

Nine-Dragon 2681

Chapter 2681 All Of Them Had Been Refined

This snort scared the three hundred dao masters behind him so much that they hurriedly took out their identity tokens, indicating that they had been ordered to act.

They had absolutely no intention of betraying the waning Moon Empress.

There was also another group of spies from Emperor Shao Hao.

Everyone revealed themselves one after another, revealing their identities.

"Very good, all of you come out with me." The waning moon empress and Emperor Shao Hao said in unison.

Everyone let out a long sigh of relief. They looked at the tunnel masters who had been left behind in the dimension with pity.

Their fate was very clear.

Only death awaited them!

"As for all of you!" After everyone who should leave had left the dimension, great emperor Shao Hao stood at the gap and stared at them with a disdainful gaze.

This made their faces filled with despair.

They had just joined the starry rain empress's name when she was killed.

Was there anyone more unlucky than this?

At this moment, they wanted to cry but had no tears.

However, Emperor Shao Hao suddenly changed his tone, "Congratulations, you have passed the test. We will choose the strongest among you to be the imperial guards of the Starry Rain Empress."

Hearing this, they were all stunned and didn't understand what was going on.

On the other hand, the 400 or so Earth Dao masters who had left the space were all stunned.

Assessment?

It was at this moment that they left the space. They could see the situation of the foreigners clearly.

When they swept their gaze across, their expressions could not help but change.

Empress Starry Rain's residence was peaceful. Where were the traces of a battle?

Furthermore, Empress Starry Rain was not dead either!

In the courtyard in front of them, Su Yu crossed his legs and sat quietly on the chair.

Empress starry rain massaged his shoulders and back from behind.

"Mr. Su, you have a way to force out so many problematic tunnel masters in one go." Empress starry rain was secretly shocked.

She had thought that it was an individual like Ying Kuan who had problems.

Who knew that so many spies had been tested out in one go.

She had still thought that empress waning moon and Emperor Shao Hao were too simple.

She had thought that it would be easy to poach their people.

Who knew that they would secretly send over a needle.

If the time for the ruler of time contest was about to begin, they would switch sides at the last minute.

The consequences would be too terrifying.

She had invited Su Yu to test them. It was really just a simple decision.

"You guys..."ying Kuan immediately understood what was going on.

What he did not understand was that everything that had happened just now was definitely not an illusion.

But why was it so real?

"To be able to test it out so easily, I have really overestimated all of you."Su Yu said indifferently.

Ying Kuan's gaze focused.

Since he had been exposed, what else was there to defend?

"Kill this person!"Ying Kuan shouted in a low voice.

Only after personally coming into contact with Su Yu did he realize how terrifying Su Yu was.

He was simply hiding it well.

With such a person by Empress Starry Rain's side, there would be endless trouble in the future!

However, how could empress starry rain make them take action?

"In my residence, I don't have the qualifications for you to indulge yourselves!"She formed a seal with both hands and immediately activated the array formation in the residence.

That was a middle-stage tunnel master level array formation that was specially designed to guard against external enemies.

However, a huge energy net that flickered with five-colored light descended from the sky.

It enveloped everyone who had just barely come out.

Ying Kuan was not flustered. He sneered, "We have so many people, why should we be afraid of a mere array formation?"

If it was a Heavenly Dao master level array formation, the four hundred Earth Dao Masters naturally could not do anything to it.

However, it was a pity.

This was only an intermediate level Earth Dao master level array formation.

Break!

Ying Kuan let out a furious roar. Together with the rest of them, he immediately tore apart the huge net.

Then, he surged out like a tide and charged towards Su Yu.

However, Su Yu still did not move.

There was not a trace of fear on his face.

He simply took out a small cauldron and threw it into the air.

Immediately, the small cauldron turned into a hundred thousand feet large and fell down with a bang, trapping all of them inside.

Following that, Su Yu activated the eight great domains.

Using the domains as fire, he refined them on the spot.

In an instant, miserable cries filled the sky.

Within the nine dragons divine cauldron, they used all of their abilities in an attempt to break open the nine dragons divine cauldron.

Because of this, the divine cauldron shook incessantly, faintly showing signs of being opened.

"Suppress!" Su Yu casually threw out a cauldron of eight great domains.

The two cauldrons overlapped, suppressing quite a bit of the resistance.

However, the other party was, after all, more than four hundred Earth Dao Masters.

With Su Yu's strength, it was impossible to completely suppress them.

When they gradually calmed down from the panic and began to work together, the nine dragons divine cauldron was showing signs of being broken.

"What are you waiting for?" Su Yu said indifferently, "Come over and help."

A group of Earth Dao Masters came out from the space one after another. Under Su Yu's orders, each of them used all their skills to suppress them together.

There were more than 800 of them.

It was a piece of cake for them to join hands to suppress the resistance of more than 400 people.

Dong Dong Dong --

In the end, one could only hear the dense sound of raindrops coming from the inside of the nine dragons divine cauldron.

The Divine Cauldron was as stable as Mount Tai and could no longer be shaken.

Ten days later.

The sound of Raindrops was much weaker.

After a month, there were only a few knocking sounds left.

Half a year later, it was deathly silent inside, and large amounts of black smoke began to rise.

An entire year later.

The last wisp of smoke dispersed from inside.

The many tunnel masters were exhausted as they withdrew the power of the tunnel masters.

Su Yu stood up and waved his hand through the air. The nine dragons divine cauldron continued to shrink until it was the size of a palm and returned to his palm.

Fortunately, he had secretly used the secret technique imparted to him by ancient god Nine Dragons to change the shape of the nine dragons divine cauldron.

As a result, none of the eight hundred Earth Dao Masters recognized that this was the nine dragons divine cauldron.

He lowered his head and saw that the divine cauldron was filled with densely packed thumb-sized crystal balls.

Each one represented the lifetime cultivation and Great Dao of an Earth Dao Master.

Su Yu suppressed his desire to devour all of them. He took out ten and said, "Each of these ten will be rewarded with one."

He called out their names one by one.

The names called out were all those who had been exceptionally calm and collected during the assessment.

They did not surrender, nor did they rebel twice.

Being able to calmly determine the truth of the matter in a crisis was enough to prove that they were qualified to be the personal guards of Empress Star Rain.

The ten tunnel masters were slightly stunned, not understanding what this was.

"Swallow it."

They hesitated for a moment before trying to swallow it.

In the end, what made them ecstatic was that their cultivation, which had stopped for countless years, had actually increased by leaps and bounds.

There was even an old tunnel master who had reached the peak of the tunnel master level in one go, and was on par with Fei Yunsheng.

The other nine tunnel masters had also made huge improvements.

"Mr. Su, what is this?"The ten tunnel masters were excited.

Su Yu said indifferently, "It's a reward that you can get again if you perform well."

He didn't name what this thing was.

They didn't need to care because they were concerned about how they could get it again.

"Mr. Su, what about us?"The remaining tunnel masters were so jealous that their eyes were red.

Oh My God, could there be an even better resource than this?

One could reach the peak of the initial stage!

The corners of Su Yu's mouth curled up, and he smiled lightly. "That will depend on your performance four years from now."

Four years from now, it would be the time to fight for the dominance of time!

That moment would be very fast.

Tomorrow, the new book 'Martial Emperor Jue Tian' would be on the shelves. Those who liked it should go and subscribe to support it!

Chapter 2682 Refining The Emperor

After dealing with the local dao master he had recruited, Su Yu no longer had any worries.

After spending a few days with Qin Xian 'er and Su Cai 'er, he resolutely went into seclusion.

He took out Shaohao's time acceleration magic treasure and activated it.

Instantly, time within the secret chamber was accelerated by ten thousand times!

After spending 40,000 years in this place, only four years had passed in the outside world.

This was the longest retreat in Su Yu's life.

Taking a deep breath, Su Yu took out a thick stack of information on the Nightmare Ferrying Lotus seat. He wanted to completely master the refining method of the nightmare ferrying lotus seat within 40,000 years.

He formed a seal with one palm, and an identical Su Yu appeared beside him.

It was the clone that had been created from his soul.

He would be in charge of comprehending the Nightmare Lotus seat.

As for his original body...

Su Yu's heart moved, and he entered his storage space.

There, a lifelike snow-white fox was lying there peacefully.

It was beautiful and noble, making people worship it.

One of the eight tails behind it was broken, and no one knew where it went.

Su Yu waved his palm, and the broken tail flew over and landed in his palm.

Back then, the remnant soul of the nine-tailed emperor tricked Su Yu into bringing her and her body to the demon world.

It was to reunite her body with the last lost tail.

In this way, the remnant soul could completely control the body and indirectly resurrect the nine-tailed emperor.

Unfortunately, Su Yu saw through it and destroyed it.

After so many years.

Su Yu once again faced the nine-tailed Emperor's corpse.

"The blood of the emperor can be the oil in the oil lamp of the mortal body." He muttered, "The Buddha of ten thousand lamps gave me the lamp with his lifetime of Dao strength, but he did not give me the oil that the flame would continue to burn."

At this moment, he somewhat understood why the oil lamp would wither.

The rootless flame could only burn for a while.

Only when the oil lamp was eternal would the light lamp never be extinguished.

Half a drop of the emperor's blood could only sustain the oil lamp for an hour.

Therefore, he needed more.

He had tried the body of the nine-tailed emperor. With his current ability, he could not even move it.

Refining the emperor's blood from it was as difficult as ascending to the heavens.

However, this severed tail could still be tried.

With a thought, Su Yu took out the nine dragons cauldron.

He placed the severed tail inside and used the eight domains as flames to refine it.

Time was like water.

In the accelerated state, ten years passed in a flash.

Su Yu's body was covered in dust.

He still persisted day after day, refining the tail.

However, ten years passed.

The severed tail was still the same.

There was no sign of it being refined at all.

Even the color of its fur had not changed.

It was as if all Su Yu's efforts in the past ten years had been in vain.

However, he did not give up.

The oil lamp was one of the most powerful weapons in his life as a mortal.

As long as there was a glimmer of hope, he would not let it go.

Another ten years had passed, but the tail was still the same.

Thirty years had passed!

Forty years had passed

50 years passed..

After 100 years, the tail finally changed.

The snow-white hair started to show a faint greenish-black color.

After 100 years, only the hair had changed slightly.

Half of Su Yu's body had been buried by the scattered dust within half a year.

If he did not control the fire of his domain, it would have burned steadily.

He would have doubted if he was still alive.

Thus, the refinement continued in an orderly manner.

Another hundred years passed.

The dryness didn't defeat Su Yu, nor did it make him have any thoughts of giving up.

The color of the severed tail was already slightly black, but there was still a long way to go before the blood of the emperor was refined.

Three hundred years passed!

Four hundred years passed!

A full thousand years had passed.

The space had long since been turned upside down, and countless creatures had long completed the transition between life, death, and old age.

The place where Su Yu was was buried by dust, becoming a small hill in natural evolution.

In the hill, the severed tail finally showed a very obvious change.

All of its hair had been refined until it withered and fell off, turning into black smoke and dust.

What was left was the bald fox tail.

After a thousand years, only its skin had been refined.

Only by refining its skin could one see the emperor's blood!

And the difficulty of refining the skin would be several times more difficult than refining the hair!

Su Yu took a long breath and once again fell into the endless boring refining process.

A thousand years had passed.

The skin of the fox tail had only revealed a little burn mark.

Who knew how long it would be before it completely melted!

Tens of thousands of years passed silently.

The Hill Su Yu was on had already become a mountain.

In the mountain.

In the nine dragons cauldron in front of Su Yu, the skin on the Fox's tail was completely charred.

However, not a trace of the emperor's blood had been refined.

Ten thousand years of hard work might have been for naught.

Su Yu's heart could not help but waver.

Sacrificing such a huge price, in exchange for failure?

Absolutely Not!

A great rebellious intent arose in his heart.

If 10,000 years was not enough, then 20,000 years, until the blood of the emperor was refined!

Gritting his teeth, Su Yu continued to refine.

Another 10,000 years passed.

The skin of the tail was only more charred, and there was still no blood of the emperor.

Su Yu made up his mind. He would not give up until time accelerated.

Thirty thousand years passed.

The skin was as black as charcoal.

When the forty thousand years passed.

Finally, with a crack, the black fox skin that was as black as charcoal finally broke into a tiny crack.

A trace of nine-colored blood slowly flowed out.

The emperor's blood!

Su Yu suddenly opened his eyes, his eyes filled with joy.

After 40,000 years of continuous refinement, he finally succeeded.

He immediately put away the first drop of the son of Heaven's blood.

When he noticed that time was speeding up, he immediately seized the time to continue refining.

A thousand years later.

The second drop of the son of Heaven's blood was refined.

Five hundred years later.

The third drop of the son of Heaven's blood was refined.

A hundred years later, the fourth drop of the son of Heaven's blood was refined.

As it was refined to the end, the layer of skin became more and more fragile, and it became easier and easier to refine the son of Heaven's blood.

Unfortunately, the effect of the time acceleration magic treasure was finally over.

The time in the secret chamber was already equal to the time in the outside world.

This meant that the four-year period had come.

The battle for the control of time was about to begin.

Su Yu could only put it down temporarily.

However, after 40,000 years of refinement, this layer of fox skin was getting weaker and weaker.

In the future, with his own ability to speed up time by a thousand times, he would be able to refine a drop of the emperor's blood in about half a year.

His 40,000 years of hard work was not in vain.

He looked at his clone again.

As early as 100 years ago, the clone had already stopped comprehending.

This was because all the books had been learned in 40,000 years.

"Return!" The order was given.

The clone returned to its original body.

Su Yu rubbed his extremely tired head and slowly walked out of the secret chamber.

After forty thousand years, there was a layer of vicissitudes and steadiness in his eyes that he had never seen before.

Outside the secret chamber.

Eight Hundred Earth Dao Masters, Empress Starry Rain, Qin Xian 'er, su Cai 'er, and the others were waiting outside the door.

"Welcome Mr. Su out of seclusion!"

"Husband!"

"Father!"

A group of people went up to greet him.

Chapter 2683 The Struggle For Dominance

Su Yu felt extremely close to her.

They might only feel that they had not seen each other for four years, but to Su Yu, that was 40,000 years!

He patted Su Cai'er's head, feeling especially sympathetic.

A few years had passed, and Su Cai'er was already an eighteen-year-old girl.

She had inherited Qin Xian 'er's ethereal beauty.

"This is for you." Su Yu took out a jade seal. It was the sect master seal of the Tai Yi sect from back then.

He gave it to him as well as countless time crystals.

"Keep it for self-defense." Even though Su Cai'er already had a defensive magic treasure of the Heavenly Dao master level on her.

However, those were all one-time consumables.

The sect master seal could be activated at a critical moment and burst out with astonishing potential.

"Thank you, Father." Perhaps it was because they hadn't seen each other for many years, Su Cai'er had more expectations and less familiarity.

Looking at the familiar face in front of him, Su Yu had a strong desire to protect him.

If it was not for himself, even if it was for them, he would fight without rest.

Wu --

The desolate sound of a horn was slowly blowing over from the direction of the distant sacred city.

The weather in the sky changed.

Countless flying birds landed one after another, not daring to fly in the air anymore.

The Beasts on the ground hurriedly returned to their nests, not daring to linger outside.

The countless warriors in the wild returned to the nearby cities, their expressions changing. They curled up and didn't dare to come out.

All the sects and forces, big and small, chose to close their mountain gates and open their sect formations.

Even the mortals stopped moving and didn't come out.

The Sky and Earth were completely silent.

The formless pressure was like heavy air, slowly pressing down, making it hard for all the living beings to breathe.

Only the four descendants of the ruler of the broken dream realm let out the roars of the peerless experts.

They seemed to be responding to the desolate horn, responding to the war that was coming.

Queen Star Rain's weaker body slightly trembled as she muttered, "It's about to start!"

The battle that concerned the life and death of the descendants of the ruler was about to begin!

Su Yu raised his head and looked over.

He could clearly feel that the time domain covering the southern part of the dream boundary was rapidly weakening.

This meant that the ruler of time was dying.

Once the time domain completely dissipated...

Once the ruler of time died...

The world would no longer have the power to suppress the descendants of the ruler of time.

A life-and-death battle was inevitable.

Eastern light city.

Emperor Ming Xin looked at the sky and clenched his fists. His eyes were filled with fighting spirit.

"Fight with all your might and die without regret!" Emperor Ming Xin roared in high spirits.

More than a thousand tunnel lords gathered around him and shouted.

"Emperor Ming Xin will definitely become a ruler!"

Killing intent and killing intent condensed into a wave of battle intent that swept through the sky.

At that moment.

In the western light city.

The Empress of the waning Moon tribe stood in the sky. Her peerless figure and Aura overpowered the vast expanse.

"I am the ruler!"

Countless followers roared.

They were like arrows that were ready to be shot!

Northern Light City.

The city was in ruins.

Not a single person could be seen.

Emperor Shaohao's whereabouts were unknown, and the experts around him were nowhere to be seen.

Northern Bright City had already lost a lot of its vitality to Su Yu before the battle even began.

In a dark room.

Shao Hao and dozens of underground dao masters were staying in a small room.

The atmosphere was very heavy.

The only people Shao Hao could trust were the ones around him.

The only ones he could use were them.

"Everyone, please be patient." However, Shao Hao was very calm. "Fighting for the world is not something that can be done in a short period of time. I already have a plan."

"Now, we just need to conserve our energy and wait for the right opportunity before we charge out."

The dozens of local dao masters forced themselves to be alert, but they really could not squeeze out a smile on their faces.

They were already in such a dire state, what else did Shao Hao have to rely on?

Unexpectedly, Shao Hao smiled confidently. "Do all of you think that I, Shao Hao, am really that unbearable?"

"From the beginning, my center of gravity has not been the dream boundary, but the other two worlds! The power of the dream boundary is just the tip of the iceberg for me."

He revealed a huge secret, causing everyone's spirits to shake.

"Sir Shao Hao, could it be that you..."

Shao Hao smiled mysteriously. "Playing hard to get, showing weakness to others. By the time the three idiots in the dream boundary realize it, it's already too late!"

His laughter penetrated the secret chamber and reached the nine heavens!

Half a month later.

The time domain became thinner and thinner.

The time hourglasses above all the living beings' heads rapidly weakened at a speed visible to the naked eye.

Su Yu said solemnly, "Make your preparations."

Everyone nodded and waited patiently.

Finally, three days and two hours passed.

The time hourglass was completely shattered!

"The ruler is dead, and the new ruler is in power!" Empress Starry Rain ascended to her high position and waved her arm.

The eight hundred or so Earth Dao masters under her exploded with an earth-shaking echo.

Clang --

Empress Starry Rain pulled out the long sword in her hand and pointed at the distance. "Sword finger... East Bright City!"

Everyone was stunned.

Didn't East Bright City sign an alliance with South Bright City?

Why did they turn against each other from the start?

However, the point of the sword was the direction of their footsteps.

"Kill!" The wheels of war finally began to move.

South Bright City poured everything they had into charging toward East Bright City.

At the same time.

All Kinds of intelligence personnel reached their most active peak.

In each city, there were intelligence personnel from another city secretly transmitting messages.

In a short period of time, no less than 10,000 messages were sent from south bright city to every corner of the broken dream realm.

For a moment, the broken dream realm was shocked.

Why did the two forces of the Alliance break the agreement and start killing each other at the first moment?

The Empress of the crescent moon was very surprised when she received the news.

As she expected.

South Bright City and East Bright City should join forces to deal with West Bright City or North Bright City together.

Who would have thought that South Bright City would break the alliance and take the initiative to attack East Bright City.

What was more surprising was that south bright city was the weakest city.

Not only did they not choose the alliance in the beginning, but they even put themselves in the whirlpool of war.

It was really irrational.

"How many tunnel masters did South Bright City Lead?"Empress Crescent Moon asked.

It was not that she deliberately looked down on south bright city.

It was just that south bright city was indeed too weak. There might not even be a few decent tunnel masters.

"There are more than 800 tunnel masters in total."

What?

The crescent moon Empress's beautiful eyes suddenly widened. "How many? 800?"

"Yes, many intelligence officers gave the same information."

The crescent moon empress sucked in a breath. "I underestimated that girl after all. It turns out that she's the one who hides the most!"

"All this time, I thought Emperor Mingxin was secretly bribing the tunnel master. I didn't expect it to be her!"

After pondering for a long time, the crescent moon empress said in relief, "No wonder she attacked Dongming city in the first place."

"The little girl is hiding so deeply. Is she trying to catch Dongming City off guard?"

She first used the alliance agreement to stabilize the other party, then secretly accumulated strength to give Dongming city an unexpected fatal blow.

She somewhat admitted that the little girl, the method is quite clever.

Chapter 2684 Fish In A Barrel

"Your Majesty, why don't we take this opportunity to attack Queen Starrain's South Light City?"A staff member suggested after careful consideration.

At this moment, south light city was at its weakest.

If they could take it down in one fell swoop, Queen starrain would have no way out.

The waning moon empress shook her head slightly. "What's the use of occupying South Light City?"

This wasn't a battle between mortals.

It was a bloodline battle that would take a person's life.

Only by killing Empress Star Rain would one have the chance to advance.

Therefore, the target should be Empress Star Rain.

"Let's wait and see if the two sides are really going to fight." The Broken Moon Empress narrowed her eyes.

She was extremely cautious and wouldn't act rashly.

After all, what if Empress Star Rain and Emperor Ming Xin were just putting on a show for her?

"Yes!"

At that moment.

The South Light City army marched east.

The people of East Light City panicked.

Emperor Mingxin himself jumped in fright.

This was because the South Light City side had indeed not discussed anything with him beforehand.

They had come out of nowhere!

"Emperor, the South Light City Alliance has been broken. What are we waiting for? Let's Go!"

This was a life-and-death battle.

There was no room for retreat.

Emperor Mingxin's eyes were filled with a deep struggle.

No!

No!

If Su Yu had planned to delay the war from the start, why would he give him such a precious ruler-level magic treasure.

Emperor Mingxin was someone who was extremely good at thinking.

After a long pause, he calmed down.

An imperceptible smile blossomed on his lips.

"So that's how it is!"

Su Yu wanted to feign conflict with him and deceive the Outsiders.

He would then give the outsider a surprise attack.

"Send out troops and welcome the battle!" Emperor Mingxin ordered.

Instantly, the foundations of East Bright City that had been hidden for many years finally appeared.

More than a Thousand Dao masters swarmed out of their hiding places and charged toward the attacking South Bright City Army.

The battle between the two sides was serious, and there was no room for reservation.

The battle was intense, and blood flew everywhere.

Countless lives were harvested on the battlefield, and it was tragic and desolate.

Within a day, hundreds of Earth Dao Masters died in the tragic battle.

Most of them came from Nanming City.

Only a few belonged to Dongming city.

At the same time.

Countless pieces of information flew toward Ximing city like pieces of paper.

The crescent moon Empress was analyzing the information nervously.

"More than 300 tunnel masters died within a day?"The crescent moon Empress took a deep breath.

This number was truly terrifying!

"They really started fighting!"The crescent moon Empress immediately made a judgment.

"However, why are the majority of the people who died on the South Bright City side?"

South Bright City couldn't possibly send 300 tunnel masters to their deaths just for the sake of acting, right?

After a long time, she finally made up her mind.

"Men, all the soldiers of West Bright City, come with me."The crescent moon Empress summoned all of West Bright City's troops!

Around Nine Hundred Dao Masters followed the crescent moon Empress as they charged toward East Bright City.

At the same time, an army headed toward East Bright City.

During the short break between the two sides, a letter written by the Crescent Moon Empress landed in front of Emperor Ming Xin.

Emperor Ming Xin smiled as he read the letter.

Just as Su Yu had expected.

The Broken Moon Empress would definitely fall for it.

With a wave of his pen, he wrote down a letter detailing the alliance and ordered the messengers to bring it back.

After receiving the letter, the Broken Moon Empress was relieved!

According to their agreement, they would fight tomorrow.

The Broken Moon Empress's army charged out from behind South Light City and attacked East Light City from both sides, destroying the city.

The next day.

After East Light City and south light city rested for a day, they fought again.

Queen of the starry rain clan looked at Emperor Ming Xin and said, "Today is the day of our battle!"

Emperor Ming Xin laughed and said, "Bring it on!"

The forces of both sides clashed once more.

Instantly, blood splattered everywhere.

The two sides were almost on the same level of strength, so they quickly fell into a stalemate. Neither side could do anything to the other.

But at this moment.

Behind South Light City, countless experts suddenly appeared.

Surrounded by experts, the waning moon Empress sent out a signal to charge toward south light city.

"Those who kill one person will be rewarded with 10 billion time crystals!"

Under the huge reward, her subordinates became even more valiant. Like a tiger entering a flock of sheep, they pounced into south light city to start a slaughter.

For a moment, south light city fell into a pincer situation.

The originally orderly battle line was immediately thrown into chaos.

Empress Starry Rain hurriedly commanded from both sides.

But she was at her wit's end!

Her own people were defeated layer by layer. They simply couldn't stop the powerful alliance between the two sides.

Seeing this, Empress Crescent Moon's eyes revealed a sharp look as she shouted, "Kill!"

Her troops were like a sharp spear, piercing towards Empress Starry Rain, who was surrounded by the South Bright City Army.

If she could kill Empress Starry Rain first, she would be able to obtain Empress Starry Rain's time domain bloodline and strengthen herself.

On the other hand, Emperor Mingxin was still focused on the overall situation on the battlefield and didn't know the importance of killing people.

They were close!

Ten thousand feet!

Ten thousand feet!

One thousand feet!

Right before their eyes!

Empress partial moon licked her lips. She would be the one to win the first battle in the battle for dominance!

"Imperial sister, Goodbye!" A flash of cruelty flashed through Empress Crescent Moon's eyes. Under the protection of dozens of guards, she charged forward.

However, what puzzled Empress Crescent Moon was that.

Empress Starry Rain had instead regained her composure at this moment. She stood motionlessly on the spot.

The guards beside her seemed to have lost consciousness as well. They did not know how to protect her at all.

Wait!

Something was wrong!

Empress Can Yue had an extremely bad feeling.

"Retreat! Quickly!"

She was extremely cautious and reacted extremely quickly.

However, she was still a step too late!

Empress Starry Rain and the guards in front of her, as well as the countless south light city tunnel masters who were fighting, were all shattered like phantoms.

The remaining tunnel masters from West Light City and East Light City were at a loss and did not know what to do.

The experts of South Light City, who had been fighting with them, suddenly disappeared.

Kill!

"Kill!" A battle cry came from behind Empress Cruel Moon.

Empress Starry Rain rode a magic treasure chariot, and under the protection of a Hundred Dao Masters, she led eight hundred dao masters and charged toward them.

On East light city, Emperor Ming Xin laughed, "Please enter the trap and succeed! Everyone in East Light City, listen up and destroy the enemies of West Light City!"

As a result, many of the experts of Dongming city fell into the trap of Dongming City and South Ming City.

The Empress felt as if she had been struck by lightning.

She finally understood what was going on.

The alliance between the two sides was still there, and it hadn't been broken.

Everything had been an act for her to see!

The casualties in South Ming city had all been caused by a single thought!

She had mistakenly believed it to be true, but in the end, she had fallen into the trap of both sides and became a turtle in a jar.

Thinking up to this point, the crescent moon Empress' heart was like a volcano erupting, and she couldn't contain her anger.

"You... You set me up! !" The crescent moon Empress took out a ruler-level magic treasure.

That was an existence at the Heavenly Dao master level. With just a single move, it could turn Dongming city and countless experts in front of her into ruins.

Chapter 2685 Mortal Sacred Body

Empress Starry Rain wasn't afraid at all.

She calmly took out a jade pendant from her sleeve. It was a defensive ruler-level magic treasure at the Heavenly Dao Lord level.

It could completely block Empress Crescent Moon's attack.

"Hehe, sister, feel free to release it. It's fine," Empress Starry Rain said with a smile.

Emperor Mingxin also took out a defensive magic treasure.

It was a ruler-level magic treasure as well.

"Sister, feel free to release it. Those who die will all be your people," Emperor Mingxin said with a chuckle.

Both sides had defensive magic treasures that could protect their own people.

On the other hand, Empress Crescent Moon.

Once she activated it, everyone around her would die except for herself.

Empress Crescent Moon's pupils constricted. "Why? Why does South Bright City have it too?"

She understood that East Bright City had it.

Shao Hao had given it to her. She already knew this in advance.

But why did South Bright City have it too?

Weren't all the ruler-level magic treasures controlled by Shao Hao?

Could it be that South Bright City's was also given by Shao Hao?

Empress starry rain chuckled. "Sister, why are you asking so many questions? You only need to choose whether to surrender or not."

The Empress of the waning Moon Empire was doomed today.

"Surrender? In your dreams!" Empress of the waning Moon Empire's eyes were cold as she decisively activated the ruler-level magic treasure!

A crushing sound of destruction exploded from the ruler-level magic treasure.

A pillar of yellow light shot up into the nine heavens.

It dyed the entire sky as dark as dusk.

Under this light screen, everything was melting, and even time was decaying.

The city walls collapsed, the plants withered, the land became barren, and the sky grew old.

The living beings felt that their time was passing by at an alarming rate.

Empress starry rain and Emperor Mingxin's expressions were solemn as they immediately activated their defensive ruler-level magic treasures.

Two light screens enveloped each other.

Their people were safe and sound.

However, time was taken away from the experts brought by the broken moon empress, and they began to age at a speed visible to the naked eye.

Then, they died of natural causes.

Their corpses decayed at an alarming rate.

Finally, they decayed into ashes.

Only the broken moon Empress had a defensive magic treasure bestowed by the ruler of time.

She wasn't afraid of the passage of time.

While the power of the attacking magic treasure was still there, neither side dared to leave the defensive light shield.

The Queen of the waning moon immediately fled toward Westlight city.

Ten days later.

The residual power of the attacking magic treasure was finally gone.

Except for their two defensive areas, the surrounding area had become a desert.

All kinds of spiritual veins, profound qi, spiritual herbs, cities..

Were all gone.

What replaced it was an endless desert.

It was hard to imagine that ten days ago, this was Dongming city.

Emperor Mingxin took a deep breath. "This is the attack of a sovereign artifact!"

With a single thought, everything changed!

"Chase her!" Su Yu said.

Empress waning moon was too crazy!

If she was willing to fight, she could at least last another ten days or half a month.

However, she was extremely crazy to activate the ruling magic weapon.

Even at the expense of all her people-as long as she lives.

Think of the waning moon Empress secretly control of the mortal body, as well as the poison in the body of the emperor's wife residual blood.

Su Yu's heart slightly heavy.

With her crazy nature, don't do anything too crazy.

The two sides joined forces and charged toward Ximing city.

The moment they reached the border, they were ambushed by the remaining experts.

However, under the pressure of the two armies, they were like a mantis trying to stop a chariot.

They looked down on everyone along the way!

Half a month later.

Nanming city and Dongming City's armies arrived below Ximing city.

At this moment, Ximing City had already activated its defensive light shield.

However, what use was it under the attacks of so many tunnel lords?

It was destroyed in an instant!

However, the moment the defensive light barrier shattered, a trembling aura slowly spread out from the Empress Palace.

It was a human youth with his eyes closed.

An ancient oil lamp floated above his head.

The oil lamp gave off a weak light.

Suddenly, the human youth's eyes opened, and they were filled with killing intent.

"A mortal sacred body!" Empress star rain and Emperor Ming Xin were both shocked when they recognized him.

Even they had heard of how terrifying a mortal sacred body was.

It was an existence comparable to the stone fetus emperor!

"Hehe!" A female's cold laugh came from the mortal sacred body. "I've actually been waiting for this day for a long time."

The mortal body was a hidden technique that she had been looking forward to.

Compared to it, the powers of the experts were too weak.

In the past few years, not only had they been researching how to ignite the oil lamp of the mortal body, they had also been researching how to control the corpse of the mortal body.

"I'll show you the power of the mortal body!"

As soon as the crescent moon Empress finished speaking, the oil lamp immediately exploded with a nine-colored light.

It caused the mortal sacred body to turn into a nine-colored being.

"God Eye of Destruction!" The corpse opened its eyes.

Even its eyes were nine-colored.

Wherever the light passed, the Earth Dao master's soul would dissipate the moment it touched it.

In the blink of an eye, hundreds of Earth Dao Masters were killed!

Emperor Mingxin was shocked and hurriedly took out a low-level offensive ruler-level magic treasure.

"Destroy!"

It was a magic treasure in the shape of a ring.

After it was activated, a pillar of light that was no less powerful than the previous attack at dusk descended from the sky.

The pillar of light descended from above.

It was as if it was going to destroy the entire eight-star civilization!

The space around the pillar of light shattered, revealing the defensive formation of the eight-star civilization.

Boom

The pillar of light descended.

The shattered space was completely destroyed, revealing a large array formation.

The array formation shook and cracked under the attack of the pillar of light.

Such an attack was unprecedented.

It was the most powerful attack Su Yu had ever seen since he came to the eight-star civilization.

Who could resist this attack?

However, when the pillar of light dissipated and revealed a completely shattered world, everyone was stunned.

A dazzling nine-colored light appeared before everyone's eyes.

"He's not dead yet!" Emperor Mingxin exclaimed.

The body of the mortal sacred body wasn't injured at all.

The nine-colored light on his body was only slightly dimmer.

"Hehehe... You've lost from the start!" The crescent moon empress laughed coldly. "I originally planned to save it for Shao Hao. Now, I'll let you taste the despair of a mortal sacred body!"

He formed a seal with both hands.

The entire world immediately erupted with nine-colored flames, roasting the four worlds together.

Instantly, a large number of tunnel masters discovered that their bodies were constantly dissipating, turning into nine-colored colors and fusing into the flames.

With no other choice, Empress Starry rain took out a defensive ruler-level magic treasure in pain, protecting the troops of both sides.

However, what they didn't expect was that.

The low-level defensive dominator artifact actually didn't work.

After enduring for a while, it was burned into a pile of ruins by the nine-colored flames.

Chapter 2686 Presents A Handwritten Letter

"Why is the mortal body so difficult to deal with? !"Empress Starry Rain angrily took out another ruler artifact.

It was an intermediate-level ruler artifact.

As soon as it was thrown out, it began to pour heavily.

The heavy rain was particularly special. Every drop of rain contained a time reversal domain.

The nine-colored flames that were steaming were all extinguished by the rain.

The wounded were all healed as well.

The waning moon empress was truly surprised. "Where on earth did you get so many ruler-level magic treasures?"

Shaohao might have given one or two low-level ruler-level magic treasures.

But those of the intermediate level could not be given to outsiders.

"Why do you care?"Empress Starrain was furious. She took out an intermediate-level attack ruler-level magic treasure, feeling particularly pained.

It was a long spear that could withstand the power of the time domain.

Once it was activated, an even more terrifying power burst out and pierced through time.

Empress Crescent Moon shot into his chest without any time to react.

From Afar, a long spear pierced through the entire mortal-embryo saint body.

But he didn't die!

"You guys are too shocking!"Empress Crescent Moon said in surprise.

If she hadn't mastered the mortal embryo Saint Body, she would have killed him dozens of times.

With the help of the Endless Dominators'magical treasures.

"Get lost!"The crescent moon empress shouted and slammed her palm on the ground.

The long spear was forced out of her body.

The terrifying power contained in the long spear didn't slow down, and it completely penetrated the defensive formation of the eight-star civilization.

At the same time, Empress Crescent Moon launched her third attack.

"Nine Suns scorch the sky!"He formed a seal with his palms, and a large amount of nine-colored light surged out of his body.

They soared into the clouds and turned into nine enormous nine-colored suns.

Under the illumination of the sunlight, everyone immediately felt a scorching heat.

It was as if endless flames were rising out of his body from the inside out.

Empress starrain gritted her teeth and took out another intermediate-level dominator magical equipment to defend herself.

However, the moment the defense appeared, it was actually burned away by the nine-colored light!

Her own time bloodline was showing signs of boiling.

This technique was truly too terrifying!

They couldn't let Empress Crescent Moon continue, or else they would all die!

"It's up to you!" Empress Starry Rain took out a book with extreme seriousness.

It was a high-level attack ruler-level magic treasure that Su Yu had given him.

If even this item could not kill the mortal-born saint body, then they would be in danger!

She opened the book.

Heavenly script characters shot out from the book.

Those characters imprinted themselves on the mortal-born saint body, suppressing the nine-colored light emitting from its body.

Empress Waning Moon suddenly opened her eyes, revealing a hint of shock. "Even high-grade magic treasures?"

She was completely unable to understand why Empress Starry Rain had so many ruler-level magic treasures on her.

"Open it!" She tried to push the words away.

But it was useless.

The heavenly book characters were imprinted in her body, and she could not shake them off.

Because the nine-colored light on her body was weak, the nine suns in the sky dimmed.

The troops of both sides resumed their activities and attacked with their killing moves.

No matter how strong the mortal body was, it was still one person.

How could it withstand the attacks from the sky?

Furthermore, the nine-colored light was suppressed and could not be blocked effectively.

The crescent moon empress gritted her teeth and tore through the air, leaving behind a long nine-colored shadow.

"Chase!" Empress Starry Rain gritted her teeth slightly.

Emperor Mingxin's heart sank as well.

They had never thought that the crescent moon empress would be so difficult to deal with.

They had thought that they had many people and more than a dozen ruler-level magic treasures.

But who knew that the other party had hidden the mortal body.

And they had successfully fused themselves with the mortal body, reaching an invincible state.

They had wasted more than half of the Dominators' magic treasures, but they hadn't been able to keep the waning moon Empress!

The army left.

But Su Yu chose to stay.

With a thought, he came to the Empress' palace, which was hard to break, and entered her bedroom with ease.

After fumbling around for a while, he found the entrance to the underground world.

When he arrived, as expected, he saw the poison lady.

He was on his last breath and all the blood in his body had been drained.

As expected!

Su Yu sighed lightly and tried to use the life domain to repair his body.

However, because of the emperor's blood in her bloodline, her physique was different from ordinary people.

The Life Domain could repair other attempts, but it could not repair the missing bloodline.

"Who are you..."poison fate madam said weakly.

Su Yu took off his bamboo hat and sighed softly, "I should have advised you to leave that day."

Unfortunately, there was no chance.

With the cruel and merciless nature of the waning moon empress, Poison Fate Madam was destined to become a sacrifice at the last moment.

"It's You?"The poison fate madam struggled weakly for a while, and her eyes brightened up.

Probably due to the last moment, he struggled to get up and said in an unbelievable surprise, "Langjun, you didn't die... i... Miss you even in my dreams!"

Su Yu said indifferently, "I was wrong, I shouldn't have come!"

The poison fate madam quickly grabbed his hand, and her face began to look weak again. "I know, the waning Moon Empress has bad intentions, she will attack me sooner or later..."

"But... I really can't help but be curious. I want to study the mortal body..."

She looked at the few holes on her body and the remaining blood.

"Perhaps this is fate... I'm destined to be fated with the mortal body..."

Su Yu's heart moved slightly.

It was really so.

In the outer realm, he met Su Yu.

In the eight-star civilization, he met the corpse of the mortal body.

In the end, he died because of the mortal body.

As she spoke, she took out a notebook from her bosom and handed it to Su Yu, trembling. "Pass it down for me!"

"What is this?" Su Yu did not open it.

Madam Poison's fate seemed to be speaking with her last breath as she said with difficulty, "My research on the mortal body... There are many things... that even the empress of the waning moon did not tell me..."

"I hope you can help me pass it on to a mortal body..."

At this point, Madam Poison's life could no longer speak.

She could only stare at Su Yu with expectant eyes, waiting for his response.

Su Yu nodded and said, "You've already passed it on to a mortal body. Rest assured."

His heart moved, and an old oil lamp appeared above his head.

Madam Poison's life opened her eyes wide and slowly closed them.

A trace of a smile appeared at the corner of her mouth as she said weakly, "So... that's how it is..."

In the end, she completely closed her eyes and no longer had any breath.

Su Yu's calm mood was a little unstable.

In the past, he hated this person and even treated him as an enemy.

But in the end, he became the key to reigniting the oil lamp.

Before he died, he gave him something important.

"Have a safe journey!" Su Yu used the eight domains to make her disappear from the world and erase her existence.

He looked at the handwritten letter in his hand and solemnly put it away.

He definitely had to study this thing carefully.

He knew nothing about the mortal body. This handwritten letter was exactly what he needed.

But not now.

Let's get rid of the fake mortal body out there first!

Chapter 2687 Was Out Of Her Expectations

With a thought, she activated her space domain and traversed half of the western region.

While Empress Starry Rain and the others were still in pursuit, Su Yu had already caught up with empress waning moon.

The heavenly book characters suppressing her on her body were rapidly dimming.

The nine-colored light on her body shone brightly once more.

If she was given more time, she would probably have to waste another high-level time-controlling magic treasure.

"Nine dragons divine cauldron!" Su Yu shouted in his heart.

He took out the nine dragons divine cauldron.

He used his domain to activate the divine cauldron, and the eight flying dragons on it left the divine cauldron.

He pushed the nine dragons divine cauldron and spun it rapidly.

In the blink of an eye, the nine dragons divine cauldron was like a red-hot iron.

Sou --

With a sharp sound, the nine dragons divine cauldron smashed through space and crashed into the broken moon empress.

Bang --

The Broken Moon Empress staggered forward. The nine-colored light, which she had tried so hard to break through, was smashed back.

It was smashed back fiercely.

The Broken Moon Empress got up and turned her head to look. Her eyes immediately became fierce as she roared, "It's You!"

Wasn't the person in front of her the human who had pretended to be Zuo Wei and deceived him?

Even in her dreams, Empress Starry Rain Remembered!

"You're one of Empress Starry Rain's people?" The waning moon Empress came to a realization and said through gritted teeth.

Su Yu took back the nine dragons divine cauldron and was secretly surprised.

The waning moon Empress suffered a blow, but her skin didn't even break.

To be exact, it was the mortal saint body that she occupied.

This sacred body was too tough!

It could be said to be impenetrable.

Killing it was as difficult as ascending to the heavens.

However, Su Yu did not intend to kill it in the first place!

"Suppress!" He waved his hand and threw the nine dragons divine cauldron into the air.

The divine cauldron rumbled and descended from the sky, suppressing the handicapped broken moon empress.

Bang --

But the mortal sacred body was too strong.

Before Su Yu could start refining, the Empress sent the nine dragons divine cauldron flying with a punch!

"HMPH! I can't subdue you?" Su Yu took out a mid-level time ruler magic treasure.

This was a magic treasure that could trap enemies.

Once activated, countless threads shot out from the magic treasure, densely giving the empress to the scroll master.

She had the heavenly book characters suppressing her, causing her strength to greatly shrink.

There were threads wrapped around her outside, completely binding her body.

The waning moon Empress's eyes shot out hatred. "I'll kill you!"

Su Yu said indifferently, "Unfortunately, you won't get what you want."

The nine dragons cauldron was activated again, sucking the waning moon empress into it.

This time, the waning moon empress no longer had the ability to resist, and could only be locked inside the nine dragons cauldron.

Su Yu immediately sat cross-legged on the spot, using the eight great domains to refine her with the help of the nine dragons cauldron.

He could even refine the corpse of the stone fetus son of heaven, let alone the waning moon Empress who was hiding in the mortal embryo Saint Body?

The refinement began.

Beams of nine-colored light shot out from the mortal embryo saint body to resist the refinement of the nine dragons divine cauldron.

The waning moon empress screamed continuously, "You can't do anything to me. The Mortal Embryo Saint Body is an invincible existence. You Can't hurt me!"

Su Yu was unmoved.

He couldn't hurt the mortal body.

But he could hurt the waning moon Empress who was hiding inside.

He used all his power to activate the eight domains.

Half a day later, the waning moon Empress finally felt a bit of heat.

The power of the nine dragons cauldron's Lotus forcefully penetrated the mortal body and shot into her body.

"Human, let me go and I'll give you everything you want. What do you think?" The waning moon Empress thought of something. "What's so good about that little girl?"

"Whatever she can give you, I can give you double."

Unfortunately, she did not know that everything Empress Starry Rain had was actually given to her by Su Yu.

He did not lack anything.

He only lacked her life.

"There's no need to waste your efforts. If you hand over the blood of the emperor, it will make things a little easier for you," Su Yu said calmly.

How could the waning moon Empress just sit there and wait for death?

She struggled frantically, but the suppression of the two ruler-level magic treasures left her helpless.

Slowly, she began to feel the scorching heat. Then, she let out an intense scream.

Her body was being refined by the nine dragons divine cauldron, causing it to continuously disappear.

"Admit defeat. It ends here. A quick death is better than such a miserable death," Su Yu said.

The waning moon empress gritted her teeth. "It's not over yet!"

With a flash of light, she bit down on the jade pendant around her neck.

It was a time treasure bestowed by the ruler of time.

"Time travel!"

The jade pendant was activated, and an astonishing amount of time power erupted from it.

The power of time was exceptionally powerful, and it forcefully broke through the seal of the nine dragons cauldron and the eight domains.

It swept the sealed waning moon Empress Away!

Su Yu frowned slightly.

But he wasn't too surprised.

The time treasure bestowed by the ruler of time on this woman had never been used.

However, it might not be easy for the waning moon empress to escape!

"Nine dragons chasing the Soul!" He clapped his palm, and the eight dragons on the cauldron immediately flew out.

Two hours later.

The waning moon empress, who had clearly been swept away, was carried back by the eight dragons like a caterpillar.

"Ah! I don't want it!"

The eight dragons threw her back into the nine dragons cauldron and continued to refine her.

This was also one of the magical uses of the nine dragons cauldron.

To retrieve the refined item that had escaped.

In despair, the broken moon empress was once again refined.

Not long after.

A burst of black smoke rose.

Two crystal balls dropped from the body of the mortal saintly being.

One of them contained pure energy, which should be the energy of the broken moon empress after she was refined.

The other one was filled with extremely dense time domain energy.

Su Yu picked it up and touched it with his finger.

In the end, an unexpected scene appeared.

The crystal formed by the time domain actually entered his body like water.

Furthermore, it fused with his time domain, causing his domain to expand explosively and seemed to be on the verge of reaching a high level.

"This..." Su Yu did not expect this.

This was left for Queen Star Rain!

How did it get absorbed by him?

He tried to force out this portion of the domain, but it had already deeply merged with his own domain. It was impossible to separate it.

He was sweating profusely. How was he going to explain this to Queen Star Rain?

At this moment, Queen Star Rain's army finally arrived.

Su Yu immediately cleaned up the traces on the ground.

"Brother, where's Empress Crescent Moon?" She ran to Su Yu and asked excitedly.

Looking at her expectant gaze, how could Su Yu say that he was the one who absorbed it?

"Uh, she ran away!" Su Yu said guiltily.

Empress Starry Rain's small face immediately felt defeated. "She could run away just like that?"

How much did they have to pay?

So many ruler-level magic treasures and so many dead and injured tunnel masters, but in the end, they still failed in the end!

"Cough cough, don't be discouraged. There are still other descendants of the ruler. Let's keep going. With our remaining ruler-level magic treasures, it shouldn't be a problem to kill one or two more."

Thus, Empress Starry Rain forced herself to cheer up. "I'll listen to Big Brother."

After a pause, she said, "Then, Big Brother, who do you think is better for us to attack now? Is It Better?"

Empress Star Rain was looking forward to it.

In the southern region of the broken dream realm, Shao Hao was the strongest.

Even though his power had been greatly reduced, he was still the strongest existence.

"No! Let's go to the other two realms!" Su Yu gave an unexpected response.

Chapter 2688 The Divine Body Collapses

Empress starry rain blinked. "Why?"

Su Yu raised his eyes to the north, his gaze solemn. "Aren't you curious as to why Shao Hao didn't hear any news?"

The three of them had been fighting for more than half a month.

How could Shao Hao remain calm?

If Su Yu was Shao Hao, he would definitely capture all three of them in one fell swoop at the height of the battle.

However, he did not.

It was clear that this person's focus was not on the broken dream realm, but on the other two realms.

From the very beginning, Shao Hao had no intention of wasting time in the southern part of the Broken Dream Realm.

Instead, he planned to sweep across the other two realms with a fierce momentum and finally return to destroy Empress Starry Rain and the other two.

That was why he had bestowed the ruler-level magic treasure to empress waning moon.

He wanted the chaos in the broken dream realm to last longer and give him more time.

Understanding this point, Empress starry rain immediately became worried.

Shao Hao had half of the ruler-level magic treasures.

The descendants of the rulers of the other two realms were no match for him at all.

They were all killed like livestock.

And when he obtained enough time for his bloodline, who would be his match then?

There was no one in the world who could be his match!

"There's no time to lose. We'll split into two groups. You guys head to the Netherworld while I head to the awakening realm," Su Yu said.

Empress starry rain frowned. "Is brother alone?"

She couldn't help but worry.

The struggle for supremacy was a life-and-death battle. Any descendant of a hegemon would use their last bit of strength to struggle.

They would even do many crazy things.

Just like empress waning moon.

Even the hundreds of trusted tunnel masters she had nurtured over the years were all sacrificed just like that.

She didn't even blink.

It was inevitable for Su Yu to be in danger alone.

"I have some arrangements. You All can go!"

Empress starry rain pursed her red lips and looked deeply at Su Yu. "Brother, you must return safely. Although the position of ruler is important, you are also important."

Her exquisite face turned slightly red as she lowered her head and led the army away.

Su Yu was slightly surprised. He had a feeling that what empress starry rain said just now was not just a message from his sister to his brother.

There was a deeper meaning behind it.

She watched the army leave.

Su Yu stood where she was and crushed a jade pendant. A wave of powerful messages spread out.

In a remote mountain forest in the broken dream realm.

On a boulder, Yanran was frowning and deep in thought.

"I wonder how senior is doing." Ever since they parted in northern bright city, she had never felt at ease.

Shao Hao had invited the Carefree Heaven's son clone and the imitation heaven's son ruler.

Its power was invincible.

Although she had already fled far away, she could still feel the terrifying power of the heaven's son ruler.

Could senior really withstand such a powerful and invincible attack?

Five to six years had passed.

She had never received a message from senior, which was why she had been waiting for many years in this deep mountain forest.

Just as she was thinking, she suddenly raised her eyebrows and took out her communication jade pendant.

Su Yu's voice could be heard clearly from inside.

"Come and meet me here!" There was a message from the jade pendant.

Yanran was overjoyed and let out a long sigh.

Senior was safe and sound at last.

A spatial ripple appeared in front of her and she stepped into it.

At that time.

Somewhere in the south of the broken dream realm.

An enormous array was reflected down from the sky.

The array formation was filled with the power of time and space.

Dark clouds surged out of the array formation.

The dark clouds were filled with hidden demons.

The sect master of the demon sect, the young sect master Xie Xiaoyue, the nine elders of the demon sect, and countless demon experts.

All of them came out.

"The ruler of time, finally."The sect master let out a long breath.

He had waited for a day. He had waited for too long.

If the ruler of time was here for a day, they would not be able to show their faces. They could only hide forever in a world that never saw the light of day.

Now, they had finally seen the light of day again.

"All members of the demon race, follow me to pay respects to the Holy Devil!"The sect master of the demon sect laughed and led the many dark clouds as they sped away.

At the border of Ximing City.

Su Yu sat cross-legged, silently waiting for Yanran to come over.

All of a sudden.

The space between his eyebrows moved slightly, and he released the nine serenity queen.

Compared to before, the nine serenity queen had undergone a huge change. The pitch-black scales on her body actually revealed a faint golden color.

"Has her cultivation base broken through?"Su Yu could no longer see through her at this moment.

In the past, he could still vaguely sense her supreme pressure.

But at this moment, he could only feel a calm.

It was as if she was facing an unfathomable abyss.

"Thank you, master, for helping me. My cultivation has successfully broken through to the intermediate stage of the Tunnel Lord Realm!"The nine Netherspirit Queen's face was filled with excitement and joy.

She was originally at the peak of the early stage of the Tunnel Lord Realm.

After experiencing the baptism of the absolute beginning Qi for five to six years, her cultivation had finally broken through the shackles and reached the intermediate stage!

After going through the Lingnan region several times, she couldn't find a few intermediate stage tunnel lords.

Fei Yunsheng, who was at the peak of the early stage, was ridiculously arrogant in the entire Lingnan region.

Su Yu nodded and thought, "Oh right, with your current cultivation, can you easily enter and exit the nine Nether World?"

"Of course not!"The nine nether succubus empress said happily, "Master, please open the door of the black feathers, and I'll sneak in from the Abyss."

It could be heard that she was still somewhat afraid of the Phoenix King.

After all, he had the advantage in numbers and could restrain himself.

If he was discovered, with his mid-stage tunnel master cultivation, he would be a big threat.

"Be careful!" She immediately opened the door of black feathers and let her in.

The latter took a deep breath and returned to the Netherworld realm.

After passing through the pitch-black abyss, she carefully came to the ground. Not far from the shore of the Abyss, she saw the Netherworld puppet.

It was different from the Netherworld puppet that had been torn to shreds that day.

It had actually recovered.

Furthermore, it changed the dark golden color on its body and transformed into a bright golden puppet.

"This is... a middle stage netherworld puppet?" Empress bewitching Netherworld asked in astonishment.

The Netherworld puppet was divided into four stages: initial stage, middle stage, great stage, and the final stage of evolution.

She had expected that the puppet would recover, but she had never thought that it would actually break through and reach the middle stage!

The intermediate stage signified that the puppet had reached the intermediate stage of the Tunnel Lord Realm.

"Could it be that the evolution of the puppet has accelerated because of the nine Netherworld Realm?" Empress Nine nethercharm pondered.

"I don't care. I'll take it with Me First."

She stepped forward and grabbed the puppet.

But just as she was about to leave, a sharp cry sounded from beyond the clouds.

"I knew you'd come back!" The Phoenix King's voice was filled with anger as he flew down at high speed.

Behind him were thousands of little phoenixes.

"Damn it!" The nine nethersuccubus immediately brought her puppet and jumped into the abyss.

But the Phoenix King didn't give up. He led the Phoenixes into the Abyss and kept attacking.

Although the nine Nethersuccubus Queen's cultivation was higher, she could only Dodge left and right.

It was not easy for her to escape to the door of the black feather, but she was still pecked by the Phoenix King.

This attack almost broke the divine body of the nine serenities succubus.

Chapter 2689 The Seven Red-Robed Men

Gritting her teeth, the nine Nethersuccubus Queen escaped through the black feather gate and returned to the outside world.

After falling out, Su Yu was alerted and immediately closed the black feather gate.

Boom --

Faintly, the black feather gate trembled violently and the huge gate was almost knocked open.

Su Yu's expression was solemn.

It had only been a few years since they last met, but that Phoenix King's strength seemed to have become much stronger.

"Sit properly!" Su Yu immediately healed the injuries on the nine Nethersuccubus Queen, resolving the many cracks on her body.

While receiving treatment, the nine Nethersuccubus Queen put down the nine Netherworld puppet with gratification and said, "Fortunately, I didn't fail. I finally succeeded."

Su Yu glanced at the puppet and focused on healing the nine Nethersuccubus Queen.

Compared to the puppet, the nine nethersuccubus queen was naturally more important.

Two days later.

The Empress had completely recovered from her injuries. Only then did he have the heart to look at the nine nether puppet.

"Middle stage of the DAO Master Level?" Su Yu couldn't help but be surprised.

Back then when he abandoned it, he was only at the Xuan Dao Master level.

Now that more than ten years had passed, he had actually cultivated to such a terrifying level.

"This is the power of the nine Nether puppet. It can cultivate by itself. If you frequently put it in the nine nether world to cultivate, the effects will be even more outstanding."

Just thinking about the crazed Phoenix Kings in the Netherworld World, the nine Nethersuccubus Empress clicked her tongue.

If she put it in again, the Phoenix King wouldn't just sit by and do nothing.

Su Yu stroked the puppet and felt a slight joy in his heart.

Another powerful fighter.

Suddenly, Su Yu sensed something and immediately waved his hand, keeping the nine Netherworld Succubus Empress and the nine Netherworld puppet into his spatial storage.

Whoosh --

A spatial ripple flashed and Yanran appeared.

Looking at Su Yu in front of her, a pleasantly surprised expression appeared on her pretty face.

"Greetings, senior."

Su Yu chuckled. "I've made you wait for so many years."

As he spoke, he shot a crystal ball to her.

"What's This?" Yanran subconsciously grabbed it. She felt that there was an abundance of energy in it, and it was extremely pure.

Su Yu said, "Try consuming it."

Yanran tried to swallow it.

In the end, her cultivation that had stagnated for so many years actually began to soar wildly.

In just a few short hours, she had successfully broken through to the peak of the Nirvana stage, just one step away from the tunnel master.

"Such powerful energy." Yanran was delighted. "Thank you, Senior!"

She was given such a huge gift the moment she arrived.

"Now that the battle for the ruler of time has begun, I've decided to help Empress Starrain," Su Yu said straightforwardly.

Ah?

Yanran was extremely surprised. "Senior is actually willing to join the battle for the ruler of Time?"

However, this wasn't the strangest thing.

The strangest thing was that he had actually chosen empress starrain, choosing the most useless one.

"Mm, I want to see if it's really as the rumors say, that the ruler will be born again," Su Yu said, pretending to be profound.

He didn't mean what he said, but the listener was interested.

Yanran agreed with him. "All these years, I've been thinking. Can such a method really give birth to a ruler?"

Oh?

Even the descendants of rulers were skeptical?

It seemed that the so-called battle for the ruler was really something.

"But why did senior choose Queen Star Rain? She's the most useless one, right? Choosing Emperor Mingxin is better than choosing her," Yanran muttered.

Su Yu smiled faintly. "Isn't it more challenging to choose the weakest support?"

Yanran cocked her head and thought. What kind of logic was this?

However, who asked Su Yu to be a senior?

"Alright, I'll follow senior," Yanran said.

Since there was nothing to do, she might as well witness the battle for the ruler of time.

"Alright, Follow Me!" He flicked his sleeve and activated the power of spacetime, sweeping the two of them toward the heaven awaken world.

Yanran's pupils constricted.

The power of space was nothing, but Su Yu's power of time was obviously much stronger.

He was secretly in awe, as if his senior was getting stronger every moment.

It had only been five or six years, and his time domain seemed to be about to jump to the advanced level.

Half a year later.

On a pile of ruins.

Su Yu and Yanran stood with their hands behind their backs.

Their expressions were exceptionally grave.

What greeted their eyes was a world that was in ruins.

Everything had been shattered into ruins.

Large areas of the eight-star civilization's defensive formation were exposed, and large areas of damage had appeared.

Yanran's heart jumped when she saw this. "This is the central city where the second descendant of the ruler is located, right?"

Almost every place in the awakening realm was like this.

It was in a state of destruction.

It wasn't just the cities. Even the remote mountains and forests were scorched to the ground.

The defensive formations were severely damaged.

In the south of the nightmare boundary, the city of the Broken Moon Empress was at most damaged, and it wasn't as serious as this one.

Su Yu narrowed his eyes. "So what if someone becomes the ruler in the end? What's the use if the entire time domain is destroyed?"

Yanran agreed.

"That's why I'm becoming more and more suspicious of the true purpose of the ruler's struggle."

"Before the ruler of time dies, can't he just choose one person to become the ruler's successor? Why does he have to go through an all-out War?"

There was an unexplainable conspiracy hidden within.

"Let's go and take a look at the last descendant of the ruler," Su Yu said.

Shao Hao had already taken the first two descendants of the ruler of the Heaven Awakening Realm.

No one knew what happened to the last one.

Half a month later.

In the Heaven Awakening Realm, in the central city of Emperor Wang Tian.

The nearby area had already been scorched to the ground.

Emperor Wang Tian's hair was disheveled as he roared at the sky, "Who the hell are you people?"

A group of mysterious people in fiery red robes surrounded the city of Wang Tian.

There were very few of them, only seven of them.

However, when they joined forces, they unleashed unimaginable destructive power.

They easily pierced through the void and shattered the defensive formation.

The Heavenly Emperor's army was killed by the seven mysterious people in fiery red robes.

After half a year of battle, only he, the descendant of the time ruler, and a few of his confidants were left in the city.

However, it was only a matter of time.

With the seven people's strength, it was only a matter of time before he died.

"I can't accept this!" The sky-gazing Emperor roared toward the sky.

He didn't even know who his enemy was, yet he was defeated in a mess.

Unfortunately, his shouts were useless. The seven mysterious people in red robes formed a seal again and used a powerful secret technique.

A fire lion that covered the sky suddenly pounced down.

With a furious roar, the entire sky-gazing city was completely destroyed.

Several of his confidants were all burned to death by the flames.

Only the sky-gazing emperor was covered in blood. His life was still built on it.

On his neck, a magic treasure bestowed by the ruler of time shattered with a bang.

Even the last magic treasure had been lost.

He no longer had any strength to resist.

He looked at the seven mysterious people who were treading on fire as they slowly walked over.

A miserable smile appeared on his face. "I still lost in the end! Take it, I admit defeat!"

He opened his chest and gave his fatal point to the enemy.

He had already accepted his fate.

However, at this moment, an extremely powerful fluctuation swept over from afar.

Chapter 2690 Empress Of The Bright Mirror

The Heavenly Emperor's face changed drastically as he exclaimed, "A dominating magic treasure at the level of the Heavenly Dao Master?"

A green tornado swept across the world.

The seven mysterious people in fiery red robes turned around at the same time.

With their strength, they had no choice but to be careful.

They joined hands and used the grand secret art they had just used.

The tornado and the fire lion collided in the air, releasing destructive shockwaves that shook the heavens.

The powerful shockwaves pushed the seven red-robed men back.

Even the heaven-gazing emperor was affected and was sent flying ten thousand feet away.

However, while he was flying backward, a force of space held him back.

He looked up and found that it was a beautiful woman.

Beside the woman, there was also a young man who was so handsome that he did not look like an ordinary person.

"You are?" The Heavenly Emperor asked in surprise.

His domain had already been destroyed. The powers that he belonged to were either destroyed or escaped.

Where would his loyal subordinates come to save him?

"Shut up and be quiet." Yanran stared ahead and did not look the heavenly emperor in the eye.

The latter stared at Yanran in a daze.

His ice-cold and unworldly attitude made it difficult for him to raise his gaze.

Su Yu locked his gaze on the seven mysterious people and said indifferently, "Scram!"

The strength of these seven people was too mysterious.

Together, they were able to resist a low-level time ruler magic treasure.

That was equivalent to a full-strength attack from a tunnel lord.

The seven of them were naturally unwilling to let the matter rest. They joined forces again and unleashed the mysterious fire lion, preparing to take back the heavenly emperor.

Su Yu flipped his palm and took out an intermediate-level time ruler magic treasure.

If he activated it, the seven of them would not simply be sent flying. Instead, they would be killed on the spot.

When they saw this item, the seven of them took a step back.

Under the invisible red robes, there was fear on their faces.

"Sir, I advise you to mind your own business." Among the seven of them, the leader warned, "You don't know who we are!"

Su Yu said coldly, "I'll give you the same words! You Don't know who you're talking to!"

He still had a lot of time-controlling magic treasures on him.

It would be easy to turn the seven of them into ashes.

The seven hesitated for a moment and finally left reluctantly.

However, they didn't go far.

Instead, they waited far away and kept watch over them.

They were temporarily safe.

"Thank you for saving my life."The Heavenly Emperor bowed to the two of them.

However, his gaze was mainly focused on Yanran.

He looked at her with a gaze that was far more than gratitude.

Yanran ignored him and looked at Su Yu. She wanted to know how to deal with the descendant of the ruler of time.

Su Yu sized up the heavenly emperor.

His cultivation was only at the late stage of the Void Nirvana stage, while his time domain was only at the elementary stage.

Even he couldn't defeat him.

"I'll keep it with me for now."Having accidentally absorbed the time domain of the waning moon empress, Su Yu didn't dare to refine her time bloodline at will.

If he absorbed it again, he really wouldn't be able to answer to that little girl.

"What about the other two descendants of the time ruler?"Su Yu asked.

Although their central city had already been destroyed, he still wanted to ask just in case.

The Heavenly Gaze Emperor had just looked at Su Yu and looked at the intermediate time ruler magic treasure in his hand with some fear.

There was deep fear in his eyes!

"The Heavenly Gaze Emperor has already died in battle,"the Heavenly Gaze Emperor said.

Su Yu was disappointed.

He was still a step late.

"However, the mirror empress is still alive and has escaped to a nine remoteness world in the Awakening Realm. She has the power of the entire world and can fight against the invaders."

Hearing this, Su Yu and Yanran's eyes lit up at the same time.

It was not too late.

There was still one more..,

"Where is that?"Su Yu asked.

The Heavenly Emperor looked at Su Yu, then at the beautiful woman. He smiled and said, "I can lead the way for the two of you. I plan to join the Empress of the bright mirror anyway."

Su Yu nodded. "Lead the way immediately!"

He looked at the seven mysterious people behind him with some vigilance.

Under the guidance of the heavenly emperor, they passed through billions of scorched earth and passed through the shocking broken defensive formation.

Finally, they arrived in front of a chaotic ruin.

His eyes were alert as he said, "The entrance of the mine is in front of us."

Su Yu focused his eyes and looked over. He could clearly see that the experts of both sides were fighting at the entrance of the mine.

The entrance was emitting an extremely dense aura of the netherworld.

The people of the Empress of the bright mirror's side were using their geographical advantage to single-handedly block the invading army from the outside world.

Those soldiers were all wearing fiery red robes.

They were wearing the same clothes as the seven people.

"It might be a little difficult to enter." Yanran closed her eyes and slowly opened them after a while.

Because of the battle, the space there was very unstable.

Moreover, there was an extremely powerful array formation at the entrance, so they couldn't use their spatial domain to pass through.

"It's not difficult. What's more difficult is how to not be treated as an enemy by the Empress of the bright mirror after entering," Su Yu said calmly.

They were going after the empress of the bright mirror.

How could the other party not see her as an enemy?

"Don't worry, I'm in an alliance with the Empress of the bright mirror. As long as I'm willing to step in, all the problems can be easily solved."

An alliance?

Given emperor Wang Tian's current situation, did the alliance still have any binding force?

It was likely that the empress of the bright mirror would devour emperor Wang Tian right away, right?

"Alright!" Su Yu turned his gaze.

Let's go in first.

He summoned the little qilin and briefly told him about the array formation at the cave entrance.

The little qilin patted his chest. "Leave it to me."

A ball of purple mist immediately appeared around his body and enveloped them.

In this way, no one would be able to sense their aura.

Furthermore, they would be able to silently penetrate the array formation!

The Heavenly Emperor looked at the little qilin with a surprised expression.

A qilin that could conceal its aura and pass through any array formation?

What kind of spiritual pet was this? He had never heard of it before.

Amidst his confusion.

The little qilin had already led everyone through the battle zone and had successfully entered the cave.

A desolate nine nether world appeared before everyone's eyes.

It was different from the nine nether world that Su Yu had obtained. It was filled with endless nine nether crystals.

The nine nether world was empty and there was nothing left.

There were only a few empress of the bright mirror army that had retreated to this place.

In one of the tents, a young lady with a pockmarked face was frowning.

She was empress of the bright mirror.

Her cultivation had reached the peak of the Earth Dao master level, and there were four Middle Stage Earth Dao master guards by her side.

In the entire waking world, Empress Bright Mirror's cultivation base was the most powerful.

Unfortunately, no matter how powerful she was, she was still driven to this place and curled up in a corner.

At this moment, he was counting all kinds of resources and troops with an anxious look on his face.

"I can only hold on for three years at most, or maybe even less." Empress Bright Mirror's expression was calm.

Their resources and manpower were constantly being consumed.

On the contrary, the group of mysterious people outside were constantly expanding their manpower and resources.

One day, their defensive formation would be broken through and they would break into this place.
