

Nine-Dragon 2461

Chapter 2461 The Carefree Emperor

The group of Dao Masters followed his gaze and saw that the person Su Yu was referring to was the burly middle-aged man.

He and Yin Yi were both disciples of the Deputy Hall Master and had been cultivating with him for a long time.

Many pairs of eyes were looking at Su Yu and the disciple in confusion.

“Could it be that Zhao Tianlin has offended Su Yu as well?”

“I think Su Yu is truly here to find trouble. After killing Yin Yu, he found an excuse to target Zhao Tianlin.”

“Su Yu is really going too far. Does he think that just because he is the successor of ancient God Nine Dragons, he can do as he pleases?”

“If the Hall Master hadn’t gone out and not returned for so many years, how could he have allowed him to cause trouble?”

Su Yu’s attitude of causing trouble once more caused everyone to be dissatisfied.

However, they soon realized that something was wrong.

After being questioned by Su Yu, not only was Zhao Tianlin not nervous and uneasy, he even had a strange smile on his face.

With the strength that Su Yu had displayed just now, how could a normal person have such a reaction?

“Hehe...”with a strange laugh, Zhao Tianlin walked towards Su Yu with his hands behind his back.

Amidst the strange laugh, he was like a golden cicada as his skin rapidly peeled off.

With a rustling sound, a whole piece of human skin fell off his body.

A complete stranger was revealed.

His body was slender, his face was feminine, and the corners of his mouth curled into a smile that was not a smile.

The group of Xuan Dao Masters were stunned. They did not recognize the feminine man in front of them at all.

However, Su Yu’s pupils constricted little by little, and her expression was extremely grave.

If others did not recognize him, how could she not recognize the person in front of her?

“Carefree Emperor!”Su Yu enunciated each word clearly. “Why am I not surprised at all?”

How could he forget that a few years ago, there was a piece of news that said that an incomparably tyrannical existence had barged into the outer realm.

With a single kick, he had destroyed a five-star civilization.

Su Yu was well aware of who that person was.

Now that Yin Yu was inexplicably targeting him, there must be someone instigating him from behind.

He was not surprised that the last person to appear was the carefree emperor.

And the thread of fate in Su Yu's hand was also connected to the carefree emperor.

"Little Bastard, it's good that you're mentally prepared." The carefree emperor's gentleness was filled with ruthlessness.

How much effort did he waste to chase after Su Yu? How much time did he spend?

"For you, I didn't hesitate to lure you out." The carefree emperor sneered. An incomparably tyrannical power surged out from his body.

That power was still the power of the Xuan Dao.

However, its density far exceeded that of the deputy hallmaster, almost reaching the limit of the Xuan Dao Master.

In front of him, the entire Xuan Dao Hall appeared to be insignificant.

The Xuan Dao Masters' hearts trembled, and they retreated in fear.

Even the deputy hallmaster, who had been suppressed by the nine dragons divine cauldron, felt an abnormally terrifying pressure from the outside world. He immediately stopped struggling and kept quiet.

In the Mystic Dao Palace, the disciples also kept quiet. They didn't even dare to breathe under that invincible pressure.

The entire world seemed to have fallen into a still space.

Only Su Yu's expression remained the same, he said indifferently, "Don't flatter yourself. How are you luring me out? It's a scheme to let people test my strength, right? After all, I've killed someone once. Of course, we have to be careful."

The first clone of the carefree emperor sounded nice. He really wanted to attack Su Yu directly. Why would he need to go through so much trouble to get Yin Fu to attack while he did nothing?

It was obvious that he was afraid that Su Yu would once again activate the mortal embryo Saint Body.

Thus, he had been observing in secret.

The Many Xuan Dao Masters were terrified when they heard this.

From what Su Yu said, he had actually killed the carefree emperor?

That was the son of Heaven of the Sacred Mountain!

“Wait, could it be that he is a mortal?” Someone finally woke up.

“The only person who can kill the son of Heaven of the Sacred Mountain is a mortal. This human is a mortal!”

All the Dao Masters sucked in a breath of cold air. The shock in their hearts was no less than knowing that the effeminate man in front of them was the clone of the son of Heaven of the sacred mountain.

The teasing expression on the effeminate man’s face faded a little. His originally gloomy eyes narrowed and became even more sinister. “Little Bastard, you think too highly of yourself. Why would I be afraid of You?”

The Aura on his body grew stronger and stronger, as if it was about to flare up.

Su Yu was unafraid and said coldly, “Is that so? Mortal Sacred Body, open!”

Hearing these four words, the carefree emperor’s expression changed abruptly. The Xuan Dao Energy released from his body was suddenly withdrawn and condensed into a defense.

At the same time, he took out a dao artifact and activated it urgently. It circled in front of him and acted as a defense.

Not only that, but he also retreated out of the Xuan Dao Palace!

He looked at Su Yu warily with a grave expression.

However, Su Yu merely shouted and stopped moving. He stared at him with a contemptuous gaze. “Look at how scared you are!”

Only then did the carefree genius realize that he had been played. His face turned green and then red.

From his series of actions, it could be seen that he was extremely afraid of Su Yu’s mortal body.

“You’re Dead!” The Carefree Emperor was furious. The son of Heaven of the sacred mountain was actually scared to this extent!

However, the carefree emperor also analyzed from the side that Su Yu indeed did not have the ability to activate the mortal body.

If that was the case, what was there to be afraid of Su Yu for?

“Tianzi controls the universe!” Xiaoyao tianzi chose to make his move. He raised his right hand and raised it toward the sky. The entire sky instantly darkened.

A blood-red moon rose slowly and appeared behind Xiaoyao Tianzi.

That was his domain, tianzi controls the universe.

Under the illumination of the blood-red moonlight, everything in the world melted into blood.

Daoist master thirty Xuan, who had escaped to a distance, was no exception. As he resisted desperately, Daoist master Xuan's body continued to melt.

A series of miserable groans and cries of pain reverberated in the sky above Xuan Dao Palace.

The 180 ancient green mountains melted like spring snow.

“Destroy them all!” Carefree Emperor roared wantonly.

His might alone could suppress the entire outer realm, and his ferocity was unparalleled.

Su Yu's body was also constantly emitting green smoke under the blood light.

Cold stars flickered in his eyes. He opened his five fingers, and eight great domains appeared behind him at the same time.

The eight supreme domains weaved together to form a vast galaxy.

The picture shot out eight-colored divine light that illuminated the sky and Earth, resisting the blood-colored moonlight that enveloped it.

“The eight great domains have thousands of DAOS!” Su Yu grabbed at the sky with his five fingers.

Immediately, the picture of the eight great domains merging together was like a flowing galaxy that went up against the sky.

With a rumbling sound, the two domains collided and intertwined.

Chi Chi --

The blood-colored moonlight was indeed extraordinary, close to the level of a yuan level domain.

However, how could it be invited when the eight domains were stacked together?

The galaxy instantly broke through the blood-colored moonlight's blockade and swallowed the Blood Moon.

Kacha --

Accompanied by a series of Kacha Sounds, the blood moon rapidly dissipated at a speed visible to the naked eye.

The carefree emperor frowned. “You are just an ant. You have cultivated a little, but that's it.”

He stretched out two fingers and snapped them.

At that moment, there was a sudden explosion.

Chapter 2462 Destruction Of The Great Dao

It sounded like heavenly thunder, but the power of the Thunder was hundreds of times stronger than the Heavenly Thunder.

The eight great domains were instantly shattered and returned to their original forms.

Many Xuan Dao Masters looked up, their pupils constricting.

They saw the void above their heads split apart like clouds and the moon, revealing dense chains.

One wrapped around the other, covering the sky.

Those chains were familiar to all the dao masters present. They were the Heavenly Dao.

The entire world existed under the Order of the Heavenly Dao.

However, under normal circumstances, the Heavenly Dao could not be seen at all.

Only someone like the Carefree Heaven's son could open up the fog and make the Heavenly Dao manifest.

"No Wonder Yin Fu made a false oath to the heavens, but was able to deceive the heavens and not be punished by the Heavenly Dao. So, it was the Carefree Heaven's son who secretly helped him." Finally, someone understood that what Su Yu said was true.

With the Sacred Mountain Emperor secretly controlling the Heavenly Dao, even if yin fu made 11000 false oaths, he would not be punished by the Heavenly Dao.

"Ten Thousand Dao devours the body!" The carefree emperor took a deep breath and crossed his arms in front of his chest. He spoke a mysterious language that even Su Yu did not understand.

The countless great dao chains at the end of the sky wriggled like long snakes.

With sizzling sounds, the Great Dao chains turned into pitch-black light and smashed down.

Each one was comparable to a full-strength attack from Dao Master Xuan.

At this moment, there were more than a thousand great dao chains smashing down.

Who in the outer realms could resist such an attack?

Su Yu's gaze focused. He stepped on the eight great paragon domains and not only did he not retreat, he faced the difficulties head-on and fought against the thousands of Great Dao.

The eight supreme-being domains also seemed to sense the pressure of the thousand great daos as they continued to circulate.

Time, space, soul, life, death, Fate, Samsara, and destiny, the eight strongest domains in the world, all burst forth with a heaven-covering divine light.

Looking from afar, Su Yu transformed into an eight-colored sharp arrow as he broke through the pressure of the thousand great daos.

"So what if it's the Great Dao? It's aiding the wicked and should be destroyed!" Su Yu roared as the sharp arrow he transformed into collided with the sharp needles of the Great Dao that swept down.

Hong --

The sky-shaking sound swept in all directions, shattering the 180 green mountains that had not melted yet.

Everyone looked up at the sky in shock. They saw that the Great Dao and the eight supreme-being domains were frozen in mid-air, and no one could do anything to the other.

“He can actually fight against the Emperor’s Avatar!” Many Xuan Dao Masters cried out in shock. They finally believed that Su Yu had once said that he could destroy the emperor’s avatar.

Carefree emperor snorted coldly, “Only this much ability?”

After saying that, he pointed one hand to the sky and the other to the ground, “In the chaotic world, only I am Supreme!”

Rumble --

At the top of the sky, tens of thousands of great dao chains fell like a violent storm.

The entire world let out a whimper, as if it could not bear the pressure of so many great dao.

Before the tens of thousands of great dao chains fell, the entire Xuan Dao Palace started to fall apart, turning into pieces of shattered space. Like fallen leaves in the waves, they were scattered in all directions and disappeared without a trace.

Su Yu felt great pressure, but he was not afraid.

“Divine Cauldron, come!”

Roar --

Nine heaven-shaking dragon roars tore through tens of thousands of time and space, roaring as they swept over.

The nine dragons divine cauldron circled upwards, giving up on suppressing the deputy hall master and returning to Su Yu’s palm print.

Su Yu did not say a word. He connected the seals on the nine dragons divine cauldron and shouted, “Suppress the heaven and suppress the Earth! Go!”

The nine dragons divine cauldron hummed and shook violently, turning into a huge cauldron. Under the support of the eight great domains, it went against the heaven and suppressed tens of thousands of daos.

Bang Bang Bang --

Countless explosions sounded like world-destroying thunder that could split the heavens and earth apart.

The nine dragons divine cauldron was unrivalled. It flew up into the sky and crushed the chains of the Great Dao, shattering them into pieces and falling into the human world.

The Great Dao was damaged and the world was in order.

The flowers, plants, and trees in the entire outer realm began to wither without any warning.

The endless spirit mines and mountains were all shrinking in a short period of time.

The four seasons in the world were out of whack. A moment ago, it was still winter, but in the blink of an eye, the sun was scorching.

The warriors who could feel it the most clearly were the ones who needed all kinds of energy for their cultivation. It was as if a huge gap had appeared in the world, and all the energy had been devoured.

One scene after another, as more and more chains of the Great Dao were crushed, the disorder of the world became more and more serious.

When the carefree emperor saw that he couldn't suppress a mere ant, he was extremely furious. "Great Dao of the heavens, listen to my command and destroy the Defiant Emperor!"

Hualala --

All the chains of the Great Dao in the sky fell at this moment!

Many Xuan Dao Masters looked at this scene and their hearts were in their throats.

How was this still a battle.

It was clearly Su Yu alone against the entire Heavenly Dao!

How could Su Yu resist the endless chains of the Heavenly Dao?

"Ant, accept your fate. The Emperor wants you to die, you won't live for Long!" The Carefree Emperor's arms summoned the Heavenly Dao to destroy Su Yu.

Seeing that he was about to be crushed by the collapsing Heavenly Dao, Su Yu's eyes were filled with a rebellious intent.

"I have never believed in the so-called fate in my life. Fate can be changed!" Su Yu shouted, revealing the image of the hearts of all the cultivators in the world. "The lives of the cultivators of my generation are mine, not the heavens!"

While shouting, Su Yu took out the fruit stone of the Indian silver bamboo.

"Go!" The stone in Su Yu's hand turned into a ray of light and rushed into the ten thousand paths.

All the great paths that were hit by the stone were strangely absorbed by the stone, leaving no residue.

As he swept through, a hundred great paths were strangely absorbed.

When he saw this object, the expression of the carefree emperor changed drastically. "You still have this thing that doesn't belong to you!"

Obviously, this item was completely out of the carefree emperor's expectations.

“Myriad streams return to the sea!” Su Yu seized every opportunity available to him and used his spatial domain to forcefully gather the Great Dao chains that fell from the sky above the stone.

In an instant, thousands of great dao chains were absorbed by the stone.

No matter how many great dao chains fell, they couldn’t escape the absorption of the stone.

In a short span of ten breaths, the Great Dao of the heavens had disappeared without a trace, completely devoured.

And the result of losing the Great Dao in the outer realms was... destruction!

Without the Great Dao in the outer realms, without the maintenance of order, they were unable to withstand the pressure from the eight-star civilization’s array formation.

The vast and boundless ancient array rumbled down at a speed visible to the naked eye.

Once it completely fell, it would crush all the civilizations in the void into dust.

At that time, the outer realm would truly be a lifeless land of death.

Everyone Su Yu was familiar with in this place would die and turn into dust.

Su Yu’s gaze turned cold as he shouted, “Unify the eight directions and rebuild the Heavenly Dao!”

Hualala --

The eight great domains soared to the highest point of the heavens and earth, transforming into a vast milky way that enveloped every corner of the outer realm.

The eight supreme domains were the most important of the great daos.

All worlds were built on the basis of the eight supreme daos, and the rest of the great daos were supplementary.

Chapter 2463 Opening Of The Ancient Tomb

The eight supreme-being domains soared into the sky, each transforming into a giant pillar that connected the heaven and earth, supporting a corner of the Heaven and earth.

There was a pillar of light in all directions.

The collapsing ancient formation was finally successfully withstood after a series of violent shaking.

Although the destruction of the other great daos still caused the outer realm to lose its balance, it could still be maintained for the time being and would not be destroyed.

The battle between the two had already reached the level of destruction of the outer realm, shocking the Xuan Dao Master who was watching the battle to the point that his heart was about to burst.

This was Su Yu’s true strength.

When he crushed the Deputy Hall master, the other party did not even use his full strength, right?

The eyes of the carefree emperor flickered. He had never thought that Su Yu’s improvement would be so fast.

Last time, when the second clone attacked, Su Yu, who did not have a mortal body saint physique, was worse than an ant and could be killed with just a glance.

But Now?

He was so powerful that he could compete with him.

“Ant, it’s too early to be happy. I was just warming up with you!”The carefree emperor opened his mouth and spat out a mouthful of nine-colored blood, which condensed into a nine-colored long ruler in the air.

The long ruler gave off a terrifying power that was far greater than the nine dragons divine cauldron.

The moment the nine-colored long ruler appeared, the eight supreme-being domains supporting the outer realm all trembled.

Even the Nine Dragons Divine Cauldron was restless.

The nine dragons on it also had a sense of fear for the first time as they wailed in unison.

At the same time, the entire outer realm was shaking violently.

Civilizations were jumping up and down like dust and sand in an earthquake.

Mountains collapsed and the earth cracked. It was like the end of the world in the four regions.

Su Yu stared at the nine-colored ruler. His heart was beating wildly, and he felt fear from the bottom of his heart.

What was that?

“For you, I did not hesitate to use the essence of the emperor’s ruler to refine a replica of the emperor’s ruler for me, just in case.”The carefree emperor held the replica of the Emperor’s ruler in his hand, he mocked, “If you have a mortal body, you can still fight for a bit. Since you don’t have one, HMPH, then you can say goodbye to this world forever!”

In the series of battles just now, why did the carefree emperor not take out the ruler of Heaven from the start?

Because he had been secretly testing whether Su Yu really could not use the mortal body.

After a series of battles, he was certain that Su Yu’s oil lamp had already withered and could no longer use the mortal embryo saint body. Just now, he had used his trump card to exterminate Su Yu.

“Go to hell!”The carefree son of Heaven held the emperor ruler in his hand and slashed down from the sky.

Su Yu saw with his own eyes that the entire outer realm was split open by a ruler.

At the instant that it was split open, through the crack, Su Yu could faintly see a huge lighthouse that was incomparably bright, illuminating the great world that he had never seen before.

Just a foot was enough to split apart the outer realm.

Su Yu was only a Xuan Dao Master. How could he block this foot?

At the critical moment, Su Yu gritted his teeth. The river of stars beneath his feet was like a waterfall, instantly sending him flying back one-tenth of the region.

However, even though he had escaped so far away, he was still under that one-foot attack.

He had no choice but to retreat ten times in a row. Only when he reached the southernmost region of the southern region did he manage to barely avoid the power of the Emperor's foot.

A huge crack that ran through the entire southern region appeared before Su Yu's eyes.

He was at the end of the crack.

If he had retreated a little later, he would have been sliced into pieces.

"Hehe, don't Run!" The carefree emperor was separated by a region. He held the emperor's ruler in his hand and sneered, "The game has just begun!"

Shua --

Carefree son of Heaven rushed over. His speed was no slower than Su Yu, who had mastered the space domain.

In just one night, he had closed one-tenth of the distance.

Su Yu didn't dare to be careless. He quickly retreated and pulled away.

Almost at the moment he retreated, the ruler of Heaven spoke again.

Another region was cut open. The end of the crack almost swallowed Su Yu.

The two chased each other in all directions in the outer realm.

One huge crack after another appeared. Looking Up, the outer realm looked like a torn sack.

From the depths of Heaven and earth, creaking sounds could be heard.

The eight pillars of light could still support the outer realm, but the outer realm itself was cut into pieces by the ruler of Heaven and was about to be destroyed.

The two chased after the world, and several months passed in the blink of an eye.

The entire outer realm fell into extreme turmoil.

Fortunately, because of the appearance of a large number of cracks, the ancient formation that sealed the outer realm had a large number of holes. This made countless experts ecstatic, and they did their best to bring the entire civilization out of the outer realm and successfully infiltrate the eight-star civilization.

To them, the battle between Su Yu and the carefree emperor was not a disaster. Instead, it was a great opportunity that was hard to come by.

Without the appearance of this large number of cracks, they would not have been able to wait for the opportunity to enter the eight-star civilization for several lifetimes.

For a time, a large-scale migration occurred.

And the battle between Su Yu and the carefree emperor continued.

From the looks of it, the outer realm would definitely be destroyed!

“Su Yu, Don’t run anymore, it’s useless.”The carefree emperor chased after him and said coldly, “If I don’t kill you, I Won’t stop. Even if you run into an eight star civilization, it won’t be of any use.”

Su Yu’s eyes were filled with an intense cold light, and the river of stars below his feet swirled.

When he reappeared, he appeared in front of an evil cemetery in the eastern region.

Evil Sovereign Cemetery!

After the evil Slayer had taken away most of the evil souls in the mausoleum, the evil aura was much weaker.

However, the existence of the evil ancestor’s cenotaph still made the evil Aura Wanton.

With the evil Slayer’s ability, he had only taken away the remnant souls other than the four ancient gods’cenotaph. The restrictions of the ancient gods’cenotaph were too powerful, so he could do nothing about it.

Su Yu flew to the wicked sovereign’s tomb, and the eight domains arrived together, breaking the restrictions of the four ancient gods’cenotaph.

Then, with a flick of his finger, the four ancient tombs exploded.

Su Yu had already obtained a fragment of an ancient god’s bone from ancient god Jin Xuan’s tomb, so it was empty inside.

The tombs of ancient god Wicked Sovereign, ancient god Golden Wing, and ancient god demon sovereign all had corresponding burial items.

Ancient God Evil Venerable’s was a crown filled with evil energy.

It was the crown that ancient god Evil Venerable wore when he was alive, and it contained the evil energy he had when he was alive.

And in ancient god Golden Wing’s tomb was the remains of a flying bird.

This item was ancient god Golden Wing’s favorite spiritual pet when he was alive. As a substitute, it was buried in ancient god Golden Wing’s tomb.

In the final ancient god Demon Venerable’s tomb lay a broken demon sword.

Although the demon sword wasn’t an ancient Demon God’s Dao artifact, it was still something that he used all year round. It contained the unrivaled divine might of the ancient demon god.

“Rise!”Su Yu grabbed at the air, and the three items flew into his palm.

He first placed the evil sovereign crown near the tomb and concealed its aura before continuing to retreat.

When carefree emperor caught up and passed by the evil sovereign tomb, Su Yu suddenly activated it.

Chapter 2464 The Destruction Of The Three Ancestors

“Crown of evil sovereign, explode!”

How shocking was the power of an ancient God’s crown self-destruction?

Boundless evil energy suddenly exploded with the power to destroy the entire eastern region.

Carefree Emperor raised his ruler to block.

The powerful nine-colored light swept away most of the evil energy, but some of it still corroded his body.

“Ah!”

With a miserable groan, the body of the carefree emperor instantly turned into a bloody mess, and even a part of his arm was corroded.

“Su! Yu!”The carefree emperor clutched his broken arm, recovering as he chased after Su Yu. A strong killing intent shot out from his eyes.

Su Yu seemed to have heard it, and without thinking, he released the remains of the Golden Bird in his hand.

At the same time, he used his soul domain to create a soul in the remains.

Chirp --

With a sharp bone chirp, the bird carcass traveled at an unbelievable speed. In a breath’s time, it crossed an entire domain and arrived in front of the carefree emperor.

The sharp beak landed on the carefree emperor’s head.

The carefree emperor was prepared and used the emperor ruler to block it.

Ding --

With a light crack, the emperor ruler was cracked by the bird carcass!

The Carefree Emperor was heartbroken, and his facial features were twisted with anger. “Go to hell!”

The emperor ruler slashed down instantly, crushing the bird carcass that was about to peck at him again.

“Ant, Die!”The emperor ruler slashed down again, creating a long crack that went straight to Su Yu.

Su Yu didn’t even turn his head. He held the broken devil sword in his hand and slashed out in the opposite direction.

Instantly, the Sky Demon roared, and a black crescent-moon demon blade passed through the entire region.

The crack on the ruler of heaven and the Demon Blade merged together. The two annihilated each other, and the aura that erupted shook the unprepared Xiaoyao emperor until his entire body cracked.

Nine-colored blood flowed out of the wound.

Xiaoyao Emperor's expression was as dark as water. "Damn the outer realm, damn the ancient gods!"

The outer space was a magical place with too many unexplainable secrets.

For example, why would an ancient god have a cenotaph here.

Filled with killing intent, the carefree emperor continued his pursuit.

The river of stars beneath Su Yu's feet was like a waterfall. When he reappeared, he was already in front of the ancient glazed cave.

Su Yu had mastered the eight domains, and his vision was no longer the same as before.

He could see through the interior of the glazed ancient cave with a glance.

Three extremely powerful seals sealed the interior of the glazed ancient cave layer by layer.

In the innermost seal, three creatures with powerful auras were staring out of the seal and looking at him.

"It seems like an incredible existence has arrived outside," insect ancestor said in surprise.

"It can't be that existence from back then, right?" Snake ancestor's heart was still filled with fear.

Back then, Ren Zu, who was looking down on them, discovered their existence and stopped to size them up, scaring them half to death.

Now that Su Yu was sizing them up, it attracted their attention again.

"It shouldn't be. This person isn't as powerful as the last one," bone ancestor said with certainty, but there was a hint of doubt in his eyes. "However, why does this person's aura seem vaguely familiar?"

Just as they were thinking, Su Yu held the devil blade and slashed horizontally.

Boom! Boom

The seal that had sealed the three ancestors and ten thousand generations shattered with a bang.

The three ancestors stood on the bridge and stared blankly at the broken seal. They couldn't believe their eyes.

Such a powerful seal had actually been broken by a blade!

When they saw the face of the person who had broken the seal, the three ancestors' expressions changed drastically. "It's You, human?"

They could not believe that the weak human that they controlled was actually this invincible existence in front of them?

Su Yu stood in the air and looked at the three ancestors, shaking his head slightly. "Too weak."

In the past, they had always thought that the three ancestors' strength was shocking. However, at their current realm, the three ancestors' strength could not be called "Ancestors."

At the very least, they could not be compared to Ren Zu.

The reason for this should be that they had been sealed for such a long period of time, and had lost more than half of their cultivation?

Their peak strength should be far stronger than the second clone of Carefree Emperor.

"Human, you still dare to come back!" Insect ancestor reprimanded. Hatred rose in his eyes. How could he forget the grudge of losing a finger?

Bone ancestor and snake ancestor also revealed killing intent. If it wasn't for this child, they would have broken the seal long ago.

"You guys take care of yourselves." However, Su Yu didn't bother with them at all. He casually said a sentence that was baffling to them and left alone.

Insect ancestor's eyes were dark and cold. "Where are you going?"

He acted as if he wanted to chase after them.

However, at this moment, a terrifying ruler shadow pierced through heaven and earth and came crashing down.

Unfortunately, because the three ancestors had been close to Su Yu before, they were also within the range of the attack.

"Emperor Ruler!" The three ancestors' pupils constricted, and they were scared out of their wits.

When the ruler Shadow crashed down, the three ancestors did not dare to hesitate. They hurriedly counterattacked.

Although their cultivations were far from the peak, their heavenspan domain and Dao artifacts did not decrease in the slightest.

Under the combined efforts of the three ancestors, they were actually able to resist this ruler shadow.

Insect ancestor said indignantly, "We have been sealed for ten thousand generations and lost all our cultivations. Today, we just escaped and were discovered by the son of Heaven of the Sacred Mountain. He wants to kill us all. Brothers, do you still want to continue living?"

Snake ancestor and bone ancestor felt extremely aggrieved.

They had never thought that the sacred mountain would be so unrelenting.

“Go All Out!”The three ancestors roared as they resisted.

As the shadow of a ruler fell one after another, the three ancestors felt helpless even though they wanted to.

When the carefree emperor arrived, he looked at the three ancestors with disdain. “I was wondering who was ruining my plans. So it was you three little bugs.”

In fact, the carefree emperor had already discovered the existence of the three ancestors.

However, chasing after Su Yu was the most important matter, so he was too lazy to find trouble with them.

He did not expect that at the crucial moment when he was chasing after Su Yu, the three ancestors would dare to come out and stop him. They really did not know how the Word ‘death’was written.

“Die!”With an angry roar, the shadow of Carefree Emperor’s ruler drew down at close range.

Ah --

Three miserable groans. Whether it was the insect ancestor, bone ancestor, or snake ancestor, they all died on the spot. Not even dregs were left behind.

Carefree Emperor stared in the direction of Su Yu from afar and roared repeatedly, “I see that you can still run inside!”

Even though the outer realm was vast, there was no place for him to stay.

Su Yu did not say a word. He used his spatial domain to continuously leap across the outer realm.

After ten days and ten nights of chasing.

Su Yu crossed the entire outer realm and arrived at the deepest part of the Western Region.

That was Su Yu’s first stop in the outer realm!

Sea of constellations!

The reason why he appeared in the Sea of constellations was because there was a colossus that had existed since the beginning of the new era near the sea of constellations -- Taotie!

Su Yu looked around. In the unsightly void, he could clearly see an incomparably huge pitch-black silhouette.

“Stop pretending to be asleep,”Su Yu said coldly.

His voice wasn’t loud, but every word he said was like thunder today.

Buzz --

The void trembled. Within the silhouette, a huge sphere that was comparable to a five-star civilization suddenly appeared.

That was Taotie’s eye.

“Human, did you deliver yourself to my doorstep for me to devour?”The huge eye stared at the ice crystal crown on Su Yu’s forehead.

Su Yu could feel the eye of the Taotie under the crown squirming uneasily!

Chapter 2465 Su Yu’s Scheme

Taotie’s life was destined to devour each other and obtain each other’s strength.

The Taotie in front of him was the ancestor of Taotie. He had survived since the beginning of the new age.

In his life, he had devoured countless of his own kind.

Su Yu brought the eye of Taotie here and was mistaken as one of his own kind.

“If you have the ability,”Su Yu said calmly. He stood in front of Taotie without any fear.

His enormous eyes were fixed on Su Yu. After a long time, he blinked.

“Hehe, as expected of the successor of ancient God Nine Dragons. You really surprised me,”Taotie said hoarsely. “I once thought that you would die at the hands of the emperor, just like some of the successors of ancient gods. I didn’t expect that not only did you not die, but you also successfully absorbed eight balls of Dao Fire and became the second master of the eight great domains.”

Those who didn’t know the true nature of Taotie would think that he was trying to benefit them from his praise.

“However, you might not know this, but my relationship with ancient god Nine Dragons isn’t exactly friendly.”Taotie’s words suddenly became fierce. “You are being pursued by the carefree emperor, so it’s not a problem for you to run away. However, if you run to me, you’ll be courting death.”

His enormous eye slowly turned into a black vortex.

The surrounding nebula rapidly flowed into the black vortex.

This was the mature eye of Tao tie.

It devoured heaven and earth, the Sun, the Moon, the stars, and even the universe itself.

Su Yu also felt an extraordinary devouring power.

But he stood firmly on the spot, not moving in the slightest. His tone was indifferent. “I know, so I came all the way here to give you a great gift.”

As he said that, the demon supreme blade in his hand turned into an unparalleled blade qi and slashed at the Taotie’s huge body.

Clang --

The sound of metal colliding resounded through the nebula.

The huge outline of the Taotie could be clearly seen.

The image of the Taotie with three heads and six arms didn't exist in his imagination.

What he saw was a huge object made of all kinds of cosmic impurities and space fragments.

Only the eye was alive.

The rest of the body parts were just temporary assembly.

“As expected, as the ancestor of Taotie, you couldn't control your eyes of Taotie and swallowed your huge body.” Su Yu's eyes were shining.

To be exact, more than half of Taotie's body was swallowed.

His head and half of his stomach were still there.

The rest of his body had been devoured.

After the devouring vortex that was as black as ink opened, his body showed signs of being devoured again.

“Humph! So what if I found out? It's enough to devour me before I devour myself!” Taotie said coldly and increased its devouring power.

However, at this moment, a shadow of a ruler across the galaxy slashed over.

Su Yu was already prepared. He activated the spatial domain beneath his feet and instantly escaped.

However, Tao tie's body was huge. Not only was it difficult to move, but he was also caught off guard. How could he have expected an attack from beyond the heavens?

His body was immediately struck by the emperor's ruler.

“Ah! Human, you plotted against me!” Tao tie instantly understood why Su Yu dared to come in front of him.

He was borrowing the power of carefree emperor to kill him.

Now that the era was about to restart, an ancestor-level existence like Tao tie was also the target of the sacred mountain.

The carefree emperor was chasing after Su Yu and killing Tao tie was not a problem at all.

Tao tie roared and quickly closed his eyes. He roared angrily, “Human, we will not give up!”

Boom --

His huge body suddenly rammed forward and smashed the ancient formation that sealed the outer realm open.

Then, with a whistling sound, he quickly escaped.

Not long after, the carefree emperor caught up and looked in the direction where the Taotie escaped. He said coldly, “At least you, Beast, escaped quickly!”

Then, he raised his eyes and looked at Su Yu.

What surprised him was that Su Yu didn't escape anymore. Instead, he stood there as if he was waiting for the carefree emperor to arrive.

“Ant, you actually stopped running? Are you resigned to your fate?”The carefree emperor chased after him and stopped thousands of miles away.

With such a short distance, once he activated the emperor's ruler, no matter how proficient Su Yu's spatial domain was, it would be useless.

He would definitely die under the emperor's ruler.

Su Yu stood with his hands behind his back on the Twin Star Island in the Sea of constellations. Traces of nostalgia could be seen in his eyes.

This was the place where he had appeared back when he had escaped from the nine Dragons Valley's divine realm.

He had transformed into the son of the Xue family and roamed about in the absolute beginning until today.

Returning to the place where he had started all over again could be considered as an unspoken intention, right?

“Do you think that I'm running away?”Su Yu asked calmly. When he opened his left eye, there was no trace of panic in it. Instead, it was filled with an incomparable calmness.

His calm appearance slightly surprised the carefree son of heaven.

If Su Yu had a trump card in such a long battle, he would have taken it out a long time ago. Why would he chase after him for thousands of miles?

Was he bluffing?

“Stop trying to be mysterious.”The carefree son of Heaven raised his ruler and said coldly, “I'll Take Your Life!”

Su Yu had no intention of running away anymore. He murmured, “The three ancestors of the evil reverent cemetery, the glazed ancient cave, and the Taotie, the three biggest hidden dangers in the outer realm, have all been eliminated, right? If that's the case, I can leave with peace of mind.”

When he heard this, the carefree son of heaven narrowed his eyes slightly.

Why did it sound like Su Yu was using him to destroy those dangerous existences?

But, was it possible?

Su Yu was being pursued and killed several times. He had narrowly escaped death.

Under such a dangerous situation, how could he still have the mood to scheme?

Or, from the moment Su Yu attacked the Mysterious Dao Palace, it was all part of Su Yu's scheme?

In fact, that was indeed the case.

Long before he killed the evil loose cultivator, Su Yu had already considered his future path.

There would come a day when he would leave the outer realm and head to an eight-star civilization.

However, if he were to go there, among the many civilizations in the outer realm, there would be many old friends. Who would take care of them?

With his reputation, ordinary forces would naturally not dare to provoke them.

However, there were still some dangerous existences in the outer realm that he could not deal with.

One of them was the tomb of the evil reverent. As long as the tomb was there, the evil energy would be used by those who wanted to release it.

Just like that day, a mysterious old man tried to release all the evil bones.

The second was the three ancestors in the ancient glazed cave. From Su Yu's contact with them, the three ancestors were ruthless, indifferent to the lives of living beings, and capricious.

If they escaped and brought disaster to the outer realm, who could stop them?

The third was Taotie.

Its existence was the greatest threat.

These existences were things that even the Xuan Dao Hall could not deal with.

Therefore, before Su Yu left, he wanted to completely eliminate the three hidden dangers so that the outer realm would be safe for all eternity.

It just so happened that the second clone of the Carefree Emperor had arrived here.

Su Yu wanted to borrow the power of the carefree emperor to eliminate these existences that no one could do anything to.

Therefore, Su Yu played along. Even though he knew that Yin Yuan who plotted against him was controlled by someone, he still stepped into the Xuan Dao Palace and showed all of his strength to the carefree emperor.

Chapter 2466 Eight-Colored Divine Eyes

It made him misunderstand that he really only had the power to escape.

Everything sounded simple, but in reality, every step had to be taken into consideration.

Otherwise, if something went wrong, the carefree emperor would be able to see through it, and he wouldn't be able to use its power to eliminate the three hidden dangers.

"Ant, Let's say you're smart. Everything was your plan, but so what?" The carefree emperor held the emperor ruler and slowly drew it down. "So what if you eliminated the three hidden dangers? You Can't protect yourself, so why do you care so much?"

A long crack spread from the end of the emperor's ruler to this place.

Su Yu covered his right eye with his palm and said slowly, "That's why I said that I never ran because I don't need to run when I'm facing you!"

When his palm moved away, a force that shook the heaven and earth trembled in Su Yu's right eye.

It was as if there was a massive power that could seal the heavens and earth that had been suppressed in his right eye.

Now, the seal was released and he was about to break out of it.

Boom Boom --

This power was shaking in all directions, and even the carefree emperor was no exception.

He stared at Su Yu's right eye with a solemn expression.

That power was still in the seal in his right eye, and it gave off an aura that made him slightly afraid.

If he released all of it, how huge would it be?

"I've prepared a surprise for you. Let's see if you like it!" Su Yu shouted.

His right eyelid finally opened after being closed for a long time.

Crack --

Instantly, the world in his right eye was like a mirror, shattering into pieces.

In his right eye, eight dazzling rays of light surrounded his eye and spun rapidly.

It was like a windmill spinning crazily in a hurricane.

Every time it revolved, the eight supreme-being domains would radiate out once.

And once the eight supreme-being domains appeared together, they would build a small world.

Thus, it was fine. In Su Yu's pupils, there was a strange world that couldn't be seen from the outside world.

That world was incompatible with the absolute beginning world. Any Great Dao of the absolute beginning world couldn't affect that small world.

That was Su Yu's thirty Feet Small World.

During the process of breaking through the eight great Paragon's domains with the help of the divine throne of the world,.

Su Yu gained a completely new understanding of his thirty Feet Small World with the help of his power of comprehension.

He also successfully fused the eight great domains with the Thirty Feet Small World and turned it into a brand new sealing art.

The Thirty Feet Small World was hidden deep in his pupils and was forcefully divided into eighty-one fragments.

Each fragment was infused with the eight great sovereign domains.

That was why each fragment of a small expanse cosmos turned into a complete world supported by eight great domains -- a true world that was on the same level as absolute beginning world!

There was nothing in that true world except for Su Yu's eight great sovereign domains.

In other words, Su Yu was the ruler of this true world.

All things that entered would submit to Su Yu's will.

At that moment, the eight great sovereign territories were rotating rapidly.

With each rotation, a fragment of a true world would absorb the eight great territories and fly out of its eyes.

Small worlds were true worlds, and absolute beginning world was also a true world.

That was why when the small worlds flew out, they immediately shattered the foreign lands belonging to absolute beginning world before their eyes, and pieces of it appeared.

Carefree son of heaven sucked in a cold breath.

Even the son of Heaven of sacred mountain would not dare to step into a true world other than absolute beginning world.

Because if he did so, he would most likely be banished to that true world forever, and he would never be able to return.

Their divine arts that could reach the heavens and the earth in absolute beginning world might not be able to do anything in those true worlds.

He retreated madly, trying to get as far away from Su Yu as possible.

However, Su Yu's right eye was completely opened at that moment.

"Su Yu's true world, appear!"

Su Yu owned the small worlds and the eight great domains, which was why that true world could be called Su Yu's true world.

Ninety-nine and eighty-one true world fragments swept out like a storm. They sliced through everything Su Yu could see in his right eye without a sound.

The sky and the Earth, the atmosphere, and the dust could not be spared.

A meteorite was also within his line of sight, and in an instant, it was torn into pieces.

The five shattered rocks were sucked into one small world fragment each, and they were permanently sealed in the small world fragment.

The other dust, the atmosphere, the civilizations, and so on were all no exception.

The pupils of the carefree son of heaven shrank to the extreme, and for the first time, fear appeared on his face. "How dare you!"

As he roared, he activated the emperor's ruler and drew a crack that cut through the heaven and earth. He charged toward Su Yu in an attempt to kill him.

However, even the crack was swept away by the Shattered Small World. It floated forever in the Small World's fragments and could not come out.

Ah --

With a mournful scream, 9981 Small World fragments slashed across the carefree emperor's body at the same time.

His body was instantly cut into 81 pieces.

Every part of his body was sucked into a small world fragment.

After falling into the small world fragment, every part of his body was reborn with blood and turned into a complete carefree emperor.

Of course, every part of his strength was only 1/21 of his original strength.

The 81 carefree emperors struggled in different small world fragments in an attempt to break out of the Small World and escape.

"Eight supreme domains, permanently suppress!"

Su Yu let out a long cry. All eight great domains in the eighty-one Small World fragments were activated at the same time. Each of them turned into a whirlpool that suppressed the struggling carefree son of heaven.

The second clone of the carefree son of heaven might not be afraid of the suppression of the eight supreme domains.

However, after being split into eighty-one pieces, he no longer had the strength of the second clone. He was easily suppressed to the ground and could not move at all.

"Ah! Su Yu, you can't suppress me. Sooner or later, I will come back!"Carefree Emperor roared angrily.

However, he couldn't even roar in that small world fragment.

Su Yu's eyes were cold. His arms drew one track after another in front of his chest and suddenly shouted, "Disperse!"

Chirp chirp chirp --

The Small World fragments turned into streams of light and flew in all directions.

All the fragments, all along the gap opened by Taotie, rushed into the other side of the seal, and at a very fast speed, scattered in all directions far away.

Xiaoyao emperor was divided into 81 parts, scattered to the ends of the Earth.

There was only one way for him to get out, and that was for the pieces of the eighty-one small worlds to come together again.

However, right now, the Small World fragments were scattered in every corner of the eight star civilization.

Even if someone wanted to, they would need at least fifty years to succeed if they mobilized all their strength to search for them.

After completely sealing the carefree son of Heaven, with a plop, Su Yu powerlessly knelt on the ground.

Not only did the eight supreme domains in his right eye not stop spinning, but they also continued to accelerate, causing intense pain in his right eye as if they were about to be destroyed.

Su Yu wanted to stop them, but the eight supreme-being domains were already out of control.

They continuously released eight supreme-being domains, destroying everything that his right eye could see.

Chapter 2467 Eternal Banishment

Su Yu's heart skipped a beat. Although he had expected that there would be side effects from rotating the eight domains so frequently.

He had not expected that the consequences would be so severe that the eight domains would completely lose control.

If this continued, his right eye would not be able to withstand the eight domains of space and time and would be destroyed.

After that, he would be transformed into a part of the domain by the eight domains.

"This joke is not funny!" Su Yu's heart was heavy as he used his profound dao master's power to forcefully seal his right eye.

However, he could only seal it for an instant before it was destroyed by the eight domains.

This was really bad!

If he did not die at the hands of the carefree emperor but at the hands of his eight domains, it would be funny!

"Nine dragons cauldron, suppress!" Su Yu summoned the nine dragons cauldron and forcefully suppressed it in his right eye.

Only then did he suppress the eight domains that had gone out of control.

However, Su Yu smiled bitterly.

The eight domains were indeed suppressed for the time being, but he couldn't keep the nine dragons cauldron on his right eye, right?

Not to mention attracting attention, just the fact that the nine dragons cauldron was placed in front of him was a huge problem.

He looked around as he thought of a countermeasure.

Suddenly, he saw a ball of gentle white light flickering in his left eye.

He focused his eyes and saw an old man in Daoist robes riding a snow-white deer and rushing over unhurriedly.

Su Yu recognized that snow-white deer. It was the Divine Deer of light.

Su Yu also recognized that old man in Daoist robes. He was the old Daoist who had asked him why people died. Back then, when the destructive light erupted in the depths of the eastern region, it was this old Daoist who had saved him.

What surprised Su Yu even more was that there was a white-robed old man following closely behind the Divine Deer of light.

That white-robed old man was one of the three guardians of the Ancient Tower of the Mysterious Dao Palace.

At this moment, he looked at Su Yu with a calm smile and slowly walked over with the old Daoist.

“We Meet Again!” The old Daoist walked over and jumped down from the Divine Deer of light. He had a faint smile on his face.

Su Yu said indifferently, “Sir, you are the Hall Master of the Mystic Dao Hall, right?”

He had been thinking about why the Hall Master of the Mystic Dao Hall didn’t show up when the Mystic Dao Hall was destroyed by him.

The Hall Master of the Mystic Dao Hall should be the most powerful person in the world to be able to build the Mystic Dao Hall.

After thinking about it, in the entire outer realm, the only person who was qualified to be the Hall Master of the Mystic Dao Hall was probably this extremely mysterious old Daoist.

Moreover, the protector of the Mysterious Dao Hall was following him, so his identity was very clear.

“Hehe, I knew I wouldn’t be able to hide it from the successor of ancient God Nine Dragons.” The old Daoist chuckled and said, “This old Daoist, Lu Zu, has the honor of befriending the successor of ancient God Nine Dragons.”

Su Yu’s gaze was indifferent. “You have the nerve to come out. When I was fighting with the Carefree Emperor, you hid at the side and didn’t make a sound. Now that everything has been settled, you come out and recognize me!”

Hearing this, Lu Zu was embarrassed. He laughed and said, “Ahem, these are all details. Ignore it, ignore it!”

Su Yu was not in a good mood. He said, “Tell Me, why did you come out to find me now?”

His impression of Lu Zu was not bad. Otherwise, he would also see Lu zu as a threat from the outer realm and use the power of the carefree emperor to destroy him.

“Of course I’m here for your eyes.” Lu Zu spoke the truth.

After witnessing Su Yu’s killing spree and the terrifying combat strength that even the carefree emperor was banished permanently, Lu Zu ran out to meet Su Yu.

If Su Yu couldn’t figure it out and banished him permanently, he wouldn’t even have a place to cry.

He was here for Su Yu’s eyes.

“Tell me the details.”

Ancestor Lu took out a pitch-black eye patch and said, “If you don’t mind, you can try this.”

After a slight hesitation, Su Yu took the eye patch and put it on his right eye.

It was strange that such a fierce eight great domains was actually covered by a seemingly ordinary eye patch.

“This is?” Su Yu asked in surprise.

Ancestor Lu stroked his beard and smiled. “I won it from an old ghost when I was traveling in the eight star civilization. I thought I wouldn’t need it for my entire life, but I didn’t expect it to come in handy.”

Su Yu thought for a moment and cupped his fists. “Thank you.”

The former waved his hand. “There’s no need to thank me. You’ve eliminated all the hidden dangers in the outer realm. I should be thanking you.”

“But...” ancestor Lu looked at the shattered outer realm that was barely holding on by relying on the eight great domains. He smiled bitterly and said, “However, the outer realm is about to be destroyed because of this.”

Su Yu looked at the sky above the world. Others couldn’t see it, but he controlled the eight supreme domains, so his perception of the Great Dao was far superior to ordinary people.

“There’s no need to worry. The Great Dao of absolute beginning has already appeared. As short as two hours, as long as a month, it will develop ten thousand new daos and restore the balance of the outer realm.” In Su Yu’s eyes, a dark red great dao was developing, it was quietly evolving ten thousand daos.

The Great Dao of the absolute beginning was the mother of all great daos.

The imbalance of the Great Dao of the outer realms would definitely attract the mother of the Great Dao, restoring the balance of the Great Dao in this place.

Ancestor Lu was startled. He carefully sensed that he had indeed discovered some destroyed great daos that had reappeared. He had a relaxed expression on his face just now. “That’s good. Otherwise, I really don’t know how I’m going to explain this to ancient god Nine Dragons.”

The speaker didn’t mean what he said, but the listener did. Su Yu’s expression became solemn, and his eyes were sharp as he asked, “Ancient God Nine Dragons? You’ve seen him before?”

Ancestor Lu calmly nodded. “Yes. Before he went to Dao Abyss, he came to this place and met me once.”

“What did he come here for?” Su Yu’s eyes burned with hope as he anxiously asked.

He had always felt that the outer realms were an extremely mysterious place.

Why was there a cenotaph of the four ancient gods among the eight ancient gods?

Why did the extremely rare nightmare crossing Lotus seat appear here in the previous era?

Why did the Taotie not flee far away or go near, but instead flee to the desolate outer realm?

The most coincidental thing was that the Taotie was carrying the nine dragons ancient divine realm created by the nine dragons ancient god.

Was there some great secret hidden within?

Ancestor Lu shook his head and looked deeply at Su Yu. "I can't tell you now! Unless one day, you reach the Heavenly Dao master level."

Su Yu frowned. Why did he have to wait until the Heavenly Dao master level?

As if he knew what Su Yu was thinking, ancestor lu said, "Calm down. This is ancient god Nine Dragons'idea. He must have a reason for making this arrangement."

Heavenly Dao Master?

Su Yu nodded slightly.

"If you're going to an eight-star civilization, I suggest that you cultivate your eight domains to the Yuan level as soon as possible. Only then will you be able to once again lead the eight domains to peace and not lose control like this."

Hearing this, Su Yu nodded.

The first mission of this eight-star civilization was to find the vile-daughter hall and revive Yun Yazhi.

If there was a chance, why not cultivate the domain to the yuan level?

"Goodbye!"Su Yu said.

Lu zu said, "Go ahead. I will take care of your people."

Su Yu wanted to return to the Azure Dragon civilization to see if Xian 'er was safe.

Chapter 2468 Prosperous Times

The blindfold was removed and a spatial domain was released. Su Yu continued on his way.

He was weighing the pros and cons in his heart.

The hearts of the people on this trip to the eight-star civilization were unfathomable. It was best not to take off the blindfold when there were people around, revealing his expertise in the eight cardinal domains. Otherwise, the odds were stacked against him.

Half a day later.

He successfully rushed back to the Azure Dragon Civilization.

Because of the battle between Su Yu and son of Heaven Carefree, everyone in the East region divine territory had fled.

In the Azure Dragon Civilization, other than the low-level warriors and mortals who were unable to cross the void, everyone else had already left.

“The people have gone and the buildings are empty.” Su Yu’s heart was filled with disappointment and relief.

The ones who were disappointed were unable to see Xian ‘er.

He was gratified that Luo xueyi had brought Xian ‘er out of the outer realm when he hadn’t returned for a month.

Thinking of this, he took off his blindfold again and used his spatial domain to arrive at the forbidden forest.

Before the battle, he had asked Huangfu Yi to wait here.

But at this moment, it seemed that there was no one in the forbidden forest and there was a long ravine nearby.

“He should have gone to an eight-star civilization, right?” Su Yu said regretfully. He still wanted to personally teach Huangfu Yi.

Sighing, he came to an abandoned civilization outside the Veluriyam civilization.

“Master.” Meng Keer led a group of hidden fleets and respectfully stepped forward.

In the past few months, the news of Su Yu and the carefree emperor’s battle had long spread throughout the outer realm.

These pirates of the past respected Su Yu like gods. In front of him, they didn’t even dare to breathe.

“A few months ago, did anyone come?” Su Yu asked.

Meng Ke'er nodded. “Yes, a woman named Luo Xueyi brought a pregnant woman. They had their master’s Keepsake. Then, they entered the main ship and never came out.”

Su Yu didn’t say a word. He came to the main ship where Xie Xiaoyue used to be.

On her main ship, there was a mountain filled with evil energy.

It was from that mountain that Xie Xiaoyue dug out many treasures and was able to quickly build her own pirates.

But at that time, the evil energy in the mountain was too strong. With Su Yu and Xie Xiaoyue’s abilities at that time, they couldn’t open it at all.

At this moment, he came to the main ship and stood in front of the small mountain.

The many seals in the mountain had long been broken, revealing the thing in the deepest part of the small mountain.

Back then, Su Yu had used Xiao Die’s perspective to discover that a divine object of the Dao artifact level was sealed in the innermost part of the mountain.

Now, he could already see the object after the seal was broken.

An ancient formation!

“As expected,” Su Yu muttered.

There was a groove in the ancient formation, and it looked as if something had to be inserted into it.

Su Yu silently took out a command token. It had fallen from the body of evil loose cultivator after his death.

The token contained a trace of the ruler of time and Space’s power, which was extraordinary.

Unfortunately, Su Yu was able to insert the token into the groove.

Creak --

The power in the token quickly rushed into the formation and activated it.

Powerful waves of light were emitted from the ancient formation.

As it turned out, when Su Yu obtained the token in evil loose cultivator’s hand, he found that it was exactly the same as the aura of the Dao artifact he had sensed in Xie Xiaoyue’s small mountain.

In addition, evil loose cultivator had a so-called ‘ruler of time and space’ backing him up.

Therefore, he was certain that this token should be the magical treasure that evil loose cultivator used to travel through the eight-star civilization.

Therefore, Su Yu had Luo xueyi bring Qin Xian ‘er here.

It was because he had expected that in this small mountain, besides the token, there should be a matching ancient array.

Everything was as he had predicted.

“I just don’t know if this teleportation array is a directional teleportation or a random teleportation.” Su Yu muttered and jumped onto the ancient array.

A pillar of light shot into the sky and brought Su Yu away.

In an instant, a violent force tore through his body and swept him away, breaking through the eight-star ancient civilization array in an instant.

The force of the impact was too huge.

Even as the Xuan Dao master, he could not withstand such a strong impact and fainted on the spot.

In his daze, he felt that someone was moving his body, and he suddenly woke up.

When he opened his eyes again, he found himself on a spacious cold stone platform.

As vigilant as he was, he immediately got up and squatted down to survey his surroundings.

What entered his eyes was a vast scene of over ten thousand dao master domains crisscrossing each other!

Ten Thousand Dao domains encompassed everything between heaven and earth, including pavilions, wind, rain, thunder, lightning, Spirit Mountain, treasured veins, and so on.

Within the domains, crowds of people entered and exited. It was an unusually lively scene.

At the entrance of the 10,000 dao domains, three words filled with a heavy feeling entered Su Yu's eyes.

“Taiyi sect!”

Su Yu was stunned. “This is... a sect?”

The entire sect did not have any man-made structures. It was all constructed from domains.

The number of domains was more than 10,000!

In the outer realm, this was simply unimaginable.

The total number of Dao Masters in the outer realms was only a few tens of thousands?

And who could organize 10,000 of them to maintain a sect for tens of thousands of generations?

It was impossible!

Other than that, the special powers needed for the cultivation of Dao Masters in the outer realms could only be found in the special areas of the ancient glazed cave.

But in this place, it could be found in the atmosphere!

Although it was very thin, it was much stronger than nothing.

What surprised Su Yu the most was that he casually glanced at the crowd. There was no one whose cultivation was lower than the emperor of Heaven and earth.

Even a teenager's cultivation was at the Emperor of Heaven and Earth realm.

And Daoist master Huang was extremely common!

All the young people had reached Daoist master Huang's realm.

The most terrifying thing was that there were a few young people who had reached Daoist Master Xuan. Their age was not much older than Su Yu!

“This... must be an eight-star civilization?” Su Yu was shocked for a long time.

He had thought about the scene of an eight-star civilization from afar. He had long been mentally prepared for its prosperity.

However, when he really came to an eight-star civilization, he realized that the gap between the two was beyond imagination.

In an eight-star civilization, Su Yu could be called a peerless genius.

A 150-year-old Xuan Dao Master could be considered a legendary existence in the outer realm.

However, in an eight-star civilization, not to mention the fact that people like Su Yu were as numerous as the hairs on an ox, they were not considered extremely rare.

His mind was greatly affected, and it took him a long time to regain his senses before he slowly stood up.

“Hey, another one is scared silly, see?” Two young men in standard clothing walked past and sneered at Su Yu.

It was as if he was looking at a country bumpkin who had just entered the city.

Su Yu was calm and did not feel inferior.

These people were just lucky to be born in such a favorable environment.

Even so, their cultivation was only at Daoist master Huang’s level during the same cultivation time.

On the other hand, Su Yu was far superior to them when he cultivated to Daoist master Xuan in the harsh conditions of the outer realm and the lack of resources.

What was there for him to feel inferior about?

If he had been born in an eight-star civilization, his current achievements would have long been among the true dao masters.

Chapter 2469 Death Hourglass

Su Yu paid no attention to their sneers and silently looked around.

He discovered that people were constantly being transported over from the platform beneath his feet.

It turned out that this platform was a teleportation array.

Most of the people who were transported over had the same reaction as Su Yu. They were shocked by the various extraordinariness and wonders of the Tai Yi sect.

Not long after, the platform under their feet stopped functioning, and no one else was transported over.

Around the platform, there were more than ten thousand people dressed in different clothes. All of them looked around in confusion and did not stop talking to each other to build a closer relationship.

“Silence!” At this moment, a cold shout streaked across the sky.

An extremely grand power of the Xuan Dao master descended above the platform.

A middle-aged bird creature with black wings on its back flew out from the Tai Yi sect without being angry.

He looked down at the tens of thousands of people on the ground and said, “I am the third incharge of the Tai Yi sect.”

Although they didn’t know the identity of the incharge, they could guess from the respectful gazes of the Tai Yi sect people that this person was definitely a person of high authority in the Tai Yi sect. Thus, they all quieted down.

“First of all, I want to congratulate all of you for being chosen to join the Tai Yi sect!”

“Second, no matter where you were recruited from, from now on, you are all members of the Tai Yi sect.”

Su Yu was slightly surprised when he heard this.

Recruited?

The three incharge was referring to the recruitment of an eight-star civilization?

However, the target of the recruitment was not just the outer realm, there were other places as well?

He was slightly puzzled.

“Do you have anything to ask?”The third incharge asked.

One of the Young Dao Masters, who boasted that his cultivation was not bad, bravely asked, “Excuse me, Third Incharge, why are there so many people in the recruitment of an eight-star civilization? Moreover, these people are not from our region.”

Hearing this, the Third Incharge’s face was solemn, and some of the Tai Yi sect members had already burst out laughing.

“That’s enough. Every time we recruit, there will always be a frog at the bottom of the well asking such a stupid question.”

The third incharge glanced at the young man who asked the question and said indifferently, “It’s very simple. You can understand this map of the absolute beginning with just one look.”

He raised his finger, and a vast map appeared in the sky.

Most of the pages depicted a place called the dream boundary breaker.

At the edge of the dream boundary, there were lines that were as thin as hair. They were densely packed and covered the edge of the dream boundary.

From Afar, they looked like a thick layer of hair that grew on the dream boundary.

What made Su Yu’s breathing quicken was that one of the hairs was marked with a line of words, “Outer realm”!

“Outer realm...”Su Yu was shocked. That vast outer realm was just a strand of hair compared to the dream boundary?

Moreover, this map was obviously not the complete version of an eight-star civilization. It was just a corner.

When the people from the small worlds who had quieted down found out that their origins were just hair’s breadth compared to the dream boundary, they were all shocked, disbelieving, or shocked.

They really could not accept that the world that gave birth to them and raised them was actually so small.

“The questions are over. Then, it’s time for me to explain the situation to you!”The third incharge said sternly, “Although you were lucky enough to pass

the recruitment, it doesn't mean that you will definitely become official disciples of the Tai Yi sect."

The youth who asked the first question asked again, "May I ask, Third Incharge, are there any official and unofficial divisions among the disciples of the Tai Yi Sect?"

"Yes, you can say that." The third incharge said, "There are only two kinds of disciples in the Tai Yi sect. One is formal, and the other is slaves. As for you newbies, you can only be slaves for the time being."

"What? Slaves?"

"Did you hear it wrong? Slaves?"

In their own territory, they were all chosen by thousands of people. They were top-notch and top-notch heaven's favored sons. But they could become slaves when they came to the Tai Yi sect?

This was too unacceptable.

The young man who asked the question said righteously, "Third Incharge, did you invite us here to become slaves? If that's the case, we can't accept it."

Most of them had come under orders to successfully enter an eight-star civilization before the end of the new era. After they had learned something, they would go back and help their civilization avoid the destruction of the new era.

How could they tolerate being slaves in an eight-star civilization?

"We have all been deceived!" Many of the young elites were instantly furious, deeply feeling that they had been deceived.

"Let's go, without the Tai Yi sect, we can still live well!"

"That's right, an eight-star civilization is incomparably prosperous, why should we be slaves to the Tai Yi sect?"

Under the instigation of some people, thousands of young elites chose to leave one after another.

Su Yu had originally planned to follow them, but he keenly observed that neither the third incharge nor the members of the Tai Yi sect had stopped them.

This made him slowly retract his footsteps.

The young man who had asked the first question was also extremely quick-witted. The footsteps he had already taken quietly retracted.

The aggressive young elites thought that there were too many of them, so the Tai Yi sect did not stop them. They walked down the steps of the platform and came to the foot of the mountain.

In front of them was a prosperous and prosperous world. There were rare treasures that were rarely seen in their hometown.

It was just a bunch of wild grass by the roadside. If they were to put it in their hometown, it would be the best.

In such a luxurious environment, even if they were pigs, they would have great achievements.

Not to mention that they were all extraordinary?

However, not long after they left the Tai Yi sect, the shadow of an hourglass appeared above their heads at the same time.

There was only a thin layer of dust in the hourglass, and it kept dripping down.

The group of people immediately noticed the abnormality and became suspicious.

Some of the cautious ones immediately retreated back to the Tai Yi sect's area, and the hourglass immediately disappeared.

There were still three to four hundred young elites who felt that since they had already left the Tai Yi sect, it would be beneath them to go back. They braced themselves and observed the changes in the hourglass.

Di --

When the last drop of the hourglass completely fell, a strange scene appeared.

Three hundred and ninety-one young elites, regardless of their cultivation level, regardless of whether they were strong or not, regardless of whether they were of good or bad race.

At the same time, they all looked at each other and died! !

That's right!

All of them died!

On the platform, more than 10,000 young elites sucked in a breath of cold air.

Those young elites who came back in time and narrowly escaped death felt their hands and feet turn cold as they rejoiced in their hearts.

If they hesitated for a while longer, they would follow in the footsteps of those people.

"Hehe, only 391 stupid pigs died. This should be considered the best in the past few years, right?" A Tai Yi disciple mocked and laughed.

Another disciple said, "This year, there are indeed a lot of smart people. The one who died the most, about half of them died, right?"

"That's good too. Only when some people die will they know how to be obedient."

On the platform, many young elites were panicking.

"What's that hourglass? Why do people die without any signs after the hourglass is empty?"

Chapter 2470 Underground Mine

“Is it a conspiracy of the Tai Yi Sect?”

“How could this be?”

Only Su Yu knew that the hourglass was a time domain!

His eyes slowly narrowed. Others could not sense it, but he could sense that the world outside the Tai Yi sect was filled with an endless time domain.

Everything within his vision was covered by the time domain.

Moreover, the time domain was in an extreme state.

Once a living creature entered the domain, time would speed up.

The result was that the lifespan of a living creature would be taken away by the accelerated time, which was why it would suddenly die.

“This should be the Yuan level domain, right?” Su Yu was secretly shocked.

He had a time domain as well, but he couldn’t expand it to such an extent.

The owner of this time domain was not only extremely powerful, but his domain had also reached the level of an elemental domain.

In fact, it might even be more profound than an elemental domain.

However, he also had a time domain.

Su Yu wasn’t afraid of the damage of these time domains. He could walk freely outside and wasn’t affected at all.

Of course, he could not show it in public.

Otherwise, the first one who wanted to capture him would be the Tai Yi sect.

“If anyone still wants to leave, My Tai Yi sect will not hold them back,” the third incharge folded his hands in his sleeves and said indifferently.

After witnessing the strange deaths of 391 people, who would dare to walk around recklessly?

After everyone quieted down, the third incharge said at a moderate pace, “The dreambreak realm is under the rule of the ruler of time. Other than the sects that he has granted special permission to, all areas are covered by his time domain.”

“Once you leave the sect and lose the protection of the sect, your lives will enter a countdown.”

Hearing this, everyone was excited again.

So, they could only stay in the Tai Yi sect for their entire lives? They couldn’t take a step outside?

“Third Incharge, please point out a clear path.” The young man who asked the first question asked again, his attitude becoming more sincere.

This question was what everyone wanted to know the most.

The third incharge said slowly, "It's easy to say, but it's actually very easy! If you work for the Tai Yi sect, you can get the unique time sand of the Tai Yi sect. Add the time sand into the hourglass, and you will be able to live longer outside."

In other words, the time sand was life.

Whoever had more time sand would have a longer life.

Of course, if they stayed in the Tai Yi sect for the rest of their lives, they would not waste time sand.

Everyone gritted their teeth and felt angry.

In this case, they could only be slaves to the Tai Yi sect?

They could use their bodies as slaves to exchange for more time sand.

"One grain of time sand is equal to one breath of time," said the third incharge.

"The first time you came to the dreambreak realm, there are only ten grains of time sand in the hourglass. If you stay outside the sect, you will die in ten breaths of time

"As long as you are at ease as slaves in the Tai Yi sect and work for the Tai Yi sect, you will receive one time crystal every day. One time crystal can be converted into five million grains of time sand, which is equivalent to one day of your life."

"If you work diligently as slaves for ten thousand years or make great contributions to the sect, you will be promoted to an official disciple of the Tai Yi sect, and you will receive three time crystals every day."

Everyone cursed in their hearts.

In other words, they had to work as long as they wanted to live in the outside world, right?

"If you have no objections, then go and work now. You will soon discover that the time dust is not only used for going out, it has other uses that you can not imagine," the third incharge said calmly, it was as if they had no choice.

Everyone could only be secretly angry, but they really had no choice but to agree.

Su Yu wanted to leave now, but he was afraid that he would not be able to escape in front of everyone.

He could only wait and see how the situation would develop.

Soon, they were all led into the Tai Yi Gate and followed the stairs formed by a domain to the underground of the Tai Yi Gate.

While they were still on the stairs, they heard clanging sounds coming from the underground.

When they entered the underground, they discovered that there was another world underground where the Tai Yi Gate was located.

Underground was an extremely vast world.

Countless people of different ages were holding strange hammers, shovels, and other seemingly primitive tools, digging and mining in the underground world!

At the same time, some areas that had been dug were opened up, and some rare plants that had never been seen in the outer realms were planted.

Su Yu only recognized one of the plants.

The plant was covered with fist-sized crystals that were filled with abundant energy that replenished the power of the DAO Master.

He had once seen this item in the memories of the demi-demon. It was called Dao Rice!

As the name implied, it was a spirit rice that was provided for the DAO Master to eat.

After eating a spirit rice, not only could the dao master replenish his daily consumption, he could also absorb the power of the DAO Master from it and slowly increase his cultivation.

However, this item had long since disappeared, at least not in the outer realms.

Who would have thought that this place would have it.

Other than that, there were also crops like potatoes and cucumbers, but without exception, they were all top-grade ingredients for the dao master to eat.

After that, there were also some areas that had been opened up to refine divine weapons, talismans, and other items that the sect needed.

The vast majority of those who were engaged in this labor were slaves.

The disciples of the Tai Yi sect were well-to-do and only supervised from the side.

“Your division of labor will be decided by drawing lots. You will work on whatever you draw. You can draw once a month to change the division of Labor.”The third steward took out a huge bamboo tube with more than 10,000 bamboo sticks in it.

Everyone stepped forward and drew their own bamboo sticks.

The bamboo sticks Su Yu drew had the word “Farming”engraved on them.

An old slave carrying an ore glanced at Su Yu as he passed by. He couldn’t help but praise, “Kid’s luck is pretty good. Out of 10,000 lots, only 10 are farm lots. You drew it the first time you came. You’re really lucky!”

From the looks of it, farming should be the easiest job of all.

Mining was the most tiring job.

Su Yu was slightly puzzled. It was just mining. To them, the path masters, was it necessary to be so exaggerated?

“Alright, everyone report to your respective posts.”

Su Yu held the bamboo stick in her hand and went to the vegetable plot. She handed the bamboo stick to a female Tai Yi disciple who was supervising it.

Her figure could be considered slim and her appearance could be considered pretty. However, there was a bit of shrewdness and meanness between her brows.

“Newcomer, you are in charge of the vegetable plot in the north. Today’s task is to plant a hundred grains of rice.”The female disciple threw a hoe to Su Yu and said with a faint smile.

Su Yu picked up the hoe. There didn’t seem to be anything special about it. It just seemed heavier.

The vegetable field in the north region was a new vegetable field that hadn’t been cultivated yet.

Su Yu picked up the hoe and began to cultivate it casually.

Unexpectedly, when the hoe was used, not only did it not dig a hole, but it also caused a series of sparks on the ground.

When he looked at the vegetable field again, only a trace was left!

Su Yu was stunned. Although he had casually used the hoe just now, the strength he used was at least on the level of the Daoist master Huang.

If it was in the outer realm, he would have dug through the small civilization.

But in the end, only a shallow white scar was dug out here! !

What kind of soil was this?
