

Nine-Dragon 2261

Chapter 2261 Yellow Sparrow Was At The Back

The Purple Flame Female Devil's body first had the power of petrification and then the power of ice. She had no ability to resist at all.

After receiving such a kick, she was stomped until she spat out a mouthful of blood on the spot.

The Three Treasures of the heavenly legacy six treasures were stacked together. If it was anyone else, they would have already been reduced to ashes.

However, the purple flame female devil was only injured!

Moreover, it was a light injury!

"Hehe... hehehe..."the purple flame female devil laughed, causing everyone present to be frightened. Her voice became deep and sinister, "What can you do to a broken civilization?"

With a low roar, Deep Purple Flames surged all over the Purple Flame Female Devil's body.

First, she evaporated the ice, and then she destroyed the petrifying power in her body.

Finally, he grabbed the divine throne of heaven and earth with one hand and lifted the giant foot that was suppressing him with the other.

"Scram!"With an angry roar, the purple flame female devil shook her arm and sent the giant foot flying.

The onlookers were shocked!

Even the three heavenly relics combined couldn't suppress the Purple Flame Female Devil?

How Strong was she?

Only three of the six treasures appeared.

The other three treasures hadn't appeared yet!

Among them, the Li Soul Stone was in Su Yu's hands, while the golden-eyed Langjun controlled one of the treasures in his abdomen.

There was only one treasure left, but no one knew who had it.

"You have no idea what to do, right? Since you don't have it, then it's my turn!"The purple flame she-devil's entire body burst into flames, emitting a rather terrifying aura.

Xia Yi'an's expression changed slightly, and he said, "All of You Retreat!"

It could be seen that the purple flame she-devil had been suppressed by many warriors of the seven ultimate civilizations. She was already quite angry and was ready to start a massacre.

Su Yu secretly held the bracelet in the crowd.

If he had to, he could only take action.

The remaining six beads were most likely unable to kill the purple flame female devil, but it was still possible to injure her a little.

Everyone retreated one after another. Some had even run away.

But at this moment, a strange figure appeared three feet behind the furious purple flame female devil.

It was none other than Bi Yun Hong Xian!

She held the other leg in her hand and appeared with a calm expression. She said indifferently, "The seven ultimate civilization doesn't allow you to be impudent."

After she finished speaking, she infused the primal power into the right leg in her hand.

In an instant, that leg suddenly kicked towards the back of the purple flame demoness.

Bi Yun Hong Xian's concealment technique was too brilliant. Not only did Su Yu fail to notice it, even someone as strong as the purple flame demoness did not have the slightest bit of defense against it. It appeared within three feet of her.

What was even more unexpected was that the last remaining treasure, the Heaven's legacy right leg.

They had thought that it would be in the hands of the third, fifth, and even Xia Yi'an, but in the end, it was not. It was in the hands of Bi Yun Hong Xian, who no one paid attention to!

Under unexpected circumstances, the purple flame female demon received a sudden attack.

He, who had just raised his aura, was kicked so hard that he spat out blood and flew away. His body was also sent flying countless mountains and rivers.

The divine seat of Heaven and earth in her left hand was finally released.

Before the divine seat could escape, it was easily captured by Bi Yun Hong Xian.

Seeing this, Su Yu was secretly shocked. As expected, the daughter of Golden Pupil Prince could not be underestimated!

She was the one who hid the most!

Even Su Yu almost ignored her.

But in the end, she was the one who rushed out and snatched the divine seat of Heaven and earth!

And..

Su Yu narrowed his eyes. He didn't believe that with Bi Yun Hong Xian's intelligence, she wouldn't be able to tell that the one who held the divine seat of Heaven and earth was everyone's common enemy.

She dared to hold it in her hands, so she must have something to rely on!

As expected, before everyone could make a move, a loud laughter came from afar. "Well done!"

Bi Yun Hong Xian smiled calmly behind her. "Father."

Everyone looked over, but they couldn't see anyone. However, in the blink of an eye, golden-eyed Langjun teleported in an extremely strange way and appeared in front of everyone.

Along with the many guests he brought, they all stood side by side behind him.

“Golden-eyed Langjun?” Xia Yi'an looked at him, his gaze clearly different from the other heads of aristocratic families.

He looked at golden-eyed Langjun with fear.

“Hehe, how have you all been?” Golden-eyed langjun cupped his fists and bowed to everyone present.

Greed burned in everyone's eyes.

It was obviously easier for the purple flame demoness to snatch the divine seat of Heaven and earth from golden-eyed Langjun!

Without receiving any response from anyone, golden-eyed Langjun smiled and took the divine seat of Heaven and earth, gently stroking it, he said with a smile that was not a smile, “Divine throne of Heaven and earth, how many people yearn for this great treasure? But, how many people truly understand you?”

His baffling words were as if he had not heard them, to those who wanted to snatch it from him.

Finally, Emperor Po Jun could not hold it in any longer and took the lead to rush over, shouting, “Golden-eyed Langjun, if you don't want to die, then put down the divine throne.”

Golden-eyed langjun smiled contemptuously. “The courage of an ordinary man!”

Whoosh --

As soon as he finished speaking, Bi Yun Hong Xian used her heavenly relic right leg to kick him!

Emperor Po Jun snorted coldly. “I have the six heavenly treasures too!”

He took out the heavenly relic ice palm and collided with the heavenly relic right leg.

The two were equally matched.

Mie Zheng could not hold it in any longer and jumped up. “And me!”

Xie Xiaoyue was even more unwilling to be left behind. She held her left hand and flew up. “Divine throne of Heaven and earth, I am determined to get it!”

Three Treasures versus one treasure, the result was naturally without suspense.

The treasures in Bi Yun Hong Xian's hand flew out!

Seeing the powerful power of the three treasures pressing forward and killing Bi Yun Hong Xian, she was neither too fast nor too slow. She gently stepped back as if she was not worried at all.

The smile on Golden Pupil Langjun's lips deepened. “The six treasures of Heaven's legacy also have a difference in strength. You are snatching them without any purpose. You are only making a wedding dress for others!”

With a flip of his palm, a beating heart appeared in his palm.

There was a lot of mixed blood flowing in that heart. There was the blood of a God and a Dao master!

Su Yu's pupils shrank slightly when he saw this. He immediately recalled from the aura that the golden-eyed Langjun had been capturing people everywhere and pouring their blood into the blood pool.

At that time, he saw that the blood pool was rolling continuously as if there was something inside.

Now that he thought about it, this relic was probably absorbing the blood!

What was extremely strange was that once this fifth relic appeared, the other four relics began to mutate.

The first was the heavenly relic's right foot that left his hand. It flew towards the area around the heart.

As for the other three relics controlled by Xie Xiaoyue, Emperor Po Jun, and Mie Zheng, they were actually trembling non-stop and were trying their best to break free from the control of the three of them.

The three of them were shocked and didn't understand what was happening. They were trying their best to control the relics that they had obtained with great difficulty.

Who knew that the relics would turn around and attack them, forcing them to let go.

The three of them weren't the purple flame demoness. If they were attacked by the relics, they would definitely be turned into ashes.

Their scalps went numb as they threw away the relics.

Just like that, the three relics returned to the surroundings of their hearts like swallows returning to their nests.

At this point, all five treasures fell into the hands of the golden-eyed Langjun.

"Haha..."the golden-eyed Langjun laughed loudly. He suddenly bit his finger and dripped a drop of extremely pure dao master's blood.

Before the Dao Master's blood dripped down, it started to spread three feet above the heart.

Chapter 2262 The God Of Death Of Time And Space

It turned into flesh and blood, bones, skin, and hair, covering the five heavenly relics.

In three breaths, it had condensed into a human-shaped creature.

Its facial features were clear, and it looked very similar to Xia Yi'an!

"I've finally waited for this day!"Golden-eyed langjun took a deep breath to calm himself down.

On the other hand, the crowd was filled with fear.

They had just realized what each of the five treasures represented!

Those were the five parts of the Heavenly Emperor's body!

His hands, feet, and heart!

Could it be that the heavenly emperor had not only died, but he had also been dismembered into six parts and hidden in his own heavenly cave abode?

Everyone felt as if they had been baptized by the flood of history, allowing them to solve the mystery of half an era.

Back then, the Heavenly Emperor, who looked down on the starry sky, disappeared overnight, and his whereabouts were unknown ever since.

The glorious era of the heavenly emperor had been reduced to the dust of history ever since.

It was only until today that a corner of the eternal truth was revealed!

The Heavenly Emperor had long fallen in his heavenly cave abode!

Xia Yi'an stared at the body that was reconstructed from the five parts of the Heavenly Emperor's body. Finally, he stared at the golden-eyed prince. "Who are you?"

As the descendant of the heavenly emperor, Xia Yi'an didn't know the secrets of the Heavenly Cave.

However, the golden-eyed Langjun knew it like the back of his hand!

The golden-eyed Langjun smiled lightly. There was a sense of relief in his smile that had been hidden for many years. "I have the same bloodline as you, from the era of the Heavenly Emperor!"

"The difference is that you have the bloodline of the heavenly emperor, and I am the descendant of the Empress of the Heavenly Emperor!"

Hearing this, everyone was deeply surprised.

There were many records of the Heavenly Emperor's deeds in history, but the empress of the heavenly emperor was rarely mentioned.

Even if there were, it was only in a few words, and her presence was very low.

Only Xia Yi'an knew more secrets, he muttered, "No wonder! I have always wondered why you, who has never understood the law of time, have the ability to connect the past and the future! So, you are the descendant of the god of time and Space Death!"

Ordinary people only knew that the heavenly remains emperor's strength was unrivaled in the world. He had defeated all the surrounding civilizations and created endless glory for the heavenly remains civilization.

However, could a single heavenly remains emperor support such great prosperity?

How vast was the absolute beginning world?

Was there no civilization master who was more powerful than the heavenly remains emperor?

Of course there was!

For example, the divine flame demoness of the Spark Civilization!

She was a monarch-level powerhouse that suppressed the past and present. She could look down on all the seven-star civilization masters.

Then why was the heavenly remains civilization able to grow so quickly and smoothly?

It was all because of the existence of the empress who controlled the space-time domain!

In the era when the heavenly remains civilization was expanding, whenever they encountered an opponent that the heavenly remains emperor was unable to contend with, the Empress who was hiding behind the scenes would take action.

She activated time reversal and returned to the past of time. When the enemy was weak or had a flaw, she would appear and kill them in another space-time.

No enemy had ever been able to escape her pursuit.

Hence, she was known as the god of death, the god of death who walked through space-time!

This was the truth of the heavenly remains civilization's glory!

Although the heavenly remains Emperor had created a kingdom, the empress behind the scenes was the true founder.

Without her, the heavenly remains civilization could only be a mid-level seven-star civilization.

Until one day, the heavenly emperor disappeared for some reason, and the Empress disappeared. The entire heavenly remains civilization was soon torn apart.

Xia Yi'an never expected that the number one aristocratic family under his nose was actually the descendant of the Empress!

He stared at the golden-eyed prince and said, "So they are all descendants of the heavenly remains! Why didn't you tell me earlier? If we work together, the seven ultimate civilization might be able to return to the peak of the heavenly remains era!"

Everyone in the seven ultimate civilization looked forward to the heavenly relic era.

Xia Yi'an was no exception!

However, the golden-eyed langjun just sneered, "Hehehe... working with the descendants of the heavenly relic? Do you know how the Heavenly Relic Emperor died?"

Instantly, everyone focused their attention.

The death of the Heavenly Relic Emperor was an eternal mystery that everyone longed to solve.

Su Yu's eyes bounced back and forth between golden-eyed Langjun and Xia Yi'an, and he had some guesses in his heart.

Perhaps, it had something to do with Princess Dance?

Xia Yi'an's pupils shrank, and he cupped his fists, "If you know something, please enlighten me."

"There's no need to enlighten me. As the descendant of Emperor Tianyi, you should also know." Golden-eyed langjun said lightly, "Emperor Tianyi was killed by the Empress in a rage!"

What?

Everyone was petrified on the spot.

They had guessed for a long time. The most common guess was that the Heavenly Emperor had probably angered a super expert during the expansion of the Heavenly Emperor Civilization.

That was why the heavenly emperor was killed or captured in one night.

But the truth was so absurd!

He didn't die at the hands of the enemy. Instead, he died at the hands of the Empress, who had painstakingly helped him conquer half of the country!

Moreover, he was brutally divided into six parts and buried in the world of the Heavenly Emperor's cave abode.

"How is it? Are you surprised?"

"Absolutely not!" Xia Yi'an said in a low voice, "According to the historical records of my clan, the Empress's love for the Heavenly Emperor was the most sincere. She knew that she would not be able to live for more than five hundred years if she turned on the time reversal, but she was willing to sacrifice herself for her lover's country."

The golden-eyed prince sneered, "Yes, it is precisely because she loved him deeply that she hated him so much! What kind of hatred would make the Empress dismember him in Anger?"

"Emperor Tianyi betrayed the Empress!" The golden-eyed prince said coldly, "He abandoned the Empress and married a woman named dance at the most glorious moment of his career!"

Hearing this, Su Yu smiled bitterly.

He was right.

The Strange Palace of dance and the strange corpse had puzzled Su Yu for a long time.

Xia Yi'an frowned, "It's normal for Emperor Tianyi to have three wives and four concubines, how could he abandon her?"

Golden-eyed langjun sneered with a trace of anger, "It's normal for him to have three wives and four concubines, but Emperor Tianyi asked the empress to give the throne to dance, and he was afraid of the Empress's space-time domain, so he poisoned her with the poison of the Heavenly Dao and planned to destroy her domain. Is this normal?"

There was such a thing?

Did the emperor of Heaven's will really do that?

A woman who did not care about her life, did not care about her longevity, and risked her life to help her beloved to conquer the world, and ended up like this?

Even if they respected the emperor of Heaven's will, it was not worth it for the queen.

The Emperor of Heaven's will not only chilled the Queen's heart, but also killed her heart!

"So, that night, the Queen's temperament changed greatly, and she killed the Emperor of Heaven's will with her own hands, and buried his body in the Cave of Heaven's Will!" The golden-eyed Langjun's words contained a deep chill.

Xia Yi'an was silent for a long time before he let out a long sigh.

He did not want to believe this truth, but it seemed that he had no choice but to doubt it.

Only in this way could he explain the sudden collapse of the heavenly remains civilization.

After a pause, Xia Yi'an said, "Golden-eyed Langjun, that is already our ancestor's business! Both you and I are the descendants of the Emperor and the Queen of heavenly remains. From today onwards, we will work together to severely wound the prosperous era of heavenly remains!"

However, what answered him was only a cold shout from golden-eyed Langjun that seemed to have gone crazy.

Chapter 2263 Ambitious

"In Your Dreams!" The golden-eyed prince looked like he was going crazy. "How can the Empress' grievance be erased with a word?"

Xia Yi'an frowned deeply. If what the golden-eyed Prince said was true, then the number one and the number seven families were the same; they were both descendants of the Heavenly Emperor and the Empress.

However, the number seven families considered themselves the descendants of the heavenly emperor.

The number one family was the empress.

In essence, they were of the same bloodline.

"Then what do you want?" Xia Yi'an asked faintly.

Golden-eyed Langjun's face revealed a hint of madness. "Of course I want to destroy this place that made the Empress Sad!"

His original intention was to destroy the seven ultimate civilization.

Moreover, not only did he have this intention, but he also had the ability!

Staring at the heavenly emperor's body, Xia Yi'an's heart sank.

It was hard to say how powerful the five bodies of the heavenly emperor were.

"Golden Pupil Langjun, please wake up. Even if the emperor owes the empress, it is the long-cherished wish of our seventh ultimate family and your first ultimate family. Is there a need to destroy the entire seven ultimate civilization? The other families did not provoke the Empress."

Hearing this, golden-eyed Langjun's cold smile deepened, "Then you have to ask their ancestors, what was the Empress's last words before she left? Did she ask them to guard the heavenly remains

civilization, but what did they do? They took advantage of the chaos to divide up the heavenly remains civilization!”

“A bunch of treacherous officials, they deserve to die!” golden-eyed Langjun reprimanded.

There was such a secret?

Back then, although the Empress was in extreme pain, she did not vent her anger on the innocent heavenly remains civilization. Instead, she asked the loyal officials of the heavenly remains civilization to continue guarding the heavenly remains civilization.

What the Empress didn’t expect was that not long after she left, those subjects started to act selfishly, scheming against each other and fighting against each other.

In the end, it developed into a great war between them, and the heavenly remains emperor fell apart because of it, becoming the most powerful force among the seven aristocratic families today.

Xia Yi'an shouted, “What about the ordinary people? Have they wronged the Empress?”

The golden-eyed prince chuckled, “Since you are all dead, this debt will be written off. Of course, the ordinary people will not be harmed.”

Hearing this, anyone could tell the true intention of the golden-eyed Langjun.

What was revenge for the Empress?

It had been half a century, and there was no connection between the two.

Why did the golden-eyed Langjun have the motive to avenge the empress?

His real motive was to wipe out all the forces in the seven ultimate civilization and unite the seven ultimate civilization.

Xia Yi'an's eyes darkened, and he said indifferently, “That depends on whether we wait for death or Not!”

He took the initiative to attack, and a vast domain appeared behind him.

The domain was a vast and endless river, and it was as if it was real, rolling over and devouring the Sun, Moon, and stars!

The Masters of the family were like moths to a flame in front of this domain, and they were destroyed in an instant.

However, the golden-eyed Langjun wasn't afraid. Instead, he roared, “Fine, I'll show you the remaining power of the Heavenly Emperor.”

He released the heavenly emperor's body and injected a wisp of Dao lord power into his back.

This power was like a key to opening a sealed door.

The heavenly emperor's body trembled slightly and his tightly shut eyes slowly opened.

His eyes were empty and soulless.

“Go!”The golden-eyed Langjun said.

Because this body was shaped by a drop of the golden-eyed Langjun’s blood essence, the heavenly emperor’s body was very obedient to him.

Moreover, he was telepathically connected to the golden-eyed Langjun, so he understood what he meant and knew who he wanted to kill.

The Heavenly Emperor took a step toward Xia Yi'an.

This step seemed to make the entire cave abode of Heaven’s will tremble.

The domain that Xia Yi'an had condensed was directly shattered.

He grunted as if he had been hit hard, and a trace of blood trickled out of the corner of his mouth.

He had injured the strongest person of the seven ultimate civilization, Xia Yi'an, with just a strike from across space?

The expressions of the family masters who had been hoping for a fluke changed drastically, and they immediately fled in all directions.

However, the emperor only stepped on the ground, and the space within 30,000 feet suddenly became extremely heavy, pressing down on everyone.

The family heads who were charging forward all fell to the ground.

Under that suffocating pressure, the power of the Dao lords seemed to be condensed within their bodies, and they were unable to use even a tiny bit of it.

The eyes of the Emperor of destruction and extermination narrowed into a needle.

Was that the might of the heavenly emperor?

To be more precise, it was only the remnants of his power, not even one-thousandth of his true power.

Even so, he was able to suppress these so-called family heads so that they had no way of fighting back.

“Kill them all! Leave No one alive!”The golden-eyed Langjun ordered coldly.

The Heavenly Emperor’s body immediately took another step forward.

Instantly, the pressure ten times greater than before suddenly pressed down on the heads of the families.

Emperor Pojun and Mie Zheng were shocked. They didn’t hesitate any longer and took out the other treasures they had found in the Heavenly Legacy Cave.

Unfortunately, the two of them obtained defensive-type treasures.

Emperor Pojun took out a round pearl that floated above his head and gave off a bright light that enveloped him.

Mie Zheng took out a mannequin to block in front of him and share the endless pressure coming from above.

As for the heads of the third and fifth absolute families, they weren't so lucky.

They didn't have any powerful magic treasures to defend themselves. Under the ten times pressure, they were suddenly crushed into dust. Not even a trace of the Dao master's blood was left.

The two family heads were destroyed in an instant!

Emperor Pojun and Mie Zheng, who had luckily escaped the disaster, weren't happy because Emperor Tianyi had taken this step again.

This time, the pressure was even stronger!

The round pearl on Emperor Pojun's head finally couldn't bear the pressure anymore. With a crack, it shattered, and Emperor Pojun suffered a heavy blow. He spat out blood and flew backwards, his face golden.

Mie Zheng wasn't any better either. Even though he had the mannequin to share some of the pressure, the pressure this time was too strong. His body finally couldn't bear it anymore, and blood kept flowing out of his pores.

They were like ants in front of the heavenly emperor.

The golden-eyed prince grinned and said, "Everyone, kill him together!"

They were only targeting the clan leader just now. Xie Xiaoyue, Su Yu, Xue Mengfeiyu, and the others hadn't been attacked yet.

The heavenly emperor paused for a moment and then raised his foot.

Boom

The atmosphere in the Heavenly Emperor's cave abode started to move crazily. Countless spirit veins started to dry up and the sky started to darken.

The space barrier in the distance was also looming.

This kick would destroy more than half of the heavenly remains cave abode.

None of the people present could survive!

Xia Yi'an's expression changed slightly, and he shouted, "Don't hold back anymore. Otherwise, all of you will die!"

The direction he was talking about was not the heavily injured emperor of the broken army and extermination, but the ruins in the distance.

Boom --

A large amount of flames suddenly spewed out from the ruins, instantly burning the ruins into ashes.

A woman covered in purple flames slowly walked over.

“Good! To be able to plot against me, you have the ability!”The purple flame demoness wiped the trace of DAO Master’s blood that flowed out from the corner of her mouth and glared fiercely at Bi Yun Hong Xian.

Swoosh --

She clenched her left hand, and a purple flaming spear flashed out.

There was a faint trace of the flame of the Goddess!

Chapter 2264 The Seventh Legacy Treasure

Seeing that he was serious, Xia Yi'an didn't hide it anymore. He took out a big seal from his sleeve.

That big seal wasn't something else. It was the emperor's seal of the Heavenly Emperor!

In terms of divine might, there weren't many heavenly legacy treasures whose divine might was greater than the emperor's seal!

The golden-eyed Langjun's sinister smile faded a little, and he looked around with fear in his eyes. But since things had come to this, he had no way to retreat. “Go!”

Roar --

The Heavenly Emperor roared and rushed forward, taking six or seven steps in a row.

Each step was stronger than the last.

The purple flame she-devil and Xia Yi'an were like mountains crashing down on him, and they were in great pain.

However, they were both experienced swordsmen, and they resisted the pain and fought back together.

“Sky-splitting purple spear!”

“Heavenly Emperor's order!”

The two supreme treasures were released together, and the power they created shook the entire Heaven's legacy cave.

The river changed its course, the mountains shifted, the earth tumbled, and the sky split open.

The power of the two of them working together was beyond compare!

Not only did the heaven's legacy Emperor's foot not step down, but it was blasted away, causing the heaven's legacy emperor to retreat continuously. In the end, he staggered and fell to the ground.

The purple flame demoness and Xia Yi'an, one of them was emitting an evil purple flame, the other was holding a golden sun, one purple and one gold. They stood side by side like two gods of war!

The golden-eyed Langjun's eyes were calm. He didn't expect Xia Yi'an and the purple flame demoness to have such powerful trump cards.

However, the gloomy look on his face disappeared after a moment, and was replaced by a deep sneer. “Fortunately, you have the divine seat of Heaven and Earth. Otherwise, you would have turned the tables!”

He tore open the seal of the Divine Throne of Heaven and earth.

The Heavenly Emperor sat on it in a daze.

Immediately, the Divine Throne of Heaven and Earth released a terrifying destructive power.

It seemed that it also did not approve of the heavenly emperor's reconstructed body.

However, the heavenly emperor's body was not something Su Yu could compare to!

The destructive power could not harm his body at all. Instead, it was absorbed by the Heavenly Emperor!

Then, the heavenly emperor raised his finger and pointed at the purple flame she-devil and Xia Yi'an.

What shocked them was that the power of Dao destruction from the divine seat of Heaven and earth shot out from his finger!

It turned out that the heavenly emperor's body could use the power of Dao destruction to attack others.

Although the power of Dao destruction couldn't destroy the heavenly emperor, it was more than enough for the purple flame she-devil and Xia Yi'an!

“Get out of the way!” Xia Yi'an's eyelids twitched, and he and the purple flame she-devil quickly dodged in the same direction.

Boom

Although the dao-destroying power didn't hit them, the remaining power still injured them!

The most shocking thing was that the divine fire on the purple flame she-devil's sky-splitting purple spear was destroyed.

The big seal in Xia Yi'an's hand was cracked, and its power was reduced by half.

Both of them felt extremely heavy. The destructive power of the divine seat of Heaven and earth was too terrifying!

The golden-eyed Langjun calmed down and said with a deep smile, “Accumulate power and destroy all of them!”

The Emperor of Heaven and Earth sat on the divine seat of Heaven and earth without moving, allowing the divine seat of Heaven and earth to gather the destructive power into his body.

One, two, three..

Soon, more than a hundred of them gathered!

The Heavenly Emperor's body was expanding at a terrifying speed, showing the danger of extinction.

Once all of them were released, everyone present would die!

Even the purple flame demoness and Xia Yi'an!

At this moment, Bi Yun Hong Xian's lips moved. Her beautiful eyes searched through the crowd and finally landed on Su Yu, the man in the bamboo hat, she lowered her voice and whispered into the golden-eyed Langjun's ear, "Father, Su Ruchu is inside! Most of the credit for obtaining the divine seat of Heaven and earth is due to him."

If Su Yu had not released the divine seat of Heaven and earth from the Forbidden Zone of death, they might not have been able to carry out their plan to this stage.

The golden-eyed Langjun's face was cold. "His mission has been completed. There is no point in keeping him!"

"But father, you promised him..." Bi Yun Hong Xian pleaded.

The golden-eyed prince looked at Bi Yun Hong Xian with his golden eyes. "As the descendant of the Heavenly Emperor, you must not be merciful. Stand to the side and don't speak, or else..."

Bi Yun Hong Xian's lips twitched, but she did not dare to resist. She could only cast a deeply apologetic look at Su Yu.

At this moment, the heavenly emperor's body could no longer withstand the three hundred dao-destroying forces. His body trembled continuously.

Golden-eyed Langjun comfortably extended his arms and looked around. He laughed and said, "Let's begin!"

The Heavenly Emperor stood up from the Divine Throne and roared toward the sky.

Three hundred dao-destroying powers seeped out of his body.

The power of dao-destroying was so terrifying that even a trace of it could kill a family head.

Let alone a half-step Dao Master?

If this attack was unleashed, the entire heavenly remains cave would be destroyed. No one would survive!

Everyone was filled with despair and didn't have any hope of survival.

They could only watch as the heavenly remains Emperor unleashed the power of Dao Destruction!

However, at this moment, Su Yu calmly took out a snow-white ring and wore it on his finger.

Then, he pointed at the heavenly emperor's body and said indifferently, "Stop!"

The strange thing was that the heavenly emperor's body actually stopped, and the destructive power that was about to come out of his body was also absorbed.

The purple flame demoness and Xia Yi'an were both stunned and didn't understand what had happened.

The others were even more surprised and looked at each other.

The one who was most shocked was the golden-eyed Langjun.

The Emperor of Heaven's will suddenly stopped, which was completely out of his expectations.

“Continue!”The golden-eyed Langjun ordered.

However, the Emperor of Heaven’s will didn’t move at all. He no longer obeyed the order, and a whirlpool appeared on his back.

The blood essence that the golden-eyed Langjun had dripped earlier flew out of the whirlpool, and was expelled by the Emperor of Heaven’s Will’s body.

As a result, the golden-eyed Langjun could no longer control the heavenly emperor’s body.

“How could this be?”The golden-eyed Langjun had been waiting for this day for most of his life.

He had relied on the heavenly emperor’s body the most.

But now, he had lost the heavenly emperor’s body and had nothing!

He didn’t understand how this could happen. He had opened the river of time and seen the future.

In the future, everyone would be killed by the Emperor of Heaven’s legacy, and the entire seven ultimate civilization would fall into the hands of the golden-eyed prince.

But why would the future change?

Could it be that a mysterious almighty was secretly controlling the trajectory of fate?

In the crowd, Su Yu touched the finger between his fingers and smiled faintly.

This finger was the one he had found on the finger when he passed by a statue of a general when he first entered the outermost heaven’s legacy city.

He didn’t expect that the ring placed right under everyone’s noses was the most important treasure of the Heaven’s legacy cave abode!

The seventh treasure of the Heaven’s legacy Emperor!

Su Yu had never understood why there was a fake heaven’s legacy city outside of the Real Heaven’s legacy cave abode.

It wasn’t until the five major parts of the heaven’s legacy Emperor reassembled into the shape of a human and the ring sensed it that Su Yu understood.

It turned out that the city was the seventh area of the cave abode of Heaven’s legacy.

It was also the place where the seventh treasure was hidden!

Chapter 2265 Imprison Everyone

This ring was enough to control the entire heavenly remains cave abode!

Including the body of the heavenly remains emperor that was buried in the cave abode.

But why did the heavenly remains emperor leave behind a ring to control the heavenly remains cave abode?

Furthermore, it was placed in such a conspicuous place as if it was waiting for someone to come and retrieve it.

Could it be that the heavenly remains emperor had already predicted that something bad would happen to him before he died, so he left behind a backup plan?

Burying this question deep in his heart, Su Yu rubbed the ring, trying to secretly control part of the Heavenly Emperor's body to see if he could use it for himself.

But unfortunately, the ring did not seem to be very binding on him.

Other than telling him not to move, he was unable to do anything else.

Su Yu's heart was filled with great disappointment.

The most precious thing in the Heavenly Yi Cave should be the heavenly emperor's body. Without being able to control him, what was the use of this ring?

"Who is it? Who is playing tricks in the Dark?" Golden-eyed langjun shouted in a low voice.

Only silence answered him.

The others were reminded by his words and looked around in surprise. Indeed, to be able to make the body of the heavenly emperor unable to move, there must be an expert who had made a move in the dark!

However, just as they turned their attention elsewhere, golden-eyed Langjun's eyes flashed. He suddenly threw out a heavenly remains battleship and swept up everyone from the number one aristocratic family. Then, he broke through the air and fled.

It turned out that golden-eyed Langjun was deliberately trying to divert everyone's attention.

By the time someone realized what was going on, golden-eyed Langjun had already fled far away.

If they chased after him immediately, they should still be able to catch up, because the number seven aristocratic family also had a heaven's legacy battleship.

However, no one chased after them.

That was because the divine seat of heaven and Earth was still there!

Swoosh, swoosh, swoosh --

Xia Yi'an and the Purple Flame Demoness attacked at the same time. No one else was standing in their way, and the battle between the two immediately turned white-hot.

The others could only retreat and couldn't get close.

The battle between them lasted for an entire day and night.

Finally, Xia Yi'an was at a disadvantage.

After all, the Purple Flame Demoness was an existence that had survived for almost half a century. Although Xia Yi'an had risen abruptly, he was still slightly inferior.

"Retreat!" The purple flame demoness used the sky-splitting purple spear and successfully pierced a bloody hole in Xia Yi'an's shoulder.

Mysterious Flames spread into his body through the wound.

Xia Yi'an had no choice but to retreat and immediately sealed his wound with the power of the DAO Master.

In this way, no one could fight with the purple flame demonic woman.

She glanced at all the warriors at the scene and said mockingly, "A bunch of ants are not worthy to fight with me."

After saying that, she grabbed the divine seat of heaven and earth.

Seeing this, everyone was anxious.

It seemed that there was no doubt that the divine seat of Heaven and earth would become the object of the purple flame she-devil.

Su Yu also frowned deeply. Looking at the purple flame she-devil's appearance, her strength was still more than 80% . It was unrealistic to snatch it from her now.

Suddenly, Su Yu's heart moved, and he once again controlled the heavenly remains cave abode.

Behind the divine seat of Heaven and Earth, a crack suddenly appeared that led to the outside world.

The sudden appearance of this crack caught even the purple flame demoness off guard. She thought to herself that something was wrong and wanted to use the power of the DAO Master to seal the crack.

However, the divine seat of Heaven and Earth was also an extremely intelligent existence. He immediately found a way out and escaped in an instant.

The purple flame demoness shouted loudly and wanted to chase after the crack.

However, the crack suddenly closed, causing her to pounce on nothing.

The purple flame she-devil fought to the death with others and ended up with nothing. How could she not be angry?

"Who is it? Come out if you dare!"The Purple Flame She-devil glared at the people present.

Su Yu secretly pursed his lips. was he stupid? Would he stand out?

The purple flame she-devil glared at the crowd. "If you don't come out now, I will kill all of you!"

"How dare you?"Xia Yi'an covered his wound. Although he was injured, if he risked his life, he could still skin the purple flame she-devil.

The purple flame she-devil was extremely angry. She had no time to argue with Xia Yi'an. She turned around and left, hoping to use the space there to return to the outside world.

A faint smile appeared on the corner of Su Yu's mouth. He murmured, "I've changed my mind. This ring is actually very useful."

With this ring, he could control the space teleportation in the heavenly remains cave abode.

At this moment, without his consent, who would be able to leave?

Unless they blasted a hole in the heavenly remains cave abode!

He, who had no sense of presence at all, left silently.

Xie Xiaoyue glanced at him and did not recognize that the bamboo hat man was Su Yu.

Furthermore, she did not suspect his motive.

Right now, everyone wanted to leave as soon as possible and chase after the divine priest of Heaven and earth.

Seeing that no one was following him, Su Yu came to an extremely far distance. He found the machetemen in the snow and the others who were still on their way here. With a wave of his hand, he summoned all of them into the cave abode world. Then, he controlled the ring and drew a crack in front of him, then, he successfully left the heavenly remains cave abode.

When he reappeared, he arrived at the heavenly remains city outside.

In the heavenly remains city, beside the pond in the middle of the square, a statue was crossing its legs and admiring itself in the pond. "Ah! I'm so beautiful, so beautiful!"

Bang --

Suddenly, a spatial vortex appeared above his head. A person fell from it and stomped on the ground.

"Ah! My face! My handsome face!"The statue screamed like a pig being slaughtered. It was as if someone was holding a knife and killing him.

Su Yu had just appeared when he heard something strange under his feet. He looked down and could not help but twitch his lips.

He really wanted to stomp the statue to pieces if he did not have something to ask him.

"Which direction did the divine priest of Heaven and Earth leave from?"Su Yu shouted.

The statue's head was on the ground, and it raised its finger to point at the top.

Su Yu looked up and saw that the huge restriction above his head had been broken, and a gap had appeared. Surprisingly, the Divine Priest of Heaven and earth had used the power of destruction to forcefully break it.

He pointed with the tip of his foot and used the power of space to immediately chase after it.

"Aiyo! It's broken! Its face is broken!"The statue let out a sharp cry.

In the next breath, Su Yu appeared in the void.

In the direction he was chasing, there were already people returning one after another.

Just now, when the divine seat of Heaven and Earth broke through the restriction, it was bound to be discovered by the forces that were blocked outside the restriction and could not enter. They all chased after it.

Su Yu stopped one of them and asked, "Who has it fallen into?"

A large number of people gave up chasing and returned. The reason was either that it had fallen into the hands of the experts or that it had completely escaped.

When that person saw that Su Yu could step into the void, he knew that Su Yu was very likely a dao master. Naturally, he did not dare to hide it. He said, "Reporting to senior, the divine seat of Heaven and Earth has disappeared into the void. No one has caught up."

Hearing this, Su Yu was slightly relieved.

It was good that he had not been caught. Then, he still had a chance.

Looking at the vast void, Su Yu thought for a while and then returned to the seven ultimate civilization.

Blindly searching for the divine seat of Heaven and earth was no different from finding a needle in a haystack.

It was better to wait for the rabbit!

Zhan Wushuang was locked in the heavenly remains cave mansion by Su Yu. As the Master of the divine seat of Heaven and Earth, who desperately wanted to recognize him as its master, the divine seat of Heaven and Earth would not hide forever.

Sooner or later, it would reappear!

He did not return to the heavenly remains cave mansion. Instead, he rushed back to the nest of the Pirate Alliance half a month later.

Standing in front of the nest, Su Yu will snow machetemen and other pirates all released.

Chapter 2266 Subjugation Of Pirates

"Leader Su, why did you come out?"The swordsman in the snow asked as he looked at this place that was no longer the heavenly remains cave abode.

Su Yu said indifferently, "The conflict in the heavenly remains cave abode has already ended."

Hearing this, the swordsman in the snow and the others felt a little regretful. They had already explored enough there.

"What about the other leaders? Have they returned to their nest first?"The swordsman in the snow asked.

Su Yu's eyes turned dark. "They have all been sacrificed by the Purple Flame Demoness."

Hiss --

The Pirates didn't doubt it and sucked in a breath of cold air.

All Dead?

"Leader Su, what should we do now?"The swordsman in the snow felt very uneasy. So many leaders had all died, what should the Pirate Alliance Do?

Su Yu said indifferently, "Naturally, we should reorganize the Pirate Alliance!"

The swordsman in the snow immediately understood Su Yu's meaning -- seize the opportunity to unify the Pirate Alliance.

A ruthless expression flashed across his face as he said, "Leader, don't worry. I will lead my brothers to persuade them to surrender. If they don't obey us, kill them all!"

Su Yu nodded and shook his head again. "Those who don't obey naturally have to be killed. But those who obey us, a part of them also have to be killed."

The swordsman in the snow was stunned, "Leader, what do you mean?"

Su Yu said indifferently, "Before the official operation, you have to find out the background of the other big pirates. Why did they join the Pirates? "Are they wronged and forced into a corner, or are they full of evil and have no place to hide?"

"What if they are full of Evil?"The swordsman in the snow stared at Su Yu and asked carefully.

"Kill!"Su Yu said coldly.

He was in the Pirate Alliance, but he had never agreed with them.

Although there were people in the pirate alliance who were forced into a corner, most of them probably did too much evil and had no choice but to come to the Pirate Alliance, a place where darkness gathered.

Their hands were full of blood. How much evil did they cause by killing, injuring, and plundering?

Their existence was like a nightmare to the creatures in the nearby starry skies.

In the past, they never had the chance, but now was the best time to get rid of this cancer.

The way the swordsman in the snow looked at Su Yu began to change.

He originally thought that Su Yu was no different from an ordinary pirate. They were both selfish and bloodthirsty people.

At this moment, Su Yu's words completely changed his impression.

"As you command, leader Su!"Actually, the swordsman in the snow was forced to join the pirate alliance because he had no other choice.

Su Yu's actions won his heart.

Such an evil organization like the pirates should have been destroyed a long time ago!

"Of course, before we officially take action, we should first check out our own people. We will kill those who are extremely evil."

"Yes!"

Soon, an invisible storm descended!

First, it was the old subordinates of the Sea Wolf leader who used soul searching and other methods to investigate their personalities.

They were only ordered by the sea wolf leader to rob them, but they could still escape.

However, if they committed malicious acts such as burning, killing, and violating women and children, they would all be killed on the spot.

Although there was resistance, with Su Yu around, who could resist?

In the end, less than half of the old subordinates of the Sea Wolf leader were left.

It wasn't easy to stay clean and proud in a dirty place like the pirates.

"Let's Go! We'll go to the small moon pirates first!"

In fact, the small moon pirates could be said to be a clean stream in the pirate alliance.

She had very strict restrictions on the pirates under her command. She usually only robbed and rarely bullied women or killed people with malice.

Therefore, it was actually very easy to recruit them.

After announcing the bad news of small moon, the small moon pirates quickly surrendered under coercion and inducement.

Moreover, every pirate was restrained by Su Yu and his core pirates. They could no longer resist.

After obtaining Xie Xiaoyue's pirates, Su Yu did the same. He annexed the Blue Phoenix Pirates, White Moon Pirates, and all the other pirates in the Pirate Alliance and started an internal purge.

Half a year later, the sky above this civilization was covered by a thick layer of blood qi. From Afar, it looked like a blood ball.

At this time, the pirate alliance could be said to be in name but in reality, it was dead.

The true villains had all been killed. The remaining ones were people that could still be saved.

Other than the pirates trapped in the heavenly remains cave abode, the rest of the pirates had already fallen into Su Yu's control.

On this day, Su Yu announced on the spot that the Pirate Alliance was disbanded!

A new organization had appeared!

And that was -- Ding!

They would become members of Ding and be reborn as merchants!

At the same time.

After being trapped for half a year and unable to leave the heavenly remains cave abode, everyone finally chose to put aside their past grudges.

Regardless of whether it was the remaining three absolute families, the pirate alliance, or the opposing purple flame demoness, they all worked together to attack a certain weak point in the heavenly remains cave abode.

Finally, after several months of continuous bombardment, they succeeded in opening a gap.

Everyone came out one after another.

Everyone present was at a loss.

It had been half a year since the divine priest of Heaven and Earth left the heavenly remains cave abode. Where could they find him now?

At the very least, the pirate alliance had temporarily given up on searching.

They had left their nest for too long. It was better for them to return and take a look as soon as possible.

The seven uniques had suffered even more heavy losses!

The third and Fifth Uniques' family heads had died tragically. The fourth uniques were the core that connected them to the family head. All of them had died in the forbidden area of death.

The current seven uniques civilization would definitely fall into chaos. They had no choice but to return.

Other than the purple flame demoness, they no longer had the heart to chase after the divine throne of Heaven and earth.

Beside the Purple Flame Demoness, star lady's pair of cold eyes that were shrouded in a clear light looked around, but she could not find Su Yu's person.

"Could it be that he has already died in the heavenly remains cave abode?" Star lady was suspicious, but after a moment, she denied that thought. Based on her understanding of Su Yu, he was extremely cunning and should not have died.

However, the Purple Flame Demoness was in a hurry to chase after the divine seat of Heaven and earth, so she obviously would not stay to look for Su Yu.

And she had no choice but to leave with the purple flame demoness.

She was extremely unwilling in her heart. If she did not let Su Yu get what he deserved, it would be difficult for her to swallow her anger.

Suddenly, she rolled her eyes and walked in front of Xie Xiaoyue. She said with a faint smile, "Leader Xiaoyue, why isn't your deputy leader Su Here?"

Xie Xiaoyue also found it strange. Ever since she saw Su Yu in the forbidden area of death, he seemed to have disappeared without a trace.

"He should have already fallen." Other than that, there was no other possibility. Xie Xiaoyue felt a wave of regret in her heart.

Such a talent had fallen just like that. It was truly the envy of the heavens!

"Oh, that's really a pity! However, I feel that leader Xiaoyue doesn't need to feel regret." The star Lady's lips contained a deep meaning as she lightly smiled.

Xie Xiaoyue's gaze flashed as she said in a deep voice, "If you have something to say, say it. Don't beat around the bush."

“Hehe, actually, leader Su is also a member of Golden Pupil Langjun.” Star Lady Dao Master slowly said the truth, “It’s just that Golden Pupil Langjun didn’t have the time to use him yet.”

“Nonsense!” Xie Xiaoyue reprimanded, but her eyes flickered slightly, showing that her heart was wavering.

It wasn’t that he didn’t trust Su Yu, but that Su Yu was simply too outstanding.

Which force wouldn’t nurture such a person well? How could they let him be wronged and had no choice but to kill his way out of the number one aristocratic family and join the Pirates?

She had always had some suspicions, but without the slightest evidence, she didn’t think deeply about it.

What Stargirl had said touched her heart.

Chapter 2267 Identity Exposed

“Hehe, it’s up to you whether you believe me or not. I’m just giving you a piece of advice.” Star lady smiled mysteriously, turned around and left, returning to purple flame demoness’s side.

Xie Xiaoyue stared at Star Lady’s back and fell into deep thought.

After a long while, a strange look appeared in her eyes, and she said faintly, “Let’s go.”

The pirates behind her all followed Xie Xiaoyue back to the pirate alliance.

At this moment, after a month of settling down, the blood cloud floating outside the civilization had already dissipated into nothingness.

At a glance, the pirate alliance was much quieter than before, but there wasn’t much of a difference.

“Return to your respective sea territories,” Xie Xiaoyue said indifferently as she flew back to her own territory.

Her powerful soul swept across the territory, but not only did it not wrinkle, it seemed to have lost some people.

“Welcome back, leader.” On one of the main ships, several half-step dao masters flashed at the same time. They were all the capable generals that Xie Xiaoyue had arranged to guard the Xiaoyue Pirates before she went to the heavenly relic cave abode.

Xie Xiaoyue nodded slightly and asked, “Why are there so few people in the territory? did anything happen while I was away?”

The one who answered her was the deputy leader whom she relied on the most, iron hand.

A subtle fluctuation flashed in the depths of Iron Hand’s eyes, and then he said calmly, “Reporting to leader, they are currently on a patrol mission outside the alliance, in case someone takes advantage of the emptiness of the pirate alliance to harm us.”

Hearing that, Xie Xiaoyue didn't doubt it too much and praised, "Well done!"

After a pause, Xie Xiaoyue said, "Is there anything else that you need to report?"

Iron hand said, "Half a year ago, deputy chief Su... No, chief su led the remaining members of the Sea Wolf Pirates and came back first."

Obviously, iron hand was deceived by Su Yu and mistakenly thought that Xie Xiaoyue was dead, and was successfully controlled by Su Yu with the restriction.

Therefore, he could only help Su Yu and lie to the end.

"What?" Xie Xiaoyue was shocked.

Half a year ago, wasn't that the day they were imprisoned in the heavenly remains cave mansion?

It was impossible!

How did Su Yu come out alone?

They had so many experts at that time, and they gathered all their strength. It took them several months to break through a gap and escape to heaven.

How did Su Yu do it by himself?

It was absolutely impossible!

However, iron hand obviously wouldn't say such a lie that could be easily exposed for no reason.

Xie Xiaoyue's beautiful eyes flickered with intense light.

Star Girl's advice involuntarily surfaced in her mind.

Su Yu was the golden-eyed Langjun's man!

Other than Su Yu, the golden-eyed Langjun and the others also disappeared in the heavenly remains cave abode.

Therefore, Su Yu was very likely to have left with the golden-eyed Langjun and the others!

Who would believe that he was not the golden-eyed Langjun's person?

"Su Ruchu, Oh Su Ruchu! How Do You Want Me to deal with you?" Xie Xiaoyue's heart was complicated.

From the initial admiration for Su Yu to the pleasant surprise, and now to the hatred of betrayal, she felt extremely complicated.

Emotionally, she did not want to kill Su Yu.

But intellectually, Su Yu, who was almost as intelligent as a demon, had to die!

His heart was in an intense struggle!

After a long while, he gritted his teeth and ordered, "Pass my order to invite the other pirate leaders over. Tell them that I have a matter of life and death to invite them over. Remember, don't publicize it."

“I understand.” As Xie Xiao Yue’s most trusted subordinate, Iron Hand passed the message to Su Yu as soon as he left the main ship.

After receiving the message, Su Yu was sitting cross-legged in the main ship of the dustless pirates, cultivating leisurely.

“I once said, using me, perhaps you will regret it one day.” Su Yu muttered to himself.

Back then, in order to monopolize all the ransoms, Xie Xiaoyue took the initiative to recommend Su Yu as the new pirate leader.

At that time, he had said so in his heart.

Very soon, Shan Ji settled the leaders of his own region and returned to Xie Xiaoyue’s main ship to discuss something together.

When they learned that Su Yu was most likely a spy sent by the golden-eyed prince, everyone was in disbelief.

Su Yu had been personally witnessed by everyone, stepping up to the position of leader step by step. How could there be any signs of a spy?

However, after learning that Su Yu had encountered them for half a year, they had no choice but to believe it!

“Leader Xiaoyue, how do you think we should deal with him?” Leader Blue Phoenix couldn’t bear to think about it. Speaking of which, Su Yu had saved her life.

She really didn’t want to believe that Su Yu was a spy.

“Lead all the core members and force Su Yu to surrender.” Xie Xiaoyue’s tone was slightly solemn.

Blue Phoenix leader questioned, “Is there a need to mobilize so many people? He’s just a mere half-step Dao Master!”

Xie Xiaoyue shook her head lightly, “A half-step dao master isn’t scary. What’s scary is that he’s golden pupil Lang Jun’s man.”

At the mention of Golden Pupil Lang Jun, all the pirate leaders present felt a chill in their hearts.

Golden Pupil Lang Jun’s schemes were ancient and modern. He was almost able to wipe out all the experts of the seven ultimate civilization and monopolize the seven ultimate civilization.

It was only because of the intervention of an expert that he was able to turn the situation around.

If Su Yu was really the golden-eyed Langjun’s man, was there another hidden plot behind his return this time?

Therefore, Xie Xiaoyue had no choice but to treat it seriously!

“I agree. We must not be careless!”The few pirate leaders immediately agreed.

Only the Blue Phoenix leader frowned slightly, but he could not do anything to them.

Half a day later, the nine pirate leaders and a group of core members surrounded the main ship of the dustless pirates.

They came so suddenly and with such a large force that the dustless pirates were caught off guard and were surrounded by warships that were ten times more powerful than them.

Standing on the main ship, they looked around and saw dense black clouds.

Xie Xiaoyue stood on the huge warship in the middle. Her eyes were cold and dignified as she shouted, “Deputy leader Su, come out. We have something to talk to you about.”

Shua --

The space in front of them distorted as Su Yu’s figure suddenly appeared in front of them.

His appearance was so strange that the pupils of everyone present shrunk.

Especially Xie Xiaoyue, she was so shocked that she blurted out, “Space Domain?”

Those who comprehended space laws were already extremely rare, and those who were able to turn them into a domain were eternal geniuses.

Su Yu actually did it?

“Oh? Why did the soldiers come to talk to me?”Su Yu stood with his hands behind his back and said calmly.

His eyes swept across Xie Xiaoyue and the so-called “Core”of the other pirates.

Probably, the few pirate leaders still didn’t understand that their core already belonged to Su Yu!

The ones who were truly surrounded weren’t Su Yu, but them!

After a short period of shock, Xie Xiaoyue gradually regained her composure.

In front of thousands of troops, so what if it was a spatial domain?

In the end, it was hard to escape death!

If Su Yu was really a golden-eyed Prince’s spy!

Xie Xiaoyue’s gaze was cold as she said coldly, “I want to ask you something, I hope you will answer truthfully.”

“Please speak,”Su Yu said indifferently.

Xie Xiaoyue said in a serious tone, “You, are you a golden-eyed Prince’s Spy?”

The other pirates all stared at Su Yu, hoping to get a negative answer from him.

“Of course!”However, Su Yu didn’t even bother to hide his feelings and admitted it on the spot.

Chapter 2268 Unharmmed

The hope of many pirates was mercilessly destroyed!

They thought that a peerless genius had appeared out of nowhere in the Pirate Alliance.

But who knew that he was just... a spy that golden pupil Prince had arranged for them!

Their hope was destroyed, like a magic box sealed with hatred opening, surging with anger.

Instantly, it was filled with curses and curses, as well as thick killing intent.

Xie Xiaoyue only felt her ears buzzing. She had lost the ability to think, and her mind was blank.

After a long time, her eyes regained focus, and there was an indescribable pain in her heart. She muttered, "Su Ruchu, what do you want from me? Did I let you down?"

Su Yu looked at Xie Xiaoyue, and there was an extra hint of gentleness in his eyes.

Among the ten great pirates, Xie Xiaoyue was the only one he owed.

When he kidnapped the greedy wolf king and was hunted down by the second most powerful family, Xie Xiaoyue appeared to resolve the crisis.

More importantly, she gave Su Yu a priceless treasure -- Tian Jingchen.

Looking into Xie Xiaoyue's eyes, Su Yu softened his tone and said, "Leader Xiaoyue, the pirates are not on the right path. We can turn back now."

Xie Xiaoyue's eyes were filled with tears. Disappointment and hatred gathered into a unique wave of light and said, "It's none of your business!"

Of course, Su Yu did not need to care about it. He just did not want Xie Xiaoyue to continue being wrong.

Although she had always restrained herself and her subordinates and rarely committed massacres, she lived by plundering and ultimately accumulated too many grudges.

It was only a matter of time before the Pirate Alliance was eliminated. At that time, as the number one person in the pirate alliance, Xie Xiaoyue would not be able to escape death.

She was in the area under the jurisdiction of the seven ultimate civilization, and her strength was not bad.

However, after going through many matters in the heavenly relic cave abode, Xie Xiaoyue should understand that it was actually very easy for someone to eliminate the pirate alliance.

"Leader Xiaoyue, why are you wasting your breath on him?" The northern Plains Pirate's eyes were spitting fire. "This child has been undercover in our Pirate Alliance for so long, I wonder how much information he has sold us to the seven ultimate civilization. If we kill him now, we will immediately change our base!"

"Kill? How Can It Be So Easy?" The red-bearded pirate said ferociously, "If he dares to be an undercover in our pirate alliance, then he must have the awareness of living a life worse than death!"

"HMPH, indeed, death is not the most terrifying thing. The most terrifying thing is to live, but it is worse than death." A pirate leader with a feminine face said

indifferently, "Leave this child to me. I will definitely make him regret coming to this world."

This pirate leader indeed had the right to say these words.

Because he was the most infamous pirate amongst all the pirate leaders... leader Mo Luo!

He was the only person who had used torture to become a dao master.

As a mortal, he was once a butcher. After stepping into the martial path, he focused on torture. In the end, he even went against the heavens and stepped onto the Great Dao, becoming a dao master.

No one who fell into his hands had a good ending.

Even a dao master would rather die than stay in the hands of leader Mo Luo!

However, ever since Mo Luo joined the pirate alliance, he spent most of his time cultivating because he was about to die. He hoped that he could increase his lifespan by increasing his cultivation.

Therefore, he had not tortured anyone for a long time.

Hearing that leader Mo Luo was going to personally make a move, several pirate leaders perked up and laughed excitedly.

"This is how you treat a spy! Cut open his stomach and see how daring he is to betray us!"

"Leader Mo Luo, after torturing him, please let him live. Tell him to send a message to the seven ultimate civilization and tell them that the revenge of the Pirate Alliance is Coming Soon!"

"Yes, shock everyone!"

"HMPH! A bunch of lambs waiting to be slaughtered, trying to resist us!"

..

Looking at them, Su Yu's heart didn't waver at all.

The Pirate Alliance was originally a place of corruption, a place where many sinners gathered.

No matter how cruel they were, it was all within Su Yu's expectations.

The more he thought about it, the more he felt the need to eradicate the pirate alliance.

Leader Mo Luo's small pupils were like the eyes of a snake as he stared at Su Yu. Finally, he looked at Xie Xiaoyue who had remained silent the entire time.

No matter what, Su Yu was Xie Xiaoyue's person. Xie Xiaoyue would be the final one to decide how to deal with Su Yu.

"Leader Xiaoyue, let me deal with him. How about it?"

Xie Xiaoyue clenched her slender fists. She took one last look at Su Yu and said, “Su Ruchu, let me ask you, do you regret being a spy for the Seven Ultimate Civilization?”

“No!”

She wanted to give Su Yu one last chance, but Su Yu didn’t even think about it and directly replied.

Xie Xiaoyue was silent for a while, and her eyes gradually dimmed.

In the end, she took a long breath and said lightly, “I will deal with him personally!”

Hearing that, everyone was disappointed, and leader Mo Luo was even more disappointed.

It was not easy for him to decide to demonstrate his ultimate punishment again, but Xie Xiaoyue didn’t give him a chance at all.

Xie Xiaoyue pressed her hand and signaled for everyone to be quiet. She looked at Su Yu and said, “As a pirate alliance, spies are always unforgivable. You are no exception!”

“Understood,” Su Yu said indifferently.

Xie Xiaoyue slowly raised her finger and pointed at Su Yu from afar. She closed her eyes in pain and said, “Then, I’m Sorry!”

A power of a master-level dao master was placed on Su Yu’s chest.

As a half-step dao master, Su Yu was bound to die from this attack.

However, no one had expected that not only was Su Yu not dead, but that attack was like a clay ox plunging into the sea.

Su Yu stood where he was without a scratch!

Xie Xiaoyue noticed something strange and opened her eyes to take a look. She could not help but be surprised. “You... obtained a defensive magic treasure in the heavenly remains cave abode?”

To be able to defend against a master-level attack, he must have obtained a defensive magic treasure, right?

Su Yu dusted off the remaining strength of the DAO Master in front of his chest and said indifferently, “To be exact, I have always had such a physique. It’s just that none of you have noticed it.”

Hearing this, none of the pirates present were willing to believe it.

A mere half-step dao master was able to have a physique that surpassed the level of the clan leader?

Who would believe it?

“HMPH! Little Bastard, you still dare to be so arrogant in our pirate alliance! Let Me Test how strong your physique is!” The northern Plains’ leader snorted angrily, and a picture of an azure dragon swimming appeared behind him as he strode over.

That Green Dragon image was naturally his domain.

Once the domain was activated, his original body could receive tens of times the increase in strength.

The strength of his physique was instantly close to that of a family head level expert.

Xie Xiaoyue wanted to stop him, but the northern Plains' leader had already rushed over, and took the lead to attack, pointing a finger at Su Yu's forehead.

The strength was so great that it caused the pirates present to be frightened.

However, in the next moment, what made them completely silent was that Su Yu had transformed into a half-human half-dragon. He raised his right fist and smashed it directly.

In an instant, the leader of the northern plains, who was famous for his physique, first shattered his domain. Then, his entire body was like a piece of paper that was pierced through by Su Yu's fist.

The body of the leader of the northern plains softened bit by bit. Finally, he fell from the sky and crashed onto the warship, not moving at all.

He was dead!

The leader of the northern plains was killed by someone with his physique?

Su Yu lowered his head and wiped the DAO Master's blood off his fist. He said calmly, "I told you, my physique is very strong."

Chapter 2269 Mysterious Invitation

Only Su Yu's words echoed in the silent sky above the warship.

All the pirates, including Xie Xiaoyue, sucked in a breath of cold air and stared at Su Yu in his half-human and half-dragon form without blinking.

Xie Xiaoyue's crystal eyes shrank even more. She had thought that Su Yu's greatest reliance was Meng Ke'er.

Who would have thought that he himself was a top expert!

Clenching her pink fist, Xie Xiaoyue said in a low voice, "Su Ruchu! Please remember that this is the pirate alliance, the gathering place of all the Pirates in the world. Can you fight against everyone by yourself?"

In the end, Su Yu only had one person. Adding on the Pirates of the waves that he had obtained, it was less than one-tenth of them.

The huge disparity in comparison meant that Su Yu had no way to survive.

Su Yu raised his eyes and said with a calm expression, "Similarly, I also want to give it to the eight of you. This is the pirate alliance, so please don't make any misleading moves. Otherwise, the result will be very uncomfortable."

Hearing this, the several pirate leaders laughed angrily, leader mo Luo sneered, "This kid is crazy! Leader Xiao Yue, what are you hesitating for? You are the leader, and the seven of us are the support. All half-step Dao Masters stand in formation, and make sure this kid stays forever!"

"Yes!" Dozens of half-step dao masters flew over from their own pirates.

However, more than half of them were not surrounding Su Yu, but a few pirate leaders!

The other half of the pirate leaders flew halfway and suddenly noticed the strange actions of their companions. They could not help but be stunned.

Leader Mo Luo narrowed his eyes and stared at the pirate leaders surrounding them. he shouted, "You... betrayed us?"

Xie Xiaoyue stared at one of the pirates and said in disbelief, "Iron Hand, can you tell me what happened?"

The vice leader that she had nurtured for many years, iron hand, actually betrayed her!

Iron hand lowered his head and said with a face full of shame, "Don't ask me. I'm just obeying orders!"

Shua --

Everyone's gaze fell on Su Yu.

Xie Xiaoyue said stiffly, "I really underestimated you!"

She should have known that Su Yu had come back half a year earlier. He must have set something up!

"You flatter me." Su Yu said indifferently, "I'll say it one last time. Don't make a mistake."

Leader Mo Luo had never been afraid of anyone in his life?

He immediately gave orders to those half-step dao masters who had followed him to the heavenly remains cave mansion but were not controlled by Su Yu, "Kill him!"

Those half-step dao masters might not be able to kill Su Yu, but they could still make him panic.

More than a dozen half-step dao masters braced themselves and charged over with killing intent.

Boom Boom Boom --

But at this moment, hundreds of pirate battleships in the distance suddenly opened fire!

The power of those giant cannons was no less than that of a half-step dao master.

The scene of more than a hundred giant cannons being fired instantly could be imagined.

The half-step dao masters who were besieging Su Yu were instantly bombarded to the point where not even dregs were left.

It was worth mentioning that the battleships firing were the main battleships of several pirate leaders!

They had been on them just now!

Leader Mo Luo's eyelids twitched slightly as he looked at his main battleship. His eyes darkened bit by bit. "You even controlled the people on my main battleship?"

Su Yu nodded and shook his head, "To be exact, all your pirates are under my control, except for those who are already dead."

As if responding to Su Yu's words, the huge ships all stretched out their cannons and aimed at leader Mo Luo.

There were more than 10,000 huge ships in the pirate alliance.

Each huge ship had at least 10,000 cannons and at most 100,000 cannons.

The cannons of 10,000 warships were all aimed at a single person. Even if you were a dao master with a large domain, you would be annihilated!

Leader Mo Luo's pupils constricted and he stood there without daring to move.

The other pirate leaders also broke out in cold sweat!

All the pirates had been taken in by Su Yu?

Xie Xiaoyue was stunned for a long time. She sighed deeply and said in a low voice, "Su Ruchu, you won!"

When she came back, she had been wondering why there were so many people missing from her domain. Now that she thought about it, she should have been killed, right?

Now, it was not them who led the pirates to surround Su Yu, but Su Yu who led all the pirates to surround them!

Su Yu said indifferently, "I don't want to win you, but I want to save you."

Just as he had said before, the Pirates ended up on the wrong path. It was rare for them to have a good ending.

The corners of Xie Xiaoyue's mouth twitched slightly and she made a smiling expression, but it was a mocking one.

It was unknown whether she was mocking herself or Su Yu.

Su Yu turned to look at the other pirate leaders, and his eyes became sharp. "Surrender or die?"

Several pirate leaders were so angry that their chests exploded. The Pirate Alliance that they had built up all their lives had finally become a sharp weapon to threaten them!

Although they were angry, they were facing a life-threatening situation. Naturally, they had to protect themselves first.

"What do you want to do to us?" Leader Mo Luo shouted.

"Let go of your soul."

Leader Mo Luo's heart moved, but his expression didn't change as he let go of his soul.

Su Yu wanted to control their souls. wasn't that too whimsical! !

Their souls had long been dao-formed, and their souls were indestructible. Su Yu was only a half-step dao master. It was impossible for his soul to be as strong as a dao master, right?

It was impossible for him to control them with his own soul.

Now, he would pretend to be under control and give Su Yu a fatal blow later!

However, what leader Mo Luo did not expect was that Su Yu did not use his own soul to control them. Instead, a small black cat the size of a palm appeared on his shoulder.

The Black Cat meowed at leader Mo Luo, and a black dot of light shot into leader Mo Luo's soul from the Little Cat's eye.

Immediately, leader Mo Luo felt a deep imprint in his soul.

The imprint contained a soul power that was far stronger than his own.

Once the imprint exploded, it would be enough to destroy his soul.

Leader Mo Luo's face instantly turned pale, and his plan failed. "You... What is this?"

Su Yu said indifferently, "The sixth treasure of the Heaven's Legacy Cave."

The emperor's body was divided into six parts.

His four limbs and heart had appeared, but none of them had appeared.

The Fierce Soul Stone came from his head, but it was also his soul.

The emperor's soul could easily suppress a Dao lord's soul?

"Next!" Su Yu waved his hand, and the cannons of the ten thousand ships locked onto the other pirate leader.

The other party's body trembled. She let go of her soul unwillingly and was controlled by the fierce soul stone.

Thus, several pirate leaders accepted the control in turn.

When it was Blue Phoenix's turn, she smiled bitterly and said, "Don't aim at me, I'll do it myself!"

She opened her soul on her own, and Su Yu placed a restriction on her.

Su Yu smiled faintly. Other than Xie Xiaoyue, only Blue Phoenix's leader could barely make Su Yu feel that he could forgive her.

From what he knew, this woman had been imitating Xie Xiaoyue, and she was also very strict with her subordinates.

Moreover, they had some interactions.

In the end, Su Yu looked at Xie Xiaoyue with a complicated expression and said, "Xie Xiaoyue, it's your turn!"

Xie Xiaoyue kept her head down, and no one could see her expression clearly.

At this moment, she raised her eyes, and there was a hint of hatred in them. "Su, we will settle this debt sooner or later!"

After she finished speaking, she suddenly took out a black iron-colored wing from her sleeve and stabbed it into her back.

Black light surrounded the wing. It had clearly been activated in secret for a long time and had already been fully activated.

This item was a relic that Xie Xiaoyue had obtained in the heavenly relic cave abode. After activating it, it had the ability to travel through space that was comparable to the myriad sect beasts.

She had been enduring all this while and secretly activated it.

The black wings turned into a streak of light and used instantaneous space movement to disappear from the spot.

The huge cannons of the ten thousand huge ships could not catch up at all.

After losing Xie Xiaoyue, the swordsman in the snow sighed.

The strongest pirate leader had escaped, and their mission this time could be considered half a failure.

Only Su Yu sighed silently, "I'll let you off. Take care of yourself."

If he really wanted to stop her, with Su Yu's mastery of the space domain, it wouldn't be difficult to stop her.

He didn't make a move because he wanted to let her go.

This was also one of his original plans.

Xie Xiaoyue had helped him after all. He wouldn't really do anything to her.

After calming himself down, Su Yu turned to the pirate alliance behind him and said, "Follow me!"

All the members of the pirate alliance boarded the warships and left the nest.

In the void far away from the nest, Su Yu ordered all the warships to turn around and fire at the nest civilization.

In an instant, a huge civilization that was comparable to a six-star civilization was blasted into smithereens.

The sky was filled with flames that lit up the faces of all the pirates, making them look extremely complicated.

At this moment, a loud shout appeared in their minds, "The Pirate Alliance is completely disbanded from today onwards!"

This sentence announced the pirate alliance's hundreds of millions of years of history.

From now on, there would be no pirate alliance. There would only be cauldrons!

Su Yu didn't turn his head. He looked straight at the seven ultimate civilization and muttered, "That matter can finally be done."

Although it wasn't quite the same as what he had imagined.

At that time.

The seventh ultimate family.

In the guest hall.

Xia Yi'an held an invitation letter in his hand and lightly tapped it with his finger.

Xia Ruchen, who was at the side, stared at the invitation letter with a burning gaze.

“Father, when did you receive the invitation letter? Why didn’t we know about it?”Xia Ruchen asked excitedly.

It was an event that even the heir of the seventh elite family had high hopes for. One could imagine how important it was.

At the very least, the seven ultimate civilization didn’t have any event that could attract him.

Xia Yi an said indifferently, “A long time ago.”

Xia Ruchen understood. A long time ago, Xia Yi an had been traveling in the star area. Perhaps, he had received this extremely precious invitation under some special circumstances.

“When should we leave? The date on the invitation letter is almost here.”Xia Ruchen couldn’t help but feel anxious.

Xia Yi'an frowned. He pondered for a while and then said, “Before we leave, I want to confirm something.”

“What is it?”

“To be precise, I want to confirm a person. That person might be related to our ancestor.”

Xia Ruchen’s expression suddenly changed. “Ancestors? In today’s era, are there still people who are related to the ancestors?”

Chapter 2270 The Heaven-Seeking Ancient Well

Xia Yi'an pondered and shook his head slightly, “Let me find him and confirm it first.”

As his voice faded, Xia Yi'an left the seventh ultimate civilization with the invitation letter.

At the same time.

The sixth ultimate civilization.

After returning from the extermination campaign, they stabilized the situation of the civilization in the shortest amount of time. They immediately gathered more than half of their elites and headed for the first ultimate aristocratic family with warships.

After the incident at the heavenly remains cave abode, the third and fifth exceptional families’heads had fallen, while the fourth exceptional family had all their core members buried in the Forbidden Zone of death.

Right now, the seven ultimate civilization had a large number of power vacuum zones, which was the best time to expand their strength.

The sixth ultimate civilization was no exception.

“Father, why don’t we immediately take over the fourth ultimate civilization? Instead, why do we have to go to the first ultimate civilization?”Xue Meng Feiyu frowned, not understanding her father’s actions.

Not only was the fourth ultimate civilization very close to them, but all the core members had been wiped out. It was the best time to harvest.

Even if it wasn't good enough, the fifth ultimate civilization wasn't too bad either.

With the fall of the family head, the group of dragons without a leader, and the powerful intervention of the sixth ultimate family, even if it wasn't good enough, they could still plunder a lot of resources, right?

Was it really worth it to go all the way to the first ultimate civilization?

Extermination's eyes were filled with a bright light as he said meaningfully, "The first absolute family is the place that is truly worth occupying!"

"Why do you say that?"

Extermination's eyes were deep and profound, he said, "If I'm not wrong, the current number one absolute family should be empty. Not only have all the elites in the heavenly remains cave abode gone, even the elites left behind in the Shi family have also left."

On the other hand, although the head and core members of the number four aristocratic family had all fallen, the core force that had stayed behind to guard the number four aristocratic family still existed.

It was not as easy as one would imagine to plunder the number four aristocratic family.

The number one aristocratic family was the best choice!

After hearing the details, Xue Mengfeiyu was relieved. She followed her father and used the myriad sect beast. After several months, they had only crossed half of the seven ultimate civilization and arrived at the capital of the number one ultimate civilization.

However, when they arrived above the imperial city, what surprised Xue Mengfeiyu was that the imperial city was empty. There were not many members of the number one ultimate family.

However, the sky above the imperial city was filled with battleships. There were more than ten thousand of them.

At first glance, they looked like a huge ink cloud that covered the sky above the number one ultimate family.

When they appeared on the myriad sect beasts, the ten thousand battleships immediately noticed them and aimed their powerful cannons at them.

Even if they were to be annihilated, their hearts were still beating wildly.

Although the symbols of these battleships had been erased, the seven ultimate civilization had fought with the pirates for many years, so how could they not recognize the origins of these battleships?

Xue Meng Feiyu sucked in a breath of cold air and said in fear, "This... This place has already been occupied by the Pirate Alliance?"

Thinking of her experience in the pirate alliance, Xue Meng Feiyu felt a lingering fear.

Luckily, the pirate warships surrounded her and did not attack.

The swordsman in the snow controlled one of the main warships and quickly approached her. He stood at the bow of the warship and looked down. "So it's the sixth aristocratic family. HMM, wait here. Don't move. I'll go ask Dingzun."

Without waiting for them to say anything, the swordsman in the snow returned to the imperial city of the first aristocratic family.

Snow dream flying rain looked at the warships around her suspiciously. She lowered her voice and said, "Father, these are the warships of the Pirate Alliance, Right?"

Mie Zheng nodded his head thoughtfully.

"Then, what kind of person is that Ding Zun in the Pirate Alliance? Is he the deputy leader or the branch leader?" Snow dream flying rain asked doubtfully.

Not to mention her, even Mie Zheng was extremely confused.

He had dealt with the Pirate Alliance for many years, but he had never heard of the position of Ding Zun.

"It shouldn't just be vice leader." Extermination looked around at all the warships that were close to the pirate leader, deep in thought.

Not only did Ding Zun make him feel strange, but the Pirate Alliance's abnormal behavior was also strange.

If it was in the past, when the Pirate Alliance discovered their sixth most powerful family, they would definitely clash with their weapons.

But now, it was so calm, as if they were no longer interested in plundering them.

It was really hard to understand!

The swordsman in the snow landed in front of an incomparably huge mansion.

Within this mansion, there was an ancient well with purple light soaring into the sky.

This was the number one aristocratic family's inquisitive sky well!

In order to borrow the inquisitive sky well for a use, Su Yu acted as a spy for the number one aristocratic family.

However, after tens of thousands of generations of changes, no one would have thought that Su Yu's spy would become the pirate boss and request the number one aristocratic family that Su Yu was undercover to flee.

"It has already been confirmed that the core bloodline of the number one aristocratic family has already been transferred away before the heavenly remains cave abode. Right now, no one knows where they are going." Beside the ancient well, a beautiful young lady dressed in white said in a gentle tone, she was like a fairy who had descended to the mortal world.

Beside the lady was naturally Su Yu.

On the way back from the heavenly remains cave abode, Su Yu had already predicted that the golden-eyed Langjun's plan would fail and he would have to flee.

Hence, he had informed Meng Ke'er in advance to head to the number one aristocratic family to protect the inquisitive well in order to prevent it from being destroyed.

Su Yu stared at the ancient well in front of him with a frown.

After his and Meng Ke'er's attempts, the inquisitive well was indeed as the golden-eyed Langjun had said. It required the combined efforts of at least ten Dao Masters to be able to open it once.

However, Su Yu only had seven dao masters under his control. Including Meng Ke'er, he only had eight.

Meng Ke'er's strength was higher than the average DAO Master. For the time being, she could play the role of two Dao Masters, but she only had nine.

One More to go!

"How about I go to the second absolute family next door and try to capture another Dao Master?" Meng Ke'er tilted her head and said.

That was the only way!

Just as she was about to warn Meng Ke'er to be careful, the swordsman in the snow suddenly arrived and knelt down on one knee, "Reporting to venerable ding, the sixth absolute family has led their core here. They are currently surrounded by us. Please give the order, venerable ding."

The sixth exceptional family?

Su Yu was slightly surprised.

He had expected that the other aristocratic families would come to snatch the first exceptional family's territory and resources.

However, the second exceptional family should be the most likely to come.

He did not expect that the sixth exceptional family, who was far away, would come in the end.

Su Yu did not have much hatred towards extermination. Speaking of which, back then, he had given Su Yu double the amount of gold in order for Su Yu to have the chance to become one of the pirate leaders.

"Let him in. Only he is allowed to enter."

The swordsman in the snow quickly reported and brought extermination back.

Su Yu faced Wentian Jing, and with his back facing him, extermination didn't recognize him for a moment.

However, looking at the several pirate leaders that he was extremely familiar with, standing on each side of this person like guards, extermination was shocked.

What was the identity of that Ding Zun?

From the looks of it, he was the ruler of the Pirate Alliance?

He knew that the pirate alliance had never had a unified leader. Even when Xie Xiaoyue was around, she had never ruled the pirate alliance.

All the Pirates occupied a piece of land and no one was willing to submit to anyone.

Only the Ding Zun in front of him was beyond imagination.
