

Nine-Dragon 2041

Chapter 2041 A Disgrace

Luoshen's beautiful brows twitched. She could sense that the heaven crippling dao master intended to help Su Yu.

If he really displayed the strength to enter the top ten, then she would be able to confirm Shi Jun's report.

But since the Heaven Crippling Dao Master personally spoke, she didn't dare to refute and could only think about it.

The matter was slightly out of her expectations, but it was still within her control.

"If you want to prove that you have the strength to enter the top ten of the Eastern Region, then you have to at least defeat the person ranked tenth." The Crippled Heavenly Dao master said slowly.

Everyone nodded. Actually, just defeating the person ranked tenth wasn't enough.

Because if they were to narrowly defeat the person ranked tenth, it could only be said that the strength of the two was about the same. It was very normal for Luoshen to misjudge.

"Of course, you can choose someone ranked higher to challenge." The Crippled Heavenly Dao master added.

Su Yu raised his eyes and looked at the ten people acknowledged by Luoshen.

His gaze swept past ou ye Huanyun, who was ranked tenth.

At this moment, ou ye Huanyun was looking at him with a puzzled gaze.

He had never expected the scene before his eyes.

Shi Jun actually shouted injustice for Su Yu?

With Su Yu's true strength, he wasn't even comparable to Shi Jun, right?

What injustice was there?

He said, "Brother Su, if you want to challenge me, I can accompany you. It's good that we couldn't have a spar then. It's also good to have a spar at the Daoist conference today."

Su Yu smiled and shook his head. His gaze passed him and fell on Li Ruochen, who was in ninth place.

At this moment, Li Ruochen was sizing him up with a puzzled gaze.

It was very strange. He had clearly reported that Su Yu had set up the residence of a clear mind and had ill intentions. Not only was he safe and sound, but he was especially protected by the Crippled Heavenly Dao Master?

However, he noticed that Su Yu was staring at him, he could not help but reveal a sinister look. "I advise you to be down to Earth. The outcome of aiming too high has never looked good. Since you

don't have a life in the top 10, why don't you just settle down and get eliminated? Why do you have to jump out..."

"I'll take you," Su Yu said faintly.

Hearing this, Li Ruochen laughed in anger. He really dared to challenge him.

Immediately, a trace of coldness flashed across his face. "That's good too. I've long wanted to give you some personal guidance. Unfortunately, you always like to hide behind others."

Taking a step forward, Li Ruochen walked out and said with his hands behind his back, "I'll give you three moves! If you touch my sleeve, count it as my loss!"

His tone was very arrogant, but in the ears of the onlookers, it felt natural.

"Those who are ranked below 80 on the Huang Dao board are indeed qualified to say such words."

"That person named Su Yu has chosen a person who shouldn't have chosen!"

"However, if he can defeat Li Ruochen, then it really shows that Su Yu has absolute strength."

The Crippled Heaven Dao master calmly said, "Prepare for a battle."

Su Yu nodded and walked to the center of the arena.

He stretched out his palm and held the Shura Sword in his hand.

Ou Ye Huanyun stared at Su Yu's sword and felt that it looked familiar. At the same time, he said in surprise, "Strange, doesn't brother Su practice the physique? Does he also know how to use a sword? I've never heard him mention it before!"

He thought to himself, "Sword techniques should be Su Yu's minor practice, right? Its power is not that high. His chance of winning this battle is very slim, even if he is defeated by Li Ruochen in three moves."

The two stood in the center of the arena.

Li Ruochen put his hands behind his back and said indifferently, "Attack. Remember, I'll only give you three moves!"

Su Yu didn't say a word. His eyes gradually became sharp, and the Shura Sword in his hand suddenly swung out.

"Heaven Burial!"

As the sword was swung out, it seemed as if the world had collapsed, and endless terrifying sword Qi was destroyed.

The entire audience was shocked.

"What exquisite sword techniques! Even someone at the peak of the mid-stage of the four crowns emperor realm would be killed with a single slash!"

“Strange! The power of this sword is even weaker than ye Minghua, who is ranked fifth in the eastern region. Luoshen actually eliminated him!”

“What’s so strange about that? Didn’t you hear what Shi Jun Said? She couldn’t get the destiny token, so she eliminated Su Yu maliciously.”

“There’s such a thing. I really didn’t expect Luoshen to be such a despicable person despite her cold and elegant appearance.”

“Hehe, you can’t judge a book by its cover! There have been rumors about her since a long time ago. However, because of her fame and beauty, no one is willing to believe it.”

The people below the stage discussed animatedly with calm expressions.

However, Li Ruochen’s proud face was instantly replaced by fear and shock.

The power of this sword was not something a person at his level could withstand.

In a panic, he immediately put down his hands behind his back and used the power of desolation to form a shield. At the same time, he hurriedly used the rule chain to resist.

Kacha --

The chain was struck back by the sharp sword Qi, and the power of desolation on the surface of its body was instantly destroyed.

Puchi --

The Sword Qi entered his body, and his body was directly crushed. Only one soul escaped.

Everything happened too quickly, and no one had the time to stop it.

Or, those who had the ability to stop it just stood by and watched.

For example, the ten people on the high platform, including the crippled Zen master.

Zhang Weining, in particular, looked at Li Ruochen’s shattered body indifferently, but he had the intention to stop it. There was a hint of contempt in his eyes.

He and the crippled Zen master did not help him. It was a punishment for him to report Su Yu.

Li Ruochen had suffered the consequences of his own actions.

If he had not reported Su Yu and left a bad impression on Zhang Weining and the crippled Zen master, they would have helped him.

Li Ruochen’s body was shattered. His soul roared in anger and grief, “Su Yu, you... How dare you destroy my body?”

Although he could be reborn with blood, his cultivation would be greatly reduced.

Not to mention that he could not continue to participate in the conference of the Yellow Road, even if he could practice back to his current cultivation in the future, it was still uncertain.

In fact, his identity as the heir of civilization might even be taken away.

His entire life would be destroyed!

Su Yu was slightly stunned. He did not expect that no one would save him.

In such a situation, the people of the Daoist Huangdao temple should be the ones to save him.

However, Su Yu did not feel any psychological burden. If Li Ruochen was not so conceited and was a little more serious, he would not have been caught off guard and his body would not have been destroyed.

Looking at his soul, Su Yu pointed his shura sword at him from afar. "This is only one move. You said that you would give me three moves. There are still two moves left."

Hearing this, Li Ruochen was so scared that his soul was about to leave his body. He hurriedly fled and screamed, "Save me!"

Amidst his screams, he ran out of the arena in a panic.

Liu Ruxian saw this and shook her head. "What a disgrace."

She was very glad that she didn't accept this person's pursuit back then. Otherwise, she would have also lost face.

"Wow, I wonder how Luoshen will end up?"

"Hehe, you guys are thinking too much. Luoshen is one of the top heaven's favorites of the four regions. Will she be punished because of such a small matter?"

At this moment, the Crippled Heavenly Dao master looked at Luoshen. "Do you have anything to say?"

Luoshen's expression was calm. "It's my negligence. I apologize."

"Let's talk about this matter after the Yellow Dao convention ends."

As expected, even the crippled Heavenly Dao master decided to turn this matter into a small matter and help him cover it up.

"Now, you are lacking a person. Choose another one."

His meaning was very clear. He wanted Su Yu to join him.

Luoshen paused her head and looked at Su Yu. She said calmly, "Your strength is still alright. Follow me."

After saying that, she turned her gaze away and no longer looked at Su Yu.

Chapter 2042 This Trip Was Worth It

If one were to observe carefully, one would be able to see a faint cold glint in her eyes.

Su Yu had joined her and when it came to the fight for the good fortune, it was extremely easy for him to make things difficult for her.

However, who knew that Su Yu would calmly say, "Supreme-being, can I choose another option?"

Luoshen was stunned and her expression stiffened.

Was he trying to embarrass her in public?

The people from her own region were not willing to join her!

Was it because he could tell that he would not have a good ending?

The heaven crippling dao master asked, "Why?"

Su Yu said, "Because I feel that with Luoshen's strength, she is not strong enough to lead me."

What?

The entire crowd was shocked once again. Su Yu actually said such arrogant words.

"Did I misunderstand? Did he look down on Luoshen's strength?"

"It should be... that's what he meant!"

The ten zone leaders on the high platform were all shocked.

This kid's tone was really too arrogant.

The strength of Luoshen of the eastern region was actually being questioned?

Luoshen's expression returned to its usual calmness as she calmly said, "Frog at the bottom of a well!"

With Su Yu's strength, how would he know the meaning of the words 'Eastern Region Luoshen'?

The Crippled Heavenly Dao master looked at Su Yu and said, "Then do you want to join the other three regions' Prodigies?"

"No!" Su Yu shook his head. "I want to act alone."

Joining anyone would be restricted, so it was not as convenient as being alone.

The Crippled Heavenly Dao master was slightly surprised and said, "Perhaps you don't understand. To enter the blessed realm in the second stage, there are many dangers in this realm. There must be prodigies that are far stronger than ordinary people leading the way. It is very dangerous for you to be alone."

Su Yu did not like to be high-profile, but when it was time to fight for it, he would not back down.

"I don't feel that my strength is weaker than theirs. I can protect myself."

The Crippled Heavenly Dao master was slightly curious and smiled with the vicissitudes of life, "Interesting! Then, are there any of you four regional heaven's favorites who are not convinced?"

The four regions' heaven's favorites did not say a word. Their expressions were indifferent.

It was not that they were convinced, but they did not want to test Su Yu's strength at all.

Who were they? Usually, there were not many of their peers who were worth their time.

Now that they were asked to test a so-called peer, they naturally felt that it was beneath their dignity.

Seeing that no one agreed, the crippled Heavenly Dao master looked at Luoshen and said, "Since he came from your region, you can test his strength."

Luoshen's beautiful brows furrowed. She was a hundred times reluctant.

However, the path master had ordered her to do so.

She walked forward with a hint of disgust. "Attack!"

She silently took out her ancient sword. It was a sword from the Daoist Huang Hall. It was a replica of the Sang Li Sword, one of the nine great ancient swords of the Daoist Huang Hall.

Its power was extraordinary!

Combined with Luoshen's own swordsmanship and cultivation, it was comparable to an existence at the initial stage of the five crowns!

Su Yu held the asura sword in his hand and took a deep breath. His entire body gradually released a sharp aura.

The Asura sword in his hand seemed to move in an ordinary trajectory in the air without any special features.

Ordinary people could only see Su Yu like a newbie in the way of the sword, brandishing the clumsy Asura sword.

However, when he saw this sword, Dao Master Tian can not help but be moved. He muttered softly, "Such deep attainments in swordsmanship. The profundity of this swordsmanship is not inferior to the inheritance of the DAO Master of the way of the Sword!"

Similarly, Luoshen could also sense that this sword was extraordinary. She was a sword cultivator and understood the dao of swordsmanship even more.

Staring at the trajectory of the asura sword, the contempt in her eyes vanished completely. She said calmly, "I didn't expect that you would still be hiding something. However, compared to me, you are still lacking by a lot!"

Her cultivation at the peak of the fourth-crowned Emperor Realm suddenly erupted. She said, "Nine Li Sword Art!"

The sword in his palm split into nine sword shadows, each of which seemed to contain a myriad of worlds and was filled with an extremely profound concept.

The nine sword shadows swept over, making people feel as if they were being suppressed by nine worlds.

The spectators from afar felt as if they were being suppressed to the point of being unable to breathe.

At this moment, the trajectory Su Yu had created was completely formed.

A trajectory that could be seen with the naked eye appeared in a casual manner, as if it was the first crack in the chaotic world when the heavens and earth were split open.

Kacha --

The nine sword shadows that swept through the world trembled under the trajectory, showing signs of shattering.

However, they did not shatter. The nine sword shadows crushed over tyrannically, destroying the trajectory.

Upon seeing this scene, the spectators drew in a cold breath.

“Who exactly is that young man? He can actually contend against Luoshen in Sword Arts!”

The pupils of the wine and Meat Buddha, the monster king, and Yanchen constricted.

When Su Yu said that Luoshen wasn’t worthy of leading him, they didn’t think much of it. In their hearts, they more or less felt that Su Yu was too arrogant.

But when they saw this sword attack, they just realized that Su Yu wasn’t arrogant.

To master such a terrifying sword art was indeed not something Luoshen could lead.

“What a pity. The difference in cultivation is too great. He’s destined to be inferior to Luoshen.”Yanchen shook her head and sighed.

The Monster King and the wine meat Buddha nodded slightly. Su Yu’s sword arts might not be much weaker than Luoshen’s.

However, the difference in cultivation level was too great, resulting in the power of the sword arts being suppressed by one side.

A hint of surprise flashed in Luoshen’s eyes. She calmly said, “So that’s all! I’m more than enough to lead you!”

Su Yu didn’t say anything. Suddenly, an endless amount of evil qi surged within his body. His entire body transformed into the form of a thirty feet tall half-human and half-dragon.

He held the asura sword in his hand and slashed out with a loud bang.

It was the same dangerous trajectory as before. However, the power of this trajectory was much stronger than the previous one.

Bang --

The nine sword shadows that were already showing signs of shattering completely collapsed.

Luoshen’s expression changed drastically. Deep disbelief surged in her beautiful eyes.

After the opponent used a divine art, his strength increased greatly and he was able to parry one of her moves.

Gritting her teeth, she said coldly, “Petty tricks!”

After which, she raised her sword and clashed with the other party.

The two of them exchanged blows in the arena, and frightening sword arts crisscrossed in the air.

The spectators were already overwhelmed with shock.

“Hiss! Even with Luoshen’s full strength, she still wasn’t able to suppress him!”

“What’s his name again? Su... Su Yu? Is there a human civilization with the surname Su in the half-dao civilization?”

“This... even a five-star civilization within the top 1,000 doesn’t have a human civilization with this surname!”

“Then who exactly is he?”

In the arena.

Luoshen was getting more and more shocked as the battle progressed!

She originally thought that Su Yu’s transformation was a short burst of power, but after the time it takes for an incense stick to burn, there wasn’t the slightest sign of weakening.

On the contrary, it was the other party’s sword techniques that were getting more and more fierce. The profoundness of the trajectory made Luoshen’s scalp tingle.

Luo Shen felt extremely humiliated for not being able to win after such a long battle.

As the number one genius of the eastern region, she was actually forced into a draw by an unknown person.

Gritting her teeth, she prepared to unleash her laws and unleash her full strength.

“Enough, Stop!”

The Heaven Crippling Dao master calmly spoke at this moment. An invisible force forcefully separated the two of them.

Luo Shen was extremely unwilling. She took a deep breath. The fullness of her chest rose and fell as she panted.

Her pair of crystal eyes stared unblinkingly at Su Yu. There was unwillingness, shock, and a hint of respect.

Su Yu’s expression was calm. He retracted his evil dragon Nirvana form and transformed into his human form.

The heaven crippling path master laughed loudly for the first time. “This trip was worth it! This trip was worth it!”

Chapter 2043 Sea Of Destiny

Everyone felt envious when they heard the Heaven Crippling Dao Master Laughing.

When he said that this trip was worth it, he naturally meant that his trip to the Yellow Dao convention was not in vain.

That was indeed the case. How could he not feel gratified when he discovered a peerless genius that was comparable to the geniuses of the four regions?

Ou Ye Huanyun’s mind was blank as he fell into a deep daze.

Su Yu, who had accompanied them to the Yellow Dao convention, had always believed that Su Yu, who only had half of his strength, could actually be comparable to the four great geniuses of the Yellow Dao Palace?

He had an illusion that he was in a dream and felt that he was not in the real world.

Even Shi Jun, who had personally witnessed Su Yu's superb swordsmanship, widened his eyes and his face was filled with shock.

He knew that Su Yu had the combat strength to enter the top ten of the eastern region, but he had never imagined that his true strength was comparable to Luoshen herself!

The battle between Su Yu and Luoshen could be said to be shocking.

For countless years, the top geniuses within the area controlled by the Daoist Huang Hall all came from the Daoist Huang Hall.

Only Su Yu broke the rules.

The Crippled Heavenly Dao master smiled and nodded, "Alright! I'll make an exception for you. You can enter the blessed realm alone."

The second stage was to be carried out in the blessed realm.

"Follow me!" Dao Master Tian can opened his mouth and said. Immediately, everyone on the arena was teleported away.

Su Yu nodded slightly in his heart. Not bad spatial attainments.

Unfortunately, he did not cultivate into laws and only stayed at the level of techniques.

Su Yu could do the same teleportation technique more easily and freely.

On the other hand, the others were all shocked.

"Although the Heaven Crippling Dao master has not attained dao through space, his attainments in space should be comparable to those who have attained great success in space laws, right?"

"That might not be the case. Space laws are supreme laws that are above ninth-level laws. It would be extremely difficult to compare with them."

..

With the lingering discussions of the audience, Su Yu and the others had already appeared in an ancient palace complex.

Immortal clouds floated in the air, white cranes flew in the sky, and an ancient feeling of time washed over them.

The grand and Majestic Hall was of a scale rank, and it gave people an endless sense of pressure.

One of the halls was located in the middle of the many halls, and the words "Huangdao" were written on it.

The tens of thousands of halls in front of them were all centered around this hall, giving off a feeling of stars surrounding the moon.

That should be the Huangdao Hall.

However, they did not approach the Daoist Huangdao Hall. Instead, they landed in front of a dilapidated, ancient hall.

There was a lot of wild grass in front of the hall!

No, it was not wild grass. It was a rare treasure that was rarely seen in the outside world. Any one of it could be sold for tens of thousands of dao dollars.

However, in this place, there was only wild grass. No one took care of it.

When they looked at the hall again, it seemed to be in decline and fall.

The stairs in front of the hall were damaged and incomplete. The two stone lions were also covered with traces of time.

When he looked up, a signboard came into view.

On the signboard, there were two powerful words, 'good fortune'.

The words contained an extremely mysterious meaning. Su Yu only took a glance and was immediately immersed in it. He could not extricate himself and could not control his mind as he searched for the mysterious meaning in the words.

Just as his mind was about to sink into it, Su Yu's only rationality told him that he could not continue reading.

He fiercely bit the tip of his tongue. The piercing pain caused him to instantly wake up. He immediately withdrew his gaze and did not dare to look at it again.

"That should be written by the Dao master himself, right? It contains the DAO Master's understanding of the Dao. A single glance from a mortal would definitely cause him to fall into it and be unable to extricate himself," Su Yu thought to himself.

He looked at the people around him from the corner of his eyes. As expected, anyone who looked at the signboard would be immersed in it and unable to control themselves.

What a powerful dao!

Su Yu had experienced the Daoist master's understanding many times in the great void Mystic Palace, but he had never been immersed in it like this.

"Wake up!" Suddenly, the voice of the heaven remnants Daoist master drifted into everyone's ears.

Those who were immersed in it were all startled awake and immediately lowered their heads in fear, not daring to look at the signboard again.

“As expected of Dao Master Creation’s palace. He has been dead for over ten billion years, but the dao intent within his words has not been erased!”

Bai Jianfei said in astonishment.

This palace was the residence of a Dao Master?

Then the tens of thousands of palaces he saw just now were all?

Su Yu couldn’t help but secretly suck in a breath of cold air. Tens of thousands of Dao Masters? Wasn’t the foundation of the Daoist Yellow Hall a little too terrifying?

“It’s a pity that Dao Masters also have lifespans. They all perished in the dust of time, leaving behind only empty palaces.” Bai Jianfei clenched his fists and sighed, feeling regret in his heart.

Ye Minghua said, “Who says it isn’t? The Daoist Yellow Hall has witnessed the rise of one dao master after another, and also witnessed the death of one dao master after another. The tens of thousands of palaces in front of us are more like ancient tombs than their ancestors.”

“Residence?”

Upon hearing this, Su Yu came to a sudden realization.

It turned out that all the palaces had been accumulated over the generations, and most of them were as dilapidated as the great hall of fortune.

There shouldn’t be many dao masters who were still alive.

Dao Master Tian can glanced at the signboard and sighed faintly. “Long time no see, old friend.”

He waved his sleeve, and the doors of the Great Hall of fortune opened. Inside the courtyard, a white-haired old man was playing chess alone.

His expression was serene, and his entire body exuded an indescribable hazy feeling.

At first glance, he looked like a real person, but upon closer inspection, he did not.

Only Su Yu could tell that the living creature did not have a soul. Instead, it was a remnant projection in the mortal world.

After ten billion years, it had not been destroyed. It was playing the same game of chess over and over again.

“Follow me inside. Remember not to touch anything in the hall carelessly. Otherwise, your life will be in danger.”

Everyone nodded. After all, it was left behind by the DAO Master. Even though he had been dead for tens of billions of years, the things he left behind contained his enlightenment. If he accidentally touched anything dangerous, he would lose his life

Carvings.

Su Yu walked past the projection of Dao master creation and gave him a slight glance. From the corner of his eye, he glanced at the chessboard that he was playing.

He stopped to take a look and noted down the chessboard.

Under the guidance of DAO Master heaven crippling, they entered the inner courtyard.

With one step into it, the land disappeared and was replaced by an endless sea.

This... This was definitely not a space that contained the universe. It was a sea that had been created alive!

“This is the Sea of Destiny that Dao master creation created with his entire life's Great Dao before he passed away. There are a total of 204 islands in the sea, and on each island, there are different amounts of destiny tokens. Which one of you will take them

“The more tokens of fortune you take, the higher your ranking will be in the Yellow Dao Convention.”

Compared to the previous battles, the fight for the tokens of fortune was more fair.

Not only did one have to get the tokens of fortune, but one also had to protect it. It was a test of one's overall strength.

Su Yu's goal was to get into the top ten in order to get the Bodhi fruit.

Therefore, he had to go all out.

“I have to remind you that the seawater of Destiny is not something you can touch.” Dao Master Tian can restrained a drop of water and took out a top-tier true emperor rank weapon with his right hand.

He dripped the water on the weapon and a strange scene appeared.

The top-tier weapon was broken into pieces.

Everyone couldn't help but be scared. A true emperor rank weapon was turned into raw material!

If a person touched it, wouldn't it turn into the most primitive form of flesh and blood?

“There are pros and cons in everything, and there are pros and cons in fate. If you accidentally touch the Sea of fate, your fate will have two kinds of changes. One is to obtain good fortune and gain something from it! The other is

“Yes, like the divine weapon in front of us, destroyed by fate.”

Dust pondered, “Supreme-being, may I ask, what is the probability of pros and Cons?”

“10% , 90% ,” said the Crippled Heaven Dao master

The expressions of everyone present changed, and the last bit of luck in their hearts disappeared.

Wasn't this a narrow escape?

Many of them still had the thought of trying. What if they received a good fortune?

However, hearing this, they no longer had any wishful thinking.

Su Yu looked at the boundless sea of fortune. Since he could not touch the sea, then he could only teleport?

However, he could sense that there was a dao intent in the sky above the Sea of destiny that hindered teleportation.

“This place can’t be teleported, right?” Su Yu asked.

A bright light flashed in Dao Master Tian Can’s eyes. Among the people present, only Su Yu could sense that he couldn’t teleport.

This kid was a bit strange!

“It’s true that we can’t teleport,” Dao Master Tian can said.

What?

The expressions of the forty or so people changed.

If they couldn’t cross the sea of creation, how could they cross the Sea of creation and go to the islands?

Could they use ships?

However, the water of the Sea of creation could even break down a true emperor rank weapon. What material could withstand the water of the Sea of creation?

Unless it was an immortal embryo or a dao artifact?

“However, Dao Master of the Sea of fortune left behind four ships that can sail freely on the sea of fortune. They are on four islands. Now, I will send you to those islands

The fight for the token of fortune will be up to you.”

After saying that, Dao Master Tian can dragged his hands across the air, and everyone present was dragged up.

Then, he stepped on the Sea of fortune and sped away.

They sent the forty of them to different islands.

Beside each island, there was an ancient ship that was quite decayed. It was as if once it sailed out, it would disperse.

Su Yu was assigned to the same island as Luoshen and the others from the eastern region.

After the Heaven Crippling Dao master left, Luoshen gave Su Yu an unfriendly look and said, “Chen Zerun, lead the rest to search for the Order of Fortune on the island.”

She herself stayed behind to guard the ship.

This was the only tool she had to go to the other islands. If Su Yu snatched the ship away while she was away, her Yellow Dao convention could end here.

Su Yu hesitated for a moment and pondered.

He might not necessarily need the ship of creation.

He had a cauldron-shaped dao artifact immortal embryo in his hand. It should be able to withstand the water of the sea of creation.

With this in mind, he left the shore and headed for the depths of the island.

The island was not big. With a casual sweep, he found a decaying ruin.

There was no way to teleport here, so he could only use his body.

Fortunately, Su Yu's body was not much weaker than Chen Runze, who was ranked sixth on the Huang Dao Board.

They rushed to the vicinity of the ruin.

There were faint traces of living things moving there.

There were cities, roads, houses, tombs and so on, but they were all covered with thick dust.

It was clear that the island's creatures, in the end, failed to reproduce, trapped on the island, and eventually extinct.

Chapter 2044 Bright On The Surface

A group of people broke into the city and searched everywhere.

There were people searching for them in residences, restaurants, blacksmiths, and other places.

The decree of creation was very scattered, and it could exist in any unexpected place.

Su Yu spent a lot of effort to finally find one in a river.

It was completely gray and mixed with stones. If one did not observe carefully, they would not be able to discover its existence.

As soon as he picked it up, it turned into a gray-colored starlight and flickered above Su Yu's head.

He could not hide it even if he wanted to.

“Is it a disguised form of encouragement to compete with each other?” Su Yu pondered.

At this moment, Su Yu suddenly heard a loud clamor, including Ou Ye Huanyun's voice.

They flew out of the city in a panic and fled to the shore.

Su Yu looked up and saw Ou ye Huanyun covered in blood. He looked terrified.

Out of the ten people who came with him, only nine were left. One of them was nowhere to be seen.

When they were fleeing, they saw Su Yu and immediately shouted, “Run! This island is the nest of evil creatures!”

Evil Creatures?

Su Yu was slightly startled. He used the clairvoyance eye and his heart trembled.

He discovered a group of ape-like creatures covered in purple scales chasing ou ye Huanyun and the others. Their mouths were filled with blood.

In front of a dark dungeon in the city, there was a corpse that had been gnawed until only its bones were left.

The leader, Chen Runze, had a pale face. Seeing that the evil creatures were about to catch up, he turned around and threw out a five crowns early stage talisman.

Boom! Boom

The talisman landed, creating a terrifying shockwave that blew the evil creatures away.

However, their scales weren't even damaged. They were only screaming in pain!

Su Yu's scalp went numb. What was that thing?

He couldn't care less about the rest of the token of destiny and immediately ran toward the shore.

At this critical moment, he didn't hesitate to use the evil dragon Nirvana to transform into a half-human half-dragon.

With that, his speed skyrocketed. He was one step faster than Chen Runze and the others and arrived at the shore.

However, when he arrived near the ship, Su Yu's expression changed.

There were several purple-scaled evil creatures near the ship, trying to attack the ship.

It was all thanks to Luoshen alone. She was sweating profusely as she blocked them.

Although her strength was comparable to an early-stage five-crowned king, there were four evil creatures in front of her. It was extremely difficult for her to deal with them alone.

Upon seeing this scene, Su Yu couldn't care less about the grudge he had with Luoshen. He took out the asura sword and slashed down at the air.

Kacha --

The group of evil creatures were caught off guard and were sent flying by the Sword Qi. They howled in pain and became even more ferocious.

With a flash, Su Yu leaped onto the boat and stood shoulder to shoulder with Luoshen to block the attacks of the evil creatures.

With his addition, Luoshen heaved a sigh of relief. After taking a deep breath, she took out a few medicinal pills to replenish her primal energy.

As she fought against the demonic beasts, she asked, "Where are they?"

"They are still behind us. There are also such purple demonic beasts in the city." Su Yu's expression turned slightly solemn.

Luoshen's calm face revealed traces of anxiety. She had persevered until now precisely because she wanted to wait for her people to return.

Who knew that they didn't return. Su Yu, her enemy, actually returned first.

"That's about it. Not long after you guys left, evil things appeared," Luoshen said.

The two of them worked together in tacit understanding, working together to repel the evil things.

The previous conflict was temporarily forgotten.

After the time it took to brew a pot of tea, Chen Runze led Bai Jianfei and the others to escape to the shore. There were more than a hundred evil things chasing closely behind them.

As they stared at the evil things that were surging over like a purple tide, Su Yu and Luoshen felt their scalps go numb.

With so many evil creatures charging over, it was absolutely impossible for them to defend themselves.

The purple evil creature that was attacking the ship immediately revealed a greedy and excited expression when it saw Chen Runze and the others rushing over. It turned around and ran towards them, but only one of them was still attacking the ship.

Not only did Chen Runze and the others use up a lot of their primal energy, but they also used up all the powerful talismans they had on them.

At this moment, they were in a situation where there were wolves and tigers behind them. All of their faces were pale.

Not Good!

With their strength, they could not even block a single evil creature, let alone a few that were charging at them?

Luoshen's eyes were filled with struggle. She did not dare to make a decision.

If she were to go, whether she could save them was secondary. The most important thing was that if she were to leave, what would happen if Su Yu took the boat away by himself..

While his mind was still worrying about this problem, a gust of wind flashed by his side.

It was Su Yu who rushed out. At the same time, he said, "Guard the ship. I'll lend them a hand."

The others were fine. After all, ou ye Huanyun was acquainted with each other. He could not sit idly by.

Luoshen was stunned. Then, a faint light flashed in her beautiful eyes.

Su Yu instantly rushed out and used his powerful sword techniques to forcefully send a few evil creatures flying.

Ou Ye Huanyun and the others were immediately freed from the encirclement and sped up to rush over.

However, the evil creatures that were sent flying quickly got up and rushed over.

Su Yu's expression froze and blocked behind them. "You guys get on the ship first, I'll cover the rear."

Ou ye Huanyun said, "Brother Su, be careful!"

They boarded the ship one after another while Su Yu fought and retreated.

However, at this moment, there was a loud crash.

Su Yu turned around and saw that the battleship had actually sailed away from the shore and was already twenty feet away from the shore.

The person driving the ship was surprisingly Luoshen!

“What are you doing? Su Yu hasn’t come up yet?” Ou Ye Huanyun was shocked and shouted.

Chen Runze also hurriedly said, “Quickly stop, he hasn’t boarded the ship yet!”

The few of them were also shocked and looked at Luoshen in confusion.

They were all lucky enough to escape because of Su Yu, but now, they had left Su Yu on the island.

Originally, Su Yu was already on the ship, there was no need to take the risk to save them.

In the end, he did not end up well for saving them.

Not only did Luoshen not stop, she even increased the power of desolation, causing the ship to speed up and leave the shore. Her expression was indifferent, “The evil creature is about to rush over. For your safety, we can only temporarily suffer

“Go Down Su Yu.”

Suffer for the time being? That was putting Su Yu into a situation of death!

The entire island was filled with evil creatures, and he was even forced to the shore. In front of him were evil creatures, and behind him was the terrifying sea of destiny. There was nowhere to run.

“Luoshen! You’re too despicable! Su Yu got off the ship for us, and you actually repaid his kindness with enmity and caused his death!” Luoshen’s actions caused public anger.

Even Chen Runze, who was also from the Daoist Huang Hall, could not stand it and said sternly, “Luoshen, it’s still not too late to sail back now. If you continue to make mistakes, no one will be willing to be with you!”

Luoshen’s expression was indifferent as she said indifferently, “Since you are following me, from now on, you will listen to my decisions. Whoever dares to question me, please get off the ship!”

Hearing this, everyone felt indignant in their hearts, but there was nothing they could do.

They still had to rely on Luoshen’s powerful martial strength to protect them and seize the good fortune token.

Many people’s gazes towards Luoshen had a profound change.

In the past, they were attracted by her fame and beauty. But now, it seemed that one could not tell a person’s heart from their face.

Despite her beautiful appearance, she was an incomparably despicable person in her bones.

To be with such a person, one had to have the awareness of being sacrificed at all times.

Everyone had a myriad of thoughts in their minds.

Luoshen could also sense that the crew members were already wary of her.

However, so what?

In a dangerous place like the sea of fortune, even if they were dissatisfied, they had to shut their mouths and obediently listen to orders!

She had no regrets at all. Instead, she was glad that she had made a wise decision.

Su Yu had embarrassed her in public and made her lose all her face. Burying the mouth of the evil creature was her best home!

“I hope all of you can forget what happened today. If you dare to say another word, hehe...”she did not continue, but everyone could hear the deep threat in her words.

The ship moved further and further away. Ou Ye Huanyun’s face sank into the water as he looked at the lonely figure fighting against the evil creature alone. Finally, in his blurry vision, the already tiny figure was penetrated by the purple waves

The bottom was covered.

“Su Yu!”Ou Ye Huanyun knelt down at the stern of the boat and kowtowed towards Su Yu’s direction.

Tears flashed in his eyes as a trace of hatred flashed past.

In his heart, he silently said, “I will take revenge for you!”

Others might not know, but didn’t he know that Su Yu got off the boat for him?

Without Su Yu, as the person with the lowest cultivation among the ten, he should have already been buried in the mouth of the evil creature.

Ou Ye Huanyun had to bear his revenge.

With his back facing Luoshen, ou ye Huanyun hid the strange look on his face and appeared extremely calm.

He was no match for Luoshen in a head-on fight. He could only rely on his wits.

Little did he know.

At the coast.

The evil creatures rushed over like a tide.

Su Yu gritted his teeth. After forcing back a few evil creatures, he took out the earth furnace and used the Indian silver bamboo fruit to seal the bottom of the hole.

Then, he threw it into the sea of fortune. Seeing that it had no intention of being damaged by the Sea of fortune, he jumped into it.

He used the power of desolation to urge it. The earth furnace was like a top, spinning quickly in the water and speeding away.

It was so fast that it was much faster than the clumsy ship of fortune.

In a few blinks of an eye, it disappeared at the end of the Sea of fortune.

Plop --

A few evil creatures could not stop their momentum and fell into the sea of fortune.

Nine of them died on the spot and turned into blood. However, one of them did not die. Instead, the purple scales on its body evolved into black.

The evil aura emanating from its body was even denser, and its strength was even stronger. It had reached the middle stage of the five crowns!

Speaking of which, Su Yu.

With the aid of the Earth Furnace, he was able to move about freely in the sea of fortune.

Although he was lagging behind Luoshen, he had arrived at an island nearby before her.

Having experienced the soul-shaking experience on the island before, he was much more careful. He used the Dao of invisibility to completely disguise himself before entering the island stealthily.

With a sweep of his soul, he discovered that there was indeed an abandoned city on this island.

Moreover, there were also evil things with purple scales.

The slightly different thing was that the city on this island seemed to be even more magnificent than the previous island. Many traces of sects could be vaguely seen.

“Why would there be living creatures on the islands in the Sea of Fortune?” He was very puzzled.

Were they living creatures in the cave abode world of the Dao Master of Fortune? Why would they be placed on such an isolated island?

As he pondered, Su Yu quietly searched the city.

His luck was not bad, and he successfully found four.

After a day of searching and no results, he looked at the sect that was on the verge of collapse.

The mountain gate was destroyed, but from the remnants of the array formation, it was a rather brilliant array formation.

At the very least, it was much more brilliant than the Taiji sect.

After searching the main hall, he did not find anything. When he arrived at the private cave abode of the sect's higher-ups, Su Yu was pleasantly surprised.

Chapter 2045 Origin Of The Evil Object

All the private abodes were intact and sealed.

The Clairvoyant's eye scanned the inside and found that everything was intact.

He opened one of the abodes and searched it up and down. He confirmed that it was a high-level cave abode of an early-stage five-crowned emperor.

There were his cultivation notes and many talismans that he had casually refined.

The power of the talismans was similar. They were all at the late-stage of the fourth-crowning emperor realm, so they were dispensable to Su Yu.

However, evil things were everywhere now. If he used them occasionally, he could save a lot of primeval energy.

After collecting all of them, Su Yu searched every single cave dwelling and found something.

Although it was not very precious, it was very useful to the current Su Yu.

In the end, he fixed his gaze on the deepest cave dwelling.

Compared to the other cave dwellings, there was actually a restriction operating outside this cave dwelling. Moreover, the restriction wasn't weak at all. It was shockingly at the peak of the late stage of the five crowns.

Judging from the traces left around it, it should have been attacked by an evil being, but it didn't go as planned.

What made Su Yu slightly puzzled was why the evil being didn't attack the other cave dwellings?

Theoretically speaking, those caves had no restrictions, so it was easier to break them.

Su Yu couldn't do anything to the restrictions of the late stage of the five crowns. At this time, he could only ask an expert to help.

Su Yu's finger touched the nine Jade Spirit Pearl, and a beautiful and peerless woman appeared in front of him.

She was holding a writing brush in her hand and practicing writing with it.

She was suddenly teleported out and was slightly stunned. She looked at Su Yu with dissatisfaction and said coldly, "Lowly human, why have you summoned me?"

Su Yu smiled and pouted at the restriction of the late stage of the five-crowned emperor realm.

Xiao die glanced sideways and calmly put down the writing brush. She said indifferently, "I no longer eat as I please..."

Without waiting for him to finish, Su Yu took out a pot of Taixu and waved it in his hand. "Really?"

Xiao Die's eyes shone with a terrifying light instinctively. She stared at Taixu without blinking and swallowed her saliva.

Her cold and aloof temperament instantly disappeared!

"Damn it! I really want to strangle you to death and Bury my unbearable past." Xiao die revealed her true form and said through gritted teeth.

Thinking back to her childhood, Xiao Die wished she could find a hole to hide in.

"Break the restriction and this pot of wine is yours." Su Yu was like an old fox as he said with a smile.

Xiao die stomped her feet and decided to stop pretending to be cold. She snorted and said, "It's not so easy to lie to me like before. Apart from this pot of wine, the things inside are fifty-fifty."

“Deal!” Su Yu was exceptionally straightforward.

It was just a pot of grand emptiness. To him, it was just plain water and some primordial qi. It wasn't difficult at all.

As for the 50-50 split, without Xiao Die, he wouldn't be able to get a single cent.

Now that he had gotten a 50-50 split for nothing, why not?

Xiao die looked at Su Yu suspiciously. She kept feeling like she had been tricked somewhere.

She couldn't help but feel stifled. It would be extremely difficult to take advantage of Su Yu.

“HMPH!” Xiao die snorted. She walked forward and grabbed at the restriction with her five fingers.

What was shocking was that the restriction at the later stage of the five crowns realm was twisted by her one grab.

Then, Xiao die twisted her wrist. The twisted restriction finally couldn't withstand it and broke on the spot.

Once the restriction broke, the two of them rushed into it.

Su Yu glanced around and found a sitting skeleton sitting on a cushion in a meditative posture.

He immediately rushed forward and grabbed an arm of the skeleton in his palm.

He already knew that this skeleton was the most valuable, let alone Xiao Die, who was born sensitive to treasures?

She grabbed the other half of the skeleton and said, “I was the one who snatched it first. It belongs to me!”

Su Yu said, “It doesn't belong to you just because you touched it first.”

He secretly exerted his strength to snatch the skeleton.

Xiao die exerted her strength as well. Her strength was extremely great, and the skeleton almost broke free from Su Yu's palm.

“Have you forgotten who raised you so painstakingly? is it really good to snatch things from your benefactor like this?” Su Yu used the evil dragon Nirvana to increase his strength by 30% .

Xiao die also used all her strength and spat lightly, “Shameless! who took advantage of my young ignorance to bite open something you couldn't do anything about and snatch away the best treasure inside, not even giving me a single piece?”

Hearing this, Su Yu's face was not red and his heart was not beating. He even used his primal power.

The two fought with all their might. Finally, the skeleton could not withstand it and broke into two halves.

Su Yu and Xiao die each grabbed half of the skeleton.

Su Yu looked at the ordinary skeleton in his hand helplessly. This was a skeleton of the late stage of the five crowns. It was very hard.

Usually, it was impossible for them to tear it apart.

After careful observation, Su Yu found that there was something strange about this skeleton.

There were many scale-shaped bumps on the surface of the skeleton, which made Su Yu immediately think of the evil things outside.

Then, he saw a jade bottle in the palm of the skeleton.

An unknown liquid was still lying inside.

Su Yu opened it, and a shocking fragrance came from it. The primal power in its body was stirring, and it seemed to be craving for it.

“Cold dew cloud frost...”Xiao Die cried out in surprise. Her eyes lit up, but when she came to her senses, she immediately shut her mouth and stammered, “Tsk! So it’s this kind of worthless thing, I don’t want it!”

Hehe, if you don’t want it, how can you keep looking at me?

Su Yu took in her expression and knew that this so-called cold dew cloud frost was a good thing.

Xiao die looked at the arm in her palm unwillingly. There was also something in it, but it wasn’t a treasure. It was a sealed sheepskin scroll.

“What the Hell Is This? How unlucky!”She was only interested in treasures. She casually glanced at the sheepskin scroll and threw it away, looking for something else.

Su Yu curiously picked it up and found that it was a suicide note.

“I am the sect master of the vast origin sect. I have been destined for three years, and a natural disaster has descended. In one night, the world has changed, and the immortal vault continent has been submerged. The vast origin sect has been standing on the peak of the Eternal Mountain, which has saved it from the disaster of annihilation.”

Seeing this, Su Yu could not help but be surprised. So this sea of destiny used to be a relatively prosperous civilization world?

However, it was drowned by the Sea of fortune created by the Dao Master of the Dao of fortune. Only two hundred and four peaks remained, and it became the island it was today.

“The vast origin sect was trapped on an island, and all living beings supported each other through thick and thin. However, I never thought that the true disaster had only just begun! “Some people took the risk and tried to enter the evil sea. Nine out of ten of them died, and less than ten percent returned alive! Those who came back all received extraordinary good fortune. Either their strength

improved by leaps and bounds, or they received divine weapons, pills, and so on that fell from the sky

“Therefore, many creatures who were filled with despair tried to risk everything and enter the evil sea to obtain the good fortune that only nine out of ten survived

“Many people died, but there was a group of people who quickly became powerful and became the higher-ups of the vast origin sect. I was one of them. I was once the most ordinary disciple, but I entered the evil sea twice in a row and came back alive. I received great fortune, and in the end, I succeeded in taking over the sect master of the vast origin sect

“The vast origin sect’s overall strength was even more powerful than before!” He continued in his heart. “However, a terrifying disaster descended. First, one of the elders suddenly fell seriously ill and fainted. Purple scales gradually grew on his skin, and his body was also undergoing rapid mutation. In the end, he transformed into a purple evil creature. He killed everyone he saw and devoured every living thing he saw

“I personally killed them, but not long after, the second elder underwent a mutation. After a serious illness, he transformed into a purple evil creature, followed by the third, fourth, and fifth..

“We finally realized that there is a price to pay for obtaining those fortunes. The price is to be poisoned by the evil sea!”

When Su Yu saw this, his heart trembled violently. The purple evil creature was actually a creature that had obtained fortunes?

“They began to kill ordinary creatures, and I also began to mutate! Black scales grew out of my bones, and I thought that I would soon become one of them

“I was unwilling to do so, so before I completely lost my reason, I used the vast origin sect’s countless years of accumulation to develop a drug that could resist mutations.”

Su Yu was slightly puzzled. Since it was developed, why didn’t he take it himself?

“Unfortunately, this medicine is only effective on creatures that have not mutated. Once there are signs of mutation, the medicine will lose its effect.”

He couldn’t help but look at the medicine he had obtained. This should be it.

“If one day, a fated person comes here and breaks open my cave abode and sees this sheepskin scroll, please spread this medicine and save the common people...”

The letter ended here, and his life should also come to an abrupt end here.

In order not to hurt others, this sect master chose to commit suicide.

Su Yu sighed deeply. Why did Dao master creation arrange such a fate for them?

In the eyes of Dao master creation, the creatures of the vast origin sect were probably like ants, right?

Sighing silently, Su Yu put away his corpse and buried it properly in the sect. He bowed and said, "Senior's medicine, if you meet a fated person, you will give it to them."

All of a sudden, the faint roar of a beast could be heard.

It was the demonic beasts that had sensed Su Yu's aura and were rushing over.

"Xiaodie, it's time to go!" Su Yu called out. He put Xiaodie into the nine Jade Spirit Pearl and immediately took a detour back to the shore.

Before the demonic beasts could catch up, they rode on the Earth Furnace and left the island.

At this moment, Luoshen led everyone to this island. She was in high spirits and appeared to be in high spirits. "Let's split up and search. We must find all the good fortune tokens."

She personally led a team and entered the vast origin sect to conduct a large-scale search.

However, after searching for a long time, only one person was lucky enough to obtain one.

The rest returned empty-handed.

Luoshen frowned. There was only one good fortune token on such a huge island?

"Luoshen, we discovered traces of human activity. Several sealed cave abodes were opened and all the things inside were swept away."

Luoshen had an unhappy look on her face. "HMPH! It's the people from the other three regions. They sure are fast."

After she obtained the ship, she rushed straight in this direction. She should have been the first to arrive, but to her surprise, someone was one step ahead of her.

"Let's Go! We have to rush to the next island!" Luoshen was decisive in her actions. She didn't waste any time.

Not long after, they arrived at the second island. In the end, other than the roars that filled the island, it was as though a group of evil creatures had been drawn out. They didn't find anything.

"Damn it! Someone from the other three regions got there first!"

What she didn't know was that while she was complaining, the expressions of the people from the other three regions didn't look too good either.

The nearby islands had all been searched by someone before them. Not only were there few destiny tokens left, but they had also alerted the evil creatures and chased after them everywhere.

They naturally thought that it was done by the people from the other three regions.

They had no idea that a small cauldron that was incredibly fast had left them far behind and was heading for an even further island.

Chapter 2046 Deja Vu (1st Update)

One month later.

The ship led by Luoshen left an island where evil creatures were roaring.

The crew went from eleven to six.

Five of them died in the process of searching for the token of good fortune.

The entire ship was filled with a gloomy atmosphere. Not only did they sacrifice many of their companions, but the token of good fortune was also much less than expected.

Luoshen sat alone at the bow of the ship, her crystal eyes filled with deep puzzlement.

Very Strange!

She gave up many of the islands Midway and traveled in a straight line in order to surpass the smoke and dust battleships and the other three battleships. This was to prevent them from always following behind them and picking up the islands they had searched.

The strange thing was that the islands she had visited were all searched. Only a small number of tokens of good fortune remained.

“Could it be that their ships are better and faster?” Luoshen’s face was gloomy.

This year’s ecliptic convention determined her future. It was extremely important.

If her performance was too poor and she wasn’t allocated a good enough position, her years of hard work would go down the drain.

While she was distressed, Su Yu left with a full load on an island not far away.

After a month, he had searched all 203 islands.

He had obtained a total of 400 fate tokens, which should be more than the other four ships combined.

However, the greatest harvest should be the resources left behind on the island.

Many island creatures had gone extinct, and all their things had been left behind and taken away by Su Yu.

This included divine stones, spiritual trees, spiritual herbs, and even cultivation techniques.

Basically, the overall strength of each island

Was equivalent to a five-star civilization’s sect, and the amount of resources stored was abnormally terrifying.

After searching 203 islands, the amount of resources su Yu obtained was comparable to the top ten half-step civilizations.

With so many resources given to ding, he believed that they could develop further.

After leaving this island, Su Yu headed to the deepest part.

According to the Heavenly Cripple Dao Master, there were a total of 204 islands, and the last one was located in the deepest part of the Sea of fortune.

It was far away from the other islands, and it was also the largest of the 204 islands.

The number of tokens of fortune on it should be more than the other islands, and the resources should also be more abundant.

A few days later, Su Yu sat on the earth furnace and stopped in a vast sea.

His eyes were filled with deep doubt. "What's going on?"

After searching for a few days, he didn't even see the shadow of the island. It was as if it didn't exist at all.

It shouldn't be!

Because after a few days of delay, the distance between them and the four-legged ship was finally equalized.

Looking from afar, one could see several tiny black shadows swaying at the end of the Sea of fortune.

Su Yu looked at his reflection in the Sea of fortune. More than four hundred starlight sparkled above his head like a galaxy.

If they found out that there were so many tokens of fortune, the consequences would not be hard to imagine.

They would probably attack together?

It was not a good time to meet face-to-face.

It would be good if they could find the last island. They should be able to hide on it for the time being.

There was no way to hide on the surface of the sea.

"Where is the last island?" Su Yu pondered deeply. Suddenly, an image appeared in his mind.

The remnant image of the Dao Master of creation playing chess at the door. It seemed like the number of flags was 204.

"Eh?" This discovery made Su Yu vaguely understand something. He carefully recalled the chessboard.

In comparison, there was indeed a shocking discovery.

The layout of the 204 chess pieces was completely consistent with the distance and location of the island.

His eyes suddenly lit up as he looked toward the southwest.

According to the arrangement of the chessboard, the last island should be in that direction.

One day forward.

Su Yu paced back and forth in a blank sea area, muttering to himself.

If this is the right place, why is there still no shadow?

While he was thinking, he suddenly felt a faint spatial fluctuation.

This fluctuation was very slight, almost equivalent to nothing.

But who was Su Yu? How could the controller of Spatial Laws escape his senses?

His eyes were like lightning as he instantly shot toward the spatial fluctuation, only to see a faint spatial crack flash past.

“There’s a problem!” He flashed over and before the crack dissipated, he used the spatial laws to maintain all the cracks.

Just as he was about to study it further, human language came from within the crack.

“Strange, why can’t the array be closed? Is it stuck?”

Not long after, the crack expanded slightly, revealing a pair of human eyes. They looked outside to see if there was something.

Unexpectedly, a pair of eyes happened to meet Su Yu, who was dressed in white. He was so scared that he screamed, “Oh my God, it’s a Ghost!”

His head shrank back and he turned around to escape.

Su Yu suddenly understood. The last island had become a space of its own.

The outer appearance had some kind of powerful spatial array protecting it. It had become an existence like the universe inside, so no matter what, it could not be discovered.

With a flick of his fingertip, this thread of crack expanded infinitely and turned into the size of a human, allowing Su Yu to easily enter.

After passing through the formation, the crack disappeared on its own.

Su Yu himself was in the air above an ancient island. What surprised Su Yu was that it was different from the other 203 islands.

The island in front of him was actually very prosperous!

Its size should be equivalent to the size of ten Taiji sects. If Su Yu wanted to cross it, he would have to use the Taiji Yin-yang wings several times in a row.

When his soul scanned it, there was not a single evil creature. All of them were humans who had prospered to their peak.

Tall skyscrapers, strange-looking mecha cars, and all kinds of spaceships came into view.

Su Yu was stunned. He felt like he was going back in time.

For a moment, he felt like he had returned to the mecha civilization where ye Mingxuan was.

It was too similar!

The only difference was that the humans on the island not only knew how to use mecha, but they also retained some of their martial arts instincts.

They used martial arts to fly in the sky and burrow into the ground. Their strength was limitless and so on.

Although they were much weaker compared to the martial artists in the outside world at the same realm, their martial arts had indeed been passed down.

“How could this be?” Su Yu’s eyes were blank.

At the moment of his shock, several powerful auras descended.

Three five-crowned emperors covered in golden light flew over.

The three surrounded Su Yu and sized him up in shock and curiosity.

“Where are you from?” The golden light figure in the play was at the late stage of the five-crowned emperor realm, at least in terms of cultivation. He asked with an aged face.

Although they were vigilant, they didn’t release any hostility. Su Yu calmly said, “From the outside world.”

“Are you from the other islands? How is that possible? Don’t tell me that your island still has ships?” The middle-aged man asked in surprise.

Su Yu calmly shook his head. “The outside world that I speak of is different from what you understand! Let’s put it this way, I have been to the other 203 islands. I did not rely on ships, but on my own ability.”

The middle-aged man sucked in a breath of cold air. At the same time, his eyes flickered with deep anticipation, he said, “Fellow Daoist, we have come from afar. Please let us do our best as landlords. We also want to know the situation in the outside world. I hope you won’t be stingy with your teachings.”

Chapter 2047 Hidden Effects (Second Watch)

Su Yu paused. Other than searching for the token of destiny and resources, he also wanted to know why only their island was safe and sound.

Not long after, under the hospitality of the three people, he was invited to the most solemn restaurant on the island.

All the important people on the island came to watch.

“Fellow Daoist Su, don’t be surprised. You are the only foreigner to come in thousands of years, so everyone is very curious,” said the Cang Yan Old Man, Jin Yuan.

Su Yu waved his hand. “It doesn’t matter! I’m also very curious about the civilization of your island. As martial artists, how did you guys develop Mecha?”

Jin Yuan sighed deeply and asked in return, “Since fellow Daoist Su is also a martial artist with a high cultivation level, then have you discovered the atmosphere of the island?”

Nodding slightly, Su Yu said, “I discovered it when I first came in. The spiritual energy and divine aura in the atmosphere are very thin, close to nothing.”

When he first came, Su Yu had already felt uncomfortable, and the strange atmosphere had long attracted his attention.

“Such thin martial qi is no longer enough to allow martial arts to develop. The three of us old guys are already the only five-crowned champions left. It should be very difficult to give birth to five-crowned champions of our level in the future.”

Su Yu did not deny it.

With the thin layer of divine Qi in this place, not to mention the five-crowned champions, even the four-crowned champions were unlikely to be born again.

“Martial arts is gradually declining. Occasionally, we still have to deal with the attacks of monsters from the outside world. We can only think of ways to develop things that support martial arts. Fortunately, our island has been producing a lot of refined ores. After many years of research, we have gradually developed a weapon like a mech, which can barely deal with monsters.”

The monsters they were referring to should be those evil purple creatures.

“In that case, you set up a formation to hide the island to guard against those purple monsters?”

Jin Yuan looked at Su Yu in slight surprise. “Purple? Have you seen it before, fellow Daoist Su?”

“I have. I fought with some of them and luckily escaped.”

He had said it casually, but when everyone heard it, they were all shocked.

“What? You can fight with them?” Jin Yuan was shocked.

A pointy-faced five-crowned emperor beside him responded with deep suspicion, he said, “Fellow Daoist Su, are you joking? Those monsters are so powerful that the three of us can barely fight against them. How can you deal with them alone?”

Su Yu was stunned. He just understood that although they had cultivation, in terms of martial strength, they were not quite compatible with their cultivation.

“It was probably a fluke.” Su Yu didn’t want to explain too much.

Jin Yuan’s eyes were shining, and he said without any change in expression, “Fellow Daoist Su’s strength is astonishing. I admire you!”

After a pause, Jin Yuan said expectantly, “Since fellow Daoist Su has been to the other islands, do you know how their development is? Ever since that night, our islands have lost all contact with each other.”

“Some of the islands are not weaker than us. I think they should be very powerful now, right?”

Su Yu was silent for a long time. Under their puzzled eyes, he slowly said, “Unfortunately, of the 204 islands, only your islands are still there. The rest... are all occupied by evil things.”

Hearing this, the whole place fell into a dead silence.

Many people’s eyes were filled with suffocating despair.

Jin Yuan seemed to have something stuck in his throat as he said with difficulty, “Are you serious?”

Su Yu nodded and pointed across the air. Dozens of lights and shadows were reflected in his eyes. They were all scenes of the islands he had arrived at.

His eyes were filled with decay and beasts that filled the mountains and plains.

The light in the eyes of everyone present dimmed bit by bit until it finally turned gray.

Su Yu knew that they had been waiting for many years for someone from the other islands to come and lead them out of their current predicament.

However, the truth was so cruel that all the islands were destroyed, and they were the only ones left.

“Everyone, don’t be dispirited. Although the islands in the Sea of fortune have been destroyed, in fact, there is still a world beyond the Sea of Fortune.”

Their situation reminded Su Yu of the past. He was in the nine regions continent, but he did not know that there was the galaxy divine realm beyond the continent.

Hearing this, everyone was shocked.

Jin Yuan was overjoyed and said, “Are you serious?”

Su Yu pointed at himself. “Otherwise, where did I come from?”

If they trusted him, it would not be difficult to carry them all away with the cave abode world.

Jin Yuan didn’t lose his cool. After being ecstatic, he said calmly, “I haven’t asked. How did fellow Daoist su come to my evil sea from the outside world? Could it be that he accidentally dropped here?”

The outside world in his imagination should be similar to the sea of fortune.

Unexpectedly, Su Yu said indifferently, “The sea of Fortune is a small place for us to train. In order to get the quest item, we specially came here.”

“A... Training Place?” Everyone was dumbfounded.

This fact was really unacceptable to them.

They thought that the sea of fortune, which was incomparably huge, was actually just a training place for others.

After a long while, Jin Yuan finally accepted this reality and said, “I wonder what the Quest Item You mentioned is?”

Su Yu flicked his finger, and the image of the token of fortune appeared in front of them.

Seeing its shape, everyone was shocked.

“Isn’t this the ancestral stone tablet?” Jin Yuan’s eyes were full of surprise.

Su Yu nodded. “It should be this thing. I wonder if this thing is important to you. If it is, then forget it.”

With just the 400 tokens of creation in his hand, it was more than enough to rank first. It would be best if he could get the one on this island. If he couldn’t get it, it wouldn’t have much of an impact.

“To tell you the truth, we relied on the ancestral stone tablet to develop some good fortune that led us to create the mecha civilization.”

The speaker did not mean it, but the listener had the intention. Su Yu could not help but be surprised.

The reason why the other islands were destroyed in the end was largely because some of them had tried to use the water of the evil sea to obtain good fortune. In the end, they turned into evil beings.

Unexpectedly, the people of this island had found another way to obtain good fortune from the good fortune order!

No wonder only this island was safe and sound!

“Is it convenient for you to tell us how you obtained good fortune from it?” Su Yu asked curiously.

Jin Yuan hesitated for a moment. After exchanging glances with the other two five crowns, he said, “This was originally our secret, but if you can bring us out of here, there’s no harm in telling you.”

Actually, that secret was not kept strictly. There were many other people who knew about it.

If Su Yu tried his best to find out, he could still find out.

If he told Su Yu now, he could still give him face.

“After our research, we found that if the stone tablet is immersed in the water of the evil sea, strange gases will be born inside. After inhaling it, you can obtain different kinds of good fortune.”

Was there such a thing? If they hadn’t said it out loud, Su Yu wouldn’t have thought of putting the good fortune token into the sea of fortune.

“However, the water of the evil sea is quite dangerous. Even touching it casually will endanger your life. Since fellow Daoist Su has come all the way here, you should know,” Jin Yuan said.

Chapter 2048 Cultivation Progress

“We can’t put it back on the island, so we can only throw the stone tablet into the evil sea. In this way, most of the gas will be lost, and only a small portion will be used by US. Even so, it will be of great help to the continuation of our race.”

In an open area, a large portion of the gas would naturally escape.

It was different if they were in a secret chamber.

They couldn't contain the water of the evil sea, but Su Yu could!

He continued to talk to them without batting an eyelid.

After several hours, both sides had benefited greatly from their conversation.

Jin Yuan was all smiles. "Fellow Daoist Su, I'll pass down the order now. Tell those who are willing to leave to pack their things and leave with you at any time to the outside world."

After some discussion, they chose to enter Su Yu's immortal's Cave World and let him take them away.

"No Problem!"

"Then, fellow Daoist Su, rest here for now. I'll go take care of it now." Jin Yuan and the other two left one after another, leaving Su Yu to rest here.

Su Yu's eyes flickered. He used the Taiji Yin-yang wings and instantly arrived at the shore.

He took out the earth shortage furnace and filled it up with an entire furnace of water of the evil sea.

Then, he returned to his original spot silently. After setting up some isolation arrays around him, Su Yu immediately calmed down and tried.

He pointed at the starlight above his head, and a destiny token transformed from starlight into the shape of a stone tablet.

He threw it into the earth-lacking furnace, and with a plop, the stone tablet fell into the water of the evil sea, immediately causing a drastic change.

Large amounts of bubbles emerged from the stone tablet, turning into wisps of dark gray gas that floated around.

Su Yu rolled up his sleeve and inhaled it.

At this moment, the good fortune he wanted the most was undoubtedly an increase in his cultivation.

What surprised him was that after inhaling a wisp, his cultivation showed signs of loosening.

When the entire stone tablet was released, Su Yu's cultivation increased by a full one-thousandth!

To the four crowns, one-thousandth was equivalent to an entire year of cultivation.

Su Yu was delighted. Now that he had four hundred tokens of Destiny in his hands, wouldn't it be able to greatly increase his cultivation?

He immediately threw the rest of the tokens of destiny into it one after another, and a large amount of gas gushed out.

Due to the restriction of the isolation array, they could not escape and were all absorbed by Su Yu.

At the same time, Su Yu was thinking about obtaining cultivation, and the good fortune he obtained was indeed an increase in cultivation.

Within a short period of time, his cultivation base had increased by 40% . With the precipitation from the earlier stages, he was only half a step away from breaking through to the middle stage of the quadruple crown prince realm.

He tried to throw the used stone tablet into the sea of fortune, but the result was that no new gas was produced.

Disappointment flashed through his heart. It seemed that the stone tablet could not be reused.

However, the hidden benefits of the good fortune token made Su Yu slightly excited.

If he could find more tokens of creation, wouldn't he be able to directly break through to the middle stage of the four crowns, saving a lot of time for cultivation?

At the same time.

In another secret room.

“Elder Jin, do you really believe this person?”The pointy-faced five crowns Emperor’s eyes were full of disbelief.

Jin Yuan pondered for a long time, he nodded slowly. “His words should be true. You know that I cultivate the truth-seeking law. Whether a person’s words are true or false, they can’t escape my law. If he lied to us, I should have sensed it just now.”

The pointy-faced five-crowned emperor still expressed his disbelief and said, “It may be true that he came from the outside world, but what if he harbors ill intentions towards us after bringing us to the outside world? The outside world is his territory. We may be at the mercy of others.”

His worries were not without reason. The other five-crowned emperor was also deep in thought.

Jin Yuan sighed. “It’s better to be at the mercy of others than to stay here and wait for death.”

Hearing this, the other two were stunned.

Watching their martial arts gradually decline, they knew that sooner or later they would go extinct.

Clenching his teeth slightly, the pointy-faced five-crowned emperor said, “Okay, let’s Gamble!”

At this moment, they suddenly received an urgent message from the coast at the same time.

When the three of them turned on their communication devices, their expressions changed deeply.

“What? There are three ships fighting nearby?”The pointy-faced five-crowned emperor looked surprised. “Are they fellow Daoist Su’s companions?”

Jin Yuan pondered for a moment, then shook his head slightly. “I don’t think so! Fellow Daoist su said that he was participating in some kind of experiential learning. Since it’s an experiential learning, there should be competition between them. Perhaps the other party is fellow Daoist Su’s rival.”

Hearing this, the pointy-faced five-crowned Emperor’s mind became active. “Then, should we secretly contact these people? We can’t put our eggs in the same basket.”

The other five-crowned emperor nodded in agreement. “That’s right! Let’s establish contact with them immediately.”

The two of them hit it off and made a decision on the spot.

“Wait!” Jin Yuan shook his head, his old eyes were filled with wisdom. “What makes you think that they won’t collectively snatch our stone tablets after they discover us, which is what fellow Daoist su called the token of creation? “What makes you think that they will take us away unconditionally, just like fellow Daoist Su?”

It was funny that Su Yu didn’t ask them for anything and took them out of this desperate situation along the way.

On the contrary, they felt good about themselves. They wanted to separate a group of people and let others take them away.

“People are vicious. If we meet someone who doesn’t fight for our stone tablets and is willing to take us away, we won’t meet them everywhere.” Jin Yuan was experienced and could see everything clearly.

The pointy-faced five-crowned emperor felt indignant and said, “How can we understand them if we don’t come into contact with them?”

Jin Yuan’s eyes flashed. “We’ll know a thing or two after observing them in secret.”

The three of them moved to the edge of the coast and opened a weak crack in the array formation to look out.

They saw four ships fighting openly in the vicinity.

They rushed to the other ships through ropes and fought each other.

It was a real fight, and they all used open weapons.

After killing the other party, they would seize the other party’s destiny token and then fight with other people.

The entire sea area was dyed bright red by blood.

The smell of blood blew along with the sea breeze, causing the pointy-faced five-crowned Emperor’s mind to instantly clear up.

“Do you still want to contact them now?” Jin Yuan asked faintly.

The pointy-faced five-crowned emperor shivered and shook his head vigorously.

At this moment, he felt that meeting someone like Su Yu was simply lucky.

These people outside killed without batting an eyelid for the good fortune token. What would happen if they discovered the existence of their island?

It would be fine if they handed over the good fortune token, but if they didn’t, it would be them who would be stained with blood.

“Quickly inform fellow Daoist su that his companion might have arrived,” Jin Yuan said.

The pointy-faced five-crowned emperor nodded and immediately headed over.

Su Yu wasn't too surprised after receiving the news. Theoretically speaking, they should have arrived at this area as well.

Now that they were fighting, it seemed like they had no hope of finding the last island and were fighting each other for the destiny token.

With a thought, he came to the shore and looked out through the array formation.

He saw the four ships fighting each other. One of them was me, and the other one was you. They were killing each other.

Chapter 2049 Find Something To Do

Even the heaven's favorites who had been groomed by the Daoist Huang Hall were now showing their ferocious faces as they fought.

The destiny token was related to their future, so how could they not fight?

However, the main force of the battle was the crew that they had brought along. The Heaven's favorites of the four regions stood firmly at the bow of the ship, guarding the truth that the king would not see the king.

The calmest one was Luoshen. Her eyes were calm as she looked at her crew member who was seriously injured. She did not even blink.

No matter how serious the death of the crew member was, she was fine as long as she was unharmed.

In any case, she would just take a portion of the good fortune token that the crew member brought back.

The prodigies of the other three regions were also quite indifferent to the lives of the crew members.

Su Yu secretly shook his head when he saw this scene.

These four people were really hard to compliment.

Especially Luoshen!

Seeing that the ordinary crew members were dying one after another, but the four of them were enjoying the fruits of their labor, Su Yu said indifferently, “You guys are still too comfortable. I'll find something for you to do.”

After thinking for a while, Su Yu took out an attack talisman from the five crowns.

This was the highest level talisman he had found among the many islands, the shadow seven injuries talisman.

After it was released, it would release invisible hidden weapons to hurt people.

With the top-tier strength of the four heaven's favorites, they might not be able to hurt them, but they would still be able to make them not have so much free time.

Su Yu aimed the talisman at Luoshen, but after some thought, he changed his target to the second strongest among them, the demon king of the Southern Region.

Only Hurting Luoshen. With this woman's personality, she would most likely choose to endure. It would be very difficult to incite internal strife.

However, this demon king was arrogant and unruly. He was the type that would explode at the first touch.

If it was him, the outcome might be completely different.

He secretly waited for an opportunity. When the southern domain's demon king turned his back on him, Su Yu suddenly released a talisman.

An obscure shadow crossed the sky and shot towards the demon king's back.

When he was ten thousand feet away from the demon king, he finally sensed something. The Primal Energy formed a defensive shield on his body. At the same time, a huge demon king's shadow appeared behind him.

The defensive shield of the prehistoric power was crushed by the shadow like a piece of paper. However, the shadow of the Monster King let out an angry roar and grabbed the shadow with its huge hands.

The monster king turned around in anger!

Because Su Yu's angle was quite tricky, the talisman seemed to be shot from the direction of the wine and Meat Buddha.

The wine and Meat Buddha's expression changed after he stared at the shadow. He put down the wine and meat in his hands and said solemnly, "Amitabha. I am a monk and I do things openly and aboveboard. I will never..."

"You stingy monk. I have tolerated you for a long time!" What kind of person was the monster King? He had always been overbearing.

He liked to take all the good things.

However, he was already unhappy that the Buddha of wine and meat had taken all the women as soon as he arrived.

Now, he was even ambushing him. He was really looking for this opportunity to ask him to teach him a lesson!

"It's really not me!" The corners of the Buddha of wine and meat's mouth twitched helplessly.

"HMPH! Since I think it was you, then it must be!" The Monster King said tyrannically. With a tap of his feet, he stepped on the rope and rushed towards the ship where the Buddha was.

The Buddha of wine and flesh didn't want to fight. He turned around and fled towards Luoshen's ship.

Luoshen frowned. The Buddha of wine and flesh wanted to burn himself to the ground!

With a tap of her foot, she left her own ship and jumped onto the ship filled with smoke and dust.

Yanchen cautiously pushed back, preventing the three of them from using this opportunity to deal with him alone.

Among the four of them, Yanchen alone had fifty good fortune tokens, more than the other three combined. Naturally, this would trigger their joint attack.

“Retreat!” Yanchen exuded her might without being angry.

Luoshen stepped on the rope, hesitating slightly.

However, the wine and Meat Buddha ignored her and chased after her. Behind him was a demon king with a towering baleful aura. He took out a five crowns king talisman and activated it.

From the looks of it, he was preparing to attack Luoshen as well.

Luoshen had no choice but to clasp her hands to dust. “I was forced. I hope you can forgive me.”

As she spoke, she returned a smile that she thought was pretty as she gracefully stepped onto the ship.

But to her surprise, just as half of her foot stepped into the ship, the boundless power of desolation surged over.

Luoshen turned pale with fright as she hurriedly resisted.

The moment they exchanged blows, Luoshen instantly felt that dust was stronger than him. Under the impact of the immense power of desolation, she was sent flying like a fallen leaf.

Her chest felt stuffy, and she couldn’t help but spit out a mouthful of divine blood.

Her beautiful eyes were filled with hatred as she stared at dust, who had a cold expression on her face.

Dust stood in front of the boat with her hands behind her back, staring at her coldly. “Why should I forgive a woman like you?”

Dust knew very well what kind of person Luoshen was.

This woman seemed to be pure and pure, but in reality, her heart was incomparably dirty. She was more sinister than anyone else.

Luoshen gritted her teeth, but just as Su Yu had expected, she chose to endure.

“HMPH!” Yanchen couldn’t be bothered with him. He looked at his crew and said, “All of you, come back. We’ll stop here. There’s no need to fight with them.”

His eight followers returned to the ship one after another, no longer participating in the fight.

Among the four groups of ships, the one that sacrificed the least was Yanchen’s fleet.

Next was the wine and Meat Buddha.

Then came the distant view.

The one who sacrificed the most was Luoshen, leaving only four people!

The remaining six people were all sacrificed in the search for the token of creation and the battle just now.

From this, it could be seen that Yanchen was the most dedicated to the crew.

“Yanchen, we have more people. If we fight again, we should be able to get more tokens of creation,” said Li Jian, who was ranked eighth.

Yanchen shook his head. “There’s no need. We were already dragged into this. It’s only right for us to retreat now.”

The four ships met. The first to attack was the monster king, followed by the wine and Meat Buddha, and finally, Luoshen.

Yanchen was caught in the middle and had no choice but to act.

Now, seeing that the other three heaven’s chosen had already joined the battle, if this continued, the number of casualties on the ship would rapidly increase.

“Experience is important, but life is more important. You Can’t put the cart before the horse.” Dust was still considered calm. He indifferently glanced at the other three. “Whoever dares to board my ship, I will kill them without mercy!”

However, even if he wanted to leave, he might not be able to escape.

Luoshen lowered her head. From an angle that no one could see, everything was gloomy.

When Dust’s ship left the battlefield, it was about to turn around.

Luoshen suddenly launched an attack. She actually took a risky move and attacked smoke and dust.

In her palm, she crushed a seal that she had prepared earlier. The power of the seal was extremely powerful. It was actually at the peak-stage of the five crowns realm!

“I’ll return it to you!” Luoshen shrieked as she launched a sneak attack on smoke and dust.

Although smoke and dust had always been on alert, she had never noticed that she possessed a peak-stage of the five crowns realm seal.

Not to mention him, neither the wine-meat Buddha nor the monster King had expected this. Their expressions changed drastically.

It turned out that when Luoshen was searching an island, she discovered a hidden cave abode. That was where Su Yu had missed out when he was in a hurry to search.

Inside was an ancient tomb of a peak-level five-crowned-emperor. There were many powerful relics inside, including this talisman.

In order to break into the ancient tomb, she had to sacrifice two crew members in order to succeed.

It had to be said that this woman’s luck was heaven-defying.

In addition to her ruthlessness and ruthlessness, her luck was quite good.

The extremely powerful talisman flew over. Smoke and dust let out a low shout and took out a true emperor level weapon of her own.

Chapter 2050 Golden Evil Object

Boom --

However, the power of the five crowns' peak level talisman was shocking. How could a true emperor rank divine weapon be able to resist it?

The divine weapon directly shattered, and the smoke and dust were blasted into pieces. The entire ship he was on was instantly split into two.

Everyone on the ship sank into the sea of destiny.

Ah!

The crew members fell into the sea and were instantly disintegrated by the water of the Sea of Destiny, turning into a large pool of blood that dyed a large area red.

The smoke and dust fell into it, completely devoid of any aura.

The wine, meat, Buddha, and Demon King felt their scalps go numb. They looked at the woman in front of them and felt a chill run down their spines.

This woman was so vicious!

No matter what, smoke and dust was one of the chosen of the four regions.

Their master was a dao master that they would never meet, but now, he had decisively killed smoke and dust?

She was relying on her master. wasn't she afraid of getting into trouble!

"What number one in the four regions? That's all there is to it!" Luoshen calmly flicked the blood stains on her chest as a trace of mockery flashed across her face.

Just as she was about to turn around, a series of bubbles suddenly appeared near the sea where Yanchen had sunk into.

She frowned and turned her head over.

What caused her beautiful countenance to pale was that a human figure slowly rose up from the sea. His entire body was drenched in seawater of destiny.

His long hair was disheveled, and his eyes were bloodshot. He seemed to be filled with rage.

"You... You Didn't die?" Luoshen felt a chill in her heart.

Yanchen's face was ice-cold. "Die!"

As he spoke those words, the seawater of the Sea of destiny rippled. The three ships were swaying non-stop, as though they were about to collapse.

"His cultivation base..." Luoshen's face turned pale.

Yanchen, who was only at the initial stage of the five crowns, had now reached... The Middle Stage!

Good fortune!

The good fortune of the Sea of Fortune!

He was one of the lucky survivors who managed to obtain the good fortune.

Su Yu, who was watching from afar, was also secretly speechless. As expected of the proud son of Heaven of the Northern Region, he was blessed with great fortune. Not only did he not die in this situation, he even managed to break through to another level.

Now that he was at the middle stage of the five crowns, there was no one in the sea of fortune who could contend against him!

Huala!

Dust stepped on a piece of broken wood from a boat and sped towards Luoshen.

Luoshen gritted her teeth and looked at the wine-meat Buddha and the Monster King. "What are we waiting for? If we miss this opportunity, it will be even harder to snatch his token of good fortune."

Dust was alone in the sea and there was only a piece of wood under her feet.

If she fell into the Sea of good fortune again, it would be impossible for her to miraculously survive and obtain good fortune, right?

Therefore, if they wanted the good fortune token, now was the best opportunity.

The Wine Meat Buddha and the monster King came back to their senses and turned their ships over one after another, surrounding the smoke and dust.

"Smoke and dust, hand over the good fortune token and I can send you to a safe island. After the Yellow Dao conference is over, the higher-ups of the sect will naturally bring you back," the wine meat Buddha said with a compassionate expression.

The Monster King did not show any mercy. "You have no choice. Hand over the good fortune token. Otherwise, this piece of broken wood won't be able to withstand it for long."

Indeed, just a piece of fast wood could be overturned by a slightly bigger wave.

However, dust didn't seem to hear it. He stared at Luoshen and said coldly, "You caused their deaths!"

His crew members were all innocent. Many of them had accompanied him through life and death, especially Li Jian.

On an island, dust was attacked from both sides. It was Li Jian who used his body to block the attack, preventing dust from suffering fatal injuries.

But Li Jian himself was heavily injured and almost died.

But now, he wasn't able to protect Li Jian. Luoshen caused the deaths of everyone on the ship, including him.

Luoshen felt a chill in her heart when she was stared at. Her eyes were filled with killing intent.

She couldn't allow dust to live. If not, even if she had to leave this place, she would do everything she could to seek revenge.

A hint of viciousness flashed in her heart. She lifted her hand and took out another talisman, preparing to activate it.

There was no need to cause much damage to the smoke and dust. Just the waves from the explosion would be enough to flip over the wood under his feet and bury him in the Sea of fortune.

However, at this moment, a sharp cry suddenly resounded throughout the universe.

Su Yu, who was watching the battle, had a slight change in expression. "Evil thing? How can there be one here?"

However, Jin Yuan's expression was calm and he didn't find it strange. "Could it be that fellow Daoist su has never seen a level two evil thing that can fly?"

"Are there levels for evil things?" Su Yu asked in surprise.

Jin Yuan nodded, he looked at the sky. "Evil things are divided into three levels. Level three is the weakest level one, and it's purple all over! Level two is gray-black, and it has wings. It can fly in the sky, and the main attack we received was a level two evil being!"

When Su Yu heard this, he was slightly stunned.

He remembered the sect master of the vast origin sect. He was different from other corpses. Scales grew out of his bones, implying that he had mutated. It was very likely that he was not an ordinary evil being.

And that sect master had survived two baptisms of the sea of destiny.

In that case, a level one evil being was an existence that had undergone three baptisms?

"What is a level one evil being?"

Upon hearing this, a hint of fear flashed across Jin Yuan's face as he said, "A level one evil being. I've only seen it once in all these years. It's golden in color, but its form is not an evil being, but... a human!"

A golden human? Su Yu was once again shocked.

A human had gone through three baptisms in the sea of fortune, becoming a monster in the middle, and finally returning to a human's body?

Was that still a human?

"How Strong is it?"

Jin Yuan said in a low voice, "Very strong, even stronger than a peak-level five-crowned emperor. At the very least, our spatial barrier won't be able to block the opponent's casual attack."

Su Yu's pupils shrunk. The spatial array in front of him was at the peak five-crowned emperor level.

To be able to destroy it with a casual attack, that meant its strength.

“Then, it didn’t discover the existence of your island?”

“It did! But it didn’t attack us.”

“Why?”

“Probably because it’s disdainful. Evil creatures at that level no longer care about eating people, but will cultivate on their own. If there’s no need, it won’t come out and eat people.”

They could cultivate? In that case, their intelligence was extremely high, far beyond those bloodthirsty purple monsters!

As they spoke, a large black shadow came from the depths of the sky. It was a black mass, like a moving ink cloud.

Jin yuan quickly said, “Quick, close the array. It’s very dangerous to break in.”

Su Yu looked at the three ships that had already escaped far away, then looked at the dust that was left behind.

This person couldn’t be said to be bad. At the very least, he could be angry for the crew. It could be seen that he was different from the other three heaven’s favorites.

It was just that they were very far away, and the group of black clouds had already enveloped his head. There was no time to save him.

He could only watch helplessly as the black clouds spun and fell, sweeping him away.

In an instant, Su Yu actually faintly saw a ball of golden light flash past the black clouds.

“Is it an illusion?” Su Yu muttered to himself.

The ink cloud was attracted by the blood here and had no intention of attacking the island. This made Jin Yuan and the others feel relieved and even more determined to leave the island.

Under the mobilization of the three five crowns of Jin Yuan, all the living beings on the island quickly packed up their things and moved into their cave world.

Looking at the empty cave world, Su Yu took out his earth furnace and sped in the direction of his return.
