Chapter 2341 The Golden Black Tortoise

He only hoped that the divine seat of Heaven and Earth wouldn't be taken by someone else first.

"Even if there is no divine seat of Heaven and Earth, I will still fulfill my promise," Su Yu said slowly. He had once promised to help the heartless iron constable deal with the Golden Pupil Prince, so he naturally wouldn't go back on his word.

However, Su Yu looked at her deeply for a while.

It could be said that she was well-informed.

Su Yu hadn't heard any news about the divine seat of heaven and earth from the nightless imperial kingdom, but the heartless iron constable, who lived in seclusion, had a deep understanding of it.

In addition, she had a vague grasp of the truth about the glazed ancient stage.

Su Yu was very curious as to where the information about the heartless iron constable came from.

A person who lived in seclusion wouldn't be able to obtain so much important information for no reason.

However, he did not expose it. He asked, "Do you have a specific plan?"

"No. If you do, you can tell me," constable heartless said with a deeper meaning.

At present, it was still unclear what the bamboo hat man's specific actions were. Constable heartless could not make a plan.

"There is too little information. It is impossible to talk about a plan that is too tight." Su Yu's gaze flashed. "However, I have a plan that is not a plan."

Constable heartless raised the corner of his mouth with a faint smile. It was as if he was saying that he knew that Su Yu had a way.

"Since you guessed that his goal is the ancient glazed platform, why do we have to blindly chase after him?" Su Yu said plainly.

Constable heartless pondered. "You're saying that we should head to the ancient glazed platform with heavy human characters and wait for him?"

She had also thought about this method before. It was not a plan at all.

She was a little disappointed. It seemed that Su Yu was good at making arrangements all the time.

"No!" Unexpectedly, Su Yu shook his head slightly, "What I mean is, why don't we grab the ancient glazed platform first and wait for the Rabbit?"

Constable heartless blinked her eyelashes and tilted her head slightly to look at Su Yu. She was a little confused about Su Yu's wildness.

“Golden Pupil Prince-in-law’s conspiracy lies in the ancient glazed platform. We can just remove the root of the problem.” Su Yu was like a spectator who stood aside and revealed the nature of the matter.

Constable heartless finally understood what Su Yu meant and said, “Your thoughts... are really difficult to grasp.”

She had always been an experienced and resourceful person who hunted down the most evil people.

However, in front of Su Yu, she always felt that her brain was not enough.

Staring at Su Yu at this moment, the heartless catcher inexplicably felt a sense of suffocation.

He could not help but feel lucky that Su Yu was an upright person and not a great evil person.

Otherwise, she would have a headache if she became her enemy.

“Let’s go. With the ability of the gold and silver horse, it’s not a problem to get ahead of them.”

The heartless catcher nodded and drove the gold and silver horse at a high speed.

Although they encountered many beasts in the fish-dragon realm, the heartless catcher held the golden turtle in his hand and had a peaceful journey.

Ten days later.

They surpassed the hooded man and were the first to arrive at the end of the ‘human’ sign.

Sure enough, they saw a lotus seat that was still functioning.

There were many wounds on its body, and many mysterious trajectories had disappeared without a trace.

However, it was still spinning on its own, releasing a weak special aura.

To Su Yu’s surprise, there were actually a few figures sitting cross-legged on the transitional Nightmare Lotus seat.

“Shadow Hunter, Ghost Eye?” Su Yu felt relieved.

No wonder he had never seen anyone from the Sword Whisper Pavilion after entering this place.

It turned out that they had directly abandoned the human word weight and came to the transitional Nightmare Lotus seat with the Earth word weight.

Compared to the initial number of people, the people from the Sword Whisper Pavilion had suffered some losses. From the initial number of seven or eight people, there were only four people left.

If they knew that the special aura that they had paid such a huge price to obtain was not even comparable to the heavy ‘crossing Nightmare Lotus’ that had been reactivated, no one knew what they would think.

“What should we do with those people?” Constable heartless said, “Chase Them All Away?”

Su Yu shook his head slightly, “That would be too hasty and alert the snake.”

After pondering for a while, Su Yu said, "Can you lend me the Golden Turtle?"

Constable heartless hesitated. She had always been straightforward, but after careful consideration, she said decisively, "Okay! But, don't leave my sight."

Su Yu felt an indescribable sense of relief.

Su Yu knew very well what kind of magic treasure the Golden Black Turtle was. It must be the most important item in constable heartless.

However, she was still willing to lend it to Su Yu.

It could be seen that she trusted Su Yu.

A warm current slowly flowed through her heart.

The heartfelt trust of the heartless constable and the silent tacit understanding made Su Yu recall the time when he first met Xia Jingyu.

There was a type of friend of the opposite sex in the world, and it could be said that they were beauties.

The heartless constable was one of them.

However, Su Yu really only regarded him as a friend. There were no distracting thoughts in his heart.

He already had two feelings in his life that he could not bear, and he could not bear any more.

"Here you go!" The heartless catcher took the golden black tortoise and said, "This thing will be very heavy when you hold it. Be careful."

Is that so?

Su Yu did not dare to be careless. His right hand turned into a dragon claw and held the Golden Black Tortoise.

Unexpectedly, it was not as heavy as he had imagined. Instead, it was light and light.

Moreover, the cold feeling of the metal that she had imagined did not appear. Instead, it was a little warm, as if the golden black tortoise was transmitting a weak heat.

Su Yu's arm turned back into human form and held it in her hand. She shook it and said in slight surprise, "It's not too heavy."

Beside her, the heartless iron constable was as calm as she was. There was a hint of surprise on her face as she said, "This thing weighs 180 million kilograms. It's equivalent to an entire four-star civilization. Only those who bind it with blood can easily move it."

Su Yu also felt that it was strange and tried to place it on the ground.

In the end, just as the black tortoise's feet touched the ground, the ground caved in deeply.

Su Yu immediately lifted it up in surprise. Just as he was feeling puzzled, the nine dragons divine cauldron in his arms moved restlessly.

The nine flying dragons in his arms let out dragon roars that only Su Yu could hear. They seemed to be very excited.

The nine dragons cauldron reacted again!

Su Yu was even more surprised. What level of magic treasure was this Xuanwu.

“Do you have anything in Your Arms?”The heartless catcher observed carefully and vaguely saw the vibration in Su Yu’s arms.

Su Yu thought for a moment, but ultimately did not say the nine dragons cauldron. He said, “Nothing.”

“Let’s Go!”

The two left the ancient glazed platform and headed to a huge basin that they had passed by before. Hundreds of poisonous snakes and pythons with the strength of the fish-dragon realm resided in the basin.

Su Yu held the black tortoise in his left hand and the wicked King Pearl in his right.

Their appearance alarmed the poisonous snakes and pythons. They spat out their tongues and stared at Su Yu and the other two greedily.

Su Yu extended the black tortoise forward and imitated the heartless catcher’s action, releasing the aura of the king of beasts of the black tortoise.

The heartless iron constable said, “Let me do it. Only I can activate it.”

She extended her hand and grabbed the Black Tortoise’s head.

However, what made her arm stiffen in mid-air was that the black tortoise actually emitted the aura of the king of beasts on its own, and it seemed to be even stronger than when the heartless iron constable was holding it in his hand.

The venomous python below immediately retreated back into the snake hole, extremely fearful.

Constable heartless’s pupils constricted in disbelief.

How could Su Yu control his own magic treasure?

She even had the illusion that Su Yu had swapped out the golden black tortoise and took out a fake black tortoise?

Su Yu didn’t think too much about it and activated the evil King Pearl with his right hand.

A blood-red rune immediately appeared around the evil King Pearl.

This rune was the one that Beast Kings used to control savage beasts.

The wicked king bead could replicate all kinds of attacks, and this kind of beast-controlling skill was also applicable.

Whoosh --

The rune chose a 10,000-foot-long poisonous python and sank into the center of its forehead.

However, the rune refined by the Beast King slave could only control a master-level dao master.

The poisonous Python was in the fish-dragon realm, which was a higher level, so it could not do anything to it.

What Su Yu wanted was not to control it, but to... communicate with it.

When the rune entered, a spiritual connection immediately appeared between the two.

Su Yu could hear the inner activities of the poisonous python.

Fear, fear, fear..

This was the reflection of the poisonous Python's heart.

It only had instincts.

Through the spiritual connection, Su Yu said, "Listen to my command. I'll let you go later. Otherwise, I'll eat you!"

As he said that, he shook the golden black tortoise.

What made the heartless catcher incredulous was that the golden black tortoise seemed to be cooperating with Su Yu. It immediately released an even stronger pressure, making the poisonous python even more terrified.

"Let's Go!" Su Yu held the Golden Black Tortoise and said this.

The poisonous python did not dare to resist. It obediently followed Su Yu to the front of the ancient glazed platform.

"Go, Chase away the people above."

The poisonous python looked at the ancient glazed platform with some fear. It was very afraid of the Great Dao Aura that was released from the platform. It hesitated and did not dare to go up.

"Huh?" Su Yu frowned. The poisonous Python had no choice but to climb up the ancient glazed platform, feeling wronged.

Although Lie Ying, Gui Ying, and the two members of the nine swords pavilion were in seclusion, they still had a trace of their souls left outside.

They immediately sensed the arrival of a poisonous python in the fish-dragon realm and were so scared that they fled from the ancient glazed platform.

Even Lie Ying was very afraid. He said in a hoarse voice, "What's going on? How dare the wild beasts here climb up the ancient glazed platform?"

Hiss --

The poisonous python couldn't care less. Under Su Yu's control, it chased after them and ran further and further away.

Su Yu reacted quickly and said, "Quick! Take the ancient glazed platform away!"

Constable heartless snapped back to his senses and immediately worked together with Su Yu to lift the ancient glazed platform.

Unexpectedly, they couldn't move the ancient glazed platform at all.

The ancient platform was engraved with thousands of daos. Lifting the ancient platform meant lifting thousands of daos.

With their strength, it was naturally difficult for them to succeed.

Su Yu looked at the golden black tortoise in his hand and asked constable heartless, "Does this object have any other uses?"

He had seen it with his own eyes. This object had extremely high defense and could even launch unknown and mysterious attacks.

"I can only mobilize a portion of it. I have yet to grasp the rest of its abilities," constable heartless said regretfully.

"Is that so?" Su Yu shook his head in disappointment and said, "I thought you were an earth-attributed magic treasure. You should be extremely powerful."

If the Golden Black Tortoise sect was useless, then they could only use the nine dragons divine cauldron to see if they could suck it into the divine cauldron.

In the end, the black tortoise actually came to life!

Its head moved and its limbs flapped, indicating that Su Yu should put it down.

"Who exactly are you?" The heartless catcher could no longer describe his feelings. He stared at Su Yu and asked.

She knew that the Golden Black Tortoise had always been a living thing.

However, even she rarely let the golden black tortoise move.

However, Su Yu's words made the Golden Black Tortoise take the initiative to move!

Chapter 2342 Fell Out Unexpectedly

Su Yu was speechless. "Why don't you ask your precious turtle? I don't know what's going on either."

He lowered his body and placed the turtle on the ground.

The golden turtle slowly crawled under the ancient glass platform.

Rumble --

Then, with a loud sound, the ancient glass platform that carried thousands of daos was actually forcefully carried by an inconspicuous black tortoise! !

With the weight of thousands of daos, it was likely that only the son of Heaven of the sacred mountain could withstand it.

However, the power of this black tortoise could be said to be the ultimate.

Su Yu was slightly startled and said, "Come to my cave abode space."

It released the nine Jade Spirit Pearl and let the black tortoise crawl in.

The golden black tortoise obediently crawled over.

The heartless catcher was not happy to see this. He squatted down and said, "Let me do it."

She took out a cave world and placed it in front of the black tortoise.

However, the black tortoise ignored her and walked straight into Su Yu's nine jade spiritual pearl.

With the weight of the ancient glazed stage, there was no cave world that could accommodate it.

Other than the eye space formed by the Heavenly Dao Eye of death.

It could even withstand so much world-destroying dust, let alone the ancient glazed stage?

That was why Su Yu allowed it to enter the nine-jade spiritual pearl.

However, her actions seemed to have caused constable heartless to misunderstand.

She was a little depressed. She looked at Su Yu with a complicated expression and did not say a word.

Su Yu did not find it funny. If someone could control his nine dragons divine cauldron and it had run away with someone else, he would probably find it hard to calm down.

"My Cave Abode World is a special item. It is the only thing that can hold the ancient glazed platform." Su Yu held the heartless Iron Constable's Jade Palm and stuffed the nine jade spirit pearl into his hand. "I'll leave it in your hands for the time being."

The nine Jade Spirit Pearl had been refined by Su Yu many times. It had long been Su Yu's item.

Without Su Yu's consent, the heartless iron constable would not be able to open it even if he took it away.

At this moment, the heartless iron constable realized that he had lost his composure.

Indeed, with the heaviness of the glazed ancient stage, the ordinary cave abode world that she had just taken out would immediately be crushed.

Her actions truly did not conform to her usual calm temperament.

Thinking up to this point, she could not help but feel slightly embarrassed. She sighed softly and said, "Why do I always lose face in front of you?"

In front of anyone, she had always been successful in everything. She had always shown herself to others in an otherworldly manner.

Su Yu was the only one who had been defeated by her on their first meeting. He had only managed to escape death because he had shown mercy to her.

Now, he had seen her embarrassing side again.

She could not help but sigh.

"It is human nature. How can you say that you are embarrassed?" Su Yu let go of her hand.

However, the heartless catcher grabbed his hand again and stuffed the nine jade spirit pearl back into his hands. “Young master Su, you have the bearing of a gentleman. It is because I, Leng Wuxin, am too petty.”

She could feel that this nine jade spirit pearl was extraordinary. It should be an extremely important item for Su Yu.

Even so, she could still trust her unconditionally.

On the other hand, she was at the bottom.

Su Yu chuckled and did not hesitate anymore. He caught it and said, “Leave this place quickly.”

The two of them immediately left and hid in the distance to observe in secret.

Lie Ying and the others were tortured by the poisonous python for a day or two before they finally got rid of it and returned to the ancient glazed platform.

“What bad luck. It interfered with our precious cultivation.” Ghost Eye’s light was dim, as if he had suffered a lot at the hands of the poisonous python.

Lie Ying’s expression was solemn. “This snake came in a strange way. Everyone, be careful...”

He was still mumbling the word “Heart” when he was stunned on the spot. He stared at the empty yellow soil in front of him without blinking.

Ghost Eye and the other two were also stunned.

“Where’s the glazed ancient stage?” Ghost Eye looked around, wondering if he had found the wrong place.

Lie Ying’s entire body was pitch-black, as if he was a shadow.

At this moment, his entire body was surging with black light. No one knew whether he was excited or angry. “Who is it? who did something in the Dark?”

Thinking of the giant Python that appeared out of nowhere, Lie Ying knew that someone was secretly playing tricks.

All of a sudden, lie Ying lowered his voice and shouted, “Hide! Someone is coming!”

The four of them immediately hid in the dark.

Fortunately, Su Yu and the heartless iron catcher hid far away, or else they would have run into them.

Whoosh whoosh whoosh --

Not long after, three auras arrived at this place.

They were the bamboo hat man, Bi Yun Hong Xian, and Princess Qian Yue who had arrived one step later.

After the bamboo hat man landed, he looked around and muttered in his heart, “Where’s the ancient glazed platform? According to the map, it should be nearby!”

Could it be that they had found the wrong place?

With this thought in his heart, the man in the bamboo hat led the two women into the air once again and prepared to search the surroundings.

In the end, they had just moved when shadow hunter and the other two flew out from the darkness and surrounded the three of them.

“Good! So It’s you guys!”Shadow Hunter shouted in a deep voice.

The man in the bamboo hat looked around sneakily. Shadow Hunter had mistaken them as the people who had done something in the dark.

The man in the bamboo hat’s huge eyes flashed as he was suspicious.

If it was really the man in the bamboo hat and the others, then they had already achieved their goal. Why would they return to this place?

However, when he looked at Lie Ying in front of him, the man in the bamboo hat was strangely silent and did not wake him up.

The man in the bamboo hat was caught off guard and said, “There’s an ambush. Defend!”

Bi Yun Hong Xian’s face was expressionless as she folded her hands into her sleeves. Threads of golden light were swimming deep in the pupils of her two eyes.

Princess Qianyue, on the other hand, immediately released her nine gods body as if she was facing a great enemy. She was extremely nervous.

The people in front of her were the strongest people in the Sword Whisper Pavilion!

How did she meet them here?

“Stop pretending!”Lie Ying said, “Tell Me, where did you take the ancient glazed platform with a heavy ‘earth’character?”

The man in the bamboo hat was wondering about the location of the ancient glazed platform. After hearing his words, he was slightly puzzled.

However, he soon “Understood”that the people of the Sword Whisper Pavilion had deliberately hidden the ancient veluriyam platform, but they had hidden it here to find an excuse to attack.

The people of the nine swords pavilion had used similar methods many times in Veluriyam City.

“A thief calls out to catch a thief!”The man in the bamboo hat said coldly, “People of the nine swords pavilion, I don’t care what you do in front of the people of the radiant palace and the nightless imperial kingdom, but in front of me, I advise you not to seek your own death!”

The tone of the man in the bamboo hat was exceptionally arrogant, completely not putting the strongest members of the nine swords pavilion in his eyes.

Lie Ying sneered, “It’s been a long time since I’ve heard someone dare to speak to me like this!”

With his strength, in the entire glazed tile civilization, only Xuan Hua could withstand a battle, and he had more victories than losses.

To actually be threatened by a nameless person like this, he felt that perhaps a third of his soul had been destroyed by Su Yu, so he had been looked down upon by others?

“Hehe, Lie Ying, right?” The man in the bamboo hat’s tone became cold. “I’ll count to three. Leave the ancient glazed platform, and then get lost.”

“Three!” The man in the bamboo hat began counting.

Lie Ying laughed angrily. “I’ll help you count. One!”

The man in the bamboo hat put down his finger and said coldly, “Since you’re courting death, I’ll fulfill your wish!”

Roar Roar Roar --

Instantly, six extremely fierce beast roars came from the body of the man in the bamboo hat.

Lie Ying, who had been completely unconcerned, suddenly had a drastic change in expression. His face was filled with intense pain as he said, “It’s a Soul Attack!”

The reason why he was fearless was because he was most skilled in the soul.

No one could compete with him in terms of soul power.

Who knew that his opponent was most skilled in soul attacks!

If he was like this, how could ghost eye and the other two feel good?

All of them felt intense pain in their souls and had no fighting strength at all.

The man in the bamboo hat said contemptuously, “Hong Xian, Qian Yue, why aren’t you making your move?”

After all, Lie Ying was a heaven’s favorite nurtured by the Sword Whisper Pavilion. After a short period of pain, he immediately recovered and began to counterattack. “Set up the formation!”

Ghost Eye and the other two immediately accompanied Lie Ying and released eighteen pitch-black small mirrors.

The surface of the small mirrors was pitch-black like eighteen ancient wells, devouring all the soul attacks that came at them.

At the same time, the shadow hunter shattered into countless shadow fragments, scattering on the ground in all directions. It flew around the hooded man, looking for an opportunity to attack.

Ghost Eye and the other two attacked head-on.

It was as if they had the upper hand in the blink of an eye.

The hooded man sneered, “Overestimating yourself!”

Another fierce roar came from under the Hooded Man’s raincoat, and a blood-red Beast Soul came out.

Its huge mouth opened abruptly and sucked. A huge suction force that was not weaker than Su Yu’s soul vortex swept across the scene.

Pieces of shadow fragments were sucked away and chewed by the beast soul with crunching sounds.

Ah --

An invisible cry of pain appeared. The remaining shattered shadow fragments condensed back into the form of a hunting shadow. It stared at the straw hat man with a terrified expression.

“If you were good at other things, I would still be afraid of you. But unfortunately, what I’m best at is restraining souls!” The Hooded Man’s raincoat bulged, and something seemed to be running out.

The hooded man’s face changed greatly, and he hurriedly said, “Retreat!”

If he met someone who restrained himself, was there a need to continue fighting?

However, the hooded man didn’t intend to let him leave. He said with a faint smile, “Didn’t I say that if you want to die, I’ll grant you. Isn’t it a bit too late to regret now?”

“All of you can stay here and be my nourishment!” Six Beast Souls flew out from under the Bamboo Hat Man’s raincoat at the same time.

Lie Ying’s expression changed drastically. Just Now, one Beast Soul had already devoured an equivalent amount of his soul, let alone six?

He was practically a delicacy that was delivered to his doorstep!

Roar --

Six beast souls whistled over and were about to devour all of their souls.

But at this moment, the two members of the nine sword pavilion behind the Ghost Shadow suddenly twitched and then exploded from the inside out.

Blood splattered everywhere and condensed into the figure of an old man who was covered in blood.

Under the cover of the blood, his eyes were particularly dark as he said, “Junior, if you want to let others off, let them off. Why Are You So Persistent?”

The six beast souls pounced over. The bloody man merely stretched out a finger and flicked it, sending all six beast souls flying.

The hooded figure’s laughter suddenly froze as he stared at the bloody figure in front of him.

When the blood on his body slowly dripped from his face and revealed his true appearance, the hooded figure took a deep breath and said, “Sword Whisper Pavilion Master, Ghost Teacher?”

Princess Qianyue, who was beside him, trembled all over as her beautiful eyes widened. “You... how did you enter the ancient glazed cave?”

The ancient glazed cave only allowed juniors to enter. How did ghost teacher, a powerful expert, sneak in under the eyes of her father and bright jade?

The heartless iron catcher, who was hiding in the dark, was also astonished.

The Sword Whisper Pavilion Master had actually snuck in!

Only Su Yu was still relatively calm and did not feel too surprised.

When he saw ghost teacher in front of the Veluriyam ancient cave, he felt that there was something wrong with ghost teacher.

However, Xiao Lifeng and radiant jade did not say anything, so Su Yu pretended not to know.

He did not expect that the ghost teacher outside should be a fake. The real ghost teacher had used some kind of secret technique to hide in the bodies of the two members of the nine sword pavilion.

And when necessary, he revealed his real body by sacrificing them.

Chapter 2343 Fighting Against The Pavilion Master (First Watch)

Master Gui was really powerful!

Su Yu could not help but admire his ability. He was actually able to sneak into the ancient glazed cave.

No wonder the four people from the nine swords pavilion were able to successfully reach the earth-heavy ancient glazed platform. It was likely that Master GUI would help them in secret along the way.

“Little kids, I didn’t want to make things difficult for you, but you didn’t know what was good for you and insisted on coming here to seek death.” Master Gui’s eyes were cold and full of killing intent.

He didn’t want Xiao Lifeng and the bright jade to know that he had sneaked into the ancient glazed cave.

Otherwise, those two fellows would definitely seek revenge on him.

Therefore, he could only send the two people in front of him on their way and kill them to silence them.

As if sensing the ghost teacher’s killing intent, the hooded man’s heart trembled and he shouted in a low voice, “Sword seeking pavilion master, think carefully before you attack!”

With a swoosh, he threw out an antique-looking turtle shell.

The turtle shell was densely covered with many mysterious runes, as if it was used for divination.

Seeing this object, master Gui’s pupils constricted. “Old Man Xuanji’s things?”

In the Western Region, everyone knew who old man Xuanji was.

He was the supreme figure who ruled over the entire Western Region’s Star Alliance Chamber of Commerce. His cultivation was extremely high.

When the Star Alliance Chamber of Commerce had once opened up the western region, he had challenged all nine great seven-star civilizations single-handedly.

All the super experts had accepted the challenge, but in the end, he had not lost a single battle!

Teacher Gui still remembered the feeling of being as small as dust in front of old man Xuanji.

He had only felt that extreme sense of inferiority from the old monsters of the Mysterious Dao Palace.

The turtle shell in the bamboo hat man's hand was the divination item on old man Xuanji's body. It rarely left his body.

Now that it had appeared in the bamboo hat man's hand, how could master Gui not be afraid?

Master GUI's expression changed repeatedly. In the end, he did not dare to take the risk of offending old man Xuanji. He snorted, "Consider yourself lucky. Scram!"

The bamboo hat man looked at the empty ancient glazed platform and left regretfully.

After he had gone far away, lie Ying asked, "Master, why didn't you leave them behind? The ancient glazed cave is isolated from the world. Even if you really killed him, old man Xuanji might not know."

But Master Gui shook his head and said with a solemn face, "You don't understand how terrifying old man Xuanji is. He is the only person in my life who can divine the secrets of the heavens. To be enemies with such a person, you need to be prepared to die."

Divine the secrets of the heavens?

The higher one's cultivation level was, the more they would believe in such a mysterious thing.

Lie Ying's scalp went numb. He could imagine that if they really killed the bamboo hat man, Old Man Xuan Ji might be able to divine it through divination.

"Moreover, compared to chasing after them, finding the ancient glazed platform is of course more important!" Master GUI's expression suddenly turned gloomy. He turned his head and stared in the direction of Su Yu and constable heartless, he said darkly, "Isn't that right, the two of you?"

Constable heartless's expression was calm as he thought that things were not looking good. He had been discovered.

Su Yu, on the other hand, was unperturbed and unsurprised.

How difficult was it to hide in front of a super powerhouse?

When Master Gui appeared, Su Yu knew that he had been discovered.

Swoosh --

Su Yu and constable heartless had an exceptional rapport as they galloped into the distance at the same time.

As they galloped, the heartless iron constable also summoned his gold and silver horse. The two of them rode on their warhorses and left quickly.

Although Ghost Teacher's appearance was extremely unexpected, Su Yu still successfully completed his plan and obtained the ancient glazed stage.

Now, it was time to see how he could get rid of ghost teacher.

Hiss --

The gold and silver horse neighed and entered the space to escape.

“HMPH! So It’s You!” Ghost teacher saw that one of the two was Su Yu and he was filled with hatred.

How many good things had this kid ruined for him?

Lie Ying also saw it clearly, and his eyes were filled with killing intent. “I want you to be torn to pieces.”

The one who had caused him to lose one-third of his soul was this human named Su Yu!

Master Gui rolled up his sleeves and chased after Lie Ying and Ghost Eye.

It went without saying how fast a super expert was!

“Spatial domain!” Su Yu didn’t even turn his head and activated his spatial domain.

Immediately, the space where teacher GUI was was continuously folded and folded.

Teacher Gui broke through one layer of folded barrier and fell into another layer of folded barrier. This repeated process made it seem like he was moving at a rapid speed, but in reality, he was still at his original spot.

“Little Bastard!” Teacher Gui felt that he was being played like a monkey by Su Yu, and he was extremely furious in his heart. “You dare to show off in front of an intermediate domain?”

With a low shout, Ghost Qi surged around Master Gui’s body. Countless Ghost Shadows rushed out and gnawed on the spatial domain.

Only then did the spatial domain show a flaw.

Master GUI snorted and seized this flaw to break through the spatial domain.

“Chase!” Killing intent flourished in his eyes.

He said that he did not care about Su Yu’s domain, but in his heart, he was extremely stern.

Su Yu’s domain should be at the beginner level, not even at the beginner level.

But even so, he was still able to hold on for quite a while before breaking through his intermediate domain.

The space domain was indeed worthy of its reputation!

Therefore, he became even more determined to kill Su Yu.

This child’s potential was too great. If he did not kill him today, he would kill him in the future.

Moreover, he had the sword Whisper Pavilion’s contract in his hand. How could he allow him to leave the ancient glazed cave alive?

Boom --

Master GUI activated his domain and transformed into a huge pair of wings behind him.

With a flap, lightning flashed and thunder rumbled.

His speed increased by more than three times.

The distance that Su Yu had managed to pull apart with great difficulty was immediately equalized by Master Gui.

Feeling the biting cold energy behind him, constable heartless iron's expression was calm. She turned her head and said, "Try to control my magic treasure."

She placed her hopes on the golden black tortoise.

Su Yu shook his head slightly. The golden black tortoise was indeed powerful, but it was supporting the nightmare crossing Lotus seat at the moment, so he could not withdraw his hand.

"There's no need for that for the time being. I've already prepared something for this old man." An extremely cold needle fell from Su Yu's sleeve.

It was the nine-five heavens cold needle.

He turned his head and looked behind him. The corners of his mouth curled up into a faint smile. "I wish you good luck, Old Thing!"

Whoosh --

With a wave of his hand, the nine-five heavens cold needle flew out and shot toward Master Gui who was rushing toward him.

Although Master Gui was moving at a high speed, his reaction was very agile. With a flap of his wings, he immediately avoided the nine-five heavens cold needle, he sneered, "If Xiao Lifeng used the nine-five heavens cold needle himself, I would be a little afraid. As for you... Hehe!"

The extremely cold air in the nine-five heavens cold needle could seal a dao master in the fish-dragon realm into ice chips on the spot.

Even a super strong person like Master GUI would be slightly affected by the needle.

However, Su Yu's cultivation was too low, so it was difficult for him to hurt him with the needle.

"Is that so?" Su Yu smiled faintly.

Master Gui's heart skipped a beat as he realized that something was wrong.

He saw that the nine-five heavens cold needle had flown past him, but it twisted strangely and pierced into his arm.

"Spatial domain!" It turned out that Su Yu had already used his spatial domain to an extremely fine degree.

At the same time he shot out the nine-five heavens cold needle, he added an undetectable spatial domain to it.

Under the effect of the domain, the nine-five heavens cold needle could twist in an inconceivable arc.

Teacher GUI had no way of avoiding it, and could only circulate an incomparably thick layer of dao master power on the surface of his body.

With his strong physique, he should be able to block it.

However, what caused his expression to change drastically was that the spatial domain actually ignored his defense and allowed the nine-five heavens cold needle to pierce into his flesh without any resistance.

Immediately, ghost teacher let out a muffled groan.

The air that he groaned out was all cold air.

His skin gradually turned pale and lost its color. A thin layer of ice was still condensing on the surface of his body.

The nine-five heavens cold needle had already taken effect.

“Master!” Lie Ying’s expression changed drastically. He hurriedly infused dao master power into ghost master to resist the cold air.

However, the moment he touched it, he himself began to be eroded by the cold air.

“Don’t touch me. You Can’t do anything to the cold air of the nine-five heavens cold needle... just protect me!” Ghost Master said with difficulty. His words were no longer crisp.

Lie Ying was filled with grief and indignation as he ordered, “Ghost Eye, you stay behind, I’ll stay in front!”

The two of them sandwiched Master Gui in the middle, closely guarding against Su Yu.

Heartless Metal Constable pulled the reins of the horse. A thoughtful look appeared in his eyes as he said, “Do you still have any tricks up your sleeve?”

If he didn’t, then he would take the opportunity to run as quickly as possible.

“Of course I do.” Su Yu took out the nine Jade Spirit Pearl. There was an eye on it, and there was a trace of undetectable lightning in it.

That was the remnant lightning arc of the Yuan level domain.

Once the attack really hit ghost teacher, he would be crippled even if he didn’t die.

Of course, Su Yu didn’t immediately summon it. Instead, he quietly concealed the existence of this lightning arc. With a backhand, he pulled out the royal longzun sword and said, “You hold on to Lie Ying, leave Ghost Teacher to me!”

The heartless catcher nodded and turned her horse around to rush back.

She raised her hand and launched an attack on Lie Ying.

He had always been powerful and had a good reputation. Lie Ying did not dare to underestimate him. He gritted his teeth and fought with all his might.

Su Yu attacked Ghost Master.

Ghost eye shouted, "Don't touch the Master!"

As he said that, he pounced on him without fear of death.

Su Yu did not even look at him. He kicked him away and slashed at Ghost Master's head from top to bottom with his sword.

He activated the Heavenly Dragon Dao body and unleashed his strength to the maximum.

Ghost Master's entire body was frozen. It was impossible for him to withstand this sword attack just by relying on the toughness of his body.

This sword would definitely be able to cut off half of his life, or even kill him directly.

Chi --

The Royal Longzun Sword drew a long line of sparks in the air and slashed at ghost master in a graceful arc.

Ghost Eye and Lie Ying's eyes were about to burst, but they couldn't help him. They could only watch as ghost master was cut into two halves.

The heartless captor also had a feeling that it wasn't real. One of the three super powerhouses of the glaze civilization died just like that?

However!

Just as the Royal Longzun sword was about to slash at his neck, Ghost Master, who was clearly frozen and unable to move, raised his right hand like lightning.

His middle finger and index finger forcefully and accurately caught the blade of the Royal Longzun Sword.

No matter how much strength Su Yu exerted, he could not suppress those two fingers.

Su Yu's expression changed drastically and said, "You... pretended to be injured?"

Looking at Ghost Teacher's face again, sure enough, he did not feel any pain at all?

The ice on his body continued to melt, and his face quickly regained its color.

His eyes were filled with ridicule and ridicule. "Little Bastard, do you really think that I, the Sword Whisper Pavilion Master, will be able to do nothing? What can a mere nine-five heavens cold needle do to me?"

Chapter 2344 Who's On The Bridge (Second Watch)

If he really didn't have any way to deal with the nine to five days cold needle, he would have been chased by Xiao Lifeng until he had nowhere to go.

The reason why he pretended to be injured was to lure Su Yu over.

Otherwise, if he continued to chase him, when would it end?

In the end, it was Su Yu who underestimated the true strength of a super powerhouse.

Constable Heartless' heart skipped a beat as she shouted, "Run!"

She forced Lie Ying back and rushed over.

However, lie Ying was overjoyed and grinned, "Run? Have you asked us?"

He turned into thousands of shadow fragments and rushed over, blocking the way of constable heartless.

Constable heartless was anxious, but he had no choice but to confront Lie Ying.

Master GUI smiled coldly and stared into Su Yu's eyes, saying, "Say goodbye to this world!"

He grabbed the royal longzun sword with one hand and pointed a finger at Su Yu's chest with the other.

This was an attack from a super powerhouse. With Su Yu's current physique, he would definitely die.

However, at this moment, the corner of Su Yu's mouth curled up again. He said indifferently, "I'll give you the same words!"

He released his fist and revealed the nine Jade Spiritual Pearl. He also revealed a Wisp of Yuan level domain that was fused within.

As soon as this domain appeared, it released a terrifying power that could destroy the entire galaxy.

Teacher Gui's entire body trembled, and his pupils contracted rapidly, turning into a needle. "This... this is the... Yuan level domain from a few months ago?"

"Correct!" Su Yu clenched his five fingers and activated the primal energy within his body, activating the nine Jade Spirit Pearl.

The nine Jade Spirit Pearl's eyes flashed, and the Yuan level domain within it flew out like a dragon flying out of the sea, entering teacher Gui's body.

Bang --

With a boundless loud sound, teacher Gui was blasted into pieces by the Yuan level domain from the inside out, turning into a shard-like ghost mist that scattered everywhere!

Everything happened too suddenly, so much so that shadow hunter and heartless predator did not even have time to react.

Su Yu was clearly being schemed against, how did teacher Gui die in the end?

Su Yu stared at the shrapnel all over the ground, his expression indifferent.

He had always been meticulous in his actions. From the start, he had never expected that the nine to five heavens cold needle would be able to kill a super expert.

His true trump card was this wisp of Yuan level domain.

The reason why he used the nine to five heavens cold needle was to distract teacher Gui's attention and then look for an opportunity to use the nine to five heavens cold needle to give him a fatal blow.

Unexpectedly, teacher Gui actually pretended to be heavily injured to draw Su Yu closer.

This was practically inviting Su Yu over to stab him.

Then why was Su Yu still being polite? Of course, he was going with the flow and coming over to give him a fatal blow that he couldn't avoid at close range!

“Master!” Lie Ying couldn't believe it. After a moment, he opened his eyes wide and pounced over with a roar.

Ghost Eye also rushed forward in a panic to check the ghost master in the shape of a piece.

HM?

Su Yu frowned slightly. Why didn't the two of them act like Ghost Master was already dead?

At this moment, the broken ghost master squirmed rapidly and reassembled into a complete ghost master!

Su Yu's eyes darkened slightly. A Top Dao Master who had surpassed the fish-dragon realm was not so easy to kill.

How could he be reborn immediately after his body was shattered like this?

No wonder he could integrate into the bodies of the two disciples and successfully blend into the ancient glazed cave.

Just as Su Yu was about to think of another way, a muffled thunder sound suddenly came from within the body of the ghost master, blasting his body into pieces.

As it turned out, the remnant power of the Yuan level domain had yet to dissipate and remained in his body.

The Shattered Ghost Master fused again, but in the end, he was blasted into pieces again.

This process repeated itself, and the speed at which the ghost master fused became slower and slower.

After the final fusion, Ghost Master could no longer care about Su Yu in front of her. She grabbed ghost eye and shadow hunter and fled in a panic. Before she left, she shouted angrily, “Little Bastard, you better...”

Bang --

Another loud sound exploded and shattered her.

However, just before the explosion, Ghost Master used some kind of secret technique and instantly escaped without a trace.

Heartless iron catcher immediately rode on her silver and gold horse to search for her. She said helplessly, “Her aura has also been erased. There's no way to chase after her.”

As she said this, she sized up Su Yu in shock and bewilderment.

She didn't expect that not only did Su Yu not die in the Yuan level domain, he had even refined a trace of it.

Moreover, he had endured it until now and never used it.

Before this, Su Yu had been hunted down by that wild wolf, but he had never used this item.

Until today, it was used at the most appropriate moment.

“Fortunately, I have never been your enemy.” The heartless catch voiced his thoughts.

Su Yu smiled indifferently, “Me too.”

Disregarding everything else, just the golden black tortoise that the heartless catch had used was enough to give him a headache.

The two of them were discussing something when suddenly, the Golden Silver Horse neighed for no reason. Its four limbs moved restlessly, appearing especially afraid.

Su Yu rolled his eyes and said, “Quickly leave this place.”

The appearance of the Yuan level domain just now had caused a disturbance that probably shook half of the word ‘earth’.

It was likely that something had already been attracted over.

The heartless iron catcher also sensed that something was amiss. He jumped onto the gold and silver horse and pulled Su Yu into the space immediately.

Who knew that just as they entered, they suddenly felt the space tremble intensely.

It was like an earthquake!

The entire space was shattered, and the reverse flow of space was everywhere.

The gold and silver horses had no choice but to come back from a broken place to avoid being swallowed by the reverse flow of space.

The place where they appeared was only a trillion miles away from the place where they had just exchanged blows.

Looking at the place where they had exchanged blows, the two of them sucked in a breath of cold air.

They saw a two-headed lion smacking the place of battle with its incomparably huge claws, smashing the space there into pieces!

From the ferocious aura that the lion released, it did not lose out to Master Gui!

Su Yu’s heart trembled. He had attracted the king of Ten Thousand Beasts!

His cultivation had reached the level of a super expert!

Su Yu and the heartless iron catcher both hid their auras and hid in the forest.

However, they had only taken a few steps when the sound of slapping the space behind them died down.

At the same time, the top of their heads suddenly turned black.

They looked up and saw two eyes that were as big as mountains staring at them without blinking.

From the lion's mouth, a waterfall of saliva dripped onto the two of them.

Su Yu's scalp went numb and he immediately grabbed the nine jade spiritual pearl.

He could only make the golden black tortoise give up the glazed ancient stage and let the aura of the king of beasts scare the lion away.

However, the lion didn't have any intention of attacking. Instead, it prostrated itself on the ground.

It lowered its head and lay in front of the two of them, letting out a miserable groan from its nostrils.

Su Yu and the heartless iron constable both sensed that something was wrong. They flew up to take a look and saw that there was a man-made demon subduing pestle inserted into the lion's neck.

The pestle kept releasing an abnormally cold power, causing the lion to be in great pain.

"It should be asking us to help it take out the demon subduing pestle, right?" Arresting officer heartless iron understood.

This pestle contained the power of martial arts, and it was impossible to take it out by just relying on brute force.

Presumably, this lion had suffered for a long time and was unable to pull it out for a long time.

When it sensed that there were martial artists fighting, it came to seek help.

"You decide," arresting officer heartless iron said.

The Lions in the ancient glazed cave were, after all, wild beasts that had yet to awaken their intelligence.

If he helped them take out the demon subduing pestle, it was hard to say whether it would bite back.

Su Yu thought for a moment, then flew down and grabbed the thousand-foot-long demon subduing pestle.

He infused it with the power of desolation, then pulled it out with force, successfully pulling it out.

Roar --

Immediately, the Lion roared in pain, and a series of black blood spurted out from its neck.

Su Yu flew back to the Heartless Constable and secretly prepared for the lion's next move.

Fortunately, the lion did not attack as he had expected. Instead, it growled at Su Yu and the heartless constable and shook its shoulders.

"It wants us to go up?" The Heartless Constable asked uncertainly.

Su Yu said, "Let's go up first."

At least the lion did not have any ill intentions. It was more or less safer to follow it.

After the two of them jumped on, the lion got up and strode towards a certain border of the 'Heavy Earth'.

There, an extremely wide river stretched out in front of them, with no end in sight.

And connecting the two banks of the river was an extremely long bridge.

Standing on the other side of the bridge, one could occasionally see that in the fog on the other side of the river, there was an extremely huge beast with an extremely terrifying aura walking.

Without a doubt, on the other side of the bridge was the most mysterious 'heaven'heavy!

A place where even the lowest cultivation of a beast was a super expert!

There was even a king of ten thousand beasts that surpassed super experts!

“Why did you bring us here?”Su Yu tried to ask.

Although lion did not understand what Su Yu was saying, he could roughly understand his doubts. He raised a claw and pointed at the middle of the bridge.

There was a dense fog in the center of the bridge. Su Yu looked carefully and vaguely noticed that there were several exceptionally tall creatures in the fog. They were sitting cross-legged and holding hands, cultivating there.

“There’s actually someone else in the ancient glazed cave?”Su Yu thought of the demon subduing pestle that had been inserted into lion’s neck.

Among the people from the three major forces of the glazed era civilization who had entered, none of them had used the demon subduing pestle as a magic treasure.

Moreover, Xuan Hua and the others stayed behind in the heavy character ‘Ren’.

The hooded man and the other two escaped.

Master Gui and the other two also escaped.

Then who were the people on the bridge?

Could it be that there was another entrance to the ancient glazed tile cave?

At this moment, the tallest person on the bridge stood up and looked over from the dense fog. He berated, “What an audacious beast. How dare you come and disturb our cultivation!”

That voice was unusually powerful. Even though they were separated by half of the bridge, Su Yu felt that it was deafening and his body was overturning.

He looked at the heartless iron constable again. His aura was chaotic and he was trying his best to adjust his state of mind.

Su Yu was extremely shocked.

A sentence from a distance could make the two of them feel uncomfortable.

What kind of cultivation was this?

“Glazed divine realm. No beasts can enter. Leave quickly!”The tall figure shouted again.

The lion roared indignantly, but did not dare to confront him. He whimpered and left with his head lowered.

Obviously, the demon subduing pestle on his neck was the work of the tall figure.

Watching the lion leave, the tall figure returned to the center of the bridge and continued to cultivate cross-legged.

However, Su Yu and constable heartless were deeply shocked.

What was the meaning of glazed divine realm?

How did those people enter the glazed ancient cave?

Their minds were filled with questions.

Constable heartless pondered for a long time. Her eyes flickered slightly, showing that she was not calm in her heart. She looked at Su Yu and said, "Who do you think they are?"

Su Yu muttered, "Didn't you already guess it?"

The two looked at each other and saw the shock in each other's eyes that they were trying their best to suppress.

Chapter 2345 The Three Ancestors Of The Ancient Era

Constable Heartless's indifferent face was covered with a surprised expression as he said slowly, "I think that they should be the natives born from the 'Sky Heavy' era!"

Su Yu nodded, but he shook his head in his heart.

To be more precise, they should be the living beings that survived the previous era!

The unrivaled emperor, Absolute Heaven Sacred Hero, and the crossing Nightmare Lotus throne that they had painstakingly built did not completely fail!

At least a few people had survived and had been hiding in the sky.

Su Yu didn't just think about how many people had survived in the previous era?

There weren't only three nightmare ferrying lotus seats. There were other nightmare ferrying lotus seats, but he didn't know where they were.

Had those nightmare ferrying lotus seats successfully protected those mighty figures?

Moreover, half of the mighty figures hadn't chosen the nightmare ferrying Lotus seats back then. Instead, they had used other methods to survive the great calamity.

If they were still alive, where were they now? And what were they preparing to do?

While he was thinking, the demon subduing pestle in his palm suddenly trembled violently and flew out of his hand.

Su Yu subconsciously clenched it and grabbed it.

A soft exclamation came from the bridge. "That's strange. There seems to be something on that Beast's body that is preventing the demon subduing pestle from returning?"

It turned out to be a tall figure on the bridge, preparing to retrieve the demon subduing pestle.

"Wait, there seems to be a martial artist's aura on that Lion's body. No, it's the Dragon Clan's Aura!" A tall figure said in surprise.

“Really?” Another tall figure suddenly stood up.

At this moment, the tallest figure among them stood up. His eyes shone with ecstatic light as he laughed towards the sky. “God’s will! We were about to give up, but a dragon clan member actually presented himself to us!”

Hearing their words, Su Yu’s heart skipped a beat. He had an extremely bad feeling about this.

The dragon they were talking about should be him, right?

Pipa --

The three of them walked towards the shore. With every step they took, a terrifying heavenly thunder and earthly fire would descend, as if it was hindering them from reaching the shore.

However, they completely ignored it and pressed forward step by step.

The clouds on the bridge flowed rapidly, turning into waves of white fog that pounced into the shore.

Wherever the white fog passed, all the trees, flowers, and plants wilted and died, losing their vitality.

After confirming that they were here for her, Su Yu’s expression changed again and again. She flipped her hand and stuffed the nine jade spirit pearl into the heartless constable’s hands. She shouted, “Take it and leave me as soon as possible!”

The other party was here for her. The heartless constable would only increase the danger if he followed her.

“They are here for you?” The heartless constable immediately understood Su Yu’s intentions.

He wanted to protect her.

And he even entrusted such an important nine jade spirit pearl to her.

“Quick!” Su Yu’s voice was solemn.

Those three people were very likely to be unrivaled mighty figures from the previous era. They were the mighty lords of Heaven and earth. Once the word ‘earth’ descended, Su Yu would not be able to resist at all.

If the heartless iron constable followed by his side, he would only suffer an undeserved calamity.

It was better to give the most important nine jade spirit pearl to her.

If he was still alive, he would find the heartless iron constable and get it back.

If he died, the nine Jade Spirit Pearl would lose its owner and open automatically. She would be able to get the golden black tortoise back.

The heartless iron constable bit her red lips and looked at the three suffocating figures walking towards her. She gritted her teeth and said, “Is there anything you need to tell me?”

If the three of them really came for Su Yu, he would most likely die.

Therefore, she was asking for Su Yu's last words.

As a constable, she had seen too many constable colleagues fall in front of her eyes.

The heartless Iron Constable was already numb to their deaths.

However, the farewell to Su Yu made her heart feel an inexplicable suppressive pain.

"Tell me?" Su Yu instantly thought of many people. In the end, she fixed her eyes on Qin Xian 'er's image, and her eyes were filled with regret.

Qin Xian 'er had already forgotten about him and everything between them.

What she remembered was only his name.

That was all.

"If I meet someone named Qin Xian 'er..." Su Yu wanted to explain, but Qin Xian 'er was still in the distant Asura civilization. It would take a thousand years to rush over.

So what if he explained?

"It's fine. You can go." Su Yu waved his hand forlornly.

Constable heartless slowly closed his eyes and muttered the words 'Qin Xian 'er' in his heart. He nodded and said, "Come back alive."

She knew that the chances of Su Yu coming back alive were very slim.

Touching his left chest, constable heartless jumped onto the silver horse and left alone.

She knew that with her strength, she was powerless. All she could do was to fulfill his last words.

Even though it was Su Yu's last words that he had yet to finish.

The lion seemed to have also sensed that the three tall figures were unusual. It was so scared that it immediately ran away.

Not long after it ran away, there was an intense thunder explosion behind it.

Su Yu turned around and looked. At the end of the world, dense thunderbolts crisscrossed and crashed down, bombarding the three tall figures.

However, the three figures were not afraid at all. They finally stepped into the 'earth' word weight from the majestic bridge.

The moment their feet touched the 'earth' character, the earth shook and the weather changed.

Many spiritual veins dried up in an instant. Countless plants immediately lost their vitality, and the spiritual energy in the world was emptied.

The 'earth' character, which was still full of vitality before, turned into a barren wasteland in the blink of an eye.

And the three figures had never done anything!

They had only stepped on it with one foot!

“Hateful laws.” The human figure on the left raised his head to look at the lightning that was getting more and more violent. He opened his mouth wide and actually swallowed all the lightning that filled the sky!

The strength of those lightning was only second to that Wisp of Yuan level domain!

The human figure on the right side was somewhat helpless. “If there’s no need, I really don’t want to step on the Earth word. Once we arrive, the Earth word will definitely be destroyed.”

They were so powerful that the ‘earth’ heavy character could not accommodate their existence at all.

Just like a vessel, if something much bigger than oneself was forcefully stuffed into it, the result would be that the vessel would be destroyed.

He took a step forward, and instantly, layers of flames emerged from the ground, burning everything from the ground to the ground.

Countless beasts in the fish-dragon realm could not resist the flames at all. They were all burned alive and turned into ashes.

Only the lion seemed to be deliberately protected. There was not a trace of flame within a thousand feet of it.

The figure in the middle looked at the lion indifferently. To be exact, he was looking at the person on top.

With just a glance, Su Yu let out a cry and spat out a large mouthful of blood.

His Heavenly Dragon Dao body was like a piece of paper. The inside of it was completely shattered.

“Too weak.” The figure in the middle shook his head in disappointment.

“However, it is true that there is a dragon bloodline, although it is not pure.”

Su Yu wiped the blood from the corner of his mouth and looked at the word ‘extinct’. His heart was extremely heavy.

The strength of these three people was not weaker than the second clone of the Carefree Emperor!

“Come with us.” The person in the middle said expressionlessly.

Su Yu hesitated.

If he fought with his life on the line, he would only die. Not even a single hair could hurt them.

If he followed them, he could still act according to the situation.

The figure on the right said indifferently, “Little ant, how hard can it be to take your life? Come with us. After the deed is done, I will give you a Supreme Fate!”

Su Yu was calm. He jumped away from the lion and walked towards them.

The figure on the left shook his huge gray robe and protected Su Yu under the gray robe. Then, he turned around and stepped onto the nameless bridge.

The moment he stepped onto the bridge, endless heavenly lightning struck down.

Each bolt of lightning destroyed the world and was extremely terrifying.

Su Yu was terrified when he heard that. If he was alone, he might not be able to withstand all of it.

With the protection of the gray-robed man, Su Yu was safe and sound all the way to the center of the bridge.

Standing in the center of the bridge, Su Yu could feel that the aura released by the Nightmare Crossing Lotus seat here was extremely dense!

It was at least a hundred times more than the weight of the word 'human'!

No wonder the three of them were cultivating in the middle of the bridge!

The third Nightmare Lotus seat should be near the bridge, right?

"Insect ancestor, take out that thing." The figure in the middle called the figure on the left insect ancestor!

The so-called ancestor was a supreme existence of a certain race.

For example, Ren Zu.

He was a supreme existence that destroyed two of the son of Heaven of the sacred mountain by himself.

This person was called Ren Zu. Even if he was not as powerful as Ren Zu, he was definitely the overlord of the world from the previous era!

"The bone ancestor only knows how to order people around, Hehe." Insect ancestor gave a dry laugh in dissatisfaction and grabbed at the huge river.

Splash --

The entire river suddenly turned upside down and split into two from the middle, revealing an extremely deep riverbed.

The riverbed was filled with the bones of all kinds of wild beasts. It should be the bones of wild beasts that had died in the river for many years.

But the most eye-catching thing was an incomparably huge dragon bone!

It lay at the bottom of the riverbed. Its entire skeleton was a dreamy nine-colored crystal color, flickering with an extremely resplendent light.

This was the bone of the Dragon Clan?

But the color of the skeleton..

He had once seen the remains of the Dragon Emperor, and its entire body was golden yellow.

The nine-colored crystal dragon bone in front of him was truly something he had never seen before.

“Sigh, it’s a pity that ancestral dragon was one of the nine great saint ancestors back then.” Insect ancestor sighed regretfully.

Bone ancestor was expressionless, “It should be said that because the three of us weren’t able to join the ranks of the nine great saint ancestors, we were ignored by the sacred mountain and were able to escape this calamity.”

The two of them reminisced about the past, and the figure on the right said faintly, “The two of you, the important matter is more important. Whether we can survive this new calamity will depend on whether the thing in ancestral dragon’s body can be activated.”

Insect ancestor glanced at him. “Since the ancestor snake is so attentive, why don’t you do it?”

The person on the right was the ancestor snake.

Dragons and snakes had something in common. Once the item in the ancestor Dragon’s body was taken out, the person who was most likely to control it would be the ancestor snake.

However, the ancestor dragon was known as one of the nine great saint ancestors of the previous era.

Its remains were still filled with dangers that they did not dare to underestimate. Therefore, no one wanted to act rashly.

The three forefather-level mighty lords looked at each other. In the end, they reached a tacit understanding and looked at Su Yu together.

“Junior, the three of us have decided that you will go to the body of the ancestor dragon to retrieve something.”

Su Yu cursed in his heart. The three forefather-level mighty figures did not want to go to a place. Wouldn’t he be courting death if he went?

“Seniors, I am weak. I am afraid that I am unable to carry out senior’s request.” Su Yu cupped his fists.

Insect ancestor said with a faint smile, “You are indeed too weak. Therefore, we will not let you die in vain!”

As he said that, he extended a finger to Su Yu. A milky-white little bug crawled out from his finger and landed on Su Yu’s shoulder.

“This item is called the tribulation spirit bug. It can devour all attacks that are not higher than my realm. Take it well.”

Chapter 2346 Emerald Wings

Su Yu didn’t know how high the insect ancestor’s realm was.

But it was definitely not higher than the ancestral dragon!

“This is a snake gall. After swallowing it, it can heal all injuries, including the injuries of the Heavenly Dao.” The snake ancestor took out a pale green snake gall and handed it to Su Yu.

Injuries of the Heavenly Dao?

Su Yu's heart moved, and he asked, "If the memories are erased by the Heavenly Dao, is it effective?"

He thought of Qin Xian'er.

If the memories were erased, would it be considered a wound?

The snake ancestor said indifferently, "It's effective, but it's not obvious."

Even so, Su Yu was still delighted. Even if there was only a little effect, Su Yu was exceptionally satisfied.

Finally, it was the bone ancestor. He took out a broken gray bone and said, "This bone contains a trace of my divine might. I hope it can be used at a critical moment."

Su Yu took it, and the skin on his palm immediately began to rot.

The deep burning pain stimulated his nerves, and Su Yu had no choice but to release the dragon scales to isolate the corrosion on the bone.

Seeing the dragon scales on his arm, the eyes of the three ancestors changed, revealing a hint of excitement and anticipation.

"Go." The snake ancestor could not keep his cool and urged.

Su Yu had no choice but to go to the ancestral dragon's remains to try.

It was extremely dangerous. He would most likely die.

But if he did not go, he would die immediately.

He gritted his teeth. He would remember this debt for now.

If he had the chance to take revenge, he would definitely let them have a taste of pain.

"I still don't know what the three seniors want me to look for?" Su Yu asked.

The bone ancestor took out another bead, and it was dim. "You have this bead. When you get close to it, it will emit a dazzling red light."

Was that so?

"Understood." Su Yu jumped down from the bridge.

The bottom of the river did not seem to be very high, but Su Yu realized that he could not jump to the bottom of the river.

The higher he fell, the deeper the bottom of the river became.

However, in the eyes of the three ancestors on the bridge, Su Yu's body became smaller and smaller after he jumped. In the end, he disappeared like a sesame seed.

"After waiting for an era, we finally have a person with the dragon bloodline," the snake ancestor said with a sigh, "We can take back the will that we left behind."

The insect ancestor slightly nodded and raised his head to the sky. In the far distance, a wild wolf that was coiling in the cave suddenly twisted its body in pain.

A moth crawled out from the corner of its eye and quickly flew towards the sky.

There were also many other wild beasts that flew out of their bodies after a period of pain.

It turned out that the reason why Su Yu was chased relentlessly by that wild wolf back then was because the unique dragon clan aura on Su Yu's body had attracted the attention of the moth in the wild wolf's body.

Su Yu had once wondered that as food, he should not be enough to be chased by that wild wolf like this.

But now, the truth was revealed.

The three ancestors were too powerful, and it was not convenient for them to personally step on the 'human'sign and capture the intruders from the Dragon Clan.

Hence, they could only rely on the 'human'sign heavy wild beast to help them find them.

"I wonder if he can successfully get that thing." Insect ancestor withdrew the many bugs, and stared at the long ancestral dragon bone, feeling uneasy.

Bone ancestor said coldly, "We have to succeed even if we can't! The New Era is about to start, but we are trapped here and can't leave! We can only leave after we get the thing."

Snake ancestor and insect ancestor suddenly felt anxious.

Snake ancestor's face showed a trace of cold hostility, "When I get out, the first one I want to kill is that old thing ancestor Lu. If it weren't for his schemes, we would have left this place long ago when the new era reopens."

Insect ancestor was also extremely resentful. "The day our three ancestors break the seal is the day he dies!"

From his tone, it seemed that they were not trapped here voluntarily.

Instead, they were set up by a fellow ancestor.

The bone ancestor said indifferently, "Alright, let's get ready for the sacrificial ritual. It will take several years to complete the sacrificial ritual."

At that time.

After three days, Su Yu finally landed on the skeleton.

Looking from the bridge, the ancestor Dragon's skeleton was only a million feet long.

However, when he landed on it, he realized that its body was as big as a continent!

He could not see the end of it!

The thing that the three ancestors mentioned did not have a specific location. It was all sensed by the bead in his arms.

Helpless, Su Yu could only walk around to search.

He tried to take a step forward, but a purple-black flame with extremely high temperature immediately appeared under his feet.

“Dragon’s Breath?” Su Yu’s heart jumped and he immediately rose into the air.

He saw that the air beneath his feet was completely burned by the dragon’s breath.

The soles of Su Yu’s feet were also swept by the residual power of the dragon’s breath, and serious burns appeared.

It was hard to imagine what would happen if Su Yu did not react in time and was swallowed by the Dragon’s breath!

“It’s so difficult to walk?” Su Yu’s heart sank.

But the difficulty was only the beginning.

He tried to fly, but found that the atmosphere here was abnormally frozen, and the speed of flight was as slow as a snail!

With such a huge dragon bone and such speed, it would be impossible to find it all in a few years.

He had to think of a way!

Su Yu thought for a while, and suddenly had a thought. He activated the dragon bloodline in his body, and half of it turned into a dragon’s body.

Instantly, Su Yu felt the air around him suddenly loosen up, as if the shackles on his body had been removed.

“As expected,” Su Yu murmured.

The spatial seal near the dragon bone should have been done by the ancestral dragon’s remnant will. Its purpose was to prevent others from invading.

Only the dragon bloodline could move freely.

When it landed, there was no longer any dragon breath on the ground.

With a light breath, Su Yu quickly searched for the object.

One month later.

He walked through most of the dragon’s body, and finally came to the neck of the dragon.

A few days ago, the bead in his arms began to burn faintly, and a faint red light appeared.

So Su Yu slowed down and searched around.

At this moment, he stood in front of a bottomless pit.

The Pearl in his arms was emitting an incomparably dazzling red light.

Clearly, it was very close to what the three ancestors had mentioned.

“This place should be where the heart of the ancestral dragon is located, right?” Looking at the man-made huge pit, Su Yu felt as if he was looking at the

scene of the son of Heaven of the sacred mountain piercing through the back of the ancestral dragon and destroying the heart when the last era was destroyed.

With a light sigh, Su Yu leaped into the pit.

He thought to himself, could it be that the three ancestors asked Su Yu to find the heart of the dragon?

But the heart of the dragon should have been destroyed by the son of Heaven of the sacred mountain a long time ago.

As he continued to enter the Deep Pit, Su Yu felt the remnants of the destructive power in the deep pit.

Even after an era, it still hadn't dissipated.

And the deeper he went, the more terrifying the destructive power became.

When he completely reached the bottom, a broken heart of the dragon entered his sight.

Within the Dragon Heart, the power of destruction was everywhere.

They were like living things, swimming around the Broken Dragon Heart.

Su Yu's arrival alarmed them, and they rushed over one after another.

His expression changed, and he immediately took out the little bug on his shoulder.

The little bug opened its mouth and sucked, swallowing the few waves of destructive power that came at him.

However, the little bug itself was also exhausted.

Su Yu was secretly shocked. The insect ancestor said that this bug could swallow all attacks that were not higher than his.

The Little Bug's performance was enough to show that the few attacks that seemed ordinary just now were absolutely fatal!

Sou Sou --

There were countless destructive power in this place. The few rays that were swallowed did not harm the foundation. Instead, they completely infuriated the destructive power and shot over like arrows.

The little bug hurriedly opened its mouth and swallowed. After swallowing ten rays in a row, it finally missed one and hit its waist.

Puff --

The little bug was directly turned into ashes.

Su Yu's expression changed. He took out the bone given by the bone ancestor and smashed it towards the incoming wisp of destructive power, shattering it.

However, a deep scorch mark was left on the bone.

Whoosh whoosh --

More and more destructive power came. It was as if it would not stop until Su Yu was destroyed.

Su Yu's heart was heavy. No wonder the three ancestors did not dare to come here easily. This place was indeed very dangerous.

Looking at the heart that was close by, and then looking at the destructive power that was coming from all directions, Su Yu gritted his teeth and shouted, "Space teleportation!"

He used the space domain to exchange the dragon heart with the space outside.

In an instant, the dragon heart appeared beside Su Yu's hand.

Without hesitation, he grabbed the palace-sized Dragon's heart and rushed out of the deep pit.

The world-destroying remnants chased after Su Yu and pounced on him like a storm.

Su Yu's expression was solemn. He pulled out the royal longzun sword and swept it across.

His original intention was to stop the world-destroying remnants.

Unexpectedly, the moment this sword was released, the entire Dragon's body started to shake.

A dragon's breath that was hundreds of thousands of feet high surged out from the dragon's body, instantly engulfing everything on the dragon's body.

The destructive power of the world immediately disappeared!

Only the area of a thousand feet with Su Yu as the center was safe and sound!

Su Yu was stunned. Just now, the dragon's breath was so fierce that it could probably seriously injure or even kill one of the three ancestors, right?

This was the real reason why they did not dare to step into the body of the ancestral dragon.

He stared at the Sovereign Longzun Sword in his hand. It seemed to have triggered the vibration of the ancestral dragon's remains just now.

As a magic treasure passed down by the Dragon Clan, was the sovereign longzun sword related to the ancestral dragon?

As he was thinking, suddenly, the broken dragon heart in his hand trembled violently and then disintegrated inch by inch.

Back then, it had already been attacked by destruction. Since the entire era, it had been eroded by the aftermath of the destruction and had long been overwhelmed.

Now, after a shock, it could no longer maintain its form and disintegrated.

Su Yu was stunned. Could this be what the three ancestors wanted?

It was already destroyed, so what use was it?

However, Su Yu soon realized that something was wrong.

"What is that?" Su Yu could vaguely see the color of jade among the pieces on the ground.

With a sweep of his sleeve, Su Yu swept the pieces away, revealing the full appearance of the jade object. It was actually a pair of palm-sized jade wings.

It was carved with an elite and looked lifelike.

Su Yu tried to pick it up. The Pearl in his arms seemed to be on fire and emitted an unusually bright light.

This was what the three ancestors wanted!

As he touched it, Su Yu was surprised to discover that the jade wings were actually very soft. Moreover, it was similar to a person's body temperature and was exceptionally warm.

Holding it in his hand was like holding a ball of fresh life.

“What is this thing?” Su Yu did not remember that dragons had wings. Moreover, the ancestral dragon protected it in the most important place like the heart.

Chapter 2347 The Ancestral Dragon's Unique Feathers

The ancestral dragon had suffered a destructive attack, yet it still hid this item deep in its heart to protect it. It could be seen that it was extraordinary.

Su Yu tried to infuse the power of desolation into it to see if he could make it react.

In the end, the power of desolation in Su Yu's body had evaporated into nothing.

Su Yu was shocked. He immediately swallowed a mouthful of spiritual flesh and replenished the power of desolation.

Who would have thought that the primeval energy would disappear as much as it was replenished.

It was as if there was a bottomless pit in his body that swallowed all the primeval energy.

He blinked his eyes and stared at the jade wings in his hand.

It could only be this item!

An ordinary person might have been scared to the point of throwing it away, but Su Yu did the opposite.

Not only did he not throw it away, but he gritted his teeth and continuously took out more resources to consume and convert them into primeval energy.

One day, two days, three days, four days..

After a whole month, all the resources that Su Yu had painstakingly collected in Ren Zhong had been used up.

However, the Emerald Wings did not change at all. No matter how much primeval energy was given, it could devour it.

Su Yu no longer had any extra resources to convert.

He fell into deep thought. He looked at the emerald wings and then looked up at the three majestic figures on the bridge.

“Since they captured me because of my dragon bloodline, then... is my bloodline able to affect the jade wings?” Su Yu’s eyes flashed. He carefully took out a drop of dragon blood and dripped it on the jade wings.

Immediately, a very weak dragon-shaped pattern appeared on the jade wings that had not changed for a long time.

At the same time, a faint mental connection appeared in Su Yu’s heart.

At this moment, Su Yu had a feeling that as long as the jade wings were inserted into his body, he would be able to control it to fly away!

He was prepared to use another drop of dragon blood.

But suddenly, he retracted his finger.

The three ancestors were staring at Su Yu.

If he really refined the jade wings, he could imagine what would happen to him when he returned.

He would probably be killed immediately, right?

Holding the jade wings in his hand, Su Yu stood on the spot and pondered.

If he brought the jade wings back and followed their instructions, would the three ancestors definitely let him go?

Even if insect ancestor had promised to let Su Yu live.

But, would a person care about a promise to an ant?

No!

If they were in a good mood, they might let him go.

If they were in a bad mood, they would not.

“I should control my own fate.” Su Yu did not place his hopes on them. Instead, he racked his brains for a countermeasure.

After a long time, he had a few feasible plans in his mind. He took the jade wings and left.

Perhaps it was because there was no subsequent drop of dragon blood. The weak dragon mark dissipated and could not be detected.

At that time.

On the bridge.

The three ancestors stood majestically and watched the Dragon Bone from afar.

“A month has passed. Did he still lose in the end?” A gloomy expression appeared between insect ancestor’s brows. “He wasted one of my tribulation insects!”

Snake ancestor's expression was also unsightly. He said in a low voice, "It seems that the dragon breath burst out a month ago. Because the dragon blood was not pure enough, he could not resist it."

A month ago, they could clearly see that the entire dragon bone suddenly spat out dragon breath, burning his entire body.

Under such circumstances, they would also be in danger, let alone Su Yu?

Only bone ancestor's expression was calm as usual. He said, "Wait patiently. Ancestral Dragons are the most tolerant towards their descendants. They might not harm those with dragon bloodline."

As expected, half a day later, a sesame-sized figure flew up from under the bridge.

Insect ancestor and snake ancestor's pupils contracted. They were nervous as they stared unblinkingly at Su Yu, who was getting closer and closer.

When Su Yu flew onto the bridge, he opened his palm and revealed the jade-colored wings.

Snake ancestor and insect ancestor rushed forward together and snatched the jade-colored wings away.

Because they used too much strength, Su Yu was pushed away by them. He crashed heavily on the bridge pier, causing his bones to become heroic and his body to be even more tumultuous.

Su Yu's body and mind were in pain as he silently used his vitality to recover his body.

Looking at the insect ancestor and snake ancestor's excited and fanatical gazes as they held onto the jade wings, Su Yu completely extinguished the thought of leaving his fate in their hands.

He took the risk to ascend the dragon bone and experienced many near-death experiences in a month, but they did not care at all.

They even ignored the fact that Su Yu's body was relatively weak and forcefully snatched it away.

Would such a person who regarded him as an ant have any good intentions?

"The ancestral Dragon Yiyu is really still here!"

"The bitter wait of an era has finally not been in vain!"

Insect ancestor and snake ancestor were extremely excited.

Bone ancestor also walked over and stared at the emerald wings, he said in a solemn voice, "It is rumored that in the previous era, there were actually two ancestral dragons, one male and one female. Perhaps the sacred mountain intentionally made the male ancestral dragon extremely powerful, but his lifespan was short. As for the female ancestral dragon, she was weak, but her lifespan was boundless."

"When the male ancestral dragon was dying, the female ancestral dragon was unwilling to let it go, so she resolutely cut off her own dragon heart and transplanted it into the male ancestral dragon's body, allowing the male ancestral dragon to live until the end of the new era

“The male ancestral dragon felt sorrow in its heart, so it refined the heart into a pair of wings and used its lifetime to irrigate it, refining it into a pair of the best wings in the world that could fly over the yin and Yang of life and death, hoping that one day in the new era, it could break through the barrier of life and death with this pair of wings and find the female ancestral dragon again

“However, it’s a pity that the ancestral dragon didn’t make it to the new era. The ancestral dragon feather carved from the female ancestral dragon’s heart was completely covered in dust.”

Su Yu heard this legend from the side and felt sad.

Heaven and earth were endless, and there was love in the world.

The long wait for an era ended in ashes.

No wonder the ancestral dragon’s heart was so damaged, but its wings were intact.

Before he died, what the ancestral dragon wanted to protect the most was definitely not his own life, but the hope that was heavier than his own life.

He hoped that in the next life, in the new era, he would be able to see his lover from another world again.

“Sigh, touching from the bottom of my heart.”The bone ancestor said indifferently, “However, it’s actually pedantic! If it wasn’t for the sake of protecting this heart back then, as one of the nine great saint ancestors, how could the ancestral dragon be so easily destroyed by the son of Heaven of the Sacred Mountain?”

Insect ancestor looked at him with disdain, “There are millions of divine weapons in the world, and their techniques are boundless. How can they compare to the word ‘Love’in killing people? The ancestor dragon is indeed not worth it.”

Snake ancestor also shook his head and sighed, “It’s a pity that he doesn’t even understand this simple logic. We, the mighty lords of the world, can only walk to the end without any feelings or righteousness.”

Hearing their words, Su Yu was especially disdainful.

If there was only eternal life in the world, but there were no ties, what was the point of eternal life?

So what if he had to go through one era after another?

In the end, he was just a walking corpse without a soul.

“Since this unique feather of the ancestral dragon has fallen into our hands, let us bloom its brilliance again. In this way, we can be considered to have lived up to the ancestral dragon’s painstaking efforts for an era.”The ancestor snake’s disdainful tone contained a trace of ridicule.

He waved his sleeve, and the clouds on the bridge dispersed, revealing the scenery on the other side.

An incomparably tall cauldron stood on the plains like a mountain.

Under the cauldron burned the corpses of wild beasts.

Those wild beasts were all existences at the level of super experts without exception.

However, at this moment, they could only be reduced to firewood.

It was unknown what methods the three ancestors used. One after another, the wild beasts flew into the fire like moths to a flame, becoming part of the raging flames.

The cauldron was burning red, and the wine-red liquid inside kept steaming huge bubbles.

“Let’s begin!”The three ancestors flew to the sky above the cauldron and looked at the wine-red liquid inside.

Insect ancestor held the ancestral dragon’s feather and sighed, “We three ancestors have been dripping a drop of our ancestral blood every day for an entire era. We’ve been waiting for this day.”

If they wanted to control the ancestral dragon’s feather and fly out of this sealed ancient cave, they could only rely on their ancestral blood to water it.

Because the ancestral dragon’s feather had gone through a long period of time with the Ancestral Dragon’s instructor, the three ancestors’ strength was far inferior to the ancestral dragon’s. They could only work together and use the ancestral blood of the three of them to fuse the spiritual liquid after a long period of time, only then would they be able to control the ancestral dragon’s feather.

For this, they paid too much.

They paid the ancestral blood continuously every day, but they were trapped here and couldn’t replenish it.

Year after year, day after day, their strength didn’t increase, but instead decreased. They were far from their peak.

Because of this, they couldn’t make any mistakes.

They had to succeed this time!

“Begin!”Insect ancestor threw the ancestral dragon feather into the cauldron.

Immediately, the entire cauldron began to turn upside down, and countless amounts of spiritual liquid flew out of the cauldron.

It turned out that ancestral dragon Yiyu was resisting violently, trying to break free from the cauldron.

“Junior, come here!”Snake ancestor’s eyes turned sharp, and he pulled Su Yu over from afar, saying, “Lend me your Dragon Blood.”

Su Yu couldn’t resist, so he slapped Su Yu’s back, causing him to spit out a mouthful of blood mist.

The blood mist condensed in the air, and the human blood was removed. The remaining dragon blood condensed together and dripped onto the ancestral dragon’s feather.

Instantly, the ancestral dragon's feather quieted down. It was slowly eroded by the ancestral blood of the three ancestors.

Just like that, a day later, the ancestral dragon's feather resisted uneasily again.

The snake ancestor slapped Su Yu's chest again, causing him to spit out a mouthful of blood and spray it on the ancestral dragon's feather.

After receiving the dragon blood, Ancestral Dragon Yiyu became quiet again.

Snake ancestor's nervous expression slowly eased up, and he laughed, "As expected, refining ancestral dragon Yiyu is not enough with just the blood of our three ancestors. It must have the blood of the Dragon Race to appease it."

Bone ancestor and insect ancestor also let out a long sigh of relief.

It was finally successful.

However, they did not realize that Su Yu, who was ignored by them, had a deep chill in his eyes as he lowered his head.

He wiped the blood that had not dried from the corner of his mouth and said coldly in his heart, "The blood of an era? Fine, I'll make you have nothing!"

They completely treated Su Yu as a blood bag. When needed, they would hit him with a palm and spit out a mouthful of blood.

If they were not worried that taking out the dragon blood in Su Yu's body would affect the effect of the dragon blood, they would have long sucked Su Yu dry and turned him into a human skin!

Since they were not kind, Su Yu was of course unrighteous!

Time slowly flowed.

Every day, Su Yu would be hit by the snake ancestor and spit out a mouthful of dragon blood.

Su Yu silently endured and waited for the time to be ripe.

One year later.

Everything was on the right track and the three ancestors seemed to be relieved.

They did not keep a close watch on Su Yu anymore.

As long as Su Yu took the initiative to hand over a drop of dragon blood, they would let Su Yu move around on the bridge.

Chapter 2348 Final Moment

Su Yu did not choose to escape. If he could escape in front of the three ancestors, he would not be caught.

Every day, he would produce a drop of fresh dragon blood, and then he would focus on cultivating in the middle of the bridge.

The special aura in this place was very dense. Although he was useless, he could save it for the little qilin, or he could use it after he broke through to Dao Master.

The three ancestors were completely focused on refining the ancestral dragon feather, so they were not in the mood to cultivate,

they were temporarily unable to use this special aura. Seeing Su Yu take it all away, although the three ancestors were not very satisfied, they did not stop him.

Time passed slowly like this.

Year after year passed.

The cauldron steamed daily, and the spirit liquid inside gradually fused into the ancestral dragon feather.

At first, they needed a drop of dragon blood every day to appease the ancestral dragon's feather, but now they only needed one drop every seven or eight days. It was clear that the ancestral dragon's feather was no longer so resistant to the ancestral blood of the three ancestors.

From the side, they were already able to take the first steps to control the ancestral dragon's feather.

All they needed was to absorb all the ancestral blood, and the ancestral dragon's feather would be theirs.

Five years slowly flowed by.

The entrance of the ancient glazed cave finally closed due to the lack of energy.

Outside the entrance.

The bright jade and Xiao Lifeng were waiting there.

Xuan Hua, Xie Xiaoyue, Xuan Yin, and Kong Qu walked out of a spiral tunnel one after another.

Then, it was shadow hunter and Ghost Eye of the Sword Whisper Pavilion.

And the bamboo hat man, Bi Yun Hong Xian, and Princess Qianyue who appeared last.

"Qianyue!" Xiao Lifeng went up to her with great expectations. He agreed to open the ancient glazed cave together with the other two major forces, and his biggest expectation fell on Princess Qianyue.

He hoped that he could temper himself and become a powerful dao master in the ancient glazed cave.

However, as soon as Princess Qianyue came out, Xiao Lifeng was filled with disappointment.

Five years had passed, but Princess Qianyue had not improved at all except for the primal energy in her body that was even purer!

Could it be that she had not undergone the baptism of the ancient glazed platform?

"Father..." Princess Qianyue's face was full of dejection.

She had originally thought that following the bamboo hat man would bring her great fortune and that she would be able to amaze everyone from then on.

Who would have thought that she would encounter the appearance of the ghost teacher and destroy all her hopes.

She had obtained almost nothing from such a precious opportunity in the ancient glazed cave.

“What happened inside?”Xiao Lifeng asked. It should not have happened. No matter how bad princess Qianyue was, she should not have obtained nothing.

Princess Qianyue said aggrievedly, “The heavy glazed platform with the word ‘human’ was completely broken, and the heavy glazed platform with the word ‘earth’ was taken away by the Sword Whisper Pavilion, so I didn’t get anything.”

Hearing this, Xiao Lifeng was furious. He glared at Lie Ying and Ghost Eye.

However, he found that the two people had made no progress at all.

“Father, there’s no need to look. All the people we went in this time have returned empty-handed.”Princess Qianyue felt much better.

Anyway, no one had benefited, so she was not embarrassed.

“Xuan Hua, you’ve broken through to the fish-dragon realm as a Dao Master?”However, the bright jade cried out in surprise, which shocked Xiao Lifeng.

He looked over, wasn’t it?

Now, Xuan Hua’s body was surrounded by a mysterious airflow, forming a faintly discernible pattern, which was the symbol of the fish-dragon Realm Dao Master.

No, it was not just the mysterious painting. Xie Xiaoyue, Xuan Yin, and Kong Qu had all broken through to become Dao Masters of the fish-dragon realm!

In the middle of the word “Human”, the probability of achieving a breakthrough to the Dao master realm was less than 50% .

The four of them had all been at the level of the Master of the family before, but now they had all broken through to the fish-dragon realm. Wasn’t this luck too heaven-defying?

Xiao Lifeng was jealous and realized that something was wrong. He walked over and asked Xie Xiaoyue, “Why did all four of you break through, but my daughter didn’t gain anything?”

He really didn’t understand. Princess Qianyue was together with them, so why was it that Princess Qianyue didn’t gain anything?

Xuan Hua and Xuan Yin glanced at Princess Qianyue indifferently. Due to the fact that the nightless imperial kingdom and the Radiant Palace were still in an alliance, it was inconvenient for them to speak directly.

However, Xie Xiaoyue didn’t hesitate so much, she sneered, “Why? “Because your precious princess daughter disdained to leave with us alone. Oh, now it seems that she doesn’t like us and chose to leave with that bamboo hat man. You Can’t blame us for that.”

What?

Xiao Lifeng turned his head and stared at Princess Qianyue. His eyes were filled with great anger. "Qianyue, what's going on?"

Before he left, he had clearly warned her repeatedly that after entering the ancient glazed tile cave, he would listen to Su Yu's arrangements.

How could she have left with the bamboo hat man.

In the end, she didn't get any benefits and even lost a great opportunity for nothing.

Princess Qianyue felt as if something was pressing down on her chest. She said in disbelief, "They're talking nonsense. The glazed ancient platform with the heavy human character has clearly stopped functioning completely. How can we allow them to break through to the DAO Master Level?"

At this moment, even Xuan Hua could not bear to watch any longer. She said calmly, "Princess Qianyue, just treat it as if we have gained something else."

Princess Qianyue's chest heaved up and down incessantly. She could not calm herself down.

She could have gotten a share of the spoils, but in the end, she trusted the bamboo hat man so easily and went to the Earth word, with no gains at all.

Meanwhile, the original team that she abandoned had gained a huge harvest. How could she calm down?

"It's Su Yu. He deliberately drove me away, right?" People were always unwilling to admit their mistakes, especially the self-centered Princess Qianyue.

She placed all the blame on Su Yu, thinking that Su Yu had maliciously framed her.

Xuan Hua frowned slightly. "Princess Qianyue, please watch your words. You insisted on leaving. How can you blame it on Su Yu?"

She felt that Princess Qianyue was simply unreasonable.

She had to force Su Yu to take the blame for her own mistakes.

"Father, Su Yu isn't a good person. Trust me..." Princess Qianyue said aggrievedly.

Slap --

This time, Xiao Lifeng really couldn't take it anymore. He slapped Princess Qianyue in anger. There was an unspeakable disappointment in his eyes. "You disappoint me too much!"

His daughter's personality was as clear as a mirror in his heart.

With just one sentence from Xuan Hua, she could imagine what the situation was like at that time.

It must be that gang bin's own daughter didn't like Su Yu and abandoned her, choosing to follow the bamboo hat man whom she had met for the first time?

She would rather believe in a stranger than Su Yu, who had taught him for half a year, causing her to miss out on the only opportunity to break through to the DAO Master level.

Xiao Lifeng felt like he had aged a thousand years in an instant.

There were some people in the world who could not be supported no matter how hard they tried.

They were not as capable as others and did not even have enough brains.

“Imperial Father, you actually hit me?” Princess Qianyue could not believe it. Her Imperial Father, who had never hit her before, actually hit her for an outsider.

Xiao Lifeng’s eyes were empty as he said tiredly, “Go back to the imperial palace and face the wall for a hundred years until you’re enlightened!”

With a wave of his hand, Princess Qianyue couldn’t help but protest angrily and ordered someone to take him away.

He looked at the Palace of light, which was filled with harvest, and felt a sharp pain in his heart. “God’s will!”

Even though he had Su Yu’s help, he couldn’t stop his daughter from being a good-for-nothing.

The jade of light examined Xuan Hua, Xuan Yin, and Kong Qu’s bodies and confirmed that their cultivation was extremely stable. One could imagine the excitement and joy in his heart. “What on Earth is going on? You all actually broke through.”

Xuan Hua had the most right to speak, “When we went, the glazed ancient stage did indeed stop operating. It seemed like Su Yu did something there that caused the special gas that was as heavy as the Earth word to be emitted. That was how we successfully broke through to the Dao master realm in five years of cultivation.”

“Su Yu?” The luminous jade was surprised, but it also felt that it was within reason.

This human indeed had the ability to turn something rotten into something magical.

When Xiao Lifeng heard from afar that it was Su Yu’s doing, the knot in his heart grew deeper.

Su Yu was clearly his man!

But in the end, all the benefits that Su Yu had created were all obtained by the Palace of light!

Xiao Lifeng laughed self-deprecatingly. He was absent-minded for a moment before asking, “Then what about Su Yu? where is he?”

He was completely disappointed in Princess Qianyue, and he no longer held any extravagant hopes. Instead, he placed all his hopes on Su Yu.

If Su Yu could represent the eternal imperial kingdom, that wouldn’t be too bad either.

Since the four of them were able to obtain great benefits, Su Yu must have obtained even greater benefits, right?

But Xuan Hua shook his head. “Su Yu left after settling us down. Could it be that he hasn’t returned yet?”

Xie Xiaoyue’s heart tightened and she looked around in panic.

At this moment, the sound of horse hooves could be heard from the tunnel.

She saw constable heartless riding on a gold and silver horse. His eyes were dim as he rode out. "There's no need to wait. Su Yu... can't come back!"

She had a bad feeling about the destruction of humanity.

Now that five years had passed, Su Yu showed no signs of coming back. One could imagine his fate.

Holding the nine Jade Spirit Pearl in his hand, the heartless constable's chest was filled with depression and sorrow.

Everyone was silent.

The radiant jade sighed lightly, not suspecting anything.

The ancient glazed cave was such a dangerous place. It was extremely normal for Su Yu to fall there.

Xiao Lifeng's body also swayed. It was not easy for him to avoid the Yuan level domain, but in the end, he was unable to escape this calamity?

His heart was filled with desolation.

However, he quickly recovered.

After losing Su Yu, he still had Xie Xiaoyue and constable heartless as the representatives of the Eternal Night Imperial Kingdom.

"Constable heartless, do you still remember the agreement between you and Me?" Xiao Lifeng asked.

Back then, he had invited constable heartless to represent the Eternal Night Imperial Kingdom to participate in the Eight Star Civilization Assessment. The price was to give him the opportunity to enter the ancient glazed cave.

"I remember, but I can't cash it for the time being." Constable heartless raised his head to look at the horizon, feeling dejected. "I want to find someone for Su Yu to get an item."

"If I complete it, I will continue to participate in the assessment for you."

After he finished speaking, he rode his horse and entered the vast and distant starry sky.

Xie Xiaoyue's gaze was firm. Without seeing it with her own eyes, she would never believe that Su Yu had really died.

"I want to wait here!" Xie Xiaoyue sat cross-legged and stared at the entrance of the ancient glazed cave.

She believed that Su Yu would return, just like how he could return alive under the Yuan level domain.

Only one of them was in a good mood.

It was the man in the bamboo hat!

“Haha, it’s good that you died, so I didn’t have to do it myself!”The man in the bamboo hat murmured softly. He looked in the direction where Princess Qianyue had left and smiled coldly. “However, I can use that stupid princess.”

The ancient glazed cave swept through the glazed culture with a shocking momentum.

In one night, the glazed culture had four more fish-dragon realm experts, three of whom were heaven’s favorites.

With their participation in the assessment, the odds of them being shortlisted would be greatly increased!

The entire glazed culture fell into a huge celebration.

Compared to the bustle of the entire civilization, Su Yu was silently enduring the pain of dripping blood.

However, this was the last time he was dripping blood.

Five years, refining to the final moment!

Chapter 2349 Snatching The Feather

There was only a piece of clear water left in the cauldron. The blood of the three ancestors that had fused into it had all been absorbed by the Ancestral Dragon Feather.

Now, the ancestral dragon feather no longer had any resistance. It lay motionless in the cauldron.

“It’s finally done!”Insect ancestor looked up at the sky and sighed. “An era of waiting has finally not been in vain.”

Snake ancestor was so excited that it was hard to suppress it. “The heavens have not wasted me! Open it and lead us to break the seal and return to the world!”

Bone ancestor took a deep breath and his eyes became sharp. “Ancestor Lu, your end is here!”

The three ancestors attacked together and captured ancestral dragon feather.

Ancestral dragon feather was exceptionally obedient and did not have the slightest intention of resisting.

With that, the three of them were completely relieved and poured their unparalleled power into it.

The ancestral dragon’s feathers began to tremble, and the surface of the jade emitted a gentle jade light.

Wherever the jade light passed, the space was like flowing water. Yin and Yang, life and death, and time were all changing.

Even the sky above the word ‘heaven’was changing layer by layer.

“Ancestral dragon wings, open!”The three ancestors shouted, and the ancestral dragon wings were fully activated!

It suddenly became a hundred times bigger and became a pair of jade wings that were a hundred feet wide.

The three ancestors turned and arrived under the wings at the same time.

In the next moment, they only needed to continue to use the most powerful wings of the previous era to break through the seal of the ancient glazed cave, descend to the Western Region, descend to this era, and descend on the heads of all living beings.

“We’re finally going to escape.”The snake ancestor revealed an excited expression.

The insect ancestor paused and suddenly glanced at Su Yu on the bridge from the corner of his eye. He said indifferently, “How should we deal with this ant?”

They had already drained Su Yu of all the dragon blood in his body and had used it up. However, they still did not intend to let him go.

Bone ancestor said indifferently, “Being able to witness the birth of the ancestral dragon’s wings is already a great opportunity that we have bestowed upon him. Even if he dies, he will have no regrets.”

Su Yu heard this and laughed silently.

For five years, they had been draining him of a drop of dragon blood every day to help them refine the ancestral dragon’s wings.

But in their eyes, this was a favor to Su Yu.

Laughable, hateful, hateful!

The insect ancestor nodded. “Understood.”

It looked at Su Yu, its eyes filled with a lofty emptiness, like a god above the nine heavens, it lowered its head and looked down at the ants crawling on the ground. “Seeing the three of us ancient ancestors with your own eyes, you don’t have any regrets, right? If that’s the case, I’ll send you on your way. Dying at the hands of an insect ancestor is also a blessing that you’ve cultivated for nine lifetimes.”

Killing Su Yu, and saying that it was Su Yu’s blessing for several lifetimes!

Su Yu’s smile became deeper and deeper, to the point that it made one’s hair stand on end.

Insect ancestor said indifferently, “Ant, what are you laughing at?”

He felt that something was wrong, but he did not take it to heart.

Could an ant turn the sky upside down?

“I’m laughing. You all think too highly of yourselves, and I, Su, am too lowly!”Su Yu laughed heartily.

Insect ancestor was indifferent. “Isn’t That So? Do you think an ant can be compared to us, the unparalleled overlord?”

As he spoke, he stretched out a finger and said indifferently, “It’s your good fortune to die in my hands.”

Just as he was about to make his move, Su Yu laughed loudly. “In my life, I’ve met many existences who thought they were superior, but in the end, they all fell. I was the only one standing, stepping on them!”

“You so-called ancient ancestors are no exception!”

Staring at the three of them, Su Yu’s eyes were filled with hatred. “For the past five years, you’ve slapped me every day and taken a drop of my blood every day. I’ve memorized all of it. Today, I’ll give you a gift, and I’ll return it to you!”

The three ancestors’ expressions were indifferent, as if they were looking at an ant. They cursed the gods in the nine heavens.

In their eyes, the weak and useless roar and the laughable madness didn’t even have the mood to laugh.

After all, who would care about the anger of an ant?

“Madman.” Insect ancestor raised his finger and prepared to kill Su Yu.

However, at this moment, the ancestral dragon feather that they had refined with an era’s ancestral blood suddenly flapped violently without any warning.

With the flapping of its wings, a weak whirlwind was set off.

The Whirlwind Rose, the Yin and Yang went against the current, and life and death were in disorder.

The three ancestors were caught off guard and were sent flying.

Among them, insect ancestor’s outstretched fingers were cut off in the chaotic life and death situation.

Snake ancestor was attacked by a chaotic yin and Yang Countercurrent, and its body expanded and contracted as if it was about to be destroyed.

Even bone ancestor’s body was flickering uncontrollably in all directions.

“What... happened? Ancestral Dragon Feather lost control!” Insect ancestor clutched its broken finger and said in surprise.

Bone ancestor stared at ancestral dragon feather and found that there was a faint dragon pattern on it.

“Someone refined it in advance!” Bone ancestor turned his head and stared at Su Yu coldly. “You dare to deceive us?”

Snake ancestor was also furious, but he couldn’t believe it. “Impossible. Even if he dripped his own dragon blood in advance, how could he beat the ancestral blood of our three ancestors?”

Even if Su Yu really refined it in advance, he had long been blown away by the impact of the ancestral blood.

Su Yu was just a half-dragon, so he couldn’t resist the invasion of the blood of the three ancestors.

Su Yu stood up. Because he had lost blood for a long time, his face was sickly pale.

But at this moment, his pale face was filled with disdain. “Because I have blood that surpasses all of you!”

It turned out that before returning with the ancestral dragon feather, the ancient god Bone ancestor and the other two had been killed.

He had tried to pour all of the blood in the nine dragons divine cauldron into the ancestral dragon feather.

The blood in the Divine Cauldron was the blood of ancient God Nine Dragons!

In the previous era, there were the nine strongest sacred ancestors.

In this era, there were eight ancient gods.

The bone ancestor trio’s cultivation was definitely far inferior to the sacred ancestors, so they were naturally inferior to the eight ancient gods of this era.

As a result, Ancestral Dragon Yanyu had already been quietly refined by Su Yu under the bridge.

He had long since taken control of it.

However, Ancestral Dragon Yanyu didn’t seem to have been activated yet, so he needed more energy to awaken it.

Therefore, Su Yu didn’t show any emotion. He silently endured the snake ancestor’s daily palm strike and silently gave out a drop of dragon blood. This was to make the three ancestors obediently give up all the accumulation of an era.

Five years passed.

The ancestral blood accumulated by the three ancestors was finally completely absorbed by the ancestral dragon feather and could be activated.

At this moment, what was Su Yu still hesitating about?

An entire era’s worth of accumulation had all become Su Yu’s wedding dress!

“Vile creature!”The insect ancestor’s indifferent face was filled with anger. He was like a high and mighty deity that had been deceived by an ant. It made him feel unforgivable. “Die!”

Su Yu snorted coldly. “Ancestral Dragon Feather!”

With an order, the ancestral dragon feather appeared behind Su Yu with a whoosh.

Then, with a flap, it stirred the seal above Su Yu’s head, broke a gap, and flew out in an instant!

“Ah! Stop!”Insect ancestor was shocked and hurriedly chased after it.

Bone ancestor and snake ancestor’s expressions also changed greatly. They hurriedly chased after it, hoping to catch up to that gap.

However, not long after they flew into the sky, countless Thunderbolts rumbled down.

Each of them was comparable to a yuan level domain, and they were ruthlessly hacked down from the sky.

In the end, they could only watch as the gap closed up.

Before the gap closed up, Su Yu's incomparably cold voice sounded from outside, "Thank you for the ancestral blood of the three seniors. I, Su Yu, will definitely repay this kindness in the future!"

Su Yu would never forgive the actions of the three of them.

One day, he would definitely make them pay an even heavier price!

"Little Bastard!" The snake ancestor let out a world-shaking roar, and the entire glazed ancient cave began to tremble violently.

Because of this roar, everything was shattered into chaos, leaving only a river, a bridge, and a golden lotus seat.

The bone ancestor was also furious. "I was actually played by an ant!"

The ancestral blood in the cauldron was the result of the three of them pouring it day and night. It had been brewing for an era.

In the end, all of it had been given to that ant!

Not only did they not obtain the ancestral dragon's unique feather, but they had also helped Su Yu activate it.

Thinking of this, they were so angry that their chests were about to explode.

How could a god tolerate an ant deceiving him?

At the same time.

Outside the Veluriyam civilization, in the depths of the universe.

An old man in a Daoist robe was walking in the void with his hands behind his back.

Suddenly, he seemed to have sensed something and looked in the direction of the Veluriyam civilization. His indifferent face quickly became solemn. "Those three fellows... are going to break out of seclusion?"

After a long time, his tone became more solemn. "In the future of the apocalypse, the end is near, and the western region will never be peaceful."

Speaking of which, Su Yu broke out of the ancient Veluriyam Cave and found that he was far away from the Veluriyam civilization.

"The ancestral Dragon Yiyu is indeed heaven-defying," Su Yu sighed.

He only flashed slightly, and he directly took him across the star area.

With such speed, even if those super experts were 10,000 times faster, they would still be far behind.

At the same time, Su Yu's body was surrounded by the lingering chaotic yin-yang and chaotic aura of life and death, forming a blurred wave of light that appeared on the surface of his body.

These were all caused by the ancestral dragon's wings just now.

As long as Su Yu retracted his wings, these things would dissipate.

Just as he was about to make a move, the aura of a super powerhouse suddenly descended.

Moreover, that aura was very familiar.

Looking Up, Su Yu's heart skipped a beat. Could it be that she had just left the wolf's Den and entered the Tiger's Den?

The person who had come was none other than the purple flame demoness!

She had the cultivation of the fish-dragon realm!

Su Yu had lost a great deal of her dragon blood, and the power of her Heavenly Dragon Dao body was far from what it used to be. She had used up both the nine-five heaven cold needles and the Yuan level domain, so how could she deal with her?

However, what happened next caught Su Yu by surprise. The purple flame demoness gazed at the yin-yang and life-and-death reverse current on the surface of Su Yu's body with awe and fear.

"Greetings, senior! You have come to the spark civilization, please excuse me for not welcoming you."

UH --

Su Yu was stunned for a moment.

She was actually shocked by the abnormal phenomenon brought about by the ancestral dragon's abnormal feather.

It made sense. Regardless of whether it was the chaotic yin-yang or the chaotic life-and-death situations, they all gave people an incomparable shock.

It was likely that the purple flame she-devil had mistaken Su Yu as some ancient mighty figure.

Turning her gaze, Su Yu's voice was deliberately filled with vicissitudes and magnificence. "Ant, who are you?"

Ant?

Not only did the purple flame demoness not feel insulted, she was even more cautious.

This was because she had the fortune to meet a mysterious ancient mighty figure. It was said that he came from the previous era.

And that ancient mighty figure and the person in front of her both had the same aura that suppressed all living things.

Chapter 2350 Bluffing

The purple flame she-devil said carefully, "Greetings, senior. I am the purple flame she-devil of the Starfire civilization."

Su Yu was secretly surprised. He had come to the Starfire civilization from the glaze civilization by accident?

The distance between the two civilizations was so vast that it would take super experts several years to travel there.

In the end, they had traversed such a long area in just a few blinks of an eye.

The might of the ancestral dragon's unique feathers was truly astonishing.

No wonder it was known as the number one flying magical treasure of the previous era.

"Senior, what can I do for You?" Asked demoness purple flame.

Su Yu gazed deeply at her and said indifferently, "Ant, I am looking for the divine seat of Heaven and Earth. Do you know where it is?"

Demoness purple flame had no doubt. Instead, she felt that it was precisely because of this that the unfathomable almighty expert in front of her had appeared out of nowhere.

It was precisely because of the appearance of the divine seat of Heaven and earth that he had been lured out!

"Reporting to senior, we are also looking for the divine seat of Heaven and Earth." She paused, the purple flame demoness said carefully, "If senior trusts us, why don't you stay in our spark civilization for the time being? We will do our best to search for information. If we obtain any information, we will inform senior."

Su Yu wanted to refuse, but the ancestral dragon Yiyu had absorbed too much of the three ancestors' ancestral blood and urgently needed to be dealt with. Otherwise, it would easily become a hidden danger.

"Lead the way." Su Yu had a reluctant look on his face.

The purple flame she-devil was overjoyed. If she could have a relationship with such an unparalleled expert, it would be of great benefit to the development of the entire spark civilization.

It might even become a life-saving card for the spark civilization!

Under her lead, Su Yu came to the core region of the spark civilization, sacred flame city.

The four great demonesses all lived in this city.

At this time, other than the divine flame demoness who was still in seclusion, the other two demonesses had received the notice of the Purple Flame Demoness in advance and were waiting above the sacred flame city to welcome her.

They led a group of geniuses in the city and respectfully welcomed her, "Welcome, senior, to the Starfire civilization."

Su Yu indifferently glanced at the people, including the two of them, and said indifferently, "Too weak, it's hard to become great!"

The two demonesses looked embarrassed, but they didn't dare to refute.

Just now, an incomparably terrifying power brushed past the spark civilization.

It caused the entire civilization's operation to become chaotic!

On the civilization, all the wild beasts prostrated on the ground, worshipping the depths of the universe.

It was as if there was a sacred ancestor that informed them of their arrival, causing them to feel fear from their blood.

At the same time, the civilization shook, the weather changed, and even the atmosphere changed drastically, causing everyone to be forced to stop their cultivation.

As the strongest experts of the Starfire civilization, the three demonesses felt it even more clearly.

The feeling they had was that there was a terrifying existence in the sky that was stepping on the Starfire civilization, making it hard for them to breathe.

Therefore, the Purple Flame Demoness mustered up her courage and went to investigate, only to discover Su Yu.

Actually, the one that gave off such a deterrent force should be the ancestral dragon Yi Yu.

Not only was it the heart of the female ancestral dragon, but it had also experienced the infusion of the blood of the three ancestors. All beasts would feel fear.

However, they had misunderstood that it was Su Yu himself who had done it.

Su Yu might as well pull a tiger's skin and pull a big banner, swaggering around the Spark Civilization and swindling them.

"Thank you for your guidance, senior." The purple flame demoness braced herself and awkwardly replied, "Senior, this way please!"

Under their respectful escort, Su Yu arrived at the most solemn and Sacred Sacred Palace of the sacred flame city.

Su Yu lived alone at the highest seat, overlooking the many supreme experts of the Starfire civilization who stood upright below.

It was as if he was the ruler of the Starfire civilization.

"Give me the information on the divine seat of Heaven and earth within three days," Su Yu ordered.

His tone didn't have the slightest hint of a request, appearing overbearing and overbearing.

But the more it was like this, the more they felt reverence.

This was the true supreme expert, his every word and action was incomparably ostentatious.

"Yes!" The Purple Flame Demoness and the other two demoness said. The purple flame demoness clapped her hands, and an exceptionally beautiful and

hot young woman held a crystal with a hundred seals stacked on top of each other in both hands.

That woman was the peerless beauty of the current generation of the spark civilization, Liu Yiyi, known as the fiery fairy.

But at this moment, she was submissively presenting something.

Her intention to curry favor was self-evident.

Moreover, the thing in her hands was no trifling matter.

Once this item appeared, the group of Heaven's favorites fiercely swallowed their saliva.

That was the spark civilization's unique sacred flame gilt gold!

The miraculous sacred fire contained within could raise the cultivation level of a dao master once it was integrated into his body.

Normally, they would only be able to obtain a fingernail-sized piece, but the one in front of them was the size of a goose egg, which was more than all the heaven's favorites in the past hundred years combined.

With so much sacred fire gilt, giving it to any one of them would at least allow them to break through two dao masters, or even become a super powerhouse.

It wasn't just the youths who were jealous. Even the three demonesses felt a great heartache.

In the spark civilization, this was the only good thing that could be brought out.

"Senior, please don't mind." Liu Yiyi offered the sacred flame gilt gold charmingly.

Su Yu's expression was indifferent. He glanced at the sacred flame gilt gold lightly and said, "You weak civilizations always like to use things that you think are precious to please this venerable one. But in this venerable one's eyes, these things are worthless."

Everyone's emotions were extremely complicated.

They had spent their entire lives to obtain this unparalleled divine item, but in the eyes of the Almighty, it was only worthless?

However, everyone let out a sigh of relief. It was better if their senior did not like it. They could still use it for themselves.

Who knew that Su Yu would say again, "However, on account of your filial piety, I will give you face and reluctantly accept it."

He raised a finger and activated his spatial domain. The Sacred Fire Gold silently fell into his palm.

"Spatial domain?" The three demonesses and many young elites sucked in a breath of cold air.

One of the legendary eight great domains, spatial domain?

This was an impossible domain!

Everyone was shocked. As expected of a peerless lord, he actually controlled a spatial domain!

Their reverence was even deeper.

“I have never taken advantage of others. Since I took your broken stones, I will naturally give you the benefits you deserve,” Su Yu said indifferently.

Everyone was delighted. They secretly guessed what Su Yu was going to give them. Could it be a divine weapon or immortal pill? Or a divine technique?

The three demonesses were also full of anticipation. They pricked up their ears to listen to Su Yu’s next words.

“You all cultivate fire-type cultivation techniques, right? Then I’ll teach you the upper third-rate race, the Li Fire Race’s language. How much you can master will depend on your own luck,” Su Yu said.

Hearing this, the youths were immediately extremely disappointed.

What was the use of teaching them the language? It couldn’t be used as a cultivation technique to cultivate.

However, the three demonesses’ pupils constricted as they knelt down one after another and kowtowed on the ground. “Thank you, senior, thank you for your great kindness!”

At their level, they would more or less grasp some secret techniques that had been passed down from first-rate civilizations.

Among first-rate civilizations, there was one of the most famous fire-type races. They were born to be good at fire-type cultivation and were known as the Li Fire Race.

Over the years, the sacred palace had more or less obtained some of the Li Fire Race’s secret techniques.

However, due to the Li Fire Race’s writing being unusually awkward, it was useless for them to obtain them.

They had been trying to decipher the language of the Li Fire clan for many years, but it was to no avail.

Yet, the almighty in front of them had casually said that he wanted to pass on the language of the Li Fire clan to them?

How could they not be excited?

However, while they were excited, they became nervous.

The language of the Li Fire clan had never been passed on to outsiders. If the senior in front of them was not a member of the Li Fire clan, how could he be proficient in it?

“Watch carefully!” Su Yu skillfully grasped the heavenly book language. He immediately used his fingers to spray thousands of words in the air and personally passed down the pronunciation and meaning of the words.

The three demonesses knelt on the ground like students, using the photographic crystal to memorize everything.

“Do you understand?” Su Yu withdrew his finger and said indifferently.

The purple flame demoness kowtowed repeatedly. “Thank you, senior, for your kindness! But we are stupid and only understood one percent of it...”

“Sigh! A bunch of ants. This venerable self is asking too much.” Su Yu seemed to be very disappointed.

He had spent an unknown amount of time to comprehend these things. The Li Fire clan’s words had taken at least ten years.

Right now, the Purple Flame Demoness had comprehended one percent in just a cup of tea, which was much better than Su Yu’s comprehension ability.

In the end, she was despised by Su Yu!

Su Yu felt embarrassed and ashamed. However, when he spoke and acted, he had to try his best to imitate those supreme-beings so as not to reveal any flaws.

Sure enough, the purple flame demoness felt ashamed and reverent. “Senior is right. We will definitely work hard to understand after we go down. We will not let you down.”

“Yes, this venerable one needs to rest. All of you can go down!”

The Purple Flame Demoness and the others did not dare to stay. They pulled away Liu Yiyi, who had a fawning expression on her face.

Su Yu was the only one left. Only then did his tensed heart finally relax.

For the past five years, he had always been tensed up and did not dare to relax for even a moment. Only now did he finally have the chance to rest.

Su Yu let out a sigh of relief and closed his eyes to rest. Perhaps it was because he was too tired, he actually fell asleep unknowingly.

This sleep lasted for two whole days and two nights before he was awakened by a strange sound.

He focused his gaze and swept his gaze over, only to see that the ancestral dragon’s feather behind him was actually beginning to shrink continuously!

“What’s going on?” Su Yu examined it and was shocked to find that more than half of the ancestral dragon feather’s blood had disappeared. Moreover, it was melting at an even faster rate.

With the disappearance of the ancestral blood, the ancestral dragon feather also gradually shrank into its initial unactivated state.

“It can’t be. The accumulation of the ancestral blood of the three ancestors for an era only lasted for two to three days?” Su Yu exclaimed in surprise.

However, when he thought about it carefully, the ancestral dragon feather was the heart of an ancestral dragon. To maintain its activation state, the amount of energy required was extremely huge.

The blood of the three ancestors was weaker than the heart of the ancestral dragon. It was already considered not bad to be able to last for three days.

The three ancestors probably didn't plan to use the ancestral dragon feather all the time. They only planned to borrow its power to break through the seal.

Looking at the feather that eventually turned into the size of a palm, Su Yu couldn't help but feel disappointed.

The next time he wanted to use it, he had to get the ancestral blood.

But where could he find the ancestral blood?

Putting it away, Su Yu narrowed his eyes. Without the pressure and strange phenomenon caused by the ancestral dragon feather, how could he continue to act as a mighty figure in the world?
