

Nine-Dragon 1811

Chapter 1811 Blade Of Space

“Corpse Race! !” A Scream broke the silence.

“Run, the corpse race is coming!”

“Corpse... Corpse race, the legendary ancient experts who died were resurrected into the corpse race. Legend has it that no matter how hard they tried to kill them, they couldn’t do anything to them!”

“Impossible. Legend has it that the corpse race only exists in high-level civilizations. Our Great Yu imperial court is only a three-star civilization at best. How could there be a corpse race?”

“Run! It’s said that the lowest level of the corpse race is the emperor level. We are no match for them!”

To the creatures of a three-star civilization, the corpse race only existed in ancient books and legends. They were nightmarish existences.

In the blink of an eye, they fled in all directions in an abnormal panic.

Even princess ru Chen’s brows were tightly furrowed. Her eyes flickered with deep shock.

She had never expected that the corpse clan would actually sneak into her team.

Did the corpse clan have a plan?

From Su Yu’s tone, even the so-called corpse emperor had appeared.

More than twenty people who were occupied by fear fled in a panic, causing the scene to be in chaos.

In the chaos, Yue Shanshan’s eyes flashed, and she instantly dashed into the crowd.

And with a flash, she sneakily attacked princess ru Chen from behind.

When she saw that the situation had gone out of control, she had a bad feeling. Just as she was about to stop the crowd, she was ambushed from behind.

“A hundred flowers in the Spring Breeze!” Princess ru Chen’s reaction was not slow. Her body disintegrated into pieces of flowers. There were more than a hundred of them scattered in all directions.

The corner of Yue Shanshan’s mouth curled up. She extended her right hand and pointed at an inconspicuous flower.

HMPH --

With a soft snort, a dust-like figure suddenly flew out from the inconspicuous flower.

The dust grew from small to large. It was surprisingly princess ru Chen!

There was blood at the corner of her mouth. Her entire body was bright red, and she was even injured by the huge force.

“Thank you for protecting me all the way!” Yue Shanshan laughed coldly. She flew over and grabbed her shoulder.

Everything happened in the blink of an eye. When Su Yu caught up, Princess Ruchen had already fallen into her hands.

The sharp blades that came out of Yue Shanshan’s body spun in unison, sticking close to Princess Ruchen’s skin. With just a casual movement from her, she could cut princess Ruchen into countless pieces.

Su Yu flew over with his sword and landed a few thousand feet in front of them. He frowned slightly.

Hostage taking? It was indeed a bit troublesome.

He could kill his way over without caring about princess ru Chen’s safety. After all, he had the special ability to bring the dead back to life.

However, it was better not to expose this ability under the watchful eyes of everyone.

“Su Yu, if you dare to follow us, kill her immediately!” Yue Shanshan glared at Su Yu with hatred and slowly retreated.

Seeing that Su Yu did not continue to press on, she secretly heaved a sigh of relief. She glared at Su Yu and said coldly, “You’ve ruined the Corpse Emperor’s plans. Just wait and see. The Corpse Emperor Won’t let you off. No one in the entire Emperor dynasty of Yu will be able to save you!”

As she spoke, she teleported away with Princess Ru Chen.

Su Yu locked onto their auras and chased after them at a steady pace, thinking about what she had said.

There was no one in the entire Emperor Yu dynasty who could save him? Including Dongfang Xia?

Yue Shanshan’s words of absolute certainty were definitely not groundless.

Speaking of which, Yue Shanshan held Princess Ruchen hostage and ran all the way. Half a day later, she successfully escaped from the Imperial City and arrived at the wilderness.

In a desolate forest, a teleportation array that was extremely deep was left behind.

The teleportation array seemed to have been set up not too long ago.

When it landed on the array, Yue Shanshan immediately activated it. Only then did she let out a long sigh of relief.

This array was set up in consideration of the way out.

She did not expect it to be used so early.

Princess ru Chen looked uneasy and said carefully, “If you are safe, can you let me go?”

Yue Shanshan's expression was cold and fierce. There was a savage look on the corner of her mouth. "Your Highness, when did you hear that the corpse clansmen would be merciful?"

Princess ru Chen's face instantly turned pale. Before she could react, Yue Shanshan's sharp blade pierced into her body and ended princess ru Chen's life, the corners of her mouth curled up with deep resentment. "If you die, Su Yu will be in some trouble."

Ding --

Unexpectedly, her sharp blade pierced into princess ru Chen's body, and her skill was blocked by something.

She subconsciously thought that it was princess ru Chen's protective treasure coat, but when she looked down, she was obviously stunned.

She saw that princess ru Chen's snow-white skin had turned pink.

The sharp blade pierced her pink skin, but it couldn't pierce it at all.

At the same time, an ice-cold aura suddenly erupted from princess ru Chen's body.

Princess ru Chen turned her head. Her pure little face no longer had the usual muddle-headed feeling, but was filled with a deep coldness.

A pink flower petal bloomed between her brows, appearing even more demonic.

"Who are you?" Yue Shanshan's expression changed drastically. She could clearly feel that princess ru Chen had changed into a different person!

Princess ru Chen giggled, but her laughter was strangely ominous. "You forced me to come out and even asked me who I am. Of course, I'm the one who gave you death."

After she finished speaking, a large amount of pink flames spurted out from her body, enveloping Yue Shanshan within.

"Ah! This, this is the unbounded karma flame that restrains the corpse clan! !"

After a short period of shrill screams, there was a deep dead silence. There was only a ball of quietly burning pink flames on the ground, burning the last piece of residue into nothingness.

"HMPH! You overestimate yourself!" Princess ru Chen coldly snorted. She glanced at the horizon, rolled up her sleeves, and swept away all the ashes on the ground.

Then, the coldness on her face disappeared, and her deep eyes returned to confusion and confusion. Shua --

Su Yu immediately descended and was relieved to find that princess ru Chen was safe and sound.

"Where is she?" Su Yu looked around and noticed the teleportation array on the ground. He frowned slightly. "Was she prepared?"

Princess ru Chen patted her chest with lingering fear. "So scary. I thought I was dead for sure."

Su Yu said thoughtlessly, "It doesn't matter even if you die."

Since there was no one here, reviving princess ru Chen wouldn't attract attention.

"AH? What did you say?" Princess ru Chen's eyes widened in anger.

Su Yu's expression changed and he hurriedly changed his words. "Oh, I mean, as long as you're safe."

"HMPH! I'm not deaf!" Princess ru Chen snorted and said angrily, "This time, it's all your fault. I almost died because of you."

"Okay, okay, it's my fault. Let's go back to the mansion now. Maybe the corpse clan is guarding the teleportation formation." He glanced around vigilantly.

Princess ru Chen was a bit scared and immediately followed Su Yu to leave this place.

She didn't notice that when Su Yu left, he was looking at the formation on the ground.

A trace of suspicion flashed in the depth of his eyes.

For the corpse clan that he had come into contact with, it was hard to believe that the corpse clan would really keep their promise and let her go.

It was more likely that they would kill princess ru Chen and then turn her into their own person.

It was really unexpected that they would let her go.

Moreover, the array seemed to have just been teleported, but Su Yu could feel that there were no spatial fluctuations nearby, which meant that the teleportation array hadn't been successfully activated.

In that case, what about Yue Shanshan?

Why would princess ru Chen lie?

She glanced at her seemingly unsophisticated face from the corner of her eye, and a strange expression quietly hid itself.

Back in the house, Princess Ru Chen supported herself with both hands in a huff, and her eyes were wide open. She reprimanded the twenty or so peak overlords who had stood in a row and lowered their heads in shame.

"Cowards! A bunch of cowards! They were so scared when they saw the corpse clan that their souls were gone! They almost killed me!" She had a look of hatred on her face.

Everyone looked at each other, feeling embarrassed.

"If it weren't for the Wise and courageous sixth imperial brother, you wouldn't have been able to see the cute princess!" Princess ru Chen praised them, making everyone not know whether to laugh or cry. "In short, your performance this time has really disappointed me."

“We know our mistakes. We hope that princess can be magnanimous!” Everyone pleaded.

Only then did princess ru Chen feel slightly more comfortable, she snorted, “Then I’ll give you all the chance to redeem yourselves. In the ruins of Yu the Great, remember to fight for my honor! I’ll give you all the props that contain the nation’s fate now. If you can’t bring back the nation’s fate that I’m satisfied with, I’ll teach you all a lesson!”

After a series of threats, she gave each of them a pocket with a strange array engraved on it.

After killing the ancient beasts in the ruins, the fate of the nation in the ancient beasts would leave their bodies after the vitality of the ancient beasts disappeared. That was the only chance to collect the fate of the nation.

This special bag was specially made by the imperial family. It was the only tool that could absorb the fate of the nation.

After returning to the mansion, Su Yu started cultivating while studying the ruins of Yu the great.

The ruins of Yu the great originated from a very long time ago. It could even be traced back to the initial stage of Emperor Yu dynasty hundreds of millions of years ago. Other than the ancient beasts, there were also many rare and precious items in the outside world.

The most famous one was the dragon whisker grass. It was a necessary ingredient for some high-grade medicinal pills and was also the favorite of some ancient beasts that had the bloodline of true dragons.

This item had never appeared in the outside world. It was only born in the ruins of Yu the great.

Many of the aides were willing to work for the prince. Other than getting the dao rain, a large part of the reason was the dragon whisker grass.

If they sold it in the outside world, they could sell it for at least a thousand divine stones each.

If they could find more than ten, it would be a huge harvest of ten thousand divine stones.

The various princes all tacitly agreed that they would pick the dragon beard grass. As long as the national fortune they obtained met the requirements, the dragon beard grass they picked would all belong to them.

Su Yu did not care much about the value of the dragon beard grass. Now that he had more than two hundred thousand divine stones, he did not lack divine stones.

What he was interested in was another function of the dragon beard grass.

It was the favorite of ancient beasts that had the bloodline of a true dragon!

The bloodline of a true dragon... right now, the Royal Dragon Supreme Sword was limited by the thinness of the bloodline of a true dragon, so the power it could unleash was very limited.

If he could obtain some of the blood of a true dragon and further unleash the power of this sword, he believed that things would be much smoother in the ruins of Yu the great.

After understanding all of this, Su Yu had some preliminary plans and goals.

In the following days, he focused on increasing his strength.

With a thought, Su Yu pinched his fingers together. With a crackling sound, a half-moon-shaped, thumb-long spatial blade appeared between his fingers.

As he comprehended dao rain, he had a deeper understanding of the power of space.

He had a lot of understanding of the use of space. It was no longer the initial three changes of teleportation, teleportation, and spatial vortex.

Chapter 1812 Looking For External Help

The spatial blade was one of the most ingenious uses he had recently discovered. He had kept it a secret all this while because he wanted to use it as a trump card of Yu the great ruins.

“If I can use it properly, the spatial blade will be a great killing weapon,” he thought to himself.

Then, he took out the one-sky bow and the one-sky arrow.

“If this bow can be targeted by Xiao die, its power must be extraordinary. If there’s a chance in Yu the great ruins, I must give it a try.”

With this thought in mind, Su Yu calmed his heart and cultivated patiently.

Time flew by.

A few days later, Su Yu familiarized himself with the spatial blade and left the cultivation room.

There were less than three days left. It would be useless to continue cultivating.

His heart moved, and he went to the Princess’s residence next door.

Before he stepped into the residence, he heard princess ru Chen lose her temper. “Damn it! Damn it! You’ve gone too far in bullying me!”

“Sigh! There’s nothing we can do about it.” Emperor traceless patiently comforted her. “If we try hard, we might have a chance to make a comeback.”

“How are we supposed to try? The gap is too big. I thought I had secretly recruited many capable aides over the past few years, but who knew...”

Su Yu had no intention of interrupting their conversation. After hearing that it was related to Yu the great ruins, he could no longer stay out of it.

“It seems that I came at a bad time.” He stepped into the residence.

Emperor traceless’s eyes flashed as he stared at Su Yu with a hint of surprise. He didn’t know why, but he could sense a dangerous aura coming from Su Yu.

“You came at the right time.” Emperor traceless sighed helplessly. “I’m afraid I have to tell you some news in advance.”

“Is it bad news?” Su Yu sighed and said, “Please speak.”

After he heard this, his expression couldn’t help but change.

It turned out that as they approached the Yu da ruins, the foundations of the five princes were gradually revealed.

Princess ru Chen had sent people to inquire, but the results were abnormally heavy. Even Su Yu had a complicated expression.

Only at this moment did he understand how disadvantaged princess ru Chen's situation was.

There were at least 50 aides around the princes.

Among them, there were at least two or three half-step emperors and at most a dozen or so!

The most powerful was the first prince, who brought 100 aides with him, and there were 14 half-step emperors!

The rest were all peak overlords!

Even the fifth Prince had two half-step emperors and 50 or 60 peak overlords.

On the other hand, princess ru Chen didn't have a single half-step emperor, and she only had twenty or so peak overlords.

With such a huge disparity, how could she have any chance of winning?

Even if she had Su Yu as a good pillar, the huge difference in numbers wasn't something that could be easily bridged.

Princess ru Chen ground her teeth in jealousy. "Those damn kings. They gave the most outstanding talents in their territory to the princes they supported, which is why they have so many aides available! "Damn it, why aren't there any monarchs supporting me?"

Although the fight for the position of Emperor of the Great Yu dynasty had nothing to do with politics.

In reality, the power of the supporters would be displayed during the process of the fight.

The fight for the position of Emperor of the Great Yu dynasty had yet to begin, and princess ru Chen had already fallen into a certain defeat.

This was also because she had taken precautions and secretly recruited many experts. Otherwise..

Emperor traceless could only smile bitterly. They had expected that the emperors would support the princes in the form of talents.

However, the strength was beyond their initial expectations.

"After all, one is the ruler of a two-star civilization while the other is the ruler of a three-star civilization." Su Yu revealed the reason.

Emperor traceless was stunned. He had just understood the reason.

After advancing to a three-star civilization, Emperor Yu's dynasty would enter a period of rapid development. Its strength would be unprecedented.

If it was a ruler of a two-star civilization, his weight might not be too heavy. The support of the princes from the various conferred kings would be limited.

However, the weight of a three-star ruler was enough to give his supporters benefits that far surpassed the past.

Whether or not they could catch up to Emperor Yu's dynasty's development would depend on whether or not the princes they supported could become the emperor of the dynasty in the future.

This was why they had attracted the crazed support of the conferred kings at all costs. It had also caused the huge gap between the two of them to be caught off guard.

Princess Ru Chen's eyes were brimming with tears. She felt like crying, "How can we compete? There's no hope at all."

Emperor Wu Hen also sighed endlessly. They had planned this for a long time. In order to get Su Yu's help, they had even risked everything to make him pretend to be the sixth prince.

However, it seemed like everything was going to be for naught.

Su Yu began to think. Princess Ru Chen giving up on fighting for the throne was undoubtedly a good thing for him. After entering the ruins, there was no need to fight excessively for the country's luck.

His gaze flickered for a long time before he looked at the two of them and said, "If the two of you need support, I can think of some ways to get some help."

Ah? Princess Ru Chen's eyes widened and she asked in disbelief, "You? What help?"

Emperor Wu Hen was also surprised. He couldn't understand where Su Yu got the help.

Others might not know, but they knew that Su Yu had no foundation in Emperor Yu's dynasty.

"I can't tell you for the time being. I need to talk to him face to face to find out," Su Yu said.

Although the two of them were suspicious, they were desperate. "Thank you, young master Su."

"Don't thank me yet. I didn't help you for nothing." Su Yu waved his hand, his expression slightly downcast.

Princess Ru Chen blinked. "What is it?"

Su Yu stared at her. "If you become the Crown Prince and the future successor of the king, I believe that the entire dynasty will turn to you, right?"

Princess Ru Chen nodded without hesitation. "That's naturally the case."

"If I help you find support this time and help you obtain the position of heir to the throne, then I hope that you can mobilize all the factions in the Emperor Yu dynasty to help me find the whereabouts of the two of them."

With a swish, he took out the portraits of Xia Jingyu and Sheng Ge.

Looking at that familiar scene, for some reason, his heart ached. "In the Sea of constellations, I once got separated from two friends. Their whereabouts are unknown. I don't know where they are now. I hope you can mobilize your forces to search for them in the Great Yu Empire and the surrounding civilizations."

Just to search for them? Princess ru Chen agreed without even thinking. “It’s not a difficult matter. I agree.”

She took the two people’s paintings and immediately fixed her gaze on Xia Jingyu. She did not even blink and could not move her eyes away. Then, she opened her mouth wide and said, “There’s actually such a beautiful woman in this world! This princess is really jealous!”

Emperor Wu Hen looked at her and was shocked. “She’s too beautiful. She’s so beautiful that she doesn’t look like a living creature.”

Su Yu handed the scroll to Princess Ru Chen. “Then, I’ll leave it to you. I’ll go and talk to someone.”

“Wait, do you know the requirements for entering the Great Yu Ruins? You Can’t enter just because your cultivation is high,” Emperor Wu Hen asked.

Su Yu said, “Although you didn’t say it, you can guess it. First, the cultivation of those who enter must not be higher than the emperor. Second, they must be geniuses below the age of thirty.”

Emperor traceless nodded. “That’s half right. There’s still the third rule. The people of the imperial family can ignore the first rule.”

Hearing this, Su Yu’s pupils constricted. This meant that the first prince, this emperor, would not be restricted.

Feeling slightly apprehensive, Su Yu nodded and left.

Princess ru Chen looked at his back with a surprised expression. “Aunt, other than the ten great conferred kings, who else has enough power to support us?”

Emperor Wu Hen frowned. “The power of the Great Yu imperial court lies in the imperial family, the ten great fiefdoms, and the scattered experts of the common people. It’s useless even if Su Yu goes to the imperial family and fiefdoms. As for the common people, they are just a few emperors, but their hopes are equally slim. I’ve paid them a visit a long time ago, but they rejected me tactfully. I believe that they already have someone they like to support.”

“Emperor? It’s not like they can participate in the ruins of Yu the great. Why are they begging them?” Princess ru Chen scratched her head foolishly.

Emperor Wu Hen said solemnly, “Don’t look down on them. They are able to establish their roots in the Emperor dynasty of Yu the Great. They must have deep connections with various powers. The number of people they know is beyond our imagination. If they are willing to give their all to help, it might not be difficult for them to gather a batch of geniuses from the younger generation under the Emperor.”

Princess Ruchen understood and said, “But aunt, even if you personally visit those emperors, you still refuse. Don’t tell me that Su Yu has the confidence to convince one of them?”

“Sigh, this is also something that I can’t figure out. Most of them already have someone they like to support. Even if they don’t, I’m sure that there are a few princes who have sent lobbyists to persuade them. I’m afraid that it will be very difficult for Su Yu to convince the Emperor.”

Princess ru Chen's small face darkened and she became a little listless.

Speaking of which, after Su Yu left the mansion, he put on a disguise and left the imperial palace to come to the Unity Artifact Alliance.

As the most prosperous artifact refining Holy Land of the Great Yu imperial court, it was still bustling with traffic and bustling with activity.

"I want to meet the Unity Artifact Emperor." Su Yu came to the counter and said to the manager on duty.

The manager raised his head and his eyelids drooped. He said indifferently, "Everyone wants to meet the Unity Artifact Emperor, but not everyone can meet him just because they want to."

"Hehe..." Su Yu laughed, his attitude was exactly the same as the last time he came.

PA --

He slapped a leaf-shaped true emperor rank divine weapon on the counter and said, "Then, I think the emperor of one Qi must have told you that if the customer who bought the one leaf blinder came here, he would ask you to report immediately."

The shopkeeper was shocked by the sudden sound, but then he was quick-witted, "You said one leaf blinder?"

When his gaze fell on the leaf artifact that was emitting an astonishing spiritual pressure on the table, he became respectful and changed his casual attitude. He hurriedly walked around the counter and said warmly, "So it's you, honored guest! I have eyes but don't recognize Mount Tai..."

"I won't say anything else. Immediately report to the emperor of one Qi."

"Yes, yes, yes. Please wait a moment!" The shopkeeper invited Su Yu into the VIP room and ordered people to serve good tea. He then secretly contacted the rarely seen emperor of one Qi.

Not long after, the shopkeeper rushed back with a difficult expression on his face. "Honored guest, please be patient for a moment. The emperor is meeting with an important guest. Please wait a moment."

Oh? was the guest more important than the Golden Flame Forbidden Tree?

"What guest?" Su Yu frowned.

The shopkeeper was a little hesitant, but when he thought of the importance the emperor placed on Su Yu, he did not dare to offend him. He could only lower his voice and say, "It's the eldest among the princes."

The eldest prince! !

Chapter 1813 Losing Power And Humiliating The Country

What was he doing here? Could it be that he had the same goal?

If that was the case, he had to immediately talk to him.

As he pondered, he flipped his hand and took out the prince seal issued by the imperial family. The words “Dongfang Yu” were on it.

The shopkeeper’s eyes narrowed. He was a little surprised, but he was also a little shocked as he stared at Su Yu.

“Please tell the emperor that if he and the first prince come to an agreement, there is no need for him to talk to me anymore. I am only waiting for the time it takes to brew a cup of tea,” Su Yu said lightly.

The shopkeeper didn’t dare to hesitate and hurriedly ran to report to the Emperor of one Qi.

In the central area of the one Qi tool league, a red stone room that looked like flowing lava was protected by layers of restrictions. Even if several emperors came, they couldn’t even dream of breaking in.

Inside the stone room, the first prince, the fifth prince, and Bei Wang were all here.

Sitting opposite them was a frail old man. His eyes were gray and white, and he was shockingly blind.

“Allow me to think about the two princes’ conditions for another day or two,” the sovereign of one Qi said indifferently.

The first Prince remained silent, while the fifth prince frowned and said in a threatening manner, “Sovereign of one Qi, do you think that there is someone else other than the first prince who can become the Crown Prince?”

“Emperor Yu’s dynasty is in an era of drastic changes, an era that has never been seen before. The reason why your one Qi alliance was able to gain a foothold in Emperor Yu’s dynasty was precisely because the first alliance master chose the right team and followed my father? “Your opponent chose the wrong team and lost the entire game. From then on, he disappeared from the great Yu Emperor Dynasty.”

“You should know very well how to choose, right?”

The one-piece emperor laughed hoarsely, a glimmer of light flashed through his lifeless eyes. “The first Prince’s influence has swept across the world. I believe that the possibility of him becoming the crown prince is far higher than the other princes. In that case, my support is no longer important. Why do the two princes have to keep staring at me?”

The fifth Prince’s hostility flashed.

If it was not necessary, he and the first Prince would not have personally visited him time and time again.

It was because this one qi emperor was not quite the same as the other emperors in the imperial city.

The One Qi tool alliance had been established for tens of millions of years and had interacted with all the large and small forces in the Imperial City.

This one Qi emperor in front of him had maintained a good relationship with many civilian forces.

In addition, he was good at managing his connections, causing many powers to owe him a huge favor.

As long as he was willing to take out the favor from back then, it wouldn't be hard to find over a hundred pinnacle overlords from the younger generation.

This was an important figure that was comparable to three emperors.

However, they were rejected by the one Qi emperor time and time again.

Even today, when the Da Yu ruins were about to open, he still had an ambiguous attitude.

The first Prince's eyes gleamed, he said deeply, "The emperor knows this well."

The one Qi emperor laughed lightly, waiting for the first prince to continue.

"The Emperor refused several times, is he trying to get better conditions?" The first Prince said slowly.

The fifth prince frowned and said, "Our conditions are already good enough. The three emperors combined are not even as good as you alone. What else do you want?"

"The power to change the universe can not be calculated by adding one to one." The first prince waved his hand and interrupted him. He stared at the one qi emperor and said, "Please say what you want."

The one Qi emperor smiled and said, "The first prince has finally figured it out."

"What I want is extraterritorial governance!"

The fifth prince was stunned. He was a little confused and confused.

The first Prince's face darkened, and he looked deep in thought.

"The two-star civilization, the Emperor Yu dynasty, is only binding on this civilization, but the three-star civilization is different. With the approval of the Daoist Huang Hall, tens of millions of nearby civilizations will be under the control of the Emperor Yu dynasty, and from now on, they will be under the jurisdiction of the Emperor Yu dynasty

"I hope that one day, after the first Prince ascends the throne, he will allow, and only allow, our one qi tool alliance to open up businesses in other civilizations."

Hearing his intentions, the fifth prince sucked in a breath of cold air. "What a huge appetite! Doesn't that mean that all the other businesses in the three-star civilization circle will be removed? Only your one Qi Tool Alliance?"

This condition was too great.

Not only did it involve the entire refining industry, but it also involved some political issues.

The entire industry was monopolized by the one Qi tool alliance. It could be imagined that it would break away from the control of the royal family and control an unparalleled amount of wealth.

How dangerous would it be if a force that was as rich as a country and could not be controlled was by its side?

How could it allow others to sleep on its side?

If one Qi alliance were to turn against him in the future, he would definitely be a great threat to the dynasty.

The fifth prince understood and looked at the emperor of one Qi with even more unkind eyes. This person had the ambition of a wolf.

If the first prince agreed, it would be the same as betraying the dynasty's interests.

The emperor of one Qi sipped his tea at a moderate pace. He did not have the slightest intention of urging him. On the contrary, he looked as if he had the first prince under control.

“Eldest brother, ignore this old fellow. In addition to the experts that my younger brother has found, my younger brother will have more than 150 people that you can deploy to seize the country's fate. Moreover, my younger brother is also an emperor and is already in an undefeatable position. Even if this old fellow defends himself to another prince, it's not a big deal.”

The first prince closed his eyes and pondered. After a long while, he let out a breath of turbid air and said slowly, “Fifth brother is right. However, this is related to the throne. There can not be the slightest mistake! I agree to this condition.”

The fifth Prince's face was exceptionally pale, but he did not refute.

Bei Wangzhu looked at the first prince's expression from beginning to end and did not say a single word.

“Hehe, this old man knew that the first prince was a smart person and knew how to make a decision.” The emperor of one anger said with a faint smile.

He took out a special contract and pushed it towards the first prince. “This is a soul contract. Both parties sign it with their souls. If they violate it, their souls will be damaged. The consequences do not need this old man to explain.”

He took the lead to sign the contract with his soul.

The first prince hesitated for a moment. His soul left his body and was about to sign it.

At this moment, the jade pendant on his waist suddenly trembled and a series of urgent messages jumped out.

After taking a look, the emperor of one Qi's expression suddenly changed and became uncertain.

He abruptly pulled back the contract, causing the first Prince's signature to fail. He frowned. “What do you mean?”

The emperor's expression darkened. “A distinguished guest has arrived. His objective is the same as yours. This old man does not wish to offend either of you. Therefore, the two of you need to discuss this clearly in person.”

The fifth Prince raised his brows and snorted. "If their objective is the same, then they are also princes? HMPH, with the first prince here, what right do they have to sit on the same level?"

The emperor of one Qi did not reply and sent a message to the jade pendant.

Not long after, light footsteps came from outside the stone door.

The fifth prince sneered deeply. "I would like to see which prince it is!"

Creak --

The stone door was pushed open and a handsome yellow-robed young man with silver hair walked in with his hands behind his back.

The expressions of the three people in the room changed at the same time.

Bei Wangzhu's eyes were filled with shame and anger while the first prince was slightly surprised.

The fifth prince, on the other hand, had a face full of hatred.

"My two royal brothers, Miss Bei Wangzhu, what a coincidence." Su Yu smiled faintly and sat down without any restraint. He looked at the sovereign in the flesh and said, "Thank you for thinking so highly of me, your majesty. You are willing to meet me."

The sovereign in the flesh smiled like an old man and said to the shopkeeper who came in, "Bring me the Phoenix Feather Spirit Tea."

The expressions of the first prince and the fifth prince immediately changed.

Phoenix Feather Spirit Tea was a divine tea unique to the alliance. It could only grow if it was watered with all kinds of precious materials all year round.

Even the royal family couldn't afford such a high price.

Only the one Qi tool alliance could forge divine weapons all year round and have a large amount of liquid to feed this kind of strange tea.

But even so, the YIQI alliance only received a few taels of Phoenix feather spirit tea every year.

The Yiqi Emperor had always treasured it for himself to drink. The only exception was when the king Dongfang Xia had personally come to fetch it.

The first Prince and the fifth Prince had come here several times, but they had not received such treatment.

But who knew that the other party would give such a high standard of treatment as soon as Su Yu came, which really surprised them.

Su Yu chuckled. "Your Majesty is too polite."

"Compared to the thing you brought, a mere phoenix feather spirit tea is nothing," the one qi emperor said amiably. As he spoke, a pure golden flame forbidden wood aura leaked out.

A newly refined personal magic treasure hung around his neck. It was presumably refined from the Golden Flame Forbidden Wood.

Their conversation once again shocked a few people. The sixth prince actually had such a friendship with the one Qi Emperor?

The fifth prince narrowed his eyes and shouted in a deep voice, "Sixth prince, could it be that you also want to fight for the fate of the nation? With eldest brother here, I advise you to give up on this idea."

If he did not speak, Su Yu could not be bothered to pay attention to him. He glanced sideways at him, he said indifferently, "Fifth brother, there's less than half a month left. Have you managed to gather 50,000 divine stones? "If I Were you and had the time to delay here, I might as well quickly think of a way to gather the divine stones. Otherwise, it would not be good if I really came to my imperial brother's residence to be a servant."

The fifth prince was stifled. He clenched his fists tightly, but he could not vent his grief and anger.

He simply could not gather 50,000 divine stones. The first imperial brother had also lost more than half of his wealth because of that huge gamble.

The rest of his wealth was mostly fixed assets. If he wanted to exchange them for divine stones, he would need to sell them last month.

He had no choice but to lower his head under the eaves. He had to endure this grievance.

The first Prince's face sank. He did not say a word as he waited for the situation to change.

Su Yu looked at the two of them and then at the northern gazing pearl. He threw a smile.

The northern gazing pearl clenched its silver teeth and clenched its pink fist tightly.

When the first prince saw this, his expression became even more solemn.

The arena became quiet. Only then did Su Yu say to the emperor of one Qi at a moderate pace, "Then, what stage have you discussed?"

Emperor One Qi pushed the contract over and said with a hoarse laugh, "This old man is just a businessman. I have no intention of interfering in the fight for the throne. What this old man cares about is who pays the higher price."

Looking at the contract, Su Yu's heart trembled slightly. What great ambition.

Moreover, the first prince was actually willing to agree. For the throne, he was really willing to pay any price, even if the loss was the fundamental interests of the great yu imperial court.

Seeing this, Su Yu pushed the contract back.

Emperor one Qi looked at him with a smile and said calmly, "If you can add the chips I want on this basis, this old man might be able to help you seize the throne."

The first prince and the fifth prince frowned when they heard this. This greedy old fellow.

It seemed that they had to further forsake the interests of the dynasty in order to feed this old fellow.

"I'm very sorry. This prince isn't interested in this kind of thing that debases the country, and I definitely won't agree to it!"

The emperor's smile froze, and he was instantly stunned.

After a pause, the emperor said, "Sixth prince, it seems that you don't understand the current situation."

His finger flicked on the table, and coincidentally, it flicked on the contract.

It meant that he was about to sign an agreement with the first prince.

Chapter 1814 It Was Just A Promise

"Hehe, this prince will also reiterate once. I will not agree to the contents of this contract."

The emperor's smile faded bit by bit and returned to his indifferent expression. "Perhaps this old man once owed you a favor, but it was only enough for this old man to help you refine a weapon once! If the sixth prince has nothing else to do, please return."

His expression was filled with displeasure.

Su Yu's expression remained unchanged, and he said, "Although I won't agree to that contract, I'll let you get what you want even more."

Huala --

The entire room instantly shone with golden light, and the golden light was oppressive.

A ten-zhang-long divine bamboo with golden flames around it appeared in the stone room.

The first Prince and the fifth Prince were both stunned, and they didn't recognize what it was.

However, the blind emperor of one Qi's eyes seemed to have recovered as they shot out a bright light. "Golden Flame Forbidden Tree! Such a big piece?"

Compared to the last time, this piece was a thousand times longer!

"I'm wrong. It should be a ten-thousand-year-old golden flame forbidden tree." Su Yuyu was unperturbed. "Perhaps there are still remnants of the Golden Flame Forbidden Tree, but I believe I'm the only one who has a ten-thousand-year-old piece. You should understand the reason."

He glanced at the personal magic treasure on the other party's chest and smiled lightly.

The emperor of one Qi felt his heart palpitate.

Indeed, the true golden flame forbidden tree had a lifespan limit. It would often wither within a thousand years.

A ten-thousand-year-old was absolutely unique. The effects of the magic treasure refined were also several times more effective than ordinary golden flame forbidden trees in warding off evil.

Looking at so many golden flame forbidden trees, his eyes burned with passion.

Only a master refiner knew the value of this thirty-meter-long golden flame forbidden wood. It was a priceless treasure!

Any piece of magical equipment that was refined would be priceless.

At the moment, the thirty-meter-long golden flame forbidden wood was enough to refine hundreds of small-scale magical equipment and reap unimaginable wealth.

However, after calming down, the brilliance in the eyes of the emperor of one breath gradually faded away, he sighed with some reluctance. "I have to admit that the sixth prince has brought me a surprise rarely seen in my life, but unfortunately, it is insignificant compared to the benefits brought by this contract."

Controlling all the facial equipment industries in the three-star civilization region had brought a windfall that could not be calculated with numbers.

Su Yu's expression was calm as he said indifferently, "Since this prince has come prepared, I naturally won't shoot off without a reason. This section of Golden Flame Forbidden Wood is only a sample. I still have ten thousand of these Golden Flame Forbidden Wood."

PA --

The emperor of one Qi was shocked. His old body suddenly stood up like a cheetah and knocked the table in front of him to the ground.

The precious phoenix feather spirit tea filled the ground and gave off a shocking aura

"One... Ten Thousand?" The one Qi emperor's lips trembled. He couldn't believe his ears.

Su Yu smiled and shook the Buddhist bracelet in his hand. One of the Buddhist beads lit up. "Emperor, you can use your soul to look inside."

With deep anticipation, he put a trace of his soul into the space of the Buddhist bead. What he saw was a complete ten-thousand-year-old golden flame forbidden tree that hadn't been cut open. It was a hundred thousand feet long!

Then, the space of the Buddha bead closed. A pair of calm and deep eyes stared at him quietly. "How is it?"

The emperor of one Qi was extremely excited. Even if he controlled the refining industry of a three-star civilization, he might not be able to obtain something of equal value with such a rare and precious treasure.

His heart wavered. When the first prince saw the situation, he immediately felt that things were not good. He said, "Emperor, we can still talk about the terms."

Emperor one Qi once again had the idea of raising the price from the ground. He looked at Su Yu with a troubled expression. "Look at this..."

Su Yu sneered in his heart. He would never get used to Emperor One Qi's bad habits. He crossed his hands behind his head and leaned back. "This is all I have."

"However..." the corners of his mouth curled up into a mocking arc. "I hope that Emperor will consider the risks of both."

“My Golden Flame Forbidden Tree is truly right in front of my eyes, and their promise, Hehe, is merely a promise. The emperor has lived for countless years and should understand that no matter how strong the binding force of a contract is, there is a limit, right?” “The imperial family is filled with talented people. Are you sure that just a mere soul signing will be able to force the first prince to bow his head and accept his fate and fulfill his promise?”

How could the Emperor Not Know? There were countless laws of the Heavenly Dao, and it was possible that there were laws that specifically countered contracts.

Even if there weren't, if the first prince became the king and ordered people to assassinate, kill, or snatch the contract, what could he do?

“Even if the first prince successfully ascended to the throne and really risked the world to fulfill his promise, are you really sure that those civilizations are safe enough? “It's no secret that the corpse race rose up and wreaked havoc in the surrounding civilizations. With the power of those civilizations, they might not be able to resist the ferocious corpse race.”

Su Yu sat up and stared straight into the other party's eyes. “You would rather take such a big risk than have such a great harvest right in front of your eyes?”

The old body of the one Qi emperor swayed.

Indeed, the latter's conditions were tempting, but there were too many changes, especially the last point, the corpse race!

He had already heard that the corpse race had appeared in the civilizations at the edge, and some of them had even been occupied by the corpse race.

The Corpse Race's troubles were getting worse and worse, and no one could predict when the civilizations outside of Emperor Yu's dynasty would be occupied.

He was thoroughly touched by Su Yu's words. Of course, the prerequisite was that Su Yu could take out something that was not inferior to the benefits of the contract, such as the hundred-thousand-foot-long Golden Flame Forbidden Tree.

The first prince secretly thought that this was not good and hurriedly said, “Emperor, please don't listen to the sixth Prince's words. I guarantee with my reputation...”

The emperor of one Qi had already made up his mind and said, “Hehe, thanks to the wrong impression of the first prince and the fifth prince, I have visited many times. However, I'm afraid that I'm unable to shoulder the heavy responsibility entrusted to me by the two princes. Please leave.”

“Send the guests off!” He was no longer courteous.

The stone door opened, and the shopkeeper was waiting outside.

The first Prince's expression was as gloomy as water, and his eyes were ice-cold as he stared at Su Yu. The fifth prince also gnashed his teeth in hatred.

Was Su Yu born to go against them? He was about to succeed, yet he had interfered!

“Emperor One Qi, I’ll remember your choice. I hope that I won’t regret it in the future.” The first prince had said all the nice things. At this moment, there was no room for negotiation as he threatened.

Sovereign one qi chuckled and said, “Farewell, Prince.”

“HMPH!” The first prince and the other two left with their faces covered in dirt. One could imagine the anger in their hearts.

After the stone door closed, Su Yu waved his hand once again. Hundreds of golden flame forbidden trees that were thirty meters long appeared, he said, “This is the deposit. After you gather enough people, you will give half. If you help my royal sister seize the throne, you will give half.”

“Hehe, it should be like this, it should be... Wait, my royal sister, you, you are recruiting for Princess Ruchen?” The emperor was stunned on the spot.

Nodding slightly, Su Yu did not deny it.

The emperor simply could not understand Su Yu’s thoughts, he said in surprise, “For Princess Ruchen, you are willing to sacrifice such a huge price? To tell you the truth, with the sixth Prince’s current reputation and my help, he is more than enough to become the king. Why do you need to make a wedding dress for others?”

Su Yu smiled faintly. “There’s nothing else. It’s just a promise.”

This... he still felt that it was inconceivable, but if Su Yu insisted, he didn’t care.

No matter who became the emperor, it had nothing to do with him.

“Two days later, I’ll bring people to the sixth Prince’s residence.”

“Okay!” Su Yu left just like that. He didn’t specifically tell the emperor to go all out.

Now that he had chosen to stand against the first prince, how could he not go all out?

Otherwise, the day the first prince ascended to the throne would be the day the unified qi alliance was destroyed.

After busying himself for more than half a day, Su Yu returned to the sixth Prince’s residence.

Princess ru Chen and Emperor Wu Hen were looking forward to it. When they saw Su Yu return empty-handed, they immediately had a bad feeling.

They were a little disappointed, but they didn’t have too much of an emotional fluctuation because they didn’t have too much hope.

“How is it?” Out of courtesy, emperor traceless still went forward to welcome them and asked with concern.

Shaking his head, Su Yu said, “We’ll see in two days.”

It was still unknown how many people Emperor Unity Qi could gather. Before he was confident, he didn't change his mind.

"Is that so? It's fine, it's fine..." emperor traceless smiled bitterly in his heart. How could it be fine? Three days later would be the opening of Yu the great ruins. What could they do with just a small number of people?

Princess Ru Chen had also lost her usual liveliness, when she saw Su Yu arrive, she forced herself to be spirited. "It's fine. You've done your best. The competition for the fate of the nation has yet to reach the final moment. No one can say for sure what the outcome will be." "It's good that you have such a mentality." Su Yu praised. "You guys should properly adjust your mentality. I'll return to the residence first."

Unexpectedly, just as he was about to leave the Princess's residence, he received a report from the guard on duty. "Your Highness, the second Prince is here to pay a visit."

"Why is he here?" Princess ru Chen was a little surprised. On the eve of the competition for the country's fate, the second prince, who usually did not visit, must have a deeper meaning behind his sudden visit.

"Invite him in."

Su Yu stopped in his tracks, but fortunately, he did not leave.

Da Da --

The second Prince's unhurried footsteps came from afar, and he smiled warmly from afar. "How Have You Been, royal sister? I heard that you were summoned by the gray-robed emperor to meet you alone. I am truly envious of you."

As he chatted and laughed, he suddenly realized that Su Yu was present. His expression instantly darkened, and he snorted. He ignored her and came before princess ru Chen.

Princess Ru Chen invited him to sit down. After exchanging a few pleasantries, she said impatiently, "Royal brother doesn't visit the Three Treasures Palace for no reason. If you have something to say, just say it."

Hearing that Princess Ru Chen was in a bad mood, he did not beat around the bush and said, "Hehe, royal brother is here today to give royal sister a great opportunity."

Princess Ru Chen raised her eyebrows and said strangely, "Tell me about it."

"Hehe, I won't beat around the bush. Did you know that my royal sister secretly recruited more than 20 people to help her seize the country's fate?"

Princess ru Chen's expression changed slightly, but she wasn't too surprised.

By now, everyone's trump cards had been exposed. It wasn't a secret to investigate seriously.

"Yes, does this have anything to do with the great fortune second royal brother mentioned?"

“Hehe, of course it has something to do with it.” The second Prince’s face was beaming with joy. “I believe that my royal sister has also heard that my royal brother has the support of two conferred kings. Currently, there are 81 peak overlords of the younger generation assisting me in seizing the country’s fortunes. However, compared to my eldest brother, it’s still far from enough.”

“Therefore, I want to borrow my royal sister’s 20 people for one use.” The second prince said, “In any case, with just 20 people, it’s impossible for my royal sister to obtain the position of crown prince. Why Don’t You Give It to me? If I succeed in snatching the position of crown prince, I can promise that on the day I ascend the throne, I will give my royal sister two fiefdoms. How about it?”

Hear here, not only such as dust princess, traceless emperor’s facial expression is also ugly to look up.

Chapter 1815 Luoshen Poison

They had put in so much effort, how could there be any reason for them to give up?

Emperor traceless said bluntly, “If this is the reason, then I think that the second prince has come here for nothing. All generations of contenders for the position of crown prince are filled with variables. Until the last moment, even the first prince, who has the absolute advantage, doesn’t dare to say that it will be a 100% success.”

Their refusal couldn’t be any more obvious. They definitely wouldn’t give up just like that.

“Hehe, indeed. Before the final outcome appears, I don’t dare to make a wild guess as to who will succeed in the end. However, I can be sure that there will definitely be a royal sister in the midst of failure. With just the strength of twenty or so of your people, to be honest, it’s simply not enough.” The second prince also went straight to the point.

Princess ru Chen’s small face fell and she said unhappily, “That doesn’t need second brother to worry about.”

The second prince continued, “Royal sister should think it over carefully. If you give it to me now and the merit of the dragon, it will be beneficial to you in the future. If you refuse, you will gain nothing because you have no hope of seizing the crown prince! “The only way out in front of you is to seek refuge with one of the princes.”

“In the eastern royal family, the competition for the crown prince has always been extremely cruel. When it comes to father’s side, there are no brothers or sisters. It goes without saying where they went. After father ascended the throne, he killed them and exiled them. In short, he eliminated them all.”

“Sister, it’s best to think about the future carefully. Should we get rid of them or become a happy and carefree king?”

Emperor traceless snorted coldly. "If we have to rely on a prince, why should we rely on you? No matter how you look at it, the first prince has more advantages than you."

If it really reached the point of no return, the first Prince's risk would be lower than the second Prince's.

"Hahaha, the first prince has the right time, the right place, and the right people. Do you think you still need the support of twenty people? Even if you give it to him, when he ascends the throne in the future, how much leverage can sister have?"

His words pierced princess ru Chen's vital point.

Indeed, the first prince was like the Sun in the sky. He did not care about his mere support at all.

The two women fell into a deep silence.

"Hehe, I won't force you. Give me an answer before Yu the great ruins. If not, Hehe, when we meet again in the ruins, we will be enemies! Farewell!"The second Prince said arrogantly.

He held his head high and left the Princess's residence with his chest puffed out.

After witnessing the entire process, Su Yu finally understood why Princess Ruchen also wanted to fight for the position of crown prince.

She might not be greedy for power, but if she didn't work hard to fight for the position of crown prince, what awaited him in the future would be an exceptionally tragic ending.

The second prince, who was usually gentle and kind to her, had a cold and ruthless expression when things came to an end. This was enough to explain everything.

"Aunt..."princess ru Chen glared at the second prince as he left. Then, with a moan, she threw herself into Emperor Wu Hen's arms and cried, she was like a little girl who had been bullied. "I must become the crown prince, or else..."

There was a strange emotion in her determination.

Emperor Wu Hen had a complicated expression on his face as he gently patted her back to comfort her.

To be honest, based on Su Yu's experience, Princess Ru Chen's temperament was not suitable to be the ruler of a country.

She was headstrong, weak, and had no foresight. It was difficult for her to achieve great things.

However, if she ascended the throne, he believed that she would be the only one among his brothers and sisters who would not go on a killing spree and slaughter the imperial family.

"I will repay the favor of others tenfold,"Su Yu thought to himself. He had always adhered to his beliefs.

No matter what the fate of Emperor Yu's dynasty was, he would always keep his promise and support princess ru Chen with all his might.

After bidding farewell to the two girls, Su Yu returned to his residence.

The lights in the residence were dim. As it was a newly built residence, the palace maids and servants were left in the process of selection. As a result, it was a little desolate.

Sitting alone in the courtyard, looking at the moon in the distance, he could not help but feel frustrated.

Where was Xia Jingyu? With a glimpse of the ancient dream altar, she disappeared without a trace.

Ever since they met, Xia Jingyu had always been like a cluster of hazy fog. The moon in the water would always meet for a short while before parting for a long time.

It made him constantly chase and search, time and time again.

There seemed to be an invisible isolation in the dark, standing between them and unable to cross it.

Was It Fate? Looking at the Bright Moon, Su Yu had a vague feeling.

In the invisible world, there was an invisible giant hand that stopped them.

That feeling was very similar to the tribulation immortal behind the scenes who tried to destroy Su Yu.

Deep in thought, he fell into a daze.

Until a maidservant held a cup of hot tea and called out softly, "Sixth Prince, the tea is here."

These few days, after Su Yu did not cultivate, he would drink tea alone in the back garden last month. The servants were already used to serving tea on time.

Su Yu recovered slightly and picked up the Teacup as if he was lost. "Go Down."

"Yes."

He took a sip. The tea was rich and fragrant.

But suddenly, he frowned. Gradually, a painful expression appeared on his face. Traces of blood and sweat seeped out from his pores.

"There's poison in the tea? Who Is It?" Su Yu's pupils quickly lost focus and were covered in a layer of grayish-white.

In the darkness, he could vaguely see an exceptionally tall palace maid coming in front of him.

It was the one who served him tea!

This palace maid had ordinary facial features, but there was one thing that was particularly special about her. There was a mole below her right eye that looked like a teardrop.

Su Yu suddenly remembered a person!

The white-clothed woman who had placed a bounty on Su Yu in the Emperor Dynasty of Great Yu was also a peak existence with a crown.

The most eye-catching characteristic of that woman was the mole of Tears. Su Yu had a deep memory of her name.

Qiu Hen Lei!

“How is it? The spirit tea made by traceless tears tastes pretty good, right?” Qiu Hen Lei squatted down and quietly watched Su Yu gradually turn into blood.

Su Yu growled in pain, “Who sent you?”

Qiu Hen Lei’s lips curled into a cold arc. “No one sent me. I’m the one who wants to kill you.”

Strange! Su Yu originally thought that it was the first prince and the second prince who sent the assassins.

How strict were the imperial palace guards? There were gray-robed emperors, several one-crowned emperors, and countless powerful arrays.

The probability of passing through the palace undetected was zero.

Only with the arrangements of these two princes could the assassins infiltrate the sixth Prince’s mansion.

Most importantly, the two of them had a reason to kill Su Yu.

“However, I did help you get rid of an assassin who was hiding in the dark.” Qiu Hen Lei waved her hand and threw a corpse out of the storage space.

Her body was covered in rotting flesh and blood. She did not look like a human and her body contained a prehistoric power.

It was the emperor!

He was the assassin sent by the first prince.

However, he was also a crown prince, but he was killed by Qiu Hen Lei without attracting any attention.

The danger of this woman was self-evident.

“If he makes a move, it will inevitably stir up trouble. To be safe, we can only get rid of him first.”

Su Yu’s face sank.

“Why did you kill me?” He asked with difficulty. The poison had completely corroded his body, and his throat bones had begun to soften. His words were very vague.

“Hehe, of course it’s revenge. You killed someone who shouldn’t have been killed.”

“Who?”

“What made you enter the Yellow Board contribution list?” The other party asked coldly.

It was evil wolf!

“He’s my disciple! My real name is Luoshen Lei! You’re a member of the royal family, I believe you’ve heard of me.”

Hearing this, Su Yu was shocked.

The number one most wanted criminal on the wanted list, Luoshen Lei!

It was actually this monstrous vicious person?

Su Yu didn’t know what crime she had committed, but being listed as the number one most wanted criminal was enough to imagine her danger.

Back then, she had accidentally obtained the evil Wolf’s head, but she did not expect to provoke this vicious person!

Luoshen lei smiled coldly. “You can die in peace. After being poisoned by my Luoshen Poison, no one can live.”

After saying this, she walked away unhurriedly, leaving behind Su Yu and the emperor’s corpse that continued to rot.

“Hehe, I’m afraid it won’t be as you wish.”

However, a strange movement suddenly appeared behind her.

Before she could react, a dragon-shaped sword qi that was close to the emperor’s head cut towards the vital point behind her back.

Luoshen Lei’s expression changed, and she hurriedly summoned a cloud of mist in front of her.

The dragon-shaped sword Qi charged into it like a clay ox entering the sea.

However, with a light snort, Luoshen Lei’s figure fell out, and her chest was dark red.

She fixed her eyes on Su Yu, somewhat surprised.

At this moment, Su Yu’s body burst out with astonishing vitality. The emerald light flourished, and his festering body quickly recovered to its original state.

A ball of pitch-black fog was slowly forced out of his palm.

“You Weren’t poisoned?” Luoshen lei was astonished. Luoshen’s lethal poison entered his body and immediately spread to his limbs and bones. Even a double-crowned emperor would find it difficult to force the poison out of his body.

Unless he didn’t drink the tea from the beginning and was only affected by the wisps of poison.

Su Yu’s spiritual energy surged out of his five fingers and enveloped the ball of Luoshen’s poison.

“I searched your palace maid’s soul and served tea according to her habits. How did you see through it?” Luoshen Lei asked in a deep voice.

Su Yu said, “The tea is cold.”

He had always been as meticulous as dust. He instantly felt that something was wrong when he drank the tea.

The tea served by the palace maids was brought over immediately after it was brewed. It was slightly hot, but this cup was a little cold. Apparently, it had been put on hold for some time.

His palace maids would never serve such tea.

Therefore, he immediately wrapped the tea in a divine aura. Even so, the steaming poisonous gas still tormented it quite a bit.

Fortunately, he had grasped forty percent of the law of life and forcefully neutralized the lethal poison with his tyrannical vitality.

Just a trace of poison was already so powerful. If the poison in the tea had entered his body, it was imaginable that even the double-crowned emperor might not be able to withstand it.

Luoshen lei sighed regretfully. "So that's how it is. A hundred secrets have been neglected, so I can only kill you by force."

In any case, Su Yu's sword had already caused a commotion, so she couldn't care about it anymore.

However, with a Swish, a beautiful woman in palace clothes appeared beside Su Yu. She was naturally Emperor Wuhen who had rushed over after hearing the news.

She stared at Luoshen Lei and her eyes immediately turned cold. "You actually dare to come to the Imperial Palace! !"

Luoshen Lei crossed her arms in front of her chest and revealed a pitiful sneer. "Oh? Isn't this the younger sister-in-law of Princess Xiao Yun from back then? You've been living quite well these years."

"Thanks to you, I've been alone all these years. I've indeed been living very well!" Emperor Wuhen's words were filled with a deep-rooted hatred.

It was as if there was an irreconcilable enmity between her and Luoshen Lei.

"Hehe, then you should live well." Luoshen lei smiled contemptuously and glanced at Su Yu, she said meaningfully, "The same goes for you. Cherish the few moments you have left. You've escaped today, but soon, you'll realize that this world has made you even more desperate."

Chapter 1816 The Scandal Of The Imperial Family

After saying this, he rose into the air and grabbed at the emperor's corpse on the ground.

This alarmed emperor traceless. Under the premise that the other party was on guard, it would be very difficult to kill him without making a sound.

If the battle attracted the attention of the gray-robed emperor, then things would not be good.

Thus, he wisely chose to retreat.

“You want to leave? !”The array formation around emperor traceless’s body shone brightly. A purple-black divine lightning descended from the sky and bombarded Luoshen lei.

“Purple Heaven Lightning Array!”Luoshen lei was slightly startled. He gave up on grabbing the corpse and dodged this attack. A trace of annoyance appeared between his brows. “Very good. You haven’t been idle all these years in order to kill me. You’ve found a divine lightning that can counter me!”

He looked at the corpse on the ground unwillingly and had no choice but to teleport and retreat.

If he stayed, he would definitely attract the attention of the gray-robed emperor!

“Where do you think you’re Going?”Emperor traceless was full of killing intent as he chased after him with a teleport.

Su Yu hesitated for a moment but did not chase after him. With Luoshen Lei’s strength, he would become a burden to emperor traceless if he went.

He looked at the emperor’s corpse on the ground and his eyes revealed some confusion. “Strange, why did she accept the emperor’s corpse? Is this corpse very important?”

He squatted down to examine the corpse. The storage items of the corpse had all been plundered away, leaving behind only a corpse.

After pondering for a moment, Su Yu put away the corpse.

Following that, he came in front of the cup of tea and sucked it in through the air. A drop of colorless and tasteless water-like liquid was extracted.

“Luoshen Poison, huh? I didn’t notice it at all just now. Moreover, its power is so strong. I can use it.”He used his divine power to wrap it up and seal it in a jade bottle.

After that, he searched around and found the corpse of the palace maid of death in a remote corner.

With a sweep of his palm, the injuries on the palace maid’s body recovered. Her lost life force and soul also miraculously reappeared.

Not long after, the palace maid blinked and actually came back to life.

“AH? I, why am I sleeping? Sixth Prince, spare my life. This servant knows my mistake, this servant admits her punishment.”

She was ultimately implicated by Su Yu, so reviving him wasn’t a big deal.

“It’s fine. Go Do Your Thing.”

“Thank you, Sixth Prince, for Your Mercy!”

Luoshen Lei, the first prince! Su Yu clenched his fist. He wasn’t strong enough right now. If he was strong enough, he would make the two of them pay the price.

An hour later, Emperor Traceless returned with an ashen face.

“You Lost Him?”

“Yes, she escaped into the earth vein. I don’t know where she went.”

Earth vein again? Su Yu couldn’t help but recall fantasy moon Langjun’s memories. The entire underground palace was filled with complex and exhausted earth veins.

However, it was good that she didn’t catch up. Luoshen lei was very powerful. She was afraid of the power of the palace, so she didn’t fight and retreated. If she really left the palace, emperor traceless would be in danger instead.

“How did you provoke her?”Emperor traceless stared at Su Yu with a burning gaze. His gaze was exceptionally sharp.

There was nothing to hide about this matter. He immediately explained everything in detail.

“Hehe, so that’s how it is!”Emperor traceless suddenly laughed sharply. “Good kill! So Evil Wolf is also her disciple!”

Hearing the hatred in his words, Su Yu could not help but feel confused.

“Who is she? The imperial palace is such a tight place, yet she can easily sneak into my residence?”

Emperor traceless stared at Su Yu and said coldly, “She is more familiar with the imperial palace than I am. It is extremely easy for her to freely travel through the Imperial Palace!”

Eh? Could it be that she was once a member of the Imperial Palace?

“You probably don’t know that just now, you exchanged blows with the grand princess of this dynasty, right?”Emperor traceless said faintly.

What? The Grand Princess? The number one criminal on the wanted list?

Su Yu absolutely could not link the identities of the two together!

“She is the elder sister of the monarch, Dongfang Xia, Dongfang Luoshen!”

“After Dongfang Xia ascended to the throne, he killed all the princes. Only her elder sister was expelled from the Great Yu Empire by Dongfang Xia’s benevolence.”

“But no one would have thought that she was so ambitious. Not only did she not go far away, she even went into hiding and plotted against Dongfang Xia and his bloodline. She nurtured and created a series of despicable plans against the royal family.”

“Fantasy Moon Langjun’s kidnapping of his concubine was one of the most sensational incidents!”Emperor Traceless’s eyes were cold. “It is rumored that he escaped easily in front of the three emperors, but in reality? “Without the

cooperation of a powerful mastermind behind the scenes, just based on the fact that he was a half-step emperor at the time?”

Upon careful consideration, there were indeed many suspicious points. What about the three double-crowned emperors who guarded the palace all year round?

What about Dongfang Xia’s true body?

Why didn’t he see any movements at that time?

“The truth is that Dongfang Xia and the three double-crowned emperors were suddenly entangled, and the three sniping emperors were also blocked by the mysterious expert. Just Now, Fantasy Moon Langjun escaped.”

The identity of the mastermind was self-evident.

“Now that the Emperor and the two double-crowned emperors have left the imperial palace, that Slut took the opportunity to come again!”

However, emperor traceless laughed heartily again. “She was able to enter the palace to kill you at all costs for an evil wolf. It can be seen that the evil wolf must be very important to her. You killed well!”

The Evil Wolf’s crime on the list was to have killed one of Dongfang Xia’s daughters!

That was also a deliberate act of revenge against the imperial family.

He did not expect to accidentally kill two people of Luoshen lei consecutively. Of course, he did not personally kill the evil wolf, but it was the handiwork of Bei Wangzhu.

“The feud between brother and sister will affect the concubine and daughter. Although the imperial family is ruthless, this person’s methods are too ruthless.” Su Yu frowned.

“Hehe, do you think that only the concubine and daughter will be harmed?” Emperor Wuhen laughed bitterly. “Even those who are related to the imperial family won’t be able to escape her methods. My Husband’s imperial uncle and Ruchen’s birth mother, imperial concubine Xiao Yun, died tragically at her hands.”

She was Princess Ruchen’s aunt, so the ones who died were Princess Ruchen’s uncle and mother.

No wonder she hated Luoshen Lei so much, and no wonder Princess Ruchen personally assassinated Fantasy Moon Langjun.

They were filled with hatred for Luoshen Lei’s people.

“So, she still has other subordinates?”

Emperor traceless sneered. “More than others? Do you know why the Wanted List was released?”

Su Yu’s heart skipped a beat.

“It was specially set up for this B * Tch, targeting her and a series of her followers. They are on the wanted list endlessly. Right now, more than half of the criminals on the wanted list are her people!”

Eh? Wasn't this woman's power a little unusual?

How could a disgraced eldest princess be able to silently nurture so many experts?

The most suspicious thing was the mysterious moon Langjun incident. To be able to entangle Dongfang Xia and the three twin crowns, it wasn't something that she alone could do, right?

“She still has an accomplice?” Su Yu probed.

Emperor traceless nodded slightly, his expression terrifyingly dark. “After this woman was banished back then, she found a mysterious backer and allowed her to stir up trouble for many years. Otherwise, how could a disgraced princess like her have such great abilities?”

“For so many years, the empire has been tracking down the mysterious faction that secretly supported her. However, there has been no news from them. That mysterious faction is extremely well hidden, and it is very difficult to discover them.”

After saying this, emperor traceless consoled him. “However, don't worry. Since she failed once, she won't be coming back for a short period of time. There's no need to worry too much.”

He wasn't worried at all. It was still very easy for him to run away if he couldn't win.

“This matter involves a scandal of the royal family. As long as you know, don't spread it.” If it wasn't for today's matter, Su Yu probably wouldn't have known that the royal family had such a crazy opponent.

“I understand!”

Emperor Wuhen returned to the Princess's residence and briefly told her about what had happened just now.

Upon hearing the appearance of Luoshen Lei, Princess Ruchen suddenly clenched her fists. The usually muddle-headed her eyes were filled with deep hatred. “It's her! This woman caused the death of mother and uncle, yet she still dares to return to the Royal Palace!”

Unknowingly, her nails dug into her flesh, and her eyes were filled with hatred, there was another sorrowful mist. “If I could become the monarch, I would definitely gather the strength of the entire country to annihilate her. But why, why am I so useless? Let alone the position of the crown prince, I might not even be able to save my life in the future. It's simply impossible to avenge mother and uncle.”

Emperor Wuhen also unconsciously shed tears of sorrow.

They were an orphan and a widow who had helped each other to this day. It was precisely because they had a common enemy that they had no choice but to participate in the intrigue of the imperial family and participate in the cruel and bloody struggle for the position of crown prince.

However, the heavens did not grant their wishes, and the chances of this fight for the position of Crown Prince were slim.

Unless a miracle happened.

Two days later, on the eve of the ruins of Yu the great.

The clansmen's residence was busy handing out tokens to the princes and princesses, which were the credentials that allowed them to enter the ruins of Yu the great.

The princes and princesses had finally summoned their advisers to their mansions one after another. They were ready to move out.

There were fifteen people in Princess Ru Chen's manor. There were seven or eight fewer people than the last time.

"Where are they?" Princess ru Chen raised her brows and asked.

A youth who was close to thirty among them said angrily, "Princess, the curly-bearded scholar and his seven colleagues suddenly left without saying goodbye last night. We don't know where they went. We sent people to look for them, but they didn't find anything."

Emperor traceless's expression darkened. "Did they become deserters?"

At this moment, the comparison between the strength of the princes and princesses was no longer a secret.

Princess ru Chen's strength was too weak. She would be at an extremely disadvantageous position in the struggle for the country's fate, and the danger would greatly increase.

Defection was something that would happen sooner or later.

Princess Ru Chen was so angry that her entire body trembled. "A bunch of traitorous bastards! I want to issue an arrest warrant and make them pay the price!"

They had signed a contract with each other. Princess ru Chen would help them experience the dao rain, while they would help princess ru Chen seize the fate of the country.

If they broke the contract, the latter would have to compensate princess ru Chen with at least ten thousand divine stones. To them, that was almost all of their wealth.

"Hehe, your royal sister, Why Are You So Angry?" The second Prince's laughter came from outside the manor.

Immediately after, the guards at the door shouted in surprise and the sound of fighting could be heard.

The second Prince led a group of people and forced their way into the princess' mansion with a smile on his face.

"Second brother, how dare you! How dare you force your way into my mansion? I'm going to report this to the clan..." suddenly, princess ru Chen's pupils shrank and she fixed her eyes on the group of people surrounding the second prince, her eyes spewed fire. "The curly-bearded scholar, the one-armed iron sword, the prodigal son returns. Why are you all with him?"

The curly-bearded scholar was dressed in a green robe and had a scholarly bearing, he chuckled. "A good bird chooses the tree to roost in. A wise man submits to the circumstances. We really don't want to be a pearl in the dust and remain unknown under the princess' hands. That's why we've turned to the second Prince!"

The matter was clear!

The second prince was unable to ask for princess ru Chen's men. Fortunately, he directly talked to a group of them and lured them into defecting!

Chapter 1817 Bullying The Old Master

Please enter the main text, "A bright pearl covered in dust, how can you traitors be worthy?" Princess ru Chen was extremely angry. After she voted for the new master, she immediately came to the old master to demonstrate.

If one were to say that she was ungrateful, this was a living example!

The curly-bearded scholar smiled happily. "Regardless of whether your highness agrees or not, following the second prince is obviously better than following you. On account of our friendship, cancel the contract we signed in the past."

"In Your Dreams!"

The curly-bearded scholar shook his head, "Your Highness, you have misunderstood. I am not asking, I am informing you."

Princess ru Chen laughed, "Hehehe, do you really think that I am an undeserved princess? You have violated the contract and must immediately repay the god stone. Otherwise, I will immediately send you to jail!"

She was exceptionally angry. No matter who was bitten by her own dog, they would not be happy.

"Her Highness the princess is naturally not an empty title, but it is only limited to today. After Tomorrow's Yu the Great Ruins, her highness the princess will be nothing." The curly-bearded scholar laughed willfully.

No matter who became the crown prince, there would be no place for her highness the princess. Expelling her from the Yu the great empire would be the lightest punishment.

At that time, what effect would her arrest have?

Emperor traceless sighed faintly. They dared to come here because they had something to rely on.

Anger and sorrow swept across her eyes.

The sorrow of the weak was that anyone could jump up and step on them in times of danger, even if they were the prostrators who had once revered them like gods.

"I'll kill you all!" Princess Ru Chen was so angry that her eyes were red and tears welled up in her eyes.

She just wanted to avoid the massacre of the imperial family. She just wanted to take revenge for her deceased mother and uncle.

Why did everyone come to bully him? It was fine if it was second brother, but even a small figure who used to control her life and death was bullying her.

The second prince waved his folding fan and said indifferently, "Royal sister, they are my people now. You have to ask me before you kill them."

As he waved the fan lightly, silver needles flew out and surrounded his body.

It was as if he wanted to fight at all costs, and his determination was clearly displayed.

Traceless Emperor silently lamented. One wrong move and the entire game would be lost.

They had misjudged the intensity of the fight for the position of crown prince, causing them to be seriously unprepared.

Slowly closing her eyes, princess ru Chen's long eyelashes trembled. She took a few deep breaths before her heaving chest slowly calmed down. She said in a trembling but firm voice, "Did you come here today just to see me make a fool of Myself?"

"Hehe, your joke was destined after you rejected me the last time. My royal brother couldn't be bothered to see it, nor could he be bothered to see it." The second Prince folded his fan and slapped it in his palm, he glanced at the remaining fifteen people behind her mockingly. "This prince will also give you a chance to make a choice. The building will collapse and the ship will be destroyed. Where will you go from here?"

"If you are willing to follow this prince, this prince will ensure your safety. If you are unwilling, you will be my number one enemy in the ruins of Yu the Great. Getting rid of you will be my top priority!"

His true purpose of this trip was to poach the remaining fifteen people.

Princess ru Chen's eyes trembled as she shouted, "How dare you!"

The second prince acted as if he did not hear her and ignored her. He only glanced at the remaining fifteen people without blinking. "You only have ten breaths of time."

"One!"

Whoosh --

One of them had left the group from the start and appeared behind the second prince in a flash.

He lowered his head, not daring to look into princess ru Chen's eyes.

The corner of the second Prince's lips curled up. He said in a charming and threatening manner, "Two!"

The dike within a thousand miles collapsed in an ant's nest. The betrayal of the first person was like a meteor falling to the ground. It had a devastating impact on the positions of the remaining fifteen people.

One after another, people left the team and stood behind the second prince.

Seeing this scene, princess ru Chen was powerless to stop them.

Their Hearts were theirs, and it was useless to force them to stay.

She closed her beautiful eyes with difficulty, and her tears fell like raindrops. She said in a trembling voice, "If you're willing to leave, then leave."

As soon as she said this, the last few people who insisted also wavered.

After the dozen or so people had left, there were only two people left behind princess ru Chen.

One of them was called Ye Lang, and the other was called ye he. They were the wandering brothers adopted by princess ru Chen many years ago.

"Are the two of you sure?"The second prince was overjoyed. He shot an unfriendly gaze at the remaining two.

Ye Lang and ye he had firm expressions. They stood behind princess ru Chen like dead trees, unwavering.

"Hehe, you better remember these two."The second prince squeezed the folding fan in his hand. He did not hide the coldness on his face. "When you enter Yu the great ruins, kill both of them if you find them."

The curly-bearded scholar smiled sinisterly. "I will take good care of the two loyal dogs later."

The fight for the position of crown prince had already ended before it had even begun.

Princess Ru Chen's tears fell like rain. What she received was not sympathy and pity from the second prince, but deep ridicule.

At this moment, the palace maid hurried over and said in fear and trepidation, "Your Highness, the sixth prince is here."

Princess ru Chen laughed bitterly. What use was there for him to come?

Everything was meaningless.

"Tell him, please go back. I've troubled him for this period of time."Princess ru Chen was completely disheartened.

Emperor Wu Hen wanted to stop her, but he stretched his hand into the air and withdrew it in the end.

The situation was over, and it didn't matter whether Su Yu was here or not.

The palace maid jogged all the way to report.

"Hehe, royal sister, if you knew this would happen, why did you do it in the first place? If you were willing to lend me someone, I would still owe you a favor. Right now, you have nothing."The second prince was in a good mood, with his hands behind his back, he mocked coldly, "One must be self-aware. If you set unrealistic goals, you will miss the most suitable opportunity. My royal sister, you must remember this."

He was very satisfied with what he wanted.

Unexpectedly, the sixth prince, Su Yu, walked over with his hands behind his back. When he saw the situation in the courtyard from afar, he frowned slightly. "My royal sister, what is the meaning of the palace maid's message?"

Princess Ru Chen did not look at him. To be exact, her dull and absent-minded eyes could not see anyone.

"I have no one else to use. Sixth Imperial brother, you don't have to worry about fighting for the fate of the country anymore." Princess Ru Chen smiled sadly.

Su Yu swept his gaze across the second prince and then the familiar face behind him. He roughly understood what had happened. His forehead relaxed and he walked over to rub her head. "I wondered what it was. So it was about twenty people missing."

Princess Ru Chen was in the midst of her downtrodden life. She could not help but throw herself into his arms and burst into tears. "Twenty people are all I have! I have nothing now."

Su Yu really felt like a little sister to this little princess who was sometimes confused.

Hearing this, he laughed and said, "Did you forget that I said I would find help for you?"

Emperor Wu Hen's eyes flashed with surprise.

A few days ago, Su Yu went out and said that he was looking for outside help, but there was no clear news. He thought that he had failed and returned.

Princess Ru Chen also raised her head abruptly. Her eyes shone with a strange light as she said in surprise, "Really? How much help did you find?"

Her heart was filled with eagerness and anticipation. She looked at Su Yu without blinking, and her heart stopped beating.

The second Prince's expression tensed up. He looked extremely unsightly. What kind of help was it?

"One." Su Yu had only found Emperor Qi.

Princess Ru Chen's eyes dimmed. She seemed to be laughing and crying at the same time. "One, one. You've done your best. Thank you, brother Su Yu."

At this critical moment in life, at least there were still people who had not abandoned her.

Emperor traceless sighed deeply. The hope in his heart was immediately extinguished like dust. She laughed at herself. At this point, who would be willing to ride on their sinking ship?

The second prince relaxed and laughed. "Sixth imperial brother is really good at giving people surprises. Unfortunately, this will probably be sixth imperial brother's last time. After Yu the great ruins, you will have to say goodbye to the dynasty..."

Su Yu ignored his words and ignored his people.

Before he could finish speaking, he wiped away princess ru Chen's tears in amusement. "I did only invite one person to help, but he pulled some strings and found some people. Although there aren't many, it's better than nothing."

Weng --

Princess ru Chen trembled lightly in his embrace, and her chest rose and fell violently like a tidal wave, pressing down on Su Yu in waves.

The soft and warm pressure made Su Yu push her away embarrassedly.

Emperor Wu Hen's pupils constricted, and his entire body trembled violently. He asked in shock, "Where are they?"

"Just outside the estate." Su Yu called out across space. "Senior, please enter and talk."

"Haha, thanks to Your Highness, Sixth Prince, this is the first time I've seen the splendor of the Imperial Palace." A loud and powerful voice sounded from outside the palace. A divine light suddenly appeared in front of Su Yu, and a blind old man appeared, a skinny old man appeared.

Prince traceless was the first to see this person clearly. His expression changed greatly, and he cried out in surprise, "Sovereign of one Qi! It's actually you!"

In terms of deep roots, the other emperors were all inferior to the emperor of one Qi.

She had even visited him three years ago to persuade him to support princess ru Chen.

However, this old fellow knew his worth better than anyone else, and it was extremely difficult to convince him.

The last time he visited her, he was already tired of her lobbying, and he directly sent her away, causing emperor traceless to lose all face.

She never dreamed that after three years of fruitless lobbying, he would actually be convinced by Su Yu in one go.

Emperor one Qi glanced at him and ignored him. Instead, he went forward and cupped his hands to Su Yu. This was the attitude of an equal. "Your Highness, you've brought them here. Do You Want to inspect them?"

Su Yu looked at princess ru Chen and Emperor Wuhen and said, "Let them in. Let these two have a look."

The old head nodded and the emperor said calmly, "Come in."

Dong Dong Dong --

It was as if an earthquake had occurred. The tea on the stone table in the courtyard rippled.

A large group of young experts of all colors and races, all clad in uniform dark purple armor, rushed into Ru Chen's residence as if an army had entered the city.

If it weren't for the presence of the two emperors, princess ru Chen would have thought that a mutiny had occurred.

After a careful scan, other than the uniform armor and all the youths, all of them had reached the pinnacle of the Overlord realm!

There were more than 130 of them!

Looking at the shocking scene, Emperor Wuhen and princess ru Chen were both overjoyed.

Emperor one qi said regretfully, "Your Highness came late. You only gave me two days to prepare. In my haste, I only managed to pull out this group. If it had been a year or so earlier, it wouldn't have been a problem to invite 200 of them."

Half of what he said was true, and the other half was humble.

He had long been working for an emperor's premeditated plan. How could he not have prepared the people in advance?

However, he did not expect that the person he chose to work for in the end would be princess ru Chen, who was the least favored.

If he had known earlier, he would have tried his best to mobilize his connections. It would not have been too difficult to gather seventy to eighty people who met the requirements.

Su Yu frowned slightly. "It is indeed a little short. There are more than 150 people on the first prince's side. This matter is not handled smoothly."

Chapter 1818 Regret

Please enter the main text: "Not Little! Not Little at all!" Princess ru Chen had already wiped away her tears, her eyes were like night pearls, bursting with a dazzling light of surprise: "130 people, and they are all peak overlords. Although the number is slightly less than first imperial brother, the quality is definitely better."

There were quite a few mystic crystal overlords in the opposing camp.

Overall, the two were on par.

Emperor Wuhen was even more excited, and he almost wanted to cry.

The heavens pitied him for receiving such a powerful support!

Compared to the initial twenty people, it was seven or eight times more, and he was faintly approaching the first prince!

He looked at the emperor of one Qi with great gratitude and said incoherently, "Enough, completely enough. Emperor of one Qi, Wuhen will remember this great favor in his heart."

However, the emperor of one Qi didn't care about the two of them at all and didn't pay any attention to them.

His old face was red and embarrassed by Su Yu's words. He cupped his fists and apologized, "I was really not mentally prepared. The one who will be assisting will be princess ru Chen. Please Don't blame me, Your Highness."

Su Yu frowned. "How can it be as easy as you say? I thought that the emperor was a calm person, so I didn't remind you. Who would have thought that you were so careless and didn't go all out?"

Princess ru Chen and Emperor Wu Hen were heartbroken. They wanted nothing more than to cover Su Yu's mouth.

Enough, stop talking. They couldn't even beg for such a powerful assistance from the emperor!

If you criticize and complain in public like this, what if you annoy them and leave in a fit of anger?

Who knew that the emperor who was indifferent to them seemed to have the opposite attitude towards Su Yu. He bowed and bowed again, with an apologetic face, he said, "Your Highness, you have wronged me. I also found that there were not enough people, so I specially took out the purple demon armor from the inventory and gave everyone a full set of armor!"

Princess ru Chen was shocked again. She stared at the purple-black armor on their bodies, she said in surprise, "Is that the legendary purple demon armor, the number one divine armor of Emperor Yu of the Great Yu dynasty that the one Qi tool alliance treasured and did not sell?" "I heard that it can greatly increase the wearer's speed of absorbing divine qi and the strength of the physical body. It can increase the wearer's cultivation by more than half! "The market price of this armor is 20,000 divine stones a set, and it's only the price. It has never been sold before."

Emperor traceless was also surprised, and then he was overjoyed.

She had also heard of the purple demon armor. It was a top-grade armor made by the one Qi Tool Alliance's own people.

When a peak overlord wore it, their combat strength would be comparable to that of a half-step emperor.

Ten Purple Demon Armored Warriors working together could easily kill a half-step emperor.

Even if they met an emperor, a team of more than fifty people could easily kill them!

As for the one hundred and thirty purple demon armored warriors, it was like a mudslide. Whoever stood in their way would die, and the Emperor would flee.

After hearing princess ru Chen's introduction, Su Yu was slightly surprised. "Oh? The purple demon armor is that powerful?"

The emperor let out a sigh of relief and smiled apologetically. "My life and future depend on this. How would I dare to hold back?"

Su Yu's brows relaxed and he nodded. "I'll believe you for now. If anything goes wrong, you know the consequences."

The Golden Flame Forbidden Wood would all be gone.

"Don't worry, they have all been instructed by me. I'll definitely do my best!" The emperor of one Qi cupped his fists once again. "I'll go back and wait for Your Highness's Good News. When the time comes, you and I will drink to our hearts' content."

Su Yu nodded slightly and watched as the emperor of one Qi teleported away.

Princess ru Chen's eyes were sparkling and her face was beaming with joy. She couldn't stop smiling.

It wasn't until the Emperor left that she suddenly threw herself into Su Yu's arms, hugged his face, and kissed him to her heart's content.

Her small face was filled with sincere gratitude and excitement from the bottom of her heart.

When she realized that something was wrong, she hurriedly withdrew her body, and her snow-white face suddenly turned bright red.

Outsiders didn't think much of it, but she was the only one who knew that they weren't really brother and sister.

Emperor Wuhen's face was also full of joy. His gaze, which was not a smile, bounced back and forth between the two of them.

She was filled with endless gratitude towards Su Yu.

Without him, there would be no hope today.

How Proud was that Emperor Wuhen? From the beginning to the end, he had never spoken to her or Princess Ruchen, let alone looked at them.

The other party was only doing this for Su Yu's sake.

Even though she was very curious about how Su Yu managed to persuade Emperor One Qi, she pretended to be confused out of respect and gratitude.

"Your Highness, there is something I don't know whether to ask or not." Staring at Su Yu, Emperor One Qi's heart was extremely complicated.

Su Yu looked over and said indifferently, "Please speak."

After a slight hesitation, emperor one qi said, "Emperor One Qi only recognizes you, your highness. Why do you still want to help a lone widow like us?"

Emperor One Qi had also asked this question before.

With a smile, Su Yu said indifferently, "There's nothing else. It's just a promise. I will repay your kindness to me."

It was Su Yu's code of Conduct to repay kindness without exception.

The two women were stunned. The way they looked at Su Yu had completely changed.

They had been more or less on guard against Su Yu before. Now that they were in trouble, they could finally see Su Yu's character clearly. They felt both admiration and relief.

They were glad that they had met Su Yu, and they were also glad that they had worked hard to keep their promise.

The second prince, who had witnessed everything, went from shock to shock, and finally turned ashen. He had never thought that Su Yu would be able to find such strong support!

He had even less thought that princess ru Chen, this salted fish, would turn the tables!

What made him regret was that he was the one who had beaten princess ru Chen into a salted fish!

If he had known that the sixth prince would be able to recruit such strong support for her, he would not have provoked princess ru Chen for the sake of a mere twenty people.

Now, she must hate him to the extreme, right?

As he pondered, he slowly retreated and left the princess's residence dejectedly.

"Hehe, second brother, where are you going?" Princess ru Chen said with a smile.

The second prince stopped in his tracks and squeezed out a smile stiffly. "A guest has arrived at my royal sister's residence. I Won't be staying for long. Farewell."

"You can leave, but my sister can't Stop You. But as for them... Hehe, are they going to tear up the contract? Are they going to betray us? Alright, ten thousand divine stones per person. If you can't take it out, I'm sorry, you'll have to serve a hundred years in the dynasty's prison!" Princess ru Chen raised her eyebrows, she spoke with a murderous aura.

The second Prince's expression fluctuated as he said in a deep voice, "Sister, aren't you being too forceful?"

If he kept them, where would his prestige go?

Would the eighty plus people he recruited still be willing to work for him wholeheartedly?

"Hehe, it's only right and proper to repay your debt. You've gotten my dao rain, but you're just going to leave like that. Do you really think that I'm easy to bully?" Princess ru Chen's confidence was a little lacking when she said this, and she couldn't help but hold Su Yu's arm, just now, her heart was at ease.

The second Prince's face turned cold as he shouted, "Don't be afraid of him. She might not be able to seize the position of crown prince. All of you, come with me!"

The greatest hope was still the first prince. Princess ru Chen's fate was most likely to be death or banishment.

Princess ru Chen sneered, "Let's see which one of you dares to leave!"

Instantly, there was a group of traitors who couldn't move their feet. They were like wooden stakes.

Only half of them gritted their teeth and followed the second prince with a fluke attitude.

Princess ru Chen's gaze turned cold, but she couldn't stop them.

Su Yu, who was watching from the side, said indifferently, "Everyone, listen to my orders! Remember those traitors who followed the second prince. Tomorrow at Yu the Great Ruins, kill every single one of them. Kill every single one of them and you will receive 5,000 god Stones!"

An Ordinary Overlord's annual harvest was less than 1,000 god stones.

Five Thousand Divine Stones was a full five years of harvest!

And the method was very simple. It was to kill a person!

They had already mentally prepared themselves for killing people in the ruins of Yu the great. However, they would still receive a huge reward for killing people. Forgive their poor imaginations. They had never imagined that they would receive such a huge reward.

Instantly, over a hundred pairs of burning eyes spewed fire as they stared fixedly at the ten or so traitors following behind the second prince.

Those eyes were like hungry tigers staring at white sheep, wishing they could rush over and eat them alive right now.

Creak --

The dozen or so traitors following behind the second prince could not move at all. They turned around with stiff faces and met the group of eyes that were like wolves and tigers. Those with weak wills were so scared that their legs went weak.

The curly-bearded scholar seemed to have lost his mind. He no longer had the free and unrestrained manner of waving his fan. He swallowed his throat and bowed respectfully to Princess Ruchen. "I was momentarily possessed by a demon. Now that I have found my way back, please take me in, Princess."

The others followed suit.

"It's all the second Prince's sweet words that bewitched me. It wasn't my original intention. Please understand, Princess."

"The second prince used despicable methods to lure and threaten me. I have no choice but to obey!"

The group of people all pushed the responsibility to the second prince. He was so angry that his nose was crooked.

Many of them took the initiative to look for him, such as the curly-bearded scholar.

Princess ru Chen was a little uncertain. She thought for a moment and turned her gaze to Su Yu. She had a vague attitude that he was the leader.

She glanced at them, su Yu said indifferently, "There is a group of people among you who are tempted by benefits. If you repay the debt, they will let you go. or they can obediently stay in prison for a hundred years! There is also a group of people who are threatened by betrayal. They can be forgiven, or they can come back and continue to serve."

He did not kill them with a single blow. Instead, he dealt with them separately. It was fair and reasonable.

The curly-bearded scholar was overjoyed and was about to speak, su Yu's words sent him into a bottomless ice cave. "However, there are also a group of people who took the initiative to betray US and led the new master to provoke us. If you want to choose a good bird to live on, choose a tree to live on. If you want to adapt to the situation, be a hero. Or if you don't want the Pearl to be covered

in dust, this prince will fulfill all of your wishes. This prince will not take you in, nor will I allow you to pay compensation or go to jail. We will meet at the ruins of Yu the Great!”

“That’s right, I’m talking about the eight who betrayed us last night. Get Ready, the time to prove your worth has come.”

He spoke calmly, but his words were filled with cruelty and bloodlust.

Tomorrow, they would be hunted down by the purple demon armored warriors, and they would have nowhere to run.

The curly-bearded scholar’s legs went weak, and he pleaded, “Your Highness, Please Show Mercy. Your Highness, Please Show Mercy. I was momentarily blinded by lard. I don’t want to die...”

Princess ru Chen’s expression turned cold. “Did you hear that? Do as sixth imperial brother says.”

Hualala --

A group of purple demon armored warriors threw them out like wolves and tigers.

“If you give up on the ruins of Yu the great, I will personally give the order to kill all of you. Oh, before the ruins of Yu the great, don’t even think about leaving the imperial palace,” Su Yu added, cutting off their thoughts of escaping.

They might be lucky enough to escape death by participating in the ruins of Yu the great. If they didn’t participate, forget about leaving the imperial palace, even if they did, so what? The whole world was the land of the kings. It was too easy for a prince to kill one person.

The eight of them were like abandoned wild dogs, regretting and dejected as they hurriedly ran away with the second prince, who was covered in dust and dirt.

What awaited them was a fierce pursuit.

Chapter 1819 Old Friends Meet

“Hahaha, this is too satisfying!” Princess ru Chen raised her head and shouted happily.

Emperor Wu Hen also pursed his lips and laughed non-stop. He looked at Su Yu with a strange expression.

The next morning, the melodious sound of a bell came from the depths of the imperial palace.

Princess ru Chen’s expression tensed. She looked into the depths of the imperial palace. “They’re finally here!”

In the courtyard, Su Yu and Emperor Wu Hen sat with their eyes closed. The 130 purple demon armored warriors were also ready to go.

They didn’t sleep for an entire night.

To be precise, no one in the palace could fall asleep.

This was because from today onwards, it was a day that would determine the fate of the dynasty for the next tens of millions of years.

The fight for the Crown Prince!

Clang Clang --

When the bell rang, the five prince mansions and the princess mansions resounded at the same time.

Countless powerful young geniuses filed out.

They flowed like rivers into the sea and gathered in the depths of the palace from different directions.

That was the forbidden area of the palace. Usually, only one person in the entire dynasty could enter!

Emperor Dongfang Xia!

Apart from him, even crown prince Dongfang Wudi wasn't allowed to enter without permission.

Those who disobeyed were killed!

In history, three princes who trespassed had been mercilessly killed.

One of them was even more powerful than the first prince back then, and the entire country supported him.

However, he was arrogant and arrogant. He barged into the forbidden area alone and was killed by the king, shocking all the princes.

From then on, no other princes dared to trespass. They didn't even want to go near the forbidden area unless it was necessary.

Only today, the moment that determined their fate had arrived.

The six princes and a princess stood in front of the forbidden area with their heads held high.

Behind them were the experts of the younger generation who had chosen to follow them.

Among them, the first prince and the fifth Prince had joined forces, and their momentum was strong. There were more than 200 people.

The sixth prince and the princess had joined forces. There were more than 130 people, and their momentum was second.

Following closely behind were more than 90 people from the second prince.

The third Prince's 70-odd men.

The fourth Prince's 60-odd men.

The area in front of the forbidden area was densely packed with people.

They sized each other up.

Other than the second prince, the other princes were all shocked when they saw the sixth prince and Princess Ru Chen's team.

The third Prince's eyes were filled with shock. "Where did they get the reinforcements?"

“Who else can provide 130-odd men outside of the ten great fiefdoms? Is it the sixth prince? No, he’s just a newcomer. How would he have the time to gather so many people? Or is it the royal sister?”The fourth prince was also shocked.

The first Prince and the fifth Prince looked over, their faces darkening.

“Purple Demon Armor!”The first Prince’s eyes were filled with a hint of malice.

He recognized the origin of the armor. Other than the one Qi emperor, there was no other person who could fully equip such a group of peak overlords.

The fifth Prince clenched his fists in anger. “That old bastard, what exactly did the sixth prince give him to make him spare no effort to go against us!”

The two stared at each other. Originally, they had targeted the second prince as their biggest threat.

Who knew that the real threat was the sixth prince and Princess Ru Chen, whom they had never taken to heart!

They were sizing up Su Yu’s people, but Su Yu was also sizing up their people.

His gaze swept over, and he immediately noticed a pair of completely different gazes looking at him with mixed emotions.

Fixing his gaze, Su Yu was slightly startled. After which, he smiled faintly and turned his gaze elsewhere.

“It’s him! How is this possible!”The purple-robed Empress Zi Wei, who was as proud as snow, widened her eyes at this moment as she stared in disbelief at the familiar yet unfamiliar yellow-robed figure.

Her entire body trembled as she was unable to suppress her shock.

“Zi Wei, who did you see? Why are you so agitated?”A ridiculing voice came from beside her. It was actually a beautiful woman in pink who had the cultivation base of a peak overlord.

She had a full figure and the snow-white chest was especially eye-catching.

Her entire body exuded an indescribable charm.

Ziwei regained some of her composure and pointed at Su Yu. “Who is he?”

The charming woman looked over, a teasing look flashed in her eyes. “I was wondering, so you have taken a liking to the sixth prince. Hehe, Ziwei, although you are so beautiful that even your elder sister is jealous, you should just forget about him? “Right now, I can only feast my eyes on the beautiful women in the Imperial City who want to marry him.”

“Sixth... sixth... Sixth Prince!”Empress Ziwei was shocked. “Isn’t there only five princes in the dynasty?”

The charming woman giggled. “Oh, I almost forgot. You’ve been in closed-door cultivation all this time and don’t know what’s going on in the outside world. Recently, a wandering prince has

appeared. He's been traveling outside all year round... right, he's been traveling in the Sea of constellations. I remember that you're from the Sea of constellations, right?"? "Don't tell me you two know each other?"

"No, we don't." Empress Ziwei's heart was in turmoil.

It couldn't be wrong. It was him! It had to be him!

Su Yu!

"That's a pity. This sixth prince is a genius. Do you know what he comprehended through the power of the Dao Rain? If you tell me, I'll scare you to death!"

Empress Ziwei stared at Su Yu, her gaze darkening. "How many percent of the laws did he comprehend?"

Back then, Su Yu was still inferior to her.

After a few years, not only had he become the sixth prince of the Great Yu imperial court, his status had skyrocketed. He had to look up to him, and even his strength had turned the world upside down.

She didn't even have the qualifications to participate in that rain, but Su Yu could participate as a prince and occupy the first-class category of rain that everyone envied.

Presumably, he had condensed at least fifty percent of the laws, right?

In comparison, she had no way of condensing the laws.

"How much? Hehe, a complete law and a law with 40% comprehension! He's already set on becoming a future emperor."

Empress Ziwei sucked in a breath of cold air, her pupils constricting into a needle. Her chest felt as if it had been smashed by a giant hammer, making her feel extremely depressed. She could not believe that the other party had already reached a point where she needed to look up to him!

"However, this is still nothing. The fifth Prince and Princess Ruchen have also comprehended complete laws. In comparison, it's nothing. The truly frightening thing is, do you know what kind of laws he has comprehended?"

Empress Ziwei was startled. "Is it some kind of powerful law?"

"Powerful? Hehe, do you know what the eight great laws of the Heavenly Dao are?"

Empress Zi Wei said, "Of course I do. They are the eight most powerful laws that dominate the world. They are extremely profound and difficult to understand. Since ancient times, only a few people have comprehended them. However, every single one of them is the overlord of a large civilization."

She wrinkled her nose. "Don't tell me that what he comprehended is one of the eight great laws?"

She didn't believe it from the bottom of her heart.

"Of course not."

Empress Zi Wei snorted and looked at Su Yu with a complicated expression. She said indifferently, "That's nothing too great."

"He comprehended two of the eight laws."

Empress Zi Wei's expression suddenly stiffened. She stood rooted to the ground, forgetting to even breathe.

The voice of the charming woman that was filled with reverence and worship continued to ring in her ears. "Complete comprehension of the space law, 40% comprehension of the life law. My God, it's really hard to imagine that I can actually see a living monster genius. Compared to him, what are we so-called geniuses? He is a dragon, we are insects."

No! It couldn't be like this!

When she joined Bei Wangchen, she told herself time and time again that from now on, she would walk on a different path from Su Yu and Xue Guanyin.

There would be no more interactions between them. After all, one was facing the sky and the other was facing the ground.

But now, Su Yu was standing in front of her with the right to look down on him. How shocking was that?

It had overturned all the beautiful dreams she had had for the past few years.

"No, there's still one more person. Bei Wangchen. He can't possibly be stronger than bei Wangchen!" Empress Zi Wei clenched her fists tightly.

Back then, she had single-mindedly betrayed her hometown, the Sea of constellations civilization, and severed the ties between her, Su Yu, and Xue Guanyin. wasn't it precisely because she was obsessed with bei Wangchen's unparalleled potential that she knew that she was a frog at the bottom of a well in the Sea of constellations?

She might not be able to compare herself to Su Yu, but the person she was following was definitely not wrong!

The charming woman's pupils constricted. Bei Wangchen was a taboo existence in the great Yu Emperor dynasty.

He was also the only existence that could be compared to Dongfang Wudi.

He was not an emperor, but he was above an emperor!

His talent was terrifyingly strong.

"His words might not be as good as bei Wangchen's, but the gray-robed Emperor thinks highly of the sixth prince. He has only displayed such an attitude toward the sixth prince before," the charming woman said uncertainly.

Empress Ziwei snorted coldly. "That's also because of his status as a prince! If bei Wangchen is also a yellow child, the gray-robed emperor will definitely think highly of him."

What she did not know was that the gray-robed emperor understood the meaning of comprehending the eight great laws better than she did.

Not to mention that Bei Wangchen was not a prince, even if he was the crown prince, the gray-robed emperor would not place such importance on him.

Comprehending the eight great laws and comprehending ordinary laws were destined to be people from two different worlds.

Noticing that Empress Zi Wei's gaze was fixed on him, Su Yu smiled faintly.

Those who abandoned me can not be left behind on the day before. Those who messed with my heart will have many worries today.

Since he had left, he would not be worried anymore.

He continued to size him up. Suddenly, he found another familiar figure.

Bei Wangchen's Ao Xiang!

At this moment, he was staring at Su Yu with a face full of hatred, as if he wanted to swallow Su Yu alive.

"Defeated." Su Yu casually glanced at him and looked at the other eight people beside Ao Xiang. They were exactly the same as Ao Xiang, representing the other eight sides of Bei Wangchen.

"Each phase has the battle strength of a half-step emperor. If the nine phases work together, I'm afraid no one in the Yu da ruins can defeat them."

As if sensing his gaze, the nine phases looked at him at the same time. Their different gazes gathered together, giving Su Yu a sense of danger.

Her line of fate suddenly wavered.

"Oh?" Su Yu narrowed her eyes. The last time her line of fate wavered was when she fought with Fantasy Moon Langjun.

Bei Wangchen was indeed a powerful opponent that she needed to pay attention to.

She retracted her gaze and looked elsewhere. She met a pair of complicated crystal eyes. It was Bei Wangzhu.

Su Yu smiled at her. She was so angry that Bei Wangzhu gave her a fierce glare. She meant that she still had the face to smile!

Su Yu shrugged and his gaze fell on the others.

At this moment, he noticed a slightly familiar person standing beside Bei Wangzhu.

It was a young man who had some imagination with Bei Wangchen.

He smiled at Su Yu to show his goodwill.

Su Yu had just remembered who he was.

Bei Wangzhu! That day in the swamp, the other party was being pursued. It was Su Yu who saved his life and gave Su Yu a jade pendant. He said that if there was trouble, he could come to Bei Wangzhu's residence to look for him.

She did not expect him to come as well!

There were so many familiar faces! Su Yu rubbed her nose. Since they were all here, then the Holy Maiden of the Harmonious Union holy ruins should also be here, right?

As expected, a gaze of hatred pierced straight through her.

Su Yu smiled at him and shrugged innocently. This caused the other party to grind his teeth and cast a cannibalistic gaze at her.

However, in the next moment, Su Yu was attracted by the person beside her.

It was an ordinary young man wearing a bamboo hat that covered his face. His eyes could not help but pause.

“What a familiar figure!” Su Yu frowned slightly.

Chapter 1820 Corpse-Eating Giant Earthworm

Please enter the main text and look over with the clairvoyance eye.

What surprised him was that the young man in the bamboo hat was surrounded by an indescribable fate, blocking his gaze.

The man in the bamboo hat followed Su Yu's gaze and looked over. His entire body trembled as he fixed his gaze on Su Yu for a long time.

A faint battle intent shot out from under his bamboo hat.

Su Yu was certain that they had met before!

The two looked at each other for a moment and retracted their gazes.

The first prince alone had many experts under him, especially bei Wangchen.

Back then, he had already gathered many outstanding experts in the fief. Now that he thought about it, he was probably recruiting young geniuses for the first Prince's competition for the national luck today.

“You really have a lot of enemies!” Princess ru Chen shrunk her neck. She felt uncomfortable from all the gazes.

Su Yu smiled. “If you have many lice, you won't have to worry about debts.”

“Are you not afraid of being beaten because you have thick skin?” Princess ru Chen snorted.

Su Yu laughed and then swept his gaze toward the second prince, the third prince, and the fourth Prince's troops.

He could not see through one of them.

“Do all of them have trump cards? It seems that they are doing their best in this competition. I have to be serious too.” Su Yu thought to himself.

The six princes and one princess were all present.

With a whoosh, the gray-robed emperor appeared in front of them silently. There wasn't the slightest fluctuation of his aura.

Just this move alone was enough to intimidate many people present.

“I won't say any unnecessary words. You only need to remember one thing. Do not attack members of the royal family. Otherwise, if you come out, you might not be able to leave alive.” The gray-robed emperor didn't conceal his enormous killing intent.

The terrifying fluctuations of the double-crowned emperor frightened everyone present.

However, those who were smart could hear the hidden meaning in his words. If they could not kill the members of the imperial family, they could at least kill the ordinary participants, right?

In all the previous competitions for the fate of the nation, the number of people who died from man-made disasters had never been lower than half.

This time, the number of people who died in the more intense competition for the position of Emperor would probably increase even more.

“The ruins of Yu the great have officially opened!” The gray-robed Emperor's voice shook the sky. He rolled up his sleeves, and the seal that had been sealed for many years behind him opened with a creak.

An ancient and broken giant door fell before everyone's eyes.

Behind the giant door, a divine aura that was close to liquefying assaulted their faces. It was mixed with a unique aura that was completely different from that of the emperor of Yu the Great. It caused everyone's spirit to suddenly tremble.

“You have one month. One month later, you will be teleported back from the ruins.” The gray-robed emperor moved his body aside. “All of you can enter.”

After he finished speaking, six groups of people entered one after another.

An endless jade-green grassland came into view. Nearly five hundred people gathered at the entrance and stared at the scene in front of them in shock.

At the end of the grassland, there were many huge mountains that pierced through the clouds. They were as steep as sharp swords.

On the mountain peaks, one could vaguely see the remnants of an ancient palace.

“The periphery is beautiful, sword mountain.” Princess Ru Chen let out a light breath and could not help but become nervous.

Su Yu stared at the strange huge mountain peak. For some reason, he had a strange feeling.

“The ancient beasts that live on sword mountain are all flying. The Unicorn Eagles not only fly extremely fast, but they are also good at sound wave attacks. It is very difficult to kill them. Moreover, after killing them, the country transportation on their bodies is usually very low. It is not worth killing them.” Princess ru Chen said very skillfully.

Su Yu looked deeply at sword mountain and asked meaningfully, “Will they take the initiative to attack us?”

“Unicorn Eagles are timid by nature. If they were alone, they might be chased by them. But now there are so many people, they don’t even dare to approach,” princess ru Chen said disapprovingly.

“Is that so?” Su Yu seemed to be thinking about something.

“Hahaha, sixth imperial brother, if you only have this little courage, it is better to give up as soon as possible. If a mere unicorn eagle is afraid, won’t the ancient beasts behind scare you into retreating?” The second prince stood side by side and sneered, he took the lead and leaped out.

More than ninety people followed behind him. After crossing Sword Mountain, they could enter the outer area, where the ancient beasts resided.

The moment he moved, the other emperors moved.

Princess ru Chen couldn’t wait any longer. She stomped her legs and wanted to break through the air to chase after him.

However, Su Yu held her shoulders and pulled her down.

“We’ll wait for a while.” He stared at sword mountain and frowned slightly.

Princess ru Chen asked anxiously, “What are the Unicorn Eagles afraid of?”

The purple demon armored warriors behind them were also anxious. There were many numinous treasures in the ruins of Yu the great.

After all, it had been a hundred million years since the last time they opened the ruins. Even if they plucked all of them last time, they should have grown all of them in a hundred million years.

If they were a step slower, they would lose a lot of good stuff.

“I’m not afraid of the Unicorn Eagles. I just have a vague feeling that something is wrong.” Su Yu looked at the sharp sword mountain and said indifferently, “Haven’t you noticed that there are no unicorn eagles circling above the Sharp Sword Mountain?”

It was only through his body size that everyone noticed the abnormality.

Indeed, it would have been fine if the Unicorn Eagles didn’t sense the presence of any living beings just now and were all in their nests.

However, the second prince and the others had already rushed to the vicinity of the sharp sword mountain, yet there was still no movement. This was somewhat abnormal.

The frustrated purple devil armored warrior gradually calmed down.

As expected, the first prince, the fifth prince, the third prince, and the fourth prince also gradually sensed that something wasn't right and slowed down their speed of sprinting.

Only the second prince and his group were in front and did not notice anything strange behind them. They thought that they were moving fast and had lost the people behind them.

“Charge! Charge into the outer area and seize the opportunity. If I can ascend the throne, I will bestow 100,000 divine stones to those who have contributed!” The second Prince roared heroically and led the soldiers into the sharp sword mountain.

The followers behind him were also in high spirits and shouted as they charged forward crazily.

However, at this moment, something unexpected happened.

The Third Sword Mountain suddenly collapsed.

No! It didn't collapse. Instead, the mountain suddenly distorted and suddenly dived down.

Su Yu and the others who were watching from afar were the first to see clearly that the sword mountain twisted its body like a snake. The head hidden in the clouds suddenly twisted and dived down to the ground.

A huge mouth that had no nose, eyes, or ears and was only ten thousand feet wide suddenly sucked in.

Instantly, a large group of people who had rushed over were sucked into the huge mouth like sand.

Only a small number of people who had been sucked out were able to escape rationally.

With this one bite, one-third of the ninety people from before had been lost!

“Quickly retreat!” The second prince did not even understand the situation and instinctively shouted.

Even so, the huge monster sucked in another 20 people and swept them away.

Creak, Creak, Creak --

Other than the sound of fleeing in fear, the only sound left was the creaking sound of the monster chewing on dozens of corpses.

“Retreat quickly!”

The expressions of the first prince and the others changed drastically, and all of them ordered their men to retreat to the entrance.

Seeing the second prince leading the remaining 40 people back, they couldn't laugh, and all of them fell into great fear.

“Emperor-level ancient beast, corpse-eating giant earthworm!” Princess Ru Chen was stunned. The other princes were also stunned. Their faces were full of shock and shock.

The second prince survived the disaster and shouted angrily, “Who can tell me what is going on? How did the ancient beast in the depths of the ruins run to a place that doesn’t even count as the periphery?”

At this moment, his heart was bleeding,

he had yet to seize even the slightest bit of the nation’s fate, but more than half of his troops had been lost.

He originally had the advantage of being ranked third, but now he was in the bottom.

The expressions of the several princes all became grave. In the 100 million years of Yu the Great’s ruins, there must have been some unknown changes that could no longer be guessed based on past experience.

Rumble --

At this moment, the enormous body of the corpse-eating earthworm began to drill into the ground.

“You want to run?” The first Prince’s cold eyes flashed as he grabbed the golden sword at his waist and slashed across the air.

“Boundless Emperor!”

A sword Qi that was the size of a sharp sword mountain slashed out.

Pu --

The corpse-eating giant earthworm’s huge body was almost cut into two!

What an overbearing sword!

Compared to the sovereign longzun sword, this sword was much more powerful.

The other princes also reacted. This was an emperor-level ancient beast. Whoever killed it would obtain the fate of the nation.

“Kill!” Even the second prince reacted and led his men to attack the corpse-eating giant earthworm.

Suddenly, colorful divine arts rained down on the corpse-eating giant earthworm.

This kind of attack, unless it was a double-crowned emperor, anyone who saw it would run away.

“You want to fight with me? Humph!” The first Prince jumped out, and the golden sword once again erupted with shocking sword light. Before the other divine arts attacked, the sword cut the corpse-eating giant earthworm in half from head to tail.

When the other divine arts attacked, the corpse-eating giant earthworm was already dead.

Wouldn't it be impossible for a peak overlord to fight with an emperor?

Many followers of the first Prince's camp erupted in cheers, shaking the ruins.

On the other hand, the followers of the other princes were completely dispirited.

However, at this moment, a small earthworm that was a hundred feet long suddenly jumped out of the corpse of the corpse-eating giant earthworm. It was its soul.

In its mouth was a five-colored ball that was half a meter long. It was the national fortune!

The first prince sneered, "Where are you going?"

The golden sword once again slashed down with lightning speed.

This sword was enough to destroy the soul.

Many experts who were rushing over from behind sighed. They had no choice. They had no time to fight with the emperor for it.

Their souls were destroyed by the first prince before their divine arts arrived.

However, at this moment, an ear-splitting screech filled with shock crushed most of the divine arts and chased after the little earthworm.

"Ah! What broke my divine arts?"

"My inner mansion was stirred up by the airflow of this thing!"

"Who made the move? Why is that powerful aura even stronger than the first prince's boundless overlord?"

In their shock, they only saw a jet-black stream of light streaking across the sky like a meteorite, shooting straight at the Earthworm's soul.

The first prince was about to pull out his sword when he suddenly sensed the powerful aura behind him and was also shocked.

He snapped back to his senses and roared, "Who dares to snatch this Prince's things?"

The golden sword in his hand sped up and slashed down.

However, the stream of light behind him was too fast. By the time he reacted, the earthworm's soul was pierced through and dissipated on the spot.

The nation's fate in his mouth flew in the opposite direction with a whoosh.

"Where are you going!" The first prince sucked in the air, trying to grab the nation's fate.

However, the nation's fate was not affected at all. It flew straight towards the entrance, in the hands of a young man dressed in a yellow robe and a coiled dragon robe.

"Hehe, first imperial brother, don't tell me you think that you can resist the rules set by the Great Yu Ruins By Yourself?"
