

Nine-Dragon 2271

Chapter 2271 The Female Corpse Of Zhu Ji

“I am Mie Zheng. Greetings, Grandmaster Ding.” Mie Zheng was extremely nervous. He didn’t know anything about this grandmaster ding.

Was he cruel or eccentric?

“How have you been, Mie Zheng?” A familiar voice sounded in his ears.

Mie Zheng was obviously stunned. This voice?

He raised his head and saw Ding Zun slowly turning around. What greeted his eyes was a young and overly handsome face.

“Su Ruchu!” Mie Zheng blurted out in shock.

As soon as he spoke, several former pirate leaders shouted in anger, “How dare you call master by his name!”

Master?

Waves of shock rose in Mie Zheng’s heart once again!

The seven pirate leaders who had caused Havoc to the seven ultimate civilization for many years actually addressed Su Yu as master?

He originally thought that supremacy ding was at most the ruler of the Pirate Alliance.

Who knew that he actually enslaved the Pirate Alliance!

Su Yu allowed the swordsman in the snow and the others to join cauldron, but he did not approve of these seven pirate leaders.

None of them were good people. Such people were not worthy to join cauldron and could only become Su Yu’s slaves.

Mie Zheng immediately changed his words and his expression was filled with deep respect.

“Greetings, supremacy Ding!”

“Get up,” Su Yu said calmly.

Mie Zheng stood up and looked at the relatively young Su Yu in front of him. He had a myriad of thoughts in his heart.

The current Su Yu was already an existence that could stand on equal footing with him!

No, perhaps he was even a level higher than him.

Putting aside the seven leaders for the time being, the beautiful woman beside Su Yu gave him the feeling that she was not the slightest bit weaker than Xie Xiao Yue.

Even the clan leader level of the former was used by Su Yu!

How powerful was such a figure?

“Clan leader Mie Zheng came here for the territory and resources of the number one aristocratic family, right?” Su Yu went straight to the point.

Mie Zheng struggled in his heart and decisively gave up the thought of fighting with Su Yu face to face. He said, “We didn’t expect Ding Zun to be here. Since you have already made the first move, I will lead my men to retreat!”

“Wait!” Su Yu called out to him.

“What advice does Ding Zun have?” Mie Zheng began to feel uneasy.

“The territory and resources will be given to you.”

However, what made Mie Zheng stunned was that not only did Su Yu not make things difficult for him, he even said something that he did not dare to believe.

“Please speak clearly, Ding Zun.” Mie Zheng became even more nervous. There would not be a free lunch in the sky. Did Su Yu have other requests?

Sure enough, Su Yu said, “In exchange, you will do me a favor!”

Mie Zheng’s expression turned ugly as he said, “Venerable ding, please speak.”

Su Yu couldn’t help but laugh. He said, “I want to open the heaven inquiring well. I still need a dao master. Are you willing to help me with this?”

UH --

Mie Zheng thought about it for a long time, but he never thought that it would be such a simple request!

“That’s All?” Extermination said in disbelief.

Su Yu asked, “If you want to add more conditions, I don’t object.”

Was it really that simple? Extermination felt like he was dreaming!

“If you don’t object, let’s start now,” Su Yu said.

Although extermination didn’t want to believe it, what harm was there in trying?

With Mie Zheng’s strength, he was equivalent to two dao masters, and he could completely satisfy the requirements of ten people!

The nine dao masters surrounded the heaven-seeking well and poured the power of Dao Masters into the well at the same time.

Huala --

Suddenly, a huge sound of waves rose in the ancient well, and the purple light that soared to the sky became even more dazzling.

The expressions of the nine Dao Masters instantly changed!

Because they sensed that their dao master's power was flowing into the ancient well at a rapid speed.

Mie Zheng's tone was slightly hurried as he said, "If supremacy ding has any questions, ask them as soon as possible. We won't be able to hold on for long."

Su Yu nodded and took a deep breath. He stuck his head into the mouth of the ancient well and asked loudly, "Where is the Vile-lady Palace?"

The Vile-lady Palace was..

The Vile-lady Palace..

Vile..

The ancient well was filled with echoes.

Just as Su Yu was wondering where the so-called answer was, a weak reply came from the bottom of the well!

"In... an eight-star civilization..."

The voice disappeared in a flash, but Su Yu remembered it successfully.

Eight-star civilization?

"Which eight-star civilization are you referring to?" Su Yu shouted loudly and asked again.

The aether beginning realm was vast, so there should be more than one eight-star civilization.

Mie Zheng slowly withdrew the power of the dao master and said, "You don't have to ask anymore, Grandmaster Ding. Ask Tian Jing to answer one question every ten years. You've used up all your chances just now."

Su Yu waved his hand unwillingly, asking the seven pirate leaders whose faces were pale to stop.

It would be useless to continue.

There were so many eight-star civilizations in the world. Which one was asked Tian Jing talking about?

Su Yu felt a deep sense of dejection. Even after working so hard until now, this was the only answer he got?

He sighed deeply and calmed down a moment later. He waved his hand and said, "Let's go, everyone retreat."

He kept his promise and gave everything to Mie Zheng.

Mie Zheng was ecstatic. Su Yu was really going to hand over the number one aristocratic family to him!

Seeing that Su Yu was about to leave, Mie Zheng thought for a moment and said, "Venerable Ding, please wait!"

“What’s the matter?” Su Yu asked absent-mindedly. He only got a vague answer about the exact location of the evil Lady Palace.

Mie Zheng hesitated and said, “I have heard some rumors about the evil Lady Palace.”

Eh?

“Please Enlighten me, Patriarch Mie Zheng!” Su Yu was shocked and asked immediately.

Mie Zheng said, “Actually, it’s not a secret. I happened to meet them when I was traveling somewhere.”

He continued, “Several decades ago, I brought my daughter to visit an old friend in a seven-star civilization. Unexpectedly, that civilization was suddenly attacked by a group of extremely powerful corpse clansmen!”

Corpse clansmen?

It had been a long time since he had heard rumors about corpse clansmen.

“The strange thing is, that group of corpse clansmen didn’t have the main intention of invading the civilization. Instead, they were trying to track down the whereabouts of the evil daughter!” Speaking up to this point, he gave Su Yu a strange look.

Corpse clansmen were trying to track down the whereabouts of the evil daughter?

Su Yu’s heart jumped, and he blurted out, “What’s the name of the leader of the corpse clan?”

Extermination tried his best to recall, “I think it’s called... Pearl?”

Boom --

Su Yu felt his head rumbling. Pearl’s female corpse!

When they had parted in the Sea of constellations, the Pearl’s female corpse had mistakenly thought that Su Yu had already died at the hands of the Evil Maiden Palace. Thus, she had sworn to wipe out the evil maiden palace.

After nearly fifty years, Su Yu had thought that the pearl’s female corpse had long given up.

But who knew..

Half a year of time had passed like water. How many heroic aspirations had been swept away? How many engraved memories had been taken away? However, they couldn’t be taken away. That oath that had sunk into time and was engraved in the passage of time.

Just as the female corpse of Zhu Ji had said, she was willing to follow the direction of the big tree like a vine and spread to the endless horizon.

Even if the big tree never lowered its head to look at her, it would never say anything regretful.

Su Yu’s heart was trembling as if it had been electrocuted.

Fifty years!

That was fifty years!

How did she persevere? Was it just based on that oath?

And was it worth it for her to do that?

Su Yu felt a heavy weight on his heart, as if a heavy boulder was pressing down on him.

Life had an unbearable weight, and the love of a dead woman was one of them.

What did he, Su Yu, have to do to make a woman he had only known for a few years pay so much for him?

Chapter 2272 Glaze Civilization

“How is she? where is she now?” Su Yu’s voice trembled slightly, and his eyes were extremely focused, showing his unfairness.

Mie Zheng was secretly shocked, thinking to himself, ‘what’s wrong with Su Yu? Could it be that he has a deep hatred with the corpse clan and is so agitated?’?

He had a comforting smile on his face, he said, “Grandmaster Ding, please rest assured. The corpse clan is an existence that everyone has to kill. My old friend naturally wouldn’t just stand by and watch. He personally killed more than half of the corpse clan. Although he didn’t leave the female corpse called Zhu Ji behind, he also left her with a deep wound, making her feel so much pain that she wished she was dead...”

As he spoke, he found that Su Yu’s face sank bit by bit, and his heart became more and more strange.

Could it be that he didn’t kill her and let her escape, so Su Yu was very dissatisfied?

“And then? where is she now?” Su Yu clenched his fists tightly in his sleeves, and emotions surged in his heart.

Mie Zheng said with shame, “Although that old friend of mine tried her best, she was ultimately outnumbered. That female corpse risked serious injuries to go to the fixed star plate to find the whereabouts of the evil daughter. After obtaining the information she wanted, she dragged her heavily injured body and left. No one knew where she went.”

Wherever the corpse clan appeared, they would be feared and hunted down.

Even so, in order to find the evil daughter Palace and avenge Su Yu, Zhu Ji still went to the seven star civilization at all costs. As a result, she was besieged by the creatures above, and in the end, she was seriously injured!

A great sense of guilt and emotion echoed in Su Yu’s heart.

At this moment, he couldn’t wait to catch up with Zhu Ji and take a look at her injuries.

“Then does the fixed astrolabe still exist?”

“Yes!”

“What civilization is that?” Su Yu’s tone was a little hurried.

Mie Zheng thought that Su Yu had found a clue to the evil daughter Palace, so he was very excited. He smiled and said, "I'm not very sure about that. It is said that it is in a remote place of that civilization. My old friend should know about it."

At this point, Mie Zheng finally revealed his original intention.

"I can introduce you to my old friend and take you to the star-fixing disk. However, I have something to ask Dingzun." Mie Zheng had wanted to ask Su Yu to do something for him a long time ago.

It was because he had never had the chance.

But now, it was just a matter of time.

"Tell me about it." Su Yu looked at him.

Mie Zheng said, "Please rest assured, Dingzun. It won't delay Dingzun's trip. I just want Dingzun to do it conveniently."

He took out a letter that he had prepared earlier. The letter was covered with a secret lacquer.

Only a master level expert could break the lacquer and peek at its contents.

Once the lacquer was opened, it could not be re-sealed. The recipient would immediately realize that the letter had already been opened.

"I hope you can give this letter to my old friend!" Mie Zheng took out his personal jade formula and added a voice transmission in it. It was to introduce Su Yu to his old friend and ask for his help in finding the astrolabe.

Just to deliver the letter? Moreover, it was to give it to the person he was looking for. It was indeed a convenient thing and did not delay the official business.

"Okay!" Su Yu agreed readily.

Mie Zheng hesitated slightly and said, "My old friend might be a little cold-tempered. If I have offended him, I hope you can forgive me."

Cold-tempered?

Perhaps their friendship was very shallow?

If they really had a deep friendship, why would they need to worry about whether the other party was cold or not?

Fortunately, Su Yu did not plan to rely on Mie Zheng's favor to ask the other party about the astrolabe. He would think of a way to ask.

"What civilization is that?"

Mie Zheng took out a rather large painting. On the painting, there were thousands of stars flashing. There were light and dark.

A star that was not very bright appeared to be a faint red color.

“This is the true inheritance of my sixth aristocratic family, the true map of the outer realms. It covers all the civilizations of the Western Region.”Mie Zheng’s face was filled with pride. “In the entire western region, there are no more than ten similar true maps!”

The outer realms referred to areas other than the eight-star civilization.

Su Yu’s gaze quickly swept across the true map. To his surprise, he discovered that it had actually found the sea of constellations civilization at the westernmost corner!

The Sea of constellations civilization was as inconspicuous as a speck of dust in the entire true map. It didn’t even glow.

If it wasn’t for the words marked on it, it would be almost impossible to recognize it.

Subsequently, he discovered the Dayu civilization, the dark star civilization, the Taiji sect civilization, the demon world..

Many of the civilizations that Su Yu had visited were clearly displayed on the map.

And these were only the tip of the iceberg in the entire map!

There were trillions of stars in other regions.

And this map was only the western region of the outer regions.

There were three other regions that had yet to be revealed.

It was impossible for even Dao master experts to finish touring the outer regions.

“How is it?”Mie Zheng smiled.

Su Yu nodded, “Amazing!”

“Hehe, this map was created by the Heavenly Emperor when he contacted several seven-star civilizations and mobilized tens of millions of dao masters to work together. That drawing operation was unprecedented!”Mie Zheng thought back to that time, he was also shocked by the heavenly emperor’s boldness.

“Finally, this map was formed. The Heavenly Emperor wanted to follow the map and conquer all the civilizations in the entire galaxy to create the great civilization of the Western Region. Who knew that he would suddenly die and the map ended up in the hands of our sixth exceptional family.”

“The sixth aristocratic family was too weak to expand, so the true map was covered in dust.”

Unify the entire Western Region?

The Heavenly Emperor’s ambition was really big!

“This is the civilization that the corpse race invaded back then.”Vanquisher pointed at one of the brighter civilizations.

This civilization was labeled as the “Glazed civilization”!

Coincidentally, the civilization that was next to the glazed civilization was the Starfire civilization!

Thinking of the Purple Flame she-devil and the divine flame she-devil who had been in seclusion for many years, Su Yu felt a little apprehensive.

He took a closer look and was somewhat surprised to find that there were nine civilizations that were as bright as the glaze civilization and the Starfire civilization.

The nine civilizations formed a huge circle.

In the center of the circle was a dazzling giant civilization. The bright light emitted from it almost suppressed the other nine civilizations.

“What kind of civilization is this?” Su Yu asked in surprise. Only this civilization was not marked with any words.

Mie Zheng looked at the direction Su Yu was pointing at with a yearning expression and said, “It’s the Mysterious Dao Palace.”

Su Yu knew that the Mysterious Dao Palace was an organization that existed in the six-star civilization and below. It was responsible for managing the civilizations within its jurisdiction.

However, the mysterious Dao Palace... could it be an organization that was responsible for managing the seven-star civilization?

“Mysterious Dao Palace gathers the strongest experts in the entire western region. Their existence is to maintain the overall balance of the western region. Once an overly large destructive force appears, a large number of destructive civilizations will be mobilized.”

It was as expected.

“How strong are they?” Su Yu asked.

Mie Zheng’s face trembled slightly as he said, “Very strong! Heavenly Emperor once challenged The Weakest Dao Master of Mysterious Dao Palace, but in the end... he was defeated in one move!”

Hearing this, Su Yu’s heart pounded violently.

Even an ultimate expert like Emperor Tian Yi could not compare to a single strike from the weakest DAO Master of the Mystic Dao Hall?

What kind of existences were in the Mystic Dao Hall?

Seeing that Su Yu seemed to be very interested in the Mystic Dao Hall, Mie Zheng said, “With Ding Zun’s talent, if you want to join the Mystic Dao Hall, you will definitely be able to become a disciple there.”

Su Yu’s talent was one of the best in the seven ultimate civilizations.

Entering the mysterious Dao Palace and becoming their disciple should not be a surprise.

“Perhaps,” Su Yu said indifferently, not wanting to talk about the mysterious Dao Palace anymore.

Su Yu had always been on high alert against mysterious organizations such as the main Dao Palace.

“Tell me the specific contact details of your old friend. I will set off now and head to the glazed era civilization,” Su Yu said.

After vanquisher handed over the relevant items, Su Yu immediately led his men out of the seven ultimate civilization and into the vast absolute beginning.

“Grandmaster Ding, are we going to give up on the seven ultimate civilization now?” Swordsman in the snow asked.

The chaotic moment when the forces of the seven ultimate civilization reorganized their base was a great opportunity for Ding to take root here. How could Su Yu give up just like that?

Su Yu narrowed his eyes and said, “I will come back again.”

He turned around and took a deep look at a certain part of the seven uniques!

A few months later.

Xia Yi'an appeared at the number one aristocratic family, his brows furrowed.

A few months later, he first went to the Pirate Alliance's Nest and was surprised to find that the entire nest had been destroyed and the Pirate Alliance was nowhere to be found.

Then, he returned to the seven uniques and wandered around the various aristocratic families, but he did not find any traces of the pirate alliance.

Finally, he came to the territory of the number one aristocratic family.

Not long after he appeared, Mie Zheng, who sensed his aura, rushed over and asked in fear, “Are you here for advice?”

Xia Yi'an said indifferently, “Don't worry. I'm not interested in occupying territory for the time being. I'm here to ask about someone.”

“Please speak.” Mie Zheng's expression softened.

“Su Ruchu.”

Him? Mie Zheng was surprised.

Seeing his expression, Xia Yi'an's heart skipped a beat. He asked hurriedly, “Have you seen her?”

Mie Zheng Thought for a moment and didn't hide anything. He told him that he had gone to the glazed tile civilization.

“Sigh! I'm Too Late!” Xia Yi'an let out a long sigh.

Mie Zheng rolled his eyes. He wondered why Xia Yi'an was looking for Su Yu?

At this moment, Xia Yi'an stared at Mie Zheng for a while and said, “Forget it. Since you're here, I'll inform you officially. Send Your Daughter to my residence within half a year. I Won't wait for you.”

Mie Zheng was puzzled by his words. Xia Yi'an took out an invitation letter and showed it to him.

Upon seeing the invitation letter, Mie Zheng was shocked. "Is... is this the invitation letter from that place?"

Xia Yi'an said, "Send it to me within half a year."

After saying that, he left immediately without explaining anything.

Mie Zheng was overjoyed.

"Men!" He immediately gave the order, and several Dao Masters came before him.

"From now on, you can make your own decisions. I have something urgent to attend to, so I have to leave." Extermination's face was filled with extreme urgency.

He didn't even have time to explain himself before he quickly left with the confused snowdream flying rain and headed straight for the seventh exceptional family.

Everyone present was stunned.

In order to seize the first exceptional family's territory and resources, extermination had used more than half of the sixth exceptional family's power.

Yet, at this crucial moment, they abandoned it?

What matter could be more important than expanding the family's achievements?

Chapter 2273 The Dog Gets The Mouse

At that time.

Su Yu stepped into the void, and after ten years, he finally arrived at one of the nine great civilizations of the western regions, the glazed civilization!

During these ten years, he immersed himself in the study of the true map of the western regions. Not only did he know the location and details of the main civilizations like the back of his hand, but more importantly, he discovered something extremely surprising in the true map.

If all the hallways of the Zodiac on the true map were connected by lines, they would become a game of chess! !

This discovery really surprised Su Yu.

Every line was extremely neat and straight. It was definitely not a coincidence. Instead, there was a giant hand that created the heaven and earth.

The most surprising thing was that all civilizations became chess pieces on the chessboard!

Absolute beginning was a game, civilization was a chess piece, and trillions of living beings were chess pieces!

What kind of heaven-shaking move was this?

There was an invisible giant hand that covered the sky, controlling the primeval world and controlling the fate of all things!

“Who is the chess player?” Su Yu looked up at the vast world, and his heart was confused.

Was it the sacred mountain?

But why did they have to do this?

They only needed to destroy and restart the epoch, and they would be able to create an infinite life span, undying and indestructible.

After ten years of thinking, they still could not get an answer!

“Venerable ding, the glazed era civilization has arrived. Please instruct us.” The swordsman in the snow had already become Su Yu’s right-hand man. With the support of Su Yu’s countless resources, he had already completed the transformation of his body and soul into Dao. He was only lacking the divine seat of Heaven and Earth, he would be able to complete the transformation of laws and become a dao master.

Towards Su Yu, the swordsman in the snow was exceptionally grateful.

“Your goal is too big. If you enter the Veluriyam civilization rashly, it will attract attention.” Su Yu had already made arrangements. He pointed at the diagram, a small civilization that was very close to the veluriyam civilization said, “All of you are hiding here, ready to fight at any time.”

He had a hunch that the journey to the Veluriyam civilization might not be smooth sailing.

It was better to make arrangements early.

“Yes!”

Ten thousand battleships left in an imposing manner, and Su Yu arrived at the glazed era civilization alone.

As he landed, Su Yu felt waves of piercing pain in his body.

The cold was deep in his bones.

Even though Su Yu’s physique had already surpassed the level of the family head, he still felt extremely uncomfortable.

Looking Up, he saw a land of ice and snow.

It was dead silent, empty, and cold.

“It is indeed as I understand it. The glazed civilization is covered in ice and snow all year round, and the environment is abnormally harsh,” Su Yu murmured softly.

He looked around and locked his gaze on a cypress pine that could be seen everywhere.

The cypress pine had already frozen into ice, but a pink flower grew on the top of the tree.

Ignoring the cold, it fluttered in the wind.

With a flick of Su Yu's finger, the flower was teleported to Su Yu's palm.

This was the unique anti-cold attraction of the glazed culture. It was born in a cold place.

It could resist the cold because there was a special ingredient in its body that could resist the cold. If a person swallowed it, they could use the ingredient in it to resist the cold.

However, Su Yu did not swallow it. Instead, he rubbed it out.

Ordinary people could not see it, but Su Yu could see that there was a trace of Qi of destiny in this flower.

A matter created by nature would not have any Qi of destiny remaining.

Only a person created by nature would have such a scene.

These frost repelling attractors should have been created by humans.

If it was not necessary, it was better not to take them so easily.

He only needed to secretly activate the Great Accomplishment Heavenly Dragon Dao body and cover his body with a layer of dragon scales, and he would be able to completely resist the local cold qi.

Dong Dong --

Several muffled sounds broke the ice-cold dead silence.

Su Yu looked over and saw a snow-white giant ape the size of a mountain leaping tens of millions of miles away.

In front of it, two young men with panicked expressions were running for their lives.

The two young men were a man and a woman. The man had an ordinary appearance, while the woman was astonishingly beautiful. Only Xue Meng Feiyu and Bi Yun Hong Xian from the seven uniques civilization could be compared.

Moreover, their clothes were extraordinary, and they were both immortal embryos of Dao artifacts.

As they fled, they attacked from behind.

The cultivation bases of the two were not weak, and they were both experts in the Dao of physique and soul. They wielded immortal embryos of Dao artifacts in their hands, and were incomparably powerful.

The strength each of them displayed was comparable to that of an ordinary dao master.

In the seven ultimate civilizations, only Xia Ruchen had such a young man.

However, he had just arrived at the Veluriyam civilization, and he had met two of them.

The veluriyam civilization was indeed one of the nine great civilizations of the Western Region!

Their deep foundation was not something that the seven ultimate civilizations could compare to.

However, the giant ape's strength was shocking, and it had the strength of a family head. Their attacks could only cause light injuries to the giant ape.

Not only did they not stop the giant ape's attacks, but they also attracted even more frenzied attacks from him. He grabbed the ground with both hands, grabbed two icebergs, and threw them forward.

The Giant Ape's attacks were ruthless and accurate. How could two young people with their physiques contend against a giant ape of the family head level?

Moreover, apes were known for their physiques, and their strength was even stronger than a dao master of the family head level.

With just a few hits, the Defensive Dao artifacts on their bodies could not hold on any longer and were all smashed into pieces!

The two of them spat out a mouthful of blood and were buried in the snow. They were heavily injured.

The Giant Ape roared and patted its chest. It jumped up and was about to launch another attack.

Su Yu was unmoved. He had no intention of attacking.

Because behind the two young men, there were two elders whose strength had reached the level of the family head. They were secretly protecting them.

"They should be people who are training." Su Yu said indifferently, "However, I'm afraid that the two elders at the level of the family head can't deal with this giant ape."

In the past ten years, not only did he study the true picture, he also dabbled in a lot of knowledge.

Among them was this rare snow-white giant ape.

This ape was called the Nightmare Dragon Snow Ape, and it had part of the Dragon Race Bloodline.

Under normal circumstances, it was in the form of a giant ape. Once it felt threatened, it would activate the Dragon Race bloodline and transform into a half-dragon half-ape. It was extremely powerful, far surpassing the patriarch level experts.

The Nightmare Dragon Snow Ape was extremely rare. In fact, most of the ancient records had never recorded this ape.

He should have been treated as an ordinary giant ape by the three people in front of him and used it as a training object.

Little did they know that the two young people were already in danger.

Just the two clan leader level experts wouldn't be able to save them.

Seeing that they were in danger, before they knew it, the scales on Su Yu's body suddenly opened and released an intense dragon race aura.

The enraged Nightmare Dragon Snow Ape felt the sensation from its bloodline and was stunned. Then, it roared a few times in Su Yu's direction.

After hesitating for a while, it finally stopped and ran away resentfully.

Su Yu had absorbed dragon blood many times. The dragon bloodline in his body was much more than that of the Nightmare Dragon Snow Ape.

Due to the fear of the bloodline, it naturally avoided Su Yu.

It was precisely because of this that the two young people were saved.

Su Yu didn't even take a second look before he turned around and prepared to use his spatial domain to leave.

Unexpectedly, the two elders blocked Su Yu's path.

One of them had green hair on his head, and the other was dressed in a red dress. They were sizing Su Yu up with unfriendly gazes.

"Did you scare the Nightmare Dragon Snow Ape Away?" The red-dressed female Dao master questioned.

Before the Nightmare Dragon Snow Ape left, it roared in Su Yu's direction. Everyone could see it.

Scared Away?

It should be scared away, right?

"I guess so." Su Yu did not explain further.

"You meddle in other people's business!" Two young men crawled out from the snow peak ruins and came over in anger.

Chapter 2274 Regret

"How dare you!" The pretty woman scolded, her snow-white chin raised like a small peacock.

The man who came with her also frowned and blamed Su Yu for being meddlesome.

Su Yu touched his nose. "You're being blamed for saving you?"

"Who wants you to save me?" The woman's personality was very bad. She pointed at the two dao masters behind her and said, "With them here, do you need a little half-step DAO Master to save me? Mind your own business!"

A good cause may not have a good result.

After experiencing so many storms, Su Yu had already seen through it and was used to it. "That's the Nightmare Dragon Snow Ape. If it really showed its might, you might not be able to escape this calamity."

He did not argue nor defend himself. He only gave a simple explanation.

“Oh, so it was such a powerful Savage Beast. It was actually scared away by you. You Are Really Amazing!”The woman clearly did not agree with Su Yu’s explanation. She was sarcastic and sarcastic.

Su Yu secretly shook his head. He felt that what he said just now was too superfluous.

What was there to explain to the ignorant and fearless?

It was just a waste of words!

He cupped his fists towards the four of them and said, “Since you guys are fine, then I’ll take my leave.”

After saying that, he turned around and left.

“Humph! You scared away our training giant ape. If you don’t compensate us, where do you think you’re Going?”The woman’s beautiful figure flashed and blocked Su Yu’s path as she said unruly.

This Woman!

Not only did she not know how to be grateful for being saved, she even made things difficult for her savior?

Su Yu’s gaze became indifferent. “How are you going to compensate it? Are you going to invite it back?”

Seeing that Su Yu did not have any intention of repentance and was instead fighting back, the woman placed both her hands on her waist and her almond-shaped eyes widened. “You Brat, do you know who I am? How dare you talk to Me Like That?”

From her unruly and willful temper, one could tell that she had quite a background.

Usually, she was unruly and willful, but she did not have a top-notch background. In the world of martial artists, she had already died countless times.

“First, I don’t know who you are, and I don’t want to know! Second, I have always spoken like this. It’s up to me whether I want to hear it or not,”Su Yu said indifferently. “Third, take care of yourself!”

As he spoke, Su Yu walked straight ahead, completely unconcerned that she was blocking his path.

The unruly woman pursed her lips. “I don’t believe that there’s anyone in this world that I can’t cure...”

She stood horizontally in front of Su Yu, not budging an inch.

Su Yu also did not stop, so the result was obvious.

How could the unruly woman be a match for Su Yu’s physique?

With a bang, she was knocked to the side of the road.

The unruly woman was in so much pain that she bared her teeth. She climbed up in embarrassment and chased after Su Yu, shouting angrily, "Wen Qing, greetings, arrest her!"

Su Yu felt that this woman was really enough!

She was actually unruly!

Seeing that the two dao masters were obeying orders and preparing to capture him.

Su Yu's gaze was slightly cold. Just as he was about to teach them a lesson, he suddenly realized something and the corners of his mouth curled up. "Didn't you want me to compensate a nightmare dragon snow ape? Fine, I'll pay you back tenfold!"

Tenfold?

They had just comprehended what it meant when they heard the furious roars coming from the horizon.

One after another, huge nightmare dragon snow apes the size of snow mountains leaped over from the horizon like huge mountains.

There were a total of ten of them, and it was a shocking sight.

The eyelids of the two dao masters twitched wildly as they watched.

If they worked together, they could easily subdue one nightmare dragon snow ape, but if there were ten of them... they would be the ones who would be subdued.

"Run!" The two dao masters each pulled a person as they fled with pale faces.

Su Yu could not help but laugh. Nightmare Dragon Snow Apes had always lived together in groups. Provoking one was equivalent to provoking a group of them.

Although the one just now had been scared away, there was still a group waiting for them.

Looking at them fleeing in a sorry state, Su Yu said with a smile that was not a smile, "This is what training is like!"

The two dao masters were extremely fast, but how could they be a match for the Nightmare Dragon Snow Ape?

Seeing that the two dao masters were about to escape, they activated their dragon bloodline and transformed into half-dragon and half-ape bodies, each with a pair of huge dragon wings on their backs.

Flapping their wings, their speed increased tenfold, and they instantly caught up to them.

Then, they fell from above their heads, pressing down on them with their huge bodies.

The expressions of the two dao masters changed drastically, and they hurriedly circulated their domains to resist.

However, the Nightmare Dragon Snow Ape merely raised its palm and slapped fiercely at them, shattering the domain on the spot!

At the same time, it also slapped them to the ground on the spot.

A loud muffled sound could be heard as the meteors crashed onto the ground. The bones of the two dao masters seemed to have fallen apart, and they lay on the ground unable to get up.

The unruly woman and the young man's faces were deathly pale.

They had only suffered the attacks of the two Nightmare Dragon Snow Apes!

In a one-on-one fight, a dao master at the level of a family head had been beaten half to death by the Nightmare Dragon Snow Ape's attacks!

They had just realized that Su Yu was telling the truth. They might not be able to deal with this giant ape called the Nightmare Dragon Snow Ape!

Just Now, Su Yu had indeed saved two young men's lives!

"Where's that silver-haired human? Quick, ask him for help. He seems to have kept a secret to scare away the Nightmare Dragon Snow Ape." In the face of a life-and-death crisis, the two dao masters immediately found a life-saving straw and grabbed the two young men as they frantically fled back.

After dodging left and right, they finally escaped back. They found that Su Yu was still near where he was. He was neither too fast nor too slow as he determined the direction and prepared to leave.

"Young friend, please wait! Please make your move and scare the nightmare... Nightmare Dragon Snow Ape away!" The two Dao Masters pleaded anxiously. There was no longer any reproach on their faces.

Su Yu's expression was indifferent as he said, "My abilities are average. I am far inferior to the two seniors. How can I scare the Nightmare Dragon Snow Ape Away?"

Didn't the unruly woman previously mock Su Yu for exaggerating the strength of the Nightmare Dragon Snow Ape? Did she think that Su Yu would not be able to scare the Nightmare Dragon Snow Ape Away?

But now, she had come to ask Su Yu to make a move.

Seeing that Su Yu stood idly by, the two dao masters were filled with regret. Just as they were about to say something, that unruly woman spoke again, "Brat, how can you just stand by and do nothing?"

The moment she said those words full of criticism, the two Dao Masters knew that things were not looking good.

It was already too late to beg Su Yu, so why was she still blaming the other party?

Did he really think that this was the imperial palace?

As expected, Su Yu's expression was indifferent, and he even folded his hands in his sleeves, he looked at the unruly woman indifferently. "First, saving you is a favor, not saving you is a duty, saving you is not my responsibility and obligation! Second, I have already saved you once, and I have already done my duty. There is no need for me to save you a second time! Farewell!"

After saying that, he directly used his space domain and left this place.

The unruly woman angrily said, "You come back, I order you!"

The two Dao Masters really wanted to seal the unruly woman's mouth, it was all because of this stinky mouth!

At the same time, the two of them were extremely regretful, they had underestimated Su Yu before and did not take his words seriously.

What was even more regretful was that when the woman made things difficult for Su Yu, not only did they not stop her, they even acted as her accomplices.

They pushed a lifesaver to the opposite side.

Now that they were in trouble, how could the other party possibly save them?

Chapter 2275 Woodcutter In The Mountains

Seeing the onslaught of the Nightmare Dragon Snow Apes with no hope of escaping, the group of four felt despair in their hearts.

This experiential learning might be the end of their lives!

However, at this moment, an afterimage suddenly streaked across the top of their heads. Over Ten Nightmare Dragon Snow Apes that were flying over had their bodies exploded, turning into flesh and blood flying everywhere.

Those Nightmare Dragon Snow Apes were all creatures with extremely sharp senses, but they were all killed before they could sense any danger.

It was evident that the person who attacked them was so powerful that they couldn't even sense their aura.

What was even more terrifying was their strength. Even Xia Yi'an might not be able to kill all ten Nightmare Dragon Snow Apes in an instant.

The afterimage flashed and disappeared. The two powerful dao masters didn't even get a clear look at the person who attacked them before he disappeared into the distance.

The hearts of those who had walked past the gates of hell were still pounding wildly, unable to suppress their lingering fear.

They were just a little bit away from being completely killed here.

"Al, the two of us are unworthy of his majesty's entrustment. We actually needed his majesty to secretly make a move in order to avert danger."The Female Dao master asked the minister with a deep sigh.

In the territory of the nightless Imperial Kingdom, who else but his majesty could have such strength and be willing to rescue the princess?

"Father, really, why didn't you act earlier? You really scared me to death just now."The unruly woman patted her chest.

She was the second princess of the nightless Imperial Kingdom, Princess Qianyue.

"Your Majesty wants to give the princess enough training, right?"The greeting said.

Princess Qianyue stood up and shook off the ice shards all over her body. When she thought of Su Yu, hatred welled up in her heart, she said, "Was that person just now a citizen of my imperial kingdom? Damn it, he actually left me in the lurch. I'll definitely find him to settle this score!"

"Pass down my orders. Search the entire imperial kingdom for information on this person."

Unlike ordinary imperial kingdoms, the nightless imperial kingdom was most skilled at spying and passing on information.

If a princess wanted to search for someone within the imperial kingdom, she would usually find something within an extremely short period of time.

"Perhaps there's no need. I see that the direction that His Majesty left in seems to be the direction that the silver-haired human left in," minister Wen said with a bitter smile.

The monarch had always doted on Princess Qianyue excessively. What she hated was also what his Majesty hated.

Since His Majesty had chased after her, it was likely that he would not let Su Yu have an easy time.

Su Yu used his spatial domain to arrive at a snow peak that was extremely far away.

His figure paused and stopped at the snow peak. He did not even turn his head and asked, "Sir, is there anything wrong with catching up to me?"

With his powerful spatial domain, Su Yu was able to sense the abnormal spatial fluctuations behind him.

"Oh? Your attainments in the Dao of space seem to be very high." The spatial ripples behind him flickered like a calm lake surface that set off ripples.

From the ripples, a simple-looking man dressed in blue long-distance running walked out with his hands behind his back.

His appearance was ordinary, and there was not much special in his eyes. His aura was very similar to that of an ordinary person.

Could someone who could catch up to his spatial domain be an ordinary person?

Su Yu turned his head and looked at the other party indifferently. "Do you have any advice?"

"No." The blue-robed middle-aged man said indifferently. "I am that girl's father."

He revealed his identity, but his eyes were looking at Su Yu seriously.

Su Yu was neither servile nor overbearing. She said, "It's not right to save your daughter. It's also not right to not save her. I am in a difficult position."

"Hehe..." unexpectedly, the blue-robed middle-aged man laughed. "I am not here to cause trouble for you. I am here to invite you to a banquet."

As he spoke, he took out a silver invitation card. On it, the words 'Invitation Card' were written vigorously.

There was a special charm in the words. With just a few glances, one could tell that the person who wrote the invitation card was an extraordinary person.

"May I know who you are?" Su Yu asked.

"A woodcutter from the mountains." The blue-robed middle-aged man smiled calmly.

Su Yu thought for a moment and said, "What's the reason for inviting me to the banquet?"

"I admire you," the blue-robed middle-aged man said frankly.

He had personally witnessed Su Yu using the spatial domain.

What was that spatial domain?

How many people had succeeded since ancient times?

It would be difficult for him not to admire it.

Su Yu hesitated for a moment before taking the letter. "I accept your invitation, but I might not have the time to attend."

"It's fine. Your time will be the best." The blue-robed middle-aged man said and left with a smile.

Su Yu was confused. Up until now, he still did not quite understand who the blue-robed middle-aged man was. He had somehow obtained an invitation letter.

He casually stuffed it into his sleeve and followed extermination's directions. He asked along the way and finally came to an ancient forest that was surrounded by clouds, mountains, and seas.

Looking over, the white fog was like a fairy, giving the entire forest a mysterious color.

The forest was quiet, and the sound of falling leaves could be heard clearly.

This place was called a fairyland by the people nearby. It was an unworldly place.

It was rumored that a Qing Yuan layman lived in the forest.

The locals called him the Qing Yuan immortal venerable.

And this Qing Yuan immortal venerable was the person Su Yu was looking for -- an old friend of extermination!

Su Yu stepped into the forest, and immediately mist flowed, as if he was in a fairyland.

However, a martial artist like Su Yu would naturally be able to discover that the so-called immortal clouds were not formed naturally, but were created through a formation.

The Silence in the forest was the same. The existence of the formation chased away all the slightly larger creatures, leaving only the chirping of small insects.

“It is rumored that the Qing Yuan immortal venerable is lofty and proud, disdaining to associate with the secular world. Just now, he lived in such a secluded place.” Su Yu felt the fluctuations of the man-made formation, and he did not think much of it.

As the saying goes, small conceals in the wild, big conceals in the world.

If the Qing Yuan immortal venerable really wanted to live in seclusion, he could have stayed in seclusion from now on.

Why did he need to open up a so-called unworldly land near the imperial city not far from the Eternal Nightless Empire?

In Su Yu’s view, being lofty was fake, and being fake was true.

However, what was very interesting was that throughout Su Yu’s journey, whether it was mortals or martial artists, they all looked forward to this Qing Yuan immortal venerable.

His fame was so great that it seemed to be quite high in the entire eternal night imperial kingdom.

It was said that Qing Yuan immortal venerable would grant any request. Anyone who could pass through the fog and reach his thatched cottage would be able to fulfill one of his wishes.

At this moment, Su Yu’s gaze pierced through the fog. He could clearly see that there were many people who had lost their way in the fog, and they were all trying to find their way to the Qing Yuan Immortal Venerable’s thatched cottage.

“I was just fooling others,” Su Yu said calmly.

If he really wanted to help others, he could have just acted. Why would he need to set up an array to block others and give them a test?

This action was merely to increase his mysteriousness. He was just fishing for fame.

Su Yu’s eyes flashed. He used his clairvoyance to ignore the fog and headed straight for the deepest part of the forest.

Two hours later.

He stopped in a world filled with the sounds of birds chirping and the fragrance of flowers.

Under the Blue Sky, on the lush green grassland, a simple thatched cottage was situated on the grassland.

Several cranes were circling around the thatched cottage, flying up and down, emitting a melodious cry.

At first glance, the artistic conception was detached, and there was a hidden meaning within it.

In front of the thatched cottage, there was a long line of people, men, women, Old and young.

They knelt in a line and entered the hut one by one.

Chapter 2276 Pretending To Be High And Mighty

“Are you here to pay a visit to the layman?” A kind-looking boy put his palms together and walked up to Su Yu.

Su Yu nodded.

The boy stretched out his right hand and made an inviting gesture. “Please wait patiently.”

Most of the people in front of him were mortals, and some warriors were also quite lowly. Su Yu didn’t intend to forcibly cut the queue. He stood at the back quietly and waited.

The boy did not leave. He calmly stared at Su Yu and asked, “Sir, do you not respect layman?”

Su Yu was puzzled and asked, “Why do you say that?”

He had not said a word. How could he tell that he did not respect layman Qing Yuan?

The boy pointed at the group of people kneeling on the ground and said, “They are the ones who truly respect you.”

Among the people who came, only Su Yu was standing while the rest were kneeling.

“Do you need to kneel just because you are respected?” Su Yu couldn’t help but laugh.

An unworldly expert actually needed someone else to kneel in order to gain respect?

It was indeed as Su Yu had expected. Living in seclusion was fake and attracting people’s attention was real.

“If you want to say this, I have no choice. I just want to remind you that you must respect layman Qingyuan.” The boy finished his words and returned to the thatched cottage with a smile.

Su Yu didn’t think much of it and waited in silence.

At this time, a few more people passed through the mist with great difficulty and arrived in front of the thatched cottage.

They knelt on the ground with excited and devout expressions, waiting for layman Qingyuan to receive them.

“The three fated people, please come in.” It was supposed to be Su Yu’s turn to enter, but the boy arranged for the three of them to enter first.

Everything had a first come, first served basis.

If the latecomers could be placed in front of others, what was the point of Su Yu standing in line?

Seeing that the boy was deliberately targeting and ostracizing him, Su Yu shook his head in disappointment.

This time, he came with a sliver of hope.

If this old friend of the extermination expedition was still easy to talk to, he did not mind giving him some opportunities.

During the ten years of traveling, Su Yu had entered the Great Void Mystic Palace many times and found a large amount of items filled with absolute beginning qi.

To the Daoist master, these items were irreplaceable treasures. It was hard to find them in the outside world.

Unfortunately, he didn't even see the face of this person. Instead, he was harassed by the boy outside the door.

Shaking his head, Su Yu took out the extermination letter and said, "I've disappeared. Give this letter to him. HMM, it's not mine. It's a letter that an old friend of his asked me to give to him."

His main purpose of coming here was to deliver the letter.

He did not expect this layman to lead him to the stabilizing astrolabe.

On the way, he had inquired about the existence of the Star Alliance Chamber of Commerce in the glaze civilization. This meant that he could easily inquire about the information.

It was nothing more than spending some money.

"Don't you have a request from layman Qingyuan?" The boy was obviously stunned. Almost all the people who came here had a request from layman Qingyuan.

Su Yu said indifferently, "It's probably nothing. I need to ask him."

With Su Yu's strength and wealth, it was more appropriate for layman Qingyuan to ask him.

After that, he stepped on the grassland and walked into the forest.

After taking a few steps, a distant and indifferent voice came from the thatched cottage, "A friend comes from afar, isn't that Nice?"

The letter in the boy's hand suddenly flew into the thatched cottage.

A moment later, a skinny old man with white hair and green clothes walked out with a horsetail whisk in his hand.

He was expressionless and seemed indifferent.

At first glance, he looked like an immortal.

The people in front of the thatched cottage kowtowed and shouted, "Venerated immortal Qingyuan!"

He was the person Su Yu was looking for.

"Since you are a friend of the family head of extermination, you are also a friend of this scholar. Please come in." Scholar Qing Yuan spoke faintly, giving people a faint sense of arrogance.

It was as if he was looking down from above.

Su Yu cupped his fists and said, "The letter has been delivered. I still have some matters to attend to, so I won't stay any longer."

Su Yu had always disdained to associate with people who thought of themselves as noble.

"Since you've come to my thatched cottage, I'll leave now. I'm afraid people will mistake me for neglecting distant guests." Layman Qing Yuan dusted his horsetail whisk, then silently turned around and returned to the cottage, saying, "Please come in."

He secretly used a trace of the power of the Dao master to bind Su Yu and bring him into the thatched cottage.

With Su Yu's physique, he actually couldn't shake him off with the power of a puff of dust.

However, since he was forcing him to stay, Su Yu was not in a hurry to leave.

He simply pretended that he could not break free and was brought into the thatched cottage.

Layman Qingyuan sat down indifferently and sipped his tea. "Name!"

Su Yu only looked at him and did not say a word.

Layman Qingyuan did not even look at Su Yu from the beginning to the end. Seeing that Su Yu did not answer, he said indifferently, "On account of the fact that you have traveled thousands of miles to deliver the letter, I will make an exception to fulfill one of your wishes. Tell me, what is it?"

His tone was very light, but it was also extremely arrogant.

It was as if Su Yu was just an ant, while he was an omnipotent God.

Su Yu found it funny. He could only pretend to be ignorant in front of mortals, but in front of him, he was just showing off his skills.

However, since the other party asked, Su Yu naturally would not be polite. He said, "Take me to the fixed astrolabe."

Layman Qing Yuan suddenly raised his head and frowned as he sized up Su Yu. "What are you going there for?"

Su Yu said indifferently, "Can you do it?"

Su Yu could see some fear in layman Qing Yuan's eyes.

It seemed that layman Qing Yuan might not be able to lead Su Yu there.

"Of course!" Layman Qing Yuan put away his fear and pretended to be calm.

Su Yu said, "Then I'll have to trouble you..."

Layman Qing Yuan interrupted Su Yu and said, "Hold On! Not everyone deserves help if I help them fulfill their wishes. That requires fate."

Just a moment ago, he was saying that he would help them fulfill their wishes, but now he was talking about fate.

Actually, he couldn't do it, so he had to think of a way to deny it?

Su Yu said, "In layman Qing Yuan's opinion, is my fate enough?"

Layman Qing Yuan took a sip of tea and said indifferently, "That depends on you."

He shook his horsetail whisk, and a thread drifted to the ground, turning into thousands of chicken feathers that fell to the ground.

"Life is like these chicken feathers. No one knows which one can change your fate." Scholar Qing Yuan said without changing his expression, "One of them has the word 'fate' left behind by me. If you can find it, it means that you are fated to receive my help."

Hearing this, Su Yu smiled in his heart. It was not easy to talk about shamelessness in such a fresh and refined manner.

"Alright, I'll give it a try." Su Yu smiled lightly and swept his eyes over the chicken feathers on the ground.

As a result, he discovered that there was something else on the chicken feathers.

Each piece was covered with a unique aura, and Su Yu's eye-bloodline technique could not see through it.

However, Su Yu was not in a hurry.

He casually grabbed a piece of ordinary chicken feathers three feet in front of him, and then secretly used the evil King Pearl to copy layman Qing Yuan's divine technique and wrote the word "Fate" on the chicken feathers.

Seeing this, layman Qing Yuan lightly sneered.

Among the thousands of chicken feathers, the probability of him finding the marked chicken feather was zero, right?

However, when Su Yu flipped the chicken feather over and revealed the word "Fate", Layman Qing Yuan was first stunned, then angrily scolded.

Chapter 2277 Buying Information

"Ignorant child, how dare you cheat!" Recluse Qing Yuan reprimanded angrily.

From the looks of it, he was extremely furious.

How could he believe that Su Yu could find that piece of chicken feather by coincidence?

Without a doubt, Su Yu must have done something to it.

Su Yu put down the chicken feather and said indifferently, "Yes, I forged this piece of chicken feather myself."

Unexpectedly, Su Yu didn't defend himself at all. Instead, he openly admitted it.

This action made scholar Qingyuan unable to vent his anger. He gradually restrained his anger and said with an unhappy expression, “You begged me to do something, but instead of being sincere, you lied! I’m sorry, I Can’t help you fulfill your wish.”

“Hehe... scholar is really stupid.” Su Yu sneered and picked up the chicken feather, he rubbed it between his fingers. “I can create your so-called chicken feather that can change fate by myself. I even need to look for the chicken feather that you gave me under your rules.”

Su Yu naturally wouldn’t be polite to such a person who felt good about himself and liked to pretend to be aloof. He directly pointed to his inner thoughts.

As expected, Layman Qingyuan was furious. He narrowed his eyes and stared at Su Yu. “Junior, for the sake of annihilating the Zheng family head, I will forgive you once. If you dare to speak without restraint again, be careful of me...”

Su Yu did not even have the interest to listen to his words and directly interrupted him, he said, “I had already decided to leave. It was you who insisted on doing something for me. In the end, you couldn’t do it. Then, you played some tricks to cheat others. After being exposed, you became angry from embarrassment!”

He slowly stood up, his eyes did not conceal his contempt. “To be honest, I feel that maintaining the image of a Qingyuan Immortal Venerable is quite tiring! For the sake of family head extermination, I will not make things difficult for you. Take care of yourself.”

If Su Yu wanted him to make a fool of himself, it would be too easy.

In front of all the people who had sealed his letter, he would beat him up and completely destroy his image as a layman.

However, since he was an old friend of the extermination, Su Yu was too lazy to do anything unnecessary.

“Ignorant child!” Layman Qing Yuan slammed the table and stood up. He was full of the power of a dao master and was excited. He looked like he was about to make a move.

Su Yu said with a faint smile, “I advise you not to be impulsive.”

As he said that, he casually opened the curtain and left the hut.

Layman Qing Yuan’s face was livid. After struggling for a moment, he slowly restrained the power of a dao master and snorted, “I don’t dare to make a move on you because there are too many people around? HMPH, you’re Smart!”

Obviously, he misunderstood Su Yu’s meaning.

Su Yu told him not to be impulsive because he did not want him to be beaten up, and not to threaten him with his image.

“I, the honorable layman Qingyuan, Can’t Do Anything to You?” He could not swallow this anger in his heart. His heart moved. “Don’t you want to find out about the astrolabe? Fine!”

“Little chaos, come in!”

The boy from before immediately came in with his back hunched and said respectfully, “Layman, what are your orders?”

“Inform the Star Alliance Chamber of Commerce that they have been strictly sealing off the information on the astrolabe.”

“Yes!”

Only a few people knew about the astrolabe. Layman Qing Yuan was one of them, and the Star Alliance Chamber of Commerce’s intelligence agency was another.

The remaining people were the super forces of the Eternal Nightless Empire.

Su Yu was an outsider, and the only way to obtain information about the astrolabe was through the Star Alliance Chamber of Commerce.

If he sealed off the Star Alliance Chamber of Commerce, where would Su Yu find information?

“In less than ten days, you will definitely come back and beg me!” Layman Qing Yuan’s mood was much better as he smiled lightly.

However, even if Su Yu really came to beg him, he would not help.

All he wanted was to vent his anger.

After giving out the letter of extermination, Su Yu came to the capital of the eternal nightless Imperial Kingdom.

The capital was bustling with activity, and there were businesses controlled by the Star Alliance’s Chamber of Commerce everywhere.

Among them, there was an intelligence agency.

As soon as Su Yu entered, a white-haired old man immediately welcomed him with unusual enthusiasm.

“May I ask if young master has come to visit...”

“The price of the information regarding the astrolabe is easy to negotiate.” Su Yu’s words were concise and comprehensive, cutting out the formalities.

The white-haired old man’s smile deepened. “Young friend, please take a seat.”

Accompanied by the white-haired old man, Su Yu entered the backyard with a quiet environment and excellent isolation effect.

“This old man is the manager of the intelligence agency, Yu Xiangdong. Unless there is special information, the rest can be decided.” The meaning behind the manager’s words was that the information on the astrolabe did not need to consult the owner. He could make the decision himself.

“That would be the best.” Su Yu said indifferently, “How much is it?”

Yu Xiangdong's face was full of smiles. "One hundred million dao dollars."

One hundred million?

Dao dollars were different from divine stones. Crystals and other currencies were extremely expensive.

The Cangjing Daoist temple that Su Yu had been to might not even have one billion dao dollars.

For a mere piece of information to ask for one hundred million dao dollars, the value was really not cheap.

Su Yu took a simple inventory of his family's assets. Other than the things that had not been sold, he only had two to three hundred million dao dollars in his hands.

Asking for more than half of the Dao currency in one go, Su Yu pondered for a moment.

He could still earn more dao currency, but he had to get the information on the astrolabe.

Every day that the evil daughter died, the evil Lady Palace would have another day of uncertainty.

If he went too late, Heaven knew if the evil Lady Palace still existed. Perhaps it would fall apart like the seven ultimate civilizations, or perhaps it would be swallowed up by other forces.

"Deal," Su Yu said decisively and took out a gold card.

Yu Xiangdong's pupils constricted when he saw this card. A gold card was a money card that only the Daoist master hall would give out when its storage capacity exceeded 500 million.

The silver-haired human in front of him was indeed a wealthy guest.

Yu Xiangdong rubbed his hands and said with a smile, "According to our rules of the intelligence agency, we pay first, then we give the information."

The information was different from other goods. If it was ordinary goods and the customer took back the goods, they could still get the goods back.

However, once the customer knew and took back the information, how could they get it back.

Su Yu knew that this was indeed the rule of the intelligence agency, so he took the initiative to give the other party 100 million dao currency with his money card.

Yu Xiangdong was relieved and his mood was much better.

This could be considered a big deal!

"Young master, Please Wait a moment. I will go to the treasure house to get the relevant information scrolls." All the information about the fixed astrolabe was sealed in the treasure house.

He didn't know the details himself.

"Please hurry." Su Yu nodded lightly.

Yu Xiangdong walked quickly to the back hall.

Unexpectedly, when he reached the middle of the courtyard, a waiter quickly walked up and said in a low voice, "Shopkeeper, layman Qingyuan's boy is here."

The shopkeeper's expression turned serious and contained a hint of fear, "Where is he?"

"He's in the front yard."

"Quickly invite him into the back hall..."the shopkeeper hesitantly looked at the guest hall where Su Yu was and said, "I'll go and receive him personally. You guys take care of this young man."

After saying this, he left Su Yu behind and hurried to the front yard.

In the guest hall in the front yard, the boy leisurely played with an expensive ornament in the guest hall.

"Yo, what wind blew Lord Little Chaos Here?"The shopkeeper had a smile on his face, as if he was addressing him respectfully with the same status.

The boy, who had behaved obediently and calmly in the thatched cottage, was now carrying one hand behind his back, giving people a feeling of arrogance. As he continued to play with the ornament, he said indifferently, "Of course I'm here on the orders of the layman."

Hearing this, the shopkeeper's eyelids twitched.

Chapter 2278

The Star Alliance Chamber of Commerce was powerful, so there was no need to give face to others.

There were only a few top-tier powerhouses and some special people in this civilization.

Layman Qingyuan was not a top-tier powerhouse, but he was definitely a special person. He was the second princess favored by the Emperor and the teacher of Princess Qian Yue.

Once, the eternal nightless empire asked Layman Qing Yuan to be Princess Qian Yue's teacher for a period of time.

Even now, Princess Qian Yue still respected layman Qing Yuan a lot and allowed him to freely enter and exit the Princess's residence.

Such a figure could easily sway the second princess's thoughts and also frequently see the emperor.

His weight could be seen clearly.

Many people would ask layman Qing Yuan for help when they wanted to do something.

This included the Star Alliance Chamber of Commerce.

Back then, they were able to take root in the nightless imperial kingdom because of scholar Qing Yuan's recommendation, which allowed them to gain a foothold here.

The Star Alliance Chamber of Commerce naturally had to treat him with extra courtesy.

If they were to provoke him and slander him in front of Princess Qian Yue, the Star Alliance Chamber of Commerce would have a hard time.

Therefore, when he learned that the boy was here to convey scholar Qing Yuan's intentions, the shopkeeper naturally treated him with caution and said, "What are your orders, scholar?"

The boy did not even turn his head and said indifferently, "Layman said that you must seal all the information and not sell it for the time being."

When the shopkeeper heard this, his heart skipped a beat. It was not difficult to just seal one piece of information.

Similar situations were often encountered in the information industry.

Some important figures did not wish for certain information to be leaked and would pay a huge price to request the information industry not to sell certain types of information.

The shopkeeper felt that layman Qingyuan's request was very easy, so he asked with a smile, "May I ask what kind of information layman wants to seal?"

Little Chaos said indifferently, "The star-fixing disk!"

As soon as he said these three words, the shopkeeper's expression became strange.

Someone had come to buy this information, and layman Qingyuan had sealed it?

His expression was a bit sluggish, and he asked hesitantly, "When will it be executed?"

"Now, right now, right now!" Little Chaos said without any hesitation.

The shopkeeper looked troubled and said frankly, "To tell you the truth, a customer has just bought this information and offered 100 million dao coins..."

Little Chaos rolled his eyes. "What does that customer look like?"

The shopkeeper came.

Hearing his description, little chaos's small face darkened. "You have sold it to him?"

"No!" The shopkeeper saw that his expression wasn't right and immediately said, "Lord Little Chaos, my guest..."

Little Chaos put his hands behind his back, he snorted. "He's ungrateful! Scholar Qing Yuan was kind enough to help him, but not only did he not appreciate it, he even maliciously insulted scholar Qing Yuan! He came to your place to look for information on the fixed astrolabe, so you must not hand it over to him."

Insult Layman Qingyuan?

How dare he!

In the entire eternal nightless empire, how many people dared to insult layman Qingyuan?

That silver-haired human kid really didn't know the immensity of Heaven and earth!

The shopkeeper understood layman Qingyuan's intention of asking him to seal the information, but he was very troubled and said, "But, he has already paid..."

Looking at the displeased boy, the shopkeeper immediately became clever and said, "I will return the money and cancel this transaction!"

Unexpectedly, the boy said with a faint smile, "Shopkeeper, you actually let a duck that has been delivered to your door go?"

The shopkeeper immediately understood the boy's meaning, he waved his hand and said, "No! Our Star Alliance Chamber of Commerce has always been based on credibility. We are greedy for other people's dao currency, and it is still a full 100 million dao currency. If this matter is spread out, our Star Alliance Chamber of Commerce will definitely suffer a heavy loss."

If this matter got out, who would dare to come to the Star Alliance Chamber of Commerce to trade?

"Hehe, shopkeeper, you don't have to worry. This guy's background is average. He comes from a declining heavenly relic civilization. He only has a small family head behind him. You can rest assured that he won't be able to turn over any flowers,"the boy said affirmatively.

The depths of the shopkeeper's eyes flickered with traces of greed.

He came from the former heavenly relic civilization? In that case, he had no one to rely on in the Veluriyam civilization?

After thinking for a long time, the shopkeeper made a decision in his heart and nodded slowly. "I know what to do! Lord Little Chaos is waiting for your good news."

He returned to the backyard and went to the treasury. He casually took out a piece of information sealed in the Jade Seal.

A moment later, in the guest hall in the backyard.

The shopkeeper cupped his hands in a pleasant manner and said, "Sorry, sorry to have kept you waiting for so long."

Su Yu frowned slightly. He had indeed waited for a long time. The efficiency of the Star Alliance Chamber of Commerce should not be so low.

"Can I have the information?"

"Please have a look at the salary."The shopkeeper took out the jade formula and handed it over with both hands.

Su Yu did not have any other thoughts. He pinched it with two fingers and was about to take the jade formula into his hands.

Unexpectedly, before his fingers could touch the jade formula, the jade formula actually cracked open from the middle. A mass of fluorescent light flew out from the crack, and the jade formula itself quickly dimmed.

All the information sealed inside was nullified!

Su Yu was stunned. Before he could understand what was going on, the shopkeeper had already reprimanded him, he said, "Customer, aren't you going too far? My intelligence agency has always kept only one piece of information. If you destroy it, how are we going to sell it to others?"

Hearing the reprimanding that seemed to have been prepared, Su Yu immediately understood.

He was afraid that this jade formula did not contain any information about the astrolabe, but the rest of the worthless information.

Yu Xiangdong wanted to swallow the 100 million dao coins just now!

What was even more ridiculous was that it was one thing to covet the 100 Million Dao coins, but to frame Su Yu and ruin the jade formula.

He was clearly the one who had tampered with it in advance!

Su Yu did not expect that the Star Alliance Chamber of Commerce, which was based on credibility, would do such a thing.

His eyes gradually turned cold, he said, "You know the truth! I'll give you two choices. First, give me the information on the astrolabe! Second, return the 100 million dao coins! Don't make a choice that you'll regret!"

Yu Xiangdong sneered, disagreeing in his heart.

If it was really like what the Little Chaos Boy said, Su Yu came from the declining heaven relic civilization, why should he be afraid of Him?

Yu Xiangdong sternly berated, "Impudent! You maliciously destroyed my intelligence bank's precious intelligence, yet you still dare to make a complaint? Let me tell you, that intelligence can be sold to at least three people. In other words, it can be sold for 300 million!"

"Since it was you who destroyed the jade formula, then compensate 300 million! If this debt is not repaid, I'm sorry, but you have to identify the intelligence bank and plan to leave!"

Hualala --

After he finished speaking, the auras of several Dao Masters enveloped the back hall.

Yu Xiangdong's face was cold and filled with indignation.

Those who did not know would really think that Su Yu was the one who destroyed the jade art.

Not only did the other party not repent, he even went further and demanded that Su Yu compensate him with another 300 million?

At this moment, Su Yu was not afraid. In fact, he even felt like laughing.

Just based on these Dao Masters in the intelligence department? It was probably not enough for him to beat them up with one hand!

Su Yu was calm and composed. He said indifferently, "I'll say it for the last time. Either send the intelligence or return the DAO currency!"

PA --

Yu Xiangdong won Su Yu over. He patted the table and said with a righteous face, "It's only right and proper to compensate people according to the price! Customer, don't think that you can cheat your way out by cheating!"

"Men, bring this customer down to have a good talk!"

They were planning to put Su Yu under house arrest and slowly take the dao currency from him.

Since things had come to this, Su Yu felt that it was unnecessary to say another word.

He looked at Yu Xiangdong with pity and his gaze became colder and colder. "Although I don't know why you are doing this, what I want to say is that you have already missed the opportunity."

Chapter 2279 Sniping The Boy

Yu Xiangdong sneered and did not take Su Yu's words to heart.

Instead, he felt that he did not understand how a person who could not even see the situation clearly could have so much wealth.

He waved his hand behind him and Yu Xiangdong smiled, "We can only let the guests go down and reflect."

Several experts who had rushed over behind him entered one after another and were about to go forward and capture Su Yu.

Su Yu's heart moved, and he used the spatial divine art to leave.

The group of people jumped into the air and asked Yu Xiangdong, "Shopkeeper, he must have used some kind of spatial talisman. If we chase after him now, we should be able to catch up."

"Forget it!" Yu Xiangdong waved his hand. "I was just scaring him."

He was satisfied with just one hundred million. If he pushed Su Yu too hard, it might not be a good thing for the matter to blow up.

He quickly walked to the guest hall in the front yard and said, "Lord Little Chaos, we have already expelled that Su Fellow."

The boy leisurely sat on the armchair and nodded with satisfaction. "Well done."

He narrowed his eyes and did not have the intention to leave immediately.

The manager understood and brought over the precious ornaments that the boy had played with many times before and presented them to the boy, he said, "Lord Chaos, it's rare for you to come to the intelligence agency. This small gift is just a small token of appreciation to you. Please accept it."

The boy opened his eyes a little. After seeing this item, his eyes immediately widened and he said, "How can this be good?"

Although he said so, he had already stretched out his hand and put the ornament into his sleeve.

The expression on his face became even more joyful and his attitude became much more respectful. He cupped his fists and said to the shopkeeper, "Then I'll go back and report to the layman. Shopkeeper Yu handled it very well."

"Then I'll have to trouble Lord Chaos to put in a few good words in front of the layman."

"Haha, Good Talk, Good Talk!" The boy laughed and left with satisfaction.

Yu Xiangdong watched him leave. After a long time, he stopped smiling and spat on the ground. "Insatiable things!"

As layman Qingyuan, the boy repeatedly asked for things from the Star Alliance Chamber of Commerce in the name of layman.

Not only the intelligence agency, but the other trading companies were also not spared.

However, after getting 100 million dao coins, Yu Xiangdong was in a good mood and did not care much.

On the other side.

After the boy left the imperial city and came to the suburbs, he went straight to the place where layman was.

Unexpectedly, after just walking a few times, the space in front of him fluctuated, and a figure with his hands behind his back cut through the space and came out.

The boy was stunned. When he saw who it was, he rolled his eyes and immediately revealed a calm expression. He smiled and said, "So it's You, my guest. May I ask why you stopped me?"

Su Yu's eyes were indifferent. He did not leave the intelligence agency far away. Instead, he was scanning the activity within the intelligence agency from a distance.

Just now, he could have directly attacked and destroyed the entire intelligence agency.

However, Yu Xiangdong's sudden change in attitude had to have a reason. He was quietly observing the changes and was secretly investigating.

As expected, after seeing this boy named little chaos, he understood everything in his heart.

Layman Qingyuan did not listen to his warning!

"Guest, if you have nothing else to do, then I will go back first." The boy had a harmless look on his face. He politely bowed and was about to go around Su Yu.

However, just as he moved, Su Yu casually used a spatial domain, causing the boy to fall into a folded spatial world, causing him to spin on the spot, unable to move forward.

The Boy's face was filled with panic and confusion. "Guest, what do you mean by this? Why are you blocking my way?"

He knew it in his heart, but he pretended not to know.

Su Yu could not be bothered to explain a single word to him. He pulled out his sin sword and executed morning and night.

The boy was bound by the spatial domain and his cultivation was mediocre. He didn't even have a half-step dao master. There was no way he could dodge or resist this sword. Only death awaited him.

Huala --

The plain sword stabbed towards his vital points and could end his life in an instant.

Who knew that the boy's seemingly calm face suddenly became malevolent. His eyes were filled with malice. He snorted out a ball of purple-black flames from his nostrils and burned a hole in Su Yu's spatial domain.

The spatial domain shattered into a single point, and it spread out for thousands of miles like a broken dam.

The entire spatial domain became unstable!

The boy took the opportunity to stretch out his arms and smashed the spatial domain, directly shattering the domain. Just before the evil sword was about to stab him, he grabbed the blade of the evil sword.

Creak --

The ear-piercing sound of metal friction could be heard. The boy actually grabbed the evil sword with one hand and broke through the morning and evening sword!

Su Yu was slightly shocked and slightly surprised.

Although he had expected that this boy would not be very simple, the extent of his power was still beyond his expectations.

Breaking through the Sword of morning and night with one hand, this was equivalent to the strength of the family head!

“HMPH! I didn’t want to do it myself, but now it seems that I can only force myself to dirty my hands!”The boy’s thin and small body suddenly expanded.

In the blink of an eye, he transformed from a child into a ten-meter-tall giant.

His muscles were full of explosive power, and the aura of a clan master swept out in all directions like a great current.

This was the true appearance of the boy.

That scholar Qing Yuan thought highly of himself. How could he really use a boy with ordinary cultivation?

“Body?”Su Yu’s expression was a bit strange.

If he had hidden his strength in other aspects, Su Yu might have been a bit more troublesome, but in terms of body..

“Humph, are you afraid?”The boy smiled sinisterly. “The last time I used my body was when I was chased by an expert at the level of the head of the family. It should be your honor to die under my body.”

Sou --

His voice was still floating in the air, but he had already teleported 30 feet in front of Su Yu.

His huge body projected a long shadow that enveloped Su Yu’s body.

His left foot had already been raised high, and he kicked towards Su Yu’s abdomen.

With such an attack, there was almost no room for survival for anyone below the patriarch.

Boom --

With a kick, the boy immediately felt the touch of a solid kick, and his heart felt at ease.

Who knew that in the next moment, the boy was stunned.

Because after his kick landed, Jing RU had kicked an iron plate, unable to kick half an inch forward.

When he fixed his eyes to take a look, his eyes were filled with shock.

The human in front of him had unknowingly transformed into a strange existence that was half human and half dragon.

His dragon claw easily grabbed onto his ankle.

No matter how much strength he exerted, his ankle was firmly grabbed by him, unable to break free.

“Physique? Unfortunately, my forte is also physique.”As soon as he finished speaking, Su Yu pulled back his elbow and slammed him onto the ground.

Bang --

With a loud bang, the boy was smashed onto the ground by Su Yu, making a muffled sound as if his teeth were about to fall off.

Due to the excessive force, the boy’s body, which he was proud of, was smashed into a bloody mess. The ground beneath his feet was also smashed into a large piece. Dense cracks spread from the suburbs all the way to the foot of the imperial city.

“How is it possible... you...”the boy lay on the ground and coughed violently.

Puff --

However, Su Yu stepped on his chest, making him spit out a mouthful of blood, which was unbearable. His face was as pale as paper.

“Nothing is impossible,”Su Yu said calmly.

He was about to step on him again when suddenly, a cunning light shot out of the boy’s eyes. A pair of pitch-black wings appeared on his back without any warning.

Chapter 2280 Goodbye, Constable Tie

He flapped his wings fiercely, creating a huge storm that blew su Yu until he swayed.

Taking advantage of this opportunity, the boy flew into the sky and quickly fled to the forest where lay master Qing Yuan was located.

Su Yu’s eyes turned cold. The space in his sight immediately became like a wave, rushing back in Su Yu’s direction.

The boy who was getting closer and closer to Su Yu was shocked and said, “Spatial domain?”

Spatial laws were extremely rare. Comprehending it into a domain was a legendary existence!

The person he was scheming to deal with was actually a spatial domain master!

The boy did not hesitate and immediately released his domain.

However, in the depths of the spatial domain, his domain had just been released when it was mercilessly shattered by the spatial domain.

Within a few breaths, he was swept away by the spatial domain and returned in front of Su Yu.

The boy sternly shouted, "Recluse Qingyuan has a high position and great influence in the nightless imperial kingdom. Everything You've done to me, you must pay the price!"

Su Yu's expression was indifferent, "En, I'm looking for you because I want you to deliver a message to recluse Qingyuan!"

Before the boy could understand, two rays of white light suddenly shot out from Su Yu's eyes and entered the boy's eyes.

Immediately, the boy screamed in pain. His originally sharp eyes became calm after a struggle.

Finally, he knelt down in front of Su Yu and obediently said, "Master, please instruct me."

Su Yu took out a fiery red bead and handed it to him. He said, "Go and deliver a message for me."

His lips moved, and he transmitted a message to the other party's ears.

After doing all this, Su Yu returned to the Imperial City and went outside the intelligence agency.

His body twisted, and in the next moment, he appeared in the Treasury of the intelligence agency.

What entered his eyes were over 10,000 jade pendants sealed in the treasury, and each of them contained extremely valuable information.

At the bottom of each jade formula hung a small wooden token with a clear price tag on it.

The lowest price was over 10,000 dao coins.

The most expensive ones were the two jade seals that were located in the deepest part of the Jade Seal.

One of them was the information on the astrolabe.

However, the information on the astrolabe was not the most expensive one.

The most expensive one was another piece of information -- the Eternal Royal Family!

"Is there something important with the Eternal Royal Family?" Su Yu's sense of smell was very sensitive.

The information on the eternal royal family should be known by everyone. How could there be any secret information?

As the intelligence, it should be something that had happened recently.

Putting the jade seal between his brows, Su Yu could not help but be stunned.

The intelligence said that the royal family was preparing to hold a banquet to discuss the names of the participants.

The so-called wind and cloud gathering only had a very simple description in the intelligence, and that was the selection meeting for the eight-star civilization.

Su Yu's heart instantly pounded.

An 8-star civilization... the vile daughter palace was in an 8-star civilization!

If Su Yu wanted to enter, he had to first enter an 8-star civilization.

And the eternal nightless Imperial Kingdom's discussion meeting could confirm the list of people who would participate in the wind and cloud gathering!

Su Yu continued reading and discovered that the invitations to this banquet were all sent out in secret. Only forces and people recognized by the eternal nightless imperial family had the qualifications to participate in this banquet.

The information revealed that there was a channel that could get an invitation letter.

Su Yu was instantly interested!

He was very interested in participating in this banquet!

He flipped through the jade formula and discovered that the jade formula was marked with the word "Two".

It meant that this piece of information had already been bought by two people.

In other words, someone was walking in front of Su Yu, looking for the invitation letter.

Feeling slightly anxious, Su Yu put away the jade formula and the information on the astrolabe.

Just as he was about to leave, he glanced at the ten thousand pieces of information jade formula.

Without thinking, he waved his sleeve and put all the jade formulas into his sleeve.

First, he wanted to take revenge on manager Yu.

All the information was stolen, so he could forget about being a manager. If it was more serious, his life would be in danger.

Such a large amount of information was worth trillions of Dao dollars. Even if he sold himself, he would not be able to repay it!

Secondly, there might be some useful information in the information.

For example, this banquet was an unexpected surprise!

With the jade seal in his hand, Su Yu immediately rushed to another place far away from the Imperial City, the Heavenly Royal Ridge.

At that time, on the outskirts of the imperial city, the place where Su Yu and Tong Zi had fought had already been filled with many people. Amongst them, the imperial city guards were the majority.

The general in the lead carefully inspected the scene, his eyes filled with bewilderment. There were no corpses or other traces nearby, and it was completely impossible to determine what the situation was.

Huala --

Suddenly, the guards separated, and a man and a woman walked over side by side.

The man was dressed in embroidered robes and had an imposing bearing. When the general saw him, he immediately trotted forward and knelt down on one knee, "This subordinate greets the prince."

The Emperor of the Eternal Nightless Empire only had one prince and two princesses.

The Man in front of him was the only prince, Prince Ling Tian.

"Mm, rise," Prince Ling Tian said indifferently and looked at the woman beside him with a smile.

The woman was dressed in white and her face was covered by a white veil, making it impossible to see her face clearly.

Prince Ling Tian said, "It's just a simple fight. Why would we need to alert the heartless iron constable?"

That woman was none other than the world-renowned number one constable, the heartless iron constable!

She had arrived at the glazed tile civilization a few years ago and had been staying here.

During this time, she had been in closed-door cultivation in the imperial palace.

However, she had suddenly come out of closed-door cultivation and arrived outside the city.

Prince Ling Tian followed her out of curiosity.

The heartless iron constable did not say a word as he came to the center of the battle. He focused his gaze and shook his head after a moment, "This isn't an ordinary fight, but a battle between two experts whose physique has reached the level of the family head."

The general was slightly surprised. As expected of constable heartless, he could not see anything after looking at it for a long time. However, constable heartless was able to see through it with just a few glances.

Prince Ling Tian did not mind and said, "Perhaps there was a conflict between two experts at the level of the family head. It doesn't matter."

There were many experts at the level of the family head in the Eternal Nightless Empire. There was no need for them to be affected just because of a battle.

"The battle isn't the main point. The main point is that one of them used a spatial domain," constable heartless said calmly as he swept his palm towards the sky, causing a layer of ripples to appear in the sky.

It was a remnant of a spatial domain.

However, no one noticed it, but constable heartless immediately noticed it.

Prince Ling Tian's brows twitched, "Spatial... domain? How is that possible? For many years, our Western Region has only produced a single empress who has mastered a spatial domain, the death god of time and space. How can there be another person who has a spatial domain?"

The name of the heavenly queen shook the entire Western Region. Everyone knew of her!

However, for an entire era, she was the only one who had appeared.

And now, there was actually a second person!

“This person must be someone who is well-hidden!”The waves in Prince Ling Tian’s heart could not calm down for a long time.

A person with a space domain would definitely be an absolute expert of the western region.

“He is indeed well-hidden. I once let him off the hook... well, to be precise, he is saving me,”said the heartless constable calmly, his eyes filled with resentment as he drifted towards the seven ultimate civilization..
