Chapter 2391 Mysterious Reward

Deacon Li's expression was indifferent. Everyone's doubts and guesses had long been expected.

If it were him, everyone present would also deeply doubt the fairness of this result.

However, the more they spoke, the more uncertain they became. They even suspected that they had accepted Qin Hui's special deal. Without being angry, they raised their eyebrows and slapped the hall above their heads.

Buzz --

The world suddenly trembled. Soundless ripples swept in all directions, causing everyone's eardrums to hurt.

Su Yu was secretly surprised. That old man's cultivation level was probably at the advanced stage of the Heaven Tier. He was only one step away from reaching the grandmaster realm.

Only then did they quieten down.

Deacon Li's old face turned slightly cold. He said in a resounding voice, "It's fine if you all doubt me, but training is a sacred mission of the Divine Prefecture of the eastern region. No one is allowed to suspect anything! Whoever spouts nonsense again will be served by the Divine Prefecture's Iron Law!"

There was no more noise.

However, they were not convinced on the surface.

All of them were secretly cursing at Deacon Li's shamelessness.

"I know what you are thinking." Deacon Li's eyes were like torches as he saw through everyone's thoughts. "So, I will make all of you convinced."

As he spoke, the elder waved his hand and threw the two spatial storage devices into the air, freezing them. "See for yourself!"

The eyes of the teachers and students lit up.

He actually dared to display the demonic beasts he had hunted!

Then, it was clear at a glance whether he was faking it or not!

Numerous probing gazes surged into them, and what greeted them were hundreds of rank 6 and even rank 7 demonic beasts.

"Impossible, where did so many demonic beasts come from?"

"Capturing hundreds of rank 6 and rank 7 demonic beasts in just ten days? This is absolutely illogical!"

..

The crowd was once again in an uproar.

Not only were they not convinced by the demonic beasts displayed, they were even more doubtful.

“With the abilities of those students from the Azure Dragon Group, forgive me for being blunt, but to be able to capture ten level 6 demonic beasts within ten days is the limit. A hundred is absolutely impossible!”

“That’s right! Under normal circumstances, it’s impossible. Even the top five groups wouldn’t be able to achieve such a feat.”

“Everyone, don’t forget that there are still two students from the Azure Dragon Group who came back five days earlier! In other words, they completed it in five days. is that possible?”

..

Deacon Li’s expression was indifferent, he shouted loudly, “Everyone Shut Up! Facts speak louder than words! I don’t know where their demonic beasts came from, and I don’t need to know. The rule of experiential learning is to capture demonic beasts by any means necessary. That’s all!”

The teachers and students present could not accept the Azure Dragon team’s results, but they could not figure out where the demonic beasts came from.

Su Yu took in everyone’s expressions and shook his head.

What they could not do, could others not do as well?

If the East region divine territory was filled with such people, then it would be nothing more than this.

“This experiential learning ends here. We can return to the East region divine territory immediately!”Deacon Li announced with a sullen face.

Everyone left the main hall one after another and used their own methods to return to the divine territory.

They formed groups of three to five and discussed the Azure Dragon Group’s extremely strange performance this time.

Finally, someone with good intentions noticed Su Yu and Su Xiaomo. They tried every means to find out their origins, but unfortunately, Qin Hui and the other two kept their mouths shut and couldn’t get any information.

On the way back.

Qin Hui was in a joy that she had never felt before. Yue Shan and Chen Yun were also beaming with joy.

“Our Azure Dragon team can also enjoy the first prize. It’s really like a dream.”Yue Shan couldn’t help but be happy.

Chen Yun nodded repeatedly. “I think that with that thing, I might have a chance to break through to the middle stage of the Heaven Tier!”

Qin Hui's eyes sparkled, but she quickly realized the consequences and restrained her smile, she said, "We can't be blindly optimistic! No group will admit our performance this time. There might be provocations in the future. Remember to keep a low profile."

The two teachers agreed.

The East region divine territory was not a mansion. It was an entire nebula.

A total of 276-star civilizations were strung together like bracelets.

Each group was in charge of a civilization.

Su Yu and the others did not immediately return to the Azure Dragon Group. Instead, they went with the Kirin Group, White Tiger Group, Sea Beast Group, and the other top five outstanding groups to the clouds at the center of the twenty-seven civilizations.

That was where the upper echelons of the East region divine palace were located.

The evil loose cultivator would occasionally visit there to inspect the situation of the East region divine palace.

The group entered the fog and saw ancient trees floating in the universe.

The ancient trees formed a great formation at a strange angle with each other.

The Great Formation automatically absorbed the evil energy in the world and gathered them at the center of the formation.

A giant dragon could be seen at the center of the formation.

"Coiling Dragon Wood!" Qin Hui and the others were excited.

Deacon Li took out a key and handed it to Qin Hui. "Your Azure Dragon team will go over."

"Thank you, Deacon Li!" Qin Hui waved her hand. "Let's go, our Azure Dragon team will also have a taste of the coiling Dragon Wood!"

The coiling Dragon Wood was a reward for the first place.

Su Yu looked at the coiling dragon wood curiously, but he still did not know the true function of the coiling dragon wood.

It was not until Mo Wudao said enviously, "I have to say, that bastard, wanderer Xie, in some aspects, he is really an unsurpassed genius."

"What's the use of the Coiling Dragon Wood?" Su Yu asked.

Mo Wudao said, "It's useless to you and me, but it has a great effect on the native creatures of the eastern region that are nurtured by the evil qi! It can stimulate the evil qi in their bodies and transform it into the power of a dao master, promoting their cultivation progress."

Su Yu was startled and immediately understood the power behind it.

Transforming the evil Qi into the power of a dao master wasn't a joke.

Due to different attributes, it was impossible to transform energy into each other. For example, the power of desolation could never become the power of a dao master.

It was not an exaggeration to say that Xie Wanren was a genius in this aspect.

Su Yu felt a wave of pity in his heart.

If he became a dao master, he would be able to get a share of the spoils.

Unfortunately..

All of a sudden, Su Yu let out a soft exclamation and touched the Royal Longzun Sword in his arms.

He could faintly feel the unusual quiver of the Royal Longzun Sword, just like when the Royal Longzun Sword met the remains of the ancestral dragon.

“Why is this coiling dragon wood in the form of a Dragon?” Su Yu asked, seemingly unintentionally.

Mo Wudao did not suspect anything, he said, “Of course it was stolen from the Dragon Clan. The previous Dragon Emperor of the Dragon Clan suddenly perished, causing a short period of chaos and unrest in the Dragon Clan. Many factions took advantage of the situation and obtained some benefits. Evil loose cultivator was one of them. He stole the coiling dragon wood from the Dragon Clan’s treasury and transformed it into a huge treasure that transformed the power of a dao master.”

So it was the Dragon Emperor’s treasure?

But what did it have to do with the Royal Longzun Sword?

It was strange that after Su Yu obtained the Royal Longzun Sword, he still did not understand its function as a supreme treasure passed down through the generations of the Dragon Clan.

Other than stimulating the power inside, it seemed that the Royal Longzun sword was not extraordinary.

Staring at the coiling dragon wood and feeling the continuous vibration of the Royal Longzun Sword in his arms, he felt that it was necessary to seriously explore the mysteries of this sword.

Chapter 2392 Mysterious Dragon Text

The group landed on the coiling dragon wood, and a shocking evil aura assaulted their faces.

The Evil Aura was ten times stronger than the outside world.

Even Qin Hui and the others, who had been born and raised in the eastern regions all year round, were unable to withstand such a powerful evil aura.

Threads of evil aura ignored the dao master power on the surface of their bodies, and drilled into their bodies through their pores.

A scarlet color could be seen with the naked eye, and the evil energy was faintly discernible.

“Start cultivating immediately. Otherwise, we will also be devoured by the evil energy.” Qin Hui held the key given by Deacon Li and came to the coiling Dragon Wood’s dragon tail, inserting it into a groove.

With a Kacha Sound, the entire coiling dragon wood seemed to come to life, and its entire body swam around.

The dragon opened its mouth abruptly and sucked in a deep breath, sucking away a large amount of evil energy.

Then, its dragon scales opened up and released traces of extremely pure dao master power.

Absorbing the evil energy and converting it into Dao master power was the wonderful use of the coiling dragon wood after it was modified.

Qin Hui and the others immediately sat cross-legged and greedily absorbed the power of the Dao Master, working hard to raise their cultivation.

The power of the DAO Master was not of much benefit to Su Yu.

He walked back and forth on the coiling dragon wood to check if there was anything special about it that could cause the royal longzun sword to vibrate continuously.

However, after a careful search, he did not find anything.

“Did I miss something?” Su Yu thought to himself as dozens of possibilities appeared in his mind.

In the end, there was a flash of light. The coiling dragon wood under his feet was breathing out the nine-five ice dragon Qi in his palm.

However, when the Qi appeared, an extremely blurry character appeared on the coiling dragon wood under Su Yu’s palm.

As expected!

He increased the nine-five ice dragon qi, and the character became clear. It was an extremely ancient dragon language.

It was shaped like a small dragon and was filled with a mysterious meaning.

Su Yu quietly memorized it and moved his palm to another place. As a result, three inches away, there was another dragon language.

Su Yu repeated this and searched inch by inch.

Ten days later, when the evil qi around the coiling dragon wood was abnormally thin and the coiling dragon wood gradually stopped swimming, Su Yu also completed his exploration.

He had explored every inch of the coiling dragon wood and obtained a total of 18,000 words of dragon language.

“It should be a hidden dragon clan technique or something like that, right?” Su Yu speculated based on his experience.

In the past ten days, he had only managed to figure out the entire text and had not had the time to organize them into a complete technique.

Hu --

At this moment, six different auras of Dao Masters rose from the Coiling Dragon Wood.

Six images of domains with their own characteristics floated in the sky.

Out of the six domains, three were intermediate domains and three were beginner domains.

The last three naturally belonged to the three students.

However, what attracted Su Yu's attention the most was not the intermediate domain of Qin Hui and the others, but the beginner domain of a student.

The image of the domain was very strange. It was just an unusually monotonous golden ring.

However, that ring gave people a sense of danger.

Qin Hui and the other two, who had mastered the intermediate domain, were not as good as this domain.

Su Yu looked at the owner of the domain. It was the boy, Xu Ming.

Mo Wudao also stared at the boy. His eyes flickered with a complicated look.

"Hahaha, I've finally broken through to the advanced stage of the Heaven Realm." Qin Hui threw her head back and laughed. She could not suppress the ecstasy in her voice.

Yue Shan and Chen Yun were also delighted. They had broken through to the intermediate stage of the heaven realm as they wished.

The three students had also gained something, and all of them had broken through to the middle stage of the fish-dragon realm.

They had benefited greatly from the reward of the coiling dragon wood.

Qin Hui laughed and did not forget where the reward came from. She threw a grateful look at Su Yu, and when she found out that he was still a half-step dao master., she could not help but sigh. "It's a pity. This time, it's all thanks to you that we can get the reward of the coiling dragon wood, but you can't enjoy the benefits yourself."

Su Yu did not think so. The secret technique hidden within the coiling Dragon Wood's body was probably something that even the evil loose cultivator had not discovered.

If Su Yu obtained it, the benefits would probably be even greater than a small upgrade.

Yue Shan, Chen Yun, and the two students all wanted Su Yu to express their gratitude. They had gone from the last place to the first place, and it was indeed thanks to Su Yu's blessing.

Only Xu Ming snorted lightly in disapproval, "When my strength grows stronger, I will still be able to get first place!"

His inexplicable confidence made people laugh.

Su Yu also disdained to argue with him and said indifferently, "Let's go back."

He wanted to piece together the dragon text as soon as possible to see what secrets were hidden on the coiling dragon wood and whether it was related to the royal authority Longzun Sword.

Qin Hui nodded and led everyone back to the civilization where the Azure Dragon Group was located.

When they returned, they found that there were already several uninvited guests in their civilization.

The three teachers' faces immediately darkened, and Qin Hui sighed silently. "Sigh, those who should have come can not escape. Teacher Yue, teacher Chen, it's inevitable that there will be a fierce battle later. be mentally prepared."

Yue Shan clenched her fists and smiled coldly. "Just in time. I also want to find someone to give it a try. It's someone who has just broken through."

The Azure Dragon Group had been ranked at the back for a long time, and it was unknown how many times they had suffered.

Today, they still dared to openly provoke the azure dragon civilization, and they had to retaliate. They had to let them know that the Azure Dragon Group was not to be trifled with.

The group followed the group's aura and quickly landed at the center of the civilization.

However, the expected confrontation did not happen.

On the contrary, several teachers, led by Zi Xiaoyun and Dan Haiqing, had peaceful smiles on their faces. They politely cupped their hands and waited. "Hehe, teacher Qin is finally back. You made us wait so long."

The three teachers, who were about to flare up, felt as if they had punched cotton. They were powerful, but they had nowhere to flare up.

Other people greeted them with smiles and no ill intentions. They couldn't possibly reach out and hit them, right?

"Ladies and gentlemen, what business do you have with our Azure Dragon Group?" Qin Hui sized up the people in front of her.

Other than Zi Xiaoyun from the Kirin Group and Dan Haiqing from the White Tiger Group, there were also several representatives from the top-ranked groups.

Looking at their friendly faces, Qin Hui's heart was as clear as a mirror. She knew that they had come with bad intentions!

"We came together to congratulate the Azure Dragon Group for winning the first place in this year's experiential learning." Zi Xiaoyun gave people the feeling of being bathed in a spring breeze. It was the complete opposite of the attitude that she used to look down on the Azure Dragon Group.

Qin Hui responded smoothly, "Thank you."

The topic came to an abrupt end. She did not continue the topic and just watched Zi Xiaoyun continue the topic.

Zi Xiaoyun was a little embarrassed and said, "Actually, we are here for another matter."

As expected, this was the main point of their visit, right?

“Please speak,” Qin Hui said calmly.

Zi Xiaoyun said, “As you know, the evil energy in the tomb of the evil venerable is about to erupt again. Our group that is ranked near the top will definitely receive a transfer order to go check the seal of the tomb.”

Qin Hui nodded and said, “I know.”

In the past, after the experiential learning, the tomb of the evil venerable would be shaken. The top ten groups would be asked to bring their students to check the tomb.

The Azure Dragon Group was always ranked at the bottom, so they had never been there.

“And every time we check the tomb, it is quite dangerous. It is the first time for your Azure Dragon Group to go, so there should be a lot of things that you don’t understand. Therefore, we came here to discuss cooperation with the Azure Dragon Group.”

Zi Xiaoyun’s words made it impossible for Qin Hui to refuse.

The evil reverent cemetery was indeed a very dangerous place. For the Azure Dragon Group who had no experience at all, they should really listen to the experience of the Kirin Group and the others.

But, would he be so kind?

“Alright, since you’re all already here, then let’s find another day. Let’s discuss it at our Azure Dragon Group’s place.” Qin Hui felt helpless in her heart. She knew that they had ulterior motives, but she still had to be patient and discuss it with them.

The group moved to the Azure Dragon Hall of the Azure Dragon Group and conversed with each other in the hall.

Su Yu listened from the side and unexpectedly discovered that the so-called evil reverent cemetery was actually a mysterious place that was similar to the western region’s ancient glazed cave.

The reason why the Eastern Region’s evil aura soared to the skies all year round was mostly because of this evil reverent cemetery!

At the beginning of the New Age, there were many peerless experts fighting here. Their bones after death were buried here on the spot, forming a cemetery called the evil reverent cemetery.

As time passed, powerful evil Qi was born from the corpses. Every year, a large amount of evil qi would erupt towards the outside world.

Once it completely erupted, not to mention the eastern region, the four great regions would be covered by the world-shaking evil qi.

At that time, the Azure Dragon Civilization in the outer region and the sea of constellations civilization in the western region would all be devoured by the evil qi, turning into a dead world.

Therefore, the first rulers of the four regions worked together to seal the tomb of the evil reverent to ensure that the evil Qi would not erupt.

The amount of evil Qi that leaked out every year was only one-ten-thousandth of the amount that erupted.

Even so, after so many years, the eastern region was still covered by the evil qi, making it impossible for ordinary people to survive.

This year, the Eastern Region Divine Mansion would still routinely inspect the seal, and the task would fall to the top ten groups.

However, although they repeatedly said how dangerous the seals were, they rarely mentioned the unexpected situations that had occurred in the past.

The seals had been imposed by the first generation of mighty figures. Even if there was danger, it was so weak that it was negligible.

“This is probably the situation. If we divide the work according to this method, we should be safe,” Zi Xiaoyun said.

Qin Hui nodded as she pondered in her heart. Could it be that she was thinking too much?

Did they really come here just to discuss the division of Labor and Cooperation?

“Teacher Zi’s idea is good, but first, we have to confirm whether the teachers of the Azure Dragon Group are competent for this task,” Dan Haiqing said with a fake smile.

The other teachers looked over one after another, their eyes full of meaning.

As expected, they still came!

Qin Hui’s eyes flashed slightly as she said, “How do you plan to confirm?”

“Hehe, it’s very simple. We just need to test the strength of the Azure Dragon Group’s teachers and students.” Dan Haiqing finally revealed his intentions.

Qin Hui sneered in her heart and said calmly, “Sure! How Do We Test It?”

The other teachers heaved a sigh of relief when they saw this.

They were completely unconvinced that the Azure Dragon Group could obtain the first place in this experiential learning. Thus, they had racked their brains to expose them.

The inspection of the cemetery was a good opportunity.

“It’s simple. Teacher Zi will personally spar with the three teachers. As for the students, our White Tiger Tribe’s Feng Qingyang will test their strength.”

Hearing this, Qin Hui’s expression changed slightly.

She wasn’t worried about Zi Xiaoyun. Right now, she was also at Heaven Tier advanced stage. Even if she wasn’t as strong as Zi Xiaoyun, she wouldn’t be much weaker.

She was worried about Feng Qingyang!

Chapter 2393 Iron Sword In Grey

Su Yu looked at a young man holding a sword behind Dan Haiqing with slight surprise.

He was dressed in simple grey clothes, a rusty iron sword, and a bamboo hat.

It was hard to imagine that such a person was not a wandering warrior, but a famous student of the White Tiger Group.

Moreover, Su Yu had never seen this person in his previous experience.

“Brother Su, I’m afraid we’re in Big Trouble,” a student in the middle stage of the fish-dragon realm whispered to Su Yu.

One could hear the deep fear in his tone.

Su Yu did not reject his goodwill. He asked, “Is he very special?”

“Yes, very special!” “He’s the number one student in the White Tiger Group and the seventh person in the entire East region’s divine mansion,” the student said with fear and envy. “The top ten students in the East region’s divine mansion can freely arrange their cultivation. Therefore, he did not appear during the previous experiential learning.”

No wonder he was so unfamiliar.

Su Yu thought for a moment and nodded lightly, “It’s just average.”

The entire East region divine territory divine territory had around 200 students.

Being ranked seventh was indeed not a big deal.

The student smiled bitterly, “Brother Su, don’t joke around. Feng Qingyang is at the early stage of the heaven tier. He even has an ancient iron sword with unparalleled power. His overall strength has reached the middle stage of the heaven tier.”

Thus, Su Yu looked at Feng Qingyang for a while and nodded slowly, “Well, then I have to be a little more serious.”

“UH...” the student was stunned. He looked at Su Yu as if he was looking at a monster.

He dared to say that he was a little more serious with Feng Qingyang?

Was he confident, or was he too arrogant?

“Alright, I’ll have to rely on you later, brother Su.” The student cupped his fists and looked at him with a strange expression. Then, he returned to Xu Ming and the others.

Xu Ming heard their conversation and curled his lips in disdain. “You’re exaggerating! If we really fight against Feng Qingyang later, I want to see if he has the strength to retaliate!”

On the other side.

Qin Hui looked at Su Yu worriedly. After getting a nod from the latter, she said on the spot, "Sure! Our teacher will go first!"

Zi Xiaoyun let out a long laugh and flew into the sky. he shouted, "Who will go first!"

"Me!" Chen Yun clenched her fist and rushed into the sky.

The two of them looked at each other and began to spar.

Chen Yun released the power of a mid-stage heaven tier Dao master and even took out her dao weapon and domain.

Zi Xiaoyun took a look and chuckled, "Not bad, mid-stage heaven tier. You've improved a lot compared to before."

This condescending tone contained a hint of contempt.

"Teacher Zi, you're still the same as always, just standing still." Chen Yun mocked and took the initiative to attack, striking out with his dao artifact and domain.

Zi Xiaoyun only laughed for a moment before diving down at high speed.

He couldn't even be bothered to use his dao artifact and domain, relying solely on the powerful power of a dao master.

Pu --

In a single move, Chen Yun's domain was broken through, and his dao artifact was sent flying.

He was sent flying on the spot, and his entire body was covered in blood.

It was just one move!

Qin Hui's pupils constricted. Zi Xiaoyun's Dao master power was much stronger than before.

Shaking her head, Zi Xiaoyun said, "This strength is hard to take on. Next!"

Several teachers and students cooperated with each other and whispered to each other, making Chen Yun feel ashamed.

The confidence that she had gained from her breakthrough was completely destroyed.

Yue Shan gritted her teeth and flew up into the sky. "Let me experience it for you!"

Both of them were at the middle stage of the heaven tier. With their DAO weapons and domains, their strength was on par with Chen Yun's.

The result was obvious.

With the same punch, Yue Shan was knocked out by Zi Xiaoyun on the spot.

Not only that, Zi Xiaoyun also secretly used his hidden force to knock her out. He even shattered her dress, making it so that her clothes could not cover her body.

Seeing this, Qin Hui's face was filled with embarrassment and anger. She used the power of a dao master to catch her body and glared at her. "Zi Xiaoyun, don't you think that this is too despicable?"

Although she knew that they were deliberately looking for trouble, how could such a humiliating person be the behavior of a Late Stage Heaven Tier Dao Master?

Zi Xiaoyun said indifferently, "I didn't do it on purpose. If you want to blame someone, you can only blame her for being too weak."

Qin Hui put Yue Shan down and wanted to rush to the sky. However, Mo Wudao said crisply, "Teacher, go all out. There's no need to be afraid."

As he spoke, Qin Hui's nine Death Demon Heart suddenly jumped and a wave of demonic qi flowed through her entire body.

Under this demonic qi, Qin Hui could clearly feel that her dao master power had become violent and filled with destructive power.

This was the reason why Mo Wudao had fused the demonic qi into his dao master power.

Qin Hui was overjoyed and nodded without batting an eyelid. "Don't worry, teacher will give it his all!"

After saying this, she stomped on the ground and the entire Azure Dragon civilization shook!

The many teachers and students who were caught off guard could not stand steadily and flew up in a panic, looking extremely pathetic.

At the same time, Qin Hui transformed into a light figure and arrived in front of Zi Xiaoyun in an instant.

Zi Xiaoyun was shocked by her abnormal speed and punched out without hesitation.

Bang --

However, what responded to him was Qin Hui's even more overbearing punch.

Bang Bang Bang --

A scene of an uproar among the teachers and students appeared. Zi Xiaoyun was actually beaten back repeatedly.

More than half of his robe was shattered, and the crown on his head also fell off. His long hair was scattered down, making him look particularly wretched.

"You..." Zi Xiaoyun was extremely shocked and doubtful. He could not believe Qin Hui's strength.

He had expected that Qin Hui would be able to break through to the advanced stage of the heaven tier after cultivating the coiling dragon wood.

However, Qin Hui, who had just broken through, was not his match at all.

However, in this exchange, the strength of the other party's Dao Master was even stronger than his. It was simply inconceivable!

“Zi Xiaoyun, you have been stuck at the advanced stage of the heaven tier for many years. Why are you still at this level? You have really disappointed me, a newcomer,” Qin Hui sneered and mocked.

Zi Xiaoyun’s calm expression had long disappeared and was replaced by a trace of gloominess. “It’s still too early to say that!”

Boom --

He released all of his dao master’s strength and opened all of his Dao artifacts and domains. He was ready to use all of his strength to deal with Qin Hui, whose strength had greatly increased.

Qin Huiyi wasn’t afraid.

Zi Xiaoyun’s only advantage over her was his thick dao master power.

Now, this advantage was gone. Why should she be afraid of Him?

She wasn’t afraid to face him. The two of them fought in the vast star area.

Many students and teachers of the civilization were watching the intense battle with their eyes fixed on it. They were all shocked.

Because the battle was a total loss!

Zi Xiaoyun was forced to retreat. Every time they exchanged blows, he was forced to vomit blood.

After more than a hundred rounds, his mouth was already filled with blood.

However, Zi Xiaoyun was extremely unwilling. He was like a ferocious beast as he fought madly.

In his current state, where was his usual elegance and calmness?

However, no matter how he fought, Qin Hui was able to deal with him with ease, injuring him time and time again.

In the end, a dao weapon smashed down, causing Zi Xiaoyun’s body to spurt out blood. He fell back to civilization like a falling star, creating a huge crater on the ground.

“Teacher!”

“Teacher Zi!”

Many teachers and students rushed up and fished out Zi Xiaoyun who was half dead.

Zi Xiaoyun’s eyes were weak, but there was still a lot of unwillingness and dissatisfaction in his heart.

He was a teacher ranked in the top three. How could he be so humiliated to be defeated by a teacher ranked below him.

This was a great humiliation.

Qin Hui floated down and only took a slight breath. There was not a single injury on her body.

What made Zi Xiaoyun even angrier was that after Qin Hui landed, she said indifferently, “Teacher Zi, you have the nerve to come out and test others with just this bit of strength. Look, you were half dead just by accident. You are really ignorant and fearless.”

Zi Xiaoyun, who was already extremely angry, spat out another mouthful of blood and fainted on the spot.

Many teachers and students cast dissatisfied looks at Qin Hui.

Dan Haiqing was the first to bear the brunt and rebuked, “Teacher Qin, this is a spar, not a life-and-death battle. Why did you do this?”

Qin Hui didn’t think much of it, she said, “If you aren’t blind, you should be able to see that Zi Xiaoyun was ruthless and severely injured the two teachers of our Azure Dragon Group. That’s not all. Just now, he even went all out to fight. Why am I the one who was ruthless?”

“Qin Hui, don’t slander us. The two teachers were just too weak and were carelessly injured. You deliberately did it!” Dan Haiqing scolded angrily.

Qin Hui chuckled, “The same logic applies. You Can’t blame me for being heavy-handed. You can only blame Zi Xiaoyun for being too weak!”

Hearing this, the teachers and students became agitated and started to criticize him.

“What nonsense!”

“Qin Hui, as a teacher, how can you lie so blatantly?”

“This is too much! How can you treat your colleagues like this? This is truly heartbreaking...”

Looking at the familiar scene, Su Yu’s mouth twitched.

Could it be that the teachers of the East region divine territory were all created from the same mold?

This was the first time she met Qin Hui. She must have been lying blatantly as well.

“All of you, shut up!” Qin Hui frowned and shouted. Her powerful dao master power suppressed all the voices in the arena. “If you don’t like it, then come out and fight with me. Stop talking nonsense here!”

Instantly, the voices in the arena quickly weakened.

With the battle strength that Qin Hui had displayed, only Dan Hai Qing could fight with her. They might not be able to win yet.

Who would dare to come out and fight with her?

“Since you don’t have it, then shut your mouth. Don’t be so noisy and annoying!” Qin Hui had never been so domineering before. She felt exceptionally comfortable in her heart.

How many years had it been? There were times when she could dominate the world.

This feeling was simply too beautiful.

However, as the demonic qi in her body gradually returned to the nine death demon heart, the tyrannical feeling gradually diminished. Only then did Qin Hui calm down.

This was not his true strength. In terms of true strength, he could only be considered as a teacher of the middle and upper levels.

“Ahem, since the teacher-level probing has been completed, then it will be up to the students.” Qin Hui changed the topic.

The teachers and students were naturally particularly dissatisfied with the result of the probing.

They came here today to suppress the Azure Dragon Group’s arrogance and bring them back to reality.

Who would have thought that they would be the ones being suppressed.

From a teacher’s perspective, the Azure Dragon Group indeed had an unreasonably strong teacher.

Next, it was the student’s perspective.

Dan Haiqing’s expression was solemn as he said, “Feng Qingyang, you go.”

Feng Qingyang, who was dressed in gray and had an iron sword in his arms, slowly walked forward. His eyes under the bamboo hat were also looking at Su Yu and the others. He only raised the rusty iron sword in his arms and said, “Let’s go together to save time.”

Chapter 2394 The Tomb Of The Evil Reverent

His words were plain and concise.

However, the overbearing confidence and aura he exuded made it impossible for people to look at him directly.

Many teachers and students stared at Feng Qingyang with admiration and admiration.

As a student, his overall strength had already caught up to the teacher at the bottom of the rankings!

If he could successfully enter an eight-star civilization, he would definitely become a big shot in the future.

Xu Ming and the other two had stern expressions. The other party was Feng Qingyang. Even if they joined forces, it would be difficult for them to contend against him.

However, since things had already come to this, they had no choice but to refuse.

“Alright, let’s go together.” Xu Ming took the lead and looked at Su Yu.

However, Su Yu ignored him and stood silently at the side.

Xu Ming thought to himself, “He’s facing a great enemy, yet he’s still so isolated. He really doesn’t know the big picture!”

Little did he know that in Su Yu’s eyes, Feng Qingyang was not worth joining forces to deal with.

If they wanted to join forces, so be it.

It would be good for him to observe Feng Qingyang’s iron sword from the side.

Three against one, he could clearly feel that Feng Qingyang's aura was even stronger.

Xu Ming displayed his domain, and a rather strange halo appeared.

This halo immediately attracted the attention of several teachers, including Dan Haiqing. Their gazes were exceptionally strange.

There was envy and desire.

Noticing this scene, Su Yu's gaze changed slightly. Could Xu Ming's domain be something?

Looking at Feng Qingyang, facing the combined attacks of the three of them, his expression was indifferent. He didn't even draw his sword. Instead, he used the scabbard and said, "Finish him in one move!"

Xu Ming and the others felt a sense of humiliation. They were all students of the East Region Godly Palace, but the difference between them was like the difference between heaven and earth.

"Go!" Xu Ming and the others' Pride was stimulated, so they attacked together.

Feng Qingyang did not say a word. He held the scabbard in his hand and gently swept it in front of him, "Leng Shuang!"

Chi --

Instantly, the curved area in front of Feng Qingyang froze into ice.

Xu Ming and the other two were like ice sculptures, frozen in an instant.

Their bodies were still in the state of attacking, but at this moment, they couldn't move at all.

The difference in strength was obvious!

The three of them couldn't last more than one move in Feng Qingyang's hands!

"Next!" Feng Qingyang said indifferently.

Su Yu stepped into the center of the arena. Wherever he passed, he completely ignored the remaining ice and came to the opposite side of Feng Qingyang.

Sensing that something was wrong, Feng Qingyang raised his head and glanced at Su Yu, as well as wayless Mo on his back.

"Two against one, good, one move," Feng Qingyang said calmly and swung his sword again like before.

"Leng Shuang!"

Another extremely cold air surged over.

Feng Qingyang swung his sword and sheathed it. Without even looking at the result, he silently turned his head and walked toward Dan Hai Qing. He said indifferently, "Next time, don't look for me for such a boring spar. It's a waste of time!"

However, he noticed that Dan Hai Qing's gaze was still fixed on the arena. His eyes were filled with surprise.

Feng Qingyang was surprised. He stopped and looked behind him. The scene in front of him caused Feng Qingyang's expression to change slightly.

He saw the frosty air that was stirred up solidify thirty feet away from Su Yu!

Yes, solidify!

An arc-shaped sword qi froze in front of him!

Su Yu himself was unharmed. He stretched out a finger and lightly tapped on the frozen sword qi.

Kacha --

The ice-cold Qi that froze everything shattered.

He raised his eyes and looked at Feng Qingyang calmly. "I thought you were ready to admit defeat."

As he spoke, he tapped his toes and a wisp of ice dragon Qi swept out.

Feng Qingyang's expression changed drastically. He unsheathed his sword and a half-broken rusty iron sword was unsheathed with a muffled sound.

The tip of the sword swept out and the cold light was as cold as the Moon. It was cold and threatening.

"Cold Moon!"

The sky and Earth suddenly darkened. A patch of moonlight flashed and shattered everything within the range into dust from the inside out.

The ground beneath his feet was directly shattered by the moonlight, revealing a large area of nothingness.

However, what caused Feng Qingyang's expression to change drastically was that Su Yu stood on the spot, not moving at all.

He merely raised his index and middle fingers and used his sword fingers to block the moonlight sword Qi in front of him.

"How is this possible?" The ones who cried out in surprise weren't Feng Qingyang, but Dan Haiqing and the other teachers.

They knew how powerful Feng Qingyang's sword was. It was definitely the power of the middle stage of the heaven tier.

Even they had to be careful when dealing with it.

But Su Yu easily neutralized it with two fingers. How powerful was this?

They had never thought that Su Yu, a mere student, would display battle prowess that was not inferior to Yue Shan and Chen Yun.

"Feng Qingyang, use your third sword immediately," Dan Haiqing urged.

However, Feng Qingyang turned a deaf ear. He stared at Su Yu for a long time before taking off his bamboo hat, revealing a cold and thin face.

He drew his sword back into its sheath and bowed to Su Yu, saying, "I have lost."

Su Yu was slightly surprised. He looked at Dan Haiqing and said, "Your teacher said that you still have your third move. Why Don't you use it?"

Feng Qingyang shook his head. "There's no need for that! You haven't even used one move and you've already blocked two of my moves. I've already lost."

Oh?

He looked at Feng Qingyang in a different light. He had thought that he was someone who looked down on others, but he did not expect him to be someone who was willing to accept his loss.

"I was just lucky. I appreciate it," Su Yu said indifferently.

Feng Qingyang nodded. "I hope that we have a chance to cooperate in the cemetery."

After that, he did not care about Dan Haiqing's rage. He put on his bamboo hat again and left expressionlessly.

Qin Hui heaved a long sigh of relief. Su Yu's strength was still beyond her expectations.

He had forced the famous Feng Qingyang to lower his head and admit defeat without even using a single move.

"Hehe, it seems that our Azure Dragon Group is still capable of carrying out the inspection mission of the cemetery. What do you all think?"

Many of the teachers and students who came menacingly returned in defeat. None of them left with any grievances.

After sending them off and sending Xu Ming and the others away, Qin Hui's smile disappeared. She bowed to Su Yu and Mo Wudao and said, "Thank you for your help, Masters. Otherwise, our Azure Dragon Group would have suffered a great humiliation."

Without their help, regardless of whether it was at the level of teachers or students, they would have suffered a crushing defeat.

"We are in the same boat. We should be in the same boat together," Su Yu said calmly.

Qin Hui was extremely grateful. Ever since she met Su Yu and the others, her and the two teachers' fortunes had undergone a drastic change. She had no choice but to thank the two of them.

"The most important thing now is to prepare for the trip to the cemetery, right?" Su Yu frowned slightly.

He was not very interested in the evil venerable cemetery.

However, he had not thought of how to take things from the evil loose cultivator for a while, so he could only temporarily hold back his temper.

There was still one month before the trip to the cemetery, so Su Yu immediately chose to go into seclusion and study the 18,000 dragon writings.

It was really not an easy thing to piece together so many dragon writings into a complete technique. Su Yu spent almost a whole month to complete the sequence after activating time acceleration.

“The nine-five technique?” Su Yu murmured softly, his eyes filled with uncontrollable joy.

This was a technique created by the ancestral dragon himself!

Its purpose was to control the Royal Longzun Sword and become the supreme of the Dragon Race!

Once the cultivation was completed, this sword could summon all the Dragons in the world.

No Dragon dared to disobey the sword.

Even the Dragon Emperor had to lower his noble head when he used the Royal Longzun Sword.

“It seems that I can make two preparations,” Su Yu thought to himself. On one hand, he could remove the brand, and on the other hand, he could try to control the royal longzun sword and see if he could deal with this wily dragon emperor.

However, the “95 veneration technique” was created by the ancestral dragon himself. How could it be so easy to cultivate it?

Su Yu could only comprehend it bit by bit.

“Young master Su, it’s time.” Outside the door, Qin Hui and the others were already waiting.

Su Yu opened the stone door and followed them to the cemetery.

On the way, they piloted the Flying Dharma Treasure while he focused on comprehending the sovereign technique of nine-five.

Half a month later.

Su Yu slowly woke up and his mind was in a state of chaos.

The difficulty of comprehending this technique was much more difficult than expected.

Up until now, he had not managed to catch any clues.

“Young Master Su, the Evil Venerable Cemetery is right in front of you. Please pay attention to guard against evil qi,” Qin Hui reminded him.

In fact, Su Yu did not need his reminder to know that he was close to the evil venerable cemetery.

Because the nine-five ice dragon qi on the surface of his body had an additional layer of gray mist attached to it. It was all the evil Qi that was blocked by the nine-five ice dragon qi.

He looked up and saw a cemetery floating in the galaxy at the end of his line of sight.

Ancient tombs were lying in a mess.

An endless amount of evil qi shrouded the sky above the cemetery.

He could vaguely hear a terrifying sound coming from the cemetery. It sounded like sharp bones scratching in the coffin, but it also sounded like a lurking evil spirit whispering.

Xu Ming shivered. "It's said that many skeletons of ancient mighty figures are still alive in the cemetery."

"I've also heard that they want to rush out of the cemetery at all times."

The three students were shivering, and Qin Hui and the other two were no better.

There were too many legends about the cemetery, and many of them were particularly terrifying.

It was their first time here, and they could not help but panic.

Qin Hui forced herself to remain calm and said, "There's no need to panic. The tomb of evil reverent is sealed by the combined efforts of the first generation of mighty figures. Even if those skeletons are still alive, what can they do?"

Even so, they were still filled with unease as they arrived at the entrance of the tomb

At the entrance, Zi Xiaoyun, Dan Haiqing, and the others had already led their students here in advance.

When enemies met, their eyes were especially red.

Zi Xiaoyun glared angrily at Qin Hui. The right fist that was hidden in his sleeve was clenched and clenched, showing the indignation in his heart.

Qin Huiyi was not afraid. She walked over without looking sideways and said, "Sorry for being late. Let's Go!"

Danhai stared coldly at Qin Hui and said, "Let's Go!"

The Evil Venerable Cemetery was surrounded by ancient restrictions that could not be passed through. Only the main entrance allowed living beings to enter.

As soon as they entered, a shocking evil qi rushed at them.

Su Yu's nine-five ice dragon Qi almost failed to defend against it.

He then looked at Qin Hui and the others. With a solemn expression, he cast the defensive barrier of the power of a dao master on the surface of his body.

"According to our previous division of labor, we will be responsible for our respective regions. We will carefully check if the seals of each mausoleum are damaged."After Dan Haiqing finished speaking, he brought his students to the southwest corner.

Qin Hui brought Su Yu to the north region.

Su Yu looked around and vaguely found that there were several tombs in the central area of the cemetery that were obviously higher than the rest of the cemeteries.

"Whose tombs are those?"Su Yu asked.

Fourth and fifth watch at twelve.

Chapter 2395 Sudden Change

Qin Hui followed his gaze, her eyes filled with respect. "Those are cenotaph. Rumor has it that some of the eight great ancient gods have cenotaph."

Eight great ancient gods?

Su Yu's pupils constricted. Since he had come to the absolute beginning realm, he had rarely heard about the eight great ancient gods.

Now that he had come to the wicked sovereign's graveyard, he was fortunate enough to see their cenotaph!

"Are you sure?" Su Yu asked in surprise.

If it was the cenotaph, it meant that those ancient gods had already died.

Qin Hui had a baffled expression as she said, "This is recorded in the East Region Divine Estate."

Su Yu stared at the cenotaph and wanted to go over to take a look.

What he wanted to see the most was whether there was ancient god Nine Dragons among them.

"It's best that you don't go over so easily," Qin Hui reminded him. "The cemetery in the middle area has always been personally managed by unspecialized Xie. We are not allowed to go near it! Even if we go near it, the evil energy in those places is ridiculously strong. If we go near it, our minds will be corroded by the evil energy."

She looked at the teachers and students who had not gone far in fear, afraid that they would find out about Su Yu's intentions.

If Su Yu really went and was reported to the evil loose cultivator by them, Su Yu would be in danger.

Su Yu suppressed the hope in his heart and nodded slowly. "Let's do our own thing."

They came to the northern region of the cemetery. There were a total of 8,000 tombs in the northern region that needed them to confirm whether or not the seal was damaged.

After assigning the tombs in charge, they each went to check the tombs.

Su Yu was given 2,000 tombs that needed to be checked.

"Heavenly Star Patriarch Iron Sword Heart."

"Rootless Fairy Yun Liluo."

"East Pole battle group Zhao Wuji..."

Su Yu repeated the names on the tombstones one by one as he reminisced.

These were all the heroes of the world in the beginning of the era. Each of them was a peerless mighty figure whose name shook an entire region.

But now, they could only become a pile of dirt, lying quietly here.

Pathless mo sighed, "If you can't transcend life and death, you're still a speck of dust in the world."

Su Yu deeply agreed.

Death was the coldest and most ruthless order in the world.

Even he would die sooner or later.

Sighing in his heart, Su Yu continued to examine the tomb. Suddenly, he noticed that the tomb in front of him had started to move!

His heart pounded, and he immediately went forward to investigate.

He discovered that it was a tomb named 'Northern Star Emperor'.

The soil on the tomb was shaking off to the sides bit by bit. It was as if something was hitting the soil below, trying to break out.

Then, he looked at the seal on the grave. There was a hole the size of a thumb and it didn't work in time.

He immediately took out the materials for the array formation and fixed the hole.

Chi La --

The array formation was completely repaired. It immediately began to operate and released an extremely dense morality energy that pressed down on the grave.

Dong --

It was like the sound of the lid of a coffin being opened being closed again. There was a loud sound in the grave.

Then, there was an urgent creaking sound.

Su Yu could hear it clearly. It was the sound of the bones scratching the Coffin Board.

There was really a living creature inside!

But the key point was not the grave, but the seal.

According to Qin Hui, the inspection of the seal was a routine matter.

Since the appearance of the evil reverent cemetery, there had never been any signs of the seal being broken.

Su Yu even wondered if he was extremely lucky to have just happened to run into him.

"There's more over there." Wayless Mo's senses far surpassed Su Yu's and immediately discovered the abnormality.

Su Yu swept his gaze across and his heart trembled slightly. He immediately rushed over.

In the end, he discovered that more than half of the grave soil had already been shaken off. An incomparably defeated bone claw stretched out from within and was continuously groping around.

Seeing this scene, Su Yu's scalp went numb. He used nine-five Ice Dragon Qi to freeze the bone claw before stuffing it back in.

Then, he quickly repaired the array formation and restored it to suppress the evil bones in the tomb.

However, just as this tomb was stabilized, another tomb was found to have problems.

Su Yu did not dare to hesitate and immediately rushed over to deal with it.

Just like that, in just half a day, Su Yu quickly finished inspecting two thousand tombs and repaired more than ten broken seals in time.

After the inspection, Su Yu rushed back to the meeting place.

In the end, he found that no one had returned.

Ding ding --

Suddenly, the sound of intense fighting drifted over from afar.

Something had happened!

He rushed over and found that it was the student who had introduced Feng Qingyang. He had once shown goodwill to him.

At this moment, his face was pale as he fought against a tall skeleton.

That skeleton was covered in evil qi. Dense red hair grew out of its body, and scarlet flames floated in its eyes.

It held a bone saber condensed from evil qi and hacked at the student.

The student was probably at the early stage of the Heaven Realm.

The poor student was only in the fish-dragon realm. How could he withstand his attack?

After a few rounds, half of his body was cut off, and his life was hanging by a thread.

Su Yu clapped his palm, and an extremely dense nine-five ice dragon Qi fell from the sky, freezing the skeleton into ice on the spot.

Then, he quickly rushed over, threw it into the already dug up grave, and sealed it again.

"Brother Su, thank you, thank you." The student was saved, and he was extremely grateful for his self-repair.

Su Yu looked around, and his heart sank. Something was not right!

The evil reverent cemetery, which had never changed before, why was it continuously damaged?

If it had rotted naturally, how could it be so coincidental?

After waiting for the student to recover, Su Yu said, "Let's not worry about the cemetery for now. Immediately gather with the other students. If they are also in danger, inform me immediately."

Throwing a jade seal at him, Su Yu flew toward the area where Qin Hui and the others were.

As expected, when he found Qin Hui, he was also fighting with an evil skeleton that had crawled out of the grave.

Around Qin Hui, there were already three to four broken skeletons.

“Break!” Qin Hui sent a dao weapon flying, crushing the evil bone to the ground.

“Are You Alright?” Seeing that Su Yu was safe, Qin Hui heaved a sigh of relief.

Mo wudao snorted coldly, “With me around, will he be alright? You should worry about the others.”

The two separated and immediately searched for the others.

In the end, when they found them, they were indeed entangled by the evil bone.

Among them, Chen Yun Laoshi was the most miserable. He had already died several times.

If not for the nine death demon heart, which had saved her four times, she would have turned into meat paste long ago.

Yue Shan wasn’t any better either. She had also died under the attack of the nefarious bone.

However, the most unfortunate one was still one of the three students. He was killed on the spot by the nefarious bone and couldn’t be any more dead.

On the other hand, when Su Yu found him, he actually used a halo domain to successfully escape from the pursuit of a group of nefarious bone.

“Leave the cemetery immediately,” Su Yu, who had a bad premonition, said immediately.

As Qin Hui fled, she was filled with resentment. “It’s Zi Xiaoyun and the others!”

Yue Shan was also filled with anger. “Yes! It must be them! They had tampered with the area we were responsible for in advance. Otherwise, how could it be so coincidental that all the seals were broken only recently?”

Those seals had not been broken long ago, nor had they been tampered with. However, they had been broken during their inspection. If someone had not tampered with them on purpose, how could it be possible?

Only Su Yu had reservations.

Chapter 2396 The Mysterious Old Man

Zi Xiaoyun and the others wanted to take revenge on the Azure Dragon Group, but it was too irrational to tamper with the tomb of the Evil Venerable.

As long as there was even the slightest clue that they had done it, the outcome would be even more terrifying than death.

To touch the Tomb of the evil venerable was not a simple destruction. It was a threat to the safety of the entire outer realm.

Even if the evil loose cultivator protected them, the mighty figures of the other three realms would not let them go.

Zi Xiaoyun and the others would not even be smart enough to make an enemy of the entire world.

As expected, when they rushed to the entrance of the tomb, they saw that Zi Xiaoyun and the other nine groups of teachers and students were all covered in wounds. Moreover, the number of people had decreased by more than thirty percent.

Among them, there were even a few groups of teachers who had not returned.

“What did you do?” Zi Xiaoyun’s eyes were red as he stared at Qin Hui. “Why did something happen to the grave of evil reverent the moment you arrived?”

Qin Hui had lost a student, and she guessed that it was Zi Xiaoyun’s fault. Now that she was being questioned by Zi Xiaoyun, how could she remain calm?

“Turn the tables! It was you who tampered with the grave of evil reverent, wasn’t it?” Qin Hui rebuked angrily.

“You are spouting nonsense!” Zi Xiaoyun roared. “My fellow colleagues, we have been inspecting the tomb of evil reverent for many years, and there have never been any mistakes. Only this time, when the Azure Dragon Group joined, a huge disaster immediately occurred. Do you believe that they didn’t do it?”

The other teachers and students looked over with cold eyes.

The suspicion of the Azure Dragon Group was indeed too great!

Qin Hui laughed angrily. “Did I harm my own students?”

Zi Xiaoyun pointed at herself and the others angrily. “You only lost one student. Do you know how much we lost? Three teachers and nine students all died in there!”

Qin Hui was speechless.

In fact, without Su Yu’s timely rescue, everyone else would have died in there except for her.

However, in the face of their aggressive attitude, Qin Hui’s explanation would surely have some effect.

“Everyone, now is not the time to be suspicious of each other, right? The cemetery is in chaos. If we don’t control it, the entire evil reverent cemetery will go out of control.” Su Yu frowned and shouted in a deep voice.

At the moment of life and death in the outer realm, they were still fighting among themselves.

Zi Xiaoyun’s eyes were as cold as lightning as he reprimanded, “Shut up, do you have the right to butt in here?”

However, as soon as he finished speaking, a dark and cold gale suddenly descended, causing everyone present to tremble.

They fixed their eyes and saw a skinny old man wrapped in evil aura appear at the entrance of the cemetery with his hands behind his back.

His old eyes were looking into the depths of the cemetery.

His appearance caused the expressions of all the teachers and students present to change drastically. They all knelt down on one knee respectfully and said, "Greetings, evil loose cultivator!"

What? Evil loose cultivator?

The person in front of him was the number one expert of the evil path who had shocked the eastern region, evil loose cultivator?

"Zi Xiaoyun, you are very disappointing." evil loose cultivator didn't even turn his head back and said indifferently, "At this critical moment, you are not even comparable to a little kid."

His words were very calm, but Zi Xiaoyun was so scared that she was trembling. She hurriedly kowtowed, "Your subordinate knows that I was wrong."

The evil loose cultivator did not speak anymore. Instead, he narrowed his old eyes and looked around the depths of the cemetery. He said coldly, "Isn't it great to have friends come from afar?"

He stepped lightly on the ground, and many evil bones that were about to break out of the ground were suppressed back into the grave.

When Su Yu saw this scene, he couldn't help but feel apprehensive.

This kind of power wasn't much different from the Dragon Emperor's!

However, in contrast, a majestic power that could contend with the evil loose cultivator erupted from the vicinity of the ancient God's cenotaph.

At the same time, a mysterious aura was flowing. "Old Ghost Xie, this cemetery isn't yours. What's wrong with me coming here?"

Evil loose cultivator chuckled. "Nothing much. It's just that if you want to release the evil things in the cemetery, you have to ask me if I agree or not."

As soon as he finished speaking, evil loose cultivator's figure flashed and appeared in front of the ancient God's cenotaph.

Immediately after, a world-shaking aftershock of the battle erupted.

The aftershock shocked the entire cemetery's array, and it began to hum.

Multicolored light swirled, and evil loose cultivator and an old man with disheveled hair and a dirty face, dressed in a long robe, began to fight.

Their fighting strength was close to that of Xuan Dao Master.

Many evil bones were crushed into powder by the shockwaves of the battle.

Su Yu and the others who were watching the battle from afar had to leave the cemetery to avoid being affected.

The two of them fought for a long time. They didn't destroy the cemetery because they had a tacit understanding and gradually moved to the depths of the universe.

Before they left, the evil loose cultivator shouted without turning his head, “Immediately suppress the cemetery, no matter the cost!”

With that, he threw down two shining golden creatures.

The eyes of the two creatures were dull, and they had no spirituality at all. However, the cultivation that they burst out was shocking. They were at the Grandmaster realm!

“Is this... A Puppet?” Su Yu was not sure.

It was said to be a puppet, but it was a living creature.

However, if it was a living creature, it did not have the consciousness that a living creature should have.

“It’s a half-life puppet.” Mo Wudao said with some envy, “Half a living creature and half a puppet. That boy named Xu Ming is also a half-life puppet.”

Xu Ming?

Su Yu had been curious when he first met Xu Ming. It was incredible that he had reached the fish-dragon realm when he was only a teenager.

It turned out to be a puppet.

“A half-life puppet is a transfer of the remnant soul of an ancient almighty into the body of a dead creature. With the help of the remnant soul, the body’s cultivation is like God’s help. There are no bottlenecks along the way. When one breaks through to a certain realm, the consciousness of the remnant soul will be erased and become a puppet.”

Su Yu was enlightened.

However, this matter was easier said than done.

Which ancient mighty figure’s remnant soul was easy to deal with?

If he was careless, he would be devoured by it!

Moreover, after transplanting it, he had to order him to cultivate according to his own plan.

“With two puppets, it won’t be a problem to suppress the cemetery,” Mo Wudao said slowly.

Next, the surviving teachers and students worked together with the grandmaster realm puppet to completely sweep the cemetery. They suppressed all the evil bones that had escaped and repaired hundreds of damaged formations.

Su Yu’s heart moved. He pointed at the ancient God’s Cenotaph in the center and said, “Does that place need to be inspected?”

Zi Xiaoyun hesitated.

The evil loose cultivator had clearly said that he could not go near that place.

However, the current situation was special. Who knew if that mysterious person had tampered with the ancient God's cenotaph.

If he released something that the ancient God had used, it would be a catastrophe.

Therefore, no one refuted Su Yu.

Roar --

Right at this moment, a deep beast roar came from the vicinity of the ancient God's cenotaph.

The Roar shook the soul, making people feel particularly uneasy.

"Grandmaster Realm?" Zi Xiaoyun fiercely gulped.

Su Yu seized the opportunity and raised his voice, "If we hesitate any longer, when that evil thing rushes out, the two puppets might not be able to deal with it. Once it destroys the cemetery and releases all the evil things, we'll all be finished!"

With that said, who would dare to hesitate?

After exchanging glances, Su Yu immediately followed behind the puppets and hurried to the central cemetery.

Su Yu couldn't help but feel slightly nervous. His emotions were very complicated.

He hoped to see ancient god nine dragons' cenotaph, but he also hoped not to see it.

Chapter 2397 Howling Sky Wolf Sovereign

They hoped to obtain useful information from ancient god Nine Dragons' cenotaph. They wanted to know many secrets about the nine dragons ancient divine realm.

They didn't hope because if the cenotaph was here, it meant that he had already died.

The group followed the two puppets and passed through the cemetery, going straight to the center of the cemetery that no one had ever been to before.

The moment they stepped into the center, a dense, suffocating evil aura assaulted their faces.

Teachers and students below the intermediate stage of the heaven tier couldn't resist the power of the Dao master on their bodies at all. Students below the heaven tier even lost their minds the moment they stepped into the cemetery and started shouting crazily.

Only with the help of Zi Xiaoyun, Dan Haiqing, Qin Hui, and other Advanced Stage Dao Masters of the heaven tier did they recover from the evil state.

"All non-advanced stage heaven tier Dao Masters, Retreat!" Zi Xiaoyun shouted solemnly.

This was still the boundary of the central cemetery. They had not reached the deeper part yet.

The demonic aura in the deeper part was even denser. Even Advanced Stage Heaven Tier Dao Masters might not be able to block it.

Thus, only Zi Xiaoyun, Dan Haiqing, and Qin Hui, the five teachers, stepped out.

Among the students, Su Yu stepped forward and said, "I'm going too?"

“You?” Zi Xiaoyun looked over coldly. “I won’t stop you if you want to die!”

A mere half-step dao master actually wanted to follow them into the depths of the cemetery.

He really didn’t know what the word ‘death’ meant!

Qin Hui hesitated for a moment and then relaxed. With the presence of the wayless devil, even if Su Yu couldn’t defeat the evil qi, he should be fine.

“Let’s split up and find the source of the roar as soon as possible.” Zi Xiaoyun narrowed his eyes and looked at the center of the heavy evil qi.

Everyone nodded and dispersed.

Su Yu chose to move alone and went straight to one of the huge tombs.

As expected, the closer he got to the tomb, the more wicked aura there was.

Su Yu’s nine-five Ice Dragon Qi was no longer able to completely defend against the wicked aura, so he could only summon the three-zhang Small World.

The wicked aura seeped into the three-zhang small world like a clay ox entering the sea, vanishing into nothingness.

Therefore, he had the lowest cultivation among everyone, but he moved the fastest without any worries.

When he arrived in front of a tall tomb, there was ancient blood written on it, “Tomb of ancient god Golden Wings.”

The word “Blood” had been written from the beginning of the new era to the end of the current era. It was eternal and still as conspicuous as before, as if it had just been written.

There was a fierce aura in the blood, as if there was an unyielding pride that could last forever.

Before they even got close to the cemetery, Su Yu was forced back a thousand feet by the invisible aura.

Even Mo Wudao was unable to block that aura.

“So ancient god Golden Wing died at the beginning of the new era.” Mo Wudao sighed in regret. “Back then, he was an unparalleled ancient god that could compete with the son of Heaven of the Sacred Mountain.”

Su Yu shook his head. He wasn’t interested in him, so he rushed to another cemetery.

A sword-shaped tombstone stood alone.

A black demon blood was written with a few bold words: “Tomb of ancient God Demon Venerable!”

Looking at the number, Mo Wudao was shocked. “Ancient god Demon Venerable!”

As a member of the demonic path, how could he not know the number one ancient God who created the demonic path?

Excitement appeared in his eyes as he stared at the tomb with great desire.

“It would be great if I could take out ancient god Evil Venerable’s relic.” Mo Wudao gazed at the demonic blood that was filled with demonic nature and could kill people in an invisible manner, feeling extremely regretful.

That was an ancient god’s relic. Even a single strand of hair could shake the heavens and earth.

Unfortunately, with the protection of the demonic blood, she couldn’t get any closer and didn’t dare to take any notice of it.

Su Yu’s heart moved. It would be great if she had the ability to open the ancient God’s cenotaph and take out the ancient God’s relic.

Passing by the ancient god Demon God’s tomb, Su Yu headed to the third tombstone.

Looking at the words on the tombstone, Su Yu’s heart trembled. “Ancient God Evil God’s Tomb!”

The name of this tomb was ancient god Evil God.

So it was named after this ancient god.

The difference between this tomb and the other two tombs was that the restrictions placed on this tomb were ten times more than the other seals.

Even so, there was still an extremely dense evil aura stirring under the seal, ready to break out of the mausoleum at any time.

Su Yu’s gaze focused slightly. At first glance, the evil aura under the seal gave him a suffocating feeling.

It was like an ant standing in front of a giant!

Even Mo Wudao was in a state of shock. “I finally know where the evil aura from the grave of evil reverent comes from!”

The evil Qi was coming from the evil sovereign’s tomb, and it had unintentionally eroded the entire tomb.

“There are rumors that the evil sovereign’s tomb isn’t just a cenotaph, but a palm that buried ancient god Evil Sovereign,” Mo Wudao said slowly.

Su Yu’s heart trembled. The palm of an ancient god?

A drop of ancient God’s blood had the power of creation, let alone the entire palm of an ancient god?

If he could control it..

Just thinking about it made one’s blood boil.

However, this palm was not something he could plan on.

Not to mention the ten layers of restrictions, just the accumulated evil qi over the years could not be ignored.

Then, Su Yu walked to the last mausoleum.

There were only four ancient gods in the cenotaph. The first three were not ancient god nine dragons, so there was only one left.

However, what made Su Yu feel complicated was that it wasn't the mausoleum of ancient God Nine Dragons, but a mausoleum named ancient god Jin Xuan.

"Ai." Su Yu sighed. There was disappointment, but there was also relief.

He was disappointed that he hadn't received any more information about ancient god Nine Dragons, but he was gratified that ancient god nine dragons might not have perished.

At this moment, a low roar came from his side.

It turned out to be the tomb next to ancient god Jin Xuan's tomb. The seal had been greatly damaged.

The evil bone inside began to stir, creating a huge commotion.

Su Yu didn't dare to deal with the evil bone alone. Could the person who was able to get close to the ancient god Tomb be an ordinary expert?

He immediately sent a message to Zi Xiaoyun and the others and found the source of the roar.

No one dared to slack off. Soon, everyone and the two half-life great paragon puppets arrived.

"Fortunately, we discovered it in time. The evil bone hasn't broken through the coffin lid yet." Zi Xiaoyun let out a long breath and looked at the name of the Tombstone, he was even more fortunate. "So it's the screen of the Howling Sky Wolf Sovereign. This person was an unparalleled expert close to the Heavenly Dao master when he was alive. If his evil bone comes out, we'll be in big trouble."

Although he wasn't an ancient god, the appearance of the Howling Sky Wolf Sovereign's evil bone was no small matter.

At the very least, they couldn't suppress it. Only the two half-life puppets could do it.

"Repair the seal immediately." Qin Hui was too lazy to waste words. She immediately took out the array materials and began to repair the array formation.

Zi Xiaoyun and Dan Haiqing also began to repair the array formation.

As long as this array formation was completely repaired, the disturbance in the wicked sovereign cemetery would be resolved.

However, just as the three teachers began to repair the seal, the wicked bone inside seemed to sense it. Not only did it roar crazily, but it also increased its speed.

Roar --

Under the low roar at a close distance, the three teachers were all hit. They were badly injured on the spot.

For a moment, they lost the ability to seal.

“Not good, it’s the Howling Sky Wolf Sovereign’s Sky Wolf Roar!” Zi Xiaoyun shouted quickly and retreated at the same time.

Chapter 2398 Borrowing Cultivation

Qin Hui and Dan Haiqing didn’t dare to stay any longer and quickly retreated.

Only the two half-life puppets were left to continue repairing the array formation.

They were unconscious and could only mechanically listen to Xiao Yun and the others’ orders, slowly and clumsily repairing the array formation.

As the array formation was being repaired bit by bit, the howling sky wolf monarch’s movements became louder and louder, and its roars became more and more intense.

Even the two half-life puppets were beginning to be affected, and their movements were showing signs of slowing down.

Zi Xiaoyun and the others’ hearts clenched tightly as they watched the progress of the array formation.

Now was the time to seize every second. As long as the array formation was successfully repaired, they would be able to rest easy.

However, the nefarious bone was clearly faster.

The grave soil was already beginning to shake, and it was about to drill out.

At this moment, the formation still needed some time to be repaired.

Everyone could only be anxious and could not go forward to help.

Time passed bit by bit.

In the end, the two half-life puppets finally repaired the formation to the last moment.

However, an incomparably dense wolf claw had already reached out from the mausoleum.

Seeing that he was about to escape, Su Yu’s heart moved. He activated his spatial domain and folded the space in front of the dense wolf claw ten thousand times.

The Wolf Claw reached out and broke through thousands of layers of folded space on the spot. Then, it clawed again and shattered all the folded space.

However, this gave the two half-life puppets precious time to successfully close the gap in the last line of the seal.

Qin Hui’s worried heart finally relaxed.

The moment the Wolf Claw came out, it really scared him.

However, what they didn’t expect was that before the array started to display its power, the Wolf Claw actually exploded with an unusually powerful force, shattering the array from the inside out.

Boom --

With an explosion, the entire tomb exploded.

A pale skeleton covered in evil energy rushed out with a whoosh.

That terrifying aura had already reached the grandmaster realm.

Roar --

The evil bone let out a sky-shaking roar and pounced toward a half-life puppet nearby.

The latter was expressionless. It burst out with the cultivation of the grandmaster realm and stood together with the evil bone.

The other puppet also quickly joined the battle.

Su Yu observed from the side. He had to deny that the half-life puppet was much more agile than ordinary puppets. Moreover, it retained a strong battle consciousness and was not inferior to a true grandmaster realm expert.

On the other hand, the nefarious bone was merely a skeleton that had been corroded by the nefarious aura.

At most, it was just a wild beast that could roar and cry.

Although the battle between the two was dangerous, the two puppets had the upper hand.

Zi Xiaoyun and the others watched nervously. The battle between the two continued for three whole days and three nights. Finally, the nefarious bone let out a wail and was crushed to the ground by the two half-life puppets.

“Phew! It was a false alarm!” Everyone heaved a sigh of relief.

Zi Xiaoyun said, “The remains of the howling sky wolf monarch have existed for too long, so the essence of the remains is only left at the present stage. If it were to return to ten thousand years ago, the cultivation of the remains would be at least at the intermediate stage of the Grandmaster realm. At that time, it would truly be a disaster.”

Qin Hui’s tightly knitted brows relaxed. This was indeed a false alarm.

She had thought that the skeleton of the howling sky wolf sovereign would be extremely difficult to deal with. She did not expect that it would still be easier to suppress it in the end.

Just as everyone was about to move forward and seal the skeleton back into the tomb, an unnoticeable earthy yellow halo flashed in the eyes of the Howling Sky Wolf residence.

Su Yu was observant and noticed it at the first moment. He immediately said, “Be careful!”

As soon as he finished speaking, the nefarious bone released an explosion-like yellow halo.

The two half-life puppets were blown away on the spot.

The nefarious bone slowly got up. Its physique had increased by more than ten times, and its aura was still rising crazily.

In the blink of an eye, it had broken through to the middle stage of the Grandmaster realm!

Xiu --

It exerted strength with its four legs and jumped in front of a half-life puppet that was blown away. It slashed down with its wolf claw and tore the half-life puppet into two halves!

Then, it made a turn in the air and rushed in front of the other half-life puppet, biting it into two halves.

The two great paragon realm half-life puppets were destroyed in just a few breaths!

Zi Xiaoyun and the others who were also blown away crawled up with injuries all over their bodies. They happened to see the two great Paragon Realm Puppets Go Down, and their faces were as pale as paper.

“How could this be? How could the evil bone’s cultivation level increase without any warning?” Zi Xiaoyun’s lips trembled.

That was because after killing the two great venerate realm puppets, the evil bone let out a low roar and turned its head towards them.

Xiu --

The evil wolf charged over like thunder and lightning.

Everyone only had time to activate their defenses before they heard a series of miserable cries.

Turning around, they saw that the three teachers and students had turned into bloody mud.

The evil wolf stood behind them with its mouth full of blood. It slowly turned around and prepared to launch a second attack.

Su Yu’s eyes turned cold. He had no choice but to use the Heavenly Dragon Dao body to transform into a snow-white dragon.

Roar --

With a low roar, the evil bone rushed over again, but Su Yu couldn’t even tell its trajectory. He felt a warm sensation beside him.

However, his face was splattered with blood.

Several more teachers and students were killed in an instant, including a teacher at the advanced stage of the Heaven Tier.

The people who fell were all around Su Yu. Only he was safe and sound.

Tick-tock --

A drop of demonic blood dripped from the corner of Mo Wudao’s mouth and slid down Su Yu’s cheek.

“I can’t believe that I’m not even as good as a skeleton that’s been dead for an entire era.” Mo Wudao’s face was pale. There was a ferocious claw mark on his back.

Just now, it was Mo Wudao who used his own body and the demonic path to barely block this attack.

Otherwise, Su Yu would have already died.

Su Yu's heart was shaken. He didn't think that he would owe Mo Wudao his life.

"We'll talk about gratitude in the future. Now, immediately lend me your cultivation. Otherwise, we'll all die!" Mo Wudao was attached to Su Yu's back, and his limbs were inconvenient. Su Yu had control over his cultivation, so it was easier for him to display his power.

Looking at Zi Xiaoyun and the others who had already run away, Su Yu nodded. A great venerate realm, or even a middle-stage fierce enemy, was already beyond his ability to deal with.

"Okay!" Su Yu nodded. He immediately felt boundless demonic qi crazily surging into his body where he and Mo Wudao's bodies had merged.

Whether it was Su Yu's body or his vision, they all underwent a tremendous change.

He was like a mortal who had suddenly stood on a cloud peak and looked down on all living things under the heavens.

"Is this the feeling of a Grandmaster?" Su Yu muttered softly.

However, there was no time for him to think too much. That Evil Wolf's attack failed and once again pounced on him.

Su Yu snorted coldly and his dragon body shook violently. A dragon tail that carried both ice-cold and demonic qi struck head-on.

Bang --

With a muffled sound, the evil bone was accurately sent flying by the dragon tail.

However, not only did the evil bone not retreat, it was even more ferocious. It roared and tore at Su Yu's ten thousand feet long dragon body.

Su Yu waited attentively. The dragon opened its mouth and spewed out cold dragon breath, freezing everything in the universe.

However, the evil bone was abnormally powerful. Its hard skull instantly shattered the ice and charged straight at Su Yu!

Chapter 2399 Mysterious Bone Shattering

Wayless Mo reminded him, "If you have any powerful moves, use them as soon as possible. With my cultivation, you can only last ten breaths."

She cultivated the demonic path. If Su Yu borrowed it for too long, he would easily fall into the demonic path and lose himself. From then on, he would become a human-shaped monster that only knew how to kill.

Su Yu's heart trembled. He did not dare to hesitate anymore.

Among the many secret techniques of the dragon race, there was only one that he had mastered that was the strongest.

Taking a deep breath, the dragon blood in Su Yu's body boiled and burned rapidly.

“Dragon Blood Boiling!” Su Yu opened his mouth and shouted in a low voice, releasing a mysterious dragon spell.

In an instant, a powerful and obscure power descended on the four corners of the world.

The sky and the ground were instantly covered in blood red.

It was as if fresh blood had been splashed on them.

In the end, the blood in the sky and the ground was retracted and turned into a light ball the size of a palm. It gathered in the body of the evil bone.

Kacha --

The body of someone as strong as the evil bone shattered inch by inch from the inside to the outside. Traces of bright red seeped out from the bones.

It turned out that any part of his body had been destroyed by that obscure power.

Hualala --

Pieces of broken bones pounced toward him. Su Yu's crouching dragon body blocked the broken bones outside.

He was shocked. The dragon blood boiling that was used by different realms had completely different power.

When used by someone at the middle stage of the Grandmaster realm, it was enough to kill someone at the late stage of the Grandmaster realm.

Suddenly, Su Yu felt a trace of exploding fragments shoot out in the opposite direction.

He fixed his eyes on it and found that the fragment was a bit strange. It was not pale, but a faint golden color.

What was even stranger was that it seemed to have a spirit and seemed to be a living creature. It could go against the explosive aura and the momentum.

Su Yu chased after it. He grabbed the fragment with his Dragon Claw.

Unexpectedly, the fragment was terrifyingly heavy.

Su Yu's ten thousand feet long dragon body, with the cultivation of the intermediate stage of the great venerate realm, was directly dragged down by the heavy fragment and fell to the ground with a plop.

“What is that?” Mo Wudao was shocked. It was just a bone fragment. How could it be so heavy?

The entire skeleton of the evil bone couldn't possibly be so heavy, right?

Su Yu grinned and opened his palm. The golden fragment lay quietly in his palm.

He grabbed a piece of the broken bone of the evil wolf and compared it with this golden fragment. He found that the two were completely different. They were definitely not made of the same material.

Moreover, what was very special was that this golden fragment was not tainted with any evil qi.

Traces of evil qi that could be seen with the naked eye attached themselves to the golden fragment, attempting to infiltrate into it. However, they were unable to succeed.

This fragment of bone had been here for an entire era!

Not to mention a piece of bone, even a grandmaster realm expert would be demonized if they were here for a long time.

Looking at the Howling Sky Wolf Sovereign, it had almost become a Heavenly Dao master when it was alive, but its skeleton was not completely demonized?

Thinking of the sudden change in the strength of the evil bone, Su Yu's gaze couldn't help but drift toward the tomb of ancient god Jin Xuan.

Mo Wudao also had this thought, and his eyes were filled with shock. "Hey, could it be that what you picked up was a fragment of ancient god Jin Xuan's remains?"

The two of them simultaneously thought of the same thing!

Taking advantage of the fact that his cultivation was still usable, Su Yu immediately went to the screen of Howling Sky Wolf sovereign and dug through the collapsed ruins. Sure enough, he found that there was an arm-thick gap between the tomb of Howling Sky Wolf Sovereign and ancient god Jin Xuan's tomb!

The two were connected!

It was definitely the evil bone of howling sky wolf sovereign that had dug the passage when the seal of the ancient tomb was broken.

Based on instinct, he felt that fusing with this bone fragment would be even more powerful.

However, he didn't expect to meet Su Yu and the former number one demonic cultivator of the northern domain.

After confirming this, Su Yu was indescribably excited.

Up until now, he had only obtained the blood of the nine dragons ancient god, and it was used to write letters. The remaining dried blood was extremely weak.

This was the first time he had obtained an ancient god's bone fragment!

He immediately turned back and put the extremely heavy golden bone fragment into his spatial storage.

After doing all this, Su Yu let out a slight sigh of relief and felt an inexplicable sense of irritation.

His heart faintly felt as if he had nowhere to vent his ruthlessness.

"Time's up. You're already starting to be affected by my demonic qi." Mo Wudao noticed Su Yu's strange behavior and immediately withdrew his demonic qi.

The Violent Qi in Su Yu's heart quickly disappeared as if it had found a floodgate.

At the same time, his cultivation returned to normal.

That powerful feeling of looking down on the world was like a receding tide, causing him to feel empty.

However, this feeling was forcefully erased in an instant. There was no need to be envious of others. As long as he could transform the other eight great laws into a domain and become a dao master, his cultivation would definitely not be below the great venerate realm.

After calming himself down, Su Yu's gaze turned slightly and he sped towards the exit of the cemetery.

Outside the cemetery, Zi Xiaoyun and the others were hesitant.

They had sensed the great battle within the cemetery, but they did not dare to enter nor were they willing to leave.

At this moment, one after another, students who had escaped into the heavens ran out.

Su Yu was mixed in with them, and his face was filled with fear.

Seeing him, Zi Xiaoyun and Dan Haiqing's eyes flashed at the same time. They thought to themselves that Su Yu was lucky that he didn't die!

More than half of the students who had entered this time were buried in there.

Only Qin Hui knew that not only was it impossible for Su Yu to die in there, the person who had fought with the sky-howling Wolf Lord just now was most likely Su Yu.

"Wait here for the time being," Zi Xiaoyun said slowly.

A day later.

In the east, a majestic aura descended and appeared in the center of the mausoleum.

The person who appeared was none other than loose cultivator xie. His face was slightly weak, and it was clear that he did not have the absolute advantage in the battle with the mysterious elder.

"Old Ghost Xuan Ji, I'll first write this debt down for you," loose cultivator xie coldly snorted.

His eyes then fell on ancient god Profound Gold's ancient tomb. With just a glance, he saw a hint of something and immediately jumped into the tomb of the Howling Sky Wolf Sovereign, his expression suddenly changed. "Damn Old Thing, you really did something to the tomb of ancient god Profound Gold."

He hurriedly looked around and finally found the place where the evil bone had been scattered. His face was gloomy. "It's gone! Is it a diversion?"

Suddenly, he raised his head and looked at the people at the entrance of the mausoleum. He quickly rushed over.

After landing, he asked, "Who scattered the Howling Sky Wolf Lord's evil bone?"

Zi Xiaoyun was filled with fear and trepidation. “We don’t know either. After the evil bone unleashed its power, its divine power surged to the heavens. We didn’t even have time to escape. We have no idea who suppressed it.”

Xie wanren narrowed his eyes as he stared at the few late-stage heaven man realm teachers.

His body trembled, and the spatial storage devices on the teachers’ bodies left their bodies and appeared in front of Xie wanren.

He swept his gaze across them and checked their spatial storage devices one by one.

After confirming that there were no relics of ancient god Jin Xuan, a disappointed look appeared on his face. “It seems that old ghost profound mystery really tricked me into leaving the mountain. He lured me away and then sent people to take the relics. How Hateful!”

As for Su Yu and the other students, loose cultivator Xie didn’t even have the thought of checking their spatial storage devices.

This was because in the depths of the mausoleum, the students had no chance of entering. Entering was equivalent to death.

Furthermore, they had to fight against the nefarious bone, so it was even more impossible.

Hence, he directly ignored the students.

“Let’s return to the East region divine territory first.” Wanderer Xie’s tone was a little low.

Su Yu secretly heaved a sigh of relief. Fortunately, he did not inspect his spatial storage devices. Otherwise, there would be endless trouble.

A few days later.

Everyone returned to the East region divine estate one after another, and Su Yu returned to the Azure Dragon Civilization.

“What an unexpected surprise.” Su Yu took out his spatial storage device, his face filled with anticipation.

Mo Wudao snappily said, “It should be said that it was a narrow escape! That evil loose cultivator isn’t a good person. He’s even more savage than me, a member of the demonic path. If he really finds out that you took ancient god Jin Xuan’s bone fragments, you’ll definitely be refined into a half-life puppet.”

Su Yu indifferently said, “Even if I die, it’ll Be You, the number one demon of the northern domain, who will die first, right? In his eyes, I’m just an ant.”

“HMPH! Do you think I want to be with you?” Mo Wudao thought of his own situation and felt an unusual headache.

At this point, Su Yu’s gaze was gloomy. “Now that things have come to this, can you tell me what the thing you said about the evil loose cultivator is?”

Mo Wudao wanted to say something, but he hesitated. However, at this point, there was no point in hiding it anymore.

“It’s not an object. To be more precise, it’s a living creature.” Mo Wudao said in a focused voice, “In the early years of the New Age, Hall Master Xuan Dao gathered the four domain lords at that time to discuss the division of the territories of the four great domains.”

“Among them, the first lord of the eastern domain used the reason of suppressing the evil reverent cemetery as an excuse to ask Hall Master Xuan Dao for a magic treasure that could suppress the cemetery at any time for emergency use.” Mo Wudao spoke of the early years of the new age, a secret that few people knew.

Su Yu nodded. “Did the lord of the Xuan Dao Palace agree?”

“No!” Mowu Dao sneered. “If the first Lord of the eastern region really had such a magic treasure, the other three regions would have been unified long ago. Therefore, the Lord of the palace had other plans and sent someone to follow the lord of the eastern region. Once the cemetery changes, that person would be able to take action and suppress the cemetery.”

Su Yu could not help but be curious, “What kind of creature is that?”

“I don’t know!” “Other than the Lord of the Eastern Region, no one knows.” Mowu Dao slowly said, “The only thing that is known is that that person has no self, no heaven, and no Earth. He is a pure and blank person and has only one consciousness, which is to suppress the cemetery. Other than the cemetery changing, he will not do anything else.”

“That person is still by the side of the evil loose cultivator and has not moved an inch!”

A person without self?

In other words, he doesn’t even know who he is?

“That person has the power of Dao Master Xuan and is constantly emitting it. As long as we can get within three feet of him and borrow a trace of his power, we can erase the Dragon Emperor’s mark.” Mo Wudao’s eyes were filled with anticipation.

Su Yu’s brows furrowed slightly.

It was different from what he had imagined. That was not an object, but a living creature.

An object could be stolen, but how could a living creature steal it?

If the other party resisted, under the power of Dao Master Xuan, they would probably be immediately killed into ashes.

“How is it? Do you have a plan to get close to that living creature?” Mo Wudao asked.

Su Yu's eyes flashed slightly, and he said, "I don't have a plan, but I do have a point."

"Tell me." Mo Wudao's eyes suddenly lit up.

Su Yu said slowly, "If I'm not wrong, the wounds on the body of the evil loose cultivator aren't small, right?"

Mo Wudao nodded, "At his realm, as long as he isn't dead, he can usually recover his injuries in a moment. However, when he regrouped with us, he still had a weak expression. It can be seen that his injuries are indeed very serious. At least, it isn't an injury that can be recovered immediately."

Chapter 2400 Ancient God Fragment

"That's Easy!" Su Yu's eyes flashed. "If everything goes as expected, evil loose cultivator will definitely issue important orders."

"Oh? You're so sure?" Mo Wudao didn't understand where Su Yu's confidence came from.

Su Yu chuckled. "Of course."

Mo Wudao sighed. "Alright, I hope it's as you said. I'll enter a deep sleep for the next few days. If there's nothing urgent, Don't disturb me."

Su Yu's heart stirred. It was probably a side effect of lending his cultivation to Su Yu, right?

How could such a heaven-defying technique not have a price?

"Okay," Su Yu said.

In the next few days, Su Yu immediately went into seclusion, focusing on studying ancient god Jin Xuan's bone fragments.

From the outside, there was nothing special. He couldn't even feel the pressure he should be feeling. It was just that it was exceptionally heavy.

"This thing is both hard and heavy. Ordinary attacks won't be able to see through its secrets," Su Yu thought.

With a light flash, he spat out cold dragon breath and tried to attack.

In the end, the bone fragments showed no signs of freezing.

Then, he used many other methods, but they couldn't do anything to him.

"It can't be that I can't deal with a piece of ancient god Bone Fragments!" Su Yu thought for a moment. After confirming that Mo Wudao was really asleep, he took out the nine dragons divine cauldron.

As soon as the divine cauldron appeared, it trembled slightly. The nine flying dragons each let out a dragon roar and actually began to faintly sense each other.

"Ancient god objects can sense each other?" If that was the case, then it would be easy to deal with.

Su Yu placed the bone fragment into the divine cauldron. Immediately, the golden light on the surface of the bone fragment slowly dimmed and transformed into the color of a crystal.

“Crystal Bone?” Su Yu was surprised. He focused his gaze and looked inside the crystal bone fragment. There was actually a strand of nine-colored liquid that was as small as a strand of hair.

How could Su Yu be unfamiliar with this item?

“Ancient God’s blood?” His heart suddenly jumped.

This was not ancient god Nine Dragons’ dried-up divine blood, but a true ancient god’s blood whose essence was well-preserved.

Although the amount was very small, not even a drop, just a tiny drop, the energy it contained was probably unimaginable.

At the very least, ten drops of insect ancestor’s ancestral blood might not even be comparable to a drop of ancient God’s blood!

Under Su Yu’s gaze, the drop of nine-colored blood slowly flowed out of the shattered bones.

Then, ancient God Nine Dragons spun, and the weak drop of ancient god blood slowly diluted to half a cauldron of divine blood.

Even so, when he took out a drop of diluted divine blood, the energy contained within it was still incomparably terrifying. It was only slightly inferior to a complete drop of ancestral blood.

Su Yu’s heart was fervent. He tried to use a drop of divine blood to activate ancestral Dragon Yiyu and insect ancestor’s finger, but he found that he couldn’t.

“It’s too diluted.” Su Yu was not without disappointment.

However, just as he was feeling extremely disappointed, Su Yu suddenly realized that when he looked at this divine blood, his mind was much clearer.

The past chaos was now like clouds and the Moon, instantly becoming clear.

“Could it be that the diluted ancient god’s blood has the ability to improve comprehension?” The more Su Yu thought about it, the more he felt that it was possible. What kind of existence was an ancient god? Standing at the peak of the Dao master level, they were unparalleled existences comparable to the son of Heaven of the sacred mountain.

Their every move contained the Great Dao of the heavens.

A drop of blood contained boundless comprehension power. Why wouldn’t it be possible?

His heart heated up, and he immediately swallowed the drop of ancient God’s blood.

A pungent sensation surged through his body, and his entire body felt as if it was burning. It was unbearable.

However, Su Yu's mind had never been so empty before. Everything in the world was completely different from what he felt at this moment.

He endured the intense pain and took out the nine-five sovereign technique. He focused his eyes and looked at it. He could finally understand some of the mysterious techniques that he had not been able to understand before.

"The extreme of Heaven and earth is nine, and the square is five. Yang Qi is flourishing in the sky, and the flying dragon is in sight..."he muttered in his heart as he entered that mysterious thought.

The pain on his body gradually disappeared, and was replaced by a vast picture.

In the picture, there was an old man dressed in ancient green clothes with an ancient crown on his head.

He held a dragon-shaped longsword in his hand and stood under ten huge projections with his head held high.

"Mortal dragons, obey my orders..."the old man swung the dragon-shaped longsword down, and thousands of dragons flew towards the 10 huge projections like moths to a flame..

Su Yu was shocked, not only at the 10 huge projections, but also at the sword in the old man's hand.

That was the Royal Longzun Sword!

It went without saying who the old man holding the sword was!

Ancestral Dragon!

He was leading the dragon race to fight against the ten sons of Heaven of the Sacred Mountain!

He wanted to continue watching, but the scene stopped abruptly.

Su Yu recovered from his thoughts, but he couldn't calm down for a long time.

When he unintentionally touched the Royal Longzun Sword in his arms, he faintly felt that there was a faint connection between him and the Royal Longzun Sword.

And the nine-five sovereign technique also had an indescribable comprehension.

"It really works!"Su Yu was secretly delighted. He was about to take out another drop of ancient god's blood, but unexpectedly, Qin Hui's urgent knocking came from outside the secret room. "Master, we have a mission."

Su Yu had no choice but to take back the ancient God's blood and the nine dragons divine cauldron.

Opening the stone door, Su Yu asked, "Oh? What kind of Mission?"

"Head to the easternmost market to purchase three boxes of ten thousand dao stones."Qin Hui's expression was somewhat unsightly.

Just as Su Yu was about to ask where the easternmost market was, Mo Wudao, who was on his back, was startled awake. He had a surprised expression on his face as he said, “You’re actually right. The evil loose cultivator gave an order.”

Su Yu said, “How do you know that it must be the evil loose cultivator’s order?”

“Is there a need to ask? The Ten Thousand Dao stones are the Dao Master’s Healing Medicine.” Pathless mo rolled his eyes, but the way he looked at Su Yu changed slightly.

She was very curious. How could Su Yu be sure that the evil loose cultivator would issue an order?

What if the evil loose cultivator had the ten thousand dao stones on him and didn’t need to issue an order to search for them?

“Should I say that you were just guessing, or that you predicted everything?” Pathless mo looked at Su Yu with a strange gaze.

Su Yu’s expression was calm. “Just take it that I was just guessing.”

Actually, this was all within Su Yu’s expectations.

According to his calculations, the evil loose cultivator could issue one of two orders.

One was to send people to look for the Holy Healing Medicine.

The other was that he himself had the holy healing medicine, but while he was recuperating, he would order his teacher and students to protect him in closed-door cultivation.

These two orders were beneficial for Su Yu to get close to that legendary creature.

The first order was within his expectations.

“Let’s Go!” Su Yu stood up and said.

Mo Wudao was somewhat dissatisfied with Su Yu’s confidence and said, “Hehe, seeing how confident you are, I’m afraid you don’t even know what the East Pole Market is, right?”

Su Yu thought for a short while, then, he shook his head and said, “There’s no need to tell me. I can guess a thing or two. That should be the most chaotic place in the Eastern Region, right? “That place is filled with all sorts of people. It is filled with the great villains of the Eastern Region and even the other three regions. It has become an illegal place that even the Divine Prefecture of the eastern region can’t control.”

As soon as he finished speaking, Qin Hui covered her mouth and said, “Wow! Master, are you really guessing? It’s actually not much different from the real situation!”

Wayless mo chuckled and said, “I’m afraid that you’ve already received the information and are trying to be a good boy here.”

Su Yu smiled faintly. “That’s not the case. This is the first time I’ve heard of the Eastern Market!” “However, as the Master of the Eastern Region, wanderer Xie needs to send his own people there to

purchase the Ten Thousand Dao stones instead of having the people of the eastern market send them over. From this, it can be seen that the market is not under his control.”

“And a place that even wanderer Xie can’t control is bound to be a place where such darkness runs rampant.”

Listening to his analysis, Qin Hui’s face was filled with admiration. “Master is truly a god! One leaf can tell the autumn, one word can tell the chapter!”

Mo Wudao was also quite surprised in his heart. She really hadn’t realized that Su Yu, a human, was actually so intelligent.

“Hehe, then it’ll depend on how you play your cleverness in the east pole market. Those Ten Thousand Dao stones aren’t that easy to buy.” Mo Wudao was completely convinced.

Not long after.

Outside the East region divine residence, Su Yu, Mo Wudao, and Qin Hui met up with Dan Haiqing and Feng Qingyang from the qilin group.

This time, wanderer Xie had called out the Azure Dragon Group and the Qilin Group to carry out a mission.

Although Dan Haiqing didn’t like Qin Hui and Su Yu, this mission was of great importance. He didn’t dare to interfere in it, lest he ruined the Big Event and incur the wrath of Wanderer Xie.

“This round-trip will take about two years. Has Your Azure Dragon Group finished explaining everything?” Dan Haiqing said calmly, as if the previous grudges had never happened.

Qin Hui nodded. “Everything has been settled. There’s no time to lose. Let’s set off as soon as possible.”

The three of them immediately set off. They rode on an evil spirit heavenly boat from the East Region Divine Mansion and headed for the deepest part of the East region in an instant.

The East region was the place closest to an eight-star civilization.

Very few people ventured deep into it.

This was because every once in a while, an eight-star civilization would release destructive light waves that would sweep through the universe beyond the civilization.

Under such light waves, it could easily destroy living beings.

Even great venerables would find it difficult to protect themselves under the destructive light waves.

In addition, there was no obvious pattern in the release of the light waves. No one knew if they would be hit by a beam of light when they traveled deep into the East region.

Only the easternmost market, which relied on an ancient ruin that had existed since the beginning of the new era, was not afraid of the destructive wave of light. It had just become a place of exile for many evil people who had nowhere to escape.

It was precisely because it was dark and chaotic and no one had jurisdiction over it. Therefore, many shady transactions were held there.

Ten Thousand Dao stones were an extremely rare ore that could heal the Huang Dao master's injuries.

This item was extremely precious. The Myriad Dao stones on the market had long since been sold out and had fallen into the hands of the various Daoist masters.

And those Daoist masters would never sell it.

Especially since the end of the epoch was near, as a healing holy item, it was even more impossible to sell it.

If someone had to sell it, then it was definitely not for themselves, but for others.

One could imagine what would happen to "Others".

Hence, the Thousand Dao stones were only sold in the eastern market. Who would dare to sell them in other places?

They would probably be immediately discovered by the deceased's relatives and friends, or even the sects, and they would start hunting them down.

The group traveled for half a year and passed through countless silent and desolate eastern regions before they finally arrived at the end of the eastern region.

In a dark universe.

The universe here was filled with sludge of unknown origins. Civilizations floated on top of it, drifting with the waves.

"Where is the sludge coming from?" Su Yu was puzzled.
