

Nine-Dragon 1781

Chapter 1781 Phantom Moon Emperor

After the shock, the devilish girl's killing intent flickered. "That's good too. If I hand you over to the Great Yu imperial court, I might be able to offset my past sins and be removed from the wanted list."

Just as she quickly walked forward and was about to subdue the other party...

A cold snort sounded.

"You know too much." An indifferent voice echoed in the dense forest.

The Devil Girl was shocked. She felt a powerful and extraordinary pressure. It was the pressure of an emperor or an extremely powerful emperor.

Shua --

As if sensing something, the Devil Girl turned her head and was shocked to find that a white-haired youth had appeared in front of the girl who was a half-step emperor.

"You disappoint me too much." The white-haired youth looked down at the girl and said indifferently, "I sent you to infiltrate Dao Rain, but you couldn't even deal with a mere half-step emperor. Instead, you were ambushed by her."

The young girl's face was deathly pale. "Corpse Emperor, please spare my life. This subordinate is incompetent."

The white-haired youth was none other than the white-haired corpse emperor who had escaped from Su Yu's hands! !

He had actually appeared in Emperor Yu's dynasty.

"Forget it. Dao Rain is just around the corner. I don't have the time to change anyone else." The corpse emperor frowned.

The young girl felt as if she had been granted amnesty. "Many thanks, Corpse Emperor! Many thanks, Corpse Emperor!"

Nodding, the corpse emperor turned his head to look at the demonic girl and said indifferently, "Looks like I'll have to borrow your head for a while."

The demonic girl cursed inwardly and turned around to run.

But before she could take three steps, the head flew away, leaving behind a headless body that ran for several thousand feet before finally falling down.

The demonic girl's head flew back to the corpse emperor's hand. Her eyes were wide open with shock and disbelief before she died.

She still didn't understand how she died.

Throwing the head to the girl, the white-furred corpse emperor glanced at the other seven warriors and said indifferently, "Get rid of it."

“Yes!” Someone answered him.

Then, the dark forest was filled with miserable screams.

Su Yu clenched his willow-leaf eyebrows, seeing everything clearly. He was so surprised.

No wonder he had sensed the murderous look. It was this corpse girl. She must have recognized Su Yu.

Fortunately, he was vigilant and didn’t rush forward. Otherwise, it would be troublesome if he met the white-furred corpse emperor.

After waiting for them to leave, Su Yu quietly appeared.

“The Devil Girl Is Gone. It seems that we can only look for the illusionary moon Langjun.” Su Yu felt somewhat helpless.

The problem of the illusionary moon Langjun was far more troublesome than the Devil Girl.

Forcefully breaking into the Imperial Palace, abducting three concubines, and then calmly leaving after being intercepted by several emperors of heaven and earth, was really not easy to deal with.

But there was only one way.

The last time Fantasy Moon Langjun appeared was at the most flourishing brothel in the imperial city.

Su Yu didn’t choose to come here because a large part of the reason was that it was impossible for fantasy moon Langjun to stay in such a crowded place for a long time.

So, he came here with a dispensable attitude to investigate.

Ignoring the solicitation of the madam and the gorgeous dancer, Su Yu directly entered the room where Fantasy Moon Langjun appeared.

The News said that fantasy moon Langjun was buying sex in this room.

“He should have left a long time ago, right?” Su Yu thought as he casually scanned the room with his clairvoyant eyes.

Surprisingly, there were two people inside.

One of them had peach blossom eyes and a jade-like face. He was abnormally handsome. He was the famous wanted criminal, Fantasy Moon Langjun.

Sitting opposite him was a jade-faced young master with red lips and white teeth. He was also very handsome.

The two of them chatted happily as if they were old friends.

Fantasy Moon Langjun smiled and said, “It’s my fortune to be able to get to know brother Dongfang. Come, let’s drink.”

The jade-faced young master smiled and raised his head to drink. However, his right hand that was placed on his thigh silently slid down a pink short sword. When Fantasy Moon Langjun raised his head to drink, he suddenly thrust it out.

Su Yu saw it clearly from the side.

Opposite him, the fantasy moon Langjun seemed to be drinking, but in reality, his lips were on the edge of the wine cup. He did not drink a single drop.

The corner of his mouth was no different from the Devil's maiden!

It was a trap!

As expected, the criminals who usually hid their secrets suddenly appeared. They all had a purpose.

The Fantasy Moon Langjun was not afraid of being exposed. Staying on the ground for three days was undoubtedly a trap.

Seeing that jade-faced young master had fallen into the trap, Su Yu was worried that he would do something bad, so he immediately used yin and yang Qi to teleport into the house.

The moment he stabbed out with his small sword, he was pushed against the wall.

The sudden change was something neither of them expected.

Fantasy Moon Langjun did not move at all. He put down his wine glass and his eyes were slightly sharp. "Who are you?"

Before Su Yu could respond, he heard an angry scolding. "How dare you!"

He looked closely and saw that Su Yu had pressed his chest against the wall while his right leg was pressed against his crotch to prevent him from attacking subconsciously.

Su Yu said, "Don't fall for it. It's a trap."

As he spoke, he put him down.

Unexpectedly, the jade-faced young master's face turned red. He rubbed his chest and said unkindly, "Who are you?"

"I'm the same as you. I'm the one who killed him." Just to be safe, before entering the brothel, Su Yu changed his appearance with one leaf.

Jade-faced young master's anger gradually subsided. "You said it was a trap. Do you have evidence?"

Su Yu shook his head. "No, but the trap should be on him."

His clairvoyance swept over and Su Yu could clearly see that fantasy moon Langjun's body was covered in a layer of powder that was invisible to the naked eye.

Anyone who approached it would definitely be contaminated.

That powder was definitely not something good.

“Hehe, it seems that after staying here for a long time, smart people can already tell that it’s a trap.” Fantasy Moon Langjun smiled faintly. “Then, have you ever thought about why I’m Still Here?”

Needless to say, it was because those who came looking for trouble were all dead.

His gaze was sharp, as if he could see through people’s hearts. He stared at Su Yu and said, “It seems that you know. Since you know, then this Langjun won’t keep you.”

Whoosh --

His body trembled, and the three-inch-long powder around him immediately covered the entire room.

An evil aura immediately appeared.

At the same time, the scene around Su Yu immediately distorted, making him unable to distinguish between reality and illusion.

“You know that I’m proficient in illusions, yet you still dare to barge into a small space. It’s flattering to say that you’re smart.” Fantasy Moon Langjun laughed as he stood up.

Su Yu was at a loss. He was completely unable to locate fantasy moon Langjun’s true location.

This was the reason why he was able to escape from the hands of the three emperors of Heaven and earth.

Beside him, jade-faced young master was almost the same. His body swayed as he fell onto Su Yu’s body.

“You can die, but this beauty disguised as a man, you have to let me have my fun before I can let her go.” Fantasy Moon Langjun Laughed Evilily. He hooked his finger and pulled jade-faced young master away.

Just as he was about to grab her waist, something strange happened.

Jade-faced young master, who was originally in a daze, suddenly gave a strange smile.

When fantasy moon Langjun sensed that something was wrong, it was already too late.

Two clear lights shot out from jade-faced young master’s eyes. This fan fell from his sleeve and after it was opened, several shadows flew out, instantly entangling fantasy moon Langjun.

The powder that filled the entire area lost control and immediately fell into oblivion. Su Yu’s vision returned to clarity.

Jade-faced young master gently waved his folding fan and stood in front of fantasy moon Langjun who was restrained.

Su Yu was slightly surprised that jade-faced young master was not affected by the powder.

“If it wasn’t for you meddling in other people’s business, he would have been subdued by me long ago.” Jade-faced young master glared at Su Yu unhappily. Thinking of Su Yu’s friendliness, he was still angry.

Su Yu was a little speechless.

Actually, he wasn’t affected by the powder either. He was just putting on an act to make fantasy moon prince relax his vigilance.

Who would have thought that jade-faced young master also had a trick up his sleeve.

He caught fantasy moon prince, and Su Yu even lost his last target.

“Could it be that the mission is destined to fail?” Su Yu was helpless. There were only seven days left, where could he find the top 100 sinners?

All of a sudden, Su Yu felt that something was wrong.

The falling powder suddenly moved again.

“Be careful, quickly leave Fantasy Moon Playboy!” Su Yu said subconsciously. At the same time, he flashed over and threw jade-faced young master to the ground.

Almost at the same time, the floating powder rapidly gathered into an invisible long sword and pierced the spot where jade-faced young master had stood just now.

The shadowless longsword spun and fell into a palm.

The illusory moon Prince, who was supposed to be restrained, didn’t seem to be in trouble. Instead, he mocked, “Hehe, interesting. This is the first time you’ve forced me to this extent.”

Chi La --

The shadow that was surrounding him was easily pushed away by him.

Jade-faced young master was shocked. “How is this possible? Even a half-step emperor can’t break free. How did you...”

He didn’t continue, because the surface of fantasy moon Langjun’s body naturally revealed pure primal energy!

Emperor of Heaven and earth!

Back then, Fantasy Moon Langjun who was a half-step emperor was already an emperor of Heaven and earth! !

No wonder he dared to show up unscrupulously in the brothel and wasn’t afraid of being chased by an emperor. So that was the case!

Su Yu’s eyes darkened as he secretly activated the Taiji Yin-yang wings.

“What do you think I should do with you? I really can’t bear to kill you.” Fantasy Moon Langjun grinned, his snow-white teeth looked particularly sinister. “Why

don't I cripple your cultivation and make you my slaves forever? Just like the three beautiful princesses that I kidnapped back then."

"Don't even think about it!" The jade-faced young master's face was red. He was pressed to the ground by Su Yu and was panting deeply.

Fantasy Moon Langjun laughed evilly, "That's not up to you. Follow me and don't let me make a move!"

In front of an emperor, no matter how strong an overlord was, they wouldn't be able to resist.

Even if it was a half-step emperor, it was the same.

Life and death were all in the hands of an emperor.

Jade-faced young master gritted his teeth as if a great disaster was about to befall him. His gaze was extremely solemn.

On the other hand, Su Yu smiled faintly, "That might not be the case."

HMM? Fantasy Moon Langjun frowned slightly. "What dense yin-yang energy... not good, this is the Yin-yang escape art!"

He shouted anxiously and slashed his sword towards Su Yu.

However, Su Yu grabbed jade-faced young master and instantly teleported away.

In the next moment, they appeared ten billion miles away! !

"Not bad escape speed!" But just as they landed, Fantasy Moon Langjun's light laughter was transmitted from the horizon.

Su Yu's pupils constricted. How was that possible?

He had activated the advanced Taiji Yin-yang wings chapter. Even the Emperor of Heaven and earth with two crowns might not be able to catch up to Su Yu.

How could fantasy moon Langjun catch up so easily?

That was not right! He did not teleport ten billion miles away.

Su Yu keenly sensed that there was powder left around him.

It was the powder that had affected Su Yu's judgment of the direction.

His teleportation had gone in a circle and he had only teleported a billion distances.

Chapter 1782 Burning The Langjun

He originally wanted to leave, but now it seemed that he might not be able to escape easily.

Looking at the lingering powder around him, Su Yu thought to himself.

He could only give it his all!

With his trump card and the little qilin, he could barely stand in an undefeatable position.

Moreover, this place was far from the imperial city and there were few people. He was not afraid of being exposed.

“Have you hugged enough?”The jade-faced young master’s angry scolding sounded in his ears. His arms trembled, and his soft body left Su Yu’s embrace.

Su Yu clearly heard fantasy moon Langjun’s words.

The seemingly handsome jade-faced young master was actually a beautiful and exquisite woman.

However, he really didn’t have the time to admire the woman’s true appearance.

“Leave as soon as possible. This place isn’t suitable for you to stay for long.”Su Yu stared at the pressuring aura that was rapidly approaching in front of him.

Fantasy Moon Langjun’s strength was far greater than the emperor of the dust civilization.

He didn’t have much confidence.

One less burden meant one less burden.

“Hehe, you really underestimated me.”The jade-faced young master proudly raised his snow-white neck like a proud peacock.

Taking out a statue, the jade-faced young master held it with both hands and chanted an obscure incantation.

Su Yu’s heart skipped a beat. The language of the Blood Crystal Clan?

Based on what Su Yu knew, the closest blood crystal clansmen should be the eastern royal family of Emperor Yu Dynasty, right?

The blood patterns on the surface of the statue floated and left the statue, imprinting on the surface of the jade-faced young master’s body.

All of a sudden, Su Yu was shocked to discover that the jade-faced young master’s aura was extremely terrifying.

“Emperor?”Su Yu was shocked.

What kind of secret technique was this that could allow a half-step emperor to transform into an emperor of heaven and Earth in one breath?

Clang!

At the same time, jade-faced young master shook off a small silver-white sword with both hands, refracting a faint fluorescent light.

“A high-grade true emperor rank weapon?”Su Yu was once again surprised.

The grade of the two small silver-white swords wasn’t much lower than the asura sword.

The most valuable thing was that the materials of the small swords were the divine wood that could ward off evil, the wood of primordial sacred light.

Although it wasn’t as precious as the Golden Flame Forbidden Wood, it wasn’t something that an ordinary emperor could obtain.

The path that fantasy moon Langjun cultivated was an evil path, and the two small swords had a significant restraining effect.

“You’ll be on the side.” Jade face young master’s confidence increased.

Su Yu was so happy that he stood at the edge with the asura sword in hand.

“Hahaha... beauty, wait for me. Could it be that you can’t bear to part with me?” Fantasy Moon Langjun teased lightly.

Before the person arrived, the sound arrived first!

Although this place was far away from the imperial city, there were many passers-by.

A group of overlords happened to pass by this area.

Hearing this, the leader of the caravan, a blind old man with turbid eyes, opened his ears and said with a solemn expression, “An emperor’s voice transmission! An emperor wants to fight. Stop the carriage and rush over to watch the battle.”

Emperors rarely fought each other. It could be said that it was rare to see one in ten thousand years.

If one was lucky enough to witness it, one would be able to see traces of the law from their battle. It had an unexpected use for the peak overlords to temper their laws.

Fantasy Moon Langjun stepped on the moonlight, and his handsome face looked extremely demonic under the moonlight.

With a swoosh, he floated down and said with a smile, “The woman I, Fantasy Moon Langjun, want will never escape.”

The caravan happened to arrive nearby.

“Hiss!” The blind old man sucked in a cold breath. “The world-famous Fantasy Moon Langjun? Ten thousand years ago, he barged into the Imperial Palace alone and kidnapped three concubines. He ignored the three emperors’ interception and left with a loud laugh. Such a figure actually reappeared in the world!”

“Rumor has it that he came from the holy ruins civilization. He was originally groomed to be the cauldron for the ascension of the sect master of the Joyous Union Holy Ruins. Who knew that he was so talented that he absorbed all the Yin essence of the female sect master who was about to ascend the throne. Then, he went on a killing spree and escaped from the holy ruins civilization.” The python-robed middle-aged man next to him had a serious look on his face

“Until now, Fantasy Moon Langjun is still a taboo in the holy ruins that can not be mentioned!” Another person who knew about it slowly let out a breath of turbid air.

“I don’t know which Emperor is so bold, but one-faced fantasy moon Langjun!” They sized up jade-faced young master curiously and held a negative attitude toward him.

Changkong.

Jade-faced young master blinked his cold eyes. "That depends on whether you have the ability!"

"Righteous Energy Sword Song!" Jade-faced young master held his sword with both hands.

Two sword shadows stabbed out from the two swords. The Sword Shadows split into four, four into eight, and eight into sixteen.

A total of sixteen sword shadows that seemed both real and illusory, refracted holy and pure silver light, and slashed out in unison.

Numerous laws wrapped around the sword shadows, appearing and disappearing from time to time.

Fantasy Moon Langjun chuckled and stood in place, not retreating at all.

When the sword shadows reached a thousand feet in front of him, he then waved his hands, wiping out the sixteen sword shadows, which were the hidden laws.

Jade-faced young master was unwilling, so he gritted his teeth and continued.

Fantasy Moon Langjun only defended and did not attack, casually neutralizing the seemingly powerful sword shadows.

Su Yu watched coldly from the side and shook his head slightly.

They were both emperors, but the gap between them was too big. Jade-faced young master's evil suppression sword technique could not hurt Fantasy Moon Langjun's foundation.

As expected, ten moves would see who was stronger.

Sure enough, after nine moves, two blurry shadows shot out from Fantasy Moon Langjun's eyes, and the destruction sword shadows were imprinted on jade-faced young master's chest.

Jade-faced young master hurriedly resisted, but who knew that the light shadows were full of law encirclement, and instantly sent the two swords in jade-faced young master's hands flying, sending jade-faced young master flying.

With a whooshing sound, jade-faced young master was covered in blood and fell in a pool of blood.

The difference in strength between the two sides was too great!

"Hiss! As expected of Fantasy Moon Langjun. They are both emperors of Heaven and earth, but they easily defeated the enemy like playing with a mouse."

The blind old man shook his head regretfully. "Sigh, another good girl is going to be ruined by Fantasy Moon Langjun. This battle ends here. Let's leave."

"Isn't there another silver-haired youth?" The middle-aged man in the python robe glanced at Su Yu.

The blind old man didn't even turn his head. "The overlord of the Mystic Crystal isn't enough for fantasy moon Langjun to stuff between her teeth."

After defeating jade-faced young master, Fantasy Moon Langjun flashed in front of her and hugged her waist.

Swish --

At this moment, a sword light attacked.

Fantasy Moon Langjun didn't even look at it and casually waved it away.

However, the moment it stopped, red light surged around jade-faced young master, and his body was swallowed by the power of space.

"Space Divine Art?" Fantasy Moon Langjun raised his eyes in surprise and stared at Su Yu. He was holding the jade-faced young master in his arms.

With a slightly gloomy face, fantasy moon Langjun narrowed his eyes and said, "This is the second time you've ruined my good deed. Tell me, how do you plan to die?"

Putting down the jade-faced young master, Su Yu chuckled, "I'm afraid you won't be able to see how I die."

With that, he withdrew the Shura Sword in his hand and replaced it with a small, strange dragon-shaped sword.

With Su Yu's current cultivation, he could wield the Royal Longzun sword with no pressure at all.

With a sweep of the sword, there was no light in the world.

Time seemed to have frozen in the entire world, leaving only an invisible, majestic dragon that crushed the sky.

Fantasy Moon Langjun's expression changed, and he stared at the divine sword in disbelief.

His figure retreated rapidly, his hands quickly conjured a large amount of moonlight and condensed to ten thousand feet in front of his chest.

Looking from afar, it looked like a bright moon.

Roar --

The roar of the Dragon from the soul level shook Fantasy Moon Langjun's soul so much that it hurt. In a trance, he seemed to see a fierce true dragon smashing the bright moon.

Boom Boom Boom --

Fantasy Moon Langjun staggered back, his eyes full of shock.

"It's still too early to be shocked," Su Yu said indifferently.

'Eh?'' Fantasy Moon Langjun immediately became alert, but a cloud of pink mist suddenly appeared in front of him.

A little qilin jumped out from the mist and swung its purple hooves at him.

Crack

Half of fantasy moon Langjun's head was smashed into pieces, and his body was sent flying like a sandbag. He only stopped after smashing into a mountain range.

His body was covered in broken moonlight, and his clothes were in a sorry state. He did not have the slightest bit of elegance?

"Who are you?" Fantasy Moon Langjun's pupils shrunk as he stared at the little qilin.

The little qilin raised his head and said proudly, "I am the king of all beasts, the Qilin Emperor! Come, introduce my pet, Little Su, come here..."

PA --

A loud thud landed on its head, causing it to cry in pain. It covered its head with its front hooves and turned its head back to look.

"Can you give me some face in front of people? You will be punished for torturing the divine beasts like this." The little qilin grumbled.

Su Yu said, "I think you will be punished first, right?"

As he said that, he kicked it to the ground. "Long-winded! Work first. If you don't kill Fantasy Moon Langjun today, don't think about sleeping again."

Su Yu had no choice but to sleep with this little qilin.

The little qilin got up in a Huff and grinned at Fantasy Moon Langjun. "It's all because of you. I gave you 100,000 hooves to vent the hatred in my heart! WAAA..."

PA --

Even though fantasy moon Langjun was on guard, how could he defend against the mysterious talent of turning the illusion into reality?

Every single kick of the Little Qilin was solid.

After more than ten slaps, Fantasy Moon Langjun went crazy.

This little qilin was too strange. The talent of combining the illusory and the real was too abnormal.

When he attacked his opponent, it turned the real into the illusory.

When his opponent whipped it, it turned the illusory into the real!

How was this a battle? It was clearly a hooligan!

Fantasy Moon Langjun, who had always been at ease, was completely whipped out of temper. He gritted his teeth in anger. "Enough! Fantasy Moon Law!"

The surface of his body shot out a hundred thousand feet long law chain.

The little qilin got closer and was immediately enveloped by the moonlight emitted by the chain.

It was keenly aware of the erosion of the law moonlight on the soul.

Although it could turn reality into nothingness and was not affected, the instant it attacked Phantom Moon Langjun's original body, it had to materialize.

At that time, it would definitely suffer soul damage, and it would be very powerful damage.

This was the most powerful part of being an emperor, the law!

“Go to hell!” Fantasy Moon Langjun was furious. The law chains danced like long snakes and whipped the little qilin.

The little qilin immediately turned invisible and narrowly dodged the attack.

However, the power of the chains did not decrease as they whipped Su Yu. “You are the most detestable! I will crush your bones and Scatter Your Ashes!”

Su Yu's gaze was ice-cold. He did not move until the chains were within ten thousand feet of him.

However, he didn't use the Royal Longzun Sword. Instead, he withdrew his longsword at the critical moment and changed to another divine weapon.

It was a golden sword that was entirely crystal-colored and refracted extremely holy light.

“Heaven-cleaving sword!”

The mutated golden flame forbidden wooden sword combined with the sixth move of the demon sword.

A large amount of unbounded karma flame surged out from the wooden sword and was wrapped up by the shocking sword. It slashed down with the force of the Milky Way falling into the nine heavens.

The moonlight emitted by the chains was completely devoured by the boundless karmic flames.

“Ah! ! Boundless karmic flames! ! No, what level of karmic flames is this? How could it Burn My Evil Laws...” Phantom Moon Langjun cultivated the evil path.

What he feared the most was the power of the most sacred.

The boundless karmic flames were the supreme holy item that countered him.

The boundless karmic flames that blotted out the sky and Earth instantly engulfed Phantom Moon Langjun.

A few miserable cries came to an abrupt end.

The unbounded karmic flame gradually extinguished, leaving behind a floor of pitch-black impurities.

The dignified fantasy moon Langjun was actually burned to death alive.

On the ground, the blind old man was inexplicably shocked. “Unbounded karmic flame... in the ancient legends, the karmic flame is comparable to the Void Divine Lightning?”

Chapter 1783 Fantasy Moon Cave Abode

“Hiss! !”The middle-aged man in the python robe sucked in a breath of cold air.
“The overlord of the Mystic Crystal Realm killed the infamous fantasy moon Langjun with one sword strike?”

“Who is he? Is He bei Wangchen or Crown Prince Dongfang Wudi? In the entire great yu imperial court, other than the two unparalleled heavenly kings, who else can kill fantasy moon Langjun so easily?”

“No! It’s not them. I’ve seen the portraits of both of them before!”

“Then he is...”

The blind old man’s tone was agitated as he said in a cadence, “We have witnessed the birth of a new king! The Emperor Yu dynasty is comparable to bei Wangchen and Dongfang Wudi’s third King! !”

Hu --

Su Yu took a few deep breaths.

The emperor was indeed extremely difficult to deal with. Little Qilin, jade-faced young master, and Su Yu’s many methods were unable to gain the upper hand.

To be able to kill him, to be honest, it was all due to luck.

If he wasn’t an evil cultivator and wasn’t restrained by the limitless karmic flames, they might have been the ones to be destroyed today.

The pink light on the surface of little qilin’s body dimmed. He lay weakly on Su Yu’s shoulder and panted, “My cultivation isn’t enough. We’re clearly of the same level, yet I’m fighting in such a passive manner.”

Today’s battle had alerted little qilin.

Although it had inherited the legacy of Emperor Qilin, it hadn’t fully digested it.

Other than using the real and the fake, it didn’t have any other moves.

What would it do if it met a powerful enemy next time?

Looking at the exhausted Su Yu, the Little Qilin’s eyes were resolute. “I want to continue cultivating and completely digest the legacy of Emperor Qilin. I’ll fall into a deep sleep soon. I might not be able to answer you in time. Be careful.”

“I will.”Su Yu said and sent the little qilin back to the nine jade spiritual pearl.

Putting away the golden flame forbidden wooden sword, Su Yu also deeply felt his lack of strength.
“I also have to work hard to increase my strength.”

The first thing he had to do was to increase his cultivation!

Whether he grasped the laws or not was simply a chasm.

Su Yu’s many methods were like child’s play in front of the Emperor of Heaven and earth.

“Dao rain must be obtained!”Su Yu clenched his fist.

The key to dao rain was to obtain princess ru Chen's recommendation and obtain a second-class range!

"Fantasy Moon Langjun!" Su Yu walked up to his ashes. Although there was no corpse, he believed that princess ru Chen had a way to confirm the identity of the ashes after bringing them back.

With a wave of her sleeve, all the ashes were sent flying.

However, at this moment, a ball of moonlight suddenly shot out from the ashes.

There was a thumb-sized figure in the moonlight with a face full of resentment. If it wasn't fantasy moon Langjun, who else could it be?

It turned out that at the most critical moment, he had used his law to resist the unbounded karmic flames and barely managed to save one-tenth of his soul.

It hid in the ashes and took advantage of Su Yu's carelessness to give him a fatal blow to his soul.

It had to be said that this blow was at the right time.

After a world-shaking battle, fantasy moon Langjun was annihilated. This was the moment when Su Yu was most relaxed.

No one would have thought that fantasy moon Langjun still had a remnant soul left. Not only did he not escape, he even took a desperate revenge!

"Vile creature! You destroyed my life. I want you to die with me!" As he roared viciously, the moonlight entered between Su Yu's brows.

This contained the essence of his fantasy moon laws. It had a destructive effect on the soul.

This attack was extremely sudden. Su Yu had no way to dodge it!

Jade-faced young master wanted to attack, but because of the sudden turn of events, he was too far away to save Su Yu.

"Be careful..." jade-faced young master cried out in alarm.

Unfortunately, it was too late!

The moonlight pierced deeply into Su Yu's forehead.

Jade-faced young master stood there in a daze. Such a monstrous genius had fallen just like that?

The blind elder on the ground also muttered in a daze, "Heaven's will, Heaven's will. The Great Yu Emperor dynasty is destined to be the world of bei Wangchen and Dongfang Wudi."

However, just as they were sighing at the fall of the Heaven's favorite, a sudden change occurred.

Su Yu, who had been stabbed, suddenly dissipated into a fluorescent light.

"Phantom?" The jade-faced young master and the blind old man were both shocked.

Phantom Moon Langjun, who was in the moonlight, was also stunned. "Phantom, then he..."

"Are you looking for me?" A faint voice echoed behind him.

Turning his head, he saw black and white wings full of yin and yang energy flashing behind Su Yu's back.

It turned out that when he was close to ashes, he had deliberately created an illusion, but his real body had avoided it.

"Impossible, did you prepare for this?" Fantasy Moon Langjun's facial features were ferocious, like an evil spirit who had failed to struggle on the verge of death. His face was full of hostility.

Su Yu was calm and composed. "How could I dare to be even the slightest bit careless against a sovereign of Heaven and earth?"

Vigilance was the most precious treasure in Su Yu's martial career.

Su Yu did not dare to relax even the slightest bit when dealing with such a troublesome mysterious moon Langjun.

It seemed that his vigilance had saved his life once again.

Mysterious Moon Langjun roared, "So what? Die!"

Su Yu curled his lips, and two balls of silver-gray Flames shot out from his eyes. They transformed into a Firebird and flew past, snatching away mysterious moon Langjun's remnant soul and swallowing it in one gulp!

Gulp --

The jade-faced young master and the blind old man swallowed hard when they saw this.

The emperor's soul was actually swallowed directly? Wasn't he afraid that his soul would be corroded by the Emperor's soul?

Just how many strange and exquisite methods was he hiding?

The little bird flew back and Su Yu glanced at the blind old man indifferently. It scared them so much that they ran away in panic, afraid that Su Yu would be angry.

"I can't believe that you hid yourself so well. In terms of strength, you are only below bei Wangchen and Dongfang Wudi in the younger generation!" Jade-faced young master's eyes were shining with a bright light.

"Can you tell me which Emperor trained you in secret?" Su Yu's invincible combat strength had overturned her worldview.

She had never thought that a mystic crystal overlord could be so powerful.

"You Want to know?" Su Yu walked over, squatted down, and asked.

"You're willing to tell me?" The jade-faced young master gazed deeply into Su Yu's eyes.

Su Yu shook his head. "No."

"Then why did you come over?" The jade-faced young master said unhappily.

Su Yu's eyes shone with a bright light, and he said mysteriously, "Nothing. I just let you sleep for a while."

"What..." the jade-faced young master said in shock. When he met Su Yu's eyes, his mind immediately felt a piercing pain.

"Ah! Bastard, I won't let you off..." the jade-faced young master immediately collapsed to the ground.

After casually casting a few defenses around her, Su Yu patted her sleeves and stepped on the wind.

This jade-faced young master's background was not small, especially since he was actually proficient in the blood crystal clan's language. In order to avoid future trouble, it was better to knock her out to prevent her from following.

After floating to an empty place, Su Yu took off a leaf and returned to the imperial city with his true appearance.

After finding an inn to settle down in, Su Yu first recovered his divine power and recovered from his injuries.

After recuperating, he released his Soul Firebird.

In its mouth was a small figure that was still struggling. It was fantasy moon Langjun.

"Kid, let me go and I will hand over all the inheritances to you." Fantasy Moon Langjun's eyes were filled with craftiness.

Su Yu sneered, "Do you think I'll fall for that easily? Putting aside the fact that your inheritance doesn't suit me at all, even if it does, how would I know whether your inheritance is real or fake? "You and I are both smart people. There's no need to use this little trick of yours."

Fantasy Moon Langjun secretly gritted his teeth. It wouldn't be good if it fell into the hands of someone else, but it just had to fall into the hands of such a terrifyingly smart young man.

He rolled his eyes, fantasy Moon Langjun said, "If you are willing to let me live, I am willing to exchange my fantasy moon cave abode! There are all the beauties in the world that I have collected in my life, including the three imperial concubines of Emperor Yu of the Great Yu dynasty, as well as countless treasures."

All of these were unattractive to Su Yu.

In terms of resources, a sovereign of one Qi had to take the initiative to befriend Su Yu.

Seeing that Su Yu was unmoved, fantasy moon playboy said anxiously, "Oh right, there's also a core of the Fuluo Earth that will be of great benefit to you when you break through to the peak overlord realm."

The core of the Fuluo Earth? Su Yu was tempted.

He had read in the classics that the core of the Fuluo Earth was the core that remained after the spirit vein had collapsed.

However, it was not just one spirit vein, but the core that remained after hundreds and thousands of spirit veins had collapsed.

More importantly, the core of the Fuluo ground was a living thing, and it could escape along the earth veins.

In addition, it could hide its aura in the Earth, and was completely undetectable.

Therefore, unless it was a great opportunity, it was impossible to obtain the core of the Fuluo ground.

He really did not expect that this kind of divine item, which only existed in rumors, would fall into the hands of Fantasy Moon Langjun.

“If you are willing to let me go, I will tell you the location of Fantasy Moon Cave abode. Other than me, no one can find it there.” Fantasy Moon Langjun saw hope in Su Yu’s eyes. “What do you think?”

Su Yu rubbed his chin and said indifferently, “I don’t think so.”

After that, the Silver Firebird raised its neck and completely devoured fantasy moon Playboy’s soul.

“Ah, don’t even think about it...”

Su Yu shrugged. “Don’t even think about getting your memories? Sorry, that’s not up to you.”

After Devouring Fantasy Moon Playboy’s remnant soul, the palm-sized silver-gray Firebird’s body flames suddenly soared.

Its originally blurry body immediately became extremely clear, and even its eyes were filled with spirituality.

Its silver-gray body completely turned silver.

Its head also grew by a full circle.

Chirp --

With a cheerful and sharp cry, the Silver Firebird flew into Su Yu’s eyes.

Instantly, a terrifying pure soul surged into his soul.

In comparison, Su Yu’s soul was like a small river, but what surged into it was an entire river.

A feeling of tearing and pain reverberated in Su Yu’s mind.

Relying on his years of patience, Su Yu gritted his teeth and digested his huge soul bit by bit.

His soul was also undergoing a tremendous change.

At the same time.

Ethereal Tower.

In the elegant boudoir, a woman wearing a flowery butterfly dress with black hair like a waterfall held her right fist tightly.

Her exquisite body was natural, and under the outline of the hundred butterfly dress, she was exceptionally alluring.

However, her pair of crystal eyes that were supposed to be moving were filled with anger.

“Haven’t you found that bastard yet?”The woman shouted.

The ones kneeling in front of her were Devil’s heart and a group of powerful experts.

Devil’s heart was uneasy. “Princess ru Chen, we’ve already searched the entire city according to your instructions. Apart from the imperial palace, we’ve searched every single one of them. We should have found even a fly, but that person sank like a stone into the ocean...”

“Trash! What use is there for me to raise a bunch of trash like you?”Princess Ru Chen was furious.

The Devil’s heart was secretly bitter.

A few days ago, princess ru Chen led them to personally surround fantasy moon Langjun.

They hid outside the brothel and waited for Princess Ru Chen’s slogan. Then, they charged in together.

Who knew that a meddlesome fellow would barge in and teleport princess ru Chen to an unknown place.

When they found princess ru Chen, she was knocked unconscious on the ground.

When she woke up, princess ru Chen gritted her teeth and issued an arrest warrant for that person.

However, that person seemed to have vanished into thin air and disappeared without a trace.

“Continue to search for him! Even if you have to dig three feet into the ground, you have to find him!”Princess ru Chen really couldn’t swallow this resentment. Not only did he cause her to be in such a sorry state, he even took advantage of her. The detestable thing was that he actually knocked her unconscious! !

If she did not find him and give him a good beating, it would be difficult for princess ru Chen to vent the grievance in her chest.

Actually, it was not Su Yu’s fault. How would he know that princess ru Chen would run to Fantasy Moon Langjun on her own?

“Yes! We will definitely find her for princess ru Chen!”The Demon Heart had a headache. The world was vast. If he were to leave the Imperial City, who knew where he would go?

As the instigator, Su Yu had reached the final moment of refining his soul.

Chapter 1784 Xiao Die Awakens

Silver light surged around his body, and the silver light on his head was the most brilliant.

If one observed carefully, one would discover that within the silver light cluster above his head, a three-foot-long silver firebird filled with spiritual energy was flapping its wings quietly.

The Silver Firebird's eyes were very lively, and as it moved, it revealed a human-like pride.

Its entire body even had an unknown trace of majesty.

Chirp --

At this moment, the Silver Firebird let out a sharp cry. It carried all the silver light back into Su Yu's body, leaving nothing behind.

Su Yu, who was in seclusion, suddenly opened his pitch-black eyes.

The space in front of him shook violently, making a sizzling sound.

"What a strange feeling." At this moment, Su Yu did not need to deliberately investigate. He could accurately sense all the movements within a hundred miles.

For example, a hundred miles away, on a mountain range, a man and a woman were overflowing with tenderness as they spoke intimate words that made people blush.

Another example was three hundred miles away, in the crowd of people in the resting soil, four thieves were discussing how to steal the target's money bag.

..

Su Yu's perception range and accuracy had undergone an earth-shattering change.

In the past, it was a stream, but today, it was a river flowing into the sea.

"Could this be emperor-level soul force?" Su Yu was shocked.

The situation in his mind made Su Yu even more shocked.

The Soul Sea of the past had completely disappeared. What replaced it was a crystal the size of a broad bean.

The Silver Firebird quietly spread its wings and protected the crystal under its wings. It was like the Guardian God of the crystal.

"The soul sea turned into a soul crystal?" The sudden change was beyond Su Yu's expectations.

If the ancient records weren't wrong, a soul crystal was something that could only be condensed after stepping into the Emperor realm.

The Soul Crystal wasn't only purer than the soul power contained in the soul sea, but it was also more solid. Ordinary soul attacks wouldn't be able to affect the soul crystal.

If Fantasy Moon Langjun used the fantasy moon law again, Su Yu might not be afraid.

"One-tenth of Fantasy Moon Langjun's soul can help me reach the Emperor Realm?" Su Yu's eyes were full of suspicion.

That one-tenth of the soul and most of the impurities were removed. Only less than one-hundredth of it had truly fused into Su Yu's soul.

Before this, Su Yu was a peak overlord soul. How could he reach the emperor level in one step?

However, the soul crystal in front of him made Su Yu speechless and unable to refute.

“Extremely strange.” Su Yu thought to himself.

Suddenly, Su Yu's heart moved slightly and he took out an item with his left hand.

It was a bronze plate, the mysterious bronze plate that recorded the son of Heaven's aura-gazing technique.

He had already completed the fifth level of the soul devouring realm, but he had yet to reveal the sixth level.

Su Yu had speculated that it was probably because his soul strength was slightly weak.

He could try it today since his soul had reached the emperor level.

Su Yu released an ocean-like amount of soul strength and scanned the bronze plate.

Buzz --

Unlike his previous lack of reaction, Su Yu actually saw a layer of blurry words on the bronze board.

Su Yu's heart pounded, and his mouth felt dry.

The sixth layer!

However, when he carefully looked at it, he couldn't see the words clearly no matter how hard he tried.

After several attempts ended in failure, Su Yu had to admit that even an emperor-level soul was slightly inferior.

“If I devour another complete emperor-level soul, it will definitely not be a problem,” Su Yu thought to himself.

But obtaining an emperor-level soul was easier said than done?

Su Yu had no confidence in killing another emperor-level soul.

“Soon.” Su Yu was looking forward to the next level of the son of Heaven's qi-gazing technique.

Then, he looked at his right palm.

In the middle of his palm and flesh, a word shaped like “Demon” entered his vision.

In the ancient divine realm, a dark-red chest had been discovered within the skull of a dark-black dao master.

This chest had absorbed all of the violet-black divine blood within the skull, and had branded the word ‘demon’ into Su Yu's palm.

According to the information released within the dark-red chest, if Su Yu became a highgod, he would be able to open the red chest. At that time, Su Yu's wish would be fulfilled.

Highgods were emperors.

"This day isn't far away. I really want to know what was left behind in the head of the DAO Master who died in the Cage of Gluttony." Su Yu licked his lips.

Letting out a sigh of relief, Su Yu thought of the little qilin. With a thought, his soul entered the nine Jade Spirit Pearl.

The little qilin lay next to the thatched cottage, snoring loudly. Seeing this, the corners of Su Yu's mouth twitched.

To be able to cultivate in a dream, it was hard not to be jealous.

After confirming that it was fine, Su Yu had a thought and appeared in front of the nursery.

He did not know if the Blood Crystal Bodhi seed from that day had survived.

However, as soon as he appeared, he suddenly found a girl dressed in purple holding a white jade tree that was half the height of a person, munching on the blood-colored Bodhi that grew on it.

Beside her, there were two trees of the same size that were gnawed until not even a leaf was left.

Su Yu flew into a rage and kicked the young girl's Butt.

Wah --

The young girl was eating with Relish. She was not prepared for the kick and was sent flying. She fell several times before she finally came to a stop.

"Who is it? Who kicked this lady's Butt? I'll fight it out with you..." she roared angrily and turned her head to look into a pair of cold eyes. She could not help but feel guilty.

Su Yu sized her up and could not help but feel angry. "Stealing spiritual herbs when you just woke up. It's really hard to change a person's nature!"

The purple-clothed girl was not just anyone. She was a mutated Chaos Archive that had undergone three times of cocooning and metamorphosis.

"Who stole them? You Won't believe me if I don't tell you. They were the ones who invited me to eat them." Xiao die placed her hands on her hips with a face full of grievance and injustice.

Tick-tock --

Unintentionally, the Blood Crystal Bodhi that she had just picked fell to the ground from her sleeves.

Xiao die immediately acted like a vicious dog pouncing on them and pressed them under her body. She raised her head and said embarrassedly, "It's an illusion. What you saw was just an illusion."

The veins on Su Yu's forehead were throbbing wildly. "Get Back to your cocoon!"

It was fine if she didn't come out, but if she came out, she would cause trouble.

"Why are you so fierce? It's just a few lousy fruits. Can't I return them to you?" Xiao Die had a guilty look on her face. She grabbed the Blood Crystal Bodhi on the ground and handed it to Su Yu.

Even though she said so, her eyes were fixed on Su Yu's movements.

Su Yu did not even think about it and wanted to take it.

Whoosh --

Xiao die immediately withdrew her hand and covered the Blood Crystal Bodhi tightly. She pouted and said, "How can I take back what I gave you? Stingy! Stingy!"

Su Yu took a deep breath. He felt that he was about to reach his limit. "I don't remember giving you the Blood Crystal Bodhi!"

He emphasized the word "Give."

Xiao die was reluctant to part with him. She stomped her feet. "Can I change it?"

She opened her mouth and spat out ten fine silk threads that could not be seen by the naked eye.

Su Yu's pupils constricted. He was not unfamiliar with this item.

When Xiao die was still in her larval form, she had spat out silk threads. They were tough, sharp, and very dangerous.

She had helped Su Yu kill many powerful enemies in the past.

However, that was before her cultivation had reached the great success stage. Now, it was of little value.

"Hey, Hey, what's with that look? I used the law to condense dragon slaying silk! Even an emperor can't destroy it," Xiao Die said angrily.

Su Yu was shocked.

He sized it up again, but his face was full of suspicion.

The silk thread was exceptionally ordinary, and he couldn't feel anything extraordinary.

Doubtfully, Su Yu casually grabbed a ten-thousand-year-old golden flame forbidden wood and drew a line on the silk.

The result was a shocking scene!

The ten-thousand-year-old Golden Flame Forbidden Tree, which was known for its hardness, was silently sliced in half along the lines of the scratches.

The scratches were extremely smooth without any roughness, indicating that it was cut very easily.

At this moment, Su Yu couldn't help but take a breath of cold air.

If the emperor was hit by this, with the strength of their bodies, they would definitely be cut open immediately.

This silk was not that silk! !

“How is it? Not Bad, right? Is it enough for these few fruits?”Xiao die snorted in disdain.

Su Yu suppressed his excitement and said in a deep voice, “Is there any more?”

“No, there are only ten unless I spin a cocoon for the fourth time.”Xiao die shrugged.

A trace of regret flashed across her eyes.

However, if she used the ten silk well, it would also be her trump card.

“This thing is too sharp. No matter what you touch, it will be cut off. Are you planning to give it to me like this?”

It was probably difficult for anything to hold this thing, including a spatial storage item. The slightest touch would definitely destroy the item.

As for using one’s hands to hold it, it would be courting death.

Xiao die giggled. “Isn’t this easy?”

She took off a snow-white bracelet from her wrist.

Ten smooth and round unknown beads were hanging on it, closely connected.

Xiao die waved her hand, and ten ten zhang long threads quickly wrapped around the snow-white beads on the bracelet.

The strange thing was that the beads were tightly wrapped by the dragon-slaying threads, and there was not a single trace of strangulation.

“What a familiar feeling?”Su Yu was a little surprised as he reached out to take the bracelet and caressed the smooth beads.

Xiao die said calmly, “It’s made from my teeth. How is it? Isn’t It Beautiful?”

Teeth? Su Yu couldn’t help but think of the horrifying scene of Xiao Die crushing the dao master’s head in one bite. He couldn’t help but wipe off his cold sweat.

No wonder. If it was Xiao Die’s terrifying teeth, it wouldn’t be surprising at all.

Putting it on his left hand, Su Yu was very satisfied with the bracelet.

If he was caught off guard, this item was indeed a powerful killer move.

Only now did he have the time to size up the three Blood Crystal Bodhi that had grown.

“The Blood Crystal Bodhi that can only be nurtured by the bloodline of the eastern royal family can also be nurtured by the supreme breathing soil. This is really unexpected.”Su Yu was secretly surprised.

At first, he thought that a single supreme breathing soil was equivalent to an immortal level cultivation technique.

However, as Su Yu entered the wider world, he realized how terrifying the Supreme Breathing Earth was.

Not to mention an immortal level cultivation technique, even an Imperial Dao sacred weapon was worth it!

Not only did the secret of the Supreme Breathing Earth not be revealed, it became more and more mysterious.

There was also the remnant soul of the White Fox in the thatched cottage. Su Yu could feel that it still existed, but he was unable to capture any specific traces.

The nine Jade Spirit Pearl seemed to belong to Su Yu, but it had not been completely refined by it. There must be a hidden space that he did not control!

He looked at the Blood Crystal Bodhi again. Two of them had been devoured by the butterflies, and the last one was only left with four Blood Crystal Bodhi hanging on it alone.

Compared to the Blood Crystal Bodhi that he had swallowed before, the supreme breathing earth had been cultivated to a purer state. There were no impurities at all, and it was naturally formed.

At first glance, it did not look like a spirit fruit but a crystal.

Even the eastern royal family present might not believe that this was the Blood Crystal Bodhi that was cultivated from their seeds.

“You are not allowed to steal the remaining four.” Su Yu glared at her.

The Blood Crystal Bodhi had the powerful effect of tempering the laws. Together with the Dao Rain, the effect was even better.

Based on past experience, the supreme breath soil was able to cultivate spiritual wood beyond its lifespan. If these four Blood Crystal Bodhi could give birth to mutated attributes, there might be unexpected gains.

“In addition, leave the blood crystal bodhisattva seeds that you ate and cultivate them into the supreme breathing soil.” Su Yu said one last time and returned to the outside world.

Xiao die pouted. “You’re walking so fast! You didn’t even ask how much my strength increased?”

She looked at the girl’s figure with a depressed look. She picked up the blood crystal bodhisattva seeds that were scattered all over the ground and put them into the supreme breathing soil to cultivate.

After her soul returned to the outside world, Su Yu looked at the bracelet on his wrist with a smile.

“Hehe, that little girl is much more obedient.” Su Yu laughed to himself.

If it was the previous Xiao Die, she wouldn't be so arrogant and unruly. Why would she return the things today to express her apology? It could be said that she was in a good mood that day that she didn't bite him.

As for her strength, Su Yu's expression became a little more serious.

Although he had not sparred with her, his intuition gave him a great pressure, even heavier than the little qilin.

Emperor! !

Xiao Die had also stepped into the ranks of the Emperor!

"I really don't know how powerful she will be after she is born this time." Su Yu secretly guessed.

Shaking his sleeves, Su Yu stood up.

This time, apart from obtaining the illusionary Moon Lord's soul, he had also combed through the memories in his soul one by one.

He had accurately found out the specific location of fantasy moon cave abode.

"I'll first settle the matters at hand before making a trip to Fantasy Moon Cave Abode." Su Yu calculated the time. Today should be the tenth day of the mission assessment.

With a tap of his toes, leaving behind a gust of light wind, Su Yu disappeared into the inn.

Ethereal Tower.

Demon Heart leaned against the tree with his arms crossed.

Suddenly, demon heart seemed to have sensed something and cast a sharp gaze towards the entrance of the small courtyard.

"You're here?"

"Fortunately, I didn't fail my mission." A pretty girl was reflected in the Devil's Heart's eyes.

She was as quiet as water and as beautiful as a flower -- if she didn't have a bloody head in her hand.

"Please have a look." The girl handed the head over

The Devil's heart was unmoved and looked up at the sky. "The time hasn't come yet."

Only she had returned, and the others hadn't arrived yet.

Even though he understood that there was a 99% chance that they would not be able to return.

But rules were rules.

"Yes." The girl did not ask further. She obediently withdrew her hand and quietly waited by the side.

She was waiting for time, not for people.

Because other than her, no one else would return.

Time slowly passed.

In the evening, the last rays of the setting sun shone on the world.

The Devil's heart watched the setting sun and watched the last rays of light disappear.

"Fortunately, I made it." Suddenly, the Devil's heart tilted its head and looked toward the entrance of the small courtyard.

Under the setting sun, a travel-worn young man covered in boundless multicolored light walked over.

"There's still someone?" The Devil's heart was surprised. What was even more surprising was that the person who came was Su Yu, the person who was the least likely to come back.

The girl who was half a step into the emperor realm looked over and slightly frowned. She softly muttered, "Why would he come back?"

What was the use of coming back if he couldn't get the corpse of the Devil Boy Girl?

Devil Heart lowered his arms and solemnly said, "The time is up! Congratulations on your return."

Su Yu stood over with a straight face and faced devil heart.

He only used the corner of his eyes to glance at the girl who was half a step into the emperor realm. To be exact, it was the corpse girl.

"Who wants to go first?" Devil heart stretched out his hand.

The half-step girl said, "Me. This will save time."

Devil Heart took out the head of the Devil Girl and used a dark green spiritual ruler to touch it. Immediately, a green light was emitted and the words "Devil Girl" appeared.

Devil heart nodded and revealed a rare smile. "Congratulations, you are the person Princess Ruchen wants to choose."

As he spoke, he looked at Su Yu. He did not want to waste his breath asking Su Yu why he had returned. He simply said, "The selection is over. You can go back now."

Since the Devil's child was killed by the girl, Su Yu would definitely come empty-handed. "..."

Unless he brought back the head of the Phantom Moon Langjun.

But, was it possible?

Chapter 1785 The Corpse Emperor's Plot

The wanted list was made by the royal family themselves, and the degree of danger was the main consideration.

The demonic girl ranked 98th was already dangerous, so the 83rd mysterious moon Langjun was naturally dangerous.

No matter how powerful the mystic Crystal Overlord was, what could it do to mysterious moon Langjun?

Moreover, the demonic heart was very clear that mysterious moon Langjun had already died in the hands of an unknown genius.

Su Yu rubbed his chin. "Your Excellency hasn't asked me if I've completed the mission."

Devil heart sneered and stretched out his hand. "Sure, hand over fantasy moon Langjun's head and you'll be considered to have completed the mission."

He was certain that Su Yu absolutely couldn't take out the head.

In fact, Su Yu indeed couldn't take out the head.

"I indeed don't have the head," Su Yu said frankly.

The young girl, who was half-step Emperor realm, glanced at him from the corner of her eyes. She was expressionless, but the corner of her mouth slightly glanced at him.

But then, Su Yu continued, "But I brought back the ashes that he burned."

With a flip of his palm, a three-foot-long jade box appeared in his palm.

Click --

The Jade Box opened, and a burnt and unpleasant smell rushed out.

The Devil's heart frowned slightly. "Are you sure?"

"Won't you know if you try?" Su Yu's expression was calm.

HMPH!

With a cold snort, the Devil's heart walked over and inserted the navy-blue spiritual ruler into it.

Ding --

The spiritual ruler immediately reacted, revealing the words "Fantasy Moon Langjun".

The half-step Empress' pupils contracted violently, and her face stiffened.

Devil Heart's hand holding the spiritual ruler trembled, and she exclaimed, "Where did you find Ashes?"

Su Yu's face darkened. "I don't understand your words. Could it be that I stole it?"

Sensing that she had lost her composure, devil heart changed her words. "How can you be sure that it was you who killed him? As far as I know, Fantasy Moon Langjun died at the hands of another person..."

Halfway through his words, his ears suddenly twitched. His expression changed and he immediately shut his mouth.

HMM? Su Yu's expression changed slightly.

Only a few people knew about fantasy moon Langjun's death.

Other than jade face young master who did not know his identity, there were also merchants who were extremely far away.

How could the Devil's heart know that Su Yu's appearance when he killed Fantasy Moon Langjun was not the same person as he was now?

His gaze narrowed slightly. Su Yu closed the jade box and smiled embarrassedly, "It seems that I was unable to hide it from you."

With a slightly resentful expression, Su Yu said regretfully, "Looks like I can only wait for the next opportunity. Goodbye."

HMPH!

The Devil's heart was both angry and amused. There were really all kinds of people these days, so he had to be on guard.

Fortunately, they had received the news in advance. Otherwise, they would really have been taken advantage of by someone with an imposter's name.

The young girl who was half a step into the emperor realm let out a slight sigh of relief. She stared at Su Yu with an imperceptible glint of coldness in her eyes.

Su Yu left the small courtyard and began to calculate in his heart.

Compared to gaining princess ru Chen's trust, it was better not to expose his identity.

Of the many methods he had used that day, some of them were not suitable to be exposed to others.

He was unable to confirm how much the demon heart knew, so he could only give up and find another way to enter the Dao Rain's range.

"Wait!" The Demon Heart's ears moved again, and a bright light flashed as it shouted.

Su Yu's body froze. "May I ask what advice you have for me?"

The devil's heart growled, "You even dared to cheat in princess ru Chen's assessment. It's hard not to admire your courage. Immediately surrender and allow me to search your soul to verify your true purpose. Otherwise, HMPH, don't even think about leaving the small courtyard alive!"

He frowned slightly. He really didn't expect things to develop to such a state today.

Forget it, I'll leave when I need to.

"That depends on whether you have the ability to keep me here." Yin and yang Qi appeared above Su Yu's head as he teleported away.

The Devil's heart was stunned. Yin and Yang escape art?

What was even stranger was that the other party was proficient in concealing his aura. He focused his gaze and scanned around, but was actually unable to discern the other party's escape route.

Shua --

At the same time, a woman in luxurious clothes flashed by his side. She had a graceful and noble temperament, and was extremely noble.

“It’s really him!” This person was Princess Ru Chen.

She clenched her fists tightly and was both surprised and excited.

Mo Xin was shocked. “Princess, is he really the person you ordered me to search?”

Just now, the princess had sent a voice transmission and asked Mo Xin to probe Su Yu’s background.

As expected, Su Yu was the heaven’s chosen King Who Killed Fantasy Moon Langjun that day.

Princess Ru Chen glared at him. “It’s all your fault for scaring him away.”

The demon heart begged for mercy in fear.

If he hadn’t said that fantasy moon Langjun was killed by another person, why would Su Yu be worried that his identity would be exposed and retreat on the spot?

Such a talent was a young genius comparable to bei Wangchen and Dongfang Wudi.

How could princess ru Chen not be angry when he slipped away from her eyes just like that?

Stomping her lotus feet, princess ru Chen said in a good mood, “He ran as fast as ever!”

After a pause, princess ru Chen said to the void behind her, “Aunt, it’s up to you now. You must chase him back.”

The space behind her was clearly empty. The space distorted and a beautiful woman in white palace clothes appeared.

A magical array rippled out from under her feet.

Devil heart immediately knelt down on one knee and said respectfully, “Greetings, Emperor Wu Hen!”

Emperor Yu’s foremost array master, traceless, was also princess ru Chen’s uncle’s wife. He was also the famous emperor traceless.

The beautiful woman in the palace dress glared at princess ru Chen and said, “You haven’t even settled the matter of you looking for Fantasy Moon Langjun, yet you’ve thrown my aunt into a mess?”

Princess ru Chen stuck out her tongue and said, “It’s not like you don’t know. I hate lewd people the most. I regret that I haven’t been able to kill one with my own hands. It’s rare to find traces of fantasy moon Langjun, so I naturally can’t miss it.”

“You still dare to say that! If it wasn’t for the coincidence that Su Yu was there and luckily killed Phantom Moon Langjun, do you know what kind of situation you are in?” The beautiful woman berated.

Princess ru Chen humphed weakly. “Who knew that pervert actually became an emperor without a sound.”

If it was a half-step emperor, with Devil's heart and the others supporting him, Phantom Moon Langjun would have nowhere to run.

Seeing that princess ru Chen didn't know how to repent and was still making excuses, the beautiful woman in the palace dress couldn't help but get angry.

But when she recalled princess ru Chen's original intentions, her heart softened, but she couldn't bear to scold her.

That year, the evil wolf killed a dynasty princess.

That princess was princess ru Chen's half-sister. At that time, Princess Ru Chen hadn't been born yet.

Princess ru Chen's mother was so sad that she cried. In the end, she was depressed. After giving birth to princess ru Chen, she fell ill and passed away.

It was precisely because of this that princess ru Chen had an abhorrent hatred towards lewd men.

Back then, the main culprit, the evil wolf, was killed by an unknown Su Yu after many fruitless investigations.

The anger in her heart was hard to calm down. It just so happened that another well-known lewd man, fantasy moon Langjun, appeared, which resulted in her being personally involved.

"Aiya, aunt, now is not the time to be concerned about me. If you don't pursue that kid surnamed Su, where are you going to find him?" Princess ru Chen said anxiously.

The beautiful woman in the palace dress gave her a dirty look. "Even fantasy moon Langjun died in his hands. Can you chase after such a person rashly? What if it causes a misunderstanding?"

"Then what if we just watch him run away?" Princess Ru Chen was unwilling to accept this.

Her royal brothers were all more powerful than her. They had taken in countless elite soldiers and talented people.

Only she did not have many outstanding talents.

"You're silly!" The beautiful woman in the palace sighed and patiently pointed out, "Since this person is here for the Dao Rain, how far can he escape?"

Then, she came to the place where Su Yu stood just now and grabbed at the air with her slender jade palm.

Then, she silently chanted an incantation and a wisp of dark gray air came out.

"With this wisp of his aura, combined with My Qi Formation of the fetal zone, it's not difficult to locate his specific location." The beautiful woman in the palace put away her aura, "Prepare a gift and wait for me to find his location before paying him a visit."

Only then did princess ru Chen heave a sigh of relief. She wrinkled her nose and said, "Then you better hurry up. Don't let others get ahead of you."

The beautiful woman nodded and glanced at the half-step emperor maiden. Her brows furrowed slightly, as though she had discovered something. However, after taking a closer look, she shook her head, she retracted her gaze. "This girl isn't ordinary either. To be able to kill the Devil's Child Girl, her potential is astonishing as well. Train her well and don't neglect her."

"I know!" Princess Ru Chen drawled. "Seriously, I'm not a child. I have to be reminded of everything."

The beautiful woman in the palace dress shook her head helplessly.

This niece of hers was sometimes calm and wise, but most of the time, she was muddle-headed. It was truly a headache for her.

"Alright, I'll go prepare. You pack up as well."

Princess Ru Chen curled her lips and hooked her finger at the half-step Emperor Girl. "Follow me."

The half-step emperor girl lowered her head and followed closely, letting out a long sigh of relief.

A deep strange light flashed past.

After leaving the small courtyard, Su Yu didn't leave immediately.

Since the half-step emperor girl recognized Su Yu, how could she not report to the corpse emperor?

If she was not careful, it would not be good if she bumped into the corpse emperor again.

Who knew how much of the corpse emperor's strength and influence had recovered?

Taking out a leaf to cover his eyes, Su Yu transformed into an unfamiliar form and walked out of the small courtyard.

Unless the double-crowned emperor was present, he could not see through Su Yu's cover.

As soon as he walked out of the small courtyard, Su Yu immediately sensed a layer of cold and obscure sweeping over him. He swept it over his body and quickly withdrew it.

As expected!

The Corpse Emperor had set up an ambush in the ethereal tower.

Fortunately, Su Yu was cautious enough.

Pretending as if nothing had happened, Su Yu quickly walked into the crowd.

"How is it?" In a private room not far away.

The corpse emperor was sitting on the bed. Corpse Qi was surging in his body, healing the burns all over his body.

Beside him was a delicate and thin woman with a slightly haggard face. She carefully applied ointment on the corpse emperor.

She was Lan Yue.

In front of the window stood a yellow-robed middle-aged man with the head of a zombie dog. He was the emperor of zombie dogs.

He shook his head. "So far, only customers from the ethereal tower have come out. That Su Guy hasn't been seen since the beginning."

Lan Yue clenched her fist, and her eyes were full of hatred. "Wouldn't it be more direct to kill our way in and find him? What kind of expert can there be in a mere restaurant?"

"Yue'er!" The corpse emperor held her hand and gently rubbed it. "I hate Su Yu more than you do, but the great plan is in front of us. We must not lose the big one because of the small one!"

Touching her cheek, the corpse emperor's eyes flashed with deep love. "When our plan succeeds, I will search the entire Yu Emperor dynasty and dig three feet into the ground to help you find Su Yu!"

Lan Yue's face lit up and she threw herself into the corpse emperor's embrace to act coquettishly.

After comforting her for a while, the corpse emperor looked at the corpse emperor and asked, "How are their preparations?"

The Corpse Emperor's lips curled up as he said somewhat mockingly, "Don't worry, they're already prepared. They're even more anxious than us."

"That's Good!" The Corpse Emperor's eyes were burning with excitement. "What I've lost, I'll pay back thousands of times over!"

..

Chapter 1786 Unexpected Gains

Su Yu, who didn't know anything about this, went around the south of the city vigilantly.

He didn't plan to go back to the inn in the beginning to avoid being exposed.

"Sigh, I failed." In the small alley, Su Yu took off a leaf and let out a sigh of frustration.

It wasn't easy to take the risk to kill Fantasy Moon Langjun, but in the end, it ended up like this.

However, it was not completely fruitless.

At least the floating core in fantasy moon cave abode was still waiting for Su Yu.

In order to avoid a long delay, Su Yu immediately set off for Fantasy Moon Cave abode.

A few days later.

A grand and magnificent palace stood in front of his eyes.

Nine Great Rivers shot through the Palace Sky Like Rainbows, and three incomparably majestic giant statues stood on three sides of the palace.

A shocking aura lingered around the palace and did not dissipate. It was as if the immortal aura did not dissipate throughout the year.

The Eternal Golden Light shot out from the palace and illuminated the ancient sky.

Su Yu was deeply shocked.

That was the imperial palace of Emperor Yu the Great! !

But what was even more shocking was that he followed the map and actually came to the palace walls.

“Ordinary people only say that fantasy moon Langjun was bold enough to barge into the imperial palace alone, but they did not know that he was really audacious! He actually set up fantasy moon cave abode under the Imperial Palace!” Su Yu was amazed.

Even he couldn’t help but admire fantasy moon Langjun’s audacity.

Ordinary people thought that fantasy moon Langjun had long escaped the da Yu civilization with his three concubines, but who knew that not only did he not escape, he actually hid under the imperial palace.

No wonder no one had discovered his tracks for so many years.

No one would search the vicinity of the Imperial Palace, right?

This allowed fantasy moon Langjun to safely hide in this place, borrowing the aura that was several times stronger than the outside world to break through to become an emperor.

After calming down, Su Yu finally understood why there was a floating core here.

The Imperial Palace of the Great Yu Empire was the source of civilization. There were probably tens of millions of underground spirit veins.

Only here could there be thousands of exhausted spirit veins and the birth of a divine object like the floating core.

According to Fantasy Moon Langjun’s memories, Su Yu walked along the city wall to an extraordinary section of the city wall.

Outside the city wall was a powerful defensive array. The slightest touch would immediately alarm the imperial palace, and in an instant, the guards on duty would descend to investigate the situation.

If it wasn’t necessary, no one would stay here.

Su Yu’s gaze swept over this place, and his hands formed a seal, and a heaven and earth eight trigrams diagram appeared.

As Su Yu’s fingers moved, the eight trigrams changed.

“Kan position!” Su Yu focused his gaze and looked in the direction where Kan position corresponded to. That place was still within the range of the array.

However, Su Yu waved his hand and a special fire jade key appeared. He inserted it in that direction.

Instantly, the array formation silently cracked open a hole the size of a person. No one was alarmed.

As soon as the hole appeared, it immediately began to shrink.

Su Yu did not hesitate and immediately entered.

A winding dark tunnel continued to extend into the depths of the underground.

“This should be a dried up ley line, right?” Su Yu secretly observed.

When the ley line dried up, the interior would often shrink, forming a bottomless tunnel.

The ley lines of this place had been absorbed by the array formation of the imperial palace all year round, and many of them had dried up.

There should be a lot of similar tunnels. The intricate and complicated tunnels lay beneath the imperial palace, forming an underground world that was similar to a maze.

As expected, it did not take long for Su Yu to see the other passageways of the ley lines.

Fortunately, he had the memories of Fantasy Moon Langjun. The underground maze had long been explored by Fantasy Moon Langjun, so he did not have to worry about the risk of getting lost.

Half a day later, Su Yu came to the entrance of a dried up spiritual vein that was hidden in the deepest part of the underground.

The surface of the entrance was blocked by a huge rock. The color and the spiritual vein were without a doubt. If no one reminded him, it would be difficult to discover that this was the entrance of an ley line.

Su Yu spoke with conviction. The huge rock shook slightly, and a dent appeared on the surface of his body.

Su Yu's face was expressionless. He took out a drop of Phantom Moon Langjun's essence blood that he had refined and placed it in the Dent.

The huge rock sensed something and immediately moved to the left, revealing an entrance that was surrounded by pink light.

“He really hid it deep enough!” Su Yu thought to himself. He immediately stepped into it, and the huge rock behind him closed by itself.

The cave abode was not deep. There were hundreds of small cave abode worlds of various sizes embedded in the stone walls.

The faint light emitted from the cave abode world lit up the entire cave abode.

“He's quite generous.” Su Yu sized it up. With a slight movement in his heart, his soul probed into one of the cave abode worlds.

To his astonishment, he discovered that there were countless creatures of various sizes inside, but there was only one human creature.

Moreover, it was a young woman with astonishing beauty.

She controlled the life and death of all creatures in the entire cave abode world, and was the most powerful creature there.

However, what lingered on her face was sorrow and unhappiness.

Upon closer inspection, she discovered that there was a transparent chain at her ankle, which had fused with the entire cave abode world.

Other than the cave abode world, she could not go anywhere else.

Su Yu was slightly surprised. She had visited several cave abode worlds consecutively, but the result was the same.

In almost every cave abode world, there was one or more peerless beauties. Their styles were different, and almost all kinds of beautiful women were included.

“It’s the women that fantasy moon Langjun has been collecting for many years, right?” Su Yu’s face sank. Some of the cave abode worlds did not lack white bones that had been tortured to death. They should be loyal women who would not submit to fantasy moon Langjun’s poison.

Sighing silently, Su Yu took all of the cave abodes’ worlds and placed them in his arms.

Once he found a suitable opportunity, he would release them.

In front of the cave abodes, there were dozens of wooden shelves.

On the wooden shelves, there were dozens of wooden boxes or jade boxes of different sizes neatly placed.

Su Yu’s eyes lit up. Those should be the treasures that fantasy moon Langjun had kept for many years, right?

In his memories, fantasy moon Langjun rarely brought any valuable items with her. Most of them were stored here.

Su Yu was delighted and opened them one by one.

As expected, each box contained an incredible item.

There were dozens of high-level talismans, pills, and rare and precious materials in the outside world.

Su Yu accepted these without any hesitation.

However, he didn’t find what he wanted, the core of the floating earth!

“Only these?” Su Yu frowned slightly.

Stroking his chin, Su Yu turned his gaze to the empty wooden frame.

With a clap of his palm, a strong gust of wind blew the wooden frame away.

Looking at the large area of empty ground, Su Yu stomped down, causing the entire ground to tremble.

Kacha --

As if some mechanism had been triggered, a neat crack appeared on the ground.

Su Yu smiled slightly and reached his hand in to forcefully break it.

Instantly, a large piece of black iron was broken open, revealing a ten-feet-deep groove.

Inside the groove were two jade boxes, one gold and one silver. There was also a strange big bow and a big arrow lying on the ground.

After passing by the Big Bow, Su Yu first opened the silver box.

Puff --

A surge of energy that was so dense that it struck his face. Su Yu took a small breath and his inner mansion shook.

Looking closely, he saw a fist-sized crystal heart beating inside the silver box. It was eager to escape.

However, it was trapped in a jade cage. No matter how it beat, it could not escape.

“Floating core!” Su Yu was envious. How could he ignore the reaction of the inner mansion?

The advancement of this object to the overlord level was as miraculous as an immortal pill!

With the arrival of the Dao Rain, it would be best if he could raise his cultivation level!

Closing the Silver Box, Su Yu put it away carefully.

With the core of the floating ground in his hands, Su Yu’s gaze shifted to the golden box at the side.

There were a few simple restrictions on the outside of the Golden Box. They were tightly sealed to prevent the items inside from being destroyed.

From the looks of it, it was even more serious than the core of the floating ground.

He flicked his finger and opened the golden box. What was revealed inside was the skin of an unknown creature.

He opened it and looked at it. There were strange dots on it. Each dot was connected by lines, forming a spider web-like object.

“What is this?” Su Yu was surprised.

Dong --

After the leather scroll was opened, a pitch-black stone the size of a fist fell out.

Su Yu did not recognize what it was.

The two objects in the golden box were hidden here, side by side with the center of the Floating Earth. They should not be ordinary objects.

After thinking for a while, Su Yu put them away.

Finally, there was the extremely large and exaggerated bow.

It was golden all over and the bowstring was snow-white.

The entire bow was as tall as two people.

“This should not be a giant bow used by humans, right?” Su Yu touched the giant bow and a cold feeling surged up.

Suddenly, his fingers touched some bumps. When he looked down, he saw the words carved on the bow.

“Heavenly bow,” Su Yu muttered.

Unexpectedly, just as Su Yu was mumbling, the bow suddenly shrunk to the size of a palm.

Su Yu was stunned. He thought for a moment and said, “Heavenly Bow.”

With a swoosh, the bow instantly turned into the height of two people.

This was the first time Su Yu had seen such a strange bow.

When he held it, what made Su Yu’s expression change slightly was that he actually couldn’t pick it up! !

With his current cultivation level, it was easy for him to destroy countless caves and worlds, yet he couldn’t pick up a bow?

With a slight movement in his heart, an old oil lamp appeared above Su Yu’s head.

A Ray of light shone from his chest, and a wave of nomological power appeared.

“Enormous strength nomological power.” With the enormous strength nomological power, Su Yu’s strength increased tenfold.

“Ha!” He lifted the bow with all his strength and slowly lifted it off the ground.

Su Yu was stunned. What was this bow made of? With this amount, even a crown prince wouldn’t be able to lift it, right?

Then, Su Yu tried to pull the bowstring, but the result was even more strenuous. Even with all his strength, he only managed to pull an inch!

“Where did fantasy moon Langjun get this strange bow?” Su Yu clicked his tongue in wonder.

Looking at the Golden Arrow that was as tall as a man on the ground, Su Yu was quite curious about what kind of divine power was suitable for such a strange bow.

When he had just entered the martial arts world, Su Yu had already used the longbow. Seeing his desire to hunt, Su Yu could not help but eagerly put the arrow on the bowstring, barely pulling an inch of the bowstring.

“It doesn’t seem to have any special power.” Su Yu frowned slightly.

Just as he was puzzled, a sudden change occurred. The stone wall moved strangely, revealing ten crystal screens of the same size.

The ten crystals lit up at the same time, showing a quiet scene.

Su Yu recognized it. It was the earth vein passage he had passed by.

“This is a magic treasure to monitor the outside world?” Su Yu suddenly understood. He had to admit that fantasy moon Langjun was exceptionally cautious!

Suddenly, Su Yu focused his gaze on one of the pictures, and his expression changed slightly.

In the middle of the picture, there was actually a line of two people flashing through the ley lines like ghosts.

One of them was dressed in a gray robe, and Su Yu couldn't distinguish his appearance.

But the other person caused Su Yu's expression to change drastically.

“The emperor's corpse! !” Su Yu's expression sank. How did the emperor's corpse appear below the imperial palace?

How is he come in?

Chapter 1787 Three Flavors Fire Spirit (One Update)

The gray-robed man beside him? Who Was It?

The only thing that was gratifying was that they did not discover the existence of surveillance. From the traces of their movements, it was not Su Yu's location. It was just a way.

The two of them talked as they walked. Unfortunately, the crystal screen could only reflect images and could not detect their specific conversation.

However, Su Yu could still hear a few words from the mouth shape of the emperor's corpse.

“Ascending to heaven” and “Ancient Fu Yao array”.

Within a few breaths, the two of them disappeared from the screen. No one knew where they went.

Su Yu's expression was solemn as he slowly withdrew his strength.

What he did not notice was that the slow bowstring vaguely drew a trace of the illusory image of a law chain.

“I hope nothing unexpected will happen.” Su Yu had a bad premonition.

First, it was the corpse emperor, then the emperor's corpse.

They had gathered in Emperor Yu's dynasty for a reason.

But he couldn't warn Emperor Yu.

Firstly, there was no concrete evidence, so it would be hard for Emperor Yu's dynasty to believe what others said.

Secondly, he had a close relationship with the corpse race in the past. If Emperor Yu's dynasty found out about this, he would be in trouble instead.

Sighing, Su Yu looked at Sky One bow. Since the emperor's corpse had appeared here, it wasn't appropriate to create any commotion. He put away the bow and arrow with his five fingers.

After leaving the ley lines, Su Yu chose a more remote inn.

The next morning, he went to a few materials shops in the imperial city.

According to the ancient records, the core of the floatation ground was born underground. Over the years, it had accumulated a lot of yin elemental impurities.

Consuming it directly would have an impact on the inner mansion.

Hence, he needed to prepare more precious supplementary materials.

After two days of searching, all the other supplementary materials had been found. Only the fire attribute supplementary material, the Absolute Fire Crystal, was nowhere to be found.

The absolute fire crystal was the soul crystal of the three flavoured fire spirit, which was an emperor-level fierce beast.

The three flavoured fire spirit resided in the fire attribute areas where the fire attribute was dense all year round. Its numbers were extremely rare, and it was extremely difficult to find.

In addition, there were many hunters in the past, so the number of hunters had decreased even more rapidly.

Nowadays, even the traces of the three flavoured fire spirit were very rare in the Emperor Yu dynasty's civilization.

"I'm sorry, this shop hasn't had a hand in this item for three hundred years." The largest shop in the imperial city, the Treasure Hall, gave Su Yu a disappointed answer.

For two whole days, they did not find anything.

"Please keep an eye out for the news of the ultimate flaming crystal. I will definitely reward you handsomely." Su Yu said helplessly.

The shopkeeper smiled. "Of course! However, please don't have high expectations. This item can only be found once in a blue moon. It will be extremely difficult to get it without luck."

Su Yu's face darkened. He bade farewell and returned to the inn.

Stroking the silver box, he could not help but frown. "It seems that I have thought too easily."

Dong Dong --

"Who is it?" Su Yu immediately became alert.

"It's the waiter. Sir, two of your friends have come to visit. They want me to report to them."

Su Yu came here alone. How could he have any friends.

A pale light flashed across his eyes, and he clearly saw the scene downstairs.

"Why do I look so familiar?"

Two women quietly stood downstairs. One was a beautiful woman in white palace clothes, and she had an extraordinary bearing.

The other was a young woman in a butterfly dress. She had crystal eyes and white teeth, and she stood gracefully like a fresh flower.

For some reason, Su Yu felt that the young lady looked familiar. It was as if he had seen her somewhere before.

Suddenly, the image of the jade-faced young master flashed in his mind. His face gradually overlapped with the beautiful face of the young lady in front of him.

“It’s her?” Su Yu frowned. He had clearly knocked her unconscious. Why was she still able to track him down?

Moreover, she had brought along a mysterious woman in Palace attire.

The other party’s body was emitting indistinct fluctuations from the array formation, causing Su Yu to be unable to see through it.

The beautiful woman dressed in palace attire seemed to have sensed it as she met Su Yu’s clairvoyance eye. She smiled sweetly and gave him a blessing.

She had been discovered! Su Yu was secretly shocked!

Even an emperor might not be able to sense his clairvoyance eye.

This woman was somewhat extraordinary.

Su Yu’s gaze flickered as he said, “Let them come up!”

From the looks of it, the two did not have any ill intentions.

“You are indeed here!” The young lady in the butterfly dress pushed open the door and entered. Her eyes immediately lit up when she saw Su Yu.

The beautiful woman in the palace dress reprimanded, “Don’t be rude!”

She then turned to Su Yu and chuckled, “Fellow Daoist, you have a deep understanding of the Dao.”

At this moment, he had his true appearance and his face was cold. “We don’t seem to know each other, right?”

The beautiful woman in the palace attire sat down gracefully and looked at Su Yu. “You might not know me, but I believe that you already know who my niece is, right? Why do you have to pretend that you don’t know her?”

Su Yu glanced at the girl in the hundred butterfly dress and shook his head. “Sorry, I don’t know her.”

“HMPH!” The girl in the hundred butterfly dress bared her teeth. “Stop pretending. Other than you, there is no one else in the imperial city who can use the yin-yang evasion technique. If I’m not mistaken, it should be a secret technique of the Taiji sect, right?”

Su Yu lowered his head slightly. He did not deny or confirm.

“Fellow Daoist, don’t be anxious. We came here with no ill intentions.” The beautiful woman in the imperial dress took out an exquisite brocade box.

“What does this mean?” Su Yu raised his eyebrows.

The beautiful woman in the imperial dress said, “I believe that you still don’t know the identity of your niece, right? She is Princess Ruchen.”

What? Su Yu was stunned. He could not help but look at the girl in the hundred butterfly dress in surprise.

Princess Ruchen would personally assassinate Fantasy Moon Langjun?

The beautiful woman in the palace dress was a little helpless. “Ruchen has lacked discipline since she was young. I’m sorry for making a fool of myself.”

Suppressing his fluctuating emotions, Su Yu frowned and said, “May I know the purpose of the princess and the Emperor’s visit?”

Even though he said this, his expression didn’t show the slightest fear or trepidation.

The beautiful woman in the palace dress was slightly surprised. Could this person see through that she was an emperor?

After putting on a serious face, the beautiful woman said, “I believe that fellow Daoist should know that this time, the great Yu Emperor Dynasty’s civilization has been promoted to a three-star civilization. The undecided position of the crown prince is about to be confirmed, right?”

This matter was not considered a secret in the imperial city. Su Yu had heard of it many times.

Looking at Princess Ru Chen, he could not help but be surprised. “Could it be that princess ru Chen also wants to compete for the position of the Crown Prince?”

Princess ru Chen raised her chin. “Why, is that not possible? Is it because I’m a Woman?”

This action of hers was unlike that of a man’s. There was an imperceptible calmness and wisdom in her expression, but it was fleeting and hard to catch.

“That’s not it.”

In the world of martial arts, strength was respected. The idea of prioritizing men over women was not as thin as a mortal’s.

As the leader of a sect, the leader of a force, and even the Emperor of an empire, women were everywhere.

“I just feel that where did princess ru Chen get the confidence to compete with her royal brothers?” “As far as I know, the princess has not had any emperor’s loyalty yet. On the other hand, the other emperors are all loyal, especially the crown prince. Not only did he get the support of the Four Emperors, but he was also appointed as the crown prince many years ago.”

“No matter how you look at it, the crown prince being appointed as the next emperor is a done deal, right?”

Princess ru Chen did not think much of it. “Hehe, if it’s really a done deal, then why have the other royal brothers been secretly trying to rope in the other powers all these years?”

The beautiful woman in palace attire added, “Fellow Daoist, you might not know this, but the king’s support is only secondary to the emperor’s legacy of the Great Yu dynasty. The most important thing is to seize the country’s fate. Only those who gather the country’s fate together can become the emperor. Once they become the emperor, no matter who the ten kings were loyal to, they can only serve the new emperor from now on.”

This was different from normal political battles.

However, Su Yu rejected decisively, “Unfortunately, I don’t want to get involved in the struggle for the throne of the dynasty for no reason.”

The beautiful woman in the palace seemed to have already expected this. She chuckled, “Why do you have to reject it right away, fellow Daoist? Why Don’t you take a look at the brocade box first?”

Oh? So Confident?

Very few ordinary resources, especially plants and vegetation, could catch his eye.

After pondering for a moment, Su Yu opened the Brocade Box. His pupils could not help but shrink. “A fragment of the fiery extinction crystal?”

His expression immediately darkened. “You guys are following me?”

The beautiful woman in palace attire said indifferently, “Fellow Daoist, do you think that with the power of the imperial family, we still need to follow a person to investigate?”

That was true. This was the imperial city. It was easy for the imperial family to investigate a person.

Su Yu’s expression relaxed slightly, and he said, “What I want is the complete fire extinction crystal, not a fragment.”

This item had an irreplaceable effect on him breaking through to the peak overlord realm. If the other party could provide the complete fire extinction crystal, it might be worth it to help them within their capabilities.

The beautiful woman in the palace clothes frowned slightly, and princess ru Chen also became distressed. “The imperial family’s last treasured fire extinction crystal was used a hundred years ago, and we haven’t gotten it ever since. I’m afraid...”

Suddenly, the beautiful eyes of the beautiful woman in the palace dress flashed. “We don’t have the flame crystal, but we have just received the news of the three tastes fire spirit.”

Su Yu’s eyes flashed, and he began to ponder, he heard the beautiful woman in the palace dress continue, “The royal family has prepared a group of people to go there to hunt. Unfortunately, that group of people was sent by the first prince. If they get their hands on them, it will be very difficult for them to come over.”

“You want me to work for you with just a piece of news?” Su Yu said calmly.

The beautiful woman shook her head, "Of course not! We can give you the news for free, and we will also send a group of people to hunt with you! "As a reward for joining us, I can make the decision and give you a place in the first-class rain range."

"Aunt, are you crazy? How is this possible?" Princess ru Chen could not help but say, "That is a range that only people from the royal family can enter. It will be personally verified by the imperial uncle of a double-crowned emperor. How can it be fake?"

Su Yu was also moved.

He had understood after the event the difference in the level of the rain range.

The first-class range was the center of the rain range, which was less than a hundred miles.

However, the Dao rain that descended was pure and dense. Its effect was three times that of the second-tier area!

The second-tier area was five times that of the third-tier area.

Similarly, the fourth-tier area was at the edge of the Dao Rain. Its effect was abnormally weak.

If he could enter the first-tier area and combine it with the Blood Crystal Bodhi that had exceeded its maturity, Su Yu was confident that he could forge a law in the inner mansion in one go!

However, just as Princess Chen had said, only people from the imperial family could enter the first-class area.

With the protection of a double-crowned emperor, all cheating could basically be eliminated.

A strange look flashed across the beautiful woman's face as she smiled mysteriously. "I have my own ways, but I can't say it now!"

Su Yu frowned.

"Fellow Daoist, don't worry. If I can't fulfill my promise by then, you can leave. I believe that with fellow Daoist's escape technique, I won't be able to keep you."

After pondering for a while, Su Yu slowly nodded. "Sure!"

With that, the beautiful woman and princess ru Chen were both delighted.

"I'll record the news of the three flavoured fire spirit for you." The beautiful woman stuck a jade slip on her forehead and passed it to Su Yu.

After both sides reached an agreement, the beautiful woman was in a good mood. "Fellow Daoist, why don't you follow us back to the Princess's residence? I'll immediately arrange for a group of people to head there."

Su Yu did not refuse. The three tastes fire spirit was an emperor-level existence. It would be much easier if there was someone to assist.

He caught a glimpse of princess ru Chen's happy expression from the corner of his eye. Su Yu's footsteps were slightly startled. After hesitating for a moment, his gaze flashed as he asked, "Can I ask the two of you a question?"

The beautiful lady in the palace dress chuckled. "Please speak."

Su Yu said, "May I ask, what is the ancient Fuyao Array?"

The appearance of the emperor's corpse made it difficult for Su Yu to calm down.

Princess ru Chen's eyes were blank, and the beautiful woman in the palace dress was puzzled as well. She asked, "Where did you hear it from?"

They didn't know either?

"I overheard it unintentionally. Since you guys don't know, then forget it."

The beautiful woman in the palace dress remained expressionless. "I will order someone to investigate on your behalf."

With a sweet smile, she turned around and led the way.

But at that moment, her expression changed. She glanced at Su Yu from the corner of her eye, a strange look in her eyes.

She had something to do yesterday, so she had to make up for it today.

Chapter 1788 Strange Charred Corpse (Second Watch)

In the depths of the Majestic Palace, in front of a magnificent glazed hall with dragons and phoenixes carved on it.

Su Yu carefully checked his travel preparations.

"Glazed heaven fire talisman", "Traceless steps on fire", "Golden toad fire-proof clothes".

The place where the three flavors fire spirit was located was an extremely hot area. It was difficult for ordinary people to get close to it, so they needed to borrow some external objects.

Princess ru Chen was very efficient. In a short day, not only did she prepare the resources, but she also prepared a group of elite teams to assist Su Yu in hunting the three flavoured fire spirit.

"Young master Su, this is the team that will follow you. This is the team leader, BI he tu." Princess ru Chen brought a team of three from somewhere.

The leader was a burly man wearing black armor with a black iron blade at his waist.

His shoulders were wide and his back was broad. He was very burly.

His entire body emitted an extraordinary aura of a half-step emperor.

The other two were a man and a woman.

The woman's figure was graceful, but her beauty was average.

The Man's face was white and beardless. He was exceptionally handsome.

Both of them were not old and were roughly the same age as Su Yu. What was valuable was that their cultivations were not low and were at the level of a peak overlord.

"Greetings, Princess." The three of them stepped forward to greet her.

Princess ru Cheng nodded her chin. "You must assist young master Su on this trip and take down the three flavors fire spirit in one fell swoop. Don't make any mistakes, understand?"

"Yes!" The three of them looked at Su Yu.

The black-armored man was still fine, and his expression did not change. The white-faced young man, on the other hand, threw a slight smile.

The graceful woman frowned slightly, and there was a hint of unwillingness in her eyes.

She and the white-faced young man were both young elites that princess ru Chen had secretly recruited over the years. Now that they had received the transfer order, they were going to help the other person hunt down the three flavors fire spirit.

What she was very dissatisfied with was that the person she was going to help was actually princess ru Chen's newly recruited advisor.

Now that they had met, she realized that the other party's cultivation was not even comparable to hers, so she was naturally unconvinced.

In terms of cultivation, she was above the other party, so how could she be willing to work for Su Yu?

"Then let's set off." Princess Ru Chen gave the three of them the same fire-repelling materials and used the teleportation array that the imperial family treasured to directly arrive at the fiefdom.

They appeared at the heavily guarded Imperial envoy embassy.

The imperial family had an imperial envoy in each fiefdom who was responsible for the communication between the imperial family and the fiefdom.

The imperial family's dedicated teleportation array was located here.

The imperial envoy, he yun, sensed that there was something wrong with the imperial family's array formation and stood respectfully in front of it.

When the four of them appeared, the imperial envoy, he yun, sized them up and asked politely, "May I ask who you are?"

The armored man did not say a word. He took out a platinum token from his waist and said, "We have received orders from princess ru Chen to do a special task. Let them out quickly!"

The imperial envoy, He Yun, had a slight change in expression. He immediately ordered the guards to release the array formation and let them out.

The four of them did not say anything. They rushed out of the embassy and disappeared into the horizon.

The imperial envoy He Yun's gaze turned slightly as he secretly crushed a jade slip.

The local imperial residence.

A dignified middle-aged man dressed in a sparrow robe was in the secret room checking the injuries of a slightly pale-faced woman.

Suddenly, his heart moved slightly. He glanced at the jade slip on his waist and his expression darkened.

“Father, is this news about Imperial envoy he yun?”The woman turned around and asked.

The bird-robed middle-aged man nodded. “That’s right. He said that the imperial family has sent another group of mysterious people to Beixin fief.”

The woman’s face was filled with worry. “Could it be that the imperial family has discovered the loss of Beixin Royal Cauldron?”

If Su Yu was here, he would definitely be familiar with her. This woman was Bei Wangzhu.

And the middle-aged man in the Sparrow Robe was the current Beixin King.

Unfortunately, the place where the three flavors fire spirit appeared was the beixin fief.

“There is no such thing as an impenetrable wall in this world. It is only a matter of time before the royal family finds out. However, what is worrying is that we have not made sufficient preparations.”The middle-aged man in the Sparrow Robe had a gloomy expression on his face.

Ever since the loss of the Wang Cauldron, the Beixin lineage knew that a great disaster was coming.

Once the royal family found out, they would either abolish their cultivation or, at worst, confiscate their family and behead them.

When they learned that the person who stole the king’s Cauldron had a double crown emperor and a corpse race background, the higher-ups of Beixin’s lineage came to an agreement.

The entire clan had fled the imperial dynasty!

All these years, they had been secretly preparing to escape at any time.

Now that they heard that the royal family had sent an unknown force into Beixin’s fief twice, how could they not be nervous?

Beixin Feng King took out a bronze mirror and pointed at it. He shouted in a deep voice, “Inform the elders to get rid of this group of people. Don’t let any of them escape!”

Beiwang Zhu’s expression changed. “What if they are not investigating Wang Ding? Wouldn’t that alert the enemy?”

Shaking his head, beixin feng king said, “There’s no other way. We can only gamble.”

As soon as he finished speaking, Beiwang Zhu’s expression changed. He bit his lips tightly, and a strange redness hung on his cheeks.

His eyes were watery, and he gradually lost his mind.

King beixin’s expression was gloomy. “It’s starting again?”

The young girl nodded and said in a trembling voice, “Father, save me...”

King Beixin's eyes revealed a fierce look. "This is a curse unique to the corpse race. Ordinary methods are useless. It seems that you have no choice but to go to the imperial city and enter that place!"

..

Mount Ziluo.

This was the third largest volcano in Emperor Yu's dynasty. Just the diameter of the volcano alone was more than ten thousand li.

The underground magma covered an area of millions of Li.

The thick steam blotted out the sky and covered the Sun. It was a dusky yellow.

Xiu --

Four rays of divine light cut through the dusky sky and landed at the crater of the volcano.

The armored man stared at the volcano that was about to erupt below. His expression changed and he shouted, "Get ready. We are about to enter the volcano."

The three people behind him immediately put on their fire-proof clothes and fire-repelling shoes and jumped into the volcano together.

The scorching fire aura surged over. When it landed on the fire-proof clothes of the golden toad, it was deflected. Only a small amount of the fire aura affected them.

This thing was indeed magical!

After falling for tens of thousands of feet, a human-sized cave that had been scorched by the lava suddenly appeared on the wall of the volcano.

"It's inside!" The armored man compared the information he got and his eyes were burning. He stepped into the cave in a flash.

The white-faced man and the slim woman followed closely behind, while Su Yu was at the back.

He looked at the boiling lava below, which looked like a lake. Some fire-type creatures that could be seen with the naked eye were swimming inside.

Many of their auras were not weak, and there were even peak emperors.

Along the way, he always had a question. As the third largest volcano, there should be cultivators who captured fire-type creatures all year round.

Why hadn't anyone discovered the three flavors fire spirit for hundreds of years, yet it was suddenly discovered recently?

"Your Excellency, it's better not to be a burden. Mount Zi Luo is full of danger. Staying here for even a second is dangerous." The slim woman turned her head and said unhappily.

Su Yu came back to his senses and turned around to follow her.

The cave was zigzagging, and it meandered into the depths of the underground. The deeper they went, the higher the temperature and the hotter it became.

As they stepped on the ground, sizzling sounds could be heard as white smoke rose up from the ground. Even though there were no traces of their footsteps, they could still feel the burning pain under their feet.

When they reached the end, the ground caved in as layers of lava seeped out.

Suddenly, Su Yu's expression changed and he immediately halted his steps.

Through the eye of insight, he saw two charred corpses deep in the tunnel.

"Be careful!"The armored man's eyes narrowed as he waved his hand to stop the group.

The slim woman was shocked. "What's going on?"

"There's a situation ahead. Everyone, be on alert."

Divine light immediately surged from the surface of their bodies as they cautiously moved forward.

At the turn, two charred bodies appeared in front of them.

The clothes on their bodies were completely destroyed, and it was impossible to tell which faction they belonged to.

The armored man squatted down to examine them and frowned. "When they were alive, their cultivation level should have been at the peak overlord level. Their bones were only thirty years old, and they died from powerful fire attribute attacks."

The pupils of the white-faced young man and the slim woman constricted. A peak overlord who was not even thirty years old, wasn't he a young genius who was even more talented than them?

The second half of the sentence made them even more vigilant.

Dying from a fire attribute attack made them immediately realize something.

The armored man stood up, his expression much more solemn. "It looks like the first prince sent a group of people. From the way he died, it's most likely the work of that three tastes fire spirit."

Their expressions became much more solemn.

No matter how strong the fire spirit was, it was still an emperor level existence.

"It might not have been the fire spirit."Su Yu observed for a long time.

The slim woman chuckled. "What do you have in mind, Young Master Su?"

The sarcasm and ridicule in her words could not be clearer. Su Yu acted as if he had not heard it and could not be bothered to argue.

This was not the first time this woman picked up needles along the way. She seemed to have a deep prejudice against him.

The armored man looked over seriously. Just now, Su Yu had discovered two corpses before him, and he had seen all the subtle movements.

"Fellow Daoist SU, if you have something to say, just say it."

Su Yu looked at the charred corpse, took out a small sword, and slashed at the charred corpse.

With a puff, the charred corpse split into two, and a large amount of black smoke shot out from it.

The armored man's expression changed. "Protect the surface of the body. It's a poison barrier!"

The three of them stared at the corpse in shock, their expressions constantly changing.

They had never heard of the three flavours fire spirit being skilled in poison arts!

Clearly, the cause of their deaths was man-made.

"There's an unknown force lurking in the shadows. We must be even more careful." The armored man looked at Su Yu.

Su Yu pondered for a moment. "Everyone is here for my business. Why Don't you let me lead the way? Moreover, I'm proficient in some ocular arts, so my perception of danger might be even sharper."

The armored man pondered for a moment before saying in a deep voice, "Then you be careful. If anything happens to you, it will be difficult for us to answer to Princess Ru Chen."

The white-faced young man smiled and gave a friendly expression.

The slender woman's brows furrowed. "HMPH! We should have done this a long time ago!"

Shrugging his shoulders, Su Yu did not mind and led the group forward.

Not long after, they reached their limits. The fire-proof clothing and the golden toad on their bodies began to show signs of damage.

Seeing that they were about to reach their limit, Su Yu's eyes suddenly lit up. "Found it!"

After a turn, a lava lake appeared in front of them.

In the Lava Lake stood a pitch-black reef.

On the reef lay a crystal that looked like a fox. Sensing that a creature was approaching, the crystal hurriedly crawled toward the lava lake.

However, it moved very slowly, even slower than a turtle.

This thing was the three flavors fire spirit. It was a spiritual martial art that was born from fire essence, and its intelligence was extremely low.

It had the cultivation of a natural emperor, but it didn't have any actual combat experience.

The white-faced young man and the slim woman's faces lit up. Princess ru Chen had told them that if they found the three flavors fire spirit, they would be rewarded with a true emperor rank divine weapon.

If anyone caught it, they would be rewarded with another one.

The two understood each other and shot out like sharp swords, trying to catch the three flavours fire spirit.

"Stop!" Su Yu's face changed and warned.

Chapter 1789 The Wula Brothers (Third Watch)

The armored man also sensed something and intercepted them in the air. he shouted, “Don’t be Rash!”

However, the two of them had already rushed out of the shore and arrived at the pitch-black reef in an instant.

Was there any danger? The two of them had a false alarm. They looked at each other and grabbed the three flavoured fire spirit.

At this moment, something strange happened.

Beside the three flavoured fire spirit, an undercurrent suddenly appeared and two dark grey darts were shot out.

Their expressions changed drastically.

The slim woman was shocked. She took out a small bell and shook it with all her might.

An icy blue material ripple swept out, causing the darts to slow down slightly.

Taking this opportunity, the slim woman retreated.

However, the white-faced young man was not so lucky. He took out a white jade shield of good quality and placed it in front of him.

In the end, the dark gray dart pierced through the white jade shield in an instant and directly struck the white-faced young man’s chest, leaving a bloody hole the size of a bowl.

Ah!

With a shrill scream, the white-faced young man flew backwards into the lava and turned into steam.

Seeing this, the slim woman who had just retreated turned pale and was extremely terrified.

The armored man’s expression also changed drastically. he shouted, “Who’s sneaky? Come out quickly!”

But there was no one there!

Suddenly, a light flashed in the depths of Su Yu’s eyes. “Bi Hetu, be careful!”

As soon as he said that, Su Yu held the Shura Sword in his hand and blocked in front of the armored man’s chest.

Ding --

The moment the Shura Sword blocked the Shura Sword, a dark gray dart suddenly appeared and hit the Shura Sword.

Su Yu’s hand trembled. The Dart contained a huge force and almost sent the Shura Sword flying.

Even so, the armored man was still bounced back by the Shura Sword. He took a few steps back, his blood boiling.

His eyes were filled with shock as he said in a serious voice, “Dark Qian Dart, are you the brother Wu La who is ranked 70th on the wanted list?”

The slim woman said in surprise, "Brother Wu La, the twin assassin that caused a sensation many years ago?"

A thousand years ago, two notorious assassins suddenly appeared in the Emperor dynasty of Great Yu and specifically took on assassination missions in the black market.

Regardless of whether they were high-ranking officials or nobles, sect disciples, or even princes, they were all targets.

As long as they paid, there was no one that they did not dare to assassinate.

Until 500 years ago, when the two of them succeeded in assassinating an emperor of heaven and earth, it completely shook the great Yu imperial court.

But after that, the two of them seemed to have vanished from the face of the Earth, never to be seen again.

It was rumored that they were killed by the imperial family in secret, but there were also rumors that they had gone far away from the Great Yu imperial court.

Who would have thought that they would actually run into them here.

The Armored Man's heart sank to the bottom.

He was not confident that he could defeat one of the Wula Brothers in a one-on-one fight, let alone two of them.

"Zi Xin, protect young master Su and retreat. I will hold them off First!" The armored man shouted. Black Light appeared above his head and turned into a pitch-black sun.

"Come out!" The Black Sun's black light was generous and covered the entire lake.

Immediately, they came out not far away. Under the Black Light, two translucent gray figures appeared.

They crouched on the ground like cheetahs, silently pincer from left and right.

Who would have thought that the armored man's secret technique was quite good at cracking secrets, seeing through the two's tracks.

Their tracks were exposed, so the Wula brothers decided to stop hiding and attack.

The two of them turned into two gray afterimages. Two rows of darts with dozens of them shot out at the same time.

The darts sealed off all the space of the armored man in front, back, left, and right, making it impossible for him to avoid them. He could only fight head-on.

"Great Sun Heavenly Thunder!" The armored man shouted again. He grabbed the black sun above his head with one hand and crushed it suddenly.

Bang --

A shocking energy shock wave swept out with him as the center.

The powerful darts were like leaves that were all blown away, scattering in all directions.

However, only two broken lines were not affected. They directly brushed past the armored man, and two cold blades appeared, stabbing toward the armored man with a thunderous momentum.

His expression changed drastically. He pulled out the black iron mo blade at his waist and shouted, "Cloud piercing moon!"

With a swing of the blade, twelve pitch-black afterimages swept out in two different directions.

This move was extremely powerful and was no weaker than Su Yu's devil from the heart.

However, the blades of the Wula brothers were abnormally terrifying. They continuously pierced through the afterimages and stabbed towards the armored man without any obstruction.

The armored man's face was filled with despair as he roared crazily, "Then we'll die together!"

He pounced forward and fortunately gave up on his back. The Mo blade in his palm pounced straight at the Gray Shadow in front of him. It was a clear sign that both sides suffered heavy injuries.

However, the Wula brothers were famous for their assassinations. They were best at life-and-death battles.

The Gray Shadow in front of them was extremely agile. It avoided the armored man's attack at a strange angle.

The gray shadow behind them flashed, and the cold blade in his palm quickly stabbed into the armored man's body.

The slim woman saw it and cried out in surprise, "Bi Hetu, be careful! !"

She suddenly felt her vision go black, and a strong gust of wind suddenly flashed past. Su Yu, who was clearly not far away from her, disappeared into thin air.

Clang --

With a loud sound, a person suddenly appeared behind the armored man. He used the blood sword in his hand to block the Gray Shadow's fatal attack.

The Gray Shadow's attack had already left, and it merged with another Gray Shadow.

The armored man's heart trembled. The fear of having been through the gates of Hell could not be dispelled.

"You..."the armored man stared at Su Yu, his eyes full of shock.

The two consecutive assassinations of the Wu La brothers were enough to prove that Su Yu's movement, perception, and swordsmanship had reached a high level.

"Protect Zi Xin well. I'll do it."Su Yu's back was facing the armored man as he looked at the Wu La brothers from afar.

From the situation of their fight, they didn't break through to the Emperor realm like Fantasy Moon Langjun. If that was the case, it would be much easier to deal with them.

Chi --

The Wu La brothers once again split into two afterimages and circled around Su Yu at high speed, looking for the best opportunity and angle to attack.

They had also noticed Su Yu's abnormality and decided to get rid of him first.

Su Yu blinked coldly and circulated his ocular power. The two afterimages were unusually slow and clear in Su Yu's eyes.

He clenched his hand and immediately drew his sword. "Heaven-cleaving sword!"

Boom --

The whole underground space was trembling violently, and the crazy sword energy shot out in two opposite directions like a volcano erupting.

Keng --

Rub-a-dub

Two high-speed operation of the Gray Shadow, was hit by the exact same line, the figure of the emergence of a sorry figure, and back again and again.

Seeing this scene, the armored big man's pupil fiercely shrinks: "Half Step Emperor One Strike?"

The cold sword qi refreshed his understanding of Su Yu.

The Slim Woman's eyes widened and her face was full of disbelief. She said in a trembling voice, "He, he is actually so powerful?"

The famous Wu La brothers were actually no match for the power of Su Yu's sword!

The gray shadows gathered again and were completely revealed. They were two identical twin brothers. Their eyes were sunken, their faces were shriveled, and their bodies were as thin as firewood.

Their sunken eyes shone with traces of shock at the same time.

Clearly, they had not expected Su Yu to be so powerful.

Su Yu stared coldly at the two of them. "The two of you, before you die, do you want to give me an explanation?"

There was no enmity between the two of them, but they were hiding near the three tastes fire spirit, the person who had assassinated them.

The Wu La brothers revealed some fear on their faces. Their instincts told them that the sword attack just now was far from his true strength.

If they continued to fight head-on, they would be the ones to die.

The Wu La brothers said in unison, "Idiot! We were hiding there to avoid being chased. Who told you to suddenly approach us?"

Hide? Su Yu, the armored man, and even the Slim Woman's heart skipped a beat.

What could chase after the Wu La brothers and make them hide?

“You shouldn’t have come here. If you want to live, quickly hide!”The Wu La brothers shouted in unison as they rushed towards the cave together.

Su Yu’s eyes flashed coldly. Just as he was about to chase after them, he suddenly sensed something and his expression changed. Yin and yang Qi immediately surged out of his head and disappeared from where he was in an instant.

Pu --

In less than a breath’s time, a dark purple blade shadow suddenly stabbed out from the depths of the exit.

A palm-sized dent was left where Su Yu was!

However, it was not caused by the blade aura, but was corroded!

At the same time, two gray shadows flew backward. The dark purple saber shadows were crushed by the saber shadows and eventually corroded into a black and purple bloody mist.

The purple saber shadows scattered and turned into a purple mist that spread in all directions.

The ground was corroded until it was full of potholes, and the divine aura in the air was completely corroded.

The armored man and the slim woman were so shocked that they activated the divine light on their bodies to resist with all their might.

Then, the sound of slow and steady footsteps could be heard.

“Hehe, we’ve finally found the two fish that escaped the net.”A sinister smile came from the cave.

A green-robed middle-aged man shrouded in shadows appeared.

A pair of small, dim yellow eyes sized up Su Yu and the others. Then, he took out a jade butterfly and compared it with the others. The corners of his mouth curved into a cold smile. “Oh? The second kill list is also there. It’s just that one person is missing.”

The Wu La brothers were hiding from this person! !

Su Yu retreated to the front of the armored man and the slim woman and said in a serious tone, “Poison Emperor?”

This person was actually a heaven and earth emperor who was good at using poison!

“Who ordered you to chase after us?”Su Yu thought to himself. The targets of the other party were not only them, but also the people sent by the first prince.

The green-robed man walked out of the cave with a cold smile on his face. “Is it necessary for a dead person to know so much?”

As soon as he finished speaking, swarms of black scorpions jumped out from under his feet. They were as big as fists.

The Scorpion’s tail flashed with a dim red light.

“Be careful, it’s a red wolf poisonous scorpion!”The Armored Man’s face changed drastically. He was very clear about the fierce reputation of this creature.

A single red wolf poisonous scorpion could contend against a mystic crystal overlord. Even an emperor wouldn’t be able to withstand hundreds of poisonous scorpions.

“Devil Moon revolving stance!”Su Yu’s expression was calm as he waved out an arc-shaped sword qi.

Large amounts of red wolf scorpions were sent flying back and killed in the air. A small number of them escaped from the side.

Su Yu waved his sword a few times consecutively and destroyed all of them.

The green-robed man sneered, “A mere ant dares to harm this Emperor’s Scorpions?”

Hiss --

A black shadow flashed behind the green-robed man, and the armored man felt as if something had disappeared.

When he focused his eyes again, a purple-black poisonous snake as thick as an arm bit Su Yu’s body like lightning.

However, it was the Shura Sword in Su Yu’s hand.

“A half-step emperor-level poisonous snake?”The armored man’s expression changed dramatically.

Su Yu’s giant sword shook, but the purple-black poisonous snake didn’t succeed in one attack. It immediately let go, and its three-meter-long snake body wrapped around the Shura Sword. Like Lightning, it climbed toward Su Yu’s arm and opened its bloody mouth again to bite.

Chapter 1790 Dragon Palace Ruins (Fourth Watch)

“Evil creature!”Su Yu snorted and waved his huge sword.

The Devil Lord swept across the world.

The purple-black poisonous snake was confused for a moment. Taking this opportunity, the asura sword shook abruptly, and the cold edge of the sword crushed the poisonous snake into dozens of pieces, which fell to the ground and twisted.

However, Su Yu didn’t stop immediately. Instead, he threw out the glazed heaven fire talisman, which burst out a ball of green flame and burned the snake corpse clean.

As it burned, one could clearly see the thick purple-black poisonous snakes hiding in the snake corpse. They were also burned to death.

When the armored man saw this scene, his pupils constricted. There were hundreds of small poisonous snakes hidden in the snake corpse?

This was probably the true killing move of the purple-black poisonous snakes, right?

“Kid, you’re courting death!” After being seen through by the purple-black poisonous snakes, the green-robed emperor was furious.

However, when he shook his green robe, nothing happened. However, the expression of the armored man and the slim woman suddenly changed. They covered their heads in pain, as if there were tens of millions of ants gnawing on their heads.

Their souls had been poisoned!

The invisible poisonous fog that was released by the attack just now was an attack aimed at their souls.

Su Yu was the same. He covered his head and revealed a pained expression.

“Humph! You overestimate yourself.” The green-robed man shook his sleeves disdainfully. He raised his index finger and shot out a dark purple poisonous fog blade aura, enveloping the three of them in front of everyone.

Just like the Wula brothers, he wanted to poison them to death on the spot.

The moment the blade aura descended, Su Yu, who was in pain, suddenly raised his head. The Shura Sword in his hand had changed into a dragon-shaped longsword.

The Sword Qi swept across, and a sword Qi that caused the green-robed man’s expression to change suddenly slashed down from the sky.

The green-robed man was caught off guard and retreated repeatedly. He hurriedly released several poisonous fog barriers in front of him.

Unfortunately, he had always underestimated Su Yu. His defense was limited in his panic. The several layers of barriers were easily shattered like paper. He himself took a hit.

Puff --

He opened his mouth and spat out a mouthful of poisonous blood. The green-robed man was directly sent flying and smashed into the wall.

Taking this opportunity, Su Yu grabbed the armored man and the slim woman with his left and right hands.

However, he did not leave just like that. Instead, he stepped on his toes and stepped on the three tastes fire spirit that was about to escape into the lava. With a tap of his toes, he kicked it high into the air. Then, he opened the nine Jade Spirit Pearl and put it into it.

Only then did he rush into the cave.

As he stepped into the cave, a shocking roar of the green-robed man echoed behind him.

“Don’t even think about leaving! !”

The entire cave was buzzing. Su Yu’s ears were in a daze, and his body stiffened slightly.

But in an instant, he returned to normal.

As he sprinted, he used his Taiji Yin-yang wings to run wildly in the cave.

The green-robed man was both shocked and furious. The other party was clearly an insignificant human, but his speed was extremely strange.

Every time he was about to grab him, his opponent would suddenly open up a large distance.

This feeling was not like chasing after a mystic crystal overlord. Instead, it was like fighting with someone of the same level, causing him to be extremely shocked.

Su Yu's expression was calm, but his heart sank slightly.

Just now, he was able to escape from his opponent's soul poison because he had condensed a soul crystal. His opponent's poison fog could not harm him.

However, his opponent clearly did not use his full strength.

If he were to fight head-on, Su Yu's chances of winning were very small.

If it was in an ordinary area, he could directly activate the advanced chapter of the Taiji Yin-yang wings and instantly escape tens of billions of miles away. He was not afraid at all.

However, this place was buried deep underground. The fire element was too dense, affecting the balance of the yin and yang qi.

It was fine if it was a short distance, but if it was a long distance teleportation, it would definitely fail.

Only by leaving the volcano would there be hope of escaping.

The green-robed man behind him was biting down on him tightly, but if nothing went wrong, he should be able to escape from the underground first.

The two of them chased each other for two hours.

The fire element in the vicinity had weakened by more than half. Su Yu's face lit up, and he was about to leave the underground.

As expected, everything in front of him was red. It was the exit of the cave he had come from.

Chi --

Su Yu took a step forward and hovered in the air above the huge volcano.

At this moment, the green-robed man seemed to have noticed Su Yu's situation and used some unknown method to increase his speed by five times.

Su Yu took a step forward and he caught up with him. A purplish-black chain rushed out with a chi sound and swept toward Su Yu and the others.

The law chain!

Su Yu's face darkened. Without thinking, he launched another attack with the Royal Longzun Sword.

The enormous dragon-shaped sword qi swooped down and slowed down the oncoming chain, but the dragon-shaped sword qi immediately dissipated.

The dispersed sword Qi came back like a tsunami, knocking Su Yu back.

His clothes were all cut into pieces by the sword Qi, and his skin was covered with ferocious sword marks. He spat out a mouthful of blood, and his eyes dimmed slightly.

As expected!

If he fought the emperor head-on, he had no chance of winning!

Seeing the chains coming at him again, Su Yu did not think twice. He shook his right wrist, and ten invisible transparent threads flew out of the bracelet, forming a net in front of him.

Ka --

A shocking scene appeared.

The law chains hit the net and penetrated it without any obstruction, as if the net was nothing.

However, the green-robed man's face stiffened, and he spat out a mouthful of blood. His face was extremely pale, and he said in shock, "My law..."

After the law chain passed through the net, dozens of tiny cracks appeared on its surface.

Then, the chain was cut into more than forty small pieces of various sizes.

Pu --

As if he was heavily injured, he spat out another mouthful of blood, and the green-robed man roared, "Destroy my law, I Want Your Life!"

Roar --

With him at the center, a dark green storm suddenly erupted. It was filled with a terrifying poison.

Su Yu's expression changed. He pulled back the thread and helped the two of them to fly into the sky.

The dark green storm rose up crazily from the bottom up. It was like a poisonous dragon, biting at them.

Su Yu focused his eyes and quickly left the crater.

When he noticed that the fire element element was calm, his face lit up. He immediately activated the advanced Taiji Yin-yang wings.

Roar --

At this moment, the poisonous dragon swallowed them in one gulp.

However, at the critical moment, they successfully teleported away.

"No! !"The green-robed man let out an earth-shaking roar, shaking the entire volcano.

Even the lava lake that had been quiet for countless years began to turn upside down.

After a long time, the green-robed man's eyes turned red and his face was full of resentment. "Damn it! I want to make him beg for Death!"

The Roar once again shook the lava lake that had just calmed down, shocking the thousand-foot-long waves.

However, at this moment, a cold and angry snort came from the bottom of the lava. “You’ve disturbed my cultivation again and again. I Won’t let you off!”

What? The green-robed man’s body was shaking violently from the loud voice. He subconsciously looked into the lava lake, and a thousand-foot-long fiery-red dragon suddenly rushed out while stirring the lava.

“Dual-crowned Dragon Clan! !”The green-robed man roared and turned around to escape.

However, just as he escaped from the volcano, a bloody dragon mouth bit off half of his body.

Then, the incomparably hot dragon breath blew over and instantly melted the remaining half of his body.

The thousand-foot-long fire dragon raised its neck and swallowed half of the green-robed man’s body into its stomach.

The huge dark red dragon eyes coldly glanced in the direction Su Yu had fled to. “HMPH! At least you escaped quickly!”

Then, he turned around and jumped into the lava.

After a series of tumultuous events, the lava soon calmed down, but there were countless broken limbs of fire-attributed creatures.

Huala --

The fire dragon rushed out again, with an emperor-level fire-attributed creature in its mouth, the savage dragon roared, “This group of low-intelligence fire-elemental creatures sensed my awakening and escaped. Otherwise, they would have a feast!”

All of a sudden, the fire dragon stared in the direction of the royal family and exclaimed, “That’s...”

After a long while, greed shot out of its fierce eyes, “I didn’t expect that a corner of the Dragon Palace would be here! It’s a good thing for me!”

Roar --

With a deafening dragon roar, the fierce fire dragon turned into a flame and rushed toward the imperial city.

--

Somewhere in the imperial dynasty.

On a lone island, a huge amount of yin and yang Qi suddenly gathered. Then, it suddenly spread out, and three people fell from it.

They were Su Yu, the armored man, and the slim woman who had luckily escaped the disaster.

Su Yu composed himself and took out a compass to locate his location. When he saw it, he couldn't help but grin.

The green-robed Emperor's poisonous fog had affected the final teleportation. It was supposed to be heading towards the imperial city, but it had coincidentally appeared ten billion miles away.

The armored man was also locating himself. His expression was filled with a bitter smile. "We have actually landed in the territory of the Snow Lion King. It will take at least a year for us to rush back."

Su Yu revealed a surprised expression. "It won't take long to use the teleportation array of the imperial envoy embassy here, right?"

"Young master Su, you don't know anything!" The one who spoke was a slim woman, her expression was much more respectful. "The Snow Lion King is the king who supports the first prince the most, because the current king is the first Prince's uncle! We have landed in the Snow Lion's territory. If we want to use the Imperial Envoy's residence to teleport back, we will definitely be obstructed."

Su Yu frowned. "Our identities might not be known to the other party, right?"

He shook his head, the Armored Man's face was as dark as water. "Young master, don't underestimate the powers of the great princes. I think that on the first day you stepped into the Princess' residence, you were noticed by the five princes. This Snow Lion King most likely also received your information. If we appear at the Imperial Envoy's embassy, we will be discovered immediately."

Was that so? Su Yu's expression was difficult.

If they were to head to the other fiefdoms, the closest one would be the northern letter fiefdom. They only needed to use the Taiji yin-yang wings high-level chapter once.

However, it was easy to come here. Beixin's faction would not have thought that Su Yu would dare to head to beixin fiefdom.

If it was now, they might not be unaware that Su Yu had arrived.

Going to the Imperial Envoy's embassy in Beixin fiefdom was no different from a sheep entering the tiger's mouth.

The only quiet moon fiefdom around that did not have a clear stance should not be a problem. However, they would need at least half a year to go there!

And half a year later, it would be the time for the Dao Rain to begin!

"Don't tell me we can't make it back in time?" Su Yu's expression was slightly serious.

Just as Huangfu Lieyang said, Dao rain was a rare and grand event in the star area.

It might not be seen once in tens of thousands of years.

If such an opportunity was missed, then so be it. If they wanted to meet again, it would depend on luck.

And if Su Yu wanted to rely on painstaking training to forge laws, it would take at least a thousand years. He might not be able to succeed yet!

Just as she was feeling troubled, the slim lady's eyes flashed. She said proudly, "Young master Su, you have done me a favor. I know a way to rush back in half a year!"

Su Yu's eyes lit up. "Please speak clearly, Miss!"
