

Nine-Dragon 1991

Chapter 1991 The Final Battlefield

The white-bearded old man's heart seemed to skip a beat as he said in a trembling voice, "What corpse clan did you say... I, I only suspected that you were from the Hunter Union, so I put some... some... in your spiritual tea!"

Looking at the two Earth elders showing signs of turning into corpses, he couldn't explain it clearly no matter what.

"There's no need to explain. I knew from the start that you weren't ordinary people," Su Yu said indifferently.

From the traces of battle left behind in the cave dwelling, it was indeed too serious.

With the powerful cultivation of that group of hunters, why would they need to fight such an arduous battle to capture a simple three-star civilization master?

Clearly, the combat strength of the captured people wasn't weak. At the very least, they had fought fiercely with that group of hunters for a period of time.

However, the white-bearded old man in front of him was evasive, so Su Yu had been paying attention to him from the start.

Now that he looked at it, it was a little unexpected, but it was also within his expectations.

What was expected was that the white-bearded old man and the group of people were indeed extraordinary. What was unexpected was that they were actually from the corpse race.

The entire three-star civilization had been invaded by the corpse race. It was truly shocking.

The last three-star civilization that had almost been invaded was emperor Yu of the Great Yu dynasty. However, due to Su Yu's appearance, it had been interrupted by coincidence.

Who would have thought that this green bull civilization would be taken over by the corpse race unknowingly.

However, if that was the case, then the Hunter Union's goal was very clear -- the corpse race!

It seemed that the corpse race's scourge had already alerted a higher level civilization and given the mission of exterminating the corpse race.

The white-bearded old man was exposed. He leaped up and wanted to jump into the ancient well.

Su Yu flicked his finger, and a strand of space seal covered the ancient well, making it impossible for him to get in.

Then, he opened his eyes, and the prehistoric power swept out, shattering the skin of the white-bearded old man.

Indeed, there was a corpse clan member emitting a strong corpse qi hidden under the skin!

"Follow me!" Su Yu shot out two beams of soul light from his eyes to control it.

The Corpse Qi in the ancient well was sealed, and the two earth elders were slightly better just now. The black color in their eyes quickly faded away.

After understanding everything that had happened, the two Earth elders were ashamed.

They had looked down on the new sect master, but they didn't expect that they would be tricked the moment they came out to carry out the mission. Instead, it was the sect master who predicted the future.

Thinking of this, they couldn't help but put away their contempt and felt ashamed.

“Capture the remaining corpse clan members,” Su Yu said.

With the two Earth elders taking action, the remaining corpse clan members in the cave were subdued.

“Let's go to the seamless civilization.”

The four-star seamless civilization was destroyed even more thoroughly. The entire civilization was destroyed, leaving only ruins.

The corpses of the corpse clan were left on the ground, along with a large area of vegetation infected with corpse qi.

“Next civilization.” Su Yu was expressionless.

Through the local inter-planetary civilization teleportation, they locked onto the hunters' path.

A whole year had passed. Su Yu and the others had traveled through more than ten civilizations, and they had used up more than a thousand star stones. Finally, they stopped at a four-star civilization called Yao Yue.

Yao Yue had been completely occupied by the corpse race many years ago.

Half a year ago, the Hunter tribe suddenly attacked. With lightning speed, they wiped out all the corpse race in just a few days.

Then, with Yao Yue as the foundation, they launched a brazen attack on the five-star immortal Phoenix that ruled Yao Yue.

That five-star civilization was the true target of the Hunter Alliance.

A completely occupied five-star civilization was terrifying. It was enough to imagine that sending such a powerful hunter team to wipe them out was not without reason.

Yao Yue was one of the ring civilizations of the Immortal Phoenix in the past. Standing on Yao Yue, she could clearly sense the intense battle on the Immortal Phoenix.

Waves of destructive energy waves came from the immortal Phoenix.

Now that they had entered the immortal Phoenix Rashly, there was no need to be a burden.

“Sect master, more and more creatures are gathering on Yao Yue. It's hard to say if there are any corpse races among them. Should we retreat to a safe civilization?” Su Yu swept his soul and covered more than half of the Yao Yue civilization.

Since the battle in the Immortal Phoenix, unknown creatures came from all directions one after another.

Some were here to investigate, while others were purely here to observe.

There were also some corpses that had escaped from the immortal Phoenix civilization, disguising themselves as living creatures, preparing to use Yao Yue's inter-civilization teleportation array to escape.

"No worries, how strong can the retreating corpse race be?" Su Yu said indifferently, "Go and guard the inter-civilization teleportation array. Regardless of whether you are here to Yao Yue or leaving, you need to verify your identity."

The two Earth elders nodded slightly. With their strength of the middle stage of the four crowns Emperor realm, it was not difficult for them to occupy the intercivilization teleportation array.

Su Yu sat cross-legged on the ground.

The battle between the hunters and the corpse race would probably last for a long time. He would take this opportunity to clean up the gains of the Taiji sect.

Apart from obtaining the position of sect master by chance and controlling the treasury of the Taiji sect, the biggest gain should be the space storage device of the black and white elders.

He scanned through it and discovered that the number of items in the storage item was shocking.

Apart from the large number of divine stones, there were also two precious nine Yang pills and as many as seventy to eighty nine yin pills!

Su Yu did not care too much about these until a very special item came into view.

A purple-gold wooden box came into view. Within the wooden box floated a palm-sized black and white wing.

Upon seeing this wing, Su Yu was slightly stunned before coming to a realization.

"The last portion of the Taiji Yin-yang wings actually fell into the hands of the black and white elder!" Su Yu was surprised.

According to Yingfeng Xiaoxiao's explanation, the second piece of Taiji Yin-yang wings was in the hands of an Earth Elder. He did not expect that the black and white elder had actually kept it.

It should be that Earth elder who was trying to curry favor with the black and white elder and bribed him with this item, right?

"No wonder this old man is targeting me everywhere. He wants to kill me. I See!" Su Yu suddenly realized that the black and white elder must have seen through the Taiji Yin-yang wings hidden deep inside his body. Otherwise, it would be hard to explain... he wanted to target Su Yu for no reason.

"However, it's all in my favor!" Su Yu smiled slightly. With a shake of his shoulders, a small taiji yin-yang wings emerged from his back.

Compared to the black and white elder's, Su Yu's Taiji Yin-yang wings were much smaller. Less than half of the yin-yang energy was circulating inside.

"As expected of the Taiji Yin-yang wings that have merged twice." Su Yu thought, "His taiji yin-yang wings should be able to reach the speed of a four-crowned emperor, right?"

With a thought, Su Yu stacked the two sets of Taiji Yin-yang wings together and then used the power of desolation to force them to merge.

One month later.

The two sets of Taiji Yin-yang wings disappeared and were replaced by a three-foot-long pair of black and white wings. The Yin and yang energy in the wings were vigorous, and the feathers on them were lifelike, giving off a strange spirituality.

Su Yu couldn't wait to refine them and merge them into his body. With a thought, he activated them.

Xiu --

The result was quite satisfactory for Su Yu!

He had crossed from the southern end of the demon Moon civilization to the northern end in one step!

It could be said that he had crossed an entire four-star civilization!

Such a teleportation distance was definitely at the intermediate stage of the five crowns!

Back at the mountain range.

Su Yu was secretly delighted. Three pieces of the Taiji Yin-yang wings combined into one was already so astonishing. If he were to refine the DAO Master's bone, how astonishing would it be?

He did as he was told and took out a piece of the Dao master's bone.

He had obtained two pieces of the Dao master's bone from Cang Sheng Qi. The one in front of him had already drained the dao master's blood, so it was not of much use to Su Yu.

He tried to integrate it into the Taiji Yin-yang wings and found that it was not too difficult.

A year later, Su Yu suddenly opened his eyes, and the Taiji Yin-yang wings in his palm underwent another earth-shattering change.

The size changed from three feet to six feet, and the yin and Yang Qi was no longer overflowing. Instead, it was burning like a raging flame, which was exceptionally astonishing.

Su Yu licked his tongue excitedly. He was already unable to determine how far the Taiji yin and yang wings had evolved.

It should at least exceed the middle stage of the five-crowned Emperor Realm, right?

A four-star civilization was only so big. Su Yu did not dare to try rashly. Otherwise, if he was careless and directly teleported into the void, everything would be over.

After keeping it in his body, Su Yu took out a nine yin pill without a change in expression and opened his mouth to swallow it.

One day later.

His cultivation level rose rapidly and he quickly returned to the late stage of the Double Crown Prince Realm.

He had finally returned to the peak of his cultivation.

However, as the sect master of the Taiji sect, the cultivation level of the double crown prince was not enough. He needed to continue to improve.

However, for the double crown prince to break through to the Triple Crown Prince Realm, he needed more than the energy contained in the nine Yin Pill.

Unless he encountered the boundless energy pouring out of the door of the emperor again, it would take him at least ten years to break through to the triple-crowned emperor with the nine Yin Pill alone.

Unfortunately, opportunities were hard to come by.

He stopped his cultivation and looked at the Immortal Phoenix. He found that the intense battle that had lasted for an entire year was showing signs of weakening.

“It seems like it’s almost time to end this.” Su Yu’s eyes shone with wisdom as he arrived near the inter-civilization teleportation array in a flash.

“Greetings, sect leader.” The two Earth elders were methodically inspecting the people entering and leaving the demon Moon civilization.

Su Yu waved his hand. “No need to be so polite. Have you discovered any corpse race intruders?”

“I have, and there are quite a few of them, but their cultivation levels aren’t too high.”

Su Yu nodded slowly, his eyes shining. “There will be more coming, get ready.”

Almost as soon as he finished speaking, a large area of white light flashed. Many people had teleported over at the same time.

Su Yu’s eyes flashed. “Spatial Lotus!”

A lotus instantly enveloped the entire teleportation array.

When the white light disappeared, the people inside were clearly revealed. There were over a hundred corpse clansmen!

They were injured, but without exception, their murderous aura was shocking. As soon as they appeared, they roared and pounced towards the living beings nearby.

However, what they pounced on was the isolated space lotus.

The two Earth elders felt their scalps go numb. They took a deep breath. The one hundred people in front of them were all from the corpse clan.

It was different from before. The corpse clan didn't even have time to disguise themselves. It could be seen that they had arrived in a hurry.

Among them, the lowest cultivation level was at the Overlord level, while the highest cultivation level was at the three crowns emperor level.

Seeing this scene, they secretly rejoiced. Fortunately, the sect master's space law was extraordinary. Otherwise, if he rushed out, they wouldn't be able to stop him.

"Destroy!" Su Yu stood in front of the array with his hands behind his back and said casually.

Boom --

The space lotus shattered, destroying all of them into pieces.

After one wave of destruction, the teleportation array flickered again urgently.

The two Earth elders looked as if they were facing a great enemy, and said solemnly, "Another batch of scattered corpse clan!"

Su Yu did the same thing, and a space lotus sealed all of them.

When the white light disappeared, Su Yu took a glance and confirmed that they were all corpses and was ready to destroy them.

Unexpectedly, he found two familiar shadows among them.

Chapter 1992 1,885, Terrible Situation

One of them was more familiar. It was Yun Qianshuang, the mountain chieftain of the Dark Star Civilization's number one faction, the Divine Cloud Mountain.

Of course, she was pretending to be the mountain chieftain. She had another identity.

Beside her was a young girl whom she had met once before.

At this moment, aunt and niece were mixed in the corpse clan, struggling to fight against them.

Yun Qianshuang's face was full of bad luck as she shouted continuously.

Su Yu was slightly startled. He actually met them here!

His heart slightly moved. Su Yu used the power of space to teleport the two out of the space lotus. Then, with a light touch, the Space Lotus was destroyed, destroying hundreds of the corpse clan on the spot.

The aunt and niece were suddenly freed from the encirclement of the corpse clan and let out a long sigh of relief.

They happened to see Su Yu casually killing over a hundred corpse clan members. Their Hearts were slightly shaken as they bowed towards Su Yu's back. Yun Qianshuang said, "Thank you for your help, Brother."

Su Yu turned around slowly and said with a smile that was not a smile, "With our friendship, there's no need to thank me."

Yun Qianshuang was startled. What a familiar voice.

Looking closely, Yun Qianshuang's expression became extremely pale as if she had fallen into a hopeless situation. She shouted unwillingly, "You... you were clearly thrown off by me in the Void Quicksand. When did you escape..."

Void Quicksand? Su Yu was slightly stunned. Moreover, why was the other party so afraid of Him? He remembered that this girl was still brooding over the fact that he had snatched two pieces of the Dao master's bone.

On the other hand, the girl sized up Su Yu's hair and muttered, "Purple hair turning into silver hair. It seems like this is the real handsome brother."

However, Yun Qianshuang did not think too much about it. She grabbed the girl and turned around to flee.

Su Yu was baffled. He waved his hand and a spatial barrier appeared in front of the two girls. He said, "The two of you have escaped in the wrong direction. The inter-civilization teleportation array is here."

Yun Qianshuang turned around in despair. With a humiliated expression, she said sternly, "Su Yu! Don't you dare lay your hands on our aunt and nephew. Even if you die, I will not let you take advantage of us!"

UH --

The two Earth elders looked at each other. They averted their gazes, their expressions embarrassed.

This new sect master's methods of chasing women were truly disgraceful. He had forced her to such an extent.

The veins on Su Yu's forehead throbbed. He was truly baffled.

"I think you're thinking too much. With your half-aged mother's age, would I lay my hands on You?" Su Yu harrumphed.

Yun Qianshuang was ashamed and indignant. "Stop putting on an act. You chased us from the Sea of constellations for ten years, and now you're saying you're not interested in me?"

HMM? Su Yu could tell that something was off.

Ever since he left the dark star civilization, he had never met this woman. How could he chase her for ten years?

"We've never met each other in all these years, right?" Su Yu said calmly.

This time, Yun Qianshuang finally sensed that something was wrong.

The young girl reminded him from the side, "I told you, that purple-haired handsome brother and silver-haired handsome brother are two different people. Their temperaments are completely different."

"Purple-haired?" Su Yu narrowed his eyes. "What do you mean?"

The young girl's eyes were filled with longing as she stared at the handsome brother in her heart that she had not seen for a long time, she said, "It's a handsome brother who looks exactly like you, but has purple hair and is very lustful. He has been chasing us and wants us to sleep with him."

Hearing this, Su Yu's expression turned solemn.

A purple-haired Su Yu who looked exactly like him?

"Are you really not that person?" Yun Qianshuang probed.

She also felt that it was strange. The Su Yu that she had interacted with in the past did not seem to be such an impatient and lewd person. Instead, he exuded a sense of righteousness.

However, that purple-haired Su Yu was a completely opposite existence.

She only thought that it was possible that Su Yu had exposed his true nature. Now that she had met the silver-haired Su Yu again, she had just confirmed what she was thinking.

"Su Yu, we met someone who was almost exactly the same as you. He was extremely powerful and was at the level of a five-crowned emperor. All these years, we have been hiding everywhere and only managed to escape with great difficulty," Yun Qianshuang said.

Su Yu's heart sank. Could it be the doing of the evil daughter?

When he had left the sea of constellations, he had sensed an evil aura descending upon him. From the looks of it, it was very likely that it was that purple-haired Su Yu.

It was highly likely that the vile daughter had released him to seek revenge on Su Yu!

"Haunting!" Su Yu harrumphed. His eyes shone with a cold light as he sealed the ancient formation, but the vile daughter was still unwilling to give up.

"It's good that it's not you. All these years, I've always thought that he was you. There's no difference between the two of you!"

Of course, there was no difference, because that purple-haired Su Yu's body was very likely the body that had been snatched away by the vile daughter all those years ago.

The appearance of the purple-haired Su Yu made Su Yu's mood much heavier.

The five-crowned emperor was personally sent by the evil daughter. It was likely that his strength was extraordinary and was definitely not an ordinary five-crowned emperor.

After thinking for a long time, Su Yu gradually had a plan in his heart.

"Regarding the purple-haired Su Yu, I hope that you can explain more to me later. Now, if you have nothing else, you can wait here for the time being. After I finish dealing with the matters at hand, I will bring you back to the Taiji sect."

Yun Qianshuang's mind had calmed down. She stared at Su Yu, her mind reorganized. With a faint smile, she said, "Su Yu, you seem to have forgotten something, right?"

Since he was the silver-haired Su Yu, his cultivation should still be that double-crowned emperor, right.

She could not deal with the purple-haired Su Yu, but it was more than enough to deal with the silver-haired Su Yu.

Su Yu laughed and said, "Why? Do you want the two pieces of the Dao master's bone back?"

"What do you think?" Yun Qianshuang said rather stubbornly.

Su Yu smiled but did not say a word.

Yun Qianshuang only thought that he was afraid and said mockingly, "Hand it over obediently. I can even spare you this time on account of you saving us just now. Otherwise..."

"Otherwise what?" The two Earth Elders' faces had already darkened.

Threatening their sect master in front of them really did not put them in their eyes.

"What happened between me and Su Yu has nothing to do with you two..." Yun Qianshuang glanced at them casually and pretended that she couldn't see through their cultivation. Her heart couldn't help but tighten, and she said seriously, "You are..."

The two earth elders slowly released their cultivation of the middle stage of the four crowns Emperor realm, and they firmly suppressed Yun Qianshuang. They said indifferently, "What happened between you and our sect master has nothing to do with us?"

Sect Master..

Yun Qianshuang looked at Su Yu with an inexplicable look of surprise.

It had been ten years since they last met, and Su Yu had actually managed to mingle with the sect master of some powerful sect?

To be able to make two middle stage four crowns experts bow their heads in submission, this sect must have come from a powerful four-star civilization.

"Fellow Daoists, I hope that you can clearly see that this human named Su Yu is quite cunning. He once pretended to be the leader of a certain faction in the dark star civilization. How did he manage to mingle with the position of your sect master..."

"Impudent!" The two earth elders shouted in unison. Their terrifying auras directly suppressed Yun Qianshuang so much that she found it difficult to raise her head.

"The sect master was born under the witness of all of us. How dare you create rumors and create trouble? HMPH!" The earth elder shouted.

Yun Qianshuang was extremely astonished. Su Yu was a human from the sea of constellations. How could he have the qualifications to inherit the sect master of a four-star civilization.

Did he convince all the experts of this sect?

What a terrifyingly cunning human!

She thought to herself. Seeing that she had angered the two earth elders.., she hurriedly said, “It was a slip of the tongue. Please forgive me. To be honest, the two of us are from a five-star civilization. We are from the artifact-refining civilization. Our elders are the masters of the civilization. Please give us some face.”

There was a hint of arrogance in her words.

A mere four-star civilization’s sect had no status in front of a five-star civilization.

“Is a five-star civilization that great? Moreover, you are only the junior of the Master of the civilization! Do you know that the one standing in front of you is the master of the five-star civilization, the Taiji Civilization?”

As soon as she said this, Yun Qianshuang felt as if she had been struck by lightning and fell into a daze on the spot.

“Five... five-star civilization master?”

How Could Yun Qianshuang not know the great name of the Taiji sect?

Her initial range of activity was within the Taiji sect civilization!

Su Yu had actually become the civilization master of the Taiji civilization and controlled the entire five-star civilization as well as the radiation area?

Yun Qianshuang only felt that this was a dream, an unrealistic dream.

But the two earth elders did not need to lie to her!

“Sect master, how should we deal with this woman? She has been disrespectful to you.”

Su Yu smiled lightly. “She can be spared from punishment, but she will not be able to escape death. Place a restriction on her and temporarily control her.”

“Yes!”

Yun Qianshuang bit her lips, feeling extremely bitter.

Even in her dreams, she had never imagined that Su Yu would become the leader of a five-star civilization. If she had known earlier, how would she have dared to hope for the Dao Master’s Bone?

Helpless, they placed a restriction on her and she obediently stood to the side.

Su Yu asked, “Why are you in the Immortal Phoenix Civilization?”

Yun Qianshuang said helplessly, “Isn’t it all thanks to the purple-haired Su Yu? “We fled all the way to the immortal Phoenix civilization, only to discover that the immortal Phoenix civilization has already become the base camp of the corpse race! “My niece and I have been hiding here and there for a few years, spending a few years of painstaking effort to prepare to escape the immortal Phoenix civilization. However, the Hunter Union suddenly attacked, causing us to be discovered by the corpse race. This is what happened just now.”

Su Yu touched his nose. This... was really unlucky.

“Since you came from the Immortal Phoenix, you should know about the battle situation inside, right?” Su Yu’s heart moved as he asked.

Yun Qianshuang solemnly nodded. “Yes, I know a little. The situation of the hunters is quite bad. It Won’t be long before they are all wiped out.”

“What did you say?” The two Earth elders couldn’t keep their cool and exclaimed.

Seeing that the Battle of Immortal Phoenix was gradually coming to an end, they thought that the powerful Hunter alliance had the absolute advantage. How could the situation be so terrible?

The Hunter alliance had two peak five-crowned emperors, ten middle-stage, thirty late-stage, and countless four-crowned emperors as a powerful combination!

How could it be possible for them to be completely annihilated?

Yun qianshuang nodded, “It’s absolutely true. We also saw that the situation was not good, so we vowed to break out of the encirclement. Otherwise, we wouldn’t be able to escape even if we wanted to!”

Su Yu’s expression also changed, and he said solemnly, “Are there many experts in the corpse clan? How did the Hunter Union end up in such a situation?”

He shook his head lightly, yun Qianshuang said, “There aren’t many experts in the corpse clan, but there is an existence among them who calls himself the corpse emperor. He is the successor of the Dao Corpse Clan, and he holds the Dharma Treasure left behind by the Dao Corpse clan. He slaughtered in all directions, and he is exceptionally powerful. When I left, there was already a peak five-crowned emperor who died, three middle-stage emperors were captured, and more than half of the initial five-crowned emperors were killed!”

Looking at the fluctuations gradually stopped the immortal phoenix, she silently sighed: “Now should be almost completely wiped out?”

Chapter 1993 Dao Corpse God Pearl

The two Earth elders sucked in a breath of cold air. They had seen how the Hunter Union had swept through everything along the way, and they had thought that the hunter union would be able to capture the corpse race of a five-star civilization easily.

Who knew that they would end up being wiped out.

Su Yu was the most surprised.

Others might not know who the corpse emperor of the corpse inheritor was, but how could Su Yu not know?

After the Great Yu civilization parted, Su Yu thought about how twenty years had passed and how he had already secretly controlled so many high-level civilizations.

Now, he had even started a one-sided massacre of a group of hunters from the five crowns.

The fluctuations in his ears gradually weakened, and Su Yu’s head slowly sank.

They had already left the Taiji civilization for two years. If they did not find experts to fight against the human demons in time, the Taiji sect might really be destroyed.

Their eyes flickered rapidly as they pondered. After a while, they said, "You guys continue to guard the inter-civilization teleportation formation. I'll head to the Immortal Phoenix to investigate."

No matter what, they couldn't let the corpse emperor succeed.

The two Earth elders turned pale with fright. "Sect master, you can't! Since that corpse descendant is so powerful, wouldn't sect master be walking into a trap if he went?"

Su Yu shook his head indifferently. "He's still stronger than me. However, I've lost to him twice. This time is no exception."

With that, he stepped onto the teleportation array and teleported to the immortal Phoenix.

What he saw was an endless sea of corpses. The corpses surrounded and attacked the few remaining hunters.

The Hunters had already planned to escape, but the area around the teleportation array was already filled with countless corpses.

Many of them were their fallen comrades. They joined the corpse clan and attacked them.

Although they were powerful, the corpse clan didn't fear death. They couldn't be killed by ordinary methods, so how difficult would it be to get rid of them?

Keng --

Su Yu appeared and immediately caused a group of the corpse clan to attack him.

A golden light flashed in his palm, and he held a golden sword that was burning with flames and lightning.

This sword was the golden flame forbidden wooden sword, which hadn't been used for a long time. The body of the sword was covered with a layer of unbounded karma flame.

The unbounded karma flame specialized in killing evil spirits, and it had an indescribable restraining effect on the corpse clan.

With a flip of his wrist, the long sword swept out in the shape of a half moon.

Instantly, a large area of the corpse clan was ignited and turned into ashes in an instant.

The unbounded karma flame was extremely combustible. Once the other corpse clan touched it, it would burn continuously until it turned into ashes.

A simple sword strike had wiped out tens of thousands of large corpse clan members.

"All of you, come here!" Su Yu shouted softly.

The hunters who had noticed the commotion were ecstatic. If a drowning person found a life-saving straw, they would try their best to surround it.

Su Yu held his sword and rushed in their direction. As he passed by, the corpse clan members were reduced to ashes.

No matter how strong their cultivation was, under the unbounded karma flame, they were like paper.

Soon, both sides would meet.

There were only twenty hunters who managed to break through, and each of their faces were filled with despair.

“Are you the only ones left in the hunter team?” Su Yu’s heart sank slightly.

A hunter at the later stage of the quadruple crown realm shook his head miserably. “That’s not it, but it’s about to happen! “We are only a small portion of the group that managed to break through. The vast majority of us are trapped in the Wuyin Mountain and are surrounded by the corpse clan. Without help from the outside, they won’t be able to hold on for too long with the injured within.”

Hearing this, Su Yu was slightly relieved.

Fortunately, they hadn’t reached the point where they were completely annihilated.

“Give me the coordinates. I’ll rush over now,” Su Yu said.

“No, there are groups of high-level corpse clan there. Just the corpse emperor of the Dao corpse inheritor is extraordinary. Moreover, many of our companions of the five crowns have been turned into corpse clan by them. If you go alone, you’ll only be a moth to the flame. Run!”

The Hunter Union was a relatively loose organization. Now that they were in trouble, they naturally wouldn’t risk their lives to save their companions.

“You guys go first. I’ll go take a look.” After getting the coordinates, the three-foot-long wings on Su Yu’s back suddenly spread out and disappeared with a bang.

When he reappeared, he had almost covered the entire five-star civilization.

This had already reached the peak of the five crowns’ fleeing speed!

In the entire world, unless the DAO Master personally chased after it, no one would be able to capture it.

The Wuyin Mountain was the core of the immortal Phoenix Civilization. After it was occupied by the corpse emperor, it became the base camp of the corpse race.

The Hunter alliance directly attacked the Yellow Dragon and charged into the Wuyin Mountain. They had already killed all the high-level corpse race members. Unexpectedly, a corpse emperor who was not informed of the situation appeared out of nowhere and defeated them.

What was more hateful was that the seal less mountain had an ambush enchantment.

After they broke in, they couldn’t come out again. Only the hunters who hadn’t entered the seal less mountain were lucky enough to escape.

Most of the hunters were trapped in it and were besieged by the endless corpse clan.

Otherwise, they had so many experts, and they wouldn't have been unable to escape in time.

They had been deceived!

The person who had given them the mission was most likely a living spy paid by the corpse clan.

They had sent a large number of powerful experts here to die, and after they died, they were transformed into powerful corpse clansmen.

The Wuyin Mountain was divided into ten layers.

They were sandwiched between the fifth and sixth layers. The outer four layers and the inner four layers were occupied by the corpse clan, and they were attacked from both sides.

The corpse race on the fourth level was the most violent. They were led by the DAO corpse inheritor and worked together with the former Master of the Immortal Phoenix civilization to launch fierce attacks.

The Hunter alliance only had the ability to parry the attacks.

The inner levels were equally serious. Their fallen comrades turned into the corpse race and attacked back, including the fallen peak-stage five-crowned sovereign hunter.

Internal and external problems were causing the hunters to be in danger.

“Hunter King, make up your mind. If this continues, we will all become corpse race.” A mid-stage five-crowned sovereign expert was close to the remaining peak-stage five-crowned sovereign expert.

The Hunter King was the title of peak-stage five-crowned sovereign.

The hunter king was eighty feet tall and was a muscular alien race. However, his body was covered in injuries and traces of corpse Qi were forced out from his wounds.

He had to split his attention to fight the enemy and suppress the troublesome corpse qi, which made his situation even more difficult.

The hunter King's eyes were filled with despair. “What else can I do? Fight to the death! Before dying, destroy your own body. Don't let the corpse race succeed!”

The mid-stage five crowns emperor gritted his teeth and could only fight desperately.

At this moment, the outer four layers suddenly made a move.

Large groups of corpse clansmen started to burn without any warning. They infected each other, and the express delivery was extremely fast.

In the blink of an eye, the outer three layers burned a large area.

“Did the brothers who escaped come back to rescue us?” The hunters were inexplicably excited.

The hunter king shook his head deeply. “No! It's the infinite Karmic Flame!”

“Hiss! The legendary evil-extinguishing god fire, the infinite karmic flame? Heavens, this is the fire of nothingness that even dao masters can only come across and not seek!”The speaker was extremely excited.

The hunter King’s expression was solemn. “So what if you have the unbounded karma flame? Even the unbounded karma flame might not be able to do anything to it in front of the Dao corpse inheritor.”

The corpse race also noticed the commotion behind them.

Looking behind them, their expressions all changed, and they all avoided their burning corpse race companions.

A white-furred corpse race member with a crown on his head glared at them.

However, there was no one around him.

“The familiar aura of the unbounded flame!”The Corpse Emperor said in a low voice, his eyes cold.

How could he forget that he was almost burned to death by Su Yu’s unbounded flame back in the great Yu imperial dynasty? How could he forget Su Yu’s painstaking aura.

But why couldn’t he sense its existence?

The other corpse clansmen also couldn’t sense the aura of living beings!

At this moment, he was distracted and the hunter King seized the opportunity to send him flying.

“Break out!”The Hunter King roared and led the hunters behind him to break out of the encirclement.

The corpse emperor’s face darkened and he shouted, “Stop them!”

It was only a matter of time before they were killed. As long as they weren’t allowed to escape from the seal less mountain with the barrier.

However, they barely managed to stop them. Suddenly, from another angle, a large area of the unbounded karma flame suddenly came and burned a large area of the corpse clan in an instant.

The pressure on the hunters eased up a lot again, and their eyes revealed joy as they frantically broke out of the encirclement towards the outside world.

The corpse emperor was shocked and angry. He searched carefully, but couldn’t find Su Yu’s people at all.

He barely managed to refocus his attention on the hunters, and another large area of unbounded karma flame appeared in another direction.

Because the encirclement of the corpse clan was too dense, once they died, a large area would appear, directly opening up a path for the hunters.

The hunter King finally revealed a ray of Hope. He didn't know what kind of divine ability that mysterious expert had, but he actually made a move without anyone noticing, causing the corpse clan to fall into chaos.

With his help, the hunters could break out of the encirclement with ease. They escaped from the fifth layer to the eighth layer.

The Corpse Emperor roared angrily. He temporarily ignored the person who released the unbounded karma flame. He waved the pitch-black bead in his palm and smashed it toward the hunter king.

The pitch-black bead released a shocking amount of corpse qi. Just a little bit of it shone on the living beings, and they were in so much pain that they wished they were dead.

Even someone as strong as the hunter King was unable to resist it. His entire body was emitting a dense amount of life force. This was a sign that his life force was rapidly declining.

This was the DAO Corpse God Bead, and it could only be used by living beings!

That Hunter King had been killed by the dao corpse god Bead's terrifying black light.

The hunter King had no choice but to lead his men to retreat. With this dao corpse celestial pearl around, they had no way of contending against it!

However, at this moment, a shimmering relic that was emitting a shocking Buddhist light suddenly floated in the sky.

Under the Buddhist light, Death Qi rose from the corpses, and their bodies continuously melted.

In terms of effect, it was more than ten times stronger than the unbounded karma flame!

Most importantly, the Buddha nature in this Buddhist relic was far stronger than the Dao Corpse Divine Pearl, suppressing the pitch-black light it emitted.

The hunters who were retreating revealed ecstatic expressions, taking the opportunity to kill their way out.

At this moment, under the illumination of the Buddhist relic, the corpses couldn't resist at all, and could be destroyed with a casual strike.

Even the corpse emperor was struggling painfully under the illumination of the Buddha's light.

The hunter King's eyes flashed, and a law chain shot out from his palm, hitting the corpse emperor's body instantly.

An ordinary four-crowned emperor should have been pierced through by the law chain at this moment. However, the corpse emperor's body was extremely tough, and with a muffled sound, he was only sent flying out of the no-seal mountain.

His body wasn't too damaged.

The hunter King looked around at the defenseless corpse clan and shouted, "Senior, how long can this Buddhist relic last?"

An old voice drifted over, "It's enough for you to wipe out all the corpses."

Su Yu turned into a speck of dust and secretly praised the hunter king. This hunter King's spirit was not small.

An ordinary hunter should be thinking of taking the opportunity to escape.

However, the hunter King changed his mind and decided to take the opportunity to wipe out the corpses.

“Thank you!” The hunter King’s face was filled with a cold divine light. He was most afraid of this Dao Corpse God Pearl. If it was suppressed, the corpses in front of him would not be a problem.

Chapter 1994

“Brothers, kill all the corpse clan members!” The hunter King coldly snorted and led many hunters to counter-attack.

The hunters who wanted to escape saw that there was a mysterious expert holding the line, so their confidence increased and they all joined the counter-attack.

Where the Buddha bead shone, the hunters were invincible.

The corpse emperor climbed up with difficulty and looked at the Buddha bead relic with fear in his eyes. “The Buddhist relic of the Daoist Master of the Faceless Back Life Buddha! Su Yu! It’s You!”

The familiar unbounded karma flame, the familiar aura, and the unique Buddhist relic.

Besides Su Yu, there was no other person in the world!

How could he meet Su Yu again?

Moreover, he interfered with his plan at the most critical moment?

The hunters didn’t care about the angry roar of the corpse emperor. Without the suppression of the DAO Corpse God Bead, the successor of the Dao corpse wasn’t so powerful.

Under the counterattack of the powerful hunters, the corpse clan, which had the absolute advantage just now, was destroyed.

In the time it takes for an incense stick to burn, the entire outer four layers of the corpse clan were all wiped out.

The eyes of the corpse emperor were about to crack. He couldn’t help but roar to the sky, “Su Yu!”

Could it be that he was really his old enemy? He always appeared when he succeeded!

The situation was over. The hunters rushed out of the No Seal Mountain and couldn’t do anything to them anymore.

With deep resentment and resentment, the corpse emperor led a group of experts of the corpse clan and ran away in anger.

Before he left, he put away the Dao Corpse Divine Pearl and abandoned the army of the corpse clan that he had turned into with great difficulty.

The dust that Su Yu had turned into landed on the shoulder of a powerful corpse clan expert beside him.

The Corpse Emperor ran all the way and ran to another palace filled with powerful corpse clan experts.

Different from other palaces, this palace was full of vitality, and there were creatures from the immortal Phoenix civilization here.

The corpse emperor quickly entered the palace and came to a quiet courtyard.

Lan Yue was leisurely brewing the flower wine when she saw the corpse emperor come in in a panic. Her eyes were full of worry, "What Happened?"

"Su Yu is here!"The Corpse Emperor gnashed his teeth and said.

Patter --

It was unknown whether it was anger or shock, but the flower wine in Lan Yue's hand suddenly slipped out of her hand and fell to the ground with a thump. It shattered into pieces of jade.

She clenched her pink fists, her pretty face was deathly pale, and her whole body was trembling, "Why, why did he appear again after we finally settled down?"

Su Yu had already become his nightmare.

Every time she felt that she had become the supreme consort of the corpse emperor, Su Yu would come unexpectedly and chase after her until she fled in a sorry state.

But this time, it shouldn't be the case, right?

"Corpse Emperor, with our current foundation, even if a hundred Su Yu come, we don't have to be afraid, right?"Lan Yue comforted herself.

Corpse Emperor lowered his head and clenched his fists tightly. He said in a low voice, "Pack your things and prepare to escape. Su Yu has successfully helped the hunters escape. We have no way out."

Lan Yue Hua Rong suffered a crushing defeat. She seemed to cry, laugh, and hate at the same time. "I knew it. Wherever he is, there will be no good news!"

"Stop talking. Take everything that you can take!"said the corpse emperor.

Lan Yue came back to her senses, she said sadly, "Everything that you can take is in the storage ring. But you searched through all the secret treasures of the Immortal Phoenix Civilization. The jade spring bone marrow that you refined for me is still in the final stage of the refinement. You Can't move it. Otherwise, if there is any strange movement, it will all be destroyed."

Hearing this, the corpse emperor's eyes flashed with deep regret.

The jade spring bone marrow was an ancient secret medicine that he had found from the immortal Phoenix civilization. Its effects were heaven-defying.

Lan Yue, who was only a bronze overlord, had become the Emperor of Heaven and Earth in one step.

For this, the corpse emperor didn't hesitate to search through the entire immortal Phoenix civilization. He didn't hesitate to let the entire civilization fall into an absolute state of exhaustion. He also wanted to brew this thing.

After ten years of refinement, another one or two months would be enough to succeed.

Now was the final stage. Even the slightest vibration could destroy it, not to mention transferring it to a spatial decontamination device. It would probably be destroyed in an instant.

“Forget it. We’ll find another civilization and refine it for you again.”The corpse emperor comforted her. “Losing a pot to exchange for bone marrow is better than losing a life.”

Lan Yue felt extremely angry and tired. She asked, “Corpse Emperor, why do we have to run away in such a sorry state every time we meet Su Yu?”

“This...”the corpse emperor also wanted to ask this question. In the Sea of constellations, his corpse race army had been taken away by Su Yu.

In Emperor Yu’s dynasty, he had been forced into a corner by Su Yu and had almost died.

Now, he had taken control of a five-star civilization and had been forced to retreat by Su Yu.

Why?

At this moment, the corpse emperor felt a sense of sadness as if he was asking the heavens. He had been an ambitious man all his life, so why was he being suppressed in front of Su Yu?

“Do you want to know the answer?”

Suddenly, Su Yu’s voice sounded in the empty room.

“Ah!”!

Lan Yue’s voice, which she couldn’t forget even in her dreams, appeared in her ears, causing her to scream and hide behind the corpse emperor.

The corpse emperor’s expression changed drastically as he stared at the surroundings. His blood-red eyes were gloomy as he said, “Come out if you have the ability!”

“Sure!”

Suddenly, a speck of dust on the corpse emperor’s shoulder fell to the ground and quickly folded into a human shape.

Even though they had not seen each other for twenty years, they could still recognize Su Yu’s appearance at a glance.

“You two, how have you been!”Su Yu held the Golden Crystal Sword in his hand as layers of dangerous unbounded karma flame burned.

Speaking of which, Su Yu also felt that it was inconceivable.

He and these two people really had a lot of fate between them. They often met by chance.

The corpse emperor flashed with a fierce light and immediately transformed into a white shadow. It carried corpse Qi that shook the sky as it brazenly attacked.

Su Yu lightly smiled. He stepped on the ground with both feet and soared into the sky.

He was still in the air and transformed into a giant black dragon.

The huge dragon tail swept out abruptly, sending the corpse emperor flying out of the palace.

The corpse emperor revealed a shocked expression, “You... your strength is comparable to an early-stage accustomed emperor?”

Su Yu, who had transformed into a black dragon, smiled faintly. His Dragon Claw held the Golden Flame forbidden wooden sword, and slashed down from above.

A flame that pierced through the heaven and earth whistled through the sky above the palace.

The corpse emperor’s expression changed greatly, and he shouted, “Stop him!”

He himself grabbed Lan Yue and fled at high speed!

Several transformed corpse clansmen with five crowns attacked Su Yu expressionlessly.

Su Yu stared at the direction in which the corpse emperor fled, and slightly frowned.

Every time they met, the corpse emperor was stronger than before, and its threat wasn’t small.

However, the corpse clansmen with five crowns pounced on him, and he couldn’t resist them. He used the Taiji Yin-yang wings to teleport, and lured them to the no seal mountain.

With the Buddha relics restraining them and the Hunter Union’s powerful encirclement and suppression, a few corpse clan members were immediately killed.

Su Yu’s heart moved, and he returned to the palace.

He heard clearly that the corpse emperor used the resources of the entire five-star civilization to brew a pot of jade spring to exchange for bone marrow.

As the master of the Taiji civilization, Su Yu knew how terrifying the resources of the entire five-star civilization were.

The spiritual liquid made from so many resources was probably a rare medicine.

After searching for a while, he stopped in front of a secret room in the palace.

He scanned the room with his clairvoyance and found that there was indeed a huge boiler that was a hundred feet tall. There was an entire pot of spiritual liquid brewing quietly inside.

The power contained in the spiritual liquid was close to the mysterious power that spread out after the door of the Emperor of Heaven and Earth was opened.

Su Yu was slightly happy. If he could absorb the power contained in it, it would be easy for him to break through to the third-crowned emperor!

He waited patiently outside the secret room.

There were too many corpse races in the Immortal Phoenix. With the speed of the Hunter Union, it would take at least three months to completely eliminate them.

Therefore, he didn’t need to worry that they would suddenly discover this place and snatch the Jade Spring to exchange for the bone marrow.

Two months later, the spiritual liquid in the pot had been boiled from the original pot to a fist-sized lump.

Its entire body was purple-green, like a gel that was full of elasticity.

Su Yu opened the secret chamber and touched the gel with his tentacle. The spiritual liquid instantly surged in the gel like spring water, which was exceptionally beautiful.

However, what was even more shocking was the terrifying power contained in it.

Su Yu spread it in his palm on the spot and absorbed the energy in it bit by bit.

As soon as he absorbed a bit, Su Yu was surprised to find that a bit of energy was comparable to an entire nine Yin Pill!

Its effect was really too shocking!

“Haha, the Corpse Emperor is my lucky star. He can always bring me endless benefits!” Su Yu couldn’t help but laugh as he took the time to absorb the energy within.

Under his crazy absorption, the gel could be seen drying up and shrinking with the naked eye.

After a month, suddenly, strong winds blew around Su Yu and the color of the sky changed.

A wave of primal energy gushed out from the palace, like a volcano that had been suppressed for a long time. After the energy reached its full state, it couldn’t help but erupt.

“Hehe, this is the feeling of being at the middle stage of the Three Crowns!” Su Yu felt that he had never been this powerful before, and the primal energy in his body was more than five times stronger than before.

The same move would have a tremendous change in power!

That’s right, the effect of this jade spring bone marrow exchange was far beyond his expectations. Not only did it allow Su Yu to break through to the middle stage of the three crowns, it also allowed him to break through to the middle stage of the three crowns!

His cultivation had improved by leaps and bounds.

With his current overall strength, it would be difficult for an early stage four crowns to contend against him. It might still be difficult to deal with an intermediate stage four crowns, but it was already very difficult to threaten his safety.

This immortal Phoenix’s trip was definitely not in vain!

Taking a deep breath and adjusting his condition, Su Yu released his soul to observe the immortal Phoenix’s situation.

The final battle on the Wuyin Mountain had already reached the late stages. The hunter king along with a few intermediate-stage five-crowned emperors had forcefully killed the other hunter king who had transformed into a corpse.

The rest of the hunters were scattered throughout the immortal Phoenix civilization. With the momentum of the autumn wind sweeping the fallen leaves, they destroyed all the corpse races in the civilization.

Seeing that the seal less mountain no longer needed the suppression of the Buddhist relics of the Dao master, the dust that Su Yu transformed into kept it silently.

The hunters who had just finished the battle were immediately shocked. That mysterious senior had appeared!

“Senior’s great kindness, the Hunter Alliance will never forget it!”The hunter King bowed to the distant sky with great gratitude.

Ruwu had used a Buddhist relic to break the Dao Corpse Inheritor’s divine pearl, and they had already fallen into the corpse race.

They had to repay the great kindness of saving their lives.

“Everyone is responsible for exterminating the corpse race. I just happened to meet you and found that you were trapped in the corpse race, so I did my best.”A faint old voice floated in the sky.

The Hunter King and the five crowns were shocked. The voice was right in front of them, but they couldn’t detect its existence.

Either the other party was an emperor who had mastered the space laws, or a dao master who could transform into laws.

In comparison, the latter was more likely.

After all, an emperor who had mastered the space laws was only a legend.

“Senior, you are too humble. We are all indebted to you. If there is anything you need, we are willing to go through fire and water for you!”

Chapter 1995 Profiteering

The hunter King looked sincere, but he had other thoughts.

How many people were willing to join the Hunter alliance and travel around to complete the bounty?

If they really had a background, they wouldn’t have fallen to such a state.

Because of this, hunters placed more importance on their connections than ordinary people.

Any useful connections would be treasured.

Although the senior in front of them had not made a move, he had casually brought along the limitless karmic flames and the DAO Master Buddhist relics. His cultivation level was very likely to be that of a dao master expert.

What was even more rare was that this dao master expert was willing to help them. It could be seen that he was a rather benevolent dao master.

How could they miss it?

That was why the hunter king had spoken with such sincerity.

The only thing they were worried about was that in front of the Dao Master, how could they help?

“What kind of help do I need from You Juniors?” As expected, the DAO Master’s Chuckle came from nowhere.

The group of hunters smiled bitterly in their hearts. As expected.

Disappointment flashed across the hunter King’s eyes. The sadness of being weak.

Even if he met the Dao master, he would not be able to make friends with him.

“However, if you really want to, I have a new disciple who has just become the sect master of Taiji. He might have some difficulties and need help. I am going to the nine-star civilization on official business and have no time to spare for the time being. If you can help him, it will be a great help to me.”

Hearing this, the hunters were overjoyed.

The hunter King said in a deep voice, “Senior, please rest assured. We will go to the Taiji civilization now to help your disciple.”

“In that case, I will have to trouble you.” A voice said, “This old man came in a hurry. I don’t have anything that the emperor needs. You can just use these!”

With that, rain began to fall from the sky.

However, it was not ordinary rain, but rain that contained absolute beginning qi.

Hunter king was shocked. “Absolute beginning Qi!”

Absolute beginning Qi had a great effect on them condensing their laws, but it had an even more miraculous effect on Dao Masters.

It was said that Dao masters who obtained absolute beginning Qi could transform it into a part of their cultivation, and it was extremely precious.

If he sold the absolute beginning Qi to a dao master, he would be able to sell it for an astonishing price!

The DAO Master in front of them had actually poured out the absolute beginning Qi in large quantities!

The group of Hunter kings was shocked, and they began to gather it tightly.

A moment later, the heavy rain stopped, and every hunter’s face lit up with joy.

Just the absolute beginning Qi rain alone was not a wasted trip for them, let alone working for this dao master’s disciple who had been so generous. It was not certain that they would be able to gain the DAO Master’s favor in the future.

“Thank you, Senior!”

“Hehe, I’ll leave my disciple to you for now. I’ll go...”

“Farewell, Senior!”

After he had left for a long time, the hunter king said, "Hurry up and clean up the local corpse clan. Leave No one alive. Then, we'll rush to the Taiji civilization immediately."

"Hehe, I remember that the Taiji civilization is an unknown, bottom-tier civilization, right?" "The Taiji civilization did not even qualify to participate in the conference of the Temple of zodiacal. Now that a hundred years are approaching, I wonder if they will be able to participate in the conference of the Temple of zodiacal again this time

"When it comes to the temple of zodiacal, it is not something that hunters like us can help. Let's go to the Taiji civilization first. Maybe their civilization is too backward and needs our help in modifying them."

Su Yu quietly left and returned to the demon Moon civilization.

Just as he appeared in the inter-civilization teleportation formation, three strong gusts of wind blew over.

"It's me." Su Yu reminded, and the three gusts of wind suddenly stopped. The two earth elders' pleasantly surprised voices followed, "At least the sect master is safe and sound. We were worried to death!"

It would be strange if they were not worried. After Su Yu left for three months without any news, the battle within the immortal Phoenix civilization erupted again. It was very difficult for the sect master's strength to be safe and sound.

Now that he had returned, his heart was finally at ease.

Su Yu nodded and asked, "Has a white-furred corpse and a human woman ever left?"

Shaking his head, the two Earth elders indicated that they had never met before.

Su Yu frowned. If that was the case, then the corpse emperor and Lan Yue had used the meteorite to escape. If that was the case, it would be very difficult to find their tracks.

"Sect master, are the hunters still alive?" The two Earth elders asked. As they had expected, there should not be many hunters left.

Two months ago, the large-scale fluctuation of the battle had completely stopped. It should be the last struggle of the hunters.

"Let's return to the sect first." Su Yu wanted to return before the hunters arrived at the Taiji sect civilization.

"What about the two of them?" Elder di pointed at Yun Qianshuang and the young girl.

Su Yu glanced at them and said, "Bring them back together."

One year later.

Taiji sect.

It had been three years since they left. The main city of the Taiji sect was still the same as before, which made Su Yu and the others feel slightly relieved.

It seemed that the human demon had not made a move yet.

However, it was only on the surface.

Sweeping across the Taiji sect, one could feel the gloomy and depressing atmosphere.

The disciples were either in a hurry or frowning.

The Yin-yang elders were not doing their job. They were talking to each other in groups of twos and threes, full of worry.

Even some Earth elders were not in the mood to maintain the sect. They were running around, exchanging magical equipment, talismans, and other items.

Even the most boisterous commandment peak in the past was gloomy at this moment.

The law enforcers of commandment peak were either in seclusion or busy refining spiritual artifacts.

In addition, the entire city of the Taiji sect was also inexplicably depressed.

The market, which used to be lively in Japan, was now full of people. Even zhencui hall, which was very quiet even with Zhanneng, was also full of people.

Some people with a small fortune took out their life savings to buy things that they were not allowed to use normally.

The most popular was the elixir shop. All kinds of mainstream daily consumed elixirs were almost sold out.

Even if they were sold at ten times the usual high price, there were still many martial artists who bought them.

The strange scene made Su Yu frown slightly.

After leaving for three years, something had happened that made people panic.

When she appeared in the Taiji sect, the first person to sense it was Mo Xiaochai. Her usually smiling face was full of fatigue. At this moment, she managed to pull herself together and said, "You're finally back."

Soon after, the old woman and the Earth elders rushed back one after another.

However, when they looked behind Su Yu, there was no one other than the two unfamiliar women. Their eyes dimmed one after another.

It seemed that the sect master's plan to find the hunters had failed.

To be exact, they did not have much hope in the first place.

It was one thing to be able to find the hunters, but it was another thing to be able to ask them to help.

Now that they had returned empty-handed, it was not out of most people's expectations.

"Has the human devil come out?" Su Yu asked.

Mo Xiaochai shook her head.

"Everyone is in a panic. Could it be that the news of the human devil has spread?" Su Yu's face was slightly cold. "Who spread it?"

He had repeatedly stated that the news of the human devil was only known to their higher-ups and must not be spread.

What he was guarding against was the current chaotic scene.

But in the end!

"The news has indeed spread, but it's not us." Mo Xiaochai's face was filled with anger and helplessness. "It's the Star Alliance Chamber of Commerce."

Upon hearing that it was the Star Alliance Chamber of Commerce, Su Yu did not seem to be surprised.

With the Star Alliance Chamber of Commerce's omnipresent intelligence ability, it was not difficult for them to obtain news of the appearance of the human demons.

"Why did they do this?" The two Earth elders asked in puzzlement.

Su Yu did not say anything. He looked at the market, which had skyrocketed in popularity, and a cold light flashed in his eyes. He wondered how many people in this market were secretly controlled by the Star Alliance Chamber of Commerce?

The current situation where prices were abnormally high and buyers were numerous was what the Star Alliance Chamber of Commerce was looking forward to, right?

Taking advantage of the chaos to wantonly plunder money and then running away before the destruction of the Taiji civilization?

Such a commercial trick was too simple.

"Spreading the news is only the first step. The Star Alliance Chamber of Commerce has also sent experts to negotiate with us." Mo Xiaochai didn't know whether to be happy or worried.

Su Yu said in a low voice, "It's a negotiation. Let them take care of the human demons. We will pay a certain price."

Mo Xiaochai knew Su Yu's wisdom and wasn't surprised that he could guess it. She said, "Yes."

The Taiji sect should be very excited to have a strong warrior willing to take action. There was only one possibility for them to be worried.

The price demanded by the Star Alliance Chamber of Commerce was abnormally high. They could not afford it at all.

Su Yu did not even bother to ask them about the terms of the negotiation. He said, "Now, open the Taiji sect's treasury and distribute the daily resources at a fair price to calm down the prices."

If this continued, all the wealth of the Taiji civilization's warriors would be emptied out by the Star Alliance Chamber of Commerce.

Even if the human-demon incident was appeased later, the Taiji sect civilization would fall into a long period of poverty.

Everyone was surprised. Mo Xiaochai's face tensed up. She said, "No matter how many things the Taiji sect's treasury has, it can't withstand the long-term consumption of the entire Taiji sect civilization, right?"

Su Yu shook his head lightly. "There's no need for that. If we persist for a month, we can make the profiteers of the Star Alliance Chamber of Commerce lose all their money."

More than 90% of the current prices had been hyped up.

Su Yu did not need to investigate in detail to confirm that before the prices rose sharply, the people of the Star Alliance Chamber of Commerce must have wantonly hoarded goods at higher prices than usual, resulting in a situation where the prices in the entire market were extremely low.

And because of the extreme shortage, an ordinary medicinal pill could fetch ten times the previous price, and an ordinary talisman was seven or eight times the price of the past.

As long as the Taiji sect sold the daily goods at the usual price, the Star Alliance Chamber of Commerce would not dare to sell the goods in their hands anymore.

Because their purchase price was definitely higher than the usual price. If they dared to sell, then they would lose as much as they sold.

As long as the Taiji sect persisted for more than a month, a new batch of daily necessities would be continuously refined and sent to the market, filling up the scarce goods once again.

At that time, all the goods that the Star Alliance Chamber of Commerce had accumulated would be smashed into their hands.

They would either stay in their hands and become moldy, or they would sell them at a loss.

It could be said that this was a war without any smoke.

On one side was the five-star Taiji sect, and on the other side was the Star Alliance Chamber of Commerce.

"But with our foundation, it's impossible for us to last for a month." Mo Xiaochai shook her head. She knew what kind of situation the Taiji sect's treasury was in.

"Moreover, I don't quite understand why you want to open up our Taiji sect's treasury. Why don't we take the opportunity to sell some goods at a high price and earn a lot of God Stones to replenish our Taiji sect's foundation?" Mo Xiaochai's idea was also what most people thought.

Su Yu sighed helplessly. It was a very simple reason. Did he need to explain it?

Yun Qianshuang, who was behind him, explained rather disdainfully, "Su Yu, why are the subordinates of the civilization under your jurisdiction all short-sighted? Don't they have such foresight?"

Chapter 1996 The Consequences Were Endless

Mo Xiaochai was annoyed. She bared her teeth and said, "Who are you talking about?"

"Of course it's You!" Yun Qianshuang felt that she was on the same level as Su Yu, so she was not afraid of his subordinates, she said, "Let me ask you. After the Star Alliance Chamber of Commerce emptied the Warriors' wealth at a high price, will they have money when they want to buy things in the future?"

"If they don't have money, then they don't have money. What does that have to do with us?" Mo Xiaochai did not think much of it.

"This is where you are nave! Let me ask you, if the people of the Taiji sect civilization don't have money, what will they use to buy the goods in the market in the future? If no one buys the goods, will the shops go bankrupt on a large scale? If the shops go bankrupt, will the rich owners leave the Taiji civilization with their wealth and go to other prosperous civilizations to develop

"Will there be a depression after the large-scale owners leave? "After the depression, the heavenly materials and earthly treasures excavated by the Warriors are not taken by anyone, and the daily necessities refined are not taken by anyone. They are in a desperate situation! "What will they do in order to survive? "Burn! "Kill! "Rob! "Plunder

"The Taiji civilization is in chaos, and the resources have entered an era of scarcity. How will the Taiji sect draw on its resources? "Its heritage is decreasing day by day until it is finally lacking. What do you use to voluntarily recruit new disciples? "Without new disciples, how long can your Taiji sect survive?"

At first, everyone heard it with disdain, but slowly, the more they listened, the more solemn their expressions became.

Mo Xiaochai fell into deep thought.

What she said was really... too reasonable.

It seemed that the martial artists' extortion of money had nothing to do with their Taiji sect, but the negative effects would gradually appear in the years to come, causing the Taiji civilization to enter a vicious cycle.

Perhaps, the prosperous Taiji civilization might fall into decline.

For a moment, everyone's heart was raised, and they were more vigilant than ever toward the Star Alliance Chamber of Commerce.

Yun Qianshuang finished in one breath and said disdainfully, "I finally understand how you became the leader of the Taiji sect. It's hard for you not to become the leader if you want to be with a bunch of pigs."

Su Yu shook his head calmly. "They just haven't been exposed to the dangers of business."

"Now, who else has any objection to the release of the Taiji sect's treasury?"

The old woman said, "I'm all for it. We can't let the maggots of the Star Alliance Chamber of Commerce Succeed!"

The elders agreed one after another. After Yun Qianshuang's explanation, they finally understood the great dangers hidden in the price fluctuation this time.

Mo Xiaochai also agreed, she said, "However, the foundation of our Taiji sect can only last for twenty days. I'm afraid that it will be very difficult to last for a month. By then, our Taiji sect's treasury will be exhausted, and the price will not be able to be suppressed. Instead, we will be in an even worse situation."

Su Yu nodded. "You are right, but there is no need to worry about the resources. I will contact a group of people right now and try my best to deliver the resources that we need. I believe that it will not be difficult for us to last for a month."

The higher-ups of the Taiji sect had the same opinion. After a few hours, they used the mansions of the shadow elders as temporary shops to sell daily necessities, including pills, talismans, materials, and so on.

Fortunately, the Taiji sect had many years of foundation, and they had all kinds of resources. They had everything they needed, which completely satisfied the needs of the Taiji sect's civilization.

Originally, it was difficult for warriors to find elixirs even if they had thousands of gold coins. But when they suddenly learned that the Taiji sect had opened their treasury and was selling them at the usual low price, who would still buy them in the market?

One after another, they went to the mansions of the Yin-yang elders to buy them.

For a time, the mansions of the Yin-yang elders were packed to the brim. In front of one mansions, there were millions of creatures, and the crowd was still gathering.

Because of this, elder Yin Yang was extremely busy, and he mobilized his disciples to help sell.

In order to prevent the Star Alliance Chamber of Commerce from hiring people to buy the resources of the Taiji sect, Su Yu ordered that a ranking system be implemented.

Everyone could only use their own number plate to buy once a day!

And the quantity of one time was only limited to the amount used that day.

Thus, the Star Alliance Chamber of Commerce could do nothing.

In a cold restaurant somewhere, a group of people were gathered in a private room.

The people present were all famous merchants of the Taiji civilization. Among them were the big shots of the pill industry, the overlords of the wood-elemental materials industry, the number one person in the talisman industry, and so on.

Their tables were filled with delicacies that mortals dreamed of.

However, at this moment, their faces were as gloomy as water, and they had no appetite at all.

“Say something. After all, this is the 108th gathering of the Taiji civilization branch of the Star Alliance Chamber of Commerce.”The speaker was the big shot of the elixir industry, Yao bailing.

The overlord of the wood-elemental materials industry, Xiao Qian laughed self-deprecatingly. “I would rather not have this gathering.”

In order to hide their identities, they never gathered and pretended not to know each other.

But now, they had to meet because the Taiji sect master had returned.

More importantly, not only did he come back, but he also released the Taiji sect’s treasury with great courage.

“To think that you can still keep your cool!”The number one person in the talisman industry., bao Qianjin slammed the table angrily. “Do you know that I spent three trillion to purchase low-and middle-level talismans and have sold less than thirty billion so far? If the rest can’t be sold, I... I can only die!”

The Star Alliance Chamber of Commerce would not forgive him for such a huge loss!

Xiao Qian laughed bitterly. “You only spent three trillion. Do you know that I have invested ten trillion divine stones? “Of which, three trillion is loan-sharking money borrowed from the black market. Now, I have only sold one hundred billion. If the rest is thrown into my hands, Hehe... my wife and children will be used as slaves by the black market to pay off the debt!”

Yao bailing’s face was solemn, she said casually, “Because of the huge amount of pills in my elixir industry, I’ve accumulated more than 10 trillion in the early stages for this hype. Now, I haven’t even taken back a hundred million divine stones. If you guys are so anxious, won’t I die from internal strife?”

Hearing the hidden meaning in Yao bailing’s words, Xiao Qian and Bao Qianjin’s hearts moved. They asked in unison, “Brother Yao, do you have any brilliant ideas?”

Yao bailing shook her head. “With the boldness and wisdom of the new sect master of the Taiji sect, what brilliant ideas can we have now? I’m afraid that he can see through any scheme at a glance!”

Hearing this, Xiao Qian and Bao Qianjin were greatly disappointed.

A hint of regret appeared in Xiao Qian’s eyes. “In the end, I was careless. I thought that the new sect master was just a young boy who had cultivated for less than a hundred years. He also happened to encounter a calamity like the human and demon in the Taiji civilization, so he had the idea of making a fortune.”

“Who knew that the new sect master was not only an extremely smart person, but also an extremely bold person who had opened up the foundation of the Taiji sect for hundreds of millions of years. None of the previous sect masters would dare to do this easily, right?”

Princess Bao also thumped her chest and let out a long sigh. “Who knows, he might really fall into his hands.”

“Fall? Hehe, that might not be the case!” Yao bailing said with a half-smile. “Although I don’t have any good ideas, I still have some open schemes.”

Xiao Qian and Bao Qianjin said, “Since it’s already so late, let’s not hide it. If you have any ideas, just tell us quickly. We can discuss them together.”

Yao bailing smiled confidently. “It’s very simple. We are merchants. Naturally, we should do our part as merchants -- exchange at the same price!”

Taiji sect.

Five days had passed since the opening of Taiji sect’s treasury.

In the Taiji Grand Hall, a group of Taiji sect’s upper echelons were listening to the Yin Yang Elders’ price survey of the market.

“The Bodhi Pill’s price has dropped from the peak of 300 divine stones to 150!”

“The Gale Talisman’s price has dropped from the peak of 1,000 divine stones to 700 divine stones.”

..

Su Yu listened patiently. After a long while, he said, “There are only 10,000 kinds of goods whose prices have dropped, and 90,000 kinds of goods whose prices have yet to drop. In other words, the Taiji civilization’s market has been infiltrated by the Star Alliance Chamber of Commerce, and more than 90% of its economic lifeline has been secretly controlled by someone. That’s really something!”

His words made the old woman and the Earth elders feel embarrassed.

Mo Xiaochai said, “It’s all because of that old man, the former sect master, who advocated to take in the merchants from the outside world and give them preferential treatment. That’s why many people from the Star Alliance Chamber of Commerce took advantage of the loophole.”

It was meaningless to pursue the responsibility of the dead.

The former sect master’s actions could not be wrong. At least, it had strengthened the prosperity of the Taiji civilization, but such prosperity was only an illusion.

Similar to today, when the Star Alliance Chamber of Commerce wanted to cause trouble, it would bring destruction to the Taiji civilization.

The disadvantages were greater than the advantages.

The previous sect master's decision in this aspect was seriously lacking in consideration.

"Yes, remember the names of those who maintain the high prices," Su Yu said calmly.

Seeing the harm of the Star Alliance Chamber of Commerce, everyone deeply agreed.

If they survived this disaster, they had to uproot the Star Alliance Chamber of Commerce!

While they were discussing the critical point, elder Yin Yang came to report, "Reporting to sect master, the representative of the market shop, medicine bailing, is here to pay a visit to sect master..."

"No!" Su Yu said without hesitation.

A mere merchant could meet sect master Taiji at will if he wanted to. This would make people look down on sect master's ability, and it would also make the creatures of Taiji civilization question the ability of Taiji sect to maintain prices.

Otherwise, why would they need to meet the representatives of the market shops?

Elder Yin Yang hesitated and said, "Medicine bailing said that it's about the matter of the human demons. She wants to make a deal with the sect master."

"There's no need to talk. Tell medicine bailing that the price of the pills should return to normal immediately. Let bygones be bygones. Otherwise, Scram immediately!" Su Yu could think of what medicine bailing wanted to talk about without using his brain.

In exchange for the Taiji civilization stopping the opening of the Treasury, the Star Alliance Chamber of Commerce would deal with the demons.

Medicine Elfy probably felt that this was a conspiracy. Even if Su Yu accepted it, he had to accept it. He had to make a choice.

Unfortunately, Su Yu had a third choice.

Outside the Taiji sect, in the waiting room.

Under the respectful gazes of a few Taiji sect disciples, medicine elfy arrogantly sipped his tea.

The Yin Yang Elder who was in charge of receiving them had a gentle and humble attitude. Yao bailing was an important figure that he could not reach.

Now, she even had the right to speak to the Taiji sect as an equal.

"Shopkeeper Yao, is what you said about dealing with demons true?"

Yao bailing looked at him indifferently and said, "These matters are not for you, an elder of the Yin Yang sect, to ask about, right?"

Elder Yin and Yang's expression stiffened slightly and he shut his mouth embarrassedly.

Although he was a little displeased that the other party had thrown away his face, his current position was indeed not something he could do anything about.

He could only sit alone resentfully with a respectful expression and did not dare to offend him.

Suddenly, the disciple who had gone to report returned.

Yao bailing calmly held a prepared contract and said leisurely, "I believe your sect master has made up his mind. Lead the way!"

The returning disciple revealed a somewhat amused expression and asked in return, "Lead the way?"

Chapter 1997 Open And Hidden Battles

Yao bailing glanced at him and said indifferently, "What do you think?"

The reporting disciple said neither humbly nor arrogantly, "I am a humble person and do not dare to speak carelessly. I can only convey the sect master's words. The sect master said that you have two choices. First, immediately restore the original price of the medicinal pills and let bygones be bygones. Second, if you are not willing, immediately scram back."

"Impudent!" Yao bailing was imposing even though she was not angry.

The disciple's expression was indifferent. "What's the use of shopkeeper Yao getting angry with me, this disciple. I am merely repeating the sect master's words. Shopkeeper Yao, please make your own choice."

Yao bailing was shocked and angry in her heart. She said, "Does your sect master have no foresight? I am here to help you deal with the human demons."

The disciple did not say a word and quietly waited for Yao bailing's reply.

The bullied yin yang elder secretly gloated. In the end, the sect master was still the best. He was so arrogant and self-important, but in the end, he did not even have the right to meet the sect master.

It was a great irony.

Understanding the sect master's attitude towards him, elder Yin Yang became more confident. He put on a fake smile and said, "Shopkeeper Yao, our Taiji sect's waiting room does not lack tea. You can take your time to think about it. I guarantee that you will drink enough tea."

Hearing how ironic it was, Yao bailing became even more furious.

The plan that was almost certain was ordered to scram without saying a word.

To think that he was still acting mysterious in front of his colleagues, with a confident look on his face.

He didn't even know how to explain it when he went back.

"Humph! Don't be so smug. It's just the beginning. I don't believe that your Taiji sect can last until the end!" Yao bailing was defeated and left with a flick of her sleeve.

Elder Yin Yang said in a weird tone, "Shopkeeper Yao, I won't see you off... Oh, I won't see you off!"

Watching Yao bailing leave, elder Yin Yang wiped off the smile on his face and said with hatred and contempt in his eyes, “Bah, what the hell!”

Under the propaganda of the Taiji sect, from the disciple to the sky elder, he had a fundamental understanding of the Star Alliance Chamber of Commerce.

He hated them a lot.

However, just as Yao bailing said, it was completely unknown whether the Taiji sect could last until the end.

Another five days passed.

Compared to the optimistic atmosphere five days ago, the atmosphere at the meeting of the Taiji sect’s higher-ups was much more pessimistic.

“Less than half of the inventory is left, and less than twenty percent of the prices in the market have returned to normal. Eighty percent of the prices are still high. Many shops would rather close temporarily than lower the prices.”

Hearing the summary, the elders were worried.

The invisible confrontation had been going on for ten days, but the prices in the market had no intention of lowering.

A new batch of daily necessities would need at least 20 days to enter the market and impact the current market prices.

Now the crisis was obvious.

“What’s the return of the people sent out?” Su Yu asked calmly.

Other than the group of people that Su Yu had secretly contacted, he had also sent a large number of Yin-yang elders and tens of thousands of disciples to the nearby civilizations to purchase daily necessities.

Because of time, they were destined not to go to a civilization that was too far away, so they could only search nearby.

“Reporting to the sect leader, according to the information sent back, less than ten percent of the people have found something, and they have all been found in the desolate areas that have not yet reached the star-level civilization. In total, it is less than a day’s consumption of the Taiji civilization.”

A Day’s consumption was like a drop in the bucket.

“As for the other people, the daily necessities of the civilization they are heading to have been secretly and wantonly bought by the Star Alliance Chamber of Commerce a year ago. Now, they are still buying at a high price. Basically, they have seized all the new resources that have entered the market.”

The implication was that most of the people had found nothing.

Everyone’s hearts sank.

“We can only hold on for another ten days at most. After ten days, the entire Taiji sect’s treasury will be exhausted. If we are still unable to suppress the market prices at that time, I’m afraid that our Taiji sect’s daily resource consumption will not be enough,”the old woman elder said calmly.

Right now, they were already at a critical moment.

If they did not take action, the Taiji sect would be in a dilemma.

At that time, there would be a lot of complaints within the sect, questioning the ability of Su Yu, the new sect master.

Before the Taiji civilization fell into a state of chaos and decline, the Taiji sect would fall apart first.

After pondering for a moment, the old woman said, “Why don’t we mobilize our forces and forcibly seize the resources of the Star Alliance’s Chamber of Commerce Magnates?”

Su Yu did not say anything. The Taiji civilization was too peaceful, and even elder Tian could say such presumptuous words.

He asked back, “If we use force, won’t the Star Alliance Chamber of Commerce do it? Based on my understanding of the Star Alliance Chamber of Commerce, there will be an expert overseeing the Star Alliance Chamber of Commerce in every region. If he makes a move, who will deal with it?”

“This...”the old woman fell into deep thought again.

Mo Xiaochai was also anxious and gradually lost her patience. She said, “Then what should we do? Do we watch the situation become more and more dangerous?”

Some Earth elders also began to doubt Su Yu’s initial decision. Regardless of whether it would slowly decline, it was still better than the current internal chaos.

Most importantly, the external assistance mentioned by the sect master had yet to be found!

Su Yu said calmly, “Have the people sent further away to continue searching for resources. On the other hand, try your best to contact the merchants you are familiar with and ask for their personal help. If this matter is settled, we will return it to them double.”

The former did not hold much hope, while the latter still had a chance to try.

They were all high-ranking officials of the Taiji sect, and there were many merchants of all sizes who usually fawned on them.

At this moment, the Taiji sect had a need. If they were asked to take out their own private stash to ease the current crisis, they might agree.

After all, the sect master had personally promised that they could pay back double the amount after the event.

In a short period of time, a business that could double the profit would most likely be a gamble for the shrewd businessmen.

“Let’s take action now. I’ll also contact the businessmen I’m familiar with.” Su Yu thought for a moment and secretly left the Taiji sect to come to Zhencui Hall.

Boss Peng of Zhencui Hall was one of the few big bosses of the Taiji sect. He had been in business for many years and was worth a lot of money.

The resources under his control were an astronomical figure.

If he was willing to contribute generously, he believed that he could ease the shortage of resources.

“Who are you looking for?” The current Zhencui Hall was full of people. As one of the few shops that listened to the edict of the Taiji sect and took the initiative to restore their normal prices, the maids who received them were a little busy.

Su Yu pulled on her bamboo hat and asked, “Is boss Peng around?”

The maid looked at Su Yu suspiciously and said, “Who are you?”

Su Yu said calmly, “A friend of Boss Peng.”

After a moment of silence, the maid said, “Then wait for a moment. Boss Peng has been very busy recently. Many bosses have come to look for him.”

Nowadays, the prices of goods in the Taiji civilization were abnormal and people were anxious. It was very normal for bosses to move around with each other.

All of a sudden, boss Peng sent a group of people out of the guest hall of the inner courtyard.

Su Yu casually glanced at them and his brows slightly sank.

Those people were all famous businessmen of the Taiji civilization. Su Yu even knew one of them.

He was the right-hand shopkeeper of Medicine Elfy, Li Weitong.

Li Weitong’s face was filled with arrogance as he sent them off politely.

After watching them leave, boss Peng let out a long sigh.

Just as he was about to go back, the maid respectfully said, “Boss Peng, this person says that he is your friend and wants to see you.”

Boss Peng turned his head to look at Su Yu, whose face was covered by the bamboo hat. He was puzzled. “You are?”

Su Yu did not say a word. The sect master token flashed in his palm.

Boss Peng’s pupils constricted. He said, “Zong...”

“Boss Peng, your esteemed self is forgetful. Even I have forgotten.” Su Yu promptly interrupted him.

Boss Peng understood and patted his head. “Oh, so it’s boss Zong. Look at my memory. Please come in.”

The two entered the backyard. The maid at the front desk stared at the two of them deeply and quietly crushed a communication jade pendant.

In the secret room, boss Peng turned around and immediately knelt down on one knee. "Greetings, Sect Master!"

Su Yu waved his hand and casually sat down. "There's no need to be so polite with our relationship."

Boss Peng had just stood up, but he did not dare to sit down.

He stared at Su Yu, who had taken off his bamboo hat, and felt that everything was not real.

The boss who used to ask for wine had now become the sect master of the Taiji sect. It was really hard to predict the affairs of the world.

"Sect master has graced us with your presence. May I ask what advice you have?"

Su Yu shook his head and said, "I can't talk about giving advice. I believe you should have some guesses as to why I am here."

Boss Peng revealed a slightly troubled expression and sighed bitterly without saying a word.

"Boss Peng, What Are You Hiding? Just say it. I'm definitely not an unreasonable person."

Boss Peng said, "Who was the person who left just now? Do you know him, sect master?"

"I know him. He's someone from medicine bailing." Su Yu said, "Then, are you hiding something from them?"

Boss Peng said helplessly, "That's right! Li Weitong was ordered by medicine bailing to ask me to do two things. First, immediately raise the price to a high level. Second, don't secretly provide daily necessities to the Taiji sect."

"So? You agreed?" Su Yu stared at him indifferently.

Boss Peng smiled bitterly and said, "I think the sect master should know about the origin of Medicine Elfy's identity by now, right? Star Alliance Chamber of Commerce! I'm just a small businessman. Many of the purchase channels can not avoid the Star Alliance Chamber of Commerce. If I don't agree, my business career can be considered to be completely over."

Hearing this, Su Yu was calm, without the slightest anger.

A businessman valued profit over justice. No matter how good their relationship was, they would still choose profit over justice at a critical moment.

Moreover, he had only met boss Peng once, so why force him?

"It's my fault for being rude. Goodbye." Su Yu did not hesitate. He put on his bamboo hat and left.

Boss Peng caught up and said, "Sect master, please understand my difficulties. If it's possible, I will never agree."

"I understand," Su Yu said calmly.

He could understand boss Peng's difficulties... but, if he could take a breather, boss Peng also had to understand his subsequent actions.

He would not deliberately hate boss Peng, but he also would not forgive him.

After returning to the Taiji sect with nothing, the elders who had asked the familiar bosses for help also returned one after another.

Looking at their expressions, there was no need to ask. Su Yu already had the answer in his heart.

The Star Alliance Chamber of Commerce was not the only one who had sought help from true talent hall. He was afraid that they had looked for many shops.

Chapter 1998 Counterattack On The Verge Of Death (First Watch)

Two days later, all the elders came back and gathered together to sum up.

The old woman felt that she had lost all her face and sighed, "I've looked for all the shop owners I know, but only a few old friends who have been here for thousands of years have taken out all their wealth. However, even the daily consumption of the Taiji civilization is not enough!"

"Sigh, elder Tian is still alright. The shop owners I used to befriend knew that I came to visit, so they deliberately hid away and refused to even meet me." An earth elder who had not gained anything felt ashamed and helpless.

"I thought that I was the only one who encountered such a situation," another earth elder said.

"Me too. They didn't want to see me at all. I intruded into a boss's secret room that I was familiar with and discussed it in person, but the other party sent me away with the excuse that the resources had been bought away. How infuriating!"

..

In the summary, they realized that everyone's experiences were not the same.

"Humph! Do these people think that our Taiji sect is doomed?" Some earth elders said angrily.

Only Su Yu knew the true reason and said, "At this moment, those who are still willing to help our Taiji sect, remember their names."

Right now was the most difficult moment for the Taiji sect. Those who were willing to help in the snow were the most precious.

"As for the others, you don't have to hate them on purpose. However, you have to remember their names one by one."

In the end, they concluded that the amount of assistance they had sought from the merchants and bosses was only one day.

Adding the resources they had bought from various civilizations, they could only use them for two more days.

Twelve Days had already passed, and the Taiji sect could only hold on for another ten days at most! However, the deterioration of the situation did not stop there.

Three days later.

The only twenty percent discount shops, more than half of which, for some reason, had resumed their abnormal prices.

The direct result was that the warriors had increased their dependence on the Taiji sect's resources. This resulted in the Taiji sect's daily outflow of more than ten percent more resources.

The higher-ups were still barely able to remain calm, but the yin-yang elders and disciples at the grass-roots level were panicking.

Two days later.

A rumor suddenly appeared in the martial arts market. The Taiji sect's treasury was almost empty, and there were less than five days of storage left.

The prices of goods in the market would continue to soar.

Once the rumor was out, people were panicking. Many martial artists in the Taiji sect could only buy what they needed on the day, and they did not have any confidence about tomorrow or the day after.

Therefore, a small group of martial artists knew that the prices of goods in the market were abnormal, but they still endured the pain to buy it, in case the prices of goods would rise again in five days. At that time, they could not buy it even if they wanted to.

The entire Taiji civilization was in a state of panic.

From the warriors outside to the grassroots of the Taiji sect, they were all in a state of panic.

There were only five days left. The higher-ups of the Taiji sect could not sit still and had to meet every day to discuss.

"Because of the shops that lowered prices and the ancient times that raised prices again, many warriors bought more varieties from us. This caused our consumption to increase greatly. It is estimated that the current stock will not be able to last for three days."

Three days was the limit of the Taiji sect.

Su Yu frowned slightly. Only three days left?

It was two days shorter than he had expected.

"Pay close attention to the stock!" Su Yu said.

One day later, the stock consumption was less than two days.

Some Yin Yang elders and disciples of the Taiji sect were no longer focused on fixing prices. Instead, they were actively thinking of ways to prepare for the huge shock that would come after the Taiji sect ran out of stock.

The warriors were buying even more crazily because the goods in the warrior market were beginning to show signs of increasing.

Another day later.

Su Yu and the other higher-ups stood in front of the inventory with a calm expression.

There was only a small corner left of the treasure vault that used to be full.

That was only enough for tomorrow.

On the last day.

The remaining resources were distributed to the residence of the Yin Yang elders.

“Sect master, if you have a backup plan, then bring it out. There’s no time left.” Mo Xiaochai’s face was dark.

Not only did the current prices not fall as expected, but they had soared to a whole new level. In particular, the necessities for elixirs had soared to twenty times their usual level.

Such crazy actions seemed to be mocking the Taiji sect.

All the elders looked at Su Yu.

Back then, he had vowed to open the treasury. If he didn’t have any backup plan, then he would bring the Taiji sect to eternal damnation.

“This is my personal resource. It can last another day.” Su Yu took out his spatial storage device.

He had obtained the Sword Alliance master’s storage ring and almost all the resources of the four-star Civilization’s Star Alliance Chamber of Commerce.

It was barely enough for a five-star civilization to use for a day.

The Earth elders were moved. Su Yu had not been in the Taiji sect for long, so he had not received much benefits from the Taiji sect.

The resources at the moment should have been accumulated by Su Yu in the past.

Now, for the sake of the Taiji civilization, he took the initiative to give it up.

The elders felt that they were inferior.

After a few struggles, ten of them took out their years of collection.

“Alright, I’ll take a gamble too.” Mo Xiaochai gazed deeply at Su Yu. She believed that Su Yu would not shoot off without a reason. He must have confidence that it belonged to her.

Thus, they finally gathered enough resources for two days.

On the second day, the resources were distributed as scheduled, but the speed of distribution was obviously slowed down.

The third day was also the last day.

The Taiji sect really could not continue and could no longer support themselves.

That night, in a certain luxurious restaurant, a group of potbellied merchants were chatting and laughing happily with each other.

“Hehe, according to the information from our spies, the Taiji sect’s inventory was completely depleted two days ago. These two days were completely covered by the sect master and Elders’ own private storage. However, they have also said that they have reached their limit. After receiving the exact news, they won’t be able to take out even a single pill tomorrow!” The medicinal hundred spirits said leisurely while holding a bottle of famous wine, he said leisurely.

Xiao Qian could not help but laugh out loud, “Sect master Taiji is too presumptuous. He thinks that he can go against the Star Alliance Chamber of Commerce just by relying on his inventory. Now, he has failed to calm down the prices of goods and has even gotten himself into trouble!”

The precious daughter of the talisman industry could not help but look forward to it, too. “I have ordered all the shops to make preparations. When the market opens tomorrow, the prices of all the talismans will double!”

“Hehe, I’ve made the same preparations. The past 20 days have been torturous. I’m really worried that I’ll lose everything. From tomorrow onwards, the prices of all the elixirs will rise. I want to make up for the losses of the past 20 days.”

The corner of Yao biling’s mouth curled into a meaningful smile. “Do you think that the sect master of Taiji sect will suddenly come to us tonight?”

Xiao Qian and Bao Qianjin both showed a proud expression.

That day, Yao bailing went to the Taiji sect and wanted to have a proper discussion. However, it was laughable that the sect master of Taiji sect acted arrogantly and threatened Yao bailing to get lost.

Now that the dust had settled, Yao bailing was the one who had the last laugh.

It could be said that she had lost her face!

“Who knows? Maybe the sect master of Taiji sect is thinking about how to phrase it.” Xiao Qian chuckled.

Yao bailing’s eyes were filled with contempt. “If the Taiji sect leader agrees to my request, he can get rid of the human demons. What about now? “Not only are there hidden dangers of the human demons, the Taiji sect is in danger of falling apart. It’s true that one’s cleverness is mistaken!”

From his tone, it seemed that it was Su Yu who was in the wrong, and not the profiteers like them.

The next day, on the eve of the opening of the market.

The hearts of the Taiji warriors were all affected.

Yesterday, the Taiji civilization had begun to spread like wildfire. The Taiji sect's treasury had been exhausted and could no longer meet their daily consumption.

This rumor spread abnormally fiercely, and most of the Warriors believed it without a doubt.

Because yesterday, the Taiji sect had not only reduced the types of resources given out, but the quantity had also decreased.

Anyone with a discerning eye could see that the Taiji sect had already reached its limit.

It was likely that from today onwards, the Taiji sect would no longer be able to distribute resources.

In the past, at this moment, the mansions of the Yin and Yang elders should have already been opened, and they were selling resources at a fair price.

But now, all the doors were tightly shut. There wasn't the slightest movement, and it was completely silent.

This undoubtedly made the martial artists even more certain that the Taiji sect had reached its limit.

Dong Dong --

Suddenly, the loud bell of the opening of the market rang throughout Taiji city.

The Warriors were lucky and entered the market to snap up the necessities they needed.

However, what made them despair was that not only did the price not decrease, but it even doubled compared to before the market closed yesterday!

The terrifying price made the warriors fall into despair.

However, they had no choice but to buy. They endured the pain and used the sky-high price to buy the necessities that were supposed to be cheap.

The sound of cursing and fighting for the goods fused into one. To the people of the Star Union Chamber of Commerce, it was like the sound of nature.

"Haha, I Like the way you ants curse but have no choice but to buy it." Yao bailing was in high spirits.

Xiao Qian was also in high spirits. He stared at the endless warriors pouring into the market, as if he was watching countless wealth entering their pockets at an astonishing speed.

The precious daughter stared at the Silent Yin-yang Elder's mansion and smiled without saying a word.

It was time to say goodbye to the Taiji sect.

After today, the Taiji sect was destined to fall into a long decline.

If she had known this would happen, why would she have done it in the first place?

However, at this moment, a strange situation suddenly appeared in the market.

Some warriors seemed to have discovered something and gathered crazily in certain places, including asking for wine and a few shops that followed the orders of the Taiji sect and sold their goods at a fair price.

They suddenly sold goods at a fair price that were rich in resources and full of species.

For a moment, the entire warrior market was stirred up and gathered in a few places.

Sensing this scene, Yao bailing's eyes darkened slightly. "What's going on with those shops? Didn't you warn them?"

The assistant behind him, Li Weitong, frowned and said, "Those shops have a very deep relationship with the Taiji sect. They don't care about our warning."

Medicine bailing paused and said, "What I'm saying is that the resources they sell are clearly not in line with their industry."

For example, the wine shop that Su Yu founded in the past, a wine shop, now sold everything, including women's undergarments. The variety was complete, covering almost every industry.

The rest of the shops were all like this. They were extremely rich in resources.

"Could it be the Taiji sect's deathbed counterattack?" Xiao Qian thought, but he was not too nervous. "Don't worry. With what they have left, I'm afraid it's only enough for them to sell for four to four hours."

However, two hours passed.

The dying counterattack of the Taiji sect continued. There were no signs of a lack of resources.

Chapter 1999 Suffering The Consequences -LRB-Second Watch)

Their calm expressions finally showed slight fluctuations.

Yao bailing calmed herself down and said, "Don't panic. Let's wait and see. From the information we have gathered from all sides, all the resources that the Taiji sect can use have been used up. It's impossible to continuously fill the gaps in the market."

Another two hours passed. Almost all the martial artists had noticed the appearance of these shops at a low price and rushed over to buy them.

The shops of the three magnates were deserted, and no one was interested in them.

Only the twenty times higher price tags were fluttering in the wind, which was very eye-catching.

Finally, Yao bailing couldn't sit still and said, "Let's go and ask the wine and see what's going on."

Li Weitong immediately went to ask the wine, and with great difficulty, he moved from the crowded crowd to the entrance of ask the wine.

When he looked inside, he saw many unfamiliar people with low cultivation who were selling all kinds of goods voluntarily.

Seven or eight Yin-yang elders were responsible for patrolling the wine shop to ensure that no one would disturb them.

He was secretly shocked. When he went to other shops, the result was the same.

A group of unfamiliar creatures under the protection of the Taiji sect continued to sell goods.

After observing eight shops consecutively, the result was the same.

Li Weitong had a bad premonition, so he quickly returned and reported to medicine bailing.

Hearing this, medicine bailing's face darkened slightly. "In this case, it was indeed done by the Taiji sect! I don't know where they found external help."

Xiao Qian's heart skipped a beat, and he felt a sense of panic as if he had stepped on a cliff. "Where did the Taiji sect find an ally? Even if they did, how could they mobilize so many resources?"

"We don't know that!" Yao bailing felt like she was one step behind. "Let the intelligence agency do their best to investigate. We must get to the bottom of the situation!"

An entire day passed.

Something that Yao bailing and the others were worried about appeared.

Those unknown people had a huge amount of low-and middle-level resources, and they didn't show any signs of running out after selling them for an entire day.

As for their identities, they didn't have any clues for a moment. It was as if they had appeared in the Taiji civilization overnight without a trace.

The second day.

They were still the same, with countless resources.

The Third Day!

The fourth day!

The fifth day!

Finally, Xiao Qian and Bao Qianjin fell into a panic and urgently called a meeting of the Star Alliance Chamber of Commerce.

"In another five days, a new batch of daily necessities will flow into the market. At that time, the market will be full of goods, and the Warriors will not be able to buy them from us at a high price! What should we do?"

They were panicking. Wasn't the medicine bailing the same?

The situation was out of their expectations, and it was developing into an extremely terrible situation!

"Have we found out the identity of these people?" Medicine bailing asked in a deep voice.

"We have found some clues," the person in charge of intelligence said. "They are not citizens of the Taiji civilization, but a relatively famous organization called Ding!"

"Ding?" Everyone was unfamiliar with this organization, indicating that they had never heard of it.

The person in charge of intelligence said, "Ding is active in the four-star civilization, which is under the jurisdiction of the dark star civilization. In just a few years, they have conquered all the civilizations under their jurisdiction. Their organization is not very strict, but they are quite united."

"What do you mean?" Medicine bailing frowned.

Small organizations like this usually did not go far because once they grew stronger, they would inevitably cause internal divisions due to benefits and eventually fall apart.

There must be a reason why they could still be united after unifying the entire four-star civilization.

"There is a mysterious commander among them who calls himself ding zun. He is very mysterious and his identity can not be found at the moment. The only thing we know is that the core members of Ding organization are very respectful and obedient to ding zun. Therefore, Ding Zun is surrounded by them and they are quite united."

Hearing this, Yao bailing's eyebrows relaxed.

"Get ready to practice. I want to talk to Ding Zun alone," Yao bailing said.

Normally, he would not bother to talk to such a small emerging four-star civilization. However, the other party was too important now.

"Yes!" Li Wei said.

Taiji sect.

Su Yu stood on the highest peak of the main sect and looked down at the scene of the entire Taiji city. He nodded slightly.

"Ding Zun, I'm afraid the resources we've collected won't last long." Behind him was deputy Ding Zun, Dark King!

The person Su Yu contacted was none other than ding.

Ding had gradually taken control of the entire dark star civilization in the past few years. After receiving Su Yu's orders, it immediately mobilized a large amount of resources from the local area.

Fortunately, the grade of the daily necessities was not high, so even a one-star civilization could provide them.

The cauldron began to operate, gathering the resources collected by various parties to dark king.

Dark King used a cross-civilization teleportation array and finally arrived in front of Su Yu five days ago in the evening.

"You don't need to last too long. Five more days will do," Su Yu said, thinking to himself. The decision to establish the cauldron organization was indeed correct.

If not for using the Cauldron's power to replenish the goods in time, the commercial war with the Star Alliance Chamber of Commerce this time would have been a complete failure.

This made Su Yu even more determined to continue developing ding.

“Get Ding ready to accept the closure of the market in five days.” There was a hint of coldness in Su Yu’s words.

It was time for the reckoning!

All the parasites hidden in the Taiji civilization had to be removed without revealing anything!

“Oh right, Ding Zun, a person in the medicinal pill industry named Medicine Hundred Spirit wants to talk to you face to face.”

Su Yu shook his head with a smile and said, “Tell him that the opportunity has been missed!”

He had once given Yao bailing a chance. As long as she immediately returned to a fair price, he would let bygones be bygones.

Unfortunately, Yao bailing did not cherish it.

If he wanted to talk now, he had already lost his bargaining chip.

“Alright!”

Not long after, Yao bailing received a reply from the dark king from Li Weitong.

Hearing the familiar words, Yao bailing looked indignant. “It seems that the relationship between tripod and sect master of Taiji sect is extraordinary!”

This path was no longer possible!

Xiao Qian and Bao Qianjin, who were sitting across from him, had pale faces.

There was no hope for them to turn things around. They were all doomed!

Trillions of items had been thrown into their hands. They could not sell them even if they wanted to in the future.

“Sect master of Taiji sect! You are going too far!” After a long silence, a vicious look shot out from medicine bailing’s eyes. “You have put me to death. I will do everything I can to make you regret it!”

Xiao Qian and Bao Qianjin understood what medicine bailing meant at the same time. They said in surprise, “Are you trying to...”

“What else can I do? At most, I will spend some money. It’s better than being doomed forever, right?” Medicine bailing’s eyes said faintly, “What about you two? What are your choices?”

Xiao Qian and Bao Qianjin fell into silence at the same time.

Five days later.

When the resources brought by the cauldron were about to be exhausted, new necessities flowed into the market one after another. The output was extremely large, and the impact caused the price of daily necessities to drop drastically in just a few breaths. It was about 20% lower than the usual price.

The shops of the Star Alliance Chamber of Commerce no longer had the power to interfere with the market. They could only follow the general trend and throw out large amounts of resources.

The quantity was so large that it once again hit the market for necessities, causing the price to drop all the way down to half of its usual level.

In order to recover the money quickly, the merchants who were hoarding goods had no choice but to do so even though they knew that they would suffer a huge loss.

Of course, in order to prevent the price on the market from being too low and causing another negative impact, the Taiji sect stepped in and wantonly purchased the resources.

In just three days, the resources that were bought back with the money from selling the treasury resources not only returned to their original peak state, but the total amount was also twice as much as before.

It was all thanks to the profiteers who had cleared the warehouse with blood and tears.

In the main hall of the Taiji sect.

Having changed from the depression of the past month, the Sky Elder and the earth elder were in high spirits as they talked to each other in a relaxed manner.

“I never thought that the accumulated wealth of our Taiji sect over countless years would double in just one month!” An elder sighed. He still had a feeling that it was not real.

“Hehe, what we have gained is the loss of the Star Alliance Chamber of Commerce. The wealth invested by the Star Alliance Chamber of Commerce this time can be said to be of an epic level. It is perfectly normal for the resources of our Taiji sect to double!”

“Normal? Without the sect master dispatching a surprise army and catching the Star Alliance Chamber of Commerce by surprise, what kind of situation would we be in now?”

Hearing this, everyone was in awe.

Although they did not say anything about the new sect master, they actually looked down on him in their hearts.

His cultivation was low, his age was young, and he had no experience. On what basis could he command the Taiji sect? It was only because of that mysterious candidate for sect master.

But now, in the battle against the Star Alliance Chamber of Commerce, they gradually realized how extraordinary Su Yu was.

His outstanding foresight, powerful boldness, and unknown connections and connections.

Although it was far from being able to make up for the lack of a sect master, it was enough for them to accept this new sect master slightly --

His ability was still certain!

Not long after, Su Yu arrived.

After a moment of silence, he said, “Now that the market prices have returned to normal, the worries have been eliminated. However, the indicators are only the root of the problem. If you have any good suggestions, you can bring them up.”

Hearing this, the elders felt proud.

The Time of reckoning had come!

“We should impose punitive fines on the merchants who have maliciously hyped up the market, so that they will always remember the lesson!”

“We should set up a committee of market supervisors and clerks to check the market prices at any time. Once we find the momentum of someone hyping up the market, we can be alert in advance. We won’t be in danger like now.”

“Levy more taxes on them so that they won’t dare to hype up the Market!”

..

Everyone spoke one after another and expressed their valuable opinions.

Many of them were desirable. However, Su Yu listened silently and did not say a word.

Elder Tian’s eyes flashed and she asked, “Sect master, what are your plans?”

The elders immediately stopped their discussion and looked at Su Yu.

Su Yu looked at them indifferently and said, “Your suggestions are all very good. However, all of you have forgotten one sentence!”

Sure enough, Sect Master had reservations about their suggestions.

“Sect master, please speak clearly.”

Su Yu enunciated each word clearly and said, “If you don’t kill the snake, you will be harmed instead!”

None of their suggestions actually dared to kill the Star Alliance Chamber of Commerce with a single blow.

Whether it was a fine, the establishment of a monitoring mechanism, or the imposition of taxes, they were only hindrances to the Star Alliance Chamber of Commerce.

When the time was right, they could still launch another attack.

At that time, the Taiji sect might not be able to suppress them again.

“Sect master means...”the old woman became serious.

Su Yu said indifferently, “Naturally, we will expel them!”

Chapter 2000 Conspiracy (Third Watch)

“Sect leader, I’m afraid this is inappropriate, right?”? Judging from their previous performance, at least 70% of the shops in the market were under the control of the Star Alliance Chamber of Commerce. If they were suddenly expelled, who would replace them? “Would this result in a second shortage of goods and cause chaos?”The old woman voiced her concerns.

Su Yu’s eyes revealed a trace of admiration. After this matter, they finally started to pay more attention to business.

“There’s nothing wrong with that. Their vacancies will be taken over by the Ding organization. Rather than handing over the lifeline of the economy to outsiders, it’s better to hand it over to our own people.”

They had seen Ding’s performance. In addition, he had a close relationship with the sect master, so they could trust him.

“Does ding have the ability to accept so many shops?”Some elders still expressed their doubts.

Su Yu smiled faintly. “Don’t worry, they can do it.”

Next, the Taiji sect released a piece of news that shocked the Taiji civilization!

The rents of the shops in the market of Taiji city would all increase by 10,000 times next year!

The ownership of the shops in the market belonged to the Taiji sect, so they had the right to increase the rents at will.

“What? Ten Thousand Times?”Boss Peng was almost scared out of his wits when he heard about Zhencui Hall.

The rent of Zhencui Hall was now ten million divine stones a year. If it increased ten thousand times, it would be one hundred billion!

One hundred billion! Zhencui Hall didn’t even have this much annual sales, let alone profit?

This was clearly forcing all the shops to leave!

“Are you sure the news is true?”Boss Peng asked the shopkeeper.

The shopkeeper nodded affirmatively. “It’s a notice personally posted by the Taiji sect. Except for a small number of shops, the rent of all the other shops has increased by 10,000 times.”

“The rest of the shops?”Boss Peng’s heart was as clear as a mirror.

That small number of shops should be the ones that followed the Taiji sect in the hype this time and actively stabilized the prices.

Now that the Taiji sect had recovered, they began to liquidate the Star Alliance Chamber of Commerce and gave preferential treatment to those shops that had contributed.

“Isn’t this a little too ruthless?”Boss Peng was anxious.

He had long expected that the Taiji sect would turn the tables on the Star Alliance Chamber of Commerce this time. However, he had never thought that Su Yu's boldness was too strong.

He actually planned to drive out all the Star Alliance Chamber of Commerce in one go.

Like Zhen Cui Hall, although it wasn't the Star Alliance Chamber of Commerce, in the moment of danger for the Taiji sect, they would turn to the Star Alliance Chamber of Commerce and take the opportunity to raise the price to eliminate them.

"No! I want to see the sect master." Boss Peng had been in the Taiji civilization for many years, and he was not willing to give up this territory.

However, when he came to the Taiji sect's waiting room, his eyelids could not help but Twitch.

He saw all kinds of shopkeepers with gifts in their hands, crowded in the waiting room.

Without a doubt, they were in the same situation as boss Peng. They came with gifts to plead for mercy.

On the other hand, boss Peng was empty-handed. He really couldn't bring anything out.

All of a sudden, boss Peng remembered that he had recently received a new batch of acquired essence crystals. It was worth no less than 100 billion.

His heart ached. He separated it out and put it into an independent spatial storage ring.

After waiting patiently for three days and three nights, boss Peng finally had a chance to come to the main hall where the sect leader was working.

However, he heard Su Yu's casual voice from inside, "The increase in rent is the decision of our Taiji sect. If you think it's unreasonable, you can look for other ways to develop civilization. By the way, take the gift with you. I won't accept it."

Not long after, a boss with a dark face left dejectedly.

Boss Peng's heart thumped and he felt uneasy.

"Next."

Boss Peng felt deeply uneasy as he carefully walked in.

He saw Su Yu crouching in front of the table. With a light stroke of his brush, he crossed out a name on the booklet.

He raised his head and saw that it was boss Peng. He nodded slightly, "What brings boss Peng Here? Please take a seat."

Boss Peng stood respectfully. How could he dare to stand? He said, "I know that sect master needs acquired essence crystals, so I thought of a way to get a batch. I hope sect master will accept it."

He placed the spatial storage device on the table. Su Yu glanced at it indifferently and said, "Boss Peng, you are also here for the rent, right?"

Hearing this, boss Peng knew that the time to decide his fate had come. He hurriedly said, "Sect master, Please be magnanimous. I was forced by the Star Alliance Chamber of Commerce and had no choice but to comply!"

Su Yu did not think much of it.

He was afraid of the Star Alliance Chamber of Commerce's sanction. was he not afraid of the Tai Ji Sect's punishment?

In that war without any smoke, boss Peng had chosen his position with his actions.

Of course, unlike other businessmen who had been hyping up the situation from the beginning, boss Peng was initially willing to cooperate with the Taiji sect and take the initiative to calm down the prices of goods. It was just that his position was not firm enough.

Such a businessman could not be killed in one shot.

"I understand you, but please understand my position! As the leader of the Taiji sect, I should charge you ten thousand times the rent, but for personal reasons, I will waive the rent for a hundred years. After a hundred years, everything will be done according to the rules."

In this way, Su Yu had done his best.

Boss Peng's face turned pale. He only had 100 years. After 100 years, he would have no choice but to leave Taiji civilization..

His heart was bitter. He didn't know whether to be happy or sad.

"Take the gift back. I won't accept it." Su Yu simply sent him off.

Boss Peng was not feeling well. Holding his storage ring, he left Taiji sect in a daze.

As soon as he left the main door, he met two familiar owners who were approaching him. They were different from the other businessmen who had gloomy faces. The two of them were glowing red and were in high spirits.

"Haha, Boss Zhao, the sect master has given me the normal rent. He has also given me ten times the rent of my shop and used it for a hundred years for free! I am completely confident that I can become the number one in the industry within a hundred years!"

"Hehe, I have also received the same favor!" It had to be said that the new sect master was an extremely grateful person. I had only done my best to support him during the price war last month. I didn't expect him to give me more than a hundred times the compensation!"

What they had lost was just a little less black-hearted money in a month.

But now, the compensation they had received was more than a hundred times that black-hearted money!

One could imagine how happy they were.

All of a sudden, the two of them saw boss Peng and went forward to greet him. "Boss Peng, Congratulations. I believe you have also received a reward from the sect master, right? I'm afraid that the scale of Zhencui Hall will be expanded by more than ten times. How enviable!"

Only the Taiji sect had calculated the exact details of whether the prices of the shops had increased or not. The merchants were among them, so they did not know much about it.

The two of them only knew that boss Peng was the same as them at the beginning. He had taken the initiative to stabilize the prices of goods, which was why they said that.

Boss Peng's face was embarrassed, and a great sense of regret welled up in his heart.

In the past, the two of them had never been in the eyes of a tycoon like boss Peng. But now, they had been repaid a hundred times over, and their future development would definitely surpass his.

Moreover, a hundred years later, he would have no choice but to leave the Taiji civilization and go to other civilizations to develop with difficulty.

He could not help but recall the matter of Su Yu personally coming to seek help.

At that time, why was he so muddle-headed? He had actually rejected the sect master's request for help!

If he had given his all to help, the reward he would receive now would only be much more than the two people in front of him.

Unfortunately, time would not go back. The opportunity had already been lost and would never come again.

He gloomily bid farewell to the two of them and returned to true essence hall.

Suddenly, a mysterious man wearing a bamboo hat suddenly stopped him and said, "Boss Peng, you seem to have a lot on your mind. Do you want to find a place to have a drink?"

"Li Weitong?" Boss Peng immediately recognized that this man was medicine Elfy's assistant. He couldn't help but feel angry in his heart.

It was this man who caused his mind to waver, and in the end, he lost a great opportunity.

"Hehe, Alright!" Boss Peng was furious. He didn't dare to find trouble with medicine elfy, so how could he not dare to teach a lackey a lesson.

"Boss Peng, Please!"

The place that Li Weitong had brought him to was indeed a restaurant, but he didn't have the right to drink wine yet.

This was because the seats were filled with the top merchants of the Taiji civilization.

There were the three giants of the Star Alliance Chamber of Commerce, and there were also the Giants of the non-star Alliance Chamber of Commerce.

Boss Peng could only be considered above average among them.

With a glance, boss Peng knew their identities. Without exception, they were all merchants who had been chased away by the 10,000 times rent.

They had gathered together, and it was unknown what they were planning to do!

“Boss Peng has met Sect Master, right?” Medicine bailing opened her mouth with a gloomy expression. “I wonder how much he rewarded you?”

Boss Peng could hear the probing in her words. His eyes turned slightly, and he said with a bitter smile, “He only allowed me to continue operating for a hundred years. After a hundred years, ten thousand times the rent is waiting for me. Is this considered a reward?”

Hearing this, Yao bailing exchanged a look with Xiao Qian, Bao Qianjin, and the others, and nodded slightly.

Consistent with the information from his informant, boss Peng did not lie.

“Then, is boss Peng willing to sit still and wait for death to chase him out of the Taiji civilization a hundred years later?”

Boss Peng’s mind was clear, and he knew that this gathering was probably not a good thing. Most likely, the Star Alliance Chamber of Commerce and the merchants who had been chased out were unwilling and prepared to create a conspiracy.

With a thought, boss Peng said resolutely, “I have been rooted in the Taiji civilization for God knows how many years, and I am naturally unwilling to give up just like this... Please save me, Boss Yao!”

Yao Bai Ling smiled leisurely, “Heaven only saves those who save themselves! I have a mission. If you can complete it, I can let you obtain a hundred times, a thousand times the benefits in front of you!”

Boss Peng’s heart palpitated, and his mouth was dry as he said, “Please point out a clear path, Yao Bai Ling.”

“It’s very simple. Donate money and invite the assassins of Our Star Alliance Chamber of Commerce to come and get rid of the Taiji sect master!”

Hearing this, boss Peng sucked in a breath of cold air. “Get rid of him? This...”

“There’s no other way!” Medicine bailing shook her head coldly. “Only by getting rid of him can we mobilize our power and change the Taiji sect’s mind.”

Boss Peng’s eyes secretly rolled around as he asked cautiously, “What’s the probability of killing him?”

“100% ! Because we’re prepared to invite an assassin at the intermediate stage of the five-crown-level! Even with Mo Xiaochai’s protection, Su Yu will not be able to escape death!”

Boss Peng was once again shocked. Intermediate stage of the five crowns... an assassin at this level, ordinary people could not even contact him.

Only someone like medicine bailing, who was an insider of the Star Alliance Chamber of Commerce, could contact an assassin in the Chamber of Commerce.

“How is it?” Medicine bailing stared into his eyes, slightly impatient.

In his eyes, boss Peng was only a medium-sized businessman. He did not have much time to wait for his reply.

Boss Peng’s mind was full of thoughts. If he didn’t donate money at this moment, he might not be able to walk out of here?
