

Nine-Dragon 2001

Chapter 2001 The Hunter Arrived

“Then... how much should I donate?” Boss Peng asked carefully.

Medicine bailing said lightly, “To invite an assassin at the intermediate stage of the five crowns, the lowest price is 10 trillion god stones. Everyone present, the lowest donation is 1 trillion.”

1 trillion, even more ruthless than Su Yu!

Su Yu’s rent was at least 100 billion, and medicine bailing asked for 10 times in one breath!

“Do you think I, Peng Yuanxin, am meat on the chopping block? You can cut me at will, right?” Peng Yuanxin was secretly resentful.

As merchants, they were all foxes on the same mountain. Why did you have to tell me about Liaozhai?

Peng Yuanxin was as clear as a mirror about medicine bailing’s plans and intentions.

To invite a five-crowned king assassin of the Star Alliance Chamber of Commerce’s level, he probably didn’t even need a trillion divine stones.

He opened his mouth to ask for a trillion divine stones. It was obvious that he had two plans.

First, he would use the help of the various merchants to hire assassins and get rid of Su Yu.

Second, he would take the opportunity to make a fortune and make up for the recent deficit.

“What, Boss Peng isn’t willing?” Medicine bailing’s eyes gradually turned cold.

What could Peng Yuanxin Do?

If he didn’t give the money today, he would die.

“This, if I can assassinate Su Yu and change the decision of the Taiji sect, I will naturally support it. However, the money is too much. I only have less than 800 billion divine stones in my hands. This money has been accumulated for many years. I hope that boss Yao will show mercy. I will donate 700 billion and use the remaining 100 billion for myself. How about it?”

He had been in business for many years. Naturally, he still had 100 billion. Now, he naturally had to bargain.

“Humph! Since everyone has a trillion, how can you make an exception just because of you! Don’t think that I don’t know your background. Just last year, your profit was no less than 30 billion. After so many years, wouldn’t you have a trillion? “Either you don’t hand it over, or you hand over a trillion!” Medicine bailing said rudely.

It was very obvious that the Star Alliance Chamber of Commerce had spies in true extract hall, and they could even investigate his income clearly.

At this moment, Peng Yuanxin's intestines were green with regret.

With this kind of person, sooner or later, he would be eaten until not even his bones were left!

One trillion, that was the blood and sweat of hundreds of years!

But he had no other choice.

"I'll pay! I only ask Yao boss to get rid of Su Yu!" Peng Yuanxin gritted his teeth and said. He took out several spatial storage devices and handed them over.

Only then did Yao bailing's expression relax slightly. She took out a contract. On it was the contract for the joint assassination of Su Yu.

"Pour a trace of a soul imprint into it, and we'll be friends," medicine bailing said. This contract was to restrict Peng Yuanxin. If he dared to leak the secret, as long as medicine bailing destroyed the contract, his soul would instantly shatter.

Peng Yuanxin was helpless, leaving a trace of his soul inside.

"Now, Boss Peng will go back and wait for good news. I believe there will be good news soon."

Peng Yuanxin left the restaurant. The more he thought about it on the way, the more unwilling he became.

Why should his savings that had been taken away for so many years be taken away?

After returning to true extract hall, he raised his head and looked at the maid at the reception desk. He felt even more angry in his heart.

The person that he had nurtured for so many years had actually become the Star Alliance Chamber of Commerce's spy.

Filled with grievance, he entered the secret room and pondered for a long time.

"I can't sit still and wait for Death!" Peng Yuanxin muttered to himself.

With a thought, he disguised himself again and left silently with the help of some teleportation talismans.

When he reappeared, he appeared in front of the Taiji sect.

"Rather than trusting you guys, I might as well trust Su Yu," Peng Yuanxin thought to himself.

At least Su Yu could repay him a hundred times for helping him. As for the medicine lark, it was very likely that it would bite him again in the future.

After waiting patiently for a long time, he finally saw Su Yu again.

Su Yu was slightly puzzled. "Boss Peng, is there anything else you want to ask?"

Peng Yuanxin hesitated for a moment and said, "I have something to tell sect master. It concerns sect master's personal safety."

“Speak.” Su Yu stopped writing and said.

“Before I speak, I hope sect Master can promise me to take back my soul contract,” Peng Yuanxin said.

“No problem.”

Peng Yuanxin had just told him what happened after he left the Taiji sect.

He had thought that Su Yu would be nervous. At the very least, he should be nervous.

Su Yu’s eyes were calm. He nodded his head slightly and said, “As expected.”

It was not unexpected for them to deliberately take revenge for ruining the Star Alliance Chamber of Commerce and causing many big shots in the industry to go bankrupt.

However, Su Yu now had a pair of Taiji yin-yang wings that had fused with the dao master’s bone, and his teleportation speed was comparable to the peak of the five crowns.

The middle-stage assassins that they hired probably could not even touch a corner of Su Yu’s clothes.

“I’ve received the news. Boss Peng is very thoughtful,” su yu said calmly. He paused for a moment and crossed out Peng Yuanxin’s name on the booklet again, “I’ve changed my previous decision. Your rent will be the same as before. As long as it doesn’t violate the rules of Taiji civilization, you can permanently do business in Taiji civilization.”

“By the way, I’ll cancel your soul contract right now.” Su Yu held a life-severing knife in his palm.

As the knife fell, Peng Yuanxin felt a sharp pain in his soul, as if a part of his soul had been chopped off.

Without waiting for Peng Yuanxin to be angry, he was shocked to realize that his part of the soul that had fallen into the contract had broken off from him!

“Thank you, sect leader! Thank you, sect leader!” Peng Yuanxin was overjoyed.

Losing a trillion divine stones was painful, but losing his soul to someone else was what he was most unwilling to do.

Originally, he had thought of all sorts of situations where the contract could not be taken back. If necessary, he would personally take action.

But now, he had lost that trace of his soul and directly severed the contract connection.

He gazed deeply at Su Yu, a trace of respect growing in his heart.

To be able to cut off the soul contract invisibly, such a feat did not seem to be the work of an emperor.

In the past, he had underestimated this child’s true strength!

“I’ll take my leave!” Peng Yuanxin walked out of the Taiji sect’s main hall, his heart suddenly opening up.

The ban that had been in place for a hundred years had been removed, and the contract had been successfully terminated. The rewards of this trip were far beyond his imagination.

Although I made the wrong choice once, I hope I won’t make the wrong choice a second time! Peng Yuanxin thought to himself. Next, he could only pray that Su Yu would be able to successfully escape from the assassination of an assassin at the intermediate stage of the five-crowned Emperor Realm.

Just as he was thinking in his heart, suddenly, an eight-zhang-tall alien with bulging muscles and an oppressive aura blocked in front of Peng Yuanxin.

A huge projection enveloped Peng Yuanxin within.

“Friend, may I ask how to get to the Taiji sect?” The other party calmly and powerfully asked for directions.

Peng Yuanxin’s heart skipped a beat for no reason. Facing this person, he felt an unusual sense of oppression and hurriedly pointed the way. “Three hundred Li to the east, it’s at the center of the city.”

“Thank you.” The alien nodded and stepped into the air.

He stepped aside, and Peng Yuanxin was shocked to find that this person was followed by a large group of people!

He couldn’t see through the cultivation of half of them at all.

The remaining ones that he could see through were at least at the early and middle stages of the four crowns!

“My goodness, where did so many powerful peak-stage four crowns come from?” Peng Yuanxin clicked his tongue.

Given the state of the Taiji civilization, there were almost no five crowns who would come to visit, let alone five crowns who would come in groups.

Peng Yuanxin naturally did not dare to associate them with five crowns.

Unfortunately, the reality was beyond Peng Yuanxin’s expectations.

Su Yu just happened to send away a merchant and sensed something. He instantly disappeared from the Taiji grand hall and appeared in the sky above the Taiji sect.

Hunter Wang Ju saw a silver-haired youth blocking his way and cupped his fists. “I wish to pay my respects to your sect leader.”

Su Yu didn’t say a word. He took out his identity token and said, “Looking for me? You Group of five-crowned emperors specially came to pay me a visit. What’s the matter?”

He was calm and composed. Not only did he see through their cultivation level with a glance, but he was also fearless.

If it was an ordinary five-star civilization master, he would have already lost his composure by now.

As expected of the disciple of that old senior. Even the five-crowned emperor was so magnanimous in front of him.

“We Are the Hunter Alliance. We have received a great favor from your master a few days ago and have no way to repay it. We are here under your master’s orders to help you,” said the Hunter King.

Su Yu revealed a surprised expression. “I see. That old fellow has always been a busybody.”

Hunter king and the others looked embarrassed. They did not dare to continue.

“I don’t need your help. However, if you are free, you can rest in the Taiji civilization for a while and see if there is anything you can help with.”

Hunter king nodded. “That is my intention.”

Before he came to the Taiji sect, he had naturally inquired about the current situation of the Taiji sect.

To his dismay, he discovered that not long before they came, there had been a rather serious economic turmoil in the Taiji sect.

Unfortunately, the current sect master was wise and divine, and had resolved the turmoil.

Now, they had come to no use.

“There are too many of you five crowns. If the news were to spread, I’m afraid it would cause the taiji creatures to feel uneasy. So for the time being, why don’t You Rest at my sect’s main peak?” Su Yu did not want to expose them too early.

The hunter king said, “We’ll listen to the sect master’s arrangements.”

Just like that, Su Yu openly arranged for them to stay at the sect’s main peak.

There were a total of 400 of them. Among them, there were more than 30 of the five crowns and more than 300 of the four crowns.

The mighty group of people naturally couldn’t hide from the ears and eyes of the people in the sect.

For example, Mo Xiaochai.

“Hey! Where did you find so many experts? I can’t see through the cultivation of 30 people at all. Are you telling me that they are all five crowns?” Mo Xiaochai said half-jokingly and half-seriously.

Su Yu shrugged. “Do you believe me?”

“Nonsense, of course I don’t! If you can really get in touch with such five-crowned champions, you can hold a small-scale conference at the Daoist Huang Hall!” Mo Xiaochai thought about it and said calmly. She thought that the reason

the thirty people couldn't see through their cultivation levels was because of their physiques.

She couldn't be blamed for thinking this way. She knew Su Yu's background better than anyone else.

She had come from the sea of constellations with her husband, Huangfu Lieyang, and had no background to speak of.

Most likely, other than the sect master of Taiji, he had never met a five-crowned emperor in his life, let alone invited so many five-crowned emperors as guests to the Taiji civilization.

She had never even had this thought before.

"Isn't that right?" Su Yu smiled faintly. "Arrange my cauldron and accept the assets of those merchants who are preparing to leave the Taiji civilization as soon as possible."

"HMPH! Using official business for personal gain! Immediately write a recommendation letter to the cauldron and ask me to join it. Also, give me a good position. Otherwise, I will report you." Mo Xiaochai was unwilling to get up early without benefits, she could see that the future development trend of the cauldron was limitless.

With Su Yu's unsparing support, it was likely that in the next ten years, not only Taiji civilization, but all the civilizations within the territory of Taiji civilization would be occupied by the cauldron and hold the lifeline of the economy.

The potential was immeasurable.

However, it was obvious that she had underestimated Su Yu's "Ambition."

Chapter 2002 Invitation Qualifications

Since the tripod had been established, Su Yu had no chance of giving up halfway.

"What was the conference of the Daoist Huang Hall that you mentioned just now?" Su Yu asked.

Mo Xiaochai's expression was unnatural, she said, "Nothing much. It's just a civilization exchange conference. Only the five-star civilization under the jurisdiction of the Daoist Huang Hall has the qualifications to be invited to participate in the conference of the Daoist Huang Hall. Our Taiji civilization is a civilization that values posture and elegance. We have never disdained to participate."

Disdain and participation? He didn't believe a single word that came out of Mo Xiaochai's mouth.

Perhaps the Taiji civilization was not qualified to receive the Daoist Huang Hall's invitation?

"What is the Daoist Huang Hall?" Su Yu had heard the name of the Daoist Huang Hall countless times, but he still didn't have a deep understanding of what it was.

Mo Xiaochai first rolled her eyes at Su Yu, and then suddenly said, "It's normal that you don't know. The Daoist Huang Hall has always been mysterious, and not many people know about it."

"The Daoist Huang Hall is an organization established by the Supreme Dao Master to maintain order in the six-star civilization and below. Otherwise, think about it. Why Don't you think about it? The civilization is so vast, but there are no criminals who commit crimes and plunder everywhere? "It's because of the Daoist Huang Hall's deterrence. Once a similar organization that destroys order appears, it will be swept away mercilessly by the Daoist Master of the Daoist Huang Hall."

Su Yu's heart trembled slightly. He knew that the Daoist Huang Hall was formed by a Supreme Daoist master.

However, he did not expect him to have such an effect.

This was different from what he had imagined.

"Then what's the meaning of the Daoist Huang Hall Conference?" Su Yu asked.

Mo Xiaochai tried her best to hide her jealousy and envy. "It's nothing much. It's just that the Master of civilization who performs well has the right to pick a Bodhi fruit from the Daoist Huang Hall."

Su Yu's heart skipped a beat. "What's the use of the Bodhi Fruit?"

"Nothing much. It's just to help you break through to the next level," Mo Xiaochai said casually, but the desire in her eyes could not be hidden.

Break through to the next level? Su Yu's eyes only lit up slightly. If he continued to take the nine Yin Pill, he would break through to the next level sooner or later. The reward of the Bodhi fruit was indeed not worthy of the Daoist Huang Hall's great reputation.

"You may have misunderstood what I mean. The Level I'm talking about is not the improvement of one's realm, but the leap of an entire realm! "For example, if you reach the late-stage of the fourth-crowned emperor, you can directly become a fifth-crowned emperor by taking one! "If you are at the peak of the fifth-crowned emperor, you have a chance to immediately become a dao master by taking one."

Hearing this, Su Yu's pupils constricted!

It was easy to improve one's cultivation, but it was as difficult as ascending to the heavens.

Su Yu only broke through to the middle stage of the three crowns because he got the mysterious spiritual medicine that the corpse emperor didn't have time to take with him.

If he could get the Bodhi fruit, wouldn't he immediately become the four crowns?

He would save at least a hundred years of cultivation time.

"How can I get an invitation?" Su Yu was completely moved.

“Don’t daydream. There are only two ways to get an invitation. One is to be ranked in the top 1,000 of the five-star civilizations under the jurisdiction of the Daoist Huang Hall.”

Su Yu heaved a sigh of relief. There were still a lot of spots. “Then, what is the ranking of our Taiji sect?”

Mo Xiaochai tilted her head and thought for a moment. “About 80,000.”

Hearing this, Su Yu sucked in a breath of cold air. “Your Highness, there are so many five-star civilizations? Are you right?”

“Tch! What a fuss! In the vast absolute beginning, what is a mere Daoist Huang Hall? It’s just a speck of dust in the void.” Mo Xiaochai did not think much of it.

Only now did Su Yu deeply feel the vastness of the absolute beginning.

80,000 five-star civilizations, a five-star civilization ruling the boundless void, one could imagine how vast the area of 80,000 five-star civilizations would be!

With the Taiji sect ranking so low, it seemed that it would not be easy for them to enter the Daoist Huang Hall Convention.

“What’s the other way you’re talking about?” Su Yu suddenly asked.

Mo Xiaochai thought for a moment and said, “It’s very simple, as long as there’s a five-star civilization that is in the top 100 that is willing to recommend it.”

Su Yu could not help but smile bitterly in his heart. He did not even know a civilization master, let alone one that was ranked so high?

“You should give up on this path! The five-star civilizations that are ranked in the top 100 can all be called half-step civilizations. Among those civilizations, there is at least a half-step dao master overseeing them. Only then can they intimidate the heroes and enter the top 100.”

Half-step Dao Master? Su Yu’s heart once again stirred up waves.

Just like half-step emperors, there was also a transitional stage between emperors and Dao Masters. They were about to become dao masters, but they lacked maturity.

Their strength was above that of the five crowns, but it was far below that of the Dao Masters.

With such a civilization, it was even more impossible for Su Yu to befriend them.

There was no hope for either path!

Moreover, even if they were to participate in the conference, not everyone would have the opportunity to pick the Bodhi fruit, right?

Thinking of this, Su Yu, who felt that he had some willpower, could not help but shake his head, indicating that there was nothing he could do.

“Alright, I’ll write you a recommendation letter to guarantee that you’ll enter the upper echelons of the tripod organization,” Su Yu said generously. How could he not do this deal if he could pull an existence comparable to the five crowns into the tripod cauldron as a hired thug?

Mo Xiaochai happily took the letter and ran to look for the dark king, strongly requesting to join. Of course, her stronger request was for a dividend.

With Su Yu’s personal letter, she joined Ding very smoothly. However, she would only be a ding king who was neither too high nor too low.

Mo Xiaochai did not care much either. What he cared about was whether or not he could get a share of the profits.

Time flew by like water. In the blink of an eye, an entire month had passed.

The shops of Taiji civilization had undergone a drastic change. More than half of the merchants were in the midst of a clearance sale and were preparing to leave as soon as possible.

Ding actively joined the receiving party and bought their goods and shops together, changing its appearance and continuing to operate.

In less than half a year, it could take over more than 80% of the shops.

On this day, Su Yu suddenly felt a strong fluctuation in the line of fate. He knew that it was Peng Yuanxin who had reminded him of the arrival of the intermediate stage of the five crowns.

He left the Taiji grand hall as if nothing had happened and returned to the sect master peak.

Coincidentally, the Hunter King was cultivating on the peak.

“Sect master Su, I’m really sorry. I’ve been here for more than a month, but I still haven’t been of any use,” the hunter King said apologetically.

Su Yu paused for a moment and said, “It’s okay. It’s enough that you have this intention...”

“Eh! is that person who broke into the Taiji sect your friend?” The hunter king immediately sensed a concealed aura of a five-crowned emperor.

Su Yu said in surprise, “My friends are all out of town, so they shouldn’t be coming back for the time being.”

“Then who is this?” The hunter King’s eyes suddenly became sharp. “I’ll invite him over and question him face to face.”

“Thank you!”

With a swoosh, the hunter king disappeared.

In just three breaths, there wasn’t even the slightest movement of a fight. A short man with a thin body and fierce eyes was brought back by the Hunter King.

His head was tilted to the side and he was in a coma.

“I’m sorry. He wanted to resist, so he hit him a little too hard.”

“That’s what I wanted!” Su Yu immediately checked his body and found that there were several magic treasures and talismans on his body that could kill himself at any time and also self-destruct to injure his enemy.

He did not remove it. Instead, he opened the eye of the soul between his brows and forcefully pulled his soul out of his body.

He had to thank the hunter King for knocking him out and keeping his soul in a coma.

Otherwise, it would be impossible for him to pull out the soul of a middle-stage five-crowned king.

Little did he know that the hunter King’s heart jumped when he saw this.

To forcefully imprison the soul of a five-crowned king, this kind of divine art could only be done by the upper third-rate soul clan, right?

Could this person be a member of the Soul Clan?

Thinking of his identity as the Dao master’s disciple, Su Yu was even more certain of his guess.

After swallowing his soul, Su Yu silently digested it for a while and obtained many useful memories.

When he opened his eyes again, his eyes were filled with a cold light. “Hehe! It’s impolite not to reciprocate!”

“Soul Light Splitting Shadow!” Su Yu softly shouted.

His soul split into nine, and one-ninth of it turned into an independent split soul and entered the body of the assassin.

The hunter King was shocked when he saw this.

“You are from the Soul Clan?” The hunter King was shocked. Being able to split his own soul and give him an independent personality was a unique talent of the Soul clan.

Sect leader Su was definitely a member of the Soul clan.

He was from a legendary upper third-rate clan. To hunters like them, he was an unattainable existence.

His heart was in turmoil. Previously, he had helped Su Yu in order to curry favor with that Dao Master.

But now, he could not help but have a new thought.

If he could have a powerful attachment, why would he have to work so hard as a Hunter?

However, he still needed to observe for a while to determine if Su Yu’s identity was true.

If it was the real soul clan, his connections should be extremely strong.

Su Yu glanced at him and did not deny or admit, "I hope you can keep what you saw a secret for the time being."

"Definitely!"

..

In the depths of an underground secret room, thousands of merchants gathered together with their most trusted bodyguards by their side.

They gathered together nervously, making the dark underground seem unusually oppressive.

The time to decide fate had arrived!

A few hours ago, the Star Alliance Chamber of Commerce's assassin had finally arrived from the six-star civilization's branch and taken the mission from their hands.

Now, he should have infiltrated the Taiji sect and prepared to assassinate Su Yu, right?

Peng Yuanxin was also among them, and his heart was extremely nervous.

Su Yu was so confident, so he should have the confidence to escape the assassin's pursuit, right?

If Su Yu were to meet with misfortune, Peng Yuanxin would not suffer any losses. However, under the rule of someone like Yao bailing, he could foresee the end of true talent hall. In less than a hundred years, they would be devoured by them without any scruples.

Yao bailing and the others were also nervous.

They were 100% confident that the assassins they invited would be able to destroy Su Yu.

But what if there was a chance?

If they used the assassins now, they would have already shed all pretense of cordiality. If they failed, what awaited them would be Su Yu's merciless counterattack.

Therefore, many merchants who participated in this matter gathered together and built a temporary inter-civilization teleportation array.

Once an unavoidable accident occurred, they would escape together.

Xiao Qian could not bear the pressure and muttered softly, "There's still no movement after so long?"

Yao bailing said calmly, "The assassin will definitely strike at a more suitable time. Don't worry..."

Suddenly, the door to the secret room was pushed open by an external force.

The group of merchants were so scared that their hearts shrank.

However, when they saw who it was, they all heaved a sigh of relief.

"The mission is completed?" Yao bailing's heart was completely at ease. The fact that the person who came was not a member of the Taiji sect already indicated the result.

The assassin nodded.

Xiao Qian asked in puzzlement, "Why is there no movement?"

The assassin said indifferently, "Is there any movement needed to kill a Triple Crown Prince?"

UH --

That's true!

Chapter 2003

Xiao Qian nodded. "Well done..."

Before he could finish his sentence, the assassin added, "However, I didn't kill him."

UH --

Before they could rejoice, everyone was stunned.

Yao bailing frowned. "Was he discovered?"

The assassin slowly walked down and shook his head.

"Then why did you give up Halfway?" Medicine bailing asked in surprise.

Suddenly, the cold-faced assassin suddenly grinned. "Of course I came back specially to send you guys on your way!"

As soon as he finished speaking, the assassin transformed into a swift shadow and instantly took over the temporary inter-civilization teleportation array.

Medicine bailing's expression changed drastically. "Not good! Quickly scatter and escape!"

However, several five crowns descended from the entrance and sealed the exit until it was impenetrable.

Many merchants were sweating because they realized that the space nearby was sealed and their teleportation talismans could not be used.

"Who are you people? We are from the Star Alliance Chamber of Commerce. Do you understand the consequences if you kill us?" Medicine bailing stared at the five crowns who were walking towards them, her heart palpitating.

The people who came were naturally hunters who were dispatched at the last minute.

Their eyes were indifferent as they said softly, "There is no Star Alliance Chamber of Commerce here. There is only sect master Taiji."

Before they understood what "Sect master taiji" meant, they charged into the herd of sheep and shouted indifferently, "Those who surrender will not be killed!"

Medicine bailing clenched her teeth, took out a five crowns attack talisman, and was about to throw it out.

However, he and a few big shots from the Star Alliance Chamber of Commerce were all important targets. How could they be given a chance to attack?

“Those who resist, kill them on the spot!”The five crowns Emperor roared across the sky. A sound wave swept over and shattered Yao bailing. Her body and soul were both destroyed. She could not be more dead.

Xiao Qian and Bao Qian were also killed in an instant.

The rain of blood made the Merchants’hearts tremble. They immediately surrendered.

There was no room for them to resist in front of the five crowns emperor.

Not long after, thousands of merchants were disarmed and surrendered.

Their cultivation was sealed and their storage items were taken away, making them become ordinary people.

Among the crowd, only Peng Yuanxin was safe and sound.

His face was full of disbelief and doubt.

Where did the Taiji sect master find these five crowns? The outside world actually didn’t know?

However, what followed was a huge awakening. Peng Yuanxin knew that he had made the right bet this time!

Su Yu was so calm. He must have had a powerful backup plan.

He had made the wrong bet once and almost lost everything. Fortunately, he had made the right bet the second time!

After the hunter pushed all the rebellious merchants back, Su Yu controlled the body of the assassin and reactivated the temporary teleportation array.

With a muffled boom, his figure disappeared.

In the vast void far away, a warship that spanned across the boundless void, comparable to a five-star civilization, ignored the terror of the void and rampaged through it.

In the huge warship, at a certain cross-civilization teleportation array.

The assassin’s figure flashed out.

An indifferent-looking old man waited in front of the teleportation array and said unhappily, “An hour later than expected.”

“Your subordinate is incompetent,”the assassin said.

The old man was one of the managers of the six-star civilization’s Star Alliance Chamber of Commerce. He was in charge of assassinations.

The main goal was to clear the obstacles of the Star Alliance Chamber of Commerce’s business development, such as some ignorant civilization masters.

Of course, these civilizations had to be very important and profitable.

It was not worth it for a low-level civilization below the five-star civilization to send out assassins from the five-crowned kings.

“It took you half a day to assassinate the leader of a five-star civilization ranked 80,000! Do you know that you missed three assassination missions during this time?”The old man reprimanded.

“Please punish me, elder Li.”

The old man said, “I won’t punish you, but don’t do it again! Go to the Mission Hall now and quickly deal with the three delayed assassination missions.”

“Yes!”The assassin left and came to the Mission Hall.

More than 80% of the professional killers on this warship were trained by the Star Alliance Chamber of Commerce. They were waiting for orders in the Mission Hall at all times to carry out assassination missions from the Star Alliance Chamber of Commerce branches.

The Killers stood at the door of the hall and looked inside.

They saw hundreds of killers at the level of five crowns waiting silently among them, closely watching the changes of the missions on the crystal screen.

Once a mission corresponding to their name appeared, they would immediately go to the front desk to take the mission and leave quickly.

There was a reason why the Star Alliance Chamber of Commerce could dominate the void.

With such an invincible assassination team, how many of the five-star civilizations would not obey?

The unconvinced masters of the civilizations were probably already dead.

The assassin’s lips curled into a faint sneer. Standing in the center of the hall, he suddenly took a deep breath, and the primeval power in his body spun crazily without any warning.

His entire body was like a balloon that was about to explode.

“He’s being controlled by someone. He’s going to self-destruct. Retreat quickly!”The unusual movement alerted the killers. They quickly reacted and teleported out of the Mission Hall.

However, this killer’s self-destruct was too sudden. None of them were on guard.

Boom --

The power of a mid-stage five-crowned king’s self-destruct could be imagined. The entire mission hall was within its coverage.

Only a few assassins managed to escape, and the rest were affected.

The entire mission hall was blasted beyond recognition, and the floor was littered with screaming assassins. Many of them were even killed on the spot!

The entire ship shook violently from the intense explosion, and a huge hole was blasted open. Large amounts of void energy poured into the ship, devouring everything in its path.

Elder Li, who was sitting cross-legged and guarding near the teleportation array, suddenly changed his expression and rushed toward the mission hall.

What he saw was a scene that made him tremble with anger.

The mission hall no longer existed. Only a huge crater was left. Corpses were everywhere in the crater, and countless people were injured.

Out of the hundreds of five-tiered emperor-level killers, less than 200 were still alive. More than half were killed by the explosion.

Those who survived were also seriously injured!

Less than ten people successfully escaped from the Mission Hall.

“Who can tell me what happened?” Elder Li roared with his eyes wide open.

One of the assassins who escaped by a fluke said, “It was Kong Xing. He was controlled by someone and suddenly self-detonated in the Mission Hall.”

“Him?” Elder Li was shocked. The time that Kong Xing took to carry out the mission was far longer than expected. It turned out that he was controlled by someone!

“Get his detailed mission!” Elder Li shouted.

He remembered that it was a very simple mission. It was a request from a member of the Star Alliance Chamber of Commerce of a five-star civilization who was ranked quite low. They sent assassins to assassinate the Master of the civilization who did not listen.

This mission should be quite simple. Why was he captured?

In the end, after looking through the information, there was something wrong with the sect master.

“Strange. A three-crowned emperor can become the sect master of a five-star civilization!” Elder Li was suspicious. He pondered for a while and then said, “Get the information of everyone named Su Yu.”

Someone next to him immediately took out a scroll. Countless names of Su Yu flashed on the scroll.

Anyone who was slightly famous in the absolute beginning realm named ‘Su Yu’ could be seen on the scroll.

The Star Alliance Chamber of Commerce had perfected the information to a shocking degree.

Very soon, Su Yu’s information that matched the current description of the Taiji sect master stopped.

“The first time he appeared was in the Sea of constellations. The exact origin is unknown. The second time he appeared was Emperor Yu of the Great Yu dynasty. He secretly harmed the person-in-charge of the Star Alliance Chamber of Commerce of Emperor Yu of the Great Yu dynasty. The third time was from the dark star civilization. He killed the person-in-charge of the local Star Alliance Chamber of Commerce at Cang Sheng Qi. The fourth time was from the Taiji civilization. He suppressed the Price Alliance of the Star Alliance Chamber of Commerce

“Currently, the Star Union Chamber of Commerce has confirmed that you’re a threat at level D. You’re a must-kill target.”

Looking at the information behind the name, elder Li’s face was cold and dark. “You’ve always been against the Star Union Chamber of Commerce. We still can’t find out your background. You’re from Nirvana organization, right?”

Nirvana was the only one who could provide Su Yu with powerful protection and successfully subdue space star.

In absolute beginning realm, Nirvana was one of the few large organizations that could compete with the star Union Chamber of Commerce. Both sides had many conflicts in many fields.

At this moment, Su Yu had to go against the star Union Chamber of Commerce everywhere he went. If he wasn’t Nirvana’s man, it didn’t make sense.

“Repair the giant ship immediately!” Elder Li closed the scroll and said coldly.

“How should we deal with this level D threat?” asked the assistant next to him.

The Star Alliance Chamber of Commerce usually divided people who might pose a threat into four levels, A, B, C, and D.

As threats, they were all targets that the Star Alliance Chamber of Commerce had to eliminate.

Grade-D was the lowest. It could be eliminated, but it could also be observed for the time being.

“Currently, the No. 100 Assassin’s stronghold is severely damaged. It is not appropriate to make a big move. Moreover, those who can subdue the space star must be at the peak of the five crowns. We can not rule out the possibility of a half-step dao master. Unless we use gold-medal assassins, it will be very difficult to succeed!”

The assistant understood what the elder meant. It was not worth it to assassinate him now.

Nirvana and the Star Alliance Chamber of Commerce had too many similar fights. They were already used to each other and were not in a hurry to take revenge.

“However, we must keep an eye on this person. We must update any movements in time!”

“Yes!”

Taiji civilization.

Su Yu slowly opened his eyes. There was a hint of exhaustion in his eyes.

The self-destruction had sacrificed one-ninth of his soul. Naturally, his original body was implicated.

However, from the information he had obtained from his destroyed soul, it was still worth it to lose some souls.

“The Star Alliance Chamber of Commerce has a feud with Nirvana? This is unexpected.” Su Yu rubbed his chin as if he had discovered something very interesting. His eyes flickered with a subtle light.

“However, the power of the Star Alliance Chamber of Commerce is indeed unimaginably strong! “The battleship that is filled with hundreds of five crowned killers is actually only the 100th killer stronghold. In other words, there are at least 99 other killer strongholds. The number of killers there will definitely not be less than the battleship in front of us.”

“And this is only the tip of the iceberg of the six-star Civilization Star Alliance Chamber of Commerce Branch!”

If the six-star division was already like this, how terrifying could the seven-star division, eight-star division, and even nine-star division be?

The more he thought about it, the more Su Yu realized how terrifying the Star Alliance Chamber of Commerce’s foundation was. Only after the six-star civilization had gradually revealed the true foundation of the Star Alliance Chamber of Commerce.

The Star Alliance Chamber of Commerce that he had come into contact with in the past was not even a scratch.

Chapter 2004 The Battle Of The Demons

“The Tai Chi sect is still too small.” Su Yu took a deep breath and adjusted his breathing for a moment. He looked at the two beauties in front of him, one big and one small. “Then, let’s continue the topic from before. Do you want me to persuade the Hunter to send you back?”

Yun Qianshuang crossed her arms in front of her chest and said awkwardly, “If it wasn’t necessary, I wouldn’t want to ask you for help!”

The young girl stared at Su Yu with infatuation and drooled, “Brother Handsome sent me home, I’m so happy!”

“Hey! You wretched girl, don’t forget who’s in front of you. This guy doesn’t get up early for nothing, how could he send us home for Nothing?” Yun Qianshuang tapped the young girl’s forehead.

Su Yu chuckled, “Those who know me, Mountain Chieftain Yun!”

“Stop it! What do you want?” Yun Qianshuang looked as if she had seen through Su Yu.

Su Yu did not try to hide it. “I saved you from the hands of the corpse clan. This is a debt of gratitude for saving your lives. Sending someone to escort you back now is another debt of gratitude. Isn’t it reasonable for you to compensate me?”

Yun Qianshuang was filled with anger. If Su Yu had not snatched away the dao master's bone back then, she would have already returned home by now. How could she have been caught up by that purple-haired Su Yu?

After that, she was even more unlucky and had fallen to such a sorry state.

He actually had the nerve to talk about favors!

However, since things had already come to this, Yun Qianshuang could only ask Su Yu for help.

The journey to her hometown was a long one. The magic treasures on their nephews and aunts were all exhausted. Without anyone to protect them, it would be very difficult for them to return to their hometown safely.

"Let's talk about your conditions first!" Yun Qianshuang said.

Su Yu smiled. "Then I have to ask, what civilization do you come from?"

Yun Qianshuang hesitated for a moment, but the girl said without hesitation, "We come from the four symbols civilization, the top 100 five-star civilization. My grandfather is the leader of the civilization."

When Yun Qianshuang wanted to stop them, it was already too late.

Su Yu's eyes suddenly lit up when she heard that. The top 100 civilizations, half a civilization?

The two of them actually came from such a high-level five-star civilization!

It was really unexpected!

"In that case, can you recommend my Taiji civilization to participate in the ecliptic convention?" Su Yu revealed a sly fox-like gaze.

Yun Qianshuang immediately felt a headache. When her niece told her the history, she knew that things were not good.

As expected, Su Yu, this cunning vixen, would definitely not be let off.

"Sure, sure!" The young girl hurriedly said.

Yun Qianshuang glared at her and said, "Don't say another word!"

She focused her gaze on Su Yu and said, "It's impossible to invite your Taiji civilization."

"Why?" Su Yu asked.

"Because our four symbols civilization will not participate. Naturally, we have no right to invite others."

Su Yu had never thought of such a reason. He said, "Has the Yellow Road Convention lost its attraction to your half-way civilization?"

"That's not true!" The participating civilizations would all receive unimaginable benefits during the conference of the Yellow Dao. However, the Master of our four symbols civilization, my father, is refining a nine-bone heart-saving pill to extend the life of our forefather."

The forefather should be the half-step dao master of the four symbols civilization. This half-step dao master was most likely the reason why the four symbols civilization was able to stand in the top 100.

If he died, the status of the four symbols civilization would plummet.

At the very least, the four symbols civilization could no longer protect the top 100 half-step dao civilizations.

Therefore, compared to the Yellow Dao convention, the forefather's life was more important.

"The nine-bone heart-saving pill..." Su Yu's eyes suddenly flashed. "You sought the Dao Master's bone for this pill?"

Yun Qianshuang's beautiful eyes were filled with hidden bitterness, "Dao Masters are rare existences to begin with. The corpses of Ordinary Dao Masters are all collected by the Daoist Huang Hall after their deaths, and very few are left in the outside world. I looked through many ancient books, and only then did I find traces of the Faceless Living Buddha and the Dao Master of the common life. That's why I went to the Sea of constellations and the Dark Star Civilization."

So that was the case. It was no wonder that they would appear in such a remote civilization.

Su Yu pondered and said, "You want to use the invitation letter to exchange for the DAO Master's Bone?"

"Is that not possible?" Yun Qianshuang asked.

Su Yu shook his head gently. "I can't give you all of it. I can only give you a thumb-long section."

How rare was the Dao Master's Bone? If the other party exchanged all of it with a random invitation letter, this transaction would be too much of a failure.

Yun Qianshuang's beautiful brows sank slightly. A thumb-long segment was barely enough, but if the refinement failed, what would happen when the second refinement was required?

"If you're not willing, then forget it." The dao master's bone was also very important to Su Yu.

"Alright, I'll mention Father's promise to You First!" Yun Qianshuang said decisively. "However, perhaps you'll need to make a trip personally. This trip to the four symbols civilization will take at least five years, and there are only ten years left until the conference of the ecliptic. If you wait here for news, I'm afraid that I won't even have enough time to return and deliver the invitation to you, let alone go to the hall of the ecliptic. Similarly, it will also take quite a long time."

Su Yu pondered for a moment and nodded slightly.

"Sure! We'll move out in a year!" Su Yu said in a low voice.

There was still one thing he had not done!

Human Demon!

It had been three years since the appearance of the human demon, but in these three years, there was no movement from the human demon, as if it had never appeared.

“It’s time to get rid of the human demon!”

Leaving the small courtyard, he came to the hunter King’s training ground. He sensed Su Yu’s aura and immediately stood up, “Sect master Su, do you have any orders?”

Su Yu’s expression was difficult. He said, “To tell you the truth, I have recently received intelligence that an extremely dangerous existence has appeared in our civilization.”

“Oh? How Dangerous?”The hunter King’s eyes shone. He was not afraid of danger, only that Su Yu did not have any danger for him to deal with.

Now, there was finally a place for him to use his strength!

Su Yu told him about the human-demon matter. When he finally learned that the human-demon had killed the previous sect master with just a talisman, his expression turned grave. “This human-demon’s strength should be on par with mine.”

“However, besides me, we have so many brothers. It’s no problem for us to win.”

Hearing that, Su Yu heaved a sigh of relief.

“Are you waiting for him to come to you?”Hunter king asked.

Su Yu said indifferently, “No! I prefer to take the initiative to attack!”

--

At the same time.

In the underground world, in the ancient human tribe.

The human-demon took a bite of a roasted bat and looked at the ancient human standing upright in front of him in boredom.

Compared to the ancient man they saw three years ago, the ancient man’s eyes were sparkling and showed his high intelligence.

What was even more exaggerated was that he was sitting cross-legged and swallowing the black mist that the human demon spat out.

They were cultivating!

At first, the strongest among them was only the three-crowned king.

But now, one of them was at the middle stage of the four-crowned King!

After finishing their cultivation, the ancient man at the middle stage of the four crowns spoke in human language, “Ancestor, we are very ashamed that you have used up your origin energy to raise the intelligence and cultivation of our unworthy descendants.”

The human demon didn’t think much of it and said indifferently, “I naturally have my own plans to help you. Otherwise, with that tiny bit of bloodline, you wouldn’t be worthy of being my descendants. I would have eaten all of you as food long ago!”

The hearts of the ancient people trembled.

Initially, there were ten thousand of them, but now there were less than five thousand of them.

Where were the rest?

They were all in the stomach of the demi-human!

For three years, the demi-human had eaten five ancient people every day.

That was why the number of the ancient people was greatly reduced.

They tried to resist this man-eating demon, but the demon only released its aura, making them unable to resist.

In the end, they submitted to its feet and listened to its commands.

“We are willing to listen to our ancestors’ orders.”

The human demon stretched lazily. “The Order I gave you is to stay here obediently and not go out randomly.”

After that, it stood up.

“Ancestors, you want to leave?”

The human demon’s lips curled up. “To meet that little guy, one of the eight profound meanings, a master of space law. Hehe, such a person must taste delicious.”

Taiji sect.

In the Taiji Grand Hall, a group of high-level people sank into the water.

Just now, the Taiji sect master had announced to the entire Taiji civilization without any warning that from now on, he would mobilize the war and launch a life-and-death war against the demi-humans and the ancient people.

The announced will had spread to the minds of all living beings in every corner. Everyone knew about it, and it was too late to organize.

Therefore, the faces of the elders were unusually ugly.

They had barely survived the Star Alliance Chamber of Commerce’s hidden harm. Before they could even catch their breath, Su Yu had started a war against the demi-humans!

Wasn’t this asking for trouble for himself?

Perhaps, that demi-human had no intention of finding trouble with them at all!

Most importantly, even though it was said to be a mobilization war, how could they have the absolute strength to fight against the demi-humans?

In the entire Taiji civilization, the only person who could fight against the five crowns was Mo Xiaochai.

However, the Taiji sect master was easily killed. How could Mo Xiaochai Stop Him?

The sect master's decision was too hasty. He simply did not care about the safety of the Taiji civilization.

Many elders who had just improved their impression of Su Yu had an extremely bad evaluation of him in an instant.

This was definitely not what a sect master should do!

“Everyone, do you have any objections?” Su Yu took in everyone's expressions and asked indifferently.

The old woman who had always supported Su Yu could not help but stand out and say, “Sect master, Dare I ask why you didn't discuss such a big matter with us? At the very least, we should be mentally prepared!”

Su Yu said indifferently, “If we were to discuss it with you, you would definitely push back and use all sorts of reasons to convince me not to mobilize the troops, right?”

The old woman did not say anything. That was exactly what she was thinking.

“But, sect master, why do you think our Taiji sect can fight against the human demons? Just because of us here?” The old woman asked.

This question was also a question for all of them.

What Su Yu had done was truly unbelievable and incomprehensible.

“Of course we can't just rely on the Taiji sect. This has been decided in the past. We need external help,” Su Yu said.

Everyone was stunned. Since they understood, why did they still do this?

Mo Xiaochai said in a low voice, “Sect master, don't tell me you're pinning your hopes on the Friends of the four-crowned emperors?”

She had seen Su Yu arrange for a large group of four-crowned emperors and people with special physiques to stay on the sect master peak.

Friends of the four-crowned emperors? Su Yu was surprised.

He had thought that Mo Xiaochai, the five-crowned emperor, had already seen through their cultivation.

Chapter 2005 The Power Of Demons And Humans

So she was still in the dark.

Su Yu smiled bitterly in his heart and said, “Their strength is not what you know.”

Mo Xiaochai frowned. It was not what she knew. Could it be that they had hidden powerful moves, such as being able to attack together?

However, cultivation was the foundation of strength. No matter how many four-crowned emperors there were, it would be difficult for them to compete with five-crowned emperors.

“For the time being, they can contend with human demons. What are your specific plans?” Mo Xiaochai asked. He had a feeling that with Su Yu’s wisdom, he wouldn’t be so stupid as to not make any moves, right?

In the end, Su Yu’s decision made her have the urge to pry open Su Yu’s brain and see if there was something wrong with him. “Wait for the Rabbit!”

There was a reason for Su Yu’s arrangement. It was just that there were some details that she couldn’t tell them for the time being.

“Sect master, you are too hasty in this matter.” After confirming that Su Yu did not have any specific arrangements, Mo Xiaochai sighed deeply.

It was not easy for him to establish his prestige when he was attacking the Star Alliance Chamber of Commerce, but now it was all gone.

The old woman also said, “Sect master, please take back your orders!”

The line of elders said one after another, “Sect master, please take back your orders!”

Seeing that all the elders in the hall were opposed and none of them agreed, Su Yu did not get angry. They did not understand the situation of the hunters, so it was not their fault for opposing.

And Su Yu could not reveal the existence of the hunters in advance as well as some detailed plans.

Da Da da --

Suddenly, elder Yin Yang from the waiting hall rushed over and said, “Reporting to the sect master, there is a guest outside who claims that he has never met you before but wants to meet you.”

The old woman said unhappily, “Just chase him away! Is the sect master of the Taiji sect someone that anyone can meet just because they want to?”

“Hold on.” Su Yu waved his hand and stared deeply at elder Yin Yang in front of him. A long blade that could not be seen by the naked eye appeared in his left hand without any change in expression and he gently chopped down.

A faint thread was cut off from elder Yin Yang’s body.

At this moment, elder Yin Yang suddenly blinked his eyes in a daze and came to his senses. He turned pale with fright, “Why am I here?”

Su Yu said indifferently, “You are being controlled by someone. HMM, there must be some kind of talisman on you that is about to explode.”

Almost as soon as he finished speaking, an astonishing fluctuation came from elder Yin Yang’s body.

It was the fluctuation of an attack talisman at the level of the five crowns emperor, and it had already been activated!

The old woman’s expression changed greatly. They had encountered the same scene not long ago.

And that time, their previous sect master had died a heroic death.

“Run!” The old woman cried out in alarm. She had escaped first.

The Earth elders reacted one after another, their expressions changing tragically.

Even Mo Xiaochai's expression couldn't help but change. She immediately teleported out of the Taiji grand hall.

When she reached the outside world, she discovered that Su Yu hadn't followed her out.

"Not good! Sect master is still inside!" By the time she reacted, it was already too late.

A destructive blast wave exploded in all directions with the sect master peak as the center.

The old woman shouted, "Take the other nine peaks away first!"

The sect master had no time to save them, so she could only save her disciples first.

Before the blast wave arrived, the Earth elders used their great divine abilities to move all the nine peaks away.

When they arrived at the safe zone, the Taiji sect was razed to the ground for the second time.

The newly built sect master peak disappeared into thin air, leaving behind only a huge pit.

Su Yu's figure was buried into the dust.

Mo Xiaochai covered her red lips, unable to believe her eyes. Su Yu was... dead just like that?

Just a moment ago, she had been discussing the great plan with them. In an instant, they were separated by life and death?

The old woman and the Earth elders were even more deeply shocked.

"Is it a human demon?" The old woman's heart trembled, and the last bit of hope in her heart was extinguished.

She was hugging the Earth elders. If she didn't provoke a human demon, he might not come to find trouble with the Taiji sect.

But now, everything had been crushed.

The Taiji sect had been razed to the ground, and there was only one place that was well-preserved and not affected by the shock wave at all.

That was the waiting hall.

A Taiji sect disciple was holding a tray and a cup of hot tea with trepidation.

In front of him sat a former Taiji sect disciple, Yang Hua!

At this moment, Yang Hua gently shook his head. "To be able to cut off the demonic qi of the Sky Demon, it is indeed a bit of skill. Unfortunately, people are too stupid and their reactions are too slow!"

He took a sip of tea and slowly stood up, looking out into the sky. "A five-star civilization is ultimately too small. A civilization further away is still more interesting."

After saying that, he put down his teacup and left the waiting room with his hands behind his back.

He turned around and looked at the Taiji sect that had been razed to the ground. The corner of his mouth curled up with a trace of pity. "For the safety of my descendants, this civilization should return to silence!"

After saying that, his entire body emitted a shocking evil aura. The surging power of the primal chaos erupted in all directions from his body.

He planned to use the power of the primal chaos to destroy the citizens of the city.

"Sir, it's best to leave a trace of humanity behind." Suddenly, the power of the primal chaos that was about the same level as the human-demon suddenly swept over and completely resisted the power of the primal chaos that was emitted by the human-demon.

The human-demon was slightly startled, and then he laughed wickedly. "Interesting. A barren five-star civilization still contains experts at the peak of the five crowns!"

He placed his hands behind his back, and his eyes suddenly opened. However, with a loud bang, the entire Taiji sect split into two, and a ten-thousand-foot-wide crack appeared.

Under the crack, one could clearly see a silver-haired youth sitting on a throne.

His gaze was calm and unmoving. Even if the other party split the world with a single glance, there wasn't the slightest bit of movement.

His posture was like a king that stood tall for all eternity, silently overlooking everything.

Behind the silver-haired youth, there was an outsider who was eighty feet tall, and his entire body was exuding an aura of looking down on the world.

At this moment, he lightly pushed his hand against the ground, pushing the invisible pressure of the human and demon back.

"Sect leader Su, leave it to me." The hunter King stepped out, causing the entire collapsed ground to rumble and shake, causing half of Taiji city to shake.

A battle between two peak five crowns, how peerless was it?

However, the gazes of the vast majority of people were fixed on Su Yu on the throne.

It was no longer important that he was not dead. What was important was when did he invite a powerful existence at the peak of the five crowns?

The past sect masters of the Taiji sect could only make one or two early-stage friends at the same realm. If the Taiji sect was in trouble, the other party might not be willing to risk their lives to help.

But now, he had directly invited an existence at the peak of the five crowns!

At this moment, they finally understood the meaning of Su Yu's arbitrary decision!

It was precisely because they had expected them to oppose it, and Su Yu had no way of explaining it, that he had decided to declare war.

Unfortunately, he was still one step too late, and the demi-human directly came to his door!

Xiu --

The two peak-level five-crowned champions quickly exchanged blows. With their realms, they could easily destroy an entire civilization.

The hunter King forced them to the edge of the Taiji civilization to reduce the casualties caused by the battle.

Even so, the Taiji city far away from the mountains and rivers was still trembling.

They couldn't see the battle at the edge of the civilization. They could clearly see pieces of space being torn apart and a large amount of pitch-black power surging into it.

All the living beings felt the tension of life and death!

Su Yu sat firmly on the throne and did not move at all. Only the enormous yin-yang wings on his back rose up and disappeared into thin air with a swoosh.

When he reappeared, he had already crossed the entire five-star civilization and appeared in the sky above the battlefield.

The battle between the two was very terrifying. Both sides had not used their own laws, but when they fought, they could tear apart space.

Especially the demi-demon, he was not afraid of the power of the void at all.

After fighting for a while, the human demon nodded his head and commented, "Your physique is still alright. I just don't know how well you've mastered the laws."

The human demon's hair suddenly expanded and instantly became tens of millions of meters long. Every strand of hair was like a black snake dancing wildly, looking extremely terrifying.

The strangest thing was that his long hair was actually condensed from laws.

The hunter King was shocked. "Why isn't your law a chain?"

Any law that was cultivated to the great success stage should have the final form of a chain, competing for the Great Dao of Heaven and earth.

But the law of the demi-demon was hair!

"Hehe, this era's pitiful creatures, you won't understand what law is." The demi-demon's hair fluttered, and countless laws bombarded.

Hunter King didn't dare to be careless. The law chain pulled out, turning into a long snake that danced in the air, sweeping across the demi-demon's hair.

The two laws collided, but there was no terrifying fluctuation. Instead, it was the hair of the human demon that wrapped around the hunter King's law chain and slowly swallowed it.

The hunter King felt a chill on his back and took a deep breath. "Law of devouring!"

How could someone cultivate such a dangerous law?

At the critical moment, the hunter King opened his mouth and spat out a mouthful of black blood. Countless bugs of all sizes flew out of the blood, pouncing on the hair and crazily gnawing at it.

Not long after, a crisp sound could be heard as his hair was gnawed off. Only then did the hunter king pull back his law shackles.

However, he did not dare to act rashly anymore and looked at the other party with an extremely grave gaze.

On the other hand, the human demon laughed evilly, “Hehehe, I haven’t had my fill yet!”

However, when the human demon opened his eyes, suddenly, the hunter King’s body was unable to move. With his abdomen as the center, a rapidly expanding devouring circle appeared, crazily devouring his body.

The hunter King was shocked. “You... How can your laws change at will? !”

If his hair was in the form of his laws, with a casual open of his eyes, his laws could also change into the form of his gaze!

This kind of law was simply unheard of!

“Brothers, Attack!”The strength of the human devil far exceeded expectations!

Instantly, dozens of concealed auras of five crowns exploded at the same time!

Large amounts of law chains surged out from all directions, forming law walls that cut off the human-demon’s vision.

The hunter King had just escaped from danger after losing the sight of the law. His heart was filled with shock as he said, “Kill!”

Instantly, tens of thousands of law chains shot towards the human-demon.

The human-demon’s expression was calm as he curled his lips into a smile. “All of you know nothing about the Law!”

Three feet away from him, an incomparably huge pitch-black ball appeared without any warning, enveloping him within.

Any law chains that struck him seemed to sink into the mud and sand, sinking bit by bit, unable to be pulled out.

The hunter King’s heart changed drastically as he said, “His law is devour, and laws can appear in any form! Everyone Retreat First!”

More than twenty five crowned emperors pulled on the law chains at the same time, barely stopping the trend of being devoured.

However, it was only stopping.

The demi-demon alone was comparable to all the emperors stacked together!

“Too weak!”The demi-demon laughed. Suddenly, a pitch-black devouring power followed their law chains and sped towards their original bodies.

Chapter 2006 Calmly Exterminating The Devil

“Not good! Quickly give up the law chains!”The hunter King’s expression changed drastically.

But to give up the law chains was easy to say, who would be willing to?

If they gave up, the law that was equivalent to a lifetime of condensing would instantly turn into nothingness, and it would be impossible for them to possess the law for the rest of their lives, and their cultivation would also stop for the rest of their lives.

As they hesitated, they were about to be swallowed up by the devouring power.

“Absolute time!”At this moment, Su Yu suddenly said.

A majestic and formless law descended, freezing the rapidly expanding devouring sphere.

The devouring power instantly lost its effect.

The five crowns had just successfully pulled out their own law chains and retreated together.

Even the hunter King no longer had any fighting intent in his eyes. There was only endless fear.

When the absolute time ended, the expanding ball instantly dissipated.

On the human demon’s savage face., a trace of surprise flashed past. “Time Law? I remember that you have also cultivated the space law mastery right? This is really strange. The one on the sacred mountain actually allowed the people of this era to successfully comprehend the dual supreme law!”

“However, this kind of person might taste even sweeter when eaten.”The human demon licked his lips and became even more interested in Su Yu.

The hunter King grabbed Su Yu with one hand and said, “The human demon is definitely not someone we can contend against, unless a half-step dao master or dao master comes personally!”

Su Yu was unmoved. He sat firmly on his throne and said calmly, “Although the world is big, where can we escape to? Why not fight head-on!”

He raised his hand and grabbed, and a powerful spatial halo enveloped their heads.

“His laws are indeed changeable, but they are not invincible!”Su Yu watched the battle from the side and did not idle, his eyes were filled with a profound and wise light. “His laws can only devour tangible things, but they are ineffective against intangible things such as space, air, divine aura, and so on.”

Just now, he saw very clearly that after the absolute time ended, the devouring sphere that should have continued to expand suddenly disappeared.

That was not because the demi-human had lost control of itself, but because it had lost its devouring target.

“So What? Can we turn invisible and fight it?”The hunter King asked.

Su Yu shook his head lightly, “That’s not possible, but at least we can make you not fear the devouring power!”

Looking at the spatial halo above his companions' heads, the hunter King was skeptical and said, "Brothers, let's try again!"

Everyone attacked at the same time.

The demi-human sneered, "So what if you've seen through my laws? Aren't you still dead?"

In an instant, he glared at the person closest to him.

A devouring sphere immediately appeared on the hunter's body!

At this moment, the spatial halo above his head flashed and teleported him elsewhere.

The devouring power on his body immediately disappeared.

Because he had lost the support of the human-demon eye of Laws!

After the hunter passed through the gates of hell, he still had lingering fear in his heart. The other hunters who saw this revealed a trace of joy on their faces.

So this was the effect of the spatial halo!

The human-demon still had a cold smile on his face. "It's only just begun!"

With him as the center, an incomparably huge devouring sphere immediately appeared. It instantly touched the nearest hunter. Just as it was about to devour him, the spatial halo above his head suddenly flashed and he immediately disappeared.

After losing the object that could be devoured, the devouring sphere immediately disappeared.

The group of hunters were overjoyed. Without any hesitation, they took advantage of the moment when the human magic laws disappeared to use divine spells.

The human demon still had a cold smile on his face, but he did not say anything else. He only sent out a three-inch devouring sphere from the surface of his body to block the divine spells in all directions.

The Hunter King's heart moved, and he gave a look to the hunter beside him.

Fear flashed in the Hunter King's eyes. He gritted his teeth and pounced forward with all his might. He actually attacked the devouring sphere without fear of death.

"Courting Death!"The human demon was unmoved.

However, when the human demon barely touched the devouring sphere, he was teleported away by the spatial halo above his head.

Because the devouring sphere lost its solid object to be devoured, it suddenly disappeared.

The hunter King thought to himself. His figure flashed and a fierce divine spell hit the human demon's chest.

The human demon's body was only Yang Hua's body. How could it block a blow from a peak-stage five crowns emperor?

With a bang, Yang Hua's body turned into flesh and blood.

Only a stone hammer surrounded by green light floated in the air.

A faintly discernible image of a ferocious soul flickered near the stone hammer.

It was the soul of the human demon himself!

At this moment, the human demon no longer had a cold smile on his face. Instead, he was filled with endless anger. "A bunch of ants! Congratulations, you've angered me!"

He stared deeply at Su Yu, who was sitting on the throne.

In his eyes, the five-crowned king was just a puppet that could be easily killed.

The real threat was Su Yu, who controlled supreme laws!

Without his superb space law, these people would have died a long time ago.

"Sky-splitting Hammer!" The human-demon phantom clenched the stone hammer in his hand. His aura rose crazily, surpassing the five-crowned king and reaching a realm that made the five-crowned king tremble.

It was as if what they were facing was not a soul but a vast Heavenly Dao.

In front of him, the five crowned emperors were like ants, unable to even muster the will to resist.

The hunter King's entire body trembled, and his eyes were filled with disbelief as he said in a trembling voice, "The power of the Dao Master... he... He is the Dao master's remnant soul!"

Despair appeared on the faces of the other five crowned emperors at the same time.

In front of the Dao master, any power was superfluous!

Only Su Yu's eyes were calm as he said leisurely, "You are indeed the Dao master's remnant soul!"

When he first sensed the danger in the dark forest, he had already expected it. That kind of intense unease was definitely not an ordinary existence.

"Human, I've changed my mind. I'll eat your soul, but I'll take your body as the price for causing me to lose my body!" The human demon carried the might of the Dao master as he slowly raised the stone hammer in his hand.

With this raise, the laws within the hunters' bodies began to tremble. Even Su Yu's six laws were showing signs of instability.

Such a situation could only happen when facing a dao master.

That stone hammer strike had definitely reached the level of a dao master.

Everyone present instantly sank into deep despair.

All the living beings of the Taiji civilization could not help but feel their hearts beat wildly. Their blood and Qi flowed backwards, and they felt a fear of the end of the world.

With a single strike from a dao master, the five-star civilization would cease to exist!

"Being born in the end of the era is your fortune and your sorrow. I hope you can still make it in time to stop..."

Suddenly, for some unknown reason, Su Yu suddenly shouted loudly.

At this moment of crisis, what was the point of shouting such baffling words?

At first, the human demon also had a cold smile on his face, but then he realized something, and his expression changed drastically. "Shut up..."

Boom --

Suddenly, a crack appeared in the sky, and a huge palm with Heaven's might slammed down.

The target of the palm was Su Yu!

However, when he sensed the existence of the human demon, he turned his palm and turned it toward him.

The human demon roared, "Human, you schemed against me..."

Before he could finish his roar, the huge palm slammed down and crushed him into nothingness.

Then, the giant palm dissipated, and the sky closed up once more. The sky was blue, and the wind gently blew the clouds, as if the previous scene had never happened.

The hunters froze on the spot, unable to comprehend the scene before their eyes.

The demi-human was clearly about to be destroyed along with them and the entire five-star civilization, but why did Su Yu's casual shout cause a terrifying palm of heavenly might to appear and obliterate him!

Only Su Yu sat firmly on the throne, his face unperturbed.

Everything was within his expectations.

What he shouted out was not someone else's words, but the incomplete words of the remnant soul of the DAO Master of the common life.

He wanted to tell the common life some secrets, but in the end, he attracted the mysterious giant palm and wiped out the remnant soul.

The demi-humans and demons before him kept saying "This century" and "The end of the world", as if they were afraid that Su Yu did not know that he was very likely the DAO Master of the common life and knew a certain secret.

Therefore, after thinking of ways to destroy his body and expose his remnant soul, Su Yu naturally did not hesitate to use the words that the DAO Master of the common people had said back then.

Hence, he easily attracted the giant palm.

The giant palm sensed the soul of the human demon, an Ancient Dao master level soul. Naturally, it believed that he was the one who wanted to reveal the secret, so it killed him.

Naturally, he would not tell these to the hunters. Instead, his gaze flashed. "How are things at the ancient human tribe?"

The hunter King returned to his senses and said, "The hunters of the four crowns have already gone there. They should have finished harvesting by now."

Ancient human tribe.

The ground was filled with the corpses of the ancient humans. They were piled up by hundreds of hunters of the four crowns and burned into ashes.

“I wonder what grudge sect leader Su has with these ancient people. He repeatedly urged us to kill them and destroy their corpses.” A four crowns Emperor said in confusion.

“Sect leader Su must have a reason for arranging this. Check again to see if there are any fish that have escaped the net. Sect leader Su said that we must not let any of them go.”

The group of four crowns emperor searched everywhere, including the dark forest. After confirming that there were no fish, they left the ancient human tribe.

It turned out that before declaring war on the humans and demons, Su Yu had already sent the hunters of the four crowns to hide near the ancient human tribe and wait for orders.

When the humans and demons appeared, Su Yu sent a message to them that they could move. That was how the current situation came about.

The group of hunters left the empty ancient human tribe and also left the underground world.

However, what they didn't know was that after leaving for a long time, in the mud of the underground world, a nine yin grass suddenly moved.

Then, an ancient man covered in mud crawled out!

He stared at the direction where the hunters had left and hurried back to the tribe.

It turned out that he was an ancient man who was hunting outside. He had just left the tribe and missed this disaster.

When he returned to the tribe and looked at the ashes on the ground, the ancient man patted his chest and roared, “Ancestor, save your descendant!”

However, the ancient man was suddenly stunned. Then, his expression became painful.

A dark green light could be seen rolling in the blood vessels under his skin. It wiggled in his body and finally gathered in his chest.

PA --

His chest suddenly exploded and he died on the spot.

A stone hammer with a dark green light rose up from his shattered chest.

Not long after, a faint shadow of a soul appeared. It looked at the ashes on the ground and then at the only corpse under its feet. It said in a low voice, “What a cunning human. He actually calculated that I could use the ancient people to be reborn?”

If it was not for this ancient person who happened to be hunting outside and avoided a disaster, the human-demon would have been turned into ashes!

Chapter 2007 Former Sect Master

“At least I didn’t raise you trash in vain.”The human demon stared at the ancient man’s corpse.

He had spent three years to activate the bloodline in their bodies, not out of kindness, but because he wanted them to be reborn through the bloodline link at any time after he died.

Therefore, this was why he ordered the ancient people not to leave this place, and even planned to wipe out all the civilizations outside of the ancient people. It was to protect the ancient people and leave a way out for himself.

He had thought that he would use this backup plan again when he encountered an expert a long time later.

He did not expect that he would fall at the hands of a human before he could even leave a small 5-star civilization!

“Human, let’s wait and see!”The soul of the demi-human was weak, and he needed to find a place to recuperate.

This place was no longer suitable for him to stay. He could only leave the 5-star civilization and come back to take revenge in the future!

Taiji sect.

After dealing with the human demons, Su Yu and the group of hunters returned.

The sect master peak had been re-established, and it was even more magnificent than before.

Su Yu sat firmly on the sect master’s throne. On one side of his left hand was an elder of the Taiji sect. He was full of energy and stood upright.

On the other side were the hunters, who stood there calmly.

“Everyone, the human demons have been eliminated. From now on, we should focus on developing and revitalizing our Taiji civilization,”Su Yu said.

“Sect master is wise!”The elders of the Taiji sect said in unison. Their voices were clear and loud, and their eyes were filled with trust and respect as they looked at Su Yu.

It was not a big deal if the price of goods was reduced. However, killing the demons and humans was something that an ordinary person could do.

After going through the generations of sect masters, there were probably not many sect masters who had the courage and ability to deal with them.

“Now, I will announce the candidate for sect master,”Su Yu said. He swept his gaze over and looked at the old woman. “From today onwards, elder Yu is the candidate for the next sect master of the Taiji sect!”

The elders had no objection to this. As the only Sky Elder, it was normal for them to choose the candidate.

They were surprised that the Taiji sect would choose a candidate at this time?

“Another thing is announced. I will go to the four symbols civilization for official business. It will take a long time. If my life token in the sect is broken, the candidate will inherit the position of sect master. Mo Xiaochai will handle this matter properly.”

The entire place was in an uproar.

“Sect master! You Can’t Leave!”

“If it weren’t for you, what would we do if the sect master had problems again?”

Having witnessed Su Yu’s methods to quell the disaster twice, he was suddenly unable to leave.

“You guys just focus on managing the civilization. If there are any problems, I will come back again,” Su Yu said. How could there be so many big problems appearing one after another?

Encountering two at the same time was already a small probability.

“Okay, let’s call it a day!” Su Yu said without waiting for further explanation.

After leaving the Taiji grand hall, Su Yu came to the martial artist market with a thought.

He saw Huangfu Lieyang and Yinyu in the shop, busily distributing the Taixu. Both of their expressions were full.

“Goodbye, brother Huangfu.” Su Yu smiled faintly. The current environment was the best reward he could provide to Huangfu Lieyang.

Strolling in the marketplace, more than 80% of the present martial artists’ marketplace had become a cauldron’s industry. It could be said that it was earning a lot of money every day.

And the resources and divine stones that medicine bailing, Xiao Qian, Treasure’s daughter, and the other traitorous merchants had seized were a considerable astronomical figure.

Not only did they put all their years of savings into this price hype, but they also borrowed hundreds of times their own money from various parties just for a gamble.

Now that they lost the gamble, it was all due to Su Yu.

These foundations were roughly counted and added up to a hundred times the total of the Taiji sect’s treasure trove, which was equivalent to the total of ten five-star civilizations.

This provided an extremely abundant amount of funds for the cauldron’s rapid development.

Su Yu and the Dark King met for the last time. Before he left, he gave him many nine yin pills so that his strength could recover to its peak as soon as possible.

“My cultivation is not important. I am a scabbard created by Dao Master Slayer. The highest I can reach in my life is five folds of the middle position. I need to remind you not to forget the secret of the scabbard,” the Dark King said. “Dao

Master Slayer must pass down the secret even before he dies. It must be very important.”

Su Yu paused. That secret was stored in the depths of his mind and he did not open it rashly.

It was best not to get involved in secrets that involved the level of a dao master for the time being.

At the very least, one had to have the strength equivalent to that of a dao master to be able to open it.

After giving out all the instructions, Su Yu returned to the sect master peak.

Yun Qianshuang and the young girl were preparing for this long journey.

The hunter king and many other hunters were also packing up their things.

After this battle, they could be said to be extremely respectful towards Su Yu. At the same time, he had mastered the laws of time and space. Such a heaven-defying genius would have limitless future achievements.

As expected of that Dao master's disciple, he was indeed extraordinary.

Moreover, this person's connections were extremely vast. He was actually able to contact an advanced civilization like the four symbols civilization and was even more certain of his identity. He was indeed a dao master's disciple.

Therefore, the hunter King and a few of his companions decided.

First, they would return to the Hunter alliance and hand over the people in their hands. After that, they would all join the cauldron and become the core strength of the cauldron.

Firstly, they could serve the DAO master disciples, and secondly, they could obtain long-term development in the cauldron.

An organization that was personally created by a dao master disciple would definitely have a terrifying scale in the future. At the very least, it would not be weaker than the Hunter Union.

If they joined the cauldron now, along with the contribution from the dragon, their status in the future would be far from what the Hunter Union could compare to.

After all the preparations were done, they immediately set off.

Through the inter-civilization teleportation formation, they teleported to the nearby small civilizations, and finally to the other large civilizations.

Two years later.

It had been two years since Su Yu and the others left, and everything in the Taiji sect was operating normally.

Until a certain figure suddenly appeared in front of the Taiji sect.

“A few years have passed, and the Taiji sect is still the same.”The newcomer entered the waiting room and sighed softly.

The Yin Yang Elder who was receiving him was surprised. who was this person? Why was he sighing?

He looked up and was almost scared out of his wits. He cried out in shock, "Sect... sect master!"

This person was not just anyone. He was the previous sect master of the Tai Chi sect who had been blown to death by a human demon with a talisman seal on the spot!

His life token had been shattered, and he had just confirmed that he was dead. Then, he chose the new sect master.

The Taiji sect master glanced at him indifferently and walked into the Taiji sect.

The disciples and elders along the way were all stunned.

No one stopped him along the way. He ascended to the sect master peak and naturally sat firmly on the sect master's throne.

The appearance of his aura immediately alarmed Mo Xiaochai, elder Yu, and the higher-ups of the Taiji sect. They all came to the Taiji grand hall.

"Sect... sect master!" Everyone's eyes were wide open and their mouths were agape.

Elder Yu was the most shocked as he said, "Aren't... aren't you dead?"

Sect master tai chi sighed indifferently, "When that talisman appeared, I couldn't avoid it. I had to use some secret technique to barely escape. However, because of that, I was banished to a certain place and was trapped for five years before I was able to barely escape."

This statement was too far-fetched.

"But sect master's life token was clearly broken," elder Yu said in bewilderment.

Regarding this, the sect master of Taiji said, "It should be because the place that trapped me was exceptionally special, causing me to lose contact with my life token. That's why it was broken!"

Pausing for a moment, he waved his sleeves and said, "However, since I'm back, everyone can rest assured. There's no need to panic anymore!"

The expressions of the many elders in the hall were extremely strange.

Their worst moment had already passed!

The most vexing thing was that they thought the sect master had died, so they re-established the sect master.

The current sect master had not died, and the previous sect master had returned. There had never been such a thing in the history of the Taiji sect.

For a moment, they did not know what to do.

"What? Are you unhappy that I have returned? Or are you hiding something?" The Taiji sect master asked.

Elder Yu, as an elder of heaven, stood up and said, "Sect master, there's something you don't know. We mistakenly thought that you had died, so we chose another sect master!"

“There’s such a Thing?”The sect master of Taiji sect was slightly surprised. Then, he waved his hand indifferently and said, “Forget it. Those who don’t know won’t blame me. Since I’m back, I’ll remove his position as sect master. From today on, you all listen to my orders.”

Elder Tian and the Earth elders fell into silence.

If he had returned two years earlier, they wouldn’t have made things difficult for him.

But two years ago, they had acknowledged Su Yu’s status. They were filled with respect and gratitude from the bottom of their hearts. They had already regarded him as the true sect master of Taiji sect.

Now, the previous sect master had kicked Su Yu away as a matter of course. They couldn’t accept it. Without Su Yu, would taiji sect be as stable and prosperous as it was now?

“Why? Do you have any objections?”The Taiji sect master was displeased and said, “According to the rules of the Taiji sect, only after the previous sect master has confirmed his death can the next sect master be appointed. Since I’m back, he naturally has to be at the back!”

“Is this the rule, Mo Xiaochai?”

Mo Xiaochai, who was at the side, did not say a word. She nodded lightly and said, “This is indeed the rule!”

However, she added, “However, you need to experience the coronation of the sect master again.”

As the guardian of the Taiji sect, Mo Xiaochai could not resist the rules the most.

Even though she could fight against the sect master of the Taiji sect, she had no choice but to follow the rules.

The sect master of the Taiji sect frowned slightly and said, “That’s nothing! Let’s talk about it tomorrow. Now, tell me about the current situation of the Taiji sect.”

Elder Yu sighed in his heart. Since things had come to this, they could only take things one step at a time. Thus, he explained the recent situation of the Taiji sect one by one.

After hearing the whole story, the Taiji sect master’s face darkened. He angrily slammed the table and said, “Outrageous!”

Hearing this, everyone thought to themselves, that’s right. The people of the Star Alliance Chamber of Commerce were too excessive and the human devils were too dangerous.

“That person called Su Yu is simply messing around!”However, the Taiji sect master reprimanded Su Yu.

Elder Yu said, “Sect master, it is precisely because of sect master Su’s leadership that we are here today. Sect Master, did you misunderstand something?”

The Taiji sect master reprimanded, “What misunderstanding? Su Yu opened the Taiji sect’s treasury without permission. He treated the Taiji sect’s five billion-year-old foundation as if it was nothing and almost destroyed in an instant! Also, how could he treat the demi-humans so rashly?”

The Earth elders were furious when they heard this.

Perhaps Su Yu’s actions at that time seemed unreasonable, but looking at the results later, it was extremely correct.

The previous sect master was fine. After everything had calmed down, he returned and did nothing. He enjoyed the stability and prosperity brought by Su Yu, but he reprimanded him.

They were extremely unconvinced when they heard this!

“The stupidest thing was to imprison thousands of merchants and even put in cauldrons of unknown origins to strangle the Taiji sect’s economic lifeline!” “The stupidest thing!” The Taiji sect master said, “Pass down my orders. Release those merchants immediately and take back all the shops of the tripod organization. Also, confiscate their funds and resources. Then, arrest them and interrogate them to see where they came from!”

Chapter 2008 The Purple Lizard Civilization

What?

Elder Yu said in shock, “Sect master, you can’t! Those merchants have already found out that they are all members of the Star Alliance Chamber of Commerce. They were the ones who almost caused the economic turmoil that destroyed the Taiji sect. How can you let them go just like that?”

The Taiji sect master said without any explanation, “What kind of reputable organization is the Star Alliance Chamber of Commerce? Why would they do such a thing? I think there must be a conspiracy! It’s very likely that it has something to do with Su Yu!”

Seeing that elder Yu was about to speak, the sect master of Taiji glared, “What, the sect master’s orders are no longer effective?”

“This...” elder Yu was powerless to resist.

At this moment, Mo Xiaochai said, “You’re not the sect master yet, so you don’t have the authority to give orders. Let’s wait until tomorrow to crown you as the sect master again.”

The sect master of Taiji nodded slightly, stared coldly at elder Yu, and left with a flick of his sleeve.

The Taiji grand hall was gloomy.

No one had expected that the previous sect master would not only return, but also return to the good situation that Su Yu had created.

Once the Star Alliance Chamber of Commerce’s merchants were released, would they change their ways?

No!

The Taiji civilization would be the ones to suffer even more and take back the wealth they had lost.

“Miss Mo, is our sect master leaning too much towards the Star Alliance Chamber of Commerce?” Elder Yu’s eyes flickered as he cautiously asked.

Mo Xiaochai sneered, “Favor? He’s from the Star Alliance Chamber of Commerce, Right?”

“Ah?” Elder Yu pretended to be surprised, but in reality, he knew what was going on. Was it possible for him to be so biased on purpose without a reason?

“Ah What? Old Man, don’t you understand in your heart?” Mo Xiaochai rolled her eyes at her.

Elder Yu said embarrassedly, “I wonder if Miss Mo has any brilliant plans?”

“What brilliant plans can I have?” Mo Xiaochai asked in return.

Elder Yu sighed in his heart. He could only blame the previous sect master for being too evil. He had not died even after that level of explosion. Now that he had returned as sect master, he had suppressed everyone and made them powerless to resist.

“However, sect master Su has a brilliant plan.” A teasing smile appeared on the corner of Mo Xiaochai’s mouth.

“What? Sect Master Su knows about this?” Elder Yu was immediately excited. Sect Master Su was simply too amazing. He had predicted this scene two years ago and had even left behind a plan in advance!

Mo Xiaochai’s eyes revealed a hint of admiration. “Yes, he knew long ago that our former sect master should be inextricably linked to the Star Alliance Chamber of Commerce. Before he left, he even asserted that not long after he left, the former sect master would suddenly return. Now, everything has come true.”

Elder Yu was so surprised that he couldn’t close his mouth. “How can sect Master Be Sure?”

Mo Xiaochai said calmly, “80% of our economic lifeline is controlled by the Star Alliance Chamber of Commerce. Who is to blame? It’s the current sect master, right? Also, do you remember our former sect master, Sect Master Sima?”

“I know. He took the inheritance of the sect master and disappeared for no reason.”

Mo Xiaochai said, “From the beginning, I suspected that sect master Sima’s disappearance had something to do with this sect master. For many years, I have been secretly investigating, but unfortunately, I have no evidence. When sect master Su brought back the array core of the heavenly star nine yin and nine Yang Array, I confirmed that sect master Sima might not have disappeared for no reason, but was persecuted by someone. He had no choice but to leave the Taiji sect and hide in the dark star civilization with serious injuries.”

Everything made sense when they were connected.

At that time, sect master Sima was extremely opposed to handing over the lifeline of the economy to outsiders. He was particularly opposed to the Star Alliance Chamber of Commerce.

Later, when he was about to be crowned sect master, he disappeared for no reason.

He was inherited by the candidate of the sect master at that time, the former sect master.

Not long after this person became the sect master, he issued orders to welcome all foreign merchants to the Taiji civilization to do business.

It seemed that he had been bribed by the Star Alliance Chamber of Commerce, or perhaps it was the Star Alliance Chamber of Commerce!

Elder Yu said angrily, "If that's the case, this person is really hateful!"

"When a catastrophe like the human demon came, he deliberately pretended to be dead and hid. After sect leader Su calmed everything down and left, he appeared again, trying to invite the Star Alliance Chamber of Commerce back! "Everyone should kill this scum of the Taiji civilization!"

Mo Xiaochai's eyes were dangerous. "If he was killed, it would be too easy for him. Sect leader Su left him a better choice!"

The next day.

The whole city was in an uproar.

The previous sect leader had returned and retaken control of the Taiji sect. Today, the coronation ceremony was held again.

The commotion was no less than an earthquake. The entire civilization was paying attention to it.

In the Taiji Grand Hall, the sect master's sleeves trembled slightly. He was full of energy as he said, "Let's go to the Prison Dragon Pass!"

He, Mo Xiaochai, elder Yu, and the other elders all went there.

After five years, the Prison Dragon Pass opened again.

As soon as they entered, countless members of the Star Alliance Chamber of Commerce swarmed over. When they found out that the Taiji sect master had appeared, they all pleaded with him.

"Sect master Chen, please help us!"

"We were wronged!"

Sect leader Chen looked sorrowful and compassionate as he said, "I've made you suffer. After today, I will definitely give you justice!"

Mo Xiaochai and elder Yu saw this and despised him in their hearts. As expected!

They had begged sect leader Chen for mercy the moment they saw him. There was nothing fishy about it. Who would believe it?

The group came to the main hall where the coronation crown was.

However, when they barely entered, they found that there were outsiders inside.

Three middle-aged men who were unfamiliar with sect leader Chen were chatting in boredom.

When they saw the group of people come in, their eyes were fixed on sect leader Chen. They could not help but grin, they said, "Sect leader Su told us to wait for you here. He said that you would be back here in three years or thirty years. It seems that even though sect leader Su predicted everything, he did not expect you to be so anxious, right?"

"Who are you? Why are you in the sacred land of our Taiji sect?" Sect Master Chen shouted. He had a bad feeling and released the aura of an early-stage five-crowned emperor.

The three people smiled and released their auras at the same time.

They were three middle-stage five-crowned emperors!

Sect master Chen's pupils constricted. He took a deep breath and shouted, "Mo Xiaochai, stop them!"

He turned around and fled.

He had heard it clearly that they had been ordered by Su Yu to wait here.

This meant that he had already expected all of his plans.

However, Mo Xiaochai pushed sect leader Chen over with her palm and took out a confession, she said on the spot, "According to the survivors of the Star Alliance Chamber of Commerce, the former sect leader of the Taiji sect, Chen Hao, is the No. 99 member of the Yin sub-sect of the Star Alliance Chamber of Commerce. He is in charge of infiltrating the Taiji sect and controlling the power of the Taiji sect from the inside. Also, the former sect leader Sima was killed, and Chen Hao was also involved in it

"According to the rules of the Taiji sect, I have the right to punish the sect leader in place of the Taiji sect!"

"Catch him!"

She did not make a move in the Taiji sect. Instead, she chose this place for the sake of the reputation of the Taiji sect.

Only the upper echelons of the Taiji sect would know about it.

The three five-crowned emperors smiled faintly and easily subdued sect leader Chen.

Mo Xiaochai did not say a word. She took out a yin-yang Taiji diagram and pointed it at sect leader Chen's abdomen through the air.

However, upon hearing the endless screams, sect leader Chen's muscles twitched. His eyes rolled back and he fainted on the spot.

Upon closer inspection, he realized that his cultivation was completely gone.

There was not a single trace of primal energy in his body.

Mo Xiaochai was a legacy item of the Taiji sect. She had destroyed sect leader Chen's inner world and reduced him to a mortal.

It was not hard to imagine what kind of situation a mortal would face in the prison dragon pass that suppressed countless villains.

“Let’s Go!” Mo Xiaochai revealed a trace of pity. This was the arrangement Su Yu had left for the previous sect master.

He would live and die on his own!

After returning to the Taiji sect, elder Yu, as the candidate for sect master, announced the bad news to the outside world.

Sect Master Chen’s old illness had erupted and he had died in the line of duty!

The entire city sighed, but it was only a sigh.

No one hoped that he would return. After all, sect master Su was enough.

The news of his death did not cause any ripples, and it passed quietly.

On the other side.

After two years of teleportation, Su Yu and the others left the borders of the Taiji civilization and entered the territory of another five-star civilization.

This civilization was the one that planned to build a cross-civilization teleportation formation with the five-star civilization. It was called the purple lizard civilization!

Back then, Mo Xiaochai had troubled the two major civilizations to build a teleportation formation because she had her own deep considerations.

This was because the purple lizard was a very special middle-tier race.

The descendants they gave birth to were all male!

In order to ensure the reproduction of their descendants, they had to supplement a large number of females from other civilizations.

Most of them were low-level races that had voluntarily married into the purple lizard race.

However, there were still quite a number of them that were obtained through various channels.

For example, they were purchased from the hands of human traffickers!

Therefore, Mo Xiaochai strongly opposed the establishment of a teleportation formation, which largely prevented the women of the Taiji civilization from becoming the money bags of human traffickers.

Now, it seemed that her decision back then was undoubtedly correct.

With sect leader Chen’s relationship with the Star Alliance Chamber of Commerce, it was perfectly normal for him to cover up for some black-hearted Star Alliance Chamber of Commerce and engage in the business of selling women.

With him suppressing it from above, he could even suppress a huge matter.

“Mo Xiaochai is truly doing the Taiji sect a favor.” Su Yu sighed slightly, but he was secretly curious in his heart. What kind of existence was Mo Xiaochai?

When he was the sect leader, he had browsed through secret manuals that only the sect could grasp.

In the end, he discovered a shocking piece of news.

Ever since the first sect master of the Taiji sect, there had been one person who had completed the coronation of every sect master!

And that was Mo Xiaochai!

The current Taiji sect had already had dozens of sect masters, and each sect master had been in power for an average of two billion years.

In total, it had been tens of billions of years.

However, even a strong cultivator at the level of a dao master could not have such a long lifespan.

Su Yu had once suspected that Mo Xiaochai was not a living creature at all.

However, after a few tests, there was no doubt that she was indeed a living creature with flesh and blood and a soul.

Why would such an immortal creature, who lived as long as the heavens and earth, be in the small Taiji sect?

There was an unexplainable mystery all over her body.

Shaking his head and suppressing his thoughts, Su Yu and the hunters used the inter-civilization teleportation formation to cross over to the purple lizard civilization in one step.

After passing through the teleportation formation, they opened it again and chose the next five-star civilization as the teleportation point. They did not plan to stay in the purple lizard civilization.

However, Su Yu seemed to have sensed something. His soul suddenly swept into the distance, and his pupils constricted.

“Xia Jingyu?” That’s right, he sensed Xia Jingyu’s aura.

It was her, absolutely!

“You guys wait!” The sudden surprise made Su Yu’s heart pound.

Didn’t she go back to the Goddess tribe? Why was she here?

Thinking that the purple lizard civilization had a tradition of taking women from other races, Su Yu couldn’t help but frown. Could it be that Xia Jingyu was taken?

But thinking that Xia Jingyu had the ability to predict the future, she shook her head.

Chapter 2009 The Weight Of A Single Speck

As he pondered, he searched for the aura and arrived at the other end of the purple lizard civilization in an instant.

Standing in the clouds, his gaze swept across and landed on another inter-civilization teleportation array.

On top of the array stood a familiar yet unfamiliar figure.

Her appearance was indeed Xia Jingyu, exactly the same.

But in Su Yu's eyes, her soul was another person.

"It's not Xia Jingyu!" Su Yu shook his head calmly as another memory surfaced in his mind.

Back then, in the reverse flow of time and space, he was accidentally ambushed by a tribulation transcender and chased into the river of time and space. Just as he was about to sink into time and space, a woman who looked exactly like Xia Jingyu happened to pass by on a canoe, she rescued Su Yu and sent him to shore.

The woman who looked exactly like Xia Jingyu was the one who had met her back then.

Su Yu still remembered her name!

Qing Yun!

Who Was She? Why was she so similar to Xia Jingyu?

The inter-civilization teleportation formation was activated. Qing Yun was shrouded in a layer of light and was about to be teleported away.

Suddenly, she seemed to have sensed something and glanced at the sky. She fixed her eyes on Su Yu. She frowned and murmured softly, "Déjà Vu."

"Yun 'er, who are you talking about?" Beside her, a feminine man with a plum blossom mark on his forehead stood with his hands behind his back.

His pair of dim yellow eyes emitted a faint pressure, but there was no fluctuation from his entire body.

Standing in the crowd, he looked like a mortal.

"Perhaps it's an illusion," Qing Yun said faintly.

The feminine man raised his eyes and swept them toward the sky lightly.

Su Yu felt that the law in his body was uncontrollable and violent. It was dozens of times more violent than when the human demon launched the attack at the level of a Dao master!

His heart trembled and he immediately looked away.

Fortunately, that gaze only flashed for a moment and then disappeared silently.

"Let's go. We can return to the sacred mountain to report the whereabouts of the nine dragons divine cauldron through the long flow of time and space," the feminine man said calmly. The rest of his eyes glanced at the sky again, it was Su Yu.

However, Su Yu had already disappeared.

The effeminate man flicked his finger and a speck of dust remained on the ground.

Su Yu returned to the inter-civilization teleportation formation where the hunter kings were and said without hesitation, “Activate the teleportation formation and leave immediately!”

He had no time to care about the woman named Qing Yun Anymore!

That effeminate man gave him a very bad feeling. It was as if he instinctively hated him.

With Su Yu’s character, he would never hate someone for no reason.

Only this person was an exception.

The most important thing was that Su Yu felt extremely dangerous when he looked at him.

He had to leave this place immediately.

“Okay!”The hunter king activated the teleportation array and quickly teleported them away.

The teleportation coordinates were set for the four symbols civilization.

Fortunately, the purple lizard civilization and the four symbols civilization had established a stable teleportation connection, which saved them a long journey.

The formation was activated, and they were teleported away.

Almost at the same time.

The purple lizard civilization suddenly started to wiggle violently, and volcanoes erupted from the inside of the purple lizard civilization. It was as if a weight that the civilization couldn’t bear had suddenly appeared inside the civilization, and the pressure caused a drastic change in the civilization.

While the civilization master was in seclusion, he suddenly opened his eyes and sensed the endless explosive power deep underground. His eyes were filled with shock, his face was pale and confused. “The dust of the sacred mountain, how could it be the dust from the Sacred Mountain...”

Boom --

The entire civilization was like a balloon that had been crushed. It exploded with a bang and turned into a wave of dust that rolled in all directions.

When everything was gone, only a tiny speck of dust was left. It calmly floated down toward the void.

Wherever it passed, all meteorites and civilizations were crushed into dust.

It was as if a speck of dust had endless weight, crushing everything.

Su Yu and the others, who were in the middle of teleportation, suffered an unprecedented shock the moment the purple lizard civilization was destroyed.

There was a strong disturbance in the teleportation. It was supposed to be a separate space passage, but in the end, hundreds of space passages appeared in front of them, leading to different civilizations.

Moreover, they were in the middle of the teleportation, so they had no choice at all. They had no power to choose which civilization they wanted to go to.

“Protect yourself!” Su Yu shouted and was randomly dragged into a passage.

Yun Qianshuang, the young girl, and the hunters were all dragged into different spatial passages.

The world was spinning. Su Yu felt the space around him shake violently. His experience told him that he was about to reach the exit of the teleportation array.

However, when he reached the end, Su Yu realized that the end of the space was actually sealed.

This meant that the exit had been erased or destroyed.

Over a hundred spatial passages just happened to send him into a sealed spatial passage that would never return?

Su Yu suppressed the grievance in his heart and carefully observed the sealed exit. He found that the spatial barrier was relatively weak. It should have been not long after it was sealed.

With his spatial attainments, it was not too difficult to open it.

“Spatial vortex” Su Yu pointed at the sealed spatial barrier.

The entire spatial barrier immediately focused on the center and quickly distorted and rotated. Then, with a pop, it could not withstand the distortion and exploded, creating a ten feet wide gap.

A gush of air with traces of blood instantly surged in.

Su Yu seized the opportunity and flashed out.

This space exit should be a temporary inter-civilization teleportation portal exit, but it had been destroyed.

He really did not expect that the exit was originally targeted at the four symbols civilization.

But now, by a fluke, it appeared in a temporary teleportation portal that had been built and sealed by someone else.

It was not a civilization beneath its feet, but a warship that had been beaten into rags.

The warship wasn't big, it was just like a big meteorite.

On the surface of the warship, there were countless corpses and different costumes, it was hard to tell who was on the other side.

Just then, Su Yu came out, there were a few men in black in uniform in front of him, they were holding true emperor level weapons and stabbing at the corpses one by one.

Some of the dying ones were all killed, those who pretended to be dead also took the opportunity to kill.

It seemed that a certain war had ended and was in the final stage.

The huge spatial fluctuation immediately alerted the three men in black. They suddenly turned around and stared at Su Yu in shock.

“You... How did you appear? Nirvana’s temporary teleportation array was obviously destroyed! !”

Nirvana? Su Yu immediately thought of the mysterious organization that Shengyuan Xin had joined. It was an existence that relied on faith to maintain the operation of a huge organization.

“Did... a war happen?” Su Yu guessed.

The three men in black came back to their senses and their killing intent suddenly appeared, “Good, there are actually still fish that escaped from Nirvana’s abandoned battleship!”

This place was originally Nirvana and their battlefield, so there shouldn’t be a third party. Su Yu’s sudden appearance naturally made them think that he was a survivor of Nirvana.

“Sir, I think you have misunderstood, please listen to my explanation...” Su Yu said politely.

“Explain your grandmother, die!” The three men in black were speechless in their hearts. With the relationship between the two sides, what else did they want to explain?

The three of them each held true emperor level divine weapons and charged over, swearing to kill Su Yu.

The three of them should be at the lowest level in this war, not higher than the two crowned emperors.

Su Yu had no choice but to point across space and use a space divine art to subdue all three of them, then throw them into the spatial storage device.

Looking at the huge warship and the vast void outside, Su Yu was at a loss.

He had no idea where he was or even what kind of war he was in.

The most important thing now was to find the intercivilization teleportation array that would teleport him back to the four symbols civilization.

He looked around and found that there was no teleportation formation on the deck of the warship.

With a flash, he entered the cabin of the warship.

As soon as he entered, he met two men in black who were delivering intelligence reports. While walking, they communicated with each other, “The general ordered us to clean up the warship quickly. Later, the vice-marshal will personally take this black starship and the hostages.”

“This time, we can be considered to have won a battle. We captured the Master of the Black Starship Alive and defeated the other party’s assistance, forcing the other party to give up.”

As the two of them were talking, they suddenly sensed Su Yu’s aura approaching. They raised their heads to look and said blankly, “You are...”

“Just passing by.” Su Yu brushed past them expressionlessly.

“Wait! Which Team are you? Who is the general? What is his name?” A man in black asked with a suspicious expression.

Su Yu turned around helplessly and said, “My name is Su Yu. I’m really just passing by. Do You Trust Me?”

“Stop! Verify your identity!” The other man in black also sensed that something was wrong.

Su Yu sighed, “Why do you ask so many questions?”

He raised his hand and space power bound the two of them.

After throwing them into the spatial storage device, Su Yu grabbed the information in their hands and skimmed through it. He knew a little about the situation.

It turned out that this place was actually the battlefield between Nirvana and the Star Alliance Chamber of Commerce. Both sides discovered an extremely ancient ruin here.

The Star Alliance Chamber of Commerce had originally discovered it first and planned to monopolize it. However, Nirvana had somehow received the news and led a large number of warships to rush over to fight for it.

The fight between the two parties quickly turned into a war.

For this, it took five years of war before there was a result recently.

The Star Alliance Chamber of Commerce had completely defeated Nirvana with its strong foundation.

Most importantly, the black starship under their feet was Nirvana’s commander-in-chief for this war.

Both sides were the first to fight against each other. Nirvana’s starship was the first to be destroyed. Then, they used the temporary inter-civilization teleportation formation to fight against each other.

However, the Star Alliance Chamber of Commerce was more prepared. The two sides were engaged in a fierce battle above the black starship.

After several years, Nirvana was the first to retreat.

The black starship and the captain were controlled by the enemy. They were only waiting for the vice commander of the Eastern Theater of operations of the Star Alliance Chamber of Commerce to come and receive the starship and the captives and bring them back to the Star Alliance Chamber of Commerce.

Unfortunately, not long after Nirvana retreated, Su Yu appeared here through the cross-civilization portal of Nirvana. Therefore, he was mistaken as someone from Nirvana.

Seeing this, Su Yu did not know whether to laugh or cry.

He was wronged!

However, since things had come to this, Su Yu had no other choice.

Because the Black Star ship before him was only a small part of what he saw. Tens of thousands of huge battleships were floating in the void outside.

The size of each battleship was no less than a five-star civilization!

They cruised nearby, guarding against the reappearance of Nirvana's battleships. They guarded the black starship group in the center, waiting for the arrival of the vice commander of the Eastern Theater of operations.

Because there was no Nirvana's teleportation formation here, the defense of the black starship was the weakest. Only a few people were left to clean up the battlefield.

Chapter 2010 Mysterious Ruins

Su Yu heaved a sigh of relief. According to the information, there was no lack of battleships that were filled with the five crowns killer.

The sheer number of battleships was an astronomical figure that would cause one's scalp to tingle.

If they had been teleported to their battleship earlier, one could imagine the consequences of a sheep entering a pack of wolves.

He searched the cabin quickly. Along the way, he met anyone from the Star Alliance's Chamber of Commerce and subdued them without saying a word.

Fortunately, there were no experts on the ship. The journey was smooth, and they arrived at the main command center of the warship.

He could sense a powerful soul aura from a distance. It was about the early stage of the four crowns.

Other than that, there were a few relatively weak ones who were fixed in a certain place and did not move. They should be the so-called commander-in-chief of this war.

After some thought, Su Yu stood in front of the cabin door and waved his hand to take out the heavenly bow.

Compared to before, the sky bow was still extremely heavy in Su Yu's hands and could only be placed on the ground.

Using all his strength, the bowstring could only draw a clear crescent shape.

After injuring the Sky Bow, he aimed at the four crowns inside and immediately shot it out.

The hard material, as well as the sealed cabin door, was like paper under the Sky Bow and was directly pierced through.

The four crowns inside resisted in a panic and roared repeatedly.

Su Yu quickly put away the bow and rushed inside without thinking. Six types of law chains were shot out at the same time.

With a flash of six-colored light, the four crowns who were busy blocking the arrows were killed on the spot. Not even a speck of dust was left.

Su Yu put away the light and then raised his hand to beckon and put away the bow and arrow.

Only then did he have the time to look at the situation in the command center.

He saw two corpses lying on the ground. They should be people from Nirvana. There was also a young woman dressed in a white robe with a certain faith totem on her forehead. She was sealed on the pillar and stared at Su Yu with her mouth agape.

The scene just now happened so suddenly that she did not have time to react at all.

“Thank you for saving me...”the white-robed girl said after she came back to her senses.

What made her embarrassed was that Su Yu looked at her indifferently and continued to search around. He had no intention to untie her.

After searching for a long time, Su Yu walked back and stared at her. “Are you the commander of the Black Star Ship?”

The white-robed girl nodded and said,“...”

“Needless to say, I already know that there is a backup inter-civilization teleportation formation here that can escape from this place?”Su Yu circulated her soul energy with both ears, so she could easily hear what she was thinking.

The white-robed girl opened her mouth.“...”

“En, so there was once, but it was captured by the enemy! Then we can only use the black starship to escape! Can we contact the eastern Warzone and provide external assistance?”

The white-robed girl:“...”

“You can’t? Looks like the eastern Warzone has given up on it! What bad luck, to actually get on this ship! Then, do you have the nearby void route map?”

The white-robed girl did not open her mouth again, staring at Su Yu faintly.

“If you do, then it’s easy to say. From the start, we have to take some risks.”Su Yu said with some regret.

The white-robed girl stared at Su Yu suspiciously, finally finding an opportunity to speak. “You can listen to the inner thoughts of others? Could it be that you are from the heavenly hearing clan?”

Su Yu retracted his ability to listen and ignored her. He continued, “If you want to live, you have to do as I say. Otherwise, you will all die.”

The white-robed girl blinked her beautiful eyes, “I won’t Die! As a hostage, Nirvana will redeem me.”

Su Yu casually waved his hand and a spatial blade appeared on his neck. He said indifferently, “Now you will die.”

“You...”the white-robed girl bit her lips and said hatefully.

She had barged in for no reason, ignored her for no reason, and even threatened her for no reason.

Then, a shocking scene happened.

The silver-haired man pointed across space, and the four-crowned king who had just died reappeared, but there was no soul.

Then, the silver-haired man separated a soul from his own soul and fused it into the other party's body.

Then, he released a large group of captured Star Alliance Chamber of Commerce members and controlled them with Soul Secret Arts.

Finally, he walked over and slapped the white-robed girl's head.

“Bastard...”the white-robed girl felt dizzy and fainted just like that.

Su Yu erased all the relevant memories.

Just like that, the entire battleship was in fact under Su Yu's control.

However, he did not act rashly. A small black starship could not escape from the protection of tens of thousands of giant battleships.

If he wanted to leave, he had to use another method.

He waited patiently for a few days.

Suddenly, several five crowns descended on the black starship and started to build a temporary inter-civilization teleportation formation on the battleship.

One day later.

The temporary teleportation array fluctuated violently, and an unprecedentedly powerful aura appeared from it.

Dozens of five crowns accompanied a peak four crowns existence and suddenly appeared.

“Where is she?”Peak four crowns wore a gorgeous black dress and had a cold temperament. His phoenix-like eyes revealed a triumphant teasing look.

“Reporting to Vice Commander Zhan, in the command room.”

“Hehe, the famous ye Mingxuan has finally fallen into my hands!”Her name was Zhan Xuan, and she was the direct descendant of the Vice President of the Six Star Alliance's Chamber of Commerce.

She served as the vice commander of the East War Zone's army of the Star Alliance's Chamber of Commerce, accumulating merits.

Under her command, successfully capturing ye Mingxuan, who had always been a female war god in the East War Zone of Nirvana, would definitely be a great merit.

Therefore, she did not hesitate to rush over from the command center far away and specially took away the hostages.

Under the escort of a group of five crowns, they headed to the command center one after another.

As soon as they opened the cabin door, they immediately found the unconscious ye Mingxuan. A trace of excitement surged onto their faces.

Then, they looked at the silver-haired captive beside ye Mingxuan.

She only glanced at the silver-haired captive. She stared at ye Mingxuan and said, "Wake her up. Hehe, how can we make her unconscious at such an exciting moment?"

"Yes!" The middle-aged man guarding the hostage immediately sent a strand of primal energy into Ye Mingxuan.

Ye Mingxuan moaned and shook her head as she opened her eyes. What greeted her eyes was Su Yu, who was about to fall on her shoulder and was also captured.

"B * Stard..." Ye Mingxuan caught a glimpse of the guard of the four-crowned emperor from the corner of her eyes. She suddenly came to a realization and said, "General B * Stard! What did you do to General B * Stard?"

Su Yu pretended to be unconscious and secretly praised in her heart. This woman was quick-witted and had a quick reaction.

"General? The report said that all the generals were executed on the spot, right?" Zhan Xuan frowned and said.

The four-crowned King's middle-aged man said, "General B * Stard is a fish that escaped the net. He was captured and imprisoned here, waiting for Vice Commander Zhan to punish him!"

"There's no need to punish him, just execute him!" Zhan Xuan said.

What a ruthless woman!

Su Yu thought to herself!

Zhan Xuan no longer looked at Su Yu. She came to Ye Mingxuan with a faint smile and squatted down, looking into her eyes, she said, "My female God of War, a hundred years ago, during the Battle of the Meteor River, weren't you majestic and awe-inspiring, killing me and leaving me defeated? Why are you now the defeated general instead?"

Ye Mingxuan's pretty face was calm, and she said indifferently, "Winning and losing is a common thing in war. Moreover, you guys have set up a trap and waited for us to jump in. It's not a big deal to lose."

Nirvana had heard that a mysterious ancient ruin had appeared, so she had led her army to attack this place.

But in the end, after coming here, she found out that the ruin was a man-made fake ruin.

There were more than ten thousand Star Alliance's giant battleships lying in ambush inside. Therefore, when they fought, Nirvana, who was not well prepared, was on the verge of defeat.

The power gap between the two sides was huge, and in the end, they were defeated.

To be exact, it was already a miracle that ye Mingxuan could resist an enemy ten times stronger than her for five whole years with her weak strength.

A normal person would not be able to hold on for a year even if they were led by a leader.

“Hehe, all is fair in War!” Zhan Xuan said with a smile. The two women looked at each other, and a deep animosity was revealed when they collided.

Suddenly.., zhan Xuan said with a faint smile, “However, I can tell you a secret. Actually, we have really found an ancient ruin in the distance. It is very, very dangerous inside. Even if the Dao master were to enter, he would not be able to return! “I believe that there must be a shocking secret hidden inside.”

“It’s just that we changed the location of the ruin and deliberately revealed it to You Nirvana.”

Ye Mingxuan’s eyes flashed slightly. A ruin that even the dao master would die after entering, what level was that?

Su Yu, who was secretly eavesdropping on the side, was shocked.

“Hehe, Ye Mingxuan, I know what you are thinking, but unfortunately, the four vice commanders, including the commander, have unanimously decided that they will not let you return to Nirvana. You either join our Star Alliance Chamber of Commerce, or you will be locked up forever, never to be seen again.”

Ye Mingxuan’s expression did not change at all, displaying an extraordinary level of calmness.

Unable to get the expression she wanted, Zhan Xuan’s patience ran out, and her eyes became sharp. “Bring our female war god back to the command center!”

“Yes!” The middle-aged man with the four crowns walked over.

However, the moment he walked toward ye Mingxuan, he suddenly attacked Zhan Xuan without any warning.

His sudden attack caught Zhan Xuan off guard, and she only had time to defend herself.

However, the five crowns behind her were no pushovers.

One of them, who was at the peak of the five crowns, snorted, and the body of the middle-aged man with the four crowns suddenly froze.

Then, several five crowns attacked at the same time, shattering him into dust.

However, just as their attention was attracted by the middle-aged man with the four crowns, Su Yu, who was a captive, attacked without warning.

A shocking death law chain wrapped around Zhan Xuan’s body.

By the time the five crowns reacted, Zhan Xuan had already been pulled into Su Yu’s arms and blocked in front of him.

“How dare you!”

“Let go of Vice Commander Zhan!”

The five crowns were furious. Only now did they realize that they had been tricked.

If Su Yu had attacked from the start, he would have been stopped by the five crowns before he could make a move.

However, because the middle-aged man with the four crowns had attracted most of their attention, Su Yu had a chance to succeed.

“If you don’t want your vice commander to die here, you can try. Let’s see if she dies by my law of death first, or if I die by your hands first.”

Zhan Xuan was stunned and confused. Then, her face was replaced by anger. “Ye Mingxuan, you set me up?”

Su Yu slapped her palm and broke the seal.

Ye Mingxuan smiled faintly. “As you said, there’s no shortage of tricks in war! Of course, I’m not the one who tricked you.”

Ye Mingxuan stared at Su Yu. Her first impression of this person was quite bad.

However, she had to admit that this person was resourceful and did not give in to her.
