

Nine-Dragon 2491

Chapter 2491 Cang Mountains Like The Sea

“How did you do it?” How could the little qilin be immune to the destructive power of this fire that could penetrate through any hole in the soul?

The little qilin scratched his head and said, “It should be my chaos power. It seems that it refined these jade-green flames and made them a part of my body.”

As he spoke, the little qilin closed his scales and the jade-green flames disappeared. Then, he opened them and released them.

They moved back and forth like a small fireball.

Su Yu was surprised. He originally thought that the Little Qilin’s power of Chaos only had a strong devouring effect.

Now, it seemed that it could actually assimilate the other forms of energy for its own use.

If the little qilin were to launch a surprise attack and spit out a mouthful of the nine Nether Jade Flame, what level of enemy would be able to remain unharmed?

Unless he was much higher than Su Yu, even if he didn’t die, he would have to ruthlessly lose a layer of skin, right?

Su Yu looked at the little qilin with a gaze that was filled with light.

“What are you doing?” The little qilin met Su Yu’s malicious gaze and shrunk his neck.

Su Yu smiled. “I was thinking about when I can cut open your stomach to study your structure and eat another meal of qilin meat.”

When he heard this, the little qilin immediately bared his teeth. “Ah! So you’re such a master! !”

Su Yu smiled and let out a long sigh. There was a lot of meaning in his eyes.

He did not know if all the sealed items in the nine nether crystal contained the nine Nether Jade Flame.

If that was the case, wouldn’t it be easy for the little qilin to grow?

As long as there was enough time to crystallize, he could buy countless nine nether crystals.

“The border mission in three days will have an extra layer of insurance.” Su Yu took a look at the little qilin and heaved a sigh of relief.

Two days later.

Su Yu was making preparations for the trip when Yu Xiang Wan came looking for him.

“Brother Su, I heard that your military preparation hall is preparing to send soldiers to the border to carry out an exploratory mission?” Yu Xiang Wan asked with concern.

Su Yu looked helpless. "Yes, I'm one of the selected personnel."

Yu Xiang Wan instantly turned serious. After pondering for a moment, she took out a turtle shell engraved with mystical runes. "This is something I got from a powerhouse from my hometown. At a critical moment, I might be able to help you."

He had long heard that Su Yu was going to carry out a mission, so he specially found a treasure to escape and gave it to Su Yu.

Su Yu was moved.

The two of them had not known each other for a long time, but there was a sense of mutual appreciation between them.

"I appreciate your kindness, brother Yu. If you need anything in the future, feel free to look for me." Su Yu accepted it solemnly with gratitude.

Yu Xiang Wan laughed. "No Problem!"

He took out a map and handed it to Su Yu. "I've collected the maps of the mines you guys went to. You can take a look at them first."

Su Yu was surprised.

In his plan, he was also planning to go to the hall of ancient records to check the map information in the vicinity to prevent any accidents.

He did not expect Yu Xiang Wan to think of the same thing as him.

"I Won't disturb you, brother Su. You should prepare well. When you come back, I'll give you a surprise," said Yu Xiang Wan mysteriously.

Oh? What good news is this?

"Hurhur, I'll give it my all to come back alive!"

After Yu Xiang Wan left, Su Yu began to study the map.

At the border of the area was a large-scale mine that had been discovered in recent years.

The number of nine nether crystals stored underground was an astronomical figure.

However, the reason why the sect only occupied it and did not start digging was that there were many unknown dangers in the mines there.

It was said that a creature named nine nether charm grew in the mine.

The singing of this creature was beautiful and moving. Once one heard it, they would be involuntarily attracted to the depths of the mine and eventually get lost, never to return.

The Tai Yi sect had sent many strong cultivators, but other than losing soldiers and generals, there were no signs of cleaning up the mine.

Therefore, they put it aside.

Unexpectedly, the existence of the mine still alarmed the nearby Zhengtian sect.

A great battle between the two had finally ended with the victory of the Tai Yi sect.

Now that a year had passed, another unknown force was exploring the vicinity of the mine.

“Nine serenity charm?” Su Yu stroked his chin and nodded slightly.

One day later.

Su Yu came to the hall of the military preparation hall, and everyone arrived one after another.

“Senior brother Su.” Chen Qiankun brought his two junior sisters and welcomed them with a smile. “Is there anything we can help you with in this operation?”

The three of them had never expected the danger of this mission.

They just thought that it was an exceptionally ordinary mission, and they were very relaxed.

“Senior brother Chen, you’re too kind. I don’t deserve your service. However, if you don’t mind, we can continue to form a team. That way, we can help each other. It will undoubtedly be much safer,” Su Yu said.

He felt that Chen Qiankun and the other two were not bad. If they were with them, they would be able to help as much as they could in case of danger.

Hearing this, Chen Qiankun and the other two were naturally overjoyed.

On the contrary, Bai Lianxin and Tian Lingdao occasionally shot cold glares at them.

In the competition three days ago, Chen Qiankun and the other two had successfully become eight-star disciples.

If that ranking had been given to them, the two of them would have become nine-star disciples.

If they tried to perform well in this mission, they would be promoted to deputy hall master. This way, they could easily be transferred out of the military preparation hall.

Unfortunately, everything happened because of Su Yu’s intentional dragging.

One could imagine how much they hated Su Yu.

As if sensing their gazes, Su Yu looked at them and his emotions were calm.

If these two were honest, Su Yu wouldn’t bother looking for trouble with them.

If they had any evil intentions, then don’t blame him for being ruthless.

Shua --

The hall master appeared and said loudly, “Please come forward.”

He took out a pamphlet.

It was the registration book that could kill people thousands of miles away.

Many people walked forward one after another to confirm if there was anything strange about the name.

People like Su Yu, who hadn't been registered, were also forced to take out a drop of blood essence and carve their names.

“Curse?” When Su Yu's blood essence fell into the booklet, he immediately felt an obscure and dark power in his body.

As long as it was triggered by someone, it would flare up and kill them.

Fortunately, the power of the curse was limited. Before it burst out, Su Yu could completely isolate it with eight domains.

After making the register, the hall master each distributed three hundred time crystals to the people present. It was enough for them to go against the sect and the border.

“Let's Go!”

The members of group Ten and Su Yu left for the border area alone.

Because of the space-time domain, there was no one to be seen along the way.

There were only all kinds of natural treasures and fierce birds and beasts that grew wantonly.

In the blink of an eye, a month had passed.

They arrived at an area covered by the blood sun.

The mountains were as vast as the sea, and the setting sun was like blood.

Their eyes were filled with mountains and rivers filled with blood.

“Let's meet up with the people who are stationed here first.” There was a secret station at the border all year round.

They had to report to them before they came here to carry out their mission.

Chapter 2492 2383, Seven Star Guardian

The group arrived at a Broken Canyon and entered a cave hidden deep within the cliff.

“Who are you?” A shout came from the cave, and traces of dangerous aura instantly gushed out.

The group discovered one after another and revealed their identities. Only then did a layer of invisible air flow dissipate in front of them.

That air current contained extremely dangerous energy. Once it was touched, it would produce an explosive destructive power.

When they entered, what greeted them was a white-faced old man with three long horns and a cold expression.

“So Slow!” The white-faced old man grumbled unhappily. He took out a map and arranged for the members of group ten on the spot. “The Sun, Moon, and stars are responsible for this patrol area, and the Hundred Horse Path is responsible for this area...”

After the arrangements were made, he sent a message to the sect to confirm that all the members on the mission had arrived and that none of them had escaped midway.

“Senior brother, may I ask if there’s...”a member of the sect wanted to ask about the relevant information.

However, the white-faced old man didn’t even think about it and waved his hand. “Won’t we know once we get there? Hurry up and leave!”

The group had been on a long journey and had wanted to rest here for a while to replenish their energy. Who knew that the other party would chase them away so inhumanely, causing everyone to leave with different expressions.

“Senior brother Su, this person’s attitude is really not flattering,”Chen Qiankun said angrily.

The two junior sisters were also very angry.

“That’s right, what are you being so arrogant for? No Wonder You’re a nine star disciple at such a young age!”

Su Yu did not say anything. He only looked at the hidden airflow near the cave with a slightly deeper meaning before following Chen Qiankun and the other two to the agreed location.

They were in charge of the southeast corner of a mine.

Standing behind them was a huge natural pit. It was even bigger than the entire Tai Yi sect.

It was dark and bottomless.

Looking down from above, it looked like a huge pitch-black eye staring at the sky. It was very scary.

Even the sects were afraid of the place inside the mine. Unless it was absolutely necessary, they couldn’t go deep into it.

“Senior brother Su, look, there really are traces of human activity here.”Chen Qiankun found some clues.

Su Yu glanced around and nodded slightly. He narrowed his eyes and looked around slowly.

At the edge of the mine, there was a remnant domain.

Moreover, the domain had dissipated less than ten minutes ago.

There were unknown people moving around nearby, and they didn’t go far.

“Be careful,”Su Yu said slowly, gazing at the incomparably quiet Cang Mountains in front of him.

In the dark, he activated his soul domain and used the clairvoyance eye to pierce through ten thousand mountains.

Following which, his pupils constricted as he discovered that there were 100 experts hiding outside the ten mountains.

Each of them had the same cultivation level as him and had reached the Xuan Dao Master Realm!

“Leave quickly!” Su Yu immediately sensed that something was amiss.

He had no problem escaping from the 100 Xuan Dao Masters, but he would definitely die if he fought them head-on.

Moreover, Chen Qiankun and the other two were with him.

However, just as Su Yu was warning Chen Qiankun and the others, several muffled thunderclaps suddenly sounded from the mine under their feet.

Eight purple thunderclaps that were as thick as mountains shot toward Su Yu and the others like giant dragons rising into the sky.

The power of each thunderbolt was no less than Xuan Dao master’s full-strength attack.

At the critical moment, Su Yu stretched out his arms and released the extremely dense Xuan Dao master’s power without holding back, condensing into a mirror under his feet.

Boom --

The Giant Lightning Dragon crashed over with a loud bang. It brought with it a heaven-shaking thunder roar and lightning that reflected the blood sun, shaking Su Yu’s body endlessly.

“Let’s Go!” Su Yu grabbed the three of them and sped away.

Before the other seven lightning dragons attacked, they left the area of the mine and flew far away.

Sou --

He barely left, and a purple-haired young man with eight purple vortexes flew out of the mine.

His face was as sharp as a knife and his entire body carried the burning aura of lightning, giving off an extremely threatening feeling.

And his cultivation was not the slightest bit weaker than Su Yu’s.

In fact, in terms of strength, Dao Master Xuan was even slightly stronger than Su Yu.

“Dao Master Xuan? The Tai Yi sect isn’t stupid, they know to place a deputy hall master among the agents.” The purple-haired young man mistook Su Yu for a Deputy Hall master.

“However, I can’t let you go back.”

The eight vortexes in the purple-haired youth’s eyes suddenly revolved, and his body transformed into a bolt of lightning that instantly shot towards Su Yu.

That speed far surpassed his own realm.

The group of Dao Masters of Xuan who were hiding outside the ten great mountains stood up one after another.

“Sigh, Protector Lei is good at everything, but he’s too headstrong.” A golden-haired dao master Xuan said unhappily, “Since we knew that the Tai Yi sect’s troops would come, wouldn’t it be foolproof if we acted together? Now, something unexpected has happened.”

They had already received the news and knew that a group of spies from the Tai Yi sect had come to investigate the situation!

However, Su Yu was very lucky.

Protector lei was too confident and thought that he could destroy the spies in one fell swoop.

Therefore, he sent all the 100 Xuan Dao Masters away and acted alone.

Who knew that something unexpected had really happened -- there was a Deputy Hall Master of the Xuan Dao Master hidden among them!

“If this person escapes, the Tai Yi sect will most likely find out about our situation here. At that time, the Tai Yi sect will inevitably launch an army battle.” The hundred or so mystic path masters were the main forces of a certain sect.

They had all gathered here in the hopes of occupying the mine within a short period of time.

They did not want their existence to be known by the Tai Yi sect.

“There shouldn’t be a problem. Protector Lei is one of the young master’s Seven Star Guards. Unless the Tai Yi sect’s hall master personally arrives, no one can escape.”

Su Yu did not fly far before a bolt of lightning chased after him relentlessly.

Noticing that he was alone, Su Yu was slightly surprised.

The One Hundred Xuan Dao Masters actually did not make a move?

Turning his gaze, Su Yu pushed Chen Qiankun and the other two away and said, “You guys run, I’ll deal with him.”

Chen Qiankun knew that Su Yu was powerful. If he stayed here, he would only be a hindrance.

“Senior brother Su, you hang in there. I’ll go back to the garrison point and inform the sect.” Chen Qiankun led his two junior sisters as they fled.

Sou Sou --

Three bolts of lightning descended from the sky and blasted towards the three of them.

However, just as they were about to strike, a towering figure appeared above them, blocking the three bolts of lightning.

Chen Qiankun looked at Su Yu’s figure and felt extremely grateful. He immediately fled.

“HMPH!” Protector lei snorted coldly. How could he allow them to escape.

Just as he was about to release the power of the Lightning, a layer of ice-cold air appeared on Su Yu’s body. He instantly flew over and froze the space in front of him.

Protector Lei had no choice but to switch from attacking to defending.

“Forget it. I'll finish you off first before killing them slowly!” Protector lei looked at Su Yu coldly. “Vice head of the Military Preparation Hall? HMPH, he can't even withstand a single blow!”

The eight vortexes in his eyes revolved simultaneously, and another eight lightning dragons swept over.

However, this time, Su Yu's expression was exceptionally calm.

He looked at Chen Qiankun, who had already left, and the other one hundred Xuan Dao Masters, who showed no signs of chasing after him, and said slowly, “I can finally let go!”

Roar --

As he spoke, the eight dragons swept over.

However, just as they were about to kill Su Yu, the river of stars around him revolved and instantly disappeared without a trace.

Chapter 2493 2,384, Unknown

“The spatial domain of the eight supreme domains? This...” protector lei was shocked, but strangely, he wasn't shocked by the spatial domain. He was just surprised and confused.

It was as if he had seen the spatial domain before.

And he didn't seem to be completely ignorant about the spatial domain.

“Lightning Dragon Protection!” The eight lightning dragons that flew out shattered into pieces of lightning as they roared. In the blink of an eye, they formed a giant cocoon-shaped lightning ball around their bodies.

Almost at this moment, an extremely dull attack landed on the lightning cocoon.

Su Yu raised his eyebrows slightly. The other party seemed to know something about spatial domains.

However, in the next moment, Su Yu realized something. The galaxy surrounding him disappeared once again.

The moment he disappeared, the lightning cocoon exploded in all directions like an explosion.

Endless Lightning, containing destructive lightning, swept in all directions.

If he was hit by the explosion at close range, he would definitely be heavily injured.

Fortunately, Su Yu left immediately and was not affected.

However, he did not stop his attack. The moment the lightning dissipated, he used his space domain to instantly appear beside him and pointed at his head.

This attack was the moment when Protector Lei's new power had yet to be unleashed and his old power had been exhausted.

Theoretically, he should be able to kill Su Yu in one strike.

However, Protector Lei did know a lot about space domain.

The moment the lightning dissipated, the corner of his mouth curled up and he suddenly shouted, "Lightning shackles!"

The lightning that had dissipated returned at an even faster speed, attempting to encircle Su Yu. In the end, it formed an internal explosion and killed Su Yu within the Lightning.

Su Yu's reaction was extremely fast. Before the Lightning formed an encirclement, he had already fled.

He revealed his figure in the distance.

Protector Lei shook the lightning on his body and sneered, "A descendant of the ruler of space, right? Hehe, nothing impressive!"

Su Yu's eyes were calm as he looked at protector lei and said, "First, I have no relationship with the ruler of space! Second, you know nothing about the space domain!"

The Milky Way around him suddenly surged, and the thoughts of Heaven and earth kept changing.

All the heaven and earth, including the Ten Thousand Cang Mountains, turned into a large mirror under the space domain.

"Not good!" When protector lei sensed that something was wrong, it was too late.

He transformed into a purple lightning bolt and attempted to rush out of this area. However, the space within this mirror world seemed to be endless.

No matter how much protector lei charged forward, he was unable to reach the end, let alone break through the mirror world.

"Break!" A look of panic finally appeared in Protector Lei's eyes. With a loud shout, eight huge dragons soared into the sky, attempting to smash through the mirror world.

In the end, he really did smash it.

The entire mirror world was filled with dense cracks, like a spider web.

However, Protector Lei was not happy at all.

That was because it was not because of the lightning, but because Su Yu was controlling the space domain!

Su Yu stretched out both his palms and slowly closed them.

Every time he closed them, there would be an additional layer of cracks in the mirror world.

When his hands were about to close, the entire mirror world was already blurry.

The mountains in the world, like the sea and Cang Mountains, were all shattered into rocks.

The rocks were then shattered into dust.

Protector Lei's entire body started to hurt. Cracks appeared on the surface of his body uncontrollably.

He wanted to be like the Cang Mountains, forcefully crushed into dust.

A huge panic surged in Su Yu's heart. He said angrily, "I am a seven star guard under Shao Hao. If you kill me, do you know the consequences?"

Shao Hao?

Su Yu had never heard of him.

Even if he had heard of him, he would not hold back.

"Destroy!" He clasped his palms together, and the entire mirror world was completely shattered.

The Lightning Guardian's body that was inside the mirror shattered into small pieces and then shattered into dust. Not even a trace of residue was left.

Only some special items on his body were left behind.

Su Yu waved his hand through the air, and eight vortexes flew into his palm.

It was precisely because of the eight vortexes that the lightning protector was able to easily activate the troublesome power of lightning.

If his opponent was someone else, it would be really difficult for him to deal with the Lightning Protector.

The lightning that was like an arm's command could explode and gather at any time.

Anyone's attack could be easily blocked, and it would immediately give the enemy a strong lethality.

With eight vortexes, he was already in an invincible position.

"This is the first time I've encountered such a troublesome peer after entering an eight-star civilization," Su Yu muttered.

If it was an ordinary peer at the same realm, he could use the space domain and easily deal with them.

However, the Lightning Protector in front of him forced him to use some of the true power of his spatial domain and successfully killed him just now.

"The geniuses of the eight-star civilization are as numerous as the clouds." Su Yu sighed.

He looked behind him. With such a huge commotion, it should not be able to hide from the Hundred Xuan Dao Masters.

He clenched his hand and kept the eight vortexes properly before leaving quickly.

Not long later.

More than ten Xuan Dao Masters rushed over and looked at the shocking scene of mountains and rivers shattering into dust within a radius of billions of miles. The earth and the sky no longer existed. Their hearts could not help but palpitate.

“The Lightning Protector is dead?” One of the Xuan Dao Masters grabbed at the air and caught a handful of the remnants of the Lightning Protector.

The other Xuan Dao Masters were all shocked. “Someone dares to kill Young Master Shaohao’s Seven Star Protector?”

“It’s over. No one can save those four.”

As Xuan Dao Masters, they didn’t talk about young master Shaohao as if he was a junior. Instead, they looked up to him.

It was as if Young Master Shaohao was a supreme existence!

At that time.

Similar scenes were happening at the various stations.

The teams that went to patrol the area were all ambushed.

Especially the ambushes at six of them were the most powerful.

The teams that went there were all killed before they could even escape.

The ambushers were all terrifying Xuan Dao Masters like protector lei.

Only Sun, moon, star, Hundred Horse Path, and Cloud Code managed to escape.

The rest were all annihilated.

At the same time.

Military Armament Hall.

The hall master placed the register on the Stone Table.

However, as the hall master, he did not have the right to approach the stone table because there was a big figure standing in front of him.

He was none other than the head steward who was temporarily in charge of the entire sect’s affairs.

As he stared at the names on the register, which were like candles in the wind, the head steward and the group of higher-ups present slowly sank their eyes.

“Six out of ten groups have been eliminated!” The head steward took a long breath, and his gaze became fierce. “I think, what does this mean? There’s no need to say it out loud, right?”

The Hall master clenched his fists, and his heart pounded.

Bitterness spread from the corner of his mouth.

This meant that they did not need to take any chances.

Within the border, a large number of enemy troops had already appeared.

Otherwise, a large number of spies would not have been killed in such a short period of time.

The head shook his grey robe and said, "Immediately mobilize the strength of the sect and send troops to the border!"

"Yes!" The hall master gritted his teeth. This time, it was likely to be another great battle.

Whether they lived or died, they could only leave it to fate.

After the decision to mobilize the battle was made, the Head Incharge took a final look at the list of the four groups that had survived, he said, "That's right. They are all soldiers who usually perform exceptionally well. Sun, Moon, star, Hundred Horse Path, Cloud Code, Heaven and earth, and... Su Yu?"

All of a sudden, the head steward fixed his gaze on a name that did not belong to any group.

Chapter 2494 Tao Artifact Set (Fourth Watch)

"Su Yu? What a familiar name!" The head steward had indeed forgotten about Su Yu who he had thrown into the military preparation hall.

The hall master hurriedly said, "Su Yu is a newcomer who has just entered the military preparation hall. It seems that the head steward personally arranged it."

Hearing this, the head steward finally remembered who Su Yu was.

"So it's him?" The head incharge was extremely surprised. "He is alone in a group, but he is still alive. It's really a miracle."

The hall master also said, "This kid is indeed extraordinary. In the last match, he actually got more than ten divine fire tokens alone. It's simply unbelievable. That's why I decided to arrange him to be part of this operation. I didn't expect that he really has some ability."

They didn't know that Su Yu not only saved his own life, but also an entire universe team.

"If he can come back alive, let him come to see me." The head incharge finally decided to look at Su Yu.

"Yes!"

At the distant border.

Near the mine, a dazzling golden sedan chair covered the sky and slowly flew over.

Hundreds of Xuan Dao Masters flew out together and kneeled in front of the Golden sedan chair respectfully.

In addition, six youths of different races were also kneeling on the ground.

Everyone's expressions became extremely solemn at this moment.

"Protector Lei is dead?" A calm voice came from within the golden palanquin.

However, none of the 106 Xuan Dao Masters dared to reply.

Everyone didn't even dare to breathe loudly.

"Mm, you died well." The person in the golden palanquin said indifferently, "The seven stars were all trained by me, yet you were defeated by a Deputy Hall Master. It's better for such useless trash to die."

Everyone felt a chill in their hearts when they heard this.

"However, even a big dog has to look at its master, not to mention killing him." The person in the golden palanquin said slowly, "Find him, then... inform me."

The 106 Xuan Dao Masters were inexplicably looking forward to it.

Could it be that he was finally going to make a move?

If they remembered correctly, he had not made a move for a hundred years, right?

That was because he no longer had any opponents of his own generation.

On the other side.

The group members who had escaped by chance all fled to the station.

They didn't know that in the eyes of the sect, they were nothing more than guinea pigs.

Using their lives and deaths to infer the situation at the border.

At this moment, they all headed to the station, ready to inform the sect of the local changes.

Su Yu held the eight vortexes in his hand. After pondering for a moment, he came to a suitable place and stopped.

Since Chen Qiankun and the other two had rushed to the garrison point first, he did not need to worry about informing the sect.

He opened his palm and looked at the eight vortexes.

After careful inspection, he confirmed that they were not things condensed from divine arts, but Dao artifacts!

That's right, it was a complete set of Dao artifacts made up of eight Dao artifacts.

"Interesting." After Su Yu studied it for a moment, his face turned pale.

Ordinary Dao artifacts could only be activated by the forger himself.

Because the Dao Master's Great Dao Mark was left in the Dao artifact, outsiders could not use it.

But the set of Dao artifacts in front of him had cleverly formed an array formation to suppress the original owner's Dao Mark.

In this way, whoever obtained the entire set of Dao artifacts would be able to activate it at will.

"In the outer realms, this is an unimaginable thing." Su Yu sighed softly. He felt increasingly that the eight-star civilization was vast and profound.

Even the flaws of the Dao artifacts that could only be used by the Dao master himself had been resolved.

Although this was the unique ability of a particular set of Dao artifacts, it was already very astonishing.

“This item can be used.” All of Su Yu’s magic treasures and divine weapons were melted into liquid by the dao fire when they broke through the eight domains.

At this moment, he didn’t have any suitable weapons to use.

The entire set of Dao artifacts in front of him could be used.

Otherwise, using the eight domains would be too eye-catching.

With this thought in mind, Su Yu immediately began to refine the eight great vortexes.

A few days later.

He slowly opened his eyes. In his left eye, eight purple vortexes were faintly discernible.

“Thunder!” He shouted softly. The eight vortexes suddenly spun. Then, eight huge dragons that were as thick as mountains appeared in the sky and Earth. They swept in all directions with a destructive force.

The thousands of mountains in front of him were destroyed in the blink of an eye.

Moreover, under his control, the shattered lightning could obey his command and immediately explode before immediately retracting.

With this object, even if he did not use the eight great domains, Su Yu would still be invincible among his peers.

Satisfied with his performance, Su Yu blinked his eyes and the eight vortexes immediately disappeared without a trace.

“Let’s go back to the garrison point and take a look. The sect should have reacted.” Su Yu tiptoed and arrived at the garrison point.

There was still a layer of airflow defending outside the garrison point.

Su Yu’s gaze stopped on the air again.

The last time he came, he felt that the air was somewhat familiar. It was as if he had seen it before, but he couldn’t recall where.

Seeing it again, Su Yu’s gaze flashed slightly, and a light appeared in his mind.

“Who is it?”

“It’s me,” Su Yu replied.

The air immediately dispersed and allowed Su Yu to enter.

To Su Yu's surprise, the moment he entered the station, Su Yu discovered that other than Chen Qiankun and the other two, there were eight other people in the station.

They were the Hundred Lotus Heart and heavenly spirit path that he was familiar with, as well as the sun, moon, star, and Yun Lai Dian Groups,

"What are you guys doing?" Su Yu was puzzled.

When Chen Qiankun saw that Su Yu had returned, he let out a long sigh of relief and said, "Senior brother Su, I knew that you would definitely return. That's Great."

Chen Qiankun was really worried that Su Yu had not returned for a few days.

"I was delayed by some small matters." Su Yu covered it up with a single sentence and said, "Why did so many people from other groups come back?"

Chen Qiankun's expression immediately changed. "We were not the ones who were attacked. The three groups were also ambushed. Fortunately, they all escaped just like us."

Hearing this, Su Yu's eyes slowly narrowed.

"Have you contacted the other six groups?" Su Yu asked thoughtfully.

Chen Qiankun shook his head. "There is an extremely strong interference near the mine. The communication magic treasure can not be used, so I don't know their situation. I hope they are alright?"

Su Yu did not speak.

Most likely, none of those people were alive?

If he remembered correctly, that Thunder Protector had become one of the seven star protectors.

In other words, there were six other protectors.

Presumably, the six groups that didn't come back had encountered the abnormally powerful seven-star protectors, so they couldn't come back.

As for Bailianxin and the others, they must have encountered an ordinary ambush, which was why they were lucky enough to escape.

"Senior brother Su, we have already sent a message to the sect. Although they haven't replied to us yet, they must have already made their move." A junior sister said, "Before the army of the sect arrives, we should wait patiently at the garrison point. Anyway, we have enough time crystals in our hands."

Chen Qiankun also nodded. "That's right. There's no need to take the risk to return to the sect. Who knows if we'll run into them again on the way?"

Su Yu nodded and was about to agree.

A cold and arrogant sarcastic voice sounded. "Since you're so powerful and saved the entire Qiankun Group, why are you still hiding at the Garrison Point?"

Without even looking, Su Yu knew that it was hundred Lotus Heart who spoke.

Chapter 2495 Patience And Patience

After Chen Qiankun and the others arrived, Dao Ming was Su Yu who saved them from the hands of a powerful Xuan Dao Master.

Bai Lianxin and Heavenly Spirit Dao didn't believe it.

Even the most ordinary Xuan Dao master's strength far surpassed that of Huang Dao Master. Only an existence at the level of Deputy Hall Master could contend against him.

It was impossible for Su Yu, a mere six-star disciple, to cover for them to leave.

Seeing that Su Yu had returned, Bai Lianxin could not bear the old resentment and said coldly.

Su Yu glanced at her and said, "You're really annoying."

Since he looked down on Su Yu everywhere, he might as well ignore him.

Yet he targeted him everywhere!

Bai Lianxin snorted coldly, "I'm not as annoying as a lowly human like you!"

This was the second time Su Yu had heard this sentence.

Even a bodhisattva would have fire, let alone Su Yu.

He looked at Bai Lianxin indifferently, "Are you very noble?"

"At least I'm much more noble than you!" Bai Lianxin sneered.

Su Yu said, "Noble doesn't depend on your background, but on yourself. Do you think you have the strength to match up to someone who thinks he's Noble?"

"Hehe!" The one who spoke was Tian Ling. He put on a fake smile and said, "Bai Lianxin is one of the top ten prodigies of the Hundred Flower clan. Even a single hair on her head is much stronger than yours. To think that you dare to ask such a question!"

Su Yu could not be bothered to look at Tian Ling Dao. The two of them were just birds of a feather.

"Do you want to give it a try?" Su Yu looked at Bai Lianxin calmly.

Bai Lianxin sneered in her heart. It was exactly what she wanted.

Why did she have to provoke him again and again? wasn't it just to find a reason and an excuse to attack?

Otherwise, she wouldn't have bothered to waste her breath.

"How do you want to try?" Bai Lianxin stared at Su Yu with murderous intent in her eyes.

Su Yu said calmly, "I won't move. You attack me. If you're still alive in one move, I'll consider it my loss."

Wait?

Other than Chen Qiankun and the others who knew Su Yu's true strength, the others were all shocked.

Did they hear wrongly?

Su Yu allowed the attack and did not retaliate.

In the end, Bai Lianxin was still alive after one move. Even if Su Yu lost?

Bai Lianxin was stunned. She did not expect Su Yu to propose such a strange competition.

But why did she reject it?

"You said it yourself! Don't blame me if you die!" Bai Lianxin's beautiful face was full of killing intent, which made her face even more ferocious.

Su Yu stood there with his hands behind his back, waiting for Bai Lianxin to make her move.

"Hehe, I'll Grant You Your Wish!" How could Bai Lianxin miss such a great opportunity?

She took out a colorful flower and poured all the power of a dao master into it. She instantly attacked Su Yu.

Without retaliating, none of the Dao Masters of the Huang Dao could survive.

However, Su Yu was not Dao Master Huang, but Dao Master Xuan!

He was an existence slightly higher than an Ordinary Dao Master of the Huang Dao.

Bang --

With an abnormal muffled sound, colorful light burst out from the flower.

It was supposed to drown Su Yu.

However, there was an ice-cold air current on the surface of Su Yu's body that could not be detected by the naked eye. Not only did it reflect all the colorful light, but it also infused the colorful light with extreme coldness.

The result was obvious. A large amount of cold colorful lights covered Bai Lianxin.

Bai Lianxin was shocked.

At the critical moment, she hurriedly used the flowers to produce a large amount of colorful light shields in front of her.

Those colorful lights were released by her, so they should be able to be blocked.

However, the result was that her dao artifact was instantly frozen and shattered by a shocking amount of cold colorful lights.

At the same time, the colorful light mercilessly passed through Bai Lianxin's body.

Her body rapidly condensed into ice at a speed visible to the naked eye, and her life force dissipated like smoke.

In a breath's time, she was completely dead.

The people who were originally watching the show were stunned, then shocked and horrified.

In the station, there was a deathly silence.

Bai Lianxin attacked the motionless Su Yu with all her strength, but in the end, Su Yu was unharmed, but she was dead?

"It seems that I have won," Su Yu said slowly.

Then, he looked at Tian Ling and said.

Su Yu looked at him with a cold and arrogant face, and his body trembled violently. He said, "You, what did you do to Bai Lianxin? I'm not afraid of You..."

"You have also challenged my patience. Congratulations, you have succeeded. You have exhausted all my patience." Su Yu glared at him, and the power of Xuan Dao surged out.

The heavenly spirit path did not even have the time to resist before their souls were obliterated.

Not only did the two of them hate Su Yu on the surface, they also hated him on the inside. Both of them had ill intentions towards Su Yu.

In the end, Su Yu looked at the Sun, Moon, and stars.

Sun Zhongtian, Moon Soul, and star Consort had fear in their eyes as they pleaded, "Senior brother Su, we are willing to pay back a hundred times for our previous sins. Senior brother Su, please forgive us."

On the Snowy Peak, Su Yu had once fought with them for the sky puppet.

Su Yu shook his head and said, "If I want to kill someone, who can stop me?"

As he said that, he swept his gaze over and another wave of profound dao energy swept over.

Sun Zhongtian and the other two cried out miserably.

However, the pain that they had imagined did not come. Instead, a muffled groan came from behind them.

UH --

Sun Zhongtian opened his eyes carefully and confirmed that he and his two companions were still alive. His face was filled with confusion.

Why was he fine?

He looked at Su Yu again. His eyes did not look at them at all. Instead, he looked at the person behind them.

Ri Zhongtian moved aside and revealed the person in charge of the station who had been sitting quietly behind them. It was the white-faced elder!

Blood flowed from the corner of the white-faced elder's mouth. His entire body was covered in ghastly wounds.

In his hand, there was a shattered protective jade pendant.

Su Yu's Profound Dao Power had attacked this white-faced old man.

Because of the protective jade pendant, he was lucky enough to survive, but he was also heavily injured and on the verge of death.

Chen Qiankun was shocked. "Senior brother Su, why did you attack the senior brother stationed at the station? If it were to be sent back to the sect, you would be punished with death!"

The Tai Yi sect had always been strict in punishing sect members who killed each other.

Especially someone with a special status like the person in charge of the station, how could they kill him so easily?

Moreover, he was extremely puzzled. Why would su yu kill the person in charge of the station when he was fine?

With Su Yu's personality and temperament, it was impossible for him to kill people with bloodshot eyes!

Su Yu ignored him and walked to the front of the white-faced old man. He said coldly, "A thousand-mile-wide dam is destroyed by an ant's Nest! You have killed so many disciples. It's not enough for you to die a hundred times!"

The white-faced elder said with difficulty, "What did I do wrong? Why did you kill the Innocent?"

"Kill the Innocent?" Su Yu laughed silently. "I'll ask you two things. First, how did the enemy know the specific patrol location of our ten groups and lay an ambush there?"

"Second, who gave you the thousand-year-old willow silk at your door? If I remember correctly, this item came from the divine sect. Our Tai Yi sect doesn't have it!"

Originally, Su Yu thought that he was the only one who was ambushed.

However, when he arrived at the station, he realized that everyone was ambushed.

And the person who knew most about each group was the white-faced old man.

Of course, he could also say that it was a member of the group that was carrying out the mission that informed him.

However, Su Yu looked at the airflow at the door twice and finally remembered where he had seen it before.

Chapter 2496 Parting Ways

Taiyi sect's library!

The ancient records once briefly introduced a unique item called the thousand-year willow thread.

This item was unique to the three great divine sects of the 344 sects.

It could be implanted into the body of a dao master and nurtured within his body.

There were two uses for it.

One was that it could automatically absorb the Dao Qi between heaven and earth like the roots of a tree, increasing the speed of cultivation.

The other was that it could leave the body and act as a defense, just like what was seen at the door.

However, the thousand-year-old willow thread was extremely rare, and it was practically not sold on the market.

In addition, the three great divine sects were quite far away from the Tai Yi sect. In the history of time, there had never been a thousand-year-old willow thread that appeared near the Tai Yi sect.

Hence, no one had ever seen it before.

As a result, when they first came, other than Su Yu who paid a little attention to it, no one recognized what it was.

Therefore, Su Yu concluded that the white-faced old man had an unclear relationship with the faction that the seven star guard belonged to.

When everyone heard what Su Yu said, they realized that they had been betrayed when they were ambushed.

They originally thought it was a coincidence, but now it seemed like it was a deliberate massacre.

And the white-faced old man in front of them was the culprit!

“You, you’re making slanderous accusations without any evidence. On what basis do you suspect that I did it?” The white-faced old man was flustered, but he pretended to be calm on the surface.

Su Yu said calmly, “Of course I don’t have any evidence, but if I hand you over to the sect, I believe that the sect will have a way to find evidence from you.”

The Tai Yi sect had been established for many years. If it couldn’t even deal with a stubborn traitor, it would have long ceased to exist.

“Since he is already an enemy, I think that the enemy has already known that you have escaped here.” Su Yu picked up the white-faced old man. “Return to the sect immediately.”

The members of group three suddenly became alert.

It was likely that this old thing had already silently sent a message to the intruders, informing them that they were hiding here.

Realizing this, the members of Group Three felt their scalps go numb. They immediately packed their things and planned to leave.

Su Yu came to the exit of the cave. As expected, the master, the white-faced old man, was seriously injured. The thousand-year-old willow twigs had all withered and were no longer as powerful as before.

With a wave of his sleeve, the thousand-year-old willow twigs were completely burned.

The group left the cave and immediately rushed back to the sect. They did not dare to stay in the canyon for even a moment.

A few hours later.

Over Ten Xuan Dao Masters were led by a young man who held a white fan in his hand. They arrived at the hidden cave with ease.

Looking at the withered thousand-year-old willow twigs, the young man with the white fan narrowed his eyes. "Looks like we were a step too late."

As expected, after entering and taking a look, apart from the two corpses, there was no one else.

"It seems that among this group of Fools, there is one who is slightly smarter." The young man in white narrowed his eyes. "However, where can you escape to? The people that young master Shaohao wants to kill have never survived."

He couldn't help but sympathize with the person who killed protector lei.

Speaking of which, Su Yu.

Using the unique flying Dharma Treasure of the Tai Yi sect, the group left the canyon and sped in the direction of the sect.

If nothing unexpected happened, they should be able to rush back to the sect within half a year.

However, not long after they left the canyon, Su Yu, who was standing on the Flying Dharma treasure and was deep in thought, suddenly stopped infusing the power of a dao master, causing the Flying Dharma treasure to slowly stop.

"Senior brother Su, why did you stop?" Chen Qiankun asked in surprise.

Since there were powerful pursuers behind them, why did they still stop?

Su Yu looked ahead and said, "We have to change our route."

Before he left, he took out the map that Xiang Wan had given him and studied it carefully.

"If we go straight ahead, we'll be able to return to our sect earlier, right?" Chen Qiankun's face was filled with confusion.

The various factions near the Tai Yi sect's border were all intertwined. If they took a detour, it would be even more dangerous.

Su Yu looked at the map and nodded. "Yes, going straight is indeed closer, but it's also easier to fall into the enemy's trap."

He pointed at a location on the map and said, "This is Wanming mountain. In a day, we'll pass by this place."

Wuming mountain spanned hundreds of millions of miles and almost covered half of Taiyi Gate.

The weeping god Ghost Wood grew in this mountain. It was densely packed and covered the entire mountain range.

"Yes, we passed by this place when we came here. Is there a problem?" Chen Qiankun asked.

Su Yu's expression became serious and said, "The biggest characteristic of Wuming mountain is that the weeping god ghost wood will emit a powerful buzzing sound whenever an external object passes through."

Wanming mountain got its name because of this.

Any object that passed through, even the slightest movement, would trigger the reaction of the weeping divine ghost wood, causing it to emit a ghostly wail.

If he was the enemy, if he wanted to completely capture them, he would have to set up an inescapable net on Wanming mountain.

As long as they passed through Wanming Mountain, they would definitely be exposed.

Therefore, to be safe, it was best not to easily pass through Wanming Mountain.

However, it would take a very long time to go around the mountain.

"I'm worried that there might be an enemy ambush there," Su Yu said with a slightly serious tone.

Chen Qiankun was surprised. He thought to himself, the enemy wouldn't go to such great lengths just for the few of them, right?

However, Chen Qiankun knew very well how powerful Su Yu was, so he didn't refute him.

"Junior brother Su, your speculation is too baseless." The three members of Yunlai Dian looked slightly anxious and vaguely complained that Su Yu had stopped his flying magical equipment.

The other two members also said, "Junior brother Su, caution is a good thing, but overdoing it is too much!"

Looking at Sun Yue Xing and Chen Qiankun, they seemed to think that Su Yu was making a mountain out of a molehill.

They did not quite agree with Su Yu's approach.

Su Yu shook his head in his heart. He had been through thousands of storms, and he only knew one truth.

Caution was the best policy!

The enemy was so powerful. If they were still reckless, they would be courting death.

“Perhaps,” Su Yu said calmly. “I’ve decided to change my route and bypass Wanming Mountain. I’ll probably spend twice as much time. Those who are willing to follow me can follow me.”

On the Flying Treasure, everyone fell silent.

Sighing softly, Su Yu cupped his fists and said, “Since that’s the case, everyone take care. We’ll see you in the sect.”

Just as he was about to leave, Chen Qiankun suddenly said, “Senior brother Su, we’ll go with you.”

The three of them were people who had benefited from Su Yu, so they knew how powerful Su Yu was.

Therefore, they trusted him a lot.

Sun Yue Xing, Yun Lai Dian, and the other three looked elsewhere.

Yun Feixian, the captain of Yun Lai Dian, said, “We have more people, so it’s inconvenient for us to fly. Therefore, we’re in charge of the Flying Dharma Treasure.”

How could they not have the Flying Dharma Treasure for a long journey?

Chen Qiankun was about to argue, but Su Yu waved his hand. “Let them have it. We have another way.”

Firstly, Su Yu did not need a flying dharma treasure to travel.

Secondly, the Flying Dharma Treasure of the Tai Yi sect was too bright. wasn’t using it the same as being a member of the Tai Yi sect?

Su Yu and the others left the Flying Dharma treasure and left immediately.

Watching them leave, Yun Feixian reactivated the flying dharma treasure disapprovingly and said, “That junior brother surnamed Su is too timid, isn’t he? I really don’t know how he developed his terrifying abilities!”

Chapter 2497 Man-Eating Guard

Sun Zhongtian looked in Su Yu’s direction and felt a little hesitant.

Actually, he had wanted to follow Su Yu just now.

But he couldn’t bring himself to do so.

When he heard Yun Feixian say this, his gaze became a little more serious. He said, “It’s better to believe it than not. Although junior brother Su’s guess is indeed too absurd, it’s better for us to be on guard.”

Theoretically speaking, the few of them should not be important in the eyes of the enemy.

It was not worth spending so much effort to capture them.

But what if?

“Senior brother Ri, why are you also being paranoid?” Yun Feixian covered his mouth and laughed. “We should be cautious, but it’s not good to be overly cautious.”

Ri Zhongtian shook his head and said thoughtfully, “But I always have a sense of unease.”

Even someone as powerful as Su Yu had to be more cautious.

They were so reckless. was there really no problem?

“Sigh! Alright, when we pass Wanming Mountain, we’ll try our best to not make any noise,” Yun Feixian could only say this.

A Day passed quickly.

They arrived at Wanming Mountain as scheduled.

As far as the eye could see, there was a pitch-black mountain range that stretched across the vast land.

Huge trees as black as ink grew all over the mountain range.

That was the famous weeping divine ghost wood.

With the naked eye, a gentle breeze blew past the leaves of the divine tree, and the entire tree suddenly let out a shrill cry.

Its shrill cry also caused the nearby Weeping Divine Ghost Wood to Howl.

It rose and fell, and all the weeping divine ghost wood within the range of the eye was alarmed.

With such a huge commotion, it would be difficult for her not to be discovered.

Yun Feixian’s expression calmed down slightly. Under her control, the rumbling sounds of the flying magic treasure were completely suppressed. She was also preparing to control the flying magic treasure to fly high up in the sky.

This way, the possibility of alarming the weeping divine ghost trees was reduced.

“Wait!” Sun Zhongtian hurriedly stopped her. “If there really is an ambush in the mountain range, wouldn’t it be easier for them to discover you if you fly high up in the Sky?”

Yun Feixian was startled awake. She quickly lowered the height of her flying dharma treasure and glided past the top of Wanming Mountain.

However, no matter how hard she tried to restrain the sound of the Flying Dharma Treasure, it would bring about a gust of air when it flew.

The wind formed from the turbulence of the air currents blew the Weeping Divine Ghost Wood.

Instantly, the Weeping Divine Ghost Wood began to cry in this area. The sound was abnormally ear-piercing.

Yun Feixian's heart skipped a beat. He subconsciously sped up his flying magical equipment, hoping to rush over as soon as possible.

Sun Zhongtian immediately transmitted his voice, "Don't..."

Unfortunately, it was already too late.

The flying magical equipment that suddenly sped up caused an even more powerful commotion.

The weeping divine ghost trees' wails turned from noisy to ear-piercing. Their voices reached the nine heavens.

Within a trillion kilometers, all the weeping divine ghost trees were affected.

"Quick, run now!" Since such a huge commotion had been created, there was no need to hide anymore.

Yun Feixian immediately activated his flying dharma treasure and turned into a streak of light as he flew over.

In the blink of an eye, he flew away.

Looking back, Yun Feixian did not find any pursuers and could not help but heave a sigh of relief.

"I already said that junior brother Su was scaring himself. Look, what kind of ambush can there be?" Yun Feixian teased Sun Zhongtian in a funny and exasperated manner.

Sun Zhongtian's heart that had been on his chest also slowly relaxed at this moment.

He smiled bitterly and said, "Perhaps I overestimated Su Yu."

Because his strength was too strong, he also trusted his intelligence.

Yun Feixian covered her mouth and laughed non-stop. "That's why I said that it's better to go overboard than go overboard. Junior brother Su said it nicely because he's cautious, but said it bluntly because he's cowardly and afraid of things..."

She faced everyone and was speaking when she suddenly realized that everyone's eyes were slowly becoming strange, hiding fear.

"What's wrong with you guys?" Yun Feixian asked in surprise.

Suddenly, Yun Feixian suddenly felt a chill on her neck, as if there was a cool breeze blowing over.

At the same time, a sinister voice rang in her ears.

"I think that the cowardly junior martial brother Su that you speak of is the smart one."

Yun Feixian shuddered and slowly turned his head. His eyes gradually widened and reflected a huge Xuan Dao master level bird.

On it stood thirteen tall figures.

Each of them was Xuan Dao master level.

The leader was a thirty-meter-tall giant wearing a skull necklace. He crossed his arms in front of his chest and looked down at Yun Feixian.

Yun Feixian swallowed hard and said, "You... You Are..."

"Humph!" The skull giant snorted and pressed down like a mountain, instantly grabbing Yun Feixian.

Then, she was thrown into the giant's mouth while screaming in fear.

The remaining screams echoed in the giant's mouth and then disappeared.

The remaining five people on the Flying Dharma treasure were so scared that their faces turned pale.

Sun Zhongtian even wanted to give himself a slap.

He clearly believed in Su Yu's judgment, so why didn't he choose to leave with him and instead follow the arrogant Yun Feixian?

The result was good. Everything was as Su Yu had expected. There was an ambush in Wanming Mountain.

It was still an ambush that made them extremely desperate.

After the giant finished eating Yun Feixian, he licked his tongue.

His huge eyes looked at Sun Zhongtian and the others, and he sneered cruelly, "The taste is not bad. I wonder how the person who killed protector lei tastes like."

Protector Lei?

Who?

They had no idea at all.

"What cultivation level is that Su?" The giant glanced at them and saw through their cultivation level.

The strongest was only Ri Zhongtian, who was about to break through to the Xuan Dao master level.

Such a person could not kill protector lei.

The only possibility was that so-called junior brother Su.

Ri Zhongtian swallowed hard and said, "I don't know, but he can kill me with one glance."

Hundred Lotus Heart and Heavenly Spirit Path were existences that were almost on par with him.

However, they all died under Su Yu's glance.

"If he can kill you with a single glance, then it must be Dao Master Xuan." The giant snorted coldly. "Where is he?"

How would the people on the flying treasure dare to hide it?

They told him everything.

After hearing this, the giant grinned coldly. “What a cunning thing. He actually guessed that we were ambushing Wanming Mountain. I have to say, I’m somewhat impressed by his divine plan.”

As an enemy, he could not help but admire Su Yu’s scheming.

If it were the vast majority of people, they would probably not believe that they had set up such a shocking plan to ambush people on Wanming Mountain.

No matter which part of Wanming Mountain they went from, as long as they caused a commotion, they would immediately be discovered by the ambushers nearby.

However, Su Yu was able to predict and decisively change the route.

Just his wisdom alone was shocking.

“This is going to be interesting.”The giant crushed a jade seal and informed the other ambushers of the situation.

After that, he looked at Sun Zhongtian and said, “You are barely a seedling. Follow me back to Heaven and earth cliff and become my slave.”

Hearing this, Sun Zhongtian was shocked.

“Heaven and Earth Cliff, you... you are from the three great divine sects?”

“Hehe, meeting me is your good fortune!”The giant snickered and took ri Zhongtian away.

Chapter 2498 Light Nirvana Later Stage

As for the remaining four people on the magic treasure, he sneered and opened his mouth wide, sucking them all into his mouth and eating them.

At the same time.

A running fierce beast was running wildly on the ground.

If one looked carefully, one would find that there was a storage space on the fierce beast’s belly.

In the space, it was Su Yu, Chen Qiankun, and the other two who were hiding inside.

“Senior brother Su, isn’t this speed too slow?”Chen Qiankun held a map in his hand.

There was a dot of light on the map that didn’t move at all.

That was their current location.

Compared to the long journey back to the sect, the distance that the dot of light had traveled over the past day was almost negligible.

Su Yu was calm and composed as he said, “Anyway, there’s enough time to crystallize. So what if we return to the sect a little slower?”

That was true!

Chen Qiankun put away the map and said curiously, “Senior brother Su, can I ask you about your current cultivation level? If it’s not convenient to reveal it, then forget it.”

Not only him, the other two members, Ling 'er and Zhu 'er, also came over.

Their eyes were shining.

They were really too curious about Su Yu's strength.

However, Su Yu shook his head gently.

"I misspoke. Brother Su, don't mind it." Chen Qiankun thought that Su Yu didn't want to tell them, and his face was filled with embarrassment.

Su Yu said frankly, "It's not that I don't want to tell you, but I don't know either."

He had only been in the sect for a short time, and he had no friends. He had never interacted with others about the dao master realm.

UH --

Chen Qiankun was stunned for a long time before he realized that Su Yu was just a disciple who had just been promoted from a slave.

It was not strange that he was not clear about the division of the level of Dao Master Xuan.

"That's simple!" Chen Qiankun took out a ring that was engraved with many spiritual patterns. "Senior brother Su, just infuse a trace of the power of Dao Master Xuan into it."

Su Yu nodded and did as he was told.

The ring immediately emitted a faint purple light.

"Light purple?" Chen Qiankun, Ling 'er, and Zhu 'er looked at him with admiration and respect.

Chen Qiankun suddenly understood. "No wonder senior brother Su is so powerful. Even the sky puppet is afraid of you. It turns out that senior brother Su is already a Xuan Dao Master in the late stage of the Light Nirvana Stage!"

Chen Qiankun had been in the Tai Yi sect for many years, and his knowledge was indeed richer than Su Yu's.

"How are the levels of Xuan Dao Masters divided?" Since Su Yu came to the Tai Yi sect, he had come into contact with Xuan Dao Masters, and he could clearly sense the difference in their cultivation levels.

They were both Xuan Dao Masters.

Some Xuan Dao masters were nine-star disciples, some were Deputy Hall Masters, some were Hall Masters, and some were in charge.

However, there was a huge difference in their strength.

"The levels of Xuan Dao Masters are divided into five levels: Light Nirvana, Middle Nirvana, round nirvana, Void Nirvana, and Space Nirvana. The five levels

are divided into the first, middle, and later stages.” Chen Qiankun said, “Senior brother Su is now in the late stage of Light Nirvana.”

Hearing this, Su Yu suddenly understood.

The division of the Xuan Dao realm was roughly the same as that of the Yellow Dao realm.

The latter was also divided into the initial dao realm, the forgotten words realm, the fish-dragon realm, the Heaven Man realm, and the Grandmaster realm. Each realm was divided into three levels: front, middle, and back.

Having been in the eight-star civilization for so long, he finally had some understanding of his own cultivation.

Zhu'er said enviously, “It’s incredible that senior brother Su can reach the late stage of light nirvana at such a young age. He is not inferior to the local geniuses in the dream boundary.”

Ling ‘er also said, “That’s right. With senior brother Su’s current strength, he can be ranked in the top ten among his peers.”

Oh?

Su Yu was slightly surprised. “Our Tai Yi sect still has powerful heaven’s favorites?”

He had been in the Tai Yi sect for a few days, but he had never heard that the sect had such powerful peers.

Chen Qiankun said, “Of course there are! It’s just that they are different from our ordinary members. The purpose of us being nurtured by the sect is to manage the sect well. However, they are treated as martial arts inheritors to be nurtured by the sect.”

“All the high-quality resources in the sect are given priority to them. We try our best to groom them into first-rate top-notch experts.”

Zhu'er and Ling ‘ER’s eyes dimmed as they sighed, “That’s right. They have been outside the main sect for a long time. The second incharge has personally led a team to train them. They are existences from two different worlds compared to us.”

Su Yu gently stroked his chin.

So there was such a special group of people in the sect.

However, they should not have interacted with him.

When he became the hall master, he would have the right to use that thing to find the location of the vile-daughter palace. Then, he would leave the Tai Yi sect.

Taking advantage of this rare opportunity, Su Yu humbly asked them for relevant knowledge.

Time slowly passed.

The Vicious Beast ran tirelessly for an entire year before finally arriving at the southern end of the Wanming mountain range.

As long as they went around the end, they would be able to successfully circumvent the Wanming mountain range.

The day after tomorrow would be wide open, and there would be no more obstacles to return to the sect.

However, the southern end had already extended to the neighboring sect, the Zhengtian sect.

Two years ago, it was the Zhengtian sect and the Tai Yi sect that had a dispute and fought over the mine.

This time, they had borrowed the territory of the Zhengtian sect. If they were discovered, it would inevitably be another fierce battle.

“Senior brother Su, we’re almost there. Are You Coming Out Now?”Chen Qiankun asked.

Su Yu shook his head. “Let the fierce beasts run. Our target is too big...”

As if responding to his words, the moment he said it, the entire cave abode world began to shake violently.

Looking outside, the corner of Su Yu’s mouth could not help but twitch slightly.

It was the fierce beasts that had accidentally barged into the array trap at the border of the two sects.

The vicious beast was smashed into pieces, and even the spatial storage device was attacked by the formation.

“We can only come out,”Su Yu said helplessly.

The group of four left the storage device. As soon as Su Yu appeared, he stomped on the ground without saying a word and destroyed the formation that was about to launch an attack.

What greeted their eyes was a boundless plain.

It was also the location of the Zhengtian sect.

At this moment, he was standing on the territory of the Zhengtian sect.

Chen Qiankun sent a message and asked if it was safe. Su Yu said, “You guys can stay in the storage device for now. We’ll talk about it when I’m safe.”

In a foreign land, having more people was more of a goal.

He looked back at the end of wanming mountain and muttered, “I can finally return to the sect officially.”

After walking for a while, he would be completely out of the range of Wanming Mountain’s sensing range.

Unexpectedly, at this moment, a powerful domain suddenly descended.

Sword Shadows flew out of the domain and pierced Su Yu’s heart.

Without thinking, Su Yu raised his hand and slapped his palm.

The thick power of Xuan Dao sent the domain flying on the spot.

A surprised voice suddenly sounded, "Late Qing nie stage? You are an inner disciple of the Tai Yi sect, right?"

Just as Chen Qiankun had described.

The Tai Yi sect divided its disciples into two categories.

One category was the ones who managed the sect and did not expect their martial arts to be powerful.

The other category was the ones who specialized in cultivation and regarded them as a legacy of martial arts.

The former could be called an outer disciple, while the latter could be called an inner disciple.

Su Yu was so young, but he had extraordinary cultivation. Naturally, he was regarded as an inner disciple.

"Why do you care about me?" Su Yu snorted coldly and attacked somewhere on the plain.

Rumble --

With a loud explosion, a huge gap immediately appeared on the plain. A stone statue was half buried in it.

The stone statue opened its mouth and sneered, "Little baby, you are quite angry."

It turned out that it was not a stone statue, but a race that was similar to a stone statue.

Chapter 2499 Golden-Haired Youth

"Since you're a disciple of the Tai Yi sect and an inner disciple, and you even trespassed into the Zhengtian sect's territory, I can't let you go no matter what you say." The stone statue slowly crawled out.

The seemingly smiling face was filled with killing intent.

Su Yu's gaze was calm as he said, "Since you know my cultivation, why make things difficult for me? I'm only borrowing your sect's territory, I don't have any ill intentions."

Hearing this, the stone statue smiled, "Is your cultivation that impressive?"

As he spoke, he released his own cultivation.

It was a level that was obviously higher than Su Yu's.

The strength of his Xuan Dao was twice as strong as Su Yu's!

"Early-stage middle nirvana stage." Su Yu immediately recognized it and was slightly surprised.

Early-stage Middle Nirvana stage. In the Tai Yi sect, he could completely hold the position of Hall Master.

However, this person was sent to guard the border.

“Hehe, it’s your bad luck to meet me,”the stone statue said slowly as the power of the Mystic Dao poured into the ground.

Peng --

At the same time, Su Yu suddenly felt that the ground he was standing on had left the category of ‘ground’and had become a part of the stone statue.

However, a huge crack suddenly appeared under his feet.

The dense teeth formed by the stones intersected with each other and gnawed on the things that fell in.

Su Yu immediately rose into the air.

However, the moment he moved, he realized that his body was more than ten thousand times heavier than usual.

This was the talent of the stone statue, controlling the earth.

Even the gravity of the earth changed because of this.

Su Yu fell uncontrollably and was about to fall into the ferocious mouth.

His eyes finally turned cold. “Old Thing, I gave you a way out!”

Su Yu could use this as a reason to kill the other party’s sneak attack.

However, he had entered the Zhengtian sect first and was in the wrong, so he did not want to make a big fuss.

Who knew that the stone statue did not know what was good for him!

“Hehe, how many years have we not seen each other? are the inner disciples of the Tai Yi sect already so arrogant?”The stone statue said hoarsely.

“Humph!”Eight purple vortexes suddenly appeared in Su Yu’s left eye.

The vortexes spun violently at the same time and shot out eight destructive Thunderbolts.

Roar --

Eight Lightning Dragons descended from the sky and bombarded the stone statue without any warning.

“Lightning-controlling eight extreme sets?”The stone statue’s expression changed abruptly. He actually recognized the origin of the eight Thunderbolts.

He hurriedly condensed a defense formed by the Earth around his body and resisted the eight lightning dragons that were barely falling down.

Even so, the stone statue’s body was still struck by lightning, causing his entire body to go numb.

However, the stone statue’s face was filled with shock as it said with a trembling voice, “You... you are one of the seven star guardians of that person from the three gods sect?”

Su Yu was slightly taken aback. That person?

Who?

However, he had clearly misunderstood his identity.

Su Yu was too lazy to explain and said, "If you know, then get lost!"

The stone statue did not even have the chance to resist. It immediately withdrew all of its talents and turned around to run, but it did not make a sound.

Seeing that it left so quickly, Su Yu could not help but be suspicious. "This identity is so intimidating?"

If a guard was like this, he did not know what the identity of the person that the seven star guard belonged to was.

The stone statue escaped, so Su Yu had no time to chase after it. He took the opportunity to bypass Wanming Mountain and head straight for Taiyi Gate.

However, the stone statue's control of the surrounding land had indirectly affected wanming mountain.

Endless ghostly cries spread from the south end to the rest like lightning..

The stone statue ran all the way to Zhengtian sect.

His face was filled with fear as he muttered, "How did we meet Protector Lei? Since Protector Lei is here, is that person here as well?"

Just as he was thinking, he suddenly caught a glimpse of a figure.

That figure was standing quietly under a big tree.

His left hand was behind his back, and his right hand was holding a leaf as he played with it leisurely.

This person had long golden hair and an extremely handsome face. There was even a faint smile on his face.

What shocked the stone statue the most was that the hourglass above this person's head was actually still.

The lives of all the martial artists in the broken dream realm were controlled by the time domain.

The time crystal in the hourglass was constantly dripping down.

However, this golden-haired young man didn't even have a single drop of the time crystal.

The stone statue wanted to ask who this person was, but this person gave him an extremely dangerous feeling, so he simply pretended to ignore it and left immediately.

Unexpectedly, he ignored the other party, but the other party stopped him. "Did you create the commotion at Wanming Mountain just now?"

The stone statue's heart skipped a beat, and he stopped walking. He looked at the other party with slight fear. "You are?"

The golden-haired youth had a handsome and elegant smile on his face as he slowly walked over. "Answer me first, okay?"

His voice was very gentle, but it had a charm that could not be resisted.

The stone statue could not help but answer, "Yes, I've fought with someone before."

"Oh? What's his name?" The golden-haired youth had already approached. His appearance gave off an abnormally warm feeling.

However, the stone statue felt extremely pressured. It hurriedly said, "One of the three gods sect's seven star guardians, Guardian Lightning!"

The golden-haired youth suddenly smiled a little more, and his gaze became even gentler. "Why are you so sure?"

"Because the other party possesses the eight lightning mastery sets." The stone statue took a deep breath. The more he spoke to this mysterious golden-haired youth, the greater the pressure he felt, and he felt like he was about to suffocate.

This feeling was just like facing those big shots at the highest level of the sect, suffocating him.

"Oh, the eight lightning mastery sets." The golden-haired youth smiled and nodded. "Where is he?"

The stone statue quickly said, "He fled in the direction of the Tai Yi sect."

"Mm, thank you." The golden-haired youth smiled and placed the leaf in his hand into the stone statue's hand. He said lightly, "This is my name."

The stone statue lowered its head to take a look, and its expression suddenly changed drastically.

Because of the shock, its facial features were distorted.

Amidst the distortion, one could still see the fear that came from the soul.

He held the leaf with both hands and looked at the two words on it. His entire body trembled.

His lips opened and closed, but he could not speak no matter what.

After his expression changed for a long time, he suddenly mustered up his courage and stretched out two fingers, digging towards his eyes.

Blood splattered and two eyeballs were dug out by himself.

Then, he immediately knelt on the ground and kowtowed to the heavens. "I have dug out my own eyes. I implore the ruler to spare my life."

Something seemed to have left his body.

However, blood still flowed from his eyes and fell on the leaf. Two vague words could be clearly seen engraved on it.

Shao Hao!

Speaking of which, Su Yu.

He had successfully bypassed the Wanming Mountain and returned to the Tai Yi sect.

Even if he used his spatial domain continuously, it would still take at least a month to go to the Tai Yi sect.

“Let’s return to the sect as soon as possible,” Su Yu said softly.

He had been away from the sect for more than a year. He wondered if anyone would accept the bounty he had posted.

Xiu --

A river of stars flowed beneath his feet. His entire body transformed into a river of stars and instantly appeared in an extremely distant place.

However, when he appeared, he suddenly discovered that there was a small lake near where he had landed.

Chapter 2500 Time Domain

There was a lone boat on the lake. There was a golden-haired young man fishing alone in the middle of the lake.

“HMM?” Su Yu raised his eyebrows slightly.

He felt that this scene was a bit strange, but he didn’t think too much about it. He used his space domain again and teleported to the next place.

After landing, Su Yu’s pupils constricted.

On a green mountain in the distance, there was a pavilion.

In the pavilion, a blond youth was sitting there drinking wine to the sky.

This blond youth and the blond youth fishing just now should be the same person.

But, how was this possible?

Su Yu used his space domain and instantly traveled billions of miles.

Moreover, even if the other party’s movement technique was much faster than his, how could he predict the place where he was about to descend?

With some suspicion, Su Yu once again used his spatial domain to arrive at the next place.

However, what caused his expression to change greatly was that the golden young man was already waiting at the place where he appeared. He was still holding a wine cup in his hand as he slightly smiled and toasted to him.

Su Yu’s heart suddenly jumped as a strong sense of danger assaulted his face.

He continuously used his spatial domain several times, and each time, he did not stop at all.

Eighteen times in a row, he had crossed an unknown distance.

However, when he appeared, the golden-haired young man was there again!

This time, Su Yu's expression finally became serious.

He did not leave but stared at the golden-haired young man. "Why are you following me?"

The golden-haired young man smiled gently. "I'm not following you. I'm just waiting for you. You can continue."

Su Yu said indifferently, "Is that so?"

He pulled down the corner of his blindfold and completely unleashed his spatial domain.

Hu --

In an instant, the entire world turned into a Milky Way and was split into two halves.

One half swept Su Yu towards the Tai Yi gate while the other half swept the golden-haired youth towards the opposite direction behind him.

Under such circumstances, it should be very difficult for the other party to rush to where Su Yu was.

However, the result made Su Yu's face sink.

The golden-haired young man who should have been swept far away was still waiting in front of him.

He smiled and shook the wine glass in his hand. "Do you want a drink?"

Su Yu's mind was filled with thoughts.

The golden-haired young man was definitely not fast.

No matter how fast a person's movement was, it was impossible for him to be faster than the spatial domain.

Moreover, Su Yu had dragged him into the opposite direction just now, so it was even more impossible for him to be one step faster than Su Yu.

Suddenly, Su Yu thought of a possibility, and his expression changed slightly. "Wait until you catch up to me!"

He activated the space domain once again, and Su Yu's incarnation scattered all over the Milky Way.

Just as he was about to appear, Su Yu quietly activated the time domain, slowing down time by 10,000 times.

Heaven, Earth, and all things were frozen in time.

The place where he was about to land was also frozen in time.

Theoretically speaking, everything there should be frozen in time.

However, when Su Yu appeared, he discovered that the golden-haired young man was quickly arriving at the place where Su Yu was about to appear.

The slow time did not affect him in the slightest, as if it was not under the control of time.

Su Yu's pupils constricted as he quietly withdrew his time domain.

All the changes were invisible. The golden-haired young man did not notice that Su Yu had activated his time domain and saw through the reason why he was so mysterious.

That was because the golden-haired young man had mastered the time domain!

He, like Su Yu, was a master of the time domain!

The golden-haired young man's movement technique was not fast, but he could release a time domain that covered an extremely wide area, causing everything to fall into a slow state.

Even Su Yu who used his spatial domain!

Su Yu, who seemed to have traveled billions of miles in an instant, had actually spent quite a long time in the time slow domain.

Only then was the golden-haired youth able to leisurely rush to the place where Su Yu was about to land and slowly wait.

He had actually met the descendant of the ruler of time.

That elder Mo had once said that the ruler had descendants that could use their domains.

The golden-haired youth in front of him was, without a doubt, the descendant of the ruler of time.

"You must drink this wine." The golden-haired youth smiled, thinking that he had won.

Little did he know that Su Yu had already seen through his methods.

"Drinking is fine, but I like to finish what I have to say first." Su Yu said calmly.

The golden-haired youth put down his wine cup and smiled with his hands behind his back. "From today onwards, you will be one of my seven star guards. I will bestow you with one, an ant!"

An ant trying to shake a tree was overestimating one's abilities.

The meaning of an ant was that one was small and powerless.

The golden-haired youth meant that in front of him, Su Yu was as small as an ant. He would never be able to shake this big tree.

Furthermore, his tone did not allow him to say anything. He did not have the slightest intention of asking.

His tone was as if he was informing Su Yu.

It was as if he was the ruler of the world.

"Are you done?" Su Yu said coldly.

The golden-haired youth smiled, "Are you not satisfied with the name I gave you?"

Su Yu did not reply, "Since there's nothing else to say, then I'll take my leave."

With a step, Su Yu used his space domain and left.

At the same time, he also activated his time domain.

He did not dare to slack off in the slightest towards those who had mastered the time domain.

As expected!

Under the space-time domain, he saw with his own eyes that the golden-haired young man was calmly patting the hourglass above his head.

That hourglass dripped down at an extremely slow speed, pulling an extremely wide area into the slow-time domain.

As for him, he calmly walked towards Su Yu, who had fallen into the slow-time domain.

Su Yu's actions using the space domain were practically forbidden within the slow-time domain. He was like a statue, not moving at all.

The golden-haired youth walked over with his hands behind his back. Looking at Su Yu's almost frozen body, he sighed lightly. "I originally wanted to spare your life. Unfortunately, you don't know what's good for you. Since that's the case, I can only end you, the descendant of the ruler of space!"

His gentle eyes shot out a cold and fierce aura.

His palm grabbed the hourglass above Su Yu's head.

The moment he touched it, the hourglass above Su Yu's head would drip down at a hundred times the speed.

In just one or two breaths, Su Yu's life would be exhausted and he would die.

This was the golden-haired youth's method of killing.

It could be said that killing was invisible!

However, the following scene caused the golden-haired youth to be stunned.

Because the last time crystal was about to drip down completely and Su Yu's life was about to disappear, a strange scene appeared.

Those time crystals that had already dropped down actually reversed the flow until they returned to their previous level.

"This is?" The Blonde Youth was extremely confused. This was the first time in his life that he had encountered something like this.

At this moment, a voice that made the blonde youth's hair stand on end rang out without any warning.

"Of course it's the time reversal domain. Is there a need to ask?"

Shua --

The blonde youth was so scared that his heart jumped. He hurriedly retreated and stared at Su Yu in disbelief.

How was the current Su Yu still frozen?

His eyes shone with a cold light, and there was a playful look on his lips. “Why? Are you surprised that I can still speak in your time domain?”

The golden-haired youth’s pupils contracted violently. He took a deep breath. “You’re... a time domain expert?”
