past? Now that I've changed my mind and stood on the same side as you, is this really good for me?"

Su Yu said lightly, "I don't remember standing on the same side as you, Mistress red-dust! !"

What? Everyone was shocked!

Especially the SAINTESS, her face was full of shock.

Eternal Night Wuheng and the others might not know mistress red-dust, but how could the Saintess not know?

In the forbidden land of the red dust, there was an extremely mysterious woman!

The saintess said, "Brother Su, you're mistaken. When did Cai Lin become mistress red-dust?"

Su Yu's gaze was fixed on Cai Lin the entire time. He said in a deep voice, "A long time ago. If my guess is correct, she must have controlled Cai Lin when you, Cai Lin, and Zeng Lin were unable to extricate themselves from the Dream!"

"The current Cai Lin should still be in some kind of dream, and her body is being controlled by mistress red-dust through the dream."

The SAINTESS was stunned when she received such a response.

Others might not believe it, but she had to believe it.

Because before exiting the dream, Mistress red-dust had indeed appeared and made an agreement with her!

The fact that Cai Lin was being controlled by mistress red-dust was not groundless!

“Hehe...” suddenly, Cai Lin lightly covered her red lips, she giggled, “What an interesting fellow. I originally thought that you were just a little smarter than ordinary people, but I didn’t expect that I underestimated you! mm, that’s right, I am mistress red-dust!”

As he finished speaking, his body began to emit a pink mist, as if he was in a dream.

“The power of red-dust!” The SAINTESS exclaimed.

She was mistress red-dust without a doubt!

“How do you know? I thought you hid it well.” Mistress Red-dust asked with a smile.

Su Yu said indifferently, “You hid it well indeed. You also obtained Cai Lin’s memories. There aren’t many flaws. The only flaw is that you only obtained her memories, but you didn’t obtain the feelings she should have!”

“Oh? Where do you start from?” Mistress Red Dust asked.

Su Yu said, “Do you remember what kind of expression you had when the six paths demon god was captured? There was no expression!”

Everyone listened quietly. Now that they thought about it carefully, Cai Lin seemed to have hidden herself in the crowd at that time and wasn’t noticed by them.

They didn’t expect Su Yu to be as meticulous as dust and capture her expression.

“If it was the real Cai Lin, facing the strongest devil god of the Devil Realm in the past, she would either be sad about her encounter or be relieved easily. She would no longer be worried about this disaster. She would definitely not be expressionless!” Su Yu narrowed her eyes and said, “At that time, I was only surprised. Your performance was a little too strange.”

“Until we decided to return to the galaxy divine territory, you actually did not show anything!” Su Yu shook her head. “This was too strange for Cai Lin. After all, she came from the galaxy divine territory. She definitely would not have no intention of returning home.”

“At that time, I suspected that you might not be just a little strange, but that you were possessed.” Su Yu said, “I have observed you in secret, but unfortunately, I could not see through the traces of you being possessed. I have been wondering if my guess was wrong.”

“It was not until an old friend of mine gave me a dream to my beloved wife that I suddenly woke up. Occupying a person’s body does not necessarily require the possession of a soul. For a certain special existence, there is another method,

and that is the dream realm! “And the ability of the dream realm to control a person’s body has only been recorded in history. There is only one person, the mysterious woman in the Forbidden Land of the mortal world, Mistress red-dust! !”

Upon hearing this, everyone suddenly came to a realization. For a moment, they could not help but be alert.

They had actually accompanied mistress red-dust for several years without knowing it at all!

Mistress red-dust said sweetly, “So, even though you know that I am mistress red-dust, you still do not dare to expose my identity in case I do something unfavorable?”

Su Yu nodded and said, “I thought that by keeping you under the eyes of the creator Dragon, you would restrain yourself. I didn’t expect that your ultimate goal was to follow us into the Galaxy Divine Realm!”

Mistress red-dust smiled and asked in return, “You’re saying that the other end of this passage is actually the galaxy divine realm? A part of the ancient nine dragons divine realm in the past?”

Eh? Su Yu frowned slightly. It seemed that mistress red-dust didn’t just know where the other end of the endless source was.

After thinking for a moment..., su Yu said, “That’s right. If my deduction is correct, after the ancient nine dragons divine realm was destroyed, it should have fallen into the lost country, causing a part of the divine realm to fall into the lost country, becoming the lost divine realm. The other part was outside the lost country, becoming the Galaxy Divine Realm.”

This was the deduction that Su Yu had thought about for many years. It was impossible to record it in any history.

Mistress Red dust nodded, she confirmed Su Yu’s thoughts. “You’re very smart. It’s not much different from the truth. A part of the nine dragons ancient divine realm did fall into the lost kingdom because of an accident... However, there’s one thing that you’re wrong about. The Lost Kingdom isn’t an object, but... a living creature! !”

What? Such a horrifying explanation was like a clap of thunder in their ears.

The lost country that they had lived in for hundreds of millions of years was actually a living creature?

Su Yu recalled that the evil God had said that after the nine dragons ancient divine realm was destroyed, an enormous black shadow streaked across the sky above the divine realm.

Then, a part of the divine realm disappeared!

“It was that creature that swallowed this part of the divine realm. Originally, it intended to swallow all the divine realms, but unfortunately, Hehe, it seemed to have undergone some unexpected change. Before it could swallow the other part, it died.” Mistress Red Dust looked at the deepest part of the falling water column, she said slowly, “That gap is where it devours the divine realm.”

The saintess asked curiously, “Could that be its mouth? Could this passage be... its neck?”

Mistress red-dust looked at her with a deeper meaning, she said with a chuckle, "Then we don't know. Such a huge creature has long surpassed the limits of the Great Dao's laws. God knows what it is. Its body structure is different from that of ordinary creatures. It's nothing out of the ordinary."

They were all engrossed in listening. Su Yu was also suddenly enlightened. He had obtained many secrets that he had never known before.

However, he did not let down his guard. He said indifferently, "You have said so much. Don't tell me you hope that we will bring you to the Galaxy Divine Realm?"

The hundred apocalyptic cannons seemed to have received an order. Beams of destructive light fluctuated and could be fired at any time.

But..., mistress Red dust shook her head. "I thought it was the outside world, but who knew it was a fallen world worse than the lost country. I'm too lazy to go! "I'm talking to you because I want you to understand me. Actually, I'm not as bad as you think!"

"Look, that stupid dragon hides everything and doesn't tell you anything. How Good Am I? I'll answer all your questions! So, I think we can actually be friends."Mistress Red Dust said with a smile.

Su Yu's pupils contracted slightly. He had once asked about the lost kingdom of the creator Dragon. The other party had told Su Yu that unless he learned something, he would not answer for Su Yu.

Only the two of them knew about this matter. Mistress red-dust was actually able to find out!

"Don't be surprised. That stupid dragon can also sleep. When it sleeps, it will dream. And the Dream is my world. It is very common to know a little about him. For example, that stupid dragon definitely did not tell you that he stole the 'Dragon Abyss Treasure Scroll'. If someone cultivates it, it will be very easy for those old dragons in the outside world to find them."Mistress red-dust gloated.

Chapter 1479 Seven Years Of Waiting (Third Watch)

Su Yu's heart skipped a beat!

As expected! He had long felt that the creator Dragon would definitely hide something if it had given him this item to cultivate.

Su Yu asked, "Then can you tell me why the Lost Kingdom has imprisoned so many mighty figures of Heaven and earth?"

Mistress Red dust smiled charmingly and said, "There is one thing that that stupid dragon said that is not wrong. Telling You is useless. At least now we know that it is harmful to you and not beneficial!"

"However, I can tell you that the lost kingdom is about to open soon. The three forbidden lands are restless, including the aunt in the Shura forbidden land and that stupid dragon. What are they planning? Also, there's the evil daughter who was suppressed billions of years ago. She seems to be coming out of seclusion! "In short, the lost kingdom will soon fall into great trouble. You have to be careful."

After saying this, mistress red-dust slowly flew down and said with a smile, "That's all I have to say. I wish you good luck!"

Everyone stared at her departing figure warily.

What did mistress red-dust mean by the outside world? She believed what Su Yu said so easily and did not go to the galaxy divine realm to take a look?

Under everyone's gaze, she retreated back to the bottom of the water with a smile.

Just as she was about to leave, a sudden change occurred!

The nine-headed alien God, who was currently in a deep sleep, had unknowingly opened its nine pairs of savage and Savage blood-red eyes.

Mistress Red-dust had no idea at all that she had landed in front of him.

When she sensed the savage aura coming from behind her, she turned around and helplessly shrugged. "How unlucky. I'm finished. I wish all of You Good Luck..."

Before his voice could fade away, a huge, ferocious head had swallowed him whole.

This sudden scene shocked them greatly.

Didn't they say that the nine-headed God had been asleep for three days? Why did he wake up in just two days without any warning?

Before he could blame the green pearl, Su Yu's expression also changed greatly. he shouted, "Turn around and Pierce through the current. Quick!"

Rumble --

More than a hundred world annihilation cannons gathered their energy towards the red pearl in the middle.

Meanwhile, the nine alien gods at the bottom of the water sensed their presence. Their nine heads stared upwards, their cold and merciless eyes locked onto them.

Everyone's body stiffened. In front of such a terrifying creature, they actually felt as if they were at the bottom of the food chain.

It was as if the other party was at the top of the food chain, a high-level creature that was devouring them.

Boom --

At this moment, they prevented the doomsday disk from launching its strongest attack.

The red bead was filled with energy and exploded with an extreme red light. It suddenly pierced through the water flow above them and knocked the endless water flow back!

The falling waterfall rolled back and formed a vacuum tunnel.

"Let's Go!" Su Yu put away the doomsday disk and immediately used the Taiji Yin-yang wings to wrap everyone in the reversed yin-yang qi and instantly teleported hundreds of millions of miles away!

In the blink of an eye, they had crossed more than half of the passage. They even caught up with the speed of the energy beam and followed closely.

Standing here, they could already see the gap above their heads. A clear starlight world sprinkled with a dazzling starlight that had never been seen in the lost nation appeared before their eyes!

Eternal night, first snow, and the others were stunned. Confused and curious, was that the Galaxy Divine Realm, an ancient divine realm aristocratic family filled with stars?

And as Su Yu felt the aura that he had not felt for a long time, his heart was filled with a myriad of emotions.

In his mind, the image of Xia Jingyu waving at him appeared.

He was back!

After seven years, he had finally returned to the Galaxy Divine Realm!

But right at this moment, a violent force suddenly locked onto them.

Looking down, everyone was shocked!

The nine-headed God had actually caught up!

It was less than ten million Zhang away from them!

"Quick, get out!" Su Yu was shocked. He immediately led everyone to charge into the final passage.

Hua Hua Hua Hua --

The five figures were like a dream, leaving behind a blurry afterimage that stretched for millions of Zhang. They rushed towards the gap at the extreme.

However, the nine different gods were faster than them, and they quickly shortened the distance between them.

Their ferocious blood-red eyes and terrifying heads seemed to want to swallow the five of them whole!

At this moment, the energy beam pierced through the passage and left the Heaven Lake.

After a short period of drying up, the Heaven Lake was once again filled with the Endless River of stars.

The vast amount of river of stars once again tilted towards the passage.

Su Yu's expression changed slightly when he saw this. The tunnel was longer than expected. If he did not rush out, he would definitely be pushed back by the current!

"This is the last chance, Rush out!" Su Yu roared, "Innate yin-yang style!"

A huge yin-yang pattern appeared above their heads. After the endless flow of water entered it, it was transferred out from the other end.

However, this was only a temporary measure. After ten consecutive transfers, the Taiji pattern could not withstand the pressure of the torrent and immediately shattered.

Seeing that it was about to be washed down, su yu shouted, "Six paths of Heavenly Connection!"

Six blood-red eyes appeared behind him and shot out six pitch-black light pillars, blasting the water pillars that were pouring down into nothingness.

However, how much water was there in the galaxy? There was no end to it!

After they rushed out for three thousand feet, the endless water of the galaxy fell again.

Su Yu's expression changed drastically and he shouted in a low voice, "Limitless battle intent!"

The boundless battle intent condensed into a peerless divine weapon and broke through the counter-current!

The more they suppressed it, the stronger the battle intent became. In the end, the battle intent was so terrifying that it broke through this space and countless streams of water were sucked into the void.

However, the stellar water was too huge. In the end, the battle intent divine weapon could only contend against the rushing water and could not take another step forward.

Su Yu gritted his teeth and shouted, "6,000 Divine Dao! !"

In the past five years, he had also comprehended a lot of the Divine Dao in the tomb of myriad gods, reaching the level of 6,000 Divine Dao.

Immediately, the 6,000 divine images that were 3,000 feet tall lifted the majestic water up to a height of 3,000 feet.

Su Yu and the others were able to move forward another 3,000 feet!

However, they were still 3,000 feet away from the gap and could not move forward at all.

They watched as the water crashed down and washed them all down.

At this moment, the first snowfall of the eternal night was endless. Luo xueyi and Bi Wanqing also erupted with unprecedented strength.

The three great creator Dragons' divine abilities and the witchcraft passed down by the full moon cult master over the generations were fused into a peerless force. They suddenly attacked the stream of water and knocked the water pillar back by five thousand feet!

Su Yu and the others took advantage of the situation to move forward.

However, they had to stop here. They had no time to open the last five thousand feet.

Was this the end? Su Yu's eyes were filled with unwillingness, but his body was covered in blood. His exhausted body had no more strength to break through the final 5000 feet!

Below them were nine different gods. Once they fell into them, they would die without a burial ground!

Right at this moment, a long, thick branch suddenly flew down from the gap above them.

The branch forcefully coiled around Su Yu and the other three. Then, against the current, it quickly pulled them out of the passage.

Bang

They were like fish that had been caught. They were thrown out of the water.

And the moment they leaped out of the water, the enormous heavenly lake was finally filled with the boundless water of the galaxy.

One could vaguely hear the sound of nine different gods being smashed down from the passage.

Su Yu was in midair, breathing in the long-lost air. It was hard for him to calm down. It was as if a pair of wings had grown on his back, and he wanted nothing more than to fly to find Xia Jingyu.

It was not until a very familiar joke fell into his ears.

"Sigh, after seven years of fishing, I never thought that I would be able to fish up a few creatures!"

Everyone turned around and saw that it was a towering giant tree. Its entire body was bronze in color, and its branches and leaves were luxuriant.

It was precisely the branches and vines of the giant tree that had entangled them that allowed them to escape.

"As the saying goes, a drop of kindness should be repaid with a gushing spring. Today, I saved all of you, and I don't want a hundred of your lives. Just pay with your flesh. The woman will warm my bed, and the man will warm my feet."

Eternal Night First Snow's face turned red, and she spat lightly, "Is this the tree god? How despicable!"

Luo Xueyi's expression was slightly unnatural as well. Her eyes widened, and she glared angrily at the god of calligraphy.

Eternal night endless was somewhat speechless. This tree was strange, could it be that it was the tree God who had gone crazy during cultivation?

Only Bi Wanqing was startled. Her emotions were moved, and she muttered, "It's been seven years. Things have changed, but people have changed. She's the only one who's still waiting on the spot."

"HMPH, if anyone disobeys, I'll sell you immediately. I've been very short of money recently!" The tree God said proudly.

Sha La la --

A light sound of falling leaves floated over the tree God's head.

It was Su Yu who flew over and approached the crown of the tree. His expression was indescribably moved. "Thank you, Tree God."

Seven years ago, he was accidentally dragged into the Heavenly River.

Seven years later, she was still waiting by the lake.

How could Su Yu not understand this love? How could she not understand?

In fact, he could even feel that the tree god was so excited at this moment that he needed to use absurd words to cover up his feelings.

She wanted to use her past attitude to cover up her current self.

But, could that be covered up?

Seven years of waiting without any regrets. When everyone left and everyone felt that Su Yu was hopeless, only she was still waiting silently.

Although the world was big, who would be willing to wait quietly for seven years in the cold wind and rain, in the quiet time, under the dim hope?

Other than Xia Jingyu, other than Xian 'er, was there anyone else?

Only the tree God, who only had money in her heart, was the person who waited for Su Yu the most.

The ancient tong tree lightly trembled. The huge crown of the tree could not be suppressed and rustled, falling leaves one after another.

The top of the tree was covered in dust, and it was covered with traces of wind, Frost, rain, and snow. It was also covered with the sadness that a woman was hiding.

The fluctuations of emotions caused the tree God to be unable to maintain its form.

Green light filled the air as it condensed into a human form.

A noble and elegant young lady dressed in green clothes stood tall and graceful.

Her elegant temperament and slender body gave off a natural beauty.

Eternal night, first snow, and the others were dumbfounded. They couldn't connect the woman in front of them to the tree God who was full of vulgarities.

At this moment, the tree god lowered his head and didn't look at Su Yu.

However, his slightly trembling body showed that he was excited.

“I’m back,” Su Yu said softly.

The tree God still didn’t raise his head, but drops of moisture dripped down in front of his feet.

With a sobbing tone, she stammered, “Who knows you?”

Su Yu smiled and gently pulled her into his embrace. He whispered in her ear, “Thank you.”

The tree God’s body stiffened as if it had been electrocuted. Her beautiful eyes widened in disbelief as she trembled, “You... you... What are you doing?”

She clearly had infinite strength to push Su Yu away, but it was as if she had been possessed and could not move at all.

Chapter 1480 The Mysterious Bracelet (Fourth Watch)

The sudden hug turned the usually carefree tree god into a little girl who had just started to fall in love. She was at a loss.

Seven years, a hug.

To her, it was a luxury, but to Su Yu, it was just an action.

She let go of the tree god and her pink face turned red. She wanted to say something, but she hesitated and couldn’t say anything.

Su Yu said, “Without you, we wouldn’t have been able to come back.”

If she hadn’t waited for seven years, who would have pulled them up at the last moment?

Su Yu silently accepted the heaviness of the wait. That Hug was a promise.

Eternal Night’s first snow and Luo xueyi stared at each other. They were both jealous and envious.

Could this tree God be Su Yu’s... woman?

But the other party’s expression did not look like it!

The two women who had never seen eye-to-eye could not help but look at each other. A hint of tacit understanding was formed between them.

Since they had come to Su Yu’s hometown and the number of love rivals was unknown, they still had to unite with each other!

After a long time, the tree God recovered from the unexpected embrace. He pulled a long face and said, “You... you bastard! You took advantage of me the moment you came back. I, I don’t want to live anymore!”

Even though he said that, only she knew how sweet he felt.

Su Yu was about to say something when he suddenly frowned and looked at the lake.

The lake returned to its usual calm and nothing unusual happened.

However, his intuition had always been sharp. He said, “Everyone, step back. Something doesn’t seem right.”

Everyone was surprised, but surprisingly, they listened to Su Yu's arrangement and left the lake.

They stared at the lake with their eyes wide open, but after a long time, there was no movement.

The tree god patted his newly-formed chest and complained, "There's no need to scare me like this. Haven't I been scared enough today?"

First, Su Yu came back alive, and then another hug. This made the tree god extremely nervous.

But as soon as he finished speaking, a huge bubble suddenly appeared on the lake!

The tree god was stunned, and then her expression became serious. "Something's wrong! I've been by the lake for seven years, and I've never seen a bubble before. There's something in the lake!"

Bang --

Before she could finish her sentence, a huge wave suddenly exploded on the lake!

A tyrannical and peerless fierce aura soared into the sky!

Bang --

Then, a loud sound that shook the galaxy suddenly exploded!

A huge pitch-black claw that was a million feet long appeared from the bottom of the lake and hooked tightly onto the shore of the lake.

Then, as more and more bubbles appeared, nine extremely huge heads drilled out from the water.

The water splashing out was ten million feet tall.

The water flowing into the heavenly lake even went against the current, colliding with waves and creating waves that stretched for billions of miles.

Roar --

The nine heads let out a fierce roar that pierced through the galaxy, the Devil Realm, the former Western Alliance, and the Eastern Alliance!

The tree god was stunned. "What... What is this thing?"

That terrifying aura made her feel like she was at the bottom of the food chain in front of it.

Pound --

The other claw of the nine-headed God landed on the lakeside. Its enormous body was even bigger than the heavenly lake.

It struggled to get out of the lake.

Su Yu and the others watched in astonishment.

If this nine-headed God intruded into the galaxy divine realm, what would happen?

He alone was not enough to fill the gaps between his teeth!

"Take advantage of the fact that he hasn't come out yet! Quickly blast him down!" Su Yu said, taking the lead to activate his yin-yang innate technique.

As he used this technique, he saw the water of the galaxy in the distance being sent over through the Taiji diagram, pouring into the lake.

The powerful current caused the nine-headed God's body to sink slightly.

But with a powerful hook of its claws, it regained its stability and forcefully crawled out against the current.

When eternal night saw this, he immediately made his move. "Flying Dragon in the sky!"

How could the others dare to let this terrifying creature climb up? They all made their moves!

"Dragon Emperor Heavenly Voice!"

"A dream is like a thousand years!"

"Soul extinguishing lifeless curse!"

The five of them worked together and exploded with unparalleled combat strength, causing the galaxy to churn endlessly.

The enormous aura suppressed the tree god to the point that he was unable to breathe. He was indescribably shocked. The group of people that Su Yu brought back was actually so powerful?

However, the scales of the nine different gods were terrifyingly sturdy. When the divine abilities of the three great dragons struck their bodies, countless sparks flew out.

What was even stranger was that a small portion of the power was inexplicably devoured!

Roar --

The nine different gods once again let out a heaven-shaking roar. This time, the roar contained a great divine might.

Eternal Night Wuheng and the other three trembled violently. Their divine abilities were forcefully interrupted, and they suffered a backlash. They spat out a mouthful of blood.

Su Yu did not say another word. He summoned the replica World Annihilation Disc!

"World Annihilation Cannon, activate!"

Ten breaths! Nine breaths! Eight breaths!

The World Annihilation Board had entered its countdown to attack!

Taking advantage of this period of time, Su Yu waved his hand again and took out the sky sacred warship!

"Extermination cannon, Fire!"

The might of the extermination cannon was slightly inferior to the world annihilation cannon, but its advantage was that it was extremely fast when it was fully charged up.

In a short span of three breaths, a hundred extermination cannons were fully charged up and fired.

With a loud boom that shook the heavens and earth, the nine gods stuck in the lake received a vicious blow.

However, the shocking thing was that the pitch-black scales deflected most of the energy.

Their bodies only sank downwards without any substantial damage!

Everyone was shocked. The combined power of more than a hundred extermination cannons was something that even a first sky god might not be able to withstand.

This nine-headed god was simply too terrifying!

Fortunately, the Doomsday Board was ready. It immediately gathered all of its energy onto the Red Pearl and unleashed an earth-shattering attack.

The aftermath of this attack from back then had even pierced through the first sky sea of bitterness giant.

Now, with its full power, this nine-headed God's scales would be blasted to death no matter how hard they were!

As expected, as if they felt threatened, the nine-headed God struggled even more violently and roared repeatedly.

The roars shook the galaxy, and even the world-destroying disk was on the verge of collapse.

The more it was like this, the stronger Su Yu's killing intent grew.

He absolutely could not let him come up!

"Fire!"

With an order, a red pillar of light shot out.

This shot had trapped the nine-headed God in the lake. There was no way to retreat, no way to dodge, and they were doomed!

However, an unimaginable scene appeared.

The nine heads of the nine of them actually merged into one at the critical moment!

A ferocious head that Su Yu was extremely familiar with appeared before his eyes.

It was a face that was twisted and vicious. It was greedy and Savage. A pair of pitch-black eyes shone with an incomparably greedy light, as if they wanted to devour everything in the world.

That pair of eyes stared at Su Yu, and the greed in their eyes grew stronger.

It was as if Su Yu's body was emitting a temptation that it could not resist.

And between Su Yu's brows, the eye of Taotie that was embedded within felt a strong sense. It actually woke up from its deep sleep with a bang and suddenly opened.

Su Yu's expression changed greatly, and he said in a serious voice, "Taotie! !"

That enormous head was not another creature, but a Taotie! !

The rumored nine-headed alien God was actually a living taotie!

Such a shocking fact caught Su Yu off guard.

Following that, Eternal Night Impermanence and the others recognized the origin of this beast one after another, and they were extremely shocked.

“A greedy beast that swallows the sky and spits the Earth, Taotie?” Everyone’s chest seemed to be blocked by something, and they couldn’t even breathe.

According to the rumors, it was a savage and fierce beast that had an endless lifespan and could devour everything!

Weng --

A red pillar of light shot out!

However, Tao tie’s eyes only emitted a pitch-black light, forming a pair of black vortexes that devoured the destructive power completely!

Everyone was shocked. Such a powerful attack was... devoured just like that?

Nine mutated beasts, no... it was Tao tie. Its eyes revealed a anthropomorphic cruelty and greed as it stared at Su Yu.

A shocking suction force wrapped around Su Yu, wanting to swallow him up.

Su Yu remembered that Yun Yazhi had once said that taoties liked to devour each other.

If he ever met a taotie, he would definitely be pursued endlessly by the Taotie.

Now, he had truly met a taotie.

Being wrapped up by this force, Su Yu’s divine power was sealed, unable to resist!

Seeing that he was about to be devoured, Eternal Night Wuheng and the others launched their attacks, but all of their moves were devoured, and they couldn’t do anything to this taotie.

At this critical moment, Su Yu had an idea and took out a snow-white piece of paper.

It was a letter with the words of the Heavenly Book of the nine dragons ancient god.

Su Yu tossed it over and covered the Taotie’s eyes.

This pair of eyes that could devour everything was actually unable to devour a small piece of paper, and it really was covered.

Taking advantage of this opportunity, Su Yu successfully escaped and retreated frantically.

Roar --

It was as if Taotie did not expect that its eyes would actually be blocked. It angrily grabbed the letter and glared at Su Yu once again.

Another devouring power erupted and wrapped around Su Yu.

Su Yu snorted coldly. The eye of Taotie between his brows suddenly revolved and also erupted with a powerful devouring power.

The two devouring powers collided in the air and formed a pitch-black gigantic whirlpool that devoured everything around it.

The Endless River of stars was sucked into it, disappearing without a trace.

“Not good, let’s Go!” Eternal Night Infinity saw that the situation was not good, and he roared, leading everyone to retreat billions of miles.

Even though they saw the situation over there, the terrifying devouring vortex still existed.

The two eyes of Taotie crossed countless dimensions, converging here!

Su Yu finally understood why the nine-headed God had suddenly awakened.

It wasn’t that the Green Pearl’s calculations and experience had been wrong. It was just that when he passed by the nine-headed God, the eyes of Taotie had sensed each other.

Now that the eyes of Taotie had collided, Su Yu’s devouring power was obviously inferior to the real taotie.

The black vortex continued to move toward Su Yu, wanting to devour him.

Seeing that the situation was becoming more and more dangerous, Su Yu’s sleeve suddenly heated up.

A ring flew out on its own. It was a gift given to Su Yu before he had no intention to leave.

It was an ancestral treasure that he had received from a warrior. It was said to be a civilized weapon. However, the Yong Ye siblings, who were members of the royal family, had never seen it before.

At this moment, the ring flew out on its own. The surface of the ancient ring cracked on its own. The bronze rust on the surface of its body peeled off, revealing its true appearance under the bronze.

It was actually a jade bracelet!

As soon as the bracelet appeared, the Taotie revealed a look of fear.

It retracted its gaze and immediately dived into the lake.

This scene surprised Su Yu. He closed the eyes of Taotie and examined the jade bracelet. He discovered that there was nothing special about the bracelet. Other than the halo that was emitting a weak defense, there was nothing else that could be said to be powerful.

However, Taotie was so afraid!
