

Nine-Dragon 1841

Chapter 1841 Nirvana Of The Evil Dragon

“That’s strange. I also heard that Bei Wangzhu was originally engaged to the first prince, but after seeing the sixth prince, she was shocked beyond belief. From then on, she couldn’t eat or drink anymore. For this reason, the bei Xin clan came to the Emperor and begged him to issue an edict. Considering that the bei Xin clan had rendered meritorious service in protecting the borders, the emperor agreed, and even rewarded everyone in the imperial family.”

..

On the streets of the imperial city, in a luxurious carriage, bei Wangzhu’s cheeks flushed red as she listened. She stomped her feet and said through gritted teeth, “Who was the one who spread the rumors? How did it become like this?”

When did she plead? When did she seek death and hang herself?

What was even more ridiculous was that bei Xin’s entire family had come to the imperial city to plead for leniency. Wasn’t this too ridiculous? There were actually people who believed it.

“Sister, you can’t blame anyone else.” At the side was Beiwang Ting, he chuckled and said, “You chose the sixth prince by accident. To be honest, at that time, grandfather, father, and Big Brother were all very surprised. They thought that you really had feelings for the sixth prince.”

Beiwang Zhu’s face was flushed red. “I... I couldn’t get over his arrogant appearance for a moment. Didn’t he just Save Our Beixin bloodline? What right did he have to look down on me? He actually mouthed to me and said that he wasn’t interested in me and asked me not to choose him!” “Brother Wangzhu, do you think he’s going too far?”

Bei Wangzhu couldn’t help but laugh. However, she seemed to be paying close attention to her eyes. “He’s indeed going too far. However, I’m thinking, when will our calm, calm, and intelligent sister lose her composure and act emotionally?”

“I didn’t!” Bei Wangzhu hurriedly defended herself.

Bei Wangzhu’s gaze gradually sharpened, as if she could see through her heart. She said, “Is that so? Then, have you noticed that since when did your gaze rarely linger on Big Brother?”

Bei Wangzhu’s expression froze. “Second brother, what do you mean?”

“You understand what I mean.” Bei wangzhu said indifferently, “I can see the abnormal feelings you have for Big Brother. I originally wanted to stop you, but fortunately, you’ve changed. This is all thanks to Su Yu’s appearance and that curse.”

Bei Wangzhu felt as if she had stepped on air and fallen into a bottomless cliff. The secret that she thought only she knew was actually seen through by the low-key second brother.

“Little sister, be at ease and be the sixth Prince’s bride. I’ve come into contact with him before, or rather, he once saved my life. I know his character better than all of you,” Bei Wangzhu said. “You may still be guessing the sixth Prince’s motive and conspiracy for saving Beixin’s bloodline.”

“But I think he just doesn’t want to see our Beixin’s bloodline get implicated because of him.”

“He is a person with righteousness in his heart. If you really marry him, you will be a hundred times better than the first Prince!”

Bei Wangzhu was stunned and did not say a word.

“I really like him?” Bei Wangzhu was confused. If her second brother had not mentioned it, she would not have realized that she had indeed paid little attention to Bei Wangchen. The feelings that she had hidden in her heart in the past had disappeared without a trace.

Her mind was filled with hatred for him after she woke up from the dream.

But now that she thought about it, if she really hated him, why had she never thought of killing him?

Was that really hatred? Or was she lying to herself to hide her desire and yearning for the dream?

“We’re here,” the carriage driver said.

Bei Wangzhu patted her shoulder. “Don’t think too much. Just focus on being a good bride. Come, custom-make your Phoenix Robe.”

This was the most famous custom-made clothing shop in the imperial city. Many people from the imperial family came here to have their clothes custom-made.

Without a certain status and status, they might not necessarily receive them.

The north-looking pearl nodded.

Not long after, they finished measuring and left.

The owner of the custom-made clothes sent them off with a smile on his face. As he watched them leave, a strange expression flashed across his face.

In the sixth Prince’s mansion, the imperial tailor also came to measure Su Yu and custom-made his bridegroom’s clothes.

Su Yu was extremely helpless.

He was grounded by Dongfang Xia and was not allowed to leave the imperial palace.

In fact, even if he was not allowed to leave, with Dongfang Xia’s strength, once he left, Dongfang Xia would immediately notice him.

It was just that until now, Su Yu still could not understand why Dongfang Xia wanted him to marry Bei Wangzhu.

Why did she want to offend her eldest son so that they could get married?

He didn't think that Dongfang Xia was just toying with him.

This person was good at scheming, and every move he made had a deeper meaning. Otherwise, he wouldn't have lured the corpse clan, Dongfang Shenlei, and many other potential enemies to a single location and annihilated them all in one breath.

His seemingly meaningless actions had a motive.

After the tailor left, Su Yu decided to cultivate on the spot.

In the ruins of Yu the great, he had obtained many good things.

One was the evil Dragon Bible, and the other was dragon blood.

"The body that was snatched away by the vile daughter, the body that was tempered by the world destruction dragon and the World Creation Dragon's divine blood, and the evil dragon sacred body that was cultivated to the divine body realm. What a pity."

"However, after obtaining the evil Dragon Bible, its power far surpasses the evil dragon sacred body. The Dragon Blood I obtained was also the fire dragon blood of a four-crowned emperor, and the quantity far surpasses the amount of dragon blood that was tempered in the past. After cultivating it, the effects will definitely far surpass what I had in the past."

Secondly, after absorbing the dragon blood, the power of the sovereign dragon supreme sword could be further displayed.

With this thought in mind, Su Yu immediately entered seclusion.

Under the state of time being accelerated by 500 times, he took out two calabashes of dragon blood and drank it in one gulp.

The bitter and pungent sensation came like a flood, and then turned into flames that burned within his body.

Even the current Su Yu felt waves of pain.

"Hiss, this dragon blood is quite strong. I don't know if it's because of the fire dragon," Su Yu muttered to himself and began to close his eyes to cultivate.

Three days later, Su Yu had already spent more than two years.

The two calabashes of dragon blood had all been refined.

His skin was fiery red, and dragon scales faintly appeared under his skin, emitting waves of heat.

His eyes were swallowing and spitting out material flames. At first glance, they were actually somewhat similar to true monarch Fire Dragon's true dragon divine fire.

He had personally witnessed the power of the true dragon divine fire. The four-crowned evil dragon sage Monarch's body had been burned by the divine fire.

"This..." Su Yu was secretly surprised. He didn't expect that after refining the divine blood, there would still be a faint trace of the true dragon divine fire.

Although it wasn't as powerful as true monarch fire dragon, it could easily burn a single-crowned monarch to death. Even a double-crowned monarch would lose a layer of skin when encountering this flame.

In addition, the strength of his body had also greatly increased!

Compared to the past, his strength had increased tenfold, comparable to when he didn't have the great strength law.

Together with the great strength law, he should be able to increase it to twice the limit of the past.

The heavenly bow was pulled three inches apart once again, and the power of the explosion would inevitably increase explosively.

Of course, the most important thing was the evil Dragon Bible.

After two years of cultivation, he had barely reached the initial stage of the first stage, the evil Dragon Nirvana.

He could transform into an evil dragon and fight against enemies.

However, he would only know the exact power after testing it out.

He originally wanted to continue cultivating, but princess ru Chen and Emperor Wu Hen came to visit.

"Congratulations, brother. You've obtained a marriage opportunity." Princess ru Chen giggled the moment she saw him.

Emperor Wu Hen could not stop giggling. "Indeed, I must congratulate you. The northern gazing pearl is a famous beauty in the empire. Many people would be envious of it."

Su Yu called them in and gently closed the door. "You are not here to congratulate us, are you?"

He casually sat down and said, "There is no need to hide our relationship. Just say what you have to say."

Just as he was feeling frustrated, the two women were not as free and easy as before. He was even more unhappy.

Princess ru Chen stuck out her tongue apologetically and gave him a pat on the shoulder. "Royal brother, don't be angry. We were just joking."

Emperor Wu Hen also apologized, "We were too polite. This time, we do have something to ask you."

They looked nervous, but they did not know if they should ask.

Glancing at them, Su Yu knew what they wanted to ask, he sighed, "There's no need to guess. Dongfang Xia knows everything. From the moment I, the 'sixth prince' appeared, he knew that I was a fake because he already knew that the real sixth prince had fallen."

Instantly, the two women's faces turned pale, and they became extremely surprised.

Emperor Traceless's face turned ashen, and he weakly slumped onto his seat.

"However, you don't have to worry too much. If Dongfang Xia wanted to punish me, would he still allow me to live until now? Would he allow me to marry northern Wang Zhu in the name of the sixth Prince?" Su Yu tried to mediate between the two.

He analyzed, "Although my identity is fake, not only have I not done anything to harm the dynasty, but I've also saved the dynasty's fate. Dongfang Xia should be well aware of this, so he won't blame you for this."

Hearing this, the two women pondered carefully, and their heavy hearts eased a lot.

"Sigh, we didn't expect things to turn out like this. Now that young master Su has suffered, there's an extra marriage contract for nothing." Emperor traceless sighed.

Su Yu shook his head. "You can't be blamed. If you want to blame someone, blame someone. I've thought too simply of Dongfang Xia."

"Imperial brother, why don't you stay?" Princess ru Chen diligently pinched his shoulder and giggled. "Since father is pretending not to know, then let's continue like this. I still quite like you as an imperial brother."

Su Yu rolled his eyes. "Stop it! What's the difference between my current situation and being imprisoned?"

"Moreover..." he frowned deeply. "I still need to look for someone."

Princess ru Chen patted her chest with her small hand. "Don't worry, I'll definitely do what I promised you and help you find those two friends."

Now that she was the crown prince, the ten great fiefdoms, all the powerful officials came to visit her.

How Big of a deal was it to ask them to help keep an eye on the two of them?

"Don't go, royal brother," princess ru Chen said coquettishly.

Su Yu patted her hand and sighed with a bitter smile. "So far, do you think I have any hope of leaving?"

He could feel that a gaze would sweep over from time to time to check on his movements.

It was Dongfang Xia. She was staring at him like he was a thief!

He did not think that Dongfang Xia would really treat him as a son.

Such a formidable character would never allow an existence that he could not control to always exist by his side.

He would definitely make a move to eliminate or use a reasonable method to get rid of the sixth prince from his name and no longer become a hidden danger.

This was also a question that he had been thinking about for the past few days.

What exactly did Dongfang Xia want to do?

“Reporting to your highness, Little Princess Beiwang Zhu and Little Crown Prince Beiwang Ting are requesting an audience.”

They? Su Yu sighed. “Let them in.”

After saying this, he turned his head to look at the mischievous princess ru Chen and Emperor Wu Hen. “The both of you should leave for now. I have something that I would like to discuss with this little princess.”

Chapter 1842 Wedding Day (First Update)

“Royal Brother, let me hear it too. I Won’t tell on you.” Princess ru Chen blinked her eyes and said coquettishly.

Su Yu smiled faintly. “If you want to hear it, that’s fine. Perhaps she and I will discuss the matter of inverting Feng Luan and Wu Shan and making love. Do you still want to hear it?”

“Ah!” Princess ru Chen screamed. She was both embarrassed and angry. She stomped her feet. “You’re so bad! You’re still laughing at me!”

That day in the hall of benevolence and harmony, Princess Ru Chen had a confused look on her face as she muttered about the meaning of these eight characters.

When she returned, she was immediately lectured by Emperor Wu Hen and told what it meant.

Only then did she realize how embarrassing a joke she had made in the hall of benevolence and harmony, but she did not know about it.

Now that she heard Su Yu’s teasing, she blushed again. She was so angry that she gave him a beating and ran away.

A moment later, bei Wang Zhu and Bei Wang Ting came to visit.

“Greetings, sixth prince.” Bei Wang Zhu and Bei Wang Ting bowed in unison.

Su Yu looked straight ahead and asked, “What’s the matter?”

Bei Wang Ting bowed. “Father and grandfather were ordered by the emperor to return to the fiefdom in a hurry. We, brother and sister, represent bei Xin’s lineage to express our gratitude to the sixth prince.”

As he spoke, he took out some gifts.

“I Hope His Highness the sixth prince will like some of the specialties from bei Xin’s fiefdom,” bei Wang Ting said slowly as he put down the gifts in his hands.

Su Yu nodded lightly. "You're too kind. Put It Down."

Bei Wang Ting rolled his eyes. "I still have something to do, so I'll take my leave first."

Bei Wang Zhu stood up as well, but was stopped by Bei Wang Ting's signal with his eyes, asking her to stay.

Bei Wangzhu pointed at her nose. Did she mean to ask me to stay?

She nodded and left. She closed the door behind her, revealing a meaningful smile.

Only the two of them were left in the room. Bei Wangzhu felt uncomfortable. She looked down at the tips of her shoes, not knowing what to say.

"Do you really want to marry me?" Su Yu looked at her and asked.

Bei Wangzhu subconsciously puffed out her chest and shook her head. "Of course not!"

"En, I also have the same intention." Su Yu nodded. "In that case, you can go missing for the time being. In that case, I don't need to marry you, and you don't need to marry me."

Bei wangzhu frowned when she heard that. Why was she so unwilling to marry her?

How was she bad? Even if she had abnormal feelings for Bei Wangchen in the past, she had never crossed any ethics. Why did she look down on me?

"That's easy for you to say. After I go missing, what will happen to Beixin's lineage? Dongfang Xia is temperamental. Who knows what he will do?" Bei Wangzhu said angrily.

Su Yu was indifferent. Her reaction was within reason.

After a long silence, Su Yu said, "Bei Wangzhu, no matter how you felt back then, you must go against your own wishes and choose to marry me. However, I can't give you a future. You made a choice that you shouldn't have made."

He looked bei Wangzhu in the eyes and said deeply, "In the near future, I will either fall by accident, disappear from the world, or be removed from the title of the sixth prince. In short, I won't have a good ending. You should be mentally prepared."

He had a premonition that Dongfang Xia would definitely deal with him.

Bei Wangzhu choosing to marry him was perhaps the biggest mistake in her life.

"What do you mean?" The other party's tone was sincere. Bei Wangzhu lost her anger and asked doubtfully.

"You will naturally understand when the time comes." Su Yu was unable to tell her the truth and sighed softly.

Bei Wangzhu felt as if she was kept in the dark. She felt extremely uncomfortable. After thinking about it for a while, she somewhat understood Su Yu's thoughts. She said coldly, "HMPH! Didn't you just want to disappear and escape the marriage to find your three female partners?"

The speaker did not mean what he said, but the listener did. Su Yu frowned slightly. Three female companions?

When he came to the Great Yu imperial court, the only female friend he made that age was princess ru Chen.

“Who are you talking about?” Su Yu asked.

Bei Wangzhu snorted. “Think about it yourself.”

After saying that, she flicked her sleeves and left.

Su Yu was left with a puzzled expression.

Three female companions..

Were they Xia Jingyu and Sheng Ge? But who was the third? It did not seem like they were talking about the two of them.

The wedding was approaching day by day. Apart from cultivating techniques, Su Yu also started to investigate some of the things that he was confused about in the past.

In the evening, Bei Wangchen came to visit.

The current him had already become the commander of the Imperial City Guards. He controlled the safety of the imperial family and held a high position. He was even higher than the ten conferred kings.

It could be said that bei Xin’s faction had benefited from this disaster.

“Your Highness, I’ve found the information you wanted.” Bei Wangchen still found it hard to face Su Yu directly.

It was very hard for him to link this Su Yu who seemed to only be a peak overlord to that expert who crushed him to the point where he couldn’t even retaliate.

Su Yu took a stack of documents from him and nodded, “Many thanks.”

“What are you talking about? Compared to the fact that you saved the entire Beixin faction, a small favor is nothing. Your Highness, the Sixth Prince, please take your leave.” Bei Wangchen came and went like the wind, and his mood was much more relaxed when he left.

He had more or less repaid the favor he owed.

Opening up the information, Su Yu looked at it in detail, and the tip of his brows raised slightly.

He had asked Bei Wangchen to help him get information about the bounty pavilion because he wanted to see the reason why he had been put on the bounty twice.

The second bounties were for Dongfang Shenlei.

She thought that Su Yu had killed the evil wolf, so she wanted to take revenge on her.

However, the first bounties were cut off Midway. It was the person who had withdrawn the bounties.

Looking at the information, Su Yu had a strange look in her eyes.

As she had expected, Dongfang Shenlei wasn't the one who had offered two bounties.

When the first bounties were released, Su Yu was still in the Cage of gluttony. She couldn't escape.

Therefore, the first person who wanted to find him was definitely not Dong Fang Shen Lei. At that time, he didn't appear in the absolute beginning realm. He had no grudges against her. It was definitely not her.

Previously, he thought that she was the one who wanted to find him twice. Recently, when he was free, he realized that there was something else.

But now, he found out that there was something wrong.

"Who's looking for me?" Su Yu was surprised. At that time, he was still in the Cage of gluttony. Who in the absolute beginning realm knew him?

Unfortunately, a long time ago, the person who had placed the bounty on him had already failed to find him. He had taken the initiative to withdraw the bounty.

A trace of doubt lingered in his heart and could not be washed away.

Time passed by little by little.

The engagement between the sixth prince and Bei Wangzhu was extremely popular.

The officials of the various fiefdoms, cities, and towns began to hang festive decorations.

It was even more so in the imperial city.

After receiving the notice from the guards, all the shops along the way had to hang colorful ribbons, firecrackers, and red lanterns.

The entire imperial city was bustling with activity. Looking out, it was a bright red color.

"Shopkeeper Li." The north-looking pavilion came to the tailor shop that made the bridegroom's clothes, "Is the bride's Phoenix Robe Ready?"

"Hehe, it's already prepared. How would I dare to neglect the Little Princess' Wedding?" Shopkeeper Li took out a spatial storage item and handed it to the north-looking pavilion.

The north-looking pavilion examined it carefully and confirmed that there was no problem. "This is the remaining divine stone. You Can Count it."

He placed the pocket containing the divine stone on the counter.

"Young master north-looking, you must be joking. It is my honor to have you here. How can I not believe you?" Shopkeeper Li did not even look at it and put away the small pocket.

The north-looking pavilion nodded and walked back to its temporary resting place.

Shopkeeper Li smiled as he watched Su Yu disappear from his sight. His smile slowly disappeared and was replaced by a strange smile.

Two days later, the day of the wedding finally arrived.

At the sixth Prince's residence.

Princess ru Chen and Emperor Wu Hen helped Su Yu put on the bridegroom's clothes. The already handsome Su Yu looked even more radiant.

"The most handsome groom of the great yu imperial court is out." Princess ru Chen's eyes sparkled. "I already want to marry you. What should I do?"

Su Yu was not in a good mood. He said indifferently, "Sure, immediately inform the emperor and replace you, okay?"

"Hehe, I don't have the guts to challenge Father Emperor." Princess ru Chen smiled embarrassedly. However, as she stared at the groom in front of her, she did feel a little uncomfortable.

She grew up alone in the imperial family. Her few imperial brothers were unable to give warmth to her elder brother. Instead, it was Su Yu, the fake prince, who gave it to her.

If it was possible, she was very willing to really be together with him, whether they were brother and sister or husband and wife.

Now that he was going to marry Bei Wangzhu, he felt an inexplicable discomfort in his heart, as if his favorite thing had been snatched away by someone.

She, who was originally in high spirits, also felt a little down in spirits.

As if seeing through her thoughts, emperor traceless sighed silently. "Alright, it's time to go to the Supreme Ling Palace. The Little Princess of Bei Wangzhu is almost here."

Su Yu faced the mirror and sighed in his heart. He had been looking for an opportunity to escape, but Dongfang Xia had kept a close watch on him.

And now, he had been forced to this step!

With some difficult steps, Su Yu arrived at the supreme dominance palace accompanied by Princess Ruchen, Emperor Wuheng, and a large group of palace maids.

Dongfang Xia was in high spirits and was already glowing with red light as she occupied the first seat.

Outside the hall was bei Wang Zhu, who had just been sent over by Bei Xin's clansmen. She was dressed in a beautiful and brilliant phoenix robe, and her aura was luxurious and well-tailored. Her slender figure was vividly outlined.

A big red veil covered her delicate and beautiful face. She was only waiting for the wedding to begin when Su Yu came to open it.

“The auspicious time has come, the grand ceremony begins! The bride and groom pay their respects to his majesty.”

The two of them entered together. One was handsome and elegant, while the other was exquisite and exquisite. They were like a pair of golden boys and a pair of beautiful girls. They were exceptionally well-matched.

The first prince, the second prince, the third prince, the fourth prince, the fifth prince, and princess ru Chen, who were watching from the side, had different expressions on their faces.

The most unsightly one was the first prince. He was clearly gnashing his teeth with hatred in his heart, yet he had to pretend to be happy.

He watched as the two walked past him and came before Dongfang Xia. Bei Wangzhu served him a cup of filial tea.

Dongfang Xia took it with a smile and sipped it lightly. She smiled and said, “Zhu'er, from today onwards, you are a member of the imperial family. Come, this is the tea money father gave you.”

He took out a small pocket.

Under the Red Veil, bei Wangzhu's face turned red. “Thank you, Father.”

She took it and looked down from the corner of her eye. Her expression changed.

She saw a hundred deep-colored divine stones lying quietly together.

High-grade divine stones!

According to the exchange rate, it was a million divine stones.

This tea was extremely rich!

Dongfang Xia was about to say something when her gaze suddenly focused. She stared at Bei Wangzhu's phoenix robe and narrowed her eyes. “Your Phoenix Robe is interesting.”

On the wedding day, Dongfang Xia suddenly talked about her daughter-in-law's phoenix robe. It didn't seem to be the case.

Chapter 1843 Dark Star Attacks (Second Watch)

Bei Wangzhu was stunned. She had a bad feeling about this.

At this moment, the Phoenix robe on her body suddenly started to burn. The Dragon and Phoenix patterns on it were emitting thick dark yellow smoke from the flames.

Bei Wangzhu was the first to bear the brunt. She immediately inhaled the smoke.

A nauseating and painful feeling started to spread from her throat into her body and quickly extinguished her life force.

Poison!

Dongfang Xia was right in front of her, but she did not lend a helping hand. Instead, she rolled up her sleeves and swept the yellow smoke back. The poisoned bei Wang Zhu immediately inhaled a large amount of the smoke again.

Her vision blurred, and her remaining rationality told her that she was about to die.

She had died from being poisoned for no reason.

Bei Wangchen and Bei Wang Ting stood outside the grand dominance hall. Only then did they realize her situation and hurriedly came to her rescue.

However, it was already too late.

Recalling Dongfang Xia's merciless scroll, her heart turned cold. The royal family was merciless, and Dongfang Xia was even more merciless.

Sighing, she closed her eyes in despair.

“Ah!”Bei Wangzhu groaned in pain and opened her eyes indistinctly.

Su Yu's handsome face had never appeared so close before her eyes.

He stared at his surroundings and said in a deep voice, “Don't resist. I'll use the true dragon divine flame to burn off the poison in your body. The process will be a little painful.”

Su Yu's entire body was wrapped in a dark red flame.

The yellow smoke that was close to her was immediately burned away. Not even dregs were left. The poison could not harm Su Yu at all.

At this moment, bei Wangzhu's heart was thumping wildly in relief. Her heart had never palpitated before.

It was as if she had suddenly opened a door, or as if her senses had suddenly changed towards Su Yu in front of her. It was as if the other party had become different.

She stared at him in a daze without blinking.

Su Yu's gaze was sharp as he scanned his surroundings.

The entire supreme dominance hall was filled with yellow smoke. Ordinary eyes could not see through it, neither could they see through it.

His eyes flashed as he used the clairvoyance eye. In the end, he discovered something in his heart.

From the first prince to Princess Ru Chen, the moment the yellow poisonous fog appeared, they were all protected by Dongfang Xia's unique divine art, unable to harm them in the slightest.

Only he and bei Wangzhu seemed to have been forgotten by Dongfang Xia.

Had they really been forgotten?

Or was this Dongfang Xia's plan to use this opportunity to get rid of Su Yu?

Looking at Dongfang Xia again, there was no sign of him.

At the end of the world, a powerful undulation came from the endless vast ocean.

It was so powerful that even the two crowned emperors could not get close.

It was a battle between the three crowned emperors.

Su Yu rolled up his sleeves, and the true dragon divine fire on the surface of his body burned all the poisonous fog in Supreme Ling Palace.

He looked at the pale princess ru Chen and nodded slightly, "It's good that you're okay!"

Then he looked at Bei Wang Zhu in his arms, and traces of gray air flowed out of his pores, gradually fading and finally disappearing.

He scooped up the true dragon divine fire from the air and took it back.

"Are You Alright?"

Bei Wangzhu's snow-white cheeks were pink. She lowered her head and hummed softly. She was as obedient and shy as a bride.

After making sure that he was alright, Su Yu put him down.

"Be careful, I'll go and take a look." Su Yu took a step forward and was about to rush out.

This was a heaven-sent opportunity!

There was actually a triple crown prince causing trouble and tangling Dongfang Xia. If he did not escape now, when would he do so?

However, just as he was about to escape, a cold black light suddenly attacked.

The Black Light was silent and did not have any fluctuations. It also did not give off a sense of threat.

Furthermore, it was extremely fast. An ordinary person might not be able to guard against it and be hit by it.

However, the line of fate on Su Yu's chest suddenly shook and a sense of danger arose.

Without thinking, countless space blades shot out from his body and formed a wall in front of him.

Chi La --

The Black Light swept past and was coincidentally devoured by the spatial blades.

However, there was actually a large area of spatial blades that turned pitch black.

The familiar scene made Su Yu's heart thump.

That day, the second prince's group intercepted Empress Zi Wei and killed her. One of them was covered in a black robe, and his every move could emit a mysterious black shadow.

The moment a living being touched it, it would immediately be petrified.

Its power was the same as before.

"Hehe, as expected of the sixth prince who has successfully condensed space laws. His reaction speed isn't ordinary."

In the sky above Supreme Ling Palace, a black-robed figure cackled.

Su Yu's pupils constricted. "A double-crowned Emperor!"

This person was a double-crowned emperor!

At the same time, ripples of a duel between a double-crowned emperor came from several other places in the imperial palace at the same time.

It was the battle between the three nation-protecting double-crowned emperors of the imperial dynasty and the intruders!

Su Yu's heart sank, and he was extremely shocked.

A triple-crowned emperor, four double-crowned emperors, and there might even be many single-crowned emperors. What kind of force was it that was so terrifying?

Their shadows could be seen in the ruins of Yu the great!

So the Saintess of the joyous union had defected to them, right?

Could it be that it was just as she had said, that he had unknowingly provoked a powerful force that he could not imagine?

"Hehe, I'm just a small double-crowned king. How would I dare to charge forward in front of the sixth prince? You have a record of fighting a double-crowned king alone!" He had an abnormally clear investigation of Su Yu.

Bei Wangchen, who was charging over, flashed with a fierce light. "If you dare to make a move against sister Wang, don't even think about leaving today!"

"Nine palms become one!"

The nine sharp palm imprints merged into one and suddenly exploded.

The black-robed man smiled disdainfully. "I didn't even put you in my eyes when you were at your peak, let alone now. You Don't even have a double-crowned king. Do you think you can go against me?"

He casually waved a black light, and the nine palm imprints were easily destroyed.

The black light pierced through the palm imprints and struck bei Wangchen's chest.

His body was instantly petrified, and he could not move at all.

Immediately after, the black-robed man casually attacked and killed him.

However, a red light flashed around Bei Wangchen, and he was teleported away and appeared beside Su Yu.

He slapped hard, scattering the black light on bei Wangchen's body. He said indifferently, "You protect Zhu'er, the princess, and the prince, and retreat. Leave this to me."

Bei Wangchen smiled bitterly. The enemy was right in front of him, but he could only cover for others to escape?

He nodded heavily and said, "Be careful."

As he said this, he removed the simple divine art that the princess and the Prince had cast on them, allowing them to move freely.

"Follow me!" Bei Wangchen smashed the wall of Supreme Ling Palace with one palm and escaped from the other side.

Princess Ruchen and Bei Wangzhu both stopped in their tracks and hesitated, unwilling to retreat.

Bei Wangchen looked at Princess Ruchen with a strange expression. His sister could barely be considered half the sixth prince's Princess Consort. It was understandable that she did not want to leave, but why was Princess Ruchen joining in on the fun?

"Hurry up and leave! If you stay here, he won't be able to focus on fighting the enemy."

He forcefully dragged the two girls and finally escaped through the collapsed gap.

The black-robed man did not chase after them. He stared at Su Yu and said with a smile, "I'm here for you. You ruined our plan and even killed our beloved disciple."

Beloved Disciple? Who?

"Oh," Su Yu said calmly and clenched his fist gently.

It was a good time to test the power of the first form of the Evil Dragon Bible, the Nirvana of the evil dragon.

If he could hold on, then he would test the heavenly bow.

If he could hold on, he would try the Royal Longzun Sword.

There was always a style that suited him, right?

"However, a favored son of heaven like you is extremely rare in our civilization. If you are willing to submit, I won't let you go." The black-robed man's tone softened, as if he was ready to let him go.

However, just as he finished his words, his tone suddenly became fierce. "That's a dream!"

A large amount of black light that was ready to be unleashed suddenly shot out from his back, condensing into a huge palm the size of supreme dominance hall and slamming down.

Clang --

Supreme dominance hall was shattered on the spot, leaving a pile of ruins on the ground.

Su Yu's aura quickly faded away, leaving nothing behind.

A hint of disappointment appeared on the black-robed man's face, "Looks like the information was wrong. What kind of thing is it to fight against a double-crowned emperor? This old man can't even withstand a single palm strike."

He turned to look at the other battlefields where the double-crowned emperors were fighting and laughed. "Dongfang Xia thinks he's so smart. Then why don't we fulfill his wish? Today, we'll wipe out the imperial family of Emperor Yu!"

Before he left, he waved his large palm and swept the ruins away. "HMPH, HMPH. You Brat, you need to bring your corpse back for the Lord to look at."

Who knew that the moment the ruins were flipped open, a roar of rage shook the ear and the ear, numbing his palm.

A thousand-foot-long fire dragon suddenly flew out of the ruins.

A terrifying power knocked his palm back and even his body was pushed back.

The black-robed man was stunned, then he said in surprise, "You Are... the sixth prince?"

He stared at the true dragon in front of him in disbelief.

Su Yu didn't say anything and grabbed with his dragon claw.

The black-robed man immediately dodged and did not dare to take the attack head-on.

However, he was still a step too late. His black robe was torn apart by the strong wind from the Dragon Claw.

An old man that was as shriveled as a skeleton was revealed. His eyes were flickering with black flames.

There was a strange character between his brows.

Su Yu recognized it. It was from the dark star civilization, the language of the Dark Moon clan.

The Dark Moon clan was a third-rate race on the list of ten thousand races. Their individual combat strength was abnormally strong.

Compared to the human race, which was naturally weak, very few people of the same level could defeat the Dark Moon race.

"People from the Dark Star Civilization!" Su Yu narrowed his eyes slightly.

He had long felt that it was strange for the dark star civilization to send envoys to Emperor Yu's dynasty.

At this moment, the dark star civilization was at the crucial moment in the fight for the emperor's killing sword, and all the forces were fighting fiercely for it.

This batch of envoys had chosen to stay in the dynasty and did not leave for a long time.

They had never expected that as the rulers and rulers of a three-star civilization, they would actually make a move against the civilization under them.

"Hehe, it's too late to find out now!" Flames flashed in the skeletal old man's eyes.

Su Yu's dragon body immediately burned with pitch-black flames, petrifying his body.

Unfortunately, Su Yu had obtained the true dragon divine flame. With a slight shake, the black flames attached to the surface of his body were swallowed by the steaming true dragon divine flame.

The skeleton elder was shocked.

He had thought that Su Yu only had the spatial blade to be feared by others, and his natural talent, black light, was just enough to counter the spatial blade.

Who would have thought that other than this, he actually hid a strange ability to transform into a dragon.

“Good, this old man wants to see how powerful you are!”The skeleton elder took out a pitch-black bone blade, and numerous resentful souls roared furiously within the bone blade.

Chapter 1844 Moon Worship Sect Master (Third Watch)

Anyone who was struck by this blade, even if it touched the slightest bit of skin, would be either dead or crippled by the resentful souls entering their bodies.

“Dark Moon Fierce Soul Blade!”The skeleton elder’s long blade slashed down, bringing with it a series of resentful souls’cries that disturbed the mind.

Su Yu’s gaze sharpened, and his dragon tail swept out.

Clang --

The bone blade slashed onto the dragon tail, causing a series of sparks to erupt, but it didn’t manage to cut into the dragon tail at all.

“How is this possible?”The skeleton elder stared at the bone saber in disbelief. Even a single strike from him would injure the double-crowned emperor by thirty percent.

The True Dragon that the sixth prince had transformed into was actually so tough!

However, he did not know that the dragon race had always been known for their strong bodies.

Just think about how the body of the evil dragon sage Monarch had endured for five or six days before it was burned to death under the true dragon divine fire. One could imagine how tough it was.

The skeleton elder was shocked and immediately felt that this was going to be a tough nut to crack.

This kid was much more difficult to deal with than he had imagined!

In the end, he gritted his teeth and took out a fist-sized bead that was filled with countless resentful souls.

He opened his mouth and bit the bead to pieces. Then, he sucked and sucked all the resentful souls away.

The black light in his eyes instantly grew ten times stronger.

“Kid, take another strike from me!”The power of this strike was more than five or six times stronger than before?

With the evil dragon’s initial nirvana stage, it would probably be cut into two.

“True Dragon Divine Fire!”Su Yu suddenly opened his mouth and spat out a dark red flame.

Ah --

The bone saber immediately let out a mournful roar, and countless resentful souls were burned into ashes.

The skeleton elder was shocked. "What kind of fire is this?"

"Extinguish your fire!"

How powerful was the True Dragon Divine Fire? Although it was not as powerful as the true divine fire, it was definitely not something that a double-crowned emperor could withstand.

As the fire burned his body, the skeleton elder immediately let out a shrill cry of pain and hurriedly put out the fire.

However, the fire was extremely difficult to extinguish, and even the power of desolation was unable to do anything to it.

Seeing that the fire had entered his body, how could the skeleton elder still have the courage to continue fighting?

He ran towards his approaching companions in terror and shouted, "Peak Master Hu Yue, quickly save me!"

Su Yu's cold eyes flashed, "You want to escape?"

He waved his dragon tail and very quickly chased after him.

The huge dragon claw slapped his body and instantly slapped the skeleton elder to the ground.

The skeleton elder crawled up and ran, but was ruthlessly pressed to the ground by a dragon claw.

The Dragon Claw released a strong true dragon divine flame, which burned the skeleton old man until he screamed miserably.

"Is that all you can do?" Su Yu tried the Nirvana of Evil Dragon and the True Dragon Divine Flame. However, he found that they were extremely powerful.

Since he came to the absolute beginning realm, his body had always been ordinary.

He didn't expect that after cultivating the evil Dragon Bible, his body could resist the double-crowned kings.

Combined with the true dragon divine fire, an ordinary double-crowned king would be crushed.

"Sixth prince, please forgive me. I don't want to die." The skeleton elder begged for mercy.

Su Yu's eyes were cold. After such a long experience, he was naturally not a soft-hearted person,

"I'm sorry, I don't want to die either." Would he be grateful if he let him go? If he really thought so, Su Yu's life would be in vain.

The Dragon Claw pressed down, and even more fierce flames surged over, turning the skeleton elder into a Burning Man.

In the sky-shaking roar, his body was completely destroyed.

A fist-sized soul turned into a stream of light and fled.

Su Yu smiled faintly, and a crack appeared between his brows. **"Soul Devouring Realm!"**

“Ah! No, let me go...”

His voice suddenly sounded, and Su Yu captured his soul and sealed it between his brows. He would think of a way to digest it once he found a safe place.

He casually grabbed the spatial storage device that he had dropped and turned to leave.

However, two sharp auras, one in front and one behind, headed straight for his location.

Su Yu’s heart moved, and he retrieved the evil dragon Nirvana and stood quietly in front of a pile of ashes.

He was close.

It was a black-robed man with a tiger’s head chasing after the gray-robed emperor.

The latter’s body had just been destroyed by True Lord Fire Dragon not long ago, and he had just barely reunited. His cultivation had yet to recover to its peak.

In addition, he was from the middle-tier and third-tier Dark Moon clan. How could he fight against him?

A bowl-sized black wound could be seen on his chest. It could not be healed, and the wound was still spreading in all directions.

Without the tiger-headed emperor chasing after him, he would not be able to live for long.

The gray-robed emperor lowered his head and saw that Su Yu did not Dodge. He stood there with his hands behind his back. He could not help but shout, “Sixth prince, why haven’t you escaped?”

He saw Bei Wangchen leading the princess, the prince, and the others to the west of the imperial palace. How could he leave Su Yu behind?

Without bei Wangchen’s protection, any single-crowned emperor would be able to take his life.

“Sixth prince? The skeleton peak master did not do a good job, and he actually allowed you to escape here. HMPH!”The Tiger Moon Peak Master snorted and casually shot a black light toward Su Yu.

However, Su Yu did not move at all. He had no intention of dodging.

The gray-robed emperor gritted his teeth and pounced over. He grabbed Su Yu under his armpit and escaped. He said bitterly, “You can only follow me, but I can’t hold on for long. I’m afraid I Won’t be able to protect you.”

Perhaps Dongfang Xia had many things that Su Yu despised, but there was one thing he was not wrong about.

The Great Yu imperial court’s strength did not depend on the nine cauldrons, but on him, the princes, and the loyal officials.

The gray-robed emperor was undoubtedly such a loyal official.

He was still loyal to the imperial family even before his death.

During the time he pretended to be the sixth prince, the gray-robed emperor had protected him many times.

Sighing, he said, "This time, it's my turn to protect you."

A layer of red dragon scales appeared on his arms, and his body was surrounded by laws of great power.

He pulled his arms and barely pulled three inches apart.

His body was now strong, comparable to a double-crowned emperor, but he could only pull three inches apart.

But it was enough.

In the past, he could kill a single-crowned emperor in an instant. Now, three inches..

The arrow rested on the bow and aimed at the peak master of Tiger Moon Peak who was chasing closely behind him.

He was sneering when he suddenly became alert. All the hair on his body stood up and he immediately stopped in his tracks. He stared at the exaggerated giant bow in shock.

A powerful life-and-death crisis enveloped his heart. His instinct after many years of fighting made his reaction extremely decisive.

Without saying anything, he turned around and immediately fled.

However, Su Yu had already loosened the bowstring.

With an intense hissing sound, the arrow flew out.

In the past, it would leave a black shadow in the air, but this time, it did not even leave a shadow.

The head of the Tiger Moon Peak Master was immediately pierced through by the arrow and exploded like a watermelon.

At the same time, a small and exquisite soul roared and fled.

Another crack appeared between Su Yu's brows. With one opening and one closing, it devoured his soul.

Seeing this scene with his own eyes, the gray-robed emperor felt his scalp go numb. He was overwhelmed with shock.

The Peak Master of Tiger Moon Peak, who had beaten him half to death, was actually killed in one strike!

Su Yu sucked in the air and swept away the spatial storage device of the peak master of Tiger Moon Peak.

"Let's go to the next place,"he said indifferently, as if he was giving an order.

The gray-robed emperor nodded subconsciously. "Oh, Oh, okay."

The battle between the two crowned emperors was extremely intense. It was very easy to find them.

In the second battle between the two crowned emperors, the dynasty emperor who was struggling hard was pleasantly surprised. “Gray Robe, which one did you kill? Quick, come and help me.”

The corner of the gray-robed Emperor’s mouth twitched. He wanted to kill them, but did he have the ability to do so?

Su Yu stood beside him. He pulled open the bow silently and shot out an arrow.

“Ah!”

As expected, the double-crowned emperor of the Dark Moon clan was also killed by an arrow.

His soul wanted to escape, but the gray-robed emperor grabbed it and handed it to Su Yu respectfully.

Su Yu pressed his forehead and nodded lightly. “Next.”

The country-guarding emperor who had escaped the disaster stared at Su Yu’s back in fear and whispered, “Gray Robe, what’s going on? The sixth prince...”

The gray-robed emperor smiled bitterly and said, “Don’t ask too many questions. Just follow him and see what it means to slaughter a double-crowned emperor like a dog!”

Dog-slaughtering... the country protector was not convinced.

However, when he recalled the scene of the emperor who had suffocated him with an arrow, he could not help but Twitch.

The two of them, one on the left and one on the right, acted like attendants and were very polite.

Those who did not know would have thought that they were accompanying the emperor of Emperor Yu’s dynasty.

Similarly, the third stage was completed with a single arrow.

The third sovereign was also stunned. His situation was even more critical, and his body was almost destroyed.

In the end, before he could even react, he was killed by Su Yu with a single arrow.

Su Yu was extremely satisfied after obtaining the souls of the four dark moon race’s double-crowned sovereigns.

As such, after devouring their souls, his own souls would soar to an extremely high level.

The final sixth level of the son of Heaven’s aura-gazing technique would definitely appear.

Apart from that, there were also the collections of the four double-crowned emperors, which would be extremely shocking.

Suddenly, a terrifying fluctuation came from the end of the sky.

Looking from afar, Dongfang Xia’s hair flew in anger as he fought with a black-robed man in the sky.

It could be seen that Dongfang Xia was at a disadvantage, and the black-robed man was very relaxed.

“Hehe, if you were to cultivate quietly for another thousand years, I would still be afraid of you. You have just broken through to the Triple Crown. What are you in front of my sect?” The black-robed man clapped his sharp claws. His five fingers wrapped around the nomological chains and smashed Dongfang Xia’s shoulder blade into pieces.

He roared in pain, his facial features, which were covered in blood, appeared particularly ferocious. “Your Moon Worship sect has really gone to great lengths to seize the Great Yu imperial court! “You secretly supported my exiled imperial sister and failed in her attempt to seize the dynasty. To think that you, the Moon Worship Sect’s master, would actually come out personally!”

When Su Yu heard this, he came to a sudden understanding.

Back then, fantasy moon Langjun had barged into the imperial palace and kidnapped three imperial concubines. Dongfang Xia and the three country-defending emperors had all been pestered by mysterious experts.

Their strength was extremely high, and they should be the two-crowned emperors.

It was very likely that they were the four emperors that Su Yu had killed today.

Dongfang Xia had set up a trap to catch all of them in one fell swoop. Dongfang Shenlei was most likely just a facade. What he really wanted to get rid of was the few mysterious experts that had secretly supported Dongfang shenlei.

Unfortunately, they did not show up.

Therefore, Dongfang Xia had another plan. He used Su Yu and bei Wangzhu’s wedding to intentionally lower the palace’s Guard and invite them into the trap.

This was why he insisted on marrying Su Yu and Bei Wangzhu, and why he was eager to finish the wedding within ten days.

He wanted to kill two birds with one stone.

He could not only lure out the mastermind behind Dongfang Shenlei, but he could also use them to get rid of Su Yu openly.

After that, he would issue an obituary saying that the sixth prince had been heroically sacrificed and it would be over!

However, Dongfang Xia had never expected that the people supporting Dongfang shenlei were not ordinary forces, but the moon worship sect from the Dark Star Civilization!

What was even more unexpected was that the moon worship sect master had personally made a move!

His strength was far above Dongfang Xia’s.

Dongfang Xia had originally wanted to lure the wolf into the trap, but who knew that he would attract a tiger!

Chapter 1845 Star Stone

Recently, Su Yu had been familiar with the collections of various extraterrestrial civilizations, so he had a certain understanding of the dark star civilization.

The main race of the Dark Star civilization was the Dark Moon race. Among the myriad of races in the universe, they were of the third-rate. They were very talented in cultivation, especially when they were born with the Dark Moon Divine Light.

The creatures and objects that were hit would usually show signs of petrification, stiffness, and so on, and then they would be easily killed.

Within the range of the dark star civilization, there were many civilizations under its jurisdiction. Among them, the three-star civilization was basically created by the Dark Moon race, and there were very few other races.

In history, there was once a three-star civilization outside of a race that was destroyed overnight. To be precise, it disappeared overnight and never appeared again.

It was as if it had never existed.

Although they did not know what had happened, the Dark Moon clan was vaguely recorded in the records.

The Moon Worship sect was one of the top ten forces of the Dark Star Civilization. Although it was ranked at the bottom, it was extremely powerful.

The sect master was a Triple Crown Emperor. There were ten double crown emperor elders, and there were more than a hundred single crown emperors.

They occupied an area and recruited believers. Their forces had a wide range of branches.

They had been targeting Emperor Yu's dynasty for many years for more than one reason.

Looking at Dongfang Xia's face covered in scars and being at a disadvantage, the three country emperors were extremely worried and anxious.

However, it was useless for them to participate in the battle between the three crowned emperors. Instead, it would affect Dongfang Xia.

After Su Yu saw this, he turned around expressionlessly and walked toward the sixth Prince's residence.

"Your Highness, where are you going?" The gray-robed emperor asked in surprise. He looked at the magical bow in his hand and said, "I implore the sixth prince to help his majesty."

Save Him? was that possible?

Dongfang Xia was scheming everywhere. He could not wait for Su Yu to die in the Dark Star Civilization's scheme.

Would he save Dongfang Xia?

Taking advantage of the fact that Dongfang Xia was being suppressed to the point where she could not raise her head, it was the right way to escape.

“I can’t do anything in a fight between the three crowns.” Su Yu did not even turn his head back. “I’ll go and see how my royal sister and the others are doing.”

Without waiting for the three of them to stop him, he immediately fled.

At the same time, Dongfang Xia’s moon worship sect leader crashed into the ground.

A ten million Zhang deep hole had been dug into the ground, and a large area of earth veins was flowing within.

“Hehe, how sad. Even your son abandoned you. Dongfang Xia, raise your hand and surrender. You’re no match for me.” The Moon Worship sect leader had a relaxed expression as he stood with his hands behind his back, staring at Dongfang Xia, whose injuries were getting more and more serious.

Dongfang Xia snorted coldly and turned around, escaping into the ley lines.

“Why do you have to do such a useless thing? You can’t escape.” The Moon Worship Sect Master’s lips curled up into a teasing smile as he chased after him in a flash.

Su Yu returned to the sixth Prince’s residence and packed up his things.

The imperial palace was in chaos. Eunuchs and palace maids were fleeing everywhere, avoiding the pursuit of the Dark Moon clan.

The main gate of the imperial palace had long been lost.

It was the best time to escape from the imperial palace and the border of the imperial city.

Just as he was about to rush out, a light shout burst out from the princess’ mansion next door.

It was bei Wangchen!

Su Yu frowned and could only fly to the high sky of the Princess’ mansion and look down.

The four monarchs of the moon worship sect were trapping bei Wangchen, the first prince, and the others.

Bei Wangchen and the first prince were barely able to resist the combined forces of the four.

But they were only barely able to resist.

The first Prince’s leg was hit by a black light and had already turned to stone.

Bei Wangchen was only barely able to protect himself.

Once he died, Princess Ruchen and the other princes would be at the mercy of others.

How troublesome!

But for the sake of Princess Ruchen’s friendship, he naturally wouldn’t just stand by and watch.

He pulled open the sky bow and casually shot an arrow. Immediately, a single-crowned moon worshipper disciple died on the spot.

Following that, another arrow was shot.

When the second disciple died, the remaining two disciples fled in fear.

However, they could not escape Su Yu's arrow and were directly shot to death.

After resolving the crisis, Su Yu stood on the city wall and frowned. "Why are you still in the Palace?"

Bei Wangchen shattered the black light with his palm and said calmly, "The palace is full of experts from the Dark Moon clan. We have nowhere to run. We were forced here by a few emperors."

Su Yu frowned slightly. "The palace is dangerous, so the fief should be much safer. Why didn't you use the imperial teleportation array? Could it be that the palace was also destroyed?"

"That's not true." Bei Wangchen's face sank. "But I sent a message to my father, and only then did I learn that when he returned to the fiefdom, he received orders from Dongfang Xia to seal the entrance to the Imperial City again. It has been eight days now, and there is no extra power in the fiefdom to protect us."

If they stayed in the imperial palace, they could still use the various restrictions in the imperial palace. Returning to the fiefdom would speed up their deaths.

Another blockade? Or was it seven or eight days ago?

In other words, it was after he had issued the imperial decree for the Grand Wedding.

As expected, Dongfang Xia was scheming again. He wanted to use the same trick to capture all the moon worship believers who were hiding in the Great Yu civilization in one go.

His unintentional actions had instead caused trouble for Su Yu.

With the borders sealed, how was he going to leave the imperial dynasty?

Nodding, Su Yu glanced at Princess Ru Chen. "You guys be careful."

Then, he turned around and was about to leave.

"Where are you going?" The person who asked was Bei Wangzhu, who was still wearing a bright red wedding gown.

Su Yu was expressionless. "I'm leaving the Great Yu imperial court."

There was nothing more to hide now, he looked at Bei Wangzhu. "I'm not the real sixth prince, and Dongfang Xia won't allow me to live for long. That's why I warned you that choosing to marry me might be the worst decision you've ever made in your life."

The warning from that day had come true!

The wedding had been interrupted midway, and she had almost been poisoned to death.

Even if she survived now, there was a high chance that she would never be able to get married in the future.

The most lamentable thing was that she had originally been able to become the imperial family's Princess Consort, but now, she was nothing.

What? Not the real sixth prince?

Other than bei Wangchen's shocked expression, the first prince, second prince, and the others were actually very calm. They were not too surprised.

Especially the first prince, who had a strange look in his eyes.

Why were the royal brothers willing to hand over the national fortune to him after they seized it that day?

It was because the first prince had said one thing to them.

"The sixth Prince's identity is fake!"

In Yu the great ruins, when Holy Emperor Xie long activated the restriction in Emperor Xian's body, everyone was in trouble. Only Su Yu was safe and unharmed.

The Sage of the wicked dragon bluntly called out Su Yu's name. He was definitely not of the eastern royal family's bloodline.

Even though they did not notice it due to the pain of the restriction, their men heard everything.

It was precisely because of this that the five princes joined forces and treated the sixth prince as an outsider who wanted to usurp the throne.

Princess ru Chen was even less surprised. She sighed silently. If she told the truth, it was impossible for him to stay.

A trace of sadness crossed her heart.

Bei Wangzhu was a little surprised, but not too surprised. She had suspected Su Yu's identity from the very beginning.

Mixing with the corpse clan and seizing the dragon cauldron did not seem like something a prince of a dynasty would do.

She stared at Su Yu with a burning gaze and said, "I don't regret it."

What? Su Yu was slightly startled.

Bei wangzhu smiled, "Choosing you is my greatest fortune."

When she was poisoned, Su Yu saved her. At that moment, for the first time, she felt her heart beating.

She understood that that was love.

"But, I can't give you a future, just like I said." Su Yu sighed silently, provoking another girl for no reason.

"I won't go with you." What was strange was that Bei Wangzhu smiled faintly, her smile was a bit lonely and also a bit envious, "I know, if you want to find them, you can't take me on the road."

Su Yu was silent.

“Didn’t you want to ask where they went? I’ll tell you.” Bei Wangzhu said sourly, “Zhuji’s corpse king went to the evil daughter Palace. That beautiful girl called Xia Jingyu and Shengge’s girl went to the Goddess clan.”

“You’re looking for them, and they’re also looking for you. Well, they mistakenly thought that you had died in the evil daughter Palace’s hands.”

Su Yu’s pupils constricted, and a rare look of joy appeared on his face. It came from the bottom of his heart.

Xia Jingyu and Sheng Ge did not die? But why were they together with Zhuji?

“They should have been imprisoned by Zhuji previously. After you died, you released them. She wanted one more person in this world to remember you. I was one of them.” Bei Wangzhu suddenly felt that the curse.., might not necessarily be a misfortune.

Without batting an eyelid, her finger swept across the storage ring and crushed the divine grass that was stored inside to break the curse into nothingness.

“Zhuji...” Su Yu mumbled, his emotions complicated.

He thought that Zhuji was just acting on a whim, but after his death, he flew like a moth to the Flames to take revenge on the evil daughter Palace.

“She said that if she dies and comes back to life one day, please let us who remember you tell her that she once loved a person called Su Yu in her past life.” Bei Wangzhu hated Zhuji, but now, she repeated what she said, she felt inexplicably sad and touched.

In front of love, Zhu Ji treated herself as if she was nothing.

Just as she said, she only wanted to be a vine facing the sky. She didn’t want the big tree to look at her directly, but only wanted to grow together with it.

Even if she had to endure wind, Frost, rain, lightning, and thunder.

She didn’t regret it. She was willing to endure it.

“If she is still alive, please don’t let her wait for the next life.” After bei Wangzhu said that, she slowly closed her eyes and tears flowed down the corners of her eyes.

Compared to Zhu Ji, she did not dare to mention her so-called love, which was too pale.

“I will find him.” Su Yu’s heart sank.

He cupped his fists and bowed deeply. “Thank you for telling me, I will leave now.”

After saying that, he turned around and left.

He chose a slightly secluded place and slashed out a large hole with his sword, revealing the underground vein of the Imperial Palace.

Without saying anything else, he immediately dived into it.

Following that, he came to the front of the Fuyao ancient array with ease.

He slapped his palm on the wall and a large area of deep-hidden veins immediately appeared.

“Perhaps Dongfang Xia never dreamed that I would also have a copy of the star stone and star map.” His palm changed and a golden box appeared.

Back then, when he was searching for fantasy moon Langjun’s cave abode, he had found three items in a secret mechanism.

Heavenly bow, the “Floating core” in the silver box, and finally, a mysterious item in a gold box.

A black stone and a scroll filled with dots and lines.

He did not know what the latter was until fantasy charm personally demonstrated his use.

That was the star stone and star map!

It was a super teleportation array that transcended nothingness.

Chapter 1846 The Daughter Of The Dragon Emperor

Su Yu did not say a word and stuck the star map onto the pattern. The pattern immediately began to twist and a whirlpool appeared in the center of the array, just enough to put a star stone in.

Just as Su Yu was about to put it in, a beautiful figure suddenly rushed over from afar.

It wasn’t anyone else, it was princess ru Chen!

Her small face was flushed red. The two plump blobs that were maturing day by day swayed together, appearing very alluring.

“Why are you here?” Su Yu asked in surprise.

Princess Ru Chen took a deep breath and said breathlessly, “I, I want to go with my royal brother.”

Su Yu frowned slightly. “Are you sure you’re not wrong?”

“Yes!” Princess ru Chen’s eyes were serious.

Su Yu said seriously, “I’m going to the Dark Star civilization, and it’s very dangerous. You and I will only be bad for you, not good for you.”

Princess ru Chen’s snow-white face turned slightly red, and she said shyly, “Royal brother, I’ve thought it through. In life, you should be happy. Now That You’re gone, we may never see each other again. I don’t want to spend the rest of my life regretting it.”

Her words were full of affection.

“You...” Su Yu’s heart softened. He said, “Then what about your position as the Crown Prince? You spent your whole life to finally get what you wanted. Isn’t it a pity to give up just like that?”

Princess ru Chen shook her head. Her gaze became more determined. “I got the position of the crown prince only to avenge my mother and uncle. Now that my enemy has been killed by you, the position of the crown prince is no longer important.”

Giving up a great country for him?

Su Yu's heart became softer and softer. He gently patted her head. "Silly girl, is it worth it? Just like what Pearl said, I still need to find another woman. It's impossible for me to take you on the road."

Princess ru Chen's small face was red. She lowered her head and threw herself into Su Yu's arms without saying a word. She said in a low voice, "I only want to be by your royal brother's side forever. Be it as your royal sister or as your wife, I'll do whatever you want."

Listening to her soft and affectionate words and feeling the softness in her arms, Su Yu nodded her head and gently pushed her away. She said, "Alright, I'll take you away. Before I leave, I'll give you a gift first."

Princess ru Chen's face turned even redder. She lowered her head and stared shyly at the tips of her feet. The young girl's expression of being in love was vivid and vivid.

A faint light flashed in Su Yu's palm, and the ice-cold Asura sword fell into his palm.

The expression on Su Yu's face also changed from gentle to fierce and deep killing intent. The Asura sword in his palm mercilessly stabbed towards princess ru Chen's chest.

Everything happened extremely suddenly.

No one had expected that Su Yu, who loved princess ru Chen dearly, would attack her, and it was a fatal blow!

That ruthlessness and decisiveness was as if she was a completely different person!

The tip of the sword soon reached her chest. At this moment, she lowered her head and didn't even have the time to react.

Seeing princess ru Chen Die from this, a shocking scene appeared.

Princess ru Chen's two hurried fingers were like lightning as they easily caught the tip of the Shura Sword.

No matter how hard Su Yu tried, he couldn't Pierce it.

She lowered her head and her expression couldn't be seen clearly, but her voice became abnormally cold and quiet. "Hehe, what a good gift. I'm flattered."

That voice wasn't Princess Ru Chen at all!

Su Yu snorted coldly. A layer of red scales appeared on both of her arms, and her body was surrounded by enormous power laws. The Shura Sword in her hand stabbed out with ten times the strength.

Chi --

The tip of the sword broke free from princess ru Chen's two fingers and stabbed into her chest.

However, this sword only pierced through her clothes, but not even her skin.

Su Yu was shocked and asked, "Who are you?"

The other party was not princess ru Chen at all!

Princess ru Chen raised her head, and her eyes became extremely deep, there was an evil smile at the corner of her mouth. "Why don't I ask first, how did you see through me? I feel that I have a clear grasp of everything about princess ru Chen, and there won't be any flaws."

As she spoke, she flicked her finger lightly and sent the Shura Sword Flying.

Su Yu's hand went numb, and the long sword almost slipped out of his hand.

The other party's strength was absolutely not inferior to Dongfang Xia's!

Su Yu's thoughts whirled, and at the same time, he said, "You were wrong from the start!"

"How was I Wrong?" Princess Ruchen smiled faintly.

"First, Princess Ruchen won't shake off Emperor Wuhen. What she values the most is family ties. This is her nature, and you won't say a word about Emperor Wuhen's whereabouts or whether he's safe or Not!"

"Secondly, the environment of the earth veins is extremely complicated. It's like a maze. How can princess ru Chen catch up by herself?"

From the start, Su Yu knew that the one who caught up was definitely not princess ru Chen.

Or rather, it was another princess ru Chen!

A long time ago, he had felt that princess ru Chen was very strange.

At times, she was confused, but at other times, her eyes emitted a deep gaze that made one's heart tremble.

For this reason, he had secretly inspected princess ru Chen's soul and did not discover that it was being controlled by the other consciousness.

Only then did he gradually forget about it.

He did not expect that there was a problem in her body after all, that there was another consciousness.

"I see." The corner of Princess Ru Chen's mouth curled up. "I was careless. I caught up when I saw you heading straight for the ley lines and did not carefully deal with these small details."

She was indeed after the star stone and the star map.

Su Yu said indifferently, "Then, who are you?"

Hearing this, princess ru Chen Smiled Evilily. Two small golden horns slowly grew out of her forehead, she said meaningfully, "You're holding the Royal Longzun Sword of our Dragon Clan's royal family, yet you're asking who I am? Royal brother, don't you think it's funny?"

"Dragon Horn! !" Su Yu was aghast!

He had once obtained the Dragon Horn of the Genesis Dragon, so he was very familiar with this item!

“I really didn’t expect you to be a member of the Dragon Clan, and a member of the royal family of the Dragon Clan!” Su Yu stared at Princess Ru Chen deeply, and he was shocked beyond words.

Princess Ru Chen said lightly, “To be exact, you should call me princess. I’m the Third Dragon Lady of the Dragon Emperor, Princess Linglong.”

And a princess!

He had no time to ask why her consciousness appeared in Princess Ru Chen’s body.

Because Princess Linglong’s eyes were emitting traces of killing intent.

“Give me the Starstone and the Royal Longzun Sword.” Princess Ru Chen stared at Su Yu, “I don’t want to kill you. This little girl’s feelings for you are real. If I really kill you, she will be a big trouble for me if she wants to seek death. But don’t go against my will.”

“Normally, stealing the treasures of the dragon clan would mean certain death, let alone the Royal Longzun Sword.” Princess Ru Chen’s temperament was cold. “I spared your life because of this little girl. Otherwise, I would have killed you when you took out the Royal Longzun Sword!”

Su Yu held the star stone in his hand and glanced at the half-opened ancient Fuyao array with hesitation.

“Don’t make me say it again!” Princess Linglong said coldly.

At this moment, the hesitating Su Yu suddenly spread out the yin-yang wings on his back. With a light flap, he disappeared into thin air.

Princess Linglong came to a realization and said angrily, “How dare you trick me!”

Su Yu was asking all kinds of questions to stall for time. He secretly took out the advanced Taiji Yin-yang wings.

The Royal Longzun Sword and the star stone were related to his life and situation. How could he hand them over so easily?

With a teleport, he escaped.

Princess Linglong grabbed the star map across the sky and brought it back. With a flash of her eyes, pink flames rushed out and burned through countless ley lines above her head, revealing the outside world.

“Let’s see where you can run to!” Princess Linglong rushed out in a flash, looking for Su Yu everywhere.

Then, the corner of her mouth turned cold as she locked onto his direction.

Feeling waves of locked onto aura, Su Yu felt extremely depressed.

The last time he used the ancient Fuyao Array, he was almost able to escape, but in the end, he killed his way out of Dongfang Xia.

This time, he was almost able to leave again, and the Dragon Emperor's daughter ran out again! Not only that, but she also lost the star map.

Without the star map, it was impossible to use the ancient Fuyao array.

What was even more infuriating was that the daughter of the Dragon Emperor chased after him relentlessly.

With a flash, he flew out of the imperial palace.

Along the way, several single-crowned emperors of the Dark Moon clan sensed Su Yu, but they were chased by the three nation-protecting emperors, so they did not have the time to chase after him.

Just as Su Yu flew out of the imperial palace...

Suddenly, a ferocious flood dragon that was a thousand feet long rushed over from the entrance of the imperial palace. It said fiercely, "Brat, you've finally come out. I've been waiting for you for a long time!"

Su Yu was stunned for a moment. He swept his gaze over it before remembering who this flood dragon was.

On his first trip to the Great Yu imperial court on the meteorite, he encountered an emperor-level flood dragon. He searched around for the meteorite control technique and said that he was refining some secret treasure that could travel through the void.

He also had his eyes on Su Yu.

It had been a few years, yet this flood dragon was still thinking about Su Yu.

Now that the Imperial Palace was in chaos, it took the opportunity to ambush Su Yu.

Su Yu couldn't help but find it funny. Was there a need to be so persistent?

Without even looking, the scales on Su Yu's right hand flashed, and a dragon claw struck out.

The Flood Dragon Emperor was stunned. Wasn't that a Dragon Claw?

When he reacted, he hurriedly used both claws to block, but more than half of his body was shattered by Su Yu's claw.

"Ah! You, you..." emperor flood dragon was in disbelief.

It was as if he was about to eat a sheep. However, after taking a bite, he realized that it was a f * cking tiger's Tail!

Emperor Flood Dragon was scared out of his wits. He turned around and fled.

Su Yu sneered, "Since you're here, why are you leaving?"

He used his claw to shatter the other half of his body.

The soul of a flood dragon escaped in a hurry, but Su Yu grabbed it and stuffed it between her eyebrows.

In just a moment, Princess Linglong's aura was approaching by a large margin.

"This woman!" Su Yu was furious. He activated the advanced Taiji Yin-yang wings again and escaped quickly.

Princess Linglong, who was just about to catch up, was left behind again. She couldn't help but gnash her teeth in anger. "This damn bastard!"

Gritting her teeth, she chased after him again.

The two of them chased one after the other, from the imperial city to the fiefdom, and from the fiefdom to another fiefdom.

Although Princess Linglong was unbelievably powerful, she seemed to be relying on some kind of secret technique at the moment. After all, Princess Ru Chen's body only had this little cultivation base.

As time passed, her body gradually showed signs of being unable to hold on.

Su Yu was not much better either. The high-level Taiji yin-yang wings technique consumed a bottomless pit of divine power.

He had used up almost half of it after activating it four times.

If he continued to chase, he would not be able to hold on for long.

The two of them chased after him. Unknowingly, they had chased after more than half of the dynasty and finally returned to the imperial city.

At the same time, in the depths of the ley lines.

The moon worship sect leader had crushed Dongfang Xia to the point that she was unable to retaliate. The latter's injuries were getting more and more serious.

It seemed that he would either surrender or die here today.

"You ungrateful thing." The moon worship sect master charged forward once again.

The strange thing was that Dongfang Xia no longer put up a fearless resistance. He simply remained motionless, and an unfathomable sneer hung on his face.

He was like a hunter who had lured a fox into a trap.

Chapter 1847 Chaotic Dance Of The Earth Veins

"Moon worship cult master, don't tell me you think that I am not prepared for you at all?" Dongfang Xia gave a strange smile.

Since he had already found out that the moon worship cult was the one who supported Dongfang Shen Lei, How could he not be wary of the moon worship cult master coming personally?

Moon worship cult master was stunned. He narrowed his eyes and looked around.

“Hehe, do you think that the Imperial Palace of Emperor Yu the Great is built on countless earth veins without any purpose?” Dongfang Xia stood up, the smile on his face grew deeper. “Moon worship cult master, say goodbye. You should regret provoking me and the emperor Yu of the Great Yu dynasty!”

He formed his palms into claws and grabbed at the ground, creating countless twisting earth veins.

The power of the earth veins was crazily absorbed by Dongfang Xia’s palms and gathered into an energy ball the size of a pigeon egg.

In an instant, no less than a thousand earth veins withered.

The energy ball in his palm was abnormally powerful.

The Moon Worship sect master stared at the pigeon egg energy ball and slightly raised his eyelids. “Extracting earth veins is a unique talent of the Blood Crystal Race!”

All races above the third-rate had innate talent.

The Dark Moon race had the black light of petrification and stiff people, and the upper third-rate blood crystal race was no exception.

However, the blood crystal clan was very mysterious. Over the years, the moon worship sect had tried to find out what talents the eastern royal family was good at. However, other than using blood to grow the blood bodhi, they had never heard of any special abilities.

Now that Dongfang Xia had used his human body to directly extract the earth veins, he finally felt a trace of panic.

“Hehe, you didn’t expect it, right? No one in the previous generations of the royal family has ever used it. This is the first time it will be used on you!” Dongfang Xia sneered. He grabbed with his right hand and extracted a large amount of the earth veins’ power.

The swirling airflow the size of a pigeon egg in his palm grew to the size of a fist.

A destructive power roared within and was about to erupt.

The moon worship sect leader sensed the danger and slowly retreated.

Dongfang Xia laughed, “I only lured you into the ley lines after I heavily injured you. Why would I let you go?”

“Ley lines dance!”

Rumble --

Instantly, the ley lines below the ground seemed to have survived. They turned into countless giant snakes that twisted and blocked off all escape routes.

The moon worship sect master did not dare to stay any longer. He smashed a large area of ley lines with a punch to escape from this place.

Since the blood crystal clan’s talent was ley lines, as long as he left this place, Dongfang Xia would not be a threat.

His wishful thinking was not bad, but who was Dongfang Xia?

How could an ambitious man who was good at scheming let him go so easily.

“The earth vein overlaps!”

The remaining earth vein suddenly twisted together, squeezing and compressing each other crazily.

The earth vein, which was ten thousand feet deep, compressed into one thousand feet and became extremely solid.

The Moon Worship sect leader’s attack failed to penetrate it.

At the same time, Dongfang Xia held a fist-sized energy ball in his hand and attacked with a sinister smile, “Moon worship sect leader, I’ll return everything you gave me just now!”

The earth vein energy, which had been compressed to the extreme, erupted like a volcano.

The Moon worship sect leader felt his scalp go numb. He turned around and tried to resist.

“Moon worship divine light!”A Black Moon appeared above his head. A large amount of black light shot out from it, petrifying the surrounding area.

It could be seen with the naked eye that the entire earth vein had turned pitch-black.

However, only Dongfang Xia was covered by the power of the ley lines, like a sun rising against the light.

One black and one white collided in the depths of the ley lines.

Bang --

The imperial palace on the ground was instantly shattered into nothingness. A large number of eunuchs and palace maids were directly killed by the shock.

Those with cultivation like the first prince were also sent flying into the sky. The Blood Qi in their bodies surged, and they were endlessly injured.

Looking down, a layer of shockwave visible to the naked eye shot out in all directions, with the imperial palace as the center.

When the shockwave left the area of the imperial palace, it was no longer suppressed by the firm Earth veins, and it exploded with ten times the speed.

Rather than saying that the entire imperial city had been shattered, it was more appropriate to say that it had been completely destroyed by the shockwave.

Countless houses, livestock, and even human beings had all been annihilated.

The powerful shock wave’s momentum did not decrease as it rushed out of the imperial city at a rapid speed.

Wherever it passed, everything was annihilated.

In the distant northern letter fiefdom and the snowy lion fiefdom, they all felt a deep tremble.

A catastrophic earthquake had occurred throughout the entire territory of the country, and the casualties were incalculable.

At the source of the world-shaking disaster, Dongfang Xia's eyes were coldly staring at a human-shaped gap.

And half of the Moon worship sect leader's body.

The power of the earth vein was far stronger than the moon worship sect leader's, and it was in a crushing state.

Half of the Moon worship sect leader's body was shattered, and he was heavily injured.

However, he self-detonated the Black Moon, forcefully creating a gap in the earth vein above his head.

"HMPH! Can you escape?" Dongfang Xia laughed coldly and chased after him.

They were both thrice crowned emperors, but the other party was so heavily injured that he was no longer a threat.

Little did he know that not long after he left, half of his upper body, which was suffused with black light, sneaked into the depths of the shattered ley lines.

At the same time, Su Yu had just arrived at the imperial palace when he witnessed the world-shaking shock wave with his own eyes.

His eyes of insight swept downwards, and his expression changed.

Another large portion of the ley lines had withered, and the remaining ley lines were less than half of what they were when he came last time.

He didn't know if he could support the activation of the ancient Fu Yao Array again.

What made him even more apprehensive was that Dongfang Xia had come out!

Dongfang Xia's gaze swept over and discovered Su Yu, but he quickly swept past him and didn't take him seriously.

Or rather, his main goal now was to execute the moon worship sect master. Su Yu would deal with it later.

Su Yu's heart skipped a beat. He had never thought that Dongfang Xia would be so powerful. He was clearly at a disadvantage, but he could still turn the tables.

He had to leave!

If he didn't leave now, he might never be able to leave the great yu imperial court.

Chirp --

Princess Linglong caught up with him with a frosty expression.

Su Yu hesitated for a moment. He stood still and didn't run away again.

"Hand over the Starstone and the Royal Longzun Sword!" Princess Linglong caught up and cast a divine art without saying a word.

Su Yu didn't Dodge or evade. He said indifferently, "If we continue to chase, I'm afraid that no one will be able to leave the great Yu imperial court."

Princess Linglong's gaze swept across the area. She seemed to have noticed the huge changes in the ley lines. Her beautiful pupils contracted slightly, and her pretty face changed constantly.

"Regardless of whether you want to take back the sovereign dragon supreme sword or not, at least for now, we have the same idea. If we continue fighting and Dongfang Xia returns, neither of us will be able to leave."

"Would I be afraid of Him?" Princess Linglong gritted her silver teeth and sneered.

Su Yu said indifferently, "If you're not afraid, why did you only dare to hide? Furthermore, you took advantage of the chaos to reveal your true body now? I guess that although you have a powerful cultivation, you can't last for too long. That's why you've been holding back until now, right?"

Princess Linglong's eyes flashed, as if Su Yu's words had exposed the truth.

Indeed, although she had great strength, with Princess Ruchen's weak body, she couldn't even display 30% of her strength.

It was fine to destroy the enemy in a short period of time, but for someone of Dongfang Xia's level to be trapped in a long battle, she would definitely be in a losing situation.

Thus, Princess Linglong had been enduring all these years, not daring to reveal even a little bit in front of Dongfang Xia.

Now that she had spent so much effort chasing after Su Yu, she was almost at her limit.

If she continued to chase after him, she was afraid that her consciousness would fall into a deep sleep again. When Princess Ruchen took control of her body, it would be a huge problem.

After some consideration, she nodded. "Alright! The Royal Longzun Sword is not with you for a day or two anyway. I'll leave it with you for a few more days."

The two of them reached an agreement. Without any further words, they chose a shattered ley line and quickly entered.

The terrain of the earth vein was already very different from what she remembered.

Princess Ling long frowned, but she didn't hesitate. It was as if she was born with it, and she was extremely familiar with the earth vein.

Not long after, they arrived in front of the ancient Fuyao Formation again.

The two of them tacitly didn't make a move, and they were exceptionally cooperative.

Princess Ling Long's palm shook out the ancient Fuyao Formation and placed the star map on it. The patterns twisted and formed a whirlpool.

Su Yu didn't say anything and prepared to put the star stone in.

“Wait!” Princess Ling long suddenly sensed something and stopped Su Yu.

Su Yu was vigilant. He put away the star stone and said coldly, “You want to go back on Your Words?”

“No! There is someone here!” Princess Ling long grabbed the air with her hand.

A few wisps of black gas could be vaguely seen in the air.

Su Yu’s pupils shrank. “Dark Moon clan!”

Almost at this moment, a sharp black light shot out from the stone wall behind Su Yu and pierced through his back.

Fortunately, Su Yu was prepared. A large area of space blades appeared on the surface of his body and covered his back tightly.

At the same time, he turned into a half-dragon and his entire body was covered in scales.

Creak --

The space blade immediately turned pitch-black, and a large amount of black light broke through the defense and hit Su Yu’s body.

Ding Ding Ding --

The red scales quickly turned black-red, showing signs of petrification.

Fortunately, the space blade blocked most of the attack, and only a small part of the black light penetrated through.

Su Yu’s body trembled, shaking off the black light on the surface of his body, and he stared coldly at his back.

“Eh? Dragon Race? Two Dragon Races?” A pitch-black shadow spread out from the stone wall, forming a complete human figure in front of them.

Moon worship sect master! Su Yu’s pupils constricted violently!

Even though the other party was always dressed in black robes and no one could see his true appearance clearly, there was no one else other than him who had that imposing and terrifying aura.

That’s not right!

Su Yu keenly sensed that his aura had dropped by more than half, especially his body, which appeared very fragile.

It seemed that Dongfang Xia had still seriously injured him in the end.

This was no wonder. Otherwise, if the moon worship sect master had personally made a move, that black light just now would not have been just a little bit powerful.

“I don’t care who you are. Leave the Star Stone to me, and I’ll Let You Live!” The Moon Worship Sect Master had also come for the star stone.

At the critical moment, he had shattered the gap in the ley line, but he had not escaped. Instead, he had taken advantage of the huge shock wave to interfere with his senses and hide in the ley line.

The gap was to deceive people and lure Dongfang Xia away.

He hid in the ley line and waited for an opportunity to escape.

He thought he would have to hide for a long time, but he didn't expect two people to sneak into the ancient Fu Yao array of Emperor Yu dynasty not long after.

Seeing that the ancient array was about to be activated, he showed up just now to take the star stone.

"In Your Dreams!" Princess Linglong's eyes flashed with coldness.

The Moon Worship sect leader stared at her, his pupils constricted slightly, and then he sneered, "You don't seem to be able to use your full strength. To be more precise, you're at the end of your rope, and you won't be able to hold on for long. Are you sure you want to fight with me?"

Princess Ling long sneered, "With your newly reconstructed body, you dare to boast shamelessly to me?"

Her eyes flashed, shooting out large patches of pink flames.

The moon worship sect leader's pupils constricted again, "Unbounded karma flame?"

Chapter 1848 Blessings In Advance

He hurriedly gathered a black moon above his head and released a large amount of black light to envelop his body.

Chi La --

The unbounded karma flame immediately burned up all the black light and swept towards the moon worship sect master.

The latter's expression changed drastically. Taking advantage of the moment when the black light blocked it, he quickly fled to his side.

However, when the unbounded karma flame landed on the stone wall, it immediately burned up the withered ley lines without any signs of stopping.

Unless its master took it back, the unbounded domain flame would continue to burn. No method could extinguish it. At the very least, they still couldn't find such a method.

"Fortunately, your strength is limited. Otherwise, just this unbounded domain flame alone would cause me to retreat." The Moon worship sect leader felt a false alarm and heaved a sigh of relief.

Following that, his expression turned savage. "Now, there's nothing left to look for, right? Then go die!"

How powerful was the Triple Crown Prince's attack?

Su Yu, who was nearby, would probably be affected by a casual attack.

His eyes flashed, and he suddenly took out a golden crystal sword and slashed at it.

Most of the Moon worship sect master's attention was focused on Princess Linglong. She was the biggest threat.

In his eyes, Su Yu was just an ant.

The Moon Worship sect master saw his sword, but he did not care.

With a flick of his finger, he was about to deflect the sword that was sweeping towards him.

However, when this sword came close, he felt an endless amount of unbounded karma flame.

Compared to Princess Ling Long's pink unbounded karma flame, the unbounded karma flame in that sword was more than several times stronger!

He was shocked. He wanted to use the black light to block in front of him, but it was too late. He could only Dodge and retreat.

However, when the sword light swept over, a faint flame landed on his body.

Whoosh --

In an instant, the flame rose dozens of times and burned the Moon worship sect master into a raging flame man.

"Ah! Damn it, take it back!"The Moon Worship sect master roared and pounced on Su Yu.

Princess Linglong stared at the Strange Golden Flame with deep surprise in her eyes.

However, she had no time to ask in detail when a great enemy was in front of her. She conjured a spell with both her hands, and the two dragon horns on her head emitted magical ripples.

She recited the ancient dragon race spell with conviction.

She thought that Su Yu didn't understand it, but she didn't know that Su Yu knew the ancient dragon race language better than she did.

She used the unique skill of the dragon emperor lineage, "Dragon Blood Boiling!"

By burning her own dragon blood, she turned it into an invisible wave of destruction, which was extremely powerful.

The strength of the wave was determined by the strength of the dragon blood in her body. To be honest, her current dragon blood was so thin that it was negligible. Even Su Yu couldn't compare to it.

However, the ripples that were released caused Su Yu's pupils to shrink.

She saw a pair of dragon horns sweep over. The Moon Worship sect leader of the three-crowned emperor was turned into ashes with a bang. Not even her soul was left behind.

Just one move was enough to destroy her body and soul!

This ultimate skill of the Dragon Emperor was too overbearing!

Sacrificing the dragon blood could destroy the strong with the weak!

Su Yu silently memorized all the incantations that she had just recited, not missing a single word.

After destroying the enemy, Princess Linglong was not worried that her unique skill would be learned. She looked at the spatial storage device that the moon worship sect leader had left outside and said, “Don’t you want it?”

“Why don’t you want it?” Su Yu naturally wanted it, but the moon worship sect leader was killed by Princess Linglong. Before she made her stance clear, it was naturally not his turn to snatch it.

Princess Linglong snorted, “Anyway, this silly and sweet girl will definitely give it to you. I’ll be letting you off easy if I pick it up.”

That was true. When Princess Ruchen’s consciousness occupied her body, she would most likely give the storage space to Su Yu.

Whether she picked it up or not, it would be Su Yu’s.

“Haha...” Su Yu smiled and put it away without any more politeness.

The storage space of the Triple Crown Prince. There must be so many things in there that it would make people envious.

“Alright, let’s set off immediately. Dongfang Xia might have noticed the movements just now,” Princess Linglong urged.

Su Yu nodded and placed the star stone into it.

The array immediately began to operate crazily, drawing in an endless amount of energy from the earth veins as the power to operate the array.

Dongfang Xia, who had been searching for the Moon Worship Sect Master’s whereabouts near the imperial palace, suddenly sensed the changes in the earth veins. His expression changed drastically. “Not good! We’ve fallen into a trap!”

He was anxious and immediately charged into the earth veins, dashing crazily in the direction of the ancient formation of Fuyao.

When he arrived in front of the ancient array of Fuyao, the teleportation had already entered the final stage. A large patch of white light was incomparably dazzling, illuminating the two people within the array until their white faces were glowing.

He originally thought that it was the moon worship sect master, but after seeing clearly, he could not help but be shocked. “Su Yu! Ruchen? Why Is it you two?”

Su Yu stared coldly at him. Hearing this, his mood sank to the bottom.

He had personally seen Dongfang Xia forcefully stop the ancient Fuyao array that was about to be transported.

Was it going to fail again?

The consequences were unimaginable!

He could imagine how Dongfang Xia would treat him.

There was no one around. It was simply the best opportunity to get rid of him.

Princess Linglong was also shocked. Her Heart was aghast. The current her didn't have the strength to take on a triple crown!

She gritted her teeth and pretended to be princess ru Chen again.

Since she couldn't escape, she could only be princess ru Chen again.

However, she pushed the responsibility to Su Yu.

She blinked and showed an aggrieved expression. "Father, I eloped with my brother. Please forgive me and don't think about me anymore."

What nonsense was this woman talking about?

The veins on Su Yu's forehead bulged. Was it not enough to anger Dongfang Xia?

Which father would not be angry if he eloped with his daughter?

Furthermore, Dongfang Xia had wanted to kill him for a long time!

However, what Su Yu did not expect was that Dongfang Xia's hands were clasped behind his back as he stood where he was. His face, which was covered in blood, revealed a rare gentleness.

He did not stop her, nor did he get angry.

Instead, he smiled lightly and sighed dejectedly, "Alright, I'll give you the wedding gift I prepared for you in advance."

He took out a pair of necklaces. One was a dragon-shaped pendant, while the other was a phoenix-shaped pendant. He wrapped it in a bright red box to calm his heart. It had just been prepared not long ago.

He casually threw it into the teleportation array.

Princess Linglong was stunned for a moment before catching it. What she said just now was to divert Dongfang Xia's anger. It was just a casual excuse, but who would have thought that Dongfang Xia would have such an unusual attitude.

"Father, you..." Princess Linglong was puzzled.

Your daughter was going to elope with someone? Why wasn't she angry at all?

Dongfang Xia stared deeply at Princess Ruchen, her eyes were filled with tenderness. "Among you brothers and sisters, I owe you the most. Back then, I was unable to protect your mother well and caused you to lose her from a young age. Meanwhile, I was busy with the state affairs of the Empire and rarely asked about you. All these years, it was all thanks to Wuheng taking care of you."

"I've always wanted to make it up to you, but I couldn't find an opportunity until Su Yu appeared." Dongfang Xia looked at Su Yu, the coldness in his eyes also dissipated. "Su Yu, don't resent me for using you and the northern gazing pearl as bait. I'm also giving you a new identity."

“The sixth prince died in battle in the great calamity. The commoner who saved the imperial family, Su Yu, was famous throughout the world. He married the imperial family’s Princess and became the Prince Consort,” Dongfang Xia said slowly, he had originally planned to do so. “I never thought of killing you. How can I bear to kill someone like you who controls the eight great laws?”

“Moreover, you are someone that Ruchen likes. Even if there are thousands of reasons to kill you, as long as she likes it, the reason to kill you is not the reason!”

Su Yu’s eyes were shocked.

It was indeed as he had expected. Dongfang Xia would not allow the unknown Su Yu to continue to exist as a member of the royal family.

However, what he did not expect was that Dongfang Xia had never intended to kill him.

Instead, she wanted to use this opportunity to let his identity return to Su Yu and finally marry his daughter.

“I don’t understand. Why must you do this?” Su Yu asked. He and Princess Ruchen were mostly siblings.

Dongfang Xia lowered her head and smiled, her smile was a little lonely. “How could a father not understand his daughter’s thoughts? Ruchen likes you. When I announced that you were engaged to Bei Wangzhu, I understood the disappointment in her eyes better than any of you.”

“I wanted to fulfill her wish and make up for my many years of regret, but you have other choices. As a father, you can only choose to wish her well.”

He waved his hand gently. “Ruchen, if possible, I will come back and take a look when I am alive. You are my Dongfang Xia’s daughter, the only daughter I have left.”

Vicissitudes of life, disappointment, and grief filled his forehead.

Princess Linglong was stunned. They were the opposite of the cold and heartless Dongfang Xia in her memories.

For a moment, she could not help but be moved.

The hearts of parents in the world were pitiful. Who did not think of their children?

No matter how cold and heartless he was, he still had a gentle side to his children.

She seemed to think of the Dragon Emperor. He was equally cold and heartless, but at the last moment, he used his dragon body to block the attack of the creator dragon for her and died from then on.

A teardrop fell and she nodded with a choked voice, “I’m sorry, Father...”

She was speaking to the Dragon Emperor and also speaking to Dongfang Xia on behalf of Princess Ru Chen.

“Hehe, Goodbye, my daughter...”

A white light flashed and they entered the final stage of the teleportation.

Finally, he looked at Su Yu and nodded with a smile, "Treat her well."

Su Yu was also moved. He nodded his head, "I will."

With the teleportation imminent, Su Yu said, "The Moon Worship sect leader is dead. Don't worry."

Dongfang Xia had long seen the ashes under her feet. She did not look at them and focused her final gaze on Princess Ru Chen.

She stared at her and disappeared bit by bit.

In the end, the white light dissipated, leaving behind an empty wall.

Dongfang Xia stood in front of the wall for a very, very long time. There was an unerasable vicissitude and apprehension in his eyes.

If he wanted to be an ambitious man, he was destined to give up a lot of things.

For example, family ties.

--

At the end of the Void, a pitch-black vortex quietly hung in the universe. It was like an unfathomable bottomless pit that sucked in everything in the universe.

In the depths of the Vortex, a dry and dark ancient land suddenly shot out a dazzling white light, igniting the world of darkness.

Two human figures, a man and a woman, appeared from the white light.

Their bodies swayed.

After a short pause, the man turned around and fled without saying a word.

"Humph! Your reaction is quite fast!" The woman smiled strangely and immediately chased after him.

The two were naturally the daughters of Su Yu and the Dragon Emperor.

After arriving at the dark star civilization, the only tie between them was the royal authority, the Supreme Dragon Sword.

Su Yu was naturally unwilling to hand it over so easily. He turned around and fled without saying a word.

However, Princess Linglong did not give Su Yu the chance to use the Taiji Yin-yang wings. She caught up with him in a few breaths. She spread her arms and hugged Su Yu from behind.

The two of them staggered and rolled on the ground.

Chapter 1849 Life And Death Become One

Princess Linglong's body was extremely agile. She wrapped her legs around his waist and wrapped her arms around his neck like an octopus.

The high-level Taiji Yin-yang wings that Su Yu was condensing immediately collapsed.

“Royal brother, why are you running away? Father said that he wanted you to treat me well.”

Su Yu rolled his eyes. “That’s for Ruchen. Don’t flatter yourself.”

Princess Linglong sneered. “I’m Ruchen. Do you think I’m Her? If you blame me for handing over the Royal Longzun Sword, I’ll thank you.”

“Sure, let’s talk about it after you marry me.” Su Yu struggled to get rid of her, but she tightened her grip.

If this continued, they would really be stuck in a stalemate.

At this moment, he suddenly felt Princess Linglong’s strength gradually weaken.

“Damn it, at this time...” soon, her strength was reduced by more than half.

His eyes flashed with confusion and struggle, as if he was fighting for control with Princess Ruchen.

“This damn girl really knows how to pick the right time!” Princess Linglong was furious. She looked at Su Yu, who was about to break free, and her eyes flashed, as if she had made a decision.

A fire cloud mark suddenly appeared between her eyebrows. It was demonic and beautiful.

Then, Princess Linglong’s whole body came close again, and her bright red lips kissed Su Yu’s lips.

When their lips met, the fire cloud mark between Princess Linglong’s eyebrows turned into a ball of red light and entered Su Yu’s lips through her lips.

Not long after, the fire cloud mark appeared between Su Yu’s eyebrows.

Su Yu immediately sensed that something had appeared in his body. He struggled with all his might to push it away and checked his body with an uncertain expression.

However, he saw that there was a trace of dark red mixed in the Divine Soul Crystal.

That Aura seemed to be dragon blood, but it wasn’t.

“What did you do?” Su Yu’s face sank.

Princess Linglong smiled charmingly. “Guess!”

Su Yu’s cold light flashed, and he said coldly, “No need to guess. Wait for your consciousness to fade, and I will destroy you along with your soul!”

Princess Linglong puffed up her chest and said with a smile, “Come on, if you have the ability, kill Princess Ruchen.”

“Hehe...” Su Yu only sneered, and his killing intent did not decrease.

So what if he killed her? It was not like he did not have the means to resurrect Princess Ruchen.

Moreover, he could resurrect the pure Princess Ruchen and completely annihilate the other consciousness in her body.

As if sensing Su Yu's undiminished killing intent, Princess Linglong's expression changed slightly. "You're so ruthless! You can even kill your sister that you've known for many days!"

Su Yu crossed his arms in front of his chest and calmly waited for her consciousness to sink. He smiled faintly and said coldly, "To be exact, I'm going to kill you."

Princess Linglong gritted her teeth. When she saw that the fire cloud mark between Su Yu's eyebrows had completely stabilized, a strange smile appeared on her face. "Oh? I'll be merciful and Tell you what it was just now."

"It's the unique curse of life and death of our Dragon Princess! She can only use it once in her life." Princess Linglong sneered.

Curse of life and death? He had never heard of it, at least not in the divine arts of the dragon race that he knew.

"Long ago, the first generation Dragon Lady fell in love with a mortal, but the Union of man and Dragon would be punished by Heaven."

"The Dragon Emperor also strongly opposed it, and sent the dragon experts to the mortal world to hunt down and kill that mortal."

"After the Dragon Lady learned about it, she returned to the mortal world and did everything she could to protect the mortal."

"After hearing this, did you feel that it should be a touching love story?" Princess Linglong said meaningfully, "The ending should have been like this, but in reality, that mortal was just a heartless and selfish person."

"When the Dragon Clan's powerhouse came, he resolutely stole the Dragoness' Dragon Pearl and fled to the enemy forces of the Dragon Clan to seek protection."

"The Dragon Lady who lost the Dragon Pearl gradually weakened and eventually died of old age."

"She was filled with hatred all her life. Before she died, she turned her hatred into a blood crystal."

"The Dragon Emperor also cherished his daughter, so he made a decision. He spent countless years to fuse the blood crystal into his own body. From now on, all descendants of the Dragon Clan's royal family, the bloodline of the female side, will contain the power of the blood crystal."

Hearing this, Su Yu's face turned ugly. The thing that the first generation dragon girl condensed with hatred was definitely not a good thing.

"Hehe, the function of the blood crystal is a curse, which links you to the fate of the person you love." Princess Linglong pointed at herself. "If I die, as the person

I love, you will die immediately. Don't doubt it. Even if you are a dao master, you can't escape."

Dao master... Su Yu's mood was heavy, and his face darkened.

He pointed at himself. "Then, if I die, you will die too?"

Since they were linked by fate, they should affect each other.

"Dream On! Even if you die, I will still be alive and kicking."

Su Yu's veins bulged on his forehead. Did they say that their fates were linked?

If you die, I will definitely die. If I die first, you will be fine!

"Hehe, the curse of the Dragon Clan's imperial family's inheritance. If it was really a simple thing, it wouldn't be so precious. It would become an inheritance curse that every princess could only use once in their lives." Princess Linglong felt a little regretful.

She had originally planned to leave it for her future husband to use to prevent him from betraying her.

The husband in her heart should be at least a dao master level.

But she never expected that she would have no choice but to use it on Su Yu.

From then on, her safety would be in Su Yu's hands.

Thus, even if her consciousness sank, she believed that Su Yu would do his best to protect her for the sake of her life.

"You..." Su Yu wished he could strangle her to death. He felt that he had done nothing wrong to this woman, and he had even helped princess ru Chen, who she had been staying with, a lot

But she wasn't grateful at all. Instead, she treated him like this.

"The people of Your Dragon race are more and more unreasonable! The creator dragon is like this, the evil dragon sage Lord, the Fire Dragon True Lord, and even you, the daughter of the Dragon Emperor, are like this." Su Yu sighed deeply.

Princess Ling Long's confused eyes focused a trace of divine light. "Well, next time when you wake up, besides handing over the Sovereign Dragon Supreme Sword, you should also have something to say about the creator Dragon!"

After that, she closed her eyes as if she was in a coma.

Killing intent flashed in Su Yu's eyes several times, but in the end, he endured it.

The red object in his soul was indeed obscure and dangerous.

After a moment of silence, he walked forward and helped the unconscious Princess Ru Chen Up.

At this moment, she opened her eyes and saw a dark world and Su Yu, who was close by.

“Ah! Imperial brother, where are we?”

“The Dark Star Civilization!”

“What? Am I not with eldest imperial brother and the others? Did you kidnap me?”

Su Yu smiled bitterly as he looked at the innocent face in front of him. “To be precise, you kidnapped me.”

His eyelids twitched when he thought of Princess Linglong.

This stinky woman, he would never let her get what she wanted!

The Dark Star civilization was flourishing. was he afraid that he would not be able to find a way to subdue her?

“How much is one plus one?” Su Yu suddenly asked.

Princess Ruchen blinked and said, “Two! What’s Wrong?”

“Nothing. I’m just checking if you’re Princess Ruchen.”

Princess Ruchen glared at him with her almond-shaped eyes. “What do you mean? Don’t I know that one plus one equals two? I also know that one plus two equals three.”

Hearing this, Su Yu smiled but didn’t say anything.

The surroundings were dark. He didn’t know how much danger there was, so it was really not suitable for him to move around.

He found a cave and slightly arranged the surroundings to hide the cave.

Then, he took out the moon worship sect leader’s spatial storage device, a scepter forged from an unknown black bone.

Inside the scepter was a large cave world.

Since he had already fallen, Su Yu easily broke through the defense line and entered.

A mountain of unknown materials appeared before his eyes. Many of them contained the unique aura of the dark star civilization, and their uses were most likely related to the innate black light.

There was also a huge pile of divine stones, about 100 million!

Seeing so many divine stones, even Su Yu couldn’t help but lick his lips.

How many things could he buy? He didn’t know if the entire Emperor Yu dynasty had 100 million divine stones in storage.

After all, the divine stones of Emperor Yu dynasty weren’t very common, and they were only limited to the black market set up by the Star Alliance’s Chamber of Commerce.

With so many divine stones, he could use them freely in the dark star civilization.

Apart from that, there were all kinds of cultivation techniques of the dark star civilization, including the description of the talent, “Dark Moon Divine Light”.

Lastly, there were some items that the moon worship sect leader had kept for himself.

For example, several black robes that were exactly the same as the moon worship sect leader’s.

He did not feel it when he was wearing them, but after a closer look, he realized that there was something special about the black robes.

The materials used to make them were extremely precious black dust.

The black dust was the dust released by some black holes that devoured foreign objects in the void world. It surrounded the black holes all year round.

Taking any one of them would take a huge risk.

Usually, a bottle of dust was worth at least ten million divine stones.

This black robe was refined from the extreme black dust. It had an incomparable effect on any probing. Even a dao master had to carefully probe to see what was inside from outside the black robe.

As for the emperor, he could not see what was inside at all.

As a member of the Dark Moon clan, the dazzling white light was not conducive for them to condense the Black Moon divine light.

Therefore, most of the members of the Dark Moon clan were below the black robe.

This black robe refined from the extremely black dust was a top-notch treasure.

Su Yu thought for a moment, then took out two pieces and draped one on each of them with Princess Ru Chen.

The Aura and fluctuations emitted by the two of them were incompatible with the dark star civilization. Anyone with a bit of insight could tell that they were not members of the dark star civilization.

Apart from that, there was also a half-moon shaped token.

It contained an exceptionally special aura and had the words “Worship the moon” engraved on it.

It was shaped like a key.

Su Yu took it out and placed it in his pocket.

Apart from that, there was also a map that depicted the entire territory of the dark star civilization.

It was different from the entire territory of Emperor Yu’s dynasty.

The Dark Star civilization was controlled by the ten major forces.

The Moon worship sect was one of them, and they controlled the smallest piece of land.

However, even if it was the smallest, it was still the same size as Emperor Yu’s dynasty.

The head of the ten great forces respected an old man named ‘Dark King’ as their ancestor.

He was the strongest existence of the dark star civilization, the four crowns King!

Throughout the years, he did not care about the affairs of the world. He was hidden in the sacred land of the Dark Star Civilization, the sacred moon altar. Only when the dark star civilization was in turmoil did he appear and turn the tide.

In the past, a four-crowned king passed by the dark star civilization and unintentionally started a massacre, which led to the ancestor of the Dark Star Civilization, the Dark King.

He single-handedly left that person at the same level behind and suppressed him at the bottom of the altar.

Chapter 1850 Cult Master Su Yu

Every moonlit night, his screams would travel through space and reach the entire dark star civilization.

After that, no faction dared to make a move against the dark star civilization.

After understanding the entire situation, the emperor's killing sword that he wanted to know the most was nowhere to be found. At the very least, the moon worship cult master did not record the relevant information in some jade pendants.

It seemed that he could only ask someone.

"Ruchen, if there's a chance, I will send you back. But for now, you should still follow me, okay?"

Princess Ruchen's mood was a little low. This was the first time she was far away from home, so she could not help but feel uneasy and uneasy.

"Alright, I will follow my royal brother." When Princess Ruchen learned that the danger to the royal family had been resolved, her state of mind quickly adjusted.

Although Princess Linglong pretended to be her and said a few words, most of them were based on what she wanted to say in her heart.

She was indeed not reluctant to take the throne and was also willing to follow Su Yu.

Otherwise, she would have made a scene and returned home.

"As long as I'm here, I won't allow you to be bullied." Su Yu rubbed her little hand.

Princess Ruchen blushed and nodded slightly.

They opened the stone door and left.

However, not long after they walked out, Su Yu's eyes suddenly narrowed and he was secretly surprised.

He protected princess ru Chen behind him and secretly held onto the Royal Sovereign Longjian. His expression was as if he was facing a great enemy.

Princess ru Chen also felt a large amount of majestic aura pressing down on her.

As expected, a ray of black moonlight descended. The aura of six double-crowned emperors and the silhouettes of dozens of single-crowned emperors appeared from the Black Light.

The moment they appeared, they did not attack, nor did they ask about the identities of Su Yu and the others. Instead, they bowed to Su Yu in unison. "Welcome back, sect leader!"

Sect... sect leader?

Su Yu was slightly startled. Then, he noticed that the key token engraved with the words "Worshipping the moon" was exceptionally hot.

Did they use the key to identify people?

After pondering carefully, Su Yu's heart slowly calmed down.

If even the dao masters were unable to see through the black robe refined from extremely black dust, what about the two crowned emperors in front of him?

Then, how could they identify the identity of the Moon Worship sect leader?

Only this special key.

As for whether someone would snatch the key and pretend to be the moon worship sect master.

If someone could snatch it away from the moon worship sect master, that person's strength would definitely surpass the three crowns.

However, in the entire dark star civilization, how many three crowns were there?

Therefore, this probability could be completely ignored.

After understanding this, Su Yu's expression became calm. Recalling the moon worship sect master's voice, he said indifferently, "Yes, all of you should get up. What major matters have happened in the sect recently?"

The six people's expressions were respectful.

"Reporting to the sect master, the six of us have followed the sect master's decree to properly handle the miscellaneous matters in the sect. There is only one matter that requires the sect master to personally take a look."

"Speak!" Su Yu was not angry, but he was imposing.

The six people became even more respectful. How could they have the mood to guess the authenticity of his identity?

"Reporting to the sect master, Master Bao Kun has invited the sect master to participate in the two-party talks."

Su Yu narrowed his eyes slightly. Master Bao Kun was another major force that was close to the moon worship cult master, the Dustless Moon sect, ranked ninth.

In terms of strength, he was slightly stronger than the moon worship cult master.

How could he meet such a person?

Seeing that the moon worship cult master did not move, that person lowered his head and continued, "Perhaps the discussion is about the missing Emperor's killing sword. I hope cult master can make a decision."

“Yes!” Su Yu’s eyes flashed.

Emperor’s killing sword!

Wasn’t this the reason why he came to the Dark Star Civilization?

It was extremely important for him to be able to bring the six laws to attack the sovereign of Heaven and earth.

He originally wanted to get rid of the moon worship sect disciple before leaving, but from the looks of it, he had to think long and hard.

“Oh? Did he send a letter or an envoy?”

“It’s his third disciple, Black Lotus.”

Su Yu thought for a moment and nodded slightly. “Let’s move to the moon worship sect’s headquarters.”

“We welcome the Sectlord’s return!”

They led the way and respectfully invited Su Yu to lead princess ru Chen back.

It turned out that it was also because of the token that had slightly affected their teleportation. They had descended on the outskirts of the moon worship sect’s headquarters.

The few twin-crowned monarchs who had stayed behind to guard the headquarters sensed the Sectlord’s aura and led the higher-ups of the sect to rush over.

The moon worship cult’s Aura was magnificent, and the endless buildings were arranged in an orderly fashion, surrounding a huge black moon-shaped palace.

There were tens of thousands of maidservants in the palace, countless servants, and an endless army of imperial guards.

Princess Ru Chen secretly clicked her tongue when she saw this and secretly held onto Su Yu’s sleeve.

This was even more prosperous than Emperor Yu of the Great Yu dynasty. would there be a problem with pretending to be the moon worship cult master?

Su Yu secretly clapped her hands, indicating that she shouldn’t be nervous.

As long as she didn’t give herself away, so what if she pretended to be him?

In the Moon Worship Great Hall, a group of high-ranking officials were already waiting by the side.

“Welcome back, sect leader.” Everyone knelt down one after another.

Su Yu didn’t give in and sat on the moon worship sect leader’s throne.

Looking down at the people below, his emotions didn’t fluctuate in the slightest. He was extremely calm.

“Rise, it’s been hard on all of you during the time our sect isn’t here.”

“We’re all terrified!”

Looking at their expressions, it seemed that the moon worship sect’s leader was usually very dignified, causing them to be extremely afraid.

This was good!

“Send a messenger from the dustless moon sect,” Su Yu said indifferently.

Someone immediately sent a message.

Not long after, a young man holding a long fan with a black moonlight ring above his head entered.

He was dressed in black robes, but his face was exposed. He was a handsome and unrestrained youth who looked very similar to humans.

He was Lord Bao Kun’s third disciple, Black Lotus Demonic Lord.

“Greetings Moon Worship Sect Master.”

He cupped his fists and even bowed.

“Impudent! How dare you not kneel when you see our sect master!” One of the six guardian elders, the double-crowned emperor, shouted.

Black lotus demon sovereign calmly unfolded her folding fan, she said leisurely, “Your sect is a noble who forgets things. Not long ago, the Moon Worship sect leader lost a bet with our master baokun. From now on, no one from the dustless moon sect needs to bow in front of the moon worship sect leader.”

“Hehe, I cupped my fists just now because I respect the moon worship sect leader. Otherwise, Hehe...”

Su Yu frowned slightly when he heard that.

That leader of Moon worship sect was really useless. He actually used his dignity to gamble.

To the extent that an ant with two crowns acted wantonly in front of the leader of Moon Worship sect.

No wonder he was schemed against by Dongfang Xia. He deserved it!

The six guardian elders were secretly furious. The other elders of the single crowns were also furious.

This matter had always been the humiliation of the moon worship sect. Even they felt extremely humiliated.

“My sect’s promises are as good as gold. It’s up to you if you don’t kneel or worship. What message does Master Baokun have for You?” Su Yu said indifferently.

The black lotus demonic lord chuckled, “I admire the moon worship sect’s sect master’s magnanimity...”

“One more word of nonsense and you will die!” Su Yu shouted coldly.

Since he was the sect master and was an extremely authoritative sect master, he should have the bearing of a sect master.

As expected, the Black Lotus Demonic Lord's face stiffened as he immediately wiped the smile off his face. He said with a straight face, “My master has received news of the Emperor's killing sword. Sect Master Moon Worship, please come over and have a chat.”

“OH.” Su Yu was expressionless as he said with a calm expression.

The Black Lotus demonic lord was secretly puzzled. Was everyone aware of the Moon Worship Sect Master's desire for the Emperor's killing sword?

His obsession with the sword far exceeded that of Master Bao Kun.

He probed, “I hope that the moon worship sect master will give an answer so that this junior can reply to my master.”

“Yes, tell him that he's not interested. Alright, Scram.” Su Yu waved his hand impatiently.

An elder who had long disliked him threw him out.

The way everyone looked at the moon worship sect master changed slightly.

In the past, when the moon worship sect leader learned of the news of the Emperor's killing sword, he was extremely eager and could endure any grievances.

But now, he was disdainful and directly chased away the envoy. His unyielding attitude made them very happy.

“Sect leader is wise. If there's really news, would that master Bao Kun be kind enough to tell the sect leader?” The one who spoke was a white-haired protector, who was also the stronger protector among the six great protectors, protector Bai Li.

He was very worried that the sect leader would lose his cool and think. He did not expect that the sect leader would decisively reject him this time.

In fact, Su Yu thought so.

The current dark star civilization was fighting to the death for the emperor's killing sword. It was extremely chaotic, and the ten great factions were fighting each other.

With News, who would not hide it?

If master Bao Kun invited them, the news would be fake. Even if it was true, it was likely that he did not have good intentions.

Therefore, Su Yu rejected him without hesitation.

“Then, have you found any news about the emperor's killing sword during this period of time?” He asked casually.

Protector Bai Li looked troubled. "Reporting to sect leader, ever since it appeared in the White Dragon mountain range three years ago, the emperor's killing sword has disappeared without a trace. I still don't know where it went."

Oh? The White Dragon mountain range?

"Yes, sort out all the relevant information from the past. I want to review it again to see if there are any omissions."

"Yes!"

Protector Bai Li paused and said, "Cult master, May I ask why only you have returned? What about great protector skeleton and protector Fu Hu?"

The other five protectors also had astonished expressions on their faces.

They had long wanted to ask why only the cult master had returned.

Also, who was the person he was bringing with him? Under the black robe, they could only tell that it was a woman.

"Are you doubting our cult?" Su Yu snorted.

"We don't Dare!" Protector Bai Li said in a panic, "It's just that the recent turmoil has been unbearable. Our Moon worship cult is located in a remote area. Although it's peaceful for the time being, there might be a fight one day. If we don't have enough people, we're worried that we won't be able to deal with the chaos in the future."

Su Yu's expression softened just now as he said indifferently, "The great protector and the other three are currently in the Emperor dynasty of Yu the Great. They are taking over the place for our sect and won't be able to return for the time being."

The six protectors were overjoyed. "Cult master, could it be that you..."

Su Yu didn't say anything else as he tore off princess ru Chen's black robe and revealed herself.

A cute, pure, and scared human face appeared before everyone's eyes.

"This is... princess ru Chen of Emperor Yu's Dynasty!" They had schemed against Emperor Yu's dynasty for many years, so they were naturally very familiar with the members of the imperial family.

Su Yu nodded slightly. "Yes, Dongfang Xia and the five princes were all annihilated. Our sect only has one princess left. She is willing to marry me and become the wife of our moon worship sect's cult master. In the future, she will rule Emperor Yu's dynasty."

Without waiting for Su Yu to explain the reason, the protectors were overjoyed.

"Haha, Cult Master Is Wise and divine!" Since ancient times, it was easy to obtain people's land, but difficult to obtain people's hearts. If our moon worship sect were to directly take control of Emperor Yu's dynasty, we would definitely encounter strong resistance. However, if this princess of the previous dynasty

were to continue to be a puppet, I believe the resistance would be much smaller.”

Princess ru Chen trembled. Wife of the cult master?

Her eyes widened, and a hint of shyness flashed across her face.

When that expression landed in everyone’s eyes, it caused the protectors to be dumbstruck.

The cult master had good methods. He exterminated people’s clans and even made them follow him wholeheartedly!
