

Nine-Dragon 1831

Chapter 1831 The Evil Dragon Bible

True Monarch Fire Dragon's expression turned serious as he typed in the main text. "Wasn't it all thanks to the creator Dragon? Don't laugh at me. Back then, you were also knocked unconscious by him, which was why you were taken advantage of and suppressed here, right?"

At the mention of the creator Dragon, the two of them had a common enemy, and sparks of hatred shot out.

"Back then, the creator Dragon stole the Supreme Treasure Book of the Dragon Race, the Dragon Abyss treasured book. The Dragon Emperor led us dragon race experts to chase after him. In the end, the creator Dragon relied on his supreme strength and killed all the dragon race experts chasing after him, leaving nothing behind."

"Even the Dragon Emperor fell. The supreme weapon of the dragon race that he carried with him, the Royal Longzun Sword, also disappeared without a trace. From then on, the creator Dragon disappeared without a trace."

The two of them conversed with each other, not caring at all that someone was listening.

The sage of the wicked dragon coldly glanced at Su Yu, a trace of cruelty flashed across the corner of his mouth. "Hehe, why don't you let me tell you something unexpected, true monarch fire dragon. Other than the two of us, there's actually someone else who knows about the creator Dragon."

True Monarch Fire Dragon's expression changed, and he said coldly, "Who?"

"Yes, it's that arrogant silver-haired human ant! He personally said that he once made an enemy out of the Creation Dragon."

Holy Monarch Evil Dragon sneered. He knew true monarch fire dragon's temper very well. With just a few words, he could persuade him to destroy all the people and things related to the creation dragon.

As expected, true monarch fire dragon's gaze pierced through Su Yu.

A seemingly corporeal killing intent rumbled out.

"Ant, I'll first take your soul and then force you to give me information about the Creation Dragon!" True Monarch Fire Dragon said as he immediately attacked.

He casually shot out a blood-colored light pillar.

However, the direction of the attack wasn't Su Yu, but... Sage monarch evil dragon.

"You!" Sage monarch evil dragon was angry, but he was already on guard against it. He used the evil Qi to protect his body and said coldly, "A dog can't change its behavior. After so many years, you still can't change your bad habit of taking advantage of the situation."

True monarch fire dragon laughed. “You’re the same. You always have a trick up your sleeve and never trust anyone.”

He stood with his hands behind his back and completely ignored Su Yu and the others. He stared at the sage Dragon with a faint smile. “You don’t think that I sensed your aura and came all the way here just to get rid of an ant for You, right?”

“What do you want?”The Sage Dragon was silent.

True Monarch Fire Dragon’s eyes revealed a profound light, “Back then, you were just an insignificant little dragon. You accidentally obtained a lost bible of the dragon race and finally became sage Monarch Evil Dragon. What I want is that Bible.”

Sage Monarch Evil Dragon was silent for a long time. Unexpectedly, he didn’t refuse and opened his mouth to spit out a jade disc.

True Monarch Fire Dragon was overjoyed. He grabbed it and swept his gaze over it. However, his face immediately sank, and he crushed the jade disc, he said coldly, “Don’t try to fool me with the 《 Holy Body of the evil dragon 》. It’s just a small part of the 《 Holy Bible of the evil dragon 》. It’s fine if you use it to fool outsiders, but me? Can you fool me with it?”

“Whether you want it or not, this is all I have!”Holy Monarch Evil Dragon said indifferently

True Monarch Fire Dragon’s expression sank. “I’ll make you pay if you refuse! Taste My True Dragon Divine Fire!”

He slapped Holy Monarch Evil Dragon’s back, and a large amount of nine-colored flames erupted from his palm, instantly turning him into a burning fire dragon.

Roar --

His dragon body made crackling sounds as it was burned, and waves of charred flesh entered everyone’s nostrils.

“Holy Monarch Evil Dragon, you’re currently suppressed, and you can’t resist the true dragon divine fire. If you don’t want to die, hand over the ‘evil dragon bible’immediately!”

Sage monarch evil dragon stared at him with hatred, but he gritted his teeth and didn’t say anything.

He knew that he would die faster if he handed over the ‘Evil Dragon Bible’.

If he didn’t hand it over, he would still have a way to live!

“Hmph, I’ll destroy your body and see if you’ll say anything!”True Monarch Fire Dragon roared, and the nine-colored flame in his palm suddenly erupted. It was ten times stronger than before.

Immediately, the body of sage Monarch Evil Dragon within the flames continued to emit purple evil qi, and the scales on his body started to show weak signs of melting.

The Evil Dragon Sage monarch grimaced in pain, but it clenched its teeth tightly.

True Monarch Fire Dragon set up a formation to keep the nine-colored flame burning.

He stood at the side with his hands behind his back and watched coldly.

One day passed, two days passed, and three days passed.

No one dared to leave, and no one could leave either.

They personally heard the evil dragon sage Monarch's mournful roar for three days.

At this moment, all the scales on its body had been burned to nothing by the true dragon divine fire, revealing a large amount of bloody flesh.

Everyone felt pity for it.

It was really hard to predict things in this world. They had originally thought that when true monarch fire dragon arrived, he would release sage Monarch Evil Dragon and kill them all.

But no one had expected that true monarch fire dragon would be so greedy that he would instead torture sage Monarch Evil Dragon to the point where he couldn't even beg for death.

For three days in a row, true monarch fire dragon was calm and composed.

Four days passed, five days passed, and six days passed.

The flesh and blood of true monarch evil dragon was roasted until it was pitch black, and his huge dragon body was obviously half of his size.

Countless pieces of his flesh and blood were burned.

Under the Inhuman torture, True Monarch Evil Dragon could no longer roar. Only his huge dragon eyes shone with an unyielding divine light.

True Monarch Fire Dragon could no longer sit still and said in a deep voice, "Evil Dragon Sage Monarch, why bother? If you hand it over, I can still let you live. Rather than being in so much pain that you wish to die, it's better to hand it over."

However, Evil Dragon Sage monarch was waiting.

In another nine days, Da Yu's ruins would teleport them all out.

Even if he only had one dragon pearl left at that time, he could slowly recover.

At an existence like him, his will to survive was terrifyingly strong. He would never give up even the slightest hope.

"Alright, I'll see how long you can endure."

The seventh day, the eighth day, and the ninth day passed.

There were six more days before the ruins of Yu the great would forcefully teleport everyone out, and True Lord Fire Dragon was no exception.

Anxiety began to appear on his face as he continuously activated the true dragon divine fire and continued to burn.

The princes, princesses, and people quietly looked at the nine heavens and didn't dare to make a sound, afraid that true monarch fire dragon would vent his anger on them.

“I don’t believe that you’ll never open your mouth!” True Monarch Fire Dragon angrily snorted.

At this time, a silver-haired youth walked out from the crowd that had been standing there for a long time.

“Senior, I have a way to make him open his mouth.”

True Monarch Fire Dragon didn’t even look at him as he berated, “Get lost, you ant!”

He didn’t even bother to talk to an ant, and didn’t intend to give him any chance to speak.

Su Yu didn’t say anything and silently took out a seven-foot-long white thread-bound spirit plant.

The furious true monarch fire dragon seemed to have noticed it and looked over in surprise. Then, he was overjoyed. “Haha, thousand-year-old Dragon Beard Grass!”

“Give it to me!” He waved his hand across the air, and a strong aura pushed Su Yu away, taking the dragon beard grass in an overbearing manner.

Su Yu had no way of resisting at all, and fell to the ground in a very sorry state.

“Trash! But for the sake of this thousand-year-old dragon whisker grass, I’ll spare your life for now!” True Monarch Fire Dragon sneered disdainfully.

The corner of the first prince’s mouth twitched, and he couldn’t help but curse inwardly.

Damn it! He really knew how to Act!

He had personally witnessed Su Yu’s trump card. In a real battle, true monarch fire dragon might not be able to deal with him easily.

Right now, he was acting like he was weak and could be pushed down with a single push. This really made the first prince grin.

He had been tricked by Su Yu this way.

However, he wouldn’t expose it.

That true monarch fire dragon was obviously not a good person. After dealing with sage monarch evil dragon, it might be their turn.

If Su Yu had a way to deal with him, he would be more than happy.

Perhaps he could even benefit from it.

True Monarch Fire Dragon obtained the thousand-year-old dragon whisker grass..., he laughed, “Holy Monarch Evil Dragon, you didn’t expect this, did you? There’s also the thousand-year-old dragon whisker grass. It has a fatal attraction to US Dragons and creatures with dragon bloodlines. I don’t believe that you can resist the power of this item even after starving for countless years!”

The dragon whisker grass had an unimaginable attraction to emperor level true dragons or creatures with dragon bloodlines.

Even Normal Dragon Emperors couldn't contend with it, let alone evil dragon sage Lord, who had been suppressed for a thousand years?

True Monarch Fire Dragon leisurely set up a stand and took out some special spirit fruits that the dragon race had brewed for a long time. Finally, he neatly placed the dragon whisker grass in the center of the table.

He comfortably leaned back on the chair.

He drank a mouthful of wine, ate a spirit fruit, and then shook the dragon whisker grass.

As expected, after the dragon whisker grass appeared, the eyes of the extremely determined sage Monarch Evil Dragon started to flicker.

A desire that originated from his soul was released from the depths of his heart.

"Despicable!" Sage Monarch Evil Dragon finally opened his mouth, and his body couldn't help but tremble.

"Haha, So What If I'm despicable?" True Monarch Fire Dragon fiercely took a bite of the spirit fruit and said mockingly, "If you don't agree, the dragon whisker grass will be eaten by me, right?"

He couldn't help but look at the dragon beard grass.

A trace of desire flashed through his eyes, as if it was instinctive.

The Glint in Holy Monarch Evil Dragon's eyes became even more intense, but he didn't say a word. Instead, he clenched his teeth and persevered.

True Monarch Fire Dragon leisurely waited. "There are still six days left. When your soul is in a trance, you might not be able to endure it anymore."

Twelve days later.

Holy Monarch Evil Dragon's body was completely burned to ashes, leaving only a human-sized illusory dragon shadow lying on the ground.

Seven sword lights nailed it firmly to the ground, unable to escape.

Dragon Soul!

The body was destroyed, leaving only the soul!

A dragon pearl reverberated in the soul, releasing pure dragon power to resist the flames.

Under the burning of the powerful flames, the evil dragon sage Lord's soul appeared dazed, and his will wavered.

Especially under the allure of the dragon beard grass, his will wavered even more.

However, the evil dragon sage Monarch still maintained a sliver of clarity.

Three more days, and it would be over in three days. He had to endure it!

Fourteen days later, tomorrow would be the last day.

The Evil Dragon Sage Monarch's soul was on the verge of collapse, and he could no longer maintain the last sliver of clarity.

"Give me the dragon beard grass, and I'll give you the 'Evil Dragon Bible'." The Evil Dragon Sage monarch was in a daze, and the dragon pearl sprayed out a cloud of purple mist, forming a spell with clear words.

True Monarch Fire Dragon glanced at it and said in ecstasy, "Hahaha, it's the real version of the 'Evil Dragon Bible'!"

He immediately copied the book with a jade spell.

Then, he looked at the evil dragon sage with a sinister smile and pity, "Hehe, Evil Dragon Sage Monarch, oh evil dragon sage monarch, no matter how tough your will is as an old monster that has lived for billions of years, you still can't defeat the double torture of the dragon whisker grass and torture!"

As he laughed, he stuffed the dragon beard grass into his mouth and swallowed it whole.

After that, he walked towards the evil Dragon Sage's absent-minded soul with a sinister smile and said coldly, "Farewell, Evil Dragon Sage!"

However, at this moment, a faint voice sounded behind him. "I've finally eaten the dragon beard grass. It's really testing my patience."

Chapter 1832 The Hehuan Saintess

Su Yu twisted his neck and walked out of the crowd with a faint smile on his face.

True Monarch Fire Dragon, who was about to destroy the evil dragon Sage's soul, had a slight change in expression. He sensed that there was something wrong with the dragon whisker grass.

Without thinking, he immediately circulated his inner energy to shock his stomach and spit out all the food he had just eaten.

However, he was a step too late.

A piercing pain spread through his limbs and bones. Even with the strength of the dragon race, he felt endless pain.

True monarch fire dragon's body trembled as he roared, "Ant! What did you give me to eat?"

He couldn't believe that the human race, who had been subdued by him to the point that he didn't even dare to breathe, actually dared to poison him!

This was all due to his confidence and arrogance.

If he was a little more careful, he probably wouldn't have swallowed this dragon whisker grass of unknown origin so easily.

What was strange was that with his realm and the dragon race's unique sense of smell, if there was poison, he would have smelled it at the first moment.

"Of course it's a thousand-year-old dragon whisker grass." Su Yu smiled playfully. "However, I added a little seasoning called 'luoshen deadly poison'."

The Luoshen tears didn't poison him to death. He had left these poisons behind and finally had a place to use them.

"Ant, I'll exterminate you!" True Monarch Fire Dragon roared and opened his mouth to spit out a true dragon divine fire.

"Even if I'm poisoned, it's not something a small ant like you can contend against!"

The expressions of the crowd changed drastically. Only the first prince's lips curled up in a trace of pleasure. "Very good, finally someone fell into the same trap as me! Haha!"

That kind of feeling was as if he had fallen into a trap and was ridiculed by others.

However, not long after, someone even more powerful than him had fallen into a trap as well. He felt a great sense of comfort in his heart.

Seeing the true dragon divine fire roll over, Su Yu's expression was calm. He lightly tapped his fingertip, and hundreds of spatial blades shot out from his body.

Pu Pu Pu Pu --

That true dragon divine fire was instantly annihilated by the spatial blades. Not a single trace was left.

Moreover, the spatial blades covered a large area, enveloping the fire dragon true monarch who was caught off guard.

Clang! Clang! Clang

The astonishing thing was that Bei Wangchen was directly ground into a bloody mist under the space blades.

However, when it landed on true monarch fire dragon's body, it actually caused a series of sparks. Only a few space blades penetrated through his weak parts.

He blocked most of the space blades.

Su Yu's pupils slightly contracted!

It was even stronger than he had imagined!

Fortunately, he had personally witnessed true monarch fire dragon's attack and knew how powerful he was, so he poisoned him.

Otherwise, he would have been even more terrifying at his peak!

However, in true monarch Fire Dragon's eyes, he was injured by an ant, which undoubtedly challenged his bottom line.

"You're courting death!" True Monarch Fire Dragon roared angrily, and divine flames shot out from the surface of his body, engulfing the surroundings indiscriminately.

The divine flames were very unstable, and their directions were also abnormally scattered.

This was because his body had been poisoned.

Even so, Su Yu had no choice but to use all his strength to deal with them. Large amounts of space blades were slashed out, annihilating everything that was in front of him.

“Divine Flames, Ninth Heaven!” True Monarch Fire Dragon immediately launched a second attack before the first attack stopped.

Nine Dark Red Fire Dragons flew out of his body.

These were condensed from his natal divine flames, and their power was unparalleled.

The spatial blade only pierced through the fire dragons, but it didn’t weaken them in the slightest.

At the same time, the nine dark-red fire dragons spread out in all directions and burned some of the nearby peak overlords into ashes before they could even get close.

“Run!”

At this time, even the first prince didn’t have the intention to take advantage of the situation.

A battle between two crowned emperors was too dangerous.

True Monarch Fire Dragon’s strength couldn’t be measured by two crowned emperors because he was used to being an emperor in the past.

He easily escaped Dongfang Xia’s pursuit and came to the ruins, which showed how extraordinary he was.

Su Yu was also secretly surprised. He didn’t expect that he would be so powerful after being poisoned.

At his peak, he could kill himself in a few breaths.

Seeing that everyone had retreated, Su Yu didn’t run away. With a light snort, the bracelet on his wrist shook, and a large amount of silk that couldn’t be seen with the naked eye shot out.

Puchi --

The nine dark red fire dragons were pierced through by the silk, and immediately became much weaker.

The silk’s momentum didn’t decrease as it shot toward true monarch fire dragon.

“You’re really courting death!” True Monarch Fire Dragon was extremely furious. He raised his hand and was about to grab the silk.

However, the silk was extremely sharp.

With a grab, half of his hand was cut off like a piece of paper.

“Ah! I’ll destroy you!” While he strengthened the poison in his body, he activated his primal power and vowed to destroy Su Yu.

Su Yu’s eyes were calm as the silk swept in all directions, doing everything possible to destroy his true dragon body.

“Body-protecting Dragon Fire!”He roared as red and black flames jumped out of his body and formed a layer of scales.

The silk that had always been successful suddenly slowed down when it cut into the scales.

At the same time, he roared and pounced over.

However, halfway through his pounce, the poison in his body showed signs of being unable to be suppressed, causing his entire body to tremble and the black flame scales on the surface of his body to become unstable.

A few strands of silk took the opportunity to pierce into his body and cut through his waist.

Half of his body was cut off!

However, the dragon blood in his body seemed to have a spirit and forcefully pulled the two parts of his body to heal.

The battle between the two was in a stalemate. The spatial blade and the true dragon divine fire splashed everywhere, and not many people dared to approach.

Except for a few!

A few sneaky figures sneakily sneaked into the evil dragon sage Lord’s soul.

Su Yu’s expression changed slightly.

The first prince, who was watching from afar, had a drastic change in expression. He sternly reprimanded, “Saintess of the Joyous Union! What are you doing?”

Among that group of sneaky people was the Saintess of the Joyous Union Holy Ruins!

She ignored them and followed a group of black-robed people to the front of the Dragon Soul.

The Saintess of the Joyous Union raised her hand and inserted a talisman into the dragon soul. A Cool Energy was emitted, waking up the dragon soul, which had a blurry consciousness.

After it woke up, it immediately let out a soul-shaking shout, “True Monarch Fire Dragon, you despicable person, return me the ‘Evil Dragon Bible’!”

The expressions of the hehuan Saintess and the others changed slightly, and they comforted, “Please Calm Down, Evil Dragon Saintess, we are the ones who saved you.”

The expression of the first prince in the distance changed, and his eyes were about to crack. “Do you want to kill us? Or, who exactly do you listen to?”

He never thought that bei Wangchen would help him recruit the well-known half-step emperor, the Hehuan Saintess, and would do such a thing at the last moment!

The Saintess of the Joyous Union turned her head and looked at him with contempt, she giggled. “Of course, I’m under the command of an existence that you can’t imagine. Otherwise, you wouldn’t think that I, a Saintess of a two-star civilization, would be willing to bow down to you, right?”

“You!”The first prince roared angrily and took the lead to charge back.

Although the evil dragon Sage monarch only had his soul left, once he unsealed the seven swords, he would be able to recover more than half of his cultivation by giving him a chance to catch his breath.

Even if he had recovered to the level of a double-crowned emperor, he would be able to kill everyone in the ruins.

No matter how strong Su Yu was, he wasn't strong enough to fight against two, right?

"Hehe, it's Too Late!" The Joyous Union Saintess smiled coldly and said to the demonic dragon sage, "My master, I hope that after you escape, you can help us get rid of the eastern royal family, leaving no one alive."

The Demonic Dragon Sage once again had hope of escaping, so how could he refuse?

Moreover, he had the intention of exterminating the descendants of his former slaves, so he would do it without their request.

"Okay!"

The Hehuan Saintess nodded and took the lead to fly toward the loosened ancient sword. "Let's go together and pull out the ancient sword!"

The black-robed men behind them came to the ancient sword one after another and took action together, slowly pulling out the ancient sword.

At this time, the first prince in the distance didn't have time to stop them. He watched as they pulled out the ancient sword bit by bit.

Despair was written all over his face.

It was over!

The Evil Dragon Sage had escaped, and the Great Yu imperial court was finished!

It was too late to escape now!

As expected, the teachings passed down from generation to generation had to be fulfilled.

The corner of the Joyous Union Holy Maiden's lips curled into a cold smile. "This desolate land doesn't need a three-star civilization to rule everyone, so it's better to destroy it."

There were several two-star civilizations nearby, but who was willing to submit to the Great Yu imperial court?

The only way was to destroy them.

Coincidentally, a powerful force contacted the union civilization, wanting to destroy the eastern royal family.

The two sides hit it off and began a plan that lasted for several years.

The most important part was to liberate the evil dragon sage.

Although an unexpected corpse race appeared along the way, Su Yu, who was so powerful that it made people's scalps go numb, also appeared.

However, everything came to a stop at this moment.

"It's over. Emperor Yu's dynasty, the eastern Royal Family." The Saintess of the Joyous Union closed her eyes and let out a carefree sigh.

However, just as two-thirds of the ancient sword was pulled out and they were able to pull it out completely with just a little more effort, a sudden change occurred.

Two-thirds of the ancient sword was actually attached to a hidden blade of space!

How could the Hehuan Saintess and the black-robed men be on guard?

Puchi --

However, hearing the space blade spin, more than half of everyone's bodies, including the Hehuan Saintess, were destroyed.

Even their souls were destroyed.

A single attack destroyed everyone.

Su Yu, who was fighting with True Monarch Fire Dragon, had a cold smile on his face.

The first prince, who had rushed over, was stunned for a moment. Then, he let out a sigh of relief and shouted, "Brother, sister, Hurry over and protect the sword formation! Remember, don't bring anyone here!"

"Similarly, anyone who doesn't belong to the imperial family, if they rush over, kill them without mercy!"

He was truly frightened.

There was the corpse clan in front, and a mysterious force behind.

It had been extremely dangerous just now, and his entire body was covered in cold sweat.

It had been a close call!

It had really been a close call!

Fortunately, the sixth prince had a divine plan and had long been prepared to bury a spatial blade in that sword.

He had probably calculated that there might be some remaining corpse clan or unknown forces that had a plot to release the evil Dragon Sage Lord, and at that time, he happened to be entangled.

Everything was as he had expected. Such a situation had actually happened.

At this moment, the first prince stared at his sixth prince, his emotions extremely complicated.

What kind of terrifying man was this?

His strength was so powerful that it made him despair, and his intelligence was so high that he couldn't even catch up to him.

In such a complicated environment, he was able to calmly arrange everything, calmly and unhurriedly.

Thinking about how he was enemies with such an existence, the first prince couldn't help but shudder.

The other princes looked at Su Yu with extremely complicated gazes.

On one hand, they admired him, but on the other hand, they were worried.

If he ascended to the throne as the emperor, would they still have a place to stay?

To be exact, would they still be able to live?

Only princess ru Chen, whose eyes were full of shining stars, stared at Su Yu, who was fighting with true monarch fire dragon, the double-crowned emperor. She felt that he was the most majestic figure she had ever seen in her life.

When she was with him, she did not need to think about anything. She would live in safety for the rest of her life.

On the other hand, the evil Dragon Sage was once again forcibly broken out by Su Yu and completely trapped in a never-ending suppression. He hated Su Yu to the bone.

“Little Bastard! I, the evil dragon sage, swear that one day, I will make you beg for Death!”

As if he hadn't heard it, Su Yu stood with true monarch fire dragon wholeheartedly.

The battle between the two could be said to be heaven-destroying and earth-shattering.

Chapter 1833 Comparing National Fortunes

They fought from noon until night.

True Monarch Fire Dragon wasn't weak. He had poison on him, but he was still able to fight against Su Yu without losing.

However, the more Luoshen tears accumulated, the greater the impact on his body.

Seeing that he was gradually losing, he didn't have time to kill the soul of Holy Monarch Evil Dragon. He turned into a fire dragon and soared into the sky. He roared angrily, “Human ant, I'll make you regret it sooner or later. Just you wait!”

“Humph!” The silk on Su Yu's wrist turned into a huge net and suddenly covered half of his body. Then, he fiercely pulled.

“RIP --”

A large piece of flesh and blood was scraped off.

There was also a dragon claw. On the Dragon Claw, there was a jade disc. It was the piece that had the 'evil dragon bible' engraved on it.

True Monarch Fire Dragon was shocked and was about to turn around and snatch it back.

However, Su Yu was one step faster. He used the power of space and grabbed it back in his palm.

“Ah! Ah!” True Monarch Fire Dragon went completely mad.

The ‘Evil Dragon Bible’ that he had painstakingly obtained was actually given to a human ant in the end!

However, he didn’t dare to stay any longer. The Deadly Luo God poison in his body was getting more and more violent. If he continued to entangle with it, he might really die at the hands of this human who had mastered the space law.

“I won’t let you off!” True Monarch Fire Dragon roared loudly and slammed his head into the restriction at the end of the sky.

The ruins sensed something and immediately gave birth to a teleporting force, teleporting true Monarch Fire Dragon Out.

Su Yu’s eyes revealed a trace of regret. “What a pity.”

He had wanted to keep him, but this battle wasn’t in vain. He looked at the Demonic Dragon Bible in his hand and smiled playfully.

“No wonder I always felt that it was familiar. So that’s how it is.”

Back then, he had received the Demonic God’s gift of the demonic dragon sacred body body refining technique, and its power was quite extraordinary. When he cultivated to the divine dragon body, he could transform into a dragon and fight, raising his fighting strength to another level.

Unfortunately, his body had been taken away by the evil daughter, and the Demonic Dragon’s sacred body he had cultivated was all on that body.

Unexpectedly, he had unexpectedly obtained the Demonic Dragon’s Bible by accident!

The so-called demonic dragon’s sacred body was a small part of the Bible that the Demonic Dragon Sage had compiled to deceive outsiders.

What the Demonic God had obtained was the demonic dragon’s sacred body.

The true ‘sacred body of the evil dragon’ was extremely powerful, and even the former four-crowned true monarch fire dragon was greedy about it.

If he could cultivate successfully, his body would be strengthened to an incredible level.

Under the evil dragon’s vicious eyes, Su Yu kept it well and put it into his bosom.

Soon after, Su Yu searched the battlefield and found a lot of good things.

The flesh and blood of true monarch fire dragon was real dragon blood and dragon meat!

The most precious thing was that the three calabashes of dragon blood on his waist had also been left behind during the battle, which benefited Su Yu.

When he opened it, he found that one of the calabashes had almost been drunk, but the other two were full.

The dragon blood was very pure, not inferior to the dragon blood of true monarch fire dragon.

Su Yu was slightly happy. With two calabashes of dragon blood, True Monarch Fire Dragon's dragon blood, and Dragon Flesh, after absorbing it, the power of the Royal Longzun Sword would definitely explode.

In addition, cultivating the demonic dragon sacred physique also required the body of the dragon race.

Dragon blood was also very useful for cultivating this scripture.

Su Yu was very satisfied with the amount of harvest he had gained this time.

The eyes of the princes and princesses turned red. That was real dragon blood. Even if they didn't need to use it to cultivate, it would still have great benefits as a special material.

However, who dared to fight with Su Yu for the things here?

Besides, these were all Su Yu's spoils of war. Who had the right to fight for them?

Of course, there was another harvest that could be considered for disposal.

He flashed in front of the Sage of the evil dragon and sized him up.

The first Prince raised his eyebrows and was secretly shocked. Did he pay attention to the sage of the Evil Dragon's soul?

"Hehe, Evil Dragon Sage Lord, you hate me very much, don't you?" Su Yu smiled innocently.

The corners of the princes' mouths twitched slightly. They all felt sorry for the Evil Dragon Sage Lord.

They had waited for hundreds of millions of years and finally got two chances to escape, but in the end?

All of them were about to succeed when Su Yu slapped them back to hell.

The greatest pain in the world was the feeling of going from heaven to Hell, right?

Moreover, he had experienced it twice. One could imagine the grievance and resentment in his heart.

"Human Ant, you won't live long. True monarch fire dragon is vicious and insidious. He will definitely take revenge for your flaws. He won't let you off." The sage of the evil dragon sneered.

Su Yu shrugged and didn't seem to think much of it. "Just now, you also thought that true monarch fire dragon would kill me first after he appeared. But in the end? Hehe, the inhuman torture that lasted for half a month fell on you."

"Nothing is set in stone. Perhaps, the next time we meet, I will be the one chasing after him," Su Yu said faintly.

The sage of the evil dragon was silent, and a grim light flashed in the depths of his eyes.

He originally thought that the arrival of true monarch fire dragon would help him escape, but in the end?

“What do you want to say?”The sage of the evil dragon’s eyes flashed.

He vaguely understood what Su Yu wanted to say.

Su Yu said with a faint smile, “I want to say that maybe one day I will come back, and you may follow me from now on.”

“In Your Dreams!”

“Hahaha, this dream is not far away!”

Cultivating the evil Dragon Bible, completely controlling the Royal Longzun Sword, and commanding all the Divine Dragons in the world, no one dared to disobey!

“Goodbye.”Su Yu waved his hand.

Just at this moment, the one-month deadline arrived, and the restriction of the entire ruins began to send people out.

One by one, they left one after another.

Somewhere, Xiao Die was smacking her stomach in satisfaction. Beside her was a piece of the Beast Soul of an ancient beast that had been eaten up.

That was one of the nine great beast souls of the ancient Taixu.

“It’s a pity that he ran fast. Otherwise, I would have eaten all the good things on him.”

Suddenly, a space rolled over and sent her out.

“Wah, no, I haven’t eaten enough yet!”She grabbed the ground with both hands and resisted the teleportation power with dissatisfaction. However, she still teleported her out.

In another place.

Bei Wangzhu carefully picked a strange spirit plant that was as smooth as jade. Excitement appeared on her face. “After a month, I didn’t come in vain! Su Yu, say goodbye completely. I don’t need to meet you in my dreams anymore!”

A wave of space power swept over and sent him out.

When Su Yu opened his eyes, he appeared in front of the restriction.

The gray-robed Emperor was nowhere to be seen. He was probably chasing after the injured true monarch fire dragon.

The bamboo hat man, the blood mist youth, and Bei Wangchen were all nowhere to be seen.

They had left the ruins earlier, and they didn’t know where they were now.

Several princes and Imperial sisters were gathered here, and there was also a large group of people.

There were less than half of the people who had entered.

The only people who hadn't changed much were the purple demon armored warriors. Only a few dozen of them had died.

The end of the Yu dynasty's ruins.

The most important moment came next.

Who would become the crown prince of the Yu dynasty.

The princes turned their gazes to the first prince, Princess Ru Chen, and Su Yu.

As everyone knew, the first Prince had the most national fortune, which was equivalent to ten emperor-level national fortunes.

The second prince had six emperor-level national fortunes in total, followed by princess ru Chen and Su Yu.

The second Prince had two emperor-level national fortunes.

The third Prince and the fourth Prince had three.

The result was very obvious. The first prince was already the candidate for the future monarch.

However, everything had to be seen by the gray-robed emperor himself.

Not long after, the gray-robed emperor returned with a gloomy expression.

It seemed that he wasn't able to keep true monarch fire dragon.

He restrained his strange expression and looked at the princes and princesses. A gratified expression appeared on his old face. "Fortunately, fortunately, all of you are fine."

When he first discovered that true monarch fire dragon had rushed out of Yu the great ruins, the gray-robed emperor was uneasy.

He was thinking that there were still a few princes and princesses who were still alive.

Dongfang Xia had been chasing after this fire dragon for a long time, so it was normal for him to take revenge on the members of the imperial family.

The miracle was that they were all safe and sound.

The princes and princesses looked at Su Yu in unison.

Without him, what the gray-robed emperor had said today might have been another painful statement.

"I really didn't expect that the double-crowned fire dragon would use the golden cicada to escape its shell to deceive the emperor and take the opportunity to sneak into Yu the great ruins," the gray-robed emperor comforted everyone.

"However, you don't have to worry. The emperor and the two country protectors are already on their way back."

Everyone cheered and was overjoyed.

Dongfang Xia was their backbone. Everything was stable now that he was back.

Only Su Yu's pupils contracted imperceptibly.

He had to leave the dynasty immediately. There was no time to lose!

He cupped his fists and said, "Senior, it's time to compare our national fortunes."

The gray-robed emperor nodded slightly. "Alright, let's start with Princess Ru Chen."

Princess Ru Chen was a little nervous. From what she knew, the first Prince would definitely win.

However, for some reason, she had an inexplicable trust in Su Yu. For no reason, she believed that he would definitely give her an unexpected surprise.

Therefore, she took out the national fortune that she had led her men to hunt.

The gray-robed emperor meticulously analyzed and calculated it. Finally, he nodded in satisfaction. "The national fortune is 3,100."

The amount of national luck of a group of emperor-level ancient beasts was 1,000, and the number of peak overlords was 10.

All the national luck was quantified by numbers, making it easier to calculate the results.

"Sixth prince, What About You?" The gray-robed emperor expressed his deep expectations.

The second prince, the third prince, and the fourth prince did not think much of it. At that time, they had all heard him admit that there were only less than three groups.

Su Yu did not answer. Instead, he asked, "I want to hand over my own to Princess Ru Chen."

The gray-robed emperor was solemn. "Are you sure?"

He hoped that Su Yu, and not princess ru Chen, would ascend the throne the most.

"Yes!"

"Do you understand the meaning of this?" The gray-robed emperor asked again.

Su Yu nodded slightly.

The gray-robed emperor looked at him deeply for a long time, he sighed regretfully. "Alright, if you insist, I won't be able to stop you. If you're willing, you can transfer the operation of the country to increase the number of princes and princesses, but you'll also lose the qualification to become the Crown Prince."

The second prince said indifferently, "In any case, all of you added together won't be able to obtain as much as the first prince alone. What's the point of transferring?"

"That's right, sixth brother. Don't waste everyone's time. Everyone has been tired for the past month and wants to cultivate immediately," the third and fourth princes said one after another.

They had no hope of seizing the crown prince, so they were already disheartened.

Su Yu nodded and walked to the front of the emperor in a gray robe. He took out a small pocket that was bloated excessively. "Please check it, senior."

Chapter 1834 The Princes Joined Forces

Eh? The princes were stunned.

Was this the pocket for the National Luck? Why was it so swollen?

The second prince was stunned. He said nonchalantly, "If the national luck is too much, there will also be swelling. It's not surprising."

He patted his pocket, afraid that it would also look a little swollen.

Although the national fortune he obtained was only equivalent to two balls of emperor-level national fortune, because the ancient beasts he hunted were not very strong, it caused the pocket to swell.

Hearing what he said, the other princes did not care.

Only the first Prince's face sank.

Only he was clear that the swelling of the pocket was definitely not because there was too much low-level national fortune.

In that pocket, there were at least eight emperor-level national fortunes.

Together with Princess Ru Chen's own, there was a total of eleven emperor-level national fortunes.

And he, after all calculations, only had ten.

What should he do? He had been scheming for so long and did not want to admit defeat just like that.

As he thought about it, suddenly, an idea flashed through his mind.

An extremely bold idea appeared.

"I'll go all out. I can only give it a try!"

All of the princes looked at Su Yu with different expressions as he handed his pocket to the gray-robed emperor.

The gray-robed emperor was also a little surprised. It was rare for his pocket to swell. Usually, it was due to the fact that he had captured more national fortune.

With Su Yu's cultivation as a peak overlord, the gray-robed emperor somewhat understood why the sixth prince was willing to hand his pocket over to Princess Ru Chen.

He probably didn't have much fortune and knew that there was no hope, so he made some sort of exchange with princess ru Chen.

With this thought in mind, he waved his hand and poured out all the fortune.

Crash --

The fortune of all sizes was colorful and scattered all over the ground.

The small ones were only the size of a fist, while the big ones were half a meter in size.

The fist-sized ones were only about 200 or so, which added up to about two emperor level ancient beast souls.

The big ones were actually up to ten!

The small ones, apart from the 80 or 90 or so groups that Su Yu killed himself, had also robbed a group of people from the second prince when he saved Empress Zi Wei, which added up to only about 200 or so.

In total, it was equivalent to 12 groups of emperor level national fortunes.

The several princes were all stunned.

Even the first prince, who had long been mentally prepared!

In addition to those seven groups, he had also killed three emperor level ancient beasts. Moreover, the scattered ancient beasts had also killed an astonishing number.

The second prince, the third prince, and the fourth Prince were all shocked on the spot.

“Didn’t you say that there were only three groups of Emperor Level National Fortunes?”The second prince was greatly shocked and asked involuntarily.

Su Yu said indifferently, “Do you believe everything I say?”

The second prince was speechless. If it was him, he would also hide it.

However, there were too many of them, so many that he could not imagine.

The gray-robed old man’s eyes shone brightly. He rolled up his sleeves and immediately rolled up all the national luck, pressing it into a cauldron.

Not long after, a string of numbers appeared in the cauldron.

“The total amount of nation’s fate is 12,300! !”The gray-robed Emperor announced excitedly.

He really did not expect that Su Yu alone would be able to obtain so much nation’s fate, breaking the best record in the past.

“This is too shocking!”The gray-robed emperor could not suppress his excitement. He really did not misjudge people. Anyone who could condense one of the eight great laws was definitely not simple.

At the same time, he was even more confused. Why did Su Yu give all of the country’s fate to princess ru Chen when he could have ascended to the throne himself?

“Sixth prince, this old man will ask you one last time. Do you really want to give the country’s fate to Princess Ru Chen voluntarily?”He secretly gave Su Yu a look, asking him not to do so.

“Yes!”However, Su Yu did not seem to hear him and agreed without hesitation.

Sighing silently in his heart, the gray-robed emperor did not say anything else. He gathered princess ru Chen’s three scattered national fortunes and placed them into the same cauldron.

The total value displayed was 15,400!

Princess Ru Chen Cried Tears of joy.

The outcome was set!

No matter how powerful the first prince was, could he surpass this value? Impossible!

Her dream was finally about to be fulfilled!

She wanted to ascend the throne and become the empress. She wanted to gather the strength of the entire nation to annihilate the former eldest princess of Emperor Yu's dynasty, Dongfang shenlei, and her followers. She wanted to avenge her mother and her uncle!

Her long-cherished dream was about to be fulfilled.

She gazed deeply at Su Yu, her chest filled with unspeakable gratitude.

She was grateful that fate had allowed her to meet someone like Su Yu.

He was extremely powerful, yet he still kept his promise. He could have become the ruler of Emperor Yu's dynasty, yet he still kept his promise.

At this moment, princess ru Chen would not refuse any request from Su Yu. She was willing to do everything in her power to repay him.

From Afar, emperor traceless also left behind tears of excitement.

He had finally reached this step!

Staring deeply at Su Yu, she silently thanked him countless times in her heart.

The gray-robed emperor appeared to be dispirited as he indifferently said, "Next, fifth Prince."

The fifth Prince stepped forward and took out a slightly bulging pocket. It was filled with bits and pieces of the nation's fate.

"3200,"the gray-robed Emperor announced expressionlessly.

"I'll pass it to eldest brother."

"Sure."The gray-robed emperor did not even try to persuade him to stay. He readily agreed.

"Next."

The fourth Prince also took out a bag of about the same size. He didn't seem to mind.

In any case, it wasn't his turn.

At this moment, his ears moved slightly, as if someone was transmitting a message to him.

He showed some signs of struggle. In the end, his expression changed as he looked at Su Yu in bewilderment.

"Hurry up."The gray-robed emperor was impatient.

The fourth Prince returned to his senses and clenched his teeth slightly. "I'll hand it over to eldest brother as well!"

Eh? Everyone's expressions changed.

They weren't surprised that the fifth Prince would hand it over to the eldest prince. The fifth Prince had always followed the eldest prince's lead.

But what was going on with the fourth prince?

The relationship between the two was very shallow.

The gray-robed Emperor's gaze flickered as he asked, "Are you sure?"

"Yes! Hand it all over to eldest brother!" The fourth Prince affirmed.

At this moment, princess ru Chen and Emperor Wu Hen's expressions changed.

What happened? Why would the fourth Prince make such a decision?

The gray-robed emperor gazed deeply at him and nodded. He left his nation's fortunes to one side. "3,100."

"Next, the third Prince!"

Unexpectedly, the third prince came up and immediately said, "I'll hand everything over to eldest brother!"

Everyone's expressions completely changed, and the imperial relatives began to secretly discuss.

At first, they thought that the first Prince would definitely win first place, but then they felt that it was Su Yu. Now, the situation had undergone a strange change.

The gray-robed Emperor's expression became solemn. He also felt that something was amiss.

"Alright." He also left his nation's fate to one side. "Three thousand."

"Second Prince!"

The second prince walked over hesitantly, and there was still some hesitation in his eyes.

His gaze bounced back and forth between Su Yu and the first prince. In the end, he gritted his teeth and said, "Hand over all of mine to the first Prince."

Everyone's pupils constricted.

All the princes fell to the first prince!

"Two thousand! The first prince, come up!" The gray-robed emperor shouted.

The first prince walked up with a calm expression. There was a victorious smile at the corner of his mouth.

Princess ru Chen and Emperor Wu Hen's hearts clenched together.

The second prince, the third prince, the fourth prince, and the fifth prince. The four princes added up to more than 11,000.

The first prince only needed to take out another five balls of Emperor Rank Ancient Beast's national luck to turn the defeat into victory!

At this moment, everyone's hearts clenched.

Only a small portion of those who knew the inside story had different expressions.

The four princes knew about the first prince. How many Emperor Rank National Luck did he have? There were a total of seven!

For example, Princess Chen had two more.

Those two were the absolute difference!

The gray-robed emperor nervously opened his pocket, and all eyes were focused here.

The time to decide fate had arrived!

All the national fortunes poured out and pressed into the cauldron, showing a string of extremely clear numbers: "Seven thousand one hundred!"

He sighed silently in his heart. Sigh, he was one move short!

What a pity, what a pity!

The sixth prince was a heaven-bestowed genius. He had single-handedly seized 12 balls of nation's fate, creating a grand event in the imperial dynasty that would suppress the rest of history.

Unfortunately, he could not win against the collusion of several princes!

Although he had lost, it was still glorious.

Many years later, in the history of the imperial dynasty, there would be records of a certain dynasty's sixth prince's stunning stroke of time and space.

The gray-robed emperor was secretly regretful. With a wave of his sleeve, the fortunes of the princes stacked up to 17,400!

In the end, two cauldrons were placed in front of the gray-robed emperor.

One was Princess Ru Chen, 15,400!

The other was the first prince, 17,400!

The latter had an additional 20,000!

Emperor Wu Hen's face was gloomy and extremely bitter.

No one would have thought that it would end up with all the princes ganging up on the sixth prince and Princess Ru Chen.

The unfair comparison caused them to lose their last hope!

Princess ru Chen's face was utterly defeated and her eyes were slightly dazed.

She was unwilling to be defeated in such a manner in the end, but so what?

Defeat meant defeat!

However, she did not give up. Instead, she turned to comfort Su Yu and forced a smile. “You’ve been working as hard as you can. I’m very grateful to you. You have no responsibility for this defeat.”

With all the princes working together to suppress her, no one would be able to win.

Su Yu sighed and rubbed her head. He could not help but feel sorry for this princess.

With the first prince in charge, the other princes might be able to escape. Only she, who had revealed her ambition and almost threatened his position, could not stay.

In this life, forget about avenging his mother and uncle. He would most likely have to live a poor and homeless life.

The gray-robed Emperor looked at the two cauldrons and said indifferently, “If there are no objections to the testing process, then this old man will seal the fate of the two cauldrons and wait for the monarch to return before handing them over to him.”

The conferment of the Crown Prince Required Dongfang Xia to personally preside over it. The gray-robed emperor could not make such a decision.

The first prince smiled and nodded. He looked at Su Yu in high spirits and could not stop laughing in his heart. So what if your strength was shocking?

He would be the one to become the future crown prince!

“What About You?”The gray-robed emperor looked at Su Yu.

Su Yu was about to nod when he suddenly sensed something. He frowned and then changed his expression. “I have an objection!”

Eh? His words once again stirred the hearts of everyone. Could it be that the sixth prince still had the luck of the nation?

The gray-robed emperor also revealed a curious expression. “You still have the luck of the nation that you haven’t brought out?”

“No, I’ve already brought out all of mine,”Su Yu replied truthfully.

The first prince’s pounding heart slowly calmed down. Su Yu’s words just now had truly given him a fright.

The other princes also took a deep breath. Su Yu was unfathomable and had truly frightened them.

They were afraid that Su Yu had some sort of backup plan.

The radiance that had just risen on princess ru Chen’s and Emperor Wu Hen’s faces rapidly dimmed.

The gray-robed emperor said indifferently, “If you don’t have it, then...”

“I don’t have it, but I still have my spirit pet. Come out!”Su Yu pulled through the air.

Chapter 1835 Dynasty’s Seal

Somewhere in the sky, in a chaotic space, a petite girl in colorful clothes was forcefully teleported out by Su Yu using spatial laws.

“What’s going on with this broken relic? It trapped me inside and didn’t let me out! It insisted on me biting through the restriction and running back through the Void!” Xiao die mumbled as she chewed on a piece of restriction fragment.

Everyone was stunned.

“What did she say?” Many people didn’t believe their ears.

“She said that she was forced to stay in the relic, and then... then she bit through the restriction and ran back.”

Everyone was at a loss. They didn’t understand who the mysterious girl was or where she came from.

The gray-robed Emperor’s expression changed slightly. He turned his head to look at the restriction behind him. The restriction was flickering, and it was showing signs of damage.

Fortunately, the damaged area was not large, and it quickly repaired itself.

A shocked expression appeared on his face. Eating a restriction? It was simply unheard of!

“Who are you?” The gray-robed emperor shouted in a deep voice.

Xiao Die glared at him. “Old Fellow, why are you shouting? If you continue shouting, I’ll eat you!”

The gray-robed emperor was so angry that he blew his beard and glared. The aura of a double-crowned emperor was released.

“Senior, please wait. She is my spiritual pet.” Su Yu stretched out his hand and placed it on Xiao Die’s shoulder, pressing down on her who was about to flare up.

“Spiritual pet...” the gray-robed emperor was stunned. The girl in front of him was clearly a human. How could she be a spiritual pet?

Alright, it was not a rare thing to take in beautiful women from various races as spiritual pets.

It was not that the sixth prince could not understand why he had such a taste.

The gray-robed emperor suppressed his anger and said, “You’re saying that this spiritual pet has the fate of the nation?”

Nodding, Su Yu said, “It’s not against the rules for your spiritual pet to help seize the fate of the nation, right?”

The gray-robed emperor shook his head. “Spiritual pets are also a part of one’s strength. Naturally, it’s not against the rules.”

The matter of the five princes working together to suppress a prince and a princess could be allowed. So what if a mere spiritual pet helped?

Even the first prince only frowned. He did not dare to say that this was against the rules.

However, he was not very worried when he carefully examined Xiao Die's aura.

This spiritual pet did not have the slightest aura of an emperor. In other words, it did not even have the aura of a peak overlord.

What kind of ancient beast could such a spiritual pet kill? It could not be a god-tier one, right?

He smiled contemptuously.

The second prince and the other princes were also stunned for a moment before they smiled faintly.

"Sixth imperial brother actually placed his hopes on such a spiritual pet. Looks like he really doesn't have any other tricks up his sleeve." The princes exchanged glances and secretly laughed.

Su Yu didn't know Xiao Die's exact strength either. Ever since she woke up, she had never made a move.

"How many ancient beasts have you killed? Press down, I want an emperor rank ancient beast or above." Su Yu rubbed her head and asked.

Xiao die stretched out her index finger. "One."

Only one. Su Yu sighed in his heart.

Although it was unexpected that she could kill an emperor rank ancient beast, it was still too little.

The first prince and the others were shocked and let out a long sigh of relief. What a close call. This unremarkable young lady was actually able to kill an emperor rank ancient beast. It was unbelievable!

The gray-robed emperor said, "Take it out."

Xiao Die glared at him and angrily slammed a shriveled bag onto the table. "HMPH, take a look for yourself!"

The gray-robed Emperor's expression was indifferent. He opened the bag and poured out the nation's luck in front of everyone.

In the end, he shook it, but it didn't come out.

"What's the situation?" The gray-robed emperor muttered to himself. He clearly felt that there was nation's luck inside, but it didn't come out. This was the first time he had encountered it.

"Break!" He simply tapped it with one hand.

However, with a slight rumble, his pocket exploded.

A ball of national fate that had grown from small to large was like a rapidly expanding balloon. In the blink of an eye, it expanded from the size of a fist to a size of 500 meters.

The gray-robed emperor was caught off guard and was forcefully pushed back by the national fate, crashing into the restriction.

“Ah! What’s that? It’s So Big!”

The princes were also pushed back and were unable to see the full picture at a close distance.

However, those who were watching from afar were petrified as they stared unblinkingly at the huge country’s fate. They were all dumbfounded.

The first prince was stunned. He stepped back to take a look at the original appearance of the huge object and was petrified in an instant.

The other princes did the same as well. They all looked as if they had seen a ghost.

At the instant the country’s fate swelled, Su Yu pulled princess ru Chen back.

He looked at the huge object and was slightly stunned. Then, he smiled lightly. “You’re really lucky. You got lucky.”

Xiao die raised her neck. “Stop it! I spent a lot of effort to eat that Crow. However, it tastes pretty good. It’s just a little worse than those fierce souls.”

The speaker didn’t mean it, but the listener did.

The princes’bodies trembled as they looked at Xiao die in shock.

“Crow... could it be the evil crow, the ancient beast of the double-crowned emperor that was injured by Su Yu and Bei Wangchen in the ruins of Yu the Great?”

Later on, when Su Yu and true monarch fire dragon were fighting, the evil Crow had already disappeared without a trace, and no one knew where it went.

Unexpectedly..

In this case, this incredible national fortune was... the national fortune of the double-crowned ancient beast!

The gray-robed Emperor’s eyes were filled with shock as he stared at Su Yu’s spiritual pet with his scalp tingling.

That evil crow had been... eaten by her?

He finally believed that this spiritual pet had only come out after eating the restrictions of Da Yu’s remains.

After calming himself down, he spent a great deal of effort before he was able to barely force the huge amount of national fortune into the cauldron.

“100,000!”The gray-robed emperor could not help but be excited. This was the national fortune of a double-crowned emperor, which was 100 times that of a single-crowned ancient beast!

“I will still gift it to my younger sister,”Su Yu said indifferently. His tone was firm and without the slightest hesitation.

The gray-robed emperor sighed once again and poured the 15,400 national fortune into it.

He looked at the princes and princesses again. “Any objections?”

The faces of the first Prince and the others were ashen. Up until now, they were petrified and could not regain their senses.

So what if they had objections? Could they produce 100,000 national fortune?

“Since there are no objections, then seal the Cauldrons and wait for His Majesty to personally announce the results of the succession. Now, the battle for the national fortunes of the Great Yu ruins has officially ended!” The gray-robed emperor waved his hand and put the two cauldrons away.

With this announcement, the battle for the national fortunes that affected the entire dynasty had finally come to an end.

Princess ru Chen’s residence was filled with joy. All the relatives and relatives of the various emperors stepped through the door and came to congratulate her.

In the past, Princess Ru Chen was not taken seriously by any of the relatives of the emperors. Instead, she became more acquainted with the first prince.

Now, she was the future emperor of the Great Yu imperial court!

Princess ru Chen was exhausted from dealing with the situation. Even Emperor Wu Hen was busy.

Su Yu stood in the sky above the sixth Prince’s residence and looked at the bustling princess residence. He smiled faintly and said, “Let’s go.”

“Aren’t you going to say goodbye to her?” Xiao die was sprawled on the roof. She had dragon meat in her left hand and dragon blood in her right. She felt extremely uncomfortable.

This was Su Yu’s reward to her.

“There’s no need. I’ve fulfilled my promise. Let’s go then,” Su Yu said calmly.

Dongfang Xia was about to return. Emperor Yu of the Great Yu Empire could not stay any longer.

With his identity as the sixth prince, it was easy for Su Yu to leave the imperial palace.

Not long after, he used the teleportation array that was used by the imperial court and arrived at the border of the Empire. He looked to the north at the fiefdom.

He arrived at the entrance of the border with ease and was about to take the meteorite to leave.

Who knew that the entrance and exit of the border were all sealed!

A large number of imperial guards stood guard at the entrance, not allowing anyone to enter or leave.

Su Yu was shocked. The border of the imperial court of Great Yu was sealed?

He pulled a nearby overlord and asked, “When was the border sealed?”

Seeing that he was of the same level, the other party still gave him face and said in surprise, “Brother, you are not from the north-looking fiefdom, right?”

“I am from the Imperial City.” Su Yu had a bad feeling.

“Oh, then no wonder!” The other party suddenly understood and said, “As early as a month ago, all the entrances and exits of the imperial dynasty were closed. Not only the north-looking fiefdom, but the entrances and exits of the border fiefdom were also closed. You are in the imperial dynasty, so information is blocked, so you don’t know yet.”

Su Yu’s pupils constricted slightly.

A month ago, wasn’t that when the ruins of Emperor Yu started?

Something was wrong!

Dongfang Xia was chasing after the fire dragon of the double-crowned emperor. He hadn’t returned yet, so who had the right to order the closure of the entire territory of Emperor Yu’s dynasty?

Su Yu had calculated everything, but he had never expected that the borders of Emperor Yu’s dynasty had been closed.

Looking at the stance of the imperial guards of the dynasty, it was impossible for them to leave with bribes like last time.

Su Yu came to the Snow Lion fief and entered the black market with ease.

Different from the past, the current black market was filled with an indescribable pressure.

He could often see some mysterious people who looked hesitant or walked quickly as if something big had happened.

It seemed like something big had really happened in Emperor Yu’s dynasty.

He came to the black market to sell information. This place, which was relatively quiet, had now become the most prosperous area in the black market.

People crowded from the hall to the street, lining up for more than half of the street.

“As expected!” Su Yu’s heart sank again.

He thought about whether he could enter the information shop earlier, but a charming voice suddenly sounded behind him.

“Sixth Prince, why do you have time to come to our black market? Are you here to confiscate our black market?”

Looking back, Su Yu recognized him. He hesitated for a moment, then cupped his fists and said, “So it’s the head shopkeeper of Magical Cheng Tian’s illusionary charm.”

Illusory charm looked at Su Yu with a faint smile and teased, “Aiyo, I wouldn’t dare. No matter what, I’m a member of the black market. The sixth prince is now a member of the royal family of the Great Yu imperial court.”

Su Yu frowned slightly. "If you have something to say, just say it. There's no need to beat around the bush."

If he really wanted to destroy the black market, he would have done so long ago.

This was something that illusory charm knew.

"Hehe, it's so easy to talk to the sixth prince." Phantom smiled and said, "As for me, I want to make a deal with the sixth prince."

Right now, he only wanted to leave the Emperor dynasty of Great Yu as soon as possible. He was really not interested in a deal.

"Speak." He controlled his temper.

"The sixth prince will help us do something. We will help the sixth prince leave the Emperor dynasty of Great Yu."

Su Yu's pupils constricted slightly. He said calmly, "You must be joking. Why should I leave the Emperor dynasty of Yu the Great?"

"PFFT!" Phantom covered her mouth and laughed. "Now, those who come to the black market to look for information businesses have only one purpose. To smuggle people out of the Emperor dynasty of Yu the Great."

Su Yu's expression changed. He stared at her and said after a long while, "Then why do I have to help you with something? Giving money to the information businesses is more secure no matter how you look at it."

Phantom smiled strangely and said in a low voice, "Hehe, what kind of smuggling method does the sixth prince think is able to accommodate so many people without being detected?"

In other words, the intelligence agency was taking the opportunity to peddle false information and make a sum of money before running away.

Chapter 1836 Ancient Fuyao Array

Su Yu's expression changed slightly as he stared at the huge crowd of people lining up.

He believed that there was indeed a method to smuggle people, but to smuggle so many people at the same time... to be exact, there should be more.

Emperor Yu of the Great Yu dynasty had sealed off the borders for more than a month, and there were so many people lining up every day.

The number of people in a month was an astronomical figure.

One could sense that something was wrong with the numbers.

Unless the royal family opened the back door, no one would be able to smuggle all of these people out on such a large scale.

The possibility of the intelligence agency taking advantage of this opportunity to make a profit was very high!

After all, the Star Alliance Chamber of Commerce was still a black market in Emperor Yu's dynasty. In addition, Emperor Yu's dynasty was about to fall into chaos, so it was not impossible for them to take advantage of the situation.

Unreliable!

After pondering for a moment, Su Yu made a decision.

"Your Star Alliance Chamber of Commerce is so powerful that the Emperor Yu dynasty can secretly distribute the black market to all the fiefdoms. I don't know what you need my help for." Su Yu's eyes flashed slightly.

Phantom giggled and said, "No matter how powerful we are, we are not powerful enough to bribe the royal family."

Su Yu's eyes flashed. "You want me to use the power of the Prince?"

He was only the most ordinary sixth prince. Currently, he did not control any power in the dynasty. He really could not think of anything worth the Star Alliance's Chamber of Commerce befriending.

"Giggle, it's so easy to talk to the sixth prince! We hope that the sixth prince can use your identity to take us to a place."

After pondering for a moment, his pupils contracted slightly. "You want me to take you to the Imperial Palace?"

The world was so big that there was no place that the Star Alliance Chamber of Commerce could not go, except the imperial palace.

"Hehe! That's right." Phantom laughed.

"Does the imperial palace have anything to do with leaving the Emperor Yu Dynasty?"

Phantom nodded deeply. "Of course it does. The borders of the dynasty are all sealed. There is only one way to leave this place, the inter-civilization teleportation array."

"What's That?" It was the first time he had heard of such a thing.

Phantom said, "In short, it's able to move people from one civilization to another. All you need to do is consume a star stone and a civilization map."

Star Stone, civilization map?

"Sir, you've told me so much in detail. Aren't you afraid that I'll leave alone? Since that inter-civilization teleportation formation is inside the palace, it won't be too difficult to search."

Phantom looked indifferent. "Hehe, why do you need to look for it? The intercivilization teleportation array is right below the palace. I can give you the map."

She took out a fragrant map from her mature chest.

The map clearly depicted the withered ley lines under the palace. It was exactly the same as the map in Phantom Moon Langjun's memory.

It was a real map!

The map of the inter-civilization teleportation array was even more clearly marked.

Su Yu frowned slightly and asked in a serious voice, “Are star stones and civilization maps very rare?”

Fantasy charm chuckled and said, “What do you think? “Every civilization only had one star stone and civilization map when they were born. Unfortunately, we, Miao Cheng, have been collecting treasures all over the world and accidentally obtained one star stone and civilization map. It was left behind after a three-star civilization collapsed

“Unless you can find the missing star stone and civilization map of Emperor Yu’s dynasty, I’m afraid it’s useless even if the sixth prince knows where the ancient array is.”

The star stone and civilization map of Emperor Yu’s dynasty?

Why did they disappear?

However, it was no longer important, and it was impossible to search for them in a short period of time. In the entire Emperor Yu’s dynasty, only Miao Cheng Tian had the star stone and civilization map.

“How many people are there?” Su Yu asked after some thought.

“A hundred.”

There were quite a few people, but not too many. It would not be a problem to bring them into the dynasty.

“You guys have earned quite a bit of money from this, right?” He did not believe that the hundred people were all Miao Cheng Tian’s.

“Business Secrets, Hehe.” Phantom smiled smugly.

Su Yu could not be bothered to ask further, “As long as one of the hundred spots is mine, I can bring you guys in. Otherwise!”

With his strength, he wasn’t worried about being taken advantage of.

“Don’t worry. We are merchants. We only want money. There’s no need to create unnecessary risks just because of a single slot.”

“That’s for the best. When do we set off?”

“Now!”

So Urgent? It seemed like the situation in Emperor Yu’s dynasty was very grim.

“Then let’s set off!”

After organizing everything briefly and putting away all the treasures that Miao Chengtian had obtained over the past five years, phantom brought the nine shopkeepers back to the imperial city with Su Yu.

They disguised themselves as Su Yu's followers and entered the imperial city together.

With Su Yu's prestige in the imperial family, it was not too difficult for him to bring 100 people into the palace.

At the edge of the Imperial Palace, at the junction of a certain restriction, fantasy charm accurately found a passage leading to the underground. It was as if it had been opened by someone and had been prepared for a long time.

One by one, the abandoned ley lines could be clearly seen.

Su Yu said thoughtfully, "Can I ask you a question? Do you know why the Great Yu Emperor Dynasty sealed off the borders?"

Fantasy charm shook his head with a bitter smile, "I thought that as a prince, you would know some information! "We don't know the specific reason, but we only know that it was very sudden. All the entrances and exits of the borders were sealed off at the same time. Such a big move must have been arranged by Dongfang Xia. He must be targeting some people. For safety reasons, it's better for me to leave as soon as possible."

Under the lead of Phantom, they easily passed through the maze-like withered ley lines.

After a long time, they did not know how deep they went underground.

Suddenly, they heard waves of discussions. There were quite a number of people.

Su Yu's heart moved. He quietly took out a leaf to cover his eyes and changed his appearance.

Because of those discussions, he actually heard several familiar voices and some familiar words.

"Using the ancient Fuyao array this time is our only hope of escaping."

"That's right. Fortunately, the ancient Fuyao array of Emperor Yu's dynasty was kept and not destroyed. Otherwise, it would have taken us a lot of effort to escape from Emperor Yu's dynasty."

"I really don't know what Dongfang Xia is thinking. There is clearly a double-crowned fire dragon that is extremely threatening. He didn't use all his strength to capture it, but he suddenly sealed off the entire territory of Emperor Yu's dynasty. What is he up to?"

"I don't care. No matter how much I have to pay, I have to leave Emperor Yu's dynasty. I am getting more and more uneasy."

Suddenly, they also sensed the arrival of Huan Mei and the others. They all kept quiet and became very vigilant.

When they saw that it was Huan Mei, they all heaved a sigh of relief and smiled as they went forward to greet him.

“Huan Mei, you are finally here!”

“We thought that Huan Mei’s shopkeeper would not come.”

Phantom smiled insincerely. “I’m not as resourceful as all of you. I Can’t enter the palace easily. If I hadn’t met a capable person, I don’t know how long it would have taken for me to enter.”

She glanced at Su Yu, who was in disguise, but she didn’t expose him.

Everyone casually glanced at Su Yu and didn’t care.

Su Yu instead sized them up.

He really didn’t expect that there were nearly a hundred people who could hide under the palace without anyone noticing.

How did they get in?

Even someone of illusory Phantom’s level needed a prince to lead the way. How did the person in front of him do it?

Su Yu couldn’t help but smile as he swept his gaze over them. There were so many familiar faces, so many that it was inconceivable!

The pear king of the beixin fief, the injured Beiwang Chen, the Beiwang Pavilion, the Beiwang Pearl, and a middle-aged emperor of the Beixin clan whom he had never seen before. They should be the current head of the Beixin clan.

They stayed in a corner and didn’t say a word.

The entire Beixin clan was preparing to escape from the fief!

It seemed like they were worried that the news of Beixin King Cauldron’s loss would leak out and were preparing to flee with their entire clan.

Unfortunately, Emperor Yu’s dynasty had a sudden change. All the border entrances and exits were sealed overnight, and they could only escape through the inter-civilization teleportation formation.

Looking at the rest of the people, there were still many familiar faces.

Corpse Emperor! Lan Yue! And the Emperor’s corpse! They were leading a group of corpse clansmen!

They were preparing to release evil dragon sage-lord in the ruins of Yu the Great. They wanted him to destroy the members of the imperial family and Dongfang Xia at the same time. This would make it easier for the corpse clan to invade the entire Emperor Yu’s dynasty.

However, they were discovered by Su Yu. God’s plan was better than man’s!

“Corpse Emperor, let’s take the long view. There’s no need to shake our confidence just because of a momentary loss.”

What made Su Yu even more amazed was that there was a woman in white standing next to the corpse emperor.

She was no stranger to Su Yu.

She was the eldest princess of the Great Yu imperial court, Dongfang Shenlei.

Last time, she failed to assassinate Su Yu with Luoshen Lei, so she went into hiding and disappeared without a trace.

She was actually here!

One could imagine how shocked Su Yu was.

The group of people standing behind her were, as expected, all famous criminals on the wanted list. They were all enemies of Su Yu's imperial court.

"Hehe, they're all here." Su Yu was secretly amused, but he had a bad feeling about this.

Was this a coincidence?

The people present were either the archenemies of the Emperor Yu's dynasty, the corpse clansmen who threatened the emperor Yu's dynasty, or the traitors who wanted to betray the Emperor Yu's dynasty.

It was really a coincidence that all of them were gathered here.

"This little brother doesn't look familiar!" A middle-aged man who had always been alone with Yu walked out from among them.

He had broad shoulders and a broad back. There was a long scar on his forehead, but it did not reflect the temperament of the middle-aged man. Instead, it added a bit of a wild and bold air.

Huan Mei said, "Scarblade Xiong, he's someone from my wonderful heaven. It's normal that you haven't seen him before."

The middle-aged man named Scarblade Xiong in front of him was also very famous in the Great Yu imperial dynasty.

He was the ninth most wanted criminal on the list of criminals.

In the past, he had killed hundreds of millions of creatures at the borders of the Emperor dynasty and cultivated some kind of bloodthirsty divine art.

This person was listed as the ninth most wanted criminal by the great Yu Emperor Dynasty. For many years, the wanted criminals had failed.

This time, the entire great Yu Emperor dynasty was sealed off. He felt that something was wrong and prepared to escape.

"Oh? is that so? I'm a regular customer of your wonderful heaven. Why haven't I seen him before?" Scarface Xiong stared at Su Yu, his eyes revealing traces of suspicion.

Huan Mei laughed angrily, "I say, aren't you being too paranoid? Barging into the imperial palace to open the ancient Fu Yao Array, this is a capital offense. Do I need to bring unreliable people to threaten my own life and Death?"

With this question, Scarface Xiong nodded slightly.

That was true.

Who was suspicious, only Huan Mei was not.

“Alright, I apologize to little brother. Then now, isn’t it time to open the ancient Fu Yao Array? If I stay any longer, I’ll feel uneasy all over.”Scarface Xiong shrunk his neck.

Although the others did not rush him, their eyes were filled with anxiety.

“Alright, let’s not waste any time. Let’s set off now.”Phantom nodded.

She came to a seemingly ordinary withered earth vein wall and lightly hit it with her palm.

Immediately, the entire wall shook violently, shattering a large amount of dust and gravel.

Strange patterns appeared on the wall.

A strange light circulated within the patterns, emitting a powerful energy that was enough to contend against nothingness.

The word “Fuyao”was faintly discernible and embedded deep within the wall.

Chapter 1837 Dongfang Xiaxian

“This is the ancient Fuyao Array?”Su Yu stared at it, his eyes twinkling. He felt that it looked familiar.

Then, Huan Mei carefully took out a fist-sized black stone and a silver scroll.

On the scroll, specks of light that looked like stars scattered everywhere. There were lines connecting each other.

Seeing these two things, Su Yu’s heart skipped a beat.

“It’s That Thing?”

Her heart trembled, but her expression did not change. Her eyes quickly regained their calmness.

Phantom stuck the silver scroll on the wall of the pattern. The pattern immediately revolved and a fist-sized whirlpool appeared. The size was exactly the size of a black stone.

She shouted in a low voice, “Everyone, enter the range of a thousand feet from the ancient formation!”

Everyone came closer one after another.

Su Yu also stood on the Fuyao ancient formation without batting an eyelid.

Seeing that everyone was ready, phantom pressed the star stone into the whirlpool.

Instantly, the entire texture released an intense light.

100,000 ley lines, those ley lines that had yet to wither were being crazily sucked out of the Earth’s energy, rapidly withering.

Su Yu saw this and was suddenly enlightened.

No wonder there were so many intersecting and withering ley lines beneath the imperial family. So that was how it was.

Every time this ancient Fuyao formation was used, it had to absorb an incomparably large amount of ley lines' energy before it could be activated.

Presumably, it had been used several times before the scene of the withering ley lines being everywhere today could be seen.

But no matter what, they could finally leave.

The vein lines became brighter and brighter, and the entire dark world of withering ley lines was illuminated until it was dazzling and bright.

The powerful white light even penetrated the surface of the earth and reached the sky above the imperial family.

Princess ru Chen and the other princes were all alarmed.

The gray-robed emperor seemed to have thought of something after being stunned for a moment. His expression changed drastically, and he let out a furious roar from the depths of the imperial palace, "Who dares to act rashly in the Fuyao Ancient Formation! ?"

He smashed the ground beneath his feet with a punch, revealing the withered earth veins, and desperately chased after the Fuyao ancient formation.

Unfortunately, the ancient Fuyao Formation had already been activated, and he was unable to stop it at all.

Huan Mei also tightly clutched the starstone, the corners of his mouth curling into a smile. "Everyone, we are fated to meet again! Ancient Formation, open!"

Accompanied by his loud roar, everyone was swept up by the white light and entered the teleportation.

One Breath passed, two breaths passed, three breaths passed..

Ten breaths passed, but the white light was still on the spot. It had no intention of starting the teleportation.

"What's going on?"

"Why hasn't the teleportation started yet?"

"Strange, shopkeeper Phantom, what the hell are you doing?"

At this moment, the blinding white light started to dim, and the ancient Fuyao array gradually stopped operating.

A scene that caused everyone's gazes to change drastically appeared before their eyes.

They saw a phantom being tapped on the wall by a finger. Its head was pierced through, and its soul was destroyed!

As a peak overlord, she died without a sound or movement.

Following the finger, everyone looked at her master and their expressions changed again.

“Scarblade Xiong, are you crazy?” A fatty with a fierce face kicked at him.

However, just as he lifted his foot, the fatty suffered a terrifying force and turned into a bloody mist with a bang.

Scarface Hung’s expression was calm as he released his fingers. Phantom’s corpse moved along the wall and became limp.

His expression was calm as he walked over with his hands behind his back. With a light grab, he dug out the star stone that had yet to melt.

“Scarface Hung! Stop!” A well-known sinner flashed with a fierce light as he grabbed a huge knife and slashed towards his waist.

However, when the blade touched Scarblade Xiong, the sinner turned into a cloud of blood just like the fatty from before.

“What’s with Scarblade Xiong? What’s so powerful on him?” The eyes of the group of peak overlords narrowed.

Only the expressions of the emperors changed as their faces sank.

The Emperor Corpse’s expression was solemn as he said in a low voice, “If you’re not Scarblade Xiong, then who are you?”

The Real Scarface Xiong was at most an emperor.

However, the situation just now had easily turned a peak overlord into a bloody mist. That was not something that a single crowned emperor could do.

Scarface Xiong looked at him indifferently. With just a glance, the emperor corpse’s eyes were wide open as his body suddenly flew backwards and smashed into the wall. His chest caved in and a fist-sized deep pit was formed. He opened his mouth and spat out a large amount of corpse qi.

The emperor’s corpse was a true double-crowned emperor, and one of the best among them. It was actually... it was actually killed with just a glance!

Everyone’s expression changed when they looked at Scarblade Xiong.

“You are...” the emperor’s corpse did not die. It struggled to get up, and its face was filled with shock.

Scarblade Xiong held the Star Stone and said indifferently with his hands behind his back, “You used our great Yu’s ancient Fuyao Array, but you didn’t even greet me. You still want to ask who I am? hehehe...”

For a moment, the entire place fell silent.

Everyone’s eyes were focused on Scarblade Hung as his entire body flashed with light, causing his image to change.

He was no longer Scarblade Hung, but a middle-aged man with a crown on his head.

He smiled as he stared at everyone, "Everyone, who do you think I am?"

Among the crowd, a woman's mouth was filled with fear and hatred as she screamed, "Dong! Fang! Xia!"

He was the current monarch of the great Yu Emperor dynasty, the strongest monarch in the history of the dynasty!

Dongfang Xia!

Dongfang Xia, who was clearly chasing after the twin-crowned fire dragon, actually managed to sneak into their midst.

One had to know that they had already started to set up the Fuyao ancient formation a month ago.

If he had snuck in at that time, didn't that mean that there was someone else chasing after the twin-crowned fire dragon?

"Hehe, imperial sister, it's been a long time. I miss you very much." Dongfang Xia laughed with her hands behind her back.

The person who screamed was naturally the eldest princess of the dynasty, Dongfang Xia's elder sister, Dongfang Shenlei!

Her face was ashen as she said, "It's all part of your plan, isn't it? The so-called chasing after the twin-crowned fire dragon is just a ploy to lure the snake out of its hole!"

Dongfang Xia said indifferently, "Mm, it can be considered that. After all, imperial sister comes and goes like a ghost. Without a special opportunity, you wouldn't appear so easily. Coincidentally, a fire dragon appeared, so I thought that if I left the dynasty, imperial sister would definitely appear and cause trouble."

"So, after you lured me out, you immediately sealed off all the borders of the dynasty. In reality, you were just bluffing and trying to scare us away?" Dongfang Shen Lei said hatefully.

From the beginning to the end, it had all been Dongfang Xia's scheme.

Sealing off the borders was so that they had no choice but to use the ancient Fuyao Formation to escape and capture her and her group of henchmen.

For this reason, Dongfang Xia did not hesitate to disguise herself as Scarface Xiong to blend in with them and obtain their new position. She had endured until now.

"Hehe, as you said, I originally only wanted to completely get rid of my royal sister and her henchmen once and for all. Unexpectedly, there seemed to be some interesting things that jumped into the trap." Dongfang Xia smiled with her hands behind her back.

"Beixin's lineage defected with the entire clan. This really surprised me!"

King Li, the current clan leader, Bei Wangchen, Bei Wangzhu, and Bei Wangting all knelt down in unison.

King Li and the current clan leader had even more bitter expressions on their faces. “Greetings, Your Majesty!”

Dongfang Xia swept her gaze over them indifferently, then landed on the emperor corpse, the corpse emperor, and a group of people. Her gaze was slightly cold. “Just a few corpse clansmen want to take advantage of a three-star civilization? You’re overestimating yourself!”

Following that, she looked at Su Yu with a sharp gaze. “What surprised me the most was you!”

He raised his head and sighed. “My Royal Son, Why did you betray me? Or are you not my royal son at all?”

With a wave of his sleeve, the ‘one leaf blinder’ in Su Yu’s hand disappeared into thin air and landed in Dongfang Xia’s hand, revealing Su Yu’s true face.

“Su Yu!”

“Su Yu!”

“Su Yu!”

The surprised cries of one voice resounded in the crowd.

Beixin, Dongfang Shenlei, and the corpse clan were all shocked.

This time, Dongfang Xia was surprised. “Oh? Your connections are quite wide. A bunch of people from all walks of life know you.”

Since things had come to this, Su Yu could only tell the truth. “I am not your son.”

Unexpectedly, Dongfang Xia waved his sleeve and chuckled. “I knew it long ago.”

What? Su Yu was stunned.

Dongfang Xia’s expression darkened slightly, “How could I not know that my sixth prince had died many years ago?”

“The border of the land can not possibly be the king’s land. Even if it is a fiefdom, it is still my territory. What can you hide from me?”

“When you appeared, I knew that you were a fake.”

Su Yu was puzzled, “Then you...”

“Of course I want to see who’s behind you!”

It turned out that he had mistaken Su Yu as a threat to the dynasty. He had intentionally played a long game, hoping to lure out the person behind him.

Unfortunately, the truth wasn’t what he had imagined.

“What surprised me is that you actually dared to ally with princess ru Chen and Emperor Wu Hen to deceive me just for the sake of Dao Rain. I’m also surprised by your courage.” Dongfang Xia chuckled.

Su Yu was silent. He had underestimated how terrifying the three crowns were and how much control the Emperor had over the empire.

Everything about him was in the eyes of Dongfang Xia.

“Since I’m captured by you, I’ll do whatever you want.” Su Yu simply shrugged.

Unless they both died together, he wouldn’t be able to resist the three crowns at all.

Who knew that Dongfang Xia would smile mysteriously. “Of course I want to deal with you and deal with you properly. However, now is not the time. Stand to the side first.”

Su Yu stood to the side obediently, quietly observing the situation.

“Beixin’s faction, stand to the side as well.”

Beixin’s faction nervously stood to the side.

Right now, only the corpse clan and Dongfang Shenlei’s faction were left, as well as a few scattered criminals who had joined in.

“As for all of you, die,” Dongfang Xia said calmly. The moment the word ‘die’ fell, everyone immediately exploded into a bloody mist that filled the sky.

Nearly a hundred people were instantly wiped out.

Only the emperor corpse, the corpse emperor, and Lan Yue, who he had protected, were left behind. Dongfang Shenlei and the other three were all dead!

However, all of them were heavily injured.

Dongfang Shenlei’s entire body was festering, and he was only a step away from death.

“Dongfang Xia, you will die a horrible death!” Dongfang Shenlei, who was in despair, gave Dongfang Xia a desperate blow.

Dongfang Xia snorted coldly. He crushed her like an ant.

In the past, this ant had been hiding and hiding, and he had been helpless against it. Now, he could kill it with a single finger.

However, Dongfang Shenlei’s attack suddenly changed direction, and the credit went to the capture.

“Su Yu! Surrender!” Su Yu was the only person Dongfang Xia had taken a fancy to, and he was the most suitable hostage.

The longer a living creature lived, the stronger their will to survive, even in endless despair.

Chapter 1838 Dao Corpse Divine Pearl

Dongfang Xia placed his hands behind his back and did not stop him. The corners of his lips curled into a meaningful smile.

Su Yu saw this and knew his true strength. It was likely that he had a clear grasp of it.

Sighing, he took out the heavenly bow and shot out an arrow at an unhurried pace.

Chi --

A jet-black stream of light pierced through the sky, nailing the incoming Dongfang divine tears to the wall.

The powerful force destroyed Dong Fang Shen Lei's body and soul, which was riddled with holes.

One arrow, one emperor!

Seeing this scene, the emperor corpse, the corpse emperor, and Lan Yue had complicated expressions on their faces.

The little ant from the past had now become an existence comparable to an emperor.

"How is this possible!" Dong Fang Shen Lei cried out in disbelief when his soul was destroyed.

Only one person thought to himself, "It's impossible for me to really be captured by you."

Bei Wang Chen looked at Su Yu with a complicated expression. He had thought that he would never see this man again in his lifetime. Who would have thought that he would run into him again.

"Hehe, not bad." Dong Fang Xia smiled faintly and turned to look at the emperor's corpse, the corpse emperor, and Lan Yue.

"My son, let's get rid of them as well."

The corpse emperor was heavily injured, and his true strength had fallen to the single-crowned emperor realm. The Corpse Emperor was still at the peak of the single-crowned emperor realm, and Lan Yue wasn't even worth mentioning.

Shua --

The corpse emperor stood in front of the corpse emperor and growled, "Kill the corpse emperor, first get past me!"

He had a rather loyal stance of protecting his master.

If Su Yu were to kill Beixin's lineage, he really wouldn't be able to do it. The corpse race... Hehe, were they even worthy of being loyal?

They would easily eat people, and at the very least, they would kill them. Every place they passed by would be filled with carnage, and all living things would be exterminated.

Everything they did was dark and bloody, making one's hair stand on end.

How could such a thing be worthy of his sympathy?

"Arrow!" Su Yu shouted. A streak of light landed on his palm, and he nimbly knocked the bowstring, aiming at the emperor's corpse!

The emperor's corpse, which had once suppressed the sea of constellations, was now being forced into a corner by Su Yu.

It was both pathetic and laughable.

"Su Yu, you brat! Do you think I'm afraid of You?!"

Xiu --

Su Yu loosened his grip and a stream of light shot towards the emperor's head.

However, the emperor's corpse was still the emperor's corpse. It could kill a single-crowned emperor with a single strike. However, the emperor's corpse grabbed the stream of light with its palm.

An incomparably powerful force pushed the emperor's corpse backwards, shattering a large chunk of flesh and blood from the emperor's corpse's palm.

Only when the force of the arrow dissipated did he manage to stabilize his body.

But in the end, he still managed to receive Su Yu's attack.

"So that's all!" The emperor's corpse smiled contemptuously. He was still able to receive this move despite being heavily injured. This was undoubtedly a taunt towards Su Yu.

Su Yu said indifferently, "Is that so?"

A spatial blade suddenly shot out from the arrow that he was holding, slicing across the emperor's corpse's neck.

The emperor corpse was shocked and quickly turned his head to dodge.

However, he was too late. More than half of his neck was cut off.

Chi --

Thick Corpse Qi rolled out and quickly healed his wounds, reconnecting the severed head to his body.

This was where the corpse clan was difficult to deal with. Unless the head was cut off, he wouldn't die.

However, since Su Yu had made his move, it was definitely a fatal strike.

Within the arrow he was holding tightly, dozens of spatial blades that were hidden within shot out consecutively.

Puchi Puchi --

With a series of shots that blotted out the sky and covered the earth, not only was the emperor corpse's head chopped off, it was also completely destroyed.

"Emperor Corpse!"

The Corpse Emperor's eyes were on the verge of splitting open. It roared furiously, and its pair of bloodshot eyes stared at Su Yu as if it was about to devour a person. "Su! Yu! Why is it always you!"

The plan to attack the sea of constellations had failed because of him. Zhu Ji and the corpse emperor had betrayed him.

The plan to attack the Emperor Yu dynasty's civilization had failed because of him. The plan had once again failed.

It was as if Su Yu was his natural nemesis. He had always been his nemesis.

In the end, even the emperor's corpse, which he had relied on the most and was the most loyal to him, had died in Su Yu's hands.

One could imagine how aggrieved and furious he was!

"After the Sea of constellations, you should understand that you should avoid me when you see me. Otherwise, you wouldn't be where you are today," Su Yu said calmly. With a casual wave of his hand, he drew an arrow.

He nocked the bowstring and gently aimed at the corpse emperor.

The corpse emperor's eyes were filled with grief and indignation. He had the feeling of a hero at the end of his life. Of course, that was just his self-perception.

In Su Yu's eyes, it was the evildoer being brought to justice.

He loosened his fingers and the flowing light mercilessly pierced through the corpse emperor's head.

As a single-crowned emperor, he had no resistance in front of Tian Yi Gong.

Puchi --

His head was pierced through on the spot.

Under normal circumstances, he should have died immediately.

However, what was unexpected was that a large amount of black light actually shot out from the broken head!

A pitch-black bead floated out from the head.

The bead contained a terrifying power that was almost comparable to the dao master's Buddhist relics.

Dongfang Xia, who had a faint smile on his face, suddenly froze. "Dao Corpse Celestial Bead, who are you?"

As he spoke, he grabbed at the air and suppressed the black bead.

However, the corpse qi contained in the black bead was earth-shattering. With a slight tremble, it shook off Dongfang Xia's suppression.

At the same time, a thick layer of corpse qi descended from the black bead and wrapped around the corpse emperor.

With a casual spin, the black bead broke through the barrier of the Da Yu civilization, revealing senior sister nihility outside. It dragged him into the air and escaped.

Before leaving, the corpse emperor did not forget Lan Yue and grabbed her.

"Where are you going!" Dongfang Xia was shocked and immediately attacked the black bead.

However, the bead did not even tremble and easily blocked his attack.

Within the dense corpse qi, the corpse emperor's blood-red eyes were filled with hatred. "Su Yu! Emperor Yu of the Great Yu dynasty! I swear that if I don't destroy you, I will never be emperor! Just you wait!"

With a furious roar, the bead quickly carried him away and disappeared without a trace.

Dongfang Xia, who had a gloomy expression, was left behind. He never expected that one of the few corpse clansmen he caught by accident had the DAO Corpse God Bead.

As the name implied, the Dao Corpse God Pearl was a dao master level existence among the corpse clansmen!

And the Dao Corpse God Pearl was a life-long crystal that only dao masters could condense.

This was a mere emperor level creature. It was very likely that he was a dao master expert when he was alive and had suddenly resurrected after his death.

However, he had yet to inherit all of the power of his previous life. Currently, he was only a single-crowned emperor.

If Su Yu's arrow had not pierced through his head and triggered a life-and-death crisis, the Dao Corpse God Pearl might not have appeared.

Thinking about how Emperor Yu of the Great Yu dynasty had provoked a dao corpse, Dongfang Xia's mood became much gloomier.

Su Yu retracted his arrow, his eyes revealing shock and a hint of realization.

The faceless living Buddha used the Buddhist relic of the Dao master for his entire life to suppress the corpse emperor. It was indeed not groundless.

He had once wondered that although the corpse emperor was powerful, he was not worthy of being suppressed by a dao master.

At first, he thought it was because of his identity as the "Corpse Emperor".

Only now did he understand that the corpse emperor was a dao master in his previous life!

It was precisely because of this that the faceless Buddha spared no expense to suppress him, fearing that he would cause chaos in the future.

Compared to Dongfang Xia who was worried, Su Yu's state of mind was much more stable.

He had not provoked one dao master either. He was not afraid of biting if he had more lice. So what if he had one more?

Moreover, the corpse emperor's current strength was still a thousand miles away from restoring his dao master. What was there to be afraid of?

Perhaps because he had figured this out, Dongfang XIA's expression gradually softened.

However, there was still a hint of gloominess.

He swept a glance over Su Yu and bei Xin's lineage. He had a deep meaning for the former, while the latter frowned deeply.

“It’s your turn.” Dongfang Xia stared at them. He was affected by the corpse emperor and was in a bad mood. He snorted coldly. “Defecting to Emperor Yu’s dynasty is a great crime of the dynasty. be mentally prepared! Follow me back to the dynasty!”

Beixin’s faction felt uneasy.

Not killing them on the spot might not mean that they were not spared. It might also mean that they wanted to serve as a warning to others and be executed in public.

Su Yu hesitated for a moment. He looked at the gradually dimming fuyao ancient array with a profound gaze and quietly followed Dongfang Xia away from the ley lines.

When they returned to the imperial palace, everything was the same as before.

The Princess’s residence was still bustling with noise and excitement. Up until now, Princess Chen and Emperor Wuhen had not been able to escape.

They had no idea that Su Yu had already left for several days.

When he returned, Su Yu smiled bitterly to himself. Fate sure played tricks on people.

Not long after, in the Hall of Heavenly Peace.

Dongfang Xia spent many years reading memorials and dealing with court affairs.

The first prince, the second prince, the third prince, the fourth prince, the fifth prince, and Princess Ruchen were all present.

They were both surprised and pleasantly surprised.

They were pleasantly surprised that their father had returned. All the conspiracies and tricks that had been detrimental to the dynasty in the past had been swept away, making them feel at ease.

They were surprised that their father was not chasing after the twin-crowned fire dragon? Why had he suddenly appeared in the Imperial Palace without any movement?

“Welcome back, Father!” The princes said in unison.

Only Su Yu stood opposite them and did not address them as such, causing the princes to secretly guess.

Before they came, Su Yu had been in the palace hall, and the atmosphere between him and Dongfang Xia was very strange.

“How is my son?” Dongfang Xia asked with a smile, sizing them up one by one.

The first prince raised his head and puffed out his chest. “Thank you for your concern, father. We are doing very well.”

“That’s good,” Dongfang Xia said. “Emperor Yu’s dynasty has been troubled recently. Many hidden hostile forces have taken the opportunity to wreak havoc. I am relieved that you are all safe and sound.”

Princess Ruchen smiled sweetly. “Father, why did you suddenly come back? The gray-robed Emperor said that you are still on your way.”

Dongfang Xia chuckled and looked at princess ru Chen with an especially kind gaze. “Father came back early because he took the opportunity to execute a group of hostile forces. That’s why he didn’t inform you.”

“Such as?” Princess Ru Chen was the youngest, and she was the one that Dongfang Xia liked the most. Only he dared to ask this question.

“Such as Dongfang Shen Lei.”

The expressions of the princes changed, and they were pleasantly surprised.

Dongfang Shen Lei was like a malignant tumor to the royal family, causing them to feel uneasy day and night.

Over the years, there had been countless vicious attacks against the royal family, and most of them had been planned by Dongfang Shen Lei.

The most sensational incident was the fact that fantasy moon Langjun had kidnapped three imperial concubines, and it had become an indelible humiliation for the royal family.

Now that she had been eliminated, it was truly a pleasant surprise. The heavy stone that had accumulated in her heart for many years had suddenly disappeared.

Princess Ru Chen was stunned and a little absent-minded.

Dead? Dead just like that? The enemy that she had fought for the position of crown prince to kill had died just like that?

An unreal feeling lingered in her mind.

“Of course, this was your sixth Royal Brother’s assistance to me. Dongfang Shenlei was also personally killed by the sixth prince.”

The princes looked at Su Yu with complicated gazes.

On one hand, they were jealous of Su Yu’s talent, which far surpassed theirs. On the other hand, they had to admit that he was indeed outstanding.

His name shook the great Yu ruins, and then he joined his father in killing the imperial family’s archenemies.

All sorts of deeds could not be accomplished through jealousy.

When princess ru Chen heard this, her face lit up. He was truly a noble.

He had helped her seize the position of crown prince, and he had also helped her kill her mother!

However, what surprised her was why Su Yu had gone to help her father? Princess Ruchen knew his background very well.

“In addition, your sixth imperial brother had personally exterminated the corpse clan and brought all the potential hostile forces of Emperor Yu’s dynasty to a single location. Only then could I exterminate them all in one go.” Dongfang Xia chuckled. “I will issue a decree to announce this matter to the world.”

Su Yu’s heart sank. What a ruthless move!

Chapter 1839 The Emperor's Marriage Contract

It was clearly Dongfang Xia's own scheme that attracted all the hostile forces into the trap, capturing all of them in one fell swoop.

Su Yu had merely brought along Phantom.

But now, everything was pushed to Su Yu's head.

He did not think this was a good thing!

There must still be some remaining hostile forces. They would definitely pour their hatred onto Su Yu.

Furthermore, Huan Mei had an extraordinary identity. She was a member of the Star Alliance Chamber of Commerce.

It was hard to guarantee that the Star Alliance Chamber of Commerce would not blame Su Yu for her death.

Dongfang Xia looked at Su Yu with a smile that was not a smile. Then, she retracted her gaze. "Other than that, there's also a group of traitors from the dynasty. Bring Them Up!"

Under the guard of a group of guards, the core members of Beixin's lineage were all brought into the hall.

The first Prince's pupils constricted, and the other princes were also shocked. Princess ru Chen even covered her small mouth, unable to hold back her shock.

A king defecting, how many dynasties had this not happened?

Once this matter was announced, it would be a historical event that would shake the entire dynasty.

What made them feel the most unbelievable was that with the outstanding talent displayed by Bei Wang Chen, he would sooner or later become the biggest fiefdom within the dynasty.

There might even be a day when bei Wangchen broke through to the three crowns and became a country protector.

Such a family actually defected. It was truly unbelievable.

"My Royal Sons, how do you think we should deal with this?" Dongfang Xia said calmly.

For a moment, the princes fell into deep thought.

Defecting to the dynasty had always been the only way, implicating the nine families!

What did father mean by asking them to deal with this?

Did father not want to kill the beixin lineage and ask them to find a way out, or did he want to test their attitude towards the beixin lineage?

To be honest, the princes were all inextricably linked to the various fiefdoms, and this was even more evident in the struggle for the ruins of Yu the great.

Behind every prince, there was a conferred king who strongly supported them.

The conferred King of Beixin supported the first prince without a doubt.

At this moment, it was the first Prince's turn.

Dongfang Xia was unfathomable. Every word and action had a deeper meaning. If he were to guess wrongly, it would be a disaster.

His thoughts spun rapidly. A moment later, his eyes shot out a sharp and cold light. "Reporting to father, I feel that we should deal with him according to the laws of the dynasty."

There was a reason for his reply.

No matter what his father thought, he insisted on dealing with him according to the laws and was impartial. Even if his father wanted to keep Beixin's lineage alive, it could not be said that the first Prince's opinion was wrong.

On the contrary, if his imperial father wanted to test his and Beixin's attitude, if he pleaded for mercy and angered his imperial father's suspicions, then he would fall into eternal damnation.

Hearing this, many of Beixin's people stared at the first prince.

Bei Wangchen stared at him deeply. He let out a long sigh but did not say a word.

Bei Wangzhu's face turned pale. She could not believe that the first person to demand a severe punishment would be him. It would be her future husband.

Dongfang Xia's face was filled with uncertainty. "My son, I remember that you and Bei Wangzhu have a marriage contract, right?"

What marriage contract! The first prince was secretly resentful. Bei Wangzhu and the sixth Prince's younger brother had been together for a long time, so he could not flare up.

"Reporting to father, it is precisely because of this that I should insist on the national law to deal with it, and should not care about the affairs of children," he replied righteously.

Dongfang Xia nodded slightly. "Mm, then what about Huiren?"

Huiren was the second prince's name, and when he was called, the second prince said expressionlessly, "My son agrees with eldest brother's decision."

The third prince, Fourth Prince, and fifth Prince stood out one after another, indicating that they agreed with the first prince.

No one was willing to express their opinions recklessly, angering father.

"What about Ruchen?" Dongfang Xia asked.

Princess Ruchen was even more cautious. It wasn't easy for her to become the champion of the fate of the nation. With the crown prince in sight, the slightest mistake could cause all her efforts to go to waste.

"Reporting to father, I also agree with eldest brother's opinion."

In any case, she had never interacted with the Beixin bloodline. To be exact, emperor traceless had once visited them and tried to rope them in. In the end, he was mercilessly rejected by the Beixin bloodline.

There was no need for her to take the risk and plead on behalf of the Beixin faction.

The five princes and one princess all agreed to exterminate the Beixin faction.

The faces of the beixin faction were filled with bitterness.

The beixin faction was about to be cut off!

No matter how much contribution they had made to the dynasty, no matter how deep their relationship with the first prince was, when they made a mistake, everything would be for naught.

Dongfang Xia remained expressionless and did not say a word.

Everyone knew that he was thinking and making a final decision.

With a single thought, he could decide the survival of the beixin line.

The beixin line no longer held any hope.

There was no one who spoke up for them, so how could there be any hope?

As Dongfang Xia's gaze gradually turned cold, he had already made a decision in his heart, and it was the worst kind.

However, just as he was about to speak, Su Yu, who had been silent the entire time, slowly said, "Father, I feel that I can be dealt with lightly."

The five princes and princesses looked over in unison, their faces filled with shock.

Anyone with discerning eyes could see the killing intent that flashed in Dongfang Xia's eyes at the last moment.

He did not want to keep Beixin's lineage.

Su Yu's objection was actually against his father's wishes.

If his father was angered, the consequences would be unimaginable.

However, when he heard Su Yu speak, the cold light in Dongfang Xia's eyes slowly faded away and a faint smile appeared on his face. "Oh? Why? According to the laws of our dynasty, only death awaits those who defect. This is the only way to intimidate the entire territory."

Su Yu spoke with assurance, "First of all, the Beixin faction defected. Only I, a few imperial brothers, sisters, and father know about it. If we don't Tell, who will? Could it be those dead enemies?"

"Secondly, there is a reason for Beixin's defection. I believe that Father is in control of the entire territory, so he must know about it!" He seemed to be pointing at something, and Dongfang Xia smiled faintly. "Continue."

“Their defection is definitely not a question of loyalty, but a matter of necessity. They have a reason that can be forgiven.”

“Lastly, Emperor Yu of the Great Yu dynasty’s promotion to a three-star civilization is precisely the time to govern the nearby civilizations and display their grand plans. It is a time to use people. Beixin’s faction has guarded the borders for many years, and their military achievements are outstanding. How can they easily erase their contributions? “Why don’t we keep them and let them continue to serve?”

After listening to his words.

Everyone from Beixin’s faction stared at Su Yu in shock and disbelief.

Even bei Wangzhu felt as though she was dreaming.

In her heart, Su Yu was Beixin’s archenemy who had fallen to such a state. He was also the sinner who had caused her great harm.

Bei Wangzhu felt hatred towards him.

However, when Beixin’s faction was in trouble, the person who helped them wasn’t the great prince who had a deep relationship with her and had an engagement with her.

Instead, it was this man whom she hated to the core.

She did not understand why Su Yu would do such a thing. By killing Beixin’s lineage, no one would leak the fact that he had stolen Beixin’s cauldron.

If he did so, there would be no benefit at all.

Bei Wangchen was stunned. He had imagined which Prince would plead on behalf of Beixin’s lineage, but he had never imagined that Su Yu would do so.

Dongfang Xia looked at Su Yu quietly. He even knew that his son had died a long time ago.

Let alone the disappearance of the Beixin King Cauldron, which was related to the fate of Emperor Yu’s empire? He knew about it a long time ago.

The reason why he asked for the opinions of all the princes and princesses but did not ask Su Yu was because he knew that Su Yu would definitely kill him out of guilt.

Who knew that he would actually take the initiative to plead on behalf of the Beixin faction.

Dongfang Xia looked at Su Yu with a deep gaze. He realized that he claimed to be in control of the world, and he had a firm grasp on his sons. However, only Su Yu gave him an unfathomable feeling.

He even suspected that if he wanted to kill Su Yu, he would have to pay an unimaginable price.

“Did the royal son mean what he said?” Dongfang Xia asked calmly. No emotions could be seen on his face.

Su Yu nodded slightly, “Every word is true.”

Beixin’s bloodline was implicated by him. In terms of emotions and logic, he could not sit idly by.

Dongfang Xia was silent for a while. He nodded slightly and said, "Draft an edict."

The eunuch beside him immediately raised his brush.

"Beixin King has done meritorious service in protecting the country. He has been rewarded with ten thousand divine stones and a beautiful concubine. Beiwang Chen has outstanding talent and has been promoted to the commander of the Imperial City Guards."

Hearing this, the expressions of the five princes and princesses changed drastically.

Father's killing intent changed, and he actually rewarded them without restraint.

Not only did he grant amnesty to Beixin's faction, he even gave them extra rewards to appease them!

All of this was because of Su Yu's suggestion!

They knew their father's personality very well. He was headstrong and rarely listened to the opinions of others.

This was definitely the first time he had done something like this!

Just how much did he trust Su Yu? !

The beixin lineage felt like they were in a dream. King beixin was pleasantly surprised. He suddenly kowtowed and said, "Your subject is guilty!"

"Speak!"

"The Beixin Cauldron is lost!"

The five princes and Princess Ruchen were shocked.

That was the fate of the Great Yu Empire. If it was lost, it would shake the foundation of the Empire. If it was lost, the empire would be thrown into chaos.

Even exterminating nine clans would not be enough!

"I know."

However, Dongfang Xia said calmly.

He actually knew?

It was the Beixin faction's turn to be stunned.

When did they know?

Beixin king said in fear and trepidation, "Your Majesty, Please Punish Us."

Dongfang xia laughed lightly, "It's just a tripod. If it's lost, so be it."

Many people were stunned.

The tripod that was said to suppress the fate of the Great Yu Empire was actually a tripod in Dongfang Xia's eyes

He looked at everyone and said indifferently, “How can the fate of the Great Yu Empire be contained by a few tripods?”

“The true fate of the nation is here.” He pointed at himself and then pointed at the crowd.

The crowd didn’t understand what he meant. Dongfang Xia said with a sigh, “The cauldron of the nation’s fate was forged by the first emperor. It suppressed the fate of the empire in different directions. However, how many times do you think the current dynasty is compared to the original dynasty?”

A Thousand Times! Ten Thousand Times!

The original Emperor Yu’s dynasty was even worse than the Sea of constellations.

“However, the fate of the nation in that cauldron has never increased!” Dongfang Xia’s gaze was far-reaching. “The fate of the dynasty has never been determined by the fate of the nation, but by us, the sons of the princes. It is something that all the important ministers can create together!”

“All of you are the true fate of Emperor Yu’s Dynasty!”

Everyone’s blood boiled when they heard this. They were the ones who made the dynasty what it was today, not those few dead cauldrons.

“So, if we lose them, so be it. It’s not a big deal. The fate of our Great Yu dynasty will not weaken because of a small cauldron. Instead, it will continue to grow stronger because of everyone’s hard work.”

Hearing this, everyone kowtowed one after another and shouted, “Long live His Majesty.”.

Dongfang Xia waved her hand lightly. “Rise and continue writing the imperial decree.”

Eh? It wasn’t Over Yet?

Everyone just realized that the draft imperial decree was interrupted Midway.

“Bei Wang Zhu is virtuous and virtuous. The sixth Prince’s character and martial arts are first-class, and he is specially bestowed with marriage. The two of them will be married within ten days, and the entire nation will celebrate.”

Everyone was astonished. Even bei Wang Zhu was bestowed with a gift, and the entire bei Xin lineage had been bestowed with it.

Uh!

Wait!

What was the gift?

After marriage? With the sixth prince?

Chapter 1840 Awkward Choice

Princess Ruchen and the princes' faces were filled with questions, shock, and confusion.

Did father say something wrong?

Bei Wangzhu and the sixth prince?

Bei Wangzhu was the first Prince's fiancée, right?

Besides, why was she with the sixth prince? Were there any ties between them?

Su Yu was also stunned. He had not expected Dongfang Xia to bring out such an imperial decree.

Bei Wangzhu was also frozen on the spot. She stared at Su Yu, her face full of shock and confusion.

The engagement between her and the first prince had existed for many years. Could it be that Dongfang Xia had forgotten about it?

The first prince's expression changed continuously. He also felt that he did not understand. He said hesitantly, "Reporting to father, bei Wangzhu has an engagement with your son. I'm afraid such a reward is not appropriate, right?"

He had no feelings for Bei Wangzhu and did not feel any heartache for her death.

However, he could not tolerate his woman being betrothed to someone else.

In the eyes of outsiders, wouldn't it mean that the first prince was incompetent and allowed his fiancée to be snatched away by someone else?

Everyone perked up their ears to listen. In their hearts, they also felt that this decree was too brainless.

"Oh, how did your marriage contract come about? Do you have any impression?" Dongfang Xia asked faintly.

The first prince bowed and said, "I remember that when I broke through to the heaven and Earth Emperor Realm, you praised me and asked me what I wanted. I then said that I wanted to marry Beixin's little princess, bei Wangzhu. Father nodded and agreed."

The marriage contract between them was actually filled with benefits.

In order to win over Beixin's bloodline and bribe Bei Wangchen, the first Prince decided to marry Beixin's bloodline.

As such, both sides were tied to the same carriage. Beixin's bloodline would have to fully support the first Prince's ascension to the throne.

For many years, bei Wangchen had secretly recruited the people that the first prince used to help him in the Great Yu ruins. It was precisely for this reason.

Dongfang Xia nodded slowly and said, "En, what happened after that?"

The first prince was startled. "That's what happened after that."

Dongfang Xia's tone became unfathomable. "I'm asking, did you issue any imperial edicts or anything like that after that?"

No! He had only nodded his head in agreement back then, but there had been no follow-up.

The first prince did not push things too far.

“No, but father personally agreed to it,” the first prince argued.

Dongfang Xia said indifferently, “Since there is no such thing, your engagement is just a formality. It can not be done.”

The first prince was unwilling and said, “Father, please reconsider. Although there is no imperial edict, everyone in the world knows about it. If you give an edict to Betroth your son’s fiancée to someone else, wouldn’t it become a joke in the world? The royal family’s face will also be affected.”

Dongfang Xia’s eyes shot out a sharp light and his tone was slightly cold. “Are you threatening me?”

Princess ru Chen and the other princes’ hearts trembled. Their father was furious!

The first prince could not help but shrink his neck. However, if he really shrank back now, he would find it difficult to raise his head for the rest of his life.

“Father, please reconsider!” He kowtowed heavily and begged.

Dongfang Xia’s gaze turned slightly cold. After a moment of silence, he said, “Fine! I’ll give you a chance. If you still can’t persuade Bei Wangzhu to stay, then it’s because of you. If you try to stop me again, HMPH!”

A trace of killing intent was clearly displayed.

“Thank you, Father!” The first Prince said. He had finally managed to obtain a glimmer of hope.

However, he heard Dongfang Xia say, “Bei Wangzhu.”

“Your Daughter is here.” Bei Wangzhu hurriedly kowtowed, feeling uneasy in her heart.

“Both men and women pay attention to mutual desire. I ask you, between the first Prince and the sixth prince, if you were to choose a fiancé, who would you choose? Answer truthfully.”

The first prince looked at her fervently and kept winking at her. His gaze was exceptionally gentle and was no longer as indifferent as before.

This time, bei Wangzhu was embarrassed.

She had never liked the first prince. She had only listened to her father and sacrificed herself for the interests of the family.

But towards Su Yu, she had hated him to the bone just now. Although she had softened her feelings a lot, it was too much to say that she liked him.

She did not like either of them.

What made her smile bitterly was that Dongfang Xia only allowed her to choose one of the two.

How would she dare to negotiate terms in front of Dongfang Xia?

Not long ago, Dongfang Xia's killing intent could not be faked. Without Su Yu pleading for mercy, how could they be rewarded at this moment? Perhaps their entire clan would be exterminated and their heads would fall to the ground.

She raised her head and her two eyes danced back and forth in front of the first prince and Su Yu.

The first prince's ardent gaze and the merciless gaze that had advocated exterminating their entire clan were like heaven and earth. This made Bei Wangzhu loathe them.

She looked at Su Yu, only to see Su Yu frowning and staring at him. He kept shaking his head and even lip-synced, "I have no interest in you. Don't choose me."

Bei Wangzhu's integrity, do you think I want to?

Ever since they first met, this man had never once made her happy. He had repeatedly caused her to suffer in his hands.

Now, he even looked down on her with a tone that made her furious.

To be honest, her instincts were still inclined towards the first prince. A woman supporting two men was not good for a woman's reputation.

However, seeing Su Yu's expression and thinking about the curse that had yet to be lifted, she could not help but feel angry. She turned around and said to Dongfang Xia with a serious expression, "I choose the sixth prince, Dongfang Yu."

The first Prince's expression was ashen.

Su Yu's expression was also very ugly. This Woman! Was it not good for her to continue being the first Prince's concubine? She had to change her partner!

He could sense that Dongfang Xia had specially arranged for the two of them to be married. She must have had a plan.

Dongfang Xia's expression softened and said, "So, you like him?"

Bei wangzhu bit her lips and nodded. "Yes, I like him very much!"

"Oh? Why Don't you tell me? How Do You Like It?"

Uh!

It was bei Wangzhu's turn to feel uneasy. She had only said it casually, so she didn't think too much about it.

But when the monarch asked.., she could only bite the bullet and make up a lie. "This... when the sixth prince first went to the Sea of constellations to train, he made a move on me due to a misunderstanding. Then... After that, we didn't fight and didn't get to know each other. Thus, I... Gradually developed feelings for the sixth prince."

Su Yu was dumbstruck. This woman was also an expert at making up lies!

At that time, she was clearly being held hostage by Su Yu. It was already good enough that she didn't strangle Su Yu to death, but she gradually developed feelings for him!

“Haha, Interesting!” Dongfang xia laughed, “In that case, you developed feelings for him after a long time, and you were unable to extricate yourself from your obsession?”

Bei Wangzhu’s heart twitched. More accurately speaking, she was unable to extricate herself from her hatred.

Every time the curse broke out, she would be trampled on in her dreams. After she woke up, her hatred for Su Yu would deepen once more.

A lie often needed more than a thousand lies to cover it up.

“Yes, I can’t extricate myself,” bei Wangzhu braced herself and answered.

Dongfang Xia said playfully, “Is that so? Why Can’t I Tell? I’ve seen many mistresses. This is the first time I’ve seen someone as clear-eyed and unemotional as you. Are you lying to me? “You know the crime of deceiving the emperor. Don’t think that just because the sixth prince interceded on your behalf, you can do whatever you want!”

What was the meaning of the emperor’s might being unpredictable? This was it!

Just a moment ago, he had wanted to reward them, but now he was going to turn on them at the slightest disagreement!

King Li, King beixin, bei Wangchen, and Bei Wangting were so frightened that their hearts trembled.

Bei Wangzhu’s face also turned pale. Her face was full of panic, and it looked like she was about to be seen through.

King beixin knew that he would be caught in the crossfire, so he could only put on an old face and say awkwardly, “Your Majesty! To tell you the truth, my daughter is indeed the sixth prince who doesn’t want to eat or drink, and is deeply in love with him.”

“Is that so? Why didn’t I see it?” Dongfang Xia sneered.

King beixin blushed and said, “To tell you the truth, Your Majesty, ever since my daughter fell in love with the sixth prince, she has been suffering from a strange disease. Every time she has an episode, she dreams that she and the sixth prince are having an affair.”

Bei Wangzhu’s pretty face flushed red.

At this moment, she wished that she could find a hole to hide in and never come out again.

How could this be? Seeing that she had found the divine grass, she would be able to bid farewell to this shameful curse in a month’s time.

But... but her thoughts were so wrong that her father had to bring up this matter to cover up the lie.

She regretted it. She should not have acted so impulsively. Choosing the first prince did not have so many problems.

For a moment, the Hall of Ren he was extremely quiet. One could hear a pin drop on the ground.

Princess ru Chen blinked and looked at Bei Wangzhu in a daze. She muttered, “What is the reverse of Feng Luan and Mount Wu? Why do the Royal Brothers Look So Strange?”

The hall was originally extremely quiet, but his muttering was magnified several times. Even Dongfang Xia, who was on the dragon throne, could hear it clearly.

Not to mention Bei Wangzhu, who was just a short distance away.

Her face was even redder, and her entire body was as stiff as if it was frozen.

King beixin sighed inwardly. ‘daughter, I’m sorry. I can only make things difficult for you.’.

King Li, Bei Wangchen, and Bei Wangting’s faces were all slightly red, and their faces were devoid of light.

The first prince was so angry that his entire body was trembling. Even though he had long since received news, he gritted his teeth in hatred when he said it in public.

After a moment of silence, Dongfang Xia coughed awkwardly. “Oh, is that so? I didn’t expect Bei Wangzhu to have such deep feelings for my son.”

He turned to look at the first prince. “You heard everything? What else do you have to say?”

The first prince did not move. He was like a wooden sculpture.

Dongfang Xia retracted his gaze and said, “Since Bei Wangzhu is so sincere, I will do as you wish and marry you to my son.”

Bei Wangzhu had the urge to cry. You were the one who forced the marriage, but why did it sound like I was the one who begged to marry Su Yu.

Those who did not know would think that I, bei Wangzhu, had abandoned the first prince and turned to the sixth prince.

However, she could not refute these. She had to sincerely thank the emperor for his kindness.

“Alright! It’s settled then. In ten days, I will personally officiate the wedding between the two of you.”

At this moment, the eunuch had also prepared the imperial edict.

“Pass it down and make sure to announce the entire territory. I must let people know that my sixth prince is getting married!”

“Yes!”

An imperial edict was sent to the northern letter fiefdom. At the same time, the news of the sixth prince and the northern letter fiefdom’s little princess, Bei Wangzhu, spread like wildfire.

Within a few days, it was all over the place.

From the townspeople to the powerful officials in the imperial city, everyone was discussing it.

“Have you heard? Princess Beixin, Beiwangzhu risked her life to beg to marry the sixth prince. She almost angered the emperor and caused the entire clan to be exterminated!”

“Eh? Why did I hear that Beiwangzhu was courting death and hanged herself in the imperial palace. She insisted on marrying the sixth prince, which alerted the emperor. He took pity on her and gave her a marriage contract?”
