

Nine-Dragon 2441

Chapter 2441 Lit The DAO Fire

The self-detonation of a late-stage grandmaster realm expert was extremely terrifying.

The world was silent, as if all living beings had been exterminated, until a ball of heaven-shaking evil qi shot up into the sky.

That evil Qi was like a sharp sword, slashing down from the sky and separating the entire hazy stardust from it.

The remaining evil Qi wrapped around the separated Stardust and crazily swept to both sides, making the world clear and revealing the situation of the evil loose cultivator and the others.

Many of the experts who had been controlled died.

However, the evil loose cultivator was safe and sound. A layer of evil energy floated around his body, blocking all the self-detonation attacks.

However, his face was filled with uncontrollable anger. "Who is it?"

The first person he thought of was the king of Holy Spirits in the Forbidden Forest.

With Xu Ming's inherited strength of Guru Golden Light's divine ability, ordinary holy spirits could not withstand a single blow from Xu Ming.

Only an expert at the level of the king of holy spirits could subdue Xu Ming and control him to self-destruct.

Suddenly, the evil loose cultivator discovered that there was a ball of black mist flowing on the spot where Xu Ming self-destructed.

Just as he was about to observe what it was, the black mist suddenly condensed into a word of death and shot towards the evil loose cultivator.

The evil Qi on the surface of the evil loose cultivator's body turned into several runes that circled around his body, acting as a defense.

However, the word 'death' was extremely strange. The moment it touched the evil qi runes, those runes rapidly withered and dimmed, as if they had died.

The pupils of the evil loose cultivator constricted violently, and he found it hard to believe.

His evil Qi was filled with a large amount of profound dao energy. It was extremely difficult for a late stage grandmaster realm expert to break through it.

The word 'death' actually destroyed them all so easily.

Since the evil Qi couldn't resist it, the evil cultivator took out a jade seal. The jade seal emitted powerful fluctuations of Dao artifacts, and divine light burst out from inside out.

The word of death hit the divine light, and it still decayed it.

However, once the divine light was destroyed, the Jade Seal continuously released new divine light to resist the word of death.

After failing to break through the defense, the word of death changed violently, and then suddenly collapsed into a jet-black air current.

The air current condensed into a black demonic claw that held the Divine Light released by the Jade Seal in its palm.

Then, it squeezed hard.

PA --

With a loud bang, a large amount of divine light was destroyed and scattered in all directions.

The Jade Seal's defense was finally broken, but the power of the word of death was finally exhausted and slowly dissipated.

However, before it died, the demonic claw stretched out a finger and quickly drew a line of words in the air.

“Ten days later, I'll take your life.”

Six extremely clear black words were dissatisfied with the aura of death. It was as if they were written by the ruler of death.

Even an expert at the great venerable realm like the evil loose cultivator couldn't help but feel his heart skip a beat when he looked at those calm but firm words. He felt extremely uncomfortable.

However, this wasn't the end.

The six words suddenly exploded after ten breaths of time.

Traces of death Qi scattered in all directions.

Xie Wanderer was on guard and kept retreating, but he still couldn't avoid being hit by a trace of Death Qi.

As a result, his wrist was immediately covered in a deathly gray color.

His flesh and blood immediately rotted and lost its vitality.

Moreover, it was rapidly spreading beyond his wrist.

Xie Wanderer was shocked. Even Dao Master Xuan's body could rot?

He made a prompt decision. His arm shook, and everything below his wrist was broken. Only then could he isolate the influence of the death Qi flow.

Staring at the bleeding wound on his wrist, the evil loose cultivator's face was as calm as water. He was bewildered. Who Was It? Who Was It?

He didn't remember offending the Master of the death domain.

The only thing that could affect his body as Dao Master Xuan was the rumored death domain.

However, the death domain had never appeared in the outer realm.

After taking a deep look at the Forbidden Forest, the evil smile on evil loose cultivator's face was replaced by a deep fear.

“Could it be that forbidden existence in the Forbidden Forest?” Thinking up to this point, evil loose cultivator’s heart couldn’t help but tremble, and he didn’t dare to go any deeper.

“Leave immediately!” Evil loose cultivator immediately ordered, and controlled the people under his control to quickly leave.

This was not a place to stay!

However, no matter how far they went, the faint pressure in loose cultivator Xie’s heart could not be dispelled, making him feel slightly uneasy.

It was as if some major event was going to happen to him.

At that time.

In the Forbidden Forest, deep within the spatial rift, near the sphere of light.

Sky splitter patriarch patiently refined the golden black tortoise. From time to time, he would cast a sidelong glance at Su Yu, a thought-provoking expression appearing in his eyes, it appeared in his eyes. “All eight laws have been transformed into Dao. In the past few eras, the only one who has done it is ancient god Nine Dragons, right?”

“Unfortunately, he is nowhere to be found.” He watched as Su Yu transformed the laws one by one, heaven splitter patriarch said faintly, “It is easy to transform laws into Dao, but once you transform into Dao, there is no turning back. Either you absorb the Dao Fire and become a dao master, or you die in the Dao Fire and become a part of the Heavenly Dao.”

“Ancient God Nine Dragons gave up on so many successors of the nine-star civilization, but chose a lowly human from the outer realms. Should I say that he’s helping others or harming others?” Sky-rending patriarch shook his head, not optimistic about Su Yu becoming a dao master.

From ancient times until now, there was one step that a person who became a dao master could never take.

That was to ignite the dao fire.

After successfully absorbing the dao fire, one could leap to become a dao master.

However, if one was unable to absorb it, one would be buried in the Dao Flame, refined into a part of the Heavenly Dao, and completely disappear from the mortal world.

Even if one mastered the laws of life, one would still be unable to revive the dead.

That was to completely disappear.

And the stronger the laws were, the stronger the DAO Flame would be when ignited.

The highest and only record in the outer realms was that of the Heavenly Queen.

She was a genius who controlled time and space.

However, she was only able to succeed because of the help of a mysterious expert from an eight-star civilization.

That time, she had almost died.

Now, Su Yu had chosen not only time and space, but eight different domains!

In the entire life of heaven splitter ancestor, only one person had ever succeeded.

That person was ancient god nine dragons of this era.

In several eras, ancient god Nine Dragons was the first and only person.

But ancient god Nine Dragons was able to succeed because he was a first-rate race and had received many inheritances from the previous era.

Su Yu was just a human, and he didn't have a powerful bloodline or background to help him.

To imitate ancient god nine dragons and become one of the eight domains was simply overestimating oneself.

This was why he sighed that ancient god Nine Dragons was harming him.

Because it was impossible for him to succeed, there was only one result, and that was to die in the DAO fire and become a part of the Heavenly Dao.

Su Yu was completely unaware of this. He wholeheartedly entered seclusion and refined the remaining laws one by one.

Three days later.

With the assistance of the divine seat of Heaven and Earth, the eight laws succeeded one after the other.

Eight vast images traversed through the crack in space and circled around Su Yu, interweaving into a myriad of strange scrolls.

His eyes slowly opened at this moment.

Looking at the eight domains in front of him, Su Yu's mood was particularly heavy.

Lighting Dao fire could become a dao master.

Chapter 2442 Rebirth

What Su Yu was about to ignite was not one type of DAO Flame, but a total of eight types.

Each type was the ultimate.

If he failed, he would die without a burial ground and would never be able to reincarnate.

However, he had no way out.

"I have waited for this moment for too long. How can I back out?" Su Yu's eyes were filled with determination.

Dao master was the turning point in Su Yu's life.

If he succeeded, he would be able to leap through the Dragon Gate like a carp, Soar into the sky like a dragon, and roam the nine heavens proudly.

Whether it was protecting Qin Xian 'er, reviving wayless devil, finding heartless iron catcher, or heading to the vile daughter Palace, there was still hope.

If he failed, everything in his life would be reduced to dust, the remnants of time.

This should be the most important moment in his life.

After taking a deep breath, Su Yu slowly stood up. His left eye, which was only opened, was full of determination.

“The first fire, Burn!” Su Yu said slowly.

The hourglass formed by the time domain suddenly burned and turned into a dark purple flame.

This was the fire of the Dao.

The fire of the Heavenly Dao that was full of the time domain.

Within that flame was a terrifying power that wasn't the slightest bit inferior to Dao Master Xuan's.

Even from afar, it caused Su Yu's body to feel a searing pain, and even his hair and eyebrows began to burn.

What he wanted to do wasn't just face this fire; he wanted to devour it and absorb it.

“Human, let me give you a piece of advice. Ambition needs to be matched with ability. Don't do things that are beyond your abilities. A Dao fire from the time domain is already your limit. As for the rest, give it up,” daofather heaven splitter said calmly.

Su Yu's gaze was calm.

How could he give it up?

If he was willing to devote himself to a DAO domain, he would have ignited his dao flame long ago when he had mastered the spatial domain.

Why wait until today?

In addition, a DAO domain would forever be mediocre in his lifetime.

What could he use to protect the people he should protect and save the people he should save?

“In the flames of iniquity, one can either be reborn or be reborn,” Su Yu said slowly. “The Second Dao Flame, Ignite!”

Sky-rending patriarch shook his head and sighed, “I have seen too many proud sons of Heaven in my life. They only have one ending. I believe that you will not be an exception.”

He had already tried to persuade Su Yu.

Since the other party did not listen, it was useless for him to say anything more. He would just let Su Yu fend for himself.

In any case, they had nothing to do with each other.

“The third flame, Burn!” Sky-rending Patriarch’s words did not affect Su Yu at all. After he finished speaking, Su Yu summoned the third domain’s Dao Flame.

“The fourth flame...”

“The fifth flame...”

..

Until the reincarnation domain turned into a ball of flames!

The eight balls of flames were resplendent and scorching, like the sun of the nine heavens.

The eight balls of flames formed a line, emitting a world-destroying heat that soared to the sky.

The heat of that heat far surpassed the world-destroying light in the depths of the eastern domain!

The colors of the eight-colored flames burst out of the cracks, out of the Forbidden Forest, and out of the eastern domain, radiating across the entire outer domain.

From the Sea of constellations civilization in the west to the Far East market in the east, all of them felt a strange color descending upon the mortal world.

Countless experts, whether they were in seclusion or sparring, all stopped and stared in shock at the eight-colored light that was like the clouds, shining in all directions.

The void that had been silent since ancient times was thus decorated by the eight-colored light. It was a never-before-seen splendor.

Near the Sea of constellations civilization.

Suddenly, under the illumination of the eight-colored lights, the void suddenly shook!

Near the Sea of constellations civilization, an enormous civilization on the scale of a six-star civilization suddenly appeared without any warning.

It was as if it had appeared out of thin air without any warning.

However, the strange thing was that the civilization ball actually started to spin!

If one were to look down, they would discover that... how was that a civilization?

It was clearly a giant open eye!

One Eye was the eye of a six-star civilization.

A pitch-black object that stretched into the depths of nothingness and whose outline couldn’t be seen was faintly discernible.

Its body was exuding an extremely destructive aura.

If Su Yu was here, he would definitely be able to recognize it.

It wasn’t anything else, but that Taotie!

“The eight supreme domains that I haven’t seen in a long time.” A trace of joy flashed through the Taotie’s eyes, a hint of relief flashed through the Taotie’s eyes. “I almost thought that it was the nine dragons ancient god that returned, but it turned out to be a little guy who overestimated himself. HMM, he even escaped from my body.”

He opened his eyes and slowly closed them. He sneered, “Courting death. How can the path of the nine dragons ancient god be taken by ordinary people?”

The western region’s six-star civilization, the demon world.

Under the setting sun, Huangfu Lieyang and Mo Xiaochai were patiently teaching a boy martial arts.

He was only ten years old, but his cultivation had already reached the half-step dao master realm, far surpassing Huangfu Lieyang and Mo Xiaochai.

But the most peculiar thing was not his cultivation, but his left eye. It was emerald in color, as bright as a pearl.

That eye contained an extraordinary power, as if it could destroy the world at any time.

Mo Xiaochai stared at that eye, worried about gains and losses.

The boy in front of her was the child she had been pregnant with for ten years.

After being born, he was born with an emerald eye.

This eye was the gift Su Yu gave them when he left... The Eye of the Heavenly Dao of Death!

She didn’t expect that this eye would become the eye of their child.

Moreover, he was born with the ability to control it.

With just one glance, he could destroy all Dao.

“Yi’er, are you tired? Take a rest.” Huangfu Lieyang waved with a smile.

The child’s name was Huangfu Yi. He had both the bloodline of the demon race and the bloodline of the human race.

Huangfu Yi was only ten years old, but his personality was calm and steady. He didn’t look like a ten-year-old child at all.

He shook his head lightly and looked at the sky. “I’m not tired, and I can’t rest. Otherwise, I’ll never be able to catch up with uncle Su Yu.”

He grew up listening to Su Yu’s story. In Huangfu Yi and Mo Xiaochai’s stories, Su Yu was an omnipotent and invincible son of heaven. He was a peerless figure who stood tall in the world.

Since then, he had made Su Yu his target and worked hard.

All of a sudden, Huangfu Yi realized that at the end of the world, eight-colored waves were sweeping over.

He covered his left eye and a sense of familiarity welled up in his heart. "It's uncle Su Yu."

He and Su Yu each had a heavenly dao eye of death.

Eight balls of Dao fire swept over the aura of the nine-jade spirit pearl on Su Yu's body, causing Huangfu Yi to sense it.

"Su Yu?"Huangfu Lie Yang and Mo Xiaochai were shocked when they saw the strange phenomenon.

Not long ago, they thought that Su Yu was already dead.

"Father, mother, I want to go and look for uncle Su Yu,"Huangfu Yi said after a moment of silence.

Huangfu Lie Yang and Mo Xiaochai looked at each other and smiled bitterly.

They had long thought that a six-star civilization would not be able to keep their child. Sooner or later, he would leave.

However, they had not expected him to come so quickly.

"Go, Tell Uncle Su Yu to take care of himself,"Huangfu Lieyang said in reminiscence.

Huangfu Yi grinned. "I've long wanted to meet uncle Su Yu with my own eyes!"

With that, the eye of death of the heavenly axiom in his left eye suddenly flashed.

The nine heavens shook violently as the aura of the heavenly axiom swept over and landed beneath his feet.

He actually relied on his eyes to control the Heavenly Dao!

"I'm Going!"Huangfu Yi jumped onto the Heavenly Dao and instantly fled with it.

With a thought, he flew out of the six-star civilization and arrived at the seven-star civilization area.

Then, he flew again..

Chapter 2443

Seven Ultimate Civilization.

The experts of the civilization had all left and headed to the forbidden forest to participate in the recruitment of the eight-star civilization.

There was no one in the civilization.

No one could enter the silver soul void sea in the territory of the seventh ultimate aristocrat family.

A beautiful woman in a long red robe was slowly entering the silver soul void sea.

Countless dangerous silver soul worms avoided her as she approached. They automatically opened a path for her as if they were afraid of her.

If Su Yu was here, he would definitely think of her as Xia Jingyu.

They had the same appearance and soul, and even their aura was the same.

It was just that their auras were different.

“Heavenly Relic Palace.” She stepped into the Silver Soul Void Sea, and her beautiful eyes reflected the ruins.

“The Heavenly Relic Palace” hung on a temporary palace.

Chi --

In the ruins, a creature that looked like a snake, a dragon, and a flying dragon coiled around an ancient tower.

It had nine heads, and each of them revealed a cultivation base that was no less than that of a dao master in the forgotten words realm.

Its overall strength was comparable to that of a dao master in the fish-dragon realm.

It tensed up and warned the woman in fear.

The woman looked up and smiled, “I’m here to borrow something from the palace. Don’t worry about it.”

Then, she ignored the warning and entered the palace.

As soon as she entered, a beautiful female corpse lying on the bed suddenly opened her eyes and her body began to recover.

She opened the door of the bedroom and stood in the shadow, staring at the person who came.

“Who are you?” She was the owner of this place, concubine dance, the favorite concubine of the Emperor of Heaven’s will.

She looked at the unbelievably beautiful woman in front of her. As a top-grade beauty, she couldn’t help but feel ashamed of her inferiority.

“A passer-by.” The red-clothed woman looked at concubine dance casually. “You are holding on to your life for half a century. Are You Waiting for someone?”

Princess Dance’s pupils shrank, and she was shocked.

Someone actually saw through her!

“Forget it, these are not important.” The red-clothed woman said indifferently, “I’ll lend you the nine-second heaven splitting array.”

Hearing this, Princess Dance said in a deep voice, “Who are you? How do you know the nine-second heaven splitting array?”

The nine-second heaven splitting array was a relic hidden in Princess Dance’s Palace by the Heavenly Emperor, and it had never been revealed to outsiders.

How did the beautiful woman in front of her know about it?

“I know more than you think.” The red-clothed woman took a step forward, and the dust in the ruins of the palace rose up.

Even the bedroom where princess dance was was in collapsed and flew into the sky in pieces.

The entire area was empty, revealing the clean ground.

At this time, it was discovered that there were many crisscrossing grooves on the ground.

Looking down from the sky, it was discovered that all the grooves had been woven into a huge array.

The position where princess lightly dance was at was the center of the array!

Her Crystal Eyes stared straight at the redwood woman in front of her, and she shouted in a deep voice, “Shen Long!”

Roar --

Nine angry roars resounded in the world at the same time.

The nine-headed clam dragon that was wrapped around the ancient tower quickly climbed down, revealing the true appearance of the ancient tower.

It was a huge crystal-colored pillar!

Its nine heads bit on the crystal pillar, and a huge amount of energy was poured into the body of the Clam Dragon from the crystal pillar.

The overall aura of the clam dragon was like a mountain-toppling and sea-toppling surge. In the blink of an eye, it crossed from the fish-dragon realm to the heaven tier, then from the heaven tier to the Grandmaster realm, and finally broke through to the Xuan Dao Master Realm in one breath!

The red-clothed woman was a little surprised. “This is unexpected. If I remember correctly, this crystal pillar came from the ancient city of time and space of the eight-star civilization, right?”

Concubine dance locked her beautiful eyes on the other party, and traces of fluctuations rippled in her eyes.

Even the ancient city of time and space knew who she was?

Roar ——

After reaching the Xuan Dao Master Realm, the Shen Dragon Roared, and its huge body whistled over.

It brought with it an illusion that enveloped the red-robed woman.

In an instant, the scene in the red-robed woman’s field of vision changed.

The nine B Heaven splitting formation in front of her was nowhere to be seen. In its place was a young man with a soft expression.

He was like a poisonous snake, staring at her coldly.

When she realized it was him, the red-robed woman’s pupils constricted and she said hatefully, “Carefree Emperor!”

“Qingyun, you can’t escape from me. Be a good girl and be a vessel for the mirror flower emperor.” Carefree Emperor smiled coldly.

Hearing this, the red-robed woman’s heart wavered as an unsuppressable fear appeared in her eyes.

The instant her heart wavered, a cold sensation pierced through her chest.

The scene in front of her suddenly shattered, turning into nothingness along with carefree emperor.

What appeared in front of her was a gigantic clam dragon that pierced through the red-robed woman’s body with a single tentacle.

It turned out that everything she saw just now was an illusion created by the Clam Dragon.

It was able to keenly capture the enemy’s weakest point and create an illusion to shake the enemy’s mind. It took the opportunity to deliver a fatal blow.

A wisp of colorful blood flowed from the corner of the red-robed woman’s mouth.

There was a hint of self-mockery on her face. “What a powerful illusion. Even I fell for it.”

“But...” she raised her eyes, and there was a coldness in them. “I can’t be killed!”

Her body shook, and the tentacle that had pierced into her body was immediately broken.

A bloody hole the size of a bowl appeared in her chest.

However, there was no wound in the bloody hole. There was not even the blood that a living creature should have.

Chi --

A puff of green smoke floated past, and the wound instantly recovered.

She stared at the Oyster Dragon and exhaled.

The air current blew on the oyster dragon’s body and actually petrified it.

The oyster dragon turned pale with fright, and hurriedly resisted with the profound power of Daoist master Xuan.

However, the petrified area was not affected at all, and quickly spread to the rest of the body.

In a few breaths, the oyster dragon was petrified into a statue in panic.

Concubine dance saw this and was shocked.

The clam dragon at the level of Xuan Dao Master was petrified so easily!

Who was this red-clothed woman in front of her? How could she be so terrifying?

After dealing with the clam dragon, the red-clothed woman looked at concubine dance indifferently. “Don’t do anything meaningless.”

Saying this, she walked toward concubine dance.

However, at this moment, eight-colored ripples radiated from the sky and filled the sky and earth, dyeing the entire sky with eight colors. It was extremely shocking.

The red-robed woman's footsteps came to an abrupt halt. She raised her head to look into the sky in shock. "The eight supreme domains have descended! Is it ancient God Nine Dragons? No, it's not him, it's... could it be the successor of ancient God Nine Dragons?"

She had an extremely surprised expression on her face.

After pondering for a moment, the red-robed woman suddenly turned around and walked into the sky. Without turning her head, she said, "I'll borrow the array another day."

She left and the petrified clam dragon was able to escape.

It stared at the red-robed woman's retreating figure with abnormal fear. There was an indescribable fear and fear.

The glazed era civilization.

Inside the ancient glazed cave.

Insect ancestor, snake ancestor, and bone ancestor. The three ancestors looked as if they were facing a great enemy. They stared at the entrance of the ancient glazed cave together.

They relied on their intuition and could sense that an extremely terrifying existence had descended at the entrance of the ancient glazed cave.

He was standing at the entrance, sizing up the three ancestors.

The three ancestors were extremely powerful, but they felt like three frogs that had been targeted by a venomous snake, and their hearts were pounding.

"Who's outside?" Insect ancestor gulped. Even in the previous era, there were only a few people who could make him feel this way.

The snake ancestor's scalp went numb, and he kept shaking his head.

Even the most cold and arrogant ancestor bone's body tensed up. He took a deep breath and slowly said, "It can only be one of the nine sacred ancestors, or one of the eight ancient gods of this era, right?"

Just as they were feeling fear in their hearts...

An eight-colored ripple that swept through thousands of worlds swept over.

The three ancestors' eyes were filled with shock as they looked at the eight-colored ripple. "Eight sovereign domains? How is that possible? Could it be that someone in this era is controlling the eight sovereign domains?"

As shock appeared on their faces, the gazes that were sizing them up at the entrance suddenly disappeared.

The pressure on the third ancestor's body suddenly relaxed.

Insect ancestor said in surprise, "He... left?"

Snake ancestor remained on guard as he said uncertainly, "He should have left."

Bone ancestor stared at the eight-colored ripples and let out a long sigh. "I have to thank these eight domain ripples of unknown origin. Otherwise..."

Thinking back to that gaze that terrified them, cold sweat involuntarily dripped down bone ancestor's forehead.

East region divine residence.

Xie Wanderer was slowly waiting for the half-life puppet to be refined while walking around with his hands behind his back.

Ever since the mysterious ruler of death left ten days later and took his life, he couldn't sleep or eat in peace.

He still had a very uneasy feeling in his heart, making it difficult for him to calm down.

At this moment, an eight-colored ripple swept over, turning the entire East region into an eight-colored color.

"Eight sovereign domains?!" Loose cultivator Xie halted in mid-air, turning his head to look at the sky outside the hall in disbelief. "Eight sovereign domains! How is this possible?"

"Eight sovereign domains? The person who opened one of them is a monster that defies the heavens. Eight... only ancient god nine dragons has ever done that." Loose cultivator Xie's expression flickered, he suddenly thought of the hegemon of death, who had left a message for him.

One of the eight sovereign domains was the death domain.

"Damn it, where did I offend him?" The uneasiness in evil loose cultivator's heart grew even more intense. "Could it be that the half-life puppet I controlled has this person's exclusive property?"

Thinking of this, a hint of regret appeared in evil loose cultivator's heart.

Had he been too arrogant and rash?

Outside the East region divine territory.

Poison Fate Madam was bored to death as she lay in a pavilion drinking wine. She drank alone in the air, "Don't listen to the sound of the leaves striking through the forest. Thousands of leaves are filled with hatred! Husband, why are you so heartless towards me? Sigh!"

Raising her head to drink, poison fate madam was just about to recite a few more sorrowful and lingering poems when she suddenly realized that the world had unknowingly turned into nine colors.

Powerful domain fluctuations came like a storm.

In her shock, poison fate madam spat out the wine in her mouth and cried out, "Are you kidding me? Eight sovereign domains? Am I F*cking Dreaming?"

For this reason, he couldn't help but curse.

“This... This is a domain unique to ancient god Nine Dragons. In the past few eras, only ancient god Nine Dragons has succeeded. Who is it now? Is it going to defy the heavens?” Poison fate madam muttered to herself.

Chapter 2444 Absorbing Dao Fire

After pondering for a moment, he gritted his teeth and said, “F * ck, let’s not bother about my husband for now. How can we miss such a rare event in this era?”

In the depths of the forbidden forest.

Su Yu faced eight different colored dao fires alone. His gaze was unprecedentedly firm and solemn.

“If you don’t succeed, you’ll die!” Su Yu walked forward and formed a seal on his abdomen.

A whirlpool appeared on his abdomen, and the eight balls of dao fire poured into Su Yu’s body from the whirlpool.

The dao fire had already entered his body, and only by absorbing it could he break through the Emperor’s shackles and become the Lord of the Great Dao!

However, each of the eight balls of Dao Fire was the pinnacle of the dao fire.

How could it be easy to absorb and not be destroyed?

The moment they entered his body, the eight balls of dao fire burned Su Yu’s abdomen with a burning momentum.

Eight Small Suns appeared and continued to burn the rest of Su Yu’s body.

At most, it would take a breath to burn Su Yu into ashes, never to be reincarnated!

“Royal Longzun Sword! !” At the critical moment, Su Yu shouted and summoned the Royal Longzun Sword, suppressing the eight balls of Dao Fire.

The Royal Longzun sword was, after all, the Divine Sword of the dragon race that had been passed down for tens of thousands of generations. It was hard and rarely seen in the world.

This sword pressed down horizontally, and as expected, it suppressed the eight balls of Dao Fire and stopped their burning momentum.

Taking advantage of this opportunity, Su Yu absorbed a wisp of flame from the eight balls of Dao Fire.

After this flame was absorbed, it immediately cooled down and turned into a dao mark, which was engraved on Su Yu’s chest.

This dao mark was the proof that Su Yu had become a dao master.

When the DAO mark was full, it was the time to become a Great Dao master.

One trace, two traces, three traces.

Su Yu seized the time and rushed to absorb the DAO fire.

When he absorbed the tenth trace, there were already ten dao marks on his chest.

Sky-splitting patriarch watched from the side, he nodded slightly. “When ordinary creatures break through, they absorb all the DAO fire and only carve twenty dao marks. However, when one tenth of the DAO fire formed by a supreme domain is absorbed, there are ten dao marks.”

The more dao marks one had, the stronger the energy one would obtain when breaking through to the Dao master realm, and the higher the realm one would break through to.

When the vast majority of living beings broke through to the Dao master realm, they would only be able to obtain 20 dao marks after absorbing all the DAO Flames.

Only a few people could surpass that.

Currently, Su Yu had only absorbed 10% of the time domain’s Dao Flame, which was 10 dao marks.

If he absorbed another 10% , it would be equivalent to an ordinary living being breaking through to the Dao master realm.

However, it was at this moment that the Royal Longzun sword let out an unbearable sound.

A slight sizzling sound came from the surface of the sword.

Looking closely, the dragon patterns on the surface of the Royal Longzun sword actually showed signs of melting.

Su Yu’s heart skipped a beat. Even the Royal Longzun sword created by the ancestral dragon couldn’t withstand the roasting of eight balls of Dao Fire?

His absorption had only just begun!

He was extremely anxious and continued to absorb the dao fire as fast as he could.

One, two, three..

As the dao fire continued to absorb, the royal longzun sword gradually became overwhelmed.

By the time Su Yu absorbed the thirtieth Wisp, the royal longzun sword had already melted by more than half.

Balls of Dao Fire shot out from where it melted, placing an extremely heavy burden on Su Yu.

“Hold On!” Su Yu gritted his teeth and crazily absorbed the DAO fire.

Finally, when he absorbed a total of fifty strands, the royal longzun sword completely melted and turned into a puddle of molten iron.

The Royal Longzun sword that had followed him for many years was destroyed just like that.

A trace of disappointment flashed across Su Yu’s eyes.

However, he had no time to be distracted because he had only absorbed half of the DAO fire formed by the time domain.

The power of the eight balls of Dao fire was only weakened by a tiny bit.

Su Yu made up his mind and took out the heaven-destroying staff. “Long! Thick!”

Immediately, the heaven-destroying staff turned into a huge and thick staff and pressed down on the eight balls of Dao Fire.

The Raging Dao fire was once again suppressed.

Su Yu took this opportunity to crazily absorb the dao fire again.

Time passed like water. After he absorbed 30 strands of DAO Fire, the heaven-destroying staff was like the Supreme Dragon Sword, unable to avoid the fate of being melted.

Drops of melted liquid dripped down continuously.

After absorbing 50 wisps, the entire heaven-destroying staff completely melted.

After paying the Royal Longzun Sword and the heaven-destroying staff, Su Yu only obtained the dao fire of the time domain.

There were still seven balls of Dao Fire left, the power of which was no longer present as it ravaged his body.

The heaven-splitting patriarch shook his head, "It ends here."

In his opinion, this was Su Yu's limit and he could no longer suppress the DAO fire.

His next fate was to be burned into ashes by the remaining seven balls of Dao Fire and become a part of the Heavenly Dao.

However, Su Yu's mind was unwavering.

"Evil sword! Come out!" Su Yu raised his hand once again and the evil sword of the evil daughter landed in his palm.

In terms of sword body quality, the evil sword was still above the Royal Sovereign Longzun Sword.

Under the strong pressure, the seven balls of Dao Fire were pressed down again.

"This is... the evil daughter's Dao Weapon?" Sky-splitting Patriarch's pupils constricted as he asked in surprise.

He had never thought that Su Yu had even this sword.

Seeing Su Yu use the evil sword to suppress the dao fire, sky-splitting patriarch couldn't help but feel a pain in his heart. "What a waste! If this sword could be sharpened, it would definitely be a peerless weapon that could sweep through the era, but you used it to break through to the DAO Master level!"

He felt somewhat regretful and envious.

Forget about the Sovereign Royal Longzun Sword and the heaven-destroying staff, he even had the sin sword. The wealth of Su Yu's family was far beyond sky-rending patriarch's expectations.

After suppressing the dao fire, Su Yu continued to absorb the dao fire.

One, two, three..

The quality of the sin sword was indeed extraordinary. After Su Yu absorbed a full 100 strands of DAO fire, it finally melted and turned into streaks of pitch-black liquid that dripped into the dao fire.

He took the opportunity to absorb the entire ball of dao fire formed by the spatial domain.

Out of the eight balls of Dao Fire, there were only six balls left.

The power of the dao fire was still shocking.

What was more worrying was that Su Yu did not have many things that he could use anymore!

“Could it be that it can suppress the Dao Fire?”Heaven splitter patriarch retracted his gaze from the golden black tortoise in his hand as a hint of curiosity appeared in his eyes.

The Sovereign Dragon Sword, heaven-destroying staff, and evil sword should all be gone, right?

Who knew that Su Yu would suddenly take out a finger.

There was an ancestral level aura remaining in that finger!

“An ancestral level old monster’s finger from the previous era?”Sky-ripping elder was truly astonished. He sized up Su Yu from head to toe, and his eyes were filled with astonishment.

Just how many secrets did Su Yu have?

The moment the insect ancestor’s finger appeared, it immediately suppressed the six balls of Dao Fire.

However, its suppressive power was obviously not as strong as the first three.

Su Yu absorbed more than thirty threads, and the insect ancestor’s finger melted!

The remaining high temperature surged up.

Su Yu’s eyes fluttered. He gritted his teeth slightly and took out the nine jade spiritual pearl.

“World-destroying dust, come out!”

In the spiritual pearl, all the supreme breathing soil in the nursery, which was also the world-destroying dust, flew out.

A million grains turned into a wall and suppressed the six balls of Dao Fire.

Instantly, the dao fire was suppressed.

“So much world-destroying dust?”Sky-splitting patriarch stood up abruptly and looked at the sky full of world-destroying dust in disbelief.

This dust was hard to find in the outside world. Only the bottom of the void had some remnants.

Sometimes, it was hard to find one grain.

Su Yu was good, he actually had a whole million drops!

When a grain of world-destroying dust fell into the dao fire, it was immediately burned into residue, unable to block the DAO fire at all.

But when one grain was burned, there were still tens of thousands of grains of world-destroying dust.

A whole million grains were enough to suppress six balls of Dao Fire for a long time!

Finally, Su Yu absorbed all the Dao fire formed by his soul domain, and only then did the million grains of world-destroying dust completely melt.

Of the eight balls of Dao Flames, only three had been absorbed so far, and there were still five more.

Each one was an existence that could easily incinerate Su Yu.

He was still facing an incomparable life-and-death crisis.

The world-destroying dust had been used up. Su Yu's mind spun rapidly. He gritted his teeth and took out a fox tail with a flip of his hand.

This item came from the nine-tailed white Fox stone fetus son of heaven.

Back then, Ren Zu had personally destroyed a stone fetus son of heaven, and that was the nine-tailed son of heaven.

A part of her tail had disappeared without a trace and ended up in Su Yu's hands.

As a part of the stone fetus son of Heaven's body, although it had left his body for many years and was no longer as powerful as it was back then, it was definitely not inferior to the evil sword.

Su Yu pressed his five fingers and pressed it horizontally onto the five balls of Dao Fire, immediately suppressing it.

He took the opportunity to absorb the dao fire.

Seeing this scene, sky-splitting patriarch could no longer remain calm. "Hiss... nine-tailed son of Heaven's tail? How did you get it?"

Su Yu completely ignored him and continued to absorb the threads.

Stone fetus son of Heaven's body was indeed extraordinary. Su Yu absorbed another hundred threads, but only half of them melted.

If that was the case, he might be able to absorb another entire ball of dao fire in one go.

If that was the case, there would only be three balls of dao fire left, and the pressure would be much less.

But at this moment, heaven splitter patriarch warned, "Human, don't be careless. I once heard that when ancient god Nine Dragons broke through to the eight sovereign domains, the most dangerous part wasn't the front, but the four flames behind him."

There was such a thing?

Su Yu's heart jumped. Before he could mentally prepare himself, the four remaining balls of Dao Fire suddenly exploded!

The Flames were more than twice as strong as before!

“What’s going on?” Su Yu was shocked!

The tail rapidly melted at a speed visible to the naked eye under the flames that had doubled in size.

“Trying to control the sovereign domain is already going against the Great Dao. You’ve already caused the Heavenly Dao to be wary of you by continuously absorbing four balls of Sovereign Domain Dao Fire.” Sky-rending patriarch looked up into the sky. In his line of sight.., he could faintly see some obscure things.

“From now on, you will absorb one ball of Dao Flames. The remaining power of the Dao Flames will be doubled again until you can no longer withstand it and are burned into nothingness, becoming a part of the Heavenly Dao.”

Su Yu’s heart sank to the bottom.

How could this be?

Under normal circumstances, as the DAO Flames were devoured one by one, the power would become weaker and it would be easier to absorb them.

However, the truth was that the later process was even more difficult.

Pu --

The Flames burned through the fox’s tail and pounced on him.

The temperature of this fire was much higher than when the eight flames merged.

Su Yu’s chest was immediately burned off.

The remaining sparks followed his body and burned through his entire body.

Su Yu didn’t have a life law incarnation. He only had a body.

He made a prompt decision and shattered his body below his heart, leaving only his head and half of his body behind.

The endless pain came like a storm, almost making him faint.

But Su Yu knew that he couldn’t faint yet.

Once he fainted, what awaited him would be the Raging Dao Fire, burning him to ashes.

Chapter 2445 Imminent

He clenched his teeth and endured the excruciating pain.

“Dragon Emperor’s body, appear!” After the Dragon Emperor was assassinated by Xie Wanderer, his body was put away by Su Yu.

After his ten thousand feet golden dragon body was thrown out, it suppressed the four balls of Dao Fire.

The dragon race was the race with the strongest physique in the outer realm, and their dao strength was difficult to destroy.

As the dragon emperor and having cultivated the “Dragon Abyss treasured scroll”, it was even tougher and could be called the number one in the outer realm.

Even if it was comparable to the royal longzun sword, it would not be much different.

However, the moment it was placed on the four balls of Dao Fire, it immediately began to melt.

Its dragon scales were quickly charred black, and its flesh and blood were badly mangled as it continued to steam.

Su Yu’s heart sank, and without any hesitation, he crazily absorbed the DAO fire.

He only had enough time to absorb twenty wisps before the Dragon Emperor’s body was completely incinerated.

The dao fire rose once more, even fiercer than before it was absorbed.

Su Yu had already used most of the treasures on his body!

Only some extremely precious items were not suitable for use.

But now, it seemed like he had no choice but to use them.

Whoosh --

A transparent crystal bone floated in his palm.

It was a fragment of ancient god Profound Gold from the wicked sovereign cemetery.

Su Yu had almost been unable to do anything to the evil bone of Howling Sky Wolf Lord, which had greatly increased his strength.

In the end, the bone fragment was obtained by Su Yu. The blood of the ancient god was extracted, and the golden bone fragment turned transparent.

Even after taking it out, the bone was still extremely heavy and difficult to hold.

“Suppress!” He threw the ancient god’s bone fragment down.

The incomparably heavy pressure suppressed the surging dao fire.

However, this bone fragment had lost its divine blood, and after an entire era, it was no longer as strong as before.

After suppressing it for a short while, it began to show signs of melting.

Su Yu’s eyes turned cold, and he immediately seized the time to quickly absorb the dao fire.

The strength of the bone fragment was far greater than the insect ancestor’s finger.

Only after absorbing seventy wisps of Dao Flames did the ancient god bone fragments finally melt.

At this point, Su Yu had successfully absorbed five of the Eight Great Dao Flames.

Sky Splitter Patriarch had long since gone from looking down on them to looking forward to them.

“Five wisps of Sovereign Domain Dao Flames! Incredible, Incredible!” If he hadn’t seen it with his own eyes., sky splitter patriarch found it hard to believe that apart from ancient god nine dragons, there was someone else in the world who could absorb the eight Great Domain Dao Flames to such an extent.

There were already five of them.

With three more, ancient god Nine Dragons would regain his former glory and become the second person to control the eight great sovereign domains.

However, just as he said, the power of the Dao Flames would become even more terrifying as time went on.

With only three Dao Flames left, the power of the Flames didn’t weaken. Instead, it doubled.

At this moment, the power of the flames was even twice as great as when the Eight Dao Flames were fused together.

In an instant, the raging flames surged up.

However, there were not many things that Su Yu could use to suppress the DAO fire!

Gritting his teeth, Su Yu summoned the little qilin. “Come out!”

A wave of chaotic energy appeared from the nine jade spiritual pearl. The little qilin focused all his attention on the dao fire in front of him.

Without thinking, he opened his mouth and spat out a wave of chaotic energy to suppress the DAO fire.

However, the Dao fire that even the ancient god Bone fragment couldn’t suppress was now twice as strong. How could the little qilin’s weak chaotic energy suppress it?

In a few breaths, the chaotic energy was burned through and spread to the little qilin’s original body.

“Stand down!” Su Yu didn’t expect the little qilin to suppress it. Instead, he took some time to clean up the nine Jade Spirit Pearl.

The many heavenly materials and earthly treasures that were planted there, as well as the treasures and resources that were stored there, were all taken out.

In the end, there was only an empty nine jade spiritual pearl.

This spiritual pearl was the eye of the nine-tailed emperor, and it was the most important part of his body.

Its importance was far greater than a tail.

This spiritual pearl had accompanied Su Yu through most of his cultivation life. If it wasn’t necessary, he would never give it up.

But now, he had no other choice!

“Suppress!” He threw the nine jade spiritual pearl over.

As if sensing danger, a circle of pupils appeared on the nine Jade Spirit Pearl. It spun rapidly, as if a living creature was rolling its eyes.

From within the nine Jade Spirit Pearl, it released a mysterious wave light that Su Yu had never noticed before, enveloping the three balls of Dao Fire.

That wave light was extraordinarily powerful. Not only was it not burned through by the dao fire, it even seemed to be suppressing it gently.

Su Yu's eyes flashed with joy as he crazily absorbed the DAO fire.

One by one, two by three..

It was not until the 50th thread that the nine Jade Spirit Pearl finally showed some dimness, as if it could no longer continue.

But it continued to persevere.

When Su Yu successfully absorbed a hundred streaks of fire and completely absorbed the entire ball of Dao Fire, the nine jade spirit pearl finally melted into a ball of emerald-colored spiritual liquid.

Now, there were only two balls of fire left.

However, the power of the last two streaks of fire was more than twice as powerful as before!

In just an instant, Su Yu would be burned to death in body and soul!

Therefore, Su Yu did not have the slightest bit of carelessness, nor did he have the slightest bit of hesitation.

The moment the sixth ball of fire was completely absorbed, he immediately took out the ancestral dragon Yi Yu!

The ancestral dragon Yi Yu was refined from the heart of the female ancestral dragon back then.

After the male ancestral dragon's lifetime of refining, it was no longer the same as before.

In terms of hardness, even the nine jade spirit pearl could not compare to it.

If he had taken out this item from the start, it could at least help Su Yu absorb three balls of Dao fire in succession without being extinguished.

But now, as soon as he took it out, it was roasted by two balls of dao fire with crackling sounds. Its melting speed was even faster than the nine jade spirit pearl.

It was clear how terrifying the power of the DAO fire was!

Su Yu was extremely worried, but he did not relax at all. He made use of all the time he had to absorb the dao fire.

As time passed, the ancestral dragon Yi Yu was melting bit by bit.

When Su Yu absorbed the Seventh Ball of Dao Fire, only the last bit of its outline could be seen.

At this moment, the sky-splitting Patriarch's eyes were wide open, and his breathing was tense and hurried.

The unremarkable human in his eyes had left an indelible impression in his heart.

“Am I going to witness the birth of a new ancient God Nine Dragons?” Sky-rending patriarch murmured, his eyes flashing with an indescribable light.

Seven of the Eight Great Dao Flames had been absorbed, and only one remained!

The last flame would be the most terrifying.

The moment the seventh flame was absorbed, the eighth flame suddenly exploded with four times its original power.

In an instant, only the outline of the ancestral dragon’s feather was left, and it turned into a melted liquid.

It did not even pause for a moment!

The raging flames were about to engulf Su Yu as well.

Su Yu gritted his teeth and took out a bronze board.

That was the stone board that recorded the emperor’s qi-observing technique, and it was given to him by Yun Yazhi.

Within the tablet, there was a mysterious great void Mystic Palace.

However, he had no choice.

The moment the bronze tablet was released, it suppressed the last ball of fire.

However, what shocked Su Yu was that the bronze tablet melted at an extremely fast speed.

It was like a ball of ice that was thrown into boiling water!

Was this a bronze tablet?

Su Yu was shocked. From what he knew, the hardness of this item was not inferior to that of the ancestral Dragon Yiyu.

However, under the eighth fire, it was burned like paper.

Chapter 2446 Risking Everything

He was extremely alarmed, but he didn’t dare to stop and immediately began to absorb the DAO fire.

One strand after another..

It was only the tenth strand, but the bronze plate had already been burned into a liquid.

The last strand of Dao Fire hadn’t even absorbed a tenth of it, and the bronze plate was gone!

What was even more terrifying was that the last strand of dao fire was exceptionally terrifying.

After absorbing a tenth of it, its power had actually doubled!

This time, even heaven splitter patriarch was shocked. “How can this be? I’ve never heard of ancient God Nine Dragons absorbing the eighth ball of Dao Fire Like This!”

If this was the case, then when Su Yu absorbed the last ball of Dao Fire, wouldn't the power of the Dao fire be ten times stronger than it was now, a full forty times stronger than it was at the beginning?

Was... was that still a dao fire that living beings could endure?

Even if ancient god Nine Dragons tried again, he wouldn't succeed.

Sky-rending patriarch couldn't help but look out into the sky and sigh. "It seems that the birth of ancient god Nine Dragons has put the Great Dao of Heaven and earth on guard, and it absolutely won't allow a second ancient god nine dragons to appear."

Retracting his gaze to Su Yu, sky-rending Patriarch's eyes were filled with deep regret. "It's a pity that you were born an era later. Otherwise, you would definitely be the next ancient god Nine Dragons. It's a pity that there are no ifs."

Even the bronze coins had been destroyed, and Su Yu had nothing left to suppress.

"All of you, Go!" He threw away most of the treasures and weapons he had taken out from the nine Jade Spirit Pearl.

This was all he had accumulated in his entire life!

However, the moment he threw them out, those enormous resources were like shadows under the sun, rapidly dissipating.

Su Yu only had enough time to absorb two wisps of dao fire before all of the resources were burned away.

At this point, Su Yu really had nothing.

Other than his own body, there was only the little qilin and the still evolving Xiao Die.

At this moment, Su Yu felt deep despair.

Could it really end here?

Only the last part was missing!

Did the path he had walked his entire life stop at the path of a Dao Master?

The extremely fierce flames pounced over with a bang, wanting to engulf Su Yu and destroy him as a part of the Heavenly Dao.

However, at this moment, nine heaven-shaking dragon roars echoed from the space crack above.

A small, ancient cauldron suddenly flew over.

It spun and descended quickly, forcefully suppressing the incoming dao flames.

"Nine dragons divine cauldron?" Su Yu was overjoyed. He thought that Slayer Xie had already taken it, but it didn't seem to be the case.

It had been nearby until Su Yu was in danger. Then, it suddenly appeared to rescue Su Yu.

The nine dragons divine cauldron was the Dao weapon of the nine dragons ancient god. It was a heaven and earth divine weapon that could be used in the entire absolute beginning realm.

Its appearance successfully suppressed the Dao Fire.

However, the dao fire was too fierce.

Just as it suppressed the Dao Fire, the nine dragons divine cauldron was burned red!

The ancient God's blood in the cauldron boiled at an extremely fast speed and evaporated.

When the divine blood was completely evaporated, the nine dragons divine cauldron would be damaged.

Su Yu didn't dare to hesitate and immediately absorbed the Dao Fire.

In the blink of an eye, he had successfully absorbed eight wisps of Dao Fire. Together with the twelve wisps he had absorbed previously, he had successfully absorbed a total of twenty wisps.

He had already absorbed twenty percent of the eighth Wisp of Dao Fire!

But as expected, its power had doubled.

The ancient God's blood in the nine dragons divine cauldron was almost instantly evaporated.

The nine dragons on the nine dragons divine cauldron also let out dragon roars.

Su Yu couldn't bear it, but he could only endure the pain and continue to absorb.

When he absorbed ten more wisps, the red-hot nine dragons divine cauldron finally showed signs of melting, because the temperature of the fire had doubled again.

In less than ten breaths, the nine dragons divine cauldron would be completely destroyed.

This cauldron had been accompanying him since the beginning of cultivation.

Watching it melt bit by bit, Su Yu felt an indescribable heartache.

The nine dragons divine cauldron had witnessed his rise from humble beginnings. It had witnessed him streaking across the lonely starry sky like a comet. It had witnessed his amazing life.

Could it be that he had to accompany him to perish into dust and disappear into the primeval era?

A strong sense of unwillingness welled up in his heart.

He endured it again and again in his heart. Su Yu pushed the nine dragons divine cauldron away and laughed bitterly in his heart, "Forget it, even if you burn everything, I won't be able to succeed! Go and find your new master!"

Instead of letting it die together with him, he might as well let it go.

However, the nine dragons divine cauldron that he pushed away returned and blocked the remaining dao fire.

Just like how they had met up until now, it had always been silently protecting Su Yu, making a move at his most critical moment until it was also destroyed.

Su Yu's heart was moved, and his blood was boiling.

He recalled the scene when he first entered the martial path, fighting against the heavens and Earth again and again, and fighting against fate.

“Good! We will live and die together, and we will never lower our heads.” Su Yu held the nine dragons divine cauldron in his hand, stepped on the boundless galaxy and universe, and continued to absorb the DAO fire.

Even if it was a dead end in front of him.

He wanted to die standing up.

He wanted to express his unyielding will to the heartless Great Dao and to the unjust fate!

The dao fire was merciless as it surged up and began to melt the nine dragons divine cauldron.

Before long, the man and the cauldron would be buried in the Dao Fire and perish between heaven and earth.

However, at this moment, sky-ripping patriarch was not paying attention. The golden black tortoise in his hand actually broke free from his palm and pounced over.

It joined the nine dragons divine cauldron to suppress the Raging Dao Fire.

“No...” the heaven splitter group wanted to stop it, but it was too late. The fire was so terrifying that even if he approached it, he would be destroyed in an instant.

Apart from heartache, he could only watch as the two ancient god Dao artifacts were burned by the DAO fire.

However, with the addition of the golden black tortoise, the pressure on the nine dragons divine cauldron was greatly reduced, and the signs of melting immediately eased.

However, the two dao artifacts could not hold on for too long.

At most, they would be burned and destroyed in twenty breaths.

Su Yu’s heart trembled. The Golden Xuanwu was not related to him, so there was no need to sacrifice himself to fulfill Su Yu’s wish.

It must have followed the heartless iron constable all year round and understood her intentions, right?

Therefore, when Su Yu was in danger, he sacrificed himself to suppress the DAO Flame.

Su Yu’s eyes welled up with tears.

If the Dao artifacts were willing to sacrifice him, how could he give up?

“Dao Fire! Come!” With a loud roar, Su Yu grabbed one strand after another of the dao fire. He endured the intense pain in his body and crazily absorbed it.

Ten breaths later, the two ancient Divine Dao artifacts could no longer be suppressed and began to melt.

At this time, Su Yu had only absorbed ten strands.

He had only absorbed forty percent of the Eighth Dao fire, and there was still sixty percent left.

Just as the two Dao artifacts were about to be destroyed, a phoenix cry suddenly sounded.

From the crack, a black phoenix the size of an ink-black arm flew over with a shriek.

It proudly stood on the nine dragons divine cauldron and the Golden Black Tortoise, suppressing the DAO fire that was about to leap up.

“Ancient God Nine Netherworld’s Dao Artifact?” Sky Splitter patriarch was moved.

Now, three ancient god Dao artifacts had arrived to help Su Yu absorb the dao fire.

Even when ancient god Nine Dragons had broken through, there was no such formation!

In the spatial fragment, Qin Xian ‘Er’s face was pale. She looked down and murmured, “Little Feng, it’s up to you!”

After saying this, her vision went black and she fainted.

The Three Dao artifacts suppressed the dao fire once more.

Chapter 2447 Reinforcements From All Sides

“Xian ‘er!” Su Yu’s heart was in turmoil, and he gritted his teeth. What reason did he have to give up so easily?

Xian ‘ER’s intentions could not be let down!

Boom --

He once again increased the intensity of his absorption and continued to absorb the DAO fire.

However, when he absorbed ten wisps, the Dao fire that was once again explosively powerful instantly swept away the three ancient Divine Dao weapons.

Raging Flames suddenly pounced over, and within the flames, a will that could burn Su Yu was already born.

At this moment, the temperature was already sixteen times higher than the eight wisps of Dao Fire!

The three dao weapons couldn’t even suppress it!

If they forcefully suppressed it, it would only melt!

The last Wisp of Dao fire was only left with fifty percent.

However, it had already stopped there.

Su Yu looked up at the spatial fragment and apologized in his heart.

He had already tried his best!

However, at the moment when the raging fire pounced over, the world suddenly shone with a bright green light.

A huge jade green eye pushed aside the dark clouds in the world and revealed itself above the nine heavens.

“Uncle Su Yu, I’m Here!” A slightly childish voice sounded.

At the same time, a green light pillar shot out from the huge green eyes and covered the DAO fire.

The dao fire that even the ancient divine dao weapons couldn’t suppress was suppressed by the green light pillar!

Taking this opportunity, the three dao weapons swarmed forward and suppressed the dao fire again.

Su Yu looked into the sky and was confused as to who was calling “Uncle Su Yu”.

However, there was no time to waste. He did not have the time to think too much. At this moment when the situation was reversed, he continued to absorb the DAO fire.

One thread, two threads, three threads!

After Su Yu successfully absorbed a full ten breaths, the dark green light pillar finally could not withstand the ferocious might of the soaring dao fire. With a crack, it shattered.

A miserable groan came from the nine heavens.

A handsome half-man half-demon boy was seen falling from the depths of the sky.

“I’m sorry, Uncle Su Yu. The Heavenly Dao I can control isn’t strong enough,” the boy said apologetically.

Huangfu Yi was able to suppress the fire of the Great Dao by controlling the eye of death of the Heavenly Dao and the Heavenly Dao.

However, the DAO Flames of the eight supreme realms were too terrifying, so Huangfu Yi could only suppress it for a short time.

Su Yu didn’t know who it was, but with his help, only 40% of the last ball of Dao Flames was left.

But this 40% of Dao Flames was twice as powerful.

After the pillar of light broke, the three Dao artifacts were blasted away and could no longer be suppressed.

Su Yu was unwilling. Even a stranger had come to help, so what reason did he have to give up?

However, if the three Dao artifacts couldn’t be suppressed, what other Dao artifacts of the three ancient gods were more powerful?

Suddenly, an idea flashed through Su Yu’s mind, and he suddenly thought of something.

His gaze suddenly turned to some resources that had yet to be disposed of.

A fruit with a broken shell entered his vision.

It was a fruit born from the Indian silver bamboo. After absorbing countless amounts of energy, it finally shattered, revealing a strange stone within the fruit.

Until now, he still didn’t know what that Stone was.

But its weight was incomparable.

Until now, there was still nothing that could bear the weight of that stone.

Only when the outer shell was wrapped would it be as light as a feather.

If there was still something that could suppress the dao fire, then this was the only thing that had a glimmer of hope.

The dao fire was about to pounce. Su Yu did not hesitate. With the mentality of giving it a try, he grabbed the shattered fruit shell and the stone within it and immediately threw it over. "I'm counting on you!"

The fruit shell and the stone were thrown over, and the surging dao fire was actually suppressed!

Su Yu's eyes lit up, and he immediately took the opportunity to absorb the dao fire.

One, two, three..

A total of ten threads, and the broken fruit shell only let out a few cracking sounds before it melted into liquid.

However, the stone that was covered by the fruit shell had yet to break.

Su Yu was overjoyed.

There was only twenty percent of the DAO fire left. If the fruit could suppress it, he would successfully absorb it.

Boom --

The last two wisps of Dao fire that were absorbed exploded with twenty times the previous power.

Under such power, any object that was suppressed before would be melted in a breath's time.

However, the fruit suppressed the dao fire in an extremely calm manner and did not waver in the slightest.

Su Yu was overjoyed. His heart pounded wildly as he quickly absorbed the DAO fire.

Wisps... wisps..

The dao fire was being absorbed at a speed visible to the naked eye. In twenty breaths at most, all of the DAO fire would be absorbed.

And the stone was as steady as ever, showing no signs of being absorbed.

It would definitely succeed!

It would definitely succeed!

Even heaven splitter patriarch held his breath. With the performance of this mysterious stone, it would definitely be able to last until the end!

A new ancient god Nine Dragons was about to be born!

However, when Su Yu absorbed five strands, a sudden change occurred!

An unknown power swept over from the depths of the nine heavens, blasting the stone away.

“What? !” Patriarch Heaven Splitter raised his head to look at Cang Ming, a hint of anger appearing in his eyes. Who Was it that was interfering with Su Yu at such an important moment?

That was the second person to control the eight supreme-being domains since ancient times!

His future was cut off just like that?

Who was so hateful?

Sky-rending patriarch wanted to retrieve the stone, but the stone had already been swept far away by that majestic power. Even if it was retrieved, the raging flames had already burned Su Yu to ashes.

That person who was causing trouble in the dark had cut off Su Yu’s hope of success!

Boom --

The raging flames surged over, about to devour Su Yu.

Sky-rending patriarch gritted his teeth and suddenly let out a long breath. A dim yellow gas quickly covered the dao fire.

The dao fire that even the ancient Divine Dao artifact could not suppress was actually suppressed by the dim yellow gas.

Although it only lasted for two breaths, it only helped Su Yu absorb two wisps of Dao Fire.

Sky-rending Patriarch’s face turned pale, as if he had taken out everything in his body. He looked particularly weak as he clutched his chest and said in a trembling voice, “Kid, there’s only so much that can help you.”

Unfortunately, Su Yu was still unable to succeed.

The outcome was still the same.

Just as the raging fire broke through that breath and surged over again, a delicate shout echoed in the world.

“Petrification!”

A familiar aura, a familiar soul, but a slightly unfamiliar tone.

Su Yu’s heart suddenly palpitated. Only after hearing that voice did he feel a sense of loss.

He almost thought that it was Xia Jingyu who had come.

A redwood woman descended like a fairy. Her peerlessly beautiful face caused the sun and moon to lose their color and the world to lose its light.

It was as if any beautiful thing in the world would lose its light in front of her.

She similarly blew out a breath. A layer of lime-colored air current condensed on the surface of Dao Fire and actually Petrified Dao fire.

“This is all I can help you with.”The red-clothed woman looked at Su Yu with a complicated expression.

Su Yu absorbed the dao fire while also looking at her with a complicated expression.

That woman who looked exactly like Su Yu, Qing Yun!

“Although you are not her, I am satisfied.”Su Yu absorbed the three breaths of Dao Fire. The petrified air current could no longer be suppressed.

Chapter 2448 Ren Zu Descended

Because only 10% of the DAO fire was left, the power was 40 times more terrifying than before.

At this moment, Qing Yun’s petrifying power could not be suppressed and was immediately burned away.

At this point, no one and nothing could stop her.

Su Yu stared at Qing Yun in the light of the fire and sighed deeply.

Was her arrival a consolation to him before he died?

Even though he couldn’t see Xia Jingyu, he could see her face and soul that were exactly the same as hers..

The last wisp of fire carried the will of the Great Dao and was extremely fierce. It vowed to kill the new ancient god Nine Dragons in its cradle.

The power of the DAO fire expanded like an explosion. The flames enveloped billions of galaxies and lit up the entire outer realm.

The darkness of the void was illuminated by the flames until it was dazzling and bright.

Whether it was the western domain’s Sea of constellations or the eastern domain’s eastern bazaar, they all fell into an extremely dazzling sight.

How could a living being be able to withstand such world-destroying Dao Fire?

One could imagine how cruel and ruthless the Great Dao was.

Su Yu smiled bitterly. He was unwilling to accept the destruction.

Heaven splitter patriarch, Qing yun, and Huangfu Yi all cast regretful gazes over.

A genius whose brilliance surpassed tens of thousands of generations had fallen just like that!

Of the eight domains, only less than one percent was left.

What a pity, what a pity!

No matter how many eras passed, such a world-shaking genius would never appear again.

Especially since he was born in the weakest ninth-rate human race.

However, everything was irreparable.

They could only watch as Su Yu was buried bit by bit in the dao fire and completely disappeared from the world.

Huangfu Yi cried out, "I didn't even have the time to tell Uncle My Name!"

Qing Yun let out a long sigh and looked into the distance. "The other me should be very lonely..."

The sky-breaking team sighed, "Such a genius fell just like that. Holy Mountain, you're really ruthless. You've already killed so many unparalleled figures, yet you didn't even spare a junior rookie?"

It was obvious that the mysterious power that sent the stone flying made the heaven splitter patriarch realize something.

At this moment, the entire world was in mourning, and the heavens and earth were in mourning.

They watched as a peerless genius descended the curtain and bid farewell to his era.

However, at this moment.

A pair of giant hands that covered the sky and covered the Sun, and suppressed the universe, came from both ends of the world.

Both hands were cupped, holding Su Yu who had fallen into the dao fire in the palms.

The dao flames that could destroy the outer realms were isolated under their palms.

At the same time, both hands slowly rose up, protecting Su Yu as he flew into the clouds.

Everyone looked up and saw a black-cloaked figure with black hair and black eyes standing tall between heaven and earth.

He stepped on the void and had nine heavens above his head. His figure was so majestic that it spanned half of the outer realms.

Under the sunlight, his projected figure covered the entire western region. The dazzling western region was plunged into darkness.

His body emitted a peerless aura that could topple people.

Sky-ripping progenitor and Qing Yun were shivering. They looked up at his massive body in fear.

"What... What's that?" Sky-ripping progenitor took a deep breath. How many people in the absolute beginning realm had such a terrifying figure and a peerless pressure?

Qing Yun's pupils shrank. She couldn't believe it. "Could it be... Him? Is He still alive?"

A wisp of fear from the bottom of her heart covered her soul.

Countless creatures were looking at the massive shadow that covered the sky.

No one could see its true appearance. They could only see the pair of eyes in the nebula.

That pair of eyes was murky and didn't have any light. However, it still had a supreme aura that looked down on the world.

The heaven-destroying Dao Flame was suppressed by his palm.

Su Yu was held in his palm and protected.

"My race can not be bullied!" He said slowly. His voice was extremely loud as it turned into thousands of Thunderbolts that bombarded the four regions.

The forbidden forest that existed for an era was destroyed by the Thunder.

The many civilizations in the East region divine palace were all destroyed.

The sacred lands of the Southern Region Dragon race were all shattered.

The demons of the northern region wailed as if Doomsday had arrived.

The stars of the western region were shattered, and the slumbering Taotie suddenly woke up. His huge eyes were filled with deep shock and fear. "He's not dead yet!"

The four regions could see a towering figure standing in the center of the world with his foot on the outer region and the eight-star ancient civilization array above his head.

He was like a heavenly pillar, intimidating everyone.

He was warning all creatures in the outer realms not to humiliate their own kind!

Su Yu was a human, and his identity was obvious.

"Human! Ancestor!" Qing Yun clenched her trembling silver teeth in fear and spoke of an existence that sacred mountain called a nightmare.

The strongest ancestor of the last era, ancestor Ren!

He single-handedly slaughtered his way to sacred mountain, massacring eight hundred million miles of chaos and killing three trillion residents of chaos.

He massacred two of the sacred mountain's sons of Heaven and severely injured one of them. His might had shaken the absolute beginning for hundreds of millions of years!

He should have clearly fallen. How could he still be alive?

Under his protection, Su Yu was reborn from the death realm.

He raised his head to look at that incomparably huge and imposing figure. He felt the same human bloodline and his heart was filled with passion.

Ren Zu!

The strongest ancestor of the human race in the past had created an era and created a generation of prosperity for the human race.

He was born as a human and should be the ancestor of the human race!

He should break the shackles of Eternity and open up a world of peace!

“Dao Fire! Come!” Su Yu roared and completely absorbed the last ball of dao fire that contained the destructive will of the Great Dao.

A strong will of unwillingness and anger came from the dark.

It indicated that the Great Dao had failed to kill him!

After the eight balls of Dao Fire were absorbed, the world became clear and returned to its usual tranquility.

However, Su Yu couldn’t calm down!

Dao marks were carved all over his chest.

A trace of dao fire was a trace of dao marks.

An Ordinary Dao master only had 20 dao marks.

However, Su Yu had a total of 800 dao marks!

Those were the dao marks that he had exchanged his life for several times.

“Finally, I succeeded!” Su Yu opened his left eye, and a sharp light shot out of his eyes.

“Dao Marks, open!”

Xiu Xiu Xiu --

A total of 800 dao marks flew out of Su Yu’s chest and surrounded him.

From within the DAO Marks, an incomparably gentle power was released.

Among them, there was the power of the time domain, the power of the space domain, and the power of the other six domains.

The eight types of domain powers were pure and dense, far surpassing the previous ones.

The power of the life domain appeared, and Su Yu’s head and half of his chest immediately recovered.

However, this was only the beginning.

The eight waves of power merged into Su Yu’s body one after another.

His cultivation base of a half-step dao master finally broke through the bottleneck that he had been stuck at for decades, and he stepped into the Supreme Dao Master level.

However, he wasn’t just a dao master.

He had only just entered the initial dao realm.

His cultivation increased at an even faster speed!

Middle stage, late stage, and completion of the initial Dao realm!

Then, like flowing water, he broke through to the initial stage of the forgotten words realm, followed by the middle stage and completion.

And, without any pause, he continued to break through.

Fish-dragon realm, heaven realm, and Grandmaster realm.

It was not until he reached the middle stage of the Grandmaster realm that the speed of his breakthrough finally showed signs of slowing down.

However, the so-called slow was only compared to the extremely fast speed before.

In a few breaths, he broke through to the late stage of the Grandmaster realm and then reached the perfection realm.

Chapter 2449 Final Realm

At this moment, the breakthrough stopped.

However, the eight forces continued to expand in Su Yu's body, pushing his cultivation to the limits of Daoist Huang bit by bit.

After half an incense stick's time.

His Daoist Huang's realm couldn't be any more perfect, but the eight forces still had a bit of surplus.

Finally, his realm was unable to withstand such a majestic force.

The shackles between Great Realms were finally broken.

A boundless profound dao power flowed around Su Yu's body.

Profound Dao power was an absolute power that only dao master Xuan could possess.

Only then did the eight forces gradually fade away and completely fuse into Su Yu's body.

"He reached Dao Master Xuan in one step!" Heaven Splitter Patriarch's eyes were filled with shock. "This is the effect of absorbing the eight Supreme Dao Flames. It's simply unheard of! Back then, ancient god Nine Dragons was only So-so, right?"

Qing Yun's eyes were filled with envy. "How many Dao Masters of the Yellow Dao have experienced countless years, experienced countless obstacles, and obtained countless opportunities before they had the chance to find Dao Master Xuan's opportunity to break through? But Su Yu was able to reach the heavens in one step."

However, thinking back to all the things Su Yu had experienced and the many tribulations he had experienced when he broke through to Dao Master, he felt relieved.

How could he have experienced less than those who had broken through to Dao Master Xuan through normal means?

"As expected of Uncle Su Yu, he has reached Dao Master Xuan in one step!" Huangfu Yi's eyes were filled with admiration. "I really hope that I can have such a day."

However, Su Yu's breakthrough did not stop.

His cultivation had stopped growing, but his dao body was rapidly evolving.

800 dao marks slowly fused into Su Yu's body, carving out 800 invisible meridians in his body.

These were the meridians where the power of the Dao master circulated.

The power of the Dao master was too powerful and ordinary meridians could not withstand it. Only the meridians formed from dao marks could.

An ordinary Xuan Dao master only had around 400 dao marks in his body.

Su Yu had a total of 800 dao marks, which was twice as much as an ordinary Xuan Dao Master.

This meant that at the same level, he could store more and more power of the DAO Master.

In terms of Xuan Dao Power, people at the same level were no match for him.

Following that, his soul underwent a drastic change.

He had also reached the level of Xuan Dao Master, and he was even stronger than an ordinary Xuan Dao Master.

Only then could his breakthrough be considered complete.

Ren Zu slowly put Su Yu down, and without saying a word, he walked towards the horizon.

“Where is Ren zu going?” Huangfu Yi's heart was filled with emotions as he asked.

Su Yu's eyes were filled with deep respect as he stared at Ren Zu's departing back. “He wants to complete his long-cherished wish.”

Ren Zu had long died, but his will was not extinguished.

Many years had passed, and he still carried on the will he had when he was alive and destroyed the sacred mountain.

Now, he should be heading towards the Sacred Mountain, right?

Gradually, a thin layer of mist condensed behind Ren Zu and enveloped his figure, disappearing from the sight of the common people bit by bit.

At this time, Su Yu withdrew his gaze and bowed to Huangfu Yi, sky-splitting patriarch, and Qing Yun. “The three of you have helped me with all your strength during my great disaster. I will repay you in the future!”

Without the assistance of the three of them, Su Yu should have been buried in the dao fire at this moment.

Sky-splitting patriarch laughed and no longer looked down on Su Yu. He looked at Su Yu as if they were equals. “It is my honor to be able to witness the birth of a master of the eight domains. It doesn't matter whether I repay you or not.”

Qing Yun turned around coldly and walked to the palace without looking back. She said coldly, “You don't have to repay me. Just think of it as doing a good deed for the other me.”

She was referring to Xia Jingyu.

Su Yu had a complicated look in his eyes. He and Qing Yun were supposed to be enemies.

He didn't expect that Qing Yun would be the one to help him in a life-and-death situation.

He looked at the ten-year-old boy.

Although Su Yu was in danger at that time, it wasn't hard to sense that this boy was manipulating the Heavenly Dao.

When he saw the emerald-colored eyeball in his left eye, Su Yu immediately recognized it and asked in surprise, "What's Your Name?"

"Huangfu Yi," he smiled shyly and looked at Su Yu with admiration.

Su Yu had mixed feelings. He walked up and patted his head. "You're So Big in the blink of an eye! How are your father and mother?"

Huangfu's surname was the eye of death of the Heavenly Dao in his left eye. How could he not know who the child in front of him was?

"Thank you for your concern, uncle Su Yu. Father and mother are both very well and miss you very much," Huangfu Yi said obediently.

Su Yu nodded and looked at the eye of death of the Heavenly Dao in his left eye. He said, "It's fate. It's your turn to obtain the eye of death of the Heavenly Dao."

He had obtained the nine Jade Spirit Pearl for a hundred years and had yet to grasp its use.

Huangfu Yi happened to be in the midst of it. While he was still in his mother's womb, Su Yu had injected the other Heavenly Dao Eye of death into his womb.

Due to coincidences, this Heavenly Dao Eye of death became a part of Huangfu Yi's body and was able to unleash its true power -- controlling the Heavenly Dao.

A bitter smile flashed across Su Yu's lips.

However, there was only a trace of helplessness and no remains.

There were so many treasures in the world. How could he obtain all of them by himself?

Moreover, that nine Jade Spirit Pearl had helped him suppress the dao fire in the end and used it on the right path.

Otherwise, he might not have been able to successfully survive the calamity.

"Uncle Su Yu, why did you only open your left eye?" Huangfu Yi looked at Su Yu curiously and realized that he had only opened his left eye, but his right eye was tightly shut.

Su Yu shook his head and said meaningfully, "The secrets of the heavens must not be revealed."

Finally, Su Yu looked at the place where he had made his breakthrough.

A ball of liquid the size of a head was suspended in midair.

These were all treasures that had been melted by the DAO fire. When they melted into liquid and dripped together, they formed a large ball of melted liquid in front of him.

Among them were the Sovereign Dragon Sword, the sin sword, the heaven-destroying staff, and other magical treasures, not to mention the ancestral dragon feather, the bronze plate, the Heavenly Dao Eye of death, and other unparalleled treasures.

Su Yu's life's accumulation, except for the nine dragons divine cauldron and the stone of unknown origin, had all melted.

Looking at the ball of liquid in front of him, he could not help but sigh.

In order to break through to Dao master, he could be said to have nothing.

It was as if he could see through Su Yu's thoughts, the heaven-splitting patriarch said, "It's good to lose it. I saw that you cultivated too much and did not excel in it. Although cultivating in a short period of time can greatly increase your strength, far surpassing those of the same level, in the long run, it will drag down your cultivation and lower you to the bottom."

Su Yu humbly accepted his advice. "Thank you for your guidance, senior."

Heaven splitter patriarch was someone who had experienced it before. What he experienced and what he saw were all valuable experiences, so Su Yu naturally carefully pondered over them.

"Carefully study the eight great domains. Even if your future achievements aren't as good as ancient god Nine Dragons', they aren't far off. There's no need to waste your energy on his path." Heaven splitter patriarch pointed out a clear path for Su Yu.

"Yes." Su Yu nodded.

Since he had made a breakthrough, he couldn't stay here any longer. He was prepared to leave.

"Uncle Su Yu, do you want to meet my parents?" Huangfu Yi asked somewhat excitedly.

Su Yu shook his head, his gaze gradually turning cold. "Uncle has some matters that need to be dealt with, and I have to deal with them as well. When I leave, I'll definitely pay a visit to your parents."

Why did he disregard everything and put himself in a place of death before coming back to life?

It was to kill a person who deserved to die!

If he did not die, Su Yu would never be able to forgive himself!

Chapter 2450 Acquaintances

"Oh, I'll wait for you," Huangfu Yi said obediently.

Su Yu nodded and briefly tidied up the scene.

First, he retrieved the stone that had been sent flying. When suppressing the DAO fire, one could already see how exceptional it was.

In terms of hardness, even the dao artifacts of ancient gods couldn't compare.

Moreover, he believed that this stone wasn't just hard. Its mysteries were still waiting for Su Yu to excavate.

The next step was to take back the nine dragons divine cauldron.

Fortunately, when the nine dragons divine cauldron was about to melt, two ancient Divine Dao weapons, the Golden Black Tortoise and the Black Phoenix, helped to share the pressure.

Otherwise, the nine dragons divine cauldron would have been destroyed.

"I survived a great disaster, and I won't let you down. In the future, I will make you shine again." Su Yu controlled the eight supreme domains and once again held the nine dragons divine cauldron, he could feel that there were many differences on the nine dragons divine cauldron that he had never noticed before.

He believed that that was where the true power of the nine dragons divine cauldron lay.

Next was the liquid that had fused with Su Yu's many divine weapons.

It was strange to say that the dao fire had already retreated. After such a long time, the liquid had not cooled and hardened.

Could it be that there were too many huge treasures fused together?

After thinking for a while, Su Yu temporarily put it away.

Finally, it was the dying little qilin and the little butterfly in the cocoon.

"You've worked hard." Su Yu touched the Little Qilin's head.

The little qilin had a bitter expression. "I don't even have a home anymore."

It had always been in the nine Jade Spirit Pearl and had long regarded that place as its home.

Su Yu smiled and did not say anything. He clenched his five fingers.

Eight different colored lights intersected at his fingertips, crisscrossing into an eight-colored bead.

Not only did the bead create its own space, it also contained the eight great domains of heaven and earth.

Under the nourishment of the eight domains, various life forms were born at a speed visible to the naked eye.

Birds, beasts, natural treasures, mountains, forests, grasslands, spirit veins, minerals..

Everything was available.

In the time it takes for an incense stick to burn, a three-star civilization was formed.

Seeing this scene, the sky-splitting patriarch was amazed. "This is the master of the eight domains. With one move, he can create the Heavenly Dao and create a three-star civilization."

In an ordinary cave world, the creatures could only be weak mortals.

This was because the creator could not control the soul domain, and could not create powerful living beings.

Su Yu was different. The soul domain in his hand could completely create high-grade souls out of thin air.

When the other domains intersected, it created high-grade environments such as spirit vein concentrates, natural treasures, and so on.

This was something that the other dao masters could not do no matter what.

The little qilin grew fond of it, and in a flash, it brought the little butterfly's cocoon into it.

Su Yu opened his mouth and inhaled, swallowing the eight-colored pearl into his stomach.

Suddenly, Su Yu's gaze shifted to the pile of remaining resources in the nine-colored pearl.

A damaged lotus-shaped object caught Su Yu's attention.

That was the nightmare crossing Lotus seat that he had found in the ancient glazed cave. It was something that he had found together with the heartless iron catcher. Their goal was to stop the golden-eyed Prince's conspiracy.

The Nightmare Lotus throne was still there, and the beauty was nowhere to be found.

A trace of sadness echoed in his eyes.

Sighing silently, he flicked his finger, and the nightmare lotus throne flew into the eight-colored pearl in his body.

Apart from that, there was also the evil daughter's soul crystal core.

It was the only thing that could save Yun Yazhi, so it had to be kept as well.

The rest was no longer important.

"The two of you will take your leave." Su Yu cupped his hands toward sky-splitting patriarch and Huangfu Yi. Without any movement under his feet, he disappeared from where he was.

The space where Su Yu was also disappeared.

That was his spatial domain. After mastering it, he could cross one-tenth of the outer realm with a single step.

Although it was not as exaggerated as the ancestral Dragon Yiyu, he could cross an entire domain with a single step.

However, the advantage was that he did not need to rely on any external objects. With just a thought from Su Yu's elemental thought, he could complete it with the help of the Great Dao of Heaven and earth.

Of course, Su Yu did not leave this domain with a single step.

Instead, he appeared in the space fragment above his head.

After experiencing ren Zu's roar, the forbidden forest was completely destroyed, let alone a mere piece of shattered space.

That space turned into thousands of tiny spaces and floated in all directions like flowing clouds.

Qin Xian 'er was in one of the small spaces. If one wanted to find her, it was like finding a needle in a haystack.

However, it was no longer difficult for the current Su Yu.

“Fate fluctuates!” An enormous red moon appeared behind Su Yu.

Under the illumination of the Moon, the fate of all things in the world appeared in his sight with different colors.

There were two long lines of fate that were closely connected to Su Yu.

Moreover, they came from the same direction.

“Two?” While Su Yu was thinking, a starry sky appeared under his feet.

That was the space domain.

In one night, he appeared at the end of the two lines of fate.

Two beautiful figures entered his sight.

One of the beautiful figures was sleeping while the other stood upright in front of the sleeping figure, staring straight at Su Yu.

“So it’s you.” Su Yu looked at the masked man in front of him with his left eye.

An Eye that blotted out the sky and covered the sun appeared behind Su Yu.

This was his soul domain.

Under the gaze of his soul domain, Su Yu could easily see through the soul that was hidden under it.

The veiled woman took off her bamboo hat. Her crystal-clear eyes were moist as she gazed deeply at Su Yu.

Her Vermillion Lips parted slightly, as if she was excited and happy. “Su Yu!”

“Long time no see.” Su Yu smiled lightly. “Luo Xueyi.”

The woman in front of him was the Holy Maiden of the witch clan, Luo xueyi, who had been left behind in the ancient divine realm.

Daoist master Hong Chen had taken over her body and left the cage of Taotie. They had never seen each other again.

Half a year had passed in a hurry. They had never thought that they would finally meet again.

Just as Daoist master Hong Chen had said when he had left back then, they would meet again one day.

When she heard the words ‘Luo Xueyi’, her shoulders trembled. She was indescribably happy.

“How have you been all these years?”

“I’ve been alright.” Su Yu smiled and looked at her. “How About You?”

“I’m very well. With the help of Daoist red dust, I’ve been cultivating in the glazed tile civilization,” Luo xueyi said.

Su Yu was slightly startled, but he immediately felt relieved. “So, we used to be so close.”

The first thing he thought of was the woman of Destiny who had brought a dream to the palace of light.

He didn’t expect it to be Luo xueyi.

“You...” Luo Xueyi was surprised.

Su Yu smiled and briefly recounted his experience in the glazed era civilization, which made Luo xueyi both excited and regretful.

All those years, she had been cultivating in seclusion. She didn’t expect that she would miss su Yu.

“I still have something to deal with. If there’s a chance, let’s meet again.” Su Yu squatted down and picked up the unconscious Xian ‘er.

Looking at her actions, Luo Xueyi was stunned. “She is?”

“My wife,” Su Yu said slowly.

Luo Xueyi was stunned, and a bitter smile appeared on the corner of her mouth.

It was within her expectations.

What kind of woman would be willing to follow Su Yu into the Forbidden Forest?

It must be more than just a friend, right?

To think that she was the woman who called herself Su Yu in front of Qin Xian ‘er.

Thinking of this, her ears turned red and her face turned red.
