

Nine-Dragon 1801

Chapter 1801 Turning Danger Into Safety (Third Watch)

The entire array immediately entered its highest defensive state.

Princess Ru Chen's heart was as heavy as water, her little heart thumping wildly. Her mind was filled with the terrifying consequences of failing the test!

Roar --

At this moment, the dragon picture on the dragon vat suddenly seemed to come to life and let out a loud dragon roar.

At the same time, the entire dragon's body shone with a purple light that shot up into the sky and illuminated half of the imperial palace.

This scene made princess ru Chen let out a long sigh of relief and calmed her nervous mood. She realized that her back had long been drenched in cold sweat.

She was shocked and hurriedly used her divine power to evaporate the sweat and recover her nonchalant expression.

What she did not know was that this scene had been seen by someone with a heart!

The faces of the five princes all sank, and traces of gloominess appeared on their faces.

On the other hand, the three relatives of the imperial family relaxed their hearts. It was a false alarm!

Seeing the purple light shine brightly, eunuch Cao withdrew his hand with an expressionless face. His body bent 90 degrees as he shouted in an aged and powerful voice, "This old servant greets the sixth prince!"

"We greets the sixth prince!" The representatives of the fiefdoms who had come to observe also bowed.

The imperial guards outside the manor withdrew their combat state and knelt down on one knee in unison. They shouted in unison, "Greets the sixth prince!"

Swoosh --

A figure dressed in yellow robes flew out of the dragon vat and floated next to Princess Ruchen in a carefree manner.

His face was as calm as water, without the slightest hint of panic.

This made princess ru Chen angrily look at Su Yu and pinch his arm. She whispered, "Bastard, you're fine, but you almost scared me to death."

Su Yu smiled and looked around at everyone present. His turbulent emotions quickly calmed down.

Perhaps it was because he had too little blood essence that he was unable to detect the results for a long time. It would be a lie to say that he was not nervous.

Fortunately, everything was over.

However, as soon as Su Yu thought of this, his heart thumped violently.

He swept his gaze across the crowd and met a pair of eyes filled with shock and suspicion.

It was none other than bei Wangzhu, who had been captured by him in the past! !

Her eyes widened as she stared unblinkingly at Su Yu. When she noticed that Su Yu was also looking at her in surprise, she was finally sure that she had not misjudged him.

“Su Yu! ! ! It’s You! !”Bei Wangzhu shrieked, breaking the harmonious atmosphere.

HM? The five princes who had already turned around and were about to leave were all stunned. They turned around and sized up bei Wangzhu.

The faces of the few imperial relatives stiffened as they also looked at Bei Wangzhu.

Eunuch Cao’s yellow eyes flashed with a bright light as he looked at bei Wangzhu and said, “Princess Bei Wangzhu, the person standing in front of you is the sixth prince of Emperor Yu’s dynasty. What do you mean by calling Su Yu?”

Bei Wangzhu walked out from the crowd and stared at Su Yu. He shook his head and said, “I’m not mistaken. I know him even if he turns into ashes! He is Su Yu! !”

What?

According to the rumors, this heir was also called by the Dongfang surname in the residence of the conferred King.

How did Su Yu’s name appear?

This matter was of great importance, and everyone present turned solemn.

The three royal relatives walked over and stared at the northern pearl. “You mean that the sixth prince before us is a fake?”

The northern pearl blurted out, “That’s right! He is Su Yu and definitely not the sixth prince. I can guarantee this with my honor!”

The expressions of everyone changed as they turned their gazes towards the royal relatives and eunuch Cao.

If this matter wasn’t handled properly, the dragon would fly into a rage. Who would dare to talk nonsense at this moment?

The three imperial relatives cleverly shut their mouths and stared unblinkingly at eunuch Cao.

The corners of eunuch Cao’s mouth twitched as he cursed the three old foxes in his heart!

He also wanted to pretend to be deaf and dumb, but after all, he was personally appointed by the Emperor and was the leader of this test. Only he could appear.

Eunuch Cao said with a righteous expression, “Princess bei Wang, it’s not that I suspect you, but it’s just empty words. Do you have evidence? Or have you found witnesses?”

Where did the evidence come from? Beiwang Zhu had never thought that Su Yu had stolen the Emperor Yu's cauldron. Not only did he not hide properly, but he even dared to pretend to be the sixth prince. How could he have collected evidence in advance?

"I don't have any evidence, but I once saw him... in a remote civilization called the sea of constellations!" Beiwang Zhu almost told him about Su Yu stealing the cauldron.

Eunuch Cao frowned and looked at Su Yu. "Do you have anything to say about Princess Bei Wangzhu's Words?"

Swish --

Everyone's gaze focused on Su Yu. If he didn't have enough answers, one could imagine what would happen to him.

"I do know Princess Bei Wangzhu. mm, due to some misunderstandings, she was once my captive." Su Yu remained calm.

Hearing this, the crowd couldn't help but size up the two of them.

Captive? Beiwang Zhu was famous for her beauty. Su Yu had taken her captive without her knowledge. They didn't know if she was..

The first Prince's dark green eyes flickered, and a hint of fierceness appeared in his eyes.

"Back then, I was training in the Sea of constellations civilization. To avoid being ambushed, I concealed my identity and traveled through the void with Su Yu's identity," Su Yu said with confidence. "I never thought that I would meet the young Princess Beiwang with such an identity. Fate really makes one sigh."

He was certain that Beiwang Zhu wouldn't dare to tell him everything about the theft of Beixin's cauldron.

Otherwise, even though he would be finished, how good would Beixin's lineage be?

Upon hearing this, everyone came to a sudden realization.

Indeed, rumors had it that this child had been traveling for many years. It wasn't impossible for him to appear in the remote sea of constellations civilization.

Eunuch Cao looked at Beiwang Zhu and frowned. "Princess Beiwang, did you misunderstand the sixth prince? After all, a bloodline test can't be fake."

"This..." Bei Wangzhu bit her lip. From the Su Yu that she had come into contact with, let alone a prince, he was extremely unfamiliar with the great Yu imperial court. He needed her to carry the evil Wolf's head in order to enter the yellow roll contribution list, he needed more time to survive.

He could never be a prince!

However, what made Bei Wangzhu despair was that these matters involved the Beixin king cauldron, so it was inconvenient for her to say it out loud!

After struggling for a while, she stared at Su Yu unwillingly and swallowed her anger, "Maybe I misunderstood."

Hearing this, many people felt relieved.

"D * mn, it scared me to death. I thought there was going to be a riot."

"Who said it wasn't? If it was a fake prince, then the implications would be terrifying."

However, just as they heaved a sigh of relief, an unquestionable voice was heard.

"Hold on! This concerns the bloodline of the imperial family. Since there are doubts, we shouldn't end it so hastily!"

Following the voice, the first prince walked over in large strides. The aura of an emperor enveloped the entire area, suppressing everyone's hearts, causing the atmosphere to suddenly become extremely heavy.

Princess Ru Chen clenched her pink fists. As expected, the first prince had come out to stir up trouble.

It was truly a wave that had yet to be settled!

Su Yu turned around and looked at him calmly. He was not moved by his imposing manner at all. "First Prince, do you have any advice?"

The first prince did not hide his suspicions at all, he stared at him. "I once hunted with the northern dipper conferred king in the fief. He said that you were traveling in a region to the north while the sea of constellations civilization is to the south. How Do you explain this?"

He closely observed Su Yu's expression, trying to find some clues.

Unfortunately, Su Yu's expression was calm. With his hands behind his back, he smiled and said, "The first prince must have hunted with my father in his dreams, right? My father has a stubborn disease on his right index finger, and it's not suitable for him to use force. Where did this hunting come from?"

HM? The crowd couldn't help but whisper to each other. It was the first time they had heard of the Big Dipper Emperor having a stubborn disease on his right index finger.

The first prince's eyes flashed, "Maybe this prince remembered wrongly, but the direction you traveled can not be fake. I remember now, it was your Big Dipper Mansion's third Butler who said it."

"Haha..." Su Yu laughed, "First Prince, is the third Butler you mentioned the butler with the half-moon birthmark on his neck?"? If it was him, I can only regretfully tell you that the third Butler returned to his hometown many years ago. As for how many years ago, HM, he should have left the mansion before the first Prince was born, right?"

Hearing his reply, everyone looked at each other in dismay.

How could a fake prince know so much about the people in the Big Dipper Imperial residence? He even knew the details and characteristics of the servants like the back of his hand!

“HMPH!”The first prince snorted coldly and fell silent.

The onlookers suddenly realized that the first prince was testing Su Yu! !

“Isn’t there a representative from the Big Dipper fief here? Wouldn’t it be more direct to invite him over to confront him face to face?”Eunuch Cao said with a bright flash.

That’s right. All the representatives from the ten great fiefdoms had arrived, and the big dipper fiefdom was no exception.

The first prince swept a cold glance across the crowd. “I remember that the one who came is the eldest son of the Big Dipper fiefdom, the Big Dipper Cloud Vein, right?”

“It’s me!”A cold and arrogant voice echoed from an inconspicuous corner of the crowd.

It was a young man who was wearing a silver robe and carrying a sword with a cold expression on his face. The cold aura emanating from his body gave people the feeling that he was a thousand miles away from them, and no one dared to approach him.

He stood alone in a corner and indifferently replied to the first prince, “What do you have to ask?”

The first prince frowned slightly. Not many people dared to speak to him in this manner. Even though the other party was a half-step emperor, he still did not see eye to eye with him.

“Let me ask you. Is he your younger brother, Dongfang Yu?”

“Yes!”The Big Dipper cloud vein answered without hesitation.

This question had solved everyone’s doubts. The representative of the Big Dipper family was still certain, so what else was there to doubt?

However, the first prince didn’t give up. “Then, has he gone to the Sea of constellations to train?”

“Yes!”

“When? How many people have accompanied him?”

“Two years ago, one person.”

The first prince looked at the northern gazing pearl. The other party nodded, and his expression darkened.

Since things had come to this, there shouldn’t be any flaws in his identity!

Princess Ruchen let out a long sigh of relief. It was so close. Fortunately, Su Yu was careful and asked for all the detailed information about the big dipper conferred King and the royal residence. That was how he managed to muddle through.

Otherwise, with the rough information they had prepared beforehand, they might have failed.

However, at this moment, another discordant voice of doubt rang out.

“If he really is a prince, may I ask, royal sister, why was he so nervous during the inspection of the dragon vat? To the point that cold sweat broke out on his back?”

Princess ru Chen instantly stiffened and turned her head to look at the yellow-robed man who was speaking.

He had short hair and a thin figure. He gave off a sharp aura and his eyes were as sharp as a cheetah.

“Fifth imperial brother, I don’t understand what you’re saying. I’m in charge of finding sixth imperial brother. If there’s something wrong with his identity and it involves me, do you think I won’t Be Afraid?” Princess ru Chen’s expression was filled with lingering fear and anger.

Chapter 1802 The Arrival Of The Monarch (Fourth Watch)

This explanation was reasonable.

The fifth prince snorted coldly. “Then how do you explain that the results of the dragon vat, which should have been out in ten breaths, only appeared in twenty breaths?”

This question touched on the essence that everyone had overlooked.

Every newly born royal bloodline would be sent to the dragon vat for testing. Usually, the results would be out in ten breaths.

This was the first time that the results were out beyond twenty breaths.

Princess Ru Chen’s heart skipped a beat. She hated the meddlesome fifth prince, but her face was filled with displeasure. “Why are you asking me? Ask the Dragon Vat!”

The fifth Prince’s sharp eyes stared at Su Yu. “My instincts tell me that there’s something wrong with your identity!”

Su Yu sneered. “My instincts also tell me that, in order to lose a competitor, you’ll do anything to slander me. Fifth brother, the fight for the crown prince hasn’t begun yet. Why are you so anxious?”

“Don’t try to Quibble!” The fifth Prince’s expression changed slightly.

The fight for the crown prince was inevitable, but the princes present had a tacit understanding not to mention it. Once Su Yu mentioned it, the atmosphere between the princes became much more subtle.

Eunuch Cao frowned and said in a deep voice, “Fifth prince, if you have evidence, you can take it out. Otherwise, please be careful with your words and actions to avoid angering the emperor.”

His words contained hints of warning.

As the emperor’s most trusted eunuch, eunuch Cao’s words still carried some weight.

“Hehe, the fifth Prince’s wolf-like ambition is clear as day. He wants to exclude the newly appeared sixth prince so quickly!”

“I think that every prince thinks this way, but the fifth Prince’s methods are the worst. Look at the first prince. He is silent without evidence, but this fifth prince is good. Without evidence, he just says that based on intuition. This is ridiculous!”

“That’s right, I’m still based on intuition. This fifth Prince wants to rebel? Will the king kill him because of this? Hahaha...”

Everyone transmitted their voices in private, so outsiders naturally couldn’t hear them.

But the disdainful looks they gave the fifth prince betrayed them.

The fifth Prince felt that his face had been sullied, and he snorted angrily, “Fine, then I’ll invite Father!”

What? Su Yu’s heart shook when he heard this.

His bloodline cheating method might be able to fool the detection magic treasure, but it might not be able to fool Dongfang Xia!

If he really came, then things would be bad!

However, wasn’t Dongfang Xia chasing after the double-crowned fire dragon that wreaked havoc?

Could it be that he had suddenly returned?

The rest of the people were also shocked. The monarch had personally come?

The eyes of the princes flashed, as if they had understood something.

They saw the fifth Prince take out a jade ring from his neck.

The ring was ancient and suffused with an ancient aura, but it contained an incomparably powerful fluctuation.

Su Yu was extremely familiar with that fluctuation. It was a fluctuation unique to the three crowns!

However, Su Yu also let out a slight sigh of relief. It did not seem like Dongfang Xia had personally come. Instead, it was a special method that allowed Dongfang Xia to project from a distance.

After all, the projection wasn’t the real body, so it might not be able to see the clues on Su Yu’s body.

The fifth Prince looked at Su Yu and princess ru Chen with a cold smile. “Just you wait!”

After he finished speaking, he crushed them into pieces.

The powerful fluctuations of the three-crowned emperor instantly surged out, enveloping the entire imperial city. All living beings couldn’t help but tremble.

It was the same for the many observers present. They were unable to suppress the fear in their hearts.

The ripples of the radiation spread for a while before condensing into an extraordinary armored emperor once again.

He sat on a throne alone. His expression was dignified, and his eyes shone with a divine light that looked down on all living beings.

Facing this person, everyone present at a close distance could not help but kneel down.

Only a few people could stand up straight.

“Hong ‘er, what danger is there?” He was the rumored Dongfang Xia, a legendary existence who had just advanced to the Triple Crown.

At this moment, he swept his gaze across the entire place and did not discover any danger.

That Ring was a life-saving magic treasure that he had bestowed upon every single prince. At a critical moment, it could summon his projection to destroy the enemy that threatened the descendants of the Dongfang royal family.

Fifth Prince Dongfang Hong said sternly, “Your child is not in danger, but the Dongfang royal family has infiltrated a suspicious person. The royal family is in danger!”

“Who?” As soon as Dongfang Xia said this, all the living beings in the imperial city felt as if their chests had been ruthlessly hammered, and their hearts were in great pain.

The fifth Prince’s lips curled into a mocking smile as he pointed at Su Yu from afar. “It’s him! He’s the son who’s pretending to be my father and has wandered about outside!”

Dongfang Xia’s gaze swept over, but it caused the space to fluctuate violently.

Under his gaze, Su Yu felt as if he was being suppressed by the heavens, and even his breathing was stifled.

That pair of eyes sized up Su Yu from head to toe, as if they could see through Su Yu.

At this moment, Su Yu and princess ru Chen held their breaths. Whether or not they could muddle through would depend on this moment.

He desperately circulated the remaining imperial blood essence in his body, leaving not a single trace.

After looking at it for a moment, Dongfang Xia’s gaze suddenly softened, revealing a trace of a smile. “Although the blood essence is weak and impure, it is true that he is a member of our Dongfang Imperial Family.”

He clenched his five fingers and something inexplicable was grabbed out of Su Yu’s body.

A colorful ball of gas the size of a thumb appeared above his head.

The others were confused. Could This colorful ball of gas prove his identity?

Only the five princes’ expressions changed completely.

Princess ru Chen’s mouth was wide open and a storm was raging in her heart. “Impossible, right? The unique luck of the Royal Family?”

Dongfang xia loosened his fingers, and the luck returned to his body.

“The bloodline may be fake, but the unique luck of the royal family can not be fake,” Dongfang Xia said.

Su Yu looked calm, but he was actually feeling lucky.

After he had taken the beixin king cauldron, Su Yu had used it to cultivate. Although he did not absorb the country’s luck, he had absorbed quite a bit of it with his golden flame forbidden wooden sword.

The golden flame forbidden wooden sword was connected to his mind, and a small amount of the nation’s fate that had been absorbed had imperceptibly entered Su Yu’s body.

Only then would he be able to luckily pass the test. Otherwise, the consequences would be unimaginable!

Dongfang Xia looked coldly at the fifth prince. “In order to Ostracize Your Brothers, you’re willing to use your life-saving ring? Hong ‘er, you’ve disappointed father too much! Since you’ve used the ring so easily, you can count on yourself if you encounter any danger in the future!”

What she implied was that she would not reward him with another ring.

Hearing this, the fifth Prince’s expression changed drastically, and traces of deep regret surfaced in his heart.

The gaze that swept past Su Yu was even more filled with deep resentment.

“Yu ‘er, father is out hunting fire dragons. If he succeeds in killing them, I’ll give you the Dragon Pearl as a repayment for your many years of experience.”

The Dragon Pearl of a true dragon with two crowns?

Everyone present was shocked!

There were only a few of such precious items in the entire great yu imperial court, but they were actually given to the sixth prince.

For a moment, the five princes looked at Su Yu with a complicated expression. Jealousy, vigilance, and killing intent surged out at the same time.

Their father’s attitude toward the sixth prince made them very wary.

Su Yu smiled bitterly in his heart. It was really troublesome enough for him. Perhaps he was assassinated by his five brothers before he could get the Dragon Pearl.

“Thank you, Father!” He was speechless in his heart, but he still had to show his gratitude on the surface.

“Haha, Yu'er, Wait for My Good News!”

The projection shattered and turned into a light shadow that disappeared into the sky.

Everyone crawled up, but the shock on their faces did not disappear for a long time.

“I really didn’t expect that the identity test would go through so many twists and turns. In the end, I even invited the monarch’s projection!”

“That’s right! This trip to meet the Emperor isn’t a wasted trip.”

The crowd was abuzz with discussion, but the three imperial relatives were all smiles. They went to chat with Su Yu with incomparable enthusiasm, and their intentions to win him over couldn’t be more obvious.

The corner of eunuch Cao’s mouth twitched. He pretended to be deaf and dumb when there was trouble. Now that the situation was clear, he was faster than a rabbit.

He still had to do what he had to do. He raised his voice and said, “I invite the sixth Prince back to the residence!”

His residence had been prepared several years ago.

Unfortunately, it happened to be built near the Princess’ residence.

“Royal brother, Wait for me!” Princess Ru Chen jogged all the way and squeezed past the royal relatives and the many king level representatives who were surrounding Su Yu. She held onto Su Yu’s arm intimately with a smile on her face.

This caused everyone to burst into laughter. “I didn’t expect the sixth prince and the princess to hit it off so well!”

“Oh!” Princess ru Chen turned around and grimaced at everyone. Then, she pulled Su Yu along and ran out of the crowd, returning to the Princess’ residence.

Bang --

Closing the door, princess ru Chen’s expression immediately changed. She sized up Su Yu with a doubtful expression.

Emperor traceless, who had been waiting inside the door, was also extremely shocked.

The two of them had calculated everything, but they had never expected that Su Yu had the unique luck of the Imperial Family!

It was impossible to absorb the luck into one’s body at a later stage. Only when one’s birth was activated by the bloodline would one possess it.

This was the only thing that could not be faked.

“The two of you should be happy, right?” Su Yu felt goosebumps all over his body.

Princess Ru Chen moved closer. Her breathing could be heard. Her two big sparkling eyes stared at Su Yu without blinking. “I really should call you my royal brother!”

Even Emperor Wu Hen felt incredulous. He couldn’t help but ask, “Could it be that the sixth prince didn’t actually die back then, he just went missing, and you’re actually the sixth prince who went missing?”

Su Yu spread out his hands. "If I was really the sixth prince, would I still need to look for you?"

The two women were startled. That was true.

"Then how did you get the Royal Family's Luck?" Princess Ru Chen asked.

How could Su Yu answer? Could he tell them that he had stolen the Beixin Royal Cauldron?

"Ahem, I'm not too sure about that. But even though I've been through a few dangerous situations, I've managed to survive." Su Yu let out a sigh of relief.

The corners of princess Ru Chen's mouth twitched. She sat down on the gold-threaded wood chair and picked up a spirit fruit. She opened her mouth and began to chew, as she chewed, she stared at Su Yu with hidden bitterness. "HMPH! Father is biased and has never given me anything good since I was young. Yet, you, an imposter, just had to give you the Dragon Pearl of a double-crowned Emperor!"

"I'm so angry! It's as if I'm the impostor and you're the one!"

Emperor traceless was also extremely envious. That Dragon Pearl was definitely the best thing in the world. Presumably, the three double-crowned emperors of the dynasty were also very covetous of it.

He really did not expect Su Yu to benefit in the end.

"Forget it, it can also be considered an opportunity for you. We won't ask about it anymore!"

Su Yu laughed bitterly. "I don't dare to dream about that Dragon Pearl. This time, it's only Dongfang Xia's projection. If my true self comes, I might be able to see through it. After I help you seize the country's fate, immediately leave the dynasty and never meet Dongfang Xia again."

The two women's expressions tensed up and they nodded slightly. This was the best for them.

"Then I'll go back and prepare for Dao Yu. It Won't be long." Su Yu stood up and left, returning to the sixth Prince's residence.

The design of the residence was almost the same as the Princess's residence.

As soon as he entered the residence, Su Yu entered the isolation room. With a movement of his soul, he appeared in front of the nine Jade Spirit Pearl's nursery.

Compared to the last time he entered, it had already been half a year. The vegetation in the nursery was equivalent to two hundred and fifty years of cultivation.

He didn't know how the Three Blood Crystal Bodhisattvas had become.

Chapter 1803 Golden Clouds

Looking over, the Bodhi tree didn't grow much taller.

The three blood crystal bodhisattvas hanging on it didn't change in size either. It was almost the same as the last time they met.

A trace of disappointment lingered in Su Yu's eyes. It seemed that not all spiritual items could produce mutated attributes.

He grabbed at the air, and the three blood crystal bodhisattvas fell down. Su Yu put them into the jade ware.

At this moment, something strange happened.

The jade that touched the blood crystal bodhisattva was dyed red.

The surface of the blood crystal bodhisattva was covered with obscure characters.

Su Yu took a quick look and gasped, "Heavenly script characters!"

He was not unfamiliar with these characters. They were definitely heavenly script characters that few people in the heavenly script could recognize!

"How could heavenly script characters form on the fruit?" Su Yu's eyes flashed with shock and disbelief.

After deliberating for a long time, Su Yu reluctantly accepted this change.

The Blood Crystal Bodhi's function was to strengthen the refinement of the laws of Great Dao. Hence, the heavenly script characters that were derived from it could barely make sense.

He looked into it and immediately, a shocking scorching heat assaulted him, burning Su Yu's eyes to the point where they were burning.

Shocked, he immediately closed his eyes and looked away before extinguishing the fire.

"This is the power of the heavenly script!" He was secretly surprised.

Then, a deep joy appeared on his face.

The idea of leaving three blood crystal bodhisattvas to continue cultivating was indeed correct. After 250 years, the mutation of the Blood Crystal Bodhisattva was beyond imagination.

With this fruit and Dao Rain, it would be much easier to condense laws in the inner mansion!

With a wave of divine power, the three blood crystal bodhisattvas were wrapped up. Su Yu turned to look at Xiao Die.

She was lying lazily on a tree, nibbling at the Indian silver bamboo in her mouth. Seeing that Su Yu had arrived, she raised her eyelids listlessly, she mumbled, "It's getting more and more disgusting. You should plant more spirit fruits and feed me bamboo every day. I'm not a panda."

The veins on Su Yu's forehead twitched. He was tired of eating his food!

"It's good that you have food! Stay Here!" Su Yu snorted. Just as he was about to leave his body, Xiao die snorted, "Can't you give me some magic treasures or something?"

There were many magic treasures stored in the nine jade spirit pearl that Su Yu had collected on a daily basis. They were not of much use.

After thinking for a moment, he said helplessly, "Alright then. Other than the Indian silver bamboo sword and the gold jade sword, the rest of the magical treasures can be eaten."

"That's more like it!" Xiao Die's spirit was boosted, and she jumped down briskly.

“Stop right there. Be careful not to overeat.” With a grumpy exhortation, Su Yu left the nine Jade Spirit Pearl.

As he took a step forward, Xiao Die’s eyeballs rolled around in her hind legs, her mouth was even dripping with saliva. “Wahahaha, what a foolish master, so gullible! Those magic treasures are all tattered and disgusting, but there’s one high-grade one that tastes much better than those two swords!”

With a whoosh, she came to the wooden shelf where the magic treasures were stored.

Seeing that there were countless magic treasures piled up on top of it, Xiao Die took a look as well. She stared fixedly at the huge gold-plated bow and arrow that were placed on the ground.

The bow was as tall as two people. It was not custom-made for humans, but was suitable for some kind of huge creature.

This was one of the three treasures that Su Yu found in fantasy moon Langjun’s cave abode, the heavenly bow.

This bow was extremely heavy. Su Yu could barely grab it off the ground by using the law of immense strength, and the bowstring could only be pulled three inches apart.

At that time, he had not noticed the uniqueness of the bow and had kept it there. Su Yu had almost forgotten about it.

“Haha, Little Baby, I have liked you for a long time! You must taste delicious.” Xiao die rubbed her hands and stared at Tian Yi Gong with shining eyes. Her saliva dripped down.

She grabbed with both her hands. With her immense strength, it was extremely difficult for her to lift it up. She had to use all her strength to lift it up.

“Oh my God, the good stuff is indeed extraordinary. It’s so heavy. After eating you and me for a few months, I don’t need to eat anymore.” Xiao die caressed the heavenly bow as though she was touching something delicious. “Little baby, I won’t be polite anymore!”

Wow!

She opened her mouth and bit the heavenly bow.

But at this moment, an irresistible force appeared in the nine Jade Spirit Pearl and forcefully separated it from the heavenly bow.

Bang --

The bow fell to the ground with a muffled sound.

At the same time, the soul of the coiling dragon in the imperial robe flickered in front of the bow. He stared at Xiao Die with a faint smile and said, “You greedy cat, I knew you were up to no good!”

How Sharp was Su Yu? He could even count the number of intestines in Xiao Die’s stomach with his eyes closed.

He pretended to leave, but in fact, he was observing which item in the Magic Treasure Xiao Die had her eyes on.

The result was somewhat unexpected. It was actually this giant bow that had no special features other than its weight.

“You, why did you come back?” Xiao die was stunned. Then, like a little thief who was caught on the spot, she felt extremely guilty.

Su Yu was amused. “If I had been a little later, wouldn’t this bow have been eaten by you?”

Xiao Die became more and more guilty, so she became more and more stubborn. She braced her neck and said, “Who said I was thinking about this bow? I just saw that it took up space, so I ate it for you to make room.”

“Is that so?” Su Yu had a playful look on his face.

Xiao die snorted, “You suspect me?”

With a look of suspicion and anger on her face, she pounced on the wooden frame and grabbed a magical treasure with one hand. She opened her mouth and chewed on it, making loud noises.

As she chewed, she looked at Su Yu with a provocative look, as if to say, “What? I didn’t target that bow?” “I’ll eat anything. I’m Not Picky!”

Laughing, Su Yu grabbed the bow and arrow and left the nine jade spiritual bead.

Xiao die chewed on the bow a few times. Just now, she had a look of enjoyment on her face. However, in the blink of an eye, her face was filled with grievance. “Bah Bah Bah, taste is like chewing wax. It tastes terrible!”

“Despicable fellow, I’ve been fooled by him again!” Xiao Die roared angrily.

If she had not shown her great interest in the heavenly bow, how would su yu know that this bow was extraordinary?

Returning to his body, Su Yu sized up the bow that was lying on the ground.

“Could it be that I was too careless during the first test?” He thought to himself and looked at it again.

The result was still the same. Other than the special material, there was nothing special about it.

The arrow had also been tested from beginning to end, but there was nothing special about it.

“If only there was a place to test the power of this arrow.” Su Yu looked around. This was the imperial palace. Before the power of the unknown giant bow, it was not a good idea to test the bow rashly.

After thinking for a while, Su Yu stored the bow into the space of the Buddhist beads.

There were still a few days before Dao Rain. Fortunately, he did not cultivate anymore. He took out a few books that introduced the civilizations of the outer realms and read them patiently. He calmed himself down and adjusted his condition to his best state.

At the same time.

The people from the clansmen's manor did not completely disperse.

The few princes were talking to each other with uncertainty. They were still worried about the additional sixth prince.

They no longer doubted his identity, but his strength was unknown. Furthermore, he was favored by Dongfang Xia. Who knew if he would secretly give Su Yu something dangerous.

The first prince was in the worst mood. With his strength and supporters, he wasn't worried about the addition of a sixth prince who didn't have much of a background.

His bad mood was because of the northern gazing pearl!

"Can you explain in detail the history of the Sea of constellations civilization and how you were captured by Him?" In front of the rockery, the first prince stood with his hands behind his back and stared coldly at Bei Wangzhu.

Bei Wangzhu felt bitter in her heart. How could she explain in detail? Once news of the theft of the Beixin Royal Cauldron spread, it would definitely be a disaster.

"Some misunderstandings. I was captured by mistake. There's nothing to say." She evaded her gaze, somewhat disingenuous.

The first prince's hands behind his back tugged hard. There was something wrong! !

"Oh, it's fine. I was just asking. Your body isn't in good condition. Go back and rest." The first prince smiled faintly.

After she left, a pitch-black shadow suddenly appeared beside the first prince. It was shockingly at the Emperor Realm.

"How is it? How is the investigation of Bei Wangzhu's illness coming along?" The first Prince's eyes revealed a deep and cold light.

The Black Shadow said in a low voice, "Just as the first prince had expected, bei Wang Zhu's illness isn't shallow. Although the beixin royal residence concealed it extremely deeply, I still managed to infiltrate and investigate the illness."

"What illness?"

"It's hysteria!" The black shadow said, "Bei Wang Zhu will fall into an uncontrollable fantasy every once in a while."

"Fantasy about what?" The first prince frowned.

The Black Shadow was somewhat hesitant. "I'm fantasizing about having sex with a man."

Bang --

A fierce and fierce aura suddenly erupted from the surface of the first prince's body. The two fists behind his back suddenly tightened as he struck out with a loud bang.

The Black Shadow was caught off guard and was directly sent flying. It only stopped after smashing a large area of rockery.

A deep depression could clearly be seen on his chest!

One move could injure an emperor! !

“Which man?” The first Prince’s eyes were bloodshot, and he could not suppress the anger in his eyes.

As his fiancée, as the future Princess consort, he actually had such a filthy disease. He could not bear it!

“It is said that it is Su Yu, the current sixth prince, Dongfang Yu!” The Black Shadow Man coughed a few times and said with incomparable reverence.

“Ah! !” The first Prince threw his head back and roared angrily. He had just felt that bei Wangzhu’s words were flickering, and that there was no clear relationship between him and Su Yu. Now that he had obtained such a truth, he immediately fell into a rage.

Icy Cold killing intent was released. The black-clothed man was so shocked that he hurriedly retreated and pulled some distance away.

“Dongfang Yu! !” The first prince roared.

The several princes in the distance were all shocked. What had provoked the first prince to do this?

The other princes watched coldly from the side. The fifth Prince, who was on good terms with him, flew over and said, “Eldest brother, what’s wrong with Dongfang Yu?”

A question pulled the eldest prince back from the edge of his fury.

This was the imperial palace, and Dongfang Yu was the sixth prince who had just received his father’s favor. He could not take the initiative to harm him, even if he had already chopped him into a thousand pieces in his heart!

Recovering his composure, the eldest prince stared at the fifth prince, and his eyes turned slightly, he said, “Fifth brother, I did it for you! Just now, the spies came to report that after Dongfang Yu returned to the residence, he wantonly ridiculed our brothers, especially you, fifth brother. Because of this, he lost his life-saving ring, and he even slandered you, saying that you...”

The fifth Prince’s face was gloomy. “What did he say about me?”

“He said that you were stupid, ignorant, and arrogant. In the end, you slapped yourself in front of everyone, and father hated you.”

Kacha --

“Damn it! !” The fifth prince hammered the broken rockery with his fist and said angrily, “He is simply going too far! !”

“Who says so? That’s why brother is not worth it for you!”The first Prince clenched his fist.

“I’ll go and settle the score with him now!”

“Hold on! Now that he’s receiving father’s favor, if you go and settle the score with him, which side will father stand on?”

This question caused the fifth prince to hesitate.

The answer was obvious. Father would think that he was deliberately taking revenge!

“Then what should we do? Don’t tell me we should watch him, a bastard born outside, Poop and Pee on My Head?”The fifth Prince said angrily.

The corners of the first prince’s mouth curled up as he thought to himself, ‘you’re really stupid, you easily took the bait with just a few words.’.

“Hehe, isn’t it easy to mess with him? A few days later, Dao rain will be a good opportunity. I have a way to make him Cry and Beg You!”The first prince smiled mysteriously.

A few days later, Dao Rain’s day was approaching day by day.

These days, Su Yu had been wholeheartedly studying the knowledge of the outer space civilization.

Occasionally, princess ru Chen would come over to chat with him and discuss matters related to dao rain.

It was also her first time experiencing dao rain, so she did not know much more than Su Yu.

However, from what she said, Su Yu knew that every Prince had a special magic treasure bestowed by the imperial family, which could make it easier to temper the law chains of the inner mansion when Dao rain descended.

“How infuriating. Three days ago, I asked the clansmen’s mansion for your rain-stabilizing needle, but they kept delaying!”On this day, Princess Ru Chen ran over again. Her forehead was covered in sweat, and she grabbed the teapot on Su Yu’s table and drank it to her heart’s content.

Su Yu smiled faintly. “I’m afraid it’s not the people from the people’s clan making things difficult for you. It’s those imperial brothers who did it on purpose, right?”

Princess Ru Chen raised her eyebrows and rolled her eyes. “No, I’ll get aunt to help you. I must help you get the rain-stabilizing needle.”

The current Emperor Wu Hen was also unusually busy.

As the strongest array formation emperor in the dynasty, he had already started adding arrays to the rain-stabilizing needles day and night a few days ago. first-class arrays were the most important, and outsiders were not allowed to easily get close.

At this moment, it was difficult for her to escape.

“Forget it. I am already extremely grateful that you guys risked your lives to provide me with the first-class rain area. That rain stabilizing needle is not within the scope of the agreement. There is no need to worry about it,” Su Yu said.

He had inquired about the effects of the rain stabilizing needle. It was not as powerful as the blood crystal bodhi, so it was useless even if he obtained it.

“HMPH! I am unwilling to accept this. My Royal Brothers are always targeting you.” Princess Ru Chen wrinkled her nose cutely.

Su Yu smiled, “The matter of the clansmen’s residence has already ruined their reputation. In addition, they are their competitors. How can they treat me well? Don’t worry, as long as they don’t do anything to daoyu, I can’t be bothered with them.”

She had originally come to comfort Su Yu, but in the end, she was comforted by Su Yu instead. She felt embarrassed for a moment.

“Alright, it’s best if you can accept it. If one day I become the Queen of the Great Yu imperial court, I will definitely avenge you and teach them a lesson.” Princess Ru Chen clenched her fists and bared her teeth.

Su Yu smiled.

Just like that, time approached day by day.

Two days later.

Su Yu, who was flipping through a book, suddenly felt something. He raised his head and looked at the sky outside the window.

A Strange Golden Cloud had appeared in the sky ten thousand miles above the blue sky.

Following that, more and more clouds gathered from all directions.

Half a day later, the entire sky was covered in golden light, illuminating the entire imperial city of the Great Yu imperial court with Golden Light.

Layers of astonishing spiritual pressure spiraled down from the clouds, giving the Warriors a great pressure.

Chapter 1804 The Gambling Match (First Watch)

The shocking phenomenon of heaven and earth shook the entire imperial city.

From ordinary soldiers to experts within the imperial palace, all of them were shocked and ecstatic as they stared at the golden clouds in the sky.

Dao Rain!

The dao rain that arrived on schedule!

Dong, Dong, Dong --

Deep within the imperial palace, the sound of a loud bell rang out and spread throughout the entire imperial city.

Su Yu, who was within the Imperial City, was even more deafened.

With a clang, Princess Ru Chen hurriedly pushed open the door with a face full of surprise and joy. "Imperial brother, the Dao Rain is about to arrive. Let's hurry to the designated location."

"Since the first-grade dao rain area is reserved exclusively for the imperial family, are we still afraid of being occupied by outsiders?"

Princess Ru Chen said impatiently, "Even if it's the first-grade dao rain area, there's still a difference between good and bad. The good location has ten percent more dao rain."

Then it wouldn't be good to stay for long.

The two quickly left the mansion and arrived at the sacrificial altar that had long been prepared.

This was the center of the Imperial Palace, with a radius of less than a mile. Normally, it was used for sacrificial purposes, but this time, it had become the center of the Dao Rain.

The entire sacrificial altar was surrounded by a powerful array. From the strength of the array, even the two crowned emperors wouldn't be able to break through the defense and break in.

This was the range of the first-grade dao rain, and only the imperial family was allowed to enter.

The range from the outside of the altar to the palace walls was the range of the second-grade dao rain. Only the heirs of conferred princes and those with great contributions could be here.

The range from the outside of the city walls to the borders of the imperial city was the range of the third-grade dao rain.

The range outside of the imperial city was the fourth-grade dao rain.

The difference between each range of the dao rain was like the difference between heaven and earth.

One could imagine how eye-catching the first tier of Dao Rain was.

Many nobles who had already reached the Emperor Realm or did not need dao rain to specially come outside the temple of heaven to observe the people of the imperial family being baptized by Dao Rain.

Among them was the first prince, whose cultivation had long reached the emperor realm.

The fifth prince stood upright beside him. The two of them were full of confidence and their eyes constantly scanned the crowd as if they were looking for something.

Suddenly, the fifth Prince's gaze turned cold as he locked onto princess Ru Chen and Su Yu who had just arrived.

"They're here. I'll go over First!" The fifth Prince said.

The first prince nodded. "It's up to you."

"Don't worry, eldest brother. I'll definitely get sixth brother to beg to come find me."

Su Yu and princess Ru Chen rushed to the front of the altar of heaven and heaved a sigh of relief.

Although the people from the royal family had basically all arrived, the restriction on the altar had not been activated yet. There was no need to worry that the good positions had already been taken.

She fixed her gaze on the altar, which was less than a mile long. There were only 100 designated spots.

With the altar as the center, there were ten rows of radial branches on the periphery of the altar.

“I’ll try my best to snatch the spots in the first few rows later. The dao rain there is even denser.” Princess ru Chen was a little excited.

The dao rain that came once every 30,000 years. Such a great opportunity had to be grasped well.

As long as the law was condensed in the inner mansion, then the greatest obstacle to becoming an emperor would be swept away.

Sweeping his gaze over the other members of the royal family, they also looked at the first few rows of seats with burning gazes. It seemed that those seats would definitely be contested for.

“Sixth prince, you’ve come quite early.” An unfriendly ridicule floated over.

Su Yu glanced sideways, then withdrew his gaze as if nothing had happened.

“Hehe, you’ve just become a prince, yet you’re already so arrogant. No wonder you look down on us.” The fifth Prince walked over, crossed his arms, and sneered.

Su Yu still turned a deaf ear, treating this person as if he did not exist.

“Are you deaf? Didn’t you hear what I Said?” Being ignored repeatedly, the fifth prince was somewhat angry.

Because of his arrival, he had long been watched in secret by countless people, and they all looked like they were watching a good show.

Everyone knew that the fifth Prince had been reprimanded and warned by the emperor because of the sixth prince’s matter. He had lost a lot of face. Seeing him take the initiative to find fault with him today, they all felt that there was a good show to watch.

Only then did Su Yu frown slightly. He glanced at the fifth prince. “Am I very close to you? Why should I answer your question?”

The fifth prince sneered. “You’re indeed arrogant! I don’t know if you have the guts to gamble with me...”

Unexpectedly, before he could finish his words, Su Yu interrupted him and said, “I’m not interested in betting with you. No matter what you bet, it’s because you’re just short of having the words ‘I have a plot to plot against you’ engraved on your face.”

“Please, if you want to plot against someone, please restrain your expression. At the very least, you have to put on an act. Your attitude is really not professional enough. Forgive me for not being able to accompany you.”

The sharp sarcasm that hit the nail on the head caused the onlookers to burst into laughter.

The first prince, who was watching from afar, could not help but shake his head. "What an idiot!"

The fifth Prince's face was flushed red, and his face was filled with embarrassment and anger. He wished that he could make a move at this moment and smash Su Yu's hateful face into pieces with one punch.

"Sixth prince! ! Are You a man?"The fifth prince shouted.

He wanted to provoke Su Yu, but in the eyes of the crowd, he appeared rather childish.

"Hehe, do I need you to question whether I am a man or not?"Su Yu retorted without holding back.

The fifth prince said, "Are you going to bet or not?"

Su Yu ridiculed, "Are you asking whether I am willing to be cheated by you or not? Don't you think this question is rather idiotic?"

The onlookers shook their heads secretly. Perhaps the fifth Prince's experience was much deeper, but in terms of tongue, he was still a flower that had been nurtured in a greenhouse. Compared to Su Yu, he was still too young.

The fifth prince was extremely angry. Everything was different from what he had imagined.

He had followed the plan to provoke Su Yu first, infuriate the other party, and then make a further bet.

In the end, Su Yu was unusually experienced. Instead, he had easily pushed him to the edge of fury.

"You, you..."the fifth prince was extremely angry, but he had no idea what to do. He stood there in a daze, not knowing what to say next.

At this moment, he heard Su Yu sigh with some pity and sympathy. "Sigh! Alright, I'll just force myself to do it. I'll fall for your trick. I'll bet with you. Tell me, what do you want to Bet?"

In the end, Su Yu still accepted the bet, but the fifth prince felt like he had eaten a big bowl of live flies. He did not feel happy at all that his plan had succeeded. On the contrary, he felt extremely uncomfortable.

This was especially so for the mocking and teasing gazes of the onlookers.

It was as if the one who had been tricked was not Su Yu, but an idiot like him.

Just who was tricking who? At this moment, the fifth Prince had an extremely bad feeling.

But at this moment, he was already riding a tiger and could not get down. He braced himself and said, "Let's bet on who has condensed the inner mansion law to be more complete!"

"What about the bet?"

"The bet is 100,000 divine stones. It's not enough to write an IOU."At this moment, the fifth prince finally found some confidence.

He had saved up 100,000 divine stones over the years.

But Su Yu obviously could not have so many. If he lost and could not take them out, the fifth Prince would become his creditor.

At that time, he could do whatever he wanted to the sixth prince. It would be extremely easy to force him to kneel and beg for mercy.

One hundred thousand? It was indeed a considerable sum of divine stones.

Considering that the ten thousand treasures hall had only accumulated thirty thousand divine stones over the years, it would be extremely difficult for an ordinary person to obtain thirty thousand divine stones.

It would be even more impossible if it was one hundred thousand.

He immediately guessed the other party's plan.

“Do you dare to Bet? Our cultivation levels are the same. Logically speaking, there shouldn't be much difference,”the fifth Prince said.

Princess Ru Chen, who was listening by the side, couldn't help but feel annoyed. “Fifth brother's ability to choose to ignore is quite high. What do you mean there's no difference? First, sixth brother didn't get the rain-stabilizing needle, and second, he didn't have time to be rewarded by his father with the Blood Crystal Bodhi. How could he compare to you? Sixth brother was destined to lose from the start of this gamble, and you still have the nerve to speak!”

Many of the spectators were secretly surprised when they heard this, but they were not surprised at all.

The rain-stabilizing needle was distributed by the clansmen's residence, and the relationship between the fifth Prince and the other princes and the clansmen's residence was much deeper than that of the sixth prince who had just become a prince.

It was not difficult to make things difficult for Su Yu to not obtain the rain-stabilizing needle.

In addition, the Blood Crystal Bodhi was in Dongfang Xia's hands, so there was no time to bestow it to Su Yu.

In this way, Su Yu was two steps behind. How could he compare to the fifth prince?

This competition was destined for Su Yu to lose before it even started.

The fifth prince snorted. “The condensation of laws mainly depends on one's own body. These external objects won't affect much.”

Princess ru Chen smiled. “Is that so? Then can the fifth prince hand over the two objects?”

The fifth prince said with conviction, “What's the point of saying so much nonsense? If the sixth prince really has the guts, then compete with Me!”

The crowd saw this and cursed endlessly in their hearts. Being shameless to this extent could already be considered top-notch.

If they believed that Su Yu's intelligence did not have a problem, then he would definitely not accept the bet, right?

“Alright, I’ll bet.”

No one had expected that Su Yu would agree with a relaxed expression.

The onlookers were dumbfounded. They could not believe their ears. He actually agreed. Wasn’t this a clear loss?

A whole hundred thousand divine stones. How could he return it?

“Good! The BET is established. No regrets!”The fifth Prince immediately said, afraid that Su Yu would go back on his word.

He was so happy in his heart. Actually, at this point, he thought that the bet would be very unlikely to be established. Who knew that Su Yu would agree.

“Should we ask a witness to establish a contract?”Su Yu said.

The fifth prince nodded. “Alright, I think the first prince is not bad. As our elder brother, he has the most right to act as a witness!”

Everyone turned their gazes to him. The first prince nodded and smiled. He was very happy to be the witness.

“It’s all thanks to fifth brother and sixth brother that they don’t mind. I’ll do my best to bear witness for once...”

“I’m sorry, I really don’t like it.”Su Yu’s words were so shocking that he would not rest until he was dead. He directly swept the first Prince’s face.

The first prince’s footsteps froze slightly as he walked over. His eyes were filled with traces of anger.

The fifth prince frowned and said, “Then who do you want to invite?”

No one could invite the first prince. Anyone with a discerning eye could see that the fifth prince and the first prince were wearing the same pair of pants. If he was asked to do a forensic examination, there would definitely be a lot of trouble afterwards.

“Let eunuch Cao do it.”

Him? The fifth prince frowned slightly and did not have any other opinions. “If it’s eunuch Cao, it’s fine. I just don’t know what eunuch Cao’s opinion is.”

Eunuch Cao, who was watching from the side, had a smile on his face. He was naturally happy to simply be a witness and show off his superior status.

“Thank you for the favor of the two princes. I am filled with fear and trepidation and am willing to be a witness for the two princes,”eunuch Cao said.

This way, it was decided.

The huge gamble of 100,000 divine stones immediately attracted even more onlookers.

The first prince, who had been neglected, rolled his eyes slightly and said loudly, “Hehe, fifth brother and sixth brother are in such high spirits. As the eldest brother, I can’t remain indifferent. How about this? I’ll be the banker and open another bet.”

Chapter 1805 Absorbing Dao Rain (Second Watch)

“Bet on the fifth prince. 1:1.1. Bet on the sixth prince. 1:5. If you’re interested, why don’t you come to the next round?”

Hearing this, everyone immediately surrounded him with high spirits.

It was obvious that the fifth prince could win even if he lay down. He could definitely win back 10% of the bet.

“100 god stones. Bet on the fifth Prince!”

“300 god stones, bet on the fifth prince. Hehe, it’s not bad to earn 30 god stones as pocket money.”

“I’ll bet 300 too!”

Throughout the whole process, they were overwhelmingly betting on the fifth prince.

As for the sixth prince, no one dared to bet on him.

Everyone could see that Su Yu would definitely lose.

The first Prince had a cold smile on the corner of his mouth. He also thought that Su Yu would definitely lose. Even though he knew that he would lose money, he still made a bet. In fact, it was to suppress Su Yu’s confidence.

Losing a few hundred divine stones to buy a blow to Su Yu was a very good deal.

Seeing that the bet was almost over, Su Yu, who was the center of attention, suddenly walked over and chuckled. “Is there a limit to the bet?”

The first prince sneered. “Put as much as you have. Royal brother can take it.”

He did not believe that Su Yu, who had just become the sixth prince, could have so much savings.

Su Yu shrugged. “Not much, just 30,000 divine stones.”

The originally bustling altar suddenly fell silent for a moment, and then a shocking shout erupted.

“Oh my God, 30,000 divine stones! I Can’t tell that the sixth prince is not cheap!”

“So many divine stones, where did he get them?”

The first Prince’s pupils constricted. Clearly, he had not expected Su Yu to be able to take out so much money, then, he could not help but laugh. “What, sixth brother also plans to bet on himself to lose? In that case, imperial brother will have to accompany you for 3,000 divine stones.”

“Hehe, imperial brother is thinking too much. Of course, I’m betting on myself to win.”

With that said, he threw a few pockets filled with divine stones over.

After careful inspection, there were indeed 30,000 divine stones. Among them, there was a bag full of rare middle-grade divine stones.

The first prince was slightly startled, and then laughed out loud. "Sixth brother gave me 30,000 divine stones, so I won't stand on ceremony and accept it!"

Su Yu smiled faintly. "If I were your royal brother, I would begin to prepare how to repay 150,000 divine stones."

Even for the first prince, 150,000 divine stones was a huge sum. It was unknown whether he had that many.

"Hehe, we'll see." The first prince laughed contemptuously.

He did not think that the fifth Prince would lose to Su Yu who had nothing!

At this moment, the golden clouds in the sky suddenly changed.

With the center as the focus, they quickly circled around, creating a circular gap.

The gap grew bigger and bigger until it was the size of an altar.

An ancient sword slowly descended from the vortex.

Instantly, the majestic spiritual pressure made all living beings prostrate in fear.

It felt as if there was a supreme existence standing in front of them, and they couldn't help but want to worship it.

However, it was just a sword in front of them.

Swoosh --

Suddenly, an old man in a gray robe flew out from the depths of the palace. His beard was extremely long, longer than his body, and it danced wildly in the wind.

He raised his head and stared at the ancient sword. His eyes were filled with reverence. "The temple-guarding ancient sword of the Daoist Huang Hall!"

Then, he shouted, "Everyone, immediately enter the range of the Dao Rain. The dao rain is coming!"

Xiu --

As soon as he finished speaking, someone beside Su Yu rushed out and headed straight for the barely opened altar.

Su Yu was not willing to be outdone. He grabbed princess ru Chen and directly used the Taiji Yin-yang wings to teleport and disappear from the spot.

When he reappeared, he appeared in front of the first row.

Princess ru Chen was pleasantly surprised. She had been worried that she would not be able to get the first few rows. She took Su Yu's seat and took the best seat.

Without saying anything, princess ru Chen immediately sat down and occupied the seat.

Su Yu also sat down cross-legged.

When the others rushed over, Su Yu and princess ru Chen had already occupied the first row of seats.

This speed made those who came later anxious and angry, and they all occupied the first row of seats.

Whoosh whoosh whoosh --

In the blink of an eye, the first row of seats were completely occupied.

The strange thing was that Su Yu recognized most of them.

The second prince, the third prince, the fourth prince, and the fifth Prince!

“The fight for seats is quite fast, but this is only the beginning. Don’t be worse than the last row and waste this first row of seats.”The fifth prince was not far away from Su Yu, and he gave a slight sneer.

Su Yu turned a deaf ear to his words.

As they waited, the seats at the back were also taken one after another. Soon, the seats were filled with the members of the imperial family.

All the other seats in the Dao rain area were also taken. All the creatures in the entire dao rain area raised their heads and waited for the most exciting moment.

At this moment, the gray-robed, long-bearded elder said, “The dao rain will only last for the time it takes to brew a cup of tea. Whether or not you will be able to seize the opportunity of this lifetime is up to you!”

After sizing him up, the majestic aura of the double-crowned emperor was enough to let people guess his identity.

He was one of the three double-crowned emperors of the dynasty, the gray-robed emperor!

Not long after he finished speaking, the ancient sword from the Daoist Huangdao palace emitted a stunning sharpness.

The sword suddenly turned, causing the golden clouds in all directions to suddenly gather into a ball.

The golden clouds were so dense that they appeared dark golden in color.

Drip --

Suddenly, a drop of dark golden rain fell from the golden clouds.

This caused a chain reaction, and countless dark golden raindrops poured down like thunderclaps.

Everyone immediately began to prepare. They all took out the rain-stabilizing needle. The fifth Prince threw it with one hand and waved a rain-stabilizing needle above his head. Immediately, the dark golden raindrops that fell near him slowed down a lot.

Taking advantage of this opportunity, a vortex formed from divine aura appeared above the fifth Prince’s head.

A few drops of dark golden raindrops fell into it and were enveloped by divine aura as they returned to the inner mansion.

Immediately after, he methodically accepted the second drop.

On the other hand, Su Yu did not have the rain-stabilizing needle. The Dark Golden Raindrops fell rapidly. He only had enough time to wrap the first drop of dark golden raindrops. The second drop of Dark Golden Raindrops was wasted. It fell to the ground and quickly merged into the ground, it could no longer be absorbed.

This was the wonderful use of the rain stabilizing needle. It guaranteed that the rain that fell nearby would not be wasted.

The first prince, who was watching from the outside, saw this scene. The corner of his mouth curled into a cold smile. "I really don't understand where you got the confidence to bet 30,000 divine stones!"

Time flew by. Everyone was absorbing the rain methodically.

Su Yu was neither servile nor overbearing. He was not flustered at all.

Even though there were many losses, he did not waste the dao rain that he should have caught. He maintained a good attitude from beginning to end.

The time it took to brew a cup of tea slowly passed. As the golden clouds gradually thinned out, the dao rain also began to thin out.

Not long after, the dao rain was already very scarce.

After the time it took to brew a cup of tea, the Dao rain stopped, just as the gray-robed emperor had said.

The mysterious aura of the dao rain was still lingering in the air, but the ground had dried up, leaving no traces of the dao rain being wet.

The ancient sword hovering in the sky turned into a beam of light and disappeared from the Great Yu imperial court.

The dao rain was over.

Princess Ru Chen let out a long breath of turbid air. Her eyes were filled with surprise and joy. When she noticed Su Yu, she asked worriedly, "How Much Dao Rain have you absorbed?"

"Just a hundred drops."

Princess ru Chen frowned and looked at the fifth prince. "Don't worry. I'll help you repay a portion of the bet after the event. I Won't let the fifth Prince make things difficult for you."

At this moment, the fifth prince happened to look over and laughed mockingly. "Sixth brother, you have to be mentally prepared. My royal brother absorbed 130 drops of rain. The law he condensed will definitely be more complete than yours."

"We'll talk about it after everything is over." Su Yu did not think much of it.

The first prince, who was watching coldly from the outside, laughed coldly as if victory was already in his grasp. “Hehe, a dead duck with a stubborn mouth. Let’s see how you’ll repay the 100,000 divine stones!”

The fifth prince laughed. “Hehe, it’s good that you have such confidence. I’m really a little worried that you won’t be able to accept your loss and will do something foolish.”

At this moment, the gray-robed emperor spoke again. “Immediately digest the dao rain and start condensing the laws!”

The others took out the Blood Crystal Bodhi that they had prepared earlier.

The fifth Prince also took out one. However, unlike the others, his blood Crystal Bodhi was purer and had fewer impurities.

Princess ru Chen was slightly surprised when she saw this. “Could it be that father personally nurtured this with his own divine blood?”

At the same time, the purity of the blood crystal race bloodline was different among the members of the royal family.

As the king of the royal family, Dongfang Xia’s bloodline was the purest. The Blood Crystal Bodhi cultivated by his bloodline was naturally much stronger than the ordinary blood crystal bodhi.

“Hehe, unfortunately, I happen to have one.”

Princess ru Chen frowned deeply. “I remember that father only cultivated three of them. Two of them were used many years ago, and the remaining one was given to eldest brother. Why would it be in your hands?”

Then, he came to a sudden realization and said coldly, “You guys are really well-prepared!”

One did not have a blood crystal bodhi, and the other had an exceptionally pure blood crystal bodhi. Moreover, the latter had obtained dozens of more drops of dao rain than the former.

Did such a competition even need to be asked?

The fifth prince turned his gaze and was about to sneer a few times when his expression froze. He saw Su Yu raising his mouth and swallowing a blood crystal bodhi.

He swallowed it very quickly, so the fifth prince did not have time to see the exact appearance of the Blood Crystal Bodhi. He was immediately shocked. “What? You have the Blood Crystal Bodhi? Where did you get it?”

Su Yu glanced at him and said indifferently, “Is there a need for me to answer you?”

The fifth prince was instantly shocked and uncertain. Su Yu’s possession of the Blood Crystal Bodhi was completely beyond his expectations.

After pondering for a moment, he slowly relaxed. So what if he had the Blood Crystal Bodhi? Could it be purer than his blood crystal bodhi? Was there more dao rain than him?

This was destined to be an obvious competition!

“Hehe, then let’s watch a good show!” After saying that, he also swallowed the Blood Crystal Bodhi and began to condense the laws.

Su Yu focused his mind and looked inside his inner mansion.

In the inner mansion that was filled with divine Qi in the past, there were 100 drops of dark golden water droplets lined up side by side.

Every drop of water drops had a supreme mystical meaning,

if one looked closely, one would discover that the dark golden water drops were actually not water drops, but formed from the condensation of golden chains that were as small as a strand of hair.

Chapter 1806 Condensed Laws -ThirdhWatchatch)

“Are these all law chains?” Su Yu was secretly surprised. “But why do they appear golden?”

The laws he had seen before, other than the mother of laws, were all pitch black.

“Could it be that the Daoist Huang Hall has specially treated them?” Su Yu thought.

Ordinary law chains did not have the conditions to be comprehended. Only those that had been processed could be used for the overlord to comprehend.

Su Yu’s soul touched the first drop of Dao Rain.

Instantly, his soul seemed to explode as countless strange and cold information flooded in like a vast ocean.

In the vast information, Su Yu saw the ebb and flow of tides, the withering of vegetation, death and life, as well as the boundless and vast world of civilization.

A small drop of rain encompassed everything.

The soul lost its direction in it, not knowing which object to look at.

At this moment, a drop of red gas filled with power surged in. It was the power of the Blood Crystal Bodhi.

The red gas circled around Su Yu’s soul, causing his consciousness to gradually become clear. His angle of view of everything also became more detached and thorough.

The seemingly simple natural scenery, however, with the help of the Red Gas, saw the laws hidden within.

Su Yu’s heart moved. Laws could be seen everywhere in the world.

However, which law was suitable for him?

As he pondered in his heart, Su Yu recalled the several powers that came from the nine dragons divine cauldron.

Time, space, soul, life, death, and fate. These six powers were the foundation of Su Yu’s entry into martial arts. They were also the special powers that he relied on the most.

If he wanted to condense laws, he would naturally focus on them.

With a thought, the scenery around him changed and a long river of time and space appeared.

Time law chains danced in the river.

This was the law of time!

Su Yu's heart was moved. He looked at the chains and gradually understood.

“So the so-called time can be like this...”

At this moment, he entered an unprecedented state of comprehension. Previously, he was ignorant of the concept of time, but at this moment, he had a new understanding.

It was as if the Golden Raindrop had opened a brand new door for him.

But very quickly, the entire scene was suddenly annihilated.

Shockingly, the chain law within the golden raindrop was completely absorbed by Su Yu and collapsed on its own.

His heart was calm as he methodically began to comprehend the second golden raindrop.

Time slowly flowed by.

A day later, in the last row, an elder sighed and stood up. “The chain law within the Dao Rain is too profound. I'm afraid that it's not something that a slow-witted person like me can comprehend.”

In the process of receiving the Dao Rain, he obtained as many as 120 drops of Dao Rain.

But so what if he got it? He was also dejected because he was unable to comprehend the profound laws within the dao rain.

Two days later, 20 people had given up.

Without exception, they were unable to condense the law chains.

With the help of the dao rain, if they were unable to comprehend the laws, they would have no hope of becoming the Emperor of Heaven and earth in this lifetime.

Three days later, another 10 people gave up.

Only one of them condensed a weak law chain, but because he did not comprehend it deeply enough, the dao rain was wasted and he could only regretfully withdraw.

The fourth day.

Another ten people gave up.

Compared to before, some of them had refined a relatively good law chain. However, it was still very weak. The hope of becoming an emperor was very slim.

There were only sixty people left.

Most of them were not old. The oldest was only a thousand years old. This meant that they were very talented.

On the fifth day, when ten people gave up, one of them actually condensed half of the law chain. Although the law was relatively simple compared to the other laws, it was not easy.

If one worked hard in the future, there was a certain hope of becoming a heaven and earth emperor.

On the sixth day, another ten people left, but two people succeeded in condensing more than half of a law chain.

On the seventh day, ten people left, and three of them condensed half of a law chain.

On the eighth day, ten people left. Shockingly, five people condensed half of a law chain!

On the ninth day, there were only ten people left.

Six princes, a princess, and three members of the older generation of the royal family who were quite talented.

Their persistence until now was enough to prove that they were extremely talented.

However, the most eye-catching person was obviously Su Yu, the sixth prince who was not favored by others.

“Strange, without the rain stabilizing needle, the Dao rain that the sixth prince obtained far surpasses the others. How did he comprehend it until now?”

“Could it be that every drop of dao rain he comprehended is more profound than the others?”

“That’s impossible, right? No matter how profound the dao rain is, it’s still not enough to last until now. Could it be that his comprehension of dao rain even surpasses the fifth prince who swallowed the pure-blood Crystal Bodhi?”

Amidst the discussion, the first prince also revealed a puzzled expression.

Su Yu had persisted for a much longer time than he had imagined.

The tenth day.

The three talented members of the royal family withdrew one after another.

The good news was that the three of them had all condensed their law chains to sixty percent. As long as they worked hard, they had a good chance of advancing to the Emperor of Heaven and earth.

The rest were the six princes and a princess.

The eleventh day.

The fourth prince was the first to open his eyes and leave the altar with a satisfied expression.

He did not state how refined he was, but judging from his expression, he should be quite extraordinary.

On the twelfth day.

The third prince left the altar. His calm face could not help but be filled with a trace of surprise.

On the thirteenth day, the second Prince and Princess Ru Chen left at the same time.

The former was still fine, while the latter could not help but be overjoyed. It seemed that they had obtained a huge harvest.

The only ones left on the altar were the fifth prince and Su Yu.

The former was not unexpected, but the latter was truly shocking.

“Oh my God, could he have fallen asleep? Judging from the amount of dao rain he absorbed, he has long since dried up.”

“I guess he was afraid that he would not be able to leave the stage after losing, so he pretended to be comprehending and forcefully held on, right?”

“Hehe, great minds think alike.”

The fourteenth day.

The fifth Prince suddenly opened his eyes and laughed loudly. His laughter was loud and clear, soaring straight into the clouds.

He had also finished comprehending.

His face was filled with extreme joy. It was obvious that he had obtained an astonishing harvest.

Suddenly, he realized that Su Yu was still comprehending on the spot. He couldn't help but be shocked and cried out, “Why is he still here?”

He had an extremely bad premonition in his heart.

The first prince stared at Su Yu at all times. His previous confidence had long disappeared, and traces of worry appeared on his brows.

Could it be related to the Strange Blood Crystal Bodhi that he had swallowed?

He would not overlook the fact that Su Yu had also swallowed a Blood Crystal Bodhi that he did not know where it came from.

The fifth prince stared at Su Yu. His expression was uncertain, and the joy he felt from just meditating instantly vanished into thin air.

Should I... A fierce look flashed through the fifth Prince's eyes. If I were to interrupt his comprehension at this moment..

“Since You've finished comprehending, why are you still inside? Leave quickly!”The gray-robed emperor frowned and shouted.

The fifth Prince's heart trembled, and he immediately withdrew his unrealistic thoughts.

If he were to really do this, not to mention that the gray-robed emperor would not let him off, even if he waited for his father to return, he would not be able to escape the fate of being severely punished.

Thinking of Dongfang Xia's strictness, the fifth prince was quick-witted and immediately backed out.

When the first prince saw this scene, he was disappointed.

He hoped that the fifth Prince would intervene and interrupt Su Yu's meditation.

On the fifteenth day, Su Yu still did not wake up.

The Sixteenth Day!

The Seventeenth Day!

..

All the way to the twentieth day.

“Isn’t this too strange? Even if there were 200 drops of dao rain, it’s usually impossible for him to meditate until now, right?”

“That’s right. The fifth Prince has the Purest Blood Crystal Bodhi and 130 drops of Dao Rain, but he only managed to comprehend it for 14 days.”

“Is he really asleep?”

Even the calm and composed gray-robed emperor gradually became suspicious.

The scene before his eyes was indeed somewhat unexpected. Was this child really comprehending it, or was he afraid of the Gamble and pretending to be muddle-headed?

Just as everyone was guessing, Su Yu opened his eyes without any warning half a day later.

A trace of disappointment flashed across his face without any concealment.

Seeing this trace of expression, the fifth prince and the first prince, who were feeling uneasy, heaved a sigh of relief.

It seemed that his meditation had encountered a huge problem. Otherwise, he would not have such an expression.

“He’s finally finished meditating. There are so many of us waiting for him. There’s no one else.”

“Hehe, the next part is the most important part. I’d like to see what tricks this sixth prince will use to muddle through.”

The comprehension ended, but the good part was still to come.

Whether it was the bet between the fifth Prince and the sixth prince, or the bet opened by the first prince, there was a good show to watch. This was also why so many people were willing to wait until now.

The gray-robed old man flew down and held a coiling dragon ruler in his hand. He said, “Princes, princesses, this old man will personally test the degree of your law condensation. According to the order in which you leave first, the fourth prince will go first.”

The fourth prince strode forward with a confident expression on his face.

“Hold the coiling dragon ruler and activate the law chains that you have condensed. At that time, the degree of condensation will appear on the coiling dragon ruler.”

The fourth prince nodded and took a deep breath. He held the coiling dragon ruler and closed his eyes to activate the newly condensed law chains.

“Ice law, degree of condensation, 70% !”The gray-robed emperor stared at the sparkling coiling dragon ruler and announced expressionlessly.

Surprise filled the entire scene.

“I’m really envious! 70% is just a hair’s breadth away from completion. With the remaining 30% completed, he can start preparing to charge through the Emperor’s Gate!”

“In the near future, the imperial family will have another Emperor of Heaven and earth!”

Under everyone’s envious gazes, the fourth prince retreated.

Next was the third prince.

He followed the pattern and held the coiling dragon ruler.

Not long after, the coiling dragon ruler emitted a light that was slightly better than the fourth Prince’s.

“Heavy water law, condensed level, eighty percent.”The gray-robed elder squeezed out a smile.

There was another wave of exclamations.

“Each one is more powerful than the last. The third Prince’s chances of becoming a world emperor are also very high!”

The second prince was next.

While everyone was anticipating, the coiling dragon ruler emitted an even more resplendent light.

The gray-robed Elder’s face was filled with joy. “Hehe, thick earth law, condensed level, 90% !”

The moment he said this, everyone cried out in surprise.

“Oh my God, 90% ! Becoming an emperor is almost certain!”

“This second prince usually doesn’t show off, but I didn’t expect his talent to be so strong!”

The gray-robed elder had a smile on his face. It could be seen that he was in a good mood. “Fifth Prince and Princess Ru Chen, come up.”

“Hehe, I’ll go first!”The fifth prince stared at Su Yu and volunteered to hold the coiling dragon ruler.

Buzz --

The coiling dragon ruler suddenly trembled, and a ray of material light rushed out of the coiling dragon ruler.

Chapter 1807 The Law Of Life

The grey-robed elder was overjoyed. “This is a complete law chain! !”

A moment later, the elder stroked his beard and smiled in satisfaction. “The law of Shadow, condensed to 100% !”

Instantly, the whole area around the altar began to boil.

“What? He condensed a complete law directly? Doesn’t that mean that he only needs to cultivate his soul to the emperor realm and then cultivate his cultivation to the peak of half-step Emperor Realm, and then he can jump to become the Emperor of Heaven and Earth!”

“Unbelievable, this is a 100% chance of becoming the Emperor of Heaven and Earth.”

Different from the past, the most important thing to become the Emperor of Heaven and earth was not the aura and soul, but the law.

As long as the law was completely condensed, the probability of becoming an emperor was almost 100% !

“This time, the royal family has really exploded! Previously, it was fine if the second prince had 90% condensed, but now a complete one has jumped out. TSK TSK, in the future, the royal family will definitely have at least two more emperors of Heaven and earth!”

The envious gazes of the crowd greatly satisfied the fifth prince’s vanity.

Because of this, the contempt that everyone had for him before this was swept away.

Once he became an emperor, he would be an existence that stood above all living things. He was a completely opposite existence from an overlord.

In the entire great Yu imperial dynasty, who had the right to despise an emperor?

No one!

An emperor meant Supreme Glory!

He proudly glanced at the expressionless Su Yu, his eyes filled with derision and laughter.

It was as if he had already imagined the miserable outcome when Su Yu owed him 100,000 divine stones.

The gray-robed emperor also felt extremely gratified. He laughed heartily and said, “Hehe, the younger generation of the Yangtze River surpasses the younger generation. The future belongs to you young people. With you in the imperial family, we can still protect our empire for another ten thousand years.”

“Hehe, I’ll give it a try too.” Princess Ru Chen, who was about to be ignored by others, ran over with a smile.

The gray-robed elder was in a great mood. He said, “Hehe, you should give it a try too. Seeing that you’ve comprehended for so long, your gains shouldn’t be too bad, right?”

He somewhat hoped that princess ru Chen would be able to condense a complete nomological chain as well.

However, the probability wasn’t high.

Not to mention that princess ru Chen’s natural endowments were average and there was nothing outstanding about her. She was also somewhat muddle-headed and her comprehension ability was probably far inferior to the fifth Prince’s.

Moreover, one of the most important reasons why the fifth prince was able to condense and complete the laws was that he had swallowed a unique pure blood crystal bodhi.

Princess ru Chen could only condense up to 80% of the laws at most, and this was still a common guess.

In reality, it was very likely that she could not even condense up to 80% .

Princess Ru Chen held the coiling dragon ruler with great interest and activated the law chains condensed from her body.

Soon, the coiling dragon ruler reacted.

It shook violently, and then a multicolored light rose from the beginning to a hundred thousand feet high.

The signs were exactly the same as the fifth Prince’s!

The gray-robed elder’s pupils constricted, and he exclaimed, “Complete law chains! !”

Those who hadn’t recovered from the fifth Prince’s stunning performance were once again shocked by the dazzling multicolored light, and their eyes were filled with astonishment.

“Princess ru Chen has also condensed a complete nomological chain?”

“This, isn’t this rumor saying that princess ru Chen is a complete muddle-head? How could she comprehend a complete nomological chain?”

The expressions of the five princes present changed at the same time.

Even the first prince was fiercely shocked.

“Royal sister, she... how did she condense a complete nomological chain?”The second prince was a little absent-minded, but he was more in disbelief.

The reason why the princes were especially close to princess ru Chen was because this woman was the most harmless.

Whether it was her scheming or her aptitude, she was far inferior to them.

But the scene before their eyes overturned their understanding.

The fifth prince was able to condense a complete law largely because of that special blood crystal bodhi.

But what did Princess Ru Chen have?

Her astonishing performance really caught many of the royal brothers off guard.

The fifth Prince was also stunned. After a long while, he said in a daze, "Royal sister, you... You also condensed a complete law?"

Princess ru Chen stuck out her tongue and giggled. "Only fifth brother can have some achievements. Can't royal sister give everyone a little surprise?"

Everyone's faces were filled with shock. The gray-robed emperor was stunned for a moment. Then, he announced loudly with great joy, "Hundred-flower law, condensed level, 100% !"

He was a little excited, his pale face filled with joy. He couldn't help but laugh out loud, "Hahaha, it's really the Tianxing Royal Family! Within 10 years, the royal family will definitely have two emperors!"

The spectators had complicated emotions, especially the second tier emperor representatives. They were all extremely bitter.

Compared to the eye catching members of the royal family, their best result was only 60% of the law chains.

The density of the dao rain determined that their gains were far inferior to the royal family's.

For a moment, everyone's emotions were extremely complicated. They all looked somewhat depressed.

The gray-robed old man's heart was very weak, he looked at princess ru Chen with a gaze full of love. "I have some manuals from when I broke through to the Emperor realm. I have some insights from back then. After the two of you leave, come to my residence. I will give you some face-to-face pointers."

Hearing this, the entire place was filled with jealousy once again.

How many wronged paths could he walk down with the guidance of a double-crowned emperor?

Princess ru Chen's small face was filled with surprise. This was yet another great harvest for her.

"Thank you, grandfather Gray Robe." Princess ru Chen's sweet words caused the gray-robed old man to burst into laughter.

The fifth Prince's mood also improved a lot. Although his outstanding performance had been suppressed by princess ru Chen's rise, it did not matter.

Because he still had the scene he had been waiting for the most to happen.

"Hehe, sixth brother, how long are you going to hide? You've been pretending to sleep for more than ten days. It's time for you to reveal your true form." The fifth prince stared at Su Yu and smiled sinisterly.

Everyone's emotions were stirred up again.

Didn't most of them wait until now just to watch a world-shaking gamble?

Although the result would be predictable, it was still worth watching.

The gray-robed old man stopped smiling and looked at Su Yu expressionlessly. "Sixth prince, it's your turn."

The onlookers also clamored.

"Hurry up and go. So many of us have been waiting for you for many days. Don't Dawdle anymore."

The first prince was calm and unruffled in the crowd. The fifth Prince had condensed a complete law chain and was now in an invincible position. No matter how many laws Su Yu Condensed, there was nothing to be afraid of.

They were sure to win this big gamble.

Su Yu came before the coiling dragon ruler with a straight face. Under everyone's urging, he grabbed the coiling dragon ruler.

After a moment, the coiling dragon ruler began to change slightly. Rays of not-so-bright light flickered near the coiling dragon ruler.

Seeing this scene, no one in the crowd found it strange.

Princess ru Chen Sighed silently. In her mind, she began to think about how to raise money. 100,000 divine stones was a huge number for the princess's residence. It would be difficult to gather all of them in a short period of time.

The first Prince and the fifth prince relaxed their hearts at the same time, and they felt much more relaxed.

After the dust settled, there was no longer any suspense.

The gray-robed elder also frowned slightly. "40% condensation? Sixth Prince, you've Disappointed Me."

The rest of the princes had at least 60% condensation, and 40% condensation showed how dull the sixth prince was.

But in the next moment, after the specific information appeared, the gray-robed elder's expression suddenly changed, traces of shock appeared on his old face. "This is... This is the law of life! ! Oh My God! It's actually one of the eight Supreme Heavenly Dao Laws! !"

The moment these words were said, the faces of the fifth Prince and the first prince, who were full of smiles, stiffened.

The spectators, who were full of ridicule, also seemed to be frozen.

Most of the people present were at the Overlord level and had a certain level of understanding towards the laws.

There were countless laws in the world, but there were eight main laws, which were the main components of the entire world.

It could be said that the other laws were derived from the eight laws. They were also known as the eight profound mysteries of the Heavenly Dao, and they were the most profound laws.

They were: time, space, soul, life, death, fate, reincarnation, and creation.

Those who could comprehend any of the eight laws and condense them were all geniuses that were hard to find in this world.

Su Yu's law might be very low, but it was another story if he condensed one of the eight laws, the law of life.

The gray-robed old man's eyes were wide open, and his expression was extremely excited, he looked even more excited than the fifth prince when he condensed the complete law.

"Unbelievable! It's simply unbelievable! Our three-star civilization is far away from the Daoist yellow hall, and there's actually someone who can comprehend one of the rumored eight laws! !"

He looked at Su Yu as if he was looking at a peerless treasure.

The others were also in great shock.

Since ancient times, anyone who could condense one of the eight great laws had achieved a world-shaking feat.

Who would have thought that the sixth prince, who attracted the most attention, was actually comprehending such a difficult law.

"Hiss! No wonder the Sixth Prince has been comprehending the eight great laws for so long that ordinary people can't even touch the slightest profound meaning!"

"If it were the fifth Prince and Princess Ru Chen comprehending the life profound meaning, I'm afraid they wouldn't even be able to condense 20% !"

"Heavens, just how extraordinary is the sixth Prince's comprehension ability? To be able to condense 40% of the life law, this is simply unprecedented in the great yu imperial court!"

"TSK TSK, if I didn't see it with my own eyes, I wouldn't dare to believe that someone has condensed the Life Law!"

"His future is limitless. If he can complete the chain of the law of Life!"

The entire arena was in an uproar, even more so than the fifth Prince's.

It could be imagined that the sixth prince's name had spread throughout the entire dynasty, far surpassing the fifth Prince!

The fifth Prince clenched his fists tightly. His limelight had actually been overshadowed by Su Yu!

But on second thought, so what if he overshadowed Su Yu? At the very least, it seemed that he had won.

In terms of condensing, he was 100% , while his opponent was 40% !

A trace of a strange smile appeared on the corner of his mouth.

The gray-robed old man sized up Su Yu for a long time. This sixth prince had really given him too much of a surprise.

“The life law. The results of your comprehension this time can not be said to be unshocking.” The gray-robed old man pondered for a long time, and the joy on his face gradually faded, a trace of regret filled his eyes. “With your comprehension ability, if you chose to condense ordinary laws, I believe that you have absolute confidence in completing it. However, you chose the law that should not be condensed.”

Everyone pondered for a moment and suddenly understood. They looked at Su Yu with eyes filled with sympathy.

The difficulty of condensing the law of life was far beyond imagination. This time, he had barely condensed forty percent with the help of Dao Rain. In the future, unless he had a great opportunity comparable to Dao Rain’s ten thousand year level, he would not be able to take another step forward.

And if he could not condense the complete laws, he would not have any fate with the emperor.

It could be said that Su Yu had cut off his own future.

Chapter 1808 Settling The Bets

“Sigh, after you go down, come to my residence as well. Over the years, I have gained some superficial understanding of the laws of life. I will impart them all to you. I hope it will be of some help to you.” The gray-robed old man sighed, he patted his shoulder in a comforting manner. “Although you lost the bet, from a certain perspective, you won.”

He also felt very regretful for Su Yu.

Just as he was consoling him, su yu suddenly said, “My test isn’t over yet. It’s still too early to make a conclusion.”

The gray-robed emperor was stunned. The fifth Prince and the first Prince were also stunned. The surrounding spectators were also stunned on the spot.

They stared at Su Yu in astonishment. What did he mean? Wasn’t the test over?

At this moment, the coiling dragon ruler that was barely silent suddenly shook violently and let out a vigorous and powerful dragon roar.

A green light pillar materialized and shot into the sky.

The light was extremely dazzling and enveloped the entire imperial city in a green light.

That scene was actually not much different from the scene when the Dao rain arrived!

Everyone stared at the strange scene in front of them in a daze. The gray-robed old man’s eyes were even more absent-minded. He had never seen anyone’s laws being able to condense such a wondrous scene of heaven and earth!

Buzz --

The coiling dragon ruler trembled violently, and a row of clear words appeared before the gray-robed Emperor's eyes.

When he saw the words clearly, the double-crowned emperor's entire body trembled violently, and he cried out in shock, "It's another one of the eight great laws, the Space Law! The degree of condensation... Hiss, 100% ! ! !"

At this moment, the entire place was deathly silent, and the reason for the gray-robed Emperor's shock reverberated in the air.

Their Hearts were also shaken by this shout, shaking the earth and mountains.

Not to mention Su Yu condensing 40% of the life law, he still had time to condense a space law that was also one of the eight great laws.

What made people feel their scalps go numb, to the point of disbelief, was that he had succeeded! !

He had successfully condensed the space law of one of the eight great laws! !

Everyone stood there numbly, losing their ability to think. The words "Impossible" kept spinning in their minds.

It was not that they did not want to believe it, but they just could not believe it.

The gray-robed Elder's eyes flickered violently, and his entire body trembled non-stop. He was in an extremely great shock.

He had experienced tens of thousands of years in his life, and he had seen countless strange things.

However, this was the first time he had seen such an unbelievable scene.

After a long time, he slowly came back to his senses and the gaze he used to look at Su Yu changed completely.

He was clearly the double-crowned king, an existence far superior to Su Yu, but the gaze he used to look at him was filled with deep respect.

A mere three-star civilization could no longer accommodate such a monstrous giant who controlled one of the eight great laws.

Any civilization would fight for such a shocking genius. Even the high and mighty great hall of the Yellow Dao would come specially to snatch him away and nurture him with great care.

The gray-robed emperor could sense that the great yu imperial court was about to enter an unprecedented glorious era in the near future.

His radiance would definitely surpass any monarch of the great yu imperial court in the past!

Kacha --

The first Prince's leisurely posture as he sipped his tea froze. With a Kacha sound, he crushed the Teacup in his palm, causing tea to splash all over his body.

At this moment, he was staring fixedly at Su Yu, as if he was staring at an unprecedented enemy.

Yes, the first Prince felt a crisis, a crisis that he had never felt before!

A world-shaking genius who had comprehended one of the eight great laws would definitely be highly regarded by his father.

A deep killing intent lingered in his eyes.

The fifth Prince's face was pale as well. His throat creaked. He wanted to say something but was unable to.

A heaven-shaking, heaven-defying turn of events had shattered all the beautiful scenes he had envisioned and even pushed him into the abyss of eternal damnation.

Out of 100,000 divine stones, he only had less than 50,000 divine stones. How was he going to get the remaining 50,000 divine stones?

Su Yu let go of his hand, his heart filled with regret.

100 drops of Dao Rain. He had comprehended every single drop to the extreme. Unfortunately, it could only support him in condensing spatial laws and 40% of life laws.

If only he could experience a few more dao rain, that would be great.

Seeing the faint disappointment in his eyes, the gray-robed emperor was extremely shocked and also filled with emotion.

The other princes and princesses were overjoyed when they condensed the laws. What about Su Yu? He had condensed one of the eight laws, the spatial law, and 40% of the law of life, yet he still felt regretful.

In comparison, Su Yu's horizons were far greater than those of the other princes.

"As expected of someone who grew up outside." The gray-robed emperor blamed everything on Su Yu's experience.

"The test ends here." The gray-robed emperor cleared his throat and said excitedly.

He could not wait to inform the emperor that an unprecedented possessor of the eight great laws had appeared among his six descendants.

Everyone left one after another, but they could not recover from the shock of witnessing a miracle for a long time.

From today onwards, the name of the sixth prince, Dongfang Yu, would resound throughout Emperor Yu's dynasty and even the nearby civilizations.

The fifth Prince blended into the crowd and left quietly.

He had only taken a few steps when he heard a voice that was not a smile, "Fifth brother, where are you going? The bet has ended. It seems like it's time to settle the bet."

The crowd moved aside one after another, exposing the fifth prince.

Under the focus of the crowd, the fifth Prince had nowhere to hide. He could only brace himself and stiffly pull his face at Su Yu, making an ugly smile. "Sixth... sixth brother, I'm just joking with you. I Can't take it seriously."

At this moment, how could he still have the arrogance and arrogance from before Dao Rain? He was pitiful, as if he was a pitiful worm who had been bullied.

Hehe, Su Yu walked over with a disdainful smile in his eyes.

If Su Yu was the one who lost, would he take it as a joke? No, he would use this as a threat to make Su Yu suffer.

Don't look at how pitiful he looked now. Now that Su Yu had bypassed him, he would not receive any gratitude from him. Instead, he would continue to think of ways to trick him.

“Hehe, eunuch Cao, as a witness, do you think that a prince's grand wager can be considered a joke?” Su Yu asked.

Eunuch Cao smiled. “Sixth prince must be joking. The wager is placed in public. Both parties are willing and have a witness. Naturally, it will be effective. If this matter is reported to the king, the sixth prince will stand up for it.”

He looked down on the fifth prince.

He had aggressively forced the sixth prince to participate in the unfair bet. He had even twisted logic and argued that it was very fair.

In the end, despite having such a huge advantage, he still lost miserably. Not only that, he even planned to go back on his word.

That was a bet that he had initiated on his own initiative. And in public, he actually had the face to say that it was a joke?

Such a prince, he loathed from the bottom of his heart.

“Fifth prince, please abide by the wager and give the sixth prince 100,000 divine stones. If you don't have enough divine stones on you, then write an IOU,” eunuch Cao said with a smile.

The fifth Prince's entire body went cold. After hesitating for a long time, he gingerly took out a spatial storage item. “I only have 50,000 divine stones. The remaining 50,000 is an IOU.”

Su Yu unceremoniously accepted the 50,000 divine stones, he said indifferently, “The remaining 50,000 is fine, but you must return it within a month. Otherwise, fifth brother, I will accept your sixth brother of the fifth Prince's residence as payment. In addition, all the items you have on you, including the items in your storage space and the magic treasures you carry with you, will have to be confiscated as payment.”

“If it's not enough, then please force the fifth prince to sign a contract to sell his body and become a servant in sixth brother's residence until you pay off the debt.”

Hearing this, the bystanders gasped. How ruthless!

The fifth prince said angrily, “A month? Are you kidding me? Where can I get 50,000 divine stones for you within a month?”

“That’s your business. I admit my loss. You forced me to participate in the bet. You Can’t blame me for losing, right?” Su Yu took out a pen and paper and wrote down an IOU. “Fifth brother, sign it.”

The fifth prince was furious. “Dongfang Yu, don’t go too far! You Don’t have any experience in the imperial palace, so you’d better not be too arrogant!”

“Hehe, you’re clearly the one who bullied me, so how come it’s Me Who’s bullying you now?” Su Yu walked over and stared at him. “This word, are you going to sign it or not?”

At this point, the fifth prince was fortunate enough to have completely shed all pretense of cordiality. “So what if I don’t Sign It? What can a foreign bastard like you do to me?”

The word ‘bastard’ was particularly harsh to the ears. Perhaps some people thought so in their hearts, but they did not dare to say it out loud.

Dongfang Xia’s severe punishment was unavoidable after this.

Since the fifth Prince had said this, he did not intend to complete the bet.

Su Yu smiled faintly. “What can I do to you? Fifth Imperial brother, you are very confident in your own strength! Or are you underestimating me?”

“HMPH! No matter what, I am still stronger than you!” The cultivation techniques he cultivated in the palace were all top-notch artifacts used by Emperor Yu of the Great Yu dynasty. They were definitely not something that Su Yu, who had traveled outside all year round, could compare to.

“Hehe, is that so?” Su Yu placed his left hand behind his back and clenched his right hand. A bright red Asura sword appeared in his palm. “Then let me try and see where fifth brother’s courage comes from.”

“Devil Lord, the world!”

Surging Devil Qi burned the huge sword. As he waved it, layers of illusions appeared.

The fifth prince was stunned and instantly fell into a daze.

However, a jade pendant on his neck suddenly turned cold, waking him up from his daze.

“Illusion technique?” The fifth prince was shocked. He hurriedly took out his dark longsword and swung it abruptly. Dozens of strange curved sword shadows attacked Su Yu’s flaws from all directions.

As expected of a member of the royal family. Although he only had the cultivation of a peak overlord, he was much more difficult to deal with than ordinary overlords.

At this moment, he used Devil Lord World, which was much more powerful than before. Ordinary Peak overlords were killed before they could even wake up.

For the fifth prince to be able to wake up in advance and to be able to produce an exceptionally strange sword shadow, his strength was not ordinary.

“Not bad swordsmanship. It is similar to your condensed shadow law,” Su Yu commented lightly. “However, in the face of absolute power, it is all an illusion.”

As he spoke, the Shura Sword Shadow in his palm smashed down, forming an arc-shaped shockwave around his body that swept out in all directions.

The distorted sword shadows that were attacking him were all crushed like bubbles.

The sharp sword light was like a hot knife through butter as it swept towards the fifth prince.

He was greatly shocked. He was exceptionally satisfied and confident with his shadow sword technique. It had an incomparable restraining effect on those of the same level.

However, even though they were both sword techniques, the opponent’s sword shadow was more than one level stronger. It directly crushed his sword technique!

In his panic, he raised his sword to block in front of his chest. At the same time, the surface of his body flickered with divine light, and a layer of bronze-colored protective armor tightly wrapped him from head to toe.

He roared, “Don’t you dare be impudent!”

Chapter 1809 Ancient Beast Ruins

Su Yu smiled. The giant sword slashed down with crushing force, and the fifth Prince’s furious roar was completely drowned out by the loud rumbling sound.

A shocking scene was reflected in everyone’s enlarged eyes.

The Black Sword in the fifth Prince’s hand was directly destroyed by the enormous force and flew out of his hand.

The armor on his body was like a piece of paper that was pierced through by the giant blood-red sword.

Wah --

The giant sword smashed into his chest, causing the fifth prince to spit out a mouthful of blood. His body flew backward and crashed into the altar.

His limbs and bones were broken inch by inch. As he coughed violently, he coughed out pieces of flesh with blood, and his body was in a mess.

This scene made everyone’s scalps go numb when they saw it.

“Hiss! At the same cultivation realm, the sixth prince’s swordsmanship completely crushed the fifth Prince!”

“The sixth prince’s strength is beyond compare!”

“Oh my God, the sixth prince actually concealed such formidable strength?”

The spectators were shocked, once again shocked by the sixth Prince’s sword.

Swish --

Su Yu held the asura sword and walked in front of the fifth prince. The ice-cold blade cupped his chin and said indifferently, "Fifth brother, what do you think a foreign bastard like me can do to you now?"

The fifth Prince raised his head with a face full of resentment. "Dongfang Yu!"

PA --

Su Yu kicked him in the face and stomped him on the ground. He said indifferently, "It's not good to call my name directly."

Such a humiliating behavior attracted the attention of several princes.

The second prince berated, "Sixth prince, that's enough. Enough is enough."

The third Prince and the fourth prince also cast hostile gazes. They seemed to be very disgusted by Su Yu's actions.

Su Yu turned his head to look at them, and the corners of his mouth curled up. "What, are the three Imperial brothers planning to pay off the debt for fifth brother? If so, then everyone will be happy. If not, then please shut up."

When the fifth Prince acted shamelessly and forced him to participate in the bet, he did not see the other princes appear for his sixth brother.

Now that the fifth prince was at a disadvantage, they appeared one after another.

In the end, they didn't agree with Su Yu, the sixth prince who had just joined.

Since that was the case, how could Su Yu be polite to them?

"Sixth brother! You're too presumptuous!" The second Prince's face darkened, and the aura of a half-step emperor leaked out.

A faintly threatening gaze stared straight at Su Yu, with a hint of warning.

The third and fourth princes also looked over coldly, as if they were about to make a move.

Three against one, and there was even a half-step emperor amongst them.

Most people thought that Su Yu was in a disadvantageous situation, and only princess ru Chen knew that the three princes were looking for trouble.

She looked at them without a change in expression, and her heart was bursting with joy. If her competitors were all injured by Su Yu before the competition for the national luck, then it would be fun.

Su Yu chuckled. "The three of you, let's attack together."

It was one thing for him to dislike the princes, but it was also another thing for him not to be involved in the conspiracy.

Using absolute force to intimidate them, he believed that his days would be much quieter in the future.

The second prince narrowed his eyes and said, "Sixth brother, it's a big taboo to be arrogant. As the royal brothers, it's necessary to teach them basic manners!"

Both sides were at daggers drawn and ready to attack at once.

The gray-robed emperor watched coldly from the side. He could no longer sit back and watch the members of the royal family descend into chaos in public.

“Stop!” He shouted softly. An invisible force dissipated the aura that the second prince, Third Prince, and fourth Prince had been secretly accumulating, forcing the three to retreat.

Su Yu, on the other hand, was not affected at all by his intentional protection.

Such unfair treatment made the three princes’ faces extremely unsightly.

Did comprehending the eight laws give them such special treatment?

It was clearly Su Yu who made the move, not them!

The three of them were secretly resentful, but they did not dare to act rashly in front of the gray-robed emperor. They unwillingly withdrew the Divine Arts they had secretly prepared and stared at Su Yu unkindly.

“Fifth prince, as a prince of the great yu imperial court, every word and action is an example to the world.” The gray-robed emperor admonished him expressionlessly, “Since you initiated the bet, you should bear the consequences no matter what the outcome is. You have to sign the IOU or Not!”

He made his position clear with a single sentence.

Even if Su Yu didn’t respond, he would still stand on Su Yu’s side.

For those who had mastered the space law, their future achievements were not just words. If they didn’t support him, would they support others?

The fifth Prince’s face instantly turned as pale as paper. Since the gray-robed emperor had spoken personally, he couldn’t deny this debt.

Otherwise, if he casually mentioned this matter in front of his father, the fifth Prince didn’t dare to imagine what would happen to him.

“If you are unwilling, this old man doesn’t mind personally pressing you to sign it.” The gray-robed Emperor’s expression turned cold.

The fifth Prince’s entire body trembled and he hurriedly said, “I’ll sign it. If I’m willing to bet, I’ll admit defeat. I’ll sign it immediately!”

Sha Sha --

The IOU immediately had the fifth Prince’s signature on it.

“Hehe, fifth brother, remember that you only have one month.”

The fifth prince gritted his teeth. Now that things had come to this point, he could only brace himself and gather the money. Otherwise, if he were to become a servant of Dongfang Yu's estate, he would never be able to raise his head.

After keeping the promissory note, Su Yu looked at the first prince, whose face was ashen. The first prince's body trembled slightly. Without waiting for Su Yu to speak, he said, "I was the one who placed the bet. Naturally, I will compensate you with the odds."

"Sixth brother used 30,000 divine stones to buy himself to win. The odds are five times that. That is 150,000 divine stones." The first Prince's heart was bleeding. 150,000 divine stones was almost half of his fortune.

His life's accumulation was turned into other people's wedding dress.

Enduring the pain, he took out a spatial storage device and put bags of divine stones into it. Finally, he passed it to Su Yu.

Seeing this scene, everyone present was envious and jealous.

In just 20 days, the number of divine stones had increased five times.

150,000 divine stones was an astronomical figure. Many world emperors might not have such a fortune.

"Haha, many thanks, eldest brother." Su Yu accepted it impolitely with a smile on his face.

"Haha, Sixth Brother, you have a share in this meeting." Princess Ru Chen's eyes sparkled as she pounced over and hugged his arm. They were extremely intimate. "Let's return to the estate and divide it slowly."

Su Yu smiled and nodded.

Today, he was in the limelight and had offended all the princes. It wasn't appropriate for him to stay for too long.

"Senior, this junior will take my leave." Su Yu cupped his fists towards the gray-robed emperor.

He smiled and nodded at Cang Yan. "Today, you've just condensed your law chains. When you return, you must calm your heart and continue to consolidate them. Many overlords have carelessly condensed their law chains, causing them to become unstable and begin to crumble. Don't follow in their footsteps."

"I will follow Senior's orders." Su Yu bowed gratefully. Then, under Princess Ru Chen's urging, she quickly left the altar.

Back at the residence.

With a bang, princess Ru Chen closed the door. Not long after, a ray of light followed her and teleported into the house.

The latter's hands continuously tapped and set up a barrier around her. She looked at Su Yu with a complicated expression.

After a long while, she slowly said, "You really surprised us, Su Yu."

After personally witnessing Dao Rain's performance, Su Yu's performance could be said to shake the entire world.

Right now, his reputation probably surpassed that of all the other princes.

The owner of one of the eight great laws, the spatial law, and the Prince with an unlimited future..

A deep unconcealed feeling surged in Emperor Wuhen's heart.

Princess ru Chen was straightforward as she stared straight at Su Yu, she said, "Imperial brother, I'm afraid that no one will believe that you're not a member of the Great Yu Imperial Court's Imperial Family Now, right? If you ascend to the throne and become the emperor, I believe that everyone in the world will want you. No one will question you."

Even the always neutral gray-robed emperor had extended an olive branch to Su Yu. If he became the emperor, there would be very little resistance.

What she asked was quite harsh and very direct. She doubted that Su Yu would put on a show and take the throne away.

Su Yu knew that the two of them would hold grudges against each other, he pointed at himself and said, "The two of you think that if I can hide it from the world, could it be that I can hide it from the emperor? Identity is an insurmountable obstacle. No matter how outstanding I am, I can not become the emperor of the Great Yu imperial court."

The expressions of the two women did not ease up much, because during the examination, what was finally confirmed to be Su Yu's identity was no longer the bloodline of the imperial family, but the unique national fortune that the imperial family was born with.

The bloodline had the possibility of diluting and disappearing, but the national fortune that came from the womb would not.

At this moment, no one would be willing to believe that she was not a prince.

Even Dongfang Xia might not be able to deny her identity.

If Su Yu really had ambitions, and with the support of the gray-robed emperor, putting aside princess ru Chen to compete for the throne, the chances of victory would not be low.

Su Yu had a slight headache. "My Heart is not in the imperial dynasty, but in the peak of martial arts further away. You can rest assured about this. In the future struggle for the throne, I will keep my promise to help princess ru Chen."

"If you don't believe me, I will leave the Great Yu imperial court right now to save you the worry of having to worry about the future." Seeing the two women's uneasy expressions, Su Yu frowned.

Since he had said this much, the two women could only believe him.

“When will the fight for the throne begin? And what kind of fighting method will it be? You should explain the details to me, right?”The other party kept his promise and helped Su Yu obtain Dao Yu. He would also do his best to help Princess Ruchen.

“Half a month later.”Emperor Wuhen’s expression was filled with nervousness.

So Urgent?

“Our great Yu Emperor Dynasty has a treasure land called the Great Yu ruins. It is the root of the dynasty and the origin of the Great Yu civilization,”Emperor Wuhen said. “In the Great Yu ruins, there is a remnant of the nation’s fate. Under the special environment of the ruins, the fate of the nation has fused into the bodies of the ancient beasts in the ruins.”

“The only way to obtain the nation’s fate is to kill the ancient beast.”

Fighting for the nation’s fate was indeed not that simple.

“The stronger the ancient beast is, the more nation’s fate there is in its body, and vice versa.”

Su Yu muttered, “I wonder how strong the ancient beast is.”

Emperor traceless’s eyes flashed. “Very strong! There is no guarantee that the emperor will be able to survive in there because there are a few terrifying ancient beasts with two crowns inside.”

Hearing this, Su Yu’s pupils constricted.

Two Crowns! Who would be able to destroy such ancient beasts? Even if the princes and princesses joined forces, they wouldn’t be able to shake a single hair on his head.

Having come into contact with Huangfu Lieyang, Su Yu knew the difference between a two crowns emperor and a one crowns emperor.

A difference of one crown was like a huge realm difference.

“Thus, in terms of how much luck we obtain, a large portion of it will depend on the number of ancient beasts we kill.”

“Is that so?”Su Yu looked worried.

He had experienced the difficulty of killing an emperor when he fought with Fantasy Moon Langjun. It was not easy.

Even though he had mastered the space law, he did not have complete confidence.

The demonic sword technique was stuck at the bottleneck of the sixth movement. The power of the Royal Longzun sword was limited by the dragon blood in Su Yu’s body, so it was very limited.

It was not a problem to fight with the emperor, but it was a little difficult to kill him.

Chapter 1810 Dealing With Hidden Dangers

However, if he only killed one or two of them, he would still be able to do it.

“You don’t have to worry too much. You’re not the only one competing for the fate of the country. The others will follow you.” Princess ru Chen raised her snow-white chin like a peacock. “I’ve made a lot of preparations for this day.”

Su Yu couldn’t help but think of the plans of princess ru Chen and Emperor Wu Hen to gather all the hidden overlords within the royal capital.

“It’s about time for the two of you to meet.” Princess ru Chen said. Without any further explanation, she led Su Yu out of the manor and arrived at an inconspicuous manor within the royal capital.

Outside the manor, there was an illusory formation personally set up by Emperor Wu Hen. Ordinary people wouldn’t be able to see through it.

After entering, there was indeed a different world inside.

More than twenty cultivation caves lined up side by side.

Xiu Xiu Xiu --

Sensing princess ru Chen’s aura, more than twenty figures rushed out of the cultivation cave one after another. They appeared in front of princess ru Chen and knelt down one after another.

“Greetings, Princess Ru Chen.”

Su Yu’s gaze swept over and was slightly surprised. They were all peak overlords without exception.

Among them, there was a powerful existence that was half-step emperor. It was the girl next door who was at the same stage as Su Yu.

They all had signs of law chains rippling on them. It seemed like they had experienced the baptism of the dao rain.

Presumably, they were like Su Yu, exchanging with Princess Ru Chen for the Dao Rain to help him seize the fate of the country.

“Hehe, I’m sure everyone is familiar with the person beside me, right?”

Everyone looked up and their expressions changed drastically. “Sixth Prince!”

The sixth Prince’s stunning performance had only just ended.

Whether it was his mastery of spatial laws or his ability to crush the fifth Prince with a single sword, they were all under immense pressure.

“It’s really the sixth prince!”

“I’m actually lucky enough to see the sixth Prince Up Close!”

“Strange, why is the sixth Prince Here?”

Princess ru Chen smiled mysteriously and said, “Are you happy to see the Sixth Prince?”

Everyone looked at Su Yu with respect. "To be able to see the sixth prince, we feel extremely honored."

"Hehe, you're very happy, right?" "Then this princess will tell you something even happier." Princess Ru Chen's eyes revealed a playful look. "The sixth prince in front of you will act together with you and lead you to seize the fate of the country for this princess!"

What? These words roused everyone present.

The strength of the sixth prince was obvious to everyone. It would undoubtedly be much safer to have such an expert traveling with them.

"Is this really true?"

"Hahaha, with the sixth prince joining us, our situation won't be much lower. At least, we won't be much inferior to the third and fourth princes!"

Princess Ru Chen was also very gratified in her heart. She was still a little worried that Su Yu wouldn't be able to integrate with them. It seemed that she was worrying too much.

"Does that mean that the sixth prince is leading everyone without any objections?" Princess Ru Chen asked.

Everyone was elated. Who would object?

"I don't agree!" An indifferent objection sounded in the crowd.

Although the voice wasn't loud, it suppressed the laughter of the crowd and was exceptionally clear.

Following the source of the voice, they looked over. A young girl wearing a white dress with a delicate and pretty face stood gracefully like the little girl next door.

"Yue Shanshan, what do you have to say?" Princess Ru Chen frowned. The person who spoke was none other than the only half-step emperor she had recruited.

This girl had killed the Devil's child girl alone and completed the test mission. She was the only card she relied on other than Su Yu to seize the fate of the country.

Princess Ru Chen had to take her opinion seriously.

Yue Shanshan glanced at Su Yu indifferently and said, "The ruins of Yu the great are extremely dangerous. The strength of the leader should be more important than his identity."

What she meant was that Su Yu's strength was too weak to take on the heavy responsibility of being the leader.

As a half-step emperor, she had the right to say so.

Unfortunately, princess Ru Chen had seen Su Yu's true strength. Even ten Yue Shanshan combined were no match for Su Yu.

“What if it’s My Order?” Princess ru Chen frowned.

Yue Shanshan said indifferently, “I will naturally follow your orders, but I will not listen to his orders.”

She was determined to reject Su Yu’s leadership. In the end, she expected herself to lead.

Princess ru Chen could not help but feel a little helpless. If she had to do this, then she could only kick her out of this competition for the country’s fate.

Rather than leaving an unstable factor behind, it was better to remove it as soon as possible.

“Hehe, Miss Yue, right?” Su Yu said indifferently, “Are you sure that your strength is above mine?”

Yue Shanshan met Su Yu’s gaze indifferently. “Yes, not in the slightest.”

“Then let’s give it a try?” Su Yu stared at her with a smile that was not a smile.

Yue Shanshan did not say a word. A pair of strangely shaped half-moon-shaped sabers slid down from her sleeves. She held one in each of her left and right hands. “I also want to experience the sixth prince’s spatial law.”

With a smile, the asura sword appeared in Su Yu’s palm.

Staring at the cold blade, he chuckled. “I don’t need space law to deal with you.”

“Then you won’t have the chance to use it!” Yue Shanshan disappeared from where she stood, leaving a series of afterimages in the air, attacking Su Yu’s vital points.

Her speed was so fast that the onlookers had no time to lock onto where the real Yue Shanshan was.

When they saw the afterimage, the half-moon sharp blade in his original body’s hand had already pierced into Su Yu’s chest.

Ding --

When the crowd heard the clanging sound, they were surprised to find that Su Yu was holding the Shura sword and blocking Yue Shanshan’s two half-moon sharp blades without missing a beat.

Yue Shanshan’s expression changed slightly. What a quick reaction.

To be precise, the other party had excellent eyesight and could clearly see the direction of the sharp blades.

However, Yue Shanshan’s reaction was also very quick. She swept her right leg, and a half-moon sharp blade appeared under her feet and swept towards Su Yu’s legs.

This sweep would definitely result in her legs being chopped off.

The strange thing was that all of her movements could not escape Su Yu’s eyes. It was as if she could predict it in advance. With a tap of her feet, she rose into the air.

With another leg lifted into the air, Yue Shanshan was not discouraged at all. She also followed suit and another half-moon sharp blade appeared under her other foot, stabbing towards Su Yu's chest.

Su Yu casually pressed down with his shura sword and pushed Yue Shanshan down by a foot. His foot brushed past the tip of Su Yu's nose.

“Show me what you have left,” Su Yu said playfully.

Yue Shanshan's deep feelings gradually became serious. Her opponent's battle experience was practically invincible.

Her eyes flashed and Yue Shanshan shouted, “Then don't blame me for using my full strength. Blades and swords have no eyes, don't blame me!”

Crack crack crack --

A hair-raising scene appeared before everyone's eyes as half-moon sharp blades stabbed out from Yue Shanshan's body.

The top of her head, her face, her neck, her chest, her abdomen, her thighs... her entire body was covered in sharp blades.

In the blink of an eye, she transformed from a seemingly obedient girl next door into a ferocious human-shaped weapon.

“Death spin!” Yue Shanshan shouted softly as she transformed into a whirling gale that swept towards Su Yu in an instant.

The air along the way was cut into pieces as if it was about to be cut into pieces.

The two seemed to be far apart, but they arrived in front of Su Yu in an instant.

With such a rapid spiral, no matter how strong one's battle experience was, they would not be able to resist it. If they could not avoid it, they would definitely be killed by the chaotic sword doppelganger.

It seemed like a challenge, but it was filled with killing intent.

Everyone also sensed that this move was not good and cried out in alarm.

A deep and strange light flashed in the depths of princess ru Chen's eyes.

At the critical moment, Su Yu was still calm and composed. He held the asura sword and instead of retreating, he attacked with a move.

“Heaven cleaving sword!”

A sword rainbow that pierced through the sky and earth pierced through the Whirlwind.

A miserable cry came from within the Whirlwind.

As a figure that was spinning in mid-air and flying backwards crashed heavily onto the ground, the whirlwind dissipated into thin air.

Yue Shanshan's entire body was covered in blood, and her eyes were filled with shock as she said in extreme shock, "You..."

The group of peak overlords sucked in a breath of cold air.

It was one thing for her to defeat the fifth Prince with a single strike, but Yue Shanshan, who was half a step into the emperor realm, was also defeated with a single strike.

His swordsmanship was simply at the peak of perfection!

Princess ru Chen giggled, "How is it? My Brother's strength is far above yours."

Yue Shanshan stared at Su Yu in shock and doubt. Her expression was a little complicated and unwilling. She said unwillingly, "I submit wholeheartedly."

She stood up with difficulty and shook off the broken blade on her body. Her gaze towards Su Yu was mixed with undetectable resentment.

"It's too late to admit defeat now."

However, unexpectedly, Su Yu swung his sword once again.

It was another heaven-cleaving sword move.

Unlike the previous move, this move was filled with genuine killing intent.

Princess Ru Chen was shocked. "Royal brother, Stop!"

The rest of the people were also shocked. They had never expected that a killer would suddenly appear after the sparring session.

Even if they could stop him, who could stop Su Yu?

Yue Shanshan said in shock, "You want to kill me?"

Ka Ka Ka --

Her snow-white skin turned into a human-shaped metal in an instant.

Unfortunately, she was still unable to block the unstoppable heaven-cleaving sword.

Cha --

The metal surface of his body was easily cut open, and the blade mercilessly slashed in.

Ah --

An incomparably miserable scream resounded throughout the small courtyard.

Everyone who saw it was terrified. How could a good spar turn into a one-sided massacre?

The sixth prince didn't spare anyone when he gained the upper hand. His attack was a bit too ruthless.

Princess ru Chen looked at the scene in front of her in a daze. She couldn't believe that the half-step emperor that she had painstakingly recruited was killed by Su Yu with a single sword.

However, what happened next stunned everyone.

The sharp sword qi slashed into Yue Shanshan's body. It seemed to have hit an extremely hard object. Not only did it not penetrate deeply, it was even deflected.

“Su Yu! ! You did it on purpose, didn't you?” Yue Shanshan's eyes had unknowingly started to fill with blood. Layers of pitch-black mixed within, making it seem extremely strange.

Everyone was puzzled. Yue Shanshan knew the sixth prince before this? From her tone, it seemed that there was still enmity between them.

Su Yu smiled lightly. “I originally couldn't be bothered with you. Unfortunately, you didn't know what was good for you and insisted on trying to provoke me. I can only do as you wish.”

“Unfortunately, the corpse emperor took great pains to help you kill the Devil's Child Girl and arranged for you to be here. However, it was destroyed by your arrogance.”

The moment he said that, everyone was shocked.

The Corpse Emperor? The Emperor of the corpse clan?

They were all wondering in their hearts. When they saw the area where Yue Shanshan's skin was cut open, waves of dense corpse qi rolled out, and they were all shocked on the spot.
