

Nine-Dragon 2901

Chapter 2901 Was In Danger

After the ninth domain fused with the other domains, it gave birth to its own intelligence and injured the ninth ruler to escape.

After so many years, the ninth ruler's memories were still fresh.

Su Yu stared at the ninth ruler with a hint of wariness in his eyes.

According to what the ninth ruler had said, the ninth domain was now as powerful as the ancient God Nine Dragons in the abyss.

It would be best if he didn't wake up if there was no need to.

He gazed deeply at the ninth domain and pressed down on his hand, signaling for Wen Cheng and the ninth ruler to step back and not disturb them.

After he was fully prepared, he would subdue the ninth domain and forge the nine dragons divine cauldron!

During this period of time, he should make sufficient preparations to forge the nine dragons divine cauldron.

He had already prepared the materials, and he was only lacking the superb skills needed to forge a brand new nine dragons divine cauldron.

The original nine dragons cauldron was still a saint weapon even if it was incomplete.

The new nine dragons cauldron might be of a higher level than a saint weapon, but it also required extraordinary forging memories.

He might not be able to successfully refine it by himself!

The group quietly retreated, but a slight sound came from another direction.

Su Yu's gaze changed slightly. He signaled for the two to stop and lie in wait, quietly observing.

However, they saw two sneaky figures in the opposite direction.

They didn't know what method they had used to cross through the layers of spacetime swamps and arrive in front of the ninth domain.

"We've finally found it. Quickly go back and report to the Third Deputy Palace Master," the two of them transmitted.

After saying this, they silently retreated.

However, just as they were about to leave, a creaking sound came from the quiet swamp.

The sound was extremely clear and crisp, like the sound of a tree branch breaking.

The breathing of both sides froze as they stared at the withered black tree trunk.

A tree branch gently fell from the tree trunk and sank into the mud.

Everyone's hearts were in their throats as they stared at the tree branch.

This was because the tree branch had fallen from the side of the ninth domain!

That meant... the ninth domain had moved!

The ninth ruler was still fearful of the ninth domain and was about to run away.

However, Su Yu was one step ahead of him. He shook his head slightly, signaling the ninth ruler not to act rashly.

He could hold his breath, but the two unknown people might not be able to.

They were frightened and immediately retreated.

This movement not only exposed their own aura, but also left traces of energy fluctuations.

Kacha --

An intense sound came from the pitch-black ancient tree!

The two turned their heads and were scared out of their wits.

They saw that the ninth domain was actually moving.

Its enormous body pressed down on the tree branch, causing it to break continuously and give off crisp cracking sounds!

It was awake!

The two of them did not dare to hesitate at all. They immediately circulated all the power in their bodies and activated their life-saving dao artifacts, fleeing frantically.

However, halfway through their escape, the movements behind them became more and more intense.

The ninth domain raised its enormous head and opened its pair of nine-colored eyes, staring in the direction in which the two of them were fleeing.

Its enormous body quickly twisted and left the ancient tree. Then, it transformed into nine-colored lightning and blocked in front of the two of them.

There was a cold smile in its eyes. "So it's someone from the Heavenly Dao Palace. Why? That old woman, snow, still wants to subdue me?"

So, the two of them were people from the Heavenly Dao Palace.

Facing the huge ninth domain, the two of them were terrified!

Many years ago, an extremely terrifying existence suddenly appeared in the nine-star civilization. Once it reached the nine-star civilization, it went on a killing spree, creating an endless slaughter.

It caused many factions to join forces to hunt it down!

From the aristocratic families and large clans, the middle to the saint clans, and up to the primal Chaos Heaven clan, they all surrounded and stopped it.

However, the ninth domain was extremely powerful. It killed and fled at the same time, wiping out countless factions.

In the end, not only was it not captured, it was killed to the point of being wiped out.

Many factions were finally afraid of being killed and gave up on hunting it down.

The Heaven Dao Palace was one of the factions. At that time, the palace master personally led the experts from the Heaven Dao Palace to participate in the encirclement and extermination.

However, the only one who survived in the end was the palace master himself!

The others all lost their lives, and the palace master himself was also severely injured. It was said that he had yet to fully recover.

"Hehe, the lesson we taught her is not enough!"The ninth domain said sinisterly.

The two Heavenly Dao Hall members swallowed hard, and one of them said in fear, "We have no ill intentions!"

The ninth domain's huge eyes narrowed, and he said with a smile, "I don't have any ill intentions either. I just wanted to replenish some energy, so I killed a few more people."

"But why do you want to exterminate me?"The ninth domain opened its bloody mouth.

The two Heavenly Dao Palace members no longer hesitated and immediately used their own life-saving techniques to escape.

They used the Heavenly Dao Palace's unique spatial teleportation magic treasure, which could teleport them to an extremely distant place in an instant.

The length of the region was even more exaggerated than the yuan-grade spatial domain.

However, they discovered in despair that after they used it, they actually didn't move at all.

"Using the spatial divine art in front of me? Hehe, that old woman, snow, clearly sent you here to die!"The ninth domain no longer hesitated and opened its mouth to swallow the two of them.

A miserable scream came from its mouth, and a trace of blood spurted out from the crack.

When Su Yu and the others saw this, their hearts could not help but tremble.

The strength of the two members of the Heavenly Dao Palace was close to the late-stage Heavenly Dao master, right?

But they were swallowed up on the spot without any chance to resist.

If it were them, they might not have ended up better.

The ninth ruler's eyelids twitched as he whispered, "This guy is several times stronger than when he was just born..."

"Shh!"

Hearing his voice, Su Yu immediately felt that something was wrong. He immediately raised his index finger and signaled for him to keep quiet.

The ninth domain had fused with many powerful domains and could hear everything in the world. No movement could escape his ears.

As expected!

The gigantic head of the ninth domain suddenly turned towards Su Yu and grinned, "I was wondering why there was such a disgusting smell nearby. It's an old acquaintance!"

Bang --

Its gigantic nine-colored tail suddenly rose and smashed towards Su Yu and the rest's hiding place with lightning speed!

Su Yu saw that the situation was not good and immediately pulled the two of them to escape.

Immediately after, a violent sound came from behind them, and the swamp was sent flying hundreds of feet high!

However, before Su Yu and the others could completely avoid it, the nine-colored tail immediately swept over.

If this tail hit, Wen Cheng and the ninth ruler would be turned into ashes on the spot.

Su Yu gritted his teeth and pushed the two of them away. He used the body of the mirror flower emperor to withstand this attack!

He turned around and pushed out with both hands!

Bang

A loud sound shook the sky!

Su Yu was sent flying. His mouth was filled with the son of Heaven's blood. His body seemed to have fallen apart and almost collapsed.

"Eh?" The ninth domain said in surprise, "What exactly are you? You have the eight domains and the body of the son of Heaven?"

After a short contact, the ninth domain had already sensed something.

It slowly retracted its tail, and a dangerous arc appeared in its eyes. "However, regardless of whether it is the eight realms or the emperor, they are both targets that I want to kill..."

Chapter 2902 The Great War Domain

"After all, after eating you, I have a slight chance of evolving into a higher-level existence." The danger in the ninth domain's eyes became more and more intense.

Su Yu's heart shook.

The ninth domain should now be a combination of eight domains. It could be said that it had reached the limit of the world's domain.

Could it be that there was an even more peculiar domain above it.

As if seeing Su Yu's confusion, the ninth domain chuckled. "Seeing that you and I have cultivated eight domains together, I can let you be a clear ghost!"

"Do you know the reason why the son of Heaven of the Sacred Mountain is so powerful?"

Su Yu's eyes flashed. To be honest, he had fought with the two clones of the carefree son of heaven.

However, he had never sensed the core of the son of Heaven's strength.

The two clones were using their absolute cultivation to kill Su Yu. He couldn't tell how powerful they were.

"It's the power of absolute beginning!"The ninth domain's eyes were filled with yearning. "I felt that power in the remnants left behind by the absolute beginning Dao Master. The absolute beginning Dao master called it the absolute beginning power."

"The absolute beginning power is the source of all power!"

"All the races in the world cultivate different power systems. The domain power, the monster race power, the wind power, and the fire power... In the end, they all originate from the absolute beginning power!"

"All the methods in the world have the same goal!"The ninth domain said, "If you cultivate the domain power to its limit, it's possible to reproduce the absolute beginning power!"

Absolute beginning power?

Su Yu mumbled, but he didn't doubt it too much.

As a mortal body, he had once mastered an extraordinary gas -- the absolute beginning Qi!

It could transform everything in the world!

Everything in the absolute beginning realm was derived from the absolute beginning qi.

Therefore, Su Yu believed in the existence of the absolute beginning force.

"There are twelve people in the world who have mastered the absolute beginning force!"The ninth domain's eyes were filled with longing. "The first one is the absolute beginning Dao Master! The second one is Ren Zu! The remaining ten are the son of Heaven of the Sacred Mountain!"

"I will be the thirteenth!"

It gazed at Su Yu and chuckled. "Why don't you fulfill me and become a part of me? The eight great Yuan domains combined into one can be half of me!"

The reason why Su Yu's eight great Yuan domains couldn't be compared to the ninth domain was because his eight domains had been taken away by ancient god Nine Dragons, and only half remained.

Su Yu was unperturbed. "Let's see if you have the ability First!"

He raised his hand and grabbed the myriad tribulation scythe in his palm.

At this moment, his body was the son of heaven, and the power of chaos he possessed was boundless. It was countless times more powerful than simply relying on the blood of his heart!

One could imagine how powerful the myriad tribulation scythe could be.

At the very least, it could easily recreate the scene of ancient god nine dragons'tail being chopped off!

Looking at the myriad tribulation scythe, the ninth domain was surprised. Then, a trace of sorrow filled its eyes. "We supreme beings are all like beasts trapped in a cage, having the fate of being slaughtered."

"The absolute beginning Dao master's pets are all so pathetic!" It recognized that the myriad tribulation scythe was refined by ancestor Taotie.

While it was sorrowful, the will in its eyes became even more resolute. "I must break through the shackles and become an absolute beginning expert. Only then will I not fear the experts of this world and suppress everything!"

Roar --

With a loud roar, the ninth domain showed no fear. Instead, its ferocity exploded!

Su Yu didn't want to be left behind. He clenched his palm and the chaotic energy of the mirror flower son of heaven poured into the Kalpa realm scythe like a spring.

After receiving the powerful chaotic energy, the handle of the Kalpa realm scythe turned into a desolate white backbone. The nine heads on it all burned with golden light!

Finally, a golden head that was the host soul revealed its true form!

Its eyes slowly opened. It was cold and desolate, like a black hole that could destroy everything in the world.

Whoosh --

Ten black lights were released from the ten golden heads and tangled together, forming a terrifying light beam that could destroy the world.

"Domain Shield!" The ninth domain was abnormally fierce. Not only did it not retreat, it even went against the flow.

Nine-colored crystals appeared all over its body and connected to each other, forming an incomparably large shield.

The pillar of light that had cut off ancient god nine dragons'tail only left cracks on the crystal shield!

Su Yu was shocked.

The ninth ruler had said that the ninth domain's strength was almost on par with ancient god Nine Dragons, and now it seemed that it was clearly stronger than him!

Didn't this mean that he was about to catch up to the Sacred Mountain's son of Heaven?

No wonder he boasted that he was going to evolve into a higher-level existence. It seemed that he was only one step away from that realm!

The ninth domain broke through the beam of light and charged forward.

It opened its enormous bloody mouth, preparing to swallow Su Yu.

In the face of great danger, Su Yu was as calm as ever as he took out a stone mirror.

That stone mirror was the magic treasure of the Mirror Flower Emperor.

However, it was not a real magic treasure, but an illusion created with a thought. Its true power was less than one-ten-thousandth of the real one.

However, if it was used by the mirror flower emperor himself, its power might be another story.

After infusing the power of chaos into it, several petals immediately shot out from it.

The petals looked weak and light, but it made a hint of solemnity appear in the ninth territory's eyes.

The huge mouth that was about to bite Su Yu suddenly closed. Then, it turned its head around and used its body to block the attack.

Bang

With a loud bang, the petals landed on the crystal shield of the ninth territory.

The defense that was already in pieces was finally shattered!

Su Yu was already prepared. He lifted his hand and threw a myriad disaster scythe.

The ninth true world let out a cold Harrumph and opened its mouth to say, "True world domain!"

It spat out a huge square formed from the fusion of nine great Yuan realm domains and wrapped the light pillar of the myriad disaster scythe within it.

Once the light pillar sank into it, it disappeared without a sound like a clay ox entering the sea.

Su Yu's pupils shrank slightly. To be precise, it was a half-true world that was about to reach the level of a true world.

If it was just a little bit more, it would be a true world.

Crack..

The fake true world shattered, and a pillar of light shot out from within. However, a large portion of the energy was weakened, and only a small portion of it landed on the ninth domain.

It was neither light nor itchy, and it could not cause any damage.

Su Yu's heart sank. It was truly difficult to deal with!

At that moment, he still lacked a lot of power if he wanted to tame the ninth domain.

With this thought, the ninth domain also felt that Su Yu was a tough opponent.

With his current strength, it could be said that other than a few peak experts of the primal chaos heavenly race and the son of Heaven of the Sacred Mountain, he had no opponents at all.

But even so, he couldn't do anything to Su Yu, a puny little human.

His myriad calamity scythe and the body of the mirror flower son of Heaven were extremely troublesome.

The murderous aura of the ninth domain was even more intense. The stronger Su Yu was, the more he had the desire to devour.

That way, his chances of becoming an absolute beginning body would be higher.

However, the body of the ninth domain suddenly trembled. Then, it quietly retreated while snorting coldly, "Consider yourself lucky! The next time we meet, you will die."

Looking at the retreating ninth domain, the ninth ruler said in disbelief, "You... actually defeated the ninth domain?"

Su Yu's eyes flashed, and he shook his head. "I didn't fight it off, but it has something else going on! Let's Go, chase after it!"

Since they were fighting, they naturally wanted to take its life while it was weak.

Su Yu keenly sensed that there seemed to be some problems with the ninth domain's body.

Chapter 2903 The Ancestor Of All Arts

Otherwise, the ninth domain would not have given up on him so easily.

As expected!

Even the ninth domain's speed was greatly reduced. It stumbled and crawled in the mud, its eyes filled with pain.

The space-time swamp that relied on it was also fluctuating. It was a sign that it was about to break.

It meant that the ninth domain itself had an extremely serious illness.

"What's going on?"The ninth domain growled.

It sensed that its old injuries had suddenly worsened!

Back then, when it was hunted down by the nine star civilization, it was not unscathed. Instead, it was seriously injured.

Otherwise, how could it be willing to curl up here and not continue to massacre the world?

After many years of recuperation, its injuries had long stabilized and were on the verge of healing.

However, after the great battle with Su Yu, those injuries had all erupted for some unknown reason, causing his body to be in extreme pain.

"Oh? It's acting up much faster than I imagined!"A delicate laugh reverberated in the sky above the spacetime swamp.

When the ninth domain heard this, its expression changed. It suddenly looked towards the sky and berated angrily, "Snow White! You Old Woman, how Dare You Scheme Against Me!"

It finally understood what the problem was!

It was the two Heavenly Dao Palace members that it had devoured earlier.

They had been tricked by Snow White to come here to die. There must have been a secret medicine that Snow White had arranged on their bodies. After it had swallowed the secret medicine that the two of them had brought with them.

The secret medicine took effect and caused heavy old injuries.

Originally, Snow White had been waiting for the ninth domain's injuries to take effect on their own. It would have taken at least a few days.

However, due to the battle with Su Yu, the effects of the medicine increased, causing the old injuries to erupt early.

"Hehe, I'm so cute. It's really hard to be happy when you call me an old woman."

Huala --

The sky above the swamp, which had been covered by chaotic space-time all year round, suddenly seemed to have cleared away the dark clouds and revealed the bright moon. All the chaos had completely dissipated, revealing the clear sky above!

A woman in a snow-white robe with snow-white hair and a petite figure that looked like a fourteen-year-old girl led a group of experts dressed in different clothes and gathered above her head like dark clouds.

The pupils of the ninth domain shrunk. "Hall Master of the Heavenly Dao Palace and ancient saint of a big clan!"

The forces of a nine-star civilization were divided into three levels.

They were the big clans, the Saint Clan, and the primal Chaos Heavenly clan.

The Primal Chaos Heavenly clan was founded by the descendants of the sacred mountain. The strongest ones were known as the "Ten thousand saints", meaning the strongest existences below the emperor.

Next was the Saint Clan. Every saint clan had an existence who had become a saint. The strongest among them was known as the great saint!

Finally, there were the aristocratic families. The strongest among the great clans were known as the ancient saints!

The cultivation of an ancient sage was equivalent to the first level of the Heavenly Dao master advanced stage.

A great sage was at the second level.

Ten Thousand Sages was at the third level of the Heavenly Dao master advanced stage.

The three levels seemed to be at the Heavenly Dao master advanced stage, but their strength was like the difference between the heavens and the earth.

The difference of a level was like the difference between heaven and earth!

These people were all ancient sages of the big families.

The strongest of them all was the Hall Master of the Heavenly Dao Hall. His strength was close to that of a great sage!

His old injuries were caused by the great sages who had chased after him that day!

If it were in the past, he would not have taken these ancient sages seriously at all. On the contrary, he would have treated them as snacks.

However, he did not expect that Snow White would find out from somewhere that he had old injuries on his body. On top of that, an expert had even guided him to create a secret medicine that could cure his old injuries.

Furthermore, she had viciously tricked two of her own people into sending themselves to their deaths, allowing the secret medicine to successfully enter its body.

The most unfortunate thing was that the human sacred physique happened to be here. He had a huge battle with it, forcing it to activate its secret medicine.

She did not know how much of her current strength she could still display.

"Little dragon snake, be obedient. Can't you just follow us back obediently?" Snow White blinked her eyes. "You would rather be obtained by the sacred race and the Chaos Heavens Race than give us great races a chance?"

The ninth domain symbolized the limits of the domain. How many people yearned for it?

If one could refine it for their own use, it would be equivalent to having the right to attempt to break through to the absolute beginning body!

The great clans had been below the sacred ancestor and the Chaos Heavens Race for a long time. They rarely had the chance to turn the tables.

However, the ninth domain was completely different.

As long as one refined it, one would at least be able to break through to the great sage rank.

"Scram!" The ninth domain endured the pain and roared, "Do you believe that I won't eat all of You?!"

"Sure." Snow white smiled, "I'll give it to you to eat!"

Her entire body trembled and a mysterious medicinal powder fell from the sky.

The ninth domain immediately tried its best to avoid it. The medicinal powder was most likely the thing that caused her old injuries.

However, Snow White laughed out loud, "What are you afraid of? That's just pepper powder!"

Being teased, the ninth domain was furious. "B * Stard! Do you really think that I can't do anything to You?"

It was like a tiger that had fallen into the plains and was being bullied by a dog!

It opened its huge mouth and spat out a nine-colored flame. It soared into the sky and covered half of the sky.

"Domain Extreme Flame!" The ninth domain roared.

Bai Xue's expression changed. She immediately scattered with the others, causing the domain extreme flame to hit nothing.

She stared at the dissipating flames with a hint of fear in her eyes.

Back then, she had seen with her own eyes that the domain flames of the ninth domain had burned three great saints and a hundred ancient sages to death!

Even her body had a hideous scar that had yet to fully heal. Occasionally, she would feel a searing pain.

An era had passed, but her injuries were still there!

Fortunately, the might of the ninth domain was far from what it had been back then, and the might of the domain flames was far from what it had been back then.

Otherwise, they would have all died from that attack just now.

White Snow narrowed her eyes. The ancient sages around her had also sensed the weakness of the ninth domain.

Now was their only chance to kill him.

The ninth domain was exceptionally cunning. Without waiting for them to make a move, it immediately activated its domain shield.

White snow and the others suddenly made their move. All kinds of pinnacle precious techniques and countless artifacts came crashing down like a storm.

Ding Ding Ding --

The domain shield was also much weaker than before. Immediately, a large number of cracks appeared.

After enduring for a moment, it shattered with a bang!

Just as the attack was about to arrive, he once again used his pseudo-true world.

However, the pseudo-true world was far inferior to the time when he was fighting with Su Yu.

After enduring for a moment, it was shattered!

Countless attacks landed on the ninth domain's body, immediately causing its nine-colored body to be torn apart. It was in great pain.

Bai Xue's eyes revealed a trace of suppressed excitement as she said, "Continue!"

The ninth domain was a great fortune. If they could obtain it, it would be an opportunity for them to ascend to the heavens!

The ninth domain was extremely furious as it roared in rage, "I'm going to kill all of you! !"

Roar --

It opened its mouth and spat out a remnant mark that was wrapped in the nine-colored light.

That remnant mark was extremely simple, as if someone had casually drawn a finger.

However, that finger contained the profound mysteries of the simplest Great Dao.

Su Yu, who was watching in the dark, felt his eyebrows twitch. His heart couldn't help but palpitate!

Not only that, the sinkhole divine monument in his arms kept vibrating!

Su Yu's pupils constricted. He said in a serious voice, "The remnant mark of the absolute beginning Dao master -- the ancestor of all techniques!"

Chapter 2904 Might Of The Remnant Mark

As soon as the remnant mark appeared, dark clouds began to swirl!

The chaotic space-time domain around them shattered like bubbles.

Not only that, the various attacks that were aimed at the ninth domain actually dissipated on their own.

It was as if the remnant mark was the ancestor of many secret arts.

All secret arts had to submit to it.

Ancient Sage White Snow and the others saw that they had a chance of suppressing the ninth domain, but to their surprise, the other party suddenly produced a remnant mark that they had never seen before.

It destroyed all of their attacks!

However, this was not the most frightening part. What was more frightening was that they realized that all of their secret arts had lost their effectiveness.

Even their basic flying skills had lost their effectiveness, just like an ordinary person!

Ahhhh

The group of ancient sages lost all of their divine arts, and they fell from the sky to the ground.

It was fortunate that their cultivation was extremely high, so their bodies were strong and did not cause any harm to them.

However, the loss of any divine arts left them in a state of Panic!

Bai Xue's eyes darted around. Sensing that something was amiss, she turned around and fled.

She no longer paid any attention to the ninth domain, which seemed to be at the end of its tether!

The moment she left, the hearts of the ancient sages scattered. One after another, they turned around and fled.

"Flee?"The ninth domain was filled with a fearsome aura as it controlled the remnants.

From the remnants, many profound divine arts were released. Every single one of them contained a vast amount of spiritual energy, covering thousands of races!

These were the top secret arts of the various races that had evolved from the remnants!

At this moment, many ancient sages had lost the ability to execute their secret arts, and they had been killed by the top secret arts of the various races. The consequences were obvious!

In an instant, screams of agony rose and fell.

One after another, ancient sages fell into pools of blood and died on the spot!

Without even turning around to look, snow-white knew what was happening behind her. Fear could be seen on her face.

Never in her wildest dreams did she expect that the ninth domain hid such a powerful remnant mark!

"All of you, die... cough cough... cough cough cough..."the ninth domain roared furiously. However, it suddenly coughed violently and coughed out large amounts of nine-colored blood from its mouth.

The remnant mark under its control trembled uncontrollably and fell to the ground.

Snow White and the others, who were about to escape, stopped in their tracks. They could see that when the ninth domain used the remnant mark, it seemed to have triggered a serious backlash, causing the old injuries to completely explode!

"Ah!"The ninth domain cried out in agony. One could see the top-tier secret arts from the remnants reflected in its eyes.

This was the flaw of the ancestor of myriad arts.

The number of secret arts one could unleash was the same as the number of secret arts one had to endure.

In other words, it had to suffer as much as those ancient sages suffered.

Otherwise, if the remnants of the ninth domain had no flaws at all, it would have unleashed them long ago during the battle with Su Yu. How could it have waited until the moment of its death?

Ah..

The ninth domain rolled on the ground repeatedly. In the blink of an eye, it was on the verge of death. It did not even have the strength to get up. How could it have the strength to fight again?

Snow White and the others were overjoyed. "The heavens are really helping me!"

She took out a suppression magic treasure and tossed it in the air, preparing to suppress the ninth domain.

The ninth domain had completely lost its ability to resist. It could only watch as it was suppressed.

Its eyes were filled with sorrow and unwillingness.

In the end, it still failed in its pursuit of supremacy. It wanted to become the wedding dress for all living beings.

It really couldn't believe it!

Right at this moment, a pillar of destructive light swept over without any warning, shattering Snow White's suppression magic treasure into dust!

At the same time, a spatial domain appeared and swept the ninth domain far away.

"The ninth domain?"Bai Xue and the others were taken aback. "It has a companion! Stop it, I'll go look for the ninth domain!"

Several ancient sages furiously charged toward the source of the pillar of light, while Bai Xue chased after the ninth domain.

At this moment, the ninth domain was holding a scar in its mouth as it looked toward the source of the pillar of light with a complicated expression.

How could it be unfamiliar with that pillar of light?

It was Su Yu's myriad calamity scythe!

"I never thought that the one who saved me would be my enemy."The ninth domain laughed at itself before activating the spatial domain it controlled.

That spatial domain was twice as strong as Su Yu's, and the teleportation distance was far beyond imagination.

Within a few breaths, the ninth domain was far away from Snow White's detection range and quickly disappeared.

Snow White was flustered and exasperated. "Ah! ! Damn it!"

The ninth domain was right in front of her eyes. Such a rare opportunity had been destroyed by a mysterious person!

How could she find another opportunity like this in the future!

"I'm so angry!"Snow White turned around angrily and returned to the scene.

She saw a group of ancient sages surrounding and attacking a mysterious black-robed man. The black-robed man relied on a great calamity scythe and was invincible.

Not only were they not suppressed, but they were also suppressed!

The other party clearly did not have much killing intent. Otherwise, their corpses would have been strewn on the spot.

Seeing that Bai Xue had returned, Su Yu put away the myriad tribulation scythe and immediately fled.

He wanted to borrow the yin-yang gate of the Heavenly Dao Hall so that he could not become a mortal enemy of the Heavenly Dao Hall.

The reason why he wanted to let go of the ninth domain was because he did not want the ninth domain to fall into the hands of the Heavenly Dao Hall. The ninth domain could only be obtained by Su Yu!

"Chase!"Bai Xue said angrily. How could she allow Su Yu to escape?

Her strength was clearly higher than the other ancient sages.

Su Yu was able to shake off the other ancient sages, but she could not shake off Bai Xue. Her movement technique was comparable to the body of the mirror flower emperor.

Under such circumstances, Su Yu could only roll up her sleeves and keep Wen Cheng and the ninth ruler into the world of her cave abode so that they would not be remembered.

"Sir, please let go of the brutal and rampant ninth domain and help the evil. Our Heavenly Dao Palace will not rest until you die!"Bai Xue said angrily as she chased after them.

Su Yu did not even turn his head and said in a male voice, "There's no need to be so dignified. You lied to two members of the Heavenly Dao Palace and sacrificed yourself. You're not a righteous person either!"

Bai Xue's eyes flashed. She raised her hand and took out a dao artifact in the shape of a large seal. She threw it far away and said, "Leave it for me!"

Su Yu did not even look at it. He immediately used his spatial Yuan level domain and disappeared from where he was.

In the blink of an eye, he disappeared in front of Bai Xue.

"Another spatial Yuan level domain? What is his relationship with the ninth domain?" Bai Xue was even more certain that the two were in cahoots. She chased after him relentlessly.

Su Yu frowned slightly.

If he used his full strength, he could totally defeat or even kill Bai Xue.

"How troublesome." Su Yu's eyes flashed as he chased after the ninth domain.

His original intention was to throw the ninth domain to the side and recover it himself.

However, being bitten by this Bai Xue, it seriously affected his plan.

When he rushed over, there was no doubt that the ninth domain had already fled without a trace!

"Damn girl!" Su Yu turned around and glared at her. He simply stopped running and turned around to rush over, "You're in the way!"

"HMPH!" Bai Xue sneered coldly. "Let me see who you really are!"

She displayed her powerful cultivation at the peak of the ancient Sage realm and took out the huge seal once more before striking it across the air toward Su Yu.

Immediately, the words 'heavenly dao' appeared on Su Yu's chest!

Following which, those two words transformed into pitch-black chains that wrapped tightly around Su Yu's entire body.

Seeing this, Snow White clapped her hands and said proudly, "HMPH, you want to go against me?"

She walked forward and was about to press Su Yu to the ground.

However, a sudden change occurred.

Chapter 2905 Gemstone Space

The black chains on Su Yu's body broke inch by inch.

How could an ordinary dao artifact be able to seal the body of a mirror flower emperor?

"Ah!" Snow White cried out on the spot. Her petite body jumped back, trying to pull away.

But by the time she reacted, it was already too late.

Su Yu grabbed her wrist and pressed it to the ground.

"Let go of me!" Bai Xue released all her strength and tried to break free. However, she was shocked to find that the other party's hand was like a stone. It tightly grabbed her neck and pressed her down on the ground, unable to resist.

At this moment, Bai Xue finally realized that the other party was hiding his powerful strength.

She thought of something and said, "I am the Temple Master of the Heavenly Dao Temple. Killing me or hurting me will not benefit you at all."

Su Yu said indifferently, "If I wanted to kill you, you and your companions would have died a long time ago."

Bai Xue's heart calmed down. She looked around and said, "If you let me go, I will not pursue your responsibility anymore. The enmity between us will be written off. How about it?"

"How about it!" Su Yu said indifferently, "You are a hindrance. You let go of the ninth domain and you still want to write it off?"

Hearing this, Bai Xue was furious.

Isn't it you who's a hindrance?

She was about to succeed, but you interfered and caused the ninth domain to escape.

However, she was controlled by someone, so she didn't dare to argue about this. She compromised and asked, "Then what do you want?"

"To make it up to me, of course!" Su Yu touched her body. This woman was the temple master of the Tiandao Palace. She should have something extraordinary on her, right?

If the legendary Yin-yang gate was on her body, that would be the best.

"Don't touch it!" Bai Xue cried out. Su Yu's palm did not avoid touching her body at all!

Su Yu ignored her and soon took out a large spatial storage device.

Looking inside, it was full of all kinds of precious resources, much more than what Su Yu had accumulated in his whole life.

In particular, there were many Special Dao artifacts forged inside, similar to those forged by the nine underworld succubus empress. As long as they were refined, they could be used for their own purposes.

Presumably, these were prepared for the members of the Heavenly Dao Palace.

Apart from that, there were also all sorts of divine arts, currencies, and so on.

To Su Yu, these were no longer important.

He opened his spatial storage device, and apart from the Dao artifacts, all the rest poured out.

Looking at the mountain of things, Snow White was angry and angry, but she was even more curious.

Su Yu poured out almost everything, including the high-level divine arts and secret arts unique to the Heavenly Dao Palace.

After all, many people had begged them, but they couldn't get these secret arts. How could Su Yu just give up?

What was he thinking?

Wasn't he a little silly?

How would she know that Su Yu controlled the sinkhole divine tablet and recorded all the supreme divine techniques of all the races in the world.

Why would he care about this little collection of hers?

However, to her surprise, Snow White did not say anything. She only revealed an angry and humiliated expression.

PA --

Who knew that Su Yu would slap her butt and say, "There's still a hidden spatial storage device. Hand it over!"

Bai Xue felt as if she had been electrocuted. She said angrily, "Didn't you get everything?"

Deep in her eyes, there was a hint of panic.

"These are just spatial storage devices that hold ordinary things. There's nothing valuable inside." Su Yu said indifferently, "You can't possibly tell me that all the valuable things on me are left in the Heavenly Dao Palace, right?"

The stronger one was, the more they liked to carry important items with them.

This was because their own tyrannical strength was the best insurance.

"There isn't!" Snow White gritted her teeth. She thought that Su Yu would be satisfied after obtaining that spatial storage device. In the end, the other party was extremely experienced when it came to robbing. With a single glance, he was able to determine that there was another special spatial storage device.

"OH." Su Yu nodded. He grabbed with his hand and tore her pink clothes.

"Ah! What are you doing!" Snow White screamed and instinctively resisted, but she was pressed to the ground by Su Yu and could not move.

Su Yu did not say a word. He tore off all of her clothes and stripped her naked, revealing her entire body!

Then, as expected, she saw a crystal gem embedded in her body on her chest.

It was a small spatial storage device made from the unique ores of a nine-star civilization.

The space inside was only the size of a bag, and there was a very limited amount of things that could hold it.

The precious thing was that this crystal gem was indestructible, and it required a special spell to open it.

External forces could not forcefully break it open!

"Hooligan, Shameless, Bastard!" Snow White covered her chest with both hands, but protecting the gem would not protect the scenery, and protecting the scenery would not protect the gem.

Her hands moved back and forth, unable to protect the gem at all.

"Behave yourself!" Su Yu opened her hands and unceremoniously grabbed the gem scenery from her chest. He said indifferently, "Who asked you to chase me?"

Snow White wanted to cry but had no tears!

If time could be reset, she would definitely stay far away from Su Yu. She would definitely not even get close to him!

Why would she chase him?

However, Snow White was not particularly worried. The Crystal Gem was indestructible, and it would be useless even if Su Yu obtained it.

Su Yu spread the crystal gem in his palm and looked at it seriously. He mumbled, "It's a little similar to a half-true world."

There was only one best way to deal with a half-true world!

Eight great domains!

Even a half-true world would not be able to escape the support and maintenance of the eight great domains. As long as the eight great domains were destroyed, the half-true world would be destroyed by itself.

"It's good that you know. Don't waste your effort." Snow White snorted. "Let me tell you, I will definitely not reveal any of the incantations. I can guarantee it with my life

"Even if you torture me to the extreme, I will not say a single word

"Rather than wasting time, why don't you return it to me? Tell me your request, and perhaps Heaven Dao Palace will be able to help you."

Su Yu's palm paused and said, "I want your Yin-yang sect. Can you give it to me?"

Yin-yang sect?

Bai Xue blinked and nodded. "No Problem! Absolutely!"

Su Yu sighed. "Don't Blink if you're lying!"

"I didn't Blink!" Bai Xue blinked and said. Then, she opened her eyes with both hands. "I'm not lying!"

Su Yu said, "So, you can't give me the Yin-yang sect, right?"

After saying that, under Bai Xue's stunned gaze, he released the eight domains.

Using his own domain, he triggered the resonance of the eight domains within the GEM.

Kacha --

The eight domains within the GEM quickly collapsed, and the gem naturally shattered. A ball of spatial power surged from within.

Within the bag-sized space, three things were wrapped.

One of them was an ancient wooden seal. The aura of the vicissitudes of time circulated on it, and it was extremely ancient.

On the seal, there were four words: "Heavenly Dao Palace Seal!"

It was the seal that represented the lord of the Heavenly Dao Palace!

"Good stuff, I want it." Su Yu grabbed the Heavenly Dao palace seal and stuffed it into his spatial storage.

Seeing this, Bai Xue's face turned pale and she panicked, "No! Give it back to me!"

Chapter 2906 The Famous Sword Saint Clan

She said in surprise, "You can take anything, but don't take this thing away!"

"Really?" Su Yu took out another item from the space. It was a stone statue with a strong aura of chaos.

On the base of the stone statue, there were countless words.

Su Yu didn't know what this was, but he knew that it must be something good.

"Keep it!"

"Ah! No, don't take this away. I'll die!" Snow White pleaded.

Su Yu's face tensed up. "Didn't you say that you can take anything?"

"Only this can't do!" Snow White said.

Su Yu shook his head and said, "You don't have any reliable words. Just now, you said that you can't take away only the big seal. Now, you're saying that you can't take away only the stone statue!"

"It's obvious that all the things here can be taken away!"

Snow White was so angry that she was trembling. What kind of logic did a robber have to come to such a ridiculous conclusion?

"So, the last thing can be taken away, right?" Su Yu asked.

Snow White shook her head hard, "Absolutely not!"

Su Yu stretched out his hand and took it out. He said earnestly, "Don't always say things that go against your heart. If you want me to take it away, just say it. Isn't it good for you to be honest?"

"Ah! Shameless Hooligan!" Bai Xue was so angry that her hands scratched the ground.

Su Yu said indifferently, "Anyway, I'm not as shameless as you."

He loosened his hand and threw it to the side. Like a piece of discarded trash, he waved his hand and said, "Alright, let's go."

Bai Xue looked at Su Yu's spatial storage device and bit her red lips.

Each of the three items was of utmost importance and could not be lost.

"If you really want to take it, why don't you just kill me!" She said as she picked up the clothes on the ground and covered her body.

Su Yu weighed the last item.

It seemed to be an ordinary dao artifact, but in reality, it was not inferior to the evil sword.

However, what was important was not the Dao artifact itself, but the fact that this dao artifact was actually a letter.

The words on it were the most important!

No matter how rich the resources of the nine-star civilization were, it was impossible for them to use a dao artifact at the level of the sin sword to send a message at any time, right?

"If you can answer one of my questions, I can return this item to you." Su Yu's gaze flashed slightly.

Bai Xue rolled her eyes and asked, "What question?"

She also attached great importance to that Dao artifact.

"What I want to know is, how can I obtain the Yin-yang Gate of your Tiandao Palace?" Su Yu asked.

Unfortunately, the Yin-yang gate did not exist on Bai Xue.

"Don't try to deceive me. That would be meaningless."

Bai Xue thought for a while and said, "There's no other way! The Yin-yang gate is in the hands of the Grand Supreme Hall Master. Outsiders can not touch it at all."

There was still Grand Supreme Hall Master?

As if she could see Su Yu's confusion, Bai Xue said, "Don't tell me you think that the previous Heavenly Dao Hall Master has died?"

Su Yu suddenly understood.

A nine-star civilization was different from an eight-star civilization. There was no such thing as the destruction of the world here.

A living creature could survive for many eras.

After countless accumulations, it was entirely possible for more than two hall masters to appear in the Heavenly Dao Hall.

Based on Bai Xue's tone, it was possible that there was more than one hall master.

"How strong are they?" Su Yu asked.

If there was no other way, they could only attack the Heaven Dao Hall and rob the Yin Yang sect!

"What? Do you think that you can force them to the ground and rob them like me?" Bai Xue said angrily, "They are all peak ancient sages!"

"Furthermore, every single one of them has befriended many great sages. As long as they send a message, a great sage will come immediately!"

"Although your strength is not bad, in front of a great sage, to be honest, it is not enough."

At the peak ancient sage level, Su Yu could also rely on the myriad tribulation scythe to fight.

However, it was not necessarily true for a great sage.

The Heavenly Dao Hall had existed for such a long time, so it was natural for them to have many connections.

He could not help but have a headache. He could not be soft or hard.

Could it be that he would be like this forever?

"It's really difficult to use the yin-yang gate!" Su Yu fell into deep thought.

"AH? It's so easy for you to use it?" Snow White was making a fuss over nothing.

Su Yu rolled his eyes at her. "What else?"

Snow White rolled her eyes and stared at the thing in Su Yu's hand. "Who knew that someone like you, who has the habit of snatching everything, would actually only want to use it and not possess it."

Su Yu heard the hidden meaning in her words and quickly said, "Tell me, what method is there to use the Yin Yang Sect?"

Bai Xue clapped her small hands and said, "Actually, it's very simple. The Heavenly Dao Hall will distribute some missions to the outside world every year. As long as you complete them, you can obtain some rewards."

"You can completely turn the rewards into using the Yin Yang sect. The two do not conflict."

"The prerequisite is that you have your own faction. You have to be at least at the level of a large clan. Otherwise, factions with too low a level don't even have the qualifications to accept missions."

Su Yu's heart suddenly became clear.

His own faction?

It seemed that he still had to reorganize the many factions in the abandoned civilization.

Only then could he quickly expand his own strength and reach the level of a large clan.

"Alright, I'll return this to you." Su Yu fulfilled his promise.

Snow White was delighted and laughed in her heart, "What a fool, this item is more important than the other two items."

However, her expression froze because Su Yu said another sentence, "I have one anyway."

With a wave of his hand, another invitation letter appeared in his palm.

The two were exactly the same.

"You dare to forge this thing?" Bai Xue's jaw dropped, "No, you probably don't know where this invitation letter came from, right?"

"I do. Isn't it just an invitation letter from the Saint Clan?" Su Yu looked at the Dao artifact in his hand and touched it with his palm, and a nine-colored light jumped inside, the words inside were clearly displayed, "Oh? It's an invitation from the Saint clan of artifact refining to witness the birth of the Absolute Heaven Sword together."

Padah --

Bai Xue's hands were wide-eyed and dumbfounded. She was so shocked that she did not even know that the dao artifact in her hand had fallen to the ground.

"You... you can actually activate the words inside?" She asked in a daze.

Su Yu asked in return, "Why, is it very difficult?"

He looked carefully at what he had just realized. "Is this the power of the Holy Physique?"

Within the nine-colored light, there was actually a trace of the power of the holy physique.

"You... How did you do it?" Snow White said in shock, "I got the invitation letter by accident, but neither I nor those Grand Supreme Hall Masters could open the dao weapons and read the contents."

"The only thing we know is that the invitation letter is most likely from the famous sword Saint Clan, whose name shook the nine-star civilization!"

"The famous sword Saint Clan is the third most powerful Saint clan. Their overall strength is close to that of the primal Chaos Heaven clan. Their invitation letter is no small matter."

"But how did you open it?"

Su Yu knew that he could open it because he was also a saint physique.

The power of the saint physique resonated with it before he opened the letter.

Chapter 2907 Primordial Energy

"You're not Hou Yi from one of the saint clans, are you?" Bai Xue asked as she looked at Su Yu once more

"All invitations are only given to the saint clans," Su Yu replied

The most suspicious part was that Su Yu's bizarre divine abilities were simply too powerful!

She had been able to suppress the group of ancient sages by herself, and she had even fallen into their hands!

In a nine-star civilization, such young and powerful experts could only be the hou yis of the Saint tribe!

"Take a guess! Even if you're right... I won't tell you!" Su Yu said thoughtfully.

"You..." the snow-white cheeks puffed up. "There's nothing about you that I like about you at all! That's right, even a single hair on your body is annoying!"

"Thank you for the compliment!" Su Yu replied absent-mindedly. In his heart, he was thinking, in the invitation letter of the famed sword Saint Clan, where did the power of the sacred physique come from?

Didn't they say that the mortal sacred physique and the son of Heaven of the Sacred Mountain were the nemesis of each other?

Those who could kill the son of Heaven of the sacred mountain would definitely have the mortal sacred physique!

But those who could kill the mortal sacred physique would definitely be the son of Heaven of the sacred mountain.

If there was a mortal sacred physique in the famed sword Saint Clan, why would the son of Heaven of the Sacred Mountain remain indifferent?

One must know that the nine-star civilization was under the nose of the son of Heaven of the Sacred Mountain, and the Chaos Heavens were everywhere!

There was no way to hide the existence of the mortal-born saint physique!

Moreover, there was the power of the saint physique in the invitation letter, and the famed sword Saint Clan did not intend to hide it.

"Hey, say it!" Bai Xue rolled her eyes. She actually did not intend to leave just like that. Instead, she was especially curious!

Her tone had even become much better, and her attitude was no longer bad.

"You Want to know?" Su Yu looked at her.

The latter repeatedly nodded her pointy snow-white chin, and her big eyes blinked again and again. "Say it quickly!"

She said coquettishly.

Su Yu chuckled. "Old Woman, stop pretending to be a little girl! We'd better be more practical!"

Bai Xue looked like she was fourteen years old, but in reality, she was an old monster who had lived for many years!

Su Yu's seniority in front of her probably did not even count as Hou Yi!

"Practical? Sure!" Bai Xue smiled slightly and put down the tattered clothes that covered her body, revealing a hidden snow-white!

She also said coquettishly, "What kind of practical things do you want to Do?"

Su Yu turned a blind eye to it. He had stripped naked just now and had seen everything that needed to be seen. What would he be attracted to if he revealed a bit of it now?

"What I'm talking about is actually this!" Su Yu waved the fake invitation letter in his hand. "You are very concerned about this invitation letter!"

"I think that you don't just want to witness the birth of the so-called heaven-defying sword, right?"

This Snow White was extremely cunning. There must be a huge benefit for her to be so concerned about the invitation from the famed swordmaster clan.

Snow White's eyes flashed. "What benefit?"

Su Yu shrugged nonchalantly. He took the forged invitation letter and stood up. "Alright, I'll go by myself then!"

Snow White was anxious!

She did have the invitation letter, but this invitation letter had to be activated, just like what Su Yu did just now.

Currently, only Su Yu was known to be able to unlock the invitation letter.

"Sigh! Alright, I'll tell you!" Snow White stomped her feet unwillingly.

With Su Yu's style of not stopping until he had everything, he would probably get more than half of the benefits!

"Before the Heavenly Sword is born, there will be a leak of pure energy that has been sealed for an entire era. We visitors are entitled to a portion of it."

"With this energy, I might be able to break through to the great sage rank!"

As expected!

There was a huge benefit to this. No wonder Bai Xue placed so much importance on it!

The further one progressed in cultivation, the more difficult it would be for one to make progress!

Ordinary natural treasures were practically useless to the heaven's path master!

Only those with immense energy could satisfy the requirements for a breakthrough!

Su Yu's eyes lit up!

How could he miss such a once-in-a-lifetime opportunity?

Even though it would be difficult for him to ascend to ancient sage in a single step, he would at least be one step closer to becoming an ancient sage!

"Alright, Farewell!" Su Yu turned around elegantly and left.

What?

Bai Xue widened her eyes. "You don't intend to bring me along?"

She waved the invitation letter in her hand and asked.

Su Yu replied with a question, "Did I say that I would bring you along?"

Ah!

Bai Xue was on the verge of going crazy. Su Yu was simply too shameless!

She had already explained the truth of the matter, yet the other party was still acting shamelessly!

"You're not allowed to leave, or else... or else I'll die for you to see!" She pounced on Su Yu and hugged his thigh.

Su Yu chuckled, "Give me a reason to bring you there."

"The famed sword Saint Clan recognizes the invitation letter but not the person. It's completely fine for me to go alone!"

Bai Xue hurriedly said, "But I'm the Temple Master of the Heavenly Dao Temple. Following me has a status, so it's safer."

Su Yu said indifferently, "Safe? Those who go there are All Saints. What's the use of going there with Your Heavenly Dao temple identity?"

Snow White was speechless!

It seemed like she was really useless!

"Goodbye!" Su Yu took off!

"Wait! You have to lead the way, right?" Snow White was anxious and said casually.

Su Yu stopped in his tracks. He really needed someone to lead the way.

The famous sword Saint Tribe did not know where they were at all.

"Alright, this reason is very sufficient!" Su Yu nodded.

Bai Xue was stunned on the spot and looked at Su Yu in a daze.

So many reasons, but she was actually defeated by a reason to lead the way..

She felt that her brain was not enough to keep up with Su Yu's train of thought.

"Then you wait first. I'll pacify my companions." Bai Xue cast a glance to ask for instructions.

Su Yu nodded. "Go."

Bai Xue immediately returned to her original spot. The group of ancient sages from the large clans were all healing their injuries and cleaning up the mess.

This time, they had suffered heavy casualties.

More than half of the twenty ancient sages who had come with them had been killed by the remnants of the ninth domain.

The remaining portion had also been injured by Su Yu.

"Hall Master Tiandao, you have to be responsible for this operation!" One of the injured elders had one half of his body made of water and the other half of his body made of fire.

While he was healing his wounds, he spoke with a deep meaning.

When he said this, the others started to complain.

"That's right! You were the one who said that the ninth domain was heavily injured. We had absolute confidence that we could subdue it this time, but what happened in the end?"

"We hid from the Grand Supreme Temple Master and our clansmen. We secretly came to help you, but we caused such heavy casualties."

Facing everyone's accusations, Snow White did not refute. All of them silently accepted it.

After they finished their accusations, she said in a low voice, "I will compensate you for this incident. You can rest assured about this. I will not shirk responsibility."

Just as they had said, this operation was hidden from the outside world. They did not expect that it would result in such heavy casualties.

The more than twenty ancient sages from the major clans had a very deep relationship with the Heaven Dao Palace.

Now that her decision had caused such a huge loss, there would be a lot of trouble in the future.

"Make up for it? How are we going to make up for it? That's easy for you to say!"The half-baked elder sneered. "For the sake of this operation, our sacrifices are immeasurable!"

More than half of the ancient sages had died. How was snow-white going to make up for it?

Chapter 2908 The Skeleton Arrived

Snow-white bit her red lips and said, "To tell you the truth, I'm going to a place this time. Even if I have to risk my life, I'll get enough primitive energy for all of you."

"Enough to make up for your injuries and the few great ancient Saint clans that perished."

Primitive Energy?

The water-fire Elder's pupils constricted. "Are you sure you're not talking nonsense?"The water-fire elder questioned, "The present nine-star civilization still has primitive energy in the wilderness. It has long been completely excavated. Only the saint clans and the Chaos Heavens clan might still have some."

"Where are you going to get us primitive energy?"

Amidst the doubts, Snow White raised her finger and said, "I swear to the Heavenly Dao palace that I will bring it back for you. If I can't, I will never come back!"

Only then did the many ancient sages finally believe it.

Swearing to the Heavenly Dao Palace was not a small oath. If there was a breach of the contract, the punishment of the oath might come true.

That was, she would never be able to return.

"Alright, we believe you for the time being. We will keep the matters here a secret for the time being and not let the Grand Supreme Hall Master Know."

"Then we will wait for the good news from the Hall Master!"The elder of water and fire burst into a thick smile.

If she could really bring back a sufficient amount of primordial energy, then what was this injury?

Perhaps her cultivation could even break through to the great sage level!

Bai Xue nodded and immediately went to meet up with Su Yu.

Su Yu seemed to be casually sitting on a rock, but there were two eyes rotating in his palm.

What he saw inside was exactly the scene of Bai Xue's previous location.

"I'm back. I was afraid that you would run away."Bai Xue changed into a snow-white long dress again, making her petite and petite figure look like a little princess of the royal family.

Su Yu quietly clenched his hand. When he opened it again, the eyes on it disappeared.

"What have you been doing for so long?"Su Yu stood up and asked casually.

Snow white laughed, "What do you think I Can Do? I have such a bad nature. Of course I have bad intentions. Why? Are You Afraid?"

She waved her small fists and whined.

Su Yu looked at her with a meaningful gaze and said indifferently, "Lead the way."

Bai Xue retracted her fist in confusion. 'that's not right. Shouldn't this guy talk back to me and make me especially angry?'?

'why did he suddenly change his nature?'?

Although she was confused, it was naturally better for Su Yu not to find trouble with her.

Half a day later.

Whether it was Su Yu and the others or the ancient sages of the major clans, they all left the scene, leaving behind only a mess of battle on the ground.

The spacetime swamp, once known as one of the forbidden areas of the nine-star civilization, had been completely destroyed by the remnants of the Heavenly Dao master.

Not long after.

A group of Rockmen rushed here, including the black-robed leader who had once ordered the arrest of Wen Cheng.

Gazing at the remnants of battle on the ground, the black-robed leader's expression fluctuated. "What exactly happened here?"

Some of the traces of battle were so terrifying that it made one shudder.

"Did those two fake documents die inside?"The black-robed leader was still brooding over the fact that Su Yu was able to block the petrification of the Golden Boulder.

A group of people searched everywhere. After a long while, they shook their heads. "We didn't find the body of that girl and her companion."

"How troublesome!"The black-robed leader's gaze was cold. "Lord Qiong Qi just emphasized that we must step up the inspection of the entrance, and two people with fake documents came running in."

His confidant rolled his eyes and said, "Why are you worried, sir? It's just two people who came in. It has nothing to do with the overall situation. Sir Qiong Qi might not know."

The black-robed leader was silent for a long time before he sighed deeply and said, "I hope so. I hope that the black-robed person will not affect Sir Qiong Qi's plan."

Speaking of which, in a broken civilization far away, on a broken civilization that was emitting a weak light, a tragic scene was playing out!

Numerous flying instruments with skeleton flags were like locusts that were about to land on the sky above the broken civilization.

In the flying instruments, mysterious people with skeleton marks on their chests jumped down one after another.

"Skeleton Group!" When the experts of that civilization found out the identity of the newcomers, they were all in despair.

Skeleton Group was a ghost that was wandering in the abandoned civilization.

If it appeared at any time, it would harvest an entire broken civilization.

All the men were killed, all the women were taken, and all the resources were snatched away.

Wherever it passed, the abandoned civilization was destroyed into a land of death.

Over the years, an unknown number of abandoned civilizations had been killed by them.

The experts of the broken civilization looked at the continuously falling skeleton groups, and all of them were filled with despair. In their despair, they erupted with a will to fight to the death.

"Lan Tian civilization, we will not surrender until we die!" Six shouts were heard from the dilapidated civilization as six mid-stage Heavenly Dao master experts soared into the sky.

They were fighting head-on with the skeletons that were descending like a storm.

They were indeed powerful, but how could they be a match for the skeletons that were terrified by the mere mention of them?

After struggling for a while, they immediately began to scream in pain.

The remaining few experts were quickly defeated and ended up injured.

"Hehe, I've long heard that the Lan Tian civilization is the most powerful of the 1,000 dilapidated civilizations nearby. Now that I've seen it today, it really... doesn't live up to its name!"

"Hahaha! They're all weaklings that can't withstand a single blow. I alone can sweep through the Lan Tian Civilization."

"Brothers, the women and resources of the LAN Tian Civilization are all yours! Kill!"

The skeletons descended like dark clouds, giving all living beings boundless despair.

However, at this moment, a deep sigh came from the depths of the billowing sky civilization.

"Skeletons, I don't want to bother with you. Why must you force me to take action?" With a cold snort, the Earth of the billowing sky civilization split open.

A white-robed elder slowly walked out of the ground.

His aura was calm, but his every movement had a majestic power that could affect the world.

The skeleton members who were about to descend all retreated, their faces filled with shock.

"Ah! Ancestor of the Sky Billow?" The expressions of the skeleton members all changed.

Ancestor of the Sky Billow was the ancestor of the Sky Billow civilization, and he was also the guardian God of this broken civilization.

However, he had not appeared since half a century ago.

Many rumors said that he was dead.

It was because of this that the skeleton group dared to turn the tables.

"Don't you think it's too late to leave now?" The plain white robe of forefather Lan Tian fluttered even though there was no wind.

With a glare, thousands of skeleton members immediately turned into blood mist and dyed half of the sky.

Then, he swiped his finger across the sky, and a string of skeleton members were crushed into pieces!

The skeletons were as strong as ants, but they were slaughtered like ants in front of Patriarch Lan Tian!

All the living beings in the Lan Tian civilization were celebrating!

"Patriarch Lan Tian!"

"Patriarch Lan Tian is immortal!"

Seeing that Patriarch Lan Tian had slaughtered all the skeletons, an indifferent voice suddenly came from one of the ships. "Ancient sages realm, Patriarch Lan Tian, it has been half an era, and you have broken through to this stage."

When ancestor Lan Tian heard this, his body trembled, and his eyes could not help but show fear.

Chapter 2909 Great Sage Gai Tian

He could not help but ask, "Didn't... didn't you die in battle?"

His voice caused the powerful Lan Tian grand ancestor to panic.

He stopped the slaughter and stared at the ship without blinking. His eyes were filled with a trace of luck. The person on the ship was not the one he had imagined.

"Hehe..." the skeleton ship shook and a person wearing a skeleton mask appeared at the bow of the ship.

Only a pair of blood-red eyes could be seen under the mask.

Seeing him, the last bit of hope in Blue Sky Patriarch's heart was completely shattered, and he couldn't help but suck in a cold breath. "Sky covering devil!"

Sky covering devil was the most mysterious and powerful leader of the skeleton group.

His strength was unfathomable!

At least, when he was besieged back then, his strength was already invincible.

The world only knew that the skeleton corps was invincible, destroying one civilization after another. However, they did not know that half a century ago, the top experts of the broken civilization had secretly assassinated the leader of the Skeleton Corps, overwhelming demon!

During that battle, many experts of the broken civilization, including the blue sky patriarch, were heavily injured.

Most of the participants died at the hands of Gai Tianmo. Only a few of Patriarch Lan Tian survived, but they were also seriously injured.

Patriarch Lan Tian had not appeared for half a century, but he had been recuperating.

However, what Patriarch Lan Tian did not expect was that Gai Tianmo, whom they had sacrificed countless times to kill, had not died!

He clearly remembered that they had not sacrificed enough to destroy Gai Tianmo in body and soul.

Why was he still alive?

"It seems like you still remember me." Gai Tianmo calmly jumped off the warship and crossed his arms in front of his chest.

His body was extremely heavy as he fell.

When he landed in front of grand ancestor Lan Tian, he suddenly stopped. A pair of blood-red eyes stared at Grand Ancestor Lan Tian at a close distance. "Have you thought about how to die?"

Grand Ancestor Lan Tian's heart pounded!

He did not hesitate to strike first. He opened his mouth and spat out a folded yellow paper talisman.

This was his strongest offensive magic treasure. It had always been hidden in his mouth in order to give him a surprise attack when he encountered a powerful enemy that he could not fight against.

Back then, it was this paper talisman that gave overwhelming demon a heavy blow and decided the final outcome of the battle.

When he used it again, even if overwhelming demon was on guard, it was enough to trap him for a while and buy him time to escape.

However...

To the astonishment of sacred ancestor Lan Tian, the overwhelming demon simply reached out his hand and crushed the talisman paper with a light grab.

"You have probably misunderstood my current realm," the overwhelming demon said nonchalantly.

He opened his palm, and a cloud of dust flew into the air.

"This..." sacred ancestor Lan Tian's pupils constricted. He turned around and fled without any hesitation, and his heart was palpitating in fear.

The overwhelming demon was several times stronger than before.

If it was a peak ancient sage in the past, then it was..

Grand Ancestor Lan Tian did not run too far away. With his hands behind his back, the overwhelming demon easily appeared before him with a single stride.

"Since you don't wish to choose the way to die, I'll choose it for you!" A cold glint flashed across his eyes

His blood-red eyes suddenly lit up as he glared at the overwhelming demon!

Sacred Ancestor Lan Tian screamed on the spot and turned into a blood mist!

A transparent soul body escaped from the blood mist.

However, the moment it moved, it was grabbed by Gai Tianmo and thrown into his mouth before being eaten alive.

Sacred ancestor Lan Tian died just like that, leaving behind a group of creatures from the Lan Tian civilization who were filled with despair and disbelief.

Their guardian God died just like that?

The overwhelming sky demon stared coldly at the creatures on the ground and said indifferently, "Die!"

Immediately, countless experts from the skeleton corps flew down from the sky and began a one-sided bloody massacre.

One month later.

The Lan Tian civilization had become a sea of blood, with rotten corpses everywhere.

All the resources and women in the civilization had been plundered.

On the side of the ship, Gai Tianmo slowly opened his eyes and said indifferently, "The next civilization, Heavenly Saint!"

Back then, the Heavenly Saint Civilization had participated in the assassination of him.

Now, they had to report everything back.

But suddenly, a message was sent. Gai Tianmo grabbed the message in his palm.

His soul swept over, and his blood-red eyes flashed.

Then, he immediately commanded the skeleton battle group to move towards a certain place.

When they arrived at an abandoned civilization, Gaia flew down and saw a beautiful woman trapped in a water droplet on an abandoned mountain peak.

She was none other than smiling face!

Splash --

The water droplet shattered, and the water condensed into a human figure. It was one of the few skeleton battle group members who had attacked the ruined civilization.

"Greetings, leader!" The person said immediately after he appeared.

Gaia looked at him with a smile and said indifferently, "You said that the two guardians were killed?"

It turned out that the three people with this person were the guardians of the Skeleton Warriors!

They were ordered to go to the Haotian civilization to see how the Demon Beasts tamed by the skeleton warriors were doing. How could they have expected that they would never come back and meet with misfortune?

Of course, Gaia was not concerned about the life and death of the protector, but about the situation of the demon beasts.

"Yes, they were killed by a black-robed man of unknown origin," the protector said sadly. "Leader, please make the decision for us."

Gaia said indifferently, "So, those demon beasts have also fallen into the hands of this person?"

"Yes, when we rushed over, the other party had already taken them all. We did our best."

Gaia nodded slowly. "Mm, thank you for your hard work!"

He reached out and patted the black-robed man's shoulder lightly.

But with a light pat, the black-robed man did not even have time to scream before he turned into a pile of sand.

The smiling face that had just crawled up screamed on the spot when she saw this scene.

She hurriedly covered her mouth and stared at Gaia in horror. She did not even dare to breathe loudly.

Gai tianmo said indifferently, "I don't like people who make excuses for failure!"

His gaze turned to Smiley. "Where is that person?"

How could smiley dare to hide it? She hurriedly said, "The small broken civilization next to the Haotian civilization. Sir, please don't kill me."

Gai tianmo frowned slightly. "Is there a decent broken civilization in that civilization zone?"

Although his protectors were not very strong, they were not weak either.

To be able to kill them, their strength was definitely not low.

Moreover, they could subdue all the demon beasts!

Xiaoyan's body trembled as she said, "I'm not lying!"

Gaia looked at Xiaoyan and smiled. "Lead the way!"

She grabbed Xiaoyan onto the warship and said, "Change your target. Next destination, Haotian Civilization!"

Ah?

The members of the skeleton corps were astonished. Why did he change his target all of a sudden?

Gai Tianmo had hated the heavenly saint civilization for a long time!

"It's been too long since anyone dared to challenge me," Gai Tianmo muttered.

He raised his finger and pointed at the abandoned civilization in the darkness.

A terrifying jet-black light pierced through the darkness and destroyed everything in its path.

The Shockwave of destruction that reverberated through the heavens and earth could not be unleashed by an ancient sage.

He was already a great sage-level existence!

Chapter 2910 Heaven Burial Battlefield

The broken civilization didn't know that an evil and powerful dark cloud was slowly approaching.
At that time.

In the distant nine-star civilization.

Su Yu and Bai Xue came to the territory of the famous sword Saint Clan.

The famous sword Saint clan was sitting on the oldest battlefield of the nine-star civilization --
Heaven burial battlefield.

It was rumored that this was the place where the son of heaven and the absolute beginning creatures
of the sacred mountain fought the most fiercely.

Generations of absolute beginning creatures had rebelled against the sacred mountain. This was the
place where all the strategists fought for.

In the previous era, when Ren zu led the absolute beginning creatures to sweep away the invincible
forces, a shocking battle had erupted here!

It was said that Ren zu had once used the universal cauldron to sink half of the battlefield, leaving a
terrifying pit called the black abyss.

The skeletons of countless eras were slowly revived under the influence of the remnant energy of
the Universal Cauldron.

Those revived creatures were the super experts who had participated in the battle between the
absolute beginning creatures and the sacred mountain.

The skeletons had survived for so many years.

Now that they were revived, one could imagine how powerful they were!

It was said that on the night of the full moon, a massive and terrifying projection would appear from
the Black Abyss.

That projection covered the sun, moon, and stars. It was a majestic nine-star civilization!

Wherever the projection covered, living beings would be restless for three days and three nights.
The plants withered and the sun, moon, and stars dimmed.

After an epoch, the projection didn't disappear. Instead, it became more solid.

On the night of the full moon, it would appear in the vast world and cover the nine-star civilization.

Some people guessed that it was most likely an ancient creature from the absolute beginning era.

Its power was perhaps second only to Ren Zu. When he was still alive, he was definitely an
existence that could resist the son of Heaven of the Sacred Mountain!

Even after countless eras had passed, he still harbored a deep grudge against the sacred mountain.

However, the world had been cleansed by countless eras. Civilizations had collapsed countless
times.

The history of the Archaic era had long been drowned out, and no one had recorded it.

No one knew who the owner of the projection was.

On this day.

"This is the heaven burial battlefield." Snow White stared at the desolate ancient battlefield, her face filled with shock.

As far as the eye could see, there were half-buried bones everywhere, and all sorts of weapons were exposed.

After countless years of erosion, the weapons had already rotted beyond endurance.

The skeletons also lost their color and began to decompose.

"We'll be able to reach the famous sword Saint Clan by crossing the heaven burial battlefield." Snow White looked at the battlefield warily.

Su Yu nodded, but he did not take a step forward. Instead, he flicked his finger first.

A Ray of light fell on the battlefield in front of him.

In the end, a powerful ripple appeared on the battlefield and completely crushed the light.

"You're really cautious. It's really difficult to harm you!" Snow White shook her head helplessly.

These lights were the remnants of the power emitted by the countless corpses and weapons buried here.

They had been here for many years and had not dissipated for a long time, forming a protective layer.

Anything that came into contact with it would be instinctively destroyed by the remnants of power.

Of course, to Su Yu, there was no danger. He would only feel a little uncomfortable.

However, he did not expect Su Yu to be too cautious.

Su Yu said indifferently, "Do you still need to think? There are so many bones and corpses, but no one has dug them up for so many years. This shows that there must be something unusual."

These corpses and weapons were the items of ancient experts. How could anyone not be tempted?

However, they were still the same as before. There must be a reason for this. That was why Su Yu was more cautious.

"Sigh! I Can't plot against you. Let's Go!" A wisp of Heavenly Dao master power appeared under Snow White's feet as she stepped on the air.

Visible to the naked eye, waves of ripples continuously rippled under her feet. That was the reason why the aftershocks were attacking her.

However, she was powerful, so those aftershocks couldn't hurt her.

Su Yu looked towards the depths of the battlefield. In that case, none of those who could enter the famed sword Saint tribe were weak. They were all experts of the current era.

"Mm." Su Yu nodded and stepped forward.

He did not use any strength, but the aftershocks of the attacks were unable to cause any damage to his feet.

"What a monster." Bai Xue muttered.

Only experts at the great sage realm or above could be like Su Yu, who could cross the heaven burial battlefield without relying on his own strength.

Even as a peak ancient sage, she did not dare to cross the battlefield so brazenly.

"Long-winded," Su Yu said calmly.

He was just about to walk forward when he suddenly turned around to take a look.

Bai Xue also felt something. She swept her gaze behind her, but her pupils could not help but constrict.

She immediately landed and pulled Su Yu to the side. She even lowered her head, not daring to look directly at the newcomer. At the same time, she cried out in a low voice, "Don't Look!"

Su Yu did not act rashly. With a glance, she averted her gaze.

That seemed to be a blood-red sedan chair!

It was carried by four golden skeletons!

It was extremely fast.

In the blink of an eye, it arrived beside them and brushed past them.

When they came into contact, Su Yu smelled a thick scent of blood and felt an extremely terrifying gaze from within. He swept his gaze over the two of them.

That feeling was extremely cold and gave off an extremely uncomfortable feeling.

Furthermore, he felt as if he had been seen through.

Luckily, the blood-colored sedan did not stop and entered the heaven burial battlefield.

However, when Su Yu looked over, he was surprised to find that the four golden skeletons were moving forward without touching the ground.

The aftershocks of the battlefield did not affect them at all.

According to what Bai Xue said, the four golden skeletons had all reached the great sage level?

If the four great sages were to carry the palanquin, then the owner of the palanquin..

Just thinking about it made Su Yu become serious.

It seemed like the birth of the famed sword Saint Tribe's heaven-defying sword had attracted countless peerless experts!

Snow White let out a long sigh, "Phew! How terrifying! I actually met Old Devil Xue Here!"

Su Yu asked, "Old Devil Xue is a great sage?"

Snow white shook her head, "He's not just a great sage. He can be ranked in the top 100 among great sages."

Only in the top 100?

That was still quite a distance away from the famous sword Saint Tribe, which was ranked third.

Seeing Su Yu's disapproval, Bai Xue said, "Although Old Devil Xue's ranking isn't very high, he's definitely the most dangerous great sage to us ancient sages. He's one of a kind!"

"Because of his cultivation, he needs to capture and eat ancient sages frequently. Countless ancient sages have been harmed by him!"

Su Yu was slightly horrified just now. There were such evil cultivators in the nine-star civilization.

"However, is there no one to punish him?" Su Yu asked.

The massacre in the ninth domain in the nine-star civilization had attracted countless experts to pursue and kill him.

There was no reason that Old Devil Xue could be safe and sound.

Bai Xue shrunk her neck. "Who dares to provoke Old Devil Xue?"

"He is savage by nature and has a strong desire for revenge. He is also proficient in blood arts.

There is no way to kill him!" Bai Xue said, "In the past, countless great saints have participated in encircling and killing him, but what was the result? "Every time, they thought that they had killed Old Devil Xue, but he resurrected soon after and took revenge one by one

"Everyone who had encircled and suppressed him is now dead

"As time passes, no one dares to provoke him anymore!"
