

## Nine-Dragon 2541

### Chapter 2541 Kill The Monsters

That wasn't something that the two leaders could give.

Something Bigger would definitely happen!

The two of them flew out of the mine and were about to leave the territory of the sect and escape to the outside world.

However, the area above the mine was already in chaos.

The Hall Masters, Vice Hall Masters, and disciples were all fighting to the death!

Their appearance immediately attracted the attention of the hall masters.

“Kill!”

Those Hall Masters were very powerful.

Unless Su Yu and the others exposed their eight domains, they would not be able to deal with them.

Although they said they were escaping, how could they escape?

“Go! Find the sect leader!” Shouted Su Yu.

Right now, the only one who could put out the fire was the sect leader!

As long as he knew the situation of the sect, he could turn the tide once he made a move!

Yu Xiang Wan expressed her agreement.

No matter how fast they fled, they might not be able to escape from the sect successfully. Even if they managed to escape, how far would they be able to escape?

Rather than that, it would be better to go and look for the sect leader.

The two of them did not retreat. Instead, they dashed into the depths of the sect.

When the hall master saw that they had no intention of escaping, he was too lazy to chase after them.

That was because there were more of them waiting for them in the depths of the sect.

Not long after, Su Yu and Yu Xiang Wan arrived outside the sect leader's territory.

“Hold On!” Su Yu stopped him and narrowed his eyes. “There's an ambush here!”

There were fierce battles in other places, but the entrance to the sect leader's territory was eerily quiet.

The sect was in such a mess. There was no reason why no one came to inform the sect leader.

There might only be one!

Those who came to inform the sect leader did not succeed and all of them died tragically here.

Therefore, he speculated that there must be an enemy ambush nearby.

Once they showed themselves, there was a slim chance of survival.

“There’s indeed an ambush, and there are many of them. It’s more than double the number of ambushes in the mine!” Yu Xiang Wan said in a serious tone.

Su Yu’s heart skipped a beat.

If that was the case, it was impossible for normal means to pass.

All of a sudden, Su Yu caught a glimpse of an unusual presence.

He fixed his gaze and saw a vague figure hiding in a corner.

Yu Xiang Wan followed his gaze and said, “It’s the head of the Exchange Hall, Miao Xiang. From the looks of it, she’s not on the enemy’s side. She should be acting according to the situation.”

Su Yu’s eyes flashed. “Head of the Exchange Hall, I’m sorry to have offended you.”

As he said that, he secretly activated his space domain.

The Hidden Hall Master Miao Xiang was suddenly teleported to the entrance. The camouflage on her body was also forcefully removed by Su Yu.

At first, she was at a loss.

After that, a group of Hall masters who were lying in ambush nearby came out one after another.

Hall master Miao Xiang was so frightened that she screamed and ran away.

Her head was filled with confusion. What’s going on?

Why did she suddenly appear in front of everyone!

The hall masters behind her were all stronger than her, making it impossible for her to escape.

Just as she was feeling despair, another spatial domain appeared around her and swept her away, arriving at a safe place with fewer people.

Hall master Miao Xiang was still in shock. She hurriedly turned invisible and cursed in anger, “Which bastard did this?”

She wanted to cry but had no tears. All of a sudden, she was being chased by someone.

Little did she know that at the moment when she lured the enemy away...

Su Yu and Yu Xiang Wan seized the opportunity to rush toward the entrance of the territory.

However, the group of Hall Masters were obviously not to be trifled with. After they noticed that, they immediately rushed over.

Before they arrived, all kinds of attacks had already arrived.

Su Yu’s expression turned grim.

It would take some time to enter the domain!

“Brother Su, is the turtle shell I gave you still there?” Yu Xiang Wan suddenly asked.

Turtle Shell?

Why did Yu Xiang Wan still need this?

However, Su Yu would not casually throw away the thing that Yu Xiang Wan gave him. He nodded his head. "Yes!"

He immediately took out the turtle shell and returned it to Yu Xiang Wan.

The latter smiled. "Brother Su, I'm afraid I'll have to make a fool of myself."

With that, Yu Xiang Wan threw the turtle shell into the air. After that, she got into the turtle shell and turned into a turtle.

"My original form is a turtle," Yu Xiang Wan said embarrassedly.

Su Yu did not smile. He was just moved.

A turtle shell should be the most important thing to a turtle, right?

However, Yu Xiang Wan had actually given him to her as a protective treasure, and it had been used until today.

"You go in First!" Yu Xiang Wan, who had transformed back into a turtle, was full of confidence in her defense.

Su Yu pondered for a moment. Yu Xiang Wan was not someone who did not know when to retreat or advance.

Since this was the arrangement, she must be confident.

Without saying a word, he dived into the territory of the sect leader.

At the same time, a barrage of attacks came from all directions.

Yu Xiang Wan was not afraid at all. At the moment when the attacks came, her arms, legs, and head shrank back into the turtle shell.

The turtle shell was left spinning outside.

All the attacks that hit the turtle shell were all bounced back without exception.

With him blocking the attacks, Su Yu finally succeeded in activating his territory and pulled Yu Xiang Wan's turtle shell into it.

When the leader of the Hall of affairs saw this, his face was extremely calm.

"The mine is not ready yet. We can't let them inform the sect leader!" The leader of the Hall of affairs made up his mind and took the risk to charge into the territory of the sect leader.

If the sect leader did not deliberately investigate, he might not be able to find out that there was a pursuit in his territory, right?

The group of Hall leaders behind them gritted their teeth.

Now that things had come to this, they, the group of traitors, had no way out!

**“Charge!”**

They quickly rushed into the space domain and chased after Su Yu and Yu Xiang Wan.

Su Yu’s expression was slightly cold. There were too many people at the scene, and they were under the watchful eyes of the sect leader. Su Yu did not dare to use his space domain rashly, so he could only try his best to escape.

During his escape, he would counterattack from time to time, creating a huge commotion.

He hoped that this would alarm the sect leader.

**“Brother Su, hold on to me,”**Yu Xiang Wan said immediately when she saw that the enemy was about to catch up.

Su Yu tightened his grip on Yu Xiang Wan’s turtle shell.

Yu Xiang Wan immediately spun her body. The turtle shell started to spin at an extremely high speed, creating a huge whirlwind that swept him and Su Yu away.

That speed was close to the later stage of the Nirvana stage, far away from the hall masters behind them.

A moment later, Yu Xiang Wan stopped.

Su Yu felt dizzy.

While the turtle shell was spinning, Su Yu was also spinning crazily.

Even though his cultivation level was high, it was still a little too much for him.

However, it had to be said that after transforming into a turtle, Yu Xiang Wan’s combat ability had increased by several levels.

In Su Yu’s hands, the turtle shell could only be used to escape by drilling into the ground. However, it was returned to Yu Xiang Wan. It could be said to be a divine weapon that had never failed!

Su Yu even had some doubts. If they were to fight head-on, their chances of winning would be more than 50% .

After all, there were so many people who joined hands to attack the turtle shell, yet they did not leave a single mark on it.

**“We’re here, brother Su!”**Yu Xiang Wan’s face was slightly red, and she was a little embarrassed.

It was really embarrassing to transform into a turtle. It was too contrary to his usual image!

Su Yu cleared his throat and looked at the center of the territory. It was a quiet thatched cottage.

That was where the sect leader usually rested.

There was a powerful protective formation near the thatched cottage. It not only isolated him from the outside world, but it also isolated him from the outside world.

No wonder the sect leader did not notice the commotion outside.

“The sect leader will only know about this if we forcefully break the formation.” Yu Xiang Wan asked Su Yu to move aside and used his turtle shell again.

The turtle shell spun, and the end of the turtle shell pierced toward the formation at an extremely high speed.

With a loud boom, the formation that the tunnel master had personally set up was actually cracked by Yu Xiang Wan’s turtle shell.

Su Yu took a deep breath.

If a powerful expert were to be hit by this turtle shell..

Just thinking about it made Su Yu’s scalp go numb.

As a descendant of ancient god corpse ancestor, he was indeed not that simple.

However, Su Yu’s grasp of timing was quite precise.

The instant the crack appeared, Su Yu turned into a speck of dust and entered the crack.

Then, he rushed into the thatched cottage.

“Sect master, things aren’t looking good...” Su Yu pushed open the thatched cottage, but he stood there in a daze.

There was no sect master in the thatched cottage.

There was only a skeleton that had been dead for an unknown period of time.

The skeleton was covered in dust, but its bones were filled with a powerful dao intent.

Even though it had been dead for thousands of years, its dao intent was still present.

An Ordinary Dao master would not be able to do this.

How could there be a skeleton in the sect master’s thatched cottage?

Su Yu walked forward and tried to touch the corpse, but a bolt of lightning shot out from the corpse and pushed Su Yu’s hand away.

At the same time, a strange character appeared on the corpse.

Su Yu recognized it. It was a heavenly bug clan character.

He read it word by word, and when he finished reading, his heart couldn’t help but beat wildly.

“I am the founder of the Tai Yi sect. If anyone in the sect sees my corpse, use your identity token to take away my heaven destroying seal and kill the monster.”

When Su Yu finished reading, he was greatly surprised.

Wasn’t the founder of the Tai Yi sect the current sect leader?

If the skeleton in front of him was, then who was the current sect leader?

Could it be the monster that the skeleton was talking about?

Su Yu was confused. What was going on?

Creak --

While he was confused, a hidden space suddenly appeared in front of the skeleton.

There was a groove on it, just enough to put the token in.

Su Yu thought for a moment and put his disciple token in. A crack appeared in the space.

A glowing red jade seal appeared in front of him.

Within the seal, there was a strong power of an earth master level.

It was even stronger than the female corpse.

Just one look was enough to make Su Yu's heart skip a beat.

Following that, a string of words appeared above the skeleton.

“Those who have my heaven extinguishing seal need to kill monsters! But remember, the activation of the heaven extinguishing seal requires ten million time crystals. Use It carefully!”

Su Yu sucked in a breath of cold air.

Ten million time crystals?

Who could afford it?

Even though Su Yu's wealth was astonishing, he really couldn't afford to use this heaven extinguishing seal.

But since a treasure had appeared, how could Su Yu be polite and accept it.

When he took the treasure, a small coin pouch fell from the skeleton's sleeve.

Su Yu picked it up and opened it. He was overjoyed.

It was actually a ten million time crystal!

It seemed that this skeleton was most likely the current sect leader.

But for some reason, he was secretly harmed.

Before he died, he left behind some methods and the crystallization of the past ten thousand years. He only waited for those who met the requirements to come and take away the heaven extinguishing seal.

He also helped him kill the monster that killed him.

“The current sect leader is a monster?” Su Yu pondered. In his memory, the aura of the sect leader was not strange. No matter how he looked at it, he did not look like a monster.

However, there was another problem.

If the monster sect leader was not in the sect leader's territory, where was he?

The new book, “Martial Emperor Jue Tian”, had been released. It used the new pen name, Lone Boat Xiang Wan. Everyone, please collect and support it with your recommendation tickets!

Currently, the new book could be read on QQ and QQ on mobile phones. It would be updated four chapters a day. In addition, "Nine dragons cauldron" would continue to be updated and would not be affected.

## Chapter 2542 The Colorful Ancient Formation

He walked out of the cottage and told Yu Xiang Wan what he had seen.

The latter was also stunned. "He's dead?"

"I remember that the sect leader has a heaven-destroying seal, but it has been hundreds of millions of years since the sect leader used it."

"Now that I think about it, the real sect leader was killed a long time ago. There was an imposter sect leader who replaced the sect leader and deceived the Tai Yi sect for hundreds of millions of years."

Su Yu found it funny.

The Tai Yi sect could be said to be unprecedented!

Not only did all the higher-ups of the sect betray the sect, even the sect leader had been killed by someone. The fake sect leader had deceived everyone for such a long time.

"Don't be in a hurry to laugh. What should we do now? Those guys will catch up soon," Yu Xiang Wan urged.

Su Yu pondered for a while. "You should come in as well. In the entire Tai Yi sect, there should be no place safer than the thatched cottage."

As he said that, he pointed his finger and used his space domain to turn Yu Xiang Wan into a speck of dust and pulled her into the thatched cottage.

The two of them hid in the thatched cottage and observed the situation outside quietly.

Very soon, the head of the food hall and the rest arrived one after another.

However, they did not dare to venture any further as they were 100 million miles away from the thatched cottage.

They were afraid that they would be discovered by the sect leader if they were to get close to the thatched cottage.

"What should we do?"

The leader's eyes darkened as he shouted, "Let's Go! Go out and inform the people in the mine. The sect leader already knows about this."

They had been separated from Su Yu and the rest for such a long time. They must have met the sect leader.

If they continued to ambush them, it would not be of any help.

That was why they retreated like the tide and no longer waited outside the territory.

Su Yu and Yu Xiang Wan waited for a moment to make sure that they had really left. Then, they quietly left the thatched cottage and went outside the territory.

Compared to before, the various areas of the sect were much quieter.

This could only mean one thing.

The battle had subsided.

It was unknown if the sect had the upper hand or if the group of traitors had the upper hand.

“You guys go over there and search. If you see anyone alive, kill them.” Not far away, a fierce voice berated them.

Su Yu and Yu Xiang Wan looked at each other and thought that they were unlucky.

It seemed that the traitor had taken control of the sect.

The people in the sect were either killed or abandoned the sect.

Su Yu used his clairvoyance to observe for a while and found that there were a lot of people coming. They were far from what Su Yu and Yu Xiang Wan could handle.

“Let’s Go!”

There were so many traitors here, not to mention the exit of the sect.

It would be even more difficult to break out of the sect.

They had no choice but to go deeper into the territory of the sect.

Suddenly, Su Yu passed by a territory that he was somewhat familiar with and suddenly had an idea.

“Follow me!”

Su Yu brought Yu Xiang Wan to the entrance of a sealed mine.

Yu Xiang Wan was surprised. “An abandoned mine?”

There were two mines in Taiyi sect.

One of them was being excavated, and the other one was abandoned because it was dug into the Netherworld realm.

Last time, Su Yu was targeted by Deputy Hall Master Qin Yuan and was forced to enter an abandoned mine.

Unintentionally, he even provoked the monsters in the Netherworld realm and was almost burned to death by the Netherworld Green Flame.

However, this time, Su Yu took the initiative to bring Xiang Wan to this place.

“Brother Su, I heard that this place is quite dangerous. It has already passed through the Netherworld realm. If we’re not careful, we might fall into the Netherworld realm!” Yu Xiang Wan was worried.

Su Yu said calmly, “In the entire sect, other than the thatched cottage, this place should be the safest.”

The thatched cottage was only safe for the time being. When the traitors were in complete control of the situation, they would soon realize that the sect leader had yet to appear. At that time, they would definitely head to the thatched cottage to investigate.

At that time, the thatched cottage would be the most dangerous place.

On the contrary, it would be the abandoned mine.

Because it was filled with danger, the traitors would not dare to come down for a while. It would appear safe.

The two immediately entered the cave.

But just as they went down, an obscure attack came.

Su Yu didn't even think about it. She flipped her hand and struck out. Only a muffled groan could be heard.

She fixed her gaze and saw that it was actually hall master Miao Xiang.

"Didn't you leave?" Su Yu blurted out.

Hall master Miao Xiang was stunned. "You Are... Su Yu?"

Hall master Miao Xiang still had some impression of Su Yu, who sold her an entire stalk of immortal grass.

However, she soon regained her senses. "Wait, how did you know I Left?"

She stared at Su Yu with a burning gaze and suddenly realized something. "Could it be that you're the B \* Stard who secretly moved me in front of the traitor?"

Su Yu felt guilty for a moment, but on the surface, he looked innocent.

"Cough, cough, I don't understand what you're saying at all."

"Stop pretending!" Hall master Miao Xiang glared at Su Yu fiercely. He actually dared to use her. How despicable!

Yu Xiang Wan looked at the two of them with a sullen face. "The two of you, please change the location of your flirting, okay?"

"You're the one flirting?" Su Yu and Hall Master Miao Xiang said at the same time.

However, they did stop quarreling.

"You sacrificed me. You've finally met the sect leader, right?" Hall master Miao Xiang looked expectant.

Su Yu shook his head regretfully. "The sect leader is not in the territory."

Pavilion Master Miao Xiang's face sank, but she was not too surprised.

The sect was in such a mess, but the sect leader did not notice it at all. There was something unusual about it.

“Alright, since you guys escaped here, it seems that the outside has been completely controlled by the traitors.” Pavilion Master Miao Xiang smiled bitterly.

When Su Yu teleported him away, she had tried to rush out of the sect.

Unfortunately, the exit had long been completely controlled by the traitor.

If she tried to force her way in, she would only be sending herself to her death.

Therefore, she chose to retreat and escape into this abandoned mine.

Now, the three of them were like grasshoppers on a rope.

“Let’s go deeper.” Su Yu’s eyes flashed.

Hall master Miao Xiang did not object.

It was indeed too dangerous to stay at the exit.

However, there was an indescribable danger in the depths. She did not dare to go deeper, so she chose to stay at the entrance in case anything happened and she could escape immediately.

Now that Su Yu and the other two were with her, she could explore deeper.

“Brother Su, you seem to have a destination?”

Su Yu nodded slightly, “I guess so.”

Under his lead, the three of them groped their way through the pitch-black darkness.

Very soon, Su Yu stopped in front of a huge stone wall made of nine nether crystals.

This stone wall looked very ordinary. There was nothing special about it.

Just as Xiang Wan was about to ask, she suddenly heard a soft sound coming from the inside of the stone wall.

It was as if a hoe was being dug into the ground.

“Hide!” Shouted Su Yu.

The three of them immediately displayed their abilities and carefully hid themselves while quietly observing the wall.

After an unknown period of time, they heard the sound of digging getting closer and closer.

A rock suddenly loosened and fell down.

A figure emerged from it. It was none other than the person Su Yu had noticed many times!

Lao Jin!

The tanned Lao Jin who was very enthusiastic towards the newcomers!

At this moment, his temperament had changed drastically. He was no longer the simple and honest image he had before. Instead, his eyes were exceptionally sharp, and there was a faint aura of a powerful expert who had gone through Nirvana!

He held a special hoe in his hand and successfully dug through the wall. A smile appeared on his tired face.

“It’s done. I’ve finally fulfilled my mission!” Lao Jin was the first to jump over. A large group of slaves followed behind him, and there were also some supervisors.

Su Yu recognized one of the supervisors. It was that boorish man!

At the same time, a hall master dressed in golden armor also followed the large group of slaves out.

“It’s not easy. They finally broke through!” Old Jin smiled in relief. “Let’s go. Follow the instructions from above and set up the array formation immediately.”

They walked all the way to the end of the mine, the small hole that had been broken through.

A pale green light was continuously released from the other end of the hole, illuminating the depths of the mine in a gloomy manner.

“This is the nine nether world that was dug out back then.” Old Jin swallowed hard, a lingering fear on his face.

Back then, he was the slave of this abandoned mine.

At that time, he had just entered the mine and was relatively close to the exit of the mine.

Therefore, when the nine nether world was dug out and a large amount of nine nether jade flames swept over, he successfully escaped at the first moment.

He watched as a large number of his fellow slaves died tragically under the netherworld azure fire.

Many years had passed in a flash, but Old Jin’s memory was still fresh in his mind.

“Let’s do it. Once we drain the netherworld azure fire, everything inside will be ours!” Old Jin suppressed the fear in his heart and took out a bunch of high-grade materials.

With the help of him and all the slaves, he started to set up a super formation.

In the dark, Yu Xiang Wan sneered. “I knew that old Jin was not a good person. He contacted the newcomers one by one to see if he could convince them to join the ranks of the traitors.”

Su Yu agreed with that.

That year, he had also looked for him.

However, perhaps it was because he was extra vigilant that old Jin felt it was not easy to convince him, so he gave up and never looked for him again.

As for the other slaves, they were all convinced by him, both openly and secretly.

Even the supervisor of the boorish man had deproved enough to join them and become one of them.

“I just don’t know what they want to do. Drain the netherworld? To think that they dare to think about it,” Yu Xiang Wan pondered.

Su Yu did not say anything.

That was because he did not believe that the Netherworld realm really existed.

That was just a place in the legends, just like the hell described by ordinary people.

It existed in legends, but not in reality.

Su Yu had reservations when he said that they could drain the netherworld.

However, there was one sentence among them that Su Yu did not dare to agree with.

That was, after draining the netherworld, everything inside would belong to them.

Based on Su Yu’s experience, that was just wishful thinking.

Back then, he had only explored the netherworld world for a bit, but in the end, he had alarmed an unknown thing and chased after it, almost killing it.

It was unknown what that object was.

However, it must be very terrifying.

If they barged into the Netherworld realm without any mental preparation, what awaited them would be a disaster!

Su Yu and the others waited in silence.

One day passed.

Ten days passed.

One month passed!

One year passed!

Other than Pavilion Master Miao Xiang who was getting impatient, Su Yu and Yu Xiang Wan were completely calm and did not show any signs of anxiety.

On this day.

Old Jin and the rest burst into laughter.

“The colorful ancient formation is finally completed!”

They saw a rectangular formation near the hole.

The Golden Armored Hall master chuckled. “Master’s plan can finally be implemented!”

He took out a jade pendant and crushed it.

Chapter 2543 Strange Ancient City

In another mine.

The Head Incharge, the Second Incharge, and a group of slaves were setting up one complicated array after another in the entire mine.

Each array was filled with the power of space.

There were as many as 100,000 of them!

When the Head Incharge received the message, he revealed a trace of joy. "The multicolored ancient array has succeeded. Let's retreat and head to that ancient cave!"

The second incharge nodded and said, "Before we leave, check the entrance and exit of the mine one last time. Check if it is tightly sealed and if the array has been fully activated."

After making sure that everything was correct, they followed the cave that Lao Jin and the others dug and arrived at the abandoned mine.

The group of people finally gathered.

"Head incharge, we can begin." The Second Incharge's eyes revealed a trace of anticipation and excitement, "After waiting for so many years, we can finally begin."

The Chief Incharge looked hesitant as he asked the army of traitors who were coming down from the abandoned mine.

"Have you really searched the territory of the sect leader?" Asked the Chief Incharge. "There's no one in his thatched cottage?"

The head of the Hall of affairs was convinced. "We've tried everything we can to break through the formation around the thatched cottage. There's nothing inside."

That was because all the skeletons inside had been taken away by Yu Xiang Wan. Naturally, there would be nothing inside.

The second Incharge's eyes sparkled. "Sect leader, that old bastard. All these years, I can't see through what he's thinking."

Such a big incident had happened in the sect, yet he did not show himself?

If it was during the initial stage of the rebellion, it would have been fine if he did not know about it.

However, a year had passed. Could it be that he was blind? How could he not know about it?

However, he did not show himself, which made people feel uneasy.

The head incharge twirled his beard and said, "We have spent such a long time and taken such a huge risk. We have finally reached the final step. No matter where that old thing is, there is no reason to stop."

The second incharge nodded deeply.

The plan that they had been planning for hundreds of years was finally about to begin.

The Head Incharge and the Second Incharge walked to the front of the multicolored ancient formation together. With their powerful Xuan Dao strength, they successfully activated the multicolored ancient formation.

Kacha Kacha --

The entire ancient formation began to emit a loud sound.

A series of rotating ripples spread out from the ancient formation.

The ripples then evolved into a powerful suction force.

Suddenly, a Wisp of nine netherworld green fire was pulled back from the other end of the hole and hovered above the colorful ancient formation.

Seeing this, the head incharge and the others retreated without fear. They only stopped when they reached where Su Yu and the others were.

At this moment, the second wisp of the Netherworld Green Flame was drawn out, followed by the third Wisp, the fourth wisp..

The last large wisp of the netherworld green flame appeared above the multicolored ancient formation.

Once such a large area of Netherworld Green Flame went out of control, it would burn through the entire abandoned mine, making it difficult for everyone present to escape.

Fortunately, the multicolored ancient formation's power was powerful, and it firmly controlled the restless lump of Netherworld Green Flame.

Furthermore, it was slowly and steadily transmitted towards the cave that had been dug before, arriving at another mine.

The countless ancient teleportation formations in the other mine had long since been activated.

The instant that ball of nine Nether Jade Flames surged into the mine, it was immediately sent out by over ten thousand teleportation formations.

Not far away from Taiyi Gate.

A young deer was leisurely drinking water by the river.

Suddenly, a spatial crack appeared above its head, and a wisp of dark green fire fell from it without warning. It instantly killed the young deer on the spot, causing its soul to scatter.

The same scene continued to play out with the Taiyi sect as the center.

In the abandoned mine, wisps of dark green fire were continuously extracted, just like before, and then transported to another mine through a multicolored ancient array.

The Netherworld Green Flame was then transported out of the sect through the spatial teleportation formation in the other mine.

In this way, as long as they persevered, there was no need to worry that the netherworld green flame would not be empty in the Netherworld realm?

One month passed.

As expected, the green light emitted from the Netherworld realm was obviously dimmer!

Three months had passed, and the green light had become much dimmer.

When half a year had passed, the green light was so weak that it could not be seen.

Yu Xiang Wan took a deep breath. "They actually dared to think that they would succeed!"

Hall master Miao Xiang was also very surprised. They actually managed to empty out the Netherworld realm?

Of course, the price they had to pay was the destruction of the entire Tai Yi sect.

All living things were killed by the Netherworld Green fire that appeared at any time and place.

Many people who were lucky enough to escape from the Tai Yi sect were killed by the Netherworld Green Fire because they did not manage to leave the area of the Tai Yi sect.

The entire Tai Yi sect was reduced to an absolute death zone!

One year later.

The multicolored ancient formation could no longer extract even a trace of the nine Nether Jade Flames from the other end of the hole.

Only then did the head incharge and the Second Incharge gradually stop pouring Xuan Dao energy into the multicolored ancient formation.

After a whole year and a half, they continued to pour Xuan Dao Energy into the formation. One could imagine how much it consumed them.

The two of them sat cross-legged weakly, recovering the Xuan Dao energy that had been severely depleted.

"Send a portion of your slaves to explore the Netherworld realm first,"the head steward ordered the Golden Armored Hall Master.

The Golden Armored Hall Master's eyes flashed with a ruthless light.

The Netherworld realm was full of unknowns after all. The two heads and the middle-level members of the sects naturally did not want to put themselves in danger.

The slaves who had submitted to them were the best way to ask for directions.

"You, and you, go down immediately!"The Golden Armored Hall master selected ten people and hung an image-type magical treasure on each of them.

When they went in, the image-type magical treasure would project everything they saw to this place.

If they were sure that it was safe, then they would choose to go in.

The ten slaves did not dare to voice out their anger and could only brace themselves to enter the Netherworld realm.

Su Yu, Yu Xiang Wan, and the others also held their breaths, their eyes filled with curiosity.

The Legendary Netherworld realm was finally going to show its true colors!

Time ticked by.

Not long after that group of people entered the Netherworld realm, an image was transmitted in.

The Imagined Netherworld realm should be a ferocious place like hell.

However, the scene before their eyes shocked everyone.

In the image, there was an incomparably empty plain with countless city walls.

Those city walls were well-preserved, not even the slightest bit damaged. It was as if they were inhabited cities.

However, there was nothing in the city. There were no living creatures.

There was only a gale that whistled across the plain.

At the same time, the plain was covered in jade-green crystals that were emitting a dazzling radiance.

“Look, a fourth grade nine Nether Crystal!” Suddenly, a surprised voice sounded.

It turned out to be ten slaves who had found a huge fourth grade nine nether crystal that was randomly embedded on the ground.

According to the preliminary estimation, it was at least 500 kilograms.

Just this nine nether crystal alone was worth at least 320,000 time crystals!

In the mine, everyone who witnessed everything was breathing rapidly and their eyes were red.

While the incharge was recovering, he couldn't help but lick his tongue.

It was too shocking!

The fourth grade nine Nether Crystal was casually placed on the side of the road, and this was the edge of the nine nether world. Further in, there must be something even more shocking.

Soon after, the ten people entered the city.

However, what made them feel slightly strange was that they didn't dare to enter the deathly silent city again. Smoke actually rose from the kitchen!

Some of the stoves in the houses of the residents were still burning firewood.

The pot was steaming hot, emitting a fragrant rice aroma.

In the restaurant, the food on the table was still hot, and the wine was still warm.

Even the feces of the cows on the roadside were still emitting traces of heat.

**However, there was not a single person, not a single living creature.**

It was as if just a moment ago, all the living creatures had mysteriously disappeared and disappeared without a trace.

As martial artists and Dao Masters, no one believed in ghosts.

Ghosts were also a species of living beings.

However, at this moment, everyone, including the people in the mine, felt their hair stand on end.

“Could it be that this is really the nine underworld world? A world of the Dead?” The second steward's heart trembled as he felt inexplicable fear.

Everything in front of them was too unbelievable, and they couldn't explain it.

The ten slaves did not dare to enter the city again. Their scalps went numb as they left and headed to another city.

The result was the same!

Everything in the city remained the same as before. It was as if there were people living, eating, and walking inside.

After several cities, the ten slaves finally could not bear such a strange world anymore and ran back one after another.

What was gratifying was that although they didn't enter the city, the nine nether crystals by the roadside were simply picked up casually.

Fourth, fifth, and sixth grade nine nether crystals were rarely seen in the outside world.

However, in the nine nether world, they were like stones on the ground that could be picked up casually.

The ten of them brought back a whole 10,000 jin of nine nether crystals.

This was a situation where they didn't deliberately look for it. They just picked it up along the way.

If they really searched carefully, they would be able to obtain an astronomical amount of nine nether crystals.

At this moment, everyone was moved.

Although the nine nether world was so strange that it was terrifying, the ten slaves' exploration proved that there was no danger.

The Head Incharge and Second Incharge were excited. They swallowed the pills they had prepared at all costs to replenish the power of the Mystic Dao.

They hoped that they would recover soon.

The traitorous army was also rubbing their fists.

Once the two incharge recovered, they would step into the unimaginably rich nine nether world and excavate the wealth that they would never use up in their entire lives.

However, just as everyone was waiting...

The sound of calm footsteps could be heard coming from the stairs at the entrance of the abandoned mine.

The Golden Armor Hall master casually looked behind him, but he froze in place, unable to move.

"Golden Armor, why are you so suspicious? Don't scare me." Old Jin frowned in dissatisfaction. He hadn't recovered from the strange situation in the Netherworld realm, so he couldn't stand being scared.

However, seeing that the golden armor didn't respond, he couldn't help but turn around curiously.

But when he turned around, Old Jin also froze in place, unable to move.

Thud thud --

The sound of footsteps was very slow but very powerful, and it was getting clearer and clearer as it entered everyone's minds.

Yes, it was not entering their ears.

It was ringing in their minds.

Everyone felt that something was wrong and looked behind them.

However, when they looked over, they were all frozen in place, unable to move at all.

The new book "Martial Emperor Jue Tian" had been released. Searching for the title of the book, everyone, please collect and recommend it!

Chapter 2544 The Divine Realm Of The Netherworld

The Head Incharge and the Second Incharge were shocked. They opened their eyes and looked behind them.

However, they were also frozen and did not move at all.

Everyone in the mine was frozen in an instant.

The air was eerily quiet, but it was also eerily quiet.

Yu Xiang Wan and Hall Master Miao Xiang, who were hiding in the dark, could not help but feel surprised and wanted to look behind them.

Su Yu immediately pressed down on Yu Xiang Wan's head to stop him from looking behind.

As for Hall Master Miao Xiang, because Yu Xiang Wan was between the two of them, he did not have the time to stop her.

In the end, she turned back to take a look and could not move anymore.

Yu Xiang Wan was shocked and broke out in cold sweat.

That was close!

He almost fell for it too!

Thud thud thud --

However, the footsteps were getting closer and closer, as if they were right beside their ears.

However, Yu Xiang Wan did not dare to move.

He was afraid that if there was any movement, he would immediately expose himself and be discovered by the terrifying existences behind him.

Those who were as powerful as the chief and the second chief, as well as the countless powerhouses in the cave.

They did not even have the slightest bit of struggle. As soon as they turned their heads, they were completely unable to move.

Let alone him?

Traces of cold sweat flowed down his cheeks, forming droplets of sweat that dripped down his neck.

Thud thud thud --

Finally, the sound of footsteps reached them and stopped for a moment.

However, both Yu Xiang Wan and Su Yu did not dare to turn their heads to look.

At this moment, they felt as if there were countless mountains pressing down on their hearts, suffocating them.

Fortunately, the next moment, the sound of footsteps moved forward.

A stooped figure was finally revealed.

The sect leader!

That was the sect leader who had disappeared without a trace! !

However, it was different from the sect leader he had seen before.

At this moment, his entire body was flowing with a layer of grey light, just like lime.

On his body, there were many eyes that were moving along his body, moving all over his body, as if searching for anything that could move.

Within those eyes, there were traces of dense and dangerous light.

Su Yu did not look at each other, but he could feel what was hidden within those eyes.

Petrification domain!

Moreover, it was a high level petrification domain!

Once they looked at each other, they would immediately be petrified by the eyes.

This was also the reason why everyone present was petrified in an instant.

Su Yu finally understood why the sect leader called him a monster.

It was because he was indeed not an ordinary creature.

**“Aye! The ancient divine realm of the Netherworld, we meet again.”**

The sect leader looked at the remnant image in the sky and sighed with a complicated expression.

When Su Yu and Yu Xiang Wan heard that, their hearts were in turmoil.

That so-called Netherworld realm was actually the ancient divine realm of the Netherworld?

Su Yu was the one who felt the most about the ancient divine realm.

That was because he was born in the ancient divine realm of nine dragons.

Therefore, he had always been very curious about the ancient divine realm of the other ancient gods.

He had never expected that the terrifying Netherworld realm was actually the ancient divine realm of the ancient gods of the Netherworld realm!

“In the past, you died tragically at the hands of the eight rulers. There was nothing I could do. Now, there’s nothing I Can Do to stop them from emptying out your ancient divine realm.”The sect leader sighed deeply. “In the end, the rulers won the battle between the ancient gods and the rulers.”

As the sect leader sighed, he revealed many of the Great Secrets of the world that no one knew.

“Before long, the ancient divine realm of the nine Netherworld will be like the ancient divine realm of the nine dragons. It will be dug out and quickly become an empty shell, right?”The sect leader sighed.

Hearing this, Su Yu’s heart jumped.

The ancient divine realm of the nine dragons had once been dug out like the ancient divine realm of the Nine Netherworld?

The question that had been in his mind for over a hundred years was finally revealed.

He had always wondered why the nine dragons ancient god, as an ancient god of a generation, had such a tiny divine domain. It was even inferior to a tiny sea of constellations.

It turned out that it had been completely excavated, leaving only a few remains that had been snatched away by the greedy Taotie.

In the struggle, it was unknown which ruler had injured the Taotie before it escaped into Su Yu’s domain and fell into a deep sleep.

“If you two ancient gods are like this, how can the other ancient gods be any better? Apart from those ancient gods who luckily escaped and hid, the other ancient gods’divine domains are all being dug out by the other rulers, right?”Su Yu asked

It turned out that nine dragons and nine Netherworld weren’t the only two ancient gods in the same situation.

There were also other ancient gods who had either met with misfortune or disappeared. Their ancient divine domains had been crazily dug out by the rulers.

The rulers of time were responsible for excavating the ancient god domains of ancient gods of the Netherworld realm.

In that case, the other rulers should be responsible for excavating the ancient god domains of the other ancient gods.

Su Yu’s mind suddenly became clear. He finally had a rough understanding of the unknown eight-star civilization.

In the past, the eight-star civilization was a world ruled by the ancient gods, and it was divided into eight ancient god domains.

However, the eight ancient gods had disappeared or fallen one after another, and their god domains had been occupied by the rulers, who had wantonly destroyed and excavated them.

“Before you died, you used the power of the nine Nether Heavenly Dao to crystallize the entire ancient divine domain. Even time was frozen, but unfortunately, you still couldn’t escape their excavations.”

Was all the crystallization caused by the power of the nine Nether Heavenly Dao?

Using the deep nine nether crystals to freeze the ancient divine domain to prevent the overlords from excavating it.

Unfortunately, it was still dug through in the end.

The nine nether world that was dug out by the Tai Yi sect was only the tip of the iceberg of the nine Nether Divine Realm.

The entire dream boundary... No, it was the entire underground controlled by the ruler of time. It was the ancient divine realm of the nine nether world.

However, it was covered by a thick layer of nine nether crystals as well as mountains, rivers, and lands.

“Aye, the situation is over. I’m going now.”The sect leader let out a long sigh. His body melted into a puddle of mud and melted into the depths of the underground. No one knew where he went.

After a long time, Su Yu and Yu Xiang Wan finally dared to speak.

“Brother Su, what’s That Thing?”Yu Xiang Wan’s eyes were filled with shock.

What he was shocked about was not only the petrification domain, but also the eternal secret he mentioned.

So, the so-called Netherworld realm was the ancient divine realm of the ancient god of the Netherworld realm!

These netherworld crystals were used by the ancient god of the Netherworld realm to protect the ancient divine realm of the Netherworld realm.

Now that he thought about it, the strange object inside the nine darkness crystals was most likely something that had been accidentally sealed by the power of the Heavenly Dao of the netherworld.

Why was everything in the city of the ancient Netherworld divine realm in the same state as it had been a moment ago.

Because time was frozen in the ancient Netherworld divine realm.

Su Yu slowly asked, “How do the figures of the eight ancient god Eras Guess?”

The people from that era were too far away and mysterious, so there was no way to guess.

As the two of them were talking, a slight cracking sound came from the body of the head of the Miao Xiang clan. The layer of lime on his body was peeling off.

Not Good!

However, Su Yu and Yu Xiang Wan exclaimed in a low voice at the same time.

If the petrification on the body of the head of the Miao Xiang clan started to disappear, then the petrification on the head of the Miao Xiang clan and the second head of the Miao Xiang clan would also start to disappear.

“Let’s Go!” Su Yu and Yu Xiang Wan carried Hall Master Miao Xiang.

Behind them was the exit of the mine. They could return to the top as fast as they could.

However, the upper level had been occupied by the rebel army.

“Enter the ancient realm of the nine Nether World!” Su Yu shouted.

The three of them dashed toward the opening.

When they passed by the head incharge, the petrification on his body had mostly disappeared.

His body was slowly exuding the majestic power of Xuan Dao.

Su Yu did not even think about it and used his space domain to temporarily seal him inside.

Then, when he passed by the second steward...

Yu Xiang Wan’s eyes flashed with a fierce light. Blue Flames spurted out from her eyes and burned him.

That was not all. He used his turtle shell to spin and give her a vicious blow.

With a cracking sound, the second-in-charge’s body was almost torn into two halves by the turtle shell.

He was about to kill her.

The petrification on the second-in-charge’s body had finally been completely removed!

She raised her arm in time to block the spinning turtle shell.

Yu Xiang Wan had no choice but to stop and escape to the ancient realm of the nine nether world.

“I’ll destroy you!” The second-in-charge roared in a low voice. He endured the intense pain and chased after her crazily.

Yu Xiang Wan was not afraid at all. She turned around and said coldly, “Old Woman, this is revenge for the time when you chased after me.”

Before the rebellion, Yu Xiang Wan was hunted down by the second-in-charge to an abnormally miserable state.

Now, she was merely asking for a little interest.

“You’re courting death!” The second-in-charge charged at them in anger.

However, due to his heavy injuries and the fact that he had not recovered from the previous injuries, he was still injured.

Therefore, even if he had the heart to do so, he would not be able to do so.

At This Moment, the first incharge also regained his petrification.

Without any hesitation, he charged at Su Yu and Yu Xiang Wan through the air.

However, there was a space domain in front of him that sealed him inside. He was like a fly in a bottle, unable to escape no matter what.

The second incharge had no choice but to return to help. He worked together with the first incharge to break the seal on the space domain.

“First recover your body, then chase after them.”

The two sat cross-legged.

They had painstakingly discovered the ancient Netherworld divine realm, so how could they allow outsiders to get there first?

If that was the case, they simply couldn't report to that Lord.

Two hours later.

The first Incharge and the Second Incharge recovered, and the other rebel soldiers also recovered.

“Second Incharge, you personally chase after them. I'll lead the others and do our best to explore the ancient Netherworld divine realm.”

Compared to the endless wealth inside, chasing after Su Yu and Yu Xiang Wan was insignificant.

“Alright!”The second-in-charge agreed immediately.

There was a faint glint in his eyes.

Ancient realm of the netherworld.

Su Yu and Yu Xiang Wan did not know where to run to. All they knew was to escape in a daze.

“There, father, there, there!”

Suddenly, the baby crawled out and pointed toward the southwest excitedly.

“Brother Su, what does he mean?”Yu Xiang Wan was stunned.

Could it be that the baby knew this place?

Su Yu looked pensive and said slowly, “Do you remember when we were imprisoned in the sky prison, he was also this excited?”

At that time, the baby kept knocking on the wall, trying to come to the side of the abandoned mine.

At that time, he had sensed something very important.

“Let's go take a look.”

The baby pointed in the direction, and Su Yu and the baby quickly left.

On the way, they saw many nine nether crystals scattered on the ground.

Among them, there were even some top-grade nine nether crystals of the fifth grade.

However, they didn't dare to stop for a moment and went straight to the place where the baby pointed.

A whole month later.

After running for a long time, they finally arrived at the place where the baby had sensed.

It was an ancient altar.

On the altar, the torch was still burning brightly.

This meant that there was a sacrificial ceremony going on.

In the middle of the altar, on a stone table, there was a transparent book.

“Could it be that the baby came for the book?” Su Yu was slightly surprised.

Yu Xiang Wan looked around and asked in surprise, “What Book? where is it?”

Eh?

Su Yu pointed at the Stone Table. “Can’t you see it?”

That book should be very eye-catching.

“There’s something on it?” Yu Xiang Wan walked over and touched the stone table.

However, her palm silently passed through the book. She could neither see nor touch it.

Chapter 2545 Evolution Of The Altar

Su Yu was surprised. He walked over and flipped open the seemingly transparent book.

In the end, what appeared on it were all heavenly script characters!

Moreover, Su Yu knew all of them.

The baby pointed at the book. His face was full of excitement, as if he was anxiously urging something.

Su Yu was slightly suspicious. “You want me to complete the interrupted sacrifice?”

The baby nodded his head vigorously.

He thought for a moment, nodded his head slightly, came to the stone table, and began to recite the heavenly book characters on it.

Just as he recited a paragraph, a shocking scene appeared.

The altar was originally deep in the empty wilderness, but at this moment, it suddenly began to tremble.

It was as if something was constantly emerging from the ground.

And as Su Yu continued to recite, the commotion grew larger and larger.

In the blink of an eye, the earth was shaking and the mountains were shaking.

The entire altar was like a small boat in the middle of a huge wave, about to capsize at any moment.

At the same time, a terrifying aura surged out from the depths of the ground.

In the depths of this aura, Su Yu had the illusion that he was about to be destroyed.

What kind of ritual was this?

When Su Yu was halfway through chanting his incantation, the netherworld realm within his sight began to undergo shocking changes.

The world continued to shake, and strange screams could be heard from afar.

A green light started to surge from the depths of the Netherworld realm.

“Netherworld Green Flame?” Yu Xiang Wan felt her scalp go numb.

Wasn’t this part of the Netherworld Green Flame in the ancient divine realm already emptied out? Why was there still one?

When they were chanting the last part, the altar had already been dug out from the ground and reached the top of the nine heavens.

Su Yu and Yu Xiang Wan only noticed it when they stood high up and looked down.

The cracks on the ground crisscrossed, forming a huge black phoenix pattern.

They were right in front of the eyes of the Phoenix.

“The true form of the ancient god of the Netherworld!” Su Yu took a deep breath.

What kind of ritual was this?

He looked at the last paragraph on the tomes of Arcane and finished reading it in one go.

Suddenly, a sharp cry came from deep underground.

Endless jade-green flames rose from deep underground and lit up the entire Phoenix pattern, turning it into a pale green color.

The Flames continued to spread toward the altar. In the blink of an eye, the cultivation technique had reached the altar.

It seemed like it was going to devour them all.

The baby suddenly jumped into the endless jade-green flames.

The jade-green flames seemed to have found their owner again and entered the baby’s body one after another.

The baby was extremely happy to enjoy the process and fell to the ground with excited screams.

The moment his feet landed on the ground, the entire Phoenix picture started to move strangely, as if the Phoenix was flapping its wings and was about to fly away.

At the same time, the loud and clear chanting of Sanskrit suddenly came from heaven and earth.

As the Buddhist chant fell, the baby closed his eyes in a daze and fell into a deep sleep in the pattern.

After his deep sleep, his body began to show obvious changes.

First, his one-year-old body slowly grew.

The heavenly script characters on his body flickered and extinguished.

His body also emitted traces of aura that had been dormant for a long time.

It was as if something that had been sealed for a long time was finally waking up in his body.

The baby had obviously entered the most critical moment.

“You Baby, you’re too mysterious.” Yu Xiang Wan clicked her tongue in wonder.

Wasn’t That So?

Su Yu could not see through it at all.

“Let’s wait and see how it grows. It shouldn’t be long,” said Su Yu slowly.

Time passed by little by little.

The nine Nether Jade Flame was slowly being absorbed until not a trace was left.

The original infant had already grown into a thirteen or fourteen-year-old youth.

His brows were bright and his entire body faintly had the aura of a king flowing through it.

It seemed that the evolution was about to complete.

However, at this moment, Su Yu’s eyelids suddenly twitched.

Without thinking, he used a spatial domain to protect the infant under the domain.

Bam

Almost at that moment, a ghostly palm print suddenly struck the space domain.

The powerful attack crushed the space domain on the spot and hit the baby’s body.

The baby was completely unaware of this and was about to receive the attack.

“Block!”

Yu Xiang Wan saw that the situation was urgent and immediately pounced over. She used her turtle shell to block the attack.

This attack was at the later stage of the Virtual Nirvana stage.

One could imagine the power of this attack.

Even though Xiang Wan had the turtle shell to protect her, she still vomited blood from the slap.

There was a hint of coldness at the corner of the Second Incharge’s mouth.

Why did she attack the baby first?

It was because she knew that if she went after the two of them, they would definitely run away.

Only if she attacked the baby first would they send themselves to her door.

She raised her palm and struck the second palm.

This palm contained her domain and her powerful cultivation at the later stage of the Virtual Nirvana stage.

One palm strike might not be able to penetrate the turtle shell, but it could definitely kill Yu Xiang Wan who was inside the turtle shell.

Yu Xiang Wan sensed the danger, but she did not dare to move her body, let alone leave with the baby.

The baby was at the most important moment, and she definitely could not leave.

He gritted his teeth and prepared to take the blow.

However, at this moment...

Yu Xiang Wan suddenly realized that the time around her had stopped.

His mind was still there, but his body could not move at all.

Moreover, the Second Incharge's fatal palm strike was also frozen.

However, the second incharge's cultivation level was far higher than Su Yu's.

The effect of time freezing was limited.

After being frozen for half a second, the palm force still broke through the seal of the time domain and slammed down abruptly.

However, taking advantage of this time, Su Yu was already sufficiently prepared.

**"Scram!"** Lightning shot out from her eyes and sent the second incharge flying on the spot.

The second incharge's body floated and fell to the ground easily. Other than some bloody marks on her body, she didn't leave any injuries.

The gap between the Middle Nirvana realm and the Void Nirvana realm was too big.

Normal attacks couldn't do anything to her.

The second steward landed on the ground with a shocked smile on his face. "You can control both the space domain and the time domain? Are you the illegitimate child of the ruler of time and space?"

This was the only way to explain why Su Yu had the domains of two rulers at the same time.

**"None of your business!"** Su Yu said indifferently.

The second steward patted the dust off his body and said with a faint smile, "Of course I do! No matter what, I'm Still Emperor Shao Hao's subordinate. It's our duty to help him eliminate the potential ruler competitors in the future."

A dark domain radiated rapidly with the second steward at the center.

The domain was filled with a thick aura of death.

If one did not touch it, one's life would be drained rapidly.

**"You should rest in peace now that you're able to die under my life-devouring domain."** A hint of excitement flashed in the eyes of the second incharge.

He had personally killed the illegitimate child of the ruler of time and space. This was a feeling that he would never experience again in his life.

Su Yu's gaze gradually turned cold.

He did not turn his head and said calmly, "Brother Yu, step back."

Yu Xiang Wan suddenly felt a sense of trepidation. It was as if something that had been suppressed in Su Yu's body for a long time was awakening.

A Ray of light.

No, it was a ray of colorful light that slowly appeared.

The Ray of light had a total of eight colors. It slowly condensed under Su Yu's feet into an eight-petal lotus.

This was the form of the eight intermediate domains.

"Eight domains?" The second incharge's excited expression suddenly froze and was replaced by shock.

Even a dao master needed to go through a great test to form a single domain, let alone eight?

When he took a closer look, the second incharge sucked in a breath of cold air.

"Eight paragon domains!"

Within that domain, there was not only a time domain, a spatial domain, a life domain, a death domain, and six other paragon domains.

"Ah, this... how is this possible?" The second incharge couldn't believe his eyes.

Someone after ancient god Nine Dragons was actually able to comprehend eight supreme domains?

But ancient god Nine Dragons was able to succeed largely because he had stolen the good fortune of the eight hegemony, giving him the opportunity to break through eight supreme domains.

Su Yu, a human, was actually able to succeed?

This was absolutely impossible!

"Time, space, life, death, soul, fate, samsara, and good fortune!" Su Yu's expression was cold as he stood atop the lotus flower, like a god of Brahma.

As he read out his domain, he began to move.

The petal beneath his feet was missing a single one.

This meant that the target he had locked onto, the second incharge, was missing a domain.

Once all eight domains were taken away, the second incharge would be erased from time and cease to exist.

When the time domain was taken away.

The Second Incharge's body immediately became chaotic in terms of time.

One moment, she turned into an extremely old woman, and the next moment, she turned into a child.

It was as if she had fallen into the river of time.

The Second Incharge's expression changed drastically as she sensed an intense crisis.

Before she was deprived of her life domain, the life devouring domain on the surface of her body suddenly expanded.

However, her domain was only at the intermediate level, and Su Yu was also at the intermediate level.

The last thing she should have chosen was to use her domain to fight.

With a poof, her life devouring domain was destroyed on the spot.

The second incharge let out a miserable Groan as blood flowed out of his seven orifices. The life force in his body seemed to have a loophole as it continued to disappear.

Next, he took away the domain of death, the domain of the soul, and the domain of reincarnation..

When all eight domains were taken away...

The second steward's cultivation base was extremely powerful, so he wasn't completely wiped out.

However, his body was in a state of extreme disorder.

He existed at times, but he didn't. His body was torn apart at times, and he was reorganized at other times.

In this state, life was worse than death.

The second steward screamed like he was going crazy, "I can't Die! I still have to serve Emperor Shao Hao! I Can't Die!"

With a roar, a strange time domain flowed out of the second-in-charge's body!

Su Yu's pupils constricted.

That time domain belonged to Shaohao!

The time domain that surged out was the time reversal domain.

And it was only limited to the second-in-charge's body.

Su Yu's heart sank. Under his gaze, the second-in-charge's body, which was about to collapse, actually returned to the state it was in before the battle with Su Yu.

In other words, she was unharmed!

After her body recovered, the second incharge immediately retreated and sped off into the distance.

Fear still lingered on her face.

This was the descendant of the most powerful ancient god.

Her eight domains were too heaven-defying!

But when she escaped to a safe place., the corners of her mouth curled into a sinister smile. “Su Yu, no one can save you. If your identity as the descendant of the ancient God is announced, the descendants of the eight great rulers will personally grind your bones into dust! You have nowhere to run to!”

The current eight-star civilization was the world of the eight great rulers.

Where could Su Yu run to?

But would su Yu allow her to escape?

For the recommendation of the new book, Martial Emperor Jue Tian!

Chapter 2546 Disregarding One’s Family

Ancient God Nine Dragons was the ancient god that the eight rulers hated the most.

Once his identity as ancient god Nine Dragons was spread, the consequences would be unimaginable.

Thus, Su Yu would not allow the second incharge to escape at all costs.

With a shake of his sleeve, a fiery-red jade seal appeared in his palm.

The seal emitted flickering light, a sign that it had already been activated.

As it turned out, Su Yu knew that his cultivation was too low. He might not be able to kill the second incharge with just the eight domains.

Thus, he held back and activated the heaven extinguishing seal.

As a result, he spent a total of ten million time crystals!

The second incharge, who was grinning hideously, narrowed his eyes when he saw the seal, “Heaven extinguishing seal? Why Is it in your hands?”

Wasn’t that something that the sect leader had not used for hundreds of millions of years?

Why was it in Su Yu’s hands.

What made his soul tremble was that the heaven extinguishing seal had already been activated.

A gust of cold air rushed from the soles of his feet to the top of his head.

“Wait, stop. I can swear to the heavens that I won’t leak any information about you, ancient god Nine Dragons.”The second incharge’s eyelids twitched, and his heart thumped to his throat.

Dao Master Xuan’s oath reached the Heavenly Dao.

Once an oath was truly sworn, it was impossible to go against it.

“Compared to the Heavenly Dao, I believe in myself more.”Su Yu tossed the heaven extinguishing seal into the sky.

The heaven extinguishing seal immediately released a fiery red light that blotted out the sun, covering everything in sight.

The entire world was illuminated in a fiery red.

It was as if there was an infinite amount of heavenly fire burning.

“No! I really didn’t mean to target you.” The second incharge was so scared that he ran away frantically. His face was full of fear and pleading.

Unfortunately, the heaven extinguishing seal would not stop just because of her pleas.

There was only a rumble.

The fiery red light that filled the sky suddenly disappeared.

However, it was all absorbed into the Second Incharge’s body.

He was so scared that he wanted to force it out, but it was useless.

All of the red light entered his body.

Then, the second incharge burned into ashes at a speed visible to the naked eye.

A spatial storage device fell from the dust.

Su Yu rolled it across the air and got the storage device.

At the same time, he took back the sky destroyer seal that had dimmed again.

Staring at the sky destroyer seal, Su Yu felt his scalp go numb.

The second incharge was someone who was close to the Nirvana realm, but under the power of the heaven extinguishing seal, he had no power to resist.

If this seal was used against him, just thinking about it made him shudder.

Fortunately, he had taken the initiative and obtained the heaven extinguishing seal.

Just touching his empty pocket, Su Yu felt his heart ache.

“Although the heaven extinguishing seal is powerful, the disadvantages are too obvious!” Su Yu thought to himself.

Firstly, due to the time crystal, a total of 10 million was an astronomical figure.

Secondly, it would take a long time to activate the seal.

From the moment Yu Xiang Wan made her move, Su Yu had been activating the seal until now. It would take at least half an incense stick’s time.

Half an incense stick’s time was enough for a few rounds of duels between experts.

The next time he encountered a strong opponent, he might not have the chance to activate the heaven-destroying seal.

Fortunately, he had caught the second in charge by surprise this time.

He took a look at the sleeping baby on the ground. To be exact, he was already a fourteen-year-old young man.

When the battle ended, the young man slowly opened his eyes.

There was a hint of confusion, puzzlement, and puzzlement in his eyes.

He raised his head and looked around. When he saw Su Yu and Yu Xiang Wan, his eyes were filled with a strange look.

“Who are you?”

This question caused Su Yu’s eyes to flicker slightly.

His expression was still rather calm.

That was because this was already within his expectations.

Su Yu and he got to know each other when they were just babies.

How much of his childhood memories could he still remember when he was young?

Perhaps there were only a few of them.

“He’s the father who picked you up and raised you!” Yu Xiang Wan was stunned.

How could this be?

The young man furrowed his brows slightly, and there was a hint of revulsion in his eyes. “I’ve roamed the divine realm all my life. Where did this father come from? You guys bullied me when I just woke up from a deep sleep and lied to me, right?”

It turned out that not only had his memories been diluted, some kind of consciousness that was sleeping in his body had also awakened.

Yu Xiang Wan, on the other hand, felt indignant for Su Yu. “Lied?” She snorted, “How do you think you came out of the Netherworld Crystal? How did you transform from an infant into your current appearance?”

He felt that it was not worth it.

In order to let the baby complete its evolution safely, Su Yu did not hesitate to expose his identity as the descendant of the ancient god of nine dragons.

The risk he took was unimaginable.

In the end, the result was a “Who are you?”?

Before this, Su Yu had every opportunity to throw the baby away or even sell it as an item.

But in the end, he still chose to treat it kindly.

However, the current scene was too chilling.

All he had worked hard for was the baby’s strange question.

Su Yu waved his hand and said, “Forget it. The fate between him and I started from the nine nether crystals and finally reached the nine dragons ancient divine realm. Perhaps it was an arrangement.”

To be honest, Su Yu was slightly relieved.

There were too many mysteries about the baby. Su Yu didn't dare to guarantee that he would be able to let the baby grow up normally.

Now that the baby had completed its evolution, it had forgotten about its past with him.

That was not a bad thing.

"Let's go," said Su Yu calmly.

Yu Xiang Wan glared at the baby angrily. "Ingrate!"

"Hold On!" The young man stood up.

A layer of nine nether crystal automatically condensed on his body and transformed into an extraordinary purple armor.

There was also a purple crystal crown on top of his head.

His temperament changed drastically.

He looked like a king looking down at the world.

The young man closed his eyes and tried his best to search for the remaining memories in his body.

Some fragments of his childhood appeared in his mind.

Su Yu's face appeared from time to time.

After a while, he opened his eyes with a complicated expression and said indifferently, "I was born in Heaven and on Earth. I don't have biological parents."

Hearing such words, Yu Xiang Wan shook her head and did not want to explain further.

She just felt sorry for Su Yu's sacrifice.

"However, you do seem to have some connection with me in my infant state," the young man added slowly.

His fingertip flashed, and a drop of purple crystal appeared in his palm.

There were two strange drops of liquid sealed in the crystal.

"I'll give this to you. The relationship between us will be written off." The youth flicked his finger and shot the crystal over. "After swallowing the drop of liquid, it will help you break through to another level!"

Su Yu received it expressionlessly and left without looking back.

The youth stared at Su Yu's back as he left and said coldly, "My name is Chu!"

However, Su Yu did not respond and disappeared without a trace.

After a long while, the youth still stood at the same spot and stared at Su Yu's departing back.

A trace of sorrow flashed across his eyes.

"Father, how could Chu forget the kindness of raising you?" The youth knelt on the ground and bowed deeply towards the direction where Su Yu had left.

“However, if I were to be together with you, I would definitely implicate you, so I could only pretend to forget everything.”

“This child is unfilial. I can only repay you in the next life!”

After a long while, he stood up.

He clenched his palm and a Phoenix image appeared in his palm.

Chapter 2547 The Nine Nether Abyss

“Of the Four Heavenly Kings, I am the third to come back to life. Let me fulfill ancient god Nine Nether’s last wish with him!”The youth looked down at the world with a cold light in his eyes.

Back when ancient god Nine Nether was dying, he used the power of the Great Heavenly Dao to seal the entire ancient god domain instead of ordering his subordinates to resist. There was naturally a reason for this.

Now that more than half a century had passed, the youth, as the Third Heavenly King to awaken, would find another heavenly king to complete the ancient god of the Netherworld’s plan.

In this regard, Su Yu, who had already left, seemed to have a premonition. He stopped and looked behind him.

“Why did he acknowledge me as his father?”

In truth, Su Yu had always had a question in his heart.

Could it be that a baby would casually acknowledge the first living being as his father?

Or was there another reason behind it?

“Brother Su, the human heart is like that. There’s no need to be sad. Just take it that you raised him for nothing,”said Yu Xiang Wan.

Su Yu shook his head gently and took out the crystal.

“Do you really think that he has forgotten the past?”Su Yu stared at the two drops of liquid inside the crystal. “If he had forgotten, why would he give one to you and one to me?”

“It’s because he still remembers everything between you, me, and him.”

If he really only remembered Su Yu, why would he give an extra drop to Yu Xiang Wan?

“He didn’t forget? Then how did he...”yu xiang wan continued, “Could it be that after his evolution, his strength has increased greatly, so he doesn’t want to recognize us anymore?”

Su Yu shook his head gently. “I don’t think so. He must have his own reasons that are hard to explain.”

From the beginning, Su Yu could tell that he was using this as an excuse to chase them away.

It was just that Su Yu did not point it out.

“Let’s go. It’s impossible for the first incharge to be unaware of the death of the second incharge,” said Su Yu in a serious tone.

Having personally witnessed the second Incharge’s power of time with Shaohao, Su Yu predicted that there must be some kind of connection between the two incharge.

Half a month away.

Under the command of the first incharge, the group of them had plundered an entire city.

“First Incharge, we have found a map of the Netherworld Realm.” The Golden Armored Hall master handed over a map with a joyful expression.

He opened it and saw that there were more than ten densely marked spots on it.

One of the spots of light appeared dark red.

The Incharge tapped the Dark Red Spot with his finger, and the spot of light radiated a new map.

The map was exactly where they were now.

The incharge twirled his beard and smiled. “Master is right. The Netherworld realm is divided into forty-nine parts. Our Tai Yi sect is right above one of them.”

The ancient Netherworld realm wasn’t connected, but it was made up of forty-nine spots.

The Netherworld realm they were looking at was just one of the points.

The map in front of them was the complete picture of this point.

The head steward scanned the map and suddenly saw a special place. His pupils constricted. “The Netherworld Abyss!”

“Head steward, what is the Netherworld Abyss?” Jin Jia asked curiously.

The head steward said, “The nine Nether Abyss is the center of this nine nether world. It’s said that there might be a third grade nine nether crystal in it!”

Third Grade?

Jin Jia was speechless when he heard that.

A third grade nine nether crystal was almost a legendary existence.

The Heaven Awaken Palace controlled such a vast area and had held countless heaven awaken world pageants over the years, but they had never been able to display a third grade nine nether crystal.

It was clear how precious it was.

If they could excavate a large amount of it, it would be much more valuable than collecting fifth grade and sixth grade nine nether crystals here!

“Gather everyone and set off for the nine Nether Abyss immediately!”The head steward’s eyes revealed a trace of excitement.

That master had ordered that if they were able to discover the nine Nether Abyss, they would receive additional rewards.

Moreover, everything found in the nine Nether Abyss belonged to them.

Soon, the rebel army was gathered.

Kacha --

At This Moment, the first incharge’s chest suddenly cracked.

A trace of blood actually flowed out from his chest.

“First Incharge, are you injured?”The Golden Armored Hall master asked in surprise.

Could it be that during the petrification process, he was accidentally injured?

“No.”The first Incharge’s face sank into the water and stopped the bleeding. He said in a low voice, “It’s the second incharge. He has already died.”

What?

The leader of the Golden Armor clan took a deep breath.

The second-in-charge was an existence in the later stage of the Void Nirvana stage. He was just one step away from catching up to the head steward.

Someone with such a high cultivation level was actually dead?

“Was it Su Yu and the others?”The leader of the Golden Armor clan shivered.

The head steward shook his head. “I don’t think so. Apart from his high cultivation level, the second-in-charge also has a life-saving talisman. It’s impossible for Su Yu and Yu Xiang Wan to kill him.”

He was the only one who knew that the second incharge had the time reversal domain left behind by great Emperor Shao Hao.

Even if he was killed, he would be able to reverse the flow of time instantly.

Unless he met someone who had completely crushed him and had nowhere to run, it was impossible for such a situation to happen.

However, it was obvious that Su Yu and Yu Xiang Wan did not have such capabilities.

“Then, should we go over and take a look?”asked the leader of the Golden Armor clan.

“Don’t tell me you also want to meet the terrifying existence who killed the second-in-charge?”asked the leader

Although they were both under the command of Emperor Shaohao, why should he be responsible for the death of the second-in-charge?

If he died, so be it. Wouldn't it be better for him to take the fruits all by himself?

“Let's Go!”

The group of people left quickly.

Su Yu and Yu Xiang Wan proceeded forward aimlessly.

The entire ancient divine realm of the Netherworld was boundless.

Su Yu and Yu Xiang Wan had been traveling for half a year, but they still could not find an exit.

They just continued to move forward based on their intuition.

“Brother Su, have you noticed that the quality of the netherworld crystals we encountered along the way is getting higher and higher?”

Su Yu nodded his head.

How could he not notice?

Since a few months ago, fifth-grade netherworld crystals could be seen everywhere.

Now, fourth-grade netherworld crystals could be seen everywhere.

The two of them had already saved up a million kilograms of crystals of the netherworld.

Among them, there were more than 100,000 kilograms of fourth-grade crystals.

The only pity was that there were no strange crystals of the Netherworld inside.

“Wait, there's a very thick corpse aura ahead,” Yu Xiang Wan suddenly reminded him.

As a member of the corpse clan, his sense of corpse aura was far superior to that of an ordinary person.

Corpse Aura?

Su Yu was a little puzzled.

The ancient divine realm of the Netherworld was sealed, and all living beings were lost. How could there be corpses?

The two quietly went forward and discovered that the ancient divine realm of the Netherworld had already reached its end!

What blocked their path was a boundless, enormous cliff.

The end of the cliff couldn't be seen at a glance.

And beneath the cliff was a bottomless, suffocating dark abyss.

Staring at the abyss, Su Yu faintly felt that the abyss was also looking at him, giving him a faint sense of unease.

And the source of the corpse aura was finally confirmed.

It was a corpse that had rotted for a long time.

But looking at the clothes on the corpse, Su Yu's pupils shrank, "How could this be?"

He recognized the origin of the clothes!

Chapter 2548 The Abyss Was Strange

"Those clothes..." obviously, Yu Xiang Wan also recognized the origin of the clothes.

That seemed to be the clothes of the Tai Yi sect!

Both of them could see the surprise in each other's eyes.

The ancient divine realm of the Netherworld had been sealed for thousands of years, and now, it was finally opened.

How did the corpse of the Tai Yi sect appear in the ancient divine realm of the Netherworld?

Su Yu flew over and examined it briefly. "He died five years ago. He should be a disciple of the military preparation hall."

Five years ago.

The military preparation hall had gone to the border to fight Emperor Shao Hao and the others who had invaded this place.

Many people had died during this time.

The corpse in front of them should be the disciple who had died that year.

However, how did his corpse come to the ancient divine realm from the outside world?

At that time, the ancient divine realm hadn't been opened yet, right?

"Brother Su, we might be able to leave the ancient divine realm." The two had no choice but to escape into the ancient divine realm.

It would be best if they could leave.

Gazing at the enormous abyss beneath his feet, Su Yu didn't take the risk to enter.

Because there was a faint, unsettling aura within.

Although it was very weak, it did not mean that the danger was very small.

On the contrary, it was very likely that the other party was just hiding.

"I'm cultivating nearby now. Let's talk about it after my cultivation level increases." One more cultivation level meant one more chance of survival.

Yu Xiang Wan agreed with that.

The ancient divine realm of the Netherworld was really too dangerous.

The strength of the two of them was really not enough.

Not far away, in a secret place, the two of them were hiding.

They each took a drop of the spiritual liquid.

Su Yu did a quick check and found that the spiritual liquid contained a very weak trace of the power of the heavenly axiom.

Although it was so weak that it was negligible, it seemed to be extremely majestic to people like Su Yu and Yu Xiang Wan.

Yu Xiang Wan took a deep breath. "Such a strong power, there's still more than enough to break through one level!"

Su Yu's eyes flashed.

Indeed, once they swallowed the energy, the benefits would not be limited to just breaking through one level.

If they were lucky, they would be able to break through two levels.

The two of them immediately broke through on the spot.

Time trickled by.

Half a month later.

A huge amount of dao energy suddenly appeared above where the two of them were.

The density of the DAO Energy had already condensed into a mist.

The mist surged into the two of them, causing their cultivation levels to skyrocket.

A strong wave of energy from the middle stage of Middle Nirvana swept in all directions.

It was especially so for Su Yu.

When Xiang Wan's body was full and stopped absorbing the DAO Energy, the 800 dao marks in Su Yu's body were only one-tenth full.

He continued to absorb the DAO Energy.

Half a day later.

Yu Xiang Wan had stopped her cultivation and stared at the mist above Su Yu's head.

He had successfully broken through to the middle stage of Middle Nirvana stage.

The power of Xuan Dao in his body was fully saturated and could no longer be absorbed.

However, Su Yu was like a bottomless pit as he continued to absorb the dao energy crazily.

It was only when the effect of the droplet had completely faded and the surrounding dao energy was completely absorbed that Su Yu had no choice but to stop.

As he opened his eyes, an invisible fluctuation radiated from Su Yu.

Yu Xiang Wan was caught off guard and was forced back by the aura.

He instinctively summoned his thick xuan energy in an attempt to resist it.

However, the result surprised him.

In the face of Su Yu's unintentional release of the Xuan Energy, his own xuan energy was pierced through like a piece of paper.

Then, he was swept away and rolled on the ground.

He got up with a face full of dust and dirt. He looked like he had seen a ghost. "What happened to you?"

He had also broken through to the middle stage of Middle Nirvana stage.

However, the power of Xuan Dao in Su Yu's body was more than ten times stronger than his.

That power of Xuan Dao could definitely compete with the late stage of Middle Nirvana stage.

"It's because of my constitution." Su Yu stood up indifferently and patted the dust on his body.

Everything came from the dao marks in his body. There were a total of 800 dao marks.

Each additional dao mark could contain an additional portion of the power of the Xuan Dao.

The 800 dao marks were naturally more powerful than the power of the Xuan Dao of the same level.

"D \* RN! I'm the descendant of the ancient god, yet I can't compare to you, the successor of the ancient god. This is really unfair!"

Yu Xiang Wan said resentfully.

The descendants of the ancient god and the successor of the ancient God obviously had the advantage in terms of their bloodline.

In terms of cultivation speed, strength, and so on, they were far superior to the descendants of the ancient god.

After all, the descendants of the ancient god had to rely on themselves for everything except obtaining some things from the ancient god.

In the end, as the descendant of the ancient god, Yu Xiang Wan was completely outclassed by Su Yu, the descendant of the ancient god.

This made Yu Xiang Wan feel somewhat defeated.

Su Yu's expression was calm.

He would not tell Yu Xiang Wan how the 800 dao marks on his body came about.

When he broke through the eight supreme domains, how desperate was he when he was under the pressure of the heavenly axiom.

What he had now was what he deserved.

Both of their cultivation levels had increased greatly, and they had more confidence in entering the abyss.

However, just as both of them were about to set off, a dark cloud suddenly appeared from afar.

The cloud was densely packed with countless powerhouses.

There was an existence at the level of an Earth master among them. He was extremely powerful.

“What a coincidence!” Yu Xiang Wan was extremely fearful.

The cultivation level of the first-in-charge was much higher than that of the second-in-charge.

A second-in-charge was enough to make Su Yu reveal his identity as the successor of the ancient god of nine dragons and activate the heaven-destroying seal.

The power of the first-in-charge was imaginable.

The two of them who were about to show themselves immediately went into hiding.

“That’s good too. Let the innkeeper scout the way first.” Yu Xiang Wan chuckled.

“We’ll just take advantage of the situation from behind.”

Su Yu did not say anything.

It might not be easy to take advantage of the situation.

However, the Abyss was the only way out of the ancient divine realm of the netherworld. They had to go there.

The innkeeper and the rest landed and stared at the unfathomable abyss in front of them. Their expressions turned solemn as well.

After all the defenses were activated, they slowly descended.

The head incharge said in a serious voice, “Try to collect high-grade nine nether crystals. Do you understand?”

Everyone nodded and entered one after another.

The Edge of the Abyss was a precipice.

As expected, it was inlaid with dense nine nether crystals.

The extremely rare fourth grade nine nether crystals elsewhere seemed to be free of charge in this place. They spread everywhere.

The tens of thousands of them picked it in a flurry, but they didn’t manage to make much out of it.

“We’re Rich!”

There were so many fourth grade nine nether crystals.

They could rest easy in the future and use it for the rest of their lives.

Ta --

The Golden Armored Hall master was digging when he suddenly found a black nine nether crystal. He cried out, “Third grade nine Nether Crystal!”

He saw a third grade netherworld crystal that weighed over ten thousand Jin hidden within the fourth grade Netherworld Crystal.

Because of his excitement, the fourth grade netherworld crystal that was dug out was thrown away before he could put it away.

That fourth grade Netherworld Crystal fell straight into the abyss.

“Third grade?” Everyone looked over.

Even the head steward looked over excitedly and said, “Dig it out immediately!”

His face was full of excitement and smiles.

If they were to pluck all the nine nether crystals for a year, they would be able to dig them all out.

In exchange for the time crystals, wouldn’t they be able to establish more than one sect?

They would be able to establish a hundred Taiyi sect and become a transcendent existence second only to South Bright City.

And he would soon become an unparalleled figure that dominated a region. He would be a thousand times better than the head steward of Taiyi sect.

“Continue digging!”

The appearance of the third-grade nine Nether Crystal also made the others excited, and they all began to dig for evidence.

Ding, Ding, Ding sounds filled the entire abyss.

However, at this moment...

A sigh without any reason suddenly echoed in the abyss.

“What a group of insatiable people.”

The moment the voice appeared, the innkeeper’s entire body trembled, and he looked at the bottom of the Abyss with a shudder.

“Who is it?” He stared at the Bottomless Abyss and shouted.

He had never heard that there were living creatures in the nine serenities abyss.

“Sigh!” There was another sigh.

Then, there was the sound of splashing water, which grew stronger from the weak to the strong in the abyss.

It could be seen with the naked eye that the dark ink-black water was continuously spreading upwards in the abyss.

In the water, there were many strange creatures with the upper body of a human and the lower body of a snake.

Without exception, all of them were women, and they were all extremely beautiful.

Even many experts who were used to seeing beautiful women in the world were staring at the groups of beautiful creatures without blinking.

Among them, a middle-aged beautiful woman was sitting on a reef island that rose up from the water.

Her beauty was even more breathtaking.

After searching the world several times, perhaps no one could find someone as beautiful as her.

After being absent-minded for a moment, the head incharge finally recognized what these things were. His expression changed drastically. "Quickly retreat from the Abyss! It's the nine serenities charm!"

A terrifying creature with the body of a human and the tail of a snake that could lead warriors into the depths of the mine by singing, making it impossible for them to return.

But didn't this creature only exist in the giant mine at the border of the Tai Yi sect?

Why was it in the abyss of the ancient divine realm of the Netherworld?

The head steward reacted the fastest and immediately rushed out of the abyss.

When the others heard that it was the netherworld charm, they all had shocked expressions on their faces and fled.

However, the thousands of netherworld charms floating in the water all rose to the surface. They used their extremely beautiful voices to hide the beautiful sounds of nature.

"Don't Listen!" The head steward used his profound dao energy to seal his hearing and was determined not to be affected by the song.

Even so, the song was still pervasive.

Some weak voices entered his ears.

The head steward was stunned.

Luckily, he was only slightly affected. He forcefully shook his head and flew out in one breath.

The others were not so lucky.

Except for the Golden Armored Hall Master and a thousand people who were close to the edge of the abyss, they were able to escape at the first moment.

The others were all confused by the singing.

They fell from the cliff and fell into the water.

A group of nine Netherworld charms pounced on them excitedly and hugged them tightly, rubbing their faces intimately.

On the island, nine serenity charms looked at the head incharge who had already escaped to the horizon and said softly, "Can you escape?"

Her Vermillion Lips opened slightly, and she actually chanted it personally.

An ethereal, mournful, and otherworldly heavenly voice slowly floated out from her throat.

The head incharge who had already escaped to the distance had the power of the profound dao on his body, and was unable to seal even the slightest bit of the song. It immediately pierced through his soul.

The Head Incharge's face turned pale with fright. "You, you are the nine Serenities Queen!"

Although it was only a rumor, the head incharge had vaguely heard from the sect leader that the reason why the nine serenities Queen could not be eliminated in the ancient mine at the border all year round was that it was very likely that there was a nine serenities queen that surpassed him.

Chapter 2549 Phoenix Corpse Clan

He did not expect that he would run into them!

This made the incharge despair. "No!"

However, as he roared in anger, he gradually lost control of his mind.

The clarity in his eyes faded bit by bit.

If the incharge was like this, how could Su Yu and Yu Xiang Wan be spared?

Although they were quite far away from the abyss, they could not avoid the singing of the Queen of the nine serenities.

The moment Su Yu heard the singing, he knew something was wrong and immediately covered his ears with the power of Xuan Dao.

Therefore, when the singing reached his ears, it was not very strong.

However, even though Yu Xiang Wan reacted in time.

However, the power of his Xuan Dao was not as strong as Su Yu's.

Therefore, he was immediately mesmerized by the singing of the Queen of Hades.

"Queen..." Yu Xiang Wan stood up and walked toward the Abyss in a daze.

Su Yu pulled Yu Xiang Wan back.

Not only that, he even used his space domain to forcefully lock Yu Xiang Wan in place, not allowing her to fall into the hands of the Hades' Enchantress.

However, Su Yu himself did not feel good either.

In the end, he still heard the song.

His sense of resistance was rapidly weakening.

Soon, he would also be controlled by the Hades' Enchantress.

Chirp --

At this critical moment, suddenly, a sharp phoenix cry came from beyond the nine heavens.

The sound of huge wings flapping rapidly came from the nine heavens.

The expressions of the group of nine Nethersuccubus suddenly changed, and they all carried the experts they caught into the water.

The expression of the nine nethersuccubus empress was cold, and she stopped chanting, "Detestable nine nethersuccubus Phoenix!"

After saying this, she swept away the chief steward who was being controlled and dived into the water.

Suddenly, a large patch of dark green appeared in the sky.

It was as if there was a piece of dark green fire burning in the sky.

Then, the dark green fire pounced into the abyss with an astonishing speed.

It illuminated the Dark Abyss.

At a close distance, one could see that the dark green fire was filled with phoenixes!

The phoenixes carried the dark green fire all over their bodies.

As their wings flapped, countless jade flames of the Netherworld poured down, incinerating all living beings.

Furthermore, the Phoenixes seemed to be feeding on the netherworld charms as they immediately dove into the Abyss, taking away the Netherworld charms that had yet to dive into the abyss.

One of the Phoenixes' warning was exceptionally huge!

It was even bigger than all the phoenixes combined!

It plunged into the pitch-black water, chasing after the Queen of the Netherworld charms.

The nine Netherworld Charming empress was both shocked and angry. "Damn it!"

She opened her mouth and spat out a sound wave. That sound wave had a terrifying power that surpassed that of a tunnel master.

If it rushed out of the abyss, all the living beings nearby would be wiped out by the sound wave.

However, that giant Phoenix seemed to be the nemesis of the nine Netherworld Charming empress. It opened its mouth and screamed, completely disintegrating the sound wave.

At the same time, its sharp beak pecked at the body of the Queen of the Netherworld charm like lightning.

The Queen of the Netherworld Charm let out a cry of pain and a large hole was pierced through her body.

**"Protect the Emperor!"**

The nearby miniature netherworld charms pounced over one after another and blocked the path ahead.

However, under the attack of the Giant Phoenix, the group of Netherworld charms were torn into pieces like paper and were taken away by the chasing Phoenixes one after another.

However, the Queen of nine underworld demons took the opportunity to escape into the deeper part of the abyss.

The giant Phoenix looked at the deeper part of the abyss hesitantly and slowly stopped chasing.

It was as if there was an existence in the abyss that even he was afraid of.

Chirp --

With a neigh, the giant Phoenix led a group of Phoenixes and rushed out of the abyss.

However, the rebels who survived were not saved because of this.

Many of the Phoenixes did not find any food and carried them away.

Su Yu took a deep breath.

He still remembered the first time he went to the abandoned mine. He wanted to explore the other world of the mine.

A bird creature flapped its wings and caused a great fire.

Now, it seemed that it was a phoenix that flew there unintentionally.

Su Yu pulled Yu Xiang Wan to the ground and hid her again.

However, the Phoenix's senses were surprisingly sharp.

A few of the phoenixes pounced on them. Their sharp claws were aimed at the place where Su Yu and Yu Xiang Wan were hiding.

Since they could no longer hide, Su Yu could only drag Yu Xiang Wan and flee for their lives.

**"Space Domain!"**He instantly traveled hundreds of millions of miles.

Ever since his space domain had reached the intermediate level, the amount of space he could travel through was ten times more than before.

With just a thought, he disappeared without a trace, causing the group of Phoenixes to fly into the air.

**"Eh?"**The phoenixes that were surrounding the giant phoenixes were referring to the Phoenixes.

One of the Phoenixes spoke in human language and let out a soft "Eh" sound. "It's that human from back then."

Its phoenix eyes turned and immediately turned around, shooting toward the spot where Su Yu was.

The dark green flames around its body flared up, and its speed increased by 10,000 times.

As soon as Su Yu appeared, he felt the cold wind behind him.

When he turned around, his eyelids could not help twitching.

It was actually a phoenix that had reached the later stage of the Nirvana stage. It was staring at him coldly.

A pair of sharp claws came at Su Yu and Yu Xiang Wan at the same time.

Su Yu did not even think about it and shouted immediately, "Time, set!"

However, the Phoenix seemed to be unaffected by the time domain and came at them without any hindrance.

Su Yu's heart skipped a beat. He took out the demonic ape puppet and poured a large amount of time crystals into it to activate it.

In that instant, the demonic ape puppet let out a loud roar and used its body to block the sharp claws.

However, in an instant, the sharp claws pierced through its chest and split it open on the spot.

Taking this opportunity, Su Yu activated his space domain again and escaped again.

However, not long after he escaped, he heard the movements of the Phoenix behind him.

"Human, if I wanted to kill you, you would have died long ago." The strange thing was that the Phoenix actually said very calmly.

Su Yu's footsteps paused.

An existence at the later stage of the Nirvana realm had the right to say these words.

"What's the reason for not killing me?" Su Yu turned around and was on high alert.

The nine Nether Jade Flames on the Phoenix's body withdrew and it transformed into a human form.

It was a beautiful woman dressed in colorful clothes, her entire body surrounded by a halo.

However, her expression was exceptionally cold.

"Because you're proficient in spatial domain."

Back then, when he was patrolling the area, he accidentally discovered a gap.

Unfortunately, Su Yu just happened to send a wisp of soul energy in.

She casually sent out a nine nether jade flame, intending to burn the other party to death.

However, what surprised her was that the other party was proficient in space domain and managed to escape.

What was even more unexpected was that after so many years, the other party actually barged into the ancient realm of the nine nether world.

"I need you, so I'll spare your life. It's as simple as that," said the woman indifferently. "Is there anything else you want to ask?"

Thousands of thoughts flashed through Su Yu's mind.

A moment later, he pointed at Yu Xiang Wan who was beside him. "What about him?"

"He's useless to me. Kill him." The woman was particularly ruthless. However, after taking a glance at Su Yu, she said, "But, I can let him go on account of you."

However, when the woman in colorful clothes flicked her finger, Yu Xiang Wan, who had fallen into a daze, immediately woke up.

As he stared at the woman in front of him, his pupils constricted.

It was as if he could vaguely see something from the woman.

“What do you want me to do?” Su Yu asked.

The woman in colorful clothes turned around and said, “Just follow me!”

She took a step forward and appeared outside the nine heavens.

Su Yu pondered for a moment and could only follow her. He secretly sent a message to Yu Xiang Wan. “Act according to the circumstances.”

Unexpectedly, Yu Xiang Wan was unprecedentedly solemn. “Don’t act Rashly!”

Su Yu wanted to ask more questions, but the woman turned around and looked at Yu Xiang Wan with a meaningful look.

Su Yu immediately kept quiet and stopped asking.

Two hours later.

They continued to fly up into the sky.

In the end, they found a bird’s nest floating in the sky at the top of the Abyss.

There were tens of thousands of phoenixes perched on the nest.

The woman brought Su Yu and Yu Xiang Wan to one of the larger bird’s nests.

The bird’s nest was filled with the corpses of the nine underworld demons.

However, they did not die from being eaten. Instead, they died from being drained of all their blood.

“You guys wait here first,” said the woman coldly.

She seemed to want to report to the giant Phoenix about her whereabouts.

Before she left, she said without turning her head, “Not every phoenix is as easy to talk to as me. If you want to be eaten, you can go out as much as you want.”

As she said that, she walked away without any restrictions outside the nest.

Yu Xiang Wan came to the edge of the nest and looked at the huge phoenix nest with a serious expression.

At this moment, a phoenix suddenly swooped down and brushed past Yu Xiang Wan.

The strong hurricane almost swept Yu Xiang Wan away.

Luckily, Su Yu was quick enough to pull him back.

The Phoenix flew over and stopped in mid-air. It turned into a young man in black. His eyes were cold and showed a hint of cruelty. “Leng Yu likes to do boring things. She’s too pedantic and Merciful!”

It seemed that he was very dissatisfied with the Phoenix bringing the two of them back alive.

However, because he was afraid of the Phoenix, he did not dare to go deep into her nest to capture them.

“However, I believe that both of you won’t be able to live for long. So far, many people have died for what Leng Yu wanted to do, but it has never succeeded.”With a sneer, the man in black transformed into a phoenix and left.

“Brother Yu, do you have anything to say?”Asked Su Yu.

It seemed that Yu Xiang Wan had some understanding of this group of Phoenixes.

Yu Xiang Wan nodded her head heavily. “I’m very worried.”

“It’s normal to be worried,”said Su Yu calmly. It would be strange if he was not worried about the current environment.

However, Yu Xiang Wan looked at Su Yu with a serious expression. “I’m worried about you.”

“Me?”

No matter how she looked at it, it seemed that Yu Xiang Wan was more dangerous, right?

On the contrary, Su Yu was not only more powerful in the way of Xuan, but he was also proficient in the eight major domains. Hence, he had a higher chance of escaping.

Yu Xiang Wan nodded her head deeply. “I’ll be fine, but you...”

Su Yu’s expression turned serious as well. “Brother Yu, if you have something to say, please say it.”

He could feel that Yu Xiang Wan was especially solemn.

“Brother Su, why do you think there are still living creatures in the ancient divine realm of the Netherworld after being sealed for so many years?”Yu Xiang Wan suddenly asked.

Su Yu’s heart skipped a beat.

Indeed, he almost forgot about it.

The ancient divine territory of the Netherworld had been sealed for an entire era, and even time was frozen.

Where did the living creatures come from?

“You’re saying that these phoenixes are not living creatures?”

Yu Xiang Wan nodded her head deeply and pointed at herself. “They’re the same as me -- the corpse clan.”

The corpse clan?

Su Yu’s pupils instantly constricted.

It had been a long time since he had met the corpse clan.

If it was the corpse clan, then it would be dangerous.

The vast majority of the corpse clan were bloodthirsty people. Their subconsciousness wanted to turn all living creatures into corpses and become one of them.

He was now deeply immersed in the corpse clan. It could indeed be said that it was extremely dangerous.

Especially when that group of corpse clan was ridiculously powerful.

If he really wanted to turn Su Yu, it would be very difficult for him to resist!

The new book “Martial Emperor Jue Tian” needed everyone’s support. It crazily asked for recommendation tickets and collections!

Chapter 2550 There Was No Way Out

“Let’s wait and do nothing for now,” Su Yu said calmly as he hid the strange look in his eyes.

At least for the time being, he would not have to worry about becoming a zombie.

The two of them waited patiently.

A moment later, two women in golden clothing flew into the lair.

“Come with us,” said the woman in golden clothing coldly. The way she looked at the two of them was not friendly.

Yu Xiang Wan frowned.

The woman in the golden dress, who was in the Nirvana stage, had warned them not to go out casually.

“It’s alright. Since they dared to come in, they must have received instructions from the Phoenix.” Su Yu looked indifferent.

As expected, when she saw that Su Yu and the woman in the golden dress did not move, the woman in the golden dress said, “It’s elder Leng Yu who wants to see you.”

However, why didn’t she come herself?

As they pondered, Su Yu and Yu Xiang Wan followed the two women in golden clothes to the largest nest in the entire nest.

There, they could see a gigantic Phoenix. It was the king of Phoenixes.

Its eyes were closed as it stood on a tree branch.

The surrounding trees were surrounded by numerous phoenixes.

The woman in colorful clothes named Leng Yu was standing in the main hall under the tree branch, waiting calmly.

When Su Yu and Yu Xiang Wan arrived, the multicolored-clothed woman bowed to the giant Phoenix. “These are the two people I brought back.”

The giant Phoenix slowly opened its eyelids.

However, just a single glance made Yu Xiang Wan’s heart pound wildly, as if she was about to die.

“Descendants of ancient god corpse ancestor, interesting,” said the giant phoenix in a hoarse voice.

Hearing this, all the phoenixes were surprised.

Ancient God corpse ancestor!

As members of the corpse race, in a sense, they were the descendants of ancient god corpse ancestor.

A hint of surprise flashed across Leng Yu’s ice-cold face.

She had only planned to bring Su Yu back, and Yu Xiang Wan was just passing by.

He was actually a descendant of an ancient god!

“From now on, you can stay here. There shouldn’t be many descendants of ancient god corpse ancestor,” said the giant Phoenix slowly, deciding on Yu Xiang Wan’s order.

As a member of the corpse clan, he felt that it was necessary to nurture Yu Xiang Wan.

“So, you’re the human race that is proficient in the space domain that Leng Yu mentioned?” The giant Phoenix looked at Su Yu.

Su Yu immediately felt a powerful pressure pressing down on him.

The domain in his body was released uncontrollably to resist the pressure.

The first one to come out was the space domain.

A universe appeared around Su Yu.

Then a time domain.

Then a soul domain..

The eight domains were forced out one after another.

“Eight sovereign domains!” Leng Yu was incomparably surprised. “Eight sovereign domains! This is...”

The giant Phoenix’s eyes completely opened, and a hint of surprise reverberated in them.

“I truly didn’t expect that ancient god Nine Dragons still has a successor!” The Phoenix’s eyes revealed an ancient expression.

He stared at Su Yu. “The most incredible thing is that you actually mastered the eight sovereign domains. This... should be impossible.”

The reason why ancient God Nine Dragons had been able to succeed back then was largely because he had stolen the fortunes of the eight sovereigns.

But now, things had changed.

Not to mention that the eight sovereigns didn’t have such fortunes for Su Yu to steal.

So what if they were to intercept them?

Would the Heavenly Dao allow the birth of a second ancient god of nine dragons?

That was absolutely impossible!

All the Phoenixes revealed looks of astonishment.

There was actually a second person who had successfully controlled the eight sovereign domains other than the number one ancient god of Heaven and earth.

This was truly inconceivable!

“So what if he’s the successor of ancient God Nine Dragons? He’s trapped in the ancient divine realm just like us and will never be able to get out,” a black Phoenix said coldly from the branch.

That voice should be the Black Phoenix that wanted to capture Yu Xiang Wan earlier, right?

The Giant Phoenix was silent for a moment and let out a long sigh. “You guys have indeed come to the wrong place.”

Yu Xiang Wan was slightly surprised.

Why did they say that they would never be able to get out?

At worst, they could return to the Tai Yi sect through the hole in the abandoned mine.

As if seeing through her thoughts, Leng Yu looked at Su Yu and said, “This is also the reason why I brought you here. We need your space domain to open the door to Heaven for us.”

She looked up at the sky.

Su Yu followed her gaze and noticed that there was a huge door made of black feathers in the sky above the lair.

The huge door was tightly closed and did not move at all.

“Can’t we return from where we came from?” Su Yu asked.

Leng Yu did not say anything and pointed in the direction where Su Yu and the rest came from.

Su Yu stood high up and looked back. He was shocked to find that the heaven and earth that they came from had disappeared. There was only a yellow river flowing in the void, extending towards the unknown direction of darkness!

He was stunned.

“That’s not right. When we came here, that was the complete Netherworld realm.” Yu Xiang Wan took a deep breath.

She could not understand the strange scene in front of her.

Leng Yu’s expression was calm. “Don’t you understand? The Netherworld realm is a world frozen in time. All traces of your previous existence no longer exist.”

It was impossible for a person to be in two places at the same time.

If one place existed, one place would perish.

And the entire Netherworld ancient divine realm was at the same time.

The Path Su Yu and the others had taken and the world they saw naturally no longer existed.

Only the current them were left.

“Every year, the Netherworld ancient divine realm cleans up at regular intervals. The traces of your previous existence have been completely swept away. How are you going to return?”

Yu Xiang Wan thought about it seriously for a while before she finally understood.

On the other hand, Su Yu, who had mastered the time domain, could easily understand what the other party meant.

Time had flooded their past, including the process of coming here.

Therefore, they could no longer go back.

“So, you don’t have to choose. You can only try to open that door.”Leng Yu looked at Su Yu with anticipation.

The other phoenixes also looked at Su Yu with Hope.

The spatial domain was the only chance to open the door of ancient God Nine Nether.

Su Yu silently stood there. After a long while, he softly said, “I’ll give it a try.”

A myriad of universes appeared around him and suddenly wrapped around the door.

With the characteristics of the spatial domain that spanned tens of thousands of worlds, he should be able to successfully pass through this door.

However, the universe collided with the giant door.

Feathers fluttered, blocking the universe.

They failed!

All the Phoenixes revealed disappointed expressions.

They couldn’t even use the spatial domain.

They would be completely trapped in the ancient god domain of nine remoteness and never see the light of day again.

“I told you, it’s useless to look for them. Eat Them!”The Black Phoenix mocked.

Leng Yu’s expression was cold, and his eyes were filled with deep disappointment.

The giant Phoenix closed its eyes again, no longer looking at Su Yu.

He had lost his value.

“Eat him! No matter what, he’ll turn into our corpse race.”The eyes of the group of phoenixes shone with dark red light.

Su Yu’s expression was calm like water. He had expected everything.

“Who said that after leaving the ancient realm of the netherworld, we have to leave through the Heavenly Gate?”Su Yu said slowly.
