

Nine-Dragon 2231

Chapter 2231 Silver Soul Void Sea

Xue Meng Feiyu realized that she was still a hostage and could not make any decisions on her own.

She looked at Su Yu with resentment and returned to Su Yu's side silently.

"I'm not stopping you from reuniting with the person you love. I'm saving your life," Su Yu said indifferently.

Xue Meng Feiyu was expressionless, but she laughed coldly in her heart.

She should have said it the other way around!

Shouldn't Su Yu be the one who threatened her life?

Xia Ruchen's expression was the same as usual as he looked at Su Yu indifferently. "It seems like you already know why I'm here. In that case, there's no need to waste your breath!"

Sou --

The two dao masters beside him suddenly attacked.

Xue Mengfeiyu silently retreated.

She thought that Su Yu was dead for sure, but she couldn't be implicated.

However, what made Xue Meng Feiyu surprised, confused, and even puzzled was that the two dao masters weren't attacking Su Yu, but... Her!

The two of them unleashed their domains at the same time, and their bodies were emitting true killing intent!

This wasn't some kind of acting, but they really wanted to kill her.

"Retreat!" Su Yu rushed over and used the heavenly dragon dao body to forcefully disperse the two domains.

With the strength of his body, it was a little difficult for him to destroy the two domains.

Hence, he felt a slight pain in his arm.

Xue Meng Feiyu stared at Xia Ruchen and said in disbelief, "Why? Brother Ruchen, why are you doing this to me?"

Xia Ruchen looked at Su Yu in surprise. He raised his eyebrows and shouted, "Don't call me dirty!"

Dirty?

Xue Mengfeiyu immediately understood what had happened. She quickly said, "Brother Ruchen, don't misunderstand. Nothing has happened between us..."

"Shut up! I feel disgusted even if I talk to you more now." Xia Ruchen's words were very ruthless.

Even if Xue Mengfeiyu risked her life to take the fate of the greedy wolf king for him.

In the end, she didn't even want to hear an explanation.

Xue Mengfeiyu's lips twitched. She stopped explaining and asked, "Then, why do you want to kill me? As long as you don't see me again, wouldn't it be fine?"

She felt that Xia Ruchen's hatred was born from love.

If that was the case, she would feel better.

However, Xia Ruchen didn't answer at all. He only said, "Kill!"

He pulled out a strange weapon that looked like a hook and joined in the pursuit of Xue Meng Feiyu.

Xue Meng Feiyu laughed at herself. Her smile was bitter and helpless.

She did not think that everything between her and Xia Ruchen would be ruined because of an accident!

"Let's Go!" While she was in a daze, Su Yu grabbed her and sped off into the distance.

He had a chance of winning if he fought one dao master alone. However, it would be difficult for him to fight two of them.

In addition, Xia Ruchen, who was no weaker than the DAO Master, was very dangerous.

Therefore, it was best to leave!

The star Lady's face was also solemn. The pink lotus mark on her forehead suddenly shone with a pink light.

A moment later, a solid lotus the size of a washbasin appeared under the star Lady's feet.

She stretched out her hand and said, "Come up!"

Su Yu held her hand and jumped onto the lotus.

A large amount of pink mist shot out from the nine lotus seeds on the lotus flower,

then, the lotus flower exploded with an astonishing rotating speed.

Within a breath's time, it shot hundreds of millions of miles away.

Its speed was even more astonishing than that of the Dao Master!

Seeing that she had shaken off Xia Ruchen and the other two, the star Lady's beautiful brows relaxed slightly. She looked deeply at Xue Mengfeiyu and sighed, "What a troublesome person. I Can't return her, but I can't leave her behind either. Sigh."

She also understood why Xia Ruchen insisted on killing Xue Mengfeiyu.

"Why? Why did he do this to me? Haven't I given him enough?" Xue Mengfeiyu was about to cry.

Stargirl sighed, "It has nothing to do with how much you've given. He just wants to kill you to achieve a goal."

Xue Mengfeiyu was stunned, "What goal?"

She still thought that Xia Ruchen was born with love and hate.

"What will happen if you die?" Star Lady asked.

Xue Meng Feiyu Thought for a moment. She was still a hostage. If she died, everyone would think that the Pirate Alliance broke their promise and killed the hostage.

At that time, the sixth Jue family and the Pirate Alliance would be in a fight to the death.

And with the appearance of the Heavenly Relic Cave Mansion, the two forces would be fighting to the death inside, so the pressure on the seventh absolute aristocrat family would naturally be much less.

Xue Meng Feiyu's heart turned cold. Xia Ruchen didn't "Hate because of love" at all. He was only thinking of ways to dig out Xue Meng Feiyu's value!

She didn't want to believe, didn't believe that the man she had taken a fancy to would be like this... heartless.

However, he had personally made a move, so what was there to doubt?

"Deputy leader Su, how do we deal with her?" Star Lady felt that it was a bit troublesome.

Su Yu muttered, "We can only take her away from the seven ultimate civilization. After it's safe, we'll let extermination come personally to take her away."

"Yes, that's the only way..."

As Star Lady was speaking, she suddenly looked behind her, and her pupils contracted slightly.

In the distant horizon, three majestic figures stepped on a battleship with a strange speed, rushing towards her.

"A heaven's legacy battleship?" She looked surprised.

The few remaining Heaven's legacy battleships in the world were mostly from the seven ultimate civilization, and it wasn't strange for Xia Ruchen, who was the heir, to carry one with him.

"I have to work hard to escape!" She instilled the power of desolation into the lotus beneath her feet, and the lotus immediately increased in speed.

As a result, the latter was able to widen the distance between them.

However, the other party had also increased their speed, causing the distance between them to gradually decrease.

If this continued, they would catch up sooner or later.

Furthermore, star Lady's power of desolation was extremely depleted, and she believed that it wouldn't last for too long.

At this moment, Heaven's End Lion, who had also jumped onto the lotus, used its claws to pull on Su Yu's pant leg.

When Su Yu looked down, the heavenly lion pointed in a direction.

"Is there anything in that direction?" Su Yu asked suspiciously.

The heavenly lion pointed at itself and then pointed in that direction.

Su Yu did not understand what it meant, but star lady seemed to understand Beast language very well. She said, "It means that there is a place where it was born."

Su Yu's heart moved. The place where the Heavenly Lion was born had always been a mysterious place with few people.

Moreover, there was usually a powerful force of heaven and earth in the vicinity.

"Follow the direction it points to!"

The star lady nodded her head lightly and moved at a rapid speed like a lotus flower.

A few days later, when Xia Ruchen and the other two were about to catch up, they arrived at a place filled with fog and confusion.

When she saw this place, the star Lady's expression became much more solemn.

Su Yu also frowned deeply.

The Fog in front of them was a silvery-white color.

It looked like a mist, but in fact, it was a group of very small insects.

This insect was called the silver soul insect. It was said that it was formed from soul fragments. Once it touched a person's body, it would drill into the person's body and fuse into the person's soul.

After that, the person's soul would be messed up. At worst, the person would lose consciousness, and at worst... The Soul would be replaced.

Usually, if they met one, others would have to take a detour.

There was more than one or two in front of them? It was simply endless!

Su Yu had long heard of the fierce reputation of this place. It was called the Silver Soul Void Sea!

It was known as the most dangerous place in the seven ultimate civilizations!

There was no other place like it!

During the first shift, it could be considered as taking a day off.

Chapter 2232 Mysterious Ruins

Even the experts of the Seven Great Clan Masters wouldn't enter the Silver Soul Void Sea without permission.

Even they weren't confident that they could come back alive!

"You want us to enter the Silver Soul Void Sea?" Su Yu stared at the heavenly lion and couldn't help but doubt its intention.

This place was a dead end. There was no way out.

Right now, they wanted to escape in another direction, but it was already too late. Xia Ruchen and the other two were already catching up.

When the Heaven Lion heard this, it raised its right claw and pointed inside.

Su Yu's veins bulged on his forehead. Just as he was about to say something, the Heaven Lion swaggered forward and let out a loud roar toward the Silver Soul Void Sea.

Then, a strange scene appeared.

The Silver Sea of mist in front of them took the initiative to open up a thirty-foot-wide path.

The path led straight to the deepest part of the Silver Soul Void Ocean.

This scene surprised Su Yu and made him think.

He had never heard of the heaven-ceasing lion being able to control the silver soul void ocean.

After thinking for a while, Su Yu asked, "Were you born inside?"

The heaven-ceasing lion was usually born in a place that was rarely visited by humans. The entire seven ultimate civilization had gone through the era of the heavenly emperor, then went through a long period of war. In the end, they were ruled by the seven ultimate families for half a century.

Under such a long period of notice, there were only a few places in the civilization that no one had gone to.

Therefore, when Su Yu learned that the seven ultimate civilization had given birth to a heaven-ceasing lion, he had suspected it.

Now, it seemed that the heaven-ceasing lion really came from the silver soul void ocean.

The heaven-ceasing lion nodded its head, cocked its tail, and proudly led the way into the silver soul void ocean.

"Should we follow them?" Star Lady looked at the endless silver soul worm with some fear and asked.

Su Yu said, "Do we have a choice?"

Xia Ruchen's powerful aura rapidly approached them from behind.

He took a step into the void sea, and star lady and Xue Mengfeiyu entered one after another.

After they entered, the cracked road slowly closed.

When Xia Ruchen and the other two arrived, they only faced the daunting silver soul void sea.

"They escaped into the Void Sea?" Xia Ruchen looked around in bewilderment.

He searched for the auras of the three and finally arrived at this place.

One of the Dao Masters closed his eyes, and a faint shadow of an eye appeared above his head. In the eye, the scene of the Heaven Lion leading the three of them into the void sea was reflected.

This person's eye-bloodline technique was somewhat similar to the golden pupil Prince's, allowing him to see the past.

Xia Ruchen's eyes were cold. "We missed by one move! We were actually disturbed by a heavenly lion!"

"Young master, what plans do you have?" The two Dao Masters asked.

Xia Ruchen didn't say anything. He took out an inkstone and ground it on the spot.

The two dao masters' eyelids twitched when they saw the inkstone.

It was said that the heavenly emperor had personally used this inkstone, and it contained the heavenly emperor's domain.

Once activated, no one could stop it. Even family head level experts could die and die.

The young master had always treated this item as a life-saving trump card and never used it lightly.

Now that he had taken it out, his killing intent could be seen.

If the three of them didn't die, the seventh exceptional family would be in great trouble.

"Set up the formation! When they come out, they will die without a burial ground!" Xia Ruchen said calmly as he sat cross-legged.

The two dao masters nodded and immediately began to set up the formation nearby.

As long as Su Yu and the others came out of the Silver Soul Void Sea, the formation would definitely be able to sense their direction.

At that time.

Su Yu and the other two followed the heaven-ceasing lion all the way into the depths of the silver soul void sea that no one had gone deep into.

Along the way, Su Yu saw many collapsed ruins.

They were extremely old, and many of the ruins had even rotted into dust, turning into the nests of the silver soul worms.

There were so many ruins that it was obvious that it was a city.

"There's actually a city in the silver soul void ocean that I've never heard of before." Star lady sighed in amazement.

There had never been any records of a city in the silver soul void ocean before.

Su Yu was also deeply surprised.

The silver soul void ocean had existed since the era of the heavenly emperor.

In other words, this place was most likely a city during the time of the Heavenly Emperor.

Furthermore, it was a rather secretive city.

There were no records of it in history.

As they walked on, they realized that this city was shockingly large.

It wasn't any smaller than the central city where the mansion of an aristocratic family was located.

Even during the time of the heavenly emperor, such a large city was extremely rare. Why was there no record of it in history?

Ten days later.

A shocking scene was reflected in front of Su Yu and the other two.

Beneath their feet was a pile of ruins. However, in front of their feet was a complete street and house.

Everything was brand new and there were no signs of age.

What was even more shocking was that there was a sea of people inside. There were many cars and horses, and there were many voices.

Their feet were the boundary.

Behind them was a deathly silent ruin, and in front of them was a world full of vitality.

The two were extremely conflicting, and they presented themselves in an extremely discordant manner.

Xue Meng Feiyu covered her red lips in astonishment. "How can there still be living creatures in the Silver Soul Void Sea? How can these cities be preserved so completely in the long history?"

She couldn't understand the unbelievable scene before her eyes.

"Because this isn't a real scene." The star Lady's Bright Eyes were shining with wisdom.

Su Yu agreed with her. In such a dead and silent world, it was impossible for an independent and complete world to exist.

At this moment, the heaven ceasing lion suddenly roared.

The prosperous world in front of her suddenly dispersed like the wind.

A real scene appeared in front of her.

What she saw was still desolation.

A creature that looked like a slug was lying on top of an abandoned ancient tower that had risen from the ground.

It was ten thousand feet long, and its entire body was wet and sticky.

It was also surrounded by a strange mist that made its body appear unstable.

The most unique thing was that there was a huge red bead on its head.

It was the size of a palace.

In that bead, traces of dark red light slowly faded away.

Seeing this object, star lady and Snowdream flying rain were confused. They had seen a lot of things, but they had never seen such a creature.

Only Su Yu exclaimed, "A mirage dragon?"

He had seen it in the memories of the demi-humans. It was a mirage dragon that often appeared in the previous era.

However, after the end of the era, the clam dragon had already disappeared!

He really did not expect that there would be one here!

"Clam dragon? What is that?" Star Lady asked curiously.

Su Yu stared at the clam dragon and said in surprise, "The clam dragon is a strange creature that can set up illusions. The illusions are extremely realistic. No matter how powerful a dao master is, if he is in it, he might not be able to see through it!"

A Dao master controlled a domain and had a keen sense of the outside world?

However, they were unable to see through it. It could be seen that the illusion was extremely powerful!

Recalling the scene that they had just seen, it should be the Clam Dragon's illusion.

Star Lady's heart palpitated. This thing had more potential than the heaven-ceasing lions!

Obtaining a clam dragon was far better than ten heaven-ceasing lions!

As if seeing through his thoughts, Su Yu said, "The clam dragon has two forms. It is currently in its first form. Even so, those who are not recognized by it will definitely activate the illusion if they are within 50 feet."

"If provoked, it will transform into its second form and grow nine dragon heads. Each dragon head has the powerful combat strength of a family head!"

Hearing this, star Lady's heart twitched violently.

Nine heads of a family head..

This... even if the seven family heads of the seven ultimate civilizations joined forces, they would not be a match for this Shen Dragon!

It was better for her not to have unrealistic thoughts.

At this moment, the Heavenly Lion roared a few times at the Oyster Dragon, and it slowly climbed up.

At this moment, everyone realized that on the first level of the ancient tower, there was a dark entrance, which was blocked by the oyster dragon's tail.

The heavenly lion raised its hand and pointed at that entrance.

Su Yu thought in his heart that it was unbelievable. Could it be that the oyster dragon was lying on top of the Ancient Tower as a guardian beast?

But, how powerful was the Clam Dragon?

What was it that needed it to protect?

Star Lady and Xue Mengfeiyu both realized that something was wrong and their breathing became hurried.

It seemed that the heaven-ceasing lion wanted to give them a gift!

The heaven-ceasing lion led the way and entered the cave.

Su Yu and the other two followed closely behind.

The ancient tower was damaged on the outside, but there were still some eternal arrays inside, which made the interior of the tower bright.

Under the light, it could be seen that there was a well-preserved palace inside the ancient tower.

On the board of the palace, there were four powerful words written.

“Heavenly Relic Palace”!

The four words contained a dizzying power. Just one look was enough to make one’s heart palpitate.

Su Yu shook his head and looked away. He said in a low voice, “Don’t look, that’s the Devil Word!”

The so-called devil character was a character from the ninth-rate race, the Heavenly Devil Race.

They were good at spiritual attacks. Whether it was their speech, their actions, or even the words they left behind, they were all filled with a devil nature.

Those whose souls weren’t strong enough could be trapped in it by accident.

They lowered their heads and entered the heavenly remains palace.

The moment they entered, they felt a great pressure.

There were broken restrictions everywhere, but they were still in operation.

Even a family head level expert could be crushed into dust with just a slight touch.

Star Lady and Xue Meng Feiyu sucked in a breath of cold air. Just what kind of place was this?

“Look, this... This is a one-million-year-old devil resentment flower! It’s equivalent to at least one-tenth of the accumulation of an aristocratic family!”

“Undying Lotus! Only the Undying Lotus that bloomed in an eight-star civilization!”

“Nine Yang Golden Radiant Grass! Oh My God! A leaf, a legendary spiritual herb that can bring back the dead!”

They passed by a garden, and the things that grew in the garden were jaw-dropping.

Every single one of them, when placed outside, were top-grade treasures that could cause the seven ultimate families to fight over each other.

However, in here, there were patches of growth!

The two women could not suppress their intense greed, and they pounced forward to pluck them.

However, they were stopped by Su Yu. He pointed at the roots of each plant.

Only then did they realize that there was a terrifying restriction in the soil of the entire garden.

If they moved, they would be immediately killed by the restriction!

Not only that, under Su Yu's guidance, they discovered that there were restrictions in the entire palace, inside and outside, including the green stone slabs on the ground.

Even the slightest bit of damage would be destroyed by the restrictive spells!

The two women immediately became cautious. Under the lead of the Heavenly Lion, they arrived in front of a bedroom in the backyard.

On the right side of the bedroom door was an unusually ancient stone lion.

Chapter 2233 Concubine Dance

On the left side, there was nothing except some broken stones on the ground.

It was obvious that the heaven-ceasing lion used to stand there.

However, it was lucky to receive the long-term illumination of the power of Heaven and earth, which eventually gave birth to its intelligence.

The heaven-ceasing lion came to the bedroom door with a complicated look and pointed inside.

Su Yu said, "You want us to go in?"

The heaven-ceasing lion nodded and pointed at itself, then at the place where it used to stand.

It meant that he could only become the heaven-ceasing lion if he benefited from it.

Su Yu thought for a moment and could not help but be moved.

The stone lion could only gain sentience after being baptized by the ultimate power of Heaven and earth for a long time. What Su Yu was looking for now was the ultimate power of Heaven and earth.

"All of you, Retreat." To play it safe, Su Yu asked everyone to retreat. He himself also retreated quite a distance. After applying the power of space in front of him, he flicked out a wave of primal force with his finger and opened the bedroom door!

Creak --

With an obscure sound, the bedroom door opened, and a faint fragrant wind blew over.

It didn't seem to be dangerous, but Su Yu and the others felt their hair stand on end.

Su Yu immediately activated the space and moved them away from this place.

After they left, the space behind them collapsed without any warning. It was as if a candle had been suddenly destroyed by a strong wind.

If the space was like this, how could it be their bodies?

If they were really attacked by the fragrance, they would probably die immediately!

Su Yu's pupils constricted. The fragrance did not have a strong offensive power. It should be the smell accumulated in the room.

However, the more it was like this, the more shocked Su Yu felt.

It was not a deliberate attack, but it was still so terrifying. What was in the room?

Who was the one who left this palace behind?

Was it the heavenly emperor?

After a long while, they carefully returned to the bedroom.

Looking inside, they saw that everything in the magnificent room was intact.

In the deepest part of the room, in the middle of the Red Mountains, he saw a bed.

On the bed, he could vaguely see the figure of a woman lying on her side.

A faint fragrance wafted out from the room.

Xue Meng Feiyu covered her mouth as her heart pounded wildly. She was obviously frightened.

Even the star Lady was frightened. She almost thought that she was a living person.

Su Yu also found it unbelievable. That woman should have been dead for half an era.

However, her corpse was actually maintained in such a perfect state!

Even a dao master expert wouldn't be able to do it, right?

At most a few hundred million years, their remains would dissipate into the world.

The fragrance that assaulted them just now should have originated from this woman's body.

A woman who had died half an era ago, the fragrance that remained on her body was so terrifying that it could kill a dao master at the level of a family head. What kind of strength did her true body have?

Filled with deep suspicion, Su Yu quietly walked to the window and lifted the mountain.

What greeted his eyes was a woman with her eyes tightly shut and an indifferent expression on her face. However, she was extremely beautiful.

Even Su Yu could not help but feel his heart palpitate when he saw her face.

As one of the peerless twin gems of the seven ultimate civilization, Xue Meng Feiyu felt inferior when she saw her face.

"There is actually such a beautiful person in the world," Xue Mengfeiyu murmured.

The star Lady looked at her body curiously and found that she was covered in treasures!

The earring was a pair of Dao artifacts, and the hairpin was a dao artifact!

The gorgeous dress on her body was also a dao artifact!

Even the shoes on her feet were also Dao artifacts!

“Who is she?”The star lady was so surprised that she couldn’t close her mouth. What kind of person was she when she was alive?

When her eyes fell on the waist of the woman’s body, she was attracted by a token on it.

She saw that the identity token was also a dao artifact!

There were four words engraved on it!

“Princess Dance!”Star lady exclaimed.

Su Yu was also secretly surprised.

Princess Dance, wasn’t she the favorite imperial concubine of Emperor Tianyi?

It was said that Princess Dance had a stunning appearance and used to be the master of a seven-star civilization.

Later, when the Emperor of Heaven’s will attacked her civilization, Princess Dance knew that she was no match for him, so she surrendered and admitted defeat. In the end, the Emperor of Heaven’s will took her as his concubine.

The Emperor of Heaven’s will called her many concubines, but she was the one he loved the most.

And she was also fond of the Emperor of Heaven’s will, until death.

In the end, the Emperor of Heaven’s will disappeared for no reason, and princess dance followed closely behind, her whereabouts unknown.

Many people guessed that she had met with the same misfortune as Emperor Tianyi.

But unexpectedly, concubine dance died in the Silver Soul Void Sea.

To be exact, she didn’t die from an unnatural death, but from self-hypnosis. She fell into an eternal sleep and died naturally.

Xue Mengfeiyu looked excited and said, “Let’s see what we can take away first!”

It was their fortune to meet Princess Dance. If they didn’t take a few things, would it be worth it?

However, only she was eager to try. Su Yu and star Lady didn’t move at all.

“You don’t want it?”Xue Mengfeiyu asked back.

Star lady said lightly, “Isn’t it good to let the emperor’s beloved concubine rest in peace?”

Xue Mengfeiyu was embarrassed and looked embarrassed.

The Heavenly Emperor was still a respected figure in the seven ultimate civilization.

They never missed the seven ultimate civilization of the Heavenly Emperor’s era. How powerful would it be then?

The star lady respected her concubine.

Su Yu was not from the seven ultimate civilization, so he did not have much respect for the heavenly emperor.

However, he did not dare to touch the bodies that almost killed them.

He was afraid that if he touched it, it would turn into ashes.

At this moment, the heavenly lion finally walked in fearfully after lingering at the door for a long time. It lay in front of the bed and whimpered a few times.

Then, it raised its claws and pointed at itself and then at them, meaning that they should learn from it.

Su Yu and the Star Girl Thought for a moment and knelt down to bow. It could be considered as respect for a king.

However, when Su Yu bowed to the ground, an unbelievable scene appeared.

Three books appeared on the ground.

“Eight desolation sea-suppressing technique!”

“Four symbols heart-searching technique!”

“Dance’s handwritten letter!”

When they saw the first two, star-lady and Xue Mengfeiyu cried out in shock.

“The eight desolation sea-suppressing technique that heavenly emperor cultivated in the past? and his main cultivation technique, four symbols heart-searching technique?”

It turned out that the first two were cultivation techniques that the heavenly emperor cultivated.

No wonder the two women were so excited.

Xue Mengfeiyu was the fastest. She squatted down and grabbed the four appearances heart questioning technique.

This technique was the heavenly emperor’s main cultivation technique. One could imagine how powerful it was.

However, she didn’t kneel just now, so she was naturally not as close as star lady.

Star lady stretched out her hand and easily took the four appearances heart questioning technique.

However, when the star Lady wanted to take something else, she found that the other two books were transparent to her. She grabbed them as if they were in the air.

There was only the eight desolates sea-suppressing technique left. She grabbed it and picked it up.

Finally, Su Yu picked up the “Dance notes” at a leisurely pace.

Although the heavenly emperor’s cultivation technique was tempting, Su Yu was confident that the “Evil dragon bible” and “The son of Heaven’s aura-gazing technique” were not weaker than their powerful cultivation techniques.

Su Yu had already tried his best to cultivate both of them, so he really didn't have time to spend a long time to cultivate other people's cultivation methods from the beginning.

Therefore, compared to cultivation methods, he was more inclined to pick concubine dance's handwritten letter.

Otherwise, if he really wanted to snatch the cultivation method, the two girls wouldn't be able to compete with him.

Letting the two girls read the cultivation method on the spot, Su Yu casually opened the handwritten letter.

What entered his eyes were incomparably beautiful words, but the contents made Su Yu's heart palpitate with excitement.

The handwritten letter recorded the execution and undoing of the 108 high-level restrictions. It also recorded the skills to communicate with the terrifying slug outside. It even recorded the methods to control the silver soul worm!

In other words, grasping the handwritten letter was equivalent to grasping the entire silver soul void ocean!

Its value was probably countless times higher than the two cultivation techniques!

He suppressed the joy in his heart and continued reading.

At the end, he couldn't help but narrow his eyes. The last chapter of the manual mentioned the Heavenly Yi Cave abode!

It also detailed the dangers that would exist in the Heavenly Yi cave abode and how to avoid them. It was extremely detailed.

If that was the case, Su Yu would not be too interested.

Because, ordinary treasures would no longer be able to move Su Yu.

But, the handwritten letter said that in the heavenly remains grotto, there was a place called the emotion severing platform!

This was the place that caused Su Yu's pupils to constrict.

The emotion severing platform was the place where the Dark Emperor hid one of the emperor's four pieces, the divine throne of Heaven and earth!

No wonder Su Yu couldn't find anything about the emotion severing stage even after searching through all kinds of information!

It turned out that it was a place name in the heavenly remains cave mansion!

He held the handwritten letter tightly and his heart was excited.

He had to go to the heavenly remains cave mansion!

After keeping the handwritten letter, Su Yu bowed to the body of concubine dance again. "Thank you for your gift, Concubine Dance. I will remember it in my heart."

As soon as he bowed, Su Yu suddenly felt a circle of light under his feet, and an extremely pure and terrifying energy flowed through his body like lightning.

He was very familiar with that power, it was the power of Heaven and earth!

And it was far better than the power of Heaven and Earth in the Broken Heaven Mountain!

The difference was that the power of heaven and earth in front of him was tamed and could be artificially controlled to temper the body.

Moreover, this power was just enough for Su Yu to push the Heavenly Dragon Dao body to the next level!

He was pleasantly surprised and couldn't help but have some doubts.

Was Concubine Dance Really Dead?

The cultivation method, the manual, and the power of Heaven and earth didn't seem to be arranged in advance. Instead, it was decided according to their number and even their cultivation situation.

While he was thinking, the bedroom door automatically closed without wind.

Su Yu had sharp eyes and immediately said, "Quickly get out!"

Star Lady and Xue Meng Feiyu immediately followed Su Yu and left before the door closed.

Only the heaven-ceasing lion was stunned for a moment. He did not follow them out in time and stayed in the room.

Su Yu tried to open the bedroom door again, but unlike last time, there was a layer of restriction on the bedroom door this time and it could not be opened again.

In the room, the heavenly lion came to his senses. He looked at the corpse in front of him and then looked at the dark room where he was alone.

It whimpered in fear and curled up in a corner, trembling. It stared at the corpse without blinking.

In its eyes, the reflection of a beautiful corpse on the bed slowly sat up..

Chapter 2234 The Cave Dwelling Appeared

"How Naughty, you actually brought an outsider into my bedroom..."the female corpse slowly opened her eyes, revealing a pair of eyes without pupils.

"I don't dare anymore, I don't dare anymore!"The Heavenly Lion spoke in human language and said in fear.

It was abnormally respectful towards this woman.

However, the female corpse suddenly smiled faintly. "What are you afraid of? I didn't blame you. After all, I was the one who allowed you to gain sentience."

Of the two stone lions at the door, only the heaven-ceasing lion had successfully gained sentience.

There was naturally a reason for this.

"I originally hoped that you could accompany me to relieve my loneliness. I didn't expect you to be so mischievous. You took advantage of my carelessness to

escape and even brought back an outsider!”The female corpse walked forward and held the heaven-ceasing lion in her arms, gently stroking its head, she said, “However, among the people you brought back, there is one who is very special. I believe that you have already noticed it.”

The heavenly lion rolled his eyes and nodded obediently.

“I hope that he can successfully open the heavenly remains cave abode.”The female corpse’s eyes revealed a complicated look.

..

Outside the bedroom.

Su Yu gave up on the idea of continuing to attack the bedroom. He looked at the two girls and said, “What plans do you have?”

In the end, he realized that he had asked for nothing.

Regardless of whether it was star Lady or Xue Meng Feiyu, they were all reading the cultivation technique that they had obtained with fondness. They were very addicted to it.

Looking at their surroundings, they believed that there was no place quieter than this place?

“Alright, we’ll talk about it after cultivating here for a period of time,”Su Yu said.

He really wanted to borrow the power of heaven and earth that he had just obtained and cultivate the Heavenly Dragon Dao body to the great success stage as soon as possible.

Moreover, Xia Ruchen and the others must still be guarding outside the silver soul void sea at this moment!

The three of them each chose a side chamber and went into seclusion to cultivate.

Su Yu took a deep breath and released the heaven and earth energy in his body.

Instantly, a heart-wrenching pain swept through his body like a flash flood.

Even though he had experienced it once before, Su Yu still felt the pain and almost fainted.

He gritted his teeth and held on to his consciousness. He immediately used the “Evil Dragon Bible”and combined it with the heaven and earth energy to refine his Heavenly Dragon Dao body.

Under the new power of Heaven and earth, his powerful initial Heavenly Dragon Dao body was torn apart and reborn again and again, inch by inch.

Finally, it covered his entire body!

Moreover, the process was so long that it was almost hopeless!

After the first day, only his right hand had successfully evolved into the Great Heavenly Dragon Dao body.

After the second day, it was his left hand.

After the third day, his right foot..

Until the fifth day, Su Yu’s entire body had completely evolved.

On this day, Su Yu opened his tired and bloodshot eyes and shouted, “Dao body of Heavenly Dragon!”

His body immediately shone with a golden light and turned into a half-dragon. Golden Scales appeared all over his body and were extremely dazzling.

On the surface, it was dazzling and breathtaking.

However, in terms of body strength, it was a huge difference from the past.

Before this, Su Yu’s body was only stronger than an ordinary dao master, but he was still far from being a clan master.

But now, in terms of body strength, he was slightly stronger than a clan master!

An Ordinary Dao Master couldn’t pose too much of a threat to him!

“Unexpected harvest!” Because of the heavenly lion, he was rewarded by the former concubine of Heavenly Emperor.

His heavenly dragon body was only one step away from becoming a mature body.

He left the side hall of cultivation and bowed to concubine dance’s bedroom. Then, he looked at Star Girl and Xue Mengfeiyu.

After several days of research, they were more interested in emperor Tian Yi’s cultivation method. Their eyes were full of joy and excitement.

“It’s time to leave. If we stay any longer, there will be trouble.” Su Yu said.

They had been hiding in the silver soul void sea for several days. The sixth aristocratic family hadn’t received the notice from the pirate alliance to take the hostages.

Now, they were probably doubting the safety of Xue Meng Feiyu.

If she didn’t go back, the sixth exceptional family would fight the pirate alliance to the death and let Xia Ruchen have her wish.

Although the two girls wanted to study it for a while, the situation was pressing.

The three of them left the lightly dance palace and headed to the outside world.

After leaving the ancient tower, the Shen dragon with an unfathomable cultivation opened one eye and slowly closed it.

The silver soul worms nearby dispersed one after another, not daring to get close to Su Yu and the others.

The Shen Dragon was helping them.

The three of them felt grateful and deeply relieved.

Without the heaven-ceasing lion, they were still very worried about whether they could leave the Silver Soul Void Sea alive.

Now, it seemed that they were safe and sound.

They walked out calmly.

At that time, the two dao masters had already set up many sensing formations under Xia Ruchen's orders. No matter where Su Yu came out from, they would be immediately sensed.

In Xia Ruchen's hand, a large amount of ink had already been ground out from the Inkstone.

With this item, unless Su Yu reached the family head level, he would definitely die!

Just as Xia Ruchen was getting ready, the jade pendant on his waist began to shake rapidly.

Xia Ruchen crushed it, and a short message immediately entered his ears.

“Grandson, Hurry back! The heavenly remains cave mansion appeared a few days ago!”

The person who sent the message was his grandfather, Xia Donglai.

“It appeared?” Xia Ruchen's face was filled with deep excitement. He looked at the Silver Soul Void Sea in front of him and was slightly unwilling. “The timing of its appearance was very unfortunate!”

If it had been a little later, he would have been able to reduce the number of competitors for the seventh exceptional family by two.

Now, it seemed like he could only give up.

The heavenly remains cave abode was filled with countless variables. Once it appeared, it would definitely trigger the intrusion of all the experts in the shortest amount of time.

He had to seize the first opportunity. He had no time to waste here.

“Consider Yourself Lucky!” Xia Ruchen snorted coldly. He waved his hand and several drops of ink flew out and scattered on the ground, turning into an abnormally sharp line of words.

“Let's Go!” Xia Ruchen and the others left in a hurry.

Several days later.

Su Yu and the other two cautiously left the silver soul void sea.

After they left, they sensed that they had triggered some kind of array formation.

The two women were already prepared to escape again.

As for Su Yu, he was also prepared to have a big battle with them.

Unexpectedly, after the array formation sensed it, there was no “Then”..

Xia Ruchen and the two Dao Masters, not to mention their figures, even their auras had disappeared without a trace.

The star Lady was puzzled. “It seems that they have been away for quite a long time.”

Su Yu frowned. Judging from the arms of these formations, Xia Ruchen was prepared to kill them. It was not just some unforeseen event that made them give up.

“What a pity,” Su Yu said indifferently, the stars in his eyes flashing coldly.

He had intended to use them to test the power of the great success Heavenly Dragon Dao body.

Unfortunately, they had left too quickly!

Unfortunately? The two women did not quite understand what Su Yu meant. It should be said that their luck was very good, right?

No matter what, the crisis was resolved.

Star lady said, “The most important thing now is to send snow dream flying rain back to the sixth absolute family safely.”

Su Yu nodded lightly and said, “Find a safe place and let her hide first!”

A few days later.

After waiting anxiously for a while, the sixth exceptional family finally received a message from Su Yu, asking them to pick someone up somewhere.

Sure enough, they found the unharmed snow dream flying rain there.

At the same time, Su Yu and star Lady appeared near the Pirate Alliance through the myriad sect beast.

As soon as they appeared, they were almost hit by a speeding warship.

As they focused their attention, they saw thousands of pirate warships leaving the Pirate Alliance’s Lair!

Chapter 2235 Summer Bug Ice Language

The Little Moon Pirates were among them.

Su Yu and star lady immediately boarded the main ship to meet Xie Xiaoyue.

“Why are you back so late?” Xie Xiaoyue asked in surprise.

Iron Hand was standing beside her.

Iron Hand and the others were taken away by the sixth peerless family, but they were suddenly released almost ten days ago.

They only found out after beating around the bush that Su Yu and the others had finished exchanging hostages, and both sides were happy.

However, even iron hand had returned for so long. Why didn’t Su Yu come back?

If he didn’t come back, the pirate alliance would think that Su Yu ran away with the extorted money.

“It’s hard to explain.” Su Yu said, “Did something big happen? Why did The Pirate Alliance Act Together?”

Not only the ten great pirates, even small and medium-sized pirates were on the move.

“The heavenly remains cave mansion has appeared!” Xie Xiaoyue’s eyes shone with joy.

Hearing this, Su Yu’s pupils also shrank.

So Sudden?

“When did it happen?”

“Five days ago, the heavenly remains cave mansion suddenly appeared in the sky above the seventh aristocratic family. Everyone knows about it.”

Hearing this, Su Yu’s heart slightly moved. He and star girl looked at each other and found the surprise in each other’s eyes.

Five days ago, that was when they met princess dance.

Was It really so coincidental?

“Now, the entire seven unique civilizations, as well as the experts of the nearby civilizations, all went out to get a share of the heavenly remains cave mansion. We, the small moon pirates, can not fall behind,” Xie Xiaoyue said.

The heavenly remains cave mansion was an eternal opportunity for any force.

No one wanted to miss it!

Su Yu didn’t want to miss it either.

Because he knew that the divine seat of Heaven and Earth was among them!

“Oh right, these are the gold that I requested during the negotiation.” Su Yu took out ten spatial storage devices.

Xie Xiaoyue glanced at them and said, “If you don’t get one percent of the sixth absolute family’s treasure vault, your mission this time won’t be considered a success.”

Su Yu smiled faintly, “Luckily I didn’t fail. Mission completed.”

Is that so? Xie Xiaoyue’s face revealed a hint of a smile just now.

She casually inspected one of the storage spaces and was somewhat surprised to find that the gold in this storage space was already one percent of the entire sixth absolute family’s.

“Mission exceeded?” Xie Xiaoyue looked at the second storage space in surprise.

Looking inside, Xie Xiaoyue was really moved. She said with great satisfaction, “Double? You really didn’t disappoint me!”

Su Yu smiled lightly. “Leader, are you not going to continue watching?”

Hearing that, Xie Xiaoyue’s heart pounded. Could it be..

She looked at the other spatial storage devices one by one.

In the end, each spatial storage device contained one percent of the resources of the sixth absolute aristocrat family.

In total, it was close to 10% of the sixth absolute family's resources!

This was already ten times more than the target!

Even Xie Xiaoyue couldn't help but be stunned on the spot.

She had thought that with Su Yu's ability, he might be able to ask for two to three times more.

However, asking for ten times more... how could the head of the sixth absolute family be so generous?

For an heir to exchange for 10% of the resources, it wasn't worth it for the entire family.

"Su Yu, you've really surprised me!" Xie Xiaoyue felt that Su Yu's entire body was filled with the radiance of treasures.

She felt that after becoming a pirate, there were two things that she had done most wisely.

One was to establish the Little Moon Pirate, and the other was to recruit Su Yu.

Su Yu alone was comparable to an entire little moon pirate!

Not to mention other things, just the resources in front of her could double the size of the Little Moon pirate!

Suddenly, she gave a weird smile and said, "Let's go, I'll bring you to meet the other nine pirate leaders!"

Seeing her weird smile, Su Yu knew what Xie Xiaoyue was planning.

Xie Xiaoyue used her own name and quickly summoned the nine pirate leaders to her main ship.

When they arrived, they found that Su Yu was among them.

The nine pirates looked surprised at the same time.

They thought that Su Yu had already escaped with a large amount of treasures.

In the end, he actually came back!

Leader Blue Phoenix took the lead to throw a friendly smile at Su Yu and said, "It's good that you're back."

The other leaders were not familiar with Su Yu, especially the leader of the sea wolves, who treated Su Yu as if he was nothing.

Ever since Su Yu received the kidnapping gold but did not return for a long time, the leader of the Sea Wolves had been looking at Xie Xiaoyue as a joke, secretly gloating over her misfortune.

To let Xie Xiaoyue snatch someone away, the result was great, and she lost all face!

“Everyone, you have already guessed the purpose of calling you here! Our deputy leader Su is back!” Xie Xiaoyue clapped first, but only leader Blue Phoenix echoed.

The scene was a little awkward.

The few pirate leaders were very dissatisfied with Su Yu’s long absence.

The leader of the sea wolves said lightly, “It doesn’t matter if he didn’t come back. What matters is why he disappeared for so many days without a reason.”

What he meant was that Su Yu wasn’t important. What was important was what he had been doing all this time.

He almost wrote on his face that Su Yu was suspected of defecting.

Su Yu acted as if he didn’t hear it and sat with his eyes closed.

“I’m asking you a question!” The Sea Wolf leader reprimanded him.

He was determined to take revenge and re-establish his prestige in the Pirate Alliance.

Su Yu opened his eyes and looked at him lightly, “You want to answer me just because you asked? Who Are You? What is your identity? Do you have the authority to let me continue to answer? If not, please shut up.”

Su Yu naturally did not have a good tone towards the sea wolf leader.

“What are you saying? You are just a deputy leader, do you think you are a big shot?” Sea Wolf Path master scolded angrily.

However, just as he finished speaking, he was stared at by an unfriendly gaze.

The anger on his face immediately receded like the tide, and he did not dare to say anything more.

Xie Xiaoyue stared at him indifferently. “Su Ruchu is right. You should think about your identity, how Dare You Scold My People?”

Seeing Xie Xiaoyue’s anger, the other pirate leaders fell silent.

Xie Xiaoyue was really too protective of Su Yu. He had been missing for so long, but he didn’t even want to explain himself. It was really hard to convince them.

Leader Blue Phoenix smoothed things over and said, “Then, vice-leader SU, did you gain anything from the negotiation?”

Hearing that, the leaders shook their heads secretly.

What could he get?

Even if he did, Su Yu must have taken most of it for himself, right?

It was very suspicious that he had disappeared for so long without any reason!

Sea Wolf leader scoffed and thought, how much could there be? To be able to keep 1% of the bottom line was already the limit!

“The gains are alright, right?” Su Yu said indifferently.

Alright? The leaders present did not think much of it.

The sea wolf leader chuckled, "Don't let it be that the mission isn't completed. Some people are using their own things to help you pass the test."

He was referring to Xie Xiaoyue using her own resources to help Su Yu pass the test.

Xie Xiaoyue's lips curled into a contemptuous smile. As the saying goes, a summer worm can not be said to be ice.

Until now, he still couldn't understand how much Su Yu's value was!

Chapter 2236 Dustless Pirates

Xie Xiaoyue looked at the sea wolf leader with pity and took out ten spatial storage devices.

"Please take a look."

The nine leaders didn't understand what she meant. They looked into the spatial storage devices and their expressions changed.

There were so many resources inside that even the pirate leaders couldn't help but be jealous.

They could definitely create one of the ten great pirate teams!

The Blue Phoenix Leader's pretty eyes flickered violently as she guessed, "Are these the ransom money for this kidnapping?"

The others also cast a look of shock and disbelief.

Xie Xiaoyue smiled, "You can think of it as the resources that I gave to Su Yu to use to deceive everyone."

Finally, the expressions of the nine pirate leaders changed completely.

They looked at Su Yu with shock in their eyes.

At this moment, who still believed that the resources belonged to Xie Xiaoyue?

The Pirates of Xiaoyue might be powerful, but after years of development and consumption, the remaining resources might not even be one-tenth of what they had before them. How could it be Xie Xiaoyue's?

The only explanation was the kidnapping gold!

The amount of kidnapping gold far exceeded everyone's expectations!

"It's simply a miracle!" Blue Phoenix leader praised sincerely.

"I can't believe that you can actually get so much? The kidnapping gold that the greedy wolf king exchanged for isn't even a fifth of what we have in front of us, right?"

"Vice leader Su is so capable!"

..

People only respected those who were higher than them.

The nine pirate leaders present were the same.

Su Yu had accomplished something impossible. The inability of a person made the nine pirate leaders admit that they were inferior.

Naturally, he won their approval!

Xie Xiaoyue was very satisfied with the performance of the many pirate leaders. Finally, she looked at DAO Master Sea Wolf with slight disdain and said, "Vice leader Su, tell everyone how you negotiated."

Su Yu gave a brief summary of the process.

From preparing to retreat, all the way to breaking into the sixth absolute family, deep into the dragon's Den and Tiger's den, facing all the experts of the sixth absolute family, and finally retreating calmly.

Hearing that Midway, many Dao master experts were full of praise. Especially when he chose to directly enter the sixth absolute family, it made them even more respectful.

Among the ten pirate leaders present, who had the courage to break into the sixth absolute family alone?

I don't think so!

However, Su Yu had the guts!

Such shocking courage and calm temperament made many pirate leaders feel ashamed of their inferiority.

Compared to Su Yu, in terms of temperament and courage, they were more like young people while Su Yu was like a wily old monster.

After a short exchange, the nine pirate leaders looked at Su Yu differently from before.

The Blue Phoenix Leader's gaze was the most complicated. They were the only two female pirate leaders among the ten great pirates.

Xie Xiaoyue rose to the sky with one step, but she could only follow in her footsteps.

For many years, she had been trying hard to recruit outstanding talents.

Su Yu was her ideal and most desired type. Unfortunately, it was fated that Su Yu was not fated to be with her!

However, when she looked at the Silent Sea Wolf leader, Blue Phoenix's depressed mood eased a lot.

She was just depressed, but the sea wolf leader probably had nowhere to hide!

Su Yu, who was so outstanding, comparable to an entire pirate fleet, was chased away alive by him!

And everything he did was just to curry favor with a mediocre sword in the stone.

What was blind?

The Sea Wolf leader used his own experience to vividly explain this phrase to everyone.

“This time, vice-leader Su has rendered eternal meritorious service to our Pirate Alliance. I plan to use these resources to build a new group of pirates with Su Yu as the new pirate leader! Does anyone have any objections?”

Suddenly, Xie Xiaoyue announced a sudden decision.

Hearing this, the nine pirate leaders secretly thought that it was brilliant.

On the surface, Xie Xiaoyue allowed Su Yu to become an independent sect and become the new pirate leader.

But in reality, based on Su Yu and Xie Xiaoyue’s relationship, that independent group of pirates was still Xie Xiaoyue’s people.

With so many resources, who among the nine pirate leaders wouldn’t be jealous? If they didn’t distribute them properly, there might be internal strife.

Xie Xiaoyue used all these resources on Su Yu, making the nine pirate leaders present speechless.

And in reality, all the benefits fell on Xie Xiaoyue herself.

This scheme was indeed superb.

However, Xie Xiaoyue neglected one thing. The premise of all this was that she could control Su Yu.

“Does anyone have any objections?”Xie Xiaoyue asked.

Of course, they had objections, but who dared to say it?

Especially in front of the heavenly remains cave abode, they were even more unwilling to cause trouble, so they fought among themselves.

“Since everyone has no objections, then I’ll announce it.”Xie Xiaoyue smiled and looked at Su Yu, she said, “From today onwards, the 1003rd Pirate Alliance, the Dustless Pirates, is born! The pirate leader is Su Ruchu!”

Dustless was an alias that he used in the number one aristocratic family.

As soon as she finished speaking, everyone applauded.

After a short moment of shock, Su Yu quickly accepted reality and calmly thanked everyone.

He was actually the leader of a new pirate team. That was unexpected!

However, he hoped that the pirate alliance would not regret their decision today

Xie Xiaoyue smiled and said, “As a new pirate, from now on, you will be on equal footing with us!”

Probably, only Su Yu had the qualifications to do so.

The Pirate Alliance had existed for many years, but it had never allowed other pirates to be on equal footing with the ten great pirates.

“Leader Su, after the opening of the heavenly remains cave abode, I hope that you will work with us to create glory again,” Xie Xiaoyue said.

“Definitely!”

After the meeting ended, Su Yu returned to his deputy leader’s mansion expressionlessly.

However, just as he entered, he realized that there were already people wandering around outside the mansion.

The person who came was not just anyone, it was surprisingly the star Lady!

Her fair face had the unique pinkness of a young girl lingering around it. At this moment, she was calmly standing outside the mansion, patiently waiting.

Seeing that Su Yu had returned, she smiled slightly. “Did the ten leaders make things difficult for you?”

“No.” Su Yu shook his head and opened the residence, inviting her in.

His impression of the star lady wasn’t bad, but it couldn’t be said that he had a good impression of her.

From the beginning to the end, the star lady gave her an indistinct feeling that she couldn’t see through.

On the surface, she was indeed a quiet and pleasant girl, but Su Yu had a feeling that the star lady wasn’t simple.

“The opening of the Heaven’s legacy cave residence is about to begin. Why Don’t you take the opportunity to cultivate the heaven’s legacy emperor’s cultivation technique?” Su Yu asked.

The star lady shook her head slightly and said, “How profound is the four appearances heart secrets? How can you successfully comprehend it in a day or two? I came here to tell you something.”

She looked at Su Yu with a strange expression.

Su Yu’s heart moved. He invited her into the secret room and said, “If you have something to say, you can say it.”

He looked at the star lady as if he could see through her heart.

Star Lady’s expression was calm as she said leisurely, “Vice leader Su, do you still remember the original reason why you joined the Pirate Alliance?”

Hearing this, Su Yu’s heart trembled slightly.

The original reason why he joined was naturally because of golden pupil’s request to become a spy in the Pirate Alliance.

From star Lady’s tone, it seemed like she knew something?

Chapter 2237 Star Lady’s Identity

However, Su Yu would not expose herself so easily. He pretended not to understand her meaning and said, "I was forced to join because I had no choice. After all, I killed so many elites from the number one aristocratic family."

Star Lady gave a faint smile, "Deputy leader Su, let's not beat around the bush. We are all spies of the Golden Pupil Prince. There's no need to hide it anymore, right?"

Su Yu's expression changed slightly. As expected!

She knew his background!

"You are a spy of the golden-eyed Langjun?" Su Yu pretended to be shocked. He would never expose himself before the final confirmation.

The star girl rolled her eyes and said softly, "I hate you!"

She took out a palm-sized scale that contained the golden-eyed Langjun's voice transmission.

"Su Ruchu, the star girl is someone I planted on the Holy Lotus Star. I specially deployed her to join the Pirate Alliance and assist you from the side."

Hearing that, Su Yu finally believed in Stargirl's identity.

He suppressed the scale's voice and said calmly, "Nice to meet you."

Stargirl smiled. "Why are you treating me like an outsider? We can still get along as well as before. After all, we are all spies of the same person."

Su Yu smiled but did not say anything.

It was true that they were spies of the same person, but the division of labor was different, right?

Su Yu was in charge of secretly influencing the will of the entire pirate alliance. As for Star Lady, she was supposed to assist Su Yu, but in reality, she was monitoring his every move, right?

How could he get along well with someone who was monitoring him?

"So? You exposed your identity and met me. It can't be just to get to know each other, right?"

Star lady smiled, and then her expression became serious. She said, "Family head has ordered that we can carry out his plan!"

[it's finally here!]!

[the Golden Pupil Langjun must have used his eyes to connect the past and the future to see the current Su Yu. As he wished, he had great influence in the Pirate Alliance.].

[so, he finally gave the order.].

"Speak!" Su Yu said lightly.

"In the heavenly remains cave abode, you must lead all the pirate leaders to find a place called the emotion severing platform!"

Su Yu's pupils contracted slightly.

Emotion severing platform?

That was exactly where Su Yu wanted to go, because there was the dark emperor's hidden divine throne of Heaven and earth there!

He did not think that it was a coincidence!

There was a high chance that the golden pupil Prince knew the Dark Emperor's secret, and even knew where the divine throne of Heaven and earth was.

Su Yu thought to himself that it was troublesome. It seemed that obtaining the divine throne of Heaven and earth was not as easy as he had imagined.

If the golden-eyed Langjun knew, how would he know if there were outsiders as well?

In the depths of the endless void.

An enormous phoenix covered in flames rapidly tore through the world, leaving behind many scars.

Two people sat cross-legged on the Phoenix.

One of them was a woman covered in flames, only revealing a face as white as jade.

She smiled as she looked at the young man beside her with his eyes tightly shut. "We're about to reach the civilization you sensed. If you still hope that your junior sister is safe and sound, then pray that the thing you spoke of is really there."

The young man in front of them was none other than Zhan wushuang!

He and Hanxuan had experienced many fortuitous encounters and were both on the verge of breaking through to become Dao Masters.

To their surprise, they received news that in a top-tier seven-star civilization, the spark civilization, there was a type of divine flame that could allow the domain of laws to be transformed. It was called the Heavenly Spark.

The two of them had taken the risk of barging into the spark civilization. In the end, when they arrived at the rumored place, they realized that it was a trap.

There was no such thing as the Starfire civilization.

The reason why it had been fabricated by people with ulterior motives was to lure people to capture them and turn them into captives to be refined into lamp oil.

When they were captured, there were already many foreign experts who had been refined into lamp oil.

The opponents were as numerous as the clouds, and there were as many as ten Dao Masters!

Zhan wushuang resisted with all his might, but he could do nothing.

He thought that he would definitely die, and that he would drag his junior sister down with him. He did not expect that one of the Dao masters who knew a little about fate would discover that Zhan Wushuang had emperor's fate!

Furthermore, he had the faint aura of the emperor's four-piece set on him.

Therefore, they had come back alive from the gates of Hell.

However, even if they came back, their ending was not good either.

Hanxuan was taken hostage by them, while Zhan Wushuang was driven by them to look for the whereabouts of the emperor's four-piece set.

Coincidentally, nearly half a month ago, he suddenly sensed the existence of the divine seat of Heaven and earth, so he played along and brought the people guarding him here.

His plan was to use the power of the local civilization to annihilate this woman.

After coming back to his senses, Zhan wushuang said with certainty, "I have a connection with the emperor's four-piece set, so it shouldn't be wrong. He is in the civilization ahead."

The flaming woman took out a starry sky map and compared it with it, she said with disdain, "So it's the declining heaven relic civilization! It was a great civilization that could be considered on the same level as our Starfire civilization back then! "Unfortunately, that Heaven Relic Guy didn't know what was good for him. He offended someone he shouldn't have offended and ended up like this."

The woman seemed to know a lot of secrets that no one knew!

"Alright, I'll make a trip to the fallen heaven relic civilization and see what kind of clowns are left behind."

The woman's tone was extremely arrogant.

However, Zhan Wushuang understood that this woman's strength was extremely terrifying. What she said wasn't some arrogant words, but very reasonable words to herself.

As far as he knew, even an ordinary seven-star civilization master might not be this woman's match.

How many experts in this declining heavenly remains civilization had the strength of a seven-star civilization master?

This woman had descended into the heavenly remains civilization, and she was definitely an existence that surpassed ordinary people!

At that time, the number one aristocratic family.

Golden Pupil Langjun looked out into the sky with his hands behind his back. His golden eyes were as deep as the sea. He clenched his fists slightly nervously. "You've prepared for so many years. Don't let me down!"

Behind him stood the core members of the aristocratic families such as Bi Yun Hong Xian and Dao master monolith.

"Let's Go!" Golden Eyes Langjun took out a heaven relic battleship and led everyone to jump onto it. They then sped towards the seventh exceptional family.

The second exceptional family.

Royal Soldier Breaker patted the shoulder of the ravenous wolf king and said, "Women never believe in the tears of men. If you want to take her back, you have to rely on your strength!"

The Ravenous Wolf King, who had a weak expression, slightly cheered up, "Yes, Father!"

"There are many incredible things in the heavenly remains cave abode. Among them, there might not be a divine item that is not inferior to the fate dao bead. If you work hard, you still have a chance to rise up again!"

Hearing this, the Ravenous Wolf King's eyes became sharp. He clenched his fists and said, "I want to rise up again!"

The sixth aristocratic family.

Mie Zheng was very happy to see Xue Mengfeiyu studying the eight desolation sea-suppressing technique.

The cultivation technique that Emperor Tian Yi had practiced was finally obtained by her daughter. To her, it was a great turning point in her life.

As long as she successfully practiced it, she would become one of the few powerhouses in the world in the future.

"I didn't give Su Ruchu twice as much gold for nothing," Mie Zheng said.

"Him?" Xue Meng Feiyu raised her head, her eyes filled with coldness. "What does it have to do with him? This technique was given to me by Princess Dance."

Chapter 2238 Two Encounters With An Old Friend

Mie Zheng shook his head lightly and said, "You're too naive! With Su Ruchu's ability, if she really wanted to snatch multiple cultivation techniques, would you and star lady be part of it? I guess he just doesn't want to snatch it!"

"Moreover, if he really wants to stop you from obtaining the inheritance and suck you into the cave abode world, what can you do to him?" What his daughter could not understand, mie Zheng saw very clearly.

Without that double the amount of gold, his daughter would not be able to obtain even half of the fortune this time.

However, Xue Meng feiyu stubbornly said, "The so-called good fortune should be mine. No one can stop it! This is not Su Yu's credit!"

Mie Zheng shook his head and did not say anything.

To be exact, the good fortune this time was actually all Su Yu's.

That heavenly lion was only leading the way for Su Yu.

Xue Meng Feiyu and the star Lady merely happened to meet at the right time. They took advantage of it and regarded it as their own good fortune.

Their daughter still thought too highly of herself.

In fact, Mie Zheng could see that her daughter still had Xia Ruchen in her heart.

Even if he had almost killed her!

“For safety’s sake, the ‘four appearances heart technique’ is left in the clan. If anything happens to you, this technique will not be lost,” Mie Zheng said.

This trip to the heavenly remains cave abode was fraught with danger. Everyone had the risk of dying.

Xue Meng Feiyu took out a copy that had already been copied. She snorted unhappily, “Father, you have so little confidence in your daughter? The dangers of the heavenly remains cave abode might not be difficult to get me!”

Mie Zheng did not speak. He was never worried about the risks of the heavenly remains cave abode. He was worried about the people!

The seventh exceptional family.

A white cloud surrounded the thatched cottage on the peak of the mountain. All the higher-ups of the seventh exceptional family stood respectfully in front of the thatched cottage.

This included Xia Donglai and Xia Ruchen.

The thatched cottage was the place where the prodigy of the generation, Xia Yian, was in closed-door cultivation.

No one had ever dared to disturb it, not even his father, Xia Donglai, and his son, Xia Ruchen.

Today was the day that Xia Yi Temple officially came out of closed-door cultivation!

Several dragon roars could be heard coming from the thatched cottage, and the door of the thatched cottage suddenly opened.

A middle-aged man wearing a gray robe walked out with an ordinary appearance.

He was someone who was still in the crowd and would never deliberately take a second look at him.

His temperament was neither as reserved as that of an ordinary dao master, nor as ostentatious as that of a low-level martial artist.

His entire person gave off an abnormally natural feeling.

Upon seeing him, all the core figures of the seventh exceptional family bowed in unison to welcome him. “Welcome, family head, out of closed-door cultivation!”

Xia Yi'an was the true family head.

It was because of his many years of guarding that the seventh exceptional family was able to reach its peak.

“The heavenly remains cave abode has appeared. Xia Ruchen, come with me. The rest of you, stay behind to guard the family.”

Xia donglai quickly said, “Are you alone? Are there too few of you? The rest of the forces will all go out.”

Xia Yi'an said calmly, “I alone will be enough.”

His words were plain, but his tone was not.

In the entire seven ultimate civilization, only Xia Yi'an was qualified to say this!

A month later.

In the deepest part of the seventh ultimate civilization, in front of a huge lake, gathered experts from the Pirate Alliance, the seven ultimate families, and the surrounding civilizations.

They stood on different sides, but at this moment, they had a tacit understanding and did not kill each other.

Su Yu stood on a main ship, with star lady standing beside her.

She looked down at the lake below her feet, she muttered, “Before the appearance of the heavenly remains cave abode, there was a mountain range that stood tall. However, one day, a large amount of underground spring water spurted out from the foot of the mountain for unknown reasons. In just a few days, this place became a lake. It can be said that the world changed overnight!”

As Su Yu listened, his gaze passed through the extremely deep lake and looked at the deepest part of the lake.

The bottom of the lake was originally a tall mountain, but at this moment, it was broken by the palaces that rose from the ground and fell to the ground.

Outside the palaces, there was a huge protective wall that protected all the palaces.

On the city gate, there were the words ‘heavenly remains cave abode’.

Su Yu was slightly surprised. Wasn't the heavenly remains cave abode a world of the heavenly remains Emperor's personal cave abode?

Why did it become a so-called palace complex?

Furthermore, from Xiao Die's point of view, although there were many treasures within the palace complex, not many of them had reached the Green Standard.

There wasn't even a single dark green item. It wasn't even comparable to the mountain that Xie Xiaoyue had obtained.

Su Yu would never believe that the heavenly emperor had accumulated so much in this place over the years.

Although the others had the same doubts, they still felt that there were many treasures in the palace.

However, the heavenly inheritance cave hadn't fully opened yet.

It was still floating out of the ground and seeing the light of day.

The city gates would only open automatically after it was completely exposed.

After several days of waiting, as time passed, more and more familiar faces appeared.

Jade Cloud Red Immortal, greedy wolf king, snow dream flying rain, Xia Ruchen..

But Su Yu did not care about them.

What he cared about was the number one aristocratic family, an unremarkable figure behind Golden Pupil Langjun.

From the position he was standing at, he should be the guest elder of the number one aristocratic family.

However, Su Yu would never forget that face for a long time!

“Gu Taixu!” A faint cold light scattered from the depths of Su Yu’s eyes.

This was the person who had been his enemy since the nine prefectures continent!

The last time they met was when he saw Su Yu in the ruins of Emperor Yu of the Great Yu dynasty. When he saw how powerful Su Yu was, he chose to run away.

Unexpectedly, he met Xiao Die. Xiao Die ate a few of her fierce beast souls, and her body of nine gods was completely disfigured.

Who would have thought that after so many years, Gu Taixu would actually be able to come from the remote da Yu civilization to the seven star civilization?

It would take a Dao master a thousand years to get here from anywhere!

Just being able to reach this place required a great deal of luck.

As if sensing his gaze, Gu Taixu looked over.

Fortunately, before Su Yu came, there might have been people from the seven uniques seeking revenge on him. They had altered their faces beforehand, so Gu Taixu did not recognize them.

Looking at Gu Taixu, Su Yu’s heart was calm and tranquil.

After so many years, the grudge from back then was really not worth mentioning now.

It did not matter whether he was killed or not.

However, this grudge had existed for too long. If they met in the heavenly remains cave abode, he would still settle it conveniently.

Su Yu withdrew his gaze and waited quietly.

Suddenly, the crowd suddenly boiled.

“Look, Xia Yi'an!”

Su Yu’s heart skipped a beat as he followed everyone’s gaze.

Su Yu had always been curious about this legendary figure.

He followed his gaze and saw that at the end of the world, two people were approaching on clouds.

He had seen Xia Ruchen before, but this was the first time he had seen that middle-aged man.

However, upon seeing him, Su Yu actually had a very subtle feeling.

Deja Vu!

It was as if he had seen this person a long, long time ago!

The time was long enough for him to reach the true dragon continent!

He had left behind many regrets on the true dragon continent, as well as many memories that could not be erased.

There were also many people and things that could not be forgotten.

Who was the source of this deja vu?

He tried hard to recall, but for a moment, he could not remember where he had seen this face.

What was even stranger was that Xia Yi'an's calm gaze swept across the crowd. When he saw Su Yu, his gaze froze. Then, his pupils constricted!

Chapter 2239 Taking Things In One's Pocket

Su Yu caught the subtle changes in his eyes.

Xia Yi'an knew him!

He was even more certain that he had seen this person a long time ago.

Their eyes met, but they quickly averted their gazes, treating each other as strangers.

Xia Yi'an seemed to have calculated the time. Almost as soon as he arrived, the lake water churned violently, and large white waves appeared.

An enormous group of palaces seemed to have no weight at all. They floated up from the bottom of the lake and floated on the surface of the lake.

The entire palace was wet, and the roofs of many palaces were pouring water under the eaves.

Almost as soon as they appeared, several figures rushed into the palace.

Pah --

However, just as those figures were about to reach the outside of the city wall, they suddenly turned into a cloud of blood mist.

The people following them immediately stopped in their tracks, their eyes filled with panic.

After taking a closer look, they discovered that outside of the city wall, there was a powerful and extraordinary restriction protecting the palace from external forces.

The strength of that restriction was so strong that even dao masters were unable to break it completely.

At most, they could only open a crack and maintain it for a short period of time.

“Let's Go!”The second absolute aristocrat family's Pojun Emperor flew forward and released his domain, forcefully cutting open a crack that was as wide as a person.

“Quickly enter!”He shouted to the people behind him.

His breathing quickened as the dao master's power in his body continued to drain away. Not long after, his entire face turned pale.

It could be seen that maintaining the crack was extremely taxing on him.

When all the core members of the second aristocrat clan entered, Emperor Breaker roared and entered.

Without the domain to maintain, the opening of the crack immediately closed.

This scene caused the expressions of many experts from other civilizations to turn extremely unsightly.

If the Clan Head Level Dao master was already so exhausted, they probably wouldn't even be able to open the seal.

As expected, an unknown ordinary dao master abandoned his followers and planned to enter alone.

However, he used his own domain and even took out his dao artifact. He could only open a half a person wide passageway.

Even he himself couldn't enter, let alone the people who came with him.

Dao masters who weren't Clan Masters couldn't enter at all.

After that, the first, third, and even the sixth families all did the same.

With their heaven-shaking and earth-shattering abilities, they could only maintain the formation for less than ten breaths.

Originally, the large group of people they brought could only stay outside the cave abode and bring in a few elite powerhouses of the clans.

In the end, only Xia Yi'an was left among the seven ultimate civilizations.

However, he didn't even look at the sky and walked towards the cave abode of heavenly relics, standing in front of the restriction.

He didn't move at all. With just a light palm, he blasted the restriction open, which was ten people wide.

He brought Xia Ruchen and entered easily as if they were strolling in a garden.

This scene made the many pirate leaders of the Pirate Alliance feel their scalps go numb.

He didn't even need to use his domain, but he could break the restriction by relying on his body alone?

How powerful was he?

He was on a completely different level from all the family leaders present!

Xie Xiaoyue felt it the most clearly and said solemnly, "When you are inside, don't have any conflict with Xia Yi'an!"

In fact, she didn't need to remind them, and no one was too stubborn to find trouble with Xia Yi'an.

“It’s more difficult to enter than expected, so not everyone can enter. Only the nine leaders and twenty deputy leaders can enter,” Xie Xiaoyue said.

Her strength was almost the same as Emperor Pojun’s. The other party was so simple, and Xie Xiaoyue was no better.

As expected, it was extremely difficult for her to maintain the restriction after she activated it.

Her body was exhausted, and her expression changed slightly. She shouted in a low voice, “Su Yu, Iron Hand, you go first!”

She naturally had to take care of her own people first!

Su Yu was already prepared and barged in.

As he passed through the restriction, Su Yu sized up the restriction. With his perfected Heavenly Dragon Dao body, he could actually open a passageway that was as wide as a person.

However, he could only allow himself to enter alone and could not maintain it for too long.

Very soon, the ten pirate leaders and twenty vice leaders gathered in front of the city wall.

Xie Xiaoyue was the center of them. She said, “The palaces are huge. We will split up. Whatever we find in the end will depend on our luck.”

As she spoke, Xie Xiaoyue took out ten special space jade talismans and hit each of them.

“The function of the jade talismans is to isolate the rest of the space magical equipment on you. Any resources that you find in the heavenly relics cave abode will be stored in the space storage devices and will be the first to enter the Jade Talismans!” This method was to prevent them from taking the resources that they had obtained for themselves.

The ten great pirates had long reached a consensus on this point, so no one objected.

“No one is allowed to tear off the Jade Talisman Midway. Otherwise, we will treat it as if we were stealing resources. The worst case scenario would be death, and the worst case scenario would be Death!” Xie Xiaoyue said solemnly.

Everyone nodded. There were simply too many resources in the heavenly remains cave abode, and no one was allowed to have any other thoughts.

“Split up!” Xie Xiaoyue said. She took the lead and entered the city, choosing a direction to search.

The rest of the people took action on their own, including star Lady. They did not monitor Su Yu for the time being, and with a slightly anxious expression, they chose a direction to search for good items.

Su Yu, who had already searched for the local treasures in advance, was neither too fast nor too slow.

Out of everyone, he was probably the only one who knew that there were not many precious resources inside.

He entered the city with his hands behind his back.

There were two rows of stone man soldiers and a stone man general guarding the city gate.

They were all ordinary statues.

Su Yu, who was relaxed, glanced at the stone man.

When he looked at the stone man general, he noticed that he was wearing a snow-white ring on his right index finger.

At first glance, he thought that it was an ornament of the stone statue. However, upon closer inspection, the ring faintly emitted a hidden power that was difficult to detect.

Su Yu's heart stirred. He walked forward and took off the ring.

He spread it in his palm and examined it carefully. This item was not a spatial storage item, but it was also not a weapon.

Even after instilling the prehistoric power, there was no movement.

However, that faintly discernible hidden power was very clear.

After thinking for a moment, Su Yu casually threw it into his sleeve.

Only then did he use Xiao Die's perspective to scan the valuable places in the palace.

He first came to the southeast corner, the edge of the city.

In an inconspicuous residential courtyard, Su Yu came to the courtyard and pulled up a tree in the courtyard.

On the root of the tree was a rusty broken sword.

The grade of the sword was extremely high. It was an immortal embryo of a Dao artifact!

Although it was broken, after refining it again, it was still a good immortal embryo of a Dao artifact. It could be worth a lot of money.

After thinking for a while, Su Yu was about to put it into his spatial storage when he suddenly realized that he had a jade talisman on him.

After thinking for a while, Su Yu summoned little kirin.

Xie Xiaoyue probably didn't know about the existence of little kirin.

"Wow!" Little Kirin looked around and looked at the empty city. He said in surprise, "Such dense spiritual qi. Master, are you going to dig up another person's grave?"

The veins on Su Yu's forehead jumped and he gave him a kick without holding back. "Do you speak human language?"

When did he dig up another person's grave?

If the ancient tomb of the evil emperor was also considered a grave, then it was not wrong.

“Wu!”The little qilin rubbed his belly with his two front hooves and said with a grin, “Wrong, it’s a relic! A Relic!”

“Open your mouth!”

“Ah!”

Su Yu casually threw the broken sword into its mouth.

Chapter 2240 Narcissistic Statue

Then, Su Yu tiptoed to a temple in the city.

There was a bodhisattva statue in the temple, holding a white jade bottle in its left hand.

Su Yu jumped up and took out a willow branch from the bottle.

The Willow Branch itself was not a divine tree, but after the willow branch absorbed the mysterious liquid in the bottle, it became unspeakably expensive. Its value was no less than a complete immortal embryo of a dao item.

Just like that, Su Yu relied on the perspective shared by Xiao Die to move back and forth in the city. After a whole day, he found eleven immortal embryos of Dao artifacts.

Of them, ten were given to little qilin to hide. Only the one with the lowest value was kept in the jade talisman.

After sweeping around, Su Yu confirmed his next target, a rather large mansion.

As soon as he entered, he discovered that there were already many people searching in the mansion.

Some of them were people he knew, such as the greedy wolf king and Snowdream flying rain.

It was unknown if the two of them had met by coincidence, or if they had agreed to meet up here.

They had a tacit understanding not to quarrel, but to look for someone else.

When Su Yu arrived, the entire mansion had already been turned upside down.

The grass in the courtyard had been blown to smithereens.

More than half of the mansion’s house had also been torn down. The various furnishings in the house had also been searched. Even the clothes in the wardrobe had been burned on the spot by them to check if they were treasures.

However, they had no other choice but to search for a needle in a haystack.

Su Yu’s arrival made both of them tense up at the same time.

However, seeing that Su Yu had no intention of making a move, neither did he make any unnecessary moves.

However, they were constantly on guard against Su Yu from the corner of their eyes.

However, they saw Su Yu strolling into the courtyard. In the courtyard that had been blasted into a mess by them, Su Yu rummaged through the dust and found a blue bead.

The bead was like a gemstone. When the dust on its surface was wiped away, it immediately released a bright light and a thick stream of water vapor.

With one look, one could tell that this was an extremely rare water element Dao artifact immortal embryo.

In terms of value, it should be above the previous eleven Dao artifact immortal embryos.

Seeing this, the greedy Wolf King and Snow Dream Flying Rain's expressions instantly turned ugly.

They dug three feet into the ground and couldn't find anything, but Su Yu seemed to have come to his own home. He easily took the treasures from the places they had searched!

Su Yu must have a secret!

They thought so in their hearts, but they could only watch Su Yu leave, not daring to stop him.

Just like that, Su Yu was like taking things from his bag, continuously searching one treasure after another.

Three days later, all the treasures in the city were basically gone.

Except for the center of the city!

There was a light green ball of light there.

It was one of the few light green treasures in the city.

Three days had passed, but no one had taken it away.

The reason why Su Yu didn't go there was because it was a place that many experts had to fight for.

If there was no need, there was no need to fight with them.

Now, there were no more treasures to search for, so he could go and take a look.

Not long after, in the center of the city.

As Su Yu had guessed, there were already several dao masters confronting each other there.

Among them were Xie Xiaoyue, Emperor Po Jun, Mie Zheng, and many other Dao Masters.

At this moment, they did not have any position. They were all fighting each other over the statue in the center of the city.

The statue was surrounded by restrictions. One look and one could tell that it was not an ordinary object!

"If we continue fighting, it will not help. Instead, it will attract more people!" Finally, mie Zheng said, "Before we determine if there is a treasure in the statue, if we continue fighting, it will only benefit others."

When they were exhausted, the statue would belong to someone else.

In fact, the other two had the same idea, so they hit it off.

The three of them stopped.

Mie Zheng said, "The restriction on the statue is extraordinary. With the strength of any one of us, we might not be able to break it. Why don't the three of us work together and break it? After the treasure is born, we will fight for it with our own abilities."

"Okay!" The other two nodded.

After reaching a tacit understanding, the three of them attacked the restriction outside the statue at the same time.

The restriction was extremely powerful. It absorbed all the domains of the three of them.

"Continue, the domain absorbed by the restriction is limited!" Extermination shouted.

The three of them attacked with all their strength again.

After an hour of continuous attacks, the restriction had reached its limit. With a crack, it shattered.

The expressions of the three of them changed. The moment the restriction shattered, they rushed towards the statue.

However, just as the three of them were about to fight over the statue...

A strange scene appeared. The statue suddenly opened its eyes and revealed a cunning look.

Its entire body rolled on the ground nimbly and rolled out of the three of them. Then, it took a step forward and ran while laughing loudly.

It didn't matter if it ran or laughed. What mattered was that the statue was naked!

Su Yu stood in the shadows and twitched as he watched. This scene was hurting his eyes!

However, Su Yu noticed that the statue's body was faintly emitting a pretty good color. It was the light green treasure.

With a thought, Su Yu secretly chased after it.

He saw the stone statue elegantly running with large strides and occasionally stroking the hair on its forehead. It was narcissistic and intoxicated. "Ah! I'm So Beautiful!"

When he passed by a garden, he even plucked a flower from it and pinned it between his hair. He even looked at his reflection in the water. "It's so beautiful!"

Su Yu saw it and Goosebumps appeared all over his body.

What was going on with this statue?

It did not look like a normal treasure at all!

At this moment, Xie Xiaoyue and the other two caught up. Just as they were about to surround the statue, the statue actually burst out with twice its speed.

Its entire body turned into an afterimage as it sprinted into the distance.

It laughed loudly along the way.

Suddenly, he passed by a pool and stopped when he saw a woman searching for treasures in the pool.

Standing across the pool, he called out affectionately, “Ah, beautiful girl, please accept my most sincere love.”

Without waiting for the girl to react, he flashed in front of the girl and grabbed her soft hands with both hands, moving closer to kiss her forcefully.

“Damned Hoodlum!”The girl was not just anyone, she was star lady!

Her eyes turned cold, and starlight shot out from her eyes, spraying all over the statue’s face.

Immediately, the statue’s face started to crumble.

“Ah! My handsome face!”The statue immediately covered his face and shouted loudly.

However, soon after, he suddenly moved his hands away. In a short moment, his face returned to normal, and a narcissistic smile appeared on his face. “Haha, I lied to You! I’m so beautiful, there’s no fate with ugliness!”

While laughing, he plucked the flower in his hair and placed it in star Lady’s hand. Then, he laughed and left.

The strange thing was, after the statue left, the flower in star Lady’s hand actually turned into a portrait with the statue’s face on it.

In the portrait, the statue still had the same self-infatuation and intoxication look.

Star Lady felt disgusted and was about to throw it away when suddenly, the portrait burned, burning a huge crack in front of her.

A terrifying spiritual Qi that was ten times more powerful than the heavenly remains cave abode rushed towards her!

Su Yu, who was hiding in the dark, used Xiao Die’s perspective to take a look and his expression changed.

There were many green and even blue treasures inside!

In an instant, Su Yu understood that this was the true heavenly remains cave abode!
