

Nine-Dragon 2821

Chapter 2821 He Held Great Power

"He is the hero of the third tribe. He is the first to be imitated by all living beings."

"Now, we will announce to the public that the hero is a traitor. Have you thought about how devastating it will be to the morale?"

Many experts looked at each other.

So what?

Deputy Chief Chen was a traitor to begin with.

"Deputy chief su schemed to slander our hero in order to destroy us from the inside. Therefore, there is no doubt that everything he did was the act of a traitor. He is the true spy."

Hearing that.

The crowd was immediately dissatisfied.

"Chief, you probably think that we are all blind or sand. How Can You Fool Us Like This?"

"Isn't it ridiculous? The conclusive evidence is right in front of us. Chief, you turned a blind eye to it and instead questioned the person who presented the evidence as the spy?"

"I actually experienced such a ridiculous thing personally?"

Everyone could see it.

It was the chief who was deliberately favoring deputy chief Chen.

At this moment, someone said uncertainly, "Could it be that the chief is also a spy?"

A normal chief would think of all ways to get rid of a spy who was a great threat once they found him, right?

But the chief of the third tribe had a strange reaction.

"What nonsense are you talking about?"The chief said fiercely. His whiskers shook, "Without my command, you would have been bombarded into dregs by the golden light beam of the sacred mountain."

This..

Everyone was stunned. It seemed to be true.

If the chief was a spy, there was really no need to help them. They had been resisting the sacred mountain until now.

"Capture deputy chief Su."

Under his orders, the other experts hesitated and surrounded Su Yu in the center.

They sympathized with Su Yu.

But for the time being, they did not want to disobey the chief's orders.

"Deputy chief Su, sorry for offending you."The group of people were ready to capture Su Yu.

Su Yu said indifferently, "Before capturing me, shouldn't you destroy the array first? If someone took advantage of the chaos to activate it, it would be a disaster."

The group of experts immediately turned their heads to look.

They saw deputy chief Chen silently moving to the vicinity of the array.

And when the group of people discovered him, he successfully activated the array.

"You Traitor!" The experts were unable to contain their anger. They no longer cared about the chief's obstruction and attacked deputy chief Chen One after another.

However, the chief whose back was facing them.

Instead, he curved his lips into a cold smile at their backs.

He was also a spy.

However, he was a spy that deputy chief Chen had only developed later on.

Hu --

He took out an incense burner and blew a breath into it.

Immediately, dust filled the sky and rushed towards the experts.

They didn't even have the time to scream before they were swallowed by the dust. Not even dregs were left.

Finally.

In the narrow space, only the chief and the two Deputy Chiefs were left.

Deputy Chief Chen calmly flicked his hair and said, "I'll return the same words to you. Are you surprised? Are you surprised?"

The corners of his eyes were full of mockery.

Su Yu smiled faintly. "To be honest, I'm not surprised, much less surprised! From the moment my patrol was canceled, I knew that our chief was most likely a traitor."

From the beginning to the end, the other party had either openly or covertly helped deputy chief Chen complete the plot.

As for the words that distorted black and white just now, it was just to confirm Su Yu's thoughts.

Deputy Chief Chen chuckled, "Hindsight! If that's the case, why don't you save these experts?"

Su Yu was expressionless as he said indifferently, "Hindsight, are you sure?"

Creak --

Suddenly, a strong thump was heard.

It was the operation of the array that came to an abrupt stop.

Deputy Chief Chen's smile froze. He immediately looked at the array and said angrily, "What did you do?"

The formation seemed to be in good condition, but there was a trace of space-time energy in it, causing the operation of the formation to be chaotic and unable to proceed normally.

"When?" His face was gloomy.

Su Yu said indifferently, "Of course, it was when I rewound your image for the first time."

Hearing this, deputy chief Chen's face was gloomy and cold. No wonder Su Yu was fearless.

"Then, why didn't you save them even though you knew that the chief was also a traitor?"

Su Yu put down his arms and said indifferently, "Because I hope that all of you will die cleanly so that I can smoothly control the position of the chief."

If that group of people were left behind, they would definitely spread the news of this place.

That would cause the hearts of the people to fall into chaos.

As the new deputy chief, it would be difficult for him to gain the trust of everyone.

"You want to fight two of us alone?"

"Enough!"

Deputy Chief Chen sneered. "Breaking that ball just now gave you boundless confidence. Try This..."

However, his sneer was still on the tip of his tongue.

A ten-thousand-meter-long rainbow-colored greatsword had already pierced through his body and crushed him into the stone.

His body and soul had been destroyed!

The Chief, who hadn't had the chance to act yet, sucked in a breath of cold air. "This... This is a sacred body? You, you are Su Sacred Body?"

The sacred body of the human race that had killed all of ancient god Nine Dragons' descendants in the outside world, the one that had barged into dao abyss and crushed many experts... Su Yu?

He was an existence that even ancient gods would not hesitate to kill.

He was just a tribal chief. What was he in front of him?

The tribal chief's lips trembled as he hurriedly said, "Sacred body, please spare me. This lowly one has eyes but does not recognize Mount Tai. Please forgive me."

Su Yu's expression was indifferent. "It's fine if you've offended me, but you've offended the trillions of people in the third tribe! They gave their hopes of survival to you, yet you betrayed them!"

"Give me a reason not to kill you!"

The chief said with a bitter face, "Sacred Body Su, I was also helpless. It's impossible for the Sacred Mountain to destroy us. There's only death!"

"The sacred mountain promised that as long as I follow their instructions, I will be included in the list of pardons for destruction. So I..."

Su Yu did not continue listening.

Because it was almost the same as what he had imagined.

Facing the endless and fierce attacks of the sacred mountain, everyone gritted their teeth and struggled in despair.

If their willpower was not firm enough, they would definitely surrender.

"Alright, explain it to those who were killed by you." Su Yu's long sword swept across and crushed them on the spot.

After keeping the chieftain token, Su Yu once again slashed through the array and immediately returned to the high platform of the military camp.

A group of experts who were resting couldn't help but ask, "Deputy chieftain Su, where are the chieftain and the experts who went there?"

Su Yu's face was filled with pain as he said, "Everyone, I now announce a piece of bad news."

"After investigation, deputy chieftain Chen was indeed a traitor. Our chieftain acted out of righteousness and personally executed deputy chieftain Chen. The latter was torn between life and death, and the chieftain carelessly sacrificed himself."

"There were other experts who died with him. I was the only one who managed to survive."

"Before the chief passed away, he passed the token to me. He hoped that I would temporarily take over the authority of the tribe."

Hearing that.

Many experts immediately exploded.

The chief was dead?

They were shocked, but they felt that it made sense.

Previously on the high platform, deputy chief Chen's behavior was suspicious.

It was not an exaggeration to say that he was a traitor.

Now, a chief and a deputy chief were both dead.

Deputy Chief Su was the chief, so there was nothing wrong with that.

"But, deputy chief Su, do you have any experience in commanding the tribe to resist the sacred mountain?"

However, there were still people who questioned his ability.

Resisting the sacred mountain was not something that could be done with just words.

One needed to have real skills.

Su Yu smiled faintly. "I haven't been in the tribe for long, so I have zero experience in this area."

The moment he said that.

The entire place was in an uproar.

"Then why don't you let me be the Commander?"

"If you hand it over to a newbie who has never experienced anything, wouldn't you be jumping into the fire pit yourself?"

However.

Just as they were getting angry, Su Yu said again, "However, I once commanded my people in the void and destroyed 112 Sacred Mountains!"

The boiling crowd seemed to be frozen in time and space.

Dead Silence!

Chapter 2822 Came To Complain

The figure of 120 shocked many creatures.

They thought they had heard wrong.

"How much, 120?" Someone questioned subconsciously.

It was not that they wanted to question.

It was that Su Yu's words were too exaggerated and hard to accept.

If it was a sacred mountain, they would still believe it -- just barely.

But one hundred and twenty.

How could anyone believe it?

Dao Yuan had gathered so many experts and had fought for dozens of days. How many Sacred Mountains had he shot down?

Not even fifty.

Su Yu had led a few defeated soldiers who couldn't even make a name for themselves and had actually destroyed one hundred and twenty?

It was truly a fantasy.

"Whether you believe it or not is up to you." Su Yu said indifferently.

Of course, no one was willing to believe it.

"But from now on, I am the temporary chief. I have full authority over the ninth war zone and the third tribe. Everyone must listen to my arrangements. Those who disobey will be dealt with by military orders!"

Many experts were silent for a moment, not resisting.

Even if the battle results that Su Yu mentioned were all fake, his identity as the deputy chief was real.

Now that the chief had fallen, he indeed had the ability to control the overall situation.

"All beings of the heavenly court, Listen Up and resume your patrol. No unrelated people are allowed to get even half a step closer to the turtle pattern."

The beings of the heavenly court warship naturally listened to the order and immediately rearranged their patrol.

"In addition, the former subordinates of Deputy Chief Chen, family and friends, are to be arrested on the spot!" Su Yu shouted coldly.

Even the chief had been instigated by Deputy Chief Chen to rebel.

Let alone his family, friends, and even subordinates?

Most likely, they had also joined the sacred mountain.

Hearing this, the crowd immediately became restless.

"This is simply reckless! At the moment of dealing with the sacred mountain, this will make people uneasy!"

The crowd had unknowingly voiced their doubts.

"This move has caused us to panic and hit the enemy's mark. This deputy chief SU is working for the enemy, right?"

"Wait! Why do I Feel Like It's a conspiracy? Did the chief really die together with Deputy Chief Chen? No one saw it. It's all based on deputy chief Su's word."

"There must be something wrong!"

..

Humans were blind followers.

The people who did not have any doubts were immediately engaged in a heated discussion when they were heckled.

Doubts arose everywhere.

Not only did they doubt Su Yu's ability, they even started to doubt his identity.

Su Yu laughed coldly in his heart as he looked at the source of the voices.

However, it was obvious that they were deliberately hiding themselves.

It made it impossible for people to trace the source of the voices.

"The person who doubts doesn't even dare to show his face. Does anyone believe his words?" Su Yu said indifferently, his voice covering the entire place.

Everyone frowned and looked around.

They wanted to see who started it.

In the crowd, an unknown voice broke out again.

"Are you kidding? who dares to reveal their true identity? What if you kill them?"

"That's right. Unless you prove your innocence, we can only trust you."

"That's right. In order to prove your innocence, you must listen to everyone's orders and hand over the token. We can only trust you after the commander-in-chief sends a new chief to investigate everything!"

Now, they had brazenly stripped Su Yu of his command.

Su Yu's gaze was like lightning as he said indifferently, "Do you really think that just because you're hiding, I won't be able to find you?"

With a grab of his palm, he counted the fluctuations of the voices and held them all in his palm.

Then, he activated his soul domain and blew into his palm, "Trace the source."

The voices immediately carried soul attacks and returned to the master's mind.

Ah --

Instantly.

A series of miserable screams resounded.

Five inconspicuous people stood around the crowd, hugging their heads and roaring in pain.

Su Yu's eyes flashed, and he brought everyone to the high platform.

He looked at the five people with a faint smile and said indifferently, "Can anyone tell me who these five people are?"

Everyone looked over and was quickly recognized.

"Two of them are deputy chief Chen's staff officers, one is deputy chief Chen's general, and the other two are his cousin and elder sister."

Everyone was muttering in their hearts.

They were all deputy chief Chen's people.

Could it be that there was really something wrong with them?

Su Yu's eyes swept over the five people. A powerful soul domain swept through the secrets deep within their souls.

As expected.

Among them, he discovered the memories of deputy chief Chen who had successfully instigated their rebellion.

Su Yu used his soul domain to transform many of the memories into images and projected them into the sky, revealing them to the world.

When they saw those scenes, the entire place was in an uproar.

"Deputy Chief Chen is really a traitor!"

"These people who are stirring up trouble really have ulterior motives. They almost fell for it!"

"Execute these traitors!"

"Execute them!"

Su Yu's gaze was indifferent as he said, "There's no rush. Let's find out all the traitors first."

Next.

Who else would object to Su Yu's orders?

Many experts immediately made their moves and captured all of deputy chief Chen's former subordinates, family, and friends.

They also searched their souls one by one.

Anyone found to be in cahoots with deputy chief Chen was immediately imprisoned.

A Day passed.

More than a hundred accomplices were uncovered.

They each had their own duties.

Deputy Chief Chen was in charge of the most important task, breaking a corner of the array.

And the one hundred of them were in charge of stopping the restoration. They had to give the sacred mountain a chance to destroy the third tribe.

The people who knew the truth were furious.

They treated him as a comrade, but the other party was looking forward to how to kill them!

Blood splattered everywhere, and all the spies were executed.

The problem was solved.

Su Yu heaved a sigh of relief. He looked for Yu Xiang Wan and said, "For the time being, you'll be in charge of the third tribe."

No matter what, Yu Xiang Wan had once commanded a large number of corpse clan members.

Right now, she was merely supervising the many strong practitioners to follow the steps.

For Xiang Wan, it was not difficult at all.

"What about you, brother Su?" Yu Xiang Wan asked.

Su Yu looked at the other areas with a solemn expression. "I'm going to the headquarters. The appearance of the Mole is definitely not unique to the third tribe. The headquarters needs to investigate all the tribes immediately."

Yu Xiang Wan nodded her head deeply. "Don't worry, brother Su. I'll protect the third tribe well."

There was no time to lose.

Su Yu immediately headed to the commander's tent.

Half a day later.

Su Yu stood in front of the commander's tent.

Just like him, there were many tribal envoys waiting outside the camp for Shanglong to summon them.

Su Yu was a little anxious.

All the spies should be under the command of the sacred mountain at the same time.

Since he had ordered deputy chief Chen to take action, he believed that the rest of the spies had already taken corresponding measures.

If they didn't take action in time, there would probably be a great disturbance.

However, there were too many people coming to report.

In a short while, he couldn't be ranked at all.

"Sacred Body Su?" Golden Dragon came out of the Tent in armor.

He found Su Yu waiting outside. "Why? Are you used to the third tribe?"

He thought to himself, could it be that Su Yu and that chief didn't get along?

Jin long was very clear about the character of the chief of the third tribe.

Su Yu was an outsider. It was extremely difficult for him to get along well with him.

He was probably here to complain.

Chapter 2823 Headstrong

Upon seeing the Golden Dragon, Su Yu said, "Can you help me pass on a message to Shang Long? There's something urgent that needs to be reported."

The Golden Dragon stopped smiling.

He was surprised.

Urgent?

Seeing that Su Yu was not joking, the Golden Dragon did not dare to be careless and said, "Wait a moment."

Not long after, the Golden Dragon stretched out half of his body from the barracks and waved at Su Yu. "Come in quickly."

Su Yu entered.

He saw Shang long happily talking to several representatives of the tribe.

"Commander, the situation is great. My tribe has not suffered any casualties for ten consecutive days."

"Haha, My Tribe has successfully destroyed a sacred mountain recently!"

"It seems that the sacred mountain is at its wit's end. Other than throwing out golden beams meaninglessly, they have no other means."

"Hehe, that's right. As long as we persevere, the sacred mountain will retreat sooner or later."

Shanglong was in a good mood when he heard this.

When he saw Su Yu enter, the smile on his face faded a lot. He said seriously, "Deputy Chief Su, why are you looking for me when you are not at ease in the third tribe?"

Su Yu's expression was solemn.

Without saying anything, he played back the memories he had extracted.

Instantly.

The atmosphere in the tent became heavy.

They were originally full of smiles and full of confidence in the future, but now, their expressions became ugly.

"When did you find out?" Shang long asked in a deep voice.

"Not long ago."

"What about the chief of the third tribe? Why didn't he come?" Shang long wanted to hear the opinion of the chief of the third tribe the most.

He did not quite believe Su Yu's words.

"My statement to the tribe was that he sacrificed himself for work. In fact, he was also incited to revolt," Su Yu said indifferently.

Shang Long's pupils constricted.

It was fine if an ordinary person was incited to revolt.

If even the chief of the tribe was incited to revolt, then the matter was too serious.

"Do you have evidence?" Shang long had a prejudice against Su Yu that was close to the bone.

Su Yu shook his head, "At that time, I only cared about killing the enemy. I didn't have time to leave any evidence!"

Shang long snorted, "If you don't have any evidence, you are slandering me!"

He deliberately targeted Su Yu.

Su Yu frowned. The point was not whether he was slandering him or not. It was a mole running rampant, right?

"Regardless of whether I am slandering you or not, there are many spies. The commander-in-chief has to give the order as soon as possible to investigate the higher-ups of all the tribes. There might still be time now."

"There's no need for you to teach me!" Shang long said indifferently.

He was the commander-in-chief. If he wanted a deputy chief to teach him how to do it, wouldn't he be laughing his head off?

"Men, form an investigation team and head to the ninth war zone. The third tribe will investigate the truth and report it to me after they've found out the truth."

The guards outside the door immediately took action.

Su Yu raised his eyebrows. "Commander-in-chief, we can't wait any longer. We have to take action immediately."

The investigation team would need at least one day to go back and forth, right?

One day.

It was enough time for the spies to be fully prepared.

Shang long said calmly, "As the commander, we have to deal with everything calmly and objectively. How can we act Rashly?"

Su Yu said, "To be honest, when I found deputy chief Chen, he had already set up the destruction formation and was ready to destroy the turtle pattern defense at any time."

"The rest of the spies should be almost ready. We must not delay any longer."

Hearing that the matter was so serious.

Golden Dragon felt that it was extremely inappropriate and said, "Lord Shanglong, Su Shengshen is right. We might as well send people to investigate while sending troops to the major tribes to temporarily control the higher-ups of the tribes to prevent the spies from rebelling."

Shanglong raised his eyes and stared at Golden Dragon indifferently.

"Golden Dragon, you've followed me for ten years, haven't you learned to calm down? Panicking is a big taboo!" Shanglong lectured.

"Currently, the traitors have only been discovered in the third tribe of the ninth Warzone. Moreover, it's only vice chief Su's word. How can we not be sure?"

"Secondly, whether there are traitors in the other tribes is all vice chief Su's assumption. He doesn't have any real evidence."

"Third, controlling the higher-ups of the tribes without permission. What if it causes a riot?"

The Golden Dragon was anxious.

If what Su Yu said was true.

There were so many spies in the third tribe of the ninth war zone. The other tribes were definitely not few.

As for causing a riot.

This was nothing compared to the destruction of the tribe's defenses and the destruction of all the tribes?

He understood that Shanglong was deliberately trying to argue with Su Shengshen.

"Lord Shanglong, please think twice for the sake of the overall situation," the Golden Dragon almost begged.

Shanglong felt that he could not put his face down.

Why did it sound like he was making trouble without reason.

His face was cold. He slapped the table and asked, "Are you the commander, or Am I?"

"You Are!"

"Then shut your mouth and listen to the commander's orders!"

The Golden Dragon suppressed his anger and stood helplessly at the side.

Su Yu watched from the side.

His eyes were filled with disappointment as he sighed regretfully. "It was difficult for Dao Yuan to prepare an era, but he chose a blind commander because he didn't know how to use people! It's really not worth it for Dao Yuan."

Su Yu had already done what he had to do.

However, Shang Long was arbitrary and extremely muddle-headed.

"Dao Yuan creatures, you can only pray for your own good luck." Su Yu turned around and left the tent.

PA --

Shang long slammed the table and stood up, scolding angrily, "Deputy chief Su, is this your attitude when talking to the Commander?"

Su Yu did not hide his disappointment on his face, "If you still have a little bit of Dao Yuan creature's status in your heart, you should do as I say and not act rashly and get angry with me."

Shang long laughed angrily. "I have fought countless battles and have seen all kinds of situations. Do I need to listen to the orders of a junior like you?"

He pointed outside and said coldly, "Don't worry. I, Shang Long, will not lose a single hair on the Dao Abyss creatures. I will not be protected by someone like you who only knows how to use his mouth to care for them!"

His impassioned words roused the hearts of the creatures.

However, it was just as he said.

Protecting the creatures did not depend on one's mouth, but on actions.

Boom --

A loud explosion shook the sky.

Following that, the earth shook and the mountains shook. The entire camp was shaking.

"What's going on?" Everyone in the camp was shocked.

In the past, although there were golden beams of light from the sacred mountain that struck the earth, the existence of the turtle patterns had offset more than half of the power.

It had never caused such a huge commotion.

Di Di di --

At this moment.

The jade pendant on Shang Long's waist let out a hurried sound.

Opening it, a voice burst out.

"Commander, the eighth battle zone, the Ninth Tribe's defense has been broken, requesting for..."

Hong --

The communication was destroyed by the explosion of a golden beam.

One could imagine that the chief who sent the message had been destroyed.

Padah --

The jade pendant in Shang Long's hand fell to the ground, and his mind went blank.

The ninth tribe had been destroyed!

Then, he came back to his senses.

He immediately took out a ball.

A map was reflected on the ball, and that map was the complete picture of the Central Abyss.

The ninth tribe of the eighth Warzone had been wiped off the map by the condensation of a hundred golden beams of light.

Not a single trace was left.

The creatures inside were all dead

Chapter 2824 Fatal Strike

Shang Long's pupils contracted as he stood there in disbelief.

The Golden Dragon stepped forward and roared, "What are you still standing there for? Immediately inform all the tribal chiefs to prevent turtle patterns from being destroyed!"

Not all the tribal chiefs had been incited to revolt.

If they could clean up from top to bottom in time, there might still be a chance to save them.

Only Su Yu had an indifferent expression.

It was already too late.

Since one person had made a move, the rest of the spies would have to act within a short period of time.

It was already too late to clean it up now.

Shang long returned to his senses and didn't have the time to argue with Su Yu. He immediately prepared to send a message to the other tribal chiefs.

But it was already too late.

Several loud bangs sounded at the same time.

The earth shook and the mountains shook. On the map, eight tribes were wiped out at the same time.

However, these did not stop.

Golden beams of light continued to descend. One tribe after another was quickly wiped out from the ground.

In a short span of dozens of breaths.

In the nine war zones, there were more than eighty tribes.

Only the last one was isolated in the middle abyss.

That was the ninth war zone, the third tribe.

That was the tribe that Su Yu belonged to. It was because they had eliminated the mole in advance that they were able to survive.

The golden dragon stared blankly at the many tribes that were in ruins and completely destroyed.

His eyes were filled with great grief and indignation.

He went forward and gave Shanglong a tight slap on the face. He roared, "It's all because of you! !"

If he was not so stubborn and self-employed, if he was willing to listen to Su Yu's advice and act in a timely manner.

If he had not been wary of all the traitors, at least a batch could have been saved.

But in the end.

They were all destroyed! !

Shanglong was awakened by a slap and flew into a rage. He threw a backhand punch at the Golden Dragon's chest and sent him flying.

"You're courting death!" Shanglong's expression was fierce as he said, "What does the traitor planted by the sacred mountain have to do with me?"

There was not a hint of self-blame in his words?

On the contrary, he was very confident.

The Golden Dragon's mouth was full of blood, his eyes were red, and his killing intent soared to the sky. "Shang Long! I must report this matter to the Lords of the Inner Abyss, just you wait and See!"

He broke out of the door and immediately ran towards the inner abyss.

The entire army of the central abyss was annihilated, Shang long must bear all the responsibility!

Shang long covered his face and bared his teeth as he said coldly, "I'm not in the wrong!"

Looking at the remaining third tribe on the map, he said, "Commander Department, Retreat to the Inner Abyss."

He had already given up on the Central Abyss.

Su Yu's expression was indifferent. "If you retreat, what about the third tribe?"

Without the support of the Commander Department's resources, how long could the experts of the third tribe survive without the secret recovery medicine?

They wouldn't be able to last even a day.

Shang long glared at Su Yu and vented his inexplicable hatred on Su Yu. "Are you blind? The Central Abyss has been destroyed and there are attacks from the sacred mountain everywhere. How are you going to transport the supplies?"

He pretended to leave.

Su Yu reached out to stop him. "Bring the supplies over. I'll deliver them myself."

All the living beings in the Heaven Court were in the third tribe.

How could he give up on them?

"If you want to die, don't waste our resources for nothing." Shang long refused flatly.

Su Yu looked at him. His calm eyes were filled with traces of killing intent. His voice was especially cold. "I advise you not to challenge my bottom line."

For some reason.

Shang long suddenly felt a chill on his back. He had an inexplicable feeling of fear.

Especially when he met those calm eyes.

He had a feeling that he was not facing an ordinary person, but an ancient almighty who could crush him at any time.

"How much do you want?" Shang long restrained his arrogance and asked.

Su Yu said, "Give me as much as you have."

He actually wanted all the resources Shang Long had.

"Are you crazy..." Shang Long was about to get angry, but after thinking about it carefully, he wanted to return to the inner abyss. The resources in his hands were not very useful.

Why fight with Su Yu before he left?

Therefore, he took out a super large spatial storage device and gave it to Su Yu.

Then, he immediately left.

He didn't dare to stay for even a moment.

After obtaining the resources,.

Su Yu left the military camp.

Near the military camp, there was also a turtle mark that was in operation.

Countless golden light beams poured down like a storm, destroying the commander's land.

Along with the retreat of the upper echelon like Shang long,.

The experts that maintained the turtle mark left in an orderly manner.

This caused the turtle mark to circulate slower and slower.

Finally.

When all the experts left.

The turtle patterns finally stopped moving.

Rumble --

Thousands of golden light beams crashed down, completely shattering the turtle patterns.

The military camp inside was instantly destroyed into dust.

And at the instant the turtle patterns were destroyed.

Su Yu took a deep breath, sprinted out, and ran madly towards the third tribe.

On the deathly silent land, how eye-catching was the existence of a creature?

In the sky, several sacred mountains immediately discovered it.

Seven or eight golden beams of light descended.

Su Yu gritted his teeth and had no choice but to activate his saintly being.

Relying on the strength of his saintly being, he resisted the golden beams of light while running wildly with the supplies in his hands.

However, the exposure of his saintly being attracted the attention of even more sacred mountains.

Not long after.

The golden beams of light were like a violent storm, continuously pouring towards Su Yu's location.

With every few steps, a golden beam of light would hit him.

It was a half day's journey, but Su Yu dodged left and right, and it took him an entire day to finally arrive.

The nine-colored light on his body was dim.

His skin and flesh were split open.

His strength was also extremely lacking.

Reaching here was already his limit.

The difficult thing was.

Not only was Su Yu followed by a large number of sacred mountains.

The third tribe in front had also suffered the destruction of thousands of sacred mountains.

They discovered that Su Yu was approaching.

The thousands of sacred mountains split into hundreds of sacred mountains and attacked him head-on.

Su Yu was attacked from both front and back.

In addition to his current state, he could be said to be in a precarious situation.

The most terrifying part was...

The sacred mountains that were chasing Su Yu from behind probably sensed that Su Yu was in a sacred body state and weren't afraid of a single golden beam of light.

Therefore, they gathered the golden beams together.

They launched a fatal attack on Su Yu.

At this critical moment of life and death.

Xiao die rushed out of the turtle pattern, and a pair of butterfly pupils in her eyes kept flapping their wings.

They tried their best to destroy the golden beam.

She herself rushed over, hugged the exhausted Su Yu, and ran back.

But under such a concentrated attack, it was easier said than done to return dejectedly?

Especially the fusion golden light beam behind them, it posed a fatal threat to them!

"Don't bother about me, leave quickly!" Su Yu shouted anxiously.

Xiao die would only accompany him and die within.

Xiao Die's expression was very determined. She sighed and said, "If you die, I won't have any family in this world. What's the point of living?"

Su Yu did not have the time to understand the meaning of her words.

His heart was only moved.

Looking at Xiao Die's familiar face, Su Yu smiled wordlessly.

There were already too many people who had sacrificed for him.

In his life, he had already carried too many burdens that he could not bear.

Adding Xiao Die, how could he bear it?

"Go!" Su Yu condensed a spatial domain in his palm and forcefully pushed Xiao Die away from the range of the golden light beam.

Xiao die was pushed away uncontrollably.

She wanted to struggle and hold Su Yu's hand, but she was getting farther and farther away from Su Yu.

Chapter 2825 Eye Of Taotie

Su Yu was buried in the golden beam of light.

"No!" Xiao die screamed.

However, the golden beam of light mercilessly swallowed him!

In the beam of light.

Su Yu's whole body was in the thick destruction.

Everything on his body was also destroyed in the omnipresent golden beam of light.

Crack --

The Ice Crystal Crown on his head that he had worn for many years was crushed by the golden beam of light.

A piece of paper embedded in the Crown was revealed.

It was the paper of the blood of the nine dragons ancient god.

It had been suppressing the eye of Taotie from the beginning to the end.

After several hundred years...

This piece of paper was revealed for the first time.

And within the beam of light from the sacred mountain, the blood paper was also melting.

Finally, a corner of the blood paper turned into nothingness and dispersed.

A corner of the sealed Taotie was revealed.

Creak --

A thin flesh-colored line suddenly split open between its tightly shut brows.

A black eyeball slowly rotated within it.

It was as if something that had slept for many years had awoken from within..

The eye of Taotie had finally seen the light of Day!

Although it was only a corner!

It still emitted a terrifying aura that shook the heavens and earth.

That Aura was filled with greed, brutality, cruelty, and was extremely close to evil.

It was as if the heavens and earth were about to be devoured.

"It's been a few hundred years... You've finally let me out..."the eye of Taotie slowly opened, and its eyes were filled with deep excitement and excitement.

He had been trapped for too long, too long..

His eyes glanced at the golden beam of light that was rumbling towards him, and revealed a contemptuous smile. "You've just woken up, and you already have the luck to eat? Very good!"

Hua --

The destructive beam of light that was added to Su Yu's body was all swallowed by the eye of Taotie through the exposed corner.

With Su Yu as the center, it formed a black ball that was thirty feet long.

All the golden beams that were shot towards Su Yu were all swallowed by the Black Ball, not leaving a single trace.

Looking from afar.

It was as if a bottomless black hole had appeared in this world.

It devoured all the golden light beams in the sky!

Even the Holy Mountain that was floating in the void started to shake. It was pulled down to the ground by an unknown devouring power.

Su Yu's expression changed.

The Eye of Taotie was unexpectedly released!

To be honest.

Su Yu would rather die than release the eye of Taotie.

Because it could devour everything without control.

Including the people and things that Su Yu wanted to protect.

Now, it was an accident.

"Reverse time and space!" Su Yu used the space-time domain to reverse time and space between his eyebrows, recovering the blood paper.

The angry voice of the eye of Taotie echoed in Su Yu's mind.

"Human, are you crazy? I'm saving you."

Su Yu said coldly, "Why don't you come with me and be buried forever?"

He was glad.

Now that he had mastered the Yuan level space-time domain.

He could still restore the damaged blood paper.

Otherwise, the eye of Taotie would be released and bring disaster to the world.

"You want to seal me again? Dream On!" The Eye of Taotie was furious when it saw the blood paper recovering bit by bit.

Its eyeballs kept squirming as it tried to drill out from between Su Yu's eyebrows.

However, most of the blood paper was still there, so it couldn't succeed.

However...

In the end, it still stopped Su Yu from completely sealing it.

There was a crack-sized defect, which couldn't be recovered because the eye of Taotie kept releasing devouring power.

"It's impossible to seal me. I'll tear the seal completely after I've digested the power of the Holy Mountain!"

"When that time comes, human, prepare everything that I can devour. If it's not enough, I'll Devour You!"

The voice of the eyes of Taotie echoed in Su Yu's mind.

He was sweating all over.

He had finally managed to seal it. Although there was a small crack, the eyes of Taotie could no longer devour the things in the outside world.

Taking advantage of the golden light beam being devoured,.

Su Yu immediately rushed into the tribe.

As soon as he entered, a soft body pounced into his arms and hugged him tightly.

At the same time, his shoulder felt a piercing pain.

He looked down and saw Xiao die biting his shoulder hard.

Two rows of deep teeth marks were left on his saintly being body.

"Hiss! Do you want to bite me to death?" Su Yu pushed her away and rubbed his burning shoulder.

Xiao Die's eyes were red and swollen. She was angry and surprised. She bared her teeth and said, "I want to bite you to death. You Don't plan to live anyway, do you?"

As she said that, she pounced over and bit him again.

Su Yu raised his hand and pressed his forehead against hers. He said, "Am I not alive?"

Xiao Die's eyes were filled with tears. She did not give up and said, "It's better to bite you to death to save me from having to worry about you again."

Su Yu was not in a good mood. He said, "Alright, you can bite me."

He simply let go of Xiao Die.

The latter pounced into his arms, opened her small mouth, and fiercely bit his neck.

However, the intense pain that he imagined did not appear.

Instead, it was two pieces of softness that were pulled back with a gentle pressure.

Xiao die lay beside his ear and said faintly, "Don't push me away next time. Otherwise, I'll really bite you to death!"

As she said this, she quickly pulled away like a kitten.

When she turned around, her face was still red.

Su Yu touched his neck. There was a bright red lipstick mark left there.

"This wretched girl." Su Yu hesitated for a moment and completely wiped off the lipstick mark.

He couldn't bear the feelings, so he shouldn't try to keep her.

He pulled himself together again.

Su Yu looked above his head.

In the entire Middle Abyss region, only the third tribe was left. It was like an island floating in the sea, with no one to rely on.

Only the endless golden beams from the sacred mountain bombarded wildly.

There were thousands of them.

In the past, with the other tribes sharing the burden, they would at most suffer dozens of attacks from the golden beams.

Now that the pressure had increased by a hundred times, one could imagine the pressure.

The experts who maintained the operation of the array had lost twice their strength.

The supplies that were sent back not long ago could have been used for ten days.

But now, they had used up all of them in just one and a half days.

"I can't hold on any longer. Have you guys recovered yet?" In front of the formation, the strong practitioners who were maintaining the formation could not help but shout.

Behind them, a row of strong practitioners who had recovered looked pale. It was obvious that they had not recovered yet.

Yu Xiang Wan looked troubled.

They were at the end of their rope and could not hold on for long.

At this moment.

Su Yu rushed over and immediately distributed resources to the rest so that they could recover quickly.

That was why when the previous batch of strong practitioners could not hold on any longer, they managed to support the turtle pattern in time.

"Thank you for your hard work. We have a lot of resources. Please rest assured." Su Yu took out a total of 10,000 boxes of secret medicines and placed them on the high platform.

These were enough for them to use for 10 days.

Everyone who was about to give up in despair finally felt reassured.

Yu Xiang Wan looked at Su Yu and was not very happy. Instead, she let out a faint sigh. "I'd rather that you didn't come back."

That was because the third tribe was already a dangerous place.

If they came here, they would definitely die.

Su Yu said, "Since you're here, how can you not come back?"

Yu Xiang Wan felt helpless. "How much of the resources did you bring back?"

Su Yu showed the spatial storage device to the other party.

Yu Xiang Wan was shocked. "This... is enough for us to use for a hundred years?"

All the resources needed by all the tribes were brought back. It would take more than a hundred years.

Su Yu's expression was still solemn, but he was not optimistic. "A hundred years is just in theory."

Chapter 2826 Materials Of Chaos

He pointed at the many strong practitioners and the seemingly sturdy turtle patterns.

"The materials can last for 100 years, but can the bodies of those strong practitioners withstand the infusion of energy for 100 years?"

"Won't the turtle patterns be damaged after being attacked by the Holy Mountain for a long time?"

Hearing that...

Yu Xiang Wan was stunned.

No matter how strong a person was, if they continued to infuse energy into their body day and night, it would be a kind of chronic injury to their body.

It would not take more than 100 years.

In a few months, their body would feel unwell.

In a few years, they would lose the ability to infuse energy into their body.

Even if a person could sustain it...

What about the turtle patterns?

The turtle patterns were laid out by the almighty experts in the ancient times.

According to the plan, when the war started, they would send people to various tribes regularly to maintain the turtle patterns.

Now, they were the only tribe left.

Would the big shots in the inner abyss still send people to risk their lives to maintain the formation for a tribe?

The answer was no.

"How long can we last?" Yu Xiang Wan asked in a daze.

Su Yu looked at the impenetrable attacks outside the turtle patterns and said, "At most one month."

One month later.

It would be the time when the turtle pattern was broken and all living beings were annihilated.

At that time, even Su Yu would be annihilated by the full force of the sacred mountain.

Unless he released the eye of Taotie.

But obviously, he would not.

Yu Xiang Wan smiled bitterly. "If I had listened to you earlier, I would have left the central abyss immediately and headed to the inner abyss to hide."

Su Yu had long seen that there would be a great change in the central abyss.

He did not expect that.

It would turn out to be such a desperate situation.

This was not the time when they barged into the central abyss using the battleships of the heavenly court.

At that time, there were only 100 holy mountains chasing after them.

When they arrived at the Dao Abyss, there were many turtle carvings of various tribes that blocked most of the attacks.

They had managed to escape earlier.

Now, they were alone in the central abyss, facing the onslaught of the entire Holy Mountain.

How could they escape to the inner abyss.

"Don't be anxious. Don't give up until the last moment," Su Yu said calmly.

His many years of experience had taught him to face despair calmly.

In despair, what he was most afraid of was not the despair of the road, but the despair in his heart.

The former still had a glimmer of hope to survive.

The latter was bound to die.

"Continue to hold the fort," Su Yu said.

He came to the side, drew a separate space, and sat cross-legged.

He carefully examined the blood paper.

The Eye of Taotie was a hidden danger after all, and he truly couldn't feel at ease.

After examining it for a long time, he confirmed that the eye of Taotie wouldn't be broken again.

With a thought, Su Yu took out the calamitous scythe.

This was a gift from the carefree emperor to the eight rulers.

The meaning was to resist the ancient gods.

He gazed at the ten heads of Taotie.

Su Yu couldn't help but ponder.

Who Killed Taotie?

If they could kill the Taotie, did it mean that they had a way to destroy the eye of Taotie.

Unfortunately.

He couldn't ask the son of heaven.

At this moment.

The space shook. It was Xiao die who broke the barrier of the independent space and entered.

"Unruly!" Su Yu said angrily.

If it was an ordinary person who dared to intrude like this, he would have been sent flying with a slap.

Xiao die entered and searched everywhere with her eyes.

She soon discovered the existence of the kalpa scythe and her eyes suddenly lit up.

She pouted angrily, "You're so stingy. You hid such a treasure, yet you didn't tell me."

The veins on Su Yu's forehead throbbed.

Was there a treasure that could be shown to you?

If you weren't careful, you would be eaten like a snack.

"I can't let you eat this," Su Yu said indifferently.

Xiao die placed her hands on her waist. "Don't tell me that in your heart, I'm that bad?"

Su Yu immediately showed an apologetic look. "Sorry, I said it was soon. Please forgive me."

Xiao die rubbed her nose aggrievedly. "That's more like it. Forget it, Sir Doesn't remember me. I forgive you."

Unexpectedly.

Su Yu added, "You are indeed not that bad. Because, the word 'bad' can no longer describe you."

Xiao die was furious, "Ah, are you trying to anger me to death! ! Stand there and don't move, I Promise I won't Eat You! Really!"

Su Yu was annoyed and sighed, "Be quiet, I'm not in the mood to play with you."

The desperate situation now was not the time to joke.

Xiao Die walked over angrily and said unhappily, "Why do you say that I'm only good at ruining things? If you think so, then I won't tell you about the hidden ability of this treasure."

HMM?

Su Yu suddenly opened his eyes and said in surprise, "What do you know?"

"Beg me!" Xiao die crossed her arms in front of her chest and raised her neck high, waiting for Su Yu to beg her.

Su Yu chuckled, "Beg you? Alright, then I'll first tell everyone about the embarrassing things that happened to you when you were young! For example, stealing food and eating them until only their underwear was left."

Xiao Die's face instantly turned red and her eyes widened. "You're despicable, Shameless, despicable, you're completely heartless and Inhuman!"

Su Yu shrugged. "All of this was done by you, it's none of my business."

Xiao die ground her silver teeth and said hatefully, "I was wrong about you! I didn't expect you to be like this, Su Yu!"

"Then are you going to say it or not?" Su Yu waved the kalpa scythe.

Xiao Die's mouth twitched and she cried, "I'll say it!"

She took the scythe from Su Yu's hand and said, "Look."

Xiao die held it in her hand.

What surprised Su Yu was that.

She had actually activated the scythe, turning it into a thirty-meter-tall existence.

Even the Golden Taotie's head had appeared.

That wasn't all.

The Golden Head's eyes were even bigger than when Su Yu had activated it.

"How did you do it?" Su Yu was surprised.

The chief sovereign of space had made it very clear.

Only the bloodlines of the eight chief sovereigns could activate them.

Su Yu had obtained the bloodlines of the seven chief sovereigns, which was why he had been able to activate them to this day.

Little Butterfly pointed at herself. "What is my true form?"

"A mutated nine-colored chaos butterfly."

"Isn't that right? I was born with the power of chaos. Isn't it natural for me to use this chaos material to create something?"

Chaos material?

Su Yu couldn't help but feel ashamed.

Until now, Su Yu still didn't know what exactly this item was made of.

"So What? The myriad calamity scythe you created isn't much stronger than mine," Su Yu said.

"Compared to the destruction of the sacred mountain, the power it can unleash is negligible."

The power of the myriad calamity scythe was actually quite weak.

It wasn't even comparable to Su Yu's human sacred body.

"Aren't you underestimating the treasure made of Chaos Materials?" Xiao die looked as if she had been squandered by him.

"The power that you and I can unleash by ourselves isn't even 1/10,000 of its true power!" Xiao Die said.

Su Yu was shocked.

1/10,000?

He suddenly remembered that when this golden head appeared, it scared a small sacred mountain to retreat.

Now that he thought about it carefully, perhaps he really had not dug out the true power of the myriad calamity scythe.

"A treasure made from chaos materials. The more powerful the suitable power is, the more power it will release."

Chapter 2827 The Path Of Despair

"If the two of us can work together, the power will be at least a hundred times stronger than if we were to use it alone."

A hundred times?

How Strong would that be?

Su Yu found it hard to estimate.

"Based on my initial estimation, it shouldn't be difficult to wipe out most of the golden beams," Die analyzed seriously.

Su Yu's eyes lit up. "How do I fuse the Power?"

He had the power of a ruler bloodline.

Die had her own power of chaos.

Hearing that.

Die's face turned red. She couldn't help but feel awkward and stammer.

Looking at her expression, Su Yu had a bad feeling.

"Do I need to do something very difficult?" Su Yu asked.

Die lowered her head shyly and hummed.

Su Yu's expression was a little ugly.

He had experienced many similar things. There were even many women who sacrificed themselves for him in order to recover their cultivation.

But facing Xiao Die...

He really could not accept the intimate contact between a man and a woman.

"You need our bloodline and the power of Chaos to exchange. The method is that I suck your blood and then infuse some of my power of chaos into you."

After listening.

Su Yu was stunned. "What's there to be shy about?"

Xiao Die was even more shy. "Isn't sucking your blood so that I can touch you? How can I not be shy?"

As she spoke, her voice became softer and softer.

Su Yu's head was full of black lines. "People who don't know would think that this is the first time you've Bitten Me."

Ever since they were young, Xiao Die had said countless times that she wanted to eat him.

It was not the first time she had bitten him.

But now, she actually answered shyly.

It gave Su Yu a false scare.

"Hey, what do you mean?" Xiao Die said fiercely, "The past is the past. Can it be compared to the present?"

Su Yu was speechless. "It's all biting. I can't tell the difference."

Xiao Die bit her lips tightly together. She wanted to say something but hesitated.

In the end, she said, "Okay, then I won't stand on ceremony. Don't cry out in pain!"

"Wait! I'll do it myself!" Su Yu did not dare to let her bite herself.

That would hurt like hell.

He cut a wound on his wrist with his own hands, and fresh blood flowed out.

Then, he brought his wrist to her mouth. "Drink it."

Xiao Die's face turned red. She lowered her head and held the wound, sucking the blood gently.

Her movements were very gentle, completely not as violent as she had imagined.

Su Yu also felt that it was strange. He could not help but shift his gaze and look elsewhere.

"Hurry up." He simply urged.

Xiao die immediately bit down hard.

Hiss --

Su Yu really did not have a temper anymore!

However.

With this bite, Su Yu clearly felt that an extremely strange and obscure power had appeared in his body.

He was not unfamiliar with that power.

It had appeared on the Little Qilin's body before.

However, this was the first time it had appeared in his body.

Not long after.

Xiao die stopped sucking.

Before her red lips left her wrist, she even stretched out her soft and tender little tongue. Like a kitten, she licked the wound.

When Su Yu saw this, he immediately felt that something was off.

At this moment, in his eyes, Xiao die was no longer that little girl who only knew how to fool around and wanted to eat at any time.

She seemed to have a bit of a feminine taste.

Her heart beat a little unwillingly, and she hurriedly moved her eyes away.

"It's done." Xiaodie retracted her small mouth, feeling a little embarrassed.

"Now, I have the ruler's bloodline in my body, and you have the power of Chaos in your body. We only need to fuse the two powers together within a month, and then we can smoothly work together to activate the myriad calamity scythe."

Su Yu suppressed his fluctuating emotions and nodded. "Alright."

The two immediately cultivated alone.

Su Yu guided his ruler's bloodline and began to fuse with the power of Chaos.

In a case study.

Different powers were extremely difficult to fuse.

But the strange thing was.

The ruler's bloodline and the power of chaos seemed to be of the same origin.

Without much effort, the two powers showed signs of beginning to fuse.

One month.

It was definitely enough.

Ten days later.

Su Yu had already merged the powers ahead of time.

But Xiao die seemed to be far from finished.

The reason.

Should be that the bloodline power was easier to absorb the power of chaos, so it was faster.

And Xiao Die had more power of chaos than the bloodline power, so it was more difficult to absorb.

However, within one month, Xiao Die should be able to succeed.

At that time, they might not necessarily be afraid of the holy mountain if they used the great scythe together.

However, at this very moment...

An urgent message came from Su Yu's waist.

He took it down to take a look.

His expression changed slightly.

This was a message from three days ago. It was just that both of them were deep in meditation and did not notice the message.

The message was sent by Xiang Wan.

It must be something big.

He immediately arrived outside.

What he saw made him gasp.

He saw a continuous stretch of holy mountains hovering high in the sky above Dao Abyss.

The Holy Mountains had descended!

Previously, they had been in the distant void.

Now, they had completely arrived at Dao Abyss, right above their heads.

Tens of thousands of holy mountains had joined together, not only suppressing central abyss.

Even the inner abyss was covered.

Su Yu's heart was beating wildly.

The Sacred Mountain was ready to have a decisive battle with Dao Yuan!

One by one, huge lime-colored palms swayed beneath the sacred mountain.

They supported the void and moved forward.

From a distance of 30,000 feet.

Loud rumbling sounds could be heard.

The pressure that shook the entire era also came from the sacred mountain.

The turtle patterns trembled incessantly.

At this moment, even without the golden light beam's attack.

Just the pressure from the sacred mountain at such a close distance was enough to make the turtle mark unable to withstand it.

Many experts gritted their teeth and crazily infused their own strength to maintain the Turtle Mark's circulation.

Everyone's heart was in their throats.

A thick sense of despair surged in their hearts like a tsunami.

Such a huge sacred mountain.

If he attacked them with all his might, how could he withstand it?

Su Yu's heart was also heavy.

Looking at Xiao Die, who still needed a long time to fuse with her bloodline, he felt extremely tired.

It was not easy for him to find a glimmer of hope.

The already desperate situation had become even more desperate.

However.

What they feared came true.

A scene that made everyone completely despair appeared.

The Myriad Sacred Mountains released golden beams of light.

They gathered together.

Their target -- the third tribe!

The Sacred Mountains wanted to use the central abyss as their base, so they had to get rid of all obstacles.

The third tribe had to be destroyed.

Looking from afar.

The third tribe was like a speck of dust, facing the crazy attack of a huge rock.

The golden beam of light was bigger than the entire third tribe.

Inner Abyss.

In a dark secret chamber.

There was a huge crystal ball in the middle.

The reflection inside was the scene of despair.

The sparkling light of the crystal ball illuminated the faces of the people in the secret chamber.

Each person's face was heavy and full of helplessness.

"Nirvana master, What do you think?" An existence hidden in the darkness gave off an ancient aura.

In the flickering light.

A monk wearing a black kasaya and a string of bone beads on his chest looked extremely gloomy.

Chapter 2829 Life And Death Escape

"Count me in!"

"I'll go too!"

Many experts were inspired, and more and more people joined them.

At this moment, it was rare for the sacred mountain to have internal strife. If they worked together,.

There might not be much danger.

Finally, they looked at the Nirvana master.

The Nirvana master was as still as a mountain, and calmly said, "My Buddha is merciful, and does not create slaughter. This penniless monk awaits your good news."

Everyone felt indignant.

What kind of Mercy?

How many people had Nirvana killed?

In order to absorb faith, how many wars had been waged in various civilizations, and how many lives had been lost?

But at this moment, he had a false expression of mercy.

He was clearly unwilling to take the risk.

The Demon Emperor, the Heavenly Book Path Master, and the sky-splitting patriarch indifferently glanced at the Lord of Nirvana before leading the many experts to leave the inner abyss.

At that time.

Su Yu stood under the turtle pattern, and his eyes shot out soul waves that shot up to the sky.

The Sons of Heaven clan naturally couldn't have a sudden internal conflict.

That was Su Yu controlling the 100 captives from before.

During the battle outside the giant Douge Lotus seat, Su Yu used the mirror flower son of Heaven's stone mirror to destroy the 100 sacred mountains that were chasing after him.

He also captured the sons of Heaven clan members inside.

He did not kill them, but controlled them and waited for orders.

Su Yu did not use them at any critical moment.

He wanted to use them at the most valuable moment.

In the destructive attack right now, they had indeed exploded with unimaginable power.

Not only did they stop the sacred mountain from destroying the third tribe, but they also made them kill each other, causing internal chaos.

For the time being, they did not have the time to care about the third tribe.

Of course, this was not a long-term plan.

"Su Yu, we should leave now. Is it too late?" Yu Xiang Wan looked at the chaotic battle in the sky and asked in fear.

Su Yu shook his head solemnly. "It's too late."

He only controlled one-tenth of the Holy Mountain.

The result of a one-to-ten battle would not last long.

In the time it took to brew a cup of tea.

More than half of the sacred mountain he controlled had been destroyed.

The battle above would probably end before they could leave the tribe.

At that time, they wouldn't have the sacred mountain to protect them, nor would they have the turtle patterns to protect them.

The outcome was obvious.

Su Yu stared at the five sacred mountains that were in danger, his expression heavy.

When they fell, the third tribe would be waiting for the sacred mountain's endless fury.

At that time, what would the third tribe use to fight back?

At this moment.

Majestic dark clouds rushed over from the inner abyss.

The auras of countless peerless experts mixed together and shocked the world.

Supreme Secret Arts and Grand Magic Treasures rained down like torrential rain.

In an instant.

The Sacred Mountains that were fighting against the rebels were caught off guard and were instantly shattered into hundreds of pieces!

The Sacred Mountains had no choice but to divert their attention and turn around to attack the peerless experts that were attacking them.

However, those experts suddenly attacked and took the initiative, instantly disrupting the alliance of the Sacred Mountains and causing them to fall into a chaotic battle. They were unable to form an effective alliance.

In addition, the fifty powerful Sacred Mountains acted as the rebels and attacked from both sides.

For a moment, the Sacred Mountains fell into chaos.

Seeing this, Su Yu immediately said, "Everyone, prepare to retreat."

Many experts had been infusing the turtle patterns with energy for a long time, and their bodies were already unable to bear it.

Now, they were finally free.

They all stopped and rushed out of the turtle patterns, heading toward the inner abyss.

Su Yu led the Heavenly Court and took the opportunity to head toward the inner abyss.

Boom --

A scattered golden beam of light brushed past the heavenly court's tail, causing the heavenly court's battleships to sway and almost collapse.

The same scene appeared everywhere.

The lucky ones were only affected.

The unlucky ones were killed on the spot.

All the living beings used their lives and blood to perform a great escape.

Two hours later.

They finally escaped from the center of the battle. There were few golden beams of light around.

Many people relaxed.

"Don't stop. Don't rest until you reach the Inner Abyss!" Su Yu shouted from the heavenly court warship.

Everyone endured their fatigue and injuries and continued to move forward.

Boom --

But, it was also at this moment.

The chaotic battle ended.

After two hours of chaotic battle, the sacred mountain gradually eliminated the rebellious sacred mountain.

They finally had the energy to focus on dealing with the peerless experts that rushed out.

Five Hundred Sacred Mountains combined into one and launched an extermination attack on the peerless experts.

Even the son of heaven himself of the sacred mountain couldn't face the combined attack of 500 Sacred Mountains alone, right?

Let alone these experts in nothingness.

Boom --

An existence that had survived the previous era was struck by a powerful golden beam of light.

That old man was turned into ashes on the spot.

After that, experts died one after another.

Although they continued to destroy more sacred mountains.

However, the price of killing each other was obviously not worth it.

"Retreat!"

They successfully destroyed four hundred sacred mountains. Adding the one hundred that Su Yu controlled, they destroyed five hundred of them.

More than half of the sacred mountains were destroyed.

It could be said that they obtained an unexpected victory, reducing a lot of pressure for the inner abyss.

The Demon Emperor and the others laughed and rushed back.

They all had divine abilities.

It might be difficult to shake the sacred mountain, but if they wanted to leave, would the sacred mountain be able to stop them?

Not long after, the group of peerless experts dispersed.

However, the moment they left,.

The third tribe was in trouble.

The sacred mountain couldn't catch up with the peerless experts, so could it not catch up with the third tribe?

Boom --

Several golden beams of light descended, destroying the ruins of the third tribe and razing them to the ground.

Then, they chased after the experts of the third tribe who were running for their lives on the ancient land.

Boom Boom Boom --

Beams of golden light rapidly shot over from far to near.

The faces of the people of the third tribe were pale.

Compared to the speed of most of them, they still had at least half a day's journey to the Inner Abyss.

How could they escape?

Su Yu also felt a trace of anxiety.

At this moment.

He suddenly found a huge object that was no less than a tribe, lying there quietly.

It was the huge crossing Nightmare Lotus seat that had descended on Dao Yuan.

Su Yu's eyes lit up. "All of you, go in!"

The experts of the third tribe had no choice.

They could only go in.

Su Yu controlled the Heavenly Court warship and entered again.

"All of you, follow me." Su Yu ordered and went to the central controller.

The ball was still there, but there was no energy in it.

"Everyone, try to inject as much energy into it as possible. Life and death depends on this!" Su Yu raised his voice.

It was a matter of life and death. No one dared to hold back.

All the energy was injected into it.

Immediately, a layer of liquid energy appeared in the empty ball.

Su Yu immediately controlled it.

In an instant.

A layer of turtle patterns appeared on the surface of the huge nightmare ferrying lotus seat.

Coincidentally, several golden beams of light were shooting towards it.

The turtle patterns easily blocked it.

Su Yu let out a sigh of relief and controlled the huge nightmare ferrying lotus seat to soar into the sky, speeding towards the inner abyss.

With the speed of the huge nightmare ferrying lotus seat, it wasn't a day's work.

A cup of tea was enough.

The third tribe's expert immediately became excited. "Chief, do we still need to continue infusing energy?"

At this moment, there was already close to one-tenth of the energy within the sphere.

It was even more than when they obtained the gigantic nightmare ferrying lotus seat.

Su Yu's eyes flashed and said, "Of course, the more the better!"

Everyone immediately tried their best to infuse power into it.

They placed all their hopes of survival on the gigantic nightmare ferrying lotus seat.

Chapter 2830 Buddha Transcends All Living Things

The attacks from the back continued.

The turtle patterns flickered with flickering radiance and resisted tenaciously.

They sped along.

After half a cup of tea.

The energy in the huge nightmare lotus seat had been fully charged and reached an unprecedented peak.

Compared to the pitiful amount of energy at the beginning.

The difference was really too great.

At this moment, the huge Nightmare Lotus seat was at its peak.

However, after the sacred mountain couldn't catch up for a long time, it also made some adjustments.

The scattered attacks of the sacred mountain gathered together again.

A total of 500 golden beams of light gathered back into a single line.

The screen below the giant nightmare ferrying Lotus seat immediately sent out an urgent alarm.

The entire nightmare ferrying Lotus seat was flickering with dark red light.

The flickering light caused people's hearts to tremble.

Su Yu's gaze immediately focused, and he immediately ordered, "Prepare the giant cannons!"

Creaking sounds could be heard.

A hundred giant cannons shot out from the Lotus seat.

The power of this cannon.

One cannon could destroy a sacred mountain.

Previously, it was limited in energy and could not be used.

But now!

It was completely possible to mobilize a hundred of them.

Bang --

The giant cannons rumbled.

A hundred flames shot out in unison towards the oncoming golden beams of light.

The two clashed.

Naturally, the five hundred beams of golden light were even more terrifying.

The momentum of the attack did not decrease as it suppressed the one hundred beams of fire.

However, it was also canceled out by a lot.

When the attack landed on the gigantic Douge lotus throne, it caused the lotus throne to shake violently.

It even lost control for a moment. All kinds of control methods were lost, and it fell from the sky.

Fortunately, the turtle patterns on the outside had cracked a few times, and they absorbed the energy from the energy ball to recover.

They resisted the energy tenaciously.

Soon, the nightmare ferrying Lotus seat regained control and continued to move forward.

In half a cup of tea, they would be able to successfully cross into the inner abyss.

There was an even stronger defense there. The sacred mountain could not do anything to it in a short time.

However...

When Su Yu and the others looked at the ball, they realized that the energy that was still full a moment ago was only left with the last layer in the blink of an eye.

Just facing a joint attack, they had used up almost all the energy of the Nightmare Lotus.

And this was under the situation of five hundred sacred mountains.

If it was a thousand sacred mountains.

The consequences could be imagined!

No wonder the mighty figures of the previous era, even if they controlled the gigantic Nightmare Lotus, had not successfully avoided the destruction of the era.

"Continue to fill up the energy." Su Yu immediately gave the order.

The many experts did not dare to be negligent and frantically filled up the energy.

They were secretly rejoicing. Fortunately, they had followed Su Yu's instructions and filled up the energy.

Otherwise, everyone would have died here just now.

At this moment.

The Sacred Mountain's first attack had failed and the second attack was accumulating.

Fortunately, the gathering was not very far away!

"Victory or defeat depends on this one move!" Su Yu saw that the energy had slightly gathered and immediately said, "Giant cannons, get ready! Fire!"

Dozens of giant cannons exploded with destructive flames and attacked first.

Immediately, the sacred mountain that was gathering energy suddenly became chaotic.

They hurriedly separated to avoid the destruction of the flames.

Taking this opportunity, the crossing Nightmare Lotus seat took a big step into the distance.

When the sacred mountain regrouped and chased after them again.

The crossing Nightmare Lotus seat had already arrived in front of the Neiyuan.

The experts inside were already prepared to activate their defenses and release the gigantic nightmare ferrying Lotus seat.

Yun Yazi, sky-splitting patriarch, and the demon emperor were all astonished as they watched the gigantic nightmare ferrying lotus seat rush over like Fireflies.

"Who is the commander of the third tribe?" Sky-splitting patriarch could not help but be astonished.

"The third tribe contributed greatly to severely injuring the sacred mountain this time."

"Apart from that, they even brought back the king-level crossing Nightmare Lotus throne that was lost in the previous era. What a great contribution!"

They were even more curious about the commander of the third tribe.

It was hard for them to imagine what kind of existence he was and how he could do such an earth-shattering thing.

Only Yun Yazi's eyes were shining.

"We're close! Get Ready!" Someone suddenly shouted.

The people controlling the array immediately tensed up.

The Inner Abyss was the final defense.

They couldn't let the sacred mountain in.

Therefore, the opening time was only an instant.

Finally, the giant nightmare crossing Lotus seat arrived outside the inner abyss.

The controller of the array immediately prepared to let them in.

However, at this moment.

A calm and majestic voice sounded.

"Wait!"

As the voice sounded, a golden Buddhist light spread across the ground.

Within the Buddhist light.

The Nirvana Lord, accompanied by eighteen protectors, arrived in front of the array.

"This array can not be opened." The nirvana lord said solemnly, "Once it is opened, disaster will definitely come."

The chains on the sky-splitting patriarch shook and said disdainfully, "What? The Nirvana Lord is not detached from the outside world and has come out to command?"

He wanted him to take the opportunity to destroy the living power of the sacred mountain.

He pushed back and pushed back.

Now that they had won a great victory, he came out to participate.

Nirvana master said, "This penniless monk is thinking of everyone's safety. Please don't act Rashly!"

Sky-rending patriarch spat rudely, "If everyone is as 'calm' as you are, not only will the third tribe be destroyed, the sacred mountain will also be unharmed!"

He waved his hand and said, "Listen to me. Immediately activate the formation and let the third tribe return."

However.

Nirvana master pressed his palm lightly.

A huge palm of Buddhist light pressed down on the formation, making it unable to be activated.

"This penniless monk said that we can't release it! If we release it, it will cause Chaos!"

Everyone was furious.

"Nirvana master, that third tribe has made great contributions. Aren't you afraid of freezing the hearts of all living beings by shutting them out and leaving them to die?"

Nirvana lord pressed his palms together and said with compassion, "Amitabha! This penniless monk's heart is connected to all living beings. That's why I refused to open the array. I believe all living beings will understand."

The Demon Emperor's gaze was like lightning. His demon palm swept out and shattered the giant palm of Buddhist light.

He did not hide his contempt, "Fake compassion! Scram!"

As he said that, he personally went to open the array.

The Sacred Mountain was far away and the attack was far from being condensed. There was clearly enough time to let the third tribe in.

But the Nirvana master was causing trouble and insisted on stopping them.

The Nirvana master said indifferently, "Demon Emperor, you have betrayed the common people and brought them into injustice. Aren't you afraid..."

Just as he finished speaking.

Yun Yazhi also flew down from the array and controlled the array together with the demon emperor.

Creak --

A crack immediately appeared on the array.

He said lightly, "The living beings of the third tribe are also living beings. Aren't you betraying them by abandoning them like this?"

A layer of faint flame burned on the surface of the Nirvana master's body.

His brows became solemn.

"You are stubborn and unrepentant. You must trap all living beings in danger. This penniless monk can not be allowed to do so."

As he spoke, he grabbed with his palms and forcefully closed the broken array formation.

Su Yu and the others who saw this scene from afar were all furious.

The Nirvana master wanted to kill them.

"Charge!" Su Yu said decisively.

The Nightmare Crossing Lotus seat, which had been lingering for a long time, immediately rushed over.

As they got closer, the crack became smaller and smaller.

It was about to be completely closed.

Su Yu roared, "Space-time leap!"

Instantly!

The entire huge Nirvana was enveloped in an unprecedented space-time domain.
