

Nine-Dragon 1821

Chapter 1821 Dragon Blood Lake

The first Prince's cold eyes shot out like lightning as he stared at the owner of the hand that held the fate of the nation. His face was full of frost.

“Sixth Prince!”

He saw Su Yu insert a 20-foot-tall giant bow into the ground. His palm pulled the bowstring tightly. A faintly discernible law of great strength lingered around him.

Xiu --

After the jet-black stream of light pierced through his soul, it flew back on its own and landed in his other hand.

His expression was normal, but he was in a good mood.

As expected, the thing that Xiao Die had taken a fancy to was definitely not an ordinary item.

With just a little test, the power of the first bow of heaven was unparalleled!

Thinking about the emperor-level first prince, the soul of the earthworm was in front of him, but it was killed by the first bow of heaven from afar.

Not only was its power shocking, even its speed was incomparable.

He was very satisfied with the effect it displayed.

With a light laugh, Su Yu put his soul into his pocket.

This scene made the second prince so jealous that his eyes turned red.

More than half of the people he sacrificed had all fulfilled Su Yu's wishes!

The third Prince and fourth Prince were also incomparably jealous.

They had just begun to seize the fate of an emperor, leaving them far behind.

If they were already like this, one could imagine the hatred of the first prince.

It was he who had killed the corpse-eating giant earthworm with a single sword, but in the end, he had been intercepted by Su Yu.

“Sixth prince! I'll remember this!” The first prince was furious. “Let's Go!”

Rumble --

Over two hundred people followed the first prince through Sword Mountain, straight to the outer perimeter.

The second prince, the third prince, and the fourth Prince were unwilling to be outdone. They each chose a direction to run in.

Princess ru Chen laughed loudly. “To snatch an emperor-level national fortune from the very beginning, our chances of winning have increased by one point!”

Compared to this, Su Yu's smile disappeared and his expression became serious.

"Don't be careless. With our situation, our chances of winning don't exceed 30%."

The calm and composed manner just now was for the enemy to see.

Princess ru Chen also calmed down from her wild joy.

Indeed, they were happy too early.

"Although the corpse-eating giant earthworm is the weakest type of emperor-level ancient beast, it's still an emperor-level existence! "When my father was still a prince, he entered this place to fight for the national fortune and also killed a corpse-eating giant earthworm. However, it took him half a day to successfully kill it, but my eldest brother only used one sword!"Princess ru Chen said worriedly.

In comparison, the eldest Prince's fearsomeness was revealed.

He alone was comparable to a hundred people!

In addition, among his people, there was bei Wang Chen, the number one heaven's pride expert of the dynasty, the Saintess of the Joyous Union Holy Ruins, and many half-step emperors following him.

The speed at which they collected the fate of the nation would reach an unbelievable level.

The prospects were extremely bleak!

"According to the usual method, our chances of winning are slim. We can only split into two groups."Su Yu thought carefully. "Royal sister, you will lead the Purple Demon Armored Warriors. With their current power, they will be able to kill emperor-level ancient beasts and protect you."

"Aren't you coming with us?"Princess Ru Chen panicked. She suddenly felt insecure.

Su Yu touched her head. His eyes were gentle. "You are the future queen. Sooner or later, you will have to take charge."

Princess ru Chen did not refuse. Her nose was sore. The royal family was heartless. On the contrary, this outsider was like a brother to her, giving her warmth and kindness.

"You will lead them to seize the fate of the country."

"What About You?"

"I'll prepare a portion of the country for you,"Su Yu said boldly.

Princess Ru Chen's heart warmed, and her eyes were firm. "Royal brother, take care."

She flew through the air, and dark purple currents surged along with her, rolling toward the horizon like a torrent.

Su Yu stood where he was. After pondering for a moment, the nine jade spirit pearl on his arm flashed, and a delicate young girl's figure appeared.

“Are You Hungry?”

“What do you think?” Xiao Die's face was full of resentment.

Three days ago, Su Yu had made her hungry again.

It was even crueler than that time at the black market. That time was only one day

“Hehe, then you should know that I let you out to prepare a feast for you.”

Xiao Die's eyes rolled and looked around. Her eyes immediately lit up. “What a rich aura. Such a place produces the most treasures.”

“It's not just treasures. There are many delicious foods that you can't imagine.” Su Yu smiled mysteriously. “Especially the ancient beasts here. They have been influenced by the aura all year round. Their meat is fresh and delicious, soft and juicy. It's so delicious that it can't be described in words.”

“Humph, you're exaggerating. I don't believe you.”

“Oh, then wipe off your saliva first.”

“You're insulting my great personality. I'm habitually epileptic.”

”...”

In the end, Su Yu threw her a bag containing the national transportation item and said, “After you finish eating the ancient beast, put the national transportation item inside.”

Xiao Die had a disdainful look on her face. “I knew you wouldn't feel at ease.”

“You can choose not to eat it.”

“You win!”

Grabbing the bag, Xiao die ground her teeth and looked around, drooling.

Her smiling face was full of excitement and ecstasy. She couldn't help but laugh at the sky, “Hahaha, I, Xiao Die, AM BACK!”

The Roar shook the sky and scared the ancient beasts.

It was as if they felt the existence of a natural enemy.

Su Yu looked at Xiao Die worriedly and muttered to himself, “I hope I didn't do anything wrong.”

After saying that, he chose a direction and strode forward.

Five days later.

Puchi --

Su Yu killed a flaming red centipede that was a thousand feet long with a single slash of his sword.

With a twist of the tip of his sword, a fist-sized ball of national fortune was picked out.

“Eighty-third kill!” Su Yu put the national fortune into his pocket, feeling helpless.

The Centipede was an ancient beast that was half a step into the emperor realm. After killing it, the national fortune it obtained was less than one percent of that of the corpse-eating giant earthworm.

Killing 83 beasts in five days, the lowest was at the Overlord level.

However, the total amount of national fortune it obtained was less than half of the corpse-eating giant earthworm’s national fortune.

“At this rate, when one month is up, the total amount won’t exceed four emperor-level national fortunes.” Su Yu stopped and analyzed, “The first prince and the others probably obtained more than this.”

Their numbers and overall strength were far inferior to the other party.

If this continued, they would lose without a doubt.

“I can’t waste time on ordinary ancient beasts. The victor will ultimately be determined by emperor-level ancient beasts.” Su Yu was currently in the middle of the ruins.

The traditional emperor-level ancient beasts were all located within the ruins.

Among them, a few famous emperor-level ancient beast territories had long been marked clearly. It was time to take a look.

With a flash of his gaze, Su Yu went deeper into the ruins.

For some reason, the deeper he went into the ruins, the more familiar he felt.

The first time he saw the Sharp Sword Mountain, he had a similar feeling. He originally thought it was an illusion caused by the Sharp Sword Mountain.

However, as time passed, the familiar feeling didn’t disappear. Instead, it became more and more intense.

“Where did the familiar feeling come from?” This question had troubled him for a long time.

He sped along.

Half a day later, as he was speeding along, he suddenly felt the powerful fluctuations of the heaven and Earth Divine Qi.

Under the eye of insight, thick clouds that couldn’t be seen surged in the sky like waves.

Even with Su Yu’s cultivation as a peak overlord, he felt extremely small under this vast divine qi.

“Such powerful fluctuations?” Su Yu was slightly surprised.

The fluctuations caused by the two crowned emperors were almost the same, right?

Similar phenomena of heaven and earth were either caused by experts or the birth of a spiritual treasure.

“Is it an ancient beast or a spiritual treasure?” Su Yu thought and flew over.

He stood on a mountain peak and looked into the distance.

He saw a dark red pillar of light shoot up into the sky. A faintly discernible dragon-shaped ball of air roared and swam around the pillar of light.

The moment his gaze collided with the pillar of light, the blood in his body suddenly began to boil. It was an uncontrollable reversal.

“What’s going on?” Su Yu’s expression changed, and he hurriedly suppressed the reversal of his bloodline.

“It’s the weak dragon blood in my body!” His expression changed in shock.

What the dragon blood could sense was also something related to the dragon race.

“Why would there be something from the dragon race in Yu the Great Ruins?” Su Yu was secretly surprised.

The dark red pillar of light gradually shrank, and the sense from the dragon blood quickly faded.

With a flash of his eyes, a pair of Yin-yang wings appeared on his back, and he teleported nearby before the pillar of light completely disappeared.

However, the scene at the scene made him slightly surprised.

An ancient mountain was cut in the middle, revealing the details of the inside of the mountain.

A dark red lake came into view.

“This is...” Su Yu’s face was filled with ecstasy. “True Dragon’s blood!”

There was no mistake, it was diluted true dragon’s blood!

From the density of the dragon’s blood, it was probably not lower than that of a double-crowned emperor. Adding in the fact that it had been released for a long time, it was very likely that it was the divine blood left behind by a true dragon of a triple-crowned emperor!

What he lacked the most at this moment was true dragon’s blood.

If he could obtain it and further unleash the power of the Sovereign Dragon Supreme Sword, its power would definitely be earth-shattering!

However, although he was excited, he restrained himself.

The birth of dragon blood meant that there would definitely be powerful ancient beasts.

Furthermore, how this mountain peak was cut open was still a mystery.

Su Yu’s aura faded and he landed in a hidden spot, closely watching that area.

As expected, a moment later, a huge white-headed eagle flew over from the nine heavens.

Its terrifying aura had reached the level of a crown prince.

It circled around the area and stared at the huge dragon-blood lake with greed.

However, it suddenly stared at the lake with great vigilance.

After circling for half a cup of tea, the white-headed eagle lost its patience and dived down with a sharp whistle.

Its sharp claws carried the power of desolation as it dived into the blood-colored lake.

Roar --

An angry roar suddenly came from the pool of blood. A huge green python swept its snake tail at the moment the white-headed eagle grabbed at it.

The snake tail was thin and flat, like a sword.

This mountain peak was cut by the huge snake's tail.

Clang --

The huge claw and the snake tail separated when they touched.

Both of them were safe and sound.

The huge white-headed eagle turned around and used its huge mouth to bite it.

The green snake did not want to be outdone. It raised its huge head and spat out deadly venom.

The white-headed eagle opened its mouth and let out a sharp whistle. A huge whirlwind blew out and blew away all the venom that was sprayed out.

Seeing that the situation was not good, the green snake took the opportunity to drill into the blood-colored lake.

The white-headed eagle revealed a human-like sneer. It sped up its dive and grabbed the green snake that was hiding in the blood-colored lake.

This bite almost split the green snake in half.

The green snake on the huge bed shook its huge body and fled in a panic.

The white-headed eagle circled down like a victor. At the edge of the lake, it lowered its head and drank excitedly.

Su Yu's heart moved. He secretly took out the heavenly bow.

This white-headed eagle was exceptionally powerful and its flying speed was extremely fast. It could either kill it with one arrow or not provoke it.

But right at this moment.

The white-headed eagle seemed to have sensed something, and its eyes revealed deep fear. It flapped its wings in panic, as if it wanted to escape.

Just as it flew up a thousand Zhang, a solid chain suddenly shot out from the sky.

Chirp --

The white-headed eagle flapped its wings in fear to defend, and at the same time, it let out a sharp cry, setting off an intense storm.

However, the chain was as if nothing had happened. Not only did it pierce through the storm, but it also directly pierced through the white-headed eagle's indestructible huge mouth, piercing its entire body from head to tail.

Bang --

With a shocking sound, the emperor level white-headed eagle was destroyed in body and soul.

A ball of national luck that was half a meter in size was not picked up by anyone and rolled on the ground.

The double-crowned emperor made his move! Su Yu's pupils constricted!

Chapter 1822 Zi Wei's Remorse

How could there be a double-crowned king? was he the king of the ancient beasts in the inner circle?

However, in the next moment, an evil-looking young man in red clothes with scarlet eyes appeared in front of the dragon-blood Lake.

"A mere ant dares to Snatch My Things?"The red-clothed evil-looking young man rolled up his sleeves, and the entire lake of dragon blood was sucked into a blood gourd.

"Hehe, this is already the third gourd of dragon blood."The evil youth carried the gourd to his waist and stood side by side with the other two identical gourds.

After he finished speaking, he did not even glance at the national fortune on the ground and directly left.

Su Yu secretly watched with incomparable surprise.

The evil youth was one of the few people that Su Yu could not see through.

He was one of the fourth Prince's subordinates. He originally thought that it was just a little special, but who would have thought that he was actually a double-crowned emperor!

The strange thing was that he had no interest in collecting the fate of the nation, and he had also abandoned the fate of an emperor.

"Looks like he's using the name of helping the fourth prince to sneak in, and has other motives."

After waiting for a moment and making sure that there were no more ancient beasts lurking nearby, he flashed out, took out a small pocket, and put away the fate of the nation.

Looking at the Empty Dragon Blood Lake, he felt extremely regretful.

Then, without stopping, he chased after the heavily injured green snake, which was also an emperor level ancient beast.

The great green snake was good at burrowing into the ground. Ordinary people would lose it after chasing it for a while.

However, under the clairvoyance eye, the cave it left behind couldn't be any clearer.

Although the snake was injured, its movements were still agile. After chasing it for half a day, Su Yu finally caught up with it.

Pulling out the Sky Bow, he shot out an arrow to pierce through it, which was hidden deep underground.

After receiving another ball of emperor-level luck, his pocket finally bulged slightly.

“It’s still far from enough.” Su Yu looked around and realized that he had unknowingly entered the inner area while chasing after the great green snake.

According to the map, this was the territory of another emperor-level ancient beast, the Howling Moon Sky Wolf.

With a thought, he quietly sneaked into its nest and was surprised to find that it was empty.

“Has he left the nest?” Su Yu was puzzled.

In the next ten days, he rushed to the nests of the emperor-level ancient beasts, but all of them were empty.

Even the Rat King, who usually stayed in the nest and rarely left, was nowhere to be seen.

He searched over a dozen nests, but he did not find any emperor-level ancient beasts.

It was not surprising that he did not find one or two, but over a dozen of them, the emperor-level ancient beasts seemed to have vanished from the face of the Earth. One had to think.

“There’s a five-colored lizard nest ahead. If there aren’t any more...”

Suddenly, waves of shouts and shouts fell into one’s ears.

Looking through the eyes of heaven, one couldn’t help but reveal a strange expression.

In a certain damp cave, Empress Zi Wei, a charming woman, and a few of the first prince’s men were being surrounded and attacked by the second Prince’s men.

“How dare you kill the first Prince’s Men!” The charming woman shouted.

They had been ordered to investigate the situation of the five-colored lizard’s lair, but their search was fruitless. When they returned, they unexpectedly ran into the second Prince’s men.

Under the command of a hooded man dressed in a black robe, they immediately began to surround and kill them.

The charming woman and the others were outnumbered. They retreated step by step, and more than half of them suffered casualties.

As the charming woman shouted, a few more people were killed. The charming woman was even less likely to be hit by the black-robed man’s strange divine spell.

Her whole body immediately turned pitch-black, and then she was as motionless as a rock, watching the enemy slash at her.

Most of their men had died from this kind of unpredictable divine spell.

The charming woman closed her eyes in despair, waiting for death to come.

At this time, her back was grabbed by someone, and she was dragged back to avoid the attack.

“Retreat to the nest and wait for Rescue!”

The charming woman relaxed and grinned. “Sister Ziwei is still reliable. She can be relied on at critical moments.”

However, how could the second Prince’s men allow them to escape into the nest?

The black-robed man in the bamboo hat was covered in black gas. He shook off the ground and turned into ferocious black snakes that attacked them densely.

In an instant, five people were hit and turned into pitch-black rocks. They couldn’t move and were hacked to death.

In the blink of an eye, only Empress Ziwei and the charming woman were left.

At the critical moment, Empress Ziwei mobilized the remaining divine Qi in her body and gritted her teeth. “Meteorite Ice Calamity!”

A huge ice ball was placed in front of them, blocking the cave.

The small black snakes were frozen by the extreme ice as soon as they got close.

“Hehehe, is my dark demon energy that easy to block?”With a sneer, the small frozen snakes all self-destructed.

The huge shock wave completely shattered the ice ball.

Empress Zi Wei no longer had any energy to resist. Her eyes were filled with despair.

Unexpectedly, the other party did not kill her immediately. Instead, he said coldly, “Miss Zi Wei, hand over the thousand-year-old dragon beard grass.”

Empress Zi Wei, who was originally in despair, suddenly opened her eyes and said coldly, “Are you here for this thing? No, who leaked the secret?”

Five days ago, they discovered a thousand-year-old dragon beard grass when they were exploring the nest of an emperor-level ancient beast.

The dragon whisker grass was usually eaten by ancient beasts within 800 years, and the thousand-year-old dragon whisker grass was extremely rare.

If this item was given to bei Wangchen, it would definitely attract an ancient beast of the emperor level.

However, at that time, only a few people knew about the existence of this item. They had agreed not to publicize it.

How could it be known by the second Prince’s People? Even their specific coordinates were known by the other party, resulting in an ambush.

A bright light flashed in his eyes, and he suddenly grabbed the spatial storage device on his finger. His face was pale, and he said weakly, “The thousand-year-old dragon beard grass is inside. If you want it, let us go.”

The black-robed man with the bamboo hat said in a low voice, "Stop!"

Empress Zi Wei grabbed the last life-saving straw, supported the charming woman, and slowly stood up. "Give me the antidote and let us go. Otherwise, you won't be able to get the thousand-year-old dragon beard grass."

Since they had come for this item, they would definitely not sit back and watch the dragon beard grass be destroyed.

As expected, the black-robed man was cautious and waved his hand to stop his subordinates from advancing recklessly, he said sinisterly, "Accept your fate. At this point, you can't escape. Your only choice is to die a decent death. Compared to the thousand-year-old dragon beard grass, we don't want the first prince to know that we are killing his people."

Empress Ziwei's heart sank. The life-saving straw that she had just grabbed sank to the bottom of the water.

If that was the case, only death awaited them.

Slowly closing her eyes, Empress Ziwei stared at them with a cold smile. "Well, if bei Wangchen can't get it, then you ants can forget about getting it!"

The black-robed man sneered. "Ants? You think too highly of Bei Wangchen!"

Empress Ziwei's eyes were filled with worship. She shook her head, her eyes were filled with longing. "You won't understand. In front of him, every living thing is an ant. In heaven and earth, only bei Wangchen can be called a genius. The others, even the first prince, are dim in front of him."

"Hehe, then you can die with Bei Wangchen!"

Empress Ziwei smiled bitterly, her eyes filled with determination. "The dragon whisker grass is only prepared for bei Wangchen. You are not qualified to touch it!"

In an instant, she exerted force with her five fingers, wanting to crush the spatial storage device.

However, at this moment.

A black palm grabbed her right palm without any warning, stopping her from crushing the spatial storage device.

A familiar voice sounded in his ears, "Hehe, my dear sister, if you want to die for Bei Wangchen, I don't want to."

Empress Zi Wei trembled and turned around in shock. It was the charming woman she had saved.

She was the only friend of Empress Zi Wei who had followed Bei Wangchen.

The two of them had gone through life and death together. They had gone through training together and closed-door training together. They had gone through many years together.

She could not believe that the other party had betrayed her.

"It's You?" In an instant, all her doubts were solved.

It was true that there was only a traitor among them, but it was not anyone else. It was a partner that they had been with day and night.

“You Betrayed Me!” Empress Zi Wei could not contain her anger. Waves of coldness erupted all over her body.

The charming woman laughed charmingly. She used all her strength to break her finger that was wearing the storage ring. She easily took off the storage ring and threw it to the black-robed man.

Her other hand grabbed Empress Zi Wei’s throat and sneered contemptuously, “Hehehe, what right do you have to resent the betrayal of others?”

“Do you remember that I once asked you if you knew the sixth prince?”

Empress Zi Wei’s face stiffened.

“Your answer was, no... Haha, do you really think that I don’t know what the sixth Prince’s real name was when he was training in the Sea of constellations? It was Su Yu! He was the champion of the battle for the hidden dragon in Beiwang’s fief! “As for your relationship with him, I have long since investigated it thoroughly!”

“Both of you came from the Sea of constellations and were on a mission together. In the end, you saw Bei Wangchen’s unparalleled talent and chose to betray them. In fact, you even took the initiative to participate in the hunt for your former companions.”

“Do people like you have the right to be angry at the betrayal of others?”

Empress Ziwei felt as if she had fallen into an ice cellar. It was as if someone had mercilessly dug out her most unbearable side.

“You must be regretting it now, right? Your former companion from the countryside has suddenly become the sixth prince of the dynasty. His status is revered and he can call the wind and summon the rain. He’s much stronger than a traitor like you back then.”

“Stop talking!” Empress Ziwei closed her eyes in pain, as if a scar had been opened by a charming woman.

“I saw with my own eyes that the sixth prince didn’t stay on you for more than a breath. You are already a stranger in his heart...”

“I told you to stop talking! If you want to kill me, kill me!” Empress Zi Wei shouted.

She would rather die than be reminded of the hidden pain.

“Oh? From embarrassment to anger? Hehe, for a strong person like you who pursues perfection, the last thing you want to face is a stain in your life. Unfortunately, whether you admit it or not, you have been blind twice.”

“Once, I was wrong about him, and once, I was wrong about me.”

With a cold smile, the charming woman exerted strength with her five fingers. “Goodbye, my sister, Giggles...”

Intense pain came from her neck. She felt that her neck was going to break in the next moment.

However, at this moment, an earth-shattering roar pierced through the cave.

A muffled sound suddenly came from behind, and then, the hand holding her throat slowly loosened.

Looking back, the charming woman was pierced through the chest by a black arrow falling from the sky and nailed to the ground.

Chapter 1823 Frog At The Bottom Of A Well (1 Update)

that she was not dead yet. She struggled to pull out the black arrow.

However, the arrow was extremely heavy. With his cultivation as a peak overlord, he could not move it at all.

Outside the cave, the expression of the black-robed man changed drastically. he shouted, “Who is it? Sneaky and secretly hurting people. If you have the guts, come out!”

When were they ever open and aboveboard when they were ambushing people?

“Standing in front of you, you can’t see it, but you blame me for hurting people in the dark.”

The clear and bright sarcasm echoed in Qingming.

The black-robed man sneered in his heart. He was trying to provoke the other party and expose the other party’s position.

He was actually so easily fooled!

“Over there!” He grabbed with both hands, and two long pitch-black snakes as thick as arms shot into the air.

A few afterimages flashed, but the long black snakes had already shot towards the source of the sound.

“Heaven-cleaving sword!”

The response was an indifferent sneer.

A ten thousand feet long sword Qi soared into the sky and slashed down violently with a crushing force.

The two black snakes did not even have the time to react and were immediately annihilated.

The remaining sword Qi swept down ruthlessly with a force of ten thousand tons.

Ah --

In an instant, more than ten people were turned into dust under the sword.

One by one, the pockets that sealed the country's fate exploded, and hundreds of different sized country's fate balls flew out.

“Withdraw!” With a light shout, a slightly bulging pocket appeared and swallowed the dispersed country's fate in one breath.

The black-robed man was furious when he saw this. “Don't even think about it, thief!”

He pressed his palms together, and countless pitch-black shadows shot out from his body, forming a huge black ball that wrapped around the pocket and the surrounding area.

“Shrink!” He shouted coldly. The huge black ball suddenly shrank and petrified the hidden creatures within.

As expected, a figure appeared.

“HMPH, those who kill me, steal my things!” The black-robed man displayed the powerful aura of a half-step emperor.

However, as soon as he finished speaking, the black fog around the petrified figure suddenly dissipated.

A handsome youth that was unharmed appeared.

“So that's all.” Su Yu's eyes turned cold as he slashed down with the asura sword once again.

Boom --

The power of this full-powered sword attack was several times stronger than before.

Apart from the black-robed man who was barely able to wrap himself in the Black Mist, everyone else died on the spot.

Ah --

Having survived, he did not feel good. The remnant sword Qi had left two wounds on his chest.

The Majestic Sword Qi was still wreaking havoc in his body, madly destroying his life force.

An ordinary half-step emperor should have died long ago.

This black-robed man had some merits.

“It's you, Sixth Prince!” The black-robed man's pupils constricted.

The conflict between the second Prince and the sixth prince wasn't a secret. They had been warned by the second prince to be careful of the people of the sixth prince and Princess Ru Chen. How could they not recognize him.

Knowing how powerful the sixth prince was, the black-robed man shook his sleeves without hesitation and turned into a cloud that sped through the air.

In the blink of an eye, he had fled to the horizon.

At this moment, he dared to slow down slightly and shouted coldly, “Sixth prince, you have no idea who you are fighting against! I may not be your opponent, but someone will come to kill you!”

Su Yu stared at him indifferently. "If you run away now, I can't be bothered to chase you. If you insist on leaving me with a few harsh words, then there's no need to run away."

He didn't make any movements, only snapping his fingers with his right hand.

Suddenly, the black cloud that was so far away suddenly tore apart from the inside out.

The black-robed man let out a miserable cry, then turned into black fragments and fell to the ground.

Halfway through, a red light accurately swept his country's fate pocket and storage item back.

Spreading out his palm, two objects appeared in Su Yu's hands.

Opening up the country's fate, he saw that there were more than 70 countries' fate, and they were basically all at the Overlord level.

"Not bad." He casually placed the pocket on his waist.

Following that was the storage ring that he snatched from Empress Zi Wei.

Holding this item in his hand, Su Yu turned his head to look at Empress Zi Wei in the damp cave. Her entire body was muddy, and her hair was disheveled.

The other party also saw him, and her expression was extremely complicated.

"Sixth... Sixth Prince, why are you still helping her?" The charming woman struggled and said, "I'm helping you to kill the traitor and take revenge for you. She was so self-righteous back then. Could it be that the sixth prince has never hated her?"

Su Yu did not say a word. He waved his hand across the air and retrieved the black arrow.

"Thank you, sixth prince, for sparing my life." The charming woman was overjoyed, but she obediently knelt to the side, not daring to make any unnecessary movements and listening to his orders.

Whether she lived or died now depended entirely on Su Yu's thoughts.

A complicated look appeared in Empress Zi Wei's eyes. She cupped her hands together in a hoarse voice. "Thank you, sixth prince, for your help. Zi Wei... I can't thank you enough."

She had never imagined that they would meet again under such circumstances.

She had even more never imagined that Su Yu would save her.

Was he still thinking about their friendship in the Sea of constellations?

"There's no need to thank me." Su Yu looked at her as if she was a stranger. "I saved you once for the sake of the undying boy."

Back then, thanks to the Undying Boy, who had transformed into an emperor of the snow domain, Su Yu, the Zhuji Corpse King, and the others had been able to escape the imprisonment of the evil maiden palace.

Now that she had saved her disciple's life, it could be considered as repaying the favor.

The Undying Boy? The corpse king who was famous throughout the Sea of constellations? Empress Ziwei didn't understand. What did she have to do with the corpse king.

"You Die, and you live. To me, there's no difference at all." Su Yu turned around indifferently.

Empress Ziwei's eyes darkened. She was overthinking things.

Su Yu no longer had any feelings for her.

Watching Su Yu take away her storage ring, Empress Ziwei opened her mouth and said, "You can take the other things, but please leave the thousand-year-old dragon beard grass behind."

Su Yu paused and said lightly, "Why?"

Empress Zi Wei's gaze was persistent. "Because, I left it for Bei Wangchen, not for you."

Her heart was unprecedentedly firm. The more embarrassed she was in front of the companions she looked down on in the past, the more determined she was to be loyal to Bei Wangchen.

She might not be as good as Su Yu, but Bei Wangchen, whom she was loyal to, was definitely better than him.

This was the only way she could raise her head in front of Su Yu.

Su Yu turned around to look at her, his eyes filled with pity and contempt. "The ice rose who moved forward proudly, willingly degenerated into a spiritual slave of others for her glory. It's both sad and hateful."

His words hit the nail on the head, causing Empress Zi Wei's heart to ache.

In the past, she had looked down on the world and had the heart to strive forward. No one would submit to her martial arts.

But Now? It was the honor to be loyal to others.

She was like a slave.

"I'm not wrong!" These words came from Su Yu's mouth, which made Empress Zi Wei even more unconvinced. Her eyes were filled with a divine light that was close to worship, she shook her head and looked at Su Yu coldly. "You don't understand at all. The true meaning of genius is that in front of Bei Wangchen, you are nothing!"

The pity in Su Yu's eyes deepened. "A frog at the bottom of a well."

No one understood the so-called genius better than him.

The top people in a region could be called geniuses.

However, how big was the world?

What did the geniuses of the Divine Moon Island count for now? Even the ants at the bottom of the world didn't count.

Similarly, what did the geniuses of a three-star civilization count for in the nine-star civilization, the sacred land that ruled the absolute beginning realm?

Although he had never seen a genius of a nine-star civilization, he could imagine that bei Wangchen must be very mediocre there.

Only a pitiful and ignorant frog at the bottom of a well would look up to a peak character in such a small area, thinking that she had met the most powerful genius in the world.

"You are the frog at the bottom of a well! Before I saw bei Wangchen's monstrous talent, I didn't think much of it. But only after I saw it did I know how powerful he is, how extraordinary he is." She stubbornly refused to understand, instead, she looked down on Su Yu and sneered at him for not understanding the true meaning of genius.

Su Yu looked at her indifferently and suddenly smiled.

"Fine, I'll show you what a true genius is." Su Yu sucked in a breath of air and pulled Empress Zi Wei to his side.

"What do you want to do?" Empress Zi Wei's eyes were filled with arrogance, like a peacock that refused to yield.

"I'll show you the sky outside the well." Su Yu smiled lightly.

After he finished speaking, his eyes flickered with soul light, stopping the charming woman.

Her head hurt, and she immediately fainted.

Su Yu quickly flipped through the memories of her soul.

"Oh? There's a hidden ruin in the inner area, and all the ancient beasts are guarding around the ruin?" Su Yu's eyes flashed.

He was just casually searching for the second prince, but he didn't expect to receive an unexpected piece of news.

A few days ago, when the second Prince's men were exploring the nest of an ancient beast, they discovered a half-dried up lake, revealing a sunken ruin.

Many of the missing ancient beasts were resting nearby.

"It's been a few days, I'm afraid the news won't be able to hide for long." Su Yu immediately activated his taiji yin-yang wings, grabbing Empress Zi Wei and flying towards the revealed ruin.

If he could seize the opportunity and kill all the ancient beasts, the battle for the fate of the country would be as stable as Mount Tai.

An hour later, after eight consecutive long-distance teleportation, he finally arrived nearby.

What entered his eyes was a mountain and river filled with blood-red light.

Blood-red light shot out from the ends of the Earth and sky, dyeing the sky and the land red.

Traces of ominous aura slowly enveloped the surroundings.

There was also a wave-like power surging at the source of the blood-red light.

It was a group of Emperor rank ancient beasts, and they were currently fighting some creatures.

With a thought, Su Yu rushed over.

However, he discovered that there were three powerful emperor rank ancient beasts, each fighting against one person.

Su Yu was not unfamiliar with these three people.

“First Prince! Northern Wang Chen Nine phase! Bamboo Hat Man!”

What surprised Su Yu the most was that the bamboo hat man, who was somewhat familiar with them, actually had the battle strength to fight an Emperor Rank ancient beast alone.

However, the three of them were quickly pushed back.

Perhaps due to the influence of the blood light, the battle strength of the three emperor rank ancient beasts not only soared, but their defensive strength was also much higher.

The first Prince’s extremely powerful golden sword slashed onto the body of a corpse-eating giant earthworm, only leaving a white scar.

On the other hand, the corpse-eating giant earthworm had been killed with two strikes.

“Who is it?”The three people retreated and found Su Yu who had rushed over.

The first Prince’s face flashed with killing intent. “It’s You?”

Bei Wangchen nine-phase and the hooded man also looked over, their expressions still normal.

Su Yu didn’t look at them, but instead looked at the magnificent emperor-level ancient Beast Group.

The three layers of them protected the ruins that were above the water.

Within the ruins, an extremely evil aura was awakening.

What surprised Su Yu even more was that when he came to Da Yu’s ruins, he had always felt that it was familiar.

When he looked at the ruins, the sense of familiarity suddenly soared.

Chapter 1824 Overwhelming The Entire Scene (Second Watch)

That familiar aura originated from the evil aura in the ruins!

What was it? Su Yu couldn’t think of where it was familiar at the moment.

His eyes flashed as he focused his attention on the emperor rank ancient beast.

“13 emperor rank ancient beasts.” Su Yu’s eyes revealed traces of excitement, but then he frowned slightly. “Where is that Double Crown Emperor Rank Ancient Beast?”

That was the greatest threat, and also the greatest opportunity.

Its national fortune alone was probably more than all the emperor-level ancient beasts combined.

However, the difficulty of killing it, just from the methods they displayed, was hopeless. It was even difficult to escape.

“There!”

Surprisingly, although the first prince had a deep killing intent towards it, not only did he not attack it, he even gave it pointers.

Following his pointers, he saw an unremarkable crow the size of a palm lying on the eaves of the ruins.

It stared coldly at Su Yu. Its deathly silent eyes gave off an indescribable pressure.

“I don’t know why, but it won’t come out for the time being,” the first prince said slowly. He stared deeply at Su Yu. “You also want to join us and hunt emperor level ancient beasts?”

Su Yu sneered. “Do you have any ideas?”

“That’s right. I have a four symbols formation that can fuse the combined attacks of four people into one.” The first prince temporarily put down his killing intent towards Su Yu, he actually turned to cooperate. “The emperor-grade ancient beasts here, under the influence of the ruins, have increased their strength by more than 30% and are about to approach the double-crowned emperors. It’s as difficult as ascending to the heavens for a single-crowned emperor to kill them. Only the combined efforts of four emperors can kill them.”

“Oh? You want to invite me?”

The first prince nodded and shook his head slightly. “It is not something that you can join the four symbols formation just because you want to.”

Su Yu only smiled.

“If you want to join us, you first have to prove that you have combat strength comparable to an emperor-level ancient beast.” The first prince glared at Su Yu. “In half a month, how many emperor-level ancient beasts have you killed? The corpse-eating giant earthworm that you snatched does not count!”

“Zero.” Strictly speaking, Su Yu hadn’t killed the white-headed eagle and the great green snake by himself.

Although he had the ability to kill them in one strike.

“Then I’m very sorry.”The first Prince’s eyes revealed a look of contempt.

Ao Xiang was even more blunt and disdainful. “It seems that your strength is limited to half-step emperors. The first prince, US nine prime ministers, and him all killed one each. With your level of strength, you’re not qualified to fight with us.”

Empress Zi Wei sneered and snorted.

It sounded so nice, but in the end, they were not even qualified to join hands with them.

Su Yu did not say anything.

“Hehe, if you want to send someone, why don’t I join you?”A young man covered in blood mist who could not be seen through suddenly jumped out from somewhere.

This person’s aura was particularly strange, giving people a terrifying feeling like an ancient beast.

Once he appeared, he gave everyone present quite a bit of pressure.

“You’re Third Imperial Brother’s Man?”The first prince frowned slightly.

Su Yu also looked over, revealing a thoughtful expression.

Among the third Prince’s men, the only person he couldn’t see through was the blood mist youth. He had the dangerous feeling of a savage beast.

“Oh? How many emperor level ancient beasts have you hunted?”

The blood mist youth said darkly, “Don’t worry, I guarantee that you’ll be satisfied.”

He patted the pocket on his waist, and two balls of nation’s fate quickly flew out.

“Two!”The first prince, Bei Wangchen nine phases, and the bamboo hat man were all shocked.

Most of the emperor rank ancient beasts in the ruins were gathered near this ruin, and there were very few ancient beasts scattered around.

It was not easy to even meet one.

He had killed two, which could only mean one thing. The ancient beasts he had discovered had not been able to escape his palm.

The strength of this person was terrifying.

“How is it?”The blood mist youth’s voice was strange.

The first prince nodded his head. “It’s possible.”

After saying this, he took out an ancient scroll and turned it into a hundred feet wide in the wind.

There were four places on it where one could stand.

Many strange symbols were drawn in the middle, allowing the attacks of the four of them to fuse together.

“The method of use is as follows...”the four of them gathered near the four symbols array and conversed in low voices.

On the other hand, Su Yu was ignored by them.

Two hours later, after the four of them tried, they had a tacit understanding with each other. They adjusted their state and prepared to attack.

“Get Ready!”The first prince jumped onto the ancient scroll first, and the other three followed suit.

Ao Xiang glanced at Su Yu, he sneered. “What are you still standing here for? Are you planning to take advantage of me again? Hehe, I advise you to leave as soon as possible. The battle between the emperors of Heaven and earth will affect the surroundings if you are not careful. Don’t lose your life at that time.”

The first prince also frowned slightly, his eyes revealed a look of disgust, “Sixth royal brother, if you still have the self-awareness as a prince, please don’t do anything that is beneath your dignity. If you want to seize the position of the crown prince, then do it in an upright manner and use less underhanded methods!”

The man in the bamboo hat did not say a word as he looked at Su Yu lightly.

On the other hand, the youth in the blood mist was staring deeply at Su Yu.

His invisible eyes were actually filled with an inexplicable killing intent.

That killing intent was actually much deeper than the first prince’s.

It was as if there was an irreconcilable hatred between him and Su Yu.

In the face of their cold words, Su Yu’s expression was indifferent as he stood on the spot and watched the changes quietly.

In their eyes, it was Su Yu who was still unwilling to leave with the mentality of taking advantage of the situation.

Empress Zi Wei was even more disdainful. He had already said this much, yet he still refused to leave!

Deep disdain surged in his eyes.

“Attack!”The first prince took one last deep look at Su Yu and urged the ancient scroll to fly into the group of beasts.

Instantly, a strengthened emperor level ancient beast pounced over and took a deep breath, wanting to swallow the four of them.

“Emperor conquering the world!”The first prince took the lead and attacked, unleashing an unparalleled sword light.

Bei Wangchen nine phases brandished nine fist techniques that were close to the emperor.

The hooded figure appeared somewhat ordinary. He clapped his palms forward, and a seemingly ordinary palm print flew out.

The blood mist youth's attack instead had a shocking momentum. With a world-shaking roar, one could faintly see an extremely fierce beast soul flying out.

The four attacked at the same time. The ancient formation runes shook violently, twisting and fusing the four attacks together. With a bang, they shot out.

AO --

The corpse of the corpse-eating giant earthworm fell to the ground with a bang. It was killed in one strike.

The first Prince's heart moved, and he immediately grabbed the nation's fate.

The blood-mist youth did not have any intention of snatching it. He laughed strangely and said, "The nation's fate is yours, but the corpse belongs to me."

The first prince was surprised. The most important thing in the Yu dynasty's ruins was the national fortune. He was willing to give up the national fortune to obtain the Emperor's corpse?

However, it was undoubtedly the best for him. He immediately agreed, "Alright!"

At this moment, a black snake with sharp horns on its head appeared with a hissing sound.

The four of them worked together and once again killed with a single strike.

The national fortune that they killed was still obtained by the first prince.

After killing two in a row, the first prince couldn't help but laugh out loud. He turned his head and glanced at Su Yu with a look of disdain. "It's a pity that I didn't give you the chance to take advantage of me."

However, he saw that Su Yu had already pulled up the huge bow, and a jet-black arrow suddenly shot out like a pipe.

Chirp --

Before he could react, he heard a mournful scream coming from within the Emperor Rank Ancient Beast.

A ferocious black tortoise was pierced from its back to its stomach, and its soul was instantly destroyed.

The first prince was shocked and stared in disbelief at the huge black bow in front of Su Yu. "How is this bow so powerful! ?"

He had thought that it was just an extremely good huge bow, but who knew that its power was far beyond imagination.

What was that Black Tortoise? It was famous for its defense.

If the four symbols formation wanted to kill it, they would have to choose a weak head.

However, this bow had directly pierced through its hard shell. One could see how terrifying its power was.

Bei Wangchen nine phases, the blood mist youth, and even the bamboo hat man all looked at Su Yu in shock.

The four of them had to work together to kill a strengthened Emperor rank ancient beast, but Su Yu was able to kill it alone. Didn't that mean that he alone was comparable to the four of them?

Empress Zi Wei's expression was extremely stiff, and there was still a deep contempt in her eyes.

However, at this moment, she was like a petrified rock.

On the other hand, Su Yu casually waved his hand, and the nation's fate and arrows flew back into his hands.

Then, with a calm expression, he drew the huge bow once again.

Xiu --

The bowstring trembled violently, and a jet-black stream of light suddenly shot out.

Immediately, there was another mournful cry.

Another Emperor Rank Ancient Beast's life was easily taken away!

Everyone was shocked.

The first Prince's mind changed drastically as he shouted, "Quick! Hurry Up!"

The ancient formation spun rapidly as the four of them attacked consecutively.

However, every time they attacked, they used their strongest divine arts, which consumed a lot of energy. In addition, they had to maintain the four symbols formation.

After three consecutive attacks, they had no choice but to stop to replenish their divine power and primeval energy.

What made their expressions ugly was that Su Yu's face was relaxed. He did not need to use divine arts at all. As long as he stood there and pulled his giant bow, he could kill one effortlessly.

While they were resting, he killed two more.

There were thirteen emperor level ancient beasts just now, but in the blink of an eye, there were only six left!

Su Yu single-handedly killed four, and he did not have the slightest intention of stopping.

"Continue, don't Stop!"The first Prince felt a sense of danger, and he forced himself to focus on operating the ancient formation.

The insufferably powerful emperor-level ancient beasts could only be crushed in front of the ancient formation and the giant bow.

Xiu Xiu Xiu --

Half a cup of tea later, the remaining six ancient beasts were all killed, and both sides obtained three more each.

Overall, Su Yu obtained seven, while they only had six.

Other than the luck of the nation, Su Yu did not let go of the emperor level Ancient Beasts' corpses, and kept them all.

Don't look at the ruins as if they were worthless. They could be seen everywhere, but they were very rare in the outside world.

In addition to the cultivation of the ruins, many of them were rare species that were rarely seen in the outside world.

On the ancient array, the first prince's face was as gloomy as water.

He simply could not believe that Su Yu alone could suppress the four of them by a level.

What was that giant bow? Why was it so terrifying?

Not to mention them, even Su Yu himself was very surprised.

Previously, he estimated that killing an emperor rank ancient beast would be quite difficult for him. He could only kill one or two with his own strength.

However, the power of this bow was beyond compare and could be said to be terrifying.

In front of this bow, a crowned king was like a piece of paper. Even if it had been enhanced, an emperor rank ancient beast with a greatly increased defense would still be unable to withstand a single blow.

Of course, this was also the result of the ancient Beast's low intelligence and only instinctive battle consciousness.

If it was like the emperors of Heaven and earth in the outside world, not only did they have rich and powerful battle experience, but they also had the emperor's most powerful law chains. It would be very difficult to kill them with a single arrow.

Empress Ziwei, who had witnessed the entire process, was already so shocked that she couldn't speak.

Chapter 1825 Nine In One -

but her eyes were still filled with determination. She had seen Bei Wangchen's true strength.

The nine forms in front of him was not all of Bei Wangchen. To be precise, it was not even one-tenth of his strength.

The first prince was lagging behind by an entire emperor level national fortune, and his heart could not help but tighten slightly.

He no longer believed that Su Yu had said that he hadn't killed a single emperor-ranked ancient beast all the way here. With that terrifying giant bow, what ancient beast wouldn't die if it encountered it?

In other words, other than the seven emperor-ranked ancient beasts and the corpse-eating giant earthworm in Su Yu's hands, it was completely unknown whether there was anything else.

He had to pull apart the decisive gap. Otherwise, there was really a possibility of losing the position of crown prince, which was just a short distance away.

“That evil Crow, Kill!” The first prince aimed his gaze at the only ancient beast with two crowns.

If he could obtain his nation’s fortune, Su Yu wouldn’t even have the chance to turn the situation around after killing all the ancient beasts in the ruins.

The ancient formation spun and unleashed a terrifying attack that could annihilate an emperor.

In the face of the majestic fusion attack, the evil crow was so small that it was negligible. It was as if it would be drowned in the next moment.

However, until the attack reached a range of a thousand feet in front of it, its deathly silent eyes did not even have the slightest fluctuation.

Just by flapping its right wing, a pitch-black gale swept out and actually swept back their fusion attack.

Boom --

Caught off guard, the ancient formation was violently attacked and collapsed on the spot.

The four people on top flew back in panic, avoiding the dangerous pitch-black gale.

A single strike had broken the joint attack of the four people!

The first Prince’s eyes revealed a look of shock.

Su Yu, on the other hand, had a shimmering light. As expected of a double-crowned emperor. Even if he was not as powerful as the double-crowned Emperor of Heaven and earth in the outside world, it was still not something they could shake.

At least from the strength they had displayed, it was exceptionally difficult.

The first prince gripped his golden sword tightly, his heart filled with hatred. Could it be that this was the end?

The blood mist youth chuckled. “As expected of a double crown emperor rank ancient beast. Its strength is ridiculously strong. Fortunately, it guards the ruins and disdains chasing after us. Otherwise, it would be very difficult for us to escape.”

The hooded man did not say anything and faintly nodded.

With the strength they had displayed, wanting to shake the double crown emperor was like an ant trying to shake a tree.

The five people present could be said to be the strongest five people participating in the ruins.

If they were helpless, there was basically no possibility of killing the evil crow.

However, the first prince did not give up. He looked at the youth in the blood fog with deep fear and turned his gaze to the nine prime ministers. He gritted his teeth and said, “Brother Chen, this is the only way!”

The nine prime ministers looked at the first prince together and said in a low voice, “Can you control the situation from now on?”

The first prince nodded. "After we take down this evil crow, the overall situation is set. I still have your brother Zhan and 200 elites. It's no problem for us to stabilize the situation."

He said confidently.

After pondering for a moment, the nine prime ministers nodded slowly. "Alright, I'll go all out once and take down the evil Crow for you, but the rest will depend on you."

The first prince bowed. "Thank you for your trouble, brother Chen. If the matter is successful, I'll definitely make brother Chen the guardian god of the country!"

"Hehe, since I've already chosen you, I'll go all out," the nine prime ministers said indifferently.

They glanced sideways at Su Yu, not concealing the slightest bit of killing intent, under the nine gazes, they shot over. "Actually, if we kill the sixth prince, we'll still be certain of victory. Unfortunately, the dynasty's rules are strict, and we're not allowed to make a move against the prince."

The greatest threat in the entire remains was the sixth prince.

If they killed him, no one would be able to threaten the first prince.

Moreover, if he obtained the fate of the sixth prince, who else would be able to contend against him?

Unfortunately, the rules were like this. If he dared to kill the sixth prince at this moment, he would return to the outside world. The gray-robed emperor, the monarch, and the entire dynasty would not let him off.

Regret was written all over his face.

The first prince snorted and said, "If we capture the evil crow, his good days will come to an end."

"Then we can only use a slightly more troublesome method," the nine prime ministers said indifferently.

The nine prime ministers took a deep breath at the same time and formed a strange seal with their hands.

It was mysterious and difficult, and seemed very profound.

Powerful auras circled around the nine prime ministers.

Their figures gradually became blurry and transparent.

Before long, the nine prime ministers had all disappeared, leaving only that gradually fusing aura and that distant chanting sound.

What was this? Su Yu's brows jumped for no reason.

Empress Zi Wei was so excited that her entire body trembled. Her eyes were filled with worship, and she couldn't help but say, "They've appeared! Bei Wangchen's true body is about to descend!"

True body..

She had long heard that bei Wangchen cultivated a heaven and earth mystical technique, the nine phases divine technique.

He cultivated his avatars of greed, anger, anger, and other personalities into avatars and cultivated them independently.

Once the avatars reached their limits and fused into one, they would erupt with terrifying strength.

This cultivation method had basically been lost, and no one knew how to cultivate it.

This was because if even one clone couldn't cultivate to perfection, it would affect the entire cultivation process, and there was no way out.

But bei Wangchen not only dared, he even succeeded!

All nine phases had been cultivated to the peak of half-step Emperor Realm!

The reason why he hadn't fused all nine phases into one was to visit the ruins of Yu the great and help the first prince seize the position of crown prince.

This was because the restrictions of the ruins of Yu the great were that only those below the emperor level were allowed to enter, with the exception of the first prince!

He was the first Prince's true trump card.

He alone was equivalent to a thousand people!

"Nine phases into one!"The indistinct chanting came to an abrupt stop, and was replaced by a thunderous and majestic heavenly voice.

The entire ruins began to tremble, as if there was some powerful existence that could not be accommodated, forcefully squeezing into this world of ruins.

Somewhere, an evil red-robed man was sitting on a mountain peak, gulping down the dragon's blood in his gourd.

Suddenly, he looked into the depths of the ruins, grinning evilly. "Hehehe, interesting. Other than me, there's also a double-crowned emperor hiding!"

Everywhere in the ruins, the people chasing after the ancient beast were attracted by the abnormal trembling.

Princess Ru Chen was killing an ancient beast with one sword strike. She looked into the distance and said, "What a powerful phenomenon. It affects the entire space of the ruins!"

She hesitated for a moment and gritted her teeth. "He is preparing a kingdom for me. How can I be timid? Let's go and check it out."

Everywhere.

The second prince, the third prince, the fourth prince, and the fifth prince all sensed the strange phenomenon coming from the depths of the ruins.

After thinking for a while, they all decided to come over and investigate.

At the ruins of the Lake Palace.

"Nine in one"sounded like rolling thunder, ringing in everyone's ears.

At the peak of the sky, a huge whirlpool was revolving, and the entire aura of the ruins was stirred as it crazily gathered toward this place.

In the blink of an eye, the aura of a half-step emperor surged.

In the blink of an eye, an Emperor's aura was released.

However, that Aura didn't stop rising, or it could be said that it was just the beginning.

Early-stage one-crowned emperor!

Middle-stage one-crowned emperor!

Late-stage one-crowned emperor!

Peak-stage one-crowned emperor!

That Aura continued to rise. It reached the peak-stage one-crowned emperor in one breath, surpassing the first prince!

And it didn't Stop!

Until an oppressive aura descended upon the world.

The aura of a double-crowned emperor! !

Even the pair of dead eyes of the evil crows finally began to fluctuate. The retracted wings quickly spread out, and their mouths let out strange and cryptic screeches, as if they were facing a great enemy.

The hooded man and the youth in the blood mist gazed at the sky. The form that was gradually condensing in the vortex had a strange look in its eyes.

The first Prince's eyes were filled with complicated emotions. He was jealous, envious, and even more ashamed of his inferiority.

People often ranked him and Bei Wangchen as the strongest geniuses in the current generation of the great Yu Emperor Dynasty.

However, very few people knew that compared to Bei Wangchen, as the Emperor of Heaven and earth, he was not qualified to be compared to Bei Wangchen.

They were geniuses from two worlds.

One was the world on Earth, and the other was the world in the sky.

"This is bei Wangchen's true strength. In front of him, the so-called genius is just a joke." Empress Ziwei looked at Su Yu with pity. "That's why I said that you are a frog at the bottom of a well. You know nothing about the word genius."

Su Yu was surprised.

No Wonder bei Wangchen shook a civilization and resounded through the time and space.

It was not an exaggeration to say that he had reached the double-crowned king before he was even thirty.

When the cyclone stopped, his aura finally stopped at the early stage of the double-crowned king.

A refined young man wearing a moon-white robe with nine blood-red marks on his forehead floated down.

Every step and every expression was full of meaning.

He stared at the evil Crow and took a step forward with his hands behind his back.

The Evil Crow soared into the sky and flapped its wings. Two violent tornadoes swept over.

Bei Wangchen did not even look and said indifferently, "Accept your fate."

No matter how the tornadoes hit him, they could not move him in the slightest. Instead, with a casual wave of his hand, not only did he disperse the black tornadoes, but he also sent the evil crow flying, causing its pitch-black feathers to fall from the sky.

The Evil Crow's eyes revealed a look of fear. Although they were both crowned kings, their strength was not on the same level.

Caw Caw --

The Evil Crow let out a shrill cry that caused a splitting headache.

The people below all used their divine power to protect their bodies and quickly moved away. That shrill cry went straight into the depths of their souls and had a destructive power that could destroy their souls as easily as breaking a dead branch.

Other than the first prince, the only one who could remain calm was Su Yu.

If this was the case below, one could imagine how powerful the soul attack that bei Wangchen was facing was.

But he still didn't move, his expression didn't change at all.

"I said, accept your fate." Bei Wangchen ignored the soul attack and slapped out.

Chi La La --

Nine chains came together and wrapped around the evil crow.

"Hiss! Nine Law Chains! !" The second prince who was nearby just happened to rush over. Seeing this scene, he sucked in a breath of cold air.

Nine Law Chains!

An emperor with one law chain was already in an undefeatable position.

With nine law chains, who in the same level would be able to defeat him?

As expected, Xie Ya was instantly bombarded by the nine law chains until his entire body became dull, and he instantly lost 70-80% of his life force.

With a casual strike, Xie Ya was beaten half to death!

Even if that gray-robed emperor fought with Bei Wangchen, he would probably lose more than he lost!

He was ridiculously strong!

“Final strike!” Bei Wangchen slapped Xie Ya indifferently.

At this moment, Xie Ya’s face was filled with despair, and there was no way for him to survive.

Empress Zi Wei was so excited that tears were streaming down her face. “Lord Chen, Zi Wei will always follow you, never leaving you!”

She turned to look at Su Yu, wanting to know his current expression.

But what surprised him was that there was only an afterimage on the spot.

Chi --

At the same time, a sudden change occurred in the sky above the battle!

A sharp sound, like something sharp cutting paper, resounded in the sky without any warning.

Bei Wangchen, who had an indifferent expression, suddenly had a drastic change in expression. He retracted his palm and retreated quickly.

His eyes were wide open as he stared at the law chain that had been cut off. He cried out in shock, “Law has been injured? Who!”

Yin and yang gathered and a familiar figure appeared between him and the evil crow.

Chapter 1826 Unknown

Su Yu!

Bei Wangchen glared coldly at Su Yu and continued to look around, shouting, “Who attacked! Sneaky, don’t hide anymore!”

He simply did not believe that the one who attacked would be Su Yu.

Damage to laws was something that could only happen in a battle of laws between emperors. Other than that, only those dao artifacts that only existed in legends could easily injure them.

He did not believe that a small overlord could control dao artifacts that were comparable to legends.

The only explanation was that there were powerful experts hidden nearby that he had not noticed.

The first prince, the blood mist youth, and the bamboo hat man had different expressions.

There was also the first prince who did not believe in Su Yu.

No one understood better than him that the firmness of laws, divine arts, and Magic Treasures could not harm laws.

That was because they originated from heaven and earth. It was a kind of dao, between the real and the virtual.

Who Could Harm the Dao of Heaven and earth?

Other than the chains of laws that originated from Dao, only dao masters could use dao to Condense Dao artifacts.

He had a bad premonition. In this competition for the fate of the nation, could it be that there was a hidden powerful expert.

The other party could also be like bei Wangchen, avoiding the detection of the ruins and sneaking in quietly.

The blood mist around the young man's body surged, occasionally revealing a pair of dark yellow eyes that shot up to the sky. He stared at Su Yu's figure and grinned, "Is it really you? I don't believe that after so many years, you will be stronger than me!"

The hooded figure couldn't help but clench his fists and lightly laugh. His laughter contained nostalgia and fighting spirit, he even sighed, "I thought that I had already left you far behind, and that I would be a world away from you. I didn't expect that Su Yu is still Su Yu. Even an evil daughter wouldn't be able to destroy you!"

"You and I, we can't avoid a battle in the end?"

From the nine regions, to the myriad of galaxies, and then to the ancient god domain.

They had always been the top geniuses of their respective regions, and could be called kings.

The strange thing was, perhaps it was fate, but they had never fought before.

Finally, staring at Su Yu, the hooded man sighed, "Su Yu, let me see just how strong you are right now!"

A gust of wind blew in the sky. A bird and two people stood in the sky.

Bei Wangchen did not care about Su Yu at all. Even if he was right in front of him, he did not care about him at all.

Su Yu appeared and heard him looking around. He only smiled faintly.

He turned his head and stared at the evil crow. Without saying a word, he waved his wrist and a chain of bracelets shook. Threads that could not be seen by the naked eye shot out from it.

As a double crown prince, the evil crow naturally noticed the existence of the threads.

Fear overflowed in his eyes. He spread his wings and fled. He did not even have the intention to fight back.

Su Yu's expression was calm. He clenched his five fingers and the flying silk changed in an instant. They interweaved into a huge net and enveloped the evil crow.

Chi --

The Evil Crow was greatly shocked. He flapped his wings in fear and released an extremely powerful black hurricane.

However, under the huge net, it was all cut into pieces.

The Evil Crow's body was cut into six pieces.

This scene shocked the first prince greatly.

The sudden change also caused the blood mist youth's expression to change drastically. He shouted in a low voice, "Impossible! How could he become so strong!"

His expression suddenly changed. The blood mist on the surface of his body became denser, covering his face even more.

The Wild and Savage Qi released by his body was completely restrained like a tide.

His arrogance was completely restrained, for fear of being noticed by Su Yu.

The hooded man laughed, and his battle intent burst out, "My opponent is indeed only you!"

Bei Wangchen, who was looking for enemies everywhere, his pupils violently constricted.

One move destroyed the body of the double-crowned emperor!

"It's You!" Bei Wangchen's heart surged with a monstrous wave.

The one who had injured his law chains was actually the insignificant brat before him!

Su Yu didn't pay any attention to him. He stood in a line across the air and took the opportunity to smash the broken body of the evil crow into pieces to prevent future trouble.

"You don't have the right to touch my things!" Bei Wangchen seemed to be facing a great enemy. With a loud roar, nine law chains swept over.

Su Yu frowned. He had no choice but to pull back the silk and turn it into a huge net to block it.

However, the huge net sank, and the nine law chains were unable to penetrate the laws in the slightest.

Following that, Su Yu twisted his wrist, and the huge net twisted and turned, breaking the nine law chains.

Kacha --

For some reason, one of the chains was exceptionally weak and was immediately cut off.

The damage to the laws affected his main body. Bei Wangchen roared in pain, "My prideful chains!"

He hurriedly retracted the nine chains, his eyes filled with hatred and resentment. "If I had known this would happen, I would have spared no expense to come out of seclusion and personally head to the Sea of constellations to kill you."

Among the nine prime ministers, only ao Xiang wasn't perfect.

The reason was that he had lost to Su Yu twice, which had become a flaw in ao Xiang.

The laws he condensed were also much weaker because of this.

This was also the reason why they were easily broken.

"Don't flatter yourself! You made it sound like you were at the peak of the nine phases! You should be glad that you didn't come at that time. Otherwise, if one of the nine phases came, I would kill one. If nine of them came, I would kill nine!"

At that time, bei Wangchen's nine phases hadn't reached the peak of the nine phases and couldn't be combined into one.

To Su Yu, it was only a matter of time before the nine half-step emperor realm was exterminated.

However, from bei Wangchen's tone, it was as if he had been careless and allowed Su Yu to escape.

"Then I'll let you experience the strength of a double-crowned Emperor!" Bei Wangchen formed a seal and used a powerful divine art.

At this moment, the six bodies of the evil crow that had been cut into pieces merged back into one.

A shocking black wind surrounded him, causing him to turn into a streak of light and continue flying.

As expected, it wasn't so easy to kill a double-crowned emperor.

Even if his body was destroyed, he would be able to recover in an instant.

"Not good! The Evil Crow is escaping!" The first Prince's expression changed drastically as he warned Bei Wangchen.

However, bei Wangchen turned a deaf ear and only had Su Yu in his eyes.

For someone like him who had a heart as high as the sky, he either looked down on everyone or only had one person in his eyes.

Su Yu didn't even think about it as he turned around and grabbed. The huge net formed from silk once again enveloped the evil crow.

However, at this moment, bei Wangchen suddenly attacked. "Vajra nine fury palm!"

He no longer used the chains of laws. Instead, he used a divine technique to suppress the evil crow.

Vajra palm was a divine technique combined with the nine phases divine technique.

It was extremely powerful!

When cultivated to the extreme, the power of a half-step emperor's attack was comparable to that of an emperor.

When used by a double-crowned emperor, the power was even more earth-shattering!

When the palm struck out, the sky and earth dimmed a little.

The entire world seemed to have caved in.

A sense of trepidation appeared in everyone's hearts, forcing them to speed up their retreat from the battlefield.

If a single-crowned emperor was in front of this palm, he probably wouldn't even need to use his palm to slam it down. Just the wind from his palm alone would be enough to kill him.

The first prince's gaze trembled, and he fiercely swallowed a mouthful of saliva. "That is bei Wangchen's true strength!"

Empress Zi Wei's eyes were filled with worship as the determination in her eyes deepened, "The person I follow will definitely be the number one in the world. No one can compare to him!"

With a single palm strike, who would be able to contend against him?

That tiny overlord figure was like an ant in the world. In front of such a trembling power, there was only the path of destruction and destruction.

However, from the beginning to the end, Su Yu's expression remained calm.

It was so calm that it was almost scornful.

He calmly stared at the incoming palm print. The moment it descended on his body, he finally raised a finger and pointed at the extremely powerful palm print from afar.

A trace of strange power appeared on his fingertip and condensed into an inconspicuous small blade.

With a flick of his fingertip, the small blade flew out.

Compared to the majestic palm print, the small blade was negligible.

A look of contempt appeared in Bei Wangchen's eyes. "An ant trying to shake a tree, overestimating your own strength!"

He pushed his palm forward, and the heaven-destroying palm print sped up as it slammed down.

However, an unbelievable scene appeared.

Little Blade made a slight turn, and all the palm prints that were attacking were swallowed by the sharp blade. Not even a trace of palm force was left.

There was not a trace of the earth-shaking palm print left, and only the inconspicuous little blade that was quietly circling was left.

The first prince and Empress Zi Wei were stunned, not understanding what had happened.

Only Bei Wangchen, who was close by, had a slightly stiff expression just now.

Staring at that little blade, his eyes revealed a trace of vigilance as he said in a focused voice, "Spatial divine art!"

To be more precise, it was the spatial blade!

It was Su Yu's latest understanding of space. He used the unique devouring effect of space to devour everything, be it humans or divine arts.

It was somewhat similar to the devouring power of the eye of Taotie.

The difference was that after being devoured by the eye of Taotie, he could still barely live in the stomach of Taotie.

After being devoured by the spatial blade, he would be sucked into the world of nothingness and be destroyed.

Bei Wangchen's expression finally changed, and an unknown threat arose in his heart.

He had never thought that there was anyone stronger than him in the Great Yu imperial court.

However, the young man before her gave her a threat she had never seen before. "A mere overlord ant can block a single strike from me. It's enough for you to be proud of yourself, but that's all! What you see is just the tip of the iceberg for a double-crowned Emperor!"

The aura around him suddenly revolved. He took a deep breath and shouted in a low voice, “Vajra’s wrath palm, Vajra’s pride palm, Vajra’s sorrow palm...”

Vajra’s nine phases palm was a set of nine phases divine arts.

One phase cultivated one palm.

Ao xiang cultivated Vajra’s pride palm, and slave Xiang cultivated Vajra’s wrath palm..

It was just one of the palms.

“Nine! Palm! Return! One!”

Nine palm prints flew out together, forming a nine-petaled lotus. It contained the ultimate power of the nine personalities of Bei Wangchen.

The fusion of nine ultimate powers was comparable to a mid-stage double-crowned emperor.

Even if the gray-robed emperor was present, he would not dare to easily resist!

“I didn’t expect that the number one person that I, bei Wangchen, have defeated was actually just a mere overlord. It’s truly a disgrace to the nine-phase divine art.” Bei Wangchen slowly closed his eyes, his eyes were filled with regret. “Su Yu, you are enough to laugh at the world.”

The nine petals pressed down from the sky, making it impossible for Su Yu to escape.

The first prince shook his head and said indifferently, “Although sixth prince is strong, how can he be compared to Bei Wangchen? Bei Wangchen is a god, an unsurpassable god.”

Zi Wei’s eyes were filled with pity. “What a pity, you are the frog at the bottom of the well.”

In their eyes, the outcome was no longer in doubt.

Nine times more power than before was not something that a mere spatial blade could swallow.

Su Yu, who was in a desperate situation, did not panic as everyone expected.

Instead, he remained as calm and indifferent as before. “You know nothing about the power of space.”

Chapter 1827 The Power Of Laws

He pointed at bei Wangchen from afar.

A strand of spatial light condensed in his palm and flew out.

Bei Wangchen said contemptuously, “I said, a mere spatial blade can’t do anything to me...”

His words stopped abruptly and he couldn’t continue.

Because Su Yu’s body sprouted like bamboo shoots after rain, shooting out spatial blades one after another.

There were more than a hundred of them!

Chi --

The sharp blades flew at the same time, like a peerless ferocious creature waking up in the universe, crazily devouring everything it encountered.

Not a single strand of the nine-petal palm print was left. It was directly devoured by the overwhelming sharp blades.

“No!” Bei Wangchen let out a desperate roar.

However, the sharp spatial blades mercilessly slashed across his body.

Pu --

Only a cloud of blood mist was left floating around his body.

The number one prodigy of the Great Yu imperial court was killed in the blink of an eye.

However, at this moment, an astonishing life force burst out from the cloud of Blood Mist, and a figure flew out from it.

It was Bei Wangchen!

However, compared to just now, his aura had obviously dropped by one-ninth!

Everyone let out a long sigh of relief. The double-crowned Emperor wouldn't die so easily!

Zi Wei's eyes regained their spirit and she said excitedly, “He won't be defeated so easily. No one in the world can compare to him. He will fight again...”

Who knew that after appearing, Bei Wangchen turned into a sharp arrow and shot toward the top of the ruins.

With a casual grab, he crushed the clouds in the sky, revealing the nature of the sky above the ruins... a restriction!

Without the slightest hesitation, Bei Wangchen slapped the restriction.

The restriction was triggered, and he sensed the existence of a double-crowned emperor that exceeded the rules.

A fluorescent light descended, enveloping Bei Wangchen and quickly sending him out.

He was... running away!

Su Yu looked at him indifferently, his eyes filled with disdain. “The number one heaven's favorite of Emperor Yu's dynasty is just so-so.”

With a casual wave of his hand, another large area of space blades appeared.

However, in the next moment, they disappeared into thin air.

When they reappeared, they suddenly appeared in Bei Wangchen's body.

Ah --

With a miserable cry, Bei Wangchen was once again strangled into a bloody mist.

However, a moment later, another Bei Wangchen appeared in the Bloody Mist.

His aura once again dropped by one-ninth.

After falling twice, he had already fallen from a double-crowned king to a peak-level one-crowned king.

In the end, Su Yu waved another space blade.

Bei Wangchen had already taken the opportunity to teleport out.

However, during the teleportation process, he was crushed into pieces for the third time.

Bei Wangchen's furious roar came from somewhere, "Su Yu, I will never live under the same sky as you!"

A trace of coldness flashed across the corner of Su Yu's mouth, "You still have to have the chance."

"Space teleportation."

He placed his hands behind his back and did not move at all. The blood fog that had been sent away by the restriction was sent back again.

When a figure whose aura had dropped to the late-stage of the Emperor Realm walked out of the blood fog, another round of strangulation greeted him.

"Ah! I Won't let you off!" Bei Wangchen only had time to scream before he was annihilated once again.

The people below were filled with shock when they saw this!

The majestic double-crowned emperor, the Heaven's favorite king of the Great Yu Imperial Dynasty, was completely no match for Su Yu, who had achieved space mastery. He didn't even have the right to escape.

The fourth time, bei Wangchen's figure appeared.

He no longer had any intention of fighting anymore. Panic finally appeared on his face as he shouted, "Stop, there isn't a dead end between us..."

Ah --

His answer was to be strangled again.

The fifth time he appeared, Bei Wangchen's face was filled with panic as he begged for mercy, "Your Highness, Please Show Mercy. It was bei Wangchen who had eyes but failed to recognize Mount Tai..."

However, the spatial blade mercilessly strangled him to death.

The sixth time he appeared.

Without thinking, bei Wangchen turned into a sharp arrow and fled towards the first prince. He screamed in fear, "Save me quickly! !"

The first prince seemed to have woken up from a dream. He hurriedly said, "Quick! Quick, stop him!"

All of this was a complete dream to him. It was a nightmare.

The blood mist youth hesitated for a moment before he reluctantly nodded. "I don't believe that he can be so strong!"

The hooded man hesitated for a moment before he laughed lightly. "Hehe, don't push it too far. Let me try his spatial divine art!"

The first prince took the lead and brandished his golden greatsword.

Just as Su Yu was about to annihilate bei Wangchen for the sixth time, the three of them charged over.

What was shocking was that the blood mist youth and the man in the bamboo hat actually displayed the strength of an emperor that was no weaker than the first prince.

Although they had yet to reach the emperor realm, the strange techniques or special constitutions they cultivated allowed them to erupt with strength that far surpassed their realms.

The first prince was shocked. The two of them were stronger than him!

Their attacks had barely saved bei Wangchen from that attack.

Bei Wangchen's heart was still filled with fear. His eyes revealed shock as he said in a trembling voice, "How can he be so strong! ?"

The first Prince's heart was extremely heavy. "Perhaps this is the reason why the gray-robed emperor has taken a fancy to him -- to control one of the eight great laws!"

Even though they had repeatedly heard how earth-shattering it would be to control one of the eight great laws.

However, in their hearts, they had their own pride, and they could not accept it from the bottom of their hearts.

It was only until they met him personally that they realized how terrifying the eight great laws were.

An overlord who had not reached the emperor realm and had just condensed a law could crush a double-crowned emperor.

"Four against one?" Su Yu smiled with his hands behind his back.

He faced the four of them alone with a relaxed expression, but the other four looked as if they were facing a great enemy.

"Let's attack together, while you still have the chance to attack."

If it was in the past, his words would only attract ridicule.

But at this moment, no one could laugh.

The four of them looked at each other and attacked one after another.

Among them, bei Wangchen was the strongest. The hooded man was on par with the blood mist youth, and the first prince was last.

The four of them represented the strongest existences in the younger generation of Emperor Yu's dynasty.

With their combined strength, they could wipe out all the powerful enemies of the same level.

However, Su Yu, who was opposite him, laughed lightly.

The spatial energy in his body rose rapidly.

In an instant, a boundless and terrifying spatial energy rose to its limit.

“Destroy!”

Boom --

The compressed spatial energy suddenly transformed into countless sharp blades that shot out from his body, piercing through everything.

Moreover, the sharp blades disappeared in the air.

When they reappeared, they appeared in their bodies.

The four people's expressions changed drastically. They did not dare to stay any longer and hurriedly retreated.

They saw that the places where they stood were filled with sharp spatial blades that were silently swallowing and spitting.

The other three were still fine. The first prince had retreated a little too slowly, and one of his legs had been swallowed. Fresh blood splattered everywhere.

However, the three of them were not ready to fight again, but they heard su yu softly mutter, “Explode.”

The space blades exploded once more, turning into countless tiny space blades that suddenly exploded.

“Quickly Dodge!”The four of them hurriedly retreated, their faces filled with shock.

“Second explosion!”But nothing stopped.

The countless tiny spatial blades exploded again, shooting out needle-like spatial blades.

No matter how careful they were, how could they defend against the second explosion?

Instantly, the four of them were hit.

Their bodies were riddled with holes from the tiny spatial blades.

“Third explosion!”

The needle-like spatial blades exploded again, turning into tiny spatial blades.

At this point, the four people's expressions were completely unsightly. Without any hesitation, they retreated thousands of Li away. They wanted to stare at Su Yu, and their expressions were all different.

The first Prince's face was filled with despair, while bei Wangchen no longer had any fighting spirit.

The blood mist youth hesitated for a moment before turning around and fleeing.

The hooded man revealed a bitter smile. "Forget it. Before I get that sword, I won't be his match."

After he finished speaking, he turned around and left as well.

In the blink of an eye, only the first Prince and Bei Wangchen were left.

Seeing that the two of them had retreated, bei Wangchen did not hesitate at all, he cupped his hands towards the first prince. "I'm sorry, I Can't Help You! Please don't look for me again, first prince. As long as the sixth prince is in Emperor Yu's dynasty, I, Bei Wangchen, will never set foot in this place again."

The first Prince's heart was completely filled with despair.

"Wait!" Su Yu said calmly.

Bei Wangchen's hair stood on end. He turned his head to look, his eyes filled with deep fear.

After pondering for a moment, he bowed and said, "Bei Wangchen is willing to admit defeat. Sixth Prince, Please Be Magnanimous and let me live."

Even the spatial transference of the Great Yu ruins could not let him escape, let alone escape by flying?

"You don't want to seek revenge on me?" Su Yu stared at him.

Bei Wangchen lowered his head even further. "If you are one level higher than me, I, Bei Wangchen, will not accept it. I will definitely take revenge. But if you are too much higher than me, you can only respect me. There is no hatred."

This was the norm in the martial arts world.

The difference of one level made people jealous and unwilling to accept it.

But if it was a difference of ten levels, it would make people fearful. They would not dare to be the slightest bit negligent or disrespectful.

As for hatred, if it was not a blood feud, they would swallow it.

Su Yu's sword destroyed many of bei Wangchen's features, forcefully cutting him from a double-crowned king to a single-crowned king.

To recover to the peak, it would take at least a hundred years.

The hatred was neither big nor small, but in the face of the absolute difference in strength, he could only choose to forget the hatred.

Seeing the sincere admiration in his eyes, Su Yu's killing intent slowly faded away.

"If you want to leave, you can. Bring her along too." Su Yu glanced at Empress Zi Wei.

Bei Wangchen glanced sideways. He thought for a moment before he remembered her name. "I remember her name is Zi Wei, right? Why do you want to bring her along?"

"She is your most resolute follower, your most loyal believer." Su Yu clasped his hands behind his back.

Bei Wangchen shook his head, his eyes couldn't hide his contempt. "She is just a frog at the bottom of a well who has lost her personality. She can only see me, but not the real sky. Such a person would only rely on experts. Her achievements in this life are limited. Since the sixth prince is the one who captured her, from today onwards, she will belong to the sixth prince. If you want to kill or cut her up, it's up to the sixth prince to decide."

"I bid you farewell, Bei Wangchen." He didn't even glance at Empress Zi Wei and left indifferently.

Empress Zi Wei stood rooted to the spot, her eyes empty, as if she had lost her soul.

When bei Wangchen was defeated again and again, she was still holding onto a sliver of hope that one day, bei Wangchen would rise again.

But his last words pushed her into a bottomless ice cellar, and her heart turned cold.

His words were almost exactly the same as what Su Yu had said.

In the end, she was just a frog at the bottom of a well who had lost her self-awareness.

Su Yu looked at her indifferently. He looked away expressionlessly and looked out into the sky. "There is a limit to using the well as the sky. Self-awareness as a genius is the right path of martial arts."

The absent-minded Empress Ziwei seemed to have been struck by lightning. Her entire body trembled.

Silent for a long time, lips tightly bite together, leaving complex tears, kowtow to Su Yu.

Chapter 1828 The Life-Killing Sword Appears

hold the sword, turn around, and leave.

"Thank you, I'm sorry..." as she left, she turned her head to look at the Proud King of Heaven and earth who was like the god of Brahma, the man who had once stood on the same starting line as her.

Thank you was to thank him for saving her life, and also to thank him for enlightening her.

Sorry was to let down her betrayal in the past.

She stood up and looked in the direction of the Sea of constellations.

Perhaps, she would only be able to set off once she returned to the original place.

--

The blood mist youth had just stopped when he escaped to the center of the ruins.

He clenched his fists tightly, and the blood mist around his body churned, revealing his true appearance.

If Su Yu was here, he would definitely be able to recognize his identity. He was a formidable enemy that had been haunting him since the start of the true dragon continent!

Gu Taixu!

“I have the body of the nine gods, but I still can’t defeat him!”Gu Taixu’s face was gloomy.

He had once thought that he had far surpassed the past and surpassed Su Yu.

Su Yu was like dust in front of him and was no longer worthy to be his enemy.

He could crush Su Yu as easily as crushing an ant!

As soon as the sixth prince returned to the imperial family and announced to the world, he was shocked to find that his lifelong enemy, who had stolen his woman and stolen all his glory, had also come to the Great Yu imperial court and disguised himself as the sixth prince!

At that moment, he was shocked and overjoyed!

He had thought that the other party was in the Cage of gluttony and that he would never be able to take revenge.

But who would have thought that the other party would also come to the Emperor Yu dynasty!

Because of this, he disguised himself and joined the third Prince’s team.

His goal was to stand in front of Su Yu as Gu Taixu and give him a big surprise.

Who knew that when he was about to reveal his identity, he was about to take revenge for Su Yu.

Su Yu actually erupted with terrifying strength, giving him a huge surprise!

Single-handedly crushing a double-crowned emperor. Even when the strongest geniuses of the four great empires joined forces, they were still not his match!

He could not help but feel sorrowful. Was it because he was incompetent, or was Su Yu too heaven-defying?

He was clearly also a top-notch genius, and he clearly had great fortune and luck. But why, why was the other party always above him?

In his fury, a string of a young girl’s voice that sounded like silver bells came into his sight.

“Little duckling, swim, swim, swim to the shore of the stone, one on the left and one on the right, Quack, quack, Quack, Quack...”

Gu Taixu separated the grass and trees and swept forward. He could not help but be stunned.

He saw a 16-year-old girl in colorful clothes. In her left hand, she was holding a pot of precious spiritual milk that she had found somewhere, and in her right hand, she was holding a lump of roasted meat of an emperor-level ancient beast.

She was humming a children’s song.

“Where did it come from?”Gu Taixu was surprised. He couldn’t see through the girl’s cultivation. To be exact, there was no divine power fluctuation on her body.

However, it was strange that she could eat an emperor-level ancient beast.

After thinking for a while, Gu Taixu felt relieved. So what if it was strange? Could she be an emperor?

The rules of the ruins of Yu the great prohibited emperors from entering!

As long as he was below an emperor, Gu Taixu would crush her to death like crushing an ant!

A fierce light flashed in his eyes. "Hmph, consider yourself unlucky to have met me!"

He was full of anger and had nowhere to vent it. With a stomp, he destroyed a large area of vegetation in front of him. With a fierce expression, he revealed himself and snorted. "You ate very happily!"

The multicolored-clothed girl turned her head and muttered, "I hate people who disturb my eating the most!"

But then, the multicolored-clothed girl let out a soft exclamation and stared at the blood mist on the young man's body in disbelief. She seemed to have noticed something and her eyes immediately flashed.

She threw down the imperial level ancient beast meat in her hand and suddenly stood up. She asked charmingly, "Big Brother, What's Your Name?"

Gu Taixu was slightly stunned. He was so fierce and fierce. Not only did he not scare her, he was not afraid at all.

Interesting!

Gu Taixu's killing intent was much weaker. "Gu Taixu! What's Your Name?"

"My name is Xiao Die!" The colorful-clothed girl said. He stared at her and said crisply, "Big Brother Taixu, I'm hungry. Can I borrow some food from you?"

Xiao Die? Her name was very ordinary.

"What do you want? Speak!" Gu Taixu did not notice at all. Xiao Die drooled at the corner of her mouth and her eyes shone.

..

Near the ruins.

Only Su Yu and the first prince were left.

At this moment, the first prince stared at Su Yu with eyes full of unwillingness.

Was it over?

There was no one else in the ruins who was a match for Su Yu. No one could steal his national fortune.

On the contrary, he should be worried about whether he could still protect his national fortune.

There was only one rule in the ruins of Yu the great. No one was allowed to kill the princes and princesses.

Su Yu only stole and didn't kill. The rules couldn't do anything to him.

"First prince, hand it over." What he thought really came true.

Su Yu looked down at him with a faint smile.

His heart jumped and he tightly held his pocket. This was his last asset. He couldn't let Su Yu take it away.

"How about I give you a piece of news in exchange for you not snatching away my country's Fortune?" The first prince asked hesitantly.

"Oh? What kind of news could be so important as to compete for the position of Crown Prince?" Su Yu said with a faint smile.

He did not think that the first prince would be able to move him.

"To others, this news might be dispensable, but it's extremely important to you." The first Prince's eyes sparkled. "It's about the tempering of your nomological chains."

Su Yu narrowed his eyes.

If it was some kind of heaven and earth numinous treasure, he really wouldn't care about it.

But the refinement of nomological chains... to him, it was an urgent matter.

How could bei Wangchen control nine nomological chains and suppress those of the same level?

Because the nine phases each comprehended a complete nomological chain.

Currently, Su Yu only comprehended spatial laws and was already so powerful that he could crush all living beings. One could imagine if he also succeeded in condensing a few other laws.

At that time, how powerful would he be when he became an emperor?

The pursuit of the vile-daughter palace would no longer be a threat to him.

"If you have something to say, you can agree." Su Yu quickly made his decision.

The first Prince's expression relaxed. "Alright! Let's make an oath."

"Alright."

The two of them immediately made an oath.

Only after receiving his oath did the first prince feel completely at ease. He said, "Do you know that the dark star civilization has sent an emissary to the great Yu Emperor dynasty to participate in the Dao Rain?"

"Of course I know," Su Yu thought to himself. Could it be related to the dark star civilization?

"I've spoken to the emissary of the Dark Star Civilization in private and learned that the dark star civilization has discovered an ancient dao master's cave abode," the first prince said slowly.

Su Yu's expression was calm. So what if it was a dao master's cave abode?

It wasn't as if he had never been there before!

The faceless and backless Buddha's legacy of the Sea of constellations was still in his hands.

He had also seen the dust civilization's Dao artifacts and pill-making cauldrons.

Those Dao masters who had passed away far too long ago actually didn't have much left in their immortal's caves, so they weren't very attractive.

At the very least, Su Yu wasn't too interested.

"That's All?" His gaze turned slightly cold.

The first prince clicked his tongue inwardly. Even the Dao Master's Immortal's Cave wasn't moved. Just how high were your standards?

"Other than that, a sword has been unearthed in the cave abode, causing the entire dark star civilization to fall into chaos. All parties are fighting over this sword." The first prince frowned. "This batch of envoys from the dark star civilization are here in name to observe Dao Rain, but in reality, they are here to take refuge."

A sword that caused the entire civilization to fight over it?

If it was a dao artifact, there was no need to do so.

If it was used by the non-dao master himself, the sword would be like scrap metal in the hands of others.

The Pill Furnace of the dust civilization and the Golden Lady of the evil maiden palace didn't even glance at it and just threw it aside.

It was obvious that Dao artifacts were only famous, but in reality, they were useless.

"What sword?"

"True emperor rank divine weapon, Emperor Killing Sword."

Su Yu's pupils suddenly constricted.

One of the four pieces of the emperor set, Emperor killing sword!

How could he forget that the Tianyun Emperor of the nine dragons ancient divine realm had captured the fate of the four pieces of the Emperor set for Zhan Wushuang?

Those four items were destined to belong to Zhan wushuang.

The emperor killing sword was the second ranked Emperor Dao sacred weapon.

Although the absolute beginning world and the nine dragons ancient divine realm had different rankings for Emperor Dao sacred weapons and true emperor rank divine weapons.

However, the emperor's killing sword was definitely a top true emperor level divine weapon in the absolute beginning world!

An entire four-star civilization was thrown into chaos because of this, which showed how precious this sword was.

“Is it this sword? Hehe, what a coincidence.”

He was interested in the emperor’s killing sword, but he wasn’t very interested.

The Royal Longzun sword hadn’t been fully grasped yet, so what was the use of having another killing sword?

“Does this sword have anything to do with the tempering laws you mentioned?” Su Yu asked.

The first Prince’s eyes revealed a greedy glint. “That’s because the emperor killing sword was one of the ancient swords that guarded the halls of the Yellow Dao Palace in the past! I believe that you’re not unfamiliar with the ancient sword, right?”

How could he be unfamiliar with it?

The Dayu Imperial Court’s Dao Rain was controlled by an ancient sword that came from the Yellow Dao Palace.

“You mean...” Su Yu’s heart palpitated.

The first prince said slowly, “That’s right. That sword can summon the Dao Rain! “For some reason, this sword was stolen by a Daoist master who defected to Daoist Huang Hall. From then on, its whereabouts are unknown. It has been 100 million years since then. If that Daoist master’s cave abode had not been accidentally discovered, I’m afraid this sword would have been completely buried in the passage of time.”

“If you can seize this sword, Hehe, you can imagine that you will have countless dao rains, allowing you to comprehend any Great Dao.”

Su Yu’s heart was completely moved!

Although he did not know if the emperor’s killing sword still possessed the ability to summon Dao rains.

However, he would rather believe it than not!

Other than Dao rains, it was very difficult to find any other divine item that could help Su Yu comprehend the eight great laws.

No matter what, he had to find out what was going on.

“Hehe, if you have the intention to seize this sword, it would be best to do so as soon as possible. Putting aside the increasingly intense competition between the dark star civilization, I think it won’t be long before the news reaches the ears of Daoist Huang Hall. When that time comes, any Random Dao master will retrieve the emperor’s killing sword, and everyone will be left with nothing to do.”

Indeed!

He wanted to leave immediately after helping princess ru Chen seize the throne. He could not delay any longer.

“If you’re willing to turn your head and help me seize the throne, I can use all my resources to send you over immediately.”

At the end of his speech, the first prince finally revealed his fox-like tail.

Su Yu did not even think about it and said indifferently, “Since you’ve already made a promise, there’s no reason to go back on it.”

The first prince’s emotions were complicated. Just what did Princess Ruchen have to do to win the sixth prince over?

Rumble --

At this moment, large groups of people rushed over from all directions.

The second prince, the third prince, the fourth prince, the fifth prince, and Princess Ruchen were among them.

Bei Wangchen had broken through his shackles, and the heaven and earth phenomenon of the nine phases becoming one attracted them all over.

Looking at the shocking and tragic scene, everyone was shocked.

Especially the battle aura that remained in the air, it made their hearts palpitate.

Just what level of battle had happened here?

Even though it was so far away, it still made them feel uneasy.

“Eldest brother, what happened here? Where’s Bei Wangchen? Where are the other people who followed you?”The fifth prince was shocked that the eldest prince was alone.

How could the eldest imperial brother have the face to tell the story in public? He blurted out, “I’ve just arrived too. As for Bei Wangchen and the others, they have other tasks for the time being.”

The others did not have much suspicion and looked around the battlefield.

“Imperial Brother.”Princess Ruchen ran over with a flushed face. When she saw that Su Yu was safe and sound, her crystal eyes were filled with joy.

Chapter 1829 The Birth Of The Evil Dragon

“How was the Hunt?”Su Yu asked.

Princess ru Chen raised her chin proudly. “Mm, over 800 ancient beasts were killed. Adding them up, it’s equivalent to three emperor-level national fortunes.”

“What About You?”Princess ru Chen’s eyes gleamed.

Su Yu swept a glance at the princes. They seemed to be careless, but in reality, they pricked up their ears and secretly eavesdropped.

“Not much, another two were killed.”

Instantly, the expressions of the princes changed.

Including the corpse-eating giant earthworms they had obtained in the beginning, there were a total of three!

And what princess ru Chen had killed, didn't that add up to a national fortune that was equivalent to six emperor-level ancient beasts?

In the previous session, Dongfang Xia had killed the national fortune equivalent to seven emperor-level ancient beasts, which was why she had surpassed all the princes and princesses and stood out.

When princess ru Chen heard this, her eyes lit up and she couldn't help but cover her mouth, her eyes shining with surprise.

She wasn't far away from the position of crown prince!

"Eldest brother, how many have you hunted down?" The fifth Prince asked quietly as he walked over with a dark expression.

"Seven in total," the eldest prince said calmly.

The fifth Prince's expression changed drastically, and he revealed an ecstatic expression. "I knew it! Eldest brother is invincible!"

The expressions of the other princes changed again. Seven? That was not even counting the amount of national luck the fifth Prince had seized!

"What About You?" The first prince asked.

The fifth prince was elated. "It's about the amount of three emperor-grade ancient beasts."

"So few? Only on par with my younger sister? You have twice as many people as the other party!"

The fifth prince said helplessly, "The other party's purple demon armored warriors have extraordinary combat strength. When they work together, they can unleash incredible power. Although we have many people, our strength is uneven. In addition, we lack cooperation, so..."

However, he did not think much of it. "In any case, the first imperial brother's gains alone are more than the combined gains of sister and sixth imperial brother. The number of people I lead won't affect the situation at all."

The first Imperial Prince's expression was gloomy.

Only he knew that Su Yu did not only have three. He had already killed seven just now!

Including the corpse-eating giant earthworm, there were eight!

"You're not doing enough to make things worse!" The first Imperial Prince rebuked angrily. "All of you, get serious and look for the scattered emperor-level ancient beasts! Especially an injured double-crowned emperor-level evil crow!"

He had no choice but to spend the next half a month desperately searching!

Just as he was about to lead his men and leave, a huge bubble suddenly appeared in the blood-colored lake in front of him.

The evil aura that made people tremble quickly spread in all directions.

Su Yu's expression changed as he stared at the ruins that revealed a corner.

The first prince also looked over suddenly, his eyes revealing a thoughtful expression.

Many emperor rank ancient beasts in the ruins of Yu the great had come to this place to protect the ruins. Even if they were to be crushed, they would not retreat.

What were they protecting?

A glimmer of light flickered in their eyes.

At this moment, the blood-colored lake underwent another huge change.

The water level of the lake rapidly decreased at a speed visible to the naked eye. It was as if a bottomless pit had appeared at the bottom of the lake, swallowing all of the lake water.

Not long after, a dilapidated palace ruins lying at the bottom of the lake was clearly visible.

“What is that? Why is there a palace ruins in the deepest part of the ruins?” Many people whispered.

The expressions of the princes and their royal sisters turned grave at the same time, as if they had remembered something.

Su Yu narrowed his eyes.

At this moment, that enormous sense of familiarity was unprecedentedly strong, and it reverberated violently in his heart.

It was as if there was a voice calling him to quickly enter.

What was it? Su Yu was secretly shocked.

He completely didn't remember that he had any connection with the birthplace of Yu the great ruins.

“Dragon Palace...” at this moment, someone noticed that there was a plaque lying at the bottom of the lake, and the words “Dragon Palace” were left on it.

Seeing this scene, the princes and princesses' gazes became even more solemn.

Sensing their abnormality, Su Yu lowered his voice and asked, “Royal sister, what's so special about this palace?”

Princess ru Chen's beautiful face was tense and heavy, and there was a hint of fear in her voice. “I can't believe that the rumors of the dynasty are true.”

“What rumors?”

“Every emperor of the imperial family would gather all the members of the imperial family before they passed away and tell them some of their last words. These last words were never recorded in any history books,” princess ru Chen said in a low voice.

“One of the oral rumors is that when the first monarch of the Great Yu Empire established his civilization, he suppressed an incredibly powerful enemy and

was suppressed in the deepest part of the Great Yu ruins. If future generations learn of its birth, they must escape from the Great Yu Empire. Don't sacrifice and resist in vain."

Su Yu's brows twitched. "Even if Dongfang Xia becomes a three-crowned emperor?"

Princess ru Chen nodded. "That's right! Rumor has it that unless later generations become quadruple crown prince, they will all escape."

Quadruple crown prince... Su Yu sucked in a breath of cold air.

What exactly was that powerful sealed enemy?

The strength of the first emperor of the Great Yu Empire wasn't that strong. There should only be a single crown prince.

It was the continuous efforts of the later generations that slowly developed to this stage.

How could a crowned emperor suppress such a powerful enemy?

Hu --

Suddenly, an incomparably loud panting sound came from within the ruins palace.

Everyone's body stiffened when they heard it.

That feeling was like a mortal hearing the breath of a giant beast.

A feeling of insignificance and panic lingered in everyone's hearts.

The Princes had already clenched their fists, their palms covered in sweat.

What they had thought was a rumor and was about to be forgotten by the royal family actually existed!

The first Prince's heart trembled. His instincts told him that the things in the ruins were unusually dangerous and terrifying.

In front of them, they might not even be considered ants.

For a moment, the entire place was deathly silent. They stared fixedly at the ruins palace, as if they were staring at the gates of Hell.

Caw Caw --

Suddenly, a pitch-black crow flew into the ruins.

It was the injured evil crow!

Its wings flapped, and its deathly silent eyes revealed anthropomorphic mockery as it stared unblinkingly at Su Yu.

That gaze seemed to be staring at a person who was about to die!

Was that group of Emperor level ancient beasts awakening something that was guarding the ruins palace?

Had it awakened yet? Had it escaped the suppression of the first emperor?

At this moment, no one could make up their minds.

On the other hand, Su Yu's eyes shone.

He gritted his teeth, "I'll go take a look!"

He could clearly feel how terrifying the being suppressed was. It wasn't something he could resist at his level.

Rather than waiting for death, it was better to investigate.

"I'll go too!" Princess ru Chen gritted her teeth and led the purple demon armored warriors to charge in.

The first prince also suppressed the fear in his heart and said, "This is the life and death enemy of the imperial family. There's no use in escaping. We can only go in and take a look! Brothers, I'm afraid the fight for the crown prince has to be put on hold for the time being. The fate of the empire is of utmost importance."

If the object being suppressed was awakened, the empire would be destroyed. What was the point of anyone taking the Crown Prince?

"Let's attack together!"

The group gathered their courage and entered the ruins hall.

The hall was extremely wide.

In the middle, there was a purple giant true dragon nailed to the ground by seven swords.

The seven swords were placed in a mysterious position and sealed the dragon veins of the true dragon, making it unable to use its dragon power.

However, at this moment, more than half of the sword was pushed out and was slowly pushing out at a faster and faster speed.

"The dynasty has opened the sage Lord's Seven Sword Dragon Annihilation Array!" The first prince was shocked. "This sword array has been lost for a long time. Other than the first sage Lord, no one else knows how to use it. There's no mistake, this true dragon is the first sage Lord's Greatest Enemy!"

"Not good, one of the swords is about to come out! Seven Sword Dragon Annihilation Array, one sword consecutively seven times, one sword broken, the other six swords will lose their effect." The second Prince's expression changed drastically.

At the same time, an evil power that made people prostrate rushed out of the Purple True Dragon's body.

In front of this power, most of the intruders' legs went weak and they knelt on the ground. They didn't even have the strength to stand up.

There were only a few who could persist.

“Hehehe, the descendant of Dongfang Zun?” Suddenly, the Purple True Dragon’s head and its pair of yellow lantern-like eyes opened.

Its cruel and pitying gaze swept over them. “Congratulations, you’ve come at the right time. I want to use your blood as a sacrifice to regain my life!”

Two-thirds of the sword was pushed out!

The first Prince’s face was filled with fear. He gritted his teeth and stood up under the other party’s terrifying pressure. His forehead was covered in sweat.

“Evil dragon, don’t even think about escaping the suppression of the first generation Sage Lord!” The first prince roared and walked towards the evil dragon.

It seemed like he wanted to insert the sword back into his body.

“Hehehe, you said that Eastern Zun suppressed me? Hahahaha, what a joke! “He’s just an ant, yet he has the right to suppress me?” The Evil True Dragon raised his head and laughed maniacally. “It seems like your first generation sage Lord Lied and didn’t tell you that you’re just scum that the blood crystal clan eliminated!”

Blood Crystal Clan? The members of the imperial family were at a loss.

They had never heard of such a race in the world.

“A bunch of pitiful worms, I will tell you the truth! “The first generation Sage Emperor you mentioned was just a servant of mine in the past. He took advantage of the fact that I was suppressed and escaped from my control to establish the so-called Emperor Yu dynasty. What a joke, you really believe that ant has the right to seal me!”

Hearing this, the princes were greatly shocked. They could not believe what they had heard.

“HMPH! Don’t listen to his bewitching words. He is stalling for time. Let’s attack together and insert the sword back in!” The first prince saw through the other party’s delaying tactic.

He did not believe that the ancestor that he respected would be a servant.

The princes did not hesitate and charged towards the ancient sword.

No matter what, they had to subdue the true dragon first!

“Hehe, ignorant and fearless ants! I’ll let you see!” It suddenly spoke in the dragon language that no one could understand.

Suddenly, the first prince, second prince, Third Prince, Fourth Prince, fifth prince, and princess ru Chen all covered their heads in pain.

The fifth prince, who wasn’t mentally strong, screamed and fainted on the spot.

The other princes weren't any better as they let out heart-wrenching roars.

"Looks like the restriction that I left in his bloodline has also been passed down to his descendants." The Purple True Dragon's eyes were filled with pity and cruelty.

Chapter 1830 True Monarch Fire Dragon

The Purple True Dragon's gaze swept over them one by one, full of mockery.

However, when it landed on one of the princes, it lightly exclaimed, "Why are you fine?"

Among the several people, only a silver-haired youth stood with his hands behind his back, and there wasn't any pained expression on his face.

"You're not the descendant of that servant!" The Purple True Dragon was stunned for a moment, and then laughed, "The descendant of that servant is getting worse and worse with each generation. Now, one generation has been cuckolded and still doesn't know about it. Ridiculous, ridiculous!"

The princes were in pain and were completely focused on resisting the pain from their bloodlines. They didn't care about the true dragon's words at all.

On the contrary, the people who followed them looked at each other, and their expressions changed.

The silver-haired youth was naturally Su Yu. The only trace of the eastern royal family's bloodline in his body had already been used up during the clansmen's residence's dragon vat inspection, so how could he still have it?

It was precisely because of this that he was not under the control of the Purple True Dragon.

"Don't talk nonsense. I only have thick skin and flesh, I'm not afraid of Pain." Su Yu smiled indifferently.

After he finished speaking, he stepped on the tip of his foot and his figure floated onto the back of the Purple True Dragon, holding the longsword that was about to be blocked.

The purple true dragon growled in a low voice, "Kid, this is a matter between me and that servant, it has nothing to do with you. There's no need for you to be enemies with the dragon clan for them."

Su Yu's expression was indifferent. "True Dragon? is that so great? I can even make an enemy out of your Dragon Race's creation Dragon, let alone an evil dragon like you."

The people who followed were stunned.

The sixth prince had fought against a true dragon before? Hey, Hey, that was a true dragon!

It was rumored that a true dragon was extremely powerful and had the natural talent to control laws. Every move of his could affect the Great Dao of the world. It was extremely terrifying.

He was able to survive against a true dragon.

"Are you serious? You've seen that creator Dragon before? where is it?" The Purple True Dragon was shocked.

Su Yu smiled, "I'll send you to him."

As he said this, he pressed his palm and the sword pierced through.

"Ao!"

The True Dragon roared in pain and a large amount of evil aura rose from his body. He roared, "Human ant, you're going to die a horrible death if you become enemies with the Dragon Race."

The dragon blood in its body spurted out as it forcefully blocked the ancient sword.

The ancient sword actually rebelled and was expelled bit by bit from its body.

"Laws of great power," Su Yu said lightly as he surrounded himself with laws of power. The strength in his hand increased tenfold and he suddenly pressed down one-third.

The True Dragon roared in pain once again.

The peak overlords kneeling on the ground were filled with excitement. "Long live the sixth Prince!"

How domineering was the aura of the evil dragon that was suppressed by a single person?

Su Yu pressed his palm down again, and the last third was also pressed in.

The seven swords returned to their original positions and pinned him to the ground, unable to move.

"Ah! Human, I, the Mahayana evil dragon, swear that I will never let you off!" The evil dragon hated Su Yu to the bone.

It was not easy for him to have a chance to escape, but who would have thought that a passerby would suddenly appear out of nowhere.

All his previous efforts would be in vain.

Su Yu stood with his hands behind his back, his eyes cold and indifferent. "Now, let's talk about who touched that ancient sword, right?"

Over hundreds of millions of years, the seven swords dragon-slaying array was as stable as a rock.

How could it be so coincidental that the sword array would loosen up just because they were competing for the national fortune?

Xie long breathed heavily and slowly closed his huge dragon eyes without saying a word.

Su Yu smiled coldly, "Let me guess, it should be the corpse clan, right?"

His words were like a bomb that exploded in everyone's ears.

"Corpse Clan? How did they sneak in?"

"It can't be. Everyone who entered has gone through the double inspection of the prince and the gray-robed emperor. How could they let the corpse clan sneak in?"

The Evil Dragon's eyes that were about to close suddenly opened, and then it pretended as if nothing had happened.

As expected!

Su Yu's gaze was slightly cold as he coldly glanced at the hundreds of people present.

When he had uncovered the corpse clan that was hidden in princess ru Chen's troops like Yue Shanshan, he had already guessed whether the other princes' troops also existed.

The change in the Dragon Palace now confirmed Su Yu's thoughts.

"Let me guess again. The purpose of you releasing the evil dragon is to let it come out and fight against Dongfang Xia so that your corpse clan can take advantage of the chaos to invade, right?" He was very familiar with the tricks of the corpse clan. "By the way, kill all the princes and princesses who came to the ruins to seize the fate of the country, right?"

What answered him was a pair of shocked and bewildered eyes.

"If my guess is correct, you should be in this group of people right now, right?"

The crowd was completely boiling. They were all suspicious of each other. Fear and panic rose in their hearts like weeds.

However, no corpse clan member would admit it. Su Yu also couldn't tell which one of them was a corpse clan member in human skin.

Su Yu sat cross-legged on the dragon's back calmly. He said indifferently, "Your goal is to release the true dragon. As long as I stay here, you can not fly out unless you give up the mission."

He responded to all changes by staying still.

The ones who fell into the passive position were the corpse race.

His words completely touched the hidden corpse race.

Yes, if this continued, the ruins would close in half a month and it would be impossible for them to come in again.

If the mission failed, they would only die if they went back!

"Kill him! He is only the sixth prince of a peak overlord, what's so powerful about him?" A few half-step emperors exchanged glances with each other.

In an instant, three afterimages streaked across the sky.

They were clearly stunned by the true dragon's pressure and couldn't move, but they were suddenly unaffected.

The evil dragon's lips curled into a cold arc: "Ant! If I tell you to scram or not, then go die!"

It was it that released its pressure on the corpse race.

Su Yu's expression, which was originally calm, suddenly changed: "Three half-step emperors! How did the imperial brothers select them, such an important half-step emperor is actually a corpse race!"

His expression of shock was very accurate.

Everyone was shocked. "It's over. How can the sixth prince alone be a match for three half-step emperors?"

"But I heard that he had the battle strength of a half-step emperor back then."

"That was a one-on-one situation. How many opponents are there now? Moreover, the corpse race is famous for being invulnerable. Ordinary Divine Arts can't harm them in the slightest."

"We're doomed!"

Su Yu hurriedly pulled out the Shura Sword and started to fight with the three half-step emperors.

In the first exchange, he had fallen into a dangerous state. Twice, his soul was almost destroyed.

In less than a few breaths, he would die.

"There's no need to hide anymore. Let's attack together and kill him first." Eight figures flew out one after another. Some were peak overlords, and some were half-step emperors.

Seeing that the situation was set, they all jumped out to kill Su Yu and claim credit.

However, Su Yu, who was in a tight spot, slowly withdrew his panicked expression and replaced it with coldness.

"Maybe there are still one or two fish that escaped the net. However, it has nothing to do with the overall situation. It's enough to kill all of them!" His body suddenly shot out a sharp and cold light, and the asura sword shot out a heaven-splitting power.

"Heaven-cleaving sword!"

The heaven-shaking sword swept across the surroundings. The three corpse clansmen who were suppressing him were caught off guard and were cut into three pieces by the sword.

As expected!

There was no blood flowing in their bodies, only a thick corpse qi.

The sudden change shocked the corpse clansmen who pounced over, causing them to break out in cold sweat and freeze in the air.

Even the ferocious expression on their faces froze.

Su Yu revealed an elegant smile that looked like a bright moon in the sky, "Aren't you pleasantly surprised?"

They were clearly the corpse warriors that everyone respected. However, at this moment, cold air was emitted from the soles of the corpse warriors' feet, as if the silver-haired human warriors were the Real Corpse Warriors!

“Run!” It was unknown which corpse warrior shouted first, but the eight corpse warriors turned around and ran.

At this moment, they only hated the fact that the corpse emperor didn't give them another leg when he turned them.

Seeing that they had escaped from the range of the sword, Su Yu sneered and waved his hand, “Arrow!”

The nine jade spiritual bead flashed, and a huge bow fell into his palm.

He pulled his arms and shot an arrow.

A stream of light passed through, and a corpse warrior was smashed into pieces.

Eight streaks of light in a row, no matter how far the corpse clansmen fled, were all pierced through by the arrow, without exception.

Everyone's eyes were blank.

Five half-step emperors and eight peak overlords were... tortured to death just like that!

They really didn't want to use the dark and cruel term 'tortured to death' on the sixth prince.

But that scene was indeed a torture to death.

The difference was that they were ecstatic in their hearts. The sadistic killing was good!

The corpse race was cruel and merciless. They did all kinds of evil things. How many people died in their hands, and how many people became their food?

There were women, children, and lonely old men.

No matter how painful their deaths were, it was still a great satisfaction to the people!

Su Yu inserted the heavenly bow into the dragon's back and looked at everyone calmly. “Let's wait for the ruins to close.”

Compared to the fight for the throne, the most important thing now was to suppress the evil dragon.

Everyone heaved a sigh of relief. It seemed that the crisis had subsided.

However, the tree wanted to be quiet, but the wind did not stop.

The evil dragon below slowly opened its eyes and a hint of pity flashed past.

Su Yu was meditating as he pondered.

From the start of the ruins, that sense of familiarity had surged over.

Now, he had found the source.

It was the evil dragon beneath him!

He was even more puzzled. He had never interacted with the evil dragon before. Where did that sense of familiarity come from?

As he was deep in thought, all the hairs on Su Yu's body stood on end. An inexplicable sense of danger lingered in his heart.

Even the threads of fate were fluctuating violently.

He had always been decisive. When he sensed that something was wrong, he immediately rolled up his sleeves and connected with the princes and troops present. All of them were swept out of the ruins.

Boom --

A blood-red pillar of light descended from the sky and destroyed the ruins. Only the evil dragon's body was covered with purple evil qi, blocking the blood-red pillar of light.

"Eh? Can you predict my attack in advance? Interesting." A young man in a fiery red robe suddenly flashed and arrived in the sky above the ruins.

This person's face was cold, arrogant, and evil. There were three strange gourds tied around his waist.

Upon seeing him, Su Yu's pupils slightly constricted.

The double-crowned emperor who took away the dragon's blood, the red-clothed youth!

Who exactly was he?

"True Monarch Fire Dragon, you're Too Late!" Xie long said coldly.

Hearing this, everyone's expressions slightly changed. They knew each other?

Su Yu seemed to have thought of something, and his expression changed again.

True Monarch Fire Dragon, double-crowned emperor..

Could it be the double-crowned fire dragon that was being pursued by Dongfang Xia and suddenly appeared in Emperor Yu's dynasty?

"How did he sneak into the ruins of Yu the great? Didn't they say that only those below the emperor realm are allowed to enter? Why isn't he affected?"

"Also, Dongfang Xia is pursuing him. How did he manage to escape without Dongfang Xia knowing?"

The strength of this fire dragon wasn't something that Bei Wangchen, who was one with nine, could compare to.

He had only reached the realm of the double-crowned emperor.

But this fire dragon was a powerful existence that could seriously injure the gray-robed emperor, and only his soul could escape!

True Monarch Fire Dragon lowered his head and said mockingly, “Hehe, isn’t this the famous sage Monarch Evil Dragon from back then? oh? What’s wrong with you now? Why are you nailed here?”

The evil dragon snorted coldly, “Hehe, aren’t you the same? Back then, True Monarch Fire Dragon from the Supreme Dragon Clan, the four-crowned emperor, your cultivation fell to a mere double-crowned emperor. You’re even more miserable than me.”
