

Nine-Dragon 1761

Chapter 1761 The Might Of A Dao Artifact

The emperor corpse placed its right hand down on its back. As expected, its index finger was missing.

“You exposed me with just a finger. I really didn’t expect it.” The emperor corpse couldn’t help but laugh. “Your friend from 30,000 years ago was that female pavilion head of the constellation Pavilion, right?”

Su Yu calmly said, “It doesn’t matter who it was. What’s important is, what’s the point of you showing up now?”

“The war is over. The living fire seeds of the sea of constellations civilization have all been extracted. It doesn’t matter whether you’re there or not,” Su Yu said slowly.

“Haha, Young Man, you’re still too naive,” the emperor corpse said calmly. “Who said that the living creatures of the sea of constellations civilization are worthless? Only by transforming them into the corpse race can our corpse race continue to grow and conquer even more civilizations.”

Su Yu slowly retreated and said in a serious voice, “The tide of the battle is irreversible. You will not be able to succeed in the Sea of constellations civilization!”

He secretly crushed a jade butterfly in his sleeve and sent out a message.

The message went straight to the living beings alliance and could instantly notify Huangfu Lieyang.

The Emperor Corpse’s lips curled into a smile. “Do you think that only Zhuji has a trusted aide?”

Bang Bang --

Su Yu’s heart pounded without reason.

An ominous premonition enveloped his heart.

Puchi --

The sound of annihilation came from behind him. It was a message that had been extinguished by an expert.

Turning his head, Su Yu’s pupils constricted.

A dog-headed human-shaped creature leaned against the entrance of the tent with an evil smile. It looked at Su Yu with a smile that was not a smile. “Young man, if you were to escape from the hands of the Emperor of Heaven and Earth, you would be making a fool of yourself.”

Another sovereign of the universe?

Moreover, Su Yu vaguely felt that it was familiar. That Aura... was that of a corpse-eating dog!

Su Yu suddenly recalled the corpse-eating dog that had appeared near the main pavilion of the Star Pavilion when he was rescuing Lan Yue and the others.

Could it be that at that time, the sovereign of the universe of this corpse-eating dog was in the Sea of constellations?

Su Yu's thoughts spun rapidly as he thought of a countermeasure.

Facing two sovereigns of the universe at the same time was a situation that he had never faced before.

Especially when one of them was the famous Emperor Corpse!

In front of him, Su Yu didn't doubt that even if he was a sovereign of Heaven and earth, he wouldn't be able to fight back at all.

Su Yu's gaze turned slightly, and he said in a deep voice, "You didn't just appear to kill me, right?"

If he really wanted to kill Su Yu, he would have killed Su Yu as soon as they met. To the emperor corpse, it was effortless!

The emperor's corpse smiled. "To be precise, I came here to kill you after I found out that you chased away the corpse emperor. However, after seeing your plan, I felt a little regretful. It would be a pity to kill you like this or turn you into a corpse race without intelligence."

Su Yu's heart moved slightly. "Then, do you want to..."

"Become my slave." The emperor's corpse said with his hands behind his back. "This king has never taken in slaves. You are an exception."

From his point of view, Su Yu's value was perhaps even higher than that of a sovereign of heaven and earth.

Su Yu's gaze turned, and he spread out his hands. He said helplessly, "It seems like I have no other choice."

"Hehe, I like smart people like you. It saves this king some saliva." The emperor corpse smiled faintly. He rubbed his right hand on his wrist, and a pitch-black mud ball was formed. He threw it to Su Yu, "Swallow it."

Su Yu felt a chill.

The poison that was supposed to control him as a servant didn't appear. Instead, it was a mud ball that was casually rubbed out?

How was he supposed to swallow it?

"Hehe, human brat, you have to seriously savor it." The corpse-devouring dog emperor behind him laughed strangely. "On the body of the emperor corpse, even a single hair is filled with essence. How many corpse clans would fight over the pill that he produced? Don't be displeased."

"Of course, to the corpse clansmen, this is a great tonic. But to you, Hehe, after eating this great tonic pill, you can be at ease as a servant. The slightest bit of resistance will make your life worse than death. Don't doubt my words, it is truly worse than death. Even US sovereigns of the world can not endure such pain."

The corners of Su Yu's mouth twitched. Great Tonic Pill..

“Eat it.”The Corpse Emperor said without a change in expression.

Su Yu held it between his fingers and slowly brought it to his mouth. Under the gaze of the two emperors of Heaven and earth, Su Yu didn't have the chance to play any tricks.

However, it was precisely because of this that they were very relaxed.

Indeed, in front of the two emperors of Heaven and earth, even a single emperor of Heaven and earth had no chance of turning over, so what could a mere gold overlord do?

Seeing Su Yu bring the tonic pill to his mouth, suddenly, a jade green light flashed on Su Yu's arm.

Then, a golden alms bowl suddenly appeared.

The Alms Bowl emitted a Buddhist light.

The emperor's corpse was less than thirty feet away from him, so he was not prepared for the Buddhist light to shine on him.

In an instant, the corpse qi around the emperor's body rolled and emitted thick smoke.

In his shock and anger, he was forced out of the tent by the Buddhist light.

“Ah! This is the Dao artifact of the Silent Buddha! How did it fall into your hands?”The Emperor's corpse roared.

It seemed like the emperor corpse and the corpse emperor weren't completely on the same page.

At least the corpse emperor had concealed the truth of Su Yu obtaining the Dao artifact!

As a result, the emperor corpse had suffered a loss!

“Corpse Emperor, what are you waiting for? Kill him, don't hold back!”The Emperor Corpse Roared.

The Buddha Light had a restraining effect on the corpse clan, but it didn't have much of an effect on other living beings.

The Corpse Emperor was stunned for a moment before recovering. He sneered, “I gave you a way out, but you still chose to die!”

He flicked out a hand that was shaped like a black dog's Claw. It carried the power of law that was faintly discernible as it tore straight towards Su Yu's back.

In that instant, Su Yu felt a burning pain on his back.

This was the result of the attack that had yet to arrive. If the attack was successful, no matter how powerful he was, he would not be able to turn the situation around.

Su Yu was already prepared!

At the same time that he took out his Buddhist and Daoist artifacts, he stabbed back with his sword.

“Sovereign Royal Longzun Sword!”

The cold draconic aura turned into a dragon shadow and rushed behind him.

The corpse-devouring emperor shivered and retracted his claw. He snorted, "I didn't expect you to hide such a huge treasure. It's a pity that you met me!"

His body suddenly broke into pieces and turned into lumps of flesh.

The dragon-shaped sword Qi shattered most of the lumps of flesh, but only one managed to dodge it!

This meatball immediately regenerated into the corpse-devouring emperor!

Its cultivation and Aura didn't weaken at all!

Su Yu had never heard of such a method of dodging powerful attacks.

"Human Brat, die!" The corpse-devouring emperor seized the chance when Su Yu's sword missed and suddenly attacked.

This time, Su Yu had no way to dodge!

"Little qilin, if you don't attack, when will you?" At the last moment, Su Yu snapped.

The little qilin laid on Su Yu's shoulder and stretched lazily. "It's finally my turn!"

Shaking its body, the little qilin looked at the corpse-devouring emperor with disdain. "Chi!"

It took a step forward and fearlessly met the other party's claw.

The strangest thing was that it didn't use any divine arts and allowed the claw to injure it.

Pu --

The scene where the little qilin was sent flying or pierced through didn't appear in its imagination. Instead, it was the little qilin that was like nothingness as the corpse-devouring Emperor's claw directly pierced through it.

"What law is this?" The corpse-devouring emperor was shocked.

The little qilin snorted. "This is my unique law of 'slapping your face'!"

The seemingly weak kick landed on the corpse-devouring Emperor's face, but the result was a huge explosion of power.

The corpse-devouring Emperor's entire head was smashed into pieces in an instant!

His body was fiercely pushed into the ground ten thousand feet deep. Even the lava was squeezed out due to the tremendous force, forming a crimson fountain.

Su Yu clicked his tongue. This was the little qilin's true strength.

A law that could turn the void into reality. Anyone who saw it would have a headache.

"Let's Go!" After defeating the corpse-devouring emperor, Su Yu dashed out of the tent in a flash and headed straight for the Living Creature Alliance's Castle.

"Where do you think you're Going?"

A terrifying roar pounced over like a tsunami. Su Yu's body suddenly trembled, and the divine power in his body trembled as well. He almost collapsed because of this.

Su Yu tightly held onto the alms bowl, and just now, the strange feeling in his body had been alleviated.

Hua --

The emperor corpse attacked like a shadow, but it stopped ten thousand Zhang away and didn't dare to get too close.

It could be seen that he was extremely afraid of that Buddha Light.

If he forcefully got close, it would hurt him quite a bit.

“Corpse Roaring Mountains and rivers!” The emperor's corpse roared towards the sky, and terrifying sound wave laws rumbled over.

Su Yu's expression changed slightly.

Fortunately, the Buddha's light was like a natural enemy to the corpse race. Even the divine arts of the two crowned emperors couldn't Pierce through the Buddha's light!

Su Yu let out a sigh of relief and said, “It's not suitable to be entangled.”

He grabbed the little qilin with a serious expression and quickly left.

The emperor's corpse's face was solemn. It opened its mouth and spat out a three-colored bone sword.

“Nirvana Corpse Sword!” The emperor's corpse was enraged. It held the bone sword and slashed at Su Yu from afar.

At this moment, Su Yu's heart was beating wildly. The sense of imminent danger was like a warning bell ringing in Su Yu's heart.

He couldn't block it!

The Buddhist light couldn't block this sword!

At some point, Su Yu threw the little qilin behind him. He didn't even think about taking out the Indian silver bamboo fruit.

Puchi --

Almost at this moment, the Buddhist light was split open.

The remaining sword Qi headed straight for Su Yu.

The Indian silver bamboo fruit immediately devoured the sword qi.

However, the powerful impact of the sword Qi still sent Su Yu flying.

His throat was filled with a bloody sweetness.

“Die!” While he was flying backward, the emperor corpse swung its second sword without hesitation.

The same powerful sword Qi followed closely behind the first sword attack.

Before the Buddhist light had fully closed, this sword Qi slashed over.

The Indian silver bamboo fruit was simply not enough to completely block it!

This sword attack was certain death!

There was no other way. The two-crowned Emperor of Heaven and earth and the one-crowned Emperor of Heaven and earth were two completely different levels of existence!

“Great Light Technique!”

At this moment, a clear and loud shout filled with the morality of heaven and earth came slashing over like a sharp sword.

At the same time, golden sunlight covered the sky and earth.

Under the illumination of the sunlight, all the evil spirits were evaporated.

The emperor’s corpse’s sword was the same. It quickly melted under the illumination of the Golden Light.

The emperor’s corpse suddenly raised its head and narrowed its eyes. “Huangfu Lieyang! !”

Back then, it was Huangfu Lieyang who used the supreme divine art and the great light art to purify the army of the corpse clan. That was why their plan to attack the corpse clan was ruined.

Swoosh --

A ball of dazzling golden light descended, and Huangfu Lieyang’s figure could be vaguely seen inside.

“Emperor Corpse, how have you been?”

The Emperor Corpse’s pupils contracted slightly. “Have you recovered from your injuries?”

“Hehe, don’t tell me you want to try?” Huangfu Lieyang asked with a faint smile.

The two of them looked at each other, and Sparks flew.

However, they restrained themselves and didn’t make a move.

The emperor corpse pondered for a moment, then glanced at Su Yu and sighed. “Another failure thirty thousand years later! But the main culprit of this failure is an unremarkable nobody. I really didn’t expect it!”

“Perhaps your sea of constellations civilization isn’t finished yet!” The emperor corpse said gloomily.

With a tap of his toes, he flew out of the ancient planet and said in a long voice, “But I won’t give up. I’ll come back one day!”

After saying that, he disappeared from Su Yu’s sight.

The corpse-devouring emperor followed him closely and left the ancient star completely.

Su Yu breathed a sigh of relief and bowed gratefully, "Thank you, Chief Pavilion Master, for your timely rescue."

It was strange that Huangfu Lieyang had arrived just in time, as if he had been prepared.

Chapter 1762: Beixin

"Hehe, no need to thank me. You provoked him because of the sea of constellations. There's no reason for me to sit back and do nothing." Huangfu Lieyang chuckled. "It's a good thing that he still showed up for you. Otherwise, I really wouldn't know where to find him."

It turned out that Huangfu Lieyang had expected that the emperor's corpse would find trouble with Su Yu.

That was why he had been paying close attention to Su Yu. Only then could he make a move in time.

The corpse kings who had come after hearing the news were also extremely shocked.

Especially when they heard that the emperor's corpse had arrived, their expressions became even more stern.

Huangfu Lieyang pondered for a moment before suggesting, "It's best if you don't leave the sea of constellations civilization in a hurry. The emperor's corpse is very good at enduring. Who knows, he might say that he's leaving, but he might be hiding somewhere in the sea of constellations, waiting for you to be alone to make trouble."

Su Yu shuddered. He had to guard against this!

From the way the emperor's corpse acted, it didn't seem like a straightforward person.

"Alright, I'll be in the corpse clan recently. If there's anything, Head Pavilion Master, you can look for me at any time." Su Yu cupped his fists.

Huangfu Lieyang smiled. "No problem."

He returned to the castle, but a part of his mind was still on Su Yu, guarding against the Emperor's corpse returning.

At this moment, several strange auras were projected into Huangfu Lieyang's perception.

"The aura of an extraterrestrial civilization?" Huangfu Lieyang frowned deeply.

The appearance of an extraterrestrial civilization's aura at this time was not necessarily a good thing!

He turned around and stood on the city wall, quietly watching the extraterrestrial aura heading straight for the castle.

It was an old man and two young men.

He only gave the old man a light glance, and his gaze was more focused on the young and arrogant man. His eyes shone with a strange light. "Clone? What a unique cultivation technique."

The three of them didn't have strong cultivations. At the very least, in Huangfu Lieyang's eyes, he could suppress the three of them with a single palm. He had just let out a sigh of relief.

He calmly waited for the three of them to descend with his hands behind his back.

"Oh? No wonder the sea of constellations is empty. It's because the corpse race has forced it to a dead end!" Ao Xiang glanced at Gu Xing and immediately understood the situation. He laughed mockingly.

Bei Wangzhu shook her head. "After all, it's a barbaric civilization. In the records of history, no barbaric civilization has ever been able to resist the corpse race. For this sea of constellations to be able to persist until now, it can be seen that it's quite extraordinary."

The old man in the middle, the pear king, was just like the previous conferred kings, sizing up the city indifferently.

When his gaze fell on Huangfu Lieyang, he frowned slightly. He actually couldn't see through the other party's cultivation.

However, there were many reasons why he couldn't see through the other party's cultivation. The other party's cultivation was stronger than his, or perhaps he had some special magical treasure to conceal it.

The living beings of the barbaric civilization could only be the latter.

"I am from the Emperor Yu dynasty's civilization. My predecessor, beixin, was conferred the title of King. I Am the Li King! May I ask who you are?"

Huangfu Lieyang chuckled. "My surname is Huangfu, and my name is Lieyang. Everyone has come from afar. Is there something you need?"

The Li King nodded arrogantly. "I need you to help me with something. After the matter is done, there will be no lack of benefits."

His tone was as if he was speaking to a subordinate, full of orders.

"What is it?" Huangfu Lieyang's expression didn't change.

The pear king said, "We are looking for a sea of constellations creature named Su Yu. You must find him within three days. If he is alive, you must see him. If he is dead, you must see his corpse."

"Su Yu?" Huangfu Lieyang smiled faintly. He wasn't surprised at all by their purpose in coming here.

After stealing the king cauldron of beixin, the beixin fiefdom wouldn't let this matter go so easily.

"I've finished my request. Do you have any objections?" The Pear King asked indifferently.

Huangfu Lieyang was surprised. "I don't have any objections. However, as you all can see, we just had a huge battle with the corpse race and can't even take care of ourselves. I'm afraid we don't have the time to help you find Su Yu. Please return."

Ao Xiang glared at him. "Old Man, don't think that just because you're an emperor, you can look down on us! The vast sea of constellations in your eyes is actually not worthy of the northern letter fief's attention. Do you understand? "Don't be a frog who looks at the sky from a well!"

They naturally thought that Huangfu Lieyang was a narrow-minded person who only knew about the sea of constellations civilization and not the vast world outside.

"Haha, it's not that I'm flattering myself, but I really can't help you. Everyone, please return."Huangfu Lieyang had an extraordinary bearing and was not annoyed. He smiled and waved his hand before turning around and walking into the city.

Pear King's old face was filled with displeasure. "You've decided to disobey me and the Great Yu Imperial Court?"

What he received was Huangfu Lieyang waving his hand without even turning his head.

A trace of annoyance appeared on his face. Pear King Strode over and placed a hand on Huangfu Lieyang's shoulder. "Sir, I'm afraid that you don't have the right to refuse the orders of our great Yu Imperial Court!"

Bang --

Huangfu Lieyang's shoulder trembled slightly, but he didn't use much force. The Pear King's old, dirty hand bounced off like a withered branch.

The Pear King's feet were unsteady, and he staggered backward.

Bei Wangzhu helped him up and berated, "Patriarch, you're being nice. What do you mean by hurting someone?"

Ao Xiang was even more impatient. "Creatures of the savage civilization, it's better to speak with your fists. Patriarch, stop talking nonsense and just do it!"

The two of them were extremely unhappy.

They had thought that it would be easy to capture Su Yu once they reached the sea of constellations. Who knew that even a random sovereign of heaven and earth from the Sea of constellations would be so stubborn.

"The two of you, shut up!"The Pear King stood up. His face was filled with bewilderment. After hesitating for a moment, he bowed and said, "This junior, pear heart, has offended senior. Please forgive me, Senior!"

Bei Wangzhu and Ao Xiang were both stunned.

Senior..

There weren't many people in the entire Emperor Yu dynasty who could be addressed as senior by the ancestor.

This golden emperor was actually addressed as senior?

Huangfu Lieyang was quite open-minded. He waved his hand dismissively and said, “Then, please go back. The time isn’t right, and it’s not convenient.”

Go Back? If they didn’t find the beixin King Cauldron, how could they go back?

If they couldn’t find the Beixin Royal Cauldron, the Dongfang Royal Family would definitely be furious. The beixin faction would be severely punished.

The pear king said, “Reporting to senior, if you value this junior’s meager strength, this junior is willing to assist you in killing the corpse clan.”

They thought that the corpse clan and the Living Beings Alliance were still in a hostile state.

If they had come two days earlier, perhaps Huangfu Lieyang would have welcomed them.

But now..

Pear king added, “Senior, even if we go back, more Beixin descendants will come.”

Huangfu Lieyang was silent. After a while, he sighed, “Alright, follow me. I’ll gather a few colleagues and listen to your requests.”

Soon, the three venerables, Emperor Purple Dream, and Emperor Snow Dragon gathered in the meeting hall.

An hour later, Huangfu Lieyang said, “Everyone, this is the cause and effect of the matter. Do you have any good suggestions for the requests of the guests of the Great Yu Imperial Court?”

Apart from the Woman Pavilion Master who had a dead face, everyone else had strange expressions on their faces.

Suggestions? What suggestions did they have?

Could it be that they were to hand Su Yu over to them?

Actually, what they were even more confused about was why the Head Pavilion Master had agreed to them?

With the strength of the head pavilion master, if he spoke with a tough tone, he could force them all to get lost.

“This...”the emperors of Heaven and Earth looked troubled and couldn’t come up with any good suggestions.

The pear king saw that something was unusual and frowned, “Is it difficult to catch the human surnamed Su?”

It was more than difficult, it was almost fatal?

If outsiders wanted to catch Su Yu, they not only needed the emperors of heaven and earth to agree, but also the nine corpse kings of the corpse clan to nod and agree.

His question was like asking how difficult it would be to chop off one of their fingers, causing the corners of the mouths of the emperors to Twitch.

Only the pavilion master snorted coldly, “He’s in the corpse race, and he’s doing just fine right now?”

In the corpse race? The Pear King wasn’t surprised.

It wasn’t uncommon for living beings to betray them and join the corpse race, so there was nothing strange about it.

“I see. May I ask how strong this batch of corpse clan is?”The pear king asked while stroking his beard.

The woman pavilion master said, “Nine Corpse Kings. Yes, one of them has a close relationship with Su Yu.”

Hearing this, the pear King’s face darkened slightly.

This would be troublesome.

After thinking for a while, Huangfu Lieyang said, “Since the pear King believes that Su Yu stole the beixin King Cauldron, then it’s better to invite Su Yu over and confront him face to face. What does the pear king think?”

UH --

The Pear King couldn’t quite wrap his head around it. Invite? How?

“Senior, are you saying that the seven of US should join forces and go deep into the corpse race to capture him?”

The head pavilion master chuckled and said, “There’s no need. Just one person will do.”

He looked at the purple dream emperor and said, “Then I’ll have to trouble the Purple Dream Emperor to make a trip personally.”

“Hehe, that’s easy to say. I also have some things I want to discuss with him in private.”The purple dream emperor rolled up his sleeves and left like an immortal.

The Pear King was stunned. Bei Wangzhu and Ao Xiang were also confused.

What the hell was going on in the Sea of constellations civilization?

Sending an ordinary sovereign of the heavens and earth to capture a traitor like that?

The corpse race!

Zhu Ji said, “Just now, our people found out that a few living beings escaped from the city. Some of them are quite powerful.”

“The head pavilion master must have started to clean up the traitors of the living beings alliance,”Su Yu said nonchalantly.

Zhu Ji frowned slightly. “What I’m a little concerned about is that one of them is called Tan Lang. I remember that he’s familiar with you, right?”

Him? Su Yu was surprised. “He’s actually still alive. That’s surprising.”

It was not easy for Tan Lang to survive until now in such a huge war.

This person was narrow-minded and mercenary.

At that time, Su Yu's cultivation was not enough, so he lied to him. Su Yu was the evil daughter's personal disciple.

He didn't Expect Ravenous Wolf to believe him.

"Should we chase after him?" Pearl asked for Su Yu's opinion.

Su Yu shook his head. "There's no need for that. It's his good fortune that he's still alive. Just don't let me run into him again!"

At this moment, a wave of ridicule drifted over.

"The two of you are in such a good mood. We were drinking last month!" The purple dream emperor was like a Flower and mist, her beautiful face filled with a faint smile.

Su Yu stood up to welcome her. "The Purple Dream Emperor has graced us with her presence!"

"You are now the great benefactor of the Sea of constellations. Your position is on par with the head pavilion master. How can I still have the confidence to come?" The Purple Dream Emperor Snickered. "I am here to invite you over. Someone has come from the northern envelope. The Head Pavilion Master has invited you over."

Zhu Ji suddenly stood up. She frowned and said, "They want to steal the Wang Ding? No Way! !"

To her, the flame within the Wang Ding was the source of her life.

Su Yu smiled and comforted her, "Don't worry. Since the Head Pavilion Master invited me over, he must be making a decision for me."

How was he making a decision? He was clearly going to give Su Yu an explanation in person.

He had sacrificed so much for the sea of constellations. Huangfu Lieyang had to show his gratitude.

"Let's go. We'll meet them. If we want them, we'll go to the Sea of constellations. Hehe..." Su Yu smiled with a strange expression.

The purple dream emperor smiled sweetly. She seemed to see that three self-righteous wolves had fallen into a tiger's den and become the meat of many tigers, yet they were still unaware of it.

Chapter 1763 Blood Crystal Bodhi

"Wait! We Corpse Kings will go too!" Zhu Ji snorted. "I want to see who dares to take people from our corpse race!"

The group of corpse kings had mischievous expressions on their faces. They all wanted to watch a good show.

Su Yu returned to the city with purple dream emperor.

On the way, purple dream emperor looked at Su Yu meaningfully and said, “Do you remember the matter you promised to help me?”

Su Yu remained calm and said, “The mortal body?”

“Yes,” the Purple Dream Emperor said slowly.

It was because of this that they were fated to meet. However, the ancient corpse race rushed over and caused them to give up halfway.

“Senior, are you going to start looking for the mortal body again?” Su Yu asked.

Unexpectedly, the purple dream emperor shook her head lightly and said, “No, I’ve already found it.”

Su Yu’s heart jumped, but her eyes were exceptionally calm. She smiled and said, “Congratulations, senior. May I ask who that so-called mortal body is?”

Emperor purple dream smiled mysteriously and said, “It’s a secret!”

‘He’s trying to play tricks!’ Su Yu muttered to himself.

In the conference hall of the Alliance.

The Pear King was conversing with the creatures of the alliance with a pleasant expression. There was no longer the arrogance from before on his face.

He sized up Huangfu Lieyang from time to time and was extremely curious.

According to what he knew, the foundation of the barbaric civilization could not nurture a double-crowned world emperor.

The Great Yu dynasty had only nurtured three two-and-a-half-star civilizations.

Unless there was one possibility.

The double-crowned emperor before him wasn’t born and bred, but came from a higher civilization.

After thinking carefully, the pear king was more and more certain that this double-crowned emperor’s identity was unusual.

“Purple dream emperor brought Su Yu back,” a report came from outside the hall.

The pear king was extremely surprised.

In the time it took half an incense stick to burn, a heaven and earth emperor had successfully captured someone from the corpse race army?

It was truly unbelievable!

Along with a series of footsteps, the Purple Dream Sovereign was the first to enter the hall.

A silver-haired youth followed closely behind him. His expression was calm, his clothes were simple, and he had an ice crystal crown on his head.

“Su Yu!” Ao Xiang and Bei Wangzhu stood up at the same time and looked at this person.

Elder Li Wang's eyes shone brightly, and he shouted, "It's this person! !"

The three of them heaved a sigh of relief.

It seemed that the matter of losing the Beixin King Cauldron would soon be settled.

However, soon after, nine figures stepped in one after another.

The first figure startled the Li king, "Corpse King of the corpse clan?"

When the Nine Corpse Kings entered the hall as if there was no one else around, the Li King realized that the situation was serious.

He looked left and right and found that all the living beings present were unperturbed. They didn't mind staying with the corpse clan and didn't have any conflicts.

The Pear King's heart thumped, and the question in his mind suddenly became clear.

Cold Sweat was dripping down his entire body, and his neck was stiff. He stood on the spot, not daring to move. This unbelievable truth echoed in his mind.

Ao Xiang and Bei Wangzhu also realized the problem, and stood on the spot at the same time.

Surrounded by the nine corpse kings, Su Yu neither humbly nor arrogantly cupped his fists at the Head Pavilion Master, and then casually sat down. "I heard that someone is looking for me."

The head pavilion master smiled. "These three guests insisted on seeing you. Out of desperation, I had no choice but to invite you over."

Glancing at the Pear King, the head pavilion master shook his head.

He repeatedly rejected them, urging them to go back. In the end, they insisted on coming, but they couldn't even stop them. What could he do?

Su Yu smiled and looked at them. "Hehe, how have the three of You Been?"

The Pear King, ao Xiang, and Bei Wangzhu's expressions gradually became unsightly.

Clearly, the situation in the sea of constellations was extremely bizarre. The corpse race, their mortal enemies, were actually able to coexist peacefully with the living beings?

Moreover, it could be seen that Su Yu was under the protection of the corpse race and the Living Beings Alliance!

What was laughable was that the three of them had barged in without knowing why.

And now, they were surrounded instead.

Not to mention bringing Su Yu back, as long as this young man gave the order, the three of them would probably die here!

The Pear King composed himself and forced a smile. "Hehe, yes, it's been a long time."

His plan to kill Su Yu head-on after discovering him was destined to fail.

For now, survival was more important!

“Why didn’t you come to see me from afar?” Su Yu smiled faintly.

The pear king wiped his cold sweat. How would he dare to mention the Beixin King Cauldron at this moment? He was afraid that once he mentioned it, they would not be able to leave again.

Smiling slightly, the Pear King said with a smile like a spring breeze, “Young master Su, you probably forgot that as the champion of the Great Void Hidden Dragon Competition, you still have a prize to claim. We specially came over to give it to you.”

Hearing this, Bei Wangzhu pursed his lips and retracted the words that were about to come out of his mouth.

How infuriating!

This fellow was clearly the one who had stolen their things. They had only come to ask for it, but how did it end up as a gift?

Ao Xiang’s gaze also darkened. He was extremely unwilling to accept this.

This feeling of being controlled by others and having no choice but to lower his head was extremely detestable to him.

However, the situation was better than others!

“Oh? If that’s the case, I almost forgot that there were prizes.” Su Yu looked as if he had only just remembered now. “But I remember that in the rules, the reward is only to enter the Beixin Royal Cauldron and use the luck of the nation to comprehend it, right? “Why, did you bring the Beixin King Cauldron?”

“You still have the face to mention the Beixin King Cauldron?” The three of them were angered by Su Yu’s “Shamelessness” and vomited blood.

Pear King gritted his teeth and forced a smile. “I didn’t bring the king cauldron, but I brought the rest of the prizes.”

Su Yu said, “Oh? What is it? Tell us about it.”

He and Pear King knew that the beixin King Cauldron had long fallen into Su Yu’s hands.

Now, they were just bargaining. They wanted to see how much the Pear King could pay to let them go.

How could the pear king dare to be stingy when their lives were at stake?

With a wave of his sleeve, he consecutively waved out nine treasures.

The vast majority of them made the emperors of Heaven and earth envious. Those were extremely beneficial to them as well!

“The first winner of the Great Void Hidden Dragon, apart from comprehending the beixin king cauldron, there are also additional prizes. Please take a look, young master Su.”

Su Yu scanned through them one by one. To be honest, they were all shocking.

Every single one of them was a rare treasure that the emperors of the world would fight over.

Even if the Pear King was once an emperor, these nine treasures had almost emptied out half of him.

It could be seen that he was very generous in order to survive.

However, none of them were suitable for Su Yu.

Observing Su Yu's expression, the Pear King's heart skipped a beat. He was not satisfied.

Li King was well-informed. He knew what the problem was after thinking for a while. He could not help but pat his forehead.

He was careless!

Although the prizes given were precious, none of them were suitable for Su Yu.

However, he was a heaven and earth emperor. Most of the things he carried were related to the heaven and Earth Emperor. The rest of them were not suitable for Su Yu.

Suddenly, Li King's heart skipped a beat. He ordered Ao Xiang, "Why aren't you taking out the Blood Crystal Bodhi? That is also a prize for young master Su!"

Ao Xiang was extremely angry and said telepathically, "Elder ancestor, that is a divine item given to me by the Emperor of the Eastern kingdom. It can help me break through to the Emperor of Heaven and earth. How can I give it to him?"

The Pear King secretly shouted, "What time is it? Your Life is more important. Give it to him quickly!"

While the two of them were arguing, Su Yu said calmly, "If there are only these rewards..."

The Pear King thought that it was not good. He directly reached out his hand and grabbed, forcefully breaking open Ao Xiang's storage space. He grabbed a crystal that was shining with blood.

It was only the size of a thumb and looked like a bodhi.

"What is this?" Su Yu could not help but be curious.

The Bodhi contained a very special essence. The fragrance that wafted out caused Su Yu's inner mansion to have some movement.

"This is the Dongfang royal family's unique blood crystal bodhi. It is a divine item that can only be grown with the Dongfang royal family's bloodline. It has an irreplaceable magical effect on the Overlord Realm."

The head pavilion master flashed with a bright light and secretly transmitted his voice, "Su Yu, quickly accept it. That is a good item!"

To be able to be called a good item by him, it was enough to show how precious this item was!

Su Yu revealed a smile just now, "Thank you for the care and concern of the northern envelope. You have come a long way to deliver the prize."

The pear king smiled apologetically, "Of course!"

"Then I will accept it." Su Yu rolled up his sleeves and took everything away.

Ao Xiang watched helplessly as the Blood Crystal Bodhi was taken away by Su Yu. His eyes were so red that they were about to bleed.

Without this item, his plan to break through to the Emperor of Heaven and earth would be delayed by at least a few more decades!

Ao Xiang rushed over and grabbed the Blood Crystal Bodhi with one hand.

Su Yu's eyes flashed. He activated the space divine art and teleported the Blood Crystal Bodhi away, landing in Su Yu's palm.

Spatial divine art? Ao Xiang was shocked. He grabbed nothing with one hand and stared at Su Yu with an uncertain expression.

"What is the meaning of this?" Su Yu said coldly.

Ao Xiang glared at Su Yu and said in a deep voice, "Nothing, I just want to try the skills of the Great Void Hidden Dragon King! Not Bad, not bad!"

Obviously, he didn't succeed in snatching the Bodhi and gave himself a way out.

However, what made him angry was that his evaluation of Su Yu was exceptionally low. From this, one could see how unwilling he was to be defeated by Su Yu that day.

After saying that, he turned around and walked back to the pear King's side.

His deep eyes seemed to be particularly angry.

However, there was a movement behind him. Su Yu slowly stood up and stared at him coldly, "If you want to try out my skills, I can help you."

Ao Xiang suddenly turned around. He had traveled thousands of miles to come here. The beixin King Cauldron was secondary. The most important thing was to wipe away the humiliation from that day!

"Good! Very good! I thought that you would always hide behind a few emperors of heaven and earth and not have the courage to make a move!" Ao Xiang laughed loudly. His feet were like meteors as he strode over. "I have been looking forward to this battle for a long time!"

He did not believe that he was inferior to this nameless junior of the barbarian civilization!

"In this battle, you are not allowed to use external forces, such as that Dragon Sword of yours that violated the rules. How about it? Do you have the guts?" Ao Xiang forced a question.

Hearing this, Zhu Ji smiled contemptuously.

"Then do you have the guts to cripple your cultivation and reach the Golden Overlord Realm? A half-step emperor of Heaven and earth and a golden

overlord. If this is a fair battle, then I will personally deal with you and it can be considered a fair battle.”

Ao Xiang raised his neck, he said with conviction, “The second-ranked great void hidden dragon is a half-step emperor of heaven and earth. Since he claims to be the first, then he should be confident! What, after all, he still doesn’t have the guts. Is He just playing with his mouth?”

Anyone could hear that it was a method of goading him. Any reasonable person would not agree.

“Sure, don’t use that Dragon Sword. I will fight with you.”However, su yu easily “Fell into a trap.”.

Ao Xiang sneered.

He didn’t notice that neither the corpse clan nor the Life Alliance stopped them. Instead, they were treating him with a relaxed smile.

Chapter 1764 Miss Beiwang

“Good! You have guts!”Ao Xiang formed a hand seal.

“Ao Xin Jian Ge!”

Small green swords that were only the length of a thumb appeared between his palms.

Each of them contained not only sword qi, but also the faint shadow of the law chains.

The head pavilion master nodded in approval. “Not bad. He has already started to cultivate the law of Great Dao and is familiar with it. He is only one step away from breaking through to the Emperor of Heaven and Earth.”

Zhu Ji also expressed her admiration. “Even though this fellow’s nostrils are facing the sky, but in terms of this move, he is still very good. At least among those of the same level, not many are his match.”

The Pear King could not stop him in time and could only watch silently.

He trusted ao Xiang’s strength very much.

When ao Xiang’s two swords were defeated by Su Yu that day, he also felt that it did not completely explain the level of their strength.

Firstly, ao Xiang had underestimated his opponent and did not have the time to use his full strength.

Secondly, the level of the divine weapon that Su Yu used was too high. In essence, it was almost the same as using an emperor level talisman.

Now that the two of them had agreed not to rely on powerful magic treasures, the Pear King was actually a little worried about Su Yu.

After thinking for a moment, he secretly transmitted his voice and sternly warned, “Ao Xiang, no matter how much you desire a victory, this battle can only be defeated and not won!”

What if he lost to Su Yu?

Ao xiang sneered, “Don’t worry, he won’t Die! I will stop at the right time and call it a draw!”

“Are You Ready?”Ao Xiang asked coldly.

Su Yu pulled out the Shura Sword and placed it in front of him, “Then let’s start!”

Seeing that Su Yu took out a true emperor rank weapon, ao Xiang relaxed and said, “This is a fair battle! Then, let’s Start!”

Xiu Xiu Xiu Xiu Xiu --

The small green sword between his palms immediately attacked.

Su Yu swept his sword horizontally and it was extremely heavy, almost sending the asura sword flying.

He stared at the afterimages of the chains around the small green sword. It was probably because of ao Xiang’s powerful divine power.

One sword fell and another came.

After a few consecutive strikes, Su Yu was unusual.

The small green sword continued to appear, like a stream of water that never stopped.

What was even stranger was that the frequency of the small cyan sword stabbing was getting higher and higher, and the power was getting stronger and stronger.

This should be the power of the laws of Great Dao that he had mastered.

Su Yu had already found it difficult to block a few swords consecutively. If he continued to block, he might not be able to withstand it.

Seeing that Su Yu only had the power to parry and could not fight back, ao Xiang sneered, “Why don’t we stop here? I’m worried that I’ll hurt you later.”

Ao Xin Jian GE’s divine art could either counterattack at the beginning or avoid it from afar.

If he was caught in it, he would only become more and more passive and eventually die miserably under the sword.

The reason why Su Yu was able to resist until now was that nine out of ten of them relied on the asura sword.

The quality of this sword was extremely high. An ordinary true emperor rank divine weapon would have been destroyed by the small green sword long ago.

The pear king also laughed, “Why don’t we stop here? Young Master Su’s strength is outstanding. We have all seen it for ourselves. Don’t hurt the harmony, Hehe.”

Bei Wangzhu secretly despised him.

“As expected! I don’t believe that one of second brother’s nine phases is so easily defeated.”

Su Yu blocked another sword and another small green sword came at him at an even faster speed.

“I’ve almost reached my limit,”Su Yu muttered to himself.

Ao Xiang chuckled. "Don't be discouraged. You've been able to block for so long. Not bad, not bad."

Su Yu shook his head and said, "I'm testing how long I can fight you without fighting back. It should be around a few dozen breaths."

After he finished speaking, Su Yu's temperament suddenly changed. He held the Shura Sword with both hands and quickly poured divine power into it.

Before he even used his sword style, an exceptionally powerful sword qi rushed out from Su Yu's pores.

"Heaven-cleaving sword!" Su Yu lightly shouted.

The long sword in his hand shot out a hundred thousand feet long sword Qi that shot straight into the heaven and earth.

For a moment, the wind and clouds surged, and the Heaven and Earth lost their light. It was originally daytime outside the hall, but there was a dense mass of darkness.

It was as if the heaven was afraid of something and hid!

Only the boundless sword Qi was incomparably resplendent as it slashed down.

Chi La --

It was as if a bolt of lightning flashed across the world, causing the entire world to be swept away by the sword qi.

The sword light flashed and disappeared, and the world regained its light.

However, ao Xiang stood still on the spot. The small green sword in his hand that was supposed to shoot out continuously seemed to be frozen, not moving at all.

"It ends here," Su Yu said indifferently.

Clang --

The small sword that had stopped moving fell onto the ground.

Chi --

Ao Xiang's clothes split into two from the middle and split into two.

A bright line of blood extended from ao Xiang's forehead to his lower body.

If it was any deeper, ao Xiang would have been split into two!

Huangfu Lieyang's eyes shone brightly. He believed that Su Yu would win, but under the premise of using the Royal Longzun Sword.

It was unexpected that he had hidden this move.

He had defeated a half-step emperor of heaven and earth with his swordsmanship.

Huangfu Lieyang couldn't help but be deeply moved by such a talent.

At least when he was a golden overlord, he didn't have the strength to defeat a half-step emperor of Heaven and earth.

As for Su Yu? Not only did he win, he even deliberately let him win for dozens of breaths.

Otherwise, ao Xiang would have been defeated right from the start.

Zhu Ji was delighted. "So he was the one who caused the heaven and earth phenomenon that day! Husband is really well-hidden!"

On the other hand, Li Wang and bei Wangzhu's eyes were filled with shock.

If last time didn't count, then this time, ao Xiang lost completely!

Li Wang was surprised, but his heart was relieved. Luckily, ao Xiang was the one who lost.

"Haha, Young Master Su is a genius, but ao Xiang is far from him," the pear king complimented.

Su Yu drew a sword and put away the asura sword. He didn't look proud at all. "He is just one of the nine phases of Bei Wangchen. If you can defeat him, you are a genius. But what about Bei Wangchen?"

Ugh --

The Pear King was stunned. Bei Wangchen?

What kind of existence was bei Wangchen? In the entire Emperor Yu dynasty, other than the prince from the eastern royal family, who else had the right to stand shoulder to shoulder with him?

This kind of person had already surpassed the category of a genius.

Of course, he would not expose him. He smiled sheepishly and said, "No matter what, young master Su is well-deserved to be the great void Hidden Dragon King. Once I have completed my mission, I will not stay any longer. Goodbye."

Since Su Yu had accepted his things, it meant that he had agreed to let them live.

The Pear King took the northern gazing Pearl and pressed down on ao Xiang's shoulders, preparing to leave.

"Wait!"

However, Su Yu suddenly spoke up, "You can leave, ao Xiang can leave too, but she can't!"

Su Yu pointed at the northern gazing pearl.

The Pear King was startled. "Young master Su, what do you mean by this?"

"Hehe..." su yu said meaningfully, "I need one of you to stay behind and show him around the sea of constellations civilization."

They understood Su Yu's intentions. He wanted to keep one of them as a hostage so that they wouldn't do it again!

The Pear King was the emperor of the world. Keeping him as a hostage would only be a disaster!

Ao Xiang, on the other hand, was only one of Bei Wangchen's Ao Xiang. He could be sacrificed at any time.

As for Bei Wangzhu..

"Young master Su, she's only the butler of King Beixin's residence. How is she qualified to accompany young master Su?" The Pear King asked.

Su Yu smiled faintly. "Butler? What kind of Butler can accompany the previous Beixin Royal Mansion? What kind of Butler doesn't look like a butler in front of you? I think she is also a member of your Beixin lineage, right? Moreover, she is a very important member."

When they met in Beixin fief, Su Yu had already suspected the identity of the young girl. Now, he was even more certain.

The pear king said, "Young master Su, why don't you let ao Xiang stay..."

Su Yu said indifferently, "Someone, please ask the Princess of Beixin Royal Mansion to go down and rest."

Zhu Ji pursed her lips and smiled. She hooked her finger and pulled Bei Wang Zhu over.

Her fair fingers gently brushed across her soft and tender skin. She mocked, "What a pretty little sister. Even I feel sorry for her. Why don't you come to my corpse clan to rest?"

The Pear King wanted to stop her, but Su Yu's indifferent voice rang in her ears, "If the pear king also wants to stay as a guest, I welcome you."

The hidden threat caused the pear King's heart to tremble. She pressed on ao Xiang's shoulder and flew away with a gloomy expression.

"Ancestor!" Bei Wang Zhu let out a desperate cry.

She would never have thought that she would be the one to be kept as a hostage!

Hearing her shout, everyone smiled knowingly.

Looking at Su Yu, they couldn't help but admire him. His eyes were sharp enough to see through this woman's real identity!

"Miss Bei Wang, please stay here." Zhu Ji said with a faint smile, "We won't mistreat you!"

After the storm subsided, Su Yu asked Huangfu Lieyang, "Can you borrow a cultivation room from the Chief Pavilion Master?"

"Hehe, follow me!" Huangfu Lieyang led Su Yu to his exclusive cultivation room.

When there was no one around, Huangfu Lieyang said, "You want to know about the Blood Crystal Bodhi, right?"

Su Yu nodded. "Yes. What is it exactly?"

It was exactly because of Huangfu Lieyang's words that Su Yu accepted the item.

“Hahaha, I have to say that you have obtained a good item this time!” Huangfu Lieyang said, “The Blood Crystal Bodhi is an upper third-rate race. It is a unique divine item of the blood crystal race. It needs to be watered by the blood crystal race’s bloodline to survive. It is extraordinary

“There’s only one use for it, and that’s to raise the Overlord’s cultivation level.”

Su Yu frowned slightly. “The Blood Crystal Bodhi isn’t the only divine item that can raise the Overlord’s cultivation level, right? Why is it so highly regarded?”

Huangfu Lieyang smiled and said, “That’s what I want to say. The Blood Crystal Bodhi has a special additional function, and that is to strengthen the Overlord’s tempering of the laws of the Great Dao.”

What? Su Yu was shocked when he heard that.

“The Overlord wants to break through the shackles and become an emperor of the world. The only way is to forge the Great Dao laws in the inner mansion. Therefore, you can imagine how powerful the Blood Crystal Bodhi is!” Huangfu Lieyang said, “Even the blood crystal race rarely gives this thing away. The other races are eager for it.”

Su Yu was surprised. He did not expect the Blood Crystal Bodhi to have such a miraculous effect. No wonder Ao Xiangsheng was reluctant to give it up.

“Strange. Then why does Emperor Yu of the Great Yu dynasty have the Blood Crystal Bodhi?”

Huangfu Lieyang thought for a while and said, “I think it’s because the Dongfang imperial family has a blood crystal race bloodline?”

“As far as I know, the Dongfang Imperial family never gives away the blood crystal bodhi. Ao Xiang has one, which shows that he is highly regarded by the Dongfang imperial family. Use this Bodhi as soon as possible. Don’t let them take it back.”

Su Yu nodded and immediately went into seclusion to refine the blood crystal bodhi.

Chapter 1765 The Hall Of Evil Women

At the same time.

The boundless deathly silence.

Tan Lang rode on the meteorite and galloped into the distance aimlessly.

He had a dejected look on his face. “Sigh! One wrong move and the whole game is lost! If I hadn’t betrayed the Star Pavilion back then, I wouldn’t have fallen to such a state.”

Thinking of Su Yu, Tan Lang felt even more regretful. “It’s a pity that the head pavilion master couldn’t tolerate me and had no choice but to leave the sea of constellations. Otherwise, if I followed Su Yu, I would still have a chance to meet the legendary Dao Master.”

As he lamented, rumbling sounds could be heard right in front of him.

A gigantic meteorite that was comparable to the entire sea of constellations civilization was pressing down on the void as it rapidly approached.

Tan Lang sucked in a breath of cold air. "Oh my god, such a huge meteorite?"

This was the first time he had heard of such an outrageously huge meteorite.

He focused his gaze and looked over. Standing on the gigantic meteorite were the beautiful figures of women dressed in long red robes.

Each of their faces were covered by different colored lights, only revealing their beautiful and seductive bodies.

However, with just a glance, greed star's body trembled as he controlled the meteorite to flee.

This was because she could see through the cultivation of none of the twenty or so women on the meteorite!

As a mystic crystal overlord, he could roughly see through even a half-step emperor of heaven and earth in front of him.

However, he couldn't see through the twenty or so mysterious women as if he was sweeping across an abyss.

This feeling was extremely familiar to him, who had followed the head pavilion master all year round and had often met the three pavilion masters!

They were emperors of Heaven and earth!

More than twenty emperors of Heaven and earth?

In particular, two of them gave him the same feeling as the head pavilion master, making him shudder.

The other one made him feel an inexplicable fear.

However, the strange thing was that when he dodged to the side, the huge meteorite followed him and changed its direction, crashing straight towards him!

Tan Lang broke out in cold sweat and dodged in panic. However, the huge meteorite crashed straight into him.

Hong --

The meteorite under his feet shattered on the spot.

Tan Lang was extremely shocked. There was nothing around him.

Once he fell into nothingness, even the Emperor of Heaven and Earth would die without a doubt!

Just as the meteorite under his feet shattered, a great power came from the huge meteorite, wrapping around tan lang and flying to the huge meteorite.

Just as he stood firm, dozens of powerful auras that could crush him easily enveloped him.

Tan Lang couldn't help but kneel on the ground and raise his head with fear. More than twenty Emperor of Heaven and earth were in front of him.

"S-seniors!" Tan Lang was a mystic Crystal Overlord, but he couldn't speak clearly at this moment.

More than twenty mysterious women didn't say a word. The silent atmosphere almost made Tan Lang faint.

"You mentioned Su Yu." Among the more than twenty mysterious women, there were two women who were covered in purple light.

"Su Yu?" One of the purple light women asked indifferently. Her voice was clear and pleasant, but there was no emotion in it.

Greed, who had thought that he would die for sure, suddenly had an idea. Su Yu?

They Knew Su Yu?

Greed had survived a desperate situation and quickly said, "Yes, yes! I am his guard! !"

The purple-clad woman said, "Then, he is still in the Sea of constellations civilization?"

"Yes, yes, yes! He was instructed by that Dao Master's master to stay in the Sea of constellations civilization to gain experience." Greed timely threw out the signal of "Dao Master."

Regardless of whether they were enemies or friends, they would still be wary of him.

"Dao Master's Master?" As expected, the two purple-robed women looked at each other and simultaneously looked at the golden-robed woman at the front.

She was the leader of this group of mysterious women.

The golden-robed woman remained indifferent for a moment before taking out a scroll. On the scroll was a picture of a prideful woman with a peerless figure. Her face was covered by nine-colored divine light, and her true appearance couldn't be seen clearly.

Upon seeing this woman, ravenous wolf hurriedly said, "Yes! It's him! Su Yu's Master!"

The woman in Golden Light flicked her wrist and kept the scroll.

Then, she looked at ravenous wolf indifferently.

The purple-clothed woman behind her walked over and said in a clear and melodious voice, "Alright, it's time for you to go down."

Go... Go Down? Ravenous Wolf was dumbfounded.

You guys smashed my meteorite, and then you want me to go down?

"We don't welcome men," the purple-robed woman said indifferently. She stepped forward and waved her hand, and a wave of primal energy sent Greed flying.

Falling into the void, greed didn't even have the time to scream before he was devoured by the void, leaving not even a trace behind.

The golden-robed woman said two words indifferently, "Continue!"

The meteorite slightly adjusted its direction and sped off in the same direction as before.

That direction was none other than the Sea of constellations!

Su Yu, who was completely unaware of this, was still in closed-door cultivation.

After Huangfu Lieyang left, Su Yu quietly spat out the Crystal Bodhi that he had put into his mouth.

"Hehe, it's a huge waste for me to swallow a divine plant like this!" Su Yu carefully pushed the Blood Crystal Bodhi away.

There were four black dots the size of sesame seeds in the Bodhi meat.

"Sure enough, there are Bodhi seeds!" Su Yu smiled slightly. He peeled the four seeds out and threw them to the little qilin. "Bury them in the supreme breathing soil. We'll see the results in a few days."

It would be interesting if the Blood Crystal Bodhi could be mass produced.

The Little Qilin responded and entered the nine jade spirit pearl with the seed in its mouth.

Su Yu threw the bodhi meat into his mouth.

A sour and sweet feeling mixed with each other in his mouth, then turned into a burning sensation, followed by a bitter feeling!

The strange taste of mixed feelings filled his mouth, and flowed down his throat all the way to his abdomen and into his inner mansion.

His inner mansion began to expand violently, and traces of it were exceptionally obvious!

Su Yu was delighted. "The effect is really not bad, it's immediately effective!"

After a few hours, when the effect of the medicine began to fade, Su Yu's inner mansion had expanded to a certain extent.

Suddenly, an explosion rumbled in his soul.

Su Yu's inner mansion seemed to be unable to withstand the expansion and suddenly exploded.

After the explosion, a huge amount of divine power surged into Su Yu's body and began to condense into a new inner mansion wall.

The entire process lasted for half a day before the new Inner Mansion was completely formed.

It was three times the size of the Golden Overlord's inner mansion, and the amount of divine power it contained had also increased by several times!

Clenching his fist, his bones were filled with divine power.

Su Yu felt as if he could not use it all.

“The Divine Power of the Mystic Crystal Overlord is more than ten times stronger than the Bronze Overlord’s!” Su Yu thought to himself, “If I activate the Royal Longzun Sword again, it should be effortless!”

The only regret is that Su Yu’s body contains very little dragon blood, the power of the Royal Longzun sword aroused, less than one-thousandth.

“If I can think of a way to get Dragon Clan God blood is good.” Su Yu thinks way.

After practice, Su Yu left the Chamber of Secrets.

Huangfu Lieyang has a sense, immediately teleported over, a little survey, smiled: “Congratulations, once again ascend!”

Su Yu said humbly, “How can you talk about being promoted in front of Senior?”

“Brother Su, there’s no need to be humble. When I was your age, I was only a bronze overlord.” Huangfu Lieyang was full of praise.

He looked around and seemed to be hesitating. After a long while, he made up his mind and said, “Brother Su, with your talent, forgive me for being blunt, but living in a small civilization like the sea of constellations will only bring shame to your talent.”

Su Yu’s heart skipped a beat. Could it be that he had something to say?

“I hope that you will be able to travel to a wider world. Don’t let down your talent.” Huangfu Lieyang’s expression was complicated.

As expected!

Su Yu said, “Senior, if you have something to say, please say it. With our relationship, there’s no harm in saying it.”

Only then did Huangfu Lieyang slowly say, “Have you ever doubted my identity?”

Su Yu was silent for a moment, then slowly nodded. “Of course! For a barbaric civilization like the sea of constellations, I really can’t see the potential to nurture a dual-tubed civilization! If I’m not wrong, senior should be a guest from an extraterrestrial civilization, right?”

“As expected, I can’t hide it from you!” Huangfu Lieyang nodded, with a solemn expression, he said, “That’s right. I’m not from the Sea of constellations. To be more precise, the three pavilion masters and I came from the other realms. We were also the ones who established the Star Pavilion in the Sea of constellations.”

Su Yu’s eyes flickered when he heard this.

“The reason we came here is because we were ordered by the sect to look for a corpse,” Huangfu Lieyang stated his purpose.

He actually had a sect? What kind of sect had the qualifications to accommodate a double-crowned emperor?

At the very least, the Emperor Yu dynasty did not have the qualifications to do so.

He looked at Su Yu and said, "We already have a lead on that corpse. Many years ago, we notified the sect and asked them to send someone over. However, for some reason, after hundreds of years, nothing has happened. No one from the sect has come."

Su Yu was surprised. "Then why didn't you send someone back to the sect to investigate?"

A bitter smile appeared on Huangfu Lieyang's face. "I did send someone, but they still fell into the sea!"

Then there was a problem!

"So?" Su Yu had already guessed what Huangfu Lieyang was going to say.

Huangfu Lieyang took out a nameplate that contained yin and yang energy.

"What pure yin and Yang Energy!" Su Yu was secretly amazed. The fact that the two energies could be maintained in an undispersed state showed that they were in an extremely delicate balance.

At least, Su Yu thought that it was impossible for him to reach this level.

"Therefore, I hope that you can go to the five-star civilization on my behalf, the Taiji sect! "Firstly, you can report the situation here for me. Secondly, you can hold my identity token in your hand. When you meet my martial uncle, he will understand what I mean and accept you into the Taiji sect!"

Five-star civilization! ! Su Yu's heart pounded!

Such a powerful civilization was far superior to the Emperor Yu dynasty's civilization!

However, Su Yu still had doubts in his heart. was he suitable for the Taiji sect's inheritance?

As if he had seen through his thoughts, Huangfu Lieyang smiled faintly and said, "Moreover, I feel that you and our Taiji sect are very fated."

"What do you mean?" Su Yu touched his nose. He couldn't see that there was any fated relationship between him and the Taiji sect.

Huangfu Lieyang smiled and squeezed with one hand. A ball of yin and yang qi gathered in his palm and turned into a pair of black and white wings.

Su Yu was stunned. Then, the Yin and yang Qi in his body appeared out of his control and revealed the true form of the Taiji yin and yang wings.

"Taiji yin and Yang Wings!" What was more vital was that Huangfu Lieyang said the name of the item. "It is indeed eldest senior brother's relic. I found it familiar the first time I saw you. No wonder!"

Su Yu was stunned.

"This pair of Yin-yang wings is a true emperor-level weapon of the Taiji sect. My uncle-master took the emperor's divine bone and forged it himself. There are three sets in total. The owners of the other two sets are still in the sect. Only one pair has disappeared into the void with its owner."

“He is my eldest senior brother, Emperor Taiqing. I am very curious about where you got this pair of Taiji Yin-yang wings.”

Su Yu clicked his tongue. The emperor of Taiqing was Huangfu Lieyang’s junior brother?

Chapter 1766 Rain Of The Great Dao

However, when he first discovered that Huangfu Lieyang was proficient in yin and yang qi, Su Yu had thought about it. Although he was shocked, it was not unacceptable.

“It was in a secret space. I tried my best to escape.” Su Yu did not reveal Taotie.

Huangfu Lieyang’s eyes flashed with joy. He asked anxiously, “How is he now?”

Su Yu’s eyes darkened. He pointed at the Taiji Yin Yang wings and said, “If senior Taiqing is still alive, he will not allow a junior like me to get his divine weapon.”

Sigh!

With a light sigh, the light in Huangfu Lieyang’s eyes dimmed. He said in reminiscence, “If he is still alive, his cultivation level should be far above mine. Unfortunately, he suddenly disappeared in the vast void during an experiential learning back then.”

Was he swallowed by Taotie? Su Yu thought to himself. This also explained the origin of the Emperor of Taiqing.

After thinking for a while, Su Yu took off the Taiji Yin-yang wings. “Since this item belongs to your sect, I’ll return it to your sect.”

He was a little reluctant to part with it. This item had saved his life many times.

Although the enemies he met became more and more powerful and the effect was not as good as before, it was still barely usable.

“There’s no need. Since you obtained it, it’s fated with you. Our Taiji sect is particular about the word fated. We don’t force things.” Huangfu Lieyang pushed him back and asked, “How many levels of control techniques have you mastered?”

Su Yu’s heart skipped a beat. “I obtained a control technique from the descendants of the Emperor of Taiqing. It can travel a billion miles with a single thought.”

“It’s an intermediate level,” Huangfu Lieyang said. “The descendants of the emperor of Taiqing can only master an intermediate level at most because the advanced level lies in the Taiji Yin-yang wings itself.”

Ah? Su Yu was greatly surprised.

There was an even more advanced control technique hidden within the Yin-yang wings?

How could he not know about it after so many years?

“Activating the advanced chapter requires martial uncle’s personal ‘dark willow heart technique’. Unfortunately, I happened to have practiced it before, so I can

give it a try.”Huangfu Lieyang closed his eyes slightly and chanted a mysterious incantation.

A magical scene appeared. The Yin-yang Qi on the Taiji Yin-yang wings actually separated on its own, revealing a palm-sized gap.

A jade-like skeleton was placed inside.

“The god’s skeleton of the Emperor of Heaven and earth?”Su Yu was surprised.

Huangfu Lieyang opened his eyes and smiled happily. “It’s still there.”

He grabbed the skeleton with his hand that was covered in yin and yang qi.

Small words could be clearly seen on the skeleton.

“Hehe, take it.”Huangfu Lieyang smiled and handed it to Su Yu. “You have the foundation of the middle section. You can comprehend this advanced section after one glance.”

Su Yu tried it on the spot. Sure enough, his comprehension was surprisingly smooth.

He formed a seal with his palms and recited an obscure incantation. The Taiji Yin-yang wings on his back suddenly expanded by ten times!

An unprecedented surge of yin-yang qi burst out.

If Huangfu Lieyang had not used a divine spell to isolate the nearby area, the entire city would have been alarmed.

“How do you feel?”Huangfu Lieyang asked with a smile.

Su Yu’s eyes were filled with joy. “It seems like I can transform into the void immediately!”

“Hehe, transforming into the Void isn’t that much, but I can still do it with a thought of ten billion miles. Even I might not be able to catch up to you.”Huangfu Lieyang smiled.

Su Yu’s eyes were filled with surprise. So Powerful? Wouldn’t it mean that he could do whatever he wanted in the great yu imperial court and not be afraid of anyone?

He reminded him again, “However, it’s best not to use it unless it’s absolutely necessary. With your cultivation as a mystic crystal overlord, using it for ten breaths is enough to drain all of your divine power.”

‘So Serious?’Su Yu was stunned and remembered it deeply.

After pondering for a while, Huangfu Lieyang said, “Then, what do you think?”

Su Yu was still hesitating.

After a pause, Huangfu Lieyang said, “The Taiji sect is full of geniuses and countless experts. Do you know what my status is in the Taiji sect?”

A double-crowned emperor was an extremely powerful existence no matter where he was, right?

“He’s only a core disciple. He’s not even a high-ranking official.”

Hiss --

Su Yu sucked in a breath of cold air!

The double-crowned king was only a disciple?

Then what was the cultivation level of the martial uncle he spoke of? And what was the cultivation level of the sect master of the Taiji sect?

Seeing that Su Yu still hadn’t made up his mind, Huangfu Lieyang didn’t urge him. He said gently, “You should think about it again. It’s not too late to answer in a few days.”

In a few days? He was afraid that he would have to leave today.

Although he didn’t sense any danger, it was indeed time for Su Yu to leave.

The evil daughter’s aura that the little qilin had reminded him of was still a hidden danger.

Presumably, the Pear King’s corpse had been lurking for a few days and hadn’t found Su Yu. It was likely that he had given up on leaving.

“I might not join the Taiji sect, but if it’s on the way, I can go to the Taiji sect on behalf of the chief pavilion master to see what’s going on,” Su Yu suggested a compromise.

Huangfu Lieyang didn’t try to persuade him further. He sighed and said, “Alright, I’ll respect your decision. Take my identity token. In case you need it one day.”

Su Yu nodded and accepted the token.

“Are you ready to leave?” Huangfu Lieyang had a premonition.

Su Yu nodded. “Yes. My two friends might have left the sea of constellations civilization. I want to find them.”

Huangfu Lieyang said, “Then I wish you good luck. However, don’t you want to meet your friends from the Star Pavilion before you leave? Mu Canghai and Yan Changhong both want to meet you. As for that child, Xue Guanyin, she has always been concerned about your situation.”

“In the end, we still have to say goodbye. Why add to the sadness?” Having gone through so many departures, Su Yu had already become indifferent.

Huangfu Lieyang urged him to stay. “The former is fine, but the latter. Once you leave, I’m afraid you will become her regret.”

Su Yu smiled, but still shook his head, “If we are fated, we will meet again.”

Watching Su Yu leave, Huangfu Lieyang sighed softly, “It’s been hard on that child, Xue Guanyin.”

Corpse race.

Zhu Ji was interrogating Beiwang Zhu with great interest.

Seeing Su Yu come in, she smiled and greeted him, "Hehe, husband, this little girl is not ordinary. Not only is she deeply loved by Beixin's conferred King, she is also the future imperial consort of the Eastern Royal Family!"

Su Yu was surprised. He did not expect Beiwang Zhu to have another identity.

"Oh, then let's stay in the barbarian civilization. With him as a hostage and the cultivation of the chief pavilion master, I believe the Emperor dynasty of Yu the great will not dare to act recklessly."

Zhu Ji smiled mysteriously, "I think it's better to bring her back to the Emperor dynasty of Yu the Great."

"Why?" Su Yu asked, "Wouldn't it be walking into a trap if we brought her back?"

Zhu Ji smiled, "I heard from her that something big is about to happen in the Emperor dynasty of Great Yu."

"How Big?" Su Yu asked.

"A four-star civilization. The Dark Star Civilization will send an emissary to personally attend!"

Su Yu was slightly curious. A four-star civilization specially sent an emissary? That would definitely be a big event.

"Because the Emperor dynasty of Great Yu is about to upgrade to a three-star civilization. The Dark Star Civilization sent an emissary to congratulate them."

Su Yu was immediately shocked. "A three-star civilization? Could it be that someone has broken through the shackles?"

A two-and-a-half-star civilization would not upgrade to a three-star civilization for no reason. There must have been a drastic change.

The only possibility was that a super emperor had been born, raising the strength of the entire civilization.

"Husband is indeed smart!" Zhu Ji's eyes were filled with love. "He is the emperor of the Emperor dynasty of Great Yu. Dongfang Xia has finally broken through to the three-crowned Emperor!"

Three-crowned... Emperor? Su Yu's pupils contracted. He had long heard that the Great Yu imperial court had an expert who had touched the three-crowned emperor.

He really did not expect to break through so quickly!

"What does that have to do with us?" Su Yu frowned.

Zhu Ji, however, said in surprise, "Does husband not know that when a civilization advances in level, Dao rain will descend from the Daoist Huang Hall? 'Any drop contains the Great Dao of

Heaven and earth. If you can absorb one drop, you can save many years of forging and directly give birth to the Great Dao laws in the inner mansion!”

“Only when a civilization upgrades to level 3 and above will dao rain come from the Daoist Huang Hall. Such an opportunity can not be seen for hundreds of thousands of years. It is a great opportunity that can only be encountered by luck!”

“Husband is now a mystic Crystal Overlord. It is time to make preparations for breaking through to the Emperor Realm.”

Su Yu was moved by the news. He understood that forging laws in the inner mansion would take at least several decades, at most several tens of thousands of years. Even if one died of old age, they would not succeed.

Such an opportunity was indeed hard to find.

He believed that the nearby overlord-level experts would all rush over to participate.

“This is also why the four-star civilization would send an envoy to visit. Their goal is also that Dao Rain. I guess they will bring the overlords of dark star to help them break through to the Heavenly Emperor Realm.”

Su Yu understood. He looked at Bei Wangzhu and asked, “Then why bring her?”

Zhu Ji chuckled. “How precious is Dao Rain? How can anyone participate? Without a referral, it was impossible to enter the scope of Dao Rain’s grace. This person is the princess of the northern letter fief and the future Imperial Consort. With her referral, you will have a chance to enter Dao Rain’s grace.”

So that was the case. Thinking about it, if Dao Rain’s grace could be obtained by anyone, then wouldn’t the Emperor dynasty of Great Yu be filled with emperors overnight?

“You don’t have to worry about this little girl not listening. I have plenty of ways to make her drunk to death and obediently listen to us.” Zhu Ji gave a strange smile.

Su Yu was surprised and could not help but look at Bei Wangzhu. She noticed that although her eyes were closed, her long eyelashes were trembling.

Her face was flushed and her nostrils opened and closed. Her breathing was rapid.

Her pair of slender legs were tightly clamped together.

Su Yu immediately understood and could not help but frown. “Using such a method to control people, isn’t it too...”

“Too dirty?” Zhu Ji didn’t think much of it, “I’m the Evil Corpse King, without using any means to torture her to the point of wanting to die, I’ve already done my utmost, not to mention letting her sleep with her lover in her dream, it’s simply letting her off easy!”

Su Yu was speechless.

Zhu Ji's eyes sparkled, smiling, "Do you want to know who her dream lover is?"

"I'm not interested!" Su Yu said unhappily.

Zhu Ji chuckled, "You'll never guess it. The Man of her dreams isn't someone else. It's her second brother, bei Wangchen!"

Uh!

This was unexpected. Wouldn't it be against the rules of the universe for her sister to fall in love with her brother?

"So, you don't have to worry. After she becomes addicted, she'll beg me to help her enter the dream realm." Zhu Ji was very confident in her divine arts.

Su Yu hesitated for a moment before saying, "This will never happen again!"

After a pause, Su Yu said, "Then, make some preparations. We are about to leave the sea of constellations."

"Hehe, the corpse race members are ready at any moment. All we need is your consent." She had chosen to stick with Su Yu and would never leave him.

Su Yu looked at her deeply and revealed a grateful expression.

"Then, prepare to set off!"

But right at this moment, Zhu Ji suddenly raised her head and looked out into the sky. Her cheeky expression quickly turned grave.

The Eight Corpse Kings also appeared one after another. They stared out into the sky, their expressions unusually grave.

"What's going on?" The many sovereigns of the living beings alliance, including Huangfu Lieyang, all appeared at the same time.

All of them had solemn expressions on their faces as they stared out into the sky.

It was as if they could sense a terrifying existence approaching the sea of constellations.

Su Yu was slightly stunned. He couldn't sense anything, but there was an inexplicable pressure, and it was getting stronger and stronger!

Chapter 1767 One Breath, Three Clarifications

"Is it a crisis aimed at me?" Su Yu's eyes narrowed.

However, the thread of fate did not fluctuate at all!

Based on experience, once a crisis came, the thread of fate would fluctuate without exception.

"Strange!" Su Yu was full of doubts. "If there is no crisis, then where did this pressure come from?"

After pondering for a moment, Su Yu said decisively, "Let's Go!"

After years of caution, he quickly made a decision.

Zhu Ji also sensed that something was wrong, so she left with Su Yu.

Boom --

A loud boom shook the entire sea of constellations civilization.

An endless black shadow quickly covered the sky above the sea of constellations, causing the humming star sea to sink into a dark, lightless darkness.

“Who is it?” Huangfu Lieyang’s expression was unusually grave. With a loud shout, the Majestic Emperor of Heaven and Earth shot into the Nine Heavens, transforming into a dazzling sun wheel that illuminated the gigantic object that enveloped the sky above the sea of constellations with incomparable clarity.

When they saw the object in the sky clearly, all the living beings were astonished!

It was a black meteorite that was so enormous that it was immeasurable.

It was like a lid of a pot, directly sealing the entire sea of constellations from top to bottom. No one was allowed to leave.

“The two crowned emperors? What a surprise.” A voice as clear as a oriole’s, yet hollow and cold, drifted down.

Two graceful women with purple divine light veiled their faces descended from the meteor together.

Behind them were more than twenty graceful women with yellow light veiled their faces.

They wore capes, and their long hair fluttered in the wind. Their figures were peerless, giving off a strange sense of mystery.

However, at this moment, the corpse kings and the sovereigns of the universe weren’t in the least bit interested in admiring this group of beauties.

“All of them are sovereigns?” The Pavilion Head felt his heart skip a beat.

It was especially so for the two women of purple light who were the first to bear the brunt. They gave off a suffocating feeling.

She had only experienced that feeling from the head pavilion head.

The head pavilion head’s expression was extremely grave. “Why are you all visiting the Sea of constellations civilization?”

The two violet-haired women turned a deaf ear to his words. Their eyes swept around like torches, as if they were searching for something.

The violet-haired woman on the left suddenly sensed something and fixed her gaze on Su Yu.

The azure-haired woman flicked her sleeves, took out an exquisite booklet, and pointed it at Su Yu.

Then, she calmly said, “We have found the target. capture him immediately.”

Swish, Swish, Swish --

More than twenty sovereigns of heaven and earth gathered behind her, surrounding Su Yu and the corpse race.

The people of the Life Spirit Alliance were extremely puzzled. More than twenty emperors of Heaven and earth, and even two double-crowned emperors. Such a huge lineup was actually for Su Yu! !

“Stop!”Huangfu Lieyang rolled up his sleeve, and the yin and yang Qi turned into tai chi, protecting the corpse race in the center. He narrowed his eyes and said, “Who are you? Are you sent by Emperor Yu of the Great Yu Dynasty?”

The only one who could support such a lineup was Su Yu of the Great Yu dynasty.

However, this was the first time Huangfu Lieyang heard that Emperor Yu of the Great Yu dynasty had such a beautiful female emperor at such a young age.

“Emperor Yu of the Great Yu dynasty? Who is that?”The purple-light woman on the left said hollowly. She stretched out her slender white index finger and lightly tapped on the Tai Chi diagram.

In an instant, the Taiji Yin-yang diagram shattered.

Huangfu Lieyang frowned. If the other party insisted on doing things her way, she could only use her fists to speak!

“I advise you not to interfere with us. You Can’t meddle in the matters of the vile-daughter palace,”the purple light woman on the left said indifferently.

Vile-daughter Palace? Everyone present frowned.

They had never heard of the so-called vile-daughter palace.

Who knew that Huangfu Lieyang’s pupils constricted and he sucked in a breath of cold air. “Vile-daughter Palace?”

The woman with purple light expressionlessly said, “It seems that you know what the vile-daughter palace is. Then, move aside.”

With light steps, the woman with purple light bypassed Huangfu Lieyang and walked towards Su Yu.

“Come back with us.”The woman with purple light grabbed at the air.

Instantly, Su Yu felt that all his limbs and bones were frozen, and his soul was also invisibly imprisoned, unable to leave his body

No matter how many Divine Arts Su Yu had, he was unable to use any of them in the hands of the purple light woman.

“Who dares to touch my husband!”Zhu Ji’s expression sank. She was not afraid that the other party was a double-crowned king. She bit the tip of her tongue and spat out a mouthful of corpse clan’s tainted blood.

With a sizzling sound, the tainted blood corroded away the invisible lock.

Su Yu’s surroundings relaxed a moment ago.

The purple light woman's expression was calm. She grabbed at the air once again and restrained Su Yu and Zhu Ji at the same time.

This time, Zhu Ji didn't even have the strength to fight back and was restrained, just like Su Yu just now.

"Take them away." After easily subduing the two, the purple light woman said indifferently.

A group of red-robed heaven and Earth emperors surrounded them.

At this moment, Huangfu Lie's light flashed and he suddenly attacked.

"Great Light Technique!" A powerful divine art instantly lit up the bodies of the women from the Evil Woman Palace.

The Purple Light Woman's divine art was interrupted.

"Let's Go!" Huangfu Lieyang shouted.

At this critical moment, he chose to fight against the Evil Woman Palace to save Su Yu's life.

Su Yu was shocked and moved. His emotions were extremely complicated.

Why was Huangfu Lieyang willing to sacrifice himself to help Su Yu?

"Don't hesitate anymore! Let's go. If there's a chance to pass by the Taiji sect, tell uncle-master that I, Huangfu Lieyang, am the most loyal disciple of the Taiji sect!"

As soon as she finished her sentence, the purple-haired woman turned her head and said in a hollow voice, "If you make an enemy of the evil Lady Palace, you will die."

Swoosh --

The purple light woman was like a dream. She was still talking about the last lesson, but in the next moment, she had already swung out a chain of laws.

With such speed, the crown prince could not even react in time.

Only Huangfu Lieyang reacted almost at the moment she made her move and used the chain of laws to counterattack.

Ding --

The sound from the void shook everyone's souls.

The purple light woman said, "Yin Yang Path... Yes, you are a disciple of the Taiji sect. Not Bad, but you forgot that you are only one person."

Chi La --

Another law chain hit Huangfu Lieyang's back silently.

Boom --

Huangfu Lieyang was caught off guard and was hit by the chain. He was immediately attacked by the law, and his body was overflowing with five-colored qi.

“The Chief Pavilion Master’s Primal Energy is draining away! The chains represent the path of punishment!”The Lady Pavilion Master said anxiously.

One against two, and it was still against the rumored Evil Woman Hall members. Huangfu Lieyang was unable to do it alone.

“Why aren’t you guys leaving yet?”Huangfu Lieyang noticed from the corner of his eye that Su Yu and Zhuji hadn’t left yet.

Su Yu took out the Royal Longzun sword and said sternly, “They came because of me. There’s no reason for you to bear it on my behalf!”

Zhuji stood by Su Yu’s side with determination in her eyes.

Huangfu Lieyang didn’t know whether he should be happy that he didn’t misjudge them or angry that they didn’t know the big picture.

Suddenly, Huangfu Lieyang thought of something and his eyes flashed, “If you really want to help, give me the King Cauldron!”

Beixin King Cauldron? Su Yu looked at Zhuji.

“Head pavilion master, Catch It!”Zhuji didn’t show any reluctance and threw the king cauldron over.

Huangfu Lieyang grabbed the small cauldron and immediately swiped with his large hand, drawing out a large amount of the nation’s fate. He had almost taken 90% of the nation’s fate from the small cauldron!

Holding the massive nation’s fate that was ten times the size of the sea of constellations civilization, Huangfu Lieyang formed an incomparably profound seal with both hands and shouted, “One qi into three pure ones!”

A shocking scene appeared!

With Huangfu Lieyang’s left and right sides as the center, they each formed a complete Huangfu Lieyang!

Including himself, there were a total of three Huangfu Lieyang!

Regardless of their cultivation level or aura, they were all exactly the same!

“I’ll send you out!”Huangfu Lieyang’s original body soared into the sky. He grabbed Su Yu and Zhu Ji with both hands and shouted at the same time, “All the sovereigns of the universe and the corpse kings of the Sea of constellations civilization, come with me.”

The two purple-clothed women pretended to catch up, but were stopped by Huangfu Lieyang’s two clones.

The strength of the clones was exactly the same as the real body, and they actually suppressed the two purple-clothed women.

How could the eight corpse kings and the sovereigns of heaven and earth dare to hesitate? They followed closely behind Huangfu Lieyang and rushed out.

Under the leadership of Huangfu Lieyang, the pressure brought by the huge meteorite was broken through, opening up a path of escape for the people behind them.

In just three breaths, they arrived at the boundary between the meteorite and the Sea of constellations.

“Boundless Heaven and earth, yin-yang Slash!”Huangfu Lieyang struck with all his might, shattering the edge of the Sea of constellations, revealing a large gap.

“Charge!”

The group charged forward and soon arrived at the gap.

Huangfu Lieyang took the lead and was the first to cross the gap. He was about to lead Su Yu and the others to escape.

“I didn’t expect that other than those old freaks, the Tai Chi sect also had people who could cultivate the three pure ones in one breath. Your talent is so high that you can be considered top-notch in the Tai Chi sect, right?”An indifferent voice of praise floated over from the meteorite above his head.

Huangfu Lieyang looked up and saw a red-cloaked woman with golden light covering her face standing at the edge of the huge meteorite.

Huangfu Lieyang’s heart trembled when he saw this. “The three crowned emperors! !”

“All of you can stay!”The golden-light woman said indifferently.

She didn’t make any movements, but the scene around everyone changed at the same time!

When they reappeared, they appeared in Gu Xing and the place where they encountered the evil female palace members! !

The two purple-robed women were still fighting with Huangfu Lieyang’s phantom, and they were evenly matched.

After the golden-robed woman arrived, she looked at the two phantoms indifferently. With two flicks of her slender fingers, the powerful Huangfu Lieyang Phantom dissipated at the same time!

The purple-robed woman broke free and bowed respectfully, “We are useless. Please punish us, Young Hall Master.”

The golden-robed woman said, “I don’t blame you. The Taiji sect’s one Qi to three pure ones is an ancient divine art that even the evil women praise. It’s normal that you can’t defeat it.”

After saying that, she glanced at the emperors of heaven and earth that she had brought back and said, “Purple robe, purple crown, give each of them a holy pill!”

The purple robe and the purple crown were two purple-robed women. They took out jade bottles without hesitation, which contained the moon-white pills.

Huangfu Lieyang's eyes were filled with fear. "According to the legends, the Holy Pill can turn a man into a woman and keep him under the control of the Evil Women Palace Forever?"

What? The female emperors present were still fine, but the male emperors' faces turned green.

Zi Yi took out a holy pill and stood in front of the Woman Pavilion Master. She said indifferently, "Open your mouth!"

The Woman Pavilion Master rolled her eyes and cupped her fists. "If you want Su Yu, you can take him away. It has nothing to do with us."

She had an unforgivable stubbornness toward Su Yu.

The golden lady raised her eyes and glanced at her.

In the next moment, the woman pavilion master shot out golden rays of light from the inside out.

Then, with a cracking sound, it was as if the wood inside had been burned into countless pieces.

Connecting her soul and flesh, the Woman Pavilion Master was burned to death on the spot.

Moreover, the woman pavilion master did not even have a reaction.

"I don't like to bargain. Do As I say or Die," the Golden Lady said indifferently.

The emperors swallowed hard. Facing the sacred pill handed over by the purple-haired woman and the purple-haired woman, they had no choice but to swallow it.

Immediately, after swallowing the sacred pill, they changed!

The woman was fine, but she felt a little pain. It was probably due to the discomfort caused by being controlled.

However, the men, including Huangfu Lieyang, who were clearly men, all had the characteristics of women!

Not only did the lines of their bodies change, even the characteristics of men quickly disappeared!

Huangfu Lieyang was originally a handsome young master, but in the end, he became a handsome, fair, and beautiful twenty women!

The Snow Dragon Emperor was the same, he actually turned into a slender and graceful little girl!

That unbelievable scene really shocked Su Yu's eyeballs.

However, the changes of the male corpse clan were very small, they still retained the characteristics of men.

"Reporting to the young palace master, the Corpse Race's attributes have restrained the holy attribute of the Holy Pill, and its medicinal effects have been greatly reduced," purple robe reported.

The golden light woman said indifferently, "Then we'll first imprison the corpse race."

As for living beings, no one had ever heard of anyone who had eaten the holy pill being able to escape their control.

“Yes!”Purple Robe accepted the order.

Purple Crown looked at the remaining living beings of the living beings alliance and said, “Young Palace Master, how do we deal with them?”

Without thinking, the golden lady said, “Soul Search. Filter out any useful information.”

“Yes!”Zi Guan led a group of sovereigns of the world and performed a soul search on the living beings present.

With the sovereigns of the world under their control, they had no room to resist. All of them obediently listened to the arrangements and accepted the soul search.

The golden lady finally turned her gaze to Su Yu and said leisurely, “Count it up. This is the second time I’ve come to the ancient star of the sea of constellations to look for you.”

The second time? Su Yu’s heart trembled. When was the first time?

“It must be very strange, right? Why is your fate perception ineffective this time?”The golden lady walked up to Su Yu and said calmly.

Perception..

Su Yu suddenly recalled that when he was crossing the sky that day, he had sensed that there was a crisis at the exit, so he had temporarily left through the other exits to avoid a calamity.

Could it be that time?

“In order to block out this troublesome ability of yours, I specially made a trip to the Daoist Huang Hall and asked for the Dao Seal!”

No wonder when the crisis came, Su Yu’s premonition of Fate did not have any warning. So that was how it was!

“It was the vile daughter who ordered you to capture me, right?”Su Yu’s expression did not change. “Trapped in the cage of Taotie and still not settling down, HMPH!”

The golden light on the woman’s face suddenly fluctuated, and her calm tone rippled. “What? The evil daughter is in the Cage of Taotie?”

Su Yu crossed his arms in front of his chest and stared at her coldly, not saying a word.

“Speak! where is the Cage of Taotie?”The golden light woman was somewhat agitated.

The evil daughter Palace had lost the evil daughter for billions of years, and finding the evil daughter was the dream of every member.

Su Yu sneered. “Give me a reason to tell you! Don’t threaten me with death. If you dare to be strong against me forever, or if you search my soul, I will erase this memory immediately. You will never know where the cage is!”

The golden lady stared at Su Yu, deep in thought.

Huangfu Lieyang, who was standing beside her, narrowed his eyes. Strange colors filled the depths of his pupils.

Chapter 1768 The Immortal Boy

The woman in Golden Light's face flickered, and Su Yu was sucked thirty feet away from her.

Even though he was isolated from the golden light, Su Yu could feel a pair of cold eyes staring at him without blinking.

"I don't like bargaining!" The woman in Golden Light's tone returned to calmness.

The Woman's fate was a warning.

"Who are his good friends?" The woman in Golden Light didn't reply.

The yellow light woman, who was searching the soul, immediately identified a group of people based on the information.

The efficiency of a group of Heaven and Earth Emperors was astonishing.

In just a few breaths, a group of creatures were pulled out from the crowd.

Mu Canghai, Yan Changhong, and Xue Guanyin were among them!

"From left to right, kill them one by one until he speaks!" The golden light woman ordered indifferently.

Mu Canghai, who was on the left, smiled bitterly. "Since he's someone who died once, so be it."

As soon as he finished speaking, a head was thrown into the air, and hot blood splattered everywhere.

Su Yu remained calm. wasn't it just one death? At worst, he could save him again.

Next was Yan Changhong, who also died at that moment.

Only Xue Guanyin was left. Su Yu remained silent, as if he had no intention of saying anything.

"Continue," the Golden Lady ordered.

Xue Guanyin smiled miserably. "I didn't expect you to say goodbye to brother Su Yu like this. I Don't blame you."

As soon as she finished speaking, she was mercilessly killed by the Golden Lady.

The three of them were Su Yu's three closest friends in the Sea of constellations. Who would have thought that they would all be killed in an instant.

As the person involved, Su Yu's expression was tense, but he remained silent.

The golden lady stared at Su Yu for a long time before saying, "Your heart is even harder than a boulder!"

After a long pause, the golden lady said, "Make an exception this time. Tell me your bargaining chip. Remember, you only have one chance."

She still chose to compromise.

Compared to saving the vile daughter, any bargaining chip was worth it.

Su Yu grinned just now. "Let everyone go, including me!"

The golden lady shook her head. Obviously, she refused Su Yu's request. Moreover, as she said, Su Yu had lost the chance to continue the negotiation.

"Lock him up and order the saint slaves to guard him!"The golden lady turned around and said coldly.

The nine corpse kings were locked up, and the five life emperors became the "Saint slaves."How could Su Yu Act Rashly?

A few evil maiden palace emperors stepped forward and imprisoned Su Yu's divine power, bringing it back to the meteorite.

The meteorite didn't leave immediately. Instead, it remained in the sky above the Sea of constellations, waiting for the soul search below to end.

Clang --

Su Yu was imprisoned in the meteorite rock prison.

The rock prison itself wasn't sturdy. What was sturdy were the saintesses waiting outside.

In other words, the emperors who had swallowed the Saint Pill and turned into women.

"Ai, Su Yu, it's not that we don't want to save you, but once we have this thought, the Little Hall master will immediately detect it."A pavilion master said helplessly with a feminine and awkward voice.

Su Yu looked over. The middle-aged pavilion master who was supposed to be mature and resolute had now turned into a half-aged lady who still retained her charm.

Compared to his previous appearance, Su Yu could not help but laugh.

"The evil Lady Palace hates men very much!"Su Yu understood something.

Presumably, those emperors of the evil Lady Palace with peerless figures were most likely also transformed from men.

Thinking about how they were all once strong men, Su Yu felt a chill run down his spine.

The pavilion master's face alternated between green and red. He avoided Su Yu's gaze and said, "In short, I'm afraid I Can't Help You Anymore!"

Even if he was willing to sacrifice himself and risk being executed by the evil Lady Palace, he would still be the first to alert the little palace master whose strength was unfathomable.

Su Yu said seriously, "What are you saying? The Evil Lady Palace is here for me. I've implicated all the seniors. I should be the one feeling guilty."

Waving his hand, the pavilion master sighed and closed his eyes as he sat cross-legged outside.

“Pavilion Master Liu Lan, you stay here and guard. I will be back soon.” Snow Dragon Emperor had also transformed into a middle-aged woman. He was petite and had the domineering aura of a man on his face.

The pavilion master said in shock, “Aren’t you afraid that the little palace master will find out that you have left without permission?”

“HMPH! I have only left for a short while.” Snow Dragon Emperor snorted and swung his ponytail. He had the aura of a young lady, causing Su Yu and the pavilion master to be stunned.

Wasn’t it a little too fast for snow dragon emperor to adapt to his female identity?

Da Da --

As the light footsteps of Snow Dragon Emperor faded away, Su Yu also fell into deep thought.

He had never fallen into a situation where he was imprisoned. How could he escape?

After thinking about it, countless strategies flashed through his mind, but none of them were feasible.

All the emperors were controlled by the Little Hall master, and their lives depended on her. Even if there were any small movements, the Little Hall master would be the first to notice them.

To break through the encirclement and escape the meteorite, it was not an ordinary difficulty.

“In the face of absolute strength, all schemes and schemes are just empty lies!” Su Yu deeply agreed with this truth.

The only fortunate thing was that they wanted to find the whereabouts of the evil daughter, so they did not dare to do anything to Su Yu for the time being.

But, that was all.

While thinking, the Snow Dragon Emperor bounced back.

She waved her hand and said mysteriously, “Pavilion Master, come here. I have something to say to you.”

Pavilion master was slightly startled. What words could not be said in person? There was no one else besides Su Yu.

“Come here quickly!” Snow Dragon Emperor stomped his feet and said coquettishly.

With such a posture, Su Yu, who was watching from the side, could not help but have goosebumps all over his body and was extremely disgusted.

The pavilion master rolled his eyes and walked over helplessly. “What’s the matter?”

Unexpectedly, just as he stepped within thirty feet of the Snow Dragon Emperor, countless black corpse qi suddenly rose around him and enveloped his entire body.

The pavilion master was startled and subconsciously made a move to destroy the corpse qi.

“Don’t move. This can block that woman’s senses!”The Snow Dragon Emperor shouted in a low voice.

The Pavilion Master had stopped in time and looked around at the corpse qi. He was shocked, “How can you have corpse qi?”

Snow Dragon Emperor curled his lips, “You should ask me, why am I not afraid of the little palace master finding out that I swallowed the Holy Pill?”

That’s right!

She must have alerted the Golden Light Lady.

With the golden light lady’s cultivation, she could arrive here with a thought.

Why didn’t she notice it?

With a mysterious look, the Snow Dragon Emperor opened his mouth and spat out a pill that was tightly wrapped in corpse qi.

That was the holy pill that the Snow Dragon Emperor had swallowed. It was suppressed by the corpse qi and couldn’t melt into his body.

The pavilion master turned pale and said, “You, you weren’t transformed? Then your body...”

Staring at Emperor Snow Dragon’s petite and adorable body, the pavilion master was in disbelief.

“HMPH, so this is my true body? What’s so strange about it?”Emperor Snow Dragon Snickered, his entire body surging with an incomparably dense corpse qi.

This level of dense corpse qi could only be achieved by the corpse king.

“You Are...”the pavilion master was extremely shocked. “You are the Corpse King?”

The third emperor of the Sea of constellations, the ruler of the northern snow sea, was actually a corpse king of the corpse race! !

What was even more shocking was that after so many years, no one, including the pavilion master, had been able to detect her true identity!

This sudden turn of events caused Su Yu to be stunned on the spot.

However, he quickly came to a realization. “Could you be one of the three corpse kings from thirty thousand years ago, the Undying Boy?”

Back then, when ancient star first descended into the sea of constellations, three powerful corpse kings appeared and almost destroyed the entire sea of constellations.

One of them was the emperor corpse!

The second was the Zhuji Corpse King!

The third was the mysterious and unfathomable undying boy who was skilled in disguising himself!

The most terrifying one was the undying boy. No one could see through his disguising technique, allowing him to disguise himself as anyone he wanted and easily assassinate the enemy commander-in-chief in an army of ten thousand.

However, for thirty thousand years, no one knew where the undying boy was. Even the corpse kings had no idea where he was.

Su Yu truly didn't expect that he would actually hide in the living beings alliance. Furthermore, he had a high status and was one of the three great local emperors of the Sea of constellations!

"Hehe, you don't seem to be the least bit surprised, do you?" The Snow Dragon Emperor looked over and said with a faint smile.

Su Yu indeed didn't find it strange.

"When I was using your yin-yang hot spring, I should have thought that there was something wrong with your identity."

When Su Yu changed his identity from Xue Yu, he borrowed the yin-yang hot spring.

When he used it, there was a large amount of primal energy left in it. Now that he thought about it, it should have been left in the hot spring by the Snow Dragon Emperor when he was maintaining his disguise.

Of course, Empress Zi Wei had also warned Su Yu to be careful of the Snow Dragon Emperor.

As the disciple of the Snow Dragon Emperor for many years, Empress Zi Wei had never understood her master in the slightest. She was like a dense fog that could not be seen through.

If one were to make a bold guess, it would not be difficult to guess that the Snow Dragon Emperor was the immortal boy.

The Snow Dragon Emperor's small arms crossed in front of his chest, dragging his steamed bun-sized chest. He smiled and said, "It's not for no reason that Zhu Ji likes you! Smart!"

"That's right!" "I'm the immortal boy that you said. Thirty thousand years ago, I pretended to be snow dragon emperor to sneak into your living beings alliance. My original intention was, of course, to be a spy for the corpse clan and stab you at the critical moment." Snow Dragon Emperor did not hide anything.

"Unfortunately, things did not go as I wished. I did not have any use until now."

After listening to her explanation, the pavilion master was stunned for a long time before he recovered. "Then, what about the real Snow Dragon Emperor?"

It was rumored that the Snow Dragon Emperor had gone from being a downtrodden overlord to experiencing the ancient dream altar and advancing by leaps and bounds overnight, becoming the Emperor of Heaven and earth.

How many living beings had been inspired by this legend to cultivate diligently?

The Snow Dragon Emperor, or should he be called the Undying Boy, curled his small lips. "He? He died tragically in the ancient dream altar's trial a long time ago. Otherwise, do you think that the Emperor of Heaven and earth could be born so easily?"

The truth was so cruel.

There was no legend of a sovereign of the night.

The Pavilion Master was dumbstruck, after a long while, he sighed in relief. "No wonder. We've studied it carefully. Although the ancient dream altar is rich in resources, it's not enough to support the birth of a sovereign of the world. So, you're just pretending to be him."

In this way, everything made sense.

The undying boy dared to walk around casually. He wasn't afraid that the Little Hall master would find out.

As a corpse, he was born to restrain the Holy Pill.

What was even more amazing was that the undying boy was originally a woman. He took off his disguise and returned to the Woman's honor, deceiving the Purple Robe who fed him the holy pill.

"Alright, let's talk outside." The undying boy crushed the chains in the cage and let Su Yu out.

The Immortal Boy grabbed Su Yu's hand and carefully escaped.

Chapter 1769 Petrifying The Great Dao

"That pavilion master..." Su Yu said.

The Undying Boy didn't even turn his head back. He shook his head helplessly. "They've swallowed the Holy Pill and are under that woman's control at any time. I Can't save them unless one day, I can surpass the little hall master's cultivation."

Perhaps the difficulty of becoming a three-crowned emperor was something that one could never achieve in their entire life.

"The only ones I can save are the corpse race," the Undying Boy said.

Only the corpse race could resist the effects of the Holy Pill and not be controlled by the Young Hall Master.

Su Yu couldn't bear it.

"Haha..." The Pavilion Master raised his head and laughed. "We are under the control of others. Even if we escape, it's useless. But Su Yu, you are different. You haven't consumed the holy pill before. You still have a future!"

He bowed to the undying boy. "Thank you for your trouble, Undying Corpse King. Please take good care of Su Yu. He is the only hope of the Sea of constellations."

As a prodigy of Gaia in the Sea of constellations, he had great expectations for Su Yu.

Su Yu's nose twitched.

"Su Yu, take care of yourself. Don't let down the pavilion master's expectations of you."

After saying this, the pavilion master slapped his chest.

Su Yu didn't stop him and allowed him to heavily injure himself. He trembled as he fell to the ground.

This was to beguile the evil Lady Palace and make them think that Su Yu had been rescued.

"I'll Come Back Again!" Su Yu clenched his fists and followed the Undying Boy to the prison.

As they walked, the Undying Boy took out a bottle of spiritual liquid that was filled with yin and yang qi. It was a yin-yang hot spring.

It was just the core hot spring. If one touched it recklessly, it would easily affect the yin and yang in one's body.

She opened her mouth and swallowed the whole bottle.

Then, her entire body underwent a tremendous change.

Her bones were lengthening, her facial features were changing rapidly, and her figure was undergoing subtle and delicate changes.

In the blink of an eye, she had become a completely different person.

"Little Hall Master?" Su Yu was surprised. Her appearance and aura were exactly the same.

If she hadn't seen it with her own eyes, Su Yu wouldn't have suspected that she was the real little hall master.

At this moment, two cloaked emperors were patrolling the prison.

Seeing the two of them, they were stunned for a moment before bowing to the ground. "Greetings, Little Hall Master."

"En." The undying boy even imitated the charm of his voice. It was empty, indifferent, and emotionless.

She didn't even bother to explain as she left with Su Yuyang.

The two emperors didn't even dare to ask. Only after they left did they slowly get up and continue their patrol.

They encountered several groups of emperors along the way, and they even met the saint slaves that had just been ordered.

But without exception, none of them doubted them.

Just like that, they arrived at the edge of the meteorite without any danger.

There was a small meteorite that had been prepared for a long time. It was hidden in a secret place.

Apparently, she had specially arranged it when she went out for a short while.

The Immortal Boy jumped up with Su Yu and took a deep breath. "It depends on now whether they can escape. Their huge meteorite should use an extremely advanced method to control the meteorite, but it's hard to say how advanced it is."

Every meteor was branded with the myriad races' manipulation techniques by the Daoist Huang Hall.

If one was proficient in the language of a particular race, they would be able to use any one of them.

"I'm using the third-rate race, the Thunder Hawk Race's manipulation technique. If we're more advanced than them, it'll be much easier for us to escape."

If not, they would die immediately!

This was a gamble, but they had no choice but to gamble!

"Think carefully. They won't kill you for the time being if you stay. But if you escape and get caught, with that Little Hall Master's way of doing things, you will be doomed." The undying boy stared at Su Yu. "Think carefully. Once this meteorite starts to operate, it will definitely alarm that Little Hall Master!"

She left the opportunity to make a decision to Su Yu.

If they were to make the slightest mistake, they would die a horrible death.

"Of course, we have to escape!" As always, Su Yu would not give up any chance to survive.

The Undying Boy took a step forward and activated the array. "Alright, let's Gamble! I hope my control is better than theirs!"

However, Su Yu was one step ahead of him and stood on the array. "However, I will be the one controlling the meteorite."

The undying boy was shocked. "Get out of the way! If you're any slower, we'll both die!"

She never expected Su Yu to act so recklessly at such a critical moment!

The moment the meteorite moved, it immediately alerted the Little Hall master!

She broke out in cold sweat and immediately went forward to stop Su Yu.

Unfortunately, Su Yu had already activated it.

With a buzzing sound, the meteorite began to rotate.

It was over!

The Undying Boy's head sank, and he felt like dying.

Chi --

Almost at the same time the meteorite was activated, a woman with a golden face almost teleported over.

She briefly scanned the situation on the small meteorite, and without saying a word, she grabbed at it from across space.

Su Yu and the Undying Boy were both trapped, and their bodies and souls were unable to move.

“I’m dead because of you!”The undying boy asked the heavens speechlessly.

However, at the next moment, the meteorite under his feet flew out like lightning!

That speed and agility made the undying boy dumbstruck.

When he reacted, they were billions of miles away from the big meteorite. The suppression power of the Little Hall master was weakened.

“The lightning lightning technique of the upper third-class race?”The undying boy recognized the name of the control technique quickly. His eyes were filled with fear.

Although the absolute beginning world had the common absolute beginning language, each race had their own language of inheritance.

The language of inheritance was never taught to outsiders. The higher the race, the more it was like this.

The language of the heavenly wings race, a upper third-rate race, was actually controlled by a small overlord. How could she not be surprised?

The Little Hall Master was caught off guard and caught nothing.

“As expected of the person whom the hall master wanted to capture by name. The Sky Wings race has always kept their language in their hands.”The young hall master’s calm tone was filled with ripples.

However, it was just a small ripple.

She turned around and returned to the center of the meteorite and immediately activated the meteorite.

Boom Boom Boom --

The booming sounds that suppressed the sky were deafening. The entire world was filled with echoes.

The seemingly huge meteorite was instantly sent flying with a boom.

Its speed was no less than a small meteorite!

The undying boy sensed the huge movement behind him and turned his head. He was almost scared to death. “How can such a huge meteorite be so fast?”

If he was the one controlling the small meteorite, he would have been caught in an instant.

Luckily, Su Yu had mastered such a high-level control method!

She looked at Su Yu with deep curiosity.

What kind of man was this?

Couldn’t he pull away? Su Yu formed a hand seal with both hands, and a pair of enormous yin-yang wings flickered behind her back.

With a flap, the little meteorite under her feet flew ten billion miles away in an instant!

The huge meteorite behind her had disappeared without a trace.

The undying boy was shocked again. “What a powerful Yin-yang escape technique. I’m afraid even the double-crowned emperor might not be able to catch up to you!”

The amazing thing was that it was able to bring the little meteorite along with it.

Although the Little Hall master was strong, no matter how strong she was, could it be that she was able to teleport the entire meteorite over?

Su Yu was secretly amazed. As expected of the advanced chapter of the Taiji Yin-yang wings. It was indeed powerful and extraordinary.

However, just as Huangfu Lieyang had said, the consumption of divine power was unprecedented.

With just a single use, Su Yu’s divine power was depleted by 10% !

Glancing behind him, he could no longer see the huge meteorite, but Su Yu could still sense the feeling of being locked on from afar.

Without thinking, Su Yu teleported five times in a row, crossing the distance of 50 billion mountains and rivers.

The feeling of being locked on was much weaker, but it still existed!

With such a long distance and weak perception, the other party might not be able to catch up.

But facing the triple crown prince, how could Su Yu Dare to be careless?

The seventh time she flapped, it was another ten billion mountains and rivers.

Su Yu’s divine power had already dropped to thirty percent!

But that faintly discernible lock still existed. Su Yu did not hesitate and used the Taiji Yin-yang wings for the eighth time.

Only at this moment did the lock finally disappear.

The undying boy’s perception was even sharper. He said, “The triple crown prince is indeed terrifying. Despite being so far away, he can still leave a trace of lock.”

What else? Her perception was stronger than Su Yu’s!

Gritting his teeth, Su Yu activated the Taiji Yin-yang wings for the ninth time.

“What else?” Su Yu’s face was pale, and his forehead was full of sweat. His entire body was sore and weak, and he could collapse to the ground at any moment.

Only 10% of his divine power was left, and it was only enough for him to maintain his basic movements. He no longer had any combat power.

“The target has completely disappeared.” The undying boy let out a sigh of relief. He looked like he had survived a disaster. “I never dreamed that we would be able to escape from the pursuit of the Three Crowns!”

She still felt as if she was in a dream, having an illusion that wasn't real.

Xiu --

However, right at this moment, an obscure gray pillar of light pierced through the incomparably long distance of nothingness, aimed precisely at Su Yu, and shot out in an instant.

The gray pillar of light came quickly and abruptly. When the undying boy discovered it, the gray pillar of light had already pierced through Su Yu's chest!

Boom --

In just an instant, an incomparably large hole appeared in Su Yu's chest.

Balls of gray flames spread from his chest to all directions of Su Yu's body, turning everything in their path into stone.

"Not good! It's a law filled with the great dao of Petrification! We have to stop it, or else you'll be completely petrified!" The undying boy's expression changed drastically. "Quick, get your soul out of your body. There's no other choice!"

No one had expected that the little hall master would still be able to unleash such powerful damage from such a far distance.

Su Yu gritted his teeth and once again, his soul left his body. Could it be that he was going to take over his body again and start cultivating from scratch?

Shua --

Su Yu took out the silver fruit and attempted to absorb the enormous and extraordinary petrification law.

The effect was indeed there, but it was abnormally slow and could not be absorbed immediately. The remaining petrification law was still slowly seeping into the rest of his body.

He had to focus on absorbing it immediately, or it would really be dangerous!

However, he still had to control the meteorite. Once he stopped, the Little Hall master would catch up to him again!

"There's a civilization there!" The undying boy also understood Su Yu's situation. He looked up and suddenly found a dust-filled civilization floating in the void.

Su Yu did not hesitate at all? He immediately controlled the meteorite to descend on the dust-covered civilization.

Boom --

The meteorite fell on the civilization, creating a loud noise that shocked the entire civilization.

Countless experts rushed over when they heard the news.

The undying boy sensed it and heaved a sigh of relief. "Fortunately, this is also a barbaric civilization. There aren't many emperors of Heaven and Earth."

She was worried about what was behind her!

Although she had escaped the lock, the Little Hall master would soon discover the existence of the dust sand civilization if she followed this route!

At that time, there would really be no escape.

Chapter 1770 Encountering An Old Friend

After Su Yu landed, he immediately drew out his remaining divine power to block the petrification law that was spreading to his limbs and bones.

However, the divine power in his entire body surged and flowed through his meridians, fusing into his bones, and using all his strength to block it.

Only in this way could the petrification trend be alleviated and slowly recovered.

“He needs at least six hours!”The undying boy deduced.

After a moment of silence, he opened his mouth and spat out a round bead filled with corpse qi.

This was his portable space. When he opened his mouth, a series of nine demonic shadows filled with corpse qi appeared.

It was the Nine Corpse Kings!

It turned out that the immortal boy not only planned the escape route, but also took the time to save the imprisoned corpse kings.

“Husband, what happened to your injuries?”After Zhu Ji appeared, she immediately noticed that something was wrong with Su Yu and pounced over with concern.

The undying boy said solemnly, “I was hit by the Little Hall master’s petrification law, but it’s not a problem. What’s in the way is that the Little Hall master lost his patience and wanted to kill him.”

Looking at the empty space behind him, the Undying Boy’s eyes were heavy. “With the speed of that huge meteorite, I’m afraid it won’t be able to catch up to Su Yu before he recovers.”

Zhu Ji’s gaze turned sharp. “Then what are we waiting for? Aren’t you proficient in middle-tier and third-tier control methods? Hurry up and leave!”

Lightly shaking his head, the immortal boy said, “The vile-daughter palace is proficient in the most top-tier control techniques. We won’t be able to walk for more than two hours before we are chased back. Only his control techniques can be compared to ours.”

The Corpse Kings’expressions changed at the same time.

Could it be that they were waiting for death here?

“All of you, leave.”Su Yu, who had his eyes tightly shut, spoke with great difficulty, his expression filled with pain.

The Corpse Kings hesitated.

Su Yu gritted his teeth and shouted, “The vile daughter came for me. All of you are just collateral damage. If she had captured me, she wouldn’t have gone out of her way to capture you!”

“We’ll stay! We Can’t abandon our companions in times of danger.”

Su Yu shook his head. “What’s the point of you staying aside from sacrificing yourselves for nothing?”

The emperor of the Sea of constellations had joined forces with them, but the young hall master had easily subdued them, let alone them?

It could be imagined that with the young hall master’s personality, he would definitely not leave the corpse kings behind. He would definitely go on a killing spree and wipe out all ten of them.

There was really no need for them to continue staying.

“But we...”the corpse kings couldn’t bear it.

Zhu Ji said, “You can leave. He’s right. There won’t be any results even if you stay.”

Without receiving a response, Zhu Ji added, “If you still acknowledge me as your king, then listen to my orders.”

“What About You?”The corpse king asked.

Zhu Ji lowered her head and gazed at Su Yu with her eyes closed, her eyes were filled with happiness. “Ever since our corpse king came back to life, we have been muddle-headed. We only know how to constantly choose fire seeds to resolve our desire for revenge. We don’t know what the meaning of being reborn is.”

Many Corpse Kings felt the same, and confusion appeared in their eyes.

They had thought about this question before. Why did they come back to life? Was it just to quell their desire for revenge?

To them, life had no direction or light. They could only follow their instincts and muddle along until the end of their lives.

“I have been searching for the meaning of going on.”Zhu Ji leaned on Su Yu’s shoulder and let out a calm smile that shocked time and space. “I think I have found it.”

“So what if he told me about the heavens? The world can be abandoned too. I knew why I was alive.”

“I was alive because I was like a thin vine, growing with him, flourishing, flourishing, declining, withering, withering, and falling into the dust.”

“Even though his heart was straight to heaven, even though he wouldn’t look down at me, I was willing, and I had no regrets, to accompany him through prosperity and the final curtain.”

His words were like snow, scattered in the deepest part of the audience’s hearts.

A crystal clear tear fell from the corner of the Immortal Boy’s eyes. She knew that Zhuji had chosen the end.

With the man she loved, with the home she had found in her life, they were buried together in this moment of time.

Silent Sorrow filled her heart.

She didn't know whether she should envy Zhuji for finding the meaning of life, or mourn the passing of her compatriots.

"All of you go. The flowers will bloom and fall in an orderly manner. I have only chosen the most beautiful ending." Zhuji closed her eyes lightly, like a withered flower on Su Yu's shoulder, revealing a desolate and cold beauty.

Staring at this scene, the Ten Corpse Kings moved silently, their eyes filled with sorrow.

This farewell would be forever.

No one knew if there would be a next life.

Even if there was, could they meet again?

But no matter what, Zhuji had found her home, and even if she died, she would have no regrets..

Su Yu slowly opened his eyes and looked into Zhuji's eyes. He said softly, "Open your eyes and look into mine."

Zhu Ji slowly opened her eyes. What entered her eyes was a pair of silver-gray enlarged pupils.

In an instant, two balls of dazzling silver-gray pierced into her eyes. Her mind was in extreme pain.

Then, her head sank and her eyes fell into darkness.

The undying boy was startled. He turned around and saw that Zhu Ji was already unconscious in Su Yu's arms.

A silver-gray Firebird flew out of Zhu Ji's head and entered Su Yu's eyes.

"I'll leave it to you." Su Yu picked her up and sent her to the meteorite.

"You should understand her feelings. If you die, it's meaningless for her to live on," the Undying Boy said.

Su Yu shook his head. "That's exactly why I can't let her die with me. I'm not worth it for her to do this."

His heart had never been on Zhuji, so how could he bear that heavy heart?

The Immortal Boy was silent for a moment, then he nodded slowly. "Okay, I can take her away, but I can't guarantee that she will seek death when she wakes up."

"Thank you!" Su Yu cupped his fists.

The Immortal Boy looked at him deeply and said, "You are indeed a good man. Zhu Ji didn't misjudge you!"

"Then, Goodbye Forever." The immortal boy turned around and left quickly on the meteorite.

It turned into a dot of light and disappeared into the void.

Seeing them leave, Su Yu, who had slightly stabilized his injuries, immediately left.

The huge commotion caused by the meteorite had already attracted a lot of attention, especially the sensitive emperor. He believed that he was already on his way.

After a few simple turns, Su Yu concealed his aura and jumped into an area filled with mountains.

It was called a mountain, but there was no dense vegetation. There was only sand that could not be seen.

In such an environment, not to mention that ordinary creatures could not survive, cultivators rarely came here. After all, there were no spiritual objects in the world.

After traveling for an hour and crossing half of the civilization, they finally discovered an oasis that was as green as jade in the desert ahead.

There were many experts in the oasis, but the highest one was only a Xuan Crystal Overlord.

After traveling for an hour, Su Yu had to stop and focus on recovering from his injuries.

He took out the Shura Sword and swept it on the spot, creating a sand pit in the dust.

Su Yu immediately jumped into it and continued to absorb the petrification law.

Soon, a strong wind blew and completely buried Su Yu.

After the time it takes for an incense stick to burn.

Several figures of cultivators rushed over and spread out in all directions to search.

“Strange, I clearly sensed the aura of the mystic Crystal Overlord, why did it suddenly disappear?” A bearded man with a full face looked around.

“Senior guest, could it be a passing senior?” A slightly familiar voice floated over.

The bearded man was displeased. “Humph! Are you saying that my perception is wrong?”

“No, no, I don’t mean that. It’s just that it’s an important moment for the sky orchid mansion to forge the Divine Moon treasured pill. The most important thing is to defend against the invasion of the sky orchid mansion. It’s best not to leave the sky orchid mansion for too long,” the latter said carefully, he was afraid of offending the person in front of him.

The bearded man snorted. “Do I need you to say that? Since there’s no one, then let’s go back.”

Just as the bearded man was about to leave, a trace of petrification law leaked out.

Even though su Yu managed to control it in time, he was still discovered.

“Who is there?” As the bearded man retreated, he took out his weapon to defend himself.

Since he was discovered, Su Yu decided not to hide anymore. With a shake of his body, he shook off the surrounding dust and sand, revealing his true body.

“Who are you? Why are you hiding in the Sky Orchid Mansion?” Lothar Hu was afraid that Su Yu was also a mystic Crystal Overlord, so he did not act rashly just now.

The Sky Orchid Mansion seemed a little familiar!

“Ah! You Are... benefactor?” A chubby man with a full beard exclaimed.

Su Yu looked up and saw a dignified-looking young man staring at him in astonishment.

“Is it really you? Benefactor?” The young man walked forward in disbelief. He felt like he was dreaming.

Benefactor? Su Yu looked at this person carefully and found that he really looked familiar.

“I am Tian Jian! My younger sister, Tian Rulan, and our guest, Li Changqing. We once received benefactor’s help at the ancient dream altar,” the young man said excitedly.

Only then did Su Yu finally remember them.

In the central altar of the ancient dream altar, they met three participants.

In the end, Su Yu gave them a section of the Golden Flame Forbidden Tree and sent them away from the altar.

He truly didn’t expect that the three of them weren’t cultivators from the Sea of constellations. Instead, they were creatures from the dust civilization that weren’t too far away.

“You remember now? That’s great! If my younger sister finds out, she’ll definitely be happy!” Tian Jian walked forward and said in a friendly and joyful manner.

The bearded man frowned. “You guys know each other?”

“We don’t just know each other. Our benefactor is our Skyorchid Manor’s great benefactor. It’s precisely because of him that we...” Tian Jian realized that he couldn’t reveal that Su Yu possessed the golden flame forbidden tree, he promptly shut his mouth. “In short, our benefactor is our Skyorchid Manor’s Savior!”

Su Yu said, “This is serious.”

Tian Jian said enthusiastically, “Benefactor, why did you come to the dust sand civilization? My younger sister and I were planning to go to the sea of constellations civilization to look for our benefactor after we finished dealing with the affairs of the Skyorchid Manor to repay you.”

“It was just an accident. The meteor fell on the dust sand civilization,” Su Yu said vaguely.

Tian jian laughed, "Could it be the will of heaven? It just happened to fall near the Sky Orchid Mansion? If that's the case, I would like to invite benefactor over for a chat."

Su Yu thought about his current situation. He indeed needed a safe place to immediately recover from his injuries.

Therefore, he did not decline and agreed, "Then thank you, Brother Tian."

The bearded man put away his weapon and stared at the two's backs. He frowned deeply.

The oasis was actually quite big. It was about the size of the entire North Sea Snow region.

The region's strength was complicated. There were seven or eight factions of different sizes.

The overall strength was almost the same. The sky orchid mansion was slightly higher than them.

But it was only slightly. Ever since the old mansion master had gone on an expedition and died, he had lost his strongest pillar of support. He was immediately coveted by the other factions.
