

Nine-Dragon 1851

Chapter 1851 Belief In The Dark Moon

Su Yu turned a deaf ear to their flattery and said indifferently, "Is there anything else that needs to be taken care of? Our sect had a huge battle with Dongfang Xia and suffered some injuries. We need to enter closed-door cultivation as soon as possible."

The Guardian elders were all concerned when they heard that sect master Douwen was injured.

"Sect master, please take care of your health."

Su Yu nodded his head slightly. "Mm, all of you may leave. I'll rest first and leave two disciples to serve Princess Ruchen in her daily life."

Everyone left, leaving behind two beautiful, young, and obedient handmaidens.

Their strength was not ordinary either, and they were at the level of a peak overlord.

"Greetings, sect master, Sect Master's wife." They obediently went forward and bowed.

Princess Ru Chen's face turned red. Who was the sect master's wife? The eight words were not even out yet.

However, she never dreamed that there would be a day when she would follow Su Yu into the Dark Star Civilization and become the sect master's wife.

Thinking back to the time when Su Yu sneaked into the royal family and became the sixth prince, she didn't know whether to laugh or cry.

"HMM, what are your names?"

"Shuiyue."

"Shuiyue."

Indeed, the two of them were extremely beautiful. They were also astonishingly beautiful among the women.

They were the top beauties that the elders had specially selected from the disciples for the cult master to enjoy.

Unfortunately, the moon worship cult master didn't have time to enjoy them and left them for Su Yu.

"Are you familiar with the Moon worship sect?"

HMM? The two women looked at each other and saw the astonishment in each other's eyes.

Even if the moon worship sect master didn't know them, he should know that they had been raised in the moon worship sect since they were young. How could they not be familiar with the moon worship sect?

“Then you are very familiar with it. Very good. Let me borrow your memories.” Before the two women could come back to their senses, two beams of soul waves shot out from under the black robe.

The two women fell into a faint after a little resistance.

Su Yu’s soul went straight in and flipped through their memories.

A moment later, he retrieved his soul and his eyes were deep in thought.

The moon worship sect used the form of religion to attract believers from all over the world to join them. It could be said that they had the largest number of believers.

To them, the Black Moon was a kind of faith.

And the higher-ups of the moon worship sect would absorb the power of faith from the believers to rapidly increase their cultivation. As a means to win them over, the Moon worship sect would release a large number of resources to maintain the believers’ devout faith.

Su Yu was actually not unfamiliar with this point.

The reason for the nine regions calamity back then was that in order to become a god, Linlang, the Demon God, absorbed the power of faith from the people of the nine regions and finally stepped onto the path of Godhood.

The evil God had also said that the path of faith was a shortcut that many gods coveted. One could quickly become a god and also quickly increase the realm of the gods.

In his immortal’s Cave World, the people of the true dragon continent also built a huge statue in the true dragon city.

The faith released from the daily worship was absorbed by the statue.

Moreover, this was led by Xia Jingyu.

However, Su Yu cultivated alone and had never cultivated any forces, so he rarely involved himself in the path of faith.

Now that he had touched on the faith of the Moon worship sect, he couldn’t help but Ponder for a while.

The Moon Worship sect had built special black moon statues in all areas under their control. From the main altar to the villages and towns, there were Black Moon statues.

They were worshiped by the nearby worshippers every day, and the worshippers’ beliefs were absorbed by the Black Moon statues.

Then, the beliefs in all the statues would accumulate in the forbidden area of the moon worship cult’s main altar, the Black Moon Divine Pool!

It would open once a month, and the cult master would lead the higher-ups to enter to absorb the beliefs.

The moon worship cult was the last major faction to appear in the dark star civilization, but it was also the fastest growing one.

The rest of the factions had accumulated for several generations, but the moon worship cult relied on the current moon worship cult master alone to build such a huge foundation.

There were ten double-crowned emperors, more than a hundred single-crowned emperors, and more than a thousand peak overlords.

The reason was that the power of faith increased one's cultivation unusually quickly.

And the key to the black moon altar was in Su Yu's hand -- the key-shaped token engraved with the words "Moon worship"!

"Faith is interesting." Su Yu couldn't help but be curious about this.

The followers of the Moon worship sect were also divided into several levels.

The highest was the ten guardian elders, each of whom was a supreme existence with two crowns. They were in charge of guarding the moon worship sect and deterring foreign enemies.

Next was the one hundred elders of the cloth religion, who were in charge of preaching in various places and developing new followers.

Next, there were 1,000 altar lords who were in charge of managing the affairs of the various altars.

Finally, there were hundreds of millions of moon worship guards who were in charge of maintaining the order of the Moon worship sect.

However, for some reason, the moon worship sect had a very special existence.

The saintess!

Her position was comparable to the moon worship sect's leader!

The Holy Maiden was chosen by the disciples and represented the will of hundreds of millions of disciples.

If the sect leader did something that was detrimental to the moon worship sect, the Holy Maiden had the right to replace the sect leader.

Su Yu found it unbelievable when he heard it.

The Moon Worship sect was taken down by the Moon Worship sect leader single-handedly. He was the leader of the entire force.

Why would he set up the position of a Holy Maiden and tie his own neck?

From the memories of the two handmaidens, the Saintess's status was truly high.

The Saintess was not in the sect all year round, but if she came back, the moon worship sect master would need to discuss all kinds of matters with the saintess!

"If he angered the SAINTESS, he could even depose the sect master. Unbelievable!" The more Su Yu thought about it, the more ridiculous he felt.

He had conquered a kingdom, but he had invited an outsider to be the supreme emperor.

He did not believe that the moon worship sect leader would be so stupid and willing. There must be something hidden.

In the maid's memory, the Saintess' news was the one that shocked and frightened Su Yu the most.

Fortunately, the SAINTESS was not in the sect at the moment. If she appeared, there would be a lot of trouble.

The only thing that was worth rejoicing was that the Saintess' cultivation was not high. She was a single-crowned emperor. It was not a big deal to be exposed by her. She could just kill her to silence her.

Other than that, he also had a clear understanding of the various details of the Moon Worship Sect's headquarters.

He casually tapped the space between the eyebrows of the two handmaidens and erased a part of their memories before their souls were searched.

The two women woke up and stood up unsteadily. Their faces were blank, and then they were terrified and uneasy. "Goddaughters deserve to die. They actually fell asleep in front of the sect leader."

"You guys are probably too tired. It's fine. Help the sect leader's wife cultivate."

Su Yu left the main hall and went to the cult master's exclusive cultivation room.

Letting out a long sigh, Su Yu willed and a crack appeared between his brows.

Five souls flew out.

Four of them were the four great guardian souls of the Moon worship sect, and the other was the flood dragon emperor.

The five souls struggled violently under the restriction of the soul devouring realm,

"Currently, my soul realm is the single-crowned emperor. I wonder what will happen after devouring five souls." Su Yu was secretly looking forward to it.

Then, he closed his eyes and absorbed the first soul.

At the same time.

In a secret room in the headquarter.

"Protector Bai Li, why didn't you tell the cult master just now that there's a big problem in our border? A very important religious altar has been occupied by the dustless moon sect. This matter can only be resolved by the cult master himself!" A protector whose entire body was translucent said, this was what he said.

Bai Li's face sank. He sighed and said, "It's not that I don't want to say it, but I can't."

The translucent protector was a little puzzled. What couldn't he tell the cult master?

“The Holy Maiden sent a message that she has returned from abroad. After learning of this matter, she personally rushed over to deal with it.”

Hearing this., the Translucent Protector’s eyes revealed traces of fear. “She’s back? No wonder! “If it was her, the problem at the border could be easily solved. It’s right for you not to tell the sect leader. Otherwise, with the sect leader’s temper, there’s a high chance that he’ll choose to enter seclusion again until the Saintess leaves again.”

The moon worship sect leader would avoid the Saintess for a day, and the two rarely met.

“Speaking of which, our sect leader is also helpless. Anyone who is overpowered by a SAINTESS will not feel good, right?” Another protector sighed. “However, do you feel that the sect leader’s return this time seems to have changed a little? “Yes, how should I put it? He has become more decisive!”

Protector Bai Li and the translucent protector nodded slightly. “There are indeed slight changes.”

“It’s probably because he has mastered the great Yu Emperor dynasty that the cult master has more confidence, right?”

The few protectors nodded in agreement.

Time was like water.

Half a year passed slowly. Under the care of the few protectors, the moon worship cult operated normally.

As their leader, he had finally finished digesting the fourth soul of a double-crowned king.

In the cultivation room, a layer of soul light reverberated around Su Yu’s body.

His soul was so powerful that it penetrated through his body. This was because his soul was about to reach the limit of his body’s endurance.

After being tempered by the dragon blood, his body’s toughness had reached the level of a double-crowned king.

His soul surpassed the limits of his body, which meant that his soul was extremely close to the level of a triple-crowned king.

Shua --

Suddenly, Su Yu opened his eyes.

Two soul waves swept out.

With the cultivation room as the center, they swept in all directions.

All the disciples in the headquarters felt the throbbing from the depths of their souls, and all of them knelt down.

“The moon worship sect leader will rule the world for thousands of years.”

Su Yu, who had just woken up, heard a familiar shout. The Soul Light on his body shook, but it didn’t cause his soul to shake.

The corner of his mouth twitched, and he immediately looked away.

“The souls of the four twin crowns are really shocking. After digesting them, they pushed my soul to the level of the three crowns.” Su Yu clicked his tongue.

His soul divine crystal had increased tenfold, turning into a crystal core the size of an egg.

The soul energy within was extremely powerful!

“Strange things keep happening!” Su Yu was shocked.

The last time he devoured the illusionary Moon Lord’s soul, he had directly broken through from the soul of a peak overlord to the single crowns.

Now, after devouring the souls of five twin crowns, he had jumped from the single crowns to the three crowns!

There were many impurities in the soul. If he could devour one soul, he would be able to absorb one-tenth of it.

If he devoured the souls of five double crowns, he would not be able to absorb even half of the soul energy of a true double crowns.

At best, Su Yu’s soul energy could barely reach double crowns.

But now that he had directly broken through to Triple Crowns, it was really strange.

After pondering for a while, Su Yu remembered this question in his heart.

After mastering a powerful soul power, he could finally do what he had been looking forward to for a long time.

He took out the bronze plate.

After Devouring Fantasy Moon Langjun’s soul, he could barely see the sixth level cultivation technique on the bronze plate.

But because his soul power wasn’t strong enough, it was very blurry and couldn’t be seen clearly.

Now, his soul power was already strong enough to reach the level of the three crowns!

As he focused his gaze, a clear line of words appeared in front of his eyes.

However, what shocked Su Yu was that it was not a cultivation technique!

It was actually a chant.

Chapter 1852 Listening To The Hearts Of The People

“Wait! Didn’t Yun Yazi say that the bronze board recorded six levels of cultivation techniques? What about the sixth level? Why is there an unrelated chant?” Su Yu was extremely surprised.

He wanted to ask Yun Yazi, but he was still inside the nine dragons divine cauldron, using the blood left behind by ancient god Nine Dragons to repair his soul.

A great disappointment flashed through his eyes.

The long-awaited sixth level actually didn't exist!

In other words, he had cultivated the son of Heaven's aura-gazing technique to the end.

This was a cultivation technique that he had cultivated since the true dragon continent, and it was indescribably helpful to him.

For a moment, he couldn't help but feel disappointed.

After a long silence, he finally smiled in relief. "Forget it, it's just a remnant scroll. Even if I get to the sixth level, I won't be able to get to the seventh, eighth, and ninth levels. Right now, I'm just ending it early."

In a relaxed mood, he had the intention to read this mnemonic.

After taking a closer look, Su Yu realized that the mnemonic was quite special.

"Heavenly book characters?" The font of the mnemonic was not the common characters in the absolute beginning realm. Instead, it was a very ancient heavenly book character.

If Su Yu was not familiar with the heavenly book characters and controlled more than thirty percent of the heavenly book characters, he probably would not be able to recognize this mnemonic even if he was in front of it.

He softly chanted and chanted the chant word by word.

Immediately, the bronze board actually released a large amount of green light and instantly swallowed Su Yu who was holding the bronze board.

Su Yu hurriedly resisted, but in front of the devouring power, he was like the most lowly ant in the world. Resisting was completely useless.

His heart was greatly shocked and he was swallowed into the bronze board.

Clang --

The bronze board fell to the ground, and Su Yu disappeared without a trace.

When Su Yu regained consciousness, what appeared in front of him was a vast, broken ruin.

The buildings were trampled, the city walls were shattered, and the broken soldiers were stabbed with arrows all over the ground.

It was as if they had been forgotten in time and space, and it was silent.

"Where is this?" Su Yu was surprised.

Could it be that there was another space inside the bronze board?

Why did he enter this place? Yun Yazi had never said that there was another space inside the bronze board.

He tried to walk, but to his surprise, he found that his surroundings seemed to be frozen. It was extremely difficult for him to take a step.

"What's going on?" Just one step seemed to exhaust all his energy.

While he was bewildered, this casual step seemed to trigger something. A giant black eagle flew over from the nine heavens.

It was very weak, but its body was filled with a shocking aura.

Absolute beginning Qi!

Yes, it was the origin of all things in the absolute beginning realm, absolute beginning Qi!

“How is it possible?” Su Yu cried out in shock.

Absolute beginning Qi was extremely rare in the current absolute beginning realm. It was almost impossible to obtain it in the outside world.

Only the ancient oil lamp of a mortal body could burn all the things in the world into a small amount of absolute beginning Qi.

However, the giant condor right now contained more absolute beginning Qi than it did even if it burned the entire sea of constellations.

Chirp --

The giant condor noticed Su Yu and swooped down with a sharp screech.

Its sharp beak tried to peck through Su Yu.

Su Yu could not move and could only watch as the huge condor pecked at his body.

Clang --

Fortunately, Su Yu had just undergone the tempering of dragon blood and his body was extremely tough.

The huge condor swooped down rapidly. Not only did it not peck through Su Yu, but it was as if it pecked on an iron plate. Its entire body crashed into Su Yu's body.

Dong --

With a muffled sound, the huge condor killed itself on the spot and fell in front of Su Yu's feet.

The way it died was really aggrieved.

Su Yu smiled in surprise. Although the giant eagle contained astonishing primordial qi, it did not seem to be very powerful.

And the reason why it dared to Peck Su Yu was probably because the primordial qi contained in Su Yu's body was very weak, making it mistakenly think that Su Yu was very weak.

The result was tragic.

After resting for a while, Su Yu squatted down with great difficulty. He was so tired that he was covered in sweat.

He gritted his teeth and held on. Only then did he manage to catch the giant eagle.

The moment he touched it, Su Yu felt a burning sensation on his chest. An ancient oil lamp flew out automatically.

The weak flame kept flickering as if it was about to be extinguished.

It shot out a ball of flame and instantly burned the giant eagle into nothingness. A large amount of nine-colored gas rose up.

The flame instantly became brighter. Even the ancient oil lamp seemed to have become brand new.

“Could it be that the oil lamp will change after burning the thing that contains the primordial qi?” Su Yu pondered.

He saw a small tree in the distance that was full of orange fruits and also contained traces of the primordial qi.

With a thought, he walked to the side of the small tree step by step with great difficulty.

He felt that he had walked for half a year in a short distance of a thousand feet.

When he got close to the small tree, the oil lamp flew out on its own and burned the small tree into ashes.

The light from the oil lamp grew stronger and illuminated the entire sky with the nine-colored color of the oil lamp.

An unexpected scene appeared!

Under the illumination of the nine-colored light, the entire illusory ruins started to float and an illusory scene appeared.

In a grand palace, numerous spiritual bodies were walking one after another.

They were born with only souls and no bodies.

Every single soul was extremely powerful, and even the maidservants were emperors of Heaven and earth!

The patrolling guards were even existences of the double-crowned emperors.

The leader of the small guards was an existence of the triple-crowned emperors.

There were even several dao master auras within! !

One of them even made Su Yu feel suffocated.

Su Yu could not compare to the power of the ruler of the underworld.

Su Yu’s pupils contracted. who was that?

What was this place in the past?

As his heart trembled, suddenly, an echo that lasted for countless years appeared in the palace.

“This is the great void Mystic Palace. I Am the Great Void Mystic Master. Or you can call me the ruler of the soul laws.”

Ah! Su Yu almost screamed out loud.

It was just an illusion in front of him!

This place had been destroyed for countless eras. Where did the voice come from?

His heart was shaken.

However, the owner of the voice seemed to know what Su Yu was thinking.

“I’m in the river of time of the first era.”

An era was billions of years. Since the absolute beginning realm existed, it was only an era.

The first epoch, what era was that?

The absolute beginning realm only had one epoch. Where did the first epoch come from?

“Living creatures of this world, the last generation of the second epoch. I don’t know if I should feel happy or sad for you...”

The voice faded away, and the nine-colored portrait disappeared.

The scattered light scattered on Su Yu’s body, fusing into his body.

The ancient oil lamp dimmed again and could no longer project enough illusions.

He wanted to continue asking but could not find a solution.

“Ruler of space laws? Great Void Celestial Master?” Su Yu recalled his shocking identity.

At this moment, the last trace of light fused into his body.

“Eh! The pressure around seems to be much weaker.” When he regained his senses, he immediately noticed something strange.

His body moved and he easily took a step forward.

“Is it because the light has fused into my body just now?” Su Yu was surprised.

At the same time, he found that he had a vague understanding of the laws of his soul.

This feeling only appeared when he used the raindrops of the dao rain to comprehend.

“This... the understanding of the laws of my soul has a little bit more?” Su Yu didn’t dare to believe it. He could comprehend a part of the laws of his soul so easily!

He was so excited. He tried to find something with thick absolute beginning Qi to let the old oil lamp absorb it and recreate the illusion.

However, at this moment, his surroundings turned dark. He found that he had returned to the outside world.

He maintained the posture of holding the bronze plate with both hands. A thick layer of dust covered his body.

“Has he spent half a year?” Observing the scattered dust, he deduced that he had spent half a year inside the bronze plate.

A trace of surprise flashed across his eyes. He looked at the bronze board again and tried to recite the chant, wanting to enter it again.

However, the bronze board did not respond.

At this moment, a voice entered his soul.

“Calm your heart and savor the soul law that you have comprehended. Haste makes waste. Remember!”

Was it the Great Void Celestial Master?

Outside the bronze board, he could even communicate with Su Yu across eras?

Su Yu was shocked.

The Master of soul laws, what kind of existence was that?

But what he said was not wrong. Haste makes waste.

He had not even had time to digest the soul laws that he had just comprehended.

Thinking about it on the spot, Su Yu’s eyes gradually lit up.

“So, soul laws can be used in this way.” He had an additional understanding of soul laws in his heart.

Dong Dong --

At this moment, the sound of a door being knocked came from outside the secret room.

Su Yu looked up and was surprised to find that he could easily see a few souls outside without using the eye of the soul.

To be more precise, the souls of all the living beings in the main altar of the moon worship sect were clearly visible in his eyes.

Outside the secret room were the souls of the six protectors of Bai Li.

They were waiting anxiously outside, looking particularly anxious.

Was there something important?

Su Yu’s heart moved, and he opened the stone door.

“Greetings, sect leader.”

Su Yu said indifferently, “You’re disturbing our cultivation. Is there an urgent matter?”

Protector Bai Li looked troubled. “Sect leader, please have a look.”

He handed over a black moon-shaped jade pendant.

This was the moon worship sect’s unique emergency communication magic tool.

He did not pick it up. Just a casual sweep of his soul, a calm and calm voice immediately jumped out from within.

“I am trapped in White Dragon Mountain. Quickly come and save me.”

That tone did not sound like he was looking for someone to save him. It was clearly an order.

In the entire moon worship sect, there was no one else who dared to call themselves “I” other than the holy maiden.

Su Yu could not help but laugh. Save You... As If!

With the Holy Maiden dead, there was no one who could restrain the sect leader.

He really could not find any reason to convince himself to rush to the rescue.

Just as he was about to give a perfunctory reply, Su Yu’s heart moved slightly, and a layer of soul light faintly appeared in his ears.

Instantly, words from the soul level entered his ears.

“Why hasn’t the sect leader responded yet? If the Holy Maiden is in trouble, the sect leader will also be in big trouble.”

“Sigh, after a year of seclusion, you can’t still be in seclusion, right? What’s there to hesitate about? Hurry up and save her!”

None of the six protectors spoke, and none of them dared to speak in front of the leader.

What Su Yu heard was the true thoughts of his soul!

This was the new use of the soul law after he comprehended the soul law.

This law was similar to how the great void Celestial Master could easily see through Su Yu’s thoughts.

In other words, he could listen to People’s hearts!

Chapter 1853 Lack Of Faith

After pondering for a moment, Su Yu asked in a deep voice, “The Saintess is very powerful and is not in a hurry to save her.”

As soon as these words were said, everyone’s thoughts appeared in his ears.

“TSK tsk, the cult master’s resentment towards the Saintess is really great!”

“If I were the cult master, I would naturally wish for the Saintess to die in White Dragon Mountain forever. However, the SAINTESS controls the cult master’s life and death, so I’m afraid I have no choice but to go!”

“If the SAINTESS were to break that shackle before her death, I’m afraid the sect leader would also shatter and die.”

The words in their hearts did not escape Su Yu’s ears at all.

The Saintess held the shackle? In control of the sect leader’s life?

This was an unexpected discovery.

However, how could a mere peak overlord Saintess easily control the sect leader’s life and death?

“Sect leader is wise. The SAINTESS holds the Moon Worship Sect’s supreme artifact, the black moon god wheel. Her life will be safe for a short period of time. There’s no need for you to be anxious, sect leader.”Protector Bai Li complimented.

A bunch of bootlicking bastards!

The veins on Su Yu’s forehead were throbbing non-stop. The one who died wasn’t you, right?

Of course, the one who died wouldn’t be Su Yu.

No matter how that Holy Maiden controlled the life and death of the Moon Worship sect leader, she wouldn’t be able to control Su Yu’s head.

However, if he really ignored it, his identity as the sect leader would arouse suspicion.

His life was controlled, yet he was still able to remain calm. No matter how muddle-headed protector Bai Li and the others were, they should have noticed his abnormality.

Moreover, the last place where the emperor’s killing sword appeared was the White Dragon Mountain Range, right?

According to the information he had found, after the emperor’s killing sword escaped to the White Dragon mountain range, it had completely disappeared without a trace.

It was unknown whether it was hidden in the white dragon mountain range or somewhere else.

He had long planned to personally head to the White Dragon Mountain Range to investigate.

At the moment, he was saving the Saintess at the same time.

“Sect master, it has been a year since the Black Moon Divine Pool was opened. If we don’t absorb it, we might waste it. Do you think we should gather the higher-ups of the sect to prepare and absorb it?”The Transparent Protector’s eyes flashed with an obscure fervor.

The higher-ups of the sect yearned for the absorption of faith every month.

However, the sect master had gone into seclusion for an entire year, which made them extremely worried.

Su Yu rubbed the token key in his arms, and his eyes were slightly warm.

He was also somewhat curious about how powerful the faith power of the Moon worship cult was.

“Gather the higher-ups, and we’ll open the Black Moon Divine Lake Tomorrow.”Su Yu waved his sleeve and immediately made a decision.

Not long after returning to the bedroom, princess ru Chen heard the news and came over.

“Brother Su Yu, you’ve been in seclusion for too long this time, right?”Princess ru Chen’s pretty face relaxed slightly.

For a year, Su Yu had been in seclusion. She was afraid that she would accidentally expose herself and be on tenterhooks.

Now that Su Yu had returned, it was as if she had found her master.

Su Yu smiled and sized her up, frowning slightly.

In the past, when she had probed her soul, she couldn't feel anything strange in her soul. But now that her soul was strong, with a casual look, she found that there was indeed something unusual about her soul.

In the depths of her soul sea, there was a faint dark red line, which was deeply integrated into the depths of her soul and grew together with her soul.

One existed and one was destroyed.

“Soul symbiosis body?” Su Yu was secretly surprised.

Recently, he had some understanding of the soul, and only then did he know that there was such a special soul in the world.

Two kinds of souls were born to be one body, and they controlled each other's bodies.

Looking at the current situation, Princess Ru Chen's soul was far stronger than Ling Long's, so most of the time, it was princess ru Chen who dominated.

“Ling Long's existence is more or less a hidden danger.” Su Yu's eyes revealed a thoughtful look.

Not to mention the day she woke up again, she would take away the emperor's killing sword, and she would also threaten Su Yu's life.

Just her existence alone would pose a threat to princess ru Chen.

As far as he knew, the soul symbiosis body wouldn't exist forever. Usually, when one soul became completely powerful, it would suppress the other soul forever.

Although Princess Linglong's soul was weak, it was far more refined than dust. It was only a matter of time before it suppressed Princess Ruchen.

He had promised Dongfang Xia that he would treat Princess Ruchen well, so naturally, he wouldn't go back on his words.

Thinking of this, he could not help but take out a dragon-shaped necklace.

After some research, it was discovered that this was a protective magic treasure personally crafted by Dongfang Xia. It had two great divine abilities, one for offense and one for defense.

An attack was Dongfang Xia's full-force attack. Any powerful double-crowned king would die without a doubt. If the triple-crowned king was accidentally ambushed, there was a high chance of death.

Defense was the full-force defense of the triple-crowned king. As long as it was not too powerful, the triple-crowned King's attack could also be blocked.

One Dragon and one Phoenix were two in total, which consumed a lot of Dongfang Xia's primal energy.

Otherwise, Dongfang Xia wouldn't have fallen into a disadvantageous position when he fought with the moon worship sect master that day.

He had always blamed Dongfang Xia for being a poor parent.

Therefore, it would be best if he could find a way to get rid of or suppress Princess Linglong's soul to relieve Ruchen of his worries.

However, before she could do so, the safest way was to strengthen Princess Ruchen's own soul power.

The stronger she was, the less likely Princess Linglong would be able to make a name for herself.

"Tomorrow, I will open the Black Moon Divine Pool. You can come with me. If the power of faith is good for your cultivation, you can try it together."

Princess Ruchen had been here for a year, and she could not find out much about the power of faith, both in the open and in the dark. It was very magical.

It was said that she could absorb the power of faith and cultivate ten times faster than ordinary people.

The moon worship sect rose overnight because of the power of faith.

If she could absorb the power of faith, her cultivation might also increase rapidly.

The next morning, the Guardian elders and the missionary elders were all waiting in the main hall of the cult master.

Su Yu came a little late with the cult master's wife.

"Greetings to the cult master and the cult master's Wife!" Many elders greeted respectfully.

"No need for formalities! The Black Moon divine pool hasn't been opened for a year. All elders, follow me." Su Yu led everyone to the forbidden area of the main altar, a huge cave built deep underground.

From the entrance of the cave to the forbidden area, there was a guard every ten steps. They guarded the area all year round, not allowing anyone to get close. The guards were very strict.

In the depths of the cave, there was a huge spirit pool made of unknown black material. There was a thick stone door blocking the entrance.

Su Yu tried to enter with his soul, but he was bounced back.

Even with his current soul power, he could not penetrate the stone door. It was obvious how sturdy the stone door was.

Even if the three crowns king tried to force it, he might not be able to break the stone door open.

There was a keyhole on the stone door, which was just in time to deal with Su Yu's token key.

With anticipation, Su Yu took out the key and opened it.

Suddenly, a rich and mysterious power rushed towards him.

What he saw was a spiritual pool suspended in the air. The pool was filled with black air currents. The air currents gathered together and condensed into a water-like fluid.

A powerful power of faith erupted from the pool.

In an instant, Su Yu seemed to see countless devout believers kneeling in front of the Black Moon statue and kowtowing.

Strands of faith were stripped from their bodies and gathered in the statue, then transferred to the pool through the statue.

All the power of faith in the entire moon worship sect's territory was gathered here.

The moon worship sect's higher-ups behind were already unable to endure the thirst.

“All of you go.”Following Su Yu's order, everyone pounced in, greedily and happily absorbing the power of faith.

They competed with each other to be one step behind others.

Princess Ru Chen was also envious, but Su Yu didn't move. She didn't act rashly.

Su Yu narrowed his eyes and stared at everyone's every move.

Those usually calm protectors were like crazy in front of the power of faith. They were extremely excited.

“Is this really faith?”Su Yu was suspicious.

True faith should make people more devout, but the protectors had turned into Thirsty Beasts.

His eyes flashed as he observed everyone's bodies.

After discovering that the power of faith had entered their bodies, it immediately turned into the divine power they needed and rapidly increased their cultivation.

The more they absorbed, the more they improved.

It seemed to be no problem!

However, Su Yu always believed that the Heavenly Dao was only balanced.

The Heavenly Dao was to make up for what was lost.

Such an overbearing way to improve one's cultivation must have hidden dangers.

Sure enough, Su Yu suddenly sensed something. After looking carefully, he was surprised to find that although the power of faith that had fused into their bodies had turned into divine power, an extremely small part of it had turned into something else, it entered their souls.

Protector Bai Li had absorbed the most power of faith. In his soul, there was a layer of transparent bugs that ordinary souls could not detect.

They attached themselves to his soul and greedily absorbed the essence of his soul.

Looking at the translucent protector, the other four protectors and hundreds of missionary elders were all the same.

In their soul divine crystals, there were bugs gnawing at them!

The most serious was protector Bai Li. The soul divine crystals were almost crawling with bugs, and there were several layers densely packed together.

Seeing this scene, Su Yu's scalp went numb, and his heart trembled.

As expected, nothing was easy in this world.

That method of absorbing the power of faith did indeed have endless hidden dangers.

Protector Bai Li and the others had only cultivated for a short period of time, and in addition, their souls grew along with their cultivation for a short period of time, so they didn't feel the obvious loss of the essence of their souls.

However, once their cultivation stagnated for a long period of time, the speed of the insects' gnawing would far exceed the growth of their souls. At that time, there would be a big problem.

Either their minds would be damaged and reduced to beasts, or their souls would be devoured bit by bit and become walking corpses.

Fortunately, Su Yu had been in seclusion for a year. In the Great Void Mystic Cave, he was absorbed into his body by the colorful divine light. The level of his eyes when looking at his soul was much higher than before.

Otherwise, he would have absorbed the power of faith without knowing the reason, and there would be endless trouble in the future.

Princess ru Chen could not hold it in any longer and pulled Su Yu's sleeve, "Shall we go too?"

It would be fine if he did not know, but since he knew, how could he push princess ru Chen into the fire pit?

However, when he caught a glimpse of the dark red symbiotic soul in the depths of her soul, he had a plan.

His eyes flashed and two silver flames flew out, turning into a Firebird.

With a sharp screech, the Firebird burrowed into protector Bai Li's Soul Divine Crystal and ate an invisible bug in one bite.

After eating, the Firebird's lively eyes revealed traces of excitement, as if it especially liked this kind of bug.

A trace of a smile flashed across the corner of Su Yu's mouth.

"Mm, you can go, but you have to bring this silver firebird with you." Su Yu casually waved his hand, and the Firebird flew back into his palm.

Princess ru Chen looked at it curiously. "What is this thing?"

"Something to protect your life! Close your eyes."

Princess ru Chen closed her eyes strangely and allowed the Silver Firebird to enter her soul and protect her mind.

“Okay, you can absorb the power of faith to your heart’s content.”

Chapter 1854 The Secret Realm Appeared

When princess ru Chen heard this, she happily entered the center of the Spirit Pool to absorb the most concentrated power of faith.

As the cult mistress, no one dared to fight for it.

Under Su Yu’s gaze, after princess ru Chen absorbed a large amount of power of faith, as expected, seven or eight invisible bugs drilled into her mind, ready to devour her weak soul.

But the Silver Firebird immediately flew over and ate the bugs on the spot.

Only one was spared by it.

That was the bug that ate the dark red soul. The Silver Firebird chose to ignore it.

Not long after, another bug entered.

Just like the first batch of bugs, if they dared to devour princess ru Chen’s soul, they were immediately eaten by the Silver Firebird.

But if they ate the dark red soul, the Silver Firebird did not mind.

Although those insects didn’t have intelligence, they could devour them indiscriminately.

However, they couldn’t resist the increasing number of insects. Gradually, the dark red soul crawled over the insects and began to devour them.

The dark red soul seemed to have sensed something and trembled. However, it was helpless and could only let the insects continue to devour it.

“Hehe, as a reward for the life and Death Convergence Curse, you should enjoy it. Next time we meet, I hope your soul is still intact.” Su Yu smiled slightly.

This discovery was unexpected.

Even if she couldn’t destroy the remnant soul of Princess Ling long, she could still weaken her soul.

The next time she came out, she might not be as strong as this time.

Of course, it was unknown how many hidden killer moves the daughter of the Dragon Emperor had.

It was always right to weaken her soul as much as possible now.

Secretly ordering the Silver Firebird to guard princess ru Chen’s mind, Su Yu left the forbidden land and set off for the White Dragon mountain range.

The White Dragon mountain range was located at the border between the moon worship sect and the dustless moon sect.

Back then, the moon worship sect had risen all the way and its territory had expanded rapidly. It had clashed with many neighboring forces.

The White Dragon mountain range was one of them.

This place had once belonged to the dustless moon sect. Later, the Moon Worship sect occupied it and set up a white dragon sub-altar here.

Su Yu put the token he carried with him into his storage device to isolate the aura of the token.

In this way, the disciples of the Moon Worship sect would not know that Su Yu was the leader of the Moon Worship sect.

He came to the main city of the White Dragon mountain range, White Dragon City.

The main city had been burned to the ground, and the heads of the Moon worship sect hung on the city walls.

Su Yu came to the city walls and looked at the familiar heads on the documents. He sighed to himself.

The Moon Worship sect had set up a branch here, the White Dragon Branch.

Among the heads, there were the local branch leader, three deputy branch leaders, and nine hall leaders.

Only one deputy branch leader and one hall leader were not among them.

It was unknown if they had escaped or if there were no corpses.

The martial artists who passed by all had terrified expressions on their faces as they carefully entered the city for inspection.

“All of you take off your outer clothes and reveal your foreheads. Anyone who is subordinate to the moon worship sect and protects them will be killed without mercy!”The city gate guards scolded sternly.

At the corner of the city wall, there was a pile of corpses. All of them were moon worship sect disciples.

Although Su Yu did not have any feelings towards the moon worship sect, he did not want to see such a massacre.

These disciples might not have done anything bad, but they had been killed because of their beliefs.

The methods of the dust less moon sect were too cruel and cruel.

As he thought about this, yin and yang Qi appeared above his head and disappeared.

The imperial guards at the entrance felt as if something had disappeared. They looked over in surprise, not knowing that someone had left.

When they reappeared, he was already standing with his hands behind his back in the former White Dragon Division.

The division was blasted into ruins, and a black moon statue that had collapsed was trampled and destroyed.

“It seems that there is no one left in the division. If we want to know the latest information about the emperor’s killing sword and the SAINTESS, we can only start from other sources.”Su Yu’s gaze swept across the crowd that was hurriedly passing by.

The more chaotic the place was, the more prosperous the black market was.

It was not difficult to gather information there.

In an unremarkable small wine shop, business was particularly prosperous. There were always customers coming and going.

Su Yu smiled faintly and stepped into the shop. A young waiter asked, "What do you want?"

"I want to buy some information."

The waiter looked at Su Yu strangely. "Objective, this is a restaurant. Where do we sell information?"

Su Yu gave a faint smile. "Oh? is that so? An Emperor of Heaven and earth acting as a waiter? This is the first time a small restaurant like this has been discovered!"

Immediately, the waiter's expression changed drastically and he was much more respectful. He quickly lowered his head and said, "So it is senior who has graced us with his presence. Please go to the back hall and speak."

He moved to the back hall. People came and went in and out of an inconspicuous firewood room.

The small restaurant looked lively, but in fact, all the customers came and went from this firewood room.

He was no stranger to this scene.

As he stepped inside, he saw a bustling market.

"Welcome to the Star Alliance Chamber of Commerce's White Dragon Mountain Branch, senior."

Star Alliance Chamber of Commerce? Su Yu's heart skipped a beat. Dark Star Civilization also had its own branch.

The power of this Star Alliance Chamber of Commerce was indeed terrifying.

He just didn't know if the news of him killing Phantom of the Star Alliance Chamber of Commerce in da Yu civilization had reached this place.

"What does senior want?" It was still the waiter who led the way enthusiastically.

"News, first-hand news. Money is not a problem," Su Yu said indifferently.

The waiter's face was filled with enthusiasm. The Star Alliance's Chamber of Commerce welcomed such a magnanimous senior the most.

Under his lead, they came to the local intelligence agency.

Unlike the Star Alliance's Chamber of Commerce in the Da Yu Emperor Dynasty, the Dark Star Civilization's Star Alliance's Chamber of Commerce was open to the public.

However, due to the recent war, for the sake of safety, it had changed from the light to the dark.

Therefore, the reliability of the information in this place was far from the black market of the Emperor Yu dynasty.

“Elder Li, I brought you an important guest.” The waiter pushed aside the crowd in line and directly cut in.

Many people in line were full of complaints. However, when they saw the waiter’s appearance, they all kept quiet and didn’t dare to resist.

In the inner hall, a spirited old man came out to welcome Su Yu. He sized Su Yu up and said, “Fellow Daoist, please come in.”

The waiter sent Su Yu into the inner hall and left, leaving the two of them to talk.

“May I ask what fellow Daoist wants to Ask?” The intelligence of this intelligence agency is divided into three grades. The third grade is ordinary information that can be obtained even if one asks carefully. The second grade is classified information. Without special channels, it is very difficult to know! “The first grade is top-secret information. Only our intelligence agency has it.”

Su Yu did not say another word. He took out a bag of divine stones and threw it on the table.

Elder Li had seen many wealthy people. A mere hundred low-grade divine stones were nothing to him.

However, when he swept his gaze over it, he realized that it was not a low-grade divine stone, but a high-grade divine stone!

In other words, it was a total of one million divine stones!

Elder Li’s expression changed drastically. He was moved, and the respect on his face became much denser.

Someone who could take out one million divine stones in one go was definitely a big shot.

“Don’t worry about how much information I ask. You only need to answer two questions of mine.”

Elder Li was no longer the slightest bit disrespectful. He said, “Senior, please speak.”

“First, where is the emperor’s killing sword?”

Elder Li smiled bitterly as if he wasn’t surprised. “It’s not surprising that you asked. However, if it was someone else who asked, I would naturally be perfunctory. However, if it was senior, I just received a piece of news that might be related to the emperor’s killing sword.”

“Speak!” Su Yu’s heart moved.

Elder Li pointed at the table. “Do you know why the Dustless Moon sect suddenly attacked the White Dragon Mountain Range a year ago? It must be known that the resources here were scarce. Back then, the moon worship sect had seized this place for hundreds of years, but the dustless moon sect had never asked for it. Now, they suddenly seized it back. What was the reason?”

“Don’t keep me in suspense. Just say what you want to say!” Su Yu raised his eyebrows and said unhappily.

A terrifying soul fluctuation was released, shaking elder Li, elder li hurriedly said, "It's like this. A year ago, a secret agent of the dustless Moon sect found a natural secret realm near where the emperor's killing sword disappeared. It formed a space of its own. It might be the hiding place of the emperor's killing sword!"

"For this reason, the dustless moon sect did not hesitate to launch a war to take back this place. Their purpose was to hide it from the public. According to what I know, a large number of experts of the dustless moon sect have already gone to that secret realm."

There was such a thing? If he did not deliberately inquire, he would not have known that the dustless moon sect had another reason for attacking the white dragon mountain range.

If that was the case, the one million divine stones had been spent in vain.

"The second question," su yu said calmly, "I want to ask about the whereabouts of someone!"

Elder Li's expression softened, "Hehe, finding people is our strength as an intelligence agency. As long as they are not a nobody and are slightly famous, we will know their whereabouts within three days."

"Where is the Saintess of the Moon Worship Sect?"

Elder Li was surprised. He stared at Su Yu in surprise and then said slowly, "If it is her, there will be no news within three days. That is because the last time she appeared was a year ago. She participated in the war against the invasion of the dustless moon sect."

Her whereabouts were unknown?

"The only thing I can tell you is that the Holy Maiden is not dead, but no one knows her exact whereabouts."

Su Yu hoped that she would die just like that.

A trace of disappointment flashed across his eyes.

But it did not matter. If he found her, then he would kill her.

He did not wish for such a person to exist in the moon worship sect.

"I'm ashamed. I only answered half of the question. I can only take half of a million divine stones."

Su Yu waved his hand. "Forget it. You can answer my other question."

"Please go ahead."

"How many people from the Moon Worship Sect's White Dragon Mountain Branch are still alive?"

Elder Li was even more surprised by Su Yu's identity, but he did not dare to say anything, he said, "If it's them, it's easy to say. Although the dustless moon sect has failed to arrest them, I've found out that eight of them are still alive. They are currently hiding their identities here."

He took out a map and marked it. At the same time, he also marked the secret location that the dustless moon sect had discovered.

“Alright, one million divine stones are yours.” Su Yu put away the map. He looked at the inner hall with a meaningful look and left expressionlessly.

When he asked the question just now, he was secretly listening to the old man’s thoughts.

He was not lying.

The dustless moon sect had indeed discovered some clues in the White Dragon mountain range.

After he left, a beautiful woman in a green dress walked out of the inner hall. She blinked her beautiful eyes and asked, “Elder Li, why did you tell the truth? The more people know about that secret place, the more competitors we have.”

Elder Li stared in the direction where Su Yu had disappeared, there was a hint of fear in his eyes as he said, “That fellow Daoist’s strength is unfathomable. Although there is no obvious evidence, I can feel that he knows everything I’m thinking. I’m afraid that if he lies, he will immediately find out.”

“So powerful? Elder Li, you are the president of our branch. Don’t tell me that you are afraid of someone who hides his identity?”

Elder Li gave a faint smile. “He hides his identity not to hide himself, but because he is afraid of scaring you and me!”

“Tch! What kind of identity can scare you and me?”

Elder Li said deeply, “What if it is the moon worship sect master personally coming?”

“Hiss!”

The woman in the green skirt drew a breath of cold air!

Chapter 1855 The Poisonous Light Of The Yin Moon

“Are you sure?” The beautiful woman in the green dress had a serious expression.

Elder Li nodded slightly, “It’s most likely him! Only someone like him can make me fear him from the bottom of my soul.”

The beautiful woman in the green dress frowned deeply. She knew that elder Li was a rare soul dao expert with the cultivation of a double-crowned emperor.

Since he was eighty percent sure, that person was most likely the moon worship sect master himself.

A hint of worry appeared on his forehead. “The leader of the Moon Worship Sect’s arrival will have a greater impact on us taking the emperor’s killing sword!”

Elder Li Sighed. “I didn’t expect that the leader of the Moon Worship sect would come personally either. He must have come because of the disappearance of the SAINTESS. In front of him, I have no choice but to tell him the truth.”

After a pause, elder Li's eyes flashed. "However, you don't have to be too anxious. That mystic realm is just a space cave that is suspected to be the emperor's killing sword

"Hundreds of millions of years ago, the White Dragon mountain range was always the most vulnerable place to attack from the outer space civilizations. There were many long-lasting wars, and the space was extremely unstable. There were many overlapping and compressed space mystic realms, and they have been discovered many times in history."

"The mystic realm now is left from the ancient times, and it is still unknown whether it was created by the emperor's killing sword."

Hearing this, the expression of the beautiful woman in the green dress eased slightly. She nodded slowly and said, "That's true. Anyway, with the dustless moon sect around, the competition is already fierce enough. So what if we have another moon worship sect leader? Who knows, we might even be able to benefit from the competition!"

After thinking this through, the beautiful woman in the green dress was in a much better mood.

"There's no time to lose. The longer we wait, the greater the possibility that the mystic realm will be known by more people. Let's set off as soon as possible."

Old Li nodded his head and left the intelligence agency quietly with the beautiful woman in the green dress.

Speaking of which, after Su Yu left the black market, he followed the map and came to an abandoned cave.

Inside lived seven or eight women and children with different injuries and illnesses.

Of course, it looked like that.

Su Yu casually scanned them and found that their souls were all powerful and full.

The youngest nine-year-old boy had a god-level soul!

The old man looked old, but he had the soul level of a peak overlord.

They hid their identities and pretended to be ordinary residents living in the cave, avoiding the search of the dust-free moon sect.

"Grandpa Jin, why hasn't Vice Division leader Yang Come Back Yet?" Although the nine-year-old boy was young, he looked mature.

Grandpa Jin was the older elder. Hearing this, he stroked his head. "Little hai, don't worry. Vice division leader Yang is very powerful. He will find enough healing medicine soon."

Little Hai pursed his lips and said, "Since the SAINTESS came to save us, why didn't she bring us back to a safe place?"

"Because the SAINTESS has more important things to do. She saved us and placed us here. She did her best," Grandpa Jin said kindly. His eyes were full of worship for the Moon Worship sect.

At this moment, a woman in the cave groaned in pain.

There was a ferocious wound on her abdomen. Not only did it not heal, but the blood and flesh near the wound kept rolling to the sides.

Streams of divine blood continued to flow.

The woman's face was already pale. The divine blood was scarce. It was only a matter of time before she died.

Grandpa Jin and little hai hurried over. Their faces were filled with deep pain.

Little Hai wiped his tears and sobbed, "Mother!"

Grandpa Jin was also filled with extreme pity. He said hatefully, "That damned dustless moon sect. They used the method of smearing the Yin Moon poisonous light to hurt people. How detestable."

Little Hai cried, "Why hasn't Vice Division leader Yang returned yet? Didn't he say that he wanted to find some healing pills for Mother?"

Grandpa Jin sighed deeply. He was afraid that vice division leader Yang's trip would be very dangerous.

Since the dustless moon sect used this poison to hurt people, how could they not keep an eye on the healing materials?

If they waited there, they would definitely be able to find the moon worship sect disciples who had come to look for healing items.

Vice division leader Yang had discussed this with him before he left. If he went, it was very likely that he would stay there forever.

However, the woman was not the only one who was injured. There were four others who had similar injuries and urgently needed healing.

Therefore, even though he knew that it was the eyes, vice division leader Yang still chose to go.

With a sigh, the only thing left in the cave was the miserable groans of the patient.

At this moment, a calm voice came from the entrance of the cave out of the blue.

"Why don't you let me take a look at your injuries?"

Grandpa Jin and little hai suddenly turned around and were shocked to find a mysterious person dressed in black robes standing at the entrance.

Their expressions changed drastically.

Now that all the members of the Moon Worship Sect's White Dragon Mountain Branch had been killed, only the eight of them were lucky enough to escape.

Those who came were definitely not people from the moon worship sect!

"Little Hai, you step back,"Grandpa Jin said solemnly. His robes fluttered, and a decent aura of a Golden Overlord was released.

Su Yu smiled faintly and took a step forward with his hands behind his back.

With just a single step, Grandpa Jin's entire body trembled, and he staggered back. His eyes were calm as he said, "A peak overlord!"

A hint of despair appeared in his old eyes.

Unless the deputy chapter leader returned, a peak overlord could crush them all with just one finger.

It was over!

Su Yu didn't say a word and walked in.

Grandpa Jin shouted, "I'll fight it out with you!"

The divine power in his body surged. It was a sign of self-destruction.

Su Yu looked over and sighed, "Your loyalty is commendable."

He casually patted Grandpa Jin's shoulder. Instantly, the divine power in his body was strangely suppressed.

His entire body was also suppressed by a majestic power, unable to move. It was as if his entire body was petrified.

The child glared at Su Yu with hatred. He was extremely strong and did not yield.

"Don't touch my mother!" The little boy stretched out his tender arms to block in front of him.

Su Yu gently tapped on his forehead, unable to resist. "Be careful."

The little boy was suddenly unable to move. Only his pair of black eyes kept rolling around, revealing a pleading expression.

Su Yu walked past him and came in front of the woman lying on the ground. He glanced at her injuries and said indifferently, "Hold it in."

A ball of true dragon divine fire flew out from his fingertip. Like a tiny fire snake, it drilled into the wound.

"Ah!" In the unconscious state, the woman let out a shrill scream. Her entire body was trembling from the pain.

It was not until Su Yu withdrew the divine fire that he walked towards the next injured person without looking sideways.

The screams in the cave continued for a long time.

After the time it takes for half an incense stick to burn, the cave returned to silence.

Su Yu walked out with his hands behind his back. With a flick of his finger, Grandpa Jin and little hai regained their mobility.

The two of them checked on the injured in a panic. However, what shocked them was that the injuries on the five injured had all disappeared.

Not a single scar was left behind. They were completely recovered, as if they had never been injured before.

What was even more amazing was that one of the injured was the most severely injured. His life force had been completely devoured by the Yin moonlight poisonous light. Even if they found a healing item, it would be impossible to save him.

However, his face was ruddy and his breathing was smooth. He was just unconscious.

This unbelievable scene made Grandpa Jin and Little Hai Freeze.

After a long time, they finally realized what was happening. Grandpa Jin hesitated for a moment and bowed, "May I ask who senior is?"

The other party was terrifyingly powerful. Killing them was just a snap of the fingers.

However, he saved everyone instead. This meant that the other party was not an enemy.

"It doesn't matter who I am. What matters is that you all return to me with a question." Su Yu was unable to obtain the Saintess' whereabouts from the intelligence agency. He could only obtain information from the survivors of the branch.

Grandfather Jin said respectfully, "Senior has saved our lives. Please speak."

"En, where is the Saintess?" Su Yu asked faintly.

Grandfather Jin's pupils constricted slightly. He was secretly on guard, "Saintess, we don't know where she is either."

He thought to himself, "Before the Holy Maiden left, she told us that she found out that the dustless moon sect had other plans and she never came back. Why did this person specifically ask the Holy Maiden?"

He had no idea that Su Yu knew everything he was thinking.

Other plans... could it be that the holy maiden also found out about the secret realm and rushed over?

If that was the case, she was most likely not dead.

"Oh, you guys continue to wait. Someone will come to save you later." Su Yu said indifferently and turned around to leave.

He would inform the nearby branches to rescue this group of survivors.

Grandpa Jin's eyes flashed, "May I ask senior, why are you looking for our Saintess?"

Of course, it was to find her and then... kill her!

"Then you don't need to ask," Su Yu said indifferently, walking out of the cave with his hands behind his back.

Just as he was about to leave, suddenly, a sharp palm wind struck toward his head.

A sneak attack?

Actually, he had long sensed a powerful soul hiding at the entrance of the cave.

Without thinking, he flicked his arm lightly and easily deflected the palm attack.

Peng --

A black-robed figure hit the stone wall and rolled on the spot, spitting out a mouthful of blood with a muffled groan.

Grandpa Jin and little hai immediately came out when they heard the commotion. They fixed their eyes and looked, then said in surprise, "Vice Branch leader Yang!"

They hurriedly helped him up.

So he was the vice branch leader Yang who had found the healing medicine.

"Old Jin, who is he? Are you guys okay?" It turned out that when he returned, he found a mysterious black-robed figure walking into the cave and attacking old Jin and little hai.

He calmed himself down and hid at the entrance of the cave, preparing to launch a sneak attack.

He didn't expect the other party to be so powerful, and he didn't expect old Jin and Xiao Hai to be fine.

"Vice division leader Yang, don't misunderstand. He didn't mean any harm. It was he who saved everyone," Grandpa Jin hurriedly explained, afraid that vice division leader Yang would make a move again.

Vice division leader Yang was taken aback. He scanned the cave and realized that not only were everyone alive, even their injuries had recovered. He couldn't help but smile bitterly.

He shook off the dust on his body and cupped his fists at Su Yu. "Thank you for saving my life, Brother."

Unexpectedly, Su Yu looked at him unblinkingly.

When he had been slapped to the ground by Su Yu, his robe had been shattered, revealing his true appearance hidden under the black robe.

Deputy sub-division leader Yang was not surprised at all. He smiled and said, "As you can see, I am not a member of the Dark Moon tribe, but a member of the human race. Yes, a member of the lower third-rate race."

Vice Division leader Yang wasn't afraid of his identity as a human.

There was a hint of helplessness in his voice. The status of the human race in the absolute beginning realm was too low. He was used to receiving strange looks.

Su Yu stared at him and asked, "May I ask where you're from?"

Vice division leader Yang looked at Su Yu strangely and said, "I'm from a faraway place."

"Is it another civilization?" Su Yu probed.

Vice division leader Yang's eyes flashed and said, "It can be considered that. Anyway, it is extremely far away, and the inter-civilization array can't teleport to it."

Su Yu's heart moved. Staring at that familiar face, he almost thought that he was dreaming.

Chapter 1856 Farewell To My Old Friend

Yang Tai!

He couldn't believe his eyes.

He could see each other in this situation!

Yang Tai, the son of God Bao Tong and God Shang of the East God realm!

Later on, the Voidwalker Mother Reformed and killed the innocent. She forced Yang Tai and Sheng Yuanxin to leave their homeland. They accidentally left the entrance of the Cage of Gluttony and entered the absolute beginning realm.

They had arrived at the absolute beginning realm several years before Su Yu.

They thought that the absolute beginning realm was so vast that they would never see each other again.

They didn't expect that they would meet here!

"Eh, Brother, do you know me?" Vice division leader Yang noticed that Su Yu was staring at him unblinkingly under the black robe. He couldn't help but ask curiously.

After he came back to his senses, Su Yu shook his head. "No, I don't."

Now was not the time to recognize each other. Once his identity was exposed, he would definitely be hunted down by the moon worship sect.

When the situation was stable, he would recognize him.

"However, you are very much like a friend of mine," Su Yu said half-truthfully.

Yang Tai laughed self-deprecatingly. "If I had a friend like you, I wouldn't be in such a sorry state."

Pausing for a moment, he cupped his fists again. "Brother, please come in and speak. You have done us a great favor by helping us."

Su Yu waved his hand. "It's no trouble at all."

However, he gave up on the idea of leaving immediately. Instead, he went in and stayed.

If it was an ordinary branch member, it would be enough for him to send people to rescue them.

However, since it was Yang Tai, there was nothing to say.

The four of them arranged a simple banquet in the cave and drank with each other.

Yang Tai repeatedly expressed his gratitude to Su Yu.

“Sigh, if brother Tai hadn’t intervened, even if we weren’t completely wiped out, only the three of us would be left. We wouldn’t have the face to meet the missionary elder in charge of this area,” Yang Tai said with shame.

Little Hai’s mother gradually got better, and he also began to become lively. “There’s still the sectmaster and the sectmaster.”

Yang Tai rolled his eyes at him. “With my status, even if I met the sectmaster, it would be impossible, let alone the high and mighty sectmaster!”

“That’s right. Our sect master is a heavenly figure. With just a thought, he can decide the life and death of billions of people. With just a look, he can kill the Emperor of Heaven and earth. That’s amazing.” Little Hai’s eyes were filled with worship.

At the mention of the Moon Worship Sect Master, Yang Tai’s face was also filled with respect.

He was only a vice sect master of countless branches of the moon worship sect. His status was low, and even meeting the Guardian Elder was as difficult as ascending to heaven. Meeting the sect master was something that he didn’t even dare to think about.

The three of them chatted as Yang Tai glanced at the few people who were getting better and better. He said, “In a few more hours, they should be able to wake up. When that time comes, let’s complete it as soon as possible. This place might not be safe anymore.”

Grandpa Jin and Little Hai did not have any objections. In the past year, they had changed several positions.

This was already the eighth one.

Staying in each place for more than a month would become dangerous.

After pondering for a while, Yang Tai said, “Brother, I can’t repay you for saving my life. But after this meal, you’d better leave as soon as possible. Don’t be mistaken for the moon worship sect and be hunted down by the dustless moon sect.”

Su Yu smiled faintly, “My strength is still passable. I probably don’t care about ordinary dustless moon sect members.”

Yang Tai smiled awkwardly. The other party’s strength was indeed not bad. His sneak attack had failed and he had been beaten to a pulp.

“May I know what kind of strength brother is? Why Can’t I See Through it at all?” Yang Tai asked directly.

Su Yu did not avoid it and said, “In terms of cultivation, I am the same as you, both are peak overlords. The reason why I can’t see through it is because the material of the black robe I am wearing is somewhat special.”

“So you have the same cultivation as me.” Yang Tai laughed out loud.

He did not think that Su Yu was lying. After all, above the peak was a half-step emperor, or even a heaven and earth emperor.

He did not think that such an expert would befriend him.

“I see. But brother’s medical skills are indeed brilliant. The Yin Moon venomous light of the dustless moon sect is extremely poisonous. Divine power can not cure it at all. Instead, it will aggravate the injury. Only special medicine can treat it.” Yang Tai exclaimed.

Su Yu shook his head and said, “A little divine art is not a big deal.”

Hearing this, Old Jin said in surprise, “Oh right, vice division leader Yang, why did you come back so early? But you didn’t get the medicine?”

It was estimated that Yang Tai would probably have to go through a fierce battle and would only come back tomorrow at the very least.

Who would have thought that he would come back now.

Yang Tai raised his eyebrows and shook his head. “On the contrary, I got the medicine for healing, and it was very easy.”

Old Jin’s expression changed. He was experienced and knowledgeable. He said in a serious tone, “Not good, I’m afraid this is also a trap! The Supreme Moon sect went to great lengths to capture us. How could they not be prepared for such an important medicine?”

Yang Tai shook his head, “No! I checked the medicine, but there are no traces of tampering.”

Elder Jin frowned and still felt uneasy, “Then, is there anyone following me?”

Yang Tai was very confident about this, “Did you forget that I am an earth spirit body and am good at escaping through the earth? Who Can Catch up with me?”

After thinking for a while, elder Jin’s tightly knitted brows relaxed slightly. Indeed, vice division leader Yang’s escaping technique was extremely powerful.

When the branch division was besieged that day, the branch leader and the other three vice division leaders were all trapped and killed. Only vice division leader Yang escaped from the heavy siege. It could be seen that his escaping technique was indeed very impressive.

“Perhaps I was overthinking.” Elder Jin relaxed and said.

Su Yu’s gaze flashed slightly as he said softly, “I’m afraid it wasn’t elder Jin overthinking. It was indeed someone who followed Vice Branch leader Yang.”

Yang Tai raised his brows. “Brother, why do you say that?”

Su Yu sat on the stone bench, not moving at all, he said, “Just now, I was curious. There were a few powerful souls wandering around nearby. I initially thought that they were experts who were passing by. But after hearing what you said, I realized that they were probably the ones who followed us here.”

If he was from the dustless moon sect, he would not have attacked Yang Tai either. Instead, he would have chosen to follow him in secret and destroy his lair.

That would be much more valuable than killing Yang Tai alone.

“What?” Yang Tai was shocked. “Impossible. How can an ordinary person follow me?”

Su Yu said indifferently, “Compared to you, they are not ordinary people. Among those souls, there is one who is very powerful. He is at the level of the Emperor of Heaven and Earth!”

Instantly, the cave was deathly silent.

“Heaven... Heaven and earth emperor...” Yang Tai sucked in a breath of cold air, his mind completely blank.

He had come from the eastern God region, so he knew very well how powerful a heaven and Earth Emperor was.

In the Moon worship sect, he had personally witnessed the terrifying might of the law chains casually struck by the missionary elder. In front of the might of the heaven and earth, a peak overlord was as insignificant as an ant.

In the dustless moon sect, the Emperor of Heaven and earth was also a rare existence. It was equivalent to their missionary elder.

He would not show his face easily, as if he was a divine dragon that could not be seen!

Never in his wildest dreams would he have thought that the dustless moon sect would send out an emperor of heaven and earth to kill a few of their remnant soldiers!

“Brother, how did you know? You must know that the Emperor of Heaven and Earth is busy every day and disdains to personally attack us.” Yang Tai swallowed a mouthful of saliva, he suppressed the fear in his heart and asked Su Yu if he was lucky.

Su Yu took a sip and said leisurely, “He’s already here.”

What! !

Yang Tai, Lao Jin, and Little Hai stood up at the same time. However, after waiting for a while, there was still no movement. They couldn’t help but look at Su Yu in surprise.

Yang Tai smiled, “Brother, you can’t be teasing us right...”

Before he could finish his sentence, the top of the cave shook violently. A powerful force penetrated the cave and created a hole with a diameter of 100 feet.

A middle-aged man wearing a white moon long-distance running suit floated leisurely with his hands behind his back.

His eyes were indifferent as he casually scanned the situation in the cave. His gaze was like looking at an ant. “Nine. HMM, one more person than the information I got. Consider it a gift.”

After being swept by him, Yang Tai, elder Jin, and little hai felt as if they had been electrocuted. Their bodies stiffened and they could not move at all.

Not to mention resisting, even moving a single finger was extremely difficult.

This was the Emperor of Heaven and earth!

One look and one thought could decide their life and death.

The middle-aged man in the long robe said indifferently, "Break one arm and one leg and I will spare your lives."

Eh? Yang Tai and the others were shocked.

They had killed the moon worship sect disciples they had caught in the past without hesitation. Why did they spare their lives now?

If they could survive, they naturally didn't want to die.

Yang Tai and elder Jin looked at each other with hesitation.

The Emperor of Heaven and earth in front of them could kill them easily. If they were to cut off their arms and legs, they would definitely spare their lives.

"I don't have time to waste on you ants. Forget it, I'll just send you to your deaths."The moon-robed middle-aged man was ready to attack.

Yang Tai and elder Jin's expressions changed drastically. Without any hesitation, they immediately cut off one of their legs.

Compared to death, there was still hope for the crippled.

Both of them were decisive people. Since they had made a decision, they would not show mercy.

They gathered their divine power and slashed at their left legs.

However, at this moment, Su Yu, who was sitting still, gently tapped on the stone table with his fingertip. The wine that had just spilled on the table bounced up and casually bounced towards the two people's arms.

PA --

The wine droplet accurately bounced their palms away.

Yang Tai was in pain and turned pale with fright, "Brother, are you crazy?"

The Emperor of Heaven and earth in front of him had a strong killing intent. Only by obeying him could he avoid death.

Su Yu actually stopped them. wasn't that infuriating the Emperor of Heaven and earth?

As expected, the other party frowned slightly and his patience reached its limit. "HMPH! A bunch of ants. What use do I have for you? Go and Die!"

Yang Tai was shocked and hurriedly said, "Please show mercy, Emperor. We will immediately cut off two of our limbs!"

"No need! I have exhausted all my patience!"The moon-robed middle-aged man's body suddenly erupted with countless primal energies that swept over and pressed down.

In an instant, everyone was enveloped in the shadow of death.

Yang Tai's face was filled with despair and a bitter smile. He could have lived, but because of Su Yu's attack, his last hope was extinguished.

Resentment flashed through his heart, but it soon faded away. The other party was just being kind, what could he complain about.

Shouldn't the one who should be complaining be the dustless moon sect?

Amidst bitter laughter, the power of desolation descended.

They closed their eyes and welcomed the pain that was about to come.

However, the pain that they imagined did not appear.

Yang Tai opened his eyes and was stunned on the spot.

However, he saw Su Yu sitting motionlessly on the spot. He gently pushed his palm forward and blocked the power of desolation that filled the sky!

Chapter 1857 Fantasizing

Please enter the main text. In his palm, several faintly discernible threads weaved into a net, cutting and shattering the incoming primeval force.

Only in this way could the terrifying primeval force be blocked.

Yang Tai and elder Jin were stunned. The moon-robed middle-aged man was also stunned. He had never expected that one of the ants from the Moon Worship Sect's branch would be able to block one of his attacks.

After recovering from his shock, the moon-robed middle-aged man revealed a trace of surprise and commented indifferently, "Not bad. With a magic treasure, you can block an attack from the Emperor of Heaven and earth. The Moon worship sect is not all useless."

With his hands behind his back, he looked at Su Yu with interest and said, "If the rest die, you will lose one arm and one leg. Then, follow me!"

After pausing for a moment, he casually added, "I can only endure for three breaths. After three breaths, I will personally take action."

Yang Tai and the rest's faces were still as pale as paper. Their hearts were filled with despair. The eight of them were doomed.

Only then could Su Yu barely survive.

However, he heard su yu say leisurely, "Can you give me some face and let the eight of them go? We will each take a step back. It will be beneficial to everyone. How about it?"

He heard Su Yu plead on their behalf.

Yang Tai was both grateful and amused. The brother in front of him was kind-hearted, but he was too naive.

His own life was in the hands of the Emperor of Heaven and earth, so what right did he have to plead with the other party?

Sure enough, the moon-robed middle-aged man's expression was calm as he said indifferently, "One breath!"

Su Yu was silent as he sat on the stone bench, silently waiting for the other party's reply.

"Two breaths!" The only thing that answered him was the time that passed quickly.

Yang Tai bowed respectfully and said quickly, "Brother, don't bother about us anymore. You have done so much for us, and we are already endlessly grateful. We can not implicate brother anymore..."

He quickly tried to persuade him. The middle-aged man in the Moon Robe did not stop and said indifferently, "Three breaths!"

His gaze was slightly cold. "I still have to do it myself!"

He took a big step forward and a huge pressure unique to emperors enveloped him.

Plop --

Yang Tai, elder Jin, and little hai immediately felt a hundred thousand mountains pressing down on them. Their knees went soft and they collapsed on the ground. They could not even get up.

However, only Su Yu remained motionless on the stone bench, as if he wasn't affected at all.

"Oh? You do have some ability. However, in front of an emperor, any resistance is pathetic and ignorant." The moon-robed middle-aged man walked up to Su Yu with his hands behind his back. His palm was filled with primal energy, and he slapped Su Yu's shoulder.

A casual slap was enough to kill a half-step emperor.

However, under his control, this palm would only cut off his entire arm.

However, at this moment, Su Yu, who was not moving at all, raised his eyes slightly. "Why are there always so many people who don't know when to advance or retreat? If they had the heart to spare your life, you would have left a good head."

Without waiting for the moon-robed middle-aged man to understand the meaning behind his words, Su Yu flicked his finger lightly. The thread spiraling in his palm suddenly shot out and slashed across the moon-robed middle-aged man's arm.

The moon-robed middle-aged man was shocked. So Fast!

By the time he reacted, the thread had already passed through his arm.

He was shocked, but when he looked carefully, there was nothing unusual about his arm.

"What the hell are you doing?" The moon-robed middle-aged man pressed his arm again.

Only at this moment did his arm silently separate from his shoulder and fall to the ground.

At the junction of the arm and shoulder, there was a smooth cut like a mirror. The divine blood flowed out along the blood vessels of the past without being noticed.

A tingling sensation of pain gradually came over.

The moon-robed middle-aged man looked at his shoulder. His eyes were dazed for a moment, as if he could not believe it.

How Tough was the body of the Emperor of Heaven and earth? An ordinary emperor-level divine weapon could not even harm a hair on his body.

Only when the piercing pain turned into intense pain did the moon-robed middle-aged man let out a roar. His body retreated frantically as he stared at the threads in Su Yu's palm in shock. "Damn it, what is that thing?"

Su Yu stood up slowly and said indifferently, "You don't understand what kind of existence you are talking to!"

He closed his eyes lightly, and five threads danced like dragons.

The sizzling sound echoed in the cave and soon, it was as quiet as usual.

Under the dim candlelight, a horrifying projection appeared on the wall. A one-armed figure's head and the remaining three limbs were thrown away at the same time.

The emperor of a generation had died here for no reason. His soul was also destroyed in an instant and not a trace was left.

Su Yu's expression was indifferent. With a tap of his toes, he jumped out from the gap above his head.

In the pitch-black night, a few soft puchi sounds could be heard. After that, there was no more sound.

Yang Tai and elder Jin were so shocked that they did not dare to move. They stared at the corpse of the Emperor of Heaven and Earth in a daze. They only felt that they were in a dream at this moment.

The Emperor of Heaven and earth was killed in a breath!

This, this was something that they could never imagine in their entire lives!

Who was that mysterious 'brother'? And just how strong was he?

Shua --

As they were deep in thought, Su Yu appeared out of thin air and gently sat on the stone bench.

Beside him, a person was standing with his entire body trembling.

When Yang Tai saw this person, his expression changed drastically as he said in shock, "The cave master of the Dustless Moon Sect's white dragon mountain range, Li Kai!"

When elder Jin saw this person, his old eyes also shrank. Due to fear, his old body subconsciously trembled.

The Cave Master of the Dustless Moon sect was equivalent to the branch leader of the Moon Worship sect. Their statuses were almost the same.

A year ago, it was Li Kai who led a large group of experts to besiege the branch and carried out a bloody purge.

During this year, it was also Li Kai who ordered people to wantonly search for the remaining members of the branch.

Yang Tai and the other three could be said to be filled with hatred and fear towards him.

However, Li Kai was covered in blood as he stood beside Su Yu, trembling non-stop.

The eyes that looked at Su Yu were filled with extreme fear. His pupils shrunk into needles as if he had experienced a huge shock and was on the verge of a mental breakdown.

“What is the purpose of leaving people alive after injuring and maiming them?” Su Yu poured himself a cup of wine and did not even glance at Li Kai, who was half a step into the emperor realm behind him.

However, Li Kai was extremely frightened. Without any hesitation, he said in a trembling voice, “Senior... Senior, the secret realm ahead is in danger. We need someone to lead the way and detect the danger.”

The secret realm... was it the secret realm that the Dustless Moon sect was excavating?

It seemed that the secret realm was extremely dangerous. It seemed like there were hidden restrictions or mechanisms. As a last resort, they captured people everywhere and used them as cannon fodder to scout the way.

No wonder the Emperor had personally captured Yang Tai and the others, and even spared their lives for the first time.

Hearing this, Su Yu's brows secretly relaxed. It seemed that although the dustless moon sect had discovered the secret realm a year ago, they had not been able to enter it yet.

If there really was the emperor's killing sword inside, they should not have obtained it yet.

This was not bad news.

“Where is the secret realm?” Su Yu asked again.

Li Kai took out a map that indicated the exact location.

It was exactly the same as what elder Li had given him.

“The location is correct.” Su Yu confirmed. He casually raised his hand and a thread instantly pierced through Li Kai's head, causing him to die on the spot without any pain.

Looking at the moon-robed middle-aged man's corpse, Su Yu's eyes were cold.

He originally didn't want to kill recklessly. After all, he didn't have any enmity with the dustless moon sect.

But the other party didn't know what was good for him.

“Forget it. I'll personally send you all out of White Dragon City.” Su Yu said indifferently.

He casually waved his hand, and the enormous spatial power summoned all five unconscious people in front of him.

This move caused the scalps of Yang Tai and the others to go numb.

“You guys come over too.” Su Yu said indifferently.

Yang Tai and elder Jin didn’t dare to have any objections and immediately ran over. However, they respectfully stood twenty feet away from Su Yu and didn’t dare to get too close.

On the other hand, little hai was a newborn calf that wasn’t afraid of Tigers. He stared at a spatial storage item on the right arm of the moon-robed middle-aged man. “That... Senior doesn’t want it?”

Su Yu glanced at it indifferently and shook his head.

He no longer cared about the storage ring of the single crowned emperor.

“Then, can I take it?” Little Hai asked worriedly.

A red light flashed in Su Yu’s eyes, and the interspatial ring fell into his palm. With a light sweep of his finger, the blood essence within the ring was directly wiped away, and he casually threw it to little hai.

“Thank you, senior! Thank you, Senior!” Little Hai was pleasantly surprised.

Yang Tai and elder Jin swallowed their saliva as they watched.

They had also seen that interspatial ring, but they didn’t have the guts to ask for it.

In the end, little hai had benefited from it!

Not only that, senior had also helped him remove the remaining blood essence in it. That was the blood essence of a heaven and earth emperor, and it contained unimaginable power.

If they wanted to remove the blood essence in it, they would need at least a few years.

At this moment, they were so jealous that their eyes were red.

Su Yu saw it and then took out a few interspatial storage devices. They were all interspatial rings that he had found when Emperor Yu destroyed the moon worship sect’s missionary elders.

He didn’t have time to open them one by one, so he left them behind.

“Everyone has a share.” Su Yu gave them four.

Elder Jin had one, but Yang Tai had three.

Yang Tai was flattered. “Senior, you are...”

In terms of knowing each other sooner or later, elder Jin should have known this senior before him.

Why did he have three of elder Jin’s?

“Protector Disciple, your courage is commendable. This is for you.”

After saying that, he immediately activated the Taiji Yin-yang wings and disappeared from the cave in an instant.

When he reappeared, he directly appeared in the territory of another branch of the Moon worship sect. He said, "I will send you to the end here. If we are fated, we will meet again."

Yang Tai hurriedly said, "May I know your name, Senior?"

Su Yu paused for a moment and lightly said, "My surname is Su."

As he said that, he completely disappeared.

Yang Tai was startled. "Su?"

The first thing that came to his mind was the eastern God region. That Su Yu from the nine states cave abode world, that incredible peer who created miracles everywhere.

"What a coincidence. The senior now also has the surname Su?" Yang Tai muttered to himself.

He did not connect the two at all.

After all, Su Yu was still trapped in the cage of Taotie and would never be able to escape.

Secondly, how could Su Yu reach his current strength?

Thinking of Su Yu, Yang Tai felt lost. "Brother Su, brother Su, the infinite of Heaven and earth is beyond our imagination. Perhaps you can't even imagine that there is an even wider absolute beginning world outside the Divine Realm!"

"What you can't even imagine is that I, who was as insignificant as a speck of dust in front of you, also had the strength of a peak overlord. If I were in the divine realm, such strength would be enough to unify the entire divine realm, right?"

He imagined the expression on Su Yu's face when she saw him again when she returned to the divine realm one day.

She must be very surprised, very surprised, and very regretful.

Imagining that he had far surpassed Su Yu, whom he had to look up to in the past, the corners of Yang Tai's mouth curled into a knowing smile. "Brother Su, I really look forward to our reunion. At that time, what kind of attitude will you have towards me?"

While he was daydreaming, Su Yu teleported six times in a row until his divine power was exhausted.

Chapter 1858 Six Whirlpools

Please enter the main text and he grabbed out with his back hand. A bird at the Overlord level flew out from the nine Jade Spirit Pearl. It was the mount of the moon-robed middle-aged man and it was extremely fast.

Under his intimidation, the vicious bird obediently flew towards the secret realm with Su Yu.

According to the location of the secret realm, it would take about ten days.

There was enough time. Su Yu closed his eyes and cultivated while recovering his divine power.

He tried to enter the Great Void Mystic Cave, but he was still rejected.

It was because he had not digested his previous comprehension.

“The requirements are really strict.” Su Yu muttered to himself. However, he was also enlightened by this.

It was futile if he could not digest it after comprehending the laws.

The Great Void sect master claimed to be the ruler of the soul laws. With such strict requirements, it must be because there was a huge drawback to not being able to digest them. Hence, if he did not completely digest them, he was not allowed to enter the great void sect.

As for Su Yu, he had already comprehended the space laws, but he was still unable to digest them completely.

To be more precise, he only learned the space blade. Other than that, he had no other uses.

“Soul Law, Space Law, and life law, they all have to advance together!” Su Yu pondered. He entered the time acceleration state and began to carefully comprehend the three laws.

Time flew by.

A huge vicious bird cut through Qingming. The warriors on the ground could vaguely see a human figure covered in three colors sitting on the bird.

His entire body was exuding a profound and extraordinary supreme intent domain.

The fluctuations of his soul, space, and life were abnormally strong.

Chirp ——

Ten days later, the bird let out a long cry, waking Su Yu up from his deep meditation.

He slowly opened his eyes, which were filled with satisfaction.

“Not bad. After digesting and comprehending, I have a deeper understanding of the three laws,” Su Yu muttered to himself.

After ten days of digesting, he had comprehended some of the magical uses of the three laws.

Although they might not be powerful, they could play an unexpected role.

Hearing the long cries of the birds, he knew that they had arrived at their destination.

Looking over, this was the tail of the white dragon mountain range, which looked like a huge dragon tail.

On the other side of the White Dragon mountain range was the famous dark star civilization, Bai Hai.

In contrast to the dark star civilization, which did not see the sun all year round, Bai Hai was as bright as day all year round. It released an extremely dazzling white light, illuminating one-tenth of the dark star civilization's territory.

It was said that the formation of Bai Hai was the battlefield left behind by the invasion of the dark star civilization from the outer space civilization.

The residual strong aura shattered the once-dense black moon light, causing the place to be bright. To the Dark Moon clansmen who had absorbed the Black Moon divine light to cultivate, this place was like the most barren and terrible place. Even the weakest dark moon clansmen did not like living near the White Sea.

Therefore, there were very few dark moon clansmen in this place.

However, in the past year, a large number of people from the dustless moon sect had arrived one after another.

They came in batches from all directions, following the dragon tails of the White Dragon mountain range into the White Sea.

It was the same for more than half a year without stopping.

No one knew why they pressed down the moon worshippers into the White Sea, but the moon worshippers who entered never returned.

Su Yu stood in the vast sea and looked down at the dustless moon sect holding the moon worshippers. They continued to enter the White Sea like ants moving their homes.

It was obvious that they were going to the so-called secret realm.

Moreover, the number of people that the dustless moon sect sent out this time was extremely large.

With Su Yu's soul perception, he clearly discovered the souls of six double-crowned emperors and fifty single-crowned emperors.

Even one of the souls that made him feel apprehensive was among them.

Master Bao Kun!

The sect master of the Dustless Moon sect!

He actually came personally!

Even if this mystic realm wasn't the emperor's killing sword, it was still an extremely shocking treasure.

Otherwise, the dustless moon sect wouldn't have risked the battle between the two powers to seize this place, and master Bao Kun wouldn't have come personally.

"Regardless of whether there is the emperor's killing sword or not, this secret realm is worth investigating." Su Yu narrowed his eyes.

A secret realm that could move the hearts of the three crowns was definitely not ordinary.

After pondering for a moment, Su Yu landed alone.

He had no intention of activating the power of the Moon worship sect. Currently, the Moon Worship sect only had six guardian elders guarding it. If anything happened to them in the mystic realm, the weakness of the moon worship sect's disciples would soon be exposed.

The truth of Emperor Yu's dynasty would also be exposed.

With a thought, he landed in front of a small hill and stared at the large group of moon worship sect's disciples who were being pressed down.

With his strength, there was no problem for him to barge into the secret realm.

The one with a problem was master Bao Kun!

If he were to discover it, it would be a huge problem.

The current him only had the soul of a triple crown prince, and his cultivation was far from reaching that level.

Even with Dongfang Xia's dragon-shaped necklace, he only had the ability to attack and defend, and was unable to face master Bao Kun head-on.

Therefore, he had no choice but to choose other ways to sneak into the secret realm.

He glanced at the crowded moon worship sect disciples who were being watched by two bronze overlords from the dustless moon sect. With a thought, he took off the black robe that was refined from extremely black dust and changed into a shabby robe.

There were traces of blood on the robe. No matter how one looked at it, it looked like a captured disciple who had been injured.

As for his face, he showed it to others as a human.

The moon worship sect had a wide range of disciples, regardless of race. It was not surprising that human disciples were common.

Yin and yang qi surged around his body, and in the next moment, he appeared among the crowd of captives.

The already crowded crowd suddenly became crowded, but no one noticed it, including the two disciples of the Dustless Moon sect.

Under their pressure, everyone entered the White Sea.

The warm water of the White Sea quickly surged over and enveloped everyone.

Six huge funnel-shaped vortexes could be seen with the naked eye on the bottom of the sea.

The other end of the vortexes led to an unknown place and released a shocking suction force, swallowing the nearby sand and seawater.

In front of the six vortexes were countless captives like Su Yu, numbering in the millions.

They were grouped into groups of ten and entered different vortexes.

Anyone who resisted would be mercilessly killed in public.

Su Yu blended into the crowd and didn't make a sound. As groups after groups were thrown into different vortexes, the group he was in gradually walked to the front.

A half-step emperor realm expert from the Dustless Moon sect held a flaming whip and coldly glanced at them.

“Listen Up! “You are moon worship sect disciples and should die. However, master Bao Kun has the virtue of living well and decided to give you a chance! “Everyone, divide into groups of ten and choose a whirlpool to enter. If you reach the end alive, you will be rewarded with an inexhaustible amount of resources and noble status. Do you understand?”

Of course they didn’t understand. Who knew what was going on inside the vortex when they had been captured for no reason.

“Understood!”

However, who dared to say that they didn’t understand?

“If you understand, then take out the communication jade seal!”He waved his hand, and the dozens of disciples of the Dustless Moon sect behind him released their jade seals one by one, guaranteeing each of them a piece.

Under his command, everyone lined up in groups of ten.

Su Yu’s inconspicuous group of six was about to enter the sixth whirlpool.

“Good luck, the group of six that is about to succeed.”Beside Su Yu, a tanned middle-aged man grinned and secretly rejoiced.

Su Yu looked at him with a slightly different expression. was there any difference in the detection of the six whirlpools?

Sensing Su Yu’s gaze, the middle-aged man whispered, “Kid, our luck is not bad. Follow me, and I guarantee your safety.”

Laughing lightly, Su Yu said, “Big Brother, could it be that you are very clear about the situation inside the Vortex?”

“Hehe!”The tanned man licked his lips, “To be honest, I was personally caught by the cave master of the Dustless Moon sect, a half-step emperor. Along the way, I eavesdropped on him and the other disciples talking about the situation in the mystic realm.”

Su Yu looked at his ears and found that his ears were long and thin, showing signs of having cultivated.

It seemed that he had special hearing ability, which was why he could eavesdrop on the conversation of a half-step emperor.

At this moment, the tanned man seemed to be showing off proudly, but he didn’t know that Su Yu’s ears could hear his heart clearly.

“It’s very dangerous in the whirlpool. I have to win over this silly human kid, and let him be at the bottom when it’s dangerous.”

On the surface, the tanned man had a cheerful expression as he held Su Yu’s shoulder, he said mysteriously, “Let me tell you. The six whirlpools all lead to the mystic realm, but every one of

them has very powerful barriers and traps. At first, the people of the Dustless Moon sect went to the mystic realm in person. In the end, two great deacons of the double-crowned emperors died, and dozens of Hall masters of the single-crowned emperors died. That's why they went around capturing people and using their lives to fill the way

"The sixth vortex is the one where the two great deacons died. Before they died, they opened up quite a distance, so this vortex is the fastest!"

"Look, there are still so many people ahead. Perhaps by the time we enter, we will have already reached the end by stepping on the corpses of our predecessors."

Su Yu heard it and a cold light flashed in his eyes.

A human life fills the path. What a virtuous master Bao Kun.

He finally understood why master Bao Kun would invite the moon worship sect leader to look for the emperor's killing sword.

It was probably because the entrance to the mystic realm was too dangerous.

Therefore, he wanted to invite the moon worship sect leader to develop it together to reduce the sacrifices of the dustless moon sect.

Unfortunately, Su Yu unexpectedly refused and was forced to use the lives of ordinary believers.

One could see how cruel this person was.

"Quick, quick! Keep Up!" The Cave Master of the Dustless Moon sect, who was half a step into the emperor realm, urged them with the fire whip in his hand.

It was their turn to enter the sixth whirlpool!

Su Yu quietly followed them and prepared to enter the whirlpool with the group members.

However, at this moment, a feminine order floated over, "Master Bao Kun needs some help. Get some people here."

This person was not unfamiliar to Su Yu. He was the messenger that Master Bao Kun had sent to the moon worship sect. He was Master Bao Kun's third disciple, the Black Lotus Demonic Lord!

The cave master humbly acknowledged. He turned around and swept his long whip, stopping the first group of Su Yu who was about to enter the vortex.

"Your group, there are still five groups, four groups, three groups, two groups, one group, step forward and follow the Black Lotus Demonic Lord to meet the Lord Sect Master!" The cave master shouted.

Su Yu's mood slightly sank.

His disguise might not be able to maintain in front of Master Bao Kun!

If they really met, it would be dangerous!

Chapter 1859 Breaking The Restrictions Along The Way

Compared to him, the others were secretly overjoyed.

If that was the case, there was no need to take the risk of dying and enter the vortex.

“Hehe, our luck isn’t bad.”The tanned man said with a low laugh.

Although the sixth vortex was about to be successfully probed, how could it be safe to work for Master Bao Kun?

“There’s no need for so many people. Just three groups will do,”said black lotus demon sovereign indifferently.

Cave master nodded and swept his cold gaze across the area. He then pointed out three groups in order. “Group One, two, three, come over. Group four, five, six, replace the first three!”

Upon hearing this, the thirty members of Group One, two, three were overjoyed and immediately ran over.

The remaining four, five, six groups, under the whipping of the disciples of the Dustless Moon sect, rushed to the front of Group One, two, and three’s vortex.

Su Yu and the others, who were supposed to be in the sixth group, stood in front of the third one.

The tanned man’s face was as white as paper, and his lips were trembling with fear. “Group... Group Three! The group of Death!”

He had eavesdropped on the conversation between the disciples of the half-step Emperor Realm, and the progress of Group Three was the slowest.

This was because the mechanisms and restrictions in group three were big but not sloppy.

No matter how many people entered, no one could escape the mechanisms. All of them died tragically, and very few could break the mechanisms.

So far, the second to last group had progressed by 30% .

However, the third group hadn’t even progressed by 10% . They would die if they entered!

“It’s over! We’re completely finished!”The tanned man’s eyes were dazed and desperate.

Su Yu, on the other hand, had a relaxed expression on his face.

The danger of the traps was easy to deal with, but Master Bao Kun was even more troublesome.

“Why are we stopping? Let’s go in now!”The people from the dustless moon sect behind them whipped them and forced them to go in.

The people who were captured didn’t know that the traps in the whirlpool were waiting for them to die.

Although they were uneasy, in order to survive, they reluctantly listened to the dust less moon sect’s pressure and entered the whirlpool.

Su Yu did not say a word as he quietly walked towards the whirlpool.

But at this moment, the tanned man beside him had a flash of determination in his eyes, he raised his voice and roared, "Brothers! Don't fall for it! The whirlpool was filled with traps that would definitely kill them. Before Us, there were already tens of millions of people who had died inside. The Dust Less Moon sect is using our corpses to fill up the trap! "Everyone, run!"

He used all the divine power in his body and roared loudly, transmitting his voice to all areas.

There were more than a million captives, all gathered together.

And the number of dustless moon sect disciples guarding them was less than ten thousand.

A single spark could start a prairie fire.

After the seeds of fear were sown, they immediately began to spread in all directions.

There was a huge commotion among the million people.

The expressions of the dustless moon sect disciples changed as they searched for the source of the sound.

However, the cunning tanned man hid in the crowd after shouting loudly, silently observing the situation.

Actually, he could have exposed the truth from the start and created the current chaos to escape.

However, he did not do so because he knew that even if the enemy only had ten thousand people, there might not be many who would be able to escape if they really started killing.

He was forced to do so.

However, the effect was very good.

The beings who had been pressured from thousands of miles away were already feeling uneasy. Who would be able to remain calm after knowing that there was a trap?

"Run!"

There was no need for the tanned man to shout out. There were already people shouting out in panic.

Following that, there were cries of encouragement everywhere.

The million people instantly became agitated. They were like a group of scattered ants as they fled in all directions.

Some fled back to the continent, some fled to the deep sea, and some fled in panic to the camp where Master Bao Kun was.

The disciples of the Dustless Moon sect kept roaring, but it was of no use. Their voices were drowned out by the loud noise, and in their anger, they had no choice but to kill.

Their strength was far greater than that of ordinary disciples, and with a casual attack, a large group of people would fall.

Meanwhile, the tanned man took advantage of the chaos to escape.

Su Yu glanced at him indifferently. If he was not mistaken, there was a heaven and earth emperor guarding the direction he escaped to.

He would definitely die if he went there.

He retracted his gaze and did not have any intention of reminding him. Su Yu turned around and took advantage of the chaos to enter the sixth vortex.

The moment he entered, a huge, pungent smell of blood assailed his nostrils, making him feel nauseous.

What was slightly strange was that the terrifying scene of broken limbs and corpses everywhere did not appear.

Other than the lingering smell of blood, there were no other corpses.

Moreover, the destroyed barriers and mechanisms could be seen everywhere.

In front of him was a straight and deep tunnel. Without thinking, Su Yu quickly moved forward.

It was not until an hour had passed that he encountered countless destroyed barriers and mechanisms along the way. Only then did he arrive at the place where the smell of blood was faint.

“It seems that their exploration process has come to an end.” Su Yu’s eyes flickered. With a flick of his finger, a wisp of divine power flew out and shot towards the seemingly empty tunnel ahead.

Puchi --

Instantly, a huge net made of dense blood light appeared in front of them. It was exactly the size of the entire tunnel and blocked the entire tunnel.

The net-shaped hole was very small and only had the size of a palm.

It was impossible to escape from the net-like hole.

“The trap is only that simple?” Su Yu did not let down his guard. If it was so easy, it would not be as simple as detecting it.

Suddenly, the bloody light in the net-like hole changed slightly.

Su Yu raised his eyebrows slightly. Without saying anything, he immediately took a few steps back.

At this moment, the bloody red net suddenly pounced toward Su Yu like lightning.

All the people and things in the tunnel were within the range of the giant net. There was no way for them to escape.

Chi --

Su Yu did not panic. The silk on his wrist flew out and danced like a wild snake, crushing a huge hole in the net.

Only then did he enter calmly.

However, just as the red net was crushed, a new red net slowly grew on the spot.

Before the red net was formed, Su Yu immediately drilled in.

Just as his feet landed on the ground, holes suddenly appeared around the tunnel and a large amount of poisonous fog spewed out from them.

Su Yu tried his best to keep the traps intact and did not destroy them. He only condensed a layer of true dragon divine fire in front of him to evaporate all the poisonous fog that came close.

Following that, he took another step forward.

Two golden puppets walked out from the depths of the tunnel. It was unknown what they were made of, but their bodies were emitting an extremely powerful aura.

The two puppets immediately pounced towards Su Yu.

He flicked his silk and cut his opponent's body. In the end, he only managed to cut half of his opponent's body.

Su Yu was secretly surprised. With the sharpness of the silk, he was actually unable to cut it open!

Peng --

At the same time, the right puppet's fist arrived first. Su Yu dodged it, and the Fist struck the stone wall. The entire stone wall trembled violently, leaving behind a long crack.

This attack was no weaker than the attack of a peak double-crowned emperor.

As his attack landed, the other puppet attacked again.

The narrow environment was not conducive to long-range combat.

"Evil Dragon Bible!" Su Yu shouted softly, and transformed into a thousand-foot-long dragon. His huge dragon claws slapped out, barely blocking the attack of the other puppet.

However, the puppet that attacked first reacted, growling and pouncing over again.

Su Yu opened his mouth and spat out a huge flame that surged over, burning the two puppets on the spot.

No matter how hard their materials were, how could they be as hard as the body of the Sage of the evil dragon?

Once the flame burned, the two puppets' bodies immediately showed signs of melting, and their movements became slower.

Su Yu transformed into human form and calmly passed through the two puppets.

However, he had only walked for a short distance when the four walls of the tunnel emitted a layer of corrosive liquid that was as black as ink.

It was not only underground, but also above his head.

One of the drops accidentally dripped onto Su Yu's skin and immediately corroded a huge bloody hole in his arm, causing Su Yu to suck in a breath of cold air.

What a strong poison.

He was now a double-crowned Emperor's body. Just one drop of it was enough to corrode his body. How terrifying would it be if all of it were to be dripped onto his body?

He finally understood why two double-crowned king deacons of the Dustless Moon sect had fallen here.

One step at a time, one mechanism at a time, one restriction at a time. None of them were particularly powerful, but when stacked together, the risk of a double-crowned King's death was greatly increased.

He grabbed out with his large hand and pulled out the extremely black robe of dust, fleeing towards his body.

The black robe's isolation ability was extremely strong, so its isolation effect on the corrosive poison was naturally not bad.

Putting it on, Su Yu leaped into the air. As expected, the corrosive liquid was unable to penetrate the black robe.

After a few consecutive flashes, he left the corrosive area.

As soon as he landed, the mechanisms and restrictions were triggered again.

Helpless, Su Yu could only focus on dealing with it.

Just like that, the sixth vortex that seemed to have progressed by more than half, the remaining short distance also exhausted all of Su Yu's divine power and all sorts of methods.

When he reached the end of the tunnel, in front of a huge silver-white stone door, Su Yu wiped the sweat from his forehead.

"That tanned man thinks too easily! There are thirty-nine mechanisms along the way. It would be impossible even if there were a hundred times more, let alone if the ten of them could successfully reach the end!"

Of course, this was also the reason why Su Yu did not intentionally destroy the mechanisms and let them continue to act as roadblocks to stop the people of the Dustless Moon sect.

Otherwise, he could have used divine arts to bombard the surroundings. That would have been much easier.

Right now, they were at the end of the tunnel. Behind the stone door was the secret realm.

Judging from the layers of traps and restrictions set up in the tunnel, it was a very big deal.

It would take the three crowns at least a very long time to open a tunnel at full strength. If all six paths were opened, the three crowns would also need at least a year.

It was easy to imagine what was inside the secret realm. It was definitely not simple.

Therefore, he did not rush forward. Instead, he stayed where he was to recover his divine power and physical strength.

At the same time.

After two hours, the chaos outside had finally subsided.

Ten thousand experts from the dustless moon sect had killed to intimidate. In addition, master Bao Kun had personally made a move. In the end, he had killed over a hundred thousand people to intimidate a million people again.

Master Bao Kun was a white-robed elder with a kind expression.

But the moon worship sect disciples present would never forget that it was this elder who had casually killed over ten thousand people.

His viciousness far surpassed that of all the disciples of the Dustless Moon sect.

“Master, we have already rearranged them.”Demonic Lord Black Lotus said nervously, afraid that her master would fly into a rage.

Venerable Baokun said indifferently, “Continue. Open the mystic realm as soon as possible. The news will leak out faster and faster.”

He stared meaningfully at the million moon worshipping disciples.

Chapter 1860 Daylight Divine Stone

His gaze swept over a few of them as he smiled contemptuously, as though he saw an unknown faction hidden within.

“Yes!”Said Black Lotus sovereign respectfully.

Suddenly, rapid whistling sounds came from within the tent.

Venerable Baokun’s expression changed.

Black Lotus sovereign said in disbelief, “This is... someone walking to the end of the tunnel?”

Every person who entered the vortex carried a communication jade seal with them.

In fact, other than communication, the Jade Seal had another function, which was to locate the target.

Once an intruder reached the end, the communication jade seal would immediately send out a signal.

At that moment, it was a sign that the communication jade seal had located the end.

“How is this possible?”Demonic Lord Black Lotus was in disbelief. A million people were in chaos just now, so they did not arrange for any personnel to enter the six vortexes.

As for the previous batch, all the communication jade seals had dimmed, indicating that they had all died inside.

What was with the sudden appearance of the signal?

Whoosh --

Venerable Baokun vanished on the spot. Black Lotus immediately followed him and headed for the tent.

In the middle of the tent, there was an array disk that was a hundred feet in circumference.

The array disks each simulated six tunnels.

The end of the tunnel marked 'six' was constantly emitting bright light.

Venerable Baokun's eyes flashed as he asked, "Contact this person immediately."

Demon Lord Blacklotus bowed in acknowledgment and immediately took out a transmission artifact that corresponded to the jade transmission art on Su Yu's body and sent a message.

Deep inside the sixth vortex.

Su Yu had barely recovered his divine power when the jade transmission art on his waist began to ring gently.

His soul swept through it and immediately, a message from the Black Lotus Demonic Lord appeared. "Have the restrictions and mechanisms along the way been broken?"

Su Yu's lips curled. "All of them have been broken. My Lords, please spare my life."

There was no response from the other side.

The other party did not care at all about his life or death.

What they cared about was whether the restrictions and mechanisms had been completely removed.

Not long after, a series of miserable screams came from the depths of the tunnel.

The voices were deep and deep, and they did not seem like the fragile moon worship sect disciples. Instead, they seemed to be disciples of the Dustless Moon sect who had rushed over in a hurry.

It was likely that the huge blood-red net had given them quite a pleasant surprise.

As expected, the jade seal on his body immediately transmitted an exasperated message, "What's going on? Why are the restrictions and traps still there?"

Su Yu replied indifferently, "How would I know? Why Don't you come over and ask me directly?"

Sensing that something was amiss, the black lotus demon sovereign shouted in a deep voice, "Who are you?"

"Hehe, Guess!" Su Yu laughed playfully. Then, he crushed the jade seal with his two fingers.

He had left behind the restrictions and mechanisms to prevent the dustless moon sect from catching up immediately.

Without Master Bao Kun's help, these mechanisms would take at least seven to eight days to break through.

He turned to look at the silver door and rolled up his sleeves. A strong wind blew and easily pushed the door open.

Dragon scales appeared all over his body. With the true dragon divine fire, he even condensed silk into his palm.

As expected, the moment the silver door opened, an unknown black wind pounced over without any warning.

The black wind was mixed with a strong fishy smell.

The corrosiveness of the black wind was even stronger than the corrosive liquid he had encountered before.

More than half of the true dragon divine fire on his body was extinguished!

The extremely black dust and gray robe were also corroded and damaged.

The remaining black wind blew on his skin and directly cracked his dragon scales!

Su Yu secretly rejoiced. Luckily, he had some precautions!

He focused his eyes and saw a beehive the size of a water tank hanging on the lintel of the giant silver door. The moment the door opened, it touched the beehive.

The beehive would release a terrifying black wind that would wipe out the person who opened the door.

Su Yu flashed out of the giant silver door and closed it carefully. He believed that he could teach the dustless moon sect a lesson.

That was why he looked at the secret realm behind the giant silver door.

Unexpectedly, what he saw was a vast sea, a vast expanse of white.

Compared to the White Sea outside, it was more dazzling.

The White Sea was dotted with scattered islands.

The giant silver door was located on one of the islands.

“Secret realm?” Su Yu looked around.

He had investigated the information of the emperor’s killing sword in detail. It was said that it was refined by an Ancient Dao Master who had entered the Dao of killing.

When he was alive, he had killed countless living beings, and his body contained a world-shaking killing intent.

Before he passed away, he used the horn on his head to forge a sword that gathered the killing intent. It was called the Emperor’s killing sword.

The sword contained a trace of the Dao master’s consciousness, making the emperor’s killing sword extremely intelligent and comparable to living beings.

It would parasitize on living beings.

When living beings held this sword unwittingly, the emperor’s killing sword would take the opportunity to merge into the bodies of living beings, making it one with them.

Then, it would control the living to continue slaughtering the common people.

Back then, the Killing Dao Master had committed too many sins, so he was besieged by countless experts and killed.

No one expected that the killing Dao master would be able to escape with great difficulty, leaving behind a huge problem before he died.

This sword had wiped out dozens of five-star civilizations and devoured countless living beings.

For a time, the crowd was excited. In the end, it was the Daoist Yellow Dao Hall that made a move. A few Dao Masters joined forces to suppress it, sealing the sword in the Daoist Yellow Dao Hall, and then slowly wiping out the consciousness left behind by the Killing Dao master over the years.

As a result, it slowly became one of the Daoist Huang Hall's ancient swords.

However, after a dao rain descended, the sword suddenly disappeared without a trace.

Su Yu did not expect it to reappear in the dark star civilization of a four-star civilization.

"Although the sword wiped out the consciousness of the Dao master, it is still a sword full of killing intent. Wherever it goes, the killing intent must be shocking!" Su Yu thought to himself.

However, looking around, the surroundings were peaceful. There were no traces of powerful killing intent.

"It seems that I might have made a wasted trip." Su Yu sighed in disappointment.

However, since he had come, there was naturally no reason for him to leave just like that.

He looked around and suddenly found an island with the aura of a living creature. Moreover, it was not weak.

A double-crowned emperor, several single-crowned emperors, and hundreds of peak overlords.

"Oh? I wonder how long this arcane realm has existed, and there are still living creatures that have survived until now?" Su Yu was a little curious. After a few breaths, he appeared on the island.

The island was like a shell in the White Sea, looking exquisite and exquisite.

On the island, there were strange creatures dressed in beautiful clothes. Their bodies were snow-white, their hair golden, and their bodies tall. They were very similar to humans.

However, there was a white moon mark on different parts of their bodies.

"They are indeed creatures from the outer space civilization." Su Yu nodded slightly. If he was not mistaken, they were probably left behind by the outer space civilization that invaded the dark star civilization back then.

Su Yu did not deliberately hide his existence, so he was quickly discovered.

"Enemy situation! Enemy Situation!" The alarm on the island sounded loudly.

The sound of a flute was heard.

Without waiting for Su Yu to understand the profundity of the flute, he could not help but look behind him in surprise.

He saw a black mass of flying insects coming from the sky. There were more than a million of them!

At the same time, spiritual insects appeared one after another on the island and in the sea.

In the blink of an eye, tens of millions of insects surrounded Su Yu.

“So you are controlling the spiritual insects. Interesting.” Su Yu nodded slightly. The dragon blood in his body suddenly circulated and emitted a powerful dragon aura.

The spirit insects that came menacingly immediately scattered in panic, not daring to come any closer.

They allowed the flute’s sound to rise and fall, and the spirit insects were no longer under control. They ran around in panic, causing the entire island to panic.

Su Yu glanced in the direction of the center of the island and said indifferently, “This is not the way to treat guests.”

After a moment of silence, a sigh came from the center of the island. “Sigh, I didn’t expect the legend of our ancestors to be true.”

Shua --

A white-faced old man with a goatee stood in front of Su Yu in high spirits.

He sized up Su Yu, who was completely different from them, and said leisurely, “The ancestor said that there will be a day when someone from a foreign civilization will come here and take away the things that the ancestor left behind. The ancestor predicted everything like a god.”

A faint light flashed in Su Yu’s eyes. “Oh? May I ask who the ancestor is?”

“The ancestor of the White Sun race, the White Emperor!” The old goat-like man’s eyes shone brightly.

Su Yu shook his head gently. “I’ve never heard of it.”

He had only heard of the Dark Moon race and had never heard of the existence of the White Sun race.

The Dark Moon race and the White Sun race were the exact opposite races regardless of their name or skin color. He was not sure if there was any special connection between them.

“It’s normal that you’ve never heard of it. Even we don’t know what kind of person the white emperor is,” the old goat-like man said slowly. “However, the things left behind by the white emperor are absolutely true. He warned his descendants that if there was a day when an outsider came to take it, they must hand it over and not keep it in their hands.”

Was that so? Why did it not sound like a good thing?

But since he was here, he naturally wanted to take a look.

“You mean, you want to give that thing to me?” Su Yu asked.

The goateed elder nodded slowly. “That’s right. We will abide by the white emperor’s last words.”

Someone had given him something the moment he arrived. Hehe, that was not bad!

“Lead the way!”

The goateed elder led Su Yu onto the island.

The many members of the White Sun clan on the island looked at Su Yu, an unfamiliar race, with their eyes wide open.

Su Yu replied with a faint smile.

Led by the Goateed Elder, Su Yu arrived at the central square of the island.

A snow-white stone that was as tall as a man was placed in the middle.

In front of the stone was a huge censer, and there was an endless stream of creatures coming to pay their respects.

“You’re not talking about this stone, are you?” Su Yu was slightly surprised. He really could not see through the situation inside the stone. There was a mysterious force that affected his line of sight.

The goateed elder nodded slightly. “That’s right. That is the divine stone of our White Sun clan. The White Sun Stone was also left behind by the White Emperor.”

“Are you really willing to give it to me?” Su Yu asked again.

The goateed elder stroked his beard. “As long as you can carry it, you can naturally carry it.”

Carry It? Could it be very heavy?

Su Yu’s heart stirred slightly. He walked to the White Sun Stone. Dragon scales appeared on both of his arms, and a powerful law surrounded his body. He used all the strength in his body to hug the white sun stone.

Unexpectedly, it was not as heavy as he had imagined. In fact, it was very light.

A hint of coldness flashed across the corner of Su Yu’s mouth.

Even without turning his head, he could hear what the goateed old man was thinking.

Or rather, he had heard it from the very beginning!
