

Nine-Dragon 2481

Chapter 2481 It Was A Win-Win Situation

Hearing elder Mo's threat, Su Yu held his breath and focused his mind.

The eight great domains around him had evolved into a very ordinary Green Mountain, and he was hiding in the belly of the Green Mountain.

Because of the shielding effect of the eight great domains, the aura on his body was also completely isolated.

Even though elder Mo's cultivation was close to that of the Earth Dao master, it was still difficult for him to detect Su Yu's cultivation.

After a long time, Su Yu showed no signs of offering himself to elder Mo. Elder mo snorted coldly and flapped his thousand-foot-long wings on his back. Numerous sharp sounds radiated toward the endless mountains.

Amidst the rumbling sounds, the mountains were all shattered.

The mountains and rivers of an eight-star civilization had been nourished by the DAO Energy in the air all year round, so their sturdiness was naturally far greater than that of the outer realm.

If elder Mo's attack was executed in the outer realm, it would definitely be able to easily destroy an entire civilization.

However, in an eight-star civilization, it could only tear tens of thousands of green mountains into pieces.

In the deafening sound, the green mountains where Su Yu was standing were also blasted into pieces, turning into nine huge rocks that flew in all directions.

Su Yu was hiding in one of the huge rocks.

Elder mo stared coldly at the flying rocks in the sky and stretched out a hand. He said coldly, "I'll let you witness the power of the demon sect!"

"Eternal Demonic Wind!"In an instant, a black gale blew across the sky.

The Gale ignored the barrier of the huge stone and blew directly into the stone. Those who hid within it would definitely be eroded by the black wind.

Su Yu instantly felt his body turn cold, and an intense pain of corrosion appeared within his body.

If he allowed it to develop, Su Yu would be corroded from the inside out into a pool of blood.

And if he tried to stop it, elder Mo would definitely notice if he used the power of a dao master.

He was forcing Su Yu to make a move.

However, Su Yu was not even afraid of the nine Nether Evil Wind in the mine, so how could he be afraid of a mere demon wind?

Traces of life force continued to evolve in Su Yu's body, repairing his corroded body.

No matter how much the demon wind corroded, his life force could be repaired.

After the time it takes for an incense stick to burn, elder mo had expended a lot of Xuan Dao Energy, but it did not have the slightest effect as expected. He could not help but feel suspicious, “Could it be that he has already escaped?”

However, he then shook his head, confirming his own judgment, “If he had a way to get rid of me, he would have used it in the past three days, why wait until now?”

This plan was ineffective. Looking at the rubble that fell all over the ground, elder Mo felt indignant.

“I don’t believe that I can’t find you!” He smashed the stones into pieces one by one and personally checked the internal situation of the stones.

However, the Hundred Thousand Mountains were all smashed into pieces. How Many Stones had appeared?

Checking them one by one, elder Mo alone would probably have to wait for a long time.

After ten days, elder Mo had only checked half of them.

“Elder Mo!”

“Greetings, elder Mo!”

On this day, the group of people who followed elder Mo to chase after Su Yu finally caught up with elder Mo’s pace. There was a gap of ten days between them.

Elder Mo’s eyes lit up and he said, “Just in time!”

“You are in charge of that piece of rock. Break it completely and don’t let even a grain of sand go.”

“You are in charge of the other area!”

“And you...”

With the participation of a total of ten merchants, their speed was obviously much faster.

Golden Moon was in charge of the center piece of rock. She didn’t quite understand why elder devil was so persistent.

A junior ran away so quickly. was there a need to go through so much trouble?

With this time, wasn’t it better to do something else?

Moreover, if they broke the rock, even a grain of sand had to be checked. What use was that?

However, elder Mo had given the order and they had no choice but to obey.

Under such circumstances, they carried out the task efficiently.

Half a month later, Golden Moon was standing on a huge stone with some fatigue.

After half a month of fruitless work, she could not help but doubt elder Mo’s intentions.

With a sigh, golden moon cut open the stone under her feet and split it into two halves. Then, she destroyed one half of the stone and repeated the process over and over again, crushing the entire stone into particles.

Then, she checked the stone particles one by one.

She had been doing the same job for half a month, without sleep or rest, and had long been visually tired.

Therefore, when she glanced at one of the slightly strange dust particles, she did not immediately issue a warning.

Instead, she looked at it again in a daze.

That dust particle was slightly different from the other dust particles. Although it was the same size, its texture and color were clearly different. Moreover, there was a faint hint of a spatial domain.

Suddenly, her mind jolted. Could This be what elder Mo was looking for?

She was overjoyed. Just as she was about to say something, suddenly, a beam of soul light shot out from the Speck of dust and struck the center of her brows.

In an instant, Jin Yue's soul felt a sharp pain.

Not Good, her soul was being corroded!

“Do you still need me to specifically corrode your soul? Killing You is just a snap of my fingers.” Su Yu's faint voice sounded from the depths of her soul, at the same time, a soul domain aura that caused her to tremble filled her soul.

“Soul...” Jin Yue was so shocked that she almost blurted out the words ‘soul domain’.

Fortunately, Su Yu controlled her soul with his domain, so she didn't shout out loud.

“If you want to die, you can shout out loud at any time.” Su Yu said calmly.

Jin Yue's heart was filled with extreme terror. A soul domain... this was something that only the sovereign of the soul and his descendants could control, right?

Hearing Su Yu's threat, Jin Yue's heart trembled. would it be difficult for such an existence to kill her?

“Senior, please spare my life. I have no other choice. Don't kill me,” Jin Yue said in her soul.

Su Yu snorted. “The one threatening your life isn't me. It's your elder Mo!”

“Him?” Jin Yue was stunned for a moment, then she understood and her entire body trembled uncontrollably.

She finally understood why elder Mo was so unwilling to let go of Su Yu.

Because, Su Yu was very likely a descendant of the soul ruler!

Once such a person was handed over to the demon sect, it would be an even greater contribution than the heavens!

And in order to keep the secret, elder Mo did not want Su Yu to be known by the other elder Mo, thus taking away his contribution.

As the discoverer, could Jin Yue and the merchants who were looking for him survive?

Perhaps other elders would, but elder Mo would not.

He was famous for his ruthlessness.

After all, he had worked for the demon sect for many years and was a successful Xuan Dao Master. Jin Yue immediately understood the stakes involved.

“Thank you for your guidance, senior,” Jin Yue said.

At this moment, a questioning gaze floated over. “Jin Yue, did you discover anything?”

Jin Yue hurriedly hid the strange expression on his face and the abnormal movements of his body. He shook his head and said, “No.”

Only then did elder Mo hide his gaze.

Jin Yue continued to crush the rocks without batting an eyelid. However, in his mind, he was communicating with Su Yu. “Senior, do you need my help?”

Only when he was free would Jin Yue be able to avoid being silenced.

“Put me away.”

Jin Yue hesitated for a moment, but she still followed Su Yu’s instructions and hid the speck of dust under her fingernails.

Another month passed.

After two whole months, elder Mo had turned all the nearby Green Mountains into dust, but he still couldn’t find any trace of Su Yu.

After all his efforts were in vain, elder Mo sighed deeply, “Consider me unlucky!”

If time allowed, he would continue searching.

However, as elder Mo, he could not leave the sect for too long.

He had already left for more than half a year this time. He had to go back, or else the demon lord would be suspicious.

Looking at Jin Yue and the others, elder Mo waved his hand and led them back to the garrison point.

In the hall, elder Mo concluded his inspection and said, “Since this garrison point has been discovered by the Tai Yi sect, then we must abandon it. I order you to find a new garrison point within a month and report it to the sect.”

“Yes!”

Everyone heaved a sigh of relief. Elder Mo was in a hurry to rush back and did not have the time to investigate their incompetence.

He slowly stood up and took one last look at Jin Yue. After thinking for a while, he said, "Rebuilding the station is a long and arduous task. I order you to make up for your mistakes. You must find a new channel to trade with the members of the Tai Yi sect within a year. Otherwise, you will be severely punished!"

Jin Yue was extremely grateful and bowed, "This subordinate will do my best and Die!"

She felt relieved. Finally, she didn't have to be forced back to the Devil sect.

However, the problem was, how difficult would it be to re-establish the deal with the Tai Yi sect within a year?

After this matter, the Tai Yi sect would definitely strengthen their supervision and precautions. It would be extremely difficult for the internal department members to resell the nine nether crystals in the sect again.

One year was too short.

If they couldn't complete it by then, they would still be punished.

Only then did elder Mo leave.

Everyone heaved a sigh of relief and immediately followed his instructions to move the station.

Jin Yue returned to her room. With a shake of her fingernails, dust fell out.

Under her incredulous gaze, that Speck of dust had continuously folded into a complete human.

"Senior." Jin Yue bowed.

Su Yu sized her up and said, "We meet again."

"Again? You Are?" Jin Yue was stunned.

Su Yu did not speak. He casually sat on the stone bench and said, "I have heard elder Mo's words. Now, I will give you a chance to live. Do you want it?"

"Senior, what do you mean?" Jin Yue's heart was filled with anticipation. She vaguely understood what Su Yu meant.

Su Yu didn't say a word. He took out a spatial storage device, opened it, and threw it on the ground.

Immediately, a nine nether crystal the size of a cow fell to the ground with a loud bang.

Seeing this object, Jin Yue was obviously stunned. Then, she screamed, "Seventh grade nine Nether Crystal?"

Seventh Grade?

Su Yu secretly nodded. He had expected it.

This huge nine nether crystal was obviously darker than the previous eighth grade nine Nether Crystal.

"Take a closer look," Su Yu said indifferently.

Jin Yue's face was full of excitement and excitement. Her initial estimate was that this nine nether crystal was at least 500 Jin.

Upon hearing Su Yu's words, Jin Yue's heart pounded wildly. Could it be..

She took out a magical artifact and placed the nine nether crystal on it.

Not long after, a line of shocking words flashed on the magical artifact.

"Seventh grade nine Nether Crystal, 500 Jin in weight."

"Heavens! It's actually a strange crystal?" Jin Yue exclaimed as she covered her mouth, her face full of disbelief and shock.

Seventh grade nine nether crystal was already extremely rare, and such a huge one was even rarer.

So Be it, there was actually a strange crystal inside!

She stuck on the nine Nether Crystal and looked inside. As expected, she could see the outline of a black shadow inside. She didn't know what it was.

Chapter 2482 Returned To The Sect

"Senior, you mean to sell it to me?" Jin Yue was ecstatic.

Su Yu nodded. "This is only the beginning. From now on, I can be your station and the trading channel of the Tai Yi sect."

Hearing this, Jin Yue's heart finally relaxed.

At this moment, she only needed to worship Su Yu as a bodhisattva.

But at random, her face fell and she smiled bitterly, "Senior, maybe I can't even start."

She looked at the 500 Jin of seventh grade nine nether crystal with a helpless expression.

Su Yu understood the meaning of her words and said, "What? You Don't have enough time crystals?"

"Yes!" Jin Yue said, "Seventh grade nine nether crystal, one Jin can be exchanged for 40 time crystals. Adding on the fact that it's a nine nether crystal, its value at least doubled, which is 81 Jin. In the end, it's worth 20,000 time crystals. I'm just a merchant, and the amount of time crystals I can control each year is only around 10,000."

Su Yu had a disappointed look on her face.

She had thought of everything except that as a merchant, the demon sect couldn't possibly give her unlimited power to use the time crystal.

"How about this, senior, sell me the outer layer of the nine nether crystal and get the inner layer of the nine Nether Crystal Yourself, how about that?" Jin Yue said nervously.

Su Yu's eyes flashed, "Is this a loss for me?"

Jin Yue nodded honestly. “To be more precise, it’s a risk of loss. The reason why the nine nether crystal is so valuable is because there’s no way to determine how precious the things sealed inside are. Many factions will buy it wantonly at a price several times that of the sect. It’s all to try their luck and dig out the divine item from the first year of the new era from the nine Nether Crystal.”

Hearing this, Su Yu’s brows slightly twitched.

“I have a question. I want to ask you, what is the purpose of the sect and the Devil sect crazily snatching the nine nether crystals? What is the use of this crystal?” Su Yu asked.

Jin Yue blinked, as if she was asking Su Yu why he would ask such a childish question.

But when she thought of Su Yu’s identity as an outsider, Jin Yue felt relieved, she said, “Senior, you don’t know. Since the beginning of the New Age, the dreambreak realm has been wantonly plundering the nine nether crystals. Ordinary nine nether crystals can be used to exchange for time crystals from the ruler of time, and the nine nether crystals can be used to cut out extremely important divine items.”

In other words, the nine nether crystals of the dream boundary had all fallen into the hands of the ruler of time.

Golden Moon only knew one of its uses, but he did not know the other.

“Alright, then what divine items can be obtained from the nine Nether Crystals?” Su Yu asked.

Golden Moon immediately became excited. “Many precious items from the beginning of the new age can be obtained. If you’re lucky, you can obtain divine weapons and divine arts from the beginning of the new age, and if you’re extremely lucky, you can even obtain the Matchless Almighty Dao body from the beginning of the new age. In all of history, the Haoran sect was the luckiest. They obtained a gigantic third-grade nine nether crystal, and from it, they obtained an earth path master-level spirit pet. It’s still alive, and it has greatly increased the strength of the Haoran sect.”

Su Yu originally didn’t care about the so-called divine items. In her heart, they were already items from the early years of the new era. What good things could there be inside?

At most, there were some dead things.

Who would have thought that they could actually open living things!

“The Netherworld Strange Crystal has existed since the early years of the new era, right? How could the things sealed inside still be alive?” Su Yu asked.

Jin Yue shook her head and said, “That’s why it depends on luck. 99% of the Netherworld Strange Crystal sealed things are dead, but there are very few exceptions. The things that are cut out are still alive! It has appeared several times throughout the entire era.”

As she said this, she couldn’t help but look at the huge seventh grade nine nether crystal in front of Su Yu. Her eyes were filled with anticipation.

Su Yu couldn't help but be moved. No Wonder Jin Yue said that after being cut open, the value of the nine nether crystal would greatly depreciate.

If it was discovered after being cut open that the things inside weren't valuable, then the value of this nine nether crystal would be almost the same as an ordinary nine nether crystal.

“Junior is only making a suggestion. It's up to senior to decide.”

Su Yu thought for a moment and said, “Cut it.”

Even if the thing inside was worthless, he could still get 10,000 time crystals, which was in line with his expectations.

“Okay.” Jin Yue took out a dao artifact that was neither gold nor wood and handed it to Su Yu. She said, “This is a special dao artifact for cutting the nine Nether Crystal, the alien origin saber.”

Su Yu took it and found that this item was somewhat similar to the special tools sold in the Tai Yi sect, only more exquisite.

He tried to cut the nine nether strange crystals, and sure enough, they were extremely sharp, as if they were a lump of mud. They could cut iron as easily as mud.

Under Jin Yue's beautiful eyes, Su Yu slashed down with his saber and cut through the layers of the enormous nine nether strange crystals.

Finally, when he cut through one layer of the saber, he could finally see what was inside with the naked eye.

“It's actually a living creature!” Jin Yue exclaimed in shock, “Young master is quite lucky. This kind of nine nether crystal can be sold for four times the price.”

Su Yu looked over and found that there was a savage beast standing up inside. It was full of spirituality and was vaguely close to a living creature. Thus, it was called a living creature.

In terms of the nine nether crystal in front of him, because the outer layer was peeled off, there was only a hundred kilograms left.

In theory, it could only be sold for 4,000 time crystals.

But because it was a creature-like creature, the price increased by four times, and it could be sold for 4,000 time crystals.

In addition to the 400 kilograms of time crystals that had been peeled off before, it could be sold for 16,000 time crystals.

All in all, it could be sold for a whole 20,000 time crystals.

And if Su Yu was sold as a whole, it would only be 20,000 time crystals.

Su Yu was lucky to be able to open a creature. If he was unlucky, he might lose money.

“If you play this game, you might lose everything if you're not careful.” Su Yu sighed.

Jin Yue didn't think much of it and said, "Senior, you might not know this, but if you can get rid of a top-tier creature, you'll gain more time crystals than you can use in a few lifetimes. It's more than enough to build a sect!"

"Among the 344 sects today, half of them only have the capital to build a sect because they have cut out something valuable. They are getting bigger and bigger. Therefore, even if there is a one in ten thousand chance, everyone has to give it a try."

Wealth moved people's hearts, not to mention the eternal cause of a sect.

Su Yu finally understood why someone would be so crazy about the nine nether crystal.

"Alright, take the scraps. I'll take the innermost layer for now." Su Yu only took a hundred Jin of the nine Nether Crystal.

Jin Yue had already carefully picked up the large pieces of nine nether crystal that had fallen off the ground. She happily put them away and took out 16,000 time crystals. She said happily, "Senior, you've really helped me a lot."

Not only did she open up a new channel for the Tai Yi sect, but she also sold her 400 Jin of seventh grade nine nether crystals.

This was the total amount she had obtained in the past five years.

"Yes, this is the time and place for the next transaction." Su Yu handed her a jade pendant and covered it with her aura.

Only she could open it. If others forcefully opened it, they would only destroy the contents.

"Next time, I'll give senior a surprise." Jin Yue seemed to have decided on something as her eyes flashed.

Su Yu was surprised and smiled. "I hope so."

After that, she left quietly.

After a month, she successfully returned to the sect.

Just as she arrived outside the sect, a streak of light flashed past and stopped her.

"Brother Su, I didn't wait for a few months in vain!" It was Yu Xiang Wan.

He had successfully escaped from the pursuit of the merchants and returned to the sect a few months ago.

However, he did not go to report to the sect immediately. Instead, he waited here.

"Why didn't You Go First?" Asked Su Yu

If Yu Xiang Wan went back first, she might have contributed more.

“Don’t change the topic!” Yu Xiang Wan stared at Su Yu with a look of surprise. “You actually managed to escape from the pursuit of the elders of the Devil’s Gate. Brother Su, you’re the one who’s truly well-hidden.”

When she thought of Su Yu’s strategy and his unfathomable abilities, Yu Xiang Wan felt a chill down her spine.

Looking at Su Yu was like looking at an abyss.

If she was not careful, she might fall into it and never recover from it.

“Haha, it’s just a small trick. Let’s not talk about it. Let’s go back.” Su Yu avoided talking about it.

Yu Xiang Wan wanted to know more, but it was not convenient for her to get to the bottom of it. She sighed helplessly. “Sigh, I used to think that all slaves were stupid, and I was the only one who stood out from the crowd. I didn’t expect that a freak like you would be hidden among the slaves!”

Yu Xiang Wan was a heaven-defying existence in her hometown.

Before he left, he single-handedly unified the entire hometown and established a unified dynasty that had never been seen before.

In her hometown, he was the eternal emperor that everyone respected, the first emperor of Heaven and earth.

When he came to the Tai Yi sect, he looked down on the other slaves in his heart.

Including Su Yu in the beginning, he also looked down on them.

He did not expect that Su Yu was even weirder than him!

Su Yu smiled and returned to the sect with him.

At the entrance of the sect, there were two strong men from the sect guarding it.

“Who are you?” asked the two strong men.

Yu Xiang Wan said plainly, “Three months ago, we went out to exterminate the people from the trading post.”

Hearing that, the two of them were shocked.

“What are your names?” The operation three months ago had ended in failure. The three stewards had led a group of elites in the sect to disappear.

The sect had judged that something bad had happened to them.

How could the two supervisors not be surprised when two slaves suddenly returned?

“Yu Xiang Wan, Su Yu.”

When the names were read out, the two supervisors immediately took out the information of the slaves and compared it with the information of the slaves. After confirming that the slaves were real people, they were greatly surprised.

“The two of you, quickly follow me to the Hall of affairs and report to the hall master what happened that day.” The two supervisors realized that the situation was serious and acted accordingly.

Su Yu and Yu Xiang Wan arrived at the Hall of affairs together.

There was a hall master and two Deputy Hall Masters in the Hall of affairs.

In order to ensure that the facts were correct, the two Deputy Hall Masters each led one of them to the side hall to talk to them alone.

In the slightly dark side hall, Su Yu was standing. In front of him sat a rough-looking deputy hall master with a strong physique.

Su Yu felt that his facial features looked familiar.

“How dare you slave, why did you come back alive after all the members died? Did you set them up? Tell me honestly, tell me!”

He thought it was a question, but in reality, it turned into an interrogation.

From the start, the Deputy Hall Master had questioned him harshly.

Su Yu raised his eyebrows, something didn’t seem right!

Chapter 2483 Taking Advantage Of The Situation

Why did he insist that he had set up the three chiefs?

Even the most rational person wouldn’t think so, right?

A slave could set up the three chiefs and a bunch of experts?

Su Yu looked at the Vice Hall Master in front of him and said calmly, “Since you’ve already said so, what I said is just an excuse in your eyes, right?”

PA --

The Deputy Hall master slammed his palm on the table and smashed it into pieces. “Impudent, how dare you speak to me?”

Su Yu looked at him, his eyes extremely calm.

He could already confirm that the other party was deliberately targeting him.

“It’s Xianyin’s people?” Su Yu shook his head. Xianyin’s people were already dead, how could she control others to target him?

Out of the blue, Su Yu thought of one person.

The trusted supervisor of Mine No. 9, that Boorish Man!

When he took a closer look, how similar was the appearance of the Deputy Hall Master and that boorish man?

“I see!” Su Yu said with a sudden realization.

No wonder the deputy hall master wanted to frame Su Yu and put him to death.

It turned out that he was inextricably linked to that boorish man.

This made sense.

“Speak! How did you set them up!”The Deputy Hall master shouted.

A large number of experts including the three stewards had been wiped out. This matter had become a matter that even the sect master paid special attention to.

Since that was the case, why not go with the flow and get rid of Su Yu?

The supervisor in the mine was none other than his nephew.

Su Yu folded his hands in his sleeves and closed his eyes slightly, not saying a word.

He neither admitted nor argued.

“Alright, since you’re not saying anything, then it’s a tacit agreement!”The Deputy Hall Master wrote down a confession on the spot.

A pair of cold eyes stared at Su Yu. “Since you framed a strong cultivator of the sect and caused great harm, this deputy hall master will punish you with banishment according to the sect’s laws! Men!”

He didn’t even inform the hall master and acted on his own accord.

A mere slave would die if he died. With his relationship with the hall master, he wouldn’t be in any trouble.

However, his actions were truly shocking.

Without any evidence, he could sentence a person to death at will.

Su Yu had never heard of the banishment penalty, but thinking about it, it was definitely not any lesser than the death penalty.

“Deputy Hall Master, before I acknowledge you as the Deputy Hall Master, I advise you to restrain yourself. Otherwise, you’ll regret it.”Su Yu said calmly and seriously.

The Vice Hall master did not think much of it. He pointed at himself and then at Su Yu.

What he meant was, who do you think you are to threaten me?

Hualala --

Several stern-looking law enforcers immediately rushed over and took him away according to the Vice Hall Master’s instructions.

The place they were heading to was one of the ten thousand regions of the sect.

This region had always been sealed, and no one was allowed to enter it at will.

When the seal of this region was broken, a huge black hole appeared in front of their eyes.

The black hole was faintly covered with a bone-chilling evil wind.

“Explain to this Su Yu the punishment of banishment.”The Deputy Hall master put his hands behind his back and sneered.

The enforcers who could be ordered around by him at any time were naturally his people. He put on a fake smile and said, “The so-called punishment of banishment is to banish criminals who have committed heinous crimes to an abandoned mine.”

Oh?

It turned out that there was more than one mine in the Tai Yi sect.

“There is only one reason why the mine was abandoned, and that is because the minerals have been hollowed out and dug through the nine serenities.”The enforcer said, “Now, the inside is filled with the evil winds of the nine serenities at any time and place. The creatures that are banished into it will never live past two days.”

This method was actually equivalent to a death sentence.

Su Yu did not care at all when he heard that.

If he was banished to another place, he would really have to be a little more cautious. What Danger was there to be in banishing him to the abandoned mine of the nine Serenities Demonic Wind?

On the contrary, Su Yu was very interested in going down to take a look at the so-called nine serenities.

Usually, the abandoned mine was tightly sealed and was forbidden to enter.

Now, there was a chance to explore deeper.

“Why, aren’t you afraid?”The Deputy Hall master did not get the regret and fear he wanted from Su Yu’s expression and said unhappily.

Su Yu shrugged, “What’s there to be afraid of? Sooner or later, people will die, right?”

These words stunned the deputy hall master and his expression quickly darkened. He gritted his teeth and said, “Alright, I’ll fulfill your wish! send him down!”

The group of enforcers pushed Su Yu into the mine and sealed the seal of the mine.

In less than two days, Su Yu would definitely become one of the cold corpses.

“Let’s Go!”The deputy hall master heaved a sigh of relief and thought to himself, “At least I can avenge my nephew. I hope he can fulfill his promise and help me with that matter.”

On the other side.

Deputy Hall Master Li, who had asked Yu Xiang Wan, thought that he was just confirming what had happened at that time.

However, he did not expect to get such a huge piece of news.

Most of the hall masters and the rest were not dead. They were saved by Yu Xiang Wan.

“Is that true?” Deputy Hall master Li slammed the table and stood up in surprise.

Because of this matter, the sect leader felt that it was a great pity. If she knew that those hall masters were not dead but were saved, she did not know how happy she would be.

This was a great merit!

“Of course,” said Yu Xiang Wan, “My other companion and I have saved quite a number of people.”

Deputy Hall Master Li was overjoyed. “Quick, let me take a look at them.”

Yu Xiang Wan took out a spatial storage device and waved her sleeve. As expected, she released seven to eight Hall Masters and Deputy Hall Masters as well as more than ten elite disciples.

Most of them were in a coma, and some of them were seriously injured.

However, all of them were still alive.

“Hall Master Jiang of the Law Enforcement Hall, Hall master Wang of the External Affairs Hall, Hall Master Zhao of the Treasury Hall...” vice hall master Li counted them one by one and heaved a long sigh of relief.

At least not all of them were killed!

“By the way, how many people did your companions save? Are there more than you?” Asked Vice Hall master Li anxiously.

They had sent out a total of 20 clan leaders and deputy clan leaders. Now, they had saved seven or eight people.

If they could save a portion of that person as well, the losses of the Tai Yi clan would be greatly reduced.

Yu Xiang Wan shook her head. “I haven’t had the time to ask, but it shouldn’t be less than mine.”

If it was in the past, he probably would not think so.

However, after witnessing Su Yu’s prowess, he could not help but guess that the number of people saved by Su Yu might be more than his.

“Alright, follow me to meet the head of the Clan!” Ever since the group of people failed their mission and died, the sect leader had personally gone to the Holy Land to recruit a new clan leader.

Currently, only the head of the clan was in charge of the sect.

This matter had to be reported to the head of the clan.

Yu Xiang Wan was certain that this time, the credit might be even greater than she had imagined.

Once she succeeded, it would not be difficult for her to change from a slave to an official member of the sect.

Vice Hall Master Li brought Yu Xiang Wan to the room where Su Yu was. He shouted from outside the secret room, "Vice Hall Master Qin, you already know the good news, right?"

Who knew that Vice Hall Master Qin was not among them.

"Where is he?" Vice Hall master Li asked the gatekeeper.

The latter avoided his gaze and said, "I don't know where he went with Su Yu."

Upon hearing that, Vice Hall Master Li mistook that Vice Hall Master Qin had also learned from Su Yu that not all of them had died that day. He brought Su Yu alone to look for the chief steward to collect the reward.

"D * RN, I thought he was my colleague!" Vice Hall master Li slapped his thigh and said angrily.

"Let's go, we'll head there immediately." Vice Hall Master Li brought Yu Xiang Wan to pay a visit to the chief steward.

In a certain area of the sect, under an old tree.

An old man with short golden hair was sitting cross-legged in meditation.

"Li Yun from the hall of affairs pays his respects to the chief steward," said Li Yun respectfully.

The golden-haired old man was the second most important person in the sect. He was the head steward, and his cultivation level was very close to that of the Daoist master. His strength was almost the same as that of elder Devil who was chasing after Su Yu.

"Now that the sect leader has left, there's a lack of manpower in the various halls. Did you leave your post without permission because of an urgent matter?" The head steward looked displeased.

Li Yun's face was full of joy. "Reporting to the head steward, there's an urgent matter that I'm here to disturb the head steward's cultivation."

He pushed Yu Xiang Wan forward. "This is the slave who went on the mission to exterminate the garrison three months ago."

Eh?

The chief's eyes lit up. He looked at Yu Xiang Wan and immediately asked, "Quick, tell me what happened that day. Why didn't the third chief and many powerful people from our sect come back?"

Hence, Yu Xiang Wan told him the truth.

When she found out that it was an elder devil, she could not help but take a deep breath. "No wonder none of them came back!"

The entire sect did not expect that it was elder Devil who came to the station personally.

"Incharge, this slave has another piece of joyous news to report."

The Incharge raised his Golden Eyebrows. "Oh? Tell me about it."

Yu Xiang Wan smiled and threw a spatial storage device to the incharge. "Incharge, please take a look."

The innkeeper held the spatial storage device and took a look inside. His expression changed drastically as a tinge of surprise and joy appeared in his eyes. "What's going on?"

Yu Xiang Wan said, "I managed to snatch it back when they were relaxed. I'm not strong enough to save so many people."

Whoosh --

The innkeeper shook his hand and released all the people inside. Then, he personally treated their injuries and allowed them to go on the market to recover quickly.

Seeing that they were getting better, the head incharge felt much more relaxed.

When he looked at Yu Xiang Wan again, there was a hint of a smile in his eyes. "What's Your Name?"

"I'm Yu Xiang Wan!"

The head incharge nodded his hand silently and took out a bronze-colored token. He personally carved the words "Yu Xiang Wan" on it.

He flicked his finger and returned the token to him. "From today onwards, you're an official member of the Tai Yi sect, and you belong to the Hall of affairs."

Yu Xiang Wan bowed gratefully. "Thank you for the reward, head chief!"

"Of course. You've done meritorious deeds for the sect, so you should be rewarded." It was obvious that the head chief was in a good mood.

Vice Hall Master Li also smiled. "Head chief, you might not know this, but there was another person who went with Yu Xiang Wan that day. He also saved a lot of people. According to speculation, the number of people saved might not be less than him."

"What?" The head chief was already very satisfied that he could save seven or eight hall masters and Vice Hall Masters.

Knowing that half of them were also saved, it meant that they did not lose their core force this time. How could he not be excited?

"Where is he? Bring Him Up!"

Vice Hall master li said, "This person was handed over to Vice Hall Master Qin for questioning, but I don't know where he went after he left with his men."

Chapter 2484 The Nine Nether Jade Fire

"Pass it on!" The head steward beamed with joy, and the huge rock that was pressing down on his chest was completely put down.

He couldn't wait to meet the other batch of rescued people to confirm whether they were really safe.

"Yes!" In the domain where the head steward was located, there was a communication method to contact the core figures of the various large sects.

An attendant immediately sent a message to Deputy Hall Master Qin, ordering him to come quickly to meet the head steward within the time it took to brew a pot of tea.

In the ninth mine.

That boorish man grinned. "Thank you uncle for helping me. I am eternally grateful."

The person in front of him was Vice Hall Master Qin.

"Hehe, with our relationship as uncle and nephew, what's there to thank or not to thank?" Vice Hall Master Qin waved his hand and said, "As long as you can represent our affairs hall in a few months time and go there to complete the task, uncle will be satisfied."

The boorish man patted his chest and said, "Uncle, don't worry. I will definitely make uncle satisfied."

Yes --

Deputy Hall Master Qin nodded his head with great satisfaction.

Just at this moment, Deputy Hall Master Qin suddenly received a message. When he opened it, his expression changed drastically. "The head chief summoned me!"

The boorish man's face revealed respect and joy. "The head chief usually goes in and out of the sect and rarely summons people. Now that he actually summoned uncle, it seems that he has to put uncle in an important position."

Recently, the sect had lost a large number of Hall master level missions, and a large number of vacancies had appeared.

As the Vice Hall Master of the affairs hall, Uncle had been in charge for many years and had rich experience. He was deeply trusted by the sect.

This time, the head steward summoned him, most likely to discuss the matter of appointing him as the hall master.

"Nephew congratulates uncle in advance. The next time we meet, perhaps it's time to address him as Hall Master Qin!" The boorish man said.

Vice Hall Master Qin pretended to be modest and waved his hand. "Hehe, before the matter is settled, you must not be ostentatious. Perhaps you are criticizing me?"

Even though he said so, he did not think much of it in his heart.

At such a juncture, the head steward should have won over every core member of the sect.

Why would he criticize him for no reason?

This time around, he was afraid that he would really be promoted to hall master.

While he was thinking, Deputy Hall Master Qin quickly rushed to where the head of the hall was. From Afar, he bowed respectfully. "This subordinate affairs hall's Qin Yuan pays his respects to the head of the Hall!"

He stole a glance and discovered that Li Yun was present as well.

He thought to himself, since even he was present, this time, he really had to accept his position as the Deputy Hall Master.

However, what puzzled him was that the slave who had escaped was present as well.

“Qin Yuan.” The head steward’s brows were relaxed and there was a smile on his face. Qin Yuan was certain that he would appoint him as the head of a certain hall, however, he heard words that did not match his words at all.

“Where’s the young master you’re asking about?”

Qin Yuan’s expression stiffened. Who? was he talking about Su Yu?

Seeing his hesitation, Li Yun immediately tried to smooth things over. “Haha, Brother Qin Yuan, I thought you came here alone to claim credit. Turns out you haven’t gotten the answer yet.”

Qin Yuan looked puzzled. “Get What out of me?”

Li Yun pointed at Yu Xiang Wan, fu Xu smiled. “These two young masters who escaped are really something. They actually saved all the high-ranking members of the sect who were trapped in the hands of the Devil Elder. Half of them were saved by this young master Yu Xiang Wan, and the other half were saved by the young master you interrogated.”

Hearing this, Qin Yuan was stunned and dumbstruck.

A dull thunder flashed in his mind, causing his mind to go blank.

The incharge smiled. “That’s right. I really didn’t expect that among the slaves this time, there were two peerless geniuses who saved many of the upper echelons of the Tai Yi sect!” Qin Yuan, quickly bring them up. The other half of the upper echelons are in his hands.”

However, Qin Yuan stood there motionlessly, his lips trembling.

Finally, the head incharge and Li Yun realized that something was wrong with him.

“Qin Yuan, the Head Incharge is asking you a question.” Li Yun winked at him. Didn’t he see that the Head Incharge was already unhappy?

This was a good thing. Don’t ruin the Head Incharge’s mood.

However, Qin Yuan opened his mouth and his forehead was full of sweat. He couldn’t say a word.

The head steward’s face sank as he reprimanded, “Qin Yuan, are you unhappy with this old man?”

He kept asking questions, but the other party did not answer.

Plop --

Qin Yuan, who had felt that a great disaster was imminent, finally fell to his knees in fright. His face was extremely pale. “Head steward, please spare my life! Head Steward, please spare my life!”

This scene stunned everyone present.

Li Yun asked, “Qin Yuan, what do you mean by this?”

Why are you begging for mercy?

Only Yu Xiang Wan realized something and her face darkened. "What did you do to Su Yu?"

At that moment, the innkeeper and Li Yun's hearts skipped a beat at the same time.

Could it be that he had done something to Su Yu?

Smack --

The innkeeper suddenly got up and Blew Qin Yuan up from the ground with a strong force.

Then, he grabbed Qin Yuan's neck with a palm across the air and shouted angrily, "If you don't tell me what happened, I will strangle you to Death Right Now!"

At this moment, Qin Yuan didn't dare to hide anything and said, "Reporting to the head steward, I . . I was careless and killed him in a misunderstanding."

What? Dead?

The head steward's eyes flashed and asked again, "Where is the body?"

So what if the person was dead. The most important thing was the spatial storage device on his body that contained the survivors.

"In... in the abandoned mine." Qin Yuan's face was full of despair.

Where?

The head incharge couldn't help but take a few steps back.

It wasn't good where the corpse was, but it just had to be in the abandoned mine.

The nine nether evil wind was blowing there at any time. Even he didn't dare to go deep for too long. Su Yu, a junior, probably wouldn't be able to stay in there for long.

"You... you..."the head steward looked at Qin Yuan again, wishing he could strangle him to death.

He didn't just kill Su Yu, he also killed the higher-ups of the sect that he had saved with great difficulty!

There were at least seven or eight hall masters inside.

"I'll kill you!"The head steward couldn't contain his anger.

It was nothing new for a Vice Hall master to find an excuse to kill slaves.

In the past, he would not have cared.

But this time, Qin Yuan had really caused a huge disaster.

"Head steward, Hold On!"Li Yun pleaded. "Since things have already come to this, what's the point of killing Vice Hall Master Qin? Why don't we let him take the credit for his crime?"

The head steward's anger could not be quelled. He threw him to the ground and said, "You, go down to the abandoned mine immediately and bring Su Yu up. If you can't bring him back, don't come up again!"

Go Down to the mine?

Qin Yuan's expression was as ugly as it could be.

Was that a place where people could stay? Not to mention that he had to find Su Yu?

But if he didn't go, he would be lying dead on the spot!

"Yes, Yes, your subordinate will go immediately, immediately!" Qin Yuan hurriedly got up and ran over without stopping.

At this moment, he only hated his troublesome nephew.

Without his request, why would he make things difficult for a slave who had no grudges?

Suddenly, he realized that before Su Yu was thrown into the mine, he had warned him that everything should be done in moderation. Otherwise, he would regret it.

Now, he suddenly understood that Su Yu had the confidence to say such words because he had the lives of so many sect experts in his hands!

"You, why didn't you say so earlier!" Qin Yuan regretted it so much that his intestines turned green!

Abandoned mine.

Su Yu was thrown into the mine. What greeted his eyes was indeed an underground world that had been dug to the point of devastation.

At this moment, the underground mine was filled with countless evil winds of the nine Netherworlds.

A casual blow could blow away more than half of a person's life force.

Su Yu did not care at all and walked towards the depths of the mine.

Gradually, a pale green light came from the depths of the mine.

Against the pale green background, the entire mine looked gloomy.

In addition to the nine Nether Evil Wind that roared non-stop, it really had a bit of a terrifying feeling of entering the nine Nether Ghost Prison.

Even if Su Yu was an expert and bold person, facing the nine nether ghost prison that was very likely to be the legendary nine Nether Ghost Prison alone, he could not help but feel his scalp go numb.

Forcing himself to calm down, Su Yu went deep into the depths of the cave.

He finally came to the end of the mine.

Near the end of the mine, all kinds of tools that had not been collected in time were discarded everywhere. Some of the nine nether crystals could not even be taken away in time.

There were still hundreds of corpses lying quietly on the ground.

It could be seen that when the mine was dug out, the nine nether was dug out and a large amount of nine nether evil wind was attracted.

The incident happened suddenly. These people did not have time to escape and were taken away by the sudden explosion of the dense nine nether evil wind.

At the end of the gap, Su Yu saw a gap the size of a head.

On the other side of the gap, there was a dark green color, and there were waves of unknown screams coming from it.

Waves of evil wind kept blowing out from the gap.

Standing in front of the gap, Su Yu couldn't stand still and was almost blown away by the evil wind.

“Where is the so-called nine serenities?” Su Yu was very curious. He immediately used his eye of soul to probe through the gap to find out.

However, when he went deep into the gap, the soul that he had probed into came with extreme coldness.

That part of the soul quickly lost contact with Su Yu.

At the same time, there was also a piercing cold feeling that spread rapidly from that part of the soul to Su Yu's original body.

Su Yu made a prompt decision and cut off the connection with that part of the soul.

Whoosh --

A dark jade-green flame actually rushed over along the soul and burned three feet away from Su Yu.

Su Yu's host soul was in extreme pain and even froze.

He shook his head violently and immediately retreated away from the jade-green flame that was gradually shrinking to the other side of the gap.

Su Yu still had lingering fear in his heart. He was just a little bit away from implicating his original body.

With the power of that strange jade-green flame, if he was really implicated, Su Yu would definitely die!

“Could there really be a netherworld realm?” Su Yu was bewildered.

This completely overturned his previous understanding.

It was rumored that the Netherworld realm was a place for the dead.

However, Su Yu controlled the death domain and had long understood that after death, people would not go anywhere. They would only disappear into thin air. Then, using the method of energy, they would be arranged by the heavenly axiom to be reborn into other life forms.

However, the strange world on the other side of the gap was really hard to explain.

It was hard to imagine what kind of world that was.

Chirp --

Just as Su Yu was thinking, suddenly, a sinister bird's neigh sounded from the other side of the gap. Su Yu could still hear the sound of wings flapping.

"It can't be. There are still living beings in that world?" Su Yu was shocked.

His soul had reached the level of Xuan Dao Master. If that Bird's soul was not affected by the jade fire, wouldn't it be much higher than his?

Hu --

Suddenly, a strange strong wind blew in along with the evil nine Nether Wind.

Large patches of jade flames were sent to this side by the strong wind created by the bird's wings.

Su Yu's expression changed greatly and he immediately retreated frantically.

Chapter 2485 Five-Star Disciple

At the same time, a cold snort came from the other side of the gap. "You dare to trespass into the ancient divine realm?"

Su Yu's heart trembled.

One of the nine ancient gods was called ancient god Nine Netherworld.

Xian 'er was the successor of ancient God Nine Netherworld.

Could it be that ancient god Nine Netherworld created an ancient divine realm just like ancient God Nine Dragons?

That ancient god domain was under the Tai Yi sect?

When he thought of this, he was extremely surprised.

However, he didn't have time to think too much. The nine Netherworld Jade Flames swept out with great speed, burning half of the mine.

How could he dare to stay? He immediately used his spatial domain to retreat.

A moment later, he successfully reached the exit before the nine Netherworld Jade Flames caught up.

Although the exit was sealed, it was not difficult for Su Yu to escape with his eight great domains.

Just as he was about to activate his eight great domains, the seal on the exit suddenly opened on its own, revealing a large gap.

Su Yu was stunned for a moment and immediately rushed forward.

Just as he rushed out, the nine Nether Jade Flame behind him followed him and turned into a pillar of light that shot out with a loud bang.

To his surprise, there was a frightened figure standing beside the gap.

Clearly, Su Yu's sudden rush had shocked him.

"Su Yu?" That person cried out in surprise.

This person was Qin Yuan, who was preparing to enter the abandoned mine to look for Su Yu.

However, before he could be happy for too long, he was swept away by the nine Netherworld Green Flame that suddenly rushed out.

Ah --

With a shrill scream, Qin Yuan's soul was frozen.

His soul was quickly destroyed, and his eyes immediately dimmed.

In just a short moment, he couldn't have been more dead.

After the nine Netherworld Azure fire soared into the sky, it was finally released completely, and the mine gradually returned to peace.

Su Yu's heart was still filled with fear. He stared at Qin Yuan's corpse in a daze, not saying a word.

The scene on the other side of the mine was really unforgettable to Su Yu.

The so-called Netherworld realm was actually the Netherworld ancient divine realm!

In the midst of his bewilderment, the incharge and a group of experts from the sect rushed over after hearing the huge commotion.

They saw Qin Yuan, who was completely dead, and Su Yu, who was safe and sound!

"Brother Su!" Yu Xiang Wan was overjoyed.

In the abandoned mine, the nine underworld demonic wind was not the only danger. Although Su Yu was not afraid, he might not be able to survive.

Who knew that he was not injured at all!

"What happened just now? Why did I sense an extremely cold thing appearing?" Yu Xiang Wan asked in surprise.

Su Yu told her the whole story, but he hid the words of the mysterious bird.

When the Head Incharge and the others heard this, their expressions became serious.

"You mean, there is a dark green flame on the other side that hurts the soul?" The Head Incharge's expression was the most serious, and even a trace of fear appeared.

Su Yu nodded, "Deputy Hall Master Qin Yuan was not hit by the dark green flame that rushed out, and his soul was destroyed."

However, the head incharge did not care about Qin Yuan's life or death. He only cared about the dark green flame that suddenly appeared.

"Big Trouble is coming!" The head incharge let out a long sigh.

Su Yu was puzzled. The Tai Yi sect had a strong cultivator who was at the level of an Earth Path Master.

What could be called Big Trouble?

“Everyone, please leave quickly to prevent the flame from hurting people again.” The head incharge personally sealed the entrance and looked at Su Yu. “You’re also one of the executors of the mission three months ago? How many people did you save?”

Li Yun and the rest looked over with anticipation.

If the hall master he saved was on par with Yu Xiang Wan, then the losses this time would be greatly reduced.

“I was discovered by Elder Devil, so I didn’t have time to save too many people.” Su Yu looked regretful.

Upon hearing this, the incharge, Li Yun, and the rest could not hide their disappointment.

It was because their expectations were too high.

It was already a miracle for Yu Xiang Wan to save so many people. It was impossible for both of them to create a miracle, right?

“Alright, let them out.” The Head Incharge’s worries were brought up again.

Hualala --

A group of people was poured out of the storage space by Su Yu.

In the end, a huge crowd of people poured out like green beans being poured out of a bamboo tube.

“AH? Hall master Chen, Hall Master Qian, Hall Master Wan... Oh My God, there are a total of 12 Hall Masters and Vice Hall Masters, as well as more than 30 elite disciples.” Li Yun was shocked.

The chief steward’s dull eyes shone brightly as he exclaimed in surprise, “Almost all the others have been rescued?”

In total, they only sent about 20 Hall masters and seven people were rescued by Yu Xiang Wan.

Out of the 12 people rescued by Su Yu, only one or two had not been rescued.

Yu Xiang Wan was also dumbfounded, unable to describe her surprise.

She had expected that Su Yu would rescue more people than her, but she had never expected that almost half of them would be rescued!

The head incharge laughed heartily. “Hahaha, well done!”

As a result, the losses from the previous mission were almost zero.

Su Yu’s contribution to the sect was too great!

“What’s Your Name?” The head incharge asked.

“Su Yu!”

The head incharge laughed loudly and took out a blank token. He scribbled the word “Su Yu” on it.

Not only that, he also added a trace of his unique profound dao power into it, branding five stars on the token.

“Five Star Disciple!” Li Yun was shocked.

Many of the surrounding disciples were jealous.

The disciples of the Tai Yi sect were divided into nine levels according to their levels, from one star disciple to nine star disciple.

After the nine star disciple was the Deputy Hall Master of the sect.

How many members of the sect would spend their entire lives below three-star disciples?

Su Yu was good. He went from being a slave to becoming a five-star disciple. It could be said that he had soared to the sky.

He had become a middle-level disciple of the sect!

Who would not be envious and jealous?

Yu Xiang Wan smiled bitterly. He had also saved people. He was only a one-star disciple, but Su Yu had become a five-star disciple.

The gap between them was too big.

However, he did not complain about it.

It was Su Yu’s plan to save many of the hall masters. Moreover, they had to rely on their own abilities to catch people.

He was not as capable as Su Yu, so what was there to complain about?

“Congratulations, brother Su. In the future, I might have to address you as senior brother.” Yu Xiang Wan smiled freely.

Su Yu chuckled and thanked the incharge on the spot.

“From now on, you’ll be under the jurisdiction of the Military Readiness Hall.” The incharge smiled and left with the injured.

The expressions of the crowd changed at the same time. They looked at Su Yu with a gaze that was filled with jealousy, envy, and Schadenfreude.

Li Yun, on the other hand, looked at Su Yu and wanted to say something but stopped. After a while, he sighed and left with his hands behind his back.

When the crowd dispersed, only Yu Xiang Wan remained with a calm expression. “Brother Su, in my hometown, there were a few people in the upper echelons of the Tai Yi sect. I’ll think of a way to get them to pull some strings and transfer you out of the Military Readiness Hall.”

Her voice was a little low, but there was also worry that could not be concealed.

Su Yu’s expression had also changed a lot.

He had read a lot of information about the Taiyi faction. How could he not know where the military preparation hall was?

It was known as the tomb of the Taiyi faction.

Anyone who joined the military preparation hall would never live for more than three years.

Including the leader of the hall, they would die within three years without a doubt, without exception!

Chapter 2486 Military Confrontation

This was because the military preparation hall was the place where the Tai Yi sect fought with the outer sects for territory all year round.

Once there was a change at the border, the entire military preparation hall would usually move out together.

And once they moved out, it would be a life-and-death battle.

Hence, the death rate of the military preparation hall was extremely high.

In addition, in the past hundred years, the end of the epoch was near, and the various sects and sects increased the competition for resources, resulting in frequent wars.

The members of the military preparation hall, no matter how valiant and good at fighting, would definitely not live past three years.

You might be able to survive this war, but what about the next one? What about the next one?

There would always be accidents, and once an accident happened, it would be death.

The military preparation hall could be said to be the most important place in the Tai Yi sect, but it was the place that no one wanted to go to.

Usually, the people who were arranged to go in, other than the hall head and Deputy Hall Head, were the ordinary members that the sect did not think highly of.

No one could understand why Su Yu, who had made such a great contribution, would arrange for him to be sent to the military preparation hall where he would be sent to his death.

“Brother Su, don’t be too discouraged. I think the head steward is making such arrangements to convince the public.” Yu Xiang Wan looked at the token of a five-star disciple in Su Yu’s hand. “It’s unprecedented for a slave to become a five-star disciple. In order to prevent the members of the sect from criticizing you too much, he arranged for you to be sent to the military preparation hall for training.”

“Perhaps, after a period of time, the head steward will transfer you to another hall.” Yu Xiang Wan avoided looking at him.

Su Yu held the token and said, “Brother Yu, you and I are both sensible people. Why do you have to lie to yourself?”

In the eyes of the head steward, Su Yu’s life was like an ant that could be easily crushed.

Why would he still think about Su Yu and transfer him out in the future?

He just felt that giving Su Yu the status of a five-star disciple was too shocking, so he conveniently threw him into the military preparation hall.

He had no intention of continuing to observe him.

Yu Xiang Wan sighed bitterly. "Alright, as long as brother Su understands, there's no need to worry too much. As far as I know, a year ago, the Tai Yi sect just had a war with a sect. There shouldn't be another war in the near future."

Su Yu nodded his head slightly. "Take care of yourself. You've just become a disciple from a slave, so you'll definitely be troubled."

"You Too!"

The two of them looked at each other and left.

Su Yu held the token in his hand and came to the military preparation hall to report.

The area where the military preparation hall was located was empty because most of the people were cultivating and practicing outside the main gate, ready for war at any time.

Only a few people in charge of internal affairs were still there.

"I am Su Yu, a new member," Su Yu reported.

The person in charge took Su Yu's token expressionlessly and carved the word "Military" on it.

At the same time, he gave Su Yu ten time crystals. "Your salary for this month."

The normal disciples of the hall could only get three a month.

However, the military preparation hall gave them special treatment. There were a total of ten crystals.

This could be considered as an extra consideration for the disciples of the military preparation hall.

"In addition, immediately head to a place thirty thousand miles north of the city to participate in the training."

Su Yu nodded and immediately rushed over with the token in his hand.

From Afar, he could see a black mass of warriors in black armor standing together in a neat formation, listening to the lecture of a golden-armored expert on the stage.

"After a year of training, you have already acquired the basic qualities of a qualified warrior," the golden-armored warrior said. "In the following time, we will have a group competition. The first-place group will receive a level-1 upgrade, the second-place group will receive a thousand time crystals, and the third-place group will receive a hundred time crystals!"

It was extremely difficult for the other disciples to raise their level.

Usually, they would only have a chance to do so once every ten years.

However, the military preparation hall could raise their level in a normal match!

Furthermore, the other rewards were very generous, easily reaching the thousand time crystal level!

Normal disciples would need thirty years to accumulate so many time crystals.

However, thinking about it carefully, they were all people who were about to die. So what if the rewards were generous? In the end, they would still die on the battlefield.

Su Yu swept away the haze in his heart, and his eyes suddenly lit up.

To become a hall master of the Tai Yi sect step by step, it would take at least several decades, right?

However, in the military preparation hall, perhaps time could be greatly shortened.

He suddenly realized that perhaps the most suitable person for him in the Tai Yi sect was precisely the military preparation hall.

The golden-armored powerhouses were quickly divided into groups of 100 according to the number of people.

Each group had three people.

“The groups have been assigned. Let’s Go!”The golden-armored powerhouse gave the order.

However, a shout suddenly came from one of the groups, “Reporting to Hall Master Ruan, the eight-star disciple, Ma Xiaoguang, is not here! There are only two people in our group!”

The golden-armored powerhouse’s eyes were as sharp as lightning, and his eyes were cold as he shouted, “Where is Ma Xiaoguang?”

His voice shook the sky, and it also shook the blood and Qi of the soldiers present.

“Reporting to Hall Master Ruan, Ma Xiaoguang went out ten days ago and didn’t come back.”A purple-armored expert at the level of Vice Hall master beside him replied with evasive eyes.

The people of the military preparation hall were never allowed to go out as they pleased.

Furthermore, he hadn’t returned for ten days.

There was only one reason -- he had defected!

The golden-armored expert’s eyes were filled with killing intent. “Traitor!”

Shua --

An emerald-colored ledger appeared in his palm. On it were the names of every soldier.

He found Ma Xiaoguang’s location and used a brush to sketch on it.

An invisible force rushed out from the ledger and disappeared into the horizon.

Somewhere, a ragged-looking youth suddenly let out a muffled groan. His body exploded from the inside out.

On the stage.

The golden-armored expert indifferently took back the account book and said coldly, "Betraying the Tai Yi sect, no matter how great your previous achievements are, once you betray, you will only end up dead. You will not be tolerated!"

Then, he looked at the group that was one person short.

Just as he was about to make a decision, Su Yu quickly landed and cupped his hands, "The new disciple of the military preparation hall, Su Yu, has come to report."

Su Yu held the five-star disciple token in his hand and stepped forward. He spoke in a neither servile nor overbearing manner.

The golden-armored expert glanced at his token and nodded. "You've come at the right time! You will head to Group 90. From today onwards, you will be a member of that group."

"Yes! Hall Master!" Su Yu came to group 90.

There were only two members left in the group. One of them was a woman from the Hundred Flowers clan. She was covered in the fragrance of flowers and had a cold and arrogant expression.

The Hundred Flowers clan was a second-rate race. Their status was very respected and they were good at using the flower path.

The other one was an unruly and unruly young Daoist. He carried a clear sky sword on his back and stood there with his legs out of place. His expression was indifferent and he seemed to be a thousand miles away from others.

Su Yu's arrival only made the two of them take a glance at him before they both frowned.

It was obvious that they looked down on Su Yu.

"Human?" The woman from the Hundred Flowers clan did not hide her disgust at all. She distanced herself from him as if Su Yu, a human from a ninth-rate race, would pollute him.

The young Daoist closed his eyes proudly and said indifferently, "Only five stars? It's better not to come."

Su Yu was secretly amused. The cultivation of the two of them was not bad. Both of them were at the late stage of the great venerate realm. The level of their disciples was also very high. They were both seven-star disciples.

However, if they were to fight to the death, they would probably not be able to last more than one and a half moves in Su Yu's hands.

"Both of you, I am Su Yu. From now on, I will be a member of the same group. Please take care of each other." Su Yu smiled faintly.

The Hundred Flowers clan glanced at him coldly. "If you want us to take care of you, first let us see your ability!"

The Daoist youth nodded his head.

Wu --

Just at this moment, a loud horn sounded. It was the start of the competition.

Su Yu shrugged. He didn't have to show them his abilities.

But he had to get first place!

Chapter 2487 Crushing The Puppet

The horn sounded, and the many trained disciples split into groups of three and spread out in all directions.

The Hundred Flower Clan Girl and the Daoist youth had a tacit understanding and left side by side.

She had no intention of bringing Su Yu with her.

Su Yu had just entered the military camp and didn't even know what the competition was about.

Seeing the two of them leave and not willing to cooperate with him, Su Yu was helpless. He randomly picked a group and quickly followed.

After a hundred million miles.

The group members finally arrived at a large river. There was a black-awned boat floating on the river.

One could vaguely see that there was an extremely intelligent puppet on the boat. Its combat power was very strong.

The three of them stopped by the river and stared at the black-awned boat.

“Senior brother Chen, the first puppet is right in front of you. Let's begin.” The junior sister beside him was eager to try.

However, senior brother Chen looked behind him and snorted coldly, “Sir, aren't you being too impatient to prepare a sneak attack before you get your hands on the puppet?”

The other two turned around and saw that after they stopped, Su Yu, who was following closely behind them, also slowly stopped.

Su Yu said frankly, “I just want to see how the so-called competition is going to go.”

If he wanted to make a move secretly, why would he follow him so openly?

Senior brother Chen frowned slightly and said, “It's best if that's the case. When we move, you'd better not make any other moves. Otherwise, you alone won't be able to handle the three of us working together!”

Seeing that Su Yu was indeed a newcomer, senior brother Chen reluctantly believed him.

Su Yu smiled and didn't say anything. He leaned against a tree by the river and silently watched what they were doing.

“Move out!” Senior brother Chen shouted in a low voice and took the lead to jump onto the black-awned boat.

His expression was solemn. Not only did he take out his dao artifact, he also fully activated his domain.

With a long sword in his hand, he slashed across the black-awned boat from the middle.

With a crash, the black-awned boat broke into pieces.

Only the puppet inside was safe and sound.

He sat cross-legged on the surface of the river, a token with the word “Fire” hanging on his chest.

“If you want to get the divine fire token, we’ll have to see what the three of you are capable of.” The puppet spoke in human language, and suddenly slapped its palms on the surface of the river.

The entire river was captured, and it looked like a ten-thousand-foot-long snake.

“Mad Snake Spews Mist!”

The ten-thousand-foot-long snake flew up, and a large amount of water mist spewed out. Wherever it passed, it was corroded by the water mist.

Senior brother Chen shouted, “Sword edge of the world!”

He swept out with his sword, and waves of sword light rippled out like water ripples, forcing the water mist back.

At the same time, the other two junior martial sisters also joined forces to attack.

A Circular Dao artifact and a domain technique attacked the puppet at the same time.

“Sweep away an army!”

The puppet held the giant snake in its hand and spun crazily.

It drew a boundless trajectory in the air.

Senior martial brother Chen’s expression changed. He held his sword horizontally in front of his chest to block this shocking attack.

Even so, he was still forced back three thousand feet.

The two junior sisters were even worse off. They were forced to vomit blood on the spot.

“Senior brother, what’s going on with this puppet?” The two junior sisters were extremely shocked.

According to their previous training experience, no matter how strong the puppet was, it would still be difficult for it to fight against the three of them working together.

However, in the current situation, the puppet was able to suppress the three of them by itself without being at a disadvantage.

Senior brother Chen’s expression was extremely calm. “I’m afraid we’ve encountered the sky puppet.”

In the competition, they would usually only fight with the earth puppet.

Only when the sect was about to battle would they raise the difficulty of the competition and place a few more powerful sky puppets.

And the sky puppet was an existence whose cultivation had reached the level of Xuan Dao Master.

It was not something the three of them, Daoist Huang, could contend against.

“That’s right, I’m the Sky Puppet!”The puppet laughed and extended his palm, a token that was exactly the same as the one on its chest appeared. “As long as you can block ten moves from me, you will be considered to have passed the test. I will grant you two tokens.”

Ten moves

Hope rekindled in senior brother Chen’s eyes as he said, “Junior Sisters, let’s give it another try!”

“En!”

After learning that they could obtain two tokens, the two women regained their courage and fought with all their might.

This time, the three of them used all of their dao artifacts and domains and even used up their powerful talismans.

However, the strength of the puppet was still beyond their imagination.

After five moves, the puppet unleashed a lawless attack and suppressed the three of them on the ground.

“You’re too weak. You Won’t be able to pass my test.”The puppet put away its boundless mana and said in disappointment.

Senior brother Chen’s face was filled with unwillingness. He had sacrificed so much, but in the end, it was all for nothing.

The two junior sisters’ faces were filled with dejection. Perhaps the super group known as the Sun, Moon, and stars group would be ecstatic when they met the sky puppet.

But when they met it, they could only be defeated with hatred.

“Let’s go. We have to rush to the next place.”Senior brother Chen sighed. He could only choose to give up.

The sky puppet was indeed not something they could deal with.

The sky puppet shook its head and sat down cross-legged again.

At this moment, a mocking voice sounded, “Why don’t you give me the two tokens?”

The sky puppet opened his eyes and looked at Su Yu who was walking over with his hands behind his back. He asked, “Where are your team members?”

“One of me should be enough. There’s no need to trouble the other two.”Su Yu stepped onto the surface of the river.

The sky puppet nodded slightly, "Alright, but you only have one chance. Since you only have one person, if you can withstand three moves from me, you will be considered to have passed the test. You will get two tokens."

Su Yu shook his head lightly.

"Three moves is too little?" Sky puppet frowned. "Seeing that you only have one person, I have reduced it to three. Don't be satisfied."

Su Yu stopped in his tracks and said indifferently, "What I mean is that I shouldn't need three moves to deal with you."

What?

Sky puppet thought that he had heard wrongly. A group member actually said that he could finish him in one move?

Senior brother Chen and the other two on the shore were also stunned for a while.

It had been many years since they had seen such an arrogant soldier.

Even the strongest group member of the Sun, Moon, and star group did not dare to say that he could finish the sky puppet in one move, right?

"Haha, Alright, I'll Spar with you." The sky puppet laughed and grabbed with his hands again, wanting to capture the river.

However, he was surprised to find that no matter how hard he tried, the river beneath him did not move at all.

"What's going on?" Sky puppet was stunned.

Suddenly, he seemed to understand something. He suddenly raised his head and looked at Su Yu. He said in a serious voice, "You..."

Could it be that Su Yu had suppressed the river and prevented him from being captured?

Su Yu's hands were still on his back. He said indifferently, "Do you want to use this river? Alright, I'll give it to you."

Roar --

Suddenly, the entire river started to twist and turn violently.

The huge waves hit the sky and slammed the sky puppet to the ground.

"Ah! Lawless!" The sky puppet sensed danger and roared. A huge ball appeared in front of him and protected him.

However, the huge waves continued to hit the ball and shattered it.

The sky puppet was shocked and stared at Su Yu, "You Are Xuan..."

"As a puppet, it's better not to say anything."

Su Yu was nowhere to be seen in the huge waves.

However, the roaring waves could not stop his calm voice, “Nine-five Ice Dragon Qi!”

Chapter 2488 Leftovers

In an instant, an earth-shaking chill radiated wildly in all directions with Su Yu’s feet as the center.

After three to five moves, the entire river and the sky puppet that had fallen into the waves were frozen into ice at the same time.

The sky puppet maintained a shocked expression and stood there motionlessly.

“Looks like I won.” Su Yu’s voice fell.

The frozen river instantly thawed.

The huge waves that hit the sky crashed down.

When the waves calmed down, Su Yu’s figure was finally revealed.

What made senior brother Chen and the other two on the shore suck in a breath of cold air was that.

Su Yu still stood there with his hands behind his back. He did not move at all.

“Senior brother Chen, who is he?”

In just two moves, he easily defeated the sky puppet.

He did not even use his full strength.

This was several times more powerful than the Sun, moon, and star combination, right?

Senior brother Chen’s face was filled with shock. He could not even speak.

The defeated Sky Puppet, after recovering from his shock, walked forward with a bitter smile and handed over two tokens. “The divine fire token is yours.”

After saying that, he turned his feet and sank into the bottom of the river.

After fumbling around with the two tokens, Su Yu slowly walked back to the shore and came before the three of them.

Senior brother Chen subconsciously put up his guard and shielded the two junior sisters behind him. With fear in his eyes, he said, “You... What do you want to Do?”

Xiu --

What senior brother Chen never expected was that Su Yu did not do anything to them.

Instead, he threw one of the tokens to them and said, “This token is yours. Just tell me the details of the competition.”

Senior brother Chen and the other two were stunned. They had never thought that Su Yu would give them a token so easily just for a reason.

He suppressed the fear in his heart, senior brother Chen said, “This... senior brother, the competition is divided into two parts. The first part is to get the divine fire token. The second part is to open a treasure chest through the divine fire token. There are different amounts of crystals in the treasure

chest. Finally, each group will decide the ranking of the competition based on the number of crystals they get.”

That was it?

Su Yu thought that the so-called competition would inevitably involve fights.

“How many divine fire tokens can a group get?” Su Yu asked.

“No Limit! As long as you have the ability, you can get all the divine fire tokens without a problem.”

Hearing this, Su Yu realized that he had thought too simply.

There were still fights, and they revolved around the divine fire token.

“The three of you must be very familiar with the distribution of the divine fire tokens, right?” Su Yu asked. The three of them had come straight to this place, and it could be seen that they had participated in similar competitions more than once.

Senior brother Chen said hesitantly, “I’m quite familiar with it.”

Their goal was to find three divine fire tokens.

If they were to lead the way for Su Yu, they would not have the time to find the other divine fire tokens, and they would definitely be ranked at the bottom this time.

“Lead the way. Ten tokens. I’ll take seven and you three will take three,” Su Yu said without allowing anyone to interfere.

Hearing this, senior brother Chen was still deep in thought. The two junior sisters were already overjoyed.

With this extremely powerful human expert holding the line, who could win against them?

What puppet could not be defeated?

“We agree!” The two junior sisters agreed readily. Senior brother Chen had no choice but to agree.

The four of them came to an agreement and formed a team of four to go to the next destination.

The place they arrived at was a puppet hidden in the lava.

“Senior brother Su, should we go or do you want to do it yourself?” Senior brother Chen looked at the fierce-looking puppet that was not to be trifled with. He felt that it was a little troublesome.

Su Yu did not answer. Instead, he glared at the puppet. “What are you waiting for? Why aren’t you sending it over?”

What shocked senior martial brother Chen and the other two was that the fierce-looking puppet actually obediently swam over and gave the divine fire token to Su Yu.

“Let’s go to the next place!” Su Yu took the token and left without looking back.

Senior Martial Brother Chen and the other two only felt that they were dreaming.

That puppet was at least a late stage grandmaster realm puppet. Although it wasn’t much to them, it shouldn’t be played like this, right?

Was it done with just a glance?

The three of them led Su Yu to a few places in a row, as if they were in a dream.

Each of them didn’t stay for more than a few breaths.

Because Su Yu didn’t make a move from the beginning to the end, he shook the group of Earth puppets until they became obedient.

Until an ice peak.

When they arrived, the three figures were fighting with a sky puppet.

In the entire military preparation hall, the only group that had the ability to fight with a sky puppet was the number one group, Sun, Moon, and Star!

Especially their group leader, Sun Zhongtian was the most powerful. He was about to break through to the Xuan Dao Master level, and he was a nine star disciple.

Every move and move was filled with great power.

Seeing that it was the three of them, senior brother Chen immediately became serious and said, “Senior brother Su, let’s forget about this place. Since Sun, Moon, and star came first, we have no chance.”

The two junior sisters were the same. They didn’t want to fight head-on with the Sun, Moon, and stars.

“What are you afraid of?” Su Yu said calmly, “Since it’s a match, you should have the courage to fight.”

They thought that Su Yu was going to fight personally, so they immediately became excited.

To be honest, they couldn’t figure out Su Yu’s strength at all.

Even when fighting against the sky-fighting puppet, they couldn’t see through his moves.

At this moment, they might be able to feast their eyes on it.

“You guys go ahead. I’ll hold the line from the back,” Su Yu said.

US?

Senior brother Chen and the other two immediately stiffened.

“Senior brother Su, it’s not that we’re belittling ourselves, but Sun Moon star is indeed too strong. We...”

However, before they could finish speaking, Su Yu waved his sleeve, and the three of them were swept away and landed behind Sun Moon Star.

Sun, Moon, and star, who were fighting with the sky puppet, were instantly shocked and furious.

“How dare you launch a sneak attack while we are fighting with the sky puppet!” Sun Zhongtian turned his head and shouted, “I will hold off the sky puppet while the two of you take care of the three of them.”

Now that things had come to this, senior brother Chen and the other two could only brace themselves and fight.

“Let’s Go All Out!” The three of them exerted their full strength.

As they had expected, once they fought, they would be at a disadvantage.

Who knew that when the three of them attacked, they would discover a power that they did not know where it came from. It shook the famous Moon Soul and star consort until they vomited blood and flew backwards.

“Ah! What’s going on? My Body!” The two junior sisters looked at their palms in shock.

A beam of Xuan Dao master’s power had actually appeared in their palms and fused into their bodies.

Senior brother Chen turned his head to look at Su Yu in shock. Could it be that he was a Xuan Dao Master?

However, he didn’t have time to think too much. Ri Zhongtian sensed something strange behind him and pounced on the three of them with a furious roar. “What trick did you guys use?”

Yue Hun and star consort were only slightly weaker than him.

They were the most powerful existences in the military preparation hall. How could they not be a match for him?

Senior brother Chen gritted his teeth and said, “Junior Sisters, Join Hands!”

The three of them joined hands to attack. The powerful power of the Xuan Dao actually suppressed Ri Zhongtian!

“You!” Sun Zhongtian roared and attacked back with the sky shaking technique.

His attack had the power of the Xuan Dao Master.

Senior brother Chen and the other two used a trace of the power of the Xuan Dao in their bodies to fight with him for a long time before they finally defeated him.

Moon soul and star consort were also captured by them.

“Thank you for your help, senior brother Su!” Senior brother Chen turned around and bowed to Su Yu gratefully.

Unexpectedly, Su Yu had a disappointed look on his face. “Your own strength is too weak. To think that you guys took such a long time to deal with a sun, moon, and Star!”

His Xuan Dao strength was much stronger than ordinary Xuan Dao Masters.

He had given each of them a wisp. He should have defeated Sun Zhongtian a long time ago.

However, he did not expect that it would take so long to satisfy him.

The corner of senior brother Chen's mouth twitched. He felt a deep stabbing pain and helplessness.

Chapter 2489 The Entire Group Despised It

They were both members of the military preparation hall, but the gap between him and senior brother Su was too big.

It was so big that he felt despair.

He had only felt this kind of feeling from the hall master of the Military Preparation Hall.

Su Yu did not look away. He walked in front of Yue Hun and star consort and found six tokens on their bodies.

Together with the ten tokens that he had collected along the way, there were a total of sixteen tokens.

Finally, he glanced at the sky puppet with an uneasy expression and waved at him. "Hey, throw me those two tokens."

His tone was as if he was ordering a pet dog.

What made Moon Soul and star Consort's eyes widen was that the sky puppet that had fought with them just now was actually as obedient as a puppy, cowering. "Oh, Oh, okay, I'll give them to you right away."

He threw two tokens over with both hands and immediately hid.

It was as if he was afraid that Su Yu would attack him.

Such a strange scene caused Moon soul and star Consort's minds to go blank.

In this way, Su Yu had a total of eighteen tokens.

Su Yu casually threw five tokens to senior brother Chen and said, "Lead the way!"

The three of them were overjoyed. Including their own gains, they had already obtained a total of six tokens, far exceeding their expectations.

"Let's go back and open the treasure chest." Su Yu waved his hand and left with the three of them.

Just as they descended the mountain, they actually ran into the hundred flower clan girl and the Daoist youth who were still searching for the treasure chest.

The Hundred Flower clan girl glanced indifferently at Su Yu and the Moon Soul and star consort beside him and said, "You're quite smart, knowing to follow others to take advantage of others."

She mistakenly thought that Su Yu had followed senior brother Chen and the other two's group.

The young Daoist was disappointed and said, "Since it's a competition, you should have your own fighting spirit. What's the point of following others to pick up scraps?"

Senior brother Chen recognized the lady from the Hundred Flowers clan and the young Daoist.

The group of these two people was second only to the Sun, stars, and Moon. Whether it was the soldier who had defected, or the two of them, they were both powerful people.

However, after personally witnessing Su Yu's strange and peerless strength, it was difficult for them to take a fancy to the strength of the two people in front of them.

Hearing their rude words and mocking Su Yu, senior brother Chen stepped forward and said seriously, "What nonsense are you talking about? Senior brother Su, he..."

He didn't say it out loud because Su Yu waved his hand to stop him.

"Summer Bug, you can't use words as ice. There's no need to explain too much to others," Su Yu said concisely.

It did not matter how the Hundred Flower Clan Girl and the Daoist youth viewed him.

Because he had never intended to treat the two of them as companions.

Senior Brother?

The Hundred Flower clan girl raised her beautiful brows slightly. She could hear a trace of abnormality from senior brother Chen's words.

However, she immediately shook her head. Based on her preconceived notions, she felt that there should be some misunderstanding.

"It's best that you have self-awareness. Heavenly Spirit Dao and I really do not want to have anything to do with you," the Hundred Flower Clan Girl said straightforwardly. "I hope that after this competition, you will take the initiative to propose a change of group to the Hall Master."

The Daoist youth said indifferently, "It's important to know your place. There's no benefit in trying to curry favor with the two of us. If you really go to the battlefield, you will only get yourself killed."

He didn't even bother to hide his threat.

The two of them were very determined to refuse to be in the same group as Su Yu.

This was because Su Yu's performance had really disappointed them.

Even if he tried a little harder, he could barely accept it.

However, following the other groups and eating scraps, he had no desire to fight at all.

What was the use of keeping such a person?

Senior brother Chen and the other two were dumbstruck when they heard this. They looked at the self-righteous hundred flower clan girl and the Heavenly Spirit Dao with an exceptionally strange gaze.

That gaze was as if they were looking at a beggar who was starving to death and throwing away a golden house.

Or perhaps, it was a martial arts mortal who gave up the overwhelming inheritance he had obtained. The Hundred Flower clan woman felt strange. Senior brother Chen's group of three really made her feel very strange.

Could it be that she had done something wrong, or that someone was scheming against her, and they were waiting to see a joke?

With this thought in her heart, the hundred flower clan woman quickly left, looking for the next puppet.

"Senior brother Su, you're so powerful, why should you be angered by these two idiots?" The two junior sisters were indignant for Su Yu.

The Sun, Moon, and stars had all fallen in the snap of a finger in Su Yu's hands, so what was the Hundred Flowers Clan Girl and the Heavenly Spirit Path?

Just one look was enough to scare the two of them to the ground, right?

"Do you think I'm angry?" Su Yu's expression was very calm. "Like how a Colossus would be angered by an ant's provocation?"

Of course not!

The three of them immediately understood Su Yu's meaning and sighed endlessly.

A master was a master.

At this moment, Su Yu's realm had completely overlooked all the warriors.

"I hope that you can keep my happy experience with you a secret forever." Su Yu looked at the three of them and smiled.

Senior brother Chen and the other two were quick-witted and quickly nodded.

Who Dared to say no?

Otherwise, this experience would turn from happy to unhappy.

"The treasure chests are all on Mount Innerheart." Senior brother Chen led them to the place where the treasure chests were placed.

There was a mountain covered in poison, and everywhere was filled with danger.

And the private rooms were scattered in the mountains.

Those who held the divine fire token had to personally go up the mountain, take out the treasure chests from the danger, and then open them.

Next, they had to work separately.

"Senior brother Su, I'm very lucky to have senior brother Su take care of me all the way. When I return to the sect, I'll definitely pay you a visit and thank you." Senior brother Chen's original name was Chen Qiankun, and he was exceptionally grateful.

The two junior sisters also felt that the formation this time was like a dream, and they were extremely grateful to him.

“Okay.” They split up into three people. Su Yu held thirteen divine fire tokens in his hands, and each headed to Mount Innerheart to search for the treasure chest.

The danger here wasn’t too great for him.

Su Yu was familiar with the route and found several treasure chests.

When he found the mountainside, he accidentally heard a secret voice transmission.

Because he had mastered the spatial domain, he was very sensitive to voice transmission.

When he listened carefully, his face couldn’t help but change slightly.

“Have you put the treasure chests away?” A familiar voice fell into Su Yu’s ears. This should be the voice of the Hall Master of the military preparation hall.

“Everything is ready.” The person who answered was a deputy hall master of the military preparation hall.

The hall master sighed, “The war is endless, and the war at the border is starting again. Sigh!”

“Hall master, there’s no need to worry too much. According to the sect’s rules, the military preparation hall can be transferred to the other halls after ten years. It’s only been a year since the last war, so there shouldn’t be any war happening in the short term.”

The hall master shook his head lightly. “You might not know, but it’s said that the border...”

However, the hall master wanted to say something but hesitated. He seemed to be on guard and stopped talking. He only said, “Let’s pick the winner of this outstanding competition first.”

After the two of them had a secret conversation, they left immediately.

Su Yu heard it and was shocked in his heart.

From what the hall master said, it seemed that the border was not peaceful.

On the surface, this competition was a training, but in reality, it was to select capable warriors to go to the border to carry out missions?

If he did not know, then so be it. Since he knew, how could Su Yu not take action.

He immediately threw away all the treasure chests in his hands, not leaving a single one alive.

Compared to the increase in the level of the disciples, their lives were more important.

Even the hall master kept the matter of the border a secret, how could it be a simple matter?

“No wonder so many sky puppets that normally wouldn’t appear appeared this time. It turns out that there was a strange movement at the border,” Su Yu thought to himself.

Two days later.

The competition ended.

Each member brought the crystals that they had obtained from the treasure chest and returned to the point military field.

The hall master and the two vice hall masters were already waiting there. They arranged for people to carefully register the crystals that each group had obtained.

“Hundred Horse Road Group, come forward.” The registrant called out to Su Yu’s group.

The Hundred Flower Clan Girl, Heavenly Spirit Road, and Su Yu came forward.

The Hundred Flower Clan Girl and Heavenly Spirit Road took out a total of fifty crystals. Their harvest on this trip was very good. They obtained five divine fire tokens.

“Is there any more?” The registrant asked.

The Hundred Flower Clan Girl and Heavenly Spirit Road glanced at Su Yu with slight anticipation, but Su Yu only shook his head apologetically.

“We can’t even get the leftovers!” The hundred flowers woman was completely disappointed. She warned, “Remember what I said. Don’t follow us anymore.”

The registrar was not unsatisfied. He said, “The Hundred Horse Dao is temporarily ranked first.”

Even though they had su yu “Dragging them down”, they still easily got first place.

Su Yu silently sighed in his heart. This first place was not that easy to get.

Following that, it was Chen Qiankun’s group’s turn. Contrary to their usual behavior, they obtained 60 crystals, creating a precedent to suppress the second place, firmly occupying the first place.

This caused many of the warriors to be greatly surprised.

Chen Qiankun’s group’s overall strength was only average. This time, they were actually able to become the first place, which was truly unexpected.

The Hundred Flower Clan Girl and heavenly spirit path were even more resentful of Su Yu. The other party had obtained six, yet Su Yu had not even obtained a single divine fire token with them. He was truly incompetent to the extreme.

The following rankings were all calm and did not cause many people to be surprised.

It was not until the Sun Moon Star appeared with zero crystal stones that the entire scene was completely shocked.

The Golden Armored Hall Master had a look of disbelief on his face. He waved his hand and said, “Sun Moon Star, the three of you follow me. I have something to ask you personally.”

Sun Moon Star followed him behind the scenes. No one knew what they were talking about.

But it could be seen that Sun, moon, and star's expression was not good.

In the end, when the statistics were over, the ranking was completed.

"First place, Qiankun Group! Each member of the group has received the promotion of a level one disciple."

"Second place, Hundred Horse Path! Each member of the group has received a thousand time crystals."

"Third place, Yunlai Dian! Each member of the group has received three hundred time crystals."

"The rest of the members will each receive 10 time crystals."

The match should have ended here, but the Hundred Flowers clan lady from the Hundred Horse Path had a sullen expression on her face and said, "Hall master, I have something to say."

The Golden Armored Hall master nodded. "Bai Lianxin, right? Speak."

Bai Lianxin looked coldly at Su Yu and said, "The newly joined member of our group, Su Yu, is unable to cooperate with US tacitly. Hall master, please make the decision and replace him with someone else."

Hearing this, the entire place was in an uproar.

This was openly embarrassing that Su Yu.

"Tian Lingdao, what about you?" The hall master asked another member.

Tian lingdao said without hesitation, "I agree with Bai Lianxin's opinion. Su Yu is indeed not suitable for our group."

He was despised by the entire group!

There were already quite a number of people who were gloating over his misfortune, watching the interesting events after the competition with Relish.

The hall master finally looked at Su Yu and said, "What do you want to say?"

Su Yu certainly had nothing to say, because this was exactly what he was looking forward to.

Chapter 2490 Qilin's Mutation

Only by being expelled from this group could he avoid being sent to the border to carry out dangerous missions.

"I have no objections."

Even Su Yu, who had been expelled, had nothing to say. The hall master could only announce, "Alright, Su Yu will be transferred out of the Hundred Horse Path Group."

The announcement made Su Yu's heart slightly relax.

Hundred Lotus Heart and Heavenly Spirit Path also got what they wanted. They no longer looked at Su Yu.

The next thing to do was to disband everyone in the competition.

“Also, I have an announcement to make.” As expected, the Hall Master spoke his true intention at the end.

His expression was solemn, he said sternly, “According to the reliable information we have, there are suspicious people at the border. They are investigating several mines at our border. I have decided to send ten groups of members to the border to investigate. Once we find signs of a large-scale invasion, we will immediately report it to the sect.”

Immediately, the noisy military field became as cold as an empty mountain.

Everyone’s eyes were filled with solemnity.

The hall master said slowly, “Everyone, it’s not important. It’s just an investigation, not a direct battle. Moreover, based on our understanding, the enemy is very few in number. There are less than ten of them. Your mission is to determine if there is a large force other than ten of them.”

“As long as the mission is successfully completed, when we return this time, we will be promoted by an additional two levels of disciples.”

The moment these words were said, the many warriors heaved a sigh of relief and turned to look forward to it.

Many of them were seven-star disciples. Once they obtained two levels, they would become the highest level nine-star disciples.

As for the eight-star disciples and even the nine-star disciples, they were even more excited.

If they were given two levels of promotion, they could be promoted to the level of Vice Hall Master in one go.

And the military preparation hall could not accommodate an extra vice hall master. They could take the opportunity to transfer out and head to another hall.

This made many high-level disciples eager to give it a try, their spirits soaring.

Only Su Yu looked on coldly, disapproving.

Was It really that easy?

From the conversation between the Hall Master and the Vice Hall Master that day, it was obvious that it was not.

He was too lazy to get involved in this mess.

“Due to the danger of the mission, I have decided to send the sun, moon, and stars who are in the top nine and last place in this competition to participate.”

Upon hearing this, the entire stadium was filled with regret and sighs.

If they were willing to work harder in the competition, they might have a chance to enter the top ten.

Su Yu heaved a sigh of relief. At least he was safe.

He withdrew from the hundred horse track in time. He was not inferior to the top ten team members, so he could avoid this disaster.

However, to Su Yu's surprise, the hall master added, "In addition, I will add an additional person."
Who?

Why would he add an additional person? Could it be that the other party was very special?

"That is the new five-star disciple, Su Yu." The hall master smiled and said to Su Yu, clapping. "Congratulations, you have obtained the qualification to go to the border to carry out a mission."

Su Yu was not the least bit happy.

He even had the urge to hit someone.

He had kept such a low profile, and it was not easy for him to get rid of the top ten group members. How could he suddenly be called by the Hall master personally?

Suddenly, he noticed that the sun, moon, and star group members where Sun Zhongtian was were all casting a vague glance at him.

He instantly understood.

It should be because the hall master had just called the three of them to talk behind the scenes and learned about many things that had happened on the snow peak.

The reason why the Qiankun group was so powerful was because of Su Yu.

That was why the hall master had given Su Yu an extra light treatment and would never let him, this potential outstanding warrior, go.

"According to the information I have, Su Yu's performance in the match was extremely outstanding, far surpassing any other warrior. Therefore, I have given him an extra special reward -- to raise the level of a level one disciple, and at the same time, he has been rewarded with a thousand time crystals."

This was equivalent to the sum of the rewards for first and second place.

What?

Instantly, the crowd became excited.

"On what basis? It's not fair!"

"He didn't even get a single divine fire token. On what basis did he get a special reward?"

Even Hundred Lotus Heart and heavenly spirit path were so jealous that their eyes turned red.

They absolutely could not accept that Su Yu, the guy who had dragged them back, had instead gotten a reward that was far better than theirs.

The hall master pressed down with his palm, and a powerful pressure suppressed the sounds of resistance from the entire place. He said solemnly, "Why? Just based on the divine fire tokens he has on him, he has twice as many as any other group present!"

"Absorb!"

The hall master grabbed at the air, and the thirteen divine fire tokens that Su Yu had hidden in his spatial storage device actually sensed something. He forcefully broke free from the storage device and flew out, floating above Su Yu's head.

"Thirteen?"

"How did he get them?"

"That shouldn't be the case. Just finding the thirteen puppets would take more than half the time. How would he have time to battle with the puppets and defeat them all? Unless the puppets can't even withstand a single blow from him."

However, this possibility was extremely slim.

Everyone discussed animatedly, and the hall master said sternly, "The competition has never been about methods, only the results. Since he got so many divine fire tokens, it's enough to show how outstanding his ability is. That's why he's given a special reward."

As such, everyone was indignant, but it was hard to refute.

They could only watch as Su Yu's 5-star disciple token turned into a 6-star disciple token.

At the same time, he received a thousand time crystals.

"Warriors who have been selected, you have three days to prepare. Three days later, you will set off on time!"The hall master waved his sleeve and announced the investigation operation three days later.

Everyone dispersed.

Su Yu also left in a hurry. However, it was clear that some people were unwilling to let the matter rest.

"Su Yu, you are sincerely making things difficult for us, aren't you?"Bai Lian's heart was filled with anger.

Since Su Yu, who was also in the same group, had obtained so many divine fire tokens, why did he hide them and not come out?

It caused them to lose the first place.

Heavenly Spirit Path's eyes were filled with lightning as he berated, "Su Yu, give me a reason why you hid the divine fire tokens."

Su Yu was not in a good mood when they were angry.

He was already in a bad mood when he was called on to carry out a dangerous mission for no reason.

Being entangled by the two again, he decided to shed all pretense of cordiality and said indifferently, “You keep talking about the human race and the leftovers. You keep saying that you look down on the human race. Why should I help you?”

Su Yu was patient enough with them.

“Don’t challenge my bottom line again!” Su Yu warned lightly and left with his hands behind his back.

Bai Lianxin and Tian Lingdao were both angry and angry.

“Lowly human, what right do you have to be angry at me?” Bai Lianxin’s eyes were full of anger.

Tian Lingdao’s eyes also turned cold. “I said that he would die without knowing how he died on the battlefield!”

Su Yu returned to the military preparation hall and came to his cave abode.

His eyeballs changed several times. Su Yu took out an iron ring.

The iron ring was left behind after the death of the evil loose cultivator that day. There was also a token engraved with the word ‘space-time’.

This iron ring was quite mysterious. Su Yu hadn’t fully comprehended it yet.

He tried again but failed to discover the profoundness of the iron ring. Su Yu threw it into his spatial storage.

At the same time, he waved his hand.

A hundred-jin nine darkness crystal appeared in front of him.

There was a skull-sized creature inside.

Su Yu had to increase his life-saving items as much as possible for this mission at the border.

Apart from the eight domains that he could only use as a last resort, he should also prepare other methods just in case.

Su Yu held a special tool in his hand and slashed down fiercely, splitting the nine darkness crystal into two halves, revealing the sealed creature inside.

That creature had no life characteristics and was already dead.

He tried to study this beast, but just as his fingers were about to touch it, he suddenly felt a sense of foreboding, and a powerful danger descended without warning.

Su Yu didn’t even think about it and instantly used his spatial domain to move away from the cave abode.

Just as he left, a burst of jade light suddenly shone brightly within his cave abode. It was incomparably resplendent.

Then, it quickly dimmed.

Su Yu's pupils contracted fiercely, "That is... The Nine Netherworld Green Flame?"

How could he forget the terrifying green flame that he encountered in the depths of the abandoned mine?

The Majestic Xuan Dao Master Level Qin Yuan's soul was completely incinerated by the Green Flame on the spot, and he couldn't be any more dead.

But how did that flame appear in his secret chamber?

"It's that creature?" Su Yu was incomparably shocked.

After waiting for a long time and confirming that there was no more jade flame in the secret chamber, he carefully returned to the secret chamber.

He checked the creature again.

The creature's body was shriveled. There was not even a trace of flesh and blood left. Only a skinny corpse was left.

However, the corpse's bones faintly showed a faint dark green color.

There was still a large amount of nine nether jade flame in its body!

Su Yu immediately felt that it was troublesome.

What was the use of this thing?

He couldn't even touch it, and it had no value in itself.

He didn't understand why someone would sell this nine nether jade crystal at such a high price.

Just when he didn't know what to do with the corpse, the little qilin suddenly jumped out. It sniffed continuously and said, "What is it? It seems to be very fragrant."

After a moment of silence, it stared at the corpse. Its eyes shot out a bright jade light. "Master, what is this thing? It seems to be very delicious."

Su Yu's eyes flashed. "You dare to eat it? Don't blame me for not warning you. There is a rather dangerous green fire hidden in this corpse."

"I think I should be able to eat it." The little qilin rolled its eyes as if it was afraid that Su Yu would go back on his word. It pounced on the corpse and swallowed it.

Su Yu was shocked. "Aren't you afraid of being poisoned to death?"

Cough --

The little qilin burped and rubbed his swollen belly. "I'm a little stuffed."

Then, the little qilin suddenly fell to the ground. His belly was facing the sky and his limbs were twitching.

It looked like he was going to die.

Su Yu's heart sank. He immediately went forward and prepared to use his domain to forcefully pull out the corpse.

However, the little qilin suddenly turned around nimbly and laughed loudly while holding his stomach. “Look at how scared you are!”

It turned out that it was deliberately teasing Su Yu.

At this moment, Su Yu’s forehead was filled with black lines. He went forward and gave it a kick.

The little qilin with its round belly bounced back and forth in the secret chamber.

The little qilin that was smashed into a mess just now surrendered. “Stop hitting me. It wasn’t easy to digest it, but you’re going to beat it out again.”

As if responding to its own words, it could not help but burp again.

However, that burp actually carried a faint wisp of nine Nether Jade Flame!

Fortunately, Su Yu’s reaction was very fast, and he quickly dodged.

Otherwise, if this wisp of flame invaded his soul, the consequences would be extremely terrible.

“You Can Digest Nine Nether Jade Flame?” Su Yu said in surprise.

The Little Qilin was stunned. “Nine Nether Jade Flame? You Mean This?”

It shook its chubby body, and a layer of jade-green flame emerged from its scales, dyeing the purple flame a pale green.

Su Yu’s expression changed drastically.
