

Nine-Dragon 2571

Chapter 2571 The Demon Lord Appeared

Those were all heavenly script characters!

Golden runes surrounded the little demon lord like a protective magic treasure.

Su Yu's palm was blocked by the runes, unable to do anything.

This was a palm of the early stage of the Nirvana stage, its power was imaginable.

At the same time, the appearance of this rune had an extremely strong counterforce to the time domain.

This caused the little devil master to finally break free from the time domain and hurriedly asked, "Who are you? Why do you know Xie Xiaoyue?"

Su Yu was slightly startled, and then said coldly, "You do know Xie Xiaoyue! Tell me, how is she now? Is she alive or dead?"

What he was most concerned about was Xie Xiaoyue's life and death.

The Little Devil Master Thought for a moment and then took off the big red flower on his head. At the same time, he wiped off all the makeup on his face with his palm.

She revealed an extremely beautiful and familiar face.

Su Yu was stunned on the spot.

His mind went blank for a moment.

"Xie Xiaoyue?" He did not quite believe it.

The real face of the Little Devil Master was Xie Xiaoyue?

Xie Xiaoyue looked at Su Yu suspiciously and said solemnly, "This human, may I ask how I am your friend?"

She sized up Su Yu and pondered seriously.

A human who was proficient in the time domain..

She widened her eyes. "What's your surname again?"

Su Yu was stunned for a while. He slowly took off his bamboo hat and revealed his true appearance.

"Su Yu?" Xie Xiaoyue was shocked. She wondered if she was dreaming. "You're not dead? You escaped?"

She thought that Su Yu had already been buried in Emperor Shaohao's conspiracy.

What was most unreal was that Su Yu had brazenly barged into the demon gate and even successfully kidnapped her!

This was too unbelievable!

Su Yu smiled knowingly and looked deeply at Xie Xiaoyue. "It seems that you know a lot, just like how you hid your identity very well."

Xie Xiaoyue immediately realized that her identity had been exposed and was a little nervous. "Although I am the little demon lord, I can swear that the actions of the demon gate were not my original intention."

The reputation of the Devil sect was indeed not good in the southern part of the dream boundary.

Su Yu looked at the uneasy Xie Xiaoyue and smiled knowingly. "I know."

She was only a little devil master and had been in the outer realm for a long time. The evil deeds of the Devil sect could not be blamed on her.

"It's just that your identity is a little scary!" It was hard to say how big the influence of the Devil sect was.

But if one thought about it carefully, it should not lose out to a descendant of the time ruler.

As the little devil master, Xie Xiaoyue's identity was indeed too high.

Luckily, she still remembered Su Yu, her former friend from the outer realm.

"No matter how high you are, you will still be captured by you, Won't you?" Xie Xiaoyue smiled shyly.

This was the second time she was captured by Su Yu, right?

It was as if it was fated.

"Cough Cough!" Sensing the strange atmosphere in his words, Su Yu coughed dryly and said, "This... since the Little Devil Master Is You, then it's time to let you go."

He couldn't possibly hand Xie Xiaoyue over to that Godsister that he picked up, right?

"No, it's my fault." Xie Xiaoyue recalled what she had done and wished she could give herself a slap.

How troublesome!

It was actually more than Su Yu!

"Since it's a specialty of the Devil sect that you want, then it's hard to say. You can have as many as you want!" Xie Xiaoyue's crystal eyes flashed as she said with a smile.

Su Yu smiled bitterly.

He had gone through a lot of trouble to get to know the higher-ups of the Devil sect and search for information about the ancient tomb of the Devil sect.

In the end, he already knew such a person.

It was just that he didn't know anything about it.

"Xiaoyue, I want to ask you something," Su Yu said solemnly.

Xie Xiaoyue nodded her head vigorously. "Go Ahead, tell me everything you know!"

"I want to know, where is the ancient tomb of the Devil Sect?" Su Yu asked straightforwardly.

He looked at Xie Xiaoyue with expectant eyes.

Unfortunately, Xie Xiaoyue shook her head. "I just returned to the demon sect not long ago, so there are many secrets of the demon sect that have yet to be handed to me. But I can ask father, he should tell me."

Su Yu felt a little regretful.

"No!" He stopped her. "Since the demon lord didn't tell you, he must have his considerations. If you ask rashly, it will only be counterproductive."

The worst part was that the demon lord might even suspect Xie Xiaoyue, which would eventually implicate her.

"I have my own plan." Su Yu looked at Xie Xiaoyue, finding it difficult to speak.

His plan to capture elder Xiao Mo was obviously disadvantageous to the demon sect.

These words could not be said in front of the little demon lord.

"You want to capture an insider, right?" Xie Xiaoyue was smart after all. Not only was she not angry, but she also agreed with his suggestion. "It's best to capture elder Xiao Mo.."

"Oh? Why?" Su Yu asked.

Xie Xiaoyue said contemptuously, "That elder Xiao Mo is the least capable and the most ambitious! Although I don't have any evidence, I can vaguely feel that he might not be absolutely loyal to the Devil Sect."

Su Yu nodded slightly.

This person was indeed too greedy and jealous of talents.

This kind of person would not stay in the last place forever.

If there was a huge external benefit, it was hard to say whether he would end up in the Devil sect.

"If you can help our devil sect get rid of this hidden danger, I will have to thank you instead." Xie Xiaoyue said with a smile.

Su Yu heaved a sigh of relief and said after a pause, "But he is the Devil Master's disciple, right? Is there really no problem to capture him?"

“He is just an in-name disciple, what is there to worry about? Father also annoys him.” Xie Xiaoyue did not mind.

It turned out that back then, when Xiao Mo was still not an elder, he had made a huge contribution to the demon sect.

Therefore, the demon lord made an exception and accepted him as an in-name disciple.

“Do you need my help?” The little demon lord blinked his eyes and seemed eager to try.

Su Yu shook his head. “No need. I have already set up a trap. When he falls into it, you don’t have to make a move again to prevent yourself from being suspected.”

Looking in the direction of the Eye Devil Sect, Su Yu cupped his hands and sighed. “If I had known that you were the Little Devil Master, I would have appeared to catch up with you. I can only bid you farewell now.”

Xie Xiaoyue also said leisurely, “Who says so? You should leave quickly. Bone Devil and the others might not listen to my explanation when they catch up.”

Moreover, her relationship with Su Yu might not be able to be explained clearly.

“Goodbye!”

Xie Xiaoyue nodded. Looking at Su Yu’s back, she had the urge to follow him.

However, she knew that her identity was too sensitive. If she followed Su Yu, she would only harm him.

“Forget it. As long as you are safe, What’s wrong with me being trapped in the Demon Gate?”

She only wanted to escape the demon gate because she wanted to save Su Yu.

Now that Su Yu was safe, there was no need for her to do so.

Just as she was feeling frustrated, a faint teasing voice came from the end of the world.

That voice was filled with boundless power.

Su Yu, who was about to leave, was petrified.

He couldn’t move!

Xie Xiaoyue was even more shocked. She immediately went forward and protected Su Yu behind her. She hurriedly said, “Father, it’s all a misunderstanding!”

Shua --

A blood-red afterimage suddenly appeared in front of Xie Xiaoyue.

It was a majestic human figure.

He wore black armor and carried a blood-red cape on his back.

His blood-red hair fluttered in the wind, and his eyes were blue.

The most special thing was that there was a “Devil” written in blood between his brows!
His entire body emitted an evil and domineering aura that could destroy all living things!
He was the dark existence that shook the nightmare boundary!
Demon Lord!

Chapter 2572 Demon Lord's Power

“Misunderstanding?” The demon lord looked at Xie Xiaoyue, who was standing in front of Su Yu. “What did I misunderstand?”

Xie Xiaoyue was stunned. It seemed that her father didn't know that she was kidnapped?

“Ahem, nothing.” Xie Xiaoyue tried to hide her guilt.

The demon lord stood with his hands behind his back and looked at Su Yu. “Human, you have a time domain around you. If I'm not wrong, you must be the human Su Yu that my daughter misses so much, right?”

Yearn for day and night?

Su Yu looked at Xie Xiaoyue, who blushed and said angrily, “Imperial father, what nonsense are you talking about? When have I yearned for day and night?”

“Hehe...” the demon lord chuckled. “You're not afraid of anything, but you're afraid that I'll expose you in front of Su Yu? Looks like you really have a deep affection for him.”

Xie Xiaoyue's face turned even redder, and she said in a low voice, “Imperial father, don't talk nonsense anymore. Su Yu and I are very innocent.”

However, as soon as she said that, the Devil Master who was smiling just now suddenly turned cold.

“Unfortunately, we devils are not allowed to have feelings.” The Devil Master looked at Su Yu with disdain in his eyes as he shot out his real eyes.

Su Yu immediately felt a sharp pain in his eyes. He had no choice but to release his time domain to resist the gaze.

However, his gaze was extremely penetrating. It only slowed down for a moment before it pierced through the domain and went straight to Su Yu's body.

The stinging pain began to spread from his eyes to his entire body.

If this continued, it might really injure his body.

“Space Domain!” A universe appeared around his body.

That gaze was immediately split into tens of thousands of beams that radiated in all directions!

“Oh? Space Domain?” Demon master was slightly surprised. “A person controlling two domains at the same time? That's rare.”

His voice was like ten thousand thunderbolts as it blasted towards Su Yu.

The time domain and space domain collapsed on the spot.

His body suffered near-destructive damage.

Before he was about to die, he immediately used his life domain to instantly restore his body.

“Interesting, life domain!”The demon lord took a step forward and his life domain instantly collapsed.

That step was like stepping on Su Yu’s soul, causing his soul to be in extreme pain.

It was a sign that his soul was about to be destroyed.

“Soul Domain!”Su Yu had no choice but to use his soul domain again to protect his soul.

“Hehe, another Supreme Domain!”The devil master laughed.

His laughter pierced through the heaven and earth, containing the power to destroy the heaven and earth.

With no other choice, Su Yu immediately used his death domain to corrode the sound waves into nothingness.

“Death Domain!”The demon lord pointed at the air and destroyed the death domain.

The remaining power charged towards Su Yu.

Su Yu snorted coldly as a huge door of reincarnation appeared behind him.

That power had gone through reincarnation and was dispersed into the most primitive form of power.

The Demon Lord’s smile deepened as he extended two fingers.

Su Yu used his destiny domain and destiny domain respectively to dissolve and Dodge this attack.

Finally, the demon lord’s right fist fiercely slapped toward Su Yu.

With a rumble, the fist shadow directly charged toward Su Yu.

“Eight great domains!”A lotus flower appeared under Su Yu’s feet.

Under its urging, the lotus flower petals gradually withered, corresponding to the weakening of that power layer by layer.

When it finally arrived in front of Su Yu, only a tiny bit was left, and it was crushed by him.

The demon lord smiled, his figure flashed in front of Su Yu, and he pointed a finger at the center of Su Yu’s brows.

A wisp of black demonic qi surged into Su Yu’s body.

Xie Xiaoyue saw this and exclaimed, “Father!”

She rushed over and was about to attack the demon lord.

Su Yu stretched out his hand and stopped her. "Don't act rashly. Your father has no ill intentions."

With the demon lord's true strength, would it be difficult to kill him?

Of course not!

He was only testing Su Yu's true identity.

Originally, the demon lord had guessed that Su Yu might be a descendant of the ruler of time or the ruler of space.

But after testing him, he found out that Su Yu was actually a descendant of ancient god Nine Dragons.

"Inconceivable. Ancient God Nine Dragons still has a descendant in the mortal world." The demon lord was incomparably surprised. "Most of his descendants were killed, and some of them were lucky enough to escape to the Heavenly Court."

"But there's still a successor like you living outside!" The demon lord sized up Su Yu. "The most inconceivable thing is that you were able to comprehend eight domains without any help! This is simply heaven-defying!"

The demon lord didn't know who this person was.

But he seemed to have some understanding of ancient god Nine Dragons.

"Imperial Father!" Xie Xiaoyue once more stood in front of Su Yu and glared at him. "What on Earth do you want to do to him?"

The demon lord smiled as he retracted his finger and shook his head. He could not help but laugh. "You can't keep a woman when she's old. You haven't even married yet and you're already working for someone else. I've really raised you in vain."

Xie Xiaoyue was so angry that her face turned slightly red. "If you continue to spout nonsense, I'll disappear again for you to see!"

"Hahaha..." the demon lord was very gratified.

This was because ever since Xie Xiaoyue had grown up, their relationship had been very stiff.

The reason was that the demon lord was very responsible for her mother's death back then.

For many years, Xie Xiaoyue had never been able to let it go.

That was why she had run away from home for so many years.

But even after she had returned, she had never spoken to him, much less laughed and laughed.

Many years had passed, but this was the first time Xie Xiaoyue had displayed such an embarrassed image in front of him.

“Let’s go, human. Come back to the demon race with me,”the demon lord said happily. “We were all abandoned by the sacred mountain and viewed as enemies. You can join the demon sect from now on. I may not be able to give you anything else, but I can still guarantee your safety for the rest of your life.”

Hearing this, Xie Xiaoyue looked at Su Yu hesitantly, as if hoping that Su Yu would consider it.

An eight-star civilization was not like a small outer realm.

This place was too dangerous.

They could easily encounter the descendants of rulers.

As the descendant of ancient god nine dragons, if Su Yu encountered them, he really would have a slim chance of survival.

In this vast world, only the demon race could protect him.

Su Yu smiled and cupped his fists. “Thank you for your good intentions, demon lord, but my ambition is to reach even further, so I can not stay.”

The demon lord gazed deeply at Su Yu. From Su Yu’s eyes, he could see an indomitable determination.

For such a person, as long as he did not die, he would definitely become a great asset.

“Alright, I won’t force you, but if you encounter any difficulties in the future, you can come to the demon sect.”The Demon Lord Thought for a moment and then looked at Xie Xiaoyue. “However, if this day really comes, I hope that you can promise me to marry Xiaoyue.”

The demon lord looked out into the sky and sighed. “The end of the epoch is near. Whether we, the common people, can survive this calamity is unknown.”

Therefore, the sixty years before them were the only life they had left.

He did not wish for his daughter to leave behind eternal regret.

Su Yu said, “I hope that this day will not come.”

If his crisis was so great that he needed the demon lord’s help, he believed that it would be very difficult for him to survive.

Moreover, he had to marry Xie Xiaoyue.

It was even more impossible.

The relationship between him and Xie Xiaoyue should be more of a friendship than a relationship between a man and a woman.

Perhaps there was some affection between a man and a woman, but in the end, it was only a tiny bit.

“I hope that there will be a day.”The demon lord patted Xie Xiaoyue’s shoulder and said, “Let’s go, Xiaoyue. Soon, the descendants of the ruler of time will fight for the world. At that time, the world will be in chaos. Come back with me.”

Chapter 2573 Random Grudges

Xie Xiaoyue looked deeply at Su Yu and nodded. "Su Yu, we'll meet again."

Since Su Yu was safe and sound, the outside world and the demon gate were no different to her.

There was no need to persist in escaping the demon gate.

Su Yu nodded. "Goodbye!"

After watching the demon lord and his daughter leave, Su Yu touched his forehead.

Just now, the demon lord had pointed there. It seemed like an unintentional finger, but it had left behind a black plum blossom mark.

At first glance, it looked like a dancing black flame, exuding a sense of evil.

"Another favor," Su Yu muttered.

The plum blossom mark was not something else. It was the pure power of the demon lord's original body.

If Su Yu's life was in danger, the plum blossom mark would protect him.

The Devil Lord was speechless as he gave himself a life-saving gift.

Sighing, Su Yu did not leave. Instead, he stayed where he was.

A few days later.

A sneaky figure walked over. From a thousand feet away, he bowed respectfully. "Greetings, Mr. Su."

He held a letter in his hand. "Mr. Su is fine. My master is very pleased and specially gave me a small gift."

Su Yu took it and opened it.

Two items fell out of the letter.

One was a letter, and the other was a black card.

It turned out that elder Xiao Mo had given Su Yu a teleportation array certificate that was commonly used by the demon sect.

With this item in his hand, he could go to any stronghold of the demon sect and use the array that was connected to it.

With the wide range of branches of the demon sect, he could reach any place in the world within a short period of time.

For Su Yu, who was about to return to south light city, this card was indeed a great help.

Of course, elder Xiao Mo had a request for the gift.

He hoped that Su Yu could exchange the nine nether crystals with him. The amount was 20 billion nine nether crystals.

Su Yu raised his eyes and asked mo qin, "Does your master have so many time crystals?"

Even if elder Xiao Mo was an in-name disciple of the devil master, it was impossible for him to have so much wealth on his own, right?

Unless elder Xiao Mo had an even bigger backer behind him.

“Master said that Mr. Su has his own secrets, and so does he. Please don’t get to the bottom of it, Mr. Su,” Mo Qin replied respectfully and humbly.

Su Yu’s expression was indifferent as he said, “Twenty billion is too much. I need time to prepare. Two years later, we will meet here to trade!”

He gave Mo Qin an address.

Two years later, they came to trade.

Mo Qin’s heart was bursting with joy. He had finally fulfilled his mission and completed the task that his master had given him.

“I will definitely bring it!”

Watching him leave, Su Yu stood up just now.

The reason why he stayed where he was was because he was waiting for elder Xiao Mo’s people to come.

As expected.

Now, he was only waiting for the trade two years later!

Su Yu turned around and walked towards South Bright City.

With the demon sect’s proof, his journey was indeed much smoother.

It greatly reduced the time.

The journey that originally required five years only took half a year to reach the nearest city in South Bright City -- Heaven’s opening palace.

“I never thought that after so many years, I would come to Heaven’s opening palace again,” Su Yu muttered softly.

The experience of coming to this place to participate in the heaven’s opening grand meeting was still vivid in his mind.

During that time, he had also been attacked by the Devil sect.

He had never thought that today, he would actually have a relationship with the master of the Devil Sect.

What a joke of fate.

However, he wanted to rush to south bright city as soon as possible, so he went straight to the teleportation hall.

Perhaps it was because of the destruction of the Tai Yi sect that caused the living beings nearby to feel uneasy, causing all the living beings in the entire area to be anxious to leave this area.

As a result, the heaven awaken palace was filled with people.

Although Su Yu had bought the certificate to use the teleportation array, he had waited in line for three days and three nights before it was finally his turn to use the teleportation array.

However, just as Su Yu was about to step on it, a young man in a gray robe came out from the slope and rushed up first.

Su Yu frowned. "Go back and queue up."

Everyone else waited patiently, but this person was the only one who cut the queue at will.

The gray-robed young man did not even turn his head and said calmly, "I have something urgent."

What a joke!

Who in the queue did not have something urgent?

Why was this person the only one who cut the queue while others could wait patiently?

Cutting the queue was fine, but he did not say a word. He occupied the teleportation array and did not even say a word.

If he really had something urgent to say, Su Yu could still let him go first.

In the end, it was as if others should have let him cut the queue.

"Get Down!" Su Yu said indifferently.

The gray-robed youth ignored him and directly activated the teleportation array, preparing to teleport away.

Su Yu snorted lightly and went forward to grab his shoulder, pulling him down.

The former was originally on guard, but Su Yu's strength was astonishing. He was unable to resist and was forcefully pulled back by the palm, almost falling down.

The gray-robed young man was furious. He turned around and berated Su Yu, "I said, I have something urgent! Are you sick?"

PA --

Su Yu did not think twice and punched his face.

The gray-robed young man's cultivation was not bad. He was at the early stage of Nirvana.

Seeing Su Yu's punch, he turned his body to the side and prepared to fight back.

However, what was unexpected was that Su Yu's body suddenly doubled in speed.

It was as if the flow of time around him had sped up.

The gray-robed young man did not manage to dodge the seemingly simple attack and was hit on the cheek.

He spat out a mouthful of blood and immediately flew to the side and smashed into the wall of the main hall.

“Cutting the queue and still acting so righteously, you’re quite a rare sight.” Su Yu withdrew his fist and stood on the teleportation array. He said coldly, “If you’re not satisfied, you can come again. I’ll beat you until you’re satisfied!”

The gray-robed young man stood up, his face covered in dust.

A deep annoyance appeared on his face. With a swoosh, he took out a stone from his pocket. “Open your dog eyes and see what this is!”

The stone was red all over and there were two words carved on it.

Shao Hao!

“Emperor Shao Hao’s follower token!”

“He is one of Emperor Shao Hao’s men!”

Hualala --

For a moment, the crowd retreated like a tidal wave. Fear of this person was like fear of a ferocious tiger.

Great Emperor Shao Hao’s reputation could be seen from this.

Only Su Yu stood calmly with his arms crossed and activated the teleportation array as if no one was around.

“Are you blind? Get Down Here!” Seeing that Su Yu was unmoved, the gray-robed youth berated him.

He really suspected that there was something wrong with Su Yu.

When he saw the identity token that great Emperor Shaohao had personally given him, his expression did not change at all.

Only then did Su Yu glance at him and said indifferently, “What kind of master and what kind of dog have you raised? I’m actually not the least bit surprised that you’re one of Shaohao’s people.”

Only one of Shaohao’s subordinates would be so arrogant, right?

“You dare to Insult Shaohao?” The gray-robed young man’s gaze was slightly cold.

Su Yu said indifferently, “So what if I insult him? You came up to beat me?”

A hint of fear flashed through the gray-robed youth’s eyes.

Su Yu’s strength was obviously higher than his.

Going up was just overestimating oneself and asking for trouble.

“I’ll remember you. Insulting Shao Hao, you won’t live long.” The gray-robed youth snorted.

Su Yu shrugged. “You can remember whatever you want.”

With that, he disappeared into the teleportation world.

When he reappeared, he appeared in South Light City.

He immediately headed to the Empress Hall.

“Where’s the Empress?” Su Yu entered the hall, but there was no sign of Empress Star Rain, nor could he sense her presence.

At eleven o’clock, he transmitted to the other three.

Chapter 2574 Emissary Conspiracy

Shua --

An old man appeared and respectfully said, “Reporting to Lord Su, the Empress is in the secret room, receiving the ruler’s emissary.”

So in the secret room, no wonder the aura was isolated.

However, Su Yu raised his eyebrows.

The ruler’s emissary?

Why would the other party visit the Empress’s residence?

Could it be that the Devil Lord had said that the descendants of the ruler of time were starting to fight for the world.

Did the ruler of time specially send emissaries to convey his orders to the descendants?

He waited patiently for a moment before Empress Starry Rain’s aura appeared.

The latter also sensed Su Yu and immediately rushed over.

From Afar, she saw an exquisite and beautiful girl with long golden hair running over happily and embracing him.

“Brother, you’re finally back. I thought you’d never come back.”

Su Yu stroked her soft golden hair and said gently, “Since I’ve agreed, I’ll naturally come back.”

“Come, I’ll give you a gift.” Su Yu pulled Empress Starry Rain to the side hall where no one was present.

Empress Starry Rain was somewhat expectant and asked curiously, “Brother, what do you want to give me?”

Su Yu smiled and took out a pitch-black stone.

Upon seeing this item, empress starry rain shrieked in surprise, “Third grade nine nether crystal? Oh My God, this is my first time seeing it.”

Su Yu smiled and didn’t say anything.

He still had many in his hands, and this was just one of them.

“I like it very much. Thank you, Big Brother.” Empress starry rain took it, but there was a trace of worry on her face that couldn’t be dispelled.

Su Yu had wanted to tell him that he still had a lot of it.

But his unusual behavior interrupted Su Yu's thoughts.

"What is that time ruler's emissary doing here?" The only person who could make Empress Starry Rain Frown was that emissary.

Empress starry rain leaned weakly against the wall, a hollow smile hanging on her exquisite face.

"There's a problem with my nine Nether Crystal Mine. Father sent someone down to supervise me," Empress Starry Rain said bitterly.

"Be more specific."

Empress starry rain said slowly, "We descendants of the time ruler will regularly send nether crystals to the saint-level. However, the last batch I sent was snatched away by an unknown force Midway."

"Father sent down a storm of rage, accusing me of not being diligent in my work. He also sent an envoy to the entire city to supervise my every move, urging me to seize the time to mine."

The nine nether crystal ore had been snatched away?

And it was at this critical juncture.

Who Did It? was there a need to ask?

Shaohao was the most suspicious.

"What if we can't gather enough nine Nether Crystals?" Su Yu asked.

Empress Star Rain smiled bitterly. "Then depose me as the Empress and demote me to a commoner once again."

The Empress identity was the only asset she had to compete with the other time rulers.

If she was stripped of this identity...

What right did she have to compete?

She could only sit at home and wait for the birth of a new time master, the tragic fate of her being absorbed.

"Don't worry, I'll think of a way." Su Yu had a huge amount of nine nether crystals in his hands. The amount completely met the requirements of the time master.

Empress starry rain forced a smile. "Thank you."

In reality, she did not count on Su Yu.

Su Yu came from the common folk and had no foundation. Where could he find a huge amount of nether crystals?

He should only be consoling himself, right?

Empress Star Rain forced herself to cheer up and said, "Don't worry, I already have the means to get enough nether crystals to deal with this crisis."

After all, she was the Empress of a generation.

After many years of management, it was impossible for her to be completely defenseless.

With a certain amount of time, she would be able to gather all the required nine nether crystals.

Su Yu thought for a moment and said, "Alright, let me know if there are any difficulties."

Since empress starry rain did not need the nine nether crystals for the time being, he would leave his portion at the end as a precaution.

"Brother, you should rest. I will go prepare the nine nether crystals." Empress Starry Rain was a little tired.

She had been preparing for several months.

Every day, she was like a criminal, reporting her progress to the time ruler's emissary.

"Take care of your body." Su Yu watched him leave, then turned his gaze toward the descendant of the time ruler.

In the depths of the nine heavens.

A round of eyes quietly overlooked the earth from top to bottom.

In the secret chamber, a dignified-looking middle-aged man dressed in official robes walked out.

He sneakily looked around and came to a corner of the Empress Palace.

His palm lightly tapped on the wall in the corner, easily unlocking the array of the Empress Palace and letting in a sneaky gray-robed young man.

That gray-robed young man was none other than the queue-cutting young man that Su Yu met at the Heaven Enlightenment Palace's teleportation array.

"Why did you come back so late?" The middle-aged man in official robes asked in a low voice.

The latter said with bad luck, "I met a fool who is not afraid of anything and wasted my time."

"How is it going?" The middle-aged man in the official uniform asked.

The gray-robed young man chuckled, "Are you still worried about me? How many nine nether crystals does that silly princess have? I didn't get her many, so she will never be able to gather all the nine nether crystals."

"Yes, go and set it up. Don't let anyone know."

"Alright!"

They had no idea that the eyes in the sky were watching their interactions.

Su Yu slowly closed his eyes. When he opened them again, his eyes shot out traces of a cold light.

There was indeed a problem!

That time ruler's envoy had really been bribed by Shao Hao.

Based on Su Yu's understanding of Shao Hao's actions.

This person was also very good at setting up things.

Since he had the ability to steal Empress Starry Rain's nine Serenities Crystal, he would definitely not give empress starry rain any chance to make a comeback.

Therefore, Su Yu knew that the time ruler's envoy had bad intentions.

Now, it seemed that this was indeed the case!

"Starry rain, Oh Starry Rain, you should enjoy a good show," Su Yu muttered.

Suddenly, his heart stirred, and he immediately left the Empress's residence and came to the outskirts.

Under a huge ancient tree, a female corpse wearing a bamboo hat walked out from the thick shadows.

"I didn't fail my orders and successfully completed the mission." The female corpse stretched out her hand, a spatial storage device in her palm.

Su Yu took it and scanned it.

He immediately discovered the black feather gate controlled by the nine serenity charms empress.

However, to his surprise, the nine serenity charms empress was actually inside.

"What's going on?"

The split soul explained everything in detail.

Hearing this, Su Yu was astonished.

He was actually able to subdue the Queen of the Netherworld by accident!

Su Yu had seen with his own eyes how powerful she was.

At her peak, she was probably even more powerful than the Ten Great Earth Dao Masters in the Palace of the Queen of the starry rain.

"You've done very well!" Su Yu praised.

At the same time, she sent another strand of her soul into the female corpse, replenishing the soul that was about to dissipate.

"Hide in south bright city. I'll need you very soon," Su Yu said.

"Yes!" The female corpse immediately left.

Su Yu held the spatial storage device in his hand and returned to the Empress Palace.

The first thing was, of course, to refine the black feather gate.

Chapter 2575 No Turning Back

After hesitating for a while, the restriction that she had placed was easily removed and replaced with Su Yu's blood essence.

With that, the black and white doors fell into Su Yu's control.

Then, Su Yu looked at the nine nethersuccubus queen and said, "Your injuries are quite serious."

He flicked his finger and an emerald green leaf fused into the nine Nethersuccubus Queen's heart

The leaf continuously provided a powerful life force, helping the Empress of the Netherworld to recover her dying body.

Her injuries healed at a speed visible to the naked eye.

Very soon, the Empress of the Netherworld was able to stand up. She stood respectfully in front of Su Yu, not daring to act rashly.

"Do you have anything to say?"

The Empress of the Netherworld said, "From now on, I swear to follow master to the death."

"I won't be able to use you even if I swear to follow you to the death," Su Yu said indifferently. "When I don't need you, I'll set you free."

Looking at the spatial storage device in the nine Nethersuccubus Empress's hand, he secretly guessed that there should be more nine netherworld crystals in it than the one in Leng Yu's.

As if sensing Su Yu's gaze, the nine nethersuccubus empress didn't dare to hesitate. She took the spatial storage device and stuffed it into Su Yu's hand.

"This is master's."

Su Yu took it and scanned it. He was somewhat surprised. "Oh? Ancient God Nine Netherworld's claw fragment?"

He took out a fragment that gave off powerful nine netherworld energy.

It was an item from ancient god Nine Netherworld's body.

The nine nethersuccubus silently sighed.

For this item, Phoenix King had fought with her for a thousand years.

In the end, it ended up benefiting a human.

But just as she was thinking this, Su Yu threw the fragment back and said, "It's better if you use this item."

What?

The nine Nethersuccubus Queen took it in disbelief. "Master doesn't want it?"

This was a fragment of an ancient god of the Netherworld's claw.

Once obtained, it would definitely explode with astonishing power.

Su Yu actually returned it.

Did he not understand how precious this item was?

“The treasure needs to be handed over to the right person to use. You are more suitable than me,” Su Yu said indifferently.

If he handed the fragment over to Su Yu, he would only be able to unleash 1% of its power at most.

However, the nine Nethersuccubus Empress was able to unleash at least 30% of its power.

“Aren’t you afraid that I will betray you? If that happens, you will be left with nothing.” The nine Nethersuccubus Empress looked at Su Yu and said.

Su Yu said calmly, “Don’t doubt the person you use, but don’t doubt the person you suspect. Just take it and use it.”

With the restriction he personally placed, he wasn’t afraid of the nine Serenities Queen’s betrayal.

The latter nodded.

“However, I’ll take all of your nine serenities crystals,” said Su Yu. The number of nine serenities crystals inside was already an astronomical figure.

Most of them were picked from the abyss. Not only were the quality higher, the quantity was also much higher.

“Master, feel free to take them. Those things are just ores that we collected out of boredom. We haven’t even figured out their specific uses yet,” the nine Nethersuccubus Empress said carelessly.

Su Yu nodded. “Come to my storage space and recuperate in peace. If I need you, I will let you out to help.”

“Yes, Master!” The nine Nethersuccubus Empress said respectfully and entered the storage space automatically.

She harvested the black feather gate, the massive amount of nine serenities crystals, and the nine Serenities Queen.

Su Yu’s confidence increased exponentially.

“Shao Hao, it seems like the battle between us will come soon!”

In the next few days, under the command of Queen Star Rain, all the shops, money houses, and forces that she controlled in south bright city gathered the nine serenities crystals that she usually accumulated.

One month later.

The nine nether crystals had accumulated to a total of 50 billion.

Empress Starry Rain, who had been frowning for the past few days, let out a sigh of relief and said, “Brother, how is it? Isn’t my move of breaking everything into pieces very impressive?”

It turned out that Empress starry rain had long anticipated that this day would come.

Therefore, she did not hand over all the nine nether crystals that she had obtained. Instead, she left a portion of the surplus and scattered it.

She only needed to gather them when needed.

Now, this precaution could finally be used to save her life.

“Let’s Go and let the emissary take a look,” empress starry rain said confidently.

Not long after, they came before the emissary.

Empress starry rain held the spatial storage device in her hand and said, “Emissary, please check it.”

The emissary immediately checked it carefully. After a long while, he confirmed, “Yes, not bad. The nine nether crystals are worth 50 billion.”

Without waiting for Queen starry rain to heave a sigh of relief, the emissary said again, “However, please protect the queen well. If there is another loss, I’m afraid that the ruler will really remove you from your position.”

Queen starry rain said solemnly, “I understand. Thank you for reminding me.”

The emissary sighed, “Since you have gathered enough nine nether crystals, this emissary’s mission is over. I’ll take my leave first.”

He was unusually free and unrestrained, without any hesitation at all.

Empress Starry Rain pretended to urge him to stay a few times, but the other party insisted on leaving.

Only then did empress starry rain let him leave.

After he left, Empress Starry Rain was like a bird that had been freed from its cage, cheering and jumping up and down.

“Hahaha... he’s finally gone!”

She had been under someone’s supervision these past few days, and the daily reports were enough to worry her to death.

Now, she was finally free.

Su Yu smiled, but he did not expose that emissary’s ill intentions.

Now that he had left so freely, there must be a bigger conspiracy waiting for him.

“Xingyu, if you encounter anything in the future, remember to put your life first, understand?” Su Yu reminded her meaningfully.

Empress Xingyu nodded, her two eyes smiling like crescent moons. “I understand, brother!”

“Let’s Go! Let’s drink to celebrate.”

Su Yu was helplessly dragged by her to drink in the pavilion.

“I heard that the competition between the descendants of the ruler of time is about to begin?” Su Yu asked.

Empress starry rain nodded. “Soon. It will start in ten years or twenty years.”

“How will they compete? Will they kill each other?” Su Yu pondered.

“Who knows?” Empress starry rain said bitterly, “The rules are made by the ruler of time. As long as he is happy, he can change the rules however he wants.”

Su Yu pondered.

If that was the case, the difficulty of the fight would increase instead.

Because they could not make a plan, they could only rely on improvisation.

“Alright, if I can help you then, I will not decline.” Su Yu said.

It was late at night.

Empress starry rain fell asleep after drinking.

Su Yu stood with his arms crossed and waited outside her room.

Su Yu could sense any movement.

In the middle of the night, Su Yu’s closed eyes suddenly opened and a cold light shot out.

He sensed that an especially obscure aura was slowly approaching Empress Starry Rain.

“Little qilin,” su yu shouted.

The little qilin immediately came out and hid in a corner.

It was getting closer!

Even closer!

With a crash, someone broke through the window and entered Empress Starry Rain’s room.

Su Yu immediately flashed over.

Without thinking, he activated the heaven extinguishing seal.

A destructive power of a tunnel lord came pressing down.

The ambusher was clearly unprepared. Su Yu possessed such a powerful item.

He was immediately hit.

Chapter 2576 Had Already Been Forgotten

However, the person who had ambushed them had astonishing strength. Under the heaven extinguishing seal, they were only lightly injured.

The garden rolled and they fled.

Su Yu immediately chased after them!

However, at the instant he chased after them, another figure barged in and took the spatial storage item from Empress Starry Rain's hands when no one was around.

However, Empress Starry Rain, who was clearly drunk, suddenly opened her black and white eyes.

Without thinking, she crushed a jade talisman.

Although the Jade Talisman wasn't as high-grade as the Heavenly Dao master's fragrance sack, the power contained within it far surpassed that of an ordinary tunnel lord.

The second sneak attacker was instantly struck and spat out blood.

He was instantly severely injured by Empress Starry Rain.

The latter held onto his injured body and ran away in a panic.

However, before Empress Starry Rain could chase after him, the entire roof shattered with a rumble.

The third Earth Path Master appeared and grabbed Empress Starry Rain's wrist, snatching away her spatial storage item.

Empress starry rain was shocked and was about to fight to the death when she suddenly remembered Su Yu's warning.

Life was the most important thing!

She had no choice but to let the other party snatch the spatial storage item.

However, the other party had just escaped when the little qilin came out from the darkness prepared. He opened his mouth and spat out a mouthful of nine nether jade flames.

The tunnel master could not avoid it in time and was directly spat out by the nine Nether Jade Flames. He was burned to the point of screaming miserably on the spot.

"This voice..."clearly, Empress starry rain recognized the origin of the voice. She was both angry and angry.

However, the other party was an earth path master after all, and it wasn't something that could be killed with a single nine Nether Jade Flame.

Even though the other party was injured, he still managed to escape successfully.

By the time Empress Starry Rain chased after him, the other party had already fled and disappeared without a trace.

Not long after, Su Yu returned as well.

The heaven destruction seal in his hand was still burning with a high temperature.

It was clear that he had used the heaven destruction seal many times during the chase.

However, the other party was too strong, so the heaven extinguishing seal was unable to do anything to her.

"My Netherworld Crystal!"Empress Starry Rain squatted on the ground, tears welling up in her eyes.

The Netherworld crystal she had prepared for so many years had been snatched away again!

If this news were to reach the ears of a ruler, her position as empress would definitely be lost.

“Why are you crying? It’s just a Little Netherworld Crystal.” Su Yu patted her back.

Empress Starry Rain raised her head. She wanted to laugh, but she really couldn’t.

How was that a little nether crystal?

It was a whole 50 billion worth of nether crystals.

Where was he going to find it now?

“Take a look at what this is.” Su Yu took out a spatial storage device and placed it in front of Empress Starry Rain.

“What?” Empress Starry Rain said dejectedly.

Su Yu smiled faintly. “Won’t you know if you look inside?”

Empress Starry Rain’s eyes were filled with tears as she swept her gaze inside.

However, when she swept her gaze inside, Empress Starry Rain jumped up from the ground in shock. “Netherworld Crystals? There are so many Netherworld Crystals!”

The amount inside was neither too much nor too little. It was exactly worth 50 billion.

“This is the one that I lost... No!” Empress Starry Rain’s Netherworld crystals were generally not of high quality.

But the nine nether crystal inside was of a frighteningly high grade.

The highest grade was third grade, and the lowest grade was sixth grade!

“It’s You?” Empress Starry Rain’s small mouth was wide open as she looked at Su Yu in disbelief.

Countless questions surfaced in her mind.

Where did Su Yu get so many nine nether crystals?

“Shh! Watch the Show!” Su Yu chuckled and said.

It seemed like he was trying to verify Su Yu’s words.

The next day, early in the morning.

The ruler’s emissary, who had already left, returned breathlessly.

His face was ashen, and he immediately berated, “Empress Starry Rain, you have disappointed the ruler greatly! You actually lost an important netherworld crystal for the second time!”

HM?

Although Empress Starry Rain was simple, she wasn’t too stupid.

She had strictly ordered the people in the residence not to tell anyone about the loss of the Netherworld Crystal.

How did the emissary know?

Besides, didn't he already leave?

How did he suddenly receive the news and rush back?

No matter how one looked at it, it seemed like the emissary knew in advance that the Netherworld Crystal would be lost a second time, right?

"I, the emissary, will enforce the law impartially and report to the ruler. Empress Starry Rain is not doing well and has repeatedly lost the Netherworld Crystal," the emissary said angrily and immediately took out his communication jade formula.

Empress starry rain finally understood why Su Yu wanted her to watch a good show.

This emissary was really putting on a Show!

She slowly took out her spatial storage device and said with a faint smile, "Who said that the Netherworld Crystal was lost? My Netherworld Crystal has always been in my hands. I don't know who told the emissary that my Netherworld Crystal has been lost."

The emissary laughed angrily, "Empress, you don't have to hide it anymore. I already know."

Empress starry rain smiled and tapped her finger on the spatial storage device. The storage device immediately opened and nine nether crystals that were as tall as mountains rolled out.

If not for the size of the hall, the entire hall would have collapsed.

The emissary was dumbfounded and could not believe what he saw.

"You... you..." the emissary was so shocked that he could not speak.

Could it be that Empress Starry Rain had a second plan?

Impossible!

However, the nine nether crystal in front of him rendered him speechless.

"Emissary, you must report the truth and put in a good word for me in front of Father." Empress Starry Rain looked at the emissary's face, which alternated between red and green, and her heart bloomed with joy.

The emissary took back the Jade Seal. His expression flickered for a moment before he cupped his fists and said, "Since the nine nether crystal has not been lost, then I shall take my leave."

He was about to leave with his face covered in dust.

However, Su Yu stopped him. "Emissary, don't be impatient. I want to give you a gift!"

At that time --

In the outskirts of the city.

An injured black-robed man sneakily arrived outside the city.

“I’ve got the item. give it to Emperor Shao Hao,”the black-robed man said to the air.

A gray-robed youth emerged from the darkness and took the spatial storage item from the black-robed man.

He swept it inside and found 50 billion nine nether crystals.

“Hehe, I told you that digging for the silly empress would be a waste. It would only add to the wealth of our great Emperor Shaohao.”The gray-robed youth chuckled.

He put away the spatial storage device and said, “Mm, this trip was worth it. Let’s wait and see if Empress Starry Rain is deposed from the throne. When that time comes, she won’t be able to live for long without Emperor Shaohao’s help.”

Many forces were secretly hostile toward the descendants of the ruler of time.

If Empress Starry Rain lost her greatest support -- the position of Empress -- who knew how many forces would emerge from the shadows and kill her.

“Let’s Go!”He put on the bamboo hat in satisfaction and prepared to secretly leave the southern part of the dream boundary.

However, after taking a few steps, he didn’t hear any movement behind him. He couldn’t help but look back. “Let’s go, what are you waiting for...”

However, the gray-robed young man’s pupils constricted bit by bit.

This was because the Earth Dao master expert in his eyes stood there motionlessly.

On his chest, a bloody palm passed through his back and squeezed his heart into his palm.

As his five fingers clenched, his heart shattered.

The Earth Dao master expert immediately fell to the ground and died, revealing a woman in a bamboo hat behind him.

“Who are you?”The gray-robed young man swallowed hard.

The bamboo hat man smiled faintly. “Why, have you forgotten me so quickly? Not long ago, you said you had already remembered me.”

Chapter 2577 Taking The Bait

The gray-robed young man was dumbfounded.

When did he say that he would remember her?

However, in the Heaven Awaken Palace’s teleportation hall, he met a nobody who didn’t know when to advance or retreat and only threatened him.

“It’s good that you’ve forgotten about it. Follow me,”the hooded woman said indifferently.

The gray-robed young man’s eyes flashed as he obediently followed the woman’s footsteps.

However, just as the woman turned around, he suddenly crushed a spatial talisman.

A huge spatial fluctuation radiated out from within and swept the gray-robed young man away.

“Hehe! It would be strange if I followed you...”the gray-robed young man sneered.

However, he could not laugh in the next moment.

The hooded woman pressed down with her finger across space and actually suppressed the spatial fluctuation, preventing him from teleporting.

At the same time, she slowly exerted force with her finger, causing the spatial fluctuations to show signs of tearing.

The gray-robed young man, who was in the middle, was so frightened that he immediately jumped out.

Otherwise, he would be torn apart by the distorted spatial fluctuations.

The hooded woman said with a faint smile, “What did you say just now?”

The gray-robed young man’s face was like a pig’s liver as he stuttered, “I mean, I should follow you!”

“That’s right, you should just follow me!”The bamboo hat lady smiled faintly and turned around to leave.

The gray-robed young man’s heart was beating rapidly. Just what cultivation level was this bamboo hat lady in front of him at?

She should at least be at the level of a tunnel master, right?

In front of this lady, he did not have any room to resist.

Therefore, he could only obediently follow the bamboo hat lady back.

Furthermore, it was the place that the gray-robed young man was most unwilling to go to.

Empress Palace!

“Let’s go. I’ll bring you to meet someone.”The hooded woman grabbed his arm with one hand.

After the world spun, the two of them appeared in the courtyard of the Empress Palace.

Su Yu, the empress, and the emissary were among them.

When the emissary saw the gray-robed young man, his eyelids trembled violently.

He forcefully suppressed his guilty expression and said in a serious manner, “Empress Starry Rain, what are you doing?”

Actually, Empress starry rain did not understand either.

She turned her gaze to Su Yu.

“Nothing much. It’s just that my people caught a criminal who took away Empress’s nine serenities crystal.”

As he spoke, the hooded woman swept her finger across the gray-robed young man’s body and immediately searched for a spatial storage device.

That storage device was the one that the empress had just taken away.

Empress Starry Rain snatched it over in one go. She was shocked and furious. “Who ordered you to do this?”

The gray-robed youth avoided her gaze and did not say a word.

The hooded woman chuckled and slapped her head. A memory image popped up in her mind and was projected into the air.

The memory was reversed.

From being captured by the woman outside the city, to making a deal with the masked Daoist master, to the person who described himself as great emperor Shao Hao.

If she went any further, she would be seen colluding with the emissary.

“Enough!”The emissary immediately stopped him.

Cold Sweat was already dripping down his forehead.

Colluding with outsiders to rob a sovereign’s descendant of the Netherworld Crystal.

This was a crime that would wipe out nine races.

Once it was confirmed, not only would he die, but his family, relatives, and descendants would all die.

Under the cover of his wide official robes, his body was already trembling.

Su Yu said indifferently, “Why, does the envoy have something to say?”

The envoy said with a stern expression, “You clearly lost the Netherworld Crystal, but you used a fake to deceive me. I want to report this to the ruler!”

Empress starry rain was not stupid. Her eyes narrowed.

The memory projection had already confirmed that it was Emperor Shao Hao who had ordered people to rob her of the Netherworld Crystal.

However, the emissary in front of her turned a blind eye to this.

Instead, he caught her and Su Yu cheating him by using a pre-prepared spatial storage device.

However, Empress Star Rain was smart enough not to interrupt.

This was Su Yu's plan and he should be the one who understood it the most. It was best for him not to interrupt and disrupt his steps.

Su Yu said indifferently, "If I don't deceive him, how will the emissary have the patience to wait for us to catch the real suspect?"

He was afraid that he could not wait to report Empress Star Rain's second mistake to the ruler.

The emissary's cold expression remained. "HMPH! Deceiving the emissary is considered to be deceiving the ruler. You Won't be able to escape death!"

He acted as if he wanted to continue reporting.

Su Yu sneered. "I gave you face, yet you're still so Shameless!"

The moment she finished speaking, the hooded woman released the gray-robed youth's memory projection once again.

This scene was indeed the scene of the gray-robed young man and the emissary hiding in the dark in collusion.

The details of the conversation were clear at a glance.

Empress starry rain widened her eyes, filled with murderous intent. "Men!"

Several Earth Dao Masters rushed over in unison. "Please instruct the Empress!"

"This person colluded with criminals and robbed the descendants of the ruler. capture him alive immediately and hand him over to the ruler for punishment!"

Shua --

The emissary was immediately pressed to the ground in front of the tunnel master.

It was only at this moment that he finally revealed his fear. shivering, he said, "Empress, spare me. Spare me."

Empress starry rain laughed angrily.

Why did he not shed tears until he saw the coffin?

This emissary was!

The gray-robed young man had already been captured, yet he still dared to flaunt his might in front of him and try to muddle through!

He really did not know what was good for him!

"Take him away!" Empress Starry Rain was extremely furious.

"Wait!" Su Yu intervened to stop her.

Empress Starry Rain's beautiful brows were similar. "Why? He's so audacious that he even dares to have designs on me!"

Su Yu said indifferently, "Let me ask you first. Can you contact the ruler?"

Empress starry rain nodded affirmatively. "Yes, we can have a direct conversation once a year."

"Alright!"

Only then did he look at the emissary. "I'll give you and your nine clans a chance to live."

He tried to lie on the ground and pleaded, "Please speak."

Su Yu waved his hand and recorded the projection.

Of course, the part of the emissary and the gray-robed youth's conspiracy was temporarily cut off and stored in Su Yu's palm.

As long as Empress Starrain used the yearly opportunity to send this projection over, the emissary and his nine clans would definitely suffer extermination.

"Send the projection of Emperor Shao Hao framing Empress Starrain to the ruler," Su Yu said calmly.

He could have directly destroyed the emissary and the gray-robed youth.

The reason he went through all this trouble was to give Shao Hao some trouble so that he wouldn't be too idle and keep targeting Empress Starrain.

"No! Shaohao will definitely kill me!" The emissary trembled.

He simply could not imagine what would happen if he reported Shaohao personally.

With Shaohao's blind character, he would definitely turn him into ashes.

"I can also wipe out all nine of your clans." Su Yu waved the memory projection in his hand.

The emissary's face was pale as he kowtowed continuously and begged for mercy. "Please, Your Majesty, Please, Young Master, spare me. I have a high court, but I have..."

Su Yu did not waver as he passed the projection to Empress Starry Rain. "Pass it on to your father."

When the emissary framed the Empress, why didn't he think about her future?

Without the position of empress, Empress Starry Rain would not be able to live for long.

Why did he ask others to think about his clansmen?

If he really cared about his clansmen, he should not have gotten himself involved in this mess.

He did not love his own people, but others to love?

There is no such reason in the world!

Chapter 2578 Contribution

Empress starry rain naturally understood this logic. Without any sympathy, she took out an incomparably exquisite mirror.

As long as she activated it, she would be able to connect to the ruler.

"Wait!" Seeing that begging for mercy was useless, the emissary trembled as he activated the Jade Seal of communication between himself and the ruler. He

sent the memories of the gray-robed youth over and reported truthfully that everything was Shao Hao's interference and request for the ruler to punish him severely.

When he was done, he lay helplessly on the ground, his heart filled with despair.

He knew that he was not far from death.

"Scram!" Su Yu said indifferently. It was better for such a person to live and die on his own.

Killing him would only dirty his hands.

As for the gray-robed young man, Su Yu said indifferently, "Since Shao Hao has placed this person in an important position, there must be many important things in his memories that can not be missed."

Empress Starry Rain understood and immediately ordered someone to bring him down to continue extracting his memories for investigation.

"In addition, it's time to clean up the traitors around you!" He swept his gaze across the ten Earth Dao Masters and said icily.

When Empress Starry Rain was attacked, the ten Earth Dao Masters actually did not appear!

What was even stranger was that the few Earth Dao Masters seemed to have entered an uninhabited realm and successfully barged into the Empress Hall without being stopped.

Were the ten Earth Dao Masters in front of them just for show?

A cold glint flashed in Empress Starry Rain's eyes. She naturally would not overlook this point.

As expected, after checking, there was indeed a problem.

The ten Earth Dao Masters had always been close to Empress Starry Rain.

The reason why they did not notice it at the first moment was because one of them had secretly used a special array formation.

That array formation was called silent!

It did not have any fluctuations or form. When it was used, no one would notice it.

Its effect was to block perception.

As a result, the empress of Star Rain, Su Yu, and the little qilin fought so fiercely with the attacker, but the latter was completely unaware.

And after searching, it was actually the work of one of the tunnel masters.

It turned out that he had long defected to Shaohao and was secretly working for Shaohao.

"Take him away!" Empress Xingyu was so angry that she was trembling, but more than that, she was terrified.

She unconsciously leaned closer to Su Yu and felt a little safer just now.

Even the guards who had been protecting her for many years had a mole in Shaohao.

Who else could be trusted?

Only Su Yu!

If Su Yu had not made a move, she would not have been able to escape this time.

Even if she was lucky enough to escape, with the mole, she would not be able to escape the next time.

Su Yu patted him on the shoulder. "I'm here."

In terms of domain, Su Yu might not be able to reach Shao Hao's level yet.

However, in terms of scheming, Shao Hao was far inferior to Su Yu.

"I have already made arrangements. Once the battle for the descendants of the ruler begins, he will definitely be the first to die," Su Yu said calmly.

Empress Starry Rain bit her red lips, feeling extremely grateful.

"Brother, what if one day, the battle for the descendants of the ruler is only between you and me?"

She looked deeply into Su Yu's eyes.

If that day really came, she did not know if she would be able to bear it.

Su Yu was secretly amused.

That day would never come.

Because, he was not a descendant of the ruler of time at all.

"If only one of us can live, I hope that that person is you," Su Yu said softly while stroking her head.

Empress Starry Rain was moved, and her tears fell like rain.

"Brother!" She was indescribably moved.

Moreover, a strange thought flashed through her mind.

If he wasn't her blood brother, how good would that be?

When she came back to her senses, she was shocked by her own thoughts.

"Why would I have such absurd thoughts?" Empress Starry Rain touched her cheek. "Have I been too busy recently, and my mind has become chaotic?"

Shaking her head, Empress Star Rain pulled Su Yu to the secret chamber.

She took out a map with all kinds of strange items marked on it.

Each item was extremely high-level.

Without exception, all of them were Heavenly Dao master-level items.

Among them, there were offensive items, defensive items, and support items.

There were all kinds of items, and everything was available.

Below each item, there was a number.

“What is this?” Su Yu asked.

Judging from the color of the map, it should be from some era.

“Every descendant of a ruler will receive a map when they are born.” A hint of bitterness appeared on Empress Starry Rain’s face. “This map depicts 7749 treasures personally refined by a ruler.”

“Let’s name the number below the treasure contribution points. As long as the descendant can make enough contribution points, they will be able to inform the ruler and the ruler will send someone to deliver a treasure.”

Su Yu pondered and said, “The treasure... is used to fight for the position of ruler?”

“Yes! When the battle for the position of ruler begins, you can exchange for the treasures in the Atlas! Every treasure inside is extremely powerful. If you can’t get it, then you have no chance of winning.”

Empress starry rain pointed at the last treasure with the lowest contribution points and said, “This is the child mother star pendant. Its power is comparable to the attack of a low-level Heavenly Dao Master!”

If even the lowest-level magical treasure was like this, one could imagine the power of a higher-level magical treasure.

Su Yu asked, “How many contribution points have you accumulated over the years?”

The mother-child Starfall required 300 contribution points.

Empress Starry Rain had operated the southern part of the nightmare boundary for many years. Her contribution points should be enough, right?

She smiled bitterly and placed three fingers deep within.

Combined with her expression, it was obvious that it was not 300 points.

“Thirty?” Su Yu’s heart sank.

Empress starry rain nodded. “Only thirty!”

“How many people don’t meet the requirement of three hundred?” Su Yu asked again.

Empress starry rain lowered her head and raised a finger guiltily.

“Ten?” Su Yu pondered slightly.

If that was the case, then it wasn't too bad.

There were at least ten people who couldn't even exchange for the lowest grade treasure.

"It's one." Empress Starrain's voice was like a mosquito, and even she herself couldn't hear what she said.

Su Yu was stunned on the spot.

One, then it had to be Empress Starrain!

All the descendants of a ruler had powerful magic treasures to exchange for.

Only Empress Starrain didn't!

Then what was there to fight for?

Just sit and wait for death!

"Can I choose another descendant of a ruler as a partner?" Su Yu said with a dark face.

Empress Starrain's face was burning hot, she said weakly, "I'm the youngest descendant. I've only been in charge of the southern part of the nightmare boundary for a short period of time. Naturally, I can't compare to my brothers. Moreover, my time bloodline hasn't awakened yet, so I can't accept many contribution quests, so..."

Su Yu had a helpless look on his face.

"Sigh! You really know how to find difficult problems for me!" Su Yu sighed. "Tell me, what channels can I obtain contribution points through?"

In the past hundred years, Queen Star Rain had only accumulated thirty contribution points!

It was extremely difficult to reach three hundred points in the twenty years before the competition began.

"Ahem. There are many channels. First, the nine nether crystals must be transported on time. The more crystals are transported, the higher the contribution points will be

"Secondly, the embryos sent by the sacred city must be refined in the time domain

"The second is to govern the territory and score them according to the situation."

There were three types of channels, but it was very difficult to get them.

Chapter 2579 Autumn Is Known By The Falling Leaves

For example, transporting the nether crystals.

In the past 100 years, Empress Starrain had transported the nether crystals no less than 10 times, using a total of 500 billion worth of nether crystals.

However, the contribution points she obtained were only 30 points!

Each time, she could only obtain a maximum of three contribution points.

Su Yu did have some nether crystals on him, but they were far from being worth 500 billion.

Moreover, even if he had that many, he could only exchange them for 30 points. Including what Empress Starry Rain had, he only had 60 points.

Therefore, it was almost impossible to rely on the nether crystals to obtain contribution points in a short period of time.

However, it was still feasible to use the time domain to refine some magic treasure embryos.

As for governing the territory, Su Yu also had some clues.

“There are still many ways, aren’t there?” Empress starry rain blinked her eyes and said guiltily.

Su Yu laughed angrily. “Yes, there are so many ways. You can only get thirty contribution points in a hundred years!”

“Ahem, there’s a reason for that.” Empress starry rain coughed dryly.

At this point, Su Yu couldn’t blame anyone.

“Tell me first. What is the magic treasure embryo that the ruler had your descendants refine with the time domain?”

Empress Starry Rain immediately carefully took out a spatial storage device.

After opening it, a rather large platform appeared before her eyes.

“Nightmare Ferrying Lotus seat?” Su Yu recognized it at a glance and was slightly taken aback.

That huge platform was the embryonic form of the nightmare ferrying Lotus seat.

“You know it?” Empress starry rain was instead surprised.

This item wasn’t common.

In fact, it was extremely rare.

“Is there a method to refine this item?” Su Yu’s eyes flashed as he asked.

Not only did he recognize it, he also had the nightmare ferrying Lotus seat on him.

However, due to the lack of maintenance, the nightmare ferrying Lotus seat had already lost its use.

And he had no way to repair it.

“Of course there is.” Empress starry rain took out a book.

Su Yu’s heart palpitated. If he could master the refining method, wouldn’t he be able to successfully repair a nightmare ferrying lotus seat?

If there was a day in the future when the era of destruction could not be stopped.

At least he had a way out.

“Only this much?” Su Yu flipped open the scroll. With his current comprehension ability, he should be able to comprehend it soon.

Empress Starry Rain rolled her eyes at him. “You’re thinking too much. The Nightmare Lotus throne is so easy to forge. Is there a need for the entire world to exchange for it so desperately?”

“The book in your hand is only one of the catalogues.”

Su Yu was stunned.

One of the... catalogues?

“There are a total of 3,000 books in the catalog! One catalog records 10 million books. You can calculate the total number yourself.”

Su Yu was stunned.

There were 3,000 books in the catalog?

The total number of books should not be less than 30 billion books.

If he wanted to understand every single one of them thoroughly, he would need at least 10 days, right?

Wouldn’t it take 300 billion days to understand 30 billion books?

In other words, it would take him close to a billion years!

Su Yu’s time domain could speed up time by a thousand times after reaching the intermediate level.

Even so, it would still take him a million years.

Obviously, he didn’t have such a long time.

Unless one day, he could break through to the Yuan level.

If he slowed time to the limit, he might be able to read all the books.

“Then there’s only one way.” Su Yu said, “If you capture an elder of the demon gate as a contribution, how much can you get?”

Empress starry rain smiled bitterly. “An elder of the demon gate? That’s even harder than digging the nine Nether Crystal Mine!”

“The editor of the Demon Gate, Dreambreak realm. When did you hear that an elder of the demon gate was captured?” Empress Starry Rain did not have any hope.

The Devil sect was secretive and cautious.

The elders of the Devil sect were even more unpredictable. It was impossible to figure out their whereabouts.

It was really impossible to capture an elder of the Devil sect.

“Answer my question.” Su Yu glared at her.

Empress Starry Rain was stunned. Could it be that Su Yu could really capture an elder of the Devil sect.

“An elder of the devil sect can be exchanged for at least 500 contribution points.”

Five Hundred?

“How can it be so high?” Su Yu was surprised.

Could the value of a demon sect elder be higher than a full five hundred billion Netherworld Crystals?

Empress Star Rain was very certain. “It’s five hundred! The ruler himself said it! As for the reason, I think it has something to do with the origin of the demon sect.”

Although she hadn’t been empress for long, her status was so high that she had access to information that ordinary people couldn’t.

“As far as I know, the birth of the demon gate is very likely related to ancient god Nine Netherworld.”

Su Yu’s heart moved slightly.

“Although Ancient God Nine Netherworld perished back then, he still had four extremely powerful protectors known as the four phases of nine Netherworld! The founder of the demon gate is very likely one of the four phases.”

The founder of the demon gate was a sacred demon.

Even the descendants of the demon gate did not know how old he was, and his strength was unknown.

It was possible that it was one of the four phases.

For some reason, Su Yu suddenly thought of the baby cut out of the nine Nether Crystal -- Chu!

He had successfully transformed into a youth in the ancient divine realm of the nine nether realm through the sacrificial altar.

He called himself Chu!

Could it be that he was also one of the four phases of the nine nether realm?

Apart from that, there were two other phases.

Who were they?

“Rulers want to obtain everything about ancient god Nine Nether, so capturing the four phases of the nine nether realm is especially important,” Empress Star Rain said solemnly. “And capturing an elder of the demon sect with a high status will give us hope of finding the ancestor of the demon sect.”

Thus, her contribution to capturing the elder of the demon sect was astonishingly high.

“Star Rain, follow my instructions and immediately start making arrangements.” Su Yu became even more determined to capture elder howling demon.

But just as Empress Star Rain had said, the elder of the demon sect was not easy to capture.

Although elder Howling Demon was greedy, it could be seen from the way he delivered the letter that he was extremely cautious.

The slightest carelessness could cause him to flee.

“Alright, Big Brother said...”

After hearing this, Empress Starry Rain’s eyes sparkled. “You’ve been to the Devil Sect?”

Her face was filled with disbelief.

The Devil sect was such a mysterious place, yet Su Yu could actually make a trip there!

“Follow my plan. There’s only one chance. If you fail, it’s probably impossible to find a second chance to capture an elder of the Devil Sect.”

Empress Starry Rain agreed. She stood up and said, “Brother, you take charge of the residence and take charge of it for me. I will personally arrange it.”

Many arrangements took up a lot of time and energy.

This trip might take a few months.

“Go,” Su Yu said.

He needed to seriously think about the eight domains.

Ever since his domain had been upgraded to the intermediate level, he could only fuse it into a lotus flower.

However, the true intermediate level domain’s power shouldn’t be limited to this.

He sat cross-legged in the Empress Palace, quietly comprehending.

The profound mysteries of the eight great domains continuously flowed in his mind.

Several days passed, and Su Yu only managed to grasp a thread of inspiration.

“The path of the eight great domains is too lonely. I don’t even have someone to guide me.” Su Yu felt slightly regretful.

Ever since he obtained the nine dragons divine cauldron, no one had guided him in the eight laws and domains.

Thus, it was difficult for him to take even a step forward.

At this moment, a strange voice suddenly appeared in his mind.

“The leaves fall and the autumn is known. All laws are connected.”

“Who is it!” Su Yu stood up abruptly, his heart pounding.

That voice appeared in his mind once again, “Hehehe... have you forgotten me so quickly?”

Su Yu’s hands were like lightning as he took out a ball of liquid from his spatial storage device.

This liquid was formed when he broke through the eight great domains and everything on his body was burned by the DAO fire.

This included the bronze plate that contained the son of Heaven’s aura-gazing technique.

Within it resided a profound void master.

He called himself... The Sovereign of the soul!

“What a surprise. Even the bronze plate has melted, but you’re still alive.” Su Yu’s face sank.

In the past, it was fine if he didn’t know of the relationship between ancient god Nine Dragons and the eight sovereigns.

But now that he knew, how could he have a calm conversation with an old man who was the sovereign of the soul?

“The soul is shapeless and the ruler is shadowless. I have never perished. I have always been by your side.”

The voice of the soul ruler sounded a little tired.

Su Yu’s eyes were cold. “Then, why did you come out now?”

“To guide you, of course. To prevent you from dying in the battle between the descendants of the time ruler.” The soul ruler sighed.

Su Yu didn’t say anything.

He didn’t think that the soul ruler had any ill intentions.

Because a long time ago, the soul ruler had guided him in the Dao of the soul.

And he had even personally acted to force his enemy back and save him from danger.

“Can you tell me why, as a ruler, you want to be friendly with the descendant of an enemy?” Su Yu asked indifferently.

The soul ruler replied, “There are also light and heavy grudges! Compared to snatching away the position of ruler, what’s a bit of good fortune that ancient god Nine Dragons took from me?”

Su Yu’s heart was as clear as a mirror.

The soul ruler had been forced to hide within the bronze plate because he must have encountered a great calamity.

“I can give you some pointers and even help you at critical moments, but I hope that when you have the ability, you can make a trip to the soul realm.”

Su Yu thought for a moment. “You want me to take revenge for you?”

The soul ruler shook his head. “With your strength, you still can’t do that. The strength of a ruler is not something you can contend against. Only if you can be like ancient god nine dragons and cultivate all of your domains to the high-level can you have the strength to fight against a ruler.”

“All you need to do is take me to a special place in the soul domain, and I’ll have a way to take revenge.”

Just leading the way would be much easier.

“Sure,” Su Yu agreed.

Swish --

An invisible wisp of soul energy suddenly appeared in front of Su Yu’s forehead.

Only those with soul domains could see that it was an armor.

“This is the soul emperor robe I used back then. As long as you put it on your soul, other than the soul ruler personally coming, no one else can harm your soul,” the soul ruler said.

Su Yu’s pupils constricted.

This was a soul-protecting magic treasure that only a sovereign could break!

“What’s the downside?” Su Yu naturally didn’t believe that the sovereign of the soul would give him such an important item so easily.

“The downside is that if you can’t fulfill your promise, this soul emperor robe will be your life-hastening talisman.”

As expected!

Su Yu weighed the pros and cons, grabbed the soul energy, and pressed it into his forehead.

Instantly, Su Yu felt that his soul was safer than ever.

It was as if he was in an extremely powerful fortress.

“If I have the ability, I will definitely bring you there.”

The Master of the soul nodded.

Chi --

Su Yu suddenly felt that the environment around him had changed. He had fallen into a huge illusion for no reason.

The scene in the illusion was not somewhere else. It was the Great Void Mystic Cave inside the bronze plate!

“Isn’t this the cave abode world?” Su Yu had always thought that the great void Mystic Cave was just a cave abode world hidden inside the bronze board.

Swoosh --

A figure with his back facing him appeared in front of him.

His long robe fluttered in the wind.

His messy long hair was casually draped over his shoulders.

His entire body exuded an unfathomable and mysterious aura.

“Of course not! This has always been an illusion created by me. If there is a cave abode world inside the bronze board, how could it hide from your master Yun Yazi?”

Yun Yazi had controlled the bronze board for many years. With his mysteriousness and power, how could he not know that there was an immortal’s Cave World Inside the bronze board?

Clearly, it wasn’t that he hadn’t discovered it, but that the immortal’s Cave World didn’t exist.

The reason why Su Yu had discovered it was because the soul ruler had casually created this illusion, causing him to mistakenly think that he had entered it.

What he saw was still that familiar ruin.

The thick absolute beginning Qi filled his vision with desolation.

“Do you know what’s at the end of the Soul Realm?”The Soul Dominator asked leisurely with his back facing Su Yu.

Su Yu pondered and shook his head slightly.

Many answers appeared in his mind, but he believed that they were not the real answers.

“A thought can create yin and yang!”

“What do you mean?”

“To put it simply, what you wish for will come true!”The soul dominator said,
“Whatever you wish for, you can materialize it.”

Hearing that, Su Yu was shocked.

That’s right!

If the Great Void Mystic Cave was an illusion, then why was the absolute beginning Qi Su Yu brought out here real?

The reason was that the Soul Dominator had reached the stage where he could materialize the real thing with just one thought.

He could materialize the things he imagined into real things!

“Although you’ve comprehended the time domain, you still completed it with the help of the divine throne of Heaven and earth. You haven’t experienced many things of a deeper level.”

The sovereign of soul waved his hand forward, and thousands of soldiers and horses suddenly appeared.

Those were all incomparably powerful existences. They surged forward like a flood, giving Su Yu a sense of extreme danger.

“In the next few days, you shall train here. Remember, use your heart to comprehend the true essence of the soul.”

After saying that, the sovereign of soul directly disappeared!

Su Yu faced thousands of soldiers and horses alone, and immediately circulated the profound dao energy in his body.

However, in the illusion, his profound dao energy was difficult to circulate and his movements became particularly clumsy.

His battle strength was compressed to only one level.

When the army charged over, Su Yu barely resisted, but he was quickly swallowed by the army.

Wounds appeared on his body one after another.

Seeing that he was about to be killed alive, Su Yu shouted and tried to use his soul to transform into a corporeal armor.

But he didn't succeed.

A bone-piercing coldness pierced through his heart and caused him to die miserably.

In the intense pain, Su Yu's vision turned black!

He didn't know when, but he felt a chill in his heart, and the pain disappeared.

He suddenly realized that he was still standing in the same place.

And the Soul Dominator was still standing in front of him with his back to him, as if nothing had happened.

“Continue!”The Soul Dominator moved away.

The Army appeared once again!

Su Yu gritted his teeth. In this life-and-death crisis, he kept trying to use his soul domain to materialize the things he had imagined.

However, the result was a series of crushing defeats.

Every crushing defeat meant death.

Every death was an endless pain.

However, Su Yu gritted his teeth and kept insisting, “I can do it! Soul Domain, Soul Domain...”

After repeated failures and heart-wrenching pain, Su Yu finally felt a glimmer of inspiration.

It was as if someone who had been walking in a maze for a long time had finally found an exit.

His heart was suddenly enlightened!
