

Nine-Dragon 2631

Chapter 2631 Essence Of Time

Sou --

The blood-red sword shadow instantly penetrated Su Yu's body.

During this period, Su Yu did not resist at all and was killed just like that!

However, before this person could even speak out in joy, his expression turned stiff once again.

This was because after Su Yu was killed, he actually turned into rays of light and dispersed.

"Phantom? No, it's not a phantom!" Red Snow Sword said in disbelief.

He could confirm that the one who was killed just now was not a phantom, but a real existence.

While he was still in shock, he suddenly felt a terrifying aura of death coming from behind him.

He turned his head and saw that it was Su Yu!

He slapped his back.

Hong Xue Jian was first shocked, then he calmed down.

A mere nirvana stage existence dared to challenge him?

"You overestimate yourself!" Hongxue Jian turned around and swung his sword.

The two palms collided. What shocked Hongxue Jian was that the other party's Xuan Dao power was not inferior to his at all.

In fact, it was even slightly stronger than his own.

Ruff, ruff, ruff --

Hongxue Jian was pushed back by the attack. Without thinking, he swung his blood sword.

Just as he was about to attack, Hongxue Jian's body suddenly froze there, unable to move.

His body began to split into particles the size of dust from the center of his palm at a speed visible to the naked eye.

It turned out that Su Yu's palm just now was not some ordinary palm force, but a palm that contained a spatial domain.

After that strand of spatial domain entered his body, it disintegrated his body from the inside out into countless particles.

"Ah!" The latter let out a blood-curdling scream as he tried to activate the Sky Luo Ring he had just obtained.

Yanran was quick. She used her spatial domain to teleport over and grab the sky Luo Ring.

Even the Sky Luo Ring was gone. The red snow sword no longer had anything to rely on. It cried out miserably, "Stop! Quickly stop! I have important information for you, the ruler's representative of the Dream Destroyer Realm."

Su Yu pondered for a moment. With a wave of his hand, the spatial domains began to stop.

With just a thought, he could start again.

"Don't try to deceive me. Otherwise, you don't want to see what will happen to you," Su Yu said calmly.

He somewhat believed the words of the Red Snow Sword.

This was because the domain representatives of the Awoken World and the Netherworld had gathered at the same time to pick up the ruler's magic treasure.

There must be some information that the dreambreak realm had yet to grasp.

The red snow sword was restricted by Su Yu, so it naturally did not dare to act rashly. It said, "The ruler is seriously ill. In the time wilderness, there might be the essence of time that the ruler dripped down!"

Su Yu had yet to understand what the essence of time was, Yanran had already exclaimed, "Impossible! The essence is the lifeline of the ruler. Only before the ruler dies would there be the possibility of the essence being lost. The ruler of Time's body should still be healthy. How could he be facing death?"

This news was truly a huge piece of news.

The ruler of time was about to die?

"I'm not lying to you! The two most powerful princes and princesses of the Heaven Awakening Realm and the Netherworld have jointly asked the ruler of fate to divine that the ruler of time is really seriously ill. I'm guessing that it's very likely that his injuries from back then exploded."

Su Yu's eyes flickered, and he believed most of what she said.

That was because the ruler of time would rather give the order to search the entire city for Qin Xian 'er than show up personally when he captured her last night.

If he showed up, he would be able to find Qin Xian 'er with just a thought.

The reason why he didn't show up was intriguing.

The explanation right now explained everything.

However, Su Yu didn't dare to relax at all.

The other party was only seriously ill, not really dead.

The decree did not even have the will of the ruler of time. It was just that terrifying.

Even if the ruler of time was about to die, a single thought could destroy the world.

"Where is the essence of time?" Yanran's eyes were burning with fervor.

That was something even more tempting than a ruler-level magic treasure.

Redsnow sword looked at Su Yu and said, "As long as you promise not to kill me, I can lead the way for you."

Su Yu thought for a moment and prepared to perform a soul search on him.

Red snow sword said, "Don't try to perform a soul search on me. I have already placed a talisman in my soul. Once someone forcefully performs a soul search on me, my soul will destroy itself. At that time, no one will tell you the whereabouts of the essence of time."

He was still very cautious and careful in his actions.

Su Yu thought for a moment and nodded slowly. "Alright, I can promise you."

Only then did red snow sword feel at ease.

He looked around and said, "Follow me."

Su Yu took out his flying magic treasure and swept everyone up.

Red Snow Sword personally controlled and led the way. Su Yu finally had a chance to comfort Luo xueyi.

At this moment, Luo Xueyi was abnormally weak.

However, her tired eyes were staring at Su Yu without blinking.

Su Yu looked into her eyes and said apologetically, "Sorry, I'm late."

Luo xueyi's eyes were slightly red as she sat in her dharma treasure and cried silently.

Su Yu felt deeply apologetic.

She had protected Qin Xian 'er and Su Cai 'er until now, and in the end, she was captured by the time ruler because of them.

Fortunately, the ruler of time was currently in a serious condition and had not interrogated Luo xueyi.

Otherwise, she would have suffered even more unimaginable injuries.

"It's alright." Su Yu gently patted her shoulder. "I will definitely bring you out."

Perhaps it was these words that crushed the last bit of strength in her heart. Finally, she could not help but lean on Su Yu's shoulder and cry loudly.

At this moment, she let out all the sorrow she had felt for so many years.

Su Yu was speechless. She silently instilled the power of the profound dao into her, helping her recover from her injuries.

Suddenly, Su Yu unintentionally sensed that there was actually a consciousness in Luo Xueyi's body that was slowly awakening.

"It's You?" How could Su Yu forget that mysterious Red Dust sect master?

After that consciousness awakened, it directly entered Su Yu's soul.

In Su Yu's soul, there was a woman dressed in redwood with a hint of sadness sitting diagonally on a willow tree.

Her pretty eyes stared at Su Yu and she smiled lightly. "Long time no see, Su Yu."

Su Yu's expression was complicated as she said, "Thank you for protecting Luo Xueyi."

Without her secretly making a move, Luo xueyi would have already died in the lava pool.

"Hehe, I once said that I would help Luo xueyi obtain your heart. Do you still remember?"Red dust sect master said meaningfully.

Of course, Su Yu remembered.

As they were parting in Taotie's belly, Daoist master red dust took Luo Xueyi's body and fled into the galaxy.

He swore that one day, Luo xueyi would get Su Yu's heart.

"It's already impossible,"Su Yu said indifferently.

He already had Xian 'er and the child between them. It was impossible for him to entrust his heart to another woman.

"Hehe, is that so? I think it's still possible."Red dust path master smiled mysteriously.

Su Yu frowned.

How could he be so sure?

"You'll understand soon."Red dust path master smiled faintly and withdrew from Su Yu's soul.

Su Yu opened his eyes. What entered his sight was Luo Xueyi's puzzled gaze.

"Su Yu, what happened to you just now?"Luo xueyi asked curiously.

No matter how he called out to Su Yu just now, he couldn't hear it.

"Oh, it's nothing,"Su Yu said. However, his heart was filled with the words that Daoist master Hong Chen had said for a long time.

Would he give his heart to Luo Xueyi?

Or did this heart mean something else?

His liver had exploded until now. It was the tenth watch. He would continue to explode his liver at five o'clock tomorrow morning. He would try to explode the rest tomorrow. If he wanted to scold her, he could scold her. He didn't want to involve his family.

Chapter 2632 Hair Of The Ruler (11th Watch)

Looking at the endless wilderness of time, Su Yu slowly pondered.

How could he leave with Luo xueyi.

The clay figurine on the small boat was a puppet of the ruler of time. If he rode on the small boat, would the ruler of time notice through the clay figurine?

Or was he going to cross the river?

"Senior, if you can help me get the essence of time, I have a way to send your friend out."Yanran gritted her teeth and went all out in order to fight.

She took out a necklace from her collar.

There were 81 round pearls on the necklace.

Each of them was full, and there was a heavenly script carved on them.

"It's a life-saving item given to me by the ruler of space," Yanran said. "If I activate all eighty-one beads, I might be able to activate the ruler of Space's domain. Perhaps I'll be able to break through the time wilderness in one step."

"If the ruler of time finds out about us, I can activate this item and take you with me," Yanran said.

Originally, Yanran hadn't planned to take it out.

However, the ruler of time would easily find out that she was going to retrieve the essence of time.

If necessary, she had to use this item.

When she was free, she could also take Su Yu and the others with her. Of course, she had to give this favor away. She could even gain Su Yu's help.

"Okay, but tell me first, what is the essence of time?" Su Yu asked.

Yanran didn't hesitate to be discovered by the ruler of time. It must be something special to obtain something.

She pursed her lips and pondered for a moment before saying, "There is only one use of the essence of time, which is to accelerate the evolution of the time domain."

Hearing this, Su Yu's eyes flashed slightly.

It was within his expectations!

He also wanted to obtain this item.

If he could raise the time domain to a higher level, his strength would definitely increase greatly.

"Sure," Su Yu agreed.

Yanran let out a sigh of relief. After thinking for a moment, she spread out her palm and handed over the Tianluo Ring, which was ranked second, reluctantly. "Return it to senior."

It was Su Yu who had defeated the redsnow sword just now. Naturally, he should be in charge of this item.

It was Su Yu's duty to not allow him to receive it.

Glancing at the nonchalant redsnow sword, he swiped his spatial domain with his fingertip and opened the spatial storage that the redsnow sword had hidden in his bosom.

He took out all of the items within.

The redsnow sword's face turned bitter. He had originally thought that Su Yu had ignored it.

"Ten?" Yanran was surprised. There were a total of ten hegemonic magic treasures within.

All of them had been found by the redsnow sword alone.

Su Yu casually grabbed half of them and handed the other half to Yanran. The latter beamed.

"Thank you, senior."

Now, of the forty-nine hegemonic magic treasures, thirty had fallen into the hands of the two of them.

The other nineteen should have been in the hands of the premeditated golden-eyed prince-in-law and Biyun Hong Xian.

"Senior..."Yanran wanted to say something but hesitated. "Why don't you come with me and help Shao Hao ascend to the position of ruler?"

If that was the case, Shaohao alone would be able to control all of the ruler-level magic treasures.

Perhaps there was still a descendant of the ruler who could contend against him?

"We'll see,"Su Yu said calmly.

As the two conversed, the redsnow sword suddenly stopped the small boat and used a voice transmission to remind them, "Look ahead."

Su Yu and the others swept forward.

They saw that in the plains of the wilderness of time ahead, an enormous sinkhole had appeared for no reason.

It was as if a meteorite had fallen and smashed out.

Crystal-colored flames were spreading inside the sinkhole.

At the bottom, there was a teardrop-like crystal-like liquid droplet lying there quietly.

The red snow sword was excited. "As the rumors say, the ruler of time is seriously ill and the essence of time in his body has begun to wither."

Yanran grabbed at the air and used the power of the Xuan Dao to capture that drop of essence of time.

But the strange thing was that the time essence seemed to be in another space-time.

It was right in front of her, but Yanran couldn't catch it no matter what.

"Damn it!"Yanran tried many times, but failed. She was a bit anxious.

If she stayed here for a while longer, she would be more dangerous to the ruler of time.

"Let me do it."Su Yu stood on the small boat, staring at the sinkhole quietly.

From his point of view, the flames in the sinkhole emitted a power that interfered with time.

It caused time to move forward, reverse, and freeze.

Yanran didn't understand the time domain, so she naturally couldn't avoid the interference.

He extended his palm and a time domain was slowly activated.

Freeze!

Time in all directions, including the small boat, was also frozen in time.

His time domain was stronger than the time power of the flames.

Therefore, it was very easy to suppress it.

Thus, Su Yu didn't have any obstacles. He raised his hand and the drop of time essence flew back to his palm.

Just as Su Yu was about to size it up, another drop of time essence suddenly appeared at the bottom of the crater.

"Eh?" Su Yu looked at Yanran and the others who were frozen in time and flew to the bottom of the crater.

He took out the second drop of essence of time.

In the end, the third drop of essence of time appeared from the same spot.

It was as if there was a spring in the ground, and the essence of time kept pouring out.

Su Yu's eyes flashed, and he stomped on the ground, shattering the Earth.

In a crack, he could clearly see a long, broken hair buried in the ground.

The essence of time kept coming out from the long hair.

"This is the hair of the ruler of time?" Su Yu was shocked.

Seeing that the time freeze was about to end, he hid the hair and the two additional drops of essence of time.

Then, he returned to the small flying boat as if nothing had happened and maintained the posture of collecting the essence of time.

At this very moment, the time freeze ended.

Yanran only felt that Su Yu in front of her seemed to shake a little and saw the essence of time in his palm.

"Fortunately, I didn't fail. I got it." Su Yu handed the essence of time to her.

The latter was pleasantly surprised, and the doubt in her heart was washed away.

In any case, she had the essence of time, so why bother with it?

"Okay, let's go." After Yanran got the essence of time, she naturally didn't dare to stay any longer and said hurriedly.

"Let's go back to the clay figurine boat first. If the hegemon can sense that snowfall clothes has been taken away, then I can use the hegemon of Space's magic treasure."

Su Yu naturally had no objections.

A drop of the essence of time in exchange for Yanran using the ruler of Space's magic treasure was a big win for him.

However, the flying boat had just turned around.

The sky above their heads suddenly turned fiery red.

The sky was like a pool of red-hot molten iron that poured down in torrents.

An attack from the time wilderness!

They had touched something they shouldn't have touched and alarmed the ruler of time!

Yanran's face turned pale.

In a moment of helplessness, she crushed her own space ruler magic treasure.

Immediately, all eighty-one round pearls exploded. Eighty-one heavenly book characters gathered together and condensed into a pair of giant hands made of characters.

The giant hands flew up into the sky and grabbed the sky, then forcefully split it apart.

Crack --

A crack was torn through the sky.

Waves of familiar presences from the world outside surged in madly.

The semi-true world that controlled time had really been broken through!

Chapter 2633 The Mysterious Old Man

How could Su Yu and the others dare to hesitate?

The group of people immediately rushed out.

Yanran and Su Yu reacted the fastest. They activated their space domains at the same time and instantly passed through the crack.

Red Snow sword was slightly late.

When he arrived before the crack and was about to crawl through it,.

The Sun above the sky suddenly turned into an ice-cold and heartless eye.

"Who dares to be so impudent in the half true world?"As soon as he said those words, thunder rumbled in the world.

The palms formed by the 81 words were immediately shattered into sparks.

The cracks that appeared immediately closed.

"No!"Red Snow sword shouted and charged forward.

Unfortunately, he still failed.

However, red snow sword was not worried that he would be trapped in the wilderness of time forever. Instead, he was worried that he would have to face that eye.

That was the will of the ruler of time!

"Ruler! I am the representative of the Brahma Heavenly Emperor of the Heaven Awakening Realm, and I am here to exchange for a ruler-level magic treasure. Please let me go, ruler."The Red Snow Sword said fearfully.

That eye slowly closed and turned into a sun once more.

From the beginning to the end, he did not even look at the Red Snow Sword.

It was as if in his heart, the Red Snow sword was just an ant.

Redsnow sword was drenched in sweat.

The ruler did not say a single word. He did not even look at himself, but it still gave him the illusion that he was walking on the edge of destruction.

Fortunately, the ruler of time did not care about him at all.

That was why he was lucky enough to survive.

He wiped the cold sweat off his body and prepared to return to the river of time and take a small boat back.

However, just as he was about to leave, a soft sigh echoed in the world.

"The monkeys scatter when the trees fall. I'm not dead yet, yet you still dare to think about my essence of time?"

That voice came from nowhere and swept through the world. It could be heard in any corner.

The red snow sword listened.

He slowly closed his eyes. The life force and soul in his body suddenly disappeared like a candle being extinguished.

His body also turned into sparks and disappeared in the air.

A sigh could kill someone thousands of miles away!

Su Yu, Yanran, and Luo xueyi finally escaped the crack.

They found themselves in the sky above the sacred city.

The entrance of the Hall of gods was not far from them.

They did not dare to hesitate and were about to leave.

But a sigh came faintly.

Yanran screamed in pain and her entire body could not help but tremble.

Her soul and life were decreasing at a speed visible to the naked eye.

Su Yu was the same. He felt as if his life was being blown by a strong wind.

Fortunately, the sound was extremely weak and almost undetectable.

They were only in pain for a short while.

Yanran's face was pale and there was lingering fear on her face.

Without a doubt, that faint sigh was perhaps the ruler of time.

Fortunately, she decisively activated her magic treasure and left the time wilderness.

Otherwise, if she faced the ruler's sigh directly, the consequences would be unimaginable.

Su Yu suppressed his emotions and said, "Let's return to the Upper Palace."

The three of them returned.

The two of them tacitly understood and did not mention the situation in the time wilderness to the other descendants of the ruler.

Only they themselves knew that they had many dharma treasures.

In the guest room.

Qin Xian 'er and Luo xueyi hugged and wept.

"I'm sorry, Sister Xueyi. I've made you suffer so much." Qin Xian 'er felt really guilty and didn't know how to make it up to Luo xueyi.

Su Cai'er, on the other hand, was grinning from ear to ear. Her small face was filled with surprise and joy.

The gaze she looked at Su Yu with once again became more gentle and less cold.

Luo xueyi and the mother-daughter pair could not be more familiar with each other. She poked Su Cai'er's nose jokingly. "If you want to repay Auntie, then be my daughter."

"Okay, Hehe!" Su Cai'er threw herself into her arms with a smile on her face.

"By the way, how long will I be away?" Su Yu asked.

Qin Xian 'er said, "Just one night."

Just one night?

He had waited for half a month in the hall of gods, and he had spent a lot of time in the time wilderness.

However, time was frozen in the time wilderness.

That was why there was only one night left for Su Yu to leave.

"Brother Yu, why do you ask?" Qin Xian 'er asked.

Su Yu thought for a while and said, "I think the time ruler might not be able to make it."

The Time Crystal of the transfer order, the falling hair...

And the upcoming battle for the ruler of time.

All of this meant that the ruler of time was about to fall.

But why was the ruler of time injured?

After killing ancient God Nine Netherworld, the ruler of time shouldn't have fought against any experts. Where did his injuries come from?

"I think that the time wilderness was prepared by the ruler of time to slow down his injuries," Su Yu said.

Only in that frozen time domain would the injuries on his body be frozen.

"OH." Qin Xian 'er said expressionlessly, "Since that's the case, the ruler of time shouldn't leave the time wilderness so easily."

Su Yu was quite certain of this.

"For the next half a year, everyone can stay here and cultivate quietly," Su Yu said.

He wanted to wait for the ninth month of the ninth month, the day when the ancient Devil Gate Tomb would appear.

After settling them down, Su Yu went to the secret room alone.

He took out the hair of the ruler of time.

After a period of time, another three drops of the essence of time dripped from the hair.

Including the original two drops, there was a total of five drops of the essence of time.

Su Yu narrowed his eyes and tried to force more of the essence of time from the hair.

However, no method worked.

It seemed like he could only wait for it to drip out passively.

Just as he was thinking of other methods, a hoarse voice slowly sounded, "Don't waste your energy. You Can't do anything to the hair of the ruler of time."

The air trembled slightly, and a strange old man suddenly appeared in front of Su Yu.

His white hair almost reached his waist, giving off an incomparably messy feeling.

His eyes were also closed.

It was this kind of old man who ignored the restriction outside the secret room and directly appeared in front of Su Yu.

The old man leaned on his walking stick and stood quietly in front of Su Yu.

However, Su Yu's expression was very calm, not at all surprised by the appearance of the old man.

"Oh? It seems like you knew that I would appear? You even know who I am?" The long-haired old man smiled indifferently.

Su Yu shook his head. "Those who do good deeds without leaving a name are only a minority. Senior is clearly not one of them."

Initially, when he went through the giant mouth's test.

He was supposed to be detected in the eight domains, but the strange thing was that the giant mouth did not notice it at all.

It was the same for both tests!

At that time, Su Yu knew that there was an invisible expert helping him in the dark.

Otherwise, he would have been exposed long ago.

Therefore, Su Yu was already mentally prepared. This expert might come looking for him.

The other party must have a reason for helping him.

"Hehe, you are indeed smart. No wonder you were able to come out of the time wilderness alive." The long-haired elder laughed hoarsely.

Su Yu said calmly, "The things I brought back from the time wilderness should be half of what senior brought back. Or, you can tell me what you want."

The long-haired elder praised, "Talking to smart people is relaxing."

Chapter 2634 Future Incarnation

He looked at the hair in Su Yu's hand and then at Su Yu's spatial storage device.

He knew everything that Su Yu had obtained.

However, he wanted everything.

"What I want is a favor from you."

Su Yu said indifferently, "Senior's abilities are more than a hundred times better than mine. Why should you owe me a favor?"

He originally thought that the old man helped him because he wanted to obtain something in the time wilderness.

However, it was not the case.

"There's something that I can't do. I need you to do it." The old man slowly took out a wooden box.

"I hope that you can bring the wooden box to someone."

Su Yu's eyes flashed. "Who?"

The old man chuckled. "When master appears, the wooden box will automatically react. You only need to carry it with you."

Su Yu pondered for a moment before accepting the wooden box.

"As a token of appreciation, I can help you a little." The old man's finger gently stroked the hair.

The black hair turned transparent.

The inside was visible to the naked eye. It was full of drops of time essence.

There were as many as white drops.

"The hair, I have already helped you refine it. When the wooden box is handed over to master, the time essence in the hair will automatically flow out."

In other words, after Su Yu completed his mission, he would only hand over a hundred drops of the essence of time to Su Yu.

After saying this, the old man smiled. "I wish you good luck."

After he left, Su Yu fumbled around with the wooden box in his palm.

"What makes him think that I will definitely meet the person he is waiting for?" Su Yu's eyes were filled with suspicion.

This old man's strength was too mysterious.

The things he had given out were similarly puzzling.

He thought for a moment and tried to open the wooden box.

According to what he thought, there must be a powerful restriction inside the wooden box, so it should be very difficult to open it.

Who knew that with a light flick of Su Yu's finger, the wooden box would open!

UH --

Su Yu was stunned. He immediately looked into the wooden box, but there was nothing inside.

After thinking for a moment, Su Yu tried to examine the wooden box itself.

It was made of precious divine wood.

But it was not considered rare.

The key point of the mysterious old man was definitely not the wooden box.

Su Yu could not figure it out for a moment. It was somewhat unbelievable.

Why did the old man say that the wooden box would react when it met the person it was supposed to give it to?

With some confusion, Su Yu kept the wooden box properly.

For the 100 essence of time in the hair, just giving a wooden box was not a problem.

He couldn't count on the time essence in his hair for the time being.

But there were still five drops of time essence!

With a thought, the five drops of time essence were arranged in the air.

Su Yu's soul entered the first drop of time essence.

Instantly, an extremely profound sense of time entered his soul.

After a while, Su Yu slowly opened his eyes. His eyes were filled with shock.

"As expected of the ruler of time. His comprehension of the time domain is indeed extraordinary!" Su Yu couldn't help but praise.

He originally thought that his time domain wasn't bad.

However, after seeing these insights, he realized that his understanding of the time domain had only scratched the surface.

"Time crystal!" He grabbed at the air with his palm.

A wave of eternal time in the world was grabbed by Su Yu's palm.

With a clench of his five fingers, time actually condensed into a crystal.

Su Yu was not unfamiliar with this kind of crystal.

"Time crystal!" Su Yu's pupils constricted slightly.

So this was how the time crystal came about.

With a casual grab of the time ruler, he could condense the time in the world into a crystal.

Probably, in this world, besides the time ruler, Su Yu was the second person who could create a time crystal.

Staring at the remaining essence of time, Su Yu immediately closed his eyes and immersed himself in it, continuing to comprehend.

Time slowly passed.

Half a year later.

The cultivation room where Su Yu was in was already filled with the time crystals coveted by outsiders.

There were no less than three hundred million of them!

However, half a year of comprehension was not the most important thing.

What was important was..

Su Yu's finger lightly tapped in front of him, and a figure flashed out.

It was a human figure that was extremely similar to Su Yu.

However, if one looked closely, one would still be able to see a clear difference.

That was, the Su Yu that had appeared seemed to be slightly more mature than Su Yu.

However, their cultivations were almost the same.

The Su Yu that had appeared turned around and looked at his original body. He said with satisfaction, "As expected of the ruler of Time's comprehension. You can even cultivate such a time incarnation."

That's right. Su Yu was a time avatar.

He had summoned Su Yu several months or even years later to where he was now.

Unfortunately, due to certain restrictions, the time avatar that Su Yu had summoned didn't have much of a change in strength.

If the ruler of time had used it himself, he would have been able to summon himself millions or even tens of millions of years later.

Moreover, he would be even more powerful then.

However, Su Yu had an advantage that the time ruler could never achieve.

That was, the time avatar created by the time ruler could only last for the time it takes to brew a cup of tea.

Then, it would be crushed by the current time.

However, Su Yu was different.

The time avatar he created had fused with the soul domain to make it real.

As a result, his body could exist for more than a day.

"Main Body, you still need to strengthen your cultivation. If you can summon your past self, it means that you have the past, present, and future at the same time. There are three Su Yu." The time avatar encouraged, "If the three of them are stacked together, just thinking about it is terrifying."

One Su Yu was already powerful, but the three of them were working together. Furthermore, the three of them had thought it through.

All of them were resourceful and full of supernatural powers.

That scene would probably be a nightmare for any enemy.

Su Yu's original body rolled his eyes. "Will I be as talkative as you in the future?"

The time avatar laughed. "Forget it. This is the first time we've met. When you're in trouble, Summon me again."

After that, the time avatar disappeared without the original body's consent.

Su Yu couldn't help but laugh bitterly. "Is this a good thing or a bad thing?"

The time clone didn't listen to his original self at all. In fact, it even considered itself a future clone, and it was faintly controlling him.

However, it was just as the future clone had said.

The most powerful insights the ruler of time had were the future, the present, and the past. The three of them appeared in the same spacetime at the same time.

This meant that there were three rulers of time fighting at the same time.

This was one of the areas where the other rulers feared the ruler of time the most.

In a certain sense, the battle power of the ruler of time was the most invincible.

"I wonder if the essence of time in that strand of hair contains the comprehension of the incarnation of the past." Su Yu's eyes were filled with anticipation.

After half a year of cultivation, Su Yu had gained a lot.

After calculating the time, he immediately came out of seclusion.

In the guest room.

Qin Xian 'er, su Cai 'er, Luo xueyi, and Huangfu Yi were all seriously cultivating.

With Su Yu's enormous resources, as well as the occasional incarnation he would send out to guide them, the four's cultivation progressed extremely quickly.

This was especially true for Qin Xian 'er.

She was a descendant of the ancient god of the netherworld, and her path of cultivation was unique.

She didn't even need to specially cultivate. With the Divine Flames of the netherworld devouring all sorts of Precious Martial dao resources, she could break through to the next realm.

Chapter 2635 Demon Gate Ancient Tomb

What else could Su Yu say apart from feeling helpless about this method of breaking through?

Every time he broke through a realm, he would painstakingly search for all sorts of high-grade martial dao resources.

Qin Xian 'er was good. She could break through without doing anything.

"They are all descendants of ancient gods. Why is there such a big difference?" Su Yu was somewhat disappointed.

Other than giving him a nine dragons divine cauldron, ancient god Nine Dragons needed Su Yu to fight for everything else.

Even the eight most important domains of ancient god nine dragons were all left behind by Su Yu himself, one step at a time. He had to go through countless dangers before he succeeded.

Qin Xian 'er chuckled. "What's mine is brother Yu's."

Su Yu laughed.

At this moment, Yao Guang's voice came from outside the door. "Senior, it's about time. Should we set off?"

Today was the day of the ninth month, and it was also the place where the ancient Devil Gate Tomb might appear.

The seven descendants of the upper palace all wanted to go to the ancient Devil Gate Tomb to investigate.

"Let's set off!" Su Yu took a deep breath.

It had been Su Yu's wish for many years to save Yun Yazi.

This time, he had to fulfill his wish.

"Xian 'er, wait here quietly. Don't leave the guest room," Su Yu instructed.

Half a year had passed, and the momentum of searching for Qin Xian 'er and Su Cai 'er had long cooled down.

However, there was still a large amount of time to dominate the imperial guards and patrol the city.

"Don't worry, brother Yu," Qin Xian 'er said.

She still had a sense of propriety.

Su Yu finally looked at su Cai 'er and said, "Cai 'er, stay with your mother. Don't be mischievous, understand?"

Su Cai'er turned her head and said awkwardly, "OH."

"Cai'er, say goodbye to Father," Qin Xian 'er said.

Su Cai'er stubbornly pursed her lips and didn't say a word.

Although they had been together for a while, Su Cai'er still couldn't completely accept Su Yu.

"It's okay." Su Yu shook his head and used his eyes to stop Qin Xian 'er from criticizing Su Cai'er.

There was still a long time ahead, and their relationship would slowly heal.

After leaving the guest room, Su Yu followed Yao Guang to the main hall.

There, Yanran, Lu Luo, and the other descendants of the ruler were all waiting.

"Senior SU, I'll be relying on you this time." Lu Luo smiled shyly.

Su Yu nodded. "That's easy to say."

The group of eight arrived at the sacred city square.

It was already filled with people.

Many experts appeared one after another.

There were many early stage tunnel lord existences among them.

There was even the faint aura of a middle-stage tunnel master.

Yao Guang and the others used their embroidered black robes to cover their bodies and faces.

They would definitely be able to mingle with the fish and dragons in this mission to hunt down the Saint Devil.

For many years, the upper palace had been enjoying all sorts of resources in the sacred city. It would make some experts envious.

In the sacred city, they didn't dare to do anything.

But if they were at the chaotic scene where the Saint Devil was captured, that might not be the case.

Therefore, it was best for them to hide their identity and not be discovered by others.

"The appearance of the Saint Devil has attracted many experts," Yao Guang said in a low voice.

Yanran deeply agreed. "Just by recognizing them, there are famous experts from the Heaven Awakening realm, the Dreambreak realm, and the Netherworld realm. In addition, there are many local leaders in the sacred city."

They only recognized them.

"Look, people from the Star Alliance Chamber of Commerce have appeared."

Su Yu's heart moved, and he followed Yanran's gaze.

A group of experts of different ages gathered in a corner.

The clothes on their bodies all had the unique symbol of the Star Alliance Chamber of Commerce.

"Star Alliance Chamber of Commerce..." Su Yu's eyes flashed.

The Star Alliance Chamber of Commerce had always been scheming.

It was really not a good thing for them to join in to suppress the Saint Devil.

Experts from all sides gathered in the sacred city square one after another.

When the sky started to darken and the nine moons began to connect into a single line.

But it was obvious that the time domain that had existed for eons in the time domain was rapidly weakening.

When the ninth month connected.

The time domain was completely gone.

The time hourglasses above everyone's heads disappeared at the same time.

A sense of relief lingered in everyone's hearts. A profound and indifferent voice echoed from the depths of the sky.

"The sacred devil is hiding in the southwest, three hundred miles away."

The voice rolled away.

A bolt of lightning descended at this moment and struck the old city zone of the sacred city.

Su Yu's eyes flashed.

It was indeed there!

That day, he had followed the demonic qi and found the old city zone.

"Let's Go!" Yanran activated her space domain and led the people from the upper palace to the old city zone.

In the end, when they used their space domain, someone had arrived before them.

It was the Star Alliance Chamber of Commerce!

Each of them had an extremely high-level space-time magical treasure on them, and they had arrived one step ahead of the others.

Yanran was quite envious.

The Star Alliance Chamber of Commerce was so generous!

Looking down, they saw a dark cave that had been pierced through by lightning.

Traces of demonic qi that could make people mad rose from it.

It was indeed possible that the ancient tomb of the Devil's Gate was here.

Su Yu was looking forward to entering the cave after the Star Alliance Chamber of Commerce.

After passing through a long stretch of pitch-black area, his eyes began to glow.

At the end of the cave, what entered his eyes was a blood-colored world.

Streaks of blood-colored lightning flashed from time to time at the end of the world, illuminating the world as if it were blood.

Under the illumination of the Lightning, one could see rows of coffins standing side by side in an extremely orderly manner.

Within each coffin, the aura of death was unbridled, causing one to shudder in fear.

"Where is this place?" Yao Guang and the others were shocked.

This was completely different from the place where the Saint Devil was supposed to hide.

The place where the Saint Devil was supposed to hide should be filled with endless resources.

Why was it all a graveyard?

On the other hand, the people from the Star Alliance Chamber of Commerce were very calm and even a little happy.

"We finally found it, the ancient tomb of the Devil Gate!" There were ten people from the Star Alliance Chamber of Commerce.

However, the other nine people were standing in a way that made the speaker stand at the center.

Yao Guang and the others were slightly surprised when they heard the voice.

They had heard of the name of the ancient tomb of the Devil Gate.

It was said that the leader of a powerful dark force would be sent to the ancient tomb of the Devil Gate to be buried after his death.

They didn't expect that the ancient tomb of the Devil Gate would be under the holy city.

Yanran's eyes flashed and she grabbed a coffin from the nearest coffin.

"A 30,000-year-old water pearl!" Yanran exclaimed in surprise.

The water pearl was a crystal condensed by a water soul monster at the level of an Earth master.

Its function was to heal the damage to the soul.

In the outside world, a 3,000-year-old water pearl could be sold for a sky-high price.

At its peak, it could even reach ten billion time crystals.

He casually grabbed a 30,000-year-old water pearl.

Its value was already an astronomical figure.

No one in the entire time domain could afford it.

This caused the other descendants of the rulers to be shocked and open their coffins one after another.

In the end, any coffin would have an extremely shocking burial item.

The lowest level was the time crystal level.

At this moment, a large number of people rushed in.

They also discovered that there were shocking items in the coffins, and they all opened the coffins to collect the items.

Chapter 2636 The Birth Of The Saint Devil (15th Watch)

Su Yu had no interest in those funerary objects.

What he was interested in was the corpses inside.

None of them were rotten.

All of them were perfectly preserved.

"Didn't the ancient tomb of the Devil sect say that only the leader could be buried here?" Su Yu looked at the tens of thousands of coffins in front of him and was full of doubts.

Where did the devil sect get so many leaders?

But if the leader of the Devil Sect wasn't buried in those coffins, then what was it?

At this moment, Su Yu keenly noticed that the Star Alliance Chamber of Commerce and the others were exchanging glances with each other, communicating with their souls.

A moment later, they left a few people here, while the other group walked to the center.

Su Yu turned his gaze over and shockingly discovered that there was a golden coffin lying in the center.

He subconsciously took out a jade bottle.

The devilish yin energy within the bottle began to circulate wildly, as though it was about to rush out of the Jade Bottle.

Su Yu opened the lid of the bottle, and the devilish yin energy transformed into a sharp arrow that shot towards the Golden Coffin.

A sacred devil!

Su Yu's heart began to beat slightly.

"All of you, step back." Su Yu lowered his voice as he slowly said.

"Senior, what have you discovered?" Shaowang was preparing to head towards the golden coffin in the middle.

"Did you find anything?" Asked Yao Guang as he and several other descendants of the master retreated.

Su Yu nodded: "Yanran, always ready to lead everyone to escape."

With his contact with the demon, the demon is more powerful than you can imagine.

I'm afraid the tunnel master is no match for him.

Unless the time masters do it themselves.

At the same time, Su Yu's eyes searched quickly for the whereabouts of the Wicked Girl.

He searched according to the image in the Supreme Heavenly Mirror.

His pupils contracted violently as he appeared.

On the cliff in the deepest part of the ancient Devil sect tomb, a grand hall hung on the cliff was reflected in his eyes.

The hall was old and dilapidated, but its entire body exuded an aura that was incompatible with the ancient Devil sect tomb.

Within that Aura, there was an evil intent.

It was the evil path cultivated by the evil woman.

"Evil Woman Palace!" Su Yu clenched his fist.

They had finally found it!

After running for decades, they finally found the evil woman palace and found the hope to revive Yun Yazi.

At this moment, the people from the Star Alliance Chamber of Commerce had already arrived in front of the golden coffin.

They were working together to open the coffin lid.

The people who arrived later rushed over because they had also discovered the existence of the golden coffin.

Creak --

With a crisp sound, the golden coffin lid finally opened a crack under the joint efforts of several Star Alliance Chamber of Commerce Experts.

Su Yu's heart pounded wildly, and he vaguely had a bad feeling.

Yao Guang took out the turtle shell and divined on the spot.

The divination turned out to be a very ominous divination!

"Let's leave this place first," Yao Guang said with unusual decisiveness.

Su Yu glanced at the evil woman palace and suppressed the unwillingness in his heart. He said, "Retreat!"

The fear in his heart grew stronger and stronger.

This kind of uneasiness was often a sign of a great threat to life and death.

Yanran nodded and immediately used her spatial domain to sweep them all away, leaving the cave together.

After returning to the ground, Su Yu's uneasiness receded like a tide.

More people continued to flow down the cave.

"Let's see what's going on inside." Yanran took out a magical treasure and tossed it in the air. A projection appeared in the air.

It turned out that before she left, Yanran had placed a rune inside.

The rune could transmit the situation inside the Devil sect ancient tomb to the magical treasure in front of her.

In the projection, the Star Alliance Chamber of Commerce finally opened a crack the size of a finger on the golden coffin.

Bang --

Before they could see what was inside the golden coffin, the entire coffin lid suddenly soared into the sky and was smacked away by a monstrous force.

Then, a ferocious ghost claw swept across the screen!

The members of the Star Alliance Chamber of Commerce who were responsible for opening the coffin lid immediately turned into a cloud of blood mist!

What was even more terrifying was that within the range of the runes.

All living beings were reduced to ashes by the Ghost Claw's sweep just now.

In the blink of an eye, tens of thousands of experts were killed.

Among them, there were even some earth master level existences, but not a single living being escaped.

The blood-colored ancient tomb of the demon gate immediately turned into a river of blood and became a purgatory on Earth.

Ah --

Simply put, the crowd that was relatively far away was not affected.

Yanran moved the runes across the air, and her view changed.

She found that with the remaining experts of the Star Alliance Chamber of Commerce as the boundary, they and the experts behind them were safe and sound.

However, the horrifying scene in front of them made the crowd that rushed in retreat in fear, wanting to retreat.

However, a large number of people were rushing in. It was impossible for them to rush out through the cave.

For a moment, the scene was extremely chaotic.

"I miscalculated for a moment!" A hair-raising sigh came from the golden coffin.

Da --

A ferocious ghost claw stretched out from the Golden Coffin and grabbed the edge of the coffin.

Then, a terrifying creature that was covered in demonic aura and rotting slowly sat up from the Golden Coffin.

It had a pair of dark green eyes that were burning with dark green flames.

Its head twisted as it looked at the panicked crowd.

"The ruler of time actually sent a motley crew like you here. is he really going to die soon?"

Creak

Creak --

The sound of bones rubbing against each other came one after another as a rotting body slowly stood up from the Golden Coffin.

Threads of pitch-black liquid fell from his body and dripped on the Golden Coffin, making a sizzling sound.

At this moment, the creatures in the ancient devil gate tomb were even more terrified.

Some were even so scared that they screamed.

"Holy Devil, Our Alliance leader is interested in you. Come back with us." A voice full of cadence and metallic feeling slowly floated over.

It was the core member of the Star Alliance Chamber of Commerce.

He was short and looked like a child, but his face was very old.

Saint Devil lifted his foot and walked out of the Golden Coffin.

The eight chains on his body immediately made cracking sounds.

"Star Alliance Chamber of Commerce... A name from a long time ago." Saint devil muttered, "The Chief of the Star Alliance Chamber of Commerce is here personally. I may be a little afraid. You can shut up."

As soon as he said that, thousands of Thunderbolts thundered down.

Thousands of people were burned into ashes on the spot.

"Since the ruler of time has treated you as a welcome gift, I will accept it impolitely." The Saint Devil pulled the chain in his hand.

The entire demon gate ancient tomb shook violently.

The neatly arranged coffins all emitted astonishing life fluctuations.

Crack! Crack! Crack

The coffins were broken one by one.

The corpses inside all opened their eyes and pounced toward the nearest living beings with fierce lights.

Tens of thousands of corpses were resurrected.

"Corpse clan! They are all corpse clan!"

Those weren't corpses at all. They were clearly corpse clan members who had fallen into a deep sleep.

Moreover, after being nurtured by the sacred demon, each corpse clan member's cultivation base was unbelievably powerful.

Many experts were caught off guard and were pounced on by the corpse clan.

After being bitten by them, they immediately turned into corpse clan.

Su Yu's pupils contracted.

He had come into contact with many corpse clan members, but he had never seen such a rapid transformation!

Moreover, there were also a few corpse clan members whose cultivation was terrifyingly high!

Suddenly, Su Yu stared at a corpse clan member with a stiff expression.

Chapter 2637 The Blooming Of The Evil Lotus

It was a female zombie.

She was dressed in luxurious brocade clothes, and her black hair cascaded down her back like a waterfall.

Her fair face was filled with peerless beauty.

She was in the blood-red sky, but she was like a pearl, refracting a light that was hard to ignore.

All the zombies were greedily biting the living creatures.

She was the only one standing in the distance.

Just like the great empress, she looked down at the surroundings and watched her warriors fight.

"Zhuji female corpse!" Su Yu enunciated each word. He took a deep breath and said the name that he hadn't heard for a long time.

How could he forget Zhuji?

When he first entered the absolute beginning realm, that Zhuji Corpse King who had been infatuated with him?

Later, he mistakenly thought that he had been killed by the evil daughter Palace.

He led his subordinates of the corpse clan to seek revenge from the evil daughter Palace.

One hundred years passed.

Time passed quickly.

Time had worn away his memories, his dreams, and his original intentions.

However, what couldn't be worn away or faded away was the Pearl Corpse King's desire for revenge.

He had thought that the Pearl Corpse King had stopped in a certain civilization and stopped moving forward.

However, she had never stopped.

From that small half-star civilization, she had crossed millions of stars, crossed the barrier between heaven and earth, and arrived in front of the vile-daughter palace.

At this moment, Su Yu's heart was shaken.

A deep warm current surged in his heart, causing him to have a long-lost emotion.

"A hundred years have passed, and the world has changed. Only you are the same as before." Su Yu gazed at that beautiful figure, and a trace of wetness slowly seeped out of his eyes.

Pearl Pearl, Pearl Pearl Pearl!

How could I, Su Yu, endure your undying love for a hundred years?

To take revenge for him, would I rather die than die?

At this moment.

The scene suddenly changed.

That old child finally made his move.

Light shone behind him, and a Buddha statue faintly appeared behind him.

"Great Grandmaster Shi Ming!"

That Buddha statue stretched out its palm and lightly pressed down.

The many corpse clansmen immediately retreated into the shadows in fear.

That light was like a nemesis to many evil demons.

Only the Holy Devil had a calm expression.

No matter how many lights were on him, he didn't move at all.

"Petty tricks." The Holy Devil flicked his finger.

The old child grunted.

The giant Buddha behind him shed two streams of tears and quickly dimmed.

"Saint!" Several experts from the Star Alliance Chamber of Commerce immediately supported the old child and said in panic.

A saint was a peak existence at the late stage of the Earth Dao Master Realm.

No matter how many times he searched the time domain, he couldn't find many enemies to fight against.

But who would have thought that in front of a saint devil, he wouldn't be able to withstand a snap of his fingers.

"All of you, retreat. Saint Devil has cultivated for an era and absorbed the essence of the ancient god of the netherworld. He has already reached the Heavenly Dao master realm." The old child's face was like paper.

He pointed with the tip of his foot, and a spatial ripple spread out, enveloping them all.

Sacred demon indifferently said, "You've disturbed me, and you still want to leave?"

Chi --

The chains on his body suddenly swept out.

Ah --

Several Star Alliance members immediately turned into blood mist as they screamed.

Only the old child forcefully grabbed the chains with both hands. His face was filled with shock.

"Sacred demon, the legacy of the ancient god of nine Netherworld was left for his successor. You stole it from yourself. Are you worthy of the trust of the ancient god of nine Netherworld?"

It turned out that when ancient god Nine Netherworld died, he used the heaven reaching divine art to seal or protect the four most trusted protectors.

They all had the legacy of ancient god Nine Netherworld on them.

He also gave them a task.

That was to leave the legacy to her future successor.

When the four legacies gathered on her successor, a new ancient God Nine Netherworld would be born.

The other three protectors were still missing.

Only sacred demon was still there.

But he didn't listen to ancient God Nine Netherworld's orders and took all the legacies belonging to the successor of ancient God Nine Netherworld.

Just now, he was able to break through the shackles of cultivation and become a Heavenly Dao master.

"Hehe, the sky has changed, the Earth has changed. This is no longer the era of ancient gods. If I continue to follow ancient God's orders pedantically, sooner or later, I will take the legacies and disappear from this world."

The sacred demon spoke with conviction.

He glanced at the old child. "Seeing that your strength is still passable, come under my command. After I unify the time domain, you will be able to follow the dragon's work."

The child smiled and shook his head. "Sacred Demon, you overestimate yourself and underestimate the ruler! He is actually everywhere, Omnipresent!"

After saying this, the old child slowly closed his eyes.

Rays of light burst out from his body at the same time, illuminating his entire body.

Then, he stood there motionlessly.

Saint Devil pulled back the chains and said calmly, "Would you rather die than be under my command? The Star Alliance Chamber of Commerce is not a motley crew."

Without the protection of the experts of the Star Alliance Chamber of Commerce, the many corpse clansmen were no longer hindered.

The experts who entered the ancient tomb of the demon gate were all transformed into corpse clansmen.

None of them escaped.

Only those who hadn't entered the cave were lucky enough to escape.

The Devil Gate Tomb regained its peace.

The saint devil said indifferently, "Let's go. Since we've been exposed, we can't stay here any longer."

The Zhuji Corpse King turned his head and looked at the evil maiden palace, his eyes filled with emptiness.

"It's just an empty shell, why should we care?"The Saint Devil said.

He waved his hand, and a shocking demonic mist surged out from the ground of the ancient devil gate tomb, enveloping all the corpse clan members and the Saint Devil himself.

Then, it disappeared without a trace.

Yanran and the others were shocked.

"It's gone! How can it be!"

Yao Guang said, "If I were a saint devil, I would also leave a way to escape. Otherwise, if I were to be discovered one day, I would be caught like a turtle in a jar."

"Look at the arrangement of the Coffins!"

Yanran discovered something.

Looking down from above, she realized..,

it was actually an array.

It turned out that the saint demon had long been prepared to hide the array under the coffin.

It could be teleported away at any time through the array.

Whoosh --

While they were talking, Su Yu had already charged into the ground again.

He came to the place where the Zhuji Corpse King had stood, feeling extremely frustrated.

Why did the Zhuji Corpse King become the subordinate of the Saint Devil?

Was it forced, or was it voluntary?

Where was she going now?

Staring at the empty world, Su Yu kept asking himself.

The only thing he could be sure of was that they would meet again soon.

The Saint Devil was ambitious and would never be satisfied with just one place.

He would definitely find the right time to come out again and occupy the time domain.

At that time, perhaps it would be the day when he and the Zhuji Corpse King would meet again.

"Look, there seems to be a great hall there." Yanran and the others came down one after another, searching for the remaining resources in the coffin while searching in all directions.

The evil maiden palace was naturally discovered.

Su Yu recovered his senses and said, "Wait a moment."

His figure was like a rainbow as he crossed the cliff and arrived in front of the evil maiden palace.

A hall with the words 'Dan Fang Palace' written on it appeared in front of his eyes.

"Is this palace only a part of the Evil Woman Palace?" Su Yu's eyes darkened.

He stepped into the hall.

The rockery was dilapidated, the small spring had dried up, and the immortal plants had decayed.

There was nothing inside.

In the deepest part of the hall.

In a lotus pond, it had long dried up.

The withered and disfigured lotus flowers were only left with the outline of dust.

Su Yu felt a stifling feeling in his chest as he clenched his fists tightly.

He had found the evil maiden palace.

He had gone through countless hardships and twists and turns.

However, what he found was only an empty shell.

Just as he had been worried before, the evil maiden had disappeared for so many years. were her former subordinates still loyal to her?

And could the evil lotus be preserved?

Now, it seemed that everything had developed with the worst possible outcome in mind.

In fact, even if the members of the evil Lady Palace didn't betray them,.

The evil Lotus couldn't still be there.

Deep in the Devil's Gate Tomb, under the eyes of the Saint Devil.

If there really was an evil girl who nurtured a divine object of an era, would the saint devil turn a blind eye?

The answer was no!

Su Yu stood in front of the lotus pond, feeling extremely depressed.

"Master, what should I do?" Su Yu shouted.

He really tried his best.

Di --

Suddenly, Su Yu felt a burning sensation in his chest.

He touched it and found the evil daughter's soul crystal, which was emitting a scorching light and was extremely dazzling.

"This..." Su Yu was confused.

The Soul Crystal had been in his body for dozens of years and had never shown any changes.

Why did he suddenly have a reaction at this moment?

He looked at the lotus pond.

Su Yu's heart moved slightly. With a wave of his sleeve, the entire lotus pond was cleaned up.

He saw a thumb-sized dent at the bottom of the lotus pond.

That size was the soul crystal core.

"Could it be?" Su Yu was a little excited as he put the soul crystal core into the Dent.

Splash --

What followed was the sound of water.

He looked sideways and saw that an unknown clear spiritual water gushed out from the bottom of the lotus pond and quickly covered the bottom of the pond.

Su Yu immediately jumped out.

Under his incredulous gaze, lotus flowers of different colors bloomed in the spiritual water at a speed visible to the naked eye.

Some were pink, some were white, and some were light yellow.

However, one of the lotus flowers was the most peculiar.

Its entire body was pitch black.

Like an elegant swan, it stood among the lotus flowers and danced.

A trace of evil intent was slowly released from the Lotus.

"Evil Lotus! !" Su Yu was indescribably excited.

As expected!

As expected!

The evil Lotus had always existed in the evil Lady Palace, but it needed a soul crystal core to make it appear.

Su Yu's disappointed heart was once again filled with joy.

With a wave of his hand, he took out the soul crystal core and watched the evil lotus slowly unfold.

The evil lotus unfolded, revealing its pitch-black pistil.

The pistil emitted a special aura.

That Aura was extremely corrosive.

Su Yu's eyelids twitched, feeling extremely dangerous.

"The evil girl once said that there was a trace of Yun Yazi's soul in her soul crystal core! However, her soul crystal core was too hard. Nothing in the world could break it apart. Only the evil lotus could melt it."

"Once it is melted, I will be able to take out a trace of Yun Yazi's soul."

With Su Yu's current soul attainments, it would be extremely easy for him to resurrect Yun Yazi with this trace of soul.

Su Yu couldn't suppress his excitement.

With a flick of his finger, he shot the soul crystal core into the evil lotus.

The Hard Soul Crystal Core started to melt and turned into crystal clear drops.

The sealed soul finally broke out and floated into the void.

Su Yu had sharp eyes. Before it disappeared, he grabbed it.

Then, he stuffed it into his soul and nourished it with his soul power.

Feeling the familiar soul that he had not seen for a long time, Su Yu finally let go of the huge rock that had been hanging in his heart for countless years.

"Master, we meet again." Su Yu smiled knowingly.

Looking at the only liquid soul crystal core, Su Yu's eyes were filled with a complicated look.

"When a person is about to die, his words are kind. Before You Die, you care about your master. It can be considered as repaying your debt." Su Yu said, "I, forgive you."

After saying that, he turned around and left without turning his head back.

What he did not know was that.

Not long after he left, the liquid soul crystal core actually began to condense again..

Chapter 2638 The Return Of The Evil Daughter

In the blink of an eye, it condensed into a thumb-sized transparent little person.

She clumsily picked up the flower stamen of the evil lotus and began to Munch on it.

With every bite, her body grew larger.

After half a cup of tea.

The last bit of the flower stamen of the evil Lotus was swallowed by her.

Her body had already turned into the size of a normal human being.

A female body with curves and curves appeared.

Moreover, the transparent body that was originally crystal clear started to show skin color.

Not long after, a beautiful body with snow-white skin and delicate jade-like body appeared in a natural posture.

Her facial features also gradually became clear.

Her eyes were like gems, her eyebrows were as thin as willow leaves, and her face was flawless.

The beauty she exuded made the world lose its color and the flowers lose their light.

There was no other beauty like that in the world.

If Su Yu was still around, he would definitely be able to recognize her.

That was Xia Jingyu's face.

It was exactly the same face!

The absolute beauty gently hooked her finger, and the lotus leaf of the evil lotus turned into a ball of black air and attached itself to her body, turning into a brand new black dress.

The petals of the evil lotus turned into a pitch-black lotus mark and branded on her forehead.

In the blink of an eye, the crystal core turned into the black-clothed Xia Jingyu!

She gently clenched her palm and held the lotus stem.

Black Flames immediately erupted from the stem and burned on its own.

But after burning, what was left was a pitch-black long sword.

That sword was the evil sword!

Finally, the black-clothed Xia Jingyu stepped on the lotus pond and the lotus pond split open, revealing a pitch-black lotus root.

She picked up the lotus root and chewed it up bit by bit.

With every bite, her cultivation soared by a whole realm.

When she finished eating the lotus root, her cultivation actually surpassed the Earthly Dao master and reached the Heavenly Dao master level.

She was even slightly stronger than the sacred devil.

Hu

The black-robed Xia Jing Yu let out a turbid breath.

There was a hint of relief on her face.

'the true world that I spent most of my life to build in the past was not wasted.'to be exact, Xia Jing Yu was a sinner.

She had left behind a backup plan long before she went after Yun Ya Zi, was schemed against by the carefree emperor, and was imprisoned in the Cage of Taotie.

She had left behind a backup plan.

She cut off half of her body and sealed it all in true evil lotus world.

If one day, the other half of her body was destroyed, then as long as her soul could return to true evil Lotus World,.

She would be able to wake up the other half who was sleeping.

The evil woman sat by the edge of the lotus pond.

She held her sword with one hand and pressed it against the ground.

She pressed her other hand against her knee.

She closed her eyes slowly.

A gust of wind blew past, and a layer of black fog rose from her body.

Her eyes slowly opened.

Her eyes were filled with hatred.

"So, from the very beginning, I was the vessel of the illustrious son of Heaven!"The Wicked Girl accepted the information from the other half of her body and sighed in loneliness.

She was obsessed with martial arts.

But in the end, from the moment she was born, she was destined to be someone else's wedding dress.

"Yun Yazi..."she held the hilt of her sword tightly, and her eyes were filled with guilt. "You were killed by me, and your soul was almost destroyed, but you hid the truth for me until your death. You Didn't want to tell me the truth that I was the vessel."

A glistening teardrop fell from her face.

It was regret and self-blame.

If time could be repeated, she would definitely become the young lady who focused on cultivating martial arts under Yun Yazi's guidance.

Unfortunately, nothing would change.

"What I owe you, I will return to you eventually, but not now."The evil daughter stood up slowly, her eyes shooting out a divine light that looked down on the world. "Carefree emperor! You schemed against me, schemed against Yun Yazi. This debt, I will make you pay in blood!"

She would pay Yun Yazi back.

The prerequisite was to make carefree emperor pay for that debt!

"The world, my evil daughter, is back!"

With a long howl, the Devil sect ancient tomb shook!

On the ground.

The nine bright moons seemed to have suffered a great disturbance, their trajectories extremely chaotic.

They even collided with each other.

In the time domain.

Countless sentient beings fled in panic, as if something extremely terrifying had descended.

In the wilderness of time.

On a worn-out hourglass.

An old man with his eyes closed sat weakly on the throne formed by time.

Suddenly, the old man opened his eyes.

A trace of shock shot out from his eyes.

"Vile Daughter?"The old man stood up while trembling. With a wave of his hand, a vast river of time appeared before him.

In the river of time, many reflections of time flashed past.

The scene of the vile daughter being suppressed by Taotie.

The scene of the vile daughter being killed by Su Yu.

All of these scenes were incredibly real.

"How is she still alive?"The old man asked the sky. Shock filled his eyes. "Could it be that the vile daughter has already cultivated to a true world and has become an existence that can not die or be destroyed?"

Among the Almightyies in the universe.

Those who controlled true worlds could obtain eternal life.

Otherwise, even if he was the ruler of time, who controlled the time in the world, he would still die and die.

"No wonder the evil daughter was easily suppressed in the cage of Taotie... so, only half of her body was suppressed!"The old man's old body trembled.

A hint of fear filled the depths of his eyes.

"As expected of the number one person under the Emperor."The old man exclaimed, "The world is really going to fall into chaos."

The era was about to be destroyed, but the evil daughter had reappeared in the world.

Somewhere.

The Saint Devil led the Zhuji Corpse King and the others to hide in the dark.

Suddenly, the Saint Devil suddenly looked in the direction of the Devil Sect's ancient tomb with a sharp gaze. "Evil daughter? She's not dead?"

On the side, the unperturbed face of the Zhuji Corpse King suddenly gave off a dense killing intent.

"Evil daughter? She's Not Dead Yet? where is she?"The Zhuji Corpse King roared as if he had been provoked.

The many corpse clansmen behind him roared and roared at the same time.

The Saint Devil pressed his hand down. "Don't act Rashly! The Evil Daughter's terror is beyond your imagination. Rashly going to take revenge will only increase the Ashes."

The eyes of the Zhuji Corpse King flashed with resistance.

But for some reason, the Saint Devil's words had absolute orders for her, causing the Zhuji Corpse King to be unable to struggle free.

It wasn't just the sacred city.

In the time domain's three great worlds, many experts sensed the appearance of an evildoer's aura.

Even in the other ruler domains, they could sense its existence.

The entire eight star civilization was in an inexplicable state of shock because of the EVILDOER's rebirth.

Su Yu, who had just left the underground, suddenly felt his heart palpitate.

It was as if something had awakened underground.

"What's Going On?"Yao Guang asked in surprise.

Yanran was also confused.

"Should we go back and take a look?" Lu Luo suggested.

Su Yu thought for a moment, and his eyes flashed. "Let's Go!"

He was worried. Could it be that he had melted the soul crystal core, causing some drastic change?

However, just as they were about to move...

The entire Earth suddenly caved in.

Su Yu and the others immediately flew into the air.

Looking down, their expressions changed.

The entire earth had completely caved in.

The ancient devil gate tomb was completely submerged.

"This..." Yao Guang was bewildered.

Su Yu sensed an unusual aura from the ruins.

"Vile Daughter?" Su Yu said in surprise.

Chapter 2639 Recruiting Experts

That's right.

He did sense the aura of the evil daughter.

But wasn't she already dead?

Or was there another secret in the Soul Crystal Core?

Thinking of the regret the evil daughter entrusted to him before she died, Su Yu laughed self-deprecatingly. "In the end, I still underestimated the evil daughter."

In a sense, he was tricked by the evil daughter.

However, even though he knew that the evil daughter could be resurrected,.

Su Yu would still look back and melt the soul crystal core.

As long as he could resurrect Yun Yazi, everything wouldn't be a problem.

Everyone returned to the Upper Palace first.

The seven descendants of the ruler had found many good things in the coffin and needed to digest some of them.

Su Yu also had extremely important things to do.

With a flash, he entered the secret room.

He stared at the strand of soul in his palm, his heart filled with excitement.

"Master, sorry to have kept you waiting." A strand of life energy began to gather in Su Yu's palm.

He was preparing to bring back the dead.

However, right at this moment, a voice suddenly appeared out of nowhere.

"I suggest that you wait a bit longer."

The voice belonged to the soul hegemon.

Su Yu's hand paused, and he asked, "Why?"

The soul dominator said, "Do you think that with your attainments in the life domain, you can restore his soul to its peak?"

This question was very deep.

Su Yu's heart skipped a beat.

After pondering for a long time, he slowly shook his head, "I can only restore it to the moment when he dies."

When he died, his soul was only at the Heaven and Earth Emperor Realm, and not even Dao Master Xuan had reached it.

"You only have one chance to resurrect him," the soul ruler said. "Do you want to resurrect Yun Yazi, who was at the World Emperor realm, or Yun Yazi, who was at his peak?"

Su Yu was hesitant.

Of course, he hoped that the former would be able to see him sooner and make up for the guilt in his heart.

However, his reason told him that he should choose the latter.

If he were to revive him to the moment before he died, it would be far too distant for his soul to recover to its peak.

He believed that that wasn't what Yun Yazi wanted to see either.

"What are the conditions for recovering to its peak?" Su Yu asked in a serious tone.

"Become the ruler of life, or be assisted by the ruler of life, or reach the origin level life domain on your own," the ruler of Soul said faintly.

Su Yu gritted his teeth.

After some thought, he took back a strand of Yun Yazi's soul.

He had already waited for so long. So what if he waited a little longer?

As long as he could make Yun Yazi recover to his peak.

The ruler of soul nodded in satisfaction. "Your choice is wise!"

After a pause, the ruler of soul said, "Sacred City, you should leave as soon as possible. Just now, I sensed the ruler of time."

Su Yu was shocked.

Even when the descendant of ancient god Netherworld appeared, the sovereign of time had never appeared.

But now, he appeared?

If he stayed in sacred city any longer, he would truly be in unpredictable danger.

"Thank you for your reminder," Su Yu said.

Three days later.

The descendants of the sovereign of the upper palace invited Su Yu to a banquet.

They had gained a lot from their trip to the demon gate ancient tomb, and they were all in a good mood.

"Everyone, I think that perhaps I should bid you farewell." At the banquet, Su Yu cupped his fists and said.

To be honest, his impression of the descendants of the rulers was actually quite good.

Yao Guang and the others sighed.

Su Yu had said that the ancient devil gate tomb would leave after that.

It was now the day the banquet ended.

Lu Luo said reluctantly, "Thank you for your guidance these past few days, senior. I am eternally grateful."

Lu Luo had learned a lot about the time domain from Su Yu.

Yanran also said, "It's hard for me to forget Senior's kindness for saving my life. Where do you plan to go next?"

The other descendants of the ruler were fine. Yanran was the most concerned about Su Yu's whereabouts.

Because she hoped that she could use Su Yu's power to help Shao Hao ascend to the ruler's position.

Su Yu thought for a moment. "I travel the Four Seas."

He did not want to expose himself and assist Empress Starrain.

"I see." Yanran was not without regret, but she did not give up, she said, "Senior once said that a magic treasure that requires ten thousand times the acceleration of time will be consulted by Shao Hao. Senior, please leave a method of communication. If there is any progress, Yanran will inform you immediately."

"Okay." Su Yu immediately handed a Dharma treasure to Yanran for transmission.

"If there's a chance, we will meet again." Su Yu said goodbye in public.

He had already put Qin Xian 'er and the others into a special spatial storage and brought them out of the sacred city without being discovered. There was no problem.

However, after Su Yu left the upper palace, he did not leave the sacred city.

He came to a corner.

There was a very secretive abandoned old house.

"Who is it!"The tunnel master who came with him shouted.

"Me!"

The problem could make Su Yu, so he opened the restriction above the house and let Su Yu in.

As soon as he entered, Su Yu found a group of people in the house.

They were of different races, and their faces were more or less filled with pride.

But they did have the right to be proud.

Because every one of them had reached the level of an Earth Dao Master!

One of them had even reached the peak of the early stage of the Earth Dao Master, and was close to breaking through to the middle stage of the Earth Dao Master.

Su Yu's entrance only made them glance at him lightly, but they didn't care at all.

"Everyone, this is the Lord Su I was talking about, and he's also the person in charge of recruiting you,"the Earth Dao master introduced.

The tunnel lord with the highest cultivation was a middle-aged man from the Swan clan.

He had an elegant and proud temperament.

"You are recruiting us?"The other party looked at Su Yu up and down with a critical gaze and shook his head slightly. "He is actually a human, and a small warrior in the Nirvana realm."

As he spoke, he walked out and said without turning his head, "Wait until you are sincere. Otherwise, don't waste my time!"

The others frowned more or less.

"What kind of joke is this? A puny human can invite so many of us tunnel masters?"

"Sigh, I thought it was some big shot recruiting troops and needed our help. It turns out..."

That's right.

Before Su Yu went into seclusion, he gave the tunnel master a task.

Recruit as many strong tunnel masters as possible.

There were simply too few tunnel masters under Empress Star Rain's rule.

Only ten guards were willing to listen to her orders.

However, four had already been lost.

There were not many left.

She needed a batch of strong tunnel masters who would listen to her orders.

"I can still afford a mere time crystal."Su Yu's eyes were calm as she said.

The Swan Man stopped and turned his head, "Human, to recruit me, you need one billion time crystals in a year. Are you sure you can afford it?"

Su Yu did not say a word and took out a spatial storage device.

He threw it into the air and the time crystals fell out of it.

The number was a total of ten billion!

The tunnel masters who were ready to leave stopped and their pupils contracted.

"Ten years. If you follow me, you can take it now!" Su Yu said calmly.

The Swan Man's expression changed continuously and he could not believe it.

But if he went back now, he really couldn't bring himself to lose face.

"Cough! I'm a person with aspirations. I don't just look at Money!" The Swan clan's middle-aged man said proudly.

Chapter 2640 Waning Moon Empress

Even though he said so, the rest of the light continued to drift towards the 10 billion time crystals piled up in the courtyard

"Where's the 20 billion?" Su Yu threw out another spatial storage device and poured out another 10 billion.

This time, the Swan tribe middle-aged man's eyelids couldn't help but jump.

His breathing was particularly rapid.

20 billion!

What kind of concept was that?

He had cultivated all his life, yet he didn't have 20 billion time crystals!

"I am a..." He swallowed his saliva secretly, but his mouth was extremely stubborn!

Su Yu said indifferently, "30 billion, is that enough?"

Hearing this, the Swan Tribe's heart thumped wildly. 300?

He might not be able to earn so many time crystals even if he died.

"Enough!" The Swan clan's middle-aged man returned resolutely with a smile on his face. "Lord Su, I hope we can work together happily!"

Su Yu nodded expressionlessly without even looking at him.

His gaze turned to the second Earth Dao Master. "What About You? What kind of person are you?"

"Lord Su, I'm a very casual person. You can just give me whatever you want."

"Oh, then I'll just give you 10 to 20 billion!"

"What About You? What kind of person are you?"

..

Not long after, the time crystal in the courtyard was so much that it could not hold it anymore. The barrier in the courtyard creaked under the pressure.

It was as if it could not bear the pressure and was about to be crushed.

Su Yu stood in front of the tunnel masters and said with a smile, "I already know what kind of person you are. I believe that you should also know what kind of person I am, right?"

The Swan middle-aged man patted his chest and said, "I, Fei Yunsheng, admire Lord Su's heroic spirit!"

"Yes, Lord Su's generosity is rarely seen in the world!"

No matter how much they were tunnel masters, their cultivation was far higher than Su Yu's.

But in front of money, they shamefully lowered their heads and patted a junior's horse.

What they didn't know was that the time crystal was actually very cheap to Su Yu. It was worthless.

He only needed to casually grab it and he could condense the entire sky of time into a time crystal.

And in this world, the thing that wasn't lacking the most was the time crystal.

Not to mention tens of billions, even if it was a few trillion, it would only take a moment.

To Su Yu who was already able to create this item, the time crystal was like air. It was no longer worth anything.

Just like that, Su Yu deceived a group of experts and rushed back to the southern part of the dream boundary.

They hadn't seen each other for several years.

The southern part of the dream boundary was still the same.

When he returned, Empress Starry Rain was in the Empress Palace, diligently cultivating her time domain.

With Su Yu's help, Empress Starry Rain's time domain had improved by leaps and bounds.

Now that she had reached the elementary domain, she could easily grasp the simple abilities of acceleration, reverse flow, and freeze.

"Ah, brother, you're back?" When empress starry rain heard that Su Yu had returned, she personally rushed ten thousand miles away to welcome him.

From Afar, she pounced into his embrace.

"I was so worried about you." Empress starry rain deeply enjoyed the embrace that she had not seen for a long time.

Ever since she met Su Yu, everything had been improving for her.

Unknowingly, she had begun to rely on Su Yu,

su Yu had been away for a few years, and he could not help but worry about gains and losses.

"Hehe, the mission has been completed." Su Yu took out a ring and stuffed it into his hand.

This was the heavenly Luo Ring, which contained the terrifying attack of the Heavenly Dao master.

It was the most powerful of all the ruler-level magic treasures.

"Ah! This, this is the heavenly Luo Ring?"Empress starry rain rubbed her eyes, thinking that she was dreaming.

The Heavenly Luo Ring, which was ranked second, required at least 600 contribution points.

Su Yu had 500 contribution points. How did he exchange for it?

"In this ruler-level battle, we finally have half a chance,"Su Yu said.

From the looks of it, the biggest threat was Shao Hao.

The golden-eyed couple had taken away the number one ruler-level magic treasure, which must have already been handed over to Shao Hao.

With this magic treasure, Shao Hao was in an invincible position.

However, Su Yu had the other half of the magic treasure, and most of them were high-grade.

It wasn't as if they didn't have the strength to fight.

"Did anything happen while I was away?"Su Yu asked.

Empress starry rain shook her head. "It was surprisingly peaceful."

Perhaps the sacred city's acquisition of the ruler's magic treasure and the appearance of the sacred devil had attracted the attention of waning moon and Shao Hao.

That was why it was very peaceful during this period of time.

"However, Emperor Mingxin might not be too peaceful."Empress starry rain raised her slender eyebrows.

"What do you mean?"Su Yu asked

"Emperor Mingxin contacted me a few months ago. Empress Dowager's people are stirring up trouble at the border of Dongming City. They might be planning something."

The mention of empress dowager.

Su Yu naturally remembered how he had been tricked and killed by Empress Dowager's people when they passed through West Ming City.

"Brother, I'm going to send two Earth Dao Masters to investigate."Empress starry rain was helpless.

She didn't have many Dao Masters at her disposal.

There were only four guards left, and they couldn't be any lower.

"I'll go myself,"Su Yu said.

Since they had formed an alliance with East Bright City, it should look like an alliance.

The battle for dominance would begin in ten years.

There were some detailed cooperation matters that needed to be discussed with Emperor Mingxin.

"Big Brother has just returned. I Can't let you continue working so hard,"empress starry rain said, her heart aching.

Su Yu shook his head. "If you feel sorry for me, take care of my family for me."

With a shake of his sleeve, Su Yu summoned Qin Xian 'er and the others and gave them an introduction.

Empress starry rain blinked.

Su Yu actually had a wife, and even his daughter was this big!

She couldn't accept it for a moment, and it took her a while to convince herself.

"Alright, Big Brother, go in peace. Unless the Empress Hall is not here, no one can hurt them," empress starry rain thought to herself. Even if she reduced her defensive strength, she would still need to send out one or two tunnel master guards, to protect Su Yu's family.

"Oh Right." Su Yu said again, "I will leave a few guards behind. Starry Rain, arrange for them to familiarize themselves with their new posts as soon as possible."

Guards?

Did his brother find some experts from outside?

But with Su Yu's cultivation and wealth, what kind of experts could he find?

At most, he should be in the Nirvana realm, right?

Hua --

Su Yu waved his hand, and fifty people appeared in front of him.

All of them were tunnel masters.

They looked around curiously.

Empress Xingyu was stunned for a moment. When she saw their faces clearly, she actually recognized some of them.

When she saw the swan middle-aged man, she immediately cried out, "Ah! It's the Red Dust Swordsman, Fei Yunsheng!"

She simply could not believe that she had actually seen Fei Yunsheng.

That was a famous unparalleled expert of the sacred city. His cultivation was close to the middle stage of the Earth Master Realm.

In the entire time domain, there were not many enemies that could be fought.

Su Yu had actually invited him over?

After a short moment of surprise, Empress Starry Rain immediately became worried. She pulled Su Yu to the side and said with a bitter smile, "Brother, did you cause too much trouble?"

"Why?"

Empress starry rain pointed at herself. "How can I afford to raise so many tunnel masters? Especially Fei Yunsheng. I Can't afford to hire him at all. If I don't give them enough money and anger them, it would be counterproductive."

Her ten tunnel masters and guards were all personally bestowed by the ruler of time.

With the limited financial resources of South Bright City, it was simply not enough to support so many tunnel masters.

If she wasn't in the mood, she would stop here today. Tomorrow at noon, she would pass the fifth watch.
