

Nine-Dragon 1621

Chapter 1621 Mutual Destruction

Lu Tianji said cautiously, "Sir, we really don't know anything about the remains of the Divine Dragon. I hope you can understand."

Flower fairy lost her usual liveliness and said carefully, "Sir, we are gathering resources outside according to the rules. We would never dare to touch the remains of the Divine Dragon in the Dragon Cave."

Li Yue said seriously with a serious face, "We are being slandered."

The three of them insisted that Tuoba Lun was slandering them.

Tuoba Lun crossed his arms leisurely and sneered coldly. "No? Then where did my divine dragon's remains come from?"

Li Yue said seriously, "I picked it up on the way."

"Try picking one up!" Tuoba Lun laughed angrily. "Dead ducks are stubborn! Lord Hong, there's no need to waste time with them. Just check the sword-shaped storage ring with the surname Su and you'll know if what I said is true!"

Hong Lei's eyes flashed as he fixed his gaze on Su Yu. He said, "You won't give up until you reach the Yellow River? To be honest, I've met too many people like you in this secret chamber. You Won't give up until the last moment."

He inhaled through the air and took Su Yu's storage ring. He said coldly, "I've given you a chance to repent and turn over a new leaf, but you didn't cherish it. Since that's the case, don't blame me for being impartial."

His original intention was to threaten and blackmail them. If they were as sensible as Tuoba Lun and took the initiative to show filial piety, then the big matter would be turned into a small matter.

Unfortunately, Lu Tianji and the others had difficulties to speak of. They couldn't admit that they had dug the Dragon Cave.

Since that was the case, they could only do it professionally.

Hong Lei secretly felt sorry for the Precious Dragon Marrow. He couldn't keep it and could only report everything to the higher-ups.

With a trace of regret, he looked at Su Yu and the others with more and more hostility.

Opening the sword-shaped storage device, Hong Lei scanned it with his soul, and his face froze.

Tuoba Lun smiled. "Sir, are you surprised by their courage? They dug out the dragon bone without permission, but they still stubbornly refused to admit it? "Humph, I suggest that we punish them severely. Not only them, but also their families, we should give them a bloody lesson. Only then can we conquer the Sword Pavilion Sea Area..."

However, Hong Lei took back his soul without saying anything. He flicked his fingers and three strange auras landed on Lu Tianji, flower fairy, and Li Yue.

The three auras circled around their bodies and returned to Hong Lei's fingertips.

"Where are the storage rings of the three of you?" Hong Lei's expression was strangely calm.

Lu Tianji and the other two looked at Tuoba Lun at the same time. It went without saying.

Tuoba Lun sneered, "I merely used a little trick to snatch their storage rings. All the resources have been handed over to Jian Xuan."

Hong Lei nodded lightly and said, "So, this is the only storage item?"

Tuoba Lun said, "Yes, I saw it with my own eyes. He transferred 40% of the remains of the divine dragon into this storage space. Why? Is there a problem?"

Hong Lei shook his head. "There is no problem."

Hearing this, Lu Tianji and the other two's hearts sank to the bottom. In the end, they could not hide it.

Lu Tianji laughed at himself. Jian Xuan had always been strict with the inspection of storage items. Could it be that the inspection of such an important item like the remains of the Divine Dragon would be overlooked?

He actually had such a self-deceiving thought. It was really laughable.

Flower fairy also sighed silently. If everything was over, it would be better to be trapped in the nothingness zone.

"But..." at this moment, Hong Lei frowned and added, "Why are there no remains of the Divine Dragon?"

He opened the storage ring and poured out everything inside.

There was only a light, starlight-emitting grass that fell to the ground.

Yes, there was only one starry grass!

Seeing this scene, everyone was shocked, especially Lu Tianji and the others.

They had seen Su Yu put the huge remains of the divine dragon and the fossilized dragon bone into the sword-shaped storage ring.

Was this another empty storage ring?

The storage ring that truly contained the remains of the Divine Dragon was another one?

No, the aura that Hong Lei had just released was specifically used to sense the sword-shaped storage ring. If Su Yu still had a storage ring on him, he must have sensed something.

Tuoba Lun stared blankly at the familiar scene and said in disbelief, "Surnamed Su, what kind of trick are you playing? Where is the item? Did you not bring it out?"

Lu Tianji and the others came to a realization. If Su Yu had hidden it in the Ten Thousand Dragon Cave and did not bring it out, then it made sense

“Enough!” Hong Lei frowned and stared coldly at Tuoba Lun. Then, he looked at Su Yu and the others with an even colder gaze.

His intuition told him that Tuoba Lun’s words were most likely true.

However, the other party must have used some kind of method to hide the remains of the Divine Dragon.

Holding the empty sword-shaped storage device, Hong Lei felt a sense of anger that he had been fooled.

He stood up, and his eyes shot out a threatening light. He said coldly, “Four of you, since you are too suspicious, I think I have to use the soul-searching ability!”

Lu Tianji’s eyes were wide open, and there was panic in his eyes!

Flower fairy and Li Yue also had a thick layer of uneasiness on their faces.

No one liked to be soul-searched.

Firstly, if the soul-searched person did not have extremely high attainments in the Dao of the soul, it was very easy to cause damage to the soul of the soul-searched person.

Secondly, the soul search meant that the secrets that they had hidden would be discovered without a trace.

And everyone had secrets that they did not wish to publicize.

This was the most frightening aspect of the soul search.

“Don’t worry, I have searched the souls of more than ten thousand people. I have never harmed a single soul.” Hong Lei strode over with a powerful aura, he suppressed the three of them until they could not resist. “However, anyone who needs a soul search to prove their innocence will not have a good ending!”

As the powerful aura rolled down, the cold words pierced through their minds like sharp arrows.

The Soul Search had begun!

“Let’s start with you!” Hong Lei stared at Su Yu and said coldly, “I don’t know why, but the first time I saw you, I felt disgusted. Let me first see what you are hiding behind your sneaky appearance!”

A powerful soul power instantly shot into Su Yu’s glabella.

This was the first step of the Soul Search. Using a powerful soul power, one could enter the soul of another person and investigate them without restraint.

This process was very painful, as if one’s body was being torn apart.

However, the one who screamed was not Su Yu, but... Hong Lei!

“Ah! My Soul! You Swallowed My Visiting Soul?” Hong Lei’s face was pale, and he couldn’t help but tremble. His eyes were wide open, and his face was full of pain.

He stared at Su Yu in disbelief, as if he had seen a ghost.

That's right, the part of the soul that he visited was actually swallowed alive by Su Yu!

Su Yu said indifferently, "You don't know death."

When the son of Heaven's aura-gazing technique was cultivated to the soul-devouring realm, it could swallow other people's souls for its own use.

It was good that he didn't take the initiative to Swallow Other People's souls. Hong Lei sending his own soul in was no different from courting death.

"Who are you?" Hong Lei bellowed furiously. "You are definitely not an ordinary member of the island faction. Tell me, who are you? How dare you cause trouble in the Sword Pavilion!"

Su Yu stood with his hands behind his back and said with a faint smile, "Envoy Hong, have you forgotten about me so quickly?"

A strong gust of wind blew past and tore off his black robe, revealing Su Yu's true appearance.

"Ah! ! It's You! Master... Master Xue!" Hong Lei was so shocked that he bit off his tongue.

If there was anyone whom he didn't want to meet in his life, it would be Su Yu.

Firstly, the other party had a terrifying identity. He was an appraiser personally recruited by the Master of Constellation Pavilion.

Secondly, Hong Lei had concealed his knowledge of Twin Star Island. He didn't want Jian Xuan to find out about what had happened there.

Hong Lei was still in a state of shock when Su Yu said, "After not seeing you for a few months, your status has risen significantly. To think that you have been placed in an important position by the young master of Jian Xuan. Not bad, not bad."

It would have been better if he hadn't said this, but once he said it, Hong Lei immediately revealed a pleading expression, he sent a voice transmission, "Master Xue, I, I didn't expect it to be you. It's all my fault for having a bad eye and contradicting master Xue. Will you forgive me this time? "If Jian Xuan finds out that I've caused a great disaster on Twin Stars Island, they'll definitely scratch me."

Su Yu leisurely sent a voice transmission, "I can forgive you, but how should we deal with this matter?"

Hong Lei was overjoyed. He stared at Tuoba Lun, who was at a loss, and his gaze turned cold. He sent a voice transmission, "Don't worry, Master Xue. I will give you a satisfactory answer!"

He could be said to be extremely resentful of Tuoba Lun. He couldn't even avoid Su Yu in time, yet Tuoba Lun had dragged Xue Yu in front of him and almost performed a soul search on him!

If this matter was known by the Star Pavilion, just thinking about it would make Hong Lei's feet feel cold.

After ending the voice transmission, Hong Lei regained his composure and changed his previous loss of composure. He said, "So it's master Xue Yu. Sorry for offending you."

Master Xue?

Lu Tianji and flower fairy exchanged a few glances and saw the confusion in each other's eyes.

They had never heard of a famous master Xue on an island in the Jian Xuan Sea.

The strange thing was that Hong Lei was still so polite!

Li Yue's eyes trembled. She stared at Su Yu without blinking. As if she was in a dream, she stood there in a daze.

After a long time, she felt relieved, relieved, and relieved. She looked around in the depths of her eyes and mumbled something that only she could hear. "No wonder he's so familiar. It's him."

Tuoba Lun was also shocked.

The Sword Master that he met by chance, the mysterious expert that he felt threatened by, was actually Xue Yu that he disdained?

Impossible! He couldn't accept such a reality.

"Lord Hong, please believe me. Search his soul immediately and you will definitely find the remains of the Divine Dragon!" Tuoba Lun shouted.

Veins were popping on Hong Lei's forehead. How many heads does he have to dare to touch the appraiser of the Star Pavilion?

If he angered the Star Pavilion, even the sword pavilion would be wiped out.

"Tuoba Lun!" Hong Lei bellowed. "Master Xue is a person of high standing, how could he lie? I suspect that you are the one who is framing him!"

What? Tuoba Lun was unable to adapt to the sudden reversal. He asked, "Master Hong, what do you mean? You have taken away so many of my resources and Dragon Essence..."

Hong Lei's eyes flashed with killing intent. "Shut up!"

The powerful aura directly sent Tuoba Lun flying.

Coincidentally, Tuoba Lun was flying in the direction of Su Yu's position.

Tuoba Lun felt Hong Lei's killing intent. He was not afraid but instead angered him.

Why did he become a stepping stone every time he met Su Yu?

Murong Island was supposed to take Murong Qingcheng away, but Su Yu made a move and caused him to return empty-handed!

In front of the Ten Thousand Dragon Cave, Murong Qingcheng's change of heart caused him to lose all face!

The remains of the Divine Dragon. He had plotted against Lu Tianji and flower fairy, but was instead plotted against by Su Yu!

Until today, a powerful figure like Hong Lei had actually supported Su Yu!

As the saying went, anger rose from the heart, and evil was born from the side of the heart.

Su Yu, who was rapidly magnifying, was reflected in his eyes. His anger exploded, and he growled, "Xue, I will perish together with you!"

Chapter 1622 The Master Of The Sword Pavilion

With the power of flying backward, Tuoba Lun shot toward Su Yu with a peerless momentum.

The snow-white feathers on his back turned into sharp thorns and stabbed toward Su Yu.

No one expected him to attack Su Yu.

For a moment, no one reacted.

Su Yu flashed with a sharp light and took out the beauty under the moon, shouting, "Dark Night Meteor Thorn!"

The tip of the sword left behind many brilliant meteors. They were like fireworks in an instant, stunning the dark night sky.

Puff Puff Puff --

Several white feather strikes were destroyed consecutively, clearing an area.

However, at this moment, Tuoba Lun was using his full strength. He had the intention to fight to the death. In addition, he had seen Su Yu's moves before, so he did not hold back when he attacked.

One white feather was empty, and the other white feather struck at an even faster and fiercer momentum.

Su Yu would definitely be able to pierce through that stance.

"Impudent!" Hong Lei finally reacted when Su Yu blocked the attack.

Without needing to make a move, just his unparalleled aura was like a tsunami, sending the incoming white feathers flying.

At the same time, Hong Lei teleported over and glared at Tuoba Lun angrily. He slapped Tuoba Lun on the top of his head and immediately searched his soul.

Tuoba Lun's body twitched as he let out a shrill scream. He spat out white foam and fell to the ground. His eyes were glazed over as he lost his mind.

Hong Lei had deliberately destroyed part of his soul, causing him to lose his mind.

Hong Lei retracted his hand and said coldly, "Tuoba Lun deliberately framed others and refused to accept the soul search. This special envoy followed the sect rules and forcefully searched his soul. As a result, his mind was destroyed."

He turned his head to look at the crowd and smiled slightly. "If Jian Xuan investigates, I hope that everyone can speak up for me."

Lu Tianji and flower fairy stared at the dazed Tuoba Lun, their hearts filled with joy.

Evil people naturally had evil people to torment. Tuoba Lun's sinister schemes ended up harming them instead.

If he had been honest in digging up the remains of the divine dragon right from the start, why would he end up here today?

“Of course.” Lu Tianji and the others did not hesitate.

They felt as if a heavy burden had been lifted from their hearts, but their spiritual altars could no longer remain calm.

In fact, a great pressure even made them feel suffocated.

They were all from the younger generation of the island faction, but Xue Yu was already an appraiser of the Star Pavilion. His status was high, comparable to any island master.

And that mysterious sword technique.

They originally thought that Xue Yu was an old and shrewd world paragon, but who would have thought that he was the same age as them.

The huge difference made them, who were proud sons of Heaven, feel extremely disappointed. In front of Su Yu, they couldn't raise their heads.

“Master Xue, since the misunderstanding has been resolved, I'll send everyone out.” Hong Lei was extremely polite.

Su Yu nodded.

Outside, with the closing of the Ten Thousand Dragon Cave, there weren't many people left.

Only the hundred blossoms family, the Lu family, and the divine feathers clan were left, waiting for news from the secret chamber.

Lu Zhongtian, the head of the Lu family, had a solemn expression. He was holding a golden scroll in his hand, constantly fluctuating the lines on it.

However, the lines were so complicated that even he couldn't see through them.

The head of the hundred blossoms family, hundred blossoms blue, who was also watching nervously, frowned. “How's the situation?”

Lu Zhongtian shook his head. “I can't see through it. Hong Lei's strength is too strong, and his aura interferes with divination!”

A deep worry appeared between hundred blossoms Blue's brows. “Hundred blossoms fairy is a rare and outstanding generation of our hundred blossoms family. She has spent so much of our hundred blossoms family's efforts. If she dies just like that...”

Speaking up to this point, she turned her gaze towards the divine feathers clan, a well-dressed middle-aged man sitting on the ice throne.

Sensing Hundred Flowers Blue's gaze, the middle-aged man turned his head and revealed a warm smile. “Little sister hundred flowers, it looks like your love situation isn't looking good. Do you want me to give you a chance?”

Hundred Flowers Blue's eyes were filled with hatred. "Tuoba Ying! If hundred flowers fairy has irreparable injuries, I won't let it go so easily!"

Tuoba Ying was the head of the Tuoba family.

The three leaders of the top island forces chose to enter seclusion in the Ten Thousand Dragon Cave to welcome their clansmen.

Tuoba Ying laughed. "Sister Hundred Flowers is always welcome as a guest of our divine feathers clan."

Creak --

The Secret Chambers opened.

Hong Lei walked out first, followed closely by the stumbling Tuoba Lun.

His appearance caused Lu Zhongtian and Hundred Flowers Blue's hearts to sink. Their faces were as gloomy as water, as if the sky had collapsed.

It seemed that flower fairy, Lu Tianji, and the other two had met with misfortune and were unable to leave the secret room.

Tuoba Ying laughed heartily and walked down the throne. He cupped his hands towards Hong Lei and said, "Congratulations, envoy Hong, for capturing another suspect who dug up the remains of the Divine Dragon without permission. Congratulations."

Hong Lei put on a fake smile. He beckoned with his hand and pushed Tuoba Lun towards him. He said, "Family head Tuoba, bring your son home and see if he can carry on the family line. He won't be able to inherit the position of family head."

Tuoba Ying, who was full of smiles, was obviously stunned. He didn't know what Hong Lei meant.

When he looked closely, he realized that Tuoba Lun's eyes were strange.

He tapped his forehead with a finger and probed. Tuoba ying roared in disbelief, "His mind was destroyed? Who Did It? Who Did It?"

He stared at Su Yu and the others who were slowly walking out of the secret room.

"It was me. Do you have any objections?" Hong Lei put his hands behind his back and stared at Tuoba Ying indifferently.

"You... Why did you do it?" Tuoba Ying couldn't understand. How much did Hong Lei receive from the god of feathers? It was fine if he didn't help Tuoba Lun, but it had actually destroyed his mind?

Hong Lei said in a businesslike manner, "Tuoba Lun deliberately framed someone else. This envoy searched his soul for evidence, but there was resistance. As a result, his soul was damaged."

He stared at Tuoba Ying and said, "Tuoba Ying, since your son's mind has been destroyed, let's not pursue the matter of him maliciously framing someone else. Take him and get lost immediately. If I change my mind, I won't be able to leave even if I wanted to!"

Tuoba Ying's palm trembled slightly, and the hatred in his heart surged to the heavens.

However, he absolutely did not dare to flare up at Hong Lei. Instead, he cast an angry gaze at Lu Tianji and flower fairy.

That gaze seemed as if it wanted to eat them up.

Lu Tianji and flower fairy could not help but smile bitterly. They had to bear the blame for this.

“Many thanks to special envoy Hong for not killing us.” Tuoba Ying’s face was gloomy as he hugged Tuoba Lun and led his clansmen away.

Everyone could see Tuoba Ying’s suppressed killing intent.

Hundred blossoms blue and Lu Zhongtian exchanged glances, meaning that they had to be wary of Tuoba Ying in the future. His revenge would soon arrive.

However, hundred blossoms fairy and Lu Tianji were safe and sound. They let out a long sigh of relief.

Just as they were about to walk over, they saw a strange scene.

Among the four of them, a man wearing a moonlight longsword said goodbye to them.

Lu Tianji and flower fairy greeted him politely and went up to him to chat with him. They seemed to want to get along with him.

What surprised them more was that special envoy Hong was also very polite. He kept a smile and watched him leave.

After the man left, Hong Lei’s expression changed and returned to his arrogant look. He looked at flower blue and Lu Zhongtian coldly and waved his hand. “The Ten Thousand Dragon Cave has been closed. Go back.”

In envoy Hong’s eyes, the two of them couldn’t even compare to that young man in the slightest.

Hundred Blossoms Blue and Lu Zhongtian were stunned.

When hundred blossoms fairy and Lu Tianji returned to their side, they couldn’t wait to ask, “Who is that person? Why is envoy Hong So Respectful?”

Hundred blossoms fairy said, “It’s the second young master of the Double Star Island’s Xue family, Xue Yu.”

“Xue Yu...” hundred blossoms blue and Lu Zhongtian repeated this name, and their minds were filled with a strange feeling, they said in surprise, “The Xue family of Twin Star Island is ranked seventh or eighth, and he is the second son. He is far from the position of the family head. Why is special envoy Hong So Polite?”

Bai hualan sighed and said, “Mother, do you think that Lord Hong is like a person who will be kind to a mere family head?”

The two of them were speechless. Just now, special envoy Hong’s attitude toward them was not respectful at all. Instead, he was mostly impatient.

“Then, what is the background of this Xue Yu that makes envoy Hong so polite?” Lu Zhongtian asked.

Lu Tianji was silent for a moment before saying, “If you tell me, you might not believe it. Xue Yu has another identity. He is an appraiser from the Star Pavilion!”

When the last six words entered their ears, Lu Zhongtian and the hundred flowers blue pupils shrank.

Lu Zhongtian said, “Tianji, did you hear wrongly? As far as I know, the appraisers recruited by the Star Pavilion are all famous figures in the sword pavilion’s sea domain. Why would they hire a young lad?”

Lu Tianji sighed and said, “I also hope that I heard wrong, but these words came from envoy Hong himself. How could it be false?”

Hearing this, the two of them were shocked on the spot.

After a long while, Lu Zhongtian said, “I really didn’t expect that the Xue family would be able to rely on the star pavilion’s big tree without making a sound!”

“That’s right!” Hundred blossoms blue said, “I’ve never looked at the Xue family seriously in the past. Now, it seems that we need to move around more and get closer to them.”

She then said happily, “Fortunately, hundred blossoms fairy and Lu Tianji have a relationship with this person. It’s not like they didn’t gain anything from this trip.”

Hearing this, hundred blossoms fairy and Lu Tianji smiled bitterly at the same time.

They were both from the younger generation, but they were glad that they knew Xue Yu.

To them, who had always been proud and arrogant, there was nothing to be happy about.

“No matter what, it’s not wrong to pay a visit to the Xue Family First,” Lu Zhongtian said.

Hundred Flowers Lan nodded happily. It was on the way anyway, so it would not be a loss to pay a visit.

Su Yu rushed to the Xue family alone.

Now that he had obtained the dragon marrow, it was only a matter of time before he broke through the barrier of the Supreme Dao.

And the Xue family, because of his existence, could obtain long-term peace and prosperity.

Perhaps it was time to leave the Xue family.

This trip back was to say goodbye.

“You left quite quickly!” A familiar voice came from behind.

Su Yu stopped and turned his head. “You followed me?”

He did not look nervous because the person behind him was very familiar.

“You took my stone dragon bone sword, right?”The person complained. Other than Li Yue, who else could she be?

At this point, it was impossible to hide it anymore. She simply said frankly, “Do you want to get it back?”

“No.”Unexpectedly, Li Yue was very calm. “You saved my life. It’s understandable that you took the stone dragon bone sword. I Won’t ask for it.”

“However, the stone dragon bone sword is related to an assessment mission of mine. Can you help me prove that I’m the one who got the sword when I Need It?”Li Yue showed a pleading expression.

Su Yu thought for a moment and said, “Okay.”

Li Yue smiled. “Then, let’s go back together. I believe that the Double Star Island will become more and more interesting.”

There was a deeper meaning in her words.

At the same time.

The Sealed Ten Thousand Dragon Cave reopened, and two figures flew out.

One was Jian ruxiong, the young master of the Sword Pavilion, and the other was a man with snow-white eyebrows and purplish lips.

His eyes were like lightning, and a green sword-shaped mark was carved between his eyebrows. It was the Master of the Sword Pavilion, Jian Ruxiong!

Chapter 1623 A Storm Was Coming

He was the one who established the foundation of the Sword Pavilion, and he was also the overlord of the Sword Pavilion.

Once he appeared, the entire sword pavilion island trembled.

Countless experts of the sword pavilion flew up from the island like water and came to see him.

Hong Lei was one of them.

Jian Ruxiong looked a little tired. There were many wounds on his body that couldn’t be healed, and his invisible soul was also injured.

It seemed that even though he left prepared, he didn’t manage to win against the Dragon Souls.

“Feiming, have you found the whereabouts of the Stone Dragon Bone Sword?”Jian Ruxiong’s face was gloomy. He clenched his fists tightly, and his eyes were full of killing intent.

He had worked so hard for others!

Jian feiming shook his head, and the residual images of small blood-red swords were in his eyes. He used the “Heavenheart sword eye”to explore the entire ten thousand Dragon Cave, but he found nothing.

The person who took the stone dragon bone sword had disguised himself several times, but he could no longer be traced back to his real body.

Jian ruxiong stared at Hong Lei and asked, "Have you checked everyone's sword-shaped storage devices?"

Hong lei confirmed, "Sir, other than the ones that were lost, everything else has been checked. There are no omissions. However, the stone dragon bone sword has not been found!"

Jian ruxiong and Jian feiming's faces turned even uglier.

They had sealed the ten thousand Dragon Cave for five days because they were worried that the person who took the stone dragon bone sword wouldn't be able to take it away and would stay in the Ten Thousand Dragon Cave.

However, they hadn't found anything after five days of searching.

Now, Hong Lei had also received bad news.

The stone dragon bone sword was most likely left in the secret area of the Ten Thousand Dragon Cave by that person.

Even if they used all the power of the sword pavilion to search once, it would still take them a hundred years.

Evidently, they did not have the patience to search for it for a hundred years.

Just as they were at their wits' end, a weak voice entered everyone's ears.

"Swordmaster, I am Tuoba Ying of the divine feathers clan. I have something to tell you," Tuoba Ying said as he stood outside the crowd.

Jian ruxiong frowned. At this moment, he was too annoyed to bother about it.

Hong Lei saw this and his gaze turned cold. he shouted, "How dare you, Swordmaster, How Can You Disturb Me? Hurry up and get out of the island!"

Unexpectedly, Tuoba Ying's expression was resolute as he raised his voice, "Reporting to the swordmaster, the matter that I told you might be related to the stone dragon bone sword that you mentioned!"

HM? Jian ruxiong raised his eyebrows and rolled up his sleeves. Tuoba Ying, who was tens of thousands of miles away, was caught in front of him without any resistance.

Tuoba Ying was respectful, but he was even more resolute.

"What do you know? Speak!" Jian ruxiong stared at him with a burning gaze.

Tuoba Ying waved his hand, and a gray figure appeared beside him like a ghost.

"This person is our clan's elder who specializes in hiding. His name is Tuoba Ying, and he was arranged by me to follow my son Tuoba Lun. He told me that not only did he personally see flower fairy, Lu Tianji, Xue Yu, and the mysterious woman excavate the dragon bone, he also saw that brat named Xue Yu take out

a fossilized dragon bone and use it as a sword once. I wonder if it's the stone dragon bone sword that sword master mentioned."

Jian Ruxiong's eyes flashed. "A petrified dragon bone, a mysterious woman?"

He pondered for a moment before suddenly making a move. He sucked in the air, and the huge palm sucked the gray shadow man over and began to search his soul.

A shrill scream was heard coming from the Gray Shadow Man's mouth, and his entire body was trembling in pain.

Tuoba Ying turned a blind eye to this and coldly waited for the result.

After a long while, Tuoba Ying was put down, but his soul was shattered like a piece of soft mud. He collapsed onto the ground and lost all signs of life.

Shaking his hands, Jian Ruxiong's gaze was calm, the calm before the storm.

He placed his hands behind his back and said, "Unnatural, open the sacrificial ritual and bring out my Mahayana Sword!"

These words echoed in the sky above the sword pavilion.

The hearts of everyone in the sword pavilion trembled.

The Mahayana sword was a true emperor-level divine weapon that the Purple Dream Emperor had personally given to Jian Ruxiong!

The Purple Dream Emperor was one of the three emperors who had ruled the sea of constellations for billions of years.

She had over a thousand overlords under her command. Only those who had been given the Purple Flower Pavilion's divine weapon had the right to expand their territory and become the king of the seas.

Jian ruxiong had been extremely aggressive back then. He had used a supreme sword technique and was praised by the purple dream emperor. He had given the Purple Flower Pavilion a divine weapon, the Mahayana sword.

From then on, Jian Ruxiong had brought his sword here to establish a sect.

The Mahayana sword was also worshipped in the depths of the sword pavilion like the soul of the Sword Pavilion.

He would never use it unless he met the purple dream emperor or encountered a major change.

But now, Jian Ruxiong wanted to pull it out.

"Jian Xuan is too lenient towards the island forces under their control, to the point that they have already forgotten about Jian Xuan's existence." Jian Ruxiong's eyes were like cold swords as he coldly sighed, "Jian Xuan's sword needs to be shined with blood!"

Jian feiming was overjoyed and said, "It should have been like this a long time ago. Those Island forces paid the starlight grass and refused to do anything. I think they have long since rebelled. It's time to wash a wave of disobedient people with blood! Especially the Xue family, they don't know whether they are dead or Alive!"

Tuoba ying added, "There are also the hundred blossoms family and the Lu family. They dug up the dragon bones without permission and don't care about Jian Xuan at all."

Jian feiming nodded and smiled cruelly, "Don't worry, none of them can escape!"

"Those who belong to Jian Xuan, listen up and gather the army. Wait for me to recover from my injuries, and we will take revenge on the traitors!" Jian ruxiong raised his arm and shouted.

The entire Jian Xuan was in an uproar.

As the overlords of a region, it had been too long since they had used blood techniques to teach the island forces below a lesson.

The members of the Sword Pavilion all felt their blood boil, and they were filled with anticipation.

This was because every clan extermination was a feast to split up the resources of the island forces.

Whether it was the spiritual treasures of heaven and earth or the beautiful women in their families, all of them would be in their hands!

In the crowd, Hong Lei's light flickered.

Double Star Island, which was completely unaware of the impending disaster, was as calm and leisurely as usual.

Li Qiankun stretched his body in the courtyard and looked at the clear and bright weather. His mood was relaxed and happy, which he hadn't felt for a long time.

Ever since he confirmed that Xue Yu had fallen into the Ten Thousand Dragon Cave, he was in excellent spirits. Even his sexual affairs were particularly vigorous, causing the thirteen concubines to complain incessantly. They only thought that the family head was in his prime and the old tree was in his prime.

"Hehe, Jun 'er, have you rested well?" Li Qiankun's face was ruddy.

Li Jun also regained his vigor and said, "After returning for five days, of course I have rested well. Father, do you have any instructions?"

Li Qiankun twirled his beard and smiled. "Don't tell me Jun 'er doesn't want to follow me to visit the Xue Family? Back then, we received a lot of 'favors' from the Xue family."

Thinking back to how the Li family tolerated the Xue family after Su Yu joined the Star Pavilion, Li Qiankun felt as if a fishbone was stuck in his throat.

He would not be able to swallow this anger if he did not settle this score.

Now that Xue Yu had perished, he believed that the Xue family had already received this news.

And without Xue Yu, the Xue family was nothing in front of the Star Pavilion?

Li Jun also felt that he had been cowardly for too long. Now that he was able to hold his head up high, he would be letting the heavens down if he did not look for trouble with the Xue Family!

“Then I will choose a good gift and pay a visit!” Li Jun took out a palm-sized simple gift box. There was only one stalk of starlight grass in it. Li Jun winked and said, “Hehe, father, what do you think of this gift?”

Li Qiankun reached out and took out the starlight grass. He folded it in half and put in half. He said, “Look at you. The Xue family is now prosperous. They don’t like our starlight grass. Let’s keep half of it for ourselves.”

“Haha, Father Is So Smart. If Xue Yuntian sees it, he might be so angry that he will vomit blood.” Li Jun could already see the expression on Xue Yuntian’s face when he opened the gift box and saw the half of the starlight grass.

Li Qiankun stroked his beard and laughed. “Let’s go, Jun ‘er. Let’s pay a visit together!”

When they arrived at the Xue family’s door, the two of them were slightly stunned.

They saw that the Xue family’s entrance was actually filled with a heavy flow of traffic. All the various island forces, big and small, came to pay a visit.

All of them carried heavy gifts as if they were congratulating them.

“Father, what is this?” Li Jun asked uneasily.

Li Qiankun pondered for a moment and said, “The news of Xue Yu becoming an appraiser of the star pavilion has finally spread, but they don’t know that Xue Yu is already dead.”

Li Jun heaved a sigh of relief. “Then, do we still want to...”

Li Qiankun rolled his eyes at him. “Why not? The more it is like this, the more we should congratulate him. After all, this is a joyous occasion for the Xue family. As neighbors, how can we not congratulate him?”

“Hehe...” Li Jun let out a strange laugh. Following behind his father, he swaggered into the Xue family.

The guests in the Xue family’s living room were as numerous as the clouds.

Not only were there top island lords like hundred flowers blue and Lu Zhongtian, but there were also island lords of all sizes, including Murong Feng who had restored his relationship with them. They were all chatting and laughing happily in the living room.

Xue Yuntian was chatting and laughing with them. The sight of such a grand scene made Li Qiankun feel jealous.

Only the Master of the Sword Pavilion had enjoyed such a grand scene.

Who else had the right to receive the congratulations of all the island lords?

The front hall was bustling with noise and excitement, but the atmosphere in the back hall was a little strange.

Murong Qingcheng stared at Li Yue and said tactfully, “Young master Xue, we all thought that you were already... I didn’t expect that you were with Miss Li Yue.”

Half a day ago, when the Xue family was in mourning, Su Yu had returned alive.

The Xue family was really pleasantly surprised.

The only flaw was that the person accompanying Xue Yu was the daughter of the Li family, Li Yue.

Of course, the members of the Xue family quickly overlooked this point. The current Xue Yu was famous all over the world, so it was normal for all the beauties around him to be gathered together.

Only Murong Qingcheng had a knot in her heart.

It turned out that Xue Yu had been missing for such a long time and was actually alone with another woman.

How could Su Yu not see through her probing thoughts? He could not be bothered to argue and said, “Li Yue and I are just ordinary friends. Let’s go. The front hall is filled with the masters of all the islands. Let’s go out and meet them.”

He didn’t like this kind of scene at first, but only by appearing personally would he be able to make the many island masters feel at ease and befriend the Xue family.

From now on, the Xue family would have a smooth sailing in the Jian Xuan Sea area. There would be very few obstacles.

This could be considered as the last time he would help the Xue family.

At the same time, in the front hall.

Xue Yuntian noticed the arrival of Li Qiankun and his son and was slightly surprised.

Ever since Xue Yu became an appraiser of the Star Pavilion, Li Qiankun had taken a detour when he saw him. He was afraid of meeting him.

Why did he take the initiative to come and congratulate him today.

His expression was especially confident. It was as if he had eaten 100,000 immortal fruits. It was as if he was floating in the air.

However, since he was a guest, he didn’t want to be inferior in front of the island lords. He smiled and said, “So it’s clan head Li. Sorry for not welcoming you. What brings you here?”

Li Qiankun smiled insincerely and said, “Of course, I’m here to congratulate Clan Head Xue. After all, something like that happened to your clan’s Xue Yu.”

“Like what?” Lu Zhongtian was suspicious. “Clan Head Li is currently at Twin Stars Island. Could it be that you only know that nephew Xue Yu is an appraiser of the Star Pavilion Now?”

Li Qiankun’s eyelids twitched. He chuckled and said, “Of course not. I’m talking about another matter regarding Xue Yu...”

Everyone’s attention was attracted by his words, and they couldn’t help but look at him curiously.

Li Qiankun had a teasing smile on his face as he thought to himself, since Xue Yuntian doesn't want to announce the tragic news of Xue Yu's death, then I shall be the villain.

Just as he opened his mouth, a few footsteps sounded from the back hall. Accompanied by two peerless beauties, Su Yu walked out with an extraordinary bearing.

A warm smile hung on his face as he said frankly, "Family head Li, why don't I hear what it is?"

Chapter 1624 Just Admit It

Upon seeing Su Yu, the island Lords didn't dare to act arrogantly. They stood up and congratulated him, "I am Baihua Lan. Congratulations on being listed as an appraiser of the Star Pavilion. Congratulations!"

"Hahaha, I have long heard of the second young master of the Xue Clan. Seeing him today, he is indeed a dragon among men and a phoenix among men!" Lu Zhongtian sized Su Yu up. In his eyes, he could vaguely see that Su Yubei was carrying nine dragons on his back.

From ancient times until now, nine to five was the sign of an emperor.

Controlling nine dragons was the symbol of an emperor.

Therefore, he did not deliberately compliment Su Yu. On the contrary, he kept a low profile.

However, he could not hold back the surprise in his heart.

As an expert in divination, he had a premonition at first glance that the young man in front of him must be an emperor who was above all living things.

However, what Lu Zhongtian found unbelievable was that he had divined the sea area of the sword pavilion more than once, but he had never noticed that there was an existence who carried the emperor's heavenly mandate.

This made Lu Zhongtian very puzzled.

"Hehe, nephew Xue Yu, how have you been? I stayed at the Xue residence to wait for your return. Congratulations on becoming an appraiser of the Star Pavilion." Murong Feng also came forward to congratulate him, his tone was very polite.

The other island owners all came forward to congratulate him.

Only Li Qiankun and Li Jun were as still as wooden carvings. The contrast was very obvious.

Su Yu smiled and replied, "Everyone, please take a seat."

Many Island Masters took their seats, but Li Qiankun and his son were still standing there in a daze.

Since the moment Su Yu appeared, their minds had been empty, as if they had lost their souls.

Seeing that the two of them were not right, Su Yu was slightly surprised, he asked, "Family head Li, brother Li, the two of you are... Oh, right, I wonder what family head Li just said about this junior. What is it? This junior is also very interested to hear it."

Only then did Li Qiankun and his son wake up from their dream.

Different from the arrogant look just now, they looked as if the sky was falling. Their faces were pale and their eyes were dim.

It was over!

Su Yu was lucky that he didn't die!

Then he must know that the Li family ambushed and killed them!

With Xue Yu's current status, he didn't need to invite the star pavilion at all. The hundreds of island masters present here were probably very willing to serve Su Yu and wipe out the entire Li family to please Xue Yu.

Thinking of this, Li Qiankun broke out in cold sweat.

Li Jun was even worse. His legs were trembling and his lips were trembling.

"Father, brother Xue asked you a question, why don't you answer?" Li Yue timed the moment to speak. Her face was calm and she gave Li Qiankun a comforting look.

After receiving this look, Li Qiankun's heart was quick-witted. Could it be that Su Yu did not know what happened that day?

If that was the case... Li Qiankun seemed to have caught hold of a life-saving herb as he saw a ray of hope.

At this moment, the idea of occupying the twin star island and plotting against Xue Yu was thrown out of his mind.

He was also covered in cold sweat. How risky was the plan to ambush Su Yu?

Su Yu smiled and said, "Clan Head Li, is it not convenient for you to tell me about it because I am here?"

Traces of suspicion filled Su Yu's eyes. He was a person who could see through the details, so how could he not see the strange expressions on Li Qiankun and his son's faces?

Sensing the strange expression in Su Yu's eyes, Li Qiankun's body trembled slightly, and his heart felt bitter.

He was here to announce Xue Yu's death. Apart from that, what other important things could he announce?

He racked his brains, but he could not find the words to get down the stairs.

Even Li Yue, who was at the side, secretly sighed. She was worried for him.

As time passed, the suspicion in Su Yu's eyes grew deeper and deeper. The island owners also gradually revealed impatient expressions. Li Qiankun knew that he could not delay any longer, or else Su Yu would definitely see through his flaws!

He could not help but cast a questioning gaze at Li Yue. Li Yueqian glanced over, indicating that there was nothing she could do.

Who asked Li Qiankun to announce something important about Xue Yu in such a high-profile manner? She could not think of any words to say in such a short time.

Li Qiankun's heart sank. He had no idea what to say at all.

Suddenly, Li Jun, who was standing at the side, saw Li Yue standing close to Su Yu on the left, facing Murong Qingcheng on the left and right. He could not help but realize something.

Who was Murong Qingcheng? Although Xue Yu's fiancée had canceled the engagement, she had been staying at the Xue family for the past six months in the name of the future daughter-in-law of the Xue family.

His sister, Li Yue, and Murong Qingcheng were standing facing each other. It seemed to have an extraordinary meaning.

He winked at Li Qiankun. Li Qiankun was slightly taken aback. He glanced at Li Yue and Xue Yu, feeling a little confused.

Suddenly, he remembered something.

At that time, the Star Pavilion Master, Mu Canghai, had joked that if Xue Yu fancied Li Yue, she would be the matchmaker to set them up.

When he thought of this, his eyes lit up fiercely. He said excitedly, "Master Xue, Island Lords, this is a matter of great importance to master Xue's life, so I hesitated a little. Please forgive me."

Hundred Flowers' blue delicate brows furrowed slightly. "Master Li, if you have anything to say, say it as soon as possible. Don't second-guess him."

He implied that he was too long-winded.

Li Qiankun cleared his throat and coughed dryly, he said, "Actually, my daughter, Li Yue, has always admired Master Xue. As a father, I understand my feelings, so I've decided to propose marriage to the Xue family in front of all the island owners today. I hope that the two families will unite by marriage and fix up a marriage so that my daughter can stop the pain of missing each other."

Huh?

Li Qiankun held it in for a long time. It was actually a marriage alliance between two families?

But soon, many island owners cursed in secret.

"Outrageous! That old man, Li Qiankun, actually beat me to it!"

"Why does he think the same as me? I still want to introduce my precious daughter!"

"You really can't judge a book by its cover. The water in the sea can't be measured. This guy, Li Qiankun, usually doesn't say anything, but it turns out he's so smart!"

"What should we do? Li Qiankun opened his mouth first. How should I open my mouth?"

For a moment, the expressions of many island owners changed, and they all stared at him with unkind expressions.

Li Qiankun's entire body went cold, as if he was a frog being stared at by hundreds of poisonous snakes. He was so scared that his little heart was thumping wildly.

Xue Yuntian was startled. He did not expect Li Qiankun to propose a marriage alliance between the two families at this moment?

He looked at Li Yue. Although the Xue family was not that great, Xue Yuntian knew Li Yue well. Her character was completely different from the rest of the Xue family.

If she married into the Xue family, he would be very happy.

However, he could not make decisions for Xue Yu on this matter. He could not help but look at Xue Yu and ask, "Yu-er, what do you think?"

Su Yu was confused. Ever since he came into contact with Li Yue, Li Yue was a woman with weak emotions. She was neither happy nor sad.

At least, he had never felt admiration from Li Yue.

He could not help but look at Li Yue and asked, "Miss Li, is this the result of your discussion with the head of the Li Family?"

Even if Li Yue was unperturbed by the favor or humiliation, she was still shocked by her father's shocking words at this moment. Her crystal clear eyes blinked again and again.

When she looked at her father, she could not help but complain.

Her daughter was innocent, how could she slander her in public? She was ready to reject him.

However, Li Qiankun's pleading voice immediately sounded in her ears. "Yue'er, just admit it. I really can't think of an excuse."

"Then you can't use my life as an important matter, right?" Li Yue replied.

Li Qiankun said, "Yue'er, it's my fault, but please admit it for the sake of the lives of the entire family. Do you really want us to be exposed for ambushing Xue Yu, and then the entire Li family will be wiped out?"

Li Yue secretly gritted her teeth, an anger that was rarely seen in her life.

But after pondering for a moment, she sighed helplessly.

For the sake of the family, she could only compromise.

"What do you want me to do?" Li Yue returned to her cold self.

Li Qiankun was delighted and said telepathically, "It's very simple. Just admit that you admire Xue Yu and invite me to propose marriage! Of course, just talking isn't enough. If there's an action, it would be the best."

Li Yue thought for a moment and muttered, "Actions? Alright, I understand."

Faced with everyone's gazes, Li Yue's expression did not change. She was calm as if nothing had happened. She said, "Yes, I admire Xue Yu. It was I who requested father to propose the marriage."

Hearing that, everyone was in an uproar.

"Pui! Shameless Vixen, you said such words without blushing or jumping!" Many young women secretly transmitted their voices and cursed.

However, what made their eyes pop out of their sockets was..

After Li Yue finished speaking, she squatted down and moved in front of Su Yu. Her rosy little mouth kissed Su Yu's cheek.

Such a shameless action really shocked them. They were stunned when they saw it.

Even Hundred Flowers Blue, Lu Zhongtian, and the others were stunned on the spot.

Su Yu was even more stunned. He stared blankly at Li Yue and said in surprise, "Why are you..."

Li Yue wiped her lips and said with a confused expression, "I admire you, that's why I kissed you. Isn't that what lovers do?"

It was a pity that she was dedicated to martial arts. The love between children that she knew were all stories that she had heard by chance.

She felt that it was natural to kiss someone just because she admired them.

However, she did not know how shocking it was in public.

Su Yu's mind was a mess and he could not understand the situation.

Did Li Yue really admire him?

"You don't believe me?" Li Yue frowned. She did not understand why the relationship between a man and a woman was so troublesome. She said, "Then I'll kiss again."

"Stop!" Su Yu quickly covered his face. "I believe you, okay?"

Li Yue stood up straight and replied with an "OH". Then, she stood on the left side of Su Yu with the same expression, completely ignoring the surprised gazes on the scene.

Su Yu felt a slight headache. After pondering for a while, she said apologetically, "Miss Li, I accept your friendship, but I am focused on my martial arts. I am afraid I will let you down."

The tactful rejection was clearly expressed.

Moreover, it also indirectly dispelled the other island owners' thoughts.

Some of them were glad that Li Qiankun had tried on their behalf, so that they would not be rejected in an awkward manner.

Some of them blamed Li Qiankun and directly blocked this path.

They believed that if they acted on their own, there might be a chance, such as hundred flowers blue.

Her daughter, Hundred Flowers Fairy, was far stronger than the Li family in terms of appearance, talent, or family influence.

Unfortunately, Li Qiankun ruined the good thing.

She stared at Li Qiankun and her gaze fell on his empty body. She said, "Li family head, apart from coming to propose marriage today, don't you have any gifts prepared for him to congratulate you?"

Li Qiankun, who had finally found his footing, once again lifted his head. His fingers inadvertently touched the top of his sleeve, and he withdrew the half of the starlight grass gift box.

Seeing his embarrassed expression, Su Yu tried to smooth things over. She said, "It's okay. As long as he's here, it's fine. I appreciate your kindness, so there's no need to make things difficult for family head Li."

Hundred flowers blue said, "How can that be?" As a close neighbor, could it be that family head Li specially came to visit and didn't even prepare a congratulatory gift? To tell you the truth, I have some doubts about the purpose of his visit to the Xue family."

Chapter 1625 Blood Baptism

Li Qiankun's heart skipped a beat, and cold sweat appeared on his forehead again. He hurriedly said, "Of course there's a gift, of course... There's..."

Hundred flowers blue provoked, "Then take it out. It's so annoying to dawdle!"

Li Qiankun smiled bitterly. In such a hurry, where could he find a big gift?

Gritting his teeth, Li Qiankun braced himself and took out the gift box with a rough packaging. He said embarrassedly, "This is the gift that I prepared."

Everyone looked at each other in dismay when they saw the crudely wrapped gift box that looked as if it had been used.

"Hey, what kind of gift is this? Why are the gift boxes so unusual?"

"Everyone, don't look down on it. After all, the Li family is a powerful family. Their foundation is much stronger than yours and mine! Now that Xue Yu is on the rise and the Li family is paying a visit, there's no reason for them to prepare such a small gift. I guess it must be an extremely valuable item."

"En, that's right! This old man also has this kind of guess. The gift box is simple, but the content is of the highest quality. Under the contrast, the content is even more precious. Hehe, I have to say that family head Li is an experienced and shrewd character who is proficient in the art of mind."

Hearing such a logical analysis, everyone was quite convinced.

Only Li Qiankun was breaking out in cold sweat.

At this moment, he wished that he could dig a hole in the ground and strangle those analysts to death. Would they die if they didn't speak?

What made his body stiffen was that Su Yu revealed a trace of interest and said with a smile, "Hehe, after hearing what you guys said, I am somewhat interested."

An elder of the Xue family walked forward and took the gift box from Li Qiankun's hand with a smile. He handed it to Su Yu.

"Master Xue, why don't you take a look in public? We also want to know what special gift the Li family head will give us." Hundred Flowers Blue's eyes revealed a look of unwillingness.

Su Yu smiled and said, "Alright, then let everyone take a look."

Tzzzzz --

Su Yu tore off the gift belt and opened the gift box.

Li Qiankun's eyes turned black and his ears buzzed. He was almost unconscious.

It was over!

The expected luck did not appear. A deathly silence lingered in the hall.

Everyone stared at the half of the Starlight Grass, unable to believe their eyes.

Especially the few elders who had just analyzed it with reasonable evidence, they were even more stunned on the spot.

Hundred Flowers Blue couldn't help but laugh. "Half of the Starlight Grass? Family Head Li, Am I seeing things? This is the gift you came to congratulate me with? Did you deliberately come to humiliate Master Xue?"

Everyone in the Xue family frowned, and Xue Yuntian also came to a realization. No wonder Li Qiankun was so arrogant when he came, as if he had received a great support.

When he thought about this gift, he even doubted Li Qiankun's original intention of coming today.

Li Jun's legs were weak and he almost collapsed to the ground.

Li Qiankun's face was pale.

It was really over. Everything was going to be exposed.

At this moment, he heard su yu chuckle, "The gift from family head Li is very interesting. Half of the starlight grass, I think there's another half on you, right?"

Li Qiankun's face was ashen as he took out the other half of his sleeve.

Su Yu sighed, "I appreciate family head Li's good intentions, but Miss Li and I are more suitable to be friends. I understand the implication of this half of the starlight grass, please take it back."

He flicked his finger and the gift box bounced back.

Li Qiankun caught it in a daze. After a while, he came to a realization.

He quickly said, "Yes, I was rude! Originally, the two pieces of the starlight grass were meant to be given to you and Yue'er. It meant that your life in the future would be as brilliant and beautiful as the starlight grass, but Alas, sigh..."

After hearing this, everyone felt strange in their hearts, but they could not tell what was wrong.

But since Xue Yu did not care about it, what did outsiders have to say?

Even flower fairy remained silent.

After passing another round, Li Qiankun's body went limp. He supported himself with his chair before sitting down.

Su Yu smiled faintly and changed the topic. "We are all from the island forces in the Jian Xuan Sea area. We share the same qi and stick together. We should take care of each other. In the future, when the Xue family is in trouble, we will have to rely on you all."

Hearing this, the island owners beamed with joy.

With this sentence, their trip was not in vain.

"Yes, we are all struggling hard. It is only right to help each other. If the Xue family is in trouble in the future, my dogfish island will be the first to arrive!"

"My Immortal Bone Island will not fall behind."

..

After getting the island's attitude, Su Yu's last wish was fulfilled.

As long as he was still alive, the Xue family's life in the Jian Xuan Sea area was more comfortable than any other forces.

He was worthy of the Xue family and fulfilled his promise to this body.

And he also got most of the dragon marrow that he wanted after becoming a god. It was time to bid farewell to the Jian Xuan Sea area.

The guests dispersed and left the Double Star Island

Li Yue stayed at the end and bowed to Su Yu. "Thank you for sparing my Xue family."

Su Yu asked in return, "Did I hold anything against your Xue Family?"

Li Yue was as calm as ever, like a god that did not exist in the mortal world, she said softly, "When playing chess with the Dragon Soul, every step was calculated. You were destined to be a person as wise as a demon. Someone as smart as you would not be able to not see that there was something strange between my stupid brother and my father."

"And you chose to ignore it. In the end, you even helped my father get off the stage. I think you already know that the one who ambushed your Xue family's Beast Carriage in the Ten Thousand Dragon Cave was actually our Li family."

Sure enough, the corners of Su Yu's mouth curled up into a faint smile as she nodded.

Li Yue sighed and said, "Why did you let us off so easily? We nearly took your life. Now, all you need to do is give the order and my Li family will be wiped out."

Su Yu turned around and looked at her. She said gently, "Because of you."

"Me?" Li Yue touched her chest. For some reason, she, who had always been calm, felt a little flustered. She couldn't help but press her chest.

Su Yu continued, "The Xue family is too weak. What they need is allies, not enemies. I may be able to eliminate the Li family and occupy the Double Star Island alone, but so what? "The Xue family only has weak strength. They can't control the resources of the entire twin stars island

"So, I hope that one day, after you become the head of the Li family, you can help me take care of the Xue family."

Su Yu felt much more relaxed after confessing his thoughts.

He had been in the Jian Xuan Sea area for many days. The only person he could call a friend was probably Li Yue.

"I see," Li Yue said, but she shook her head. "However, I don't think I can become the head of the Li family."

Su Yu was surprised. "Why?" "In terms of talent and strength, no one in the younger generation of the Li family can surpass you. And your father values you far more than your younger brother. Could it be that there are other forces in the Li family that can influence the future successor of the Li Family?"

Li Yue shook her head. "No, the one who decides that I can't become the head of the Li family is myself."

"You?" Su Yu was confused.

Li Yue took out the small jade-green sword and drew a circle around herself, trapping her.

"Drawing the ground as a prison not only restricts one's vision, but also one's ambition." Li Yue looked at the horizon, she said slowly, "The Twin Star Island is just a drop in the ocean, and my ambition is to look down on all living things on Earth and roam the nine heavens. Even if my soul dies in a foreign land, I won't regret or complain."

No regrets, no complaints..

Su Yu's heart trembled as he stared at Li Yue in shock. It was as if he saw a young eagle struggling to fly into the sky.

He also seemed to see himself, who he had not seen for a long time. He was as weak as a speck of dust. On the Divine Moon Island above the ocean, he was struggling step by step until today.

"My talent may be mediocre, but the road is under my feet. If I keep walking, I will eventually see a prosperity that I have never seen before." Li Yue's eyes were burning with a scorching light.

She turned her head and looked at Su Yu, "Can you understand me?"

Looking at the girl who looked weak on the outside but had a strong heart, Su Yu said, "I understand."

Li Yue smiled faintly. Stepping on the clear moonlight, she was like a beauty under the moon, gradually walking further and further away.

Su Yu watched her leave, and his heart suddenly felt empty.

After this farewell, perhaps they would never meet again in this lifetime.

“Goodbye, Li Yue.” Su Yu waved at her blurry back, and then slowly rose into the air.

The Twin Star Island under their feet gradually shrank, and the Xue residence became more and more distant, until it was like a speck of dust.

“Goodbye, Xue family. Goodbye, Twin Star Island!” A light sigh was left in the sky, and then Su Yu disappeared.

Xue family.

In the study room, Qingyun Changzun said, “Family head, we have searched everywhere. Xue Yu is missing! Was he kidnapped by some island master who left?”

Xue Yuntian held the scripture in his hands. Under the dim light, his face was filled with indescribable complexity.

There was emptiness, apology, and traces of sadness. He was like an old man who had lost his child. He was Old and sad.

“Master, please give the order. I will immediately lead my clansmen to search for him!”

Xue Yuntian put down the scripture and said, “There’s no need to search. No island master has the ability to hold him hostage. He left on his own.”

“AH? Why does Xue Yu want to leave? This is his home!”

Xue Yuntian looked at the sky. The lonely stars were speckled, quietly talking about the loneliness of the night sky.

“His home is in the horizon.”

..

Stepping on the Drifting Mist in the night sky, Su Yu headed east.

He wanted to find a safe and secluded island. He wanted to seclude himself for ten years, break through to the God realm, and return to his former peak.

Suddenly, a faint smell of blood entered his nose from the drifting mist.

Several heavily injured giant birds brushed past Su Yu.

“The Mount of the island lord of Goshawk Island?” Su Yu frowned.

His intuition told him that something was wrong!

Sure enough, several auras rapidly approached from afar, chasing after that mount.

Su Yu actually knew the person who came!

Among them was the patriarch of the god of feathers clan, Tuoba Ying!

He and the three members of Jian Xuan formed a small team, and their hands were all stained with blood.

Tuoba Ying was the first to notice Su Yu, and his expression was filled with ecstasy. "Xue Yu! It's Xue Yu! ! We've found Xue Yu!"

He immediately sent a message. A powerful wave of information spread out in all directions.

Su Yu frowned slightly and flew towards the south.

Xiu --

Tuoba Ying flashed and stopped him, he revealed an excited smile. "Hahaha, Xue Yu, you still don't know, right? You've already been listed as a special-class wanted criminal by the Sword Pavilion. This kind of treatment has never been enjoyed by anyone before! "As long as we catch you, we'll reward the sword pavilion with the honor of being a permanent guest!"

The Sword Pavilion had never treated the island's forces as humans. The guests were the greatest reward that the sword pavilion had given them.

Not only did it mean that they would no longer hand over the starlight grass, it also meant that they would gain the sword pavilion's trust and become a member of the Sword Pavilion.

Tuoba Ying would never have thought that he would be the first to capture Su Yu in this blood-colored baptism that shocked the sword pavilion.

Chapter 1626 Ice Soul Fairy

Purple smoke swirled beneath Su Yu's feet as a cloud sky ship appeared.

The cloud sky ship was extremely fast, flying tens of millions of miles in an instant.

Tuoba Ying laughed like a hunter chasing his prey. His entire body was filled with excitement. "You won't be able to escape. I've already sent a message to the people nearby. As long as they receive the message, they will rush over immediately!"

As if confirming his words, several powerful auras rushed over from three different directions.

Su Yu could still remember the auras from one of the directions.

Shua Shua --

"Xue Yu!"The Young Master of the Sword Pavilion roared angrily. His voice shook the heavens and was filled with dense killing intent and anger.

Because of Xue Yu, he was also blamed for the theft of the Stone Dragon Bone Sword.

Accompanied by Hong Lei, Jian Fei Ming flashed and cut off Su Yu's path. He stared at Su Yu with a grim expression and pulled out his sword. "Can you escape?"

Hong Lei, who was at the side, remained silent. His eyes were filled with helplessness.

He had thought of informing Su Yu, but he had no chance to do so.

Tuoba Ying was at the back, Jian feiming was at the front, and there were extremely powerful enemies on both sides. Any one of them could kill Su Yu.

He would not be able to escape today.

There were also the hundred blossoms family, the Lu family, and the Xue family. They would not be able to escape death.

Su Yu said calmly, "What's the matter?"

Jian feiming snorted, "What do you think?"

Su Yu shrugged and said, "I owe you a bun a long time ago?"

"How dare you!" Jian feiming shook his long sword, and a sharp and terrifying sword qi pierced through space, brushing past Su Yu's face.

Tuoba Ying caught up and said mockingly, "Xue Yu, you're about to die! If you dare to touch the Stone Dragon Bone Sword of the Sword Pavilion, even the gods of Daluo wouldn't be able to save you."

Xiu Xiu --

After he finished speaking, lightning flashed and appeared behind Su Yu. His five fingers formed into claws and grabbed Su Yu.

However, the moment his five fingers touched Su Yu's shoulder.

Tuoba Ying seemed to have been electrocuted as he suddenly withdrew his hand. At the same time, he retreated frantically and shouted, "Who is it? Come Out?"

One could see that Tuoba Ying's palm was surrounded by a layer of cyan-purple frost, cold to the bone.

Seeing this scene, Tuoba Ying's pupils constricted. "Purplish ice frost! This, this is the ultimate skill of one of the top ten experts of the Sword Pavilion, the Ice Soul Fairy!"

Kacha --

The sound of slight frost fell into everyone's ears.

The temperature around them dropped abruptly,

the Sea of constellations under their feet began to rapidly condense at a speed visible to the naked eye.

Snowflakes began to fall one after another.

Suddenly, the wind returned and the snow flowed. A middle-aged woman dressed in a purple-green gown walked out of the blizzard with a swaying posture.

She was like an immortal in the snow.

Tuoba Ying's pupils shrunk into a needle. "Ice Soul Fairy!"

The proud daughter of heaven who had caused a sensation in the sword pavilion back then had defeated more than a thousand island lords by herself.

After that, she went to the sword pavilion and challenged the experts of the sword pavilion. No one from back then was a match for her.

From the ordinary disciples, to the elite disciples, to the hall master, no one was a match for her in three moves.

Until the Sword Pavilion sent out a peak master, the ninth strongest expert, possessing the strength of a galaxy overlord.

Only then did she defeat Ice Soul Fairy Mo. .

In one night, Ice Soul Fairy Mo. . From a nobody, she became one of the top ten experts of the Sword Pavilion.

Jian ruxiong, the Master of the Sword Pavilion, personally invited her to open the eleventh peak and invite her to join the Sword Pavilion and become the peak master of the eleventh peak.

Bing Po Xian'E refused and left the sea, disappearing without a trace.

After ten thousand years, many people thought that she was already dead.

They did not expect that she would actually appear here!

Xiu Xiu --

Not far away, a few people flew over. Their cultivations were uneven and they were all below the third level Heavenly Cave Abode's World Paragon.

Their strength wasn't eye-catching, but it was hard to ignore. What was even more terrifying was that they all carried a striking black waist token.

There were bright stars carved on it, and it carried a fragrant aura.

There wasn't anyone in the Jian Xuan Sea who didn't recognize this token.

It was... The Star Pavilion!

Tuoba Ying was shocked. Even Jian feiming couldn't help but change his expression. He narrowed his eyes and called out, "Star Pavilion?"

Then, a shocking scene appeared.

Four Star Pavilion members came before ice soul fairy and bowed respectfully, "Greetings, Star Emissary!"

Tuoba Ying cried out in shock, "Star Emissary, Ice Soul Fairy, you... You joined the Star Pavilion?"

The so-called star emissary was another type of person recruited by the Star Pavilion. They were experts, true experts.

The Star Pavilion could intimidate the sea area. It was far from possible to only rely on word of mouth. The biggest reliance was martial force, absolute martial force.

And martial force relied on recruiting peerless experts.

The Warriors recruited were collectively known as star emissaries.

They enjoyed all the resources provided by the Star Pavilion and would only act for the Star Pavilion when necessary.

Unexpectedly, when Ice Soul Fairy refused the sword pavilion back then, she joined the Star Pavilion.

Ten thousand years had passed, and her aura was much stronger than before. Her strength was unfathomable.

However, Tuoba Ying didn't understand. He asked, "Ice Soul Fairy, I remember the rules of Your Star Pavilion. You Won't interfere with the affairs of the sea area. Did you break the rules?"

Ice Soul Fairy was as cold as an ice mountain.

Not only did she not answer, she didn't even look at Tuoba Ying. She walked to Su Yu and blocked his chest with her hand.

The intent to protect him was clearly visible!

Jian Fei Ming frowned deeply. How could he not be afraid of the reputation of the Star Pavilion?

However, it was impossible for him to give up the stone dragon bone sword just like that.

"Ice Soul Fairy, are you really going to make an enemy of my sword pavilion for a mere ant? I believe that if the star pavilion finds out that you recklessly broke the rules of the Star Pavilion, the one who will be punished will be you!" Jian Fei Ming said.

He signaled with his eyes and the people surrounding him closed up, preparing to forcefully capture Su Yu.

At this moment, Ice Soul Fairy finally spoke. As soon as she spoke, the temperature in the surroundings once again dropped like a precipice. Even someone as strong as Tuoba Ying felt a chill all over his body and had no choice but to use his divine power to protect himself.

Those fourth and fifth level Heavenly Abode World Paragons instantly turned into ice sculptures.

Ice Soul Fairy looked at them indifferently and said, "If the Star Pavilion finds out, they will punish your Jian Xuan immediately! Those who attack the Star Pavilion appraiser have never had a good ending, and Jian Xuan is no exception!"

Everyone was stunned, and Jian Fei Ming said, "You are still an appraiser? Fine, I don't plan to attack you, but the trash in your hands!"

PA --

Who knew that just as he finished speaking, Ice Soul Fairy's sharp gaze was directed at Jian feiming.

A wisp of ice turned into a crystal clear palm and slapped Jian feiming's face.

His voice was even colder. "Insulting an appraiser of the Star Pavilion. On account that you are the young master of the Sword Pavilion, I will teach you a lesson. If it were anyone else, they would die!"

The furious Jian feiming suddenly regained his senses. He stared at Su Yu in disbelief.

Even Tuoba Ying was stunned for a moment. He said in a daze, "He... He's an appraiser from the Star Pavilion?"

What kind of tyrannical existence was the star pavilion? It was a giant that even the sword pavilion had to bow its head to.

The wings of the divine feathers race, even if they were tougher than vajra, couldn't withstand a casual collision from the Star Pavilion!

"What do you think?" Ice Soul Fairy Glanced at Tuoba Ying, "Since you don't know his identity, you can just apologize for what happened just now. If you were to make a move again, it will be considered as a provocation to the star pavilion. Even your sword pavilion won't be able to withstand the wrath of the Star Pavilion!"

Jian feiming felt a chill in his heart. He knew very well how terrifying the Star Pavilion would be in its fury!

He really didn't have the courage to size up the star pavilion appraiser.

"Didn't you hear what I Said? Apologize, apologize!" Bing Po Xian'e stared at Jian Fei Ming and the others and said indifferently, "I don't want to repeat myself a third time. If you insist on forcing me to use your blood to pay for it!"

Hearing those words, everyone was enlightened.

After hesitating for a moment, the weaker ones forced themselves to lower their heads, bow, and offer their resources.

After some thought, Tuoba Ying gritted his teeth and chose to compromise.

His heart was filled with grief and indignation. At this moment, he wanted to apologize to the murderer who had harmed his son!

"Master... Master Xue, I'm sorry. Please forgive me. I didn't pay my respects out of kindness. I hope I can make it up to you, Master." Tuoba Ying took out an expensive spirit fruit called the divine feather fruit.

By now, Su Yu already understood.

It must have been arranged by Mu Canghai to prevent any accidents from happening to Su Yu. He ordered ice soul fairy and the four members of the Star Pavilion to protect him in secret.

If nothing unexpected happened, the four members of the Star Pavilion should have sneaked into the Ten Thousand Dragon Cave and protected Su Yu from afar.

Since that was the case, Su Yu would not stand on ceremony. He accepted the apology and looked at Jian feiming.

Ice Soul Fairy looked over, and the coldness between her brows gradually intensified.

Jian Fei Ming's face was gloomy. He gritted his teeth and took out a decent spirit fruit. "Master Xue, it was just a misunderstanding just now. I offer you this spirit fruit. I hope Master Xue Will Forgive me."

The stiff taste and awkward expression gathered together, looking as ugly as if he had eaten a fly.

"Hehe, an island lord using a spirit fruit as an apology, and the young master of the sword pavilion also using a spirit fruit as an apology. Aren't you afraid of losing your status?" Su Yu said.

The killing intent in Jian Fei Ming's heart was like a suppressed volcano that was about to erupt. He said in a low voice, "I wonder what Master Xue Likes."

"Dragon Marrow!" Su Yu replied without hesitation.

HM? Jian Fei Ming raised his head, his eyes revealing a fierce light.

Dragon Marrow was a resource that the sword pavilion focused on excavating. It was second only to the Stone Dragon Bone Sword. Xue Yu actually opened his mouth to ask for this item!

However, after being glanced at by the Ice Soul Fairy, Jian Fei Ming could only contain his anger and take out a bottle of dragon marrow that had already been refined.

It was pure and full of energy. It was equivalent to 20% of the remains of the Divine Dragon.

Su Yu's eyes shone brightly as he looked over.

Adding the 40% he had obtained previously, it was enough to completely refine the remaining 1,000 Divine Dao.

Becoming a god was just around the corner!

"Master Xue, come back to the Star Pavilion with me. If you stay here with these vulgar people, it will only bring shame to your identity," said the ice soul fairy.

Su Yu had the same intention.

Leaving the Xue family, the Star Pavilion was the best place to go.

Hua --

Snowflakes fluttered in the air. Ice Soul Fairy brought Su Yu up into the sky.

Just as she was about to leave, ice soul fairy suddenly frowned and stopped her momentum. Her cold face showed traces of fear, "Jian Ruxiong, how long have you been here?"

Su Yu's expression changed and he looked up.

At the end of the snowflakes, there was a middle-aged man in purple standing high above.

He was carrying a nine-foot-long ancient yellow sword on his back and he looked down coldly.

He was the Master of the Sword Pavilion, Jian Ruxiong!

Jian Ruxiong stepped on the void and stepped down. Every step he took caused the entire world to tremble slightly. It also caused the hearts of all living beings to beat for no reason.

Every word and action affected the phenomena of the world. It was a sign that he was close to the laws of the Great Dao.

The Ice Soul Fairy's beautiful face changed dramatically. She said solemnly, "If you touch the laws of the Great Dao, you are no longer far away from the emperor of the world."

Jian Ruxiong walked down with his hands behind his back. He said indifferently, "You are just a messenger from the Star Pavilion. Don't you think too highly of yourself?"

Chapter 1627 Back To The Strait

"If it was Mu Canghai himself, I would still be afraid. But you, who do you think you are?" Jian Ruxiong's eyes were as sharp as lightning. He waved his left palm, and a mysterious power attacked.

Ice soul fairy moth's expression changed. Purple and green frost surged all over her body, and she turned into eight prisms.

Kacha --

A muffled sound came from the prisms. Several vague chains flickered.

Cracks covered the prism.

"Purple Green Ice Sword!" Ice Soul Fairy let out a low shout, and the prism disintegrated into an ice-cold long sword.

The sword was long and narrow, and it gave off a cold air.

What was more shocking was that the grade of this sword was not low, and it had reached the emperor level!

Jian Ruxiong was surprised. "Oh? It has been ten thousand years, and your cultivation has already reached the bronze overlord level? To be able to instantly form an emperor level divine weapon, not bad. If you challenge Jian Xuan again, I believe the ninth peak master is no longer your match!"

"But..." Jian Ruxiong's gaze suddenly turned cold. "So What? In front of me, what does that count for?"

He put his two fingers together and pointed across the air. "Xuanzong's seven kills Sword!"

A streak of material sword Qi that contained an unparalleled will attacked like an ancient torrent.

Ice Soul Fairy E's expression was grave as she shouted, "Three forms of ice extinction!"

An extremely powerful aura of an overlord surged out from her body as well. An icy-cold sword qi radiated in all directions with the power of freezing the world.

The two sword qi converged in front of everyone, but the ice-cold Sword Qi was like fog, and a gap was created by Jian Ruxiong's sword qi.

Ice soul fairy hurriedly shouted, "Take master Xue Away!"

"Yes!" The Four Star Pavilion members performed a combined technique and turned into a golden tower, protecting Su Yu in the center.

The golden tower flashed, and in a flash, it covered hundreds of millions of miles.

Tuoba Ying and Jian Feiming were caught off guard. How could they have expected that the seemingly ordinary star pavilion members also hid a heaven-defying technique?

Seeing that they could not catch up in time, Jian Ruxiong said indifferently, "We can't escape."

He looked at Ice Soul Fairy. She swept away the incoming sword Qi with her sword and placed it in front of him to stall for time for Xue Yu.

Jian Ruxiong's eyes gradually turned cold as he slowly pulled out the dusky yellow greatsword on his back, he said slowly, "You seem to be very proud of your identity as an emissary of the Star Pavilion. However, I will tell you that the Star Pavilion won't do anything to me even if I Touch You!"

Whoosh --

A sword hum that resounded throughout the universe reverberated throughout the sky.

The dim yellow nine-foot-long ancient sword was in his hand.

Ice Soul Fairy Eun'e immediately felt a sense of danger surging over. She narrowed her eyes and said, "Jian Ruxiong, do you feel that you already have the strength to resist the star pavilion?"

From the other party's words, she could sense that Jian Ruxiong's arrogance had caused him to no longer respect the star pavilion as he had in the past.

However, the Star Pavilion had countless emissaries. If she lost one of them, the star pavilion might not be able to do anything to the Sword Pavilion.

After all, if they really wanted to use the sword pavilion, the Star Pavilion would only use their full strength. Recently, the Star Pavilion had been focusing on another matter, so it was impossible for them to be distracted.

She sighed in her heart. Her ice-cold Crystal Eyes erupted with an unyielding battle intent. She pointed at the sword and said, "The Mahayana sword, the sect guarding treasure bestowed by Emperor Purple Dream? That's good too. I'll die well."

The sword stabbed out like a hero, and in an instant, it was like the sunset.

The faint yellow clouds, the blood-red setting sun, and the blood-red sky weaved together into a desolate and tragic scene.

Ice Soul Fairy didn't retreat, but instead advanced. A proud smile blossomed on her lips, and like a snow lotus swaying in the snowy plains, she merged into the sunset.

"Heartless limitless sword."

Ice Soul Fairy's shout echoed in the sunset, but her figure was nowhere to be seen.

Clang --

He drew his sword and sheathed it. The dusk faded away, leaving only the white clouds and the figure of ice spirit fairy.

Jian Ruxiong shook his head. "You're overestimating yourself."

He shook his chest, and a wisp of purple-green frost left behind as he chased after Su Yu.

In the distant sky domain, four members of the Star Pavilion escorted Su Yu as he constantly teleported.

The joint attack technique they used could be said to be heaven-defying.

However, Su Yu keenly observed that their forms had changed. In just a few breaths, they had aged ten years.

The price for using a divine technique that did not match their cultivation was their lives.

“Stop.” Su Yu sighed softly. “Don’t Waste Your Life for me.”

The four members of the star pavilion said expressionlessly, “Master Xue, we have received training from the Star Pavilion and have long been prepared for today. Please don’t make things difficult for us.”

Su Yu shook his head and said, “The sword master has personally made a move. You are just wasting your lives for no reason.”

Their expressions were resolute. “Master Xue, we will protect you and die. The Star Pavilion will take good care of our loved ones. If we escape, we will lose everything. For You and for us, please continue.”

Su Yu was moved. Because he was weak, he was willing to sacrifice himself for the sake of the lives of others and the reproduction of future generations.

Perhaps it was sad, or perhaps it was respectable, but it did not suit Su Yu’s heart.

He pulled out the beauty under the Moon, held his sword, and swept it across. The sharp sword ray cut a thin line in the Golden Pagoda from the inside out.

The four people’s Qi immediately became chaotic, and the Golden Pagoda collapsed without being attacked.

“Master Xue, you...” The Four Star Pavilion members said in surprise.

Su Yu stood with his sword in hand, looked around at the four people, and said, “Let’s go. Go back and tell the pavilion master that I asked you to leave. She Won’t make things difficult for you.”

“But...” the four members of the Star Pavilion hesitated.

Su Yu said, “This is an order!”

With that, the four of them bowed and fled in four different directions.

“Master Xue, hold on. We will immediately send a message to the star pavilion and ask for reinforcements.”

Su Yu smiled bitterly. It had been several months since they had gathered at the Star Pavilion. How could they hold on until the star pavilion came to rescue them?

It was better to save himself!

He looked around, and his heart skipped a beat. He turned toward the northwest and sped away

Soon, Jian Ruxiong led his army and chased after him from where he was standing.

He swept his Lightning God's eyes over and fixed his gaze on the northwest. "Chase!"

The stone dragon bone sword could not be lost!

An hour later.

In a sea that was as black as ink, it was as if a group of savage beasts were lurking in the sea. They could rush out of the sea at any time and devour the creatures flying above.

It gave people a great pressure.

Jian ruxiong slightly looked down and asked, "Where is this?"

No one responded.

Jian ruxiong lightly shouted, "Who is in charge of this sea?"

Shua --

Two figures walked out. One was Hong Lei, and the other was Tian Zhenyuan.

They were the special envoys in charge of this place, so they were very familiar with this place.

Hong Lei cupped his hands and said, "Reporting to my lord, this is the evil Ghost Strait, which is tens of billions of miles away from Twin Star Island. It is a famous dangerous place."

"Evil Ghost Strait?" Jian ruxiong murmured and stared at the dark surface of the water. His intuition told him that there were indeed some unknown existences under the water.

He pondered for a moment and said, "Split up and surround the evil Ghost Strait. Don't even think about escaping!"

"Yes!" No one dared to look down on him.

Jian ruxiong continued, "Have you caught those people from the Star Pavilion?"

Xiu --

A green-robed elder stepped on the flowing wind and walked over with four bloody heads in his hands. He said, "No."

"What about the messages they sent?" Jian Ruxiong asked.

The green-robed elder opened the palm of his other hand, and the four twinkling stars flickered.

As he clenched his five fingers, the lights were extinguished.

"Very good!" Jian Ruxiong was relieved. "Although I'm not necessarily afraid of the star pavilion, it's better not to attract the star pavilion before I get the Stone Dragon Bone Sword."

At this point, all the people related to the star pavilion had been eliminated.

No one knew that Jian Xuan was bold enough to launch a siege against the Star Pavilion's appraiser, Xue Yu.

Jian ruxiong fixed his eyes on the pitch-black sea and said, "Green Shadow, go down and capture that kid!"

The green-robed elder nodded. The power of space surged around his body and disappeared instantly.

The Supreme Dao he cultivated was the Dao of space!

The green figure appeared out of thin air in the pitch-black evil Ghost Strait. His old and sharp eyes scanned the surroundings.

His eyes also contained the power of space. With a glance, he could see through all the material objects in the four directions.

Suddenly, his eyebrows raised, and his eyes revealed a hint of mockery. "Kid, do you have the right to escape in front of me?"

He stared at a seemingly material stone wall, and his eyes blinked.

Immediately, the space energy around the stone wall began to ripple.

The stone wall exploded with a bang.

Xiu --

A human figure, like a clever little fish, fled from the stone wall in a panic.

That figure, if it wasn't Xue Yu, then who was it?

"You still want to escape?" The green figure sneered, "The space cage."

He shouted in a low voice, and the space around Su Yu rapidly contracted, wanting to bind him within.

The strange thing was that Xue Yu seemed to be extremely sensitive to the power of space. Before the space cage was formed, he had already drilled out from an empty space.

"Eh?" The green shadow was slightly surprised when he grabbed nothing.

As a bronze-level overlord, the use of the Space Supreme Dao could be said to be godly. Grabbing nothing in one move really surprised him.

Seeing Su Yu slip deeper into the canyon, the space around the green shadow pervaded, and he used space teleportation again.

The next moment, without any warning, it appeared in front of Su Yu and cut off his path.

At the same time, a chain formed by the power of space flew around like a silver snake.

Su Yu's pupils flickered with a bright light as he used the beauty under the moon to stab at a certain place in the chain.

The originally invisible power of space was actually slightly bent by the beauty under the Moon.

Seizing the opportunity, Su Yu's body twisted and avoided the entanglement of the spatial chain.

The Green Shadow was really shocked. “You can identify the weakness of my space power? Could it be that you are also a Space Supreme Dao Master?”

Su Yu did not say a word and continued to drill deeper.

The green shadow snorted. “I don’t believe that you can escape!”

“All things in the world!”The green shadow shouted and gathered under his feet to form a huge net made of space power. With a whoosh, it enveloped over.

The net covered an extremely wide area, and Su Yu could not avoid it. He could only Dodge back and forth in the net hole as if he was treading on thin ice.

The green shadow sneered and hooked his right index finger, and the net hole undulated like waves.

Su Yu’s right ankle was caught by accident.

Taking advantage of this opportunity, the huge net quickly contracted and wrapped around Su Yu.

Su Yu secretly felt that things were not good. If he was caught, there was no chance for him to turn around!

Looking at the beauty under the moon in his hand, Su Yu gritted his teeth and raised his sword to cut off his right foot.

The pain was intense. Su Yu only frowned and then slid down expressionlessly. At the critical moment when the giant net was shrinking, he escaped.

Swoosh --

Su Yu quickly slid down along the steep cliff and landed on a very flat boulder.

There were dense starlight grass growing on it. It seemed to be out of place and out of place.

However, after failing to capture Su Yu time and time again, the Green Shadow was already furious. He did not observe his surroundings calmly and did not realize that something was wrong with the flat land.

“Enough!”The green shadow shouted angrily. He took a deep breath and countless bubbles gathered around his body.

Chapter 1628 Godhood

Those were compressed air bubbles of space power. Once they hit something, they would immediately crack, and the space power within would erupt, causing an extremely powerful spatial shock.

With Su Yu’s cultivation, even if he didn’t die, he would have to pay the price of being heavily injured.

“Go!”

Rumble --

Thousands upon thousands of air bubbles surged towards Su Yu. When they were several thousand feet away from him, they exploded at the same time.

Boom! Boom! Boom

It was as if hundreds of Thunderbolts exploded at the same time. The powerful space explosion shook the stable space in all directions until it was extremely chaotic.

Su Yu only felt that there were different sizes of space compression coming from all directions. It was as if his entire body was about to explode. The intense pain was unbearable. It was a hundred times more painful than cutting off his own limbs.

Even though Su Yu had experienced countless serious injuries, he could not hold it in. He let out a muffled groan.

Blood welled up in his mouth, and many parts of his body exploded. His skin and flesh were truly split open.

However, under such serious injuries, the corners of Su Yu's mouth curled up into a mysterious smile.

"The power is very suitable, very good!" Su Yu endured the intense pain and said with a smile.

The Green Shadow was startled and asked suspiciously, "What do you mean?"

Rumble --

A loud sound suddenly rang out. It was not the sound of the remaining space bubbles exploding, but the loud sound of some kind of huge object rubbing against the cliff.

At the same time, the huge platform actually rose up by itself. To be precise, it rose up.

A slope rose up from the plane, facing the Green Shadow.

At this moment, he realized that under the slope, there was a pair of huge, dim yellow eyes.

At the same time, in the pitch-black canyon, there was a huge, long body swimming about.

In an instant, the green shadow's body trembled, and the outline of a huge snake appeared in his mind.

At the same time, the heavily injured Su Yu flew up and shouted at the huge snake, "Hehe, stupid thing, you caused our Xue family to suffer back then. Today, I brought people here to take revenge. Prepare to die!"

Although this snake's strength was high, its intelligence was average.

The huge snake's eyes turned and stared at Su Yu.

Hiss --

It flicked its tongue, and the ruthlessness in its eyes soared. It remembered the creature that had swindled away all the starlight grass half a year ago.

What made it even angrier, as the king of this place, was the fact that Xue Yu had brought an expert here. It was undoubtedly a provocation.

Hiss --

Its enormous body swam violently, and its ferocious head shot up with a Swish, biting the Green Shadow.

It knew very well who was the bigger threat, and who should be the first to be eaten.

The Green Shadow didn't care much about this snake, but when it rushed over, it emitted an overlord-level savage aura. The Green Shadow was shocked.

There was an overlord-level sea beast hiding in the Jian Xuan Sea Area?

As soon as it was said, the green shadow immediately used space movement and teleported away.

However, this giant snake was extremely fast.

Before the Green Shadow could teleport away, its bloody mouth was already closing in on him.

The green shadow was shocked and shouted anxiously, "Wait! I'm not with him. I'm here to kill him!"

The giant snake's yellow eyes were filled with anthropomorphic mockery as it spoke in human language, "Do you think this king is a fool? If you really want to kill him, then why did you use spatial energy to sneak attack me?"

The green shadow could not defend himself. He was anxious to attack Su Yu, so how could he have expected that there was an overlord-level beast sleeping here?

At this moment, he finally understood Su Yu's true intention of retreating step by step.

If Su Yu had been hiding on this giant snake's head from the very beginning, the green shadow would have been cautious and would have carefully examined the snake's head for any abnormalities.

However, it was precisely Su Yu who was retreating step by step that numbed the Green Shadow, causing him to make a move and accidentally injure the giant snake.

Now that he thought about it, Su Yu hiding here was a trap from the start.

"No, I..."The Green Shadow Roared.

However, the giant snake did not listen to his advice and swallowed the Green Shadow.

However, the Green Shadow was after all a bronze overlord of the same realm. If he was swallowed, he would not die immediately.

Moreover, he was proficient in the Space Supreme Dao. How could he be destroyed by simply swallowing?

Puff --

A bloody hole suddenly exploded on the giant snake's neck, and a powerful space fluctuation came from inside.

The Green Shadow used the Space Supreme Dao to teleport directly and found that there was another universe in the giant snake's belly, space teleportation was obstructed.

Helpless, he could only choose to use the space divine art to break the giant snake.

Hiss --

The giant snake suffered pain and stimulated its vicious aura. The black snake scales on its neck turned into pitch-black poisonous snakes, sealing the gap and drilling into it to bite the Green Shadow.

The green shadow naturally would not sit still and wait for death. It operated the Supreme Dao of space and resisted tenaciously.

The two bronze overlords were fighting each other to the extent that they temporarily forgot about Su Yu.

Everything was as Su Yu had expected.

Although the journey was dangerous, it was still considered smooth.

Enduring the intense pain all over his body, Su Yu looked at the depths of the pitch-black cliff and continued to dive down.

The deeper he went, the darker it became, and the colder it became.

When he reached an unknown depth, a pitch-black hole appeared before his eyes.

The size of the hole was similar to the head of a giant snake.

“Snake Hole?” Su Yu was not surprised. He suppressed the chill and entered the hole in a flash. A faint smell of snake assaulted his face.

It was indeed a snake hole!

“I hope my guess is not wrong,” Su Yu thought to himself.

He stepped into the cave and kept moving forward along the dark and curved snake cave.

The snake cave stretched for hundreds of millions of miles. When Su Yu was wondering if the Snake Cave had an end, a faint light appeared in front of him.

“Nothing unexpected.” Su Yu came to the entrance of the cave and looked at the vast sea and the leisurely blue sky outside the cave. A trace of a smile appeared on the corner of his mouth.

A crafty rabbit had three burrows. This snake occupied the evil Ghost Strait. There was no reason that it would not prepare an escape route for him.

On the other end of the Snake Cave was the escape route.

Standing at the entrance of the cave, he looked around and found that he had long left the waters of Twin Stars Island. He didn’t know where it led to.

The nearby islands were scattered all over the place, and there were up to a thousand of them.

There were all kinds of creatures growing on them, as many as the hairs of an ox. If he were to hide inside, it would definitely take a lot of effort for Jian Xuan to find him.

He had finally escaped and ascended to heaven!

However, unexpectedly, Su Yu did not step out of the cave. Instead, he returned to the tunnel and went back! ! !

After a long time, he returned to the evil Ghost Strait again.

He looked up at the valley where the fierce battle had stopped, stepped out of the Snake Cave, and continued to sink.

The extreme coldness completely froze Su Yu's body and turned him into an ice sculpture, falling into the depths of the valley.

Su Yu also restrained all his aura. Even his soul was tightly sealed within his soul, not emitting a single bit of it.

He could only wait quietly.

After a long while, an incomparably violent fluctuation came from the canyon.

A scene of dusk strangely scattered in the underwater canyon. Accompanied by the terrified hissing of the giant snake, it blossomed in the sea.

Not long after, the corpse of a giant snake broke into several pieces and fell into the depths of the canyon.

The Master of Sword Pavilion made his move!

In the air of the canyon.

Jian Ruxiong kept his long sword and healed the Green Shadow.

At this moment, the Green Shadow was covered in rotten flesh and blood, which was caused by the extremely fierce snake venom.

His face was pale. To be precise, he was flustered and exasperated.

“Shameless bastard! How dare you scheme against me! I will tear him into pieces!”The Green Shadow was furious.

Jian Ruxiong's eyes flashed. The reason why he let the Green Shadow attack was because he sensed danger.

It seemed that he made the right choice. It was unexpected that there was a bronze-level sea beast hiding in this sea area.

Fortunately, the sea beast was attracted by the Green Shadow, so Jian Ruxiong could easily kill it.

Now, only Su Yu was left!

“Split up and look for Su Yu. Don't let go of any traces,”Jian Ruxiong ordered.

The crowd quickly split up and searched for Su Yu's whereabouts.

Not long after, Tuoba Ying was the first to notice something strange in the depths of the canyon. He said, “Sword Master, there's a cave here. There's Xue Yu's aura remaining nearby.”

“Oh?” Jian Ruxiong walked over and sized him up. His expression changed slightly. “Not good. Quickly chase after him. This kid might have escaped!”

An hour later, the group stood at the entrance of another cave and looked at the boundless sea. All of them had ugly expressions on their faces.

The snake cave was connected to the left and right!

The strangest thing was that the giant snake had strengthened the space law in the Snake Cave, which made the snake cave look short. In fact, it had traveled through a large area of space.

This place was hundreds of billions of square miles away from Double Star Island.

Without a doubt, Su Yu had entered the sea in front of him. Finding him was like finding a needle in a haystack!

“Thousand Star Island!” Jian Ruxiong recognized this place. It was an island at the edge of the Sword Pavilion, and it was occupied by many weak forces.

If Su Yu escaped into Thousand Star Island, it wouldn’t be easy to find him in such a short time.

However, no matter how difficult it was, he had to find him.

“Pass down my order. Tell all the island owners of Thousand Star Island to come and see you!” Jian Ruxiong gave the order. All the people of the Sword Pavilion flew to the islands and passed down Jian Ruxiong’s order.

Of course, there was only one purpose for them to request an audience. They would use all the forces of Thousand Star Island to investigate each and every one of the common people.

Jian Ruxiong’s eyes were filled with killing intent. “I will dig three feet into the ground and dig you out!”

Su Yu, whom they had been searching for all over the world, was still quietly at the bottom of the sea after the evil Ghost Strait was quiet.

The difference was that he had used the power of a dust immortal to remove the ice. He was sitting cross-legged and seemed to be preparing to cultivate.

He did not plan to take the opportunity to leave the evil Ghost Strait.

This was because Su Yu knew very well that although the sword pavilion was big, it was under the control of the sword pavilion everywhere.

On the surface of the sea, he would be wanted by all the forces affiliated to the Sword Pavilion.

Moreover, with the strength of Jian Ruxiong and the peak master accompanying him, it was impossible for him to completely hide his tracks.

Perhaps he could escape for ten days to half a month, or even a few months, but it was absolutely impossible for him to completely escape.

There was only one place that was the safest.

And that was this place!

When everyone assumed that Su Yu had left the Snake Cave and was hiding in a safer sea area, Su Yu had instead gone the opposite way, hiding in the depths of the seemingly hopeless evil Ghost Strait.

This was the best place to cultivate.

Taking out a bottle of dragon marrow that had been refined, and then taking out two incomparably large dragon bodies, Su Yu took a deep breath, his eyes filled with anticipation.

He had waited for this day for too long.

He had become a god and saved Xia Jingyu.

He had become a god and restored his strength to its peak!

With an unprecedented desire, Su Yu poured a bottle of dragon marrow on his body.

Sizzle --

The purity of the refined dragon marrow was far better than the dragon bones on the twin stars island.

Layers of green smoke appeared on Su Yu's body, causing him to Groan in pain.

The feeling was like fresh lava pouring down from a volcano. It was unbearable.

"Hiss..." Su Yu sucked in a breath of cold air. Not only did he not shrink back, he poured another bottle.

That was because Su Yu felt the crazy refinement of the Supreme Dao. That incomparable pleasure completely offset the pain.

"Only three months. I, Su Yu, can be ranked as a god!" Su Yu could not suppress his laughter. Amidst the pain and pleasure, he began to transform.

Chapter 1629 Broke Out Of The Cocoon

At the same time, Thousand Star Island began a vast investigation.

From the island master to the mortals, they were all mobilized.

Xue Yu's portrait was distributed to every living being within a short day.

Moreover, the sword pavilion had issued an extremely high reward. Anyone who discovered Su Yu's whereabouts would be rewarded with an emperor-grade divine weapon!

And the person who captured Su Yu alive was the Eleventh Peak Master of the Sword Pavilion!

Such an attractive reward not only caused the thousand star island to boil with excitement, even the islands tens of billions of miles away were ecstatic. They all spared no expense to join the search for Xue Yu.

In all sorts of uninhabited sea areas, a dense number of small search boats appeared overnight.

All sorts of remote seabed were also filled with searching experts.

Not to mention Su Yu hiding on an uninhabited island, even if he was hiding in the underwater ruins, it would be difficult for him to escape the mighty search.

On this side, the search operation was in full swing.

On the Twin Star Island side, they finally discovered something strange. Everyone looked as if the sky was falling and their expressions were unsightly.

The hundred blossoms family, the Lu family, and the Murong family, who were supposed to leave, fled back to Twin Star Island one after another.

This was because they were intercepted by the sword pavilion halfway.

After the people of Jian Xuan verified their identities, they went on a killing spree without a word!

Unexpectedly, the members of the three families suffered varying degrees of casualties.

It was unknown why Jian Xuan attacked, but it could be predicted that the three families were ambushed and killed. Jian Xuan's killing intent towards them was unquestionable.

The three family heads, along with Xue Yuntian, paced back and forth in the living room, feeling extremely uneasy.

Beep Beep --

The communication jade pendants on their bodies kept ringing non-stop.

However, every time they took a look at the jade pendants, the unsightly expressions on their faces increased.

After they escaped back to this place, they arranged a group of death squads to spread out in all directions to investigate the situation.

However, regardless of whether it was the hundred blossoms family, the Lu family, or the Murong family, the people they sent out either sank into the ocean, their fate unknown, or they received news of an ambush.

After combining the investigations of the three great families, they were shocked to find that with the Twin Star Island as the center, a hundred million square meters had been sealed off.

No family or power was allowed to leave.

"Hundred blossoms blue, aren't you the cousin of the Peak Master of the eighth peak of the Sword Pavilion? "We usually interact with each other and have a harmonious relationship. Why Don't you ask her why the Sword Pavilion is killing us?" Lu Zhongtian's brows were filled with anxiety.

His divination was unable to find any clues.

Not only were there too many participants in this matter, but more importantly, the ones who were sent out were all the top experts of the Jian Xuan.

Bai Hualan was in a terrible state and said, "It's useless. I've already contacted her, but... she only responded to me with one sentence, telling me to take care of myself."

In other words, she had abandoned her and cut off all ties with her.

In the room, Murong Feng was still rather calm. He pondered and said, "Everyone, since the Sword Pavilion wants to destroy us, why did they suddenly stop the killing when they formed a siege? They only trapped us and didn't kill us."

Lu Zhongtian's eyes flashed and said, "I think that the mastermind was most likely delayed by other matters and didn't have time to care about us. Once he withdrew his hand, it would be a lightning strike for us."

Murong Feng nodded, "That's right, so the only thing we need to do now is to save ourselves!"

His eyes were filled with a bright light as he looked at Xue Yuntian, he said, "Brother Xue, at this moment of life and death, I hope that brother Xue will not save us. Quickly ask nephew Xue Yu to step in. Then, he will invite the star pavilion. That way, we still have a chance of survival. Otherwise, with the way the sword pavilion slaughters us like dogs, it will be difficult for us to escape death."

Xue Yuntian smiled bitterly and said, "I'm not satisfied with all of you. Xue Yu has left the twin stars island recently."

"What? He left at this juncture?" Hundred Flowers Blue was shocked and asked, "Why did he leave? And where did he go?"

Xue Yuntian sighed and said, "He went on a journey. Only he knows where he went."

Father, how could he not know where his son went?

It was originally a question full of questions. However, at this moment of panic, they did not understand the hidden meaning behind it.

Murong Feng said thoughtfully, "There's no rush. Even though nephew Xue Yu has left, if brother Xue asks for help from the Star Pavilion, the Star Pavilion will not stand idly by and watch since Xue Yu is a member of the Xue family."

The others all regarded the star pavilion as their only hope and all of them looked at Xue Yuntian with Hope.

Helpless, Xue Yuntian said, "Alright, I'll give it a try."

The Xue Clan had stationed one or two members of the Xue Clan on the Chaotic Stars Island all year round to collect important resources.

If they could contact them now, they could inform the star pavilion about this matter.

However, after infusing divine power into it, the Xue clan's communication magic tool didn't move at all.

Xue Yuntian's face also darkened. After several attempts, he sat down dejectedly and let out a long sigh. "The communication to the outside world was also blocked! Jian Xuan came prepared!"

What? Even the communication from the outside world has been blocked?

The Other Dao Masters contacted their clans one after another, and the result was exactly the same!

Jian Xuan must have used a large-scale formation to seal off the communication between this area and the outside world.

Everyone fell into despair. They were like turtles in a jar. Their lives depended on when Jian Xuan would free up his hands.

As for Jian Xuan, he was still looking for Su Yu with great fanfare.

From the first thousand Star Island, in just three months, it covered the entire Jian Xuan Sea area.

Most of the islands joined the operation. Even those who visited the Xue family also joined the operation to search for Su Yu for profit.

The scale of the operation surpassed any other. It could be said that it was unprecedented.

At this moment, Su Yu could be said to be the public enemy.

Although the Jian Xuan was huge, there was no place for Su Yu to hide.

However, there was no news of Su Yu in such an unprecedented search operation.

It was as if he had disappeared into thin air.

All the islands near Thousand Star Island and even the bottom of the sea had been dug to the ground. Everyone had been searched.

There was not a trace of Su Yu.

Jian ruxiong could not sit still. He believed that no one would dare to protect Xue Yu. He also believed that it was impossible for Su Yu to not leave a trace under such a huge search operation.

But why is it that there's no sign of him?

Is there * * * * * , secretly colluding to help Su Yu escape?

At the thought of this, the sword such as Xiong eyebrows deeply screwed up.

Three months, still have not found, this means to find the possibility of Su Yu, very small!

“That Stone Dragon Bone Sword, if the ancient book's description is correct, should be the supreme treasure of the Dragon Clan, the Royal Power Longzun Sword, is the keepsake of past Dragon Emperors, the one who holds the Dragon Sword, is the current Dragon Emperor!”.

This was the reason why he was willing to pay any price to find this sword.

If the Royal Longzun Sword obtained this sword, even if it was the Emperor of Heaven and earth, he would have nothing to fear, let alone a mere branch of the Star Pavilion.

Unfortunately, things did not go as he wished.

The Royal Longzun sword was missing, and he was still an ordinary master of the Sword Pavilion. He still had to lower his head in front of the Star Pavilion.

Deep anger surged in his heart.

“Go, go back!” Jian ruxiong gave up on the search, and his killing intent seeped into his words. “Kill them all! Especially the Xue Family!”

Taking away the supreme treasure that could change his life, he could only die.

Jian feiming's face was also gloomy, and his killing intent was overflowing.

The opportunity for Jian Xuan to rise to great heights was actually crushed by a few ants. Such a monstrous hatred, if he didn't skin them alive, it would be hard to vent his hatred!

Jian Xuan, who had found nothing, returned to the evil Ghost Strait along the Snake Cave.

Jian Ruxiong's face was gloomy as he charged toward the surface of the sea without saying a word. He led everyone toward the twin stars island like a black cloud pressing down on a city.

Tuoba Ying followed behind. When they passed by the strait, he stopped and did not follow them out of the sea. Instead, he revealed a burning expression as he stared into the depths of the canyon.

He clearly remembered that the bronze-level snake had fallen into the depths of the strait.

Jian Xuan was anxious to catch Su Yu, so he had no intention of keeping it.

"Any part of the bronze-level snake is a priceless treasure. What's more, if we can extract the essence of the giant snake, there might be a chance for us to break through to become an overlord?" Tuoba Ying waited until the end, he sneakily dived down.

However, he was not the only one who was smart.

"Master Tuoba, what are you planning to do?" Jian feiming put his hands behind his back and stared at him with a sneer.

Tuoba Ying's body stiffened. He immediately found an excuse and said, "I want to go down and check. What if that bastard Xue Yu is hiding under there?"

Jian feiming smiled faintly and waved his hand. "Go help father to besiege Twin Star Island. Bronze-level creatures are also a rare treasure for Jian Xuan. You are not qualified to get your hands on them."

Although Tuoba Ying was furious in his heart, he could only act submissively and leave.

Jian feiming stared at his back and sneered. Then, he landed in the deepest part of the canyon.

The cold air was nothing to him as a second-level heavenly cave abode's World Paragon.

In a few breaths, he landed in the deepest part of the canyon.

As expected, the broken body of the giant snake was still lying at the bottom of the canyon.

Jian feiming took out a storage item and put away the snake corpses one by one.

After putting them away, Jian feiming suddenly saw a statue sitting cross-legged at the bottom of the canyon.

The dust at the bottom of the sea covered half of the body and buried it in the mud.

The statue's body was flickering with thousands of rays of light. The colors were all different, making it seem extremely mysterious.

What was even more strange was that a shabby oil lamp was floating above the head of the statue. Sometimes it flickered, sometimes it was quiet.

The oil lamp burned everything around it. Divine Qi, ice, sea water..

After it burned, wisps of feeble nine-colored qi emitted from the oil lamp.

The nine-colored Qi was magical. It rose into rain, fell into dust, and turned into all kinds of small creatures.

It was so magical that it seemed like this wisp of Qi had created a small world.

Jian feiming was bewildered. Many information flashed in his head until an object appeared in his head. He was surprised. "Oh my God! It's the first Qi that created the world, the absolute beginning Qi!"

His face was filled with excitement.

The absolute beginning Qi was the mysterious Qi of the entire absolute beginning realm.

There were so many uses for this object. It was said that many sovereigns of the world were searching for the absolute beginning Qi.

It was said that it was a necessary item to reach a higher level.

However, each wisp was extremely precious.

The Purple Dream Emperor had publicly offered a reward of a wisp of absolute beginning Qi for a bronze overlord level spiritual pet.

But the statue in front of him didn't have just a Wisp? It was an endless stream of new absolute beginning Qi!

He simply couldn't believe himself.

As smart as he was, he immediately realized that he had discovered a world-shaking treasure.

Not to mention that the emperors of Heaven and earth would fight over it, even higher existences would join in the fight!

In his excitement, he roared in a low voice as he pounced forward and hugged the statue. His expression was filled with wild joy. "Hahaha, even though my sword isn't life, I have great luck. I actually discovered a heaven-defying treasure! !"

However, he suddenly realized that the statue in his arms shook slightly as if it was alive.

Chapter 1630 The Emergence Of Ten Thousand Deities

"This..." Jian feiming was startled. He looked at the statue in confusion.

Bada --

Suddenly, the dirt on the statue peeled off, revealing the inside of the statue.

However, it wasn't a lifeless statue. It was a body made of flesh and blood!

"Who is it?" Jian feiming felt his scalp go numb. He quickly retreated.

He couldn't understand why there was a creature at the bottom of the empty valley. What he couldn't understand was that this creature could generate absolute beginning Qi on its own!

Bada --

As the dirt on the statue fell off, his face was revealed.

He didn't know until he saw it. When he saw it, he was shocked. Jian feiming cried out in shock, "Xue Yu? It's You! !"

He couldn't believe his eyes. The Xue Yu that Jian Xuan had mobilized more than half of the sea area to search for was right in front of their eyes.

Even Jian Ruxiong didn't realize this possibility, let alone the fact that he had never imagined it.

At this moment, Xue Yu seemed to have entered a mysterious state. His whole body was shining with thousands of lights. The oil lamp above his head burned brighter and brighter.

Jian feiming had never heard of such a scene.

After a moment of surprise, Jian feiming's face was filled with ecstasy again!

"Hahahaha, this is heaven's will! !"Jian feiming could not help but raise his head and laugh loudly.

If they had not lost the stone dragon bone sword, how would they have discovered Xue Yu, this living, unparalleled treasure?

"Xue Yu, Oh Xue Yu, it was you who made our Jian Xuan Glorious!"Jian feiming grabbed Su Yu's shoulder and looked up.

It was as if the Jian Xuan was about to break through the shackles of the seabed and leap into the air.

However, the moment he grabbed Su Yu...

Su Yu, who had his eyes closed, slowly opened his eyes and said indifferently, "I'm afraid I'll have to disappoint you."

A spark fell from the ancient oil lamp above his head and landed on the back of Jian feiming's hand.

Jian feiming was caught off guard. In his shock, he immediately retracted his palm and shook off the spark on the back of his hand.

However, the seemingly weak spark seemed to have merged into Jian Feiming's flesh and blood and could not be shaken off.

Sensing that something was wrong, Jian feiming immediately used the divine power in his body.

However, not only did the spark not extinguish, it continued to spread.

The spark that was originally the size of a sesame seed turned into the size of a blueberry in the blink of an eye, followed by the eyes of a child, and then spread to the back of his hand.

What shocked Jian feiming was that under the burning flame, the back of his hand turned into nine-colored gas. It was the absolute beginning Qi!

“Little B * Stard! Quickly take back the Flame!” Jian feiming was extremely terrified and kicked at Su Yu.

In the end, another spark fell on the back of his foot.

Bang --

In an instant, the entire right foot was burned into absolute beginning qi.

“Ah! Quick, quickly take it back!” Jian feiming’s pupils shrank. The Flames on his hands and feet quickly spread to his entire body.

He roared furiously. Sharp Sword Qi shot out from his sword-shaped pupils towards Su Yu’s head. He wanted to kill Su Yu to stop the flame from burning.

However, when the sword Qi was three inches away from Su Yu, another spark shot out from the oil lamp and landed on the sword qi.

In an instant, the sword qi turned into absolute beginning qi.

At the same time, the flames followed the source of the sword qi and ignited his eyes.

With a puff, the sword non-life’s eyes were also burned into ruins, leaving only two dark skull holes.

The Flames followed his eyes and spread rapidly in his head, igniting the entire head.

Soon, Jian feiming turned into a burning man as he screamed miserably.

In the raging flames, he was continuously burned into nine-colored gas until he turned into nothingness.

Su Yu calmly closed his eyes. Three inches away from his body, ten thousand rays of extremely intense divine light flickered, incomparably dazzling.

Looking from afar, it seemed like a colorful egg with ten thousand kinds of divine colors.

Boom! Boom! Boom

Suddenly, tens of thousands of feet tall shadows appeared around the colorful egg. Each of them was extremely solid, as if they were real.

One of them was tens of thousands of feet tall, like a crane standing among a flock of chickens. It had black hair and black eyes. It looked down on the world, and its entire body exuded a supreme majesty.

The only thing that could stand shoulder to shoulder with it was an existence that was also tens of thousands of feet tall. Five colors of purple, red, white, green, and black swirled around its body, mysterious and mysterious.

Two 30,000-meter-tall divine shadows and a 30,000-meter-tall giant surrounded Su Yu like stars surrounding the Moon.

Su Yu’s body gradually floated up. He slowly straightened his body and formed hand seals with his hands, making mysterious hand gestures around his body.

The 10,000 illusory shadows followed Su Yu and formed hand seals with their eyes closed.

Their movements were neat, as if each illusory shadow was highly compatible with Su Yu.

In the midst of his mysterious hand gestures, a series of profound concepts were unleashed. Su Yu seemed to be pulled by some unknown force as his body slowly floated up to the surface of the sea.

The Ten Thousand Phantoms all flew up together.

Such a scene was like the emergence of ten thousand deities, it was extremely stunning and magnificent.

At the same time, the sword was like a mighty sword that was filled with rage as a large army pressed down on the island.

The overwhelming number of experts from the Sword Pavilion covered an area of a hundred million miles around the Twin Stars Island.

The people from the sword pavilion, who had surrounded the island but didn't attack, also quickly retreated. Any living being was forced to within ten miles of Twin Star Island.

All the living beings from twin star island could feel the pressure from their souls.

"It's over. The Sword Pavilion is going to massacre the entire city!"

"What did we do wrong? Why did the sword pavilion want to exterminate us?" A small faction that had failed to break out of the encirclement roared indignantly.

"We acted like cattle, thinking that we were strong enough to restrain ourselves. Hehe, we didn't know that Jian Xuan only treated us like dogs!"

Angry roars reverberated throughout twin stars island.

The people from Jian Xuan answered them with cold expressions and deep anticipation.

Every massacre was a windfall for them.

Clang --

The Loud Sound of a sword being drawn resounded in the sky above Twin Stars Island. A dim yellow longsword descended like dusk.

A majestic figure stood in the dusk. A pair of cold and disdainful eyes pierced through the dusk. They carried a bloody light as they looked down at Twin Stars Island.

"Welcome, Sword Master!"

The sky was filled with shouts that blotted out the sun and resounded through the clouds.

Jian Ruxiong looked down coldly. He was like the god of fate who controlled the lives of all living beings. He said coldly and mercilessly, "It has been too long since Jian Xuan made a move. It has made you forget who gave you everything!"

"Who gave you the courage to steal the stone dragon bone sword and dig out the dragon bones that belong to Jian Xuan? Who gave you the courage to do so?"

The empty and cold voice echoed in the nine heavens.

The creatures of Twin Star Island felt as if they were carrying several stars on their backs. Even the world paragon of the first heavenly cave mansion could not catch their breath.

Jian Ruxiong sighed deeply and said coldly, "Today, Jian Xuan will make another move to remind the creatures of the sea who their master is."

He closed his eyes and said mercilessly, "Kill them. Leave nothing behind."

The people of the Sword Pavilion licked their lips. In their eyes, the island forces were like pigs and dogs.

After killing them, they would be able to plunder the resources from them.

The people of the sword pavilion pounced on them like locusts.

In an instant, miserable screams filled the sky, and blood splattered everywhere. The Twin Star Island became a hell on Earth.

Stepping on the Mahayana sword, Jian Ruxiong turned his eyes and fixed them on the Xue Mansion. His eyes revealed a cruel glint. "You are quite calm!"

From the beginning to the end, the Xue family, the hundred blossoms family, the Lu family, and the Murong family did not show their faces.

A sword light flashed beneath his feet and Jian Ruxiong appeared in front of the hall of the Xue family with his hands behind his back.

A powerful gust of wind rose from his body and shattered the huge door of the hall.

In the hall, a densely packed group of people were all staring at the Master of the Sword Pavilion who had appeared.

However, the fear that they had imagined did not appear. Instead, they were all calm and collected.

Jian Ruxiong frowned slightly. This was not the outcome that he wanted.

He swept his gaze across the people present one by one. All of a sudden, his eyes seemed to have caught something as he looked back.

He saw a strange person.

She was seated in an ordinary position. However, Xue Yuntian, Hundred Flowers Blue, Lu Zhongtian, and Murong Feng leaned slightly towards her.

It was as if she was the master of the hall.

"It has been thousands of years since we last met, and the sword master is much more awe-inspiring than before." An unfamiliar voice drifted into his ears.

To be exact, it sounded familiar.

Jian Ruxiong was slightly startled, and at this moment, his gaze finally fell back on that person's body.

However, with just a glance, Jian ruxiong's eyelids suddenly twitched, and he subconsciously bent his knees, wanting to kneel down.

However, when he knelt down, he hesitated for a moment before standing up again.

The coldness on his face disappeared. What replaced it was a trace of solemnity and fear. He cupped his fists and said, "Greetings, Pavilion Master of the Star Pavilion!"

That person was none other than the famous pavilion master of the Star Pavilion, Mu Canghai, who had intimidated the entire Jian Xuan Sea area!

She herself had come to the twin stars island!

Jian ruxiong, who seemed calm, felt a huge wave in his heart.

Firstly, why did the Star Pavilion come here?

Secondly, why did Mu Canghai, who had been in closed-door cultivation all year round, come here in person?

Mu Canghai's old face had a faintly discernible cold expression. He sighed and said, "I'm afraid that the person that sword master is most unwilling to see is me, right?"

Jian ruxiong said, "What are you saying, Pavilion Master? It was precisely because of your support back then that our sword pavilion was established."

Back then, many forces fought for this sea area. With the support of the Star Pavilion, the Sword Pavilion was able to gain a firm foothold.

Mu Canghai shook his head and said, "I don't deserve it. What can the Star Pavilion do to help the soaring sword pavilion? Don't kill me."

Jian Ruxiong didn't deny it. It was a tacit agreement.

The current sword pavilion indeed didn't need to be as respectful to the Star Pavilion as before.

He narrowed his eyes and asked, "Pavilion Master, why are you here?"

Mu Canghai raised his gaze and stared at him coldly. "Sword Master, why do you think that I am here?"

Of course, he was here for the matter regarding the dual star island.

Jian Ruxiong was extremely doubtful.

He had clearly sealed the news, so who was it that informed the Star Pavilion?

Yet, for an ordinary appraiser, the Star Pavilion Master was here personally. This was extremely illogical.

Jian ruxiong said, "Pavilion master, these people have made a huge mistake. I am preparing to punish them. If Pavilion Master pleads for mercy, I can do you a favor and spare them this time."

If possible, he didn't want to fight with Mu Canghai, this old monster who had lived for countless years.

In any case, after Mu Canghai left, it wouldn't be too late to slaughter the Manchus of the four great islands.

Mu Canghai stood up and lowered his head to see. He could not see her gaze clearly, but he could feel her imposing aura without a doubt. "I think the swordmaster has misunderstood. I am not begging you to spare them, but I am requesting that you withdraw from Twin Star Island immediately."

The difference between "Request" and "Request" was like the difference between heaven and earth.

Jian Ruxiong narrowed his eyes. Just as he was about to refute without fear, Mu Canghai said again, "Secondly, I still need to ask you for one person. If I can not get one, I will slaughter your entire Jian Xuan sect!"

What? Jian Ruxiong's heart skipped a beat.

He originally thought that no matter how powerful the Star Pavilion was, they wouldn't dare to really do anything to the sword pavilion.

However, what he said next was beyond Jian Ruxiong's expectations.

For one person, the Star Pavilion actually planned to slaughter the entire Sword Pavilion sect?

As one of the few people who had come into contact with Mu Canghai, Jian Ruxiong was very clear that Mu Canghai had always kept his word.

When he said "Exterminate," he meant it.

A sense of panic welled up in his heart, and Jian Ruxiong's imposing manner could not help but weaken a little. His mind raced, and there was only one question in his mind.

Who was the person she wanted?
