

Nine-Dragon 2651

Chapter 2651 Worthless

Zi Jun traveled through several cities overnight, using multiple spatial teleportation arrays.

Finally, in the morning of the next day, she arrived at the boundary between Ximing City and Dongming City.

"Miss Zi Jun. ."

She arrived just in time, and a figure appeared at the boundary stone.

"Lord Zuo!" Zi Jun's expression relaxed. She had finally met someone.

Looking at Zuo Wei, whose strength had reached the level of an earth master, Zi Jun felt a sense of respect and trust in him.

Because they were the same kind of people -- traitors.

Zi Jun was a traitor of Dongming city, while Zuo Wei was a traitor of Nanming city.

He used to be one of the ten personal guards of Empress Star Rain.

"Miss Zi Jun, it's good that you're okay." Zuo Wei looked around and asked, "Didn't you save your sister as well?"

Zijun shook her head regretfully. "Unfortunately, I met a difficult guy and took my sister back."

Zuo Wei's face was full of disappointment. "Dongming city is about to be destroyed. If we can't save your sister in time, she will die in the Sea of fire with Dongming City."

Zijun said helplessly, "It's all that person's fault. My sister couldn't escape with me."

Little did she know that there was a hint of coldness in the depths of Zuo Wei's eyes.

Why would ximing city care about Zi Jun and her sister's lives?

What they wanted was for Zi Jun to bring the Empress of Dongming City to Ximing City as a hostage.

Emperor Mingxin had always been focused on the empress and loved her dearly.

If he took the empress as a hostage, would he be afraid that Emperor Mingxin wouldn't submit in the future?

Unfortunately, Zijun did not succeed.

"Forget it. I'll ask the empress to send experts to secretly rescue your sister." Zuo Wei comforted her. Then, his eyes flashed as he asked, "Then, did you bring back any useful information?"

Zijun nodded and said, "Of course!"

She was slightly cautious and said, "However, I can only tell the Empress alone."

In truth, she did not have any important information to bring out.

Zi Jun was not with her regarding the alliance between Su Yu and Emperor Mingxin.

She also did not know that Su Yu had an endless amount of ruler-level magic treasures in her hands.

"Hehe, you're worrying too much. I was just asking casually." Zuo Wei smiled and moved aside.

"Let's go. Everything has been prepared for you."

Zi Jun took a deep breath to calm down her excitement.

She had been undercover in Dongming City for many years and had secretly provided top-secret information to Ximing City.

She had worked hard and achieved many meritorious deeds.

No matter what, the waning moon Empress would reward her heavily.

She turned her head to look at Dongming city behind her and shook her head slowly. "Dongming City, Goodbye. My choice will not be wrong."

With that, she stepped into the territory of Ximing City.

Just as she passed by Zuo Wei, he suddenly stretched out his hand and placed it on Zi Jun's shoulder.

"Zi Jun, what do you see?"

Zi Jun subconsciously turned her head, but what she saw was a round bead that looked like a snake's eye.

The moment she saw the round bead, her eyes immediately blurred, and her body stiffened, unable to move.

"Zijun, what other important information do you have? Tell me now." Zuo Wei's voice was fleeting, giving off a mysterious feeling.

Zijun was deeply immersed in it, and she could not help but answer truthfully, "No! Emperor Mingxin did not allow me to participate in the most important negotiation process."

"Then did you bring anything important with you?"

Zijun shook her head, "No! Emperor Mingxin has already seen through my identity."

Zuo Wei's face darkened when he heard this, and he retracted the eyeballs in his palm.

When Zi Jun woke up, she immediately became alert and scolded, "What did you do to me just now?"

Zuo Wei stood where he was and said calmly, "Nothing much. I was just following empress waning Moon's instructions to see if you were still valuable."

Zi Jun's heart skipped a beat. "You... You performed a soul search on me?"

"Yes!" Zuo Wei was very calm.

Zi Jun forced herself to be calm. "So What? I'm loyal to the Empress. I've made countless contributions and made contributions that no one can replace. I also..."

Unfortunately, Zuo Wei interrupted him impatiently.

"Stop!" Zuo Wei said calmly, "The Empress said that she doesn't support idle people."

Zuo Wei raised his eyes, and there was a trace of pity in his eyes. "The current you, you have no strength, no intelligence. If you go back to see the empress, won't you make things difficult for the Empress?"

Zi Jun's heart suddenly turned cold.

She could hear that the crescent moon Empress wanted to get rid of her.

Because she was already worthless.

They were both traitors. The reason why Zuo Wei was valued was because he was an authentic dao master and had great value.

But what value did Zi Jun have?

Nothing!

"I. . . I still have the talent of the God's eye. I can see extremely distant places. I still have value. I want to see the Empress!" Zi Jun retreated in fear and returned to Dongming City.

She wanted to find someone to rely on.

However, the distance between her and Dongming city was too far. It was so far that she could never return.

"I almost forgot that you still have the talent of the God's eye." Zuo Wei's face revealed a cruel smile. "The Empress said that your God's eye can be taken down and given to someone who can use it better."

"No! You Can't treat me like this!" Zi Jun said in despair. "I betrayed my sister and my brother-in-law. In the end, you treat me like this. Aren't you afraid that others will be disappointed?"

In the long run, who would dare to rely on the waning Moon Empress?

Zuo Wei shrugged, "I'm sorry, we're not afraid! After all, no one will know if we kill you."

After saying that, Zuo Wei closed in step by step.

The powerful aura of the tunnel master suppressed Zi Jun until she trembled.

"I'm sorry, Zi Jun. To be honest, I actually quite like your simple and stupid appearance." Zuo Wei smiled hideously as he closed in.

Shrill screams rang out in the dead silence of the boundary between the two worlds.

In the end, it calmed down and was completely extinguished.

Zuo Wei's palm was dripping with blood. He held an eye that had been dug out and stained with blood. "Hehe, you can ask the Empress to give me this thing to use. This is a good thing!"

Below his feet was the dead Zijun.

He flicked his finger, and a ball of flame immediately burned Zijun's body into ashes.

Just as Zuo Wei was about to leave, he suddenly realized that there was actually a vacuum-like area in the ashes.

"Does she have any treasures on her?" Zuo Wei waved his sleeve and swept away the dust on the ground, revealing what was hidden under the dust.

However, that was not a treasure.

It was a palm-sized spatial domain.

There was a person the size of a mosquito standing quietly with his hands behind his back.

Zuo Wei was surprised for a moment. He circulated his pupils and looked over carefully. When he gradually saw the face of the person the size of a mosquito, he subconsciously screamed, "Su Yu?"

How could he forget that Empress starry rain had paid special attention to Su Yu, who she regarded as her brother?

Su Yu said indifferently, "Long time no see. Zuo Wei, how are you doing at the waning Moon Empress's Place?"

The spatial domain suddenly exploded, forcing Zuo Wei back.

Su Yu's mosquito-sized body quickly enlarged, and finally returned to its normal form.

"Su Yu!" Zuo Wei was shocked, but immediately turned into ecstasy. "You actually dared to come to Ximing city alone? And you even dared to appear in front of me alone?"

Chapter 2652 Meeting The Waning Moon For The First Time

He was pleasantly surprised.

This was Empress Xingyu's trusted aide. Bringing him back would be a miracle.

"I came to meet empress waning moon. This is the only way." Su Yu took out a jade seal.

The Jade Seal had already been activated.

The Ecstasy on Zuo Wei's face finally froze slightly as he retreated. "Su Yu, let's not meddle in each other's affairs. Don't think that just because you have a magic treasure, you can do whatever you want."

The strength of the tunnel lord was not something that a powerful magic treasure could make up for.

Su Yu casually threw him away, and the imperial jade seal immediately shot out a monstrous blood light that enveloped Zuo Wei.

Zuo Wei's body rapidly melted at a speed visible to the naked eye.

"Universe secret technique!" Zuo Wei growled and bit the tip of his tongue, spitting out a mouthful of the tunnel lord's blood.

The blood condensed into a defense in front of him and resisted the bloody light.

Zuo Wei's eyes revealed a ferocious look. "I said that one magic treasure is useless!"

"Oh, then two will do." Su Yu casually took out a female corpse wearing a bamboo hat.

The latter's small white palm gently pressed on the chest of the latter.

Puff --

The great power of Heng Tian instantly penetrated Zuo Wei's chest and destroyed his body and soul in an instant.

Zuo Wei fell down unwillingly and fell into Zi Jun's ashes.

"Your strength seems to have increased a little," Su Yu asked.

The female corpse in the bamboo hat was dug out from the nine Nether Crystal and had been occupied by a wisp of her soul for a long time.

However, what surprised Su Yu was that the female corpse's cultivation had increased by a level after not being summoned for many years.

The bamboo hat female corpse nodded. "I also wanted to inform you. This female corpse is very strange. It seems to be reviving?"

Reviving?

Su Yu stared at the female corpse and was slightly suspicious.

Could a female corpse that had been dead for tens of thousands of years be revived?

"Continue to monitor. Let me know if anything happens." Su Yu waved his hand and summoned them back.

Then, he searched Zuo Wei's body and found many useful things.

One of them was the token that Zuo Wei used to enter and exit the Empress Hall of the waning moon.

The other was some tasks and matters that the empress of the waning moon had given him.

One of them was actually to spy on the soul beckoning scholar.

"Interesting." Su Yu sneered.

Both Shao Hao and the empress of the waning moon were very worried about this soul beckoning scholar.

One wanted to kill him.

The other wanted to keep an eye on him.

"This person seems to be much more powerful and important than I thought," Su Yu murmured.

Otherwise, the two descendants of the ruler of time wouldn't be so afraid of the soul-summoning scholar.

"Okay, then I'll meet this soul-summoning scholar." Su Yu picked up Zuo Wei's token. With a thought, he turned himself into Zuo Wei.

Whether it was his soul or his appearance, they were all extremely real.

The Empress Hall of the waning moon.

Zuo Wei returned calmly and used the token to enter and exit the hall freely.

The guards nearby were used to it and did not stop him.

"Lord Zuo, the Empress knows that you're back and wants to see you."The Butler immediately stepped forward and revealed an amiable expression.

The current Zuo Wei was the favorite of the Empress of the waning moon. From top to bottom, the Empress Hall was extremely respectful to him.

"En!"Zuo Wei, no, it was Su Yu. He nodded and went to meet the empress of the waning moon.

In the Empress of the waning Moon's bedroom.

It was a place filled with red mountains and pink clouds.

Under the heavy curtains, a charming and enchanting woman was leisurely tasting wine under the service of several handsome and beautiful young men.

"Empress,"su yu said respectfully, "The matter has been settled."

The woman inside waved her hand, and the handsome young men around her retreated one after another.

"Come in and talk."The crescent moon Empress waved her hand, and the ten layers of curtains parted.

Su Yu walked over, but before he could get close, a suction force came over.

His heart moved, and he almost resisted.

Fortunately, he endured the panic and was sucked over as if nothing had happened.

He saw a black hole in the palm of the crescent moon empress, and it was filled with endless violent winds.

The waning moon empress gently covered Su Yu with a special bead, and the strong wind immediately stopped.

"Zuo Lang, don't have any objections. I'm just playing with them. You're still my favorite!"

Just as he was sucked over, the waning moon Empress'clothes were half-covered, and she hugged Su Yu from behind.

The corners of Su Yu's eyes twitched.

What was going on?

Zuo Wei and Empress Remnant Moon actually had such a relationship?

And empress remnant moon was actually such a fickle person?

He could not help but think of that beautiful and pure lass, Empress Starry Rain.

In comparison, the two queens were simply two extremes.

Countless thoughts flashed through Su Yu's mind. What should he do now?

Should he submit or resist?

This was too much of a test.

After a short moment of thought, Su Yu stretched out his finger and lifted the chin of the crescent moon Empress. "Now is not the time to make trouble. There's something important."

The crescent moon Empress smiled charmingly. "Zuo Lang is really bad."

However, she did not have the intention to continue the next step. She was attracted by the important matter that Su Yu had mentioned.

"How's the matter going?"The crescent moon Empress asked.

Su Yu said, "Everything has been done according to your instructions. We have sent Zi Jun on his way without anyone knowing."

The crescent moon Empress did not care. She was concerned about another matter. "Then, have you found any useful information from her memory?"

Su Yu nodded deeply and said, "Yes! Please take a look, Empress."

He casually tossed the item into the air, and an image appeared.

In the image, Emperor Mingxin was holding a low-grade ruler-level magic treasure.

The crescent moon Empress, who had been lying on her side, suddenly sat up with a surprised look on her face. "A ruler-level magic treasure? How did Emperor Mingxin get it?"

Her eyes kept changing as she fell into deep thought.

"That shouldn't be. The ruler-level magic treasures were all destroyed in the time wilderness, and only a portion of them were brought back by Shao Hao's people."The crescent moon Empress was puzzled. "Could it be that Shao Hao gave them to East Bright City as well? If that's the case, doesn't that mean that they've formed an alliance as well?"

But not too long ago, Shao Hao had also given westlight city a portion of the hegemon-level magic treasures, resulting in an alliance agreement.

Shao Hao had clearly said that eastlight city and southlight city were enemies.

What did he mean by secretly forming an alliance with Eastlight City?

"Empress, do you think that Shao Hao is plotting against us? Shao Hao loves scheming,"Su Yu said, trying to sow discord.

He did not point it out because the smarter a person was, the more he liked to think deep into his own mind.

As expected, the waning moon Empress was able to see through it with a single point!

A deep and solemn look appeared on her face.

"Could it be that Shao Hao wishes for west and East Bright City to fight first so that he can sit back and reap the benefits?"

Giving both sides powerful Dominators'magic treasures so that they could fight to the death.

In the end, Shao Hao directly came out to clean up the mess. This was undoubtedly the best plan.

After pondering for a long time, the queen of the waning moon said quietly, "This matter can not be decided for the time being. We will wait and see."

She looked at Su Yu and praised, "You have done well in this matter. Go to the back garden and pick some fruits. Also, do not mention this matter to anyone, including the soul beckoning scholar."

Su Yu nodded. "I know. Also, I will closely monitor the soul beckoning scholar."

If the empress of the waning moon imperceptibly nodded her chin, appeared extremely cautious.

Chapter 2653 Soul Beckoning Scholar

They were currently in Empress Crescent Moon's bedroom, and their defenses were extremely tight.

It was almost impossible for an ordinary person to pry into their conversation.

However, Empress Crescent Moon was still so cautious. It could be seen just how much she feared soul beckoning scholar.

"Goodbye," Su Yu said expressionlessly.

"Don't forget to pick the fruits," empress crescent moon reminded without raising her head, sinking into deep thought.

Su Yu was stunned.

Pick the fruit?

The Queen of the waning Moon had already said it twice.

With some confusion, Su Yu secretly searched the souls of the maidservants passing by the bedroom. In the end, they did not know what picking the fruit was.

"Could it really be picking the spirit fruit?" Su Yu was stunned.

Although he did not find the fruit, he still found the way to the back garden. He walked slowly.

As he walked, he pondered.

He had seen the broken moon empress. This woman was smart enough and capable enough.

Among the four descendants of the ruler of the broken dream realm, she was only second to Shao Hao.

However, it shouldn't be difficult to deal with her.

The only thing he could worry about was the soul beckoning scholar.

More and more, he felt that this person wasn't simple.

Shao Hao had spared no expense to ask Su Yu to get rid of him. Even someone as smart as the Broken Moon Empress was afraid of him.

This person might really be extraordinary.

While he was thinking, he had already arrived at the back garden.

With Zuo Wei's identity, Su Yu traveled with him without any obstacles all the way to the depths of the back garden.

A strange fruit forest came into view.

It was a group of black fruit trees with all kinds of special fruits growing on them.

The fruits were of different shapes and exuded a rich dao Qi.

Su Yu took a sniff from a distance and felt that his cultivation was gradually increasing.

If he ate a few of them, an ordinary person might be able to break through from the early stage of the Nirvana stage to the middle stage.

However, what made Su Yu's eyes light up was...

The most special thing about those fruits was not the dense dao Qi.

It was that those fruits were actually condensed from souls.

"One thought is the truth!" Su Yu was slightly shocked.

As expected!

His guess was right. There was a soul expert among the staff of the broken moon Empress who was proficient in one thought.

He narrowed his eyes and stared at the fruits that filled the trees.

What made his pupils slightly shrink was that the fruits were actually not fruits.

Instead... They were living souls.

That soul expert transformed the souls of living people into fruits.

If he really ate it, he might be able to temporarily sublimate and strengthen his soul. However, in the long run, he would be affected by the impurities in his soul.

At worst, he would lose consciousness. At worst, his soul would lose its self-control and be controlled by others.

"Brother Zuo, why aren't you eating?" A clear voice sounded.

Su Yu returned to his senses and looked over. A young man dressed in blue was carrying a tree branch that he had picked up and was building it.

He smiled and said, his temperament was calm and otherworldly.

Su Yu could completely guess who this person was!

Soul beckoning scholar!

"OH." Su Yu casually picked up a fruit and placed it into his spatial storage.

Soul beckoning scholar stopped and looked at Su Yu. He smiled and said, "Brother Zuo, don't you like eating fruits from the back garden the most? Why do you keep them?"

Su Yu chuckled. "It's rare for the Empress to reward me. I naturally have to keep them and enjoy them."

From the circumstances of Zuo Wei's death, he did not eat too many of these fruits.

"Haha, it's just some fruits. You can take as many as you want."The soul beckoning scholar casually picked three and threw them to Su Yu from afar.

Su Yu was especially vigilant. He rolled up his sleeves and rolled the fruits into his sleeves.

Just as he was about to pick them up, he heard the sound of chewing coming from his sleeves.

He looked down and saw that the three fruits had grown ferocious faces. A mouth full of discontented teeth was tearing Su Yu's sleeves into pieces.

Su Yu was shocked, but he quickly calmed down.

This was just a soul domain that could be realized with a thought. There was no need to worry too much.

"Brother Zuo, you seem to be very calm."The soul beckoning scholar smiled faintly.

Su Yu stared at this person.

He had a feeling that the other party had seen through him.

"I'm just pretending to be calm,"Su Yu said humbly.

The soul beckoning scholar put down the scissors and shook his head seriously. "No, you're not pretending to be calm. You're really calm! Because you're like me. You're proficient in the ultimate power Upanishad of the Soul Domain. One thought is the truth!"

A smile appeared on his face.

It should have been a gentle arc, but now it looked sinister and evil. "We finally meet, Su Yu!"

It turned out that just as Su Yu knew about the soul beckoning scholar, this person also knew about Su Yu's existence.

"I've wanted to meet you for a long time."The soul beckoning scholar walked over.

The fruit forest behind him turned into black smoke and condensed into a whip, which was held in his hand.

"To be able to conjure a lifelike elder Xiao Mo and Fool Zuo Wei and the other idiots, it can only mean that he has achieved great success with a single thought."The Soul Beckoning Scholar's eyes were filled with battle intent.

He stared unblinkingly at Su Yu, he said with appreciation, "Originally, I planned to attack South Bright City and then spar with you. I didn't expect that you would actually come to West Bright City and pretend to be Zuo Wei with a single thought, barging into the Empress Palace!"

"To be honest, I have to admire your courage!"

He really didn't expect that Su Yu would be so audacious.

"You flatter me."Su Yu said indifferently, "I also admire your courage. You actually dared to use the soul of a living person to deceive the waning moon empress and her subordinates. Aren't you afraid that the waning moon Empress will know and destroy you?"

Hearing this, the soul beckoning scholar laughed, "Don't worry! She Won't dare! Even if she knows that I did it, she definitely won't dare to do anything to me because she still needs me to deal with Shao Hao."

What a big tone!

He actually dared to say that he would deal with Shao Hao!

Everyone knew how powerful Shao Hao was, but the soul beckoning scholar actually dared to say that he could deal with Shao Hao.

Perhaps this was the reason why Shao Hao and the crescent moon Empress were afraid of him.

"Look at the Whip!"The soul beckoning scholar raised the whip and lashed out fiercely.

Su Yu didn't Dodge.

That was a whip that was formed with a single thought. It could completely change at the last moment, such as becoming longer.

Therefore, it was impossible to dodge it.

"Shield!"With a thought, a huge shield appeared in front of Su Yu.

PA --

With a muffled sound, the whip lashed out.

The shield was incomparably solid, blocking the whip without being shaken.

"Oh? interesting. Your thought is real, and you've been cultivating for more than a few years."The soul beckoning scholar was surprised.

The long whip in his hand suddenly dissipated and was replaced by a long sword that was as black as ink.

Moreover, two circles of eyes appeared behind the soul beckoning scholar.

One circle of eyes was the elementary domain.

Two circles of eyes were the intermediate domain!

"Let's try again!"The soul beckoning scholar laughed and slashed again.

This slash was clearly more than twice as powerful as the whip from before.

This was because he had released his intermediate soul domain.

Su Yu's heart moved, and two eyes appeared above his head.

Under his gaze, the shield in front of him enlarged infinitely, forcefully blocking the opponent's long sword.

"Intermediate Soul Domain!"The soul beckoning scholar was surprised. He sized up Su Yu, but not only did he not feel grave, he even laughed out loud. "Great! It's been too long since I've seen an opponent that can make me slightly more serious!"

"Su Yu, you've really surprised me!"The soul beckoning scholar laughed out loud.

Under Su Yu's slightly narrowed pupils, a third round of eyes appeared above his head!

Advanced Soul Realm!

Chapter 2654 The Incarnation Of The Future

"Again!"The soul beckoning scholar was a little crazy, and the long sword in his hand turned into a long spear.

He threw it from afar, and the long spear turned into a black sharp arrow, piercing through.

Pu --

The shield that Su Yu had turned into with a thought was actually pierced through by the long spear!

Seeing that the long spear was like a hot knife through butter, it was about to hurt him.

Su Yu's expression was calm as he silently used his space domain.

In an instant, the spear was completely distorted and brushed past Su Yu's shoulder.

The Soul Beckoning Scholar's loud laughter couldn't help but stop abruptly.

"Wait, you're also proficient in space domain?"The soul beckoning scholar was stunned.

Clearly, this was beyond his expectations.

Su Yu indifferently said, "Isn't that what you wanted?"

Chi --

Countless fine spatial domains entered the body of the soul beckoning scholar.

In the next moment, his body was disintegrated into particles by the spatial domain and scattered all over the ground.

The entire back garden immediately returned to peace.

Only the sounds of fighting were left, lasting for a long time.

Su Yu flew down, his eyes calm. "Come out. If you die so easily, then it would be too sorry for the realm of one thought for real."

After saying this much, he casually slapped a flower in the distance.

The flower fell to the ground, but it shattered in mid-air like a mirror.

A person walked out from behind the mirror.

"Both the space domain and the soul domain have reached the intermediate level? It's truly breathtaking,"the soul beckoning scholar said slowly.

The Madness in his eyes was no longer the same as before.

There was only a deep solemnity.

"Unfortunately, you've come to the wrong place. From now on, you'll stay in this back garden and sleep forever!"The soul beckoning scholar said indifferently.

With a wave of his sleeve, the wind stirred and the clouds surged.

The entire garden began to shake.

The four walls of the courtyard continued to extend to the horizon, turning into a cage that only had a gap above it.

"The disturbance in this place is so great that the empress of the waning moon sect will soon discover it. The experts in the Empress's great hall will also rush over as soon as possible," the soul beckoning scholar said indifferently.

Su Yu's eyes were calm, without the slightest fluctuation.

"Is that so?" He grabbed towards the depths of the sky.

He grabbed downwards continuously, causing the four walls of the courtyard to become smaller and smaller. In the end, they returned to normal.

At this moment, with the naked eye, they discovered that a pitch-black small array flag had unknowingly appeared above their heads.

"Emperor Shao Hao's silence?" Soul beckoning scholar recognized it and frowned.

No wonder no one had rushed over despite the huge commotion just now.

So that was the case!

"HMPH! It doesn't matter if they didn't come. I alone am more than enough." The soul-beckoning scholar snorted coldly. The air around him trembled, and eighteen types of divine weapons appeared.

Each of them imitated the best magic treasures in the time domain.

Although it was impossible for them to have the power of a real magic treasure, they were able to unleash a thread of its power.

Among them, the power of the ruler magic treasure was the most terrifying.

It was an offensive magic treasure that Emperor Shao Hao had given to the waning moon empress, and it had a strike from the Heavenly Dao Master.

Now that it had manifested with a single thought, its power was naturally not as powerful as the Heavenly Dao master, but it was more than enough to crush the Earthly Dao master.

"Destroy!" The soul beckoning scholar stood on the spot, thinking of pointing forward.

The many magic treasures immediately erupted with earth-shaking power, blasting forward.

Su Yu's expression was calm, and he didn't use his soul domain anymore.

These magical treasures of the other party were all illusions created by the high-grade soul domain's one thought for truth.

It was very difficult for him to contend against them purely from the aspect of the soul domain.

"Future incarnation!" Su Yu formed a seal with both palms, activating his time domain.

A Su Yu that was exactly the same as him appeared in front of him.

The soul beckoning scholar said indifferently, "Using one thought for truth in front of me, is there still any use... wait, this isn't a one thought for truth!"

He was suddenly startled awake.

The Su Yu in front of him was not simply one thought to be true, but had merged into the time domain.

"Who are you?" To actually be proficient in three domains at the same time, it was inconceivable!

Su Yu said indifferently, "Someone entrusted me to come and take your life!"

The two Su Yu attacked at the same time. What they were proficient in and what they knew were exactly the same.

The scariest thing was that they were the same person, and their minds were connected.

"Time freeze!"

"Space Divide!"

Immediately, the time domain froze the soul beckoning scholar, making him unable to move.

The other Su Yu used space divide, cutting the immobilized soul beckoning scholar into particles.

To kill the soul beckoning scholar so easily, the two Su Yu frowned.

Su Yu's real body closed his eyes. "Death by Air Curse!"

He grabbed a piece of dust from the soul beckoning scholar and activated the air curse.

This curse followed the thread of fate and instantly spread to the soul beckoning scholar's real body.

Ah!

In the corner of the back garden, among a group of ants, an ant that was quietly climbing the wall suddenly let out a fierce scream.

Immediately after, it transformed from an ant into the soul beckoning scholar.

There was a huge word "Death" on his forehead.

The word "Death" spread around his body continuously, causing his life force to be rapidly adjusted.

"Life Recovery!" A hint of panic finally appeared on the face of the soul-beckoning scholar. He immediately used a thought to summon his life force to recover his body.

He glared at Su Yu and shouted, "You can't escape!"

The souls in his body exploded like mist and turned into thousands of strands that shot in all directions.

There were so many of them that it was difficult to catch them all.

As long as one strand escaped, with his high-level soul domain, it would only take a thought to recover his soul.

"Fate!"

"Reincarnation!"

Two Su Yu used their domains at the same time.

One used fate to forcefully connect all the souls with the lines of fate.

The other activated the six doors of reincarnation.

A portion of the souls were forcefully sucked into the door of reincarnation. The souls connected to these souls had no way to escape and were sucked in one after another.

"No! Stop!"

The soul fragments screamed in fear.

Once they went through the baptism of the six paths of reincarnation, their memories, cultivation, and so on would be washed away, leaving behind only a blank soul!

"Explode!" Helpless, the soul summoning scholar had no choice but to forcefully explode the soul that had been sucked in.

Only then did he sever the fate connection between the separated souls.

Taking advantage of this opportunity, the participating souls once more gathered into a soul summoning scholar.

His expression was extremely unsightly at this moment.

"Successor of ancient God Nine Dragons!" The soul summoning scholar called out.

The two Su Yu didn't say a word as they once more unleashed their domains.

"Gaze of Death!"

"Freeze Time!"

The two domains were unleashed at the same time, and the Soul Beckoning Scholar's soul was once again frozen and forcefully extracted.

Just as he was about to be devoured by the eye of death, the Soul Beckoning Scholar's soul suddenly exploded.

A round bead suddenly appeared in the soul of the soul beckoning scholar.

The round bead released a pressure that only the Heavenly Dao master possessed, completely crushing the domain in the sky.

This was a life-saving magic treasure that the soul-beckoning scholar had obtained as a descendant of the Soul Dominator.

His expression was extremely unsightly.

Originally, he had wanted to tease Su Yu.

Who knew that Su Yu's unfathomable depths would instead cause him to stumble.

As a last resort, he could only use his most precious defensive magic treasure.

Chapter 2655 Calculated Every Step

"Su Yu, I won't let you off!"The Soul Beckoning Scholar's heart was filled with extreme hatred.

To be more precise, it wasn't hatred.

It was fear!

Extreme fear!

The ancient god descendant Su Yu's strength was too terrifying.

So terrifying that it made one's heart shiver.

After saying this, the soul beckoning scholar's soul took the opportunity to break free and charge toward the Empress Hall.

Just now, the Heavenly Dao Master's defense not only shattered the domain, but also broke through the barrier of nothingness.

It was believed that the Empress Hall had already sensed the abnormality in the back garden.

In just a short moment, the Empress and the Earth Dao master experts in the Empress Hall would rush over.

At that time, Su Yu would be unable to escape.

However, how could Su Yu allow him to escape?

"Return to the origin!"The two Su Yu took a breath at the same time and unleashed their four great domains.

The eight great domains merged into one, forming a giant cauldron that looked down on the world.

That cauldron was majestic and heavy.

It exuded the power to suppress heaven and earth, suppressing the ancient era.

Everything in the world, all living beings, could be suppressed for eternity!

These were the eight great domains that Su Yu comprehended after his domain reached the intermediate level.

Using the eight most basic domains in the world, he constructed a giant cauldron that suppressed the heavens and suppressed the ancient era.

This cauldron contained eight domains, and it could be said to be the greatest domain.

Hence, it was called the 'return to the origin'!

All domains in the world couldn't escape the framework of the eight domains.

This cauldron represented a world.

Rumble --

With a heavy muffled sound, the gigantic cauldron rumbled as it descended, suppressing the soul beckoning scholar.

The latter paled in fright, and without thinking, he split his soul into countless pieces, using all his strength to escape.

However, no matter where he fled, he was always enveloped by the huge cauldron.

Clang --

With a muffled sound, the soul beckoning scholar was suppressed under the cauldron.

"I can't Die! I want to become the ruler of the path of the soul!" The Soul Beckoning scholar roared indignantly, shouted, and struggled.

However, everything was in vain.

The huge cauldron pressed down on him to death.

Moreover, the eight great domains continuously weakened his soul. It was like a blade that continuously deprived him of his existence.

The soul of the soul summoning was becoming transparent at a speed visible to the naked eye.

Three breaths later.

Only a thin layer of air was left in the soul summoning, just like water.

Less than one percent of his soul had been destroyed.

Su Yu waved his hand, and the giant cauldron formed by the eight domains dispersed.

At the same time, he took out a jade box and held the remaining soul of the soul summoning scholar, sealing it in the jade box.

He was going to use this item to exchange for the magic treasure of the ruler of time with Shaohao.

After everything was done, the future incarnation cupped his fists and left.

Su Yu quickly left the place.

After he left, several figures rushed over.

Among them was the crescent moon empress.

"The soul-beckoning scholar has been wiped out by someone." An Earth Dao master was shocked.

"Who has such heavenly power? Could It Be Shaohao?"

The face of the Empress of the waning moon was slightly pale, and a deep anger was condensed on her face.

The soul beckoning scholar was what he relied on to win the future.

Unexpectedly, he was inexplicably killed by someone.

"Who did it?" The Empress of the waning moon roared in a low voice.

At this time, Su Yu ran to the back garden while panting. Looking at the shocking back garden, he pretended not to know. "Empress, what happened?"

The waning Moon Empress' face was gloomy. "Where did you go just now?"

If she remembered correctly, she had asked Zuo Wei to come to the back garden to pick fruits, right?

Zuo Wei's face was solemn. He said, "I was still on the way here when I heard a loud noise, so I came to take a look."

Did it take such a long time to go from her bedroom to the back garden?

"Could it be that the Empress suspects me?" Su Yu laughed bitterly.

Hearing his bitter smile, the crescent moon Empress finally realized that she was too paranoid.

With Zuo Wei's strength, he couldn't even cut off the hair of the soul summoning scholar, let alone obliterate him.

"You are the closest to this place. Did you find anyone suspicious?" The crescent moon Empress asked.

Su Yu thought for a moment and said thoughtfully, "Empress, during the time I left, did you recruit a woman proficient in space law?"

Eh?

The crescent moon Empress' eyes narrowed. "No! Who did you find?"

"On the way here, I vaguely saw the back of a young woman leaving in a piece of water-like spatial law." Su Yu said with a serious expression.

The crescent moon Empress pondered. "Water-like spatial law?"

Suddenly, her eyes flashed. "You're talking about a spatial domain, right?"

Su Yu quickly said, "She left in a hurry. I didn't have time to judge! However, only the descendants of the spatial ruler have spatial domains, right? Why would they appear in our time domain?"

Kacha --

The stone slab beneath the waning moon Empress' feet shattered with a Kacha sound.

A trace of uncontrollable, chaotic energy was fluctuating on the surface of her body.

She clenched her right fist tightly, and a hint of anger could be seen on her face.

"Isn't there a descendant of the ruler of space in our Dreambreak Realm?" The crescent moon empress clearly thought of Shao Hao's mysterious aide, Yanran.

Combined with the information that 'Zuo Wei' had brought back, Shao Hao had secretly handed over a portion of the ruler-level magic treasures of East Bright City.

The suspicions in the crescent moon Empress's heart were completely ignored.

Shao Hao definitely didn't intend to form an alliance.

Instead, he was truly planning to reap the benefits of others.

"Empress, are you talking about the woman by Emperor Shao Hao's side, Yanran?" Su Yu pretended to think and said, "That shouldn't be. Why would Shao Hao attack our soul beckoning scholar?"

The waning moon empress said coldly, "There's no need to doubt it. It must be Shao Hao! He has wanted to get rid of the soul beckoning scholar for a long time! The last time we formed an alliance, Shao Hao looked at him with a hint of killing intent."

"I didn't expect that he would actually dare to make a move. Damn it!"

Su Yu was secretly amused.

Why did he pretend to be Zuo Wei and create the illusion that Shao Hao was cooperating with Dongming City?

It was so that at this moment, he could easily get rid of the suspicion.

The pitiful crescent moon Empress simply did not understand that she had fallen into Su Yu's scheme from the very beginning.

Moreover, Su Yu had also predicted what the crescent moon Empress would do next.

She had also laid out another set of plans.

"Empress, then how should we get along with Northern Bright City? Should we make a decision or continue to form an alliance?" Su Yu asked.

The waning moon Empress' eyes flashed, and she said, "Of course, continue to form an alliance! You must treat this matter as if it never happened and not publicize it to the outside world."

Su Yu continued to sow discord, "But what should we do about this debt? Should we swallow our anger and swallow our anger?"

The crescent moon empress sneered, "Am I, the crescent moon empress, the one who suffered a loss? He killed my people, but I can't kill his people?"

Shua --

The crescent moon Empress took out a flag that was filled with a powerful sealing force.

"Zuo Wei, hold this flag in your hand and lead three Earth Dao master experts to assassinate the expert beside Shao Hao, Yanran!"

Su Yu secretly laughed.

As expected!

The next step of the waning moon Empress was to take revenge on Shaohao and assassinate Yanran.

It was not difficult to guess her actions.

The waning moon Empress was a person who would always take revenge for her flaws. Her personality was very cruel.

How could she allow herself to suffer such a huge loss?

Therefore, she would definitely take revenge.

And the best target for revenge was undoubtedly Yanran.

Chapter 2656 Love In Water

Su Yu pretended to be terrified. "Empress, don't you think too highly of me? That Yanran is a descendant of the ruler of space. How can I kill her so easily?"

Empress Crescent Moon held the sealing flag and said with a cold light in her eyes, "Don't worry. If I'm not confident, how can I let you do it?"

"This flag can be considered half a ruler-level magic treasure. Once activated, it can unleash the power of a late-stage Earth master's powerful sealing land and seal off all space nearby."

"That Yanran's most powerful thing is her spatial domain. But if even space is sealed, what power does she have?"

This array flag had not come easily.

The waning moon Empress had originally planned to use it during the battle for the ruler-level. Now, for the sake of revenge, she was going to use it first.

Su Yu solemnly took over the array flag and solemnly said, "Your subordinate will definitely not let down the empress's expectations and will complete the mission with my life."

Perhaps it was because of his absolute attitude that he managed to get through to her.

A trace of gentleness appeared in the eyes of the Empress of the waning Moon Empire. "Zuo Wei, you have given so much for me and have never properly repaid you. When you return this time, I will give you everything you want."

Oh?

Did Zuo Wei ever think of asking for anything?

Speaking of which, the trust that the Empress of the waning Moon Empire had for Zuo Wei was out of the ordinary.

One had to know that Zuo Wei was the traitor of Empress Starry Rain.

As for traitors, no one had ever been willing to trust them.

It could be seen that before Zuo Wei became Empress Starry Rain's personal guard, he was empress waning Moon's subordinate.

"I don't dare to ask for anything. I just want to do my best to share the Empress's worries," Su Yu said.

Empress waning moon nodded gently. "Go. When you return, I'll give you what you want."

"I'll take my leave!"

Soon, Su Yu and the three Earth Dao Masters personally dispatched by the Empress left for North Bright City.

The three Earth Dao Masters accompanying them were people who had been groomed by the waning moon Empress for many years.

They did not have their own names, only code names.

"Lord Zuo, Ah Da, ah ER, and Ah San will listen to your orders." The three people said respectfully.

That respect was not only because Zuo Wei's strength was slightly higher than theirs.

It was more because Zuo Wei was the confidant of the empress of the waning moon.

"Mm." Su Yu nodded and stepped onto the teleportation between the cities.

One year later.

Northern Bright City.

Su Yu was filled with emotions when he came to this city once again.

When he first came here, he was almost forced into a corner by Shao Hao, but now he came back again.

"The three of you follow my plan and proceed like this..."

The three of them immediately split up and went about their own business.

Su Yu walked along the street with his hands behind his back. After a few seemingly unintentional walks, he came to a pretty good manor.

With a thought, he teleported into the manor.

There were groups of maidservants in the manor, and the guards were constantly patrolling.

A beautiful woman with an elegant figure was playing the zither in the courtyard.

Suddenly, she seemed to have sensed something and turned around.

She looked at the person in the bamboo hat and bowed slowly, "Greetings creator, welcome back."

Su Yu took off his bamboo hat and revealed his true face.

"It's been ten years, you still remember." Su Yu sighed.

The woman in front of him was none other than a creature that Su Yu left behind in northern light city.

A creature that was created temporarily.

She was still holding the door of white feather that Su Yu left behind.

"The creator has instructed me not to forget." The woman lowered her head and said.

Su Yu had only left behind some time crystals for her to find a place to settle down.

She did not expect that after so many years, she would use those time crystals to create her own family assets.

"Do you have a name?" Su Yu asked.

The woman hesitated for a moment before saying, "Yes, I have a name. Ask for water."

A creature that was created without any memories would not have a name.

"Who gave it to you?"

"My Lover."

Oh?

Did she already have a lover?

"Are you already married?" Su Yu frowned slightly.

He did not object to the creature he created getting married, except for those who had a mission.

"Wen Shui doesn't dare." The woman said in fear and trepidation, "Wen Shui remembers the kindness of the creator and never dares to forget it, much less marry."

Su Yu's brows relaxed.

She looked at Wen Shui deeply and asked, "Do you still have the thing I gave you?"

"Yes!" Wen Shui immediately took out the well-preserved door of white feather.

It could be seen that she was very attentive.

Su Yu reached out and took it. She rubbed it and slowly stood up. "Your mission has been completed. Enjoy Life to your heart's content."

As soon as she finished speaking, Su Yu's figure blurred and floated in the air.

Too much time had passed. She already had her own consciousness and life. It was no longer suitable for her to control the door of white feather.

Wen Shui's body trembled and she said sadly, "Creator, don't leave me behind."

Unfortunately, Su Yu had already left.

Wen Shui knelt for a long time before she stood up. Her heart was empty and she had no one to rely on.

At this moment, a figure barged in.

"Wen Shui, look what I brought back for you." A youth wearing a fur coat walked in with a smile.

He was none other than the beast slave king.

Back then, he was imprisoned in the Sacred Palace of light and was skilled in enslaving beasts.

Ever since he escaped, he had been drifting in the outer realms.

It was only when the outer realms were broken that he was fortunate enough to come to an eight-star civilization.

However, he was still muddle-headed, until one day, he met a pure and beautiful human woman by the river.

Her expression was confused and sad. She looked at the river and kept asking who she was.

At that moment, the Slave Beast King's heart was touched.

Bloody as he was, for the first time in his life, he had the urge to protect that girl.

With his help, the girl gradually got to know the world. At the same time, she got a name -- Wen Shui.

When the Slave Beast King walked in, he found that Wen Shui was staring at the sky with tears streaming down her face.

"Wen Shui, what happened to you?" The Slave Beast King immediately ran over and asked with heartache.

Wen Shui sobbed, "The creator came."

"Ah! He came?" The slave beast king looked around, "Where is he?"

"He left me and left. He said that my mission has been completed," Wen Shui said sadly. He felt like he had lost his backbone.

The Slave Beast King hugged Wen Shui gently and said softly, "It's okay, it's okay. I'm still here."

"Is it my fault? Why did the creator abandon me?" Wen Shui asked.

The Beast Slave King looked out into the sky and said slowly, "No, the creator gave you your freedom."

He paused and said, "If there's a chance, I will repay the creator and thank him for giving you your existence. So, you can rest assured, okay?"

With that, Wen Shui nodded and leaned into the Beast Slave King's embrace.

"Slave, you are the best person in the world, second only to the Creator." Wen Shui calmed down.

The Best?

The Beast King felt a sharp pain in his heart and a complicated expression appeared on his face.

In the past, he wasn't a good person.

He could even be described as a person who had done many evil things.

Otherwise, he wouldn't have been imprisoned by the Sacred Palace of light for so many years.

However, he could only be clean, clear, and kind in front of Wen Shui.

Even though it was just a lie, he still wanted to protect it and did not want it to be destroyed.

Speaking of which, Su Yu.

Came to a restaurant.

"I need to create another creature." He sighed silently and sent a message to Yanran.

His expression was slightly uplifted as he muttered, "Next, I have to think carefully. I hope Shaohao will like this surprise!"

Chapter 2657 Scheming Against Each Other

The restaurant waited for a moment.

Suddenly, a ripple of water-like space appeared around Su Yu.

Yanran then walked out from within.

She glanced at Su Yu, who was wearing a bamboo hat. She wasn't sure. "You are?"

Su Yu didn't say a word. Eight domains circulated in his palm.

"Greetings, Senior!" Yanran's beautiful face lit up.

Other than this mysterious expert from Dao Yuan, who else had learned their eight hegemonic domains?

"Sit." Su Yu made an inviting gesture.

Yanran happily sat down. Her eyes were filled with anticipation. "Senior, how is that soul beckoning scholar?"

This person was one of the people that Shao Hao feared the most in the dream boundary.

He had always wanted to get rid of him.

However, this soul summoning scholar was exceptionally cunning. He was hidden deep within the hall of the Broken Moon Empress and would never go out.

It was too difficult to kill him.

Su Yu took out a jade box and gently rubbed it with his palm.

One could see a struggling weak soul inside.

"Soul Summoning Scholar!" Yanran screamed in surprise. "Senior, you are too powerful!"

Although she had high hopes for Su Yu, she was still mentally prepared for failure.

After all, the soul beckoning scholar was too difficult to kill.

She did not expect that he would actually succeed.

Her respect for Su Yu deepened.

Only an expert like senior could enter the waning Moon Hall and kill the soul beckoning scholar as if there was no one there.

"Have you brought the time-controlling magic treasure?" Su Yu asked.

The sweet smile disappeared and she said with a bitter smile, "I can only be considered Shao Hao's advisor. How can I be qualified to take charge of such an important time-controlling magic treasure on his behalf?"

She gave him a relieved smile. "Senior, don't worry. Since you've successfully killed the soul-beckoning scholar, I believe Shao Hao will hand over the time-controlling magic treasure to you as promised. When I return to report, I believe Shao Hao will personally meet you."

Personally meet him?

The current Su Yu was not afraid of meeting him.

"Senior, please wait a moment. I'll rush back to report to Emperor Shao Hao right away." Yanran was in an extremely good mood.

She could already imagine the scene of her being praised by Emperor Shao Hao.

"Hold on." Su Yu suddenly spoke. "There's something I don't know if I should say."

Yanran noticed that Su Yu's tone was abnormal, so she became careful. "Senior, there's no harm in saying it."

"How much do you think Emperor Shao Hao trusts you?" Su Yu asked pointedly.

Yanran rolled her eyes and said, "If it was someone else, I can only say that Shaohao trusts me completely. But in front of senior, I can only tell you half of it! I know that Shaohao has been sending people to spy on me."

Just like how the Soul Beckoning Scholar was being watched by the Broken Moon Empress.

Shaohao was also worried about Yanran.

Otherwise, when they went to the sacred city, Shaohao wouldn't have arranged for Biyun Hong and her father to go with them.

"It's good that you know what to do," Su Yu said.

Yanran suddenly felt a little worried and probed, "Senior, are you asking about this because you have something you want to tell me?"

Su Yu nodded. "When I came to North Bright City, I accidentally met some suspicious people. Through the soul realm, I found some secrets."

"It has something to do with me?" Yanran's heart tightened.

Su Yu nodded. "I'm not sure. I just want to remind you because we are fated."

His half-hidden words made Yanran even more uneasy.

She looked solemn and bowed respectfully. "Please speak clearly, senior. Yanran is eternally grateful."

Su Yu said, "I accidentally found that a few tunnel masters are discussing the matter of hunting you."

He waved his finger in the air and an image appeared.

It was big, second, and third. They were gathered in the pavilion to discuss the assassination.

The word "Yanran" could be heard occasionally.

Yanran was extremely vigilant when she saw this scene. She stared at the three people in the image.

"Do you know them?" Su Yu asked.

Yanran shook her head. Her expression was especially grave. "I've never seen them before."

However, it was precisely because she had never seen them before that she felt even more uneasy.

This was because she was unable to confirm whether the three of them had been sent by Emperor Shao Hao or someone else.

"Perhaps they were sent by another faction," Yanran consoled herself.

Su Yu said indifferently, "I hope so. However, you'd better be mentally prepared. With Shao Hao as a person, how can you allow others to sleep on your side?"

Yanran clenched her fists, her mind filled with a myriad of thoughts.

She was truly worried that it was Shao Hao's doing.

During the trip to the time wilderness, Yanran had held back. She did not hand over all of her sovereign artifacts, only a small portion.

Shao Hao was probably suspicious of this as well.

She was a little worried. Shao Hao wanted to use this opportunity to kill her and take away all of his sovereign artifacts.

"Thank you for your reminder, senior. Yanran will be on guard," Yanran said uneasily.

"Mm, go. Tell Emperor Shao Hao to bring his time-controlling magic treasure here tomorrow, right here and now."

"Yes, Senior!"

Yanran left, worried about her gains and losses, leaving Su Yu behind with a slight smile.

He had no hope of persuading Yanran to betray him with just one sentence.

All he had to do was beat around the bush and plant a seed of suspicion in Yanran's heart. Then, this trip would not have been in vain.

Next, he only needed to let this seed germinate and grow.

Then, he would have succeeded!

After Yanran left, Su Yu casually tapped on the table.

A squirming eye slowly sank into the table.

Then, Su Yu himself left.

Half a day later.

A few sneaky tunnel masters quietly came to this private room.

After sizing up the surroundings, the leading tunnel master shook his head and said, "He has already left. Quickly arrange it."

They each took out an extremely high-grade array flag and arranged it in the box.

Those array flags were very unique and were not inferior to Ji Wu.

Once the arrangement was completed, it would be difficult to detect their existence.

But different from Ji Wu, those array flags were not used for shielding, but for sealing and attacking.

In a cultivation cave far away.

Su Yu sat cross-legged.

His body in front of a suspended eye, reflecting everything in the room.

"Ha-ha, as expected." Su Yu sneered: "Shao Hao is still reluctant to part with that piece of Time Master Magic Weapon."

Not only does Emperor Shao Hao not intend to redeem the agreement.

Also want to take the opportunity to kill Su Yu, take Su Yu Body Time Master Magic Treasure.

"Really accord with your consistent behavior." Su Yu's eyes are incomparably calm: "However, calculate me, I'm afraid you calculate wrong person, tomorrow, we meet again."

The next day.

In the restaurant.

Su Yu entered the restaurant as if nothing had happened.

When he arrived, there were already several core figures of Emperor Shaohao in the restaurant.

Among them were Yanran and Biyun Hong Xian.

"Where's Shaohao?" Su Yu asked expressionlessly.

Yanran said apologetically, "Emperor Shaohao is still on his way. Please wait patiently."

Su Yu smiled and sat down calmly.

Bi Yun Hong Xian, on the other hand, stared at Su Yu without blinking.

Her eyes were filled with excitement and joy.

However, she acted as if she didn't know Su Yu and stood at the side without saying a word.

"On Your Way Here?" Su Yu asked calmly.

She wasn't on her way here. She was obviously late on purpose.

The ones who came the latest were the ones with the highest status.

Shao Hao did not feel that his status was lower than Su Yu's.

As expected, Shao Hao only arrived late when Su Yu had just arrived.

Chapter 2658 Child's Play

"Hahaha! Senior, sorry for not welcoming you earlier!" Shaohao's voice reached them before they arrived.

Everyone felt their vision blur as Emperor Shaohao appeared on the table.

How could Su Yu be unfamiliar with such a method?

Time Domain.

Shaohao stopped time before he arrived and added a mysterious appearance effect to himself.

Unfortunately, Su Yu had already seen through him.

"Where's the item?" Su Yu was expressionless and asked directly.

Shaohao chuckled. "Senior is really impatient. How could I, Shaohao, go back on My Words?"

After a pause, he said, "However, before that, senior, please let me see if the Soul Summoning Scholar's soul is real or fake."

The corner of Yanran's mouth curled slightly.

She had examined the soul summoning scholar's soul before, so how could it be fake?

Shao Hao was indeed worried about her.

The doubt in her heart intensified.

"That's easy to say." Su Yu took out the jade box and opened it in front of her.

The Soul Summoning Scholar's soul was clearly visible inside, and there was no trace of fraud.

Shao Hao carefully examined it. After a while, his expression was very calm.

The room was silent. Everyone was waiting for Shao Hao's answer.

"It's fake!"

However, Shaohao said something that surprised everyone.

Fake?

Not to mention Yanran, even Bi Yun and Hong Xian could sense that it was indeed the soul-beckoning scholar's soul.

How could emperor Shaohao say that it was fake?

Yanran didn't expect it.

She thought it was a fair exchange, but she didn't expect Emperor Shaohao to say that it was fake.

"I'm sorry, but you failed to complete the mission. I Can't give you the time-controlling magic treasure." Shaohao shook his head indifferently.

Yanran immediately felt that both sides weren't human.

The mission had been passed on to Su Yu through her.

But now that Shaohao didn't admit to it, Su Yu would definitely blame her, right?

"Emperor, take a closer look. This is indeed the soul of the soul-beckoning scholar. It's definitely not fake." Yanran secretly summoned him.

Shaohao looked at him indifferently and said expressionlessly, "If I say it's fake, then it's fake!"

Yanran was about to argue, but Su Yu waved his hand and said indifferently, "Since you say it's fake, then I'll take my leave."

His expression was extremely calm. There was not the slightest hint of anger, nor was there the slightest sign of anger on the spot.

This was different from what Shaohao had expected.

He had expected that he would go back on his words and openly break the agreement, causing this person's hard work to go down the drain.

He would definitely become angry out of humiliation.

At the very least, he would angrily rebuke him.

However, he did not.

"Hold On!" Shaohao said calmly. Even if it was not as he had expected, he had to follow the plan.

Su Yu put the jade box away slowly and said indifferently, "What's the matter?"

Shaohao said indifferently, "You tried to deceive me and take my treasures. What Crime Should You Commit?"

Hearing this, Yanran's expression changed.

Was Emperor Shaohao Crazy?

He actually turned his attention to senior!

Senior was a powerful existence who could enter the hall of the waning moon Empress and kill the soul-beckoning scholar!

Su Yu said calmly, "So what?"

"Nothing. I just want to warn the world that lying to me, Shaohao, will not end well!" Su Yu said indifferently.

As soon as he finished speaking, the entire room burst out with waves of array light.

With Shao Hao as the center, a Golden Light Shield appeared, protecting him, Yanran, and Biyun Hong.

In addition, the entire wall of the room was covered by a lightning-like electric net.

Only at this moment did the power of the array appear.

These were all Earth Dao master level arrays.

Unless one's cultivation had reached the intermediate level, they would immediately be destroyed into dust by the formation.

"Kneel down and submit, I can spare your life!" Shao Hao sat down arrogantly and looked down at Su Yu with the bearing of a king.

That posture didn't have the slightest bit of guilt from breaching the contract?

Only Yanran had a premonition that something bad was going to happen.

Treating senior like this, it was really over!

Su Yu stood where he was. He did not run away nor did he panic. He said calmly, "Shaohao, are you sure you don't regret it?"

Shaohao laughed. "I, Shaohao, have never said the word 'regret' in my life! Kneel immediately! Now, Right Now!"

What answered him was only Su Yu calmly extending his finger and pointing it at Shaohao.

Shaohao's eyes turned cold. "Stubborn thing! Kill!"

Chi --

All the killing formations in the room were activated at the same time.

In an instant, countless destructive waves interweaved into a huge net that penetrated the entire room.

Other than the light barrier, the rest of the space was cut countless times by the three-dimensional intersecting space.

Su Yu's human figure was also cut into densely packed lines in an instant.

Shao Hao sneered. "It's nothing much! Yanran, there's still something wrong with your eyesight."

Initially, when he heard Yanran say how powerful this person was, he was still a little worried that the array formation alone would not be enough.

Hence, outside the restaurant, there were even more tricks up his sleeves.

In the end, he was eliminated by the array formation in just a few seconds.

This made Shao Hao very disappointed.

Yanran was stunned.

How could this be?

In her heart, she was omnipotent, invincible, and even a senior who might be able to overpower the ruler. How could she be so weak?

But right at this moment...

Su Yu's body fell piece by piece.

However, there was no trace of blood at all.

There were only sparkling and translucent particles.

Shaohao's pupils suddenly narrowed, and he stared at the scene in front of him with a solemn expression. "The highest realm of the Soul Domain, one thought is the truth!"

This was the ultimate ability of the soul beckoning scholar!

It was a level that very few descendants of the ruler of the soul could reach.

Yanran heaved a sigh of relief. That was more like it.

With how terrifying senior was, how could he be easily defeated by a small array formation?

At this moment, Su Yu's body had completely peeled off. Only a finger pointing at Shaohao remained.

"Shaohao, you've disappointed me. I originally thought highly of you, but I didn't expect that what you're playing is just a child's trick. Sigh."

Inside the room, Su Yu's voice suddenly echoed out.

Before they knew what was going on, they saw the surface of the table in the light they were in.

The outline of a large eye suddenly appeared.

Eyes full of disappointment and pity.

And a trace of the destructive power of the tunnel lord.

"Quickly spread out!" Shao Hao facial expression changes drastically, flurried to retreat.

However, it was already too late.

The eyeball suddenly exploded, creating an intense airwave that sent everyone present flying.

Shaohao was the most severely affected. He was the first to bear the brunt of the explosion. He was blasted into a bloody mess, and half of his body was almost lost.

"Damn it!" Shaohao swallowed the secret medicine and immediately recovered his body. He roared in a low voice.

He had actually been plotted against!

Of course, he had plotted against Su Yu from the start. From the moment he plotted against the other party to kill the soul beckoning scholar, he had already calculated the scene in front of him.

However, he had not expected that the other party would be able to see through everything and scheme against him instead.

Although it did not cause any life-threatening injuries to him, it had dealt a heavy blow to Shao Hao's ability to scheme, which he was very proud of.

However, at this moment, another voice reverberated in the room.

"Do you think this is the end? Sorry, this is only the beginning."

Shao Hao looked around and only then did he realize that there was a jade seal left behind in the room.

The words in the jade seal were left behind a long time ago.

This meant that the other party had accurately calculated the current situation!

Shao Hao's eyes narrowed, and a trace of fear actually appeared in his heart.

If that person was not proficient in seeing through the power of the future, but only relied on his calculations, then that would be too terrifying!

He had been too busy these few days.

Chapter 2659 We Continue

Yanran's heart relaxed slightly when she saw this.

That's more like it.

With that senior's mysterious methods, how could he easily fail?

It was still golden pupil langjun who reminded her, "Your Majesty, we have to take this person's message seriously. Please return to the main hall as soon as possible."

Shao Hao had just woken up.

The other party had said that the explosion just now was only the beginning.

"Let's go back..." Shao Hao stood up and said.

Right at this moment.

The earth shook and the mountains shook!

The entire restaurant shook and they almost fell in the room.

This was because of the existence of a seal.

When the shockwave dissipated, they immediately opened the seal and looked outside.

What they saw was a shocking scene.

The entire northern light city, with the Emperor's palace as the center, was distorted!

It was as if space had exploded, and the surrounding space was thrown into chaos.

The streets, houses, and attics were all distorted.

The emperor's palace was the most miserable. It was split into different spaces, and they were independent of each other.

Many experts, servants, and maidservants were all sealed inside.

Outsiders could not enter, and those inside could not leave.

The once prosperous northern bright city instantly fell into chaos.

Unless the local space was fully restored, northern bright city would continue to fall into chaos.

"What caused this?" Shao Hao's pupils constricted as he stared at the irregular distorted space and took a deep breath.

Yanran's beautiful eyes flashed with shock as she muttered, "This was caused by a domain-type destructive collision."

Domain?

Shao Hao asked in a deep voice, "What domain is so terrifying?"

Yanran shook her head, "I don't know. I've never seen such a scene before."

"Let's go back and take a look first." Shao Hao came to the sky above the Great Emperor Hall.

Looking down from above, he discovered that there was a huge cauldron foot mark left behind on the floor of the Great Emperor Hall.

"It was caused by a Cauldron?" Shao Hao was extremely puzzled.

He was experienced and knowledgeable, but he had never heard of such a powerful cauldron.

Furthermore, it was a cauldron formed from the condensation of a domain.

"Let's see who it is!" Shao Hao waved his hand, and a fluorescent light immediately shone in the vicinity of the Great Emperor's palace.

There had always been a monitoring formation set up in this place to record everything that happened in the vicinity at all times.

The fluorescent light gathered in front of them and turned into a picture.

However, in that picture, a person wearing a bamboo hat whose face could not be seen clearly waved his hand and an incomparably huge cauldron appeared.

Then, he pressed down hard on the ground.

The entire space of north bright city was distorted by the pressure of this strange cauldron.

"What's That?" Shao Hao was extremely shocked.

He had not been there personally, so he could not sense the eight domains that were emitted from the cauldron.

Yanran's eyes were filled with shock.

Was this senior's strength?

A cauldron that could crush the entire North Bright City?

The scene did not stop.

After suppressing north bright city, Su Yu seemed to have sensed the existence of the array formation. She looked sideways and said, "Let's continue."

Hearing this, Shao Hao's expression changed drastically. "Not good, this person is still trying to stir up trouble!"

His mind spun, thinking about where the other party might appear.

If North Bright City was said to be the most important place, it would definitely be the main hall.

Following closely behind would be..

"Quick, the mine!"

The mine was North Bright City's lifeline!

Boom Boom --

But Shao Hao had just reacted when he faintly heard endless explosions.

The direction was the mine!

"Ah! Bastard!" Shao Hao's eyes were about to pop out of their sockets. That person had deliberately come to break their foundation!

The group of people immediately rushed over.

Before they arrived, the explosions had already stopped.

This made Shao Hao's heart sink to the bottom. When he arrived, his expression was extremely ugly.

The 130 mine caves and over 1,000 mine veins in front of him had all collapsed!

It would take at least a few hundred years to dig them properly again.

However, there were only ten years left before he had to pay for the nine nether crystals again.

This meant that Shaohao had no choice but to think of ways to buy the nine nether crystals from other places at a high price.

"Bastard! !" Shaohao's face sank into the water.

The destruction of bright north city was already enough to give him a headache. Now that even the mine cave had collapsed, it had already hurt his muscles and bones.

Di --

Suddenly, a piece of photographic jade pendant flew out from a collapsed mine.

Rays of light shot out from it and condensed into Su Yu's portrait.

"Continue."

The portrait only spat out two words before it disappeared.

Shao Hao did not have the time to wake up from the loss of the mine when he suddenly heard a piercing explosion.

That sound was as if the sky had been torn apart.

Time in the vicinity of bright north city was rippling rapidly like ripples on a lake.

"Oh no! It's a time tunnel!" Shao Hao's expression changed drastically.

A Time Tunnel was an excellent teleportation device that could shorten the distance.

If it was damaged, bright north city was destined to move at least twice as slowly as the other cities in the later stages of the war.

"Stop him!" Shao Hao gritted his teeth and activated the time ruler bloodline to freeze time.

Other than himself and his trusted aides, the entire north bright city was frozen in time.

However, what made Shaohao's heart bleed was...

He did not hesitate to burn his bloodline, but the sound of the time tunnel tearing did not stop.

It was as if the other party was completely unaffected by the time domain.

When he arrived, Su Yu was already gone.

All that was left was the time tunnel that was completely torn and could no longer be repaired.

"I'll kill you!" Shao Hao felt like he was going crazy.

There was finally a trace of regret in his heart.

It seemed like he was really wrong.

He should not have played tricks on such a mysterious and unfathomable person.

Unfortunately, Su Yu did not intend to stop.

Another projection flashed out, "Don't stop, Let's continue!"

Shao Hao crushed the jade seal and said sternly, "Alright, let's have some fun!"

He shouted, "Hong Xian, predict where the other party will appear!"

Bi Yun Hong Xian was helpless and could only open her golden eyes to connect the future and the past.

In her vision of the future, she saw Su Yu looting the treasury of the Great Emperor's palace in Northern Bright City.

"How is it?" Shao Hao asked.

Bi Yun Hong Xian wanted to hide it, but it was unrealistic.

If anything went wrong, Shao Hao would know that she was lying.

"Your Treasury."

"What? !" Shao Hao was shocked. "How did he know where my treasury is? !"

His treasury contained the resources that the great emperor's palace had stored for many years, as well as countless time crystals.

It was precisely because of these resources that he was able to attract countless experts to follow him and prepare to fight for the world.

If the Treasury was lost, his foundation would truly be damaged.

"Vile creature!" Shao Hao pushed his time ruler bloodline to its limit and hurried over.

This time, he had finally arrived.

However, he saw that the door to his grand hall had already been forcefully suppressed.

The treasury inside was barely opened, and a figure was sweeping away his lifetime's worth of accumulation at an extremely fast speed.

"Put it down!" Shao Hao roared angrily.

Chapter 2660 There Was Another Misunderstanding

Su Yu looked at him indifferently. With a light tap of his finger, a wave of spatial energy swept Shaohao a trillion miles away.

Before the other party could rush back, he took back the spatial storage device.

As for the many treasures that he could not take away in time, with a squeeze of his palm, the entire space in the treasure vault shattered.

The remaining martial dao resources were all destroyed.

Finally, Su Yu took a look at the treasury. After confirming that he could take away everything and destroy everything that he couldn't take away, he left without leaving a trace.

When Shao Hao returned, what he saw was a shattered treasury.

"Ah!" Shao Hao couldn't suppress his anger and turned it into a roar that soared into the sky. "No matter where you are, I swear, I will make you pay the price!"

The heavy roar broke through the sky and swept across the surroundings.

Su Yu, who was already hiding at the edge of North Bright City, heard this shout.

"With you?" Su Yu smiled and shook his head.

All he did was to make Shao Hao pay some interest.

What he wanted was a price that Shao Hao couldn't afford!

A few days later.

Shao Hao finally mobilized the strength of the sects from the territories around him to repair north bright city.

Because of the distortion of space, the experts needed to work together to restore the space.

The whole process was very slow.

It took a whole month for half of northern light city to recover.

The experts trapped in the Great Emperor's Palace were all angry.

In the Great Hall.

Shao Hao's face sank. "Everyone, northern light city was attacked by an unknown person and almost destroyed. This is our eternal shame. You must search the city for this person. If you find him, kill him and notify me immediately!"

He handed over Su Yu's portrait to them.

The many experts immediately dispersed.

After they all left, a trace of anxiety appeared on Shao Hao's face. He asked, "Yanran, how are the Martial Dao resources that have been confiscated from the various factions?"

The treasury of North Bright City had already been ransacked.

It was simply impossible to pay more resources to the experts that followed them.

As for the many shops in north bright city, they were still in the distortion of space and were unable to confiscate their resources.

They could only forcefully take them from the treasure vaults of the large and small powers.

Yanran took out a spatial storage item and handed it to Shao Hao.

The latter swept his gaze over and frowned. "Only ten billion worth of resources? What use is that?"

He had close to a hundred Earth Dao Masters by his side. Ten billion was simply not enough for their monthly offerings.

"Great Emperor, this is already the limit. The large and small powers are all accumulating wealth and preparing to exchange for the crossing Nightmare Lotus seat. It is already very difficult for them to hand over these." Yanran sighed helplessly.

Shaohao snorted coldly. "What are you saying? They have taken root in my territory and all the resources they have earned belong to me. So what if I take a portion?"

"Pass down the order. All the sects must hand over one-third of the resources in the treasury. If they don't comply, I will personally come!"

Hearing this, Yanran secretly frowned and advised, "Great Emperor, you can't do this! One-third of the resources may decide the life and death of a sect. If the great emperor forcefully takes it, it may very well cause them to defect."

Shaohao didn't think much of it. "I would still be afraid of them rebelling. Hehe! Take them away immediately!"

Even though that was what he said, Shaohao understood it very well.

His actions were harming his foundation, and it was very likely that it would trigger a large-scale rebellion.

However, he had no other choice.

If he couldn't gather enough martial dao resources in a short amount of time.

At least half of the one hundred Earth Dao Masters that followed closely behind him would be gone.

The most important power in the battle for the control of time was the Underground Dao Masters by his side, not the leaders of the sects and forces.

Thus, he could only come up with this plan.

"Alright." Yanran sighed. "I'll inform them again."

"Wait!" Shaohao's eyes flashed. "Let Biyun Hong Xian go with you."

Yanran immediately understood Shaohao's intention.

To spy on her!

He was worried that Yanran would pocket a large amount of martial arts resources during the seizure process.

Yanran was displeased and said calmly, "Emperor, are you suspecting me?"

Shaohao's expression did not change and he said, "What are you talking about? I'm just asking Biyun Hongxian to help you take a look."

Yanran clenched her fists slightly.

Ever since they returned from the time wilderness, Biyun Hongxian and her father had brought back nearly twenty Dominators' magic treasures.

Shao Hao's trust in them grew stronger and stronger.

On the other hand, she had only handed in a few items due to her misgivings.

In stark contrast, Shao Hao's attitude towards her was clearly not as good as before.

"Great Emperor, I'm not your subordinate. I'm here to assist you. What good will it do me if I drag you down now?" Yanran asked with a burning gaze.

Shao Hao wasn't angry. "I said that I didn't doubt you! Do As I say!"

Yanran's lips twitched, and she left angrily.

Shao Hao stared at her back with a much gloomier expression. "Does this woman think that I don't know that she's hiding a sovereign artifact and won't hand it over?"

He looked at the spatial storage device in his palm and became even more suspicious. "You only took ten billion? It would be strange if you didn't take money from it!"

He didn't know that a weak spatial ripple had flashed past under Yanran's feet just now.

Outside the Great Hall.

In a certain corner, Yanran clenched her hand and a spatial domain appeared in her palm.

Yanran's pretty face was filled with coldness when she saw the information within.

"You are indeed suspecting me!" Yanran couldn't help but think of Su Yu's warning. Shao Hao might very well be disadvantageous to her.

She understood Shaohao's character.

He would do anything to achieve his goal!

For the sake of the remaining Dominion artifact in her hands, he might really order someone to assassinate her.

After thinking for a moment, Yanran activated the jade art and contacted Su Yu.

"Senior, can you come out and meet me?" Yanran sent a message.

Su Yu was in a certain restaurant and immediately replied, "When and where."

"Tomorrow, at this time, at the city gate," Yanran said.

At this time tomorrow, she would set off from the city gate and head to the various factions to Recollect Martial Dao Resources.

Before she left, she wanted to see Su Yu once more to understand the situation that day in detail.

The next day.

Yanran left the Great Emperor Palace alone and headed toward the city gate.

Just as she left, Yanran's sharp senses sensed that there was a faint eye in the sky watching her back.

There was no doubt that Shaohao's people were secretly watching her.

She was angry, so she used her spatial domain and left calmly.

In the next moment, she appeared near the city gate.

There was still an incense stick's time before the agreed time.

She leaned against the city wall and thought quietly.

"Shaohao, will he really kill me? Or is there another misunderstanding?" Yanran thought calmly.

If she could confirm the identities of the three people who had discussed killing her, then the truth would come out.

Subconsciously, Yanran still believed in Shaohao.

Although he was arrogant, he was not stupid enough to make a move on her.
