

Nine-Dragon 2101

Chapter 2101 Sky Demon Blood Pill

A sharp-faced monkey-faced youth wearing a yellow robe pulled open the top-grade invisibility kasaya on his body without any warning and suddenly revealed himself.

The pupils of the two peak five crowns constricted when they saw this person, revealing deep reverence.

“Hunter King?”

There were only nine hunter kings so far, and the sharp-faced yellow-robed youth in front of them was the one who had recently received the title of Hunter King.

It was said that he had only used two hours to successfully capture the newly appointed prey that had just been placed in the royal hunting grounds. He had become the fastest hunter king in history.

They had never thought that the hunter king would actually lurk nearby.

With his formidable strength, he could clearly capture the prey in his hands.

However, out of careful consideration, he had actually waited until now.

They worked hard, but all of them ended up benefiting the hunter king.

At this moment, the Hunter King appeared within ten thousand feet of Su Yu. In addition, Su Yu had used up all of his moves, and there wasn't even a bit of primal energy left in his body.

He was indeed in an unprecedented desperate situation.

“Prey, your head, I'll take care of it for you.”The hunter king saw Su Yu's extraordinariness with his own eyes and didn't dare to be careless. He immediately attacked with all his strength.

A Ray of silver light shot out from his body and blotted out the sky and covered the earth.

A look of despair appeared on Su Yu's face. He was melted by the silver light without any resistance.

When the light dissipated, where was Su Yu?

There were only remnants of his torn clothes and a few drops of fresh blood. Other than that, everything else had evaporated completely.

The hunter King walked over and checked his surroundings. He shook his head slightly. “Isn't his body too weak? He was directly killed and turned into ashes.”

While he was thinking about this, he took out a jade record and pointed at it. The replay of Su Yu's death immediately appeared on it.

“Although I didn't bring back the corpse, I can still use this record.”The hunter king nodded slightly.

He stood up and suddenly caught a glimpse of the compass at his waist.

On the compass, an extremely clear golden light was still flickering.

And he was standing right above the Speck of light!

“Why is the Speck of light still there...” hunter king was slightly startled, and then his face turned pale as he shouted, “Not good...”

He immediately prepared to escape, but before he could do so, a speck of dust under his feet suddenly folded into a human figure.

It was surprisingly Su Yu, who was supposed to be shattered into pieces.

His entire body was covered in blood, and his aura was extremely weak, but his life was not in danger.

“Evil Dragon Nirvana!”

The moment he appeared, Su Yu suddenly transformed into a half-dragon and half-human existence. His pitch-black giant claws slashed through the hunter King’s chest.

His five fingers grabbed, and his heart instantly exploded.

The enormous force even shattered his body on the spot.

Blood splattered all over Su Yu’s face, making his half-dragon form look extremely ferocious.

In the span of a breath, the hunter King’s body was actually destroyed by a sneak attack!

The hunter King’s soul stood there in a daze, seemingly unable to believe that his body, as the hunter king, was suddenly destroyed.

He couldn’t believe what was happening before his eyes.

Su Yu’s face was covered in blood, and his eyes were bloodshot. “Don’t you like sneak attacks? As You Wish!”

From the very beginning, he had used his soul vision to discover the Hunter King hidden here, ready to launch a sneak attack at any time.

Therefore, no matter how difficult the battle with the earthly monk was, he was determined not to use the spatial fold and the evil dragon Nirvana to deal with the most dangerous hunter king.

Now, it seemed that the effect was very good.

Taking advantage of his unprepared state, he used all his strength to destroy the hunter King’s body.

Following that, Su Yu immediately activated his soul vortex and devoured his soul.

Su Yu immediately collected the things that the hunter King dropped on the ground and then ran at full speed.

The two peak five crowns reacted and immediately chased after him after taking a deep breath.

Su Yu followed the plan and went straight to the deepest part of the cave abode world.

There were no more peak five crowns in front of him to stop him. Su Yu relied on his half-dragon body and was like a dragon returning to the sea. There were no more obstacles.

After half a day, the pursuers behind him gradually became fewer and fewer.

Firstly, it was because Su Yu's half-dragon body was extremely fast and difficult to catch up to. Secondly, Su Yu's strength was quite powerful. The peak five crowns that had caught up to him had already died. Thirdly, Su Yu had already begun to enter the territory of the three Beast Kings.

As criminals, Su Yu was not in any danger when he entered. However, as hunters, they had to be mentally prepared for death when they entered the territory of the Beast Kings.

In the end, only two peak five-crowned emperors were left, chasing Su Yu all the way to the depths of the cave abode.

Su Yu was exhausted, and the primal energy in his body was also on the verge of being depleted.

Seeing that he was about to be caught, Su Yu suddenly saw a very abrupt mountain range.

Lightning surrounded the mountain range, and thunder rumbled incessantly.

Su Yu rushed into the mountain with quick steps. Seeing this, the two peak five-crowned emperors showed fear on their faces.

“Myriad Lightning Beast King!”

That Mountain was a magic treasure that the myriad lightning beast king had refined day after day with his own laws and lightning.

The fact that the treasure was here meant that the myriad lightning beast King wasn't far from here.

Looking at Su Yu who had escaped into the mountain, the two peak five-crowned kings thought for a while and could only retreat with hatred. “Consider him Lucky!”

With the Eye of heaven, Su Yu felt that the two of them had indeed left. He let out a long sigh of relief and fell to the ground, exhausted. He took a few deep breaths.

After taking a short rest, he immediately checked the items of the hunter king.

As the Hunter King, the resources he had were much more abundant than those of the Earth monk.

Just the number of pills that could increase the cultivation of an emperor was already over 80.

Su Yu casually grabbed a handful and pressed it into his mouth. The endless power of desolation in the world slowly recovered.

Apart from that, there were more than 20 attack talismans of a peak five-crowned emperor!

The most valuable thing was that he found a jade bottle that was tightly sealed by a jade lock.

Inside it was a blood drop that was constantly jumping around like a living creature. Its vitality was extremely strong.

“Sky Demon Blood Pill?” Su Yu's eyes revealed a trace of joy.

The Sky Demon Blood Pill was a divine item that could be compared to the Bodhi fruit of the Cangyang Mirror Daoist Huang Hall. It had an unexpected and wonderful effect on the cultivation of emperors.

After consuming it, one's cultivation would increase by a large margin.

If one was on the verge of breaking through, one could use the medicinal efficacy to break through the bottleneck.

After the hunter King obtained the Sky Demon Blood Pill, he had always wanted to use it when he broke through to the half-step dao master realm.

This time, he had planned to hunt Su Yu and obtain one more pill. Then, he would use both pills to increase the probability of breaking through.

However, things didn't go as he had hoped.

Not only did he fail to kill Su Yu, his soul was destroyed instead.

The Sky Demon Blood Pill that he carefully protected fell into Su Yu's hands.

Su Yu looked at the Sky Demon Blood Pill. His cultivation had been stuck at the middle stage of the four crowns for quite a long time.

During this time, he had been working hard to increase his cultivation and had long reached the verge of breaking through.

However, he lacked the opportunity and was unable to break through.

The Sky Demon Blood Pill at the moment might be able to help him break through to the late-stage of the four-crowns!

After reaching the late-stage of the four-crowns, he would be able to use the Bodhi fruit.

At that time, he would be able to directly raise his cultivation level by one realm and be able to step into the ranks of the five-crowns!

Chapter 2102 Shredding

However, since the two hunters were so wary of this mountain, it was obvious that this place was not a good place to stay.

With a whoosh, Su Yu left this mountain and headed deeper into the cave abode world.

The two hunters quickly left the Thunder mountain range.

“What bad luck! After chasing and intercepting him, he was still able to kill two peak five crowns. One of them was the previous Hunter King!”

“Don't worry. Unless he hides in there forever and never comes out again, he will die sooner or later.”

The two of them talked as they quickly left.

When they were about to leave the territory of the three Beast Kings, they met a woman who was surrounded by lightning.

Her facial features were pale and colorless. Complicated Lightning patterns were circling all over her skin, and a burning aura of destruction spread from her feet.

At first glance, it looked like a bolt of lightning.

She put her hands behind her back and said calmly, "Could it be that we haven't killed any hunters for too long, causing you to misunderstand that we are not scary?"

The two hunters' expressions froze. They were extremely terrified and said in a trembling voice, "Senior... Wan Lei!"

The lightning lady turned around and looked at the two of them calmly. She said calmly, "When you wanted to kill us, you called US Beast Kings. Why did you change your name to senior now? To be honest, I'm really not used to this title."

Plop --

A hunter immediately knelt down and banged his head. "Senior, please spare us! Senior, please spare us! We didn't mean to disturb you this time. We are chasing a prey and trespassing your forbidden area. Please Show Mercy!"

The other hunter crushed a spatial teleportation talisman without thinking and prepared to escape.

His actions were extremely fast. In the blink of an eye, he was sucked into the space and was already on the path of teleportation.

A look of disdain flashed across the Lightning Lady's eyes. Her eyes turned slightly white.

A terrifying bolt of lightning that was 30,000 feet thick suddenly descended in the sky.

The lightning flashed, illuminating the entire world with a blinding light.

When the light disappeared, a huge fireball descended from the sky and crashed onto the ground.

From the shape of the flames, it was the hunter that had escaped.

With just one glance, he had killed a peak five-crowned king with lightning.

Even though the other party had escaped to the end of his sight!

"Senior, please spare my life!" The hunter who was kneeling on the ground begged loudly.

The Thunder Breath Woman walked over with her hands behind her back and an indifferent expression on her face. "As for me, I admire a wise man who knows how to adapt to circumstances. Therefore, you won't end up like him."

"Thank you for your mercy, senior! Thank you very much!" The hunter who was kneeling on the ground was extremely grateful.

"Let me ask you, what kind of prey did the two of you work together to kill, and you didn't hesitate to enter my territory?" The Thunder Breath Woman asked.

With the reputation of the three beast kings, theoretically speaking, no hunter dared to enter this place.

The fact that they didn't hesitate to take the risk to enter only meant one thing. The prey that they were chasing was very special.

The hunter naturally didn't dare to hide and told the truth.

After learning that it was a prey that Pixin had personally chosen.., the Thunder Breath woman was extremely surprised. “That’s impressive. It’s very difficult for a prey that was personally chosen to live past two hours. Not only was this little prey able to live until now, it even managed to kill two peak five crowned emperors, including the Hunter King.”

After thinking for a moment, the Thunder Breath Woman’s eyes flashed. “Why was he personally chosen by Princess Pixin as a prey?”

“We don’t know that. We only know that he suddenly appeared in the world of the cave abode.”

A trace of disappointment flashed through the Thunder Breath Woman’s eyes. “You can leave now.”

“Many thanks, senior! Many thanks, Senior!”The Hunter was ecstatic as he immediately ran into the distance.

However, not long after he escaped, a purple lightning bolt that was like a strand of hair suddenly descended from the sky and pierced through his head.

A red dot appeared between his brows.

As the red dot continued to expand, the hunter slowly closed his eyes. His face was filled with unwillingness as he collapsed without any signs of life.

The lightning lady said calmly, “I said that I won’t let you end up like him. What I meant was that you will die a different way. I never said that I would let you go.”

After she finished speaking, she hooked her finger and pulled the compass into her palm.

Looking at the constantly moving golden light spots on it, the Thunder Lady’s lips curled into an interested expression. “He picked his prey personally. What’s the relationship between him and Princess Pixin?”

Chi La --

The sound of thunder could be heard as several flashes of lightning appeared. The Thunder Lady had already turned into a bolt of lightning and left.

Seven Nights Divine Capital, Imperial Palace.

Cat Susu was playing chess with Princess Pixin in the Imperial Garden.

After three games, Mao Susu pushed down the chess piece and said, “I’m not playing anymore. You know that I’m not in the mood to play chess.”

Her heart was filled with worry for Su Yu. How could she still have the mood to focus on playing?

Pixin smiled and picked up the chess piece. She threw it at her and said, “Little girl, we haven’t seen each other for a few years and you only think about men. You Don’t even want to play chess with me. You really value boys over girls.”

Mao Susu’s face turned red and she said helplessly, “How could I? You should know that I’m worried about his safety. It’s already been a day, so why hasn’t he come?”

She listened to Pi Xin and waited patiently in the palace for a day, but Su Yu did not come.

Pi Xin's face was not red and her heart was not beating. She just said it without thinking, "What are you worried about? Do you think I would harm him? Don't worry, the discipline of the divine guards is very strict. They need to follow strict procedures to release people. Perhaps they are still going through the procedures. Do you want me to hurry them up?"

"Forget it. How can I always trouble you?" Mao Susu felt bad.

Because of Su Yu's matter, Pixin had already gone to jail once. How could she have the nerve to trouble the other party again?

Although they were good friends, they could not trouble the other party again and again.

Moreover, Mao susu still felt that the relationship between them came out of nowhere.

Once, she had accompanied her father to the seven nights capital to report on his duties.

She was waiting in the back garden of the palace while the Demon Emperor was in front of her father.

Princess Pixin had coincidentally appeared there and shared the same interests as her. They soon became good friends.

From then on, Princess Pixin would occasionally visit Luo Yunzhou to play with her.

Cat Susu felt that Princess Pixin seemed to be deliberately befriending her, which made her feel surreal.

However, she couldn't tell exactly what the problem was.

"What is there to talk about between you and me? I'll ask the Divine Guards later and urge them." Princess Pixin giggled as she looked at Cat Susu, who was absent-minded, then, she said, "Seeing that you're tired, you should rest for today. Continue drinking the spiritual tea that I specially made for you. Your body will feel much better."

Cat Susu nodded her head to express her gratitude.

Yesterday evening, Princess Pixin had given cat susu a bowl of unique spirit tea.

After drinking it, she indeed felt her entire body relax, as if the shackles on her body that had been on her for many years were gradually being released.

After watching cat susu leave under the servant girl's service, the playful smile on her face completely disappeared, in its place was a deep and solemn expression. "Cat Susu, don't blame me for being ruthless. If you want to blame someone, blame them. There's something in your bloodline that shouldn't belong to you!"

Chapter 2103 Killing His Way Out

"In the past, due to your identity, it wasn't convenient to take it back. Now that your father has already sacrificed his country, why don't you follow suit and offer yourself?"

A merciless arc appeared at the corner of his mouth.

Caw Caw --

Suddenly, a crow flew over from the depths of the palace.

“The nine demon Prince’s Communication Devil Crow?” Princess Pixin frowned. “That useless trash, was he bullied by the three Beast Kings again? He’s really useless!”

However, another projection was projected from the ink crow’s eyes. The information displayed in it surprised Pixin. “He’s actually still alive and hiding in the territory of the three Beast Kings?”

Princess Pixin’s eyes flashed with uncertainty.

“Now is the critical moment to peel off the Wen Yuan fragment. She must not know that Su Yu is still alive,” Princess Pixin thought to herself.

If that was the case, would she still be willing to drink that kind of spirit tea?

And if she wanted to peel off the Wen Yuan Shard, she had to be willing.

That was why she kept accompanying cat susu to make her lower her guard.

Unfortunately, in a month’s time, the demon Emperor would personally come to the hunting ground to watch her and the nine demon Princes Hunt.

If Su Yu had not died at that time, it would have been easy for her to be exposed.

Cat Susu would also know sooner or later.

“Pass down my order. For those who hunt their own prey, the reward will be increased... tenfold,” Princess Pixin said.

She absolutely could not let Su Yu Live!

At least within a month, he must die!

What she did not know was that after he left, a little qilin appeared in the sky above the spot.

One of its hooves touched its chin, as if it was thinking.

Hunting ground.

Su Yu searched for a few times and finally found a relatively quiet and safe place.

He found a few defensive array disks from the hunter King’s storage space and made some simple arrangements nearby.

The most important thing now was to immediately increase his cultivation and strength so that he could save his life.

After making all the preparations, Su Yu swallowed the Sky Demon Blood Pill on the spot.

Instantly, a scorching hot current burst out from his mouth.

His entire face instantly turned red, followed by a wanton flow of blood. Finally, his flesh and blood began to fester.

The medicinal power of this pill was too overbearing!

The demons could barely withstand it because of their strong bodies.

However, as a human, Su Yu did not have such a naturally strong body. One could imagine what would happen if he swallowed the Heavenly Demon Blood Pill.

The scalding liquid slid down his throat and began to burn through his throat, trachea, internal organs, and other internal organs.

Half of his stomach had been severely festered because of the heavenly demon blood pill.

Although he had expected that the things of the demon race might not be suitable for humans to use.

However, he had not expected that the side effects would be so terrifying.

At the critical moment, he immediately used the law of life to continuously recover from his injuries.

His body was festering while he was recovering. The two constantly alternated, causing the pain to become several times more prominent.

Su Yu was in so much pain that his vision turned black, but he gritted his teeth.

Now was the most important moment. He had to persevere.

As more and more sky demon blood pills entered his body, the speed of Su Yu's body festering far exceeded the recovery speed.

Half of his body melted and turned into blood that dripped down.

If he wanted to, Su Yu could eliminate the heavenly demon blood pills in his body and stop his cultivation.

However, if he could not break through, he would die here sooner or later.

If he died, how could he reunite with Qin Xian 'er and Xia Jingyu?

"I can do it!" Su Yu gritted his teeth in pain. In fact, he had no teeth to bite because half of his head had melted, and his teeth and jaw were gone.

In the great pain, Su Yu felt that he had passed an extremely long time.

Finally, an entire day passed.

In Su Yu's perception, he felt as if he had passed an entire year.

In the hellish torture of melting his body and destroying his soul, finally, the medicinal efficacy of the Sky Demon Blood Pill began to enter Su Yu's inner world.

With the help of the tyrannical medicinal efficacy, the primal force in the inner world rapidly expanded, like a rapidly blowing up balloon. It continued to expand and expand. Finally, with a loud bang, accompanied by a loud boom..., the inner world exploded as if it was being torn apart.

The scale of the explosion in the inner world expanded to twice its previous size out of thin air.

The endless primal energy rapidly filled the inner world, making it stronger than ever before.

A powerful cultivation realm rippled around Su Yu's body.

“Late-stage four-crowned emperor? In terms of primal energy, it's twice as strong as before, and his body is twice as strong as before.” Su Yu secretly praised.

Now, even if he didn't rely on the law of life, his body was repairing itself at a speed visible to the naked eye.

“With twice the primeval power, the power of sword techniques and various laws should be greatly increased. If I meet the earthly monk again, perhaps I won't have to fight so hard,” Su Yu muttered to himself.

However, his cultivation couldn't stop.

A peak four-crowns emperor might be more than enough to deal with a mid-stage five-crowns emperor, but a peak five-crowns emperor would still be extremely difficult.

If one was not careful, their lives would be in danger.

The safest thing was to break through to the five crowns.

If he could train his swordsmanship to a higher level, he might be able to fight against the late-stage five crowns head-on.

However, the sound of his breakthrough had already attracted a considerable amount of attention. Three extremely powerful auras rapidly descended nearby.

Su Yu could only recover from his injuries as soon as possible.

After his injuries recovered, the three experts with different postures, whose cultivation made one shudder, appeared.

One of them was the Myriad Thunder Beast King, who was sizing Su Yu up with a faint smile.

The other two, one had the horns of a flood dragon on his head, and the other was actually covered in a metallic luster. They were clearly puppets.

Su Yu's heart trembled slightly. He knew that they were the three beast kings of this place. He cupped his fists and said, “I am being chased by hunters and have barged into this place to seek protection. Please forgive me.”

The myriad thunder beast king laughed lightly, “Of course we know. Otherwise, why would we tolerate you breaking through here?”

It turned out that no one had disturbed him.

Su Yu was already mentally prepared to be discovered by the nearby prey midway through the breakthrough.

In the end, the breakthrough process was unexpectedly quiet. There was no interference.

“Thank you, seniors,” Su Yu said.

The Flood Dragon Beast King was dressed in a golden robe. His bearing was majestic and seemed quite extraordinary. He sized up Su Yu and said, "Can you tell us what crime you committed? Why did she not hesitate to reward you ten times over?"

Hunters had already gathered at the periphery of their territory.

In the entire cave abode world, more than 90% of the hunters had gathered here. They were prepared to charge into this place and search for Su Yu wantonly.

The three beast kings were extremely curious about Su Yu's background. What kind of person was worthy of being hunted by Pi Xin at all costs?

Su Yu smiled bitterly. "If, I said, I actually didn't commit any crime, would the three seniors believe me?"

Unexpectedly, after hearing Su Yu's words, the three people's expressions became unfathomable.

The Myriad Thunder Beast King smiled faintly and said, "Of course I believe you, because the three of us are the same!"

"I was once the number one female prodigy of the seven nights divine capital. It was only because I was more famous than that Princess that I was taken away by the Divine Guards." After saying this.., the Myriad Thunder Beast King's eyes revealed a trace of hatred. "Then, they casually killed an innocent passerby in front of me and said that I killed him!"

"In the end, I came here! Fortunately, I was blessed with great luck. Not only did I not die, but I also successfully broke through to the half-step dao master level in a life-and-death battle."

Su Yu did not doubt at all that the princess would recklessly commit crimes because she was jealous of others.

"Guess again. How did this half-step Dao Master of the Flood Dragon Tribe come here?" The Myriad Thunder Beast King asked.

Su Yu thought for a moment and said, "It should be related to Princess Pixin, right?"

The Myriad Thunder Beast King nodded. "That's right. He was once one of the foster sons of the Demon Emperor. He was sent here in a fit of rage because he accidentally broke the porcelain that Pixin loved."

That princess was really willful just because of one thing.

"And this last one, you won't be able to guess his identity," the Myriad Thunder Beast King said deeply.

Su Yu thought for a moment. "Could she be Princess Pixin's relative?"

"She's the biological mother who brought her up!"

What?

Su Yu looked at the metal puppet in shock. Was Princess Pixin so vicious that she had to sacrifice her biological mother as prey?

“You must be very surprised!”The Myriad Thunder Beast King said. “Princess Pixin wanted to rely on herself to break through the shackles of her cultivation and become a dao master. That’s why she risked everything to accept the inheritance of the Heartless Dao Master.”

“And to cultivate the inheritance of the Heartless Dao Master, the first thing she shouldn’t do... is to kill her own flesh and blood!”

“To personally kill the person she loves the most, only then can she officially cultivate the heartless Great Dao.”

“She only thought about it for one night and decisively killed her own mother. However, her soul escaped into a puppet, and Pixin couldn’t do anything about it, so she threw the entire puppet into the hunting ground and was killed without doing anything.”

Su Yu took a deep breath. He had seen many people who did not recognize their own kin.

However, people like Pi Xin, who were heartless and unfeeling, were definitely the cream of the crop.

To be exact, Su Yu felt that women like her would usually live longer.

This was because she knew what she wanted and was willing to do anything to achieve it.

“This royal hunting ground was personally thrown in by Pi Xin. However, there are very few people who could be chosen by her as her prey. Including you, there are only ten people.”The Myriad Thunder Beast King asked curiously, “How did you provoke her?”

Su Yu said calmly, “I didn’t provoke her, but she wants to kill me!”

Looking at the three beast kings, Su Yu said, “Seniors, don’t worry. Before the hunters come in, I will leave your territory of my own accord. I will not implicate you.”

Although the three of them were powerful, there were too many hunters. Even if their individual combat strength was inferior to the Beast Kings, their overall strength was something the three beast kings could not contend against.

The Myriad Thunder Beast King was slightly moved. He stared into Su Yu’s eyes, “Aren’t you afraid of Death?”

Su Yu took out a sword and said, “Of course I’m afraid! I’m afraid of death. Those waiting, those oaths, those once beautiful hopes, they are all like the surface of a lake under the Moon. The hazy and fragile images are destroyed with the wind.”

“Therefore, I want to fight even more! In order not to die, I must fight!”

He knew very well that it was safe to stay here, but that was only for the time being.

Staying in a corner was only a moment of death.

If he wanted to live, he could only use his own sword, the enemy's blood, and burning hope to fight his way out.

Chapter 2104 He Drew His Sword And Rose

The Myriad Thunder Beast King gazed deeply at Su Yu. For a moment, her blood, which had been dormant for many years, began to boil.

However, his many years of cruel experience told him that if he fought his way out, the blood that would be left on the path of blood would only be his.

Wanting to shake the demon world by himself was like daydreaming.

“When to leave is up to you,” the Myriad Thunder Beast King said leniently. He did not chase Su Yu away immediately.

Su Yu cupped his fists deeply. “Thank you.”

After the three Beast Kings left, Su Yu slowly closed his eyes and took out a cultivated Bodhi fruit.

He raised his head and swallowed the Bodhi fruit.

Immediately, the Bodhi fruit produced warm and rich energy that seeped into Su Yu's inner world. It began to nourish the four walls of the inner world. In a very gentle way, it expanded the inner world to achieve the goal of a breakthrough in cultivation.

Compared to the Sky Demon Blood Pill, the Bodhi fruit's speed of improving cultivation was naturally much slower.

It was definitely not a breakthrough that could be completed in a day or two.

It was estimated that it would take at least a month.

He guarded his heart tightly while trying to comprehend the ninth style of the demonic sword technique.

This sword style had already reached the great success stage. If he could cultivate it to perfection, its power would increase by another level.

Time slowly flowed.

At the periphery of the Beast King territory, the hunters started to form groups from their initial scattered state.

With three Hunter Kings as the center, three hunting teams formed.

They were the Cat Demon Hunter King, the Ox Demon Hunter King, and the Wind Demon Hunter King.

Among them, the Cat Demon Hunter King's team was the strongest. They gathered eight peak five-crowns and forty mid-stage five-crowns.

Next was the Bull Demon Hunter King. There were six peak five-crowns and thirty mid-stage five-crowns.

Finally, there was the Wind Demon Hunter King. There were four peak five-crowns and twenty mid-stage five-crowns.

The total number of the three hunting teams had reached more than a hundred people.

All the elite hunters were gathered here.

The three teams were full of competition and cooperation.

“Exchange the auras of our three teams. If any team is attacked, the other two teams will immediately detect it.” The three Hunter Kings came to an agreement.

It was no wonder they were so vigilant. There was already a precedent of a hunter King’s death.

This time, the chosen prey was very powerful.

Princess Pixin had increased the reward tenfold so that she had to kill it within a month.

“The three of us will each choose a location. It would be best if we form an encirclement, but try to avoid the beast kings and not clash head-on with them. If they surround us and block us, we will immediately use the half-step dao master’s offensive magic treasure. If the three Beast Kings don’t want to die, they should know what to do.”

They didn’t want to clash with the Beast Kings either.

But if they had no other choice, they could only use the half-step dao master’s offensive talismans that they had prepared beforehand.

This was especially true for the cat demon, who had borrowed a dao artifact immortal embryo!

As long as one of the Beast Kings insisted on stopping them, they would use the Dao artifact immortal embryo to kill them even at the risk of their lives.

With ten times the reward, there was nothing that could stop them!

The three teams began to enter the periphery of the territory of the three Beast Kings.

The Beast Kings’ trusted aides were active all year round in the periphery.

The first thing they noticed was that while they sent back the news, they were frantically escaping.

They had never seen such a true-looking hunter team before. They were terrified and quickly retreated.

In addition, the Hunter team did not chase after them. Thus, the hunter team did not encounter any effective resistance along the way. They drove straight into the hinterland of the three Beast Kings.

When the news was quickly sent back, Su Yu opened his eyes tiredly.

After thinking hard for ten days, his swordsmanship did not improve significantly.

The ninth move was different from the other eight moves. It was a swordsmanship that could only be gradually improved after one move was honed.

It was not very useful to just rely on comprehension.

After learning that the three large-scale hunter teams had entered the Beast King's territory, Su Yu stood up.

His profound gaze looked towards the distant horizon.

He clenched his palm, and a sword appeared in it.

“Go! Face the enemy!” Su Yu's gaze was resolute. He took a step forward, and the space shook.

Only a series of afterimages and lingering killing intent lingered on the spot, not dispersing for a long time.

The Ten Thousand Lightning Beast King appeared here. It looked in the direction Su Yu had left with a complicated expression.

Xiu --

Su Yu appeared at the peak of an ancient peak.

The local prey called this peak the heaven-ceasing peak.

The meaning was that the heavens had severed all hope of this peak.

This peak was the peak that the creator of the hunting ground had condensed with the fingernails of the first generation of demon emperors.

Within the mountain peak, a powerful sealing power was born again and again. Day after day, it strengthened the barrier of the cave abode world, making it impossible for the prey that entered it to escape.

Su Yu sat in the pavilion at the peak of the mountain. He casually grabbed a pot of strong wine.

He poured a cup and drank it by himself.

When he finished the cup, the strong smell of wine rushed into his mouth and nose, and his throat was also spicy.

He did not remember how long it had been since he drank alone like this.

In his memory, the clearest image was the scene of him and Xia Jingyu drinking under the pear tree in the backyard of the commandery prince's mansion on the Divine Moon Island.

A hundred years passed in a flash.

The pear tree had withered while the person was still alive.

Perhaps the peach tree had withered and died of old age.

The backyard must have been filled with withered grass, unwilling to accept the scene of a hundred years ago.

It was neither human nor material. Only the memory remained.

The immortal-like figure under the pear tree was like a gemstone frozen in the darkness.

He had forgotten many things about the Divine Moon Island, or perhaps they were vague. But that beautiful figure was like an indelible pearl embedded in his memory, unable to be erased by time.

Under the pear blossom tree, the two of them danced together. That scene would probably become the final song.

In the future, perhaps he would no longer have the chance to return to the pear blossom tree with Xia Jingyu.

In this life, he only had memories.

Dong Dong --

The light air vibrated, shaking the flowing clouds at the end of the world.

They scattered and overlapped, like white clouds and old dogs that had been driven away, running in a panic.

The clear sky was covered with dark clouds in just a blink of an eye.

Finally, they turned into dark clouds, covering the entire area.

Tick-tock --

A clear raindrop fell on the ground.

The rain fell.

At first, it looked like a pearl falling to the ground. Then, it looked like a kite with a broken string. Finally, it looked like a curtain of pearls, weaving into an impenetrable curtain of rain.

It covered the mountains, the forest, and the small path leading to the unknown area.

Only the pavilion where Su Yu was standing had no wind or rain. It was like a lonely star that stood alone in the vast star area.

“Heaven, are you crying?” Su Yu murmured, “Or is Xia Jingyu crying? Or is it Qin Xian ‘er?”

He poured a glass of wine.

Splash --

The curtain of rain suddenly shook. It was the sound of space trembling, which caused the curtain of rain to overlap.

The enemy had arrived!

Twenty-five afterimages, dressed in black, broke through the curtain of rain, leaving behind afterimages that were difficult to extinguish in the world of rain.

Su Yu raised his eyes and looked at the human figures that were becoming clearer and clearer in his line of sight. He grabbed the wine cup and lifted it up.

The enemy had arrived, so the wine should stop.

He slowly stood up, and an invisible aura gradually spread out.

In the aura was Su Yu's indomitable will, his battle intent that had been dormant for a long time, and his hot blood that had forgotten countless years.

“Fight!”

Roar --

A sword cry sounded, and the longsword on the table seemed to respond to Su Yu's intense battle intent.

The sword cry rushed into the nine heavens, shaking the rain curtain and shattering the clouds.

A Ray of sunlight fell, shining on the pavilion, shining on the man and the sword.

Whoosh --

The space around Su Yu shook, and his entire body was swept away by an arc of space.

Chi --

An arc-shaped space crack suddenly appeared in the center of a middle-stage five-crowned Emperor's body.

His body was cut in half on the spot.

At the same time, a hand reached out from the crack and reached into the shattered body. With a grab of his five fingers, he grabbed a ball of soul.

The arc of space dissipated, revealing the figure in the middle.

It was Su Yu.

He grabbed the soul with his hand, and a crack opened up between his brows, pressing him into it.

The remaining blood in his palm slapped on his forehead, making his eye of devouring look like a giant mouth that had eaten a living creature. It was abnormally ferocious.

“He's eating souls?” Although the information indicated that he could devour souls, it was still a first for him to see it with his own eyes.

This was the first time he had seen it with his own eyes!

“There's no need to be afraid. Attack the formation according to the plan.” The wind demon hunter king calmly shouted.

The hunters calmed down. With their formation, why should they be afraid of a little four-crowned king?

“Space collapse!”

However, before they could get into formation, Su Yu pressed down with his five fingers.

In the area where the hunters were, the entire space seemed to have caved in, like a collapsed sponge.

“Retreat from this area immediately.” Their formation was in chaos.

However, at this moment, endless pitch-black sword shadows interweaved into a huge net and fell down, piercing through the flying people.

Human heads fell to the ground like ripe fruits.

Blood-red fountains scattered all over the sky.

The souls that soared into the sky were all sucked into a whirlpool.

Blood splattered all over the sky.

Along with the torrential rain, the sky and earth were dyed red.

Su Yu's silver-white hair was dyed blood-red unknowingly.

In the torrential rain, his disheveled clothes were scattered.

It covered his face, but it could not cover his eyes that were dyed blood-red by the blood.

"I don't like to kill people. Why are you forcing me?" Su Yu looked up at the sky and sighed. As he sighed, the rain became denser, drowning his voice in the rain.

The Wind Demon Hunter King sucked in a breath of cold air. In an instant, all the mid-stage five crowns were destroyed!

Only he and the four peak five crowns were left.

Looking at the bloody man in front of them, they felt like they were looking at a monster that had become a demon.

However, greed overcame fear.

The wind demon hunter king shouted, "Attack together, kill..."

The four peak five-crowned emperors moved at the sound of the wind.

Su Yu's blood-red right eye suddenly turned into a beautiful wine-red color. He said calmly, "Time, Freeze!"

In an instant, the five attacking people felt that their time was frozen and they couldn't move at all.

"Death, Destruction!"

Endless Death Qi erupted from the five people's bodies at the same time, crazily destroying the life force in their bodies.

Pu --

A peak five-crowned king with the weakest life force was directly destroyed by the law of death. Only his soul escaped..

No, he didn't escape. Instead, he was sucked into the whirlpool.

When the time freeze ended, there were only four people left.

Other than the Wind Demon Hunter King, who was in perfect condition, the other three looked old and had lost most of their vitality.

Chapter 2105 Total Annihilation

The Wind Demon Hunter King's heart skipped a beat.

Su Yu's strength had far exceeded his expectations.

Especially those endless laws. He had no time to think about how a person could have several laws at the same time, and each of them was one of the eight supreme laws.

He only knew that he had to use his full strength.

"If you have any trump cards, just take them out! This prey is extremely dangerous." The Wind Demon Hunter king shouted in a deep voice as he took out seven to eight long distance attack talismans.

Each of these talismans had the strength of a peak-stage five-crowned emperor. If they were released together, even the strongest peak-stage five-crowned emperor would be annihilated.

The other three extremely old hunters who had little life left also felt fear.

They didn't dare to hold back anymore and took out their trump cards.

One of them had five attack talismans, one had the talent of spitting out terrifying flames, and the last one was a dual-pupiled person.

"Attack!" The four of them each took a direction and attacked from all directions.

Under the cover of Su Yu's blood technique, his bloodshot eyes were suffused with an icy cold light.

"Fate, Slash!"

The formless Blade of fate broke apart everything in the world that was connected by fate.

The offensive talismans in their hands immediately lost the connection with their minds. The talismans that they had refined seemed to have their connection cut off.

The flame-breathing Hunter's face suddenly changed. He couldn't sense his talent in spitting fire.

The last person with Polycoria suddenly covered his eyes. Two lines of blood flowed out from the depths of his eye sockets. "Ah! My Eyes... are destroyed!"

The Wind Demon Hunter King's expression changed drastically. His face was full of fear. "Time, space, death, Fate... you own half of the eight profound laws of heaven and earth? Impossible! How can the Heavenly Dao accommodate an existence like you!"

The only one who answered him was Su Yu's even colder light. "Soul, shake!"

Suddenly, his eyes shone with white light. Regardless of whether they looked into Su Yu's eyes or not, they could feel the immense pain in their souls.

It was as if there were sharp blades stirring in their souls, causing them unbearable pain.

"There's still the Soul Law!" The Wind Demon Hunter King turned pale with fright. he shouted anxiously, "Charge over. We Can't give him another chance to attack."

Everyone was shocked and rushed over.

The four of them approached Su Yu at the same time, and with the force of slapping the sky, they destroyed Su Yu.

“Time and space... Reverse!”The purple and wine-red light in Su Yu’s eyes shone brightly.

With Su Yu as the center, within a radius of ten thousand feet, a two-colored independent space-time interweaved.

The space-time there kept reversing.

Their states were all rapidly regressing, including their cultivation bases and ages.

“Eternal Life!”Su Yu’s entire body was releasing an endless stream of green vitality to replenish the life he had lost in the time reversal.

The other four people’s bodies were constantly changing at a speed visible to the naked eye. From their current tens of millions of years of age, they had regressed to millions of years of age.

Their states had also returned to that time.

The first to fall back to the middle stage of the five crowns were the three hunters.

Their already aged bodies had also returned to their youth.

After that was the hunter king. His cultivation level had reversed, and he was about to fall below the peak of the five crowns.

The Wind Demon Hunter King was already extremely terrified.

He felt that he wasn’t hunting a single person, but the Omnipotent Heavenly Dao.

“Wind Core, explode!”At this critical moment, the wind demon hunter king slapped his chest.

However, with a Kacha Sound, an extremely huge tornado appeared around his body and forcefully swept him and the other three hunters away, leaving this dangerous place.

However, they had just arrived at a safe place.

A voice that sounded like a nightmare exploded in their ears, “Time and space... Freeze!”

In an instant, even the rapidly rotating tornado did not move.

The four of them could not move at all. To be more precise, even their thoughts were frozen forever.

Su Yu stepped on time and space as he came over. The longsword in his hand pierced through the heads of the four of them one by one.

The three hunter kings whose cultivation had fallen could not withstand this sword. Their heads exploded one after another, and their souls were taken away on the spot.

Roar --

The time and space freeze ended, and only the hunter King was left.

He maintained the state he was in before the freeze and roared, “The three of you, split up and adjust your strategy...”

However, what entered his eyes were three headless corpses.

He was stunned on the spot.

He felt as if there was a gap in time. Why did the heads of a perfectly fine person suddenly disappear.

Only when a pair of ice-cold eyes entered his eyes did he feel fear from his soul.

He was the only one left in the entire hunter team.

A chill rose from the bottom of his feet, causing him to shiver all over.

He let out a terrified cry and lost all will to fight. He hid within the tornado and quickly fled.

Su Yu slowly extended his right index finger and pointed at him from afar. “Ultimate!”

With a sweep of his sword, the tornado was cut into pieces.

The Hunter King who was hiding within fell out and fled in panic.

As a peak five-crowned king, he instantly fled hundreds of millions of mountains and rivers.

However, he barely stopped when he suddenly felt the top of his head darken.

He looked up and saw a pair of huge wings that spanned hundreds of thousands of feet in the sky flapping gently, blocking the sky and covering the sun.

In the middle of the wings, a tiny bloody man looked at him coldly.

At this moment, the Wind Demon Hunter King was really scared out of his wits. He screamed in fear, “Ah! I don’t want to hunt anymore!”

He wanted to escape again, but he was swept down by a six-colored chain.

Pu --

His body was directly crushed into meat paste by the six-colored chain!

At the same time, a huge palm pressed down and grabbed the soul that was carrying him in space and was about to escape. Then, it was pressed into the soul whirlpool.

At this point, the Wind Demon Hunter King’s team was annihilated!

A total of twenty-five people, none of them survived!

At the same time.

The Cat Demon Hunter King’s team and the Ox Demon Hunter King’s team both stopped in their tracks.

A look of shock and fear flashed across the Cat Demon Hunter King’s eyes.

“The Wind Demon Hunter King’s team... is completely annihilated!” He stared at the compass in disbelief, the spot of light that had completely disappeared.

As well as the remaining golden spot of light.

One person annihilating a team?

How terrifying was his combat strength?

The Ox Demon Hunter King's team also stopped in their tracks, staring at the remaining golden light spot in shock.

What made them rush over was that the golden light spot was speeding towards them.

That speed was actually ten times faster than their hunter king.

The Ox Demon Hunter King's expression was solemn as he hurriedly shouted, "Prepare for battle! The prey is coming towards us!"

Six Peak five-crowns and thirty mid-stage five-crowns were shocked.

The destruction of the Wind Demon Hunter King's team had left an indelible shadow on them, and they no longer had the confidence to kill.

Only now did they realize that what they were hunting was not an ordinary prey, but a terrifying existence that was no less dangerous than a beast king.

Rumble --

Before they were ready, Thunder suddenly rumbled in the sky.

Bolts of lightning danced wildly in the sky.

From Afar, endless dark clouds rolled over, like a giant hand that covered the sky, slowly sweeping across the horizon.

Many hunters fiercely spat, staring at the pitch-black world under the dark clouds.

It was as if the endless dark region was devouring this world.

They were about to be devoured as well.

Hualala --

The sound of rain approached from afar and covered the earth, forming a hazy curtain of rain.

The Bull Demon Hunter King looked at the compass. It showed that the golden dot of light was right in front of them, under the pitch-black ink cloud.

Gulp..

No one knew who it was, but they swallowed hard and let out a soft sound.

An invisible fear spread among them.

At this moment, a weak blood light suddenly appeared under the pitch-black ink cloud.

He came from the end of the world and magnified bit by bit, appearing demonic and evil in the graceful misty rain.

In the end, the entire pitch-black ink cloud was illuminated blood-red.

Looking over, it turned out to be a human covered in blood.

His body was dyed with the divine blood of the monster race. It was the light refracted by the divine blood that made the dark clouds so blood-red.

He walked step by step, slowly extending along with the dark clouds above his head.

It was as if a blood demon had climbed out of Hell and descended to the human world.

Finally, the dark clouds covered their heads.

The world gradually darkened. In the entire world, only the bloody figure was emitting a dazzling blood-red light.

It was as if he was the only one in the world.

“Kill!” Bull Demon Hunter King realized that the fear that he had not felt for countless years was once again lingering in his heart.

He trembled and gave the order to kill.

The thirty-six hunters suppressed their fear and attacked together.

The overwhelming attacks dazzled the dark sky and covered the bloody figure’s light.

In the end, the blood-colored figure disappeared without a trace, as if he had died within.

However, the enormous shadow above their heads told them that he wasn’t dead.

Chi --

A soft sound resounded in the silent darkness.

A speck of dust, which had been shattered by them into pieces, grew bigger and bigger in their eyes, turning into a blood-colored figure bit by bit.

He was unharmed!

“Sword!”

Clang --

The blood-colored human figure waved his finger and ninety-nine longswords of different shapes appeared behind him and revolved around him.

He was like the King of swords, commanding all the swords in the world.

“Ultimate Sword!”

A sword flew out and released thousands of sword shadows, weaving into a net and enveloping them.

The bull demon hunter king shouted, “The power of the sword technique is average. Defense is enough.”

“Two void return swords!”

“Three void return swords!”

“Four void return swords!”

..

“Ninety-nine void return swords!”

However, one sword shadow net after another came pressing down.

They could block one sword.

They could block ten swords.

Then how could they block twenty swords, thirty swords, or even ninety-nine swords?

At the 60th sword, the ordinary mid-stage five-crowns were gradually unable to block and were suppressed by the continuous sword net.

At the 70th sword, there were already casualties.

At the 80th sword, more than half of the mid-stage five-crowns were cut into pieces.

At the 90th sword, only a few mid-stage five-crowns survived by relying on powerful magic treasures.

On the 99th sword strike, they were all killed along with a few regretful screams.

Only the Bull Demon Hunter King and the six peak-stage five-crowned emperors were left.

However, their bodies were covered in wounds, and their auras were a little weak.

Looking at the blood and flesh on the ground, they all looked terrified.

Thirty mid-stage five-crowned emperors were all killed!

“Soul, Devour!” What made them even more terrified was that the crack between Su Yu’s eyebrows suddenly doubled in size, releasing ripples that swept across an endless distance.

Chapter 2106 Another Group Was Destroyed (Second Watch)

The seven of them could still feel their souls being pulled out, let alone those who had lost their bodies?

However, they saw their souls being pulled out one by one and sucked into those split eyes.

Before, they had devoured the souls of 25 people, five of which were peak five-crowns.

Now, he had devoured the souls of thirty peak five-crowns.

Su Yu’s soul power increased dramatically, instantly breaking through to peak five-crowns.

His body had a faint feeling of expansion. It was a sign that his soul was too powerful, causing his body to be incompatible with his soul.

If his soul became stronger, then his body would explode.

His body, which had been cultivating for many years, would be destroyed.

The Bull Demon Hunter King and the others wanted to save their companions' souls, but they couldn't do anything in front of the terrifying soul-devouring force.

They could only watch as Su Yu ate all the souls.

At this moment, they could clearly feel that Su Yu had an extremely powerful soul in his body, which was even stronger than theirs.

“Don't give him the chance to attack!” Someone shouted, and the seven peak five crowns all attacked.

Su Yu looked over, and his eyes were filled with a piercing white light. “Soul, Shatter!”

Ah!

He glared over, and suddenly, apart from the Bull Demon Hunter King, the other six peak five crowns all felt intense pain in their heads.

It was as if their souls had been hammered by someone, causing their souls to shatter.

“Time, Freeze!”

Su Yu looked over again. Purple light enveloped the seven people, causing their bodies to stiffen and be unable to move.

He took a step forward and summoned the seven talismans of the wind demon hunter King and the others, stuffing them into each person's mouth.

When the time freeze ended and they were so terrified that they wanted to spit out the talismans, su yu said indifferently, “Explode.”

Boom ——

Seven Loud Bangs that shook the sky were accompanied by the blood that was blown up and dyed the sky.

The six peak five-crowned emperors died tragically on the spot. Their bodies were shattered, and their souls were destroyed as well.

Only their feeble souls were left.

Su Yu hooked his finger and swallowed them all, storing them in the depths of his eyes.

In the end, only the ox demon hunter king, whose body was seriously injured but not dead, was left. His eyes were filled with fear, and his will to fight quickly disintegrated.

It was not difficult to kill him in front of an expert who controlled time and the eight Great Soul Upanishads.

As long as he was frozen and stuffed with another talisman, he would be able to send him on his way.

Plop --

The Bull Demon Hunter King kneeled on one knee and begged, “Please spare my life, senior. I'm willing to be your slave.”

Su Yu looked at him quietly and asked, "If I was at the mercy of others, would you spare my life?"

Of course not! Su Yu's life was priceless. It was even more valuable than the life of a half-step Dao Master.

He said this in his heart, but his face was full of sincerity. "I Will!"

Su Yu shook his head slightly. "You have already decided your own fate in your heart."

His eyes suddenly turned pale and released an incomparably powerful and blinding light.

The Bull Demon Hunter King covered his head and roared sternly.

Sensing the approaching death, the Bull Demon Hunter King knew that he would definitely die. The other party wouldn't let him go, and his eyes flashed with viciousness.

"Then let's perish together!"

The Bull Demon Hunter King suddenly transformed into a ten thousand feet tall green bull, opening his mouth and spitting out a ball the size of a small house.

Within the ball, an incomparably powerful energy was instantly released.

That was the demon race's unique demon core. Their inner world was within the demon core.

At this moment, the demonic core rapidly expanded and then exploded with a bang.

The terrifying energy instantly destroyed everything in the surroundings.

Even space was destroyed into cracks. At this moment, even spatial translocation could not be done. Any space divine art seemed to be ineffective.

Su Yu was struck by the explosion on the spot. His body exploded into dust under the sudden blast wave.

When the dust settled, a weak voice came from the center of the explosion.

"Rise from the dead and come back to life."

An emerald light flashed. Su Yu's body slowly reconstructed from his bones to his meridians and finally to his skin.

His eyes couldn't hide his exhaustion.

After using the eight profound meanings, hundreds of ultimate, and several times of soul energy, both his body and soul were exhausted.

He was almost at his limit.

However, only half of the enemies were killed.

And the other half!

To be exact, the last half was the main force.

He found a large batch of pills from the space storage that he had seized. He stuffed them into his mouth like sugar pills to replenish the desolate energy that he was severely lacking.

At the same time, the entire Beast King territory was shaken by the self-explosion.

The Cat Demon Hunter King's team, which was rushing over, stopped in shock.

The Cat Demon Hunter king immediately took out the compass and took a look. His pupils shrank.

The Ox Demon Hunter King's team was completely wiped out!

They were wiped out again!

If the Wind Demon Hunter King's team was wiped out because they were weak, then the destruction of the Ox Demon Hunter King's team was enough to show the seriousness of the situation.

The chosen prey this time was definitely an extremely dangerous existence.

After pondering for a long time, the Cat Demon Hunter King said in a deep voice, "Middle-stage five-crowned champions, all retreat. Ten people in a group, choose guerilla warfare."

The prey was so powerful that if the middle-stage five-crowned champions gathered together, they would be easily wiped out.

Instead, they might as well scatter and let their peak five-crowned champions be the main force. They would act according to the circumstances.

The personnel were quickly rearranged, excitement flashed in the Cat Demon Hunter King's eyes. "It's been a long time since I've had such a sense of hunting. It's been a long time since I've encountered such a challenging prey. I hope that the immortal embryo in my hands will not come in handy."

At the same time.

In the Imperial Palace, Princess Pixin was very serious about her trip to the ancient dream forbidden land.

The ancient dream altar was very dangerous. She couldn't make a wrong move with every step. She needed to make a deduction for every step she took.

However, she couldn't calm down, so she couldn't continue to make deductions.

"Ask about the hunting ground. What's the situation?" After a few days, there was still no news of victory.

Not long after, the nine demon prince personally returned from the hunting ground and kneeled in fear and trepidation. "Greetings, Princess."

As the adopted son of the Demon Emperor, the nine demon prince knew his status very well. In front of Princess Pixin, his status was not much higher than that of a servant.

Hence, he did not dare to anger Princess Pixin.

"Urge the hunters to speed up their actions. There has been no news for several days. Their reactions are too slow," Princess Pixin said indifferently.

The nine demon prince revealed a trace of panic and said, "Princess... We just received the latest information. Please take a look."

He handed over a compass.

Princess Pixin's beautiful eyes swept over it. She knew that the golden light spots were Su Yu. The rest of the light spots around Su Yu should be hunters.

Princess Pixin's beautiful brows curved slightly. "Only forty-nine hunters?"

She was slightly displeased and coldly said, "Are you not satisfied with my ten times reward?" She felt as if her dignity was being challenged.

The nine demon prince hurriedly said, "Princess, there are actually two more teams. The total number of people is more than fifty people."

Only then did Princess Pixin's expression soften a lot. She berated, "Then where are they? Could it be that they haven't joined the encirclement yet?"

The nine demon prince lowered his head, not daring to look Princess Pixin in the eye. "They... have all been wiped out."

"Wiped out?" Princess Pixin was stunned for a moment. Then, her eyes flashed with ruthlessness. "Great, the three Beast Kings Dare to publicly protect the person I want to kill?"

The nine demon prince lowered his head even deeper and said, "Reporting to the Princess, the three Beast Kings did not appear. It was... it was that person who picked the prey personally."

Hearing this, Princess Pixin's expression changed. "What, he alone?"

Shock flashed in her eyes. "How are the other two teams?"

The nine demon prince did not dare to hide and said, "There are two hunter kings, ten peak-stage five crowns, and fifty mid-stage five crowns. A total of fifty-seven people!"

Kacha --

Princess Pixin suddenly stood up. Because she used force, she broke the jade table with one palm. Her beautiful eyes flashed with shock. "He actually has such strength?"

At first, she didn't even have Su Yu in her eyes. She just thought of him as an ant that she could crush to death with one finger.

That was why she dared to throw him into the cave world and let the Hunters kill him.

Now, it looked like he wasn't an ant at all?

He was clearly a flying dragon that looked like an ant.

She felt some regret in her heart. Her actions back then seemed to have been a little reckless.

If she had known that he had such strength, she would have either killed him on the spot, or she would have tried to win him over like how Cat Susu did.

However, it was already too late to say anything now.

A deep killing intent flickered in his eyes. They were already enemies, unmistakable enemies. Therefore, it was impossible to win him over. She could only do whatever it took to turn him into a dead person.

“Pay close attention to the situation and report to me at any time,” Princess Pixin said.

The nine demon prince nodded. When he left the princess’ bedroom, his entire body was wet, as if he had just walked through the gates of Hell.

In another part of the palace.

Mao susu was still quietly waiting for Su Yu.

Creak..

The palace maid brought over a warm spiritual tea and said, “Please have it, Miss Mao.”

Mao susu nodded and said, “Put it down and drink it later.”

She was filled with anxiety and did not have the mood to drink the tea.

The palace maid’s eyes flashed and she left slowly.

After wandering around the room for a long time, the more Mao Susu thought about it, the more she felt that something was wrong. It had already been a few days, why did Su Yu not come?

Was Pixin hiding something from her?

After thinking hard for a long time but to no avail, she looked at the spiritual tea on the table and casually picked it up to drink.

Unexpectedly, a cloud of pink mist suddenly flashed in front of her eyes. One of its claws reached out and knocked over the spiritual tea in her hand.

Cat Susu was shocked and hurriedly retreated. She berated, “Who is it?”

In the Mist, a limping little qilin with an injured leg emerged.

“It’s You!” Cat Susu naturally recognized it as Su Yu’s spiritual pet and said in surprise, “You’re here. Is Su Yu here? Is Pixin trying to surprise me?”

The little qilin spoke in human language and stared at her as if she was a fool. “Su Yu was already in the Imperial Palace.”

“Really? Then why didn’t he come to see me?”

“Because he’s in the hunting ground.”

Cat Susu was puzzled. “Why? He came to the Imperial Palace and didn’t come to find me. Instead, he went to the hunting ground to catch prey. He really doesn’t care about me at all. To think that I’ve been worried about him all this time.”

The little qilin laughed and said, “He really wants to care about you. Unfortunately, now that everyone is hunting for prey, he doesn’t care about you.”

Cat Susu was stunned and asked suspiciously, “He’s a prey?”

Chapter 2107 Tough Battle

“Why else do you think Su Yu hasn’t come to see you for so long?” Little Qilin jumped onto the table. Due to the injury on his right hind leg, he subconsciously retracted his leg, making him look comical.

However, little qilin couldn’t laugh. He couldn’t laugh at all!

Cat Su thought she heard wrong and stuttered, “Did the divine guards make a mistake? I’ll ask Niu Niu right away.”

Little Qilin lowered his gaze and looked at the spirit tea that was knocked to the ground. He said lightly, “If you want Su Yu to die faster, you can ask that princess friend of yours as soon as possible.”

“Her? What does it have to do with her?” Mao susu was stunned and asked.

Little Qilin did not want to pay attention to her and stared at spirit tea without saying a word.

When Mao susu saw that little qilin’s gaze was not right, she tried to say, “Are you saying that Niu Niu did everything? No, Niu Niu is not that kind of person.”

She subconsciously defended Princess Pixin.

Little Kirin didn’t want to talk to such a stupid woman anymore, he said calmly, “Then you should get along well with your princess friend. I hope that one day when you are stabbed to death by her sword, you will still think this way.”

As he said that, little kirin turned into a cloud of pink mist and prepared to leave.

“Wait! I didn’t mean to doubt you, but Niu Niu is my good friend, why would she...” actually, Mao susu understood that their friendship came out of nowhere.

When the little qilin said that Su Yu was in the hunting ground, she already understood that it might really be pixin’s doing.

It was just that she couldn’t accept it.

“Yeah, what a good friend would poison your spirit tea and cause your bloodline to Wither Day by day?” The little qilin said disdainfully, “What kind of stupid friend would willingly drink this kind of spirit tea every day?”

Cat Susu was stunned. She looked at the spirit tea spilled all over the floor and said in disbelief, “Poison?”

She bit her lips tightly and thought for a moment. Then, she took out a small bottle with a pitch-black bug in it.

This was the famous spirit devouring bug, and it had a very sensitive reaction to spiritual objects.

Correspondingly, it was the same with poisonous objects.

The spirit devouring bug lay in the residual juice of the spirit tea and took a sip. Immediately, the wings on the Spirit Devouring Bug’s body flickered with a deep pitch-black color. At the same time, it shook its head vigorously and stopped absorbing the spirit tea.

Cat Susu's body trembled and her face turned pale.

The reaction of the soul devouring bug was enough to explain everything.

There must be something in the spiritual tea that she could not sense.

“Niu Niu... Princess Pixin actually poisoned me? Why?” Cat Susu still felt that everything was not real.

The little qilin asked in return, “Then, as the daughter of the regional king, how do you think you can be friends with the princess who overpowers the Demon World? Because you can act cute?”

Cat Susu was not so stupid that she could not be saved. She said weakly, “You are saying that she wants the Wenyuan fragment in my bloodline.”

“What else?” Little Qilin was speechless at Cat Susu.

Was there even a need to ask the most obvious thing?

Cat Susu's face turned pale bit by bit. In the end, she completely realized the reality. Her eyes were filled with deep anger. “You are a complete liar! You even want to harm brother Su Yu because you are afraid that he will take away my Wenyuan fragment, right?”

The little qilin applauded in approval. “Your IQ has finally woken up.”

Cat Susu had been kept in the dark all this time. She had placed too much trust in Pixin, so she appeared foolish and ignorant.

Now that the truth was more than half out, her eyes regained their liveliness.

Her eyes were filled with traces of hatred as she said, “The most important thing now is to rescue brother Su Yu. However, I don't know anyone in the palace. If I were to ask for help, I'm afraid that Pixin would be the first to know.”

“We can only rely on ourselves!”

The Little Qilin's eyes lit up. Cat Susu was not stupid. She said, “I came to look for you because I want you to help me. Send me to the hunting ground and give all of Su Yu's things to him.”

Before Su Yu was imprisoned, the nine Jade Spirit Pearl and the Buddha Pearl were taken away by the little qilin and did not fall into the hands of the divine guards.

Now that Su Yu had nothing, the situation in the hunting ground could not be described as terrible.

Mao susu said, “Other times, it would be as difficult as ascending to the heavens to enter the hunting ground. Only half a month later, when the demon Emperor personally comes to the hunting ground to watch the princes hunt, will outsiders be allowed to watch.”

The little qilin frowned. “Will he have to wait for a month? Can he hold on until then?”

He had tried to enter the hunting ground, but the spatial barrier around the hunting ground was sealed by the Dao master himself. Even if she turned illusory into real, it would be difficult for her to enter.

“I hope the heavens can help him. After a month, I'll secretly bring you in and find Su Yu.”

..

At this moment.

Su Yu had barely recovered his primal energy to its peak, but the exhaustion in his soul could not be removed.

He counted the things he could use.

He used up all his swords.

He only had three peak five crowns Emperor Talismans left.

The pills were only enough to restore his primal energy once.

There were only so many that could be used.

But there were still half of the enemies left.

Glancing at the compass, the enemies had already sensed Su Yu's strength. They changed their attack strategy and started to split up into groups of ten.

Among them, there were nine groups of light spots that were rushing towards this place.

There were also four groups of ten people that were rushing towards this place.

Su Yu stood up and stared at one of the groups of ten people.

With a tap of his toes, he flew towards them.

In the end, the moment he moved, that group of people sensed him and all of them retreated to avoid coming into direct contact with Su Yu.

The nine-man group changed their direction and chased after Su Yu.

“Can you escape?” Su Yu looked at the light spot where the ten-man group escaped, and the huge wings on his back spread out.

In a breath, he landed in the sky above them.

“Spatial Lotus!”

A distant voice sounded above the heads of the ten middle-stage five crowns.

Before they could react, they were sealed by a spatial lotus. As the lotus petals bloomed, the sealed hunters were all killed.

Their souls and spatial storage items were all taken away.

There were only corpses and nothing else.

Su Yu's figure hadn't even been revealed!

The Cat Demon Hunter King's expression changed. “Not good. He's proficient in some kind of terrifying escape technique. All mid-stage five crowns hunters, spread out and single-handedly...”

He didn't finish his sentence. The remaining three groups of hunters on the compass were all extinguished.

Not a single one survived.

“So Ruthless!” A peak-level Hunter’s eyes were cold.

In the blink of an eye, all forty intermediate-level hunters were killed.

A few days ago, they had almost a hundred hunters, but now, only nine of them were left.

The rest of them were all killed.

“This prey is brutal and murderous. No wonder he was chosen by Pi Xin!”

“As the pillars of the demon world, we have to exterminate this evil!”

The remaining nine people were united with the Cat Demon Hunter King as the center.

They did not advance recklessly, but began to plan meticulously.

Su Yu looked at the compass and saw that they did not attack immediately. His eyes shone with a cold light. He raised his head and swallowed a handful of pills. Then, he shot toward where the nine people were.

The moment they appeared, the nine people split up into three groups.

One group led by the Cat Demon Hunter King stayed where they were, while the other two groups instantly fled to a distance of 30,000 feet.

“Freeze time and space!” The moment they appeared, Su Yu immediately used two laws to trap them inside.

His eyes were filled with fierce killing intent. He turned into a half-dragon half-human body and clawed at the Cat Demon Hunter King’s body.

However, at this moment, the six hunters who had escaped to a distance of 30,000 feet suddenly turned around to save him.

They each used their powerful laws to stop Su Yu.

Su Yu had no choice but to fight back.

“Time, set!”

However, he managed to stop them. Time and space stopped.

A trace of confusion flashed across the eyes of the Cat Demon Hunter King and the other two. Then, they felt a slight joy in their hearts. They knew that their tactic worked.

No matter how powerful Su Yu was, there was only one person in the end, and they had six people.

“Seamless dust.” The Cat Demon Hunter King immediately activated his own law. The other two hunters also cooperated with each other very well.

They each made their own moves and blocked Su Yu’s escape route.

At the same time, the six hunters who had been frozen by time also began to regain their freedom.

Once they joined the siege, Su Yu would definitely die with hatred in his heart.

“Taiji Yin-yang wings.” Su Yu flapped his ten thousand feet wings suddenly. The endless hurricane sent them flying while he himself flew countless distance away.

The Cat Demon Hunter King revealed a trace of disappointment and sighed, “Just a little more...”

As he spoke, he looked at the nine people gathered and immediately realized that something was wrong. “Quickly disperse.”

However, he was still a step too late.

Su Yu, who had already left, suddenly charged back. Before he even appeared, he had already made his move. “Space, Freeze!”

“Time, Freeze!”

“Soul, follow!”

“Death, Destruction!”

Once he appeared, four supreme laws were unleashed simultaneously.

First, they were locked down by the surrounding space and were unable to scatter and escape. Then, they were sealed by time and were unable to move.

Then, there was the intense pain from their souls, causing them to lose the ability to resist in time.

Finally, there was the terrifying law of death, madly destroying their vitality.

At the same time, the half-human half-dragon that Su Yu had transformed into swooped down. Before the time freeze ended, its sharp claws pierced through a hunter’s chest, crushing him into pieces.

At the same time, the long dragon tail instantly wrapped around a hunter’s head.

At the last moment of time freeze, the soul and storage space of the two hunters were taken away, and they immediately disappeared into the distance.

“Die...” the Cat Demon Hunter King was furious. He took out his immortal embryo and launched a deadly attack.

However, Su Yu’s reaction was extremely quick. He had long left this place, so he couldn’t find his target.

Looking at the two sacrificed companions, the Cat Demon Hunter King’s eyes were particularly gloomy.

He had lost two companions due to carelessness.

Out of nine people, only seven were left.

“Divide into two groups. Four people will form a group, and three people will form a group. Maintain a distance of 30,000 feet at all times and support each other. Remember this lesson. Next time, don’t give Su Yu a chance,” the Cat Demon Hunter King said in a deep voice.

The two groups maintained a distance of 30,000 feet and chased after Su Yu who was extremely far away.

Su Yu, on the other hand, rested for a moment. While he was recovering his lost primeval energy, he was searching for the two hunter storage items.

There were three swords.

The pills were enough to recover his cultivation five times.

There were four attack talismans.

Including the current attack talismans, there were a total of seven.

Chapter 2108 The Princess Arrived In Person (Fourth Watch)

Following that.

Su Yu and the two groups engaged in a prolonged pursuit and counter-pursuit.

He had the Taiji Yin-yang wings, so for a moment, the Cat Demon Hunter King team could not do anything to Su Yu.

Similarly, they worked well together, and Su Yu never found an opportunity to attack.

Both sides fought over a hundred battles, large and small, and nearly one-tenth of the cave abode world was destroyed by their battle.

Within the Beast King Forbidden Ground.

The three Beast Kings gathered.

The Myriad Lightning Beast King had a complicated expression. "I never expected him to last so long."

The Flood Dragon Beast King gloated. "Perhaps that sister of mine never dreamed that the prey she randomly picked would be such a difficult person to deal with."

The metal puppet sighed deeply. "Pixin has made many mistakes. When will she be able to turn back?"

As Princess Pixin's birth mother, the metal puppet's tone was extremely complicated.

The Myriad Lightning Beast King and Flood Dragon Beast King glanced at it, "Don't tell me you still have expectations for Princess Pixin? She cultivates the heartless path and is already heartless. To her, there are only benefits. Family, morals, and ethics are all nonexistent."

The metal puppet sighed and didn't say a word.

Princess Pixin was her daughter after all. Therefore, even though she was harmed by her daughter, she wasn't completely disappointed.

In her heart, there was still a glimmer of hope for Princess Pixin.

The Myriad Lightning Beast King stared at the compass in his hand, he sighed softly, "However, although Su Yu is powerful, it will end here. In less than a few days, the demon Emperor will personally visit the hunting ground and watch his adopted sons hunt their prey."

“Before that, Princess Pixin will definitely destroy Su Yu at all costs and prevent her actions from reaching the demon Emperor’s ears.”

The flood dragon emperor also sighed deeply. He understood Princess Pixin’s character very well. Su Yu was definitely going to die.

In the imperial palace.

Princess Pixin’s cute and mischievous face was covered in dark clouds and was slightly distorted.

PA --

She slammed the table in anger and smashed it into pieces. She berated angrily, “A bunch of trash! It’s been a whole month, and you still haven’t gotten rid of a little human who has nothing?”

The nine demon prince lowered his head and didn’t even dare to breathe.

“Send the deputy commander of the God guards to see me. Also, send a few trusted God Guards.” Princess Pixin waved her brush and gave an edict. “I want to kill my prey personally.”

The nine demon prince’s expression changed slightly. He hurriedly said, “Princess, you can’t do that. If anything happens to your precious body...”

If anything happened to her, the first one to die would be the nine demon prince who was in charge of the hunting ground.

“HMPH, with the deputy commander of the Divine Guards here, there’s nothing to fear!” Princess Pixin was anxious.

She had no other choice. She had to get rid of Su Yu before the demon emperor arrived in the demon world.

Hearing about the deputy commander, the nine demon prince could not help but feel much more at ease.

The deputy commander of the Divine Guards were all experts that were one in ten thousand, and they were the best among the half-step Dao Masters.

In the entire demon world, there were no more than ten experts who could defeat a deputy commander.

If it was him, there would be no mistakes.

On this day.

Su Yu once again took the initiative to attack the Cat Demon Hunter King.

However, their strategy was appropriate. They coordinated with each other, preventing Su Yu from attacking them one by one. He could only retreat temporarily.

The Cat Demon Hunter King’s expression was calm. He was not flustered at all. He said, “Hold on for a few more days. He is deep in the hunting ground. The resources he has on him will decrease every time he uses them. He won’t be able to hold on for too long.”

The most troublesome thing for Su Yu was the shadowless wings that came and went. However, the consumption of primal energy was obviously very huge.

Hence, the competition was now on resources.

He was confident that if this continued, Su Yu might not be able to use those huge wings again in a few days.

At this moment, the Cat Demon Hunter King received a message from the nine demon prince and ordered him to return to the manor as quickly as possible. He had something important to tell him.

The Cat Demon Hunter king frowned slightly. This was an important moment to kill Su Yu.

However, it wouldn't affect them much if they went back for the time being. After all, they couldn't touch Su Yu.

“Keep a distance and return to the manor. Don't give the prey a chance.”

They returned to the manor.

When they entered the house, they saw the nine demon prince kneeling on the ground.

The Cat Demon Hunter King was stunned. He looked at the person sitting on the Manor Head's chair and his body trembled. He knelt down in excitement. “Greetings, Princess!”

“Rise,” Princess Pixin said indifferently. “Tell me about the situation you've been hunting. Why haven't you been able to kill that prey?”

The Cat Demon Hunter King immediately told her the truth.

After learning that Su Yu had a pair of terrifying wings that surpassed that of a half-step dao master, Princess Pixin was secretly surprised and relieved.

No wonder he was able to live until now.

It turned out that there was a pair of undiscovered powerful wings hidden within his body.

She turned her gaze slightly and said, “I understand the situation. You can continue.”

Cat demon hunter king said, “Yes, Princess!”

“Wait, hold on to this porcelain cat. Once Su Yu attacks, you will crush it and hinder its escape.”

If Su Yu was here, he would definitely be able to recognize it.

The porcelain cat in front of him was the little white porcelain cat that cat susu had used in hunting ground no. 3.

Its function was not to obstruct space, but to teleport.

“Thank you, Princess!” The Cat Demon Hunter Wang was overjoyed.

With this object, once Su Yu appeared, he could not think of escaping.

The Cat Demon Hunter Wang and the others left with much more confidence and chased after Su Yu again.

The nine demon prince waited for them to leave before he said with slight hesitation, “Princess, once they use the porcelain bottle, won’t they gather their forces together and be caught by Su Yu in one go?”

Princess Pixin’s eyes were deep and ruthless. “If they don’t sacrifice a bit, how will su Yu appear?”

The Nine Demon Prince’s heart shook. Princess Pixin wanted to use them to lure Su Yu out!

..

The Cat Demon Hunter King continued to chase after Su Yu. He was extremely excited and held the little porcelain cat in his hand at all times.

Once Su Yu appeared, he would crush it immediately.

On a certain mountain peak.

Su Yu stared at the compass and pondered slightly.

He observed that the Cat Demon Hunter King and the others had returned to the manor.

It was a crucial moment when they were hunting him. If it was not necessary, the cat demon hunter King would not give up on the chase at the last minute.

After pondering for a moment, Su Yu noticed that the six light spots were slightly closer. His gaze immediately focused and he used the Taiji Yin-yang wings to teleport over.

The moment he appeared, the four-man team that was getting closer retreated to a distance of 30,000 feet, avoiding being attacked by Su Yu at the same time.

Su Yu’s eyes flashed and was about to retreat.

Suddenly, the cat demon hunter Wang smiled sinisterly. “Hehe, it won’t be so easy to escape this time.”

He crushed the porcelain cat.

Immediately, a powerful spatial fluctuation appeared.

However, that fluctuation did not seal the space. Instead, it moved the four-man team that was 30,000 feet away to the front of the Cat Demon Hunter Wang.

The two teams had maintained a distance of 30,000 feet for an entire month. Now, they were finally together.

The Cat Demon Hunter King was stunned. Even Su Yu was slightly stunned. Then, a bright light flashed in his eyes. Without thinking, he shouted, “Freeze time and space!”

“Retreat quickly...”when the cat demon hunter King realized that something was wrong, the freeze time and space had already arrived.

Su Yu seized the once-in-a-lifetime opportunity and used four laws in a row.

At the same time, the three swords unleashed the ultimate with all their might.

Not only that, Su Yu took out all the talismans on his body and stuffed them into their mouths.

When the space-time freeze ended, the Cat Demon Hunter King and the others realized with pale faces that a terrifying power had exploded from their mouths.

Ah --

They, who were on the verge of victory, were completely annihilated because of an accident.

All of them, including the Cat Demon Hunter King, were annihilated.

The soul of the Cat Demon Hunter King fled frantically. As it fled, it roared indignantly, "Ah! Princess Pixin, you set me up!"

Su Yu was instantly jolted awake. Without saying a word, he immediately fled. He didn't even have time to devour their souls. He only had time to take away the storage item of the Cat Demon Hunter King.

Almost at the instant he activated his wings, an unrivalled aura came pressing down from above.

Chi La --

Even though Su Yu escaped in an instant, he was still shocked by that deadly aura.

Outside the countless mountains and rivers, Su Yu revealed his form and spat out a mouthful of blood.

The bones in his body were broken, his meridians were destroyed, and his organs were turned into a mass of meat paste. The surface of his body was a bloody mess.

He was only hit by the aftershock and his body almost collapsed. One could imagine what would happen if Su Yu's reaction was a little slower.

"Half-step Dao Master, huh? Princess Pixin finally couldn't help but look for an even more powerful expert to attack." Su Yu's eyes shot out a cold divine light.

He had long been mentally prepared. The hunters had been unable to take him down for a long time, so Princess Pixin definitely had a backup plan.

Now, it seemed as expected that a half-step dao master would be sent out.

Moreover, that half-step dao master's strength was abnormally terrifying.

It wasn't that he had never interacted with a half-step dao master before, but never had a half-step dao master's strength reached such a shocking level.

Just his aura alone almost shocked him to death.

Su Yu immediately used the law of life to recover his body.

He wiped the bloodstains on his face, and his expression was exceptionally ghastly. "Let me guess, Princess Pixin, did you personally come to the hunting ground?"

He would definitely repay this hatred with blood!

However, he could not stay.

He opened his mouth and poured in a bunch of pills to replenish his primal energy. Then, he immediately activated the Taiji Yin-yang wings.

Half a day later, at the place where Su Yu stood, a majestic half-step dao master who was covered in pitch-black armor, only revealing his nose and eyes, descended from the sky.

His feet stepped on the ground, and he immediately guessed that there was a huge pit that was one hundred thousand feet wide.

The entire cave abode world shook violently.

The destructive power caused was even more devastating than the ox demon hunter King's self-detonation.

A row of people stood calmly on his shoulders.

The most eye-catching person was naturally princess pixin, who had the power to dominate the world.

She held the soul of the Cat Demon Hunter King in her palm and looked around coldly, saying, "He ran away as expected!"

She then stared at the soul of the cat demon hunter king, "It's all because of you that reminded him! HMPH! He's more than capable of ruining the situation!"

With a clench of her fingers, she crushed his soul.

The eyes of the divine guards that followed her kept twitching.

The Cat Demon Hunter King was the hunter that Princess Pixin admired the most in the past, and he was highly praised.

Now, he killed without even thinking about it.

This made the divine guards feel extremely cold, but they were also extremely cautious and didn't dare to disobey her.

Chapter 2109 Final Trump Card

"Chase, kill him within three days!" Pixin shouted.

The deputy commander of the Divine Guards pointed his huge head and toes, stomping the ground until a volcano erupted. However, he was like a spring that shot into the depths of the sky.

As Su Yu ran, he checked the spatial storage device of the Cat Demon Hunter King.

Having checked the Wind Demon Hunter King and the Bull Demon Hunter King, Su Yu did not have much hope for this storage device.

As long as he had some medicinal pills and talismans to replenish his strength, he would be very satisfied.

However, after checking, Su Yu actually discovered something unexpected.

His palm flashed, and he took out a huge golden scissors.

The scissors were made from the interweaving of two flood dragons, and were extremely sharp.

Su Yu's gaze landed on the scissors, and he actually felt pain in his eyes.

The sharpness of the scissors could even cut through a person's gaze.

"Immortal embryo of a dao artifact?" After examining it for a while, Su Yu finally confirmed that this item was a true immortal embryo of a Dao artifact.

However, what was slightly flawed was that half of the scissor's blade had a relatively serious crack, which seriously affected the power of the scissor.

"What a pity." Su Yu secretly felt regretful.

If it was a true immortal embryo of a Dao artifact, killing all its prey wouldn't be a problem.

Unfortunately, this flaw meant that its power was limited.

But no matter what, this golden scissors was the most powerful magic treasure it had obtained since it entered this place. It had to be used well.

At the same time.

At the entrance of the seven nights divine capital, hundreds of mysterious people walked in under their cloaks.

What was slightly strange was that the array formation at the entrance didn't scan them only because it was malfunctioning or something.

It was only after they entered the city that the array was restored.

The divine guards guarding the city gate exchanged glances with one another, tacitly choosing to ignore them.

Outside the Imperial Palace, a purple-haired man who was hiding under a bamboo hat was pacing back and forth. He had a slightly annoyed expression on his face. "That Princess Pixin sure is troublesome. She affected my plans for no reason."

When he went to the prison, he discovered that Su Yu was no longer in the prison cell. After many investigations, he found out that Su Yu had been thrown into the imperial hunting grounds within the imperial palace.

As a result, he did not have the chance to kill Su Yu.

There were many experts in the imperial palace. It was not a wise decision for him to barge in.

And in a remote demon city in the demon world.

A stone hammer that was emitting a dark green light all over its body spun in the air and left the city.

The city was full of corpses that had died an unnatural death. All over the city, not a single person was left alive.

There was an undercurrent in the outside world.

At the hunting ground two days later.

Su Yu finally stopped and stood on a tree. He opened his mouth and swallowed a large number of pills to replenish the primeval energy in his body.

This was already the only medicine he had to replenish the primeval energy.

If he continued to escape, he would eventually be exhausted and captured.

He only had one last chance to fight.

This battle was either life or death.

He adjusted his state and sensed an unusually powerful aura rapidly approaching.

Rumble --

The sky trembled and the earth rumbled.

The Aura had yet to descend, but it had already caused the world to tremble.

Su Yu endured the enormous pressure and his feet sank bit by bit into the ground. In the end, his entire knee sank into the ground.

He looked up and his robes fluttered. He let out a long cry, "Evil Dragon Nirvana!"

Turning into a half-human half-dragon that was thirty feet tall, Su Yu soared into the sky. Instead of retreating, he advanced and clashed head-on with the half-step dao master who was constantly pressing down on him.

Ten million feet!

One million feet!

One hundred thousand feet!

One hundred thousand feet!

Both sides saw each other's tiny figures and launched their attacks at this moment.

"Golden Flood Dragon Scissors!" Su Yu activated the immortal embryo that he had just refined and launched a deadly attack!

Boom Boom --

"HMPH! Divine Punishment!" The deputy commander of the Divine Guards folded his huge fists together and slammed them down.

Chi --

However, from the muffled sound of flesh, the deputy commander's hands were cut open by the Golden Flood Dragon Shears, and blood flowed out.

However, the golden flood dragon shears were also smashed until the light dimmed, and it returned to Su Yu's hands with a whimper.

The Grand Dao artifact immortal embryo was actually smashed into such a state. The strength of the deputy commander in front of him was incredible.

He was probably halfway to becoming a dao master.

Su Yu glanced at him, and his gaze was immediately attracted by the row of figures on his back. The seemingly cute petite girl was even more memorable.

“As expected, you personally came.” Su Yu stared at Princess Pixin, his eyes filled with an undisguised coldness.

It had been a long time since he had encountered such a life-and-death crisis.

He had never thought that his next experience would be thanks to a princess whom he had only met once.

And there was actually no deep hatred between them.

It was only because she wanted him to die.

Princess Pixin looked at the golden flood dragon shears with slight annoyance and berated angrily, “Trash, carrying such a treasure with you hasn’t been able to do anything to a puny human! When we go back, we’ll exterminate the Cat Demon Hunter King Clan!”

She was secretly glad that the person she brought this time was the deputy commander, a super expert who was about to step into the DAO Master ranks.

If the person she brought was an ordinary half-step dao master, he would have already been buried under the Golden Dragon Shears.

Her anger towards the cat demon hunter King could be imagined.

“Human, I want you dead. Heaven, don’t think you can live either!” Princess Pixin took out a dao artifact immortal embryo herself.

It was a golden flood dragon horn that gave off the terrifying aura of a dao master.

It was a dao artifact immortal embryo personally refined by the current demon emperor. It was a complete dao artifact immortal embryo.

In terms of power, it was more than twice as powerful as the one in Su Yu’s hand.

“Holy Sword of Judgement!” Princess Pixin threw the flood dragon horn and immediately exploded with terrifying power.

Su Yu activated the golden flood dragon shears and flew up into the sky.

The two clashed fiercely in the sky, releasing an unprecedentedly intense destructive shockwave.

The deputy commander revealed a hint of fear in his eyes as he protected Princess Pixin far away.

Su Yu instantly transformed into space dust.

Even so, he still felt an incomparably intense spatial shock, causing Su Yu’s Qi and blood to roil.

When the shockwave dissipated, Su Yu appeared.

There was no longer any so-called cave abode world nearby. All that was left was the barrier of the cave abode world that was exposed.

The golden dragon shears were completely damaged, and the other half shattered into large and small pieces.

Then, he looked at Princess Pixin. She held the judgement sacred sword high up in the air and looked down at him as if she was the victor. "That's why I said that I want you to die. Even if you don't die, you have to die."

"Deputy Commander, grant him death."

The deputy commander nodded, and his enormous body smashed down like a falling star.

Even a half-step dao master would be reduced to ashes under this hammer strike.

How could it be Su Yu?

Su Yu felt his skin sting, and the bones in his body creaked. His entire body was about to fall apart.

He hadn't even arrived yet, and yet he was still so terrifying. If he really descended, Su Yu could only die.

However, Su Yu's eyes were cold at this moment. Not only was there no fear, there was also a deep killing intent. He said with pity, "Do you know what your biggest mistake was? It was that you shouldn't have come!"

Chapter 2110 Split Soul

He formed a seal with his hands, and a black shadow slowly appeared in front of his chest.

Something that looked like a pestle was faintly discernible.

A terrifying aura that could destroy everything gushed out like a tsunami.

Even someone as strong as the deputy commander's pupils contracted violently, and deep fear appeared in his eyes.

Pi Xin's expression that looked down on him stiffened bit by bit, and in the end, she was completely petrified.

The Holy Sword of judgement in her hand kept trembling, and her heart was also trembling crazily.

A sense of panic that was shrouded by the shadow of death descended on her heart.

"Let's Go!" Pixin reacted and tried to crush a porcelain cat that was teleporting.

However, the appearance of the Dao obliteration pestle messed up the surrounding space, and teleporting failed!

Pixin's heart pounded wildly, and her eyes were filled with fear, regret, and regret.

The Deputy Commander also roared in fear. He forcefully stopped the falling force and fled into the distance.

Su Yu smiled. "I'll leave it as my last trump card for you, Princess!"

Without any sound or explosive power, the dao obliteration pestle quietly turned into a ray of light and shot toward them.

The deputy commander's powerful body was easily crushed by the dao obliteration pestle like paper.

The peak five-crowned emperor on his shoulder melted like snow under the blazing sun.

Only Pixin's judgement sacred sword released an intense golden light that protected Princess Pixin.

However, it didn't last long before it was destroyed by the Destruction Dao Pestle.

Pixin screamed in fear, thinking that she would definitely die.

However, at this moment, a metallic puppet appeared in front of her.

A distorted metallic sound could be heard.

Princess Pixin raised her head and looked up. It was her birth mother, who she had thrown herself into the hunting grounds back then.

Her soul wasn't dead yet and was attached to the metallic puppet.

However, no one expected that after what Pixin had done to her, she would still pounce on Pixin at her most dangerous moment and block the fatal attack for her.

It turned out that ever since Pi Xin had appeared, she had been paying attention to her movements.

When she realized that she was in trouble, she finally appeared.

Bang --

The last bit of power from the Dao extinguishing pestle sent the metal puppet flying.

The puppet was almost destroyed and it no longer had any power to speak of.

However, Pi Xin had managed to escape.

She did not look at the puppet that had saved her. She immediately crushed a porcelain cat and prepared to escape.

As long as she returned to the manor, she would be completely safe.

At that time, she would send experts to kill Su Yu.

This person was incredibly dangerous, and he had to die!

"Time, set!" However, a voice that was close to death resounded in her ears.

Princess Pixin maintained the posture of crushing a porcelain cat and couldn't move.

She was extremely shocked, but her body couldn't move.

"Everything comes with a price. You are no exception." Su Yu's right palm surged with the law of death as he pointed at Pixin.

Clang --

The metal puppet that had been twisted into scrap metal crawled over with great difficulty and blocked in front of Pixin.

The head flickered with the powerful soul flames of a half-step dao master as it pleaded, "Please, let Pixin go. She is just a child. If she finds out that she was wrong, she will definitely turn over a new leaf."

Su Yu put down his hands and nodded slowly, "I believe that she'll definitely... become even stronger!"

The crack between his brows suddenly opened, and powerful soul ripples swept over, forcefully pulling out the soul within the puppet and sucking it into his brows.

"Ah... I didn't hurt you, why did you destroy my soul..."the half-step Dao Master's soul was very powerful, and even though it was sucked into his brows, it still struggled uneasily.

It caused Su Yu's forehead to squirm continuously. There was even the outline of a human figure.

Su Yu closed his eyes coldly and said indifferently, "Stop pretending! Pixin's birth mother's soul was destroyed by her own hands long ago!"

"Since you cultivate the Heartless Dao, why would you keep your birth mother's soul?" "You're just a spy designed by Princess Pixin. Your goal is to get close to the other two beast kings. Keep an eye on their movements and give them a fatal sneak attack when necessary."

The soul between his brows turned pale with fright. "How do you know?"

"I've known since the first time I saw you."Su Yu heard their voices from their hearts when they first met the three beast kings.

This puppet, who was known as Princess Pixin's biological mother's soul, exposed her inner thoughts at the first moment.

Her main goal was to gather information. She would not act unless it was necessary.

Now that Princess Pixin was in trouble, she was ordered to come and block the danger.

The most dangerous thing was that his puppet hid an extremely dangerous hidden weapon. He pretended to impress Su Yu with his mother-daughter affection. When Su Yu let down his guard, the hidden weapon would be activated and destroy him.

"Goodbye."Su Yu's finger touched the space between his brows and closed the eye of devouring completely.

The soul with an unwilling roar slowly quieted down.

In the end, only Princess Pixin, who had escaped from time freeze, was left.

"Space, Freeze!"Su Yu said indifferently.

Princess Pixin, who had just recovered, was frozen again. Her eyes were filled with a pitiful pleading. "I beg you, Big Brother, don't kill me. I know I'm wrong, okay?"

Hearing her pleading, Su Yu's eyes were filled with contempt. "You're still pretending to be cute and innocent? Unfortunately, I knew from the start that you're a vicious woman from the inside out."

Puchi --

Su Yu's sharp dragon palm pierced through Princess Pixin's chest, completely penetrating her lovely body from the front to the back.

Princess Pixin struggled in pain for a few times, and her life force quickly dissipated. Finally, she gradually stopped struggling.

A ball of soul escaped from her body.

There was a yellow talisman in the soul's mouth. Princess Pixin's soul bit it into pieces, and a strange power was released, enveloping Princess Pixin before directly teleporting out of the hunting ground.

Before she left, she stared at Su Yu with a vicious gaze. The meaning was obvious.

She would take revenge.

Su Yu's Eye of devouring suddenly opened and pulled Princess Pixin who was about to be teleported out.

However, the power of the talisman wrapped around the other half of her soul.

Under the intense tearing, Princess Pixin let out two shrill screams at the same time.

Her soul was actually torn into a blur and then split into two.

It was as if the two Princess Pixin had merged into one and was now being pulled back into two.

Half of it was taken away by the talisman and returned to the outside world.

The other half fell into Su Yu's hands.

However, Su Yu did not devour it. Instead, he frowned slightly and stared at the other half of the soul.

He had a very deep understanding of souls. Usually, when a soul was torn apart like this, the end result would be the destruction of the soul on the spot.

It was the first time Su Yu had seen two souls that were exactly the same.

"Who are you?" Su Yu suddenly had a thought. He stared at the confused "Pixin" in front of him and asked.
