

Nine-Dragon 1721

Chapter 1721 Take You As My Concubine

Lan Yue's gaze was conflicted.

The ancient corpse sect was the common enemy of all living beings!

Joining them was equivalent to abandoning the sea of constellations and going against all living beings.

However, in her mind, she recalled the time when the heartless blade emperor played with her on the ancient altar and casually abandoned her.

She recalled how the pavilion master, Li Li, had chased her away like a stray dog in order to curry favor with Su Yu despite her many years of loyalty.

The struggle in her eyes quickly subsided, replaced by a cold light.

"I'll join you!" Lan Yue said resolutely.

Pa Pa --

Yuan Tian chuckled. "Congratulations, junior sister, for making a very correct decision!"

She sized up the astonishingly beautiful Lan Yue and said, "I believe that junior sister will definitely be given an important position after entering the ancient corpse sect!"

After saying this, Yuan Tian brought Lan Yue away from the imperial city and entered a desolate snowfield.

After a long journey, they arrived at a deserted ancient temple.

Lan Yue followed Yuan Tian into the temple, and a shocking scene unfolded before her eyes.

Within the ancient temple, two rows of experts with terrifying auras stood side by side.

Many of them emitted corpse qi from their bodies, and some of them were creatures from the Sea of constellations!

"The manor head of the three kills Prefecture in the North Sea? The cave master of the Xuanming Cave in the East Sea? The sect master of the Southern Sea's strength God Sect?" Lan Yue was extremely shocked.

These people were all leaders of famous forces in the Sea of constellations.

Not too long ago, they had participated in the birthday celebration of the Snow Dragon Emperor.

However, at this moment, they were together with the corpse race!

On the throne at the very top, a figure with a tall and sturdy body sat with a cloak.

His divine eyes were cold and stern, filled with an aura that looked down on the world.

His entire body emitted an aura that caused all living beings to tremble.

The two rows of experts below were completely silent before him.

"White-furred corpse?" Lan Yue cried out in shock.

The portrait of the white-furred corpse had already spread throughout the sea of constellations.

That majestic figure covered in white fur was the mysterious white-furred corpse that the sea of constellations had been searching for!

No wonder the white-furred corpse had escaped without a sound. With so many spies helping him, who would be able to find him?

“Impudent!” With a cold snort, the palace master of Triple Kill Prefecture casually waved his powerful divine power and struck Lan Yue’s knees.

With a muffled snort, Lan Yue’s knees buckled and she kneeled on the ground. She hurriedly said, “I was rude. Please forgive me.”

She felt uneasy in her heart.

“Raise your head.” An indifferent and unquestionable voice drifted over.

Lan Yue raised her head as instructed. Her delicate and beautiful face, which was like that of a fairy, was reflected in the eyes of the man on the throne.

“A peerless beauty.” The white-furred corpse revealed a look of admiration.

He walked down the throne and walked in front of Lan Yue. He stretched out his hand and said, “This king needs a queen. Are You Willing?”

Lan Yue could not believe her ears. She said, “I’m willing, I’m Willing!”

She could not believe that she was so lucky to be chosen by an Emperor of Heaven and earth.

Amidst the admiration of the crowd, the white-furred corpse held Lan Yue’s hand and stepped onto the throne.

Lan Yue was pleasantly surprised, as if she was standing on top of countless people’s heads.

However, she did not see the strange look in the white-furred corpse’s eyes when he looked at her.

“My Queen, do you have any unfinished wishes?” The white-furred corpse asked.

Lan Yue said without hesitation, “I want to kill two people!”

“Speak!” The white-furred corpse said.

Lan Yue’s eyes were filled with hatred. “First, the second son of the emperor who killed the emperor in the South Sea, the heartless blade emperor, must die!”

“Second, the former member of Star Pavilion, Su Yu, must die too!”

The white-furred corpse asked, “Why?”

“Ruthless blade emperor lied to me. hateful. He deserves to be killed!” Lan Yue remembered the humiliation of being abandoned that day. She would never forget it.

She had once said that she would definitely make ruthless blade emperor regret it.

“What about Su Yu?”The white-furred corpse asked.

Lan Yue opened her mouth, but she realized that there was no reason.

From the beginning to the end, Su Yu had never done anything to let her down. He had even saved her twice.

But, why did he not want to see Su Yu alive?

Only she herself knew that she did not want to see Su Yu Live Well!

The more glorious Su Yu was, the more it highlighted her stupidity of gradually distancing herself from Su Yu. She also regretted it more and more.

If Su Yu did not die, there would be an insurmountable heart in her chest.

“Agreed!”The white-furred corpse said, “If I kill the emperor, I will exterminate his entire clan. As for Su Yu, hmph, even if the queen does not kill him, I still have a reason to kill him!”

After a pause, the white-furred corpse waved his hand.

A powerful aura descended.

He could not help but feel a heavy corpse aura all over his body. There was also an extremely dense aura of death. What was even more shocking was the cultivation of the Xuan Crystal Overlord!

“According to the news that the emperor sent over, Su Yu and a few other prodigies were sent by that old fellow Huangfu Lieyang to carry out a secret mission. As expected, they should have been sent to the great void sect.”The white-furred corpse said, “Death Sword, go there personally and bring back Su Yu’s head!”

“Yes!”The young man bowed and retreated.

If Su Yu was here, he would definitely recognize that the man who was covered in the aura of death and corpse aura was not someone else. Instead, it was the young man who specialized in the attack of the aura of death in the space of the inn, the Xuan Crystal Overlord.

Half a month later, in the Eastern Sea.

A bronze carriage cut through the sea at an astonishing speed and headed straight for the end of the Eastern Sea.

The atmosphere in the carriage was a little weird.

Su Yu and Xue Guanyin were discussing martial arts and the customs of the great void sect with great interest.

Heartless blade emperor and Empress Zi Wei kept their mouths shut.

The former and Su Yu did not pee in the same pot, so they naturally did not speak.

Empress Zi Wei, on the other hand, felt uncomfortable all over, as if a ray of light was on her back. Her face was even weirdly red.

“Empress Zi Wei, you’re sick. Why do you look so weird?”Xue Guanyin looked at her suspiciously.

How could her expression not be weird? Half a month ago, it was here that Su Yu had torn her clothes and recorded a shameful scene that she would never forget for the rest of her life.

Empress Zi Wei seemed as if her thoughts had been exposed as she hurriedly shouted, “What nonsense are you talking about? Su Yu didn’t do anything to me...”

Halfway through her words, Empress Zi Wei quickly shut her mouth.

Xue Guanyin was dumbfounded. Her eyes darted around Su Yu and Empress Zi Wei, and she looked extremely suspicious.

At this moment, heartless blade emperor snorted in a soft voice, “B * Stard!”

That day, when the carriage shook, he and his big brother, sword Saint Wuji, had witnessed it with their own eyes.

Thud thud --

Just as everyone was conversing, the bronze carriage suddenly jolted.

Su Yu raised his eyebrows and immediately activated the detection function to spy on the situation outside.

However, he saw that the bronze chariot was accidentally stuck on the corpse of a huge beast that was floating in the air.

“A Golden Overlord Level Canglan Beast?”Empress Zi Wei came over, she frowned slightly. “This beast is extremely entangled and hidden. Even the Xuan Crystal Overlord can forget about catching it. How could it be killed? Moreover, the wound is so strange. It’s as if the most essence of its flesh and blood has been eaten.”

Su Yu’s expression darkened.

It was the same scene.

A year ago, a nine God body appeared in the Jian Xuan Sea area. It ravaged the sea area and killed many large and small forces.

Many creatures had similar situations. The most important part of the corpse was eaten.

The only difference was that the last time it appeared, the other party’s cultivation was only at the first level Heavenly Cave Mansion.

It had only been a year, and even the Golden Overlord had been killed.

The growth of that nine-god body was truly terrifying.

In order to prevent the people in the carriage from being worried, Su Yu did not mention it. He turned off the surveillance and drove the bronze carriage away.

A few days later, at the end of the Eastern Sea.

At the easternmost part of the Sea of constellations.

The bronze carriage stopped at the edge of the Eastern Sea. Everyone present stood on the carriage and stared at the scene before them. They were all shocked.

The area they were in was filled with surging waves. However, if they took another step forward, they would be greeted by a deathly silent, dark, and ice-cold Endless World of nothingness.

There was no end to it!

“So, this is what it looks like outside the sea of constellations.”Xue Guanyin exclaimed in surprise.

Empress Zi Wei snorted coldly. “What’s so strange about it? The Sea of constellations civilization is surrounded by nothingness. It’s surrounded by nothingness. Anyone who steps out recklessly will definitely die!”

Xue Guanyin was unconvinced. “Who doesn’t know? I also know that the only way to leave the sea of constellations civilization is to ride on the meteorite of Nothingness.”

“HMPH, then you should know that to ride on the meteorite, you need the strongest person,”Empress Zi Wei said proudly.

“You! Why are you so arrogant!”Xue Guanyin stomped her feet unwillingly.

Su Yu heard it and understood.

On the way, he had asked Xue Guanyin about Emperor Yu’s dynasty.

Between the two civilizations, there was usually a terrifying void.

Even though Dao Masters controlled the laws of the Great Dao and were not afraid of the void, they might not dare to stay in the void for long.

Because there were too many terrifying things in the void that had existed since the creation of the world.

For example, if the divine lightning of the Void was struck by this lightning, the Dao Masters would instantly be reduced to ashes without exception.

Therefore, the exchanges between civilizations were conducted through the meteorites in the void.

The meteorites of the void were the few substances that did not fear the void.

For the exchange between civilizations, the meteorites that fell into the civilized world were refined into meteorites that could be controlled by humans.

After landing on the meteors, one could control them to traverse the void.

However, the prerequisite was that the person controlling the meteors could only be one person, and the strongest person among them.

If Su Yu and the other three wanted to control the meteors, they had to be controlled by the strongest person. Otherwise, the meteors would not be able to operate.

Among them, the strongest was undoubtedly Empress Zi Wei.

A trace of arrogance appeared on the corner of Empress Zi Wei's mouth. She glared at Xue Guanyin provocatively, as if saying, "If you have the ability, why don't you fight with me for control?"?

Xue Guanyin was fuming, but there was nothing she could do.

The difference in strength between the two of them was extremely huge.

Xiu --

Not long after they approached the edge, a meteorite with a diameter of only 100 feet flew over with a bumpy surface.

The terrifying nothingness was like nothing in front of the meteorite.

Empress Zi Wei was the first to jump up. Su Yu was the last. He looked around curiously and found a crystal plate in the middle of the meteorite.

After the four of them jumped up, the crystal plate immediately displayed the information.

"Four passengers, please step forward one by one to check the combat potential value."

Su Yu was slightly surprised. He had thought about this question before. How did the meteorite determine who was stronger among the climbers.

He had thought that there would be a simple test, but he did not expect it to be about potential value.

Out Of Su Yu's curiosity, heartless blade emperor walked over first and stood on the crystal plate.

The Crystal Plate shot out a ball of green light and swept across heartless blade emperor's body, as if it was doing all sorts of comprehensive checks.

Not long after, a row of tiny numbers shot out from under the crystal plate.

"Battle potential value, 8,000."

Seeing this number, Xue Guanyin was surprised. "8,000? Before I left the ancient dream altar, the pavilion had tested me. My battle potential value was only 5,000!"

Empress Zi Wei also raised her eyebrows. "Not bad! I'm almost catching up with the me before the ancient Dream Altar!"

Heartless Blade Emperor's previous performance was not very impressive, but after digesting the Dao master's enlightenment, he was actually so powerful that he was almost catching up with the former Empress Zi Wei!

It was easy to imagine how much that opportunity had helped the heartless saber emperor.

A hint of excitement appeared on his brows.

In the entire sea of constellations, there were already very few experts of the same generation who could stand shoulder to shoulder with him.

He couldn't help but be filled with joy. His mood was unprecedentedly open.

When he looked at Su Yu, the corners of his lips curled up, and he cast a gaze filled with fighting spirit.

He was extremely unwilling to be defeated by Su Yu.

Now that his fighting strength had skyrocketed, he was very confident that he could win another battle.

"I'll come too!" Xue Guanyin was eager to give it a try.

Seeing that even the heartless blade emperor had made such astonishing progress, she was not willing to lag behind. She really wanted to give it a try. After comprehending the digestive path master, how strong would her fighting strength be.

With a light tap of her feet, she gracefully landed on the crystal plate.

As the green light swept across her body, Xue Guanyin nervously pinched the corner of her sleeve. Without blinking, she pressed the number that was about to appear.

Heartless Blade Emperor was also paying close attention. He did not dare to let it go.

Ding --

With a crisp sound, a word appeared on the crystal plate.

"Battle potential value, 9,000!"

"Yeah!" Xue Guanyin cheered excitedly.

5,000 battle potential value soared to 9,000, almost doubling! !

The difference of 1,000 battle potential value completely suppressed heartless blade emperor.

She heaved a long sigh of relief. Her small face was filled with joy as she returned with great satisfaction.

Her gaze inadvertently swept towards Empress Zi Wei.

Her previous battle potential value was 8,000. The current Xue Guanyin had surpassed her at that time!

"Humph!" Empress Zi Wei snorted disdainfully. "It's just 9,000!"

Her body flashed and appeared on the Crystal Plate.

The green light swept over her body with extreme care.

Both Xue Guanyin and heartless blade emperor stared at her, afraid that they would miss her.

Ding --

When the green light finished shooting, the corresponding potential value appeared on the crystal plate.

“Battle potential value, 24,000!”

Kacha --

In his shock, heartless blade emperor crushed the spatial storage device between his fingers.

His mouth was dry as he muttered, “24... 24,000...”

Xue Guanyin did not move at all. She stood rooted to the ground and clenched her fists unwillingly. “What a perverted woman!”

Su Yu clicked his tongue as well. Her battle strength had soared from 8,000 to 24,000 in one go, and it had tripled!

After she digested the Dao Master’s Enlightenment, her improvement was really exaggerated!

Empress Zi Wei walked down proudly like a crane among chickens. She said coldly, “There’s no objection to me controlling the meteorite, right?”

Heartless Blade Emperor was convinced. “Other than you, no one else is qualified.”

However, Xue Guanyin was not convinced. She pulled Su Yu over. “Humph, it’s not over yet. Su Yu hasn’t been scanned yet!”

Him? Heartless blade emperor said disdainfully, “You haven’t even digested 10% of the Dao master’s comprehension. How much progress can you make? You Can’t even compare to me!”

Empress Zi Wei glared at Su Yu and said with a faint smile, “Aren’t you rather impressive? Let me see how capable you are!”

Su Yu said, “There’s no need, right? If you like to control the meteorite, then it’s up to you.”

Empress Zi Wei’s smile deepened. “Cut the crap! Test it immediately. If you don’t participate in the test, the meteorite will not be activated!”

Is that so? Su Yu stood up helplessly.

He really hoped that the scanning function would be limited and not reveal all of his strength.

Chapter 1722 Six-Star Civilization

With the hope of getting lucky, Su Yu stepped onto the crystal plate.

Chi --

A powerful green light swept up from his feet, penetrating his entire body and scanning every part of his body.

Su Yu suddenly felt as if his entire body was being seen through.

Even his soul was being scanned, but he was unable to go deep into it.

When he finished scanning, a row of numbers appeared on the crystal plate with a ding.

“Battle potential value, 240,000.”

UH --

Su Yu’s face turned black. wasn’t the detection of the green light a little too detailed?

240,000, ten times more powerful than Empress Zi Wei.

If it wasn't unexpected, it should be included in the calculation of the mastery of the soul eater realm, so it was far higher than Empress Zi Wei.

Fortunately, the green light only scanned the body and couldn't detect the unused divine weapon. Otherwise, with the Royal Sovereign Longzun Sword, the value would definitely exceed a million! But even so, it was enough to shock everyone present.

Heartless blade emperor sucked in a breath of cold air. "Are you mistaken? 240,000?"

Not 240,000, not 240,000, but 240,000! !

Xue Guanyin was also stunned. She could not understand how 240,000 combat potential points were stacked together.

Empress Zi Wei cried out in shock, "How could it be the combat potential points of a peak overlord?"

Based on her understanding, 24,000 combat potential points was the limit of a gold overlord. The limit of a mystic Crystal Overlord was less than 120,000 combat potential points.

240,000 combat potential points was the combat potential points of a peak overlord!

Other than half-step heaven and earth emperors, there were very few people in the Overlord realm who had more than 240,000 combat potential points.

Su Yu was just a bronze overlord, but his battle potential was actually as high as 240,000. Empress Zi Wei couldn't help but suspect that the Crystal Disk's test wasn't fair.

But thinking about it carefully, when she fought Su Yu in the Mystic Crystal Palace, not only did she not suppress Su Yu with her strength, she was even subdued by him!

After comprehending the DAO Master's comprehension, his battle potential soared again. It wasn't impossible.

"How much of the DAO Master's comprehension did you digest?" Empress Zi Wei walked forward and questioned fiercely.

Xue Guanyin and heartless blade emperor came to a sudden realization!

If they still believed the "10%" that Su Yu mentioned, how stupid would they be.

Being stared at by three pairs of eyes, Su Yu smiled bitterly. If he had known that there would be such a test, he would not have concealed it in the first place.

"Ahem, about 50%," Su Yu said.

Hiss --

Xue Guanyin sucked in a breath of cold air and said, "50% ? The dao master's enlightenment that you obtained was five times more than ours. If you digested 50% of it, wouldn't it be two and a half times more than ours?"

Heartless blade emperor was deeply shocked. He had thought that after he digested the Enlightenment, his strength was far above Su Yu's.

Who would have thought that Su Yu had hidden it all, only revealing the tip of the iceberg.

The insights he digested from the DAO Master was two and a half times his. The increase in his strength would definitely be astonishing.

However, even so, his battle potential value was as high as 240,000, which was still inconceivable.

Unless Su Yu cultivated the most supreme divine art in the Sea of constellations.

Empress Zi Wei gnashed her teeth in hatred. She couldn't help but clench her fists tightly.

She originally thought that she would finally have a chance to use her martial strength to snatch back that shameful image from Su Yu's hands. Who would have thought that this fellow, Su Yu, would have such a terrifying increase in strength!

"Cough cough, everyone, let's not waste any more time. Let's hurry on our way." Su Yu jumped down from the crystal plate.

After the four of them finished their examination, a ray of red light shot out from the crystal plate and shone between Su Yu's brows.

Some information appeared in Su Yu's mind. It was the method to control falling stars.

There was not just one method to control falling stars. There were almost tens of thousands of methods..

"So many methods to control falling stars?" Su Yu was extremely surprised.

After reading through them carefully, he realized that each control method was written in a different language.

"So all the methods used by the ten thousand races to control the meteorites are in the meteorites!" Su Yu was a little surprised. "Then, how powerful is the force that refined the meteorites into transportation tools?"

To collect the ten thousand races' methods to control the meteorites, such a feat was truly shocking.

Su Yu couldn't help but ask, "Little Yin, isn't it our sea of constellations civilization that created the meteorites?"

Xue Guanyin was surprised. "How could it be our civilization? Even the great Yu civilization couldn't create such a meteorites."

"Then who is it?" Su Yu was extremely curious. What kind of powerful force could unify the methods to control the ten thousand races?

"Daoist Huang Hall," Xue Guanyin said with respect in her eyes.

Daoist Huang Hall... Su Yu had read many books in the absolute beginning realm, but he had never seen a force like Daoist Huang Hall in any of them.

“What’s the background of that force?” Su Yu asked.

Xue Guanyin shook her head. “I don’t know. The only thing I know is that there’s a six-star civilization in its depths that rules over countless civilizations! The faceless back-born Buddhist master came from Daoist Huang Hall.”

Six-star civilization?

What kind of prosperous super civilization was that?

What surprised Su Yu even more was that the faceless back-living Buddha came from that place.

“What’s there to be surprised about?” Empress Zi Wei snorted. “Not only the faceless back-living Buddha, but even the Daoist master who enlightened Emperor Purple Dream is from the Daoist Hall of Huangdao! In the Daoist Hall of Huangdao, those who are qualified to join are all supreme-beings at the Daoist master level!”

Su Yu’s pupils constricted. A force composed entirely of Dao Masters?

Wasn’t that force so powerful that it made the entire absolute beginning world tremble?

Xue Guanyin wrinkled her nose. “Humph! It seems like you’re the only one who knows about Karma!”

“Then why don’t you tell me?” Empress Zi Wei narrowed her eyes.

Seeing that the two of them were arguing again, Su Yu hurriedly urged the meteorite to set off.

The meteorite control methods of the 10,000 races were not the same.

There was a difference between the good and the bad.

The higher the race, the more advanced their control methods were.

For example, there was a race of the sky wings race, which was a rare upper third-rate race.

Their meteorite control methods controlled the meteorite, which was not only extremely fast, but also exceptionally agile.

On the other hand, the control methods of the lower third-rate human race were quite backward.

The meteor manipulation techniques were not only extremely slow, but they were also very clumsy. Once they encountered an unexpected situation, they would not even be able to dodge in time.

“Sigh, the human race is really lagging behind among the ten thousand races.” Su Yu sighed lightly.

Because Su Yu was proficient in the languages of various races, in theory, all the control techniques recorded in the meteor could be used by Su Yu at will without any pressure.

After thinking for a while, Su Yu chose the human control method.

There were countless experts in the Dayu civilization, so it was better not to easily reveal that he was proficient in many foreign languages.

It was very easy to learn the human control method. With just a few thoughts, Su Yu had mastered it.

He formed a seal with one hand and pressed it on the crystal plate. The meteorite immediately rumbled and moved toward the boundless darkness and nothingness.

Empress Zi Wei's face immediately darkened. "Haven't you learned a few foreign languages?"

There was no other reason. The meteorite's speed was too slow. It was far slower than a bronze horse.

Heartless Blade Emperor's expression was ugly as well. "If this goes on, it will be a long time before we reach Emperor Yu's Dynasty!"

Even Xue Guanyin could not help but mutter, "Isn't this too backward?"

Not only was it as slow as a snail, but the entire meteorite was also rumbling loudly. It was deafening and very noisy. Not to mention meditating, it was difficult to even rest for a while.

"Brother Su Yu, I heard that when you were in the Jian Xuan Sea area, you once translated over a hundred alien languages. Could it be that there aren't any higher-level races among those alien races? Wouldn't it be more time-saving to use their control methods?"

Upon hearing this, Empress Zi Wei was slightly surprised. Over a hundred alien languages?

Didn't that mean that Su Yu was proficient in over a hundred alien languages?

She found it unbelievable. She had never heard of anyone in the Sea of constellations civilization who was proficient in so many alien languages.

Soon after, she frowned. "Surnamed Su, you did this on purpose, didn't you? Since you're proficient in so many languages, why didn't you choose a better control method? You deliberately chose humans. Are you trying to torture us to death by being slow?"

Su Yu shrugged. "Yes, so what?"

"I, I..." Empress Zi Wei was so angry that her nose was crooked. She suddenly stood up and had the urge to go up and strangle Su Yu to death.

However, when she thought that she had something in his hands, she sat down angrily.

Ignoring their words, Su Yu walked slowly and methodically in the desolate void.

After half a month, the group compared the map.

"We are only one-tenth of the way." Empress Zi Wei clenched her jade seal and stared at Su Yu angrily. "Thanks to you, if I were the one controlling it, we would have at least covered half of the way!"

Heartless Blade's face was even darker. He wanted to stomp Su Yu to the ground so that he would not be so cowardly.

Su Yu closed his eyes and said indifferently, "There's no rush. The head pavilion master did not set a time. He must have considered the dangers along the way. He hopes that we will act cautiously and not rush things."

Empress Zi Wei's face was cold as she said, "What danger can there be in the land of nothingness? The real danger is the Great Void Gate!"

Boom --

A light boom suddenly came from their side.

Everyone's hearts trembled. They immediately looked over and saw a meteorite wrapped in flames as it sped through the air at lightning speed.

The meteorite almost brushed past the front of Su Yu's meteorite. The strong wind it created pounced towards them.

In addition, the human race's control methods were too backward, so the meteorite was particularly slow. It didn't have time to dodge and was blown away by the strong wind.

The meteorite didn't intend to stop and left. However, it seemed to have noticed something and slowly slowed down. It turned around nimbly and slowly approached Su Yu's group.

Several handsome young men with fluttering clothes stood on the meteorite. All of them were extraordinarily handsome and had a noble temperament.

However, the evil aura on their bodies could not be hidden.

"Low-grade control method? You are humans, right?" As the meteorite approached, the young man in the middle of the meteorite sized up Su Yu with a scrutinizing gaze.

Su Yu said indifferently, "Sirs, are you returning to apologize?"

He did not believe that they did not notice Su Yu and the others' meteorites just now. Judging from the agility of the meteorites they controlled, they could completely avoid the dangerous scene of "Passing by".

However, they were still like this!

"Apologize?" The Man in the middle sneered, "A resident of a two-star civilization apologizing to a barbarian who is not even a star-level civilization? Little Barbarian, you are thinking too much."

Two-star civilization? It was not emperor Yu of the Great Yu dynasty, but a resident of another civilization.

"It's none of your business. Get lost." The Man in the middle snorted and turned his gaze to Empress Zi Wei and Xue Guanyin, "The two barbarian women are pretty good-looking. Come, become our furnace and we will give you a ride!"

Barbarian girls? Su Yu looked at the four people on the star. The strongest one was the gold overlord who spoke. He should be at the peak of the Gold Overlord realm.

The other three were also at the level of the Gold Overlord realm, but they were much weaker compared to this person.

Su Yu sighed and showed a trace of pity.

“Barbarian girls? Who are you talking about?” Empress Zi Wei laughed in anger.

She had offended them before and called them barbarian girls after. She even openly asked her to be his furnace.

So Be it. Their tone of giving was full of the intention of being his furnace to give her face.

With Empress Zi Wei’s arrogance, it would be a wonder if she could swallow this resentment!

Chapter 1723 Flood Dragon Emperor

“Oh? You have quite a temper.” The middle-aged man smirked. “It’s more interesting to tame a fierce horse!”

Swoosh --

He controlled the meteorite and connected it to Su Yu’s meteorite. Then, he stepped on the connection and landed on Su Yu’s meteorite.

“Barbarian girl, if I don’t take you in today, I’ll write my surname Upside Down!” The middle-aged man said arrogantly.

Xue Guanyin asked in a daze, “What’s your surname?”

“Wang!” The middle-aged man said.

Xue Guanyin pursed her lips. “The Bastard’s King?”

“That’s right, the king of Wang Ba...” the middle-aged man reacted and said angrily, “Barbarian girl, I’ll take you in too!”

Xue Guanyin muttered, “How cunning. If you write your surname Upside Down, aren’t you also a King?”

“You’re courting death!” The young man with the surname Wang shouted angrily and attacked brazenly.

“Eight-armed Yama!” The young man surnamed Wang suddenly attacked. Eight black illusory arms appeared behind his back and slapped at Xue Guanyin together.

“Extreme Ice Feast!” It was Empress Zi Wei who attacked.

Although the two women did not see eye to eye, the man surnamed Wang was really too detestable. Naturally, they shared a common enemy.

Kacha --

The eight-armed phantom of the young man surnamed Wang froze in an instant. His entire body was covered in frost, and his entire face was stiff.

This scene made the people who came with him furious. “Impudent! How dare you be rude to the young ruins lord of the Joyous Union Holy Ruins!”

Shua Shua Shua --

The three of them scurried onto the meteorites of Su Yu and the others.

What responded to them was Xue Guanyin’s disgusted snort. “Nine sons of one mind!”

Nine clones that were exactly the same as her rushed out at the same time.

Nine against three, and it was a battle of the same level. The result was obvious.

After a few breaths, even the man surnamed Wang was thrown into a corner. All four of them had swollen heads and were utterly wasted. How could they still be as handsome and noble as before?

Empress Ziwei snorted coldly. “With such little ability, you still have the face to ask me to be your furnace? HMPH, a bunch of trash who are not even qualified to lick my shoes!”

Xue Guanyin’s eyes were even colder. She pressed her palms together and released a peaceful and tranquil artistic conception. She said, “It’s better to purify all of you and send you on your way so that you won’t harm others.”

It was clearly a cruel word that was meant to kill, but from her mouth, it sounded like a merciful Buddha that had saved all living beings.

She looked weak, but in fact, she was decisive in killing.

“Let’s Go!”The young man surnamed Wang suddenly crushed a powerful talisman and shook away Xue Guanyin’s artistic conception. He also shattered the ice all over his body and rushed back to his meteorite.

The other three also fled back one after another.

The moment they returned, the young man surnamed Wang immediately urged the meteorite to fly away and increase the distance between them.

At this moment, he stopped with resentment and said angrily, “Barbarian girls, just you wait! I will never let you go!”

Empress Zi Wei glared at Su Yu angrily and said, “Why don’t you use a better control method to catch up with them?”

Xue Guanyin couldn’t wait either and wanted to catch up to them and destroy them.

They really didn’t want to be targeted by a two-star civilization.

However, at this moment, an incomparably huge gray palm suddenly slapped over from the horizon and grabbed Yun Xing, the young man surnamed Wang.

Su Yu’s eyelids twitched. “The Emperor of Heaven and earth?”

Empress Zi Wei and Xue Guanyin’s expressions froze as fear appeared in their eyes.

How could... a sovereign of Heaven and earth appear?

Heartless blade emperor swallowed hard as his face turned green.

“Hehe, we’ve finally caught a decent race.” A majestic voice swept over from the horizon as a meteorite almost teleported over. A creature covered in pitch-black scales appeared from it with its hands behind its back.

It looked like a dragon but not a dragon. However, it had the charm of a dragon.

It was a flood dragon!

An emperor of the Flood Dragon Race!

The youth surnamed Wang turned pale with fright. “Senior, I am the young ruins Lord of the Unity Sacred Ruins. If I have offended you in any way, Please Show Me Mercy! !”

“I haven’t offended you, but I am currently refining a supreme treasure that can escape the void. I need some races that are skilled in the control of meteorites. Your control method is of the upper-middle class, and you can barely comply with my request. Then, I will make it difficult for you. I will lend you my soul to use.”

Following that, the giant gray palm clenched, and the entire meteorites were crushed into pieces.

Other than the young man surnamed Wang, the other three young men were crushed into pieces, and their souls did not escape.

The young man surnamed Wang’s body was crushed, and his soul was trapped by the giant gray palm, and he was dragged back.

Emperor Flood Dragon opened his mouth and sucked, directly swallowing the young man surnamed Wang’s soul into his stomach!

Such a shocking scene appeared in front of their eyes, and it made Empress Ziwei and the other two extremely terrified. All of them had solemn expressions, and they did not dare to move, as if they were waiting for the judgment of the Emperor of Heaven and earth.

Emperor flood dragon sucked away their souls and glanced at Su Yu and the others’ meteorites.

“The most inferior method of controlling meteorites...”

Shaking his head, Emperor Flood Dragon didn’t even bother with them and directly controlled the stars with his hands behind his back to escape.

Hu --

Heartless Blade Emperor sat on the ground, his face still pale. He was holding his breath and beads of sweat were dripping down from his forehead.

Thinking back to the scene just now, heartless blade emperor’s heart was pounding wildly.

It was so close. They were saved from the jaws of death.

Xue Guanyin patted her young and tender chest, and said with lingering fear, "It's too scary. We actually met the Emperor of heaven and earth in such a vast land of nothingness! and the most brutal flood dragon tribe!"

Even Empress Zi Wei felt some lingering fear. "Fortunately, we are like ants in his eyes. Otherwise..."

As they thought about it, everyone's hearts trembled.

"Eh? Brother Su Yu, aren't you afraid?" Xue Guanyin looked at Su Yu in surprise. She found that Su Yu was calm and didn't panic too much.

Su Yu said indifferently, "His target isn't us. What's there to worry about?"

Xue Guanyin recalled, "That's right. That Flood Dragon Emperor wants a high-quality method to control the falling stars. Ours is the lowest, so we escaped."

Upon hearing this, Empress Zi Wei revealed a strange expression.

It was precisely because Su Yu insisted on being cautious and would rather spend more time than expose himself that the flood dragon emperor let them off.

Thinking of this, Empress Zi Wei secretly thought that she was lucky. She couldn't help but look at Su Yu out of the corner of her eyes, she thought to herself, "Although this guy is rotten to the core, scheming everywhere, and even using that kind of image to threaten me in a very despicable manner, he has his own unique points when it comes to training!"

In fact, what they didn't know was that Su Yu wasn't much better than them. He was just calm on the surface.

Because just now, there was something in Su Yu's nine Jade Spirit Pearl that had been sealed for a long time. The intense feeling seemed to have been summoned!

In the dark, Su Yu used all his divine power to block that feeling.

In addition, the Flood Dragon Emperor didn't get close, so he didn't notice that feeling.

Now, the connection had broken through the suppression and was released.

Fortunately, the Flood Dragon Emperor had already gone far away. Otherwise, with the flood dragon Emperor's wanton killing nature..

Wiping the cold sweat off his forehead, Su Yu quickly dispelled the connection.

Unexpectedly, a wave of fluctuation silently appeared behind Su Yu and the others.

"I thought my connection was wrong. I didn't expect it to be true!"

Su Yu turned his head and his pupils contracted.

It was the Flood Dragon Emperor!

With his hands behind his back, he looked at Su Yu indifferently. "Human ant, you seem to have taken something that belongs to us flood dragon race!"

Chapter 1724 Imperial Flood Dragon Clan

Su Yu's heart sank. Things happened so suddenly that he wasn't prepared at all.

Who would have thought that the amber would suddenly sense something?

The amber was an item hidden inside the five elements divine prison after it was broken.

Many demon gods of the flood dragon clan were sealed inside the amber. They were half-dead and half-alive.

Su Yu almost forgot about this item. It wasn't until this moment that it suddenly emitted fluctuations, attracting a big trouble.

Su Yu's expression was calm as he said, "Senior, I think you've misunderstood. How could a mere human like me possess something belonging to the Flood Dragon Tribe?"

However, just as Su Yu spoke, an even more powerful ripple burst out from the lake, completely breaking through Su Yu's suppression.

A vigorous thought rushed out.

"Your Majesty, Please Save Me. I'm from the Azure Ink Flood Dragon Tribe!"

Su Yu's expression darkened. Green Ink Flood Dragon!

The eyes of the flood dragon emperor flashed as he exclaimed, "Green Ink Flood Dragon Bloodline?!"

Eh? Su Yu was also slightly shocked. The green ink flood dragon actually belonged to the Imperial Flood Dragon Bloodline.

This evil dragon really hid too much!

"Human ants, hand over the members of the imperial clan immediately!" The Flood Dragon Emperor controlled the meteorite and charged over.

Su Yu's eyes flashed with coldness. With a thought, a mouthful of dragon blood suddenly burst out from the lake and turned into flames, burning the soul of a green-ink flood dragon.

This was the restriction Su Yu had set up for the green-ink flood dragon, which contained Su Yu's mouthful of dragon blood.

With a thought from Su Yu, he could activate the Dragon Blood and destroy the soul of the green-ink flood dragon.

"Ah! Lord Emperor, please save me. I, I have a secret to tell you..." the green ink flood dragon was controlled by Su Yu and had endured for many years. Now that it suddenly sensed the existence of the emperor flood dragon, it was willing to give up everything.

With the emperor's strength, even if it was on its last breath, it could still be saved by the emperor.

The restriction of the dragon blood might not be able to kill it.

Thus, he was betting that the Flood Dragon Emperor would be able to use lightning to kill Su Yu and save him.

“This kid is ancient god Nine Dragons’... !”The azure ink flood dragon cried out, trying to use its greatest chance to draw the emperor’s lightning to kill Su Yu.

“You... !”Su Yu’s eyes turned sharp as he wiped out the soul of the Azure Ink Flood Dragon from the amber.

A ball of flames burned in Su Yu’s palm, accelerating the destruction of the azure ink flood dragon.

The Emperor of the Flood Dragon was furious. “Ant, let him go and I’ll spare your life!”

The azure ink flood dragon roared, “Human, you’ll die in front of the Emperor! Let Me Go Now and we’ll Live!”

What it said wasn’t wrong.

No one could help Su Yu in the vast void.

Facing such a supreme existence like the emperor, they had no way to survive.

The only way to survive was to release the Azure Ink Flood Dragon and beg it to go around them.

In other words, his life was already in the azure ink flood dragon’s hands.

If he wanted Su Yu to live, he could live. If he wanted Su Yu to die, he would die without a doubt.

Su Yu’s expression was calm as he stared coldly at the Azure Ink Flood Dragon. “I originally wanted to keep my promise and release you after a hundred years as promised. Unfortunately, you didn’t cherish it.”

After he finished speaking, Su Yu pressed his palms together and slowly closed them.

The green ink flood dragon’s soul was gradually compressed, and its body broke apart, destroying it at an even faster speed.

“Ah! Surnamed Su, don’t you want to go back?”The Green Ink Flood Dragon roared in shock and anger.

It never thought that he would still dare to kill it in front of the Flood Dragon Emperor.

What it received was Su Yu’s increasingly cold gaze.

Its soul was being squeezed to the point of cracking and was about to be destroyed.

The azure ink flood dragon was finally terrified. It said anxiously, “Master, Please Show Mercy. I, I won’t dare to do it again!”

“There’s no future.”Su Yu closed his palms indifferently.

Pu --

The azure ink flood dragon’s soul was completely crushed into pieces.

Back then, it had secretly absorbed the flesh and blood of the Demon God in an attempt to assassinate Su Yu at the critical moment. Su Yu had bypassed him once.

This was the second and final time.

Su Yu clapped his hands and shook off the soul ashes of the Green Ink Flood Dragon. He spread his hands and said, "As you can see, there is no royal flood dragon here."

"Ant, How dare you! !"The Emperor Flood Dragon couldn't believe his eyes.

How dare you disobey him and kill the people he wanted to protect in front of him!

And not only that, he even provoked him!

Reaching Out, a huge flood dragon palm slapped over through the air.

Just like the young man surnamed Wang from before, it was very likely that he would be crushed to death in the next moment.

Su Yu smiled faintly. "Calling you senior is because your cultivation is higher than mine. Don't think that you can casually control the death of others."

As soon as he finished speaking, Su Yu formed a seal with both hands and tapped on the crystal plate again.

A surprising scene appeared. The originally clumsy meteorite suddenly became abnormally agile.

With a whoosh, it quickly dodged this grab.

Emperor flood dragon was stunned and urged the meteorite forward.

However, the meteorite under Su Yu's feet instantly disappeared at an even faster speed. In the blink of an eye, it had disappeared without a trace.

"Light wings lightning technique!"Emperor flood dragon was shocked, but he immediately revealed an ecstatic expression. "It's the Sky Wings Race's technique to control the Meteor! There's actually someone who can read the Sky Wings Race's words!"

In his ecstatic expression, emperor flood dragon laughed and chased after Su Yu. "I've been searching for this for a long time, but I couldn't find it! Human Junior, come back!"

However, when he chased after Su Yu, he could no longer see Su Yu. Not even his aura was left behind.

"What's going on? Why are their auras..."Emperor Flood Dragon's expression immediately stiffened.

Far away from the countless mountains and rivers, Su Yu quietly pressed down the flickering oil lamp on his chest.

Since he had chosen to leave, he would naturally deal with the front and back. Coincidentally, among the Ten Thousand Dao he cultivated, there was a dao that could isolate auras.

After creating this law, the Emperor of Heaven and earth would not be able to detect their auras anymore.

“Brother Su Yu... What did you do?”Xue Guanyin’s small mouth opened into an “O”shape. The scene just now was as unreal as a dream.

They had actually left the emperor’s hands so easily?

Looking at the rapidly retreating illusory afterimages and the meteorites that were quickly caught up by them, Xue Guanyin’s head was in a daze.

She remembered that the chief pavilion master had personally controlled the meteorites at a speed that was not so exaggerated.

Empress Zi Wei was also shocked. wasn’t this speed too terrifying?

She checked the map and found that in just a few breaths, they had jumped a tenth of the distance, which was equivalent to half a month’s journey.

For no reason, Empress Zi Wei trembled as she stared at Su Yu’s back. She was actually a little afraid.

This man had hidden himself too deeply. Too deeply!

Su Yu turned around and said to Xue Guanyin, “It’s just the right timing to choose the right meteor manipulation technique.”

When everyone heard this, they all lowered their heads guiltily.

Fortunately, Su Yu insisted on seeing a few times and did not use haste at the beginning. Otherwise, he would have crashed into the flood dragon emperor and died without even knowing how.

After jumping for more than half a distance, Su Yu chose the clumsy human manipulation technique again in a desolate place.

The strange thing was that no one questioned him anymore. Instead, they felt relieved.

They were afraid of encountering the Flood Dragon Emperor and other cruel killers.

Half a month passed.

The meteorite finally arrived in front of a bright and resplendent nebula without any danger.

At a glance, in the depths of the nothingness stood an incomparably huge palace.

The palace was magnificent. It refracted the divine light that illuminated the nothingness and shone brilliantly. It appeared exceptionally majestic and magnificent.

“That is the great Yu Emperor Dynasty.”It was not difficult to hear a hint of yearning in Xue Guanyin’s tone.

The civilizations that were only seen in various ancient books were presented before their eyes. It was as if they had found the legendary Holy Land.

Empress Zi Wei’s battle intent surged. She looked as if she was looking down on the world. “A two-and-a-half-star civilization. There must be many experts of the same generation here!”

Heartless Blade Emperor felt inferior. "Let's head to the great void sect as soon as possible and find that cauldron first."

Su Yu looked at the map and couldn't help but be stunned.

The Grand Palace in front of him was Emperor Yu's dynasty.

However, the map showed that they were still less than half a month away from the real Emperor Yu's dynasty!

They could see Emperor Yu's dynasty from such a distance?

One could imagine how grand the Emperor Yu dynasty was. It was hundreds of times more magnificent than the Sea of constellations civilization!

As the meteors moved forward, the palace became larger and larger. Eventually, it expanded to an infinite size.

As far as the eye could see, they couldn't see the end of the palace at all.

Half a month later, they arrived at the entrance of the Emperor Yu dynasty civilization.

It was a precipitous cliff that was hundreds of thousands of feet long.

At the bottom of the cliff, where it was connected to the void, there were tens of thousands of man-made passageways. All the meteorites passed through the passageways.

Looking around, there were many meteorites passing through them.

Most of them were residents of low-level civilizations like Su Yu.

Driving the meteorites into the passageways, the end of the passageways was the shore.

There were two old men at the level of mystic crystal overlords on the shore, guarding the shore and checking the people who came ashore one by one.

Su Yu and the others lined up to go ashore.

When it was their turn, the black-robed old man asked mechanically, "Where did you come from?"

"The sea of constellations," Su Yu stepped forward and said.

The black-robed old man unhurriedly opened a handbook and flipped through the pages one by one. Only at the end of the last page did he find the words 'Sea of constellations'.

When he raised his eyes again, the black-robed old man examined Su Yu and the others. "Why did you come to the Emperor Yu Dynasty's civilization? How long are you planning to stay?"

His tone was as if he was interrogating a criminal.

He was afraid that Su Yu and the others would not leave once they arrived in Emperor Yu's dynasty.

Su Yu had long heard that residents of low-level civilizations would often be discriminated against if they went to high-level civilizations.

He did not expect to encounter them at the entrance.

“The great void sect will take about a year to travel back and forth,” Su Yu said.

The black-robed old man nodded his head indifferently. He took out four documents and inserted a unique aura into each of them.

A line of small words immediately flashed on the document. “Temporary residence. Time Limit: one month.”

Su Yu’s expression changed slightly. “Senior, one month is impossible...”

The black-robed elder expressionlessly interrupted Su Yu and said, “After one month, leave the Great Yu imperial court’s civilization. Those who violate it will forever be imprisoned in the imperial court’s Heavenly Prison. They will be slaves for the rest of their lives!”

“You bully people too much...” Empress Zi Wei flew into a rage on the spot.

One month’s time was not enough for even the Emperor of Heaven and earth to arrive. This censor was clearly looking down on them and deliberately making things difficult for them.

“Don’t be rash.” Su Yu promptly pressed down on Empress Zi Wei’s shoulder and transmitted his voice.

Empress Zi Wei was originally furious. When Su Yu’s large hand pressed down on her shoulder, she immediately felt as if there was an electric current wildly flashing into her body from her shoulder. This caused Empress Zi Wei’s entire body to tremble, and her anger was completely extinguished.

“You... you quickly let go!” Empress Zi Wei’s pretty face was flushed red, and her silver teeth were trembling. Her eyes were misty as she spoke.

This press reminded her of the unbearable scene in the bronze carriage.

Su Yu did not notice her unusual behavior. He kept the four documents and cupped his fists. “Thank you, senior.”

“Go.” The black-robed elder waved his sleeves as if he was shooing away flies.

Su Yu’s expression did not change as he led the three of them away.

Not long after they left, the green-robed old man beside the black-robed old man, who had remained silent the entire time, snickered. “Old Xuan, you’ve deducted another three years and eight months of time. You should be able to exchange quite a few good things for your grand disciples, right?”

The black-robed old man put on a fake smile. “The barbarians from the barbarian civilization have deducted the time they need to stay here. This is also for the good of Emperor Yu’s dynasty. It saves the barbarians from causing trouble and disturbing the order of the dynasty.”

“Haha...” the green-robed old man laughed. At this moment, another meteorite approached and immediately sat up straight. “It’s my turn!”

A slightly larger meteorite slowly approached.

There were more than ten people on the meteorite, and the leader was an enchanting and charming woman.

There was nothing on her body that didn’t exude a peerless charm.

Even the rather old black-robed elder and the green-robed elder could not help but reveal traces of infatuation.

When they came back to their senses, both of them were shocked at the same time. Their expressions were filled with intense shock.

Even the mystic Crystal Overlord could not escape the charm. How powerful was the charm that this woman was exuding?

When the meteorite approached, the clothes on the group of people gradually became clear.

A pink symbol was embroidered on the voluptuous chest of the charming woman.

At first glance, it was an exquisite flower of Acacia.

However, upon closer inspection, it was a scene of thousands of men and women having sex together!

Upon seeing this symbol, the black-robed elder and the green-robed Elder's expressions immediately turned solemn. They stood up and changed their previous arrogance.

"So it's the two-star civilization, the holy sect of the Acacia civilization. The Acacia holy ruins represent the arrival." The black-robed Elder's eyes were filled with a smile, which was completely different from the arrogance just now.

The green-robed old man's eyes were also filled with a smile as he cupped his fists to welcome them.

The charming woman's beautiful eyes swept over them. This glance caused their bodies to tremble and their hearts to thump wildly. They actually felt extremely moved.

"Hehe, may I ask, two elders, has my useless thirteenth brother arrived at the Great Yu Civilization?" The charming woman asked with a smile.

When her voice entered their ears, it caused their bodies to tremble violently. Without thinking, they replied, "The thirteenth young master hasn't arrived."

"Oh?" "That's strange. The thirteenth brother left half a month ago, but he hasn't arrived yet. Could it be that he went to the civilizations along the way to look for beautiful women?" The charming woman smiled like a flower and said, "Two elders, if my thirteenth brother returns, please let us know."

"Definitely!" The two elders' eyes were dazed as they nodded in a daze. Unknowingly, they were completely mesmerized.

--

Emperor Yu of the Great Yu dynasty.

Empress Zi Wei asked angrily, "Su Yu, why are you stopping me? Those people who look down on others should be taught a lesson!"

Xue Guanyin was also furious.

It was too humiliating!

Su Yu said indifferently, "Let's not talk about whether the four of us can teach the two xuan crystal overlords a lesson. Even if we can, what will the consequences be? Have you ever thought about it?"

Actually, it didn't need to be thought about to know that they would be permanently rejected from the Great Yu imperial court.

Even if the great yu imperial court knew that they were being treated unfairly, so what?

Would the great yu imperial court punish the citizens of the imperial court for the sake of unrated citizens?

The answer was no!

The fact that the two xuan crystal overlords were so unbridled was enough to explain the problem.

"No! I have to think of a way to get back the period of residence." Empress Zi Wei said unwillingly.

This was indeed the problem they had to face.

It was impossible for them to reach the great void sect in a month's time.

"I have a way." Xue Guanyin said, "I once heard from the head pavilion master that the period of residence of some advanced civilizations can actually be increased as long as they can contribute to the Emperor Yu dynasty."

Su Yu's eyes flashed, "Such as?"

"Such as you." Xue Guanyin looked at Su Yu with a smile.

Su Yu pointed at himself, slightly confused.

Chapter 1725 Contribution To The Yellow Board

Xue Guanyin spoke with confidence, "The Emperor Yu dynasty's civilization is different from our sea of constellations civilization. It is a unified civilization. The eastern royal family, as the creator and good successor of the Emperor Yu Dynasty's civilization, governs the entire Emperor Yu dynasty's civilization."

It was equivalent to the Emperor Yu dynasty's civilization being completely controlled by a huge force.

"Every generation of the eastern royal family was wise and open-minded. They encouraged their citizens to do anything that was beneficial to the Emperor Yu dynasty, promoting the development and growth of the dynasty's civilization. As a result, the Emperor Yu dynasty went from a starless civilization to a two-star civilization."

"In order to encourage the citizens of the dynasty to do something that was beneficial to the Emperor Yu dynasty, the eastern royal family specially created the contribution ranking. It was divided into four categories, heaven, earth, black, and yellow." Xue Guanyin said, "As long as the things that were beneficial to the

Emperor Yu dynasty's civilization reached a certain level, they would be able to enter the contribution ranking."

"The lowest is the yellow ranking board, which only records the top 20,000 residents. The highest is the Heaven Ranking Board. Those who can be recorded on it are all historical contributions to the rise and fall of the Emperor Yu Dynasty,"Xue Guanyin said. "As for us, we only need to enter the yellow ranking board to get what we want."

"If you enter the yellow ranking board, the dynasty will give you the rewards you deserve, such as the contribution hall set up in the Emperor Yu dynasty. You can exchange for anything you want, even if you want to take a certain expert as your teacher. As long as your contribution reaches a certain level, the Emperor Yu dynasty will definitely do it for you!"

"Therefore, if we can make it onto the Yellow Board, we can definitely ask the Emperor dynasty of Great Yu to extend our period of residence."

Su Yu said calmly, "You said that the yellow board only includes the residents of the Great Yu civilization. We are outsiders, so we can't make it onto the Yellow Board, right?"

"Hehe, this is where the emperors of the Emperor dynasty of Great Yu are wise and wise. The sea accepts all rivers, and it is a great place. The Emperor Dynasty of Great Yu also welcomes the contributions of the residents from other places. We are also qualified to make it onto the Yellow Board."

After hearing that, Su Yu said, "You want me to make some contributions and be on the yellow roll?"

"Yes."Xue Guanyin looked at Su Yu with a smile.

Su Yu spread his hands and said, "In the huge Emperor dynasty of Great Yu, there are as many experts as the clouds and as many talents as carps crossing the river. Ranked 20,000 on the contribution roll, it looks like it is extremely backward. However, to be able to be in the top 20,000, one must be a great contributor. At the very least, one must be someone with a name to be qualified to compete for the Yellow Roll."

Who knew that Xue Guanyin would laugh and say, "Someone with a name in the name? Hehe, there are three conferred kings in the ten great conferred kingdoms of the dynasty, but they are not ranked on the yellow list."

Conferred kingdoms were conferred kings by the eastern royal family themselves. They governed a region for the royal family, and their positions were high and powerful.

Among the ten kings, three kings had not been ranked on the yellow list?

Even such a person might not be able to enter the yellow list 100% , let alone an ordinary person?

The difficulty of entering the yellow roll was beyond imagination.

"Then why are you still counting on me?"Su Yu could not understand.

Xue Guanyin chuckled and said, "It's precisely because of this that you have the chance!"

"Oh?" Su Yu was suspicious.

Xue Guanyin said, "As an aspiring civilization that actively develops civilizations, the Emperor dynasty of Yu the Great is very keen to communicate with other higher-level civilizations. However, the language barrier between civilizations is the biggest obstacle. Therefore, the Emperor dynasty of Yu the great has extremely high standards for those who are proficient in foreign languages."

"If you can teach the Emperor Yu dynasty a higher-level language, it will definitely be a contribution that will shock the eastern royal family. It will be more than enough to be on the yellow roll."

Just like that?

Su Yu felt more and more how important it was to be proficient in foreign languages in the absolute beginning world.

"Unfortunately, I don't know the language of higher-level civilizations," Su Yu shrugged and said.

The lesson of the Flood Dragon Emperor was right in front of him. How could Su Yu dare to casually expose his talent in the alien language?

Xue Guanyin was stunned. "Why are you like this?"

Judging from Su Yu's casual success in manipulating the meteor control method of the winged celestial race, he was definitely proficient in the advanced alien language.

Just as she was about to persuade him, Su Yu said, "There's not only one way to enter the Yellow Roll!"

"Ah?" Xue Guanyin was surprised.

Other than using the alien language, Xue Guanyin could not understand what other way Su Yu had to enter the Yellow Board.

The difficulty of entering the yellow board was no less than coming to the ancient dream altar to take first place again.

"What Way?" Empress Zi Wei was very curious. Other than the alien language, what other amazing method did Su Yu have.

"Buy!" Su Yu spat out a word.

Eh? Empress Zi Wei and Xue Guanyin were stunned.

Buy the yellow roll?

"How precious is the yellow roll? Why would someone sell it?" The three of them felt it was unbelievable.

Su Yu said indifferently, “There is no deal in this world that can’t be done. There are only unequal chips. As long as we can bring out enough attractive benefits, there will naturally be people who will help us enter the yellow roll.”

A mysterious look appeared on Su Yu’s face.

A few days later.

In the Northern Territory of the Great Yu dynasty, there was a shocking piece of news that was wildly spreading in the black market.

A mysterious outsider had used a ten-thousand-year-old golden flame forbidden tree that was as long as an arm to exchange for a spot on the yellow ranking.

The reason why the news was so crazy was not because there were people seeking a spot on the yellow ranking.

Similar transactions had always existed in the black market.

The reason why it was so crazy was because of the 10,000-year-old Golden Flame Forbidden Tree!

Normally speaking, the Golden Flame Forbidden Tree would definitely not live past 100 years old. The 10,000-year-old Golden Flame Forbidden Tree was unheard of.

The evil suppressing and devil suppressing effect of this item was even more fatal to the emperors of Heaven and earth.

In addition, the market was extremely rare. Although the DA yu civilization was vast, the number of times the Golden Flame Forbidden Tree appeared could be counted.

For a moment, the black market in northern letter fief was completely boiling!

In an inn somewhere in the fief, Su Yu was calmly meditating and cultivating. Empress Zi Wei, Xue Guanyin, and Heartless Blade Emperor were restless.

It was too crazy!

In just a few days, the communication jade slips that Su Yu left in the black market were filled with all kinds of information.

Without exception, they were all about the golden flame forbidden tree.

Some asked about their origins, some were willing to buy it at a high price, and some promised to help them enter the yellow list.

Although they did not leave the inn, they could occasionally feel that some powerful probing gazes were sweeping around.

Obviously, they had become the targets that everyone in the black market wanted to find.

Empress Zi Wei was a little angry. “Su Yu, how are things now? If you don’t enter the Yellow List, you’ll be in trouble instead.”

In fact, what she was most angry about was that Su Yu turned a deaf ear to the fact that someone was willing to make a deal.

Ten days had passed, and the information in the jade slip had increased without any decrease.

However, Su Yu still maintained a calm attitude.

Finally, Empress Zi Wei couldn't keep her cool, she said seriously, "Su Yu, can you tell us what exactly are you planning? One-third of a month's time has passed, and you're still not talking to the person who sent the message! We don't have time to delay."

Xue Guanyin also cast an inquiring gaze.

She was very willing to believe Su Yu, but the current situation did not allow him to not be anxious.

As for heartless blade emperor, he could not hold it in any longer and wished that he could act alone.

At this point, Su Yu stopped cultivating and said, "I'm waiting for someone."

"Who?" Empress Zi Wei raised her eyebrows.

"Someone who is really qualified to give me the yellow roll," Su Yu said indifferently.

Di Di di --

At this moment, another message came from the jade slip.

Empress Zi Wei scanned it and was a little surprised. She said, "It's actually the butler of the Beixin Royal Mansion. As the butler of the Beixin Royal Mansion, he is a person of the righteous path in the open. He actually has the guts to participate in the black market transactions. Isn't he afraid of the punishment of the Beixin Royal Mansion?"

However, the corner of Su Yu's mouth curled up slightly and he smiled mysteriously. "It seems that the person I was waiting for finally lost his cool and took the initiative to find me."

Chapter 1726 Princess Beixin

That's right, the person he was waiting for was none other than King beixin.

The ten conferred kings of Emperor Yu's dynasty were all under the jurisdiction of King Beixin.

Among the fiefdoms, King Beixin was one of those who had the ability to help them ascend the yellow roll.

Perhaps there were other large and small powers that could do it, but the only one that could be trusted was king beixin.

"Let's go, we will meet King beixin." Su Yu finally stopped his cultivation and stood up.

Empress Zi Wei's eyes flashed, "Find Him? You Mean, the Butler is under King Beixin's orders?"

After thinking carefully, Empress Zi Wei's eyes gradually lit up.

"No wonder a mere butler dares to participate in the black market transactions. So that's how it is." Empress Zi Wei suddenly understood.

That Butler was currently representing King Beixin.

Not long after, in the royal city, the most famous teahouse in the area, the Wang Chen Pavilion.

The Wang Chen Pavilion was built by the second son of King beixin, bei Wang Chen.

Bei Wang Chen was highly respected and was one of the favorite sons of King beixin. Many people thought highly of him and he would inherit the crown of king Beixin in 300 years.

Many experts from all over the world had visited him, hoping to become his behind-the-scenes guests.

Once bei Wangchen ascended the throne, they would become the doyens of the dynasty and receive endless benefits.

Unfortunately, bei Wangchen's selection of behind-the-scenes guests was very strict.

Many mystic crystal overlords visited him, but they couldn't even meet him.

Even some peak overlords were rejected by Bei Wangchen.

Because of this, the Wangchen Pavilion that he established would often gather experts from all over the world.

Because of the rumors, bei Wangchen would occasionally come to the Wangchen Pavilion and discuss the world with all the heroes in the world.

The experts who came here hoped to meet bei Wangchen by chance and be chosen by him.

When they came to the Wangchen Pavilion, it wasn't as lively as they imagined. Instead, it was desolate.

In the teahouse, there were only a few teacups and teacups. There was not even a sip of tea. It was different from the grand scene that one had imagined.

However, all of these teacups were experts.

The lowest cultivation level had silver overlords while the highest had mystic crystal overlords.

They were the teacups that were waiting for bei Wangchen's arrival.

However, they were too late. Bei Wangchen had just arrived a few days ago. If he came again, it would probably be a very long time later. It was also because of this that he appeared cold today.

"That Butler has chosen an interesting place." Su Yu said indifferently.

The Teahouse did not have a doorman guarding it on purpose. Anyone could enter.

But it was also because of this that those who were not strong enough would not easily enter.

Once they entered the teahouse, all the teahouses were potential competitors.

In an inn filled with experts, those who were not strong enough to enter were no different from courting death.

Just the powerful pressure emitted by the experts was enough to make an ordinary person suffer.

When Su Yu and the others entered, they immediately felt several sharp and vigilant gazes.

The powerful pressure swept over from all angles.

Empress Zi Wei was unafraid. With a cold snort, she dispersed the pressure.

Xue Guanyin was also unafraid. She casually waved her sleeves and her expression remained the same.

Heartless blade emperor also staggered and quickly steadied himself.

However, Su Yu, who had the lowest cultivation level, walked in as if nothing had happened.

With the Indian silver bamboo fruit, any pressure on Su Yu's body would be absorbed and would not affect Su Yu at all.

According to the butler, he was waiting in Box No. 3.

Box No. 3 was also a symbol of status. Not everyone had the right to occupy the box of the Wang Chen Xuan.

Many mystic crystal overlords did not have the right to enter the private room.

When they arrived at the third private room, there was already an attendant waiting at the door.

"May I ask who you are?"The attendant asked.

Su Yu took out a jade seal that had a message from the butler and said, "I'm here to meet you."

After checking for a while, the attendant opened the door of the private room and revealed a friendly and amiable smile. "Please come in."

When Su Yu and the others entered, they saw a young woman who was about eighteen years old sitting calmly in the private room.

She had an oval face, her almond-shaped eyes were misty, the tip of her nose was perky, and her red lips were like vermilion.

She was dressed in plain clothes and looked like an ordinary mortal.

Her appearance could not be considered beautiful, and her temperament could not be considered outstanding either. Her age was much different from the butler they had imagined, but her entire person gave people an indescribable sense of comfort.

Her eyes were facing the door. The first thing she did was raise her eyes and calmly said, "Please take a seat."

Su Yu secretly sized up this woman. With just a casual glance, he was unable to see through this woman's cultivation.

On the other hand, Empress Zi Wei's pupils constricted. She, who was exceptionally arrogant, had traces of surprise on her face.

No one had expected that the butler of the new North Imperial residence would actually be a young girl.

She went straight to the point and asked straightforwardly, "Where's the Thing?"

Su Yu took out a crystal.

The girl frowned slightly. "Are you teasing me?"

"Before you speak, why don't you take a look at the crystal first," Su Yu said.

The girl hesitated for a moment and grabbed the crystal. She touched the crystal with her delicate little finger, and immediately, an image shot out.

In the image, Su Yu held a piece of golden flame forbidden wood and put it into a storage device. Then, he buried the storage device underground.

The video stopped abruptly. It did not show exactly where it was located.

The young girl's slightly furrowed brows relaxed. She raised her eyes and looked at Su Yu. "You are as cautious as expected."

With Su Yu's cautiousness, it was naturally impossible for him to bring the golden flame forbidden tree along with him to visit personally.

After all, the side of the transaction was the powerful Beixin Royal Mansion. What if the royal mansion killed people and stole their goods?

"However, don't worry. The beixin royal residence has always valued fairness. Since you really have the rumored items in the black market, then I will naturally give you what I should give you." The young girl's words were concise. After she finished speaking, she immediately clapped her hands. "Come in."

Shua --

The light figure behind her suddenly distorted, and a transparent figure slowly appeared.

Seeing this scene, Su Yu's pupils constricted. Space distorted?

That transparent figure was a master of the Space Supreme Dao!

Empress Zi Wei's expression changed as she said warily, "A half-step emperor of Heaven and Earth!"

The distorted transparent figure ignored them and bowed to the young girl.

The young girl said indifferently, "Give them the things you've prepared."

Plop --

The distorted figure nodded and flicked his finger. A bloody and ferocious head floated in front of Su Yu's dead body.

It was a creature that gave off an extremely evil aura. Even after it died, its pale eyes were still filled with a fierce aura, giving off an extremely uneasy feeling.

What was even more shocking was that the purity of the divine power remaining in the head was similar to that of a half-step emperor of Heaven and earth!

When Su Yu saw the true appearance of the head, he was slightly moved.

"The number one hundred most wanted criminal of the Great Yu civilization, Evil Wolf?"

Evil Wolf had been famous for a long time, and his name had already shaken the Dayu Emperor dynasty 60,000 years ago.

He had schemed to capture a princess of the eastern royal family, and after he raped her, he refined her into a special human-shaped medicinal pill and ate her.

With this, he broke through his shackles and jumped from a peak overlord to a half-step heaven and earth emperor.

At that time, the Emperor of the dynasty was furious and ordered to kill evil wolf.

However, evil wolf was very cautious and was good at sensing. He was extremely cunning.

The dynasty had organized three strangling operations with emperor-level squads, but Evil Wolf had successfully escaped.

Sixty thousand years had passed, and he was still at large. From time to time, he committed evil and his methods were bloody and cruel.

He didn't expect evil Wolf to die.

Who killed him? The Emperor of Heaven and earth had personally come back with no results. The person who could kill evil wolf must be extraordinary.

"As a wanted criminal ranked in the top 100, if you carry his head, it's more than enough for you to rank in the top 10,000 on the yellow roll." The girl said, "We have fulfilled your request. Then, where is the place where the Golden Flame Forbidden Tree is buried?"

Su Yu took his time to put the evil Wolf's head in a wooden box and handed it over to Xue Guanyin. He said, "They will leave first. I will stay behind. I will tell them when they have successfully handed the head over to the contribution hall."

The girl was a little displeased. "You don't trust the Beixin Royal Mansion?"

Su Yu's eyes flashed. "I don't trust you."

The beixin royal mansion might be trustworthy, but the butler of the royal mansion might not.

The girl sighed. "Alright, Please Hurry!"

Xue Guanyin hesitated for a moment before taking the head. "I will inform you immediately once the matter is done."

Once the four of them were listed on the yellow roll, it would be useless for the girl to go back on her words.

The contribution hall was a direct branch of Emperor Yu's dynasty. It was distributed across all the fiefdoms, and the conferred kings did not have any power to interfere.

Xue Guanyin and the others carried their heads and went to report that Su Yu, Xue Guanyin, Empress Zi Wei, and heartless Blade Emperor had joined forces to kill Evil Wolf.

The contribution hall would evaluate the contributions made and determine the ranking.

In the box, Su Yu waited calmly.

The girl closed her eyes and did not say anything else. She treated it as if Su Yu was not in the box. Su Yu was too lazy to speak and waited quietly. Not long later, Xue Guanyin sent a message. They had successfully entered the yellow roll!

“Alright, the deal is done,” Su Yu said.

The girl opened her eyes and asked, “What about the address of the Golden Flame Forbidden Tree?”

Su Yu smiled. “No.”

PA --

The young girl slammed her palm on the table and said angrily, “You dare to trick me? Or do you think that it will be very difficult for the beixin royal residence to kill four outsiders?”

“Haha...” Su Yu laughed and took out a section of the Golden Flame Forbidden Tree from his pocket. He placed it on the table and then left.

He did not hide it anywhere. He had always kept it on him.

The Crystal from before was just a feint.

The young girl stood rooted to the ground, unable to turn around. After a while, she muttered to herself, “The most dangerous place is the safest place? No one would think that he carries the golden flame forbidden tree with him, right?”

Including her.

“Seventh commandery princess, this person is toying with you. Do you want me to...” the distorted figure said in a calm, hoarse and powerful voice.

The young lady shook her head as she gripped the golden flame forbidden tree. “This person is rather interesting. It would be a pity to kill him. What’s even more unfortunate is that his cultivation is too low and he is unable to enter brother Wang Chen’s backstage guest.”

“It would be a pity to abandon him. It would be tasteless if he were to eat it.” The young lady sighed in regret.

The distorted figure mocked, “If this person were to know that he missed out on the guest behind Prince Chen Yu’s scenes, would he be stuck in a knot for the rest of his life?”

The girl shook her head and said, “Let’s go. Hand over the golden flame forbidden tree to brother Wang Chen and then go see the guest behind the scenes that he just accepted. Evil Wolf was killed by this person alone. It’s really shocking.”

The distorted figure nodded, “He is indeed a rare talent. I remember that his name is Zhan Wushuang, right?”

The girl nodded and left lightly.

In the contribution hall.

Xue Guanyin and the other two finally saw Su Yu.

“Here, take it.”Xue Guanyin handed Su Yu an identity token made of a special mineral.

It had the word “Su Yu”on it.

On the back, there was an eye-catching “Yellow”character.

The identity token of the yellow roll.

“Hehe, we are now the top 10,000 contributors that the great Yu Emperor dynasty values the most.”Xue Guanyin was delighted. “We can exchange for many things in the contribution hall.”

“Let’s try it now!”Empress Zi Wei had been waiting for this for a long time, so she went straight to the exchange office of the contribution hall.

There were not many people at the exchange office, so she could see everyone clearly at a glance.

Empress Zi Wei immediately noticed a familiar figure.

“It’s You!”Empress Zi Wei’s expression was cold.

That person looked old and wore a black robe. He was the inspector at the entrance of the Great Yu civilization that day.

Hearing that something was wrong, the black-robed elder turned his head and immediately recognized Empress Zi Wei and the others.

It was easy to remember her beauty.

The black-robed elder was not surprised at all by their appearance. He looked at the four of them indifferently and said, “There are still five days until deportation. Don’t do anything stupid.”

Empress Zi Wei was furious. “Isn’t it all because of you?”

If he did not cause trouble, they would have left for the great void sect long ago. Why did they have to wait until now?

“Hehe...”the black-robed elder laughed contemptuously. He could not be bothered with them. He walked forward lazily and took out a black token. The word ‘Xuan Zhi’was engraved on it. It was his natal item.

The black token was an ordinary contribution token other than the heaven, earth, black, and yellow contribution rankings.

“Senior, you are a distinguished high-grade black iron contributor. You have 3,000 contribution points. What would you like to exchange for?”The manager of the exchange office was exceptionally polite.

As a branch of the contribution hall, the vast majority of them were low-grade black iron contributors. A small number of them were middle-grade black iron contributors. There were very few high-grade black iron contributors. Xuan Zhi could be considered a top-notch VIP.

“Exchange for two heaven origin pills,” Xuan Zhi said indifferently. His expression seemed calm, but it was not hard to hear a sense of superiority.

The people nearby also cast envious gazes.

“As expected of Lord Xuan Zhi. He can exchange for two heaven origin pills, a high-grade divine pill that can only be exchanged for 100 contribution points!”

“Sigh, after all, he is one of the top 1,000 contributors in the northern letter fief. If placed in the entire DA yu civilization, he would be able to rank in the top 100,000. For such a big figure to casually exchange for a few heaven origin pills is like playing around.”

..

After successfully exchanging for two heaven origin pills, the black-robed old man walked out with his hands behind his back.

When he passed by Su Yu and the others, he glanced at them from the corner of his right eye. The contempt in his eyes could not be any stronger.

Empress Zi Wei could not hold it in any longer, but she obeyed Su Yu’s warning and did not act rashly.

Her eyes darted around. Empress Zi Wei walked to the counter in large strides. She held the nameplate in her hand and slapped it on the counter. “I heard that you can exchange for anything at the exchange counter?”

The shopkeeper said expressionlessly, “Only for the contributors of the four lists. For ordinary contributors, the exchange is limited.”

His attention was still focused on Xuan Zhi, who had not left yet. He did not notice that the nameplate that Empress Zi Wei had slapped was responding to him casually.

“Well, I want to exchange for something now.” Empress Zi Wei sneered. “I want you to get rid of Xuan Zhi’s official position!”

Actually, she asked the contribution palace to punish him.

Why did she only ask to get rid of the official position? She probably had other thoughts.

The shopkeeper snapped back to his senses and shouted angrily, “Shut up, don’t offend...”

When Empress Zi Wei waved the nameplate in front of him, he finally shut up, his eyes wide open.

Chapter 1727 Ghostly Swamp Ladder

“The Yellow Roll!” The shopkeeper was shocked.

One of the four great contribution rolls, the yellow roll!

With a shudder, the shopkeeper immediately walked out of the counter and half-bowed respectfully, “Your humble servant greets you, sir.”

Anyone who entered the yellow roll had contributed greatly to Emperor Yu's dynasty. Their status was extraordinary and they were respected by others.

A small shopkeeper was naturally inferior in front of a person who entered the yellow roll.

The corners of Empress Zi Wei's mouth curled up. "How is it? Do I have the qualifications to exchange for the request I just mentioned?"

The shopkeeper looked troubled and said hesitantly, "My lord, can I exchange for another request?"

HM? Empress Zi Wei raised her eyebrows and her face turned cold. "Why? Can the contribution hall reject the request of a person who has contributed to the yellow roll on a different basis? Could it be that it's because I'm a creature from another civilization?"

"No, I wouldn't dare. It's just that..."the shopkeeper was in a difficult position. Xuan Zhi was able to serve as an extremely important immigration inspector, so how could he not have a backer?

He was the Crown Prince of King Beixin and one of the guests behind bei Wangchen.
GJHUTFTGRK

LJK] JH J8UI6] y = Hjuoii9oo [IY7U]

Empress Zi Wei sneered. "It's rumored that the ruler of the Yu civilization worked hard to govern and invited creatures from other civilizations to contribute. Hehe, so as long as they contribute, they are not allowed to exchange for the rewards they deserve. What a joke."

"I will make a public announcement about this so that the living beings from other civilizations can see the true face of the Great Yu civilization!"

Hearing this, the supervisor immediately begged for mercy, "Great Aunt, please spare me. Please don't. If it causes an impact and the dynasty investigates it, even if I have ten heads, it won't be enough to chop them off."

The Great Yu Emperor Dynasty, which claimed to welcome all the living beings from other civilizations, revealed a scandal that the yellow roll contributors were unable to exchange for the rewards they deserved. What would the other living beings from other civilizations think?

Once the scandal was brought to light, as the main culprit, the shopkeeper would definitely be held accountable by the eastern royal family.

"Then why aren't you rushing it?"Empress Zi Wei flicked the nameplate with her finger and said coldly.

The shopkeeper was bitter. He gritted his teeth and looked at xuan zhi, saying, "Sir, please wait!"

Xuan Zhi had already walked to the entrance of the exchange hall, and the movements behind him had fallen into his ears.

When he learned that Su Yu and the other two had become yellow board members ten days apart, he was shocked and shocked.

But when he heard Empress Zi Wei's request, Xuan Zhi was incomparably furious.

Turning his head, Xuan Zhi angrily rebuked, "I am the dynasty's procurator and am in charge of the dynasty's peace. For many years, I have been a noble person and have contributed countless things to the dynasty. You are a barbarian from a starless civilization, what right do you have to remove my official position?"

Empress Zi Wei turned a deaf ear and only stared at the shopkeeper. She said coldly, "What are you still standing there for?"

The shopkeeper sighed helplessly, his face full of official indifference, he said, "Xuan Zhi, I am informing you in the name of the exchange officer of the Contribution Points Exchange office. In view of the request of the Yellow Board member ranked 1,030, you are ordered to submit your resignation within five days!"

"Get lost!"

Xuan Zhi was so angry that his face turned red. "I am a meritorious official of the Great Yu imperial court. What right does a barbarian from outside have to decide my fate?"

The position of prosecutor was an official position that he had painstakingly obtained back then.

For this, who knew how many grudges had been formed and what price he had paid?

Now, like a bolt from the blue, his official position was actually ordered to be withdrawn?

The shopkeeper frowned. "The prestige of the contribution hall can not be challenged."

He returned to the counter, opened the huge communication crystal ball hidden deep inside the counter, and sent information into it.

"King Beixin's fiefdom contribution hall requests to forcefully carry out the request of the 1030th Yellow Board contributor and remove all official positions of the immigration prosecutor, Xuan Zhi."

This crystal ball went directly to the eastern royal family, and there were special members of the royal family in charge of handling similar information.

Xuan Zhi was furious. "How dare you..."

Kacha --

Almost at this moment, there was a muffled sound in Xuan Zhi's arms.

He stretched out his hand and took out a broken piece of nameplate that was the size of a thumb.

That was his official nameplate.

At this moment, it was broken. It meant that he had been stripped of his official position as an immigration prosecutor.

In just a few breaths, Xuan Zhi had been personally stripped of his official position by the eastern royal family.

Xuan Zhi was at a loss. He had an illusion that he was dreaming.

"Honorable sir, do you have any other requests?" The shopkeeper looked at Xuan Zhi with pity.

In the Great Yu civilization, who contributed the most was the undefeatable king.

With just a thought, he could control the fate of low-level contributors.

Xuan Zhi had everything he wanted in King Beixin's fief, but so what?

With a single thought, the yellow roll contributor took away his most precious official position.

Empress Zi Wei sneered, "So, this old thing is just an ordinary resident?"

"Yes!"The shopkeeper said.

Empress Zi Wei clenched her fists and touched them, revealing a cold smile, "Then, for an outsider like me to attack him, doesn't that violate any laws of the Great Yu Civilization?"

"This..."the shopkeeper was surprised and said, "Yes."

Xuan Zhi came back to his senses and happened to hear this. He was extremely angry. "Barbarian, what else do you want?"

After removing him from his official position, he still wanted to attack him. He was really going too far!

However, he had never thought about how he was going too far when he casually made things difficult for him when he entered the realm?

"Hehe, you keep calling me a barbarian. As a barbarian, I really want to know how strong a civilized person like you is!"Empress Zi Wei raised her eyebrows and quickly formed a seal with her hands.

"Meteorite Ice Calamity!"

An icy planet with terrifying cold air suddenly descended.

Xuan Zhi laughed. "Little Golden Overlord, you dare to attack me? You're overestimating yourself!"

He formed a seal with his hands and also used some powerful divine spell.

Pound --

The two spells collided and destroyed each other.

Xuan Zhi took three steps back and opened his mouth to spit out a mouthful of divine blood.

The divine blood was all in a frozen state, just like his body, covered in frost.

His eyes were filled with shock. He used all his strength to attack, but was injured by his opponent!

"Barbarian, no wonder you dare to be so arrogant. So you have something to rely on."Xuan zhi shouted, "But, so what? Can you do anything to me?"

However, Empress Zi Wei sneered and said in a low voice, "Explode."

Boom --

The ice planet fragments that had already been destroyed suddenly exploded. Terrifying cold air rushed out from them and poured out.

Xuan Zhi was caught off guard, and his body was frozen by the cold air, turning into an ice sculpture.

“Hehe, so this is a civilized person?” Empress Zi Wei walked over and said mockingly, “That’s all!”

“Get lost!” With a light shout, Empress Zi Wei kicked the ice sculpture away.

Peng --

Xuan Zhi was kicked out of the main hall and fell into the busy city.

The onlookers were all shocked.

“What kind of star-level civilization is that beautiful woman from? She can defeat Xuan Zhi with her cultivation base as a gold overlord. It’s unbelievable!”

“It’s a star-level civilization!”

“How could it be? How could a star-level civilization give birth to such a powerful and extraordinary female genius? She’s almost comparable to the nine great void hidden dragons of the northern envelope land!”

The Great Void Hidden Dragon was the highest honor that the younger generation of the beixin fief received.

Every hundred years, the beixin fief would give out the nine strongest prodigies and be awarded the title of the Great Void Hidden Dragon.

Once one became a great void hidden dragon, it would be crazily fought over by all the big and small forces in the fief. Even the princes of the beixin fief would continuously send olive branches over.

Empress Zi Wei’s performance was stunning and was acknowledged by everyone.

Under everyone’s gaze, Xuan Zhi lost all his face and shouted angrily, “A bunch of barbarians. We’ll just wait and see. I’ll make sure you all die a horrible death!”

As the guest behind the scenes of Bei Wangchen, he had suffered such humiliation. He believed that bei Wangchen would not stand idly by!

“Tch!” Ignoring everyone’s gazes, Empress Zi Wei returned. When she passed by Su Yu, she grumbled, “Why are you standing idly by?”

Su Yu said indifferently, “Aren’t you enough by yourself?”

In his eyes, a pair of silver-white pupils slowly disappeared, not attracting any attention.

If Empress Zi Wei was in danger just now, he would be the next to make a move.

“Humph!” Flicking her black hair, Empress Zi Wei said proudly, “I really doubt that your high combat strength is real!”

Su Yu was speechless at this and silently went to the counter.

“Exchange for a one-year limit of stay.” Su Yu took out his yellow board nameplate.

The shopkeeper said respectfully, “Reporting to the customer, according to the rules, the Yellow Board nameplate given to outsiders will automatically be renewed for ten years. There is no need to exchange again.”

Was that so? It saved some trouble.

“Okay.” Su Yu waved his hand and led Empress Zi Wei and the other two out of the contribution palace to the Remote Inn where they stayed.

Along the way, many unknown forces were following them, but they were all left behind.

Within the inn, the four of them sat around.

Su Yu sighed, “We wasted ten days before we got to the main topic. Everyone, please take out the jade seals that the pavilion master has given us.”

The four jade seals were taken out and placed together.

Within the jade seals, there was information regarding the “Cauldron” that the pavilion master had wanted.

After reading the information within, the expressions of the four of them changed one after another, and they were all very solemn.

Empress Ziwei was a little surprised. “Chief Pavilion Master, you actually want us to sneak into the great void sect and steal the Great Void Sect’s treasure, the Beixin King Cauldron?”

There were rumors that the first emperor of the Eastern kingdom established the Great Yu civilization. In order to suppress the fate of the country, he gathered the stars in the nine heavens and forged ten king cauldrons. They were distributed in the ten great feudal lands of the Great Yu Empire.

The King Cauldrons in the beixin feudal lands were the beixin King Cauldrons. They were to suppress the fate of the country.

The request of the pavilion master was for them to steal this cauldron?

There was no need to ask. The importance of the ten King Cauldrons meant that every one of them would be protected.

It was extremely difficult to steal the King Cauldrons.

Xue Guanyin’s expression was a little ugly. “Just reaching the great void sect is already fraught with danger. The chances of success are extremely low. How is it possible for us to steal the King Cauldron?”

Heartless Blade Emperor’s face was as pale as paper.

“Beixin king cauldron... it’s impossible. I once heard my father say that every king cauldron is personally guarded by a conferred king, and the strength of any conferred king is no weaker than the Emperor of Heaven and Earth.”Heartless blade emperor was close to despair, “Unless we have the strength to fight against the Emperor of Heaven and earth, there’s no need to count on it.”

Looking at the jade seal, everyone remembered that the head pavilion master had sealed one of his divine arts in it.

Now that they thought about it, perhaps it was used to steal the Wang Ding.

Su Yu also felt that it was somewhat difficult. However, he had promised the head pavilion master that he would do his best to help.

“If you plan carefully, you might not be uncertain,”Su Yu said.

Empress Zi Wei had no reason to believe his words and blurted out, “What Plan do you have?”

When she came to her senses, she turned her face away and snorted, “Don’t think that I will believe you.”

Su Yu had already gotten used to her attitude. He muttered to himself, “Currently, I have too little information. I Can’t plan in detail. I believe that when I arrive at the great void sect, I might have enough information to use.”

Xue Guanyin’s Fair and tender ears swayed. When she heard that Su Yu was going to scheme again, she was a little excited and said, “The great void sect is located in the southernmost land of the fiefdom.”

“There is a door that runs through the void and Emperor Yu of the Great Yu Empire. Therefore, it is called the great void sect. Outside the door is Emperor Yu of the Great Yu Empire, and inside the door is a lonely island. The surroundings of the Lonely Island are all void, and only the great void sect can reach it.”

“The Lonely Island claims to be one body and is not affected by the outside world. The spiritual objects of heaven and earth are extremely lush, giving birth to many powerful ferocious beasts. It also gave birth to a powerful living creature, the lineage of King Beixin!”

Upon hearing this, Su Yu came to a realization.

After the great void sect, it turned out to be the ancestral land of King beixin!

“According to legend, King Beixin’s cauldron was placed on that isolated island and was personally guarded by the retired king Beixin.”Xue Guanyin explained in detail what she knew.

After hearing this, Su Yu said, “Then, let’s go to the great void sect first and then plot against the King Cauldron behind the sect.”

The four of them studied the situation on the spot.

There were only two ways to reach the great void sect.

One was the ghostly swamp, which was known as the place where there was no return.

The other was the ladder in the clouds in the sky of the human world.

The ghostly swamp had existed for a long time. The reason for its birth was due to a massive internal conflict that year.

The Great Yu civilization had absorbed many foreign civilizations, and one of them, the Blue Ghost Civilization, had integrated into the Great Yu civilization.

After tens of thousands of years, everyone had thought that the blue ghost civilization had been assimilated. Who knew that the leader of the Blue Ghost Civilization would lead the Blue Ghost Civilization to revolt, trying to overthrow the eastern royal family and take control of the entire great Yu civilization.

It turned out that the blue ghost civilization had been scheming this since they had first joined the great Yu civilization.

They wanted to occupy the nest of the magpie and let the Blue Ghost Civilization Digest the Great Yu civilization and directly upgrade to a two-and-a-half-star civilization.

They quickly occupied one-third of the great Yu Emperor Dynasty's territory, and their momentum was extremely great.

The eastern royal family mobilized the entire country's strength to encircle and annihilate the green ghost civilization.

In this battle, the Eastern Royal Family's terrifying foundation was revealed. The green ghost civilization could not withstand a single blow and retreated step by step.

The leader of the Green Ghost Civilization, the Green Ghost Emperor, and the core members of the civilization were trapped in the one hundred thousand mountains and were mercilessly crushed by the eastern royal family.

Their corpses crumbled, and the divine blood drowned the Hundred Thousand Mountains.

As time passed, the divine blood corroded the Hundred Thousand Mountains and turned it into a muddy swamp.

Occasionally, living beings would pass by, and they would often hear horrifying ghost cries and see Blurry Ghost Shadows.

Moreover, very few people who entered that swamp would be able to return.

Hence, that swamp was called the ghost swamp.

The Ghost Swamp was vast and covered almost half of the northern letter territory. The Great Void sect was located in the middle of the ghost swamp.

To travel from land, one had to cross the Ghost Swamp.

The cloud ladder had an even more ancient origin. It was set up by the first emperor of the Da Yu civilization.

It was a cloud ladder that went all the way to the great void sect.

All the living beings stepped on the light clouds and headed to the great void sect.

On the way, the cloud ladder passed by an ancient city in the middle of the clouds. There were all sorts of unimaginable traps and dangers in the city. They were all set up by the first emperor back then. They were very powerful.

Ordinary people simply couldn't pass through.

Even the Beixin Queen's descendants might not be able to avoid all the traps.

The degree of danger wasn't inferior to the Ghost Swamp.

After analyzing, Su Yu and the other two chose to go through the ghost swamp.

The reason was simple. Compared to the traps and dangers, the danger in the ghost swamp had more room for maneuver.

The four of them were more suitable for the ghost swamp.

After the discussion, the four of them set off immediately.

However, as soon as they left the inn, they were blocked by a group of imperial guards.

Su Yu was not unfamiliar with one of them.

"We meet again." A beautiful and faintly condescending voice fell into Su Yu's ears.

Su Yu glanced at her and said, "Butler of the Beixin Royal Residence, why are you blocking us?"

The young girl nodded, "I'll give you a gift."

Clapping her hands, the distorted figure appeared again, holding a wooden box with both hands.

"This is for you." The young girl flicked her finger, and the wooden box opened, revealing the object inside.

It was a fresh, blood-glistening head.

When the four people saw the head, their pupils shrank at the same time.

"Xuan Zhi?" Su Yu narrowed his eyes and stared at the young girl's calm face, saying, "What do you want to say?"

Chapter 1728 Useless People

The young girl's gaze shifted to Empress Zi Wei, ignoring Su Yu.

"To be precise, the present is for you." The young girl revealed a smile.

Empress Zi Wei's eyes were cold. "I didn't kill him. Of course, if you want to frame him, I'll admit it. What do you want? Speak!"

A powerful aura was released from Empress Zi Wei's body.

Even if the other party had the protection of a half-step emperor, he wasn't afraid at all.

Clap Clap --

The young girl clapped her hands, her beautiful eyes full of praise. “Your Courage is commendable, and your strength is even more rare! I was wrong before, and couldn’t tell that you were such an expert.”

“So?”Empress Zi Wei crossed her arms and said with hostility.

The young girl smiled calmly. “So, on behalf of Crown Prince bei Wangchen, I invite you to join his behind-the-scenes guests.”

Hearing this, Xue Guanyin and heartless blade emperor were both shocked.

In ten days, they had fully understood what kind of status bei Wangchen had in the fiefdom.

He was only one step away from becoming an emperor!

All the emperors were willing to follow bei Wangchen’s orders, and half-step world emperors were no exception!

And bei Wangchen was picky, almost no one could catch his eye.

When they heard that Empress Ziwei had been invited, they were both shocked and envious, but at the same time, they felt relieved.

It was probably because of the amazing potential she had displayed when she defeated Xuan Zhishi that the legendary bei Wangchen was alarmed and asked this butler to come and persuade him to join her.

Such an olive branch was something that many peak overlords in the fiefdom could not wish for.

However, Empress Ziwei’s face was cold as she said indifferently, “Then why did you kill Xuan Zhishi?”

The young girl smiled. “Bei Wangchen heard that Xuan knew that he had offended you, so he asked him to come and apologize.”

Using a human head to apologize? What a cold-hearted bei Wangchen.

Empress Zi Wei stared at the head, she sneered. “If one day I offended someone more outstanding than me, would bei Wangchen send my head over to apologize in order to please him? Bei Wangchen used such a method to invite me to join, did he not think before?”

The young girl was slightly taken aback. After a long while, she sighed and said, “You are a resident of another civilization, so you don’t understand what kind of status bei Wangchen holds in the fiefdom.”

In other words, if it was someone else, even if they had to take a similar risk, they would still rush over to join him.

Empress Ziwei sneered.

The young girl looked at her for a while, but she didn’t get an answer. She asked, “So, you don’t agree?”

“I agree.”Unexpectedly, Empress Zi Wei agreed.

Xue Guanyin frowned. “Empress Zi Wei, are you going to abandon the Sea of constellations civilization?”

Heartless Blade Emperor was anxious. He said, "Then, are you not going to the Great Void Gate?"

The sudden turn of events had truly caught them off guard.

The young lady gave the distorted figure a look. The other party immediately released a pressure close to that of an emperor, enveloping Xue Guanyin and heartless blade emperor, rendering them speechless.

"Your choice will not be wrong." The girl revealed a bright smile.

Empress Zi Wei said, "Wait, I have a request."

"Speak!" The girl said.

"I want to go to the great void sect." Empress Zi Wei said without allowing anyone to interfere.

The girl said without hesitation, "No problem. Bei Wangchen will send a group of people to the great void sect soon. You can join them."

"Oh? Which Way?"

"The cloud ladder!" The young girl said slowly, "The beixin King's bloodline knows many traps in the cloud city. The danger is much less than the ghost swamp."

Empress Ziwei looked at Su Yu and said, "I want the three of them to join together."

The young girl did not even look at Su Yu and the others. She said plainly, "This request can not be fulfilled."

"Why?" Empress Zi Wei frowned slightly.

The young girl said, "Bei Wangchen only accepts people who are useful. Those who are useless are not worthy of bei Wangchen's favor, even if it's because of you."

She did not care about Su Yu and the others being present at all. She spoke bluntly.

Xue Guanyin and Heartless Blade Emperor were both furious.

This Woman!

"Alright, I'm very happy that you said that." Empress Zi Wei smiled. Her ice-cold face blossomed into a shocking smile that stunned the young girl.

She looked at Su Yu provocatively and said, "Our path will be different from now on. Goodbye, Comrades, Hahaha..."

After that, she followed the young girl on the wind and gradually disappeared into the sea of people. She did not look back.

The distorted figure looked at the three of them and said indifferently, "Go where you need to go. She is no longer one of you."

One of them had been chosen by a two-and-a-half star civilization's emperor, but the three of them remained the same.

The fate between the two was just as Empress Ziwei had said. Their paths would be different from now on.

With a flash, the distorted figure disappeared.

After the pressure was lifted, Xue Guanyin was so angry that she trembled. "That detestable ice woman actually betrayed us!"

Heartless Blade Emperor revealed a sorrowful expression. "When we go back, how are we going to explain this to the sea of constellations? Empress Ziwei has betrayed US and joined the Da Yu Civilization!"

Su Yu, who had remained silent the entire time, said after a moment of silence, "Let's set off."

Xue Guanyin asked, "Aren't you angry?"

"Angry about what?" Su Yu asked in return. "Angry that we're being looked down upon like useless trash?"

"No!" Xue Guanyin's eyes were filled with anger. Actually, this was the reason why she was angry.

In the Sea of constellations, she didn't think much of it. Empress Ziwei was first, and she was second. Their treatment wasn't too different, and they were respected everywhere they went.

But in the Great Yu civilization, the difference in treatment was immediately apparent.

She was still a favored child of the heavens. As for Xue Guanyin, in the words of the butler of the Beixin royal residence, she was just a useless person!

The great humiliation stimulated her heart.

Su Yu said calmly, "The so-called favored child of the heavens is just a few steps ahead of an ordinary person. If you remain stubborn, sooner or later, you will be surpassed by an ordinary person and be left behind."

Xue Guanyin bit her lip. Her eyes were filled with mist as she said, "Thank you, brother Su Yu. I understand."

She had always relied on the innate blood lotus, and her vision had always been limited to the sea of constellations. She was satisfied with being second, and had never once surpassed a higher realm.

On the other hand, Empress Zi Wei was proud and arrogant. She had always been climbing to a higher realm, and there was no end to it.

If she wanted to surpass Empress Zi Wei, she had to make some changes.

"Let's go. The plan doesn't change. We'll go through the Ghost Swamp!"

Xue Guanyin was relieved. She nodded her head and a strong fighting spirit burned in her eyes. "En, it's time to make some changes! I must be stronger than the traitor, Empress Zi Wei!"

Su Yu was silent. He thought to himself, "Traitor? I don't think so!"

He looked up at the sky and a huge eye of heaven gradually disappeared.

Under the Eye of heaven, he could clearly see the retreating overlords in all directions of the inn.

An ambush from all directions!

Obviously, they weren't protecting the young girl, but were surrounding them to prevent them from escaping.

If Empress Zi Wei didn't agree, the result wouldn't be as peaceful as it was now.

If a genius couldn't be controlled by him and couldn't fall into the enemy's hands, the best solution would naturally be to wipe them out.

Even Su Yu and the others would naturally be silenced as well.

It was precisely because she sensed the ambush that the prideful Empress Ziwei was willing to lower her head and be used by others.

Su Yu's impression of her could not help but change a lot.

"Ladder in the clouds, I hope her journey will be smooth," Su Yu thought to himself.

--

In the clouds.

The young girl stepped on the light clouds and flew side by side with Empress Ziwei towards Bei Wangchen's residence.

"Lady Zi Wei, I believe your choice will make all of you feel lucky." At the mention of Bei Wangchen, the young girl's face could not help but reveal a proud expression.

Empress Zi Wei was deep in thought and did not respond.

The young girl smiled sweetly. "Are you still thinking about your companions? To be honest, they are not worthy to be with you. You are naturally superior to them!"

She was very certain of this.

"Is that so?" Empress Ziwei said lightly. "You are very confident in yourself, including your eyesight."

The girl said calmly, "Isn't that so? At least I found a talent like you who has the potential to ascend to the Grand Void Hidden Dragon."

"Hehe..." Empress Ziwei smiled almost mockingly. "So, in fact, you don't know anything!"

The girl's face was calm and somewhat displeased. "Miss Ziwei, if you have something to say, just say it."

Empress Ziwei smiled. "I'm afraid that if I say it, you won't be able to accept it."

“Say it!”The girl frowned.

Empress Ziwei sneered. “What I want to say is that you really don’t have a good eye. Among the four of us, the most talented one was regarded as useless by you, but you chose me as the second best. How laughable and pathetic!”

The girl stared at Empress Ziwei. “Among the three of them, is there anyone stronger than you? The girl who stepped on the Blood Lotus, or the young man with the huge saber on his back?”

Empress Zi Wei sneered, too lazy to respond.

The young girl said confidently, “If it’s them, I’m sorry, but the former is indeed not bad, but it’s just not bad. As for the latter, forgive me for being blunt, but he’s just a good-for-nothing.”

Empress Zi Wei said leisurely, “You forgot the last person.”

“The man with a little bit of intelligence?”The young girl didn’t think much of it. “In my opinion, he is the most useless person among you. With the cultivation of the bronze overlord, don’t you feel burdened by being among you?”

Empress Zi Wei could not help but laugh out loud. “So, you don’t know anything! His combat strength is ten times stronger than mine.”

The young girl’s eyes widened. “Are you sure you are not talking nonsense? Your strength is equivalent to the early stage Xuan Crystal Overlord. If he is ten times stronger than you, doesn’t that mean that he is comparable to the peak overlord?”

Shaking her head, the young girl did not believe it, she said, “I’ve seen geniuses at the EVILDOER level, with the cultivation of a gold overlord and the strength of a peak overlord. It’s not that I don’t believe that the bronze overlord you speak of can have such strong combat strength. It’s just that he’s too crazy.”

“Hehe...”Empress Zi Wei smiled but didn’t say anything.

Her expression made the young girl skeptical. After pondering for a moment, she said, “Go back and invite him over.”

The distorted figure was about to leave.

Empress Zi Wei smiled arrogantly. “Little girl, do you think that you are so smart that he doesn’t know that there are people lying in ambush in all directions? Your little tricks, in his eyes, are just the most despicable tricks. The current him has long gone far away without leaving any traces.”

The girl’s expression was slightly cold. She said coldly, “Why aren’t you going?”

“Yes!”The distorted figure dispersed and returned not long after. “There are no traces left behind, and even his aura has been intentionally swept away and isolated.”

It was just as Empress Ziwei had said!

The young girl was like a prideful lion who had been provoked and finally became angry.

She glared at Empress Ziwei. “You didn’t say the reason earlier because you weren’t sincere in joining bei Wangchen’s behind-the-scenes guest?”

Empress Zi Wei scoffed. "As far as my eyes can see, no one can make me willingly submit. The bei Wangchen that you speak of is the same."

"You!" The young girl was angry. "Ignorant woman, don't insult Bei Wangchen. His excellence is something that you can only look up to!"

"Hehe..." Empress Zi Wei sneered indifferently.

The young girl said coldly, "Forget it. There are many people like you who don't know the immensity of Heaven and earth. They once looked down on Bei Wangchen. Until they saw him with their own eyes, they all willingly submitted. You are no exception!"

"Is that so?" Empress Zi Wei smiled proudly.

The young girl said with pity, "When you see him, you will understand! Bei Wangchen is a man who can not be surpassed!"

Chapter 1729 The Ninth Prince

..

Three months passed.

Su Yu and the others finally entered the ghost swamp after a long journey with the help of the bronze chariot.

The ghost swamp was filled with an eerie aura. From time to time, strange-looking ghosts would appear and devour people.

Phew --

Xue Guanyin took a deep breath and summoned back the nine lotus seed avatars with a wave of her hand.

Compared to the lotus seed avatars in the past, their cultivation was slightly stronger and their coordination was more skillful.

"Brother Su Yu, how is it?" Xue Guanyin asked the bronze carriage.

The bronze carriage opened its door and Su Yu walked out. Looking at the ghost corpses on the ground, she said with relief, "You've improved a lot in the actual battle in March."

After being provoked by Empress Zi Wei, Xue Guanyin seemed to have changed into a different person. She was no longer as calm as water. She took the initiative to attack and fought all kinds of ghosts alone.

In the middle of March, her combat power soared.

According to her preliminary estimation, she should have reached 10,000 combat points.

Xue Guanyin's eyes flashed with joy. She clenched her pink fists and said, "It's still far from enough. I'll continue to work hard until I surpass that detestable woman, Empress Zi Wei!"

On the side, heartless blade emperor curled his lips.

What was a little increase in strength? As long as he had the jade technique that the pavilion master had given him, no one would be able to do anything to him unless they met a sovereign of Heaven and earth.

“Let’s call it a day. You should immediately recuperate and digest what you’ve gained today. Leave the rest of the ghosts to me.” Su Yu waved his hand and took out a three-foot-long sword that was burning with golden flames from his interspatial ring.

The body of the sword was covered in wood veins and emitted a refreshing fragrance. It retained the characteristics of the original material and looked like it had just been refined not long ago.

This was a new weapon that Su Yu had refined in the middle of March, the golden flame forbidden wooden sword.

Unlike the past, this golden flame forbidden wooden sword used the core of the ten-thousand-year-old Golden Flame Forbidden Wood.

It contained the ability to ward off evil, which was five times more powerful than the rest.

Looking at the densely packed ghosts in front of him, Su Yu waved his sword casually. “Devil Moon revolving stance!”

A golden sword Qi swept out like an arc-shaped moon.

The golden light illuminated the swamp in front of them. All the ghosts that poked their heads out were instantly wiped out by the Golden Light.

In the blink of an eye, the road in front of the bronze chariot was flattened by a single sword.

Xue Guanyin said enviously, “Brother Su Yu is really amazing. The power of one sword is at least comparable to three of my divine spells.”

Su Yu said, “It’s just relying on the unique evil-warding attribute of the Golden Flame Forbidden Wood. It’s not worthy of praise.”

After a pause, Su Yu said, “The protective bracelet I gave you must be worn at all times. Ordinary ghosts won’t approach it easily.”

Upon hearing this, Xue Guanyin raised her snow-white arm. A golden flaming bracelet was hanging on it.

The combination of gold and White was very dazzling.

“I will treasure what brother Su Yu gave me for the rest of my life.” Xue Guanyin’s pretty face was slightly red as she said crisply.

The bracelet was made by Su Yu with the remaining tree heart. The original intention was to give her some protection against the sneak attack of the ghosts.

She did not expect that Xue Guanyin would misunderstand something.

“Cough, cough, let’s continue moving forward. We have been on our way and should reach the center of the Ghost Swamp soon. As long as we pass that place, we won’t be far from the great void sect,” Su Yu changed the topic.

As expected, Xue Guanyin was distracted. Her expression turned serious as she nodded and said, "Yes, we have all encountered golden overlord level ghosts in the periphery of the ghost swamp. The central area is probably even more dangerous."

Roar --

All of a sudden, the aftermath of the roar was transmitted over.

Su Yu clearly felt that the swamp was trembling. The mud beneath his feet rippled layer by layer.

The surrounding divine aura was being pushed away by some kind of pressure, causing the area covered by the aftermath to become a vacuum state.

The ghosts hidden in the depths of the swamp crawled out one after another and fled behind Su Yu and the others. Panic spread rapidly.

Su Yu focused his gaze and stared at the horizon.

At this moment, a wave of scorching air rushed over. It was the air that was scattered from a great distance.

In that Wisp of air, Su Yu smelled a deep bloody stench and an unusual oppression.

"It's the traces of the Emperor of Heaven and Earth," Xue Guanyin said in a focused voice.

The originally lazy heartless blade emperor shivered, he immediately stood up to investigate, "How can there be an Emperor of Heaven and Earth in the Ghost Swamp? If there really is such a huge hidden danger, the dynasty has long sent an army to suppress it. It must be a senior from the dynasty who crossed the Ghost Swamp."

Su Yu and Xue Guanyin were silent.

The scariest thing when encountering danger was not the danger itself, but the mentality of the person who was in danger.

With a fluke attitude, he lied to himself.

Such a person would die the fastest.

"Let's take a detour." Su Yu returned to the bronze chariot and chose to take a detour. He tried his best not to come into contact with that unfamiliar emperor of heaven and earth.

Three months passed in a flash.

They should have arrived at the great void sect, but because they took a detour around the central area, they arrived at the periphery of GUI ze. They would arrive at the great void sect in two months.

"Although we wasted two months, we didn't encounter too much danger. It was worth it," said Xue Guanyin.

Su Yu said, "Don't let your guard down, especially at the last moment."

Roar --

What made their expressions change slightly was that they actually heard the aftermath of that inexplicable roar again.

Although it was very far away and it was very difficult for the Emperor of Heaven and earth to rush here in a short period of time, it was still better to leave as soon as possible.

Xue Guanyin's heart suddenly became nervous as she said, "Brother Su Yu, why did you hear that shocking roar again? Is it fighting with someone, or is it looking for something?"

"It should be the latter." Su Yu's face darkened. He did not know, nor did he want to know, who or what the Emperor of Heaven and earth had been looking for for three months.

However, just as the bronze carriage was moving forward, the space in front of the carriage suddenly shone brightly, and a huge spatial vortex appeared out of nowhere.

A young man in a white moon robe fell out of the spatial vortex.

His entire body was filled with injuries. The most serious injury was between his eyebrows. He was pierced by a black steel needle and his soul was nailed together, preventing his soul from leaving his body.

The young man's face was delicate and pretty, and he looked vaguely familiar.

After he fell, he looked at the bronze carriage in surprise and rushed towards the direction of the great void sect without thinking.

"Sir, please wait." Su Yu shouted.

The young man turned his head and took a look. Not only did he not stop, he sped up and left. His eyes shot out a strong sense of wariness.

If it was Su Yu, he would have made the same choice if he fell somewhere and was stopped by a stranger.

"Sigh!" Su Yu sighed and a beautiful light shot out from his eyes. "Space teleportation!"

Red light flashed around the young man. His expression changed and he said in a deep voice, "Space Divine Art?"

With a light snort, the young man crushed a jade seal and released an intense power of space to resist the power of space enveloping him.

Su Yu's expression was calm, and the red light in his eyes suddenly intensified.

The young man was immediately enveloped by the power of space and was sucked in front of Su Yu.

As soon as he appeared, the young man did not hesitate and pointed his two fingers at Su Yu with his sword.

Su Yu's shoulder slipped and he dodged the finger. He said, "I don't have any bad intentions."

Releasing the power of space, the young man retreated a thousand feet and stared at Su Yu coldly. Even though he was heavily injured, the man's eyes were still sharp. "I have something to do. I Can't Stay Here!"

"I know. Are you being chased by that Emperor of Heaven and earth?" Su Yu said.

The man became even more vigilant. "Since you know, if you don't want to bring undeserved disaster upon yourself, leave quickly. Don't bother with me anymore."

Su Yu said, "It's precisely because I know that I let you stay."

The young man's eyes flashed. "Do you have any advice?"

Su Yu said indifferently, "Being chased by the Emperor of Heaven and earth for three months and still unable to escape, I don't think that you can really escape."

The young man quieted down and quietly listened to Su Yu's words.

"I can help you avoid being chased," Su Yu said.

The young man was very calm, "Why are you helping me?"

Su Yu was somewhat helpless, "Your life and death are not worth a single cent to me. What I care about is the life and death of my companions and me! "If you continue to escape like this, that Emperor of Heaven and earth will definitely chase us to this area. With the Emperor of Heaven and Earth's ability, he will definitely notice our existence. I don't want to be implicated by you!"

"After you leave this area, go as far away as you can. Don't appear in front of us again!" Su Yu said coldly.

UH --

The young man was stunned.

He thought that he had met someone with extra good intentions, but he did not expect it to be like this.

"Why aren't you entering quickly?" Su Yu said coldly, "With your ability to contend against the Emperor of Heaven and earth for three months, you don't have to worry about what we will do to you!"

The young man hesitated for a moment, tapped his toes, and entered the carriage without saying a word.

Su Yu immediately created a law and erased the young man's aura. Even the Emperor of Heaven and Earth couldn't detect it easily.

The young man immediately raised his eyebrows, "What did you do? You actually blocked the emperor of heaven and Earth's sense of me?"

He suddenly felt that the Emperor of Heaven and Earth's lock on him was blocked.

“Cut the crap! Sit Tight!” Su Yu did not hold back and rode the bronze carriage away.

Behind him, the Emperor of heaven and earth’s continuous exclamations could be heard.

It was obvious that it was angry after losing its target.

After driving for two months without the Emperor of heaven and Earth’s exclamations, Su Yu stopped the bronze carriage.

“Get out of the carriage,” Su Yu said.

The young man who was recuperating opened his eyes. The injuries on his body had mostly recovered, but the black steel needle between his eyebrows was difficult to pull out.

He was stunned. “We are almost at the great void sect. Are you letting me go now?”

“Why can’t I Let You Go?” Su Yu asked back. “I have done my best to send you here. You should take care of yourself from now on.”

The young man said embarrassedly, “There’s only a month’s journey left. Why Don’t you send me to the Great Void Sect?”

Su Yu shook his head. “We have only met by chance. It’s better to keep a little distance. It’s good for you and it’s good for me.”

He did not want to enter the great void sect with a mysterious person of unknown origin.

If they leaked their plan to steal the Beixin Royal Cauldron and the Beixin faction of the great void sect found out about it, it would be fun.

“This, with my status, I wouldn’t be scheming against you foreign civilizations, would I?” The young man was a little helpless.

Xue Guanyin spat lightly. “Being chased all over the place, what status do you have? Do you think you are the Prince of beixin, bei Wangchen, with a noble status?”

Her words were extremely rude.

“Uh...” the young man cupped his fists and smiled bitterly, “Although I am not bei Wangchen, I am still the crown prince of King beixin. I am the ninth crown prince, Bei Wangting.”

What? Xue Guanyin was stunned, “Say it again, who are you?”

“The ninth crown prince of Beixin fief, Bei Wangting.”

The bronze carriage was dead silent.

Even Su Yu was stunned.

Chapter 1730 The Saintess Of The Joyous Union

Seeing their surprised expressions, the beiwang pavilion laughed self-deprecatingly. “The world only knows about bei Wangchen, but no one knows about an unknown crown prince like me.”

King Beixin had four sons and five daughters, and the most famous one was Bei Wangchen.

When mentioning King Beixin's crown prince, everyone only thought of Bei Wangchen.

Few people mentioned the other crown princes and princesses.

Xue Guanyin questioned, "How did Prince Beixin end up like this? Besides, didn't your Beixin lineage all pass through the cloud ladder? Why did you take the path of Gui Ze?"

The beixin lineage had some understanding of the danger of the traps in Cloud City. The danger of taking that path was far less than Gui Ze.

"I fell from Cloud City." There was hatred mixed in the eyes of Bei Wang Ting.

Xue Guanyin's gaze shifted. "Something happened in Cloud City?"

"Yes! An evil creature invaded cloud city and attacked Bei Xin's faction." The north-looking pavilion frowned. The black steel needle between his brows looked particularly ferocious.

Xue Guanyin asked, "How were the casualties?"

"It was very tragic!" The north-looking pavilion sighed deeply. He could not help but clench his fists. "Third sister, fourth brother, fifth brother, and eighth sister all died in battle!"

Four out of the nine princes and princesses had died!

Su Yu's expression changed. What did the evil creature want to do?

Losing two sons and two daughters, King Beixin was bound to be furious.

He really didn't expect that the seemingly ordinary great void sect would encounter such a sudden change.

"What about Bei Wangchen? and his followers." Xue Guanyin's eyes were filled with anticipation.

"Him? Hehe..." Beiwang Ting smiled with a complicated expression. "In this world, who can do anything to Bei Wangchen? He's fine, and his followers are unharmed."

A hint of disappointment flashed across Xue Guanyin's eyes.

She really hoped that the traitor Empress Ziwei would receive the retribution she deserved.

"What a pity." Xue Guanyin wrinkled her nose and asked again, "So the one chasing you is the so-called evil spirit?"

"Yes!" The north-looking pavilion said, "An evil spirit at the level of the Emperor of Heaven and Earth."

"What kind of creatures are they?" Xue Guanyin asked curiously, "Under the control of the great Yu Emperor Dynasty, there is actually an unknown emperor

of heaven and earth who wantonly massacred the heirs of the conferred princes.”

The north-looking pavilion said in a deep voice, “They are the remnants of the Green Ghost Civilization!”

Su Yu listened from the side, his face calm and not surprised.

With such a powerful foundation and daring to openly oppose Emperor Yu of the Great Yu dynasty, there was no other possibility except for the remnants of the Green Ghost Civilization.

Su Yu asked, “What is their purpose?”

The remnants of the Green Ghost Civilization had been dormant for many years, so how could they just kill a few heirs of the conferred princes?

“The beixin King’s Cauldron!” The Beiwang Pavilion was very certain. “The king’s Cauldron is suppressing the fate of Emperor Yu’s dynasty. One of the nine cauldrons can not be missing. The Green Ghost Civilization has returned to the world, and their goal is the king’s cauldron. They will seize the cauldron and break the fate of Emperor Yu’s Dynasty!”

Hearing this, the expressions of Su Yu and Xue Guanyin changed slightly.

“Right, why are you going to the Great Void Sect?” The Beiwang Pavilion suddenly asked.

Su Yu’s right hand, which was behind his back, slipped out a long sword that was burning with golden flames from his wide sleeves.

The Blood Lotus beneath Xue Guanyin’s feet also accelerated its rotation.

“Are you also participating in the battle for the Great Void Hidden Dragon?” The north-looking pavilion probed.

“Yes.” Su Yu kept the golden flame forbidden wooden sword without batting an eyelid.

The north-looking pavilion chuckled, “I see.”

After a pause, the north-looking pavilion took out a jade butterfly and handed it over to Su Yu with both hands. “This is a token of our beixin royal residence. If you need help in the future, use this jade butterfly to head straight to the Beixin royal residence to look for me.”

The north-looking pavilion stood up and exited the bronze carriage.

Su Yu said, “You don’t want to continue traveling with us?”

Shaking his head, the north-looking pavilion said, “Since you are participating in the Hidden Dragon competition, for your own good, I still don’t want to travel with you. If my second brother finds out that I have befriended the hidden dragon competition, I will be fine, but you will be fine.”

With bei Wangchen’s magnanimity, he would never allow his younger brothers to secretly accumulate strength.

He might not touch the north-looking pavilion, but he would most likely touch Su Yu and the others.

“Farewell!”The north-looking pavilion gracefully walked out of the bronze carriage, leaving behind only a crystal clear rain butterfly.

Su Yu held it in his palm and gently stroked it. “A token of Beixin’s lineage?”

Wisps of bright light slowly flickered in the depths of his eyes.

The remaining month’s journey was exceptionally peaceful. They had successfully arrived at the great void sect.

Looking from afar, they saw a huge pitch-black door that was stuck upside down between heaven and earth. It stood majestically between heaven and Earth.

“We’ve finally arrived.”Xue Guanyin exhaled the turbid air in her chest.

Along the way, Gui Ze’s nerves were tensed up at all times. They were finally safe.

Su Yu said, “We should thank that evil spirit for scaring away the danger in Gui Ze. Otherwise, we wouldn’t have been able to arrive at the great void sect so smoothly.”

Unlike the rumored ghost swamp, which was fraught with danger, they did not encounter any danger along the way.

On the other hand, the cloud ladder, which was considered safe, was besieged by the evil spirit this time. A large number of Beixin’s followers and followers were killed.

“Wang Ding is in the great void sect. How can he enter?”Heartless blade emperor frowned.

Xue Guanyin glared at him. “He finally woke up and is concerned about the mission?”

On the way, heartless blade emperor did not care about anything. Xue Guanyin was very indignant.

Heartless blade emperor snorted. “Don’t you always discuss everything with Su Yu? When did you ask for my opinion?”

It was sad to say that the son of the emperor, who used to think highly of himself, did not even have a chance to speak in front of Su Yu. He held it in all the way, and it was needless to say how cowardly he was.

Xue Guanyin sneered. “Then you should also properly understand the great void sect!”

“The Great Void sect is never open, and outsiders are not allowed to enter. It is only during the great void Hidden Dragon Competition.”Xue Guanyin said, “The chief pavilion master has something to consider when he ordered us to come here.”

Su Yu nodded.

Along the way, Su Yu was thinking about the plan to take Wang Ding.

The Great Void Hidden Dragon competition was the best opportunity.

The northern letter fiefdom, the Great Void Hidden Dragon competition once every 100 years, selected the top nine geniuses.

The location of the selection was within the great void sect.

It was not just within the fiefdom, there were also many geniuses from other fiefdoms who came to participate.

Apart from obtaining the top nine spots and being invited by Beiwang Chen to join the behind-the-scenes guests, the final rewards of the competition were also very generous.

Those ranked ninth to fourth had the chance to enter the tutelage of King beixin, the Emperor of Heaven and earth, and become his last disciple.

Ranked third, there was a chance to enter the King Cauldron and use the fate of Emperor Yu's empire to break through all sorts of bottlenecks.

Especially for a half-step emperor of Heaven and earth, the rewards of the top three were even more rare!

Of the dozens of emperors of heaven and earth in Emperor Yu's empire, more than half of them used the fate of Emperor Yu's empire to break through bottlenecks and become emperors.

The chance to seize the King Cauldron was right in front of them.

They arrived in front of the great void sect.

There were already thousands of people around the huge gate.

Most of them were above the gold overlords. They gathered together and gave off a great pressure.

It was obvious that they were here to participate in the battle for the Great Void Hidden Dragon!

The difference was that compared to Su Yu, most of them looked tired. Some of them had obvious injuries on their bodies and were in a sorry state.

It seemed like they had a rough road and were in a lot of danger.

"Those three are strange. They seem to be safe and sound."

"I wonder if they are going through the ghost swamp or the cloud ladder!"

"It is indeed strange! The cloud ladder is indeed dangerous this time, but the ghost swamp is not peaceful either. Not only are there mysterious emperors of Heaven and earth wreaking havoc, there are also unknown forces taking advantage of the opportunity to hunt. Have they not encountered this before?"

"In previous years, the Great Void Hidden Dragon always had evil forces hunting competitors in the Ghost Swamp. This year was the most serious. In previous years, at least tens of thousands of people could successfully survive, but what about this year? Only a thousand people! The power of the evil forces can be imagined. They are definitely hiding in any corner of the two roads! But they have not encountered it. There must be something strange about it!"

Listening to their conversation, Su Yu was astonished.

If that was the case, their trip to the ghost swamp seemed to have been peaceful because they were exceptionally lucky.

There was actually such a huge evil force?

Could it be that it had something to do with them bypassing the central area?

Su Yu drove the bronze car to the side silently.

Following that, more and more participants rushed out of the Ghost Swamp.

Without exception, they were either injured or weak.

At that moment, a dark flying boat tore through the miasma of the ghost swamp, letting out ear-piercing sounds as it approached with a rumble.

A group of purple-clothed people dressed in uniform jumped down from the flying boat.

A purple calabash hung diagonally at each of their waists, and they wore masks carved with evil images on their faces.

Their entire bodies were exuding an evil aura that made people uncomfortable.

What was different was that most of them were unharmed.

“The evil sect of Mount Fan!” Some of the experts recognized the origin of the people on the flying ship and sucked in a cold breath.

“They are also one of the hunters! I encountered them and escaped from their hands!”

“It’s them! !”

The group of people who had encountered the hunters were shocked and furious, but they did not dare to resist.

Putting aside whether they could beat them or not, they could. In front of the great void sect, casually making a move would be regarded as violating the rules of the Great Void Hidden Dragon, and they would be refused to participate in the competition.

The people from the evil sect of the Brahma mountain exuded waves of evil qi as they walked straight to the front of the great void sect.

“You, move aside.” The purple-robed man in the lead extended a finger and pointed at the three powerhouses whose auras had reached the peak of the Overlord realm in front of the main gate!

Those three people were the existences with the highest cultivation levels among the people present.

What made people even more fearful was that the three of them were working together.

In the entire area, no one could make an enemy out of them.

Hence, the three of them occupied the best spot to enter the Great Void sect the moment they arrived -- the center of the Great Void Sect.

At that moment, the people from the evil sect of the Brahma Mountain requested for them to make way.

“There’s a good show to watch! Those three people should be the three gentlemen of the Thousand Water Lake. The three of them are working together. I heard that they once fought with a half-step emperor of Heaven and earth without losing a single move.”

“Hehe, from the looks of it, the evil sect of the Brahma mountain might have kicked an iron plate. The three gentlemen of the thousand water lake are not to be trifled with...”

Everyone was filled with anticipation. The three gentlemen of the Thousand Water Lake looked at each other and exchanged a few glances before they took the initiative to leave and vacate the central position.

“This...”while everyone was disappointed, they were secretly shocked.

Even with the strength of the three gentlemen of the Thousand Water Lake, they were still afraid of the evil sect of the Brahma Mountain. From the looks of it, the power of the evil sect of the Brahma mountain was even above the surface.

“At least you know what’s good for you.”The purple-robed man in the lead smiled sinisterly. “In the Ghost Swamp, the three of you run fast. Otherwise, I’ll let you accompany the Golden and Silver Maiden on Your Journey!”

When they heard this, many people were once again shocked.

“What? The Golden Girl Is Dead?”

“It can’t be? The Golden Girl in the rumors is an old monster that has been famous for many years. Her cultivation has long reached the peak overlord level, especially the Golden girl. There are rumors that she has already taken a step forward and reached the level of a half-step emperor of Heaven and Earth!”

“Hiss! What kind of trump card does the evil fan mountain sect have that they can successfully kill the Golden Girl!”

“No wonder the three gentlemen of Thousand Water Lake did not dare to face them directly. It turns out that they have witnessed the power of the evil fan mountain sect with their own eyes!”

The group of purple-robed men occupied the central position aggressively. The others all moved aside, afraid that they would offend them.

However, just as the purple-robed men occupied the area, a seductive voice spread throughout the entire area.

“Sir, could you please give the central position to me?”

The voice was coquettish and charming, but it was soft and soft when it fell into the ears.

It also contained a seductive power that made people fall into a temporary infatuation, and men and women were no exception.

Su Yu was also infatuated for a moment, but he quickly reacted and bit the tip of his tongue to wake himself up.

The purple-robed man's expression changed drastically. "Thousand miles illusion sound technique! It's the secret technique of the royal family of the He Huan Civilization!"

"Hehe..." with a coquettish laugh, an extremely large peach blossom slowly flew over from the horizon.

There were three men and three women among the peach blossoms.

The Man was handsome and tall, with an extraordinary bearing. He was the standard of the man of many women's dreams.

The woman was graceful and graceful, with a national beauty and heavenly fragrance. She was as beautiful as a city-toppling disaster.

Everyone present was stunned.

Handsome men and beautiful women might not be rare, but it was very rare for six top-notch handsome men and beautiful women to gather together.

Especially the woman in the play!

She was lying on her side on a pink bed carved with peach blossom stamens.

The stacked Red Mountains could not hide her astonishing figure, nor could they hide her soul-stirring charm.

When they saw her, many people felt that there was no woman in the world who was more stunning than her.

Su Yu was also deeply stunned.

However, he had seen Xia Jingyu's beauty, which could not be matched by anything else. Her immunity was very strong, and her eyes were indifferent. There was not much greed in them.

As the Peach Blossom approached, the peerless beauty lying on her side opened her red lips slightly. "Ladies and gentlemen, can I have that seat?"

The coquettish words entered everyone's ears once again. At such a close distance, everyone felt as if they had been electrocuted, and their bodies trembled.

The purple-robed leader, on the other hand, had a terrified expression on his face. He quickly said, "Shao Xie of the evil sect of fan mountain greets the Saintess of the He Huan civilization. Since you like her, Shao Xie will naturally yield to her."

The Fan Mountain Evil sect, which had been arrogant just a moment ago, immediately retreated to the side. They did not dare to fight against the man in the peach blossom.

Su Yu swept his gaze over their cultivation levels and was shocked to discover that among the six of them, the lowest was a peak overlord!

The highest was the charming woman. Her entire body was covered in a layer of special intent, and she was actually unable to see through it!

As if she had sensed something, the charming woman looked at Su Yu and said with a charming smile, "Young man, since you like me, why don't you go up and take a look?"

Su Yu's reaction was calm. "No need, thank you."

The charming woman sat up from the pink bed, her fair right hand supporting her chin. She looked at Su Yu with interest. "I've been curious since just now. Everyone was influenced by my charm. Why are you an exception?"

She was observant and had seen everyone's reaction.

Su Yu's abnormal performance naturally could not escape her eyes.

"Miss, you're worrying too much. You're very beautiful, and I admire you very much," Su Yu said plainly.

The charming woman giggled. "Giggle, I admire you very much too..."

Suddenly, the charming woman seemed to sense something. She walked down from the peach blossom and gently walked to Su Yu's side. Her charming eyes stared at Su Yu. "Have you met my thirteenth brother?"

Although the woman was smiling, Su Yu actually felt as if a sword was pressed against his chest. It was an exceptionally dangerous feeling.
