Chapter 2281 Tit For Tat

Prince Ling Tian was quick-witted. If he could take in a spatial domain esper for his own use, his throne would naturally be safe.

“You know this spatial domain Esper?”He seemed to be casually probing.

Constable heartless slightly nodded, “I guess so!”

With an invincible physique and control of time and space laws, other than vice leader Su from the Pirate Alliance near the seven ultimate civilization, could there be a second person?

In the past, the heartless criminal hunter might not have realized that Su Yu was letting him go, but after thinking about it calmly, he could see that there were many loopholes.

If that Su Yu was really a shameless person who coveted his beauty, why did he bring him to a remote battleship to violate it?

The other party was proficient in space-time laws, so why didn't the other party chase after him when he escaped?

Catching a glimpse of the leopard in a tube, the heartless criminal constable realized that Su Yu's true motive was probably to take the opportunity to let him off.

It was just that he didn't know about it at that time.

“Oh? Can you introduce him? Such a person is really fascinating.”Prince Ling Tian smiled.

The heartless criminal constable glanced at him and shook his head, “Such a person will eventually enter an eight star civilization, and it's not something you can control.”

After his thoughts were exposed, Prince Ling Tian did not feel awkward and smiled, “I'm just looking for a good person. It would be best if the other party is willing to work for me. If he isn't, I won't force him.”

He was still unwilling to accept this.

If he could control the space domain, he would definitely be able to enter an eight-star civilization?

Back then, the spacetime reaper was able to control both the space domain and the time domain at the same time. It was not as though he was destined to enter an eight-star civilization.

If this person could stay by his side, he would definitely become his right-hand man.

Unfortunately, the heartless catcher did not want to expose his identity.

A few days later.

In a misty forest.

The little troublemaker had finally returned after several days of traveling.

He immediately went to the meditation room of layman Qingyuan and stood at the door. He said, "Layman, I have already ordered the Star Alliance Chamber of Commerce to seal the information on the astrolabe according to your instructions."

Creak --

The door of the meditation room opened. Layman Qingyuan faced a Buddha statue in the room and closed his eyes to meditate.

"Yes." He slowly opened his eyes and did not turn his head back.

The boy continued, "By the way, when I rushed over, he was buying the information and had already paid the dao currency."

Hearing this, layman Qingyuan suddenly stood up and said unhappily, "You went late?"

"No! I went just in time. Not only did I not let Su Yu get the information, but I also let him lose 100 million dao coins for nothing," the little troublemaker said proudly, his face beaming with joy.

100 million dao coins was a huge fortune even for a person of high status like scholar Qingyuan.

Su Yu, who came from a declining civilization, suddenly lost so much wealth. One could imagine how he felt.

"100 million? Hehe, he should be quite angry and exasperated, right?" Scholar Qing Yuan sneered, feeling much better.

He finally vented his anger.

"Yes! As far as I know, he is in so much pain that he wants to die. He is making a big fuss in front of the intelligence agency," the little troublemaker said.

"Haha!" Scholar Qing Yuan couldn't help but laugh while stroking his beard. He could imagine Su Yu's miserable appearance after being deceived so much.

The anger in his heart was completely suppressed, and he said, "You didn't let him discover you, right?"

Although he wasn't afraid of Su Yu, there was no need for him to cause trouble and affect his image as a venerated immortal in front of the believers.

"No!" The boy smiled.

Scholar Qing Yuan was relieved and was in a good mood. He rewarded the boy with a bit of dao currency and waved his hand, "Go down, someone is going to leave the forest again."

However, the boy said, "Layman, before shopkeeper Yu left, he asked me to give him something good."

Layman Qing Yuan couldn't help but laugh. "Yu Xiangdong? You are so thoughtful. Take it up and take a look."

The boy held an exquisite amethyst jade box with both hands and carefully held it in front of him. Layman Qing Yuan didn't doubt it. He opened the Jade Box on the spot and a fiery red bead came into his sight.

The smile on his face froze, and his pupils suddenly constricted. Without thinking, he turned around and fled.

As soon as he stepped out, flames soared into the sky behind him!

The boy was instantly engulfed by the flames, but his eyes calmly passed through the flames and shot toward layman Qingyuan. "There must be a limit to everything. Provoking fire will eventually burn you! I'm warning you this time, it won't happen again!"

Boom --

The round bead completely exploded, turning the boy into ashes.

The terrifying Shockwave swept in all directions with the thatched cottage as the center.

The jade-green grassland and the leisurely immortal crane instantly turned into nothingness!

At the same time, the intense tremors condensed the formation into a dense fog and shattered it, revealing the original appearance of the primitive forest.

As far as the eye could see, this place was in complete ruins. There wasn't even the slightest bit of paradise left?

Somewhere in the forest, a fireball rushed into the ground.

With a violent explosion, a ten-meter-wide crater was left on the spot.

The crater was charred. An old man whose clothes were in tatters. His hair and beard were all curled up from the fire. There were many burns on his body, and there were traces of blood in the red.

He was none other than layman Qingyuan who had escaped!

Crack --

A slight cracking sound came from his palm. He looked down and saw a crystal-colored calf that was emitting cold air. Its entire body was shattering inch by inch.

In the critical moment just now, he had relied on the ten thousand frost ox that Princess Qian Yue had given him to absorb most of the attacks. That was how he had survived.

But because of that, the ice ox was destroyed.

Scholar Qing Yuan's eyes were red, and his teeth were chattering non-stop.

He wasn't in pain, but in hatred!

"Yu Xiangdong!" Scholar Qing Yuan looked around at the razed hideout, and his heart was filled with extreme hatred!

Swish --

He threw down the horsetail whisk in his hand, which was so hot that his hair was curling up, and rushed to the imperial city in a fluster.

In the city, the Star Alliance Chamber of Commerce, the intelligence agency.

The intelligence agency, which had been open for business all year round, was closed today, which was out of the ordinary.

All the personnel in the agency stood in a straight line, not daring to breathe heavily.

Including Yu Xiangdong!

In front of them, stood a middle-aged man in luxurious clothes with his hands behind his back.

He was handsome and elegant. It was obvious that he was a handsome man when he was young.

The most surprising thing was that his eyes were different from ordinary people. They were golden!

If Su Yu was here, he would definitely be able to recognize that the golden-eyed man in front of him was the head of the number one aristocratic family of the seven ultimate civilization, golden-eyed Langjun!

He had actually joined the Star Alliance Chamber of Commerce!

Moreover, his status was not to be underestimated.

Otherwise, he would not have brought such great pressure to the intelligence agency.

He stood in front of everyone, and the invisible aura he released suppressed them so much that they could not raise their heads.

“All the intelligence has gone missing. HMM, is there anything that you want to tell me specifically?” Golden-eyed prince looked at the sky leisurely, and his expression was strangely calm.

Yu Xiangdong’s palms were covered in sweat.

The golden-eyed prince in front of him was a big shot who had recently joined the Star Alliance’s Chamber of Commerce.

It was said that this big shot had offered an unparalleled gift to the president of the Western Region Star Alliance’s Chamber of Commerce. Therefore, he had been promoted to one of the eight vice presidents of the Chamber of Commerce.

Chapter 2282 Bullying

His status was so high that it could only be described as shocking.

A small shopkeeper like Yu Xiangdong could decide his fate in front of him with just a thought.

So, how could Yu Xiangdong not be nervous?

“No... No!” Yu Xiangdong was nervous.

The news of the intelligence warehouse being stolen could not be hidden from the golden-eyed prince in charge of this area. He came to the intelligence agency to personally handle the case.

At this moment, how could Yu Xiangdong dare to reveal the real reason?

Could it be that he was the one who extorted 100 million dao dollars from Su Yu first and Su Yu took revenge later?

If that was the case, in order to maintain the reputation of the Star Alliance's Chamber of Commerce, the golden-eyed Langjun would definitely kill him as a warning to the others.

The rest of the people in the intelligence agency were either Yu Xiangdong's confidants or had also obtained a lot of benefits from it. How could they dare to reveal this matter?

"Oh? No?" Golden-eyed Langjun's eyes were deep. "Those who steal intelligence will only steal information that is useful to them. All the information has been stolen. No matter how you look at it, it looks like deliberate revenge."

He hit the nail on the head and pointed out the key points, scaring Yu Xiangdong so much that his heart missed a beat.

He had long heard that this new vice-president was an extremely difficult character to deal with, but he did not expect it to be true.

Yu Xiangdong quickly thought of an excuse to muddle through this matter, but unexpectedly, an intelligence officer at the end suddenly let out a miserable cry.

Everyone immediately looked over and were shocked to discover that it was actually golden-eyed Langjun who had crushed his head!

Golden-eyed Langjun had killed without warning!

There was not even the slightest trace of anger on his face, only the calmness just now.

Everyone took in a deep breath. Golden-eyed prince slowly wiped off the remaining blood on his hands and said calmly, "I don't like people lying to me! From now on, every ten breaths, I will kill one person until I get the answer I Want!"

He did not say who he would kill next. The uncertainty was even more terrifying.

The group of intelligence personnel looked at each other. Their eyes changed drastically as they weighed the pros and cons.

Ten breaths had passed, but no one was willing to tell the truth.

They were all waiting to see if the golden-eyed Langjun would really continue to kill.

The person who had killed just now was probably intentionally trying to scare them.

Pu --

Suddenly, one of them suddenly spat out large mouthfuls of blood. Then, his eyes dimmed, and he fell to the ground.

His body emitted sizzling sounds and waves of green smoke.

Under everyone's eyes, he quickly turned into a pool of blood!

The golden-eyed Langjun raised his finger and blew gently. A faint grayish-black smoke dispersed with the wind.

He didn't say anything else.

But everyone knew that he was counting the time!

No one had any hope!

"Reporting to the vice president, I think it might be someone who calls himself Su Yu," a person with a weaker heart immediately replied.

Golden-eyed Langjun closed his eyes. Ten breaths later, the person who spoke suddenly exploded and died on the spot!

The other people's pupils constricted and they immediately panicked.

He had already said it, so why did he still kill people?

"I'm not satisfied with this answer!" golden-eyed Langjun said indifferently. Then, he closed his eyes again and continued counting.

Three people had died in a row. The remaining people fell into a great panic and began to fight to answer, "Vice president! That person's name is Su Yu, and he's from the Seven Ultimate Civilization!"

"Right! The reason he took revenge on us should be... it was manager Yu who swallowed 100 million dao coins!"

"That's right, vice president, everything has nothing to do with us!"

Finally, Golden Pupil Prince opened his eyes and fixed his gaze on one of them, saying, "You're saying that the other party comes from the seven ultimate civilization?"

"That's right!" That person immediately said, "I heard that it was recommended by the sixth ultimate family's extermination family head."

"Vanquisher?" Golden Pupil Langjun rubbed his chin and fell into deep thought.

In an instant, he thought a lot.

His biggest guess was that the other party's seven ultimate civilization was trying to track him down.

After all, he wanted to subvert the entire seven ultimate civilization!

However, after thinking carefully, he denied it. He didn't have any prior plans when he came to the glazed era civilization. How could the other party find the glazed era civilization so quickly and accurately?

"He spent 100 million dao coins to buy the information about the banquet invitation?" Golden Pupil Langjun asked.

There were only two pieces of 100 million dao coins worth of information in the Treasury, only the banquet invitation and the astrolabe.

The possibility of the former was higher.

"Reporting to the vice president, it was to buy the astrolabe information."

Golden Pupil Langjun was immediately surprised. “Astrolabe?”

After pondering for a long time, golden pupil Langjun nodded slightly. “Yes, I understand.”

After saying that, he rose into the air and was ready to leave.

The people of the intelligence agency heaved a long sigh of relief. They had finally passed the test and had not received any punishment.

However, the golden-eyed prince suddenly stopped and looked down from above. He said faintly, “As for the mistakes you have made... You can die to atone for your sins!”

Only by executing all of them could the reputation of the Star Alliance Chamber of Commerce be preserved.

Huala --

The sound split into hundreds of steel needles, stabbing toward them.

The strangest thing was that none of the seemingly ordinary and easily evaded steel needles had successfully evaded them.

No matter how they dodged left and right, or even teleported out of the guest hall, they were still not spared.

It was as if all their paths had been predicted by the steel needles in advance.

Except for Yu Xiangdong who was injured and escaped, everyone else had died tragically!

Yu Xiangdong was a powerful family head after all, and in terms of cultivation, he was not much weaker than Golden Pupil Langjun.

Moreover, he had been in charge of intelligence for many years, so how could he not have a few life-saving treasures?

He crushed a black gourd, and from it flew out a dense number of strange flies.

The flies surrounded him and turned into a black stream of light, rushing into the distance.

The golden-eyed Langjun did not chase after him. He had more important things to do!

After fleeing for several hours, he finally left the imperial city.

Standing in the suburbs, Yu Xiangdong was at a loss.

He did not need to think about going back to the Star Alliance Chamber of Commerce. The world was vast, where should he go?

Suddenly, looking at the primitive forest in front of him, Yu Xiangdong’s heart moved. Why not temporarily seek refuge with recluse Qingyuan?

With recluse Qingyuan’s status, even the Star Alliance Chamber of Commerce would have to be wary of him if they wanted to kill him, right?

“Fortunately, I have always tried to be friendly with recluse Qingyuan. Now, I finally have a chance to use him.” Yu Xiangdong thought so and immediately set off for recluse Qingyuan’s hideout.

Unexpectedly, as soon as he stepped into the forest, he sensed recluse Qingyuan’s aura and quickly approached.

“Scholar Qing Yuan has come out of closed-door cultivation?” Yu Xiangdong was surprised, and then he was delighted. “It’s like a pillow is given to me when I’m Sleepy.”

He immediately flew into the sky and blocked Yu Xiangdong’s path. From a distance, he cupped his fists and said, “Venerable Qing Yuan, how have you been?”

Normally, when these words fell into the ears of scholar Qing Yuan, it would be a normal greeting.

However, at this moment, layman Qingyuan thought that Yu Xiangdong had controlled his boy and was trying to harm him.

Now that he was asked if he was alright, it sounded harsh!

This was clearly a provocation!

This was really going too far!

Chapter 2283 Why Did He Die

At first, Layman Qing Yuan felt that something was amiss and wanted to calm down and ask.

But now, it seemed that he didn’t need to ask anything.

“Thanks to you! I don’t even have a place to live in seclusion!” Layman Qing Yuan’s face suddenly darkened, like the sky that had been splashed with ink.

Shopkeeper Yu was stunned on the spot and asked, “Layman, what do you mean?”

He didn’t understand what scholar Qing Yuan meant at all.

“Humph!” Scholar Qing Yuan snorted heavily, and a scene of a fairyland surrounded by immortal clouds suddenly appeared, enveloping the surroundings.

Manager Yu, who was in the scene, soon noticed that his body was disintegrating and turning into a part of the Fairyland.

This was scholar Qing Yuan’s domain!

Those who were in it would be melted from the inside out by the domain. It was an extremely vicious domain.

Shopkeeper Yu was startled. Seeing that scholar Qing Yuan was serious, he immediately used his domain to resist and shouted, “You’re Crazy!”

He simply didn't understand if scholar Qing Yuan's brain had been clamped by a door. How could he attack him?

He even inexplicably said that he was the one who had destroyed his hideout.

"Yes, I'm Crazy! I'm driven crazy!" Scholar Qing Yuan was furious. His domain wasn't limited to that. He even took out a white fan with only three feathers.

That was his dao artifact!

With a wave of the white fan, an exceptionally cold wind blew past shopkeeper Yu's body.

His soul suddenly felt a chill, and a portion of it was actually blown away!

That was scholar Qing Yuan's world-famous dao artifact, the soulless fan!

Once activated, it could invisibly injure one's soul. It was extremely terrifying.

Yu Xiangdong's hair stood on end. He felt that his life was in danger, so how could he dare to hold back?

"Open!" Yu Xiangdong shouted angrily as he opened up his domain. The towering shadows of a hundred thousand mountains continued to descend, continuously squeezing scholar Qingyuan's Fairyland Domain.

With a final pop, the Fairyland Domain was pushed back.

At the same time, Yu Xiangdong fished out a pitch-black stone snake.

This snake was his dao artifact, and its name was life stripping.

After activating it, it could quickly burrow into the enemy's body and swallow them layer by layer from the inside out. It was as if it was stripping away the enemy's life. It was abnormally vicious.

Hiss --

The venomous snake slithered over and directly burrowed into scholar Qingyuan's body, ignoring the defensive magical equipment all over his body.

Ah --

In an instant, scholar Qingyuan let out a miserable cry.

It was obvious that he had already started to devour scholar Qingyuan's flesh and blood.

This move not only did not make scholar Qingyuan cower, but it also infuriated him even more.

Shopkeeper Yu had controlled his child for no reason and had almost killed him. Now, he was even going to kill him!

Gritting his teeth, scholar Qingyuan shouted angrily, "You Die!"

As he activated his dao tool, he took out a steel needle with his other hand.

The steel needle was snow-white in color and gave off a chilling aura.

All of it was refined by the monarch into the nine-five heavens cold needle. There was a total of ninety-nine needles.

Once it was released, it would never turn back unless it took the enemy's life!

And the number one cold poison in the world contained within this needle. Once it stabbed someone, not to mention an expert of the family head level, even an existence of a higher level would be instantly poisoned to death by the cold poison and turned into ice shards.

Yu Xiangdong had never expected that one of the most important national magical equipment of the royal family would be given to layman Qingyuan.

Princess Qianyue must have secretly given it to him!

Yu Xiangdong felt a chill run down his spine. He quickly said, "Layman, calm down. I really don't know what I've done wrong!"

He quickly took his life out of his body to show that he wanted to negotiate peacefully.

Layman Qing Yuan raised his eyebrows slightly. "Oh? It has nothing to do with you?"

He also put away his Taoist artifact.

Seeing that layman Qing Yuan had finally calmed down and was ready to talk properly, Yu Xiangdong heaved a sigh of relief and smiled bitterly in his heart. Why did he have to do that?

He had been talking nicely since the beginning. Why did he have to do that?

However, in the next moment, a cunning and ferocious look appeared on layman Qing Yuan's seemingly gentle face. "Who would believe it?"

He didn't believe that it was such a coincidence!

He was ambushed by the boy earlier and almost lost his life. Then, he rushed toward the place where he was hiding.

No matter how he looked at it, Yu Xiangdong was the one who went over to confirm whether he was dead or not, right?

Yu Xiangdong was on guard and retreated in other directions without thinking. He cursed angrily, "Old lunatic!"

How Dare You Scold Me? Scholar Qing Yuan's killing intent Rose. The nine-five heavens cold needle in his hand turned into a faint cold light and flew out in an instant.

After a few blinks of the eye, he heard a cracking sound coming from the end of the world.

Layman Qingyuan rushed over to take a look. An ice sculpture was falling from the sky onto the ground and then turned into ice shards.

Under the effect of the nine-five heavens cold needle, the flesh and blood in his body were all poisoned into ice..

Whoosh --

The nine-five heavens cold needle returned to layman Qingyuan's palm with a spin.

He snorted in disdain before turning around and leaving with a clear mind.

At that time.

Heavenly Royal Ridge.

It was located at the border between the nightless imperial kingdom and the neighboring power, the Palace of light.

The Palace of Light and the nightless Imperial Kingdom were both forces of the glaze civilization, and they were close to each other.

In terms of overall strength, the Palace of light was far stronger than the nightless Imperial Kingdom.

In every generation, the palace of light would produce an extremely powerful and peerless genius of the current Gaia era.

In the past, in the sparring sessions of the same generation, the members of the nightless imperial kingdom would often be crushed.

Although the younger generation of the nightless imperial kingdom would often use this as a humiliation and work hard to change such an unchanging disadvantage.

However, for tens of millions of years, the martial arts exchange that happened once every few years ended in the nightless Imperial Kingdom's crushing defeat.

The Heavenly Imperial Ridge was the dividing line between the two factions.

Standing on the ridge, Su Yu gazed at the Palace of light.

Everywhere he looked was dotted with ice crystals. Under the refraction of sunlight, they emitted an exceptionally dazzling light.

This was how the Palace of light came to be.

However, what he was more concerned about was a Taoist temple on the heavenly imperial ridge.

The Taoist temple was dilapidated and small. There were only five or six small halls inside.

In addition, the Heavenly Imperial Ridge was extremely high. Along the way, there were incomparably cold squalls. Without the cultivation of a heaven and earth emperor, one might not be able to easily climb the mountain.

Therefore, there were no visitors in the Taoist temple.

Looking at the Lonely Taoist temple, Su Yu did not quite believe that there would be an invitation from the nightless Imperial Kingdom here?

If he had not come here strictly according to the information route, Su Yu would have found it hard to believe.

However, the information from the Star Alliance Chamber of Commerce had never been false.

With his hands behind his back, he stepped into the Taoist temple.

Inside the Taoist temple, an old man wearing a simple Taoist robe was bending his waist, cleaning the snow in front of the hall.

His movements were slow and staggering, as if he was about to die.

Hearing the footsteps, the old priest turned around, revealing a face that had been burned by a great fire. The remnants of the face were all over the place, making it very frightening.

“An honored guest has arrived.” The old priest put down his broom and gave a Taoist salute.

Su Yu returned the salute and said, “I would like to attend the banquet of the nightless Imperial Kingdom. Please give me some guidance, Old Priest.”

The report said that there was a way to obtain this place.

Presumably, it was to exchange it with dao coins or other magical treasures or pills?

The old priest’s eyes were calm and silent. He said, “Young Master, please come with me.”

He led Su Yu to the backyard of the Taoist temple.

The backyard was barren, and the grass was in the sky. It seemed that no one was taking care of it.

In the wild grass, an unremarkable old tomb came into view.

“Table natural tomb”

The tombstone only recorded the names of the deceased. Other than that, there was no other information.

Who was the person who set up the Tombstone? When was the tombstone set up? There was no information on who the deceased was.

To Su Yu’s surprise, there was a young man sitting cross-legged on both sides of the old tomb.

They were sitting on the bone-chilling ice and deep in thought. Their bodies were also covered by the cold snow.

“I do have an invitation to the banquet, and I’m willing to give it to others. The premise is that I can answer one question.” The old Taoist stared at the tombstone with a complicated expression.

Su Yu nodded. “Please Ask.”

The old Taoist folded his hands in his sleeves and looked far away, as if he had arrived in the distant past.

“Why do people die?”

Birth, aging, illness, and death were all part of the cycle of Heaven and earth.

Who Wouldn’t die?

Who Wouldn’t die?

Even the stone fetus of the sacred mountain couldn’t escape the end of death.

If there was life, there would be death!

If there was existence, there would be death!

No one was an exception!

Su Yu wanted to answer this question, but when the words reached his mouth, he slowly shut them.

His eyes were filled with confusion.

Blaming the cycle of heaven was only on the surface of the problem and didn't go deep into the essence of the problem.

Why did humans die?

"Please allow me to think about it for three days," Su Yu said.

The old priest nodded. "Please do."

Hence, Su Yu sat in front of the grave with the other two and pondered over the mystery.

Su Yu caught a group of bugs and placed them in a larger container, providing them with enough food.

Not only that, he continued to instil vitality into them, ensuring that no bugs would die due to their own exhaustion.

Then, they activated time acceleration!

Under the 500 times time acceleration state, the bugs multiplied rapidly, generation after generation, with no deaths in between.

Theoretically speaking, the bugs should have reached an unprecedented scale, at least far beyond the capacity of the container.

However, they did not!

Because there was limited space to move around, in order to survive, the strong bugs would kill the weak bugs, and so on.

Under the state of time acceleration, the number of bugs remained at a constant number for three years.

Looking at this scene, Su Yu had an epiphany.

Huala --

At this moment, the two men who were meditating on both sides of the old tomb woke up from their meditative state.

Both of them stared at Su Yu, who was standing opposite them. They did not expect that there would be a third person besides them.

From the looks of it, he was probably thinking about the same question as them.

"For this person to be able to come here, he must be here for the Eternal Nightless Empire's invitation." The man on the right had gentle facial features, and his voice was also very gentle, he said with some surprise, "The strange

thing is that since he can afford to pay 100 million dao dollars for information, his status should not be low. It should not be difficult for him to obtain an invitation.”

The other man was a little arrogant and said indifferently, “Wealth is not equal to status. It is not new for some lucky people to get a large amount of wealth by accident.”

As he said that, he shifted his gaze and walked to the front hall to look for the old priest.

Chapter 2284 Picking Up The Wisdom Of Others

The gentle man did not say anything and followed closely behind.

After Su Yu had matured in his thoughts, he stood up slowly, shook off the snow on his body, and walked to the front of the hall with his hands behind his back.

The old Daoist was sitting cross-legged in the courtyard, looking as if he was comprehending.

“We already have our own answers. Do you want to hear them?”The arrogant man interrupted the old Daoist, ignoring the fact that he was comprehending.

The old priest opened his weathered eyes. There was no anger in his eyes, instead, there was a ray of hope. “The two of you are the ten great emissaries of light from the Palace of light. Your comprehension is extraordinary. I’m looking forward to your answers!”

Su Yu’s eyes lit up when he heard that.

People from the Palace of Light?

“You answer first.”The old priest looked at the arrogant man who spoke.

The arrogant man looked at the sky and said, “I thought that death is the end of life. There is life and there is death. Everything is under the control of the Invisible Great Dao.”

The old priest heard the answer that he thought was ingenious, but his eyes dimmed a little.

The arrogant man stared at the old priest, hoping to get the expression he wanted.

However, he only shook his head slightly and said, “Picking up the wisdom of others, extremely shallow!”

The arrogant man thought that his answer was not bad, but he only received the evaluation of ‘shallow’. His face alternated between green and red, and he was a little embarrassed.

The old Daoist ignored him and looked at the other man. “What About You?”

The Man with gentle facial features pondered for a while, he said, “I thought that life and death is a kind of reincarnation! Death lays the foundation for a new life, and the new life welcomes the final chapter of death. The cycle goes back and forth, without beginning and without end, and constructs the entire cycle of life and Death!”

Su Yu looked at this person in surprise. He had thought about it quite deeply.

The old priest could not help but nod. “Although I’m not satisfied, I have my own unique views.”

A light blue invitation card appeared in his palm and he threw it to this person.

The gentle man caught it, cupped his fists, and bowed. “Thank you, Priest.”

Finally, the old priest looked at Su Yu and sized him up. He asked, "Do you have a new view?"

"Sort of," Su Yu said.

The old priest no longer had any hope and his eyes returned to calmness.

The emissaries of light from the Palace of light gave unsatisfactory answers, let alone a nameless young man?

"Tell me, why do people die?"

Su Yu said indifferently, "Because we are killing ourselves."

Eh?

Not only the old priest, but even the two emissaries of light were stunned.

These words were a little shocking!

A ripple appeared in the old priest's calm eyes as he asked in surprise, "Why do you say that?"

The two men also looked curious. These words were indeed very fresh and almost unheard of.

Su Yu said with a sigh, "Heaven and earth are not infinite. There is limited space and limited resources. There are only so many living beings that can be supported! Only when a portion of them die will there be a new living space."

"That's why there's the law of the jungle in this world. Weak creatures are killed by strong creatures. Only then can we maintain the balance between heaven and Earth."

This was what Su Yu had said. His weakness had killed him!

Listening to him, the gentle man pondered, savoring Su Yu's words.

At first, he thought that Su Yu's words were too extreme. However, after he thought about it, it was applicable to all creatures at any level.

From an ant in an ant's nest to a creature in a civilization to the entire absolute beginning realm, wasn't it the same?

With limited resources, it was destined that the strong would prey on the weak. It was natural selection!

The old Daoist pondered for a long time. His calm eyes were complicated as he mumbled, "Do people die because of their weakness?"

After a long silence, the old Daoist stood up and took out a blue invitation card. He handed it to Su Yu and praised, "Your answer is the most satisfying one I've ever heard! Here's The Invitation Card!"

Su Yu was delighted and took it with both hands.

"The three of you, please go back."

Other than the arrogant man, Su Yu and the gentle man were both satisfied.

Su Yu took the lead and headed towards the imperial city.

He opened the invitation card while hurrying on his way. When he saw it, he couldn't help but be stunned.

"How could this be?" He immediately took out another golden invitation card.

Comparing the two invitation cards, other than the color difference, both the cover and the contents were the same!

"I already have the invitation card?" Su Yu didn't know whether to laugh or cry.

He had been busy for a long time, but in the end, all his efforts were in vain!

"Strange, who was that blue-robed person that day?" Su Yu felt around for the Golden Invitation Card, feeling suspicious in his heart.

That day, he had met an unruly woman. Later on, that girl's father caught up and gave Su Yu this golden invitation card.

He had never thought that this invitation card was an invitation card for the banquet of the Eternal Imperial Kingdom!

Its value was immeasurable!

Just the information alone could be sold for 100 million dao dollars, let alone a real invitation card?

The identity of that blue-robed man should be no trifling matter!

"I might see him again at the banquet." Su Yu thought to himself.

Since he had just arrived at the glazed tile civilization, Su Yu had already seen several powerful experts at the level of family heads. His heart felt a wave of urgency.

He needed to increase his strength once again to take himself to the next level.

Currently, his body had already reached the dao transformation stage. Moreover, he had cultivated the evil Dragon Bible to a bottleneck. His domain also needed to confirm the whereabouts of the divine seats of Heaven and earth.

Only the Dao transformation of the soul had room for improvement.

After a long period of refinement by the absolute beginning qi, his soul had already reached more than 90% of the Dao transformation stage.

With another ten years of refining, it should be able to successfully achieve dao transformation.

However, before coming to the glazed tile civilization, Su Yu had learned that there was a strange creature called the Divine Deer of light in the palace of light.

It could see through people's hearts and distinguish between good and evil.

In the entire Palace of light, it was the only one.

Rumor had it that it was because its soul was exceptionally powerful that it could pierce through other people's souls.

Thanks to its soul, the pair of deer antlers on its head only needed a small section to be ground into powder and swallowed, allowing the soul to quickly transform into dao within a short period of time.

If he could obtain a section, Su Yu might be able to save ten years of time and complete the soul transformation!

Unfortunately, that divine deer of light was a treasure blessed by the Light Palace. Normally, it was guarded by several family head level experts. It was extremely difficult to even get close to it, let alone take its deer antlers?

Shaking his head, Su Yu didn't think anymore.

"Sir, Please Wait!" Just as he was hurrying on his way, the two men from before actually followed him.

The man with an arrogant expression took out a golden card and said, "There are still 300 million dao coins in here to buy your invitation card!"

As he spoke, he flicked his finger and shot the golden card over.

Su Yu frowned slightly. It wasn't that he couldn't sell it, but this person's tone wasn't buying anything at all? It was as if he thought highly of him and wanted to reward him!

300 million dao coins was indeed a lot, but Su Yu wasn't lacking in such things.

"I'm not selling it!" Su Yu didn't even glance at the golden card and turned around to continue on his journey!

The arrogant man blocked in front of Su Yu with a flash. He crossed his arms in front of his chest and said indifferently, "Perhaps, I need to reintroduce myself. My Name Is Wang Jiuyang, and I'm ranked fifth among the ten great emissaries of light!"

The words 'emissary of Light' were nothing but a nightmare to the peers of the Eternal Nightless Empire.

In the previous confrontation between the peers of the two major forces, the emissary of light ranked eighth had defeated all the heaven's favorites of the Eternal Nightless Empire.

Even the emissary of light ranked tenth could sweep away all the peers of the Eternal Nightless Empire who were not in the top three.

Wang Jiuyang was ranked fifth. In terms of strength, he was definitely ranked first in the Eternal Nightless Empire!

However, as long as his strength did not reach Xia Yi'an's level, it was nothing to Su Yu.

"OH." Su Yu said indifferently, "And then?"

And then?

Wang Jiuyang's gaze turned sharp as he bared his teeth. "Has it been too long since the wind and Cloud Tea Party was held? Have the younger generation of the eternal nightless empire forgotten how they were oppressed by us in the past?"

The geniuses of the Eternal Nightless Empire should be in awe when they saw the emissary of light. Unfortunately, Su Yu wasn't a member of the Eternal Nightless Empire.

"What does it have to do with me?" Su Yu bypassed him and continued on his journey.

Unexpectedly, just as he bypassed him, Wang Jiuyang brazenly attacked. He coldly snorted, "It's still safer to speak with your fists when dealing with people like you who don't know what's Going On!"

Feeling the strong wind from behind him, Su Yu's gaze slightly sank. How overbearing!

This wasn't even the palace of light, yet he dared to forcefully buy and sell?

"Scram!" Su Yu pulled out his sword with a backhand and stabbed it towards his back.

Ding --

The sounds of all the clashes rang out in Su Yu's ears.

A powerful force was transmitted along the sword into Su Yu's palm, causing his palm to go numb.

What a powerful force!

Su Yu felt a chill in his heart. The fact that the palace of light had been able to suppress the eternal nightless empire for so many years was definitely not as simple as a coincidence.

However, in terms of strength, there should be no one in the same generation who was a match for Su Yu.

He suddenly exerted force on the sword hilt, and the powerful force gradually rebounded along with it.

Bang Bang Bang --

The sound of staggering retreat immediately came from behind him!

Turning his head, he saw the insufferably arrogant Wang Jiuyang looking at him in astonishment.

His eyes were filled with disbelief.

The gentle man who was watching from afar covered his mouth and widened his eyes.

Wang Jiuyang's physique could be said to be one of the best among his peers, comparable to an expert at the level of the family head.

Even the king of light emissaries, who was ranked first, could barely match him in terms of physique.

Judging from the cultivation level of the silver-haired human in front of him, he should not be at the Dao Master Realm, right?

But why was his physique stronger than Wang Jiuyang's?

Actually, he did not know that this was just the tip of the iceberg of Su Yu's physique.

Wang Jiuyang was most proud of his physique. How could he admit that he was inferior to Su Yu?

“Again!” Wang Jiuyang was unwilling to accept this and rushed over again.

Su Yu raised his eyebrows and said indifferently, “This is the territory of the nightless Imperial Kingdom. Are you sure you want to fight with me here?”

The gentle man raised his slender eyebrows slightly.

When he became serious, Wang Jiuyang’s actions could be considered to be provoking a dispute.

In the territory of the nightless Imperial Kingdom, to attack a peer of the nightless imperial kingdom, strictly speaking, would indeed cause a dispute between the two sides.

“Wang Jiuyang, stop.”

Wang Jiuyang was currently in a rage, so how could he be willing to stop?

However, he still understood where he was, so he said, “Then let’s switch to the Palace of light. That way, there won’t be any problems!”

Switch?

The gentle man immediately realized what he was going to do, and he hurriedly said, “Stop, don’t use that thing carelessly...”

Chapter 2285 Unselfishness

However, Wang Jiuyang had already reached his hand into his waist and crushed a purple-black gourd hanging on his belt.

The gourd shattered, and a large amount of sandstorm gushed out from it!

Under the blowing of the Sandstorm, the space where Su Yu, the gentle man, and Wang Jiuyang were standing was blown away! !

As a result, a large area of empty space was created, and the endless power of the empty space rushed in and engulfed the vast snowfield!

Under the sweeping of the wind and sand, the space and the people were blown out of the Eternal Night Imperial Kingdom and into the territory of the Palace of light.

This place was not far from the border, and there were many military camps nearby.

Tens of thousands of soldiers of the palace of light were training in the military camps.

Hua --

A strong wind blew, and the figures of the three people fell out.

Wang Jiuyang’s face showed a trace of malevolence. “Congratulations, you have come to the territory of Light Palace!”

Now he had no scruples about attacking Su Yu!

Even if he killed Su Yu on the spot, it was because Su Yu had trespassed the territory of Light Palace!

Su Yu shook the dust off his body, and his tone was surprisingly calm. He said indifferently, "It's unnecessary!"

No matter which faction was in, the outcome would not change.

"Is that so?" Wang Jiuyang chuckled. Then, his eyes suddenly became sharp, and he pounced on him like a tiger or a wolf.

His body was released to its fullest, reaching its limit.

As he pounced, his powerful body shook the space!

Looking from afar, layers of shadows appeared around Wang Jiuyang, which was very shocking.

Su Yu did not say a word and took a step forward.

Seeing how arrogant Su Yu was, Wang Jiuyang sneered in his heart.

He could become the emissary of light. How could it be as simple as having a strong physique?

The moment he was about to approach Su Yu, Wang Jiuyang's fair skin quickly turned pitch black. A large amount of purple fog surrounded his body.

The eternal ice field under his feet immediately rotted when his feet touched it!

However, to Su Yu, this was just a small trick.

He only needed one finger to kill him on the spot!

As he watched the other party rapidly approach and Su Yu was about to make a move, the gentle man stood between the two of them with a cold expression. He glared at Wang Jiuyang, "Impudent!"

He was already dissatisfied with Wang Jiuyang's decision to make a move on his own. After that, he used the sand on his own accord, completely infuriating him.

However, the gentle man opened his mouth and shouted, "Trap!"

A word that could be seen with the naked eye appeared in his mouth, and then grew bigger and bigger. Finally, with a clang, Wang Jiuyang was trapped inside.

Wang Jiuyang was quick-witted. He immediately withdrew the lethal poison from his body, and at the same time, he calmed down. He said with slight fear, "Xuanyin, don't Stop Me!"

"Enough!" The gentle man named Xuanyin glared at Wang Jiuyang. "Don't forget the purpose of our visit to the nightless Imperial Kingdom! If you continue to act like this, Don't blame me for being merciless!"

"Isn't everything I've done for the sake of the invitation?" Wang Jiuyang said indignantly!

Xuan Yin said coldly, "You know very well whether this is the case or not."

Rather than saying that he was here for the invitation, it would be more accurate to say that he was here to fight for his reputation.

“Wang Jiuyang, I’ll carry out this mission alone. You return to the Divine Palace of light! Go back now and report the mission. Don’t make any mistakes!” Xuan Yin was ranked fourth among the emissaries of light, and her status was higher than Wang Jiuyang’s.

What?

Wang Jiuyang gritted his teeth. He had worked hard to obtain this mission. Was he going to be disqualified just like that?

However, the level of the emissaries of light was very strict. The first one was quite restrictive to the last one. He had no choice but to obey.

“Yes!” Wang Jiuyang lowered his head. A trace of hatred flashed in his eyes.

He did not understand why Xuan Yin would help an outsider so much that she even wanted to disqualify him from carrying out the mission!

Xuan Yin looked at Wang Jiuyang coldly before turning to look at Su Yu. Her expression softened slightly as she said, “Young master, I apologize for the trouble my companion caused you. I hope you don’t mind.”

Su Yu looked at Xuan Yin meaningfully.

This person was very cautious!

When he realized that Su Yu was threatening him, he stopped both parties from fighting.

It seemed like he was protecting Su Yu, but in reality, he was protecting Wang Jiuyang.

“Keep an eye on your men.” Su Yu looked at the word “Trapped” that was binding Wang Jiuyang, and he was slightly apprehensive. To be able to become the emissary of light of the Palace of Light, he was definitely not an ordinary person!

If they were to really fight, Su Yu should be able to defeat him, but it would require a lot of effort.

As he spoke, Su Yu leaped away.

Xuan Yin, on the other hand, had a warning look in her eyes as she stared deeply at Wang Jiuyang. “While I’m in the Eternal Nightless Imperial Kingdom, behave yourself!”

With a tap of her toes, Xuan Yin rushed towards the eternal nightless empire without stopping.

After a long while, the word “Trapped” lost its power and collapsed bit by bit.

Wang Jiuyang had finally escaped!

He turned his head to look in the direction Su Yu had left, his eyes flickering with uncertainty. “I’m Sorry Xuan Yin, I can’t allow the waste of the eternal nightless empire to be on top of Our Palace of light!”

Half a day later.

In the military camp of the border army.

Wang Jiuyang stood respectfully in front of the military commander and said, "Uncle, I implore you to arrest a person."

The Wang family had great power in the Palace of Light, and they had many talents.

The most famous one was the southwest border commander of the Palace of Light, Wang Shigong, who was known as the god of War!

Wang Shigong was in high spirits, and he was correcting military documents in the military camp.

Upon hearing Wang Jiuyang's request, he said in a dignified manner, "In the military camp, there is no distinction between close and distant!"

Wang Jiuyang shuddered. He was as timid as a mouse in front of this person and hurriedly changed his words, "I will follow your instructions, Commander Wang!"

Wang Shigong said indifferently, "Who is wanted?"

"An... unknown citizen of the nightless Imperial Kingdom." Wang Jiuyang's eyes were filled with faint hatred.

"What's the reason?" Wang Shigong's gaze was sharp.

"He..." Wang Jiuyang was about to speak when Wang Shigong interrupted him and said, "If he is a duke, I will naturally put him on the wanted list. If it's for personal gain, there's no need to speak."

Wang Jiuyang's heart trembled, and he was very displeased.

Wang Shigong's position was high and powerful, and he was the shade of the Wang clan.

However, there was one thing that was bad about him, and that was that he was too upright and unyielding.

He had extremely strict requirements when dealing with the Wang family members.

He would be sincere when others made mistakes, but when the Wang family members made mistakes, he would only punish them even more severely.

Wang Jiuyang was proud and arrogant. He was not afraid of anyone except for Duke Wang.

However, since he was already in front of Duke Wang, he naturally would not retreat. He gritted his teeth, "Reporting to Commander Wang, I discovered that this person had barged into the territory of the Palace of light, so I went forward to ask him why he was here. Who knew that the other party would attack and injure me?"

As he spoke, he rolled up his sleeves, revealing the bruises on his arms. They were caused by the force of Su Yu's counterattack when he was attacking Su Yu.

It was obvious that he was the one who attacked Su Yu first and dragged Su Yu into the palace of light.

But in his words, it was Su Yu who barged into the palace of light and injured him.

Shi Gong Wang's eyes were indifferent. With such injuries, it was not enough to arrest a person.

Wang Jiuyang continued, "Furthermore, he broke the heaven and Earth Calabash personally bestowed by the Palace Lord!"

As he spoke, he took out the crushed remains of the calabash.

When he saw this item, Duke Wang's gaze finally changed.

The Heaven and earth calabash was personally refined by the palace lord of the Radiant Palace, and it was only given to meritorious officials.

The Wang clan was fortunate enough to obtain three of them, and one of them was given to Wang Jiuyang to protect himself as he headed to the eternal nightless imperial kingdom to carry out a mission.

Who would have thought that one of them would be destroyed just like that.

This item was personally given to him by the palace lord, so destroying it was not a big crime, but it was enough for him to be wanted.

Wang Shigong looked deeply into Wang Jiuyang's eyes. "Can you guarantee that everything you say is true?"

"Yes," Wang Jiuyang said affirmatively.

In any case, there was no evidence that he was lying.

Wang Shigong nodded, and with a wave of his pen, a wanted notice appeared.

It burned on the spot, turning into a large spark.

At the same time, a ball of flame appeared within the various small military camps on display at the borders of the Palace of light.

Within the flames, the contents of Wang Shigong's wanted notice appeared.

Instantly, the passes that led to the nightless imperial kingdom that one had to pass through all intensified their investigations.

Right at this moment, Su Yu once again returned to the borders of the two countries. As long as he passed through the mountain range that separated the two countries, he would be able to return.

However, since he was in a foreign land and had a feud with someone else, Su Yu would naturally be extra cautious.

He stood in the shadow of a large tree and looked at a city tower at the foot of the mountain range from afar.

That city tower was located between the two mountain ranges. If he wanted to return to the eternal imperial kingdom from now on, he would have to pass through the official road under the city tower.

If he were to cross over the mountain range without permission, he would touch the formation on the border and be killed on the spot.

Unless he obtained Wang Jiuyang's strange gourd again and forced his way through the powerful dust.

And he saw with his own eyes that the city tower was under martial law.

The merchants and martial artists who came and went would be closely compared to their real faces.

They had exquisite magical treasures. No matter how good their disguises were, they could not hide.

And on the wall in front of the tower, there was a bounty list with Su Yu's face painted on it!

He was wanted!

Fortunately, he was on guard. Otherwise, if he rushed over rashly, the consequences would be unimaginable.

Although the experts in the tower could not threaten Su Yu, there were many arrays in the tower. It was relatively easy to trap and kill Su Yu!

All of a sudden, Su Yu caught a glimpse of several figures galloping and stopped in front of the tower.

The rest were dressed like soldiers. Only a young man with an arrogant expression appeared out of place.

This person was naturally Wang Jiuyang.

He used his memory to guess the path that Su Yu might have taken to arrive at this pass.

“General Chen, are there no suspicious people?” Wang Jiuyang's arrival attracted the attention of the general guarding the pass.

General Chen shook his head and said, “No! But we can guarantee that this person will definitely not be able to leave the palace of Light!”

Wang Jiuyang frowned deeply and thought, “That shouldn't be. According to his speed, he should have arrived here half a day ago.”

After thinking for a while, Wang Jiuyang said, “Yes, please keep a close watch on him. Don't let this person go!”

As he said that, he led a few powerful military officers who were protecting him to check out the situation at the other passes.

A few days later.

They passed by a small secluded forest.

The setting sun was setting, and the afterglow of the sunset stretched the shadows of the trees very, very long!

“Hey! There's a person under the tree! It's him, the wanted criminal!” Suddenly, a vigilant bodyguard caught a glimpse of a person in the forest!

What shocked him was that that person was actually the wanted criminal they were looking for!

Wang Jiuyang was also stunned. Why was he here?

The other party was clearly heading towards the border!

However, no matter what, they had finally found Su Yu!

“Hehe, I’ve been searching for him for a long time without any effort at all!” Wang Jiuyang could not help but want to laugh out loud. It was not good for Su Yu to be here, but he just had to bump into him here!

Unexpectedly, under the shade of the tree, Su Yu put down his arms that were crossed in front of his chest and slowly walked out of the long shadow of the tree, revealing a pair of eyes that were as cold as the stars. “I’ve been waiting for you for a while!”

Chapter 2287 Awkward Test

It was rumored that twenty years ago, on the day Xuan Hua broke through to the Dao Master Realm, she coincidentally met the legendary lady of the desolate region -- heartless iron constable.

The two of them exchanged martial arts, and the final result was a draw!

Ten years later, her cultivation was completely stable, and it was unknown how much her strength had increased.

If he fought with the heartless iron catcher again, it would be very difficult to predict the outcome.

Therefore, it was difficult for Su Yu to escape from his palm.

Xuan Hua took out a golden cicada. The cicada’s wings were five-colored. When it flapped, a rainbow of five colors immediately appeared. It was very beautiful.

The golden cicada flapped its wings and flew around the four corpses for a while. Then, with a squeak, it flew toward the sacred city of light.

Xuan Hua could not help but laugh. “Should I say that you are too confident or are you too bold? After killing the emissary of light, instead of running away, you are still heading toward the sacred city of light. Interesting!”

As soon as he finished speaking, he took out a brush and drew a pair of enormous wings on his back.

It was clearly a fake painting drawn by the brush. However, in the blink of an eye, the painting turned into a real object.

A pair of huge wings landed on its back, carrying the Xuan painting as it sped into the distance at an incredible speed, quickly catching up with the golden cicada.

A few days later, in the sacred city.

Su Yu wandered around and found that the market in the Palace of light was quite special.

There were many shops that Su Yu had never seen before.

For example, there were shops that sold man-made divine beasts!

The so-called man-made divine beasts were ordinary divine beast eggs that were injected with all kinds of special drugs to finally breed powerful and extraordinary mutated divine beasts.

Other than that, there were also man-made dao bones and even man-made domains!

These were things that had never been seen before!

“There are all kinds of wonders in the world!” Su Yu was amazed. Even domains could be man-made!

He was quite interested in man-made domains. He went to a shop on the spot to ask about the specific situation, but the result was somewhat disappointing.

The premise of man-made domains was that with the help of someone who was proficient in this domain, he could forge a liquid magic treasure that was weaker than a real domain. After it was injected into a person’s body, the latter would have a similar domain ability.

This method would not be of any help to Su Yu in breaking through the domain.

Unless he could find someone who was proficient in the eight domains!

The same was true for the other man-made items. There were more or less flaws that were not beneficial to Su Yu.

However, one of the shops attracted Su Yu’s attention!

Man-made alien blood!

As the name implied, it was man-made alien blood!

Su Yu’s heart pounded. Compared to Su Yu, the dragon race undoubtedly belonged to the alien race!

He came to this shop, and there were ten secret rooms in the shop. Nine of the stone doors were tightly closed, indicating that someone was using them.

Only one room was left unused.

Driven by curiosity, Su Yu was about to enter when a white shadow flashed in front of him.

A middle-aged man in a white robe with his hands behind his back teleported in front of him without a ripple, blocking his way.

His facial features were clear and bright, and his eyes were clear and powerful. He sized up Su Yu and said, “Young Master, you are an outsider, right? Don’t you know the rules of Ruyuan Store?”

Su Yu was secretly frightened. This man’s cultivation was very strong, at least surpassing the level of an ordinary family head and almost reaching the level of Xia Yi'an.

“Yes, I am from the late Autumn Snowland,” said Su Yu.

The late Autumn Snowland was an ancient Snowland in the territory of the Palace of light. It was sparsely populated, and few people lived there.

“No Wonder.” Although the white-robed middle-aged man’s cultivation was extremely powerful, he did not put on airs. He said, “Of the ten secret rooms in the deep-like store, only nine are used for external use. The last one can only be used by special people.”

There was no reason to leave a door unused when doing business?

“What makes a special person?” Su Yu could not help but ask.

The white-robed middle-aged man said, “It’s very simple. He has cultivated for two hundred years, but his martial arts realm has reached the level of a DAO Master.”

After cultivating to the DAO Master level for two hundred years, he was definitely a heaven’s favorite among the Heaven’s favorites.

Only an extremely prosperous seven star civilization could nurture a small number of such people.

He had left a secret room for these top heaven’s favorites to use. This was a request from the palace of light.

Top Heaven’s favorites enjoyed many privileges within the palace of light.

This secret room was one of them.

It could be seen that the palace of light valued talents.

Su Yu’s cultivation had naturally not reached the realm of Dao Master. However, the blood of the dragon race was very beneficial to him, so he could not miss this opportunity.

“Although I have not reached the realm, is it possible for my strength to reach it?” Su Yu asked.

The white-robed middle-aged man was surprised. Where did this youth’s confidence come from?

The difference between a half-step dao master and a dao master. If the former was an ant, then the latter was a giant elephant. The difference between them was like the abyss of heaven!

And their numbers were much fewer than those who had become Dao Masters after cultivating for two hundred years.

At least, there had never been a half-step dao master in the Palace of light who had reached the Dao master level.

“Oh? You Can?” The white-robed middle-aged man smiled in surprise and reminded, “The so-called strength refers to one’s body, soul, cultivation techniques, divine arts, and so on. It doesn’t include powerful magic treasures.”

He was referring to Su Yu who might have misunderstood the definition of strength.

“I can,” Su Yu said affirmatively.

The white-robed middle-aged man was truly astonished. He thought to himself, ‘without relying on magic treasures, can this young man in front of me really reach the strength of a dao master?’

“Alright, but I need to test it.” The white-robed middle-aged man thought for a moment and said.

“How do I test it?”

The white-robed middle-aged man pointed at himself. “I’ll stand here without moving. If you can make me take a step back, then I’ll pass!”

With his terrifying realm, if he didn't resist at all, even an ordinary dao master level expert might not be able to make him take a step back.

This request was actually a bit difficult.

But when Su Yu heard it, he secretly relaxed.

It was very simple!

The opponent's cultivation was only stronger than the clan master level, but Su Yu's physique was also far beyond the clan master level.

If the other party only defended and did not attack, it would be extremely easy to push him back a step.

"Alright, let's begin." The white-robed middle-aged man stood with his hands behind his back. He did not even activate a simple defensive barrier as he prepared to use his body to block Su Yu's attack.

It was the same. He was just a mere half-step dao master. Did he really need to defend?

Su Yu thought seriously for a moment and decided to go all out.

After all, the other party was an expert far stronger than him. It would be a pity if he let down his guard and missed the opportunity.

"Alright, senior, be careful," Su Yu said slowly and released his cultivation. An extremely pure primal energy surged like a tidal wave.

The white-robed middle-aged man nodded slowly. "Perfect cultivation. Not bad."

However, how could that be enough to shake him?

Then, Su Yu released his soul that was close to dao transformation.

"90% Dao transformation in the soul, not bad." The white-robed middle-aged man was a little disappointed. This human youth was not that special, just relying on this alone could not make him retreat.

After revealing the two, Su Yu strode over like lightning. His fists were tucked under his armpits, and he did not release his Qi.

"Senior, be careful." Su Yu reminded him one last time before he punched his opponent's chest.

Just as they were about to collide, he finally stopped holding back his body. He transformed into a golden half-human half-dragon and erupted with strength that far surpassed that of the clan leader.

The white-robed middle-aged man, who originally did not care at all, was slightly surprised when his opponent transformed into a half-dragon. A faint smile appeared on his face. "Half-dragon body? You've given me a bit of a surprise."

He secretly made up his mind that even if Su Yu couldn't make him take a step back, he could let Su Yu cultivate inside for a day on account of his courage in challenging him.

As he spoke, he stretched out both of his arms to receive Su Yu's fists.

He originally wanted to resolve it easily, but unexpectedly, as soon as they came into contact, a terrifying and overwhelming force came over.

The white-robed middle-aged man's heart skipped a beat. He immediately increased his strength in an attempt to push Su Yu's hands back.

Who knew that as soon as he pushed, he was shocked to find that his strength was insignificant in front of Su Yu. He could not block it at all.

His arms were pushed back by Su Yu's fists. Seeing that they were about to hit his chest, how could the white-robed middle-aged man still dare to be arrogant?

He immediately used the power of a dao master to form a defensive barrier on the surface of his body.

When Su Yu's fists were about to hit him, the entire defensive barrier was crushed.

Moreover, after shaking violently, it was finally destroyed with a pop.

“What?”The white-robed middle-aged man was shocked!

Sensing that two fatal fists were about to hit him, the white-robed middle-aged man had no choice but to use his domain.

A dark green domain was attached to the surface of his body.

However, what shocked the white-robed middle-aged man was that his domain was shattered like paper in front of those fists!

In the end, the fists still landed firmly on his chest.

Fortunately, after being blocked by his arms, the rain shield, and his domain, most of the power of the fists was reduced.

Therefore, the power that landed on his chest was less than 20% .

However, even with 20% of the force, the Qi and blood in the white-robed middle-aged man's body was still churning. It was as if he was walking on the road and was knocked away by an iron bull.

He was knocked back repeatedly on the spot.

He was knocked back seven or eight steps and was about to stumble and fall to the ground. He ended up in a sorry state.

Fortunately, he reacted quickly and used the residual force on his body to flip in the air. He managed to dissolve the force on his body and barely stood still.

He caressed his rolling chest, and a stifling pain hit his chest.

“Senior, are you alright?”Su Yu walked over with concern.

The white-robed middle-aged man instinctively stepped back as if it was a reflex. At the same time, he activated his defensive barrier, appearing to be particularly fearful.

After a while, he realized that he had lost his composure and hurriedly put down his hand. His face was filled with embarrassment as he coughed dryly, "Cough... I'm fine."

He had lost his face for once!

He was actually almost beaten to the ground by a junior!

No one would believe it even if it was spread out!

But compared to his own loss of face, the white-robed middle-aged man's heart was already in turmoil due to his shock at Su Yu's strength.

If he had not seen it with his own eyes, he simply could not believe that there was such a heaven-defying monster in the world!

The ten great emissaries of the Palace of Light, even the number one person, could not have achieved such an achievement in terms of physique!

But he felt very strange.

Why had he never seen Su Yu before?

A person with such a strong physique could completely claim to be the number one person in his generation.

However, such a person was unheard of. It was as if he had appeared out of thin air. How could it not be surprising?

"May I ask your name?" The white-robed middle-aged man is much more polite.

Chapter 2288 Primal Chaos Domain (Third Watch)

Su Yu said, "Surnamed Su."

"Surnamed Su?" The white-robed middle-aged man quickly searched his mind for the big clan surnamed Su, but he didn't find it.

The white-robed middle-aged man looked Su Yu up and down again and exclaimed, "Young master Su's physique is simply... Earth-shattering! May I ask where his master came from?"

He was really too curious. Where did such a figure pop out from?

Su Yu frowned slightly. "Is it the rule of using the secret room to get to the bottom of Things?"

Hearing this, the white-robed middle-aged man realized that he had lost his composure.

The martial arts world had always abstained from prying into other people's affairs.

"I'm sorry, I'm just curious. I don't have any other intentions. Young Master Su, don't misunderstand."

Su Yu nodded. "Oh, then do I meet the conditions to enter?"

The white-robed middle-aged man's mouth twitched. He thought to himself, if you don't meet the conditions, who else does?

"That's enough! Please feel free to use the secret room." The white-robed middle-aged man moved aside, revealing the secret room.

Su Yu nodded and walked to the front of the secret room.

On one side of the secret room's door, there was a groove. As long as he swiped the money card, he could enter and cultivate.

Then, when he left, he swiped it again.

The Secret Room would charge a fee based on the amount of time he spent cultivating.

Su Yu took out his gold card and swiped it.

His unintentional action caused the white-robed middle-aged man's pupils to constrict.

Gold Card?

A gold card with a storage capacity of 500 million dao currency?

What was the background of this human youth?

The white-robed middle-aged man originally wanted an an to investigate Su Yu's background. Seeing that he carried a gold card with him, he dismissed this idea.

A young man already had a gold card. Who knew what level of mission the faction or elders behind him were on.

If he were to investigate and suddenly discover a taboo existence, his life would be in danger!

After Su Yu entered the secret chamber, he closed the door and investigated the situation inside the secret chamber.

Inside the secret chamber, there was an empty pond about half an acre in size.

Around the empty pond, there were eighteen kinds of outlet in the shape of beast heads.

And in the center of the Empty Pond, there was a crystal chip that showed that there were a total of 10,000 kinds of special alien races.

Su Yu looked around and indeed found that there was dragon blood inside!

However, when he saw the price, the corner of Su Yu's mouth twitched fiercely.

The price of artificial dragon blood was... 10 million dao dollars a day! !

In other words, Su Yu used artificial dragon blood to cultivate here for ten days, which was a total of 100 million dao dollars.

This was already Su Yu's entire fortune!

Unless he sold off the many Dao artifacts and immortal embryos he obtained from the heavenly remains cave abode!

"If he isn't a heaven's chosen nurtured by a super faction, he doesn't even have the qualifications to try!" Even Su Yu couldn't help but feel his heart ache.

However, compared to wealth, martial strength was more important.

Just as he was about to choose the dragon race's technique, his arm suddenly felt a wave of scalding heat. Shockingly, the nine jade spirit pearl began to fluctuate.

The little qilin once again ignored the nine Jade Spirit Pearl's spatial restrictions and stuck out its cute head. "Wow, I really want to feel the treasure!"

The corners of Su Yu's eyes twitched. "You learned this from Xiao Die?"

Wasn't Xiao Die the only one who had the habit of coveting treasures?

When did the little qilin get into such a bad habit?

"What is it?" The little qilin jumped out and looked around.

Su Yu pondered for a while and did not chase little kirin away.

Little Kirin rarely coveted Su Yu's things. At least compared to Xiao Die, it was pure and cute.

Now that he rarely saw the man-made mutant blood here, Su Yu naturally could not be stingy.

He looked and found that the Kirin's blood was displayed beside the dragon's blood. The price... was actually ten times more precious than the dragon's blood! !

In other words, it was 100 million dao dollars... One Day!

Su Yu was so shocked that his eyeballs almost popped out!

The He du Kirin's blood was so expensive?

But upon careful thought, in this world, dragons were common, but kirins were not!

Other than the Kirin God from the Galaxy God realm, Su Yu had never heard of a second Kirin.

Including the Little Kirin, it was just a clone left behind by the Kirin God.

The Qilin's strange blood asking for 100 million dao dollars was not without reason.

"100 Million Dao Dollars?" The little qilin stared at it with its eyes wide open. "My blood is that valuable?"

"What do you think?" Su Yu glared at it.

The little qilin shrunk its neck and said, "Let me tell you, don't have any designs on me. If you dare to sell my blood, I... I'll run away from home!"

Su Yu smiled, he pretended to be enlightened and said, "Oh, I almost forgot! Little Qilin, you have been with me for so many years, eating and drinking. Isn't it time for you to repay me? Master wants to cultivate here, but he is still short of money. Why Don't you be a Good Samaritan and save a few bottles of blood to exchange for money?"

The little qilin was so angry that he was trembling. "You Beast!"

"Haha..." Su Yu laughed out loud. He used his gold card to scratch the crystal on the spot and pointed at the Qilin's blood.

Immediately, a large amount of purple qilin's blood gushed out from eighteen water outlets and poured into the pool.

The little qilin was instantly stunned and looked at Su Yu in surprise.

Su Yu chuckled. "What are you still standing there for? Time is money!"

The Little Qilin regained his senses and tears filled his eyes. That was 100 million dao dollars!

He did not expect Su Yu to choose the qilin blood for his use, but..

"Master, I'm so touched." The little qilin rubbed his eyes. "How should I repay you? Should I give my body to you?"

Su Yu looked at the Little Qilin's form and a row of black lines appeared on his forehead.

He had this intention, but would he be able to say it?

The Little Qilin's eyes revealed a hint of shyness as it said, "If I break through to the Dao master realm, I can actually permanently transform into a human form. At that time, I won't resist no matter what master does to me..."

Pu --

Su Yu almost spat out a mouthful of blood. He kicked it into the pool. "What are you talking about? Hurry up and cultivate!"

Su Yu raised the little qilin from a young age. He watched it grow from an egg to its current appearance. Even if it turned into a human, Su Yu would not have any improper thoughts about it.

After the little qilin fell into the pool, it looked at Su Yu with deep gratitude. It took the time to lie down and absorb the artificial qilin blood.

The qilin blood kept drilling into its body through its pores, fusing with the real qilin blood.

The purity of the man-made kirin blood was naturally far inferior to the real Kirin Blood, but it still contained a trace of the real kirin blood.

Therefore, as it absorbed, the little Kirin's body underwent obvious changes.

First, its head gradually grew bigger, and the color of its scales also slowly approached fiery red.

Its pair of Purple Crystal Eyes turned dark purple.

Most importantly, his cultivation base actually continued to rise!

From the Heaven and Earth Emperor Realm, he ignored bottlenecks all the way to the half-step dao master realm. Then, with a pop, he directly broke through to the DAO Master level!

A pitch-black image appeared above his head.

That was shockingly a domain!

Su Yu stared with his eyes wide open.

This... This was a breakthrough?

How could this be?

For any living being to break through to the Dao master level, they had to undergo the dao transformation of their body, soul, and laws.

The little qilin, on the other hand, had actually skipped the dao transformation stage after absorbing some of the Qilin's blood and appeared with a dao body, Dao Soul, and domain!

His mind was at a loss. This absolutely didn't make sense!

Was this the effect of the local variant blood?

It shouldn't be!

If the variant blood here had the heaven-defying effect of directly allowing one to break through to the Dao master level, how could it only have 100 million dao coins? It probably wouldn't be sold at all!

Was it because of little qilin himself?

Su Yu sank into deep thought. As one of the last nine emperors of Heaven and Earth in the nine dragons ancient divine realm, was emperor qilin really as simple as a heaven and earth emperor?

He had long been puzzled as to why Emperor Tianyun, who was a heaven and earth emperor, could give Zhan wushuang four pieces of Emperor's fate.

He didn't think so before, but now that he was in the absolute beginning world, he felt that the emperor set was more and more terrifying. He couldn't help but be confused.

How could a little emperor of heaven and earth do something that even a dao master couldn't do?

The little qilin in front of him was also acting strangely!

As the clone of Emperor Qilin, he didn't need to transform into Dao to become a dao master!

Moreover, its level of Dao Master was still rising.

One day later.

The Kirin's blood in the pond was completely drained. The Aura that the little kirin emitted had actually reached the level of a clan master!

Not only was Su Yu stunned, even the little kirin was so shocked that it could not close its mouth. "I... Broke through to the level of a Dao Master?"

It ran in front of Su Yu and kicked Su Yu's thigh with its front hooves.

"Hiss! What are you doing?" With Su Yu's physique, he was in so much pain that he took a light breath and glared at it.

The little qilin raised its hooves and said, "I'm checking if I'm Dreaming! HMM, looks like I'm not."

Su Yu kicked the little qilin angrily and it rolled around. "I think you're Still Dreaming!"

It actually used him as a test subject!

The little qilin got up and shook its head, it had a confused and excited expression. "Although I don't know why, I think I'm a Dao master now. I can transform forever. Who does master want me to become? "Think carefully. Once I transform into a human, I won't be able to change my form for the rest of my life. I only have one chance. Cherish it well."

“Be Serious!” Su Yu pinched its face. When he got closer, he realized that the little qilin was more than twice its size. It was now as tall as Su Yu’s shoulders.

The skin on its body was extremely tough. Even a dao artifact might not be able to hurt it.

“Let’s see what your domain is,” Su Yu said.

The little qilin immediately released its domain as if it was showing off. A pitch-black image lingered around its body.

Su Yu’s heart moved. He took out an abandoned dao artifact and threw it into the image.

What was shocking was that the dao artifact turned into pitch-black powder on the spot!

“This... is the nihility domain?” Su Yu said in horror.

Dao artifacts were Dharma Treasures condensed from Dao Masters’ own Dao when they became Dao Masters. They could be said to be the best of the Best Dharma Treasures and were extremely hard.

Even a figure like Xia Yi’an probably couldn’t destroy a dao artifact.

But the little qilin’s domain... was truly unbelievable.

“It’s not nihility, it’s the Chaos Domain.” An unfamiliar thing appeared in the Little Qilin’s mind. It didn’t come from Emperor Qilin, but from an even more mysterious existence.

Primal Chaos?

“Above nothingness, it’s Primal Chaos!” The little qilin muttered.

Before the absolute beginning world was created, it was already in a primal chaos state.

It was an absolute dead world where nothing existed.

Chapter 2289 Insolvency (Fourth Watch)

It wasn’t until the appearance of the sacred mountain that the absolute beginning Qi changed the primal chaos and took the appearance of the absolute beginning world.

The Little Qilin’s domain was actually a piece of primal chaos.

As expected, the nine emperors of the nine dragons ancient divine realm weren’t simple!

“Keep the domain well. Don’t use it unless it’s an emergency,” Su Yu warned.

Who would not be tempted by a divine beast that could create chaos?

Even the Dao Masters in the Mysterious Dao Palace who did not care about the affairs of the world would want to get their hands on it.

Therefore, the Little Qilin’s chaos domain must not be revealed to others.

“Alright.” The little qilin kept the domain, and a hint of exhaustion immediately appeared in his eyes. He said, “The support of this domain will consume a lot of my soul power. It seems that I can not use it frequently.”

This was the best.

“You rest at the side. I’ll meditate and cultivate for a period of time.” Su Yu jumped into the dried pool and tapped on the Dragon Race’s strange blood.

Immediately, a large amount of man-made dragon blood surged into the pool.

Just as he touched the dragon blood, his entire body seemed to be burning, emitting sizzling sounds.

A searing pain seeped through Su Yu’s skin into his flesh and finally into his bones.

This pain was not something an ordinary person could endure.

However, after cultivating the Heavenly Dragon Dao body, the searing pain was just a frown to Su Yu.

Under the intense burning, traces of artificial dragon blood slowly merged into Su Yu’s body and merged with the Dragon Blood Within.

Although there was less real dragon blood in the artificial dragon blood, it was more abundant.

After absorbing it for a day, Su Yu found that the amount of dragon blood in his body had doubled!

Once he transformed into the half-dragon form, his physique would rise to a whole new level.

And this was only the first day.

With excitement in his heart, he continued to cultivate.

Half a month later.

On this day, the white-robed middle-aged man was sitting cross-legged in the shop.

After a moment of silence, he opened his eyes and saw a pretty girl in a snow-white robe walking into the shop with a smile on her face.

He immediately stood up and cupped his fists. “Miss Xuan Hua, you have graced our shop with your presence!”

Xuan Hua covered her mouth and smiled. “Uncle Bai, you are too kind!”

The two of them had known each other for a long time!

Xuan Hua used the golden cicada to track Su Yu’s whereabouts, but after Su Yu entered the sacred city, it was as if he had disappeared from the world.

In her fruitless search, Xuan Hua had no choice but to temporarily give up and turn to cultivation.

“Is there still a cultivation room?” Xuan Hua asked.

The white-robed middle-aged man said apologetically, “Miss Xuan Hua, you came at a bad time. It is already full.”

Xuan Hua was surprised. “That special secret chamber was also occupied by someone?”

“That’s right.”

Xuan Hua felt strange in her heart. Because of the special conditions required to enter the secret chamber, no one was able to enter it for many years.

Now, it was really a coincidence that someone actually occupied it.

“Which emissary of light is it?” Xuan Hua asked naturally.

The white-robed middle-aged man shook his head slightly and said, “It’s not! It’s an unknown person.”

A trace of surprise appeared on Xuan Hua’s small face, but she did not care. The Radiant Palace was so vast, it was not strange for one or two unknown people to appear.

“There are no more secret rooms. If Miss Xuan Hua doesn’t mind, I can spar with you,” the white-robed middle-aged man said.

Xuan Hua agreed gladly.

The reason she was able to draw something out of nothingness with a brush was because of some strange blood.

And the person who knew the most about strange blood was the owner.

If she sparred with him, she would be able to learn from his flaws.

Soon, the two of them began sparring in the spacious hall.

After several thousand moves, Xuan Hua was drenched in sweat and shouted for them to stop.

The white-robed middle-aged man also exhaled and said, “Miss Xuan Hua’s improvement is so fast. I’m afraid that I won’t be a match for her in a short time.”

Xuan Hua smiled charmingly. “In your opinion, what are my chances of winning this time?”

“I’ll definitely enter the top two!” The white-robed middle-aged man said after a serious analysis.

In his heart, he added that if the silver-haired human in the secret room didn’t make a move.

If he made a move, Xuan Hua would probably only be ranked third!

The white-robed middle-aged man was very clear about the limits of Xuan Hua’s strength, but that human only displayed his physique from the beginning to the end. He couldn’t see the bottom line of his strength at all.

If the two of them really fought, the white-robed middle-aged man would favor that human even more.

Of course, he would not say this to avoid causing trouble for that human disciple.

“Still second?” A trace of unwillingness flashed across Xuan Hua’s face.

The title of the first emissary of light had always been occupied by one person.

Xuan Hua could only be second all year round, how could she be willing to accept it?

The white-robed middle-aged man also felt sorry for Xuan Hua. “Don’t be discouraged. Actually, with your strength, you are the undisputed number one emissary of light in any era. It’s just that Heaven’s will has played a trick on you, giving you an additional destined woman!”

Xuan Hua clenched her fists lightly, and a bitter smile appeared on her face.

More than a hundred years ago, in the territory of the Palace of Light, everyone had the same dream on the same day.

An incomparably beautiful woman descended from the sky and became the most dazzling sun in the palace of light.

Everyone thought that it was just a dream!

It wasn't until the biggest ceremony in the palace of light that the woman in everyone's dreams really descended from the sky!

She was known as the Chosen One!

Her talent was extraordinary, and no one could compare to her!

In less than a hundred years, she broke through from the Overlord realm to the Dao Master realm.

And twenty years ago, she had reached the clan master realm!

All the heaven's favorites in the Palace of light did not have the qualifications to call themselves Heaven's favorites in front of her.

She was like an incomparably dazzling sun, making them dim in comparison to their peers!

Now that twenty years had passed, no one knew what kind of terrifying realm the heaven's Destiny's daughter's cultivation had reached.

Because she had been in closed-door cultivation for many years, only a few people had the opportunity to come into contact with her.

The white-robed middle-aged man in front of her was one of them.

"If we fight now, how many rounds can I exchange blows with her?" Xuan Hua asked.

Back when the emissary of light was ranked, she had exchanged blows with the chosen one, and she was defeated in four moves!

The white-robed middle-aged man was silent for a long time, and then he slowly said, "One move."

What?

Xuan Hua's pretty eyes widened. "One move?"

The white-robed middle-aged man nodded, and a solemn expression appeared on his face. "Yes, one move! The current Destiny's daughter is several times stronger than she was twenty years ago! I only lasted two moves when I sparred with her!"

Xuan Hua felt that something was blocking her throat, and she was unable to speak.

For many years, she had been desperately cultivating with the goal of becoming the Destiny's daughter, hoping to surpass her one day.

However, the despairing reality was that after so many years, the gap between them did not close. Instead, it became more and more distant, to the extent that it made people depressed.

The white-robed middle-aged man comforted him, “Just as I said, she can’t be compared to her peers. If you really want to compare, there’s no such thing as a genius in the world.”

To be in the same era as the chosen one, it should be said that it was the sorrow of the current generation’s chosen one.

Xuan Hua was deeply stimulated. While feeling bitter, she became even more determined to cultivate. She cupped her fists at the white-robed middle-aged man and said, “I’ll go back and meditate for a few days. Goodbye.”

The white-robed middle-aged man nodded and said, “That’s good too. It’s a rare opportunity to chase after the deer. The fated daughter probably won’t participate. You have a high chance of getting first place. If you can get the Divine Deer of light to teach you, you might have a chance to increase your strength and catch up with the fated daughter!”

The chasing deer was a grand event that was held once every fifty years in the radiant palace.

The content was to invite all the geniuses in the territory to chase after the divine light deer together.

If anyone could catch it and get its approval, the divine light deer would use its powerful soul to teach it an ancient cultivation method!

The ancient cultivation method was completely different from the cultivation methods and divine arts of the outer realms.

It was a heaven-defying method that had been passed down from the previous era. Its power was unrivaled and could even be comparable to a domain!

This technique could only be found in an eight-star civilization!

Normally, it would be used by creatures from an eight-star civilization as a supplementary cultivation technique outside of the domain.

However, in the outer realms, ancient cultivation techniques basically didn’t exist.

The Divine Deer of light was one of the few Super Godly beasts that recorded several ancient cultivation techniques.

However, it never easily taught ancient cultivation techniques.

The only time it taught was the first palace master of the Palace of Light, the ‘seal of Light’.

With this powerful ancient cultivation method, the first palace master was able to build the palace of light.

Since then, the Divine Deer of light was regarded as the guardian god of the Palace of Light and held a deer chaser every fifty years, hoping that someone fated to appear and receive the Divine Deer of light’s teachings.

However, no matter how many years passed, the Divine Deer of light never imparted its teachings again.

Even so, the deerchaser continued on without stopping once.

“I must get the first place in the Deerchaser Contest!” Xuan Hua’s eyes shone with determination.

Only by receiving the teachings would she be able to defeat the chosen one!

A few days later.

Su Yu slowly woke up from his closed-door cultivation.

After 20 days of cultivation, the dragon blood in his body had reached a shocking level.

Even though he did not deliberately activate the Heavenly Dragon Dao body, a layer of faintly discernible dragon scales appeared on the surface of his body, and his entire body carried a heavy pressure of the dragon race.

Occasionally, there would be inexplicable dragon roars coming from his bloodline.

The pressure of his bloodline made the little qilin by the side feel a little uncomfortable.

“The dragon blood in your body is even more than that of the real dragon race, right?” The little qilin smacked his tongue. “When people from the Dragon Race Meet You, I’m afraid they won’t dare to say that you’re not from the Dragon Race.”

Su Yu smiled and clenched his fist. A crackling sound was transmitted between his fingers.

A powerful and overbearing power wanted to make wild horses gallop uncontrollably in his body.

If he punched out now, even Xia Yi'an would have to treat it seriously!

His body had been strengthened to an unprecedented degree!

Now, he only needed to transform his soul as soon as possible!

“Let’s go.” Su Yu opened the stone door. He held the golden card in his hand and drew a line in the groove. Immediately, a beeping sound came from the groove, reminding the customer that there was not enough dao currency in the card.

Su Yu felt awkward.

Including the little qilin, he had spent a total of 300 million dao currency this time!

The white-robed middle-aged man heard the sound and rushed over. He chuckled. “Young master Su has come out of seclusion! Your seclusion is really not short!”

Others would at most enter seclusion for one day at a time, but Su Yu was fine. It was a full 21 days!

Now, there was not even enough dao currency in the card!

“Boss, I have a limited amount of dao currency in my hands, but I have a lot of resources to pay off the debt.” Su Yu was helpless. He could only bring out the many Dao artifact immortal embryos that he had looted from the heavenly remains cave abode.

He did not know how much the Dao artifact immortal embryos of the Palace of light were worth.

Paying off the debt?

The white-robed middle-aged man frowned slightly, he said, “Young master Su, to tell you the truth, I am not the only one who opened this shop. There are a few other partners! If it were me, I would naturally agree to pay off the debt with goods, but the other partners would probably...”

Su Yu’s heart tightened, as if he was in a bit of trouble.

However, the immortal embryo of Dao artifact was not enough. He still had other things to repay the debt. He believed that the other partners would definitely not refuse.

Chapter 2290 Regret Not Falling

“Boss, let’s take a look first, then we can decide.” Su Yu took out a vat of water of primordial Qi with a very rich ratio.

The white-robed middle-aged man was very displeased with such a forceful purchase and sale, and his favorable impression of Su Yu was greatly reduced.

“A vat of water, how much do you plan to discount it?” The white-robed middle-aged man asked patiently.

Su Yu thought for a moment and answered very seriously, “300 million dao coins.”

The vat of water in front of him contained more than half of the primordial Qi that he had obtained from the Great Void Mystic Cave in ten years.

It was only sold for 300 million dao coins, and it was because he was unable to pay his debts and there was a certain discount.

If he sold it at full price, 400 million dao coins would be more than enough. If he met someone who was eager to buy it, 500 million would be possible.

“Young master Su, you must be joking.” The white-robed middle-aged man wanted to laugh, but he could not. “Every portion of mutant blood is made from real mutant blood. The cost is too high!”

Su Yu understood this point without saying anything.

Just the qilin blood alone was priceless.

“Haha, Boss, Why Don’t you take a look at this vat of water first?” Su Yu opened the lid, and the rising absolute beginning Qi instantly poured out.

The white-robed middle-aged man was stunned for a moment, and then his face changed dramatically. He said in surprise, “This... This is absolute beginning qi?”

Absolute beginning Qi was a top-grade divine item that could raise a dao master’s domain. It was often priceless.

Many people might not be able to buy the absolute beginning Qi even if they doubled the price.

Why?

Because those who had the absolute beginning Qi would either use it for themselves or sell it to those who were at the peak of the martial path in exchange for their help.

Basically, no one would use the absolute beginning Qi to exchange for money.

Therefore, when the white-robed middle-aged man saw the absolute beginning Qi for the first time, his mind went blank. He couldn't help but wonder if there was a trap.

After all, who would sell it?

“What do you think?” Su Yu asked with a smile.

The white-robed middle-aged man fell into deep thought. He had a guess.

However, while he was hesitating, dozens of dao masters sensed that the primordial Qi that had just been released had descended from the sky!

“Primordial Qi!” Dozens of Dao Masters with different cultivations revealed shocked expressions.

Among them was the master of civilization, who was a level higher than the clan master.

The white-robed middle-aged man had just woken up from a dream. If there was someone in the world who could forge the absolute beginning qi, his name would have spread far and wide!

The vat of water in front of him was truly made of the absolute beginning Qi!

“Deal!” The white-robed middle-aged man waved his hand and snatched the vat, afraid that Su Yu would go back on his word.

He was so excited that his heart was trembling. This was the absolute beginning Qi that could only be found by chance!

However, just as he was about to grab it, several powerful dao masters who were not weaker than him released their domains to stop him from taking the water tank.

“Wait!” A Dao master whose entire body was transparent and looked like an ice sculpture said in a loud voice.

Upon seeing him, a hint of fear flashed across the white-robed middle-aged man's eyes. “Ice Flame holy man, what do you mean by this?”

Ice Flame holy man was a well-known dao master in the territory of the Palace of light. His strength could be ranked in the top ten. He was an expert whose head could not be seen.

Anyone who met him would have to be polite.

“If I heard correctly, you are dealing with someone, right?” The icy flame holy man looked around, searching for a possible seller.

The white-robed middle-aged man's heart tightened. This icy flame holy man was famous for being overbearing.

“This has nothing to do with you!” The white-robed middle-aged man secretly exerted his strength, hoping to snatch the water tank.

However, the icy flame holy man and several Dao Masters held the water tank tightly and did not let go.

Knowing that the white-robed middle-aged man was not willing to tell the seller, the icy flame holy man shouted, "Fellow Daoist who sells the primordial qi, please come out and talk."

His gaze locked onto a few dao masters with higher cultivations. Only they could obtain so much primordial qi.

"What's the matter?"

The calm voice that was right in front of him fell into his ears. The Icy Flame holy man followed the voice and his gaze fell on Su Yu, who had not noticed it at all. He hesitated slightly, "This vat of primordial QI, was it sold by you?"

Su Yu asked, "Can you find a second seller?"

Hiss!

The icy flame holy man was shocked. The primordial Qi came from a half-step dao master?

The Other Dao Masters were also shocked. They looked at Su Yu curiously. They could not believe that the primordial Qi that the DAO Masters dreamed of came from this human.

It should be owned by the power behind it or some big figure.

They thought about it subconsciously.

The Icy Flame holy man did not dare to show any contempt. Instead, he was very polite. He was always cold, but he squeezed out a smile and said, "Fellow Daoist, may I know what kind of deal you made with the owner of the deep-like Store?"

Su Yu said casually, "I used the secret room and owed 300 million to repay the debt. Can't I do that?"

The Icy Flame holy man's eyes suddenly shot out a blinding light. Pay Off the debt?

In this world, there was actually someone who used the primordial Qi to pay off the debt?

Moreover, it was obvious that this vat of primordial Qi was worth more than 300 million yuan!

If it was sold to those old monsters who needed it urgently, they could even sell it for 600 million yuan!

"Fellow Daoist, how about this? I'll pay off your debt of 300 million yuan. Can you leave this vat of primordial Qi to me?"The Icy Flame holy man immediately had his eyes on this item.

Hearing this, the white-robed middle-aged man knew that things were not going well. Just as he was about to stop him, Su Yu said, "No problem."

To him, it did not matter who he handed the primordial Qi to.

The white-robed middle-aged man said anxiously, "Young Master Su, you can't do that. You promised to use this item to pay off the debt!"

Su Yu said indifferently, “But the owner said that your partner does not want to use this item to pay off the debt. Now that someone is willing to directly give you the dao currency, it is naturally the best.”

At this moment, the white-robed middle-aged man wanted to give himself a slap. Why did he hesitate just now and doubt the authenticity of the Primordial Qi?

If he had accepted it back then, why would the icy flame holy man and the others snatch it for no reason?

Gritting his teeth, the white-robed middle-aged man said, “Young master Su, how about this, give me this vat of primordial qi, I... I’ll give you another 50 million dao currency, how about it?”

Su Yu was naturally tempted. He only had 100 million dao dollars in his hands.

It seemed like a lot, but it seemed like it was not enough in the seven star civilization.

A little more dao dollars was naturally better.

“So fellow Daoist’s surname is Su! Fellow Daoist Su, I’ll give you 400 million dao dollars for this vat of primordial qi. If you agree, I’ll immediately exchange it with you.”The Icy Flame holy man was extremely heroic.

The Other Dao Masters were not willing to miss such a great opportunity, and they all announced their high prices.

Not long after, the price was pushed to the sky-high price of 500 million dao dollars!

The white-robed middle-aged man watched as the price continued to rise and doubled. He wanted to cry but had no tears.

Clearly, everything should have belonged to him!

“Alright, 500 million dao dollars, deal.”Su Yu looked at the icy flame holy man and threw a smile.

Although the price could still rise a little more, it was better to stop when it was appropriate.

More and more people gathered around. If this continued, he might not be able to leave even if he wanted to.

The icy flame holy man heaved a sigh of relief and took out a golden card, “There are 500 million dao dollars in it. Please check.”

Su Yu checked it in person and confirmed that there were indeed 500 million dao dollars in it. Then, he passed a jar of Primordial Qi to the other party.

After obtaining the primordial Qi, the icy flame holy man did not dare to stay any longer. He cupped his fists at Su Yu and left.

Su Yu turned around and handed 300 million dao dollars to the white-robed middle-aged man with a complicated expression. He said indifferently, “We’re done. Goodbye!”

He turned around and met with many pairs of burning gazes.

Su Yu smiled bitterly in his heart. Earning 200 million dao dollars was not a lie, but he had already become a hot commodity in everyone's eyes, right?

If he wanted to escape from their sight, he would have to spend a lot of effort.

"Young master Su, why don't we go back to the shop to drink tea before leaving?" The white-robed middle-aged man noticed Su Yu's predicament and his eyes lit up.

Su Yu did not refuse. He cupped his fists and said, "Then I'll have to trouble you."

He was not afraid that the white-robed middle-aged man would dare to secretly attack him. Not to mention his own many tricks, just the Little Qilin's primal chaos domain alone was enough for this person to drink a pot of tea.

The white-robed middle-aged man could not help but be overjoyed. He immediately led the way with a smile on his face. "Young master Su, Please!"

After entering, the white-robed middle-aged man turned around and glared at the Dao Masters who were about to step in. He said expressionlessly, "I'm sorry. Today, the deep-like shop is closed to all visitors!"

Bang --

Following that, with a bang, the door was completely closed. The defensive barrier was also activated, and no one was allowed to enter.

This action caused many dao masters to curse angrily.

"Bai Qingsong is planning to take all the benefits for himself!"

"This is too much. He wants to take all the absolute beginning Qi for himself?"

"Just wait and see. It Won't be that easy for Bai Qingsong to take all the absolute beginning Qi for himself!"

..

In the back hall.

Bai Qingsong was all smiles. He personally poured tea for Su Yu and said, "Young Master Su, rest in peace here for a while. It Won't be too late to wait for the people outside to leave."

Su Yu chuckled and did not say anything else. He took out a palm-sized water bottle, which was also filled with absolute beginning qi.

"Thank you, Boss! However, I still have some matters to attend to, so I'm afraid I can't stay for long. There should be a back door to leave your shop, right? Take Me with you. This bottle of absolute beginning qi is for you."

He was now a wanted criminal!

Perhaps the wanted list had not reached the sacred city yet. If he did not leave now, when would he do so?

Hearing this, Bai Qingsong's eyes sparkled as he thanked Su Yu profusely.

However, his appetite was not limited to just a small bottle of absolute beginning qi. Just as he was about to say something, Su Yu saw through his thoughts, "This bottle is the last one I have. If the owner is not satisfied, then forget it."

As he spoke, he was about to grab the jade bottle back.

Bai Qingsong reacted quickly. He immediately went forward to grab the jade bottle and said, "Yes! There's a back door!"

Bai qingsong said, "Ruyuan shop is such an important shop. Naturally, there's a way out. There's an extremely high-level ancient formation in the backyard. After activating it, it can silently teleport away. The dao master will also have a hard time sensing the teleportation fluctuations. It's very safe."

That's good!

"Young master Su is in such a hurry to leave. Is It to hurry up and participate in the deer chases?" Bai Qingsong said matter-of-factly.

Su Yu was stunned for a moment and said, "Deer chasing event?"

UH --

Bai Qingsong was stunned. Could it be that Su Yu did not come here from the late autumn snow for the deer chasing event?

"Young master Su, you don't know about deer chasing?" Bai qingsong said, "This is one of the most famous events in the Palace of Light."

Su Yu was not interested in the deer chasing event and casually explained, "I have been in seclusion in the deep mountains and have never stepped out of the outside world. I really don't know what deer chasing is."

Was it a young man who did not appear in the world?

No wonder he did not understand many things!

Bai Qingsong's smile grew brighter and he said in detail, "Since young master su happened to come to the sacred city at this time, you must not miss this great opportunity! If you are lucky enough to receive the teachings of the Divine Deer of light, then you will be able to ascend to the heavens in one step!"

Wait!

The words 'Divine Deer of light' made Su Yu suddenly alert.
