

Nine-Dragon 2911

Chapter 2911 Black Abyss Skeleton

In terms of strength, Old Devil Xue might not be at the top.

But in terms of ferocity, there were very few great saints who could match him!

The other great saints would not bother with ordinary people if there was no need to, but Old Devil Xue was different.

Those who offended others, regardless of whether they were strong or weak, would take revenge to the end!

Therefore, everyone was afraid. Everyone was afraid of him.

They were afraid of accidentally provoking him.

This was the reason why Snow White was so afraid of him.

"If even the blood demon came to join in the fun, why would the other great saints be absent?" Snow White smiled bitterly.

She realized that she was too naive. She thought that if she could break the invitation, she would be able to obtain the primordial energy. She even thought that she was abnormal towards the many ancient saints because of this. She would definitely be able to make it up to them.

Now, she might really die here.

Su Yu had a premonition that the difficulty this time was far less optimistic than what white snow had predicted.

There would definitely be many great sage experts on the stage.

Their goal should also be the primordial energy.

It could be imagined that the competition would be huge.

However, Su Yu was not as pessimistic as white snow. So what if there were many experts? He might be able to find an opportunity in the crevice.

This was not the first time he had encountered such a situation.

"However, I must go to the famous sword Saint Tribe." Despite her fear, Bai Xue did not forget her promise.

Su Yu praised her in his heart and said expressionlessly, "Don't worry, we will definitely gain something."

In the next three days, the two of them traversed through the heaven burial battlefield and saw countless shocking remnants of the ancient battlefield along the way.

All the way until they arrived at an incomparably huge pit.

This pit stretched as far as the eye could see, with no end in sight.

Just as the rumors said, half of the heaven burial battlefield had been sunk by Ren Zu's cauldron of the Common Life, becoming the famous Black Abyss today!

Standing at the edge of the Black Abyss and looking at the bottomless abyss, it indeed gave people an unsuppressable sense of panic.

It was as if there was an ancient existence that could devour people at any time.

Su Yu, who had mastered the eight yuan level domains, could clearly feel that there were some inhuman things moving in the depths of the Black Abyss.

No!

Not only were there inhuman things, there were also living beings within.

"There seems to be a sound inside." Snow White finally sensed something and looked straight into the depths of the Black Abyss.

Moreover, the sound seemed to be getting closer and closer to them!

The two of them retreated cautiously and retreated a hundred thousand feet away. A mass of black fog erupted from the Black Abyss.

Two creatures also hurriedly escaped from the black fog.

Their bodies were covered in blood. One of them was even more severely injured. His chest had been penetrated by a black bone claw, and blood was flowing non-stop.

However, he still came to the ground firmly.

His companion's injuries were much better, but his strength was exhausted, and his movements were slow.

Kacha --

The sound of bones rubbing against each other could be heard from within the Black Fog.

Looking closely, they were all densely packed skeletons!

There was an extremely ancient aura remaining on the bodies of those skeletons, and they were existences that had surpassed an era at the very least.

They had strange shapes and their eyes were flickering with dark red flames, indicating that they had weak intelligence.

Although they were skeletons, their movements were extremely swift!

With numerous afterimages, they rushed in front of them.

The pitch-black bone claws turned into extremely sharp blades and slashed towards the necks of the two.

"Ah Da, hurry up and leave!" The person whose chest was pierced was a middle-aged man with rough skin. He pushed away the young man who was still in good condition.

The sharp blade slashed onto the middle-aged man's shoulder, almost cutting off half of his shoulder!

Ah!

The middle-aged man let out a miserable groan and fell into a pool of blood, struggling with difficulty.

The young man looked back and gave up on him decisively. He immediately ran away.

Several skeletons quickly chased after him, leaving only one person behind.

He raised his foot and stepped on the middle-aged man's head. This step would definitely end his life.

At the critical moment, a nine-colored ray of light swept over and sent the skeletons flying.

The latter was sent flying and rolled on the ground before finally struggling to get up.

His dark red eyes looked at Su Yu who had made a move. The Flames jumped violently and his mouth opened and let out a creaking sound.

It was as if he was saying something to Su Yu.

The other skeletons sensed that something was wrong and came back one after another. They all opened their mouths strangely and kept on talking to Su Yu.

Unfortunately, Su Yu couldn't understand their words at all.

"Be careful!" Snow White frowned. With a flick of her finger, several powerful Heavenly Dao Masters' powers sent a group of skeletons flying and they fell into the Black Abyss.

Su Yu frowned slightly. Did those skeletons know him?

"You are really ambitious! Those are all dead souls. Maybe they were casting some kind of spell on you, but you just stood there and didn't move," Snow White said in a bad mood.

Su Yu shook his head in his heart. It was not a spell, but something he wanted to express.

"By the way, who's going to come? Saving people is not your style!" Snow White glanced at the heavily injured middle-aged man and then looked at Su Yu, feeling incredulous.

The Su Yu she knew was definitely an extremely cold person.

It was really unexpected that he would draw his saber to help.

Having cultivated to their level, they were already used to the injustice of the world. They had long lost their enthusiasm towards people who had nothing to do with them.

Su Yu said expressionlessly, "If it's nothing, what's the harm in saving them?"

He lowered his head to look at the middle-aged man and said indifferently, "You can heal yourself, right?"

The middle-aged man sat up with difficulty and said gratefully, "Thank you for your help, senior. This junior is eternally grateful."

He could intimidate a few skeletons with just one finger. Compared to him, he was indeed a senior.

"No need." Su Yu did not mind. "Then you should leave this place as soon as possible. We still have things to do. Goodbye."

Just as he was about to leave, the middle-aged man stopped him. "Wait! Are you going to the famous sword Saint Clan?"

Only the famous sword Saint Clan could be here.

"If you are, I can probably help you a little." The middle-aged man pulled out the skeleton claw on his chest and stopped the bleeding.

Snow looked at him suspiciously, "It's more like we're helping you!"

The middle-aged man cupped his fists and said, "I'm not talented. I'm a Sword Master of the famous sword Saint Clan. I can still help you a little in entering and leaving the famous sword Saint Clan."

Eh?

Snow White was shocked and said in disbelief, "You are a sword master? With your cultivation?"

The Sword Masters of the famous sword Saint Clan were famous existences.

There were a total of 100 sword masters in the Saint Clan.

Each one of them was a master of refining weapons. They trained for the famous sword Saint clan all year round. This time, the Absolute Heaven sword was forged by the top ten sword masters.

It was hard to believe that a sword master would have such a low cultivation.

The middle-aged man laughed self-mockingly. "I'm ranked 100th. Mo Heng, sorry for making a fool of myself."

Mo Heng?

Bai Xue had actually heard of him before and was once again shocked. "You're the newly-promoted genius craftsman, Mo Heng, from a thousand years ago?"

Back then, in the nine-star civilization, a brilliant master craftsman had appeared out of nowhere, and that was Mo Heng.

Legend had it that the Dao artifacts he refined had extraordinary spirituality, and their power was often increased by 30% .

Because of him, many aristocratic families had fought tooth and nail for him.

But Mo Heng had disappeared for no reason. It turned out that he had joined the famous sword Saint Clan!

"Strange, with your ability, you're only ranked 100th? This isn't right, right?" Snow White immediately discovered the secret.

Her gaze swept over, and suddenly fell on Mo Heng's chest. Her eyes suddenly jumped, and she gasped, "This is..."

Chapter 2912 There Was Something Else Going On

Su Yu heard that something was wrong and followed her gaze. She was slightly surprised to find that Mo Heng's chest, which had been penetrated by the bone claw, was easily discovered because of the damage to his clothes, there was a very special mark on his chest.

The mark was in the shape of a pitch-black sword, and the sword was surrounded by chains.

It seemed to symbolize that the sword had been sealed!

The sword was not painted on, but branded in the flesh, leaving a deep dent on its chest.

Unless it changed its body, it would not be erased for the rest of its life.

"You... you were enslaved by the famous sword Saint Clan?" Snow White blurted out a huge secret.

She hurriedly covered her mouth and checked her surroundings vigilantly. After making sure that no one heard her, she immediately went forward and put on Mo Heng's clothes again. She hurriedly said, "We didn't see anything. We didn't see anything."

Mo Heng sighed dejectedly. "It doesn't matter even if we saw it. The famed sword Saint Clan doesn't mind outsiders knowing about it."

Su Yu roughly understood the context of their brief conversation.

The artifact refining genius who was once famous throughout the nine-star civilization had disappeared because he was enslaved by the famed sword Saint Clan.

The nine-star civilization was a place where the strong preyed on the weak. He was not surprised that something like this had happened.

The strange thing was, didn't Mo Heng's forces come to rescue him?

In the current nine-star civilization, a genius had appeared. It was impossible that he was born poor.

The poor people were all living in the abandoned wilderness. In order to survive, they had to run around every day. How could they have time to cultivate their talent in refining?

He must have come from a prestigious family.

"Anyway, I'm the only one left in my mo family. So what if I tell the whole world? Who Dares to risk offending the famous sword Saint Clan and come to rescue me?" Mo Heng seemed to have accepted his fate. He even lost the will to resist.

It turned out that the Mo family was once a big aristocratic family. However, for some unknown reason, they finally disappeared.

As a result, no one dared to interfere with Mo Heng being a slave.

Bai Xue Sighed silently, indicating that there was nothing she could do.

Although the Heavenly Dao Palace was powerful, in the end, it was still just a big clan-level force. It was far from being able to contend with the Saint Clan.

Not to mention that the famous sword Saint clan was ranked third among the powerful Saint Clan.

Su Yu asked thoughtfully, "Then, how many places can your true weapon forging attainments rank in the famous sword Saint Clan?"

On this point, Mo Heng revealed a trace of pride. "Because of my identity as a slave, I was only ranked 100th. In fact, it's not difficult to rank in the top three. I can even be ranked first."

Being enslaved, Mo Heng was naturally unwilling to sincerely forge weapons for the famous sword Saint Clan.

Hence, he had been concealing his attainments in forging weapons.

His true attainments in forging weapons were shockingly high.

"Don't doubt it!" Mo Heng thought that Su Yu and Bai Xue didn't believe him, he said, "Let me give you the simplest example. The ten sword practitioners that the famous sword Saint clan nurtured, they spent an entire era to nurture the absolute heaven sword. If I'm not mistaken, the day the sword is unleashed will definitely be the day blood stains the sky!"

Oh?

Bai Xue widened her eyes and asked curiously, "What do you mean?"

Mo Heng said disdainfully, "Those ten sword practitioners thought that their attainments were amazing and forged a flawless saint weapon. In fact, the forging process is full of flaws!"

"When the sword is released, this sword will definitely lose control and hurt the guests from all directions."

Mo Heng recalled that Su Yu and the others were also here to observe the birth of the Absolute Heaven Sword, he said, "On account of you saving me, I advise you not to get close to the heavenly sword. It's best if you don't even step into the famous sword Saint Clan. Otherwise, your lives might be in danger."

Su Yu and Bai Xue became serious. Mo Heng was a slave who had lost his freedom. There was no need to scare them.

What he said was most likely true -- if his attainments in refining were as brilliant as he said.

"Thank you for the Reminder," Su Yu said. "However, when we go to the famous sword Saint Clan, we need to intercept the original energy released when the heavenly sword was born. I'm afraid we have to go."

Mo Heng Sighed. "Then you can count on your own luck!"

After a pause, Mo Heng took out two black iron pellets from his sleeve. The surface of the pellets was bumpy, and no one knew what they were used for.

"I hope you can be of use." Mo Heng patted his butt and said, "Let's go. I'll take you to the famous sword Saint Clan. The prerequisite is that you all have an invitation letter."

At the mention of the invitation letter, Snow White took out her real invitation letter. She pouted and said, "It's time to open it for me, right?"

Su Yu did not say a word. Her finger gently touched the letter, and a lot of images were projected in the letter.

Mo Heng happened to catch this scene. His pupils constricted, and he looked at Su Yu with a profound gaze.

"Let's go." Snow White happily put away the invitation letter.

Mo Heng led the way with a straight face. Half a day later, a golden road paved in the air appeared in front of them.

At the end of the road was an enormous long sword that was stuck upside down in the ground.

It was not a real sword, but a building of the famous sword Saint Clan.

However, when they reached the golden road, they found that not far ahead was the young man named "Ada" who had abandoned Mo Heng and escaped alone.

"Ada?" Mo Heng heaved a sigh of relief and said, "As long as you're safe, that's good."

From his words, he was especially concerned about this ada.

In fact, when he was in danger, he had pushed Ah da away and used his own body to block the attack. He could already see that the relationship between the two of them was not ordinary.

Hearing the voice behind him, Ah da turned his head to look, but there was not much joy on his face. Instead, he muttered coldly, "You're not dead yet."

He forced himself to walk back and said indifferently, "Thank you for earlier."

Although he said thank you, there was no trace of gratitude in his eyes. He was even a little disappointed that Mo Heng did not die at Skeleton's hands.

Su Yu frowned. This young man should at least know how to repay kindness, right?

However, since he did not understand the relationship between the two and their grudges, he could not interrupt.

However, Bai Xue was much more direct. "Brat, don't you know how to speak human language? Are you cursing your benefactor to die? Without him, you would have died a long time ago!"

Ada glared at Snow White unhappily. "What does it have to do with you that I'm talking to my father?"

Father?

The two of them were still father and son?

Ada looked at Mo Heng, who was covered in blood scabs, with a disgusted gaze. "Wait here for a while. I'll go in first so that no one will see me."

Heh!

Snow White was really angry. How could her son despise her father.

She rolled up her sleeves. "Stop right there!"

However, Mo Heng stopped Snow White. With a complicated expression, he said, "My son is not sensible. Please don't take it to heart, seniors."

Snow White was furious. "I say, Mo Heng, you were someone in the past. How did you raise such a son? Aren't you spoiling him too much?"

Mo Heng remained silent, as if he was unwilling to state the cause and effect.

Su Yu's eyes flashed. Mo Heng was a slave of the famous sword Saint Clan. How could he have a son?

Among them, there is another secret?

Chapter 2913 Encountering The Wind Clan Again

However, seeing that Mo Heng was silent and didn't want to say anything, Su Yu naturally didn't ask any more questions.

"Go in," Su Yu said.

Under Mo Heng's lead, the two of them came to the giant sword of the famous sword Saint Clan.

At the entrance, there was a white-haired, red-haired old man who was covered in flames. He was sitting there, checking the invitation letters of the people who entered one by one.

The checking process was very slow, so there was a small line in front of the door.

Unfortunately, Su Yu actually saw a familiar person.

It was the wind ancient Zen, who had killed his companion in the abandoned civilization and later pursued Xia Jingyu in the pear blossom illusion.

At this moment, the wind ancient Zen was just an escort. Beside him was a dignified middle-aged woman with an extraordinary temperament, holding an invitation letter in her hand.

"Is the Wind clan still at the Saint Clan Level?" Su Yu was slightly surprised.

He thought they were just an ordinary race.

The senses of the strong were very sharp. Feng Gu Chan immediately noticed Su Yu's gaze. He turned his head to look and immediately frowned. There was a hint of surprise on his face.

Although Su Yu was still wearing a black robe to hide his true appearance, he had noticed it when they passed by each other in the abandoned civilization last time. He felt that Su Yu looked familiar.

It was too much of a coincidence that they had met again.

However, he could not remember where he had seen Su Yu before. Why did he feel that Su Yu looked familiar.

What surprised him the most was that Su Yu had actually received an invitation from the famed sword Saint tribe. Did that mean that he had the strength of a great sage?

"Gu Chan, who are you looking at?" The dignified beauty followed his gaze and muttered in surprise, "Is the Heavenly Dao Hall also invited?"

Feng Gu Chan was slightly puzzled. Could it be that the black-robed man was a member of the Heavenly Dao Hall, but the Heavenly Dao Hall should not be included in the invitation.

Looking at Su Yu again, Feng Gu Chan faintly felt a hint of hostility. "Family head, this person's identity is suspicious. It's best to investigate."

The dignified beauty looked at the black-robed Su Yu and said expressionlessly, "There's no need for the famous sword Saint Clan to overstep their authority. They will investigate on their own."

Before long, it was the Wind Clan's turn.

The dignified beauty took out the invitation letter and successfully passed the inspection. Before she left, she opened her red lips and said a few words.

The red-haired old man, who was covered in flames, silently nodded his head.

After half a cup of tea, it was finally Su Yu and Bai Xue's turn.

First, Bai Xue took out her own invitation letter. The red-haired old man looked at the invitation letter and then at Bai Xue.

Snow White's identity was too easy to identify. Those with a slightly higher status would know that Snow White was a member of the Heavenly Dao Palace.

As for the Heavenly Dao Palace, it was only a large aristocratic family. In theory, they would not be invited.

However, the famous sword Saint Clan recognized the invitation letter but did not recognize the person, so they did not stop them.

When it was Su Yu's turn, the red-haired old man looked at Su Yu and said, "Take out the invitation letter and the document."

Eh?

The invitation letter was easy to deal with, but the document... when they cleared the nine-star civilization passage, the document was destroyed because it was seen through.

There was no way to take out a second document.

Moreover, other people only needed to check the invitation letter when they entered the famous sword Saint Clan. Why did Su Yu need to check the document?

"What's the reason for checking the document?" Su Yu asked coldly.

It must be because that dignified beauty had said something.

A cold light flashed in his heart. He didn't go looking for trouble with Wind Ancient Zen, but the latter took the initiative to look for him!

Humph!

A sharp aura surged on the red-haired old man's face. "The reason is that I want to check it."

He could check whoever he wanted to check. If he didn't like it, he couldn't come!

Su Yu narrowed his eyes, but he didn't intend to argue with him here. That would only be of no use and would only cause more trouble.

The soul power in his palm changed and transformed into a document that he had used before.

However, he did not know if he could hide it from the red-haired old man in front of him.

The cultivation of the other party was not something that the ordinary people at the entrance of the passageway could compare to.

"There's no need to check. He's my friend." Mo Heng crossed his hands behind his back and walked up from behind, saying expressionlessly.

The red-haired old man shifted his gaze to Mo Heng, his eyes revealing a trace of disdain. "I was wondering who it was. So it's that good-for-nothing."

He was especially rude to Mo Heng.

However, it seemed that Mo Heng still had some weight. The red-haired old man did not make things difficult for him anymore. He glanced at Su Yu and said, "Since you are the friend of the good-for-nothing, then forget about the document. Take a look at the invitation letter."

Su Yu took out the invitation letter. The other party took out a mirror and shone it on it. Immediately, a message was carved into the mirror.

"Alright, let's go in." The red-haired old man said expressionlessly.

Thus, Su Yu passed through smoothly and stepped into the famed sword Saint Clan.

Instantly, a shocking heat wave rushed over, as if he was in a huge furnace.

Flames could be seen everywhere with the naked eye. He had to protect his body with his strength, or else he would definitely be burned.

Mo Heng's voice came from behind, "The mansion of the famous sword Saint Clan is a natural weapon refining furnace."

Su Yu stopped and cupped his fists at him, "Thank you for helping me out."

Mo Heng waved his hand carelessly, "Compared to your kindness for saving my life, this is nothing."

He looked at Bai Xue who was waiting for Su Yu not far away and said, "I won't accompany you anymore. Goodbye."

Su Yu watched her leave and went to meet up with Bai Xue.

The latter said with disappointment, "I thought you were stuck outside the door. You were so happy for nothing."

Su Yu looked at the relieved expression on her face and said, "You were worried for nothing, right?"

"You're so beautiful!" Bai Xue rolled her eyes.

Su Yu glanced at the southeast corner and saw a figure leaving quietly from the dark. It was Feng Gu Chan.

"I may have met some unfriendly enemies here. Do you choose to continue with me or act alone?" Su Yu asked.

Next, perhaps there would be a small conflict with the Wind Clan.

"You want to abandon me?" Bai Xue said without hesitation.

She was alone among the many great saints. How could she feel at ease? It was safer to stay by Su Yu's side.

Su Yu smiled faintly, "You're one of mine?"

Bai Xue's face turned red, "You've seen everything. No matter what, I'm half of you!"

"I'm sorry, I'm still young. Old Woman, please stay away from me." Su Yu smiled faintly.

Bai Xue clenched her fists and glared at Su Yu angrily, "To be honest, I really want to hammer you to death!"

The good impression he had accumulated along the way was instantly wiped clean by him.

"Wait until I get the primordial energy. We will walk on our own paths and never see each other again," Snow White said angrily.

Su Yu smiled and did not say anything. Under the guidance of a servant, he stepped towards the first level of the underground.

The heavenly sword was being refined underground.

"Guest, the temperature inside is very high. Please be careful." The servant stood at the entrance of the underground and did not dare to move forward.

Su Yu turned a blind eye and stepped in. With the body of the mirror flower emperor, these flames were no threat to him.

But to Snow White, they were fatal damage.

In terms of danger, they were no worse than the residual power of the heaven burial battlefield.

Chapter 2914 The Ten Thousand Sacred Tribulation Fire

Bai Xue stood at the entrance and hesitated for a moment.

In the end, she decisively consumed a mysterious pill and stepped onto the underground stairs.

The shocking heat caused a trace of pain to appear on Bai Xue's face, but she still gritted her teeth and persevered as she walked deeper into the underground.

What she did was only to fulfill her promise and compensate those aristocratic families that had suffered heavy losses.

Su Yu saw it and silently praised her.

The two of them followed the stairs and came to the depths of the underground.

It was a huge prototype platform that had been artificially dug.

In the middle of the platform was an incomparably huge pit, and inside it was burning with intense flames.

At first glance, the underground looked like an ancient well.

The difference was that there were special stands around the ancient well for the guests to observe.

Su Yu came to the side of the deep pit. This pit should be the furnace for refining weapons.

Bai xueyi walked over and looked at the colorful flames. He said, "Inside are the flames accumulated by the famous sword Saint clan over countless eras. They are all Tribulation Flames!"

"Even the weakest one can kill an early-stage Heavenly Dao master. The highest one... it is said that there is a trace of tribulation fire inside. It was taken out from the corpse of a ten thousand saints."

"It is said that ten thousand saints died from the Tribulation Fire."

Ten Thousand Saints?

Su Yu's pupils constricted. The so-called ten thousand saints were the most powerful beings in the primal Chaos Heavenly clan, right?

They were extremely powerful and had already reached the peak state of late-stage Heavenly Dao master.

Such a person would actually die from the Tribulation Fire?

Many years of experience told Su Yu that the so-called tribulation was an existence of a higher level that restricted weak beings.

In the entire absolute beginning realm, the strongest existence should be the son of Heaven of the Sacred Mountain, right?

However, did they have to rob his descendants?

He felt that his understanding of the absolute beginning realm was somewhat limited.

"Look!" Suddenly, Bai Xue pulled Su Yu's arm and excitedly pointed at the furnace.

The surrounding guests, even the great sages, started to change their expressions.

A strange flame appeared amidst the countless flames.

Different from the other flames that did not have any rules, this flame took the form of a human!

It walked with its hands behind its back in the furnace. Wherever it passed by, the other fire tribulations retreated, revealing a large blank space. It seemed to have a natural fear of it.

That human-shaped flame looked like a king, looking down on all the heroes.

It must have heard the uproar from above. It raised its head and looked up.

With just a glance, the temperature on the platform suddenly doubled.

The great sages immediately circulated the energy in their bodies to resist the sudden increase in temperature.

However, the temperature increased too quickly. The people present were caught off guard and were still affected.

Many great sages were scalded, causing a series of uproar.

If great saints were like this, then how could non-great saints be like this?

For example, people like Feng Gu Chan, who had not even reached the level of an ancient saint, were burned on the spot. Fortunately, he had the help of a great saint by his side, who quickly extinguished the flames and saved him.

Bai Xue's condition was slightly better, but her entire body was burning painfully.

When Su Yu saw this, he patted her shoulder with his five fingers. The eight great Yuan realm domains formed a temporary isolation from the true world, isolating her from the burning heat.

Only then did Snow White's situation immediately ease up.

However, how could she escape the Great Saints' gazes when she showed this move? There were hints of shock on all of their faces.

No one present could casually display the true world.

The beautiful woman's pretty pupils shrank. She immediately stared at wind ancient Chan and asked in a stern manner, "How did you meet him?"

Casually casting a true world was something that even the few ten thousand saints might not be able to do.

Feng Gu Chan did not see anything special about Su Yu's move. He said, "I ran into him by accident."

He was puzzled. What was wrong with the family head?

The elegant woman was slightly regretful. Her actions at the door were a little rash. Perhaps she had already offended this person by accident.

"Next, be more obedient and don't provoke him again." The dignified beauty stared at Su Yu, who was dressed in a black robe. She felt a sense of trepidation.

Feng Gu Chan frowned.

Was it necessary?

It seemed that the black-robed person was very ordinary. He should not be a big shot.

In the spectator stand, there was a blood-colored sedan chair carried by four puppets. As the curtain of the sedan chair moved, a ferocious and bloody face could be faintly seen.

Its dark gaze swept past Su Yu. There was fear and desire in its eyes!

Su Yu felt resigned in his heart. In the end, he still could not hide from the senses of the existences at the Great Sage realm.

As expected, the existence of the temporary true world had been discovered.

Once he obtained the energy he wanted, he had to leave this place immediately, or else he would be in trouble.

The crowd might be shocked, but they still did not forget that the main focus of their attention should be the human-shaped flame in the furnace.

It looked up and walked up with its hands behind its back.

As it walked up, the high temperature in the vicinity became even more terrifying. Even the great sages could not withstand it and retreated to the stairs to maintain their distance.

Even Su Yu felt a burning pain in his body and had no choice but to retreat.

He was deeply shocked. Just by getting close, it had such terrifying power. If it came out completely, wouldn't it be able to wipe out all the experts present?

Could it be that this wisp of flame was the legendary tribulation fire that killed All Saints?

Seeing that this wisp of tribulation fire was about to come out of the furnace, the guests were all extremely vigilant and felt extremely uneasy.

However, just as the tribulation fire was about to come out, an ancient array formation appeared above the furnace and sent down mysterious runes.

Seeing this, the human shaped tribulation fire seemed to have some misgivings. It returned to the furnace and disappeared into the flames that filled the sky without a trace.

The temperature in the surroundings returned to normal, but no one could remain calm.

"I really don't know how the famous sword Saint Clan retrieved this fire tribulation back then!"

"It's too terrifying. If that fire tribulation was released, I wonder how much damage it would cause."

"Fortunately, it's trapped in the furnace. This furnace has been sealed by the famous sword Saint Clan for countless years, so the fire tribulation can't come out."

..

As they were discussing, a warm voice came from the stairs, "Hahaha, I'm sorry, I'm sorry. I have something on and can not accompany all of you."

A white-bearded, white-robed, immortal-like elder walked down.

When they saw him, all of the great saints stood up and greeted him, "Greetings, great sage Huang!"

The family name of the sword Saint Tribe was Huang.

The white-robed elder in front of him was one of the Grand Sages of the sword Saint tribe. He was also the most powerful Grand Sage.

"There's no need to be so polite." The Grand Sage Huang was very calm. He smiled and chatted with everyone.

Dong --

At this moment, the furnace shook slightly. It was as if something inside had exploded.

A pure air current rushed up from the depths of the furnace.

Many of the Great Saints revealed looks of surprise and joy as they obtained it.

Su Yu also grabbed a trace of it. That energy was extremely pure, without any impurities. It could be completely absorbed and converted into his own power.

This was the original energy.

Chapter 2915 Opening The Formation (First Watch)

He gently sucked in the energy, and it entered his body, quickly transforming into the power of the Heavenly Dao.

There was a slight increase in his cultivation level.

Snow-white also obtained a trace, and after absorbing it, her small face was filled with joy.

The rumors were true!

The primordial energy had an irreplaceable and astonishing effect on cultivation.

The rest of the powerful cultivators were visibly moved.

This was especially so for the great saints. The desire in their eyes could not be concealed.

At their level, even the slightest increase in their cultivation would require the accumulation of countless resources. It was as difficult as ascending to the heavens.

Many times, even if they used up all their resources, they would not be able to advance to the next level.

The primordial energy now gave them endless hope.

Noticing their expressions, the Huang Grand Sage was very satisfied. He smiled and said, "As you can see, the heaven-destroying sword is about to be born. It has already started to leak primordial energy."

The grand sages wiped away their expressions and their eyes started to flicker.

There was no such thing as a free lunch in this world. They understood this very well.

Such a miraculous primordial energy, why did the famous sword Saint tribe not keep it for themselves but give it to outsiders?

"The saint of the sword sect is willing to share the primordial energy with everyone here." The Huang Grand Sage smiled and said, "However, we have a small request."

As expected!

The many grand sages were surprised.

The Wind Grand Sage, the elegant lady, smiled faintly and said, "Please speak, Huang Grand Sage. If you can do it, we will not decline."

The Huang Grand Sage smiled and looked at the many grand sages. Seeing that they all nodded their heads, he said, "When the heaven-destroying sword is born, the seal on this furnace will be temporarily opened."

"I hope that all of you can do me a favor. The moment the seal is opened, we can work together to maintain the replacement seal."

The Huang Grand Sage took out a circular plate. This item was not unfamiliar to them. It was a formation plate.

He had carved some formations onto the dao artifact in advance. Once he activated the Dao artifact, the formations inside would naturally be activated.

The seal would be opened?

The expressions of the many grand sages changed.

They had just seen a terrifying existence with their own eyes -- the human-shaped calamity fire!

It did not leave the seal but exploded with terrifying power.

If they opened the seal and it escaped, who would be able to leave alive?

No one, right?

"Are you joking?" Blood Devil let out a sinister and angry voice. "We have no interest in risking our lives to covet a bit of your primitive energy."

These old monsters who had lived for countless years had witnessed too many people who had died because of greed.

They knew very well that compared to worldly possessions, life was more important.

That was why they cherished their lives!

It seemed like the human-shaped fire was trying to break through the seal.

When the seal was broken, would the human-shaped fire let go of such a rare opportunity?

Impossible, right?

That was why the Huang Grand Sage wanted them to face the human-shaped fire head-on. He wanted them to seal it so that it would not escape.

Even the Wind Grand Sage's expression changed. He quickly said, "If that's the case, please forgive me for not agreeing to it."

She wanted to buy her life just for a bit of primal energy?

Her life was not that worthless!

The other grand sages all expressed their willingness to give up. No one was willing to take the risk.

The Huang Grand Sage seemed to have expected this. He said, "Don't worry, everyone. My formation plate has been refined by my clansmen from the two eras. In terms of power, it is no weaker than a real seal."

"As long as everyone works together to operate this formation disk, I guarantee that nothing will go wrong!"

However, none of the Grand Sages dared to reply.

They did not plan to hand their lives over to a formation disk that they had never seen before.

The Huang grand sage laughed, "If you don't believe me, I can show you."

He flicked his finger and activated the formation disk. A huge sealing formation formed from it and sealed the exit.

The expressions of the grand sages changed slightly.

The wind grand sage narrowed his eyes, "What does this mean?"

The Huang grand sage smiled, "Everyone, let's see if we can open it."

The Wind Grand Sage and the other grand sages exchanged glances and attacked at the same time.

The eight Grand Sages unleashed their boundless divine spells at the same time. One could imagine how powerful they were.

They caused a huge change in the heaven and Earth Yuan Qi on the spot!

However, the seal did not even ripple, let alone break.

This time, the eight grand sages were shocked.

The strength of the seal was beyond their expectations.

The Huang Grand Sage retracted the power from his fingertip. The formation plate stopped working and the seal dissipated.

He said confidently, "As you can see, the seal that I casually cast is so powerful. If all of you are willing to work together to cast it, you can imagine how powerful the seal is."

"The human-shaped calamity fire is powerful, but it can't do anything to all of you!"

After personally witnessing the power of the formation plate, the great sages began to waver. It did not seem like the risk was too great.

"In addition, our sage of the Sword Clan has created a dao artifact that specifically absorbs primordial energy. It can absorb all the primordial energy that escapes in a large area and not let it go to waste."

"If you are willing to help me, I am willing to distribute all the primordial energy that I have collected to you."

As he spoke, the Huang Grand Sage took out two very ordinary iron pills. The surface of the pills was filled with cracks, as if they were about to break.

If the Huang Grand Sage did not take them out, they would have thought that they were of inferior quality.

The Grand Sages who were tempted were completely shaken.

When the heaven-destroying sword was born, the original energy would erupt with an explosive force. It was almost impossible to gather all of it. Most of it would be lost.

However, the Dao item that the famous sword Saint tribe had prepared for this was unexpected.

If they could gather all of it and distribute it to them, the original energy that they would obtain would definitely be beyond their expectations.

"Alright! I'll count as one!" Old Demon Xue, who was the first to object, was the first to agree.

Following him was the wind grand sage, followed by the Thunder Grand Sage!

Soon, all eight grand sages agreed.

The Huang grand sage smiled, "You have made the right choice!"

Then, he looked at the rest of the guests. Most of them had come with their elders, so their powers were limited. They were only at the ancient sage level at most.

"If you are willing to help, you will be rewarded," the Huang Grand Sage said.

If they could gain more power, the power of the formation plate would increase. Why Not?

Of course, they would agree. With eight great saints holding down the formation, what danger could they be in?

"Alright! Then, please wait and see."The Great Saint Huang smiled faintly. Just as he was about to leave, his ears suddenly twitched. It was as if someone was transmitting his voice to him.

Shock appeared on the Great Saint Huang's face. He lifted his head and looked at Su Yu. There was a strange expression in his eyes.

Clearly, someone had sent the news of Su Yu summoning the true world to great saint Huang, who did not know about it.

He pretended not to know and smiled lightly at Su Yu before returning to the ground as if nothing had happened.

"Hey, Great Saint Huang has his eyes on you!"Snow White sent a voice transmission.

Chapter 2916 The Plot Was Revealed

Su Yu did not speak. Any sound transmission here could be heard by the great saints present.

His eyes flashed as he stared at the furnace, deep in thought.

Mo Heng had said that the birth of the heaven-defying sword would definitely cause a huge problem.

He wondered if the problem he mentioned was related to the human-shaped calamity fire?

Gulp --

At this moment, another muffled sound appeared in the furnace. A bubble filled with primitive energy exploded, and the energy that was released surged up.

Everyone once again joined the fight for power. Only Su Yu and Bai Xue did not make any moves.

The people fighting for power were all great saints. If the two of them joined the fight, they would not be able to snatch it, and they would easily expose their cultivation.

Of course, the calmest thing was that both of them had an iron pill.

It was a mysterious item that Mo Heng had given them in return.

They had thought that it wasn't anything good, but who would have thought that it was actually something that the famous sword Saint Clan had prepared to collect the primordial energy.

Furthermore, the famous sword Saint Clan's iron pill was filled with cracks. Although it was full of holes, it looked much better.

One could imagine that the iron pill they had obtained was of a higher grade.

When the time came to collect the primordial energy, their metal pills would definitely be able to play a greater role.

Hence, they gave up fighting over the tiny amount of primordial energy in front of them.

Time trickled by.

More and more bubbles appeared and the frequency of the explosions became more and more ordinary.

Finally, they knew that the doctor's thunderous explosion caused the entire furnace to shake.

Only then did the Huang Grand Sage lead the other three grand sages to rush over.

They looked at the fire in the furnace and saw that it was shaking violently. A huge sword-shaped shadow could be seen and they were all delighted.

"The heaven-destroying sword is about to take shape. Come, let's sacrifice the sword!" A young man was brought down.

He was Mo Heng's son, Ada.

Ada looked terrified and uneasy. He was forcefully brought to the furnace.

The Huang Grand Sage stared at the furnace and his eyes were filled with greed. He muttered, "Ada, bear with it for a while. It's not that I'm heartless, but as a member of the sword Saint Tribe, you need to have a sense of self-sacrifice. Do you understand?"

After he said that, he took out a thick and hollow copper pavilion and stabbed it into Ada's heart.

In an instant, thick blood flowed out from the Copper Pavilion and dripped into the furnace.

It was strange to say that even the grand sages could not stand such a high temperature in the furnace. It could even burn them.

However, Ada's blood was not affected at all. It fell straight into the depths of the furnace.

Finally, it landed on the huge sword-shaped shadow.

Crackle --

It was as if a muffled thunder had exploded in the furnace. The entire sword Saint tribe started to shake.

The sword-shaped shadow quickly turned into a blood-red color. It was like a blood-red sword that was hidden in the furnace.

"The heaven-destroying sword is about to be born!" The Huang Grand Sage's pupils constricted as he panted heavily.

However, an ominous scene appeared before him and everyone present.

On the heaven-destroying sword, a black human-shaped calamity fire was faintly discernible.

The human-shaped calamity fire was indeed waiting for an opportunity. It did not hide its intentions at all.

The famous sword Saint tribe could only watch as the heaven-destroying sword suffocated in the furnace, or they could open the seal and let the heaven-destroying sword appear.

The Huang Grand Sage gritted his teeth and said, "Everyone, I'm counting on you."

He took out the formation plate and threw it in the air. The formation plate flew to the top of the furnace.

The Wind Grand Sage, the blood demon and the rest did not dare to hesitate. They immediately infused their powers into the formation plate.

The eight grand sages attacked at the same time. The formation plate was almost at its limit.

"Everyone else, please help!"The Huang Grand Sage shouted.

Su Yu and the others immediately attacked.

Although they were relatively weak, when they combined their powers, they were still a force that could not be underestimated. They were equivalent to half a grand sage.

In an instant, the formation plate was fully activated.

A grey seal hung down and covered the hole in the furnace!

The Huang Grand Sage and the three grand sages waited for the right moment.

They looked at each other and shouted, "The heaven-destroying sword has appeared!"

They roared and activated some ancient spell.

Cracking sounds could be heard from the furnace.

The blood-red heaven-destroying sword floated up quickly.

Looking closely, the surface of the heaven-severing sword was actually wrapped with countless chains, binding it within the furnace.

It was as if it was afraid that the heaven-severing sword would leave the furnace early.

At this moment, under the control of the Huang Grand Sage and the others, the heaven-severing sword that was binding him loosened.

The heaven-severing sword let out a powerful sword cry to express its excitement. It reached the exit of the furnace at the fastest speed possible.

However, the existence of the furnace seal prevented the birth of the heaven-destroying sword.

The most critical moment had arrived!

The Huang Grand Sage and the rest looked at each other. At the same time, they activated some kind of dao item. The primitive seal that had been sealed for an entire era was finally activated!

The huge heaven-destroying sword shot into the sky and rushed out of the furnace instantly!

However, there was also a terrifying black shadow that rushed out at the same time.

"Stop him!"The yellow grand sage shouted.

The Wind Grand Sage and the rest did not dare to hesitate at all?

They immediately controlled the formation and made it look like a giant spider web. They covered the shadow and pressed it towards the furnace.

As long as they pushed it back and covered it with the original seal, the human-shaped fire would not be able to escape.

However, the human-shaped fire was waiting for an opportunity. How could it let it go?

Its body shook and an extremely violent black fire tribulation erupted, burning the entire formation.

Sizzle sizzle sizzle --

The formation that the eight great sages could not shake even if they joined forces was now crackling from the black fire tribulation. It was about to explode.

Everyone's scalps went numb!

They had completely underestimated the terrifying power of the human-shaped fire tribulation!

Just as the formation was about to shatter, the human-shaped fire tribulation seemed to have lost its strength and fell into a disadvantage. Then, it was quickly pressed into the furnace.

It resisted with all its might, but it was still unable to stop its falling momentum. In the end, it was pressed into the furnace bit by bit.

The original seal was immediately closed again, sealing the humanoid fire inside.

The humanoid fire was unwilling to give up and violently crashed into the seal. It tried to escape, but it was to no avail.

The power of the original seal was several levels stronger than the power of the formation disk.

In the end, the human-shaped fire returned to the bottom of the furnace and gave up on charging out.

Hu --

The eight grand sages were drenched in sweat and entered a state of exhaustion.

The short confrontation had drained almost all of their energy and exhausted them.

If the human-shaped fire could hold on for a while longer, they would not be able to hold on any longer.

"Our lives are hanging by a thread!" The wind grand sage sighed.

The blood elder laughed, "But it's worth it!"

Everyone's gaze turned to the heavenly sword.

The Heavenly Sword in front of them was a thousand feet large. Its surface was full of potholes and unknown rocks.

Everyone present knew that it was the impurities from forging weapons.

The size of the heavenly sword should be the same as a normal sword.

Chapter 2917 Massacre The World (Third Watch)

Their thousand feet large bodies were mostly the impurities of an era.

Of course, there was also the huge amount of primordial energy that they desired.

Now, as long as they could break through all these impurities, the primordial energy would explode!

However!

The Huang Grand Sage and the rest of his clansmen held onto the heaven-destroying sword and did not have any intention of moving forward.

Their eyes were fixed on the heaven-destroying sword. They did not care about the eight grand sages' current state of weakness.

The blood demon urged, "What are you waiting for? Release the primordial energy quickly."

The rest of the Grand Sages urged.

They had already sealed the human-shaped calamitous fire. Now, it was time for the sword Saint Tribe to fulfill their promise.

Hearing this, the Huang Grand Sage turned his head and looked at them. His eyes were filled with a strange look of uncertainty, "There's something that I forgot to tell you."

"These impurities of the heaven-destroying sword have been settled for an entire era. It's not easy to break them."

"However, if we don't break them, the heaven-destroying sword will not be considered a true birth. Right now, it can only be considered a sword embryo."

There was such a thing?

However, the impurities that were settled could not even deal with the fire tribulations. It did not look like it could be broken easily.

"However, this is not a reason for you to refuse to fulfill your promise," the wind grand sage scolded.

The Huang Grand Sage waved his hand and said, "You have misunderstood. We do not intend to go back on our words. We will definitely give you what we owe you. We just hope that you can help us with one more small favor."

Everyone frowned. The famous sword Saint tribe did not clarify this matter in advance.

Now that they were faced with such a situation, they were disgusted by the sudden addition of conditions.

However, they had already reached this point. With the primordial energy right in front of them, how could they be willing to give up?

"Alright, what else do you want to do? Speak!" The blood elder demon said impatiently.

The wind grand sage also frowned, "After this, if you still have conditions, don't blame us for not being polite!"

They decided to make their final move.

The Huang Grand Sage smiled and said, "Don't worry, the last favor is definitely the last favor!"

The wind grand sage wiped away his displeasure and said with a straight face, "Say what you want, but it's best if it's within our capabilities."

"Hehe, it's actually very simple for you guys. Anyone can do it." The expression on the Huang Grand Sage's face became weird for some reason.

Eh?

Both the blood elder demon and the wind grand sage noticed the subtle changes in his expression.

Su Yu, who was always on guard, noticed it immediately.

His heart skipped a beat as the lines of fate fluctuated.

Not Good!

As he said this, Su Yu grabbed onto Snow White. He reacted faster than the wind grand sage and the blood elder demon as he rushed towards the exit.

He left the ground with lightning speed and rushed to the outside world.

The Wind Grand Sage and the blood elder demon cursed in their hearts. Su Yu had taken the initiative. If they wanted to leave, they would be too late.

The two of them left in a flash.

However, Su Yu's actions forced the Huang Grand Sage and the others to attack in advance.

"What we need your help with is to use your blood and souls!" The Huang Grand Sage and the three other grand sages picked up the thousand feet heaven-termination sword and swept towards the eight Grand Sages!

In order for the heaven-severing sword to truly appear, it would require the blood and souls of the eight most powerful cultivators in the world to be used as a sacrificial offering.

Only then would the heaven-severing sword, which had absorbed their blood and souls, be able to truly awaken and emerge from the impurities. It would truly appear out of thin air.

Hence, this invitation to observe the birth of the heaven-severing sword was a huge conspiracy from the very beginning.

Those who were invited were all going to use their swords!

"The famed sword Saint Clan! How dare they plot against us!" A Grand Sage was furious as he erupted with earth-shattering battle prowess.

He held an incomparably thick spiked mace in his hand. Its size was not inferior to the heaven-severing sword.

The material used was a rare nine-colored divine stone.

Bang --

He swung his spiked mace in an attempt to shatter the heaven-severing sword.

However, the end result was that the spiked mace in his hand shattered into dust like a sand sculpture in front of the heaven-severing sword.

The heaven-severing sword mercilessly brushed past his body. This terrifying great sage level existence actually... actually turned into a cloud of blood mist on the spot.

Not a single trace of the blood mist was left as it was completely absorbed by the heaven-severing sword.

However, the heaven-severing sword's momentum did not decrease as it continued to sweep across. The area of the platform was only so big. These great sages did not have any extra space to dodge. They could only brace themselves and resist.

However, without exception, no matter how shocking the divine spells, Dao items, or domain powers were, they were all useless.

They were all mercilessly crushed by the heavenly sword.

Each and every Grand Sage was like a blood bag. They were all crushed into a blood mist and then absorbed by the Heavenly Sword.

When they swept past the blood demon, the four puppets carried the blood palanquin and screamed as they tried to block them.

However, they were still reduced to dust.

The sword aura did not die down and the blood demon was reduced to a bloody mist on the spot.

The only difference was that one of the drops of blood mist took the opportunity to enter the depths of the ground and disappeared.

When the sword aura swept towards the wind grand sage, she took out a precious treasure from her clan.

An infinite amount of wind energy exploded from it.

However, it was still unable to block the heaven-destroying sword's attack and was shattered on the spot.

The Wind Grand Sage was also shattered into a bloody mist and was absorbed by the heaven-destroying sword!

However, a portion of the bloody mist exploded with the power of the wind and swept away the bloody mist.

The Huang Grand Sage said angrily, "The wind grand sage and the blood elder demon are two cunning old fogeys. They have so many life-saving spells on them!"

Even though they were beaten into a bloody mist, a portion of the bloody mist that they had escaped into could definitely return to its original form. Its powers would not be damaged at all.

"The blood and souls of the eight great saints that we have absorbed are not complete, so the absolute heaven sword will not be able to appear out of nowhere."

"Don't worry, we still have a trick up our sleeves outside. They might not be able to escape!"

The four great saints immediately rushed out and chased after the two great saints that had escaped.

At the same time, many experts from the famous sword Saint tribe rushed in and detained the weaker guests on the spot.

What happened here was a devastating blow to the reputation of the famous sword Saint tribe. It could not be leaked out.

Therefore, these people would either die or become slaves of the famous sword Saint tribe for the rest of their lives. They would never betray them.

After the group of people were taken away, the people from the famous sword Saint tribe cleared the battlefield and left in a hurry.

Little did they know that not long after they left, a wisp of black flame slowly flowed out from the formation plate above the furnace.

It turned into a human figure the size of a finger and formed a seal with both hands. It was imitating the spell of the great sage Huang and the others.

And the effect of that spell was... to open the primordial seal!

Amidst the endless tribulation fire, a human-shaped tribulation fire with both hands behind its back slowly walked to the top of the furnace and looked at the tribulation fire that was slowly opening up, a hoarse voice came out of his mouth, "I... I think... I feel the aura of a saintly being..."

Su Yu was the only holy body among the people just now!

Chapter 2918 Complete Mastery Of The Body Of The Sword

Speaking of which, Su Yu.

After he rushed out of the ground, he did not run out of the mansion immediately. Instead, he leaped and hid in a remote courtyard.

"If we don't leave now, when will we leave?" Snow White was extremely flustered.

The change in the situation was so drastic that it was completely out of her expectations!

The famous sword Saint Tribe actually dared to take the risk of being condemned by the world to kill the Saint Tribe's Grand Sage Powerhouse.

Once this was exposed, it would be a disaster for the famous sword Saint tribe.

One could even predict that there would be a grand saint tribe war in the near future.

At the same time, one could also tell that the famous sword Saint tribe would definitely not allow them to escape and leak the news.

Hence, if Su Yu did not escape immediately, how dare he stay?

"Shh!" Su Yu immediately made a silent gesture and said, "Don't act Rashly."

'Eh?'

Bai Xue realized that something was wrong, so she immediately quieted down and secretly observed.

Suddenly, a violent fluctuation came from deep underground.

A drop of dark red blood and a blood mist rushed out of the ground one after another.

After the two appeared, they immediately rushed out of the mansion!

There was only one entrance to the mansion of the sword Saint tribe, so they could only rush through it.

However, just as they approached the entrance, an extremely sharp sword aura suddenly stabbed towards them from the exit.

With a miserable cry, the blood pearl that the blood elder had turned into was shattered into hundreds of small blood pearls on the spot.

The sword aura did not lose its momentum as it slashed towards the blood mist of the Wind Grand Sage.

The latter reacted and immediately flew backwards.

He looked at the 100 blood beads that the blood elder had turned into and quickly turned into a complete blood bead. He then retreated rapidly.

As he retreated, the two of them reconstructed their bodies.

At the same time, they charged towards the top of the mansion.

They planned to use the powers of the Grand Sage to forcefully break through the sword-shaped mansion of the sword Saint Tribe!

However, when they reached the top, many sharp swords descended like a storm, killing the two of them.

They managed to form a physical form and immediately unleashed their powerful great sage Secret Arts.

One was a boundless gale, while the other was a sea of blood. They flew into the sky with a force that could topple mountains and overturn seas!

Rumble --

The Gale swept through the Sea of blood, forming a rotating tornado that crushed the falling sharp swords.

Furthermore, the tornado flew straight into the sky above.

Bang --

With a muffled sound, a huge gap was finally opened at the top of the mansion.

The two of them were delighted and quickly hid in the tornado to escape!

The gap was right in front of their eyes. The two of them only needed an instant to successfully leave. Once they reached the outside world, it would be like sand entering the desert without a trace.

However, just as they were about to rush out, a nine-colored ruler appeared from the gap.

The ruler slammed down and a nine-colored spiritual light slashed down from the sky, dispersing the blood sea tornado.

"Emperor's ruler?" In the tornado, the two of them retreated in panic. They looked at the gap and were shocked.

Emperor's ruler was the holy weapon of the carefree emperor.

Why would it appear here?

"No, it's a replica!" Old Demon Xue recognized it and was shocked.

The Wind Grand Sage looked up and saw a person with half of his body. His pupils contracted, "The first avatar of the son of Heaven?"

The person who was wielding the replica was none other than the first avatar of the son of heaven.

The first avatar of the son of heaven that was sealed by Su Yu had already recovered half of his body.

With the replica of the son of Heaven in his hand, one attack could produce power close to that of a grand sage.

"What's going on? Even the son of Heaven is interfering?" The blood demon was even more shocked.

The two of them looked extremely serious as they stared at the avatar of the carefree son of heaven. They did not dare to go forward.

"Hehe, that's because the heaven-severing sword is the second holy weapon that the carefree son of heaven made for himself." Deep Underground, the Yellow Grand Sage's cold laughter could be heard.

He and the four other great sages of the same race held the heaven-severing sword together as they walked out of the ground.

One of them was in the sky while the other was on the ground. They trapped the blood elder demon and the wind grand sage in the middle, causing them to sink into despair.

This was what the carefree emperor wanted?

They would not be able to escape today!

However, as a grand sage, no one would give up their lives until the very last moment.

"Let's Go All Out!" The blood elder demon and the Wind Grand Sage looked at each other and joined forces again.

One of them formed a sea of blood while the other formed a world-destroying hurricane. They formed a spinning blood-red arrow.

Swoosh --

The arrow shot out and headed towards the wall of the residence not far away from them.

The Huang Grand Sage roared and waved his heaven-destroying sword together with his fellow Grand Sage. They slashed down viciously.

The sharp arrow was cut in half at the waist. However, the remaining arrowheads did not weaken in power. Instead, they shot out at an even faster speed. In an instant, they pierced through the body of the sword and created another gap!

The two of them immediately flew towards the gap and made their final dash for their lives!

30,000 feet!

30,000 feet!

30,000 feet!

They were close, and they were about to rush out!

However, the Huang Grand Sage revealed a hint of pity on his face and said, "There's no need to struggle."

He and his fellow Grand Sage held onto the heaven-destroying sword and stabbed at them across space.

There was no sword Qi or any form of power. They could only vaguely feel the air tremble violently.

After that, the two of them, who had just managed to regain their bodies, collapsed into a blood mist.

This did not stop. The blood mist collapsed again and turned into blood-colored particles.

Following that, the heaven-destroying sword flew forward and absorbed all the blood-colored particles.

Finally, the eight grand sages were killed.

Kacha --

A crisp cracking sound appeared inside the heaven-destroying sword. A finger-wide crack started to appear.

Kacha Kacha --

Cracking sounds could be heard from within the thousand feet sword.

The impurities that had been settled for an entire era were finally starting to appear in the outside world.

Traces of primordial energy were slowly seeping out from within the crack.

When the impurities were completely destroyed, it was the moment when the primordial energy exploded.

Boom --

The Huang Grand Sage and his tribesmen were overjoyed. They immediately stabbed the heaven-destroying sword into the ground and quickly left.

There was too much primitive energy within the heaven-severing sword. When it exploded, it would produce a powerful explosion that would be enough to kill all those who were close to it.

"Prepare the containers and collect the primitive energy," the Huang Grand Sage said excitedly.

He and his clansmen each took out one. There were a total of five of them. They guarded the heaven-severing sword's left, right, front, back, and top respectively to ensure that the energy did not dissipate in the slightest.

"Such a large amount of primordial energy is enough for our sword Saint clan to give birth to a quasi-ten thousand saints." The eyes of the four clansmen were filled with anticipation.

The Huang Grand Sage was already a peak existence among the great saints. If he obtained the primordial energy of an entire era, there was a high chance of him becoming a quasi-ten thousand saints.

He might even become a true ten thousand saints.

This was why they dared to kill the eight great sages.

Not only did they have the support of the carefree emperor, but they also had the ability to not fear the great sages.

"What a joke. These fools think that we will give them the precious primordial energy for free." One of the tribesmen laughed.

Chapter 2919 Seizing Energy

The materials used to forge the heaven-destroying sword were taken from the Holy Mountain.

All the resources needed during this period of time were provided by the carefree emperor.

The reward that the famous sword Saint tribe received was the original energy that was released when the heaven-destroying sword was successfully forged.

How could the famous sword Saint tribe give it to the various saint tribes for free?

Boom Boom --

The heaven-severing sword started to Rumble. The Huang grand sage immediately said, "Attention, it's about to start!"

The other four grand sages were excited.

At this moment, the famous sword Saint tribe had been waiting for an entire era.

The primordial energy was about to be born!

Boom Boom Boom --

Suddenly, the heaven-severing sword sounded like thunder as explosions started to appear one after another.

Moreover, the noise was getting more and more intense!

Finally, with a deafening explosion, all the impurities on the surface of the heaven-defying sword exploded at the same time.

The violent explosion caused the entire sword-shaped mansion of the famous sword Saint clan to shake incessantly.

The feeling of the great earthquake was extremely obvious, causing the nearby gravel to jump.

There was even a sword-shaped light pillar that soared into the sky, completely shattering a large portion of the already shattered hole in the mansion.

The beam of light was filled with terrifying power!

Its power was the second strongest Su Yu had ever seen in his entire life!

The first was Ren Zu's Universal Cauldron, and the second was the terrifying beam of light in front of him.

"This... What kind of sword is this?" Bai Xue muttered, her heart filled with shock.

She had never seen such a powerful holy weapon in her entire life.

If the Heavenly Dao Palace was hit by this attack, it was certain that all the powerful cultivators in the palace would be reduced to ashes with a single strike!

Even the few Grand Supreme Palace Masters could not do anything. They would definitely die!

While he was exclaiming in admiration, Su Yu did not stay idle.

His gaze was fixed on the center of the explosion.

He circulated his vision to the extreme and looked through the dust towards the center of the explosion.

The remaining sword qi caused his eyes to feel extreme pain. There was still a trace of blood in his right eye.

However, Su Yu still endured the pain and looked through the dust. He finally saw the situation inside.

A dark green longsword with eight plum blossom marks was stabbed into the deep pit of the explosion.

The Longsword was as beautiful as a peerless beauty, exuding a stunning temperament.

There was also a sense of pride and coldness that surpassed the world.

It was as if it was not a sword, but a cold and arrogant beauty in a green dress.

Su Yu could even feel that the sword was looking at him!

Hiss!

Suddenly, the jade-green longsword rotated slightly, and Su Yu let out a soft groan in pain. His eyes were burning with intense pain, and his vision fell into darkness.

Blood continuously flowed from his eyes!

His eyes were blind!

Just being discovered by the jade-green longsword was enough to easily blind his eyes!

If it was an ordinary person, they would have fallen into a state of panic. Su Yu was the only one who forced himself to remain calm. He used the last thing he saw and threw out the iron pill that Mo Heng had given him.

The iron pill flew to the side of the heaven-severing sword like a sharp arrow and started to spin.

One could see that the heaven-severing sword was surrounded by clumps of almost solidified sticky energy.

That was the primordial energy!

The amount of primordial energy was immense. If it was given to a top-tier grand sage, it could really push his cultivation to the ten thousand saints level!

Perhaps it was because Mo Heng's iron pills were more powerful.

The Five Iron Pills of the Huang Grand Sage and the rest had yet to absorb the primordial energy. Su Yu's iron pills had already started to spin rapidly, crazily absorbing the primordial energy nearby.

In just five breaths, he had already taken away the original energy that had passed the test.

Bai Xue, who was beside him, was a step slower. After a few breaths, she followed Su Yu and threw out the iron ball. In just a breath's time, she had only absorbed 10% of the original energy.

However, the original energy that was slightly absorbed took up about 10% .

At this moment, the Five Iron Pills of the Huang Grand Sage and the rest finally started to absorb and compete with the two iron pills of Su Yu and Bai Xue.

After five breaths, the remaining original energy was completely absorbed.

Su Yu absorbed another 10% , obtaining 60% alone.

Bai Xue also obtained another 10% , a total of 20% .

The Five Iron Pills of the five of them only managed to obtain 80% in the end!

Before the dust settled, Su Yu and Bai Xue quietly retrieved the iron pills.

However, they were facing a great sage-level powerhouse, one of whom was a top-notch great sage.

Although their actions were subtle, they were still detected by the great sage Huang.

"Someone is causing trouble!"The great sage Huang shouted.

His voice shook and created endless sound waves. He blew away the dust and revealed his five iron pills.

The five of them immediately took them back. However, they were all shocked.

"Why is it only so little? It's five times less than what we expected!"

"That's impossible, the primordial energy should be more than that!"

When the Huang Grand Sage realized that their primordial energy was only 20% of what they had expected, one could imagine how he felt.

"You're courting death!"The Huang Grand Sage was furious.

The primordial energy was his reverse scale, how could he allow outsiders to touch it?

Oh No!

Bai Xue exclaimed in surprise. She turned her head and saw that Su Yu was blind and could not tell where he was.

"Ah, you..."Snow White's thoughts were in flux.

It was impossible for her to escape with a blind man.

Her rationality told her that she should abandon Su Yu and leave immediately. She could even push Su Yu out to distract the enemy.

However, out of the blue, she grabbed Su Yu's wrist and rushed towards a gap not far away from them.

Luckily, the wind grand sage and the blood ancestor opened a gap nearby before they died, allowing them to escape.

Otherwise, they would not even be able to escape from the mansion of the famous sword Saint tribe.

In just an instant, Bai Xue brought Su Yu and rushed out of the famous sword Saint tribe. Then, they ran aimlessly across the ancient battlefield.

The Huang Grand Sage was shocked and furious. He recognized that the ones who attacked were Su Yu and the Heavenly Dao Hall Master.

The eight grand sages admitted defeat obediently and sacrificed their swords under their schemes.

However, the two juniors stole their entire generation's worth of effort. This was a great irony and humiliation.

Furthermore, Bai Xue's identity was special. As the Heavenly Dao Hall master, she had a lot of credibility.

Once she revealed this matter, the famous sword Saint Tribe would definitely be attacked by the eight Grand Sage forces. Then, it would be troublesome.

"Go after them!" The Huang Grand Sage ordered his four tribe members to chase after them while he cautiously approached the center of the explosion.

With the birth of the heaven-severing sword, there was no way he would just leave it here, right?

He needed to preserve it well and wait for the carefree emperor to personally come and take it away.

He was anxious about the remaining 80% of the original energy and whether the news would spread, so he could not help but be a little impatient.

He took out a sword hilt that had been refined in advance. He walked forward and tried to insert the heaven-severing sword into its scabbard.

However, as he got closer, something unexpected happened!

The body of the heaven-severing sword suddenly turned from emerald green to blood red. Traces of malice and resentment emanated from the body of the sword.

Two black eyeballs flashed on the body of the sword and disappeared.

In that resentment, the Huang Grand Sage could actually sense the aura of the blood demon and the Wind Grand Sage!

Chapter 2920 Another Wave

"Not good! Retreat!" The Huang Grand Sage had been crafting for many eras. Naturally, he had a lot of experience in crafting Dao artifacts.

He also knew that the more powerful a dao artifact was, the more dangerous it would be if it failed.

The heaven-destroying sword in front of him was the highest-level magic artifact that the famed sword Saint tribe had ever crafted. If it failed, the consequences would be unimaginable.

He roared as he retreated rapidly.

The four great saint tribe members were also very experienced. Before the Huang Grand Sage could warn them, they knew that something was wrong and had already escaped.

Clang --

The blood-red heaven-destroying sword broke out of the hole and radiated a sharp sword radiance.

The pair of black eyes appeared once again and stared at the Huang Grand Sage.

The Huang Grand Sage felt a chill run down his spine.

When the heaven-destroying sword was still in its embryonic form, it could easily kill eight great sage-level powerhouses. Now that it was born, its power had increased by more than ten times?

Even though he was a top-notch great sage, it was still difficult for him to withstand the power of the heaven-destroying sword!

Now that the heaven-destroying sword was staring at him, the Huang Grand Sage's heart skipped a beat. He roared, "Emperor, please save me!"

To be honest, the absolute heaven sword had already turned into a streak of blood-red light as it stabbed towards the Huang Grand Sage.

There were very few people in the world who could block this attack!

Clang --

Just as the sword light descended, the absolute heaven sword above the gap also unleashed a powerful attack.

Half of the carefree emperor's avatar held the imitation emperor ruler in his hand as he descended from the sky. The nine-colored light that he drew out accurately struck the sword light that the absolute heaven sword had turned into.

However, what was shocking was that.

The heaven-severing sword's momentum was not affected at all. Instead, the nine-colored light that struck its body collapsed.

The avatars of the carefree emperor, who were attacking, flew backward along with the ruler of heaven. They crashed into the walls of the residence and even created a huge hole.

One could see how terrifying this attack was!

The heaven-severing sword seemed to have locked onto the Huang Grand Sage. It was filled with hatred as it stabbed straight at him.

The Huang Grand Sage screamed in panic. In the midst of danger, he took out a jade-colored shield and placed it behind him.

Ding --

An exciting scene appeared. The heaven-destroying sword, which had always been successful, was successfully blocked by the jade-colored shield!

The Huang Grand Sage was glad that he had escaped this calamity.

That Shield was a top-notch defensive dao artifact that had been crafted by the ancestors of the famous sword Saint tribe. It was comparable to a quasi-saint artifact.

It had been used as the heritage defensive magic treasure of the famous sword Saint tribe for generations.

In the entire nine-star civilization, there were only a few defensive dao artifacts that could be compared to it.

However, before the Huang Grand Sage could be happy, the shield let out a cracking sound.

A clear crack appeared.

Not Good!

The Huang Grand Sage took advantage of the short period of time when he was defending to escape to the exit.

Kacha --

The jade-colored shield finally could not hold on any longer. It was still completely shattered.

The heaven-severing sword carried a strong sense of grievance. It turned into an extreme blood-red light and stabbed at the Huang Grand Sage's back.

The Huang Grand Sage was extremely shocked. His eyes were filled with despair!

It's over!

But!

Perhaps it was not his destiny to die. Just as the heaven-severing sword was about to stab the Huang Grand Sage to death, the blood-red light on the surface of the sword started to fluctuate unsteadily.

The blood-red light gradually reverted back to an emerald-green color.

The two colors continued to change in the heaven-destroying sword as if they were fighting for control of the sword.

In the end, the emerald-green light continued to dominate the entire sword. Only the hilt of the sword was a blood-red color.

The emerald-green color represented the sword spirit of the heaven-destroying sword.

It was born from the souls of the eight grand sages. It was extremely noble.

The remaining blood-red color should be the unwillingness of the wind grand sage and the blood demon.

Because the heaven-destroying sword was flawed, it gave the two of them a chance to retain their consciousness.

The sword spirit could not destroy the remaining consciousness, and the consciousness could no longer control the heaven-destroying sword.

However, their existence deterred anyone who wanted to control the heaven-destroying sword.

Anyone who held onto the blood-red hilt would be attacked by the remnants of their consciousness. They would lose their rationality and be controlled by them.

Clang --

The heaven-destroying sword was inserted into the ground and silence was restored.

The Huang Grand Sage and the rest were still gasping for breath. They had yet to recover from their earlier shock.

It was too dangerous.

He was just a little bit away from being killed by the heaven-destroying sword.

Luckily, the sword spirit was strong enough.

After a while, the Huang Grand Sage and a few other grand sages made sure that the heaven-destroying sword had stabilized. Then, they took out the scabbard and carefully put the sword back into the scabbard.

However, they did not dare to touch the hilt of the heaven-destroying sword.

"Emperor, I'll leave the remnant consciousness in this sword to you."The Huang Grand Sage handed the heaven-destroying sword to the emperor's avatar.

The emperor avatar nodded his head slightly, "Although it's a little troublesome, it's not a problem to get rid of the remnant consciousness."

"You guys did a good job."The Carefree Emperor Avatar praised.

The Huang Grand Sage heaved a sigh of relief. If the emperor did not blame them, that would be great.

Next, they just had to capture the few thieves who stole their primordial energy!

"I'll be leaving first."The Carefree Emperor Avatar held the heaven-destroying sword in his hand as he flew into the sky and returned to the Holy Mountain!

However.

Just as he was about to leave through the gap, a pitch-black shadow suddenly shot out from the ground, igniting the clone of the carefree emperor.

"Ah! How did this thing get out?"In just an instant, the clone of the carefree emperor was set on fire.

The half of its body that it had painstakingly pieced together was immediately destroyed and melted.

It cried out in pain, and its tone was filled with great fear.

Its original body might not be afraid of this fire, but it was only a clone now, and more than half of its body was damaged.

The clone made a prompt decision and raised the emperor's ruler, slashing viciously at its lower body.

Kacha --

The ignited lower body was immediately abandoned, while the upper body held the Absolute Heaven Sword and rushed out at high speed.

However, not long after he rushed out, the Black Shadow chased after him again.

In the endless void, the carefree emperor could be heard roaring furiously. Then, his voice gradually died down.

All that was left was some burning debris that fell to the ground.

The pupils of the famous sword Saint tribe and the rest shrunk to the extreme.

That Black Shadow, could it be..

The Huang Grand Sage's entire body trembled. He felt even more terrified than when he faced the heaven-destroying sword. As he looked at the ashes that fell down, he immediately roared, "All the members of the famous sword Saint tribe, evacuate! Immediately!"

The Heavenly Sword chased after the Huang Grand Sage because there were remnants of the wind grand sage and the blood demon inside.

It would only harm the Huang Grand Sage and a few other grand sages.

However, that black shadow was different.

It had been suppressed by the famed Swordmaster tribe for many eras. It was already filled with hatred towards the famed swordmaster tribe.

Now that it had escaped, the first thing it wanted to do was destroy the famed swordmaster tribe!

When they heard this, the members of the famous sword Saint Tribe started to flee, their faces filled with panic.

The birth of the heaven-destroying sword was truly a disaster.

First, the heaven-destroying sword failed and almost killed the Huang Grand Sage. Now, it released that terrifying fire of calamity.

The Huang Grand Sage and the other grand sages left their tribe members behind and escaped first.

In a corner of the mansion, Mo Heng helped his son, who had lost his blood essence, and hid in a secret chamber that he had prepared for a long time.

That secret room was personally made by him, and it was indestructible.

The refining process lasted for half a lifetime, and the materials used were all secretly saved from the refining process.

Because he had long expected that when the absolute heaven sword was born, there would be chaos.
