Chapter 2471 Nine Serenities Evil Wind

Su Yu tried again and secretly used the power close to the Grandmaster realm.

In the end, it still brought out a series of sparks.

Moreover, he only dug a dent as thick as a finger. It was far from enough to bury a dao rice seed.

Su Yu estimated that with his current speed, whether he could dig a hundred holes in a day was really quite difficult.

He looked up at the female supervisor and asked, "What if the mission is not completed?"

The female supervisor gave a half-smile and said, "You will understand when night comes."

Judging from her attitude, if he really could not complete the mission, the consequences seemed to be quite serious.

Alright, Su Yu could only be a little more serious and cultivate the vegetable field meticulously.

At first, his speed was very slow, but after he familiarized himself with it, he sped up a little.

Therefore, he successfully planted 100 grains of dao rice in the evening.

He put down his hoe and looked up. He saw a few old slaves who had been in the vegetable garden for a long time. They had long finished cultivating and were collecting a time crystal from the female supervisor.

Su Yu walked over. The female supervisor looked at Su Yu in surprise.

It was an extremely difficult task for a normal Daoist master Huang, even if he was in the late stage of the Grandmaster realm, to cultivate 100 grains of dao rice in a day.

She had given this mission to make things difficult for Su Yu. She wanted him to understand the rules and bribe her with some benefits.

She didn't expect Su Yu to not only complete the mission within the stipulated time, but he was also slightly ahead. He was almost comparable to those old slaves.

She didn't know that Su Yu's true cultivation was Daoist Xuan.

Daoist Huang might be exhausted and difficult to complete, but Su Yu was more relaxed.

"Mission completed. Today's time crystal." The female supervisor took out a beige time crystal and handed it to Su Yu, but then said, "Tomorrow, you open up a vegetable field further north. The amount of mission is 200 grains of Dao Rice."

Su Yu raised his eyebrows.

200 grains. He thought that if he used all his strength, he should be able to complete it.

However, this woman was clearly trying to make things difficult for him.

His lips moved, but in the end, he fell silent.

This was because he keenly noticed that the palm that the woman was holding in her sleeve moved slightly, as if she had grabbed onto something.

She was waiting for Su Yu to resist and find a reason to attack.

“Yes!” Su Yu said calmly.

Hearing this, a hint of disappointment flashed across the female supervisor’s eyes. She nodded her snow-white finger lightly and said, “En.”

After a day of hard work, Su Yu’s whereabouts were unknown.

He watched as the group of people walked towards a huge cave in the underground mine. He followed them.

He had just taken a few steps when his arm was bumped by someone.

Turning his head, he saw a skinny, haggard-looking, ragged middle-aged man. His eyes were deeply sunken and his expression was bitter.

He lowered his voice and said to Su Yu, “Fortunately, you didn’t say anything. Otherwise, you would have been whipped.”

The Hoe here was abnormally hard. Su Yu didn’t think that the so-called whip would be an ordinary whip.

If he was really whipped, he wouldn’t feel good.

Sure enough, the female supervisor was looking for an opportunity to punish him.

“Thank you for the Reminder.” Su Yu smiled and kept a distance.

It was best to maintain the proper vigilance in a strange environment and a stranger.

“We are all unlucky people. It’s our duty.” The middle-aged man patted Su Yu’s shoulder. “My Name Is Lao Jin. I come from an outer realm world. I have been here for nine thousand years. If you have any questions, you can come and find me.”

Hearing this, the corner of Su Yu’s mouth twitched.

Nine thousand years?

According to the three chiefs, one crystal of time could be obtained in a day. Nine thousand years was enough for Lao Jin to leave the Tai Yi sect and roam the world freely, right?

Why was he still a slave here?

“My name is Su Yu, Uncle Jin. May I ask how many time crystals have you accumulated over the years?” Su Yu’s eyes flashed as he asked.

Lao Jin smiled dryly. “Take a guess.”

If he wanted to cross the dream boundary and leave this area, he would need at least a hundred years, right?

However, he was still a slave. It was enough to show that he did not even have a time crystal of a hundred years.

“Do you have the time Crystal of ten years?” Su Yu said a very conservative number.

“Hehe...” Lao Jin shook his head and bitterly stretched out nine fingers.

Su Yu was surprised, “Nine hundred, that is indeed not a lot.”

Compared to nine thousand years of hard labor, nine hundred was indeed too little. It was far from enough to support him to leave Tai Yi sect.

“It’s nine!” Lao Jin said in pain.

Even though Su Yu was mentally prepared, he couldn’t help but feel shocked.

9,000 years had passed, and now, only nine had been accumulated?

This number was really too incredible, right?

“Is Tai Yi sect not keeping its word?” Su Yu thought of it with just a thought.

“No! On this point, Tai Yi sect still follows the rules. They never owe any time crystals,” Lao Jin said slowly.

How could this be?

“You’ll know why when you come with me.” Jin led Su Yu into the huge cave along with the huge crowd.

The cave was filled with people. All the slaves were lining up in front of a counter to buy a scroll.

“What’s That?”

“It’s your lounge for tonight,” Jin said. “A scroll corresponds to a lounge. The Price Is... half a time crystal.”

Half of the income from a day’s work was taken away.

“Is it a mandatory purchase?” What would happen if he didn’t buy it?

Old Jin shook his head. “Whether I buy it or not depends on my wish. But if I don’t buy it, I’m afraid I Won’t live through the night.”

Why?

“This underground mine runs through the nine nether world. It’s fine during the day, but every night, the evil wind of the nine nether world will blow. Once it blows, the vitality will be greatly swept away,” old Jin said. “It’s fine if the vitality is strong, but if the vitality is weak, they will die that night!”

Nine Nether regions?

Was there really a nine Nether region in this world?

If it was in the past, Su Yu probably wouldn't believe that there was a nine Nether region in this world.

However, everything in the eight-star civilization had changed Su Yu's past knowledge.

Therefore, he had reservations.

"Even Dao Master Xuan doesn't dare to stay in the nine nether winds?" Su Yu asked.

Old Jin said, "Dao Master Xuan can, but he won't be able to withstand it for more than three days. After three days, he will definitely die."

Was that so?

As the two of them conversed, they went to the counter.

Su Yu hesitated for a moment and spent half of his time crystallizing to buy a paper roll.

After buying the paper roll, Lao Jin said, "Let's go and eat."

Su Yu hesitated, "With our cultivation level, we don't need to eat anymore, right?"

Looking at the large group of people heading towards another cave, Su Yu felt that there should be another problem.

"In the outside world, we may not have to eat, but in this mine, we can't survive for a few days without eating!" Lao Jin said.

Su Yu was skeptical. Under his lead, they came to another wide counter.

Many martial artists went forward to buy food.

The food was simple and crude, without any Taoist aura. It was not an exaggeration to call it dog food.

However, all the martial artists were rushing to buy it, afraid that they would be one step behind.

Lao Jin also joined in the scramble. He spent half a time to buy a portion. "Little brother Su, if you don't buy it, you might feel very uncomfortable tomorrow morning."

Looking at the dark food, Su Yu shook his head.

No matter how uncomfortable it was, it was better than eating these things.

The two of them chatted for a while more. Su Yu received a lot of information that the newbies did not know. He held a paper roll in his hand and went to the rest room that he bought.

All the lounges stood side by side. There was a barrier outside.

By relying on the paper scroll, one could open the barrier and enter to rest.

When he opened the lounge, he was surprised to find that the owner of the lounge beside him was the young man on the platform who was particularly active in asking questions.

Su Yu remembered that the young man seemed to have been drawn to mine.

Compared to the relaxed Su Yu, the young man was like a completely different person.

His clothes had become unkempt, and he looked haggard and exhausted. It was as if he had gone through countless life and death situations.

His eyes were heavy and powerless.

He turned his head to look at Su Yu and forced a smile. "Hello."

Then, he moved his heavy legs and opened his resting room with great difficulty.

"Is it that exaggerated?" Su Yu grinned. He had thought that planting rice was already very tiring.

Now it seemed that mining was several times more tiring.

Shrugging his shoulders, Su Yu entered the lounge.

The room was empty. There were only four walls made of mysterious purple ores.

"In this case, under normal circumstances, it is basically impossible to get the time crystals from the Tai Yi sect to the outside world," Su Yu sighed.

A paper scroll cost half a time crystal, and a meal cost the last half.

All the time crystals that he had worked hard to obtain in one day were spent.

No Wonder Lao Jin had only accumulated nine time crystals in nine thousand years.

Unless there were special circumstances, he couldn't even accumulate one time crystal.

Looking at the remaining half of the time crystal in his palm, Su Yu's eyes shone. "Perhaps it's better for me to stay in the Tai Yi sect for the time being."

From Lao Jin's description, Su Yu knew that all transactions in the entire dream boundary were settled with the time crystal.

The time crystal was the currency!

The crystals and Dao currency from the outer realms were the most worthless things in the dream boundary. No one would want them even if they were thrown on the ground.

Only the time crystal could buy the things one wanted.

And the place with the most things was the 344 sects of the dream boundary!

Tai Yi sect was one of the 344 sects.

The sect stored a large amount of things that were hard to find in the outside world, and the people in the sect, including slaves, had the right to buy them.

As long as you had the time crystals!

Su Yu was completely clueless about the dream boundaries and didn't even know the direction. If he left the Tai Yi sect now, where could he go?

It would be better to use the time crystals to buy some information in the Tai Yi sect.

Perhaps he could find some clues about the evil daughter Palace.

Feeling the time crystal in his palm, Su Yu thought for a moment and immediately focused on studying it.

He found that the composition of the time crystal was all very pure time domain.

After thinking for a moment, he pulled out a corner of the blindfold and shot out a time domain.

Then, he clenched his five fingers and forcefully condensed the time domain.

Tick-tock --

Not long after, a dark yellow crystal appeared in his palm.

It looked exactly the same as the time crystal, but the color was too different.

Moreover, it only existed for a few breaths before it melted into the time domain.

“The time crystal, I should be able to replicate it, but it takes a lot of time.” Su Yu thought to himself, it was unrealistic to expect to obtain a large amount of time crystals in a short period of time. “I have to be more serious about tomorrow’s rice planting.”

Chapter 2472 Snatching The Amethyst

Seeing that the sky was getting dark, Su Yu prepared to enter a meditative state.

Looking at the shabby environment, waves of worry rose in his heart.

He had already learned from old Jin that the people sent from outer space were immediately assigned to the 344 sects.

Among the 10,000 or so new disciples of the Tai Yi sect, there was no Xian ‘er.

This meant that she was in another sect.

“Did Xian ‘er suffer as well?” Su Yu thought in his heart and couldn’t enter a meditative state for a long time.

Roar --

Suddenly, a strange beast roar came from outside the resting room without any warning.

It was as if there was a man-eating demonic beast hiding outside the resting room.

Su Yu immediately woke up and opened the eye of the soul to see the situation outside.

At a glance, his expression couldn’t help but change greatly.

An incomparably strong gale swept over from the depths of the mine.

The biting cold of the hurricane swept everything in the cave into the nine heavens.

Its might was considered great, but it did not pose a threat to a dao master expert.

What posed a threat was that there was actually a thick snow-white airflow in the wind.

That airflow swept away all life force it encountered.

Even the rice seeds planted in the vegetable fields had their life force weakened significantly.

“This is the evil wind of the nine serenities?” Su Yu was surprised.

With the speed at which it devoured vitality, it was naturally not a threat to Su Yu, who had mastered the life domain.

But to ordinary creatures, it really had a strong lethality.

Shaking his head, Su Yu did not mind.

It was not until the next morning that the deafening bell rang in his ears. It was the sound of the mine opening.

Su Yu left the resting room. As soon as he stepped out of the resting room, he was immediately assaulted by an astonishing cold air.

His entire body froze instantly.

Other than the pain all over his body, his limbs were extremely inflexible.

This cold was extremely strange. It seemed to have penetrated deep into his bone marrow and was not easy to resolve.

Even if he used the power of the Profound Dao, the effect would be minimal.

If he waited for it to resolve, he would need at least half a day.

If he delayed for such a long time and could not complete the mission, he would not be able to get the time crystal. If he could not get the crystal, he would not be able to afford to stay in the rest room. Then, his life would be swept away by the nine serenities evil wind and he would fall into the cycle of death.

“Another idiot who is reluctant to buy food!”

“Sigh, another new one died!”

No Wonder Lao Jin reminded Su Yu to buy food. It turned out that the purpose of the food was to prevent the extreme cold air left behind by the nine serenities evil wind.

“Space Domain!” Su Yu waited for the passersby to leave and silently cast his space domain.

The cold that invaded his body was extracted inch by inch by the space domain and peeled away from his body.

A ball of residual snow-white air dispersed like smoke.

“Phew!” Su Yu exhaled. Fortunately, he had enough tricks.

Seeing that work was about to start, Su Yu went to the vegetable garden.

The female supervisor glanced at Su Yu coldly and said indifferently, “Do I need to repeat today’s mission?”

Su Yu did not say a word. He came to the uncultivated wasteland further north and continued to cultivate.

With his physique as a Xuan Dao master, it should not be a problem for him to cultivate 200 small pits consecutively.

After noon, Su Yu had already cultivated 100 pits.

If he continued, he should be able to successfully complete the mission.

However, when Su Yu was clearing, he always felt as if he had a knife at his back. It was that female supervisor who had been staring at him with an unfriendly gaze.

This made him frown slightly.

If she continued to make things difficult for him and requested to plant three hundred meters the next day, what should he do?

The initiative was in the other party's hands, and Su Yu could not resist.

"I can't continue like this." Su Yu thought to himself. Wasn't the lesson of Old Gold and blood enough?

He had only obtained nine time crystals in nine thousand years.

It was impossible to accumulate enough time crystals by being a slave.

He had to think of a way!

Ding --

Suddenly, Su Yu was digging, but the hoe in his hand didn't dig a shallow ditch like before. Instead, the Hoe was knocked away.

"Eh?" Su Yu sensed that something was wrong and immediately looked at the place where the hoe had just passed.

He saw a faint purple light under the shallow white marks left by the hoe.

He immediately picked up the hoe and dug a few times before he finally dug out the true appearance of the purple light.

It was an extremely light purple crystal.

"What is this?" Su Yu was slightly puzzled. Just as he was about to dig it out, the female supervisor suddenly rushed over.

Before she arrived, she shouted, "Stop!"

PA --

A whip lashed out.

Luckily, Su Yu dodged quickly. Otherwise, she would have been hit by the Whip.

The whip missed and lashed near the crystal, causing the extremely hard vegetable soil to fly in all directions.

It could be seen that the weight of this whip was not weaker than Su Yu's full strength attack.

Her attack was clearly taking someone's life!

Su Yu's eyes turned cold as he stared coldly at the female supervisor.

He had been patient with this woman for a long time, but she treated Su Yu's life like it was nothing.

The female supervisor did not have the time to care about Su Yu. She rushed over and looked at the purple crystal. Her face was full of surprise. "Eighth grade nine Nether Crystal!"

She dug out the crystal and her face was full of joy.

Shua Shua Shua --

Several members of the Tai Yi sect who sensed the abnormality rushed over one after another. When they saw the purple crystal in the female supervisor's hand, they were all filled with envy and jealousy.

"Senior Sister Xian Yin, your luck is too good. You Can Dig out an eighth grade nine nether crystal even when you're in charge of the vegetable garden!" A young man said with envy.

Another young man said with jealousy, "An eighth grade nine nether crystal weighing one Jin can be exchanged for ten time crystals. Senior Sister Xian Yin, you're going to be rich this time. You must treat us to a meal!"

Xianyin's face was full of joy. She giggled and said, "That's fine. I'll go back tonight and exchange it."

As she spoke, she glanced at Su Yu and finally found her more pleasing to the eye. She casually threw a time crystal to him and warned, "If the sect's inspector asks who dug it up, do you know how to answer?"

From the looks of it, the eighth grade nine nether crystal belonged to whoever dug it up.

Xianyin forcefully took the nine Nether Crystal Su Yu dug up and only used a time crystal to pass the time. Not only that, she also secretly threatened him not to tell the sect about it.

"I know. It was dug up by Sir," Su Yu said calmly, neither servile nor overbearing.

Xianyin's snow-white chin nodded. "It's good that you know. In the future, if you have a good eye, it will make you feel much better."

The reason why she made things difficult for Su Yu was that he came to the vegetable garden that she was in charge of and didn't know how to please her.

But now, he had accidentally harvested a whole Jin of eighth grade nine Nether Crystal.

Su Yu's expression was calm, but he sneered in his heart.

This woman probably didn't know that there was an even bigger one under the nine nether crystal that she had dug up.

After learning that the nine nether crystal was so valuable, Su Yu secretly observed it from the perspective of Xiao die and immediately discovered that there was an even bigger and more valuable one below.

Of course, he would never say it out loud.

After a busy day, Su Yu completed his task and obtained a time Crystal from the female supervisor.

The latter hurriedly returned to the sect on the ground to exchange for the time crystal.

Su Yu acted as if nothing had happened and went to exchange for the paper scroll.

Unintentionally, Su Yu noticed that old Jin was talking passionately with a slave who was also a newcomer.

Just like how he treated Su Yu the day before.

Su Yu's eyes flashed slightly. After exchanging the paper scrolls, he went to his resting room yesterday.

Unfortunately, the young man was still beside him.

Today, he was still half-dead from exhaustion. He staggered into his resting room to sleep.

When the sky gradually turned dark, the evil winds of the Netherworld arrived as promised.

At this time, whether it was the slaves or the supervisors, they all hid in the resting room, not daring to stay outside for a moment.

"The time is right!" Su Yu opened the door of the room.

Immediately, the strong evil wind of the Netherworld swept over and quickly swept away Su Yu's life force.

Su Yu was not afraid. He secretly activated his life domain to replenish his lost life force.

For him, it did not take much effort.

Looking at the empty mine, Su Yu returned to the vegetable garden with ease. He picked up his hoe and dug around ten times where he had dug up the nine nether crystal during the day.

Finally, with a ding, Su Yu found it!

A head-sized nine nether crystal that weighed five kilograms entered his vision.

After a lot of hard work, he finally succeeded in digging it out.

After sizing it up, Su Yu was slightly surprised. He found that this nine nether crystal seemed to be somewhat different from the one during the day.

There was actually a mosquito in the depths of this nine nether crystal.

The Mosquito was completely preserved and looked very lifelike. It still maintained the movement of flying when it was alive.

"Why is there a mosquito in the crystal?" Su Yu was surprised. He guessed that it should be the result of the nine nether crystal forming and coincidentally wrapping the mosquito inside.

He did not think too much and returned to the resting room quietly.

No one knew anything.

The next day, Su Yu went to the vegetable garden again.

Xian Yin was in a good mood after getting ten time crystals. She only gave Su Yu the task of watering, which made him feel relaxed for a rare day.

After thinking for a while, Su Yu took out a time crystal that she had given to him yesterday and gave it to her. He said, "Sir, you were the one who found the nine nether crystal. After thinking about it, I don't think I should take this time crystal."

It wasn't that he didn't want it, but he didn't want to owe her anything when he took revenge on her in the future.

Xianyin accepted it with a faint smile. "Finally enlightened? Alright, I'll give you a day off to rest."

Su Yu was so happy that he just happened to need to deal with the nine Nether Crystal in his hand.

"Thank you!"

Xianyin waved her hand and waved to an old slave not far away. "Come here, water it..."

Su Yu followed the stairs and left the underground mine, arriving at the upper level.

Even as a slave, Su Yu could freely enter and exit the Tai Yi sect.

He disguised himself slightly and entered. Following the road signs, he arrived at a domain of the Tai Yi sect.

There were tens of thousands of palaces in this domain, and it was the most lively place in the sect.

Those palaces were all places of trade.

They provided all kinds of treasures that dao masters needed. Of course, they needed time crystals to exchange for them.

One of the great palaces was specifically for the exchange of nine nether crystals.

Su Yu came to the counter.

Everyone who came here was dressed in uniforms. Only Su Yu, an outsider who was clearly dressed as a slave, entered. He was exceptionally eye-catching.

Many people frowned when they saw him, expressing their contempt and curiosity.

Why would a slave come up here if he wasn't working hard?

Su Yu was calm. He went to the counter and said to the shopkeeper, "Exchange for time crystals."

Chapter 2473 Giant Crystals

The shopkeeper was busy keeping accounts when he heard the voice. He thought it was an official disciple of the sect, so he smiled and said, "Where did the person in charge get so lucky to dig up high-grade nine nether crystals?"

Tai Yi sect's rules.

Ordinary nine nether crystals all belonged to the sect, and the slaves who specialized in mining were responsible for digging them up.

Those who discovered nine nether crystals of grade eight and above could come here to exchange for time crystals.

However, when he raised his head and saw that Su Yu was not a disciple of the sect, but a slave, he was clearly stunned.

He had been a shopkeeper for a few years, but this was the first time he had encountered a slave who came to exchange for time crystals.

Under normal circumstances, wouldn't all the high-grade nine nether crystals he had dug up be taken away by the responsible supervisor?

This slave actually managed to hide a piece of nine Netherworld Crystal from the supervisor and secretly hid it.

The smile on the smiling shopkeeper's face immediately disappeared. He said indifferently, "Oh? What grade is it?"

Nine Netherworld crystals were divided into nine grades according to their grades.

Grade one was the highest grade nine Netherworld Crystal. However, it was said that it had never appeared in the entire dream boundary. It was considered to be at the legendary grade.

The ninth grade was the lowest grade nine Nether Crystal, which was also the most ordinary nine nether crystal.

"Eighth grade," Su Yu said.

The shopkeeper nodded expressionlessly. "Mm, take it out and appraise it."

Su Yu took out a light purple nine nether crystal that was the size of a head.

"So Big?" The shopkeeper was shocked.

Under normal circumstances, nine nether crystals were usually only half a catty or even smaller.

Nine darkness crystals weighing more than one catty were rare.

The head-sized nine darkness crystal weighed five catty, which was extremely rare.

"Look, that slave actually found such a huge nine darkness crystal!"

"So Big? It's rare!"

A group of doormen passing by curiously went up.

The shopkeeper looked at Su Yu with jealousy.

As the shopkeeper, his annual salary was only two hundred time crystals.

This slave was lucky enough to find nine nether crystals, but it was five catties in total. According to the exchange ratio of one to ten, it could be exchanged for fifty time crystals.

"Okay, I'll weigh it for you." The shopkeeper looked at Su Yu deeply, wanting to see Su Yu's true appearance. Unfortunately, there was a disguise on his face, so he couldn't see it clearly. This made the shopkeeper, who had been unfaithful, give up.

The shopkeeper placed the nine nether crystal on a very tight magic treasure.

This magic treasure could accurately weigh its weight without any error.

Rays of light immediately shot out from the magic treasure, continuously sweeping over the nine nether crystal. At the same time, the bottom of the magic array showed its exact number... five catties and three taels.

“Five catties and three taels, it can be exchanged for fifty-three time crystals...”the shopkeeper said as he took notes.

Unexpectedly, the spiritual artifact suddenly let out a muffled sound.

The wild sound of the sound shook the entire hall to the point that it could be heard.

Those doormen who had not noticed the movement of this place quickly rushed over in great shock.

“This sound... it’s the discovery of the nine Nether Crystal, right?”

“It can’t be? Our Tai Yi sect hasn’t unearthed the nine Nether Crystal for several decades, right?”

The shopkeeper suddenly raised his head and looked at the nine nether crystal again in surprise.

After staring at it for a while, he finally found an inconspicuous black dot in the nine Nether Crystal. He said in surprise, “It’s a Mosquito!”

“Oh my God! It’s really a nine nether crystal!”

“DAMN! That slave is rich!”

“The value of the nine nether crystal will double at the very least.”

Su Yu was also stunned. Why was the value of the nine nether crystal higher if there was a foreign object in it?

This was unexpected!

The shopkeeper confirmed that it was three and finally took a breath. He looked at Su Yu with jealousy and envy as if he wanted to know which slave he was in charge of.

However, everything was in vain. Su Yu was already prepared!

“Congratulations, this is the nine nether crystal. A mosquito is sealed inside, and it is also the lowest level relic. The value of this nine nether crystal will double. This is your time crystal!”The shopkeeper handed over a hundred time crystals.

Su Yu collected all of them calmly, then separated the crowd and walked to the other halls.

What disappointed him was that the sect did not specialize in selling information.

There were two ways to get information.

One was to ask people.

However, with Su Yu's current status as a slave, it would be good if he was not treated with contempt. Who would be willing to kindly tell him about the Vile-Daughter Hall?

Then there was only the second option, a reward!

If a reward was offered in the Bounty Hall, those who knew about it would naturally inform Su Yu after accepting the reward.

Therefore, he moved to the Bounty Hall and issued a reward of ninety time crystals for a period of one year.

If he couldn't obtain information about the Vile Daughter Palace within one year, it could also be indirectly stated that no one should know about it.

There were still ten time crystals left.

Many slaves who had obtained the surplus time crystals might choose to come to Taiyi Sect to enjoy themselves.

Of course, Su Yu wouldn't do that.

The slaves who made that choice all hoped to reach the deadline of 10,000 years and turn from slaves to official employees of Taiyi Sect.

Su Yu looked around and suddenly found a tool palace.

There were all kinds of tools specifically for the mine, such as hoes, shovels, awls, and so on.

And the price was not cheap. The lowest price was 10 time crystals, and the most expensive one was 1000 time crystals.

"Is there any difference between this hoe and the hoes below?" Su Yu walked into the hall and asked.

The hoes provided in the mine were all free, but here, they still needed expensive time crystals to buy.

The shopkeeper in the hall was not as arrogant as the shopkeeper in the main hall. He smiled and said, "You'll know when you see it."

He took out a stone the size of a table, which was exactly the same as the texture of the vegetable field in the mine.

"This is a cheap hoe provided by the sect." He took out a hoe from the mine and dug hard into the stone. As expected, only a shallow white mark appeared.

"This is the hoe in my palace." He used the hoe in his palace to dig hard into the stone. In the end, he dug ten inches deep.

It was like a mortal digging slightly harder soil. It was very easy.

Su Yu's light flashed. He instantly understood its function and said, "I'll buy it!"

He immediately bought this specially made hoe with ten time crystals.

“Hehe, little brother is a wise man. As the saying goes, sharpening a knife does not delay the work of cutting firewood. Although I spent ten time crystals, the reward is far more than ten time crystals.”

What he meant was that with this item, there was no need to worry about completing the mission.

The losses that he had reduced over the years would definitely not be as simple as earning ten time crystals less.

However, he did not know the true use of this hoe for Su Yu.

In exchange for the Hoe, Su Yu circled around the Tai Yi sect’s ten thousand path domain a few times, shaking off a large number of people who were secretly following him. Only then did he change back to his original appearance and quietly return to the underground mine.

“Oh? You’re back?”Xian yin raised her brows and said, “You can go back and rest today.”

For the sake of the time crystal, she forgave Su Yu for the whole day.

“I’m fine. I can still do some work.”Su Yu smiled and returned to the vegetable field. He took the water ladle from the watering slave and watered the rice one by one.

Xianyin smiled contemptuously. “You don’t even know how to enjoy life!”

Then, she leisurely closed her eyes and meditated.

Little did she know that Su Yu’s watering was fake, and he was using it to find out if the nine nether crystals underground were real.

With Xiao Die’s shared view and the soul perspective eye, as long as it wasn’t hidden very deeply, he would be able to discover it.

In the evening, Su Yu expressionlessly stopped his cultivation, but in his heart, he was very satisfied with today’s exploration.

Currently, under the three vegetable plots that he was responsible for opening up, a total of three catties of eighth grade nine nether crystals were buried within ten feet deep.

Further north, there were still eight or nine catties of nine nether crystals that had yet to be opened up.

However, this wasn’t all.

Su Yu used Xiao Die’s shared vision to peep thirty feet underground. There was a large unknown object the size of a cow.

Its color was even darker than the eighth grade nine nether crystals he had obtained previously.

Looking over with his clairvoyance eye, he could only see a hazy gray area.

“If this thing is a nine darkness crystal, how heavy is it?”Su Yu thought to himself. He was quite tempted.

If he had enough time to crystallize, not only would he be able to issue a bounty in the Tai Yi sect, but he might also be able to head to other sects to issue a bounty.

This way, it would be easier to search for clues to the vile-daughter hall.

However, with Su Yu's current hoe, he would only be able to dig out a distance of thirty feet in two months.

However, all the jobs were drawn once a month.

Next time, he might not have the chance to draw a vegetable garden.

If he was unlucky enough to be drawn somewhere else, he would never have the chance to come back and dig out the huge nine nether crystals.

"Let's dig out the nine nether crystals on the surface first!"Su Yu was unable to draw lots, so he could only take it one step at a time.

The few nine nether crystals on the surface were said to be on the surface, but they were also ten feet deep, so it was not easy to dig them out.

In the following time.

During the day, they would use ordinary hoes and work diligently.

At night, they would sneak out and use special hoes to dig out the nine nether crystals.

There were special hoes, but they were dug out in a short night or a few nights.

One month later.

12 catties of nine nether crystals were all obtained. The total price was 120 time crystals.

And today, it was the day of reassignment.

So far, Su Yu had no way to stay in the vegetable garden. After all, it was not an easy task to control the result of the drawing of lots in front of the third steward.

"Su, come here."

Suddenly, Xianyin beckoned Su Yu with her finger.

Su Yu walked over and said, "Sir, do you have any orders?"

Xianyin nodded her snow-white chin slightly, and her beautiful eyes flashed slightly. "Do you want to continue staying in the vegetable garden?"

Of course!

Su Yu almost changed his bad impression of this woman.

She was almost dozing off to give him a pillow.

"As long as you promise to do something for me, I can give you the privilege of a formal supervision to keep you here,"Xianyin said.

Supervision had the power of a formal privilege once a year, such as asking for fixed slaves to do things. There was no need to see the new drawing of lots.

“Please go ahead,” Su Yu thought to himself. The things that this woman had asked him to do might not be something that could be seen in the light.

Xianyin nodded and said telepathically, “Tomorrow Morning, you go to this place and complete a transaction for me.”

She quietly handed a spatial storage device to Su Yu.

Su Yu took it and glanced inside. He was surprised to find that the thing inside was the one-kilogram eighth-grade nine nether crystal that she had snatched a month ago.

Didn't she exchange it?

Chapter 2474 Mysterious Transaction

She looked up and saw Xianyin's cold face, “Tomorrow, there will be a small-scale trade fair. There will be a trader who specializes in collecting the nine nether crystals. Sell it to him at the price of twenty time crystals. Then, bring the crystals back and quietly hand them over to me.”

Su Yu was slightly surprised. Was this selling the nine nether crystals dug up by the Tai Yi sect to outsiders?

Was this considered betraying the sect?

If they were discovered by the Tai Yi sect, they would definitely be severely punished.

No Wonder Xianyin had a cautious look on her face.

“Why me?” Su Yu asked.

Xianyin praised, “During this month, I've been observing you newbies. You're the only one who does things flawlessly. The rest are too careless and difficult to take on big responsibilities.”

So it was like that. Su Yu did not deny this point.

He completed the tasks that he should have completed every day beautifully. Even if he was as mean as Xianyin, he could not find a single fault.

On the other hand, the other rookies either had difficulty completing the tasks or had problems with the planting.

Only Su Yu had completed them perfectly.

“Alright, I agree,” Su Yu said.

Xianyin nodded, she threatened, “First, you must keep this matter a secret. Otherwise, I have ways to make you wish you were dead! “Second, don't even think about running away with the money you sold. The nearest shelter outside the Tai Yi Gate is half a year's journey. You Can't get there with just ten time crystals.”

Little did she know that Su Yu was not afraid of the power of the time domain at all.

If he wanted to leave, he could leave at any time.

“I understand!” Su Yu said.

Xianyin was satisfied just now and said, “Wait a moment, I'll be right back.”

After returning to the ground for a while, she returned and threw a scroll to Su Yu. "Take it, with this scroll, you can avoid the drawing of lots!"

Sure enough, during the drawing of lots in the evening, Su Yu held this scroll in his hand. The three leaders really did avoid Su Yu's drawing of lots and let him continue to stay at his original position.

In this way, he could stay for another month.

That giant nine nether crystal should be in his hands now.

The next day.

Su Yu was working when Xianyin gave him a look and said, "Su Yu, you performed well last month. I'll give you a day off. Go!"

"Thank you, Sir!" Su Yu understood and left the underground mine to go outside.

After Su Yu came up, he immediately went down the mountain and left the sect.

The Tai Yi sect had never restricted the freedom of its disciples and slaves. Therefore, Su Yu left the sect without any hindrance and set off to the place where he was.

The Tai Yi sect was not far from there. It was only half a day's journey and he could make a round trip within a day.

Su Yu slowly descended from the bottom of a broken cliff.

"Who is it?" Before he landed, he was enveloped by the pressure of Xuan Dao Master.

Su Yu was surprised. Even Xuan Dao Master was in the trade fair?

After checking that his disguise was flawless, su yu said calmly, "I was ordered to participate in the trade."

"Okay, come down."

As Su Yu landed, he could clearly feel that there were people looking behind him to see if anyone was following him.

At the bottom of the cliff, Su Yu finally saw where the trade fair was.

The group of six surrounded a bonfire that had been burnt out. They were all on guard against each other.

Almost everyone was like Su Yu. They had extremely deep disguises and were unable to identify each other.

"I'm merchant number nine. I'm in charge of this transaction," a woman wearing a golden mask said to Su Yu.

Su Yu nodded and silently walked over, waiting for the golden-masked woman to speak.

"The old rule is one to twenty. Take out as many eighth stage nine Netherworld Crystals as you have," the golden-masked woman said hurriedly.

This kind of trade was actually a disguised attempt to poach the Tai Yi sect. The risk was extremely high.

Once she was discovered by the Tai Yi sect, she would die without a doubt.

Everyone didn't say a word. They didn't even try to make a sound, afraid that they would expose themselves.

They just silently took out their own nine Netherworld crystals.

The woman took out a magical artifact that was exactly the same as the Tai Yi sect and weighed it.

"Seven taels, fourteen time crystals." After the golden-faced woman confirmed the weight, she straightforwardly gave the other party seven time crystals.

However, she said, "Before the rest of you leave, please stay here."

This was to prevent the Tai Yi sect from being alerted after the transaction.

The latter seemed to be an old hand and understood the rules very well. She quietly sat on the spot and meditated.

"Eight taels, sixteen time crystals."

"One catty! Twenty time crystals." The golden-masked woman's voice was obviously higher, showing her emotional fluctuations.

"Three taels! Six!"

"Four taels! Eight."

Finally, the golden-faced woman looked at Su Yu. "What About You? Take them out and have a look."

Su Yu took out Xianyin's first.

"One catty!" The golden-faced woman obviously let out a sigh of relief. She even smiled at Su Yu. "A total of twenty time crystals."

As she spoke, she wanted to take out the time crystals and give them to Su Yu.

"Hold on! It Won't be too late to give them after weighing these as well." Su Yu took out another portion of the nine nether crystals.

They were all secretly dug out from the vegetable garden last month. It was about 12 catties.

"So Many?" The five people who were silently waiting for the transaction to end could not help but exclaim.

Su Yu took out a total of a few pieces. All of them were big fellows that were more than 1 catty.

The five of them were all secretly appointed by the supervisor to help supervise the transaction. Therefore, the quantity of each transaction was not much.

However, the person in front of them took out as much as 12 catties in one go.

Without a doubt, he must be a supervisor himself.

Only a supervisor could store so many nine darkness crystals in his hands.

The golden-faced woman was beaming with joy, she was full of joy. "Thank you for coming to my trade fair. I bought these nine darkness crystals at the price of one more space-time crystal per catty. I only hope that you will take care of my business in the future."

She also misunderstood that Su Yu was a certain supervisor and treated him as a big customer, so she gave him a considerable discount.

"Of course." Su Yu spat out two short words.

The golden-faced woman immediately gave Su Yu 253 time crystals.

Apart from the 20 time crystals that she had to give to Xian Yin, Su Yu received 233 time crystals in one go.

Such a number was equivalent to the salary of those official members for more than half a year.

After the transaction, the golden-faced woman took out six maps, she handed one to each of them.

"This is the location of the next transaction. It will be in a month's time. I hope you will be especially supportive. If you can bring someone trustworthy to the transaction, I will give you another reward."

Everyone nodded silently, took the maps, and left.

Su Yu did not stay.

Such a transaction was indeed too dangerous. It was best to leave as soon as possible.

The golden-faced woman looked deeply at Su Yu, then immediately packed her things and prepared to leave.

She was in a good mood. Today's harvest was comparable to the four or five transactions in the past.

However, just as she was about to leave, the golden-faced woman suddenly felt that something was not right. Her expression changed abruptly.

She did not even want the things on the ground. She directly crushed a jade Buddha.

The Jade Buddha shot out streams of spatial power and swept it away in an instant.

Almost at the instant she left, a huge palm appeared out of thin air and slapped on the spot where she had left, shattering the space.

If it had been any later, she would have been seriously injured even if she did not die.

"HMPH! At least you ran fast!" A cold snort rang out, and a bird-like expert with black wings broke through the air and came over.

He was none other than the three innkeepers of the Tai Yi sect!

His palm held a map that came from an unknown place, and he stared coldly at the place where the golden-faced woman had escaped.

Swoosh swoosh swoosh swoosh --

One after another, the auras of Xuan Dao Master rushed over and surrounded the third incharge.

“Third Incharge, are we still going to chase after them?”An expert asked.

The third incharge snorted, “How are we going to chase after them? These survivors are the most cunning. They have long prepared a complete escape route for themselves. If we don’t catch them on the spot, it will be impossible to catch up to them.”

He believed that after the golden-faced woman used the power of space to move to another place, she had already moved twice.

It was impossible for her to catch up to her.

However, if she couldn’t catch up, how could the people who participated in the trade not be able to?

“Catch them and torture them. which disciple instructed them?”The Third Incharge’s face was as dark as water.

It was no secret that the Tai Yi sect’s internal members colluded with outsiders to sell the sect’s nine nether crystals.

However, the merchants were very meticulous and rarely gave themselves away.

It was only after a slave exposed them that they were able to pinpoint the location of the trade. Unfortunately, they were a step too late, and the merchants were able to escape.

“Yes!”The merchants were able to escape, but the slaves lacked time crystals and had nowhere to go. They could only run back to the sect, so it was very easy to capture them.

Not long after, five out of the six people were caught and successfully captured.

“Sir, there’s still one person who hasn’t caught up.”A group of Xuan Dao Masters braced themselves and returned.

“Trash! He can even run away from a slave!”The third incharge rebuked angrily.

Xuan Dao Master, who was in charge of chasing, said embarrassedly, “I don’t know why either. That slave’s movement technique is extremely fast, much faster than mine.”

He was also very helpless.

It was clearly a slave with a low cultivation, but its speed was shockingly fast, easily shaking him off.

He did not know that if it was not for Su Yu’s fear of exposing his spatial domain, he would have already taken a step forward and returned to the Tai Yi sect.

“Immediately return to the sect and investigate for me. Dig three feet into the ground and don’t let a single fish slip through the net!”The Third Incharge said sternly, vowing to investigate this matter to the end.

When the group returned to the Tai Yi sect, the first thing they did was torture the five slaves to force out the mastermind.

Under such torture, the mastermind was quickly identified.

In the underground mine, Xian Yin was anxiously waiting for Su Yu's return.

All of a sudden, more than a hundred Tai Yi sect members in black uniforms barged in from the stairway entrance. All of them had solemn expressions as they charged in with murderous intent.

Xian Yin's heart skipped a beat, as if she had missed a beat.

The black-uniformed people were the law-enforcers of the Tai Yi sect.

Normally, they would not even make a move, let alone such a large-scale operation in front of them?

She immediately had a premonition that something bad was going to happen.

Shua Shua --

On a mine not far from the vegetable garden that she was in charge of, more than a dozen law-enforcers rushed over and subdued the supervisor there on the spot.

A Stern law enforcer held a scroll in his hand and announced loudly, "Supervisor Yang Shan of Mine No. 3 colluded with outsiders to steal the sect's nine underworld crystals. The evidence is conclusive. Kill him on the spot!"

With that said, he raised his hand and slashed down, beheading the supervisor on the spot.

Long streams of blood splashed into her vegetable garden, scaring Xianyin so much that her face turned pale and she didn't dare to move.

Her heart, like a huge stone that had fallen into the abyss, kept sinking.

Chapter 2475 The Crystal Was In His Hands

He was completely disheartened and felt that everything was over.

This small-scale transaction had been discovered by the sect and wiped out in one go. He believed that Su Yu was no exception.

"Supervisor of mine # 9, Li Yunmei! Kill on the spot!"

"Supervisor of Spirit Herb Garden # 1, Zhao Yuncong, kill on the spot!"

"No. 5 Mine Warehouse Supervisor, Qin Fei, kill on the spot!"

"No. 3 tool supervisor, Yuan Ling 'er, kill on the spot!"

In the time it took for half an incense stick to burn, the iron-blooded announcement of the Enforcers' killing came from the mine.

Xian Yin's face was pale, and she was trembling in fear.

She seemed to be able to hear that she was next.

However, to her surprise, the enforcers stopped and said, "The other supervisors, step forward one by one and watch their heads as a warning to themselves!"

Huh?

Xian Yin was stunned. Was there nothing to do with her?

With deep anxiety, she followed the other supervisors and stepped forward one by one.

Looking at the five bloody heads, Xian Yin felt extremely guilty.

Fortunately, the enforcer did not notice.

"Now, all the slaves stop. We will start counting the number of people now," the enforcer announced on the spot, ordering all the slaves to wait for orders at their posts.

Xian Yin's heart, which had finally calmed down, once again began to thump.

"Lord Fingered, once the slaves stop, the losses they will cause will be natural talent," a supervisor said with heartache.

The enforcer said indifferently, "We have found out that there are six slaves who were ordered by the supervisor to sell the nine darkness crystals of the sect. Five of them have been captured, and only the last slave has escaped without a trace. Now, we will count the number of people. If there is one less slave in any region, it means that the person in charge of that region is involved in the reselling."

The law enforcers' expressions were resolute. It was evident that they were extremely unyielding in their handling of this matter.

Even if all the slaves had to stop working for a day, they had to find out who had slipped through the net and supervise them.

Instantly, Xian Yin's face almost collapsed. Her heart was pounding wildly, and her mind was a mess. She did not pay any attention to it.

"From now on, we'll start the investigation immediately!" The one hundred law enforcers spread out in all directions and started the investigation immediately.

Their actions were very fast and efficient. They could clear a large area within the time it takes for half an incense stick to burn.

For example, the small vegetable garden that Xian Yin was in charge of. As long as the Enforcers came to take a look, they would be able to determine whether the number of people was small or not.

Seeing the Enforcers checking the area one by one and continuously getting closer, Xian Yin's heart was filled with despair and regret.

If she was given another chance, she would definitely not be greedy for small benefits.

However, there was no medicine for regret.

“Vegetable garden number four, the roll call will begin now.”The law enforcer in black came in front of Xianyin with an exceptionally cold expression.

“Qin Buer!”

“Here!”The slave who was called immediately replied.

“Zhang Kang has it!”

“Here!”

“Cai Sen!”

“Here!”

..

The names were called out one by one. In a short while, the names of more than ten slaves were all called out.

The last one was Su Yu.

Xianyin had already closed her eyes in despair. Her heart was extremely bitter.

“Su Yu!”The enforcer shouted.

“Here!”

However, what surprised Xianyin was that someone actually answered.

She turned her head and saw Su Yu leaning against a hoe. His body was covered in dust as if he had been working here all along.

What was going on?

Xian yin clearly remembered that there was no one there before the Enforcers came.

When did Su Yu appear?

How did he pass through the sealed stairs from the upper level to the lower level?

The enforcer raised his eyes and looked at the portrait on the name list in his hand. He nodded and said, “The name list for Vegetable Garden No. 4 is correct. Pass!”

After saying that, he immediately rushed to the next area.

Xian Yin’s body was completely limp. When the enforcer walked away, she collapsed to the ground, unable to move at all.

“Sir, are you alright?”Su Yu walked over and asked with a pleasant expression.

Xian Yin had just come to her senses and hurriedly sent a voice transmission to Su Yu, “What happened?”

Su Yu replied with a voice transmission, “I don’t know why, but the information of this transaction was checked by the sect. The third incharge personally took action. I was lucky to escape.”

“I’m asking, how did you get from the upper level to the underground mine?”Xian Yin’s eyes were filled with deep suspicion.

With her grandmaster level Yellow Dao master realm, it was impossible for Su Yu to appear silently in the vegetable garden without her noticing.

“After I escaped, I came to the mine in time before it was locked down. I saw that the situation was not good, so I immediately appeared,”Su Yu said half-truthfully.

Before he returned to the sect, the third incharge had already informed the sect to seal the entrance and exit of the stairs.

He was able to go directly from the upper level to the mine, of course, it was because of the space domain.

“Is that so?”Xianyin thought about it and felt that she was too nervous just now, so she did not notice Su Yu’s return.

After thinking about it, this was the only possibility.

“Phew! You’re smart. We dodged a disaster.”Xianyin let out a light breath.

Su Yu smiled and quietly stuffed a spatial storage device into her hand. “Fortunately, I didn’t fail your order. Please check it, sir.”

The latter glanced inside and revealed a satisfied look. “You really didn’t disappoint me.”

She was very glad that she had given Su Yu the task this time.

If it were any other slave, they might not have been able to dodge this disaster so cleverly and would definitely implicate her to lose her head.

“This month, you should do some light work.”Xian Yin’s mood was much more relaxed and she was quite relaxed.

Su Yu nodded and quietly went back to work.

Xian yin glanced at his back and a strange light flashed in the depths of her eyes that was difficult to detect.

The Enforcers went to great lengths to search for him for several days, but they still couldn’t find any fish that escaped their net.

In order not to delay the mine, they had to give up.

In the following time, Su Yu was quite relaxed. He worked during the day and secretly dug out the giant nine Nether Crystal at night.

Time flew by.

A month passed.

After two months of hard work, they finally dug out the giant nine nether crystal that was hidden deep underground.

It had finally revealed its true appearance.

At a glance, it was a huge crystal that was slightly dark purple in color.

Compared to the eighth grade nine Nether Crystal, its interior was slightly turbid.

In addition to its huge size, the deepest part of it was extremely blurry.

However, Su Yu could still vaguely see that deep within the nine nether crystal, there was the outline of a creature the size of a puppy. He didn't know what it was.

“What is that?” Su Yu was delighted. Could it be another nine nether crystal?

He tried to dig up the huge nine nether crystal. After weighing it, he found that it weighed 500 jin.

In addition, there was a foreign object inside. Even if it was a relic of the lowest level, the price of this nine nether crystal could be doubled.

If he exchanged it in the sect, he could get at least 10,000 time crystals. If he exchanged it with the golden-faced woman, he could get 20,000 or even more time crystals.

20,000 time crystals should be enough for him to issue a bounty to all the sects for finding the evil woman palace at the same time.

“However, the golden-masked woman was almost caught by the third incharge this time. She should understand that the Tai Yi sect has already gotten the location and time of the next transaction. It's impossible for the golden-masked woman to go there again.”Su Yu frowned slightly, as a result, the channel for him to double the amount of time crystals was temporarily closed.

“I need to wait patiently,”Su Yu thought.

At This Moment, the third incharge once again came to the mine and held the monthly job lottery.

Xian Yin walked over and handed Su Yu a jade pendant. She said regretfully, “It's a pity that my privilege can only be used once a year. Otherwise, I could have kept you here. This is my token. Take it well.”

Su Yu was puzzled. “I don't dare to take Lord's token.”

“Take it if you want it!”Xianyin stuffed it into Su Yu's hand. “It just so happens that the task I supervised has also been completed. After that, I will return to the sect above to cultivate for a few months. If you have the opportunity to go up, take this token and look for me in the Phoenix Domain. I have an important matter that I can work with you on. If it succeeds, you might be able to become an official member of the Tai Yi sect from a slave.”

To Su Yu, this was actually not attractive at all.

So what if he became a disciple?

He did not plan to stay in Taiyi sect for a long time.

As long as he got the information he wanted, he would leave immediately.

“Thank you, sir.” Su Yu cupped his fists and accepted the token.

“Hurry up and go draw lots!”

Su Yu left quickly and went to draw lots. This time, he did not have any external help, and as expected, he was not so lucky to draw the vegetable garden.

He drew the number nine mine’s mining position.

Starting tomorrow, he started working.

After staying in the mine for several months, Su Yu already knew that the mine here was much tougher than the soil in the vegetable garden.

Therefore, the newcomer who lived next to Su Yu would be exhausted to death every day.

The special hoe that Su Yu bought might not be of much use.

When the mission for the vegetable garden was completed today and the sky had not yet darkened, Su Yu immediately went to the tool hall on the upper floor.

“I want a shovel that crystallizes in 100 hours.” Su Yu still put on a perfect disguise.

When the shopkeeper heard this, he could not help but widen his eyes and size up Su Yu.

A tool that crystallizes in 100 hours?

How could a slave have so many time crystals?

It was impossible!

He couldn’t help but guess that the slave in front of him was actually a doorman who deliberately pretended to be a slave to hide his identity.

After getting the shovel, Su Yu immediately returned to the mine.

What made him slightly concerned was that he saw Lao Jin again, passionately telling a newcomer something.

“This Lao Jin is too enthusiastic,” Su Yu thought to himself.

The next day.

Su Yu came to No. 9 mine.

To his surprise, his neighbor, the young man, was also in No. 9 mine.

“It’s You?” The young man obviously recognized Su Yu and said with a bitter smile, “It seems that you’ve used up all your good luck and got our No. 9 Mine.”

“Why?” Su Yu glanced at the mine. It was the deepest mine among all the mines. It was no different from the other mines, right?

The young man shook his head and said, “Sigh! A month ago, our former supervisor, Li Yunmei, was beheaded for selling nine underworld crystals. A new supervisor came. He is much stricter than

the previous supervisor. If he is not happy, he will beat people up. There is no slave in this mine who is not beaten up.”

“Brother, you should take care of yourself!”

Su Yu was stunned. With the previous experience, the later supervisor naturally did not dare to slack off.

In that case, his luck was indeed not very good.

“What are you all standing there for? Do you want to be whipped?” A rough voice shouted, followed by the sound of whipping, causing sparks to rise on the ground.

Chapter 2476 Killing Two Birds With One Stone

Su Yu turned his head and saw a bearded boorish man sitting on the armchair, glaring at them with his tiger-like eyes.

The young man trembled in fear and immediately picked up the shovel to dig.

Su Yu was about to go as well, but the boorish man pointed his whip at Su Yu and said, “Newbie, come here!”

The people in the No. 9 Mine had not changed much, so he immediately recognized Su Yu as a new face.

“What are your orders, sir?”

The boorish man pointed his whip at the deepest part of the mine that was being excavated and said, “Your mission is to dig ten meters deep in three days. If you fail, Humph!”

PA --

His whip whipped the ground hard, making an ear-piercing explosion sound.

“I understand.” Su Yu picked up the ordinary shovel and walked over.

When he passed by the young man, he cast a sympathetic look at Su Yu and comforted him, “Brother, bear with it. This is the method of the new supervisor. Every one of us has been treated like this before.”

He gave the slave an impossible task and then took the opportunity to punish wantonly, so as to quickly establish his own prestige.

This method was not very clever, but it was quite effective.

Su Yu nodded and walked to the deepest part of the mine.

This was also the deepest part of the entire mine.

Su Yu stood in front of a huge stone mountain.

He tried to shovel with a normal shovel, but even a shallow white mark was not dug out.

“It can’t be?” Su Yu was stunned.

Although he had long heard that the mine was much harder than the soil in the vegetable garden.

But how could it be so hard?

With just the normal shovel in his hand, it would be impossible to dig ten meters deep, let alone three days, even a month.

Fortunately, Su Yu bought a special shovel.

During the day, he would use a normal shovel to knock around, just for show.

When night fell, he held a special shovel.

Ding --

With a shovel, a large piece of the hard mine was dug out like mud.

"It's still quite easy." Su Yu smiled faintly.

The next day.

The boorish man came to the mine with his hands behind his back, ready to urge the slaves to carry out today's work.

However, when he came, he saw a group of slaves gathered in the deepest part of the mine, exclaiming in amazement.

"It's a miracle! It's really a miracle!"

"Brother Su, how did you do it? What's the trick?"

"That's right. When you left yesterday, you only dug less than an inch. How did you dig three feet deep in one night?"

The boorish man frowned and walked over with his hands behind his back. he shouted, "Move aside!"

The group of people moved aside, revealing the strange mine.

"Huh?" The boorish man raised his eyebrows. His eyes were filled with surprise and disbelief. Then, he looked at Su Yu, "You dug it?"

"What else?" Su Yu asked back.

Other than him, could it be that there was someone else helping him dig?

"Impossible! How did you do it? Tell me!" The boorish man glared at him.

What he wanted was not Su Yu's rapid progress in digging the mine, but deterrence.

"Sir, I only care about mining. If you think I'm digging too fast, I can slow down. Of course, I'll report to the sect." Tai Yi sect only wanted slaves to increase efficiency. Who would dare to order the slaves to slow down?

The boorish man stared at Su Yu coldly. After a long while, he bared his teeth and said, "Newbie, you probably don't understand what kind of situation you're in."

Su Yu's expression was indifferent as he said, "I don't need you to care about my situation, sir."

As he said that, he continued to dig the mine expressionlessly.

"HMPH!" The boorish man snorted. "We'll see!"

There was still a long way to go, yet a mere slave dared to stab him. He really didn't know how to write the word 'death'!

Su Yu didn't think much of it. After getting the scroll, he prepared to return to the resting room and wait for the evil winds of the Netherworld to arrive before leaving.

Unexpectedly, the young man next door knocked on the door and said, "Brother Su, I'm here to get the Scriptures."

Su Yu hesitated for a moment and invited him in.

"Brother Yu, you're thinking too much. I'm just lucky." Su Yu was too lazy to explain further.

The neighbor in front of him was called Yu Xiang Wan. She also came from a small, remote region.

"Is that so? Brother Su, you're not afraid of the evil winds of the nine Netherworld and often go out in the middle of the night. Is that also luck?"

However, Yu Xiang Wan suddenly changed her bitter expression and said mysteriously.

Su Yu Eyes, just looked up at the stone door, whether closed.

"Su my eyesight is poor, unexpectedly did not see, in the elder brother is the person that conceals not to leak." Su Yu Light Way, a trace of obscure mysterious way power, quietly condenses in the palm.

If they threaten him with it, he won't mind killing them to keep them quiet.

"Compared to the deep hidden, where compared to the space, the field of life of brother Su." In Xiang Wan half-smile.

He seemed to be exhausted as he went back to the lounge to sleep every day. In fact, he had the means to observe the situation outside, so much so that even Su Yu could see that he had mastered the life domain.

As for the space domain, he should be the one who noticed that Su Yu had used the space domain when he escaped from the Enforcers' investigation that day, right?

"Brother Yu, you're not here tonight to compare with me, right?" Su Yu seemed to have a deeper meaning.

Yu Xiang Wan laughed out loud, and her demeanor changed drastically. "Of course not! I'm here because I want to cooperate with you, brother Su."

"Oh?" Su Yu remained calm.

Yu Xiang Wan said, “How can a person who controls space and life be willing to be a slave for the rest of his life?”

“What do you mean?”

Yu Xiang Wan said, “What I mean is that we should not be willing to be mediocre. We should seek to get rid of this place. At the very least, we should become members of the Tai Yi sect.”

This was yet another meaningless reward for Su Yu.

“I’m not interested,” Su Yu said straightforwardly.

However, Yu Xiang Wan seemed to have done her homework and chuckled. “Since you’re not a member of the Tai Yi sect, don’t you care about the news about the Vile Palace?”

Eh?

Su Yu’s pupils finally shrank slightly. “You Know About It?”

“Of course not,” said Yu Xiang Wan, “But I do know that as an official member, if you have enough time crystals, you can borrow the Tai Yi Supreme Heavenly Mirror once. If you don’t even know where the vile palace is, even if you put a bounty on all 344 sects in the entire dream boundary, no one would know about it.”

The Supreme Heavenly Mirror?

“This mirror can only be used by those who are above the hall master of the Tai Yi sect. The amount of time spent on this mirror is also astronomical.” Yu Xiang Wan did not hide anything, “If you’re confident, you can try to rise to the position of the hall master. If you have other plans, just treat it as if I haven’t been here today,” said Yu Xiang Wan honestly

Her words made Su Yu fall into deep thought.

If what he said was true, the Supreme Heavenly Mirror could search for the heaven and earth, far surpassing the reward.

Then his plan would have to be slightly changed.

At least, he would not wait for the person who knew the truth to get the reward.

“Let me think about it.” Su Yu did not agree immediately.

On the contrary, Yu Xiang Wan showed a hint of relief.

If Su Yu agreed immediately, he would doubt if Su Yu was sincere.

Since he was considering it, then he was tempted.

After sending him off, Su Yu waited for the evil wind to blow and immediately headed to the mine to continue digging.

One day passed, and two days passed.

Finally, the next day, he completed the task of ten meters deep as promised. The boorish man could only stare at him coldly, but he could do nothing.

When the day's work was over, Su Yu immediately went to the upper level.

After spending a crystal of time, he successfully entered the library and flipped through the historical materials of the Taiyi sect.

After searching for a while, he did find information about the Taiyi Supreme Heavenly Mirror.

The description was exactly the same as that of Yu Xiang Wan.

"It's really like that." Su Yu pondered for a long time. Seeing that it was still early, he immediately rushed to the Phoenix territory where Xian Yin was.

Using the token, the person who was guarding the territory informed Xian Yin for him.

Not long after, Xianyin walked out with a face full of joy and said, "It's great that you can come. Follow Me!"

She led Su Yu into the Phoenix Domain.

The people living in the Phoenix Domain were all female members of the Tai Yi sect. There were very few men.

The appearance of Su Yu, a male slave, made many female members of the sect who passed by frown.

Under Xianyin's lead, Su Yu and Xianyin came to a pavilion.

In the pavilion.

Xian Yin was very enthusiastic as she poured tea for Su Yu.

Su Yu went straight to the point. "My lord, what do you mean by cooperation?"

Since they were going to work together with Yu Xiang Wan to become official staff members, they might as well ask Xian Yin what she meant by cooperation.

Xian yin set up an isolation formation around the two of them, earlier on, she said carefully, "Due to the fact that there were people from the sect who were selling the nine nether crystals in the sect, the sect decided to send out a batch of troops to the Dark Moon tribe, which is a month away."

"That Dark Moon tribe is very likely to be the place where those merchants stay."

Su Yu thought for a moment and said, "What does this have to do with our cooperation?"

"If you can make a contribution in the process of killing the Dark Moon tribe, the lowest reward is a hundred time crystal. If you can make a great contribution, you can smoothly become an official disciple." Xianyin's eyes were full of expectation as she looked at Su Yu, "As far as I know, the sect will send some slaves to fight together. As a disciple, I have the right to recommend a disciple."

Su Yu's expression was calm. "Then what do you want me to help you with this mission?"

“Hunting merchants!” Xianyin’s eyes flashed. “Since you’ve seen merchants, you should know that they have an abnormally large amount of time crystals, right?”

“I recommend you to join this operation, but as a price, you need to help me hunt a merchant.” Xianyin said, “The time crystals of the merchants will belong to me, and the credit will go to you. If I obtain the time crystals, you can make a great contribution and become an official disciple. We’ll both benefit from it. How about it?”

It sounded wonderful.

Unfortunately, Su Yu didn’t believe a single word she said.

Why should she give the credit for killing the merchants to Su Yu?

Wasn’t it good to obtain both the time Crystal and the credit?

He didn’t think that Xianyin was such a generous person. On the contrary, she was greedy for money. Once, she almost whipped Su Yu to death in order to snatch a kilogram of eighth grade nine nether crystal.

Could such a person be trusted?

“If you agree, I’ll recommend it to the sect now. Then, from now on, you don’t need to mine for the time being. You can stay in the upper level until the day you set off,” Xianyin said.

Su Yu thought for a moment and said, “Please give me one night to consider. After all, this is a big matter.”

“Okay, I’ll wait for your reply tomorrow night,” Xianyin said straightforwardly.

She personally sent Su Yu out of the Phoenix Domain and watched Su Yu enter the lower level mine. The smile on her face finally disappeared.

What replaced it was traces of coldness.

Chapter 2477 Unity

Speaking of which, Su Yu returned to the mine.

Before the arrival of the nine nether winds, Su Yu quietly came to Yu Xiang Wan’s resting room.

“Hurhur, I knew brother Su would come. The good wine is ready.” Yu Xiang Wan sat in her room. By then, the table was already filled with good wine and dishes, waiting for Su Yu to come.

Su Yu looked at him meaningfully. “Brother Yu, can you tell me more about the cooperation you mentioned?”

“Brother Su, you’ll know when you see it.” Yu Xiang Wan was prepared for this and took out a mysterious scroll.

He handed the scroll to Su Yu.

Su Yu opened it and took a look. He closed the scroll with a guilty conscience and returned it to Yu Xiang Wan.

As expected, the content of the scroll was exactly the same as what Xian Yin had said.

Both of them had proposed to Su Yu to collaborate. Who should he choose?

“This is a top-secret mission issued by the sect.” Yu Xiang Wan smiled mysteriously and added, “Brother Su, before you make a decision, you can look at one more thing.”

He took out another scroll. The difference was that this scroll was engraved with a total of nine very special seals, which were extremely sturdy.

If there was no specific method to open the seal and only violence was used, the scroll would only be destroyed for no reason.

However, Yu Xiang Wan held a special special needle in her hand, as if she was unlocking it, she easily broke the seal.

This method of breaking the seal made Su Yu take a deep look at Yu Xiang Wan.

This person was really not simple.

If she was not mistaken, that seal should be the unique Tai Yi sect’s Tai Yi nine phases seal, which was created by the founder of Tai Yi sect and passed down to the beginning of this era.

So far, no one had succeeded in breaking the seal.

It had only been a short while since Yu Xiang Wan came to the Tai Yi sect from the outer realm, and she had already succeeded in breaking the seal.

If news of this got out, the entire Tai Yi sect would probably be shocked.

“Hurhur, I’ve made a fool out of you, brother Su. Some of your little tricks are not as good as your two supreme domains.” Yu Xiang Wan smiled nonchalantly and pushed the scroll over. “Brother Su, take a look at this.”

Su Yu opened the scroll and frowned immediately.

The two scrolls were from the Tai Yi sect, but the content was very different.

The former was a group of people invited by the sect, including slaves, to annihilate the tribe.

However, this top-secret scroll was sealed. What it said was that they would send a group of slaves to attract the attention of the merchants in the tribe. They would send another group of people to create a diversion and outflank them from the front and back.

“Brother Su, do you understand the intentions of the Tai Yi Sect?” Yu Xiang Wan’s smile disappeared and was replaced by a chill. “The Tai Yi sect is sending us to our deaths!”

Su Yu’s eyes turned slightly cold.

He had long felt that Xian Yin was greedy and greedy. She would not be so kind as to help him become an official member of the Tai Yi sect.

As expected, not only did she not have such intentions, she even harbored evil intentions. Her intentions were really to be punished!

“Brother Yu, you know that this is a trap, yet you’re still prepared to jump into it?” Su Yu asked thoughtfully.

Yu Xiang Wan shook her head and laughed. “I’m not the kind of person who would allow others to trample on me. Don’t worry, I already have a plan!”

Su Yu looked at him. In his mind, he had already thought of a total of nine feasible methods. However, he did not know that Yu Xiang Wan had thought of such a method.

“I won’t hide it from you, brother Su. I’m from my hometown, and I’m somewhat proficient in the art of layout,” Yu Xiang Wan said with a chuckle, there was a hint of pride in his expression. “In my calculations, this time, I want to make sure that the Tai Yi sect doesn’t succeed in stealing the chicken, and I want to help the two of us get out of slavery and become official members.”

He was full of confidence and spoke in a mysterious manner.

Little did he know what he was thinking. Su Yu had already grasped everything from what he said.

Wasn’t it just telling the truth to the tribe before they attacked the tribe so that they would be careful against the enemies behind them, so that he could relieve the pressure and seek benefits from the chaos?

This was the lowest of the nine strategies that Su Yu came up with.

He had a more perfect strategy!

However, seeing that Xiang Wan was beaming with joy and was especially confident in herself, Su Yu smiled but did not say anything. He was too lazy to give her any pointers.

He would correct him in secret then.

The two of them hit it off and came to an agreement.

The next day, it was another day of hard work.

Su Yu had successfully completed the three-day mission. He could not make things difficult for him, so he tried to make things difficult again.

“Su Yu, you don’t have to mine anymore today. Just be in charge of transporting these minerals to the warehouse,” the boorish man ordered.

Transporting the minerals was not tiring work. It was much easier than mining.

However, that was under the premise that no one had tampered with it.

If there was a flaw in the transportation of the ores into the warehouse, they would be severely punished by the sect!

The worst case scenario would be an extension of the slave's life, and the worst case scenario would be death.

This supervisor didn't have any good intentions!

"Hurry up and Go!"The boorish man lashed out with his whip.

Su Yu looked at the cart of ores without batting an eyelid. Every cart of ores weighed a standard 10,000 jin.

However, this cart was missing a full 1,000 jin.

With such a large missing ore, it would be strange if Su Yu wasn't immediately arrested when they reached the warehouse.

"I'm sorry, I'm not feeling well today. I don't plan to do any work."However, to the boorish man's surprise, Su Yu directly refused.

The boorish man simply couldn't believe it. Su Yu had been in the mine for at least two months. Didn't he understand the consequences of being lazy?

People who were lazy didn't have time to crystallize.

And without crystals, they definitely wouldn't live past tonight.

"Su Yu, if you don't work hard, the sect won't force you. But because of your words and actions, today's time crystals are gone. You should think about it carefully,"the boorish man said.

Su Yu shrugged, put his hands behind his head, and slowly walked to the resting room.

"You're courting death!"The boorish man said sternly. He did not know that Su Yu had a lot more time crystals than he did.

Even if he died, Su Yu would not die.

"You don't have to worry about me, sir."Su Yu ignored the warning and returned to the resting room, causing the slaves who had suffered the boorish man to cheer in secret.

This time, the prestige of the supervisor had been swept away.

However, they were very curious about how much time Su Yu still had. How dare he not work?

"There's still a long time. Let's play slowly! HMPH!"The boorish man's eyes were filled with intense killing intent.

In fact, the reason why su Yu dared not to work was because he had a lot of time crystals.

Secondly..

Almost as soon as Su Yu left, a disciple of the law enforcement hall arrived. He held a scroll and shouted to the mine, "The underlings, step out!"

"Su Yu, Yu Xiang Wan, Zhao Feng, Yuan Qiang..."

In the resting room, Su Yu opened his eyes slightly and murmured, "I can finally move my hands and feet."

He had been in the eight-star civilization for more than two months, but he had never had the chance to make a move.

Now, perhaps it was time for him to make a move.

The group of people came to the upper level, and there was a special clerk to explain the operation to them.

"You are all excellent slaves recommended by the supervisor and have the ability to fight from afar." The speaker was the Hall Master of the Mission Hall. He gave each of them a spatial storage device.

Inside were 30 time crystals, Daomis to replenish the power of the Dao Master, and a map of the Tai Yi sect.

"We will set off immediately in five days. There will be ten disciples of the sect accompanying us!" The leader of the Mission Hall said. "According to our control, there are less than ten Dao Masters of the tribe. With your strength, you can easily destroy them."

Ten disciples and 20 slaves could easily destroy the other party.

"Now, all of you rest on the same spot. We will set off immediately after five days!"

After settling them in a domain, the Hall Master of the Mission Hall left.

"Everyone, I Am Yun Lanfeng. I come from the dry cloud region!" A young man with three eyes and a head full of long blue hair stood up.

His eyes were as cold as a goshawk and extremely sharp.

"As everyone knows, we will be dealing with a group of tribal people with unknown strength this time!" Yun Lanfeng was not muddled by the words of the hall master., he said warily, "We have gone through great hardships to come to the eight star civilization. It is best to be cautious in everything."

Many young men nodded secretly. Being able to become the top figures in their respective outer realms, their brains naturally would not be too bad.

"Just tell us your intentions. We are not stupid people," said a clever young lady.

Yun Lan Feng nodded and extended his palm, slowly releasing his powerful cultivation of the advanced stage of the great venerate realm.

"We must gather together and not become scattered sand! We need a leader to make the decision." Yun Lan Feng said, "I am not talented, and I feel that I can

take on this heavy responsibility. If anyone is not satisfied, we can use force to compare strength.”

Everyone did not refute.

They were alone and weak. Working together was the biggest way out.

The one who had objections was the one who would take the lead.

In this operation, the decision-maker would obviously be able to gain more advantages and obtain more credit.

This was related to breaking away from being a slave and becoming a disciple. Who would be willing to give up the lead?

“Let me test you!”The Smart Young Lady who spoke jumped out. Her cultivation had also reached the advanced stage of the Grandmaster realm.

Yun Lan Feng nodded slowly. “Alright! Be careful!”

Shua --

The third eye on his forehead suddenly opened and shot out a sharp corrosive dark light.

The girl was not simple either. She grabbed a string of bells with one hand and shook them lightly. Immediately, the dark light that attacked her flew past her head in a distorted manner.

Yun Lan Feng himself was also affected by the sound. His eyes revealed a moment of confusion.

“Go!”The girl seized the opening and an emerald poisonous snake flew out from her sleeve, biting towards Yun Lan Feng.

At this critical moment, Yun Lanfeng’s body shook. All the clothes on his body were blown away, revealing a body that caused one’s scalp to go numb.

Below his neck, his entire body was covered with pitch-black eyes.

At this moment, they all opened their eyes and shot out hundreds of dark lights in all directions.

The attacking poisonous snakes could not dodge and were pierced into pieces by the dark lights.

Ding Ding Ding --

The young lady once again shook the bell. However, because there were too many black lights, she was unable to dodge no matter how she twisted it.

Helpless, she could only lightly jump back and sigh, “I admit defeat!”

The black lights on Yun Lanfeng’s entire body withdrew and he proudly looked at everyone present.

Several advanced stage great venerate realm youths who were eager to give it a try hesitated for a long while before finally withdrawing their fighting intent.

Yun Lan Feng had a pair of strange eyes. It was indeed a tricky situation.

They might be able to deal with him for a while, but their chances of winning were not high. Moreover, they might even expose themselves.

“He’s a ruthless character.”The corner of Yu Xiang Wan’s mouth curled up slightly as she sent a voice transmission to Su Yu.

Su Yu nodded his head without batting an eyelid. “You can say that. At least he’s a mysterious dao master who has concealed himself quite well.”

Others might not be able to tell, but how could he not be able to detect the other party’s true cultivation level?

The Real Mysterious Dao Master!

But just like Su Yu, his cultivation was hidden extremely deeply.

The other slaves probably thought that that was the limit of the misty cloud wind just now. Little did they know that that was just the tip of his iceberg.

Chapter 2478 Benefits To The Fisherman

Yu Xiang Wan’s eyebrows twitched as she looked at Su Yu in surprise. She thought that only she could tell.

She did not expect that Su Yu’s eyes were not inferior to hers at all.

“Since everyone has no objections, from now on, all decisions will be made by me,”said Yun Lan Feng.

Su Yu and Yu Xiang Wan looked at each other, got up at the same time, and left the small circle of 18 of them.

Both of them had a tacit understanding and did not tell them about the top-secret notice of the sect.

If they told them now, firstly, they might not believe it. Secondly, if they leaked the news, the Tai Yi sect would change their strategy.

They could only wait until they were about to attack the tribe before reminding them.

“What do the two of you mean?”Yun Lanfeng looked at them with a deep and cold gaze.

Yu xiang wan said calmly, “I’m acting alone and don’t listen to anyone’s orders.”

Yun Lanfeng sized up Yu Xiang Wan. The cultivation that Yu Xiang Wan displayed was merely at the heaven tier, far inferior to Yun Lanfeng.

“Everyone’s fates are linked as one. You Don’t have the right to withdraw,”Yun Lanfeng said bluntly.

Yu Xiang Wan turned around and walked to another corner to show her attitude.

“HMPH!”Yun Lanfeng snorted. The eye on his forehead shot out a ray of dark light and shot toward Yu Xiang Wan’s back to teach her a lesson.

However, Yu Xiang Wan did not Dodge and allowed the dark light to hit her.

There was an uproar among the slaves.

It was a strike from a grandmaster in the advanced stage. If one did not put up any resistance, it was equivalent to seeking death.

However, what surprised everyone was that when the dark light shot into Yu Xiang Wan's back, it was like a clay ox entering the sea. There was no movement at all.

"I can finally rest." As if nothing had happened, Yu Xiang Wan leaned against an old tree and massaged her legs. "I'm so tired from mining every day."

This scene caused the pupils of all the slaves to constrict. They took a blow from Yun Lanfeng, but they were safe and sound.

Was he too powerful, or was he gifted?

It should be the latter, right?

Only Su Yu took a deep look at Xiang Wan and had reservations about this.

He could not see through Yu Xiang Wan.

Seeing how Strange Yu Xiang Wan was, Yun Lanfeng narrowed his eyes and gave up trying to force him.

If he could not force him, his prestige as the leader of the team would be greatly reduced.

"What About You?" Yun Lanfeng stared at Su Yu.

Su Yu folded his hands in his sleeves and said calmly, "Same."

What he said was the same as what Yu Xiang Wan said.

"Sure! But you have to survive my attack before you have the right to say that!" Yun Lanfeng opened his hundreds of eyes that had just closed.

Hundreds of dark beams of light came down from all directions. There was no way to avoid them.

Compared to the sneak attack on Yu Xiang Wan, this attack was obviously using all of his strength. He did not want to see another slave who was out of control.

Many slaves were looking at each other, wanting to see if Yu Xiang Wan would lend a hand.

Unexpectedly, Yu Xiang Wan was sitting cross-legged on the ground with her left hand supporting her chin. She looked at her with a curious expression and did not show any intention to help.

"He should know when to retreat or advance," one of the slaves analyzed.

However, Su Yu's actions were beyond everyone's imagination.

They saw that Su Yu had his hands folded in his sleeves. He neither dodged nor dodged, allowing hundreds of black lights to hit his body.

PFFFT! PFFFT! PFFFT! PFFFT

With a series of solid hits, Su Yu was hit hard.

Unlike how Xiang Wan had absorbed the Black Light with a strange method, Su Yu had to endure it.

However, he smiled as if nothing had happened. "Seems like I have the right to withdraw from the both of you."

After dusting himself, he came to another tree and sat down cross-legged.

Yun Lanfeng took a deep look at Su Yu. "Then, I can only wish the both of you the best of luck in your operation in a few days."

"Thank you," Su Yu replied indifferently.

Five days was only enough for them to adjust their state of mind, and the Hall Master of the Mission Hall arrived as promised.

Behind him, there were several disciples, including Xian Yin, whom Su Yu was very familiar with. She smiled at Su Yu and greeted him.

"Now, set off immediately!" With an order, the ten disciples and twenty slaves immediately left the sect.

They rode on a strange flying magical treasure of the sect and advanced rapidly.

The flying magic treasure was a copper carriage.

Unlike the magic treasures Su Yu had come into contact with in the past, they all consumed crystals.

This item actually consumed eighth grade nine nether crystals.

"Nine nether crystals can also be used as energy?" Su Yu thought to himself. He had been in the sect for two months, but he had never heard of or seen a large-scale use of nine nether crystals?

The Tai Yi sect had been digging for years at all costs, so it should have a great motivation.

But at the moment, the nine darkness crystal was not very useful.

"There are secrets inside that I don't know about, right?" Su Yu guessed secretly.

The group traveled a long distance.

Thirty days passed in a flash.

They were very far away from each other, and they could see a tribe standing on the horizon.

Simple and crude houses stood side by side, forming a small town.

"The destination is ahead." The leader of the team waved his hand, making everyone stop. He said, "Now, everyone split into two groups. One group will attack from the left wing, and the other group will attack from the right wing."

Under his arrangement, the ten disciples would form a group and the twenty slaves would form a group.

Su Yu's eyes flashed slightly. From the looks of it, everything was as the top secret information indicated. They were the sacrificial victims.

As expected, the ten disciples looked like they were going to attack the left wing.

In reality, they would retreat halfway and let the twenty slaves attack the tribe without knowing anything.

“Yes!” Everyone said.

Xian Yin walked over and encouraged su yu, “Su Yu, I believe in you. With Your Intelligence and wisdom, you will definitely be able to obtain great merit this time. I look forward to your performance!”

Her expression was sincere and extremely sincere.

If Su Yu had not already known of her plans, he would probably have been fooled by her appearance.

“Lord, be careful too.”

Xian Yin’s snow-white chin gently nodded. “You too. We will meet up in our tribe.”

Both parties were ready. The hall master finally said to the slave side, “You must all go all out. If you fail the mission because of your unfavorable attack, don’t even think about getting the time crystal when you return!”

They only obtained the thirty time crystal when they came.

And they still needed thirty time crystals to support their hourglasses when they returned.

Unless they already had so many hourglasses.

Yun Lan Feng and the others felt a chill in their hearts and nodded their heads.

Both sides immediately took action.

The slaves quietly moved to the right wing.

The gatekeepers on the left wing also quickly left.

When they moved to an area that neither side could investigate, the group of gatekeepers led by Xian Yin quickly retreated and left the tribe.

“Hehe, a bunch of stupid slaves. Do they really think that credit is so easy to get?”

“Naive people need to pay tuition fees. This time, let them know that there’s no such thing as a free pie in the sky.”

Xianyin’s pretty face curled into a cold smile.

This time, it would be difficult for Su Yu not to die.

The experts in the tribe were not as rare as the mission said?

If Su Yu and the others attacked, only death awaited them!

There was only one reason why she wanted to kill Su Yu -- how could she allow others to sleep beside her bed!

Su Yu was the only one who knew that he was selling the nine underworld crystals. If he did not die, she would not be able to sleep or eat in peace.

In the tribe.

A group of merchants wearing masks were discussing in a house.

“Jin Yue, because of your carelessness, we lost the Tai Yi Sect’s trading channel. You can tell us about this yourself. How should we punish you?”One of the people wearing a bronze mask said.

Only the person wearing the bronze mask stood on the spot. The others all knelt down on one knee.

The status of this person was self-evident.

Jin Yue was the gold-masked woman. Her eyes were gloomy and helpless. She said, “I am willing to accept the punishment. I will only be punished by elder Mo. .”

Last time, the Tai Yi sect had detected their trading, which caused all their subsequent trades with the members of the Tai Yi sect to be interrupted.

This matter still alarmed the higher-ups, elder Mo, who personally came to this stronghold.

Jin Yue was already mentally prepared.

“Good!”Elder mo said indifferently, “In view of your serious negligence, I will follow the rules of the Devil Sect and revoke your trading qualifications. At the same time, I will pressure the devil sect and receive the punishment of being locked up for a thousand years.”

Jin Yue’s face was gloomy, and she felt helpless in her heart. She could only accept her fate, “Your subordinate obeys...”

Di Di di di --

Suddenly, urgent cries sounded from the waists of the dozens of merchants present.

Jin Yue’s expression changed and she said, “Not good, an outsider has triggered the tribe’s alarm formation.”

Elder Mo’s expression tensed up. He waved his sleeves and a clear light screen appeared in front of him.

In the light screen, a group of youths were rushing over from the right side of the tribe.

“These are all slaves of the Tai Yi faction, right?”Elder mo squinted his eyes and said slowly, “The Tai Yi faction is really capable. How dare they send 20 slaves to their deaths?”

A merchant asked, “Elder, let me go. I’ll settle everyone in a cup of tea.”

Elder mo nodded his head slightly. “Be Quick.”

--

At that time.

Yun Lan Feng brought a group of slaves and left in a hurry.

They were fully focused and prepared to fight with all their might.

When they were about to approach the tribe, Su Yu and Yu Xiang Wan looked at each other.

The latter suddenly stopped and raised his voice. "Everyone, stop. This is a trap."

Upon hearing that it was a trap, Yun Lanfeng and the rest stopped in their tracks and looked at Su Yu and Yu Xiang Wan who were hanging far behind the team.

"What are the two of you doing?" Yun Lanfeng was displeased.

Yu Xiang Wan said solemnly, "This mission is a trap set up by the sect for us slaves. They want us to be the sacrificial lamb and attract the attention of the strong people in the tribe. The real main force will create a diversion and attack from the other side."

When they heard that, everyone's heart immediately wavered.

"Nonsense! The mission is in front of us and it's causing chaos in the People's hearts. The two of you really don't have good intentions," Yun Lanfeng reprimanded them without hesitation. "Everyone, remember, this is the only chance for us to obtain credit and become official members of the sect."

"The two of them tried to bewitch us so that they could take the initiative and get the credit, right? Such petty tricks can't Fool Us," Yun Lanfeng said rationally and calmly.

When everyone heard that, they also felt that it made sense.

From the start, the two of them had been acting sneakily. It was indeed not worth believing.

"Let's Go!" Yun Lanfeng led them into the tribe decisively.

When Su Yu and Yu Xiang Wan saw this, they could only sigh.

"Brother Su, we've done our best. They're blinded by greed and can't be saved," said Yu Xiang Wan. "Let's go. With them attracting the target, we can hide behind them and reap the benefits."

Su Yu looked at the group of slaves with a regretful look. He sighed and retreated together with Yu Xiang Wan, concealing themselves.

Everything was waiting for the right time!

Chapter 2479 The Power Of An Elder

Not long after, the sounds of fighting could be heard.

Yu Xiang Wan's eyes gleamed. "We can reap the rewards immediately!"

Su Yu was silent, but his eyes flashed with a strange light.

It was the worst idea to reap the rewards. Su Yu did not bother to do so.

Yun Lan Feng led a group of strong young men. Before they could sneak into the tribe, a female young man at the end of the group suddenly let out a scream.

Everyone turned around and saw a strange human figure drilling out from the shadow of a huge rock.

Blood splattered everywhere and dyed the human figure's face, causing his appearance to appear exceptionally ferocious.

"A bunch of crows and dogs. You all want to sneak attack the Demon Sect's stronghold? You Don't know Death!"The newcomer threw the female young man's dead body down and his eyes shot out threads of cold light.

The sudden change interrupted everyone's plan.

As expected, they should have caught the tribe off guard, but the result was the opposite.

"What's going on? Didn't the report say that there's no detection formation near the tribe? Why were we discovered in advance?"One of the slaves' expression changed drastically, shocked and confused.

Yun Lanfeng stared at the person in front of him, his sharp eyes extremely grave. "Everyone be careful, he's a Xuan Dao master level merchant!"

Xuan Dao Master?

Everyone sucked in a breath of cold air. They were all horrified.

Please report clearly that this place was an ordinary stronghold. There were only about ten Huang Dao Master Level Dao Masters.

How could there be a powerful and invincible Xuan Dao Master?

"I don't know what the Tai Yi sect is thinking. They actually dared to send a bunch of immature juniors like you here. However, since you're here, there's no need to leave!"The latter suddenly attacked.

In front of Dao Master Xuan, Dao Master Huang was like a lamb waiting to be slaughtered.

Yun Lan Feng clenched his teeth and shouted, "There's a change in plan. Everyone, scatter and escape!"

As the decision maker, he decisively disbanded the team and took the lead to escape.

However, the direction he escaped to was actually the tribe.

Such an abnormal action immediately attracted the attention of a large number of young experts.

After thinking for a moment, they instantly understood the deep meaning behind Yun Lan Feng's action.

With Dao Master Xuan in front of them, where could they, the Huang Dao Masters, escape to?

They could only do the opposite. They could charge into the depths of the tribe and capture a few hostages. With this as a hostage, they might have a chance to escape and ascend to heaven.

Sou Sou Sou --

Therefore, a rather strange scene appeared. A group of slaves who were being chased did not leave. Instead, they sped up and charged into the tribe!

“Damn it!” Dao Master Xuan cursed in a low voice and quickly chased after them to kill them one by one.

Although there was a large group of powerful merchants in the tribe, and there was also an elder demon in charge.

However, there were also many people from the demon sect whose cultivation wasn’t considered high.

The consequences of this group of slaves barging into the tribe could be imagined.

Even though he tried his best to chase after them, more than half of them still barged into the tribe.

Instantly, intense fighting and screams could be heard from all around the tribe.

A small half of the tribe was thrown into chaos because of their intrusion.

The tribe was only so big. How could the abnormal commotion be hidden from the group of Xuan Dao Master and elder Mo who were in the middle of a meeting?

“Trash! A few juniors can’t even solve it.” Elder Mo was extremely dissatisfied.

It was fine if Golden Moon carelessly destroyed Tai Yi sect’s trading channel, but the other merchant couldn’t even solve a few juniors perfectly.

“All of you go after him, finish him in half an incense stick!” Elder mo coldly snorted. “A bunch of useless trash that can only do so much! When I return to the demon sect, I will definitely report this matter to the demon lord.”

He seriously doubted the ability of the station in front of him.

This caused the expressions of the merchants present to be very ugly. Elder Mo’s authority was so great that it was frightening. His words carried considerable weight in front of the demon lord.

Everyone’s faces were ugly as they chased after him. They were filled with anger as they chased after the slaves who had barged in.

The result could be imagined.

Those slaves still had delusions that the tribe was filled with ordinary experts. However, they would never have thought that the Xuan Dao Master who was chasing after them was only one of them. There were also dozens of Xuan Dao master experts who were not inferior to him.

In less than a moment, the sounds of fighting in all directions had quieted down.

Other than Yun Lan Feng, who had successfully escaped at the critical moment when he unleashed his true cultivation, the other slaves were all captured alive or killed on the spot without exception.

However, just as this place was about to calm down, a large layer of rolling clouds silently appeared behind the tribe.

The layer of clouds was close to the ground, and its aura was completely restrained.

No one knew how long the layer of clouds had been there for, but at this moment, it was completely motionless in a hidden place.

Within the layer of clouds, numerous powerful experts with shocking auras retracted their auras and quietly listened to the movements within the tribe.

The person before them was the leader of the three invigilators with unfathomable cultivation bases, as well as several hall masters with powerful cultivation bases within the sect.

Finally, there were hundreds of elites from the sect, all of whom were powerful and extraordinary, and were skilled in battle.

Suddenly, the sounds of fierce fighting were transmitted from the tribe. At the same time, the three stewards received a message. With a flash of light, they said, "Move out!"

Hualala --

The clouds were suddenly lifted and a large number of experts came out. Like a storm, they descended on the entire tribe and fought with the merchants who were chasing slaves.

The latter was caught off guard and hurriedly accepted the battle.

This time, the Tai Yi sect had come prepared. The number of experts far surpassed the merchants by two to one, and it was almost a two-on-one situation.

The result could be imagined. It was completely one-sided.

In just a few breaths, a merchant was killed on the spot.

The situation of the other merchants was also extremely worrisome. Danger was everywhere, and if this continued, they would die.

The three stewards hovered in mid-air, overseeing the situation from above.

Seeing the hall master and Xuan Dao master quickly suppress the merchants while the elite disciples captured the ordinary members, the entire situation went as expected.

He could not help but nod his head in satisfaction.

As for the slaves who had fallen in pools of blood, they were ignored.

This time, the decision of the slaves to attract them was clearly extremely accurate.

If they attacked directly, the merchants would definitely be on guard. They would either escape or resist on guard.

A group of slaves attracted their attention, which made their operation particularly smooth.

Time passed bit by bit, and the group of merchants retreated in defeat.

Seeing that the plan was about to succeed, Suddenly, the third incharge's eyelids twitched for no reason, and his heart beat wildly.

A deep chill suddenly rose in his heart.

Having cultivated all year round, the third incharge immediately sensed that something was wrong and looked around vigilantly.

Suddenly, his gaze stopped in front of a simple house.

In the house, a black-robed elder wearing a bronze mask slowly walked out.

Under the bronze mask, a pair of eyes that revealed an extremely cold killing intent, waves of extremely terrifying aura also rolled out from the bronze-robed elder's body.

Elder Mo was indeed extremely angry.

The local garrison was already extremely displeased that they weren't doing a good job.

However, he didn't expect that the Tai Yi sect would come knocking on his door at this time and kill his people wantonly.

How could he not be angry?

"You're courting death!" Elder Mo, who was already angry, suddenly rolled his eyes and turned blood-red. "Demonic change!"

The black robe on his body suddenly shattered, revealing an incomparably ferocious body.

His body was pitch-black in color, and veins that were as thick as snakes were constantly squirming on his body.

At the same time, his back moved, and a pair of huge wings that were a thousand feet wide appeared.

Seeing this scene, the third incharge's pupils constricted, and he sucked in a breath of cold air. "Devil Sect... Elder Mo!"

The most striking characteristic of a devil sect member was that they had a pair of ferocious pitch-black wings on their back, exuding an astonishing devil Qi.

According to the size of the wings, the members of the demon sect were divided into different ranks.

Among them, elder Mo's wings were a thousand feet wide.

There were a total of ten elders of the demon sect.

It was said that the lowest cultivation elder Mo's cultivation was infinitely close to that of the Earth Dao Master.

Elder Mo's appearance made the Third Incharge's heart beat wildly. He restrained his aura and hid stealthily. He didn't even dare to breathe loudly for fear of being discovered by Elder Mo..

At the same time, he sneakily fled out of the tribe.

He completely ignored those hall masters who didn't know that a disaster was about to befall them.

In his rage, elder Mo unfurled his thousand feet long devil feather and suddenly flashed.

Instantly, the entire world howled like ghosts, as if there were ten thousand malicious ghosts walking between the heaven and earth.

The hall masters who were happily capturing merchants suddenly felt a sharp pain in their entire bodies when they heard the ghost howls.

“Die!”

Elder mo roared as a powerful sound wave pierced through the dense devil qi and swept across everyone’s bodies.

However, the people of the tribe didn’t seem to be affected at all. Only the intruders fell to the ground in pain the moment they were swept.

The worst case scenario was that they would explode and die on the spot. Not a single remnant soul was left.

In an instant, the entire tribe turned into a river of blood.

The might of an elder of the demon sect was so great!

Even the third incharge, who had already escaped to a distance, was injured. He let out a muffled groan and spat out a large mouthful of blood.

His face was filled with shock.

The person in front of him was indeed an elder of the demon sect. Although it was very likely that he was only an elder with the lowest cultivation level.

However, his strength was still so great that it made him feel suffocated.

“Run!”At This Moment, the third incharge only had this thought in his mind.

The sudden appearance of elder Mo interrupted all his plans. Now, he could only run!

Not long after he escaped, he ran into the Mission Hall leader and Xianyin and the others who were rushing over.

“Third Incharge, we are here to provide support.”The Mission Hall leader’s face was full of anticipation.

Xianyin and the others behind him were also impatient.

If they had gone a moment earlier, they would have had the opportunity to kill the merchants. They would have plundered a large amount of time crystals and could even obtain a huge contribution.

The third incharge immediately put away the panic on his face and said seriously, “Hurry up and leave. There are peerless experts in the tribe.”

At this moment, everyone realized that the third incharge’s expression was slightly pale and frightened.

Moreover, he was the only one. There wasn’t even a single person behind him.

“Peerless Expert?”The Mission Hall leader was startled. What kind of mission was qualified to be called Peerless Expert by the Third Incharge?

“Elder of the demon sect!” After saying that, the third incharge abandoned them and ran away.

His heart was still beating wildly. He knew that the longer he stayed, the more dangerous it would be.

However, almost at the same time, a huge shadow streaked across their heads.

Looking Up, they saw a huge demon shadow that was a thousand feet wide. It had its arms crossed in front of its chest and covered the entire moon, causing the entire world to turn dark.

Chapter 2480 Pulling Teeth From The Jaws Of A Tiger

Thud --

The Third Incharge’s heart sank to the bottom of the valley, and waves of despair rose in his heart.

“Split up and run!” The third incharge struggled with his dying breath. With a loud roar, he took the lead and transformed into thousands of clones, fleeing in all directions in a disorderly manner.

Xian yin and the others also displayed their respective divine abilities. One after another, they displayed their best abilities and fled at high speed.

Elder mo snorted coldly. “Don’t even think about leaving!”

A shadow streaked across the sky and immediately, several screams rang out..

At that time.

Outside the tribe, Su Yu and Yu Xiang Wan, who were hiding, witnessed such a drastic change with their own eyes.

Yu Xiang Wan’s face was grim and unsightly. “It’s actually an elder from the Devil sect who came to this place! Our Luck is really bad!”

“Let’s Retreat!” Yu Xiang Wan said. In the current situation, it was uncertain whether they could make it back alive, let alone reap the benefits?

If they continued to persevere, they would be the fish in the sea.

However, when Yu Xiang Wan looked at Su Yu, she noticed that Su Yu’s expression was extremely calm. There was not a hint of surprise or panic on his face.

“Brother Su, you already predicted this?” Yu Xiang Wan did not believe it at all. Unless a person could predict in advance, no matter how powerful they were, they would not be able to predict the scene before their eyes.

Su Yu nodded his head. “Although it’s somewhat similar to what I expected, it can be considered as something.”

What?

Yu Xiang Wan looked at Su Yu deeply. If she did not know that Su Yu was not a braggart, she would not have been able to hold back her laughter.

Could it be that Su Yu was able to predict the current situation from the start?

Su Yu stood up slowly and looked at the brightly lit tribe with a smile. “Brother Yu, your plan of taking advantage of the situation won’t work. Why Don’t you use my strength to turn the tide?”

Yu Xiang Wan rolled her eyes. “You’re saying?”

His pupils constricted and the corners of his mouth drew in a breath of cold air. He was shocked by Su Yu’s plan.

Su Yu said calmly, “The credit that I value has never been killing the merchants. No matter how great the credit is, it’s still limited. The credit that I want is to turn the tide and save all of them!”

“Brother Yu, do you think it’s more important for the sect to kill a few merchants or to preserve their own strength?”

Yu Xiang Wan did not hesitate at all. “Of course, it’s the latter! The number of strong merchants is the foundation of the sect. As for these merchants, even if we let them be, they won’t harm the foundation of the sect.”

He understood what Su Yu meant.

Even if the two of them could kill all the merchants, the credit they would get would not be as good as saving some of the important strong merchants in the sect.

“But brother Su, how can you be sure that the sect will encounter such a huge crisis?” What Yu Xiang Wan could not understand the most was this. It was impossible for a person to predict everything.

There was a hint of coldness in Su Yu’s eyes. “If they don’t have a crisis, wouldn’t I create one?”

Upon hearing that, brother Yu instantly understood and the way he looked at Su Yu changed completely.

He was half shocked and half in admiration. Finally, he laughed. “Brother Su, you have the demeanor of an ambitious man!”

What Su Yu meant was that if the sect’s operation went too smoothly, Su Yu would spare no expense to make the sect’s operation fail and put everyone in danger. Then, he would save them.

Yu Xiang Wan did not object to Su Yu’s actions.

How many years had Tai Yi sect harmed the outer realm? How many years had they deceived them? And how many outstanding young talents had been killed?

Even if they were really killed, Yu Xiang Wan would not feel guilty at all.

“Then, are you willing to work with me?” Su Yu asked with a faint smile.

Yu Xiang Wan laughed out loud. “Why don’t you and I compare who saved more people?”

“Sure!” Su Yu laughed out loud. He suddenly felt that Yu Xiang Wan was quite suitable for him.

Both of them were good at scheming. What was more rare was that both of them shared the same temperament.

Both of them looked at each other and smiled. At the same time, both of them used their own movement techniques.

Su Yu did not bother to hide the fact that he had pulled down a corner of his eye mask. He activated his space domain and rushed over in an instant.

Yu Xiang Wan laughed. "Looks like I have to show my true abilities!"

He reached two fingers into his bosom and took out an ancient seal. "It's been a long time since I've released myself! Su Yu, don't lose to me!"

Boom --

The cultivation of Daoist Huang had suddenly soared to the level of Daoist Xuan. Moreover, his cultivation level was obviously one level higher than that of the merchants.

He took a step forward and instantly entered the tribe.

The two of them looked for the Tai Yi sect's experts who had been captured.

The first person they found was Su Yu. He controlled eight domains, so he was faster at finding people and things.

The first person they found was a hall master.

His injuries were quite serious, and most of his body had been shattered by elder Mo. Only half of his body, which was barely able to wrap around his soul, was left. He was captured by two Daoist Xuan's merchants.

"There are still fish that escaped the net!" How shocking was Xuan Dao Master's perception? They immediately discovered Su Yu's existence and charged over with furious roars.

Su Yu smiled faintly. His silver hair fluttered in the wind, and he finally released the Xuan Dao Master level that he had hidden for a long time.

A profound dao energy that was far more dense than that of the same level exploded out and clashed against the two Xuan Dao Masters at the same time.

A loud boom was heard, and the two Xuan Dao Masters were forcefully sent flying in disbelief.

Su Yu grabbed with his hand and stuffed the severely injured hall master into his storage space.

Then, he rushed to the other side at lightning speed and continued to rescue the second one.

Thus, it was as if he had entered a no man's land, saving hall master level figures from the merchants one by one. If he encountered any elite disciples along the way, he would also save them.

After half a cup of tea.

Su Yu's right eye suddenly jumped.

A sense of danger filled his heart.

Needless to say, it must be elder Mo who had returned!

Although there were still one or two hall masters that he did not save, it was enough.

Swish --

A large galaxy appeared in front of him and he left in an instant.

Yu Xiang Wan and Su Yu were almost at the same time when they sensed the danger and fled quickly.

The two of them had a tacit understanding. They did not gather together but chose to separate and escape separately.

Elder Mo returned to the tribe. In his left hand, he held a heavily injured and half-dead figure covered in blood. It was the third incharge.

In the end, he still couldn't escape elder Mo's pursuit. Thousands of clones were seen through and his true body was caught.

"What happened?" Elder Mo's eyes were cold as he stared at the injured people on the ground, as well as the many captured Hall Masters of Taiyi sect.

The group of merchants endured their injuries and knelt down on one knee to beg for forgiveness.

After learning that he had left, two young men with extraordinary strength charged into the tribe as though they had entered an uninhabited realm and saved everyone. They flew into a rage.

"Trash!" With a furious roar, an extremely powerful aura emanated from his body, sending the group of merchants flying and smashing the houses.

Cough cough --

Jin Yue's face was pale as she coughed up a few mouthfuls of blood.

"All of you, go after them!" Elder Mo was furious.

If it were not for the fact that he still needed them to serve the devil sect, he would have killed all of them on the spot.

"Yes!" The group of merchants gave chase one after another.

However, Su Yu and Yu Xiang Wan, one of them used his space domain and the other one was mysterious and unpredictable. How could they catch up to them so easily?

Even if they could sense their location, it was still extremely difficult to catch up to them.

Elder Mo was the first to chase after them, unable to contain his anger.

The direction he was chasing was exactly where Su Yu was.

Su Yu sensed the danger behind him, and his gaze changed slightly. Without any hesitation, he let go of his space domain and took a long step forward.

However, what made Su Yu feel slightly apprehensive was that elder Mo's speed was not inferior to his at all. He continued to close the distance between them.

With this speed, in less than three days, Su Yu would be caught up.

At that time, Su Yu was still far away from returning to the sect.

A Day had passed, and the distance between the two sides had narrowed by half.

The more elder Mo chased, the more apprehensive he became. He originally thought that as long as he locked onto his target, with his cultivation, he would only need to catch up to the other party for the time it takes to brew a pot of tea.

But who knew that he would actually Chase for an entire day.

“Could it be that the other party has a Supreme Flying Dharma Treasure?” Elder Mo was astounded. The Devil Sect was best at flying, and very few flying dharma treasures could compare to it.

Relying on the Tai Yi sect should be hopeless.

However, when he chased for the second day, the other party still had no intention of stopping. Elder mo truly believed that the other party had an extremely powerful dharma treasure on him.

Otherwise, he would not have been able to escape for so long.

“It’s a pity that you met me!” Elder Mo’s eyes flashed with a cruel light.

If it was any other merchant, they would not have been able to capture Su Yu.

The third day.

Elder mo saw a silver-haired human from afar. He was stepping on the galaxy, and he was a thousand steps away.

“Spatial domain?” Elder Mo was shocked. “My Dream Destroyer Realm. The only person who can cultivate a spatial domain is a descendant of the ruler of space. Could this person be one of the ruler’s Bloodlines?”

Elder Mo didn’t shrink back when he thought of this. On the contrary, his eyes shone with a bright light of shock. He couldn’t help but laugh. “This is truly a heaven-sent opportunity! I actually met a descendant of the ruler’s bloodline? and his cultivation base is so weak!”

Under normal circumstances, the descendants of the ruler of space lived in that mysterious space and were closely protected.

They were one of the most respected bloodlines in the dreambreak realm and rarely went out.

Even if they went out, they would never act alone. There would definitely be powerful experts by their side.

There were almost no descendants of the spatial ruler who acted alone like this.

If he was captured and returned to the Devil Gate, it would definitely be a great merit. It would be possible for him to rise to the heavens and become a left and right protector.

Hearing the shout behind him, Su Yu’s eyes turned solemn.

An expert that was close to the earth path master, such an existence would probably not be much weaker than the Carefree Heaven’s clone that held the heaven’s ruler.

However, Su Yu might not have no way to escape!

“Myriad forms of the Galaxy!”The galaxy under Su Yu’s feet suddenly magnified ten thousand times and enveloped everything within its range.

Elder Mo was the same, caught off guard and enveloped.

He was surprised to find that Su Yu was clearly right in front of him, but no matter how hard he chased, he could not catch up to Su Yu. Instead, Su Yu gradually disappeared on the other side of the galaxy, disappearing without a trace.

This was the space domain’s trapping technique.

Seeing that he was about to lose Su Yu’s Trace, elder Mo was anxious. With an angry shout, he released his domain, forcefully breaking a crack in the space domain, and drilled out from the crack.

He immediately looked around, but there was no trace of Su Yu?

What he saw was just a mountain.

Elder mo narrowed his eyes, “Kid, I know you didn’t run far. You’re nearby. Come out obediently and I’ll spare your life. If you don’t, HMPH, you don’t want to know the consequences.”

Su Yu used his spatial domain to trap the other party, so he naturally couldn’t use his spatial domain to escape.

He hid in the mountains below.
