

Nine-Dragon 2331

Chapter 2331 Caught Red-Handed

What was presented in front of them were all top-tier magical equipment, talismans, and top-tier pills.

Among all the items, one of the most eye-catching was a cup that was emitting a gentle light.

It was slightly taller than a teacup, and clear spiritual liquid was flowing inside, emitting a strong fragrance.

Those who smelled it all felt tired and relaxed.

“Holy Grail of light!” Ghost eye recognized it, and his face changed quickly in shock.

The Holy Grail of light was the keepsake of the Great Palace Master of the Palace of Light, and only the Great Palace Master of the Palace of light could grasp it.

Why was it here?

The bad premonition in his heart grew stronger and stronger!

Shua --

At this moment, a few members of the nine swords pavilion who had not been able to control themselves suddenly rushed up and fought over the treasures in the array formation.

Especially the Holy Grail, several people were fighting over it.

Ghost Eye’s expression suddenly changed, and he shouted, “Don’t move, quickly put it down!”

However, there were not many people who were as calm as him when they encountered a shocking treasure in front of them.

They completely ignored Ghost Eye’s warning, and they were about to go crazy fighting over it.

“A bunch of idiots! This is a trap!” Ghost Eye personally took action and shot out several beams of light from his eyes to separate them.

After a lot of effort, they finally woke up from their crazy fight over the red-eyed man.

“Think about it, why would the inheritance keepsake of the Palace of Light Be Here?” Ghost eye shouted, “Why would su bring us here?”

After a series of loud shouts, they finally realized that something was wrong.

“But, didn’t Su Yu fall into our trap? How would he have the chance to set up a trap here? It doesn’t make sense,” someone said suspiciously.

Ghost Eye’s mood was unusually heavy. Under his plan, Su Yu had indeed fallen into their trap.

However, there was one exception.

That was, Su Yu had already seen through his plan.

He thought that this move was very clever, but in reality, Su Yu had already predicted that he would do this.

The appearance and escape that followed was the real 'push the boat with the current'!

It made the people of Sword Whisper Pavilion misunderstand that their plan had succeeded. They chased after him here without caring about anything and then discovered the inheritance token that was stolen from the palace of light.

Thinking of this, Ghost Eye was unwilling to admit that this was true.

He didn't believe that a person's calculative ability could be so accurate. It was as if he could predict the future.

However, all the signs indicated that the other party was indeed an expert in using tricks without missing anything!

"Put everything down and wipe the traces on it. Leave immediately!" Ghost Eye felt that things were getting worse and ordered in a low voice.

The six members of nine swords pavilion felt a wave of reluctance in their hearts. These were top-grade magic treasures that were rarely seen. They couldn't even be bought with money.

It was truly a pity to give up just like that.

Just as they were hesitating, a cold snort rang out.

"I was wondering who it was. It turns out to be a few juniors of the Sword Whisper Pavilion."

Gedeng --

Ghost Eye's heart suddenly sank. It was as if he had stepped into a hunter's trap.

The space in front of them suddenly shone brightly. A group of people walked out from the blinding light.

The leader was a beautiful woman with Phoenix eyes. She was dressed luxuriously and had a graceful bearing, giving off a sense of majesty.

Her aura was impenetrable, but she gave off an endless pressure.

Seeing her, Ghost Eye's heart almost jumped to his throat. The worst case scenario had happened.

No, it was worse than the worst case scenario.

The first palace master himself had arrived!

He was quick-witted and immediately took the initiative to go forward and respectfully salute, "Ghost Eye greets the first palace master of the Radiant Palace."

The other members of the nine sword pavilion who were holding the treasures were at a loss because of the great palace master's sudden arrival. They stood there without moving.

The Great Palace Master's Phoenix eyes swept over them. When his gaze landed on the Holy Grail in one of their hands., his gaze was cold. "I have to say, the Sword Whisper Pavilion has many talented juniors. To be able to steal the token of inheritance right under my nose, all of you should be proud of yourselves."

The killing intent blew into everyone's heart like a cold wind.

Crash --

The other six people finally put down the items in their hands and shouted that they had been wronged.

Ghost eye quickly said, "Great Palace Master, please listen to my explanation. How could we steal the token of the Palace of Light?"

"Humph!" A Dao master in the fish-dragon realm snorted coldly, causing the whole world to tremble. "Are we blind to see the scene of you dividing the spoils?"

At this moment, ghost eye hated his pig-like teammates to the core.

Or rather, he was inexplicably terrified of Su Yu's scheming ability.

Could it be that he had grasped every second exactly when they discovered the array formation and when they fought for the Magic Treasures?

Otherwise, how could it be so coincidental that the palace of light and the others saw this scene?

Thinking of this, he couldn't help but look at Su Yu.

He saw Su Yu's hands folded in his sleeves, looking calm and composed.

"Why are you looking at me?" Su Yu noticed Ghost Eye's gaze and asked curiously, "You should explain to the Great Palace master how you stole the token of inheritance."

Ghost Eye's heart shook as he confirmed that everything was Su Yu's doing.

His gaze towards Su Yu was filled with respect.

"Great Palace master, I have something to report." Ghost eye knelt on one knee, to show respect, "We chased Su Yu here and happened to find something here. The Great Palace master came and successfully caught it. I hope the Great Palace Master can consider the coincidence."

The first palace master narrowed his phoenix-like eyes and said indifferently, "Which Su Yu are you talking about?"

"The one beside the first palace master." Ghost eye stared at Su Yu coldly. "If the first palace master doesn't believe us, we are willing to undergo a soul search. We only need to search through our memories to confirm whether we are lying or not."

The first palace master's expression turned cold again as he said faintly, "You are talking about Su Yu of the eternal nightless Imperial Kingdom, right? When did you chase after him?"

"Between two hours ago and now." Ghost Eye's heart gradually calmed down.

As long as the truth was revealed, with the first palace master's wisdom, she should be able to understand what was going on.

Who knew that the first palace master would say indifferently, "What if I told you that Su Yu has been by my side for the past few hours and hasn't left a single step?"

During this period of time, Su Yu had either been communicating with her or comprehending in the secret room.

How could Su Yu still have the chance to be hunted down and framed by them?

Moreover, he even stole her most important treasure in front of her?

What?

Ghost Eye was in disbelief. The person they were chasing was clearly Su Yu. There was no mistake.

But why was Su Yu by the side of the Great Palace Master of Light Palace during that period of time?

It couldn't be explained at all!

Of course, this could be explained. Su Yu's body was in the secret chamber, but her soul had left her body and left silently under the cover of the little qilin.

Only an empty shell was left in the secret chamber, and the aura emitted from his body had always been there. Therefore, the first palace master mistakenly thought that Su Yu had never left.

Seeing that the first palace master's expression had turned cold, ghost eye hurriedly said, "Wait! I can allow the first palace master to search through my memories of the past two hours to ensure that nothing I said to my brothers was false."

The first palace master thought for a moment and was about to say something, however, Su Yu said from the side, "First Palace master, since this is related to me, I have to say something! If I remember correctly, this person in front of me is the second ranked Ghost Eye of the Nine Swords Pavilion, right? Isn't what he is best at is Soul Secret Arts? Modifying a person's memories is a piece of cake."

Ghost Eye's heart shook once again. Could it be that Su Yu had expected that he would use searching memories as evidence, so he had investigated his own information in advance?

There were not many people who knew that he could modify the memories of others.

If one did not intentionally investigate, it would be difficult to know.

The first palace master pondered for a moment and looked at Ghost Eye and the others with unkind eyes. She naturally knew that ghost eye was a spirit body. He had also heard of his ability to tamper with the memories of others.

After Su Yu's reminder, she immediately became suspicious of him.

“First palace master, I think it’s useless to reason with the people of the Sword Whisper Pavilion,” Su Yu said helplessly. “They’ve already been caught red-handed, but they still deny everything. They even want to frame me!”

“It just so happens that I’m with the first palace master today. With the first palace master personally testifying for me, if I’m not in the sight of the first palace master, won’t I be fooled by them?”

These words touched the hearts of the four Dao Masters of the fish-dragon realm.

One of them said with great disgust, “The people of the Sword Whisper Pavilion have always been despicable and shameless. Even if they were caught on the spot, they wouldn’t admit it. The Great Palace Master doesn’t need to waste his breath on them. It’s best to deal with such shameless people directly with lightning-fast methods.”

“That’s right! They are caught red-handed. They have no regrets and even want to frame young master Su!”

“That’s right. It’s just as young master su said. Fortunately, we can all testify for young master Su. Otherwise, wouldn’t we really be fooled by them?”

“It seems that the people of Sword Whisper Pavilion really don’t put our radiant palace in their eyes. They have nothing to fear!”

Everyone hated what Sword Whisper Pavilion had done in recent days to the bone. Therefore, when the wall fell, everyone pushed it down and accused them as if it was a matter of course.

When everyone said this, the first palace master’s eyes cooled down and he sneered, “Stealing the token of inheritance of the palace of light, even if you are the disciples of Master Gui, you will not be forgiven!”

Ghost Eye could not defend himself

It was clearly Su Yu’s doing, but in the end, it was all his fault!

He glared at Su Yu with a face full of fear and resentment, “Su Yu, we are not done yet!”

As he spoke, he crushed a jade slip hidden in his sleeve.

Instantly, the surrounding space rippled, and a ball of darkness appeared, including the seven of them.

The Great Palace Master’s eyes turned cold, and he slapped his jade palm across the air.

The ghost mist immediately shook violently, and ghost eye and the others, who were in it, felt their hearts rise to their throats, as if they had walked to the gates of Hell.

This was the attack of the three great experts of the glazed era civilization, and they had no way of resisting.

“HMPH! Bright Jade, attacking my people, are you courting death?” Within the Ghost Mist, a thin hand suddenly stretched out and met the first palace master’s palm.

Bright Jade's expression changed slightly, and she said coldly, "Teacher ghost, by allowing your disciples to steal my inheritance keepsake, aren't you starting a war between the two sides?"

"What a joke! What's the use of me stealing your keepsake?" Teacher Gui said disdainfully.

This question made bright jade hesitate slightly.

Chapter 2332 Shameless

However, Su Yu said indifferently, "I don't understand what you're saying, Sword Whisper Pavilion Master. It seems that not long ago, you had your hands on the astrolabe. Logically speaking, the astrolabe shouldn't be of any use to you."

The Bright Jade's hesitation immediately disappeared.

The people of Sword Whisper Pavilion were secretive and greedy. What was so strange about stealing the inheritance keepsake of the Radiant Palace?

Hearing this, a pair of scarlet dry eyes stared at Su Yu from within the Ghost Mist. "Little Bastard, it's you again. I haven't settled the score with you yet!"

Su Yu was fearless, he calmly said, "Senior, are you saying that this junior will stop you from snatching the astrolabe? If that's the case, this junior feels that preventing senior from making a mistake and avoiding the conflict between the Radiant Palace and the Sword Whisper Pavilion, as well as reducing the possible casualties on both sides, is a great merit!"

"This junior doesn't ask for Senior's gratitude, but I also don't wish for senior to return the favor with resentment!"

These words made everyone from the Radiant Palace Grimace.

There were very few people who could ruin someone else's good deed with such fresh and refined words.

"Kid, sharp-tongued words aren't a good thing." Master GUI warned coldly, "Remember to look after your neck from now on. He can say goodbye to you at any time!"

With that, the entire ball of ghost mist retracted and took ghost eye and the others away.

Before leaving, Ghost Eye's eyes were filled with unwillingness. The meaning in his eyes was very obvious. It meant that they would come again.

Won't stop until one of them dies?

The corners of Su Yu's mouth curled up in an unnoticeable arc. Did he really think that his plan was over?

No, it had only officially begun now!

After everyone from the Sword Whisper Pavilion had left, the first palace master put away the Holy Grail of light with an ugly expression.

He looked at Su Yu with a hint of apology, "Young master Su, it worked."

In front of outsiders, his most precious keepsake of his inheritance had been stolen. As the first palace master of the generation, it was indeed something that made people laugh.

Su Yu comforted him, "First palace master, there's no need to be like this. Every horse has its hoof. There will always be times when a person is careless! I think it's better for first palace master to be on guard in the future. The people from the Sword Whisper Pavilion might not let the matter rest."

With the way the Sword Whisper Pavilion acted, they would usually not let the matter rest until they reached their goal.

"I understand." Great Palace Master clenched her fists. She had nowhere to vent the anger in her heart.

She did not chase after them. Firstly, it was because she was afraid of teacher Gui's strength. Secondly, she did not want the battle between them to affect the glazed ancient cave.

Hence, she had nowhere to vent her anger.

The only thing that was gratifying was that Su Yu did not look down on her and instead took the initiative to comfort her.

This made her sense Su Yu a lot better.

After thinking for a while, she took out a drop of milky white spiritual liquid from the Holy Grail, she said, "This is the divine liquid of light that is unique to the palace of light. It is the Divine Deer of light's favorite food. It is passed down from that mysterious old Daoist, Zhuo Tianran. However, even the divine deer of light only takes it once every hundred years."

"This drop is for you. If you have a spiritual pet, give it to it to consume. It will be beneficial to it."

Su Yu accepted it with a calm expression and said with a sincere expression, "Thank you, Great Palace Master! Then I shall take my leave."

He looked around vigilantly, as if he was afraid that the Sword Whisper Pavilion would come back to take revenge on him.

"Mm, let's go quickly. Be careful along the way," said the Great Palace Master.

Su Yu had just left and returned to the inn where the nightless Imperial Kingdom was stationed.

After arriving at the Inn, Su Yu set down a spatial barrier.

"Wow, that First Palace Master was sold by Master, and he even helped master count the money. You're really bad." The little qilin came out and said with a smile.

It was clearly Su Yu who had stolen the keepsake of the inheritance, but in the end, not only did the first palace master misjudge the Sword Whisper Pavilion, he even rewarded Su Yu with a drop of precious divine light liquid.

Su Yu smiled, "I'm afraid I'll have to sell that great palace master again."

With a flick of his finger, he threw the divine light elixir over.

The little qilin opened his mouth and swallowed it.

A warm energy was slowly released from the Little Qilin's body, causing him to roll on the ground comfortably. "Good stuff. I feel that my cultivation is improving again."

"You're not going to break through again, are you?" Little Qilin had only broken through a short while ago.

Little Qilin laughed. "It's still early. If there are another hundred or so drops, it shouldn't be a problem."

Su Yu suddenly smiled mysteriously. "Then do you want more divine light liquid?"

Little Qilin also had a wicked smile. "You want me to steal it again?"

Who else in the world other than little qilin could steal the inheritance keepsake from the storage world of the Great Palace Master of the Palace of Light without anyone noticing?

Little Qilin was the one who stole the Holy Grail of light. Then, Su Yu's soul brought it to the abandoned manor and hid it.

Then, he played along and appeared to lure Ghost Eye and the others over.

It seemed like a simple process, but the timing had to be precise. Otherwise, it would be very easy for ghost eye to see through it.

"Alright!" Little qilin tasted the sweetness of the Holy Grail of light and was very motivated.

Half a day later.

The little qilin came back in a huff and lay on the ground. "That detestable old woman hid the Holy Light Cup somewhere. I couldn't find it after searching for a long time. I'm so angry!"

Su Yu was not too surprised. The loss of the Holy Light Cup once was enough to wake the head palace master up. How could he allow him to lose it a second time?

"Then what did you steal?" Su Yu asked.

The little qilin said fiercely, "That old woman hid the Holy Grail and didn't let me drink it. So, I stole something very important from her."

"What is it?" Something very important. What could it be?

"The undergarment, the tube top, and the close-fitting clothes. I stole them all!" The little qilin said angrily.

UH --

Su Yu was stunned and asked, "Where are the things?"

"They have already been sent to the rooms of ghost eye and the others. Every room has one, and not a single one has been left behind," little qilin said unhappily.

Su Yu gave a strange smile. "Now we can rest easy and not be afraid of being disturbed."

On the other side.

In a secret room, ghost eye and the seven people gathered in secret once again.

"This great defeat was largely due to underestimating the enemy. Don't be discouraged. We can start over again,"ghost eye comforted the depressed people.

"You're right, we were tricked by Su. This detestable anger, we can't let it go like this no matter what."A member of Nine Swords Pavilion clenched his fist and said.

His words immediately aroused their indignation.

"Right, we must make that despicable person pay the price!"

"Too Shameless! He clearly stole it himself, but in the end, he framed us for it!"

"Did you see his expression when he was beside the Great Palace Master? That look of innocence on his face is really infuriating!"

"Yeah, how can there be such a shameless person in this world? How could he do such a thing!"

..

Ghost Eye, who was listening at the side, had no choice but to cough dryly and interrupt their conversation.

The things of Schemers were considered wisdom in the eyes of their own people, but crafty in the eyes of their enemies.

When they evaluated Su Yu in this way, they were also talking about themselves.

In terms of meanness, shamelessness, and shamelessness, they were not inferior to Su Yu.

"Ahem, everyone, take a rest first. Go back and think about it. Brainstorm and see if there is a better way to punish Su Yu,"ghost eye suggested.

Everyone nodded. They could not swallow their anger if they did not teach Su Yu a lesson.

Ghost Eye pondered as he returned to his room.

Dozens of strategies flashed through his mind, but the once confident ghost eye was now very hesitant.

He was worried that Su Yu would see through everything like last time. In the end, he would be led by the nose and fall into a trap.

While he was thinking, he opened the restriction of his residence and entered the room.

Just as he entered, a faint fragrance entered his nose.

Ghost Eye returned to his senses and walked along the fragrance. He found a pink tube top on his bed.

“Tube top, whose?” Ghost Eye picked it up and rubbed it. He was slightly confused. His residence was protected by a restriction. Outsiders should not be able to enter at all.

Just as he was puzzled, a voice that caused his soul to scatter appeared.

“Of course it’s Mine!”

The Ghost Eye was almost scared to death. Without even thinking, it ran out.

However, before it could even take a step, it was hit on the head by a destructive palm.

Puff --

As an eye, it was almost turned into ashes on the spot. Only a portion of its remnant soul escaped.

And this was the result of the Sword Whisper Pavilion Master, the ghost teacher, discovering it in time and stopping it.

“Luminous Jade, are you crazy? You actually attacked in Veluriyam capital. Aren’t you afraid of affecting the Veluriyam Ancient Cave?” Ghost Teacher’s furious Roar came from the sky.

Unexpectedly, the luminous jade seemed to have gone mad and attacked ghost teacher without a care. “What Veluriyam Ancient Cave? All of you can go to Hell. Even if I destroy the Veluriyam ancient cave today, I will burn all of you despicable insects into ashes!”

She was really furious!

First, she stole her holy grail of light, and then she came to steal her bra, undergarment, and other close-fitting clothes!

And the members of the nine swords pavilion each got a share!

This was simply a blatant provocation!

How could the radiant jade not be angry?

Bang Bang --

The sky flashed with a muffled thunder-like sound, and the entire Veluriyam city shook.

Sovereign Xiao Lifeng’s expression changed, and he immediately rushed forward to mediate.

If this continued, it would really affect the veluriyam ancient cave below.

Only then did the jade of light gradually stop. However, its jade face was red with anger, and it said in embarrassment, “Tell your group of brats not to leave the manor even half a step. Otherwise, I will kill every single person I see, and exterminate every single group I See!”

The jade of light, who had always had an amiable and magnanimous image, flew into a rage.

The oath it had made was even more fitting for Heaven and earth.

Whoosh --

Filled with rage, the jade of light left, but it didn't go far. Instead, it waited in secret.

As long as it saw an opportunity, it would immediately make a move on ghost eye and the others.

Teacher Ghost was both angry and angry. Ghost Eye and the others had been in the manor the whole time. They hadn't left even half a step, so how could they have the chance to steal the jade of light's tube top?

Moreover, what was the use of stealing this thing?

However, the radiant jade didn't listen to his explanation at all. They were caught red-handed and caught red-handed. How could she listen to his explanation?

Master Gui returned with a dejected face and immediately healed ghost eye's injuries. At the same time, he summoned the other six pale-faced nine sword pavilion members to his side.

Obviously, they had all heard the radiant Jade's angry oath.

Now, they were being targeted by a super expert. Who Wouldn't be afraid?

“During this period of time, all of you stay by my side and leave step by step.” This meant that they couldn't leave the manor even an inch until they reached the ancient glazed cave!

Thinking of this, they were both afraid and angry.

Chapter 2333 Ancient Glazed Platform

Naturally, they were afraid of the death of the Bright Jade.

Of course, they were angry because of Su Yu.

As the saying goes, when a person sits at home, trouble comes from the sky!

What did they do? Wasn't it just a closed door to discuss conspiracy?

Why was it that they were inexplicably framed as a strapless thief, and were even targeted by one of the three super powerhouses of the glazed civilization?

The resentment in their hearts, the injustice!

Ghost Eye was the most miserable. His soul was almost shattered by the inexplicable beating. In the following days, he had to continue to heal.

“Su, I'm not done with you!” Ghost Eye roared at the sky.

In the following days, glazed era city was indeed peaceful.

There were no more people from the Sword Whisper Pavilion on the streets, let alone those who came out to cause trouble.

The people from the Eternal Night Imperial Kingdom and the Palace of light had found peace that they hadn't seen for a long time, and they felt exceptionally comfortable.

They didn't quite understand why this was the case.

Even Xie Xiaoyue and the others.

In a private room in a restaurant controlled by the Eternal Night Imperial Kingdom.

Su Yu, heartless constable Wu Xin, Xie Xiaoyue, and Xuan Hua were having a small gathering.

“How did you put our great palace master’s bare chest into the hands of the people from the Sword Whisper Pavilion?” Xuan Hua asked with a cold expression.

How could Su Yu admit it?

Shrugging his shoulders, Su Yu said helplessly, “These words are too unfair to me. Even your great palace master is sure that it was done by the Sword Whisper Pavilion. Why do you think I Did It?”

“Don’t Quibble!” Xuan Hua said with a straight face.

Others might not know, but didn’t she know that Su Yu had previously said that he wanted to take care of them personally?

The result now was exactly the same as what Su Yu had planned.

It would be extremely difficult to believe that everything was not Su Yu’s doing.

The heartless constable threw a knowing smile at Su Yu. “I didn’t expect that other than your strength, your calculative ability is also quite brilliant.”

When Su Yu said that he wanted to take care of them personally, she was very confused about where Su Yu’s confidence came from and where Xie Xiaoyue’s confidence in Su Yu came from.

Now, she finally understood one thing. Su Yu seemed to be quite good at using strategies.

He had actually fooled the people of Sword Whisper Pavilion.

One had to know that Sword Whisper Pavilion’s Ghost Eye was an expert at scheming. It was extremely difficult to set up a trap for him.

In the end, Su Yu really succeeded!

Xie Xiaoyue, who was at the side, was laughing happily. She looked at Su Yu with admiration in her eyes. “When it comes to scheming, probably no one is Su Yu’s match. Ghost Eye can only admit his bad luck when he meets him.”

Su Yu looked innocent. “Sigh, I already said that it has nothing to do with me. How could I have the ability to steal the bra of the Palace Master of Light?”

“HMPH!” Xuan Hua said angrily. She knew that it was Su Yu’s doing, but she could not find any evidence. She could only glare at him.

Su Yu coughed dryly and changed the topic. “The ancient glazed tile cave will officially open in a few days. I wonder if you know the situation inside.”

Xuan Hua was the only one who had the right to speak.

Su Yu, Xie Xiaoyue, and constable heartless were all outsiders. Only Xuan Hua was born in the glazed era.

Xuan Hua became serious, shook his head, and said, "I know very little because the last time the ancient glazed cave opened was quite a long time ago, at least several generations before the palace of Light."

Wu xintie said, "Please enlighten me, Miss Xuan Hua."

"Well, I will tell you sooner or later." Since they were working together, they should share information. "What I know was told to me by our Great Palace Master. According to her, the ancient glazed cave is divided into three levels: Heaven, earth, and man."

"The human level is the lowest level, the earth level is the middle level, and the highest level is the heaven level."

"In each level, there is an ancient glazed platform. Sitting cross-legged on it, one's cultivation speed will be ten times faster than that of the outside world. Moreover, the middle sea of the stone platform will release a mysterious aura that is beneficial to the cultivation of the DAO Master. In the five years of cultivation of the 'human'weight, the probability of breaking through to the level of a dao master is 30% . In the five years of cultivation of the 'earth'weight, the probability of breaking through is 60% . In the cultivation of the ancient platform of the 'heaven'weight, the probability of breaking through is 100% !"

After listening, Xie Xiaoyue and constable heartless displayed different performances.

The former's eyes revealed deep excitement, while the latter was more reserved. Although no emotions could be seen on the surface, the excitement in his heart could still be seen.

Even Su Yu yearned for it.

100% breaking through to the DAO Master realm was truly amazing!

Unfortunately, Su Yu had yet to break through to the Dao master realm, so this aura should be useless to him.

But it should still be of great benefit to the little qilin.

"Is there a difference in the difficulty of the third sky?" Thought the heartless catcher.

The greater the reward, the greater the risk.

"Yes! There are many family head-level glazed monsters in the human level. They can devour those who enter and turn them into a part of the ancient glazed cave. Occasionally, there are even fish-dragon realm glazed monsters."

Su Yu already knew that the Master of the fish-dragon realm was at Xia Yi'an's level.

Thinking of this, his heart became more solemn.

Was the 'gravity of man'so dangerous?

“The ‘gravity of Earth’ is not recommended for entry. The glazed monsters at the lowest level are all at the fish-dragon realm. There is even a glazed monster emperor whose strength is equivalent to that of our Great Palace Master.” At this point, Xuan Hua had already stopped dreaming about the weight of the word ‘earth’.

“As for the weight of Heaven and earth, it is forbidden to enter there! “It is even unknown whether there is a glazed ancient stage in the weight of Heaven because no one has ever practiced in it.” A deep fear appeared on Xuan Hua’s face. “According to the Great Palace Master, the lowest level of the glazed monsters in there is the same as her. It is very likely that there are powerhouses who are far stronger than her.”

The ‘heavenly gravity’ at the end probably did not even dare to enter the luminous jade.

Even if she joined hands with Master Gui and Xiao Lifeng, they might not be able to enter and leave easily.

“Therefore, the great palace master suggested that our target is the ‘Human Gravity’. This time, we are only cultivating. There is no need to risk our lives. Otherwise, if we run into danger, the losses would outweigh the gains.”

Hearing this, Xie Xiaoyue sucked in a breath of cold air. “What kind of place is the glazed ancient cave? How can there be such a terrifying glazed monster?”

It was also the first time that the heartless iron catcher had heard of it. He nodded and said, “It is indeed unexpected. There is such a place inside the glazed civilization. I really don’t know how it was formed.”

Su Yu frowned.

The more powerful the creatures were, the more resources they would consume to grow.

Those glazed monsters were so powerful that the resources they consumed were unimaginable.

Could a small ancient glazed cave accommodate so many creatures to grow?

His heart was filled with questions.

“Is there any other information?” Su Yu asked.

Xuan Hua shook her head. “That’s about it. However, the Sword Whisper Pavilion should know more because the ancient glazed cave was discovered by the founder of the Sword Whisper Pavilion. No one knows how many secrets they inherited from the ancient glazed cave.”

Su Yu and the other two frowned slightly. With the way the Sword Whisper Pavilion did things, there was no doubt that they were hiding something.

They really had to be on guard against the Sword Whisper Pavilion when they went to the ancient glazed cave!

“Let’s call it a day. We will set off in three days,” Xuan Hua said.

Su Yu nodded. After learning of the dangers of the ancient glazed cave, Su Yu did indeed need to make some preparations.

“Oh right, I heard from the Great Palace Master that your Eternal Nightless Empire is going to add two more representatives at the last minute,” Xuan Hua suddenly recalled and asked.

Su Yu was slightly at a loss: “The monarch has never mentioned this to me before.”

Currently, the Eternal Nightless Empire only had a few representatives, and they were respectively Su Yu, heartless capture, Xie Xiaoyue, and Princess Qianyue. The rest of them couldn't bring themselves to take action at all.

Where did the other two come from?

“So it turns out that you don't know either. Looks like those two paid quite a hefty price to be able to enter.” Xuan Hua said indifferently.

The more people from the nightless Imperial Kingdom, the more powerful their cooperation would be.

The group of people dispersed.

Su Yu thought about it for a moment, then didn't pay much attention to it. He returned to his residence to make preparations in peace.

Currently, the greatest treasure he had on him should be the remnant yuan level domain.

Next would be the undying soul stage.

Within a few days, he had combed through all of his knowledge and adjusted his state of mind, making it easier for him to arrive at the agreed center of the city three days later.

At that time.

Bright Jade, Xiao Lifeng, and teacher GUI were all present.

Of course, the atmosphere between the three of them was not very friendly.

Bright Jade's pair of eyes that were overflowing with killing intent continuously swept over Ghost Eye and the others, staring at them so much that they did not dare to raise their heads.

Teacher Gui, on the other hand, stared coldly at Bright Jade.

Xiao Lifeng, on the other hand, stood firmly by Bright Jade's side, standing on equal footing with teacher Gui.

The arrival of Su Yu and the others drew Master Gui's cold eyes.

Especially when he noticed Su Yu, the Fury in his eyes could not be more obvious!

Su Yu was not afraid at all, staring straight at Master Gui.

All of a sudden, Su Yu faintly felt that something was wrong with Master Gui, but he could not pinpoint what was wrong.

“Kid, take another look and gouge out your eyes!” Master GUI said coldly.

Before Su Yu could say anything, bright jade said coldly, “Is that so? Then I’ll exterminate all your disciples and leave no one alive!”

Xiao Lifeng also stepped forward and snorted, “Master Gui, you’re a senior after all. How about having some magnanimity?”

Magnanimity?

Master Gui was so angry that he almost vomited blood. What Su Yu did did did not seem like something that a junior could do. How could he have the magnanimity to forgive him?

However, this wasn’t the time for an argument.

“Is everyone here? Let’s hurry up and set off,” master GUI urged.

Everyone from the Palace of light was here, but the Eternal Night Imperial Kingdom wasn’t.

At this moment, a white cloud flew over from afar.

Three people stood on the cloud.

Su Yu looked over. Other than one of the people in the bamboo hat who was deliberately hiding his true appearance, he actually knew the other two people.

One of them was the number one aristocratic family’s Bi Yun Hong Xian!

The other person who was leading the way could be considered an old acquaintance.

“Greetings, your majesty. The two of them have been brought here.” The person who spoke was a scholar who seemed noble and proud. He had an aloof temperament and seemed to be out of place in the secular world.

However, he had to bow and scrape in front of the monarch. He did not have the integrity that a superior person should have.

Who was this person? It was obvious!

“Thank you for your trouble, Layman Qingyuan,” the monarch said indifferently.

This person was layman Qingyuan. Previously, he had been sent by the monarch to Veluriyam city to prepare for matters related to the ancient glazed cave.

Not long ago, he was ordered to bring two new members here.

Layman Qingyuan said, “It is the duty of the subjects to serve His Majesty.”

He lowered his posture and stood to the side.

Unfortunately, Su Yu was beside him.

He subconsciously gave Su Yu a kind smile and said, “Next, I will have to trouble you to fight for the imperial kingdom... Fight For... Su Yu?”

The next moment, scholar Qing Yuan’s eyes widened.

Chapter 2334 The Emperor Bestows Needles

How could he not know Su Yu?

That young man who delivered the letter for the extermination of the seven unique civilizations was a particularly annoying junior because he contradicted him!

He had almost forgotten about this person. He had never thought that he would meet him here.

When he returned to his senses, Layman Qing Yuan mistook Su Yu for an unimportant person. He just happened to stand beside the heartless iron constable and waved at him, his tone was slightly impatient and contemptuous. "Please make way. Don't block the representatives of the Imperial Kingdom."

Su Yu rubbed his nose and wanted to say something, but when he saw the pretentious and aloof layman Qingyuan, he took a step back.

"It's true. There are no rules at all. Anyone can stand here!" Layman Qingyuan stood at Su Yu's original position and said indifferently without looking askance.

Constable Heartless frowned and asked, "Who are you?"

Scholar Qing Yuan immediately put on a pleasant expression and said, "You are the famous constable Heartless, right? I'm scholar Qing Yuan. I've heard a lot about you."

Constable Heartless said indifferently, "I'm asking, why are you standing by my side?"

UH --

Scholar Qing Yuan was stunned. He thought, could it be that Su Yu, a nobody, could stand here. As the teacher of Princess Qian Yue and the famous immortal venerable Qing Yuan, he had to stand aside?

However, due to the importance of the heartless iron constable in the eyes of the monarch, Layman Qing Yuan only dared to curse in his heart and obediently stood back.

He met Su Yu again as he retreated.

Layman Qing Yuan almost bumped into him as he retreated. His expression turned cold as he said, "Do you even have ears? How can a nobody like you come to this place? Scram!"

He had eaten a belly full of dust at the heartless catcher's place and was extremely angry. He happened to bump into Su Yu, who did not look good to him, so he naturally did not hold back.

"Hehe..." Su Yu laughed. A nobody?

However, he did not argue. Under Layman Qingyuan's gaze, he continued to retreat until he was in the middle of the crowd and left the center of the scene.

Only then did scholar Qingyuan lightly harrumph and look away.

The monarch was arranging for Bi Yun Hong Xian and the man in the bamboo hat, so he did not notice the situation here.

"Come, you two should get to know each other." The monarch brought the two of them to the meeting place and introduced them to Constable Heartless, Xuan

Hua, and the others. He said, "This is Bi Yun Hong Xian, you should have met her before."

Constable heartless had met her once before. He nodded his chin, indicating that he was greeting her.

"This is young master long. Due to some special reasons, he can not reveal his true appearance to others. Please understand."The monarch introduced the man in the bamboo hat.

"I hope that we can work together happily."The man in the bamboo hat's voice was hoarse.

Constable heartless took another glance at the man in the bamboo hat. She could tell that this person was even disguising his voice.

For some unknown reason, he had to conceal his voice so deeply.

After introducing the two of them, the monarch began to introduce the people from the Eternal Imperial Kingdom and the Palace of light. Raising his hand, he introduced, "This is... where is he?"

The direction he was introducing was precisely the place where Su Yu was standing.

Why had he turned around and Su Yu disappeared without a Trace?

Constable heartless cast a glance at the crowd behind her, only to see that Su Yu had his arms crossed in front of his chest. He was as calm as a spectator, and she couldn't help but laugh.

What was he trying to do?

The monarch followed his gaze and asked in astonishment, "Young master Su, what are you doing?"

Why did the representative of the Eternal Nightless Empire retreat into the crowd?

Su Yu said helplessly, "He was chased here by someone. There's nothing I can do. He has a lot of power, and I'm afraid of offending him."

Chased away by someone?

The monarch felt that Su Yu was joking. In the current Eternal Nightless Empire, who did not know that Su Yu was his appointed chief representative?

Who Didn't know that Su Yu's personal strength was beyond compare?

Who Dared to chase him away?

"Who is it? Tell me about it?"The monarch asked in surprise.

Su Yu said, "Whoever stands where I should be standing, that is who."

The monarch looked over and saw that Su Yu's previous position was completely empty.

Looking further ahead, he saw scholar Qing Yuan standing slightly behind him. In addition, his face was abnormally pale and his eyes were rapidly dodging. The monarch's expression instantly darkened. "You chased young master Su into the crowd?"

Plop --

How dignified was the emperor?

With just a glance, the resistance in scholar Qing Yuan's heart was completely gone. He kneeled on the ground and cried out, "Emperor, please spare my life! Emperor, please spare my life! I-I didn't know that he was the representative of the Imperial Kingdom?"

In fact, even at this moment, he couldn't believe that a mere half-step dao master had become the chief representative of the entire Imperial Kingdom.

"You don't know?" The monarch glared at him angrily.

The Sword Whisper Pavilion and the surrounding spectating warriors were already whispering to each other.

On such a solemn occasion, scholar Qing Yuan had actually committed such a blunder, causing him to lose a great deal of face.

"Get lost!" The monarch was furious, wishing he could slap this old thing to death. "Within a hundred years, you are not allowed to enter the eternal nightless Imperial Kingdom even half a step further."

He was still unable to vent his hatred and directly chased scholar Qing Yuan out of the imperial kingdom, not allowing him to enter again.

Scholar Qing Yuan's face turned pale, and he instantly lost all hope.

The Immortal's Cave that he had worked so hard to build for so many years had been torched by someone. Now, he didn't even have a place to stay!

"Father, there's no need to be so harsh, right? At least he was once my teacher." Princess Qianyue stood out and spoke up for him.

It wasn't that she was too concerned about the teacher-student relationship between scholar Qingyuan and her, but she didn't want Su Yu to gain the limelight.

Just because he offended Su Yu, he wanted to expel the famous scholar Qingyuan from the Imperial Kingdom. Wasn't father placing too much importance on Su Yu?

"Shut up." Who knew that the emperor, who had always doted on her, would sternly shout, "He was so harsh on the pillar of the Imperial Kingdom, a meritorious official. Even if he didn't cripple his cultivation, it can be considered a lenient punishment!"

Princess Qianyue stuck out her tongue. Sensing that her father was truly angry, she didn't dare to carelessly plead for mercy.

The monarch looked at scholar Qingyuan. The latter trembled and immediately left.

“Wait, return the nine-five heavens cold needles that I bestowed upon you,”the monarch said.

The nightless Imperial Kingdom had a total of 99 nine-five heavens cold needles, and one of them had been bestowed upon scholar Qingyuan.

Now that he was going to drive him out of the nightless imperial kingdom, he naturally had to take back the needles.

Hearing this, layman Qing Yuan’s body trembled violently, and he pulled a long face as he unwillingly took out the 95 heaven freezing needles.

This was one of his most powerful magical treasures, and it was gone just like that!

If Princess Qianyue hadn’t pleaded for mercy just now, perhaps the emperor wouldn’t have remembered. But now!

Princess Qianyue lowered her head with an apologetic look on her face. Not only did she fail to save layman Qingyuan, she had even harmed him.

Layman Qingyuan was chased away with his face covered in dust under everyone’s gaze.

The monarch came before Su Yu just now and his expression softened. He said, “I’m very sorry for making you suffer.”

Su Yu shook his head. “He didn’t do anything to me. What’s there to be wronged about? It’s fine.”

Even though he said so, the monarch still felt a little embarrassed. His own people actually almost chased Su Yu away like he was an ordinary person in front of the ancient glazed cave. No matter what, it was his dereliction of duty.

“This nine-five heavens cold needle will be given to you for self-defense. It can be considered a little compensation.”The monarch thought for a moment and conveniently gave the needle that he had just retrieved to Su Yu.

Instantly, Princess Qianyue cast a jealous gaze at him.

The nine-five heavens cold needle was not so easy to give away. Unless it was someone who had made a great contribution to the imperial kingdom, no one would be able to obtain it easily.

Layman Qingyuan was able to obtain one because she had been doted on by her father and had acted coquettishly to get it.

Even so, she had spent a great deal of effort.

But now, she had given it to Su Yu.

The heartless catcher was also surprised. She had never received such treatment!

The monarch had high hopes for Su Yu!

Xie Xiaoyue was also very envious. It was said that the 95 heaven freezing needles were made by the monarch of the first generation of the eternal nightless empire. There were a total of 99 needles,

and each of them had the ability to seal the DAO Master of the fish-dragon realm into ice chips on the spot.

She did not expect Su Yu to get one so easily.

Su Yu was also a little envious of this item. He bowed gratefully. "Thank You, Your Majesty."

"Hehe, use it wisely." The emperor exhorted and introduced Su Yu to Bi Yun Hong Xian and the man in the bamboo hat.

"This is the imperial kingdom's chief representative, Su Yu," the Emperor introduced.

Bi Yun Hong Xian smiled gently and teased, "You have quite a lot of names."

In the number one aristocratic family, he called himself Su Ruchu, and in the glazed tile civilization, he also called himself Su Yu.

Which one was his real name?

Su Yu replied with a faint smile.

When his gaze swept past the man in the bamboo hat, he vaguely sensed a very faint trace of hostility.

Su Yu sized him up and said, "Brother, have we met before?"

The man in the bamboo hat replied hoarsely, "No."

If not, where did the hostility come from?

Su Yu was slightly wary. This person had most likely met him before and had a grudge with him.

Su Yu retracted his gaze without batting an eyelid and nodded with a smile.

"Are you done with the introduction? Let's begin. Don't waste time." Teacher Gui said impatiently.

Xiao Lifeng and the bright jade looked at each other and nodded in agreement.

"Everyone, listen up. Once the entrance of the ancient glazed cave is opened, two passages will appear. They will not last for more than three breaths. You must enter within three breaths," Xiao Lifeng reminded them solemnly.

Yang Hua from the palace of light asked, "If you don't pass, what will happen if you get stuck in the passage?"

"You will die," Xiao Lifeng answered succinctly and affirmatively.

Die?

Everyone immediately became more solemn.

"So, you have to be quick. There must be no delay," Xiao Lifeng reminded them again. "Does anyone have any questions?"

The muscles of the group of Heaven's favorites tensed up. They were ready to sprint with all their strength. They kept their mouths shut and stared at the area a thousand feet in front of them.

That was where the two entrances appeared.

“Get Ready!” Xiao Lifeng shouted loudly. Then, he exchanged a glance with the bright jade and the ghost teacher and opened his own space world at the same time.

Their arrival this time had brought about the accumulation of a hundred years in their respective factions. They had practically emptied out all of their respective factions.

In order to create hope for the prodigies they had nurtured to enter an eight star civilization, they could be said to have exhausted all of their resources.

Huala --

The cave abode world opened, and the majestic and suffocating resources within all began to burn.

Burning Purple Flames flowed out from the three space worlds and converged a thousand feet in front of them.

As more and more resources were burned, the flames gathered became more and more vigorous and formed the shape of two doors.

It was coming!

Su Yu was on high alert and most of his attention was focused on the front.

However, because he was on guard against Young Master Long and the Sword Whisper Pavilion, he still paid some attention to them.

Who knew that when he paid attention to them, he actually discovered something unusual!

Chapter 2335 Eat Your Own Medicine

The members of the Radiant Palace and the nightless imperial kingdom were staring intently ahead. However, the members of the Sword Whisper Pavilion seemed to be paying attention ahead as well, but in reality, they weren't!

From time to time, they would glance behind them. At the same time, their bodies weren't sprinting forward, but backward!

Su Yu immediately realized that something was amiss.

“Be careful, behind us...”

However, it was already too late for Su Yu to warn them.

The two gigantic doors in front of them were still slowly forming. However, without any warning, a gigantic purple door appeared behind them.

The people from the Sword Whisper Pavilion were already prepared for this. All the members of the Nine Swords Pavilion flew in at high speed.

By the time the Palace of light and the nightless empire noticed them, they had already flown in.

In the short span of three breaths, two whole breaths had already passed.

There was only one breath left for them to react. There was simply no way for them to successfully break in.

Only Su Yu had noticed in advance and still had a chance to break in.

He sighed inwardly. The Palace of Light and the nightless imperial kingdom had still been careless.

The people of the Sword Whisper Pavilion clearly had the most knowledge of the ancient glazed cave, so they should have taken precautions.

In the end, they were too superstitious and believed that the passageway would definitely condense in front of them, and they had just fallen into the passageway.

Su Yu had no time to care about the people of the radiant palace and the nightless Imperial Kingdom. Only he could react in time.

Only he could enter first and see if he could think of a way to open the passageway from the inside before allowing the people of the radiant palace and the nightless imperial kingdom to enter.

Xiu --

Like an arrow released from a bow, Su Yu instantly shot towards the entrance.

However, just as he was about to enter, a ghastly and terrifying ghostly hand grabbed towards him.

“Junior, this old man is here, do you think you can behave atrociously?” Master Gui had long noticed Su Yu and noticed that he had noticed it in time, so he immediately moved to stop him.

Su Yu’s heart sank, and he could only withdraw and retreat.

With a spatial domain, he was able to use the space folding method to avoid this claw.

Even so, he was still shaken by the ghost claw until his Qi and blood churned, and there was a bloody taste in his throat.

Xiao Lifeng and the bright jade also rushed over quickly and protected Su Yu behind them. Looking at the giant door that was slowly closing, the two of them were extremely shocked.

“Monarch, not good. The two doors are gone!”

“Great Palace Master, Look!”

Their men immediately reminded him. The two of them turned around and saw that the two giant doors that were formed from flames a thousand feet away were rapidly shrinking!

The two of them turned pale with fright and glared at Teacher Gui. “What did you do?”

Teacher GUI said calmly, “Hehe, I don’t have the ability to do anything to the ancient glazed tile cave. It’s just that you don’t know how the entrance to the ancient glazed tile cave is opened.”

As expected, the Sword Whisper Pavilion had intentionally concealed many things.

As a result, when the ancient glazed cave was opened, only those from the Sword Whisper Pavilion who had prepared in advance could enter.

The rest of the people were all blocked outside!

The Light Palace and the nightless Imperial Kingdom had spent a hundred years of accumulation, but in the end, all of them had become the wedding clothes of the Sword Whisper Pavilion.

Xiao Lifeng and bright jade, who had been greatly deceived, could not contain their anger. The ancient glazed cave was related to whether they could survive the destruction of the epoch in the future.

They could tolerate anything, but this matter had exceeded their bottom line.

“Teacher Gui, have you thought about how you want to die?” Radiant Jade’s face was ice-cold.

Xiao Lifeng was also particularly unkind as he stared at him. “Fine, since you won’t allow our eternal nightless imperial kingdom to live, then I’ll risk my broken body to destroy your sword Whisper Pavilion!”

The two of them were truly enraged and had already decided to eliminate the Sword Whisper Pavilion at all costs.

“Hahaha, are you afraid of the two of you?” Master GUI was unrestrained. With a loud laugh, he broke through the air and flew into the sky.

The way the two of them looked as if they could do nothing to him was indeed infuriating.

Xiao Lifeng and Bright Jade, who were extremely furious, moved together and prepared to give chase. They would fight to the death with Master Gui.

However, at this moment, Su Yu reminded them, “Both of you, calm down! Instead of tangling with that old man, we might as well destroy the ancient glazed cave and bury all his precious disciples in it.”

As soon as he said this, the two of them were immediately jolted awake.

The reason why the three of them had agreed not to attack the ancient glazed cave in the ancient glazed city was that they were worried that their strength would be too strong and affect the ancient glazed cave.

In the past, they had always restrained themselves in order to protect that place.

Now that the Sword Whisper Pavilion had played the game of extermination and excluded all the people outside of them, what was there to be worried about?

Moreover, Master Gui’s behavior was rather suspicious.

This person had always been fierce, but he had already flown into the sky before the battle even started. His intentions were clear as day.

He lured the two super experts away and created a safe environment for the Sword Whisper Pavilion’s chosen to enter the ancient glazed cave.

After understanding this point, Xiao Lifeng and Guangming Yu looked at each other and discovered the crazed desire for revenge in each other’s eyes.

Boom --

The two of them attacked together, and they moved toward the bottom of Veluriyam City.

Instantly, the entire Veluriyam City was teleported to a safe zone hundreds of millions of miles away by the two of them, revealing the bare ground.

Below was the ancient Veluriyam Cave.

The two of them attacked together with ashen faces.

How terrifying was a full-strength attack from a super powerhouse?

Half of the Veluriyam civilization felt an incomparably huge tremor.

It was as if a dead heart had suddenly throbbed.

The place where they attacked had even left a bottomless abyss, and the remaining destructive power roamed the scorched earth.

Faintly, a special rich spiritual energy was released from the depths of the ground.

That was not the aura of the glazed era civilization, but the glazed ancient cave!

That attack just now had indeed affected the glazed ancient cave!

The two did not stop. After the first attack, they prepared an even more majestic next attack. They looked like they would not stop until they killed the elites of the Sword Whisper Pavilion.

“Stop!”

Master Gui, who had already escaped to the outer sky, came back with a livid face and stopped them in a low voice.

The rest of his eyes glanced at Su Yu, and the killing intent in his eyes reached an unprecedented peak.

It was this kid again!

Without his reminder, Xiao Lifeng and bright jade might not have thought of this in their fury.

It was all because of him that their plan to lure the two of them away completely failed.

“If you say stop, then wouldn't I lose face?” Xiao Lifeng sneered and released the attack that he had been preparing for a long time.

The luminous jade also did not show any mercy. Its cold expression was extremely serious.

Boom Boom --

This time, the surface of the entire glazed era civilization was broken. Countless mountains were shattered, rivers were broken, and countless cities collapsed into ruins.

Their actions had directly triggered a disaster for the Veluriyam civilization.

The area above the ancient Veluriyam Cave, which was the source of the disaster, was even more devastated.

Looking up, the surroundings were beyond recognition. There was no longer any trace of the past. And in the depths of the Earth, an even purer aura surged out, indicating that the ancient Veluriyam cave had been affected even more severely.

Perhaps, the ancient Veluriyam Cave had already undergone an earth-shaking upheaval, causing some of the Sword Whisper Pavilion's members to lose their lives.

Master Gui was anxious and shouted, "Enough! Stop! I have a way to remedy this. Let your people enter the ancient glazed tile cave again."

Xiao Lifeng and Bright Jade did not believe a single word. They continued to prepare their next attack without saying a word.

If they continued to fight, they might really cause problems in the ancient glazed tile cave.

Master Gui was angry and anxious. He hurriedly said, "I, Master Gui, swear to the heavenly axiom that everything I say is true. Otherwise, I will immediately turn into ashes."

The higher the rank of a martial artist, the more binding the oath they swore to the heavens was.

If a super expert like Master Gui swore an oath, once he broke it, he would suffer a backlash from the oath.

Hearing this, Xiao Lifeng and Guang Yu slowly stopped and said, "Speak!"

Master GUI said unwillingly, "According to what we know from the Sword Whisper Pavilion's inheritance, as long as these flames have not been extinguished, there is still hope to open another door."

Xiao Lifeng looked at the dying flames and said, "Tell me the details!"

Bright Jade's heart also became nervous as she stared at the other party.

"As long as you take out another hundred years of accumulation and throw them back into the flames, I'll have a secret technique to summon the door back."

There were two conditions. The first was a hundred years of accumulation, and the second was a secret technique.

"I'll provide the secret technique, but I'm afraid that the accumulation of a hundred years will require the two of you to pay for it yourself," teacher Gui said as he evaded Xiao Lifeng's gaze.

Xiao Lifeng angrily snorted. "Why should we pay? Everything was caused by your sword Whisper Pavilion, so of course you have to take responsibility!"

Bright Jade had the same attitude. What a joke! The Sword Whisper Pavilion had wasted 200 years of their accumulation, and they still needed to pay for another 100 years?

Large-scale factions like theirs were constantly consuming huge amounts of resources.

The resources they had stored were only enough to sustain their forces for 150 years.

They had already used up 100 years, and the remaining resources were only enough for 50 years. This was already their limit.

If they had to use up the last 50 years of their accumulation, what would their forces eat, drink, and cultivate with?

They would probably fall apart in a short period of time.

Therefore, they naturally wouldn't do it!

Master Gui, on the other hand, had a shameless look on his face as he said, "If you guys are unwilling, there's nothing I can do. I don't have many resources left in the Sword Whisper Pavilion, so I can't pay for a hundred years' worth of resources."

Xiao Lifeng and Bright Jade's faces were ashen. In the end, it was still a dead end!

"You're wasting your breath!" Bright Jade shouted coldly as he prepared to attack once more, preparing to launch an all-out attack on the ancient glazed cave.

Xiao Lifeng also shook his sleeves and vowed to take revenge on the Sword Whisper Pavilion.

Master Gui was anxious and regretful.

The current situation was that if those people really died in the ancient glazed cave because of the mutation, their efforts would be in vain.

Just when both sides were riding on a tiger, Su Yu suddenly stood out and said leisurely, "Sword Whisper Pavilion Master, all the resources should be borne by you. If you can't pay now, I don't mind you writing an IOU."

IOU?

Xiao Lifeng and Guangyu were startled. What nonsense was Su Yu talking about?

Could it be that a half-step dao master like him could take out the hundred years of accumulation of a force like theirs?

Although Master Gui hated Su Yu, at this moment, he had no choice but to suppress his anger and said, "You can give out so many resources?"

"Of course." Su Yu's heart moved. He released the nine Jade Spirit Pearl and poured out all the resources inside.

Ever since he stepped into the martial path, he had seized countless magical treasures, broken through countless ruins, and secret realms. The wealth he had obtained over the years had accumulated to an unimaginable extent.

Although each harvest was nothing compared to the resources of the glazed era civilization, the accumulation of small gains made up for large gains. In addition, he himself did not consume much, so he had accumulated a lot.

Chapter 2336 Terrifying Lizard

Moreover, he still had a lot of absolute beginning qi, so this item could be considered as a resource.

Besides that, there were many immortal plants that were at least tens of millions of years old growing in the nursery of the supreme breathing soil.

When all of these were gathered together, it was barely enough for one of the three big forces to accumulate for a hundred years.

Looking at the endless accumulation of resources, Xiao Lifeng and the bright jade were shocked, but they were also overjoyed.

One can not judge a book by its cover!

Su Yu was only a half-step dao master, but he was able to accumulate the entire sect's resources over a hundred years?

Even Xie Xiaoyue, who knew a lot about Su Yu, was stunned. She never expected Su Yu to be so rich!

Teacher GUI heaved a sigh of relief and asked, "Alright, use these resources first. I'll return them to you after a hundred years."

A hundred years later, the era would be destroyed. Whether Su Yu would still be alive was another matter. How could he pay off his debts?

"Hehe, do you think I'm a three-year-old child, Sword Whisper Pavilion Master?" Su Yu sneered. "The era will be destroyed in eighty years. If you die, how will you repay me?"

Master Gui's little scheme did not escape Su Yu's eyes.

He felt guilty and said, "You can't say that. In a hundred years, My Sword Whisper Pavilion will definitely still exist. When that time comes, you can come... Hey, why are you keeping it?"

Su Yu was retrieving all the resources back into the nine jade spiritual pearl. He said calmly, "Since the Sword Whisper Pavilion can't give you an IOU, this deal will be voided."

Xiao Lifeng and Guangyu felt their hearts ache as they watched. However, they could not bring themselves to ask Su Yu to give them these resources for free.

They could only make things difficult for Master Gui. They shouted, "It seems like you don't have any sincerity. Since that's the case, there's no need to talk about anything else. Let's just destroy the ancient glazed cave and end this once and for all!"

As they spoke, the two of them attacked again.

Master Gui could only stop them. He said, "Alright, Alright. I'll write the IOU, but what exactly do you want, Su Yu? If you ask me to repay those resources within a few years or a few decades, I definitely won't be able to repay you."

A wisp of wisdom flashed across Su Yu's eyes. "It's very simple. If you mortgage the entire Sword Whisper Pavilion to me now, I'll lend you these resources. When you pay off the resources one day, I'll return the Sword Whisper Pavilion to you. Of course, the resources lent to you have to be counted as benefits. I'll pay you back ten percent more every year."

Upon hearing this, teacher Gui was furious. "Ridiculous! What right does this old man have to mortgage the Sword Whisper Pavilion to You?"

Didn't this mean that the sword whisper pavilion had become Su Yu's possession?

Even if he really paid off the debt a hundred years later, would the Sword Whisper Pavilion still be the original Sword Whisper Pavilion after Su Yu had managed it for a hundred years?

He was afraid that he would have to take everything from Su Yu!

Su Yu shrugged. "Then it's up to you."

Seeing that the deal had failed, Xiao Lifeng and Guang Mingyu glared at him angrily and threatened, "Alright, since you've chosen the Sword Whisper Pavilion and don't want this batch of disciples who have entered the ancient glazed tile cave, then we have nothing more to talk about."

The two of them once again prepared to attack the ancient glazed cave.

Master Gui's chest felt heavy, and he felt extremely sullen.

How could things have developed to such a state?

He carefully considered whether he should choose the Sword Whisper Pavilion or Ying Lie and the other Heaven's favorites.

The era was about to be destroyed. If he gave up on Ying Lie and the others, who would come back from the eight-star civilization in the future to help the Sword Whisper Pavilion?

However, if he gave up on the Sword Whisper Pavilion, which he had been running for many years, wouldn't he be abandoning the root of the matter?

The reason why they had worked so hard to send more prodigies into the eight-star civilization was to help the Sword Whisper Pavilion overcome the great calamity of Heaven and earth.

It would be too foolish to give up the Sword Whisper Pavilion for the sake of some prodigies.

However, Ghost Master rolled his eyes.

If they mortgaged the Sword Whisper Pavilion to Su Yu, but su yu "Accidentally" fell, wouldn't the Sword Whisper Pavilion Return?

With this thought in his mind, his thoughts were suddenly enlightened!

Such a simple solution, what was there to hesitate about?

"Alright, I agree. Now in the name of the Sword Whisper Pavilion Master, I will sign a contract with you." Master GUI readily agreed.

Su Yu's gaze lightly flashed, laughing in his heart.

Whatever Master Gui wanted to do, he could think of it with his toes.

However, was it that simple to kill him?

He was a mortal, and the only one who could kill him was the son of Heaven of the Sacred Mountain!

He acted as if he didn't know what the Ghost Master was planning and happily signed a contract with him.

The contract contained the promise of the Ghost Master. If he broke the contract, he would be struck by lightning and turned into ashes.

Therefore, there was no need to worry about the ghost master breaking his promise.

Under the verification of Xiao Lifeng and the radiant jade, one of the three major forces of the Glaze Civilization, the Sword Whisper Pavilion, an ancient super force, became Su Yu's possession.

All the disciples, mountain gates, mountain defense formations, and so on in the Sword Whisper Pavilion all belonged to Su Yu.

From now on, Su Yu was the new Pavilion Master of the Sword Whisper Pavilion!

Seeing this epic-level transaction with their own eyes, Xiao Lifeng and the radiant jade felt somewhat surreal.

Just a hundred years of accumulated resources, and he bought the Sword Whisper Pavilion?

And Su Yu, from a small figure in the beginning, suddenly became the leader of the three major forces who were on par with them?

"Alright, Get Ready." Master Gui looked at Su Yu deeply and thought, "Enjoy your little life!"

He put the hundred-year-old resources back into the dying flames, and the flames soared again.

Master GUI immediately used a secret technique, and a new path was formed in the flames.

"Go in now, quickly!" Xiao Lifeng and Guang Yu said.

A group of people led by Su Yu quickly passed through the door and entered the ancient glazed cave.

After a complicated space travel, Su Yu suddenly felt a shocking spiritual pressure around him, and his body was falling uncontrollably.

The primal power in his body was showing signs of being suppressed.

Opening his eyes and looking at the scene in front of him, he couldn't help but be slightly surprised.

What appeared in front of him was an exceptionally strange forest.

Those trees were extremely huge. Every single one of them was like a giant tree that reached the heavens!

The total number of people present was not even as big as a leaf in a book!

The grass by the roadside was also ridiculously tall. It was actually ten thousand feet tall!

The stones in the grass were also as huge as small mountains.

When he first entered this place, Su Yu felt as if he had been shrunk hundreds of times and thrown into a forest.

Suddenly, a rustling sound was heard. Everyone looked up and saw a shadow enveloping them.

It was a ten thousand feet large grasshopper. It flew over their heads and gnawed on the huge grass.

That Grasshopper was not a special creature like a savage beast. It was just an ordinary grasshopper.

It was only because of its unique environment that its size was abnormally huge!

Hiss --

Just as the Grasshopper flew over their heads, a red lightning-like afterimage suddenly flashed across the sky.

The grasshopper flew backwards at a speed that was a hundred times faster than before.

Following that was the crunching sound of chewing. It was the sound of flesh and bones being gnawed.

Some people with lower cultivations and lacking confidence immediately felt cold air rising from the soles of their feet. What was that?

When the chewing stopped, the grass fell into a deathly silence.

They were very familiar with that kind of silence. It was because the powerful creatures in their eyes were crouching nearby, so much so that the surrounding creatures didn't dare to do anything.

Thinking of the afterimage just now, everyone's heart beat rapidly.

Everyone at the scene calmed down and looked around without moving, responding to the changes without changing.

However, not everyone could be so calm.

Huang Yang from the palace of light had cold sweat on his forehead. He couldn't stand the suffocating atmosphere and slowly retreated.

As soon as he moved, Xuan hua shouted, "Don't move!"

However, it was too late. A blood-red bolt of lightning swept over from the depths of the grass.

It swept Huang Yang away with lightning speed.

Before Xuan Hua could stop it, Huang Yang was pulled into the depths of the grass.

"Chase!" Xuan Hua drew the Spear of Destiny in the air and chased after him with the spear in hand.

Su Yu's eyes flashed and he said, "Follow me. Don't get separated."

In an unknown territory, it was better to unite with more people.

When they chased for a million feet, they finally arrived in front of a huge creature!

It was a terrifying creature that was ten times more terrifying than the grasshopper. It looked like an ordinary lizard, but its size was tens of thousands of meters!

At this moment, its mouth contained half of Huang Yang's body, and the upper half of his body had already been swallowed.

From the aura it emitted, Huang Yang was already dead.

Creak --

The lizard raised its neck and swallowed Huang Yang whole. Then, it chewed and ate him on the spot.

The people of the Palace of light were both furious and furious when they saw this.

After eating Huang Yang, the lizard stuck out its long tongue. Its huge eyes looked at Su Yu and the others who were standing in front of it, as if it was looking at a group of food that was delivered to its doorstep.

Swish --

A streak of red shot out from its mouth at an extremely fast speed, as if it was a thunderbolt.

At this moment, they finally saw clearly that it was the lizard's tongue.

This time, Xuan Hua was already prepared. The heavenly fate spear pierced through the air and pierced through the lizard's tongue.

The Lizard, which was in great pain, began to struggle violently.

Its huge body rolled rapidly while its strong and thick tail kept hitting the ground.

The two sides were immediately beaten into pieces. They were sent flying and spat out blood. Only Su Yu and the others who had reached the level of the clan leader were safe.

“Attack and kill the Lizard!”Xuan Hua drew another heavenly fate spear and stabbed it at the Lizard's eyes.

Kong qu, Xie Xiaoyue, and the heartless iron catcher all attacked.

With the four of them working together, any clan head-level dao master would find it hard to resist.

However, the lizard in front of them was terrifyingly strong.

When Xuan Hua's Spear of Destiny stabbed toward it, it closed its eyes and a thin film protected its eyes, sending the spear of Destiny flying away.

Kong Qu and Xie Xiaoyue's attacks were like nails on a steel plate, but they were ineffective.

The heartless predator was the only one that attacked the lizard's armpit, causing it to cry out in pain.

Even so, it did not receive any serious injuries.

In the outside world, this was simply unimaginable.

Hiss --

The Lizard was furious. It swung its tail crazily and with a leap, it pounced on everyone with the momentum of a mountain.

Everyone's heads turned black. It was as if the sky was really falling down.

“Everyone, get out of the way!”At this moment, Su Yu's arms were covered with a layer of dragon scales, which transformed into powerful dragon claws.

As his arms struck upwards, countless bolts of lightning flowed into the lizard's body through his arms.

Instantly, the gigantic lizard was sent flying back into the sky by Su Yu's arms.

At the same time, under the terrifying lightning, the lizard was directly transformed into a fully cooked electric lizard!

Xuan Hua put away the Spear of destiny with a bitter smile and looked at Su Yu's unbelievably strong physique with some envy.

In terms of physique, all the people present added together could not even compare to him alone!

Chapter 2337 It Was A Thrilling Journey

Moreover, Su Yu's power of lightning did not seem simple at all.

He had never seen Su Yu use it before!

The heartless catcher was deep in thought. If he remembered correctly, an extremely powerful person of lightning had appeared not long ago. When the Sword Whisper Pavilion's ghost sand touched him, he was killed by the lightning and turned into dregs.

Could It Be Su Yu?

Everyone looked at Su Yu with admiration.

Kong qu sighed and said, "With brother Su accompanying us, we will be safe."

Only Princess Qianyue was deeply opposed to Su Yu. She thought to herself, it was obvious that none of them had used their full strength just now. If they really used their full strength, who wouldn't be able to kill a lizard?

"Eh, the spiritual Qi in this lizard's body is very abundant." Xie Xiaoyue walked forward, intending to peel off the lizard's skin.

She had tried it herself just now. The skin of the lizard was so hard that even if she tried with all her strength, she wouldn't be able to break it.

Everyone's eyes lit up, and they all went forward to pick up the required materials.

A huge lizard was quickly divided up by everyone, and there wasn't even any lizard meat left.

"This meat can completely be used as a supplement for spiritual essence. It's comparable to a panacea." Bi Yun Hong Xian cut off a small piece, put it in her mouth, and tasted it. Her bright eyes lit up.

Then, she slashed several times and put seven or eight spatial storage devices into each.

She walked to Su Yu and handed him four. "It's already cut into small pieces. One piece is just enough for you to replenish the primeval energy."

Su Yu had a complicated feeling about her. On one hand, he was very fearful of her father. On the other hand, he found it hard to hate Bi Yun Hong Xian.

Speaking of which, Bi Yun Hong Xian had always been impeccable in her way of life since they first met.

It was just that she was the daughter of golden-eyed Langjun.

“Hehe, you don’t have to worry about that. I have already prepared his spiritual flesh.” Xie Xiaoyue stepped in and handed over a large spatial storage item.

Her pair of Crystal Eyes stared at Bi Yun Hong Xian with a hint of provocation, with a hint of hostility.

What golden-eyed Langjun had done in the heavenly relic cave abode had caused Xie Xiaoyue to take it to heart, so she was especially wary of Bi Yun Hong Xian.

Bi Yun Hong Xian glanced at the flawless Xie Xiaoyue, smiled faintly, and said dejectedly, “It was unnecessary of me.”

“Fairy, you have good intentions, but I will not be disrespectful.” However, Su Yu stretched out his hand and took over a few spatial storage devices.

Bi Yun Hong Xian’s disappointed face flashed with a bright and beautiful joy, like a shy lotus flower. She smiled shyly and said, “Thank you.”

After saying that, she trotted away and returned to the side of the man in the bamboo hat.

“You don’t have the fragrance of Wild Flowers in Your House, do you?” Xie Xiaoyue placed her hands on her waist and glared at Su Yu with disappointment.

Su Yu rolled his eyes and said, “Don’t say things that make people misunderstand!”

If Bi Yun Hong Xian was a wild flower, then who was her house flower?

Xie Xiaoyue just realized that she had made a mistake. She snorted and changed the topic, saying, “You can’t trust this woman. Don’t forget about the incident at the heavenly remains cave abode. She must have an ulterior motive for coming here.”

Su Yu looked thoughtfully at Bi Yun Hong Xian, who returned to the bamboo hat man’s side like a butterfly.

Did she really have a motive for coming here?

“If everyone is ready, let’s set off.” Xuan Hua’s voice interrupted everyone’s thoughts.

She held a map in her hand and compared it to her own position to determine her location.

“There are two glazed ancient platforms in the ‘human’ section. The closest one to us is in the east. If the journey is smooth, it will take at least ten days,” Xuan Hua said.

Ten days should be a conservative number.

Since they had encountered such a dangerous lizard when they first arrived, there should be more dangers ahead.

Without further ado, they set off immediately.

Little did they know that not long after they left.

The entire sky where they were was dark.

A black wolf that blotted out the sky came before the Lizard's corpse.

Compared to the wolf, the size of the corpse was less than one-tenth of the size of the wolf.

He lowered his head and ate the lizard's remains.

Then, a pair of scarlet eyes looked in the direction where Su Yu and the others had left. He let out a low growl and quickly chased after them.

At that time.

Su Yu and the others had traveled for a few days and entered the depths of the forest.

During that time, they encountered more than a hundred creatures.

Without exception, their reminders were extremely huge!

It would be fine if they encountered herbivorous creatures, but if they encountered carnivorous creatures, it was inevitable that they would have a huge battle.

After several days, everyone was exhausted.

That night, they rested by a lake.

In the lake, groups of family head level fish were swimming in the water.

A few carnivorous fish were wandering around the shore, obviously targeting Su Yu and the others.

Unfortunately, they were unable to go ashore.

“Fortunately, we have many people and many experts. Otherwise, it would have been extremely difficult to reach this place.” Xuan Hua sighed as everyone gathered around the bonfire to summarize the shortest route.

“That's right. The danger of entering the 'human' zone alone is unimaginable.”

Everyone discussed one after another. Su Yu sat in front of the bonfire and quietly studied the map that was copied from Xuan Hua's hands.

Rather than calling it a map, it was more like a simple outline.

Those who entered the palace of light did not have the ability to draw the entire map. They only had the ability to draw the route that they had taken.

Therefore, this was not the only route to the ancient glazed platform.

While they were thinking, a mountain breeze blew over. The thick smell of blood was extremely pungent.

It also carried the natural scent of wild beasts!

Without Su Yu's reminder, everyone knew that the situation was not good, so they were all on guard.

Su Yu originally thought that it was an ordinary family head level wild beast, just like the lizard he had encountered before.

However, with his keen senses, he could sense that something was wrong.

The fish that were swimming on the surface of the lake all sank. Even the carnivorous fish that were eyeing them covetously moved away from the shore and quickly sank.

It was as if they had smelled a huge threat.

And the only thing that could make them feel threatened in the water was a ferocious thing that was far stronger than them!

“Retreat immediately. Whoever comes is no trifling matter.” Su Yu shouted in a stern voice.

After experiencing dozens of battles, Su Yu had already established quite a bit of prestige among them.

After being reminded, everyone did not hesitate too much and left one after another.

However, just as they left, an incomparably violent wind suddenly attacked.

The strength of that wind was so strong that those who were not at the family head level or above could not resist it at all.

Instantly, Yang Hua and Qing Ling were like kites with short strings, flying backwards one after another.

They were still in the air when an incomparably black giant claw that covered the sky lashed out fiercely, slapping them into a bloody mist on the spot.

Everything happened too suddenly, and they did not even have the time to react.

Xuan Hua’s heart felt as if it was dripping with blood, and two more companions were sacrificed.

However, there was more inexplicable fear in his heart.

To be able to kill the two of them in the blink of an eye, the wild beast that came this time was far beyond that lizard’s level!

Roar --

Suddenly, a Wild Wolf’s loud roar exploded, and the primal power condensed on the surface of everyone’s bodies, as well as the shield formed by the DAO Master’s power, instantly shattered!

Chapter 2338 Catching Fleas

Several people were sent flying on the spot. Su Yu’s face suddenly changed, and he shouted in a low voice, “Split up and run!”

The cultivation of this wild wolf was definitely not lower than that of the Dao Master of the fish-dragon realm!

Su Yu could barely resist it alone, but they could not!

The group immediately understood Su Yu’s meaning and fled in all directions!

They all had a map in their hands. As long as they did not encounter any other dangers, they could eventually meet each other on the ancient glazed platform.

The people quickly split up and used the strongest escape method they could to quickly leave!

Hula!

The sound of the sky collapsing and the earth shattering could be heard from behind. Everyone turned their heads to look and saw an incomparably huge gray wave rushing towards them from the sky!

As it was too huge, it was about to be too fast and violent. With just a casual movement, the atmosphere would be torn apart and the huge lake would start to turn upside down. Everyone sucked in a breath of cold air, and their scalps went numb as they frantically fled!

Su Yu was also extremely apprehensive!

The only thing he could kill this thing with was that Wisp of lightning.

But on the Wild Wolf's body, it meant that it had lost its strongest defense. Unless it was a life and death situation, it was not suitable to use this trump card.

Su Yu chose an unmarked area and sped away. The ancestors of the Palace of light had never been there, so it was unknown what kind of scene it was.

Whoosh! Su Yu used his spatial domain and teleported away!

The Wild Wolf's huge eyes turned around, like two suns spinning in the sky.

Finally, it shook its head and looked in the direction of Su Yu.

Although it did not have cultivation and could not tell whose cultivation was higher, its wild beast instinct told it that Su Yu was the strongest among them!

With a low growl, it exerted force with its four legs and jumped towards Su Yu!

Su Yu, who had just reached a trillion miles away through the spatial domain, immediately felt an incomparable pressure from behind him.

Without thinking, it was obvious that the wild wolf must have caught up to him.

"That's good too!" Su Yu thought to himself. "If it was someone else, other than the heartless predator, probably no one would have survived."

As he thought, Su Yu released a large area of spatial domain behind him, forming a multi-layered spatial fold.

The Wild Wolf's charging body had no choice but to slow down. Otherwise, if it was sucked into the folded space, it would at least lose a layer of skin even if it did not die.

Taking advantage of this opportunity, Su Yu once again used his space domain to escape.

The wild wolf leaped over the spatial fold area and chased after it relentlessly!

Su Yu used the same trick again, constantly maintaining a distance from the wild wolf.

One chasing after another. After a few days, Su Yu felt extremely tired.

Fortunately, he had the spiritual meat prepared by the Biyun Red Immortal, so he ate a piece of it to maintain his condition.

However, the good times didn't last long. The spiritual meat was consumed too quickly, and he had run out of it in a few days. If he didn't think of a way to get rid of it, he would be in danger!

Suddenly, Su Yu felt an exceptionally strong fluctuation in front of him. It should be some kind of large-scale beast territory.

When he crossed over, a group of wild boars that were not inferior to wild wolves were resting in their own territory.

They only took a glance at Su Yu's arrival and did not care at all.

Wild boars were actually an extremely ferocious beast. They were omnivores. Not only did they eat grass, they also ate meat. Moreover, they were extremely aggressive!

Especially when they were in groups, even the king of the jungle's Tigers and other top hunters would be afraid!

However, in comparison, Su Yu's size was too small. In their eyes, he was a hundred times smaller than an ant. It was not even enough to fill the gaps between their teeth, so they could not be bothered to attack Su Yu.

Roar!

The Wild Wolf roared loudly and leaped over.

In the end, when they saw the scene in front of them, they retracted half of their roars. They growled in a low voice and slowly retreated. Their eyes were filled with a trace of fear!

The group of Wild Boars were alarmed and scrambled up to confront the Wild Wolf.

One of the bigger wild boars suddenly called out and took the lead to charge at the Wild Wolf. The rest of the wild boars followed suit.

A group of wild boars chased after them in a mess. The scene was quite spectacular!

The wild wolf pinched its tail and turned around to escape!

At this point, Su Yu could be considered to have managed to escape from it.

Looking at the Wild Wolf's retreating figure, Su Yu was confused.

Compared to the wild wolf, his small body was not enough to fill the gaps between its teeth. Why was he so persistent in chasing Su Yu for so long?

Shaking his head, Su Yu was not in a hurry to leave.

With the Wild Wolf's persistence, it might not be willing to give up.

Perhaps, it was only temporarily escaping, but it was hiding in the dark to monitor Su Yu, waiting for Su Yu to leave the wild boar's nest again.

Taking advantage of this rare moment of safety, Su Yu took the time to rest.

After a while, he finally got rid of his fatigue.

At this moment, he finally had the chance to look around.

The wild boar's nest really did not have any treasures. They were all looking for food everywhere, so they definitely would not leave any good things in the nest.

Moreover, the wild boars' extremely smelly feces were everywhere, and it was stinky.

All of a sudden, Su Yu's back lit up!

He looked behind him with extreme vigilance, but there was nothing!

After a moment of doubt, Su Yu looked above his head and saw a ferocious-looking wild beast that was about the same size as him and had eight days of extremely long legs. It jumped into the air.

"Flea?" Su Yu was stunned. This was the first time in his life that he had seen a flea that was about the same size as him!

It was about to launch a sneak attack on Su Yu, but it was discovered by Su Yu. Therefore, it used its amazing jumping ability to bounce high into the sky.

"Are you looking for death?" Su Yu was both amused and angry. He was actually looked down upon by a flea.

He rubbed his fingers and a bolt of lightning struck out. Immediately, the flea fell from the sky and landed on the ground.

The amazing thing was that the flea's vitality was exceptionally tenacious. It was actually not dead yet!

It must be known that with its lightning power, killing a lizard of that size was an easy task, let alone such a tiny flea?

Su Yu could not help but feel surprised at the flea's vitality.

Su Yu was just about to end its life when suddenly, his heart moved!

It might be very easy to deal with fleas because his target was originally small and it was easy to find fleas.

However, it was different for those huge beasts!

What would happen if a group of fleas were thrown on them?

Just thinking about it made Su Yu feel itchy all over!

That feeling must be excruciating!

Su Yu did as he was told and immediately caught the flea.

However, if there was only one flea, it would be of limited use.

At this moment, the wild boars returned empty-handed and laid on the ground lazily.

The king of the Wild Boars was rolling around in a pile of mud, rubbing off the fleas on its body.

But just as it jumped down, the fleas jumped up again!

Su Yu's eyes lit up and jumped onto the back of the wild boars. At a glance, he could not help but feel his scalp go numb!

In the forest-like wild boar fur, the fleas piled up in groups and plunged their heads into the meat of the wild boars to suck blood!

Su Yu shuddered. Fortunately, the wild boar's skin was tough and its flesh was thick. If it was someone else who was being sucked like this, they would probably be tickled to death!

Following that, Su Yu walked forward. These fleas were sucking blood vigorously and did not resist at all. Su Yu easily caught them.

At that time.

Near the glazed ancient stage, Xuan Hua and the others who had strayed were basically reunited. Other than the heartless iron captor, who was nowhere to be found.

"I don't know how Su Yu is. When I ran away, I took a look and it seemed that the wild wolf was chasing in his direction." Xie Xiaoyue was not without worry.

Xuan Hua comforted him and gently patted his shoulder, saying, "Believe in Su Yu. He will be fine. Perhaps he is struggling with the wild beast now. We will wait patiently for him here."

Little did she know that Su Yu was busy fighting with the fleas at this moment.

He caught all the fleas on the wild boar king's body. The latter groaned comfortably and rolled on the ground continuously to express his happy mood.

At the same time, after Su Yu caught it, he immediately caught the fleas on the other wild boars.

After four or five days of hard work, he finally caught all the fleas.

They were all placed in a spatial storage container, densely packed together. There were more than 10,000 of them!

Su Yu hissed when he saw this and quickly closed the spatial storage container.

Rumble!

At this moment, the wild boars that had rested for a few days began to search for food.

They were in groups and were practically invincible in the human world. They were like a torrent, unstoppable!

Wherever they went, they were all eaten up, leaving nothing behind.

Su Yu took the opportunity to snatch some good things from some of the powerful wild beasts' nests that the outside world did not have.

He had already exchanged all of his resources for the Sword Whisper Pavilion's IOU.

Now was the time when he was the poorest, so he naturally had to take the opportunity to plunder!

After several days of foraging, Su Yu had snatched a pot full of food!

The resources he had lost were replenished by ten to twenty percent!

It could be seen how abundant the resources in this place were!

After the wild boars had their fill, they prepared to return to their nest.

Su Yu looked at the map and found that this place was not far from the ancient glazed platform. It was only a day's journey, but..

He released the Eye of Heaven and looked down from the sky. Indeed, he saw the thing he did not want to see the most!

A wild wolf that was hiding in the grass was crawling and not moving!

As expected, it was still following. It was waiting for Su Yu to leave the wild boars and wait for an opportunity to move!

“Could it be that I have something on me that attracts it?” Su Yu was extremely puzzled.

Seeing that the wild wolf was unwilling to leave, Su Yu had no choice but to think of another way to head towards the ancient glazed platform.

Suddenly, Su Yu had a thought and jumped onto the wild boar King's head. Then, he cast a spatial barrier on the left and right sides of its body.

Because the barrier was not dangerous, the wild boar king did not resist violently. It only looked left and right uneasily before moving forward.

The rest of the wild boars followed the group of wild boars forward. Thus, Su Yu passed through the spatial barrier and guided the wild boar king towards the ancient glazed platform.

Su Yu smiled towards the direction of the Wild Wolves. If they had the ability, they could charge over!

If the Wild Wolves had intelligence, they would definitely be so angry that they would vomit blood.

Just like that, a day later.

Su Yu successfully arrived near the ancient glazed platform.

The closer he got to the ancient stage, the more restless the wild boars became. They hesitated and did not move forward.

When they were 100 million miles away from the ancient stage, they were no longer willing to move forward. Instead, they violently smashed through the spatial barrier and walked back.

Su Yu used the Eye of heaven to look in the direction of the Wild Wolves. He found that they were also retreating with their tails between their legs.

Moreover, there were no traces of wild beasts near the ancient stage. To be exact, there were not even bugs.

“We're safe now.” Su Yu heaved a long sigh of relief and jumped off the back of the wild boar king.

As soon as he landed, he felt the auras of Xuan Hua and Xie Xiaoyue sweeping over.

Su Yu's heart relaxed. He quickly stepped forward. Seeing that the two of them were safe, he said with relief, "It's good that you two are safe."

Chapter 2339 Crossing Nightmare Lotus Seat

"It's a pity that constable heartless didn't catch up," Xie Xiaoyue said regretfully. She had a good impression of this woman.

Su Yu said, "Don't worry, she'll Be Fine."

Others might not know, but could it be that Su Yu didn't know the true strength of constable heartless?

The black tortoise on her body had caused the nine dragons divine cauldron to shake. With that thing on her body, she wouldn't be afraid even if she were to walk horizontally in the shape of a human.

Moreover, heartless iron had been hunting criminals for many years. It was destined that she would not have any major problems.

Su Yu believed that she had discovered something. She had given up on meeting up Midway and was acting alone.

Moreover, rather than worrying about her, Su Yu felt that she should be more worried about Bi Yun Hong Xian and that bamboo hat man!

They had not come either!

"Golden-eyed prince-in-law, could it be that this is also your arrangement?" Su Yu asked in his heart.

The group waited for a few more days, but the heartless iron constable, Bi Yun Hong Xian, and the others didn't come in the end.

"I told you that woman couldn't be trusted." Xie Xiaoyue was impatient from waiting.

Su Yu had been chased by the wild wolves and wasted so much time, yet he had managed to make it here. If Bi Yun Hong Xian and the person in his pocket really wanted to meet up with them, they would have come a long time ago!

They had either died in an accident or acted alone.

"Forget it, let's go." Su Yu also gave up on waiting.

Currently, there were a total of six of them, they were Su Yu, Xie Xiaoyue, Xuan Hua and Xuan Yin, as well as Kong Qu and Princess Qian Yue.

Xuan hua predicted, "The Sword Whisper Pavilion arrived half a day earlier than us, and they didn't encounter that wild wolf. They should have long occupied the ancient glazed platform. It's inevitable that we would have to contend against them."

The hearts of everyone sank. They had lost many people, and they would definitely be at a disadvantage if they fought against the Sword Whisper Pavilion.

Everyone was already mentally prepared. Who knew that when they arrived, the ancient glazed platform was actually empty!

What greeted their eyes was a gigantic bronze platform with a circumference of 100,000 feet.

On it were many ancient and unfamiliar runes and characters.

Many mysterious trajectories crisscrossed, as if there were three thousand great daos and hundreds of millions of small daos. It was difficult to put into words.

At first glance, it made people face the heavenly daos directly, and they could not extricate themselves from it.

Su Yu also fell into it. He only felt that his surroundings were constantly dark, and his entire person was about to fall into it.

At this moment, he woke up in time and shouted with the sound of a dragon. Everyone present immediately became alert, and they were all greatly shocked!

They only took a glance and almost fell into it!

Looking at the bones around them that had died for God knows how many years, everyone understood in their hearts that they might not have died from killing each other. It was very likely that their souls had fallen into it and had been worn away by time.

“Don’t look at the symbols, trajectories, and words on it. Those were left behind by the Almighty of the previous era!” Su Yu shouted.

He was proficient in the language of ten thousand races, but he did not know any of the words on it!

What was even stranger was that he had seen a similar platform in the memories of the demi-demons!

In the previous era, this item was not some ancient glazed platform, but was called the nightmare ferrying Lotus seat!

Its purpose was to resist the destruction of the era!

The nightmare ferrying lotus seat was jointly refined by thirty thousand almighty beings in the current era. It was a magical artifact that gathered their lifetime’s strength, consumed the foundations of billions of civilizations, and was created in a desperate situation to overcome bad luck.

Because its appearance resembled a magical artifact, it was also known as the Nightmare Ferrying Lotus seat!

Su Yu’s heart pounded wildly.

In the memories of the demi-humans, when the nightmare ferrying Lotus seat had been constructed, even Ren Zu had appeared and given him pointers!

More than half of the almighty experts of that era had participated in it. They had worked together to create a magical artifact that could overcome the destruction of that era.

This item could be said to be the number one magical artifact of the previous era.

However, judging from the death of Ren Zu and the disappearance of the almighty experts, they had failed.

The Nightmare Crossing Lotus seat had not been able to resist the destruction of the era.

Everything had been destroyed. The Eternal Emperor, the Kings of Heaven and Earth, and the ten sacred ancestors had all been annihilated in the dust of history.

Only the remaining nightmare crossing Lotus seat spoke of the glory of the past.

A sense of desolation and desolation crossed his heart.

He seemed to see countless ancestors shouting in despair, struggling in destruction, struggling in the fate of the immemorial reincarnation. They let out unresigned roars of fate, shaking the entire universe of the Cang Xing Galaxy.

However, the sacred mountain was heartless. In the end, they couldn't talk about the fate of destruction. They were like moths, pouncing on the fire and dying.

“The son of Heaven of the Sacred Mountain, your eternal life is the hatred of countless sacred spirits!”

Su Yu's emotions were in high spirits for a moment.

If one day, he could step onto the sacred mountain, he would destroy all the Sons of Heaven and open up a bright future for all ages!

As if Su Yu's oath in his heart had touched something, the huge ancient bronze platform started to spin with great difficulty.

Traces of an extremely shocking special aura were released from it.

Su Yu did not feel it, but Xuan Hua and the others were ecstatic!

“This is... a mysterious aura that can raise the cultivation level of a DAO Master!”Xie Xiaoyue was the closest to it and was the first to feel it.

Xuan Hua was second only to her, and the calm and composed Xie Xiaoyue could not help but be ecstatic. “How can there be so much? According to past records, only a trace of it is released every ten days.”

There were more than a thousand strands released in front of them.

There were so many mysterious gases, and it was probably more than the word ‘heaven’ in the rumors.

They didn't have time to think about why it was like this, and they jumped up one after another, scrambling to absorb the mysterious gases.

Su Yu and Princess Qian Yue were both half-step dao masters, so it was useless to absorb the mysterious gases.

Su Yu was fine, but Princess Qian Yue was envious, but she couldn't do anything about it.

Because her body of the nine gods couldn't reach the great success stage for a long time, she couldn't break through to the Dao master realm.

Thinking of this, she couldn't help but glance at Su Yu, and inexplicably felt a little resentful.

If Su Yu continued to hone her body of the nine gods, he might have become a dao master by now!

On one hand, she didn't admit that Su Yu's tempering effect on her body of the nine gods was her own contribution.

On the other hand, when she was lacking, she blamed Su Yu for not putting in enough effort in honing her body of nine gods.

Su Yu had always kept such a self-centered woman at a distance.

"Hey, Father said that there's a place where the word 'earth' is heavy. It might be helpful for my body of nine gods," Princess Qianyue bit her lips and said.

"Oh," Su Yu said calmly and didn't look at her anymore.

Princess Qianyue waited for a while and realized that Su Yu had nothing else to say. She said, "Father said that you have to send me there."

That tone was as if Su Yu should have done it.

"Is that so? He didn't tell me," Su Yu said calmly.

He didn't know where Princess Qianyue heard the news that there was such a place where the word 'earth' was heavy.

What he was certain of was that it was definitely not said by the emperor.

If the emperor knew that there was such a place, based on his expectations of Princess Qianyue, he would have taken the initiative to look for Su Yu and asked him to protect Princess Qianyue.

There was no reason for his daughter to tell him when the time was right.

Moreover, her tone was so stiff.

"This is what my father said!" Princess Qianyue reiterated.

Su Yu's expression was indifferent. "Then let him speak to me!"

"You!" Princess Qianyue was annoyed.

After staring at Su Yu for a long while, Princess Qianyue stomped her feet and snorted, "I'll Go By Myself!"

Su Yu turned a deaf ear to her. Su Yu didn't care at all whether she was alive or dead.

Princess Qianyue left angrily and complained, "Surnamed Su, when I become the DAO Master, you'll be the first to be trampled under my feet!"

As she said this, she left alone and looked around until she came to a remote corner.

Hula!

The huge leaves in front of her suddenly parted and out walked Biyun Hongxian and the man in the bamboo hat.

The man in the bamboo hat stepped forward and asked, "Su Yu didn't come?"

"He refused to come!" Princess Qianyue's face was gloomy.

The man in the bamboo hat sighed, and his tone seemed to be particularly disappointed.

"Forget it. There will be plenty of opportunities sooner or later. Let's go and get there as soon as possible," the man in the bamboo hat said.

It turned out that when Princess Qianyue was rushing to the ancient glazed platform, she met the man in her pocket and Bi Yun Hong Xian halfway.

They told Princess Qianyue that there was a place with the Earth character and a mysterious spirit spring that could allow all kinds of physiques that could not break through to become Dao Masters to successfully break through.

They were prepared to head there.

Princess Qianyue was immediately tempted and took the initiative to ask them to bring her along.

The hooded man readily agreed, saying that in view of the danger of earth heavy, he hoped that Princess Qianyue would appear and invite Su Yu over as well.

In the end, there was such a scene in front of them. Not only did they not invite Su Yu, they were even harshly rejected.

"That's right. If we give him a chance and he doesn't want it, don't blame us!" Princess Qianyue snorted.

She didn't notice that although Biyun Hongxian was acting normally outside, she didn't say a word.

She also didn't notice that a huge eye slowly disappeared from the endless sky.

"I told you that her information came from another source." Su Yu knew something was wrong, so he secretly paid more attention. He didn't expect that the person who bewitched Princess Qianyue was actually the hooded man.

He turned his gaze slightly and quietly chased after her.

He wasn't worried about Princess Qianyue's safety, but he wanted to see who the person in the bamboo hat was and what he wanted to do.

This person was hostile to him first, and after luring Princess Qianyue, he even seemed to have done something to Bi Yun Hong Xian.

In addition, he was golden-eyed Prince Charming's man, so Su Yu had to be on guard.

Xuan Hua and the other three had already entered their cultivation state. If Su Yu was fine, they could just leave.

In just a few breaths'time, the hooded man had already left. They were using the extremely fast heaven's legacy battleship.

Su Yu chased for a while to see if he was going to lose them. He was just about to use his space domain.

Chi!

Suddenly, the sound of space tearing sounded behind Su Yu.

Su Yu's heart skipped a beat. Without thinking, she threw a punch behind her.

However, her fist was held by a warm, delicate, and soft little hand. At the same time, she heard a familiar whisper, "It's me!"

She turned her head and saw that it was the heartless iron constable who had disappeared. She was riding the gold and silver horse and traveling through space.

At this moment, she was bending down to receive Su Yu's punch so that she would not hurt the gold and silver horse.

"You are also following the bamboo hat man and Bi Yun Hong Xian?" Su Yu immediately realized why the heartless catch had disappeared.

The heartless catch retracted his hand and said, "Aren't you the same? Get on the horse!"

Su Yu did not refuse. Once he used his space domain, the commotion would be very big.

It was believed that the heartless catch had seen through this and appeared in time to stop Su Yu from using his space domain.

Su Yu flipped over and jumped onto the silver horse, sitting behind the heartless catch.

"Hold on tight." She released the reins, and two beams of light shot out from the silver horse's eyes, opening the space crack.

Su Yu was immediately hit by the powerful Space Impact, and her body immediately lost its stability, showing signs of falling.

She had no choice but to stretch out her arms and hug the heartless catch's soft waist.

Chapter 2340 News From The Divine Throne

The heartless iron constable, who was riding the Golden and silver horse, stiffened.

However, when he remembered that the person behind him was Su Yu, he felt inexplicably relieved. He rode the Golden and silver horse into the space and chased in secret.

A few days later.

The man in the bamboo hat arrived at the end of the heavy human character. It was a huge waterfall that went against the heavens.

Ordinary waterfalls would go down from above, but this waterfall went up against the heavens.

At the end of the waterfall, there was a huge gap in the sky.

The word "Earth" was there!

The lowest level of the wild beast was the fish-dragon realm, which was the level of the Wild Wolf.

It would be difficult to meet any one of them.

However, the hooded man seemed to be very confident. He was not afraid at all. He flew along the waterfall towards the gap in the sky.

After a few moves, he successfully entered.

Swoosh!

The heartless iron constable rode his gold and silver horse and broke through the space and appeared in front of the waterfall.

“We have to keep up,”the heartless iron constable said indifferently.

However, just as the gold and silver horse was about to step on the waterfall and go up, an extremely large carp suddenly jumped out from the gap!

It came down from the gap in the sky. It swam back and forth in the waterfall and crashed into the waterfall, making a rustling sound.

With a casual sweep of its tail, it cut off the waterfall.

“A carp in the fish-dragon realm!”The heartless catcher held the reins of the horse and frowned slightly.

A beast of such a level only appeared in the word “Earth”. How could it run into this waterfall?

Moreover, this carp had been in the waterfall the whole time. Why didn’t the bamboo hat man attack when the Carp didn’t? Why did it appear to stop them when they were about to enter?

“This is troublesome. That bamboo hat man should have the ability to control wild beasts.”Su Yu’s brows contracted slightly.

He thought of a person, the Beast Slave King of the Misty Forest.

He was an expert in controlling beasts.

However, he usually controlled them through talisman papers. The carp in front of him was not like this. It was more willing to listen to orders.

If there was no other way, he could only use the nine to five heavens cold needles to injure it and see if it would escape.

Roar!

However, at this moment, Su Yu’s unusually familiar roar came from behind him.

Su Yu’s dark color changed slightly. “It really won’t leave me!”

The roar was not something else. It was the wild wolf in the fish-dragon realm.

Su Yu thought that it had given up on chasing him. He did not expect that it had been following him in the dark all along!

If Su Yu did not understand why it was so obsessed with him in the past, he could not understand it better now.

It was the hooded man's secret order!

Otherwise, with Su Yu's size, compared to the wild wolf, he was just a flea. Was there a need to pursue him relentlessly?

The reason could only be that it had made Su Yu its target!

"That hooded man and I really have a deep hatred." Su Yu had previously caught a hint of hatred in the other party's eyes. Now, it seemed that there was more than just friction between them!

There was a blood feud between them!

"What a good man in the bamboo hat. Then, from now on, there's no need to feign civility!" Su Yu's eyes flashed with a cold light.

The heartless catcher glanced at the stubborn wild wolf behind him and also understood that it had come in an unusual manner. He sighed and said, "The people around golden-eyed Langjun are indeed not ordinary people."

She had spent a lot of time with Xie Xiaoyue and had inquired about golden-eyed Langjun's relevant information. She had already completely understood the events in the heavenly remains cave abode.

Su Yu agreed with her.

First, there was a star lady who was well-hidden, and then there was a mysterious man in a bamboo hat who could control wild beasts!

There were carp blocking the way in front, and wild wolves chasing after them. Su Yu was about to use the nine-five heavens cold needle to kill one of them first.

But after a slight hesitation, the heartless iron constable said, "You step back!"

Ugh!

Su Yu's eyes flashed. He thought of the black tortoise in the heartless iron constable's hand.

As expected, the heartless iron catcher clenched his hand and a golden black tortoise appeared in his palm.

The moment it appeared, it immediately emitted the aura of the king of all beasts!

The wild wolf that was about to pounce on him was like a splash of cold water that was extinguished.

Like a wild dog that had been bullied, it clamped its tail and let out a humming sound before turning around and burrowing into the tall forest to escape.

The carp was also like a frightened bird. It hurriedly waved its huge tail and fled back to the earth along the waterfall.

In the blink of an eye, the two fish-dragon realm wild beasts were frightened and fled.

What was worth noting was that the two wild beasts did not have intelligence. They acted on instinct.

Even so, they were still frightened to death.

It was obvious that the black tortoise was extraordinary.

“It’s not your first time seeing it. What’s there to see?” Constable heartless put it away expressionlessly and said indifferently.

Su Yu smiled lightly. She could defeat Constable heartless because she stopped him from activating the black tortoise. Otherwise, the outcome would be hard to determine.

“Hyah!”

Constable heartless rode his silver and gold horse smoothly into the gap through the waterfall.

As soon as he entered, a special aura from the nightmare ferrying lotus seat assaulted his face.

The Nightmare Ferrying Lotus seat, which had a human weight, was basically in a state of stagnation. Only occasionally would it emit a very weak aura. However, the nightmare ferrying lotus seat here was different. It could actually maintain a certain amount of the local special aura.

It could be seen that it was not completely destroyed.

“Su Yu, do you know why the beasts here can maintain such a huge body and survive for so many years?” The heartless iron constable suddenly asked.

Su Yu had been curious about this question before, but now he basically understood it.

The one that could maintain this special ecology for such a long time was the nightmare crossing Lotus seat.

It was precisely because of the special aura that plants and animals grew extremely huge.

That was why such a spectacle was created.

“Perhaps it’s the so-called ancient glazed platform.” Su Yu pretended not to know.

“Yes.” The heartless iron constable said, “It is indeed the ancient glazed stage, but do you know that it has another use?”

Huh?

Su Yu said calmly, “What do you want to say?”

“I want to say that the Golden Pupil Langjun’s goal is very likely to be the ancient glazed stage.” The heartless iron constable said, “As far as I know, there are a lot of great dao in the ancient glazed stage. If it is used as a weapon, it will be able to destroy the world and threaten the entire western region.”

Su Yu’s heart trembled. If she did not happen to have the information about the nightmare crossing Lotus seat, she might not have understood constable heartless’s meaning.

“Since I happened to encounter this matter, I naturally can not just stand by and watch.” Constable Heartless was as usual. She abhorred evil as if it was her enemy and would not tolerate great evil.

As she spoke, her crystal eyes turned and looked at Su Yu, “Are you willing to help me?”

Su Yu did not hesitate and said, “As I said before, if you need help, feel free to ask.”

Constable Heartless revealed a gratified expression and said, “I won’t ask for your help for nothing. Regardless of whether it succeeds or not, I will tell you about the divine seat of Heaven and Earth.”

If it was anything else, Su Yu might not care.

But the divine seat of Heaven and Earth was the key to Su Yu becoming a Dao master!

“Has it reappeared?” Su Yu’s eyes flashed.

Constable Heartless nodded affirmatively. “Yes, it reappeared after more than ten years of silence!”

Su Yu understood that the divine throne of Heaven and Earth had been healing the injuries he had inflicted on him all these years.

Now that it reappeared, it must have gone to look for Zhan Wushuang.

It appeared at the right time!

If he could become a Dao master before he entered the eight-star civilization, then he would have more confidence in his trip to the evil maiden palace.

At that time, the eight great domains would open up simultaneously. Who else in the world would be an opponent?
