

Nine-Dragon 1931

Chapter 1931 Heaven And Earth, White Feather

After confirming his position, Su Yu immediately headed to the nearest area.

An hour later.

Su Yu appeared in front of a sparkling lake. On the map, the closest item was hidden at the bottom of the lake.

With a glance, Su Yu was slightly disappointed to find that an old man in a silver robe was taking a sparkling pearl from a very eye-catching altar at the bottom of the lake.

The Pearl was only the size of a buttonhole and its function was unknown.

What was even more surprising was that Su Yu recognized this person. It was the old man surnamed Li from the Star Alliance Chamber of Commerce's branch in the White Dragon mountain range.

"It's actually him." After pondering for a moment, Su Yu dived into the water and turned into an evil dragon that instantly chased after him.

Before the old man surnamed Li could withdraw from the joy of obtaining the tool, he suddenly discovered an evil dragon with a powerful aura. His expression changed in shock. "Tool Guardian Beast? Could it be that this pearl is also a powerful treasure?"

Su Yu was slightly surprised when he heard this. A powerful item had a guardian beast?

He swept his long tail and sent the old man surnamed Li flying. He snatched the bright pearl from his hand and dived into the depths of the lake.

After taking human form, he carefully examined the bright pearl. He discovered that it only had a simple invisibility effect and was limited to the level of a single-crowned emperor. It was very easy for experts above the double-crowned emperor level to see through it.

In terms of effect, it was inferior to Su Yu's own invisibility Divine Dao.

"So it's of little value." A trace of disappointment flashed across his eyes. "As expected, the value of an item without a guardian beast guarding it is very low."

However, Su Yu did not throw it away. Instead, he carefully sealed it so as not to destroy the aura of the item on it.

Not long after, he left this area and arrived at the third region.

According to the map, the hiding place of the props in this area was on a heavenly mountain peak. It was very eye-catching.

Standing at the foot of the mountain peak, Su Yu looked over and vaguely found many powerful twin-crowned black apes jumping around on the peak.

There were no less than ten of them.

"Oh? With so many black apes guarding it, the props here won't be bad." Su Yu's eyes lit up and he jumped to the peak of the mountain.

Just as he reached the center of the mountain, the sound of intense fighting entered his ears.

He swept his gaze and discovered that five black apes were engaged in a chaotic battle with the three discovered double-crowned emperors.

The three double-crowned emperors were not from the Dark Moon clan, so they were most likely members of the Star Alliance's Chamber of Commerce.

Although the Star Alliance's Chamber of Commerce was at a disadvantage in terms of numbers, they possessed all kinds of law chains, magical equipment, talismans, and so on. The three of them joined hands and beat the five black apes, who only had innate abilities, until they cried out loudly.

The black apes relied on their furious and tenacious support.

However, it was only a matter of time before they were defeated.

Su Yu secretly smiled and summoned the little qilin. It wrapped itself around the little qilin and quietly went around the back of the mountain in a state of nothingness, silently climbing to the top of the mountain.

Because their auras were isolated by the power of nothingness, the Star Alliance Chamber of Commerce and the black apes were still fighting to the death. They had no idea that someone had already arrived before them.

There was nothing else on the mountain peak except for an ancient tree that was as tall as the clouds.

There was a white feather stuck in the trunk of the ancient tree.

The little qilin ran over with a smile on its face. It held the feather in its mouth and kept on laughing. "The three idiots below us fought to the death with the black ape. In the end, we were the ones who benefited the most."

It obediently handed the feather to Su Yu.

Su Yu held the white feather. After sensing it carefully, a hint of surprise appeared in his eyes. "Universe Feather?"

This feather did not have any offensive abilities. In theory, it was not worth the protection of the Black Ape.

However, it had an extraordinary function. After it was activated, it could use something that it did not want to use to forcefully exchange for a tool in the hands of others.

The effect could be said to be overbearing!

"Good stuff!" Su Yu immediately understood the great value of the cosmic feather.

After keeping the Qiankun feather, Su Yu followed the same pattern and quietly walked down the mountain with the little qilin.

The three people from the Star Alliance's Chamber of Commerce were still fighting with the black ape. The Black Ape was at an absolute disadvantage and was forced to retreat.

“Put in more effort! Seize the tools in this area and then go to my area. The Guardian Beast there is even more powerful. I believe the tools must be very powerful!”

Hearing this, Su Yu’s footsteps slightly stopped.

His eyes turned, and he simply pulled out the asura sword. He immediately rushed out.

One person was annihilated, and one black ape was instantly killed.

The fierce look in the eyes of the other four black apes disappeared, replaced by fear. They turned into birds and beasts and fled in all directions.

The three experts of the Star Alliance Chamber of Commerce were greatly shocked.

Although Su Yu was suspected of launching a sneak attack, his extremely dangerous swordsmanship still gave them a deep fear.

After killing a black ape, Su Yu didn’t stop for a single step and went straight to the peak of the mountain.

“Not good! This person also wants to snatch the tool. We Can’t let him succeed!”The three people chased after him.

Not long after, they caught up to Su Yu and the four of them stepped on the peak of the mountain together.

Looking at the ancient tree in front of them, the four of them hurriedly looked around, but there were no traces of any item left behind.

“Someone beat us to it!”Among the three of them, a burly man with a rough face said hatefully.

“Looks like our efforts were in vain. Someone reached the peak of the mountain before us and took away the item. Damn it!”

Su Yu was also very angry. He snorted and said, “Wasting my time!”

After saying that, he turned around and prepared to leave.

“Sir, Please Wait!”Suddenly, the rough man said.

Su Yu stopped in his tracks. His eyes under the black robe showed a hint of vigilance. “Is there something wrong with calling me to stay here?”

A hint of slyness flashed in the Big Man’s eyes. He praised, “Your sword skills are superb. It’s really an eye-opener.”

“You flatter me.”Su Yu’s tone softened slightly.

The Big Man struck while the iron was hot and said, “We are people from the Star Alliance’s Chamber of Commerce within the star Gallop sect. May I ask if you are a citizen of the dark star civilization or the Star Alliance’s Chamber of Commerce?”

Su Yu took off his hat and revealed the face of a human. He shook his head lightly and said, "Neither. I am a reclusive human."

Looking at his race, the enthusiasm on the big man's face became even more intense. "It's a pleasure to meet you! I didn't expect that other than the ten major forces and the Star Alliance's Chamber of Commerce, there are also hidden powerhouses!"

"You guys are not bad." Su Yu revealed a hint of amiability.

The man cupped his fists. "Let me introduce myself, Zheng Yuan! These two are my colleagues, Ming Jing, Wen Hua!"

Ming Jing was a feminine young man. The way he looked at people was particularly cold. The way he looked at Su Yu contained a sense of superiority from the difference in their race.

Wen Hua was a beautiful young woman with exquisite facial features. She was dressed in palace clothes, which made her slim figure particularly clear.

"Su Yu," he introduced himself simply.

Zheng Yuan's smile grew even wider. "So it's brother Su Yu. It's fate that we met. Since it's rare for us to meet, why don't you join us and look for the props in the next area?"

The three of them stared at Su Yu, paying close attention to the changes in his expression.

Su Yu frowned hesitantly. "This... I'm used to being alone. Sorry, I Can't join you guys."

Zheng Yuan was relieved. If Su Yu agreed to join them, he would have to worry about whether Su Yu had a strong backing.

The look of distrust and worry was just right.

Chapter 1932 Imperial Scepter (First Update)

Zheng Yuan said straightforwardly, "Brother Su Yu, I know what you're worried about, but don't worry. Our goal is the props, and we have no intention of killing each other."

"It's fine if we join hands, but how are we going to split the props?" Su Yu looked very moved.

Zheng Yuan smiled indifferently and said, "You can rest assured on this point, brother Su Yu. We've discovered four areas where powerful demonic beasts gather. Right now, it's only the first area. There are still three areas that are worth our risk. If the four of us join hands, I believe we can conquer one area in a short time and obtain one prop."

"Three props, enough for three people to distribute."

Su Yu was surprised. "But there are four of us."

"I don't need props," the woman named Wen Hua said faintly.

Su Yu was surprised. He came to Cang Sheng chess but didn't need props?

Was it believable?

“It’s true!”Zheng Yuan’s face was serious, and he sighed helplessly. “Not everyone is willing to participate in Cang Sheng Chess. Brother Su Yu can also feel this, right?”

The chess game was forced to teleport the forty-nine strongest experts of the dark star civilization in. It was normal for someone to be forced into it.

“Fellow Daoist Wen Hua’s husband is seriously ill, and he needs her to find a special spiritual herb to treat him. He was about to get it, but he was teleported into the chess game! Therefore, she wants to withdraw from the chess game as soon as possible

“There is only one way to quit the chess game, and that is to find a tool called forget worry water. After drinking it, one can leave the chess game safely.”

Su Yu had heard of the name of this item.

There were two drops in the chess game. After swallowing it, one could leave safely.

For people who were weak or had urgent matters to attend to, forget worry water was a holy item that could save their lives.

“How is it? Brother Su Yu, do you still have any concerns?”Zheng Yuan asked.

Su Yu pondered for a moment and nodded slightly. “Alright! Happy Cooperation!”

They wanted to borrow Su Yu’s power, so how could Su Yu not want to borrow their information?

The four of them reached an agreement and quickly rushed to the next area.

An area filled with ancient tombs!

“Look, in the middle of the ancient tombs is a very old emperor’s tomb. That is likely the place where the props are hidden,”Zheng Yuan analyzed.

From the current situation, the items usually appeared in more conspicuous places.

The items that were hidden exceptionally deep were still a minority.

“However, according to our investigation, the path to the emperor’s tomb is not very peaceful. There are at least eight bronze corpses. In the past, we were slightly weaker and did not dare to make any plans, but now that brother Su Yu has joined us, we can consider it.”

Su Yu nodded. “Alright. However, as a sign of sincerity for your cooperation, if we break through, the props here will belong to me.”

Zheng Yuan frowned slightly and fell into silence.

Flower Seeker had no objection to anyone obtaining it and kept quiet.

Only Ming Jing’s eyes flickered with a sinister light. “Why? What if you get a prop and run away?”

Su Yu sighed and said, “Then how can I trust you? The three of you know each other. If you join hands to trap me alone, it should be very easy, right?”

Ming Jing pursed his lips and was about to refute, Zheng Yuan said calmly, "Alright, I'll hand the first item to brother Su Yu. Time is of the essence. Rather than wasting time in an argument, it's better to take the opportunity to snatch a few more items. At least half of the items should have been obtained by now."

Hearing this, Ming Jing's eyes flashed with an unconvinced expression. However, due to Zheng Yuan, he reluctantly nodded.

"The three of us will be in charge of attracting the bronze corpses, while brother Su Yu will head to the ancient tomb alone to search for the props." Zheng Yuan quickly came up with a simple plan.

Su Yu nodded. "Sure."

The three of them worked very well together. They immediately appeared and attracted the bronze corpses that were hidden underground.

There were a total of eight of them, and all of them were at the level of a double-crowned emperor.

With the combined strength of the three of them, it was their limit to block five of them. It was impossible for eight of them to fight against them, so they could only fight and retreat to lure the bronze corpses away.

Su Yu took the opportunity to flash to the imperial tomb in the center.

"The founding emperor of the Great Xia Empire, Xia Wuji!" Su Yu took a glance and used his clairvoyance to survey the surroundings.

As expected, he discovered a corpse in the tomb holding a scepter in its right hand, emitting the aura of an item.

Su Yu sucked in the air and sucked the item into his palm.

Just as he was about to investigate the grade of the item, two balls of jade-green flames suddenly burned in the eyes of the emperor's corpse.

After a furious roar, the emperor's corpse climbed up and erupted with the terrifying aura of a triple crown prince!

Su Yu was shocked and immediately used the Taiji Yin-yang wings to escape from the mausoleum. He said, "Run!"

Zheng Yuan and the others were also shocked by the aura of a Triple Crown Prince and hurriedly ran away.

They ran for their lives and only stopped panting after they left the tomb area.

Zheng Yuan said, "It's actually a high-level area with the three crowns hidden. Brother Su Yu is lucky to be able to escape!"

Su Yu also showed some lingering fear. Fortunately, he had the eye of insight and the space law, so he didn't need to dig the tomb to get the scepter. Otherwise, the emperor's corpse would come out unimpeded and hurt people!

“Brother Su Yu is quite lucky. The grade of this scepter must be very high, right?”Zheng Yuan said enviously.

A trace of greed flashed through the clear mirror’s eyes.

Su Yu held the item and after carefully sensing it, he was shocked.

“The Imperial Scepter’s effect is that it can order any of the forty-nine experts, the three crowns, to do a task that has a time limit of no more than two hours.”

The tyranny of this scepter was no less than that of Qian Kun Yu. It was truly shocking.

“Oh, it’s an attack tool that has the power of a triple crown prince,”Su Yu said.

Zheng Yuan and Ming Jing’s pupils constricted. They didn’t doubt Su Yu’s words at all. After all, it came from the Guardian Beast of a Triple Crown Prince. Having the power of a triple crown prince couldn’t be more reasonable.

“Brother Su Yu is really lucky. We are so envious!”Zheng Yuan laughed loudly.

Su Yu put it away and said, “I’ll keep my promise. You two will take the props from the next two places. I’ll help from the side.”

The four of them rushed to the next area with powerful guardian beasts.

It was a rather strange area. Nine Blazing Suns hung high in the sky, scorching the land.

But they were not blazing suns, but nine guardian beasts that gave off a dangerous aura.

Anyone who took half a step into the area would be immediately discovered. There were no blind spots throughout the entire journey.

“Those nine eyes, any one of them can emit a power that surpasses that of a double-crowned king. They are infinitely close to a triple-crowned king. Once they open their eyes, it is very likely that we will all die!”Zheng Yuan said solemnly. “Fortunately, as long as there isn’t too much commotion, those nine eyes will not open.”

Ming Jing said, “Then, where might the props be hidden?”

This round, he was the one snatching the props, so he was especially concerned.

The four people swept their gazes over and saw that there was a very special angle in the center of the Earth where the nine blazing suns surrounded.

From this angle, it just so happened that the nine eyes could see from different directions.

Looking carefully, they indeed found that there was a complete array formation on the ground.

“Could it be that the item is hidden in the array formation?”Ming Jing pondered. “From the current exploration, it seems that after the array formation is activated, the item will be discovered.”

Zheng Yuan and Wen Hua deeply agreed.

It was very likely so.

Only Su Yu had reservations, because the map showed that the item was not in the array formation, but in the sky!

He kindly reminded him, "There are many ways for the item to appear. It's better not to be too arbitrary."

Bright mirror glanced at him and turned a blind eye. He was very confident in his judgment. "I'll try it on my own."

He left a mannequin on the spot and then carefully walked toward the formation. Along the way, there was no movement from the nine eyes, which made him feel slightly relieved.

He approached the formation and searched carefully, but did not find any props.

Finally, his eyes flashed as he looked at the remaining groove of the formation. He took out two crystals and inserted them into it.

He was guessing whether or not to activate the formation before the tools appeared.

However, just as he stepped into the formation with his right foot, the nine eyes in the sky opened at the same time and shot out powerful fireballs.

Ming Jing was shocked and crushed the jade pendant on his neck.

Instantly, he disappeared into thin air and a puppet appeared on the spot.

In an instant, the puppet was burned into ashes.

Ming Jing appeared at the original location of the puppet. His heart was still filled with fear. It was so dangerous!

If he did not have a backup plan, he would have died by now.

"Damn it!" Ming Jing stared at Su Yu with resentment. "It is impossible to obtain this item without the strength of a triple crown champion. If I knew this would happen, I would have insisted on getting the item just now!"

Zheng Yuan's expression was solemn. Those nine eyes were indeed too dangerous.

From the looks of it, they would be activated if they were to touch the array.

Moreover, they had no idea where the item was hidden.

"Ming Jing, you can't say that. Since we made the decision back then, how can we blame others now?" Zheng Yuan shook his head and said.

A large part of the reason why Ming Jing agreed was that Ming Jing knew that the later items were even more shocking, so he gave the item from the ancient tomb to Su Yu.

However, unexpectedly, the items were too dangerous and impossible to obtain.

Unless they spent a lot of time.

But what they lacked the most right now was time!

Ming jing snorted angrily, "I didn't say anything wrong. I shouldn't have invited him to join in the first place, causing me to have no items to obtain!"

Being complained again and again, Su Yu couldn't help but frown and said indifferently, "You don't have the ability yourself, why are you angry at others?"

Ming Jing, who was already angry, became even angrier when he heard this. "What big words. Don't think that you can do anything just because you are a little stronger. If you have the ability, go!"

Su Yu stared at the array and was silent for a while. "If I get the tool, who will it belong to?"

"If you really have the ability, then it will belong to you!" Ming Jing sneered with contempt in his eyes.

"Okay!" Su Yu didn't say a word. He waited for his nine eyes to close again and rushed to the front of the array in one breath.

At the instant he stepped on the array, endless flames were indeed spat out.

Su Yu was not afraid. A layer of true dragon divine fire was burning on the surface of her body.

Although the flames from the nine eyes were shocking, they might not be able to do anything to Su Yu in a short period of time.

He pointed his finger and inserted the two crystals into the array.

Rumble --

The array rotated and the nine eyes in the sky indeed changed. They merged into one and turned into a huge eyeball that was nine times the size of the previous one.

Moreover, it spat out a flame that was nine times bigger than before.

Su Yu's heart skipped a beat. He glanced at the formation and saw that it was releasing a layer of milky white light.

Without saying anything, Su Yu jumped onto the formation at the critical moment.

Chapter 1933 The Remains Of The Five Crowns

Boom

The terrifying flames attacked on the spot. Even the three crowns would be severely injured.

However, the milky white light barrier completely blocked the flames.

The entire area was completely burned by the endless flames. Only the formation was safe and sound.

Moreover, with the size of the formation, it could only accommodate one person.

If a few people entered this area, it was likely that only one person would survive.

When the flames were extinguished, the huge eyeball immediately dried up and shrunk. In a few breaths'time, it had turned into a golden eye the size of a fist.

Zheng Yuan sucked in a breath of cold air. "Delusion-piercing Golden Eye!"

The delusion-piercing golden eye that could see through the identity of the chess master!

Su Yu was also greatly shocked when he saw it!

A greedy light flashed in Ming Jing's eyes. Ignoring his previous promise, he grabbed the falling delusion-piercing golden eye in his palm.

Zheng Yuan saw it and frowned, but did not say anything.

He was the only one left who did not get the item. If he forced bright mirror now, he would definitely choose to leave the team.

Su Yu flew over and stared at bright mirror without saying a word.

Bright mirror did not feel guilty at all. He said with conviction, "According to the original rules, this item should have belonged to me! When you took the scepter, I helped you. Now that you helped me get this item, we are even!"

He did not mention the promise he made just now!

Moreover, when he was in the ancient tomb, how could his help be compared to the danger of Su Yu taking the item alone?

Just based on how terrifying it was when the nine eyes were one, no one present could survive, right?

A chill spread in his heart.

If it was any other item, it would be fine if the other party acted shamelessly. However, the gold eyes of destruction, which posed a great threat to him, naturally had to be kept in his own hands. It was the safest.

However, now was not the time to make a move. It was not too late to wait for the team to disband before snatching it.

Seeing that Su Yu had no objections, Zheng Yuan heaved a sigh of relief. "Let's rush to the last area immediately. Hopefully, we haven't been preempted yet."

Not long after, they arrived at an even more bizarre area.

The world shattered and many divine residences collapsed. The entire world was in a floating chaotic state.

A corpse emitting a terrifying aura lay in the chaos.

That aura even surpassed that of the four crowns!

"Could it be the legendary remains of the five crowns..." everyone present sucked in a breath of cold air in shock.

Could it be that the props here were also at the level of the five crowns?

Su Yu's heart pounded, and his gaze locked onto the remains.

According to the map, the remains of the five crowns happened to be within ten thousand feet of the item!

The item was most likely with him!

The bright mirror also revealed a deep greed. A five crowns emperor level item... this was very likely a top-tier item that could influence the entire chess game!

Zheng Yuan's eyes revealed a deep joy as he said, "This is the area fellow Daoist Wen Hua discovered. If I can obtain this item, I swear that I will definitely help fellow Daoist Wen hua obtain the water of Forgetfulness!"

Wen Hua revealed a grateful expression as he weakly waved his hand. "There's no need to thank me. The difficulty of this area can be said to be at the god level. Even if I were to discover it, it would be impossible for me to obtain the item inside. If big brother Zheng Yuan can obtain it, that would be the best."

Zheng Yuan couldn't suppress his joy as he stared at the emperor's remains and said, "This time, don't act rashly. I'll test it out."

Everyone nodded slightly. In any case, all forty-nine regions should have been dug up by someone. There was no need to race against time.

It was better to go all out to snatch this item.

However, Zheng Yuan took out a double crown emperor level puppet and inlaid a crystal in its chest. The puppet came to life.

Seeing this scene, Ming Jing and Wen Hua revealed traces of fear.

"Big Brother Zheng even managed to obtain the yin yang puppet of the Taiji sect. It's truly admirable," Wen Hua said enviously.

The Yin Yang puppet was a secret artifact of the Taiji sect of a five-star civilization. Not only was its body strong, it could withstand the attacks of laws. It was also abnormally flexible and was of a higher quality than ordinary puppets.

However, the Yin Yang puppet rarely leaked out of the Taiji sect, especially those above the emperor level.

Who would have thought that Zheng Yuan had one!

If they worked together with the puppet, no one would be able to match up to it in a one-on-one fight.

Under Zheng Yuan's control, the yin yang puppet nimbly leaped towards the emperor's remains.

Unexpectedly, just as it took a few steps, the shattered sky suddenly collapsed.

The Yin Yang puppet stretched out its arms and used its body to forcefully resist. However, just as it resisted, the sky was crushed into dust on the spot!

Seeing this scene, Zheng Yuan's face immediately stiffened.

He did not expect the yin-yang puppet to replace him in obtaining the prop, but it was too weak!

Or rather, the danger level here was too high!

Gritting his teeth, Zheng Yuan took out another yin-yang puppet.

There's another one? Everyone's expression changed slightly.

After learning from the previous experience, the yin-yang puppet this time was especially wary of the floating shattering firmament. It would rather take a long route than touch the fragments of the firmament.

Thus, it finally took a few hundred steps.

But just as Zheng Yuan heaved a sigh of relief, a collapsed divine residence suddenly exploded. The shockwave from the explosion blasted the yin-yang puppet into dust without any leeway!

The power of that attack, let alone a puppet, even a three-crowned emperor would be blown to death on the spot!

Only a four-crowned emperor could barely resist it.

Ming Jing revealed a regretful expression. "The props here are definitely not something we can get our hands on. It's better to give up now."

He had already obtained the gold eyes of destruction and obtained the items he wanted. Naturally, he did not want to take any more risks. Thus, he immediately gave up!

"No!" Zheng Yuan's eyes were red. He had already lost two extremely expensive yin-yang puppets and had paid a heavy price. How could he give up just like that?

"Although this area is dangerous, as you can see, as long as we avoid the collapsing sky dome and the divine residence, it is relatively safe." Zheng Yuan said, "I hope that you can follow me in. I don't need you to go near the remains. You only need to help me keep an eye on the sky dome and the divine residence while I retrieve the items."

Wen Hua agreed without hesitation, "No problem!"

Su Yu had always valued promises. Since he had agreed, there was no reason for him to go back on his word. He nodded and said, "Sure."

Only Ming Jing was left. Under the pressure of the three people's gazes, he could only reluctantly agree, "Alright! But the premise is that if there is any danger, I will immediately withdraw."

"No Problem!" Zheng Yuan's face lit up with joy.

Thus, after some discussion, the four of them stepped into the primal chaos region.

Having had the experience of the puppets scouting the way, they were especially wary of Tianqiong and the divine residence, walking around in circles.

The journey that should have taken them a few breaths of time to reach, they had to spend an hour to barely get close to the remains of the five crowns.

Although there was no evidence, everyone knew that the remains were definitely dangerous. They stopped three thousand feet away, not letting anyone get any closer.

“Alright, I’ll leave the rest to myself. Everyone, just pay attention to the dangers nearby.”Zheng Yuan’s eyes were filled with anticipation as he quietly walked towards the remains of the five crowns.

Ten thousand feet!

Three hundred feet!

Ten Feet!

Ten Feet!

What was strange was that there was no danger at all. Even when Zheng Yuan tried to search for the remains of the remains, there was no danger at all.

“Strange!”The few of them were secretly surprised.

Since there was a five crowns emperor level item present, there should be a guardian beast present. Why was there no trace of it?

Not long after, Zheng Yuan’s face turned gloomy. He searched the entire remains but did not find any item.

“Could it be that someone beat me to it?”Zheng Yuan’s mood at this moment could be imagined.

After spending so much money, he still did not find anything. How aggrieved was that?

Su Yu was also surprised. From the marks around him, it did not seem like someone had been here before. But where did the props go?

Could it be that they were not on the remains?

However, when he scanned the ten thousand feet radius of the remains, there was nothing else other than the remains.

“Is it still nearby? We might as well look around.”Wen Hua said softly and looked around fervently.

When Su Yu heard this, his gaze changed slightly. Without thinking, he dashed out of the chaos.

His sudden action caused the three of them to be surprised. They did not understand why Su Yu suddenly retreated.

However, they were all cunning people who could cultivate to this day. They immediately realized that Su Yu must have realized that something was wrong.

Zheng Yuan reluctantly glanced at the emperor’s corpse and also sped away.

Ming Jing already had the intention to leave. Su Yu took one step forward and he took the next.

When Zheng Yuan passed by Wen Hua, she was the only one who was still standing at her original spot.

“Wen Hua, leave quickly. I’m afraid there’s something wrong here...”before Zheng Yuan could finish his sentence, he was surprised to find that Wen Hua’s expression had become very strange!

Her gentle eyes had unknowingly become indifferent, and there was a hint of playfulness in them.

She took out a crown covered with silver patterns from her bosom and poured a trace of divine power into it.

In an instant, the entire primal chaos region underwent a huge change.

The sky and the divine residences that were slowly floating around suddenly started to flow at a speed ten times faster than before.

The Sky Ten thousand feet away from Zheng Yuan suddenly rushed over.

Zheng Yuan’s face was filled with shock as he hurriedly dodged.

However, he was unable to avoid the explosion of a divine residence. The shockwave from the impact shattered Zheng Yuan on the spot.

Ming Jing’s expression changed drastically as he shouted, “Wen Hua, you got a tool?”

The crown covered with silver patterns was a tool that could control the chaos region.

It was different from ordinary tools. It wasn’t a one-time consumable item.

Wen Hua smiled weirdly. “I was very lucky. I was teleported to the side of the tool on the spot and got this heaven and earth crown. What’s even more coincidental is that you guys happened to invite me to help you snatch the tools from the other regions, so I agreed.”

Ming Jing sucked in a breath of cold air. Her luck was actually so good that she directly obtained a five-crowned emperor level divine item!

Her face sank bit by bit. “So, you finally brought us here for our items?”

Wen Hua’s lips curled into a proud smile. “Although the items I obtained are powerful, their effects are limited. I can only rely on you guys to get the items and then bring you here to collect them.”

As she spoke, she hooked her finger and took Zheng Yuan’s storage space. She rummaged through it and indeed found a hammer-like item.

“Five thunder sky-blasting hammer, an attack item for the Triple Crown Emperor. Hehe, looks like big brother Zheng’s luck is pretty good. Before meeting us, he obtained a powerful item on his own.”Wen Hua smiled faintly.

A hint of malevolence bloomed in his smile as he looked at Ming Jing, his gaze became even more malevolent. “I have to say, the Cangsheng Chess is a very fair place. For a small character like me who has been bullied, I have the opportunity to dominate everyone!”

Ming Jing swallowed hard and said, “Wen Hua, we are colleagues. We have been together for many years. Please calm down. If you want the illusion-piercing golden eyes, I will give it to you. Don’t be rash...”

Chapter 1934 Forced Substitution

“Colleagues? “Hehe...”Wen Hua’s smile became even more wanton. “We are just competitors. Don’t tell me that you and Zheng Yuan have never tried to trip me up in secret! And don’t tell me that the original intention of you inviting me to look for the props was to help me sincerely?”

Ming Jing’s heart trembled. The original intention was to let Wen Hua act as a free fighter and get rid of her after they broke up, taking away her props.

“If I didn’t pretend to be eager to leave the game of chess and not be greedy for any props, I would have become a corpse by now, right?”Wen Hua sneered. “But it doesn’t matter. I have the same thoughts as you.”

With a thought, the three heavens pressed down from different angles.

“Ah! You B * Tch...”Ming Jing roared in anger. He was actually deceived by this woman’s appearance!

With a boom, Ming Jing was crushed on the spot.

Hua Wen hooked her dirty hand and took Ming Jing’s broken Golden Eyes. A trace of joy appeared on her face.

Then, she looked at Su Yu who was trapped under several layers of the sky in a teasing manner. “To be honest, I didn’t think that there would be an outsider joining. However, one more person means one more item. Am I being disrespectful?”

Su Yu’s expression darkened. “Can you tell me a question at the last moment?”

Wen Hua was like a god who controlled the lives of the common ants. Her snow-white chin was like that of a god. “Seeing that you are innocent, I pity you for once. Go ahead.”

“I want to know, every item should have a guardian beast. Why Don’t you have any items?”Su Yu asked.

Wen Hua was surprised. “Oh? You still care about this before you die? I thought you would ask something important.”

“That’s simple, because the guardian beast is right in front of us.”Wen Hua held the crown, and the remains of the five crowns actually moved!

“He is! But, he can only move around in this primal chaos region.”Wen Hua said regretfully.

This remains was well preserved. Although it did not have divine power, just its physique was enough to contend against the four crowns emperor!

If the remains could walk out of the primal chaos region, with his strength, so what if Sword Alliance master and Dark King came personally?

The most difficult thing was that he was a guardian beast and listened to the control of the tool!

“There’s nothing more to ask, right?” Wen Hua revealed a hint of greed. “The scepter you obtained in the ancient tomb is actually not as simple as an attack tool, right?”

Su Yu did not deny it. “Yes, it’s about the same. Its power is pretty good.”

Wen Hua smiled sympathetically. “Then, I’ll have to trouble you for a while. You’ll sleep here forever.”

As his voice fell, several pieces of the sky fell and pressed down fiercely.

Su Yu shook his head slightly. “Perhaps you’ve misunderstood what I mean by ‘time and time’.”

He took out a snow-white feather and poured divine power into it before throwing it out on the spot.

“Use my pearl to exchange for the Crown of the other Party!” Su Yu closed his eyes and said softly.

Instantly, the pearl in his palm and the Crown in Wen Hua’s palm both had the mark of a white feather.

Wen Hua immediately felt that something was wrong. She held the crown tightly and shouted delicately, “Su Yu, what are you doing?”

All of a sudden, she suddenly felt that the weight of the thing in her palm suddenly lightened.

She opened her palm and was furious.

The crown had turned into a pearl that only had the effect of invisibility. Moreover, its range was limited to a single-crowned champion. If the enemy’s cultivation surpassed that of a single-crowned champion, it would be ineffective.

Then, she looked at Su Yu. The crown that belonged to Wen Hua appeared in his palm.

“You... that feather can be exchanged for a specific item?” Wen Hua sucked in a breath of cold air. She was extremely shocked and furious.

That crown was clearly a chance given to her by fate, but it was actually taken away by Su Yu!

She was momentarily absent-minded. Without saying a word, she took out Zheng Yuan’s five Thunder Heaven Exploding Hammer and immediately activated it.

Su Yu said calmly, “Put it down and I will spare your life.”

Wen Hua’s body stiffened. She held the five Thunder Heaven Exploding Hammer and hesitated. She did not dare to activate it because the remains of the five crowned emperor behind her let out a low roar. As long as Wen Hua acted recklessly, she would immediately be killed.

After struggling for a while, she slowly put down the five lightning heaven devastating hammer.

“And the delusion Golden Eyes.”

Wen Hua pursed her lips and reluctantly put it down.

The delusion Golden Eyes was one of the remaining two delusion Golden Eyes. In terms of value, it was not inferior to a five crowns emperor level item... if she was lucky enough to find the chess master!

“And your storage ring.”

Wen Hua felt bitter in her heart. Her last bit of luck had been extinguished. It seemed like the other party was meticulous and would not leave her any chance.

Helpless, she put down her spatial storage ring.

Su Yu waved his hand through the air, and all three fell into his palm.

Especially the shattering void Golden Eyes, which made Su Yu feel much more at ease.

The risk of him being seen through had been reduced by half!

After searching Wen Hua’s spatial storage ring, he found something as expected. A talisman called “Heaven Abyss curse” lay quietly inside.

After using it, he could teleport the designated person out of the 48 regions.

If he met a powerful enemy, he could teleport them away instantly, giving himself a chance to escape. It was equivalent to a life-saving talisman.

Wen Hua looked extremely regretful. He held the crown in his hand and was careless.

If he was careful and prepared this talisman at all times, he could send Su Yu away at the critical moment. How could there be so many troublesome things now?

Unfortunately, it was too late to regret now.

What she should be more worried about now was whether Su Yu would fulfill his promise.

“As I said, I’ll let you live, but you know too much. Just to be safe, open your soul. I’m going to give you the next restriction.”

Flower Blossom was overjoyed. She was already prepared to be killed by Su Yu.

She didn’t expect him to really keep his promise.

However, if he placed a restriction on her, she could completely accept it.

Hence, she was very obedient and was placed under the restriction by Su Yu.

“You can leave now!” Su Yu said.

She believed that she did not have the courage to tell others that Su Yu had many props.

“Young master Su, what can I do for You?” Wen Hua did not leave. Instead, she asked wisely, “I have nothing and my strength is at the bottom. If I leave this area, I might not be able to live until the end of the game.”

Su Yu waved his hand and was about to chase her away when he suddenly had an idea. He said, “If you stay, it’s not impossible. However, at the critical moment, I hope you can cooperate with me.”

Wen Hua hurriedly nodded. “Okay, as long as young master Su can keep me alive.”

Since she had lost the crown, she was very wise to settle for the second best option. She chose to obey Su Yu and think of ways to survive.

As a merchant of the Star Alliance Chamber of Commerce, she was undoubtedly very qualified.

“You stay in this area for the time being and hide well. You will be needed very soon.”

“Alright!”

Su Yu pondered for a moment. Most of the props in the various regions had been found. There were only a few props that had not been found yet because of the danger.

The number was very small, and they did not know the exact location. It was not worth the time.

Next, they should prepare for the upcoming chaotic battle.

According to the common life chess process, when all the tools were activated, it was the final stage, the battle for the throne!

After the tool competition, the remaining chess pieces would kill each other. Whoever killed the most chess pieces within the specified time would be the winner.

Then, the legendary Common Life Dao Master’s soul that was entrusted to the chessboard would appear and satisfy a request of the winner.

Even if it was to make a four-tiered emperor become a five-tiered emperor, such a demanding requirement could still be fulfilled.

It was believed that the chaotic battle would soon begin.

At this moment, Su Yu unexpectedly discovered two auras, one strong and one weak, speeding toward this place.

One of the auras was very familiar. It was the SAINTESS.

The other one was relatively unfamiliar, but compared to the SAINTESS, the other’s aura was exceptionally strong. It was shockingly at the level of a three-tiered emperor.

At this moment, the Saintess’ face was exceptionally pale, and her aura was weak.

It seemed that she had used that strange substitute before and died once or twice.

Just as she had nowhere to run, he suddenly noticed the aura of living beings in the distance.

Su Yu pondered for a moment, then put on his black robe again to cover his face. At the same time, he hung up the moon worship sect master’s token.

Wen Hua was stunned when she saw this. Then, her expression changed drastically. “Moon worship... sect leader?”

She could not believe that she and the others were traveling together with the Moon Worship sect leader?

That was one of the leaders of the ten great forces of the Dark Star Civilization!

Wait! was the Moon Worship sect leader a human? That was impossible, right?

At this moment, Su Yu turned her head and looked at her indifferently. “Don’t say anything you shouldn’t.”

Wen Hua hurriedly lowered her head. “Yes, Su... Cult Master!”

With a tap of her toes, Su Yu leaped out of the chaotic region and deliberately released the powerful aura of the moon worship cult master.

The three crowns emperor, who was chasing after the SAINTESS, suddenly had a serious expression on his face. He gradually stopped and looked around the moon worship cult master with slight vigilance.

After a moment, he glared at the Saintess with hatred. “Consider yourself lucky!”

The Moon Worship sect leader appeared. There might be other three crowns king of the dark star civilization nearby. For safety’s sake, he gave up the chase and turned around to leave.

The SAINTESS let out a long sigh and walked to Su Yu’s side with a weak breath. She smiled bitterly and said, “I’ve made a fool of myself.”

After learning that the moon worship sect leader was that person in disguise, she trusted him a lot and did not take too many precautions.

Su Yu frowned, “Why are you being chased by the three crowns of the Star Alliance Chamber of Commerce? You look very angry.”

The saintess pursed her lips and did not hide it. She said, “I stole a four crowns emperor level item from him, so I was chased by him until now.”

A four crowns emperor level item? The Saintess was really lucky!

“Unfortunately, that item is not an attack type item. Otherwise, I would not have been chased by him to such a sorry state.”The SAINTESS sighed helplessly.

Su Yu had the crown in his hands. Although he was also tempted by the Saintess’item, he would not go so far as to kill her. He said, “As long as you are safe, make good use of the item. The next phase of the battle for the throne might start very soon.”

However., the SAINTESS shook her head. “I’m afraid that it will be very difficult to start the next phase in a short period of time. This is because there is a region where a five-crowned emperor has appeared. Sword Alliance master led many three-crowned emperors and the leader of the three-crowned emperors of the dark star civilization led by the Dark King fought fiercely.”

“Moreover, that area is full of dangers. The Sword Alliance Master and the Dark King both tried to break in to look for the props, but they failed!”

Oh? Su Yu was surprised.

Although it was easy for Su Yu to obtain the five crowns, it was because of Hua Tianda’s good luck.

If they really relied on them to forcefully break into this area to seize the crown, it would be extremely difficult.

Putting everything else aside, the remains of the Guardian Beast's five crowns were a hurdle that could not be crossed.

"Let's go and take a look!" Su Yu's eyes shone.

With so many tools in his hands, Su Yu was interested in barging into the other five crowns' tool area.

At the same time, he wanted to find out who had the other powang golden eye.

Chapter 1935 Taking The Opportunity To Take Revenge

A few hours later.

Su Yu and the Saintess stood side by side at the border of the game of universal life, looking at an extremely ordinary-looking area.

"This is the area where the five crowns are located?" Su Yu stared at the area for a long time and couldn't help but be surprised.

Compared to the desolate and ancient area where the heaven and Earth shared the crown, the area in front of him was ordinary and unremarkable.

As far as the eye could see, it was an ancient mountain and river that had existed for an unknown number of years.

About ten million creatures of various races lived in it leisurely and leisurely.

None of them had any cultivation base, and none of them had any decent physique cultivators. They were the most ordinary mortals.

The entire mountain and river didn't seem to have any danger to speak of.

However, it was this kind of mountain and river that Fu Bingyu, the Sword Alliance Master, and many of the three crowns of the dark star civilization were wandering outside the region with solemn expressions, not daring to barge in at all.

The battle between the two sides had temporarily calmed down.

Sensing the Moon Worship Sect Master's Aura, Fu Bingyu and the three crowns of the dark star civilization cast their gazes over one after another.

"Moon Worship Sect Master!" Sima Biyun's expression relaxed slightly as she leaped forward to stand in front of Su Yu.

As for Lu Wuming, she had secretly ordered him to stay by Fu Bingyu's side and not act rashly. Otherwise, Fu Bingyu would easily notice that Lu Wuming had already taken control of him.

Master Bao Kun and the Master of the Azure Underworld Mansion walked over one after another and cupped their fists to greet them.

At the same time, Yun Qianshuang, Hua Hun, and Leng Yun all looked over. They glanced at Su Yu indifferently before shifting their gazes to the Jiang Shan region.

Su Yu stared deeply at Yun Qianshuang before returning the greeting to the three of them. He asked, "Manor Head's wife, where is the danger in this region?"

He sized up the area for a while but still could not see the danger.

Sima Biyun's gaze became more solemn as she said, "This area, also known as the Cang Sheng region, is the most important area in the Cang Sheng Chess."

Cang Sheng region? Su Yu was slightly apprehensive.

If he remembered correctly, the Cang Sheng region was the first area that appeared when the Cang Sheng chess was created.

The dao of the Cang Sheng contained the dao of the Cang Sheng Dao master within it. It could be said to be the essence of the Cang Sheng Chess.

It was easy to imagine how many invisible dangers would be hidden in such an area.

"Any mortal in the area is transformed from the Dao of the common people left behind by the DAO Master of the common people. They live and die in the area of the common people. They go through reincarnation again and again, becoming different living beings over and over again. The only thing that hasn't changed is that the Dao they carry has never weakened

"According to the preliminary analysis of Dark King and Sword Alliance master, it is very likely that the props are stored in the royal family of this region. This is because the people in the royal family are the only living creatures that have never experienced reincarnation and have survived until now without any changes."

Su Yu's pupils constricted slightly. It was impossible for mortals to survive for such a long time.

They were undoubtedly the Dao of the common people!

What was puzzling was why the DAO Master of the common people did not let them go through reincarnation over and over again, but instead let them live forever?

Was it because of their status as guardian beasts?

If it was Su Yu, he would have made the same judgment.

"The problem is that all the members, including the imperial family, objected to entering the Imperial Family!" Sima Biyun's expression turned serious. "The scary thing is that the will they objected to was the will of the DAO Master of the common life. The will he released forcefully resisted the Dark King and Sword Alliance Master. They couldn't enter at all."

"If we forcefully barge into the royal family, something even more dangerous will happen." Sima Biyun pointed at the Star Alliance's Chamber of Commerce. "The two three crowns were wiped out on the spot by the furious will of the common people after they barged into the Royal Palace!"

"Even the Dark King and the Sword Alliance Master were affected. They were almost left behind together!"

Hearing this, Su Yu thought to himself. If they wanted to enter, they couldn't force their way in. They could only use other methods.

Suddenly, Dark King gave the order for all of them to gather over.

Then, it was the same for Sword Alliance Master. All his subordinates gathered towards him.

After exchanging a look, the two giants brought their own people to face each other.

Sword Alliance Master was dressed in a golden and blue robe. He was a member of the sky feather tribe and was proficient in the flying escape technique.

“Dark king, time waits for no one. Why don't we get that item first, and then we can fight over it?”

Fu Bingyu nodded deeply. “Alright, let's call a truce for now.”

After a slight pause, he said, “Do you have a good plan to get that item? If you don't, I do have an idea.”

The Sword Alliance master remained calm. “Tell me about it.”

“It's quite simple,” Fu Bingyu said. “None of us have ever shown our faces in the Cang Sheng region. We can disguise ourselves as the creatures inside and then think of a way to sneak into the imperial palace and find the item. What do you think?”

The Sword Alliance master smiled lightly. “Great Minds think alike! However, I feel that we can add another condition. The people from both sides must cooperate and learn from each other's strengths.”

He was talking about cooperation, but everyone's hearts were as clear as a mirror.

It was mutual supervision, right?

In case someone from one side found the props first and took them all for themselves.

“Sure.” Fu Bingyu naturally agreed.

Next, both sides picked out the people who had never entered the area.

On the dark star civilization's side, only Su Yu and the Saintess had never entered.

On the Star Alliance's side, there was only a three-crowned emperor and an acquaintance of Su Yu.

Glancing at the two of them, Su Yu couldn't help but laugh.

What a coincidence!

Needless to say, that acquaintance was the great leader of the Wolf Smoke tribe.

They had met the three-crowned king not long ago. He was the one who had chased after the SAINTESS.

The four of them had different expressions when they met.

Fu Bingyu introduced, “These two are the moon worship cult master and the Saintess of our dark star civilization.”

The Sword Alliance master stared at Su Yu and said calmly, “These two, one is manager Zhang from the branch, and the other is my disciple, Wang Ying!”

“Both of you should get to know each other.”The two giants gestured.

Their eyes met, and Sparks flew in the air.

The two giants were slightly stunned. It seemed that the friction between them was particularly heavy? Could it be that they had a feud in the past?

“There’s no time to lose. The four of you quickly disguise yourselves. Moon worship sect master, Saintess, if you bring out the props first, I’ll hand over the Northern Heavenly Palace and star Gallop sect to you to rule!”

Upon hearing this, Hua Hun and Leng Yun were shocked. If they were handed over, wouldn’t the north be completely invaded by the south?

In the future, what would the north use to compete with the south?

“We will definitely not fail our mission!”

At the same time, in order to motivate them, the Sword Alliance master also gave out corresponding rewards, especially for Wang Ying. “Wang Ying, if you bring it out, I’ll send you to a five-star civilization to further your studies!”

Wang Ying was so excited that her whole body trembled. “Thank you, Sword Alliance Master. I’ll definitely get the props back!”

After a simple discussion, the four of them chose to enter from an inconspicuous area.

No one noticed them, so they were not resisted by the will of the common people.

The four of them first appeared in an empty valley. Without saying anything, Su Yu cast a transformation spell and transformed into an ordinary-looking young master.

The saintess stared at the person Su Yu had transformed into and was slightly stunned. Although this person’s appearance was ordinary, that pair of deep abyss-like eyes was too similar to a person!

She thought to herself, is this the true appearance of the person who pretended to be the Moon Worship sect leader?

The eyes were really alike!

After pondering for a moment, she also disguised herself and transformed into a wealthy young lady dressed in expensive clothes.

Her appearance had evolved from her true appearance, and there was a faint shadow of her true appearance.

Su Yu subconsciously looked over and could not help but freeze his eyes. The person that the SAINTESS had transformed into reminded him of the Saintess of the Starry Sky Divine Realm, Saint Yuanxin!

Their appearances were somewhat similar.

“Is it your true appearance?” Su Yu asked.

The Saintess’ beautiful eyes turned slightly as she nodded and said, “Yes, what about you?”

A trace of regret flashed through her eyes. It seemed that he was overthinking things and said, “Me Too!”

Manager Zhang and Wang Ying casually transformed into two woodcutters.

Manager Zhang took a look at Su Yu and the Saintess’ expensive clothing, he reminded them, “There are more commoners in the common life region. Don’t you think it’s rude to show up in the wilderness in your clothes? If the living beings in the common life region find out and drag us down in searching for props, you’ll be the ones to blame!”

Su Yu didn’t think much of it. “For things like identity, it doesn’t matter how high or low you are. What’s important is that you’re reasonable.”

“Then it’s up to you. Since you ruined it, you won’t be able to bear the consequences!” Manager Zhang snorted.

Su Yu smiled lightly and walked out of the valley together with the SAINTESS.

Outside the valley was the official road leading to the Imperial City, and the traffic was bustling.

The four of them suddenly walked out of the valley, immediately attracting the attention of some passersby, who all looked at them in surprise.

Coincidentally, a team patrolling the border passed by this place.

The leading steed sat steadily on an experienced general. With a flash of his eyes, he led the patrolling soldiers away from the official road and headed straight for them.

“Where are the four of you from? And where are you from?” Su Yu glanced at them and activated his listening ability to pry into their thoughts.

In an instant, from his inner activities, he learned that he had just gone to the Lian family fort to discuss the matter of preventing enemies from invading the outer realms.

Su Yu said sternly, “General Cheng, you just came out of the Lian family fort. How could you forget me? I’m the child of the Lian family fort’s third aunt’s aunt. I’ve been refining pills in the Lian family fort. Haven’t you seen me before?”

The general was slightly stunned. He knew that he had just come out of the Lian family fort. He should not be an outsider.

However, what third aunt’s aunt’s child? Who knew who you were?

“Why are you here? Who are they?” The general’s expression softened as he looked at the four of them with a strange expression.

Su Yu said, "This young lady is my friend. The two woodcutters behind her are our servants. They came here under my mother's orders to find a secluded place of refuge. I heard that those people outside are immortals who can fly around. My mother was worried that the Lian family fort would not be able to be protected in the future, so she asked me to find a way out."

"Nonsense!" General Cheng's eyes turned cold.

Saintess, manager Zhang, and Wang Ying's hearts skipped a beat. This was not good. It was as if the other party had seen through them.

"We are in the divine kingdom. With just a thought, we can push the enemy a thousand miles away and even kill them. How can our divine kingdom not be able to do it?" However, general cheng said this, "Don't worry, go back. Don't let your imagination run wild."

Su Yu said, "General Cheng is right."

"En!" General Cheng turned his horse around and was about to leave when Su Yu suddenly called out to them, "Right, General Cheng, two of my servants have discovered traces of an invasion from the outer realm."

General Cheng suddenly turned his head and said, "When? Where?"

Manager Zhang and Wang Ying were stunned. Servants? The moon worship cult master actually treated them as servants!

"Little Zhang, Little Wang, you two bastards. General Cheng is asking questions, why aren't you kneeling and answering immediately? Do you want to be whipped?" Su Yu kicked Wang Ying's knee.

He subconsciously wanted to dodge, but if a servant dared to dodge his master's punishment, his identity would immediately be exposed.

Therefore, he was forced to kneel on the ground by Su Yu's kick.

"Hurry up, general of the high-speed city. Half a day ago, you saw two flying outsiders on the western mountain top of the city?"

Seeing this, the SAINTESS imitated him and kicked manager Zhang to the ground in revenge. "Damn servant! Hurry up and answer!"

Manager Zhang wanted to explode on the spot. He was the three crowns emperor, but the other party took the opportunity to take revenge.

At this moment, he was abnormally regretful. Why did he pretend to be a lowly woodcutter?

Chapter 1936 The Cold Empress (First Update)

However, he didn't dare to show any unusual emotions in front of the creatures of the common life region.

No matter how angry he was, he still had to show fear and trepidation on his face. "This lowly one deserves to die, this lowly one deserves to die!"

He got up and apologized to the SAINTESS.

“What are you babbling about? Hurry up and say it!”The SAINTESS was overjoyed. She had kicked the three-crowned emperor alive, and the other party had no choice but to beg for mercy. She had never imagined that this would happen!

Manager Zhang hurriedly knelt down to the general of the city. “Reporting to you, general, I was cutting firewood in the valley half a day ago. I did see a purple-robed man and a blue-robed man flying over my head.”

“You saw them too?”The general of the city asked Wang Ying.

Wang Ying also hated the Moon Worship Sect Master in her heart, but she quickly nodded her head. “Yes, I saw them too. They were very powerful. They flew toward the imperial city in the blink of an eye and disappeared.”

Hearing this, the city general immediately became serious.

“Not good! Those two people are probably pretending to be our people and trying to sneak into the Imperial City!”The city general immediately rode his horse forward, “Quick! Return to the Imperial City and report to the imperial family that there are unknown people sneaking in...”

After a slight pause, the city general said, “Also, bring the four of them here and identify the two suspicious people at any time.”

“Yes!”

As such, Su Yu and the other two were stuffed into a military carriage by the patrolling soldiers. They rushed towards the imperial city without stopping.

When there were only the four of them in the carriage, manager Zhang and Wang Ying, whose faces were filled with fear and trepidation, finally pulled their faces down and glared at Su Yu and the Saintess unkindly.

Su Yu smiled apologetically with a pleasant expression. “The two of you, don’t hurt the harmony. That was just a temporary measure. I hope that the two of you can put the overall situation first and not take it to heart.”

The SAINTESS smiled sweetly and said, “Senior Zhang, I’m sorry. I really have no choice but to do it!”

No Choice? was he taking the opportunity to take revenge?

In that case, a scolding was enough. A kick to the ground was completely unnecessary.

Wang Ying stared deeply at the Moon worship sect leader. She didn’t quite understand how she had offended the moon worship sect leader and needed the other party to take the opportunity to take revenge?

“HMPH! It Won’t happen again!”Manager Zhang Harrumphed and swallowed his anger.

The SAINTESS smiled lightly.

After two consecutive days of travel, they arrived at the military camp outside the imperial city.

The foreign invasion that had appeared in the past few days made the imperial family extremely nervous.

Especially the last time they forcefully barged into the imperial palace, causing the imperial family to have a false alarm. They mobilized their army to guard around the imperial city and the imperial palace.

If any outsiders barged in, the will of the 100,000 strong army would be enough to kill all of them in a short period of time.

Seeing such a formation, manager Zhang and the others sucked in a breath of cold air and became more and more cautious.

If they were really seen through, they would have no chance of escaping.

The city general rode his horse into the military camp and went alone to report. Not long later, the entire military camp was mobilized and sealed off the city gates of the royal city, checking everyone who entered and exited.

Not long after, the city general returned and hurriedly said, "The four of you will each follow the army to a city gate. You will be responsible for identifying suspicious people."

The Imperial City had four gates, north, south, east, west, and west. It just so happened that each of them would be split up.

Su Yu and the others were slightly shocked. Should they split up?

That was good too. Whoever could enter the imperial palace first to obtain the props would be rewarded.

Su Yu was assigned to the south city.

Compared to the other three city gates, the south city had always been remote. There were very few people coming and going, so he was happy to relax.

He held his temper and cooperated with the soldiers guarding the gate to identify the people coming and going.

"Sigh, I really don't know what those foreign immortals are thinking. They insist on barging into our place. What is there for them to snatch from us?"

"The most hateful thing is that they should be killing the innocent indiscriminately, right?" "They just came in and without saying a word, they cast the spells of the immortals. There are casualties everywhere. They don't treat our lives as their lives at all!" "Without this, we can still have a good talk with them. Now, HMPH, it seems that those immortals are very afraid of us. As long as we are unwilling, they will be blocked outside and will even be killed!"

Hearing this, Su Yu secretly sighed.

He was also curious as to why the creatures in the Cang Sheng region would resist them.

The two sides had never interacted before, so they should be more curious, right?

It turned out that the first batch of people who came in didn't take the creatures here seriously. They thought that it was just like the outside world, where the creatures were like grass and could be killed at any time.

But in the end, they got into big trouble!

"A group of people who can not do anything but ruin everything!" Su Yu was secretly angry.

"Hey, Young Master Lian, do you really recognize that immortal who rushed in recklessly?"

Su Yu quickly said, "I have indeed seen him."

The soldier who asked the question smiled. "It would be good if you could identify him. Our Emperor is very interested in immortals. The two immortal bodies that were killed before were sent to the depths of the palace to be studied. However, His Majesty once sighed and said that it would be great if we could catch a living person to study."

Su Yu was stunned. "Why is He studying Immortals?"

"His Majesty is very curious about the legendary ability of immortals to bring the dead back to life. He hopes that he can capture one alive and dissect it on the spot."

This..

Su Yu's mouth was slightly bitter. This emperor sounded a little dangerous!

At this moment, a handsome horse was galloping towards them with many guards dressed in strange clothes.

When the soldiers at the city gate saw this, they stopped their laziness and stood up straight.

"Is Lian Qing here?" A fair lady dressed as a man sat on the stallion and asked.

Su Yu stood out, "I am here."

"Pass down His Majesty's order, enter the palace immediately!"

Su Yu was slightly stunned, "I need to identify him here..."

"No Need!" The lady waved her hand, "His Majesty has already caught one, he wants you to enter the palace to identify him!"

Caught One? Who?

Could it be that within two days, another person had attempted to break into the palace and failed?

With the cautiousness of Fu Bingyu and the Sword Alliance master, they should not have done such a foolish thing.

Could it be that someone had unknowingly broken in?

However, Su Yu had no other choice at the moment. As a citizen of the Cang Sheng region, he could only obey the orders of the emperor.

Under the envy of many soldiers, Su Yu rode on the white horse used by the palace and entered the palace.

Su Yu was brought to the Chengde Palace in the imperial palace.

The palace was empty, with only an 18-year-old palace maid standing quietly in the palace, ready to serve the guests.

Su Yu entered, sniffed the quiet incense burner, and waited quietly.

Ding --

The palace maid served a cup of hot tea. "Young Master Lian, please enjoy your meal."

"How do you know my surname?" Su Yu looked at her with slight surprise.

The palace maid's pretty face flashed with a trace of nervousness, and she said weakly, "I heard eunuch Chen Say it."

Eunuch Chen... was he the one who called Su Yu into the palace just now?

"OH." Su Yu paused, and said, "What does the immortal that His Majesty said look like?"

When the palace maid heard this, her eyes lit up slightly, and she said, "I heard that it was a red-faced, middle-aged immortal with a belly. He tried to sneak in secretly, but was discovered by the imperial guards..."

As she was speaking, a group of people suddenly walked in from outside the hall.

The first one was a majestic, 20-year-old woman in a yellow robe. She was extremely beautiful and most importantly, she wore a crown on her head, which was the symbol of the monarch.

The Empress? She was still so young?

No matter how you looked at it, she was only in her twenties.

However, after thinking about it carefully, the members of the imperial family had always been immortal. Although she appeared to be 20 years old, it was hard to tell how old she was.

"How dare you leak secrets. Guards, take her out and kill her!" The Empress Glared at the palace maid coldly.

The palace maid was so scared that she fell to the ground and kowtowed, "Please spare my life, Empress! I don't dare to do it anymore!"

However, the Empress's eyes were indifferent. There was no palace maid in her eyes.

Two imperial guards walked forward and grabbed her.

The palace maid's face was deathly pale, as if doomsday had arrived. She only knew how to plead.

Su Yu saw this and struggled, “Your Majesty, Please Show Mercy. If you want to blame someone, blame me for asking too much. This has nothing to do with this palace maid.”

The Empress looked over and her beautiful eyes flashed with a cold expression, “How Dare You Block My Orders? Do you believe that I will drag you out and kill you!”

At this moment, if Su Yu were to anger the empress a little, it would be difficult for him to get away with it.

However, the palace maid was indeed implicated because of Su Yu.

To watch her be executed was not in line with Su Yu’s principles.

Therefore, he argued, “Your Majesty, there is always a cause and effect. If your Majesty insists on killing the innocent, how can an emperor like you submit to the World?”

The Empress’s eyes were sharp and cold. “You dare to defy me?”

“I don’t dare. I just don’t want to implicate the Innocent!”

The empress stared at Su Yu coldly for a long time before she flicked her sleeves and turned around. “HMPH! Since you are still of some use, I will spare you this time!”

She waved her hand and the palace maid also narrowly escaped death.

“Follow me.” The Empress did not turn her head and walked out of the hall.

Su Yu followed her. When he passed by the palace maid who was lying on the ground, he helped her up and said apologetically, “I’m sorry.”

The palace maid wiped her tears and said gratefully, “Young Master Lian, why did you have to offend the emperor for a lowly servant like me?”

Su Yu said indifferently, “There is no distinction between nobility and inferiority. Furthermore, I was the one who harmed you. Naturally, I have to take responsibility to the end! Don’t worry.”

As he said this, he stood up and was about to leave.

Suddenly, the palace maid pulled him back and pulled out a handkerchief with beautiful handwriting. Her pretty face was slightly red. “Today, Young Master Lian saved me. I have no way to repay you. This is my personal handkerchief. It is a token of my gratitude. I hope Young Master Lian will accept it.”

This... Su Yu was slightly startled. Just a few casual words and he had captured the young girl’s heart?

Weren’t the women here a little too straightforward?

He didn’t know whether to reject or accept it. He reluctantly accepted it and said, “Take care.”

He casually put the handkerchief into his pocket and hurriedly followed the empress.

In any case, he would never have the chance to meet the palace maids again, so he accepted it.

Under the lead of the Empress and the imperial guards, they came to a dark hall.

They could smell the deep stench of blood through the doors and windows.

It was the smell of God's blood!

As expected, someone was captured!

“Tell me, Why Can Immortals Live Forever?”The empress walked in front and suddenly turned around to ask Su Yu.

Su Yu's heart skipped a beat, and he hurriedly said, “The Empress has an immortal body. I don't dare to speak recklessly.”

The Empress did not say a word. She came to the front of the hall and gently pushed open the door with her slender white jade palm. The corners of her mouth curled up into a cold arc, she said slowly, “Young Master Lian, there is one thing that I forgot to mention. Actually, the immortals that were captured were not just one, but... Three!”

Three?

Su Yu instantly woke up!

Chapter 1937 Character Assessment (Second Update)

Besides him, there were three other people like the Holy Maiden!

Could it be..

Not Good, he had been tricked!

Su Yu no longer hid anything and immediately retreated. With the help of the Taiji Yin-yang wings, he disappeared from where he was.

The empress smiled faintly and pushed open the door with her palm.

As expected, the Holy Maiden, manager Zhang, and Wang Ying were all tied up in the stone pillars in the hall.

Manager Zhang's situation was the most miserable. His entire body was covered in blood. Although his injuries could not be seen, judging from the amount of blood, he must have experienced inhuman torture.

Wang Ying was slightly better, but not much better.

Only the SAINTESS was still in good condition.

“I have to say, you immortals are very powerful. You are proficient in disguising yourselves and can easily disguise yourselves as our people. Unfortunately, you can only hide it from ordinary people, but you can not hide it from the innate senses of the royal family.”The empress waved her sleeves lightly. “Go, find him!”

The imperial guards behind her left with an indifferent expression, looking for Su Yu.

Manager Zhang looked up to the sky and sighed. “It's over! Even the moon worship sect leader fell for it!”

Hearing this, the SAINTESS smiled bitterly. She stared at the Empress's face with a hint of fear in her eyes.

She thought that the wisdom of mortals was easy to deceive.

Who knew that this empress was incomparably wise.

When she heard that there were four people who had seen immortals, the first thing she suspected was that the four of them were the real immortals who had sneaked in.

However, she did not immediately arrest them. Instead, she summoned them one by one, luring them to this great hall.

This great hall was exceptionally special. It possessed an extremely strong dao of the common people. Anyone who approached it would be contaminated by the aura of the Dao of the common people. They would immediately be able to sense their exact location, and there was no way for them to escape.

This was exactly what happened to manager Zhang. No matter how high his cultivation level was, no matter how hard he tried to break out of the imperial palace, he was easily suppressed by the imperial guards with the will of the common people.

What followed was an inhumane torture!

Their plan this time was actually very perfect. If everything went smoothly, they should be able to sneak into the palace and obtain the props.

Unfortunately, there was only one thing that they didn't expect. That was that the members of the imperial family were naturally able to sense who was the embodiment of the way of the common people and who wasn't!

Therefore, when the Empress summoned them, she saw through them when they met.

"Is he the Moon Worship sect leader?"The Empress revealed a sinister smile.
"He seems to be a slightly special person!"

Just as she was about to step into the hall, yin and yang Qi suddenly appeared behind her.

Without waiting for the empress to turn around, a strong palm reached out from her shoulder and grabbed her throat. A cold voice was heard. "You are right. I am indeed special."

He did not run away like a headless chicken like the three of them. Instead, he turned around and took advantage of the Empress's relaxed state to take her hostage.

From the looks of it, the only way to save the three saintesses and obtain the props was to take the empress hostage.

The Empress's smile froze and she said angrily, "You are really cunning!"

"Same here!"Su Yu smiled knowingly. With a flick of his finger, he released the SAINTESS. As for the other two, they smiled and said, "The two of You, pray for your own good luck."

The smile that had just condensed on the faces of manager Zhang and Wang Ying immediately shattered.

Wang ying growled, "Moon Worship sect master! Aren't you afraid that the Sword Alliance master will find out that you treat me like this?"

Su Yu didn't mind. "So what if he knows? When I get the props, it will be the king-contending stage. Do I Still Expect Your Sword Alliance Master to show Mercy to me?"

Wang Ying's words froze. Her face was full of gloom and anger.

Manager Zhang stared at Su Yu without saying a word,

in fact, if it were them, they would not have rescued the other party either. There was no reason for them to create two more enemies for themselves during the king-contending stage.

They could only blame themselves. They were not as smart as Su Yu!

Why did they not think of kidnapping the Empress?

"How dare you!"The empress gritted her teeth.

Su Yu held her waist with his other hand and secretly groped her toward her waist, he was about to pull out the dagger at her waist with his slender jade-like palm and pressed her down. "Empress, it's best not to act Rashly. To Us Immortals, your every move can not escape our eyes."

The Empress was immediately embarrassed and angry when she was embraced by Su Yu. "I am the son of Heaven. How dare you disrespect me? Quickly put down your dirty hand..."

Su Yu's hand that was holding her throat exerted a little strength, causing the empress to be unable to speak.

"Let's cut to the chase. Take us to the place where the props are hidden,"Su Yu said plainly. "Don't tell me that you don't know anything. As members of the imperial family who can live forever, you should at least understand."

The Empress struggled for a moment before she helplessly compromised. "Alright, I will take you to the hall where the props are stored!"

Under Su Yu's coercion, the two of them passed through unimpeded and arrived at the imperial family's ancestral hall.

"The props are there."The empress pointed at a bamboo tube on the altar.

"That's it."

A trace of joy flashed across the Saintess'eyes. "There's no mistaking it. There's the aura of the props inside!"

She grabbed the props into her palm through the air.

However, when the bamboo tube was opened, there was nothing inside. All that was left was the aura of the props that slowly dissipated.

The SAINTESS was stunned. "How could this be?"

Su Yu was also surprised. He said in a serious tone, "Empress, you think that we don't dare to kill you, right?"

The empress smiled mockingly. "I'm not lying. That is the ancestral artifact that has been passed down in our imperial family until now. It is also the prop that you guys are talking about."

“What about the prop inside?”The SAINTESS asked.

The empress replied, “It was taken away by the rebel army during an internal conflict. The prop is nowhere to be found. We only found the bamboo tube.”

Su Yu and the Saintess’ hearts sank.

The prop was actually missing!

If that was the case, the first round would not end, and they would not be able to start the king-contending stage for a long time.

And as long as the king-contending stage was not opened, all of them would be trapped in the game of chess for a long time.

“I have searched for many years, but I still haven’t found it. So you don’t have to waste your effort.”The Empress showed pity.

Su Yu pondered for a moment and stared at the altar.

There were many memorial tablets on the altar from top to bottom. They belonged to the members of the royal family.

Suddenly, Su Yu realized that something was wrong.

Didn’t they say that the members of the Royal Family Could Live Forever? Where did the memorial tablets come from?

His eyes flashed as he opened the clairvoyance eye.

“Saintess, remove all the memorial tablets!”As expected, he noticed something unusual.

The SAINTESS nodded and waved her sleeve, sweeping away all the memorial tablets and moving the huge altar away, revealing a wall.

The wall was decorated with stars like a brilliant galaxy.

“Inter-civilization teleportation formation?”Su Yu and the Saintess exclaimed in surprise.

What was placed in front of them was an inter-civilization teleportation formation.

They only needed a star map and a star stone to teleport through this formation.

What was more surprising was that there was a hidden wooden box on the wall.

The SAINTESS opened it and was surprised to find that there was a star map and a star stone inside.

“Unbelievable, there is a complete teleportation formation here!”The Saintess said in surprise.

The empress was slightly stunned. “An inter-civilization teleportation array... what is that?”

“It’s a teleportation array that can allow one to leave this place,” Su Yu said indifferently.

After confirming that the item wasn’t here, Su Yu stared at the teleportation array.

Could it be that the original intention of leaving behind this teleportation item was to allow them to leave the Cangsheng chess in peace, considering that they might not be able to find the item?

As long as it was activated, everyone would be able to leave the chess of the common life and head to another civilization.

However, was it really necessary?

He had already obtained the scabbard of the Emperor’s killing sword and was only short of obtaining the emperor’s killing sword.

If he could become the final victor of the chess of the common life and make the wish to obtain the emperor’s killing sword, he would be able to completely control it!

With it, Su Yu would be able to become the Emperor of Heaven and Earth in no time!

However, if he were to give up now, all his hard work would go down the drain.

However, there was no longer any possibility at the moment.

The prop had been lost many years ago, so it was impossible for it to appear again.

“Then, should you be so angry that you want to kill me now?” The Empress said with a miserable smile.

Su Yu remained silent for a while and said, “Let’s go.”

She still held the Empress and arrived at the edge of the Cangsheng region in a flash.

When she stepped out of the Cangsheng region with half a foot, Su Yu let go of his palm and completely left the Cangsheng region.

The Empress was stunned. She stood at the edge of the Cangsheng region and asked meaningfully, “You aren’t going to kill me?”

“Why should I kill you?” Su Yu asked in return. “It’s our fault for wantonly killing, but it doesn’t mean that everyone is easy to kill.”

“Let’s go back.” He waved his hand and turned around to leave.

The empress gazed at Su Yu’s back and said mysteriously, “Since you are not bad, maybe I can tell you a secret.”

Su Yu sighed. What secret could she know? Unless it was related to the props, he wasn’t interested.

The saintess secretly looked at Su Yu’s expression and giggled. “Oh? It seems that the empress really admires our moon worship sect leader!”

Su Yu said unhappily, “You still have the heart to joke around? Think about what to do. We can either withdraw from the game or find a way to find a prop.”

However, just as Su Yu finished speaking, the empress said faintly, “I don’t quite understand. A person who holds a prop in his hand is still looking around for a prop.”

HMM?

Su Yu and the Saintess turned their heads at the same time, their eyes filled with doubt.

At this moment, the Empress had her hands behind her back, and her expression revealed a meaningful smile.

Su Yu frowned, “What do you mean?”

“I mean it literally.”The Empress gave a faint smile, appearing extremely wise. “Didn’t I give you the prop a long time ago?”

As she spoke, a group of imperial guards rushed over to rescue her.

The one leading them were two women dressed as men. One of them was the one who passed down the decree, and the other was the little palace maid that Su Yu had saved!

However, at this moment, her gaze was sharp and her aura was like a flower. She led a large group of imperial guards and rushed over.

“Greetings, Your Majesty!”She knelt down and bowed. Her actions were clean and neat. She was completely different from the weak little palace maid from before!

Su Yu looked at her in confusion.

What was going on?

A group of imperial guards brought over the Dragon Chair. The empress spread her sleeves and leaned on it majestically. She smiled with wisdom and said, “Xiuwen, tell me what happened to Your Savior, right?”

The palace maid raised her head and looked at Su Yu. Her expression was calm, “Young Master Lian, I am the Emperor’s personal guard. I am not an ordinary palace maid.”

Chapter 1938 Respect For All Living Things (Third Watch)

“The scene in the hall was actually arranged by the empress to test your character.”Xiuwen also looked at the SAINTESS. “The lady beside you should have some experience.”

The saintess stared at Xiuwen and said, “Are you saying that you were punished by the Empress and that it was actually arranged on purpose?”

It turned out that the SAINTESS had experienced something similar before.

Xiuwen smiled but did not say anything. She continued, “The young lady beside you begged for mercy for me, but she was not persistent. The two male companions looked at her coldly, so the three of them were trapped, but their treatment was vastly different.”

Su Yu suddenly understood.

No wonder they were both captured, but manager Zhang and Wang Ying were tortured cruelly, but the SAINTESS was safe and sound!

It turned out that she performed well in the test.

“Only Young Master Lian, your character is impeccable, so I followed the Empress’s instructions and gave you the prop.”

What? Su Yu immediately grabbed the handkerchief in his arms and stared at it in disbelief.

“This is the prop?” Su Yu was extremely surprised, but no matter how he looked at it, he couldn’t sense the aura of a prop.

The empress smiled leisurely and said, “To be exact, it’s only half a prop.”

Half a prop?

“The other half is in my hands,” the Empress said playfully. “If you had the intention to kill me just now, you would never be able to obtain this half of a prop. Fortunately, your character is able to withstand the test!”

However, the empress swiped her palm and a trace of red appeared.

Within the red, a drop of golden blood seeped out and condensed into a golden bead.

She clamped the golden bead and said, “This is the golden bead that is inherited from the royal bloodline. When it is combined with the handkerchief, the item will appear.”

Su Yu’s eyes revealed traces of relief. Fortunately, he had never killed an assassin before. Otherwise, he would really lose out.

“I can give you the Golden Pearl, but you have to agree to one condition of mine,” the Empress said.

Su Yu nodded. “Speak.”

“Take me out of the Cangsheng region,” the Empress said.

Leave? Su Yu asked curiously, “Will it be difficult for you to leave?”

The Empress did not say a word. She extended a finger and pointed at the edge of the Cangsheng region. In the end, there seemed to be an invisible force that made her finger retract.

“As you can see, the living beings in the Cang Sheng region can not leave unless someone uses the inter-civilization teleportation formation you mentioned,” the Empress said indifferently.

Su Yu did not agree. After pondering for a long time, he said, “If you leave the Cang Sheng region, have you thought about the consequences?”

“I know.” The Empress’s expression was calm. “Die immediately!”

She was, after all, the embodiment of a strand of the Dao of the common people from the DAO Master of the Cang Sheng region. Once she left the Cang Sheng chess, she would be unable to maintain her human form and would immediately disappear.

Su Yu was slightly surprised. "Then why are you still..."

The Empress raised her palm, and the bloody mark on her palm strangely disappeared.

"Can you imagine what it's like to live alone for 10,000 years?" There was a deep sense of desolation in the Empress's eyes. "It's the dream of mortals to live forever, but who knows that to us members of the royal family, it's just a curse?"

"Looking at the unchanging landscape, it's boring and despairing. Even if I wanted to die, I couldn't!" The Empress's eyes were filled with a deep sense of vicissitudes. "I've always envied my people. At least they can have a second chance and experience it again, but I can't!"

Su Yu was slightly stunned. Immortality wasn't scary. What was scary was that being trapped in a limited environment was akin to being in prison. Furthermore, being in prison for 10,000 years.

"You must be wondering why there are memorial tablets for members of the royal family in our imperial ancestral hall. They should be able to live forever and wouldn't die." The empress felt even more desolate. "That's because they threw themselves into the ice lake and slept at the bottom of the Lake for eternity to escape from this world."

Since they couldn't die, they could only end their lives by sleeping.

"I want to, but I'm afraid that one day, I'll wake up in a deep sleep, but I'll be frozen and unable to move. That kind of situation will be even more desperate and terrifying!"

"So, I want you to promise me that you'll grant me death!"

The Eternal Empress only wished for death.

The Holy Maiden was silent upon hearing this, and her eyes revealed deep sympathy.

"Alright! I promise you." Su Yu nodded. "If there's a chance, I'll Grant You Death!"

The Empress revealed a relieved smile and said, "Thank you."

Then, she flicked her finger and the Golden Pearl flew out.

Su Yu wrapped it with a handkerchief. When the two of them touched, there was indeed a reaction.

The Golden Pearl turned into a golden light and dotted the handkerchief, forming a wonderful picture of the common people kowtowing to the living beings.

At the same time, an unfamiliar information surged into his mind.

"The common people veneration picture. Its function is to gather the power of the common people and launch an attack."

An attack-type five-crowned emperor prop!

Su Yu's pupils constricted and his heart thumped.

At the same time, an ancient and grand voice echoed in the common people chess.

"The props are all gathered, and the king-contending stage begins!"

The empress smiled and turned to leave. She waved her hand without looking back and said, "I wish you good luck!"

Su Yu looked at her deeply with gratitude in his eyes.

It was all thanks to her that she was able to obtain the five crowns.

The only gratitude she wanted was death.

All of a sudden, Su Yu was wrapped up by the power of the Cang Sheng Chess and teleported back to a certain place.

When she opened her eyes, she saw Fu Bingyu, Alliance Master Jian, and the others being teleported over.

At the same time, manager Zhang and Wang Ying, who were trapped in the Cang Sheng region, were also teleported over.

Hua Wen, who was far away in the collapsed region, was also teleported over.

All the participants had gathered in one place.

Apart from a few people who had already died, there were 40 other people present.

Fu Bingyu and the Sword Alliance leader were both shocked. "The props have been taken out? Who?"

The two of them asked their own people.

Su Yu and the Saintess shook their heads. "We don't know either. We've just escaped from the Cang Sheng region, and the battle for the throne has already begun."

Manager Zhang and Wang Ying were even more clueless, but the two of them were adamant. "They are the only ones with the greatest possibility of us being captured!"

Fu Bingyu's gaze towards Su Yu and the Saintess was filled with icy light as she said sinisterly, "If you obtain it, hand it over now and I'll remember your great merit. If not..."

At this moment, a grand voice once again entered everyone's ears.

"According to the rules of the competition, according to the cultivation level of the participants, different points will be given. If you are defeated, you will get the corresponding points. Within three days, the person with the highest score will become the winner. I will appear and fulfill one of his wishes."

Instantly, a number appeared above everyone's heads.

Among them, Fu Bingyu had 13,000 points.

The Sword Alliance leader had 11,000 points.

Yun Qianshuang had 4,000 points.

Bank manager Zhang had 3,500 points.

..

What made everyone feel surprised was that as one of the leaders of the top ten forces, Su Yu's score was actually the lowest among the three crowns. He only had 800 points.

Fu Bingyu looked at him with some surprise. In a sense, the current score actually referred to the total combat strength. Usually, the lowest score for the three crowns was 1,000 points!

800 points was too low!

Could it be because he was injured and his combat strength was slightly lower?

With that thought, the crowd did not think much of it.

However, there were clearly a few hostile gazes staring at Su Yu.

As the weakest triple crown prince, he could get 800 points after killing him. It had to be said that he was a very tempting target.

Su Yu's heart was also slightly apprehensive. This was not good.

Although Fu Bingyu would protect them temporarily, it was impossible for her to block all the attacks.

The rule was that they could get points after defeating them. However, judging from the hostile situation between the two sides, the other party would obviously not show mercy to them.

Both sides were nervous.

They were all gathered here. If they started fighting now, they would probably fight until the sky turned dark and blood would flow like a river, right?

Fu Bingyu and the Sword Alliance Master were two giants. They were reapers and no one could shake their scores.

However, for the weak, it was the opposite.

The Sword Alliance Master could probably wipe them out with a great divine ability.

They couldn't start like this!

Su Yu's heart moved slightly. The SAINTESS said that as a chess master, he had the ability to change part of the rules.

Then, could he do it now?

With a thought, he thought to himself, "Everyone disperse before we start the king-contending stage!"

The rules had indeed changed. A powerful force had divided everyone into different areas.

When Su Yu opened his eyes, he found that he had appeared in the first area.

And the others had appeared in the first place.

“Fight for the throne, begin!”

Su Yu’s gaze turned cold as he immediately shot towards the other end of the ancient city in front of him.

If everyone had returned to their original positions, then Wang Ying should also be nearby.

Wang Ying’s score was 700 points, which was only 100 points lower than his score. It could be considered a pretty good score.

Moreover, Su Yu had long had the intention to kill this person.

Su Yu immediately teleported to the southern end of the ancient city the moment he activated his Taiji Yin-yang wings.

Sure enough, he had just arrived when he saw Wang Ying’s shadow fleeing to the horizon. It seemed that he also realized that his situation was not good.

The Taiji Yin-yang wings were activated again, and Su Yu instantly caught up to Wang Ying.

Wang Ying’s face was gloomy as he roared, “Moon worship sect leader, why do you have to make things difficult for a junior like me? I’ve never offended you before!”

Su Yu smiled and took out the asura sword without saying a word.

Seeing this sword, Wang Ying was stunned for a moment, then he was shocked, “You... you’re the human from the rising sun tribe... wait, you’re not the moon worship cult master!”

Su Yu’s cold light flashed, “You’re Right!”

“They’re all gone!”

Without thinking, Wang Ying took out his blood-stained cloak again and blocked in front of him, easily blocking the terrifying killing intent.

As he lowered his guard, he fled to the horizon and shouted with a sinister smile, “You’re finished! If the Dark King finds out that you’re a fake, you’ll be the first one to be killed!”

He bit the tip of his tongue and used the secret technique he used to escape.

However, this time, Su Yu did not plan to give him any chance to escape.

He flipped his hand and took out the five thunders sky-blasting hammer, pouring divine power into it.

Instantly, the hammer in his hand turned into five different colored Thunderbolts and flew away.

With a muffled thunder explosion, Wang Ying was struck by the five colored Thunderbolts. The blood-stained cloak on his body was shattered on the spot, while his body was blasted into a bloody mess. He kept screaming miserably.

Even so, Wang Ying’s vitality was still astonishingly strong. He took out a medicinal pill and stuffed it into his mouth. His entire body instantly recovered and he once again activated his escape technique.

Su Yu snorted coldly and put away the Shura Sword. He took out a long sword that was shaped like a dragon!

Wang Quan Longzun Sword!

Ever since the dragon blood in his body became thick, he had never tried to use this sword again.

Now that he was dealing with such a troublesome enemy like Wang Ying, it was worth testing the power of this sword!

Chapter 1939 The Ocean-Pacifying Needle

Holding the Royal Longzun Sword in his hand, Su Yu immediately heard the faint dragon roar from the sword.

In the past, there had never been such a reaction.

After the purity of the dragon blood in his body, the Royal Longzun sword was indeed different.

He took a deep breath and swung his sword on the spot.

In an instant, a huge dragon-shaped sword Qi that spanned across the sky flew out at lightning speed.

The power of this attack was even more powerful than ‘annihilation’.

Wang Ying turned his head and looked at it. He was extremely shocked as he shouted, “Human, don’t even think about succeeding!”

He flipped his palm and took out a talisman that contained a strong divine aura.

Just as he was about to crush it to resist this extraordinary sword qi, Su Yu’s eyes turned sharp as he shouted, “Freeze time and Space!”

He pointed from afar, and time around Wang Ying suddenly stopped, unable to flow.

He himself held a talisman that was about to be activated and stood there motionlessly.

Although his mind could move, his body was still frozen in time.

As the first person Su Yu comprehended the nine dragons divine cauldron’s ability, it was only effective against those below the dust immortal realm. Only when he had recently mastered the laws of time and space could he subdue those at the Overlord level.

The effect of freezing depended on the strength of the enemy.

If it was a four-crowned emperor, it would probably not even take a breath.

But if it was a two-crowned emperor, it would be able to freeze for three breaths.

And three breaths was more than enough!

Boom --

Wang Ying watched helplessly as the dragon-shaped sword qi pierced through his body. He did not even have the time to react before his body exploded on the spot.

Su Yu took a step forward and immediately used the space laws to completely seal off the surrounding area.

With Wang Ying’s difficulty, he could not relax until he was sure that his body and soul were completely destroyed.

As expected!

At the instant the space was sealed off, something collided with the space a hundred feet away, causing a slight ripple.

Looking sideways, it was a pitch-black withered tree with a complete soul attached to it.

The soul looked at the space barrier in front of it with despair. It kept on attacking, trying to break out of the seal and escape.

But no matter what, it could not break out.

At the same time, a shocking suction force swept over, forcing Wang Ying out of the withered tree.

Then, he was swept towards the crack between Su Yu's brows.

"Human! You will get what you deserve!" Wang Ying roared ferociously.

Su Yu closed his brows, completely swallowing him.

His heart was unperturbed. He had heard similar words too many times, but he was still alive. Those who said these words were all dead.

With a hook of his finger, he took Wang Ying's spatial storage item into his palm.

After a casual search, he indeed found an item that was sealed in the brocade box.

Opening the Brocade Box, Su Yu's pupils constricted slightly. He revealed a happy expression, only to see a golden eyeball lying quietly in it.

"Delusion Golden Eye?" Su Yu was extremely happy.

He never expected that the second delusion Golden Eye would be obtained by Wang Ying!

It was unknown if he had ulterior motives or if he did not have enough time to hand the golden eyes over to the Sword Alliance master, thus giving Su Yu the advantage.

With the two golden eyes in his hands, Su Yu's heart calmed down.

The identity of the chess master should not be able to be seen through!

Next, he could safely hunt for points and seize the victory of the all life chess.

However, from the point of view, with his strength, it was practically a dream for him to become the person with the highest points.

Fu Bingyu and the Sword Alliance Master could easily kill a triple crown prince with more than 1,000 points, while Su Yu would find it extremely difficult to kill a triple crown prince.

If there were no special circumstances, when Cang Sheng chess ended, Fu Bingyu and the Sword Alliance master must have killed most of the people. Su Yu, whose cultivation was ranked in the latter, had almost no chance of turning the tables.

There was only one hope, which was to kill Fu Bingyu or one of the Sword Alliance Masters.

Only by obtaining more than 10,000 points in one go could he possibly become the winner of the game.

“Killing the four crowns...” Su Yu took a light breath. In the outside world, this was impossible.

But in the game of the game of the world, there were some possibilities.

“I need to make a long-term plan to kill them. For the time being, I’ll choose the other targets and try my best to get the points.” Su Yu thought to himself.

His heart moved slightly. He came to the area where the corpse of the five crowns Emperor was. The Flower Interrogation Quilt had been teleported back to this place and had been hiding beside that corpse.

Only when she sensed Su Yu’s arrival did she pop out her head. Her eyes revealed a deep vigilance.

From the beginning of the competition for the throne, to an existence like her, who was ranked at the bottom, she was like fish meat.

The moment she popped out her head, she would die.

“Hide well. I believe you will be needed soon.” Su Yu came up with a plan in her heart and comforted her.

Wen Hua hurriedly nodded and retracted her head, not daring to move at all.

Xiu --

A sharp explosion suddenly sounded as two figures chased after them one after the other.

One did not need to look to know who they were.

The SAINTESS and manager Zhang!

As expected, the SAINTESS, who was dressed in a snow-white robe, fled frantically with a face full of difficulty.

Everyone was teleported back to their original positions, and the SAINTESS and manager Zhang were no exception.

As soon as they were teleported back, manager Zhang started to chase after the SAINTESS.

The SAINTESS had met the moon worship sect leader in this area, so she came here by luck.

She was lucky that Su Yu was indeed here.

Manager Zhang also felt the aura of the moon worship sect leader, so he hesitated for a while. This time, he didn’t give up, but continued to chase after her.

Anyway, the moon worship sect leader’s combat strength showed that he was seriously injured, so his actual combat strength was less than a quarter of his. What was there to be afraid of?

Su Yu’s eyes revealed a hint of fear, but the SAINTESS could not be saved.

“Space teleportation!” Su Yu shouted softly, forcefully moving the Saintess to his side with the space law.

Manager Zhang's attack missed, and his eyes revealed fear. "Space Law Mastery? Unbelievable, you have comprehended such a law, but your strength is at the bottom of the ten leaders of the Dark Star Civilization!"

Su Yu turned a deaf ear, grabbed the saintess, and immediately fled.

Because manager Zhang was using a delaying tactic, an even more powerful divine art was brewing behind his back.

Seeing that Su Yu was so vigilant, manager Zhang snorted, extinguished the divine art prepared behind his back, and started to madly chase after him.

Su Yu took the Saintess and stepped into the collapsed area in one breath.

Manager Zhang's eyes were filled with vigilance. Although he did not know what danger was in the collapsed area, his intuition told him that it was best not to barge in without permission.

Moreover, after Su Yu and the Saintess entered, they stayed in that area and did not come out again.

Manager Zhang was even more vigilant. He stood at the edge of the area and shouted coldly, "Moon worship cult master, Saintess! I don't believe that you will never leave!"

Su Yu and the Saintess stood in the floating sky and sat cross-legged calmly, he said leisurely, "Anyway, with our strength, it's impossible for us to win. It doesn't matter if we don't come out. As for you, your combat strength is 3500 and you're ranked fourth. You have a very high chance of winning in the game of chess. Hehe, I don't believe that you're willing to give up this opportunity."

If he won, he would make the wish of becoming the fourth-crowned emperor.

Then, the power structure of the dark star civilization would be changed from then on.

As expected, manager Zhang's eyes revealed a strong unwillingness. he shouted, "Give me that item and I'll let you live. Otherwise..."

Su Yu didn't think much of it. "Otherwise what? If you have the ability to forcefully barge into this place, I'll tell you the truth. This area is quite dangerous. It's a five-crowned emperor level area. If you don't want to die, then come in..."

The Saintess was secretly anxious. She thought to herself, how could he be so stupid? He had clearly explained the danger here. The other party would only think that Su Yu was bluffing.

He was such a shrewd person. How could he make such a stupid mistake?

The thing that made her heart sink appeared as expected.

Manager Zhang's eyes flashed and he laughed strangely. "Hehe, a five-tiered emperor level area? Then I'd like to give it a try!"

If Su Yu was pretending to be mysterious, he might really be afraid of this place.

But the more he exaggerated, the more it meant that there was a problem.

Xiu --

Manager Zhang instantly rushed into the area.

Su Yu's face stiffened, and he quickly fled into the depths with the SAINTESS.

Manager Zhang laughed coldly, more and more sure that Su Yu was pretending to be poor, he laughed loudly, "One 800 points, one 600 points. Destroying the two of you is equivalent to obtaining the points of a three-crowned king. It's not in vain for me to chase after the SAINTESS until now!"

His figure suddenly sped up and rushed into the depths of the collapsed area. The four directions were filled with collapsed sky and fallen God residences.

"Die!" Manager Zhang sent out a law chain across the air, preparing to completely wipe him out.

However, at this moment, Su Yu took out the heaven and earth co-main crown. Under the stimulation of the divine power, seven or eight collapsed sky encircled manager Zhang.

All of them were sealed.

Manager Zhang frowned and was a little surprised. "You can control the collapsed area here?"

The answer was the pressure of the collapsed sky.

Manager Zhang did not know how powerful they were. He snorted and used his law chains to resist.

However, the sky seemed to be real and shattered the chains in an instant.

At this moment, manager Zhang realized that something was wrong, and there was a hint of shock in his eyes.

He stepped back without thinking, but the sky behind him also collapsed and came pressing down.

At the critical moment, manager Zhang took out a seven-foot-long iron rod that was emitting a shocking tool aura. It was a three-crowned emperor level tool.

"Ocean-pacifying divine needle!" He threw the iron rod into the air, and the iron rod immediately grew in the wind, blocking the two parts of the sky that were pressing down on him from above and below his feet. This greatly reduced the speed at which they surrounded him.

Taking advantage of this opportunity, he escaped from the gap in the sky.

The saintess secretly felt sorry for him. He was so close!

She did not expect manager Zhang to have such a powerful tool on him. He had saved her life at the critical moment.

However, Su Yu was unmoved. There was a faint smile on his face.

It would not be so easy to leave this area.

"Explode!" He shouted in a low voice.

Instantly, a nearby God palace that had floated nearby exploded.

The power of the explosion was comparable to the Triple Crown Emperor's fatal blow.

Pu --

Manager Zhang was blasted into a bloody mess on the spot, but he was far from dead.

But Su Yu was not in a hurry. He could have as many god palaces as he wanted!

When manager Zhang stabilized his body, he realized that he was surrounded by numerous god palaces.

Manager Zhang's face immediately turned pale, and his eyes were filled with shock. "You, you have grasped a five crowns emperor level item?"

Su Yu smiled lightly. "What do you think?"

With a thought, several divine residences exploded at the same time.

Boom Boom Boom --

Amidst the explosion that filled the sky, manager Zhang was blasted into pieces!

When the aftershock of the explosion dissipated, the SAINTESS blinked her beautiful eyes. "Dead?"

Su Yu's expression was calm. Her gaze drifted out of the area and she said in a focused voice, "No!"

Chapter 1940 Chess Master Exposed

The SAINTESS did not see it, but Su Yu saw it clearly. At the last moment, manager Zhang used a special tool to wrap half of his flesh and soul and send it out of the region.

With the remaining flesh and soul, manager Zhang reassembled his body and ran for his life.

"Chase!" Su Yu's cold light flashed. This person had 3,500 points, second only to Yun Qianshuang. If he could get the points, it would be of great significance to the final victory.

The saintess bit her red lips. "Alright! All of his points will go to you."

She no longer had any hope of winning. No matter how she calculated it, it was impossible for her to compare to the points of Fu Bingyu and the Sword Alliance Master, the two four-crowned champions.

Rather than that, she might as well help Su Yu.

"What About You?" Su Yu asked as he chased after her.

The Saintess thought for a moment and her beautiful eyes turned. "I don't want the points, but I hope that after the game ends, you can reveal your true appearance first. How about it?"

"Sure!" Su Yu agreed without hesitation.

After all, it didn't matter if his identity was exposed at that time.

"Hehe, it's a deal!"

The two of them quickly chased after each other, but manager Zhang had an astonishing amount of props on him.

Just as they were about to be caught up, he took out another wing-shaped prop. In an instant, his movement technique increased dramatically, leaving Su Yu and the Saintess behind.

Seeing that she was about to lose them, the Saintess hesitated for a moment and took out an ancient porcelain bowl.

The aura of the item was quite shocking, only second to that of the five crowns.

“This is the item that manager Zhang tried so hard to get back from me!”The SAINTESS said. Then, she poured her divine power into it and threw it into the sky.

Instantly, the ancient porcelain bowl flew up into the sky. The mouth of the bowl was aimed at manager Zhang, and a ball of light shot out from the bowl.

Manager Zhang, who was sprinting, was instantly enveloped by the light barrier.

No matter how fast he was running, he couldn’t escape even half a step.

“This is the effect of the world’s end near at hand. It can make designated enemies unable to leave their original location. The effect lasts for one cup of tea.”

One Cup of tea?

As expected of a four-crowned emperor level item. With this item, it would be much easier to hunt down and kill an enemy.

Unfortunately, after using it once, it immediately disappeared and became a light shadow fragment.

Su Yu flashed with a bright light and flew in front of manager Zhang.

At this moment, his cultivation had already fallen to the single crowns emperor level. His entire body was extremely weak, and Su Yu could easily kill him.

Seeing that he had no way to escape, manager Zhang’s eyes revealed a fierce expression. “Moon Worship sect leader! I admit that I’ve fallen into your hands, but don’t think that you’ll have an easy time either!”

He took out another strange item. It was a ghost mask item. He covered his face with it and stared deeply at Su Yu.

Instantly, Su Yu felt as if something had appeared in his fake body.

But no matter how hard he tried to look inside, he couldn’t find out what that item was!

“What did you do?”Su Yu narrowed his eyes and asked. He had a bad feeling.

Manager Zhang sneered, “You’ll find out soon enough!”

“You’re courting death!”In order to avoid future trouble, Su Yu no longer had any leeway and ended his life with one sword strike.

First, there was Wang Ying’s 700 points, then manager Zhang’s 3500 points. Unknowingly, Su Yu received 4200 points!

“Quickly take a look and see if he still has any props left.”The Saintess was eager to give it a try.

However, to their disappointment, Ghostface was manager Zhang's last item.

“What a waste of effort!”The SAINTESS looked disappointed.

Su Yu shook his head lightly, “It was already quite lucky to get his points! If he hadn't fallen into my trap and was heavily injured by me first, with these items in his hands, I'm afraid he would have had a lot of potential to become the final victor.”

“That's true!”The saintess thought about it carefully and suddenly felt that she was lucky.

Fortunately, when manager Zhang was chasing after her, he wasn't willing to use his items. Otherwise, a few lives wouldn't have been enough for her to spend.

“Go and take a look at Master Bao Kun and the Master of Azure Underworld Palace. It'll be much safer if we join forces with them.”

The SAINTESS smiled. “Is there a need to hide it from me? The so-called master Bao Kun and the Master of Azure Underworld Palace are actually your puppets, right?”

Su Yu smiled and did not deny it.

Through the soul connection, Su Yu quickly found the two puppets.

With the help of the two puppets at the level of three crowns, Su Yu's confidence was much stronger.

Next, they began to hunt for points.

The targets were mainly participants who had not reached the level of three crowns. Moreover, as long as the other party was willing to admit defeat, they would not kill.

Two days passed, and Su Yu, the Saintess, and the two puppets searched through forty-nine regions, looking for the hidden double crowns.

Their luck was average, and they only found three. The rest were taken by the three crowns and the two four crowns.

On the last day, there were less than ten people left from the initial forty people.

They were Fu Bingyu, Yun Qianshuang, Hua Hun, Leng Yun, Moon worship sect master, Master Bao Kun, and the Sword Alliance Master of the Star Alliance Chamber of Commerce, as well as the three three crowns.

The rest were all eliminated.

Among them, Fu Bingyu single-handedly eliminated the vast majority of people, with a score of nearly 12,000 points!

The Sword Alliance master only reached 8,000 points!

If nothing unexpected happened, Fu Bingyu would become the first place.

The two sides fought until the end, and it seemed to be a one-sided trend.

Fu Bingyu simply summoned the people of the dark star civilization to gather together.

To Fu Bingyu, as long as he could guarantee that the Sword Alliance leader wouldn't obtain any new points, he would be able to become the final Victor with an absolute advantage.

Hence, he no longer took the initiative to act. Instead, he protected the members of the Dark Star Civilization and waited for the last day of the day to pass.

He was able to control his temper, but the Sword Alliance leader was different.

When there was only half a day left, the Sword Alliance leader couldn't sit still and led the remaining three people to find the members of the dark star civilization who had gathered together.

Fu Bingyu's silhouette flashed as she stood in front of the people of the dark star civilization. She smiled at the Sword Alliance leader and the three people beside her, "Sword Alliance leader, why are there only three people left?"

The Sword Alliance leader's expression sank. The points that Cang Shengqi had given them for their combat strength were indeed reliable.

Fu Bingyu's true strength was 20% higher than his!

During the king level, the difference of 20% was immediately revealed.

Now that Fu Bingyu had an absolute advantage, if he wanted to turn defeat into victory, he could only fight to the death. If he could kill a few of the three crowns of the dark star civilization at the last moment, there was a chance of success.

"Humph! It's too early for the dark king to be happy. There's still half a day!" Sword Alliance master snorted.

Suddenly, he seemed to have sensed something and stared at Su Yu, his eyes flashing with killing intent. "You have the aura of the evil spirit inspection tool. Does this mean that you killed manager Zhang?"

Hearing this, everyone looked at Su Yu in surprise.

Su Yu's combat strength was only 800 points, while manager Zhang's was 3500 points. How did the former defeat the latter?

Yun Qianshuang looked over curiously and sized Su Yu up.

Fu Bingyu also looked a little surprised. This kid could actually defeat manager Zhang? What did he rely on? Could it be that the five crowns of the mortal world had really fallen into his hands?

The Sword Alliance Master's gaze was unfriendly. "Junior, since manager Zhang has used the evil spirit inspection on you, he must have wanted me to take a look and see what amazing tools you have on you, right?"

The evil spirit inspection was a tool that could designate one person to see clearly the tools on another person.

Manager Zhang had used the evil spirit inspection before his death to designate the Sword Alliance master to see clearly the tools on Su Yu's body.

Once he discovered that Su Yu had the heaven and earth crown, he would definitely be pursued by the Sword Alliance Master.

“Then, I’ll take a look!”The Sword Alliance Master’s finger swept in front of his eyes, and a pair of ghostly eyes flashed.

After taking a look, the sword alliance master was greatly shocked. “Two five crowns emperor level items?”

What? Everyone present turned pale with fright.

Two?

“Wait! The delusion Golden Eyes, two of them are in your hands... could it be that you...”sword alliance master stopped abruptly and did not continue.

However, he had said too much. Those who were slightly smarter already understood the meaning behind his words.

Who would think of a way to obtain two delusion golden eyes, but not use them?

There was only one person!

The chess master!

The legendary chess master who possessed the common people’s go!

He could change part of the rules of the competition, and he could also change part of the scene in the area.

During the competition for the king stage, the two sides that were about to have a group battle were all teleported to their original positions. Although no one said anything, they all knew in their hearts that it was the chess master hidden among them who changed the rules.

And the other shortcut for the common people’s go to win was to kill the chess master!

Shua Shua Shua --

Countless pairs of eyes instantly focused on Su Yu, and even the Saintess was extremely surprised.

She never expected that the chess master would be Su Yu!

Su Yu’s expression instantly became extremely gloomy.

The function of that evil ghost mask was actually to see through his props!

The purpose of him hiding the two powang golden eyes was obvious -- to conceal his identity!

Therefore, he instead revealed his identity as the chess master!

Eight pairs of eyes stared at Su Yu.

Especially Fu Bingyu and Sword Alliance Master!

“Stall the other party and buy time for me!”Sword Alliance master shouted in a low voice and rushed over in a light shadow.

Fu Bingyu was one step ahead and arrived in front of Su Yu in a flash. He said ferociously, "How dare you lie to me? You're courting death!"

He struck with his palm, as if he wanted to kill Su Yu on the spot.

Not long ago, he had praised Su Yu a lot, but in the blink of an eye, he had turned hostile and merciless. His unkindness could be seen clearly.

At this critical moment, Su Yu no longer hid anything.

Since his identity as the go master had been exposed, why was there a need to hide?

"Mountain Water Block!"As the go master, one of his abilities was to change the layout of the area.

In an instant, a large stretch of mountains and rivers appeared out of thin air between Su Yu and the crowd.

Fu Bingyu shattered the mountains and rivers with one palm, but he was unable to kill Su Yu.

Su Yu had several chances to use his taiji yin-yang wings and escape to another area in one breath.

However, he could barely shake off the three crowned emperors, but he couldn't shake off the four crowned emperors at all.

Fu Bingyu and the Sword Alliance master instantly appeared around Su Yu.

The Sword Alliance Master's eyes revealed a crazed killing intent. He wanted to turn defeat into victory, as long as he could kill Su Yu in front of him!

At this moment, one could imagine how excited he was!

Fu Bingyu's killing intent was also extremely deep. He was supposed to win, but because of Su Yu's identity, he was in a precarious situation.

If the Sword Alliance Master was one step ahead of him, then everything would be over.

If the Sword Alliance Master wished to become the five crowns king, would there still be a place for him in the Dark Star Civilization?

The two magnates exploded with unprecedented killing intent toward Su Yu. They attacked without any leeway.

Su Yu secretly gritted his teeth, the current situation was ten thousand times worse than the worst scenario imagined.

Two tycoons pursuing at the same time, how could they contend?
