

Nine-Dragon 1611

Chapter 1611 Mutual Suspicion

In the Beast Carriage, everyone was extremely excited.

Just as Su Yu had expected, there were even more spiritual objects in front of them.

“Brother Xue Yu, look, I found 101 stalks of Starlight Grass!” Xue Lin’s face was red as he said excitedly, “The Xue family doesn’t need to hand it in for a whole year!”

Xue Xin rolled her eyes at him. “If you have the ability to hide it from the people of the Sword Pavilion, then we’ll talk.”

Xue Lin scratched his head and said, “I almost forgot. We can only get 20% .”

He placed 20% into Jian Xuan’s specially made storage ring. It was a small khaki sword.

The space inside was not too big. The items that could be stored inside did not exceed 1,000 cubic meters.

This was because Jian Xuan had deliberately restricted them and collected too many resources.

Jian Xuan had to take precautions against the island forces.

Xue Xin also took out nearly a hundred stalks of starlight grass and reluctantly put them into her sword-shaped storage ring.

The others’ harvest wasn’t small either. Just the starlight grass alone had more than 300 stalks.

According to the 20% ratio, there were more than 60 stalks.

“Next year’s starlight grass mission will be much easier.” Xue Changzhi stroked his beard happily, his face glowing red.

The others all revealed happy smiles.

“Let out a sigh of relief. This year, Xue Lei, that vile creature, destroyed the starlight grass and brought about a near-devastating blow to our Xue family. Now, we can finally relax.” Xue Lin clenched his fist and cursed.

In the dark, Xue Lei, who was holding a small transparent sword, glared at them. However, on second thought, not only did he put away the small sword in his hand, the corners of his mouth curled up into a sinister smile.

He secretly sneered and revealed a teasing look. “Hehe, you’re really my good clansmen. You still can’t forget about me. In that case, I’ll let you taste the taste of despair again!”

He did not plan to let them off easily and assassinate them one by one. Instead, he planned to give them an even bigger surprise.

As night fell, Su Yu said, “Stop and rest.”

Xue Lin and Xue Xin had gained a lot during the day, reluctant to part, Su Yu said, “Ten million miles ahead is a place that is recorded to be rich in production. Any Island will go to pick it. It was

not easy for us to get ahead of them. Why do we have to stop? Isn't it better to rush over in one go?"

Shaking his head, Su Yu said, "According to the records, don't act rashly during the night in the Ten Thousand Dragon Cave."

"Xue Lin, listen to Xue Yu!" Xue Changzhi said sternly, "Xue Yu is right. The Ten Thousand Dragon Cave is different from the outside world. Every night is the most dangerous time."

"Back then, the Ten Thousand Dragon Cave had buried countless divine dragons. The dragon souls gathered here, and once they came out at night, they would move about. Over the years, the dragon souls have taken them away. I don't know how many creatures have gone missing," Xue Changzhi said solemnly.

He was the only person who had participated in the Ten Thousand Dragon Cave many times. His understanding of this place was far better than others.

Only then did Xue Lin stick out his tongue and hide in the corner of the Beast Carriage.

Su Yu and Xue Changzhi got off the carriage and set up a restriction around the beast carriage to prevent unknown enemies from invading.

The next morning, a sharp scream broke the silence in the beast carriage.

Cold sweat dripped down Xue Lin's forehead as he said in panic, "My storage ring is missing!"

Everyone was startled awake and their expressions changed drastically.

The loss of a storage ring was no small matter.

When the exploration ended, the storage ring would be retrieved by the Jian Xuan.

If a storage ring was lost, he would only need to explain. With Jian Xuan's way of doing things, he would not listen to him at all.

Not only would the person who lost the storage ring have to undergo a soul search, all the people accompanying him would have to undergo a soul search to ensure that the storage ring was not hidden.

Who did not have their own secrets? Once their soul was searched, the consequences could be imagined.

Furthermore, if a storage ring was lost, half of the resources obtained by the team would be deducted as punishment.

In other words, only 10% of the resources found could be obtained in the end!

Xue Changzhi realized the seriousness of the situation and shouted, "It's useless to take an extra storage ring. If one of you took it, hand it over now and I can pretend that I don't know!"

He glanced over and no one showed any strange expressions.

Xue changzhi shouted, "The beast carriage didn't open for a night and no one came in or out. The missing storage ring must be the work of one of you! "If you don't hand it over, Don't blame me for searching you one by one. If I find it by then, I won't be able to get past you so easily!"!

However, everyone still looked the same. They looked around with suspicion in their eyes and kept their distance from each other.

The intention of being on guard could not be more intense.

"Uncle Xue, don't make a hasty conclusion." Su Yu said, "With the Xue family's current situation, I don't believe that there is someone who doesn't know what's good for the Xue family and will harm the Xue family."

He looked at Xue Lin and said, "Think about it again. Did you leave it somewhere when you were looking for the starlight grass today?"

Xue Lin shook his head with certainty. "Absolutely not. I clearly kept it in my arms."

"Are you sure?" Su Yu stared at him.

When Xue Lin met Su Yu's gaze, he couldn't help but feel guilty. He muttered, "Could it be that I remembered wrongly?"

He originally lacked confidence, but after being interrogated by Su Yu, he immediately lost his confidence.

"Everyone, split up and search." Su Yu ordered without hesitation.

Xue Changzhi said, "Everyone? What about the Beast Carriage?"

"Hold onto it. If the storage ring fell on the way, it would be difficult to find it in the Beast Carriage." Su Yu said.

Everyone thought about it. Although it was troublesome, they could only hold onto the Beast Carriage and head back.

Xue changzhi frowned and said, "Our Xue family has been viewed with enmity by many factions. The Beast carriage is the key to our escape. We can not afford to lose it. Let me lead it."

His cultivation base was the highest among everyone. With him leading the beast carriage, anyone who wanted to take it away from him would have to think twice.

No one had any objections.

The consequences of losing the beast carriage would be hard to bear.

If they were to encounter the divine feathers clan, with the strength of both sides, they would probably be wiped out and die here.

"Alright, let's not delay any longer. Let's set off immediately," Su Yu said as he led the group back.

The group split up and looked around for the lost storage rings.

After half a day, when they found a valley, the worst-case scenario that they had expected happened!

The shouts around the valley shook the sky, and ten powerful auras rushed out.

When they fixed their eyes, they saw that it was the sixth-ranked sea flood dragon clan on the island.

“Hehe, look what prey we have been waiting for.” The leader was an elder of the sea flood dragon clan, and he sneered.

The rest of the sea flood dragon clan looked carefully and couldn’t help but laugh, “Isn’t this the Xue clan that has been riding on a horse in the dust? Why, are they back again?”

“Humph, Humph, you were so arrogant when you entered the ruins. Now, let our sea flood dragon clan experience it!” The sea flood dragon elder sneered and gave a look. The ten people flew down from the valley and surrounded them.

Xue Changzhi’s expression changed and he said, “Everyone, get on the beast carriage immediately!”

If they fought head-on, the Xue clan was completely no match for them.

Only the beast carriage could rush in and break through their encirclement.

Thinking of this, Xue Changzhi could not help but feel fortunate that the clan leader had spent such a huge price to prepare this beast chariots.

Otherwise, they would have really died here.

Hearing this, the Xue clan members immediately gathered towards the beast chariots and prepared to use them to escape.

However, at this moment, an unexpected thing happened.

Chapter 1612 Heavenly Mystery Blood Talisman

An invisible transparent small sword flew out from the Beast Carriage and stabbed into Xue Changzhi, who was holding the beast carriage.

Su Yu seemed to have sensed it in advance. He flew over and pulled Xue Changzhi away.

Chi --

The transparent small sword brushed past Xue Changzhi’s shoulder, leaving a long bloody scar.

“Hahaha!” Wild laughter came from inside the beast carriage. “My Xue Clansmen! They have disappeared for a long time!”

A transparent figure rushed out of the Beast Carriage and rode on a ferocious beast.

The many Xue clansmen were shocked. When was there a person hiding in the beast carriage?

When they fixed their eyes on it, the Xue clansmen were all enraged. “Xue Lei! It’s you, you vile creature?”

No one had expected that Xue Lei, who they wished for nothing more than a thousand cuts, would actually hide in their beast carriage!

What they hated the most was that at the moment of their life and death, Xue Lei had snatched away the Beast Carriage and gave them a devastating blow.

Just like how he had destroyed the starlight grass, he had almost brought disaster to the Xue family.

“Hahaha, it's me!” Xue Lei revealed a look of hatred. “Don't you all hate me? Then I'll let you all go down and hate me!”

“Xue Lei! What exactly are you going to do to US before you're willing to let this go?” Xue Changzhi roared angrily. His eyes were about to split open, and he wished he could tear Xue Lei apart alive.

Xue Lei laughed out loud. “So? You guys kill Xue Yu immediately, and I'll consider leaving the beast carriage behind. I'll spare your worthless lives!”

“Xue Lei, if you still remember your surname, then it's still not too late to turn back now!” Xue Changzhi shouted.

What answered him was Xue Lei's unbridled laughter.

“Turn back? I, Xue Lei, have never been wrong. It's you bunch of ignorant people who are at fault!” Xue Lei threw his head back and laughed out loud. He slapped the Beast Carriage, and the vicious beast immediately pulled the carriage along, breaking through the encirclement line and disappearing into the horizon.

A wanton laughter reverberated in the sky for a long time.

“I'll come back later to collect your corpses!” With that, he rode the Beast Carriage and left.

At this moment, the sea flood dragon tribe pounced over with a savage smile. “Hehe, what a wonderful show. At the most important moment, your own people harmed you the most miserably. hahaha! The heavens are really going to destroy you!”

However, what surprised the sea flood dragon elder was that the plain-clothed youth in the lead took out a leaf-shaped spatial storage.

He took out a huge beast chariot from within.

In terms of size and grade, it was even higher than the previous Beast Chariot.

“Another emperor-grade beast chariot?” The Sea Flood Dragon Elder was stunned. “Why did you prepare two such high-grade Beast Chariots?”

Unless, the Xue Clan had expected to lose one from the start.

Or perhaps, one of them was meant to be sacrificed.

Su Yu jumped onto the beast carriage without a word and said to the stunned Xue clan members, "Why aren't you coming up?"

The Xue clan members, who were almost ready for a fierce battle, let out a wild cry and jumped onto the carriage.

When the sea flood dragon clan members pounced on them, the beast carriage had already started. Under the collision of the powerful fierce beasts, a young sea flood dragon clan member was directly knocked flying and then rushed out of the horizon, disappearing without a trace.

Inside the beast chariots, the Xue clan members who still had lingering fear were extremely excited.

Xue Changzhi asked in surprise, "Why did the clan leader give you two Emperor Class Beast Chariots?"

The others all looked at Su Yu. They were also curious.

With the financial resources of the Xue clan, they could barely prepare one emperor class beast chariots. Why would they spare no expense to prepare two?

Su Yu smiled and said, "To be precise, it was I who asked the clan leader to prepare them. The purpose was to solve some unnecessary troubles."

Before the ruins, Su Yu had received a letter from a sharp arrow warning him not to participate in the Ten Thousand Dragon Cave, or else his life would be in danger.

He didn't let his guard down and specially prepared two beast chariots.

The first beast chariots deliberately rampaged recklessly, attracting the attention of everyone, including the enemy.

His original intention was to have the first beast chariots draw the enemy away.

But now it seemed that his unintentional actions not only drew away the enemy, but also attracted a cancer that had been hidden for a long time!

Su Yu's eyes revealed a cold light, and he said coldly, "Let's go, let's give Xue Lei a surprise!"

The two beast chariots sensed each other, so it was not difficult for them to catch up to him!

Xue Changzhi's killing intent was extremely strong when he heard that. He gritted his teeth and said, "Don't make a move, I want to personally cut him into pieces!"

Speaking of which, Xue Lei snatched the Beast Chariots and rushed into the deserted wilderness in high spirits.

He slowly stopped and silently calculated the time. "With the difference in strength between the two clans, those trash from the Xue clan shouldn't be able to last more than six hours. When that time comes, I'll go back and collect their corpses. HMPH!"

Tuoba Lun had promised that if he could bring back Su Yu's head, he would give him the treatment of a quasi-clansman of the divine feathers clan.

To Xue Lei, that was a treatment that could only be obtained by chance!

Xiu Xiu Xiu --

Suddenly, Xue Lei's ears twitched. He stared at the dense desolate forest and shouted, "Who is it? Come out!"

The vegetation in the desolate forest swayed. No one answered him. The answer was an incomparably dense black arrow.

Each arrow was bound with a blood-red talisman.

At the sight of the talisman, Xue Lei's soul was scared out of his body. He took a deep breath and said, "Tian Xuan Blood Talisman?"

The so-called Tian Xuan Blood Talisman was one of the most advanced talismans in the Jian Xuan Sea area. It was extremely powerful.

Every one of them contained the full power attack of a stage two heavenly cave abode's World Paragon.

The thirty arrows were all bound to the Tian Xuan Blood Talisman. It was equivalent to the full power attack of thirty stage two Heavenly Cave Abode's World Paragons!

Xue Lei's strength was only a stage four heavenly cave abode's World Paragon. One Tian Xuan Blood Talisman was enough to smash him into pieces, let alone thirty?

All of a sudden, he realized that the target of these arrows could not be a mere fourth level heavenly cave abode's world paragon like him, but the Xue Family!

Judging from the Sea of Sky Mystic Blood Talismans that he prepared at all costs, he was prepared to wipe out the Xue family in one fell swoop, destroying all that was left of them!

Unfortunately, Xue Lei just happened to snatch the beast carriage away.

Those mysterious assassins mistakenly thought that the people inside the beast carriage were all from the Xue family and chose to kill!

After thinking through this point, Xue Lei's soul dispersed and he said in horror, "Wait, you killed the wrong person... Ah..."

After the sky-shaking explosion, the Beast Carriage and Xue Lei were blasted into pieces.

When the smoke and dust dispersed, several figures leaped out from the bushes.

The leader was Li Jun, the number two heaven's favorite of the current generation of the Li family, Li Jun!

Behind him were the candidates for this time's participation in the ruins of the Ten Thousand Dragon Cave. Except for Li Yue, the others were all present.

"Hu!" Li Jun looked at the devastation and let out a long breath. "We've finally killed them!"

An elder revealed a puzzled look and said, "I seem to have heard that we killed the wrong person... did I hear wrongly?"

Li Jun sneered. "Hmph, I'm afraid that the Xue family didn't expect that someone would spend such a price to kill them. Naturally, they thought that they had killed the wrong person."

Unfortunately, it was them that I wanted to kill! To be more precise, it's Su Yu! The rest of them were just killed along the way!"

That senior was still somewhat cautious and said, "It's best to confirm it. This Xue Yu is a great threat to our Li family. If I don't confirm it, I won't be able to feel at ease."

Li Jun waved his hand. A clansman immediately took out a magic tool for testing and dripped the blood that was left behind by Xue Lei in the foreign land.

Instantly, the magic tool let out a clear sound.

Li Jun laughed, "See, the magic tool has a reaction. It Can't be wrong. This is the Xue family's bloodline! Su Yu has been protecting them all this time, and I think they died in there together."

Only then did the senior breathe a sigh of relief, and said, "Alright, we'll leave as soon as possible. We absolutely can not let the star pavilion know about this."

The group quickly left.

Not long after, another beast carriage slowly arrived.

Chapter 1613 The Stone Dragon Bone Sword

"What was that big explosion just now?" Xue Changzhi was bewildered.

Su Yu swept his gaze over the ruined land and the remaining blood. After thinking for a moment, he sighed, "The Heavenly Dao is good at reincarnation. If you don't believe it, look up and see who the heavens will spare!"

The group of Xue clansmen jumped out to observe, feeling extremely astonished.

"Judging from the fragments, it was the beast carriage that Xue Lei snatched away, right? How did it get destroyed?" Murong Qingcheng also came over and asked in astonishment.

Xue Changzhi suddenly came to a realization. He could not help but burst out laughing, "Hahaha, this is called retribution! Xue Lei had caused the Xue Clan to lose so many clansmen in vain. Now, he has taken a calamity on our behalf. Not even a corpse remains! Hahaha, retribution! !"

Everyone came back to their senses and realized that it was the forces that were hostile to the Xue family that had mistakenly killed Xue Lei!

"Hehe, good death!"

"He has done many evil deeds, and before he died, he died for us. It can be considered that he has done some good deeds, Hehe."

Xue Lin felt something and dug out a sword-shaped storage item from the ruins.

"Ah, I found it!" Xue Lin recovered the lost item and laughed happily. "So I dropped it here! How Strange, I've never been here before!"

Everyone from the Xue Family:"..."

Everyone knew that the missing sword-shaped storage item was actually stolen by Xue Lei, right?

The reason was probably because yesterday, Xue Lin had called him an evil creature, and Xue Lei had conveniently taught him a lesson.

“Why aren’t you all saying anything?” Xue Lin scratched his head, feeling guilty from everyone’s strange gazes.

Everyone was still speechless. What else could they say in the face of such a silly person?

Xue Changzhi stared at the ruins on the ground and pondered for a moment. Then, he sent a voice transmission to Su Yu, “Xue Yu, who do you think it is?”

Such a large-scale destruction was obviously planned for a long time. It was prepared to wipe out the entire Xue family, leaving no one alive.

He shook his head, Su Yu said, “I don’t know. It could be the divine feathers clan, Hong Lei, or the Li family. But no matter who it is, we are already ‘dead’. It is the best thing for our Xue family.”

With that, Su Yu took out the beauty under the moon and threw the outer layer of the iron sword into the ruins.

It looked like the remnants of the big explosion.

Xue Changzhi was stunned. He instantly understood Su Yu’s intention. His eyes lit up and he gave a thumbs up. “Hehe, wonderful. Let the outside world think that our Xue clan was ambushed and died miserably. That way, we will be much safer!”

Su Yu smiled and said, “So, uncle, you will lead your clansmen to search for resources in the outer area.”

Xue Changzhi said in surprise, “Xue Yu, could it be that you...”

“I want to make a trip into the Dragon Cave.”

Everyone was shocked. “Dragon Cave?”

Murong Qingcheng said in surprise, “Young Master Xue, there are people from the sword pavilion near the Dragon Cave. Once we encounter them, it will be very dangerous.”

The area where they had been active for the past two days could only be considered as the periphery of the Ten Thousand Dragon Cave.

The Real Dragon Cave was only a small area. There were many divine dragon corpses there, which was the core area of the Dragon Cave.

The vast majority of the island forces only chose to operate in the periphery.

The periphery was incomparably huge and was rich in resources. The island forces would either take resources here or block the road to rob, and the harvest would be quite bountiful.

They would not easily go deep into the dragon cave to avoid angering the people of the Sword Pavilion.

Xue Changzhi also advised, “The Dragon Cave is not a place that island forces like us are qualified to enter. Once you are discovered, you will be able to escape the pursuit of the Dragon Cave. Do you think you will be able to escape the attack of the sword pavilion outside?”

With the domineering style of the people of the sword pavilion, it was not just a matter of chasing after Xue Yu. There was a high chance that it would really be like this!

“Why don’t you stay with us at the periphery? With our current identity of being “Completely annihilated”, it is extremely safe. It is no problem for us to search for resources however we want. This year’s harvest will definitely surpass the previous years,”Xue Changzhi said.

His words were not without reason, but Su Yu had a reason that he had to go to the Dragon Cave.

Whether or not he could become a supreme dao expert would depend on how much dragon marrow he could bring back from this adventure.

“I’ve made up my mind.”Su Yu said, “You guys should leave this place as soon as possible. The Beast carriage will also be handed over to you guys to use.”

Xue Changzhi advised repeatedly, but Su Yu’s will was firm. She had no choice but to give up. She said, “Xue Yu, you are now the hope of our Xue family. No matter what the situation is, we hope that you will put your own life first.”

“I will,”Su Yu said.

With that, Xue Changzhi led his clansmen and left quickly.

Only Murong Qingcheng stayed behind. She looked at Su Yu and said, “I can’t find the Murong family’s team. I can’t contact them. I have nowhere to go.”

Su Yu said without hesitation, “You can’t! If you are found out, the Murong family will be implicated!”

Now that the Xue family had the support of the Star Pavilion, the sword pavilion might not dare to do anything to the Xue family.

But the Murong family, a single word from the sword pavilion was enough to decide the fate of the Murong family.

Murong Qingcheng bit her lip and said, “Then you take care!”

Nodding her head, Su Yu leaped forward and headed straight for the Dragon Cave.

A few hours later.

A beautiful figure holding a jade-green longsword descended like a graceful bird and stood in front of the iron sword that Su Yu threw down.

She squatted down and held the iron sword. Her crystal eyes were filled with regret as she said softly, “I clearly warned you, so why did you still come?”

“Sigh, a powerful enemy worthy of my pursuit has left just like that.”

If Su Yu was here, he would not have mistaken her.

He was none other than Li Yue of the Li family.

She could not stop her clansmen from scheming to kill Su Yu. The only thing she could do was to inform Su Yu in advance.

Unfortunately, Su Yu did not listen to her suggestion.

“If I become the head of the Li family one day, I will definitely erect a monument for you on Twin Star Island.” Li Yue’s face was always calm, but it was filled with disappointment.

With a backhand thrust, she stabbed Su Yu’s iron sword into the ground, forming a tombstone.

After that, she turned her gaze towards the Dragon Cave.

Her eyes flashed as she flew away.

The commotion here attracted a lot of attention. The nearby powers rushed over one after another, including the Li clan.

“What happened?” Staring at the scene of destruction, the people who rushed over were all on guard.

Li Jun pretended not to know, his face filled with terror as he asked, “Who did it?”

All of a sudden, he suddenly found the iron sword. He rolled his eyes and said, “I recognize that iron sword. It’s the second young master of the Xue family, Xue Yu’s personal weapon!”

“Is it that arrogant Xue family who rampaged around?”

“Hehe, if it was them, their deaths wouldn’t have been in vain. who asked them to be so arrogant!”

Li Jun, who quietly left the crowd, sneered and sighed as if he had been relieved of a heavy burden, “Xue, Goodbye Forever.”

Five days later.

Xue Yu arrived in front of a series of canyons.

Looking down from above, one could clearly see that a series of canyons had formed an incomparably huge claw mark.

It was as if some kind of heaven-sized giant had used its sharp claws to scratch the ground, leaving behind shocking remnants.

Waves of thick dragon power swept through the surroundings.

“I’ve finally found an unexcavated Dragon Cave.” Su Yu let out a breath of turbid air.

In the past five days, Su Yu had continuously found seven or eight remnants of the Dragon Clan’s battle. However, they had all been excavated, and there weren’t even any remains of the Divine Dragon.

Unknowingly, he had found the depths of the Dragon Cave, all the way until he arrived at this Strange Dragon Claw Canyon.

Such dense dragon power was much stronger than what he had previously discovered!

With a glint in his eyes, Su Yu found a hidden place and prepared to jump down. Unexpectedly, a black figure jumped out from below.

In the Dragon Cave, it was another black-clothed person. Su Yu could not think of anyone else other than the people from the Sword Pavilion.

Su Yu was slightly shocked. Without thinking, he pulled out the beauty under the moon and stabbed her with his sword.

Kacha --

The Black Shadow not only reacted quickly, but also had superb swordsmanship. Not only did it block this stab, but the powerful sword Qi also attacked the center of Su Yu's brows,

su Yu did not retreat but advanced instead. With the Devil Moon revolving form, he swept away the sword Qi of the other party.

At the same time, the arc-shaped sword qi spread out and slashed towards the opponent's neck.

The Black Shadow Man snorted. The godly power of the third level Heavenly Cave Abode's World Paragon was released like a wave, dispersing the arc-shaped sword qi.

Following that, the Black Shadow Man stepped on the canyon and leaped up.

He glared at Su Yu, but his expression was hurried. He did not have the time to care about Su Yu and escaped through the air.

Su Yu instantly realized that something was wrong. He immediately stuck an invisibility talisman on his body and disappeared on the spot.

As long as he didn't touch him, he wouldn't be discovered.

Chirp --

Almost at this moment, an ear-piercing screech rushed out from the depths of the canyon.

Huff --

The airflow above the cliff changed violently, and a strange pitch-black bird with a full body of features rushed out.

There were two young men standing on the back of the strange bird.

Su Yu actually recognized one of them.

"Hong Lei?" Su Yu revealed a surprised expression.

At this moment, Hong Lei acted like an attendant and protected the youth beside him half a step ahead of time.

Even though, with Hong Lei's cultivation, he wasn't worthy of being that youth's Guard.

Because that youth was an unparalleled existence at the second sky of the cave abode.

They chased closely after the Black Shadow Man. The second sky youth's face was filled with a trace of coldness as he said coldly, "Little Slut, you dare to Snatch My Stone Dragon Bone Sword! You really don't know your place!"

Su Yu's heart skipped a beat when he heard that. Stone Dragon Bone Sword?

He turned his gaze around. Su Yu didn't intend to meddle in other people's business.

Especially when his opponent was the youth from the second level heavenly cave abode.

But just as Su Yu was about to leave, he was suddenly startled and took out Si nan from his embrace.

At this moment, Si Nan's needle was spinning violently, and then it suddenly came to a stop.

The position he had set wasn't anywhere else, but the direction the black-clothed man and the youth had left in.

"This..." Su Yu's expression froze.

According to Xue Yuntian, Si nan had been discovered by them in a mysterious space in the Ten Thousand Dragon Cave.

There was only Si nan in that space.

This item was definitely not an ordinary item.

After pondering for a while, Su Yu turned around and chased after the man in black.

After chasing for a short while, Su Yu's brows sank. He stopped on top of a tree crown. His finger brushed past the leaves and took out a drop of translucent divine blood.

It was the divine blood of the man in black.

"I wonder if it's too late." Su Yu followed the trail of blood and soon arrived at a white dragon bone graveyard.

The ground was littered with abandoned dragon bones, scattered and scattered.

These were the dragon corpses that the Jian Xuan had dug up over the years. After taking out the dragon marrow, they were abandoned here.

Over the years, there were as many dragon bones as cow hair, forming an endless mountain of bones.

The dragon bones had not melted all year round, and the dragon power they emitted formed a white mist barrier.

If a person was in it, not to mention their aura, even the north, south, east, and West could not be identified clearly.

"That man in black is hiding here. He is obviously well-prepared," Su Yu analyzed in secret. "No matter how strong the enemy is, breaking into this place to capture someone is as difficult as finding a needle in a haystack."

Looking at Si nan in his hand, the corners of Su Yu's mouth curled up into a faint smile. "I wonder what the so-called stone dragon bone sword is that caused Si nan to react!"

Upon closer inspection, one would realize that the dragon barrier did not affect Si nan's pointer at all. It was clearly and accurately pointing in the direction of the man in black. As he moved, it constantly changed its direction.

Chapter 1614 Soul Storage

With a faint smile, Su Yu stepped into the miasma.

"Little Slut, come out now and I'll spare your life. If I find out, I'll make sure you die without a burial place!" A faint clamor fell into his ears.

Su Yu followed the compass and walked straight into the depths.

When he arrived in front of a huge divine dragon skeleton, Su Yu stopped in his tracks.

"Sir, there's no need to hide," Su Yu said. "You're heavily injured, so you probably don't want to fight to the death with me, right?"

He looked at the divine blood that was continuously flowing beneath his feet.

The other party's injuries were not as simple as being injured. He was actually bleeding non-stop.

There was no movement within the skeleton. Su Yu's sharp light flashed as he said, "Sorry for offending you!"

His figure flashed as Su Yu stepped into the skeleton.

Just as his front foot stepped in, a sword light that was like a cherry blossom shone brightly as it headed straight for his head.

Su Yu pulled out the beauty under the moon and used the devil moon revolving stance to disperse the sword light.

The remaining arc-shaped sword Qi rushed into the white miasma. With a soft moan, something fell to the ground.

Su Yu stepped in and the airflow dispersed part of the miasma, allowing him to see the situation clearly.

A black-clothed man with divine blood flowing from his abdomen lay unconscious on the ground.

Su Yu's sword aura only injured her shoulder and knocked her unconscious. The wound on her abdomen was the fatal part.

"What an overbearing sword technique." Su Yu stared at the wound on her abdomen. Small milky white swords could be seen with the naked eye moving around the wound.

Once the wound healed, those small swords immediately cut the wound again.

No matter how strong the black-clothed man's healing ability was, it could not withstand the remaining sword qi.

"The sword pavilion's sword techniques have some merits," Su Yu thought to himself.

Xiu Xiu --

A weak miasma flow gently sounded in Su Yu's ears.

Someone was quickly approaching this place.

Without thinking, Su Yu searched the black-clothed man's body and immediately found a sword-shaped storage ring.

It seemed that his identity was also someone from an island faction.

When he probed one of them, as expected, he found a strange dragon bone.

Its appearance was gray and dark, as if it was a petrified object.

However, there was a white jade-colored round luster in the broken corner, as if it was a woman's skin.

At the same time, shocking dragon power poured out from the white jade, extremely thick.

Si Nan in Su Yu's hand locked onto this dragon bone. It was obvious that this item was extraordinary.

"I'm sorry, I want this dragon bone." Su Yu said indifferently and threw the sword-shaped storage ring back.

Sensing the air current speeding up, it was the young master of the Sword Pavilion and Hong Lei approaching!

Feeling a chill in his heart, Su Yu immediately retreated along the same path.

Before he left, he glanced at the motionless black-clothed man and hesitated for a moment before pulling him over. "Forget it, I'll take your item and save your life. We're even!"

In order to prevent his divine blood from dripping and leaving a trace, Su Yu used the power of a dust immortal to catch all of it.

Then, he withdrew his aura and quietly left without causing any change in the miasma.

A moment later, two shadows descended.

Young Master Jian Xuan narrowed his eyes and looked around.

His eyes were extremely special. His pupils were pale white, but they were sword-shaped.

Hong Lei said, "Young Master, the movement just now was here. There's no mistake. Could it be that she escaped in advance?"

Young Master Jian Xuan glanced at the pool of divine blood on the ground and said coldly, "She was hit by my destructive sword Qi. How could she escape?"

"Then she..." Hong Lei also keenly noticed that the miasma nearby did not show any signs of flowing, and there were no traces of divine blood dripping on the ground.

Young Master Jian Xuan's expression was solemn, and his killing intent was dense. "It's very obvious that someone saved her!"

“That little B * Tch indeed had accomplices supporting her!” Hong Lei said fiercely. “For the sake of this stone dragon bone sword, Jian Xuan Master was trapped under the canyon by ten complete Dragon Souls. If this sword was snatched away, it would truly be a wedding dress for someone else!”

Young Master Jian Xuan’s expression became even gloomier.

The canyon created by this Dragon Claw was the core area of the Dragon Cave.

There were more than ten thousand divine dragon remains inside.

Some of the remains were too powerful when they were alive and actually gave birth to complete dragon souls. They were extremely powerful and were comparable to overlords.

Back then, Jian Ruxiong had rashly entered and was almost stopped by those few dragon souls. He had to use all his strength to escape.

When he went in, he was surprised to find that the dragon souls were guarding a fossilized dragon bone.

The last time he found a treasure that was guarded by a powerful dragon soul was when the stone sword was born.

The use of the stone sword to Jian Xuan could be said to be the foundation.

The sword techniques released from it created the current situation of Jian Xuan.

Jian Xuan knew very well that this was another shocking discovery. That fossilized dragon bone was definitely an extremely important item.

It was probably no less than a dragon bone!

For this, Jian Xuan had prepared for decades and used up a lot of resources to create three powerful talismans and ten true emperor rank weapons.

His goal was to suppress a few dragon souls.

Everything went smoothly. Jian Ruxiong used the talismans and true emperor rank weapons to successfully suppress the Dragon Souls.

Thousands of disciples of Jian Xuan were fighting with the other dragon souls in the canyon, and they suffered heavy casualties.

Young Master Jian Xuan’s personal guards escorted him to the bottom of the canyon to pull out the stone dragon bone sword.

In the end, the guards were all formed by the Realm Masters of the three-tiered heavenly cave abode, and only two or three of them were left.

If that was the case, then so be it. After obtaining the Stone Dragon Bone Sword, it was too late for anything.

However, what made young master Jian Xuan furious was that just as he was about to succeed, a mysterious black shadow suddenly attacked and snatched the stone dragon bone sword away.

How would he be willing to let this go?

“Little Slut, you’re dreaming if you want to escape from my grasp!” Young Master Jian Xuan growled as his sword-shaped pupils suddenly enlarged.

Sword lights rushed out of his eyes and swept in all directions.

Wherever the sword lights went, young master Jian Xuan would be able to see the situation.

Su Yu, who was quickly leaving the miasma, felt something. He turned his head to look and a sword light entered his sight.

The sword light also noticed Su Yu and immediately circled above his head.

“Not good!” Su Yu’s heart sank. Without thinking, he took out the cloud sky boat and flew through the air.

In a breath’s time, Su Yu had left this place for billions of miles.

The sword light could not catch up in time. With a turn, it flew back into the miasma.

“Thief, where do you think you’re Going?” Not long after, the miasma rolled and the figure of the young master of the Sword Pavilion flew out.

He stared at the direction where Su Yu had escaped and was furious. “If you escape, I’ll write my name upside down!”

“Heaven’s will sword eye!” Two drops of bright red blood flowed out of the sword-shaped pupils in his eyes.

The drops of blood scattered into tens of thousands of drops and each of them transformed into tens of thousands of tiny sword shadows that rushed in all directions, covering the entire ten thousand Dragon Cave.

Su Yu’s expression changed quickly after he escaped.

“The trip to the Ten Thousand Dragon Cave might have to end.” Su Yu pondered.

After encountering the young master of the Sword Pavilion, he probably wouldn’t have the time to return to the Dragon Cave to search for the dragon marrow.

“Sigh, it’s really troublesome.” Su Yu frowned and said.

After obtaining the Stone Dragon Bone Sword and losing the Dragon Marrow, he really didn’t know whether it was a loss or a gain.

Looking at the black-clothed man’s wound that was still unconscious, Su Yu said, “Although the sword qi is strong, it’s just a remnant. It’s not difficult to get rid of it.”

The beauty under the Moon pulled it out and released a mysterious sword intent in her palm. It was like a speck of starlight that streaked across the night sky, emitting a brilliant flame.

The two opposing sword qi collided and canceled each other out.

The milky white remnant sword qi was removed bit by bit.

As the sword Qi dispersed, the wound on her abdomen healed on its own.

Suddenly, the man in black moaned and gradually recovered his consciousness.

“You... Who Are You?”The black-clothed man opened his confused eyes and asked.

That voice was surprisingly a woman.

And it was an unusually familiar voice for Su Yu.

Su Yu had been wearing a mask since the moment he stepped into the Dragon Cave, so that woman had not seen Su Yu’s true appearance.

She did not know Su Yu, but Su Yu recognized her.

It was Li Yue!

Although they had a short encounter, Su Yu would never be mistaken. It was indeed Li Yue!

Why would she sneak into the Dragon Cave and snatch the Stone Dragon Bone Sword?

Was it a coincidence or was it premeditated?

In order to prevent being exposed, Su Yu did not say a word. He put her down on the cloud sky ship and left on his own.

Li Yue was left behind. Suddenly, she flipped through her sword-shaped storage ring. Her almond-shaped eyes were stunned. “Stone Dragon Bone Sword!”

She looked in Su Yu’s direction, as indifferent as she was. She was extremely vexed. “I failed the mission!”

Xiu --

Suddenly, a faint blood-colored sword shadow attacked from the horizon.

Li Yue looked up and her expression froze. “Heavenheart Sword Eye?”

She pulled off her black robe and entered the dense forest nearby. She sneaked along the ground and escaped from the blood sword.

Not long after, Su Yu changed out of his clothes and hid in a cave.

Taking out the stone dragon bone sword, Su Yu was deep in thought. “It’s quite troublesome to bring this sword out.”

When they left the Dragon Cave, the people from the sword pavilion would definitely check the storage items.

How could it be easy to deceive them and bring away such an important item?

After thinking for a while, Su Yu tried to refine it with blood, but the stone dragon bone sword didn’t respond at all.

“Do I have to leave this sword here?”Su Yu was somewhat unwilling.

However, it wouldn’t be easy to take it away.

While he was distressed, Su Yu suddenly thought of Si Nan.

He took it out and saw that Si nan was vibrating continuously. Faint red light shot out from Si Nan's body.

"Eh? There's something strange inside Si Nan?" He clenched his five fingers and crushed Si nan. His palm was immediately placed on an extremely hard object.

He opened his palm and saw that it was actually a crystal-colored jade stone.

"There's another universe in Si Nan?" Su Yu pondered for a moment. The result of dripping blood on the jade stone was unexpected.

The jade easily accepted its master.

At the same time, Su Yu's mind rumbled as a huge scene entered his mind.

An incomparably huge mountain fell from the void into the sky above the sea.

Huge Dragons that blotted out the sky flew out from the mountain.

Tens of millions of them were chasing after a huge red dragon. Su Yu recognized that dragon at a glance. It was the creation dragon!

They fought in the sky above the sea area and the laws of Heaven and earth descended.

The originally prosperous sea area was destroyed in just three days.

Giant Dragons fell into the sea area.

One of the Dragons with a crown on its head was smashed into pieces by the creator Dragon.

Before the Crown Dragon died, it spat out Dragon Balls and threw a white dragon-shaped sword into the sea area.

The scene came to an abrupt end. Su Yu's expression was surprisingly calm.

"It seems that it's true. The origin of the Ten Thousand Dragon Cave is really related to the creator Dragon." Su Yu said coldly, "Presumably, it's for the 'Dragon Abyss Treasure Scroll'?"

The more he believed it, the more he believed that the creator Dragon didn't have good intentions by giving him this scripture.

The scripture that caused tens of thousands of divine dragons to chase after him was easily given to outsiders to cultivate. No matter how he looked at it, there was a problem.

Shaking his head, Su Yu extinguished the thought of cultivating the "Dragon Abyss treasured scroll" again.

Opening his eyes, his palm was blank. The crystal was gone!

At the same time, the stone dragon bone sword was also gone!

Su Yu was shocked, but he immediately realized that there was an additional thing in his mind.

His soul moved, and he was shocked to find that the crystal was already in his soul!

What made Su Yu even more surprised was that the crystal was a spatial storage item!

The stone dragon bone sword was lying quietly in it!

This shock was no small matter. He had never even heard of a soul-grade spatial storage item, let alone seen one!

Chapter 1615 Worries For The Future

“The absolute beginning is so big that there are all kinds of strange things. This is the first time I’ve heard of a storage device in the form of a soul.” After studying it for a long time, Su Yu was surprised to find that even if a soul from the outside world probed in, they wouldn’t be able to sense its existence.

It was just like the nine dragons divine cauldron. If it didn’t show itself, it would be very difficult for outsiders to discover it.

This discovery made Su Yu’s heart skip a beat. He took out a plant of starlight from his sword-shaped storage ring.

He tried to put it into the crystal space, but the result was simple. The crystal space had already acknowledged Su Yu as its master.

Su Yu’s eyes flashed as he muttered, “In that case, everything I obtained from the Ten Thousand Dragon Cave can be hidden in the crystal space without being detected by the sword pavilion, including the Stone Dragon Bone Sword?”

Thinking of this, the huge rock on Su Yu’s chest suddenly relaxed, and his worries disappeared.

“Hehe, the heavens won’t kill me.” Su Yu couldn’t help but laugh.

Since he wasn’t worried about being discovered by the stone dragon bone sword, then he wasn’t in a hurry to leave.

He looked at the stone dragon bone sword again. In the picture, the Dragon Emperor spat out this sword before he died, which showed that this sword had extraordinary significance.

“But why can’t I refine it?” Su Yu touched the stone sword and suddenly found a hole the size of a thumb on the hilt of the stone sword. It looked like it could be embedded with something.

He suddenly remembered that in the picture, the Dragon Emperor not only spat out the stone dragon bone sword, but also spat out the Dragon Ball!

The size of the Dragon Ball was exactly the size of the hole in front of him?

“Then what about the Dragon Pearl?” Su Yu asked in surprise.

Suddenly, Su Yu thought of something and couldn’t help but say in surprise, “Could the dragon pearl be there...”

Shua --

Just as Su Yu was thinking, several auras flashed across the top of his head.

Looking up, Su Yu actually recognized them.

One of them was a member of the Murong family, and the other was a member of the god of feathers clan. Tuoba Lun was among them.

“Tuoba Lun, are you really going to kill us all?”The one who led them was an elder of the Murong family who was over eighty years old. He was Murong Jin, a third level heavenly cave abode’s World Paragon.

They split into two teams to search for the resources of the Ten Thousand Dragon Cave. Unexpectedly, they ran into Tuoba Lun.

Tuoba Lun did not say a word. He immediately launched a vicious pursuit on them. A few of his clansmen died on the spot.

They had the advantage of numbers. Murong Jin led his clansmen to escape and head to Yin Mountain to meet up with the other Murong Clansmen.

“HMPH! If you want to blame someone, blame that bitch Murong Qingcheng. How dare she trick me!”Tuoba Lun said hatefully.

Murong Qingcheng Protected Su Yu in front of everyone. Instead, she scolded him for being unreasonable and causing him to lose face in front of all the island factions.

How could tuoba Lun have a good attitude when he met a member of the Murong Family?

“Tuoba Lun, I advise you to think twice before acting. If you really hurt the vitality of our Murong clan, Humph Humph, Xue Yu won’t let you off!”Murong Jin shouted sternly.

Before they set off, the clan head, Murong Feng, had already led the experts of the clan to the Twin Stars Island to reunite with the Xue Clan. The alliance between the two clans had once again become great.

In other words, half of the Star Pavilion stood behind the current Murong Clan.

It was a pity that the news of Xue Yu becoming an appraiser of the star pavilion had yet to spread. As for Hong Lei, he didn’t dare to tell anyone that he had offended the star pavilion. Otherwise, the first person to kill him would be Jian Xuan!

As such, he didn’t dare to mention that Su Yu was personally invited by the Master of the Star Pavilion to join the Star Pavilion.

Thus, Tuoba Lun didn’t know anything. He angrily laughed, “With that ant of his? If he dares to show his face in front of me, I’ll make sure he dies without a burial ground!”

“Tian Shuanyu!”As he spoke, the white wings on Tuoba Lun’s back suddenly flew out, bringing with them a series of icy snowflakes. He instantly passed Murong Jin and stood in front of them.

The Murong clansmen slowed down and were caught up by the divine feathers clan. They pincer attacked from the front and the back.

Murong Jin gritted his teeth and said, "If we are attacked from both sides, we will suffer even more casualties! Let's Go! I have already sent an emergency message. Not long later, another group of clansmen will rush over. Hold On!"

"Hehe, even if you can hold on until then!" Tuoba Lun sneered. The white wings on his back flew out like small swords and pierced through the Murong Clansmen.

Instantly, screams rose and fell.

Several people were injured. A middle-aged world paragon from the Fourth Level Heavenly Cave Mansion died on the spot after his head was pierced through by the feathers in order to protect a young man.

"Murong Feng!" Murong Jin roared. He was like an enraged lion. His godly power was like a tsunami as he pounced on Tuoba Lun alone.

Tuoba lun sneered, "Idiot!"

A gray shadow suddenly appeared from the ground.

Like a dark viper, it launched a fatal attack at the most appropriate time.

Pah --

The Gray Shadow held a dark green short sword and stabbed into Murong Jin's chest.

Murong Jin was worthy of being an expert of the older generation. He was extremely experienced in battle. Not only did he not panic, but he also calmly cast a divine spell.

"Floating light like a Shadow!" His chest was strangely transparent, like a phantom.

The dark green dagger missed.

Murong Jin dodged the attack, but before he could react, he was hit by a heavy and fierce palm on his back.

The huge force pierced through his upper body, cracking his body and damaging all his internal organs.

At the same time, the Grey Shadow took the opportunity to stab the dark green dagger into his back.

Puchi --

The cold touch entered his body and froze his life force.

Dong --

Murong Jin's body softened and he fell to the ground.

A cold and pale hand grabbed the back of his neck and pressed him to the ground.

Enduring the pain, Murong Jin looked back and his pupils shrank, "Tuoba Ying... I should have known you were nearby! As the personal guard of young master Tuoba, how could you leave?"

If Su Yu was here, he would have recognized that the gray-robed old man was the old man who had accompanied Tuoba Lun into Murong Island.

His cultivation base had reached the peak of a stage three heavenly cave abode's World Paragon.

Moreover, he was someone who had stayed at this level for more than a hundred years. His strength was so strong that even a stage two heavenly cave abode's world paragon might not be able to do anything to him.

"Hehe, how rude of you, young master. Murong Jin, you should say goodbye to this head of yours," Tuoba Ying said indifferently.

Tuoba lun smiled evilly, "Uncle, don't be so rude. After all, he had secretly supported me in the past. After all, he was once an ally when he married that woman Murong Qingcheng."

He waved his hand and let Tuoba Ying let go.

Murong Jin was heavily injured and fell to the ground weakly.

Tuoba Lun walked over and patted his cheek. He chuckled, "Seeing that we were once allies, I'll give you a way out."

After losing Murong Jin, the remaining young clansmen were like lambs waiting to be slaughtered.

"You say..." Murong Jin said weakly.

Tuoba Lun stood up and put the boot to his mouth. The corners of his mouth were filled with mockery. "Lick it clean and let one person go. After eating the boot, let two people go. If you can eat something delicious and make me happy, I'll let all of You Go!"

"Hehe..." Murong Jin smiled weakly. His smile was sarcastic but also contemptuous. "Tuoba Lun, where did your confidence come from? Why would I trust you?"

"Even with my toes, I can also imagine that you won't keep your promise at all. People like you have nothing except your background... wah..." before Murong Jin could finish his words, a big foot stepped on his face, he stepped into the mud.

Tuoba Lun stepped on his face, his eyes cold and dark. "Since you know, I don't have time to play with you. Let's Go!"

Hula --

Suddenly, several meteors streaked across the sky and exploded into several dazzling fireballs.

Tuoba Ying was shocked. He rolled his sleeves and blocked three or four fireballs. he shouted, "Young master, be careful, someone is ambushing..."

How could tuoba Lun have expected that when he was chasing after someone, he would also be listed as the target of a sneak attack?

Chapter 1616 Join Forces To Find The Dragon

He retreated and the snow-white feathers on his body flew out again to protect him.

Pit --

A spark ignited on the feathers and suddenly burned them.

Tuoba Lun was shocked. "Feather escape!"

When all the white feathers were burned, his body suddenly turned into a large patch of white feathers and he teleported ten thousand miles behind to avoid the fatal blow.

However, there was a trace of burning on his face.

A trace of blood slowly slid down his well-defined face.

His heart palpitated. If he had hesitated a little more just now, his skin would not have been the only thing cut!

He looked over and saw that there was a person in disguise standing where he first stood.

It was not his guess to say that it was a disguise, but the person's disguise was too crude.

It was just a black robe that was wrapped from head to toe!

"Who are you?" Tuoba Lun stared at the Longsword in the other party's hand that was condensed by moonlight. The blade of the sword was dripping with traces of divine blood. It was his divine blood.

Thinking back to the scene just now, Tuoba Lun could not help but shudder. He was extremely vigilant.

"It doesn't matter who I am. The important thing is to spare others wherever possible. We are all island forces. Why must we kill each other? The Ten Thousand Dragon Cave is not over yet." The black-robed man was naturally Su Yu, who had rushed to attack.

Tuoba Lun was slightly surprised. "You are also a member of the island forces?"

He had never heard of such a dangerous person.

"Yes! Can you give me some face and let them off?" Su Yu said.

Tuoba Lun's heart wavered. If he could, he wouldn't be willing to become enemies with such a person.

However, he had always been conceited. How could he be willing to lower his head to others? He said, "Why should I give you..."

All of a sudden, Taba Ying stopped him and whispered into his ear.

Taba Lun's expression changed again and again. From unwillingness, to helplessness, and finally to compromise.

Putting away the white feather, Taba Lun cupped his fists and said, "Alright, I'll give you face."

He stared at Murong Jin and snorted coldly, "Consider yourself lucky to have met this brother!"

Murong Jin was surprised. Among the island forces, who would be willing to go against the third-ranked divine feathers clan and help a little Murong Family?

“Thank you...”Murong Jin said.

Su Yu pulled him up and said, “Let’s go. We’ll talk later!”

“Please wait, sir,”Tuoba Lun said with a flash of light.

Su Yu turned his head, and his eyes were sharp. “What, you’re going back on your word?”

“HMPH!”Tuoba Lun snorted and said arrogantly, “Just a few pieces of trash are not worth me, Tuoba Lun, regretting!”

“I’m asking you to stay. I have a great opportunity to discuss with you,”Tuoba Lun said.

Su Yu smiled. If Tuoba Lun knew who he was talking to, would he still make a deal?

“Opportunity? Why Don’t you tell me,”Su Yu said.

Tuoba Lun’s eyes flashed. He stared at Su Yu and said, “Do you only have eyes for the Starlight Grass?”

Oh? Su Yu was a little surprised. He said, “What do you mean?”

Tuoba Lun stared at Murong Jin and the others and said coldly, “If you want to be silenced, I don’t mind doing it myself!”

Murong Jin knew that they had a secret to talk about. He cupped his fists gratefully at Su Yu and led his clansmen away.

After making sure that there was no one around, tuoba lun said seriously, “Many years ago, we found the remains of an unknown divine dragon. It’s not in the area of the Dragon Cave, so we don’t have to worry about the people from the sword pavilion finding it. We can dig as much as we want.”

Tuoba Lun told Su Yu about something that made Su Yu’s heart race. Su Yu’s pupils constricted, “Really?”

Tuoba Lun said proudly, “Of course! Only I, Flower Fairy, and Lu Tianji know about this. Now, you’re the fourth person!”

Obviously, Su Yu’s stunning strike had left a deep impression on Tuoba Lun. He had just invited Su Yu to participate.

“Why me?”Su Yu narrowed his eyes.

Tuoba Lun said, “Firstly, your strength is not bad! Secondly, I just happen to need a helper. You are a suitable candidate.”

Lu Tianji, flower fairy, had always been at odds with Tuoba Lun.

It would be strange if Tuoba Lun did not have any concerns when the three of them worked together to dig up the remains.

He needed a reliable candidate, but the only one who could contend with him was Tuoba Ying and the mysterious black-robed man.

Tuoba Lun threw out the bait. "With the three of us working together, we should be able to contribute half of the merit in the excavation. By then, we can split half of the dragon bone. I can promise that we will split it 30-30,30-40, you and Tuoba Ying 30-30, and I 40-40. After all, I was the one who told you the news. I want 10% More!"

Su Yu pondered for a long time.

The remains of the Divine Dragon that was not in the Dragon Cave was simply tailor-made for Su Yu.

If he could obtain enough Dragon Marrow and cleanse the remaining divine path, it might not be impossible!

As long as he became a god, Su Yu would gradually unseal the spatial storage device, and his strength could recover by a huge step!

"Okay!" Su Yu nodded in agreement.

Tuoba lun laughed, "That's great! Let's go, I'll introduce you to flower fairy and Lu Tianji."

At the border of the Dragon Cave, there was a bare mountain covered in blood.

Lu Tianji and flower fairy stood at the top of the mountain and pointed at a map. There was a troubled expression on their faces.

Sensing that Tuoba Lun had flown away, flower fairy wrinkled her nose, "You ignored your important business and ran away to chase after the Murong family. Do you even care about this..."

Suddenly, her big, Bright Eyes noticed Su Yu and immediately became alert. She said in a low voice, "Tuoba Lun, why did you bring an outsider Here!"

Tuoba lun chuckled and said, "He's a member of our divine feathers clan, not an outsider!"

"Divine feathers clan, Him? I don't remember that there was a guy in a black robe in the divine feathers clan's team this time," flower fairy said.

Tuoba Lun couldn't be bothered to explain. "It's up to you whether you believe it or not, but if you reject him, don't regret it! His swordsmanship is superb and extraordinary. Without him, I'm afraid we'll have to put a question mark on whether we'll be able to dig up the dragon bone."

Not only flower fairy, Lu Tianji also looked surprised.

Waves of mysterious intent were emitted from Lu Tianji's body. In the dark, the lines of fate were swaying slightly. He was trying to divine something.

Flower fairy smiled. "Without him, we wouldn't be able to find the dragon bone? Hehe, I don't believe it!"

“Hundred flowers sword seeking!” Flower fairy suddenly stepped forward.

A colorful flower shadow fell with her.

Tuoba Lun saw it and didn’t stop her. Instead, he looked like he was watching a good show.

Pit --

The seemingly weak flowers suddenly shot out small swords from their stamens.

Each of them carried different attributes.

There was intoxication, poison, invisibility, and even time..

For a moment, Su Yu thought that he had met a fellow Daoist who was proficient in a hundred different divine abilities.

However, upon closer inspection, he realized that it was not the case. It was just a special Supreme Dao.

Pulling out the beauty under the Moon, Su Yu was like a long sword, transforming into a meteor.

“Dark Night Meteor Strike!”

Su Yu’s afterimages continued to appear, but in the span of a breath, he had already stabbed out dozens of times.

The tip of the sword left behind a brilliant trajectory in the air, like a falling meteor, abnormally brilliant.

The Hundred Flowers were destroyed by the sword!

Immediately after, a ray of sword light passed through the broken hundred flowers and touched the tip of flower fairy’s nose.

Her large, intelligent eyes did not blink, filled with deep amazement.

Chapter 1617 The Yellow Heavenly Dragon Sword

“Your swordsmanship is amazing. At least among the island forces, no one in the same generation can surpass you.” Flower fairy sized Su Yu up in surprise.

Su Yu withdrew his longsword and flicked a purple flower on his shoulder. He said, “You’re not bad either. Your attainments in one flower, one world are also unrivalled. We can only be considered to be tied.”

The purple flower on Su Yu’s shoulder contained faint divine blood.

On Su Yu’s shoulder, a trace of red slowly bloomed.

One more step and it would be fatal.

The two of them were tied.

Of course, if they fought seriously, Flower Fairy would definitely win.

Regardless of cultivation or years of cultivation, flower fairy would definitely win against Su Yu.

Being able to fight to a draw was because she looked down on Su Yu.

Lu Tianji frowned and said, "May I know your name? I Can't predict everything about you."

As an expert in divination, Lu Tianji could easily predict the good and bad luck of anyone. Although fate was vague, there were traces that could be followed.

Su Yu was the only one who was in a mess.

It was as if there was something too powerful on Su Yu that blocked his divination.

Su Yu thought for a moment and said, "Su Yu."

"Su..."Lu Tianji, flower fairy, and Tuoba Lun started to think at the same time.

There were countless forces in the Jian Xuan Sea area, but none of them had names.

Could it be a small force?

Of course, he might have used a fake name, so the three of them had a tacit understanding.

Lu Tianji said, "Alright, brother Su. We happen to be lacking an expert in the way of the sword. If you want to join us, we welcome you."

Flower fairy said, "The remains of the divine dragon here gave birth to a rather strong dragon soul. It's proficient in a sword technique passed down from the Dragon Clan, and it's very powerful. We've tried a few times, but we were unable to contend against that sword technique. If it's brother Su, and we already have an expert in the way of the sword, we might be able to."

After a pause, flower fairy looked at Tuoba Lun. "You guys will take forty percent of the treasures discovered. As for how to split it, you guys can discuss it yourselves."

Nodding slightly, Su Yu said, "Sure, let's not delay. Let's go."

Lu Tianji said, "Wait a moment. Our expert in the way of the sword has other matters to attend to. He hasn't returned yet."

Su Yu frowned slightly, then nodded and sat down cross-legged to cultivate.

Lu Tianji and flower fairy looked at each other. They kept exchanging glances and secretly transmitted their voices.

"Where did Tuoba Lun find such a sword master? Apart from the Sword Pavilion, no other forces have such powerful sword techniques,"flower fairy transmitted her voice solemnly.

Lu Tianji said, "He's not from the sword pavilion, but he's not from the island either! I've found out his background."

"What? Then you said that you can't find anything?"Flower Fairy asked in surprise.

Lu Tianji said calmly, "Of course I didn't want him to be wary, but I'm not lying either. His divination is indeed a mess. I've never seen someone's fate and fortune so complicated."

Lu Tianji frowned slightly. "I've only found out his background, but he's not from our sword loft!"

"What?"Flower Fairy was shocked. "Could it be that he's like us, also..."

“More or less. He should have the same status as us,” Lu Tianji said slowly.

Flower Fairy’s eyes were filled with worry. “Sigh, Tuoba Lun really found a troublesome fellow. If the two of them work together to do bad things, even you and I have to be careful.”

“Hehe, Tuoba Lun wouldn’t dare to do something bad, but that person surnamed Su really has to be careful of Tuoba Lun. Based on my understanding of Tuoba Lun, he is definitely not someone who is willing to give up his interests so easily.” Lu Tianji smiled and shook his head.

Flower Fairy Thought for a moment and said, “That’s true. That muddle-headed guy, who wouldn’t be able to find Tuoba Lun easily? HMPH, there will be times when he will regret it.”

A few days later, a sharp sword Qi flew across the sky and arrived at the Blood Mountain.

Flower fairy smiled and pounced on him, giving him a big hug. “Hehe, Xiaoyue is finally here.”

Su Yu looked up and could not help but be slightly stunned.

The so-called sword expert was a woman dressed in black.

Although she was masked, wasn’t she the Li Yue that Su Yu had saved from the young master of Sword Pavilion not long ago?

Why was Li Yue hanging out with Lu Tianji and the others?

And why did she barge into the dragon cave alone and snatch the Stone Dragon Bone Sword?

Her actions were completely incompatible with the identity of the Li family.

Li Yue gently pushed flower fairy away and stared at Su Yu. She said indifferently, “Who is he?”

“Hehe, he is a sword expert. He will fight against that Dragon Soul together with you,” flower fairy said with a smile.

Li Yue asked, “Have you tested him?”

“Yes, his swordsmanship is profound and is on par with your ‘song of the Green Heart Sword’,” flower fairy said.

Li Yue did not question her and said, “Alright.”

Then, she retracted her gaze and did not say a word.

Lu tianji smiled and said, “Sister Yue, have you completed the mission?”

Hearing this, Li Yue shook her head and sighed. “I was on the verge of success. The Young Master of the Sword Pavilion is too strong. I was saved by his destructive sword qi, but the mission item that I snatched was also taken away by the person who saved me.”

Lu Tianji and flower fairy felt regretful at the same time, “Sigh, that’s such a pity.”

Li Yue raised her head, “Don’t worry. Although I failed the quest, I promised that I would keep it. You guys gave me detailed information about the Dragon Cave in the canyon. In return, I will help you deal with the soul of this divine dragon. Let’s Go!”

She was here as a free helper!

Mission? Su Yu's eyes slightly wavered.

The Dragon God's remains they were talking about were under the blood mountain.

This blood mountain was caused by the blood essence left behind by a dragon God. Countless years had passed and the blood essence had long lost its essence. However, the remaining Dragon Qi had hidden the remains of the Dragon God under the blood essence.

The people of the Sword Pavilion had passed by this place many times, but they ignored it and didn't dig it out carefully.

That was why Lu Tianji and the others were so lucky.

They had already opened a passage to the blood mountain. Su Yu followed them to the foot of the mountain.

There was another world at the foot of the mountain. A broken space that had been shattered by the great power of creation was still intact.

Because of the power of laws, this broken space had never been repaired and remained in its original state.

If one looked carefully, they would find that the shape of the broken space was like a claw mark left by a huge dragon claw.

Everything around them had turned into nothingness. Only the space at the center of the palm and the four dragon fingers remained intact.

And they were located outside of the palm mark.

They could enter the center of the palm through the dragon fingers.

And in the center of the Palm was a giant divine dragon that had been smashed into pieces.

The body of the Dragon had rotted away, leaving behind only white dragon bones.

From the section, one could clearly see drops of crystal clear dragon marrow rolling in the spinal cord.

Su Yu's heart pounded!

This divine dragon was much bigger than the altar on Twin Star Island.

Even if it could reach 50% , it could break through the remaining 1,000 Divine Dao!

However, under the Dragon Bone sat a white-clothed middle-aged man.

He had a pair of sharp yellow dragon horns on his head and wore a yellow robe. He sat in front of the bone table refined from the dragon bone and played chess alone.

Su Yu's pupils constricted slightly. "A materialized soul?"

Lu Tianji, flower fairy, and Tuoba Lun had solemn expressions.

Their expressions indicated the identity of their souls -- Dragon Souls!

They had been dead for so many years and still had a materialized soul. Their strength was no small matter!

The dragon soul sensed something and put down the chess pieces in his hand. He turned to look at them. “You’re here again!”

Lu Tianji cupped his fists and said, “Senior, since you’re dead, why don’t you leave the relic to our descendants? Isn’t it a pity to bury it under the yellow soil?”

The Dragon Soul stood up and sucked on the ground with his palm. A seven-foot-long sword made of white bones drilled out of the ground.

He pointed at Lu Tianji from afar and said indifferently, “I’m a manifestation of my obsession before my death. Whoever can defeat this remnant soul is qualified to get the relic. You can only get it by action. Words can’t convince me.”

Lu Tianji said, “Then, please forgive me!”

He flicked his sleeve and a silver-white scroll flew out. On it were numerous floating lines of various colors.

“Kamen Sect’s Xun Master, the Chief of the South!” Lu Tianji moved his finger and the floating lines on the scroll immediately danced up and down.

Flower fairy leaped up and occupied the southernmost dragon finger.

“Only you can run fast!” Tuoba Lun did not have the time to occupy the south and could only occupy the middle dragon finger.

Li Yue chose the northernmost dragon finger at random.

Su Yu didn’t have a choice, so he entered the dragon finger that was close to Li Yue.

The four of them each occupied a dragon finger and surrounded the dragon soul from four directions.

The Dragon Soul held the sword indifferently and let out a long sigh. “The Lonely Soul’s white bones have been silent for ten thousand years. One sword, one chess move! Yellow Heavenly Dragon Sword technique, first move, Azure Sky Sword!”

Lu Tianji’s eyes released a mysterious concept. He quickly moved the scroll’s lines and said, “The ominous star looks to the north. Sister Yue, step back!”

As soon as he finished speaking, the dragon soul slashed out.

Chi La La --

The terrifying sword Qi directly covered the dragon finger to the north.

The already fragile space of the dragon finger was torn apart by the sword qi, like a thin layer of ice that was about to shatter.

Su Yu’s pupils constricted. The dragon soul did not have any cultivation. It relied entirely on its powerful sword arts.

The power of that sword was comparable to Su Yu’s sword when he was at his peak!

How could Lu Tianji and the others possibly defeat such a terrifying swordsmanship?

Fortunately, Li Yue retreated in time and avoided the disaster.

However, flower fairy and Tuoba Lun took the opportunity to leap into the center of their palms and attacked the dragon soul.

“Hundred Blossoms Sword Art!”

“Frost Snow Feather!”

The Dragon Soul was attacked and its body dimmed a little.

He was strong, but as a soul, he was also very weak.

“Yellow Heaven Dragon Sword technique, second move, Heaven Sword!”

Hualala --

A tiny sword qi visible to the naked eye seemed to be the first ray of light that could split the heaven and earth, sweeping across the primal chaos universe.

Looking at this scene, Su Yu’s heart shook.

How similar was this move to Devil Sword Emperor’s Heaven and Earth Sword Formation?

The difference was that it was even stronger than when Su Yu used it.

Even a galaxy overlord level creature might not be able to withstand this sword.

Lu Tianji’s brows were heavy. His two hands moved quickly as he shouted, “Vicious Lord Shuangtian, retreat quickly!”

Flower fairy slipped away. Although Tuoba Lun’s reaction was slower, he had the advantage in his movement technique. Instead, he was one step ahead of flower fairy and returned to the outside of the palm print.

“Aiyo...”flower fairy’s butt was swept by the weak sword qi. She immediately covered her butt and cried out.

Out of the four dragon fingers, only Su Yu was still there.

He did not suffer any sword qi attack. He took advantage of the situation and flew toward the dragon soul with a fierce look in his eyes.

“Dark Night Meteor!”He used his finger as a sword and stabbed out repeatedly, creating several sparks in the air. With a puff, they burned.

The Dragon Soul’s body was hit dozens of times consecutively, and its body became more than 30% transparent.

In terms of effect, it was comparable to the sum of Tuoba Lun and flower fairy.

Everyone was delighted, but Li Yue frowned. “Why don’t You Use Your Sword?”

Su Yu’s mouth twitched. How could he dare to use the beauty under the moon?

Wouldn't that expose his identity?

At this moment, Lu Tianji hurriedly shouted, "The ominous light is in the sky, and all four paths are destroyed. Everyone retreat from the Dragon Finger. The most dangerous sword attack is coming."

This dragon soul was very unique. Every sword attack failed to defeat him, and all the damage that had been done to him was erased.

He continued to wait for the challenge with a new attitude. He became stronger and stronger until he forced everyone to retreat.

It was precisely because of this that they were unable to defeat the Dragon Soul for a long time. This was because they were unable to endure the third strike.

Su Yu had already heard about it on the way.

At this moment, he did not retreat. Instead, he spoke the dragon language and simply performed the seal technique.

His index and middle fingers, which were used as sword fingers, were surrounded by strands of milky white aura. It was surprisingly dragon power.

The sword fingers were contaminated with dragon power, and Su Yu pointed at it again. "Dark night meteor spike!"

Puff! Puff! Puff

A shocking scene appeared. It was the same move, but the damage to the dragon soul was two orders of magnitude.

The former made the dragon soul appear 30% weaker, but this finger actually made the dragon soul appear 90% weaker!

And the opponent had already used the most dangerous sword move.

"Yellow Sky Dragon Sword art, third move, Yellow Sky Sword!"

The heavens were dead, and the Yellow Sky was standing!

Behind the heaven sword was an even more powerful move, Yellow Sky Sword!

At this moment, Su Yu could almost hear his heartbeat. Before he could use his sword art, he already had a premonition that he would die.

Not only would his body die, but his soul would also die.

Bang Bang --

The huge crisis caused Su Yu's soul to tremble violently, and it affected the crystal soul space.

At this moment, the Silent Stone Dragon Bone Sword suddenly flew up and landed in Su Yu's palm.

Su Yu felt something strange in his hand and didn't have time to think about what it was. He stabbed out with his sword. "Dark night meteor spike!"

Bang --

A powerful piercing sound exploded in everyone's ears, causing their ears to buzz.

What surprised them even more was that the dragon soul holding the sword was pierced through by a powerful dragon-shaped sword qi and instantly disappeared.

Looking closely, Su Yu held a strangely shaped petrified dragon bone in his hand.

A corner of it was a white dragon bone that gave off a majestic dragon power.

It was this strange petrified dragon bone that destroyed the dragon soul in one fell swoop.

Su Yu's heart palpitated as he lowered his head to take a look. While he was shocked, he immediately realized that something was wrong.

However, it was already too late.

A cold gaze had already locked onto him.

"It's You!" Li Yue flew over. She was both angry and grateful.

She was still discovered. Su Yu put the fossilized dragon bone into the sword-shaped storage ring in front of Li Yue.

"You..." Li Yue was a little angry and wanted to laugh. "Sir, don't you want to explain?"

Su Yu said, "Explain what?"

"May I ask, sir, where did this dragon bone come from?" Li Yue asked.

"I picked it up." Su Yu was neither salty nor indifferent.

Li Yue pulled out her jade-green longsword and stared at Su Yu. "Do I have to use my sword?"

Su Yu turned his head and said indifferently, "You have to be stronger than me!"

Hearing this, Li Yue realized how powerful the dragon bone and Su Yu's swordsmanship were. The Dragon Soul would be destroyed in one strike!

She had no chance of winning

These words also reminded everyone.

The Dragon Soul was already destroyed. How should the treasures be distributed?

Everyone's gazes were all focused on the dragon bone in the center of the palm print, and they all pounced over.

Su Yu was also pouncing over!

The difference was that Su Yu was right in front of the dragon bone.

Chapter 1618 Showing His Ferocity

He leaped onto the divine dragon skeleton.

There were a total of five sections of the dragon skeleton. Su Yu grabbed the central section.

This section of the spine was the longest and the most complete. The dragon marrow it emitted was also the thickest.

He grabbed this section in his palm without hesitation.

“Su Yu! What are you doing? Didn't we agree to distribute it according to the rules?” Flower fairy shouted in a deep voice. She also leaped over and stood on this section of the dragon skeleton.

Anyone with a discerning eye could see that the dragon bone in the middle was the best.

Following that, Tuoba Lun, Lu Tianji, and Li Yue rushed over one after another.

They each took a dragon bone and glared at each other.

The results of the excavation of the dragon bone was the most important part -- how to distribute it!

“Su Yu, according to our agreement, we'll split it 30-40,” flower fairy said. “You're breaking the rules by forcefully snatching it now.”

Su Yu shrugged and held the dragon bone without any intention of letting go. He said, “Just now, I think you also pounced on me, but I was just one step closer!”

Flower fairy snorted and said, “In short, since the Dragon Soul has been destroyed, everything will be distributed according to the agreement! Lu Tianji and I will each get 30% , and the two of you will each get 20% .”

“Haha, Ridiculous!” Tuoba Lun laughed sarcastically. “Why should each of you get 30% , but the two of us can only get 40% ?”

Flower fairy said, “This is a prior agreement!”

“HMPH, then did we agree to only let Su Yu destroy the Dragon Soul Alone?” Tuoba Lun sneered. “It was all Su Yu's work to destroy the Dragon Soul. Where did you get the thick skin to distribute it according to the original agreement?”

His words caused flower fairy's face to turn red.

Indeed, it was almost all thanks to Su Yu's last stunning strike that the sword soul was destroyed.

At that time, she, Tuoba Lun, Li Yue, and the others had all retreated from the area where their palms were. It was Su Yu who had destroyed the dragon soul alone.

In terms of contribution, Su Yu had taken all of it.

Flower fairy asked back, “What About You? Isn't it the same? What have you done?”

Tuoba Lun gave an enigmatic smile. “Hehe, I have indeed done nothing, so I suggest that more than 90% of the dragon bones be given to Su Yu.”

Lu Tianji and flower fairy frowned when they heard this.

Of course, Tuoba Lun was not so kind as to fight for Su Yu's benefits.

He wanted to give most of the dragon bones to Su Yu, and then use the agreement between him and Su Yu to split half.

“Tuoba Lun, I admit that Su Yu has made a great contribution, but if we take away most of the resources like this, won't our years of hard work go down the drain?” Flower Fairy said unwillingly.

Tuoba Lun leisurely shook his head. “So, I left you 10% .”

10% ? Even hard work and money weren't enough!

Lu Tianji pondered for a moment, he said, “Plans can't keep up with changes. If brother Su kills the dragon soul alone and continues according to the previous agreement, it's really unfair. But if we give you most of the dragon bones, it's also unfair to us. We've spent a lot of effort and money to discover this place and to prepare for it.”

“How about this? Flower Fairy, Tuoba Lun, and I will each get 20% while brother Su will each get 40% ?” Lu Tianji said.

Tuoba Lun raised his eyebrows. He was unwilling to agree, but Su Yu had already agreed. “Sure.”

If they really couldn't reach an agreement, the two sides would definitely fight.

Lu Tianji, flower fairy, and Li Yue were working together, but Su Yu and Tuoba Lun couldn't contend against them.

To be able to monopolize 40% was not bad.

Su Yu did not stand on ceremony and chose two dragon bones, including the best one.

Lu Tianji and the other two took one each.

With that, the distribution of the Dragon Cave ruins was completed.

“This trip is over. Let's part ways here.” Lu Tianji and flower fairy looked at Su Yu with complicated expressions.

They exchanged a look with each other, both of them feeling regretful.

He and Tuoba Lun would not end well if they worked together.

After they left, Tuoba Lun would show his fangs!

“Wait!” However, Tuoba Lun stepped forward and blocked their path.

Flower fairy narrowed her eyes. “What's the matter?”

Tuoba Lun laughed mockingly. “Nothing much. I'm just not satisfied with the distribution of the Dragon Bones.”

“Brother Tuoba, the distribution between us has been completed as promised. The rest is between you and brother Su. Why are you stopping us?” Lu Tianji asked calmly.

“HMPH! Lu Tianji, Lu Tianji, your prediction is as good as God's. Why Don't you try divining a divination? What's My 'purpose'?” Tuoba Lun's teasing expression deepened.

Hearing this, the faces of flower fairy and Lu Tianji sank at the same time.

Could it be that Tuoba Lun not only attacked Su Yu, but also dared to attack them?

“Uncle, are you all ready?” Tuoba Lun lightly shouted as he retreated from one of the dragon fingers to the edge.

Shua --

A gray figure appeared, holding four snow-white jade runes.

On each of the four Dragon Fingers, a similar jade rune appeared.

The Gray Shadow Man crushed the three runes in his palm. Correspondingly, the runes on the three dragon fingers also immediately exploded, releasing a shocking power that actually completely shattered the already fragile dragon fingers, leaving behind a dangerous void space.

In the blink of an eye, the three dragon fingers were destroyed, leaving only the last one leading to the outside world.

If this one was also destroyed, they would forever be trapped in the Dragon Claw’s Palm!

“Stop! Whoever dares to try to force their way in, immediately destroy the last remaining dragon finger, and you will never be able to come back!” Tuoba Lun revealed a fierce expression as he shouted ferociously.

Flower fairy was so angry that her entire body was trembling. Even in her dreams, she never expected that Tuoba Lun would actually dare to make a move against them!

Lu Tianji said calmly, “Tuoba Lun, what do you want?”

Tuoba Lun chuckled. “Is there a need to ask? Of course it’s the dragon bone! And everything that you’ve obtained in the Ten Thousand Dragon Cave these past few days!”

His greedy gaze swept over everyone’s sword-shaped storage rings one by one, and his expression couldn’t contain his excitement.

Flower fairy said angrily, “Tuoba Lun! Aren’t you afraid? Lu Tianji and I both died in the Ten Thousand Dragon Cave, and you were the only one to return alive. Do you think that our hundred flower family and Lu family will let this matter rest? If you don’t want to cause more trouble, immediately...”

“HMPH!” “I only need to tell your family that when you were digging the Dragon Cave, you were discovered by the people from the Sword Pavilion. The two of you didn’t manage to escape in time and died in their hands. Do you think that your family has the guts to ask the Sword Pavilion for the truth?” Tuoba Lun laughed wantonly.

The faces of the hundred blossoms family and Lu Tianji darkened. The answer was very clear. No.

The Hundred Blossom family and Lu family would never dare to admit that they were plotting against the Dragon Cave.

“If you want to live, there’s only one way!” Tuoba Lun licked his lips, his face showing that his plan had succeeded. “The four of you, throw over all the sword-shaped storage rings in your hands. I can consider letting you off!”

The four’s expressions didn’t improve in the slightest.

Even if they handed over the sword-shaped storage rings to Tuoba Lun, he would still not keep his promise to let them off.

But did they have a choice?

Lu Tianji took off the storage ring and threw it on the dragon finger. “Tuoba Lun, think carefully before you act.”

Flower fairy also took off the storage ring with hatred and threw it on the dragon finger across space.

Li Yue and Su Yu followed suit and all chose to obey.

Whoosh --

The Gray Shadow flew over and rolled up its sleeves, taking away the four sword-shaped storage rings.

Tuoba Lun laughed sinisterly when he saw this scene. “I’m sorry, but I’ve already thought it through. It’s even more impossible for me to let you leave!”

PA --

The gray figure crushed the last jade rune, and the dragon finger exploded.

Just like that, the last piece of space that connected to the outside world turned into nothingness.

“Tuoba Lun!” Flower fairy clenched her silver teeth, making creaking sounds.

Lu Tianji let out a long sigh and closed his eyes helplessly.

The result was not unexpected.

“Hahaha, Lu Tianji, Flower Fairy, the dragon cave that you guys painstakingly dug out belongs to me alone!” Tuoba Lun held four sword-shaped storage rings in his hands, he was extremely excited. “Just the dragon marrow of this divine dragon can help me break through to the mortal gate of the Second Level Heavenly Abode’s World Paragon!”

“Moreover, there are still many good treasures in the four storage rings.” He took out one of Su Yu’s and sneered, “You didn’t expect that the Petrified Dragon Bone that you hid would ultimately belong to me!”

That arrogant and arrogant expression of a villain made flower fairy’s teeth itch, but she couldn’t do anything about it.

However, Su Yu himself was extremely silent.

Tuoba lun teased, “I won’t stand on ceremony and accept all of your things!”

He opened Lu Tianji and flower fairy’s storage rings one by one and took out the items inside.

Starlight Grass, heaven and earth spiritual items, various rare materials, and of course, the most precious dragon bones were all taken out one by one and transferred to Tuoba Lun’s storage ring.

Finally, when he opened Su Yu’s storage ring, he chuckled. “I don’t know what other good things you have other than those two dragon bones and petrified dragon bones. Unfortunately, they are all for me, Tuoba Lun!”

However, when his soul swept over, he couldn’t help but stiffen on the spot.

After a long while, he came back to his senses and stuttered, “Where are the things? Where are the things inside?”

There was nothing inside the sword-shaped storage ring, not even a blade of grass!

As for the so-called stone dragon bone sword and the two dragon bones, they were nowhere to be seen.

Tuoba Lun raised his extremely stiff face and shouted sternly, “Where are the things? I clearly saw you put the fossilized dragon bones and remains into the storage ring!”

In the Ten Thousand Dragon Cave, the other spatial storage items were restricted and could not be opened.

Only the sword-shaped storage item specially made by the Jian Xuan could be opened in the Ten Thousand Dragon Cave.

Su Yu could not possibly hide it in his personal storage item.

However, in the sword-shaped storage item, not to mention the two items, there was nothing else.

Hearing this, Su Yu raised his eyes and said indifferently, “Oh, I forgot to tell you that I conveniently took a sword-shaped storage item from the Murong clansmen that you killed, so I actually have two.”

With a flip of his palm, he took out another sword-shaped storage item. “Everything you said is in here. Unfortunately, before I could throw it out, you blew up the bridge. Now, I can’t even give it to you, sigh.”

Everyone was stunned. Su Yu actually had a trick up his sleeve!

Tuoba Lun was furious. “You tricked me?”

Flower Fairy, who was originally in a rage, couldn’t help but laugh out loud, her swaying body was like a flower branch that was trembling. “Haha, I’m dying of laughter. You thought you were so smart and played a trick, but in the end, you only managed to get half of the Dragon Cave’s resources. Hahaha...”

Chapter 1619 Chess

Tuoba Lun tugged at his palm and glared at Su Yu. His face was filled with killing intent. “I should have killed you!”

“Unfortunately, you didn’t.” Su Yu shrugged and teased, “Why don’t you jump over here and kill me again, brother Tuoba?”

“Haha...” flower fairy laughed so hard that she leaned back and forth. She was extremely happy, and her anger from before was swept away.

Tuoba Lun’s blood and Qi attacked his heart. His entire body trembled, and he gritted his teeth. He glared at her and shouted angrily, “Su, you will be trapped on this island forever until you die! HMPH!”

He flicked his sleeves and left, leaving the blood mountain together with the Gray Shadow Man. He also blocked the secret passageway in the Blood Mountain.

As a result, no one in the world knew that there was a hidden dragon cave under the Blood Mountain.

And no one knew that four people were trapped in the Dragon Cave.

When Tuoba Lun left, flower fairy gradually stopped laughing. Her face became heavy.

This place became an isolated island. If they were trapped here forever, how could it not be heavy?

Li Yue calmly observed the area around the palm print. She shook her head and said, “There’s no way to go. This area is void space. Unless you have a strong body at the Emperor Realm, you can’t get up if you fall into it. There’s no exception.”

It was different from the void in Taotie’s stomach.

The void in the absolute beginning realm was the real void. It had no life and no death. Once they fell into it, they couldn’t come back until they were crushed into dust by time and became a part of the void.

Now, they were really trapped. Even if someone from the outside world came to their rescue, they couldn’t do anything.

Lu Tianji took out a silver scroll. His hands were like phantoms, moving rapidly to predict their fate.

Flower fairy and Li Yue cast their gazes over.

The only one with Hope was Lu Tianji.

If he could find a way out..

“All four sides are destroyed. It’s hard to break the deadlock.” Lu Tianji put down the silver scroll and sighed dejectedly.

The divination indicated that their fates would be trapped in this place forever. No matter where they were, there was no hope.

Even Lu Tianji was helpless. Flower Fairy’s eyes dimmed as she sat on the ground, exhausted.

Li Yue was also silent. Her cold and beautiful face had traces of sadness on it. No one knew what she was thinking about.

When they had no hope, Su Yu stood up and went to the remains of the Divine Dragon.

The battle with the Dragon Soul just now had left the surroundings in ruins.

He walked and stopped, looking around.

Until the last moment, Su Yu never believed in the so-called fate.

Unfortunately, when the Dragon God was buried here, he didn't have time to leave any more things behind. Other than the remains and remnant soul, there was almost nothing else..

Wait!

Suddenly, a bright spark flashed in the depths of Su Yu's mind.

Remnant soul... the existence of the remnant soul had to rely on some kind of power to maintain it, right?

The remnant soul of the Dragon God had survived until now. There must be something that continuously provided him with power.

Moreover, every time the remnant soul was injured, it could recover instantly.

It would be strange if there was no way!

Su Yu shook his sleeves and sent a large area of ruins flying. His eyes searched under the ruins like lightning.

His strange behavior made flower fairy slightly curious, but they were not interested in him at all.

They heard the sound of the ruins flying again and again. After two incense sticks had burned, a faint smile fell into everyone's ears. "We've finally found it."

Everyone looked towards the direction of the sound and saw Su Yu holding a chessboard.

They all recognized the chessboard. It was the chessboard that Dragon Soul had played when they came.

Their eyes lit up. Lu Tianji felt something and took out the silver scroll again. The messy lines on it automatically changed.

"Sword pointing at the celestial phenomenon?" Lu Tianji said in surprise, "Unbelievable!"! Sword pointing at the sky had the intention to defy the heavens and change fate. Only the great evil, great evil, and great traitors in the world could show such a divination. However, all of them were famous murderers in the absolute beginning realm. As for Su Yu..."

How could a mere mortal immortal realm warrior be that kind of existence?

However, no matter what, fate had indeed changed because of Su Yu's untiring excavation.

Everyone quickly surrounded the chessboard and looked at it carefully.

"Su Yu, did you find anything?" Flower Fairy's heart was surging like a drowning man who had caught a life-saving rope. She asked nervously.

Su Yu nodded. "I think I found something!"

He looked at the chessboard. This was a chess game that was in progress.

It was Bai Fang's turn to place his stone.

Su Yu casually pointed out a white stone.

In an instant, a soft sigh that made their hair stand on end was transmitted from behind them.

"Sigh, you guys still found it!"

Turning around, they saw an elegant figure dressed in white standing in front of them.

It was none other than the defeated Dragon Soul!

It didn't die!

Flower Fairy, Li Yue, and Lu Tianji looked as if they were facing a great enemy. As they recalled the terrifying figure of the dragon soul, they couldn't help but feel fear.

"Don't worry. Since you've started the chess game, you've accepted my second Test." The Dragon Soul had no intention of attacking.

Flower fairy said, "Test? But in our current situation, so what if we pass the test?"

Dragon soul said, "Don't worry. I've left behind a Great Dao Law in the game. It's enough to send you out of here."

Hearing this, everyone was overjoyed.

Su Yu's eyes flashed. "What exactly do you mean by the test?"

Dragon soul pointed at the chessboard. "Of course, it's Chess!"

He casually drew out a few streaks of dragon power and condensed them into a stone table and chair. At the same time, he invited Su Yu and the others to sit down, he explained, "This chess game is a dead end. Although the white side has the majority of the chess pieces, no matter what, the black side will defeat the black side because the black side is too strong."

Listening to his explanation, Su Yu could not help but think of the many divine dragons that surrounded and attacked the world creation dragon. Instead, they were killed by the World Creation Dragon.

"Before my death, my obsession was unquenchable, hoping to find a way to break the chess game. Unfortunately, I have painstakingly studied for countless years and lost again and again. At most, it can only be a draw. If you can let Bai Zi win one game, you can activate the power of the Great Dao laws in the chess game and send you away."

"At the same time, you can also practice the Yellow Heavenly Dragon Sword Technique."

Hearing this, everyone's hearts pounded. Dragon Soul's three sword moves were extremely powerful. How could they not yearn for it?

“Let me try!” Flower Fairy was the most agile. Sitting on the white square, she immediately placed herself on the chessboard and thought of a countermeasure.

She was intelligent and agile. She made a few brilliant moves in succession, causing dragon soul to reveal a look of approval.

However, after taking ten steps, flower fairy was swept away by the powerful Blackie and was instantly defeated.

Dragon soul shook his head regretfully. “Not yet.”

“I’ll give it a try too.” Li Yue went up to the battle.

As calm and collected as she was, she displayed an unexpectedly fierce aura while standing on Bai Zi’s side.

Bai Zi’s fierce attack easily swept away a large number of hei zi, and it could be said that he was unstoppable.

Dragon Soul’s eyes lit up slightly, and then, when the powerful hei zi destroyed all of Bai Zi’s advantages in one night, it dimmed again.

“It’s not bad, but, sigh...”

“I’ll do it!” Lu Tianji’s face was filled with confidence.

He, who had attained dao through divination, was best at the art of sudden change.

And chess skills were precisely the art of sudden change.

The moment he started, he immediately displayed a completely different temperament from the previous two. He was neither fast nor slow, and he was calm and unhurried.

Bai Zi had set up the formation from the beginning, and there was nothing that wasn’t mysterious.

The Dragon Soul revealed a trace of anticipation, and one could even see a slightly nervous expression on his face.

Once the arrangements were in place, the black and white sides quickly engaged in battle.

From the beginning, Bai Zi had fallen into an absolute advantage. All sorts of advantageous arrangements were put in place to defeat Hei Zi at the first moment.

At the same time, Bai Zi had endless changes. Once he was attacked, he would be flexible and change his ways, trying his best to reduce the number of casualties.

This went on for a full six hours.

The excitement in Dragon Soul’s eyes became more and more intense. In such a long battle, he would only be like this once in a while when he reached a draw.

What did this mean? It meant that Lu Tianji was very likely to reach a draw or even win.

“The most critical moment has arrived.” Dragon soul stared at the king-like central hei zi.

Once heizi made his move, as expected, Bai Zi suffered a large number of casualties.

However, Lu Tianji didn't lose because of this. Instead, he was prepared and launched a second wave of attacks.

Unfortunately, Blackie was too strong and wiped out another large number of them.

Bai Zi didn't have the obstruction of ordinary Blackie and continued to create new ones, preparing for the third wave of attacks.

Thus, the central Blackie continued to wipe out Bai Zi.

However, the number of Bai Zi continued to increase.

Both sides were in a stalemate.

Lu Tianji's palm shook, and a trace of blood flowed down from his wrist.

He said tiredly, "It's a draw."

The Strange Light of the Dragon Soul that burned people instantly dimmed. He forced a smile and comforted him, "Young man, it's not easy to use divination to such an extent. Not bad."

Lu Tianji smiled bitterly.

He was still unable to do it. It seemed that their fates had not been completely reversed. It was still a dead end.

"Looks like I'm the only one left." Su Yu walked over and sat calmly in front of the chessboard,

Long Hun said, "Let's begin."

Su Yu nodded and began to play chess.

He placed the stones extremely quickly. He didn't think at all and kept on making the stones.

Long Hun frowned slightly. To be honest, he had the greatest expectations for Su Yu.

That was because Su Yu was the only one who could withstand the three moves of the Yellow Sky Dragon Sword technique.

However, on the chess path, Dragon Soul could see that Su Yu's techniques were rusty and he was not good at chess.

The chess moves he made also appeared immature and there was no order to them.

Most importantly, his casual attitude.

He was a little displeased and reminded, "This is where my obsession lies. If you have any respect, please play seriously."

However, at this moment, Su Yu seemed to be in a meditative state as he quickly placed his own pieces.

Dragon Soul was a little angry as he said, "Young Man, your companion has already lost his chance. If you continue like this, Don't blame me for Disqualifying You!"

Su Yu continued to do as he pleased as if he could not hear the voices of the outside world.

Flower fairy wrinkled her nose slightly. "What is this fellow doing? Although I did not count on him, he should not be so childish, right? I can tell that he does not know anything about chess."

At first, Lu Tianji thought that Su Yu's seemingly chaotic arrangement might have some rules, but after looking at it for a while, he couldn't help but sigh and shake his head.

Li Yue, on the other hand, was staring at the chess game, deep in thought.

The look in that person's eyes when he was focused made her think of someone.

"Enough!" Dragon Soul was slightly angry. He stood up and said, "Your qualification for the test has been revoked. Leave the chessboard!"

However, Su Yu was still sitting in front of the chessboard. At this moment, he finally stopped. He raised his head and shot an inquiring look. "What did you say just now?"

Long Hun laughed in anger. He couldn't be bothered with it and conveniently kept the chessboard.

However, when his gaze swept across the chessboard, his entire body trembled. His eyes widened and he was stunned on the spot.

Chapter 1620 The Incident Had Happened

The seemingly scattered white stones appeared to be in an extremely mysterious situation as the last white stone landed.

The unorganized white stones were stacked on top of each other, interweaving the entire chess game.

They did not attack the black stones as fiercely as Li Yue, nor were they as careful as Lu Tianji. Instead, they were scattered all over the place.

When the black and white chess pieces were fighting head-on, the unexpected changes shocked the dragon soul.

The white chess pieces did not kill *Hei Zi* immediately. In fact, some of them were killed by *Hei Zi*.

However, the scattered white chess pieces seemed to be lifted up by a thread and kept shrinking.

The white chess pieces that were killed seemed to have been deliberately arranged in half. After they were killed, it was actually more advantageous for the white chess pieces to shrink!

The Dragon Soul saw this and his eyes shone brightly. He stared at the entire chess game without blinking. He was shocked again and again. "Every move has a mystery. There are 320 white stones in the entire game, and not a single one is superfluous!"

He had played chess for countless years, but he had never played such an incomparably mysterious chess game.

The seemingly messy white stones all contained the effect of turning the world around.

Not long after, a shocking scene appeared.

The white seeds shrank and forced all the black seeds to a corner, making them unable to move.

The extremely powerful central black seed moved left and right, wanting to charge out again. However, it was blocked by its own black seeds everywhere and could not leave.

Just like that, the central black seed and the ordinary black seed were forced to a corner!

Without a doubt, the final winner was the white side.

Su Yu said calmly, "There is no enemy without a weakness in this world, and the same goes for the Central Blackie. It can only attack the white piece and can not attack the Blackie. This is the rule of the game, and it is also the only weakness of the central Blackie. If that's the case, why not use the Blackie?"

The Dragon Soul seemed to have woken up from a dream and muttered, "Defeating the enemy and winning. I have played chess for countless years, but I did not think of this."

His expression could not hide his excitement, but it also could not hide his lingering disappointment. "So, back then, we still had a chance of winning. It's just that we didn't meet a compatriot like you."

He grabbed the chessboard and crushed it.

A transparent dragon horn fell into his palm.

He gazed deeply at Su Yu and said, "Human, my obsession is gone, and I'm about to disperse. According to the agreement, the 'Yellow Heavenly Dragon Sword Technique' is yours!"

Su Yu took it and immediately felt a surge of majestic dragon power, which also contained a great dao law.

"Use this great dao law, and you can break through the void seal and reach the nearby area." The Dragon Soul waved his hand, and the Great Dao Law in the transparent dragon horn was activated, creating a passage in the void.

Outside the passage, a familiar aura came from the outside world.

"Let's go." The Dragon Soul waved his sleeve, and Su Yu and the others were sucked in.

The dragon soul gradually dissipated, and finally turned into crystal-clear soul fragments, completely vanishing.

The Aura from the outside world surged in, and what entered everyone's eyes was actually the entrance they had entered the Ten Thousand Dragon Cave!

People from the nearby island factions rushed over one after another, preparing to leave the Ten Thousand Dragon Cave.

They had actually returned to this place in one step!

Having survived a desperate situation, everyone felt relieved and let out a long breath of turbid air.

Except for Lu Tianji!

He stared at Su Yu, his eyes filled with a complicated light.

He asked himself if he had the ability to predict the future, but he couldn't see through the chess game that Su Yu had set up until the last moment!

“How did you do it? Did you use some unknown divine weapon to help?” Lu Tianji asked.

Su Yu said, “It’s just calculation and analysis. Brother Lu, you’re worrying too much.”

In terms of calculating power, even ten Lu Tianji added together could not compare to Su Yu alone. That chess game was amazing to others, but to Su Yu, it was just a waste of energy and brain power.

“Everyone, let’s go out first. The Ten Thousand Dragon Cave is about to end,” Su Yu interrupted Lu Tianji’s topic and changed the topic.

There weren’t many people left in the Ten Thousand Dragon Cave. Most of them had already left.

Lu Tianji couldn’t help but retract his words. He nodded and left the Ten Thousand Dragon Cave with everyone.

Back to the outside world.

As expected, the people of the sword pavilion had arranged a large army to guard the exit in case any island forces escaped with their sword-shaped storage items.

The moment they appeared, they immediately attracted the attention of two young disciples of the Sword Pavilion. One of them was Hong Lei.

“Three stage three heavenly grotto-level World Paragons and one stage four mortal immortal? HMM, this should be the last batch.” Hong Lei released the powerful aura of stage one heavenly grotto-level world paragons, suppressing the four of them.

“Line up and check. Stand aside,” Hong Lei shouted.

Su Yu stopped as he was told. At the same time, he looked around and found that the people of the Xue family were already waiting outside, including Murong Qingcheng who was accompanying them.

Naturally, he wasn’t surprised to see Tuoba Lun.

He was talking and laughing with the people of the divine feathers race. He was in high spirits.

He only looked up when he sensed a few hostile gazes. However, this glance almost made his face freeze. He cried out involuntarily, “How... How did you guys get out?”

Even the emperors of Heaven and earth couldn’t do anything when they were surrounded by the void. How did they get out?

Sensing the killing intent of flower fairy and Lu Tianji, Tuoba Lun’s heart sank.

After his expression changed continuously, he came to Hong Lei’s side and said, “Lord Hong, I want to report the three of them!”

“Oh? Report what?” Hong Lei asked.

Tuoba Lun stared at them coldly and gritted his teeth. "I'll report them for digging up the remains of the Divine Dragon!"

Huh? The nearby island forces were all shocked. They cast shocked, envious, and gloating gazes at the same time.

The Sword Pavilion had never stipulated that the island forces were not allowed to dig up the remains of the Divine Dragon.

However, their bloody methods woke them up again and again. They were not allowed to get their hands on it.

Now that they were reported in public, the sword pavilion would not let it go.

"Really?" Hong Lei was also shocked. He stared at Su Yu and the others with a sharp gaze.

Su Yu's expression was calm as he said indifferently, "If he says so, then so be it? I even reported him for subverting the sword pavilion."

Hong Lei's gaze narrowed into a line as rays of light shot out. He said leisurely, "He has already taken the initiative to hand over a large batch of dragon bones. The other portion is in your hands, right?"

"HMPH HMPH!" The corners of Tuoba Lun's mouth curled up as he revealed a sinister smile.

Although the dragon bones were precious, it was a pity that they couldn't be taken away. It was better to take the initiative to hand them over to the sword pavilion and obtain some benefits.

For example, he had won Hong Lei's favor.

Of course, Hong Lei himself had also secretly taken a portion of the dragon bone from that batch of dragon bones and profited immensely.

Su Yu wasn't too surprised. The dragon marrow that he couldn't take with him was either used on the spot in the Ten Thousand Dragon Cave or handed over to Jian Xuan.

"I'm sorry, I still don't understand what he said. I've never seen any dragon bone before," Su Yu said indifferently.

Hong Lei stared at Su Yu. For some reason, this person's tone made him feel a little familiar.

Perhaps, this person had seen him when he descended on an island.

Suppressing the surprise in his heart, Hong Lei stared at Flower Fairy, Lu Tianji, and Li Yue.

They were not like Su Yu, who was able to look straight into the eyes of a first-level heavenly abode's world paragon. All of them felt guilty.

However, since Su Yu spoke first, they could only brace themselves and say, "We don't know about the so-called remains of the Divine Dragon."

Hong Lei had seen countless people. How could he not see the guilt hidden in their expressions?

He laughed coldly and waved his hand, "Follow me. Let's talk somewhere else!"

Under everyone's watchful eyes, Hong Lei led them into a huge secret chamber.

This was the secret chamber that Jian Xuan specially inspected the sword-shaped storage ring. The security was extremely tight, and no one could leave until it was thoroughly inspected.

"Tuoba Lun, you're the person involved, come in as well." Before Hong Lei entered, he pointed at Tuoba Lun.

Tuoba Lun smiled and strode in with an imposing manner.

The moment they left, the people from the nearby island forces were in an uproar.

"From the looks of it, Tuoba Lun has tricked Lu Tianji and the others!"

"Hehe, Tuoba Lun has always been ruthless. I think Lu Tianji and the others are in big trouble."

"Even without Tuoba Lun, they would still be in big trouble! It must be known that if they recklessly touch the remains of the divine dragon, they have touched the reverse scale of the Sword Pavilion!"

Hearing this, everyone nodded in tacit understanding.

If they dared to touch the remains of the Divine Dragon, once they were verified, given the style of the Sword Pavilion, Lu Tianji and the others would definitely die.

"That black-robed lady and masked man died just like that, they are just nobodies. However, Lu Tianji and fairy flower are ranked in the top three among the younger generation. It's truly a pity that they died so tragically at the hands of the Sword Pavilion."

Hearing the many discussions, the hearts of the Xue clan members sank.

Xue Yu went to the Dragon Cave and never returned. There was a high chance that he encountered Jian Xuan and died tragically on the spot.

They waited for a moment in silence. After confirming that the entrance to the Ten Thousand Dragon Cave was closed, they left silently.

"Sigh, it's the will of Heaven." Xue Changzhi flicked his sleeves and his back was lonely.

It was not easy for him to see the hope of the Xue family rising again. However, at this moment, he was slapped back to the cold and cruel reality.

Murong Qingcheng sighed softly and followed the people of the Xue family back to the Twin Stars Island.

In the secret room.

Hong Lei was sitting on a big horse, leisurely enjoying an unknown top-quality tea. He glanced at Su Yu and the other three who were standing side by side in front of him.

“You should know how the Sword Pavilion will deal with those who excavate the remains of the Divine Dragon, right?” Hong Lei looked at them and said with a sharp tone, which made Lu Tianji and the others, who were already nervous, even more uneasy.

Beads of sweat appeared on Lu Tianji’s forehead. He secretly did a divination. His future was uncertain, and his fate was uncertain. It was difficult to see the direction of his future.

This was because Hong Lei was too powerful. His powerful aura affected the divination effect.

Flower fairy also tightened her flower sleeves, feeling particularly uneasy.

Their original intention of excavating the remains of the divine dragon was to refine the dragon marrow on the spot and never bring it out in case Jian Xuan found out.

Who would have thought that Tuoba Lun would take the initiative to offer the dragon bone and publicize the matter of excavating the remains of the Divine Dragon.

The matter was far beyond her control. She felt like an ant in the palm of her hand.

As long as this Hong Lei in front of her had a single thought, he could bury them here forever.

No matter how many ideals they had and how glorious their future would be, they could not compare to a single thought from Hong Lei.

The deep pressure made it hard for the three of them to breathe.

At this point, they could only brace themselves to the end. No matter what, they could not admit that they had dug up the remains of the Dragon God.
