

Nine-Dragon 1861

Chapter 1861 The White Emperor Puppet

“You can’t lift it. It can be very heavy, or it can be that you don’t have the qualifications to lift it.” Goatee stood with his hands behind his back and looked at Su Yu indifferently. The corners of his eyes were filled with a strange look.

Little did he know that his mental activities had been completely exposed to Su Yu’s ears since the moment they met.

There was a problem with the daylight divine stone, and it was very problematic.

Su Yu easily picked it up, effortlessly.

By the time he ‘realized that something was wrong’, it was already too late.

A large amount of dense light mist suddenly shot out from the white sun stone, instantly enveloping su yu within.

Without waiting for Su Yu to react, the dense light mist transformed into a cage, trapping him within.

The space of the cage was extremely small, and it was extremely sturdy. Su Yu tried to tear it apart with the body of the double-crowned king, but the light mist cage did not budge at all.

“There’s no need to waste your energy. Creatures of the outer space civilization, this is a restriction left behind by the white emperor. It’s specially designed to restrain the outer space experts. Even if the triple crowns are trapped, they won’t be able to do anything, let alone a mere overlord like you.” The goateed elder revealed his true appearance, “It’s nothing.”

Su Yu, who had been “Accidentally tricked”, had a gloomy expression. “You Lied to me?”

Hualala --

A few daylight warriors who had been lying in ambush surrounded Su Yu and surrounded him.

The goateed elder said disdainfully, “Our ancestors once said that the creatures of the extraterrestrial civilization are extremely cunning. If someone asks for the daylight stone, they can take it. Now, it seems that the creatures of the extraterrestrial civilization are nothing more than that.”

Su Yu gritted his teeth and said, “We have no enmity. Why did you lie to me?”

His face was filled with anger and confusion.

The goateed elder said indifferently, “I lied to you because you’re still useful.”

Without waiting for Su Yu to ask, the goateed elder waved his hand and the group of White Sun tribe warriors immediately carried the cage away.

Su Yu struggled in the cage, but he was unable to escape.

He could only watch as he was carried away.

Of course, this was how the White Sun clansmen saw Su Yu. Only Su Yu himself knew what he truly felt.

“Oh? That's interesting. Other than me, they've captured many extraterrestrial beings who accidentally entered this place over the years.” Su Yu was willing to wait for his death because he heard what the Goateed Old Man was thinking.

It turned out that other than Su Yu, there were other beings captured.

In other words, the entrance to this place was not only that dangerous vortex passage?

In other words, the SAINTESS, whose whereabouts were unknown after coming to the arcane realm, could also be in this place?

That was why he pretended to be captured.

It would be best if he could find the Saintess and kill her once and for all!

Seeing that Su Yu was taken away, the goateed elder put back the White Sun Stone that had fallen to the ground, then, he bowed deeply. “Ancestor, please forgive our descendants. It is not that we want to go against your wishes, but that our descendants must think of a way to leave this space. Otherwise, we will be completely exterminated.”

“Those creatures from the outer space civilization are the power that will help us.”

..

The White Sun race warriors brought Su Yu deep underground.

It turned out that under the seemingly small island, an incomparably huge underground space had been opened up. The area was extremely vast, and with Su Yu's Three Crowns'soul power, it was impossible to see through it with a single glance.

According to preliminary estimates, it was at least half of the space where the White Sun tribe was located.

The entire underground space had been dug out.

Shuala --

As soon as they entered, they heard the sound of chains rolling. They looked in the direction of the sound and saw a dark moon creature in ragged clothes. His right foot was bound by a long chain.

The other end of the chain was tied to a fat white sun creature.

He held the chain in one hand and a long whip in the other, lashing out viciously at the Dark Moon tribe members.

Under his lashes, the Dark Moon tribe members trembled and unleashed the Dark Moon Divine Light. They continued to dig deep into the ground and open up this place.

Upon closer inspection, there were no less than ten thousand similar scenes!

Many of the creatures bound by the chains were from the Dark Moon tribe, and only a few were from other tribes.

But without exception, they were forced by the White Sun clan to open up the underground world.

At this time, the White Sun clan warrior who was carrying the cage took out the chains that he had prepared beforehand and put them around Su Yu's ankles.

Su Yu's heart moved, but he did not dodge and allowed them to latch onto him.

Only then did the White Sun clan warrior open the cage without worry.

"Fatty Luo, I've assigned you another new person." The White Sun clan warrior called out to the fatty from afar.

The Fat White Sun Warrior led the Dark Moon warrior over like a dog and sized up Su Yu, he grinned. "Ah Ha, another overlord from the outer space civilization. I was worried that I wouldn't be able to catch up with this month's progress."

"Hehe, then you must remember to treat us brothers to a good meal." The White Sun Warrior said with a cheeky smile.

Fatty Luo patted his belly: "Don't worry, I, Fatty Luo, have enough good stuff."

Saying that, Fatty Luo took out a small pocket and threw it over: "Go ahead and eat, don't stand on ceremony."

The four White Sun Race Warriors opened it and looked at it, their faces full of excitement: "Ri Rong fruit! Fatty Luo, you are so generous! Next time there will be good stuff, I will definitely give it to you!"

Su Yu secretly curled his lips when he heard that. Ri Rong fruit was a very common spirit fruit in the dark star civilization. Normally, only those below the god realm would be interested in eating it, because the true energy contained in it was very rare.

The four White Sun clan warriors were all bronze overlords, yet they were actually excited about this little thing.

It seemed that the resources in this cave abode world were quite scarce!

After the four White Sun clan warriors left, Fatty Luo grabbed one of the chains that bound Su Yu, he laughed and said, "Little baby, be obedient and work in my hands from now on. If you're obedient, you'll have food to eat. If you're not obedient, Hehe, I'll let you have a taste of the whip."

As he spoke, he lashed out with the whip. He wanted Su Yu to remember the taste of the whip so that it would be easier for him to discipline him.

The Dark Moon clansmen next to him shrunk their necks and sighed inwardly. Another unlucky fellow.

Fatty Luo was one of the few ruthless members of the White Sun clan. More than half of the creatures from the outer space civilization that fell into his hands didn't die of exhaustion or death in battle. Instead, they were tortured to death by him.

If he was not happy, he would hit others. Occasionally, when he was drunk, he would beat them to death.

Before him, Fatty Luo had already killed seven or eight creatures of the outer space civilization.

He was lucky that he was able to survive until now.

Looking at the weak human captives, he secretly pitied them.

However, that human was not afraid at all. Instead, he looked around leisurely.

When the whip was about to come, he turned his head and glanced at Fatty Luo indifferently.

Suddenly, Fatty Luo felt as if he had been ruthlessly whipped by someone. His fat body trembled violently and his palm went soft. The whip that he had hit fell to the ground.

“Pick up the whip. Don’t let anyone find out.” Su Yu glanced around indifferently.

“Yes, Master!” Fatty Luo’s eyes were still very bright, but he was sincerely respectful towards Su Yu.

“Don’t call me master, Call Me Human.”

“Yes, human!”

This was more like it!

The Dark Moon clansmen were shocked. “This, this is a divine art? No, it’s a soul secret art? How is this possible? Didn’t this chain seal you? Unless you’re a sovereign of Heaven and earth, you can’t break free from the chain.”

To prevent the captives from escaping, the chains that bound the captives were not ordinary chains, but special chains that suppressed divine power and soul power.

Only a supervisor with a chain in his hand could release part of the shackles through the chains.

It was precisely because of this that fatty Luo had the cultivation of a bronze overlord, yet he was able to control the silver overlord.

But what about the human in front of him? He was able to use a soul secret technique even when he was being suppressed. It was truly too astonishing.

“The Emperor of Heaven and earth? HMM, more or less.” Su Yu said indifferently. He was not the Emperor of Heaven and earth, but if the double-crowned emperor met him, he might not be able to escape successfully.

Su Yu looked at the Dark Moon clansmen, a thoughtful expression on his face.

The Dark Moon clansmen instantly felt that things weren’t going well. Once the matter of Su Yu controlling the inspector was leaked, it would definitely be disadvantageous to Su Yu.

If he were Su Yu, he would definitely execute Su Yu immediately and keep the secret forever.

“Wait! You Can’t kill me. If I die, it will cause the white emperor puppet to sense it.” The Dark Moon clansmen were quick-witted.

Su Yu's eyes flashed. "White Emperor Puppet, what is that?"

Only then did the dark moon clansman let out a sigh of relief. He hurriedly said, "Sir, you can't possibly think that the strongest person in the White Sun clan is that goateed old man, right?"

Could it be that it wasn't? The person with the strongest soul power in the entire island was this person.

"Three years ago, an expert with two crowns accidentally fell here. He chose to fight with that goateed old man. He did win, but he still became a captive! "Why?" "Because the white emperor puppet attacked!"

The Dark Moon clansmen looked around vigilantly, they lowered their voices. "The ancestor of the White Sun clan, the white emperor, may have fallen for countless years, but before he died, he refined two extremely special mechanical puppets for his juniors. They are extraordinarily powerful, and each of his palm can easily withstand a strike from the Triple Crown

"Three years ago, the two crowns lured the white emperor puppets out, which was why they were injured and captured."

A three crowns puppet?

Su Yu's eyes revealed a hint of surprise, but he wasn't the least bit surprised.

In the tunnel of the sixth vortex, the two crowns' puppets had already appeared, so what was so strange about the three crowns' puppets appearing again?

He just didn't know how much weaker these two puppets of the three crowns were compared to the real three crowns.

But to be able to easily crush the two crowns, they shouldn't be much weaker.

Su Yu secretly rejoiced. Fortunately, he didn't directly attack on the island. Otherwise, it would be troublesome if he attracted the two white emperor puppets.

At that time, Su Yu, who had completely exposed his cultivation, would definitely be restricted by more than just an ordinary chain. It was very likely that it would be a special chain for those above the emperor realm.

He had to be careful to avoid a disaster!

"Where are the puppets? Do they have their own intelligence?" Su Yu asked.

The Dark Moon clansman pointed to the nearby area 1. "They are near the underground space of the puppets. Monitor all the captives. Once they discover anything unusual, they will immediately appear."

So, they had intelligence?

That would be a bit tricky.

After thinking for a moment, Su Yu said, "I'll ask you two questions. First, how did you get in?"

The Dark Moon clansman did not dare to hide anything. He said with a blank look, "Actually, I'm not too sure either. But I've asked the others. We almost all fell into this place at a very special moment, which is the time of the full moon."

Chapter 1862 Search For The SAINTESS

The Black Moon was the only moon of the dark star civilization, and it reached perfection once a year.

At that time, the divine light of the Black Moon was the most powerful, and it was more than ten times stronger than a certain day of the year.

Therefore, most of the Dark Moon clansmen would cultivate on that day.

"On that day, I was chasing after an enemy, but the Black Moon suddenly cast a strange moonlight to envelop me. When I sensed it, I had already entered this space, and then I was deceived by that goateed old man and became a prisoner

"The others were almost all teleported on the day of the full moon."

He looked at Su Yu in surprise. Today was not the full moon, so how did he come to this space?

"Second question, did the moon worship sect's Saintess fall in a year ago?" Su Yu asked in a serious tone.

The Dark Moon Clansman was stunned. "Who? The Moon Worship Sect's Saintess? How is that possible?"

Seeing that Su Yu's gaze was gradually turning cold, the dark moon clansman immediately said, "Wait a moment! I have indeed never heard of the Moon Worship Sect's sect master that senior asked about, but if I were the moon worship sect's sect master and was captured by someone, I definitely wouldn't easily reveal my identity as a Holy Maiden, right?"

His words were quite polite.

That Holy Maiden probably didn't reveal her true appearance to others, so no one might be able to recognize her.

If that was the case, it would be a bit troublesome to find the Saintess herself.

Even if he brought the moon worship sect's holy stone that could detect the Saintess' identity.

As long as the SAINTESS touched it, it would continue to glow.

"It seems that I have to take a long time to find her." Su Yu thought to himself, then pointed at Fatty Luo's glabella.

The memories in his mind flooded Su Yu's soul divine crystal.

A year ago, a hundred people fell into this place and were all captured by the White Sun clan.

Fifty of them were women, and they were controlled by other inspectors.

And all the captives would be locked up in a huge cage every night when they were resting.

That was the best chance to find them.

Right at this moment, Su Yu keenly felt a powerful gaze rapidly shooting over.

Su Yu's heart trembled, and he immediately gave Fatty Luo an order in secret.

Fatty Luo waved his long whip and shouted, "New human, start working immediately!"

Su Yu immediately circulated his divine power with trepidation, digging underground.

Almost at the same time, a powerful gaze swept over, staring at this place for a few breaths before disappearing.

"That was close!" The Darkmoon clansman secretly wiped off his cold sweat.

"That was the white emperor puppet."

Su Yu nodded slightly.

He was thinking while digging underground.

From Fatty Luo's memory, he knew that the White Sun clan had been digging underground space under the island since a hundred years ago. Their purpose was to take refuge.

This was because in this world, besides the White Sun clan, there was another very dangerous race, the blood clan.

The blood clan did not know where they came from, but they had existed since ancient times. They had different forms, and they had the appearances of insects, fish, birds, and beasts.

The common characteristic was that they were extremely bloodthirsty.

Occasionally, small groups of blood breeds would attack the island and devour the White Sun clan. There would be a big attack every ten years or so.

Every time, the White Sun clan would push them back, but the losses were also very serious.

Once, all the islands in the world had White Sun clan creatures, but now, only the current island still had some survivors.

The rest were devoured by the blood clan.

In order to avoid disaster, the remaining White Sun clan began to excavate the underground space of the islands as a means to guard against the blood clan.

The only fortunate thing was that the last time the blood clan attacked on a large scale was three years ago.

According to experience, the next time should be at least seven years later. There was no need to worry about being sent to deal with the blood clan.

In the past, the captives were used as combat strength.

Once the blood breeds attacked, the captives would be thrown out and let them deal with the blood breeds. They would be left to fend for themselves.

As night fell, all the captives were gathered by the inspectors and thrown into a huge cage.

Outside the cage, there was a row of houses lined up side by side. It was the cave abode where the inspectors lived. The interior was rather luxurious.

At this moment, in Fatty Luo's mansion, his hands were naturally hanging down. He stood very respectfully at the side.

Su Yu was leisurely sitting on the armchair, erasing part of the memory of a female captive that was summoned by Fatty Luo.

"No." Su Yu took back a moon-shaped stone from his hand.

He asked Fatty Luo to use the name of the inspector to summon the female captives that had entered in the past year one by one.

He had already summoned ten of them, but none of them were the same.

There were still forty left.

"Let's go again..." Su Yu said.

The Dark Moon clansmen at the side, they bowed and said, "Master Yu, we can't continue to summon them. The captives are all handled by their respective supervisors. The supervisors of these ten captives have a good relationship with Fatty Luo, so it's fine to summon them. However, the other supervisors aren't so easy to deal with, especially the BA sisters. They have always disliked fatty Luo. If this continues, the three of them will definitely stop them."

In Fatty Luo's memories, there were indeed the BA sisters.

Not only were they powerful, they were also the direct descendants of the Goateed Elder. No one could afford to offend them.

Fatty Luo had once unintentionally provoked them and was crippled by them until he could not move.

"Indeed, we can't continue to summon female captives." Su Yu agreed.

The Dark Moon clansman heaved a sigh of relief. He was terrified by Su Yu's bold and reckless actions.

Fortunately, he had restrained himself.

"I should have gone to all the inspectors," Su Yu said calmly. "Let's go. First, bring me to meet the three Ba Sisters."

Ah? The Dark Moon clansman's legs went weak.

Crazy! He must be crazy!

The eldest of the three Ba Sisters, Ba Yue, was an Emperor of Heaven and earth. Wouldn't he be courting death by looking for him?

"Yes!" Fatty Luo held onto two chains and dragged the unwilling Dark Moon clansmen over.

However, unexpectedly.

Before Su Yu could make a move, the entire underground world suddenly sounded an extremely intense alarm.

At the same time, almost all the inspectors rushed out of the room. Their expressions changed drastically as they shouted, "All the captives, get ready for battle."

The quiet underground was like an exploding pot of ants.

The captives were quickly released from the iron cage and handed over to their respective inspectors.

The tens of thousands of captives were quickly controlled and stood outside the cage.

Fatty Luo also led the two people outside under Su Yu's orders.

They saw three graceful and beautiful female inspectors each holding two female captives.

Surprisingly, except for one female captive, all the other captives were single-crowned emperors!

The female supervisor in the middle was even holding a male captive of a double-crowned emperor!

The Dark Moon Clansman said in a low voice, "The one in the middle is Ba Yue, the eldest of the three sisters. She is the most powerful and has the level of a single-crowned emperor. The one on the left is Ba Feng, and the one on the right is Ba Shui. They are all half-step emperors."

The three of them, together with the captive they controlled, were a force that could not be underestimated.

Su Yu's gaze was fixed on the female captive who was the only peak overlord.

She was dressed in a gray robe, and her head was deeply lowered. Her face could not be seen clearly.

But for some reason, her heart inexplicably palpitated.

"Who is she?" Su Yu stared at this woman. Could she be the Saintess?

The Dark Moon clansman followed his gaze and immediately said, "She is Ba Yue's most trusted captive. Heartless! She is very powerful!"

"Oh? How Powerful?" Su Yu said thoughtfully.

The dark moon clansman said, "I don't know the specifics, but Ba Yue is far better than the other inspectors every time. Half of the credit goes to heartless! "It is said that her true strength is very likely above that of the double-crowned King!"

"Moreover, other than that double-crowned king, she is the only captive who was personally subdued by the White Emperor Puppet! I heard that she even injured the white emperor puppet, which made the people of the White Sun clan very angry."

Injured the white emperor puppet? Su Yu narrowed his eyes slightly.

The Saintess of the Moon worship sect had the power to restrict the moon worship sect master, so she must have something to rely on.

What did she rely on? It must be an unknown power!

The possibility that this woman was a SAINTESS was extremely high!

While gazing deeply at this woman, Ba Yue's eyes were sharp as he said, "The blood breeds are attacking. All the captives, get ready for battle!"

She had a head of smooth golden hair, a straight and slender body, and a pair of dreamy blue eyes that were filled with coldness and profundity.

At this moment, she was scolding fiercely and valiantly.

"All inspectors, lead the captives into the sky above the island to meet the enemy."

She took two powerful captives out of the underground space first and appeared above the island.

Su Yu and the others followed closely behind.

The Dark Moon clansmen looked relaxed, they said disapprovingly, "Don't worry, master Yu!"! The blood breeds only launched a large-scale attack three years ago. According to history, it would take at least seven years to gather a large-scale attack again. Right now, it should only be a small-scale sneak attack. Perhaps we won't need to go on stage to finish off the blood breeds."

"Is that so?" Su Yu's soul was far stronger than an ordinary person's.

His gaze swept into the depths of the sky, and his gaze changed slightly.

In Fatty Luo's memories, a thousand blood breeds and below were called small-scale disturbances. More than 10,000 would be considered a medium-scale attack, and more than 100,000 would be a large-scale attack. However, Su Yu could roughly sense the number of blood breeds, there were a total of 100,000 blood breeds.

Chirp --

A sharp screech suddenly sounded in the sky above the island. A Blue Bird flew high into the sky as if it was warning something.

"It's the Blue Bird. The Blue Bird is a warning of a large-scale attack!"

"Is there a mistake? A large-scale attack by the blood breeds just happened three years ago!"

The Dark Moon Clansman was dumbfounded. His pupils shrunk into a needle as he said in a trembling voice, "Impossible, there must be a mistake! There must be a mistake!"

The White Sun clansmen had raised three kinds of birds all year round.

White, red, and blue!

They had extremely strong senses towards the blood clan.

When there were less than a thousand blood clan members, the white birds would break through the air and cry.

When there were more than 10,000 blood clan members, the red birds would break through the air and cry.

The most quiet was the blue birds. There were very few cries unless there were more than 100,000 blood clan members attacking.

At this moment, the blue birds were crying in a hurry.

Hearing the chirping, the captives, the inspectors, and the members of the daylight clan who looked up into the sky all fell into deep panic and disbelief.

It had only been three years, and it was another large-scale attack?

It was absolutely impossible!

Chapter 1863 The Life-Killing Sword Appeared

Shua --

The goateed old man appeared in front of everyone and stared at the Blue Bird with a solemn gaze.

“Everyone, don’t Panic!”The goateed old man’s tone was low. “The other islands have raised messenger birds. A blue bird flying doesn’t mean anything.”

Even though the other islands no longer had the Bai Ri tribe.

However, the Bai Ri tribe members would go there regularly to feed the messenger birds that lived above them.

In the past, when they were sure if there was an attack from the blood breeds, they would infer from the reactions of several islands. Occasionally, one or two birds flying didn’t mean anything.

It seemed to be responding to his words.

Chirp --

At this moment, on an island not far away, a blue shadow rushed into the sky and chirped rapidly.

Not long after, the Blue Shadow on another island also shot up into the sky.

In the time it takes half an incense stick to burn, blue birds flew out one after another from the other islands and cried out one after another in the sky.

The Goateed Elder’s expression finally changed drastically and became extremely unsightly.

The members of the White Sun clan were also completely flustered.

Why? Why did this happen?

After three years, the blood clan had once again gathered a large number of troops. The overall situation had been invaded?

This was illogical!

Three years ago, they had wiped out more than half of the blood breeds. How could the other party possibly gather more than 100,000 blood breeds?

However, the Blue Bird’s report was without a doubt!

They changed their decision!

The goateed elder shouted, "The ordinary members of the White Sun clan have all entered the underground world to take refuge! The White Sun clan warriors are ready to face the battle! The inspectors will lead the captives in front and the Warriors in the back!"

"F * ck! We are so F * cking dead this time!"

"Sigh, we dodged a disaster three years ago. This time, we are definitely going to die."

"I Hate Your White Sun clan!"

The captives were the first to curse. This damn race did not treat them as living beings at all. In peacetime, they would dig underground safe rooms, and in dangerous times, they would let them face the enemy.

The anger of hatred was directed at the White Sun clan members.

Following that, the sound of whips rang out one after another, and a series of painful screams pierced through the sky.

The Goateed Elder's expression was indifferent. "Since you are captives, you should have the self-awareness of captives. Send them to the battlefield!"

With an order, under the control of the supervisor, all the captives were sent to the forefront of the battlefield.

After that, it was the warriors of the White Sun clan.

It was the warriors of the White Sun clan's turn to fight after making the captives into a buffer zone to stop the attacks of the blood clan.

Su Yu's eyes turned cold. The actions of the White Sun clan were really decisive and ruthless.

However, the White Sun clan was thinking too much to make him a sandbag in the buffer zone.

Under his order, Fatty Luo led Su Yu and the Dark Moon clan members to the front line to welcome the incoming blood clan.

At this moment, one could already see the indistinct blood lines on the horizon with the naked eye. They were like the waves of a tsunami, surging forward.

Gulp --

The White Sun clansmen behind swallowed a mouthful of saliva, showing the anxiety and nervousness in their hearts.

Three years. Only three years had passed.

The White Sun clansmen were completely unprepared to deal with this great battle!

Boom Boom --

The rumbling sound of thousands of soldiers marching in unison was like the sound of thunder approaching from afar. It was like the beating of a war drum in the hearts of the people, torturing their wills bit by bit.

They were close!

They could already see a group of blood breeds that were over a thousand feet tall at the forefront.

They had different shapes. Some were like giant bulls, and some were like mutated hunting dogs. Their bodies were huge, and they were like a huge wall that was rapidly pressing down on them.

Behind them were the blood breeds that were gradually getting smaller in size. There were countless of them.

All of them were bursting out with astonishing devouring intent.

It's coming!

They were 30,000 feet apart!

There was no way to avoid a war!

“Charge!”The goateed elder shouted and ordered all the captives to charge forward to counteract the powerful momentum of the other party.

The inspectors released part of the seal one after another and held the other end of the chain, retreating behind the White Sun Race Warriors.

This scene made the captives furious!

It really forced them into a dead end!

“Brothers, we’re all going to die anyway. Kill these White Sun Race Beasts!”Among the captives, a captive who had been held captive for twenty years and had experienced two large-scale attacks by the blood breeds roared and counterattacked.

However, before they could make a move, the inspectors who were controlled gently squeezed the chains and blew them into a cloud of blood mist on the spot.

The goateed elder said indifferently, “Retreat, die, and advance. Perhaps you can still live.”

His cold words frightened all the captives who were ready to change sides at the last minute.

The longer a creature lived, the more tenacious their will to survive.

Even if there was a glimmer of hope, they would not give up.

The blood breeds were indeed extremely dangerous, but what if they were lucky enough to avoid a calamity?

The Goateed Elder’s eyes flashed, and he took the opportunity to shout, “I can promise that those who have rendered meritorious service this time will have the opportunity to remove their status as slaves and become one of us.”

As soon as these words were said, it immediately stirred up a thousand waves.

But before the goateed elder could say the specific requirements for meritorious service, the blood breeds were already close at hand.

In order to survive and to render meritorious service, the captives' fighting spirit was high. They roared and charged out.

"Kill!"

Tens of thousands of captives charged out in an instant.

The distance of tens of thousands of meters was just a blink of an eye for them.

Boom --

The two sides collided in an instant.

In an instant, a large number of captives were crushed into minced meat and not even their bones were left!

The entire line of captives was pushed back by the blood breeds.

However, it did indeed slow down the blood breeds' offensive.

When they had retreated for 30,000 feet, the blood breeds' attacks had basically stopped.

However, the casualties of the captives were exceptionally tragic. More than 60% of the captives had died in the collision just now.

"Kill!"The Goateed Elder took the lead as a soldier and led the White Sun clan's warriors to take the opportunity to attack.

Streams of innate white light interweaved together like daylight and instantly destroyed many blood breeds, leaving a large gap in the surging blood breeds.

The White Sun race's combat strength was not weak!

The white light similar to the Black Moon divine light was even more powerful, possessing the special ability to directly turn the enemy into nothingness.

Instantly, the White Sun Race Warriors and inspectors all joined the battlefield, and both sides engaged in a life and death tug-of-war in the sky above the island.

Meanwhile, the ordinary white sun race creatures successively hid in the excavated underground space.

There was a powerful aura guarding the entrance. It should be the two powerful white emperor puppets.

The battle was chaotic.

From time to time, some blood breeds were killed, some were captured and killed, and some were eaten by the white sun race warriors.

There was only one place that seemed very special.

Su Yu and the Dark Moon race members stood there motionlessly. The blood breeds that were charging at them seemed to have made a deal. They deliberately avoided Su Yu, and none of them dared to approach him.

If one observed carefully, one could understand that the blood clansmen that were passing by had a deep fear of the two of them.

Or rather, it was towards Su Yu!

The Dark Moon Clansman was shocked. At first, he was still extremely terrified, but after a while, he gradually adapted to this strange scene.

“What happened? Why don’t they dare to attack us?”The Dark Moon clansman asked in shock.

Su Yu had his hands behind his back, and his expression was calm.

The blood clansmen naturally didn’t dare to attack him. With his body that was filled with dragon blood, a ferocious beast like the blood clansmen should be afraid of him instead.

Unless a high-grade blood clansman attacked.

He stared at a place with calm eyes.

A slim woman and a middle-aged double-crowned king were bound by chains and were fighting the blood clansmen on the battlefield.

He was looking at that woman.

She was only a peak overlord, but she had a special hidden power that could destroy a large number of blood breeds.

On the other hand, the double-crowned king beside her was less than half as powerful as the woman.

“Power of faith! I Found You, Saintess!”Su Yu’s eyes were cold.

That familiar hidden power was very similar to the power of faith in the Divine Pond of the Moon worship sect.

Her identity was self-evident!

The Moon Worship Sect’s holy maiden!

The only existence that could restrict the moon worship sect master!

And the only existence that could see through Su Yu’s identity.

She must not be left alive!

At least, before he activated the Moon Worship Sect’s power and found the emperor’s killing sword, he absolutely could not let anyone become his interference.

He took a step forward and slowly walked towards the other party.

All the blood breeds along the way automatically made way. Even if they were fighting the White Sun clan and the captives, they automatically made way, afraid of getting close to him.

The strange scene gradually attracted the attention of many people.

Including the Goateed Elder.

“What’s wrong with that person? Why don’t the blood breeds dare to attack him?”

“Strange! What does he want to do if he doesn’t kill the blood breeds?”

Under the attention of many people, Su Yu walked within a thousand feet of the woman.

The woman seemed to have sensed something and looked over. Under the gray robe, she couldn’t see her face clearly, but she could feel her slightly surprised gaze.

“Let’s fight together!”The woman said in a hoarse voice and threw herself into the battle.

Su Yu stood with his hands behind his back and said indifferently, “I’ve been looking for you for a long time, Saintess of the Moon worship sect.”

He did not have the slightest intention of attacking.

“You are?”The woman’s entire body trembled, and under the gray robe, she showed intense excitement. “Moon Worship Sect Master?”

Su Yu did not admit nor deny it. A trace of killing intent flickered in his eyes.

It seemed that he had not found the wrong person!

“It’s fine as long as you are the one!”Su Yu pulled out the Shura Sword and said indifferently.

Although he wanted to kill the SAINTESS, he would not kill the innocent without asking clearly.

Since the other party was the SAINTESS, there was nothing to say.

However, just as he was about to attack, a shocking killing intent rushed out from the last of the blood breed army.

That killing intent was shocking, as if it gathered countless thoughts of killing.

Even Su Yu’s heart trembled!

The Goateed Elder’s expression changed drastically. “What a terrifying killing intent!”

He had never encountered such a terrifying killing intent in his entire life.

Su Yu’s eyes shone brightly!

The emperor’s killing sword!

Only a sword with such a deep killing intent could release a killing intent that could destroy the heavens and earth!

He turned his longsword and swept it in front of him.

He swung the heaven-cleaving sword, and a massive sword Qi that was hundreds of thousands of feet long cleared an empty area in front of him.

The shocking sword shocked the goateed elder and many inspectors who were fighting.

“What happened with that sword?”

“Amazing sword technique! This sword is comparable to the Emperor of Heaven and Earth!”

Su Yu’s eyes shone with a cold light. He took a big step forward and dragged Fatty Luo who was behind him away. They sped through the empty area that was littered with corpses.

As for the SAINTESS, she was left behind.

What was his goal? It was the emperor’s killing sword!

Since this sword was right in front of him, it didn’t matter whether he killed the Saintess or not. Otherwise, he would be putting the cart before the horse!

“Stop him quickly. He actually dragged the examiner away!”

To be more precise, he dragged the examiner away.

The chains that were supposed to bind the examiner were useless at this moment.

Chapter 1864 Space Folding

The BA sisters were the closest. They could not help but shout angrily, “Luo Huansheng, subdue him immediately!”

However, just as they said that, the chains in Ba Yue’s hands also changed.

The chains that were supposed to tightly bind the woman suddenly lost their suppressive power.

The gray-robed woman immediately broke free of the chains and ran towards the terrifying killing intent. She let out a long breath, “Luckily, I’ve waited for this moment.”

“You!” Ba Yue stared in disbelief at the chains that had broken free from her palm. An extremely obscure power swirled around her palm.

She did not know when this obscure power had invaded her palm.

When she wanted to suppress the gray-robed woman, this power suddenly flared up, giving the gray-robed woman a chance to escape.

“Quickly get the White Emperor puppet to act. We can’t let her escape!” Ba Yue knew how powerful and useful this woman was. How could she bear to let her go?

The Goateed Elder’s expression changed continuously, but he did not attract the white emperor puppets.

“Father, she’s about to escape!” Ba Yue said anxiously.

The goateed elder said solemnly, “Now is not the time to care about one captive. The two white emperor puppets are the last line of defense to protect our clansmen. We must not leave without permission. Otherwise, we might really face the danger of the extermination of our clan.”

At this moment, the white emperor puppets were protecting the entrance to the underground world. If one of them were to chase after the gray-robed woman and the vampires took the opportunity to invade the underground world, the consequences would be unimaginable.

“But...”Ba Yue was extremely reluctant to leave.

“There’s no buts! As long as she doesn’t escape from this world, wouldn’t it be fine to capture her and bring her back?”The goateed elder blasted a huge vampire and reprimanded in a stern voice.

Ba Yue could only watch the gray-robed woman escape in silence, helpless.

Su Yu also noticed the Saintess’ actions and narrowed her eyes.

She was actually able to break free from the shackles. This was truly unexpected.

However, she was most likely waiting for such a chaotic battle to occur.

Otherwise, with the two white emperor puppets present, no matter how powerful she was, she would be unable to escape. Sooner or later, she would still be captured and brought back.

“Are you here for me or for the Emperor’s killing sword?”The saintess caught up to Su Yu and asked coldly.

The killing intent that Su Yu had displayed just now was so real. She was not a fool, so how could she not sense it?

“Originally, I was here for the Emperor’s killing sword and also for you. However, as long as there is a priority, I will first obtain the emperor’s killing sword first,”Su Yu said indifferently, not concealing his intentions at all.

This was because the other party’s intentions were very obvious. It was also for the Emperor’s killing sword.

“HMPH! The killing sword might not fall into your hands!”The saintess snorted coldly, casually killing a large number of blood breeds. She surpassed Su Yu with one step and left first.

Without waiting for her to be pleased, Su Yu, who was behind her, suddenly disappeared on the spot.

When he reappeared, he left the Saintess far away and appeared directly at the back of the blood breed army.

He saw a four-headed blood breed carrying a pool of thick blood.

In the blood was a three-foot-long sword made of white bones.

The surface of the sword was covered with meridians. Bright red blood flowed clearly inside. As the blood rolled, the meridians contracted.

In the middle of the sword hilt, there was a three-inch-long crystal gem embedded in it.

A beating heart could be seen within the gem with the naked eye!

An overwhelming killing intent enveloped the area.

Under such a killing intent, even if an ordinary person did not grovel, they would be infected by the killing intent and become a monster that only knew how to kill.

Even Su Yu could feel a strong killing intent coming from his soul. He was obviously affected by it. However, it was still within his control.

This was because he had the soul of a three-crowned king. Otherwise, he wouldn't dare to imagine what kind of existence he would be affected to become.

Shua --

The SAINTESS also rushed over. Immediately, she felt dizzy. She was about to be affected, but she quickly recovered.

A huge amount of power of faith was released from her body, expelling traces of killing intent that couldn't be seen with the naked eye from her body.

She stared at the malevolent ancient sword with joy in her eyes.

The killing intent was heaven-shaking, exuding the aura of the king of the sword. It was the legendary Emperor's killing sword!

It was indeed hidden in this secret realm!

Without thinking, the SAINTESS immediately flashed over and was about to pull the emperor's killing sword out of the blood pool.

Su Yu did not make a move. Instead, he became slightly vigilant.

It was rumored that the emperor's killing sword had its own intelligence. It would be strange if it was so easy to be controlled.

Sure enough, there was a sudden splash in the blood pool. A hand that was as white as jade reached out and grabbed the emperor's killing sword.

To be more precise, it was the meridians of the emperor's killing sword that were connected to the hand.

Splash --

The blood pool split apart and a middle-aged man that was as smooth as jade stood up from the blood pool.

His eyes had no light, and there was a soul in them, but he had no consciousness.

That jade-like body was extremely powerful. It should be the body of a double-crowned emperor!

The Saintess' expression changed immediately. "The Great Deacon of the Dustless Moon sect!"

Su Yu's heart skipped a beat.

He had been wondering why he had never seen a single corpse when so many people had died in the tunnel when he came?

But it seemed that not all of them had died.

At least the Great Deacon of the Dustless Moon sect hadn't died.

Instead, he was controlled by the Emperor's killing sword!

No one had ever been able to control the emperor's killing sword, and only it could control the living beings.

Under the control of the Emperor's killing sword, the Great Deacon of the Green Sky gripped the sword tightly and slashed at the attacking Saintess.

All of a sudden, a surge of blood-red sword energy swept across the surroundings.

In just an instant, the Saintess didn't even have the chance to fight back. She was ground into nothingness on the spot!

Her entire body turned into nothingness.

The alarm in Su Yu's heart rose. The power of this attack was no weaker than the full-strength attack of the three crowns!

With his current ability, he couldn't take it head-on unless he used the dragon-shaped necklace and Dongfang Xia sealed the defense inside.

However, Su Yu was extremely reluctant to let this move go to waste.

Taking a deep breath, Su Yu made an extremely shocking move.

He did not retreat, but suddenly turned his body sideways.

However, his side was actually flat, as thin as a piece of paper!

What was even more astonishing was that behind him, the piece of paper Su Yu folded from his waist, turning into a piece of paper that was half the height of a human.

Following that, the piece of paper that was half the height of a human continued to fold in half!

Then, it was folded in half again.

In a short moment, a living Su Yu was folded in half into the size of a speck of dust. Finally, when the blood-red sword Qi attacked, he turned into nothingness.

Puchi --

The blood-red sword Qi swept through the nothingness and swept out without any obstacles.

In an instant, tens of thousands of blood breeds were destroyed and killed by this sword.

Only 100,000 blood breeds were killed by a casual sword strike from the Emperor's killing sword!

The Great Deacon Qingtian's body was visibly dimmer, as if the essence in his body had been drained.

Every time the emperor's life-killing sword struck, it had to rely on the living beings it controlled.

The price was the lives of the living beings.

After killing two people with one strike, the emperor's life-killing sword whistled and flew away with the Great Deacon Qingtian.

Zizi --

Not long after they left, a strange scene appeared.

Black light filled the place where the SAINTESS had appeared, and the body of the SAINTESS reappeared from nothing.

She was completely unharmed, as if the person who had been destroyed was another person.

She turned around and glanced in the direction of Su Yu, frowning slightly. "Did he die so easily? I thought he was the sect master of the Moon worship sect, but it seems he wasn't."

Then, with a flash of light, she chased after the emperor's killing sword.

Little did she know that a speck of dust silently fell on her shoulder. It was the nihility Su Yu.

That move just now was the new wondrous use of space that Su Yu had comprehended, space folding!

He continued to fold the space around him, eventually folding it into nothingness.

Unless the enemy's attack could destroy the nothingness, it wouldn't be able to hurt him at all.

At this moment, he landed on the Saintess' body and followed her to investigate.

The emperor's killing sword was unexpectedly powerful!

It could release the terrifying power of a triple crown if it occupied the body of a double crown.

He didn't dare to imagine how powerful it would be if it occupied the body of a triple crown!

It was much more difficult than he imagined to get this sword.

It was definitely not something that belonged to whoever found it!

Therefore, he stayed put and followed the SAINTESS.

However, this Saintess' divine skill was also out of Su Yu's expectations.

He was very sensitive to souls and could be very sure that the Saintess was definitely dead in that attack just now, and it was the kind that destroyed both body and soul.

In the end, she was strangely resurrected, and even her soul was restored to its original state. It was really out of his expectations.

It was not time reversal, but rather, it had a hint of su Yu's "Resurrection". As long as there was a trace of Aura left in the world, it could be used to trace the origin of the aura and resurrect the dead.

He really did not know how this Saintess appeared!

Su Yu finally understood where the moon worship sect master's fear of this woman came from.

It was difficult to completely kill her in body and soul, so what else could kill her?

Fortunately, he didn't make a move just now. If he did, it would be difficult to end the fight.

The saintess, who he thought could be killed easily, was actually so difficult to deal with.

He restrained his energy and followed the SAINTESS quietly.

The SAINTESS was very skillful in using the power of faith. She could use it as a divine spell in battle and leap at a high speed.

Although the great deacon of the Green Sky walked very fast, he didn't leave the SAINTESS behind.

After flying for half a day, he finally arrived at the other end of this world.

It was a world with a bloody glow shooting up into the sky!

Countless blood pools were embedded in the ground, and blood splashed everywhere. One after another, fresh blood clan members walked out of the pools.

They were arranged neatly, and there were at least ten million of them!

Compared to the one hundred thousand blood clan members he had sent earlier, they were like a drop in the ocean!

The Great Deacon of the Azure Sky held the emperor's killing sword in his hand and lay down in the largest pool of blood in the center, leaving only the emperor's killing sword in the pool of blood.

The Saintess stopped in her tracks in time with a hint of shock in her eyes. "Where did so many blood breeds come from?"

Su Yu, who was on her shoulder, was also extremely shocked.

If there really were so many blood breeds, how could a mere white Sun clan resist until today?

All of a sudden, Su Yu stared at the countless blood pools and came to a sudden realization.

"Dustless Moon sect, you guys have really done a great thing!" Su Yu secretly snorted.

The saintess stared at so many blood breeds and unwillingly glanced at the emperor's killing sword before carefully retreating.

When she completely left that space, she frowned and said, "Damn it, we finally found the emperor's killing sword, but there's nothing we can do! Those tens of millions of blood breeds, no matter how hard we try, they can't break through. What should we do?"

At this moment, a faint voice suddenly sounded in their ears.

"Why don't we join hands and try?"

The saintess turned pale with fright. "Who is it?"

Chapter 1865 They Hit It Off

Her expression changed. Someone had appeared by her ear and she did not notice it at all!

And that voice..

"It's You! Come Out!" The saintess shouted in a low voice.

She did not move at all, but her eyes quickly swept over, looking for Su Yu's position.

However, she could not sense even a bit of Su Yu's aura, as if he was not there.

"What if I don't come out?" Su Yu teased.

The Saintess was even more shocked. The voice clearly came from her right shoulder, but she couldn't sense his existence at all.

“Who exactly are you?”The saintess felt incredulous. The emperor's killing sword actually failed to take this person's life.

Even if the moon worship sect master came personally, it was impossible for him to be safe and sound!

“Hehe...”Su Yu chuckled and stopped teasing her.

A speck of dust floated off the Saintess's shoulder. Under her incredulous gaze, the Speck of dust folded into a complete black-robed man again and again.

The saintess immediately retreated ten thousand feet away with vigilance, her expression abnormally vigilant.

Su Yu stood with his hands behind his back and looked at her calmly. “Oh? You clearly have an immortal body, but you're still afraid of Me? I guess there's a limit to the number of times your immortal body can be used, right?”

Just like reviving from the dead, there was an innate limit that could only be used after a day had passed.

Otherwise, if she was resurrected indefinitely, who in the world would be able to subdue her?

“Then there is no need for you to worry. Why, are you not planning to kill me?”The SAINTESS became even more vigilant.

Su Yu said lightly, “Just as I said, I am cooperating with you.”

Cooperating? The Saintess thought about it.

After a while, she said seriously, “It's true that I can't subdue the Emperor's killing sword by myself, but can I do it with you?”

Su Yu shook his head gently and stared into the depths of the bloody light with a serious look in his eyes, “That's not it. With my power, unless I pay a huge price, I can't shake the Emperor's killing sword!”

“Then what's the meaning of your cooperation? It's just empty talk!”The SAINTESS was a little disappointed.

Su Yu smiled mysteriously. “We're not enough. What about the white emperor puppets? They have two white emperor puppets in their hands. They are a rare combat power.”

They? The saintess thought it was funny.

“Your thoughts are unconstrained. Forgive me for not agreeing with you!”The saintess shook her head and laughed. “I believe you've seen what the White Sun clan has done. They don't treat us captives as living beings at all. They only treat us as puppets. What right do you and I have to persuade them to help us seize the emperor's killing sword?”

“Moreover...”the Saintess no longer had any interest in cooperating. “The White Sun clan is scared to death of the blood clan. If they really had the determination to fight the blood clan, they wouldn’t have ended up in the pathetic fate of hiding on an island. It’s simply wishful thinking to borrow their strength.”

The corner of Su Yu’s mouth curled up into a confident arc, he said slowly, “Nothing in the world is absolute. They hide on an island because they’re still holding on to their luck. They’re lucky to be able to maintain the continuation of their race while enduring. What if they extinguish that trace of luck?”

The thought-provoking explanation made the saintess fall into deep thought.

Why did the White Sun clan not exterminate all the blood breeds, their greatest enemy that threatened their race, and fight to the death?

Firstly, they were intimidated by the cruelty and brutality of the blood breeds.

Secondly, they were not forced into a real desperate situation.

For many years, the White Sun clan was like a frog boiled in warm water. Their population had been reduced bit by bit until now.

If they had the courage to fight against the blood breeds at the very beginning, even if only a small portion of the Bai Ri tribe was left, they would have been able to reproduce and grow again in the endless time.

It was because they were not forced to the point where they had no choice but to go all out that they were gradually weakened. Now that they were cowering on an island, they no longer had the courage to fight.

Now, the blood breeds had exploded in an unprecedented manner in the dust less moon sect’s unexpected move. Their numbers were more than a hundred times that of the past?

If they attacked, the White Sun clan would have no chance of survival.

So, if they told the White Sun clan this news, what would the result be?

Would they still be at ease?

They would probably be in a mess!

The Saintess’s eyes lit up slightly. This method could indeed stimulate the White Sun clan to attack the blood breeds.

“It’s a good idea, but what makes you think that the White Sun clan wants to cooperate with US instead of letting the two white emperor puppets subdue us and make us continue to be slaves?”The saintess shook her head lightly, based on her understanding of the White Sun clan over the past year, they were definitely not good people.

If they really went back, they would only end up being captured again.

And the White Sun clan, who had seen their true strength, would still be controlled as casually as before?

It would be extremely difficult for them to break free from the chains of the White Sun clan.

“Hehe, I’m the only one who can make the White Sun clan leave this world. Therefore, they will definitely, definitely be willing to cooperate with me!”

The Saintess was immediately shocked and said, “Your Way to leave this world?”

“Of course!”

The saintess stared at Su Yu with a hint of surprise in her eyes.

She almost forgot that the black-robed man in front of her was the only one who came to this world before the full moon. Could it be that he really knew a way?

She was completely moved and said, “If you are willing to take me out, I can give you unimaginable benefits.”

As the Saintess of the Moon worship sect, she indeed had such qualifications,

“What I want is the emperor’s killing sword. Can you give it to me?” Su Yu said with a smile that was not a smile.

The Saintess’ face darkened. “This is an exception!”

“Hehe, so you don’t have enough chips.” Su Yu smiled faintly. “It’s better to stay here peacefully and help me get the emperor’s killing sword together. Then, we can talk about how to distribute it in the future.”

Whether or not they could subdue the emperor’s killing sword was still a question. It was still too early to talk about distribution.

“Alright! Anyway, it’s not the last moment. I don’t want to give up just like that.” The SAINTESS nodded. “Shall we return to the White Sun clan now?”

Su Yu said faintly, “There’s no rush. Let them exhaust some of their clansmen first. Only when they taste pain will they cherish the opportunity.”

The SAINTESS did not refute this point.

If they returned early and helped them repel the blood breeds, not only would the White Sun clan not be grateful, they would even subdue them and bind them into captives.

Only by making them lose more White Sun clan warriors and feeling the urgency of exterminating all the races would they be willing to cherish the opportunity to leave this world.

Su Yu and the Saintess had the same thoughts, and they did not have any sympathy for the White Sun clan.

When they treated the captives like dirt, don’t blame the captives for treating their lives like nothing.

They stayed behind and carefully investigated the nearby information. They even recorded many images of this place.

Half a day later.

When the entire world began to turn dark, the battle that lasted for an entire day gradually came to an end.

The ground was filled with the corpses of the vampires, but the corpses of the White Sun clan warriors were also piled up like a mountain, lying in a mess.

Many captives died along with them, including the captive of the double-crowned king, who was also killed by three extremely powerful blood clansmen in this battle.

The final victory belonged to the White Sun clan.

However, it was a pyrrhic victory.

The goateed old man's clothes were covered in blood, and his eyes were still tired and dim.

"How are the casualty reports?" The goateed old man asked in a hoarse voice.

Behind her were her two daughters, Ba Yue and Ba Feng.

The third daughter, Ba Shui, was dead. They watched helplessly as a powerful blood breed rushed into their midst and carried Ba Shui away. After that, all that was left was an unforgettable scream.

Ba Yue was still alive, but she was not much better. Half of her arm was gone.

Moreover, unlike the dense divine Qi in the outside world, she could absorb divine Qi to heal her injuries at any time.

This world was abnormally dry, and Divine Qi was extremely rare.

Like the emperors of Heaven and earth in the outside world, it was an extravagant hope for them to recover their arms with a single thought.

They could only rely on herbs with weak healing effects to slowly heal their injuries, and did not dare to waste even the slightest bit of divine qi.

Ba Feng was not much better either. His sister had lost an arm just to help her block that attack, but she was still injured to the abdomen, and fresh blood flowed endlessly.

Hearing that, Ba Yue held the latest wanted list in her hand, and her eyes were extremely gloomy.

"Out of the 60,000 warriors, only 20,000 are left. The remaining 40,000 have all died in battle!" Bai Yue said in a low voice.

Among the 20,000 surviving warriors, almost half of them were seriously injured.

To be precise, only 10,000 warriors could continue to fight, only 10,000!

They and the two white emperor puppets would be the last reliance of the 200,000 old, weak, women, and children.

The goateed elder trembled. Was this all they had left?

With the speed at which they were reproducing, it was difficult to guarantee that they would be able to nurture another 40,000 warriors in the next ten years.

At that time, there would be another large-scale attack by the blood clan.

No, perhaps it would be twenty years later!

The blood clan had organized two large-scale attacks three years apart. Presumably, the casualties would also be extremely tragic.

They had twenty years to recover a portion of their strength.

“How many healing spiritual items do we have in the Clan Treasury?” The Goateed Elder regained his hope and asked in high spirits.

Ba Yue was not so optimistic. “The healing resources we’ve plundered from the storage rings of the captives over the years have almost been used up. We only have enough for three thousand people. The remaining seven thousand people will probably have to rely on their physiques to slowly recover.”

With the density of the divine aura in this place, how many people could really rely on their physiques to slowly recover?

Many of the tribesmen would slowly die because of the increasingly serious injuries.

The Goateed Old Man’s eyes revealed a hint of sorrow. He sighed and said, “The priority will be given to the warriors with higher strength.”

The priority would be determined by the level of cultivation, not by the severity of the injuries.

This meant that those who did not get the medicine would die even faster!

“It’s all the fault of those two captives! If they were here, the casualties would not be so heavy!” Ba Yue pushed the responsibility to Su Yu and the Saintess.

With the strength of those two, they might be able to reduce the casualties of many clansmen.

At this moment, an indifferent voice suddenly sounded in the sky above the island that was filled with a gloomy atmosphere.

“Oh? The one who killed your warriors was obviously a vampire. I Won’t take the blame for this!”

However, a speck of dust emerged from nowhere.

If it wasn’t Su Yu, then who was it?

Ba Yue immediately became angry and filled with killing intent. “How dare you come back! I was worried that I wouldn’t have a place to look for you! Father, quickly summon the White Emperor Puppet!”

With the astonishing strength that Su Yu had displayed, only the white emperor puppet could completely subdue him.

Su Yu's expression was indifferent. He stroked the Buddhist bracelet and said indifferently, "Is that so? Don't you want to save your clansmen? I have a lot of resources in my hands. It should be enough for you to use for a hundred years."

Chapter 1866 Life Or Death

With the Moon Worship Sect Master's lifetime collection, there were plenty of resources for healing.

The goateed elder and Ba Yue were both delighted.

Ba Yue's eyes flashed, and he sneered, "I wonder how Luo did it. He actually didn't hand over your spatial storage item! However, it's not too late now!"

"Hehe..."su yu smiled meaningfully, "You guys can search my things, but can you find a way to leave this space?"

Instantly, the goateed elder and Ba Yue's expressions changed drastically.

Leave this space?

For countless years, had they thought about it?

Of course they had! And they had even tried!

Generation after generation of clansmen tried their best to leave this space, but they were disappointed again and again. In the end, they were in despair.

They had interrogated all the people from the outer realms who had accidentally entered this place, and the answer they received was that they had been summoned during the full moon and did not know the way back.

As time passed, they no longer had any extravagant hopes of leaving this place.

Now that they heard that a captive was confident that he had a way to leave, how could they not be excited?

"White Emperor Puppet! capture him!"The Goateed Elder was excited and immediately gave the order.

Two enormous auras shot out from the underground space in shock.

Su Yu enveloped them and said calmly without fear, "If I were you, I wouldn't be so rash. What if I erase the memories of the way to leave? Wouldn't that mean that the last glimmer of hope would also be cut off?"

Ba Yue couldn't bear to see a captive talking about conditions so high and mighty. He said coldly, "Father, don't listen to him. capture him first and then confirm the truth."

However, the goateed old man hesitated for a moment before shouting, "Stop for now."

Instantly, the two puppets'enormous auras vanished.

"Father!"Ba Yue said unhappily.

“Shut up!”The goateed old man’s eyes were calm as he berated. He then turned to look at Su Yu, his gaze was calm and deep. “Since you dare to appear before us, I believe you must have something to rely on. That something must be the method to leave, right? How can you make us believe that this method to leave is real?”

Su Yu’s expression was calm. “It’s very simple, because I’m the only creature from the outer realm that didn’t come here during the full moon.”

Hearing this, the goateed old man’s pupils constricted. “You’re not?”

The Dark Star Civilization’s full moon wasn’t strict, and it was affected by many things.

Sometimes it would be half a month, and sometimes it would be a month.

The people here were also unable to confirm whether or not the person came during the full moon, so the goateed elder naturally thought that Su Yu had fallen here during the full moon and didn’t interrogate him.

Now that the other party had said it himself, he was naturally surprised.

“What proof do you have? Who knows if you are lying to us?”Ba Yue was extremely unconvinced.

Su Yu crossed his arms in front of his chest and said disdainfully, “Proof? I don’t need to prove to you that you have no choice but to believe me!”

Ba Yue laughed coldly.

The goateed old man’s expression gradually darkened. “Outer realm creature, you are challenging my patience! Don’t think that just because you are a little stronger, I won’t be willing to kill you!”

Su Yu didn’t say a word. He casually threw out a few jade seals that had images engraved on them.

With a casual tap, all the jade seals cracked open, releasing large balls of light that projected a clear image in the sky.

The countless blood breeds gathered together. Countless blood pools of various sizes were still producing blood breeds endlessly.

The amount of blood breeds caused the goateed elder and Ba Yue to gasp in disbelief.

100,000 blood breeds had caused the Bai Ri clan to fall into the danger of extinction. 10 million..

There was no suspense. Even if they had another white emperor puppet, there was no suspense at all!

“That’s why I said that you have no choice but to trust me!”Su Yu said indifferently.

The goateed elder and BA Yue’s bodies trembled.

The former pondered for a long time and said, “Do you really have a way to leave?”

Su Yu said indifferently, "At least I can't think of a reason to lie to you in front of such a large number of blood breeds."

Since they were both dead, what could they do?

The goateed elder said solemnly, "Then what do you want?"

"To borrow the two white emperor puppets and bring you out of this space," Su Yu said with his hands behind his back.

"Impossible!" The goateed elder and Ba Yue refused in unison.

They were the White Sun clan's protective talismans. How could they hand them over to outsiders?

"Then you can just wait to die," Su Yu said indifferently before turning around and leaving.

Ba Yue's expression turned cold. "You're not allowed to leave! Stay here for me!"

She was about to make a move, but before she could do so, she was stopped by the Goateed Elder. His gaze flickered as he stared at Su Yu. "Let us consider it!"

Su Yu sighed, "I don't understand what you have to think about! Alright, you only have three days."

As he said that, he landed on the ground without any worry. He sat down leisurely on a roof with a nice view and bright sunshine.

At the same time, there was a flash of light beside him, and the female captive who had escaped also came to his side.

The two of them did not put the White Sun clan in their eyes at all. They were enjoying it openly.

Ba Yue gritted his teeth and could not wait to go up and imprison them immediately.

They actually dared to stay behind. Did they still put them in their eyes?

"Let's Go and gather the upper echelons of the White Sun clan for a discussion!" The Goateed Elder's mood fluctuated.

He looked at Su Yu and the other two and said, "In addition, serve the two of you well and do not neglect them! From now on, they are no longer captives but distinguished guests of our White Sun clan."

They came to the secret meeting room of the White Sun clan.

The higher-ups of the clan gathered together.

The goateed old man announced this matter to the public.

When they learned that there were still tens of millions of blood clan members waiting for the battle, everyone's expressions were abnormally ugly.

"Now, I want to hear everyone's opinions. Should we hand over the white emperor puppet to those two, or..." the goateed old man said, but he realized that he actually didn't have a choice.

So what if he didn't believe the other party? Extermination!

“Then what are we waiting for? Capture the other party and use torture to interrogate him!” A fierce white sun clansman said without hesitation.

But the other White Sun clansmen were much calmer.

At the critical moment of certain death, who would care about torture?

Moreover, the other party could erase this memory with a thought and perish together with everyone. What could he do? They could only watch helplessly and wait for the blood breed army to arrive.

At the moment, there was no other choice but to believe him.

The meeting was silent. The goateed elder sighed. It was indeed as Su Yu had said. What was there to consider?

They did not even have a choice.

“It seems that everyone has reached an agreement. Then, hand over the white emperor puppet to him in exchange for the opportunity for our White Sun clan to leave this dangerous world!”

On the bright and beautiful roof.

Ba Yue’s almond-shaped eyes were wide open as she stared straight at Su Yu, as if she was going to eat him up. She roared, “Say that again? When will you be willing to take us away?”

Su Yu rubbed his ears that were buzzing from the roar and said indifferently, “What’s the rush? If I can leave this space so easily, why would I bother waiting here?”

Ba Yue was so angry that his chest was rising and falling, and his fists were cracking.

On the other hand, the old man with a goatee was calm. This was not unexpected.

“Are you sure you can take us away after nine days?” The old man with a goatee asked.

Su Yu nodded seriously, “Yes, I should say the slowest is nine days. If we are fast, we can do it in five days.”

The goateed elder pondered for a long time before nodding slightly.

He handed over a white stone that was 90% similar in shape to the White Sun god Stone.

“This is the white emperor puppet’s control God Stone. Refine this item, and the white emperor puppet will listen to you.” The goateed elder said, “As for the other white emperor puppet, I’ll give it to you when you take us away.”

One Hand handing over the money, the other hand handing over the goods. Speaking of which, it was Su Yu who had profited, so he naturally did not have any objections.

“Deal!” Su Yu said.

Ba Yue was indignant. She snorted, “Also, you said that you had healing resources. Give it to me!”

She acted as if it was a matter of course. Clearly, she was used to being a supervisor.

Su Yu looked at her indifferently. "You want it? Fine, Beg Me!"

"How dare you!" Ba Yue glared at him.

Su Yu sneered and said, "Remember your current status. You are the one who needs me, not me!"

He did not have any good feelings towards this kind of ignorant person.

"You!" Ba Yue was slightly angry. To her surprise, after a moment of silence, she asked, "How do you want me to beg for resources?"

Oh? It was hard to tell that she was so cold to the captives and still had a lot of love for her clansmen.

Su Yu pondered and said, "It's very simple. Make a deal! Give me the remaining captives, and I'll cover all the injuries of your clansmen!"

"Deal!" Almost as soon as Su Yu said it, Ba Yue rushed to make the deal, as if she was afraid that Su Yu would go back on his words.

In any case, there were not many captives left, and they were all heavily injured, which was more troublesome than the injuries of the tribesmen.

Sooner or later, they would die, and they could still get some benefits by handing them over to Su Yu.

Su Yu nodded, "Deal."

Ba Yue was elated and rolled his eyes at Su Yu, "You Bastard, you're not bad!"

"Thank you for the compliment." Su Yu said indifferently.

Soon, the remaining 1,000 puppets were all standing in front of Su Yu.

He glanced around and was surprised to find that the Darkmoon clansmen who were initially removed were not dead.

He was extremely lucky to be able to survive with his little cultivation.

Right now, the captives were filled with resentment.

They stared at the White Sun clansmen, wishing they could bite them to death.

There were a total of 10,000 captives, and they were the only ones left. How could they not be angry?

When they noticed that Su Yu, a human, was sitting in the VIP Hall of the White Sun clan, the famous female captives in gray robes were on the left, and the famous supervisor Ba Yue was on the right.

They looked at Su Yu with contempt.

"Traitor!"

"Father to the thief!"

Su Yu said disapprovingly, "If I were you, I would shut up and wait."

Ba Yue smiled coldly, "Listen Up, all of you captives. From today onwards, he will be your master. From today onwards, you will no longer be under the jurisdiction of the White Sun clan."

Immediately, the captives' expressions changed drastically. They were filled with shock and disbelief.

The White Sun clan had released them. No, they had handed them over to Su Yu, who was also a creature from the outer realm!

Su Yu looked at them indifferently. "In other words, from now on, your life and death are in my hands!"

"Now, does anyone have anything else to say?"

Chapter 1867 The Great Enemy Has Arrived

The group of puppets looked at each other in surprise.

Those who were full of contempt and spoke rudely just now shut their mouths even more obediently.

It seemed that the situation had become a little delicate!

"Since there isn't any, then listen to me!" Su Yu glanced at them and threw out a jade seal without batting an eyelid, projecting a large number of images.

Tens of millions of blood breed soldiers were ready to attack. They were aggressive and could attack at any time.

Seeing so many blood breed soldiers, all the captives' faces changed drastically. All of them were pale, terrified, and shocked.

"Where did so many blood breed soldiers come from?"

"In the past, they were at most 100,000, but now... hundreds of times!"

Deep despair reverberated in their hearts like the ringing of a bell.

They had survived the large-scale attack of the blood breeds this time. They had thought that they were extremely lucky, but who would have thought that they would not be able to escape death in the end.

Among the tens of millions of blood breeds, who would be able to escape death?

"As you can see, if you are not reduced to the White Sun clan, then you will all be unable to escape death." Su Yu said with certainty, "Unless you are willing to listen to my orders, not only will you be able to keep your lives, but you will also be able to completely leave this world and be free forever."

These words immediately caused a commotion among the captives.

"Leave? How can we leave? The White Sun clan spent so much effort but still couldn't leave this place. How can you take us away?"

“Human, are you lying to us?” A half-step emperor asked.

Su Yu sat in the VIP seats and looked at them coldly. “With your current status as prisoners, do I have any reason to lie to you? Life and death are all within my control!”

The captives were stunned.

Right now, they were Su Yu’s captives.

“Then can you guarantee...” the half-step emperor’s captives asked again.

Su Yu interrupted him with a deadpan expression. “I won’t guarantee that everyone can leave alive. I only guarantee that I will bring those who are still alive with me.”

The prerequisite was that they could leave alive.

“Then what do you need us for?” The half-step emperor asked. “Don’t tell me that you want to fight against the tens of millions of blood breeds?”

Su Yu shook his head. “Of course not. Before the absolute difference in strength, letting you guys fight is just like a mantis trying to stop a chariot. I want you guys to do something else.”

It was not to fight against the blood breeds, but to let all the captives heave a sigh of relief.

After a pause, Su Yu glanced at their exhausted divine power. With a wave of his hand, all kinds of resources to recover divine power were placed in front of him.

Not only were the captives envious, Ba Yue’s eyes were also shining. If he was not afraid of his father’s presence, he might have pounced over to snatch them.

“Rewards for meritorious deeds, punishment for transgressions!” Su Yu said indifferently, “Those who do things passively do not need me to punish them. I will leave you in this space forever. There will be blood breeds to punish you! “But rewards, those who are active, and those who do meritorious deeds will get the resources to recover divine power.”

This time, the captives were completely excited.

It was the way of the emperor to pay attention to both kindness and power. If there was only punishment, it would be the same as how the captives treated the White Sun tribe. They would be filled with resentment and rebel at the last minute.

Only with kindness and mercy could they be willing to do things.

“Please instruct us, my Lord!” After learning that it was not too difficult, everyone let out a sigh of relief and even volunteered.

Su Yu’s eyes flashed as he looked at one of the dark moon clansmen who was rubbing his hands and was eager to give it a try.

However, his cultivation was too low, so he was pushed to the back by many people who volunteered, he stood on Tiptoe and shouted, “Sir, it’s me, I’m... Ah, don’t press my face... I’m... Don’t block me, I know you...”

Su Yu waved his sleeve and pulled this person out of the captive.

The Dark Moon Clansman was stunned for a moment, then he bowed and said happily, "Senior, it's my honor that you still recognize me."

"What's Your Name?" Su Yu asked faintly.

The dark moon clansman immediately replied, "Reporting to senior, I'm Wang Dahu!"

Dahu? He sized up his skinny body, which did not match the word dahu.

"En, Big Tiger, I now appoint you as the chief supervisor of all the captives. You have full authority to distribute the volunteers and convey the orders for me."

Ba Yue frowned and said unhappily, "To let a low-level creature like him do such an important thing, you might as well invite me!"

Some of the captives were also full of contempt and disdain.

"Sir, I used to be the peak master of the Heavenly Palace. I am very familiar with the management set. I believe that I will definitely be able to satisfy you!"

"I also volunteered. I was once the manager of the eighth cave abode under one of the ten great influences, the Luo Chen Hall Master of the Cloud Fog Divine Mountain. I believe that no one is more proficient in the management set than me."

The latter's background was even greater. It was actually one of the ten great influences, the Cloud Fog Divine Mountain!

On the other hand, Wang Dahu's low cultivation did not seem to be of any use.

Su Yu looked at him with a faint smile. "What do you say?"

He had chosen Wang Dahu because they were familiar with each other and could be considered trustworthy.

On the other hand, he did not believe that Wang Dahu had relied on luck to survive.

At that time, Su Yu had pulled out his sword and brought him and Fatty Luo into the center of the bloodlings.

Fatty Luo had died, but he was still alive.

It was impossible to say that he was not special at all.

Wang Dahu was in doubt. After gritting his teeth, he snorted, "What's so great about the Cloud Fog Divine Mountain? I'm from the Holy Land!"

The word holy land existed in almost all of the top ten forces.

The main altar of the Moon Worship Sect was also a holy land in the eyes of the moon worship sect disciples.

However, there was only one person in the entire dark star civilization who could call himself a "Holy land" without any prefix!

“Holy Moon Altar!”

The Guardian God of the dark star civilization, the mythical existence of a four-star civilization, the Dark King!

He lived in seclusion at the Holy Moon altar and did not care about the affairs of the world. Only when the dark star civilization was attacked by outsiders would he show himself.

The place where he lived was called the Holy Moon Altar, and there was another name for it in the mouth of the Dark Moon people!

Holy Land!

“Humph! Arrogant Dog, how dare you call yourself a member of the Holy Land? As far as I know, a member of the Holy Land should at least be a sovereign of heaven and earth!”

“Stop playing tricks here. If you’re a member of the Holy Land, I’m still the Dark King himself!”

Wang Dahu clenched his fist in anger. “I don’t have to lie to you! If you don’t believe me, you can take a look!”

He tore his shirt apart, revealing a huge mark on his chest.

A normal mountain mark surrounded by clouds could be seen, rising and falling along with his breathing.

A strange aura came from the mountain, as if it was a real mountain.

“Ah! The Sacred Moon Altar!”

“It’s the real aura of the Sacred Moon Altar!”The crowd exclaimed.

That mark, that aura, the creatures of the dark star civilization were familiar with it from their bloodlines.

Without a doubt, he was definitely from the sacred land!

Although Su Yu had expected it, he was also surprised by his identity.

He was actually from the Holy Land.

It was rumored that every member of the Holy Land was personally selected by the Dark King to go up the mountain.

He had even personally branded them.

Wang Dahua, who was only a small member of the Dark Moon clan with the cultivation of a bronze overlord, was actually a member of the Holy Land. This was really unexpected.

Su Yu’s eyes shone. How could a member of the Holy Land be teleported to this place?

There was something strange about it.

But now was not the time to ask. He looked around and asked, "Do you have any other opinions?"

The captives looked at Wang Dahu with a different gaze. They were more respectful than Su Yu.

"Since you don't have any opinions, then do as I say," Su Yu said calmly.

"Please instruct us, my Lord."

Su Yu looked at the resources on the ground and said, "Dahu, I will give these to everyone first to replenish a part of my God power. The rest of the resources will depend on whether you are willing to work hard or not."

Their resources had long been plundered by the White Sun clan, so how could they still have any?

The spiritual herbs that they had disdained in the past could become treasures in their eyes here.

One could imagine how excited they were when distributing the resources.

Ba Yue was also excited. Her eyes were red as if she was distributing her things, and her heart was bleeding.

After they were done, they waited for them to rest and recover some of their divine power, Su Yu then said, "What I want you to do is very simple. First, find out the latest movements of the blood breeds. Pay close attention to their every move. Inform Wang Dahu of the information at any time. Then, he will inform me!"

"Second, I want you to spread out on all the islands and look for some kind of stone door. If you find any stone door, inform me immediately."

He had gone back to search for the stone door that Su Yu had come from, but it had mysteriously disappeared as if it had never appeared.

He did not feel anything else.

If the stone door had always existed, there was no reason that the members of the White Sun clan would not have discovered it after so many years.

That stone door should have only appeared at the moment it was opened and then disappeared.

Letting a portion of the captives search for the stone door was to control the situation of the dustless moon sect at any time.

"That's All?" The captives were greatly surprised. These requests were simply too simple.

Su Yu shook his head slightly. "Of course not! You still have to spread the news and tell every living creature of the White Sun clan that the emperor's killing sword is in the blood clan army!"

Ba Yue's eyes flashed. "What's so difficult about that? Let me do it. Gather all the clansmen and tell them. As long as you're willing to give me all these resources, it's fine."

Her eyes lit up as she stared greedily at Wang Dahu taking back the remaining resources bottle by bottle.

Su Yu stared at her indifferently. "You can't tell them so clearly! What you want is to spread the news and let everyone know the inside story in a different way."

Even though they didn't understand Su Yu's intentions, they naturally liked a mission that wasn't difficult at all.

Over a thousand captives dispersed in a hubbub.

Part of them monitored the movements of the blood breed army.

Part of them searched for the so-called stone gate.

Part of them were in charge of spreading the news of the emperor's killing sword on the island.

As for Su Yu, he seemed to be enjoying the preferential treatment of the White Sun clan.

In reality, every nerve of his was tense.

Two days had passed. Wang Dahu, who had thought that he had gotten an easy job, was so tired that he was panting. He didn't even have time to rest.

This was because there were news from different captives almost every second. Most of them were related to the blood breeds.

"The number of blood breeds has increased by five million in two days!"

"The number of blood pools has increased by thirty percent!"

"There's no movement from the emperor's killing sword."

..

A series of information flew over like a piece of paper. The blood breeds were constantly expanding at an abnormal rate.

The goateed old man, Ba Yue, and Ba Shui had been by Su Yu's side for a long time. Hearing the news that was getting more and more serious, his mood also became more and more anxious day by day.

Chapter 1868 The Blood Breeds Besieged The City

"Su Yu, how many more days will it take for us to leave this world?" Ba Yue could hardly remain calm.

Su Yu nodded calmly. "Yes."

"Can we think of a way to bring it forward? Otherwise, if the blood breeds continue to grow, we will be in even more danger."

Su Yu did not think much of it. "Aren't the blood breeds now in danger? Tens of millions of them can exterminate us, but 15 million of them can still exterminate us. What's the difference?"

"What we should focus on now is not the explosion of the blood breeds, but when they will attack." Su Yu's eyes shone with a deep light.

The continuous stationing of troops was not without reason.

Their actions seemed to be under the control of the Emperor's killing sword.

However, what did the emperor's killing sword want to do?

If they really wanted to exterminate them, there was no need to continue stationing troops. They could simply command a million blood breeds and exterminate the Bai Ri tribe completely.

It was not like it was targeting the White Sun clan, Su Yu, and the others. Instead, it was like it was dealing with another extremely powerful threat.

But, who could it be?

Master Bao Kun, who was about to open up the world and come here?

It did not seem like it!

If that was the case, there was no need for so many powerful troops.

Master Bao Kun was powerful as a triple crown king, but he was not a match for tens of millions of blood breeds.

Who was the threat posed by the Emperor killing sword?

Amidst his chaotic thoughts, Wang Dahu suddenly sent a message.

A captive on an abandoned island sensed a spatial fluctuation. It seemed like something was about to appear.

Su Yu's gaze changed slightly. The Goateed Elder, Ba Yue, and Ba Shui were all stunned. Spatial fluctuation?

The space here was extremely stable. Where did the spatial fluctuations come from?

As for Su Yu, he had already disappeared from his original spot.

The Goateed Elder's eyes flashed. "Quick, let's follow him and take a look!"

The three of them followed him.

The SAINTESS was left pondering on the spot. She stared at the place where Su Yu had fought and was slightly lost in thought.

The next moment, Su Yu appeared on an island that had suffered a crushing defeat for hundreds of years.

Back then, this place was once one of the important breeding grounds of the White Sun clan. It had been destroyed by an attack of the blood clan. Only endless ruins remained, telling of the glory of the past.

Su Yu did not need to contact the captive. He was exceptionally sensitive to the power of space. He quickly sensed the fluctuation of space and teleported over.

"Greetings, sir!" The captive said excitedly.

Su Yu nodded and fixed his eyes. As expected, strands of spatial energy gathered on a book and condensed into a tiny vortex.

The vortex was slowly expanding!

Su Yu used his clairvoyance eye to look inside and indeed found the stone door he had come out of.

It was it!

It seemed that the door appeared randomly anywhere.

This should be the sixth door!

The dustless moon sect was about to completely open the vortex.

In less than two days, it should be able to completely open the vortex, much faster than expected.

It seemed like master Bao Kun had personally made a move. Otherwise, it would take at least five days to open the vortex.

Su Yu's eyes flashed, "Get Ready!"

The Goateed Elder and the BA sisters who followed behind revealed puzzled expressions.

"Prepared for what?" Ba Yue asked in surprise, "Does this spatial fluctuation have anything to do with the method of leaving?"

Su Yu nodded slightly, "Yes! But right now, we should be more concerned about the blood breeds. I think they might be preparing to launch an attack!"

Almost as soon as Su Yu finished speaking, Wang Dahu sent an urgent message.

"Senior, something bad has happened. The latest surveillance news says that all the blood pools of the blood breeds are shrinking rapidly! The Great Deacon of the Green Sky clan who was holding the emperor's killing sword appeared and was sitting cross-legged. The blood clan army became irritable and uneasy, and they could send out their troops at any time."

Hearing this, the Goateed Elder's expression changed drastically.

The Ba sisters' faces also turned pale.

They were finally coming.

They all turned their gazes toward Su Yu. How did he predict the future?

Of course, Su Yu wouldn't tell them the true origin of the blood clan.

This world was only so big. How could there be an endless stream of blood breeds?

They were probably inextricably linked to the six vortexes!

The vortexes killed those who entered. Their flesh and blood were absorbed into this world. In the blood pool, they were reconstituted as bloodthirsty creatures that specialized in devouring the White Sun clan.

In order to open the vortexes, the dustless moon sect forced tens of millions of creatures to fill the six vortexes.

Their flesh and blood were all transported to this place, which was why there were so many blood breeds of unimaginable levels.

“You continue to monitor this place. When the stone door appears, notify me immediately!” Su Yu instructed and immediately returned to the White Sun clan’s Island.

He walked casually on the island, listening to the conversations of the people in all directions.

“Did you hear? So it’s that thing called the emperor’s killing sword that’s controlling the blood breeds! How detestable!”

“Eh, you’ve heard this rumor too?”

“Yeah, I heard it from a warrior!”

“Oh, I heard it from a few captives having a sneaky conversation.”

“What a coincidence, you guys know about it too!”

Wherever Su Yu went, he could more or less hear the news of the emperor’s killing sword.

Now, it was already known by everyone!

After understanding everything, Su Yu returned to the roof and sat next to the SAINTESS.

“How is it?” The SAINTESS asked.

Su Yu said calmly, “Everything is ready, only the east wind is needed!”

His eyes were calm, as if everything was under his control.

The saintess stared at him and fell into deeper thought.

Time passed by bit by bit.

The people became more and more anxious.

Everyone knew that the 15 million blood breed army was ready to sweep the entire world like a flood at any time, exterminating all living things.

Even if they didn’t reward the captives, they were especially serious in gathering information.

Especially regarding the blood breed, the latest information came in almost an hour.

Wang Dahu was exhausted beyond words. He gritted his teeth and braced himself, methodically delivering the news to Su Yu.

At this moment, everyone’s hope was on Su Yu.

Only he could lead everyone out of this world, completely escaping from this place.

However, Su Yu didn’t do anything. He only seemed to be leisurely enjoying his last moments.

Even the old man with the goatee couldn’t sit still anymore.

“It’s been four days. has the exit still not opened?”

Su Yu didn’t say anything.

At this moment, dozens of messages were sent to Wang Dahu at the same time.

His face was as pale as a sheet of paper, and he gave out a despairing message with fear and trepidation.

“Senior! The Great Deacon of the Azure Sky has stood up with the emperor’s killing sword in his hand! He has ordered the vampires to move forward!”

Su Yu’s eyes flashed with a profound light.

He had been meditating for three days, and now he finally stood up slowly.

“Give the Order!” For the first time, he gave the order to everyone. “Except for the captives of the vampires who are under surveillance, everyone else, go to Maple Forest Island!”

Maple Forest Island was the island where the spatial fluctuations appeared.

The goateed old man’s face changed, “No! This white stone city has all kinds of restrictions left by the ancestors. We can still resist with this city. If we reach the abandoned island, we will lose the last barrier!”

Su Yu stared at him coldly, “In front of tens of millions of blood clan, that pitiful restriction is nothing! Listen to my order! Don’t make me repeat it again!”

The goateed old man was stunned for a moment before he gritted his teeth. “Those who belong to the White Sun clan, listen to his orders from now on. Completely destroy the island. Take everything that you can take with you!”

However, Su Yu said at this moment, “Wait! No one is allowed to take anything from the island. Other than the clothes on your body, put down all your belongings.”

What?

“Where are the resources?”

“Put them down!”

“Where are the ancestral treasures!”

“Put them down too!”

..

The goateed old man stared at the center of the island and said in a deep voice, “You can put down all the other things, but you can not take away the white sun stone left by the ancestor. You must not let the blood breeds defile that Stone!”

Su Yu looked at him indifferently. “Do you want to die or live? My orders are not to have any doubts, or you will bear the consequences!”

His cold warning made the goateed old man tremble in anger.

He couldn’t understand why he couldn’t take anything away.

What was Su Yu Thinking?

But since he had come this far, what choice did he have?

He could only trust Su Yu to the end.

He stared at Su Yu deeply. "Fine! I'll take the crime of disobeying the ancestors and listen to your arrangements. But if we can't survive this disaster, the one who will kill you in the end will not be the blood breeds, but me!"

They had given everything they had to believe in Su Yu, but if they could not get the answer they wanted, then he would kill Su Yu at all costs and avenge his clansmen who had died in vain!

"Whatever!" Su Yu said indifferently.

The goateed elder no longer hesitated. "All clansmen, put down everything in your hands and evacuate to Maple Forest Island! Don't hesitate at all!"

The White Sun clansmen might not completely listen to Su Yu's words, but the leader's words were respectful and respectful.

Even the spatial storage devices on their bodies were reluctantly put down.

Apart from their clothes, they did not take anything else from the island.

Following that, they left the last fort one after another and headed towards the unprotected Maple Forest Island.

On the island, the sturdy underground world that had been excavated for hundreds of years was also completely abandoned by them.

Ba Yue stood in the sky and looked at this scene with sadness. After generations of management, in the end, they had all given up.

Were they really wise and right to choose to believe in Su Yu?

While they were retreating, the blood breeds were charging at an unprecedented speed. Their target was extremely clear as they headed straight for this island.

Half a day later, a line of blood extended to both sides of the sky. An endless blood line came crashing down with a momentum that shook the world.

The Empty White Sun City was like dust in front of the surging waves. It could be destroyed at any time.

Standing on the Maple Forest Island, the White Sun clan and the captives who had all retreated watched that despairing scene with nervous expressions.

Such a huge blood breed was definitely not something they could contend against.

If they really fought, they would only die.

Rumble --

Everyone's ears were shaken by the blood breed's movements.

From far to near, it was as if they were stepping on the bottom of their hearts, causing their hearts to tremble uncontrollably.

Could they really survive?

Everyone's eyes revealed despair.

They couldn't see any possibility of hope.

This was because the blood breed had no intention of stopping. In an instant, they were approaching White Sun City.

Su Yu eyes deep: "I hope everything as I expected!"

Chapter 1869 Divine Stone Heavenly Might

Seeing the bloodlings approaching, everyone couldn't help but retreat.

It's over!

It's really over!

Some people had already closed their eyes and didn't dare to look anymore. Their minds were filled with the terrifying images of the bloodlings devouring them.

Many elderly, weak, women, and children couldn't help but cry.

The Goateed Elder and the BA sisters still saw the Hope Su Yu spoke of leaving. Their eyes were filled with the anger and killing intent of being deceived.

They had trusted the wrong person!

But slowly, the goateed elder realized that something was wrong.

An endless amount of blood breeds rushed to the isolated island where White Sun City was located.

In comparison, the isolated island was as small as a speck of dust. It was not eye-catching at all.

However, it was that small island that had actually blocked all 15 million of the terrifying blood breeds!

Yes, that's right!

The blood breeds had stopped!

The goateed elder could not believe his eyes, and the Ba sisters were also shocked.

Gradually, many white sun clansmen also noticed something strange, and they were extremely surprised.

"What's going on? Why did the blood breeds stop? Could it be that there's something special about Maple Forest Island that prevented them from seeing our existence?"

"I don't think so! If the Maple Forest Island really has such a special hiding ability, how could the bloodlings have discovered the people on this island and devoured them?"

"Then did the bloodlings discover us? But why didn't they come and attack us?"

The goateed elder looked at the calm Su Yu with a shocked gaze. The other party's expression was calm and calm, and there wasn't the slightest bit of abnormality.

It was as if everything was within his expectations.

“What do you know?”The goateed old man asked.

Su Yu shook his head indifferently, “I’ve only been here for a few days, what can I know? I just guessed something.”

“Guess?”The goateed old man felt incredulous and asked nervously, “Can you tell me the truth?”

“I don’t know the truth. I only know that 100,000 vampires can completely annihilate the White Sun clan. Why send 15 million soldiers?”Su Yu said slowly, “Perhaps the real target of the vampires has never been you White Sun clan people, but something else.”

It seemed that Su Yu’s guess was completely accurate.

The tens of millions of vampires had long discovered the White Sun clan people on the Maple Forest Island.

However, they turned a blind eye to it. Instead, they gradually formed an encirclement and surrounded the entire Bai Ri City.

Seeing this scene, the goateed old man completely believed it. He said in shock, “They want the Bai Ri Clan’s last stronghold island? How is that possible? Is there anything on the island that is worth them paying such a price to obtain?”

Su Yu’s eyes revealed a deep gaze. “The answer will be revealed very soon.”

Hualala..

Countless blood breeds completely poured into the city. Like a tsunami, they destroyed everything along the way.

The underground space that had been created by several generations was completely destroyed in the blink of an eye.

All the bright and beautiful buildings were reduced to ashes.

All the blood tides surrounded the central square of the island from all directions.

That place was the Holy Land of the White Sun clan. It worshipped the White Sun divine stone left behind by the ancestors of the White Sun clan.

For millions of years, the White Sun Divine Stone did not budge in the slightest, accepting the worship of the clan members.

They prayed to it, hoping to receive the protection of their ancestors.

However, their illusory wishes were not heard by their ancestors, causing the White Sun clan to gradually decline until it was on the verge of extinction.

The divine stone worshipped by others did not change at all.

Until the blood tide reached within 300 meters.

A shocking scene appeared. The White Sun god Stone actually moved on its own!

An incomparably dazzling white light suddenly erupted from the White Sun god Stone, as if it was a blazing sun within reach.

The originally bright and dazzling world was now so bright that ordinary people were unable to open their eyes. They all closed their eyes in pain.

Even a peak overlord was unable to withstand such an extreme white light and closed their eyes in pain.

Only a few people could endure and see the truth of the island through the white light.

The goateed old man was one of them, and Su Yu was one of them.

“The ancestor has appeared!” The goateed old man’s eyes were suffused with a layer of green light. He could clearly see that the White Sun god Stone flew up by itself and circled in the air.

The powerful white light that was continuously released had destructive power.

All the blood breeds that invaded the island were instantly burned by the white light until not even dregs remained.

The island was instantly emptied.

There were no less than 80,000 blood breeds that died instantly!

The Goateed Elder, the Ba Sisters, and the members of the White Sun clan were overwhelmed with shock.

They killed 80,000 blood breeds with just a casual attack? Was the White Sun Divine Stone that powerful?

But why did it never show its spirit to protect them, the members of the White Sun clan?

One wave of blood clansmen was exterminated, and the other wave of blood clansmen poured in like a tide, rolling towards the White Sun Divine Stone.

But just as they were about a thousand feet away, the White Sun divine stone once again burst out with an incomparably terrifying white light, destroying the entire island’s blood clansmen, not a single one left.

But there were so many blood clansmen, a mere 80,000 blood clansmen were like a drop of water.

A drop was evaporated, and countless blood clansmen poured in.

Thus, under the absent-minded gazes of all the White Sun clan members, the White Sun God stone emitted wave after wave of white light, destroying all the blood breeds that attacked.

Both sides seemed to have fallen into an endless pattern.

The entire process lasted for an entire day.

When night fell, there were only less than five million blood breeds left out of the 15 million blood breeds.

The rest of the blood breeds were all purified by the terrifying god stone with white light.

The Goateed Elder was already numb. His eyes were filled with absent-mindedness and deep thought.

At this moment, he had no doubt about Su Yu's words.

Those blood breeds were really here for the White Sun Divine Stone!

For many years, the blood breeds had attacked all sizes in order to find the White Sun divine stone.

At the same time, they had eaten their white sun clan.

It could be said that it was the existence of the White Sun Divine Stone that caused their white Sun clan to gradually decline.

He finally understood why the ancestor had left a last message telling them that they had to give the White Sun divine stone to the creatures of the outer realm.

Because the ancestor knew from the beginning that this divine stone would bring endless trouble to the White Sun clan.

The funny thing was that in order to deal with the trouble, the White Sun clan not only did not increase the number of divine stones, but all the creatures from the outer realm who came here were imprisoned to solve the trouble.

The result was that the disaster of the blood clan became more and more intense until today, when the clan was about to be exterminated!

Going against the last words of their ancestors, they received a bloody lesson!

“So that's how it is, so that's how it is...”the goateed elder sighed softly.

He was wrong from the start!

If he had given the White Sun divine stone to the extraterrestrial creatures..

Thinking up to this point, he felt a little regretful, but there was still a trace of luck to comfort himself.

So what if he gave it to the creatures from the outer realm?

He couldn't leave this place with the divine stone. In the end, the blood breeds would still attack on a large scale. What was the difference?

Thinking up to this point, he no longer felt guilty. He stared at the Divine Stone of the day and unleashed its power.

“I really didn't expect that the item left behind by our ancestor could actually restrain the blood breeds. Looks like our crisis this time can be resolved.”The goateed elder stroked his beard and said.

Su Yu stared at the White Sun Divine Stone and shook his head slightly. “I'm afraid it won't be as you wish.”

He was not as optimistic as the Goateed Elder.

Although the number of blood breeds had been greatly reduced, the time between the blinding white light released by the White Sun Divine Stone was getting longer and longer!

Initially, when the blood breed was close to a thousand feet, it would be able to release a blinding white light.

Now, the blood breed only had the chance to release it once when they were close to a hundred feet.

It could be seen that the White Sun divine stone was gradually losing its strength.

As expected, when the next morning.

When the blood breed was within a hundred feet, the White Sun Divine Stone could release an exterminating white light.

Moreover, the power of the white light was much weaker. It was no longer as strong as when it first swept across the entire island. It could only wipe out half of the island.

The Goateed Elder's expression became solemn.

There were only two million vampires left.

However, the speed at which the White Sun God stone could wipe out the enemy was greatly reduced.

After a few hours, when there were only one million vampires left, the blood tide had already surged to within ten feet of the White Sun god Stone!

Finally, a vampire pounced onto the god stone.

Even though it was immediately wiped out by the white light of the god stone, it left a shallow crack on the god stone.

Although it was small, it indicated that the divine stone had reached its limit.

The goateed old man's expression changed drastically. The BA sisters also saw that something was wrong and their mood fell to rock bottom.

With the remaining one million vampires, the divine stone might not be able to last until the last moment!

"Father, what should we do? The divine stone can't hold on much longer!" Ba Yue said anxiously.

Other than worrying that the ancestor's relic would be destroyed, she was even more worried about what the vampires would do to them after they obtained the divine stone?

Right now, she ignored them and focused on dealing with the divine stone.

But if the divine stone was destroyed, what should she do?

There was a high probability that the vampires would devour them!

The goateed elder turned his gaze towards Su Yu. "Sir, you must have other plans for borrowing one of our white emperor puppets. At this moment, please do not hide it anymore."

At this moment, the goateed elder had an indescribable fear and wariness towards this seemingly young human.

The other party's wisdom made him feel depressed as if he was facing a colossus.

It was as if everything was under the other party's control.

Therefore, he could not help but ask Su Yu for instructions.

Su Yu looked at the island calmly and said, "Just a little more."

No one understood what he meant by "Just a little more."

Was it just a little more until he made his move, or was it something else.

Two hours later.

The number of blood breeds dropped to 500,000.

However, the surface of the divine daylight stone was already covered with tiny cracks.

The range of the dazzling white light released was extremely limited, less than one-tenth of what it used to be.

The Divine Daylight Stone had reached its limit and could no longer withstand the attack of the remaining 500,000 blood breeds.

However, at this moment, a glimmer of light flashed in Su Yu's eyes and he said, "We're here!"

As he said that, he strangely took a step back and retreated into the crowd of captives.

At first glance, he was no different from the other captives.

If no one pointed it out, no one would believe that he was the commander of all the creatures present.

Creak --

Suddenly, on the other side of the island, the area where spatial fluctuations had appeared in the past erupted with astonishing spatial fluctuations.

An enormous stone door emerged from the fluctuation.

And it opened leisurely.

Chapter 1870 Scheming Step By Step

"Ah! Hurry up and Dodge! There are still traps!"

"Ah! Damn it, we were careless!"

However, it was too late to warn them. A large number of disciples of the Dustless Moon sect were killed by the poisonous black wind when the stone door was opened.

After a moment of silence, powerful fluctuations of living beings appeared again.

The Goateed Elder and the others immediately sensed their presence!

Similarly, they also sensed the goateed elder and company's existence!

“Eh? There are actually living beings in this world!” Black Lotus Demon Sovereign's voice sounded from the other end of the island.

Immediately following that, seven or eight majestic auras of two crowned emperors came together. They hovered above the sky and looked down at the dumbfounded White Sun clansmen and the many astonished captives.

“Dustless Moon sect!” When the captives saw the clothes the newcomer wore, they immediately identified him and were completely shocked.

How did they come here? Could it be that they were also illuminated by the full Moon's divine light?

No, how could they all be from the dustless moon sect?

According to past experience, those who were transported here should be scattered throughout the dark star civilization.

Black Lotus Demon sovereign glanced at the people on the ground. Other than the Goateed Elder, the strength of the others was nothing to him.

His attention was attracted by the battle between the blood breeds and the divine stone ahead.

His pupils suddenly constricted. “What is that thing? and that stone, what tyrannical power!”

The Goateed Elder's eyes darkened. “Who are you people?”

He secretly guessed their origins.

The black lotus demon sovereign was completely attracted by the blood breeds at this moment. Hearing this, he turned to look at him. “You are the original residents of this place? What are those red creatures? Why are they here? Speak!”

The goateed elder glanced at the other six double crowned emperors with great trepidation. Naturally, he did not dare to retort too forcefully. He said, “They are the blood clan, the blood clan that specializes in devouring people!”

The Black Lotus demonic lord frowned when he heard this. What kind of messy explanation was this?

Seeing that the blood clan did not have any intention of attacking this place, he said in a deep voice, “Let me ask you, before we came here, did a creature come here?”

The entire dustless moon sect hated the creature who had broken through the sixth vortex and was the first to come here.

This person was extremely hateful. He clearly had the ability to return to the trap, but he had deliberately kept it.

This caused them to spend a lot of time and human lives to finally open the tunnel.

What was even more sinister was that the other party had deliberately closed the stone door, causing a large number of people from the dustless moon sect who had come forward carelessly to die.

Among them, there was no lack of precious existences at the heaven and Earth Emperor level.

The Goateed Old Man's heart moved. could he be talking about Su Yu?

Before them, only Su Yu had come.

The Ba Yue Sisters, the Bai Ri clansmen, and the captives all began to ponder.

However, no one betrayed him.

It was precisely because of him that they had left Bai Ri City and lived until now.

Otherwise, they would have been completely annihilated by the first wave of attacks from the sanguine.

The goateed elder cupped his fists. "This area is very large, but we have no idea who you are talking about."

The black lotus demon sovereign frowned. He was not too surprised. He had visited the area earlier and it was indeed very large.

It was not strange that the other party did not know.

Furthermore, what was their goal in opening the tunnel?

It was not to chase after Su Yu, but to find the rumored emperor's killing sword!

"HMPH! Then I'll ask you one more question. If you still don't know, Don't blame us for being impolite!"

The goateed elder said, "Please speak."

It was not a big deal to just ask a question.

"Let me ask you, has a sword with an extremely strong killing intent appeared here?"

Before the goateed elder could speak, the members of the White Sun clan began to discuss.

"Could he be talking about the emperor's killing sword? I heard that the sword's killing intent is very heavy."

"Most likely, but should we say it?"

Black Lotus was an existence that had two crowns. He could hear even the slightest movement, let alone there was more than one person who was discussing it!

An excited look appeared on his face as he casually grabbed a member of the White Sun clan who was in the middle of a discussion. he shouted, "What did you say just now? The Emperor's killing sword? How did you know its name?"

The White Sun clan member said in fear, "I, I also heard of it!"

"Where is it?"

"I heard that it's under the protection of the Sanguine."

The black lotus demon sovereign abandoned him and captured another white sun clansman.

He received the same answer!

The Black Lotus Demon Sovereign, who was skeptical, captured a few people and searched their souls. Indeed, he found accurate information about the emperor's killing sword.

He looked extremely excited and abandoned the White Sun clan and Company. He was too lazy to expend his energy to find Su Yu and led a few other great deacons to the stone door.

He crushed a jade pendant and sent out a string of information.

On the other side of the stone door was naturally master Bao Kun!

For safety reasons, he asked his disciple to investigate first to prevent any accidents.

After receiving the news that the emperor's killing sword was in this space, master Bao Kun couldn't help but be excited.

"It's indeed in this secret realm!"

Without any hesitation, master Bao Kun took a step forward and appeared in this world.

The powerful aura of the Triple Crown Emperor instantly enveloped the entire island.

The members of the White Sun clan and the captives were caught off guard and were immediately intimidated by the powerful aura.

The weaker ones immediately fell to the ground while the stronger ones stiffened.

Even an expert like the goateed elder felt fear from the bottom of his heart. "Triple Crown Emperor!"

On the other side, Black Lotus Demon Sovereign and the others bowed respectfully. "Welcome, Master!"

Master Bao Kun had the demeanor of a celestial being. When his eyes stared at the sky full of blood breeds, his pupils constricted as he said in a deep voice, "You said that the emperor's killing sword is hidden among the blood breeds?"

"Yes! I have confirmed with the local natives that the emperor's killing sword is among the blood breeds!"

Master Bao Kun narrowed his eyes. He believed in his third disciple's ability. Since he was so sure, there was an 80-90% chance that it was not bad.

"Wait a moment, I'll be right back!" Master Bao Kun waved his sleeves and flew across the sky, disappearing from the spot.

Not long after, a sudden change occurred.

The remaining 500,000 blood breeds suddenly erupted with a heaven-shaking killing sword qi, destroying everything in all directions.

Accompanied by an excited and shocked roar, master Bao Kun and a naked man holding a long sword rushed out of the blood breeds and fought in the sky.

One was the real three crowns king, and the other was the emperor's killing sword, which could destroy the world with a casual sword.

The fierce collision between the two shook a total of 500,000 vampires.

The aftermath of the fight wiped out tens of thousands of vampires.

The two fought from the sky to the ground, from the ground to the sky. The situation was extremely intense.

The emperor's killing sword, which was hiding among the vampires and waiting for the divine stone to be slowly eaten away, did not expect a powerful three crowns king to come out of nowhere!

Under its control, the blood breeds who were attacking the divine stone with all their might gave up their targets and turned to attack master Bao Kun.

Master Bao Kun was both excited and excited as he shouted in a deep voice, "Black Lotus, lead your men to stop the blood breeds and buy me some time!"

Seeing that his master and the emperor's killing sword were evenly matched, how could black lotus demon sovereign allow the blood breeds to stop his master?

"All the disciples who are preparing for battle, come to this mystic realm!" Black Lotus Demon Sovereign crushed the jade seal and sent a message.

He and the other six great deacons joined forces and arrived near Master Bao Kun, sniping at the incoming blood breeds.

At the same time, a large number of dustless moon sect's experts poured into the stone gate.

Among them, there were fifty to sixty heaven and Earth emperors and tens of thousands of peak overlords.

Their overall strength was naturally far inferior to the five hundred thousand blood breeds.

But with the help of the seven double crowned emperors, they were still able to stop them.

Instantly, both sides fell into a chaotic battle.

Su Yu watched from afar as the corners of his mouth curled up into a faint smile.

Seeing this scene, the Silent Saintess stared at Su Yu. "You've been planning to use the forces of the Dustless Moon sect to deal with the Emperor's killing sword?"

Thinking back to how the Black Lotus Demon Sovereign had searched the souls of several members of the White Sun clan for news of the Emperor's killing sword, the Saintess' heart involuntarily shrank.

Su Yu had once given an incomprehensible order.

He had spread the news that the emperor's killing sword was hiding among the blood clan.

Until just a moment ago, it was believed that no one could understand Su Yu's intentions.

But now, it was clear as Day!

It turned out that he had already predicted the dustless moon sect's arrival and knew that they were here for the emperor's killing sword.

In order to make use of them, he had deliberately spread the news of the emperor's killing sword.

If this news was intentionally spread by all the clansmen gathered by the dominating moon sect, would the black lotus demonic lord be so easily used?

He was afraid that he immediately sensed that the people in the mystic realm wanted to make use of them.

Only by learning about the emperor's killing sword through various channels could the people of the dustless moon sect not be suspicious and immediately launch an attack on the emperor's killing sword!

Then, he thought about how Su Yu wanted to borrow two white emperor puppets. His goal was obvious!

To reap the benefits of the fisherman!

When both the dustless moon sect and the emperor's killing sword suffered heavy losses, he would snatch the Emperor's killing sword!

Every step he took was planned in advance. What was even stranger was that the situation had developed exactly as he had expected.

Even the 15 million blood breed army could not disrupt his plans.

Su Yu said indifferently, "More or less."

Borrowing the puppet was a two-pronged plan.

Firstly, he was indeed prepared to reap the benefits.

Secondly, he was prepared for the blood clan to be too strong and wipe out the entire dustless moon sect. At least he had some life-saving trump cards.

Now, the White Sun Divine Stone had destroyed most of the blood clan army, allowing the dustless moon sect and the blood clan to fight equally.

Under the Saintess' gray robe, her eyes were unusually complicated. "You look like a person."

"Oh? Who?"

"An old friend." The saintess fell silent after saying that.

An old friend? Su Yu still did not understand who the SAINTESS was.

At this moment, the emperor's killing sword suddenly erupted with a shocking killing intent, forcing Master Bao Kun to retreat.

Without the assistance of the blood kindred, Master Bao Kun forced the emperor's killing sword to retreat.

The body of the Great Deacon of the Green Sky had been destroyed into pieces.

Without the support of the body, the emperor's killing sword couldn't exert its full power.

It pushed back master Bao Kun with one sword strike, turning into a sword shadow that slashed at the White Sun Divine Stone!

It seemed that it didn't intend to continue fighting with master Bao Kun, and chose to escape instead.

However, before it escaped, it had to shatter the White Sun Divine Stone, which was already covered in cracks.

The white light emitted by the White Sun Divine Stone was already very weak, and it was completely unable to block the full-force attack of the emperor's killing sword.

It circled in the air and actually transformed into a white light as it flew out of the island, flying towards Maple Forest Island.
