Chapter 2811 The Giant Lotus Seat

In that light, Su Yu actually felt the fusion of many domains.

One of them was the spatial domain.

Sou --

The 12 sons of Heaven clansmen vanished on the spot.

Su Yu chased after them, his gaze cold.

His palm ruthlessly grabbed at the spot where they had disappeared.

He actually grabbed an arm out of thin air.

He actually used his powerful domain to grab the son of heaven clansmen who had already been teleported away.

If the son of heaven clansmen were to stick together.

After grabbing one person, he pulled the other son of Heaven clansmen back.

Finally.

The son of heaven clansmen's faces were filled with panic.

They immediately tried to release their domain so that they could escape again.

However, Su Yu only lightly tapped his toes, and the domains they released were all dispersed.

"Using your domains in front of me, you probably don't know who you're making an enemy of," Su Yu said indifferently.

The members of the Tian Zi clan turned pale with fright and hurriedly said, "Human sacred body, if you touch even a hair of ours, you'll definitely affect the other members of the Tian Zi Clan. At that time, all of them will gather here. Can you withstand it?"

Su Yu heard this.

He looked at Dao Yuan.

He was in the great completion saintly being state and could clearly sense that there were extremely intense fluctuations near Dao Yuan.

The intensity of those fluctuations was a hundred times stronger than this place.

Dao Yuan was the focus of the destruction of the epoch.

The Heavenly Court was only one of them.

But just as Su Yu was hesitating.

Xiao Die suddenly sensed something and opened her mouth to bite at the void.

The void was crushed by the bite.

A reverberating sound was heard.

The message in the voice was that there was a powerful enemy in the Heaven Court and they had always come to support them.

Xiao die grinned. "Delay us and then inform our companions to come?"

They were really courting death!

Su Yu's eyes quickly turned cold. "Is this the only message?"

Xiao Die shook her head. "There are several. We only have enough time to stop one of them."

In other words.

The rest of the information had already been transmitted over.

Reinforcements would rush over very soon.

Moreover, it was very likely that the destructive power was ten times or even dozens of times stronger than the current one.

Su Yu looked at the Sons of Heaven Clansmen.

The latter's face was deathly pale. He hurriedly said, "Human sacred physique, you should think carefully. If you touch us, the consequences will be very serious."

Su Yu smiled coldly. "Don't you think that this is nonsense? The best outcome would be for you to destroy us. What could be more serious than this?"

A ball of sacred body power condensed in his palm.

His gaze was extremely indifferent.

"Originally, I wanted to spare your lives, but since you've already informed your companions, then I can only send you on your way!"

The sacred body power in his palm turned into a ball of flame and instantly ignited the twelve stone statues.

It was strange.

Even though their cultivation wasn't strong, they were at least at the peak of the Earth Dao master level.

In addition, they were from the son of Heaven clan and had many secret treasures.

They could resist for a while.

But who knew.

After being ignited by the saintly being's power, they were immediately burned to ashes.

They didn't even have the slightest resistance.

Even Xiao die blinked her eyes and didn't quite understand. "Your saintly being's power is so powerful?"

Su Yu was stunned.

After thinking for a while, he suddenly understood. "It should be because they are from the son of Heaven clan. They shouldn't have such terrifying effects when dealing with others."

Those who could kill the son of heaven in a stone body were mortal bodies.

The two were the nemesis of each other.

The son of Heaven clan should be more or less restrained.

Therefore, Su Yu's body power was extremely lethal to them.

"Really?" Xiao Die didn't believe it.

Su Yu said unhappily, "Do you want me to give you a Slap?"

"You Dare!" Xiao die immediately grimaced!

Su Yu withdrew his saintly being power and looked at Dao Yuan in the distance. He said in a low voice, "We can't stay here any longer. Dao Yuan's son of heaven clansmen will probably arrive soon."

Xiao Die agreed with him.

She felt uneasy when she thought of how the son of Heaven clansmen of the sacred mountain were everywhere in absolute beginning.

"But where can we escape to?" Xiao Die asked.

The current absolute beginning had already become a bloody slaughterhouse.

No Place was safe.

"There is a place that we can go and take a look at," Su Yu murmured.

He immediately used a powerful divine ability to repair the shattered heavenly court.

Then, he controlled the heavenly court and sped through the void.

In the vast void, most of the places they passed had been destroyed, leaving nothing behind.

There were meteorites everywhere. Not a single one could be seen.

There was not even a speck of dust.

It was extremely clean.

Only a few places would encounter islands that were resisting stubbornly and suffer the merciless destruction of the son of Heaven clansmen.

If a son of heaven clansman could not do it, he would find a companion from somewhere else.

Until the victory of the resistance was completely obliterated into nothingness.

At this moment.

The entire nothingness.

Other Than Dao Yuan and the heavenly court who were still resisting, almost all the other factions had already been wiped out.

Unless there was an existence from the previous era, which was also the almighty that the vile daughter spoke of.

If they controlled the nightmare ferrying Lotus seat.

They would probably be able to avoid another destruction.

"The destruction of the era is coming to an end," Su Yu thought to himself.

But it was the end that was more terrifying.

Because more and more powers would notice them.

As they sped.

They finally arrived at a region.

This place.

Everyone was familiar with it.

It was the former location of the eight-star civilization.

Of course, the eight-star civilization had completely fallen apart, leaving nothing behind.

After the destruction of the sacred mountain, there wasn't even a residue left.

However...

In such a place that had been completely destroyed, there was an extremely small island.

"That is... the place we came to?" Xiao die recognized it at a glance, feeling somewhat incredulous.

This small island was no other place.

It was the outer space.

It contained many civilizations below the seven-star civilization.

They all came from the outer space.

The strange thing was.

The remains of the eight-star civilization had been completely destroyed.

But this small island was safe and sound.

It was really strange.

"As expected," Su Yu muttered.

His palm touched the air.

The small island shook and shook off the rocks all over its body, revealing an incomparably huge platform.

The platform was ancient and dilapidated, and it looked somewhat like a lotus.

"Nightmare Ferrying Lotus seat?" Xiao die opened her eyes wide in disbelief.

The outer realm they had been living in was actually a huge nightmare ferrying lotus seat.

"How did you know?" Xiao die was extremely shocked.

She would never associate that tattered small outer realm with the huge nightmare ferrying lotus seat.

Su Yu said indifferently, "Haven't you ever thought about why there are so many ancestor level existences in our small outer realm?"

Not to mention the deer ancestor, there was also the trapped insect ancestor, snake ancestor, and the other three ancestors.

The furthest one was a human demon from the previous era.

How did they survive the Apocalypse of the previous era?

Moreover, why did the taotie hide in this small outer realm?

They didn't understand it before.

How could they not understand that it was close to the end of the era?

The outer realm was a magical place that could protect them.

Now that the essence of the Nightmare Lotus seat had been revealed, Su Yu was not surprised at all.

Chapter 2812 Control Center

Xiao die came to a sudden realization. "That's right. Speaking of which, our outer realm is indeed strange. Even the eight-star civilization doesn't have many ancestor-level characters, yet our small outer realm has appeared one after another!"

"That's true. We spent so much effort to crawl out of the outer realm, thinking that the eight-star civilization was the hope to avoid the apocalypse."

"Who knew that the outer realm is the true Holy Land."

After going around and around, they finally went back to the starting point.

Su Yu didn't think it was a waste of time.

At least, he had gained many elemental domains in the eight-star civilization and had grown greatly.

Those were things that the outer realm couldn't provide to him.

"Let's not delay, let's go," Su Yu said.

However, he wasn't optimistic about this giant nightmare crossing lotus seat.

After the destruction of an epoch,.

It was already riddled with holes.

There were several shocking faults.

It was hard to say if it could resist the destruction of another epoch this time.

However, they had to go in first.

The Heavenly Court warship entered the outer realm through the gap.

What entered their eyes was a familiar world.

The world that was once incomparably vast in their eyes was now seen with the vision of a peak Earth master.

In fact, it was extremely tiny.

With a single glance, one could see the end of the outer realm.

Suddenly.

They had just arrived.

There were several familiar ripples that flashed and then disappeared, quietly concealing themselves.

One of them was very familiar to Su Yu.

The Heavenly Court warship rumbled past and arrived at a small island that was floating in the void.

There was an uninhabited Daoist temple on it.

Su Yu stood at the top of the warship and said indifferently, "Ancestor Lu, how have you been?"

The Taoist temple hesitated for a moment before a figure emerged from it.

It was none other than ancestor Lu.

He was dressed in his Taoist robe as usual.

Ancestor Lu stared at the heavenly court battleship with fear in his eyes. He said, "The destruction of the epoch is the way. All living things should unite as one! You can stay here as long as you want, but please don't kill fearlessly."

Hearing this.

Su Yu chuckled.

This ancestor Lu indeed knew that the outer realm was a huge nightmare lotus seat.

He leaped down from the heavenly court warship.

He appeared beside ancestor Lu.

When he saw Su Yu's figure clearly, ancestor Lu was shocked. "Su Yu?"

"It's an honor that you still remember me," Su Yu said indifferently.

Ancestor Lu's expression was complicated as he sighed, "Welcome back, Sacred Body Su."

Su Yu stared at ancestor Lu.

He felt that this person was too mysterious.

"You knew long ago that Madame Poison Life knew the path of sacred body evolution, so you deliberately spared her life, right?" Su Yu asked.

That year.

Madame Poison Life chased after Su Yu relentlessly.

Along the way, they encountered a strange light of destruction and saw that their lives were in danger.

It was the divine deer of light who led them to the Daoist Temple to hide.

Madame Poison life was seriously injured because of this.

Originally, Su Yu could have ended her life, but it was ancestor Lu who saved her.

Now, it seemed that ancestor Lu knew a lot of things.

"You can say that," ancestor Lu said helplessly.

He paused.

Ancestor Lu said, "May I ask how strong su saintly being is now?"

He had once made an agreement with Su Yu.

If one day Su Yu's strength broke through to the Heavenly Dao master realm, he would answer a question.

That was, what exactly was the outer realm.

Why were there four ancient gods'cenotaphs here.

Why were there so many ancestor level experts.

Why was Tao tie hiding here with the nine dragons ancient divine realm in his mouth.

"The number of Heavenly Dao masters who died at my hands is already in the double digits," Su Yu said indifferently.

Ancestor Lu's pupils constricted, and his bitterness deepened. "I underestimated the might of the sacred body."

"Then, let me answer your questions from back then."

But Su Yu waved his hand and said, "There's no need."

Those questions.

Su Yu already understood without needing to answer them.

Because this place was a giant nightmare crossing lotus seat, and the ancient gods of the past had been suppressed by the combined forces of the ruler and the son of heaven.

Four of the ancient gods had died.

Thus, ancient god Nine Dragons had buried their graves on this platform.

"What I want to ask is, how do you activate this Nightmare Ferrying Lotus seat?" Su Yu asked.

The Nightmare Ferrying Lotus seat didn't just enter.

It required an expert to activate it from the inside so that it could be used to attack from the outside world.

A glimmer of hope lit up in ancestor Lu's eyes as he asked, "Do you remember the light of destruction that almost wiped out you, Madame Poison Fate, and the others?"

"Of course I remember," Su Yu muttered.

Back then, the divine light of destruction that was even deeper than the westernmost market would shoot towards them every once in a while.

"What does it have to do with that?" Su Yu asked.

Ancestor Lu said, "Of course it has to do with that! That's because that's the control center of the Nightmare Crossing Lotus seat. It was only damaged during the last era's destruction that caused it to lose control every once in a while and erupt with destructive power."

So that was how it was.

Su Yu found it strange.

Where did that destructive light come from.

So it was the control center of the crossing Nightmare Lotus throne.

That place was where the majority of the power of the crossing Nightmare Lotus throne was gathered.

A slight leak would be enough to destroy the world.

It was fortunate that the entire outer realm was not destroyed.

"Lead the way!" Su Yu said.

Ancestor Lu sighed. "Back then, ancient god Nine Dragons came to the cenotaph where the four ancient gods were buried. He once said that when the era was destroyed, he would come to repair it, but..."

The epoch's destruction had already begun.

But ancient god Nine Dragons had not come.

Fortunately, Su Yu had come.

Otherwise..

Su Yu calmly said, "If you're talking about ancient God Nine Dragons'clone, he won't be able to come because he's already dead."

Hearing this, ancestor Lu secretly sucked in a breath of cold air.

It seemed that when he sensed the human sacred body, it was undoubtedly Su Yu.

He was so powerful that he had actually destroyed ancient God Nine Dragons'clone?

He hadn't waited for ancient god Nine Dragons, but he had actually waited for a human sacred body that was even more powerful than ancient god Nine Dragons'clone!

"Please follow me." Ancestor Lu led the way, speeding toward the westernmost part of the outer domain.

An hour later.

They arrived at a world of flames that reached the heavens.

There were raging flames burning there, occasionally bursting out with destructive black light.

Su Yu was very familiar with the black light.

The black light that had almost destroyed it back then did not feel the slightest threat when they came into close contact with it.

Once one's strength rose, any problem would be easily solved.

The doubts that he could not understand back then and the difficulties that he could not overcome were no longer problems.

Hu ~

Su Yu opened his mouth and blew. A strong wind blew over, extinguishing all the flames that reached the sky.

His true appearance was revealed beneath the raging flames.

It was an enormous earthen yellow ball.

It was the size of a small mountain.

There was a shocking gap on the ball.

It should have been heavily damaged by the destruction of the epoch back then.

There was an unknown energy flowing within the ball.

But there was only a shallow layer left.

"When ancient god Nine Dragons came back then, there wasn't any raging flames, right?" Su Yu asked.

Lu zu bitterly replied, "Yes! Not long after he left, the dense energy inside began to spontaneously combust because it had accumulated too much energy. From then on, it went out of control and was never extinguished again."

Su Yu's expression slightly sank.

Chapter 2813 The Final Battle Had Arrived

"It's been burning for too long. There's not much energy left." Su Yu stared at the shallow layer of energy and was worried.

It was not easy to find the gigantic nightmare ferrying lotus seat.

But in the end...

"Let's try it first." Su Yu came to the front of the ball.

Fortunately, after tens of thousands of years of learning, he already knew how to forge the nightmare ferrying Lotus seat.

In addition, when repairing the small crossing Nightmare Lotus seat on his body, there were many materials left.

Therefore, it was very easy to repair it.

A few days later.

The gap was completely repaired.

"Activate it and see." Su Yu pressed his palm on the ball and instilled his peak strength as an earth master.

The energy inside immediately exploded.

The entire ball emitted an incomparably dazzling dim yellow light.

In the void of the outer realm, the sound of gears grinding could be heard everywhere.

The sound was earth-shattering.

The scattered islands and civilizations were all attracted by some kind of force and gathered in the center of the Void.

Looking down from above.

It could be seen that many civilizations had gathered to form an existence in the shape of a lotus.

Then.

The void that had been dark all year round began to emit dazzling light from all directions, expelling the darkness and illuminating the entire outer realm.

Many rays of light focused on the lotus flower in the center.

It refracted a holy and beautiful light.

That scene left Xiao die dumbstruck. "The outer realm that we've been to is actually like this?"

However, this wasn't all.

Countless crystals appeared on the land of the outer realm, piecing together to form a huge natural screen.

On the screen, everything in the outside world was refracted.

Any unknown object that approached the nightmare lotus seat would be discovered ahead of time.

Creak --

Then.

Countless sounds of friction rang out.

Ancient giant cannons shot out from the outside of the Nightmare Lotus seat and aimed in all directions.

Each giant cannon contained an unimaginable power.

Even the sacred mountain that could destroy the world might be shattered.

There were no less than 10,000 similar cannons!

Su Yu was also shocked.

"Who built this nightmare ferrying lotus seat?" Su Yu asked in shock.

Such a skill couldn't be created even with all the resources of the current era.

It was hard to imagine how prosperous the previous era was.

How powerful were those almighty experts?

It was because of this that they were able to create such a world-destroying nightmare ferrying lotus seat.

However, Su Yu's expression immediately became calm again.

The overwhelming prodigies of the previous era were so powerful, so how terrifying was the Douge Lotus seat that they controlled?

However, they still ended up being destroyed.

Right now, they only had a broken giant Douge Lotus seat.

How could they resist the destruction of the new era?

However, he didn't reveal any worry.

Instead, he revealed boundless confidence. "We have the confidence to survive the destruction of the new era!"

Under Su Yu's arrangements.

From the heavenly court battleship, he mobilized capable people to control the gigantic nightmare crossing lotus seat.

Right now, he could only pray that the destruction of the current era was weaker than that of the previous era.

Otherwise..

He shook his head.

Su Yu returned to the heavenly court battleship.

The evil daughter was still quietly refining.

For some reason, not only did she not make a sound, but she also did not reveal any sharp aura.

Her entire person did not change.

But because of this, Su Yu felt an enormous dormant power.

This power made his heart palpitate.

Once released, it would definitely be a world-destroying existence.

Was that her peak strength?

No wonder she was able to defeat all the powerful enemies of the current era.

Even the number one ancient god, ancient god Nine Dragons, was mercilessly sent into the abyss by her.

Soon after, Su Yu inspected various places in the outer realms.

Looking at the familiar civilizations and familiar places, she couldn't help but sigh.

A hundred years had passed.

"There are too many unforgettable memories here," Su Yu muttered to herself.

Suddenly.

An urgent sound interrupted his thoughts.

It was an alarm from the ground screen in the void.

He looked down.

Two red dots of light flickered on the screen.

When the dots of light got closer.

He could clearly see that they were two sacred mountains.

They were in charge of destroying the sacred mountains and the son of Heaven clansmen nearby.

At this moment, they walked over again and cleared out the area that had never been destroyed.

"The remnant nightmare crossing Lotus seat from the previous era is really troublesome. This item is the hardest to destroy." The two sons of Heaven had helpless expressions.

They had used the sacred mountains to destroy the area before.

However, they hadn't shaken the nightmare crossing lotus seat in the slightest.

"According to the son of Heaven's decree, if we encounter the nightmare crossing Lotus seat, if we can't destroy it, then we'll destroy the Interior."

The two Sacred Mountains immediately arrived at the gap.

With how terrifying the Sacred Mountains were.

The two sacred mountains only needed to release golden light through the gap to destroy everything in the Nightmare Lotus throne.

However.

Before they even got close, two huge black cannons were slowly raised and aimed at them.

The two emperor's were shocked. "Someone is controlling this Nightmare Lotus Throne!"

"That's impossible. The Nightmare Lotus Throne has already been destroyed. In the current era, it's impossible for anyone to successfully repair it."

However, what answered them was the two jet-black pillars of light that shot out from the giant cannon.

Boom

The jet-black pillars of light were extremely terrifying.

In just an instant, they pierced through the two sacred mountains.

Even the two sons of heaven inside were killed on the spot.

Su Yu's pupils constricted slightly.

The power of the giant cannon was much stronger than he had imagined!

However, when he took a look at the energy in the sphere, he couldn't help but feel a heartache.

The remaining energy was obviously reduced by another layer.

"Giant cannons, take them back," Su Yu said helplessly.

If they relied on the giant cannons, it wouldn't be long before all the energy was exhausted.

They couldn't even put up any defense.

Creak Creak Creak --

The tens of thousands of giant cannons retreated helplessly.

But.

At this moment.

The crystal screen below sounded the urgent alarm again.

This time, it didn't sound twice.

Instead, it sounded non-stop.

Looking down, everyone sucked in a breath of cold air.

On the screen, hundreds of densely packed red dots were sweeping over at an astonishing speed.

Su Yu's expression was extremely grave.

The large army of the sacred mountain finally noticed them and chased after them.

"Activate the Defense!" Su Yu shouted in a low voice.

Under his control, the entire outer realm rumbled.

Clear veins appeared on the surface of the crossing Nightmare Lotus seat.

These veins were the defensive items of the huge crossing Nightmare Lotus seat.

Rumble..

Hundreds of Sacred Mountains finally arrived.

They were connected together and were extremely huge.

In terms of size, they were dozens of times bigger than the huge crossing Nightmare Lotus seat.

The blinding golden light they emitted was extremely shocking.

And beneath the huge sacred mountain, there was a huge palm that supported the sacred mountain.

That palm was several times larger than the huge nightmare ferrying lotus seat.

"Be on guard!" Su Yu roared.

At the foot of the huge sacred mountain, countless golden beams of light immediately shot out.

There were so many of them, and their power was so great that they could instantly destroy a battleship.

However...

No damage was done when they struck the turtle patterns.

Only some ripples spread out.

Chapter 2814 Entering A Desperate Situation

Its defense was so powerful that all living beings were amazed.

This was the nightmare crossing Lotus seat.

In the previous era, the almighty experts had painstakingly researched this divine object.

A Hundred Sacred Mountains joined hands to attack, but they were unable to do anything?

The Sacred Mountain was obviously unwilling.

It continuously released golden light pillars and tried its best to find a weak point.

However, the turtle pattern had almost no blind spots.

No matter how it attacked, it was flawless.

An angry will came from within the sacred mountain.

That huge palm, which represented the one hundred sons of Heaven Clansmen, all attacked the Nightmare Lotus seat.

Rumble --

It smashed onto the turtle pattern.

Finally, the turtle pattern shook violently, but it was still stable.

The people in the heavenly court were startled and gradually showed confidence.

With such a powerful defense, why would they be afraid of the destruction of the era?

They wouldn't be worried even if they were ten times stronger.

Only Su Yu and a few others who stood at the central control area were more worried.

The short bombardment just now had reduced the remaining energy by another layer.

They couldn't hold on for too long.

"We can't continue like this." Su Yu held the stone mirror in his hand. "Xiao Die, you're in charge of keeping an eye on the situation."

He leaped out of the gigantic nightmare crossing Lotus seat.

He came to the sky.

He looked up at the incomparably vast sacred mountain with a cold gaze.

"Yo, there's actually someone who isn't afraid of death."

"I think he's here to seek peace."

"Unfortunately, we're not fighting a war, but a one-sided massacre."

The group of Sons of Heaven clansmen said mockingly.

Su Yu smiled coldly. "You're thinking too much. I'm not here to seek peace, but... to send you on your way!"

He took out the stone mirror and activated it.

Petals flew out from it.

At this moment, the Sons of Heaven clansmen were finally moved and cried out in unison.

"That... that's the mirror of the mirror flower son of Heaven?"

Rumble --

The Holy Mountain that was originally clustered together actually scattered in all directions due to different reactions and retreated frantically.

Unfortunately.

It was too late.

Flower petals flew and surrounded the entire void.

Accompanied by a light explosion, the flower petals swept up and blew up the sacred mountains in the sky.

The son of Heaven clansmen ran out in panic and used their life-saving techniques to escape.

As they ran, they sent out a distress signal to the majority.

"There's a strong enemy in area 103!"

"We need help in this area!"

No matter what, they hadn't expected this.

Not only did a small broken lotus seat successfully open, but it also had a terrifying existence.

A terrifying existence had appeared from within.

He had destroyed hundreds of their sacred mountains in one breath!

Even Dao Yuan's injuries weren't as intense and terrifying as before.

"You want to leave?" Su Yu was already prepared. His entire body released nine-colored light waves that formed a ripple that spread out in all directions.

Ah --

Miserable screams sounded one after another.

Apart from a few people.

Most of the Sons of Heaven clansmen were restrained by the power of the saintly being.

It had been proven before.

The power of the saintly being was like water to fire to them.

Just the restraint alone caused them intense pain.

Thus, the one hundred people of the son of Heaven clan were captured alive.

Su Yu waved his hand and pressed them all over.

He also set up a restriction on them one by one.

If they made any strange movements, he could destroy them immediately.

"Saintly being Su, you captured us to make us hostages?" A member of the son of Heaven clan had a contemptuous look in his eyes. "If that's the case, you're thinking too much!"

"We, the Sons of Heaven Clansmen, will not be threatened by others. The rest of the Sons of Heaven clansmen will destroy us and all of you into nothingness."

Su Yu's expression was indifferent, "Who told you that I took you as hostages?"

Many of the Sons of Heaven clansmen were slightly stunned.

"No? Then why did you capture us?"

Su Yu's eyes were filled with a cold light, "Naturally, I wanted you to bring a surprise gift to your companions. At the same time, I will also send you on a journey so that you can meet the main force as soon as possible."

"What do you want to Do?"

Su Yu did not speak.

Instead, he quietly activated the restriction. The restriction that entered their bodies did not only control their lives and deaths.

It could also control their consciousness.

Instantly, the sons of Heaven clansmen who were resisting immediately quieted down.

Their eyes were clear and there was no sign of their consciousness being controlled.

"Go back and wait for my orders."

"Yes, Master!"

They immediately left.

Kacha --

Su Yu's hand suddenly shook.

He looked down and saw that the stone mirror in his palm had finally shattered into seven or eight pieces.

"It's finally broken." Su Yu sighed helplessly.

It would be great if he could obtain another piece of such a powerful magic treasure.

However, when he thought about the ghostly stone statue in the darkness, he still shook his head.

If he saw the stone statue again, he didn't know if he could come back alive.

He returned to the nightmare ferrying Lotus seat.

There was jubilation.

Ancestor Lu was even more excited. He never thought that Su Yu would be so powerful.

That was a hundred sacred mountains.

A single sacred mountain could destroy all the living beings in the nightmare ferrying lotus seat.

He asked himself.

Facing the Sacred Mountains, he had no way to fight back. He would definitely be wiped out in an instant.

Let alone a hundred of them?

But he didn't know that.

Su Yu was also at the end of his rope.

He didn't have anything in his hands that could threaten the sacred mountain.

Even if a sacred mountain came.

He might not be able to deal with it on his own.

A trace of despair spread in Su Yu's heart.

The main force of the sacred mountain should have received the news?

If nothing unexpected happened.

They would make their move very soon.

Rumble --

At this moment.

The entire huge Douge Lotus throne was shaking.

The huge screen below was in chaos. What was displayed was the chaotic scene of flowing backwards.

"We are moving!" Ancestor Lu was the most familiar with the huge douge lotus throne and immediately exclaimed.

What?

Moving?

Su Yu immediately sent his senses into the distance.

A moment later, his expression was extremely ugly.

"The son of heaven clansmen used some kind of divine ability to pull the nightmare ferry lotus seat over," Su Yu said in a deep voice.

Those son of Heaven clansmen didn't have the time to be distracted.

Hence, they planned to pull the huge nightmare ferry lotus seat over and destroy it.

"Use all of your strength to pull the Nightmare Ferry Lotus seat over and get rid of the pull," Su Yu said in a deep voice.

However, the pulling force was incomparably majestic.

No matter how much energy was consumed in the sphere, it was unable to change the fact that the gigantic nightmare ferrying lotus seat had been pulled over.

"Sacred Body Su, what should we do? Give up on the gigantic nightmare ferrying lotus seat?" All the living beings looked at Su Yu.

Su Yu's expression was solemn.

After a moment of silence, he said, "Stay here."

Although the world was vast.

It had already been completely destroyed. There was no place to hide in the outside world.

Even if they encountered a sacred mountain, it would be enough to destroy all of them.

Only the gigantic nightmare crossing lotus throne might be able to withstand it.

"But if we go, we will definitely die." Ancestor Lu's heart was filled with despair.

Dao Yuan was the main target of the sacred mountain's destruction.

The number of sacred mountains there was probably over a thousand.

Ten times more than before.

Chapter 2815 Entering The Dao Abyss

No matter how powerful Su Yu was, he couldn't possibly take on so many sacred mountains, right?

Su Yu pondered for a long time before saying, "The only thing we can do now is to take this opportunity to enter the Dao Abyss."

If there was a place to stay, it would be the Dao Abyss.

The only answer would be the Dao Abyss.

There were as many experts there as the clouds. The only way was to head there. Perhaps, together with the many peak experts in the Dao Abyss, they could barely contend against the sacred mountains.

"Therefore, we'll play along with their plan. We'll follow the force of the pull and arrive near Dao Yuan. We'll Enter Dao Yuan before they break through the Nightmare Lotus seat," Su Yu said.

Xiao Die had a difficult expression on her face as she said in a low voice, "But our relationship with Dao Yuan isn't good, right?"

There were ancient God tribes in Dao Yuan.

Su Yu and ancient God Nine Dragons, the leader of the ancient gods, were at loggerheads.

If they could enter Dao Abyss...

Before the destruction of the new era had even begun, Su Yu had already led the Heaven Court warships in.

"That was then and now." Su Yu calmly analyzed. "Before this, Dao Abyss was guarded by layers of experts. Now, after the destruction of the Sacred Mountain, I'm afraid more than half of them have died."

"They can't even hope for their own good fortune, so how can they have the leisure to care about us barging into Dao Abyss?"

Xiao Die thought about it and agreed.

The thousands of sacred mountains had been bombarding Dao Abyss from the very beginning.

No matter how powerful they were, they had all been nearly exterminated.

How could they still care about them?

"The plan is feasible." Everyone looked at each other and immediately made a decision.

Rather than die, it was better to fight to the death.

Everyone immediately mobilized and made ample preparations.

They tried to rush into Dao Yuan as soon as they arrived.

Time passed by bit by bit.

In just half a day.

They were pulled to the vicinity of Dao Yuan by the strong pulling force.

As expected.

The sky above Dao Yuan was covered in golden light, and it was filled with incomparably vast sacred mountains.

They were connected together and blotted out the sky, enveloping the long dao yuan below.

Endless powerful golden beams of light crazily tilted toward Dao Yuan.

The scale of this world-shaking event was abnormally terrifying.

It was hard to imagine.

There was nothing in this world that could not be destroyed.

They were still some distance away from the Dao Abyss.

A Hundred Sacred Mountains immediately split out from the Thousand Sacred Mountains and charged toward them aggressively.

Everyone immediately became serious.

Without the stone mirror, the Hundred Sacred Mountains were a destructive disaster for them.

"How long can the Nightmare Lotus seat last?" Su Yu asked.

Ancestor Lu looked at the thin layer of energy and said, "At most one cup of tea. If we suffer more attacks, we won't be able to last even half a cup of tea."

Intense attacks would also consume energy.

"Whether we can escape or not depends on this half a cup of tea!" Su Yu stared at the sacred mountain that was rapidly approaching and shouted, "Charge!"

In an instant.

The gigantic nightmare crossing lotus seat that was silently gliding suddenly increased its speed explosively.

With a shocking momentum, it instantly charged out of the encirclement of the Hundred Sacred Mountains.

The Hundred Sacred Mountains did not expect that the gigantic nightmare crossing lotus seat that was so damaged could actually erupt with such a shocking speed.

As they roared furiously, the hundred sacred mountains immediately turned around and chased after it once again.

The gigantic nightmare crossing lotus seat was like a loach in space-time. Before the other nine hundred sacred mountains could react, it drilled into the Dao Abyss.

As expected.

After experiencing the bombardment of the Dao Abyss.

The corrosive fog that had always covered the Dao Abyss had long disappeared.

The ancient land was also bombarded with destruction.

Even the underground Abyss was beaten out.

The many tribal creatures on the land were also completely wiped out. Not a single one was left.

Only in the depths of the Dao Abyss, the tribal groups were still resisting tenaciously.

"Go over!" Su Yu immediately said.

The gigantic nightmare crossing Lotus seat immediately dived down and fled towards the depths of Dao Abyss.

The Hundred Sacred Mountains that were chasing after them, as well as the nine hundred sacred mountains that had reacted, all attacked the gigantic nightmare crossing lotus seat that had barged in.

Tens of thousands of golden beams of light fiercely attacked.

Among them, the vast majority of them were right in the middle of the nightmare crossing Lotus seat.

Rumble --

The huge transitional nightmare lotus throne shook violently.

The turtle patterns on it flickered rapidly, as if they were about to be destroyed.

However, it was still barely holding on.

With this power, the huge transitional nightmare lotus throne fled toward the depths of the Dao Abyss at an even faster speed.

However, at this critical moment.

The ball at the center of the control let out a long, sharp cry.

Everyone looked over and their expressions changed drastically.

They saw that the last bit of energy in the ball had finally been used up.

The gigantic nightmare ferrying lotus throne that had lost its energy support couldn't even bear its own weight, let alone fly.

The gigantic nightmare ferrying lotus throne fell rapidly.

The turtle patterns on it also quickly disappeared because it had lost its energy support.

When the people in the lotus seat noticed this scene, they were all shocked.

If the crossing Nightmare Lotus seat fell like this, it would definitely be a devastating disaster.

"Let's Go! Leave the crossing Nightmare Lotus seat!" Su Yu urged the warship and made a prompt decision to leave the crossing Nightmare Lotus seat.

Fortunately, Su Yu had asked Qin Xian 'er to go to the huge crossing Nightmare Lotus seat and move all the living beings out.

Now, only a few experts, such as ancestor Lu, were left.

At this moment, they were on the warship.

The huge Nightmare Lotus seat was only an empty shell, and it could be left or left at will.

Sou --

At the instant the huge Nightmare Lotus seat fell, the Heavenly Court warship flew out in time and sped into the distance.

However, not long after it flew out.

An incomparably thick golden light locked onto them and crashed fiercely.

The Heavenly Court warship had already lost all its defenses. How could it withstand even a single golden light beam?

Moreover, the golden light beam in front of them was the combined attack of ten sacred mountains.

How could it block it?

At the critical moment.

Xiaodie stepped forward.

The two butterfly pupils in her eyes flew out and fanned toward the incoming golden light beam.

Instantly.

More than half of the golden beam of light disappeared.

However, the remaining beam of light still attacked.

Xiao die gritted her teeth and spread her wings on her back, crazily swallowing it. She also sped up the time to swallow it.

Unfortunately, the beam of light was too huge.

In the end, one-tenth of it still shot towards her.

Seeing that the heavenly court warship was about to bear the destructive attack of the golden beam of light,.

Su Yu gritted his teeth and pounced forward.

Using his mortal body, he transformed into a ten thousand feet shadow and tried to resist the light beam.

Boom --

The shadow shattered.

His body was also crushed by the destruction.

Su Yu's body was immediately blasted into a bloody mist.

The power of the golden light beam was too powerful, and it was not something that an individual could resist.

Xiao Die's expression changed drastically, but she did not have time to be sad.

The blood mist wrapped around a stone heart and rapidly reconstructed Su Yu.

No matter how strong the golden beam was, it could not do anything to the heart of the mirror flower emperor.

That was why Su Yu used his body to block the beam.

The sacrifice was worth it.

The Heavenly Court warship was saved.

"Let's Go!" Before the other beams of light attacked, Su Yu urged the heavenly court warship to escape quickly.

In the blink of an eye, he successfully crossed many tribes.

He arrived at the depths of Dao Abyss.

A rumbling sound came from behind him.

When he turned around, he saw that those tribes had blocked the golden beams of light that were chasing after him.

Chapter 2816 General Shanglong

"Temporarily is safe." Su Yu is slightly relieved breath.

It was a hell of a ride.

Despite the loss of the giant cruciferous Lotus seat,.

But I made it here alive.

"Who are you?" Asked several of the hurried creatures who had hurried to the place where the heavenly battleship had fallen.

This was to be expected.

Su Yu looked at several living beings.

They weren't all descendants of ancient gods. Most of them were creatures that had gathered here for many years.

Only one of them was a descendant of an ancient god.

Moreover, it was a descendant of ancient god Nine Dragons.

The other creatures also faintly focused on this descendant of ancient god Nine Dragons.

"Speak, where did you come from?" The descendant of ancient God Nine Dragons asked.

His body was very different from the descendants of ancient god Nine Dragons on the Heavenly Court warship.

The descendants of ancient God Nine Dragons on the Heaven Court warship were still in their normal human forms.

But the descendants of ancient god Nine Dragons were in the form of monsters that were similar to monsters in water.

They were both ferocious and fierce.

"None of your business!" Su Yu coldly replied.

Su Yu restrained himself by not killing them on the spot.

"Impudent!" Several creatures angrily rebuked, "How dare you be rude to Lord Golden Dragon."

The Golden Dragon's fierce eyes narrowed.

The rest of the group looked at the large-scale heavenly court warship and gradually recognized it. Then, their pupils constricted as they said in a low voice, "You are Su Yu?"

The Heavenly Court warship had already been taken over by Su Yu.

Moreover, Su Yu had already killed all the descendants of ancient god Nine Dragons.

How could the descendants of ancient God Nine Dragons in Dao Abyss not know?

"If you know, then get lost," Su Yu said indifferently.

The Golden Dragon retreated and said in a low voice, "The grudge between you and the descendants of ancient god Nine Dragons has nothing to do with us."

"That's why you can stand and talk to me!" Su Yu said coldly.

The descendants of ancient God Nine Dragons in Dao Abyss hadn't had any interactions with Su Yu at the moment.

The Golden Dragon's expression relaxed slightly.

Luckily, Su Yu wasn't as savage as he had imagined.

Legend had it that Su Yu was so savage that he would kill anyone he saw.

It seemed like this wasn't the case.

He was far calmer than he had imagined.

"Alright, since you're here, you'll have to take on the task of resisting the destruction of the epoch. Do you have any objections?"

Su Yu pondered for a moment and slowly nodded. "As long as it's a normal task, of course."

To fight against the destruction of the epoch, every part of one's strength was needed.

Su Yu had never thought of making an exception.

However, if he deliberately arranged for the heavenly court's side to be in an extremely dangerous place...

Then he would have to forgive him for not agreeing.

"Alright, follow me to meet the commander of this region first," said the Golden Dragon.

The group immediately returned to the tribe.

On the way, the Golden Dragon told Su Yu about the general situation of Dao Yuan.

"Dao Yuan is divided into three levels: outer yuan, Middle Yuan, and inner yuan." The golden dragon said, "Outer Yuan is where you came from. It has been destroyed by the Sacred Mountain."

"All the defensive forces there have been destroyed, and the remaining forces have retreated to the middle yuan where we are now."

Su Yu looked at the deepest part of Dao Yuan behind him.

Dark clouds covered the area, and lightning flashed. "What about the Inner Abyss?"

If he remembered correctly, most of the experts in the Void had fled to Dao Abyss, right?

Why did they just stand by and watch the destruction of the current era?

Relying on ordinary experts like them?

"The Inner Abyss is our last hope." The Golden Dragon sighed deeply.

Su Yu roughly understood.

"Our Outer Abyss is divided into ten war zones. You are currently in the ninth war zone."

"There are eight defensive tribes in the ninth war zone. They rely on the arrangements left behind by many major powers in an era to resist the destruction of the era. As for which defensive tribe you will arrange, it will depend on the commander's decision."

The group arrived at the central army tent.

Many creatures were coming in and out of the tent, successively passing on the latest battle situation.

From Afar, one could see an extremely busy figure inside.

In addition, it was also a descendant of ancient god Nine Dragons.

Ancient God Nine Dragons had been in Dao Abyss for an era, and he had long since run this place like an iron bucket.

"Lord Shanglong, a new batch of experts has arrived at Dao Abyss," the Golden Dragon said as he opened the curtain.

Shanglong, who was processing information, raised his head in surprise. "There are still creatures from the outer realms coming to Dao Abyss?"

Not to mention that the outer realms had already been bombarded by the sacred mountain until not even dregs were left.

Even if there were still fish that escaped the net, how did they manage to successfully pass through the pursuit of thousands of sacred mountains and come to Dao Abyss.

He raised his head, his blue and cold eyes sizing up the leader, Su Yu.

The first thing he recognized was Su Yu.

His entire body released a strong killing intent. "Human sacred physique, Su Yu?"

He slammed his palm on the table. "Men!"

The Golden Dragon immediately stopped him and said, "Shang Long, please wait. Su sacred physique has no ill intentions."

If he really had ill intentions, he would have attacked just now.

However.

Why would Shang Long listen to the opinions of his subordinates?

His words were fierce. "Su sacred physique is ruthless and bloodthirsty. Leaving him behind is only a disaster!"

Su Yu's expression was indifferent.

The Dao Yuan creatures had an extremely deep misunderstanding of him.

Who gave them the impression that Su Yu was bloodthirsty?

The number of people he had killed was probably not even one percent of his ancestor, ancient god Nine Dragons.

Xiao Die could no longer bear to watch Su Yu speak.

"HMPH!" Xiao Die coldly snorted. "A Commander with such a brain? Su Yu really wants to harm you. Do you think you can still speak to him like this?"

However, Xiao Die opened her mouth and bit down.

The commander's defensive armor shattered with a crack.

The defense on it was as if it was nothing.

Moreover, the mid-stage Heavenly Dao master power that the commander had just condensed was instantly disintegrated into nothingness.

The commander was shocked as he stared at Xiao die in horror.

Xiao die raised her chin, "What are you shocked about? I could easily destroy you, let alone Su Yu? Wake Up!"

The Golden Dragon's eyelids twitched.

He had never looked at the young woman beside Su Yu.

Only now did he realize how terrifying she was.

There were no simple people who could stay by the side of the human sacred body.

The Golden Dragon immediately lowered his voice and said, "Lord Shanglong, please put the big picture first at this special moment."

Instead of spending effort and energy to kill Su Yu,.

It was better to use Su Yu's power to resist the destruction of the sacred mountain.

Shanglong had seen Xiao Die's power and finally woke up.

Su Yu was able to lead the heavenly court warship to survive from the nothingness and pass through thousands of sacred mountains.

How could he be easy to deal with?

He didn't know how much he would have to pay if he really had an internal conflict with her.

His expression gradually eased. He adjusted his messy clothes and said, "I'm sorry, I was too impulsive."

After pondering for a while, he said, "Since sacred body Su has come, then I'll give you the deputy chief of the third tribe to assist the third tribe in resisting the destruction of the sacred mountain. How about it?"

Su Yu didn't immediately agree. He said, "I'll first look at the situation of each tribe."

"Please do."

Su Yu compared the current situation of each tribe from the table.

An hour later, he nodded slightly.

Although the situation of the third tribe wasn't the best, it wasn't too bad either.

Shang long didn't have any malicious intentions.

"Alright, we'll head over now." After receiving a token from Shang long, he immediately steered the Heavenly Court warship over.

After he left.

Shang Long's expression slowly darkened.

Chapter 2817 Could Not Be Conquered For A Long Time

The golden dragon also frowned, "Lord Shanglong, why are you in the third tribe? The commander there is not easy to deal with."

There were still many inappropriate aspects to Shanglong's arrangement.

However, the Golden Dragon did not point it out in person.

It was to prevent Su Yu and Shanglong from having a conflict on the spot.

"Those who are not from our tribe have different hearts," Shanglong said calmly.

The Golden Dragon Sighed lightly. "Actually, we don't have any enmity with him. In a sense, we even have a common enemy."

His words were extremely secretive.

He didn't dare to name the enemy.

"Then let's wait for him to survive the destruction of the epoch!" Shang long said indifferently.

Speaking of which, Su Yu.

Came to the third tribe with a token in his hand.

This tribe was located on a mountain peak.

The entire mountain peak, from bottom to top, had already been set up with an extremely powerful array formation.

That array formation was actually similar to the turtle pattern of the Nightmare Lotus seat.

It gently flickered with flickering light.

"No wonder he was able to endure for such a long time." Su Yu was astonished.

Compared to the foundation and preparations of Daoyuan for an entire epoch.

His preparations over the course of several years were still too hasty and weak.

They were far from being comparable to the Daoyuan gathered by mighty figures.

However, if the mighty figures in the Daoyuan knew that Su Yu had relied on his limited resources to not only not be destroyed by the sacred mountain, but that he had even destroyed over a hundred sacred mountains, their jaws would probably drop in shock.

This was because up until now, the sacred mountain had besieged the Daoyuan sect.

The number of sacred mountains that had counterattacked and destroyed was less than fifty.

What Su Yu had done could already be said to be earth-shattering.

Su Yu's gaze passed through the turtle patterns and looked at the living beings that were busy fighting inside.

He realized that this third tribe was very special. There were no descendants of ancient gods.

Most of them were mixed forces.

Among them, he even saw the flag of Nirvana.

Thinking of the Nirvana monk that saved Gu Taixu, Su Yu felt disgusted.

This force was too mysterious.

Even the non-phase reverse birth Buddha once said that.

The person who created Nirvana was undoubtedly a Buddhist expert, and he was an existence that was hidden from the outside world.

Su Yu thought for a while and said, "Let's pretend for the time being."

His relationship with Nirvana couldn't be considered friendly.

If it wasn't necessary, it was best not to meet directly to avoid conflict.

"Who is it?" Just as Su Yu and the others weren't done pretending, two patrollers rushed over from the tribe.

Su Yu took out his token without a word.

The latter looked at it and could not help but be surprised. "Another deputy chief?"

Another?

Su Yu heard the key words.

Could it be that the deputy chief in front of them was doing well?

"Come in." Seeing the token, the patrolling soldiers opened a hole from the inside and let them in.

"Commander AI is commanding at the front line, I'll bring you there."

The two of them led.

They came to the front of the tribe.

The turtle patterns here faced the endless golden light beams.

The densely packed Earth Dao Masters stood in front of the turtle patterns and continuously poured power into them.

They maintained the turtle patterns' operation.

There were even quite a few heavenly dao masters among them.

Looking at them, Su Yu couldn't help but sigh. "If the giant nightmare crossing Lotus seat also had so many peerless experts, why worry about the destruction of the epoch?"

Just the tribe in front of them alone had more than ten million Earth Dao Masters and Ten Thousand Heavenly Dao Masters.

Their combined strength was enough to maintain the turtle patterns.

At this moment.

On a high platform in front of the formation.

A bearded monk dressed in kasaya with rough facial features was continuously commanding many experts.

"The first batch will go down to rest. The second batch will go up immediately," the bearded monk shouted.

The exhausted first batch of experts immediately retreated.

The second batch would go and maintain the turtle pattern.

Only by continuously changing could the turtle pattern continue to operate.

"Chief, the new deputy chief is here." Two patrols came forward to report.

The bearded Baldy looked at Su Yu. There was not much goodwill in his eyes. He said, "New? How many people did you bring?"

Su Yu pointed at himself, Xiao Die, and the heavenly court battleship behind him. "As you can see." There were only so many.

The bearded Baldy frowned. "What's wrong with the Commander! Sending a ship full of useless trash over! Other than the two of you who can still watch, what can the rest do? Eat Dry Rice?"

Su Yu narrowed his eyes. "Please show some respect."

If not for the support of the common people, Su Yu would not have attained the saint physique today.

How could he allow them to be insulted so casually?

Xiao Die looked at the Bearded Baldy coldly. "The peak of the early stage of the Heavenly Dao master and is about to step into the middle stage. No wonder you are so arrogant. I just don't know what great contributions you have made."

Being questioned in public, the bearded baldy said coldly, "Tell him the results of our third tribe."

The two patrols looked at the ignorant and said, "Under the chief's command, we persisted for ten days without causing any casualties. Among all the tribes, we are the best."

"In addition, the chief also seized the opportunity to destroy a sacred mountain and was highly recognized by the commander."

Then.

The bearded baldy said calmly, "Is this enough?"

Xiao die heard that.

As though she heard the funniest joke, she said, "If I didn't hear wrongly, do you think that being a coward for ten days is a great achievement?"

They were actually proud of this?

That Heavenly Court warship didn't have anything. Not only did it block the attack, but it also successfully destroyed 112 sacred mountains.

What was that?

Was it necessary to change Su Yu to be their commander?

"Impudent!" The bearded monk berated, "What are you trying to do by disturbing the morale of the Army?"

They actually dared to question the glorious battle record of the third tribe.

Xiao die sneered and was about to tell them what a battle record was.

However, Su Yu waved his hand and asked them to stop talking.

They came here to contribute their strength and fight for a chance for them to survive the destruction of the epoch.

They didn't come here to have a meaningless argument with others.

"The people I brought will be arranged. You Don't have to worry about it." Su Yu said indifferently, "If there is any shortage of manpower, you can tell me."

The bearded monk glanced at Xiao die coldly and said, "All of you should go to the logistics to patrol. I reckon that you guys won't be of any use."

Su Yu thought for a moment and said, "How about I stay at the front line? I believe that I can infuse some useful strength into the formation."

In terms of strength, among all the experts present, who could beat a saintly being?

"There's no need!" The bearded monk said.

Su Yu nodded. "Okay, if you need anything, come find me."

After that, Su Yu immediately led the Heavenly Court warship to participate in the patrol mission.

"What are you afraid of him for?" Xiao die was extremely indignant. "We have good intentions and took the initiative to ask for help, but in the end, he treats us like this. How hateful."

Su Yu shook his head. "It's not that we're afraid of him, but overall, the front line really doesn't need us."

"Moreover..." Su Yu's gaze narrowed slightly. "I think that the patrol that seems unimportant is the most important."

Xiao die blinked.

"That's the work of a small soldier. Letting us do it is simply a waste of talent." Xiao die was extremely disapproving.

Su Yu's gaze was deep. "Is that so? If you were the sacred mountain, what would you do if you couldn't conquer it for a long time?"

Chapter 2818 Location Signal

Xiao die thought about it very seriously and said, "I will eat it."

The corner of Su Yu's mouth twitched and he said, "Other than eating?"

"Big Bites."

"Other than eating."

"Big Bites!"

Su Yu's forehead was filled with black lines. He rubbed his forehead in pain and said, "I'm sorry. I shouldn't have talked about this with you. I was wrong."

He felt like he was casting pearls before swine.

Xiao die was unhappy. She looked askance at Su Yu. "Why do I Feel Like You're looking down on me?"

"That's an illusion. I'm not looking down on you. Really!" Su Yu said, "I'm just staring at you!"

Xiao die immediately waved her little fists. "Ah, you're looking for a beating!"

Su Yu dodged slightly and said, "Let's not waste time. Let's speed up the patrol. As expected, the sacred mountain has already made their move."

"Oh? What Action?" Xiao Die's eyebrows twitched.

Su Yu said, "Of course it's an internal attack on Dao Yuan."

The strongest fortresses all started to collapse from the inside.

If Dao Yuan could not be taken down for a long time, the sacred mountain would definitely think of a way to cause cracks in Dao Yuan.

"Are you sure?" Xiao Die did not quite believe it. "Is there someone stupid enough to help the sacred mountain and Destroy Dao Yuan, destroying their own hope of Survival?"

Su Yu smiled faintly. "Yes, and there are plenty of people around."

Under Su Yu's arrangements.

He and Xiao Die each led a team from the heavenly court to patrol around the third tribe.

If they discovered anything unusual, they would need to inform Su Yu immediately.

Several days passed.

Nothing unusual happened.

However, the sacred mountain's attack was still as usual, pouring golden beams of light at Dao Yuan at a moderate pace.

Even if Dao Yuan showed no signs of being unable to withstand the attack.

It was as if he was not in a hurry at all.

But because of this, Su Yu became even more vigilant.

He had a vague feeling that the sacred mountain was definitely up to something.

Beep Beep --

At this moment, his token was slightly left.

Other than his identity, the token also had a communication function.

It was the chief summoning Su Yu.

Su Yu immediately rushed to the high platform at the front line.

There were already several people gathered around the chief.

One of them was covered in blood, as if he had been seriously injured.

On his waist, he wore a very eye-catching token.

It was the deputy chief token.

Su Yu was slightly surprised.

Every tribe only had one chief and deputy chief.

How could there be one more.

At this moment, the chief was excitedly talking to the deputy chief.

Seeing that Su Yu had rushed over, he immediately waved his hand and said, "Come here, let me introduce our legendary deputy chief to you."

"Legendary?" Xiao die sized up this person.

This was an extremely ordinary creature, and its figure seemed very weak.

Its expression also seemed particularly unconfident.

Under the crowd's observation, they felt uneasy.

"Little girl, this is our tribe's main contributor who personally destroyed a sacred mountain. It is precisely because of this that he was promoted to deputy chief." The chief was very dissatisfied with Xiao Die's questioning gaze.

"You better show me some respect." It could be seen that the chief held this deputy chief in high regard.

So it turned out.

Initially, the sacred mountain had launched a large scale invasion, blasting the outer abyss into a scorched land.

The chief and the others were attacked by the extermination attack and had no choice but to retreat.

On the way back, the chief in front of him was attacked by a beam of light.

It was the deputy chief who had used the ancestral treasure to block that fatal damage.

Not only that.

The treasure even returned the golden light beam.

And coincidentally, it penetrated through a weak point and destroyed the sacred mountain.

Therefore, the deputy chief became famous in one battle.

Xiao Die didn't think much of it.

Su Yu nodded slightly to show his respect and said, "Then, why did the chief summon me here?"

The chief looked at the deputy chief with gratification. "Deputy Chief Chen led a group of people to Neiyuan to transport supplies, but they were attacked by a golden light beam midway and luckily escaped back."

"Those supplies are scattered nearby. We need a group of people to go and find them."

The chief's gaze finally turned to Su Yu. "Since you have nothing to do in the tribe, why don't you go and get the supplies back?"

Xiao die was immediately unhappy when she heard this.

"What do you mean by nothing to do? Are you blind or something? Didn't you notice that we have been patrolling?"

The chief sneered, "Do we need to patrol the tribe? It's a waste of time. I'm too lazy to bother with you guys."

The tribe had the turtle pattern defense so there was no need for a large number of patrols.

Su Yu frowned, "Chief, we can't be careless. I personally suggest that we strengthen our defense and stabilize the current situation."

The Sacred Mountain and Dao Yuan were in a tug-of-war.

Let's see who can hold on until the end.

The attacks of the sacred mountain were indeed fierce, but they couldn't be endless, right?

The Sacred Mountain maintained their current situation, which meant that they were in an invincible position.

"I'm just a chief, and I still need your advice from a deputy chief who doesn't have any experience?" The chief snorted disapprovingly. "Go, immediately bring people to retrieve the supplies."

As he spoke, he threw a map to Su Yu. That was the place where the supplies were scattered.

Su Yu hesitated for a moment and said, "Alright."

He hadn't been gone for long, so there shouldn't be any problems.

Not long after, he brought Xiao Die and the others to the target point.

Seeing them leave, the chief snorted coldly. "You don't know what's good for you!"

Deputy Chief Chen Sighed. "Chief, the corpses of our brothers have been brought back. I want to bury them as soon as possible."

There were many people who went to transport the supplies.

Only he came back alive.

The chief sighed and said, "Go and bury them properly."

Deputy Chief Chen said, "When I came back, I met a lot of people on patrol. They questioned me about my identity. Will it cause trouble if I bury them?"

Hearing that.

The chief frowned and snorted coldly, "This new deputy chief is extremely bored! Pass down my order and immediately cancel the strict patrol. Just keep the simple patrol from before."

At that time.

Su Yu led Xiao Die and the others to the location of the map.

It was visible to the naked eye that this place was full of destruction.

The terrifying scene after the indiscriminate bombing was everywhere.

There was still dried blood on the ground.

"It should be this place." Su Yu looked at the various resources scattered around and said, "Put away all the resources and move quickly."

Although the golden light beam should have hit this place unintentionally.

The possibility of it happening again was very low, but they had to be on guard.

The crowd immediately scattered and kept the resources.

Su Yu also participated in it and found that most of them were secret medicines to replenish their strength.

The tribal experts kept pouring their strength into the turtle patterns.

The consumption of their own strength was very high.

These secret medicines were the key.

They were packing up.

Suddenly, Empress Starry Rain and the others discovered something and said, "Brother Su Yu, come and take a look. What is this?"

Su Yu rushed over.

He discovered that it was a jade seal that was buried in the soil.

When the golden beam of light struck, the jade seal was left at the side and was not destroyed.

At this moment, the jade seal was still emitting a weak red light.

Traces of ripples were constantly being transmitted to the air above.

When Su Yu saw this.

His expression sank slightly. "Location signal!"

Chapter 2819 Are You Surprised

Xiao die and the rest rushed over one after another and recognized the item.

"That's strange. Why is there a GPS signal here? who left it behind?" Queen Xingyu was puzzled.

It was rare for Xiao die to use her brain. She pondered for a while and said, "It's not someone who left it behind. From the condition of the item, it should have been left behind by deputy chief Chen's caravan when they were bombed."

Yu Xiang Wan furrowed her brows deeply. "This is unusual! This is a life and death battle. As a team transporting supplies, their actions should be extremely secretive. Why would they carry a GPS signal with them?"

"If the signal was received by the enemy, wouldn't they immediately reveal their location? They would also be attacked by the enemy..."

He didn't finish his sentence.

Because his hypothesis was unnecessary.

The truth had already happened.

The transportation team had really suffered the destructive attack.

Other than deputy chief Chen, everyone else had lost their lives.

"There's a mole in that transportation team, and the most suspicious one is..."all of them came to the same conclusion in their minds.

Without a doubt.

Deputy Chief Chen was extremely suspicious.

Su Yu muttered, "I'm just curious. How could it be so coincidental? This transportation team happened to be hit by a golden beam of light. So there's a mole."

Looking at the location signal, Su Yu's eyes were cold.

Suppressing the urge to crush it, he kept the jade formula.

As evidence, he needed to bring it back.

Di Di --

After a moment of silence, the Jade Seal once again sent out a series of strong signals.

Su Yu immediately had a bad premonition and hurriedly shouted, "Not good, retreat from this area immediately."

Boom --

Just as he finished speaking.

Before anyone could react.

A golden beam of light descended from the sky and shot towards them with incomparable precision.

It was the transmission signal.

This signal was actually left behind by deputy chief Chen on purpose.

When they discovered the signal, they would send out another attack signal, attracting the golden beam of light to kill them.

The so-called task of collecting supplies.

It was an ambush operation aimed at them from the beginning to the end.

Fortunately.

That golden beam of light was sent out by a sacred mountain alone.

Its power was very limited.

Without Su Yu's help, Xiao Die merely opened her mouth and ate the golden beam of light effortlessly.

"You really look down on us," said Xiao Die disdainfully, "This little beam of light seems to be keeping us here? Stop joking."

Everyone was safe and sound.

Yu Xiang Wan said in a low voice, "This deputy chief Chen is really cunning. It's a pity that he doesn't know what kind of existence he's trying to frame."

That was a supernatural existence that could destroy hundreds of holy mountains.

A golden beam of light from a Holy Mountain was nothing?

Xiao Die muttered, "Luckily, Su Yu kept a low profile and did not expose our combat strength. Otherwise, if that deputy chief Chen knew about this, what's waiting here today would not be a golden beam of light, but many, many..."

Yu Xiang Wan could not help laughing. "Finally, you know why Su Yu wanted to hide and not reveal himself? We're not familiar with this place, remember to expose yourself."

Xiao Die snorted with a guilty conscience. "It's none of your business."

Su Yu's eyes were cold. "Let's go back to the third tribe!"

His plan to increase patrols was indeed correct.

The Mole had already started to take action.

Destroying the resources and destroying the remaining forces in the tribe was only the first step.

They should have more powerful plans in the future.

"Wait!" Su Yu stopped and narrowed his eyes. "Xiao Die, just follow me back. The rest of you, Hurry to the inner abyss. No matter if you can enter the inner abyss or not, you must get closer to the Inner Abyss."

Yu Xiang Wan had a bad feeling.

"Brother Su, did you notice anything wrong?"

Su Yu nodded. "I have a bad feeling that the inner abyss won't be able to hold on for long. For safety's sake, all of you should prepare to retreat to the inner abyss."

After hearing that.

How could Yu Xiang Wan be careless?

She immediately led the group and boarded the warship of the Heaven Court, ready to charge toward the inner abyss at any time.

Su Yu and Xiao Die returned to the ninth Warzone, the third tribe.

As soon as they entered, Su Yu realized that something was wrong.

"Where are my patrols?" Looking around, there weren't many people patrolling around the turtle mark.

If there was a mole doing something nearby, it would be impossible to notice.

Not far away, a bored logistics soldier said, "According to the chief's orders, the patrols have been canceled. Those people have other plans."

Is that so?

Su Yu thought for a moment and said, "Where is that Deputy Chief Chen?"

This person was most likely a mole.

They had to find him as soon as possible.

They had to prevent him from causing more damage.

"Deputy Chief Chen? He is burying the remains of his brothers in the mountain."

In the mountain?

Within the third tribe's territory, there was only one mountain.

That was the only area with a barrier near the turtle mark.

It was also the area Su Yu had previously ordered to focus on patrolling and inspecting.

If someone wanted to destroy the turtle mark from the inside, the area near the mountain was the best area.

"I was careless. I should have thought of it long ago." Su Yu blamed himself.

Since that deputy chief Chen had the ability to bring back the corpses of his companions, why did he not pay attention to the resources scattered all over the place?

It was clearly done on purpose.

Bringing back the corpses would make it easier for them to get close to Zuo Mountain.

Without any delay, Su Yu immediately flashed towards that mountain.

With his speed, it was only the time it took to brew a cup of tea.

He appeared at a graveyard.

There were countless gravestones of the dead in this area. It was the burial ground for all the dead who had sacrificed themselves for the tribe.

However, as far as the eye could see, where was that Deputy Chief Chen?

"As expected, he's not at the graveyard." Su Yu snorted coldly. He opened his eyes of the common people and looked down at the fourth heaven.

Especially near the turtle mark.

However, what surprised Su Yu was that he didn't see Deputy Chief Chen's shadow.

"Could it be that I made a mistake?" Su Yu couldn't help but doubt.

However, he immediately believed it.

All kinds of signs showed that deputy chief Chen was definitely a traitor.

"I'll find you even if I have to dig three feet into the ground!" The Eye of the Heaven in the sky immediately turned into the eye of insight.

Even the depths of the ground could be seen with a single glance.

Suddenly.

The eye of insight suddenly discovered.

A seemingly ordinary rock actually had an extremely secretive underground cave.

A figure was hidden inside.

It wasn't anyone else.

It was precisely deputy chief Chen.

He was patiently setting up some sort of simple array formation inside, and the array formation had already been prepared.

"I've finally succeeded." Deputy Chief Chen wiped the sweat off his forehead. He was a little tired.

This array formation was a special array formation that specialized in destroying the turtle patterns.

Setting it up was especially taxing on one's mental strength.

"It's been quite tough. After all, we've dug such a huge grave."

Just as he was resting, a mocking voice suddenly sounded in his ears.

Deputy Chief Chen's entire body suddenly stiffened, and cold sweat broke out on his back.

He had been discovered!

Boom --

The huge rock above the cave where he was standing was shattered by a force.

And a person jumped down from it.

"Deputy Chief Su?" Deputy Chief Chen's eyes kept changing.

Su Yu landed and said calmly, "How is it? Are you surprised? Are you surprised?"

Chapter 2820 Favoritism To The End

Deputy Chief Chen calmly hid the array behind his back and said, "What did you say? I don't quite understand."

Su Yu chuckled, "Then I'll tell you in words that you can understand."

He flipped his palm and a jade seal appeared.

A positioning signal flashed on it.

"Tell me that you don't recognize this thing," Su Yu said indifferently.

Deputy Chief Chen was very calm and asked, "What is this?"

Su Yu smiled and pointed his finger near the jade seal, reversing time and space.

Images of the reverse flow appeared near the jade seal.

Finally, it was a palm holding the jade seal.

Su Yu froze it and sent it to deputy chief Chen. "Tell me again, this is Definitely Not Your Hand?"

Deputy Chief Chen saw that it was useless to argue.

That seemingly weak and meek face was finally filled with a sinister coldness.

Even his voice became exceptionally low.

It was as if he had changed from inside out.

"To be honest, you really surprised me! You actually managed to come back alive from there. But what surprised me even more was that you were stupid enough to come looking for me."

Deputy Chief Chen took out a ball from behind and smashed it fiercely at Su Yu.

A shocking mid-stage Heavenly Dao master power erupted from the ball.

This power was much stronger than the chief's.

Even if he came personally, he would die without a doubt.

Not to mention Su Yu, the deputy chief?

However, what Deputy Chief Chen couldn't imagine was that.

The destructive light of the ball couldn't advance any further after it was three feet away from Su Yu.

That was because a layer of flowing nine-colored light appeared around Su Yu.

Deputy Chief Chen was shocked.

Before he could recognize what the nine-colored light was, he immediately crushed a jade seal.

Su Yu thought it was a space teleportation.

He used his space domain to seal the area and stop it from leaving.

Who knew that the fluctuation in the jade seal was actually the aura of chaos.

The aura of chaos wrapped around deputy chief Chen, broke through the seal of Su Yu's space domain, and immediately escaped.

Su Yu's expression changed slightly, and he immediately rushed out of the cave to chase after Deputy Chief Chen.

The aura of chaos ran straight.

After half a cup of tea, it actually returned to the military camp.

"Courting death." Su Yu said indifferently.

If this person escaped back to the sacred mountain, he might still be alive.

But if he escaped back to the camp, then only death awaited him.

The two of them rushed to the high platform one after another.

At this moment, the chief was methodically commanding the many experts to fight.

Deputy Chief Chen was the first to rush back. His face was full of panic. "Chief, save me. There's a rebellion!"

The chief suddenly smelled something dazzling. He was stunned. "What Rebellion?"

Shua --

Su Yu rushed back in time.

The chief was surprised. "You completed the mission?"

Wasn't the speed a little too fast?

Even if he rushed over personally, he would need at least a day to go back and forth.

"The mission is completed. All the resources have been found." Su Yu handed all the spatial storage devices containing the resources to the chief.

The chief swept his gaze over and nodded slightly. He said expressionlessly, "Well done."

In his opinion, this was a job that anyone could do. It was not difficult at all.

It was not a big deal.

"In addition, I also found this." Su Yu took out the jade seal that was transmitting the signal.

With just a glance.

The chief's expression changed immediately and he shouted, "Where did you get it?"

Su Yu said indifferently, "Then you have to ask why this team that you sent just happened to be attacked by the sacred mountain's golden light beam."

Hearing that.

The chief said in a deep voice, "You're saying that this signal device was found in the supplies?"

Su Yu answered in silence, which was a tacit agreement.

The chief's face was gloomy, "Who did it?"

As long as he was not stupid, he would be able to understand that there must have been a spy in the team back then.

Su Yu looked at Deputy Chief Chen and said indifferently, "Who do you think the sacred mountain would not hurt the most?"

Of course, it was a spy.

Why did deputy chief Chen, whose strength was not outstanding, survive when everyone else had died?

"It's You?" The chief turned his head and stared at Deputy Chief Chen fiercely with tiger-like eyes.

Deputy Chief Chen looked weak and said aggrievedly, "Chief, even you don't Trust Me Anymore?"

The chief was stunned.

That's right.

Everyone was suspicious, but deputy chief Chen was the least suspicious.

Back then, he was the one who saved his life.

He was also the one who destroyed a sacred mountain.

He was the pride of the third tribe.

There was no reason, and there was no need for him to be a spy.

"What happened? Tell me clearly," the chief said patiently.

Deputy Chief Chen said, "I don't know what happened either. At that time, I was burying my brothers at the Grave Mountain, but this deputy chief su suddenly appeared and took out the so-called signal device. He was much better than me admitting that it was mine."

"I didn't want to admit it, so he pursued me and tried to kill me. Now, he still continues to slander me. Chief, I have never asked you for anything, but this time, please make sure that you stand up for me and protect my reputation."

Hearing this, the chief's face sank.

Between deputy chief Chen and Su Yu, who did they trust more? was there even a need to ask?

The chief glared at Su Yu. "Do you have any conclusive evidence?"

Su Yu used the power of time on the spot, causing the image near the jade seal to reverse, and finally, deputy chief Chen's hand appeared.

"Is this considered evidence?"

The chief's face turned ugly.

Deputy Chief Chen immediately quibbled. With tears in his eyes, he swore to the heavens, "Chief, you have to believe me. I really don't have any. This image must be fake."

The truth was right in front of his eyes, and he actually dared to say that it was fake?

The chief couldn't bear to make a decision and said, "Do you still have evidence?"

Su Yu looked between the two and said, "Yes, but you have to make a trip personally."

The chief pondered for a long time.

He said, "For the sake of deputy chief Chen's innocence, it's only right to make a trip."

As he spoke, his eyes stared coldly at Su Yu and said, "However, if what you said is even the slightest bit false, I will definitely punish you severely."

Su Yu did not mind. "Whatever."

The group of people immediately moved forward.

Once again, they arrived at the space of the Tomb Mountain.

The array was still left on the spot, clearly visible.

Su Yu calmly stood on the spot, crossed his arms and said, "This array was personally set up by him. His aura is left on every material. You can compare it."

"Of course, if he says that these are all fakes, then just pretend that I didn't say anything."

When everyone understood the use of the array, they all sucked in a breath of cold air.

It was actually an array that made the turtle pattern lose its effectiveness.

Once the array lost its effectiveness and the golden light beam suddenly attacked, the consequences were obvious.

All the experts would be instantly turned into ashes.

The chief's expression was terrifyingly gloomy. "Men, take down deputy chief Su!"

What?

The several experts who followed almost thought that they had heard wrongly.

It was clearly deputy chieftain Chen who had set up the formation, why was it that he had angrily captured deputy chieftain Su?

"Chieftain, you must have made a mistake, right?"

"Deputy chieftain Chen is the true traitor."

Since things had come to this point, anyone with slightly sharp eyes would be able to understand who was the true traitor.

The chieftain sternly berated, "All of you are muddle-headed! You can casually determine the suspicion of others based on their aura? Don't you know how much contribution deputy chieftain Chen has made to our third tribe?"
