

Nine-Dragon 2011

Chapter 2011 The Combination Of Armor And Martial Arts

“Who are you? How did you appear on the Black Star Ship?” Zhan Xuan berated.

Su Yu’s eyes were fixed on the few mid-level masters, and he did not divert his attention at all. He said indifferently, “Asking so many questions is not good for you. Tell all your people to leave the Black Star ship, or else...”

Zhan Xuan gritted his teeth and shouted, “All of you, leave.”

The vice commander was kidnapped. They stood on the spot hesitantly, not knowing how to deal with it.

“For the last time, all of you, leave!” Zhan Xuan said angrily. He thought that they were all idiots. Did they want to see him die?

Under repeated orders, the five crowns and the related people all left the black starship.

“Can you let me go now?” Zhan Xuan said coldly.

Su Yu said indifferently, “After you leave safely, I will let you go.”

Ye Mingxuan’s eyes flashed, but she didn’t say anything.

“Let’s start the ship.” Su Yu said, “The target is the five-star civilization in the safe zone!”

As long as they found that large-scale civilization, they could successfully use the teleportation formation and instantly return to the four symbols civilization.

Unexpectedly, Ye Mingxuan and Zhan Xuan both had blank expressions. The former repeated, “Where?”

Su Yu was slightly surprised and asked, “Where is this?”

The corner of Zhan Xuan’s mouth twitched slightly. She looked at Ye Mingxuan and said, “I say, who did Nirvana invite to save you, but he doesn’t even know the way?”

Ye Mingxuan shook her head slightly. “He isn’t nirvana. To be exact, he shouldn’t be from our civilization department.”

She raised her eyes and looked into Su Yu’s eyes, “Forgive me for being blunt, but our rain immortal civilization department has 93,612 five-star civilizations, but I’ve never heard of the four symbols civilization. I think you’re not from our civilization department at all, right?”

Su Yu was stunned. “Civilization department?”

This time, Ye Mingxuan was also surprised. “How on Earth Did You Get Here? You Don’t even know about the civilization department?”

Zhan Xuan covered her forehead. “I can’t accept this. I was actually captured alive by this kind of idiot who doesn’t know anything!”

After a moment of silence..., ye Mingxuan said, “The so-called civilization department is an area with a six-star civilization as the center and a radial civilization. The six-star civilization of our civilization department is the Rain Immortal Yellow Taoist temple, which is why it is called the Rain Immortal Yellow Taoist temple.”

“I wonder what the Daoist Yellow Hall of rain immortal is called, which civilization system do you come from?”Ye Mingxuan asked.

Su Yu’s eyes went blank. So there was more than one Daoist Yellow Hall!

He had no idea what Daoist Yellow Hall of rain immortal was.

After a moment of silence, he asked, “How many Daoist yellow halls are there?”

Ye Mingxuan said, “There are only four as far as we know. They are the Daoist Yellow Hall of rain immortal, Daoist Yellow Hall of Thunder Immortal, Daoist Yellow Hall of wind immortal, and Daoist Yellow Hall of Fire Immortal.”

“What do we know so far?”Su Yu pondered and said, “There is a new yellow Taoist temple outside the four yellow Taoist temples?”

“Yes! Legend has it that there is an even more ancient civilization, but after all, it is just a legend. After so many years, no one has ever reached a higher civilization,”ye Mingxuan said.

Indeed, he had read through the ancient literature of the Taiji sect, and the one that he knew the furthest was only the yellow Taoist temple.

Moreover, the description was not detailed and seemed to be incomplete. At the very least, he did not even know what the Daoist Huangdao Temple of the civilization department was.

Right now, he could not even figure out the civilization department of the Taiji sect.

Ye Mingxuan looked at him and said, “When we return to Nirvana, I might be able to help you look up the relevant information and help you go back.”

That was the only way!

Su Yu had to change his mind about teleporting back to a five-star civilization at the last minute.

“Let’s Go!”Under Su Yu’s control and ye Mingxuan’s command, the Black Star ship restarted and traveled through the void at an extremely fast speed.

The Black Star Ship traveled for a distance, and soon, one could see huge battleships moving around in a circle, looking at them from afar.

At this moment, the huge battleships sped up and surrounded them. They must have known that Zhan Xuan was captured, so they rushed over to stop them.

“It seems that they are not willing to give up.”Ye Mingxuan’s eyes flashed with a dangerous arc. She said calmly, “There is no need to dodge. Accelerate and crash into them!”

The black starship was like a jet-black speck of dust. Under the pressure of the giant starship, not only did it not slow down and retreat, but it also accelerated and crashed into Zhan Xuan head-on. Thus, the giant starship had no choice but to dodge to prevent Zhan Xuan from dying tragically in the collision.

The black starship charged forward in an overbearing manner. The giant starships along the way were cautious and stepped aside one after another.

Finally, a gap appeared. The black starship teleported out and sailed into the vast void.

Su Yu secretly praised her. She was brave, calm, and decisive. She had the demeanor of a commander-in-chief.

Ye Mingxuan's Crystal Eyes flickered with wisdom, she said, "From now on, there are five years of travel to be hurried. I guess that the Star Alliance Chamber of Commerce will not give up on Zhan Xuan easily. After all, she is the great-granddaughter of Vice President Zhan of the Star Alliance Chamber of Commerce. There will be experts coming to rescue her during this period. We have to be on guard at all times."

Su Yu said, "Send a message to Nirvana and ask them to send a rescue team."

"No!" Ye Mingxuan shook her head calmly. "This time, we were ambushed largely because of a mole's mischief."

"With Nirvana's energy, it is impossible that they could not detect the existence of the ambush. There is only one explanation, and that is that a certain high-ranking figure suppressed important information with one hand, causing us to fall into an ambush without our knowledge."

"If we ask Nirvana for help now, what will they do?"

At that time, what awaited them was not help but a desperate ambush.

This woman was still rational.

Su Yu looked behind him and said thoughtfully, "Let's look for the nearest civilization to land."

"Why?" Ye Mingxuan asked, "The black starship's speed is not any slower than inter-civilization teleportation."

Su Yu shook his head and said, "Traveling among civilizations is more conducive to hiding one's tracks."

Ye Mingxuan thought for a while and nodded, "Sure."

Not long after, they landed in a four-star civilization.

Ye Mingxuan condensed a black star ship's symbol in her palm and pressed it on the deck of the Black Star ship.

A rather magical scene appeared. The huge black star ship actually folded itself in space and finally turned into a thin piece of paper that stuck to her palm like a symbol.

Zhan Xuan was not surprised by this. Only Su Yu was surprised.

“Doesn’t your civilization have it?”Ye Mingxuan asked curiously.

Su Yu shook his head lightly. “I’ve never heard of it!”

“Strange, the four great Daoist societies should have already popularized the armor martial arts.”

Su Yu was stunned. “What is the armor martial arts?”

Ye Mingxuan said, “The so-called armor martial arts is the combination of mecha and martial arts. For example, the black starship. Such a mechanized existence exists in the form of martial arts runes. This is one of the representatives of the combination of armor martial arts.”

Zhan Xuan sized Su Yu up. “How backward is your civilization? Among the four great Daoist societies, the lowest level one-star civilization is popularized with armor martial art.”

As she spoke, a talisman appeared in Zhan Xuan’s palm and pressed it on her chest.

The metalized armor slowly folded and finally turned into a talisman, revealing its inner self.

It was a beautiful woman wearing a black one-piece dress and a little makeup. Her hair was disheveled.

However, that outfit made Su Yu feel as if he had traveled back to Earth.

At this moment, Ye Mingxuan was the same. She removed her armor and revealed a slim woman wearing a t-shirt and casual pants. Her cold temperament made her appear elegant and elegant.

Su Yu stared at the two of them in a daze and stammered, “Is there a... Barbaric civilization called Earth Here?”

“Earth? Never heard of it.”The two of them shook their heads.

Su Yu thought carefully. Earth had never heard of the existence of warriors. They should be dust that couldn’t even be considered a civilization.

He had never thought about why he had transmigrated to the Divine Moon Island.

But now, looking at the clothes of the two, he couldn’t help but be in a daze.

Could it be that his soul had been transferred from Earth to the Divine Moon Island by coincidence?

But with his current soul attainments, he deeply understood how weak the souls of ordinary creatures were. The moment they left the body, they would be annihilated.

Why was he the only one who had transmigrated to the Divine Moon Island?

He had never thought about it before, but now that he thought about it, it was filled with all kinds of incredulity.

“Leave first. After it’s safe, I’ll think of a way to help you find your origins.”Ye Mingxuan’s cold and elegant temperament was threatening.

Zhan Xuan said, “I’ll lead the way. I’m most familiar with this place!”

She led the way in an unusually familiar manner.

Ye mingxuan said coldly, “Be a little more conscious of being a captive, okay?”

As she spoke, she took out a piece of rune. After infusing the prehistoric power, the rune turned into a mechanical chain. One end was in ye Mingxuan’s hand, and the other end was a shackle that bound Zhan Xuan’s hands.

Zhan Xuan didn’t think much of it. “I don’t know how to escape. Escaping isn’t good for me.”

If she escaped, she would very likely be injured by Su Yu and Ye Mingxuan.

She might as well obediently surrender. After reaching Nirvana, she believed that her great-grandfather would redeem her.

After thinking this through, she accepted her fate and became a prisoner.

“This trip to the inter-civilization teleportation array might take ten days. Without me leading the way, it might be even longer,”Zhan Xuan said.

Ye Mingxuan did not say a word. She took out a rune and a four-wheeled mech appeared from it.

Seeing this item, Su Yu almost screamed out loud.

The Mech in front of him, other than being made of indestructible materials, its basic principles were actually the same as Earth’s armored vehicles.

“You should be used to it, right?”Ye Mingxuan looked at Su Yu’s unusually surprised expression and said.

How could Su Yu get used to it? One by one, each and every one of them completely impacted his vision!

“Humph, even with the speed of the Kirin armor, it will take half a day to arrive,”Zhan Xuan said unhappily.

Ye Mingxuan snorted lightly. “Do you still dislike it? Be careful, I’ll hold you behind the chariot and let you run.”

“Get on the chariot.”Ye Mingxuan pulled Zhan Xuan and jumped onto it.

Su Yu was slightly startled and said, “Wait, half a day? This is a four-star civilization!”

Their cultivation was not below Su Yu’s, right?

“Why don’t we use flying? If We Fly, it won’t take more than a few breaths, right?”

The two women were stunned and looked at Su Yu with a baffled expression.

Ye Mingxuan looked at him strangely. “Fly? A four-star civilization is vast, and the fastest flying mecha will take six hours. My most advanced Kirin battle armor is already at its limit for half a day.”

Su Yu was stunned. “I mean, if a person flies by himself, his speed will be faster, right?”

“What? A person flies by himself? Are you sure you’re not wrong?” Zhan Xuan was baffled. She scratched her head and looked at Su Yu. “To be honest, I really can’t understand you!”

Ye Mingxuan also said, “I don’t know how you people of the civilization department train, but in our four major civilizations, the speed of a human body flying is relatively slow. It’s only twice as fast as walking.”

Huh? Su Yu was really stunned.

Chapter 2012 Completely Different Cultivation

After witnessing their powerful mecha, Su Yu thought that their martial arts development had also reached the peak.

But why had they not even mastered the most basic of flying?

“Put away the Kirin armor first. I’ll bring you guys to try it out. See if the flying I mentioned is the same as the flying you know,” Su Yu said.

Ye Mingxuan felt more and more confused. She put away the armor and looked at Su Yu without blinking. She wanted to see what he was going to do next.

“Hold on to my arm. Don’t let go,” Su Yu said.

Ye Mingxuan and Zhan Xuan hesitated and grabbed Su Yu’s sleeve unnaturally, Zhan Xuan said, “Are all the people in the civilization department so open-minded? It’s rare to see a woman holding a man’s arm in our civilization department.”

Su Yu was speechless. He only grabbed his sleeve, and they were afraid that they would be flung away immediately.

“Sigh! I Can’t explain it to you.” Su Yu wrapped his arms around each person’s waist.

As they cried out in alarm and resisted, Su Yu activated the Taiji Yin-yang wings. With a whoosh, he disappeared on the spot.

In the blink of an eye, they stopped again.

The two women’s hair was blown into a mess, and their clothes were also in a mess.

“Is it fun to take advantage of her?” Ye Mingxuan pushed Su Yu away. Her face was slightly red, and she stared at him unhappily.

Zhan Xuan, who was at the side, pushed her arm. “Hey, Hey...”

“Shut up!” Ye Mingxuan shouted without turning her head, and stared at Su Yu.

Zhan Xuan continued to push her and stammered, “No... No... Look!”

“What are you looking at?” Ye Mingxuan glared at Zhan Xuan angrily.

But in the end, this glance caused Ye Mingxuan to be petrified on the spot.

“This... This Is...”

Zhan Xuan was also petrified on the spot. She even forgot to break free of Su Yu's arm and stammered, "It's... The Civilization Center, near the teleportation formation."

The two women stared in shock at the city in front of them, which was filled with tall buildings.

In the center of the city, there were two huge sky-connecting towers that rose from the ground. In the center of the huge towers, there was a light screen that was as brilliant as the Milky Way. There were countless flying mechas shuttling back and forth between them.

Ye Mingxuan was in a daze for a long time. She took out a machine that looked like a compass. On it, it showed that she had already arrived at the coordinates of the teleportation formation from the coordinates where she had landed.

"Hey, Hey, this joke isn't funny!" Zhan Xuan stared at the huge city without blinking and said in surprise.

Ye Mingxuan suddenly looked at Su Yu and said, "Are we in an illusion now?"

Su Yu was helpless. She grabbed their wrists again and said, "Look carefully!"

This time, Su Yu went from slow to fast. When she was almost to the limit, she used the Taiji Yin-yang wings and instantly returned to the place where she had landed just now.

The two women were deeply petrified and said in a daze, "Again... again?"

Ye Mingxuan covered her red lips and said in shock, "How can a human body be so fast? Even the fastest flying mecha can't be so fast!"

Su Yu said, "Let me ask you again. Do you know what Divine Arts are? Do you know what laws are?"

The two girls shook their heads in confusion, indicating that they had never heard of them.

"Then where did you get your cultivation from?" Su Yu asked. One of them was at the beginning stage of the three-crown level while the other was at the middle stage of the four-crown level.

"How much do you think the awakened power in our bodies is?" Ye Mingxuan was very curious and tried to release a pure primal power.

Su Yu nodded. "You don't know anything about cultivation. How did you get such powerful Primal Power?"

Zhan Xuan said in surprise, "What cultivation? This is the power of the acquired awakening. If you look at the awakening liquid in your body, the awakened power will be born. The amount of awakened power will depend on your physique."

When he heard this, Su Yu's face was filled with surprise.

In his civilization department, cultivating the primal power meant becoming the Emperor of Heaven and earth. Who knew how much suffering he would have to go through during that period.

However, the two people in front of him actually made it sound exceptionally easy.

“In your civilization department, can everyone have the power of Awakening?”

Ye Mingxuan shook her head and said, “That’s not it. There are several stages of changes in the power of awakening. Some stay at the initial stage and do not evolve anymore. For people like us, it is very rare for the power of awakening to evolve to the situation before us.”

That was more like it!

“I understand,” Su Yu said. “Your civilization department focuses on developing mecha, but your understanding of martial arts is very shallow.”

There were gains and losses. They valued mecha, but martial arts itself was in a blank state.

“What cultivation? We haven’t heard of it at all,” Zhan Xuan said.

Su Yu stared at her and said, “For example, the black chains that I used to subdue you were the result of my cultivation. You should have felt the danger of the chains, right?”

“Yes, yes, I feel like I’m about to die. Those useless bodyguards also seem to have realized that the chains are very powerful, but I thought that was your mecha weapon!” Zhan Xuan said in surprise.

Su Yu let out a long breath. It seemed that she was not completely useless in this unfamiliar civilization department. She still had her own specialties.

“Alright, I’ll explain martial arts cultivation to you guys when I have time. Let’s leave this place first. I can sense that they are about to arrive at a four-star civilization.” Su Yu raised her head and looked at the sky.

Ye Mingxuan took out a compass machine. On it, countless specks of light slowly approached.

“My God, those battleships are still half a four-star civilization away from us. You can actually sense them based on your intuition?” Ye Mingxuan was deeply moved.

Zhan Xuan’s eyes were filled with worship as well. “Can it be that you are a God?”

The corners of Su Yu’s mouth twitched slightly. In his civilization, a god should be an extremely low-level existence, right?

The two of them were already highgods in that civilization, and now they were asking Su Yu if he was a deity.

“We’ll talk about it in the future.” Su Yu once more held the two girls in his arms, and with a thought, he teleported to the teleportation array. Without waiting for the two girls to scream, his body transformed into a blur, charging straight into the array.

A flying passenger ship was slowly sailing into the enormous teleportation array. Leaning against his seat was a bored man.

He looked at the scenery outside the glass window in boredom.

Suddenly, he felt something flash before his eyes.

“Is it a laser?”The man scratched his head suspiciously.

All of a sudden, his vision turned black. Something appeared out of thin air.

“Hello, May I know which civilization this teleportation formation is heading to?”Su Yu tried his best to smile warmly.

Unexpectedly, the man was so frightened that his heart was in his throat. He stared at Su Yu in disbelief, as well as the two pale-faced women in his arms. He stammered, unable to say a word.

After waiting for a moment without a response, Su Yu said helplessly, “Forget it, we’ll know when we get there.”

Shua --

The three of them disappeared on the spot, leaving behind only an afterimage.

Thus, a ghostly shriek came from the flying passenger ship, “Ah! A Ghost!”

Su Yu shook his head and said to the two girls, “Aren’t you people from the civilization department a little too timid?”

The two girls’ faces were already drained of color. Flying in the air without any preparation was still an astonishing speed. This was their first time experiencing it, and it could be said that it caused their insides to churn and their faces to pale.

Hearing this, the two girls stared at Su Yu with strange eyes.

What they meant was, it wasn’t that the people of our civilization department were too weak, but that you were too terrifying!

“Sigh, Alright! Let’s Go!”Su Yu rushed into the teleportation formation and left in an instant.

At the same time, tens of thousands of huge battleships blotted out the sky as they hovered above the civilization.

“Quick, quick, quick, get on the mecha flying ships!”

Small warships carrying ten fully armored soldiers entered the four-star civilization one after another.

In the command center, the person in charge of the rescue this time was the deputy commander of the Eastern Theater of operations. He was experienced and experienced, he said, “The robbers arrived at the four-star civilization 15 minutes ago. Our preliminary judgment is to use the teleportation portal. It will take them at least six hours to reach there. In other words, we have six hours of precious rescue time.”

“The Flying Forces are in charge of tracking and locking on to the targets. The ground forces will quickly follow them and stop them in front of the portal.”

All of a sudden, an important piece of information appeared in the communication room and was quickly sent over.

“Reporting to vice commander, the robbers have disappeared from the scanning screen. Our initial guess is that they have left the four-star civilization.”

The vice commander said firmly, “Impossible! It is impossible for them to cover the distance from the portal in 15 minutes. Even the most advanced aircraft can not reach such a speed.”

At this time, another report was sent over. “Reporting to the vice commander, the signal of the robbers appeared in another four-star civilization.”

The vice commander was shocked. “How is this possible? How did they do it?”

However, now was not the time to pursue it. He said, “Chase!”

After arriving at the four-star civilization, Su Yu’s toes did not stop. Once again, he teleported to the portal of that civilization and teleported again.

After arriving at the next civilization, he teleported again.

In just two hours, Su Yu had experienced no less than ten civilization teleportation.

It could be said that he had completely shaken off the enemy’s tracking.

However, Su Yu raised his head and looked at the void, frowning slightly.

He stood on the roof of a tall building and stopped.

“Phew! I can finally take a break.” Zhan Xuan’s small face was pale. It could be said that she had experienced the ultimate flight that she would never forget in her life.

Ye Mingxuan was no better. She patted her chest with deep respect in her eyes.

In the void, perhaps the speed of the battleship was superior, but in the civilization, Su Yu’s flying had an incomparable and absolute lead.

“Did you get rid of them?” After ten consecutive aimless teleportation, the enemy should have lost their target long ago.

Su Yu shook his head lightly. “No.”

“How can that be?” Ye Mingxuan asked in surprise.

Su Yu looked at the two girls and finally fixed his eyes on Zhan Xuan. His eyes turned pale as he quietly looked at Zhan Xuan.

The two girls were once again shocked by Su Yu’s strange eyes.

After a moment, Su Yu’s eyes returned to normal as he stared at Zhan Xuan. “No wonder we have been being tracked. She has a tracker on her body that constantly emits fluctuations... in your words, it’s a signal.”

Ye Mingxuan looked at Zhan Xuan suspiciously and shook her head. “I don’t think so. I’ve checked her body with the device. If there’s a similar tracking device, it won’t be able to hide from me.”

Su Yu shook his head and said, "Take off her clothes and carefully check the center of her chest to see if there's a slight cut?"

Zhan Xuan immediately covered her chest and her face turned red. "Ah! Stinky Hooligan, when... When did you peek at my... chest?"

"It's not just your chest, I've looked at your entire body," Su Yu said indifferently.

Under the penetrating eyes, the clothes on her body were equivalent to not wearing them

Chapter 2013 Stood Out From The Crowd

Ye Mingxuan walked over and pulled down Zhan Xuan's chest. Between the two voluptuous lumps, there was indeed a tiny cut on a strand of hair.

Ye Mingxuan looked at Su Yu in surprise. "How did you know?"

She did not remember Zhan Xuan taking off her clothes at all.

Su Yu pointed at his eyes and said, "One of the divine arts of martial arts, the eye technique."

Hearing this, Ye Mingxuan immediately covered her chest and her face turned red. "You've Seen Mine Too?"

"Nothing can stop my gaze," Su Yu said frankly. "But, so what if I've seen it? I Won't have any improper thoughts towards you. You should have known it when we first met."

Ye Mingxuan couldn't help but feel angry. There weren't many people who could say that they could see her body so confidently!

However, just as he said, when they first met, in his eyes, she was probably worse than a skeleton. He did not treat her as a beauty at all.

"Humph! You people who practice martial arts are really scary!" Ye Mingxuan snorted lightly. She turned around and took out a leaf-shaped slime from Zhan Xuan's chest.

"No wonder the testing instrument could not detect it. It is a liquefied tracker. I did not expect that Your Star Alliance merchants would develop this kind of thing in advance," Ye Mingxuan said with relief.

Zhan Xuan looked dispirited, as if she had nothing to live for.

How could she really want to be captured? It was just a show for Su Yu and Ye Mingxuan to see.

"Now, we should be able to say goodbye to the tracker," Su Yu said.

Then, dozens of teleportations followed.

A few days later, Su Yu and the others appeared in front of a civilization, and the portal in the civilization closed.

Tens of thousands of merchant ships and battleships were waiting nearby.

“It seems that they have locked down the portal in this area,” Ye Mingxuan said.
“This means that he has indeed lost us.”

Zhan Xuan, on the other hand, rolled her eyes and said, “Why don’t you escort me to the commander of the local civilization? Seeing that I’m captured, you won’t dare not to open the portal.”

“Do you think we’re Stupid?” Ye Mingxuan rolled her eyes.

In this way, the Star Alliance Chamber of Commerce would find out their exact location after they had finally gotten rid of the pursuers.

“We can only go through the nothingness.” Ye Mingxuan took out the black starship again and said, “The pursuers have already been left behind by quite a long distance. It will be difficult for them to catch up to us again. This trip should be safe.”

Su Yu nodded.

The three of them used the black starship and sailed into the vast nothingness.

Su Yu finally had time to cultivate. After consuming a nine yin pill, he immediately went into seclusion.

Time flew by and several years passed.

After that, the journey was exceptionally smooth. Apart from occasionally encountering a few ignorant pirate ships, they did not encounter any other dangers.

It was estimated that the journey would take five years, but because Su Yu used the portal dozens of times at high speed, it saved a lot of time.

In the end, it only took three years to reach a huge five-star civilization.

The entire civilization was made of metal.

Most of the buildings were mechanized high-rise buildings.

On the road, auxiliary machines like the Kirin chariot could be seen everywhere.

“Just come back like this, okay?” Su Yu came out from cultivation.

After several years of accumulation, with the help of the nine Yin Pill, he finally pushed his cultivation to the peak of the three crowns.

At this moment, he looked at the huge civilization in front of him and asked.

Ye Mingxuan’s eyes flashed with a cold arc. “Isn’t it good to give someone a surprise?”

Beep Beep Beep --

When the black starship approached the civilization, a loud alarm sounded from within the civilization.

Numerous powerful attack weapons were aimed at the Black Star Fleet.

Especially since this was the military camp of the civilization.

There were advanced mechas everywhere.

In the center of the military camp, a group of high-level officials were discussing a meeting.

“It has been five years since the Black Star fleet was completely destroyed. The New Black Star Battle team has been fully prepared, but the commander has yet to be decided. Does anyone have anyone to recommend?” The one who spoke was the highest commander of the Nirvana East Theater of operations, Long Lan.

Seated on both sides were the upper echelons of the eastern theater of operations, including the three vice commanders and eighteen generals.

“Sigh, it’s a pity that the famous commander ye Mingxuan is a god of war. If she were still alive, she would sooner or later be the mainstay of my Nirvana.” A white-haired vice commander sighed softly. “Now that things have come to this, I only hope that the new vice commander can carry forward the traditions of the Black Star Battle team. I recommend ye Mingxuan’s former assistant, General Fan Qiushui. Other than Ye Mingxuan, she understands the Black Star Battle team the best.”

“I also recommend fan Qiushui! It would be most reasonable for her to be the Black Star Battle Team’s vice commander.”

“Seconded!”

The other two vice commanders agreed one after another.

On the other hand, the eighteen generals fell silent and felt weird.

It was the first time that the vice commanders had the same opinion.

Moreover, Fan Qiushui had always been an assistant. He had no experience in leading troops in actual combat. Was it inappropriate for him to be the vice commander of the Black Star Battle Team?

“What About You?” Long Lan looked at the generals and asked for their opinions.

Among them, only the general who originally belonged to Ye Mingxuan had reservations and objected.

The other generals belonged to the other three vice commanders. Although they felt that it was inappropriate, they did not dare to object and expressed their agreement one after another.

Long Lan sighed quietly. The hearts of the people.

The three vice commanders had a rare unanimous opinion. The reason for this was actually very simple from his point of view.

Ye Mingxuan was too outstanding!

The youngest female God of war had commanded 358 wars of all sizes without a single defeat.

Her military achievements had suppressed the three vice marshals so much that they could not raise their heads.

If it was not unexpected, the position of the future commander-in-chief would definitely be Ye Mingxuan.

With the example from before, the three vice marshals had reached a tacit agreement. The newly elected Vice Marshals would definitely be under their control!

The commander even suspected that the reason for ye Mingxuan's defeat had something to do with the three vice commanders and Fan Qiushui.

However, there was no evidence.

Moreover, three years had passed, and the Star Alliance Chamber of Commerce had yet to send an emissary to submit the matter of exchanging hostages.

There were only two reasons. One was that ye Mingxuan had already died in battle, and the other was that the Star Alliance Chamber of Commerce had captured ye Mingxuan. However, they were afraid of his talent in commanding battles, so they were unwilling to return him.

No matter what the result was, it would be a heavy blow to the Eastern Theater of operations.

Everyone was requesting to elect fan qiushui as their vice commander. Long Lan said, "Since everyone thinks that fan qiushui can do it, then..."

All of a sudden, the tent of the military camp was opened. Long Lan's assistant, Qiao Long, walked in quickly from outside. He said in a panic, "Sorry to disturb the general's meeting, but the Black Star Cruiser has returned!"

What?

The vice-commanders and generals were all shocked.

The command ship that had defeated the Black Star Battle team had returned?

Long Lan was moved. "How many ships?"

"Only the Black Star ship!"

The three vice-commanders had different expressions, the white-haired vice-commander said, "General, the Black Star ship should have been destroyed. How could it have escaped from such a large encirclement? "I think it's a trick of the Star Alliance Chamber of Commerce. There must be a powerful self-destructing weapon inside the Black Star Ship. Please give the order to destroy it in the Void!"

"Yes, Commander, Vice Commander Zhao is right!"

"Give the order, General!"

Looking at the three vice-commanders so anxious look, long LAN confirmed in his heart.

They are responsible for the defeat of Ye Mingxuan.

“Oh, the Chamber of Commerce has spent three years of painstaking effort to bring back the Black Star ship just to detonate it in front of us? “Everyone, do you think that the Chamber of Commerce of the Star Alliance is an idiot? “None of them are smart?”Long Lan said calmly.

The three vice commanders put away the anxious look on their faces just now.

“Permission to land the Black Starship!”Long Lan waved her sleeve and led the group out.

The black starship slowly landed in the military camp. Ye Mingxuan was the first one to leave.

Long Lan was overjoyed. She could not help but laugh. “Vice Commander Ye, Welcome Back!”

On the other hand, the three vice commanders went up to greet her with stiff expressions.

They found it hard to believe. How did ye Mingxuan manage to escape with a force that was ten times their own without any support?

Ye Mingxuan gave a military salute. “Mingxuan failed to live up to everyone’s expectations. The Black Star battle team was completely annihilated. I’ve come back to apologize to the commander.”

The three vice commanders heaved a sigh of relief in their hearts. She had returned, but she had caused the entire black star battle team to be annihilated. This was a great defeat, and she would be punished militarily.

There was no need to even think about returning to the position of vice commander.

“We’ll talk about this later. Why Don’t you tell us how you escaped first?”Long Lan was also filled with shock.

How could she return alone on a black star ship?

Ye Mingxuan said, “Before I tell you about this, I’ll introduce the commander-in-chief to an extraordinary person. It’s because of him that I was able to escape and ascend to heaven.”

“Su Yu, come out.”

Everyone looked over and saw a silver-haired, crown-wearing young man wearing a brocade robe walking out of the black starship with his hands behind his back.

His clothes, hairstyle, and behavior were extremely weird.

“Who is this person? He’s so weird!”

“He doesn’t look like someone from our civilization. I’ve never seen such weird clothes before.”

Only Long Lan’s pupils constricted slightly, but they soon disappeared and she regained her composure. She asked, “Is this the expert who saved you?”

Ye Mingxuan nodded. “That’s right.”

Vice Commander Zhao’s eyes were filled with doubt. “Vice Commander Ye, it’s not that I’m suspicious. What you mean is that he alone was able to save you? “I actually suspect that vice

commander ye has already joined the Star Alliance Chamber of Commerce. Otherwise, he would be able to fabricate such a lie...”

Just as his voice fell, Su Yu, who was fifty meters away, suddenly disappeared.

When he reappeared, he was actually three feet away from him.

“Ah! Ghost!” Even with vice-commander Zhao’s calmness, he was so scared that he screamed. He subconsciously took out a defensive mecha.

Su Yu opened his mouth and spat out a true dragon’s divine fire, burning his mecha to Ashes.

“Assassin! Guard!” Vice-commander Zhao was extremely terrified.

Teleportation, spitting fire from his mouth, even the defensive mecha melted. was the person in front of him a living being or some kind of advanced humanoid mecha?

Su Yu smiled faintly. Without any movement, he returned to his original position.

In just a few breaths, his afterimage was still in his original position, like a ghost.

The shocking scene scared everyone until their faces changed drastically.

Rumble --

A team of soldiers in heavy mecha rushed over with strange weapons in their hands, surrounding Su Yu in the middle.

Su Yu said calmly, “I advise you all to put it away. Perhaps your mecha are very advanced, but in front of martial arts, they are not worth mentioning.”

Unless the other party mobilized thousands of troops, and Su Yu had to face them head-on in order to hurt him.

Chapter 2014 Ancient Martial Arts Civilization

Of course, if he wanted to leave, no mecha could stop him.

Vice-commander Zhao was shocked and said, “Shoot!”

“Stop!” Long Lan stared at vice-commander Zhao calmly. “This mutant really has bad intentions. You were already dead just now, and you still have the right to give orders?”

Just based on the flames just now, which only burned the mecha and did not harm him in the slightest, it was clear that this person had no bad intentions.

The mecha soldiers retreated one after another and stood behind the commander-in-chief.

“Thank you for saving our Vice Commander Ye,” Long Lan extended her hand and said.

Su Yu was slightly stunned. He had just realized that the other party wanted to shake hands.

He had almost forgotten about the etiquette of Earth in the past, but he still went forward and shook hands with familiarity.

Vice Commander Zhao was unwilling to accept this. He stared at Ye Mingxuan again and said, "It is good that you have returned, but I hope that you can be responsible for the deaths of the soldiers."

Ye Mingxuan said, "Don't worry, I'll give them an explanation."

She seemed to have a deeper meaning as she said coldly.

"But before that, I still have someone I want to meet with everyone." Ye Mingxuan clapped her hands. "Come out."

However, she heard heavy footsteps coming from inside the black starship.

"Can I not come out?" Zhan Xuan's face flushed red as she said embarrassedly. Her legs felt as if they were filled with lead, and she could not move no matter how hard she tried.

Ye Mingxuan said calmly, "Sure, unless you don't want to be redeemed."

Only then did Zhan Xuan slowly come out.

As soon as she appeared, Long Lan was shocked. "Star Alliance Chamber of Commerce's East Warzone Vice Commander, Zhan Xuan?"

The three vice commanders were also extremely shocked.

It was already a miracle that Ye Mingxuan managed to escape, but how did she capture the enemy vice commander alive?

If they remembered correctly, Zhan Xuan was the commander-in-chief of this battle.

"This is what happened!" After Ye Mingxuan captured her and Su Yu appeared, she schemed to capture Zhan Xuan alive. In the end, she successfully escaped.

After hearing this, everyone's eyes were filled with disbelief.

It sounded like a fantasy!

However, their appearance in front of their eyes was the best proof.

Long Lan pondered for a moment and said, "Vice commander Ye has lost before, but capturing the enemy commander alive and making a special contribution will make up for his mistakes. He will be reinstated!"

Not giving the three vice commanders a chance to object, she raised her voice and said, "Send an order to the three armies. Vice Commander Ye will take back control of the Black Star Battle Team."

"Yes!" Assistant Qiao Long immediately sent a message to the entire army through some advanced mecha.

Ye Mingxuan said, "Thank you, commander-in-chief. Mingxuan will definitely revive the Black Star Battle Team!"

Long Lan smiled and nodded. "Tonight is a grand banquet to welcome vice commander Ye back! This MR. Su, you have contributed greatly. I will treat you as a distinguished guest this time. Please do not decline."

Of course, Su Yu did not decline. He just happened to have something he wanted to ask.

After three rounds of drinking, Su Yu asked Long Lan, "Commander-in-chief is knowledgeable. Have you ever heard of a civilization like mine that specializes in martial arts?"

Long Lan put down her wine cup and said in silence, "When I first met you, I wanted to ask if you came from an ancient martial arts civilization."

Su Yu was delighted. As expected, he met someone who knew about it.

"May I ask what the ancient civilization the commander-in-chief mentioned is like?" Su Yu asked.

Long Lan took a sip of her wine and sank into her memories. "To be honest, when I was still a soldier, I was once swept away by a spatial storm."

"What? There's such a Thing?"

"Hiss! A spatial storm! The commander-in-chief is still alive. It's unbelievable!"

Ye Mingxuan's eyes were also filled with shock. "The commander-in-chief was able to survive such a devastating natural disaster like the spatial storm. He's truly skilled!"

Long Lan laughed self-deprecatingly. "In front of the spatial storm, I'm just like an ant. How could I have the qualifications to contend with it? It was a person who could fly and escape from the spatial storm that pulled me out. Only then did I survive."

Hearing that, Ye Mingxuan could not help but look at Su Yu.

Flying and escaping from the ground, wasn't that Su Yu?

"That person brought me to a small civilization. It's really small, probably not much bigger than our city." Long Lan said slowly, "In a civilization, there are short wooden buildings, large undeveloped primitive forests, and many ferocious beasts."

"At first, I thought that this was a primitive civilization. It was not until I found out that everyone in the civilization could fly into the sky and fly into the Earth and casually launch powerful attacks that I realized that the civilization was not as simple as it looked

"I lived in that civilization for two years and studied the locals for a long time. Finally, I confirmed that they were probably an ancient civilization that specialized in martial arts

"Their civilization was very, very long. It was at least trillions of years or more! And our civilization's oldest origin was only 300 million years

"Therefore, I called their civilization the ancient martial arts civilization, while our civilization was the a-martial arts civilization."

Ye Mingxuan yearned for it. She imagined the human beings who could do anything by themselves. She could not help but ask, “Then, is our a-martial arts civilization powerful, or is the ancient martial arts civilization more powerful?”

On this point., long Lan said with certainty, “Of course it’s the ancient martial civilization! Their long lifespans are almost the same as that of Heaven and earth. They can kill people from thousands of miles away. They can destroy an entire civilization with a single palm strike. They can achieve a powerful body that is immortal and indestructible. On the other hand, our a martial civilization relies too much on mecha, but their bodies are quite weak. At most, they can only live for 800 years under advanced medicine. How can they compare to them?”

The people at the table were extremely envious.

Ye Mingxuan’s mood was even more complicated.

At first, she thought that Su Yu’s civilization was quite backward, but now she realized that the ancient martial arts civilization was the truly advanced civilization.

The mecha civilization was indeed prosperous, but in a sense, it was a civilization that had gone down the wrong path.

“If an ancient martial arts civilization of the same level were to start a war with the a martial arts civilization, I think that the a martial arts civilization would not be able to last a day and would be reduced to ashes,”long LAN sighed deeply.

Su Yu agreed with this point.

A random emperor of heaven and earth could probably destroy this five-star civilization in one fell swoop.

However, what Su Yu was concerned about was, “Then how did you come back?”

Long Lan shook her head and said, “I don’t really understand. One day, when I woke up in the morning, I found myself in the Daoist Hall of Thunder Immortal.”

“I always thought that it was an unrealistic dream. Now that I see you, I can confirm that it was not a dream, but something that really happened.”Long Lan stared at Su Yu and said in a deep voice.

Su Yu’s eyes lit up. If nothing unexpected happened, it should be the Daoist Hall of Thunder Immortal and Yellow Dao that had thought of a way to bring long lan back from the ancient martial civilization.

Then, they should have the ability to send Su Yu there.

They finally found a clue to return home.

After finishing the banquet, Su Yu said, “Can I borrow the local books and materials?”

Long Lan said, “Of course not. Our Army has all the books and materials of the four major civilizations. It will take at least a hundred years to finish reading them.”

That might not be the case.

After the banquet, Ye Mingxuan accompanied Su Yu for a walk. She let out a breath and said, "Thank you."

Su Yu shook his head. "There's no need to thank me. Just help me contact a passenger ship and let me head to the Yellow Taoist temple of Thunder Immortal."

Ye Mingxuan's footsteps paused for a moment before she caught up again. "Why don't you stay? With your strength in martial arts, you will be greatly valued in our martial arts civilization. At that time, you will have everything you want. It's better than going back."

Su Yu said, "This is one of the differences between our ancient martial arts civilization and your martial arts civilization. The living beings in our civilization place great emphasis on the cultivation of martial arts, and the enjoyment of life is just a supplementary item that can be dispensed with."

Sighing softly, Ye Mingxuan knew that she could not persuade Su Yu to stay. She said, "I will prepare the passenger ship for you."

Su Yu nodded and thought for a while before he said, "Do you need my help? Those three vice commanders are the culprits who framed you."

He had already confirmed it by listening to his soul.

Shaking her head, Ye Mingxuan smiled. "Don't think that I'm useless. I have plenty of ways to deal with those three vice commanders."

Su Yu recognized her intelligence and had to be suspicious. He said, "If you have any difficulties, why don't you come to me?"

"Where?" Ye Mingxuan said with a faint smile, "You haven't settled down yet, right?"

Su Yu was stunned for a moment and said, "We are cultivators of the four seas, so it's common for us to live in the open. We don't require a place to stay... of course, if you can arrange a place for me, that would be even better."

"Then you can stay at my place," Ye Mingxuan said.

"Your Place?" Su Yu was surprised and said, "Aren't you civilized people very conservative?"

Ye Mingxuan was slightly embarrassed. "I let you stay here out of kindness. Is there a need to be so straightforward?"

Fine, she didn't mind. What did a man like Su Yu care about?

"Then I'll disturb you for a few days." Su Yu took a device that was similar to a mobile phone from the military camp. It stored a huge amount of information, all related to the four major civilizations.

As the vice commander, Ye Mingxuan was assigned a luxurious private villa in the center of the city.

Su Yu chose one and closed the door. "If there's nothing important, Don't disturb me. Oh right, we armaments don't eat or drink, and there's no need to call me to eat or anything like that."

Ye Mingxuan couldn't help but be angry. "You're really not polite!"

Thinking of the other party's attitude when they met for the first time, Ye Mingxuan was both angry and envious. "The ancient martial arts civilization is really good!"

Entering the room, Su Yu immediately began to flip through the enormous amount of information.

With his astonishing reading ability and the acceleration of time, Su Yu only took less than two months to finish reading all the information that long LAN thought would take a hundred years.

After reading it, he let out a long breath. "I see!"

The A & Wu civilization was actually quite limited. As far as they knew, other than the four major civilizations with the four Zodiacs as the center, they had not found any other civilizations.

The people of the A & Wu civilization had tried to explore the nothingness that was even further away, but they found that there was a powerful space storm at the edge of the civilization system, surrounding the four major civilizations in the center and isolating them from the outside world.

Therefore, the A-WU civilization was actually a small isolated civilization.

In the absolute beginning realm, it was like an inconspicuous speck of dust that stayed in a corner.

The real mainstream civilization was still the ancient martial arts civilization where Su Yu was.

After understanding this, Su Yu heaved a sigh of relief. He used to think that the civilization he was in was the isolated and backward civilization.

Now, it seemed that the backward... No, to be exact, the civilization that was going in the wrong direction was the A-grade civilization.

However, why would the a-grade civilization develop in the direction of Mecha?

Who was guiding this general trend?

Chapter 2015 Taught Martial Arts

All the information regarding the origin of the armory civilization was vague and unpredictable.

It was just like the question of whether there were chickens before eggs or eggs before chickens.

However, everything happened for a reason. The appearance of the mecha was definitely not a coincidence. There must be an invisible hand controlling it.

The most suspicious person should be the supreme ruler of the civilization system, the Daoist Huang Hall.

Dong Dong --

While Su Yu was thinking, Ye Mingxuan knocked on the door for the first time in two months.

"What's the matter?"

"I've already booked a ticket to the time ship for you. It will depart in about a year and a month. The entire journey will take five years."

Su Yu did not frown slightly. Five years was quite a rush.

However, he did not complain. The journey back from the Star Alliance Chamber of Commerce was limited to the Yellow Taoist temple of rain immortal, and it still took three years.

Now that they were about to cross the civilization department, five years could be said to be quite fast.

When he opened the door, he saw Ye Mingxuan standing outside the door. She was wearing a simple white dress, and her long, smooth hair was draped behind her back. Her skin, which could be easily broken by the wind, was slightly red.

Su Yu really felt like he had returned to the past and met a modern beauty.

“Thank you.” Su Yu took the ticket from his hand.

“You’ve been reading for two months. Don’t you want to take a break?” Ye Mingxuan said, “Even if you’re an armament, you should pay attention to the combination of work and rest, right? It’s not too late to read in the future.”

He had not finished reading at all, so there was no need to continue reading.

Moreover, the real experience of reading was not two months, but a hundred years.

She had still underestimated the physical fitness of martial artists.

“Then let’s relax. You actually let me study your battleships?” Su Yu asked.

After a hundred years of reading, he was quite interested in the battleships of the armor and martial arts civilization.

The power of the battleships might not be satisfactory, but the ability and speed to travel through the void was something that the ancient martial arts civilization did not have.

If they could bring back a few warships, it would undoubtedly be much faster to travel through the void.

Ye Mingxuan beamed. “Just in time, the commander-in-chief has something to discuss with you.”

“Him?” Su Yu nodded slightly. He had already vaguely understood the commander-in-chief’s meaning. “Just in time, there are some things that can not be found in the information. I also want to ask the commander-in-chief.”

In the military camp.

The commander-in-chief, Long Lan, and his assistant were discussing some military matters. Only the two of them were present. The other three important vice commanders were nowhere to be seen.

“Mr. Su is here. Please take a seat,” Long Lan said politely.

Su Yu said, “The commander-in-chief asked me to come here. Is there something you need?”

Ye Mingxuan sat down beside him. It was unknown when she had put on her military uniform, but she appeared very solemn.

“I invited Mr. Su here to discuss a major military matter with you.”

Su Yu was surprised. Military secrets were important, but only Ye Mingxuan was present. The other three deputy commanders did not come?

He glanced at Ye Mingxuan, and the latter smiled faintly. It was a meaningful smile.

Su Yu was slightly surprised. She had already gotten rid of the three deputy commanders? It had only been two months. This woman's methods were indeed not bad.

"Thank you for trusting me, Commander. If you feel the need to let me know, feel free to tell me."

"The thing is, from Zhan Xuan's mouth, we know a very important piece of information. The ancient ruins excavated by the Star Alliance Chamber of Commerce are very likely to be the ruins of your ancient martial arts civilization."

Su Yu was slightly moved. How could there be the ruins of the ancient martial arts civilization in the A-grade civilization?

"That relic is very dangerous. The power of the A-class civilization can not be opened at all. It is completely blocked outside. I hope Mr. Su can help us open that relic."

Su Yu shook his head gently. "I don't have time anymore. I'm sorry."

There was only one year left before the time ship left. It would take at least three years to go to that relic.

"That's too bad. I think that the ruins should be designed for the ancient martial arts civilization. Only you should be able to enter."

Su Yu had reservations on this point. The commander-in-chief did not understand the hierarchy of the armory civilization. Perhaps he had overestimated Su Yu.

Based on what Zhan Xuan had said, even if the Dao Masters entered the ruins, they would not be able to return!

Unless, the Dao Masters here were like them. They only had longer lifespans than ordinary people and did not possess any martial arts.

"I have one more thing. I would like to plead with Mr. Su, hoping that Mr. Su can help us."

Su Yu said, "Please speak."

"Mr. Su, can you teach us some basic martial arts cultivation methods?" The commander-in-chief said, "Back then in the ancient martial arts civilization, I once cultivated, but for some reason, after returning, all my memories disappeared, and my cultivation disappeared as well. So, I always thought that it was a dream."

There was such a thing? Su Yu was confused. His memories disappeared and his cultivation disappeared. Perhaps they couldn't understand it, but how could people in the martial arts world not understand what was going on?

His relevant memories were erased and his cultivation was abolished.

A faint light flashed in his eyes, su Yu said calmly, "It's okay to teach us the basic cultivation methods, but even if I teach you the deeper level of martial arts now, I'm afraid you won't be able to understand it. You have to develop it on your own."

The commander-in-chief and ye Mingxuan were excited. Even the most basic martial arts were the ability to fly in the sky and escape the earth!

If it were to spread, the impact on the A martial arts civilization would be unimaginable.

"Don't be in a hurry to be grateful. I'll teach you the basics of martial arts. In exchange, I need a hundred battleships that can fly in the void."

"How Big?"

"Yes, the kind of battleships that the Star Alliance Chamber of Commerce has over ten thousand battleships."

The commander-in-chief pondered. A hundred battleships was not a small number for the Eastern Theater of operations. It was equivalent to one-tenth of a battle team.

However, compared to teaching martial arts, it was not worth mentioning.

"I promise! I will mobilize them for you within a year."

Su Yu nodded and said, "There is something I want to ask the commander-in-chief. I hope you can answer me."

"Please go ahead."

Su Yu's eyes shone with a deep light. "Why is it that I have read all the books of the four major civilizations, but none of them mention Nirvana and the Star Alliance Chamber of Commerce. HMM, even their names have never appeared before! Can you tell me why?"

The commander-in-chief said in surprise, "Nirvana and the Star Alliance Chamber of Commerce are relatively secretive organizations. It's not a big deal that they don't want to be known to outsiders, right? "As far as I know, your ancient martial arts civilization also has many similar forces that control the situation on the surface from behind."

Su Yu's gaze was sharp as he said indifferently, "Then you must not know that Nirvana and the Star Alliance Chamber of Commerce are also two organizations in the ancient martial arts civilization."

What?

The commander-in-chief and ye Mingxuan were both shocked.

Two organizations actually span two different civilizations?

"How is this possible?"The commander-in-chief asked.

“So, I want to hear your understanding of Nirvana and see if it’s consistent with what I’ve said,” Su Yu said.

The commander-in-chief’s face was solemn, he said slowly, “Our army is directly under Nirvana’s command. A Nirvana high-ranking official is in charge of the four war zones of the Rain Immortal Daoist sect. As far as I know, he believes in some kind of eagle totem and is very devout. However, he only believes in it himself. Other than that, he doesn’t know anything else.”

Su Yu’s eyes flashed. Nirvana, that’s right!

However, it didn’t seem like Nirvana’s style.

True Nirvana would spread his religion crazily at all costs, such as the leader of the Moon Worship sect.

The higher-ups of Nirvana controlled a huge army. Why didn’t they turn the army into believers?

Was it impossible? It wasn’t like the difficult situation of the Dark Moon civilization. Even the moon worship sect was forcefully established, let alone the current state where everything was ready?

Could it be... that they did not dare?

What was there that Nirvana was so afraid of that they did not even dare to preach?

“Then, is the Star Alliance Chamber of Commerce Good at business, controlling most of the economic lifeblood of the four major civilizations?”

The commander shook his head slightly, “As far as I know, the Star Alliance Chamber of Commerce is a chamber of commerce in name, but in fact, it is not good at business. Why would Mr. Su Ask This?”

As expected!

Even the Star Alliance Chamber of Commerce was extremely restrained.

With the greed of the Star Alliance Chamber of Commerce, a two-star civilization that was filled with war would be persistent in planting the dark market, let alone the four large civilization systems?

The most suspicious thing was that since Nirvana and the Star Alliance Chamber of Commerce had not extended their tentacles, then where did the wealth come from when they supported such a huge army?

There was only one answer, which was to get it from other places.

In other words, Nirvana and the Star Alliance Chamber of Commerce were maintaining an unceasing connection with the outside world.

However, they had hidden themselves and did not reveal their existence.

It was as if they were afraid of the same thing or person.

Su Yu suddenly felt that the surroundings were filled with dense eyes that were watching him invisibly.

This made him think that agreeing to teach him the basics of martial arts might have been a little hasty.

Since Nirvana and the Star Alliance Chamber of Commerce had connections with the outside world, why didn't they pass down any martial arts?

It was likely that they had noticed some taboos.

"Mr. SU, did you notice anything wrong?" Long Lan asked nervously.

Su Yu's lips twitched. He wanted to tell the truth, but after looking at him, then at Ye Mingxuan, he quietly retracted his words and said faintly, "It's fine. Perhaps they share the same name."

Rather than making them afraid, it was better to be completely unaware.

"Then the teaching of martial arts..." Long Lan said expectantly.

Su Yu said calmly, "It will be held as scheduled."

After the conversation, Ye Mingxuan accompanied Su Yu home. Along the way, she asked about the various ancient martial arts civilizations. Upon hearing it, she clicked her tongue in wonder and was fascinated.

The surprise and anticipation on her face did not diminish for a moment.

When they returned to the villa, a luxurious mech that cost a lot of money was parked in front.

A young man dressed in expensive clothes and fashionably dressed waited in front of the villa with a bouquet of flowers in his hands.

Behind him were all strong bodyguards dressed in the same clothes.

When he saw Ye Mingxuan return, the young man took a step forward and revealed a warm and warm smile. "Mingxuan, welcome back safely."

Ye Mingxuan frowned slightly. Instead of looking at the flowers, she said indifferently, "I appreciate your kindness. Is there anything else?"

"For the past three years, I've been worried about you. When I heard that you had returned, I immediately rushed over from the western region. Mingxuan, don't you understand my kindness?" The young man said gently.

Ye Mingxuan showed a merciless look of disgust. "Enough. If you continue to pester me, I'll immediately punish you for disturbing the military affairs of the East Theater of Operations! Scram!"

Ye Mingxuan was especially against him.

The expression on the young man's face was still the same. He stubbornly said, "Mingxuan, I've done so much for you for so many years. Haven't you ever been touched?"

Ye Mingxuan scoffed and shook her head. "You don't know what you're talking about! Move aside!"

She parted the crowd and opened the door of the villa. She turned her head and said, “Mr. SU, come in.”

Su Yu had no interest in what had happened between them, and stepped through them.

Chapter 2016 The Battle For The Commander-In-Chief

“Stop right there!”The two bodyguards behind the young man blocked the way.

The young man put down the bouquet and looked at Su Yu from head to toe. He smiled and said, “My name is Chen Tianqing. I’m from the Rain Immortal Civilization Department, the son of the commander-in-chief of the Western Theater of operations. Are You Mingxuan’s new bodyguard?”

“Bodyguard?”Su Yu looked at his strange outfit and thought for a moment before saying, “Sort of. Do you have any advice?”

Chen Tianqing said, “As a bodyguard, you should first examine your status and identity. Don’t do things that are beyond your reach. Do you understand?”

“For example?”

“For example, you shouldn’t have entered Mingxuan’s Villa! Moreover, you’ve been staying there for two months!”Chen Tianqing’s face flashed with traces of viciousness.

It turned out that ye Mingxuan’s villa was constantly being watched by Chen Tianqing’s people.

Two months ago, Su Yu entered ye Mingxuan’s villa and never came out again. Chen Tianqing knew about it.

“Oh,”Su Yu said lightly.

The gloominess on Chen Tianqing’s face became darker and darker. he shouted coldly, “So, if you still want to live, get lost now, right now, right now!”

“Chen Tianqing!”Ye Mingxuan pulled out a sword-shaped laser gun and aimed it at Chen Tianqing’s head. She said lightly, “If you say one more word, I’ll send you on your way immediately! You should understand me. I’m a man of my word.”

Hearing that, Chen Tianqing’s dark and stern face stiffened slightly.

Ye Mingxuan had always been a man of her word. If she said that, she would really dare to blow his head off on the spot.

Chen Tianqing’s body stiffened. He did not dare to move recklessly.

“Mr. SU, please come over,”ye Mingxuan said.

Su Yu glanced at Chen Tianqing. He passed through the crowd and entered the villa expressionlessly.

Only then did ye Mingxuan put away the laser gun and said coldly, “I don’t want to see you again. Remember what I said!”

Chen Tianqing's face was dark. "Ye Mingxuan, tell me the truth. What is the relationship between this person and you?"

Ye Mingxuan paused for a moment and did not say a word. She held Su Yu's arm, tapped the tip of her toes, and pressed her red lips on Su Yu's cheek. She said, "Do you still need to ask?"

This scene made Chen Tianqing's face turn ashen.

He had long felt that their relationship was extraordinary.

With Ye Mingxuan's conservatism, it was impossible for an ordinary man to enter her villa and stay there for two months.

This kind of cohabitation relationship was enough to explain the problem.

Ye Mingxuan's actions right now suppressed the last trace of luck in Chen Tianqing's heart.

It was said that this man that Ye Mingxuan brought back from the outside world was very likely to have captured Ye Mingxuan's heart. The two of them had already developed a cohabitation relationship.

Thinking about how the goddess that he had painstakingly pursued for many years was actually taken over by an unfamiliar man, he felt an inexplicable anger in his heart.

He glared at Su Yu viciously and did not throw any harsh words. Without saying a word, he jumped onto the luxurious mecha and left.

The bodyguards behind him took out their runes one after another and took out their respective mecha to chase after him.

After they had left, Ye Mingxuan held Su Yu's arm until they reached the house. Only then did she let go and said, "I'm sorry. Thank you."

"What are you sorry for? What are you thanking me for?"

"I'm sorry for using you as a shield to get rid of his entanglement. I'm thankful that you gave me face and didn't kill him."

Ye Mingxuan aimed the gun at Chen Tianqing, not to save Su Yu, but to save him.

With Su Yu's ability, he could probably kill Chen Tianqing a hundred times with just a glance.

Su Yu said indifferently, "There's no need to thank me. However, it's better for you to not let me get involved in the conflict between men and women again. It Won't happen again."

Ye Mingxuan's heart skipped a beat. She could sense Su Yu's displeasure.

Her kiss did not make this strong practitioner of the ancient martial arts civilization feel a trace of joy. On the contrary, she was very unhappy.

"I'm sorry. I promise there won't be a next time!" In fact, Ye Mingxuan was a little disappointed.

She used to think that she would never have any emotional fluctuations because of any man because there was no man in this world who was worthy of her respect.

But just now... Su Yu's one sentence made her inexplicably complicated, and she felt an indescribable disappointment in her heart.

In his eyes, she was indeed nothing, just like the first time they met..

"But, we are not a man and a Woman!" If it were any other man, Ye Mingxuan would definitely not explain further, but in front of Su Yu, she desperately did not want Su Yu to misunderstand, she said, "He is the son of the highest commander of the Western Theater of operations. His status is extraordinary. He has been chasing me for a long time, but I have never agreed to it. Please believe me on this point."

Su Yu said indifferently, "Oh."

He was curious as to why Ye Mingxuan would explain to him. Su Yu actually did not care at all whether she agreed or not.

Looking at Su Yu's cold reaction, Ye Mingxuan felt even more disappointed, she said, "The reason why I don't want him to die in your hands is not because of our relationship, but because of his identity. He is destined not to die in the Eastern Theater of operations. Otherwise, it will be very troublesome

"The four major theater of operations of the Daoist Church of yellow and rain immortals are not on good terms with each other, especially in the eastern and Western Theater of operations. They are rivals. Whoever has the upper hand in the war against the Chamber of Commerce of the Star Alliance will be able to get more resources from the supreme ruler of Nirvana

"Over the years, the west war zone has always had the upper hand. It has proposed many times that the east and west war zones should be merged and a comprehensive war zone should be established. That ruler has been opposed to it at the beginning, but he has been considering it carefully lately, and he seems to be on the verge of agreeing to it

"With the leading performance of the West War Zone, there is no doubt that the commander-in-chief of the comprehensive war zone will be the current commander-in-chief of the west war zone. Long Lan will no doubt be excluded

"Now, if the son of the commander-in-chief of the Western Theater of operations dies in our Eastern Theater of operations, I think the highest ruler of Nirvana will have even more reason to appoint him as the commander-in-chief."

After listening to the cause and effect, Su Yu's face was expressionless.

There was competition everywhere, and everywhere was no exception.

"Don't worry, if he doesn't provoke me again, I won't bother to find trouble with him," Su Yu said. would an elephant carefully look for an ant in the grass?

Obviously not!

Ye Mingxuan heaved a sigh of relief. Even if Chen Tianqing wanted to find trouble with Su Yu, he probably didn't have the ability to do so.

He might be able to summon the wind and rain in the Western Theater of operations, but in the Eastern Theater of operations, he didn't have any power to rely on.

Unfortunately, she underestimated Chen Tianqing's determination.

Three days later, when Ye Mingxuan was actively preparing for the teaching of martial arts, a sudden news disrupted her rhythm.

"Vice Commander Ye, the commander-in-chief has invited you over. The matter is extremely urgent." It was long LAN's assistant, Qiao Long.

Ye Mingxuan glanced at the tightly shut door of Su Yu's room and said, "Alright, let's set off immediately!"

In the military camp.

Long Lan's face sank, and a deep gloominess filled her face.

"Commander-in-chief, what urgent matter has happened?" Ye Mingxuan asked.

Long Lan didn't say a word. She sent the latest East Theater Express to him.

Express was a kind of platform that was widely spread. It was similar to newspapers on Earth. Any news could be made known to the public at once.

Ye Mingxuan glanced around and her face changed. "Chen Tianqing was assassinated in the East Theater Bar and one of his arms was blown off?"

She was deeply surprised and exclaimed, "How could this happen? His bodyguards are the best in the Western Theater of operations. It's impossible for anyone to kill Chen Tianqing."

"Keep watching."

Ye Mingxuan's expression changed again and she said angrily, "Shameless!"

According to Chen Tianqing and his bodyguards, the assassin was a silver-haired young man. They even projected his image. It was Su Yu!

Others might not know, but how could ye Mingxuan not know?

Su Yu had been in her villa for the past three days and had never left. How could she have gone to assassinate Chen Tianqing?

Besides, if Su Yu wanted to kill Chen Tianqing, why would she need to assassinate him? And the assassination failed?

If Su Yu really wanted to kill Chen Tianqing, none of the ten thousand Chen Tianqing would be able to escape.

"Commander-in-chief, this is slander. I can testify," ye Mingxuan said.

Long Lan said, "If you testify, can you change the direction of the West Theater of Operations commander-in-chief's plane?"

Ye Mingxuan's pretty eyes flashed, and she said in a serious voice, "The West Theater of Operations commander-in-chief is coming to the East Theater of Operations? is he going to seek justice for his son?"

"Yes, that's the case on the surface. In fact, we know why," Long Lan said in a deep voice.

Ye Mingxuan naturally understood that it was to create momentum!

To make the commander-in-chief of the Eastern Theater of operations bow his head in front of him, to create momentum for him to ascend to the position of commander-in-chief of the Comprehensive Theater of operations in the future!

The other party's announcement of this news in the express news was to attract everyone's attention.

"Damn it! That despicable thing, Chen Tianqing, I dare to bet that although his arm is broken, there must be a way to recover it," Ye Mingxuan said.

Long Lan's eyes revealed a trace of anxiety. She pretended to be calm and said, "Now it's not important who is right and who is wrong. What's important is how to suppress the momentum."

He paused and said faintly, "In your opinion, how about inviting Mr. Su to come out?"

"No!" Ye Mingxuan rejected on the spot, he said calmly, "Based on my understanding of him, he can't be considered cold, but he's definitely not kind. If he knew that Chen Tianqing slandered him like this, I think Chen Tianqing might really die in our eastern theater of Operations."

Long Lan instantly became alert and realized the seriousness of the matter.

If Chen Tianqing really died in the East Theater of operations, the situation would be even worse than now.

"Commander-in-chief, urgent message from the commander-in-chief of the West Theater of Operations." Qiao long handed over an important piece of information.

Long Lan took it and looked at it. Her already calm expression became even more calm. "He came so quickly!"

The urgent message said that the commander-in-chief of the West Theater of operations would arrive in the East Theater of operations five days later.

Ye Mingxuan said coldly, "They are obviously well prepared! The military camp of the Western Theater of operations is at least a month's journey away from us! Unless the commander-in-chief heads to the border three days in advance, only then can he arrive in five days."

"They father and son have a good plan. I think that one person will get both wealth and benefits!" Long Lan looked at Ye Mingxuan calmly.

The purpose of the campaign was to force long Lan to lower her head and punish the murderer. On the other hand, it was to force ye Mingxuan to agree to Chen Tianqing's marriage proposal.

"In Your Dreams!"Ye Mingxuan spat out these two words coldly.

However, she had no idea what to do.

The West Warzone Commander had come. She not only had to face the commander alone, but also the public.

If she was not careful, the reputation of the East Warzone would fall.

"You should go back first. Tomorrow, gather the generals and discuss this matter urgently,"long LAN said.

Ye Mingxuan nodded and returned to the villa with a heavy heart.

She glanced at Su Yu's tightly shut door and hesitated but did not knock.

No matter what, she could not let him know about today's matter.

If he knew, it would only make the situation worse.

Chapter 2017 Conspiracy

The next day, Ye Mingxuan quietly left the villa and headed to the military camp.

Other than Ye Mingxuan, there were three new faces. They were the generals under ye Mingxuan's command in the past. They had replaced the three vice commanders.

The generals present had also changed. More than half of the generals had been replaced. They were all the elite soldiers that ye Mingxuan had brought out.

The entire upper echelons of the military camp could be said to have all become ye Mingxuan's people.

Without a doubt, in the past two months, she had taken many actions, sending three of her former colleagues to prison, and even changing a large number of her trusted aides.

The commander-in-chief Long Lan had acquiesced. In order to compete, the three vice commanders had actually caused an entire battle team to fall into an ambush, seriously violating his bottom line.

It was fine to compete for power and benefits, but to use such unscrupulous methods was to have zero tolerance.

"I believe you all know about this matter, right?"Long Lan said.

The three new vice commanders were in a heavy mood. How could they not know about such a huge matter?

It was a pity that they had just taken office and had encountered such a matter. They did not know if it was sadness or happiness.

"What suggestions do you all have? Let's all brainstorm,"Long Lan said.

The three new vice-marshals came up with ideas one after another. They considered military affairs, connections, and all kinds of foreign aid, and came up with strategies that were of great reference value.

However, Long Lan remained silent with no change in expression.

Long Lan had considered all the methods they had mentioned last night, but in the end, she found that they were not suitable.

The other party had come with force. Ordinary strategies were simply impossible to resist.

In the end, he looked at Ye Mingxuan, who had remained silent the entire time, and said, "Do you have any ideas?"

What Long Lan wanted to hear the most was Ye Mingxuan's strategy.

As the female war god of the Eastern Warzone, she had a night to think. Perhaps she could think of a strategy that others could not think of.

Ye Mingxuan silently looked around at everyone present and said, "I have a strategy, but I don't know if the commander-in-chief would dare to carry it out."

Hearing the killing intent in her words, Long Lan glanced at Qiao Long,

the latter understood and activated the absolute defense. A layer of light that could be seen with the naked eye enveloped the entire tent.

Not only could the information outside not be spread out, but the information inside could not be spread out as well.

"Speak."

Ye Mingxuan said quietly, "This is an extraordinary matter, an extraordinary plan! Instead of waiting for death, the commander will be slowly eaten up by a frog in warm water. Why don't we take drastic measures?"

Hearing this, everyone sucked in a breath of cold air.

Was she preparing to... assassinate the commander-in-chief of the Western Theater of Operations?

Long Lan's pupils constricted, and she felt a chill in her heart. As expected of the female God of war. Only she could think of such a plan.

He didn't reject it immediately. Instead, he fell into deep thought.

Actually, he had thought of this plan before.

The possibility of the commander-in-chief of the Western Theater of operations obtaining the position of commander-in-chief of the Comprehensive Theater of operations was much higher than his.

At that time, would he still be able to tolerate the former commander-in-chief of the Eastern Theater of operations, Long Lan, who used to be on equal footing with him?

The answer was no.

When he took power, he would definitely try his best to suppress him and his confidants. In the end, they would all be squeezed out of the core of the Comprehensive Theater of operations.

This was the best outcome. If he was ruthless enough, at the very least, Long Lan would die, and it would be very difficult for Ye Mingxuan to survive. All the influential generals would be purged by blood.

With Nirvana's character, perhaps he wouldn't care about their lives at all.

The future situation could be predicted, so why not take this opportunity to take out the West War Zone's commander-in-chief?

"Everyone, does anyone have any objections?"

The eyes of all the generals changed drastically. If they failed, it would trigger a war between the east and west war zones.

If Nirvana found out, they would all be sentenced to death.

Seeing that many of them were still holding on to their luck, Ye Mingxuan said in a deep voice, "Everyone, do you think that when the commander-in-chief of the Western Theater of operations takes power in the future, there will still be a place for all of you to stay? Being able to leave the army can be considered that he has a kind heart!"

"However, I think all of you should have some understanding of the character of the commander-in-chief of the fourth theater of Operations."

Hearing that, everyone's hearts thumped again.

His character could only be described as brutal.

He was extremely cruel to his enemies.

In the past, he had successfully captured eighty million soldiers of the Star Alliance Chamber of Commerce, but what was their fate?

No matter how the Star Alliance Chamber of Commerce negotiated, the commander-in-chief of the Western Theater of operations would drag them to an abandoned small civilization without hesitation. Then, he would detonate the civilization and blow everyone into pieces.

His brutal nature was exposed.

In the future, when they became his enemies, their fate was imaginable.

"I swear to follow the commander-in-chief to the death!" Finally, they made up their minds.

Not long after, all the generals present made their stand and signed a contract under the auspices of Long Lan.

Once the secret was leaked, the contract would automatically destroy the other party.

"Vice Commander Ye, tell me about your specific arrangements!" Ye Mingxuan said.

Ye Mingxuan's eyes were shining brightly. She said, "We will go all out and annihilate the enemy. However, my guess is that the enemy must have anticipated that we might assassinate him, so they must be on guard

"There are three ways for him to be on guard. One is that he will be followed by a large number of soldiers and will be protected along the way. The other is that he might change his route midway so that we can not track his whereabouts. However, such a secret march must have very few soldiers with him in order to cover his tracks

"For the two possibilities, I have laid out two plans. The first is that I will lead the black star battle team to ambush his original route and annihilate him! The second is that the three vice commanders will spread out their troops and set up an ambush along the route that he might appear on."

After listening to his analysis, everyone had a general idea. They could not help but praise ye Mingxuan's wisdom and the godlike way she deployed her troops.

Long Lan said, "Immediately make arrangements to intercept and kill the enemy!"

"Yes!"

The East Theater of operations was forced into a desperate battle, and the entire army was thrown into battle.

Three days later, the Black Star Battle team led by Ye Mingxuan, as expected, discovered the West Theater of Operations Commander's army on their route.

The enemy's army was about an entire battle team.

Ye Mingxuan felt strange. They were really following the original route. Could it be that the West Theater of operations commander was really not worried at all that the East Theater of operations would take risks?

However, no matter what, they had to destroy them before they reached the military camp of the Eastern Theater of operations.

If they killed them now, they could even frame the Star Alliance Chamber of Commerce.

If they reached the military camp, if they killed the other party then, they would be openly looking down on Nirvana's ruler.

Seeing that most of the other party had entered the attack range, Ye Mingxuan secretly contacted the powerhouses hidden in various civilizations and said in a low voice, "Everyone, get ready..."

However, at this moment, a faint voice entered the enemy's ears without any warning.

"If I Were you, I would consider the third possibility. That is, from the beginning, this was a conspiracy aimed at the entire eastern Warzone."

Ye Mingxuan's body suddenly stiffened and she was almost frightened. "Mr. Su?"

She looked around in shock but did not see Su Yu's figure.

“Where are you?”

“On your shoulder.”

What? Ye Mingxuan looked at her left and right shoulders in surprise.

But there was clearly nothing.

Just as she was shocked, a speck of dust appeared on her right shoulder, and it kept folding and enlarging until it turned into a real person.

“Ah!” Even though ye Mingxuan was mentally prepared for Su Yu’s methods, she was still shocked.

“You, when did you get on my shoulder...”

Su Yu said plainly, “Probably when you were changing before you left the villa.”

“You... you looked at my body again?” Ye Mingxuan’s face was flushed red as she exclaimed.

She stared at Su Yu in embarrassment and indignation. This fellow!

“That... Vice Commander Ye, the communication device is still on...”

Suddenly, the voice of her female assistant rang out from the communication device in her hand.

The other party was in another civilization, so she reminded her through the communication device.

Hearing this, Ye Mingxuan’s heart skipped a beat!

She lowered her head to look at the communication device that was still on, and her face flushed red.

In other words, their conversation just now... all the generals under them heard it?

“Ahem, Deputy Commander Ye, we didn’t hear anything!”

“By the way, it’s not wrong for deputy commander ye to find a man, right...”

” ... ”

The communication device rang with each other’s murmurs, making ye Mingxuan wish that she could find a hole to hide in and never come out.

She had actually lost a huge amount of face in front of the entire army!

Only when the alarm sounded beside her did ye Mingxuan come back to her senses. She immediately regained her composure and said, “The West Theater Commander’s team will be here soon. Prepare the entire army...”

Su Yu said calmly, “Didn’t I tell you to use your brain again? This is a conspiracy. Immediately make your army stop. Don’t move your troops.”

“You... What right do you have to order me?” Ye Mingxuan blushed in front of the entire army. She did not want to be thought that she was being controlled by a man.

Su Yu said indifferently, “Then you can start the war.”

Ye Mingxuan struggled in her heart. This was the only chance to destroy the commander-in-chief of the Western Theater of operations. If she missed it, she would not have another chance.

If it were in the past, Ye Mingxuan would have attacked decisively without hesitation.

But now..

After struggling for a long time, she ordered, “Wait for the order temporarily.”

Then, she turned off the communication device.

The generals hidden in various places clicked their tongues. Some were surprised, some sighed, and some felt regretful.

“DAMN! There really is a man who can conquer Ye Mingxuan!”

“Sigh, our goddess still fell into the hands of other men!”

“Hehe, I don’t need to dream about marrying a female god of war anymore!”

On the other side.

Ye Mingxuan’s face was still red. She looked away and asked, “Tell me your reason!”

Su Yu said, “My reason is... If I were the commander-in-chief of the Western Theater of operations, I would be sitting in the military camp of the Western Theater of operations. I would be at the border, waiting for my army to be destroyed in the Eastern Theater of operations. Then, a famous person would start a great war between the two zones. In the end, the ruler of the Nirvana stage would be alarmed. He would smile as he watched the Eastern Theater of operations being wiped out. The Western Theater of operations would take over the eastern theater of operations effortlessly.”

“Yes, that’s about it. Do you need me to explain it in detail?”

Ye Mingxuan broke out in cold sweat and stammered, “Don’t... Don’t say it. I’ll think about it myself.”

This guess was a little too bold, but it was precisely because of this boldness that there was a chance of success.

Others might not have the guts to sacrifice an entire battle team, but what kind of person was the commander of the Western Theater of Operations?

Would he care about the lives of the soldiers?

Thinking back to the commander of the Western Theater of operations, he was not worried about being ambushed at all. Instead, he swaggered along the original route, which further confirmed this guess.

Chapter 2018 Lightning Struck

Thinking up to this point, Ye Mingxuan felt a chill down her spine.

She turned on her communication device again and said solemnly, “All troops retreat! Make a detour back!”

Three days later, the army sped up and returned to the barracks.

Half a day later, the West Warzone Army arrived.

However, it was exactly as Su Yu had predicted. In the command ship, it was not the West Warzone Commander himself, but his assistant!

Ye Mingxuan was secretly shocked. What a close call!

The commander-in-chief asked, “Where is your commander-in-chief?”

The assistant replied, “The commander-in-chief had something to do and returned to the barracks at the last minute. He asked me to tell commander-in-chief long that commander-in-chief long must give an explanation regarding the assassination of Chen Tianqing!”

Long Lan was also secretly worried. Fortunately, Su Yu had appeared in time. Otherwise, she would have fallen into the old thief’s trap.

He was about to stubbornly refuse when suddenly, Su Yu’s voice sounded in his ears, “Why don’t we suggest that the two commanders meet at the border and discuss this matter together?”

Long Lan glanced at Su Yu from the corner of her eyes and thought to herself, this time, it was all thanks to Su Yu that he was saved from trouble. Could it be that he had a new plan?

After pondering for a moment, he said, “If you want to explain, you can! Ten days later, we will meet at the border!”

The assistant didn’t expect this and hurriedly avoided the crowd to ask the commander-in-chief of the Western Theater of operations.

Far away in the Western Theater of operations.

At the border, in the military camp.

The other three battle teams of the Western Theater of operations, the civilization near Chen Bing, were densely packed with soldiers who were ready to go.

In the tent, the commander-in-chief of the Western Theater of operations had a grim face. Emperor Chen’s sharp eyes forced the vice commanders and generals to be unable to breathe.

“In the end, I overestimated long Lan’s courage and that female war god. I’m really disappointed that I didn’t choose to take the risk!” Emperor Chen said lightly.

The commanders were also extremely regretful.

They used this sudden incident to create great pressure on the Eastern Theater of operations and even created the illusion that they were about to arrive at the city gates.

It was to make the eastern theater of operations feel uneasy and make them act like they were going to burn their boats.

However, they were unable to attack the battle teams that had entered the eastern theater of operations, making it impossible for them to make a name for themselves.

Right at this moment, Emperor Chen suddenly received an urgent message from his assistant.

After reading it, Emperor Chen fell into deep thought and his eyes revealed confusion. "What is long Lan's intention in proposing the border talks?"

No matter how he looked at it, he could not understand that the talks between the two sides would be of any benefit to long LAN.

On the contrary, if they were to negotiate face to face, Emperor Chen would be able to suppress the other side with his imposing manner and obtain a greater advantage.

"We agree to the talks." After a short thought, Emperor Chen said decisively.

Eastern Warzone.

After receiving a positive reply, Long Lan's assistant Qiao Long and the assistant of the commander-in-chief of the western Warzone came up with a detailed plan.

Both sides agreed to head to the border to negotiate ten days later.

The next day.

Long Lan, Ye Mingxuan, and the two battle teams headed to the West Warzone with great momentum.

Su Yu also went with them.

"Why did you request for a meeting between the two commanders?" On the way, Ye Mingxuan asked curiously.

Su Yu smiled without saying anything and said, "You'll know when the time comes."

After a boring march, they finally arrived at the border of the East Warzone on the Tenth Day.

Both sides sent their respective delegations to the civilization talks that were the dividing line.

Emperor Chen and his delegation arrived first and sat down in the civilized plain.

Long Lan and the others followed closely behind.

"Commander long, long time no see!" Emperor Chen smiled and shook hands with them as if nothing bad had happened.

Long Lan was also calm and composed. "Long time no see, your body is as good as usual."

The two seemed to be shaking hands, but in fact, they were secretly competing.

"Please take a seat!" Long Lan said.

After both parties sat down, the smile on Chen Huang's face disappeared, revealing a bit of coldness. His face changed as if he was flipping a book. "Commander Long, my son was assassinated in your Eastern Theater of operations. What kind of explanation are you prepared to give me?"

Behind him was Chen Tianqing, who was missing an arm. His face was full of grief.

When he glanced at Su Yu and Ye Mingxuan, who was next to him, anger flashed in his eyes.

“According to our investigation, although there was a riot in the wine hall, Mr. Su from the Eastern Theater of operations was not the one who attacked the people. Other than Chen Tianqing and his bodyguards, there is no other proof that Mr. Su was the one who attacked the people,” Long Lan said calmly

Chen Huang snorted coldly. “What a joke! The son of the Grand Commander of the Western Theater of operations would slander an ordinary person for no reason?”

On this point, Long Lan chuckled. “Hehe, Mr. Su is not an ordinary person. To be honest, he is a powerful martial artist from the ancient martial arts civilization.”

Hearing this, Chen Huang, Chen Tianqing, and even the generals of the Western Theater of operations were stunned.

“Ancient martial art practitioners? Are they very special? Can they be used as proof to clear the suspicion?” Emperor Chen asked three questions in a row.

Long Lan smiled but did not say anything. She did not say anything else.

Su Yu sat still and said calmly, “If I wanted to assassinate your son, 10,000 of him would be turned into ashes. How can I lose just one of his arms and return in failure?”

Emperor Chen did not look at him at all. He only looked at Long Lan and said, “Commander Long, it’s better for us two commanders to not interrupt a conversation between insignificant people.”

“I think it’s better for Commander Chen to show some respect to Mr. Chen.”

“Hehe, is that so?” Emperor Chen completely ignored Su Yu and did not even bother to look at him, showing his toughness.

Su Yu smiled faintly. “Of course it is.”

He did not make any movements, but a hint of panic suddenly appeared on Emperor Chen’s face. His head turned uncontrollably toward Su Yu, and he was forced to look at Su Yu with his eyes.

“I feel that when someone is talking to you, looking into his eyes is the most basic form of courtesy,” Su Yu said indifferently.

Emperor Chen was shocked. He said, “What did you do? Is it the latest weapon developed by Your Eastern Warzone?”

It could actually force a person’s body to act against their will!

“You can think so, but I prefer to call it a divine art,” Su Yu said.

At this time, Emperor Chen felt the invisible power dissipate, but he did not dare to underestimate this so-called martial artist anymore.

“That doesn’t prove that your little divine art has the ability to kill my son easily.” Emperor Chen certainly knew what happened to his son’s injury, but no matter what, he had to insist that it was what the other party said.

Su Yu’s gaze was indifferent as he said, “Then what kind of divine art do you think has the ability to kill your son?”

Chen Huang chuckled. “At least something like five lightning strikes, right?”

The many generals behind him laughed loudly.

“What ancient martial arts civilization’s martial artists? I’ve never heard of them. I have no idea what they are.”

“Just a little trick. I thought I was really some god.”

Even with the ability of a martial arts civilization, they were still unable to interfere with the lightning in the natural world, let alone a weirdly dressed person.

Su Yu was not angry. He said with some nostalgia, “Lightning, it’s indeed been a long time since I’ve used it. I’m a little rusty. I don’t know how to use the five lightning strikes, but I should know a little about the divine arts.”

Seeing him sitting steadily in his seat, he stretched out his hand and snapped his fingers at the sky. He said indifferently, “Lightning!”

Boom! Boom! Boom! Boom

Instantly, the sky above the entire civilization was covered by a thick layer of dark clouds.

The Sky, which had been sunny a moment ago, turned dark in an instant.

Bolts of purple, red, and Black Lightning flashed continuously in the clouds, exploding with continuous thunder that shook everyone’s eardrums.

The mighty might of the heavens made everyone present scream in fear, as if the civilization was about to be destroyed.

The timid ones had already lost their legs and could not sit still. They slid down from their seats.

Even Long Lan and the others on their side were frightened by the might of the heavens that could destroy the world. Their hearts were filled with fear.

Then... was it really possible for a human to do it?

Although ye Mingxuan was mentally prepared, she was still deeply shocked. Deep in her eyes, there was a deep yearning.

Was this the true strength of a martial artist?

With a single glance, he could command the divine lightning of Heaven and earth!

“Run!” Among the generals behind Emperor Chen, there was finally a timid general who could not bear the psychological pressure. He screamed and turned around to flee.

Even Emperor Chen’s heart was trembling. His entire body could not help but tremble. He had the intention to escape.

Boom Boom Boom --

At this moment, tens of thousands of bolts of lightning descended with a straight rumble. They were densely packed, illuminating the entire world until it was dazzling.

In everyone’s eyes, there was only the lightning that could not be extinguished, as well as the scorched aura of the earth that had been destroyed by the Lightning.

A moment later, the Lightning had completely descended.

The Sky regained its light, and the entire world was unprecedentedly quiet.

Other than the scorched earth, which was emitting sizzling sounds, there was no other noise.

Everyone was petrified on the spot.

That was because what appeared before their eyes was a terrifying scene that they would never forget for the rest of their lives.

Apart from the three hundred meters around them, as far as the eye could see, all the way to the end of the world had been blasted apart by the Lightning.

The entire ground had been blown away three hundred meters deep.

Their eyes were filled with burning branches and withered leaves, as well as a pungent, burning aura.

“You... You Are... God!” Emperor Chen stood up, trembling. His gaze towards Su Yu was filled with endless fear.

Long Lan and the others were also trembling, treating him as if he was a god.

Su Yu stood up slowly and said indifferently, “Using such a cheap term to describe me as a god is a little impolite.”

A true God realm was probably as insignificant as dust to an emperor realm.

He looked at the Trembling Chen Tianqing. With just a glance, Chen Tianqing couldn’t stand and fell to his knees.

“Now, do you still think that I will fail to assassinate you?” Su Yu said with his hands behind his back.

Everyone knew that there was no need to assassinate him. Even if he was hiding among thousands of soldiers, Su Yu’s words could still turn him into ashes.

“Father, save... Me!” At this moment, Chen Tianqing no longer had the arrogance to look down on him?

With a hoarse voice, he asked Emperor Chen for help.

However, Emperor Chen was also trembling. He reached out his hand to Su Yu and said, "Mr. ... Mr. Su, please don't take this misunderstanding to heart."

Su Yu put his hands behind his back and had no intention of shaking hands with him.

How could he shake hands with Su Yu?

"What if I take it to Heart?" Su Yu asked coldly.

Chen Huang's heart trembled. He turned to look at his son and said, "Tian Qing, why aren't you apologizing to Mr. Su?"

Su Yu's eyes turned colder. "Don't tell me you think I came all the way here just to apologize?"

Chapter 2019 Temporary Mutiny

Chen Huang's heart sank and he asked, "Mr. Su, what do you want?"

Su Yu looked at Chen Tianqing calmly and said, "Since you like to cut off one of your own arms so much, why don't you do it again?"

Hearing this, Chen Tianqing's face trembled.

The reason why his arm was cut off was because of the advanced technology of the Western Theater of operations. It was painless and painless.

Moreover, he would be able to reattach his arm after a month without any sequelae.

How could he have the courage to break another arm in front of him?

If he couldn't reattach his arm in the future, he would be a cripple for the rest of his life. This was only one of the reasons. How could a playboy like him bear the pain of losing his arm?

"Father!" Chen Tianqing looked at Chen Huang for help again.

However, the latter's expression was calm. He took out a laser knife expressionlessly and said, "Tianqing, you should pay the price for offending Mr. Su!"

"Clench Your Teeth!" Chen Huang held the long knife in his hand and slashed across the air.

A brilliant laser cut through Chen Tianqing's left right arm.

Ah!

Chen Tianqing immediately screamed in pain and fainted on the spot.

"Carry him away!" Emperor Chen waved his hand.

Immediately, a soldier carried Chen Tianqing away for emergency treatment.

"Are you satisfied, Mr. Su?" Emperor Chen bowed and asked with respect in his eyes.

Although Su Yu had clearly heard the endless hatred and killing intent in Emperor Chen's heart, Emperor Chen did not show any disrespect on the surface.

Su Yu turned around and looked at Long Lan and the others, saying, "The matter has been settled. Go back. I will teach martial arts in peace before I leave."

The speaker did not mean what he said, but the listener did.

Emperor Chen's heart moved, and he said, "Mr. SU, may I ask if martial arts is only taught to the East Theater of Operations?"

"Yes, is there a problem?" Su Yu looked at him.

Emperor Chen's eyes turned around, and he said, "I wonder what price the East Theater of operations has to pay to be able to invite Mr. Su."

Hearing this, Long Lan and ye Mingxuan's expressions changed slightly.

However, due to Su Yu's presence, it was not convenient for them to refute.

"A thousand giant warships," Su Yu said lightly.

Long Lan secretly thought that it was not good. They had clearly offered su yu a hundred warships.

Right now, Su Yu wanted to raise the price from the ground up. He had the tendency to lean toward Emperor Chen's Camp!

Emperor Chen nodded secretly. If such a powerful god was willing to pass down the same powerful martial arts, a thousand giant warships might not necessarily be impossible to exchange.

"Our Western Theater of operations is willing to use double the number of warships to invite Mr. Su to our Western Theater of operations to teach US martial arts!" Emperor Chen gritted his teeth and said.

Not Giving Long Lan and the others a chance to speak, Su Yu said, "If your Western Theater of operations wants me to teach you five martial arts, at least 10,000 giant warships."

"1... 10,000?" Emperor Chen sucked in a breath of cold air. So many warships were almost three-fourths of his number.

"If you think it's too much, then forget it!" Su Yu said indifferently and turned around to leave.

Long Lan and the others heaved a sigh of relief. Fortunately, Su Yu did not intend to teach them martial arts sincerely.

"If Mr. Su can guarantee that they have one percent of Mr. Su's strength just now, I will agree." However, Emperor Chen was unusually decisive.

He could see that the martial arts and Divine Arts were terrifying. They were much more powerful than the martial arts system that they had before.

One person was comparable to thousands of giant ships. If he could create more than ten martial artists, this deal would not be a loss.

"I personally trained them. How could their strength be only one percent of mine? They are the same as my strength!" For Su Yu, it was not difficult.

As long as he could select some of them who had reached the level of the three crowns, he could teach them some basic usage of the prehistoric power. They would be much more powerful than the Thunder just now.

“Really?” Emperor Chen was excited. “I agree! How about we sign the agreement now?”

Su Yu said, “No problem.”

He smiled and walked into the camp of the Western Theater of operations.

Long Lan’s pupils constricted. She had not expected this.

Su Yu was clearly here to help them hold the line, but in the end, he betrayed them at the last minute. It could not be said that he betrayed them, but he joined the enemy camp.

Ye Mingxuan’s heart trembled in relief. She stared at Su Yu in disbelief as she signed the agreement with him.

The tall figure in her mind quickly blurred.

Was He... Such a person?

It turned out that she had never understood him!

As long as the interests were suitable, she could give up everything?

She recalled the two months they had spent together, recalled the scenes between them, and felt that everything was not real.

“Mr. Su, we have an agreement,” Long Lan said hurriedly.

If Su Yu taught martial arts to the Western Theater of operations, it would undoubtedly be a disaster for the Eastern Theater of Operations!

After Su Yu signed the agreement, he turned around and smiled faintly. “I’m sorry, Commander Chen’s conditions are better.”

Long Lan clenched her teeth slightly and said in a low voice, “Vice Commander Ye, please say something. You two are so close...”

“Good? I don’t think so.” Ye Mingxuan’s face was cold. She regained her usual coldness and said, “People go higher and water flows lower. Why do we have to force people to do this?”

She turned her head and didn’t look at Su Yu anymore.

No one knew how lonely she felt at this moment.

For a moment, she thought that she had fallen in love with someone.

It turned out that it was just an illusion.

Darkness, bitterness, disappointment... all kinds of emotions were mixed together and filled her heart.

The sense of fulfillment from the past two months disappeared in an instant.

“Vice commander ye is very sensible, Hehe.” Su Yu smiled and said, “Commander Chen, let’s go. Show me around the Western Theater of operations.”

Emperor Chen was overjoyed. He led the generals and praised Su Yu for boarding the warship and sailing into the vast Western Theater of operations.

Long Lan was stunned for a long time. The generals who followed him also felt disappointed, stunned, and uneasy.

Mr. Su had joined the Western Theater of operations. What should they do in the future?

“What an unforgettable meeting.” Long Lan looked up at the sky and sighed bitterly.

He still did not understand why Su Yu asked for a meeting between the two commanders.

So, it was here!

He wanted to show Emperor Chen his martial arts so that he could ask for more benefits.

The eastern Warzone had just been wiped out by the Star Dream Chamber of Commerce. There were no more than 10,000 giant warships, so they could not compete with the western Warzone.

“Let’s Go!” Long Lan looked at Ye mingxuan, who was facing away from the crowd.

He knew that Ye Mingxuan should be more disappointed than everyone else at this moment.

Western Theater of operations.

Compared to the Eastern Theater of operations, the civilization in the Western Theater of operations was obviously more advanced, producing many advanced technologies.

Su Yu was not interested in these things, he said, “Let the ten people with the highest awakening power in your camp come out. I’ll teach them first, and then they’ll teach the rest! HMM, you can also come and bring your son along.”

Emperor Chen was overjoyed when he heard that.

“I will make the arrangements now. I will find someone for Mr. Su before today.”

His efficiency was quite high. At night, he selected ten people who had reached the level of four crowns with the prehistoric power!

In addition to Emperor Chen and his son, there were a total of twelve people.

However, Chen Tianqing was lying on a stretcher and could not move.

Emperor Chen was full of anticipation, but the rest of the people did not understand what the so-called divine art was. They were completely confused.

“I know what you are thinking. Before formally explaining the divine art, I will first demonstrate it to you.” Su Yu pointed at Chen Tianqing who was on the ground, he said, “Can your most advanced technology make something out of nothing and make a person who has lost an arm grow an arm again?”

Of course not!

Everyone looked at each other curiously. If it was a broken arm, the current technology could still do it.

However, making something out of nothing did not conform to the theory of the technology they were researching.

“Then, divine arts can do it!” Su Yu pointed at Chen Tianqing’s arm that had just been cut off.

What shocked everyone was that countless blood vessels, bones, and flesh could be seen on his arm. A mythical image of an arm being reassembled came into view.

“Ah! How is this possible? What kind of technology is this?”

“How can a person grow a brand new arm out of Thin Air?”

..

The ten people were completely shocked.

Su Yu said indifferently, “I’ll repeat it one last time. This is a divine art, not a technology that is deeply ingrained in your minds.”

“Divine art...”

“What is a divine art?”

Su Yu said, “Divine art is what I’m going to give you next. From now on, within a month, you will be cut off from all contact with the outside world. Listen to my lecture.”

Under the arrangement of Emperor Chen, the twelve of them began to isolate themselves from the outside world.

Su Yu explained the theory of martial arts to them in detail, and gradually guided them to learn how to use the “Awakened power” in their bodies to perform various divine arts.

The entire process was carried out in an orderly manner.

After a month, the twelve of them had basically learned the basic control of power.

This included flying at high speed, using the power of desolation to make moves, and performing the basic divine arts.

Su Yu had no way of teaching more profound laws that required his own comprehension.

“From now on, you can choose your own successors and pass on all your knowledge.” Su Yu seemed to have a deeper meaning. “During this period of time, don’t look for me for anything. Even if you look for me, it’s useless!”

“Yes! Mr. Su!”

They didn’t quite understand what Su Yu meant at the moment. What did he mean by not looking for him for anything.

Could it be that something was going to happen?

However, no matter what, everyone had received the power of a god, and their mentality had undergone a drastic change.

Emperor Chen said, “I will mobilize 10,000 soldiers who have reached the high-level of awakening power. Each of you will lead 1,000 soldiers. You must train them well. Do you understand?”

“Understood!”

Emperor Chen revealed a deep ambition. His current strength was comparable to what Su Yu had displayed that day.

If there were ten thousand such soldiers, then what was the Eastern Warzone? What was the northern and Southern Warzone?

Even the Nirvana stage higher-ups who ruled them, what was it?

He would eventually become the ruler of the entire civilization department!

After respectfully sending Su Yu off, Chen Tianqing clenched his powerful fists, his heart rippling with endless excitement.

He stared in the direction Su Yu had left, he said, “Father, as the saying goes, when the bird is fully bent, the bow is hidden. When the rabbit is dead, the dog is cooked. Su Yu has been suppressing us for a day. In the future, the martial artists that are born only know about Su Yu but not us, father and son. This is not a good thing.”

Even though he had benefited from Su Yu’s lecture and had become a martial artist, he had never forgotten the hatred of taking away ye Mingxuan and the pain of losing an arm.

In the past, he did not dare to imagine revenge. But now, they had the same power as Su Yu. Why should they still bow down to him?

Chen Huang’s gaze was distant, he said indifferently, “You have such thoughts. Doesn’t father have any? “However, Su Yu must not have taught us everything. He must have hidden other powers. We are definitely not his match now! “However, if we nurture tens of thousands, hundreds of thousands, millions, or tens of millions of martial artists, can Su Yu stop so many people?”

Chen Tianqing’s eyes flashed with hostility. “HMPH! Then let him live for a while first! When we have enough power, we will definitely make him grovel at our feet! I will also let him watch in person as his woman falls into my hands!”

He thought of ye Mingxuan and his lips curled into a cold smile.

Chapter 2020 Return To The Outside World

Su Yu left the military camp and came to the most core research and development center of the Western Warzone.

Other than mecha, Su Yu was naturally most interested in the mysterious medicine.

Something that could allow the ‘power of awakening’ to evolve!

Only Su Yu understood that the medicine they were developing was very likely something that could improve one’s cultivation.

With Su Yu’s identity, there was no obstruction in entering the research and Development Center. Even the core items could be freely visited.

Their medicine was divided into nine levels.

The highest level of medicine was called the death medicine. It could allow a three-tiered emperor to break through to a four-tiered emperor.

However, the failure rate was extremely high. It was as high as 90% . Once it failed, death would appear!

Those who could eventually become the four crowns were extremely rare.

However, only Su Yu knew how shocking this medicine was.

In the ancient martial arts civilization, the probability of a three crowns breaking through to the four crowns was less than 1% . The vast majority of the three crowns would remain at this realm, and it would be difficult to break through for their entire lives.

Only a few people with strong luck would be able to find their own opportunities to break through to the four crowns.

The success rate of 10% of the drugs at the moment, if placed in the ancient martial arts civilization, could be said to be earth-shattering. It would definitely be snatched away by someone.

“Level nine drugs, how much stock do you have, and how many can be produced within eight months?” Su Yu asked the person in charge of research and development.

“There are only 9,000 in stock, and you can produce 1,000 within eight months. However, who are you preparing to use it for, Mr. Su? Before the lifespan reaches, very few people are willing to try,” the person in charge said tactfully.

The understanding of the a martial civilization towards the power of awakening was only limited to the higher the awakening, the longer the lifespan.

If one was not absolutely sure, very few people would be willing to try a level nine medicine.

“Okay, give me ten first.”

The person-in-charge did not dare to refuse and immediately gave ten.

Su Yu found a quiet room and immediately began to study the level nine medicine, not paying any attention to the outside world.

Eight months passed.

The martial arts teaching in the entire western Warzone was in full swing. A million people had successfully received the martial arts basic training.

The lowest of them had the cultivation of an overlord, and the highest was a quadruple crown prince.

The huge army of martial artists in front of them had perfectly met the requirements of Emperor Chen and his son.

However, they were not in the mood to find trouble with Su Yu. Instead, they repeatedly came to Su Yu for help, but Su Yu avoided them.

This was because among the first twelve students, one of the most powerful generals at the peak of the four crowns had led an army of 100,000 to defect!

That general realized that his strength far exceeded emperor Chen's. Why did he still continue to be loyal to him?

The teaching of martial arts foundations not only changed the way the western Warzone Army fought, it also severely impacted the power system.

In the past, it was above military power, but now, strength was the most important thing!

His betrayal indirectly led to the betrayal of the generals of the seven four crowns. Each of them had their own territory and were trying to become the overlord of the Western Warzone.

Emperor Chen and the few remaining followers had no choice but to encircle the eight rebel generals.

At first, they could still suppress them.

But later on, they formed an alliance in twos and threes and actually formed a confrontation with Emperor Chen.

The entire western Warzone was filled with fire and ice, and it was chaotic.

Not only did emperor Chen not dominate the civilization system, but he couldn't even defend his base.

The Civilization that the western Warzone had painstakingly built was even shattered by the terrifying divine arts and destroyed in an instant.

Even if Emperor Chen reunified the western Warzone, the prosperity of the past would be gone forever.

As the initiator, Su Yu was analyzing the level-nine medicine in the secret room.

He didn't ask about the outside world because everything was within his expectations.

"Now, I only need to verify one thing." Su Yu looked out of the sky and then looked at the level-nine medicine in his hand.

After a year of research, he already had some clues.

He was thinking of ways to improve the ingredients that could kill people and try to reduce their negative effects.

After studying them for a few more years, he estimated that he would be able to optimize them in the way of martial arts.

“Now, it’s time to return to the ancient martial arts civilization.” Su Yu took out a ship ticket. There was a hint of nostalgia on his face as he said softly, “Goodbye, take care.”

He seemed to see a valiant female God of war standing on the black starship, commanding the invincible battleship from afar and battling in the galaxy..

As soon as he finished his words, he disappeared like air and was never seen again.

At the same time, an extremely serious theft had occurred in the R & D Center of the Western Theater of operations.

The Level-9 drugs in the warehouse, together with the 1,000 newly developed tubes, had all been stolen.

The strong defense of the treasury was almost useless. Even the alarm had not been triggered.

Two months later, a huge passenger ship with ‘time’ carved on its body flew over the western theater of operations and slowly flew toward the center of the civilization department.

A figure silently flew into the cabin.

Standing on the top of the passenger ship, Su Yu looked down at the Western Theater of operations, which was covered in smoke, and waited quietly.

One month later, when the time was about to leave the western theater of operations, Su Yu suddenly opened his eyes and gazed deeply into the depths of the western theater of operations.

However, terrifying giant palms appeared without any warning and slapped toward the Western Theater of operations.

In an instant, millions of warriors in the entire western Warzone were turned into ashes.

Including Chen Huang, Chen Tianqing, and the ten first batch of warriors, all of them were wiped out.

Those who had cultivated the martial arts foundation could not escape this disaster.

The western Warzone in the chaos of war fell into a long-lost peace and quiet.

“We meet again.” Su Yu stared at the giant palm that covered the sky. His eyes were calm and there was no fluctuation in them.

He had never been a person who would forget righteousness for the sake of profit. There was a reason for him to enter the Western Theater of operations from the Eastern Theater of operations.

Back then, Long Lan had accidentally arrived at the ancient martial arts civilization, but she was still forcefully brought back to the armory civilization and had her memory erased.

It was enough to see that there was an invisible giant hand in the armory civilization that was cutting off the communication between the two civilizations.

Therefore, he had always been wondering if it was appropriate to teach the eastern theater of operations the basics of martial arts.

Coincidentally, the West Warzone had recklessly provoked him, so he played along and used the West Warzone as an experiment.

If he could practice martial arts, no one would stop him. He would teach the east warzone a higher level of martial arts basics.

But now, it seemed that his worries were correct.

This civilization indeed had a will to prevent the a-grade martial arts civilization from developing into martial arts.

Anyone who practiced martial arts would be mercilessly wiped out!

Staring at the road ahead, Su Yu shook his head. "I can't go to the temple of Huangdao anymore."

Since he had confirmed the existence of this invisible hand, going to the temple of Huangdao was equivalent to courting death!

Sighing silently, he took out a talisman and activated it. A huge warship appeared.

Jumping off the epoch, Su Yu boarded the warship and headed in another direction.

Ten years later.

At the end of the civilization system.

A space storm that blotted out the sky wreaked havoc at the edge of the four major civilization systems.

This was the absolute barrier that isolated the armor-based civilization from exploring the outside world.

The space storm was extremely destructive. Even the most advanced warship of the armor-based civilization could not withstand the tearing of space and would be crushed by the power of space in an instant.

In front of this destructive space storm, a giant warship slowly sailed over.

On the giant ship, a silver-haired youth stood with his hands behind his back.

Facing the terrifying space storm, his eyes were calm as he nodded slightly. "It was worth it for me to give up on the Daoist Yellow Hall and come to the border to take a look."

If he took the epoch, he would only need a few years to reach the Daoist Yellow Hall of lightning immortal.

However, he could sense the great conspiracy of the armory civilization. He was extremely vigilant against the Daoist yellow hall and chose to come to the border to take a look.

Fortunately, for the people of the A-wu civilization, these space storms were impassable. However, for Su Yu, who grasped the spatial laws, they were not dangerous.

Putting away the giant ship, Su Yu leaped into the space storm.

Wherever he passed, the space storm made a path for him to pass through.

After traveling for an entire year.

Suddenly, a long-lost aura surged into his heart.

He took out the seal and released the battleship.

Before the storm could break it, he flew out instantly.

A vast, pitch-black nothingness surged into his eyes.

He looked at a small civilization not far away.

His powerful soul scanned through the ancient shops, groups of warriors cultivating hard, the thick spiritual herbs, and the divine aura..

The familiar scene, the familiar aura, and everything else.

“I’m finally back!” Su Yu took a deep breath. After fifteen years, it was just like a dream.

He looked behind him and saw a spherical space storm that radiated an endless area. It was quietly spinning in the void and moving further away.

Su Yu watched it, leaving his sight bit by bit. Finally, it turned into a speck of dust and disappeared into the void.

“Goodbye!” Su Yu said softly.

Inside the armory civilization.

The massive battleship of the Star Alliance Chamber of Commerce was gathered in a huge ruin floating in the void.

It was an ancient-looking palace. It was extremely huge, comparable to a small civilization.

The palace seemed to be made of ordinary green bricks and tiles. However, the Star Alliance Chamber of Commerce’s attacks over the past fifteen years had not damaged the palace in the slightest, not even a single tile.

The door of the palace was even more tightly shut, and it had never been opened in the slightest.

However, on this day, the door of the palace opened silently!

The three Vice Commanders of the Star Alliance Chamber of Commerce were deeply shocked, and hurriedly gave the order.

“Everyone, get ready to enter.” Instantly, hundreds of millions of small-scale flying mechs flew down from the thousands of huge ships, rushing toward the slowly opened huge door like a dark tide.

However, at this moment.

A feminine man with a plum blossom mark on his forehead walked out from the door.

His pair of dim yellow eyes emitted a faint pressure, but there was no fluctuation from his entire body.

If Su Yu was here, he would definitely be able to recognize that he was the feminine man who had accompanied Qing Yun in the purple lizard civilization.

It was him who had crushed the purple lizard civilization with a speck of dust from the sacred mountain.

It was he who had led Su Yu and the others to cross-civilization teleportation and end up in the armory civilization!

As soon as he appeared, his yellow eyes glanced at the Star Alliance Chamber of Commerce members who were swarming toward him like a tide. He snorted and said, "Ants."

As soon as he finished his words, an invisible shock wave swept out in an arc.

All the living beings were instantly annihilated into dust!

The tens of thousands of huge ships were also annihilated into particles and scattered in the void.

The entire void fell into silence.

The feminine man had an unhappy expression and said indifferently, "Four pieces of trash actually allowed martial arts to flow into the third pilot, almost destroying the pilot!"

After he finished speaking, he stepped into the void.

He was completely unafraid of the power of the void and walked within.

He walked faster and faster until he disappeared into thin air.
