

Nine-Dragon 2881

Chapter 2881 A Devious Plan

The two immediately entered and were delighted to find a large amount of abandoned resources.

There were all sorts of cultivation techniques, Dao artifacts, and even many ores. There were all sorts of names.

After searching for two days, they had already searched the entire city.

Nephrite weighed the five spatial storage items in her hands and was extremely excited. "This is the first time I've obtained so many resources. When we return, the city Lord will definitely praise me greatly!"

They were really lucky this time.

Other people might still be looking for resources, but they already had countless resources in their hands.

On the other hand, Wen Cheng had to get them carefully. "It's been two days. I don't know when those demon beasts will come back."

Nephrite didn't care at all. She continued to search for resources and said, "Don't worry. Someone is watching the treasure from the sky. Once danger approaches, he will immediately notify Lord Lang Guan. He will then notify us."

Wen Cheng Thought for a moment and forced himself to focus on searching for resources. After all, this was a rare opportunity.

The two of them searched the entire city to the south.

"It's about time to change places," Wen Cheng muttered to himself.

Suddenly, their messages appeared at the same time.

Wen Cheng was shocked. "Is the Demon Beast Back?"

"No, it was Lord Wolf who told us that he found a huge city. He told us to go there as soon as possible!" Nephrite was reading the message happily.

Wen Cheng frowned slightly. She did not want to go there.

Being with Lord Wolf would make people feel insecure.

However, they were about to leave the Haotian civilization. They would meet up sooner or later.

"Forget it, let's Go!" Wen Cheng said unhappily.

Little did he know that when the two of them left, a huge demonic beast came out of the disturbed ruins.

A pair of blood-red eyes stared at their backs in the dark ruins.

But they didn't dare to go forward for a long time.

Because their eyes were full of fear and fear.

Obviously, they were keenly aware that there was an extremely terrifying existence on that girl.

So much so that it didn't dare to move.

Several hours later.

The two women rushed over according to the location of the transmission.

However, when they arrived, they were somewhat surprised to find that this place wasn't a super large city, but an abandoned mine cave.

Judging from the traces, it should have been excavated by someone and had no value to speak of.

"Something's Wrong!" Wen Cheng immediately sensed the problem and turned around to flee.

However, it was too late for him to escape.

"Since you're here, do you still want to leave?" A huge net fell from the sky and covered the entire area.

Although Wen Cheng and the others had movement techniques, they couldn't escape at all. They were covered on the spot.

A mocking female laughter came from the mine. "How have you been, Sister Wen Cheng?"

Wen Cheng turned his head and immediately recognized her. "Xiaoyan! !"

Xiaoyan was the daughter of the city lord of the first city.

She was born beautiful, not only that, but her cultivation was also very high. She had already reached the peak of the Earth master level, and her status was higher than hers.

In short, she was more outstanding than Wen Cheng in all aspects.

She was wearing a long blue robe, looking beautiful, but her beautiful face had a smile that was not a smile.

A large group of experts from the first city rushed out from behind her and subdued the two of them. Then, they took all the resources that they had painstakingly collected and handed them over to Xiaoyan.

Xiaoyan's eyes lit up and her smile became even wider. "You didn't expect to find so much, did you? A mere two people found more than ten of us."

Wen Cheng bit his red lips and said, "We've got the things. Let Us Go!"

There were rules between broken civilizations. They were not allowed to kill each other for resources.

This was the bottom line.

There were not many experts from broken civilizations. If there was an intense battle to deplete their vitality, the people from other civilizations would take advantage of it sooner or later.

"Sure, but don't you care why I was able to trick you all to come here?" Asked Wen Cheng with a smile.

The one who sent the message was wolf official Hou.

At this moment, Wolf official Hou's situation was evident.

She clapped her hands, and two people from Wen Yuan City were brought over. One of them was wolf official Hou.

When he discovered that Wen Cheng had also been subdued, he struggled angrily and said, "Smile! If you have anything, come at me. Don't make things difficult for Wen Cheng!"

He looked like he really cared about Wen Cheng very much.

But in Wen Cheng's eyes, he was too pretentious and couldn't affect her emotions at all.

He was even a little disappointed. It would be great if Xiaoyan killed wolf official Hou.

"Hehe, what a sincere wolf official Hou." Xiaoyan said regretfully, "You let a great beauty like me go, but you want Wen Cheng, that little girl. I really don't know what you are thinking."

It seemed that Xiaoyan had publicly taken a liking to wolf official, but he had flatly rejected her.

Wolf official said sternly, "I, Wolf official, have only liked Wen Cheng all my life. I, Wolf official, appreciate your friendship, Miss Xiaoyan."

His words seemed to be from his heart. They were especially sincere and touched people's hearts, making Xiaoyan's eyes shine.

"Stop pretending! Isn't it disgusting?" Wen Cheng said straightforwardly with an undisguised disgust on his face.

She stared at Xiaoyan and said, "Tell me, which eye are you blind to fall for the old, ugly, and lecherous wolf official Hou?"

"If you really fall for him, why are you pretending to be with him in front of me?"

Women knew women the best.

Would smiley face like Wolf official Hou? What a joke!

Even if she were to die, she wouldn't even look wolf official Hou in the eye. Now, she kept saying that to her face. wasn't she trying to make wolf official Hou look better?

Wen Cheng was almost certain that the two of them were in cahoots.

They sang and sang, showing off their friendship.

Wolf official Hou's face was stiff, and his eyes flashed.

Smiley's pupils shrank, but she pretended to be calm and sighed, "Sister Wen Cheng, you really don't know how Lucky You Are! Wolf official Hou is the number one warrior of Wenyuan City. Isn't it normal for me to have feelings of Love?"

"But you, you're his fiancée, but you don't know how to cherish her. I Can't stand it as an outsider."

Wencheng sneered. "If you can't stand it, then don't look! Let Me Go!"

Xiaoyan's face was a bit ugly. Wencheng was too stubborn and couldn't be persuaded by words.

"Sigh, a gentleman has the beauty of an adult. I'll fulfill your wish." Xiaoyan took out two jade bottles.

Wen Cheng realized something was wrong. "What are you doing?"

Smiling face was not a smile. "This is the resource I just found. It's used by two other people who are in love with each other. It's very suitable for you and Lord Wolf."

What?

Wen Cheng's face instantly turned pale. He said angrily, "How dare you?"

Lord Wolf was overjoyed. This was indeed a trap set by him.

He and Xiaoyan worked together and prepared to execute Wen Cheng openly. After that, when the city lord of Wen Yuan interrogated him, anyone could testify that he had betrayed him.

And now that the rice had been cooked, and Wen Cheng had lost his innocence, what else could he do but to marry him?

Chapter 2882 Stealing A Chicken Doesn't Work

Of course, on the surface, wolf official Hou wanted to righteously refuse. "Xiaoyan! I won't allow you to hurt Wen Cheng. Stop! !"

"If not, I'll be irreconcilable with you!"

Xiaoyan smiled sweetly. "I'll Grant Your Wish, but you still want to be irreconcilable with me? You're really heartless."

Wolf official Hou struggled desperately and growled, "Don't do this to Wen Cheng. She's just a kind child!"

Hearing this, Wen Cheng was unmoved. There was only a sneer of disdain in his eyes.

Pretending!

Keep pretending!

Did he really think that she couldn't see that the two of them were colluding?

How could she not know who wolf official Hou was?

He was as lecherous as his life!

Now that he was about to get her, how could he resist so fiercely?

He was just pretending for the people present!

In fact, he was extremely happy.

However, even though he understood, Wen Cheng couldn't point it out. She could only ask Su Yu for help. "Ruyu, ruyu! Save Me!"

However, what made Wen Cheng's heart fall to the bottom was that there was no response from his shoulder.

Even when he walked up to her with a smile, Su Yu still showed no sign of showing up.

"He... he couldn't have sneaked away when he saw that the situation was bad, right?" Thinking of this, Wen Cheng couldn't help but panic.

It was as if his strong support had suddenly collapsed.

"Don't leave me behind!" She secretly transmitted her voice, but there was still no response!

It wasn't until Smiley opened the Jade Bottle and blew at Wen Cheng.

Wen Cheng suddenly felt his eyelids heavy and his body extremely hot. Then, he fell asleep.

Then, Smiley took out another small bottle and blew at wolf official Hou.

There was nothing in the bottle, but Lord Wolf pretended to be poisoned and fainted on the ground.

"Send them to the bridal chamber." Xiaoyan smiled and someone carried them into the underground mine. "Let's Go!"

She waved her hand and the group left with satisfaction.

However, when they flew into the air, they saw a figure sitting cross-legged in the clouds.

The figure was dressed in a black robe, and it was hard to tell whether he was a man or a woman.

Xiaoyan looked serious. This was the abandoned Haotian civilization, and there were only two kinds of people here.

One was their own people, and the other was their enemy.

Most likely, the other party was sent by the other cities.

"Who is it?" Xiaoyan asked.

Su Yu looked at her and said lightly, "Since you like the noble and think he is a dragon and Phoenix among men, why don't you leave the opportunity to yourself?"

Smiling face said coldly, "I don't know what you're talking about. I'm just advising you to mind your own business! You probably can't handle the matters of my number one city!"

As the daughter of the city lord of the number one city, her position was respected by very few people.

She said these words because of the confidence in her bones, and not because of some threats.

It was believed that people from the broken civilization did not have the right to meddle in their affairs.

However, Su Yu was not one of them.

"I am a kind and benevolent person. I like to help others." Su Yu walked over slowly. "Today, I will do a good deed to help you!"

She smiled coldly. There were so many of them, why would they be afraid of one person?

Without her saying anything, her companions immediately stepped forward.

"Hehe, are you really blind? You Dare to come looking for trouble by yourself!"

"This kind of person might have some powerful treasure on him. We should be more cautious and attack together."

Su Yu walked over, and the time ripples beneath his feet rippled.

The surrounding space immediately seemed to freeze, including the group of them.

Su Yu walked into the group of people and grabbed the smiling face while sneering. Then, she found the bottle of secret medicine in her sleeve.

Then, she took it into the underground mine.

In the mine, the two were still unconscious.

Su Yu picked up Wen Cheng and put down her smile. Then, she blew the bottle of medicine toward wolf official Hou.

Her body was frozen in time, but her consciousness was not there.

She watched helplessly as Su Yu saved Wen Cheng and drugged wolf official Hou, but she could not put up any resistance.

After finishing everything, Su Yu casually set up a barrier and said, "Enjoy Your Night with the great hero you admire."

He tapped his finger, and the time freeze immediately ended.

Smiling face was in a panic as she tried to rush out, but was blocked by the barrier. With her strength, she could not break it at all.

"No! Let Me Out! Let Me Out!"Smiling Face said in fear.

Su Yu stood outside and said indifferently, "I have the beauty of an adult. You like wolf official so much and think he is so outstanding, why do you resist? Wouldn't it be good to enjoy it?"

As he said that, he waved his hand and left leisurely.

"No!"Xiaoyan screamed.

Ugh --

A soft sound came from behind her. Xiaoyan looked over in fear and saw Wolf official slowly opening his eyes.

His eyes were blurred because of the effects of the medicine!

"No! How can my innocence be ruined by a useless old man like you? I'm going to marry into a nine-star civilization!"Smiling face screamed.

Just as Wen Cheng had said, the daughter of the city lord of the first city had to have good looks, talent, status, and status.

What was Lord Wolf?

At most, he was just a servant. He was old, ugly, and had no status.

How could she like him?

Seeing that wolf official Hou was about to wake up, a flash of viciousness flashed across Xiao Yan's eyes. She twitched her dagger and stabbed it at wolf official Hou's heart.

"Don't blame me! If you want to blame someone, blame yourself for being too dirty and not worthy of me!" Xiao Yan's face showed a trace of malevolence.

However, just as she was about to stab down...

Lord Wolf official woke up completely and grabbed Xiaoyan's wrist.

His eyes were red and he was panting heavily. It was obvious that he had already realized that he was on the verge of breaking down.

Xiaoyan looked flustered and hurriedly said, "Lowly slave! Let Go of me, or my father will destroy you!"

Mentioning her father seemed to be out of fear, so Lord Wolf official immediately let go.

However, just as Xiaoyan was about to escape, he pounced on her like a wild beast and pressed her down on his body, kissing and touching her.

"Ah! Dirty Thing, get out of my way!" Xiaoyan screamed.

The wolf official was just a slave trained by his father. He deliberately arranged for her to enter Wenyuan City and become his spy.

He tried his best to get control of Wenyuan city.

The first step was to marry Wen Cheng and become the son-in-law of Wen Yuan City Lord.

The second step was to kill Wen Yuan City Lord.

In this way, Wen Yuan City could fall into the control of the first city without bloodshed.

Everything went smoothly, but the appearance of the black-robed man disrupted the plan.

The more smiling face struggled, the harder it was for Lord Lang Guan to control himself.

With a low growl, he tore Xiao Yan's clothes and crazily occupied her body..

At that time.

Su Yu brought Wen Cheng to the safe zone of the meeting. Halfway through, he had already removed all the ingredients of the secret medicine on Wen Cheng's body.

At the meeting place, the members of Wen Yuan City had already returned.

Because there was an alarm saying that the nearby demon beasts were returning and were about to reoccupy the collapsed area, they had to leave.

The arrival of the black-robed man made them all vigilant.

Chapter 2883 King Of Demonic Beasts

When they saw the unconscious Wen Cheng, all of them turned pale with fright and surrounded him.

Su Yu expressionlessly placed him on the ground and said, "When she wakes up, tell her that I'll go back when I have time."

With that, he teleported and disappeared.

Leaving behind the shocked crowd, they helped Wen Cheng into the Flying Dharma Treasure.

"Why hasn't Lord Wolf returned yet?"The crowd asked worriedly.

Roar --

In the distance, the strange cries of Demon Beasts rang out, and a large cloud of dust rose into the sky.

"We can't wait any longer. We have to leave."The crowd made a prompt decision, and they flew the flying treasure out of the ground.

Rumble --

They could see with the naked eye that the densely packed demon beasts on the ground were like locusts crossing the border, reoccupying the collapsed area.

"It's over. Lord Langguan has been sacrificed,"everyone sighed.

Hum --

The huge commotion woke WEN Cheng up from his coma.

She looked around at her companions in confusion, at the familiar flying dharma treasure, and rubbed her aching forehead. "Where are we?"

"Miss, we have left the Haotian civilization."

Left?

Wen Cheng suddenly woke up. He looked at the Haotian civilization that was getting further and further away from him and felt even more confused.

Wasn't she drugged by Xiao Yan and was about to be trampled by the wolf officials?

Could it be..

At the thought of this, Wen Cheng's face turned pale and he immediately touched his own body.

But what surprised her was that she showed no signs of being violated. She couldn't help but be stunned.

"Who Saved Me?"Wen Cheng asked.

"A mysterious man in black sent miss to us,"everyone said with a strange expression.

It was her!

Wen Cheng's disappointed heart was immediately revived, and his small face was full of joy. "I knew sister Ruyu wouldn't leave me behind!"

She immediately sent a secret voice transmission, "Ruyu, Ruyu, you're really bad. Why didn't you save me earlier?"

Unfortunately, there was no response.

She tried several times, but there was no response, which made her even more surprised.

"Miss, before the black-robed man left, he said that he would come back when he had time."

Wen Cheng's heart, which had been happy for a long time, fell to the bottom again.

His mood was short, but it was full of twists and turns because of Su Yu alone.

"He left?" Wen Cheng was extremely disappointed.

Although they had only been together for a short time, Su Yu had given her too many surprises and too many differences.

It made her dull and dull life appear a trace of color that she had never experienced before.

"Did he really say that he would come back?" Wen Cheng asked in a daze.

"Yes!"

Wen Cheng was stunned for a long time before he waved his hand. "Let's go back."

All of a sudden, she felt a heaviness in her sleeve. Looking inside, she saw more than ten spatial storage devices.

Other than the five that were snatched away by Xiao Yan, there were also seven or eight unfamiliar ones.

Opening them, they were all resources.

Wen Cheng immediately understood that Su Yu not only saved her from Xiao Yan's vicious hands, but also took away all of Xiao Yan's resources.

If it was in the past, Great Wen Cheng would be ecstatic.

This was because these resources were enough for Wen Yuan city to use for more than ten years. It was enough for them to send an expeditionary army to an abandoned civilization further away in search of the required resources.

But now, Wencheng couldn't be happy at all.

Because what he had gained was far from enough to make up for what he had lost.

Speaking of which, Su Yu.

He sat alone in the abandoned Haotian civilization on the rubble of an abandoned city.

He watched as the demon beasts swarmed over like a tide and occupied the abandoned city.

"The demon beasts with the aura of chaos are indeed not ordinary," Su Yu muttered to himself.

He had seen with his own eyes that these demonic beasts of chaos could actually turn into mist!

Su Yu was not unfamiliar with such abilities. The little qilin also knew this move.

"I'll test their abilities first." Su Yu leaped into the beast tide.

His plan was to recover the Beast Tide for his own use and turn it into a part of his faction's strength.

But if their intelligence, strength, and so on were difficult to take on such a big task, then it would be of no use.

His appearance immediately attracted the attention of a large number of demonic beasts.

They rushed over crazily and attacked Su Yu.

Su Yu saw them all. "Earth Path Master, early-stage heavenly path master, yes, quite good."

The weakest among them was also at the early-stage Earth Path Master, and the highest was at the early-stage heavenly path master.

The rarest thing was that they were extremely large in number.

If they could all be tamed, it would be an unimaginable terrifying power.

Seeing that a few attacks had appeared, Su Yu stretched out his palm and casually grabbed out, destroying all the attacks of a few demonic beasts.

Then, he used a spatial secret technique to store all the demonic beasts within his sight into his spatial storage.

After doing all this, the entire city ruins were empty. Not a single demon beast was left.

"There's still a long way to go!" Su Yu looked at the endless beast tide in the distance and said helplessly.

It really took a lot of time to capture all the demon beasts in the entire Haotian civilization.

He leaped away.

From the secret place of the ruins, two young men in luxurious clothes walked out with their hands behind their backs.

They had an indifferent temperament and a calm expression. There were no signs of the dilapidated civilization struggling to survive.

"I didn't expect that there would be such an expert among the Wanderers." The purple-robed young man on the left had a dumbfounded look in his eyes.

The red-robed young man on the right said, "It makes sense! "How many criminals have the nine-star civilization exiled to the wilderness over the years? "It's not surprising that some of the most talented ones have reached their current level through countless years of cultivation."

"That's true!" The purple-robed young man said thoughtfully.

Their conversation revealed their identities -- they were from the nine-star civilization.

"However, this person is also stupid. He really overestimated himself by trying to capture all the demon beasts of the Haotian civilization with his own strength."

"How many demonic beasts are there in the Haotian civilization? If we want to capture all of them, it would take at least eight to ten years."

The red-robed young man didn't think so, he said, "It can only mean that the other party's information is too narrow. They don't know that there's a king among these beasts. If we can capture

them, we can command all the demonic beasts. This is much easier than capturing them one by one."

The purple-robed youth smiled, "There's no time to lose. Go find that King Beast immediately and take off the horn on its head."

The red-robed youth laughed, "You actually want to target that fairy? I advise you to give up as soon as possible. There are many people chasing after her!"

"Hehe, you say that you didn't come here to find what the fairy needs and curry favor with her?"

The two of them looked at each other, and there was actually a hint of hostility between them.

However, they understood in their hearts and did not make a move here. Instead, they left one after another to search for the king of Demonic Beasts.

What they did not know was that after they left, there was a sudden flash of light in the sky, and Su Yu's figure appeared.

He looked at the backs of the two of them and groped around. "So there's a king of demonic beasts here? Then it will be much easier to capture all the demonic beasts!"

Chapter 2884 Yellow Sparrow Followed

"However, who is this fairy that they speak of? Is she worth falling out over a woman? How Childish." Su Yu shook his head and silently followed the two young men.

They had come prepared and had quite a few methods to find the king of Demonic Beasts.

The purple-robed young man used a compass to continuously locate the location before finally finding a five-fingered lake.

This should be the mark left behind by some mighty figure on civilization.

"It's inside." The red-robed youth stared at the calm and Serene Lake, his eyes narrowing.

He pinched with his two fingers and took out a ball of lightning from his sleeve. Then, he threw it into it.

Crackle --

Instantly, lightning flashed wildly in the lake, illuminating the entire lake.

All the fish in the lake died in an instant.

Splash --

At the same time, a shocking wave shot up into the sky, slamming into the air.

Looking over, an incomparably huge black qilin drilled out of the water! !

Su Yu narrowed his eyes. "Qilin?"

The only thing left of an eight-star civilization that was extinct was the little qilin.

Who would have thought that on an abandoned nine-star civilization, there would be a mature body.

"Why are you disturbing me?" The black qilin stared coldly and angrily at the two young men.

His entire body emitted a powerful mid-stage Heavenly Dao master realm!

However, in the face of these two seemingly weak young men, there was actually a trace of fear in the Black Qilin's eyes.

"Hehe, we have undoubtedly disturbed you. We came here to discuss something with you." The corners of the purple-robed young man's mouth curled into a smile that was not a smile.

His expression did not seem like he was facing a behemoth that had yet to appear.

Instead, he was facing a slave that had given him what he wanted.

"Speak!" The eyes of the black qilin changed repeatedly. Finally, he suppressed his killing intent and said in a calm voice.

The purple-robed youth said, "I came here to borrow a pair of horns on your head!"

Yes!

The Black Qilin's body released black flames. His eyes were burning with fury. "Are you joking? This horn is the foundation of my foundation. How can I give it to someone else?"

Most of the essence on his body was concentrated on the two horns on his head.

The purple-robed youth casually took out a token and waved it in front of the black qilin.

"The Feng Clan?" The black qilin said in shock. The wariness in his eyes turned into fear.

The Feng clan was a powerful race within a nine star civilization.

Every member of the clan was naturally proficient in wind-type domains.

The mighty figures of the clan were even more world-shaking existences.

"It seems that you still have some sense." The purple-robed youth took back the token and said, "Giving me a pair of horns now is better than my Feng clan coming to find you, right?"

"You should know how miserable your fate will be if they find you."

The black qilin was filled with fear. With its powerful cultivation base, once it was found by the experts of the Feng clan, at the very least, it would be imprisoned forever. From then on, it would become the pet of the Feng clan.

At worst, it would be captured, killed, and sold all the materials on its body.

The black qilin would rather die than encounter any of them.

"Horn, I can only give you one, and I must guarantee that no one will disturb me again," the black qilin said.

The purple-robed youth licked his lips. "No problem."

He wanted a pair, and it was a bargain. He was satisfied with just one.

The black qilin gritted its teeth, endured the pain, and crashed into a huge rock by the lake.

Kacha --

The sharp horn on his head immediately broke.

Before he could deal with the blood on his head, the black qilin kicked the horn to the purple-robed young man. "Take it away and don't come back!"

"Alright!"The purple-robed young man picked up the sharp horn and left with a smile.

The black qilin stared at the other red-robed young man and frowned. "Why aren't you leaving?"

At this moment, the purple-robed young man looked at him with a half-smile. "Let me introduce you. The people from the ancient tomb clan are not with me."

What!

The black qilin thought that the two of them were asking for something together.

The black qilin felt like he had been tricked. If he had known, he would not have handed over a broken horn so easily.

"Then what do you want?"The black qilin said, "Don't tell me you want another horn too? If you do, then I can only apologize."

If it lost both horns, it would have no power to stand in the Haotian civilization anymore.

It would also be unable to command all the Demon Beasts to become their kings.

Most likely, it would be killed by a portion of the ambitious demon beasts and replaced.

"Of course not! What do I Want Your Horn For?"The red-robed youth said.

The black qilin let out a slight sigh of relief. As long as it was not asking for this item, everything else was negotiable.

"What I Want is your heart."The red-robed youth pulled out an ancient skeleton dagger, he said indifferently, "I heard that your heart is different from an ordinary living creature. If you give it to your loved one to eat, will you develop feelings of adoration for the person who gave it to you?"

The Black Qilin's face turned black. "You're Shameless!"

The two of them were clearly colluding. First, they tricked it with a horn, causing its cultivation to drop drastically. Then, they revealed their true colors -- they wanted its life.

The purple-robed youth returned and shook the horn in his hand. He said, "Congratulations, you got it right!"

The two of them had never intended to let the black qilin off the hook.

"Accept your fate, black qilin. Who asked you to be one of the few wild qilin in the world? Even a single strand of hair on your body is worth something."The red-robed youth shook the dagger in his hand.

"No!"The black qilin was enraged, and black flames shot up into the sky.

However, compared to before, it was clearly weaker by several levels.

This was the drawback of losing a horn.

"It's useless." The red-robed youth said calmly, "In front of my ancient Tomb clan, you have no chance of surviving!"

He took the Black Qilin's horn from the purple-robed youth's hand.

He raised the dagger in his hand and stabbed at the horn.

It turned out that the dagger wasn't used to harm the black qilin. Instead, it was used to target its horn.

However, the strange thing was that after stabbing into the horn, a red light leaked out from the skeleton dagger and seeped into the horn.

The black qilin actually let out an unbearable scream.

Its enormous body was frantically running in all directions due to the pain.

In the end, it stumbled and fell to the ground. Its body kept twitching as it spat out large amounts of white foam.

Its eyes quickly dimmed. That was a sign that its life was gradually fading.

A mighty mid-stage Heavenly Dao master was actually killed by a skeleton dagger just like that?

The red-robed youth finally smiled. Holding the skeleton dagger, he walked to the front of the black qilin.

His gaze swept back and forth across the Black Qilin's chest, searching for its heart.

The Black Qilin's remaining eyes were filled with sorrow.

In order to survive, it had already compromised, but it didn't receive the slightest bit of sympathy from the enemy.

All it had was endless greed.

If he was given another chance, he definitely wouldn't compromise so easily.

However, just as the red-robed youth was about to make his move, a sudden change occurred!

Chapter 2885 Reclaiming The Monster King

Without warning, the purple-robed youth took out a golden bow and shot an arrow at the red-robed youth's Back!

Plop --

The defenseless red-robed youth's heart was pierced by an arrow on the spot!

He turned his head in disbelief and saw the purple-robed youth's face filled with malevolence and a cold smile. "I'm sorry, the fairy belongs to me alone!"

That fairy was actually so mesmerizing that they began to kill each other!

"You... My Ancient Tomb clan won't let you off!" The red-robed young man spat out a mouthful of black blood and left a skull mark on the ground. He died tragically on the spot.

The corners of the purple-robed young man's mouth curled. "You died at the hands of the black qilin. Why are the Ancient Tomb clan looking for trouble with me?"

He walked forward and pulled out the arrow from the red-robed youth's back.

Then, he erased the traces of his attack and created a hideous wound on his body that had been injured by a demonic beast.

After doing everything, he picked up the red-robed youth's skull dagger and stabbed it into the black qilin's chest. "Your heart, I want it!"

But just as he stabbed, the purple-robed youth suddenly caught a glimpse of a black-robed figure standing out of the corner of his eye.

He jumped in fright and turned his head to take a look. He realized that it was actually a black-robed figure who had arrived at an unknown time.

"Who are you?" The purple-robed youth immediately retreated and took out his golden bow, aiming at the black-robed figure.

Su Yu raised his finger and gently waved it. A stream of spatial energy swept out and knocked the Golden Bow Away. At the same time, it emitted a terrifying power at the peak of the early-stage Heavenly Dao master realm.

"Scram!" He said calmly.

The purple-robed youth gritted his teeth and looked at the black qilin on the ground. He was extremely unwilling.

However, there was no one around. The other party had killed him, so no one knew.

Hence, he could only grit his teeth and choose to leave.

Su Yu turned to look at the dying black qilin and said, "Do you understand what you lack?"

The black Kirin was extremely weak. Su Yu's blurry figure was reflected in its dim eyes.

"You lack... strength!" Su Yu placed his palm on the black Kirin's head and activated his life domain silently, quickly healing its injuries.

The black kirin slowly recovered and rolled its eyes. "Why did you save me?"

"I'll give you a way to survive," Su Yu said indifferently. "Instead of being targeted by others and being slaughtered at any time, why don't you follow me?"

The black qilin stared at Su Yu. "Can you guarantee that if I follow you, I Won't be slaughtered?"

There was deep mockery in his eyes. "You appearing here is undoubtedly a vagabond that is not tolerated in a nine-star civilization, right? What right do you have to give me a way to survive?"

Su Yu saw that his injuries were mostly healed, so he withdrew his hand and said casually, "You're right. If I don't show you, you probably really think that I'm a cheapskate."

He raised his hand and waved it in the distance.

Bang --

In an instant, the sky collapsed and the earth cracked!

At the end of the sky, a ball of fire burst into the sky like a volcano that connected the sky and the Earth!

Thick smoke rolled in the sky.

The earth shook violently. At first glance, it looked like a wave of the vast sea.

The intense heat swept over violently under the impact of the intense air waves, igniting everything nearby.

In the blink of an eye, everything turned into a sea of fire!

In the midst of the fire, Su Yu's back appeared exceptionally aloof.

It was as if he was an unparalleled existence that controlled the heavens and earth and suppressed the entire universe!

The Black Qilin's eyes widened, and shock filled his eyes.

The power of that palm could be said to be extraordinary, and it was almost close to the late-stage Heavenly Dao Master!

Su Yu silently withdrew his palm and looked at the black qilin again, saying indifferently, "Do you know your ignorance?"

He was secretly satisfied. After his soul merged with the body of the mirror flower son of Heaven, he was indeed able to use his body to release a destructive power.

It was more than enough to scare an ordinary person!

The Black Qilin's entire body quivered. Dragging his heavily injured body, he immediately got up and said respectfully, "Greetings, senior! This junior is blind and doesn't know your true face."

Su Yu said indifferently, "At least you know your place! This is the last time I'll ask you, are you with me or not?"

This time, the black qilin did not hesitate at all. It was even pleasantly surprised and excited. "Thank you for taking me in, senior. This junior is extremely grateful."

After so many years, it had finally found a backer!

One had to know how hard it was to be a demonic beast without a background.

It could easily be targeted by others and might even lose its life.

For example, today, a few juniors almost killed it because of their family background.

"Well, I won't take you in for free. Do you understand this?"

The black qilin quickly nodded. "I understand, I understand!"

"It's fine if you understand. Now, I want to take back all the demon beasts in the Haotian civilization. As the king of the Demon Beasts, you can command them all. Do you know what to do?" Su Yu said his purpose.

The black qilin shook his head and said, "I can only summon a portion of demonic beasts. The remaining portion is beyond my ability."

Oh?

Su Yu frowned. "Why?"

As the king of Demonic Beasts, he should have absolute authority.

"About half of the demonic beasts have long been tamed by a mysterious force. I Won't make a move."

Su Yu's gaze turned solemn. Someone had taken the initiative to take a liking to the demonic beasts of the Haotian civilization?

"It doesn't matter! Take the demonic beasts you can summon for your own use. As for the rest, I'll use force and combine it with the demonic beasts you control to subdue them as well."

The black qilin hesitated. "This... isn't good! That demonic beast that can control more than half of its strength is clearly not someone easy to deal with."

Su Yu didn't say anything and sent another palm strike towards the horizon.

Rumble --

The world once again experienced the scene of heaven collapsing and earth shattering.

The black qilin's eyelids twitched, and he said, "Alright, with Master's unrivalled divine power, there's no need to fear the other party. It's just that I'm afraid it'll take some time."

Su Yu looked at his fair palm and laughed self-deprecatingly, "What I don't lack the most right now is time."

He flipped his palm again, and a small-sized nightmare ferrying lotus seat appeared in his palm.

He thought to himself, "Fortunately, I tried my best to repair this lotus throne back then. I wouldn't have no one around me."

He opened the small lotus throne and released many living beings.

The evil daughter, Xiao Die, Lu Zu, and the others could all become Su Yu's right-hand men.

After explaining the situation, all the living beings on the lotus throne were excited. This was to prepare them for their future home.

Moreover, they were spending an astonishing amount of money. If they were to recover all the demon beasts, it was hard to imagine what kind of huge force they would be able to build.

When the Haotian Civilization launched the Unknown Demon Beast recovery operation, internal strife raged in the dilapidated civilization.

Wen Cheng and the others finally returned to Wen Yuan city after several days of effort.

However, before Wen Yuan City could bring back so many resources in surprise, they received a letter from the first city Lord.

Ten days later, the first city lord brought his daughter to Wenyuan City with a smile!

Chapter 2886 Whatever You Want

Xiaoyan and the others didn't die.

Before the Demon Beast Tide arrived, their companions returned to the mine and found the ruined Xiaoyan and Lord Langguan, then brought them back.

City Lord Wenyuan frowned. "The first city Lord came with Bad Intentions!"

It was rare for the city lords of the broken civilization to communicate with each other, and such a sudden visit was not a good thing.

"Wen Cheng, have you ever met Xiaoyan in the Haotian Civilization?" City Lord Wen Yuan asked.

He was worried that his daughter had provoked Xiaoyan in the broken civilization.

Wen Cheng was angry at the thought of it, so he told him everything.

"Xiaoyan did that to you?" City Lord Wen Yuan was furious.

Wen Cheng said lightly, "It's not strange for Xiaoyan to do anything. We are rivals, so father should be concerned about Lord Langguan! I suspect that he is the first city Lord's Man!"

No one was a fool, and City Lord Wen Yuan was no exception.

From all the signs, it seemed that Lord Lang guanhou had lured Wen Cheng over and then cooperated with Xiaoyan to invade Wen Cheng to achieve his goal.

"Where is he? Did he come back with you?" Killing intent flashed in City Lord Wen Yuan's eyes.

He could tolerate Lord Lang guanhou being old, ugly, and lecherous. As long as he had the ability and ability, all these could be ignored. But if he had second thoughts, no matter how capable he was, he could not tolerate it.

"I don't know. After I was saved, I didn't see Lang guanhou again," Wen Cheng said. "However, since he returned with a smile, I think Lang guanhou should be back by now, right?"

The Wenyuan City Lord was furious and clenched his fists. "It seems that some rumors are true!"

In the dilapidated civilization, there was a city that was almost the same as Wenyuan city.

That city had recently changed its city Lord!

And the city lord that changed was not the son or daughter of the Old City Lord, but his son-in-law!

That City Lord betrothed his daughter to an extremely capable subordinate, and not long after the wedding, the city Lord suddenly died.

The most bizarre thing was that his sons, for some reason, all gave up the position of city lord to inherit their father's position, and instead recommended their son-in-law to take the position.

After their son-in-law took the position, the sons of the Old City Lord, including their daughters, had not shown their faces for almost two to three years.

Some people suspected that the son-in-law had once worked for the first city lord.

It was very likely that the first city Lord had plotted to become his son-in-law and then killed the Old City Lord. In the end, he forced his sons to give up their positions and then disposed of all of them afterwards.

In this way, a complete city could easily change its surname!

Now that he thought about it, Lord Langguan wanted to marry Wen Cheng at all costs. Even the first city Lord's daughter had schemed to bring the two together.

How similar was it to the city that changed its name?

"Men! Contact Lord Langguan for me." City Lord Wen Yuan finally made up his mind.

Wen Cheng was delighted. "Father, what are you going to do?"

"Cancel the engagement between the two of you, of course!" City Lord Wen Yuan made a decision that disappointed Wen Cheng a little.

She thought that her father was furious and wanted to kill Lord Langguan.

Unfortunately, it wasn't!

It could be seen that city Lord Wen Yuan was very afraid of the first city lord. Knowing that Lord Langguan was his man, he didn't dare to move.

"Prepare well. The first city Lord will arrive in ten days. He has no good intentions." The city lord of Wenyuan's heart was heavy.

He had an uneasy feeling that a storm was coming!

At that time.

In the Haotian civilization, Su Yu rode on the black qilin and ordered the Demon Beasts to capture the other half of the civilization.

With his strength and the help of many demon beasts, he began to divide and surround the remaining demon beasts.

The process of capturing tens of thousands of demon beasts was much smoother than expected.

He should be able to capture all of them in seven or eight days at most.

"Master, look." The Black Qilin summoned a demon beast that he could not catch and pointed at its belly.

A black skull mark was engraved on it.

The mark was lifelike, as if it was alive.

"This is the mark left by that mysterious force," the black qilin said.

Black skeleton?

Su Yu did not care at all. He wiped the mark on the skeleton with his palm and wiped it away. He said expressionlessly, "Continue! Until all the demonic beasts in the Haotian civilization are captured."

A few days later.

Finally, all the demonic beasts in the Haotian civilization were captured. The Demonic Beast Tide that terrified the broken civilization in the past was all under Su Yu's control.

The only thing left was to tame them.

Su Yu sent all the demonic beasts into the Nightmare Lotus seat. Then, he asked the evil woman and the others to help him tame them as soon as possible and turn them into an army of demonic beasts that would listen to his orders.

After finishing everything, Su Yu weighed the cave abode world in his hands.

It was filled with resources that he had collected during the capture process.

Su Yu didn't need these resources, but he could give them to Wen Cheng as a gift.

"Consider it a parting gift," Su Yu said lightly.

In the future, their interactions might be few and far between.

He leaped up, rode the black qilin, and returned to the dilapidated civilization. He directly appeared in Wen Cheng's boudoir.

Splash --

Just as he entered, he heard the clear sound of water. He subconsciously turned his head and was stunned.

She saw that Wen Cheng was actually taking a bath in the room!

His well-developed body was lying naked in the bathtub, and his entire body could be seen clearly.

Su Yu's arrival made Wen Cheng subconsciously scream, "Ah... It's Ruyi?"

However, she quickly came to her senses. Her tone changed and she said in surprise, "You're finally back?"

Haila --

She got up from the bathtub and quickly ran toward Su Yu.

Su Yu immediately looked away and said, "Well, put on your clothes first!"

Unexpectedly, Wen Cheng hugged Su Yu from behind and rubbed Su Yu's chest with his two hands. He said, "They're both women. Are you afraid that I'll eat you up?"

Su Yu slapped his hands away and said, "Be serious!"

He was not afraid that Wen Cheng would eat him up. He was afraid that he would eat Wen Cheng Up.

Wen Cheng chuckled. "Stop it! A person who likes to rub her chest, how dare you ask me to be serious?"

As he spoke, he took out a towel and wrapped it around his body.

Only then did Su Yu turn around and look at her wet body and smiling face. She said, "I came to say thank you."

It was her first time coming to a nine-star civilization, and she was grateful for Wen Cheng's help.

Wen Cheng heard the hidden meaning in her words and immediately hugged Su Yu's arm. "You're leaving?"

Her eyes immediately reddened. "I don't want you to leave!"

Since she was young, she really didn't have many friends.

Su Yu gently touched her forehead, and a trace of life domain surged into her right eye. In an instant, her right eye regained its light.

"There's no banquet that doesn't end. Since I'm here, I'll leave sooner or later." Su Yu patted her shoulder.

Wen Cheng said, "But... but can't you stay? You can do whatever you want to me, really!"

As he said that, he straightened his chest!

Chapter 2887 Message From Jingyu

Su Yu glanced at her chest and her head darkened. "None of them are as big as mine!"

"Then help me massage them," Wen Cheng said with a red face.

Su Yu calmed herself down. He finally realized that this seemingly serious girl was the most inappropriate!

"Ahem..." Su Yu coughed lightly and said, "I still have many things to do and can not stay in this broken civilization. After today's farewell, I'm afraid we won't see each other again in the future."

He took out a cave world filled with countless resources. It was enough for Wen Cheng to use for a lifetime.

It was even enough for the broken civilization to last for ten thousand years.

"This is for you." He stuffed it into Wen Cheng's hand.

Wen Cheng didn't even look at it. He just threw it on the table and looked at Su Yu. "I've never had any friends. You're the first. If you must go, can you take me with you?"

"I want to see the wider world. I want to see the splendor beyond the dilapidated civilization. I want to see the prosperity described in the books." Wen Cheng had been immersed in books all his life.

In the books, she saw a strange world.

That was what she had been longing for.

Su Yu was silent. She looked at the dark sky and said, "I can't help you realize it."

He had to face the son of Heaven of the Sacred Mountain, an unimaginable enemy.

If he brought Wen Cheng with him, he would only see bloodshed instead of the beautiful and comfortable world depicted in the books.

Wen Cheng's eyes dimmed and he lowered his head. "Then you can go."

Su Yu sighed in his heart. He had his own path to walk and could not bring Wen Cheng with him.

The space around him fluctuated. He was about to move away when he suddenly stopped. His gaze passed through the house and shot out of the city Lord's mansion.

There was a trace of coldness in his eyes. "Why? Is Your Wen Yuan City in trouble?"

Wen Cheng was in a low mood. "It has nothing to do with you. You can leave."

Su Yu said, "It doesn't matter if I leave, but your father, are you sure you don't Care? It seems like someone is targeting your father."

What?

Wen Cheng immediately raised his head. "Who? Where?"

Su Yu rolled up his sleeves and used his spatial domain to bring him to the sky above the city Lord's mansion.

Looking down, Wen Cheng saw a few sneaky figures near his father's study. They were plotting something.

They had deliberately put on disguises to hide their auras. It was hard to detect them even from the side.

After Su Yu gave him a few pointers, Wen Cheng finally saw them clearly.

"What are they going to do?" Wen Cheng was shocked. "They are all servants in the mansion. Some of them have been in the mansion for decades."

Wen Cheng recognized one of them. He was the housekeeper of the city Lord's mansion.

She couldn't believe that the housekeeper was going to harm her father.

"We'll know when we see it," Su Yu said casually.

After a short discussion, the group of people each took out an explosive dao artifact and threw it into the study room.

"Ah! Father!" Wen Cheng screamed.

Su Yu waved his hand and created a space ripple to block his voice. "Don't panic. Just wait and see."

Wen Cheng was anxious. He observed silently and finally noticed something strange.

It was hard to observe on the ground, but it was easy to see that there was no one in the collapsed study.

Only a dao artifact that kept releasing projections was smashed into pieces.

When the butler and the others saw that Dao artifact, they all sensed that something was wrong.

"Not good, it's a trap!"

They had a premonition that something bad was going to happen, but unfortunately, they were still a step too late.

From the ruins of the study, a spiderweb-like array formation was suddenly activated and rapidly expanded to a thousand feet wide.

The butler and the others could not retreat in time and were stuck by the huge net on the spot.

They tried their best to escape, but the more they struggled, the deeper they sank into it.

Da Da --

A series of light footsteps could be heard.

The Butler and the others turned their heads to look, and their expressions changed drastically.

They saw the city lord of Wen Yuan, with his hands behind his back, leading the experts from the residence with a calm expression as he walked over from the guest room next door.

Looking at the butler and the others, the city lord of Wen Yuan sighed deeply. "It's hard to guard against thieves! The Butler, who has been loyal for decades, is actually the first city Lord's Man!"

It turned out that city Lord Wen Yuan had expected the first city lord to come with ill intentions, so he was suspicious.

Therefore, he quietly moved to the next place and placed a DAO artifact in the study to lure the snake out of its hole.

In the end, the snake really came out, and there was more than one!

The Butler's face turned pale and said, "City Lord, Listen to me, I was forced..."

A group of experts beside the city lord coldly stepped forward and ended their lives.

This was what traitors deserved!

However, the city lord of Wen Yuan didn't leave. Instead, he didn't even raise his head and said, "Sir, you've held my daughter for long enough. Can you put her down and speak properly?"

"Oh?" Su Yu was surprised. "You actually discovered me."

He had released a spatial domain to hide himself and Wen Cheng in the shadows. It was much better than the disguise skills of the butler and the others.

Unexpectedly, City Lord Wen Yuan noticed it.

He chuckled and flew down from the sky. He put down Wen Cheng and said, "No simple character can become a city lord."

City Lord Wen Yuan pulled Wen Cheng behind him and said indifferently, "You flatter me!"

The experts behind him understood and surrounded Su Yu in the center.

"Father, he is..." city Lord Wen Yuan interrupted Wen Cheng's words, "Do you really think I don't know that someone has been hiding in your room?"

A father knows his daughter like a father.

How could Wen Cheng's series of strange actions not make City Lord Wen Yuan suspicious?

He had long known that Wen Cheng had someone hiding in his room.

However, the other party did not harm Wen Cheng, so he chose to turn a blind eye.

But now, the first city Lord was eyeing him like a tiger eyeing its prey, wanting to kill the city lord. He could no longer tolerate it.

"Your Excellency, after pestering my daughter for so long, shouldn't you tell me what you are planning?" City Lord Wen Yuan said lightly.

Su Yu smiled.

Pestering?

It could be considered that!

Su Yu grabbed with her hand and took off the brim of the black robe on her head, revealing the face of the mirror flower emperor that was hidden under the black robe.

Her astonishing beauty instantly stunned the experts who were surrounding her.

City Lord Wen Yuan also fell into a deep state of shock.

However, the shock only lasted for a moment before it was replaced by shock.

He stumbled back and said in shock, "You... you are goddess Jing Yu of the Goddess Race!"

Su Yu, who was originally smiling, suddenly froze.

Huala --

His figure instantly flashed and came in front of city Lord Wen Yuan. He quickly said, "Have you seen Xia Jing Yu?"

His current appearance was exactly the same as Xia Jing Yu.

The other party called him "Goddess Jing Yu". It was clear that he must have seen Xia Jing Yu.

City Lord Wen Yuan had yet to recover from his shock, so he subconsciously replied, "I've seen her, I've seen her... aren't you her?"

He really had seen Xia Jingyu before.

"When did you see her? where is she?" Su Yu hurriedly asked.

City Lord Wen Yuan said, "Twenty years ago, when I passed by an abandoned civilization, there was a grand banquet held there. I was fortunate enough to see the number one beauty of the nine-star civilization, Fairy Jingyu's true appearance..."

Chapter 2888 A Dead End

After a pause, the city lord of Wen Yuan said in surprise, "Aren't You Fairy Jingyu?"

Twenty years ago?

At that time, Xia Jingyu had already established herself in the nine-star civilization, right?

Moreover, she had returned to the goddess race as she wished.

From the tone of the city lord of Wen Yuan, she should be living very well.

Su Yu's heart, which had been hanging on for a long time, finally relaxed. "As long as you're living well, that's fine..."

He suddenly lost the heart to find Xia Jingyu.

The current Xia Jingyu was the outstanding figure of the Goddess Race, the number one beauty of the nine-star civilization. Her reputation and status were integrated into one, and she was the most dazzling existence in the world.

As for himself?

He had fled from the eight-star civilization to this place in a sorry state. Not only had he lost his body, but he had also become a vagabond. He had nothing.

Therefore, the closer he got to Xia Jingyu, the more he did not dare to go forward and recognize her.

"I am not her, but an old friend of hers." Su Yu's expression was bleak.

An old friend?

Such a similar old friend?

The city lord of Wen Yuan felt that it was abnormally unreal. After a long while, he accepted Su Yu's words and said, "You are her sister, right? If so, it's better to look for her. Fairy Jingyu is not living well."

HMM?

Su Yu's eyes were burning with concern. "Why?"

The city lord of Wen Yuan sighed. "This is no secret. The matriarch of the goddess Clan has always been choosing a suitable partner for Fairy Jing Yu! I once saw Fairy Jing Yu's lonely and melancholic face."

"I believe she must be very unhappy."

"Moreover, there are rumors saying that Fairy Jing Yu is a member of the Goddess clan in name, but in reality, she is controlled by the Goddess clan."

What?

Su Yu's heart was filled with strong killing intent. He remembered what Qingyun said. Xia Jingyu was not safe now, so she asked him to go and rescue her as soon as possible.

Was that what she said?

Then he had to quicken his pace to find Xia Jingyu and take her away from the abyss of suffering.

"You must be the one who saved my daughter from the Haotian civilization, right?" The governor of Wen Yuan City thought for a moment and suddenly knelt down on one knee. "I have a presumptuous request. I hope you will grant it, sir."

Su Yu looked at him indifferently. "Speak!"

The governor of Wenyuan city said bitterly, "I won't hide it from you. Wenyuan city has been targeted by the first governor. It's okay if I can't escape the disaster, but Wen Cheng can't be dragged down with me!"

"Please, my Lord, take my daughter away from the broken civilization."

He could imagine that Su Yu was able to drag Wen Cheng out of the hands of the lord of wolf officials as if there was no one there. He could also snatch the spatial storage device from Xiaoyan. He must be extremely powerful.

Moreover, he had no ill intentions towards Wen Cheng and was worthy of trust.

"I refuse," Su Yu said mercilessly.

City Lord Wen Yuan continued to plead, "Please, my Lord..."

"I said, I refuse." Su Yu's face was expressionless and appeared cold and heartless.

City Lord Wen Yuan still wanted to plead, but was supported by Wen Cheng. He said sadly, "Father, don't beg anymore. Ruyu doesn't owe us anything and has no obligation to help us."

Her eyes were red and filled with determination. "Su Ruyu, thank you. Please go. Father and I will be fine."

How could she be fine?

She clearly planned to live and die together with her father and Wen Yuan city.

"Okay, then I'll go," Su Yu said.

She took a big step and was ready to leave. Wen Cheng stared at her back and felt like crying. His heart was filled with endless sorrow.

The last friend had left him.

However, Su Yu actually stepped in front of the stone bench and sat cross-legged on it.

Wen Cheng blinked his red eyes and cried, "What are you doing?"

"Walk to the stone bench and sit down for a while!"

"You... didn't you reject my father?" Wen Cheng's heart became lively.

Su Yu smiled faintly, "I refused to take you away because I'm prepared to stay!"

He would only stay for a few days to deal with the first city Lord's words. It wouldn't delay anything.

He would need a few days just to deal with the demonic beasts in the Nirvana realm.

"Ah!" Wen Cheng was so happy that he cried. He pounced on Su Yu, hugged his head tightly, and hugged his chest.

The soft touch made Su Yu feel an intense strange feeling on his face.

He hurriedly pushed Wen Cheng away and said unhappily, "Pay attention to your image!"

Wen Cheng put his arms around his neck again with a smile on his face. Then, he simply sat on Su Yu's lap. "What are you afraid of? We have a deep sisterly love!"

Pah --

Who has a deep sisterly love with you? I'm a man!

The mayor of Wen Yuan City could not stand it anymore. He covered his eyes and said, "Ahem! Wen Cheng, pay attention to your words and actions."

Only then did Wen Cheng jump down, but he tightly hugged Su Yu's arm and didn't move an inch.

City Lord Wen Yuan said seriously, "Thank you for your good intentions, Miss Su! However, the first city lord is very powerful and has many experts under him. I'm afraid that he will bring great trouble to miss su."

Su Yu smiled faintly. "A few bugs aren't qualified to bring trouble to me. It's better for them to come together and let me finish them all, so as to avoid making another trip to the first city."

UH --

Everyone was stunned, staring at the beautiful woman without blinking.

Why did it sound like the first city lord was not worth mentioning?

One had to know that he was a top expert of a broken civilization!

"This... Alright, when the time comes, I will let the experts of Wen Yuan city work together with Miss Su to try to intimidate the first city lord. It would be best if we can defeat them without bloodshed," the Wen Yuan City Lord said.

Obviously, he didn't think that Su Yu really had the ability to destroy the first city lord with a flick of his finger.

Su Yu didn't care. It didn't matter if it was a misunderstanding.

At that time.

In the Haotian civilization, all the demon beasts were captured. It seemed empty and dead silent.

Several people with skeleton marks on their bodies were speeding in the vast Haotian civilization.

"Where are our demon beasts? Why aren't there any?" After searching for a long time, they stopped on a huge rock.

"What the hell! There are countless demon beasts in the Haotian civilization. who has the ability to capture all of them?"

While they were quarreling, one of them suddenly took out a jade plate with a red light flashing on it. "There's one more!"

They followed the red light and sped away. They appeared in a collapsed city.

This city was the city that Wen Cheng and nephrite had searched for.

Under the disturbed ruins, they found a demon beast that had been suppressed and buried here.

The Demon Beast was on its last breath. It looked at the group and said reluctantly, "Greetings, Masters."

"Say, where are the demon beasts here?"

There was a trace of fear and fear on its face. "They were captured by a black-robed man who had mastered the space domain."

A man with a skeleton mark frowned and said, "You mean, he is alone?"

"Yes! He's alone. He's very scary. You must not provoke him."

"HMPH!" One of the people with the skeleton imprint snorted and said, "In the abandoned civilization, there are still people that we skeleton ronin can't provoke?"

"Speak, where is he?"

The demonic beast sighed and pointed at the nearby broken civilization.

It sighed silently in its heart. Why were there always people who didn't listen to good advice and only sought death?

Even this so-called skeleton ronin, really dare to find Su Yu, will only be a dead end.

Chapter 2889 This Was Not Fair

"A broken civilization?" The person with the skull imprint snorted. "What a coincidence. We were just about to harvest this broken civilization."

"I didn't expect that they would not know what was good for them and steal our demon beasts in public."

The other person with the skull imprint was much calmer. "It seems that over the years, the broken civilization has accumulated a lot of power in secret. They can even subdue all the demon beasts without being detected!"

"It seems that we need to inform the headquarters and ask them to take it seriously."

At first, the power of the broken civilization was nothing to them.

But at this moment, they became serious and decided to take it seriously.

The broken civilization.

The creatures who didn't know anything about it were living an ordinary life as usual.

Until hundreds of giant white beasts broke the silence in the sky above Wen Yuan City and broke the tranquility of the lives of mortals.

The giant beasts that blotted out the sun blocked all the sunlight in the sky, causing the earth to sink into darkness.

The residents felt waves of killing intent, so they hid in their houses and closed the doors and windows. They only dared to look at the situation outside through the cracks.

The cruel life of the broken civilization had formed their habit of being cautious.

"Lord of Wen Yuan City, this lord of the city is here personally. Aren't you going to come out and welcome me?" A giant beast in the middle had a luxurious canopy.

A middle-aged man with three eyes and a slightly serious expression sat cross-legged below.

He was the first city lord of a broken civilization, a powerful existence who had reached the middle stage of the Heavenly Dao master realm!

Huala --

A long red carpet shot out from the city Lord's mansion and reached the foot of the huge white beast.

City Lord Wen Yuan walked up to the air along the carpet with a strong smile on his face. He cupped his hands and said, "The first city Lord has graced us with his presence. It brings glory to our Wen Yuan City!"

The first city Lord walked down from the Giant White Beast and said with a smile on his face, "The development of Wen Yuan city in recent years can not be without fear or speed. It's really enviable!"

The two City Lords met in the sky in front of the people of the world.

Their fingernails were very harmonious with each other. Those who did not know would think that they had a very good meeting.

On the ground, many living beings heaved a sigh of relief and looked at the hundreds of giant white beasts with envious eyes.

"Grandma, there seems to be a very beautiful big sister on that Giant White Beast." A young girl pointed at the Giant White Beast behind the first city Lord.

Indeed, there was a woman sitting cross-legged on that giant white beast. Regardless of her figure or appearance, she could be said to be the best of the broken civilization.

She was the daughter of the first city lord, smiling face.

This time, she also followed.

"That's the most beautiful girl in our broken civilization, smiling face!" Grandma said kindly.

"She's so beautiful! But why is sister smiling face unhappy?" The little girl said.

Grandma immediately covered the little girl's mouth, "Don't talk nonsense!"

The little girl opened her black and white eyes, "She's unhappy. Look at her eyes, it's as if she wants to eat people..."

As she said this, Xiao Yan suddenly looked over. Her eyes were extremely gloomy, really like a beast that ate people.

The little girl was so scared that she burst into tears on the spot!

Only then did Xiao Yan turn her head and stare at the mansion of the city lord of Wen Yuan.

To be more precise, she was staring at Wen Cheng behind the city lord of Wen Yuan. Her eyes were filled with hatred and hatred.

Wen Cheng noticed the other party's gaze and muttered, "Crazy woman, it's baffling! You've harmed me. I haven't even settled the score with you yet, but you're already being fierce to me?"

However, the civil official's gaze continued to search, but he did not find the wolf official marquis.

Theoretically speaking, shouldn't the wolf official Marquis come with the same batch?

Why wasn't he seen?

The city lord of Wen Yuan warmly invited, "First City Lord, please come down and have tea with your followers."

The first city lord readily agreed and followed the city lord of Wen Yuan to the living room of the city lord's residence.

The important members of both sides sat opposite each other in the living room and talked.

After exchanging greetings, the first city Lord finally got to the point and said, "City Lord Wen Yuan, to tell you the truth, I'm here today for the marriage between your daughter and Lord Lang Guan."

The city Lord Wen Yuan sneered in his heart. He really did care too much!

When did it become an outsider's turn to tell him about his daughter's marriage?

"What a coincidence. We also have something to announce to the public." The city lord of Wen Yuan retorted, "That is, my daughter's marriage with the wolf official Marquis has been announced to be annulled!"

"As for the reason, the wolf official Marquis is a mischievous person. He is a philanderer and his character is too bad. He does not meet the criteria for selecting a husband for our city Lord's Manor."

He did not expose the fact that the wolf official Marquis was a traitor.

Once it was exposed, there would be no room for negotiation between them. They had to fight to the death.

This was the situation that city Lord Wen Yuan didn't want to see the most because Wen Yuan city was far inferior to the first city in every aspect.

"I object!" The first city Lord said on the spot, "Wen Cheng and Lord Langguan are a match made in heaven. They must be married! The marriage contract is invalid!"

The city lord of Wen Yuan held the armrest and left a deep fingerprint on the bronze armrest.

The first city Lord was an outsider. How could he make the decision on his own?

In his eyes, he was just a bug-like character. He could be treated as air, right?

"Hehe! Then it's not up to the first city Lord! The marriage contract is between us and Lord Lang Guan. We can cancel it if we want!" The city lord of Wen Yuan gradually shed all pretense of cordiality.

The other party was so aggressive, it was impossible for him to not have any reaction.

The first city lord said indifferently, "Correction, it's not between you and the wolf official marquis, but between you and us! If you want to cancel the engagement, you have to get our consent!"

City Lord Wen Yuan calmed down and said, "Is that so? Why?"

With a cold smile, he clapped his hands, and two attendants led a thick chain into the room.

The other end of the chain was wrapped around a person's neck.

His entire body was covered in the marks of being burned by a soldering iron, and he was badly mutilated!

His eyes had been gouged out, his nose had been cut off, and even his tongue had been cut off.

Even the space between his legs was badly mutilated!

It could be seen just how much inhuman torture he had suffered.

If one did not look closely, they would not see him as a human being, but as a wild dog that had been tortured!

"Wolf official Hou?" City Lord Wen Yuan took a deep breath. It took him a while to confirm his identity.

This person who had been abused as a slave was actually the former number one hero of Wen Yuan City, Wolf official Hou?

Wen Cheng covered his mouth and was surprised by Wolf official Hou's miserable state.

He might as well die.

Then, she looked at Xiao Yan, who was staring at her with hatred.

This made Wen Cheng Panic. Was this all done by Xiao Yan?

Yes, it was indeed done by Xiao Yan.

The wolf official ruined her innocence, ruined her beautiful future of marrying a noble of a nine-star civilization, and it was hard to get rid of the hatred in her heart without the bone-crushing banquet.

But the person she hated the most was Wen Cheng!

Why didn't Wen Cheng just let the wolf official have his way and instead caused her to lose everything?

It's not fair!

It's not fair!

Chapter 2890 A Great Disaster Was Approaching

Wen Cheng's heart trembled. He felt that he had been targeted by a poisonous snake.

She really could not understand how she had offended her.

The city lord of Wen Yuan's face sank. He forced himself to remain calm and said, "And then?"

What right did the first city lord have to make decisions for Wolf official Marquis?

The first city lord chuckled and said, "As you can see, Wolf official Marquis is my slave. It's up to me to decide whether he lives or dies! I should naturally make the decisions for his affairs!"

"Shouldn't you ask me first if you want to break off the engagement?"

He had only heard of asking his parents for permission for the marriage, but he had never heard of asking his master for permission.

He was completely pestering him.

"Even so, so what? My Wenyuan City Lord can break off the engagement if he wants to. What right do you have to reject it?" The Wenyuan City Lord's words became cold and stern.

Today, it was difficult for him to let the matter rest. Rather than being bullied by cowards, it was better to deal with it forcefully.

The first city Lord's gaze became unfathomable. "City Lord of Wen Yuan City, can I take your words as provoking a dispute between the two cities?"

He had finally seen through everything!

Forcing the marriage was just a method. Openly provoking 20% of the dispute was his goal.

The city lord of Wen Yuan City's gaze became stern. He put down his teacup and said with an iron-willed tone, "If you want to bully others, then you have to be prepared to destroy both jade and stone!"

The first city Lord's entire body surged with a sharp aura. "I'm afraid that you don't have the qualifications to fight to the death!"

He snapped his fingers, and the sky above the city Lord Wen Yuan's residence immediately erupted with whistling sounds.

It was as if there were countless sounds of air being torn apart.

Waves of powerful auras enveloped the sky above Wen Yuan city.

City Lord Wen Yuan's gaze changed, and he immediately came outside the guest hall. When he saw it, his face was filled with shock.

He saw seven familiar faces standing in the air above the city lord's residence.

Those were all the city lords of the ruined civilization!

The ruined civilization had a total of fifteen cities. Including the first city lord, there were seven people who came here.

"Everyone, as you can see, the city lord of Wen Yuan has betrayed his word and is determined to provoke a fight between the major cities of the ruined civilization. He has violated the rules set by the ruined civilization in the beginning!"

"We should unite as one and wipe out this scum, so that justice can be served!"

What a bunch of nonsense! It was clearly the first city lord who had maliciously bullied them, but in the end, it was Wen Yuan City who had broken the rules of the ruined civilization!

He was completely inverting right and wrong!

However, what made the city lord of Wen Yuan furious was that the seven city lords actually agreed with him!

"The first city Lord is right. Wen Yuan city has betrayed us and seriously destroyed the unity of the broken civilization. We definitely can't let such a person live!"

"I agree to join hands to start a war of attrition against Wen Yuan City!"

"I agree!"

"Agree!"

"..."

The city lords all agreed to start a war of attrition against Wen Yuan city!

The city lord was so angry that his black hair flew in the air. His trembling fingers pointed at them.

"You... you guys are so muddle-headed! !"

Everyone could see that the seven of them must have been bribed by the first city lord, so they stood on his side.

But didn't they see the first city Lord's wild ambition?

As the saying went, if the lips were dead, the teeth would be cold. The destruction of Wen Yuan city was the reflection of their future.

In fact, they understood, but people died for money, and birds died for food.

In order to take away the benefits of Wen Yuan city, they chose to ignore the future.

The first city lord's sleeves trembled as he said seriously, "City Lord Wen Yuan, how is it? Do you want to continue the dispute between the two cities?"

The city Lord clenched his fists tightly, unable to make up his mind.

Once it started, the eight great cities would besiege Wen Yuan City, and they would definitely lose.

However, if they were to compromise and compromise, their daughter would have to marry this kind of trash who had been abused like a wild dog. Not to mention that Wen Yuan city would be taken away by peace, it would still be difficult for them to escape death.

The first city Lord silently looked at the city lord of Wen Yuan City. What he hoped for the most was for peace to take away Wen Yuan city.

War would more or less deplete the resources of Wen Yuan City. There would also be casualties and losses on his side.

However, he had already taken down the city lord of Wen Yuan City. He would choose to temporarily swallow his anger.

If that was the case, there was still a way out, right?

As expected!

City Lord Wen Yuan struggled for a long time before he finally said like a deflated ball, "The marriage contract is valid..."

"I don't agree!" A deep male voice echoed in the air.

As soon as that voice appeared, smiling face immediately clenched his fists and his sharp nails pierced into his flesh.

It was him!

Smiling Face would never forget the voice of that black-robed man even in his dreams!

The first city Lord's expression was indifferent. "Don't participate in the conversations between our city lords. There are no rules!"

Shua --

A black-robed figure seemed to have teleported to Wen Cheng's side and naturally pulled him into his embrace. He said indifferently, "Wen Cheng is my woman. The word 'irrelevant' is not suitable to describe me."

HM?

Everyone's gazes were sharp, and the first city Lord's pupils constricted.

That movement technique was a little too strong.

He was actually unable to catch Su Yu's trajectory!

However, relying on their numbers, the first city Lord did not panic. Instead, he found the authority to threaten from Su Yu's words.

He sternly reprimanded, "City Lord Wen Yuan! You have failed to teach your daughter well, and you have disgraced your family's reputation! Your Daughter has an engagement with Lord Lang Guan, and she's actually making peace with another man!"

He threw down a sword and said coldly, "Immediately execute that man on the spot in front of the city lords of the world. If not, Don't blame us for wiping out Wen Yuan City!"

As if cooperating with his words, the seven city lords released their tyrannical cultivation and were ready to start a war at any time.

City Lord Wen Yuan was in a dilemma. Was this black-robed man here to help him or to help the first city lord.

How could he push himself into a passive position?

What should he do now?

Should he kill him or not?

At this moment, Su Yu said, "Then what about your first city Lord's daughter, Xiao Yan, who knew that Wen Cheng was engaged but still slept with his fiancée, Lang guanhou, in one night?"

"If you want justice, it should be justice for your shameless daughter, right?"

What?

Xiao Yan actually slept with Lang guanhou..

The Seven City lords were secretly surprised. How could Xiao Yan say that?

After being exposed in public, Xiao Yan's face turned red, and she screamed crazily, "It's all because of you! ! It's all because of you!"

Su Yu looked relaxed, "Miss Xiao Yan has publicly announced many times that she likes Lang guanhou, saying that he is the great hero in your heart. I just pushed the boat along with the current to help you."

"What? You Don't feel grateful to me and instead resent me?"

Ah!

Xiaoyan went crazy and screamed, "Father, kill him! Kill him! !"

The first city Lord's face turned cold and his killing intent was extremely deep. He berated, "City Lord of Wen Yuan City, why aren't you making a move? Do you want to be destroyed?"

The Seven City Lords looked over coldly and their killing intent rose. They really hoped that there would be a conflict so that they could split the resources of Wen Yuan City.

Su Yu smiled faintly and flicked his finger lightly.

In the sky, the seven powerful city lords exploded like blood bags and turned into blood mist.
